

The Florida Senate
COMMITTEE MEETING EXPANDED AGENDA
APPROPRIATIONS SUBCOMMITTEE ON CRIMINAL AND
CIVIL JUSTICE
Senator Bean, Chair
Senator Bracy, Vice Chair

MEETING DATE: Wednesday, January 25, 2017
TIME: 10:00 a.m.—12:00 noon
PLACE: *Mallory Horne Committee Room, 37 Senate Office Building*

MEMBERS: Senator Bean, Chair; Senator Bracy, Vice Chair; Senators Baxley, Clemens, and Perry

TAB	BILL NO. and INTRODUCER	BILL DESCRIPTION and SENATE COMMITTEE ACTIONS	COMMITTEE ACTION
1	Introduction of Agency Heads/Commissioners and Brief Discussion of Priority Initiatives		Presented
2	Presentation on the State Court System's Technology Comprehensive Plan		Presented
3	Update on the Backlog of Processing Sexual Assault Kits		Presented
Other Related Meeting Documents			

FLORIDA PROSECUTING ATTORNEYS ASSOCIATION

FY2017-18 Budget Request Summary

Senate Appropriations Subcommittee On Criminal And Civil Justice January 25, 2017

**20 State Attorneys
2100 Assistant State Attorneys
Nearly 1,200,000 Criminal Arrests**

**Florida's Prosecutors Handle Virtually 100% Of Criminal Cases,
Referrals That Do Not Become Cases, And Related Matters**

**Florida's Prosecutors Do So Against Public Defenders, Regional
Conflict Counsel, Capital Collateral Counsel, The Private Bar, And Pro
Se Litigants**

PRIORITY NEEDS

- 1. Salary Enhancement To Improve Retention**
- 2. Dedicated Positions To Handle Public Records**
- 3. Dedicated Positions To Handle Problem Solving Courts**
- 4. Additional resources To Handle Capital And Juvenile Re-Sentencing Proceedings**

**Estimated Total GR To Meet All Needs:
\$28M**

**Total FPAA Request for FY 2017-18:
\$7M**

FLORIDA PUBLIC DEFENDER ASSOCIATION BUDGET PRIORITIES

FY 2017/18

1. ASSISTANT PD SALARY PARITY WITH ASSISTANT SAs (ALL Circuits, Trial/Appellate)

- APDs earn an average of **\$4030 less per year** than ASAs doing the same work
- Disparity increases with years of service (ex. 11-15 years disparity = \$11,217)
- **\$4030** (salary increase) + **\$1,185** (fringe benefits) = **\$5215**
- **\$5215** x **1544** (filled APD FTEs as of June 30, 2016)= **\$8,051,960 GR**
- **GR** is requested because ICDTF and PD Revenue Trust Funds do not have the recurring cash necessary to fund this issue

2. GRAHAM/MILLER WORKLOAD—CIRCUIT SPECIFIC (17 Circuits requesting)

- Recent court decisions and legislation have significantly increased PD workload by requiring resentencing of juvenile offenders who were sentenced to life or the functional equivalent of life. Over 1000 cases statewide already identified as requiring resentencing pursuant to all the court decisions (Miller/Graham/Atwell/Kelsey)
- Additionally, following the rationale in the case law, similar sentencing hearings will be required in all future cases in which a juvenile is facing life or the functional equivalent of life (and potentially, depending on court rulings, if facing any mandatory sentence).
- These resentencing and future sentencing hearings are akin to capital cases, in that they require presentation of extensive mitigation based on investigation of the child's family, social, educational, institutional and medical history, review of transcripts of prior hearings/trial and will include the need for expert testimony.
- Experienced staff is required in these cases. ABA Guidelines: 2 attorneys, 1 investigator, 1 mitigation specialist assigned to each case.
- **FTEs = 59 GR: \$4,480,187 TRUST: \$447,717 = \$4,927,904**
 - Due Process costs associated with cases appear in JAC budget—approx.\$10-15K per case

3. MENTAL HEALTH WORKLOAD-CIRCUIT SPECIFIC (16 Circuits requesting)

- PDs are experiencing increased workload in the area of specialty courts including Mental Health/Substance Abuse Courts, Veterans Courts, and in the area of Baker Acts and Civil Commitments due to intellectual disability. Specialized and experienced APDs/staff are needed to give effective representation.
 - Ex: PD8 30% increase in Baker Acts
- 16 Circuits **FTE: 38.50 GR: \$3,088,947 TRUST: \$638,097 = \$3,727,044**

4. 5% SALARY INCREASE FOR ALL PD EMPLOYEES (ALL Circuits, Trial/Appellate)

- No across the board pay increases since 2006 and 3% decrease due to contribution to retirement
- **GR: \$8,270,315**

APPEALS LEGISLATIVE PRIORITIES (5 Appellate offices-Circuits 2,7,10,11,15)

- **Issues #1 (Salary Parity) and #4 (5% salary increase), above**
- **Appellate Workload-Circuit Specific:**
 - **4 Circuits** requesting **FTE: 33 GR: \$2,403,926**
 - Additional APDs/staff needed to deal with the backlog of cases which causes delay in the process
 - Reduce caseloads of individual attorneys, which at **38** appeals/year per APD over last 2 years exceeds national standards of **25** appeals/year per APD (**32% above national standards**)
- **E-Filing Mandate—Circuit Specific**
 - **GR: \$57,789 FTE: 1**
 - Staff and equipment to print paper copy of record on appeal
 - Supreme Court mandates records on appeal be provide electronically by clerks
 - PD must provide client with record on appeal at conclusion of appeal
 - Paper record printed because DOC will not permit electronic viewing
 - **Idea:** DOC should allow electronic access or be responsible for printing paper copy
- **Reauthorization of non-recurring funding--Circuit Specific:**
 - **3 Circuits** requesting **GR: \$311,250**
 - Requesting that **non-recurring** GR appropriated in FY 16/17 be re-appropriated as **recurring** GR to continue to reduce backlog of case, prevent future backlog and to maintain current staffing levels

“BACK OF THE BILL”, PROVISIO AND OTHER ISSUES

- Re-appropriation of FPDA Technology Issue—\$313,691
- Funding for Coordination Office (FPDCO)--\$450,000
- Authority for the Payment of Florida Bar Dues—Proviso
- Circuit Specific Issues per individual circuit LBRs

State Courts System

Trial Court Technology FY 2017-18

The judicial branch requests **\$25.4 million** in fiscal year 2017-18 to address the statewide technology needs of the trial courts, including:

- **Hardware and Software to Receive and Manage Case Files Electronically**
 - **Functional Digital Court Reporting Systems**
 - **Remote Court Interpreting Equipment**
 - **Staff to Support Technology**
 - **Sufficient Bandwidth**
- **A Minimum Level of Technology Services in Communities Across the State**

This request is not designed to supplant county funding of court technology. It addresses funding gaps and provides a minimum level of technology services in each county.

I. Secure Case Management and Processing System

Funding Request: \$6,351,312

The Court Application Processing System (CAPS) provides judges and court staff electronic case file information needed to perform their adjudicatory function.

Current Environment: Judges and court staff face challenges using multiple systems to access electronic case files in real-time in order to address the specific case processing and resource management needs of the trial courts. Servers in use are well past recommended usable lifespan. The requested funding will build on the \$9 million investment in CAPS, purchased with resources from the National Mortgage Settlement. In addition, refresh and maintenance are needed to support the technology.

Benefits of Proposed Solution:

- Provides consistent access to and availability of court case file data across counties and judicial circuits.
- Allows courts to maximize the benefits of the statewide E-filing system.
- Provides complete, accurate, real-time information from multiple sources to judges, allowing for improved efficiency in judicial decision-making and reducing file movement between the clerk and court.
- Ensures judges can securely transmit court orders and other documents among clerks and litigants.
- Provides courts with disaster recovery systems to ensure continuity of operations.

II. Digital Court Reporting System

Funding Request: \$5,814,193

The Digital Court Reporting System includes audio and video hardware and software to support service delivery of recording the official court record.

Current Environment: Courts utilize outdated hardware and software to create a digital record of the proceedings, presenting the risk of system failure. Many circuits report that equipment and parts are no longer available and that manufacturers have ended technical support for models purchased over 10 years ago. This mission-critical equipment is in use 365 days a year, sometimes for over 8 hours per day.

Benefits of Proposed Solution:

- Provides continued capability to create the official court record.
- Allows for further expansion of digital court reporting equipment in courtrooms and hearing rooms.
- Improves access to court reporting services and allows for more timely access to transcripts and official records.

III. Remote Court Interpreting Technology and Bandwidth

Funding Request: \$3,627,691

Remote interpreting technology provides access to qualified interpreters remotely over a broader geographical area using audio/video technology, which allows pooling of limited resources for certified interpreters and provides a more consistent level of interpreting services across the state.

Current Environment: Nine circuits are participating in a regional pilot to assess the viability of remote interpreting technology for improving efficiencies as well as minimizing the rising cost of providing interpretation services in the trial courts. Expansion from the pilot stage to statewide implementation would occur over a three-year phased-in approach to ensure implementation success.

Benefits of Proposed Solution:

- Allows circuits to maximize existing resources across a single county with multiple courthouses, using localized remote interpreting.
- Allows for cost containment in interpreter staff and contractor expenses.
- Creates the potential for expansion to utilize this technology platform in expert witness testimony.
- Allows for additional bandwidth needed to accommodate remote interpreting, as well as e-filing, increased web-based services, and increased digital traffic.

IV. Support for Minimum Level of Technology

Funding Request: \$9,680,543

Support for a minimum level of technology services includes core function capabilities for smaller counties, and skilled staff to support court-specific systems in all counties and judicial circuits.

Current Environment: Technology services vary across counties and circuits based on the county's ability to provide funding for needed services. Multi-county circuits have difficulty sharing resources across county boundaries and many technology initiatives require dedicated staff support. Circuits must often pay costly outside vendors to support audio equipment. Citizens in different counties may not have comparable access to core services.

Benefits of Proposed Solution:

- Ensures citizens receive access to a consistent level of minimum court technology services, regardless of geography.
- Provides courts with dedicated technology staff to perform circuit-wide support on state-owned hardware and software, resulting in cost savings.
- Allows court staff to maintain a skill set that keeps pace with evolving technology and ensures technology investment is wholly supported throughout the full life cycle.

Critical Trial Court Technology 2017-18 Budget Needs

**Senate Criminal and Civil Justice
Appropriations Subcommittee
January 25, 2017**

Trial Court Technology Strategic Plan 2015-2019

Today, technology is no longer a ‘luxury’ or ‘add-on’ to existing resources; it is inherent and inextricably connected to the daily operations of the judiciary.

Accessible · Fair · Effective · Responsive · Accountable

Elements of Trial Court Technology LBRs

- **Case management and processing** – allows judges and staff to view and process cases electronically
- **Digital court reporting** – creation and preservation of the official court record
- **Minimum technology level** – provides critical-need technology and staff to maintain court operations
- **Remote court interpreting** – technology to allow interpreters to provide service remotely

Case Management System Gives More Judges Access To Efficiencies and Promotes Accountability

Judge Robert Roundtree Jr.

8th Judicial Circuit

Trial Court Technology Helps Access to Justice, Cost Containment

- Effective and secure management of cases to promote timely resolution of disputes
- Accurate recording of official court proceedings
- Core technology services made available regardless of where a person lives
- Ready access to court interpreting services for non-English speakers
- Performance and court activity data for use in funding and policy decisions
