PRAYER

The following prayer was offered by Rev. Candace McKibben, Director of Supportive Care Services, Big Bend Hospice, Tallahassee:

Creator and lover of the world, as this chamber pauses before re-summing the important work before them, we call on a wisdom and strength beyond our own. More than a mere formality—we ask earnestly and expectantly that by your grace we demonstrate our best selves this day. Help these Senators to put aside differences and look for the common good. Give them wisdom to see the big picture, while holding in sight the particular lives that are impacted by the decisions that they make this day. Renew in each of them the purity and passion that was theirs when they first began their public service. May they not grow weary in doing what is right and good, and may they love the world and their particular constituents, even as you love the world and all within it. Remind them of the trust that has been placed in them, and grant that they might be wise and fair in the words they speak and the way they conduct business in this chamber.

When these men and women grow tired and faint, renew them with strength. When they become narrow and determined, expand their thoughts and willingness to consider every angle. When they grow homesick, grant them good and happy memories of times spent with those they love. When they lose confidence in the process in which they are engaged, give them a vision of what they can accomplish as they work together with integrity and courage.

Creator and lover of this world, thank you for the gift of life and for this important work to do. May these public servants find a way to rise above what is divisive and petty and work for the best for all Floridians. Amen.

SR 2164—A resolution recognizing April 2011 as “Fair Housing Month” in Florida.

WHEREAS, Title VIII of the federal Civil Rights Act of 1968 and the federal Fair Housing Act of 1988 prohibit discrimination based on race, color, religion, sex, national origin, disability, or familial status in the sale, rental, and financing of dwellings, and

WHEREAS, in 1983, the Florida Legislature enacted the Florida Fair Housing Act to ensure that discrimination in the sale or rental of any dwelling because of race, color, national origin, sex, or religion be prohibited, and subsequently amended the Act in 1988 to include handicap and familial status, and

WHEREAS, according to a recent report from the federal Fair Housing Administration, Florida continues to experience a catastrophic rate of home foreclosures, and, as of February 2011, had the highest foreclosure rate in the nation, due in part to predatory lending practices from 2004 through 2006, and

WHEREAS, the Florida Commission on Human Relations conducts thorough and timely investigations of housing discrimination complaints and, as a result of its investigative efforts, has found that housing discrimination continues to exist in this state, with disability, race, national origin, and familial status constituting the top four areas of housing discrimination cases closed in the 2009-2010 fiscal year, and

WHEREAS, given the current housing crisis, the Florida Commission on Human Relations is working harder than ever to expand its outreach and educational efforts to ensure that members of the housing industry are informed of fair housing laws and their responsibilities, and to increase community partnerships to ensure that Floridians are treated fairly and are provided equal access to adequate and affordable housing without discrimination, prejudice, or barriers, NOW, THEREFORE,

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(a) ~~It is~~ *The public purpose of this subsection is to ensure that there is the existence of an orderly market for property insurance for residents Floridians and Florida businesses of this state.*

1. The Legislature finds that private insurers are unwilling or unable to provide affordable property insurance coverage in this state to the extent sought and needed. The absence of affordable property insurance threatens the public health, safety, and welfare and likewise threatens the economic health of the state. The state therefore has a compelling public interest and a public purpose to assist in assuring that property in the state is insured and that it is insured at affordable rates so as to facilitate the remediation, reconstruction, and replacement of damaged or destroyed property in order to reduce or avoid the negative effects otherwise resulting to the public health, safety, and welfare, to the economy of the state, and to the revenues of the state and local governments which are needed to provide for the public welfare. It is necessary, therefore, to provide affordable property insurance to applicants who are in good faith entitled to procure insurance through the voluntary market but are unable to do so. The Legislature intends, ~~therefore, by this subsection~~ that affordable property insurance be provided and that it continue to be provided, as long as necessary, through Citizens Property Insurance Corporation, a government entity that is an integral part of the state, and that is not a private insurance company. To that end, ~~the Citizens Property Insurance~~ corporation shall strive to increase the availability of affordable property insurance in this state, while achieving efficiencies and economies, and while providing service to policyholders, applicants, and agents which is no less than the quality generally provided in the voluntary market, for the achievement of the foregoing public purposes. Because it is essential for this government entity to have the maximum financial resources to pay claims following a catastrophic hurricane, it is the intent of the Legislature that ~~the Citizens Property Insurance~~ corporation continue to be an integral part of the state and that the income of the corporation be exempt from federal income taxation and that interest on the debt obligations issued by the corporation be exempt from federal income taxation. *The corporate logo of the corporation must include the name of the corporation and the words "A Taxpayer-Funded Corporation."*

2. The Residential Property and Casualty Joint Underwriting Association originally created by this statute shall be known, ~~as of July 1, 2002,~~ as the Citizens Property

Amendment 16 (117314)—Delete lines 2606-2674 and insert: 1. A policy covering both a home and motor vehicle may be nonrenewed for any reason applicable to either the property or motor vehicle insurance after providing 90 days' notice. ~~The insurer shall give the named insured written notice of nonrenewal, cancellation, or termination at least 180 days prior to the effective date of the nonrenewal, cancellation, or termination for a named insured whose residential structure has been insured by that insurer or an affiliated insurer for at least a 5-year period immediately prior to the date of the written notice.~~

2. ~~If~~ ~~When~~ cancellation is for nonpayment of premium, at least 10 days' written notice of cancellation accompanied by the reason therefor ~~shall~~ be given. As used in this subparagraph, the term "nonpayment of premium" means failure of the named insured to discharge when due ~~any~~ of her or his obligations in connection with the payment of premiums on a policy or any installment of such premium, whether the premium is payable directly to the insurer or its agent or indirectly under any premium finance plan or extension of credit, or failure to maintain membership in an organization if such membership is a condition precedent to insurance coverage. ~~The term "Nonpayment of premium" also means the failure of a financial institution to honor an insurance applicant's check after delivery to a licensed agent for payment of a premium, even if the agent has previously delivered or transferred the premium to the insurer. If a dishonored check represents the initial premium payment, the contract and all contractual obligations are shall be void ab initio unless the nonpayment is cured within the earlier of 5 days after actual notice by certified mail is received by the applicant or 15 days after notice is sent to the applicant by certified mail or registered mail, and if the contract is void, any premium received by the insurer from a third party must shall be refunded to that party in full.~~

3. ~~If~~ ~~When~~ such cancellation or termination occurs during the first 90 days ~~during which~~ the insurance is in force and the insurance is canceled or terminated for reasons other than nonpayment of premium, at least 20 days' written notice of cancellation or termination accompanied by the reason therefor ~~must shall~~ be given ~~unless except where~~ there has been a material misstatement or misrepresentation or failure to comply with the underwriting requirements established by the insurer.

4. The requirement for providing written notice ~~of nonrenewal~~ by June 1 of any nonrenewal that would be effective between June 1 and November 30 does not apply to the following situations, but the insurer remains subject to the requirement to provide such notice at least 100 days ~~before prior to~~ the effective date of nonrenewal:

a. A policy that is nonrenewed due to a revision in the coverage for sinkhole losses and catastrophic ground cover collapse pursuant to s. 627.706, ~~as amended by s. 30, chapter 2007-1, Laws of Florida.~~

b. A policy that is nonrenewed by Citizens Property Insurance Corporation, pursuant to s. 627.351(6), for a policy that has been assumed by an authorized insurer offering replacement ~~or renewal~~ coverage to the policyholder ~~is exempt from the notice requirements of paragraph (a) and this paragraph. In such cases, the corporation must give the named insured written notice of nonrenewal at least 45 days before the effective date of the nonrenewal.~~

After the policy has been in effect for 90 days, the policy ~~may shall~~ not be canceled by the insurer ~~unless except when~~ there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements established by the insurer within 90 days ~~of~~ the date of effectuation of coverage, or a substantial change in the risk covered by the policy or ~~if when~~ the cancellation is for all insureds under such policies for a given class of insureds. This paragraph does not apply to individually rated risks having a policy term of less than 90 days.

Amendment 1 (229300) (with title amendment)—Between lines 417 and 418 insert:

Section 3. Paragraph (a) of subsection (9) of section 456.057, Florida Statutes, is amended to read:

456.057 Ownership and control of patient records; report or copies of records to be furnished.—

(9)(a)1. The department may obtain patient records pursuant to a subpoena without written authorization from the patient if the department and the probable cause panel of the appropriate board, if any, find reasonable cause to believe that a health care practitioner has excessively or inappropriately prescribed any controlled substance specified in chapter 893 in violation of this chapter or any professional practice act or that a health care practitioner has practiced his or her profession below that level of care, skill, and treatment required as defined by this chapter or any professional practice act and also find that appropriate, reasonable attempts were made to obtain a patient release. Notwithstanding the foregoing, the department need not attempt to obtain a patient release when investigating an offense involving the inappropriate prescribing, overprescribing, or diversion of controlled substances and the offense involves a pain-management clinic. The department may obtain patient records pursuant to a subpoena and without patient authorization or notification to the patient subpoena from any pain-management clinic required to be licensed if the department has probable cause to believe that a violation of any provision of s. 458.3265 or s. 459.0137 is occurring or has occurred and reasonably believes that obtaining such patient authorization is not feasible due to the volume of the dispensing and prescribing activity involving controlled substances and that obtaining patient authorization or the issuance of a subpoena would jeopardize the investigation.

2. The department may obtain patient records and insurance information pursuant to a subpoena without written authorization from the patient if the department and the probable cause panel of the appropriate board, if any, find reasonable cause to believe that a health care practitioner has provided inadequate medical care based on termination of insurance and also find that appropriate, reasonable attempts were made to obtain a patient release.

3. The department may obtain patient records, billing records, insurance information, provider contracts, and all attachments thereto pursuant to a subpoena without written authorization from the patient if the department and probable cause panel of the appropriate board, if any, find reasonable cause to believe that a health care practitioner has submitted a claim, statement, or bill using a billing code that would result in payment greater in amount than would be paid using a billing code that accurately describes the services performed, requested payment for services that were not performed by that health care practitioner, used information derived from a written report of an automobile accident generated pursuant to chapter 316 to solicit or obtain patients personally or through an agent regardless of whether the information is derived directly from the report or a summary of that report or from another person, solicited patients fraudulently, received a kickback as defined in s. 456.054, violated the patient brokering provisions of s. 817.505, or presented or caused to be presented a false or fraudulent insurance claim within the meaning of s. 817.234(1)(a), and also find that, within the meaning of s. 817.234(1)(a), patient authorization cannot be obtained because the patient cannot be located or is deceased, incapacitated, or suspected of being a participant in the fraud or scheme, and if the subpoena is issued for specific and relevant records.

4. Notwithstanding subparagraphs 1.-3., when the department investigates a professional liability claim or undertakes action pursuant to s. 456.049 or s. 627.912, the department may obtain patient records pursuant to a subpoena without written authorization from the patient if the patient refuses to cooperate or if the department attempts to obtain a patient release and the failure to obtain the patient records would be detrimental to the investigation.

And the title is amended as follows:

Delete line 16 and insert: Health to adopt rules; amending s. 456.057, F.S.; authorizing the Department of Health to obtain patient records pursuant to a subpoena and without notification to the patient from a pain-management clinic under certain circumstances; amending s. 458.305, F.S.;

PRAYER

The following prayer was offered by Rev. David Throckmorton, First Baptist Church, Blountstown:

Our Lord and our God, we are grateful for this opportunity to come before your presence. First of all, Father, we certainly want to remember all who were affected by the storms and the tornadoes in Alabama and Georgia and throughout the South and, Lord, that you will minister and comfort and protect. Father, today we find ourselves with a myriad of needs and concerns. In fact, all of us are overwhelmed with the confusion, the upset, and the pain. Father, we know that none of us can deny that human need is greater than ever, and that the crooked roads of our existence at all levels need to be straightened.

Thankfully Father, you are greater than we are. You are the highest power in all the universe. As we look back over the years of our existence, you have an obvious reputation of helping and providing and illuminating and blessing. If we ever needed you, O God, we need you now. We need your help. We need you to provide. We need you to illuminate us with the bright light of your love in the midst of all the darkness. We need you, O God, to bless us.

Thankfully, we can call upon your name and believe that you will actually hear us, and not just hear, but answer our requests. Thankfully, we can call on you and you will answer and tell us great and unsearchable things that we do not know. Thankfully, there are times you do not give us an answer, but you give us your wonderful, comforting presence.

We call upon you, mighty God, to descend upon this Senate. Lead them, love them, bless them as they conduct the business of this great state of Florida. It is in the name of the Lord that we pray. Amen.

PLEDGE

Senate Pages Mark Cleaver of Grand Island; Stephanie Marxsen of Carrabelle; Carlton Robinson, daughter of former Senator Lisa Carlton of Sidel; Grace Beatty of Ft. Myers; and Hannah Stargel of Lakeland, led the Senate in the pledge of allegiance to the flag of the United States of America.

SPECIAL GUESTS

Senator Detert introduced former Senator Lisa Carlton who was present in the chamber.

CS for HJR 1179—A joint resolution proposing the creation of Section 28 of Article I of the State Constitution to generally prohibit public funding of abortions and prohibit the State Constitution from being interpreted to create broader rights to an abortion than those contained in the United States Constitution.

Be It Resolved by the Legislature of the State of Florida:

That the following creation of Section 28 of Article I of the State Constitution is agreed to and shall be submitted to the electors of this state for approval or rejection at the next general election or at an earlier special election specifically authorized by law for that purpose:

ARTICLE I

DECLARATION OF RIGHTS

SECTION 28. Prohibition on public funding of abortions; construction of abortion rights.—

(a) Public funds may not be expended for any abortion or for health-benefits coverage that includes coverage of abortion. This subsection does not apply to:

- (1) Expenditures required by federal law;*
 - (2) An abortion that is necessary to save the life of the mother; or*
 - (3) Pregnancies that result from rape or incest.*
- (b) This constitution may not be interpreted to create*

broader rights to an abortion than those contained in the United States Constitution.

BE IT FURTHER RESOLVED that the following statement be placed on the ballot:

CONSTITUTIONAL AMENDMENT

ARTICLE I, SECTION 28

PROHIBITION ON PUBLIC FUNDING OF ABORTIONS; CONSTRUCTION OF ABORTION RIGHTS.—This proposed amendment provides that public funds may not be expended for any abortion or for health-benefits coverage that includes coverage of abortion. This prohibition does not apply to expenditures required by federal law, an abor-

tion that is necessary to save the life of the mother, or cases of rape or incest.

This proposed amendment provides that the State Constitution may not be interpreted to create broader rights to an abortion than those contained in the United States Constitution. With respect to abortion, this proposed amendment overrules court decisions which conclude that the right of privacy under Article I, Section 23 of the State Constitution is broader in scope than that of the United States Constitution.

SM 954—A memorial to the Congress of the United States, urging Congress to propose to the states for ratification an amendment to the United States Constitution relating to parental rights.

WHEREAS, the right of parents to direct the upbringing and education of their children is a fundamental right protected by the Constitutions of the United States and the State of Florida, and

WHEREAS, our nation has historically relied first and foremost on parents to meet the real and constant needs of children, and

WHEREAS, the interests of children are best served when parents are free to make childrearing decisions about education, religion, and other areas of a child’s life without state interference, and

WHEREAS, the United States Supreme Court in *Wisconsin v. Yoder* held that “This primary role of the parents in the upbringing of their children is now established beyond debate as an enduring American tradition,” and

WHEREAS, the United States Supreme Court in *Troxel v. Granville* produced six different opinions on the nature and enforceability of parental rights under the United States Constitution, creating confusion and ambiguity about the fundamental nature of parental rights in the laws and society of the several states, and

WHEREAS, a number of members of Congress have introduced joint resolutions that propose an amendment to the United States Constitution to prevent erosion of the enduring American tradition of treating parental rights as fundamental rights, commonly referred to as the Parental Rights Amendment, and

WHEREAS, the Parental Rights Amendment will add explicit text to the Constitution of the United States to forever protect the rights of parents as they are now enjoyed, without substantive change to current state or federal laws respecting these rights, and

WHEREAS, such enumeration of these rights in the text of the United States Constitution will preserve them from being infringed upon by the shifting ideologies and interpretations of the United States Supreme Court, NOW, THEREFORE,

Be It Resolved by the Legislature of the State of Florida:

That the Florida Legislature respectfully petitions the Congress of the United States to propose to the states an amendment to the Constitution of the United States to read as follows:

ARTICLE ____

Section 1. The liberty of parents to direct the upbringing and education of their children is a fundamental right.

Section 2. Neither the United States nor any State shall infringe upon this right without demonstrating that its governmental interest as applied to the person is of the highest order and not otherwise served.

Section 3. No treaty may be adopted nor shall any source of international law be employed to supersede, modify, interpret, or apply to the rights guaranteed by this article.

BE IT FURTHER RESOLVED that copies of this memorial be dispatched to the President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, and to each member of the Florida delegation to the United States Congress.

WHEREAS, it is the firm conviction of the Legislature of the State of Florida that it is wrong to fund the prosperity of the present generation by robbing future Americans of their own, and

WHEREAS, mortgaging the birthright of our children and grandchildren is a dangerous departure from traditional American values which threatens to permanently undermine the strength of our nation, and

WHEREAS, in the 8 months between May 1, 2010, and December 31, 2010, the national debt grew by more than \$1 trillion, and as of April 1, 2011, the total public debt outstanding for the United States was \$14,251,174,516,308, and

WHEREAS, Congress has voted to raise the debt limit 10 times since 2001, and the United States Secretary of the Treasury has called on the Congress to immediately consider voting to raise it again, and

WHEREAS, our debt is owed increasingly to the governments of foreign nations, not to the citizens of the United States; therefore, our wealth is transferred to others and will not be available to supply the means for America's future growth and prosperity, and

WHEREAS, this generation will bequeath to its children one of the world's most indebted industrial democracies, and

WHEREAS, high federal deficits cause increasingly high payments for debt interest in the future, make future borrowing more costly, reduce investment activity, and thus reduce the size of the future economy, and

WHEREAS, the people of Florida recognized the wisdom of fiscal discipline and enshrined in its State Constitution the requirement for a balanced budget to place a prudent limit on the tendencies of government, and

WHEREAS, the Florida Legislature has made fiscally responsible decisions, maintaining a balanced budget and saving the citizens of this state from crippling deficits, massive debt burdens, and bankruptcy, and

WHEREAS, we the Legislature of the State of Florida call for the Constitution of the United States to be amended to require the Federal Government to operate with fiscal responsibility, common sense, and within the revenues granted to it by the people, and

WHEREAS, the Federal Government has for too long relied on revenue increases and borrowing against our future, rather than on prudent spending decisions within the limits of current revenues, and

WHEREAS, lasting resolution of this nation's budget deficit will be achieved only by addressing the spending habits of our Federal Government, not by increasing the tax burden under which our citizens already labor, and

WHEREAS, Article V of the Constitution of the United States makes provision for amending the Constitution on the application of the legislatures of two-thirds of the several states, calling a convention for proposing amendments that shall be valid to all intents and purposes if ratified by the legislatures of three-fourths of the several states, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by Congress, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida, the House of Representatives Concurring:

That the Legislature of the State of Florida, with all due respect and great reluctance, does hereby make application to the Congress of the United States pursuant to Article V of the Constitution of the United

States to call a convention for the sole purpose of proposing an amendment to the Constitution of the United States to achieve and maintain a balanced budget by, among other things:

- (1) Requiring that total outlays not exceed total receipts for any fiscal year;
- (2) Requiring the setting of a fiscal year total outlay limit;
- (3) Prohibiting increases in taxes or other revenue sources;
- (4) Providing that, for reasons other than war or military conflict, the limits of this amendment may be waived by law for any fiscal year if approved by at least two-thirds of both houses of Congress;
- (5) Allowing for provisions of the amendment to take effect within specified time periods;
- (6) Providing for the waiver of the provisions of the amendment for any fiscal year in which a declaration of war is in effect or the United States is engaged in military conflict that causes an imminent and serious military threat to national security; and
- (7) Allowing for congressional enforcement.

BE IT FURTHER RESOLVED that this concurrent resolution supersedes all previous memorials and concurrent resolutions applying to the Congress of the United States to call a convention for the purpose of proposing a balanced budget amendment to the Constitution of the United States, including Senate Memorial 234 and House Memorial 2801, both passed in 1976, and were superseded, revoked, and withdrawn in 1988 by Senate Memorial 302, and Senate Concurrent Resolution 10, passed in 2010, and that such previous memorials and resolutions are hereby revoked and withdrawn, nullified, and superseded to the same effect as if they had never been passed.

BE IT FURTHER RESOLVED that this concurrent resolution is revoked and withdrawn, nullified, and superseded to the same effect as if it had never been passed, and retroactive to the date of passage, if it is used for the purpose of calling a convention or used in support of conducting a convention to amend the Constitution of the United States for any purpose other than requiring a balanced federal budget.

BE IT FURTHER RESOLVED that a copy of this concurrent resolution be dispatched to the President of the United States Senate, to the Speaker of the United States House of Representatives, to each member of the Florida delegation to the United States Congress, and to the presiding officers of each house of the several state legislatures.

Amendment 2 (491388) (with directory and title amendments)—Delete lines 501-524 and insert:

(1) REGISTRATION.—

(a) All privately owned pain-management clinics, facilities, or offices, hereinafter referred to as "clinics," which advertise in any medium for any type of pain-management services, or employ a physician who is primarily engaged in the treatment of pain by prescribing or dispensing controlled substance medications, must register with the department unless:

1. That clinic is licensed as a facility pursuant to chapter 395;
2. The majority of the physicians who provide services in the clinic primarily provide surgical services *or interventional pain procedures of the type routinely billed using surgical codes*;
3. The clinic is owned by a publicly held corporation whose shares are traded on a national exchange or on the over-the-counter market and whose total assets at the end of the corporation's most recent fiscal quarter exceeded \$50 million;
4. The clinic is affiliated with an accredited medical school at which training is provided for medical students, residents, or fellows;
5. The clinic does not prescribe or dispense controlled substances for the treatment of pain; or
6. The clinic is owned by a corporate entity exempt from federal taxation under 26 U.S.C. s. 501(c)(3).

(f) If the department finds *upon a hearing by the probable cause panel of the appropriate board* that a pain-management clinic does not meet the requirement of paragraph (d) or is owned, directly or indirectly, by a person meeting any criteria listed in paragraph (e), the department shall revoke the certificate of registration previously issued by the department. As determined by rule, the department may grant an exemption to denying a registration or revoking a previously issued registration if more than 10 years have elapsed since adjudication. As used in this subsection, the term "convicted" includes an adjudication of guilt following a plea of guilty or nolo contendere or the forfeiture of a bond when charged with a crime.

(g) The department may revoke the clinic's certificate of registration and prohibit all physicians associated with that pain-management clinic from practicing at that clinic location based upon an annual inspection and evaluation of the factors described in subsection (3) *and upon a final determination by the probable cause panel of the appropriate board that any physician associated with that pain-management clinic knew or*

should have known of any violations of the factors described in subsection (3).

(h)1. If the registration of a pain-management clinic is revoked or suspended, the designated physician of the pain-management clinic, the owner or lessor of the pain-management clinic property, the manager, and the proprietor shall cease to operate the facility as a pain-management clinic as of the effective date of the suspension or revocation.

2. *Notwithstanding subparagraph 1., the clinic's registration shall not be revoked or suspended if the clinic, within 24 hours after notification of suspension or revocation, appoints another designated physician who has a full, active, and unencumbered license under this chapter or chapter 459 to operate a pain-management clinic.*

(k) If the clinic's registration is revoked, any person named in the registration documents of the pain-management clinic, including persons owning or operating the pain-management clinic, may not, as an individual or as a part of a group, apply to operate a pain-management clinic for 5 years after the date the registration is revoked *upon a finding by the probable cause panel of the appropriate board, and an opportunity to be heard, that the persons operating such clinic knew or should have known of violations causing such revocation.*

499.01 Permits.—

(2) The following permits are established:

(t) *Health care clinic establishment permit.*—Effective January 1, 2009, a health care clinic establishment permit is required for the purchase of a prescription drug by a place of business at one general physical location that provides health care or veterinary services, which is owned and operated by a business entity that has been issued a federal employer tax identification number. For the purpose of this paragraph, the term “qualifying practitioner” means a licensed health care practitioner defined in s. 456.001, or a veterinarian licensed under chapter 474, who is authorized under the appropriate practice act to prescribe and administer a prescription drug.

1. An establishment must provide, as part of the application required under s. 499.012, designation of a qualifying practitioner who will be responsible for complying with all legal and regulatory requirements related to the purchase, recordkeeping, storage, and handling of the prescription drugs. Upon initial appointment of a qualifying practitioner, the qualifying practitioner and the health care clinic establishment shall notify the department on a form furnished by the department within 10 days after such employment. In addition, the qualifying practitioner and health care clinic establishment shall notify the department within 10 days after any subsequent change.

PRAYER

The following prayer was offered by Rabbi Schneur Z. Oirechman, Director of Chabad Lubavitch of the Panhandle, Tallahassee:

Almighty God, King of the universe, as the honorable members of the Florida Senate gather here today to serve the citizens of this great state, to ensure a better life for them and their families, bless them with courage, with faith, and with freedom.

As we have just concluded the Jewish holiday of Passover, when we celebrated the exodus and freedom, let us remember the ancient message of Passover—the message of hope amidst deepest darkness. Almighty God, bless us with the courage of the Jews of old, who clung to faith even when their children perished before their eyes, a faith that led to their freedom.

Almighty God, we pray today for that same courage and faith, that the public and the public servant alike may see the light of economic freedom.

We pray for the needy among us. We pray for a better economy. We pray for the future of our state. We pray for a time of redemption—a time of no sickness, no suffering, and no evil, and a time of eternal good.

Almighty God, bless us with the courage to try, the faith to believe, and the freedom to prosper. Let us build a better and brighter future for our Sunshine State. Let us pass over our limits to reach greater heights. Almighty God, let our public servants be inspired and empowered to overcome all challenges. May the sacrifices they and their families make for the community find favor in your eyes.

May in their lives be fulfilled the prayer: “All those who faithfully work for the needs of the community, may God reward them and relieve them of any illness, heal their entire bodies, pardon all their sins and send blessing and success in all their endeavors,” and let us say, Amen.

PLEDGE

Senate Pages Chase Lowery of Havana; Adriana Perez-Siam of Miami; Alexander “Alex” Tate of Venice; Anne “Annie” Pucciarelli of Brandon; and Angel Brenkman of Tallahassee, led the Senate in the pledge of allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Walter B. Flesner III of Cape Coral, sponsored by Senator Fasano, as doctor of the day. Dr. Flesner specializes in Family Practice.

ADOPTION OF RESOLUTIONS

On motion by Senator Braynon—

By Senator Braynon—

SR 2198—A resolution recognizing April 16-22, 2011, as “Minority Cancer Awareness Week” in Florida.

WHEREAS, there has been recent progress in the fight against cancer, yet due to disparities in the cancer burden among different segments of the U.S. population, many Floridians still suffer unequal rates of cancer incidence and mortality, and medically underserved populations have inadequate access to quality cancer care, and

WHEREAS, for certain minority populations, cancer risks and rates may be influenced by factors such as poverty, social inequalities, and cultural or inherited factors that decrease or increase risk, and

WHEREAS, disparities in the cancer burden among racial and ethnic minorities largely reflect obstacles to receiving health care services related to cancer prevention, early detection, and high-quality treatment, and

WHEREAS, lack of health insurance is more prevalent among certain minority groups, with 1 in 5 African Americans and 1 in 3 Hispanics and Latinos uninsured in 2008, while only 1 in 10 non-Hispanic whites lacked health insurance during that same year, and

WHEREAS, African Americans have the highest death rate and shortest survival of any racial and ethnic group in the nation for most cancers, with the death rate for all cancers combined at 33 percent higher in African American men and 16 percent higher in African American women than in white men and women in 2005, and

WHEREAS, despite improvements in the overall 5-year relative survival, African Americans continue to be less likely to survive 5 years following the onset of most cancers due largely to barriers that prevent timely and high-quality medical care and disparities in treatment, and

WHEREAS, Hispanics and Latinos are the largest, fastest-growing minority group in the United States, and among Hispanics, cancer is the second leading cause of death, accounting for 20 percent of deaths overall and 13 percent of deaths in children, and

WHEREAS, Hispanics have higher rates of cancers associated with infection, such as uterine cervix, liver, and stomach cancer, yet are less likely to have health insurance than any other racial or ethnic group, and

WHEREAS, access to care is one of the most significant factors influencing the cancer burden in the Hispanic population, and many may not receive health care due to financial barriers, which include inadequate health insurance, structural barriers, which include poor geographic access to providers, and personal barriers, which include cultural and linguistic factors, and

(3) The commission shall *use the International Codes published by the International Code Council, the National Electric Code (NFPA 70), or other nationally adopted model codes and standards needed to develop the state base code in order to select from available national or international model building codes, or other available building codes and standards currently recognized by the laws of this state, to form the foundation for the Florida Building Code. The commission may modify the selected model codes and standards as needed to accommodate the specific needs of this state. Standards or criteria referenced by the selected model codes shall be similarly incorporated by reference. If a referenced standard or criterion requires amplification or modification to be appropriate for use in this state, only the amplification or modification shall be specifically set forth in the Florida Building Code. The Florida Building Commission may approve technical amendments to the code, subject to the requirements of subsections (8) and (9), after the amendments have been subject to the following conditions:*

(a) The proposed amendment has been published on the commission's website for a minimum of 45 days and all the associated documentation has been made available to any interested party before any consideration by ~~a any~~ technical advisory committee;

(b) In order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a three-fourths vote of the members present at the ~~Technical Advisory~~ committee meeting and at least half of the regular members must be present in order to conduct a meeting;

(c) After technical advisory committee consideration and a recommendation for approval of any proposed amendment, the proposal must be published on the commission's website for ~~at least not less than~~ 45 days before any consideration by the commission; and

(d) A ~~any~~ proposal may be modified by the commission based on public testimony and evidence from a public hearing held in accordance with chapter 120.

The commission shall incorporate within sections of the Florida Building Code provisions that ~~which~~ address regional and local concerns and variations. The commission shall make every effort to minimize conflicts between the Florida Building Code, the Florida Fire Prevention Code, and the Life Safety Code.

(7)(a) The commission, ~~by rule adopted pursuant to ss. 120.536(1) and 120.54,~~ shall update the Florida Building Code *by rule* every 3 years. When updating the Florida Building Code, the commission shall select the most current version of the International Building Code, the Inter-

national Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, and the International Residential Code, all of which are adopted by the International Code Council, and the National Electrical Code, which is adopted by the National Fire Protection Association, to form the foundation codes of the updated Florida Building Code, if the version has been adopted by the applicable model code entity. The commission shall select the most current version of the International Energy Conservation Code (IECC) as a foundation code; however, the IECC ~~must~~ *shall* be modified by the commission to maintain the efficiencies of the Florida Energy Efficiency Code for Building Construction adopted and amended pursuant to s. 553.901.

(b) Codes regarding noise contour lines shall be reviewed annually, and the most current federal guidelines shall be adopted.

(c) The commission may modify any portion of the foundation codes only as needed to accommodate the specific needs of this state, maintaining Florida-specific amendments previously adopted by the commission and not addressed by the updated foundation code. Standards or criteria referenced by the codes shall be incorporated by reference. If a referenced standard or criterion requires amplification or modification to be appropriate for use in this state, only the amplification or modification shall be set forth in the Florida Building Code. The commission may approve technical amendments to the updated Florida Building Code after the amendments have been subject to the conditions set forth in paragraphs (3)(a)-(d). Amendments to the foundation codes which are adopted in accordance with this subsection ~~must~~ *shall* be clearly marked in printed versions of the Florida Building Code so that ~~the fact that the provisions are~~ Florida-specific amendments to the foundation codes ~~are~~ *is* readily apparent.

(d) The commission shall further consider the commission's own interpretations, declaratory statements, appellate decisions, and approved statewide and local technical amendments and ~~shall~~ incorporate such interpretations, statements, decisions, and amendments into the updated Florida Building Code only to the extent that they are needed to modify the foundation codes to accommodate the specific needs of the state. A change made by an institute or standards organization to any standard or criterion that is adopted by reference in the Florida Building Code does not become effective statewide until it has been adopted by the commission. Furthermore, the edition of the Florida Building Code which is in effect on the date of application for any permit authorized by the code governs the permitted work for the life of the permit and any extension granted to the permit.

(e) A rule updating the Florida Building Code in accordance with this subsection shall take effect no sooner than 6 months after publication of the updated code. Any amendment to the Florida Building Code which is adopted upon a finding by the commission that the amendment is necessary to protect the public from immediate threat of harm takes effect immediately.

(f) Provisions of the foundation codes, including those contained in referenced standards and criteria, relating to wind resistance or the prevention of water intrusion may not be modified to diminish those construction requirements; however, the commission may, subject to ~~conditions in~~ this subsection, modify the provisions to enhance those construction requirements.

(g) *Amendments or modifications to the foundation code pursuant to this subsection remain effective only until the effective date of a new edition of the Florida Building Code available every third year. Modifications and amendments included in the Florida Building Code related to state agency regulations that have been adopted and integrated into the Florida Building Code shall be carried forward into the next edition of the code subject to modification as provided in this part. If amendments that expire pursuant to this paragraph are resubmitted through the Florida Building Commission code adoption process, the amendments must specifically address whether:*

1. *The provisions contained in the proposed amendment are addressed in the applicable international code.*

2. *The amendment demonstrates by evidence or data that the state's geographical jurisdiction exhibits a need to strengthen the foundation code beyond the needs or regional variations addressed by the foundation code, and why the proposed amendment applies to this state.*

3. *The proposed amendment was submitted or attempted to be included in the foundation codes to avoid resubmission to the Florida Building Code amendment process.*

If the proposed amendment has been addressed in the applicable international code in a substantially equivalent manner, the Florida Building Commission may not include the proposed amendment in the foundation code.

(8) Notwithstanding ~~the provisions of~~ subsection (3) or subsection (7), the commission may address issues identified in this subsection by amending the code pursuant only to the rule adoption procedures contained in chapter 120. Provisions of the Florida Building Code, including those contained in referenced standards and criteria, relating to wind resistance or the prevention of water intrusion may not be amended pursuant to this subsection to diminish those construction requirements; however, the commission may, subject to ~~conditions in~~ this subsection, amend the provisions to enhance those construction requirements. Following the approval of any amendments to the Florida Building Code by the commission and publication of the amendments on the commission's website, authorities having jurisdiction to enforce the Florida Building Code may enforce the amendments. The commission may approve amendments that are needed to address:

(a) Conflicts within the updated code;

(b) Conflicts between the updated code and the Florida Fire Prevention Code adopted pursuant to chapter 633;

~~(c) The omission of previously adopted Florida specific amendments to the updated code if such omission is not supported by a specific recommendation of a technical advisory committee or particular action by the commission;~~

~~(c)(d)~~ Unintended results from the integration of previously adopted Florida-specific amendments with the model code;

~~(d)(e)~~ Equivalency of standards;

~~(e)(f)~~ Changes to or inconsistencies with federal or state law; or

~~(f)(g)~~ Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to stakeholders or otherwise threatens the public health, safety, and welfare.

(9)(a) The commission may approve technical amendments to the Florida Building Code once each year for statewide or regional application upon a finding that the amendment:

1. Is needed in order to accommodate the specific needs of this state.

2. Has a reasonable and substantial connection with the health, safety, and welfare of the general public.

3. Strengthens or improves the Florida Building Code, or in the case of innovation or new technology, will provide equivalent or better products or methods or systems of construction.

4. Does not discriminate against materials, products, methods, or systems of construction of demonstrated capabilities.

5. Does not degrade the effectiveness of the Florida Building Code.

~~Furthermore,~~ The Florida Building Commission may approve technical amendments to the code once each year to incorporate into the Florida Building Code its own interpretations of the code which are embodied in its opinions, final orders, declaratory statements, and interpretations of hearing officer panels under s. 553.775(3)(c), but ~~shall do so~~ only to the extent that ~~the~~ incorporation of interpretations is needed to modify the foundation codes to accommodate the specific needs of this state. Amendments approved under this paragraph shall be adopted by rule ~~pursuant to ss. 120.536(1) and 120.54,~~ after the amendments have been subjected to ~~the provisions of~~ subsection (3).

(b) A proposed amendment ~~must~~ *shall* include a fiscal impact statement ~~that~~ *which* documents the costs and benefits of the proposed amendment. Criteria for the fiscal impact statement shall be established by rule by the commission and shall include the impact to local gov-

ernment relative to enforcement, the impact to property and building owners, and the impact as well as to industry, relative to the cost of compliance. *The amendment must demonstrate by evidence or data that the state's geographical jurisdiction exhibits a need to strengthen the foundation code beyond the needs or regional variations addressed by the foundation code, and why the proposed amendment applies to this state.*

(c) The commission may not approve any proposed amendment that does not accurately and completely address all requirements for amendment which are set forth in this section. The commission shall require all proposed amendments and information submitted with proposed amendments to be reviewed by commission staff *before* prior to consideration by any technical advisory committee. These reviews shall be for sufficiency only and are not intended to be qualitative in nature. Staff members *must* shall reject any proposed amendment that fails to include a fiscal impact statement. Proposed amendments rejected by staff members of the staff may not be considered by the commission or any technical advisory committee.

(d) Provisions of the Florida Building Code, including those contained in referenced standards and criteria, relating to wind resistance or the prevention of water intrusion may not be amended pursuant to this subsection to diminish those construction requirements; however, the commission may, subject to conditions in this subsection, amend the provisions to enhance those construction requirements.

(10) The following buildings, structures, and facilities are exempt from the Florida Building Code as provided by law, and any further exemptions shall be as determined by the Legislature and provided by law:

(h) Storage sheds that are not designed for human habitation and that have a floor area of 720 square feet or less are not required to comply with the mandatory wind-borne-debris-impact standards of the Florida Building Code. *Such buildings that are for use in conjunction with one- and two-family residences and are 400 square feet or less are also not subject to the door height and width requirements of the code.*

With the exception of paragraphs (a), (b), (c), and (f), in order to preserve the health, safety, and welfare of the public, the Florida Building Commission may, by rule adopted pursuant to chapter 120, provide for exceptions to the broad categories of buildings exempted in this section, including exceptions for application of specific sections of the code or standards adopted therein. The Department of Agriculture and Consumer Services shall have exclusive authority to adopt by rule, pursuant to chapter 120, exceptions to nonresidential farm buildings exempted in paragraph (c) when reasonably necessary to preserve public health, safety, and welfare. The exceptions must be based upon specific criteria, such as under-roof floor area, aggregate electrical service capacity, HVAC system capacity, or other building requirements. Further, the commission may recommend to the Legislature additional categories of buildings, structures, or facilities which should be exempted from the Florida Building Code, to be provided by law. The Florida Building Code does not apply to temporary housing provided by the Department of Corrections to any prisoner in the state correctional system.

SM 852—A memorial to the Congress of the United States, urging Congress to support the marketing of Florida seafood.

WHEREAS, Florida seafood products face constantly increasing domestic competition from imported seafood products, with more than 80 percent of the total seafood consumed in the United States currently originating in foreign countries, and

WHEREAS, effective domestic marketing of Florida seafood in the face of aggressive competition from foreign products requires innovative, forceful, and consistent promotion, and

WHEREAS, current annual funding for the domestic promotion of Florida seafood is insufficient to effectively develop the thriving markets that sustainable Florida seafood products merit, especially when competing with nationally supported promotional programs aimed at United States consumers by rival seafood-producing countries, and

WHEREAS, duties and tariffs on imported seafood products generate approximately \$280,000,000 annually for the United States Treasury, and

WHEREAS, revenue from anti-dumping and countervailing duties on imported seafood products collected by the Federal Government total hundreds of millions of dollars annually, and

WHEREAS, federal revenue derived from the importation of competing seafood products is not presently made available for the marketing of seafood harvested and produced domestically, and

WHEREAS, using a portion of the revenue collected on the importation of foreign seafood products to promote United States seafood to domestic consumers will secure United States fisheries and seafood processing jobs, create robust and enduring domestic markets, and greatly enhance the nutritional value of national diets, and

WHEREAS, throughout recent history each spill or leak associated with the transportation or production of oil negatively affects the seafood industry through the closure of commercial and recreational fishing operations, the destruction of wildlife and natural habitat, or loss of market share, and

WHEREAS, in a recent survey conducted by the University of Minnesota, 54 percent of respondents said the Deepwater Horizon oil spill has affected their seafood consumption habits somewhat, 44 percent said they will not eat seafood from the Gulf of Mexico, and 31 percent said they will eat less seafood regardless of its origin, and

WHEREAS, a new National Seafood Marketing Fund designed to promote and develop United States produced seafood would help the United States seafood industry now and in the future recoup damages related to oil spills that result in decreased market demand for seafood, and

WHEREAS, a small portion of oil revenues are a logical source of funding for a National Seafood Marketing Fund as mitigation for real damages incurred by the seafood industry and coastal communities, NOW, THEREFORE,

Be It Resolved by the Legislature of the State of Florida:

That the Congress of the United States is requested to allocate moneys generated from federal marine and fishery product import tariffs for the domestic marketing of Florida seafood.

BE IT FURTHER RESOLVED that the Congress of the United States is urged to pass legislation dedicating a significant portion of marine and fishery product import tariffs to a national seafood marketing fund to promote domestic seafood products that face competition from foreign imports.

BE IT FURTHER RESOLVED that the Florida Congressional Delegation is urged to work with representatives of other seafood-producing states to secure adequate funding for effective and sustained domestic marketing of United States seafood.

BE IT FURTHER RESOLVED that copies of this memorial be dispatched to the President of the United States, to the President of the United States Senate, to the Speaker of the United States House of Representatives, and to each member of the Florida delegation to the United States Congress.

Section 1. Subsection (11) of section 550.002, Florida Statutes, is amended to read:

550.002 Definitions.—As used in this chapter, the term:

(11) “Full schedule of live racing or games” means, for a greyhound or jai alai permitholder, the conduct of a combination of at least 100 live evening or matinee performances during the preceding year; for a permitholder who has a converted permit or filed an application on or before June 1, 1990, for a converted permit, the conduct of a combination of at least 100 live evening and matinee wagering performances during either of the 2 preceding years; for a jai alai permitholder who does not operate slot machines in its pari-mutuel facility, who has conducted at least 100 live performances per year for at least 10 years after December 31, 1992, and whose handle on live jai alai games conducted at its pari-mutuel facility has been less than \$4 million per state fiscal year for at least 2 consecutive years after June 30, 1992, the conduct of a combination of at least 40 live evening or matinee performances during the preceding year; for a jai alai permitholder who operates slot machines in its pari-mutuel facility, the conduct of a combination of at least 150 performances during the preceding year; for a harness permitholder, the conduct of at least 100 live regular wagering performances during the preceding year; for a quarter horse permitholder at its facility unless an alternative schedule of at least 20 live regular wagering performances is agreed upon by the permitholder and either the Florida Quarter Horse Racing Association or the horsemen’s association representing the majority of the quarter horse owners and trainers at the facility and filed with the division along with its annual date application, in the 2010-2011 fiscal year, the con-

For a permitholder which is restricted by statute to certain operating periods within the year when other members of its same class of permit are authorized to operate throughout the year, the specified number of live performances which constitute a full schedule of live racing or games shall be adjusted pro rata in accordance with the relationship between its authorized operating period and the full calendar year and the resulting specified number of live performances shall constitute the full schedule of live games for such permitholder and all other permitholders of the same class within 100 air miles of such permitholder. A live performance must consist of no fewer than eight races or games conducted live for each of a minimum of three performances each week at the permitholder’s licensed facility under a single admission charge. *Notwithstanding any other provision of law, beginning with the 2011-2012 fiscal year, there shall be no minimum requirement of live performances for greyhound permitholders.*

(1) Each permitholder shall annually, during the period between December 15 and January 4, file in writing with the division its application for a license to conduct *pari-mutuel wagering activities* ~~performances~~ during the next state fiscal year. Each application *requesting live performances, if any*, shall specify the number, dates, and starting times of all performances which the permitholder intends to conduct. It shall also specify which performances will be conducted as charity or scholarship performances. In addition, each application for a license shall include, for each permitholder which elects to operate a cardroom, the dates and periods of operation the permitholder intends to operate the cardroom or, for each thoroughbred permitholder which elects to receive or rebroadcast out-of-state races after 7 p.m., the dates for all performances which the permitholder intends to conduct. *A greyhound permitholder may receive a license to conduct pari-mutuel wagering activities at a licensed greyhound facility pursuant to s. 550.475.* ~~Permitholders may be required to amend their applications through February 28 or, for applications by greyhound permitholders relating to the 2011-2012 fiscal year, through August 31, 2011.~~

Section 3. Paragraph (b) of subsection (14) of section 550.054, Florida Statutes, is amended to read:

550.054 Application for permit to conduct pari-mutuel wagering.—

(14)

(b) The division, upon application from the holder of a jai alai permit meeting all conditions of this section, shall convert the permit and shall issue to the permitholder a permit to conduct greyhound racing. ~~A permitholder of a permit converted under this section shall be required to apply for and conduct a full schedule of live racing each fiscal year to be eligible for any tax credit provided by this chapter.~~ The holder of a permit converted pursuant to this subsection or any holder of a permit to conduct greyhound racing located in a county in which it is the only permit issued pursuant to this section who operates at a leased facility pursuant to s. 550.475 may move the location for which the permit has been issued to another location within a 30-mile radius of the location fixed in the permit issued in that county, provided the move does not cross the county boundary and such location is approved under the zoning regulations of the county or municipality in which the permit is located, and upon such relocation may use the permit for the conduct of pari-mutuel wagering and the operation of a cardroom. The provisions of s. 550.6305(9)(d) and (f) shall apply to any permit converted under this subsection and shall continue to apply to any permit which was previously included under and subject to such provisions before a conversion pursuant to this section occurred.

Section 4. Subsection (1) and paragraph (c) of subsection (3) of section 550.0951, Florida Statutes, are amended to read:

550.0951 Payment of daily license fee and taxes; penalties.—

(1)(a) DAILY LICENSE FEE.—Each person engaged in the business of conducting race meetings or jai alai games under this chapter, hereinafter referred to as the “permitholder,” “licensee,” or “permittee,” shall pay to the division, for the use of the division, a daily license fee on each live or simulcast pari-mutuel event of \$100 for each horserace and \$80 for each dograce and \$40 for each jai alai game conducted at a racetrack or fronton licensed under this chapter. In addition to the tax exemption specified in s. 550.09514(1) of \$360,000 or \$500,000 per greyhound permitholder per state fiscal year, each greyhound permitholder shall receive in the current state fiscal year a tax credit equal to the number of live greyhound races conducted in the previous state fiscal year times the daily license fee specified for each dograce in this subsection applicable for the previous state fiscal year. This tax credit and the exemption in s. 550.09514(1) shall be applicable to any tax imposed by this chapter or the daily license fees imposed by this chapter except during any charity or scholarship performances conducted pursuant to s. 550.0351. Each permitholder shall pay daily license fees not to exceed \$500 per day on any simulcast races or games on which such permitholder accepts wagers regardless of the number of out-of-state events taken or the number of out-of-state locations from which such events are taken. This license fee shall be deposited with the Chief Financial Officer to the credit of the Pari-mutuel Wagering Trust Fund.

(b) Each permitholder that cannot utilize the full amount of the exemption of \$360,000 or \$500,000 provided in s. 550.09514(1) or the daily license fee credit provided in this section may, *at any time* after notifying the division in writing, ~~elect once per state fiscal year~~ on a form provided by the division, *elect* to transfer such exemption or credit or any portion thereof to any greyhound permitholder which acts as a host track to such permitholder for the purpose of intertrack wagering. *Notwithstanding any other provision of law, the exemption of \$360,000 or \$500,000 provided in s. 550.09514(1), for each greyhound permitholder that does not conduct live racing shall be pooled for distribution to eligible greyhound permitholders in the current fiscal year and any portion of the exemptions provided in s. 550.09514(1) unused or not transferred by each greyhound permitholder that elects to conduct live racing shall be pooled for distribution to eligible greyhound permitholders in the following fiscal year. Each greyhound permitholder conducting at least 100 live performances of at least eight races during a fiscal year shall be eligible for an additional tax credit from the pool in an amount equal to the product of the respective permitholder's percentage share of live and intertrack wagering handle, excluding the live and intertrack wagering handle of permitholders that do not conduct live racing during the year in which the credits are distributed under subsection (3) during the preceding fiscal year and the total value of tax credits available in the pool. A greyhound permitholder conducting live racing shall use the credits provided in paragraph (a) and s. 550.1647 prior to the exemptions provided in s. 550.09514(1) for purposes of calculating the amount of unused exemptions. Once an election to transfer such exemption or credit is filed with the division, it shall not be rescinded. The division shall disapprove the transfer when the amount of the exemption or credit or portion thereof is unavailable to the transferring permitholder for any reason, including being unavailable because the transferring permitholder did not conduct at least 100 live performances of at least eight races during the fiscal year, or when the permitholder who is entitled to transfer the exemption or credit or who is entitled to receive the exemption or credit owes taxes to the state pursuant to a deficiency letter or administrative complaint issued by the division. Upon approval of the transfer by the division, the transferred tax exemption or credit shall be effective for the first performance of the next payment period as specified in subsection (5). The exemption or credit transferred to such host track may be applied by such host track against any taxes imposed by this chapter or daily license fees imposed by this chapter. The greyhound permitholder host track to which such exemption or credit is transferred shall reimburse such permitholder the exact monetary value of such transferred exemption or credit as actually applied against the taxes and daily license fees of the host track. The division shall ensure that all transfers of exemption or credit are made in accordance with this subsection and shall have the authority to adopt rules to ensure the implementation of this section.*

(c) *A greyhound permitholder that conducts at least 100 live performances of at least eight races during each of the 5 years after July 1, 2011;*

that subsequently elects to not conduct live racing; and that served as a host track for intertrack wagering in each of the 10 years preceding its election to not conduct live racing, or was converted pursuant to s. 550.054(14), is entitled to an annual tax credit for each year the greyhound permitholder conducted live racing after July 1, 2011, not to exceed 10 years, in an amount equal to the average tax credit received by the greyhound permitholder pursuant to paragraph (b) during the 3 years preceding the greyhound permitholder's election to not conduct live racing. The tax credit provided under this paragraph shall be deducted from the pool pursuant to paragraph (b) and may be applied against any taxes or fees imposed by this chapter or any taxes or fees imposed by s. 849.086.

(3) TAX ON HANDLE.—Each permitholder shall pay a tax on contributions to pari-mutuel pools, the aggregate of which is hereinafter referred to as “handle,” on races or games conducted by the permitholder. The tax is imposed daily and is based on the total contributions to all pari-mutuel pools conducted during the daily performance. If a permitholder conducts more than one performance daily, the tax is imposed on each performance separately.

(c1). The tax on handle for intertrack wagering is 2.0 percent of the handle if the host track is a horse track, 3.3 percent if the host track is a harness track, 5.5 percent if the host track is a dog track, and 7.1 percent if the host track is a jai alai fronton. The tax on handle for intertrack wagering is 0.5 percent if the host track and the guest track are thoroughbred permitholders or if the guest track is located outside the market area of the host track and within the market area of a thoroughbred permitholder currently conducting a live race meet. The tax on handle for intertrack wagering on rebroadcasts of simulcast thoroughbred horseraces is 2.4 percent of the handle and 1.5 percent of the handle for intertrack wagering on rebroadcasts of simulcast harness horseraces. The tax shall be deposited into the Pari-mutuel Wagering Trust Fund.

2. The tax on handle for intertrack wagers accepted by any dog track located in an area of the state in which there are only three permitholders, all of which are greyhound permitholders, located in three contiguous counties, from any greyhound permitholder also located within such area or any dog track or jai alai fronton located as specified in s. 550.615(6) or (8) (9), on races or games received from the same class of permitholder located within the same market area is 3.9 percent if the host facility is a greyhound permitholder and, if the host facility is a jai alai permitholder, the rate shall be 6.1 percent except that it shall be 2.3 percent on handle at such time as the total tax on intertrack handle paid to the division by the permitholder during the current state fiscal year exceeds the total tax on intertrack handle paid to the division by the permitholder during the 1992-1993 state fiscal year.

Section 5. Paragraphs (b), (c), and (e) of subsection (2) of section 550.09514, Florida Statutes, are amended to read:

550.09514 Greyhound dogracing taxes; purse requirements.—

(2)

(b) Except as otherwise set forth herein, in addition to the minimum purse percentage required by paragraph (a), each permitholder *conducting live racing during a fiscal year* shall pay as purses an annual amount equal to 75 percent of the daily license fees paid by each permitholder for the 1994-1995 fiscal year. This purse supplement shall be disbursed weekly during the permitholder's race meet in an amount determined by dividing the annual purse supplement by the number of performances approved for the permitholder pursuant to its annual license and multiplying that amount by the number of performances conducted each week. ~~For the greyhound permitholders in the county where there are two greyhound permitholders located as specified in s. 550.615(6), such permitholders shall pay in the aggregate an amount equal to 75 percent of the daily license fees paid by such permitholders for the 1994-1995 fiscal year. These permitholders shall be jointly and severally liable for such purse payments. The additional purses provided by this paragraph must be used exclusively for purses other than stakes. The division shall conduct audits necessary to ensure compliance with this section.~~

(c1). Each greyhound permitholder when conducting at least three live performances during any week shall pay purses in that week on wagers it accepts as a guest track on intertrack and simulcast greyhound

racers at the same rate as it pays on live races. Each greyhound permitholder when conducting at least three live performances during any week shall pay purses in that week, at the same rate as it pays on live races, on wagers accepted on greyhound races at a guest track which is not conducting live racing and is located within the same market area as the greyhound permitholder conducting at least three live performances during any week.

2. Each host greyhound permitholder shall pay purses on its simulcast and intertrack broadcasts of greyhound races to guest facilities that are located outside its market area in an amount equal to one quarter of an amount determined by subtracting the transmission costs of sending the simulcast or intertrack broadcasts from an amount determined by adding the fees received for greyhound simulcast races plus 3 percent of the greyhound intertrack handle at guest facilities that are located outside the market area of the host and that paid contractual fees to the host for such broadcasts of greyhound races. *For guest greyhound permitholders not conducting live racing during a fiscal year and not subject to the purse requirements in subparagraph 1., 3 percent of the greyhound intertrack handle shall be paid to the host greyhound permitholder for payment of purses at the host track.*

(e) In addition to the purse requirements of paragraphs (a)-(c), each greyhound permitholder shall pay as purses an amount equal to one-third of the amount of the tax reduction on live and simulcast handle applicable to such permitholder as a result of the reductions in tax rates provided by this act through the amendments to s. 550.0951(3) in chapter 2000-354, Laws of Florida. With respect to intertrack wagering when the host and guest tracks are greyhound permitholders not within the same market area, an amount equal to the tax reduction applicable to the guest track handle as a result of the reduction in tax rates ~~rate~~ provided by this act through the amendments ~~amendment~~ to s. 550.0951(3) in chapter 2000-354, Laws of Florida, shall be distributed to the guest track, one-third of which amount shall be paid as purses at the guest tracks conducting live racing ~~track~~. However, if the guest track is a greyhound permitholder within the market area of the host or if the guest track is not a greyhound permitholder, an amount equal to such tax reduction applicable to the guest track handle shall be retained by the host track, one-third of which amount shall be paid as purses at the host track. These purse funds shall be disbursed in the week received if the permitholder conducts at least one live performance during that week. If the permitholder does not conduct at least one live performance during the week in which the purse funds are received, the purse funds shall be disbursed weekly during the permitholder's next race meet in an amount determined by dividing the purse amount by the number of performances approved for the permitholder pursuant to its annual license, and multiplying that amount by the number of performances conducted each week. The division shall conduct audits necessary to ensure compliance with this paragraph.

Section 6. Subsection (9) of section 550.105, Florida Statutes, is amended to read:

550.105 Occupational licenses of racetrack employees; fees; denial, suspension, and revocation of license; penalties and fines.—

(9) The tax imposed by this section is in lieu of all license, excise, or occupational taxes to the state or any county, municipality, or other political subdivision, except that, if a race meeting or game is held or conducted in a municipality, the municipality may assess and collect an additional tax against any person conducting live racing or games within its corporate limits, which tax may not exceed \$150 per day for horseracing or \$50 per day for dogracing, simulcasts, intertrack wagering, cardroom games, or jai alai, up to the maximum of 100 days for dogracing facilities. This tax may be levied on simulcasts, intertrack wagering, and cardroom games only to the extent that the facility does not have an existing agreement with the municipality. Except as provided in this chapter, a municipality may not assess or collect any additional excise or revenue tax against any person conducting race meetings within the corporate limits of the municipality or against any patron of any such person.

Section 7. Subsection (1) of section 550.26165, Florida Statutes, is amended to read:

550.26165 Breeders' awards.—

(1) The purpose of this section is to encourage the agricultural activity of breeding and training racehorses in this state. Moneys dedicated in this chapter for use as breeders' awards and stallion awards are to be used for awards to breeders of registered Florida-bred horses winning horseraces and for similar awards to the owners of stallions who sired Florida-bred horses winning stakes races, if the stallions are registered as Florida stallions standing in this state. Such awards shall be given at a uniform rate to all winners of the awards, shall not be greater than 20 percent of the announced gross purse, and shall not be less than 15 percent of the announced gross purse if funds are available. In addition, no less than 17 percent nor more than 40 percent, as determined by the Florida Thoroughbred Breeders' Association, of the moneys dedicated in this chapter for use as breeders' awards and stallion awards for thoroughbreds shall be returned pro rata to the permitholders that generated the moneys for special racing awards to be distributed by the permitholders to owners of thoroughbred horses participating in prescribed thoroughbred stakes races, nonstakes races, or both, all in accordance with a written agreement establishing the rate, procedure, and eligibility requirements for such awards entered into by the permitholder, the Florida Thoroughbred Breeders' Association, and the Florida Horsemen's Benevolent and Protective Association, Inc., except that the plan for the distribution by any permitholder located in the area described in s. 550.615(8) ~~s. 550.615(9)~~ shall be agreed upon by that permitholder, the Florida Thoroughbred Breeders' Association, and the association representing a majority of the thoroughbred racehorse owners and trainers at that location. Awards for thoroughbred races are to be paid through the Florida Thoroughbred Breeders' Association, and awards for standardbred races are to be paid through the Florida Standardbred Breeders and Owners Association. Among other sources specified in this chapter, moneys for thoroughbred breeders' awards will come from the 0.955 percent of handle for thoroughbred races conducted, received, broadcast, or simulcast under this chapter as provided in s. 550.2625(3). The moneys for quarter horse and harness breeders' awards will come from the breaks and uncashed tickets on live quarter horse and harness racing performances and 1 percent of handle on intertrack wagering. The funds for these breeders' awards shall be paid to the respective breeders' associations by the permitholders conducting the races.

Section 8. Section 550.475, Florida Statutes, is amended to read:

550.475 Lease of pari-mutuel facilities by pari-mutuel permitholders.—Holders of valid pari-mutuel permits for the conduct of any jai alai games, dogracing, or thoroughbred and standardbred horse racing in this state are entitled to lease any and all of their facilities to any other holder of a same class valid pari-mutuel permit for jai alai games, dogracing, or thoroughbred or standardbred horse racing, when located within a 35-mile radius of each other; and such lessee is entitled to a ~~permit and~~ license to operate its race meet or jai alai games at the leased premises.

Section 9. Section 550.615, Florida Statutes, is amended to read:

550.615 Intertrack wagering.—

(1) Any horserace permitholder licensed under this chapter which has conducted a full schedule of live racing may, at any time, receive broadcasts of horseraces and accept wagers on horseraces conducted by horserace permitholders licensed under this chapter at its facility.

(2) A ~~Any~~ track or fronton licensed under this chapter ~~which conducted a full schedule of live racing or games which~~ in the preceding year, any greyhound permitholder that has held an annual license to conduct pari-mutuel wagering activities in each of the preceding 10 years, or any greyhound permitholder converted pursuant to s. 550.054(14) ~~conducted a full schedule of live racing~~ is qualified to, at any time, receive broadcasts of any class of pari-mutuel race or game and accept wagers on such races or games conducted by any class of permitholders licensed under this chapter.

(3) If a permitholder elects to broadcast its signal to any permitholder in this state, any permitholder that is eligible to conduct intertrack wagering under the provisions of ss. 550.615-550.6345 is entitled to receive the broadcast and conduct intertrack wagering under this section; provided, however, that the host track may require a guest track within 25 miles of another permitholder to receive in any week at least 60 percent of the live races that the host track is making available on the days that the guest track is otherwise operating live races or

games. A host track may require a guest track not operating live races or games and within 25 miles of another permitholder to accept within any week at least 60 percent of the live races that the host track is making available. A person may not restrain or attempt to restrain any permitholder that is otherwise authorized to conduct intertrack wagering from receiving the signal of any other permitholder or sending its signal to any permitholder.

(4) In no event shall any intertrack wager be accepted on the same class of live races or games of any permitholder without the written consent of such operating permitholders conducting the same class of live races or games if the guest track is within the market area of such operating permitholder. A *greyhound permitholder licensed under chapter 551 which accepts intertrack wagers on live greyhound signals is not required to obtain the written consent required pursuant to this subsection from any operating greyhound permitholder within its market area.*

(5) No permitholder within the market area of the host track shall take an intertrack wager on the host track without the consent of the host track.

(6) Notwithstanding the provisions of subsection (3), in any area of the state where there are three or more horserace permitholders within 25 miles of each other, intertrack wagering between permitholders in said area of the state shall only be authorized under the following conditions: Any permitholder, other than a thoroughbred permitholder, may accept intertrack wagers on races or games conducted live by a permitholder of the same class or any harness permitholder located within such area and any harness permitholder may accept wagers on games conducted live by any jai alai permitholder located within its market area and from a jai alai permitholder located within the area specified in this subsection when no jai alai permitholder located within its market area is conducting live jai alai performances; any greyhound or jai alai permitholder may receive broadcasts of and accept wagers on any permitholder of the other class provided that a permitholder, other than the host track, of such other class is not operating a contemporaneous live performance within the market area.

~~(7) In any county of the state where there are only two permits, one for dogracing and one for jai alai, no intertrack wager may be taken during the period of time when a permitholder is not licensed to conduct live races or games without the written consent of the other permitholder that is conducting live races or games. However, if neither permitholder is conducting live races or games, either permitholder may accept intertrack wagers on horseraces or on the same class of races or games, or on both horseraces and the same class of races or games as is authorized by its permit.~~

~~(7)(8) In any three contiguous counties of the state where there are only three permitholders, all of which are greyhound permitholders, if any greyhound permitholder leases the facility of another greyhound permitholder for the purpose of conducting all or any portion of the conduct of its live race meet pursuant to s. 550.475, such lessee may conduct intertrack wagering at its pre-lease permitted facility throughout the entire year, including while its race live meet is being conducted at the leased facility, if such permitholder has conducted a full schedule of live racing during the preceding fiscal year at its pre-lease permitted facility or at a leased facility, or combination thereof.~~

~~(8)(9) In any two contiguous counties of the state in which there are located only four active permits, one for thoroughbred horse racing, two for greyhound dogracing, and one for jai alai games, no intertrack wager may be accepted on the same class of live races or games of any permitholder without the written consent of such operating permitholders conducting the same class of live races or games if the guest track is within the market area of such operating permitholder.~~

~~(9)(10) All costs of receiving the transmission of the broadcasts shall be borne by the guest track; and all costs of sending the broadcasts shall be borne by the host track.~~

Section 10. Paragraph (g) of subsection (9) of section 550.6305, Florida Statutes, is amended to read:

550.6305 Intertrack wagering; guest track payments; accounting rules.—

(9) A host track that has contracted with an out-of-state horse track to broadcast live races conducted at such out-of-state horse track pursuant to s. 550.3551(5) may broadcast such out-of-state races to any guest track and accept wagers thereon in the same manner as is provided in s. 550.3551.

(g)1. Any thoroughbred permitholder which accepts wagers on a simulcast signal must make the signal available to any permitholder that is eligible to conduct intertrack wagering under the provisions of ss. 550.615-550.6345.

2. Any thoroughbred permitholder which accepts wagers on a simulcast signal received after 6 p.m. must make such signal available to any permitholder that is eligible to conduct intertrack wagering under the provisions of ss. 550.615-550.6345, including any permitholder located as specified in s. 550.615(6). Such guest permitholders are authorized to accept wagers on such simulcast signal, notwithstanding any other provision of this chapter to the contrary.

3. Any thoroughbred permitholder which accepts wagers on a simulcast signal received after 6 p.m. must make such signal available to any permitholder that is eligible to conduct intertrack wagering under the provisions of ss. 550.615-550.6345, including any permitholder located as specified in s. 550.615(8) ~~s. 550.615(9)~~. Such guest permitholders are authorized to accept wagers on such simulcast signals for a number of performances not to exceed that which constitutes a full schedule of live races for a quarter horse permitholder pursuant to s. 550.002(11), notwithstanding any other provision of this chapter to the contrary, except that the restrictions provided in s. 550.615(8)(a) ~~s. 550.615(9)(a)~~ apply to wagers on such simulcast signals.

No thoroughbred permitholder shall be required to continue to rebroadcast a simulcast signal to any in-state permitholder if the average per performance gross receipts returned to the host permitholder over the preceding 30-day period were less than \$100. Subject to the provisions of s. 550.615(4), as a condition of receiving rebroadcasts of thoroughbred simulcast signals under this paragraph, a guest permitholder must accept intertrack wagers on all live races conducted by all then-operating thoroughbred permitholders.

Section 11. Paragraph (c) of subsection (4) of section 551.104, Florida Statutes, is amended to read:

551.104 License to conduct slot machine gaming.—

(4) As a condition of licensure and to maintain continued authority for the conduct of slot machine gaming, the slot machine licensee shall:

(c) Conduct no fewer than a full schedule of live racing or games as defined in s. 550.002(11), *except for holders of greyhound permits that do not have a live racing requirement*. A permitholder's responsibility to conduct such number of live races or games shall be reduced by the number of races or games that could not be conducted due to the direct result of fire, war, hurricane, or other disaster or event beyond the control of the permitholder.

Section 12. Subsections (2) and (4) of section 551.114, Florida Statutes, are amended to read:

551.114 Slot machine gaming areas.—

(2) The slot machine licensee shall display pari-mutuel races or games within the designated slot machine gaming areas and offer patrons within the designated slot machine gaming areas the ability to engage in pari-mutuel wagering on *any* live, intertrack, and simulcast races conducted or offered to patrons of the licensed facility.

(4) Designated slot machine gaming areas may be located within the current live gaming facility or in an existing building that must be contiguous and connected to the live gaming facility, *if applicable*. If a designated slot machine gaming area is to be located in a building that is to be constructed, that new building must be contiguous and connected to the live gaming facility.

Section 13. Paragraphs (a) and (b) of subsection (5) and paragraph (d) of subsection (13) of section 849.086, Florida Statutes, are amended to read:

849.086 Cardrooms authorized.—

(5) LICENSE REQUIRED; APPLICATION; FEES.—No person may operate a cardroom in this state unless such person holds a valid cardroom license issued pursuant to this section.

(a) Only those persons holding a valid cardroom license issued by the division may operate a cardroom. A cardroom license may only be issued to a licensed pari-mutuel permitholder and an authorized cardroom may only be operated at the same facility at which the permitholder is authorized under its valid pari-mutuel wagering permit to conduct pari-mutuel wagering activities. An initial cardroom license shall be issued to a pari-mutuel permitholder only after its facilities are in place and after it conducts its first day of live racing or games or, for a greyhound permitholder, only after it has conducted a full schedule of live racing in each of the preceding 10 years or after it was converted pursuant to s. 550.054(14). A new cardroom license may not be issued in an area unless the local government has approved of such activity within its boundaries in accordance with subsection (16).

(b) After the initial cardroom license is granted, the application for the annual license renewal shall be made in conjunction with the applicant's annual application for its pari-mutuel license. If a permitholder has operated a cardroom during any of the 3 previous fiscal years and fails to include a renewal request for the operation of the cardroom in its annual application for license renewal, the permitholder may amend its annual application to include operation of the cardroom. Except for greyhound permitholders, in order for a cardroom license to be renewed the applicant must have requested, as part of its pari-mutuel annual license application, to conduct at least 90 percent of the total number of live performances conducted by such permitholder during either the state fiscal year in which its initial cardroom license was issued or the state fiscal year immediately prior thereto if the permitholder ran at least a full schedule of live racing or games in the prior year. If the application is for a harness permitholder cardroom, the applicant must have requested authorization to conduct a minimum of 140 live performances during the state fiscal year immediately prior thereto. If more than one permitholder is operating at a facility, each permitholder must have applied for a license to conduct a full schedule of live racing. However, a minimum number of requested or conducted live performances is not required for a greyhound permitholder to maintain or renew a cardroom license.

(13) TAXES AND OTHER PAYMENTS.—

(d)1. Each greyhound and jai alai permitholder that operates a cardroom facility shall use at least 4 percent of such permitholder's cardroom monthly gross receipts to supplement greyhound purses if live racing is conducted during a fiscal year, or jai alai prize money, respectively, during the permitholder's current or next ensuing pari-mutuel meet.

2. Each thoroughbred and harness horse racing permitholder that operates a cardroom facility shall use at least 50 percent of such permitholder's cardroom monthly net proceeds as follows: 47 percent to supplement purses and 3 percent to supplement breeders' awards during the permitholder's next ensuing racing meet.

3. No cardroom license or renewal thereof shall be issued to an applicant holding a permit under chapter 550 to conduct pari-mutuel wagering meets of quarter horse racing unless the applicant has on file with the division a binding written agreement between the applicant and the Florida Quarter Horse Racing Association or the association representing a majority of the horse owners and trainers at the applicant's eligible facility, governing the payment of purses on live quarter horse races conducted at the licensee's pari-mutuel facility. The agreement governing purses may direct the payment of such purses from revenues generated by any wagering or gaming the applicant is authorized to conduct under Florida law. All purses shall be subject to the terms of chapter 550.

Section 14. This act does not authorize gambling activity beyond what is provided for under current law as of March 1, 2011.

Section 15. This act shall take effect upon becoming a law.

Excused: Senator Bullard

PRAYER

The following prayer was offered by Senator Wise:

Almighty Father, Creator of Heaven and Earth, the Great Physician and Healer, this legislative body would like to ask for your special healing power, specifically for Senator Larcenia Bullard and for Dave Bitner. You know their physical issues and with your healing power, we ask that their bodies be healed. You have said, "ask and you shall receive," and we are asking today at this very moment that these two godly individuals receive your mercy and healing power.

I would ask that you provide the leadership of the Florida House and Senate with the wisdom to make the right decisions for the welfare of the citizens of Florida during deliberations this very day. Nothing seems easy, but if we seek your divine guidance, you will guide our decisions. Nothing is impossible if we seek your wisdom first, and that is why we start each day in this Senate by seeking your wisdom. We lean not on our own understanding, but seek your guidance in all that we do.

Lastly, I ask that you provide each of us assembled here today the peace that passes all understanding. You are the great Healer, the Prince of Peace and the Great I Am. And we all say, Amen.

CS for SJR 592—A joint resolution proposing an amendment to Section 6 of Article VII and the creation of Section 32 of Article XII of the State Constitution to expand the availability of the property tax discount on the homesteads of veterans who became disabled as the result of a combat injury to veterans who were not Florida residents when they entered the military and to provide an effective date.

Be It Resolved by the Legislature of the State of Florida:

That the following amendment to Section 6 of Article VII and the creation of Section 32 of Article XII of the State Constitution are agreed to and shall be submitted to the electors of this state for approval or

rejection at the next general election or at an earlier special election specifically authorized by law for that purpose:

ARTICLE VII

FINANCE AND TAXATION

SECTION 6. Homestead exemptions.—

(a) Every person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner, or another legally or naturally dependent upon the owner, shall be exempt from taxation thereon, except assessments for special benefits, up to the assessed valuation of twenty-five thousand dollars and, for all levies other than school district levies, on the assessed valuation greater than fifty thousand dollars and up to seventy-five thousand dollars, upon establishment of right thereto in the manner prescribed by law. The real estate may be held by legal or equitable title, by the entireties, jointly, in common, as a condominium, or indirectly by stock ownership or membership representing the owner's or member's proprietary interest in a corporation owning a fee or a leasehold initially in excess of ninety-eight years. The exemption shall not apply with respect to any assessment roll until such roll is first determined to be in compliance with the provisions of section 4 by a state agency designated by general law. This exemption is repealed on the effective date of any amendment to this Article which provides for the assessment of homestead property at less than just value.

(b) Not more than one exemption shall be allowed any individual or family unit or with respect to any residential unit. No exemption shall exceed the value of the real estate assessable to the owner or, in case of ownership through stock or membership in a corporation, the value of the proportion which the interest in the corporation bears to the assessed value of the property.

(c) By general law and subject to conditions specified therein, the Legislature may provide to renters, who are permanent residents, ad valorem tax relief on all ad valorem tax levies. Such ad valorem tax relief shall be in the form and amount established by general law.

(d) The legislature may, by general law, allow counties or municipalities, for the purpose of their respective tax levies and subject to the provisions of general law, to grant an additional homestead tax exemption not exceeding fifty thousand dollars to any person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner and who has attained age sixty-five and whose household income, as defined by general law, does not exceed twenty thousand dollars. The general law must allow counties and municipalities to grant this additional exemption, within the limits prescribed in this subsection, by ordinance adopted in the manner prescribed by general law, and must provide for the periodic adjustment of the income limitation prescribed in this subsection for changes in the cost of living.

(e) Each veteran who is age 65 or older who is partially or totally permanently disabled shall receive a discount from the amount of the ad valorem tax otherwise owed on homestead property the veteran owns and resides in if the disability was combat related, ~~the veteran was a resident of this state at the time of entering the military service of the United States,~~ and the veteran was honorably discharged upon separation from military service. The discount shall be in a percentage equal to the percentage of the veteran's permanent, service-connected disability as determined by the United States Department of Veterans Affairs. To qualify for the discount granted by this subsection, an applicant must submit to the county property appraiser, by March 1, ~~proof of residency at the time of entering military service,~~ an official letter from the United States Department of Veterans Affairs stating the percentage of the veteran's service-connected disability and such evidence that reasonably identifies the disability as combat related; and a copy of the veteran's honorable discharge. If the property appraiser denies the request for a discount, the appraiser must notify the applicant in writing of the reasons for the denial, and the veteran may reapply. The Legislature may, by general law, waive the annual application requirement in subsequent

years. This subsection ~~shall take effect December 7, 2006~~, is self-executing, and does not require implementing legislation.

ARTICLE XII

SCR 1558—A concurrent resolution calling for the Congress of the United States to call a convention pursuant to Article V of the United States Constitution to propose a constitutional amendment permitting repeal of any federal law or regulation by vote of two-thirds of the state legislatures.

WHEREAS, Article I of the United States Constitution begins “All legislative powers herein granted shall be vested in a Congress,” and

WHEREAS, the Congress has exceeded the legislative powers granted in the Constitution thereby encroaching on the powers that are “reserved to the states respectively, or to the people” as the Tenth Amendment affirms and the rights “retained by the people” to which the Ninth Amendment refers, and

WHEREAS, this encroachment includes the accumulation of federal debt, which combined with interest represents a future tax, and is of such great proportion that responsibility for its payment will be passed to future, unborn generations of Americans to assume without their consent, thereby disparaging their rights, and

WHEREAS, this encroachment also includes compelling state and local governments to comply with federal laws and regulations without accompanying funding for such mandates, and

WHEREAS, in Federalist No. 85, Alexander Hamilton wrote in reference to Article V of the Constitution and the calling of a convention for the purpose of proposing amendments that, “We may safely rely on the disposition of the State legislatures to erect barriers against the encroachments of the national authority,” and

WHEREAS, the Constitution should be amended in order to halt federal encroachment and restore a proper balance between the powers of Congress and those of the several states, and to prevent the denial or disparagement of the rights retained by the people, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida, the House of Representatives Concurring:

That the State of Florida hereby applies and makes application to the Congress of the United States to call a convention pursuant to Article V of the United States Constitution for the limited purpose of proposing a constitutional amendment that permits the repeal of any federal law or regulation by vote of two-thirds of the state legislatures, and the Florida delegation to such convention, when called, shall propose the following amendment: “Any provision of law or regulation of the United States may be repealed by the several states, and such repeal shall be effective when the legislatures of two-thirds of the several states approve resolutions for this purpose that particularly describe the same provision or provisions of law or regulation to be repealed,” and

BE IT FURTHER RESOLVED that this resolution is revoked and withdrawn, nullified, and superseded to the same effect as if it had never been passed, and retroactive to the date of passage, if it is used for the purpose of calling a convention or used in support of conducting a convention to amend the Constitution of the United States for any purpose other than consideration of the amendment proposed in this resolution, and

BE IT FURTHER RESOLVED that the State of Florida reserves its right to add future amendments as the Legislature deems warranted to this application, and

BE IT FURTHER RESOLVED that delegates to such convention, when called, be selected according to procedures established by the legislatures of the several states, and

BE IT FURTHER RESOLVED that certified copies of the foregoing resolution be immediately forwarded by the Secretary of State of the State of Florida, under the great seal, to the President of the United

States, the Secretary of State of the United States, the President of the Senate of the United States, the Speaker of the House of Representatives of the United States, and the Administrator of General Services of the United States, and to each member of the Florida delegation to the United States Congress so that they may be apprised of the sense of the Florida Legislature in this matter.

440.49 Limitation of liability for subsequent injury through Special Disability Trust Fund.—

(9) SPECIAL DISABILITY TRUST FUND.—

(b)1. The Special Disability Trust Fund shall be maintained by annual assessments upon the insurance companies writing compensation insurance in the state, the commercial self-insurers under ss. 624.462 and 624.4621, the assessable mutuals as defined in s. 628.6011, and the self-insurers under this chapter, which assessments shall become due and be paid quarterly at the same time and in addition to the assessments provided in s. 440.51. The department shall estimate annually in advance the amount necessary for the administration of this subsection and the maintenance of this fund and shall make such assessment in the manner hereinafter provided.

2. The annual assessment shall be calculated to produce during the next calendar ~~ensuing fiscal~~ year an amount which, when combined with that part of the balance anticipated to be in the fund on December 31 ~~June 30~~ of the current ~~fiscal~~ year which is in excess of \$100,000, is equal to the average of:

riers until such time as the former Division of Workers' Compensation of the Department of Labor and Employment Security or the department advises each of those carriers of the impact that the inclusion of ceded reinsurance premiums has on their assessment. 3. The net premiums written by the companies for workers' compensation in this state and the net premium written applicable to the self-insurers in this state are the basis for computing the amount to be assessed as a percentage of net premiums. Such payments shall be made by each carrier and self-insurer to the department for the Special Disability Trust Fund in accordance with such regulations as the department prescribes.

4. The Chief Financial Officer is authorized to receive and credit to such Special Disability Trust Fund any sum or sums that may at any time be contributed to the state by the United States under any Act of Congress, or otherwise, to which the state may be or become entitled by reason of any payments made out of such fund.

3. *The insurer provides the following information, in English, to the office annually by March 1:*

5. *In the event the insurer ceases to do business from this state, the insurer will provide written notification to the office within 30 days after cessation.*

(b) *For purposes of this subsection, "nonresident" means a person who resides in and maintains a physical place of domicile in a country other than the United States, which he or she recognizes as and intends to maintain as his or her permanent home. A nonresident does not include an unauthorized immigrant present in the United States. Notwithstanding any other provision of law, it is conclusively presumed, for*

purposes of this subsection, that a person is a resident of the United States if such person has:

2. Registered to vote in any state;
3. Made a statement of domicile in any state; or
4. Filed for homestead tax exemption on property in any state.

(c) Subject to the limitations provided in this subsection, services, including those listed in s. 624.10, may be provided by the insurer or an affiliated person as defined in s. 624.04 under common ownership or control with the insurer.

(d) An alien insurer transacting insurance in this state without complying with this subsection shall be in violation of this chapter and subject to the penalties provided in s. 624.15. (a) Life insurance policies or annuity contracts issued by an insurer domiciled outside the United States covering only persons who, at the time of issuance, are not residents of the United States and are not nonresidents illegally residing in the United States, provided:

1. The insurer must currently be an authorized insurer in its country of domicile as to the kind or kinds of insurance proposed to be offered and must have been such an insurer for not fewer than the immediately preceding 3 years, or must be the wholly owned subsidiary of such authorized insurer or must be the wholly owned subsidiary of an already eligible authorized insurer as to the kind or kinds of insurance proposed for a period of not fewer than the immediately preceding 3 years. However, the office may waive the 3 year requirement if the insurer has operated successfully for a period of at least the immediately preceding year and has capital and surplus of not less than \$25 million.

2. Before the office may grant eligibility, the requesting insurer shall furnish the office with a duly authenticated copy of its current annual financial statement, in English, and with all monetary values therein expressed in United States dollars, at an exchange rate then current and shown in the statement, in the case of statements originally made in the currencies of other countries, and with such additional information relative to the insurer as the office may request.

3. The insurer must have and maintain surplus as to policyholders of not less than \$15 million. Any such surplus as to policyholders shall be represented by investments consisting of eligible investments for like funds of like domestic insurers under part II of chapter 625; however, any such surplus as to policyholders may be represented by investments permitted by the domestic regulator of such alien insurance company if such investments are substantially similar in terms of quality, liquidity, and security to eligible investments for like funds of like domestic insurers under part II of chapter 625.

4. The insurer must be of good reputation as to the providing of service to its policyholders and the payment of losses and claims.

5. To maintain eligibility, the insurer shall furnish the office within the time period specified in s. 624.424(1)(a) a duly authenticated copy of its current annual and quarterly financial statements, in English, and with all monetary values therein expressed in United States dollars, at an exchange rate then current and shown in the statement, in the case of statements originally made in the currencies of other countries, and with such additional information relative to the insurer as the office may request.

6. An insurer receiving eligibility under this subsection shall agree to make its books and records pertaining to its operations in this state available for inspection during normal business hours upon request of the office.

7. The insurer shall provide to the applicant for the policy or contract a copy of the most recent quarterly financial statements of the insurer providing, in clear and conspicuous language:

a. The date of organization of the insurer.

b. The identity of and rating assigned by each recognized insurance company rating organization that has rated the insurer or, if applicable, that the insurer is unrated.

e. That the insurer does not hold a certificate of authority issued in this state and that the office does not exercise regulatory oversight over the insurer.

d. The identity and address of the regulatory authority exercising oversight of the insurer.

This paragraph does not impose upon the office any duty or responsibility to determine the actual financial condition or claims practices of any unauthorized insurer, and the status of eligibility, if granted by the office, indicates only that the insurer appears to be financially sound and to have satisfactory claims practices and that the office has no credible evidence to the contrary.

(b) If at any time the office has reason to believe that an insurer issuing policies or contracts pursuant to this subsection is insolvent or is in unsound financial condition, does not make reasonable prompt payment of benefits, or is no longer eligible under the conditions specified in this subsection, the office may conduct an examination or investigation in accordance with s. 624.316, s. 624.3161, or s. 624.320 and, if the findings of such examination or investigation warrant, may withdraw the eligibility of the insurer to issue policies or contracts pursuant to this subsection without having a certificate of authority issued by the office.

(c) This subsection does not provide an exception to the agent licensure requirements of chapter 626. Any insurer issuing policies or contracts pursuant to this subsection shall appoint the agents that the insurer uses to sell such policies or contracts as provided in chapter 626.

(d) An insurer issuing policies or contracts pursuant to this subsection is subject to part IX of chapter 626, Unfair Insurance Trade Practices, and the office may take such actions against the insurer for a violation as are provided in that part.

(e) Policies and contracts issued pursuant to this subsection are not subject to the premium tax specified in s. 624.509.

(f) Applications for life insurance coverage offered under this subsection must contain, in contrasting color and not less than 12 point type, the following statement on the same page as the applicant's signature:

This policy is primarily governed by the laws of a foreign country. As a result, all of the rating and underwriting laws applicable to policies filed in this state do not apply to this coverage, which may result in your premiums being higher than would be permissible under a Florida approved policy. Any purchase of individual life insurance should be considered carefully, as future medical conditions may make it impossible to qualify for another individual life policy. If the insurer issuing your policy becomes insolvent, this policy is not covered by the Florida Life and Health Insurance Guaranty Association. For information concerning individual life coverage under a Florida approved policy, consult your agent or the Florida Department of Financial Services.

(g) All life insurance policies and annuity contracts issued pursuant to this subsection must contain on the first page of the policy or contract, in contrasting color and not less than 10 point type, the following statement:

The benefits of the policy providing your coverage are governed primarily by the law of a country other than the United States.

(h) All single premium life insurance policies and single premium annuity contracts issued to persons who are not residents of the United States and are not nonresidents illegally residing in the United States pursuant to this subsection shall be subject to the provisions of chapter 896.

Section 5. Paragraph (d) of subsection (8) of section 624.424, Florida Statutes, is amended to read:

624.424 Annual statement and other information.—

(8)

(d) An insurer may not use the same accountant or partner of an accounting firm responsible for preparing the report required by this subsection for more than 5 7 consecutive years. Following this period, the insurer may not use such accountant or partner for a period of 5 2 years, but may use another accountant or partner of the same firm. An insurer may request the office to waive this prohibition based upon an unusual hardship to the insurer and a determination that the accountant is exercising independent judgment that is not unduly influenced by the insurer considering such factors as the number of partners, expertise of the partners or the number of insurance clients of the accounting firm; the premium volume of the insurer; and the number of jurisdictions in which the insurer transacts business.

Section 6. Effective upon this act becoming a law, section 626.207, Florida Statutes, is amended to read:

The purpose of the waiting periods is to provide sufficient time to demonstrate reformation of character and rehabilitation. The waiting periods shall vary based on the type of conduct and the length of time since the conduct occurred and shall also be based on the probability that the propensity to commit illegal conduct has been overcome. The waiting periods may be adjusted based on aggravating and mitigating factors established by rule and consistent with this purpose.~~

~~(6) For purposes of this section, the disqualifying periods begin upon the applicant’s final release from supervision or upon completion of the applicant’s criminal sentence, including payment of fines, restitution, and court costs for the crime for which the disqualifying period applies.~~

~~(7) After the disqualifying period has been met, the burden is on the applicant to demonstrate that the applicant has been rehabilitated, does not pose a risk to the insurance-buying public, is fit and trustworthy to~~

The purpose of the revocation or suspension is to provide a sufficient penalty to deter future violations of the Florida Insurance Code. The imposition of a revocation or the length of suspension shall be based on the type of conduct and the probability that the propensity to commit further illegal conduct has been overcome at the time of eligibility for relicensure. The revocation or the length of suspension may be adjusted based on aggravating or mitigating factors, established by rule and consistent with this purpose.~~

~~(9) Section 112.011 does not apply to any applicants for licensure under the Florida Insurance Code, including, but not limited to, agents, agencies, adjusters, adjusting firms, customer representatives, or managing general agents.~~

(a) An insurer issuing a policy providing coverage for workers’ compensation and employer’s liability insurance, property, casualty, except mortgage guaranty, surety, or marine insurance, other than motor vehicle insurance subject to s. 627.728, shall give the ~~first-named named~~ insured at least 45 days’ advance written notice of nonrenewal or of the renewal premium. If the policy is not to be renewed, the written notice shall state the reason or reasons as to why the policy is not to be renewed. This requirement applies only if the insured has furnished all of the necessary information so as to enable the insurer to develop the renewal premium prior to the expiration date of the policy to be renewed.

(b) An insurer issuing a policy providing coverage for property, casualty, except mortgage guaranty, surety, or marine insurance, other

than motor vehicle insurance subject to s. 627.728 or s. 627.7281, shall give the *first-named named* insured written notice of cancellation or termination other than nonrenewal at least 45 days prior to the effective date of the cancellation or termination, including in the written notice the reason or reasons for the cancellation or termination, except that:

1. When cancellation is for nonpayment of premium, at least 10 days' written notice of cancellation accompanied by the reason therefor shall be given. As used in this subparagraph *and s. 440.42(3)*, the term "nonpayment of premium" means failure of the named insured to discharge when due any of her or his obligations in connection with the payment of premiums on a policy or any installment of such premium, whether the premium is payable directly to the insurer or its agent or indirectly under any premium finance plan or extension of credit, or failure to maintain membership in an organization if such membership is a condition precedent to insurance coverage. "Nonpayment of premium" also means the failure of a financial institution to honor an insurance applicant's check after delivery to a licensed agent for payment of a premium, even if the agent has previously delivered or transferred the premium to the insurer. If a dishonored check represents the initial premium payment, the contract and all contractual obligations shall be void ab initio unless the nonpayment is cured within the earlier of 5 days after actual notice by certified mail is received by the applicant or 15 days after notice is sent to the applicant by certified mail or registered mail, and if the contract is void, any premium received by the insurer from a third party shall be refunded to that party in full; and

2. When such cancellation or termination occurs during the first 90 days during which the insurance is in force and the insurance is canceled or terminated for reasons other than nonpayment of premium, at least 20 days' written notice of cancellation or termination accompanied by the reason therefor shall be given except where there has been a material misstatement or misrepresentation or failure to comply with the underwriting requirements established by the insurer.

After the policy has been in effect for 90 days, no such policy shall be canceled by the insurer except when there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements established by the insurer within 90 days of the date of effectuation of coverage, or a substantial change in the risk covered by the policy or when the cancellation is for all insureds under such policies for a given class of insureds. This subsection does not apply to individually rated risks having a policy term of less than 90 days.

(2) With respect to any personal lines or commercial residential property insurance policy, including, but not limited to, any homeowner's, mobile home owner's, farmowner's, condominium association, condominium unit owner's, apartment building, or other policy covering a residential structure or its contents:

(a) The insurer shall give the *first-named named* insured at least 45 days' advance written notice of the renewal premium.

(b) The insurer shall give the *first-named named* insured written notice of nonrenewal, cancellation, or termination at least 100 days prior to the effective date of the nonrenewal, cancellation, or termination. However, the insurer shall give at least 100 days' written notice, or written notice by June 1, whichever is earlier, for any nonrenewal, cancellation, or termination that would be effective between June 1 and November 30. The notice must include the reason or reasons for the nonrenewal, cancellation, or termination, except that:

1. The insurer shall give the *first-named named* insured written notice of nonrenewal, cancellation, or termination at least 180 days prior to the effective date of the nonrenewal, cancellation, or termination for a *first-named named* insured whose residential structure has been insured by that insurer or an affiliated insurer for at least a 5-year period immediately prior to the date of the written notice.

2. When cancellation is for nonpayment of premium, at least 10 days' written notice of cancellation accompanied by the reason therefor shall be given. As used in this subparagraph, the term "nonpayment of premium" means failure of the named insured to discharge when due any of her or his obligations in connection with the payment of premiums on a policy or any installment of such premium, whether the premium is payable directly to the insurer or its agent or indirectly under any premium finance plan or extension of credit, or failure to maintain membership in an organization if such membership is a condition precedent

to insurance coverage. "Nonpayment of premium" also means the failure of a financial institution to honor an insurance applicant's check after delivery to a licensed agent for payment of a premium, even if the agent has previously delivered or transferred the premium to the insurer. If a dishonored check represents the initial premium payment, the contract and all contractual obligations shall be void ab initio unless the nonpayment is cured within the earlier of 5 days after actual notice by certified mail is received by the applicant or 15 days after notice is sent to the applicant by certified mail or registered mail, and if the contract is void, any premium received by the insurer from a third party shall be refunded to that party in full.

3. When such cancellation or termination occurs during the first 90 days during which the insurance is in force and the insurance is canceled or terminated for reasons other than nonpayment of premium, at least 20 days' written notice of cancellation or termination accompanied by the reason therefor shall be given except where there has been a material misstatement or misrepresentation or failure to comply with the underwriting requirements established by the insurer.

4. The requirement for providing written notice of nonrenewal by June 1 of any nonrenewal that would be effective between June 1 and November 30 does not apply to the following situations, but the insurer remains subject to the requirement to provide such notice at least 100 days prior to the effective date of nonrenewal:

a. A policy that is nonrenewed due to a revision in the coverage for sinkhole losses and catastrophic ground cover collapse pursuant to s. 627.706, as amended by s. 30, chapter 2007-1, Laws of Florida.

b. A policy that is nonrenewed by Citizens Property Insurance Corporation, pursuant to s. 627.351(6), for a policy that has been assumed by an authorized insurer offering replacement or renewal coverage to the policyholder.

After the policy has been in effect for 90 days, the policy shall not be canceled by the insurer except when there has been a material misstatement, a nonpayment of premium, a failure to comply with underwriting requirements established by the insurer within 90 days of the date of effectuation of coverage, or a substantial change in the risk covered by the policy or when the cancellation is for all insureds under such policies for a given class of insureds. This paragraph does not apply to individually rated risks having a policy term of less than 90 days.

(4) Notwithstanding ~~the provisions of~~ s. 440.42(3), if cancellation of a policy providing coverage for workers' compensation and employer's liability insurance is requested *in writing* by the insured, such cancellation shall be effective on the date requested by the insured or, if no date is specified by the insured, cancellation shall be effective on the date of the written request. ~~The carrier is not required to send notice of cancellation to the insured if the cancellation is requested in writing by the insured the carrier sends the notice of cancellation to the insured.~~ Any retroactive assumption of coverage and liabilities under a policy providing workers' compensation and employer's liability insurance may not exceed 21 days.

Section 10. Subsection (3) is added to section 627.4137, Florida Statutes, to read:

627.4137 Disclosure of certain information required.—

(3) *Any request made to a self-insured corporation pursuant to this section shall be sent by certified mail to the registered agent of the disclosing entity.*

Section 11. Subsection (2) of section 627.7277, Florida Statutes, is amended to read:

627.7277 Notice of renewal premium.—

(2) An insurer shall mail or deliver to the *first-named insured* ~~its policyholder~~ at least 30 days' advance written notice of the renewal premium for the policy.

Section 12. Paragraph (a) of subsection (3), paragraphs (a) and (d) of subsection (4), and subsections (5) and (6) of section 627.728, Florida Statutes, are amended to read:

627.728 Cancellations; nonrenewals.—

(3)(a) No notice of cancellation of a policy to which this section applies shall be effective unless mailed or delivered by the insurer to the *first-named named* insured and to the *first-named named* insured's insurance agent at least 45 days prior to the effective date of cancellation, except that, when cancellation is for nonpayment of premium, at least 10 days' notice of cancellation accompanied by the reason therefor shall be given. No notice of cancellation of a policy to which this section applies shall be effective unless the reason or reasons for cancellation accompany the notice of cancellation.

(4)(a) No insurer shall fail to renew a policy unless it mails or delivers to the *first-named named* insured, at the address shown in the policy, and to the *first-named named* insured's insurance agent at her or his business address, at least 45 days' advance notice of its intention not to renew; and the reasons for refusal to renew must accompany such notice. This subsection does not apply:

1. If the insurer has manifested its willingness to renew; or
2. In case of nonpayment of premium.

Notwithstanding the failure of an insurer to comply with this subsection, the policy shall terminate on the effective date of any other automobile liability insurance policy procured by the insured with respect to any automobile designated in both policies. Unless a written explanation for refusal to renew accompanies the notice of intention not to renew, the policy shall remain in full force and effect.

(d) Instead of canceling or nonrenewing a policy, an insurer may, upon expiration of the policy term, transfer a policy to another insurer under the same ownership or management as the transferring insurer, by giving the *first-named named* insured at least 45 days' advance notice of its intent to transfer the policy and of the premium and the specific reasons for any increase in the premium.

(5) United States postal proof of mailing or certified or registered mailing of notice of cancellation, of intention not to renew, or of reasons for cancellation, or of the intention of the insurer to issue a policy by an insurer under the same ownership or management, to the *first-named named* insured at the address shown in the policy shall be sufficient proof of notice.

(6) When a policy is canceled, other than for nonpayment of premium, or in the event of failure to renew a policy to which subsection (4) applies, the insurer shall notify the *first-named named* insured of her or his possible eligibility for insurance through the Automobile Joint Underwriting Association. Such notice shall accompany or be included in the notice of cancellation or the notice of intent not to renew and shall state that such notice of availability of the Automobile Joint Underwriting Association is given pursuant to this section.

Section 13. Section 627.7281, Florida Statutes, is amended to read:

627.7281 Cancellation notice.—An insurer issuing a policy of motor vehicle insurance not covered under the cancellation provisions of s. 627.728 shall give the *first-named named* insured notice of cancellation at least 45 days prior to the effective date of cancellation, except that, when cancellation is for nonpayment of premium, at least 10 days' notice of cancellation accompanied by the reason therefor shall be given. As used in this section, "policy" does not include a binder as defined in s. 627.420 unless the duration of the binder period exceeds 60 days.

Section 14. Section 634.403, Florida Statutes, is amended to read:

634.403 License required; exemptions.—

(1) No person in this state shall provide or offer to provide service warranties to residents of this state unless authorized therefor under a subsisting license issued by the office. The service warranty association shall pay to the office a license fee of \$200 for such license for each license year, or part thereof, the license is in force.

(2) An insurer, while authorized to transact property or casualty insurance in this state, may also transact a service warranty business without additional qualifications or authority, but shall be otherwise subject to the applicable provisions of this part.

(3) The office may, pursuant to s. 120.569, in its discretion and without advance notice and hearing, issue an immediate final order to

cease and desist to any person or entity which violates this section. The Legislature finds that a violation of this section constitutes an imminent and immediate threat to the public health, safety, and welfare of the residents of this state.

(4) Any person that is an affiliate of a domestic insurer as defined in chapter 624 is exempt from application of this part if the person does not issue, or market or cause to be marketed, service warranties to residents of this state and does not administer service warranties that were originally issued to residents of this state. The domestic insurer or its wholly owned Florida licensed insurer must be the direct obligor of all service warranties issued by such affiliate or must issue a contractual liability insurance policy to such affiliate that meets the conditions described in s. 634.406(3). If the Office of Insurance Regulation determines, after notice and opportunity for a hearing, that a person's intentional business practices do not comply with any of the exemption requirements of this subsection, the person shall be subject to this part.

(5) A person is exempt from the license requirement in this section if the person complies with the following:

(a) The service warranties are only sold to nonresidents of this state and the person does not issue, market, or cause to be marketed service warranties to residents of this state.

(b) The person submits a letter of notification that provides the following information to the office upon the start of business from this state and annually thereafter by March 1:

2. The name of the person, the state of domicile, the home address and address in this state of the person, the names of the owners and their percentage of ownership, the names of the officers and directors, the name, e-mail, and telephone number of a contact person, the states in which the person is transacting business, and how many individuals are employed in this state.

(c) If the person ceases to do business from this state, the person shall provide written notification to the office within 30 days after cessation of business.

(6)(5) Any person who provides, offers to provide, or holds oneself out as providing or offering to provide a service warranty to residents of ~~in~~ this state ~~or from this state~~ without holding a subsisting license commits, in addition to any other violation, a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

Section 15. Section 627.442, Florida Statutes, is amended to read:

627.442 Insurance contracts.—

(1) A person who requires a workers' compensation insurance policy pursuant to a construction contract may not reject a workers' compensation insurance policy issued by a self-insurance fund that is subject to part V of chapter 631 based upon the self-insurance fund not being rated by a nationally recognized insurance rating service.

(2) Notwithstanding s. 440.381(3), premium audits are not required for workers' compensation coverage, other than an audit required by the insurance policy or an order of the office, or at least once each policy period, if requested by the insured.

Section 16. Subsections (4) and (7) of section 627.7295, Florida Statutes, are amended to read:

627.7295 Motor vehicle insurance contracts.—

(4) If subsection (7) does not apply, the insurer may cancel the policy in accordance with this code except that, notwithstanding s. 627.728, an insurer may not cancel a new policy or binder during the first 60 days immediately following the effective date of the policy or binder ~~except for nonpayment of premium unless the reason for the cancellation is the issuance of a check for the premium that is dishonored for any reason.~~

(7) A policy of private passenger motor vehicle insurance or a binder for such a policy may be initially issued in this state only if, *before the effective date of such binder or policy*, the insurer or agent has collected from the insured an amount equal to 2 months' premium. An insurer, agent, or premium finance company may not, directly or indirectly, take any action resulting in the insured having paid from the insured's own funds an amount less than the 2 months' premium required by this subsection. This subsection applies without regard to whether the premium is financed by a premium finance company or is paid pursuant to a periodic payment plan of an insurer or an insurance agent. This subsection does not apply if an insured or member of the insured's family is renewing or replacing a policy or a binder for such policy written by the same insurer or a member of the same insurer group. This subsection does not apply to an insurer that issues private passenger motor vehicle coverage primarily to active duty or former military personnel or their dependents. This subsection does not apply if all policy payments are paid pursuant to a payroll deduction plan or an automatic electronic funds transfer payment plan from the policyholder, ~~provided that the first policy payment is made by cash, cashier's check, check, or a money order.~~ This subsection and subsection (4) do not apply if all policy payments to an insurer are paid pursuant to an automatic electronic funds transfer payment plan from an agent, a managing general agent, or a premium finance company and if the policy includes, at a minimum, personal injury protection pursuant to ss. 627.730-627.7405; motor vehicle property damage liability pursuant to s. 627.7275; and bodily injury liability in at least the amount of \$10,000 because of bodily injury to, or death of, one person in any one accident and in the amount of \$20,000 because of bodily injury to, or death of, two or more persons in any one accident. This subsection and subsection (4) do not apply if an insured has had a policy in effect for at least 6 months, the insured's agent is terminated by the insurer that issued the policy, and the insured obtains coverage on the policy's renewal date with a new company through the terminated agent.

Section 17. Subsection (3) of section 626.916, Florida Statutes, is amended to read:

626.916 Eligibility for export.—

(3)(a) Subsection (1) does not apply to wet marine and transportation or aviation risks which are subject to s. 626.917.

(b) Paragraphs (1)(a)–(d) do not apply to classes of insurance which are subject to s. 627.062(3)(d)1. These classes may be exportable under the following conditions:

1. The insurance must be placed only by or through a surplus lines agent licensed in this state;
2. The insurer must be made eligible under s. 626.918; and
3. The insured must sign a disclosure that substantially provides the following: "You are agreeing to place coverage in the surplus lines market. Superior coverage may be available in the admitted market and at a lesser cost. Persons insured by surplus lines carriers are not protected under the Florida Insurance Guaranty Act with respect to any right of recovery for the obligation of an insolvent unlicensed insurer." If the notice is signed by the insured, the insured is presumed to have been informed and to know that other coverage may be available, and, with respect to the diligent-effort requirement under subsection (1), there is no liability on the part of, and no cause of action arises against, the retail agent presenting the form.

Section 18. The amendments to s. 626.207, Florida Statutes, made by this act do not apply retroactively and apply only to applicants whose applications are pending or submitted on or after the date that the amendments to s. 626.207, Florida Statutes, made by this act become law. This section shall take effect upon this act becoming a law.

Section 19. Paragraph (c) of subsection (7) of section 817.234, Florida Statutes, is amended, present subsection (12) of that section is renumbered as subsection (13), and a new subsection (12) is added to that section, to read:

817.234 False and fraudulent insurance claims.—

(7)

(c) An insurer, or any person acting at the direction of or on behalf of an insurer, may not change an opinion in a mental or physical report prepared under s. 627.736(8)(7) or direct the physician preparing the report to change such opinion; however, this provision does not preclude the insurer from calling to the attention of the physician errors of fact in the report based upon information in the claim file. Any person who violates this paragraph commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(12) *In addition to any criminal liability, a person convicted of violating any provision of this section for the purpose of receiving insurance proceeds from a motor vehicle insurance contract is subject to a civil penalty.*

(a) *Except for a violation of subsection (9), the civil penalty shall be:*

2. *A fine greater than \$5,000, but not to exceed \$10,000, for a second offense.*
3. *A fine greater than \$10,000, but not to exceed \$15,000, for a third or subsequent offense.*

(b) *The civil penalty for a violation of subsection (9) must be at least \$15,000 but may not exceed \$50,000.*

(c) *The civil penalty shall be paid to the Insurance Regulatory Trust Fund within the Department of Financial Services and used by the department for the investigation and prosecution of insurance fraud.*

(d) *This subsection does not prohibit a state attorney from entering into a written agreement in which the person charged with the violation does not admit to or deny the charges but consents to payment of the civil penalty.*

Section 20. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon this act becoming a law, this act shall take effect July 1, 2011.

The commissioner shall obtain input with respect to the design and implementation of the testing program from state educators, assistive technology experts, and the public.

4. The testing program shall be composed of criterion-referenced tests that shall, to the extent determined by the commissioner, include test items that require the student to produce information or perform tasks in such a way that the core content knowledge and skills he or she uses can be measured.

5. FCAT Reading, Mathematics, and Science and all statewide, standardized end-of-course assessments shall measure the content knowledge and skills a student has attained on the assessment by the use of scaled scores and achievement levels. Achievement levels shall range from 1 through 5, with level 1 being the lowest achievement level,

level 5 being the highest achievement level, and level 3 indicating satisfactory performance on an assessment. For purposes of FCAT Writing, student achievement shall be scored using a scale of 1 through 6 and the score earned shall be used in calculating school grades. A score shall be designated for each subject area tested, below which score a student's performance is deemed inadequate. The school districts shall provide appropriate remedial instruction to students who score below these levels.

6. The State Board of Education shall, by rule, designate a passing score for each part of the grade 10 assessment test and end-of-course assessments. Any rule that has the effect of raising the required passing scores may apply only to students taking the assessment for the first time after the rule is adopted by the State Board of Education. Except as otherwise provided in this subparagraph and as provided in s. 1003.428(8)(b) or s. 1003.43(11)(b), students must earn a passing score on grade 10 FCAT Reading and grade 10 FCAT Mathematics or attain concordant scores as described in subsection (10) in order to qualify for a standard high school diploma.

7. In addition to designating a passing score under subparagraph 6., the State Board of Education shall also designate, by rule, a score for each statewide, standardized end-of-course assessment which indicates that a student is high achieving and has the potential to meet college-readiness standards by the time the student graduates from high school.

8. A student who has not earned passing scores on the grade 10 FCAT as provided in subparagraph 6. must participate in each retake of the assessment until the student earns passing scores or achieves scores on a standardized assessment which are concordant with passing scores pursuant to subsection (10). If a student does not participate in the statewide assessment, the district must notify the student's parent and provide the parent with information regarding the implications of such nonparticipation. A parent must provide signed consent for a student to receive classroom instructional accommodations that would not be available or permitted on the statewide assessments and must acknowledge in writing that he or she understands the implications of such instructional accommodations. The State Board of Education shall adopt rules, based upon recommendations of the commissioner, for the provision of test accommodations for students in exceptional education programs and for students who have limited English proficiency. Accommodations that negate the validity of a statewide assessment are not allowable in the administration of the FCAT or an end-of-course assessment. However, instructional accommodations are allowable in the classroom if included in a student's individual education plan. Students using instructional accommodations in the classroom that are not allowable as accommodations on the FCAT or an end-of-course assessment may have the FCAT or an end-of-course assessment requirement waived pursuant to the requirements of s. 1003.428(8)(b) or s. 1003.43(11)(b).

9. A student seeking an adult high school diploma must meet the same testing requirements that a regular high school student must meet.

10. District school boards must provide instruction to prepare students in the core curricular content established in the Next Generation Sunshine State Standards adopted under s. 1003.41, including the core content knowledge and skills necessary for successful grade-to-grade progression and high school graduation. If a student is provided with instructional accommodations in the classroom that are not allowable as accommodations in the statewide assessment program, as described in the test manuals, the district must inform the parent in writing and must provide the parent with information regarding the impact on the student's ability to meet expected performance levels in reading, writing, mathematics, and science. The commissioner shall conduct studies as necessary to verify that the required core curricular content is part of the district instructional programs.

11. District school boards must provide opportunities for students to demonstrate an acceptable performance level on an alternative standardized assessment approved by the State Board of Education following enrollment in summer academies.

12. The Department of Education must develop, or select, and implement a common battery of assessment tools that will be used in all

juvenile justice programs in the state. These tools must accurately measure the core curricular content established in the Next Generation Sunshine State Standards.

13. For students seeking a special diploma pursuant to s. 1003.438, the Department of Education must develop or select and implement an alternate assessment tool that accurately measures the core curricular content established in the Next Generation Sunshine State Standards for students with disabilities under s. 1003.438.

14. The Commissioner of Education shall establish schedules for the administration of statewide assessments and the reporting of student test results. When establishing the schedules for the administration of statewide assessments, the commissioner shall consider the observance of religious and school holidays. The commissioner shall, by August 1 of each year, notify each school district in writing and publish on the department's Internet website the testing and reporting schedules for, at a minimum, the school year following the upcoming school year. The testing and reporting schedules shall require that:

a. There is the latest possible administration of statewide assessments and the earliest possible reporting to the school districts of student test results which is feasible within available technology and specific appropriations; however, test results for the FCAT must be made available no later than the week of June 8. Student results for end-of-course assessments must be provided no later than 1 week after the school district completes testing for each course. *The commissioner may extend the reporting schedule under exigent circumstances.*

b. ~~Beginning with the 2010-2011 school year,~~ FCAT Writing ~~may is~~ not be administered earlier than the week of March 1 and a comprehensive statewide assessment of any other subject ~~may is~~ not be administered earlier than the week of April 15.

The commissioner shall select ~~an a 3-week~~ administration period for assessments that meets the intent of end-of-course assessments and provides student results prior to the end of the course. School districts shall *administer tests in accordance with the schedule determined by the commissioner* ~~select 1 testing week within the 2-week administration period for each end-of-course assessment.~~ For an end-of-course assessment administered at the end of the first semester, the commissioner shall determine the most appropriate testing dates based on a *review of each school district's academic calendar.*

The commissioner may, based on collaboration and input from school districts, design and implement student testing programs, for any grade level and subject area, necessary to effectively monitor educational achievement in the state, including the measurement of educational achievement of the Next Generation Sunshine State Standards for students with disabilities. Development and refinement of assessments shall include universal design principles and accessibility standards that will prevent any unintended obstacles for students with disabilities while ensuring the validity and reliability of the test. These principles should be applicable to all technology platforms and assistive devices available for the assessments. The field testing process and psychometric analyses for the statewide assessment program must include an appropriate percentage of students with disabilities and an evaluation or determination of the effect of test items on such students.

1. A school's grade based upon statewide assessments administered pursuant to s. 1008.22; and

2. ~~school's grade, pursuant to s. 1008.34, and~~ The level and rate of change in student performance in the areas of reading and mathematics, disaggregated into student subgroups as described in the federal Elementary and Secondary Education Act, 20 U.S.C. s. 6311(b)(2)(C)(v)(II).

(4) The Department of Education shall create a matrix that reflects intervention and support strategies to address the particular needs of schools in each category.

(a) Intervention and support strategies shall be applied to schools based upon the school categorization *pursuant to paragraph (3)(b)*. The Department of Education shall apply the most intense intervention strategies to the lowest-performing schools. For all but the lowest category and "F" schools in the second lowest category, the intervention and support strategies shall be administered solely by the districts and the schools.

(b) The lowest-performing schools are schools that *are categorized pursuant to paragraph (3)(b) and have received*:

2. A grade of "D" or "F" in the most recent school year and meet at least three of the following criteria:

a. The percentage of students who are not proficient in reading has increased when compared to measurements taken 5 years previously;

b. The percentage of students who are not proficient in mathematics has increased when compared to measurements taken 5 years previously;

Section 28. Paragraph (f) of subsection (5) of section 1008.331, Florida Statutes, is amended to read:

1008.331 Supplemental educational services in Title I schools; school district, provider, and department responsibilities.—

(5) RESPONSIBILITIES OF THE DEPARTMENT OF EDUCATION.—

(f) ~~By September 1, 2009,~~ The department shall approve *and a district may select* acceptable premethods and postmethods for measuring student learning gains, including standardized assessments, diagnostic assessments, criterion-referenced and skills-based assessments, or other applicable methods appropriate for each grade level, for use by supplemental educational services providers and local school districts in determining student learning gains. Each method must be able to measure student progress toward mastering the benchmarks or access points set forth in the Sunshine State Standards and the student's supplemental educational services plan. The use of a diagnostic and assessment instrument, which is aligned to a provider's curriculum, is an acceptable premethod and postmethod if the provider can demonstrate that the assessment meets the requirements in this paragraph and is not deemed unreliable or invalid by the department.

1. A district may include in its district contract with a provider a requirement to use a single uniform assessment, if the department is notified of such intent before the district school start date, and the assessment is not deemed invalid or unreliable by the department as a means to measure student progress toward mastering the benchmarks or access points set forth in the state standards and the student's supplemental educational services plan, and to evaluate the effectiveness of the provider.

2. If a district requires a provider to use a third party entity to determine student academic deficiencies or learning gains; to administer, supervise, or score the uniform district assessment; or to develop student profiles, providers may not be charged more than 3 percent of the maximum per-child expenditure for supplemental educational services or \$50 per student, whichever is greater, including the actual assessment tool if administered by the third party entity.

Section 29. Paragraphs (b) and (c) of subsection (3) of section 1008.34, Florida Statutes, are amended to read:

1008.34 School grading system; school report cards; district grade.—

(3) DESIGNATION OF SCHOOL GRADES.—

(b)1. A school's grade shall be based on a combination of:

a. Student achievement scores, including achievement on all FCAT assessments administered under s. 1008.22(3)(c)1., end-of-course assessments administered under s. 1008.22(3)(c)2.a., and achievement scores for students seeking a special diploma.

b. Student learning gains in reading and mathematics as measured by FCAT and end-of-course assessments, as described in s. 1008.22(3)(c) 1. and 2.a. Learning gains for students seeking a special diploma, as measured by an alternate assessment tool, shall be included not later than the 2009-2010 school year.

c. Improvement of the lowest 25th percentile of students in the school in reading and mathematics on the FCAT or end-of-course assessments described in s. 1008.22(3)(c)2.a., unless these students are exhibiting satisfactory performance.

2. *Beginning with the 2011-2012 school year, for schools comprised of middle school grades 6 through 8 or grades 7 and 8, the school's grade shall include the performance and participation of its students enrolled in high school level courses with end-of-course assessments administered under s. 1008.22(3)(c)2.a. Performance and participation must be weighted equally. As valid data becomes available, the school grades shall include the students' attainment of national industry certification identified in the Industry Certification Funding List pursuant to rules adopted by the State Board of Education.*

3. ~~2.~~ Beginning with the 2009-2010 school year for schools comprised of high school grades 9, 10, 11, and 12, or grades 10, 11, and 12, 50 percent of the school grade shall be based on a combination of the factors listed in sub-subparagraphs 1.a.-c. and the remaining 50 percent on the following factors:

a. The high school graduation rate of the school;

b. As valid data becomes available, the performance and participation of the school's students in College Board Advanced Placement courses, International Baccalaureate courses, dual enrollment courses, and Advanced International Certificate of Education courses; and the students' achievement of national industry certification identified in the Industry Certification Funding List, pursuant to rules adopted by the State Board of Education;

c. Postsecondary readiness of the school's students as measured by the SAT, ACT, or the common placement test;

d. The high school graduation rate of at-risk students who scored at Level 2 or lower on the grade 8 FCAT Reading and Mathematics examinations;

e. As valid data becomes available, the performance of the school's students on statewide standardized end-of-course assessments administered under s. 1008.22(3)(c)2.b. and c.; and

f. The growth or decline in the components listed in sub-subparagraphs a.-e. from year to year.

(c) Student assessment data used in determining school grades shall include:

1. The aggregate scores of all eligible students enrolled in the school who have been assessed on the FCAT and statewide, standardized end-of-course assessments in courses required for high school graduation, including, beginning with the 2010-2011 school year, the end-of-course assessment in Algebra I; and beginning with the 2011-2012 school year, the end-of-course assessments in geometry and Biology; and beginning with the 2013-2014 school year, on the statewide, standardized end-of-course assessment in civics education at the middle school level.

2. The aggregate scores of all eligible students enrolled in the school who have been assessed on the FCAT and end-of-course assessments as described in s. 1008.22(3)(c)2.a., and who have scored at or in the lowest 25th percentile of students in the school in reading and mathematics, unless these students are exhibiting satisfactory performance.

3. The achievement scores and learning gains of eligible students attending alternative schools that provide dropout prevention and academic intervention services pursuant to s. 1003.53. The term "eligible students" in this subparagraph does not include students attending an alternative school who are subject to district school board policies for expulsion for repeated or serious offenses, who are in dropout retrieval programs serving students who have officially been designated as dropouts, or who are in programs operated or contracted by the Department of Juvenile Justice. The student performance data for eligible students identified in this subparagraph shall be included in the calculation of the home school's grade. As used in this *subparagraph section* and s. 1008.341, the term "home school" means the school to which the student would be assigned if the student were not assigned to an alternative school. If an alternative school chooses to be graded under this section, student performance data for eligible students identified in this subparagraph shall not be included in the home school's grade but shall be included only in the calculation of the alternative school's grade. A school district that fails to assign the FCAT and end-of-course assessment as described in s. 1008.22(3)(c)2.a. scores of each of its students to his or her home school or to the alternative school that receives a grade shall forfeit Florida School Recognition Program funds for 1 fiscal year. School districts must require collaboration between the home school and the alternative school in order to promote student success. This collaboration must include an annual discussion between the principal of the alternative school and the principal of each student's home school concerning the most appropriate school assignment of the student.

4. *The achievement scores and learning gains of students designated as hospital or homebound. Student assessment data for students designated as hospital or homebound shall be assigned to their home school for the purposes of school grades. As used in this subparagraph, the term "home school" means the school to which a student would be assigned if the student were not assigned to a hospital or homebound program.*

5.4. For schools comprised of high school grades 9, 10, 11, and 12, or grades 10, 11, and 12, the data listed in subparagraphs 1.-3. and the following data as the Department of Education determines such data are valid and available:

a. The high school graduation rate of the school as calculated by the Department of Education;

b. The participation rate of all eligible students enrolled in the school and enrolled in College Board Advanced Placement courses; International Baccalaureate courses; dual enrollment courses; Advanced International Certificate of Education courses; and courses or sequence of courses leading to national industry certification identified in the Industry Certification Funding List, pursuant to rules adopted by the State Board of Education;

c. The aggregate scores of all eligible students enrolled in the school in College Board Advanced Placement courses, International Baccalaureate courses, and Advanced International Certificate of Education courses;

d. Earning of college credit by all eligible students enrolled in the school in dual enrollment programs under s. 1007.271;

e. Earning of a national industry certification identified in the Industry Certification Funding List, pursuant to rules adopted by the State Board of Education;

f. The aggregate scores of all eligible students enrolled in the school in reading, mathematics, and other subjects as measured by the SAT, the ACT, and the common placement test for postsecondary readiness;

g. The high school graduation rate of all eligible at-risk students enrolled in the school who scored at Level 2 or lower on the grade 8 FCAT Reading and Mathematics examinations;

h. The performance of the school's students on statewide standardized end-of-course assessments administered under s. 1008.22(3)(c)2.b. and c.; and

i. The growth or decline in the data components listed in sub-subparagraphs a.-h. from year to year.

The State Board of Education shall adopt appropriate criteria for each school grade. The criteria must also give added weight to student achievement in reading. Schools designated with a grade of "C," making satisfactory progress, shall be required to demonstrate that adequate progress has been made by students in the school who are in the lowest 25th percentile in reading and mathematics on the FCAT and end-of-course assessments as described in s. 1008.22(3)(c)2.a., unless these students are exhibiting satisfactory performance. Beginning with the 2009-2010 school year for schools comprised of high school grades 9, 10, 11, and 12, or grades 10, 11, and 12, the criteria for school grades must also give added weight to the graduation rate of all eligible at-risk students, as defined in this paragraph. Beginning in the 2009-2010 school year, in order for a high school to be designated as having a grade of "A," making excellent progress, the school must demonstrate that at-risk students, as defined in this paragraph, in the school are making adequate progress.

Section 32. Section 1011.035, Florida Statutes, is created to read:

1011.035 School district budget transparency.-

(1) It is important for school districts to provide budgetary transparency to enable taxpayers, parents, and education advocates to obtain school district budget and related information in a manner that is simply explained and easily understandable. Budgetary transparency leads to more responsible spending, more citizen involvement, and improved accountability. A budget that is not transparent, accessible, and accurate cannot be properly analyzed, its implementation thoroughly monitored, or its outcomes evaluated.

(2) Each district school board shall post on its website a plain language version of each proposed, tentative, and official budget which describes each budget item in terms that are easily understandable to the public. This information must be prominently posted on the school district's website in a manner that is readily accessible to the public.

(3) Each district school board is encouraged to post the following information on its website:

- (a) Timely information as to when a budget hearing will be conducted.*
- (b) Each contract between the district school board and the teachers' union.*
- (c) Each contract between the district school board and noninstructional staff.*
- (d) Each contract exceeding \$35,000 between the school board and a vendor of services, supplies, or programs or for the purchase or lease of lands, facilities, or properties.*

- (b) Allow users to navigate to related sites to view supporting details.*
- (c) Enable taxpayers, parents, and education advocates to send e-mails asking questions about the budget and enable others to view the questions and responses.*

Section 33. Paragraph (e) of subsection (1) of section 1011.62, Florida Statutes, is amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(e) *Funding model for exceptional student education programs.—*

1.a. The funding model uses basic, at-risk, support levels IV and V for exceptional students and career Florida Education Finance Program cost factors, and a guaranteed allocation for exceptional student education programs. Exceptional education cost factors are determined by using a matrix of services to document the services that each exceptional student will receive. The nature and intensity of the services indicated on the matrix shall be consistent with the services described in each exceptional student's individual educational plan. *The Department of*

Education shall review and revise the descriptions of the services and supports included in the matrix of services for exceptional students and shall implement those revisions before the beginning of the 2011-2012 school year.

b. In order to generate funds using one of the two weighted cost factors, a matrix of services must be completed at the time of the student's initial placement into an exceptional student education program and at least once every 3 years by personnel who have received approved training. Nothing listed in the matrix shall be construed as limiting the services a school district must provide in order to ensure that exceptional students are provided a free, appropriate public education.

c. Students identified as exceptional, in accordance with chapter 6A-6, Florida Administrative Code, who do not have a matrix of services as specified in sub-subparagraph b. shall generate funds on the basis of full-time-equivalent student membership in the Florida Education Finance Program at the same funding level per student as provided for basic students. Additional funds for these exceptional students will be provided through the guaranteed allocation designated in subparagraph 2.

2. For students identified as exceptional who do not have a matrix of services and students who are gifted in grades K through 8, there is created a guaranteed allocation to provide these students with a free appropriate public education, in accordance with s. 1001.42(4)(m) and rules of the State Board of Education, which shall be allocated annually to each school district in the amount provided in the General Appropriations Act. These funds shall be in addition to the funds appropriated on the basis of FTE student membership in the Florida Education Finance Program, and the amount allocated for each school district shall not be recalculated during the year. These funds shall be used to provide special education and related services for exceptional students and students who are gifted in grades K through 8. Beginning with the 2007-2008 fiscal year, a district's expenditure of funds from the guaranteed allocation for students in grades 9 through 12 who are gifted may not be greater than the amount expended during the 2006-2007 fiscal year for gifted students in grades 9 through 12.

Qualifications shall be established for *nondegreed teachers of career and technical education courses for program clusters that are recognized in the state and are agriculture, business, health occupations, family and consumer sciences, industrial, marketing, career specialist, and public service education teachers*, based primarily on successful occupational experience rather than academic training. 2. Documentation of education and successful occupational experience including documentation of:

- a. A high school diploma or the equivalent.
- b. Completion of 6 years of full-time successful occupational experience or the equivalent of part-time experience in the teaching specialization area. *The district school board may establish alternative qualifications for teachers with an industry certification in the career area in which they teach. Alternate means of determining successful occupational experience may be established by the district school board.*
- c. Completion of career education training conducted through the local school district inservice master plan.
- d. For full-time teachers, completion of professional education training in teaching methods, course construction, lesson planning and

The council shall evaluate such application in accordance with subsections (5)-(9) and, if approved, the Department of Transportation shall include the feasibility study in its budget request pursuant to s. subsection (10).

Section 2. Section 311.12, Florida Statutes, is amended to read:

~~(a) The statewide minimum standards for seaport security applicable to seaports listed in s. 311.09 shall be those based on the Florida Seaport Security Assessment 2000 and set forth in the Port Security Standards Compliance Plan delivered to the Speaker of the House of Representatives and the President of the Senate on December 11, 2000. The Office of Drug Control within the Executive Office of the Governor shall maintain a sufficient number of copies of the standards at its offices for distribution to the public and provide copies to each affected seaport upon request.~~

~~(a)(b) A seaport may implement security measures that are more stringent, more extensive, or supplemental to the applicable federal security regulations, including federal facility security assessment requirements under 33 C.F.R. s. 105.305 minimum security standards established by this subsection.~~

~~(b)(c) The provisions of s. 790.251 are not superseded, preempted, or otherwise modified in any way by the provisions of this section.~~

~~(2) EXEMPTION. The Department of Law Enforcement may exempt all or part of a seaport listed in s. 311.09 from the requirements of this section if the department determines that activity associated with the use of the seaport or part of the seaport is not vulnerable to criminal activity or terrorism. The department shall periodically review such exemptions to determine if there is a change in use. Such change may warrant removal of all or part of the exemption.~~

~~(2)(b) SECURITY PLAN.—~~

~~(a) Each seaport listed in s. 311.09 shall adopt and maintain a security plan specific to that seaport which provides for a secure seaport infrastructure that promotes the safety and security of state residents and visitors and the flow of legitimate trade and travel.~~

~~(b)(a) Each seaport Every 5 years after January 1, 2007, each seaport director, with the assistance of the Regional Domestic Security Task Force and in conjunction with the United States Coast Guard, shall periodically revise the seaport's security plan based on the seaport's director's ongoing assessment of security risks, the risks of terrorist activities, and the specific and identifiable needs of the seaport for ensuring that the seaport is in substantial compliance with applicable federal security regulations, including federal facility security assessment requirements under 33 C.F.R. s. 105.305 the minimum security standards established under subsection (1).~~

~~(3)(4) SECURE AND RESTRICTED AREAS.—Each seaport listed in s. 311.09 must clearly designate in seaport security plans, and clearly identify with appropriate signs and markers on the premises of a seaport, all secure and restricted areas as defined by 33 C.F.R. part 105 the United States Department of Homeland Security United States Coast Guard Navigation and Vessel Inspection Circular No. 03-07 and 49 C.F.R. part 1572. The plans must also address access eligibility requirements and corresponding security enforcement authorizations.~~

~~(a) The seaport's security plan must set forth the conditions and restrictions to be imposed on persons employed at, doing business at, or visiting the seaport who have access to secure and restricted areas which~~

~~are sufficient to provide substantial compliance with the minimum security standards established in subsection (1) and federal regulations.~~

~~1. All seaport employees and other persons working at the seaport who have regular access to secure or restricted areas must comply with federal access control regulations and state criminal history checks as prescribed in this section.~~

~~2. All persons and objects in secure and restricted areas are subject to search by a sworn state-certified law enforcement officer, a Class D seaport security officer certified under Maritime Transportation Security Act of 2002 guidelines and s. 311.121, or an employee of the seaport security force certified under the Maritime Transportation Security Act of 2002 guidelines and s. 311.121.~~

~~3. Persons found in these areas without the proper permission are subject to the trespass provisions of ss. 810.08 and 810.09.~~

~~(b) As determined by the seaport director's most current risk assessment under paragraph (3)(a), any secure or restricted area that has a potential human occupancy of 50 persons or more, any cruise terminal, or any business operation that is adjacent to a public access area must be protected from the most probable and credible terrorist threat to human life.~~

~~(b)(c) The seaport must provide clear notice of the prohibition against possession of concealed weapons and other contraband material on the premises of the seaport. Any person in a restricted area who has in his or her possession a concealed weapon, or who operates or has possession or control of a vehicle in or upon which a concealed weapon is placed or stored, commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. This paragraph does not apply to active-duty certified federal or state law enforcement personnel or persons so designated by the seaport director in writing.~~

The duration of such designation is limited to the period in which the high terrorist threat level is in effect or a port emergency exists.~~

~~(5) ACCESS ELIGIBILITY REPORTING SYSTEM. Subject to legislative appropriations, the Department of Law Enforcement shall administer a statewide seaport access eligibility reporting system.~~

~~(a) The system must include, at a minimum, the following:~~

~~1. A centralized, secure method of collecting and maintaining fingerprints, other biometric data, or other means of confirming the identity of persons authorized to enter a secure or restricted area of a seaport.~~

~~2. A methodology for receiving from and transmitting information to each seaport regarding a person's authority to enter a secure or restricted area of the seaport.~~

~~3. A means for receiving prompt notification from a seaport when a person's authorization to enter a secure or restricted area of a seaport has been suspended or revoked.~~

~~4. A means to communicate to seaports when a person's authorization to enter a secure or restricted area of a seaport has been suspended or revoked.~~

~~(b) Each seaport listed in s. 311.09 is responsible for granting, modifying, restricting, or denying access to secure and restricted areas to seaport employees, other persons working at the seaport, visitors who have business with the seaport, or other persons regularly appearing at the seaport. Based upon the person's criminal history check, each seaport may determine the specific access eligibility to be granted to that person. Each seaport is responsible for access eligibility verification at its location.~~

~~(c) Upon determining that a person is eligible to enter a secure or restricted area of a port pursuant to subsections (6) and (7), the seaport~~

shall, within 3 business days, report the determination to the department for inclusion in the system.

(d) All information submitted to the department regarding a person's access eligibility screening may be retained by the department for subsequent use in promoting seaport security, including, but not limited to, the review of the person's criminal history status to ensure that the person has not become disqualified for such access.

(e) The following fees may not be charged by more than one seaport and shall be paid by the seaport, another employing entity, or the person being entered into the system to the department or to the seaport if the seaport is acting as an agent of the department for the purpose of collecting the fees:

1. The cost of the state criminal history check under subsection (7).
2. A \$50 fee to cover the initial cost of entering the person into the system and an additional \$50 fee every 5 years thereafter to coincide with the issuance of the federal Transportation Worker Identification Credential described in subsection (6). The fee covers all costs for entering or maintaining the person in the system including the retention and use of the person's fingerprint, other biometric data, or other identifying information.
3. The seaport entering the person into the system may charge an administrative fee to cover, but not exceed, the seaport's actual administrative costs for processing the results of the state criminal history check and entering the person into the system.
- (f) All fees identified in paragraph (e) must be paid before the person may be granted access to a secure or restricted area. Failure to comply with the criminal history check and failure to pay the fees are grounds for immediate denial of access.

(g) Persons, corporations, or other business entities that employ persons to work or do business at seaports shall notify the seaport of the termination, resignation, work-related incapacitation, or death of an employee who has access permission.

1. If the seaport determines that the person has been employed by another appropriate entity or is self employed for purposes of performing work at the seaport, the seaport may reinstate the person's access eligibility.
2. A business entity's failure to report a change in an employee's work status within 7 days after the change may result in revocation of the business entity's access to the seaport.

(h) In addition to access permissions granted or denied by seaports, access eligibility may be restricted or revoked by the department if there is a reasonable suspicion that the person is involved in terrorism or criminal violations that could affect the security of a port or otherwise render the person ineligible for seaport access.

(i) Any suspension or revocation of port access must be reported by the seaport to the department within 24 hours after such suspension or revocation.

(j) The submission of information known to be false or misleading to the department for entry into the system is a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(4)(6) ACCESS TO SECURE AND RESTRICTED AREAS.—

(a) Any person seeking authorization for unescorted access to secure and restricted areas of a seaport must possess, unless waived under paragraph (7)(c), a valid federal Transportation Worker Identification Credential (TWIC).

(b) A seaport may not charge a fee for the administration or production of any access control credential that requires or is associated with a fingerprint-based background check, in addition to the fee for the federal TWIC. Beginning July 1, 2013, a seaport may not charge a fee for a seaport-specific access credential issued in addition to the federal TWIC, except under the following circumstances:

1. The individual seeking to gain secured access is a new hire as defined under 33 C.F.R. s. 105; or

2. The individual has lost or misplaced his or her federal TWIC, and execute an affidavit under oath which provides TWIC identification information and indicates the following:

1. The TWIC is currently valid and in full force and effect.
2. The TWIC was not received through the waiver process for disqualifying criminal history allowed by federal law.
3. He or she has not, in any jurisdiction, civilian or military, been convicted of, entered a plea of guilty or nolo contendere to, regardless of adjudication, or been found not guilty by reason of insanity, of any disqualifying felony under subsection (7) or any crime that includes the use or possession of a firearm.

(b) Upon submission of a completed affidavit as provided in paragraph (a), the completion of the state criminal history check as provided in subsection (7), and payment of all required fees under subsection (5), a seaport may grant the person access to secure or restricted areas of the port.

(c) Any port granting a person access to secure or restricted areas shall report the grant of access to the Department of Law Enforcement for inclusion in the access eligibility reporting system under subsection (5) within 3 business days.

(d) The submission of false information on the affidavit required by this section is a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. Upon conviction for a violation of this provision, the person convicted forfeits all privilege of access to secure or restricted areas of a seaport and is disqualified from future approval for access to such areas.

(e) Any affidavit form created for use under this subsection must contain the following statement in conspicuous type: "SUBMISSION OF FALSE INFORMATION ON THIS AFFIDAVIT IS A FELONY UNDER FLORIDA LAW AND WILL, UPON CONVICTION, RESULT IN DISQUALIFICATION FOR ACCESS TO A SECURE OR RESTRICTED AREA OF A SEAPORT."

(f) Upon each 5 year renewal of a person's TWIC, the person must submit another affidavit as required by this subsection.

(7) CRIMINAL HISTORY SCREENING. A fingerprint based criminal history check must be performed on employee applicants, current employees, and other persons authorized to regularly enter a secure or restricted area, or the entire seaport if the seaport security plan does not designate one or more secure or restricted areas.

(a) A person is disqualified from employment or unescorted access if the person:

1. Was convicted of, or entered a plea of guilty or nolo contendere to, regardless of adjudication, any of the offenses listed in paragraph (b) in any jurisdiction, civilian or military, including courts martial conducted by the Armed Forces of the United States, during the 7 years before the date of the person's application for access; or
2. Was released from incarceration, or any supervision imposed as a result of sentencing, for committing any of the disqualifying crimes listed in paragraph (b) in any jurisdiction, civilian or military, during the 5 years before the date of the person's application for access.

(b) Disqualifying offenses include:

- ~~10.— Criminal use of personal identification as provided in s. 817.568.~~
- ~~11.— Bribery as provided in s. 838.015.~~
- ~~12.— A violation of s. 316.302, relating to the transport of hazardous materials.~~
- ~~13.— A forcible felony as defined in s. 776.08.~~
- ~~14.— A violation of s. 790.07.~~
- ~~15.— Any crime that includes the use or possession of a firearm.~~
- ~~16.— A felony violation for theft as provided in s. 812.014.~~
- ~~17.— Robbery as provided in s. 812.13.~~
- ~~18.— Burglary as provided in s. 810.02.~~

- ~~21.— Conspiracy or attempt to commit any of the offenses listed in this paragraph.~~
- ~~(c) Each individual who is subject to a criminal history check shall file a complete set of fingerprints taken in a manner acceptable to the Department of Law Enforcement for state processing. The results of the criminal history check must be reported to the requesting seaport and may be shared among seaports.~~
- ~~(d) All fingerprints submitted to the Department of Law Enforcement shall be retained by the department and entered into the statewide automated fingerprint identification system established in s. 943.05(2)(b) and available for use in accordance with s. 943.05(2)(g) and (h). An arrest record that is identified with the retained fingerprints of a person subject to the screening shall be reported to the seaport where the person has been granted access to a secure or restricted area. If the fingerprints of a person who has been granted access were not retained, or are otherwise not suitable for use by the department, the person must be re-fingerprinted in a manner that allows the department to perform its functions as provided in this section.~~
- ~~(e) The Department of Law Enforcement shall establish a waiver process for a person who does not have a TWIC, obtained a TWIC through a federal waiver process, or is found to be unqualified under paragraph (a) and denied employment by a seaport or unescorted access to secure or restricted areas. If the person does not have a TWIC and a federal criminal history record check is required, the Department of Law Enforcement may forward the person's fingerprints to the Federal Bureau of Investigation for a national criminal history record check. The cost of the national check must be paid by the seaport, which may collect it as reimbursement from the person.~~
- ~~1.— Consideration for a waiver shall be based on the circumstances of any disqualifying act or offense, restitution made by the individual, and other factors from which it may be determined that the individual does not pose a risk of engaging in any act within the public seaports regulated under this chapter that would pose a risk to or threaten the security of the seaport and the public's health, safety, or welfare.~~
- ~~2.— The waiver process begins when an individual who has been denied initial employment within or denied unescorted access to secure or restricted areas of a public seaport submits an application for a waiver and a notarized letter or affidavit from the individual's employer or union representative which states the mitigating reasons for initiating the waiver process.~~
- ~~3.— Within 90 days after receipt of the application, the administrative staff of the Parole Commission shall conduct a factual review of the waiver application. Findings of fact shall be transmitted to the depart-~~

~~4.— The department shall make a final disposition of the waiver request based on the factual findings of the investigation by the Parole Commission. The department shall notify the waiver applicant of the final disposition of the waiver.~~

~~5.— The review process under this paragraph is exempt from chapter 120.~~

~~6.— By October 1 of each year, each seaport shall report to the department each instance of denial of employment within, or access to, secure or restricted areas, and each instance waiving a denial occurring during the last 12 months. The report must include the identity of the individual affected, the factors supporting the denial or waiver, and any other material factors used to make the determination.~~

~~(f) In addition to the waiver procedure established by the Department of Law Enforcement under paragraph (c), each seaport security plan may establish a procedure to appeal a denial of employment or access based upon procedural inaccuracies or discrepancies regarding criminal history factors established pursuant to this subsection.~~

~~(g) Each seaport may allow immediate waivers on a temporary basis to meet special or emergency needs of the seaport or its users. Policies, procedures, and criteria for implementation of this paragraph must be included in the seaport security plan. All waivers granted by the seaports pursuant to this paragraph must be reported to the department within 30 days after issuance.~~

~~(8) WAIVER FROM SECURITY REQUIREMENTS.— The Office of Drug Control and the Department of Law Enforcement may modify or waive any physical facility requirement or other requirement contained in the minimum security standards upon a determination that the purposes of the standards have been reasonably met or exceeded by the seaport requesting the modification or waiver. An alternate means of compliance must not diminish the safety or security of the seaport and must be verified through an extensive risk analysis conducted by the seaport director.~~

~~(a) Waiver requests shall be submitted in writing, along with supporting documentation, to the Office of Drug Control and the Department of Law Enforcement. The office and the department have 90 days to jointly grant or reject the waiver, in whole or in part.~~

~~(b) The seaport may submit any waivers that are not granted or are jointly rejected to the Domestic Security Oversight Council for review within 90 days. The council shall recommend that the Office of Drug Control and the Department of Law Enforcement grant the waiver or reject the waiver, in whole or in part. The office and the department shall give great weight to the council's recommendations.~~

~~(c) A request seeking a waiver from the seaport law enforcement personnel standards established under s. 311.122(3) may not be granted for percentages below 10 percent.~~

~~(d) Any modifications or waivers granted under this subsection shall be noted in the annual report submitted by the Department of Law Enforcement pursuant to subsection (10).~~

~~(9) INSPECTIONS.— It is the intent of the Legislature that the state's seaports adhere to security practices that are consistent with the risks assigned to each seaport through the ongoing risk assessment process established in paragraph (3)(a).~~

~~(a) The Department of Law Enforcement, or any entity designated by the department, shall conduct at least one annual unannounced inspection of each seaport to determine whether the seaport is meeting the minimum security standards established pursuant to subsection (1) and to identify seaport security changes or improvements needed or otherwise recommended.~~

~~(b) The Department of Law Enforcement, or any entity designated by the department, may conduct additional announced or unannounced inspections or operations within or affecting any seaport to test compliance with, or the effectiveness of, security plans and operations at each seaport, to determine compliance with physical facility requirements and standards, or to assist the department in identifying changes~~

or improvements needed to bring a seaport into compliance with minimum security standards.

(c) ~~Within 30 days after completing the inspection report, the department shall submit a copy of the report to the Domestic Security Oversight Council.~~

(d) ~~A seaport may request that the Domestic Security Oversight Council review the findings in the department's report as they relate to the requirements of this section. The council may review only those findings that are in dispute by the seaport. In reviewing the disputed findings, the council may concur in the findings of the department or the seaport or may recommend corrective action to the seaport. The department and the seaport shall give great weight to the council's findings and recommendations.~~

(e) ~~All seaports shall allow the Department of Law Enforcement, or an entity designated by the department, unimpeded access to affected areas and facilities for the purpose of plan or compliance inspections or other operations authorized by this section.~~

(10) ~~REPORTS.~~ The Department of Law Enforcement, in consultation with the Office of Drug Control, shall annually complete a report indicating the observations and findings of all reviews, inspections, or other operations relating to the seaports conducted during the year and any recommendations resulting from such reviews, inspections, and operations. A copy of the report shall be provided to the Governor, the President of the Senate, the Speaker of the House of Representatives, the governing body of each seaport or seaport authority, and each seaport director. The report must include each director's response indicating what actions, if any, have been taken or are planned to be taken pursuant to the observations, findings, and recommendations reported by the department.

(11) ~~FUNDING.~~

(a) ~~In making decisions regarding security projects or other funding applicable to each seaport listed in s. 311.09, the Legislature may consider the Department of Law Enforcement's annual report under subsection (10) as authoritative, especially regarding each seaport's degree of substantial compliance with the minimum security standards established in subsection (1).~~

(b) ~~The Legislature shall regularly review the ongoing costs of operational security on seaports, the impacts of this section on those costs, mitigating factors that may reduce costs without reducing security, and the methods by which seaports may implement operational security using a combination of sworn law enforcement officers and private security services.~~

(c) ~~Subject to the provisions of this chapter and appropriations made for seaport security, state funds may not be expended for security costs without certification of need for such expenditures by the Office of Ports Administrator within the Department of Law Enforcement.~~

(d) ~~If funds are appropriated for seaport security, the Office of Drug Control, the Department of Law Enforcement, and the Florida Seaport Transportation and Economic Development Council shall mutually determine the allocation of such funds for security project needs identified in the approved seaport security plans. Any seaport that receives state funds for security projects must enter into a joint participation agreement with the appropriate state entity and use the seaport security plan as the basis for the agreement.~~

1. ~~If funds are made available over more than 1 fiscal year, the agreement must reflect the entire scope of the project approved in the security plan and, as practicable, allow for reimbursement for authorized projects over more than 1 year.~~

2. ~~The agreement may include specific timeframes for completion of a security project and the applicable funding reimbursement dates. The agreement may also require a contractual penalty of up to \$1,000 per day to be imposed for failure to meet project completion dates if state funding is available. Any such penalty shall be deposited into the State Transportation Trust Fund and used for seaport security operations and capital improvements.~~

Section 3. Subsection (2) of section 311.121, Florida Statutes, is amended to read:

Senator Negron moved the following amendment which was adopted:

Amendment 1 (322804) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Subsection (2) and paragraph (c) of subsection (4) of section 381.026, Florida Statutes, are amended to read:

381.026 Florida Patient's Bill of Rights and Responsibilities.—

(2) DEFINITIONS.—As used in this section and s. 381.0261, the term:

- (a) "Department" means the Department of Health.
- (b) "Health care facility" means a facility licensed under chapter 395.
- (c) "Health care provider" means a physician licensed under chapter 458, an osteopathic physician licensed under chapter 459, or a podiatric physician licensed under chapter 461.

(d) "Primary care provider" means a health care provider licensed under chapter 458, chapter 459, or chapter 464 who provides medical services to patients which are commonly provided without referral from another health care provider, including family and general practice, general pediatrics, and general internal medicine.

(e)(~~d~~) "Responsible provider" means a health care provider who is primarily responsible for patient care in a health care facility or provider's office.

(4) RIGHTS OF PATIENTS.—Each health care facility or provider shall observe the following standards:

(c) *Financial information and disclosure.*—

1. A patient has the right to be given, upon request, by the responsible provider, his or her designee, or a representative of the health care facility full information and necessary counseling on the availability of known financial resources for the patient's health care.

2. A health care provider or a health care facility shall, upon request, disclose to each patient who is eligible for Medicare, ~~before in advance of~~ treatment, whether the health care provider or the health care facility in which the patient is receiving medical services accepts assignment under Medicare reimbursement as payment in full for medical services and treatment rendered in the health care provider's office or health care facility.

3. *A primary care provider may publish a schedule of charges for the medical services that the provider offers to patients. The schedule must include the prices charged to an uninsured person paying for such services by cash, check, credit card, or debit card. The schedule must be posted in a conspicuous place in the reception area of the provider's office and must include, but is not limited to, the 50 services most frequently provided by the primary care provider. The schedule may group services by three price levels, listing services in each price level. The posting must be at least 15 square feet in size. A primary care provider who publishes and maintains a schedule of charges for medical services is exempt from the license fee requirements for a single period of renewal of a professional license under chapter 456 for that licensure term and is exempt from the continuing education requirements of chapter 456 and the rules implementing those requirements for a single 2-year period.*

4. *If a primary care provider publishes a schedule of charges pursuant to subparagraph 3., he or she must continually post it at all times for the duration of active licensure in this state when primary care services are provided to patients. If a primary care provider fails to post the schedule of charges in accordance with this subparagraph, the provider shall be required to pay any license fee and comply with any continuing education requirements for which an exemption was received.*

The health care provider or the health care facility shall provide an uninsured person, ~~before prior to~~ the provision of a planned nonemergency medical service, a reasonable estimate of charges for such service and information regarding the provider's or facility's discount or charity policies for which the uninsured person may be eligible. *Such estimates by a primary care provider must be consistent with the schedule posted under subparagraph 3. Estimates shall, to the extent possible, be written in a language comprehensible to an ordinary layperson. Such reasonable estimate does shall* not preclude the health care provider or health care facility from exceeding the estimate or making additional charges based on changes in the patient's condition or treatment needs.

6.4. Each licensed facility not operated by the state shall make available to the public on its Internet website or by other electronic means a description of and a link to the performance outcome and financial data that is published by the agency pursuant to s. 408.05(3)(k). The facility shall place a notice in the reception area that such information is available electronically and the website address. The licensed facility may indicate that the pricing information is based on a compilation of charges for the average patient and that each patient's bill may vary from the average depending upon the severity of illness and individual resources consumed. The licensed facility may also indicate that the price of service is negotiable for eligible patients based upon the patient's ability to pay.

7.5. A patient has the right to receive a copy of an itemized bill upon request. A patient has a right to be given an explanation of charges upon request.

Section 2. Subsections (30) through (32) of section 395.002, Florida Statutes, are renumbered as subsections (31) through (33), respectively, and a new subsection (30) is added to that section to read:

395.002 Definitions.—As used in this chapter:

(30) "Urgent care center" means a facility or clinic that provides immediate but not emergent ambulatory medical care to patients with or without an appointment. It does not include the emergency department of a hospital.

Section 3. Section 395.107, Florida Statutes, is created to read:

395.107 *Urgent care centers; publishing and posting schedule of charges.*—An urgent care center must publish a schedule of charges for the medical services offered to patients. The schedule must include the prices charged to an uninsured person paying for such services by cash, check, credit card, or debit card. The schedule must be posted in a conspicuous place in the reception area of the urgent care center and must include, but is not limited to, the 50 services most frequently provided by the urgent care center. The schedule may group services by three price levels, listing services in each price level. The posting must be at least 15 square feet in size. The failure of an urgent care center to publish and post a schedule of charges as required by this section shall result in a fine of not more than \$1,000, per day, until the schedule is published and posted.

Section 4. Subsections (1) and (6) of section 400.9935, Florida Statutes, are amended to read:

400.9935 Clinic responsibilities.—

(1) Each clinic shall appoint a medical director or clinic director who shall agree in writing to accept legal responsibility for the following activities on behalf of the clinic. The medical director or the clinic director shall:

(a) Have signs identifying the medical director or clinic director posted in a conspicuous location within the clinic readily visible to all patients.

(b) Ensure that all practitioners providing health care services or supplies to patients maintain a current active and unencumbered Florida license.

(c) Review any patient referral contracts or agreements executed by the clinic.

(d) Ensure that all health care practitioners at the clinic have active appropriate certification or licensure for the level of care being provided.

(e) Serve as the clinic records owner as defined in s. 456.057.

(f) Ensure compliance with the recordkeeping, office surgery, and adverse incident reporting requirements of chapter 456, the respective practice acts, and rules adopted under this part and part II of chapter 408.

(g) Conduct systematic reviews of clinic billings to ensure that the billings are not fraudulent or unlawful. Upon discovery of an unlawful charge, the medical director or clinic director shall take immediate corrective action. If the clinic performs only the technical component of magnetic resonance imaging, static radiographs, computed tomography, or positron emission tomography, and provides the professional interpretation of such services, in a fixed facility that is accredited by the Joint Commission on Accreditation of Healthcare Organizations or the Accreditation Association for Ambulatory Health Care, and the American College of Radiology; and if, in the preceding quarter, the percentage of scans performed by that clinic which was billed to all personal injury protection insurance carriers was less than 15 percent, the chief financial officer of the clinic may, in a written acknowledgment provided to the agency, assume the responsibility for the conduct of the systematic reviews of clinic billings to ensure that the billings are not fraudulent or unlawful.

(h) Not refer a patient to the clinic if the clinic performs magnetic resonance imaging, static radiographs, computed tomography, or positron emission tomography. The term "refer a patient" means the referral of one or more patients of the medical or clinical director or a member of the medical or clinical director's group practice to the clinic for magnetic resonance imaging, static radiographs, computed tomography, or positron emission tomography. A medical director who is found to violate this paragraph commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(i) Ensure that the clinic publishes a schedule of charges for the medical services offered to patients. The schedule must include the prices charged to an uninsured person paying for such services by cash, check, credit card, or debit card. The schedule must be posted in a conspicuous place in the reception area of the urgent care center and must include, but is not limited to, the 50 services most frequently provided by the clinic. The schedule may group services by three price levels, listing services in each price level. The posting must be at least 15 square feet in size. The failure of a clinic to publish and post a schedule of charges as required by this section shall result in a fine of not more than \$1,000, per day, until the schedule is published and posted.

(6) Any person or entity providing health care services which is not a clinic, as defined under s. 400.9905, may voluntarily apply for a certificate of exemption from licensure under its exempt status with the agency on a form that sets forth its name or names and addresses, a statement of the reasons why it cannot be defined as a clinic, and other information deemed necessary by the agency. An exemption is not transferable. The agency may charge an applicant for a certificate of exemption in an amount equal to \$100 or the actual cost of processing the certificate, whichever is less. An entity seeking a certificate of exemption must publish and maintain a schedule of charges for the medical services offered to patients. The schedule must include the prices charged to an uninsured person paying for such services by cash, check, credit card, or debit card. The schedule must be posted in a conspicuous place in the reception area of the entity and must include, but is not limited to, the 50 services most frequently provided by the entity. The schedule may group services by three price levels, listing services in each price level. The posting must be at least 15 square feet in size. As a condition precedent to receiving a certificate of exemption, an applicant must provide to the agency documentation of compliance with these requirements.

Section 5. This act shall take effect July 1, 2011.

And the title is amended as follows:

(a) The supreme court shall adopt rules for the practice and procedure in all courts including the time for seeking appellate review, the administrative supervision of all courts, the transfer to the court having jurisdiction of any proceeding when the jurisdiction of another court has been improvidently invoked, and a requirement that no cause shall be dismissed because an improper remedy has been sought. The supreme court shall adopt rules to allow ~~it the court~~ and the district courts of appeal to submit questions relating to military law to the federal Court of Appeals for the Armed Forces for an advisory opinion. Rules of court may be repealed by general law *that expresses the policy behind the repeal enacted by two-thirds vote of the membership of each house of the legislature.* ~~The court may readopt the repealed rule only in conformity~~

with the public policy expressed by the legislature. If the legislature repeals the readopted rule, the rule may not be readopted thereafter without prior approval of the legislature.

(b) The chief justice of the supreme court of Florida shall be chosen by a majority of the members of the court; shall be the chief administrative officer of the judicial system; and shall have the power to assign justices or judges, including consenting retired justices or judges, to temporary duty in any court for which the judge is qualified and to delegate to a chief judge of a judicial circuit the power to assign judges for duty in that circuit.

(c) A chief judge for each district court of appeal shall be chosen by a majority of the judges thereof or, if there is no majority, by the chief justice. The chief judge of a district court shall be responsible for the administrative supervision of the district court.

(d) A chief judge in each circuit shall be chosen from among the circuit judges as provided by supreme court rule. The chief judge of a circuit shall be responsible for the administrative supervision of the circuit courts and county courts in the circuit.

SECTION 4. District courts of appeal.—

(a) ORGANIZATION.—There shall be a district court of appeal serving each appellate district. Each district court of appeal shall consist of at least three judges. Three judges shall consider each case and the concurrence of two shall be necessary to a decision.

(b) JURISDICTION.—

(1) District courts of appeal shall have jurisdiction to hear appeals, that may be taken as a matter of right, from final judgments or orders of trial courts, including those entered on review of administrative action, not directly appealable to the supreme court or a circuit court. They may review interlocutory orders in such cases to the extent provided by rules adopted by the supreme court.

(2) District courts of appeal shall have the power of direct review of administrative action, as prescribed by general law.

(3) A district court of appeal or any judge thereof may issue writs of habeas corpus returnable before the court or any judge thereof or before any circuit judge within the territorial jurisdiction of the court. To the extent necessary to dispose of all issues in a cause properly before it, a district court of appeal may exercise any of the appellate jurisdiction of the circuit courts.

~~(c) CLERKS AND MARSHALS.—Each district court of appeal shall appoint a clerk and a marshal who shall hold office during the pleasure of the court and perform such duties as the court directs. Their compensation shall be fixed by general law. The marshal shall have the power to execute the process of the court throughout the territorial jurisdiction of the court, and in any county may deputize the sheriff or a deputy sheriff for such purpose.~~

(d) Each appointment of a justice of the supreme court is subject to confirmation by the senate. The senate may sit for the purpose of confirmation regardless of whether the house of representatives is in session or not. If the senate fails to vote on the appointment of a justice within 90 days, the justice shall be deemed confirmed. If the senate votes to not confirm the appointment, the supreme court judicial nominating commission shall reconvene as though a new vacancy had occurred but may not renominate any person whose prior appointment to fill the same vacancy was not confirmed by the senate. The appointment of a justice is effective upon confirmation by the senate.

For purposes of this section, discipline is defined as any or all of the following: reprimand, fine, suspension with or without pay, or lawyer discipline. The commission shall have jurisdiction over justices and judges regarding allegations that misconduct occurred before or during service as a justice or judge if a complaint is made no later than one year following service as a justice or judge. The commission shall have jurisdiction regarding allegations of incapacity during service as a justice or judge. The commission shall be composed of:

(1) The supreme court may accept, reject, or modify in whole or in part the findings, conclusions, and recommendations of the commission and it may order that the justice or judge be subjected to appropriate discipline, or be removed from office with termination of compensation for willful or persistent failure to perform judicial duties or for other conduct unbecoming a member of the judiciary demonstrating a present unfitness to hold office, or be involuntarily retired for any permanent disability that seriously interferes with the performance of judicial duties. Malaffides, scienter or moral turpitude on the part of a justice or judge shall not be required for removal from office of a justice or judge whose conduct demonstrates a present unfitness to hold office. After the filing of a formal proceeding and upon request of the investigative panel, the supreme court may suspend the justice or judge from office, with or without compensation, pending final determination of the inquiry.

(2) The supreme court may award costs to the prevailing party.

(d) REMOVAL POWER.—The power of removal conferred by this section shall be both alternative and cumulative to the power of impeachment.

CONSTITUTIONAL AMENDMENT

ARTICLE V, SECTIONS 2, 4, 11, AND 12

STATE COURTS.—Proposing a revision of Article V of the State Constitution relating to the judiciary.

Under current law, the Governor appoints a justice from a list of nominees provided by a judicial nominating commission, and appointments by the Governor are not subject to confirmation. This revision requires Senate confirmation of a justice before the appointee can take office. If the Senate votes not to confirm the appointment, the judicial nominating commission must reconvene and may not renominate any person whose prior appointment to fill the same vacancy was not confirmed by the Senate. For the purpose of confirmation, the Senate may meet at any time. If the Senate does not vote against confirmation within 90 days, the justice will be deemed confirmed and will take office.

The State Constitution authorizes the Supreme Court to adopt rules for the practice and procedure in all courts. The constitution further provides that a rule of court may be repealed by a general law enacted by a two-thirds vote of the membership of each house of the Legislature. This proposed constitutional revision eliminates the requirement that a general law repealing a court rule pass by a two-thirds vote of each house. The Legislature could repeal a rule of court by a general law approved by a majority vote of each house of the Legislature that expresses the policy behind the repeal. The court could readopt the rule in conformity with the public policy expressed by the Legislature, but if the Legislature repeals the readopted rule, this proposed revision prohibits the court from readopting the repealed rule without the Legislature's prior approval.

The Judicial Qualifications Commission is an independent commission created by the State Constitution to investigate and prosecute before the Florida Supreme Court alleged misconduct by a justice or judge. Currently under the constitution, commission proceedings are confidential until formal charges are filed by the investigative panel of the commission. Once formal charges are filed, the formal charges and all further proceedings of the commission are public. Currently, the constitution authorizes the House of Representatives to impeach a justice or judge. Further, the Speaker of the House of Representatives may request, and the Judicial Qualifications Commission must make available, all information in the commission's possession for use in deciding whether to impeach a justice or judge. This proposed revision requires the commission to make all of its files available to the Speaker of the House of Representatives, rather than just the file of a justice or judge under investigation by the House of Representatives. Such files would maintain their confidentiality unless the House of Representatives initiates impeachment proceedings against a justice or judge, in which case the files related to that justice or judge may be open. This revision deletes a requirement that a general law repealing a commission rule be passed by a majority vote of the membership of each house of the Legislature and revises the number of Supreme Court justices needed to repeal such a rule.

This revision will take effect January 7, 2013, if approved by the electors. This revision makes other conforming and modernizing changes to the State Constitution regarding the judicial system; removing outdated schedules related to the Judicial Qualifications Commission; and making conforming and technical changes in the judicial articles of the constitution.

BE IT FURTHER RESOLVED that the following statement be placed on the ballot if a court declares the preceding statement defective and the decision of the court is not reversed:

The three who have the most seniority shall be the initial justices assigned to the criminal division, and the remaining justices shall be the initial justices assigned to the civil division. Initial appointments of existing justices to either division shall not be limited by the district court from which the justice was appointed. A justice assigned to a division of the supreme court pursuant to this paragraph shall remain in the same term of office and shall sit for future retention elections on the same cycle. The supreme court shall immediately transmit to the governor the names of the justices, their division assignments, and the districts from which they were appointed. Newly filed cases shall be designated between the two new divisions as they are filed. The supreme court shall retain full jurisdiction and power over all cases until such cases are actually assigned to a division, including the power to issue final process that would have the effect of removing the case from the inventory of cases to be assigned.*

(c) *The two divisions of the supreme court shall begin formal operations on the 120th day after the election. On that day:*

(1) *Newly appointed justices shall take office.*

(2) *The jurisdiction of the supreme court shall be divided between the divisions, the jurisdictional changes in Sections 3(b)(3) and 3(b)(4) shall take effect, and all pending cases shall be assigned to the appropriate division.*

(3) *The term of the supreme court shall be deemed to have ended. All mandates issued by the supreme court prior to the end of the term shall be final and not subject to recall. No motion for reconsideration shall be considered.*

(d) *The initial chief justice of the civil division shall also be the chief justice of the supreme court of Florida and shall serve in that position from the 120th day after the election through June 30, 2016. The initial chief justice of the criminal division shall be the chief justice of the criminal division from the 120th day after the election through June 30, 2020. Thereafter, the offices of the chief justices of the divisions shall alternate as provided in Section 2.*

(e) *All court rules adopted by the supreme court shall continue in full force and effect after the effective date of this revision, subject to future amendment or repeal.*

(f) *The legislature may, by general law, otherwise provide for the administrative transfer of employees, property, duties, and functions between the divisions.*

(g) *The change in court funding provided in Section 14(e) shall be effective commencing in fiscal year 2013-2014.*

(h) *The legislature shall have the power, by concurrent resolution, to delete from this article any subsection of this section 21, including this subsection, when all events to which the subsection to be deleted is or could become applicable have occurred.*

BE IT FURTHER RESOLVED that the following statement be placed on the ballot:

CONSTITUTIONAL AMENDMENT

ARTICLE V, SECTIONS 2, 3, 4, 7, 11, 12, 14, AND 21

STATE COURTS.—Proposing a revision of Article V of the State Constitution relating to the judiciary.

Under current law, the Florida Supreme Court is the highest court in Florida and hears both civil and criminal cases. It has 7 appointed justices. This revision would divide the current Supreme Court into two divisions, one hearing civil cases and the other hearing criminal cases. Each division would have 5 appointed justices who are permanently assigned. The 3 current justices who have the most service with the Florida Supreme Court would be assigned to the criminal division, the remaining 4 current justices would be assigned to the civil division, and the Governor would appoint 3 new justices to fill the remaining openings in the two divisions. The existing jurisdiction of the Supreme Court would be expanded to allow discretionary review of certain district court of appeal decisions. This revision generally defines the civil law and criminal law jurisdiction of each division, provides for assignment of cases to each respective division, and allows the Legislature, by general

law, to further define the jurisdictions of each division. The jurisdiction of a division will be limited to the division's area, whether civil or criminal. The power of justices of the criminal division to hear appeals from final judgments entered in proceedings for the validation of bonds or certificates of indebtedness and to review action of statewide agencies relating to rates or service of utilities providing electric, gas, or telephone service is limited by this revision and granted exclusively to the civil division. The power of justices of the civil division to issue a writ of habeas corpus and to hear appeals from final judgments of trial courts imposing the death penalty is limited by this revision and granted exclusively to the justices of the criminal division. This revision provides that if both divisions assert jurisdiction over a case, the Chief Justice of the Supreme Court of Florida will decide where jurisdiction is appropriate.

This proposed revision also creates a title of chief justice in each of the divisions with an 8-year term. The constitution currently provides that the Chief Justice of the Supreme Court is the administrative head of the state judicial system. This revision provides that the position of Chief Justice of the Supreme Court will rotate every 4 years between the chief justice of the civil division and the chief justice of the criminal division. The constitution currently also provides that the chief justice is chosen by vote of the justices. This revision provides that the initial new justices and the initial chief justice of each division will be selected by the Governor and future chief justices will be selected by the Governor subject to Senate confirmation. A chief justice is, like a regular justice under current law, subject to retention election and mandatory retirement requirements applicable to all Florida justices and judges.

Under current law, the Governor appoints a justice from a list of nominees provided by a judicial nominating commission, and appointments by the Governor are not subject to confirmation. Other than the initial 3 new appointees, this revision requires Senate confirmation of a justice before the appointee can take office. If the Senate votes not to confirm the appointment, the judicial nominating commission must reconvene and may not renominate any person whose prior appointment to fill the same vacancy was not confirmed by the Senate. For the purpose of confirmation, the Senate may meet at any time. If the Senate does not vote against confirmation within 90 days, the justice will be deemed confirmed and will take office.

The State Constitution authorizes the Supreme Court to adopt rules for the practice and procedure in all courts. The constitution further provides that a rule of court may be repealed by a general law enacted by a two-thirds vote of the membership of each house of the Legislature. This proposed constitutional revision eliminates the requirement that a general law repealing a court rule pass by a two-thirds vote of each house. The Legislature could repeal a rule of court by a general law approved by a majority vote of each house of the Legislature that expresses the policy behind the repeal. The court could readopt the rule in conformity with the public policy expressed by the Legislature, but if the Legislature repeals the readopted rule, this proposed revision prohibits the court from readopting the repealed rule without the Legislature's prior approval. Court rules may be adopted by both divisions of the Supreme Court meeting jointly, or the court may elect to divide classes of rules between the divisions.

The Judicial Qualifications Commission is an independent commission created by the State Constitution to investigate and prosecute before the Florida Supreme Court alleged misconduct by a justice or judge. Currently under the constitution, commission proceedings are confidential until formal charges are filed by the investigative panel of the commission. Once formal charges are filed, the formal charges and all further proceedings of the commission are public. Currently, the constitution authorizes the House of Representatives to impeach a justice or judge. Further, the Speaker of the House of Representatives may request, and the Judicial Qualifications Commission must make available, all information in the commission's possession for use in deciding whether to impeach a justice or judge. This proposed revision requires the commission to make all of its files available to the Speaker of the House of Representatives, rather than just the file of a justice or judge under investigation by the House of Representatives. Such files would maintain their confidentiality unless the House of Representatives initiates impeachment proceedings against a justice or judge, in which case the files related to that justice or judge may be open. This revision deletes a requirement that a general law repealing a commission rule be passed by a majority vote of the membership of each house of the Legislature

and revises the number of Supreme Court justices needed to repeal such a rule.

State appropriations are made annually by general law. Current law does not require any specific level of funding for any agency or department. This revision requires that the courts be appropriated a minimum of 2.25 percent of general revenue funding beginning with the 2013-2014 fiscal year.

This revision will take effect upon its passage by the electorate and provides a schedule for implementation of its provisions. This revision makes other conforming and modernizing changes to the State Constitution regarding the judicial system, including removing the positions of clerk and marshal of the Supreme Court and the courts of appeal from the constitution; providing for transition to the new divisions; removing outdated schedules related to the Judicial Qualifications Commission; and making conforming and technical changes in the judicial articles of the constitution.

BE IT FURTHER RESOLVED that the following statement be placed on the ballot if a court declares the preceding statement defective and the decision of the court is not reversed:

Excused: Senator Bullard

PRAYER

The following prayer was offered by Pastor Brant Copeland, Pastor of First Presbyterian Church of Tallahassee:

Gracious God, source of justice and lover of all:

We thank you for those who serve you by serving others—for teachers and first responders; for state workers and helpers of the disabled; for those who pick our crops and provide food for our tables; and for these, your servants, here assembled.

Open their minds to reasonable arguments. Open their hearts to resonate with yours. Open their ears to the cry of the least of your children.

By your spirit, guide the Senate to seek your will, pursue just priorities, avoid pointless rancor, and work together for the good of all the people of Florida. In your holy name, we pray. Amen.

PLEDGE

Senate Pages Paul Palmer, Jr.; Amelia Smith; and Michael Cenedella of Tallahassee, led the Senate in the pledge of allegiance to the flag of the United States of America.

ADOPTION OF RESOLUTIONS

On motion by Senator Ring—

By Senator Ring—

SR 2068—A resolution recognizing May 2011 as “Amyotrophic Lateral Sclerosis Awareness Month” in the State of Florida.

WHEREAS, Amyotrophic Lateral Sclerosis (ALS), better known as Lou Gehrig’s Disease, is a progressive neurodegenerative disease that affects nerve cells in the brain and spinal cord, and

WHEREAS, the early symptoms of ALS include weakness of the skeletal muscles, especially involving the arms and legs, and difficulty in swallowing, talking, and breathing, and

WHEREAS, ALS eventually causes muscles to atrophy, eventually leading to functional quadriplegia, and

WHEREAS, ALS does not affect an individual’s mental capacity, which means that a person with ALS remains alert and aware of his or her loss of motor functions and the inevitability of continued deterioration and death, and

WHEREAS, on average, a patient diagnosed as having ALS survives only 2 to 5 years after the initial diagnosis, and

WHEREAS, research indicates that military veterans are at least 50 percent more likely to develop ALS than those who have not served in the military, and

WHEREAS, ALS has no known cause, means of prevention, or cure, and

WHEREAS, the recognition of “Amyotrophic Lateral Sclerosis Awareness Month” will increase awareness regarding the circumstances of ALS patients and the terrible impact of this disease not only on the person who has ALS, but on his or her family and the larger community, and will lend support to the goals of biomedical research on ALS, which are to find the cause or causes of ALS, understand the mechanisms involved in the progression of the disease, and to develop effective treatment, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That May 2011 is recognized as “Amyotrophic Lateral Sclerosis Awareness Month” in the State of Florida.

—was introduced out of order and read by title. On motion by Senator Ring, **SR 2068** was read the second time in full and adopted.

SR 2196—A resolution recognizing May 2011 as “Lupus Awareness Month” in Florida.

WHEREAS, Lupus is an acute, chronic, and lifelong autoimmune disease in which the immune system is unbalanced, causing inflammation and tissue damage to virtually every organ system in the body, and

WHEREAS, Lupus can affect any part of the body, including the skin, lungs, heart, kidneys, and brain, with no organ spared, and can cause seizures, strokes, heart attacks, miscarriages, and organ failure, and

WHEREAS, researchers estimate that 5 million people worldwide have been diagnosed with Lupus or related diseases, with about 100,000 new diagnoses each year, and

WHEREAS, the Lupus Foundation of America, Inc., estimates that more than 1.5 million Americans live with some form of Lupus, including an estimated 100,000 Floridians, and

WHEREAS, Lupus strikes mostly women of childbearing age, when they are 15 to 44 years of age, affecting all aspects of their lives, with African Americans, Hispanics/Latinos, Asians, and Native Americans two to three times more likely to develop Lupus, a disparity that remains unexplained, and

WHEREAS, Lupus is difficult to diagnose because its symptoms are similar to symptoms of other illnesses, meaning that more than one-half of all people with Lupus wait 4 or more years and visit three or more doctors before they are correctly diagnosed, and

WHEREAS, early diagnosis and proper treatment are critical to improving the quality of life and survival rate of those living with Lupus, and

WHEREAS, major gaps exist in the understanding of the causes and consequences of Lupus, and increased public awareness, education, and research are key to winning the battle against the disease, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That May 2011 is recognized as “Lupus Awareness Month” in Florida.

—**SR 2196** was introduced, read and adopted by publication.
