PRAYER

The following prayer was offered by Reverend Candace McKibben, Director of Faith Outreach, Big Bend Hospice and Pastor of Tallahassee Fellowship Church, Tallahassee:

Holy one, quiet our minds and still our hearts as we pause in reverence before one another and before you at the beginning of this new day. Fill our hearts with gratitude for the gift of life and for the important work that lies before us in the hours ahead.

Grant to each of these senators the will and ability to be their best selves as they listen respectfully to each other for the strongest solutions to the concerns before them this day. Give them hearts to hear what is most needed, minds to discern what is right, and the courage to do what is best as they seek the highest good for the citizens of this great State.

May those who are weary and disheartened by the process remember why they first wanted to be a legislator, and feel again the passion to represent the will of those who sent them here as it serves the highest good. May those who are filled with energy and optimism be a source of

inspiration, encouragement, and hope to others. May all find in this day the opportunity to broaden their perspective, think creatively, and decide wisely.

We pray for all Floridians and for our nation that we might care for each other with the sort of grace and love that promotes justice and inspires well-being for all.

We pause in reverence before one another and before a strength and power that is greater than our own as we begin our work this day, renewed in spirit and motivated by love. Amen.

PLEDGE

Senate Pages, John Spilker of Naples; Zachary Smith of Dade City; Elizabeth Watson of Plant City; and Rebekka Behr of West Palm Beach, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

Senator Hays moved the following amendment which was adopted:

Amendment 1 (411956) (with title amendment)—Between lines 182 and 183 insert:

Section 5. Paragraph (b) of subsection (6) of section 215.555, Florida Statutes, is amended to read:

215.555 Florida Hurricane Catastrophe Fund.—

(6) REVENUE BONDS.—

(b) *Emergency assessments.*—

1. If the board determines that the amount of revenue produced under subsection (5) is insufficient to fund the obligations, costs, and expenses of the fund and the corporation, including repayment of revenue bonds and that portion of the debt service coverage not met by reimbursement premiums, the board shall direct the Office of Insurance Regulation to levy, by order, an emergency assessment on direct premiums for all property and casualty lines of business in this state, including property and casualty business of surplus lines insurers regulated under part VIII of chapter 626, but not including any workers' compensation premiums or medical malpractice premiums. As used in this subsection, the term “property and casualty business” includes all lines of business identified on Form 2, Exhibit of Premiums and Losses, in the annual statement required of authorized insurers by s. 624.424 and any rule adopted under this section, except for those lines identified as accident and health insurance and except for policies written under the National Flood Insurance Program. The assessment shall be specified as a percentage of direct written premium and is subject to annual adjustments by the board in order to meet debt obligations. The same percentage applies to all policies in lines of business subject to the assessment issued or renewed during the 12-month period beginning on the effective date of the assessment.

2. A premium is not subject to an annual assessment under this paragraph in excess of 6 percent of premium with respect to obligations arising out of losses attributable to any one contract year, and a premium is not subject to an aggregate annual assessment under this paragraph in excess of 10 percent of premium. An annual assessment under this paragraph continues as long as the revenue bonds issued with respect to which the assessment was imposed are outstanding, including any bonds the proceeds of which were used to refund the revenue bonds, unless adequate provision has been made for the pay-

ment of the bonds under the documents authorizing issuance of the bonds.

3. Emergency assessments shall be collected from policyholders. Emergency assessments shall be remitted by insurers as a percentage of direct written premium for the preceding calendar quarter as specified in the order from the Office of Insurance Regulation. The office shall verify the accurate and timely collection and remittance of emergency assessments and shall report the information to the board in a form and at a time specified by the board. Each insurer collecting assessments shall provide the information with respect to premiums and collections as may be required by the office to enable the office to monitor and verify compliance with this paragraph.

4. With respect to assessments of surplus lines premiums, each surplus lines agent shall collect the assessment at the same time as the agent collects the surplus lines tax required by s. 626.932, and the surplus lines agent shall remit the assessment to the Florida Surplus Lines Service Office created by s. 626.921 at the same time as the agent remits the surplus lines tax to the Florida Surplus Lines Service Office. The emergency assessment on each insured procuring coverage and filing under s. 626.938 shall be remitted by the insured to the Florida Surplus Lines Service Office at the time the insured pays the surplus lines tax to the Florida Surplus Lines Service Office. The Florida Surplus Lines Service Office shall remit the collected assessments to the fund or corporation as provided in the order levied by the Office of Insurance Regulation. The Florida Surplus Lines Service Office shall verify the proper application of such emergency assessments and shall assist the board in ensuring the accurate and timely collection and remittance of assessments as required by the board. The Florida Surplus Lines Service Office shall annually calculate the aggregate written premium on property and casualty business, other than workers' compensation and medical malpractice, procured through surplus lines agents and insureds procuring coverage and filing under s. 626.938 and shall report the information to the board in a form and at a time specified by the board.

5. Any assessment authority not used for a particular contract year may be used for a subsequent contract year. If, for a subsequent contract year, the board determines that the amount of revenue produced under subsection (5) is insufficient to fund the obligations, costs, and expenses of the fund and the corporation, including repayment of revenue bonds and that portion of the debt service coverage not met by reimbursement premiums, the board shall direct the Office of Insurance Regulation to levy an emergency assessment up to an amount not exceeding the amount of unused assessment authority from a previous contract year or years, plus an additional 4 percent provided that the assessments in the aggregate do not exceed the limits specified in subparagraph 2.

6. The assessments otherwise payable to the corporation under this paragraph shall be paid to the fund unless the Office of Insurance Regulation and the Florida Surplus Lines Service Office received a notice from the corporation and the fund, which shall be conclusive and upon which they may rely without further inquiry, that the corporation has issued bonds and the fund has no agreements in effect with local governments under paragraph (c). On or after the date of the notice and until the date the corporation has no bonds outstanding, the fund shall have no right, title, or interest in or to the assessments, except as provided in the fund's agreement with the corporation.

7. Emergency assessments are not premium and are not subject to the premium tax, to the surplus lines tax, to any fees, or to any commissions. An insurer is liable for all assessments that it collects and must treat the failure of an insured to pay an assessment as a failure to pay the premium. An insurer is not liable for uncollectible assessments.

8. If an insurer is required to return an unearned premium, it shall also return any collected assessment attributable to the unearned premium. A credit adjustment to the collected assessment may be made by the insurer with regard to future remittances that are payable to the fund or corporation, but the insurer is not entitled to a refund.

9. If a surplus lines insured or an insured who has procured coverage and filed under s. 626.938 is entitled to the return of an unearned premium, the Florida Surplus Lines Service Office shall provide a credit or refund to the agent or such insured for the collected assessment

attributable to the unearned premium before remitting the emergency assessment collected to the fund or corporation.

10. The exemption of medical malpractice insurance premiums from emergency assessments under this paragraph is repealed May 31, 2019 ~~2016~~, and medical malpractice insurance premiums shall be subject to emergency assessments attributable to loss events occurring in the contract years commencing on June 1, 2019 ~~2016~~.

And the title is amended as follows:

The sponsor may approve the draft application. *Except as provided for a draft application, a sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any final application, the sponsor shall allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if*

such errors are identified by the sponsor as cause to deny the final application.

If the sponsor fails to act on the application, an applicant may appeal to the State Board of Education as provided in paragraph (c). c. b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. A charter lab school is eligible for a charter for a term of up to 15 years. The representative's contact information must be provided annually in writing to parents and posted prominently on the charter school's website if a website is maintained by the school. The sponsor may not require that governing board members reside in the school district in which the charter school is located if the charter school complies with this paragraph.~~

Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 4.

d. A charter school is no longer required to implement a corrective action if it improves by at least one letter grade. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor shall communicate at the meeting, and in writing to the director, the services provided to the school to help the school address its deficiencies.

6. Notwithstanding any provision of this paragraph except sub-subparagraphs 4.a.-c., the sponsor may terminate the charter at any time pursuant to subsection (8).

(p)1. Each charter school shall maintain a website that enables the public to obtain information regarding the school; the school's academic performance; the names of the governing board members; the programs at the school; any management companies, service providers, or education management corporations associated with the school; the school's annual budget and its annual independent fiscal audit; the school's grade pursuant to s. 1008.34; and, on a quarterly basis, the minutes of governing board meetings.

2. *Each charter school's governing board must appoint a representative to facilitate parental involvement, provide access to information, assist parents and others with questions and concerns, and resolve disputes. The representative must reside in the school district in which the charter school is located and may be a governing board member, a charter school employee, or an individual contracted to represent the governing board. If the governing board oversees multiple charter schools in the same school district, the governing board must appoint a separate representative for each charter school in the district. The representative's contact information must be provided annually in writing to parents and posted prominently on the charter school's website. The*

sponsor may not require governing board members to reside in the school district in which the charter school is located if the charter school complies with this subparagraph.

3. Each charter school's governing board must hold at least two public meetings per school year in the school district where the charter school is located. The meetings must be noticed, open, and accessible to the public, and attendees must be provided an opportunity to receive information and provide input regarding the charter school's operations. The appointed representative and charter school principal or director, or his or her designee, must be physically present at each meeting. Members of the governing board may attend in person or by means of communications media technology used in accordance with rules adopted by the Administration Commission under s. 120.54(5).

(17) FUNDING.—Students enrolled in a charter school, regardless of the sponsorship, shall be funded as if they are in a basic program or a special program, the same as students enrolled in other public schools in the school district. Funding for a charter lab school shall be as provided in s. 1002.32.

(b) The basis for the agreement for funding students enrolled in a charter school shall be the sum of the school district's operating funds from the Florida Education Finance Program as provided in s. 1011.62 and the General Appropriations Act, including gross state and local funds, discretionary lottery funds, and funds from the school district's current operating discretionary millage levy; divided by total funded weighted full-time equivalent students in the school district; multiplied by the weighted full-time equivalent students for the charter school. Charter schools whose students or programs meet the eligibility criteria in law are entitled to their proportionate share of categorical program funds included in the total funds available in the Florida Education Finance Program by the Legislature, including transportation, the research-based reading allocation, and the Florida digital classrooms allocation. Total funding for each charter school shall be recalculated during the year to reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the charter school during the full-time equivalent student survey periods designated by the Commissioner of Education.

(e) District school boards shall make timely and efficient payment and reimbursement to charter schools, including processing paperwork

required to access special state and federal funding for which they may be eligible. Each payment shall be one-twelfth, or one twenty-fourth, as applicable, of the total state and local funds described in paragraph (b) and adjusted as set forth therein. For the first 2 years of a charter school's operation, if a minimum of 75 percent of the projected enrollment is entered into the sponsor's student information system by the first day of the current month, the district school board shall ~~may~~ distribute funds to the ~~a charter~~ school for the ~~up to 3~~ months of July through October based on the projected full-time equivalent student membership of the charter school as submitted in the approved application. If less than 75 percent of the projected enrollment is entered into the sponsor's student information system by the first day of the current month, the sponsor shall base payments on the actual number of student enrollment entered into the sponsor's student information system. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the charter school for the remainder of the fiscal year. The ~~payments~~ payment shall be issued no later than 10 working days after the district school board receives a distribution of state or federal funds or the date the payment is due pursuant to this subsection. If a warrant for payment is not issued within 10 working days after receipt of funding by the district school board, the school district shall pay to the charter school, in addition to the amount of the scheduled disbursement, interest at a rate of 1 percent per month calculated on a daily basis on the unpaid balance from the expiration of the 10 working days until such time as the warrant is issued. The district school board may not delay payment to a charter school of any portion of the funds provided in paragraph (b) based on the timing of receipt of local funds by the district school board.

(g) To be eligible for public education capital outlay (PECO) funds, a charter school must be located in the State of Florida.

(18) FACILITIES.—

(a) A startup charter school shall utilize facilities which comply with the Florida Building Code pursuant to chapter 553 except for the State Requirements for Educational Facilities. Conversion charter schools shall utilize facilities that comply with the State Requirements for Educational Facilities provided that the school district and the charter school have entered into a mutual management plan for the reasonable maintenance of such facilities. The mutual management plan shall contain a provision by which the district school board agrees to maintain charter school facilities in the same manner as its other public schools within the district. Charter schools, with the exception of conversion charter schools, are not required to comply, but may choose to comply, with the State Requirements for Educational Facilities of the Florida Building Code adopted pursuant to s. 1013.37. The local governing authority shall not adopt or impose any local building requirements or site-development restrictions, such as parking and site-size criteria, that are addressed by and more stringent than those found in the State Requirements for Educational Facilities of the Florida Building Code. ~~Beginning July 1, 2011,~~ A local governing authority must treat charter schools equitably in comparison to similar requirements, restrictions, and site planning processes imposed upon public schools that are not charter schools. The agency having jurisdiction for inspection of a facility and issuance of a certificate of occupancy or use shall be the local municipality or, if in an unincorporated area, the county governing authority. If an official or employee of the local governing authority refuses to comply with this paragraph, the aggrieved school or entity has an immediate right to bring an action in circuit court to enforce its rights by injunction. An aggrieved party that receives injunctive relief may be awarded attorney fees and court costs.

(20) SERVICES.—

(a)1. A sponsor shall provide certain administrative and educational services to charter schools. These services shall include contract management services; full-time equivalent and data reporting services; exceptional student education administration services; services related to eligibility and reporting duties required to ensure that school lunch services under the federal lunch program, consistent with the needs of the charter school, are provided by the school district at the request of the charter school, that any funds due to the charter school under the federal lunch program be paid to the charter school as soon as the charter school begins serving food under the federal lunch program, and

2. A total administrative fee for the provision of such services shall be calculated based upon up to 5 percent of the available funds defined in paragraph (17)(b) for all students, except that when 75 percent or more of the students enrolled in the charter school are exceptional students as defined in s. 1003.01(3), the 5 percent of those available funds shall be calculated based on unweighted full-time equivalent students. However, a sponsor may only withhold up to a 5-percent administrative fee for enrollment for up to and including 250 students. For charter schools with a population of 251 or more students, the difference between the total administrative fee calculation and the amount of the administrative fee withheld may only be used for capital outlay purposes specified in s. 1013.62(2).

3. For high-performing charter schools, as defined in s. 1002.331 ~~ch. 2011-232~~, a sponsor may withhold a total administrative fee of up to 2 percent for enrollment up to and including 250 students per school.

- b. Has all schools located in the same county;
- c. Has a total enrollment exceeding the total enrollment of at least one school district in the state;
- d. Has the same governing board; and

5. The difference between the total administrative fee calculation and the amount of the administrative fee withheld pursuant to subparagraph 4. may be used for instructional and administrative purposes as well as for capital outlay purposes specified in s. 1013.62(2).

6. For a high-performing charter school system that also meets the requirements in subparagraph 4., a sponsor may withhold a 2-percent administrative fee for enrollments up to and including 500 students per system.

7. Sponsors shall not charge charter schools any additional fees or surcharges for administrative and educational services in addition to the maximum 5-percent administrative fee withheld pursuant to this paragraph.

8. The sponsor of a virtual charter school may withhold a fee of up to 5 percent. The funds shall be used to cover the cost of services provided under subparagraph 1. and implementation of the school district's digital classrooms plan pursuant to s. 1011.62.

Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for home education program students who choose not to take an end-of-course assessment or for a student who enrolls in a segmented remedial course delivered online.~~

This section does not give a parent the right to choose a specific classroom teacher. A school must approve or deny the transfer within 2 weeks after receiving a request. If a request for transfer is denied, the school must notify the parent and specify the reasons for the denial. An explanation of the transfer process must be made available in the student handbook or a similar publication.

Section 11. Effective June 29, 2016, section 1004.935, Florida Statutes, is amended to read:

1004.935 Adults with Disabilities Workforce Education ~~Pilot~~ Program.—

(1) The Adults with Disabilities Workforce Education ~~Pilot~~ Program is established in the Department of Education ~~through June 30, 2016,~~ in Hardee, DeSoto, Manatee, and Sarasota Counties to provide the option of receiving a scholarship for instruction at private schools for up to 30 students who:

- (a) Have a disability;
- (b) Are 22 years of age;
- (c) Are receiving instruction from an instructor in a private school to meet the high school graduation requirements in s. 1002.3105(5) or s. 1003.4282;
- (d) Do not have a standard high school diploma or a special high school diploma; and
- (e) Receive "supported employment services," which means employment that is located or provided in an integrated work setting with earnings paid on a commensurate wage basis and for which continued support is needed for job maintenance.

As used in this section, the term "student with a disability" includes a student who is documented as having an intellectual disability; a speech impairment; a language impairment; a hearing impairment, including deafness; a visual impairment, including blindness; a dual sensory impairment; an orthopedic impairment; another health impairment; an emotional or behavioral disability; a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia; a traumatic brain injury; a developmental delay; or autism spectrum disorder.

(2) A student participating in the ~~pilot~~ program may continue to participate in the program until the student graduates from high school or reaches the age of 40 years, whichever occurs first.

(3) Supported employment services may be provided at more than one site.

(4) The provider of supported employment services must be a non-profit corporation under s. 501(c)(3) of the Internal Revenue Code which serves Hardee County, DeSoto County, Manatee County, or Sarasota County and must contract with a private school in this state which meets the requirements in subsection (5).

(5) A private school that participates in the ~~pilot~~ program may be sectarian or nonsectarian and must:

- (a) Be academically accountable for meeting the educational needs of the student by annually providing to the provider of supported employment services a written explanation of the student's progress.
- (b) Comply with the antidiscrimination provisions of 42 U.S.C. s. 2000d.
- (c) Meet state and local health and safety laws and codes.
- (d) Provide to the provider of supported employment services all documentation required for a student's participation, including the private school's and student's fee schedules, at least 30 days before any quarterly scholarship payment is made for the student. A student is not eligible to receive a quarterly scholarship payment if the private school fails to meet this deadline.

The inability of a private school to meet the requirements of this subsection constitutes a basis for the ineligibility of the private school to participate in the ~~pilot~~ program.

(6)(a) If the student chooses to participate in the ~~pilot~~ program and is accepted by the provider of supported employment services, the student must notify the Department of Education of his or her acceptance into the program 60 days before the first scholarship payment and before participating in the ~~pilot~~ program in order to be eligible for the scholarship.

(b) Upon receipt of a scholarship warrant, the student or parent to whom the warrant is made must restrictively endorse the warrant to the provider of supported employment services for deposit into the account of the provider. The student or parent may not designate any entity or individual associated with the participating provider of supported employment services as the student's or parent's attorney in fact to endorse a scholarship warrant. A participant who fails to comply with this paragraph forfeits the scholarship.

(7) Funds for the scholarship shall be provided from the appropriation from the school district's Workforce Development Fund in the General Appropriations Act for students who reside in the Hardee County School District, the DeSoto County School District, the Manatee County School District, or the Sarasota County School District. ~~During the pilot program,~~ The scholarship amount granted for an eligible student with a disability shall be equal to the cost per unit of a full-time equivalent adult general education student, multiplied by the adult general education funding factor, and multiplied by the district cost differential pursuant to the formula required by s. 1011.80(6)(a) for the district in which the student resides.

(8) Upon notification by the Department of Education that it has received the required documentation, the Chief Financial Officer shall make scholarship payments in four equal amounts no later than September 1, November 1, February 1, and April 1 of each academic year in which the scholarship is in force. The initial payment shall be made after the Department of Education verifies that the student was accepted into the ~~pilot~~ program, and subsequent payments shall be made upon verification of continued participation in the ~~pilot~~ program. Payment must be by individual warrant made payable to the student or parent and mailed by the Department of Education to the provider of supported employment services, and the student or parent shall restrictively endorse the warrant to the provider of supported employment services for deposit into the account of that provider.

(9) Subsequent to each scholarship payment, the Department of Education shall request from the Department of Financial Services a sample of endorsed warrants to review and confirm compliance with endorsement requirements.

Section 12. Subsection (3) and paragraph (a) of subsection (8) of section 1006.15, Florida Statutes, are amended, and subsection (9) is added to that section, to read:

1006.15 Student standards for participation in interscholastic and intrascholastic extracurricular student activities; regulation.—

(3)(a) *As used in this section and s. 1006.20, the term "eligible to participate" includes, but is not limited to, a student participating in tryouts, off-season conditioning, summer workouts, preseason conditioning, in-season practice, or contests. The term does not mean that a student must be placed on any specific team for interscholastic or intrascholastic extracurricular activities. To be eligible to participate in interscholastic extracurricular student activities, a student must:*

1. Maintain a grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the previous semester or a cumulative grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the courses required by s. 1002.3105(5) or s. 1003.4282.

At a minimum, the contract must require that the student attend summer

school, or its graded equivalent, between grades 9 and 10 or grades 10 and 11, as necessary.

4. Maintain satisfactory conduct, including adherence to appropriate dress and other codes of student conduct policies described in s. 1006.07(2). If a student is convicted of, or is found to have committed, a felony or a delinquent act that would have been a felony if committed by an adult, regardless of whether adjudication is withheld, the student's participation in interscholastic extracurricular activities is contingent upon established and published district school board policy.

(b) Any student who is exempt from attending a full school day based on rules adopted by the district school board for double session schools or programs, experimental schools, or schools operating under emergency conditions must maintain the grade point average required by this section and pass each class for which he or she is enrolled.

A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2. to become eligible to participate as a home education student.

(d) An individual charter school student pursuant to s. 1002.33 is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could ~~choose to attend, pursuant to district or interdistrict controlled open enrollment provisions,~~ in any interscholastic extracurricular activity of that school, unless such activity is provided by the student's charter school, if the following conditions are met:

5. The charter school student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A charter school student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a charter school program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a charter school student until the student has successfully completed one grading period in a charter school pursuant to subparagraph 2. to become eligible to participate as a charter school student.

(e) A student of the Florida Virtual School full-time program may participate in any interscholastic extracurricular activity at the public school to which the student would be assigned according to district school board attendance area policies or which the student could ~~choose to attend, pursuant to district or interdistrict controlled open enrollment policies, if the student:~~

Registers his or her intent to participate in interscholastic extracurricular activities with the school before the beginning date of the season for the activity in which he or she wishes to participate. A Florida Virtual School student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

(f) A student who transfers from the Florida Virtual School full-time program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year pursuant to paragraph (a).

(g) A public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a Florida Virtual School student until the student successfully completes one grading period in the Florida Virtual School pursuant to paragraph (a).

(h)1. A school district or charter school may not delay eligibility or otherwise prevent a student participating in controlled open enrollment,

or a choice program, from being immediately eligible to participate in interscholastic and intrascholastic extracurricular activities.

2. A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets one of the following criteria:

a. Dependent children of active duty military personnel whose move resulted from military orders.

b. Children who have been relocated due to a foster care placement in a different school zone.

c. Children who move due to a court ordered change in custody due to separation or divorce, or the serious illness or death of a custodial parent.

d. Authorized for good cause in district or charter school policy.

(8)(a) The Florida High School Athletic Association (FHSAA), in cooperation with each district school board, shall facilitate a program in which a middle school or high school student who attends a private school shall be eligible to participate in an interscholastic or intrascholastic sport at a public high school, a public middle school, or a 6-12 public school that is zoned for the physical address at which the student resides if:

1. The private school in which the student is enrolled is not a member of the FHSAA ~~and does not offer an interscholastic or intrascholastic athletic program.~~

2. The private school student meets the guidelines for the conduct of the program established by the FHSAA's board of directors and the district school board. At a minimum, such guidelines shall provide:

a. A deadline for each sport by which the private school student's parents must register with the public school in writing their intent for their child to participate at that school in the sport.

b. Requirements for a private school student to participate, including, but not limited to, meeting the same standards of eligibility, acceptance, behavior, educational progress, and performance which apply to other students participating in interscholastic or intrascholastic sports at a public school or FHSAA member private school.

(9)(a) A student who transfers to a school during the school year may seek to immediately join an existing team if the roster for the specific interscholastic or intrascholastic extracurricular activity has not reached the activity's identified maximum size and if the coach for the activity determines that the student has the requisite skill and ability to participate. The FHSAA and school district or charter school may not declare such a student ineligible because the student did not have the opportunity to comply with qualifying requirements.

(b) A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets one of the following criteria:

1. Dependent children of active duty military personnel whose move resulted from military orders.

2. Children who have been relocated due to a foster care placement in a different school zone.

3. Children who move due to a court ordered change in custody due to separation or divorce, or the serious illness or death of a custodial parent.

4. Authorized for good cause in district or charter school policy.

Section 13. Section 1006.195, Florida Statutes, is created to read:

1006.195 District school board, charter school authority and responsibility to establish student eligibility regarding participation in interscholastic and intrascholastic extracurricular activities.—Notwithstanding any provision to the contrary in ss. 1006.15, 1006.18, and 1006.20, regarding student eligibility to participate in interscholastic and intrascholastic extracurricular activities:

(1)(a) A district school board must establish, through its code of student conduct, student eligibility standards and related student disciplinary actions regarding student participation in interscholastic and intrascholastic extracurricular activities. The code of student conduct must provide that:

1. A student not currently suspended from interscholastic or intrascholastic extracurricular activities, or suspended or expelled from school, pursuant to a district school board's suspension or expulsion powers provided in law, including ss. 1006.07, 1006.08, and 1006.09, is eligible to participate in interscholastic and intrascholastic extracurricular activities.

2. A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets the criteria in s. 1006.15(3)(h).

3. A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity may not be affected by any alleged recruiting violation until final disposition of the allegation pursuant to s. 1006.20(2)(b).

(b) Students who participate in interscholastic and intrascholastic extracurricular activities for, but are not enrolled in, a public school pursuant to s. 1006.15(3)(c)-(e) and (8), are subject to the district school board's code of student conduct for the limited purpose of establishing and maintaining the student's eligibility to participate at the school.

(c) The provisions of this subsection apply to interscholastic and intrascholastic extracurricular activities conducted by charter schools and private schools, as applicable, except that the charter school governing board, or equivalent private school authority, is responsible for the authority and responsibility otherwise provided to district school boards.

(2)(a) The Florida High School Athletic Association (FHSAA) continues to retain jurisdiction over the following provisions in s. 1006.20, which may not be implemented in a manner contrary to this section: membership in the FHSAA; recruiting prohibitions and violations; student medical evaluations; investigations; and sanctions for coaches; school eligibility and forfeiture of contests; student concussions or head injuries; the sports medical advisory committee; and the general operational provisions of the FHSAA.

(b) The FHSAA must adopt, and prominently publish, the text of this section on its website and in its bylaws, rules, procedures, training and education materials, and all other governing authority documents by August 1, 2016.

Section 14. Subsection (1) and paragraphs (a), (b), (c), and (g) of subsection (2) of section 1006.20, Florida Statutes, are amended to read:

1006.20 Athletics in public K-12 schools.—

(1) GOVERNING NONPROFIT ORGANIZATION.—The Florida High School Athletic Association (FHSAA) is designated as the governing nonprofit organization of athletics in Florida public schools. If the FHSAA fails to meet the provisions of this section, the commissioner shall designate a nonprofit organization to govern athletics with the approval of the State Board of Education. The FHSAA is not a state agency as defined in s. 120.52. The FHSAA shall be subject to the provisions of s. 1006.19. A private school that wishes to engage in high school athletic competition with a public high school may become a member of the FHSAA. Any high school in the state, including charter schools, virtual schools, and home education cooperatives, may become a member of the FHSAA and participate in the activities of the FHSAA. However, membership in the FHSAA is not mandatory for any school. The FHSAA must allow a private school the option of maintaining full membership in the association or joining by sport and may not discourage a private school from simultaneously maintaining membership in another athletic association. The FHSAA may allow a public school the option to apply for consideration to join another athletic association. The FHSAA may not deny or discourage interscholastic competition between its member schools and non-FHSAA member Florida schools, including members of another athletic governing organization, and may not take any retributory or discriminatory action against any of its member schools that participate in interscholastic competition with non-FHSAA member Florida schools. The FHSAA may not unreasonably withhold its approval of an application to become an affiliate

member of the National Federation of State High School Associations submitted by any other organization that governs interscholastic athletic competition in this state. The bylaws of the FHSAA are the rules by which high school athletic programs in its member schools, and the students who participate in them, are governed, unless otherwise specifically provided by statute. For the purposes of this section, "high school" includes grades 6 through 12.

(2) ADOPTION OF BYLAWS, POLICIES, OR GUIDELINES.—

(a) The FHSAA shall adopt bylaws that, unless specifically provided by statute, establish eligibility requirements for all students who participate in high school athletic competition in its member schools. The bylaws governing residence and transfer shall allow the student to be immediately eligible in the school in which he or she first enrolls each school year or the school in which the student makes himself or herself a candidate for an athletic team by engaging in a practice prior to enrolling in the school. The bylaws shall also allow the student to be immediately eligible in the school to which the student has transferred during the school year if the transfer is made by a deadline established by the FHSAA, which may not be prior to the date authorized for the beginning of practice for the sport. These transfers shall be allowed pursuant to the district school board policies in the case of transfer to a public school or pursuant to the private school policies in the case of transfer to a private school. The student shall be eligible in that school so long as he or she remains enrolled in that school. Subsequent eligibility shall be determined and enforced through the FHSAA's bylaws. Requirements governing eligibility and transfer between member schools shall be applied similarly to public school students and private school students.

(b) The FHSAA shall adopt bylaws that specifically prohibit the recruiting of students for athletic purposes. The bylaws shall prescribe penalties and an appeals process for athletic recruiting violations.

1. If it is determined that a school has recruited a student in violation of FHSAA bylaws, the FHSAA may require the school to participate in a higher classification for the sport in which the recruited student competes for a minimum of one classification cycle, in addition to the penalties in subparagraphs 2. and 3., and any other appropriate fine or ~~and~~ sanction imposed on the school, its coaches, or adult representatives who violate recruiting rules.

2. Any recruitment by a school district employee or contractor in violation of FHSAA bylaws results in escalating punishments as follows:

a. For a first offense, a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation.

b. For a second offense, suspension without pay for 12 months from coaching, directing, or advertising an extracurricular activity and a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation.

c. For a third offense, a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation. If the individual who committed the violation holds an educator certificate, the FHSAA shall also refer the violation to the department for review pursuant to s. 1012.796 to determine whether probable cause exists, and, if there is a finding of probable cause, the commissioner shall file a formal complaint against the individual. If the complaint is upheld, the individual's educator certificate shall be revoked for 3 years, in addition to any penalties available under s. 1012.796. Additionally, the department shall revoke any adjunct teaching certificates issued pursuant to s. 1012.57 and all permissions under ss. 1012.39 and 1012.43, and the educator is ineligible for such certificates or permissions for a period of time equal to the period of revocation of his or her state-issued certificate.

3. Notwithstanding any other provision of law, a school, team, or activity shall forfeit all competitions, including honors resulting from such competitions, in which a student who participated in any fashion was recruited in a manner prohibited pursuant to state law or the FHSAA bylaws.

4. A student may not be declared ineligible based on violation of recruiting rules unless the student or parent has falsified any enrollment or eligibility document or accepted any benefit ~~or any promise of benefit~~ if such benefit is not generally available to the school's students

or family members or is based in any way on athletic interest, potential, or performance.

5. A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity, as determined by a district school board pursuant to s. 1006.195(1)(a)3., may not be affected by any alleged recruiting violation until final disposition of the allegation.

(c) The FHSAA shall adopt bylaws that require all students participating in interscholastic athletic competition or who are candidates for an interscholastic athletic team to satisfactorily pass a medical evaluation each year prior to participating in interscholastic athletic competition or engaging in any practice, tryout, workout, or other physical activity associated with the student's candidacy for an interscholastic athletic team. Such medical evaluation may be administered only by a practitioner licensed under chapter 458, chapter 459, chapter 460, or s. 464.012, and in good standing with the practitioner's regulatory board. The bylaws shall establish requirements for eliciting a student's medical history and performing the medical evaluation required under this paragraph, which shall include a physical assessment of the student's physical capabilities to participate in interscholastic athletic competition as contained in a uniform preparticipation physical evaluation and history form. The evaluation form shall incorporate the recommendations of the American Heart Association for participation cardiovascular screening and shall provide a place for the signature of the practitioner performing the evaluation with an attestation that each examination procedure listed on the form was performed by the practitioner or by someone under the direct supervision of the practitioner. The form shall also contain a place for the practitioner to indicate if a referral to another practitioner was made in lieu of completion of a certain examination procedure. The form shall provide a place for the practitioner to whom the student was referred to complete the remaining sections and attest to that portion of the examination. The preparticipation physical evaluation form shall advise students to complete a cardiovascular assessment and shall include information concerning alternative cardiovascular evaluation and diagnostic tests. Results of such medical evaluation must be provided to the school. A student is not eligible to participate, as provided in s. 1006.15(3), in any interscholastic athletic competition or engage in any practice, tryout, workout, or other physical activity associated with the student's candidacy for an interscholastic athletic team until the results of the medical evaluation have been received and approved by the school.

(g) The FHSAA shall adopt bylaws establishing the process and standards by which FHSAA determinations of eligibility are made. Such bylaws shall provide that:

1. Ineligibility must be established by a preponderance of the clear and convincing evidence;
2. Student athletes, parents, and schools must have notice of the initiation of any investigation or other inquiry into eligibility and may present, to the investigator and to the individual making the eligibility determination, any information or evidence that is credible, persuasive, and of a kind reasonably prudent persons rely upon in the conduct of serious affairs;
3. An investigator may not determine matters of eligibility but must submit information and evidence to the executive director or a person designated by the executive director or by the board of directors for an unbiased and objective determination of eligibility; and
4. A determination of ineligibility must be made in writing, setting forth the findings of fact and specific violation upon which the decision is based.

Section 15. Section 1009.893, Florida Statutes, is amended to read:

Section 16. Subsection (1) of section 1011.61, Florida Statutes, is amended to read:

1011.61 Definitions.—Notwithstanding the provisions of s. 1000.21, the following terms are defined as follows for the purposes of the Florida Education Finance Program:

(1) A “full-time equivalent student” in each program of the district is defined in terms of full-time students and part-time students as follows:

(a) A “full-time student” is one student on the membership roll of one school program or a combination of school programs listed in s. 1011.62(1)(c) for the school year or the equivalent for:

1. Instruction in a standard school, comprising not less than 900 net hours for a student in or at the grade level of 4 through 12, or not less than 720 net hours for a student in or at the grade level of kindergarten through grade 3 or in an authorized prekindergarten exceptional program; or

~~2. Instruction in a double session school or a school utilizing an experimental school calendar approved by the Department of Education, comprising not less than the equivalent of 810 net hours in grades 4 through 12 or not less than 630 net hours in kindergarten through grade 3; or~~

~~2.3. Instruction comprising the appropriate number of net hours set forth in subparagraph 1. or subparagraph 2. for students who, within the past year, have moved with their parents for the purpose of engaging in the farm labor or fish industries, if a plan furnishing such an extended school day or week, or a combination thereof, has been approved by the commissioner. Such plan may be approved to accommodate the needs of migrant students only or may serve all students in schools having a high percentage of migrant students. The plan described in this subparagraph is optional for any school district and is not mandated by the state.~~

(b) A “part-time student” is a student on the active membership roll of a school program or combination of school programs listed in s. 1011.62(1)(c) who is less than a full-time student. *A student who receives instruction in a school that operates for less than the minimum term shall generate full-time equivalent student membership proportional to the amount of instructional hours provided by the school divided by the minimum term requirement as provided in s. 1011.60(2).*

(c)1. A “full-time equivalent student” is:

a. A full-time student in any one of the programs listed in s. 1011.62(1)(c); or

b. A combination of full-time or part-time students in any one of the programs listed in s. 1011.62(1)(c) which is the equivalent of one full-time student based on the following calculations:

(I) A full-time student in a combination of programs listed in s. 1011.62(1)(c) shall be a fraction of a full-time equivalent membership in each special program equal to the number of net hours per school year for which he or she is a member, divided by the appropriate number of hours set forth in subparagraph (a)1. ~~or subparagraph (a)2.~~ The difference between that fraction or sum of fractions and the maximum value as set forth in subsection (4) for each full-time student is presumed to be the balance of the student’s time not spent in a special program and shall be recorded as time in the appropriate basic program.

(II) A prekindergarten student with a disability shall meet the requirements specified for kindergarten students.

(III) A full-time equivalent student for students in kindergarten through grade 12 in a full-time virtual instruction program under s. 1002.45 or a virtual charter school under s. 1002.33 shall consist of six full-credit completions or the prescribed level of content that counts toward promotion to the next grade in programs listed in s. 1011.62(1)(c). Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(IV) A full-time equivalent student for students in kindergarten through grade 12 in a part-time virtual instruction program under s. 1002.45 shall consist of six full-credit completions in programs listed in s. 1011.62(1)(c)1. and 3. Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(V) A Florida Virtual School full-time equivalent student shall consist of six full-credit completions or the prescribed level of content that counts toward promotion to the next grade in the programs listed in s. 1011.62(1)(c)1. and 3. for students participating in kindergarten through grade 12 part-time virtual instruction and the programs listed in s. 1011.62(1)(c) for students participating in kindergarten through grade 12 full-time virtual instruction. Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(VI) Each successfully completed full-credit course earned through an online course delivered by a district other than the one in which the student resides shall be calculated as 1/6 FTE.

(VII) A full-time equivalent student for courses requiring passage of a statewide, standardized end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be defined and reported based on the number of instructional hours as provided in this subsection ~~until the 2016-2017 fiscal year. Beginning in the 2016-2017 fiscal year, the FTE for the course shall be assessment-based and shall be equal to 1/6 FTE. The reported FTE shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment~~

shall be made for a student who enrolls in a segmented remedial course delivered online.

(VIII) For students enrolled in a school district as a full-time student, the district may report 1/6 FTE for each student who passes a statewide, standardized end-of-course assessment without being enrolled in the corresponding course.

2. A student in membership in a program scheduled for more or less than 180 school days or the equivalent on an hourly basis as specified by rules of the State Board of Education is a fraction of a full-time equivalent membership equal to the number of instructional hours in membership divided by the appropriate number of hours set forth in subparagraph (a)1.; however, for the purposes of this subparagraph, membership in programs scheduled for more than 180 days is limited to students enrolled in:

- a. Juvenile justice education programs.
- b. The Florida Virtual School.

c. Virtual instruction programs and virtual charter schools for the purpose of course completion and credit recovery pursuant to ss. 1002.45 and 1003.498. Course completion applies only to a student who is reported during the second or third membership surveys and who does not complete a virtual education course by the end of the regular school year. The course must be completed no later than the deadline for amending the final student enrollment survey for that year. Credit recovery applies only to a student who has unsuccessfully completed a traditional or virtual education course during the regular school year and must re-take the course in order to be eligible to graduate with the student's class.

The full-time equivalent student enrollment calculated under this subsection is subject to the requirements in subsection (4).

The department shall determine and implement an equitable method of equivalent funding for ~~experimental schools and for~~ schools operating under emergency conditions, which schools have been approved by the department to operate for less than the minimum *term as provided in s. 1011.60(2) school day*.

Section 17. Effective July 1, 2016, and upon the expiration of the amendment to section 1011.62, Florida Statutes, made by chapter 2015-222, Laws of Florida, paragraphs (e) and (o) of subsection (1), paragraph (a) of subsection (4), and present subsection (13) of that section are amended, present subsections (13), (14), and (15) of that section are redesignated as subsections (14), (15), and (16), respectively, and a new subsection (13) is added to that section, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(e) *Funding model for exceptional student education programs.*—

1.a. The funding model uses basic, at-risk, support levels IV and V for exceptional students and career Florida Education Finance Program cost factors, and a guaranteed allocation for exceptional student education programs. Exceptional education cost factors are determined by using a matrix of services to document the services that each exceptional student will receive. The nature and intensity of the services indicated on the matrix shall be consistent with the services described in each exceptional student's individual educational plan. The Department of Education shall review and revise the descriptions of the services and supports included in the matrix of services for exceptional students and shall implement those revisions before the beginning of the 2012-2013 school year.

b. In order to generate funds using one of the two weighted cost factors, a matrix of services must be completed at the time of the student's initial placement into an exceptional student education program

and at least once every 3 years by personnel who have received approved training. Nothing listed in the matrix shall be construed as limiting the services a school district must provide in order to ensure that exceptional students are provided a free, appropriate public education.

c. Students identified as exceptional, in accordance with chapter 6A-6, Florida Administrative Code, who do not have a matrix of services as specified in sub-subparagraph b. shall generate funds on the basis of full-time-equivalent student membership in the Florida Education Finance Program at the same funding level per student as provided for basic students. Additional funds for these exceptional students will be provided through the guaranteed allocation designated in subparagraph 2.

2. For students identified as exceptional who do not have a matrix of services and students who are gifted in grades K through 8, there is created a guaranteed allocation to provide these students with a free appropriate public education, in accordance with s. 1001.42(4)(l) and rules of the State Board of Education, which shall be allocated *initially annually* to each school district in the amount provided in the General Appropriations Act. These funds shall be *supplemental in addition* to the funds appropriated for the *basic funding level on the basis of FTE student membership in the Florida Education Finance Program*, and the amount allocated for each school district shall *not* be recalculated *once* during the year, *based on actual student membership from the October FTE survey. Upon recalculation, if the generated allocation is greater than the amount provided in the General Appropriations Act, the total shall be prorated to the level of the appropriation based on each district's share of the total recalculated amount.* These funds shall be used to provide special education and related services for exceptional students and students who are gifted in grades K through 8. ~~Beginning with the 2007-2008 fiscal year,~~ A district's expenditure of funds from the guaranteed allocation for students in grades 9 through 12 who are gifted may not be greater than the amount expended during the 2006-2007 fiscal year for gifted students in grades 9 through 12.

(o) *Calculation of additional full-time equivalent membership based on successful completion of a career-themed course pursuant to ss. 1003.491, 1003.492, and 1003.493, or courses with embedded CAPE industry certifications or CAPE Digital Tool certificates, and issuance of industry certification identified on the CAPE Industry Certification Funding List pursuant to rules adopted by the State Board of Education or CAPE Digital Tool certificates pursuant to s. 1003.4203.*—

1.a. A value of 0.025 full-time equivalent student membership shall be calculated for CAPE Digital Tool certificates earned by students in elementary and middle school grades.

b. A value of 0.1 or 0.2 full-time equivalent student membership shall be calculated for each student who completes a course as defined in s. 1003.493(1)(b) or courses with embedded CAPE industry certifications and who is issued an industry certification identified annually on the CAPE Industry Certification Funding List approved under rules adopted by the State Board of Education. A value of 0.2 full-time equivalent membership shall be calculated for each student who is issued a CAPE industry certification that has a statewide articulation agreement for college credit approved by the State Board of Education. For CAPE industry certifications that do not articulate for college credit, the Department of Education shall assign a full-time equivalent value of 0.1 for each certification. Middle grades students who earn additional FTE membership for a CAPE Digital Tool certificate pursuant to sub-subparagraph a. may not use the previously funded examination to satisfy the requirements for earning an industry certification under this sub-subparagraph. Additional FTE membership for an elementary or middle grades student ~~may shall~~ not exceed 0.1 for certificates or certifications earned within the same fiscal year. The State Board of Education shall include the assigned values on the CAPE Industry Certification Funding List under rules adopted by the state board. Such value shall be added to the total full-time equivalent student membership for grades 6 through 12 in the subsequent year ~~for courses that were not provided through dual enrollment~~. CAPE industry certifications earned through dual enrollment must be reported and funded pursuant to s. 1011.80. *However, if a student earns a certification through a dual enrollment course and the certification is not a fundable certification on the postsecondary certification funding list, or the dual enrollment certification is earned as a result of an agreement between a school district and a nonpublic postsecondary institution, the*

bonus value shall be funded in the same manner as other nondual enrollment course industry certifications. In such cases, the school district may provide for an agreement between the high school and the technical center, or the school district and the postsecondary institution may enter into an agreement for equitable distribution of the bonus funds.

c. A value of 0.3 full-time equivalent student membership shall be calculated for student completion of the courses and the embedded certifications identified on the CAPE Industry Certification Funding List and approved by the commissioner pursuant to ss. 1003.4203(5)(a) and 1008.44.

d. A value of 0.5 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 15 to 29 college credit hours, and 1.0 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 30 or more college credit hours pursuant to CAPE Acceleration Industry Certifications approved by the commissioner pursuant to ss. 1003.4203(5)(b) and 1008.44.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

a. A bonus ~~in the amount~~ of \$25 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.1.

b. A bonus ~~in the amount~~ of \$50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2, ~~0.3, 0.5, and 1.0.~~

c. A bonus of \$75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of \$100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the certification is earned by the student. Any bonus awarded to a teacher under this paragraph ~~may not exceed \$2,000 in any given school year and~~ is in addition to any regular wage or other bonus the teacher received or is scheduled to receive.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) Estimated taxable value calculations.—

1.a. Not later than 2 working days ~~before~~ ~~prior to~~ July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or

an assessment roll change required by final judicial decisions as specified in paragraph (15)(b) ~~(14)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(13) **FEDERALLY CONNECTED STUDENT SUPPLEMENT.**—*The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) real property, and Indian lands. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.*

2. *The student resides on eligible federally owned Indian land. Students with disabilities shall also be reported separately for this category.*

3. *The student resides with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.*

(b) *The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately under subparagraphs (a)1. and (a)2. shall be multiplied by an additional percentage of the base student allocation as provided in the General Appropriations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.*

(c) *The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real*

property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).

(14)(13) **QUALITY ASSURANCE GUARANTEE.**—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (15) (14), quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (15) (14) and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

(2) *Each fiscal year, the amount of funds available for allocation to the Florida College System institutions based on the performance-based funding model shall consist of the state's investment in performance funding plus institutional investments consisting of funds to be redistributed from the base funding of the Florida College System Program Fund as determined in the General Appropriations Act. The State Board of Education shall establish minimum performance funding eligibility thresholds for the state's investment and the institutional investments. An institution that fails to meet the minimum state investment performance funding eligibility threshold is ineligible for a share of the state's investment in performance funding. The institutional investment shall be restored for all institutions eligible for the state's investment under the performance-based funding model.*

(3)(a) *Each Florida College System institution's share of the performance funding shall be calculated based on its relative performance on the established metrics in conjunction with the institutional size and scope.*

improving the institution's performance. The state board must review and approve the improvement plan and, if the plan is approved, must monitor the institution's progress in implementing the activities and strategies specified in the improvement plan. The institution shall submit monitoring reports to the state board by December 31 and May 31 of each year in which an improvement plan is in place. Beginning in the 2017-2018 fiscal year, the ability of an institution to submit an improvement plan to the state board is limited to 1 fiscal year.

(c) *The Commissioner of Education shall withhold disbursement of the institutional investment until the monitoring report is approved by the State Board of Education. A Florida College System institution determined by the state board to be making satisfactory progress on implementing the improvement plan shall receive no more than one-half of the withheld institutional investment in January and the balance of the withheld institutional investment in June. An institution that fails to make satisfactory progress may not have its full institutional investment restored. Any institutional investment funds that are not restored shall be redistributed in accordance with the state board's performance-based metrics.*

(4) *Distributions of performance funding, as provided in this section, shall be made to each of the Florida College System institutions listed in the Florida Colleges category in the General Appropriations Act.*

(5) *By October 1 of each year, the State Board of Education shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous fiscal year's performance funding allocation, which must reflect the rankings and award distributions.*

The board shall adopt benchmarks to evaluate each state university's performance on the metrics to measure the state university's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.*

(2) *Each fiscal year, the amount of funds available for allocation to the state universities based on the performance-based funding model shall consist of the state's investment in appropriation for performance funding, including increases in base funding plus institutional investments consisting of funds deducted from the base funding of each state university in the State University System, in an amount provided in the General Appropriations Act. The Board of Governors shall establish minimum performance funding eligibility thresholds for the state's investment and the institutional investments. A state university that fails to meet the minimum state investment performance funding eligibility threshold is ineligible for a share of the state's investment in performance funding. The institutional investment shall be restored for each institution eligible for the state's investment under the performance-based funding model metrics.*

(3)(a) *A state university that fails to meet the Board of Governors' minimum institutional investment performance funding eligibility threshold shall have a portion of its institutional investment withheld by the board and must submit an improvement plan to the board that specifies the activities and strategies for improving the state university's performance. The board must review and approve the improvement plan and, if the plan is approved, must monitor the state university's progress in implementing the activities and strategies specified in the improvement plan. The state university shall submit monitoring reports to the board by December 31 and May 31 of each year in which an improvement plan is in place. The ability of a state*

For purposes of this subsection, a school district may not require a student to take the online course outside the school day or in addition to a student's courses for a given semester. This subsection requirement does not apply to a student who has an individual education plan under s. 1003.57 which indicates that an online course would be inappropriate or to an out-of-state transfer student who is enrolled in a Florida high school and has 1 academic year or less remaining in high school.

Section 9. Effective July 1, 2016, and upon the expiration of the amendment to section 1011.62, Florida Statutes, made by chapter 2015-222, Laws of Florida, paragraph (a) of subsection (4) of that section is amended, present subsections (13), (14), and (15) of that section are redesignated as subsections (14), (15), and (16), respectively, a new subsection (13) is added to that section, and present subsection (14) of that section is amended, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) **COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.**—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days ~~before~~ ~~prior to~~ July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (15)(b) ~~(14)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(13) **FEDERALLY CONNECTED STUDENT SUPPLEMENT.**—*The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) real property, and Indian lands. To be eligible for this supplement, the district must be eligible for federal Impact Aid Program funds under s. 8003 of Title VIII of the Elementary and Secondary Education Act of 1965. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.*

(a) *The student allocation shall be calculated based on the number of students reported for federal Impact Aid Program funds, including students with disabilities, who meet one of the following criteria:*

1. The student has a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer. Students with disabilities shall also be reported separately for this category.

2. The student resides on eligible federally owned Indian land. Students with disabilities shall also be reported separately for this category.

3. The student resides with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.

(b) The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately under subparagraphs (a)1. and (a)2. shall be multiplied by an additional percentage of the base student allocation as provided in the General Appropriations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.

(c) The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).

(14)(13) **QUALITY ASSURANCE GUARANTEE.**—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (15) (14), quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (15) (14) and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

Section 10. Section 1013.62, Florida Statutes, is amended to read:

1013.62 Charter schools capital outlay funding.—

(1) In each year in which funds are appropriated for charter school capital outlay purposes, the Commissioner of Education shall allocate the funds among eligible charter schools as specified in this section.

(a) To be eligible for a funding allocation, a charter school must:

- 1.a. Have been in operation for 3 or more years;
 - b. Be governed by a governing board established in the state for 3 or more years which operates both charter schools and conversion charter schools within the state;
 - c. Be an expanded feeder chain of a charter school within the same school district that is currently receiving charter school capital outlay funds;
 - d. Have been accredited by the Commission on Schools of the Southern Association of Colleges and Schools; or
 - e. Serve students in facilities that are provided by a business partner for a charter school-in-the-workplace pursuant to s. 1002.33(15)(b).
2. Have financial stability for future operation as a charter school.

3. Have satisfactory student achievement based on state accountability standards applicable to the charter school.

4. Have received final approval from its sponsor pursuant to s. 1002.33 for operation during that fiscal year.

5. Serve students in facilities that are not provided by the charter school's sponsor.

(b) ~~The first priority for charter school capital outlay funding is to allocate to charter schools that received funding in the 2005-2006 fiscal year an allocation of the same amount per capital outlay full-time equivalent student, up to the lesser of the actual number of capital outlay full-time equivalent students in the current year, or the capital outlay full-time equivalent students in the 2005-2006 fiscal year. After calculating the first priority, the second priority is to allocate excess funds remaining in the appropriation in an amount equal to the per capital outlay full-time equivalent student amount in the first priority calculation to eligible charter schools not included in the first priority calculation and to schools in the first priority calculation with growth greater than the 2005-2006 capital outlay full-time equivalent students. After calculating the first and second priorities, excess funds remaining in the appropriation must be allocated to all eligible charter schools.~~

(c) ~~A charter school's allocation may not exceed one fifteenth of the cost per student station specified in s. 1013.64(6)(b). Before releasing capital outlay funds to a school district on behalf of the charter school, the Department of Education must ensure that the district school board and the charter school governing board enter into a written agreement that provides for the reversion of any unencumbered funds and all equipment and property purchased with public education funds to the ownership of the district school board, as provided for in subsection (3) if the school terminates operations. Any funds recovered by the state shall be deposited in the General Revenue Fund.~~

(b)(4) A charter school is not eligible for a funding allocation if it was created by the conversion of a public school and operates in facilities provided by the charter school's sponsor for a nominal fee, or at no charge, or if it is directly or indirectly operated by the school district.

(c) *It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, and other affiliated parties of charter schools. A charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:*

1. Owned by a school district, political subdivision of the state, municipality, Florida College System institution, or state university;

2. Owned by an organization, qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code, whose articles of incorporation specify that upon the organization's dissolution, the subject property will be transferred to a school district, political subdivision of the state, municipality, Florida College System institution, or state university; or

3. Owned by and leased, at a fair market value in the school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For purposes of this paragraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that individually or through one or more entities that share common ownership or control that directly or indirectly manages, administers, controls, or oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, that directly or indirectly

manages, administers, controls, or oversees the operation of any of the foregoing.

(d) The funding allocation for eligible charter schools shall be calculated as follows:

1. Eligible charter schools shall be grouped into categories based on their student populations according to the following criteria:

a. Seventy-five percent or greater who are eligible for free or reduced-price school lunch.

b. Twenty-five percent or greater with disabilities as defined in state board rule and consistent with the requirements of the Individuals with Disabilities Education Act.

2. If an eligible charter school does not meet the criteria for either category under subparagraph 1., its FTE shall be provided as the base amount of funding and shall be assigned a weight of 1.0. An eligible charter school that meets the criteria under sub-subparagraph 1.a. or sub-subparagraph 1.b. shall be provided an additional 25 percent above the base funding amount, and the total FTE shall be multiplied by a weight of 1.25. An eligible charter school that meets the criteria under both sub-subparagraphs 1.a. and 1.b. shall be provided an additional 50 percent above the base funding amount, and the FTE for that school shall be multiplied by a weight of 1.5.

3. The state appropriation for charter school capital outlay shall be divided by the total weighted FTE for all eligible charter schools to determine the base charter school per weighted FTE allocation amount. The per weighted FTE allocation amount shall be multiplied by the weighted FTE to determine each charter school's capital outlay allocation.

~~(e) Unless otherwise provided in the General Appropriations Act, the funding allocation for each eligible charter school is determined by multiplying the school's projected student enrollment by one fifteenth of the cost per student station specified in s. 1013.64(6)(b) for an elementary, middle, or high school, as appropriate. If the funds appropriated are not sufficient, the commissioner shall prorate the available funds among eligible charter schools. However, a charter school or charter lab school may not receive state charter school capital outlay funds greater than the one fifteenth cost per student station formula if the charter school's combination of state charter school capital outlay funds, capital outlay funds calculated through the reduction in the administrative fee provided in s. 1002.33(20), and capital outlay funds allowed in s. 1002.32(9)(c) and (h) exceeds the one fifteenth cost per student station formula.~~

~~(2)(a)(4) The department shall calculate the eligible charter school funding allocations. Funds shall be allocated using distributed on the basis of the capital outlay full-time equivalent membership from by grade level, which is calculated by averaging the results of the second and third enrollment surveys and free and reduced-price school lunch data. The department shall recalculate the allocations periodically based on the receipt of revised information, on a schedule established by the Commissioner of Education.~~

~~(b) The department of Education shall distribute capital outlay funds monthly, beginning in the first quarter of the fiscal year, based on one-twelfth of the amount the department reasonably expects the charter school to receive during that fiscal year. The commissioner shall adjust subsequent distributions as necessary to reflect each charter school's recalculated allocation actual student enrollment as reflected in the second and third enrollment surveys. The commissioner shall establish the intervals and procedures for determining the projected and actual student enrollment of eligible charter schools.~~

~~(3)(2) A charter school's governing body may use charter school capital outlay funds for the following purposes:~~

(a) Purchase of real property.

(b) Construction of school facilities.

(c) Purchase, lease-purchase, or lease of permanent or relocatable school facilities.

(d) Purchase of vehicles to transport students to and from the charter school.

(e) Renovation, repair, and maintenance of school facilities that the charter school owns or is purchasing through a lease-purchase or long-term lease of 5 years or longer.

(f) Effective July 1, 2008, purchase, lease-purchase, or lease of new and replacement equipment, and enterprise resource software applications that are classified as capital assets in accordance with definitions of the Governmental Accounting Standards Board, have a useful life of at least 5 years, and are used to support schoolwide administration or state-mandated reporting requirements.

(g) Payment of the cost of premiums for property and casualty insurance necessary to insure the school facilities.

(h) Purchase, lease-purchase, or lease of driver's education vehicles; motor vehicles used for the maintenance or operation of plants and equipment; security vehicles; or vehicles used in storing or distributing materials and equipment.

Conversion charter schools may use capital outlay funds received through the reduction in the administrative fee provided in s. 1002.33(20) for renovation, repair, and maintenance of school facilities that are owned by the sponsor.

~~(4)(3) If when a charter school is nonrenewed or terminated, any unencumbered funds and all equipment and property purchased with district public funds shall revert to the ownership of the district school board, as provided for in s. 1002.33(8)(e) and (f). In the case of a charter lab school, any unencumbered funds and all equipment and property purchased with university public funds shall revert to the ownership of the state university that issued the charter. The reversion of such equipment, property, and furnishings shall focus on recoverable assets, but not on intangible or irrecoverable costs such as rental or leasing fees, normal maintenance, and limited renovations. The reversion of all property secured with public funds is subject to the complete satisfaction of all lawful liens or encumbrances. If there are additional local issues such as the shared use of facilities or partial ownership of facilities or property, these issues shall be agreed to in the charter contract prior to the expenditure of funds.~~

~~(5)(4) The Commissioner of Education shall specify procedures for submitting and approving requests for funding under this section and procedures for documenting expenditures.~~

~~(6)(5) The annual legislative budget request of the Department of Education shall include a request for capital outlay funding for charter schools. The request shall be based on the projected number of students to be served in charter schools who meet the eligibility requirements of this section. A dedicated funding source, if identified in writing by the Commissioner of Education and submitted along with the annual charter school legislative budget request, may be considered an additional source of funding.~~

~~(6) Unless authorized otherwise by the Legislature, allocation and proration of charter school capital outlay funds shall be made to eligible charter schools by the Commissioner of Education in an amount and in a manner authorized by subsection (1).~~

Section 11. Paragraphs (a) and (b) of subsection (2) and paragraphs (b) through (e) of subsection (6) of section 1013.64, Florida Statutes, are amended to read:

For any school district in which the total actual cost per student station, including change orders, exceeds the statewide limits established in paragraph (b), the school district shall report to the department the actual cost per student station and the reason for the school district's inability to adhere to the limits established in paragraph (b). Senator Latvala moved the following amendment:

Amendment 1 (232004) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Subsection (1) of section 985.686, Florida Statutes, is amended, paragraph (c) is added to subsection (2) of that section, present subsections (9) and (11) of that section are redesignated as sub-

sections (8) and (10), respectively, and subsections (3) through (7) and present subsections (8) and (10) of that section are amended, to read:

985.686 Shared county and state responsibility for juvenile detention.—

(1)(a) It is the policy of this state that the state and the counties have a joint obligation, as provided in this section, to contribute to the financial support of the detention care provided for juveniles.

(b) *The Legislature finds that various Florida counties and the department have engaged in a multitude of legal proceedings regarding detention cost share for juveniles. Such litigation has largely focused on how the department calculates the detention costs that counties are responsible for paying, leading to the overbilling of counties for a period of years. Additionally, such litigation is a financial burden on the taxpayers of Florida.*

(c) *It is the intent of the Legislature that all counties in this state which are not fiscally constrained counties and which have related pending administrative or judicial claims or challenges file a notice of voluntary dismissal with prejudice to dismiss all actions pending on or before February 1, 2016, against the state or any state agency related to juvenile detention cost share. Additionally, all such counties shall execute a release and waiver of any existing or future claims and actions arising from detention cost share prior to the 2016-2017 fiscal year. The department may not seek reimbursement for underpayments of cost share prior to the 2016-2017 fiscal year from counties that comply with this subsection.*

(2) As used in this section, the term:

(c) *“Total shared detention costs” means the amount of funds expended by the department for the costs of detention care for the prior fiscal year, and includes the most recent actual certify forward amounts, less any funds it expends on detention care for juveniles residing in fiscally constrained counties or out of state.*

(3)(a) *For the 2016-2017 state fiscal year each county that is not a fiscally constrained county that has taken the action fulfilling the intent of this legislation as described in (1)(c), shall pay to the department its annual percentage share of \$42.5 million. By June 1, 2016, the department shall calculate and provide to each such county its annual percentage share by dividing the total number of detention days for juveniles residing in that county for the most recently completed 12-month period by the total number of detention days for juveniles in all counties that are not fiscally constrained counties during the same period. Beginning July 1, 2016, each county shall pay to the department its annual percentage share of \$42.5 million, which shall be paid in 12 equal payments due on the first day of each month. The state shall pay the remaining actual costs of detention care. This paragraph expires June 30, 2017.*

(b) *For the 2017-2018 state fiscal year, and each fiscal year thereafter, each county that is not a fiscally constrained county that has taken the action fulfilling the intent of this legislation as described in paragraph (1)(c), shall pay its annual percentage share of 50 percent of the total shared detention costs for the prior fiscal year. By July 15, 2017, and each year thereafter, the department shall calculate and provide to each such county its annual percentage share by dividing the total number of detention days for juveniles residing in the county for the most recently completed 12-month period by the total number of detention days for juveniles in all counties that are not fiscally constrained counties during the same period. The annual percentage share of each county that is not a fiscally constrained county must be multiplied by 50 percent of the total shared detention costs to determine that county's share of detention costs. Beginning August 1 of each year, each county shall pay to the department its share of detention costs, which shall be paid in 12 equal payments due on the first day of each month. The state shall pay the remaining actual costs of detention care. Each county shall pay the costs of providing detention care, exclusive of the costs of any pre-adjudicatory nonmedical educational or therapeutic services and \$2.5 million provided for additional medical and mental health care at the detention centers, for juveniles for the period of time prior to final court disposition. The department shall develop an accounts payable system to allocate costs that are payable by the counties.*

(4) ~~Notwithstanding subsection (3),~~ The state shall pay all costs of detention care for juveniles *residing in for which a fiscally constrained county and for juveniles residing out-of-state would otherwise be billed. The state shall pay all costs of detention care for juveniles housed in state detention centers from counties that provide their own detention care for juveniles.*

(a) ~~By October 1, 2004, the department shall develop a methodology for determining the amount of each fiscally constrained county's costs of detention care for juveniles, for the period of time prior to final court disposition, which must be paid by the state. At a minimum, this methodology must consider the difference between the amount appropriated to the department for offsetting the costs associated with the assignment of juvenile pretrial detention expenses to the fiscally constrained county and the total estimated costs to the fiscally constrained county, for the fiscal year, of detention care for juveniles for the period of time prior to final court disposition.~~

(b) ~~Subject to legislative appropriation and based on the methodology developed under paragraph (a), the department shall provide funding to offset the costs to fiscally constrained counties of detention care for juveniles for the period of time prior to final court disposition. If county matching funds are required by the department to eliminate the difference calculated under paragraph (a) or the difference between the actual costs of the fiscally constrained counties and the amount appropriated in small county grants for use in mitigating such costs, that match amount must be allocated proportionately among all fiscally constrained counties.~~

(5) Each county that is not a fiscally constrained county shall incorporate into its annual county budget sufficient funds to pay its annual percentage share of the total shared detention costs required under subsection (3) of detention care for juveniles who reside in that county for the period of time prior to final court disposition. This amount shall be based upon the prior use of secure detention for juveniles who are residents of that county, as calculated by the department. Each county shall pay the estimated costs at the beginning of each month. Any difference between the estimated costs and actual costs shall be reconciled at the end of the state fiscal year.

(6) ~~Funds paid by the counties to the department pursuant to this section must be deposited~~ Each county shall pay to the department for deposit into the Shared County/State Juvenile Detention Trust Fund ~~its share of the county's total costs for juvenile detention, based upon calculations published by the department with input from the counties.~~

(7) ~~The department of Juvenile Justice shall determine each quarter whether the counties of this state are remitting funds as required to the department their share of the costs of detention as required by this section.~~

(8) ~~The Department of Revenue and the counties shall provide technical assistance as necessary to the Department of Juvenile Justice in order to develop the most cost effective means of collection.~~

(9)(10) This section does not apply to a any county that provides detention care for preadjudicated juveniles or that contracts with another county to provide detention care for preadjudicated juveniles.

Section 2. Subsection (2) of section 985.6015, Florida Statutes, is amended to read:

985.6015 Shared County/State Juvenile Detention Trust Fund.—

(2) The fund is established for use as a depository for funds to be used for the costs of pre-disposition juvenile detention. Moneys credited to the trust fund shall consist of funds from the counties' share of the costs for pre-disposition juvenile detention.

Section 3. Paragraph (a) of subsection (11) of section 985.688, Florida Statutes, is amended to read:

985.688 Administering county and municipal delinquency programs and facilities.—

(11)(a) Notwithstanding the provisions of this section, a county is in compliance with this section if:

2. The county authorizes the county sheriff, any other county jail operator, or a contracted provider located inside or outside the county to provide ~~preadjudication~~ detention care for juveniles;
3. The county sheriff or other county jail operator is accredited by the Florida Corrections Accreditation Commission or American Correctional Association; and
4. The facility is inspected annually and meets the Florida Model Jail Standards.

Section 4. *The sum of \$7.3 million in recurring General Revenue funds is appropriated to the Department of Juvenile Justice for the purpose of implementing s. 985.66, Florida Statutes, as amended by this act. For the 2016-2017 fiscal year, an additional sum of \$3.5 million in nonrecurring General Revenue funds is appropriated to the department for the same purpose.*

Section 5. This act shall take effect upon becoming a law.

And the title is amended as follows:

Amendment 1 (836088) (with title amendment)—Between lines 468 and 469 insert:

Section 7. Paragraph (b) of subsection (3) of section 319.30, Florida Statutes, is amended, and paragraph (c) is added to that subsection, to read:

319.30 Definitions; dismantling, destruction, change of identity of motor vehicle or mobile home; salvage.—

(3)

(b) The owner, including persons who are self-insured, of a motor vehicle or mobile home that is considered to be salvage shall, within 72 hours after the motor vehicle or mobile home becomes salvage, forward the title to the motor vehicle or mobile home to the department for processing. However, an insurance company that pays money as compensation for the total loss of a motor vehicle or mobile home shall obtain the certificate of title for the motor vehicle or mobile home, make the required notification to the National Motor Vehicle Title Information System, and, within 72 hours after receiving such certificate of title, forward such title to the department for processing. The owner or insurance company, as applicable, may not dispose of a vehicle or mobile home that is a total loss before it obtains a salvage certificate of title or certificate of destruction from the department. *Effective July 1, 2023:*

1. *Thirty days after payment of a claim for compensation pursuant to this paragraph, the insurance company may receive a salvage certificate of title or certificate of destruction from the department if it is unable to obtain a properly assigned certificate of title from the owner or lienholder*

of the motor vehicle or mobile home, if the motor vehicle or mobile home does not carry an electronic lien on the title and the insurance company:

a. *Has obtained the release of all liens on the motor vehicle or mobile home;*

b. *Has provided proof of payment of the total loss claim; and*

c. *Has provided an affidavit on letterhead signed by an authorized agent of the insurance company stating the attempts which have been made to obtain the title from the owner or lienholder and further stating that all attempts are to no avail. The affidavit must include a request that the salvage certificate of title or certificate of destruction be issued in the insurance company’s name due to payment of a total loss claim to the owner or lienholder. The attempts to contact the owner may be by written request delivered in person, by e-mail, or by first-class mail with a certificate of mailing to the owner’s or lienholder’s last known address.*

2. *If the owner or lienholder is notified of the request for title at its last known e-mail address and the insurance company does not receive a response, return receipt, or delivery confirmation from that e-mail address, the insurance company shall send the request for title by first-class mail with a certificate of mailing to the owner’s or lienholder’s last known address.*

3. *If the owner or lienholder is notified of the request for title in person, the insurance company must provide an affidavit attesting to the in-person request for a certificate of title.*

4. *The request to the owner or lienholder for the certificate of title must include a complete description of the motor vehicle or mobile home and the statement that a total loss claim has been paid on the motor vehicle or mobile home.*

(c) When applying for a salvage certificate of title or certificate of destruction, the owner or insurance company must provide the department with an estimate of the costs of repairing the physical and mechanical damage suffered by the vehicle for which a salvage certificate of title or certificate of destruction is sought. If the estimated costs of repairing the physical and mechanical damage to the mobile home are equal to 80 percent or more of the current retail cost of the mobile home, as established in any official used mobile home guide, the department shall declare the mobile home unbuildable and print a certificate of destruction, which authorizes the dismantling or destruction of the mobile home. For a late model vehicle with a current retail cost of at least \$7,500 just prior to sustaining the damage that resulted in the total loss, as established in any official used car guide or valuation service, if the owner or insurance company determines that the estimated costs of repairing the physical and mechanical damage to the vehicle are equal to 90 percent or more of the current retail cost of the vehicle, as established in any official used motor vehicle guide or valuation service, the department shall declare the vehicle unbuildable and print a certificate of destruction, which authorizes the dismantling or destruction of the motor vehicle. However, if the damaged motor vehicle is equipped with custom-lowered floors for wheelchair access or a wheelchair lift, the insurance company may, upon determining that the vehicle is repairable to a condition that is safe for operation on public roads, submit the certificate of title to the department for reissuance as a salvage rebuildable title and the addition of a title brand of “insurance-declared total loss.” The certificate of destruction shall be assignable a maximum of two times before dismantling or destruction of the vehicle is required, and shall accompany the motor vehicle or mobile home for which it is issued, when such motor vehicle or mobile home is sold for such purposes, in lieu of a certificate of title. The department may not issue a certificate of title for that vehicle. This subsection is not applicable if a mobile home is worth less than \$1,500 retail just prior to sustaining the damage that resulted in the total loss in any official used mobile home guide or when a stolen motor vehicle or mobile home is recovered in substantially intact condition and is readily resalable without extensive repairs to or replacement of the frame or engine. If a motor vehicle has a current retail cost of less than \$7,500 just prior to sustaining the damage that resulted in the total loss, as established in any official used motor vehicle guide or valuation service, or if the vehicle is not a late model vehicle, the owner or insurance company that pays money as compensation for the total loss of the motor vehicle shall obtain a certificate of destruction, if the motor vehicle is damaged, wrecked, or burned to the extent that the only residual value of the motor vehicle is as a source of parts or scrap

metal, or if the motor vehicle comes into this state under a title or other ownership document that indicates that the motor vehicle is not repairable, is junked, or is for parts or dismantling only. A person who knowingly violates this paragraph or falsifies documentation to avoid the requirements of this paragraph commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

And the title is amended as follows:

Between lines 40 and 41 insert: 319.30, F.S.; authorizing insurance companies to receive a salvage certificate of title or certificate of destruction from the department after a specified number of days after payment of a claim as of a specified date, subject to certain requirements; requiring insurance companies seeking such title or certificate of destruction to follow a specified procedure; providing requirements for the request; amending s.

PRAYER

The following prayer was offered by Senator Altman:

Heavenly Father, all powerful, all loving God, creator of the universe, creator of everything that is good: You have placed us here at this point in time, in this special place here in the universe called Florida. You have given us dominion; you have given us authority; and you have given us the opportunity to exercise wisdom and judgment.

We pray for your guidance. We turn to you for your wisdom and we work hard to implement your will. We look to you for power, understanding, patience, but most of all, love. We look to you to enable us to work together in harmony. This is the day that you have made and we give you thanks for these wonderful gifts. We pray this in your name. Amen.

A video tribute was played honoring President Gardiner.

REMARKS

On motion by Senator Simmons, by two-thirds vote, the following remarks were ordered spread upon the Journal:

Senator Braynon: Andy made me make a lot of promises about my language and everything I said in my remarks, so I'm going to definitely try to be not the "Angry Andy." You know, the whole thought process behind why we created "Angry Andy" is because Andy's genuinely just a nice guy and, you know, he just really—it's hard for him to say no to people, it's hard for him to tell people when he's upset or anything—it's rare in this process that you find somebody that is just a genuine, nice, great, and good-hearted guy. That's one of the reasons—see and he's always crying up there, and now you're going to make me cry.

I've served in the Senate for about four years now and I guess—coming from the House, the Speaker is so far from you when you're a Democrat—it was just somebody that's sitting up there. Even in our seating chart, when they were a Republican member with you, they were sitting in front of you.

Well, when you come to the Senate, you get to know your presiding officer. Well, this was the presiding officer that when I had a personal issue or anything, I would go sit in his office and I'd just talk to him. He was a friend beyond just being a President.

I'm going to really miss you. I'm going to miss the relationship we had, and anytime you have anybody that's not treating you right, just let your Angry Interpreter know and I'll come and let 'em know.

Senator Gibson: When I first went to the House in 2002, I met Andy. I thought he was a little stiff, but what I've realized is that he just had good posture. During his presidency, I've really come to learn much more about him. Obviously he wasn't stiff because I remember that "Make it Rain" video that he did for the press skit.

One of the greatest things I appreciate about him is his love for family. I mentioned this morning how much family means to me. I see the love and care that he gives to his wife and every one of his children. That's what made him a great President, because family is first. When you come from good roots, through both of the parents of Andy and Camille, it shows in every single thing that you do.

I've appreciated so much the fact that we were able to get out of here early, because I know family was important to you. You know how important family is to the most of us. So, we could never go wrong having a leader like you who understands where everything emanates from. I appreciate you very, very much. I certainly will miss you presiding. I appreciate the relationship that we have developed, not just during your presidency, but in working with you in the Senate. Thank you.

Senator Detert: I've known Andy Gardiner 16 years. We sat next to each other in the House. At one point we didn't always agree on issues; mostly didn't. One time he turned to me and he said, "You're

voting for my bill, right?" I said, "Ah, no." Then he said, "But you sit next to me." I said, "Well then, you'll have to move my chair."

I knew President Gardiner before they had children, and I've got to say, it's been a remarkable pleasure to watch your kids grow and to see what a beautiful family you have. Your wife gets prettier every year. We all remember when Andrew was born. One thing that impressed me is when we swore you in as President, to hear the story of your parents. Those are the kind of parents every kid in the world would love to have, and if everybody had those kind of parents, we wouldn't need to spend a lot of money on most of the problems we're spending a lot of money on.

I was going to save this for my remarks for tomorrow, but I wanted to take the opportunity to personally thank you, President Gardiner, for all the help you've given me on Loveland School. What a great project it's going to be. I hope you will come to the groundbreaking. So, we'll miss you when you are gone but hope to see you in Orlando.

Senator Stargel: Similar to what I said with Senator Altman, I met you through your wife. When my husband was in the House and you were in the House at the time, we would frequently sit up and watch the bills and watch the process. It's so interesting to hear the wife's perspective of the angst, the passion, and the efforts at home that people put into their bills; knowing you from that perspective and then getting to come over here.

You hear all these things about a liberal Senate and, "the liberal Senate did this," and "the liberal Senate did that," but the fact that "the liberal Senate" was able to select a man such as your stature, with your conservative values, with your love of family, and with your love for looking out for the people who maybe don't have a lot of people up there in a lobby corp—who are up there lobbying for them. The things that you've done in this Senate and in this body to further the "little person," the person who doesn't have a voice of their own, the people with unique abilities, the unborn, the people who are on Medicaid and things like that. You've actually run this Senate with the passion of your heart, of what was important to you—not by the bucks, not by the donors, not by the people who pay to be a part of this process—but because it was the right thing to do.

When we've had an issue and come to you, you've been respectful to all the members—the Democrats, the Republicans—you know that we all had our own agenda that we wanted to accomplish. Sometimes we would have liked you to just rule with an iron fist and say, "We're going to do it this way, and not regard those people," but you didn't do that; you did what you thought was best. You knew we all came up here with a passion for what we wanted to accomplish and I thank you. I'm honored to have served in the Senate with you. I look forward to seeing you when you get back to Orlando and working with Camille on many things in the future.

Senator Sobel: Well, first of all, you have a wonderful family—especially your wife and your mother-in-law, who are from Brooklyn—yes, they are fantastic women and your children are beautiful.

I've been in the Legislature 16 years and I'm really proud that, finally, we have a champion for people with unique abilities. We will make a change in the history of the State of Florida that will have such a tremendous impact on kids—whether they're early steps or whether they're in universities. We will see that changes to people with unique abilities will have the opportunities that they deserve—a different perspective on how we view these young children and young adults.

Thanks to this body—which supported you in every way that they could to make this happen—it wouldn't have happened without the rest of us, but you led the way, the charges, and we followed, we actually followed. Some day we will see in our universities and in our youngsters excelling, exceeding, and doing all the things that they could possibly do, and contribute to our society.

I like it when you say, "Don't fear the debate, don't fear the debate." President Gardiner often says that and we just had a tremendous debate on marijuana, we heard all sides, and we voted our conscience—that's what the Senate is about—hearing the debate, working together, coming up with possible solutions, and moving forward. So I thank you for your leadership, from the bottom of my heart, and so will thousands and thousands of youngsters who appreciate what you did today—you and your family—for future generations. Thank you very much.

Senator Ring: President Gardiner, Andy, a few things: First, I want to tell you one of the most enjoyable times I've had this year was when your father and I got to spend quite a bit of time speaking about a month ago. I think we caught each other up for about 30 or 40 minutes—Mr. Gardiner, that was quite a pleasure, thank you, it really was.

So, I'll say a couple of things about you. Number one, we've known each other since I got here. What I marveled at were a few things: First, you knew why you came to elected office—you got it, you had a reason, you had a purpose, and you had a thesis for doing it. You've achieved why you came and everyone obviously has spoken about it before and will after. It's always good to go through anything in life and know why you're actually doing it; that's important. I think that's a lesson for anybody that wants to get into the political world: First and foremost, ask yourself, "Why are you doing this?" You had an answer, you knew why.

Second, and I would say this—as a number of us are terming out—to any future Senate and future presiding officers, what you brought to the Florida Senate and what has been here ever since I was elected—and I think it's so critical and important that it stays—I think you brought it to a whole new level, is the idea of family. We're all in this room together, and sometimes it is us versus them—"them" could be the House or "them" could be the middle of the chamber over there with all the lobbyists—but when the Florida Senate is at its best, it's at its best when it's "us." On multiple occasions that we could list off, you've turned the Senate into "us" and you've created "us" as a family.

The third part about it is speaking, obviously, as someone who is a member of the minority party—yes, every so often we see the 26-14 votes, and that happens—but more times than not, it's not about that. It's not about what political party you are from. You represent half a million people and that makes you an equal as a Senator. I think that was demonstrated several years ago when we had a special session on the contentious issue of the rail, high-speed rail, and SunRail. You were able to ensure—President Atwater was the President at the time—that a Democrat, myself, would be the sponsor of that major piece of legislation—the only piece of legislation we were doing in that special session, that it was called for. So, when you come into politics and you're a member of the minority party—vast minority party—you're certainly not expecting that you're going to be handed the key and only piece of legislation to do during an actual special session. What I don't know if other members know is you weren't Senate President at the time, but you were the one that pushed for me to get that bill. I knew that and I certainly appreciated it, and all the other work that we've worked closely together on we've tried to help children that have unique abilities and everyone else will talk about that because, obviously, that's a legacy that will live past the hundred years that you'll be up on the wall. Thank you.

Senator Hays: Mr. President, I know that behind every successful man is a wonderful wife and a surprised mother-in-law. I'd like to thank both those ladies for sharing you with us, and your entire family, for sharing you with the people of Florida and with the Senate. I also know that behind every successful leader, there's a good team of other leaders that leader has chosen. You've put together a very good team of leaders to raise the hopes of people across Florida, and I certainly respect you for that and the manner in which you have conducted business here. It's been a joy to work with your leadership team and to be a part of it.

Frequently, people say, "Well, tell me about Andy." Unlike Alan, who's loud and boisterous, your favorite expression I think is, "I'm just trying to get Hays to tell you what he really thinks, or come out of his shell." I've been out of my shell a long time! I tell folks, Andy is not like Alan at all—he's very quiet—but he who interprets that quietness as weakness is about to make a very big mistake because you're a picture of strength, when strength needs to be shown. I need a little more of that quietness myself. It would help me sometimes. I appreciate what you've done as our President; I thank you for your leadership; I thank you for your dedication to the task; and certainly have tremendous respect and love for you and your family. It's been a joy to serve with you. Thank you.

Senator Simmons: Senators, I met President Gardiner in probably 2000, when we were both elected to the Florida House of Representatives—part of that famous class of 2000. I remember our Speaker at that time telling each one of us saying, "I see out there in this class

senators, congress people, governors,” and lo and behold, 16 years later, obviously, Senate President.

It is amazing how life throws curves at you, and you have relationships with people you never thought you would have a relationship with, or just how close that relationship can become. For each of us, I know that I measure character not by what life throws at you or challenges you with, but how you respond to it. Character is measured by how you treat other people, specifically people you don't have to treat in a way that they might want to be treated. Character is measured by once you have been given the authority and the power how you treat other people. Character is measured by judicious conduct, fairness, and the constants that, even under stress, those characteristics that you have of honesty and decency remain.

I didn't know until we were in the Senate that President Gardiner and I are fraternity brothers. We laugh about that we have never given each other the secret handshake. The fact of it is that you are a man of character, and Camille, you are a wonderful, wonderful, wife, mother, and leader. You are more than a brother, you are a friend—a great friend. Thank you so much for the opportunity to be a part of your life. Thank you.

Senator Bean: Good afternoon to the Florida Senate and the Wood and Gardiner family. We are glad to have you here. What a big day it is. I had the opportunity to speak on Andy's nomination when we launched this whole leadership thing for the Gardiner family, and yes, we did talk about the class of 2000. There are some great leaders. Our leader of the class of 2000, there is Tom Feeney, Speaker Feeney as we like to refer to him. There's Jeff Atwater from that class of 2000, Chair Simmons, Negron, and so many others. That was a big class and that is where we got the start to our relationship with Andy Gardiner.

Now, I am not big on titles or names or whatnot, but let me tell you the nickname many people in the lobbying corp had for me for the years 2000 to about 2008, which was basically my tenure in the Florida House. The nickname they had for me was, “Andy.” How about that? They called me Andy all the time. I got to like it because, hey, they are thinking of me as up there with Andy Gardiner, and so I answered to basically everything right there. Let me tell you about a particularly awkward day, in fact, it was pictured on the photo montage that we just played earlier. That was just an extremely awkward day when President Gardiner and I wore the exact same suit. How about that? Extremely awkward. We came and we looked at each other. What was even more awkward was that 72 percent of the readers of People Magazine said that President Gardiner wore it better. That was really hard for me to overcome. That was a fun day. We actually milked it for all it was worth.

Let me tell you something. During that nomination speech that I got to second, we talked about his life and the life that Andy Gardiner leads with his family. He is the George Bailey from “It's a Wonderful Life” in our state. The richest man in the Florida Senate with his family sitting beside him is no doubt Andy Gardiner. I am pleased to be confused with him based on his reputation, his love of family. I know Abby wishes she were here today to say, “We salute you Andy Gardiner,” for all that you have done, all that you have stood for, and we are looking forward to seeing the next chapter in your life. We know family is going to be based out of it. Here is to you my friend. God bless you and Godspeed.

Senator Richter: Andy, I would like to address my comments to Andrew, Joanna, and Kathryn. I have had such great fun watching these three beautiful children stare at you with their eyes and watch their chests swell with pride. The pride that they have in their dad, it has been just phenomenal. Every time Andrew comes into this chamber, we do what Andrew? I recall when you were made President, he gave his mom a rub on the head. What a beautiful family. I met President Gardiner for the first time in the lunchroom in the House, seated at a lunch table with Loranne Ausley, you, and me. You won't remember this, but I walked away from that lunch thinking this guy has got to be a nut. They were talking about how far they ran every morning. He would run further every morning than I would drive every week. What a runner. But one thing that showed was everybody knew that Andy Gardiner was always in for the long haul.

When I think of President Gardiner the word that comes to my mind is class. I didn't know you much in the House. I didn't really get to know you until the last four, maybe five or six years here in the Senate, but

class is what comes to my mind. The “C” in class, first off, stands for commitment. The commitment that you have made to your family. The commitment you have made to your priorities. The commitment that you have made to the long run. The “C” also stands for consistent, because you have never swayed from that commitment. You have been consistent. If this montage that we saw this morning was done after we take the pictures here today and those pictures were added to this montage, the pictures of the unveiling of your picture and your family here would not be the picture that you are most proud of. The picture that I am sure you are most proud of was the picture when the Governor signed into legislation the bill that you carried under your arm, in your heart, and in your back pocket on every run that you ever made—mile, after mile, after mile. What a difference that was.

The “C” in class stands for composure. Goodness knows you needed composure, especially last year and this year. The “C” stands for composure. One of the things that you have said in your office on many times, much more than just once, “Doggone it. We are going to be the adults in the room”—composure.

The “L” in class stands for leadership; the leadership that your colleagues have expressed here; the leadership that you have delivered here; the leadership that “L” stands for. It not only stands for leadership, the “L,” more importantly, stands for being a loving father to Andrew, Joanna, and Kathryn—the loving father that you are to them and the loving husband that you are to Camille. It stands for the leadership that you carried from the chamber to here in Tallahassee.

The “A” in class stands for advocate. One thing you have always advocated for is the right thing. If it is the right thing, you want to look up and see who is advocating for it, it is going to be President Gardiner.

The first “S” in class stands for successful. You have gone through the House, you mentioned you were an aide in the House, Majority Leader in the House, then into the Senate, and President of the Senate. That is success. More importantly, the success is measured not only by what you have done for the State of Florida, but your success will be measured in the years ahead as you watch these three beautiful children grow and make you very, very proud. That is what the “S” stands for. It also stands for sincere, because I know you are going to sincerely continue to push for their success so that the success you have they will carry with them on their runs throughout their life.

The last “S” in class stands for something that I know that you are really looking forward to. It stands for sine die.

Senator Smith: Andy moved my parking spot this year and put me on some committees that I really didn't want to be on, so I want to add to his misery today. He is hating life right now. This is the most modest human being I know. Andy does so much for all of us and he is hating life. He is hating that 39 people are going to get up and say good stuff about him. He would rather be up there working on our issues, working on things to make this state Florida. But we have to take this time to say how we feel about him.

I'll just tell a quick story, about one incident that happened about two years ago. Andy and I worked together on some funds for the Urban League, a great program they have that we are continuing. If you are working on the budget, make sure you work that out. So the Urban League said, “We are going to honor you and Senator Gardiner who worked hard on this.” So I called Senator Gardiner and said, “Andy, you know the Urban League wants to do this award for us because this is a great program.” So I told him the date and he said, “Man, my kid's birthday is the next day. We have to get ready for this party and everything.” But in typical Andy fashion he said, “You know what? I would love to come to your district and stand on the stage with you.” So, the day before his kid's birthday, when he is going to have family members and all kind of stuff going on, Andy drove all the way down to Broward County that night just to come to that dinner. Now the great part about it is when he got to Port Everglades, even though he's flown all around this country and done a lot of things, they wouldn't let him in Port Everglades because his license was expired. So, you have done a great job of making sure we have good security at Port Everglades.

So, Andy, as we go forward, next time you cross County Line Road coming into Broward, just give me a holler and I'll vouch for you. Thank you.

Senator Thompson: Senators, I'm from Orange County so I have known of Andy Gardiner for a long time. I knew Andy when he was with the Chamber of Commerce. I knew Andy when we worked on some things with the YMCA together. But I had not really known him, I had known of him.

When I was elected to the Senate, I went to the softball game that the firefighters organize every year. President Gardiner was there, and he was playing on the side of the Republicans and I was cheering for the Democrats. Well, you all know that the Democrats always lose that game. I had an issue that I needed his help with, so I went to see him in his district office on Michigan. I don't remember now what the issue was, but I remember his office being very organized. On his desk, he had a baseball glove. While we talked, he moved the glove from here to there, and toward the end of the meeting I said, "Is this a reminder, this baseball glove, of how badly you all plan to beat us next year when the Democrats play the Republicans?" So he laughed and said, "Oh no, that's not what this is about." I said, "Well, I thought you put it there to kind of intimidate me and let me know that you were gonna win." And sure enough, when we played them again, the Republicans won. Not only did they win, they ran up the score. We had like a basketball score of 56 to 4, or something like that. So every year, I do not look forward to that game because I pretty much know what the outcome is going to be. The other thing about those softball games is that Andy Gardiner would seek me out. He would find me and come and sit with me to establish rapport. We would talk about any number of things just to get to know each other as individuals.

I know that I'll be seeing you in Orlando. I'm sure we will be working on some things in common. Now that you are leaving and you won't be playing on the softball team, maybe the Democrats can win. Thank you.

Senator Soto: President Gardiner and I met under very unique circumstances: I ran against him in the 2006 election! It was under an interesting set of circumstances where one or two Democrats actually had a shot at winning, so several of us filed in different seats to make sure they were contested. I'm just glad we kept it clean—particularly now. I consider the President not only our President, but also a neighbor of mine. He lives about five miles away from us and his house is a little nicer than mine—truth be told.

The main reason why I'm up standing today is because, Mr. President, you've been a champion for Central Florida, from the beginning—particularly at a time when there was so much growth and so much of a need for help. From 2000 onward, our community has progressed by leaps and bounds. Your fight to help with the springs, which, they're under attack in Central Florida, is critical; for SunRail; Medical City at Lake Nona; UCF Medical School; downtown venues; and hopefully we'll add a downtown campus and sensors this year.

So I want to thank you for being a champion for Central Florida and also for helping so much with projects that I've worked on with you, that may happen to be in my district, but also are going to help out all over Central Florida. Thanks for being our champ, Andy. I appreciate it.

Senator Altman: We all have these amazing experiences here in the Senate and in the House. Most of them are public, where we're involved in some public issue, but also, just the remarkable experiences we have. We have incredibly uplifting and life-changing personal experiences. I want to thank President Gardiner for making that happen for me.

Over in the House, we had a very active group. Every Wednesday morning we would meet with a prayer meeting, a prayer breakfast type of meeting, where people would come together. This group was made up of all faiths: Jewish faith, Catholics, Protestants, and Evangelicals; very diverse men and women. It was a time we would come together and really pray for members, family members, and staff who had challenges, share experiences, get to know each other on a very deep and personal level. What I learned about Andy Gardiner is that he is a remarkable man of deep, spiritual faith, and that's what drives him. That particular year, Andy was our leader in the prayer group, and he selected this series of tapes following the book "The Purpose Driven Life," by Rick Warren. Now that's a big deal. Rick Warren was the Evangelical that hosted the public forum on the presidency with Barack Obama and John McCain the first time they met in public, and get this, he did it for the purpose of restoring civility in our civil discourse. Wow, that's appropriate in today's world, isn't it? So we did the series of tapes and lo and

behold, I go to the last meeting, and who's there leading the group? Rick Warren himself. I realized then, this Andy Gardiner is a remarkable guy. When he does something he does it right.

We got to meet Rick Warren. We went to the Governor's Mansion with Governor Bush and had dinner. It was a life-changing experience, the greatest personal experience I've had in my 14 sessions, and I want to thank Andy for that. I want to thank him for his spiritual leadership, his heart is in the right place. It's so good to know that we have leaders—and I can say that about all the members here—there's a strong, spiritual driver in this process to do the right thing, to do God's will, to do what's right for the people of Florida. Thank you for your leadership in that prayer group and your spiritual leadership as well.

Senator Garcia: I was going to start off with a joke, but I am not going to go there. Anyway, you stand up and you wonder what are you going to say about Andy? Andy is such a great guy. He is such a humble guy and we all know that he is, but—Mr. President—I have to say thank you. Thank you for being a leader amongst leaders. You truly have been and truly are. You empowered us in this chamber like I have never seen before. You have empowered the determined to do what they think is right. You have empowered the Senate to take the stand on principle. You empowered each individual member to fight for what we believe in and I know all of us can agree with that because that is what you have done. That is who you are. It wasn't about you, but it was about us and about the residents that we represent. So, Mr. President, and to your family from Orlando that is here, he is not a politician. He truly is a public servant, and it has been an honor for me to serve under Andy Gardiner.

I want to say that I am going to miss him, but I'm really not. I really want you to go because I am tired of working this hard. I have never worked this hard in my life, but—Mr. President—the truth is, that number one, I did not want to disappoint this institution and, number two, I didn't want to disappoint you.

The moment that you asked me to be chairman of the Health Appropriations Committee, I asked, "Are you serious? Are you sure you want to do that?" He saw something in me that I didn't and, Mr. President, for that I will always be eternally grateful. You are not only a President but you are my friend and I thank you for that. Senator Braynon, you got up and said Andy can't say no to anyone. He has said "no" to me plenty of times. So I must be doing something really wrong. But, he has always said it with a smile on his face.

Camille, thank you for giving up Andy to make sure that he leads this Senate and now that you are going home, Mr. President, you have a friend in Miami. I know you are scared of living in Miami Beach. We had a fundraiser in Miami Beach and it happened to be at the Fontainebleau. Do I not go there? But anyway, you should have seen him walking in with his Dockers pants and his plaid shirt. I said, "Mr. President, no, not on the beach. That is not how you dress on the beach."

Anyway, Mr. President, it has been an awesome endeavor to work with you. I will miss you, thank you, and Godspeed Mr. President. Take care.

Senator Flores: I was elected in 2004 in the House. Speaker Bense was my first Speaker and Leader Gardiner was the Majority Leader. As a freshman member of the House, you see the Majority Leader and you know that this is someone who is a big deal. Someone who you don't cross. That was kind of like "House me," not "Senate me." Sorry Leader Galvano and actually Leader Gardiner. At the time, in the House, when I was starting, I said we should not mess with this guy and I knew he was a big deal and I wondered why that was the case. Over the years, we realized that it was because of many of the things that some folks have said, but the real, real reason is because you have a super awesome, amazing wife who is Catholic and Italian. Italian women from the Bronx are almost the same as Cuban women from Miami. So I think that it was more like a healthy level of respect and maybe fear. You were always an incredible leader.

I remember your last session ended with making the very difficult decision about what to do with the issue of insurance companies covering students with autism and other unique abilities and disabilities. At the time it was so hard for us because it was similar to other debates that we have had here in the past. Do you do the right thing for a couple of people when what we really should be fighting for is to do the right

thing for a lot of people? We went back and forth and it was a tough decision for Andy, at the time, because he said, "I know that I could block this, but we have to do the right thing for the people that we can help at the time." We have had opportunities since then to come back, but that was a really difficult decision and I think it was an incredible testament to your leadership to say, "I am going to put myself aside to do what is right for other people."

In 2009, I decided that it would be a really great idea to maybe come over to the Senate in 2010. So I walked over here, and that was also something at the time, well there are a couple House members in here, but at the time, House members just didn't come to the Senate. It was scary and very intimidating, but Senator Gardiner had asked me to talk to him and get some advice about running for the Senate. The particular race I was contemplating was against a couple of individuals who were "tough guys." His advice was, "Listen, you want to do this for the right reasons and you should go for it. Don't be afraid of the tough guy. Don't be afraid of what people are saying. Don't be afraid of everyone saying that you shouldn't do this. If you want to do this because it is for the right reason, then you should." So, we joined in 2010, and I have been honored to be part of Team Andy and Team Gardiner since the very first day when we had to go up against the tough guy, the establishment, and people on the other side when it wasn't popular.

You have always made the right decision. I think that people across the state, not just today, but for generations to come are going to look at the issues that you have championed and know that you have made an incredible difference. To stand up for issues of life is something that is just not popular. I don't think there has ever been a presiding officer that has said, "This is part of my agenda. We are going to get this done." That is so incredible because you think of the difference that you have made and the lives that you have saved and it means a lot to so many different people. There will be people that you will never meet that are here on this earth because of the decisions that you have made. I think that is incredibly powerful.

We have had some losses along the way as well, but we have had mostly wins. Those of you that know me know that I am a very competitive person. I like to be on the winning side and so luckily with Leader/President/Senator Gardiner at the helm, we have had more wins than losses. We have also had a little bit of fun.

So, I will just start wrapping things up by saying a couple of things. In the realm of fun, you know that pit bull is not just a dog, so that I think is very positive. You think that the number 18 is the best number ever. You came up with a really great acronym "CCB," which just means that you don't mess with opinionated colleagues, and I think that you learned that from your wife over there—smart lady.

I know that when all of this is said and done, Andrew, Joanna, Kathryn, and Camille, if the offer is still open and the invitation is still there, Dustin, Maximo, Lucas, and myself would love to spend some time by the pool, cooking out on the Green Egg. I think we will probably have more fun over there than we have over here. Thank you for everything and know that Club 305 will never be the same without you.

Senator Benacquisto: When I decided to run for the Senate in 2009, he didn't know who I was, and I didn't know who Andy Gardiner was. But he had a friend who was a total and complete maniac—Joe Negron, who called me every day. "Have you signed a card, have you signed a card?" You know, I kind of think it's appropriate that I get to meet the guy before I pledge my undying loyalty to him. He said, "Uh, I don't think so. Can you just sign the card?" I said, "Well, no, can you just arrange for me to meet him?" So the President drove to my district. We met in Starbucks. The man that I met that day, who is the absolute, most humble human being, explained to me in great detail what he thought the presidency should be like, what he thought he would want to accomplish while he was here, and the reasons why he was fighting for those policy goals is exactly who he turned out to be when he was in the chair.

If I can say anything, I think that is the greatest accomplishment and the most pride to have invested in a friendship based on a 15 or 20 minute conversation in Starbucks and have the knowledge and experience there out that you are just that great a guy. I, too, like Senator Richter, will look up in that gallery every day and the person that I'm going to miss the most is that little smiley face. Because no matter what we are working on the floor—fearing the loss of a vote, fearing the loss of

a debate, wondering what is going to happen, is our bill going to be pulled up, is our budget item going to go through—it is that good natured happiness that makes us feel good about being here. You did invest in all of us. You empowered chairmen, because I know everybody out there in the world was so happy that I was the Banking and Insurance chairman, and they are going to be so happy to get rid of me. But you invested in us and gave us the ability to see things as we wanted to see them. Call the balls and strikes, as you said, based on what we felt was right for the Senate of the State of Florida.

The greatest accomplishment, and everyone has touched on it, is bringing folks and families out of the shadows, making it known and expected that we will give nothing less than the best opportunities for everyone. We will look back, 10, 20, 30 years from now, knowing that if we did nothing else, we changed culture. That is something we really don't get to talk about that much. We solve food fights, we advance the issues, but you have changed a culture. That will probably be, setting aside every other legislative accomplishment that I can claim as my own, that will be what we end up most proud of for our time in the Senate and our time in helping you pursue those goals.

You will be missed. Doctor Van Nostrand is the greatest Doctor of the Day, ever. And to think, he's going to be gone, too, is just something I can't bear. You, a friend to all, will be missed very much. Thank you so much for your leadership, your friendship, and your belief in us. Thank you.

Senator Lee: It's probably risky for me to do this because I'm a little spent right now. In fact, I hit a new low this morning. At about 9:30 this morning, I had to call my wife, who, thank God is in town, and ask her to bring me my blue jacket to my blue suit. I had walked out with my gray pin-stripe jacket with my blue slacks. The irony is, the people that I'm working with down in the Appropriations suite are so much in a fog like me, they didn't even notice. But I don't want to miss this moment. Some of this I said last year when we were debating the unique abilities bill on the floor and it was clear that it wasn't going to happen. It bears mentioning again today because you have so many of your family and friends in town and they weren't here.

I know that for myself and many of us, we don't really know how this movie is going to end when we come here. Senator Ring mentioned it; you come here with a purpose. Usually it is ideological core values. We try to drive those into government and accomplish things in statutes, but we never really know how this movie is going to end. Time is pretty fickle. In the course of human events, the Gardiner family has been blessed with a son, Andrew, who they love a great deal. Who would have thought, when he started out as an aide down in the House of Representatives, that he would find his purpose for being here in his own child. Many of us have served with leaders in the House, leaders in the Senate, they all come with different agendas. What strikes me as so powerful about President Gardiner is the manner in which he has used his influence as a leader and the purity of his purpose. The purity of his purpose to dedicate his time and his energy to advancing the lives of children, because he has walked in the shoes of parents and he has seen how the unique abilities of children affect lives. How ill-prepared our government is in some ways to help lift those families up, to make it a little easier.

I am so grateful to have had the privilege of serving with a man who used his influence for something like that. I never heard from a special interest group or a lobbyist or anyone trying to lift up these issues on his behalf. It was Andy Gardiner and his wife, Camille, and the inspiration that they have attained from their own personal lives' experience. I should be so lucky as to have dedicated my time to this institution over 14 sessions as well as he has. It has been an honor serving with him. I promised him when he asked me to do this job that I would do everything I could do to make sure that the portrait we are going to unveil, and hang on the wall, will be something he can look at, his children can look at, his grandchildren can look at for generations and have fond memories of his time here. I think that is one of the things we all owe our presiding officers, is to try to do what we can to make their time in this chamber a fond memory. I know we've had some rough patches along the road, but my hope is that when the hanky drops here this Friday, he'll feel that I have fulfilled that commitment. You are a great friend, you are a great man, and it has been an honor, Mr. President, to have served with you.

RETIRING OF PORTRAIT

Senator Gaetz: As is the Senate tradition, the portrait on display on the west side of the chamber will be retired to the Historic Capitol. We pay tribute today for one last time to Senator John B. Johnson, a Democrat from Live Oak, Florida. Senator Johnson was elected in 1907. He served eight terms in the Senate, finishing in 1923. He was the Senate's 35th President. He also was President Pro Tempore. During the same time that he served in the Senate, he also served as the Mayor of the City of Live Oak. After his legislative career, President Johnson went on to serve as the Attorney General of Florida and then as a Circuit Judge in the Second Judicial Circuit. President John B. Johnson died on June 26, 1940, at the age of 71. His portrait will be retired from this chamber and will be hung with honor in the Historic Capitol.

UNVEILING OF PORTRAIT

Senator Gaetz invited President Gardiner, his wife, Camille, their children, Andrew, Joanna Lynn, and Kathryn Lucille, to the front of the chamber where the President's portrait was unveiled by Sergeant at Arms Tim Hay. The portrait was created by artist Jie Ruan of Leon Loard Commission Portraits.

Senator Joyner: Helen Keller once said, "The only thing worse than being blind is having sight, but no vision." President Gardiner, you have that vision. You know firsthand that a disability may be an obstacle, but is not insurmountable. You know those who might seem to take a little longer to grasp a concept and those whose minds have already moved on to tackle greater, more complex questions. You know that humanity is not defined by identical images, but the collection of all the people, in all sizes, colors, talents, strengths, and weaknesses.

As this event marks the countdown to November and the end of your Presidency, you know that you have kept your commitment to your son, Andy, the one you made twelve years ago. Your promise to expect the best from your son is now the promise to expect the best from other children with unique abilities in education and in careers in their lives. You turned dreams into reality by creating a unique path forward for these children. New opportunities born from a vision that others could not see, but God gifted you with the ability to see it, and you have moved on and made your vision a reality. For that, thousands of people in this state 100 years from now, and even the occupants of this great chamber will look and say, "Who are they?" History will record that everybody will know about the Gardiner Scholarship, the one that helps all the kids in this great state with unique abilities. Your legacy has been cast, Mr. President, and I am so blessed to have been here to experience this with you.

We came here together in 2000, and you formed an alliance with a Democrat: you and Loranne Ausley. You were the two running folks. Every time I looked, she was out running and you were out running. On the floor of the House, you all, the two of you, coalesced and made a significant difference. She had a child who was born with unique abilities, and you consoled her. You had a child born with unique abilities, and the two of you together have made history in the state. I saw at that point in my political career, a Republican and a Democrat, people who developed a relationship notwithstanding what party they were or what gender they were. They just coalesced around their running, that eventually ended up being greater than all of that. That has made all the difference for me and countless others in this state.

You know, you never had the big head, as they call that. You've just been an ordinary guy—at first, I thought a little nerdy. I said, "Oh gosh, look at him: upright, handsome, and a gentleman." He didn't talk that smack that some of the others did. Not an Evers or a Dean, but nice, nice Andy Gardiner from Orlando. I like that.

You brought something different to the chamber. Then it ended up that we are here in the Senate together. As something greater than both of us ordained, I became the Leader Designate to serve alongside you as President. You called and said, "Leader Joyner, we need to talk." We did. We met, we talked, and made plans, and we said that this was going to be fun. Our last two years would be fun. It has been just that. We toasted and made a commitment to each other, and we started our Session by dining with R's and D's across the aisle. For that, I am thankful.

You never once said, "No." Senator Garcia, I have never been the recipient of an "Andy Gardiner no." It might have been, "I'll take it under advisement," "I will consider it," and maybe, "Let me take a look at it and I'll get back to you," but never ever a "No." That has made all the difference to me.

I came in pretty partisan, I want you to know that. You know that we had all those satellite trucks out there in 2000, and it was the Bush v. Gore. It was chaos in the House, but we persevered, relationships developed, and now we are at the end of our 16 year career in the Florida Legislature.

When I go back home, you are the person that I can tell people about. I talk all the time, "They aren't mean old guys, we just have a difference of opinion." The one thing that my folks taught me that embodies our relationship is respect for your fellow man's decisions and their values. They are individuals and they are entitled to that right. You just stand up for what you believe in and respect their right to do the same thing. That has made the difference, Andy.

You are a remarkable guy and a wonderful, wonderful father. I see the love that these children have for you and Camille, and it is truly phenomenal, awesome, and outstanding. It reinforces one's commitment to family just to see the love amongst and between the five of you. This whole chamber loves and appreciates that. You are just an ordinary guy who has risen to gargantuan heights. You have made us all proud, and I am so happy that my steps were ordered for me to be here, to be beside you in this chamber. Thank you so much, Mr. President.

Senator Galvano: Before we go any further, you are right. He never did say, "No." He made me say it. Thank you for that, by the way—how to lose friends and influence people. So we have some gifts. I know the Egyptian blue satin is calling your name, but be patient. But before I do, I just want to say a few words and I think I will start with thank you, as well. Thank you for your leadership as a phenomenal President. Also on a personal note, thank you for your friendship, Mr. President. You know when you take the office of President, you don't know what hand you are dealt. We all know that the last couple of years have been some very challenging times. President Gardiner, you have met every challenge with steadiness, with courage, and with poise. I don't think there were many days that went by where you didn't have to make an extremely difficult decision. You met every challenge, you made those decisions, and you did it confidently. I came to really admire the way that you operated. Your patience, your calmness—you never get rattled. That is why it was so funny when Senator Braynon did the "Mad Andy," because you don't get rattled. You are calm. I don't know how many times we were in the office and you said, "Let's just let things bubble for a while. Let them simmer. It is going to answer itself. It will work out." And it did. It was like a second sight that you had beyond the physical to know that things would come together. When you would say, "You know, all we need is a little 'strategy,'" at one point I googled 'strategy'. I was like, "Is that a real word that he is saying?" It actually comes from Saturday Night Live when they were doing George W. Bush, but it worked. I really appreciated it.

You know I watch you generate respect among the members by respecting them, and it is not an easy body. It really isn't. There are so many different personalities. Frankly, everyone is not as even-keeled as Senator Latvala, as mousy as Senator Evers, or as politically correct as Senator Hays. But I digress. You have dealt with these personalities and you have definitely shown me how one earns respect. Throughout this process, and it has been said a couple of times, you have remained extremely humble.

You know I met you when I got elected to the House in 2002, and you are essentially the same guy that I met back then. You truly are. You drink better wine, you dress a little better, but overall you are pretty much the same guy. It has been said here today that you are an example of faith and family. The beauty of it is that, Camille, he doesn't have to articulate it. He doesn't have to tell any of us that is what he is made of. He does it by his actions and he has become an example through that.

I know I am not alone when I say this to you, Mr. President. I have learned a lot from you. There is frankly not a battle that you could be in that I wouldn't want to join you there at your side. Frankly, I am going to truly miss taking that walk from your office around the corner into this chamber. It has been an absolute privilege, sir. It really has.

SPECIAL PRESENTATION

Senators Galvano and Joyner presented the President with a Rolex watch and a plaque honoring his years of service to the Senate.

ADDRESS BY THE PRESIDENT

President Gardiner: I'm going to be brief, because I think the kids have to use the restroom; I might need to, too. I said this last week, on behalf of the Gardiner family: It truly will be an honor for us to follow the Gaetz family for the next hundred years. I truly mean that. You have been a true friend and a rock. It's not a surprise that when the big issues hit, you're in the middle of them—that's your style—but as a servant leader I took every advantage of it, I can assure you of that.

There are a few people that I want to thank: First and foremost, the residents of district 13. For me—we all have our stories of how we got here, and the districts that we represent, and the people that sent you to Tallahassee—but my story started back in 2000. I was just a local kid that went to Blankner, Howard, and Boone High School, and we had this idea of running for office. To think that, to get elected to the House in that class of 2000, to go through 16 years, and to be here, and to know that I'm going home to the exact same place, half a mile from my mom and dad's house, that's pretty good, and that's a real blessing for me.

Second, and probably more important than any, Chris Hart, who—most of you know—we served in the House together. Chris had a line that I've never forgotten. He said, "If you want to make God laugh, tell God what you have planned for your life," and that's true. If it had not been for the plan that God had for me, I may have been that kid that just worked in a bait shop in Key West. When I was in college, my fraternity brothers said, "Yeah, that's what you're going to end up doing. You're going to run a bait shop in Key West." I told Jimmy Buffett that when he came to visit me, that I almost flunked out of school because of him.

God has a plan for each one of us, there's just no doubt about it. To think that I had the opportunity to be elected to the House, Majority Leader of the House, Senate Majority Leader, and then to be given the opportunity to be your Senate President, there is no doubt in my mind that God has a plan for each one of us, every step of the way—there's just no doubt. Plain and simple. It's such an honor to have Speaker Crisafulli here, the Speaker Designate—and I would say this to the President Designate as well, to both of you—enjoy the ride; it's a fleeting moment. Enjoy every moment of it. There has not been a time that I haven't shown up in this office—even through some tough times, we all know it—that I didn't look forward to being here. I loved it. I've loved every moment of it, and I'm sure the Speaker has as well. It's an incredible opportunity to serve the residents of this great State.

There are a couple of people that I want to recognize, the staff. I know Kathy Johnson and Kevin, down here on the floor, handle our district office; thank you for everything you've done. I am going to call out Stacy a little bit. Most of you know Stacy Vancamp-Garcia, but what you don't know is that Stacy has worked for me for 18 or 19 years, give or take. I hired Stacy when she was a student at UCF, just a graduate of Apopka High School, at the Apopka Chamber of Commerce. She worked two days a week, and I said, "We're thinking about running for office, do you have any interest in making a little extra money and working another day or two?" Well that was 18 years ago and she's been here—and when you're on the journey of trying to become Senate President or Speaker, you know your staff becomes the most important people to help you get there, they just are. The reality is, at some point, not sure when the transition happened, most of the lobbyists and most of the members would go see Stacy before they'd come see me. She really has been the rock for our office and a very dear friend for all of us, so Stacy, thank you. Thank you for everything you've done.

The other part of it is—and I've mentioned this to others—you spend all your time to become Senate President, with the members. That's what you do and I love it. I love hanging out at 305, I love all that. Then when you become President, there's a whole new wave of responsibility and things that come into your life, and I could not have picked a better Senate staff than the ones that each of you have worked with over the last two years—I just couldn't have. Starting with, of course, Reynold Meyer, who we have nicknamed Reynaldo Maximus. As you know, sometimes he lurks around a little bit. He's just been an incredible Chief

of Staff. I could not have asked for a better Chief of Staff to keep calm, allow the Senators to be Senators, and just keep the trains running on time. Of course, Carlecia, everybody knows Carlecia. She's the first person you see when you walk in, the first person you see when you leave out; usually she's the one telling you to leave, right? Then Katie, Carol Gormley, Lisa Vickers, Andrew Mackintosh, Debbie, George Levesque. I've gotten to know George more. I told George, "I feel like I should get honorarily allowed into The Florida Bar after all the things that we've been a part of," but George Levesque has done an incredible job—and Cindy. Then of course, somebody that's not only worked for me in the President's Office, but also in the Majority Office, Tony Cortese. Tony has done just an incredible job. A few years ago—this will tell you a lot about Tony—a few years ago we had a little issue here in the Senate about some various things, and Tony was my Staff Director at the time in the Majority Office, and some things were happening. I can remember going in and I said, "Tony, you know, this could be a really bad day," and the first thing he said was, "Let's pray about it." I've never forgotten that. Never forgotten that. I've just been incredibly blessed.

To the members: I can look around this Senate chamber and over 16 years, I can think of a story where each one of you has had an impact on my life. Each one of you. I'm sitting here, I'm looking and I'm thinking of each one of them. Whether it's Aaron Bean and I—Aaron Bean and I did the New York City Marathon together, many years ago. I finished about an hour before him, but we did do—I should have said, "We both completed." I would take up way too much time if I sat here and just said everything. It's just been an absolutely incredible journey. While each of you have talked about my legacy and helping individuals with unique abilities, honestly, it's your legacy, and it's the Speaker's legacy. The only thing I did, is maybe, for two years raise it to a level that people took notice. I couldn't have done it on my own. I mean, none of those bills have my name on them, none of them. They had your names on them; every one of them. For that, I am forever grateful, for everything that you all have done for us as a family. You've embraced our journey. You could have very easily said, "No, Andy. We don't believe in that," or "No, let's work on this or that," and we did, but you embraced what we believed in. For that, I want to thank you.

To my family, my mom and dad: What was said earlier was absolutely true. Senator Detert, everything you said is absolutely true. My dad was a used truck salesman, a one-man show in Orlando. I'm a southsider from Orlando, born and raised, but so was my dad. My dad remembers when Orange Avenue coming into Downtown Orlando was a dirt road. He talks a lot about growing orange trees when he was a kid. When my dad was born in Orlando, the doctor was paid—and it's still a dispute in the family—two dozen eggs or three? Three dozen eggs was the payment to the doctor when my dad was born. Who would have thought that my dad would get to see the Gardiner name up here for a long, long time?

To my children: I know that I've been distracted and busy. I hope that there will come a point—and I think you do now—but I hope when you all grow up and you bring your children here, and they get a chance to—my grandchildren and your grandchildren—they see the picture that you'll be able to say, "You know, he did ok." I love you guys. I've loved having you all up here. I've been blessed. I know the Speaker's kids are in school and it's a little more difficult. I've been blessed to have my children here almost the entire session. That has been just so incredibly special and I want to thank you all. I hope that you'll understand as you grow older why we've done what we've done.

To Camille: I still blame Camille for all of this. I still remember the day—we had just a really easy, simple life, we were newly-married—and she said, "There was a little article about Representative Bill Sublette, and he was not going to run for reelection." He was term limited out—a lot of you all remember Bill. It's her fault because she said, "You know, you ought to run for that seat." When you marry your best friend, they know you better than you know yourself. I never would have run if it had not been for Camille. She knocked on more doors than me, she worked harder than me. To be quite honest, she would have been a better Representative and Senator than me. I cannot thank her enough for the opportunity to go and do this. I'm ready to go home. I am. I feel—you're ready to go home too? Ok. Just a second honey, we'll go home in just a second, I promise.

What I'm going home to are the people that were my closest friends growing up, that are up here in the audience. When we get together, we talk about fishing and baseball, we don't talk about this. They were my

friends then, they've been my friends through all this, and they will be my friends after. Orlando Health, my friends up here all came up. I'm ready to come home, and for that I'm grateful. There are a couple of other people I need to just recognize up here. I see Joel Springer and the team, David Johnson and Christina, the whole crew. Of course, little Robert, who had to travel with me for three or four years. "Sparky," Senator Detert, I think you nicknamed him that.

I'll leave you with this. I'd love to take credit for the quote, but it was President Jeff Atwater that stood right here and said, and I'll never forget it, "Don't fear the debate. Don't fear the debate." We will always have disputes. We will always have differences of opinions with our friends in the House, in the Governor's Office, in the press, whatever it may be. But don't fear the ability to raise an issue. Just don't. If you do, if you walk away from what you believe, then you will forever be sad that you walked away from an opportunity to make a difference, you just will. I've probably lost more issues in this legislative process than I've won, but I never lost sleep at night because I always felt as though I did everything I could to be successful.

To the President Designate: You will absolutely love this. You will. You're going to cry. You're going to laugh. You're going to yell. You will feel every emotion that you can possibly think of, but I will tell you this: Enjoy every minute of it. Surround yourself with people that you enjoy being around, because you will be around them a lot—I can assure you of that.

On behalf of the Gardiner family, and to everybody that has been here and been a part of my political career—which is coming to an end—thank you. Thank you to the press; thank you for everything. Thank you for embracing the Gardiner family on this journey. I cannot thank you enough. It has been truly a humbling experience and it's time to go home. Thank you. Thank you.

BILLS ON THIRD READING, continued

THE PRESIDENT PRESIDING

Consideration of **CS for SB 7050** was deferred.

CS for SB 1322—A bill to be entitled An act relating to juvenile detention costs; amending s. 985.686, F.S.; providing legislative findings and intent; defining a term; revising the annual contributions by certain counties for the costs of detention care for juveniles; revising the methodology by which the Department of Juvenile Justice determines the percentage share for each county; requiring the state to pay all costs of detention care for juveniles residing out of state and for juveniles residing in state detention centers in counties that provide their own detention care for juveniles; deleting a requirement that the Department of Revenue and the counties provide certain technical assistance to the Department of Juvenile Justice; revising the applicability of specified provisions; amending ss. 985.6015 and 985.688, F.S.; conforming provisions to changes made by the act; providing appropriations; providing effective dates.

—as amended March 4, was read the third time by title.

Pursuant to Rule 7.1(1), there being no objection, consideration of the following late-filed amendment was allowed:

Senator Latvala moved the following amendment which was adopted by two-thirds vote:

Amendment 1 (227052) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 985.6865, Florida Statutes, is created to read:

985.6865 *Juvenile detention.*—

(1) *The Legislature finds that various counties and the Department of Juvenile Justice have engaged in a multitude of legal proceedings regarding detention cost sharing for juveniles. Such litigation has largely focused on how the Department of Juvenile Justice calculates the detention costs that the counties are responsible for paying, leading to the*

overbilling of counties for a period of years. Additionally, litigation pending in 2016 is a financial burden on the taxpayers of this state.

(2) *It is the intent of the Legislature that all counties that are not fiscally constrained counties and that have pending administrative or judicial claims or challenges file a notice of voluntary dismissal with prejudice to dismiss all actions pending on or before February 1, 2016, against the state or any state agency related to juvenile detention cost sharing. Furthermore, all counties that are not fiscally constrained shall execute a release and waiver of any existing or future claims and actions arising from detention cost share prior to the 2016-2017 fiscal year. The department may not seek reimbursement from counties complying with this subsection for any underpayment for any cost-sharing requirements before the 2016-2017 fiscal year.*

(3) *As used in this section, the term:*

(a) *"Detention care" means secure detention and respite beds for juveniles charged with a domestic violence crime.*

(b) *"Fiscally constrained county" means a county within a rural area of opportunity as designated by the Governor pursuant to s. 288.0656 or each county for which the value of a mill will raise no more than \$5 million in revenue, based on the certified school taxable value certified pursuant to s. 1011.62(4)(a)1.a., from the previous July 1.*

(c) *"Total shared detention costs" means the amount of funds expended by the department for the costs of detention care for the prior fiscal year. This amount includes the most recent actual certify forward amounts minus any funds it expends on detention care for juveniles residing in fiscally constrained counties or out of state.*

(4)(a) *Notwithstanding s. 985.686 and for the 2016-2017 state fiscal year, each county that is not a fiscally constrained county that has taken the action fulfilling the intent of this legislation as described in subsection (2) shall pay to the department its annual percentage share of \$42.5 million. By June 1, 2016, the department shall calculate and provide to each county that is not a fiscally constrained county its annual percentage share by dividing the total number of detention days for juveniles residing in that county for the most recently completed 12-month period by the total number of detention days for juveniles in all counties that are not fiscally constrained counties during the same period. Beginning July 1, 2016, each such county shall pay to the department its annual percentage share of \$42.5 million, which shall be paid in 12 equal payments due on the first day of each month. The state shall pay the remaining actual costs of detention care. This paragraph expires June 30, 2017.*

(b) *Notwithstanding s. 985.686, for the 2017-2018 fiscal year, and each fiscal year thereafter, each county that is not a fiscally constrained county and that has taken the action fulfilling the intent of this section as described in subsection (2) shall pay its annual percentage share of 50 percent of the total shared detention costs. By July 15, 2017, and each year thereafter, the department shall calculate and provide to each county that is not a fiscally constrained county its annual percentage share by dividing the total number of detention days for juveniles residing in the county for the most recently completed 12-month period by the total number of detention days for juveniles in all counties that are not fiscally constrained counties during the same period. The annual percentage share of each county that is not a fiscally constrained county must be multiplied by 50 percent of the total shared detention costs to determine that county's share of detention costs. Beginning August 1, each such county shall pay to the department its share of detention costs, which shall be paid in 12 equal payments due on the first day of each month. The state shall pay the remaining actual costs of detention care.*

(5) *The state shall pay all costs of detention care for juveniles residing in a fiscally constrained county and for juveniles residing out of state. The state shall pay all costs of detention care for juveniles housed in state detention centers from counties that provide their own detention care for juveniles.*

(6) *Each county that is not a fiscally constrained county and that has taken the action fulfilling the intent of this section as described in subsection (2) shall incorporate into its annual county budget sufficient funds to pay its annual percentage share of the total shared detention costs required by subsection (4).*

(7) Funds paid by the counties to the department pursuant to this section must be deposited into the Shared County/State Juvenile Detention Trust Fund.

(8) The department shall determine each quarter whether the counties are remitting funds as required by this section.

(9) Funds received from counties pursuant to this section are not subject to the service charges provided in s. 215.20.

(10) The department may adopt rules to administer this section.

Section 2. Subsection (2) of section 985.6015, Florida Statutes, is amended to read:

985.6015 Shared County/State Juvenile Detention Trust Fund.—

(2) The fund is established for use as a depository for funds to be used for the costs of ~~pre-disposition~~ juvenile detention. Moneys credited to the trust fund shall consist of funds from the counties' share of the costs for ~~pre-disposition~~ juvenile detention.

Section 3. Paragraph (a) of subsection (11) of section 985.688, Florida Statutes, is amended to read:

985.688 Administering county and municipal delinquency programs and facilities.—

(11)(a) Notwithstanding the provisions of this section, a county is in compliance with this section if:

1. The county provides the full cost for ~~pre-adjudication~~ detention for juveniles;
2. The county authorizes the county sheriff, any other county jail operator, or a contracted provider located inside or outside the county to provide ~~pre-adjudication~~ detention care for juveniles;
3. The county sheriff or other county jail operator is accredited by the Florida Corrections Accreditation Commission or American Correctional Association; and
4. The facility is inspected annually and meets the Florida Model Jail Standards.

Section 4. *Effective July 1, 2016, for the 2016-2017 fiscal year, the sum of \$7.3 million in recurring funds and the sum of \$3.5 million in nonrecurring funds is appropriated from the General Revenue Fund to the Department of Juvenile Justice for the purpose of implementing s. 985.6865, Florida Statutes, as created by this act. These funds supplement the funds appropriated to the department in the 2016-2017 General Appropriations Act to pay the state's costs for juvenile detention.*

Section 5. Except as otherwise provided in this act, this act shall take effect upon becoming a law.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to juvenile detention costs; creating s. 985.6865, F.S.; providing legislative findings and intent; defining terms; requiring certain counties that are not fiscally constrained counties to each pay to the Department of Juvenile Justice its annual percentage share of specified amounts for specified fiscal years; requiring such counties to pay its annual percentage share of the specified amounts in 12 equal payments beginning on a specified date; creating the methodology by which the department determines the percentage share for each county; providing an expiration date; requiring the state to pay all costs of detention care for juveniles residing in a fiscally constrained county, residing out of state, and residing in state detention centers in counties that provide their own detention care for juveniles; requiring a county that is not fiscally constrained county to incorporate into its annual budget sufficient funds to pay its annual percentage share; requiring certain funds to be deposited into the Shared County/State Juvenile Detention Trust Fund; requiring the department to determine certain compliance on a quarterly basis; exempting certain funds collected from specified service charges; providing rulemaking; amending ss. 985.6015 and 985.688, F.S.; conforming provisions to changes made by the act; providing appropriations; providing effective dates.

Effective June 30, 2016, notwithstanding the expiration date in section 9 of chapter 2015-222, Laws of Florida, and notwithstanding the amendment made by section 16 of SB 1040, 2016 Regular Session, paragraph (e) of subsection (4) of section 1011.62, Florida Statutes, as amended by section 7 of chapter 2015-222, Laws of Florida, is reenacted and amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or

the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(e) *Prior period funding adjustment millage.*—

1. ~~There shall be~~ An additional millage to be known as the Prior Period Funding Adjustment Millage shall be levied by a school district if the prior period unrealized required local effort funds are greater than zero. The Commissioner of Education shall calculate the amount of the prior period unrealized required local effort funds as specified in subparagraph 2. and the millage required to generate that amount as specified in this subparagraph. The Prior Period Funding Adjustment Millage shall be the quotient of the prior period unrealized required local effort funds divided by the current year taxable value certified to the Commissioner of Education pursuant to sub-subparagraph (a)1.a. This levy shall be in addition to the required local effort millage certified pursuant to this subsection. Such millage shall not affect the calculation of the current year's required local effort, and the funds generated by such levy shall not be included in the district's Florida Education Finance Program allocation for that fiscal year. For purposes of the millage to be included on the Notice of Proposed Taxes, the Commissioner of Education shall adjust the required local effort millage computed pursuant to paragraph (a) as adjusted by paragraph (b) for the current year for any district that levies a Prior Period Funding Adjustment Millage to include all Prior Period Funding Adjustment Millage. For the purpose of this paragraph, ~~there shall be~~ a Prior Period Funding Adjustment Millage shall be levied for each year certified by the Department of Revenue pursuant to sub-subparagraph (a)2.a. since the previous year certification and for which the calculation in sub-subparagraph 2.b. is greater than zero.

2.a. As used in this subparagraph, the term:

(I) "Prior year" means a year certified under sub-subparagraph (a) 2.a.

(II) "Preliminary taxable value" means:

(A) If the prior year is the 2009-2010 fiscal year or later, the taxable value certified to the Commissioner of Education pursuant to sub-subparagraph (a)1.a.

(B) If the prior year is the 2008-2009 fiscal year or earlier, the taxable value certified pursuant to the final calculation as specified in former paragraph (b) as that paragraph existed in the prior year.

(III) "Final taxable value" means the district's taxable value as certified by the property appraiser pursuant to s. 193.122(2) or (3), if applicable. This is the certification that reflects all final administrative actions of the value adjustment board.

b. For purposes of this subsection and with respect to each year certified pursuant to sub-subparagraph (a)2.a., if the district's prior year preliminary taxable value is greater than the district's prior year final taxable value, the prior period unrealized required local effort funds are the difference between the district's prior year preliminary taxable value and the district's prior year final taxable value, multiplied by the prior year district required local effort millage. If the district's prior year preliminary taxable value is less than the district's prior year final taxable value, the prior period unrealized required local effort funds are zero.

c. ~~For the 2015-2016 fiscal year only,~~ If a district's prior period unrealized required local effort funds and prior period district required local effort millage cannot be determined because such district's final taxable value has not yet been certified pursuant to s. 193.122(2) or (3), ~~for the 2015 tax levy,~~ the Prior Period Funding Adjustment Millage for such fiscal year shall be levied, if not previously levied, ~~in 2015~~ in an amount equal to 75 percent of such district's most recent unrealized required local effort for which a Prior Period Funding Adjustment

Millage was determined as provided in this section. Upon certification of the final taxable value in accordance with s. 193.122(2) or (3) for a ~~the 2012, 2013, or 2014 tax roll rolls for which a 75 percent Prior Period Funding Adjustment Millage was levied in accordance with s. 193.122(2) or (3), the next~~ Prior Period Funding Adjustment Millage ~~levied in 2015 and 2016~~ shall be adjusted to include any shortfall or surplus in the prior period unrealized required local effort funds that would have been levied ~~in 2014 or 2015~~, had the district's final taxable value been certified pursuant to s. 193.122(2) or (3) ~~for the 2014 or 2015 tax levy~~. If this adjustment is made for a surplus, the reduction in prior period millage may not exceed the prior period funding adjustment millage calculated pursuant to subparagraph 1. and sub-subparagraphs a. and b., *or pursuant to this sub-subparagraph, whichever is applicable*, and any additional reduction shall be carried forward to the subsequent fiscal year.

Section 15. *Subsections (4) and (5) of rule 12D-9.019, Florida Administrative Code, relating to scheduling and notice of a hearing of the Department of Revenue, are repealed, and the Department of State shall update the Florida Administrative Code to remove those subsections of the rule.*

Section 16. *The Legislature finds that this act fulfills an important state interest.*

1002.39 The John M. McKay Scholarships for Students with Disabilities Program.—There is established a program that is separate and distinct from the Opportunity Scholarship Program and is named the John M. McKay Scholarships for Students with Disabilities Program.

(2) JOHN M. MCKAY SCHOLARSHIP ELIGIBILITY.—The parent of a student with a disability may request and receive from the state a John M. McKay Scholarship for the child to enroll in and attend a private school in accordance with this section if:

(a) The student has:

1. 2. Spent the prior school year in attendance at a Florida public school or the Florida School for the Deaf and the Blind. For purposes of this subparagraph, prior school year in attendance means that the student was enrolled and reported by:

a. A school district for funding during the preceding October and February Florida Education Finance Program surveys in kindergarten through grade 12, which includes time spent in a Department of Juvenile Justice commitment program if funded under the Florida Education Finance Program;

b. The Florida School for the Deaf and the Blind during the preceding October and February student membership surveys in kindergarten through grade 12; or

(b) Provide to the department all documentation required for a student's participation, including the private school's and student's fee schedules, at least 30 days before any quarterly scholarship payment is made for the student pursuant to paragraph (11)(e) ~~(10)(e)~~. The inability of a private school to meet the requirements of this subsection shall constitute a basis for the ineligibility of the private school to participate in the scholarship program as determined by the department.

(10) *TRANSITION-TO-WORK PROGRAM.*—A student participating in the John M. McKay Scholarships for Students with Disabilities Program who is at least 17 years, but not older than 22 years, of age and who has not received a high school diploma or certificate of completion is eligible for enrollment in his or her private school's transition-to-work program. A transition-to-work program shall consist of academic instruction, work skills training, and a volunteer or paid work experience.

(a) To offer a transition-to-work program, a participating private school must:

2. Submit the transition-to-work program plan to the Office of Independent Education and Parental Choice.

3. Develop a personalized transition-to-work program plan for each student enrolled in the program. The student's parent, the student, and the school principal must sign the personalized plan. The personalized plan must be submitted to the Office of Independent Education and Parental Choice upon request by the office.

7. Maintain accurate attendance and performance records for the student.

(b) A student enrolled in a transition-to-work program must, at a minimum:

2. Participate in 10 hours of work at the student's volunteer or paid work experience.

(c) To participate in a transition-to-work program, a business must:

1. Maintain an accurate record of the student's performance and hours worked and provide the information to the private school.

2. Comply with all state and federal child labor laws.

~~(11)(10)~~ JOHN M. MCKAY SCHOLARSHIP FUNDING AND PAYMENT.—

(a)1. The maximum scholarship granted for an eligible student with disabilities shall be equivalent to the base student allocation in the Florida Education Finance Program multiplied by the appropriate cost factor for the educational program that would have been provided for the student in the district school to which he or she was assigned, multiplied by the district cost differential.

2. In addition, a share of the guaranteed allocation for exceptional students shall be determined and added to the amount in subparagraph 1. The calculation shall be based on the methodology and the data used to calculate the guaranteed allocation for exceptional students for each district in chapter 2000-166, Laws of Florida. Except as provided in subparagraphs 3. and 4., the calculation shall be based on the student's grade, matrix level of services, and the difference between the 2000-2001 basic program and the appropriate level of services cost factor,

multiplied by the 2000-2001 base student allocation and the 2000-2001 district cost differential for the sending district. The calculated amount shall include the per-student share of supplemental academic instruction funds, instructional materials funds, technology funds, and other categorical funds as provided in the General Appropriations Act.

3. The scholarship amount for a student who is eligible under subparagraph (2)(a)2.b. shall be calculated as provided in subparagraphs 1. and 2. However, the calculation shall be based on the school district in which the parent resides at the time of the scholarship request.

4. Until the school district completes the matrix required by paragraph (5)(b), the calculation shall be based on the matrix that assigns the student to support Level I of service as it existed prior to the 2000-2001 school year. When the school district completes the matrix, the amount of the payment shall be adjusted as needed.

5. The scholarship amount for a student eligible under s. 504 of the Rehabilitation Act of 1973 shall be based on the program cost factor the student currently generates through the Florida Education Finance Program.

6. *The scholarship amount granted for an eligible student with disabilities is not subject to the maximum value for funding a student under s. 1011.61(4).*

Section 2. Subsection (9) of section 1002.41, Florida Statutes, is amended, and subsection (10) is added to that section, to read:

1002.41 Home education programs.—

The school district providing the services shall report each student as a full-time equivalent student in the class and in a manner prescribed by the Department of Education, and funding shall be provided through the Florida Education Finance Program pursuant to s. 1011.62.*

Section 3. Effective June 29, 2016, section 1004.935, Florida Statutes, is amended to read:

1004.935 Adults with Disabilities Workforce Education ~~Pilot~~ Program.—

(1) The Adults with Disabilities Workforce Education ~~Pilot~~ Program is established in the Department of Education ~~through June 30, 2016,~~ in Hardee, DeSoto, Manatee, and Sarasota Counties to provide the option of receiving a scholarship for instruction at private schools for up to 30 students who:

- (a) Have a disability;
- (b) Are 22 years of age;
- (c) Are receiving instruction from an instructor in a private school to meet the high school graduation requirements in s. 1002.3105(5) or s. 1003.4282;
- (d) Do not have a standard high school diploma or a special high school diploma; and
- (e) Receive “supported employment services,” which means employment that is located or provided in an integrated work setting with earnings paid on a commensurate wage basis and for which continued support is needed for job maintenance.

As used in this section, the term “student with a disability” includes a student who is documented as having an intellectual disability; a speech impairment; a language impairment; a hearing impairment, including deafness; a visual impairment, including blindness; a dual sensory

impairment; an orthopedic impairment; another health impairment; an emotional or behavioral disability; a specific learning disability, including, but not limited to, dyslexia, dyscalculia, or developmental aphasia; a traumatic brain injury; a developmental delay; or autism spectrum disorder.

(2) A student participating in the ~~pilot~~ program may continue to participate in the program until the student graduates from high school or reaches the age of 40 years, whichever occurs first.

(3) Supported employment services may be provided at more than one site.

(4) The provider of supported employment services must be a non-profit corporation under s. 501(c)(3) of the Internal Revenue Code which serves Hardee County, DeSoto County, Manatee County, or Sarasota County and must contract with a private school in this state which meets the requirements in subsection (5).

The inability of a private school to meet the requirements of this subsection constitutes a basis for the ineligibility of the private school to participate in the ~~pilot~~ program.

(6)(a) If the student chooses to participate in the ~~pilot~~ program and is accepted by the provider of supported employment services, the student must notify the Department of Education of his or her acceptance into the program 60 days before the first scholarship payment and before participating in the ~~pilot~~ program in order to be eligible for the scholarship.

(b) Upon receipt of a scholarship warrant, the student or parent to whom the warrant is made must restrictively endorse the warrant to the provider of supported employment services for deposit into the account of the provider. The student or parent may not designate any entity or individual associated with the participating provider of supported employment services as the student’s or parent’s attorney in fact to endorse a scholarship warrant. A participant who fails to comply with this paragraph forfeits the scholarship.

(7) Funds for the scholarship shall be provided from the appropriation from the school district’s Workforce Development Fund in the General Appropriations Act for students who reside in the Hardee County School District, the DeSoto County School District, the Manatee County School District, or the Sarasota County School District. ~~During the pilot program,~~ The scholarship amount granted for an eligible student with a disability shall be equal to the cost per unit of a full-time equivalent adult general education student, multiplied by the adult general education funding factor, and multiplied by the district cost differential pursuant to the formula required by s. 1011.80(6)(a) for the district in which the student resides.

(8) Upon notification by the Department of Education that it has received the required documentation, the Chief Financial Officer shall make scholarship payments in four equal amounts no later than September 1, November 1, February 1, and April 1 of each academic year in which the scholarship is in force. The initial payment shall be made after the Department of Education verifies that the student was accepted into the ~~pilot~~ program, and subsequent payments shall be made upon verification of continued participation in the ~~pilot~~ program. Payment must be by individual warrant made payable to the student or

parent and mailed by the Department of Education to the provider of supported employment services, and the student or parent shall restrictively endorse the warrant to the provider of supported employment services for deposit into the account of that provider.

(9) Subsequent to each scholarship payment, the Department of Education shall request from the Department of Financial Services a sample of endorsed warrants to review and confirm compliance with endorsement requirements.

Amendment 1 (375628) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Paragraphs (c), (n), and (x) of subsection (6) of section 627.351, Florida Statutes, are amended, and paragraph (ii) is added to that subsection, to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(c) The corporation's plan of operation:

1. Must provide for adoption of residential property and casualty insurance policy forms and commercial residential and nonresidential property insurance forms, which must be approved by the office before use. The corporation shall adopt the following policy forms:

a. Standard personal lines policy forms that are comprehensive multiperil policies providing full coverage of a residential property equivalent to the coverage provided in the private insurance market under an HO-3, HO-4, or HO-6 policy.

b. Basic personal lines policy forms that are policies similar to an HO-8 policy or a dwelling fire policy that provide coverage meeting the

requirements of the secondary mortgage market, but which is more limited than the coverage under a standard policy.

c. Commercial lines residential and nonresidential policy forms that are generally similar to the basic perils of full coverage obtainable for commercial residential structures and commercial nonresidential structures in the admitted voluntary market.

d. Personal lines and commercial lines residential property insurance forms that cover the peril of wind only. The forms are applicable only to residential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

e. Commercial lines nonresidential property insurance forms that cover the peril of wind only. The forms are applicable only to non-residential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

f. The corporation may adopt variations of the policy forms listed in sub-subparagraphs a.-e. which contain more restrictive coverage.

g. Effective January 1, 2013, the corporation shall offer a basic personal lines policy similar to an HO-8 policy with dwelling repair based on common construction materials and methods.

2. Must provide that the corporation adopt a program in which the corporation and authorized insurers enter into quota share primary insurance agreements for hurricane coverage, as defined in s. 627.4025(2)(a), for eligible risks, and adopt property insurance forms for eligible risks which cover the peril of wind only.

a. As used in this subsection, the term:

(I) "Quota share primary insurance" means an arrangement in which the primary hurricane coverage of an eligible risk is provided in specified percentages by the corporation and an authorized insurer. The corporation and authorized insurer are each solely responsible for a specified percentage of hurricane coverage of an eligible risk as set forth in a quota share primary insurance agreement between the corporation and an authorized insurer and the insurance contract. The responsibility of the corporation or authorized insurer to pay its specified percentage of hurricane losses of an eligible risk, as set forth in the agreement, may not be altered by the inability of the other party to pay its specified percentage of losses. Eligible risks that are provided hurricane coverage through a quota share primary insurance arrangement must be provided policy forms that set forth the obligations of the corporation and authorized insurer under the arrangement, clearly specify the percentages of quota share primary insurance provided by the corporation and authorized insurer, and conspicuously and clearly state that the authorized insurer and the corporation may not be held responsible beyond their specified percentage of coverage of hurricane losses.

(II) "Eligible risks" means personal lines residential and commercial lines residential risks that meet the underwriting criteria of the corporation and are located in areas that were eligible for coverage by the Florida Windstorm Underwriting Association on January 1, 2002.

b. The corporation may enter into quota share primary insurance agreements with authorized insurers at corporation coverage levels of 90 percent and 50 percent.

c. If the corporation determines that additional coverage levels are necessary to maximize participation in quota share primary insurance agreements by authorized insurers, the corporation may establish additional coverage levels. However, the corporation's quota share primary insurance coverage level may not exceed 90 percent.

d. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation must provide for a uniform specified percentage of coverage of hurricane losses, by county or territory as set forth by the corporation board, for all eligible risks of the authorized insurer covered under the agreement.

e. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation is subject to review and approval by the office. However, such agreement shall be authorized only as to insurance contracts entered into between an authorized

insurer and an insured who is already insured by the corporation for wind coverage.

f. For all eligible risks covered under quota share primary insurance agreements, the exposure and coverage levels for both the corporation and authorized insurers shall be reported by the corporation to the Florida Hurricane Catastrophe Fund. For all policies of eligible risks covered under such agreements, the corporation and the authorized insurer must maintain complete and accurate records for the purpose of exposure and loss reimbursement audits as required by fund rules. The corporation and the authorized insurer shall each maintain duplicate copies of policy declaration pages and supporting claims documents.

g. The corporation board shall establish in its plan of operation standards for quota share agreements which ensure that there is no discriminatory application among insurers as to the terms of the agreements, pricing of the agreements, incentive provisions if any, and consideration paid for servicing policies or adjusting claims.

h. The quota share primary insurance agreement between the corporation and an authorized insurer must set forth the specific terms under which coverage is provided, including, but not limited to, the sale and servicing of policies issued under the agreement by the insurance agent of the authorized insurer producing the business, the reporting of information concerning eligible risks, the payment of premium to the corporation, and arrangements for the adjustment and payment of hurricane claims incurred on eligible risks by the claims adjuster and personnel of the authorized insurer. Entering into a quota sharing insurance agreement between the corporation and an authorized insurer is voluntary and at the discretion of the authorized insurer.

3. May provide that the corporation may employ or otherwise contract with individuals or other entities to provide administrative or professional services that may be appropriate to effectuate the plan. The corporation may borrow funds by issuing bonds or by incurring other indebtedness, and shall have other powers reasonably necessary to effectuate the requirements of this subsection, including, without limitation, the power to issue bonds and incur other indebtedness in order to refinance outstanding bonds or other indebtedness. The corporation may seek judicial validation of its bonds or other indebtedness under chapter 75. The corporation may issue bonds or incur other indebtedness, or have bonds issued on its behalf by a unit of local government pursuant to subparagraph (q)2. in the absence of a hurricane or other weather-related event, upon a determination by the corporation, subject to approval by the office, that such action would enable it to efficiently meet the financial obligations of the corporation and that such financings are reasonably necessary to effectuate the requirements of this subsection. The corporation may take all actions needed to facilitate tax-free status for such bonds or indebtedness, including formation of trusts or other affiliated entities. The corporation may pledge assessments, projected recoveries from the Florida Hurricane Catastrophe Fund, other reinsurance recoverables, policyholder surcharges and other surcharges, and other funds available to the corporation as security for bonds or other indebtedness. In recognition of s. 10, Art. I of the State Constitution, prohibiting the impairment of obligations of contracts, it is the intent of the Legislature that no action be taken whose purpose is to impair any bond indenture or financing agreement or any revenue source committed by contract to such bond or other indebtedness.

4. Must require that the corporation operate subject to the supervision and approval of a board of governors consisting of nine individuals who are residents of this state and who are from different geographical areas of the state, one of whom is appointed by the Governor and serves solely to advocate on behalf of the consumer. The appointment of a consumer representative by the Governor is *deemed to be within the scope of the exemption provided in s. 112.313(7)(b) and is in addition to the appointments authorized under sub-subparagraph a.*

a. The Governor, the Chief Financial Officer, the President of the Senate, and the Speaker of the House of Representatives shall each appoint two members of the board. At least one of the two members appointed by each appointing officer must have demonstrated expertise in insurance and be deemed to be within the scope of the exemption provided in s. 112.313(7)(b). The Chief Financial Officer shall designate one of the appointees as chair. All board members serve at the pleasure of the appointing officer. All members of the board are subject to removal at will by the officers who appointed them. All board members,

including the chair, must be appointed to serve for 3-year terms beginning annually on a date designated by the plan. However, for the first term beginning on or after July 1, 2009, each appointing officer shall appoint one member of the board for a 2-year term and one member for a 3-year term. A board vacancy shall be filled for the unexpired term by the appointing officer. The Chief Financial Officer shall appoint a technical advisory group to provide information and advice to the board in connection with the board's duties under this subsection. The executive director and senior managers of the corporation shall be engaged by the board and serve at the pleasure of the board. Any executive director appointed on or after July 1, 2006, is subject to confirmation by the Senate. The executive director is responsible for employing other staff as the corporation may require, subject to review and concurrence by the board.

b. The board shall create a Market Accountability Advisory Committee to assist the corporation in developing awareness of its rates and its customer and agent service levels in relationship to the voluntary market insurers writing similar coverage.

(I) The members of the advisory committee consist of the following 11 persons, one of whom must be elected chair by the members of the committee: four representatives, one appointed by the Florida Association of Insurance Agents, one by the Florida Association of Insurance and Financial Advisors, one by the Professional Insurance Agents of Florida, and one by the Latin American Association of Insurance Agencies; three representatives appointed by the insurers with the three highest voluntary market share of residential property insurance business in the state; one representative from the Office of Insurance Regulation; one consumer appointed by the board who is insured by the corporation at the time of appointment to the committee; one representative appointed by the Florida Association of Realtors; and one representative appointed by the Florida Bankers Association. All members shall be appointed to 3-year terms and may serve for consecutive terms.

(II) The committee shall report to the corporation at each board meeting on insurance market issues which may include rates and rate competition with the voluntary market; service, including policy issuance, claims processing, and general responsiveness to policyholders, applicants, and agents; and matters relating to depopulation.

5. Must provide a procedure for determining the eligibility of a risk for coverage, as follows:

a. Subject to s. 627.3517, with respect to personal lines residential risks, if the risk is offered coverage from an authorized insurer at the insurer's approved rate under a standard policy including wind coverage or, if consistent with the insurer's underwriting rules as filed with the office, a basic policy including wind coverage, for a new application to the corporation for coverage, the risk is not eligible for any policy issued by the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from the corporation. Whenever an offer of coverage for a personal lines residential risk is received for a policyholder of the corporation at renewal from an authorized insurer, if the offer is equal to or less than the corporation's renewal premium for comparable coverage, the risk is not eligible for coverage with the corporation. If the risk is not able to obtain such offer, the risk is eligible for a standard policy including wind coverage or a basic policy including wind coverage issued by the corporation; however, if the risk could not be insured under a standard policy including wind coverage regardless of market conditions, the risk is eligible for a basic policy including wind coverage unless rejected under subparagraph 8. However, a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the end of the assumption period. The corporation shall determine the type of policy to be provided on the basis of objective standards specified in the underwriting manual and based on generally accepted underwriting practices.

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation other than a plan established by s. 627.3518, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or to the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-sub-paragraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-sub-paragraph (A).

b. With respect to commercial lines residential risks, for a new application to the corporation for coverage, if the risk is offered coverage under a policy including wind coverage from an authorized insurer at its approved rate, the risk is not eligible for a policy issued by the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from the corporation. Whenever an offer of coverage for a commercial lines residential risk is received for a policyholder of the corporation at renewal from an authorized insurer, if the offer is equal to or less than the corporation's renewal premium for comparable coverage, the risk is not eligible for coverage with the corporation. If the risk is not able to obtain any such offer, the risk is eligible for a policy including wind coverage issued by the corporation. However, a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the end of the assumption period.

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation other than a plan established by s. 627.3518, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-sub-paragraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary com-

mission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-paragraph (A).

c. For purposes of determining comparable coverage under subparagraphs a. and b., the comparison must be based on those forms and coverages that are reasonably comparable. The corporation may rely on a determination of comparable coverage and premium made by the producing agent who submits the application to the corporation, made in the agent's capacity as the corporation's agent. A comparison may be made solely of the premium with respect to the main building or structure only on the following basis: the same coverage A or other building limits; the same percentage hurricane deductible that applies on an annual basis or that applies to each hurricane for commercial residential property; the same percentage of ordinance and law coverage, if the same limit is offered by both the corporation and the authorized insurer; the same mitigation credits, to the extent the same types of credits are offered both by the corporation and the authorized insurer; the same method for loss payment, such as replacement cost or actual cash value, if the same method is offered both by the corporation and the authorized insurer in accordance with underwriting rules; and any other form or coverage that is reasonably comparable as determined by the board. If an application is submitted to the corporation for wind-only coverage in the coastal account, the premium for the corporation's wind-only policy plus the premium for the ex-wind policy that is offered by an authorized insurer to the applicant must be compared to the premium for multiperil coverage offered by an authorized insurer, subject to the standards for comparison specified in this subparagraph. If the corporation or the applicant requests from the authorized insurer a breakdown of the premium of the offer by types of coverage so that a comparison may be made by the corporation or its agent and the authorized insurer refuses or is unable to provide such information, the corporation may treat the offer as not being an offer of coverage from an authorized insurer at the insurer's approved rate.

6. Must include rules for classifications of risks and rates.

7. Must provide that if premium and investment income for an account attributable to a particular calendar year are in excess of projected losses and expenses for the account attributable to that year, such excess shall be held in surplus in the account. Such surplus must be available to defray deficits in that account as to future years and used for that purpose before assessing assessable insurers and assessable insureds as to any calendar year.

8. Must provide objective criteria and procedures to be uniformly applied to all applicants in determining whether an individual risk is so hazardous as to be uninsurable. In making this determination and in establishing the criteria and procedures, the following must be considered:

a. Whether the likelihood of a loss for the individual risk is substantially higher than for other risks of the same class; and

b. Whether the uncertainty associated with the individual risk is such that an appropriate premium cannot be determined.

The acceptance or rejection of a risk by the corporation shall be construed as the private placement of insurance, and the provisions of chapter 120 do not apply.

9. Must provide that the corporation make its best efforts to procure catastrophe reinsurance at reasonable rates, to cover its projected 100-year probable maximum loss as determined by the board of governors.

10. The policies issued by the corporation must provide that if the corporation or the market assistance plan obtains an offer from an authorized insurer to cover the risk at its approved rates, the risk is no longer eligible for renewal through the corporation, except as otherwise provided in this subsection.

11. Corporation policies and applications must include a notice that the corporation policy could, under this section, be replaced with a policy issued by an authorized insurer which does not provide coverage identical to the coverage provided by the corporation. The notice must also specify that acceptance of corporation coverage creates a conclusive presumption that the applicant or policyholder is aware of this potential.

12. May establish, subject to approval by the office, different eligibility requirements and operational procedures for any line or type of coverage for any specified county or area if the board determines that such changes are justified due to the voluntary market being sufficiently stable and competitive in such area or for such line or type of coverage and that consumers who, in good faith, are unable to obtain insurance through the voluntary market through ordinary methods continue to have access to coverage from the corporation. If coverage is sought in connection with a real property transfer, the requirements and procedures may not provide an effective date of coverage later than the date of the closing of the transfer as established by the transferor, the transferee, and, if applicable, the lender.

13. Must provide that, with respect to the coastal account, any assessable insurer with a surplus as to policyholders of \$25 million or less writing 25 percent or more of its total countrywide property insurance premiums in this state may petition the office, within the first 90 days of each calendar year, to qualify as a limited apportionment company. A regular assessment levied by the corporation on a limited apportionment company for a deficit incurred by the corporation for the coastal account may be paid to the corporation on a monthly basis as the assessments are collected by the limited apportionment company from its insureds, but a limited apportionment company must begin collecting the regular assessments not later than 90 days after the regular assessments are levied by the corporation, and the regular assessments must be paid in full within 15 months after being levied by the corporation. A limited apportionment company shall collect from its policyholders any emergency assessment imposed under subparagraph (b)3.d. The plan must provide that, if the office determines that any regular assessment will result in an impairment of the surplus of a limited apportionment company, the office may direct that all or part of such assessment be deferred as provided in subparagraph (q)4. However, an emergency assessment to be collected from policyholders under subparagraph (b)3.d. may not be limited or deferred.

14. Must provide that the corporation appoint as its licensed agents only those agents who *throughout such appointments* also hold an appointment as defined in s. 626.015(3) ~~by with an insurer who at the time of the agent's initial appointment by the corporation~~ is authorized to write and is actually writing or *renewing* personal lines residential property coverage, commercial residential property coverage, or commercial nonresidential property coverage within the state.

15. Must provide a premium payment plan option to its policyholders which, at a minimum, allows for quarterly and semiannual payment of premiums. A monthly payment plan may, but is not required to, be offered.

16. Must limit coverage on mobile homes or manufactured homes built before 1994 to actual cash value of the dwelling rather than replacement costs of the dwelling.

17. Must provide coverage for manufactured or mobile home dwellings. Such coverage must also include the following attached structures:

a. Screened enclosures that are aluminum framed or screened enclosures that are not covered by the same or substantially the same materials as those of the primary dwelling;

b. Carports that are aluminum or carports that are not covered by the same or substantially the same materials as those of the primary dwelling; and

c. Patios that have a roof covering that is constructed of materials that are not the same or substantially the same materials as those of the primary dwelling.

The corporation shall make available a policy for mobile homes or manufactured homes for a minimum insured value of at least \$3,000.

18. May provide such limits of coverage as the board determines, consistent with the requirements of this subsection.

19. May require commercial property to meet specified hurricane mitigation construction features as a condition of eligibility for coverage.

20. Must provide that new or renewal policies issued by the corporation on or after January 1, 2012, which cover sinkhole loss do not include coverage for any loss to appurtenant structures, driveways, sidewalks, decks, or patios that are directly or indirectly caused by sinkhole activity. The corporation shall exclude such coverage using a notice of coverage change, which may be included with the policy renewal, and not by issuance of a notice of nonrenewal of the excluded coverage upon renewal of the current policy.

21. As of January 1, 2012, must require that the agent obtain from an applicant for coverage from the corporation an acknowledgment signed by the applicant, which includes, at a minimum, the following statement:

ACKNOWLEDGMENT OF POTENTIAL SURCHARGE AND ASSESSMENT LIABILITY:

1. AS A POLICYHOLDER OF CITIZENS PROPERTY INSURANCE CORPORATION, I UNDERSTAND THAT IF THE CORPORATION SUSTAINS A DEFICIT AS A RESULT OF HURRICANE LOSSES OR FOR ANY OTHER REASON, MY POLICY COULD BE SUBJECT TO SURCHARGES, WHICH WILL BE DUE AND PAYABLE UPON RENEWAL, CANCELLATION, OR TERMINATION OF THE POLICY, AND THAT THE SURCHARGES COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

2. I UNDERSTAND THAT I CAN AVOID THE CITIZENS POLICYHOLDER SURCHARGE, WHICH COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, BY OBTAINING COVERAGE FROM A PRIVATE MARKET INSURER AND THAT TO BE ELIGIBLE FOR COVERAGE BY CITIZENS, I MUST FIRST TRY TO OBTAIN PRIVATE MARKET COVERAGE BEFORE APPLYING FOR OR RENEWING COVERAGE WITH CITIZENS. I UNDERSTAND THAT PRIVATE MARKET INSURANCE RATES ARE REGULATED AND APPROVED BY THE STATE.

3. I UNDERSTAND THAT I MAY BE SUBJECT TO EMERGENCY ASSESSMENTS TO THE SAME EXTENT AS POLICYHOLDERS OF OTHER INSURANCE COMPANIES, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

4. I ALSO UNDERSTAND THAT CITIZENS PROPERTY INSURANCE CORPORATION IS NOT SUPPORTED BY THE FULL FAITH AND CREDIT OF THE STATE OF FLORIDA.

a. The corporation shall maintain, in electronic format or otherwise, a copy of the applicant's signed acknowledgment and provide a copy of the statement to the policyholder as part of the first renewal after the effective date of this subparagraph.

b. The signed acknowledgment form creates a conclusive presumption that the policyholder understood and accepted his or her potential surcharge and assessment liability as a policyholder of the corporation.

(n)1. Rates for coverage provided by the corporation must be actuarially sound and subject to s. 627.062, except as otherwise provided in this paragraph. The corporation shall file its recommended rates with the office at least annually. The corporation shall provide any additional information regarding the rates which the office requires. The office shall consider the recommendations of the board and issue a final order establishing the rates for the corporation within 45 days after the recommended rates are filed. The corporation may not pursue an administrative challenge or judicial review of the final order of the office.

2. In addition to the rates otherwise determined pursuant to this paragraph, the corporation shall impose and collect an amount equal to the premium tax provided in s. 624.509 to augment the financial resources of the corporation.

3. After the public hurricane loss-projection model under s. 627.06281 has been found to be accurate and reliable by the Florida

Commission on Hurricane Loss Projection Methodology, the model shall be considered when establishing ~~serve as the minimum benchmark for determining~~ the windstorm portion of the corporation's rates. *The corporation may use the public model results in combination with the results of private models to calculate rates for the windstorm portion of the corporation's rates.* This subparagraph does not require or allow the corporation to adopt rates lower than the rates otherwise required or allowed by this paragraph.

Senator Bradley moved the following amendment:

Amendment 1 (206420) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 395.301, Florida Statutes, is amended to read:

395.301 *Price transparency; itemized patient statement or bill; form and content prescribed by the agency; patient admission status notification.*—

(1) A facility licensed under this chapter shall provide timely and accurate financial information and quality of service measures to patients and prospective patients of the facility, or to patients' survivors or legal guardians, as appropriate. Such information shall be provided in accordance with this section and rules adopted by the agency pursuant to this chapter and s. 408.05. Licensed facilities operating exclusively as state facilities are exempt from this subsection.

(a) Each licensed facility shall make available to the public on its website information on payments made to that facility for defined bundles of services and procedures. The payment data must be presented and searchable in accordance with, and through a hyperlink to, the system established by the agency and its vendor using the descriptive service bundles developed under s. 408.05(3)(c). At a minimum, the facility shall provide the estimated average payment received from all payors, excluding Medicaid and Medicare, for the descriptive service bundles available at that facility and the estimated payment range for such bundles. Using plain language, comprehensible to an ordinary layperson, the facility must disclose that the information on average payments and the payment ranges is an estimate of costs that may be incurred by the patient or prospective patient and that actual costs will be based on the services actually provided to the patient. The facility's website must:

1. Provide information to prospective patients on the facility's financial assistance policy, including the application process, payment plans, and discounts, and the facility's charity care policy and collection procedures.

2. If applicable, notify patients and prospective patients that services may be provided in the health care facility by the facility as well as by other health care providers who may separately bill the patient and that

such health care providers may or may not participate with the same health insurers or health maintenance organizations as the facility.

3. Inform patients and prospective patients that they may request from the facility and other health care providers a more personalized estimate of charges and other information, and inform patients that they should contact each health care practitioner who will provide services in the hospital to determine the health insurers and health maintenance organizations with which the health care practitioner participates as a network provider or preferred provider.

4. Provide the names, mailing addresses, and telephone numbers of the health care practitioners and medical practice groups with which it contracts to provide services in the facility and instructions on how to contact the practitioners and groups to determine the health insurers and health maintenance organizations with which they participate as network providers or preferred providers.

(b)1. Upon request, and before providing any nonemergency medical services, each licensed facility shall provide in writing or by electronic means a good faith estimate of reasonably anticipated charges by the facility for the treatment of the patient's or prospective patient's specific condition. The facility must provide the estimate to the patient or prospective patient within 7 business days after the receipt of the request and is not required to adjust the estimate for any potential insurance coverage. The estimate may be based on the descriptive service bundles developed by the agency under s. 408.05(3)(c) unless the patient or prospective patient requests a more personalized and specific estimate that accounts for the specific condition and characteristics of the patient or prospective patient. The facility shall inform the patient or prospective patient that he or she may contact his or her health insurer or health maintenance organization for additional information concerning cost-sharing responsibilities.

2. In the estimate, the facility shall provide to the patient or prospective patient information on the facility's financial assistance policy, including the application process, payment plans, and discounts and the facility's charity care policy and collection procedures.

3. The estimate shall clearly identify any facility fees and, if applicable, include a statement notifying the patient or prospective patient that a facility fee is included in the estimate, the purpose of the fee, and that the patient may pay less for the procedure or service at another facility or in another health care setting.

4. Upon request, the facility shall notify the patient or prospective patient of any revision to the estimate.

5. In the estimate, the facility must notify the patient or prospective patient that services may be provided in the health care facility by the facility as well as by other health care providers that may separately bill the patient, if applicable.

6. The facility shall take action to educate the public that such estimates are available upon request.

7. Failure to timely provide the estimate pursuant to this paragraph shall result in a daily fine of \$1,000 until the estimate is provided to the patient or prospective patient. The total fine may not exceed \$10,000.

The provision of an estimate does not preclude the actual charges from exceeding the estimate.

3. A primary care provider may publish a schedule of charges for the medical services that the provider offers to patients. The schedule must include the prices charged to an uninsured person paying for such services by cash, check, credit card, or debit card. The schedule must be posted in a conspicuous place in the reception area of the provider's office and must include, but is not limited to, the 50 services most frequently provided by the primary care provider. Estimates shall, to the extent possible, be written in language comprehensible to an ordinary layperson. 6. The licensed facility may also indicate that the price of service is negotiable for eligible patients based upon the patient's ability to pay.

Senator Gaetz moved the following amendment:

Amendment 1 (725590) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 381.4019, Florida Statutes, is created to read:

381.4019 Dental care access accounts.—Subject to the availability of funds, the Legislature establishes a joint local and state dental care access account initiative and authorizes the creation of dental care access accounts to promote economic development by supporting qualified dentists who practice in dental health professional shortage areas or medically underserved areas or who treat a medically underserved population. The Legislature recognizes that maintaining good oral health is integral to overall health status and that the good health of residents of this state is an important contributing factor in economic development. Better health, including better oral health, enables workers to be more productive, reduces the burden of health care costs, and enables children to improve in cognitive development.

(1) *As used in this section, the term:*

(a) *“Dental health professional shortage area” means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.*

(b) *“Department” means the Department of Health.*

(c) *“Medically underserved area” means a geographic area so designated by the Health Resources and Services Administration of the United States Department of Health and Human Services.*

(d) *“Public health program” means a county health department, the Children’s Medical Services Network, a federally qualified community health center, a federally funded migrant health center, or other publicly funded or nonprofit health care program as designated by the department.*

(2) *The department shall develop and implement a dental care access account initiative to benefit dentists licensed to practice in this state who demonstrate, as required by the department by rule:*

(a) *Active employment by a public health program located in a dental health professional shortage area or a medically underserved area; or*

(b) *A commitment to opening a private practice in a dental health professional shortage area or a medically underserved area, as demonstrated by the dentist residing in the designated area, maintaining an active Medicaid provider agreement, enrolling in one or more Medicaid managed care plans, expending sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients, and obtaining financial support from the local community in which the dentist is practicing or intending to open a practice.*

(3) *The department shall establish dental care access accounts as individual benefit accounts for each dentist who satisfies the requirements of subsection (2) and is selected by the department for participation. The department shall implement an electronic benefit transfer system that enables each dentist to spend funds from his or her account for the purposes described in subsection (4).*

(4) *Funds contributed from state and local sources to a dental care access account may be used for one or more of the following purposes:*

(a) *Repayment of dental school student loans.*

(b) *Investment in property, facilities, or equipment necessary to establish and operate a dental office consisting of no fewer than two operatories.*

(c) *Payment of transitional expenses related to the relocation or opening of a dental practice which are specifically approved by the department.*

(5) *Subject to legislative appropriation, the department shall distribute state funds as an award to each dental care access account. An individual award must be in an amount not more than \$100,000 and not less than \$10,000, except that a state award may not exceed 3 times the amount contributed to an account in the same year from local sources. If a dentist qualifies for a dental care access account under paragraph (2)(a), the dentist’s salary and associated employer expenditures constitute a local match and qualify the account for a state award if the salary and associated expenditures do not come from state funds. State*

funds may not be included in a determination of the amount contributed to an account from local sources.

(6) The department may accept contributions of funds from a local source for deposit in the account of a dentist designated by the donor.

(7) The department shall close an account no later than 5 years after the first deposit of state or local funds into that account or immediately upon the occurrence of any of the following:

(a) Termination of the dentist's employment with a public health program, unless, within 30 days after such termination, the dentist opens a private practice in a dental health professional shortage area or medically underserved area.

(b) Termination of the dentist's practice in a designated dental health professional shortage area or medically underserved area.

(c) Termination of the dentist's participation in the Florida Medicaid program.

(d) Participation by the dentist in any fraudulent activity.

(8) Any state funds remaining in a closed account may be awarded and transferred to another account concurrent with the distribution of funds under the next legislative appropriation for the initiative. The department shall return to the donor on a pro rata basis unspent funds from local sources which remain in a closed account.

(9) If the department determines that a dentist has withdrawn account funds after the occurrence of an event specified in subsection (7), has used funds for purposes not authorized in subsection (4), or has not remained eligible for a dental care access account for a minimum of 2 years, the dentist shall repay the funds to his or her account. The department may recover the withdrawn funds through disciplinary enforcement actions and other methods authorized by law.

(10) The department shall establish by rule:

(a) Application procedures for dentists who wish to apply for a dental care access account. An applicant may demonstrate that he or she has expended sufficient capital to make substantial progress in opening a dental practice that is capable of serving at least 1,200 patients by documenting contracts for the purchase or lease of a practice location and providing executed obligations for the purchase or other acquisition of at least 30 percent of the value of equipment or supplies necessary to operate a dental practice. The department may limit the number of applicants selected and shall give priority to those applicants practicing in the areas receiving higher rankings pursuant to subsection (11). The department may establish additional criteria for selection which recognize an applicant's active engagement with and commitment to the community providing a local match.

(b) A process to verify that funds withdrawn from a dental care access account have been used solely for the purposes described in subsection (4).

(11) The Department of Economic Opportunity shall rank the dental health professional shortage areas and medically underserved areas of the state based on the extent to which limited access to dental care is impeding the areas' economic development, with a higher ranking indicating a greater impediment to development.

(12) The department shall develop a marketing plan for the dental care access account initiative in cooperation with the University of Florida College of Dentistry, the Nova Southeastern University College of Dental Medicine, the Lake Erie College of Osteopathic Medicine School of Dental Medicine, and the Florida Dental Association.

(13)(a) By January 1 of each year, beginning in 2018, the department shall issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include:

1. The number of patients served by dentists receiving funding under this section.

2. The number of Medicaid recipients served by dentists receiving funding under this section.

3. The average number of hours worked and patients served in a week by dentists receiving funding under this section.

4. The number of dentists in each dental health professional shortage area or medically underserved area receiving funding under this section.

5. The amount and source of local matching funds received by the department.

6. The amount of state funds awarded to dentists under this section.

7. A complete accounting of the use of funds by categories identified by the department, including, but not limited to, loans, supplies, equipment, rental property payments, real property purchases, and salary and wages.

(b) The department shall adopt rules to require dentists to report information to the department which is necessary for the department to fulfill its reporting requirement under this subsection.

Section 2. Subsection (3) of section 395.002, Florida Statutes, is amended to read:

395.002 Definitions.—As used in this chapter:

(3) "Ambulatory surgical center" or "mobile surgical facility" means a facility the primary purpose of which is to provide elective surgical care, in which the patient is admitted to and discharged from such facility within 24 hours ~~the same working day and is not permitted to stay overnight~~, and which is not part of a hospital. However, a facility existing for the primary purpose of performing terminations of pregnancy, an office maintained by a physician for the practice of medicine, or an office maintained for the practice of dentistry shall not be construed to be an ambulatory surgical center, provided that any facility or office which is certified or seeks certification as a Medicare ambulatory surgical center shall be licensed as an ambulatory surgical center pursuant to s. 395.003. Any structure or vehicle in which a physician maintains an office and practices surgery, and which can appear to the public to be a mobile office because the structure or vehicle operates at more than one address, shall be construed to be a mobile surgical facility.

Section 3. Present subsections (6) through (10) of section 395.003, Florida Statutes, are redesignated as subsections (7) through (11), respectively, a new subsection (6) is added to that section, and present subsections (9) and (10) of that section are amended, to read:

395.003 Licensure; denial, suspension, and revocation.—

(6) An ambulatory surgical center, as a condition of initial licensure and license renewal, must provide services to Medicare patients, Medicaid patients, and patients who qualify for charity care in an amount equal to or greater than the applicable district average among licensed providers of similar services. Ambulatory surgical centers shall report the same financial, patient, postoperative surgical infection, and other data pursuant to s. 408.061 as reported by hospitals to the Agency for Health Care Administration or otherwise published by the agency. For the purposes of this subsection, "charity care" means uncompensated care delivered to uninsured patients with incomes at or below 200 percent of the federal poverty level when such services are preauthorized by the licensee and not subject to collection procedures. An ambulatory surgical center that keeps patients later than midnight on the day of the procedure must comply with the same building codes and lifesafety codes as a hospital.

~~(10)(9)~~ A hospital licensed as of June 1, 2004, shall be exempt from ~~subsection (9) subsection (8)~~ as long as the hospital maintains the same ownership, facility street address, and range of services that were in existence on June 1, 2004. Any transfer of beds, or other agreements that result in the establishment of a hospital or hospital services within the intent of this section, shall be subject to ~~subsection (9) subsection (8)~~. Unless the hospital is otherwise exempt under ~~subsection (9) subsection (8)~~, the agency shall deny or revoke the license of a hospital that violates any of the criteria set forth in that subsection.

(11)(10) The agency may adopt rules implementing the licensure requirements set forth in *subsection (9) subsection (9)*. Within 14 days after rendering its decision on a license application or revocation, the agency shall publish its proposed decision in the Florida Administrative Register. Within 21 days after publication of the agency’s decision, any authorized person may file a request for an administrative hearing. In administrative proceedings challenging the approval, denial, or revocation of a license pursuant to *subsection (9) subsection (9)*, the hearing must be based on the facts and law existing at the time of the agency’s proposed agency action. Existing hospitals may initiate or intervene in an administrative hearing to approve, deny, or revoke licensure under *subsection (9) subsection (9)* based upon a showing that an established program will be substantially affected by the issuance or renewal of a license to a hospital within the same district or service area.

Section 4. Section 624.27, Florida Statutes, is created to read:

624.27 *Application of code as to direct primary care agreements.—*

(1) *As used in this section, the term:*

(a) *“Direct primary care agreement” means a contract between a primary care provider and a patient, the patient’s legal representative, or an employer which meets the requirements specified under subsection (4) and does not indemnify for services provided by a third party.*

(b) *“Primary care provider” means a health care practitioner licensed under chapter 458, chapter 459, chapter 460, or chapter 464, or a primary care group practice that provides medical services to patients which are commonly provided without referral from another health care provider.*

(c) *“Primary care service” means the screening, assessment, diagnosis, and treatment of a patient for the purpose of promoting health or detecting and managing disease or injury within the competency and training of the primary care provider.*

(2) *A direct primary care agreement does not constitute insurance and is not subject to chapter 636 or any other chapter of the Florida Insurance Code. The act of entering into a direct primary care agreement does not constitute the business of insurance and is not subject to chapter 636 or any other chapter of the Florida Insurance Code.*

(3) *A primary care provider or an agent of a primary care provider is not required to obtain a certificate of authority or license under chapter 636 or any other chapter of the Florida Insurance Code to market, sell, or offer to sell a direct primary care agreement.*

(4) *For purposes of this section, a direct primary care agreement must:*

(a) *Be in writing.*

(b) *Be signed by the primary care provider or an agent of the primary care provider and the patient, the patient’s legal representative, or an employer.*

(c) *Allow a party to terminate the agreement by giving the other party at least 30 days’ advance written notice. The agreement may provide for immediate termination due to a violation of the physician-patient relationship or a breach of the terms of the agreement.*

(d) *Describe the scope of primary care services that are covered by the monthly fee.*

(e) *Specify the monthly fee and any fees for primary care services not covered by the monthly fee.*

(f) *Specify the duration of the agreement and any automatic renewal provisions.*

(g) *Offer a refund to the patient of monthly fees paid in advance if the primary care provider ceases to offer primary care services for any reason.*

(h) *Contain in contrasting color and in not less than 12-point type the following statements on the same page as the applicant’s signature:*

1. *The agreement is not health insurance and the primary care provider will not file any claims against the patient’s health insurance policy or plan for reimbursement of any primary care services covered by the agreement.*

2. *The agreement does not qualify as minimum essential coverage to satisfy the individual shared responsibility provision of the Patient Protection and Affordable Care Act, 26 U.S.C. s. 5000A.*

Section 5. *The sections created and amendments made by this act to ss. 409.967, 627.42392, 641.31, and 641.394, Florida Statutes, may be known as the “Right Medicine Right Time Act.”*

Section 6. Effective January 1, 2017, paragraph (c) of subsection (2) of section 409.967, Florida Statutes, is amended to read:

409.967 Managed care plan accountability.—

(2) The agency shall establish such contract requirements as are necessary for the operation of the statewide managed care program. In addition to any other provisions the agency may deem necessary, the contract must require:

(c) Access.—

1. The agency shall establish specific standards for the number, type, and regional distribution of providers in managed care plan networks to ensure access to care for both adults and children. Each plan must maintain a regionwide network of providers in sufficient numbers to meet the access standards for specific medical services for all recipients enrolled in the plan. The exclusive use of mail-order pharmacies may not be sufficient to meet network access standards. Consistent with the standards established by the agency, provider networks may include providers located outside the region. A plan may contract with a new hospital facility before the date the hospital becomes operational if the hospital has commenced construction, will be licensed and operational by January 1, 2013, and a final order has issued in any civil or administrative challenge. Each plan shall establish and maintain an accurate and complete electronic database of contracted providers, including information about licensure or registration, locations and hours of operation, specialty credentials and other certifications, specific performance indicators, and such other information as the agency deems necessary. The database must be available online to both the agency and the public and have the capability to compare the availability of providers to network adequacy standards and to accept and display feedback from each provider’s patients. Each plan shall submit quarterly reports to the agency identifying the number of enrollees assigned to each primary care provider.

2.a. Each managed care plan must publish any prescribed drug formulary or preferred drug list on the plan’s website in a manner that is accessible to and searchable by enrollees and providers. The plan must update the list within 24 hours after making a change. Each plan must ensure that the prior authorization process for prescribed drugs is readily accessible to health care providers, including posting appropriate contact information on its website and providing timely responses to providers. For Medicaid recipients diagnosed with hemophilia who have been prescribed anti-hemophilic-factor replacement products, the agency shall provide for those products and hemophilia overlay services through the agency’s hemophilia disease management program.

b. *If a managed care plan restricts the use of prescribed drugs through a fail-first protocol, it must establish a clear and convenient process that a prescribing physician may use to request an override of the restriction from the managed care plan. The managed care plan shall grant an override of the protocol within 24 hours if:*

(I) *Based on sound clinical evidence, the prescribing provider concludes that the preferred treatment required under the fail-first protocol has been ineffective in the treatment of the enrollee’s disease or medical condition; or*

(II) *Based on sound clinical evidence or medical and scientific evidence, the prescribing provider believes that the preferred treatment required under the fail-first protocol:*

(A) *Is likely to be ineffective given the known relevant physical or mental characteristics and medical history of the enrollee and the known characteristics of the drug regimen; or*

(B) *Will cause or is likely to cause an adverse reaction or other physical harm to the enrollee.*

If the prescribing provider follows the fail-first protocol recommended by the managed care plan for an enrollee, the duration of treatment under the fail-first protocol may not exceed a period deemed appropriate by the prescribing provider. Following such period, if the prescribing provider deems the treatment provided under the protocol clinically ineffective, the enrollee is entitled to receive the course of therapy that the prescribing provider recommends, and the provider is not required to seek approval of an override of the fail-first protocol. As used in this subparagraph, the term "fail-first protocol" means a prescription practice that begins medication for a medical condition with the most cost-effective drug therapy and progresses to other more costly or risky therapies only if necessary.

3. Managed care plans, and their fiscal agents or intermediaries, must accept prior authorization requests for any service electronically.

4. Managed care plans serving children in the care and custody of the Department of Children and Families ~~shall~~ **must** maintain complete medical, dental, and behavioral health encounter information and participate in making such information available to the department or the applicable contracted community-based care lead agency for use in providing comprehensive and coordinated case management. The agency and the department shall establish an interagency agreement to provide guidance for the format, confidentiality, recipient, scope, and method of information to be made available and the deadlines for submission of the data. The scope of information available to the department ~~are~~ ~~shall be~~ the data that managed care plans are required to submit to the agency. The agency shall determine the plan's compliance with standards for access to medical, dental, and behavioral health services; the use of medications; and followup on all medically necessary services recommended as a result of early and periodic screening, diagnosis, and treatment.

Section 7. Effective January 1, 2017, section 627.42392, Florida Statutes, is created to read:

627.42392 Fail-first protocols.—If an insurer restricts the use of prescribed drugs through a fail-first protocol, it must establish a clear and convenient process that a prescribing physician may use to request an override of the restriction from the insurer. The insurer shall grant an override of the protocol within 24 hours if:

(1) *Based on sound clinical evidence, the prescribing provider concludes that the preferred treatment required under the fail-first protocol has been ineffective in the treatment of the insured's disease or medical condition; or*

(2) *Based on sound clinical evidence or medical and scientific evidence, the prescribing provider believes that the preferred treatment required under the fail-first protocol:*

(a) *Is likely to be ineffective given the known relevant physical or mental characteristics and medical history of the insured and the known characteristics of the drug regimen; or*

(b) *Will cause or is likely to cause an adverse reaction or other physical harm to the insured.*

If the prescribing provider follows the fail-first protocol recommended by the insurer for an insured, the duration of treatment under the fail-first protocol may not exceed a period deemed appropriate by the prescribing provider. Following such period, if the prescribing provider deems the treatment provided under the protocol clinically ineffective, the insured is entitled to receive the course of therapy that the prescribing provider recommends, and the provider is not required to seek approval of an override of the fail-first protocol. As used in this section, the term "fail-first protocol" means a prescription practice that begins medication for a

medical condition with the most cost-effective drug therapy and progresses to other more costly or risky therapies only if necessary.

Section 8. Effective January 1, 2017, subsection (44) is added to section 641.31, Florida Statutes, to read:

641.31 Health maintenance contracts.—

(44) *A health maintenance organization may not require a health care provider, by contract with another health care provider, a patient, or another individual or entity, to use a clinical decision support system or a laboratory benefits management program before the provider may order clinical laboratory services or in an attempt to direct or limit the provider's medical decisionmaking relating to the use of such services. This subsection may not be construed to prohibit any prior authorization requirements that the health maintenance organization may have regarding the provision of clinical laboratory services. As used in this subsection, the term:*

(a) *"Clinical decision support system" means software designed to direct or assist clinical decisionmaking by matching the characteristics of an individual patient to a computerized clinical knowledge base and providing patient-specific assessments or recommendations based on the match.*

(b) *"Clinical laboratory services" means the examination of fluids or other materials taken from the human body, which examination is ordered by a health care provider for use in the diagnosis, prevention, or treatment of a disease or in the identification or assessment of a medical or physical condition.*

(c) *"Laboratory benefits management program" means a health maintenance organization protocol that dictates or limits health care provider decisionmaking relating to the use of clinical laboratory services.*

Section 9. Effective January 1, 2017, section 641.394, Florida Statutes, is created to read:

641.394 Fail-first protocols.—If a health maintenance organization restricts the use of prescribed drugs through a fail-first protocol, it must establish a clear and convenient process that a prescribing physician may use to request an override of the restriction from the health maintenance organization. The health maintenance organization shall grant an override of the protocol within 24 hours if:

(1) *Based on sound clinical evidence, the prescribing provider concludes that the preferred treatment required under the fail-first protocol has been ineffective in the treatment of the subscriber's disease or medical condition; or*

(2) *Based on sound clinical evidence or medical and scientific evidence, the prescribing provider believes that the preferred treatment required under the fail-first protocol:*

(a) *Is likely to be ineffective given the known relevant physical or mental characteristics and medical history of the subscriber and the known characteristics of the drug regimen; or*

(b) *Will cause or is likely to cause an adverse reaction or other physical harm to the subscriber.*

If the prescribing provider follows the fail-first protocol recommended by the health maintenance organization for a subscriber, the duration of treatment under the fail-first protocol may not exceed a period deemed appropriate by the prescribing provider. PRAYER

The following prayer was offered by Pastor Jim Locke, Hillcrest Baptist Church, Pensacola:

Our Father in heaven, we begin today by thanking you for the precious gift of life, for you are the creator and the sustainer of all that is and ever will be. You've created the world and you've created us to know you, to enjoy you, and to magnify your great name throughout the world. "O Lord, our Lord, how majestic is your name in all the earth."

As we live in times of instability and oppression around the world, we thank you for the incredible blessing of being American. We acknowledge you as the author of our liberties and thank you for the gift of freedom purchased through sacrifice and blood. Freedom is not free. We remember and give thanks for those in our armed forces who stand watch today over our liberties and ask you to protect and encourage them as they defend us here and around the world.

Thank you for the members of the Florida Senate. What an honor and privilege to serve and lead the people of our great State. Fill the leaders of this honored chamber today with the very wisdom of heaven that they may love justice, show mercy, and walk in humility before God. Give them discerning minds, compassionate hearts, gentleness, and civility as they relate to one another, and, most of all, give them an understanding of the one to whom we must all one day give an account.

Finally, O Lord, forgive us, for we are sinful people, and we are in desperate need of your mercy and grace. Forgive us, and grant to us a real and lasting spiritual awakening that our state and our nation might be renewed from within and remain strong for generations to come.

With great thanksgiving, and respecting all faiths, I offer this prayer in the name of Christ my Lord. Amen.

PLEDGE

Senate Pages, Kollin Boje and Kaleb Boje of Apollo Beach, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

CS for HJR 1009—A joint resolution proposing an amendment to Section 6 of Article VII and the creation of a new section in Article XII of the State Constitution to authorize a first responder, who is totally and permanently disabled as a result of an injury sustained in the line of duty, to receive relief from ad valorem taxes assessed on homestead property, if authorized by general law, and to provide an effective date.

Be It Resolved by the Legislature of the State of Florida:

That the following amendment to Section 6 of Article VII and the creation of a new section in Article XII of the State Constitution is agreed to and shall be submitted to the electors of this state for approval or rejection at the next general election or at an earlier special election specifically authorized by law for that purpose:

ARTICLE VII

FINANCE AND TAXATION

SECTION 6. Homestead exemptions.—

(a) Every person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner, or another legally or naturally dependent upon the owner, shall be exempt from taxation thereon, except assessments for special benefits, up to the assessed valuation of twenty-five thousand dollars and, for all levies other than school district levies, on the assessed valuation greater than fifty thousand dollars and up to seventy-five thousand dollars, upon establishment of right thereto in the manner prescribed by law. The real estate may be held by legal or equitable title, by the entireties, jointly, in common, as a condominium, or indirectly by stock ownership or membership representing the owner's or member's proprietary interest in a corporation owning a fee or a leasehold initially in excess of ninety-eight years. The exemption shall not apply with respect to any assessment roll until such roll is first determined to be in compliance with the provisions of section 4 by a state agency designated by general law. This exemption is repealed on the effective date of any amendment to this Article which provides for the assessment of homestead property at less than just value.

(b) Not more than one exemption shall be allowed any individual or family unit or with respect to any residential unit. No exemption shall exceed the value of the real estate assessable to the owner or, in case of ownership through stock or membership in a corporation, the value of the proportion which the interest in the corporation bears to the assessed value of the property.

(c) By general law and subject to conditions specified therein, the Legislature may provide to renters, who are permanent residents, ad valorem tax relief on all ad valorem tax levies. Such ad valorem tax relief shall be in the form and amount established by general law.

(d) The legislature may, by general law, allow counties or municipalities, for the purpose of their respective tax levies and subject to the provisions of general law, to grant either or both of the following additional homestead tax exemptions:

(1) An exemption not exceeding fifty thousand dollars to any person who has the legal or equitable title to real estate and maintains thereon the permanent residence of the owner and who has attained age sixty-five and whose household income, as defined by general law, does not exceed twenty thousand dollars; or

(2) An exemption equal to the assessed value of the property to any person who has the legal or equitable title to real estate with a just value less than two hundred and fifty thousand dollars and who has maintained thereon the permanent residence of the owner for not less than twenty-five years and who has attained age sixty-five and whose household income does not exceed the income limitation prescribed in paragraph (1).

The general law must allow counties and municipalities to grant these additional exemptions, within the limits prescribed in this subsection, by ordinance adopted in the manner prescribed by general law, and must provide for the periodic adjustment of the income limitation prescribed in this subsection for changes in the cost of living.

(e) Each veteran who is age 65 or older who is partially or totally permanently disabled shall receive a discount from the amount of the ad valorem tax otherwise owed on homestead property the veteran owns and resides in if the disability was combat related and the veteran was honorably discharged upon separation from military service. The dis-

count shall be in a percentage equal to the percentage of the veteran's permanent, service-connected disability as determined by the United States Department of Veterans Affairs. To qualify for the discount granted by this subsection, an applicant must submit to the county property appraiser, by March 1, an official letter from the United States Department of Veterans Affairs stating the percentage of the veteran's service-connected disability and such evidence that reasonably identifies the disability as combat related and a copy of the veteran's honorable discharge. If the property appraiser denies the request for a discount, the appraiser must notify the applicant in writing of the reasons for the denial, and the veteran may reapply. The Legislature may, by general law, waive the annual application requirement in subsequent years. This subsection is self-executing and does not require implementing legislation.

(f) By general law and subject to conditions and limitations specified therein, the Legislature may provide ad valorem tax relief equal to the total amount or a portion of the ad valorem tax otherwise owed on homestead property to ~~the~~:

(1) *The surviving spouse of a veteran who died from service-connected causes while on active duty as a member of the United States Armed Forces.*

(2) *The surviving spouse of a first responder who died in the line of duty.*

(3) *A first responder who is totally and permanently disabled as a result of an injury or injuries sustained in the line of duty. Causal connection between a disability and service in the line of duty shall not be presumed but must be determined as provided by general law. For purposes of this paragraph, the term "disability" does not include a chronic condition or chronic disease, unless the injury sustained in the line of duty was the sole cause of the chronic condition or chronic disease.*

As used in this subsection and as further defined by general law, the term:

a. "first responder" means a law enforcement officer, a correctional officer, a firefighter, an emergency medical technician, or a paramedic, and the term:

b. "in the line of duty" means arising out of and in the actual performance of duty required by employment as a first responder.

ARTICLE XII

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of “F” is subject to subparagraph 4.

d. A charter school is no longer required to implement a corrective action if it improves by at least one letter grade. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school’s continued improvement pursuant to subparagraph 5.

e. A charter school implementing a corrective action that does not improve by at least one letter grade after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve a letter grade if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of “F” while implementing a corrective action is subject to subparagraph 4.

3. A charter school with a grade of “D” or “F” that improves by at least one letter grade must continue to implement the strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school’s continued improvement pursuant to subparagraph 5.

4. ~~A charter school’s charter contract is automatically terminated if the school earns two consecutive grades of “F” after all school grade appeals are final. The sponsor shall terminate a charter if the charter school earns two consecutive grades of “F” unless:~~

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school that earned a grade of “F” in the year before the charter school opened and the charter school earns at least a grade of “D” in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department’s official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school’s governing board, the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. The letter of termination must meet the requirements of paragraph (8)(c). A charter terminated under this subparagraph must follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(e)-(g) and (9)(o).

The representative must reside in the school district in which the charter school is located and may be a governing board member, a charter school employee, or an individual contracted to represent the governing board. If the governing board oversees multiple charter schools in the same school district, the governing board must appoint a separate representative for each charter school in the district. The representative’s contact information must be provided annually in writing to parents and posted prominently on the charter school’s website. The sponsor may not require governing board members to reside in the school district in which the charter school is located if the charter school complies with this subparagraph.*

3. *Each charter school’s governing board must hold at least two public meetings per school year in the school district where the charter school is located. The meetings must be noticed, open, and accessible to the public, and attendees must be provided an opportunity to receive information and provide input regarding the charter school’s operations. The appointed representative and charter school principal or director, or his or her designee, must be physically present at each meeting. If less than 75 percent of the projected enrollment is entered into the sponsor's student information system by the first day of the current month, the sponsor shall base payments on the actual number of student enrollment entered into the sponsor's student information system. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the charter school for the remainder of the fiscal year. The*

payments payment shall be issued no later than 10 working days after the district school board receives a distribution of state or federal funds or the date the payment is due pursuant to this subsection. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(13) **FEDERALLY CONNECTED STUDENT SUPPLEMENT.**—*The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) real property, and Indian lands. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.*

(a) *The student allocation shall be calculated based on the number of students reported for federal Impact Aid Program funds, including students with disabilities, who meet one of the following criteria:*

1. *The student has a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer. Students with disabilities shall also be reported separately for this category.*

2. *The student resides on eligible federally owned Indian land. Students with disabilities shall also be reported separately for this category.*

3. *The student resides with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.*

(b) *The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately under subparagraphs (a)1. and (a)2. shall be multiplied by an additional percentage of the base student allocation as provided in the General Appropriations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.*

(c) *The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).*

(14)(13) **QUALITY ASSURANCE GUARANTEE.**—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (15) (14), quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (15) (14) and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE

student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

After calculating the first priority, the second priority is to allocate excess funds remaining in the appropriation in an amount equal to the per capital outlay full-time equivalent student amount in the first priority calculation to eligible charter schools not included in the first priority calculation and to schools in the first priority calculation with growth greater than the 2005-2006 capital outlay full-time equivalent students. ~~(b)(4)~~ A charter school is not eligible for a funding allocation if it was created by the conversion of a public school and operates in facilities provided by the charter school's sponsor for a nominal fee, or at no charge, or if it is directly or indirectly operated by the school district.

(c) It is the intent of the Legislature that the public interest be protected by prohibiting personal financial enrichment by owners, operators, managers, and other affiliated parties of charter schools. A charter school is not eligible for a funding allocation unless the chair of the governing board and the chief administrative officer of the charter school annually certify under oath that the funds will be used solely and exclusively for constructing, renovating, or improving charter school facilities that are:

1. Owned by a school district, political subdivision of the state, municipality, Florida College System institution, or state university;

2. Owned by an organization, qualified as an exempt organization under s. 501(c)(3) of the Internal Revenue Code, whose articles of incorporation specify that upon the organization's dissolution, the subject property will be transferred to a school district, political subdivision of the state, municipality, Florida College System institution, or state university; or

3. Owned by and leased, at a fair market value in the school district in which the charter school is located, from a person or entity that is not an affiliated party of the charter school. For purposes of this paragraph, the term "affiliated party of the charter school" means the applicant for the charter school pursuant to s. 1002.33; the governing board of the charter school or a member of the governing board; the charter school owner; the charter school principal; an employee of the charter school; an independent contractor of the charter school or the governing board of the charter school; a relative, as defined in s. 1002.33(24)(a)2., of a charter school governing board member, a charter school owner, a charter school principal, a charter school employee, or an independent contractor of a charter school or charter school governing board; a subsidiary corporation, a service corporation, an affiliated corporation, a parent corporation, a limited liability company, a limited partnership, a trust, a partnership, or a related party that individually or through one or more entities that share common ownership or control that directly or indirectly manages, administers, controls, or oversees the operation of the charter school; or any person or entity, individually or through one or more entities that share common ownership, that directly or indirectly manages, administers, controls, or oversees the operation of any of the foregoing.

(d) The funding allocation for eligible charter schools shall be calculated as follows:

1. Eligible charter schools shall be grouped into categories based on their student populations according to the following criteria:

a. Seventy-five percent or greater who are eligible for free or reduced-price school lunch.

b. Twenty-five percent or greater with disabilities as defined in state board rule and consistent with the requirements of the Individuals with Disabilities Education Act.

2. If an eligible charter school does not meet the criteria for either category under subparagraph 1., its FTE shall be provided as the base amount of funding and shall be assigned a weight of 1.0. An eligible charter school that meets the criteria under sub-subparagraph 1.a. or sub-subparagraph 1.b. shall be provided an additional 25 percent above the base funding amount, and the total FTE shall be multiplied by a weight of 1.25. An eligible charter school that meets the criteria under both sub-subparagraphs 1.a. and 1.b. shall be provided an additional 50 percent above the base funding amount, and the FTE for that school shall be multiplied by a weight of 1.5.

3. The state appropriation for charter school capital outlay shall be divided by the total weighted FTE for all eligible charter schools to determine the base charter school per weighted FTE allocation amount. The per weighted FTE allocation amount shall be multiplied by the weighted FTE to determine each charter school's capital outlay allocation.

~~(e) Unless otherwise provided in the General Appropriations Act, the funding allocation for each eligible charter school is determined by multiplying the school's projected student enrollment by one fifteenth of~~

~~the cost per student station specified in s. 1013.64(6)(b) for an elementary, middle, or high school, as appropriate. If the funds appropriated are not sufficient, the commissioner shall prorate the available funds among eligible charter schools. However, a charter school or charter lab school may not receive state charter school capital outlay funds greater than the one fifteenth cost per student station formula if the charter school's combination of state charter school capital outlay funds, capital outlay funds calculated through the reduction in the administrative fee provided in s. 1002.33(20), and capital outlay funds allowed in s. 1002.32(9)(e) and (h) exceeds the one fifteenth cost per student station formula.~~

~~(2)(a)(f) The department shall calculate the eligible charter school funding allocations. Funds shall be allocated using distributed on the basis of the capital outlay full-time equivalent membership from by grade level, which is calculated by averaging the results of the second and third enrollment surveys and free and reduced-price school lunch data. The department shall recalculate the allocations periodically based on the receipt of revised information, on a schedule established by the Commissioner of Education.~~

~~(b) The department of Education shall distribute capital outlay funds monthly, beginning in the first quarter of the fiscal year, based on one-twelfth of the amount the department reasonably expects the charter school to receive during that fiscal year. The commissioner shall adjust subsequent distributions as necessary to reflect each charter school's recalculated allocation actual student enrollment as reflected in the second and third enrollment surveys. The commissioner shall establish the intervals and procedures for determining the projected and actual student enrollment of eligible charter schools.~~

~~(3)(2) A charter school's governing body may use charter school capital outlay funds for the following purposes:~~

~~(a) Purchase of real property.~~

~~(b) Construction of school facilities.~~

~~(c) Purchase, lease-purchase, or lease of permanent or relocatable school facilities.~~

~~(d) Purchase of vehicles to transport students to and from the charter school.~~

~~(e) Renovation, repair, and maintenance of school facilities that the charter school owns or is purchasing through a lease-purchase or long-term lease of 5 years or longer.~~

~~(f) Effective July 1, 2008, purchase, lease-purchase, or lease of new and replacement equipment, and enterprise resource software applications that are classified as capital assets in accordance with definitions of the Governmental Accounting Standards Board, have a useful life of at least 5 years, and are used to support schoolwide administration or state-mandated reporting requirements.~~

~~(g) Payment of the cost of premiums for property and casualty insurance necessary to insure the school facilities.~~

~~(h) Purchase, lease-purchase, or lease of driver's education vehicles; motor vehicles used for the maintenance or operation of plants and equipment; security vehicles; or vehicles used in storing or distributing materials and equipment.~~

Conversion charter schools may use capital outlay funds received through the reduction in the administrative fee provided in s. 1002.33(20) for renovation, repair, and maintenance of school facilities that are owned by the sponsor.

~~(4)(3) If when a charter school is nonrenewed or terminated, any unencumbered funds and all equipment and property purchased with district public funds shall revert to the ownership of the district school board, as provided for in s. 1002.33(8)(e) and (f). In the case of a charter lab school, any unencumbered funds and all equipment and property purchased with university public funds shall revert to the ownership of the state university that issued the charter. The reversion of such~~

equipment, property, and furnishings shall focus on recoverable assets, but not on intangible or irrecoverable costs such as rental or leasing fees, normal maintenance, and limited renovations. The reversion of all property secured with public funds is subject to the complete satisfaction of all lawful liens or encumbrances. If there are additional local issues such as the shared use of facilities or partial ownership of facilities or property, these issues shall be agreed to in the charter contract prior to the expenditure of funds.

(5)(4) The Commissioner of Education shall specify procedures for submitting and approving requests for funding under this section and procedures for documenting expenditures.

(6)(5) The annual legislative budget request of the Department of Education shall include a request for capital outlay funding for charter schools. The request shall be based on the projected number of students to be served in charter schools who meet the eligibility requirements of this section. ~~A dedicated funding source, if identified in writing by the Commissioner of Education and submitted along with the annual charter school legislative budget request, may be considered an additional source of funding.~~

~~(6) Unless authorized otherwise by the Legislature, allocation and proration of charter school capital outlay funds shall be made to eligible charter schools by the Commissioner of Education in an amount and in a manner authorized by subsection (1).~~

Section 11. Paragraphs (a) and (b) of subsection (2) and paragraphs (b) through (e) of subsection (6) of section 1013.64, Florida Statutes, are amended to read:

- (c) Meet state and local health and safety laws and codes.

(d) Provide to the provider of supported employment services all documentation required for a student's participation, including the private school's and student's fee schedules, at least 30 days before any quarterly scholarship payment is made for the student. A student is not eligible to receive a quarterly scholarship payment if the private school fails to meet this deadline.

The inability of a private school to meet the requirements of this subsection constitutes a basis for the ineligibility of the private school to participate in the ~~pilot~~ program.

(6)(a) If the student chooses to participate in the ~~pilot~~ program and is accepted by the provider of supported employment services, the student must notify the Department of Education of his or her acceptance into the program 60 days before the first scholarship payment and before participating in the ~~pilot~~ program in order to be eligible for the scholarship.

(b) Upon receipt of a scholarship warrant, the student or parent to whom the warrant is made must restrictively endorse the warrant to the provider of supported employment services for deposit into the account of the provider. The student or parent may not designate any entity or individual associated with the participating provider of supported employment services as the student's or parent's attorney in fact to endorse a scholarship warrant. A participant who fails to comply with this paragraph forfeits the scholarship.

(7) Funds for the scholarship shall be provided from the appropriation from the school district's Workforce Development Fund in the General Appropriations Act for students who reside in the Hardee County School District, the DeSoto County School District, the Manatee County School District, or the Sarasota County School District. ~~During the pilot program,~~ The scholarship amount granted for an eligible student with a disability shall be equal to the cost per unit of a full-time equivalent adult general education student, multiplied by the adult general education funding factor, and multiplied by the district cost differential pursuant to the formula required by s. 1011.80(6)(a) for the district in which the student resides.

(8) Upon notification by the Department of Education that it has received the required documentation, the Chief Financial Officer shall make scholarship payments in four equal amounts no later than September 1, November 1, February 1, and April 1 of each academic year in which the scholarship is in force. The initial payment shall be made after the Department of Education verifies that the student was accepted into the ~~pilot~~ program, and subsequent payments shall be made upon verification of continued participation in the ~~pilot~~ program. Payment must be by individual warrant made payable to the student or parent and mailed by the Department of Education to the provider of supported employment services, and the student or parent shall re-

strictly endorse the warrant to the provider of supported employment services for deposit into the account of that provider.

(9) Subsequent to each scholarship payment, the Department of Education shall request from the Department of Financial Services a sample of endorsed warrants to review and confirm compliance with endorsement requirements.

Section 18. Subsection (3) and paragraph (a) of subsection (8) of section 1006.15, Florida Statutes, are amended, and subsection (9) is added to that section, to read:

1006.15 Student standards for participation in interscholastic and intrascholastic extracurricular student activities; regulation.—

(3)(a) *As used in this section and s. 1006.20, the term “eligible to participate” includes, but is not limited to, a student participating in tryouts, off-season conditioning, summer workouts, preseason conditioning, in-season practice, or contests. The term does not mean that a student must be placed on any specific team for interscholastic or intrascholastic extracurricular activities. To be eligible to participate in interscholastic extracurricular student activities, a student must:*

1. Maintain a grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the previous semester or a cumulative grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the courses required by s. 1002.3105(5) or s. 1003.4282.

2. Execute and fulfill the requirements of an academic performance contract between the student, the district school board, the appropriate governing association, and the student’s parents, if the student’s cumulative grade point average falls below 2.0, or its equivalent, on a 4.0 scale in the courses required by s. 1002.3105(5) or s. 1003.4282. At a minimum, the contract must require that the student attend summer school, or its graded equivalent, between grades 9 and 10 or grades 10 and 11, as necessary.

3. Have a cumulative grade point average of 2.0 or above on a 4.0 scale, or its equivalent, in the courses required by s. 1002.3105(5) or s. 1003.4282 during his or her junior or senior year.

4. Maintain satisfactory conduct, including adherence to appropriate dress and other codes of student conduct policies described in s. 1006.07(2). If a student is convicted of, or is found to have committed, a felony or a delinquent act that would have been a felony if committed by an adult, regardless of whether adjudication is withheld, the student’s participation in interscholastic extracurricular activities is contingent upon established and published district school board policy.

(b) Any student who is exempt from attending a full school day based on rules adopted by the district school board for double session schools or programs, experimental schools, or schools operating under emergency conditions must maintain the grade point average required by this section and pass each class for which he or she is enrolled.

(c) An individual home education student is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to district or interdistrict controlled open enrollment provisions, or may develop an agreement to participate at a private school, in the interscholastic extracurricular activities of that school, provided the following conditions are met:

1. The home education student must meet the requirements of the home education program pursuant to s. 1002.41.

2. During the period of participation at a school, the home education student must demonstrate educational progress as required in paragraph (b) in all subjects taken in the home education program by a method of evaluation agreed upon by the parent and the school principal which may include: review of the student’s work by a certified teacher chosen by the parent; grades earned through correspondence; grades earned in courses taken at a Florida College System institution, university, or trade school; standardized test scores above the 35th percentile; or any other method designated in s. 1002.41.

3. The home education student must meet the same residency requirements as other students in the school at which he or she participates.

4. The home education student must meet the same standards of acceptance, behavior, and performance as required of other students in extracurricular activities.

5. The student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A home education student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a home education program to a public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period provided the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a home education student until the student has successfully completed one grading period in home education pursuant to subparagraph 2. to become eligible to participate as a home education student.

(d) An individual charter school student pursuant to s. 1002.33 is eligible to participate at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend, pursuant to district or interdistrict controlled open enrollment provisions, in any interscholastic extracurricular activity of that school, unless such activity is provided by the student’s charter school, if the following conditions are met:

1. The charter school student must meet the requirements of the charter school education program as determined by the charter school governing board.

2. During the period of participation at a school, the charter school student must demonstrate educational progress as required in paragraph (b).

3. The charter school student must meet the same residency requirements as other students in the school at which he or she participates.

4. The charter school student must meet the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.

5. The charter school student must register with the school his or her intent to participate in interscholastic extracurricular activities as a representative of the school before the beginning date of the season for the activity in which he or she wishes to participate. A charter school student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

6. A student who transfers from a charter school program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year, pursuant to subparagraph 2.

7. Any public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a charter school student until the student has successfully completed one grading period in a charter school pursuant to subparagraph 2. to become eligible to participate as a charter school student.

(e) A student of the Florida Virtual School full-time program may participate in any interscholastic extracurricular activity at the public school to which the student would be assigned according to district school board attendance area policies or which the student could ~~choose to attend, pursuant to district or interdistrict-controlled open enrollment policies,~~ if the student:

1. During the period of participation in the interscholastic extracurricular activity, meets the requirements in paragraph (a).
2. Meets any additional requirements as determined by the board of trustees of the Florida Virtual School.
3. Meets the same residency requirements as other students in the school at which he or she participates.
4. Meets the same standards of acceptance, behavior, and performance that are required of other students in extracurricular activities.
5. Registers his or her intent to participate in interscholastic extracurricular activities with the school before the beginning date of the season for the activity in which he or she wishes to participate. A Florida Virtual School student must be able to participate in curricular activities if that is a requirement for an extracurricular activity.

(f) A student who transfers from the Florida Virtual School full-time program to a traditional public school before or during the first grading period of the school year is academically eligible to participate in interscholastic extracurricular activities during the first grading period if the student has a successful evaluation from the previous school year pursuant to paragraph (a).

(g) A public school or private school student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities as a Florida Virtual School student until the student successfully completes one grading period in the Florida Virtual School pursuant to paragraph (a).

(h)1. A school district or charter school may not delay eligibility or otherwise prevent a student participating in controlled open enrollment, or a choice program, from being immediately eligible to participate in interscholastic and intrascholastic extracurricular activities.

2. A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets one of the following criteria:

- a. *Dependent children of active duty military personnel whose move resulted from military orders.*
- b. *Children who have been relocated due to a foster care placement in a different school zone.*
- c. *Children who move due to a court ordered change in custody due to separation or divorce, or the serious illness or death of a custodial parent.*
- d. *Authorized for good cause in district or charter school policy.*

(8)(a) The Florida High School Athletic Association (FHSAA), in cooperation with each district school board, shall facilitate a program in which a middle school or high school student who attends a private school shall be eligible to participate in an interscholastic or intrascholastic sport at a public high school, a public middle school, or a 6-12 public school that is zoned for the physical address at which the student resides if:

1. The private school in which the student is enrolled is not a member of the FHSAA ~~and does not offer an interscholastic or intrascholastic athletic program.~~
2. The private school student meets the guidelines for the conduct of the program established by the FHSAA's board of directors and the district school board. At a minimum, such guidelines shall provide:

a. A deadline for each sport by which the private school student's parents must register with the public school in writing their intent for their child to participate at that school in the sport.

b. Requirements for a private school student to participate, including, but not limited to, meeting the same standards of eligibility, acceptance, behavior, educational progress, and performance which apply to other students participating in interscholastic or intrascholastic sports at a public school or FHSAA member private school.

(9)(a) A student who transfers to a school during the school year may seek to immediately join an existing team if the roster for the specific interscholastic or intrascholastic extracurricular activity has not reached the activity's identified maximum size and if the coach for the activity determines that the student has the requisite skill and ability to participate. The FHSAA and school district or charter school may not declare such a student ineligible because the student did not have the opportunity to comply with qualifying requirements.

(b) A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets one of the following criteria:

1. *Dependent children of active duty military personnel whose move resulted from military orders.*

Section 19. Section 1006.195, Florida Statutes, is created to read:

1006.195 District school board, charter school authority and responsibility to establish student eligibility regarding participation in interscholastic and intrascholastic extracurricular activities.—Notwithstanding any provision to the contrary in ss. 1006.15, 1006.18, and 1006.20, regarding student eligibility to participate in interscholastic and intrascholastic extracurricular activities:

(1)(a) A district school board must establish, through its code of student conduct, student eligibility standards and related disciplinary actions regarding student participation in interscholastic and intrascholastic extracurricular activities. The code of student conduct must provide that:

1. *A student not currently suspended from interscholastic or intrascholastic extracurricular activities, or suspended or expelled from school, pursuant to a district school board's suspension or expulsion powers provided in law, including ss. 1006.07, 1006.08, and 1006.09, is eligible to participate in interscholastic and intrascholastic extracurricular activities.*
2. *A student may not participate in a sport if the student participated in that same sport at another school during that school year, unless the student meets the criteria in s. 1006.15(3)(h).*
3. *A student's eligibility to participate in any interscholastic or intrascholastic extracurricular activity may not be affected by any alleged recruiting violation until final disposition of the allegation pursuant to s. 1006.20(2)(b).*

(b) Students who participate in interscholastic and intrascholastic extracurricular activities for, but are not enrolled in, a public school pursuant to s. 1006.15(3)(c)-(e) and (8), are subject to the district school board's code of student conduct for the limited purpose of establishing and maintaining the student's eligibility to participate at the school.

(c) The provisions of this subsection apply to interscholastic and intrascholastic extracurricular activities conducted by charter schools and private schools, as applicable, except that the charter school governing

board, or equivalent private school authority, is responsible for the authority and responsibility otherwise provided to district school boards.

(2)(a) *The Florida High School Athletic Association (FHSAA) continues to retain jurisdiction over the following provisions in s. 1006.20, which may not be implemented in a manner contrary to this section: membership in the FHSAA; recruiting prohibitions and violations; student medical evaluations; investigations; and sanctions for coaches; school eligibility and forfeiture of contests; student concussions or head injuries; the sports medical advisory committee; and the general operational provisions of the FHSAA.*

(b) *The FHSAA must adopt, and prominently publish, the text of this section on its website and in its bylaws, rules, procedures, training and education materials, and all other governing authority documents by August 1, 2016.*

Section 20. Subsection (1) and paragraphs (a), (b), (c), and (g) of subsection (2) of section 1006.20, Florida Statutes, are amended to read:

1006.20 Athletics in public K-12 schools.—

(1) GOVERNING NONPROFIT ORGANIZATION.—The Florida High School Athletic Association (FHSAA) is designated as the governing nonprofit organization of athletics in Florida public schools. If the FHSAA fails to meet the provisions of this section, the commissioner shall designate a nonprofit organization to govern athletics with the approval of the State Board of Education. The FHSAA is not a state agency as defined in s. 120.52. The FHSAA shall be subject to the provisions of s. 1006.19. A private school that wishes to engage in high school athletic competition with a public high school may become a member of the FHSAA. Any high school in the state, including charter schools, virtual schools, and home education cooperatives, may become a member of the FHSAA and participate in the activities of the FHSAA. However, membership in the FHSAA is not mandatory for any school. *The FHSAA must allow a private school the option of maintaining full membership in the association or joining by sport and may not discourage a private school from simultaneously maintaining membership in another athletic association. The FHSAA may allow a public school the option to apply for consideration to join another athletic association.* The FHSAA may not deny or discourage interscholastic competition between its member schools and non-FHSAA member Florida schools, including members of another athletic governing organization, and may not take any retributory or discriminatory action against any of its member schools that participate in interscholastic competition with non-FHSAA member Florida schools. The FHSAA may not unreasonably withhold its approval of an application to become an affiliate member of the National Federation of State High School Associations submitted by any other organization that governs interscholastic athletic competition in this state. The bylaws of the FHSAA are the rules by which high school athletic programs in its member schools, and the students who participate in them, are governed, unless otherwise specifically provided by statute. For the purposes of this section, “high school” includes grades 6 through 12.

(2) ADOPTION OF BYLAWS, POLICIES, OR GUIDELINES.—

(a) The FHSAA shall adopt bylaws that, unless specifically provided by statute, establish eligibility requirements for all students who participate in high school athletic competition in its member schools. The bylaws governing residence and transfer shall allow the student to be *immediately* eligible in the school in which he or she first enrolls each school year or the school in which the student makes himself or herself a candidate for an athletic team by engaging in a practice prior to enrolling in the school. The bylaws shall also allow the student to be *immediately* eligible in the school to which the student has transferred ~~during the school year if the transfer is made by a deadline established by the FHSAA, which may not be prior to the date authorized for the beginning of practice for the sport. These transfers shall be allowed pursuant to the district school board policies in the case of transfer to a public school or pursuant to the private school policies in the case of transfer to a private school.~~ The student shall be eligible in that school so long as he or she remains enrolled in that school. Subsequent eligibility shall be determined and enforced through the FHSAA’s bylaws.

Requirements governing eligibility and transfer between member schools shall be applied similarly to public school students and private school students.

(b) The FHSAA shall adopt bylaws that specifically prohibit the recruiting of students for athletic purposes. The bylaws shall prescribe penalties and an appeals process for athletic recruiting violations.

1. If it is determined that a school has recruited a student in violation of FHSAA bylaws, the FHSAA may require the school to participate in a higher classification for the sport in which the recruited student competes for a minimum of one classification cycle, in addition to the penalties in subparagraphs 2. and 3., and any other appropriate fine or ~~and~~ sanction imposed on the school, its coaches, or adult representatives who violate recruiting rules.

2. *Any recruitment by a school district employee or contractor in violation of FHSAA bylaws results in escalating punishments as follows:*

a. *For a first offense, a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation.*

b. *For a second offense, suspension without pay for 12 months from coaching, directing, or advertising an extracurricular activity and a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation.*

c. *For a third offense, a \$5,000 forfeiture of pay for the school district employee or contractor who committed the violation. If the individual who committed the violation holds an educator certificate, the FHSAA shall also refer the violation to the department for review pursuant to s. 1012.796 to determine whether probable cause exists, and, if there is a finding of probable cause, the commissioner shall file a formal complaint against the individual. If the complaint is upheld, the individual’s educator certificate shall be revoked for 3 years, in addition to any penalties available under s. 1012.796. Additionally, the department shall revoke any adjunct teaching certificates issued pursuant to s. 1012.57 and all permissions under ss. 1012.39 and 1012.43, and the educator is ineligible for such certificates or permissions for a period of time equal to the period of revocation of his or her state-issued certificate.*

3. *Notwithstanding any other provision of law, a school, team, or activity shall forfeit all competitions, including honors resulting from such competitions, in which a student who participated in any fashion was recruited in a manner prohibited pursuant to state law or the FHSAA bylaws.*

4. A student may not be declared ineligible based on violation of recruiting rules unless the student or parent has falsified any enrollment or eligibility document or accepted any benefit ~~or any promise of benefit~~ if such benefit is not generally available to the school’s students or family members or is based in any way on athletic interest, potential, or performance.

5. *A student’s eligibility to participate in any interscholastic or intrascholastic extracurricular activity, as determined by a district school board pursuant to s. 1006.195(1)(a)3., may not be affected by any alleged recruiting violation until final disposition of the allegation.*

(c) The FHSAA shall adopt bylaws that require all students participating in interscholastic athletic competition or who are candidates for an interscholastic athletic team to satisfactorily pass a medical evaluation each year prior to participating in interscholastic athletic competition or engaging in any practice, tryout, workout, or other physical activity associated with the student’s candidacy for an interscholastic athletic team. Such medical evaluation may be administered only by a practitioner licensed under chapter 458, chapter 459, chapter 460, or s. 464.012, and in good standing with the practitioner’s regulatory board. The bylaws shall establish requirements for eliciting a student’s medical history and performing the medical evaluation required under this paragraph, which shall include a physical assessment of the student’s physical capabilities to participate in interscholastic athletic competition as contained in a uniform preparticipation physical evaluation and history form. The evaluation form shall incorporate the recommendations of the American Heart Association for participation

cardiovascular screening and shall provide a place for the signature of the practitioner performing the evaluation with an attestation that each examination procedure listed on the form was performed by the practitioner or by someone under the direct supervision of the practitioner. The form shall also contain a place for the practitioner to indicate if a referral to another practitioner was made in lieu of completion of a certain examination procedure. The form shall provide a place for the practitioner to whom the student was referred to complete the remaining sections and attest to that portion of the examination. The preparticipation physical evaluation form shall advise students to complete a cardiovascular assessment and shall include information concerning alternative cardiovascular evaluation and diagnostic tests. Results of such medical evaluation must be provided to the school. ~~A student is not eligible to participate, as provided in s. 1006.15(3), in any interscholastic athletic competition or engage in any practice, tryout, workout, or other physical activity associated with the student's candidacy for an interscholastic athletic team until the results of the medical evaluation have been received and approved by the school.~~

(g) The FHSAA shall adopt bylaws establishing the process and standards by which FHSAA determinations of eligibility are made. Such bylaws shall provide that:

1. Ineligibility must be established by ~~a preponderance of the clear and convincing~~ evidence;
2. Student athletes, parents, and schools must have notice of the initiation of any investigation or other inquiry into eligibility and may present, to the investigator and to the individual making the eligibility determination, any information or evidence that is credible, persuasive, and of a kind reasonably prudent persons rely upon in the conduct of serious affairs;
3. An investigator may not determine matters of eligibility but must submit information and evidence to the executive director or a person designated by the executive director or by the board of directors for an unbiased and objective determination of eligibility; and
4. A determination of ineligibility must be made in writing, setting forth the findings of fact and specific violation upon which the decision is based.

1011.61 Definitions.—Notwithstanding the provisions of s. 1000.21, the following terms are defined as follows for the purposes of the Florida Education Finance Program:

(1) A “full-time equivalent student” in each program of the district is defined in terms of full-time students and part-time students as follows:

(a) A “full-time student” is one student on the membership roll of one school program or a combination of school programs listed in s. 1011.62(1)(c) for the school year or the equivalent for:

1. Instruction in a standard school, comprising not less than 900 net hours for a student in or at the grade level of 4 through 12, or not less than 720 net hours for a student in or at the grade level of kindergarten through grade 3 or in an authorized prekindergarten exceptional program; *or*

~~2. Instruction in a double session school or a school utilizing an experimental school calendar approved by the Department of Education, comprising not less than the equivalent of 810 net hours in grades 4 through 12 or not less than 630 net hours in kindergarten through grade 3; *or*~~

~~2.3.~~ Instruction comprising the appropriate number of net hours set forth in subparagraph 1. ~~or subparagraph 2.~~ for students who, within the past year, have moved with their parents for the purpose of engaging in the farm labor or fish industries, if a plan furnishing such an extended school day or week, or a combination thereof, has been approved by the commissioner. Such plan may be approved to accommodate the needs of migrant students only or may serve all students in schools having a high percentage of migrant students. The plan described in this subparagraph is optional for any school district and is not mandated by the state.

(b) A “part-time student” is a student on the active membership roll of a school program or combination of school programs listed in s. 1011.62(1)(c) who is less than a full-time student. *A student who receives instruction in a school that operates for less than the minimum term shall generate full-time equivalent student membership proportional to the amount of instructional hours provided by the school divided by the minimum term requirement as provided in s. 1011.60(2).*

(c)1. A “full-time equivalent student” is:

a. A full-time student in any one of the programs listed in s. 1011.62(1)(c); or

for which he or she is a member, divided by the appropriate number of hours set forth in subparagraph (a)1. ~~or subparagraph (a)2.~~ The difference between that fraction or sum of fractions and the maximum value as set forth in subsection (4) for each full-time student is presumed to be the balance of the student’s time not spent in a special program and shall be recorded as time in the appropriate basic program.

(II) A prekindergarten student with a disability shall meet the requirements specified for kindergarten students.

(III) A full-time equivalent student for students in kindergarten through grade 12 in a full-time virtual instruction program under s. 1002.45 or a virtual charter school under s. 1002.33 shall consist of six full-credit completions or the prescribed level of content that counts toward promotion to the next grade in programs listed in s. 1011.62(1)(c). Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(IV) A full-time equivalent student for students in kindergarten through grade 12 in a part-time virtual instruction program under s. 1002.45 shall consist of six full-credit completions in programs listed in s. 1011.62(1)(c)1. and 3. Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(V) A Florida Virtual School full-time equivalent student shall consist of six full-credit completions or the prescribed level of content that counts toward promotion to the next grade in the programs listed in s. 1011.62(1)(c)1. and 3. for students participating in kindergarten through grade 12 part-time virtual instruction and the programs listed in s. 1011.62(1)(c) for students participating in kindergarten through grade 12 full-time virtual instruction. Credit completions may be a combination of full-credit courses or half-credit courses. ~~Beginning in the 2016-2017 fiscal year, the reported full-time equivalent students and associated funding of students enrolled in courses requiring passage of an end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(VI) Each successfully completed full-credit course earned through an online course delivered by a district other than the one in which the student resides shall be calculated as 1/6 FTE.

(VII) A full-time equivalent student for courses requiring passage of a statewide, standardized end-of-course assessment under s. 1003.4282 to earn a standard high school diploma shall be defined and reported based on the number of instructional hours as provided in this subsection ~~until the 2016-2017 fiscal year. Beginning in the 2016-2017 fiscal year, the FTE for the course shall be assessment-based and shall be equal to 1/6 FTE. The reported FTE shall be adjusted if the student does not pass the end-of-course assessment. However, no adjustment shall be made for a student who enrolls in a segmented remedial course delivered online.~~

(VIII) For students enrolled in a school district as a full-time student, the district may report 1/6 FTE for each student who passes a statewide, standardized end-of-course assessment without being enrolled in the corresponding course.

2. A student in membership in a program scheduled for more or less than 180 school days or the equivalent on an hourly basis as specified by rules of the State Board of Education is a fraction of a full-time equivalent membership equal to the number of instructional hours in membership divided by the appropriate number of hours set forth in subparagraph (a)1.; however, for the purposes of this subparagraph, membership in programs scheduled for more than 180 days is limited to students enrolled in:

- a. Juvenile justice education programs.
- b. The Florida Virtual School.
- c. Virtual instruction programs and virtual charter schools for the purpose of course completion and credit recovery pursuant to ss. 1002.45 and 1003.498. Course completion applies only to a student who is reported during the second or third membership surveys and who does not complete a virtual education course by the end of the regular school year. The course must be completed no later than the deadline for amending the final student enrollment survey for that year. Credit recovery applies only to a student who has unsuccessfully completed a traditional or virtual education course during the regular school year and must re-take the course in order to be eligible to graduate with the student's class.

The full-time equivalent student enrollment calculated under this subsection is subject to the requirements in subsection (4).

The department shall determine and implement an equitable method of equivalent funding for ~~experimental schools and for~~ schools operating under emergency conditions, which schools have been approved by the department to operate for less than the minimum *term as provided in s. 1011.60(2) school day*.

Section 23. Effective July 1, 2016, and upon the expiration of the amendment to section 1011.62, Florida Statutes, made by chapter 2015-222, Laws of Florida, paragraphs (e) and (o) of subsection (1), paragraph (a) of subsection (4), and present subsection (13) of that section are amended, present subsections (13), (14), and (15) of that section are redesignated as subsections (14), (15), and (16), respectively, and a new subsection (13) is added to that section, to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(1) COMPUTATION OF THE BASIC AMOUNT TO BE INCLUDED FOR OPERATION.—The following procedure shall be followed in determining the annual allocation to each district for operation:

(e) *Funding model for exceptional student education programs.*—

1.a. The funding model uses basic, at-risk, support levels IV and V for exceptional students and career Florida Education Finance Program cost factors, and a guaranteed allocation for exceptional student education programs. Exceptional education cost factors are determined by using a matrix of services to document the services that each exceptional student will receive. The nature and intensity of the services indicated on the matrix shall be consistent with the services described in each exceptional student's individual educational plan. The Department of Education shall review and revise the descriptions of the services and supports included in the matrix of services for exceptional students and shall implement those revisions before the beginning of the 2012-2013 school year.

b. In order to generate funds using one of the two weighted cost factors, a matrix of services must be completed at the time of the student's initial placement into an exceptional student education program and at least once every 3 years by personnel who have received approved training. Nothing listed in the matrix shall be construed as limiting the services a school district must provide in order to ensure

that exceptional students are provided a free, appropriate public education.

c. Students identified as exceptional, in accordance with chapter 6A-6, Florida Administrative Code, who do not have a matrix of services as specified in sub-subparagraph b. shall generate funds on the basis of full-time-equivalent student membership in the Florida Education Finance Program at the same funding level per student as provided for basic students. Additional funds for these exceptional students will be provided through the guaranteed allocation designated in subparagraph 2.

2. For students identified as exceptional who do not have a matrix of services and students who are gifted in grades K through 8, there is created a guaranteed allocation to provide these students with a free appropriate public education, in accordance with s. 1001.42(4)(l) and rules of the State Board of Education, which shall be allocated ~~initially annually~~ to each school district in the amount provided in the General Appropriations Act. These funds shall be ~~supplemental in addition to the funds appropriated for the basic funding level on the basis of FTE student membership in the Florida Education Finance Program~~, and the amount allocated for each school district shall ~~not~~ be recalculated ~~once~~ during the year, ~~based on actual student membership from the October FTE survey. Upon recalculation, if the generated allocation is greater than the amount provided in the General Appropriations Act, the total shall be prorated to the level of the appropriation based on each district's share of the total recalculated amount.~~ These funds shall be used to provide special education and related services for exceptional students and students who are gifted in grades K through 8. ~~Beginning with the 2007-2008 fiscal year,~~ A district's expenditure of funds from the guaranteed allocation for students in grades 9 through 12 who are gifted may not be greater than the amount expended during the 2006-2007 fiscal year for gifted students in grades 9 through 12.

(o) *Calculation of additional full-time equivalent membership based on successful completion of a career-themed course pursuant to ss. 1003.491, 1003.492, and 1003.493, or courses with embedded CAPE industry certifications or CAPE Digital Tool certificates, and issuance of industry certification identified on the CAPE Industry Certification Funding List pursuant to rules adopted by the State Board of Education or CAPE Digital Tool certificates pursuant to s. 1003.4203.*—

1.a. A value of 0.025 full-time equivalent student membership shall be calculated for CAPE Digital Tool certificates earned by students in elementary and middle school grades.

b. A value of 0.1 or 0.2 full-time equivalent student membership shall be calculated for each student who completes a course as defined in s. 1003.493(1)(b) or courses with embedded CAPE industry certifications and who is issued an industry certification identified annually on the CAPE Industry Certification Funding List approved under rules adopted by the State Board of Education. A value of 0.2 full-time equivalent membership shall be calculated for each student who is issued a CAPE industry certification that has a statewide articulation agreement for college credit approved by the State Board of Education. For CAPE industry certifications that do not articulate for college credit, the Department of Education shall assign a full-time equivalent value of 0.1 for each certification. Middle grades students who earn additional FTE membership for a CAPE Digital Tool certificate pursuant to sub-subparagraph a. may not use the previously funded examination to satisfy the requirements for earning an industry certification under this sub-subparagraph. Additional FTE membership for an elementary or middle grades student ~~may shall~~ not exceed 0.1 for certificates or certifications earned within the same fiscal year. The State Board of Education shall include the assigned values on the CAPE Industry Certification Funding List under rules adopted by the state board. Such value shall be added to the total full-time equivalent student membership for grades 6 through 12 in the subsequent year ~~for courses that were not provided through dual enrollment~~. CAPE industry certifications earned through dual enrollment must be reported and funded pursuant to s. 1011.80. *However, if a student earns a certification through a dual enrollment course and the certification is not a fundable certification on the postsecondary certification funding list, or the dual enrollment certification is earned as a result of an agreement*

between a school district and a nonpublic postsecondary institution, the bonus value shall be funded in the same manner as other nondual enrollment course industry certifications. In such cases, the school district may provide for an agreement between the high school and the technical center, or the school district and the postsecondary institution may enter into an agreement for equitable distribution of the bonus funds.

c. A value of 0.3 full-time equivalent student membership shall be calculated for student completion of the courses and the embedded certifications identified on the CAPE Industry Certification Funding List and approved by the commissioner pursuant to ss. 1003.4203(5)(a) and 1008.44.

d. A value of 0.5 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 15 to 29 college credit hours, and 1.0 full-time equivalent student membership shall be calculated for CAPE Acceleration Industry Certifications that articulate for 30 or more college credit hours pursuant to CAPE Acceleration Industry Certifications approved by the commissioner pursuant to ss. 1003.4203(5)(b) and 1008.44.

2. Each district must allocate at least 80 percent of the funds provided for CAPE industry certification, in accordance with this paragraph, to the program that generated the funds. This allocation may not be used to supplant funds provided for basic operation of the program.

3. For CAPE industry certifications earned in the 2013-2014 school year and in subsequent years, the school district shall distribute to each classroom teacher who provided direct instruction toward the attainment of a CAPE industry certification that qualified for additional full-time equivalent membership under subparagraph 1.:

a. A bonus ~~in the amount~~ of \$25 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.1.

b. A bonus ~~in the amount~~ of \$50 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.2, ~~0.3, 0.5, and 1.0~~.

c. A bonus of \$75 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.3.

d. A bonus of \$100 for each student taught by a teacher who provided instruction in a course that led to the attainment of a CAPE industry certification on the CAPE Industry Certification Funding List with a weight of 0.5 or 1.0.

Bonuses awarded pursuant to this paragraph shall be provided to teachers who are employed by the district in the year in which the additional FTE membership calculation is included in the calculation. Bonuses shall be calculated based upon the associated weight of a CAPE industry certification on the CAPE Industry Certification Funding List for the year in which the certification is earned by the student. Any bonus awarded to a teacher under this paragraph ~~may not exceed \$2,000 in any given school year and~~ is in addition to any regular wage or other bonus the teacher received or is scheduled to receive.

(4) COMPUTATION OF DISTRICT REQUIRED LOCAL EFFORT.—The Legislature shall prescribe the aggregate required local effort for all school districts collectively as an item in the General Appropriations Act for each fiscal year. The amount that each district shall provide annually toward the cost of the Florida Education Finance Program for kindergarten through grade 12 programs shall be calculated as follows:

(a) *Estimated taxable value calculations.*—

1.a. Not later than 2 working days ~~before~~ ~~prior to~~ July 19, the Department of Revenue shall certify to the Commissioner of Education its most recent estimate of the taxable value for school purposes in each

school district and the total for all school districts in the state for the current calendar year based on the latest available data obtained from the local property appraisers. The value certified shall be the taxable value for school purposes for that year, and no further adjustments shall be made, except those made pursuant to paragraphs (c) and (d), or an assessment roll change required by final judicial decisions as specified in paragraph (15)(b) ~~(14)(b)~~. Not later than July 19, the Commissioner of Education shall compute a millage rate, rounded to the next highest one one-thousandth of a mill, which, when applied to 96 percent of the estimated state total taxable value for school purposes, would generate the prescribed aggregate required local effort for that year for all districts. The Commissioner of Education shall certify to each district school board the millage rate, computed as prescribed in this subparagraph, as the minimum millage rate necessary to provide the district required local effort for that year.

b. The General Appropriations Act shall direct the computation of the statewide adjusted aggregate amount for required local effort for all school districts collectively from ad valorem taxes to ensure that no school district's revenue from required local effort millage will produce more than 90 percent of the district's total Florida Education Finance Program calculation as calculated and adopted by the Legislature, and the adjustment of the required local effort millage rate of each district that produces more than 90 percent of its total Florida Education Finance Program entitlement to a level that will produce only 90 percent of its total Florida Education Finance Program entitlement in the July calculation.

2. On the same date as the certification in sub-subparagraph 1.a., the Department of Revenue shall certify to the Commissioner of Education for each district:

a. Each year for which the property appraiser has certified the taxable value pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a.

b. For each year identified in sub-subparagraph a., the taxable value certified by the appraiser pursuant to s. 193.122(2) or (3), if applicable, since the prior certification under sub-subparagraph 1.a. This is the certification that reflects all final administrative actions of the value adjustment board.

(13) *FEDERALLY CONNECTED STUDENT SUPPLEMENT.*—*The federally connected student supplement is created to provide supplemental funding for school districts to support the education of students connected with federally owned military installations, National Aeronautics and Space Administration (NASA) real property, and Indian lands. To be eligible for this supplement, the district must be eligible for federal Impact Aid Program funds under s. 8003 of Title VIII of the Elementary and Secondary Education Act of 1965. The supplement shall be allocated annually to each eligible school district in the amount provided in the General Appropriations Act. The supplement shall be the sum of the student allocation and an exempt property allocation.*

(a) *The student allocation shall be calculated based on the number of students reported for federal Impact Aid Program funds, including students with disabilities, who meet one of the following criteria:*

1. *The student has a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer. Students with disabilities shall also be reported separately for this category.*

2. *The student resides on eligible federally owned Indian land. Students with disabilities shall also be reported separately for this category.*

3. *The student resides with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.*

(b) *The total number of federally connected students calculated under paragraph (a) shall be multiplied by a percentage of the base student allocation as provided in the General Appropriations Act. The total of the number of students with disabilities as reported separately*

under subparagraphs (a)1. and (a)2. shall be multiplied by an additional percentage of the base student allocation as provided in the General Appropriations Act. The base amount and the amount for students with disabilities shall be summed to provide the student allocation.

(c) The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally owned Indian lands located in the district, as of January 1 of the previous year, multiplied by the millage authorized and levied under s. 1011.71(2).

(14)(13) QUALITY ASSURANCE GUARANTEE.—The Legislature may annually in the General Appropriations Act determine a percentage increase in funds per K-12 unweighted FTE as a minimum guarantee to each school district. The guarantee shall be calculated from prior year base funding per unweighted FTE student which shall include the adjusted FTE dollars as provided in subsection (15) (14), quality guarantee funds, and actual nonvoted discretionary local effort from taxes. From the base funding per unweighted FTE, the increase shall be calculated for the current year. The current year funds from which the guarantee shall be determined shall include the adjusted FTE dollars as provided in subsection (15) (14) and potential nonvoted discretionary local effort from taxes. A comparison of current year funds per unweighted FTE to prior year funds per unweighted FTE shall be computed. For those school districts which have less than the legislatively assigned percentage increase, funds shall be provided to guarantee the assigned percentage increase in funds per unweighted FTE student. Should appropriated funds be less than the sum of this calculated amount for all districts, the commissioner shall prorate each district's allocation. This provision shall be implemented to the extent specifically funded.

Section 24. Effective July 1, 2016, and upon the expiration of the amendment to section 1011.71, Florida Statutes, made by chapter 2015-222, Laws of Florida, subsection (1) of that section is amended to read:

1011.71 District school tax.—

(1) If the district school tax is not provided in the General Appropriations Act or the substantive bill implementing the General Appropriations Act, each district school board desiring to participate in the state allocation of funds for current operation as prescribed by s. 1011.62(15) ~~s. 1011.62(14)~~ shall levy on the taxable value for school purposes of the district, exclusive of millage voted under the provisions of s. 9(b) or s. 12, Art. VII of the State Constitution, a millage rate not to exceed the amount certified by the commissioner as the minimum millage rate necessary to provide the district required local effort for the current year, pursuant to s. 1011.62(4)(a)1. In addition to the required local effort millage levy, each district school board may levy a nonvoted current operating discretionary millage. The Legislature shall prescribe annually in the appropriations act the maximum amount of millage a district may levy.

Section 25. Subsection (2) of section 1012.42, Florida Statutes, is amended to read:

1012.42 Teacher teaching out-of-field.—

(2) NOTIFICATION REQUIREMENTS.—When a teacher in a district school system is assigned teaching duties in a class dealing with subject matter that is outside the field in which the teacher is certified, outside the field that was the applicant's minor field of study, or outside the field in which the applicant has demonstrated sufficient subject area expertise, as determined by district school board policy in the subject area to be taught, the parents of all students in the class shall be notified in writing of such assignment, and each school district shall report out-of-field teachers on the district's website within 30 days before the beginning of each semester. A parent whose student is assigned an out-of-field teacher may request that his or her child be transferred to an in-field classroom teacher within the school and grade in which the student is currently enrolled. The school district must approve or deny the parent's request and transfer the student to a different classroom teacher within a reasonable period of time, not to exceed 2 weeks, if an in-

field teacher for that course or grade level is employed by the school and the transfer does not violate maximum class size pursuant to s. 1003.03 and s. 1, Art. IX of the State Constitution. If a request for transfer is denied, the school must notify the parent and specify the reasons for the denial. An explanation of the transfer process must be made available in the student handbook or a similar publication. This subsection does not provide a parent the right to choose a specific teacher.

The determination of probable cause shall be made by the commissioner. The commissioner shall provide an opportunity for a conference, if requested, prior to determining probable cause. The commissioner may enter into deferred prosecution agreements in lieu of finding probable cause if, in his or her judgment, such agreements are in the best interests of the department, the certificateholder, and the public. Before voting on the resolution, a district school board must conduct a cost-benefit analysis prepared according to a professionally accepted methodology that describes how each exception selected by the district school board achieves cost savings, improves the efficient use of school district resources, and impacts the life-cycle costs and life span for each educational facility to be constructed, as applicable, and demonstrates that implementation of*

the exception will not compromise student safety or the quality of student instruction. The district school board must conduct at least one public workshop to discuss and receive public comment on the proposed resolution and cost-benefit analysis, which must begin no earlier than 5 p.m. and may occur at the same meeting at which the resolution will be voted upon.

(2) A resolution adopted under this section may propose implementation of exceptions to requirements of the uniform statewide building code for the planning and construction of public educational and ancillary plants adopted pursuant to ss. 553.73 and 1013.37 relating to:

An exemption so granted shall apply to improvements to real property made by or for the use of a new business and improvements to real property related to the expansion of an existing business and shall also apply to tangible personal property of such new business and tangible personal property related to the expansion of an existing business. The amount or limits of the amount of such exemption shall be specified by general law. The period of time for which such exemption may be granted to a new business or expansion of an existing business shall be determined by general law. The authority to grant such exemption shall expire ten years from the date of approval by the electors of the county or municipality, and may be renewable by referendum as provided by general law.

(d) Any county or municipality may, for the purpose of its respective tax levy and subject to the provisions of this subsection and general law, grant historic preservation ad valorem tax exemptions to owners of historic properties. (2) *The assessed value of solar devices or renewable energy source devices subject to tangible personal property tax may be exempt from ad valorem taxation, subject to limitations provided by general law.*

(g) By general law and subject to the conditions specified therein, each person who receives a homestead exemption as provided in section 6 of this article; who was a member of the United States military or military reserves, the United States Coast Guard or its reserves, or the Florida National Guard; and who was deployed during the preceding calendar year on active duty outside the continental United States, Alaska, or Hawaii in support of military operations designated by the legislature shall receive an additional exemption equal to a percentage of the taxable value of his or her homestead property. The applicable percentage shall be calculated as the number of days during the preceding calendar year the person was deployed on active duty outside the continental United States, Alaska, or Hawaii in support of military operations designated by the legislature divided by the number of days in that year.

SECTION 4. Taxation; assessments.—By general law regulations shall be prescribed which shall secure a just valuation of all property for ad valorem taxation, provided:

(a) Agricultural land, land producing high water recharge to Florida's aquifers, or land used exclusively for noncommercial recreational purposes may be classified by general law and assessed solely on the basis of character or use.

(b) As provided by general law and subject to conditions, limitations, and reasonable definitions specified therein, land used for conservation purposes shall be classified by general law and assessed solely on the basis of character or use.

Thereafter, the homestead shall be assessed as provided in this subsection.

2. If the just value of the new homestead is less than the just value of the prior homestead as of January 1 of the year in which the prior homestead was abandoned, the assessed value of the new homestead shall be equal to the just value of the new homestead divided by the just value of the prior homestead and multiplied by the assessed value of the prior homestead. However, if the difference between the just value of the new homestead and the assessed value of the new homestead calculated pursuant to this sub-subparagraph is greater than \$500,000,

the assessed value of the new homestead shall be increased so that the difference between the just value and the assessed value equals \$500,000. Thereafter, the homestead shall be assessed as provided in this subsection.

b. By general law and subject to conditions specified therein, the legislature shall provide for application of this paragraph to property owned by more than one person.

(e) The legislature may, by general law, for assessment purposes and subject to the provisions of this subsection, allow counties and municipalities to authorize by ordinance that historic property may be assessed solely on the basis of character or use. Such character or use assessment shall apply only to the jurisdiction adopting the ordinance. The requirements for eligible properties must be specified by general law.

(f) A county may, in the manner prescribed by general law, provide for a reduction in the assessed value of homestead property to the extent of any increase in the assessed value of that property which results from the construction or reconstruction of the property for the purpose of providing living quarters for one or more natural or adoptive grandparents or parents of the owner of the property or of the owner's spouse if at least one of the grandparents or parents for whom the living quarters are provided is 62 years of age or older. (2) No assessment shall exceed just value.

(3) After a change of ownership or control, as defined by general law, including any change of ownership of a legal entity that owns the property, such property shall be assessed at just value as of the next assessment date. (4) Changes, additions, reductions, or improvements to such property shall be assessed as provided for by general law; however, after the adjustment for any change, addition, reduction, or improvement, the property shall be assessed as provided in this subsection.
