11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

This appropriations request for \$1,548,000 would add additional capacity to the Town's drainage system and reduce flooding after rain events.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

The funds will be used to replace and upsize stormwater conveyance line, install pressurized drainage wells, and construct two drainage pump stations.

c. What are the direct services to be provided to citizens by the appropriations project?

The upgrading of the storm water drainage system will provide a considerable reduction in flooding for the residents of the Town.

d. Who is the target population served by this project? How many individuals are expected to be served?

The residents of the Town of Surfside, in particular those that suffer from consistent flooding near Abbott Avenue.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Additional stormwater capacity by the Town's stormwater system and significant reduction in flooding in the Town of Surfside.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Work to be performed on Contractor's time/cost if delays or performance issues occur at the fault of the Contractor.
