11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Through replacement and restoration of the existing drainage system on NE 213th Street, continual flooding of the roadway during rain events will be greatly reduced or eliminated.

b. What activities and services will be provided to meet the intended purpose of these funds?

Project design, permitting and construction monitoring services from the City's engineering consultant and construction services to be awarded to the lowest responsible bid submitted.

c. What direct services will be provided to citizens by the appropriation project?

Elimination of standing water on the roadway and use of detours and Aventura Police Department presence to avoid hazardous conditions created during storm events. Consequently, a continuous safe travel way during storm events will be provided.

d. Who is the target population served by this project? How many individuals are expected to be served?

This roadway services upwards of 35,000 residents as well as a new, 1000-student high school.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The benefit will be the significant reduction or elimination of roadway flooding. The outcome will be measured through site visits, photos and reports to be generated by City staff following storm events.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

The City's standard contract provides for liquidated damages to be assessed to the contractor for not completing the project within the construction time frame outlined. In addition, a performance and payment bond is required from the awarded contractor.
