Senate Amendment (with title amendment)

Delete lines 601 - 620

and insert:

Section 11. Paragraph (c) of subsection (1), paragraph (b) of subsection (2), and subsection (6) of section 395.003, Florida Statutes, are amended to read:

395.003 Licensure; denial, suspension, and revocation.—

(1)

~~(c) Until July 1, 2006, additional emergency departments located off the premises of licensed hospitals may not be authorized by the agency.~~

(2)

848098

14 (b) The agency shall, at the request of a licensee that is
15 a teaching hospital as defined in s. 408.07(45), issue a single
16 license to a licensee for facilities that have been previously
17 licensed as separate premises, provided such separately licensed
18 facilities, taken together, constitute the same premises as
19 defined in s. 395.002(22) ~~395.002(23)~~. Such license for the
20 single premises shall include all of the beds, services, and
21 programs that were previously included on the licenses for the
22 separate premises. The granting of a single license under this
23 paragraph shall not in any manner reduce the number of beds,
24 services, or programs operated by the licensee.

25 (6) A specialty hospital may not provide any service or
26 regularly serve any population group beyond those services or
27 groups specified in its license. A ~~specialty-licensed children's~~
28 hospital that is authorized to provide pediatric cardiac
29 catheterization and pediatric open-heart surgery services may
30 provide cardiovascular service to adults who, as children, were
31 previously served by the hospital for congenital heart disease,
32 or to those patients who are referred for a specialized
33 procedure only for congenital heart disease by an adult
34 hospital, without obtaining additional licensure as a provider
35 of adult cardiovascular services. The agency may request
36 documentation as needed to support patient selection and
37 treatment. This subsection does not apply to a specialty-
38 licensed children's hospital that is already licensed to provide
39 adult cardiovascular services.
