The performance-based metrics must include graduation rates; retention rates; postgraduation education rates; degree production; affordability; postgraduation employment and salaries, including wage thresholds that reflect the added value of a baccalaureate degree; access; and other metrics approved by the board in a formally noticed meeting. The board shall adopt benchmarks to evaluate each state university's performance on the metrics to measure the state university's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.

(2) Each fiscal year, the amount of funds available for allocation to the state universities based on the performance-based funding model metrics shall consist of the state's investment in appropriation for performance funding, including increases in base funding plus institutional investments consisting of funds deducted from the base funding of each state university in the State University System, in an amount provided in the General Appropriations Act. The Board of Governors shall establish minimum performance funding eligibility thresholds for the state's investment and the institutional investments. The institutional investment shall be restored for each institution eligible for the state's investment under the performance-based funding model metrics.

(3)(a) A state university that fails to meet the Board of Governors' minimum institutional investment performance funding eligibility threshold shall have a portion of its institutional investment withheld by the board and must submit an improvement plan to the board that specifies the activities and strategies for improving the state university's performance. The board must review and approve the improvement plan and, if the plan is approved, must monitor the state university's progress in implementing the activities and strategies specified in the improvement plan. The state university shall submit monitoring reports to the board by December 31 and May 31 of each year in which an improvement plan is in place. The ability of a state university to submit an improvement plan to the board is limited to 1 fiscal year.

Any institutional investment funds that are not restored shall be redistributed in accordance with the board's performance-based metrics.

(4) Distributions of performance funding, as provided in this section, shall be made to each of the state universities listed in the Education and General Activities category in the General Appropriations Act.

(5) By October 1 of each year, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation which must reflect the rankings and award distributions.

(a) An online course taken in grade 6, grade 7, or grade 8 fulfills the requirements of this subsection requirement. ~~The~~ This requirement is met through an online course offered by the Florida Virtual School, a virtual education provider approved by the State Board of Education, a high school, or an online dual enrollment course. A student who is enrolled in a full-time or part-time virtual instruction program under s. 1002.45 meets the ~~this~~ requirement.

(b) A district school board or a charter school governing board, as applicable, may offer students the following options to satisfy the online course requirements of this subsection:

1. Completion of a course in which a student earns a nationally recognized industry certification in information technology that is identified on the CAPE Industry Certification Funding List pursuant to s. 1008.44 or passage of the information technology certification examination without enrollment in or completion of the corresponding course or courses, as applicable.

2. Passage of an online content assessment, without enrollment in or completion of the corresponding course or courses, as applicable, by which the student demonstrates skills and competency in locating information and applying technology for instructional purposes.

For purposes of this subsection, a school district may not require a student to take the online course outside the school day or in addition to a student's courses for a given semester. This subsection requirement does not apply to a student who has an individual education plan under s. 1003.57 which indicates that an online course would be inappropriate or to an out-of-state transfer student who is enrolled in a Florida high school and has 1 academic year or less remaining in high school.

b. Be governed by a governing board established in the state for 3 or more years which operates both charter schools and conversion charter schools within the state;

c. Be an expanded feeder chain of a charter school within the same school district that is currently receiving charter school capital outlay funds;

d. Have been accredited by the Commission on Schools of the Southern Association of Colleges and Schools; or

e. Serve students in facilities that are provided by a business partner for a charter school-in-the-workplace pursuant to s. 1002.33(15)(b).

2. Have an annual audit that does not reveal any of the financial emergency conditions provided in s. 218.503(1) for the most recent fiscal year for which such audit results are available ~~stability for future operation as a charter school.~~

3. Have satisfactory student achievement based on state accountability standards applicable to the charter school.

4. Have received final approval from its sponsor pursuant to s. 1002.33 for operation during that fiscal year.

5. Serve students in facilities that are not provided by the charter school's sponsor.

~~(b) The first priority for charter school capital outlay funding is to allocate to charter schools that received funding in the 2005-2006 fiscal year an allocation of the same amount per capital outlay full-time equivalent student, up to the lesser of the actual number of capital outlay full-time equivalent students in the current year, or the capital outlay full-time equivalent students in the 2005-2006 fiscal year. After calculating the first priority, the second priority is to allocate excess funds remaining in the appropriation in an amount equal to the per capital outlay full-time equivalent student amount in the first priority calculation to eligible charter schools not included in the first priority calculation and to schools in the first priority calculation with growth greater than the 2005-2006 capital outlay full-time equivalent students. After calculating the first and second priorities, excess funds remaining in the appropriation must be allocated to all eligible charter schools.~~

~~(c) A charter school's allocation may not exceed one fifteenth of the cost per student station specified in s. 1013.64(6)(b). Before releasing capital outlay funds to a school district on behalf of the charter school, the Department of Education must ensure that the district school board and the charter school governing board enter into a written agreement that provides for the reversion of any unencumbered funds and all equipment and property purchased with public education funds to the ownership of the district school board, as provided for in subsection (3) if the school terminates operations. Any funds recovered by the state shall be deposited in the General Revenue Fund.~~

~~(b)(4) A charter school is not eligible for a funding allocation if it was created by the conversion of a public school and operates in facilities provided by the charter school's sponsor for a nominal fee, or at no charge, or if it is directly or indirectly operated by the school district.~~

~~(c) The funding allocation for eligible charter schools shall be calculated as follows:~~

~~1. Eligible charter schools shall be grouped into categories based on their student populations according to the following criteria:~~

~~a. Seventy-five percent or greater who are eligible for free or reduced-price school lunch.~~

~~b. Twenty-five percent or greater with disabilities as defined in state board rule and consistent with the requirements of the Individuals with Disabilities Education Act.~~

~~2. If an eligible charter school does not meet the criteria for either category under subparagraph 1., its FTE shall be provided as the base amount of funding and shall be assigned a weight of 1.0. An eligible charter school that meets the criteria under sub-subparagraph 1.a. or sub-subparagraph 1.b. shall be provided an additional 25 percent above the base funding amount, and the total FTE shall be multiplied by a weight of 1.25. An eligible charter school that meets the criteria under both sub-subparagraphs 1.a. and 1.b. shall be provided an additional 50 percent above the base funding amount, and the FTE for that school shall be multiplied by a weight of 1.5.~~

~~3. The state appropriation for charter school capital outlay shall be divided by the total weighted FTE for all eligible charter schools to determine the base charter school per weighted FTE allocation amount. The per weighted FTE allocation amount shall be multiplied by the weighted FTE to determine each charter school's capital outlay allocation.~~

~~(c) Unless otherwise provided in the General Appropriations Act, the funding allocation for each eligible charter school is determined by multiplying the school's projected student enrollment by one fifteenth of the cost per student station specified in s. 1013.64(6)(b) for an elementary, middle, or high school, as appropriate. If the funds appropriated are not sufficient, the commissioner shall prorate the available funds among eligible charter schools. However, a charter school or charter lab school may not receive state charter school capital outlay funds greater than the one fifteenth cost per student station formula if the charter school's combination of state charter school capital outlay funds, capital outlay funds calculated through the reduction in the administrative fee provided in s. 1002.33(20), and capital outlay funds~~

~~allowed in s. 1002.32(9)(e) and (h) exceeds the one fifteenth cost per student station formula.~~

~~(2)(a)(4) The department shall calculate the eligible charter school funding allocations. Funds shall be allocated using distributed on the basis of the capital outlay full-time equivalent membership from by grade level, which is calculated by averaging the results of the second and third enrollment surveys and free and reduced-price school lunch data. The department shall recalculate the allocations periodically based on the receipt of revised information, on a schedule established by the Commissioner of Education.~~

~~(b) The department of Education shall distribute capital outlay funds monthly, beginning in the first quarter of the fiscal year, based on one-twelfth of the amount the department reasonably expects the charter school to receive during that fiscal year. The commissioner shall adjust subsequent distributions as necessary to reflect each charter school's recalculated allocation actual student enrollment as reflected in the second and third enrollment surveys. The commissioner shall establish the intervals and procedures for determining the projected and actual student enrollment of eligible charter schools.~~

~~(3)(2) A charter school's governing body may use charter school capital outlay funds for the following purposes:~~

~~(a) Purchase of real property.~~

~~(b) Construction of school facilities.~~

~~(c) Purchase, lease-purchase, or lease of permanent or relocatable school facilities.~~

~~(d) Purchase of vehicles to transport students to and from the charter school.~~

~~(e) Renovation, repair, and maintenance of school facilities that the charter school owns or is purchasing through a lease-purchase or long-term lease of 5 years or longer.~~

~~(f) Effective July 1, 2008, purchase, lease-purchase, or lease of new and replacement equipment, and enterprise resource software applications that are classified as capital assets in accordance with definitions of the Governmental Accounting Standards Board, have a useful life of at least 5 years, and are used to support schoolwide administration or state-mandated reporting requirements.~~

~~(g) Payment of the cost of premiums for property and casualty insurance necessary to insure the school facilities.~~

~~(h) Purchase, lease-purchase, or lease of driver's education vehicles; motor vehicles used for the maintenance or operation of plants and equipment; security vehicles; or vehicles used in storing or distributing materials and equipment.~~

~~Conversion charter schools may use capital outlay funds received through the reduction in the administrative fee provided in s. 1002.33(20) for renovation, repair, and maintenance of school facilities that are owned by the sponsor.~~

~~(4)(3) If when a charter school is nonrenewed or terminated, any unencumbered funds and all equipment and property purchased with district public funds shall revert to the ownership of the district school board, as provided for in s. 1002.33(8)(e) and (f). In the case of a charter lab school, any unencumbered funds and all equipment and property purchased with university public funds shall revert to the ownership of the state university that issued the charter. The reversion of such equipment, property, and furnishings shall focus on recoverable assets, but not on intangible or irrecoverable costs such as rental or leasing fees, normal maintenance, and limited renovations. The reversion of all property secured with public funds is subject to the complete satisfaction of all lawful liens or encumbrances. If there are additional local issues such as the shared use of facilities or partial ownership of facilities or property, these issues shall be agreed to in the charter contract prior to the expenditure of funds.~~

~~(5)(4) The Commissioner of Education shall specify procedures for submitting and approving requests for funding under this section and procedures for documenting expenditures.~~

~~(6)(6)~~ The annual legislative budget request of the Department of Education shall include a request for capital outlay funding for charter schools. The request shall be based on the projected number of students to be served in charter schools who meet the eligibility requirements of this section. ~~A dedicated funding source, if identified in writing by the Commissioner of Education and submitted along with the annual charter school legislative budget request, may be considered an additional source of funding.~~

~~(6) Unless authorized otherwise by the Legislature, allocation and proration of charter school capital outlay funds shall be made to eligible charter schools by the Commissioner of Education in an amount and in a manner authorized by subsection (1).~~

(a)1. The calculation of "full-time equivalent student" shall be as prescribed in s. 1011.61(1)(c)1.b.(V) and is subject to s. 1011.61(4). ~~For a student in grades 9 through 12, a "full-time equivalent student" is one student who has successfully completed six full credit courses that count toward the minimum number of credits required for high school~~

graduation. A student who completes fewer than six full-credit courses is a fraction of a full-time equivalent student. Half-credit course completions shall be included in determining a full-time equivalent student.

~~2. For a student in kindergarten through grade 8, a "full-time equivalent student" is one student who has successfully completed six courses or the prescribed level of content that counts toward promotion to the next grade. A student who completes fewer than six courses or the prescribed level of content shall be a fraction of a full-time equivalent student.~~

~~2.3. For a student in a home education program, funding shall be provided in accordance with this subsection upon course completion if the parent verifies, upon enrollment for each course, that the student is registered with the school district as a home education student pursuant to s. 1002.41(1)(a). Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1002.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for home education program students who choose not to take an end-of-course assessment or for a student who enrolls in a segmented remedial course delivered online.~~

For purposes of this paragraph, the calculation of "full-time equivalent student" shall be as prescribed in s. 1011.61(1)(c)1.b.(V) and is subject to the requirements in s. 1011.61(4).

Section 16. Subsection (4) is added to section 1002.391, Florida Statutes, to read:

Section 17. Paragraphs (c) and (d) of subsection (1), paragraph (e) of subsection (7), and paragraphs (c) and (d) of subsection (8) of section 1002.45, Florida Statutes, are amended to read:

1002.45 Virtual instruction programs.—

(1) PROGRAM.—

(c) To provide students with the option of participating in virtual instruction programs as required by paragraph (b), a school district may:

1. Contract with the Florida Virtual School or establish a franchise of the Florida Virtual School for the provision of a program under paragraph (b). Using this option is subject to the requirements of this section and s. 1011.61(1)(c)1.b.(III) and (IV) and (4). A district may report full-time equivalent student membership for credit earned by a student who is enrolled in a virtual education course provided by the district which was completed after the end of the regular school year if the FTE is reported no later than the deadline for amending the final student membership report for that year.

2. Contract with an approved provider under subsection (2) for the provision of a full-time or part-time program under paragraph (b).

3. Enter into an agreement with other school districts to allow the participation of its students in an approved virtual instruction program provided by the other school district. The agreement must indicate a process for the transfer of funds required by paragraph (7)(e) ~~(7)(f)~~.

4. Establish school district operated part-time or full-time kindergarten through grade 12 virtual instruction programs under paragraph (b) for students enrolled in the school district. A full-time program shall operate under its own Master School Identification Number.

5. Enter into an agreement with a virtual charter school authorized by the school district under s. 1002.33.

Contracts under subparagraph 1. or subparagraph 2. may include multidistrict contractual arrangements that may be executed by a regional consortium for its member districts. A multidistrict contractual

arrangement or an agreement under subparagraph 3. is not subject to s. 1001.42(4)(d) and does not require the participating school districts to be contiguous. These arrangements may be used to fulfill the requirements of paragraph (b).

(d) A virtual charter school may provide full-time virtual instruction for students in kindergarten through grade 12 if the virtual charter school has a charter approved pursuant to s. 1002.33 authorizing full-time virtual instruction. A virtual charter school may:

1. Contract with the Florida Virtual School.
2. Contract with an approved provider under subsection (2).

3. Enter into an agreement with a school district to allow the participation of the virtual charter school's students in the school district's virtual instruction program. The agreement must indicate a process for reporting of student enrollment and the transfer of funds required by paragraph (7)(e) ~~(7)(f)~~.

(7) VIRTUAL INSTRUCTION PROGRAM AND VIRTUAL CHARTER SCHOOL FUNDING.—

~~(c) Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(8) ASSESSMENT AND ACCOUNTABILITY.—

(c) An approved provider that receives a school grade of "D" or "F" under s. 1008.34 or a school improvement rating of "Unsatisfactory" ~~"Declining"~~ under s. 1008.341 must file a school improvement plan with the department for consultation to determine the causes for low performance and to develop a plan for correction and improvement.

(d) An approved provider's contract must be terminated if the provider receives a school grade of "D" or "F" under s. 1008.34 or a school improvement rating of "Unsatisfactory" ~~"Declining"~~ under s. 1008.341 for 2 years during any consecutive 4-year period or has violated any qualification requirement pursuant to subsection (2). A provider that has a contract terminated under this paragraph may not be an approved provider for a period of at least 1 year after the date upon which the contract was terminated and until the department determines that the provider is in compliance with subsection (2) and has corrected each cause of the provider's low performance.

Section 18. Section 1003.3101, Florida Statutes, is created to read:

1003.3101 Additional educational choice options.—Each school district board shall establish a transfer process for a parent to request his or her child be transferred to another classroom teacher. This section does not give a parent the right to choose a specific classroom teacher. A school must approve or deny the transfer within 2 weeks after receiving a request. If a request for transfer is denied, the school must notify the parent and specify the reasons for the denial. An explanation of the transfer process must be made available in the student handbook or a similar publication.

Section 19. Subsection (3) of section 1003.4295, Florida Statutes, is amended to read:

1003.4295 Acceleration options.—

(3) The Credit Acceleration Program (CAP) is created for the purpose of allowing a student to earn high school credit in *courses required for high school graduation through passage of an end-of-course assessment Algebra I, Algebra II, geometry, United States history, or biology if the student passes the statewide, standardized assessment administered under s. 1008.22, an Advanced Placement Examination, or a College Level Examination Program (CLEP)*. Notwithstanding s. 1003.436, a school district shall award course credit to a student who is not enrolled in the course, or who has not completed the course, if the student attains a passing score on the corresponding *end-of-course assessment, Advanced Placement Examination, or CLEP statewide, standardized assessment*. The school district shall permit a *public*

school or home education student who is not enrolled in the course, or who has not completed the course, to take the assessment or *examination* during the regular administration of the assessment or *examination*.

Section 20. Effective June 29, 2016, section 1004.935, Florida Statutes, is amended to read:

1004.935 Adults with Disabilities Workforce Education ~~Pilot~~ Program.—

(1) The Adults with Disabilities Workforce Education ~~Pilot~~ Program is established in the Department of Education ~~through June 30, 2016~~, in Hardee, DeSoto, Manatee, and Sarasota Counties to provide the option of receiving a scholarship for instruction at private schools for up to 30 students who:

- (a) Have a disability;
- (b) Are 22 years of age;
- (c) Are receiving instruction from an instructor in a private school to meet the high school graduation requirements in s. 1002.3105(5) or s. 1003.4282;
- (d) Do not have a standard high school diploma or a special high school diploma; and
- (e) Receive “supported employment services,” which means employment that is located or provided in an integrated work setting with earnings paid on a commensurate wage basis and for which continued support is needed for job maintenance.

As used in this section, the term “student with a disability” includes a student who is documented as having an intellectual disability; a speech impairment; a language impairment; a hearing impairment, including deafness; a visual impairment, including blindness; a dual sensory impairment; an orthopedic impairment; another health impairment; an emotional or behavioral disability; a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia; a traumatic brain injury; a developmental delay; or autism spectrum disorder.

(2) A student participating in the ~~pilot~~ program may continue to participate in the program until the student graduates from high school or reaches the age of 40 years, whichever occurs first.

(3) Supported employment services may be provided at more than one site.

(4) The provider of supported employment services must be a non-profit corporation under s. 501(c)(3) of the Internal Revenue Code which serves Hardee County, DeSoto County, Manatee County, or Sarasota County and must contract with a private school in this state which meets the requirements in subsection (5).

(5) A private school that participates in the ~~pilot~~ program may be sectarian or nonsectarian and must:

- (a) Be academically accountable for meeting the educational needs of the student by annually providing to the provider of supported employment services a written explanation of the student’s progress.
- (b) Comply with the antidiscrimination provisions of 42 U.S.C. s. 2000d.
- (c) Meet state and local health and safety laws and codes.
- (d) Provide to the provider of supported employment services all documentation required for a student’s participation, including the private school’s and student’s fee schedules, at least 30 days before any quarterly scholarship payment is made for the student. A student is not eligible to receive a quarterly scholarship payment if the private school fails to meet this deadline.

The inability of a private school to meet the requirements of this subsection constitutes a basis for the ineligibility of the private school to participate in the ~~pilot~~ program.

(6)(a) If the student chooses to participate in the ~~pilot~~ program and is accepted by the provider of supported employment services, the student must notify the Department of Education of his or her acceptance into the program 60 days before the first scholarship payment and before participating in the ~~pilot~~ program in order to be eligible for the scholarship.

(b) Upon receipt of a scholarship warrant, the student or parent to whom the warrant is made must restrictively endorse the warrant to the provider of supported employment services for deposit into the account of the provider. The student or parent may not designate any entity or individual associated with the participating provider of supported employment services as the student’s or parent’s attorney in fact to endorse a scholarship warrant. A participant who fails to comply with this paragraph forfeits the scholarship.

(7) Funds for the scholarship shall be provided from the appropriation from the school district’s Workforce Development Fund in the General Appropriations Act for students who reside in the Hardee County School District, the DeSoto County School District, the Manatee County School District, or the Sarasota County School District. ~~During the pilot program~~, The scholarship amount granted for an eligible student with a disability shall be equal to the cost per unit of a full-time equivalent adult general education student, multiplied by the adult general education funding factor, and multiplied by the district cost differential pursuant to the formula required by s. 1011.80(6)(a) for the district in which the student resides.

(8) Upon notification by the Department of Education that it has received the required documentation, the Chief Financial Officer shall make scholarship payments in four equal amounts no later than September 1, November 1, February 1, and April 1 of each academic year in which the scholarship is in force. The initial payment shall be made after the Department of Education verifies that the student was accepted into the ~~pilot~~ program, and subsequent payments shall be made upon verification of continued participation in the ~~pilot~~ program. Payment must be by individual warrant made payable to the student or parent and mailed by the Department of Education to the provider of supported employment services, and the student or parent shall restrictively endorse the warrant to the provider of supported employment services for deposit into the account of that provider.

(9) Subsequent to each scholarship payment, the Department of Education shall request from the Department of Financial Services a sample of endorsed warrants to review and confirm compliance with endorsement requirements.

Section 21. Subsection (3) and paragraph (a) of subsection (8) of section 1006.15, Florida Statutes, are amended, and subsection (9) is added to that section, to read:

1006.15 Student standards for participation in interscholastic and intrascholastic extracurricular student activities; regulation.—

(3)(a) *As used in this section and s. 1006.20, the term “eligible to participate” includes, but is not limited to, a student participating in tryouts, off-season conditioning, summer workouts, preseason conditioning, in-season practice, or contests. The term does not mean that a student must be placed on any specific team for interscholastic or intrascholastic extracurricular activities. To be eligible to participate in interscholastic extracurricular student activities, a student must:*

1. Maintain a grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the previous semester or a cumulative grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the courses required by s. 1002.3105(5) or s. 1003.4282.

2. Execute and fulfill the requirements of an academic performance contract between the student, the district school board, the appropriate governing association, and the student’s parents, if the student’s cumulative grade point average falls below 2.0, or its equivalent, on a 4.0 scale in the courses required by s. 1002.3105(5) or s. 1003.4282. At a minimum, the contract must require that the student attend summer school, or its graded equivalent, between grades 9 and 10 or grades 10 and 11, as necessary.

3. Have a cumulative grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the courses required by s. 1002.3105(5) or s. 1003.4282 during his or her junior or senior year.

4. Maintain satisfactory conduct, including adherence to appropriate dress and other codes of student conduct policies described in s. 1006.07(2). If a student is convicted of, or is found to have committed, a felony or a delinquent act that would have been a felony if committed by an adult, regardless of whether adjudication is withheld, the student's participation in interscholastic extracurricular activities is contingent upon established and published district school board policy.

(b) Any student who is exempt from attending a full school day based on rules adopted by the district school board for double session schools or programs, experimental schools, or schools operating under emergency conditions must maintain the grade point average required by this section and pass each class for which he or she is enrolled.

(c) An individual home education student is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to s. 1002.31 ~~district or interdistrict controlled open enrollment provisions~~, or may develop an agreement to participate at a private school, in the interscholastic extracurricular activities of that school, provided the following conditions are met:

1. The home education student must meet the requirements of the home education program pursuant to s. 1002.41.

2. During the period of participation at a school, the home education student must demonstrate educational progress as required in paragraph (b) in all subjects taken in the home education program by a method of evaluation agreed upon by the parent and the school principal which may include: review of the student's work by a certified teacher chosen by the parent; grades earned through correspondence; grades earned in courses taken at a Florida College System institution, university, or trade school; standardized test scores above the 35th percentile; or any other method designated in s. 1002.41.

3. The home education student must meet the same residency requirements as other students in the school at which he or she participates.

4. The home education student must meet the same standards of acceptance, behavior, and performance as required of other students in extracurricular activities.

5. The student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2. to become eligible to participate as a home education student.

(d) An individual charter school student pursuant to s. 1002.33 is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend, pursuant to ~~district or interdistrict controlled open enrollment provisions~~, in any interscholastic extracurricular activity of that school, unless such activity is provided by the student's charter school, if the following conditions are met:

1. The charter school student must meet the requirements of the charter school education program as determined by the charter school governing board.

2. During the period of participation at a school, the charter school student must demonstrate educational progress as required in paragraph (b).

3. The charter school student must meet the same residency requirements as other students in the school at which he or she participates.

4. The charter school student must meet the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.

5. The charter school student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A charter school student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a charter school program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a charter school student until the student has successfully completed one grading period in a charter school pursuant to subparagraph 2. to become eligible to participate as a charter school student.

(e) A student of the Florida Virtual School full-time program may participate in any interscholastic extracurricular activity at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend; pursuant to s. 1002.31 ~~district or interdistrict controlled open enrollment policies~~, if the student:

1. During the period of participation in the interscholastic extracurricular activity, meets the requirements in paragraph (a).

2. Meets any additional requirements as determined by the board of trustees of the Florida Virtual School.

3. Meets the same residency requirements as other students in the school at which he or she participates.

4. Meets the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.

5. Registers his or her intent to participate in interscholastic extracurricular activities with the school before the beginning date of the season for the activity in which he or she wishes to participate. A Florida Virtual School student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

(f) A student who transfers from the Florida Virtual School full-time program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year pursuant to paragraph (a).

(g) A public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a Florida Virtual School student until the student successfully completes one grading period in the Florida Virtual School pursuant to paragraph (a).

(h)1. A school district or charter school may not delay eligibility or otherwise prevent a student participating in controlled open enrollment, or a choice program, from being immediately eligible to participate in interscholastic and intrascholastic extracurricular activities.

2. A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets one of the following criteria:

- a. Dependent children of active duty military personnel whose move resulted from military orders.
- b. Children who have been relocated due to a foster care placement in a different school zone.
- c. Children who move due to a court-ordered change in custody due to separation or divorce, or the serious illness or death of a custodial parent.
- d. Authorized for good cause in district or charter school policy.

(8)(a) The Florida High School Athletic Association (FHSAA), in cooperation with each district school board, shall facilitate a program in which a middle school or high school student who attends a private school shall be eligible to participate in an interscholastic or intrascholastic sport at a public high school, a public middle school, or a 6-12 public school that is zoned for the physical address at which the student resides if:

1. The private school in which the student is enrolled is not a member of the FHSAA ~~and does not offer an interscholastic or intrascholastic athletic program.~~
2. The private school student meets the guidelines for the conduct of the program established by the FHSAA's board of directors and the district school board. At a minimum, such guidelines shall provide:
 - a. A deadline for each sport by which the private school student's parents must register with the public school in writing their intent for their child to participate at that school in the sport.
 - b. Requirements for a private school student to participate, including, but not limited to, meeting the same standards of eligibility, acceptance, behavior, educational progress, and performance which apply to other students participating in interscholastic or intrascholastic sports at a public school or FHSAA member private school.

(9)(a) A student who transfers to a school during the school year may seek to immediately join an existing team if the roster for the specific interscholastic or intrascholastic extracurricular activity has not reached the activity's identified maximum size and if the coach for the activity determines that the student has the requisite skill and ability to participate. The FHSAA and school district or charter school may not declare such a student ineligible because the student did not have the opportunity to comply with qualifying requirements.

(b) A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets one of the following criteria:

1. Dependent children of active duty military personnel whose move resulted from military orders.
2. Children who have been relocated due to a foster care placement in a different school zone.
3. Children who move due to a court-ordered change in custody due to separation or divorce, or the serious illness or death of a custodial parent.

Section 22. Section 1006.195, Florida Statutes, is created to read:

1006.195 District school board, charter school authority and responsibility to establish student eligibility regarding participation in interscholastic and intrascholastic extracurricular activities.—Notwithstanding any provision to the contrary in ss. 1006.15, 1006.18, and 1006.20, regarding student eligibility to participate in interscholastic and intrascholastic extracurricular activities:

(1)(a) A district school board must establish, through its code of student conduct, student eligibility standards and related student disciplinary actions regarding student participation in interscholastic and

intrascholastic extracurricular activities. The code of student conduct must provide that:

1. A student not currently suspended from interscholastic or intrascholastic extracurricular activities, or suspended or expelled from school, pursuant to a district school board's suspension or expulsion powers provided in law, including ss. 1006.07, 1006.08, and 1006.09, is eligible to participate in interscholastic and intrascholastic extracurricular activities.
2. A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets the criteria in s. 1006.15(3)(h).
3. A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity may not be affected by any alleged recruiting violation until final disposition of the allegation pursuant to s. 1006.20(2)(b).

(b) Students who participate in interscholastic and intrascholastic extracurricular activities for, but are not enrolled in, a public school pursuant to s. 1006.15(3)(c)-(e) and (8), are subject to the district school board's code of student conduct for the limited purpose of establishing and maintaining the student's eligibility to participate at the school.

(c) The provisions of this subsection apply to interscholastic and intrascholastic extracurricular activities conducted by charter schools and private schools, as applicable, except that the charter school governing board, or equivalent private school authority, is responsible for the authority and responsibility otherwise provided to district school boards.

(2)(a) The Florida High School Athletic Association (FHSAA) continues to retain jurisdiction over the following provisions in s. 1006.20, which may not be implemented in a manner contrary to this section: membership in the FHSAA; recruiting prohibitions and violations; student medical evaluations; investigations; and sanctions for coaches; school eligibility and forfeiture of contests; student concussions or head injuries; the sports medical advisory committee; and the general operational provisions of the FHSAA.

(b) The FHSAA must adopt, and prominently publish, the text of this section on its website and in its bylaws, rules, procedures, training and education materials, and all other governing authority documents by August 1, 2016.

Section 23. Subsection (1) and paragraphs (a), (b), (c), and (g) of subsection (2) of section 1006.20, Florida Statutes, are amended to read:

1006.20 Athletics in public K-12 schools.—

(1) GOVERNING NONPROFIT ORGANIZATION.—The Florida High School Athletic Association (FHSAA) is designated as the governing nonprofit organization of athletics in Florida public schools. If the FHSAA fails to meet the provisions of this section, the commissioner shall designate a nonprofit organization to govern athletics with the approval of the State Board of Education. The FHSAA is not a state agency as defined in s. 120.52. The FHSAA shall be subject to the provisions of s. 1006.19. A private school that wishes to engage in high school athletic competition with a public high school may become a member of the FHSAA. Any high school in the state, including charter schools, virtual schools, and home education cooperatives, may become a member of the FHSAA and participate in the activities of the FHSAA. However, membership in the FHSAA is not mandatory for any school. The FHSAA must allow a private school the option of maintaining full membership in the association or joining by sport and may not discourage a private school from simultaneously maintaining membership in another athletic association. The FHSAA may allow a public school the option to apply for consideration to join another athletic association. The FHSAA may not deny or discourage interscholastic competition between its member schools and non-FHSAA member Florida schools, including members of another athletic governing organization, and may not take any retributory or discriminatory action against any of its member schools that participate in interscholastic competition with non-FHSAA member Florida schools. The FHSAA may not unreasonably withhold its approval of an application to become an affiliate member of the National Federation of State High School Associations submitted by any other organization that governs interscholastic athletic competition in this state. The bylaws of the FHSAA are the rules by

which high school athletic programs in its member schools, and the students who participate in them, are governed, unless otherwise specifically provided by statute. For the purposes of this section, "high school" includes grades 6 through 12.

(2) ADOPTION OF BYLAWS, POLICIES, OR GUIDELINES.—

(a) The FHSAA shall adopt bylaws that, unless specifically provided by statute, establish eligibility requirements for all students who participate in high school athletic competition in its member schools. The bylaws governing residence and transfer shall allow the student to be *immediately* eligible in the school in which he or she first enrolls each school year or the school in which the student makes himself or herself a candidate for an athletic team by engaging in a practice prior to enrolling in the school. The bylaws shall also allow the student to be *immediately* eligible in the school to which the student has transferred ~~during the school year if the transfer is made by a deadline established by the FHSAA, which may not be prior to the date authorized for the beginning of practice for the sport. These transfers shall be allowed pursuant to the district school board policies in the case of transfer to a public school or pursuant to the private school policies in the case of transfer to a private school.~~ The student shall be eligible in that school so long as he or she remains enrolled in that school. Subsequent eligibility shall be determined and enforced through the FHSAA's bylaws. Requirements governing eligibility and transfer between member schools shall be applied similarly to public school students and private school students.

(b) The FHSAA shall adopt bylaws that specifically prohibit the recruiting of students for athletic purposes. The bylaws shall prescribe penalties and an appeals process for athletic recruiting violations.

1. If it is determined that a school has recruited a student in violation of FHSAA bylaws, the FHSAA may require the school to participate in a higher classification for the sport in which the recruited student competes for a minimum of one classification cycle, in addition to the penalties in subparagraphs 2. and 3. and any other appropriate fine or ~~and~~ sanction imposed on the school, its coaches, or adult representatives who violate recruiting rules.

2. Any recruitment by a school district employee or contractor in violation of FHSAA bylaws results in escalating punishments as follows:

a. For a first offense, a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation.

b. For a second offense, suspension without pay for 12 months from coaching, directing, or advertising an extracurricular activity and a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation.

c. For a third offense, a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation. If the individual who committed the violation holds an educator certificate, the FHSAA shall also refer the violation to the department for review pursuant to s. 1012.796 to determine whether probable cause exists, and, if there is a finding of probable cause, the commissioner shall file a formal complaint against the individual. If the complaint is upheld, the individual's educator certificate shall be revoked for 3 years, in addition to any penalties available under s. 1012.796. Additionally, the department shall revoke any adjunct teaching certificates issued pursuant to s. 1012.57 and all permissions under ss. 1012.39 and 1012.43, and the educator is ineligible for such certificates or permissions for a period of time equal to the period of revocation of his or her state-issued certificate.

3. Notwithstanding any other provision of law, a school, team, or activity shall forfeit all competitions, including honors resulting from such competitions, in which a student who participated in any fashion was recruited in a manner prohibited pursuant to state law or the FHSAA bylaws.

4. A student may not be declared ineligible based on violation of recruiting rules unless the student or parent has falsified any enrollment or eligibility document or accepted any benefit ~~or any promise of benefit~~ if such benefit is not generally available to the school's students or family members or is based in any way on athletic interest, potential, or performance.

5. A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity, as determined by a district school board pursuant to s. 1006.195(1)(a)3., may not be affected by any alleged recruiting violation until final disposition of the allegation.

(c) The FHSAA shall adopt bylaws that require all students participating in interscholastic athletic competition or who are candidates for an interscholastic athletic team to satisfactorily pass a medical evaluation each year prior to participating in interscholastic athletic competition or engaging in any practice, tryout, workout, or other physical activity associated with the student's candidacy for an interscholastic athletic team. Such medical evaluation may be administered only by a practitioner licensed under chapter 458, chapter 459, chapter 460, or s. 464.012, and in good standing with the practitioner's regulatory board. The bylaws shall establish requirements for eliciting a student's medical history and performing the medical evaluation required under this paragraph, which shall include a physical assessment of the student's physical capabilities to participate in interscholastic athletic competition as contained in a uniform preparticipation physical evaluation and history form. The evaluation form shall incorporate the recommendations of the American Heart Association for participation cardiovascular screening and shall provide a place for the signature of the practitioner performing the evaluation with an attestation that each examination procedure listed on the form was performed by the practitioner or by someone under the direct supervision of the practitioner. The form shall also contain a place for the practitioner to indicate if a referral to another practitioner was made in lieu of completion of a certain examination procedure. The form shall provide a place for the practitioner to whom the student was referred to complete the remaining sections and attest to that portion of the examination. The preparticipation physical evaluation form shall advise students to complete a cardiovascular assessment and shall include information concerning alternative cardiovascular evaluation and diagnostic tests. Results of such medical evaluation must be provided to the school. A ~~student is not~~ ~~no student shall~~ be eligible to participate, as provided in s. 1006.15(3), in any interscholastic athletic competition or engage in any practice, tryout, workout, or other physical activity associated with the student's candidacy for an interscholastic athletic team until the results of the medical evaluation have been received and approved by the school.

(g) The FHSAA shall adopt bylaws establishing the process and standards by which FHSAA determinations of eligibility are made. Such bylaws shall provide that:

1. Ineligibility must be established by a preponderance of the ~~clear~~ ~~and convincing~~ evidence;

2. Student athletes, parents, and schools must have notice of the initiation of any investigation or other inquiry into eligibility and may present, to the investigator and to the individual making the eligibility determination, any information or evidence that is credible, persuasive, and of a kind reasonably prudent persons rely upon in the conduct of serious affairs;

3. An investigator may not determine matters of eligibility but must submit information and evidence to the executive director or a person designated by the executive director or by the board of directors for an unbiased and objective determination of eligibility; and

4. A determination of ineligibility must be made in writing, setting forth the findings of fact and specific violation upon which the decision is based.

Section 24. Subsection (5), paragraph (j) of subsection (6), and paragraph (a) of subsection (8) of section 1007.35, Florida Statutes, are amended to read:

4. The value of student scores in predicting the probability of success on AP or other advanced course examinations.

(8)(a) By September 30 of each year, the partnership shall submit to the department a report that contains an evaluation of the effectiveness of the delivered services and activities. Activities and services must be evaluated on their effectiveness at raising student achievement and increasing the number of AP or other advanced course examinations in low-performing middle and high schools. Other indicators that must be addressed in the evaluation report include the number of middle and high school teachers trained; the effectiveness of the training; measures of postsecondary readiness of the students affected by the program; levels of participation in 10th grade PSAT/NMSQT or *ACT Aspire* ~~PLAN~~ testing; and measures of student, parent, and teacher awareness of and satisfaction with the services of the partnership.

1. Instruction in a standard school, comprising not less than 900 net hours for a student in or at the grade level of 4 through 12, or not less than 720 net hours for a student in or at the grade level of kindergarten through grade 3 or in an authorized prekindergarten exceptional program; *or*

~~2. Instruction in a double-session school or a school utilizing an experimental school calendar approved by the Department of Education, comprising not less than the equivalent of 810 net hours in grades 4 through 12 or not less than 630 net hours in kindergarten through grade 3; or~~

~~2.3.~~ Instruction comprising the appropriate number of net hours set forth in subparagraph 1. ~~or subparagraph 2.~~ for students who, within the past year, have moved with their parents for the purpose of engaging in the farm labor or fish industries, if a plan furnishing such an extended school day or week, or a combination thereof, has been approved by the commissioner. Such plan may be approved to accommodate the needs of migrant students only or may serve all students in schools having a high percentage of migrant students. The plan described in this subparagraph is optional for any school district and is not mandated by the state.

(b) A “part-time student” is a student on the active membership roll of a school program or combination of school programs listed in s. 1011.62(1)(c) who is less than a full-time student. *A student who receives instruction in a school that operates for less than the minimum term shall generate full-time equivalent student membership proportional to the amount of instructional hours provided by the school divided by the minimum term requirement as provided in s. 1011.60(2).*

(c)1. A “full-time equivalent student” is:

a. A full-time student in any one of the programs listed in s. 1011.62(1)(c); or

b. A combination of full-time or part-time students in any one of the programs listed in s. 1011.62(1)(c) which is the equivalent of one full-time student based on the following calculations:

(I) A full-time student in a combination of programs listed in s. 1011.62(1)(c) shall be a fraction of a full-time equivalent membership in each special program equal to the number of net hours per school year for which he or she is a member, divided by the appropriate number of hours set forth in subparagraph (a)1. ~~or subparagraph (a)2.~~ The difference between that fraction or sum of fractions and the maximum value as set forth in subsection (4) for each full-time student is presumed to be the balance of the student’s time not spent in a special program and shall be recorded as time in the appropriate basic program.

(II) A prekindergarten student with a disability shall meet the requirements specified for kindergarten students.

(III) A full-time equivalent student for students in kindergarten through grade 12 in a full-time virtual instruction program under s. 1002.45 or a virtual charter school under s. 1002.33 shall consist of six full-credit completions or the prescribed level of content that counts toward promotion to the next grade in programs listed in s. 1011.62(1)(c). Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(IV) A full-time equivalent student for students in kindergarten through grade 12 in a part-time virtual instruction program under s. 1002.45 shall consist of six full-credit completions in programs listed in s. 1011.62(1)(c)1. and 3. Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(V) A Florida Virtual School full-time equivalent student shall consist of six full-credit completions or the prescribed level of content that counts toward promotion to the next grade in the programs listed in s. 1011.62(1)(c)1. and 3. for students participating in kindergarten through grade 12 part-time virtual instruction and the programs listed in s. 1011.62(1)(c) for students participating in kindergarten through grade 12 full-time virtual instruction. Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(VI) Each successfully completed full-credit course earned through an online course delivered by a district other than the one in which the student resides shall be calculated as 1/6 FTE.

(VII) A full-time equivalent student for courses requiring passage of a statewide, standardized end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be defined and reported based on the number of instructional hours as provided in this subsection ~~until the 2016-2017 fiscal year. Beginning in the 2016-2017 fiscal year, the FTE for the course shall be assessment based and shall be equal to 1/6 FTE. The reported FTE shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(VIII) For students enrolled in a school district as a full-time student, the district may report 1/6 FTE for each student who passes a statewide, standardized end-of-course assessment without being enrolled in the corresponding course.

2. A student in membership in a program scheduled for more or less than 180 school days or the equivalent on an hourly basis as specified by rules of the State Board of Education is a fraction of a full-time equivalent membership equal to the number of instructional hours in membership divided by the appropriate number of hours set forth in subparagraph (a)1.; however, for the purposes of this subparagraph, membership in programs scheduled for more than 180 days is limited to students enrolled in:

- a. Juvenile justice education programs.
- b. The Florida Virtual School.

c. Virtual instruction programs and virtual charter schools for the purpose of course completion and credit recovery pursuant to ss. 1002.45 and 1003.498. Course completion applies only to a student who is reported during the second or third membership surveys and who does not complete a virtual education course by the end of the regular school year. The course must be completed no later than the deadline for amending the final student enrollment survey for that year. Credit recovery applies only to a student who has unsuccessfully completed a traditional or virtual education course during the regular school year and must re-take the course in order to be eligible to graduate with the student's class.

The full-time equivalent student enrollment calculated under this subsection is subject to the requirements in subsection (4).

The department shall determine and implement an equitable method of equivalent funding for ~~experimental schools and for~~ schools operating under emergency conditions, which schools have been approved by the department to operate for less than the minimum *term as provided in s. 1011.60(2) school day.*

Section 27. Effective July 1, 2016, and upon the expiration of the amendments made to section 1011.62, Florida Statutes, by chapter 2015-222, Laws of Florida, paragraphs (e) and (o) of subsection (1), paragraph (a) of subsection (4), and present subsection (13) of that section are amended, present subsections (13), (14), and (15) of that section are renumbered as subsections (14), (15), and (16), respectively, and a new subsection (13) is added to that section, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(e) Funding model for exceptional student education programs.—

1.a. The funding model uses basic, at-risk, support levels IV and V for exceptional students and career Florida Education Finance Program cost factors, and a guaranteed allocation for exceptional student education programs. Exceptional education cost factors are determined by using a matrix of services to document the services that each exceptional student will receive. The nature and intensity of the services indicated on the matrix shall be consistent with the services described in each exceptional student's individual educational plan. The Department of Education shall review and revise the descriptions of the services and supports included in the matrix of services for exceptional students and shall implement those revisions before the beginning of the 2012-2013 school year.

b. In order to generate funds using one of the two weighted cost factors, a matrix of services must be completed at the time of the student's initial placement into an exceptional student education program and at least once every 3 years by personnel who have received approved training. Nothing listed in the matrix shall be construed as limiting the services a school district must provide in order to ensure that exceptional students are provided a free, appropriate public education.

c. Students identified as exceptional, in accordance with chapter 6A-6, Florida Administrative Code, who do not have a matrix of services as specified in sub-subparagraph b. shall generate funds on the basis of full-time-equivalent student membership in the Florida Education Finance Program at the same funding level per student as provided for basic students. Additional funds for these exceptional students will be provided through the guaranteed allocation designated in sub-paragraph 2.

2. For students identified as exceptional who do not have a matrix of services and students who are gifted in grades K through 8, there is created a guaranteed allocation to provide these students with a free appropriate public education, in accordance with s. 1001.42(4)(l) and rules of the State Board of Education, which shall be allocated *initially*

~~annually~~ to each school district in the amount provided in the General Appropriations Act. These funds shall be ~~supplemental in addition to~~ the funds appropriated for the ~~basic funding level on the basis of FTE student membership in the Florida Education Finance Program,~~ and the amount allocated for each school district shall ~~not~~ be recalculated ~~once~~ during the year, based on actual student membership from the October FTE survey. Upon recalculation, if the generated allocation is greater than the amount provided in the General Appropriations Act, the total shall be prorated to the level of the appropriation based on each district's share of the total recalculated amount. These funds shall be used to provide special education and related services for exceptional students and students who are gifted in grades K through 8. ~~Beginning with the 2007-2008 fiscal year,~~ A district's expenditure of funds from the guaranteed allocation for students in grades 9 through 12 who are gifted may not be greater than the amount expended during the 2006-2007 fiscal year for gifted students in grades 9 through 12.

(o) Calculation of additional full-time equivalent membership based on successful completion of a career-themed course pursuant to ss. 1003.491, 1003.492, and 1003.493, or courses with embedded CAPE industry certifications or CAPE Digital Tool certificates, and issuance of industry certification identified on the CAPE Industry Certification Funding List pursuant to rules adopted by the State Board of Education or CAPE Digital Tool certificates pursuant to s. 1003.4203.—

1.a. A value of 0.025 full-time equivalent student membership shall be calculated for CAPE Digital Tool certificates earned by students in elementary and middle school grades.

b. A value of 0.1 or 0.2 full-time equivalent student membership shall be calculated for each student who completes a course as defined in s. 1003.493(1)(b) or courses with embedded CAPE industry certifications and who is issued an industry certification identified annually on the CAPE Industry Certification Funding List approved under rules adopted by the State Board of Education. A value of 0.2 full-time equivalent membership shall be calculated for each student who is issued a CAPE industry certification that has a statewide articulation agreement for college credit approved by the State Board of Education. For CAPE industry certifications that do not articulate for college credit, the Department of Education shall assign a full-time equivalent value of 0.1 for each certification. Middle grades students who earn additional FTE membership for a CAPE Digital Tool certificate pursuant to sub-subparagraph a. may not use the previously funded examination to satisfy the requirements for earning an industry certification under this sub-subparagraph. Additional FTE membership for an elementary or middle grades student ~~may shall~~ not exceed 0.1 for certificates or certifications earned within the same fiscal year. The State Board of Education shall include the assigned values on the CAPE Industry Certification Funding List under rules adopted by the state board. Such value shall be added to the total full-time equivalent student membership for grades 6 through 12 in the subsequent year ~~for courses that were not provided through dual enrollment.~~ CAPE industry certifications earned through dual enrollment must be reported and funded pursuant to s. 1011.80. *However, if a student earns a certification through a dual enrollment course and the certification is not a fundable certification on the postsecondary certification funding list, or the dual enrollment certification is earned as a result of an agreement between a school district and a nonpublic postsecondary institution, the bonus value shall be funded in the same manner as other nondual enrollment course industry certifications. In such cases, the school district may provide for an agreement between the high school and the technical center, or the school district and the postsecondary institution may enter into an agreement for equitable distribution of the bonus funds.*

c. A value of 0.3 full-time equivalent student membership shall be calculated for student completion of the courses and the embedded certifications identified on the CAPE Industry Certification Funding List and approved by the commissioner pursuant to ss. 1003.4203(5)(a) and 1008.44.

d. A value of 0.5 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 15 to 29 college credit hours, and 1.0 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 30 or more college credit hours pursuant to CAPE Acceleration Industry Certifications approved by the commissioner pursuant to ss. 1003.4203(5)(b) and 1008.44.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

a. A bonus ~~in the amount~~ of \$25 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.1.

b. A bonus ~~in the amount~~ of \$50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2, ~~0.3, 0.5, and 1.0.~~

c. A bonus of \$75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of \$100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the certification is earned by the student. Any bonus awarded to a teacher under this paragraph may not exceed \$3,000 ~~\$2,000~~ in any given school year and is in addition to any regular wage or other bonus the teacher received or is scheduled to receive.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) Estimated taxable value calculations.—

1.a. Not later than 2 working days ~~before~~ ~~prior to~~ July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (15)(b) ~~(14)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Fi-

nance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(13) *FEDERALLY CONNECTED STUDENT SUPPLEMENT.*—*The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) real property, and Indian lands. To be eligible for this supplement, the district must be eligible for federal Impact Aid Program funds under s. 8003 of Title VIII of the Elementary and Secondary Education Act of 1965. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.*

(a) *The student allocation shall be calculated based on the number of students reported for federal Impact Aid Program funds, including students with disabilities, who meet one of the following criteria:*

1. *The student has a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer. Students with disabilities shall also be reported separately for this category.*

2. *The student resides on eligible federally owned Indian land. Students with disabilities shall also be reported separately for this category.*

3. *The student resides with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.*

(b) *The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately under subparagraphs (a)1. and (a)2. shall be multiplied by an additional percentage of the base student allocation as provided in the General Appropriations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.*

(c) *The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).*

(14)~~(12)~~ *QUALITY ASSURANCE GUARANTEE.*—*The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (15) ~~(14)~~, quality guarantee funds, and actual nonvoted discretionary local effort from taxes. The supplement shall be the sum of a student allocation and an exempt property allocation. To participate, districts must be eligible for federal Impact Aid funding under Section 8003, Title VIII of the Elementary and Secondary Education Act of 1965.

The student allocation shall be based on the total number of students, including students with disabilities, reported for federal impact aid who: 1) reside with a parent on active duty in the uniformed services or who is an accredited foreign government official and military officer, 2) reside on eligible Indian lands, or 3) reside with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. This third category shall be multiplied by a factor of 0.5. Students with disabilities shall also be counted separately for the first two categories. The total number of federally-connected students and the total number of students with disabilities shall be multiplied by 3 percent and 10.5 percent of the base student allocation, respectively. The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally-owned Indian lands located in the district, multiplied by the millage authorized and levied under section 1011.71(2), Florida Statutes.

For the 2016-2017 fiscal year, this allocation shall be derived from the data reported by school districts to the Department of Education for the federal Impact Aid Program, Section 8003, Title VIII of the Elementary and Secondary Education Act, for the 2016 federal fiscal year. JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1093 through 1174A, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate substantial compliance with the performance measures described in the contract.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS
SPECIFIC
APPROPRIATION

From the funds in Specific Appropriations 1093 through 1174A, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1093 through 1174A, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

From the funds in Specific Appropriations 1093 through 1174A, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1093 through 1174A, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, President of the Senate, and Speaker of the House of Representatives by January 1, 2017.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1147 through 1161, the Department of Juvenile Justice shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, chair of the Senate Appropriations Committee, and chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1147 through 1161, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

Special emphasis shall be placed on the investigation and prosecution of unlicensed real estate activities. These unlicensed activity funds may not be used for media campaigns, including public service announcements.

From the funds in Specific Appropriation 2013, up to \$100,000 from the Professional Regulation Trust Fund is provided to the Department of Business and Professional Regulation to institute an unlicensed activity campaign for the purpose of informing and educating the public: (1) that public accounting is a regulated profession with requirements of licensure pursuant to chapter 473, Florida Statutes; (2) that some services provided by unlicensed individuals, although legal, are regulated when provided by a licensed Florida Certified Public Accountant; and, (3) that certain services may only be performed by a licensed Florida Certified Public Accountant. The department shall develop the campaign in consultation with a corporation that is registered under chapter 617, Florida Statutes, as a not-for-profit corporation and qualified under the Internal Revenue Service Code as a 501(c)(6) corporation, and that represents the largest number of licensed Florida Certified Public Accountants. Any advertising, media, or materials produced as a result of contributions shall carry acknowledgements of joint production and sponsorship. The department may not allocate overhead charges to these unlicensed activity campaign funds.

From the funds in Specific Appropriation 2013, up to \$250,000 from the Professional Regulation Trust Fund is provided to the Department of Business and Professional Regulation to enhance department enforcement activities, which include stings and sweeps, relating to unlicensed construction activity in Florida. The department may not allocate overhead charges to these unlicensed activity functions.

From the funds in Specific Appropriation 2013, the Department of Business and Professional Regulation shall submit a report to the President of the Senate, the Speaker of the House of Representatives, and the Executive Office of the Governor's Office of Policy and Budget by November 1, 2016, detailing the unlicensed activity functions performed by the department during Fiscal Year 2015-2016. The report shall contain a detailed breakout of activities, revenues, and expenditures by board and/or profession, and include any relevant information to indicate the department's compliance with section 455.2281, Florida Statutes.

ECONOMIC OPPORTUNITY, DEPARTMENT OF

From the funds in Specific Appropriations 2148 through 2245, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Families, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee must certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It is the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2148 through 2245, no federal or state funds shall be used to pay for space being leased by a local workforce development board, CareerSource Florida, or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

No funds are appropriated in Specific Appropriations 2148 through 2245, and Sections 79, 80 and 90 for the payment of rent, lease or possession of space for offices or any other purpose or use at Northwood Centre, 1940 North Monroe Street, Tallahassee, Florida, pursuant to State of Florida Lease Nos. 720:0139, 750:0068, 790:0098, 400:0068 or 590:M139, or any other lease, except for State of Florida Lease No. 400:0070, by the Department of Economic Opportunity, including any one or more predecessor agencies, notwithstanding any lease or contract to the contrary. The Department of Economic Opportunity is prohibited from expending any specific appropriation from the General Revenue Fund, any trust fund or from any other source for the rent, lease or possession of any space for offices or other purpose or use at Northwood Centre, 1940 North Monroe Street, Tallahassee, Florida, pursuant to State of Florida Lease Nos. 720:0139, 750:0068, 790:0098, 400:0068 or 590:M139, or any other lease, except State of Florida Lease No. 400:0070.

SPECIFIC			
APPROPRIATION			
WORKFORCE DEVELOPMENT			
From the funds in Specific Appropriations 2174 through 2203, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.			
When allocating full-time equivalent (FTE) positions to individual local workforce development boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a local workforce development board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a local workforce development board that would use the FTE position to provide additional services to veterans.

The funds in Specific Appropriation 2317A are provided to the Department of Financial Services to complete all tasks associated with the Pre-Design, Development, and Implementation phase as recommended in the March 31, 2014, Florida Department of Financial Services FLAIR Study, version 031, for the replacement of the Florida Accounting Information Resource (FLAIR) Subsystem and the Cash Management Subsystem (CMS). The funds are contingent upon HB 5003 becoming law, which provides for the replacement of the FLAIR subsystem and the CMS. Of these funds, \$3,314,100 shall be placed in reserve pending completion of all tasks associated with the identification, validation and approval of the business requirements for the replacement of the four main components of the FLAIR subsystem which include (a) central FLAIR, (b) departmental FLAIR, (c) payroll, and (d) information warehouse and the cash management and accounting management components of the CMS. of reporting at a minimum expenditure and revenue data at the level currently reported in the FLAIR subsystem, and must be approved by the executive steering committee established pursuant to HB 5003.

Contingent upon the submission of the validated and approved business requirements and pursuant to the provisions of chapter 216, Florida Statutes, the Department of Financial Services is authorized to submit a budget amendment to request release of an amount not to exceed \$2,305,046 of the funds being held in reserve for the development of the data management plan for the replacement of the FLAIR subsystem and the CMS and for activities associated with the development and release of the competitive solicitation for the Software and System Integrator for the replacement of the FLAIR subsystem and the CMS. The data management plan shall include an inventory of current system interfaces and migration activities required from the FLAIR subsystem and the CMS and shall identify the data conversion requirements.

Contingent upon the submission of the data management plan and pursuant to the provisions of chapter 216, Florida Statutes, the Department of Financial Services is authorized to submit a budget amendment to request the release of the balance of the funds being held in reserve to complete the work associated with the competitive solicitation for the Software and System Integrator for the replacement of the FLAIR subsystem and the CMS.

From the funds provided in Specific Appropriation 2317A, \$600,000 is provided to the Department of Financial Services to contract with a private sector provider with experience in conducting independent verification and validation of public sector Enterprise Resource Planning information technology projects to provide independent verification and validation for the replacement of the FLAIR subsystem and the CMS. The contract shall require all deliverables to be simultaneously provided to the department, the Agency for State Technology, the chair of the Senate Committee on Appropriations, and the chair of the House of Representatives Appropriations Committee. The contracted provider shall be made readily available to provide all project related data to the Agency for State Technology in support of their project oversight responsibilities pursuant to s. 282.0051, Florida Statutes.

From the funds provided in Specific Appropriation 2317A, \$300,000 is provided to the Department of Financial Services to contract with a third party consulting firm to complete the business case for maintaining any of the agency business systems identified in Attachment 2 of the March 31, 2014, Florida Department of Financial Services FLAIR Study, version 031, after the FLAIR subsystem and the CMS are replaced. For purposes of developing the business case, the private sector provider shall consider the information associated with the agency business systems that was collected during the study referenced above. At a minimum, the business case shall include: (a) a detailed description of the functionality provided by the agency business system, (b) confirmation that the agency business system's functionality is not planned to be included in the replacement of the FLAIR subsystem and the CMS, and (c) documentation, including federal and state law, rule, or policy, which validates that the agency is required to maintain the functionality currently provided by the agency business system instead of modifying its business processes. The department shall submit the business case to the Executive Office of the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than November 1, 2016.

The Department of Financial Services shall provide monthly project status reports to the chair of the Senate Committee on Appropriations, the chair of the House of Representatives Appropriations Committee, and the Executive Director of the Office of Policy and Budget that include progress made to date for each project milestone, planned and actual deliverable completion dates, planned and actual costs incurred, and any current project issues and risks being managed. The department is authorized to issue a competitive solicitation for the Software and System Integrator no earlier than November 1, 2016, and the competitive solicitation must include all validated and approved business requirements for the replacement of all four components of the FLAIR subsystem and the two components of the CMS.

Funds in Specific Appropriation 3064 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including, but not limited to any emerging technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable by the Department of State. Additionally, before the Supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of

DISCLOSURE

I have an ownership interest in Caregivers Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **HB 5001**, **HB 5003**, and **HB 5101** which come before the Senate for a vote on March 11, 2016.

Therefore, I believe that, because Caregivers Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Senator Don Gaetz, 1st District

By direction of the President, the following Conference Committee Report was read:

The Honorable Andy Gardiner, President

I am directed to inform the Senate that the House of Representatives has accepted the Conference Committee Report as an entirety and passed HB 5003, as amended by the Conference Committee Report.

Bob Ward, Clerk

SUMMARY OF CONFERENCE COMMITTEE ACTION

The Conference Committee Amendment for HB 5003, relating to implementing appropriations, provides the following substantive modifications for the 2016-2017 fiscal year:

Section 1 provides legislative intent that the implementing and administering provisions of this act apply to the General Appropriations Act for Fiscal Year 2016-2017.

Section 2 incorporates the Florida Education Finance Program (FEFP) work papers by reference for the purpose of displaying the calculations used by the Legislature.

Section 3 provides that funds provided for instructional materials shall be released and expended as required in the proviso language attached to Specific Appropriation 94.

Section 4 provides that any district school board that generates less than \$2 million dollars in revenue from one mill of ad valorem tax shall contribute 0.75 mill, rather than 1.5 mills, for Fiscal Year 2016-2017, to the cost of funded special facilities projects.

Sections 5 and 36 require the auditor general to conduct annual financial audits of the Florida School for the Deaf and the Blind.

Section 6 reauthorizes the Florida College System (FCS) Performance Based Incentive funding model, for Fiscal Year 2016-2017, to evaluate the FCS institutions' performance on specified metrics. Funding for the FCS Performance Based Incentive consists of a state investment, plus an institutional investment consisting of funds redistributed from the Florida College System Program Fund.

Section 7 establishes the Distinguished Florida College System program which recognizes the highest performing Florida Colleges.

Sections 8 and 36 amend the preeminent state research universities program by modifying the academic and research excellence standards and requiring the Board of Governors (BOG) to designate each state university that meets at least six of the 12 academic and research excellence standards as an "emerging preeminent state research university."

Section 9 reauthorizes the State University System (SUS) Performance-Based Incentive funding model, for Fiscal Year 2016-2017, to evaluate the state universities' performance on specified metrics. Funding for the SUS Performance Based Incentive consists of a state

investment, plus an institutional investment consisting of funds redistributed from SUS base funding.

Sections 10 and 11 amend s. 1008.46, F.S., to change the date for the Board of Governors annual accountability report from December 31 to March 15.

Sections 12 and 36 amend s. 1009.23, F.S., to cap the distance learning fee that Florida colleges can charge students taking distance learning courses to \$15 per credit hour.

Sections 13 and 36 amend s. 1009.24, F.S., to cap the average distance learning fee that state universities can charge students taking distance learning courses to \$30 per credit hour.

Sections 14, 15, 16, 17, and 36 amend ss. 1009.50, 1009.505, 1009.51, and 1009.52, Florida Statutes, to maximize the current allocation of state need-based financial aid by adding a prioritization of award to eligible students. Postsecondary financial aid offices are required to complete an analysis of need for each eligible student to include all sources of funds available to the student (Pell Grant, scholarships, and all other aid).

Sections 18, 19, 20, 21, 22, 23, and 36 provide changes, for the 2016-2017 fiscal year, to the calculation of multiple components of the Florida Education Finance Program (FEFP), including:

- Authorizing a recalculation of the ESE Guaranteed Allocation based on actual FTE as reported on the October FTE survey.
- Providing funding for the 300 lowest performing elementary schools through funds allocated in the Supplemental Academic Instruction (SAI) and the Research-Based Reading Instruction Allocation categoricals and amends the SAI calculation.
- Modifying the sparsity supplement calculation to compute the sparsity supplement for larger eligible districts with a full-time equivalent (FTE) student membership of between 20,000 and 24,000, by dividing the total number of full-time equivalent students in all programs by the number of permanent senior high school centers in the district, not in excess of four.
- Amending the Florida Digital Classrooms Allocation to provide each district with a \$500,000 minimum and requiring school districts to use the digital classroom allocation to purchase enough devices to achieve a 1:1 device ratio in the largest grade group for each school in grades 3-10.
- Reauthorizing the federally connected student supplement to provide funding to school districts to support the education of students connected with federally-owned military installations, National Aeronautics and Space Administration (NASA) property, and Indian lands. To be eligible for this supplement, the district must also be eligible for federal impact aid funds, pursuant to Title VIII of the Elementary and Secondary Education Act of 1965.
- Removing the requirement for an adjustment to be made to a district's funding in the FEFP based on an FTE reporting error that is not corrected by the district within the FTE reporting amendment periods.
- Conforming a cross-reference in s.1011.71, F.S., changed as a result of the addition of the federally connected student supplement as a new subsection of law in s.1011.62, F.S.

Sections 24 and 36 amend s. 1012.39, F.S., to require district school boards to notify a student performing a clinical field experience of the availability of educator liability insurance under s. 1012.75, Florida Statutes, and prohibits a postsecondary educational institution or district school board from requiring a student enrolled in a state-approved teacher preparation program to purchase liability insurance as a condition of participation in any clinical field experience.

Section 25 creates s. 1012.731, F.S., to codify the Florida Best and Brightest Teacher Scholarship Program which awards highly effective teachers who have demonstrated a high level of academic achievement based on their SAT or ACT score being at or above the 80th percentile.

Section 26 requires the Department of Education to administer an educator liability insurance program, which provides a minimum of \$2 million in liability coverage for all full-time public school instructional personnel.

Sections 27 and 36 amend s. 1013.64, F.S., to adjust the capital outlay full-time equivalent (COFTE) calculations to be consistent with Florida Education Finance Program (FEFP) FTE calculations relative to facilities space needs and COFTE determination procedures.

Section 32 authorizes the Florida Fund for Minority Teachers, Inc., to expend up to \$250,000 from available funds for administration, including administration of the required training program and purchase of an online management and administration system.

Sections 33 and 36 authorizes Florida ABLE, Inc., to:

- Postpone the implementation date of the Florida ABLE program until December 31, 2016, if necessary, due to:
 - o Final regulations being issued by the United States Secretary of the Treasury, or
 - o Determination that an equivalent alternative to implementation of a qualified ABLE program in Florida becomes available through contracting with another state at a significant savings to the State.
- Determine whether or not to require residency as a condition of participation based on market research and estimated operating revenues and costs.

Section 34 directs the Office of Early Learning not to adopt a kindergarten readiness rate for the 2014-2015 or 2015-2016 academic year and specifies that any Voluntary Prekindergarten (VPK) Education provider on probation in 2013-2014 will remain on probation.

Sections 35, 36, and 23 extend for an additional year the authority for school districts to levy the Prior Period Funding Adjustment Millage (PPFAM) before the final taxable value is certified with technical clarifications to ensure that the PPFAM is not levied multiple times for the same year.

Section 36 provides for the expiration of changes to statutes in the Implementing Bill.

The performance-based budgeting measures must also reflect the elements of teaching, research, and service inherent in the missions of the state universities.

(1) By March 15 of each year, the Board of Governors shall submit an annual accountability report providing information on the implementation of performance standards, actions taken to improve university achievement of performance goals, the achievement of performance goals during the prior year, and initiatives to be undertaken during the next year. The accountability reports shall be designed in consultation with the Governor's Office, the Office of Program Policy Analysis and Government Accountability, and the Legislature.

Section 18. In order to implement Specific Appropriations 7 and 94 of the 2016-2017 General Appropriations Act, and notwithstanding the expiration date in section 9 of chapter 2015-222, Laws of Florida, paragraph (f) of subsection (1), paragraph (a) of subsection (4), paragraph (b) of subsection (7), and paragraph (a) of subsection (9) of section 1011.62, Florida Statutes, are reenacted and amended, and paragraph (e) of subsection (1) of that section is amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be fol-

lowed in determining the annual allocation to each district for operation:

(e) Funding model for exceptional student education programs.—

1.a. The funding model uses basic, at-risk, support levels IV and V for exceptional students and career Florida Education Finance Program cost factors, and a guaranteed allocation for exceptional student education programs. Exceptional education cost factors are determined by using a matrix of services to document the services that each exceptional student will receive. The nature and intensity of the services indicated on the matrix shall be consistent with the services described in each exceptional student's individual educational plan. The Department of Education shall review and revise the descriptions of the services and supports included in the matrix of services for exceptional students and shall implement those revisions before the beginning of the 2012-2013 school year.

b. In order to generate funds using one of the two weighted cost factors, a matrix of services must be completed at the time of the student's initial placement into an exceptional student education program and at least once every 3 years by personnel who have received approved training. Nothing listed in the matrix shall be construed as limiting the services a school district must provide in order to ensure that exceptional students are provided a free, appropriate public education.

c. Students identified as exceptional, in accordance with chapter 6A-6, Florida Administrative Code, who do not have a matrix of services as specified in sub-subparagraph b. shall generate funds on the basis of full-time-equivalent student membership in the Florida Education Finance Program at the same funding level per student as provided for basic students. Additional funds for these exceptional students will be provided through the guaranteed allocation designated in subparagraph 2.

2. For students identified as exceptional who do not have a matrix of services and students who are gifted in grades K through 8, there is created a guaranteed allocation to provide these students with a free appropriate public education, in accordance with s. 1001.42(4)(l) and rules of the State Board of Education, which shall be allocated ~~initially annually~~ to each school district in the amount provided in the General Appropriations Act. These funds shall be ~~supplemental in addition to the funds appropriated for the basic funding level on the basis of FTE student membership in the Florida Education Finance Program,~~ and the amount allocated for each school district shall ~~not~~ be recalculated ~~once during the year, based on actual student membership from the October FTE survey. Upon recalculation, if the generated allocation is greater than the amount provided in the General Appropriations Act, the total shall be prorated to the level of the appropriation based on each district's share of the total recalculated amount.~~ These funds shall be used to provide special education and related services for exceptional students and students who are gifted in grades K through 8. ~~Beginning with the 2007-2008 fiscal year,~~ A district's expenditure of funds from the guaranteed allocation for students in grades 9 through 12 who are gifted may not be greater than the amount expended during the 2006-2007 fiscal year for gifted students in grades 9 through 12.

(f) Supplemental academic instruction; categorical fund.—

1. There is created a categorical fund to provide supplemental academic instruction to students in kindergarten through grade 12. This paragraph may be cited as the "Supplemental Academic Instruction Categorical Fund."

2. ~~The categorical fund funds for supplemental academic instruction shall be allocated annually to each school district in the amount provided in the General Appropriations Act. These funds shall be in addition to the funds appropriated on the basis of FTE student membership in the Florida Education Finance Program and shall be included in the total potential funds of each district. These funds shall be used to provide supplemental academic instruction to students enrolled in the K-12 program. For the 2016-2017 2015-2016 fiscal year, each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment shall use these funds, together with the funds provided in the district's research-based reading instruction allocation and other available funds, to provide an additional hour of instruction beyond the normal school day for each day of~~

the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading or by a K-5 mentoring reading program that is supervised by a teacher who is effective ~~in~~ teaching reading. Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers may not be included in the 300 schools. For the 2016-2017 ~~2015-2016~~ fiscal year, ~~designation of the 300 lowest-performing elementary schools shall be based on the 2015-2016 state reading assessment the same schools as identified for the 2014-2015 fiscal year.~~ After this requirement has been met, supplemental instruction strategies may include, but are not limited to: *use of a modified curriculum, reading instruction, after-school instruction, tutoring, mentoring, a reduction in class size reduction, an extended school year, intensive skills development in summer school, and other methods of* ~~for~~ improving student achievement. Supplemental instruction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.

3. *Categorical funds for supplemental academic instruction shall be provided annually in the Florida Education Finance Program as specified in the General Appropriations Act. These funds shall be provided as a supplement to the funds appropriated for the basic funding level and shall be included in the total funds of each district. The allocation shall consist of a base amount that shall have a workload adjustment based on changes in unweighted FTE. In addition, districts that have elementary schools included in the 300 lowest-performing schools designation shall be allocated additional funds to assist those districts in providing intensive reading instruction to students in those schools. The amount provided shall be based on each district's level of per-student funding in the reading instruction allocation and the supplemental academic instruction categorical fund and on the total FTE for each of the schools. The categorical funding shall be recalculated once during the fiscal year following an updated designation of the 300 lowest-performing elementary schools and shall be based on actual student membership from the October FTE survey. Upon recalculation of funding for the supplemental academic instruction categorical fund, if the total allocation is greater than the amount provided in the General Appropriations Act, the allocation shall be prorated to the level provided to support the appropriation, based on each district's share of the total.*

~~4.3.~~ Effective with the 1999-2000 fiscal year, funding on the basis of FTE membership beyond the 180-day regular term shall be provided in the FEFP only for students enrolled in juvenile justice education programs or in education programs for juveniles placed in secure facilities or programs under s. 985.19. Funding for instruction beyond the regular 180-day school year for all other K-12 students shall be provided through the supplemental academic instruction categorical fund and other state, federal, and local fund sources with ample flexibility for schools to provide supplemental instruction to assist students in progressing from grade to grade and graduating.

5.4. The Florida State University School, as a lab school, is authorized to expend from its FEFP or Lottery Enhancement Trust Fund allocation the cost to the student of remediation in reading, writing, or mathematics for any graduate who requires remediation at a postsecondary educational institution.

~~6.5.~~ Beginning in the 1999-2000 school year, dropout prevention programs as defined in ss. 1003.52, 1003.53(1)(a), (b), and (c), and 1003.54 shall be included in group 1 programs under subparagraph (d) 3.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) Estimated taxable value calculations.—

1.a. Not later than 2 working days prior to July 19, the Department of Revenue shall certify to the Commissioner of Education its most re-

cent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (15)(b). Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(7) DETERMINATION OF SPARSITY SUPPLEMENT.—

(b) The district sparsity index shall be computed by dividing the total number of full-time equivalent students in all programs in the district by the number of senior high school centers in the district, not in excess of three, which centers are approved as permanent centers by a survey made by the Department of Education. For districts with a full-time equivalent student membership of at least 20,000, but no more than 24,000, the index shall be computed by dividing the total number of full-time equivalent students in all programs by the number of permanent senior high school centers in the district, not *in excess of* ~~to exceed~~ four.

(9) RESEARCH-BASED READING INSTRUCTION ALLOCATION.—

(a) The research-based reading instruction allocation is created to provide comprehensive reading instruction to students in kindergarten through grade 12. For the ~~2016-2017~~ ~~2015-2016~~ fiscal year, in each school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment, priority shall be given to providing an additional hour per day of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in each school. For the ~~2016-2017~~ ~~2015-2016~~ fiscal year, ~~designation of the 300 lowest-performing elementary schools shall be based on the 2015-2016 state reading assessment~~ ~~the same schools as identified for the 2014-2015 fiscal year~~. Students enrolled in these schools who have level 5 assessment scores may participate in the additional hour of instruction on an optional basis. Exceptional student education centers may not be included in the 300 schools. The intensive reading instruction delivered in this additional hour and for other students shall include: research-based reading instruction that has been proven to accelerate progress of students exhibiting a reading deficiency; differentiated instruction based on student assessment data to meet students' specific reading needs; explicit and systematic reading

development in phonemic awareness, phonics, fluency, vocabulary, and comprehension, with more extensive opportunities for guided practice, error correction, and feedback; and the integration of social studies, science, and mathematics-text reading, text discussion, and writing in response to reading.

Section 19. In order to implement Specific Appropriations 7 and 94 of the 2016-2017 General Appropriations Act, paragraph (g) is added to subsection (12) of section 1011.62, Florida Statutes, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(12) FLORIDA DIGITAL CLASSROOMS ALLOCATION.—

(g) *For the 2016-2017 fiscal year, notwithstanding paragraph (c), each school district shall be provided a minimum of \$500,000, with the remaining balance of the allocation to be distributed based on each district's proportion of the total K-12 full-time equivalent enrollment. Each district's digital classrooms allocation plan must give preference to funding the number of devices that comply with the requirements of s. 1001.20(4)(a)1.b. and that are needed to allow each school to administer the Florida Standards Assessments to an entire grade at the same time. If the district's digital classrooms allocation plan does not include the purchase of devices, the district must certify in the plan that the district currently has sufficient devices to allow each school to administer the Florida Standards Assessments in the manner described in this paragraph. This paragraph expires July 1, 2017.*

Section 20. In order to implement Specific Appropriations 7 and 94 of the 2016-2017 General Appropriations Act, and notwithstanding the expiration date in section 9 of chapter 2015-222, Laws of Florida, subsection (13) of section 1011.62, Florida Statutes, is reenacted and amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(13) FEDERALLY CONNECTED STUDENT SUPPLEMENT.—

The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) property, and Indian lands. To be eligible for this supplement, the district must be eligible for federal Impact Aid Program funds under s. 8003 of Title VIII of the Elementary and Secondary Education Act of 1965. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.

(a) The student allocation shall be calculated based on the number of students reported for federal Impact Aid Program funds, including students with disabilities, who meet one of the following criteria:

1. ~~The student has~~ ~~Resides with~~ a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer. Students with disabilities shall also be reported separately for this ~~category~~ ~~condition~~.

2. ~~The student resides on~~ eligible federally owned Indian lands. Students with disabilities shall also be reported separately for this ~~category~~ ~~condition~~.

3. ~~The student resides with a civilian parent who lives or works on~~ eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.

(b) The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately under subparagraphs (a)1. and (a)2. shall be multiplied by an additional

percentage of the base student allocation as provided in the General Appropriations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.

(c) The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).

(d) *This subsection expires July 1, 2017.*

Section 21. In order to implement Specific Appropriations 7 and 94 of the 2016-2017 General Appropriations Act, paragraph (b) of subsection (15) of section 1011.62, Florida Statutes, is amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(15) TOTAL ALLOCATION OF STATE FUNDS TO EACH DISTRICT FOR CURRENT OPERATION.—The total annual state allocation to each district for current operation for the FEFP shall be distributed periodically in the manner prescribed in the General Appropriations Act.

(b) The amount thus obtained shall be the net annual allocation to each school district. However, if it is determined that any school district received an *under allocation or over allocation* ~~underallocation or overallocation~~ for any prior year because of an arithmetical error, assessment roll change required by final judicial decision, full-time equivalent student membership error, or any allocation error revealed in an audit report, the allocation to that district shall be appropriately adjusted. *An under allocation in a prior year caused by a school district's error may not be the basis for a positive allocation adjustment for the current year.* Beginning with the 2011-2012 fiscal year, if a special program cost factor is less than the basic program cost factor, an audit adjustment may not result in the reclassification of the special program FTE to the basic program FTE. If the Department of Education audit adjustment recommendation is based upon controverted findings of fact, the Commissioner of Education is authorized to establish the amount of the adjustment based on the best interests of the state.

Section 22. In order to implement Specific Appropriations 7 and 94 of the 2016-2017 General Appropriations Act, and notwithstanding the expiration date in section 9 of chapter 2015-222, Laws of Florida, subsection (1) of section 1011.71, Florida Statutes, is reenacted to read:

1011.71 District school tax.—

(1) If the district school tax is not provided in the General Appropriations Act or the substantive bill implementing the General Appropriations Act, each district school board desiring to participate in the state allocation of funds for current operation as prescribed by s. 1011.62(15) shall levy on the taxable value for school purposes of the district, exclusive of millage voted under the provisions of s. 9(b) or s. 12, Art. VII of the State Constitution, a millage rate not to exceed the amount certified by the commissioner as the minimum millage rate necessary to provide the district required local effort for the current year, pursuant to s. 1011.62(4)(a)1. In addition to the required local effort millage levy, each district school board may levy a nonvoted current operating discretionary millage. The Legislature shall prescribe annually in the appropriations act the maximum amount of millage a district may levy.

Section 23. *The amendments made by this act to ss. 1011.62(1)(e) and (f), (4)(a) and (e), (7)(b), (9)(a), (12)(g), and (13) and 1011.71, Florida Statutes, expire July 1, 2017, and the text of those sections shall revert to that in existence on June 30, 2015, except that any amendments to such text enacted other than by this act shall be preserved and continue to operate to the extent that such amendments are not dependent upon the portions of text which expire pursuant to this section.*

A postsecondary educational institution or district school board may not require a student enrolled in a state-approved teacher preparation program to purchase liability insurance as a condition of participation in any clinical field experience or related activity on the premises of an elementary or secondary school.*

Section 25. In order to implement Specific Appropriation 103 of the 2016-2017 General Appropriations Act, section 1012.731, Florida Statutes, is created to read:

1012.731 *The Florida Best and Brightest Teacher Scholarship Program.*-

(1) *The Legislature recognizes that, second only to parents, teachers play the most critical role within schools in preparing students to achieve a high level of academic performance. The Legislature further recognizes that research has linked student outcomes to a teacher's own academic achievement. Therefore, it is the intent of the Legislature to designate teachers who have achieved high academic standards during their own education as Florida's best and brightest teacher scholars.*

(2) *There is created the Florida Best and Brightest Teacher Scholarship Program to be administered by the Department of Education. The scholarship program shall provide categorical funding for scholarships to be awarded to classroom teachers, as defined in s. 1012.01(2)(a), who have demonstrated a high level of academic achievement.*

(3)(a) *To be eligible for a scholarship, a classroom teacher must have achieved a composite score at or above the 80th percentile on either the SAT or the ACT based on the National Percentile Ranks in effect when the classroom teacher took the assessment and have been evaluated as highly effective pursuant to s. 1012.34 in the school year immediately preceding the year in which the scholarship will be awarded, unless the classroom teacher is newly hired by the district school board and has not been evaluated pursuant to s. 1012.34.*

(b) *In order to demonstrate eligibility for an award, an eligible classroom teacher must submit to the school district, no later than November 1, an official record of his or her SAT or ACT score demonstrating that the classroom teacher scored at or above the 80th percentile based on the National Percentile Ranks in effect when the teacher took the assessment. Once a classroom teacher is deemed eligible by the school district, including teachers deemed eligible in the 2015-2016 fiscal year, the teacher shall remain eligible as long as he or she remains employed by the school district as a classroom teacher at the time of the award and receives an annual performance evaluation rating of highly effective pursuant to s. 1012.34.*

(4) *Annually, by December 1, each school district shall submit to the department the number of eligible classroom teachers who qualify for the scholarship.*

(5) *Annually, by February 1, the department shall disburse scholarship funds to each school district for each eligible classroom teacher to receive a scholarship as provided in the General Appropriations Act. A scholarship in the amount provided in the General Appropriations Act shall be awarded to every eligible classroom teacher. If the number of eligible classroom teachers exceeds the total appropriation authorized in the General Appropriations Act, the department shall prorate the per-teacher scholarship amount.*

(6) *Annually, by April 1, each school district shall award the scholarship to each eligible classroom teacher.*

(7) For purposes of this section, the term “school district” includes the Florida School for the Deaf and the Blind and charter school governing boards.

1013.64 Funds for comprehensive educational plant needs; construction cost maximums for school district capital projects.—Allocations from the Public Education Capital Outlay and Debt Service Trust Fund to the various boards for capital outlay projects shall be determined as follows:

(3)(a) Each district school board shall receive an amount from the Public Education Capital Outlay and Debt Service Trust Fund to be calculated by computing the capital outlay ~~full-time equivalent~~ membership as determined by the department. Such membership must include, but is not limited to:

1. K-12 students and *prekindergarten exceptional students* for whom the school district provides the educational facility, except hospital- and homebound part-time students; and

2. Students who are career education students, and adult disabled students and who are enrolled in school district career centers.

(b) The capital outlay ~~full-time equivalent~~ membership shall be determined for *prekindergarten exceptional education students*, kindergarten through the 12th grade, and for career centers by *counting the averaging the unweighted full-time equivalent* student membership for the second and third surveys and comparing the results on a school-by-school basis with the Florida Inventory of School Houses. *If the prior academic year’s third survey count is higher than the current year’s second survey count when comparing the results on a school-by-school basis with the Florida Inventory of School Houses, the prior year’s third survey count shall be used on a school-by-school basis for determining the current capital outlay membership. The Florida Inventory of School Houses shall be updated with the current capital outlay membership count as soon as practicable after verification of the capital outlay membership.*

(c) The capital outlay ~~full-time equivalent~~ membership by grade level organization shall be used in making the following calculations. The capital outlay ~~full-time equivalent~~ membership by grade level organization for the 4th prior year must be used to compute the base-year allocation. The capital outlay ~~full-time equivalent~~ membership by grade-level organization for the prior year must be used to compute the growth over the highest of the 3 years preceding the prior year. From the total amount appropriated by the Legislature pursuant to this subsection, 40 percent shall be allocated among the base capital outlay ~~full-time equivalent~~ membership and 60 percent among the growth capital outlay ~~full-time equivalent~~ membership. The allocation within each of these groups shall be prorated to the districts based upon each district’s percentage of base and growth capital outlay full-time membership. The most recent 4-year capital outlay ~~full-time equivalent~~ membership data shall be used in each subsequent year’s calculation for

the allocation of funds pursuant to this subsection. If a change, correction, or recomputation of data during any year results in a reduction or increase of the calculated amount previously allocated to a district, the allocation to that district shall be adjusted *accordingly* ~~correspondingly~~. If such recomputation results in an increase or decrease of the calculated amount, such additional or reduced amounts shall be added to or reduced from the district’s future appropriations. However, no change, correction, or recomputation of data shall be made subsequent to 2 years following the initial annual allocation.

~~(d)(b)~~ Funds accruing to a district school board from the provisions of this section shall be expended on needed projects as shown by survey or surveys under the rules of the State Board of Education.

~~(e)(e)~~ A district school board may lease relocatable educational facilities for up to 3 years using nonbonded PECO funds and for any time period using local capital outlay millage.

~~(f)(d)~~ Funds distributed to the district school boards shall be allocated solely based on the provisions of paragraphs (1)(a) and (2)(a) and ~~paragraphs (a)-(c) paragraph (a)~~ of this subsection. No individual school district projects shall be funded off the top of funds allocated to district school boards.

Section 34. In order to implement Specific Appropriation 90 of the 2016-2017 General Appropriations Act, and notwithstanding s. 1002.69(5), Florida Statutes, for the 2014-2015 and 2015-2016 Voluntary Prekindergarten Education program years, the Office of Early Learning may not adopt a kindergarten readiness rate. Any private prekindergarten provider or public school that was on probation pursuant to s. 1002.67(4)(c), Florida Statutes, for the 2013-2014 program year, shall remain on probation for the 2016-2017 fiscal year. This section expires July 1, 2017.

Section 35. In order to implement Specific Appropriation 7 and 94 of the 2016-2017 General Appropriations Act, paragraph (e) of subsection (4) of section 1011.62, Florida Statutes, is amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(e) Prior period funding adjustment millage.—

1. There shall be an additional millage to be known as the Prior Period Funding Adjustment Millage levied by a school district if the prior period unrealized required local effort funds are greater than zero. The Commissioner of Education shall calculate the amount of the prior period unrealized required local effort funds as specified in subparagraph 2. and the millage required to generate that amount as specified in this subparagraph. The Prior Period Funding Adjustment Millage shall be the quotient of the prior period unrealized required local effort funds divided by the current year taxable value certified to the Commissioner of Education pursuant to sub-subparagraph (a)1.a. This levy shall be in addition to the required local effort millage certified pursuant to this subsection. Such millage shall not affect the calculation of the current year's required local effort, and the funds generated by such levy shall not be included in the district's Florida Education Finance Program allocation for that fiscal year. For purposes of the millage to be included on the Notice of Proposed Taxes, the Commissioner of Education shall adjust the required local effort millage computed pursuant to paragraph (a) as adjusted by paragraph (b) for the current year for any district that levies a Prior Period Funding Adjustment Millage to include all Prior Period Funding Adjustment Millage. For the purpose of this paragraph, there shall be a Prior Period Funding Adjustment Millage levied for each year certified by the Department of Revenue pursuant to sub-subparagraph (a)2.a. since the previous year certification and for which the calculation in sub-subparagraph 2.b. is greater than zero.

2.a. As used in this subparagraph, the term:

(I) "Prior year" means a year certified under sub-subparagraph (a) 2.a.

(II) "Preliminary taxable value" means:

(A) If the prior year is the 2009-2010 fiscal year or later, the taxable value certified to the Commissioner of Education pursuant to sub-subparagraph (a)1.a.

(B) If the prior year is the 2008-2009 fiscal year or earlier, the taxable value certified pursuant to the final calculation as specified in former paragraph (b) as that paragraph existed in the prior year.

(III) "Final taxable value" means the district's taxable value as certified by the property appraiser pursuant to s. 193.122(2) or (3), if applicable. This is the certification that reflects all final administrative actions of the value adjustment board.

b. For purposes of this subsection and with respect to each year certified pursuant to sub-subparagraph (a)2.a., if the district's prior year preliminary taxable value is greater than the district's prior year final taxable value, the prior period unrealized required local effort funds are the difference between the district's prior year preliminary taxable value and the district's prior year final taxable value, multiplied by the prior year district required local effort millage. If the district's prior year preliminary taxable value is less than the district's prior year final taxable value, the prior period unrealized required local effort funds are zero.

c. For the 2016-2017 ~~2015-2016~~ fiscal year only, if a district's prior period unrealized required local effort funds and prior period district

required local effort millage cannot be determined because such district's final taxable value has not yet been certified pursuant to s. 193.122(2) or (3), for the 2016 ~~2015~~ tax levy, the Prior Period Funding Adjustment Millage for such fiscal year shall be levied, if not previously levied, in 2016 ~~2015~~ in an amount equal to 75 percent of such district's most recent unrealized required local effort for which a Prior Period Funding Adjustment Millage was determined as provided in this section. Upon certification of the final taxable value in accordance with s. 193.122(2) or (3), for a ~~for the 2012, 2013, or 2014~~ tax roll for which a 75 percent Prior Period Funding Adjustment Millage was levied ~~rolls in accordance with s. 193.122(2) or (3)~~, the Prior Period Funding Adjustment Millage levied in 2015 and 2016 shall be adjusted to include any shortfall or surplus in the prior period unrealized required local effort funds that would have been levied in 2014 or 2015, had the district's final taxable value been certified pursuant to s. 193.122(2) or (3) ~~for the 2014 or 2015 tax levy~~. If this adjustment is made for a surplus, the reduction in prior period millage may not exceed the prior period funding adjustment millage calculated pursuant to subparagraph 1. and sub-subparagraphs a. and b., or pursuant to this sub-subparagraph, whichever is applicable, and any additional reduction shall be carried forward to the subsequent fiscal year.

moneys from one or more of the other trust funds to a land acquisition trust fund in the Department of Agriculture and Consumer Services, the Department of Environmental Protection, the Department of State, or the Fish and Wildlife Conservation Commission. (2) *After subtracting any required debt service payments, the proportionate share of revenues to be transferred to each land acquisition trust fund shall be calculated by dividing the appropriations from each of the land acquisition trust funds for the fiscal year by the total appropriations from the Land Acquisition Trust Fund within the department and the land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Commission for the fiscal year. The department shall transfer the proportionate share of the revenues in the Land Acquisition Trust Fund within the department on a monthly basis to the appropriate land acquisition trust funds within the Department of Agriculture and Consumer Services, the Department of State, and the Fish and Wildlife Commission and shall retain its proportionate share of the revenues in the Land Acquisition Trust Fund within the department. (2) In providing for reimbursement of pharmacies for prescription medicines dispensed to members of the state group health insurance plan and their dependents under the state employees' prescription drug program:

(a) Retail pharmacies participating in the program must be reimbursed at a uniform rate and subject to uniform conditions, according to the terms and conditions of the plan.

DISCLOSURE

I have an ownership interest in Caregivers Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **HB 5001**, **HB 5003**, and **HB 5101** which come before the Senate for a vote on March 11, 2016.

Therefore, I believe that, because Caregivers Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Conferees on the part of the Senate

The Conference Committee Amendment for HB 5005, relating to the Florida Retirement System (FRS), provides for the following:

Section 1 corrects the name of the trust fund which receives the employer-paid assessments for administrative and educational costs associated with the Florida Retirement System (FRS). The correct name is the Administrative Trust Fund rather than the FRS Investment Plan Trust Fund.

Section 2 sets the employer-paid contributions to the Florida Retirement System Trust Fund for each membership class of the FRS.

Section 3 increases the employer contribution to the State Board of Administration's Administrative Trust Fund from 0.04 percent of payroll to 0.06 percent of payroll. These revenues are used to offset the costs of administering the investment plan as well as providing educational services to all FRS members.

Section 4 provides findings that the bill fulfills important state interests.

Conference Committee Amendment (042689) (with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Paragraph (c) of subsection (5) of section 121.4501, Florida Statutes, is amended to read:

121.4501 Florida Retirement System Investment Plan.—

(5) CONTRIBUTIONS.—

(c) The state board, acting as plan fiduciary, must ensure that all plan assets are held in a trust, pursuant to s. 401 of the Internal Revenue Code. The fiduciary must ensure that such contributions are allocated as follows:

1. The employer and employee contribution portion earmarked for member accounts shall be used to purchase interests in the appropriate investment vehicles as specified by the member, or in accordance with paragraph (4)(d).

2. The employer contribution portion earmarked for administrative and educational expenses shall be transferred to the *state board's Administrative Florida Retirement System Investment Plan* Trust Fund.

3. The employer contribution portion earmarked for disability benefits shall be transferred to the Florida Retirement System Trust Fund.

Section 2. Subsections (4) and (5) of section 121.71, Florida Statutes, are amended to read:

(5) In order to address unfunded actuarial liabilities of the system, the required employer retirement contribution rates for each membership class and subclass of the Florida Retirement System for both retirement plans are as follows:

Effective July 1, 2014, the employer assessment is 0.04 percent of the payroll reported for each class or subclass of membership. *Effective July 1, 2016, the employer assessment is 0.06 percent of the payroll reported for each class or subclass of membership.* The amount assessed shall be transferred by the Division of Retirement from the Florida Retirement System Contributions Clearing Trust Fund to the State Board of Administration's Administrative Trust Fund to offset the costs of administering the investment plan and the costs of providing educational services to members of the Florida Retirement System. Approval of the trustees is required before the expenditure of these funds. Payments for third-party administrative or educational expenses shall be made only pursuant to the terms of the approved contracts for such services.

These persons*

must be provided benefits that are fair and adequate and that are managed, administered, and funded in an actuarially sound manner, as required by s. 14, Article X of the State Constitution and part VII of chapter 112, Florida Statutes. Conferees on the part of the Senate

The Conference Committee Amendment for HB 5101, relating to health care services, provides for the following:

Section 1 amends s. 322.142, F.S., to authorize, effective upon the bill becoming law, the Dept. of Highway Safety and Motor Vehicles to allow the Agency for Health Care Administration (AHCA), via inter-agency agreement, to access photographic images of driver licenses for the purpose of preventing health care fraud. The bill authorizes AHCA to contract with a private entity to carry out duties relating to health care fraud prevention under specified safeguards and parameters.

Section 2 amends s. 409.9128, F.S., to provide that reimbursement for emergency services provided to an enrollee of a Medicaid managed care plan by a provider that is not under contract with the managed care plan must be the lesser of specified amounts, including the Medicaid rate as provided in s. 409.967(2)(b), F.S.

Section 3 amends s. 395.602, F.S., to provide that a hospital classified as a sole community hospital which has up to 175 licensed beds is included in the definition of "rural hospital."

Section 4 amends s. 409.285, F.S., to transfer from the Dept. of Children and Families (DCF) to AHCA the responsibility for conducting Medicaid fair hearings related to Medicaid programs administered by AHCA, by March 1, 2017. Provides for rulemaking by AHCA. Provides that AHCA will use DCF's existing fair hearing rules if AHCA's rulemaking is not completed by March 1, 2017.

Section 5 amends definitions under s. 409.811, F.S., to permit certain non-citizen children to receive federal financial premium assistance under Medicaid or the Children's Health Insurance Program (CHIP).

Section 6 amends s. 409.814, F.S., to replace a reference to "qualified alien" with a reference to "lawfully residing child" when referring to children who are not eligible for Title XXI funded premium assistance. The bill also clarifies that Kidcare program eligibility is not being extended to undocumented immigrants.

Section 7 amends s. 409.904, F.S., to provide that a child younger than 19 years of age who is a lawfully residing child, as defined ins. 409.811, F.S., is eligible for Medicaid under s. 409.903, F.S. The bill also clarifies that Medicaid eligibility is not being extended to undocumented immigrants.

Section 8 amends s. 409.905(5), F.S., to delete the requirement for the AHCA to limit payment for hospital emergency department visits

for non-pregnant Medicaid recipients 21 years of age or older to six visits per fiscal year.

Section 9 amends s. 409.905(6), F.S., effective July 1, 2017, to require AHCA to implement a prospective payment methodology for hospital outpatient reimbursement, thereby replacing the current cost-based reimbursement methodology on that date. Provides that adjustments to outpatient reimbursements may not be made later than July 31 of the year in which they take effect.

Section 10 amends s. 409.906, F.S., to require AHCA to seek federal approval to pay for flexible services for persons with severe mental illness or substance abuse disorders, including, but not limited to, temporary housing assistance. Payment for such services may be made as enhanced rates or incentive payments to managed care plans within Statewide Medicaid Managed Care.

Section 11 amends s. 393.063, F.S., to add Down syndrome and Phelan-McDermid syndrome to the list of disorders that define "developmental disability."

Section 12 amends s. 393.063, F.S., to provide a definition of Phelan-McDermid syndrome.

Section 13 amends s. 393.065, F.S., to revise the parameters used by the Agency for Persons with Disabilities (APD) to assign priority to clients waiting for services from the developmental disability waiver.

Section 14 provides that, in the event HB 1083 or similar legislation does not become law during the 2016 legislative session or an extension thereof, s. 393.0662, F.S., is amended to add a significant need for transportation services relating to adult day training or employment services to the list of needs in current law for which the APD may authorize an increase in iBudget funding if the need that cannot be accommodated within previously approved funding, under specified parameters.

Section 15 provides that, in the event HB 1083 or similar legislation does not become law during the 2016 legislative session or an extension thereof, notwithstanding the expiration date in section 24 of ch. 2015-222, Laws of Florida, s. 393.067(15), F.S., is reenacted.

Section 16 provides that, in the event HB 1083 or similar legislation does not become law during the 2016 legislative session or an extension thereof, notwithstanding the expiration date in section 26 of ch. 2015-222, Laws of Florida, s. 393.18, F.S., is reenacted.

Section 17 amends s. 409.907, F.S., to authorize AHCA to certify that a Medicaid provider is out of business and that any overpayments made to the provider cannot be collected under state law.

Section 18 creates s. 409.9072, F.S., to authorize AHCA to reimburse private schools and charter schools for providing Medicaid school-based services identical to those offered under the Medicaid certified school match program and under the same eligibility criteria as children eligible for services under that program.

Section 19 amends s. 409.908, F.S., to add class III psychiatric hospitals to the current list of facilities for which AHCA is authorized to establish an alternative reimbursement methodology to the DRG-based prospective payment system otherwise required under state law. The bill also provides that, effective July 1, 2017, AHCA is required to reimburse ambulatory surgical centers with a prospective payment system, thereby replacing the current cost-based reimbursement methodology on that date.

Section 20 amends s. 409.909, F.S., relating to the Statewide Medicaid Residency Program (SMRP), to:

- Add psychiatry to the current list of primary care specialties;
- Provide that federally qualified health centers are qualifying institutions for the purpose of receiving funds for residency slots through the SMRP;
- Require that hospitals applying for the start-up bonus component of the SMRP must submit to AHCA certain validations of new resident positions approved on or after March 2 of the prior fiscal year through March 1 of the current fiscal year for physician specialties identified to be in statewide supply/demand deficit in the General Appropriations Act; and

- Revise the definition of “Medicaid payments,” effective July 1, 2017, in order to conform to the transition to a prospective payment system for hospital outpatient reimbursement on that date.

Section 21 amends s. 409.967(2), F.S., regarding payments required of a managed care plan within the Statewide Medicaid Managed Care program to a non-contracted provider that has rendered emergency services to a member of the managed care plan. The bill conforms this statute to federal law by specifying that such payments may be no more than the Medicaid fee-for-service rate, less any amounts for indirect costs of medical education and direct costs of graduate medical education that are otherwise included in the fee-for-service payment. The bill also requires AHCA to post on its website annually, or more frequently as needed, the applicable fee-for-service fee schedules and their effective dates, less any amounts for indirect costs of medical education and direct costs of graduate medical education that would otherwise be included in the fee-for-service payments.

Section 22 amends s. 409.968, F.S., to require AHCA to establish a payment methodology to fund managed care plans within Statewide Medicaid Managed Care for flexible services for persons with severe mental illness and substance abuse disorders, including, but not limited to, temporary housing assistance. After receiving such payments for at least one year, a managed care plan must document the results of its efforts to maintain the target population in stable housing up to the maximum duration allowed under federal approval.

Section 23 amends s. 409.975, F.S., to

- Clarify that the term “essential provider” includes providers determined to be essential Medicaid providers under s. 409.975(1)(a), F.S., and providers specified as statewide essential providers under s. 409.975(1)(b), F.S., for the purpose of applying the criteria for excluding an essential provider from a managed care plan network for failure to meet quality or performance standards under s. 409.975(1)(c), F.S.;
- Provide a cross-reference to changes made in Section 21 of the bill regarding payments required of a managed care plan within the Statewide Medicaid Managed Care program to a non-contracted provider that has rendered emergency services to a member of the managed care plan; and
- Delete the provision in s. 409.975(6), F.S., requiring that for rates, methods, and terms of payment negotiated after a Statewide Medicaid Managed Care contract between AHCA and a managed care plan has been executed, the managed care plan must pay hospitals within its provider networks, at a minimum, the rate that AHCA would have paid on the first day of the contract between the provider and the plan.

Section 24 amends s. 624.91, F.S., the Florida Healthy Kids Corporation Act, to conform to changes made under the bill and update references to modified or deleted terms.

Section 25 amends s. 641.513, F.S., to provide that, as part of the Florida Insurance Code, the amount of reimbursement paid by a health maintenance organization (HMO) to a non-contracted provider for emergency services provided to a member of the HMO who is a Medicaid recipient, will be determined under ch. 409. The bill also provides that the amount of reimbursement for emergency services provided to subscribers who are enrolled in an HMO pursuant to the Florida Healthy Kids program by a provider for whom no contract exists between the provider and the HMO, will be the lesser of specified amounts, including the Medicaid rate.

Section 26 amends s. 18 of ch. 2012-33, Laws of Florida, to require AHCA to contract with a current Program of All-inclusive Care for the Elderly (PACE) organization in Southeast Florida to develop and operate a PACE program in Broward County to serve frail elders who reside in Broward County or Miami-Dade County with up to 150 initial enrollee slots. Under the current language in ch. 2012-33, Laws of Florida, the provision of services is limited to frail elders residing in Broward County.

Section 27 authorizes a new PACE site to serve frail elders residing in hospice service area 1 (Escambia, Okaloosa, Santa Rosa, and Walton counties), hospice service area 2A (Bay, Calhoun, Gulf, Holmes, Jackson, and Washington counties), and hospice service area 2B (Franklin,

Gadsden, Jefferson, Leon, Liberty, Madison, Taylor, and Wakulla counties) with up to 100 initial enrollee slots.

Section 28 authorizes a new PACE site to serve frail elders residing in Clay, Duval, St. Johns, Baker, and Nassau counties with up to 300 initial enrollee slots.

Section 29 authorizes a new PACE site to serve frail elders residing in hospice service area 7B (Orange and Osceola counties) and hospice service area 3E (Lake and Sumter counties) with up to 150 initial enrollee slots.

Section 30 authorizes a new PACE site to serve frail elders residing in Hillsborough County with up to 150 initial enrollee slots.

Section 31 amends s. 391.055, F.S., to update a cross-reference to changes made in the bill.

Section 32 amends 427.0135, F.S., to update a cross-reference to changes made in the bill.

Section 33 amends s. 1002.385, F.S., to provide cross-references to changes made in the bill.

Section 34 amends s. 1011.70, F.S., to correct cross-references to changes made in the bill.

Section 35 provides that, except as otherwise provided, the bill takes effect July 1, 2016.

The agency may limit prior authorization for hospital inpatient services to selected diagnosis-related groups, based on an analysis of the cost and potential for unnecessary hospitalizations represented by certain diagnoses. Admissions for normal delivery and newborns are exempt from requirements for prior authorization. In implementing the provisions of this section related to prior authorization, the agency shall

ensure that the process for authorization is accessible 24 hours per day, 7 days per week and authorization is automatically granted when not denied within 4 hours after the request. Authorization procedures must include steps for review of denials. Upon implementing the prior authorization program for hospital inpatient services, the agency shall discontinue its hospital retrospective review program.

(b) A licensed hospital maintained primarily for the care and treatment of patients having mental disorders or mental diseases is not eligible to participate in the hospital inpatient portion of the Medicaid program except as provided in federal law. However, the department shall apply for a waiver, within 9 months after June 5, 1991, designed to provide hospitalization services for mental health reasons to children and adults in the most cost-effective and lowest cost setting possible. Such waiver shall include a request for the opportunity to pay for care in hospitals known under federal law as “institutions for mental disease” or “IMD’s.” The waiver proposal shall propose no additional aggregate cost to the state or Federal Government, and shall be conducted in Hillsborough County, Highlands County, Hardee County, Manatee County, and Polk County. The waiver proposal may incorporate competitive bidding for hospital services, comprehensive brokering, prepaid capitated arrangements, or other mechanisms deemed by the department to show promise in reducing the cost of acute care and increasing the effectiveness of preventive care. When developing the waiver proposal, the department shall take into account price, quality, accessibility, linkages of the hospital to community services and family support programs, plans of the hospital to ensure the earliest discharge possible, and the comprehensiveness of the mental health and other health care services offered by participating providers.

(c) The agency shall implement a prospective payment methodology for establishing reimbursement rates for inpatient hospital services. Rates shall be calculated annually and take effect July 1 of each year. The methodology shall categorize each inpatient admission into a diagnosis-related group and assign a relative payment weight to the base rate according to the average relative amount of hospital resources used to treat a patient in a specific diagnosis-related group category. The agency may adopt the most recent relative weights calculated and made available by the Nationwide Inpatient Sample maintained by the Agency for Healthcare Research and Quality or may adopt alternative weights if the agency finds that Florida-specific weights deviate with statistical significance from national weights for high-volume diagnosis-related groups. The agency shall establish a single, uniform base rate for all hospitals unless specifically exempt pursuant to s. 409.908(1).

1. Adjustments may not be made to the rates after October 31 of the state fiscal year in which the rates take effect, except for cases of insufficient collections of intergovernmental transfers authorized under s. 409.908(1) or the General Appropriations Act. In such cases, the agency shall submit a budget amendment or amendments under chapter 216 requesting approval of rate reductions by amounts necessary for the aggregate reduction to equal the dollar amount of intergovernmental transfers not collected and the corresponding federal match. Notwithstanding the \$1 million limitation on increases to an approved operating budget contained in ss. 216.181(11) and 216.292(3), a budget amendment exceeding that dollar amount is subject to notice and objection procedures set forth in s. 216.177.

2. Errors in source data or calculations discovered after October 31 must be reconciled in a subsequent rate period. However, the agency may not make any adjustment to a hospital’s reimbursement more than 5 years after a hospital is notified of an audited rate established by the agency. The prohibition against adjustments more than 5 years after notification is remedial and applies to actions by providers involving Medicaid claims for hospital services. Hospital reimbursement is subject to such limits or ceilings as may be established in law or described in the agency’s hospital reimbursement plan. Specific exemptions to the limits or ceilings may be provided in the General Appropriations Act.

(d) The agency shall implement a comprehensive utilization management program for hospital neonatal intensive care stays in certain high-volume participating hospitals, select counties, or statewide, and replace existing hospital inpatient utilization management programs for neonatal intensive care admissions. The program shall be designed to manage appropriate admissions and discharges for children being treated in neonatal intensive care units and must seek medically appropriate discharge to the child’s home or other less costly treatment setting. The agency may competitively bid a contract for the selection of

a qualified organization to provide neonatal intensive care utilization management services. The agency may seek federal waivers to implement this initiative.

(e) The agency may develop and implement a program to reduce the number of hospital readmissions among the non-Medicare population eligible in areas 9, 10, and 11.

Section 9. Effective July 1, 2017, paragraph (b) of subsection (6) of section 409.905, Florida Statutes, is amended to read:

409.905 Mandatory Medicaid services.—The agency may make payments for the following services, which are required of the state by Title XIX of the Social Security Act, furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any service under this section shall be provided only when medically necessary and in accordance with state and federal law. Mandatory services rendered by providers in mobile units to Medicaid recipients may be restricted by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, number of services, or any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216.

(6) HOSPITAL OUTPATIENT SERVICES.—

(b) The agency shall implement a *prospective payment* methodology for establishing base reimbursement rates for outpatient hospital services for each hospital based on allowable costs, as defined by the agency. Rates shall be calculated annually and take effect July 1, 2017, and July 1 of each year thereafter. The methodology shall categorize the amount and type of services used in various ambulatory visits which group together procedures and medical visits that share similar characteristics and resource utilization based on the most recent complete and accurate cost report submitted by each hospital.

1. Adjustments may not be made to the rates after July 31 October 31 of the state fiscal year in which the rates take effect, except for cases of insufficient collections of intergovernmental transfers authorized under s. 409.908(1) or the General Appropriations Act. In such cases, the agency shall submit a budget amendment or amendments under chapter 216 requesting approval of rate reductions by amounts necessary for the aggregate reduction to equal the dollar amount of intergovernmental transfers not collected and the corresponding federal match. Notwithstanding the \$1 million limitation on increases to an approved operating budget under ss. 216.181(11) and 216.292(3), a budget amendment exceeding that dollar amount is subject to notice and objection procedures set forth in s. 216.177.

2. Errors in source data or calculations discovered after July 31 of each state fiscal year October 31 must be reconciled in a subsequent rate period. However, the agency may not make any adjustment to a hospital's reimbursement more than 5 years after a hospital is notified of an audited rate established by the agency. The prohibition against adjustments more than 5 years after notification is remedial and applies to actions by providers involving Medicaid claims for hospital services. Hospital reimbursement is subject to such limits or ceilings as may be established in law or described in the agency's hospital reimbursement plan. Specific exemptions to the limits or ceilings may be provided in the General Appropriations Act.

Section 10. Paragraph (e) is added to subsection (13) of section 409.906, Florida Statutes, to read:

409.906 Optional Medicaid services.—Subject to specific appropriations, the agency may make payments for services which are optional to the state under Title XIX of the Social Security Act and are furnished by Medicaid providers to recipients who are determined to be eligible on the dates on which the services were provided. Any optional service that is provided shall be provided only when medically necessary and in accordance with state and federal law. Optional services rendered by providers in mobile units to Medicaid recipients may be restricted or prohibited by the agency. Nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in

the General Appropriations Act or chapter 216. If necessary to safeguard the state's systems of providing services to elderly and disabled persons and subject to the notice and review provisions of s. 216.177, the Governor may direct the Agency for Health Care Administration to amend the Medicaid state plan to delete the optional Medicaid service known as "Intermediate Care Facilities for the Developmentally Disabled." Optional services may include:

(13) HOME AND COMMUNITY-BASED SERVICES.—

(e) The agency shall seek federal approval to pay for flexible services for persons with severe mental illness or substance use disorders, including, but not limited to, temporary housing assistance. Payments may be made as enhanced capitation rates or incentive payments to managed care plans that meet the requirements of s. 409.968(4).

Section 11. Subsection (9) of section 393.063, Florida Statutes, is amended to read:

393.063 Definitions.—For the purposes of this chapter, the term:

(9) "Developmental disability" means a disorder or syndrome that is attributable to intellectual disability, cerebral palsy, autism, spina bifida, *Down syndrome*, *Phelan-McDermid syndrome*, or Prader-Willi syndrome; that manifests before the age of 18; and that constitutes a substantial handicap that can reasonably be expected to continue indefinitely.

Section 12. Subsections (25) through (41) of section 393.063, Florida Statutes, are renumbered as subsections (26) through (42), respectively, and a new subsection (25) is added to that section to read:

393.063 Definitions.—For the purposes of this chapter, the term:

(25) "*Phelan-McDermid syndrome*" means a disorder caused by the loss of the terminal segment of the long arm of chromosome 22, which occurs near the end of the chromosome at a location designated q13.3, typically leading to developmental delay, intellectual disability, dolicocephaly, hypotonia, or absent or delayed speech.

Section 13. Paragraphs (a) and (b) of subsection (5) of section 393.065, Florida Statutes, are amended, subsections (6) and (7) are renumbered as subsections (9) and (10), respectively, present subsection (7) is amended, and new subsections (6), (7), and (8) are added to that section, to read:

393.065 Application and eligibility determination.—

(5) Except as otherwise directed by law, beginning July 1, 2010, The agency shall assign and provide priority to clients waiting for waiver services in the following order:

(a) Category 1, which includes clients deemed to be in crisis as described in rule, shall be given first priority in moving from the waiting list to the waiver.

(b) Category 2, which includes individuals on the waiting children on the wait list who are:

1. From the child welfare system with an open case in the Department of Children and Families' statewide automated child welfare information system and who are either:

a. Transitioning out of the child welfare system at the finalization of an adoption, a reunification with family members, a permanent placement with a relative, or a guardianship with a nonrelative; or

b. At least 18 years but not yet 22 years of age and who need both waiver services and extended foster care services; or

2. At least 18 years but not yet 22 years of age and who withdrew consent pursuant to s. 39.6251(5)(c) to remain in the extended foster care system.

For individuals who are at least 18 years but not yet 22 years of age and who are eligible under sub-subparagraph 1.b., the agency shall provide waiver services, including residential habilitation, and the community-based care lead agency shall fund room and board at the rate established in s. 409.145(4) and provide case management and related services as

defined in s. 409.986(3)(e). Individuals may receive both waiver services and services under s. 39.6251. Services may not duplicate services available through the Medicaid state plan.

Within categories 3, 4, 5, 6, and 7, the agency shall maintain a wait list of clients placed in the order of the date that the client is determined eligible for waiver services.

(6) The agency shall allow an individual who meets the eligibility requirements of subsection (1) to receive home and community-based services in this state if the individual's parent or legal guardian is an active-duty military servicemember and if, at the time of the servicemember's transfer to this state, the individual was receiving home and community-based services in another state.

(7) The agency shall allow an individual with a diagnosis of Phelan-McDermid syndrome who meets the eligibility requirements of subsection (1) to receive home and community-based services.

(8) Agency action that selects individuals to receive waiver services pursuant to this section does not establish a right to a hearing or an administrative proceeding under chapter 120 for individuals remaining on the waiting list.

(9)(7) The agency and the Agency for Health Care Administration may adopt rules specifying application procedures, criteria associated with the waiting list ~~wait list~~ categories, procedures for administering the waiting ~~wait~~ list, including tools for prioritizing waiver enrollment within categories, and eligibility criteria as needed to administer this section.

Section 14. If CS/CS/HB 1083 or similar legislation adopted at the 2016 Regular Session of the Legislature or an extension thereof amending paragraph (b) of subsection (1) of section 393.0662, Florida Statutes, fails to become law, paragraph (b) of subsection (1) of section 393.0662, Florida Statutes, is amended to read:

393.0662 Individual budgets for delivery of home and community-based services; iBudget system established.—The Legislature finds that improved financial management of the existing home and community-based Medicaid waiver program is necessary to avoid deficits that impede the provision of services to individuals who are on the waiting list for enrollment in the program. The Legislature further finds that clients and their families should have greater flexibility to choose the services that best allow them to live in their community within the limits of an established budget. Therefore, the Legislature intends that the agency, in consultation with the Agency for Health Care Administration, develop and implement a comprehensive redesign of the service delivery system using individual budgets as the basis for allocating the funds appropriated for the home and community-based services Medicaid waiver program among eligible enrolled clients. The service delivery system that uses individual budgets shall be called the iBudget system.

(1) The agency shall establish an individual budget, referred to as an iBudget, for each individual served by the home and community-based services Medicaid waiver program. The funds appropriated to the agency shall be allocated through the iBudget system to eligible, Medicaid-enrolled clients. For the iBudget system, eligible clients shall include individuals with a diagnosis of Down syndrome or a developmental disability as defined in s. 393.063. The iBudget system shall be designed to provide for: enhanced client choice within a specified service package; appropriate assessment strategies; an efficient consumer budgeting and billing process that includes reconciliation and monitoring components; a redefined role for support coordinators that avoids potential conflicts of interest; a flexible and streamlined service review process; and a methodology and process that ensures the equitable allocation of available funds to each client based on the client's level of need, as determined by the variables in the allocation algorithm.

(b) The allocation methodology shall provide the algorithm that determines the amount of funds allocated to a client's iBudget. The agency may approve an increase in the amount of funds allocated, as determined by the algorithm, based on the client having one or more of the following needs that cannot be accommodated within the funding as determined by the algorithm and having no other resources, supports, or services available to meet the need:

1. An extraordinary need that would place the health and safety of the client, the client's caregiver, or the public in immediate, serious jeopardy unless the increase is approved. An extraordinary need may include, but is not limited to:

a. A documented history of significant, potentially life-threatening behaviors, such as recent attempts at suicide, arson, nonconsensual sexual behavior, or self-injurious behavior requiring medical attention;

b. A complex medical condition that requires active intervention by a licensed nurse on an ongoing basis that cannot be taught or delegated to a nonlicensed person;

c. A chronic comorbid condition. As used in this subparagraph, the term "comorbid condition" means a medical condition existing simultaneously but independently with another medical condition in a patient; or

d. A need for total physical assistance with activities such as eating, bathing, toileting, grooming, and personal hygiene.

However, the presence of an extraordinary need alone does not warrant an increase in the amount of funds allocated to a client's iBudget as determined by the algorithm.

2. A significant need for one-time or temporary support or services that, if not provided, would place the health and safety of the client, the client's caregiver, or the public in serious jeopardy, unless the increase is approved. A significant need may include, but is not limited to, the provision of environmental modifications, durable medical equipment, services to address the temporary loss of support from a caregiver, or special services or treatment for a serious temporary condition when the service or treatment is expected to ameliorate the underlying condition. As used in this subparagraph, the term "temporary" means a period of fewer than 12 continuous months. However, the presence of such significant need for one-time or temporary supports or services alone does not warrant an increase in the amount of funds allocated to a client's iBudget as determined by the algorithm.

3. A significant increase in the need for services after the beginning of the service plan year that would place the health and safety of the client, the client's caregiver, or the public in serious jeopardy because of substantial changes in the client's circumstances, including, but not limited to, permanent or long-term loss or incapacity of a caregiver, loss of services authorized under the state Medicaid plan due to a change in age, or a significant change in medical or functional status which requires the provision of additional services on a permanent or long-term basis that cannot be accommodated within the client's current iBudget. As used in this subparagraph, the term "long-term" means a period of 12 or more continuous months. However, such significant increase in need for services of a permanent or long-term nature alone does not warrant an increase in the amount of funds allocated to a client's iBudget as determined by the algorithm.

4. A significant need for transportation services to a waiver-funded adult day training program or to waiver-funded employment services when such need cannot be accommodated within a client's iBudget as determined by the algorithm without affecting the health and safety of the client, if public transportation is not an option due to the unique needs of the client or other transportation resources are not reasonably available.

The agency shall reserve portions of the appropriation for the home and community-based services Medicaid waiver program for adjustments required pursuant to this paragraph and may use the services of an independent actuary in determining the amount of the portions to be reserved.

Section 15. If CS/CS/HB 1083 or similar legislation adopted at the 2016 Regular Session of the Legislature or an extension thereof amending subsection (15) of section 393.067, Florida Statutes, fails to become law, notwithstanding the expiration date in section 24 of chapter 2015-222, Laws of Florida, subsection (15) of section 393.067, Florida Statutes, is reenacted to read:

393.067 Facility licensure.—

(15) The agency is not required to contract with facilities licensed pursuant to this chapter.

Section 16. If CS/CS/HB 1083 or similar legislation adopted at the 2016 Regular Session of the Legislature or an extension thereof amending section 393.18, Florida Statutes, fails to become law, notwithstanding the expiration date in section 26 of chapter 2015-222, Laws of Florida, section 393.18, Florida Statutes, is reenacted to read:

393.18 Comprehensive transitional education program.—A comprehensive transitional education program is a group of jointly operating centers or units, the collective purpose of which is to provide a sequential series of educational care, training, treatment, habilitation, and rehabilitation services to persons who have developmental disabilities and who have severe or moderate maladaptive behaviors. However, this section does not require such programs to provide services only to persons with developmental disabilities. All such services shall be temporary in nature and delivered in a structured residential setting, having the primary goal of incorporating the principle of self-determination in establishing permanent residence for persons with maladaptive behaviors in facilities that are not associated with the comprehensive transitional education program. The staff shall include behavior analysts and teachers, as appropriate, who shall be available to provide services in each component center or unit of the program. A behavior analyst must be certified pursuant to s. 393.17.

(1) Comprehensive transitional education programs shall include a minimum of two component centers or units, one of which shall be an intensive treatment and educational center or a transitional training and educational center, which provides services to persons with maladaptive behaviors in the following sequential order:

(a) Intensive treatment and educational center.—This component is a self-contained residential unit providing intensive behavioral and educational programming for persons with severe maladaptive behaviors whose behaviors preclude placement in a less restrictive environment due to the threat of danger or injury to themselves or others. Continuous-shift staff shall be required for this component.

(b) Transitional training and educational center.—This component is a residential unit for persons with moderate maladaptive behaviors providing concentrated psychological and educational programming that emphasizes a transition toward a less restrictive environment. Continuous-shift staff shall be required for this component.

(c) Community transition residence.—This component is a residential center providing educational programs and any support services, training, and care that are needed to assist persons with maladaptive behaviors to avoid regression to more restrictive environments while preparing them for more independent living. Continuous-shift staff shall be required for this component.

(d) Alternative living center.—This component is a residential unit providing an educational and family living environment for persons with maladaptive behaviors in a moderately unrestricted setting. Residential staff shall be required for this component.

(e) Independent living education center.—This component is a facility providing a family living environment for persons with maladaptive behaviors in a largely unrestricted setting and includes education and monitoring that is appropriate to support the development of independent living skills.

(2) Components of a comprehensive transitional education program are subject to the license issued under s. 393.067 to a comprehensive transitional education program and may be located on a single site or multiple sites.

(3) Comprehensive transitional education programs shall develop individual education plans for each person with maladaptive behaviors who receives services from the program. Each individual education plan shall be developed in accordance with the criteria specified in 20 U.S.C. ss. 401 et seq., and 34 C.F.R. part 300.

(4) For comprehensive transitional education programs, the total number of residents who are being provided with services may not in any instance exceed the licensed capacity of 120 residents and each residential unit within the component centers of the program authorized under this section may not in any instance exceed 15 residents. However, a program that was authorized to operate residential units

with more than 15 residents before July 1, 2015, may continue to operate such units.

Section 17. Subsection (12) of section 409.907, Florida Statutes, is renumbered as subsection (13), and a new subsection (12) is added to that subsection to read:

409.907 Medicaid provider agreements.—The agency may make payments for medical assistance and related services rendered to Medicaid recipients only to an individual or entity who has a provider agreement in effect with the agency, who is performing services or supplying goods in accordance with federal, state, and local law, and who agrees that no person shall, on the grounds of handicap, race, color, or national origin, or for any other reason, be subjected to discrimination under any program or activity for which the provider receives payment from the agency.

(12) *In accordance with 42 C.F.R. s. 433.318(d)(2)(ii), the agency may certify that a provider is out of business and that any overpayments made to the provider cannot be collected under state law.*

Section 18. Section 409.9072, Florida Statutes, is created to read:

409.9072 *Medicaid provider agreements for charter schools and private schools.—*

(1) *Subject to a specific appropriation by the Legislature, the agency shall reimburse private schools as defined in s. 1002.01 and schools designated as charter schools under s. 1002.33 which are Medicaid providers for school-based services pursuant to the rehabilitative services option provided under 42 U.S.C. s. 1396d(a)(13) to children younger than 21 years of age with specified disabilities who are eligible for both Medicaid and part B or part H of the Individuals with Disabilities Education Act (IDEA) or the exceptional student education program, or who have an individualized educational plan.*

(2) *Schools that wish to enroll as Medicaid providers and receive Medicaid reimbursement under this section must apply to the agency for a provider agreement and must agree to:*

(a) *Verify Medicaid eligibility. The agency shall work cooperatively with a private school or a charter school that is a Medicaid provider to facilitate the school's verification of Medicaid eligibility.*

(b) *Develop and maintain the financial and individual education plan records needed to document the appropriate use of state and federal Medicaid funds.*

(c) *Comply with all state and federal Medicaid laws, rules, regulations, and policies, including, but not limited to, those related to the confidentiality of records and freedom of choice of providers.*

(d) *Be responsible for reimbursing the cost of any state or federal disallowance that results from failure to comply with state or federal Medicaid laws, rules, or regulations.*

(3) *The types of school-based services for which schools may be reimbursed under this section are those included in s. 1011.70(1). Private schools and charter schools may not be reimbursed by the agency for providing services that are excluded by that subsection.*

(4) *Within 90 days after a private school or a charter school applies to enroll as a Medicaid provider under this section, the agency may conduct a review to ensure that the school has the capability to comply with its responsibilities under subsection (2). A finding by the agency that the school has the capability to comply does not relieve the school of its responsibility to correct any deficiencies or to reimburse the cost of the state or federal disallowances identified pursuant to any subsequent state or federal audits.*

(5) *For reimbursements to private schools and charter schools under this section, the agency shall apply the reimbursement schedule developed under s. 409.9071(5). Health care practitioners engaged by a school to provide services under this section must be enrolled as Medicaid providers and meet the qualifications specified under 42 C.F.R. s. 440.110, as applicable. Each school's continued participation in providing Medicaid services under this section is contingent upon the school providing to the agency an annual accounting of how the Medicaid reimbursements are used.*

(6) For Medicaid provider agreements issued under this section, the agency's and the school's confidentiality is waived in relation to the state's efforts to control Medicaid fraud. The agency and the school shall provide any information or documents relating to this section to the Medicaid Fraud Control Unit in the Department of Legal Affairs, upon request, pursuant to the Attorney General's authority under s. 409.920.

Section 19. Paragraph (a) of subsection (1) of section 409.908, Florida Statutes, is amended, subsections (6) through (24) are renumbered as subsections (7) through (25), respectively, and a new subsection (6) is added to that section to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(1) Reimbursement to hospitals licensed under part I of chapter 395 must be made prospectively or on the basis of negotiation.

(a) Reimbursement for inpatient care is limited as provided in s. 409.905(5), except as otherwise provided in this subsection.

1. If authorized by the General Appropriations Act, the agency may modify reimbursement for specific types of services or diagnoses, recipient ages, and hospital provider types.

2. The agency may establish an alternative methodology to the DRG-based prospective payment system to set reimbursement rates for:

- a. State-owned psychiatric hospitals.
- b. Newborn hearing screening services.
- c. Transplant services for which the agency has established a global fee.
- d. Recipients who have tuberculosis that is resistant to therapy who are in need of long-term, hospital-based treatment pursuant to s. 392.62.
- e. *Class III psychiatric hospitals.*

3. The agency shall modify reimbursement according to other methodologies recognized in the General Appropriations Act.

The agency may receive funds from state entities, including, but not limited to, the Department of Health, local governments, and other local political subdivisions, for the purpose of making special exception payments, including federal matching funds, through the Medicaid inpatient reimbursement methodologies. Funds received for this purpose shall be separately accounted for and may not be commingled with other state or local funds in any manner. The agency may certify all local governmental funds used as state match under Title XIX of the Social Security Act, to the extent and in the manner authorized under the General Appropriations Act and pursuant to an agreement between the agency and the local governmental entity. In order for the agency to certify such local governmental funds, a local governmental entity must

submit a final, executed letter of agreement to the agency, which must be received by October 1 of each fiscal year and provide the total amount of local governmental funds authorized by the entity for that fiscal year under this paragraph, paragraph (b), or the General Appropriations Act. The local governmental entity shall use a certification form prescribed by the agency. At a minimum, the certification form must identify the amount being certified and describe the relationship between the certifying local governmental entity and the local health care provider. The agency shall prepare an annual statement of impact which documents the specific activities undertaken during the previous fiscal year pursuant to this paragraph, to be submitted to the Legislature annually by January 1.

(6) *Effective July 1, 2017, an ambulatory surgical center shall be reimbursed pursuant to a prospective payment methodology. The agency shall implement a prospective payment methodology for establishing reimbursement rates for ambulatory surgical centers. Rates shall be calculated annually and take effect July 1, 2017, and on July 1 each year thereafter. The methodology shall categorize the amount and type of services used in various ambulatory visits which group together procedures and medical visits that share similar characteristics and resource utilization.*

Section 20. Paragraphs (a) and (b) of subsection (2), subsections (3) and (4), and paragraph (a) of subsection (5) of section 409.909, Florida Statutes, are amended, paragraph (c) of subsection (2) is redesignated as paragraph (d), and a new paragraph (c) is added to that subsection, to read:

409.909 Statewide Medicaid Residency Program.—

(2) On or before September 15 of each year, the agency shall calculate an allocation fraction to be used for distributing funds to participating hospitals. On or before the final business day of each quarter of a state fiscal year, the agency shall distribute to each participating hospital one-fourth of that hospital's annual allocation calculated under subsection (4). The allocation fraction for each participating hospital is based on the hospital's number of full-time equivalent residents and the amount of its Medicaid payments. As used in this section, the term:

(a) "Full-time equivalent," or "FTE," means a resident who is in his or her residency period, with the initial residency period defined as the minimum number of years of training required before the resident may become eligible for board certification by the American Osteopathic Association Bureau of Osteopathic Specialists or the American Board of Medical Specialties in the specialty in which he or she first began training, not to exceed 5 years. The residency specialty is defined as reported using the current residency type codes in the Intern and Resident Information System (IRIS), required by Medicare. A resident training beyond the initial residency period is counted as 0.5 FTE, unless his or her chosen specialty is in primary care, in which case the resident is counted as 1.0 FTE. For the purposes of this section, primary care specialties include:

1. Family medicine;
2. General internal medicine;
3. General pediatrics;
4. Preventive medicine;
5. Geriatric medicine;
6. Osteopathic general practice;
7. Obstetrics and gynecology;
8. Emergency medicine; ~~and~~
9. General surgery; *and*
10. *Psychiatry.*

(b) "Medicaid payments" means the estimated total payments for reimbursing a hospital for direct inpatient services for the fiscal year in which the allocation fraction is calculated based on the hospital inpatient appropriation and the parameters for the inpatient diagnosis-related group base rate, including applicable intergovernmental trans-

fers, specified in the General Appropriations Act, as determined by the agency. *Effective July 1, 2017, the term "Medicaid payments" means the estimated total payments for reimbursing a hospital for direct inpatient and outpatient services for the fiscal year in which the allocation fraction is calculated based on the hospital inpatient appropriation and outpatient appropriation and the parameters for the inpatient diagnosis-related group base rate, including applicable intergovernmental transfers, specified in the General Appropriations Act, as determined by the agency.*

(c) *"Qualifying institution" means a federally Qualified Health Center holding an Accreditation Council for Graduate Medical Education institutional accreditation.*

(3) The agency shall use the following formula to calculate a participating hospital's and qualifying institution's allocation fraction:

$$\text{HAF}=[0.9 \times (\text{HFTE}/\text{TFTE})] + [0.1 \times (\text{HMP}/\text{TMP})]$$

Where:

HAF=A hospital's and qualifying institution's allocation fraction.

HFTE=A hospital's and qualifying institution's total number of FTE residents.

TFTE=The total FTE residents for all participating hospitals and qualifying institutions.

HMP=A hospital's and qualifying institution's Medicaid payments.

TMP=The total Medicaid payments for all participating hospitals and qualifying institutions.

(4) A hospital's and qualifying institution's annual allocation shall be calculated by multiplying the funds appropriated for the Statewide Medicaid Residency Program in the General Appropriations Act by that hospital's and qualifying institution's allocation fraction. If the calculation results in an annual allocation that exceeds two times the average per FTE resident amount for all hospitals and qualifying institutions, the hospital's and qualifying institution's annual allocation shall be reduced to a sum equaling no more than two times the average per FTE resident. The funds calculated for that hospital and qualifying institution in excess of two times the average per FTE resident amount for all hospitals and qualifying institutions shall be redistributed to participating hospitals and qualifying institutions whose annual allocation does not exceed two times the average per FTE resident amount for all hospitals and qualifying institutions, using the same methodology and payment schedule specified in this section.

(5) The Graduate Medical Education Startup Bonus Program is established to provide resources for the education and training of physicians in specialties which are in a statewide supply-and-demand deficit. Hospitals eligible for participation in subsection (1) are eligible to participate in the Graduate Medical Education Startup Bonus Program established under this subsection. Notwithstanding subsection (4) or an FTE's residency period, and in any state fiscal year in which funds are appropriated for the startup bonus program, the agency shall allocate a \$100,000 startup bonus for each newly created resident position that is authorized by the Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution in an initial or established accredited training program that is in a physician specialty in statewide supply-and-demand deficit. In any year in which funding is not sufficient to provide \$100,000 for each newly created resident position, funding shall be reduced pro rata across all newly created resident positions in physician specialties in statewide supply-and-demand deficit.

(a) Hospitals applying for a startup bonus must submit to the agency by March 1 their Accreditation Council for Graduate Medical Education or Osteopathic Postdoctoral Training Institution approval validating the new resident positions approved on or after March 2 of the prior fiscal year through March 1 of the current fiscal year for the physician specialties identified in a statewide supply-and-demand deficit as provided in the current fiscal year's General Appropriations Act ~~in physician specialties in statewide supply and demand deficit in the current fiscal year.~~ An applicant hospital may validate a change in the number of residents by comparing the number in the prior period Accreditation Council for Graduate Medical Education or Osteopathic

Postdoctoral Training Institution approval to the number in the current year.

(b) Emergency services.—Managed care plans shall pay for services required by ss. 395.1041 and 401.45 and rendered by a noncontracted provider. The plans must comply with s. 641.3155. Reimbursement for services under this paragraph is the lesser of:

3. The charge mutually agreed to by the entity and the provider within 60 days after submittal of the claim; or

4. Section 22. Subsection (4) of section 409.968, Florida Statutes, is renumbered as subsection (5), and a new subsection (4) is added to that section to read:

409.968 Managed care plan payments.—

(4)(a) *Subject to a specific appropriation and federal approval under s. 409.906(13)(e), the agency shall establish a payment methodology to fund managed care plans for flexible services for persons with severe mental illness and substance use disorders, including, but not limited to, temporary housing assistance. Section 23. Subsections (1) and (6) of section 409.975, Florida Statutes, are amended to read:

409.975 Managed care plan accountability.—In addition to the requirements of s. 409.967, plans and providers participating in the managed medical assistance program shall comply with the requirements of this section.

(1) PROVIDER NETWORKS.—Managed care plans must develop and maintain provider networks that meet the medical needs of their enrollees in accordance with standards established pursuant to s.

409.967(2)(c). Except as provided in this section, managed care plans may limit the providers in their networks based on credentials, quality indicators, and price.

(a) Plans must include all providers in the region that are classified by the agency as essential Medicaid providers, unless the agency approves, in writing, an alternative arrangement for securing the types of services offered by the essential providers. Providers are essential for serving Medicaid enrollees if they offer services that are not available from any other provider within a reasonable access standard, or if they provided a substantial share of the total units of a particular service used by Medicaid patients within the region during the last 3 years and the combined capacity of other service providers in the region is insufficient to meet the total needs of the Medicaid patients. The agency may not classify physicians and other practitioners as essential providers. The agency, at a minimum, shall determine which providers in the following categories are essential Medicaid providers:

1. Federally qualified health centers.
2. Statutory teaching hospitals as defined in s. 408.07(45).
3. Hospitals that are trauma centers as defined in s. 395.4001(14).
4. Hospitals located at least 25 miles from any other hospital with similar services.

Managed care plans that have not contracted with all essential providers in the region as of the first date of recipient enrollment, or with whom an essential provider has terminated its contract, must negotiate in good faith with such essential providers for 1 year or until an agreement is reached, whichever is first. Payments for services rendered by a nonparticipating essential provider shall be made at the applicable Medicaid rate as of the first day of the contract between the agency and the plan. A rate schedule for all essential providers shall be attached to the contract between the agency and the plan. After 1 year, managed care plans that are unable to contract with essential providers shall notify the agency and propose an alternative arrangement for securing the essential services for Medicaid enrollees. The arrangement must rely on contracts with other participating providers, regardless of whether those providers are located within the same region as the nonparticipating essential service provider. If the alternative arrangement is approved by the agency, payments to nonparticipating essential providers after the date of the agency's approval shall equal 90 percent of the applicable Medicaid rate. *Except for payment for emergency services*, if the alternative arrangement is not approved by the agency, payment to nonparticipating essential providers shall equal 110 percent of the applicable Medicaid rate.

(b) Certain providers are statewide resources and essential providers for all managed care plans in all regions. All managed care plans must include these essential providers in their networks. Statewide essential providers include:

1. Faculty plans of Florida medical schools.
2. Regional perinatal intensive care centers as defined in s. 383.16(2).
3. Hospitals licensed as specialty children's hospitals as defined in s. 395.002(28).
4. Accredited and integrated systems serving medically complex children ~~which comprise that are comprised of~~ separately licensed, but commonly owned, health care providers delivering at least the following services: medical group home, in-home and outpatient nursing care and therapies, pharmacy services, durable medical equipment, and Prescribed Pediatric Extended Care.

Managed care plans that have not contracted with all statewide essential providers in all regions as of the first date of recipient enrollment must continue to negotiate in good faith. Payments to physicians on the faculty of nonparticipating Florida medical schools shall be made at the applicable Medicaid rate. Payments for services rendered by regional perinatal intensive care centers shall be made at the applicable Medicaid rate as of the first day of the contract between the agency and the plan. *Except for payments for emergency services*, payments to nonparticipating specialty children's hospitals shall equal the highest

rate established by contract between that provider and any other Medicaid managed care plan.

(c) After 12 months of active participation in a plan's network, the plan may exclude any essential provider from the network for failure to meet quality or performance criteria. If the plan excludes an essential provider from the plan, the plan must provide written notice to all recipients who have chosen that provider for care. The notice shall be provided at least 30 days before the effective date of the exclusion. *For purposes of this paragraph, the term "essential provider" includes providers determined by the agency to be essential Medicaid providers under paragraph (a) and the statewide essential providers specified in paragraph (b).*

(d) *The applicable Medicaid rates for emergency services paid by a plan under this section to a provider with which the plan does not have an active contract shall be determined according to s. 409.967(2)(b).*

~~(e)(4)~~ Each managed care plan must offer a network contract to each home medical equipment and supplies provider in the region which meets quality and fraud prevention and detection standards established by the plan and which agrees to accept the lowest price previously negotiated between the plan and another such provider.

(6) PROVIDER PAYMENT.—Managed care plans and hospitals shall negotiate mutually acceptable rates, methods, and terms of payment. ~~For rates, methods, and terms of payment negotiated after the contract between the agency and the plan is executed, plans shall pay hospitals, at a minimum, the rate the agency would have paid on the first day of the contract between the provider and the plan.~~ Such payments to hospitals may not exceed 120 percent of the rate the agency would have paid on the first day of the contract between the provider and the plan, unless specifically approved by the agency. Payment rates may be updated periodically.

DISCLOSURE

I have an ownership interest in Caregivers Inc., a company based in Pensacola, Florida. The company provides services to the elderly and the disabled and a minority of its revenues are derived from reimbursements from the Escambia County Council on Aging and the Florida Medicaid program. Because Caregivers Inc. is among a class of health care providers receiving funds from such state sources, it appears to me that the company may be affected by **HB 5001**, **HB 5003**, and **HB 5101** which come before the Senate for a vote on March 11, 2016.

Therefore, I believe that, because Caregivers Inc. is a member of such class, I am required by Senate Rule 1.39 to disclose the above facts.

Senator Don Gaetz, 1st District

MOTIONS

On motion by Senator Simmons, the rules were waived and time of adjournment was extended until 6:30 p.m.
