

1                                   A bill to be entitled  
2           An act relating to environmental regulation; amending  
3           s. 125.022, F.S.; prohibiting a county from requiring  
4           an applicant to obtain a permit or approval from any  
5           state or federal agency as a condition of processing a  
6           development permit under certain conditions;  
7           authorizing a county to attach certain disclaimers to  
8           the issuance of a development permit; amending s.  
9           161.041, F.S.; providing conditions under which the  
10          department is authorized to issue such permits in  
11          advance of the issuance of incidental take  
12          authorizations as provided under the Endangered  
13          Species Act; amending s. 166.033, F.S.; prohibiting a  
14          municipality from requiring an applicant to obtain a  
15          permit or approval from any state or federal agency as  
16          a condition of processing a development permit under  
17          certain conditions; authorizing a municipality to  
18          attach certain disclaimers to the issuance of a  
19          development permit; amending s. 218.075, F.S.;  
20          providing for the reduction or waiver of permit  
21          processing fees relating to projects that serve a  
22          public purpose for certain entities created by special  
23          act, local ordinance, or interlocal agreement;  
24          amending s. 373.026, F.S.; requiring the department to  
25          expand its use of Internet-based self-certification  
26          services for exemptions and permits issued by the  
27          department and water management districts; amending s.  
28          373.326, F.S.; exempting certain underground injection

29 control wells from permitting requirements under part  
30 III of chapter 373, F.S., relating to regulation of  
31 wells; providing a requirement for the construction of  
32 such wells; amending s. 373.4141, F.S.; reducing the  
33 time within which a permit must be approved, denied,  
34 or subject to notice of proposed agency action;  
35 prohibiting a state agency or an agency of the state  
36 from requiring additional permits or approval from a  
37 local, state, or federal agency without explicit  
38 authority; amending s. 373.4144, F.S.; providing  
39 legislative intent with respect to the coordination of  
40 regulatory duties among specified state and federal  
41 agencies; encouraging expanded use of the state  
42 programmatic general permit or regional general  
43 permits; providing for a voluntary state programmatic  
44 general permit for certain dredge and fill activities;  
45 amending s. 376.3071, F.S.; increasing the priority  
46 ranking score for participation in the low-scored site  
47 initiative; exempting program deductibles, copayments,  
48 and certain assessment report requirements from  
49 expenditures under the low-scored site initiative;  
50 amending s. 376.30715, F.S.; providing that the  
51 transfer of a contaminated site from an owner to a  
52 child of the owner or corporate entity does not  
53 disqualify the site from the innocent victim petroleum  
54 storage system restoration financial assistance  
55 program; authorizing certain applicants to reapply for  
56 financial assistance; amending s. 380.0657, F.S.;

57 | authorizing expedited permitting for certain  
58 | intermodal logistics centers; amending s. 403.061,  
59 | F.S.; authorizing zones of discharges to groundwater  
60 | for specified installations; providing for  
61 | modification of such zones of discharge; providing  
62 | that exceedance of certain groundwater standards does  
63 | not create liability for site cleanup; providing that  
64 | exceedance of soil cleanup target levels is not a  
65 | basis for enforcement or cleanup; amending s. 403.087,  
66 | F.S.; revising conditions under which the department  
67 | is authorized to revoke permits for sources of air and  
68 | water pollution; amending s. 403.1838, F.S.; revising  
69 | the definition of the term "financially disadvantaged  
70 | small community" for the purposes of the Small  
71 | Community Sewer Construction Assistance Act; amending  
72 | s. 403.7045, F.S.; providing conditions under which  
73 | sludge from an industrial waste treatment works is not  
74 | solid waste; amending s. 403.706, F.S.; reducing the  
75 | amount of recycled materials certain counties are  
76 | required to apply toward state recycling goals;  
77 | providing that certain renewable energy byproducts  
78 | count toward state recycling goals; amending s.  
79 | 403.707, F.S.; providing for waste-to-energy  
80 | facilities to maximize acceptance and processing of  
81 | nonhazardous solid and liquid waste; exempting the  
82 | disposal of solid waste monitored by certain  
83 | groundwater monitoring plans from specific  
84 | authorization; specifying a permit term for solid

85 waste management facilities designed with leachate  
86 control systems that meet department requirements;  
87 requiring permit fees to be adjusted; providing  
88 applicability; specifying a permit term for solid  
89 waste management facilities that do not have leachate  
90 control systems meeting department requirements under  
91 certain conditions; authorizing the department to  
92 adopt rules; providing that the department is not  
93 required to submit the rules to the Environmental  
94 Regulation Commission for approval; requiring permit  
95 fee caps to be prorated; amending s. 403.7125, F.S.;  
96 requiring the department to require by rule that  
97 owners or operators of solid waste management  
98 facilities receiving waste after October 9, 1993,  
99 provide financial assurance for the cost of completing  
100 certain corrective actions; amending s. 403.814, F.S.;  
101 providing for issuance of general permits for the  
102 construction, alteration, and maintenance of certain  
103 surface water management systems without the action of  
104 the department or a water management district;  
105 specifying conditions for the general permits;  
106 amending s. 403.853, F.S.; providing for the  
107 department, or a local county health department  
108 designated by the department, to perform sanitary  
109 surveys for certain transient noncommunity water  
110 systems; amending s. 403.973, F.S.; authorizing  
111 expedited permitting for certain commercial or  
112 industrial development projects that individually or

113 collectively will create a minimum number of jobs;  
114 providing for a project-specific memorandum of  
115 agreement to apply to a project subject to expedited  
116 permitting; clarifying the authority of the department  
117 to enter final orders for the issuance of certain  
118 licenses; revising criteria for the review of certain  
119 sites; amending s. 526.203, F.S.; revising the  
120 definitions of the terms "blended gasoline" and  
121 "unblended gasoline"; defining the term "alternative  
122 fuel"; authorizing the sale of unblended gasoline for  
123 certain uses; providing that holders of valid permits  
124 or other authorizations are not required to make  
125 payments to authorizing agencies for use of certain  
126 extensions granted under chapter 2011-139, Laws of  
127 Florida; providing retroactive applicability and  
128 effect; providing an effective date.

129  
130 Be It Enacted by the Legislature of the State of Florida:

131  
132 Section 1. Section 125.022, Florida Statutes, is amended to  
133 read:

134 125.022 Development permits.—When a county denies an  
135 application for a development permit, the county shall give  
136 written notice to the applicant. The notice must include a  
137 citation to the applicable portions of an ordinance, rule,  
138 statute, or other legal authority for the denial of the permit.  
139 As used in this section, the term "development permit" has the  
140 same meaning as in s. 163.3164. For any development permit

141 application filed with the county after July 1, 2012, a county  
142 may not require as a condition of processing or issuing a  
143 development permit that an applicant obtain a permit or approval  
144 from any state or federal agency unless the agency has issued a  
145 final agency action that denies the federal or state permit  
146 before the county action on the local development permit.  
147 Issuance of a development permit by a county does not in any way  
148 create any rights on the part of the applicant to obtain a  
149 permit from a state or federal agency and does not create any  
150 liability on the part of the county for issuance of the permit  
151 if the applicant fails to obtain requisite approvals or fulfill  
152 the obligations imposed by a state or federal agency or  
153 undertakes actions that result in a violation of state or  
154 federal law. A county may attach such a disclaimer to the  
155 issuance of a development permit and may include a permit  
156 condition that all other applicable state or federal permits be  
157 obtained before commencement of the development. This section  
158 does not prohibit a county from providing information to an  
159 applicant regarding what other state or federal permits may  
160 apply.

161 Section 2. Subsection (5) is added to section 161.041,  
162 Florida Statutes, to read:

163 161.041 Permits required.—

164 (5) Notwithstanding any other provision of law, the  
165 department may issue a permit pursuant to this part in advance  
166 of the issuance of an incidental take authorization as provided  
167 under the Endangered Species Act and its implementing  
168 regulations if the permit and authorization include a condition

169 requiring that authorized activities not begin until the  
170 incidental take authorization is issued.

171 Section 3. Section 166.033, Florida Statutes, is amended  
172 to read:

173 166.033 Development permits.—When a municipality denies an  
174 application for a development permit, the municipality shall  
175 give written notice to the applicant. The notice must include a  
176 citation to the applicable portions of an ordinance, rule,  
177 statute, or other legal authority for the denial of the permit.  
178 As used in this section, the term "development permit" has the  
179 same meaning as in s. 163.3164. For any development permit  
180 application filed with the municipality after July 1, 2012, a  
181 municipality may not require as a condition of processing or  
182 issuing a development permit that an applicant obtain a permit  
183 or approval from any state or federal agency unless the agency  
184 has issued a final agency action that denies the federal or  
185 state permit before the municipal action on the local  
186 development permit. Issuance of a development permit by a  
187 municipality does not in any way create any right on the part of  
188 an applicant to obtain a permit from a state or federal agency  
189 and does not create any liability on the part of the  
190 municipality for issuance of the permit if the applicant fails  
191 to obtain requisite approvals or fulfill the obligations imposed  
192 by a state or federal agency or undertakes actions that result  
193 in a violation of state or federal law. A municipality may  
194 attach such a disclaimer to the issuance of development permits  
195 and may include a permit condition that all other applicable  
196 state or federal permits be obtained before commencement of the

197 development. This section does not prohibit a municipality from  
 198 providing information to an applicant regarding what other state  
 199 or federal permits may apply.

200 Section 4. Section 218.075, Florida Statutes, is amended  
 201 to read:

202 218.075 Reduction or waiver of permit processing fees.—  
 203 Notwithstanding any other provision of law, the Department of  
 204 Environmental Protection and the water management districts  
 205 shall reduce or waive permit processing fees for counties with a  
 206 population of 50,000 or less on April 1, 1994, until such  
 207 counties exceed a population of 75,000 and municipalities with a  
 208 population of 25,000 or less, or for an entity created by  
 209 special act, local ordinance, or interlocal agreement of such  
 210 counties or municipalities, or for any county or municipality  
 211 not included within a metropolitan statistical area. Fee  
 212 reductions or waivers shall be approved on the basis of fiscal  
 213 hardship or environmental need for a particular project or  
 214 activity. The governing body must certify that the cost of the  
 215 permit processing fee is a fiscal hardship due to one of the  
 216 following factors:

217 (1) Per capita taxable value is less than the statewide  
 218 average for the current fiscal year;

219 (2) Percentage of assessed property value that is exempt  
 220 from ad valorem taxation is higher than the statewide average  
 221 for the current fiscal year;

222 (3) Any condition specified in s. 218.503(1) which results  
 223 in the county or municipality being in a state of financial  
 224 emergency;

225 (4) Ad valorem operating millage rate for the current  
 226 fiscal year is greater than 8 mills; or

227 (5) A financial condition that is documented in annual  
 228 financial statements at the end of the current fiscal year and  
 229 indicates an inability to pay the permit processing fee during  
 230 that fiscal year.

231  
 232 The permit applicant must be the governing body of a county or  
 233 municipality or a third party under contract with a county or  
 234 municipality or an entity created by special act, local  
 235 ordinance, or interlocal agreement and the project for which the  
 236 fee reduction or waiver is sought must serve a public purpose.  
 237 If a permit processing fee is reduced, the total fee shall not  
 238 exceed \$100.

239 Section 5. Subsection (10) is added to section 373.026,  
 240 Florida Statutes, to read:

241 373.026 General powers and duties of the department.—The  
 242 department, or its successor agency, shall be responsible for  
 243 the administration of this chapter at the state level. However,  
 244 it is the policy of the state that, to the greatest extent  
 245 possible, the department may enter into interagency or  
 246 interlocal agreements with any other state agency, any water  
 247 management district, or any local government conducting programs  
 248 related to or materially affecting the water resources of the  
 249 state. All such agreements shall be subject to the provisions of  
 250 s. 373.046. In addition to its other powers and duties, the  
 251 department shall, to the greatest extent possible:

252 (10) Expand the use of Internet-based self-certification

253 services for appropriate exemptions and general permits issued  
 254 by the department and the water management districts, if such  
 255 expansion is economically feasible. In addition to expanding the  
 256 use of Internet-based self-certification services for  
 257 appropriate exemptions and general permits, the department and  
 258 water management districts shall identify and develop general  
 259 permits for appropriate activities currently requiring  
 260 individual review which could be expedited through the use of  
 261 applicable professional certification.

262 Section 6. Subsection (3) is added to section 373.326,  
 263 Florida Statutes, to read:

264 373.326 Exemptions.—

265 (3) A permit may not be required under this part for any  
 266 well authorized pursuant to ss. 403.061 and 403.087 under the  
 267 State Underground Injection Control Program identified in  
 268 chapter 62-528, Florida Administrative Code, as Class I, Class  
 269 II, Class III, Class IV, or Class V Groups 2-9. However, such  
 270 wells must be constructed by persons who have obtained a license  
 271 pursuant to s. 373.323 as otherwise required by law.

272 Section 7. Subsection (2) of section 373.4141, Florida  
 273 Statutes, is amended, and subsection (4) is added to that  
 274 section, to read:

275 373.4141 Permits; processing.—

276 (2) A permit shall be approved, ~~or~~ denied, or subject to a  
 277 notice of proposed agency action within 60 ~~90~~ days after receipt  
 278 of the original application, the last item of timely requested  
 279 additional material, or the applicant's written request to begin  
 280 processing the permit application.

281 (4) A state agency or an agency of the state may not  
282 require as a condition of approval for a permit or as an item to  
283 complete a pending permit application that an applicant obtain a  
284 permit or approval from any other local, state, or federal  
285 agency without explicit statutory authority to require such  
286 permit or approval.

287 Section 8. Section 373.4144, Florida Statutes, is amended  
288 to read:

289 373.4144 Federal environmental permitting.—

290 (1) It is the intent of the Legislature to:

291 (a) Facilitate coordination and a more efficient process  
292 of implementing regulatory duties and functions between the  
293 Department of Environmental Protection, the water management  
294 districts, the United States Army Corps of Engineers, the United  
295 States Fish and Wildlife Service, the National Marine Fisheries  
296 Service, the United States Environmental Protection Agency, the  
297 Fish and Wildlife Conservation Commission, and other relevant  
298 federal and state agencies.

299 (b) Authorize the Department of Environmental Protection  
300 to obtain issuance by the United States Army Corps of Engineers,  
301 pursuant to state and federal law and as set forth in this  
302 section, of an expanded state programmatic general permit, or a  
303 series of regional general permits, for categories of activities  
304 in waters of the United States governed by the Clean Water Act  
305 and in navigable waters under the Rivers and Harbors Act of 1899  
306 which are similar in nature, which will cause only minimal  
307 adverse environmental effects when performed separately, and  
308 which will have only minimal cumulative adverse effects on the

309 environment.

310 (c) Use the mechanism of such a state general permit or  
311 such regional general permits to eliminate overlapping federal  
312 regulations and state rules that seek to protect the same  
313 resource and to avoid duplication of permitting between the  
314 United States Army Corps of Engineers and the department for  
315 minor work located in waters of the United States, including  
316 navigable waters, thus eliminating, in appropriate cases, the  
317 need for a separate individual approval from the United States  
318 Army Corps of Engineers while ensuring the most stringent  
319 protection of wetland resources.

320 (d) Direct the department not to seek issuance of or take  
321 any action pursuant to any such permit or permits unless such  
322 conditions are at least as protective of the environment and  
323 natural resources as existing state law under this part and  
324 federal law under the Clean Water Act and the Rivers and Harbors  
325 Act of 1899. The department is directed to develop, on or before  
326 October 1, 2005, a mechanism or plan to consolidate, to the  
327 maximum extent practicable, the federal and state wetland  
328 permitting programs. It is the intent of the Legislature that  
329 all dredge and fill activities impacting 10 acres or less of  
330 wetlands or waters, including navigable waters, be processed by  
331 the state as part of the environmental resource permitting  
332 program implemented by the department and the water management  
333 districts. The resulting mechanism or plan shall analyze and  
334 propose the development of an expanded state programmatic  
335 general permit program in conjunction with the United States  
336 Army Corps of Engineers pursuant to s. 404 of the Clean Water

337 ~~Act, Pub. L. No. 92-500, as amended, 33 U.S.C. ss. 1251 et seq.,~~  
338 ~~and s. 10 of the Rivers and Harbors Act of 1899. Alternatively,~~  
339 ~~or in combination with an expanded state programmatic general~~  
340 ~~permit, the mechanism or plan may propose the creation of a~~  
341 ~~series of regional general permits issued by the United States~~  
342 ~~Army Corps of Engineers pursuant to the referenced statutes. All~~  
343 ~~of the regional general permits must be administered by the~~  
344 ~~department or the water management districts or their designees.~~

345       (2) In order to effectuate efficient wetland permitting  
346 and avoid duplication, the department and water management  
347 districts are authorized to implement a voluntary state  
348 programmatic general permit for all dredge and fill activities  
349 impacting 3 acres or less of wetlands or other surface waters,  
350 including navigable waters, subject to agreement with the United  
351 States Army Corps of Engineers, if the general permit is at  
352 least as protective of the environment and natural resources as  
353 existing state law under this part and federal law under the  
354 Clean Water Act and the Rivers and Harbors Act of 1899. The  
355 ~~department is directed to file with the Speaker of the House of~~  
356 ~~Representatives and the President of the Senate a report~~  
357 ~~proposing any required federal and state statutory changes that~~  
358 ~~would be necessary to accomplish the directives listed in this~~  
359 ~~section and to coordinate with the Florida Congressional~~  
360 ~~Delegation on any necessary changes to federal law to implement~~  
361 ~~the directives.~~

362       (3) ~~Nothing in~~ This section may not shall be construed to  
363 preclude the department from pursuing a series of regional  
364 general permits for construction activities in wetlands or

365 surface waters or complete assumption of federal permitting  
 366 programs regulating the discharge of dredged or fill material  
 367 pursuant to s. 404 of the Clean Water Act, Pub. L. No. 92-500,  
 368 as amended, 33 U.S.C. ss. 1251 et seq., and s. 10 of the Rivers  
 369 and Harbors Act of 1899, so long as the assumption encompasses  
 370 all dredge and fill activities in, on, or over jurisdictional  
 371 wetlands or waters, including navigable waters, within the  
 372 state.

373 Section 9. Subsection (11) of section 376.3071, Florida  
 374 Statutes, is amended to read:

375 376.3071 Inland Protection Trust Fund; creation; purposes;  
 376 funding.—

377 (11) SITE CLEANUP.—

378 (a) Voluntary cleanup.—~~Nothing in~~ This section shall does  
 379 not be deemed to prohibit a person from conducting site  
 380 rehabilitation either through his or her own personnel or  
 381 through responsible response action contractors or  
 382 subcontractors when such person is not seeking site  
 383 rehabilitation funding from the fund. Such voluntary cleanups  
 384 must meet all applicable environmental standards.

385 (b) Low-scored site initiative.—Notwithstanding s.  
 386 376.30711, any site with a priority ranking score of 29 ~~10~~  
 387 points or less may voluntarily participate in the low-scored  
 388 site initiative, whether or not the site is eligible for state  
 389 restoration funding.

390 1. To participate in the low-scored site initiative, the  
 391 responsible party or property owner must affirmatively  
 392 demonstrate that the following conditions are met:

393 a. Upon reassessment pursuant to department rule, the site  
 394 retains a priority ranking score of 29 ~~40~~ points or less.

395 b. No excessively contaminated soil, as defined by  
 396 department rule, exists onsite as a result of a release of  
 397 petroleum products.

398 c. A minimum of 6 months of groundwater monitoring  
 399 indicates that the plume is shrinking or stable.

400 d. The release of petroleum products at the site does not  
 401 adversely affect adjacent surface waters, including their  
 402 effects on human health and the environment.

403 e. The area of groundwater containing the petroleum  
 404 products' chemicals of concern is less than one-quarter acre and  
 405 is confined to the source property boundaries of the real  
 406 property on which the discharge originated.

407 f. Soils onsite that are subject to human exposure found  
 408 between land surface and 2 feet below land surface meet the soil  
 409 cleanup target levels established by department rule or human  
 410 exposure is limited by appropriate institutional or engineering  
 411 controls.

412 2. Upon affirmative demonstration of the conditions under  
 413 subparagraph 1., the department shall issue a determination of  
 414 "No Further Action." Such determination acknowledges that  
 415 minimal contamination exists onsite and that such contamination  
 416 is not a threat to human health or the environment. If no  
 417 contamination is detected, the department may issue a site  
 418 rehabilitation completion order.

419 3. Sites that are eligible for state restoration funding  
 420 may receive payment of preapproved costs for the low-scored site

421 initiative as follows:

422 a. A responsible party or property owner may submit an  
423 assessment plan designed to affirmatively demonstrate that the  
424 site meets the conditions under subparagraph 1. Notwithstanding  
425 the priority ranking score of the site, the department may  
426 preapprove the cost of the assessment pursuant to s. 376.30711,  
427 including 6 months of groundwater monitoring, not to exceed  
428 \$30,000 for each site. The department may not pay the costs  
429 associated with the establishment of institutional or  
430 engineering controls.

431 b. The assessment work shall be completed no later than 6  
432 months after the department issues its approval.

433 c. No more than \$10 million for the low-scored site  
434 initiative may ~~shall~~ be encumbered from the Inland Protection  
435 Trust Fund in any fiscal year. Funds shall be made available on  
436 a first-come, first-served basis and shall be limited to 10  
437 sites in each fiscal year for each responsible party or property  
438 owner.

439 d. Program deductibles, copayments, and the limited  
440 contamination assessment report requirements under paragraph  
441 (13) (c) do not apply to expenditures under this paragraph.

442 Section 10. Section 376.30715, Florida Statutes, is  
443 amended to read:

444 376.30715 Innocent victim petroleum storage system  
445 restoration.—A contaminated site acquired by the current owner  
446 prior to July 1, 1990, which has ceased operating as a petroleum  
447 storage or retail business prior to January 1, 1985, is eligible  
448 for financial assistance pursuant to s. 376.305(6),

449 notwithstanding s. 376.305(6) (a). For purposes of this section,  
 450 the term "acquired" means the acquisition of title to the  
 451 property; however, a subsequent transfer of the property to a  
 452 spouse or child of the owner, a surviving spouse or child of the  
 453 owner in trust or free of trust, ~~or~~ a revocable trust created  
 454 for the benefit of the settlor, or a corporate entity created by  
 455 the owner to hold title to the site does not disqualify the site  
 456 from financial assistance pursuant to s. 376.305(6) and  
 457 applicants previously denied coverage may reapply. Eligible  
 458 sites shall be ranked in accordance with s. 376.3071(5).

459 Section 11. Subsection (1) of section 380.0657, Florida  
 460 Statutes, is amended to read:

461 380.0657 Expedited permitting process for economic  
 462 development projects.—

463 (1) The Department of Environmental Protection and, as  
 464 appropriate, the water management districts created under  
 465 chapter 373 shall adopt programs to expedite the processing of  
 466 wetland resource and environmental resource permits for economic  
 467 development projects that have been identified by a municipality  
 468 or county as meeting the definition of target industry  
 469 businesses under s. 288.106, or any intermodal logistics center  
 470 receiving or sending cargo to or from Florida ports, with the  
 471 exception of those projects requiring approval by the Board of  
 472 Trustees of the Internal Improvement Trust Fund.

473 Section 12. Subsection (11) of section 403.061, Florida  
 474 Statutes, is amended to read:

475 403.061 Department; powers and duties.—The department  
 476 shall have the power and the duty to control and prohibit

477 pollution of air and water in accordance with the law and rules  
478 adopted and promulgated by it and, for this purpose, to:

479 (11) Establish ambient air quality and water quality  
480 standards for the state as a whole or for any part thereof, and  
481 also standards for the abatement of excessive and unnecessary  
482 noise. The department is authorized to establish reasonable  
483 zones of mixing for discharges into waters. For existing  
484 installations as defined by rule 62-520.200(10), Florida  
485 Administrative Code, effective July 12, 2009, zones of discharge  
486 to groundwater are authorized horizontally to a facility's or  
487 owner's property boundary and extending vertically to the base  
488 of a specifically designated aquifer or aquifers. Such zones of  
489 discharge may be modified in accordance with procedures  
490 specified in department rules. Exceedance of primary and  
491 secondary groundwater standards that occur within a zone of  
492 discharge does not create liability pursuant to this chapter or  
493 chapter 376 for site cleanup, and the exceedance of soil cleanup  
494 target levels is not a basis for enforcement or site cleanup.

495 (a) When a receiving body of water fails to meet a water  
496 quality standard for pollutants set forth in department rules, a  
497 steam electric generating plant discharge of pollutants that is  
498 existing or licensed under this chapter on July 1, 1984, may  
499 nevertheless be granted a mixing zone, provided that:

500 1. The standard would not be met in the water body in the  
501 absence of the discharge;

502 2. The discharge is in compliance with all applicable  
503 technology-based effluent limitations;

504 3. The discharge does not cause a measurable increase in

505 the degree of noncompliance with the standard at the boundary of  
 506 the mixing zone; and

507 4. The discharge otherwise complies with the mixing zone  
 508 provisions specified in department rules.

509 (b) ~~No~~ Mixing zones ~~zone~~ for point source discharges are  
 510 not shall be permitted in Outstanding Florida Waters except for:

511 1. Sources that have received permits from the department  
 512 prior to April 1, 1982, or the date of designation, whichever is  
 513 later;

514 2. Blowdown from new power plants certified pursuant to  
 515 the Florida Electrical Power Plant Siting Act;

516 3. Discharges of water necessary for water management  
 517 purposes which have been approved by the governing board of a  
 518 water management district and, if required by law, by the  
 519 secretary; and

520 4. The discharge of demineralization concentrate which has  
 521 been determined permissible under s. 403.0882 and which meets  
 522 the specific provisions of s. 403.0882(4)(a) and (b), if the  
 523 proposed discharge is clearly in the public interest.

524 (c) The department, by rule, shall establish water quality  
 525 criteria for wetlands which criteria give appropriate  
 526 recognition to the water quality of such wetlands in their  
 527 natural state.

528  
 529 ~~Nothing in~~ This act may not shall be construed to invalidate any  
 530 existing department rule relating to mixing zones. The  
 531 department shall cooperate with the Department of Highway Safety  
 532 and Motor Vehicles in the development of regulations required by

533 s. 316.272(1).

534

535 The department shall implement such programs in conjunction with  
 536 its other powers and duties and shall place special emphasis on  
 537 reducing and eliminating contamination that presents a threat to  
 538 humans, animals or plants, or to the environment.

539 Section 13. Subsection (7) of section 403.087, Florida  
 540 Statutes, is amended to read:

541 403.087 Permits; general issuance; denial; revocation;  
 542 prohibition; penalty.—

543 (7) A permit issued pursuant to this section does ~~shall~~  
 544 not become a vested right in the permittee. The department may  
 545 revoke any permit issued by it if it finds that the permitholder  
 546 has:

547 (a) ~~Has~~ Submitted false or inaccurate information in the  
 548 ~~his or her~~ application for the permit;

549 (b) ~~Has~~ Violated law, department orders, rules, ~~or~~  
 550 ~~regulations,~~ or ~~permit~~ conditions which directly relate to the  
 551 permit;

552 (c) ~~Has~~ Failed to submit operational reports or other  
 553 information required by department rule which directly relate to  
 554 the permit and has refused to correct or cure such violations  
 555 when requested to do so ~~or regulation~~; or

556 (d) ~~Has~~ Refused lawful inspection under s. 403.091 at the  
 557 facility authorized by the permit.

558 Section 14. Subsection (2) of section 403.1838, Florida  
 559 Statutes, is amended to read:

560 403.1838 Small Community Sewer Construction Assistance

561 Act.—

562 (2) The department shall use funds specifically  
 563 appropriated to award grants under this section to assist  
 564 financially disadvantaged small communities with their needs for  
 565 adequate sewer facilities. For purposes of this section, the  
 566 term "financially disadvantaged small community" means a  
 567 municipality that has ~~with~~ a population of 10,000 ~~7,500~~ or fewer  
 568 ~~less~~, according to the latest decennial census and a per capita  
 569 annual income less than the state per capita annual income as  
 570 determined by the United States Department of Commerce.

571 Section 15. Paragraph (f) of subsection (1) of section  
 572 403.7045, Florida Statutes, is amended to read:

573 403.7045 Application of act and integration with other  
 574 acts.—

575 (1) The following wastes or activities shall not be  
 576 regulated pursuant to this act:

577 (f) Industrial byproducts, if:

578 1. A majority of the industrial byproducts are  
 579 demonstrated to be sold, used, or reused within 1 year.

580 2. The industrial byproducts are not discharged,  
 581 deposited, injected, dumped, spilled, leaked, or placed upon any  
 582 land or water so that such industrial byproducts, or any  
 583 constituent thereof, may enter other lands or be emitted into  
 584 the air or discharged into any waters, including groundwaters,  
 585 or otherwise enter the environment such that a threat of  
 586 contamination in excess of applicable department standards and  
 587 criteria or a significant threat to public health is caused.

588 3. The industrial byproducts are not hazardous wastes as

589 defined under s. 403.703 and rules adopted under this section.

590  
 591 Sludge from an industrial waste treatment works that meets the  
 592 exemption requirements of this paragraph is not solid waste as  
 593 defined in s. 403.703(32).

594 Section 16. Paragraph (a) of subsection (4) of section  
 595 403.706, Florida Statutes, is amended to read:

596 403.706 Local government solid waste responsibilities.—

597 (4) (a) In order to promote the production of renewable  
 598 energy from solid waste, each megawatt-hour produced by a  
 599 renewable energy facility using solid waste as a fuel shall  
 600 count as 1 ton of recycled material and shall be applied toward  
 601 meeting the recycling goals set forth in this section. If a  
 602 county creating renewable energy from solid waste implements and  
 603 maintains a program to recycle at least 50 percent of municipal  
 604 solid waste by a means other than creating renewable energy,  
 605 that county shall count 1.25 ~~2~~ tons of recycled material for  
 606 each megawatt-hour produced. If waste originates from a county  
 607 other than the county in which the renewable energy facility  
 608 resides, the originating county shall receive such recycling  
 609 credit. ~~Any county that has a debt service payment related to~~  
 610 ~~its waste-to-energy facility shall receive 1 ton of recycled~~  
 611 ~~materials credit for each ton of solid waste processed at the~~  
 612 ~~facility.~~ Any byproduct resulting from the creation of renewable  
 613 energy that is recycled shall count towards the county recycling  
 614 goals in accordance with the methods and criteria developed  
 615 pursuant to paragraph (2) (h) does not count as waste.

616 Section 17. Subsections (1), (2), and (3) of section

617 403.707, Florida Statutes, are amended to read:

618 403.707 Permits.—

619 (1) A solid waste management facility may not be operated,  
 620 maintained, constructed, expanded, modified, or closed without  
 621 an appropriate and currently valid permit issued by the  
 622 department. The department may by rule exempt specified types of  
 623 facilities from the requirement for a permit under this part if  
 624 it determines that construction or operation of the facility is  
 625 not expected to create any significant threat to the environment  
 626 or public health. For purposes of this part, and only when  
 627 specified by department rule, a permit may include registrations  
 628 as well as other forms of licenses as defined in s. 120.52.  
 629 Solid waste construction permits issued under this section may  
 630 include any permit conditions necessary to achieve compliance  
 631 with the recycling requirements of this act. The department  
 632 shall pursue reasonable timeframes for closure and construction  
 633 requirements, considering pending federal requirements and  
 634 implementation costs to the permittee. The department shall  
 635 adopt a rule establishing performance standards for construction  
 636 and closure of solid waste management facilities. The standards  
 637 shall allow flexibility in design and consideration for site-  
 638 specific characteristics. For the purpose of permitting under  
 639 this chapter, the department shall allow waste-to-energy  
 640 facilities to maximize acceptance and processing of nonhazardous  
 641 solid and liquid waste.

642 (2) Except as provided in s. 403.722(6), a permit under  
 643 this section is not required for the following, ~~if the activity~~  
 644 ~~does not create a public nuisance or any condition adversely~~

645 ~~affecting the environment or public health and does not violate~~  
646 ~~other state or local laws, ordinances, rules, regulations, or~~  
647 ~~orders:~~

648 (a) Disposal by persons of solid waste resulting from  
649 their own activities on their own property, if such waste is  
650 ordinary household waste from their residential property or is  
651 rocks, soils, trees, tree remains, and other vegetative matter  
652 that normally result from land development operations. Disposal  
653 of materials that could create a public nuisance or adversely  
654 affect the environment or public health, such as white goods;  
655 automotive materials, such as batteries and tires; petroleum  
656 products; pesticides; solvents; or hazardous substances, is not  
657 covered under this exemption.

658 (b) Storage in containers by persons of solid waste  
659 resulting from their own activities on their property, leased or  
660 rented property, or property subject to a homeowners' ~~homeowners~~  
661 or maintenance association for which the person contributes  
662 association assessments, if the solid waste in such containers  
663 is collected at least once a week.

664 (c) Disposal by persons of solid waste resulting from  
665 their own activities on their property, if the environmental  
666 effects of such disposal on groundwater and surface waters are:

667 1. Addressed or authorized by a site certification order  
668 issued under part II or a permit issued by the department under  
669 this chapter or rules adopted pursuant to this chapter; or

670 2. Addressed or authorized by, or exempted from the  
671 requirement to obtain, a groundwater monitoring plan approved by  
672 the department. If a facility has a permit authorizing disposal

673 activity, new areas where solid waste is being disposed of which  
674 are monitored by an existing or modified groundwater monitoring  
675 plan are not required to be specifically authorized in a permit  
676 or other certification.

677 (d) Disposal by persons of solid waste resulting from  
678 their own activities on their own property, if such disposal  
679 occurred prior to October 1, 1988.

680 (e) Disposal of solid waste resulting from normal farming  
681 operations as defined by department rule. Polyethylene  
682 agricultural plastic, damaged, nonsalvageable, untreated wood  
683 pallets, and packing material that cannot be feasibly recycled,  
684 which are used in connection with agricultural operations  
685 related to the growing, harvesting, or maintenance of crops, may  
686 be disposed of by open burning if a public nuisance or any  
687 condition adversely affecting the environment or the public  
688 health is not created by the open burning and state or federal  
689 ambient air quality standards are not violated.

690 (f) The use of clean debris as fill material in any area.  
691 However, this paragraph does not exempt any person from  
692 obtaining any other required permits, and does not affect a  
693 person's responsibility to dispose of clean debris appropriately  
694 if it is not to be used as fill material.

695 (g) Compost operations that produce less than 50 cubic  
696 yards of compost per year when the compost produced is used on  
697 the property where the compost operation is located.

698 (3) (a) All applicable provisions of ss. 403.087 and  
699 403.088, relating to permits, apply to the control of solid  
700 waste management facilities.

701        (b) A permit, including a general permit, issued to a  
702 solid waste management facility that is designed with a leachate  
703 control system meeting department requirements shall be issued  
704 for a term of 20 years unless the applicant requests a shorter  
705 permit term. This paragraph applies to a qualifying solid waste  
706 management facility that applies for an operating or  
707 construction permit or renews an existing operating or  
708 construction permit on or after October 1, 2012.

709        (c) A permit, including a general permit, but not  
710 including a registration, issued to a solid waste management  
711 facility that does not have a leachate control system meeting  
712 department requirements shall be renewed for a term of 10 years,  
713 unless the applicant requests a shorter permit term, if the  
714 following conditions are met:

715            1. The applicant has conducted the regulated activity at  
716 the same site for which the renewal is sought for at least 4  
717 years and 6 months before the date that the permit application  
718 is received by the department; and

719            2. At the time of applying for the renewal permit:

720            a. The applicant is not subject to a notice of violation,  
721 consent order, or administrative order issued by the department  
722 for violation of an applicable law or rule;

723            b. The department has not notified the applicant that it  
724 is required to implement assessment or evaluation monitoring as  
725 a result of exceedances of applicable groundwater standards or  
726 criteria or, if applicable, the applicant is completing  
727 corrective actions in accordance with applicable department  
728 rules; and

729 c. The applicant is in compliance with the applicable  
730 financial assurance requirements.

731 (d) The department may adopt rules to administer this  
732 subsection. However, the department is not required to submit  
733 such rules to the Environmental Regulation Commission for  
734 approval. Notwithstanding the limitations of s. 403.087(6)(a),  
735 permit fee caps for solid waste management facilities shall be  
736 prorated to reflect the extended permit term authorized by this  
737 subsection.

738 Section 18. Section 403.7125, Florida Statutes, is amended  
739 to read:

740 403.7125 Financial assurance ~~for closure.~~-

741 (1) Every owner or operator of a landfill is jointly and  
742 severally liable for the improper operation and closure of the  
743 landfill, as provided by law. As used in this section, the term  
744 "owner or operator" means any owner of record of any interest in  
745 land wherein a landfill is or has been located and any person or  
746 corporation that owns a majority interest in any other  
747 corporation that is the owner or operator of a landfill.

748 (2) The owner or operator of a landfill owned or operated  
749 by a local or state government or the Federal Government shall  
750 establish a fee, or a surcharge on existing fees or other  
751 appropriate revenue-producing mechanism, to ensure the  
752 availability of financial resources for the proper closure of  
753 the landfill. However, the disposal of solid waste by persons on  
754 their own property, as described in s. 403.707(2), is exempt  
755 from this section.

756 (a) The revenue-producing mechanism must produce revenue

757 at a rate sufficient to generate funds to meet state and federal  
758 landfill closure requirements.

759 (b) The revenue shall be deposited in an interest-bearing  
760 escrow account to be held and administered by the owner or  
761 operator. The owner or operator shall file with the department  
762 an annual audit of the account. The audit shall be conducted by  
763 an independent certified public accountant. Failure to collect  
764 or report such revenue, except as allowed in subsection (3), is  
765 a noncriminal violation punishable by a fine of not more than  
766 \$5,000 for each offense. The owner or operator may make  
767 expenditures from the account and its accumulated interest only  
768 for the purpose of landfill closure and, if such expenditures do  
769 not deplete the fund to the detriment of eventual closure, for  
770 planning and construction of resource recovery or landfill  
771 facilities. Any moneys remaining in the account after paying for  
772 proper and complete closure, as determined by the department,  
773 shall, if the owner or operator does not operate a landfill, be  
774 deposited by the owner or operator into the general fund or the  
775 appropriate solid waste fund of the local government of  
776 jurisdiction.

777 (c) The revenue generated under this subsection and any  
778 accumulated interest thereon may be applied to the payment of,  
779 or pledged as security for, the payment of revenue bonds issued  
780 in whole or in part for the purpose of complying with state and  
781 federal landfill closure requirements. Such application or  
782 pledge may be made directly in the proceedings authorizing such  
783 bonds or in an agreement with an insurer of bonds to assure such  
784 insurer of additional security therefor.

785 (d) The provisions of s. 212.055 which relate to raising  
786 of revenues for landfill closure or long-term maintenance do not  
787 relieve a landfill owner or operator from the obligations of  
788 this section.

789 (e) The owner or operator of any landfill that had  
790 established an escrow account in accordance with this section  
791 and the conditions of its permit prior to January 1, 2007, may  
792 continue to use that escrow account to provide financial  
793 assurance for closure of that landfill, even if that landfill is  
794 not owned or operated by a local or state government or the  
795 Federal Government.

796 (3) An owner or operator of a landfill owned or operated  
797 by a local or state government or by the Federal Government may  
798 provide financial assurance to the department in lieu of the  
799 requirements of subsection (2). An owner or operator of any  
800 other landfill, or any other solid waste management facility  
801 designated by department rule, shall provide financial assurance  
802 to the department for the closure of the facility. Such  
803 financial assurance may include surety bonds, certificates of  
804 deposit, securities, letters of credit, or other documents  
805 showing that the owner or operator has sufficient financial  
806 resources to cover, at a minimum, the costs of complying with  
807 applicable closure requirements. The owner or operator shall  
808 estimate such costs to the satisfaction of the department.

809 (4) This section does not repeal, limit, or abrogate any  
810 other law authorizing local governments to fix, levy, or charge  
811 rates, fees, or charges for the purpose of complying with state  
812 and federal landfill closure requirements.

813        (5) The department shall by rule require that the owner or  
 814 operator of a solid waste management facility that receives  
 815 waste after October 9, 1993, and that is required by department  
 816 rule to undertake corrective actions for violations of water  
 817 quality standards provide financial assurance for the cost of  
 818 completing such corrective actions. The same financial assurance  
 819 mechanisms that are available for closure costs shall be  
 820 available for costs associated with undertaking corrective  
 821 actions.

822        ~~(6)~~(5) The department shall adopt rules to implement this  
 823 section.

824        Section 19. Subsection (12) is added to section 403.814,  
 825 Florida Statutes, to read:

826        403.814 General permits; delegation.—

827        (12) A general permit is granted for the construction,  
 828 alteration, and maintenance of a stormwater management system  
 829 serving a total project area of up to 10 acres. When the  
 830 stormwater management system is designed, operated, and  
 831 maintained in accordance with applicable rules adopted pursuant  
 832 to part IV of chapter 373, there is a rebuttable presumption  
 833 that the discharge for such system will comply with state water  
 834 quality standards. The construction of such a system may proceed  
 835 without any further agency action by the department or water  
 836 management district if, within 30 days after construction  
 837 begins, an electronic self-certification is submitted to the  
 838 department or water management district that certifies the  
 839 proposed system was designed by a Florida registered  
 840 professional to meet the following requirements:

841 (a) The total project area involves less than 10 acres and  
 842 less than 2 acres of impervious surface;

843 (b) No activities will impact wetlands or other surface  
 844 waters;

845 (c) No activities are conducted in, on, or over wetlands  
 846 or other surface waters;

847 (d) Drainage facilities will not include pipes having  
 848 diameters greater than 24 inches, or the hydraulic equivalent,  
 849 and will not use pumps in any manner;

850 (e) The project is not part of a larger common plan,  
 851 development, or sale; and

852 (f) The project does not:

853 1. Cause adverse water quantity or flooding impacts to  
 854 receiving water and adjacent lands;

855 2. Cause adverse impacts to existing surface water storage  
 856 and conveyance capabilities;

857 3. Cause a violation of state water quality standards; or

858 4. Cause an adverse impact to the maintenance of surface  
 859 or ground water levels or surface water flows established  
 860 pursuant to s. 373.042 or a work of the district established  
 861 pursuant to s. 373.086.

862 Section 20. Subsection (6) of section 403.853, Florida  
 863 Statutes, is amended to read:

864 403.853 Drinking water standards.—

865 (6) Upon the request of the owner or operator of a  
 866 transient noncommunity water system using groundwater as a  
 867 source of supply and serving religious institutions or  
 868 businesses, other than restaurants or other public food service

869 establishments or religious institutions with school or day care  
 870 services, ~~and using groundwater as a source of supply,~~ the  
 871 department, or a local county health department designated by  
 872 the department, shall perform a sanitary survey of the facility.  
 873 Upon receipt of satisfactory survey results according to  
 874 department criteria, the department shall reduce the  
 875 requirements of such owner or operator from monitoring and  
 876 reporting on a quarterly basis to performing these functions on  
 877 an annual basis. Any revised monitoring and reporting schedule  
 878 approved by the department under this subsection shall apply  
 879 until such time as a violation of applicable state or federal  
 880 primary drinking water standards is determined by the system  
 881 owner or operator, by the department, or by an agency designated  
 882 by the department, after a random or routine sanitary survey.  
 883 Certified operators are not required for transient noncommunity  
 884 water systems of the type and size covered by this subsection.  
 885 Any reports required of such system shall be limited to the  
 886 minimum as required by federal law. When not contrary to the  
 887 provisions of federal law, the department may, upon request and  
 888 by rule, waive additional provisions of state drinking water  
 889 regulations for such systems.

890 Section 21. Paragraph (a) of subsection (3) and  
 891 subsections (4), (5), (10), (11), (14), (15), and (18) of  
 892 section 403.973, Florida Statutes, are amended to read:

893 403.973 Expedited permitting; amendments to comprehensive  
 894 plans.—

895 (3) (a) The secretary shall direct the creation of regional  
 896 permit action teams for the purpose of expediting review of

897 permit applications and local comprehensive plan amendments  
 898 submitted by:

899 1. Businesses creating at least 50 jobs or a commercial or  
 900 industrial development project that will be occupied by  
 901 businesses that would individually or collectively create at  
 902 least 50 jobs; or

903 2. Businesses creating at least 25 jobs if the project is  
 904 located in an enterprise zone, or in a county having a  
 905 population of fewer than 75,000 or in a county having a  
 906 population of fewer than 125,000 which is contiguous to a county  
 907 having a population of fewer than 75,000, as determined by the  
 908 most recent decennial census, residing in incorporated and  
 909 unincorporated areas of the county.

910 (4) The regional teams shall be established through the  
 911 execution of a project-specific memoranda of agreement developed  
 912 and executed by the applicant and the secretary, with input  
 913 solicited from ~~the Department of Economic Opportunity and the~~  
 914 ~~respective heads of the Department of Transportation and its~~  
 915 ~~district offices, the Department of Agriculture and Consumer~~  
 916 ~~Services, the Fish and Wildlife Conservation Commission,~~  
 917 appropriate regional planning councils, appropriate water  
 918 management districts, and voluntarily participating  
 919 municipalities and counties. The memoranda of agreement should  
 920 also accommodate participation in this expedited process by  
 921 other local governments and federal agencies as circumstances  
 922 warrant.

923 (5) In order to facilitate local government's option to  
 924 participate in this expedited review process, the secretary

925 shall, in cooperation with local governments and participating  
 926 state agencies, create a standard form memorandum of agreement.  
 927 The standard form of the memorandum of agreement shall be used  
 928 only if the local government participates in the expedited  
 929 review process. In the absence of local government  
 930 participation, only the project-specific memorandum of agreement  
 931 executed pursuant to subsection (4) applies. A local government  
 932 shall hold a duly noticed public workshop to review and explain  
 933 to the public the expedited permitting process and the terms and  
 934 conditions of the standard form memorandum of agreement.

935 (10) The memoranda of agreement may provide for the waiver  
 936 or modification of procedural rules prescribing forms, fees,  
 937 procedures, or time limits for the review or processing of  
 938 permit applications under the jurisdiction of those agencies  
 939 that are members of the regional permit action team ~~party to the~~  
 940 ~~memoranda of agreement~~. Notwithstanding any other provision of  
 941 law to the contrary, a memorandum of agreement must to the  
 942 extent feasible provide for proceedings and hearings otherwise  
 943 held separately ~~by the parties to the memorandum of agreement~~ to  
 944 be combined into one proceeding or held jointly and at one  
 945 location. Such waivers or modifications are not authorized ~~shall~~  
 946 ~~not be available~~ for permit applications governed by federally  
 947 delegated or approved permitting programs, the requirements of  
 948 which would prohibit, or be inconsistent with, such a waiver or  
 949 modification.

950 (11) The ~~standard form for~~ memoranda of agreement shall  
 951 include guidelines to be used in working with state, regional,  
 952 and local permitting authorities. Guidelines may include, but

953 are not limited to, the following:

954 (a) A central contact point for filing permit applications  
 955 and local comprehensive plan amendments and for obtaining  
 956 information on permit and local comprehensive plan amendment  
 957 requirements.†

958 (b) Identification of the individual or individuals within  
 959 each respective agency who will be responsible for processing  
 960 the expedited permit application or local comprehensive plan  
 961 amendment for that agency.†

962 (c) A mandatory preapplication review process to reduce  
 963 permitting conflicts by providing guidance to applicants  
 964 regarding the permits needed from each agency and governmental  
 965 entity, site planning and development, site suitability and  
 966 limitations, facility design, and steps the applicant can take  
 967 to ensure expeditious permit application and local comprehensive  
 968 plan amendment review. As a part of this process, the first  
 969 interagency meeting to discuss a project shall be held within 14  
 970 days after the secretary's determination that the project is  
 971 eligible for expedited review. Subsequent interagency meetings  
 972 may be scheduled to accommodate the needs of participating local  
 973 governments that are unable to meet public notice requirements  
 974 for executing a memorandum of agreement within this timeframe.  
 975 This accommodation may not exceed 45 days from the secretary's  
 976 determination that the project is eligible for expedited  
 977 review.†

978 (d) The preparation of a single coordinated project  
 979 description form and checklist and an agreement by state and  
 980 regional agencies to reduce the burden on an applicant to

981 provide duplicate information to multiple agencies.†

982 (e) Establishment of a process for the adoption and review  
 983 of any comprehensive plan amendment needed by any certified  
 984 project within 90 days after the submission of an application  
 985 for a comprehensive plan amendment. However, the memorandum of  
 986 agreement may not prevent affected persons as defined in s.  
 987 163.3184 from appealing or participating in this expedited plan  
 988 amendment process and any review or appeals of decisions made  
 989 under this paragraph.†~~and~~

990 (f) Additional incentives for an applicant who proposes a  
 991 project that provides a net ecosystem benefit.

992 (14) (a) Challenges to state agency action in the expedited  
 993 permitting process for projects processed under this section are  
 994 subject to the summary hearing provisions of s. 120.574, except  
 995 that the administrative law judge's decision, as provided in s.  
 996 120.574(2) (f), shall be in the form of a recommended order and  
 997 do not constitute the final action of the state agency. In those  
 998 proceedings where the action of only one agency of the state  
 999 other than the Department of Environmental Protection is  
 1000 challenged, the agency of the state shall issue the final order  
 1001 within 45 working days after receipt of the administrative law  
 1002 judge's recommended order, and the recommended order shall  
 1003 inform the parties of their right to file exceptions or  
 1004 responses to the recommended order in accordance with the  
 1005 uniform rules of procedure pursuant to s. 120.54. In those  
 1006 proceedings where the actions of more than one agency of the  
 1007 state are challenged, the Governor shall issue the final order  
 1008 within 45 working days after receipt of the administrative law

1009 judge's recommended order, and the recommended order shall  
1010 inform the parties of their right to file exceptions or  
1011 responses to the recommended order in accordance with the  
1012 uniform rules of procedure pursuant to s. 120.54. For ~~This~~  
1013 ~~paragraph does not apply to~~ the issuance of department licenses  
1014 required under any federally delegated or approved permit  
1015 program. In such instances, the department, and not the  
1016 Governor, shall enter the final order. The participating  
1017 agencies of the state may opt at the preliminary hearing  
1018 conference to allow the administrative law judge's decision to  
1019 constitute the final agency action.

1020 (b) Projects identified in paragraph (3)(f) or challenges  
1021 to state agency action in the expedited permitting process for  
1022 establishment of a state-of-the-art biomedical research  
1023 institution and campus in this state by the grantee under s.  
1024 288.955 are subject to the same requirements as challenges  
1025 brought under paragraph (a), except that, notwithstanding s.  
1026 120.574, summary proceedings must be conducted within 30 days  
1027 after a party files the motion for summary hearing, regardless  
1028 of whether the parties agree to the summary proceeding.

1029 (15) The Department of Economic Opportunity, working with  
1030 the agencies providing cooperative assistance and input  
1031 regarding the memoranda of agreement, shall review sites  
1032 proposed for the location of facilities that the Department of  
1033 Economic Opportunity has certified to be eligible for the  
1034 Innovation Incentive Program under s. 288.1089. Within 20 days  
1035 after the request for the review by the Department of Economic  
1036 Opportunity, the agencies shall provide to the Department of

1037 Economic Opportunity a statement as to each site's necessary  
 1038 permits under local, state, and federal law and an  
 1039 identification of significant permitting issues, which if  
 1040 unresolved, may result in the denial of an agency permit or  
 1041 approval or any significant delay caused by the permitting  
 1042 process.

1043 (18) The Department of Economic Opportunity, working with  
 1044 the Rural Economic Development Initiative ~~and the agencies~~  
 1045 ~~participating in the memoranda of agreement~~, shall provide  
 1046 technical assistance in preparing permit applications and local  
 1047 comprehensive plan amendments for counties having a population  
 1048 of fewer than 75,000 residents, or counties having fewer than  
 1049 125,000 residents which are contiguous to counties having fewer  
 1050 than 75,000 residents. Additional assistance may include, but  
 1051 not be limited to, guidance in land development regulations and  
 1052 permitting processes, working cooperatively with state,  
 1053 regional, and local entities to identify areas within these  
 1054 counties which may be suitable or adaptable for preclearance  
 1055 review of specified types of land uses and other activities  
 1056 requiring permits.

1057 Section 22. Subsection (1) of section 526.203, Florida  
 1058 Statutes, is amended, and subsection (5) is added to that  
 1059 section, to read:

1060 526.203 Renewable fuel standard.—

1061 (1) DEFINITIONS.—As used in this act:

1062 (a) "Alternative fuel" means a fuel produced from biomass,  
 1063 as defined in s. 366.91, that is used to replace or reduce the  
 1064 quantity of fossil fuel present in a petroleum fuel that meets

1065 the specifications as adopted by the department.

1066 (b)~~(a)~~ "Blender," "importer," "terminal supplier," and  
 1067 "wholesaler" are defined as provided in s. 206.01.

1068 (c)~~(b)~~ "Blended gasoline" means a mixture of 90 to 91  
 1069 percent gasoline and 9 to 10 percent fuel ethanol or other  
 1070 alternative fuel, by volume, that meets the specifications as  
 1071 adopted by the department. The fuel ethanol or other alternative  
 1072 fuel portion may be derived from any agricultural source.

1073 (d)~~(e)~~ "Fuel ethanol" means an anhydrous denatured alcohol  
 1074 produced by the conversion of carbohydrates that meets the  
 1075 specifications as adopted by the department.

1076 (e)~~(d)~~ "Unblended gasoline" means gasoline that has not  
 1077 been blended with fuel ethanol or other alternative fuel and  
 1078 that meets the specifications as adopted by the department.

1079 (5) SALE OF UNBLENDED GASOLINE.—This section does not  
 1080 prohibit the sale of unblended gasoline for the uses exempted  
 1081 under subsection (3).

1082 Section 23. The holder of a valid permit or other  
 1083 authorization is not required to make a payment to the  
 1084 authorizing agency for use of an extension granted under section  
 1085 73 or section 79 of chapter 2011-139, Laws of Florida. This  
 1086 section applies retroactively and is effective as of June 2,  
 1087 2011.

1088 Section 24. This act shall take effect July 1, 2012.
