## II. Present Situation:

The Legislature passed the "Growth Policy Act"<sup>1</sup> in 1999, establishing a definition for urban infill and redevelopment areas (UIRAs), authorizing local governments to designate UIRAs and provide economic incentives for them, and setting standards for local governments to follow in designating them. The Act, currently found in ss. 163.2511-163.2523, F.S., has the goal of promoting and sustaining urban cores.<sup>2</sup>

Section 163.2523, F.S., establishes a grant program that includes three types of grants. The largest percentage, sixty percent, is allocated towards fifty-fifty matching grants for implanting urban infill and redevelopment projects. Thirty percent is allocated for planning grants to be used in the development of an urban infill and redevelopment plan. The remaining ten percent is to be used for grants to implement projects which require an expenditure of under \$50,000. The local government which receives the grants is specifically allowed to allocate them to special districts and nonprofits. The program
