1. Title of Project: South Bay Flood Control/Reduction and Waterway Management

2. Senate Sponsor: Kevin Rader

3. Date of Submission: 02/20/2019

4. Project/Program Description:

The City of South Bay has three problem areas within the South East area of the city that have experienced extensive flooding during heavy rainy season and making the roadways impassable during emergencies. This project will provide improvement to the storm water drainage system within the original section of South Bay. The mitigation measure reduces flooding, improves draining system performance and reduces future maintenance needs. In FY 2014/2015, a survey and analysis was performed to determine the most effective improvements to be made, estimate their cost, and rank them in order of priority. The South East area of the City was deemed a priority in relations to flood control and water management. This project is consistent with existing legal, regulatory and environmental/cultural framework. There are no local, regional, state, federal issues as the project affects the City infrastructure and does not have any conflicts with any stakeholder.
