### 11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

Measurable results will include: 1) The establishment of the first and only residential crisis center (Baker Act receiving facility) for the children of south Miami Dade and Monroe Counties, with the capacity to serving up to 20 children nightly; 2) The integration of children's crisis services with CHI children's outpatient mental health and substance abuse services; 3) An anticipated 1,040 children annually will be treated with an anticipated 98% or 1,020 children effectively transitioning back with their families with a full set of treatment and support services; and 4) Increased capacity within the southern half of Miami-Dade and Monroe Counties to provide continuity of care for children with severe mental and emotional needs.

- b. What activities and services will be provided to meet the intended purpose of these funds?
  - 1) The construction of the 11,400 sq. ft. Children's Crisis Center. 2) Residents will receive care and treatment services from a licensed therapist trained in suicide assessment and crisis intervention. Intensive therapy that includes individual therapy, family therapy and a psychiatric evaluation with medication management, if necessary. 3) Staff will work with the child and parents/guardians to better understand the cause of the crisis, while teaching the child how to manage similar situations in the future by increasing healthy coping skills. 4) Upon admission, the mental health team will work to identify the individual needs of each family, while working together to create a detailed safety plan to help decrease the likelihood of future crises. 5) Each resident will be evaluated as to the current risk for harm to self or others and the appropriate level of care needed. 6) All residents will be provided with the continuity of care needed to facilitate a successful transition.
- c. What direct services will be provided to citizens by the appropriation project?
  - 1) Intensive therapy that includes individual therapy, family therapy and a psychiatric evaluation with medication management, if necessary. 2) Staff will work with the child and parents/ guardians to better understand the cause of the crisis, while teaching the child how to manage similar situations in the future by increasing healthy coping skills. 3) Upon admission, the mental health team will work to identify the individual needs of each family, while working together to create a detailed safety plan to help decrease the likelihood of future crises. 4) Residents will receive care and treatment services from a licensed therapist trained in suicide assessment and crisis intervention. 5) Each resident will be evaluated as to the current risk for harm to self or others and the appropriate level of care needed. 6) All residents will be provided with the continuity of care needed to facilitate a successful transition back into the community.
- d. Who is the target population served by this project? How many individuals are expected to be served?

An anticipated 1,040 children, ages 4-17, deemed a harm to self or others from south Miami-Dade and Monroe Counties will be served annually by this project.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Expected benefits and outcomes will include: 1) The establishment of the first and only residential crisis center serving up to 20 children nightly; 2) The integration of children's crisis services with CHI children's outpatient mental health and substance abuse services; 3) An anticipated 1,040 children annually will be treated with an anticipated 98% or 1,020 children effectively transitioning back with their families with a full set of treatment and support services; and 4) Increased capacity within the southern half of Miami-Dade and Monroe Counties to provide continuity of care for children with severe mental and emotional needs. Methodology of measurement will include Crisis Center psycho-social assessments, functional assessment instruments (CFARS, a DCF tool), and Baker Act monitoring data.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Community Health of South Florida has no suggested penalties; the standard penalties of the contracting agency would likely be sufficient.
