Total State Funds Requested (must equal total from question #6)			

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate Local Funding Initiative Request Fiscal Year 2023-2024

LFIR # 1988

Serve the underserved and uninsured persons suffering from Substance Use Disorders in Broward County, FRCO Respite is currently turning away close to 100 participants monthly who want services.

b. What activities and services will be provided to meet the intended purpose of these funds?

FRCO Respite provides a short-term safe place for anyone experiencing substance use disorder and/or homelessness to reside and get linked to appropriate life saving services

c. What direct services will be provided to citizens by the appropriation project?

Participants are given a safe place to reside, three meals, in-person recovery support groups, linkage recovery support services; i.e.: mental health assessments, Medication Assisted Treatment induction programs, STI Testing and Treatment, inpatient recovery programs and /or outpatient programs and much more.

d. Who is the target population served by this project? How many individuals are expected to be served?

Target population includes persons who are unemployed, suffering from poor mental health, economically disadvantaged, substance use, currently or formerly incarcerated and substance use offenders.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Consumer safety. Stigma reduction. Reduce substance use. Reduce recidivism. Divert from the criminal justice system. By removing individuals with substance use disorders from homelessness environments and supporting their needs with crisis intervention, we can improve the communities' stigma towards substance use disorders and homelessness. By placing individuals with substance use disorder in a safe place, Broward County is able to provide proper linkage to recovery support services resulting in better outcomes and freeing up otherwise inundated resources and agencies like law enforcement and hospitals. Performance measures will be utilized through community surveys, readmission rates, number served, etc.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failure to utilize the funds in the method outlined in this report would result in return of funds to the state.
