**11. Program Performance:**

**a. What is the specific purpose or goal that will be achieved by the funds requested?**

Streets will have less standing water and garages and homes in the subdivision will not be flooded.

**b. What are the activities and services that will be provided to meet the intended purpose of these funds?**

Draining water from the subdivision will allow residents to have less impact from rain fall and high tide events.

**c. What are the direct services to be provided to citizens by the appropriations project?**

N/A

**d. Who is the target population served by this project? How many individuals are expected to be served?**

The target population is a residential subdivision that has direct impact from rainfall events and water intrusion from high tide. There are approximately 100 homes and 300 people in this area.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The streets will have less standing water so residents can access the roadways to their properties and not have water intrude into their homes and garages. The outcome may be measured by inspection of streets during rainfall events and high tides. Additionally, counting the number of complaints from residents with flooded property.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?**

Return fund to the State.

**12. The owner(s) of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owner(s) of the facility and the entity.**

They are one in the same.
