11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

Sorrento Avenue (SR 46) is anticipated to be transferred to Lake County as part of the Wekiva Parkway project. The Complete Streets project will provide improved access for all road users in Sorrento and Mt. Plymouth. The project will also meet the needs of the local business district by providing on-street parking and way finding signs. Roundabouts are included in the proposed corridor plan. The corridor begins at Orange Avenue and runs east to CR 46A.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

The requested funds will be utilized to design a Complete Streets Corridor that will result in safer access for residents and visitors to the homes and businesses along this corridor. The expected impacts of the transfer of Sorrento Avenue to Lake County will allow for the corridor to become more of a downtown area.

c. What are the direct services to be provided to citizens by the appropriations project?

A Complete Streets project with roundabouts, sidewalks, crosswalks, a trail, on-street parking, curbs, gutters, and drainage improvements and turn lanes.

d. Who is the target population served by this project? How many individuals are expected to be served?

All citizens and businesses in the region.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefits are improved transportation conditions through safer access to homes and businesses (reduction in the number of crashes and severity), increased economic development and activity (results of increased revenue to CRA), and improved storm water management with an increase in acres of roadway with direct discharge (evaluation of acreage now treated for storm water discharge).

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Standard contract penalties.

12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the
