Local Funding Initiative Request

Fiscal Year 2020-2021

LFIR # 1641

1. **Project Title** Sweetwater - Northern Sweetwater Drainage Improvements Project2. **Senate Sponsor** Anitere Flores3. **Date of Request** 11/21/20194. **Project/Program Description**

The purpose of this project is to alleviate severe flooding in the subject area (Northern Sweetwater Area). The project consists of the installation of a stormwater drainage system along with accompanying piping structures, catch basins, junction boxes, exfiltration trenches, and potential stormwater forcemains, positive drainage pipes, asphalt overlay, and swale restoration. The system includes catch basins installed at lowest grade elevation within the road right-of-way, and connected by a series of drainage pipes. The proposed system would be designed to collect surface runoff within the City right-of-way of the area bound by NW 117th Ave to the West, NW 107th Ave to the East, NW 25th St to the North, and NW 14th St to the South.

5. **State Agency to receive requested funds** Department of Environmental ProtectionState Agency contacted? ☒ Yes ☐ No6. **Amount of the Nonrecurring Request for Fiscal Year 2020-2021**

Type of Funding	Amount
Operations	000
Fixed Capital Outlay	1,000,000
Total State Funds Requested	1,000,000

7. **Total Project Cost for Fiscal Year 2020-2021 (including matching funds available for this project)**

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	1000000	45.0 %
Matching Funds		
Federal	857,382	38 %
State (excluding the amount of this request)	224,756	10 %
Local	160,000	7 %
Other	00	0 %
Total Project Costs for Fiscal Year 2020-2021	2,242,138	100 %

8. **Has this project previously received state funding?** ☒ Yes ☐ No

If yes, provide the most recent instance:

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		
2017-18	00	224,756	1606A	No

9. **Is future-year funding likely to be requested?** ☐ Yes ☒ No

If yes, indicate nonrecurring amount per year.

11. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The goals are to meet the Miami-Dade Local Mitigation Strategy initiatives, mitigate flood and property losses, improve traffic safety for residents, and local services (police and fire rescue), and to keep the city from potentially losing revenues due to residents leaving the city. This is the final and essential stage of the stormwater Master Plan covering the residential area of the city.

b. What activities and services will be provided to meet the intended purpose of these funds?

Installation of a comprehensive stormwater drainage system and along with accompanying piping structures, catch basins, junction boxes, exfiltration trenches, and potential stormwater forcemains, positive drainage pipes, asphalt overlay, and swale restoration. The system includes catch basins installed at lowest grade elevation within the road right-of-way, and connected by a series of drainage pipes.

This system will remove stormwater from the City's roadways thereby Mitigating floods and property damage and losses, and it will improve traffic safety for residents, and local services (police and fire rescue), as well as those who commute through the area on a daily basis. It will also increase vehicular and pedestrian accessibility.

c. What direct services will be provided to citizens by the appropriation project?

Drainage, stormwater improvements, Mitigation of floods and property damage and losses, improved traffic safety for residents, commuters, and local services (police and fire rescue), and increased vehicular and pedestrian accessibility.

d. Who is the target population served by this project? How many individuals are expected to be served?

The many residents (20,000 approx), property owners, and business owners of the City of Sweetwater along with FIU, Keiser, URBE and San Ignacio University students and those who frequent the City's establishments, as well as those who commute through the City on a regular basis. Millions of people transit this area every year as it is home to the Dolphin Mall, Ikea, and several other highly frequented businesses and institutions.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Mitigation of stormwater flooding and property losses, improved traffic safety for residents, and local services (police and fire rescue), Increased vehicular accessibility (commercial and non-commercial) and pedestrian accessibility as well as increased commerce. The level of flooding in the area as a result of heavy rainstorms will be measured (in inches) before and after the project. The amount of time it takes for floodwaters to recede will also be measured before and after the project.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Cancellation of contract and payment for liquidated damages. The Contractor may also be prohibited from entering into business with the City again in the future for a certain period of time.
