SUMMARY ANALYSIS

The Central Broward Water Control District (formerly known as the Napoleon B. Broward Drainage District) is an independent special district in Broward County created for the purpose of reclaiming the lands within its boundaries and to provide drainage and water management services.

The bill updates the boundaries of the district using more accurate survey methods, deletes obsolete language, and revises qualifications for commission candidates.

HOUSE PRINCIPLES

Members are encouraged to evaluate proposed legislation in light of the following guiding principles of the House of Representatives

- Balance the state budget.
- Create a legal and regulatory environment that fosters economic growth and job creation.
- Lower the tax burden on families and businesses.
- Reverse or restrain the growth of government.
- Promote public safety.
- Promote educational accountability, excellence, and choice.
- Foster respect for the family and for innocent human life.
- Protect Florida's natural beauty.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Current Situation

The Central Broward Water Control District

The Central Broward Water Control District (formerly known as the Napoleon B. Broward Drainage District) is an independent special district in Broward County created by special act for the purpose of reclaiming the lands within its boundaries and to provide drainage and water management services.¹ All prior special acts relating to the district were codified by ch. 98-501, L.O.F.

The boundaries of the district encompass over a 45 square mile area which includes 107 miles of canals and approximately 21,000 residents. The district has 12 employees. The district is governed by a board of commissioners consisting of six members elected on nonpartisan basis, by qualified electors residing within each district zone. The district is supported by a non-ad valorem assessment based on each acre or fraction thereof.

The district is subject to the applicable provisions of ch. 298, F.S., "Drainage and Water Control."

District Boundary Modification

Section 298.301, F.S., provides that when a water control district is created, or its authorities or boundaries amended, by special act, lands may be added to or deleted only through legislative modification of the special act.

Effect of Proposed Changes

The bill authorizes the district to provide flood protection services and updates the boundaries of the district using more accurate survey methods. While the district has the authority to construct, operate, and maintain roadways, the bill amends that authority to include rights-of-way and easements. The bill also deletes obsolete language by changing tax collector to revenue collector and freeholder to elector or landowner where appropriate.

Commissioners are required to reside in their respective zone for 90 days preceding the date of qualifying for nomination to office, instead of the current 30 days. The bill indicates that a vacancy will

¹ Ch. 61-1439, L.O.F.

occur upon a commissioner moving from his or her zone. The bill changes the commissioners' oath and filing requirements to that prescribed by law. In the event that there is a deadlock in selecting a new chair or vice chair, the existing chair and vice chair remain in office until successors are selected. In the absence of a chair or vice chair the most senior commissioner shall preside if a quorum is present.

B. SECTION DIRECTORY:

Section 1: Revises provisions of the district's charter.

Section 2: Provides an effective date of upon becoming law.

II. NOTICE/REFERENDUM AND OTHER REQUIREMENTS

A. NOTICE PUBLISHED? Yes No

IF YES, WHEN? January 9, 2009.

WHERE? In the *Sun-Sentinel*, a daily newspaper published in Broward County, Florida.

B. REFERENDUM(S) REQUIRED? Yes No
