11. Program Performance:

a. What is the specific purpose or goal that will be achieved by the funds requested?

The goal of the program is to expand access to audiology services and screenings in rural and underserved areas, and to provide local access to high-quality auditory-oral early intervention services for children who are deaf ages birth to three who reside in the State of Florida to facilitate the development of foundational listening and spoken language skills so that every child with hearing loss has the opportunity to learn to listen and talk.

b. What are the activities and services that will be provided to meet the intended purpose of these funds?

Activities and services that will be provided for eligible children will include hearing screenings, evaluations, auditory-verbal and LSLS therapy, parent-infant and toddler groups, and tele-therapy, as well as

parent/professional training and mentoring about listening and spoken language development and technology such as cochlear implants and hearing aids.

c. What are the direct services to be provided to citizens by the appropriations project?

Direct services will be provided by audiologists, SLP's, and highly qualified Listening and Spoken Language Specialists to children with hearing loss ages birth to three in individual and small group listening and spoken language sessions, toddler groups, tele-therapy sessions, hearing screenings, evaluations, and parent/professional training and coaching sessions.

d. Who is the target population served by this project? How many individuals are expected to be served?

Up to 900 children who are deaf or hard of hearing ages birth to three whose families want an auditory oral approach to learning.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The program will provide families of infants and toddlers with hearing loss access to auditory oral intervention programs. To be offered throughout Florida, including rural and underserved areas, so that these children will have the opportunity to begin to learn listening and spoken language skills as soon as their hearing loss is identified. Formal evaluations will be used to document progress of IFSP goals and progress in auditory, speech, and language development. Parent surveys will be used to evaluate the overall program. Key components of the program are the mentoring and training of professionals working with children with hearing loss as well as parent coaching so that the parents will become the primary facilitators of their child's auditory, speech, and language development.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

We anticipate meeting/exceeding all deliverables and performance measures provided in the contract.
