From the funds in Specific Appropriations 6 and 84, \$947,950,732 is provided to school districts as an Exceptional Student Education (ESE) Guaranteed Allocation as authorized by law to provide educational programs and services for exceptional students. Funds provided for gifted educational programs and services must primarily be focused on advanced mathematics and science curriculum and enrichment. The ESE Guaranteed Allocation funds are provided in addition to the funds for each exceptional student in the per FTE student calculation. Each district's ESE Guaranteed Allocation for the 2012-2013 appropriation shall not be recalculated during the school year. School districts that provided educational services in 2011-2012 for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriations 6 and 84, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than 3 FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed 3 FTE.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when

The Declining Enrollment Supplement shall be calculated based on 25 percent of the decline between the prior year and current year unweighted FTE students.

From the funds in Specific Appropriations 6 and 84, \$64,456,019 is provided for Safe Schools activities and shall be allocated as follows: \$62,660 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) middle and high school programs for correction of specific discipline problems; (3) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (4) behavior driven intervention programs that include anger and aggression management strategies; (5) alternative school programs for adjudicated youth that may include a web-based virtual system that results in mastery and certification, competency or credentials in the following inter-related counseling disciplines necessary for success in education and the work environment, including adjustment, educational, employment and optimal mental health areas that will include, but are not limited to, anger and impulse control, depression and anxiety, self-esteem, respect for authority, personal behavior, goal setting, time and stress management, social and workplace adjustment, substance use and abuse, workplace soft skills, communication skills, work ethic, the importance of timeliness, attendance and the self-marketing skills for future educational and/or employment opportunities; (6) suicide prevention programs; (7) bullying prevention and intervention; and (8) school resource officers. Each district shall determine, based on a review of its existing programs and priorities, how much of its total allocation to use for each authorized Safe Schools activity. The Department of Education shall monitor compliance with reporting procedures contained in section 1006.147, Florida Statutes. If a district does not comply with these procedures, the district's funds from the Safe Schools allocation shall be withheld and reallocated to the other school districts. Each school district shall report to the Department of Education the amount of funds expended for each of the eight activities.

From the funds in Specific Appropriations 6 and 84, \$636,958,373 is for Supplemental Academic Instruction to be provided throughout the school year pursuant to section 1011.62 (1)(f), Florida Statutes. From these funds, at least \$15,000,000, together with funds provided in the district's research-based reading instruction allocation and other available funds, shall be used by districts with one or more of the 100 lowest performing elementary schools based on the state reading assessment to provide an additional hour of instruction beyond the normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 100 schools.

The Department of Education shall provide guidance to school districts for documentation of the expenditures for the additional hour of instruction to ensure that all local, state, and federal funds are maximized for the total instructional program and that the funds used for the additional hour of instruction in these 100 schools do not supplant federal funds. School districts shall submit a report to the Department of Education in a format prepared by the department that includes summary information, including funding sources, expenditures and student outcomes for each of the participating schools that shall be submitted to the Speaker of the House, President of the Senate, and Governor by September 30, 2013. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

From the funds in Specific Appropriations 6 and 84, \$130,000,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$115,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the total K-12 base funding.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

From these funds, at least \$15,000,000 shall be used to provide an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in the 100 lowest performing elementary schools based on the state reading assessment pursuant to sections 1008.22(3) and 1011.62(9), Florida Statutes. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 100 schools. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

The growth allocation per FTE shall be \$290.81 for the 2012-2013 fiscal year. School districts shall pay for instructional materials used for the instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in section 1011.62(1)(i), Florida Statutes.

From funds provided in Specific Appropriations 6 and 84, \$420,264,335 is provided for Student Transportation as provided in section 1011.68, Florida Statutes.

Funds provided in Specific Appropriations 6 and 84 for the virtual education contribution shall be allocated pursuant to the formula provided in section 1011.62(11), Florida Statutes. The contribution shall be based on \$5,200 per FTE.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

From the funds in Specific Appropriations 6 and 84, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend funds in the amount of \$5,200 per student for each student who was enrolled and served during the 2011-2012 fiscal year and who is re-enrolled and eligible to be served during the 2012-2013 fiscal year. Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2011-2012 fiscal year and who is re-enrolled and is eligible to be served during the 2012-2013 fiscal year. The department shall verify the eligibility of the students, assist with placement of each student in a school district virtual instruction program regardless of the student's district of residence, and assist the school district with executing an appropriate contract with an approved K-8 virtual school for payment for virtual instruction for each student. The maximum number of students to be funded pursuant to this provision is the number being served in 2011-2012.

Funds in Specific Appropriations 191 and 208 reflect a reduction of \$472,443 from the General Revenue Fund, \$645,354 from the Medical Care Trust Fund, and \$1,063 from the Refugee Assistance Trust Fund as a result of limiting home health visits for non-pregnant adults to three visits per day, effective August 1, 2012.

From the funds in Specific Appropriation 191, the Agency for Health Care Administration shall not procure a statewide-single source provider for a disposable incontinence medical supply program. To provide choice for beneficiaries, maximize program efficiencies, and cost savings within the Medicaid program, medical supplies shall continue to be provided by state enrolled medical equipment companies. In addition, pursuant to sections 409.961 through 409.985, Florida Statutes, no language may be introduced to limit the ability of Medicaid managed care plans to provide incontinence medical supplies during the term of the contracts for these services including any extensions. The agency shall seek any federal Medicaid waiver necessary to implement this provision.

In establishing rates through the normal process, prior to including this reduction, if the unit cost is greater than the unit cost used in establishing the budget, then rates shall be reduced by an amount required to achieve this reduction, but shall not be reduced below the unit cost used in establishing the budget. The calculations are the basis for the appropriations made in the General Appropriations Act.

Funds in Specific Appropriation 193, are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. In the event the state share provided through grants and donations is not available to fund the removal of inpatient ceilings for hospitals, the Agency for Health Care Administration shall submit a revised hospital reimbursement plan to the Legislative Budget Commission for approval.

The agency shall establish a reasonable global fee for these transplant procedures and the payments shall be used to pay approved multi-visceral transplant and intestine transplant facilities a global fee for providing transplant services to Medicaid beneficiaries. Payment of the global fee is contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid inpatient trend adjustment applied to the individual state mental health hospitals.

From the funds in Specific Appropriation 193, \$60,125,879 from the Grants and Donations Trust Fund and \$82,116,560 from the Medical Care Trust Fund are provided for hospitals to buy back the Medicaid inpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their inpatient rates up to actual Medicaid inpatient cost. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county, or other governmental funds. From the funds in Specific Appropriations 193 and 198, the Agency for Health Care Administration shall implement a process to reconcile the difference between the amount of intergovernmental transfers used by or on behalf of individual hospitals' buy back of their Medicaid inpatient and outpatient trend adjustments or exemptions from reimbursement limitations for 2011-2012 state fiscal year and an estimate of the actual annualized benefit derived based on actual days and units of service provided. Reconciliations may be incorporated in Letters of Agreement for intergovernmental transfers for 2012-2013 state fiscal year.

Any hospital that was exempt from the inpatient reimbursement ceiling in the prior state fiscal year, due to their charity care and Medicaid days as a percentage to total adjusted hospital days equaling or exceeding 11 percent, but no longer meets the 11 percent threshold, because of updated audited DSH data, shall remain exempt from the inpatient reimbursement ceilings for a period of two years.

In calculating the current reductions, the Agency shall use budgeted Medicaid hospital days in calculating hospital reimbursement rates under the Title XIX Hospital Inpatient Reimbursement Plan.

From the funds in Specific Appropriation 193, \$847,936 in nonrecurring funds from the General Revenue Fund and \$1,158,064 in nonrecurring from the Medical Care Trust Fund are provided to allow for exemptions from inpatient reimbursement ceilings for any hospital that is classified as a sole community hospital under 42 C.F.R. section 412.92 but is not classified as a rural hospital under section 395.602, Florida Statutes. From the funds in Specific Appropriation 195, the calculations of the Medicaid Supplemental Hospital Funding Programs for Medicaid Low Income Pool, Disproportionate Share Hospital, and Hospital Exemptions Programs for the 2012-2013 fiscal year are incorporated by reference in House Bill 5003. The calculations are the basis for the appropriations made in the General Appropriations Act.

From the funds in Specific Appropriation 195, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 195, in the event that the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local nonfederal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

From the funds in Specific Appropriation 195, the agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 195, are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. In the event the nonfederal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval. Distribution of such funds provided in Specific Appropriation 195 is contingent upon approval from the Centers for Medicare and Medicaid Services.

From the funds in Specific Appropriation 196, the Agency for Health Care Administration shall work with dialysis providers, managed care organizations, and physicians to ensure that all Medicaid patients with End Stage Renal Disease (ESRD) are educated and assessed by their physician and dialysis provider to determine their suitability for peritoneal dialysis (PD) as a modality choice. Further, the agency shall consult with the dialysis community concerning suitable voluntary reporting to the state Medicaid program on members' PD suitability.

Funds provided for the elimination of hospital outpatient ceilings in Specific Appropriation 198 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

From the funds in Specific Appropriation 198, \$27,279,957 from the Grants and Donations Trust Fund and \$37,257,438 from the Medical Care Trust Fund are appropriated so that the agency may amend its current facility fees and physician services to allow for payments to hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 provided such hospital implements an emergency room diversion program so that non-emergent patients are triaged to lesser acute settings; or a public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to qualifying hospitals because of this change shall be contingent on the state share being provided through grants and donations from counties, local governments, public entities, or taxing districts, and federal matching funds. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid outpatient trend adjustment applied to the individual state mental health hospitals.

From the funds in Specific Appropriation 198, \$14,216,715 from the Grants and Donations Trust Fund and \$19,416,394 from the Medical Care Trust Fund are provided for hospitals to buy back the Medicaid outpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their outpatient rates up to actual Medicaid outpatient cost. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buy back of reductions to outpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations unless the nonfederal share is provided through grants and donations from state, county or other governmental funds. SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 625 through 815, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2013.

From the funds in Specific Appropriations 625 through 815, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget and the chairs of the Senate Budget Committee and the House Appropriations Committee for review.

Funds in Specific Appropriation 625 through 815 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2012, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds in Specific Appropriations 661, 673, and 686 a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as State Government property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

Funds and positions in Specific Appropriations 625 through 758 and 778 through 815 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 98,885 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 99,257 inmates.

Funds and positions in Specific Appropriations 625 through 758 and 778 through 815 are provided to address security needs for the prison population expected in Fiscal Year 2012-2013, as projected by the Criminal Justice Estimating Conference.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1186 through 1274A, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1186 through 1274A, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

Funds in Specific Appropriations 1186 through 1274A shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2012, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: JUVENILE DETENTION PROGRAM

DETENTION CENTERS

From the funds in Specific Appropriations 1186 through 1198, the department may contract for services consistent with the department's Juvenile Detention Alternative Initiative (JDAI) and the Annie E. Casey Foundation to divert youth from secure detention to alternative community based services. These services should be designed using in-home and community advocacy to reduce the need for more expensive restrictive placements, build community capacity to reduce recidivism, create supported work opportunities for youth, and improve community safety.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1238 through 1261, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1238 through 1261, the Department of Juvenile Justice shall first make residential bed reductions in both non-secure and secure beds that are operated by the department before reducing privately operated non-secure or secure residential beds. Should the department need to make additional residential bed reductions in order to meet the reduction in Specific Appropriations 1238 through 1261, per diem cost shall be given primary consideration.

From the funds in Specific Appropriations 2216 through 2314B, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Family Services, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee shall certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It shall be the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2216 through 2314B, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2246 through 2257, it is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by department employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Department of Economic Opportunity to the Regional Workforce Boards. Such transfers shall only occur if the department determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the department shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2246 through 2257, the Department of Economic Opportunity shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the department finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department shall notify the Executive Office of the Governor, the chair of the Senate Committee on Budget and the chair of the House Appropriations Committee.

Expanding

SECTION 6 - GENERAL GOVERNMENT

economic activity includes increasing employment through: existing businesses and through new businesses locating to the area; increasing the total production of goods and services; and increasing the need for expanded infrastructure due to increasing population in that area. The rural areas to be included in the strategies shall be all those counties and municipalities defined as rural for the Rural Economic Development Initiative (REDI) in section 288.0656, Florida Statutes, as well as any other counties or municipalities included in any of the designated Rural Areas of Critical Economic Concern (RACEC). The study shall create strategies for providing small business assistance as well as proactively recruiting new businesses to locate in rural areas. The study shall provide recommendations for strategies specific to each rural community. Besides employing the existing statutory incentive programs and the statutorily authorized criteria waivers for those programs in rural areas, the study shall identify alternative means of enticing businesses to locate or expand in rural areas. Alternative means may include increased incentive amounts, reduced incentive performance metrics, newly proposed incentives, and newly proposed ways to eliminate non-financial barriers to business expansion in rural areas, such as permitting barriers, workforce needs or needed transportation improvements. The study shall take into account local incentive programs as well as the existing state statutory incentive programs. EFI may use the annual data reported to the Office of Economic and Demographic Research pursuant to sections 125.045 and 166.021, Florida Statutes, related to incentives given to businesses, and the information reported directly to EFI related to the community inventory under section 288.912, Florida Statutes. The strategies developed shall include the most effective and efficient methods of coordinating and employing the resources and planning efforts of all of the entities identified in section 288.0656(6)(a), Florida Statutes, as Rural Economic Development Initiative agencies. The study shall specifically identify and rank both the impediments deemed most problematic and the inducements deemed most effective as they relate to promoting economic growth in each rural community. The study should also recommend the types and characteristics of businesses that should be priority targets for economic development in each rural community. EFI shall submit the study and recommendations no later than December 1, 2012, to the chair of the Senate Budget Committee and the chair of the House Appropriations Committee. The DEO shall also include in the annual incentives report required pursuant to section 288.907, Florida Statutes, on December 30, 2012, detailed information showing geographic distribution of incentive contracts, specifically showing the difference between rural and non rural communities and the industry type for such projects.

From the funds in Specific Appropriation 2360, \$1,500,000 from the Administrative Trust Fund is provided to the Department of Financial Services to contract with an independent third party consulting firm, with experience in planning public sector enterprise projects, that does not perform system implementations, project management, or provide technology integration services, to complete a study of the Florida Accounting Information Resource Subsystem (FLAIR), the Cash Management Subsystem (CMS), and agency financial business systems and provide a recommendation for the replacement or remediation of FLAIR and CMS. At a minimum, the study shall include: (1) an inventory of all agency financial business systems to include a description of each system's accounting and reporting functions and its number of users; (2) the completion of a gap analysis to determine which agency accounting and reporting requirements are currently not provided in FLAIR or CMS and an identification of those requirements that are common across agencies; (3) documentation of all business and technical requirements needed for FLAIR and CMS to automate system interfaces with the personnel information system, the purchasing subsystem and the planning and budgeting subsystem, and adhere to the current statutes related to financial reporting and information; and (4) a cost benefit analysis for replacing or remediating FLAIR and CMS to accommodate the needs of all state agencies for compliance with state and federal financial accounting and reporting laws.
