FAFSA Financial Aid Data Overview
January 31, 2012

FAFSA

- Free Application for Federal Student Aid (FAFSA)
 - Used for all federal aid
 - Pell Grants, Supplemental Educational Opportunity Grant (SEOG), Federal Work-Study Program
 - Loans (subsidized & unsubsidized) and PLUS
- FAFSA informs students on the application that States and/or Colleges may use their information for other purposes

Notes to Students

Found on the FAFSA

- Most states and colleges use information from the FAFSA to award Non-federal aid...they will determine if you may be eligible to receive state or institutional aid
- Colleges use the FAFSA Expected Family Contribution (EFC) to prepare a financial aid package
- By submitting the FAFSA, you are giving your state financial aid agency permission to verify any statement on the FAFSA and to obtain IRS information for all persons required to report income on the FAFSA

Florida uses FAFSA data

- To Meet Eligibility for Need Program Awards
 - Florida Student Assistance Grants (FSAG)
 - Florida Work Experience Program (FWEP)
 - Mary McLeod Bethune Scholarships (MMB)
 - Jose Marti Scholarship Challenge Grants (JM)
 - Rosewood Family Scholarships (RFS)
 - First Generation Matching Grants (FGMG)
- New 2011-12 – Required to Meet Eligibility for Merit and Tuition Assistance Program Awards
 - Florida Bright Futures Scholarships (BF)
 - Florida Resident Access Grants (FRAG)
 - Access to Better Learning and Education Grants (ABLE)

Florida's Universities Compared to the Top- Ranked American Research Institutions

What are the Characteristics of Research Universities?

In general, research universities

- have high quality undergraduate student bodies;
- have faculty who win national and international awards for distinction and recognition by their peers;
- produce large numbers of doctoral graduates as part of their research commitment;
- produce large volumes of quality research; and
- have engaged alumni and private supporters who contribute annually and whose gifts build endowments.

Overview of University Comparisons

- Carnegie Foundation for Advancement of Teaching
 - Classification of universities
- Association of American Universities (AAU)
 - Membership by invite only—includes 61 private and public institutions
 - Currently, the University of Florida is the only state university in Florida that is a member
- The Center for Measuring University Performance
 - *The Top American Research Universities (TARU)*

Doctoral/Research Universities	Florida A&M University University of West Florida
Master's Colleges and Universities (larger programs)	University of North Florida Florida Gulf Coast University
Baccalaureate Colleges—Arts & Sciences	New College of Florida

Association of American Universities

- The Association of American Universities (AAU) is an association of leading comprehensive research universities distinguished by the breadth and quality of their programs of research and graduate education
 - Includes 59 U.S. and 2 Canadian public and private research universities
 - Membership in the association is by invitation
 - The association maintains a standing Membership Committee, which periodically evaluates both non-member universities for possible membership and current members for continued membership

The Center for Measuring University Performance

Top American Research Universities (TARU)

- The Center publishes an annual report, *The Top American Research Universities (TARU)*, which provides analysis and data useful for understanding research university performance
 - The Center classifies universities into groups in accordance with nine institutional characteristics or measures
 - Institutions with a certain level of federal research expenditures and that fall within the top 25 on at least one of the nine measures fall into the Center's definition of the top research universities

University Technology Transfer

Research Commercialization

- Florida's public universities have created technology transfer offices to facilitate the commercialization of faculty research
- Technology transfer offices help faculty
 - disclose inventions;
 - assess patentability and marketability of the technologies;
 - file patents; and
 - license technologies to private companies

Several Standard Measures Are Used to Evaluate Technology Transfer

- The Association of University Technology Managers annually surveys U.S. institutions to gather information on technology transfer program performance
- Data published by the association include several important measures
 - Amount of licensing income
 - Number of licenses executed
 - Number of U.S. patents issued
 - Number of start-up companies formed

Florida's Public University Technology Transfer Offices Facilitate Commercialization

Institution	Total Research Spending	New Patent Applications	U.S. Patents Issued	Total Active Licenses	Licenses Executed	Licensing Income	Start-Up Companies Formed	Licensing Income as a Percentage of Total Research Spending

Legislature Has Taken Additional Steps to Support Research Commercialization

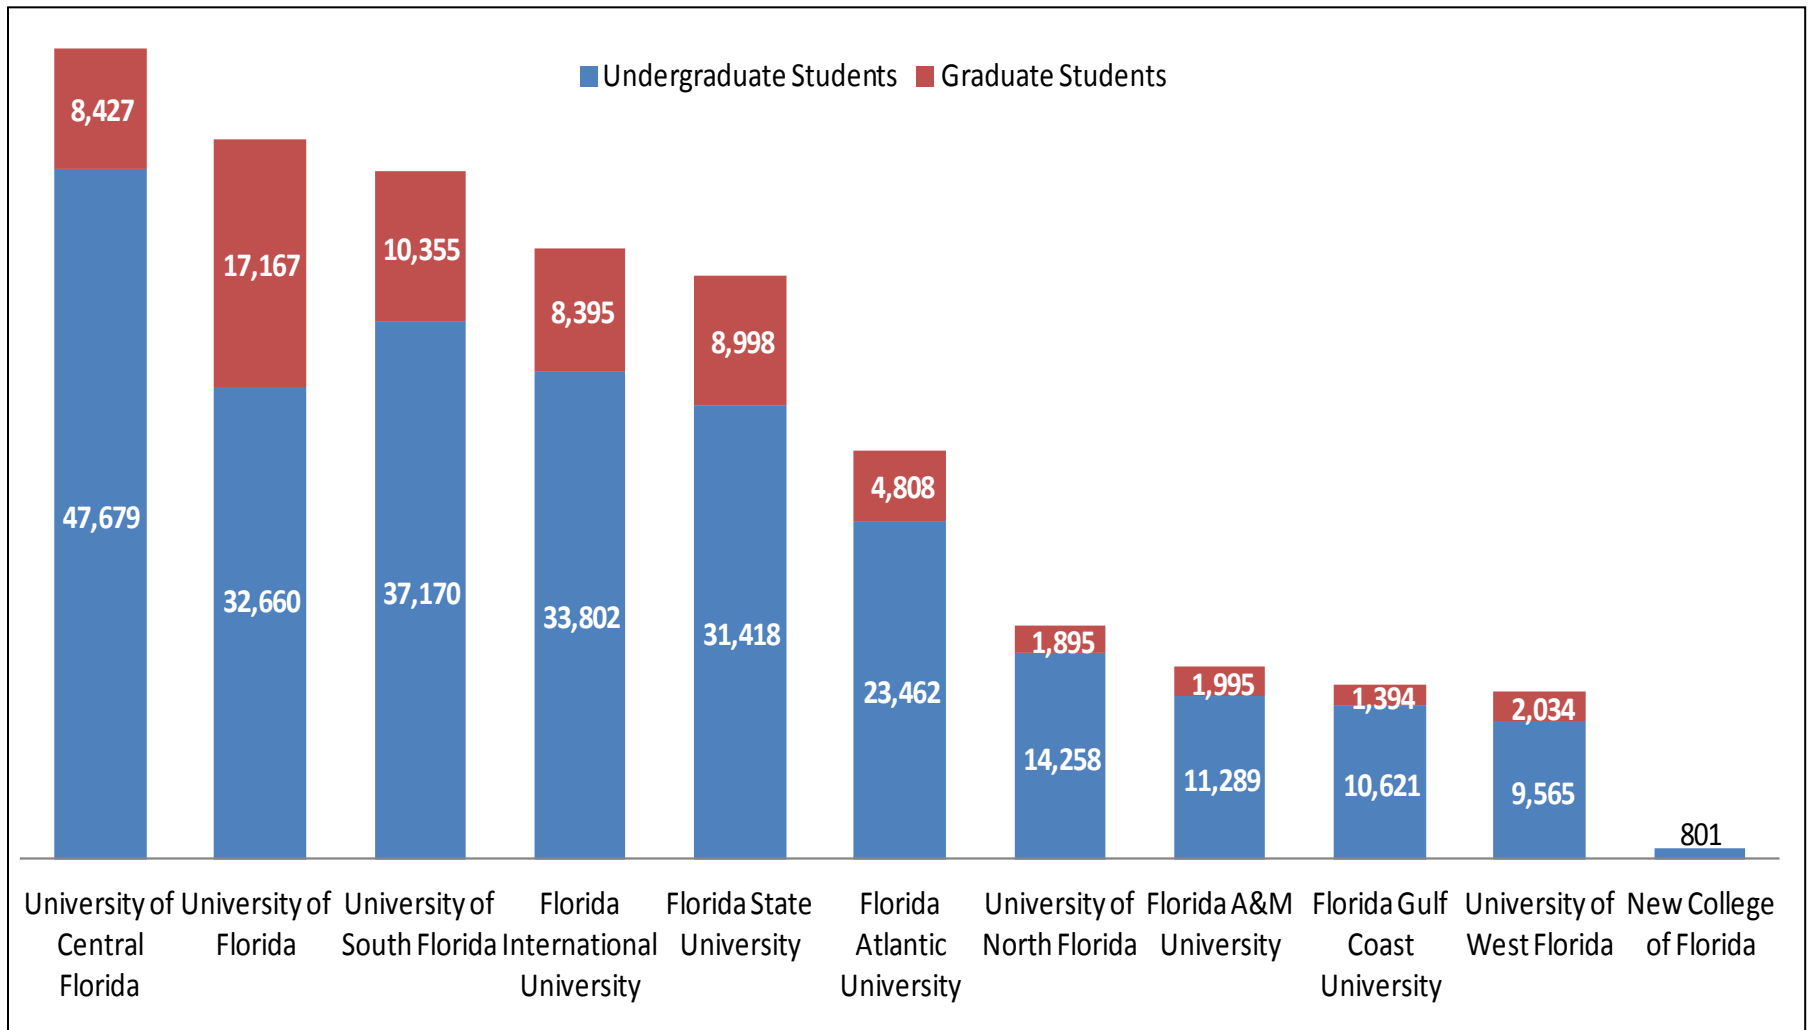

- The 2007 Legislature created the Institute for the Commercialization of Public Research to support the commercialization of products developed by universities and colleges, research institutes, and publicly supported organizations in the state
- In 2011, the Institute's Research Commercialization Matching Grant Program awarded \$2.7 million to 13 companies

Student Highlights

Summary

- The overall size (student enrollment) of Florida's universities varies greatly, and some universities have very few graduate students
- The universities serve students who come in with varying levels of academic preparation and achievement
- Each university serves a different mix of undergraduate students
 - Race/ethnicity and gender
 - Student age
 - Transfer students from the State College System

FLORIDA A&M UNIVERSITY

Mission

Florida Agricultural and Mechanical University (FAMU) is an 1890 land-grant institution dedicated to the advancement of knowledge, resolution of complex issues, and the empowerment of citizens and communities. The University provides a student-centered environment consistent with its core values. The faculty is committed to educating students at the undergraduate, graduate, doctoral, and professional levels, preparing graduates to apply their knowledge, critical thinking skills, and creativity in their service to society. FAMU's distinction as a doctoral/research institution will continue to provide mechanisms to address emerging issues through local and global partnerships. Expanding upon the University's land-grant status, it will enhance the lives of constituents through innovative research, engaging cooperative extension, and public service. While the University continues its historic mission of educating African Americans, FAMU embraces persons of all races, ethnic origins, and nationalities as life-long members of the University community.*

Vision

FAMU will be internationally recognized as a premier land-grant and research institution committed to exemplary teaching, research, and service preparing transformational graduates with high ethical values dedicated to solving complex issues impacting our global society.*

NEW COLLEGE OF FLORIDA

Mission

New College of Florida offers an undergraduate liberal arts education of the highest quality in the context of a small, residential public honors college with a distinctive academic program which develops the student's intellectual and personal potential as fully as possible; encourages the discovery of new knowledge and values while providing opportunities to acquire established knowledge and values; and fosters the individual's effective relationship with society.*

Vision

New College of Florida, the 4-year residential liberal arts honors college of the State of Florida, preserves its distinctive mission as a residential liberal arts honors college. To maintain this mission, New College of Florida has the following goals: to provide a quality education to students of high ability who, because of their ability, deserve a program of study that is both demanding and stimulating; to engage in undergraduate educational reform by combining educational innovation with educational excellence; to provide programs of study that allow students to design their educational experience as much as possible in accordance with their individual interests, values, and abilities; and to challenge undergraduates not only to master existing bodies of knowledge but also to extend the frontiers of knowledge through original research.

New College pursues these goals through highly selective admissions, an individualized and intensive "academic contract" curriculum, frequent use of individual and small group instruction, an emphasis on student/faculty collaboration, a required senior thesis or project, and innovative approaches to the modes of teaching and learning.*

UNIVERSITY OF FLORIDA

Mission

The University of Florida (UF) is a public land-grant, sea-grant, and space-grant research university, one of the most comprehensive in the United States. The University encompasses virtually all academic and professional disciplines. It is the largest and oldest of Florida's eleven universities, a member of the Association of American Universities, and has high national rankings by academic assessment institutions. Its faculty and staff are dedicated to the common pursuit of the University's threefold mission: teaching, research, and service. UF belongs to a tradition of great universities. Together with its undergraduate and graduate students, UF faculty participate in an educational process that links the history of Western Europe with the traditions and cultures of all societies, explores the physical and biological universes, and nurtures generations of young people from diverse backgrounds to address the needs of the world's societies. The University welcomes the full exploration of its intellectual boundaries and supports its faculty and students in the creation of new knowledge and the pursuit of new ideas. Teaching is a fundamental purpose of this University at both the undergraduate and graduate levels. Research and scholarship are integral to the educational process and to the expansion of our understanding of the natural world, the intellect, and the senses. Service reflects the University's obligation to share the benefits of its research and knowledge for the public good. The University serves the nation's and the state's critical needs by contributing to a well-qualified and broadly diverse citizenry, leadership, and workforce. The University of Florida must create the broadly diverse environment necessary to foster multi-cultural skills and perspectives in its teaching and research for its students to contribute and succeed in the world of the 21st century. These three interlocking elements span all the University's academic disciplines and represent the University's commitment to lead and serve the State of Florida, the nation, and the world by pursuing and disseminating new knowledge while building upon the experiences of the past. The University aspires to advance by strengthening the human condition and improving the quality of life.*

Vision

UF aspires to join the ranks of the nation's top public research universities. The best universities are aided by careful planning; a commitment to excellence by faculty, staff, students, alumni, and donors; and by a determination to invest in areas that enhance quality. It is this commitment to academic excellence and the resulting achievements that will lead to the University's recognition as one of the top public research universities.*

UNIVERSITY OF SOUTH FLORIDA

Mission

As Florida's only multi-campus university system, the University of South Florida is dedicated to adding value regionally, state-wide, nationally, and globally through enhancing access to higher education; advancing research which benefits society; contributing to regional unification; leveraging distinctive regional advantages; promoting partnership opportunities; assuring academic program quality; and providing consistently high quality support programs and services.*

Vision

The USF System envisions itself as a leading multi-campus system of four separately accredited institutions with distinct and complementary missions that is a model for the next generation of university systems for Florida and nation.*

UNIVERSITY OF WEST FLORIDA

Mission

As the only university in Northwest Florida, University of West Florida (UWF) combines the advantages of a collegiate culture with the capacity for high quality scholarship and graduate programs. Dedicated to helping students realize their full potential, UWF favors small classes with fully qualified professors who deliver personalized, caring, and innovative education at both undergraduate and graduate levels. While UWF officially maintains the status of a moderate-sized, regional comprehensive university, many UWF programs and faculty members seek and achieve national prominence. UWF's research enterprise emphasizes applied research, simultaneously creating opportunities for student engagement and growth. By pursuing and nurturing mutually beneficial community partnerships, UWF enhances the educational, cultural, and economic development of the region and beyond.*

Vision

UWF aspires to greatness by empowering each individual it serves with knowledge, skills, and opportunity to contribute responsibly and creatively to a complex world and by fulfilling its promise as the intellectual center of Northwest Florida.*
