11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

This project includes Federal, State and Local jurisdictions who are partnering to provide flooding relief to Overbrook area. The local affected community have endured flooding issues for over 25 years and are active advocates for a resolution.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Engineering Controls will be constructed to ensure that stormwater entering the affected are is controlled. This project will involve protection and conservation of wetlands and/or designed conservation areas. Mitigation of impacts will be a priority.

- c. What direct services will be provided to citizens by the appropriation project?

A reduction of flooding potential will protect residents from repetitive property loss and public health issues

- d. Who is the target population served by this project? How many individuals are expected to be served?

This project will involve protection and conservation of wetlands and/or designated conservation areas. Okaloosa County has a population over 200,000

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Current flooding events prevent ingress/egress into the area. One design objective will be to convey stormwater in a manner that allows for unfettered ingress/egress throughout the area. Outcome will be measured by inspection of roadways by County personnel during and after significant rainfall events.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?
