

HOUSE OF REPRESENTATIVES STAFF ANALYSIS

BILL #: CS/HB 915 Commercial Service Airports
SPONSOR(S): Transportation & Infrastructure Subcommittee, Avila
TIED BILLS: **IDEN./SIM. BILLS:** SB 1258

REFERENCE	ACTION	ANALYST	STAFF DIRECTOR or BUDGET/POLICY CHIEF
1) Transportation & Infrastructure Subcommittee	14 Y, 0 N, As CS	Johnson	Vickers
2) Transportation & Tourism Appropriations Subcommittee	11 Y, 0 N	Hicks	Davis
3) State Affairs Committee			

SUMMARY ANALYSIS

Florida is home to 20 commercial service airports, four of which are considered large-hub airports. The state's commercial service airports serve as critical economic engines with an annual economic impact of \$144 billion. Florida's commercial service airports operate under either a government department model (where the airport operates as a department of county or municipal government) or an airport authority model (where an airport authority is created as either an independent or a dependent special district). Because airports are generally governed and subsumed as part of local governments, state law currently provides for limited oversight and accountability.

The bill includes a number of provisions to enhance transparency and accountability for commercial service airports, including large-hub commercial service airports. The bill requires the Auditor General, at least once every five years, to conduct operational and financial audits of the state's large-hub commercial service airports, and provides minimum requirements for each operational audit. The bill also requires the members of the governing bodies of large-hub commercial service airports to submit the more detailed financial disclosure (Form 6) to the Commission on Ethics.

The bill requires the governing body of each commercial service airport to establish and maintain a website containing specified information, including meeting notices, agendas, approved budgets, and certain documents submitted to the Federal Aviation Administration (FAA). The bill reiterates that members of the governing body and employees of commercial service airports are subject to the Code of Ethics for Public Officers and Employees, and requires annual ethics training for members of the governing body.

The bill requires commercial service airports to submit specified information to the Department of Transportation (DOT) and requires DOT to annually submit a report to the Governor and the Legislature.

Finally, the bill prohibits DOT from expending funds allocated to a commercial service airport, unless the funds are pledged for debt service, until a commercial service airport demonstrates compliance with the transparency and accountability provisions of the bill.

The bill may have an indeterminate negative fiscal impact on the state and local governments. See Fiscal Analysis for details.

The bill has an effective date of October 1, 2020.

FULL ANALYSIS

I. SUBSTANTIVE ANALYSIS

A. EFFECT OF PROPOSED CHANGES:

Present Situation

Florida is home to 20 commercial service airports and 109 general aviation airports.¹ Additionally, there are hundreds of small private airports. Commercial service airports are publicly-owned airports that have at least 2,500 passenger boardings each year and receive scheduled passenger service. General aviation airports are airports that do not have scheduled service or have less than 2,500 passenger boardings each year.²

Florida's commercial service airports range in size from large-hub airports³ with over 20 million annual passenger boardings to small municipal airports with approximately 10,000 annual passenger boardings.⁴ Commercial service airports in Florida support approximately 1.1 million jobs, have a total annual payroll of approximately \$47.3 billion, and a total annual economic impact of approximately \$144 billion.⁵

Airport Oversight and Funding

The FAA is responsible for planning and developing a safe and efficient national airport system, including all programs related to airport safety and inspections and standards for airport design, construction, and operation. Federal law requires each commercial service airport to operate under a federal certificate and comply with federal aviation requirements. The FAA is responsible for national airport planning and environmental and social requirements and establishes policies related to airport rates and charges, compliance with grant assurances, and airport privatization.⁶

In Florida, the DOT is responsible for planning airport systems and overseeing the public airport system.⁷ The owner or lessee of a proposed public airport⁸ must receive DOT approval before site acquisition, construction, or establishment of a public airport facility.⁹ DOT is also responsible for licensing public airport facilities prior to the operation of aircraft to or from the facility and must inspect such facilities prior to licensing or license renewal.¹⁰ Current law authorizes local governments to establish and operate airports¹¹ and governs airport zoning and land use issues.¹²

Neither state law nor federal law establish requirements for airport governance or ownership. As such, Florida airports operate under either a government department model (where the airport operates as a department of the local government) or an airport authority model (where the airport authority is created as either an independent or a dependent special district). Because airports are generally governed and subsumed as part of local governments, state law provides for very little oversight and accountability.

⁷ Section 332.001, F.S.

⁸ Section 330.27(6), F.S. For purposes of DOT approval and licensure, the term "public airport" means a publicly or privately owned airport for public use.

⁹ Section 330.30(1), F.S.

¹⁰ Section 330.30(2), F.S.

¹¹ See chapter 332, F.S.

¹² See chapter 333, F.S.

DOT's work program identifies aviation development projects and discretionary capacity improvement projects. To the maximum extent possible, DOT's work program must remain consistent with the Florida Aviation System Plan and any approved and applicable local government comprehensive plans. DOT's work program also includes any project with funds administered by DOT, but undertaken and implemented by the airport operator. DOT's aviation program provides assistance to airports in the areas of access, economic enhancement, development, improvement, and land acquisition in the way of matching funds. These matching funds assist local governments and airport authorities in planning, designing, purchasing, constructing, and maintaining public use aviation facilities.¹³

For commercial service airports, DOT may provide up to 50 percent of the non-federal share if federal funding is available and up to 50 percent of the total project costs if federal funding is not available.¹⁴ For Fiscal Year 2019-2020, DOT was appropriated \$266 million from the State Transportation Trust Fund for Aviation Development Grants,¹⁵ available to both commercial service airports and general aviation airports.¹⁶

Auditor General

The position of the Auditor General is established by Article III, section 2 of the State Constitution.¹⁷ The Auditor General is appointed to office to serve at the pleasure of the Legislature, by a majority vote of the members of the Joint Legislative Auditing Committee, subject to confirmation by both houses of the Legislature.¹⁸ The Auditor General must conduct audits, examinations, or reviews of government programs as well as audit the accounts of state agencies, state universities, state colleges, district school boards, and others as directed by the Joint Legislative Auditing Committee.¹⁹ The Auditor General conducts operational and performance audits on public records and information technology systems and reviews all audit reports of local governmental entities, charter schools, and charter technical career centers.²⁰

A financial audit is an examination of financial statements in order to express an opinion on the fairness with which they are presented in conformity with generally accepted accounting principles and an examination to determine whether operations are properly conducted in accordance with legal and regulatory requirements.²¹ An operational audit is an audit whose purpose is to evaluate management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities in accordance with applicable laws, administrative rules, contracts, grant agreements, and other guidelines.²²

In 2017, the Auditor General conducted an operational audit of Tampa International Airport's 2012 Master Plan Capital Project.²³ More recently, at its meeting on December 12, 2019, the Joint Legislative Auditing Committee directed the Auditor General to perform a targeted operational audit of the Greater Orlando Aviation Authority.²⁴ However, the Auditor General has not conducted financial and operational audits of an entire airport's operation.²⁵

Financial Disclosures

Florida ethics laws provide for two tiers of financial disclosure for public officers, candidates for public office, and certain public employees: a full and public disclosure of financial interests (Form 6) and a statement of financial interests (Form 1).²⁶ The Florida Commission on Ethics oversees the financial disclosure filing process with the assistance of local qualifying officers.

Article 2, section 8(a) of the State Constitution requires all elected constitutional officers and candidates for such offices and, as may be determined by law, other public officers, candidates, and employees to file a Form 6. Additionally, members of certain expressway authorities, transportation authorities, bridge authorities, toll authorities, or expressway agencies are required to comply with these financial disclosure requirements.²⁷ Form 6 requires the filer to disclose his or her net worth and identify each asset and liability in excess of \$1,000 and its value together with either a copy of the person's most recent federal income tax return, or a sworn statement identifying each separate source and amount of income exceeding \$1,000.

Form 1 requires less detail than Form 6 and is filed by certain state and local officers not subject to the full and public disclosure of financial interests, including local officers²⁸ and specified state employees. Form 1 requires filers to disclose their primary sources of income (other than from their public position), secondary sources of income (in certain circumstances), real property in Florida (other than a residence or vacation home in Florida), intangible personal property, liabilities, and interests in specified businesses.²⁹

Procurement

Chapter 287, F.S., provides statutory requirements for the procurement of goods and service by the state. The Legislature recognizes that fair and open competition is a basic tenet of public procurement. It is essential to the effective and ethical procurement of commodities and contractual services that there be a system of uniform procedures utilized by state agencies in managing and procuring commodities and contractual services, that detailed justification of agency decisions in the procurement of commodities and contractual services be maintained, and that adherence by the agency and the vendor to specific ethical considerations be required.³⁰

Depending on the cost and characteristics of the needed goods or services, agencies may utilize a variety of procurement methods, which include:³¹

- Single source contracts, which are used when an agency determines that only one vendor is available to provide a commodity or service at the time of purchase;
- Invitations to bid, which are used when an agency determines that standard services or goods will meet needs, wide competition is available, and the vendor's experience will not greatly influence the agency's results;
- Requests for proposal, which are used when the procurement requirements allow for consideration of various solutions and the agency believes more than two or three vendors exist who can provide the required goods or services; and
- Invitations to negotiate, which are used when negotiations are determined to be necessary to obtain the best value and involve a request for highly complex, customized, mission-critical services.

²⁶ Sections 112.3144 and 112.3145, F.S.

²⁷ Section 112.3144(1)(b), F.S.

²⁸ Section 112.3145(1)(a), F.S., defines the term "local officer" to include every person who is elected to office in any political subdivision of the state, and every person who is appointed to fill a vacancy for an unexpired term in such an elective office and any appointed member of any of the following boards, councils, commissions, authorities, or other bodies of any county, municipality, school district, independent special district, or other political subdivision of the state.

²⁹ Section 112.3145(3), F.S.

³⁰ Section 287.001, F.S.

³¹ See ss. 287.012(6) and 287.057, F.S.

For contracts for commodities or services in excess of \$35,000 (CATEGORY TWO), agencies must utilize a competitive solicitation process;³² however, certain contractual services and commodities are exempt from this requirement.³³

Code of Ethics for Public Officers and Employees

Part III of chapter 112, F.S., contains the Code of Ethics for Public Officers and Employees. The intent of the code is to ensure that public officials conduct themselves independently and impartially, not using their offices for private gain other than compensation provided by law.³⁴ Included in the code are provisions relating to doing business with one's agency,³⁵ conflicting employment or contractual relationships,³⁶ post-employment restrictions,³⁷ and requirements for ethics training for specified constitutional officers and elected municipal officers and commissioners.³⁸

Effect of the Bill

The bill provides for additional transparency and accountability of commercial service airports, including large-hub commercial service airports. The bill defines the term "commercial service airport" as a publicly owned airport that has at least 2,500 passenger boardings each calendar year and receives scheduled passenger service as reported by the FAA. The bill defines the term "large-hub commercial service airport" as a publicly owned airport that has one percent or more of the annual passenger boardings in the United States as reported by the FAA. Based on these definitions, there are 20 commercial service airports in Florida, including four large-hub commercial service airports: Orlando, Miami, Fort Lauderdale, and Tampa international.

The bill requires the Auditor General, at least once every five years, to conduct an operational and financial audit of each large-hub commercial service airport. The bill requires each operational audit to include, at a minimum, an assessment of compliance with the transparency and accountability provisions for commercial service airports, including compliance with chapter 287, F.S., relating to procurement of personal property and services, and compliance with public records and public meeting laws.

The bill requires each member of the governing body of a large-hub commercial service airport to comply with the full and public disclosure of their financial interests contained in section 8, Article II of the State Constitution (Form 6). Since the Miami and Fort Lauderdale airports are operated by Miami-Dade and Broward counties, respectively, in which county commissions are already subject to the constitutional financial disclosure requirements (Form 6), this provision only impacts the governing bodies of the Orlando and Tampa airports, which are governed as independent special districts.

The bill requires the governing body³⁹ of each commercial service airport to establish and maintain a website to post information relating to the operation of such airport, including:

- All published notices of meetings and published meeting agendas for the governing body.
- The official minutes of each meeting of the governing body, which must be posted within three business days after the date of the meeting in which the minutes are approved.
- The approved budget for the commercial service airport for the current fiscal year, which must be posted on the website no later than seven days after the date of adoption. Budgets must remain on the website for two years following the conclusion of the fiscal year.

³² Section 287.057(1), F.S., requires all projects that exceed the Category Two (\$35,000) threshold contained in s. 287.017, F.S., to be competitively bid.

³³ See s. 287.057(3), F.S.

³⁴ Florida Commission on Ethics, *Guide to the Sunshine Amendment and the Code of Ethics for Public Employees*. 2019, p.1. Available at: <http://www.ethics.state.fl.us/Documents/Publications/GuideBookletInternet.pdf?cp=20191213> (Last visited Jan. 13, 2020).

³⁵ Section 112.313(3), F.S.

³⁶ Section 112.313(7), F.S.

³⁷ Section 112.313(9), F.S.

³⁸ Section 112.3142, F.S.

³⁹ The bill defines the term "governing body" as the governing body of the municipality, county, or special district that operates a commercial service airport.

- All commercial service airport planning documents submitted to the FAA, which must be posted upon submission to the FAA.
- All financial and statistical reports required to be submitted to the FAA, which must be posted upon submission to the FAA.
- Any contract and contract amendment executed by or on behalf of the commercial service airport in excess of \$35,000,⁴⁰ which must be posted on the website no later than seven days before the governing body votes to approve the contract or contract amendment.
- Position and rate information for each employee of the commercial service airport, including, at a minimum, the position title, position description, and annual salary or hourly salary rate of pay.

The bill provides that notwithstanding any other provision of law to the contrary, commercial service airports are subject to the requirements of chapter 287, F.S., relating to the procurement of personal property and services.

All contracts executed by or on behalf of the commercial service airport in excess of \$65,000⁴¹ must be approved by the governing body of a commercial service airport as a separate line item on the meeting agenda after a reasonable opportunity for public comment. Such contracts may not be approved as part of a consent agenda.

The bill reiterates that members of the governing body and employees of a commercial service airport are subject to the Code of Ethics for Public Officers and Employees.⁴²

Beginning January 1, 2021, each member of the governing body of a commercial service airport must complete four hours of ethics training each calendar year which addresses, at a minimum, section 8, Article II of the State Constitution, relating to ethics in government; the Code of Ethics for Public Officers and Employees; and the public records and public meetings laws. This requirement may be satisfied by completion of a continuing legal education class or other continuing professional education class, seminar, or presentation, if the required subject material is covered by the class.⁴³

Beginning November 1, 2021, and each November 1 thereafter, each commercial service airport must submit the following information to DOT:

- Its approved budget for the current fiscal year.
- Any financial reports submitted to the FAA during the previous calendar year.
- A link to the website for the commercial service airport.
- A statement that the commercial service airport has complied with chapter 112, F.S., relating to the Code of Ethics for Public Officers and Employees; chapter 287, F.S., relating to procurement; and the statutory provisions created in the bill. This statement must be verified as provided in section 92.525, F.S.

DOT must review the information submitted by each commercial service airport and each airport's website to determine the accuracy of the information reported. Beginning January 15, 2022, and each January 15 thereafter, DOT must provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report summarizing commercial service airport compliance with these oversight provisions.

DOT may not spend any funds allocated to a commercial service airport as contained in its adopted work program, unless pledged for debt service, until the commercial service airport demonstrates its compliance with the requirements established in the bill.

B. SECTION DIRECTORY:

Section 1 amends s. 11.45, F.S., relating to the duties of the Auditor General.

⁴⁰ This is the CATEGORY TWO purchasing threshold in s. 287.017, F.S.

⁴¹ This is the CATEGORY THREE purchasing threshold in s. 287.017, F.S.

⁴² Part III of Ch. 112, F.S.

⁴³ This requirement is identical to the ethics training required for constitutional officers, elected municipal officers, and commissioners of community redevelopment agencies contained in s. 112.3142(2), F.S.

Section 2 amends s. 112.3144, F.S., relating to the full and public disclosure of financial interests.

Section 3 creates s. 332.0075, F.S., relating to commercial service airports.

Section 4 provides an effective date of October 1, 2020.

II. FISCAL ANALYSIS & ECONOMIC IMPACT STATEMENT

A. FISCAL IMPACT ON STATE GOVERNMENT:

1. Revenues:

This bill does not appear to impact state revenues.

2. Expenditures:

The Auditor General will incur expenditures associated with operational and financial audits of large-hub commercial service airports; however, the Auditor General's office cannot determine with certainty the fiscal impact of this requirement.⁴⁴

DOT may incur expenditures associated with reviewing information submitted by commercial service airports and compiling that information into a report. The provisions of the bill will have an indeterminate impact on department workload and resources.

B. FISCAL IMPACT ON LOCAL GOVERNMENTS:

1. Revenues:

This bill does not appear to impact local government revenues.

2. Expenditures:

Local government entities operating commercial service airports may incur expenditures associated with compliance with the provisions of the bill; however, these expenditures are expected to be minimal.

C. DIRECT ECONOMIC IMPACT ON PRIVATE SECTOR:

None.

D. FISCAL COMMENTS:

DOT may not spend any funds allocated to a commercial service airport as contained in its adopted work program, unless pledged for debt service, until the commercial service airport demonstrates its compliance with the transparency and accountability requirements established in the bill. To the extent a commercial service airport does not comply with the requirements of this bill, the fiscal impact cannot be quantified at this time.

⁴⁴ Email from Bruce Jeroslow, General Council, Florida Auditor General, FW: HB 915-Auditor General Impact, Jan. 6, 2020. (Copy on file with the Transportation & Infrastructure Subcommittee).

III. COMMENTS

A. CONSTITUTIONAL ISSUES:

1. Applicability of Municipality/County Mandates Provision:

The county/municipality mandates provision of Art. VII, s. 18 of the State Constitution may apply because the bill requires various transparency and accountability measures from commercial service airports; however, an exemption may apply since it is expected to be an insignificant fiscal impact.

2. Other:

None

B. RULE-MAKING AUTHORITY:

This bill does not grant rulemaking authority, nor does it require rulemaking.

C. DRAFTING ISSUES OR OTHER COMMENTS:

None.

IV. AMENDMENTS/ COMMITTEE SUBSTITUTE CHANGES

On January 15, 2020, the Transportation & Infrastructure Subcommittee adopted two amendments and reported the bill favorably as a committee substitute. The amendments provide additional specificity regarding the operational audits the Auditor General is required to conduct on large-hub commercial service airports and change the effective date of the bill from July 1, 2020, to October 1, 2020.

This analysis is drafted to the committee substitute as approved by the Transportation & Infrastructure Subcommittee.
