11. Program Performance

- a. What specific purpose or goal will be achieved by the funds requested?

New Fire Station will provide appropriate storage for rescue trucks, extraction equipment and fire safety equipment. Will also provide training opportunities for local firefighters/first responders.

- b. What activities and services will be provided to meet the intended purpose of these funds?

Community safety in the event of fire or natural disasters, CPR training and firefighter safety courses.

- c. What direct services will be provided to citizens by the appropriation project?

Adequately trained personnel and quicker response times to high volume call areas.

- d. Who is the target population served by this project? How many individuals are expected to be served?

Approximately 8000 residents within the Sneads Volunteer Fire Department response area (including 2 large State Correctional Facilities), and Interstate 10 coverage from mile marker 161-155. The traffic count for this is approximately 2000 vehicles per day.

- e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

New building would replace the 30 year old facility currently being utilized and would provide adequate storage for two fire trucks, one rescue truck with extrication equipment and one tanker truck. Improved response times. New training opportunities for firefighters/first responders.

- f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for in the contract?

Surety bond would be in place to cover the amount of the project in its entirety. The bond would be called if the performance standards were not being met.
