b. What activities and services will be provided to meet the intended purpose of these funds?

The anticipated outcome of this project is a Fire Station that is fully hardened and more resistant to the types of damage that result from Hurricane Force winds. All upgrades will be required to meet the standard for an "Essential Facility" and Risk Category 4 defined by the Florida Building Code.

c. What direct services will be provided to citizens by the appropriation project?

Fire Station 2 is critical to the community it serves and the neighborhoods nearby. Station 8 services the Coconut Grove neighborhood. Many of the citizens served this fire station are elderly and rely heavily on the station for their medical needs. Fire Station 8 houses 4 apparatus. Those apparatus include 2 EMS firefighting rescue units, 1 engine, and 1 Quint

d. Who is the target population served by this project? How many individuals are expected to be served?

The entire service area of Fire Station 8, greater than 10,000 people.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Protect the general public from harm- Once completed the facility will resistant to water damaged caused by wind driven rain, structural damage caused by wind uplift and flying debris, power surge damage to the electrical and communications systems, and be able to maintain livable conditions inside the structure before, during, and after a storm. The method for measuring this outcome is that the building will meet current building code when project is complete.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Revocation of funding.
