PRAYER

The following prayer was offered by Barry R. Sproles, Baptist Collegiate Ministries Director, Florida State University and Tallahassee Community College, Tallahassee:

Mighty God, we humbly come before you as the source of all life, purpose, and meaning. We acknowledge our desire for your providential care and protection over this great state and its citizenry. You have blessed our state and this nation with vast and innumerable resources, and, for that, we are thankful. We ask for your protection and health over this Senate body, their families, and all of our local, state, and federal servants.

We ask that this body would steward well the great responsibilities given to them by you. May they continue to lead and serve in the way you have modeled for us by placing their neighbors' needs as more significant than their own. We ask that they would know you have placed them in this important role of service, and you tell us that, if we will ask for wisdom, you will provide it to us in abundance. We ask when we encounter moments of difficulty and uncertainty that we would look to our creator and sustainer who never changes. May we not grow weary in doing well and experience your abundant blessings.

We ask all of this in thy name. Amen.

PLEDGE

Senate Pages, Christian Keiter of Orange Park; Octavio Nunez of Davie; and Ethan Nunn of Valrico, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

The term includes entities and professionals outside of this state with an active, unencumbered license for an equivalent facility or practitioner type issued by another state, the District of Columbia, or a possession or territory of the United States.

(b) “Health insurer” means an authorized insurer offering health insurance as defined in s. 624.603.

(d) “Shared savings incentive program” means a voluntary and optional incentive program established by a health insurer pursuant to this section.

(e) “Shoppable health care service” means a lower-cost, high-quality nonemergency health care service for which a shared savings incentive is available for insureds under a health insurer’s shared savings incentive program. Shoppable health care services may be provided within or outside of this state and include, but are not limited to:

(3) A health insurer may offer a shared savings incentive program to provide incentives to an insured when the insured obtains a shoppable health care service from the health insurer’s shared savings list. An insured may not be required to participate in a shared savings incentive program. A health insurer that offers a shared savings incentive program must:

(d) Publish on a webpage easily accessible to insureds and to applicants for insurance a list of shoppable health care services and health care providers and the shared savings incentive amount applicable for each service. A shared savings incentive may not be less than 25 percent of the savings generated by the insured’s participation in any shared savings incentive offered by the health insurer. The baseline for the savings calculation is the average in-network amount paid for that service in the most recent 12-month period or some other methodology established by the health insurer and approved by the office.

(e) At least quarterly, credit or deposit the shared savings incentive amount to the insured’s account as a return or reduction in premium, or credit the shared savings incentive amount to the insured’s flexible spending account, health savings account, or health reimbursement account, such that the amount does not constitute income to the insured.

(f) Submit an annual report to the office within 90 business days after the close of each plan year. At a minimum, the report must include the following information:

1. The number of insureds who participated in the program during the plan year and the number of instances of participation.

4. An inventory of the shoppable health care services offered by the health insurer.

(4)(a) A shared savings incentive offered by a health insurer in accordance with this section:

1. Is not an administrative expense for rate development or rate filing purposes.
2. Does not constitute an unfair method of competition or an unfair or deceptive act or practice under s. 626.9541 and is presumed to be appropriate unless credible data clearly demonstrates otherwise.

(b) A shared saving incentive amount provided as a return or reduction in premium reduces the health insurer’s direct written premium by the shared saving incentive dollar amount for the purposes of the taxes in ss. 624.509 and 624.5091.

(5) The commission may adopt rules necessary to implement and enforce this section.

SR 1820—A resolution supporting an extension of the current moratorium on drilling in the Gulf of Mexico east of the Military Mission Line.

WHEREAS, the Florida Legislature represents the military bases and personnel that maintain, manage, and use the Gulf of Mexico (GOMEX) Range Complex, which provides for the common defense of this state and the nation, and

WHEREAS, defense is the State of Florida's fourth largest industry, accounting for more than 775,000 jobs, \$80 billion in economic impact, and 65 percent of the regional economy of Northwest Florida, and

WHEREAS, testing and training activities conducted from Florida's air and sea bases are considerably dependent on unconstrained access to the Eastern Gulf of Mexico airspace and seaspaces, and

WHEREAS, the GOMEX Range Complex is a unique national resource, and

WHEREAS, the range is larger than all other training ranges within the continental United States combined, stretching from the Florida Panhandle south to Key West and encompassing the Eastern Gulf of Mexico, and

WHEREAS, surrounding the GOMEX Range Complex are numerous United States Department of Defense installations, ranges, and airspaces, which make the complex unique, and

WHEREAS, originally a place to practice air-to-air engagements and air-to-surface bombing and strafing, the GOMEX Range Complex has served the nation for over 60 years, and

WHEREAS, after World War II, the GOMEX Range Complex was used to test surface-to-air rockets against drones and, with the advent of fifth-generation aircraft at Tyndall and Eglin Air Force Bases, has been used extensively to test future weapons systems, and

WHEREAS, the military missions require day and night access to the airspace, from the surface up to 60,000 feet, for high-speed flying and maneuvering, as well as day and night access to the seaspaces, from the sea surface to the subsurface areas, for use by ships and submarines, and

WHEREAS, the military uses live ammunition and missiles against remotely piloted full-scale targets and drones, resulting in large debris fields of dangerous objects, and

WHEREAS, for well over a decade and through two presidential administrations, the United States Department of Defense policy has been to keep the Eastern Gulf of Mexico free from obstruction, and

WHEREAS, oil exploration and offshore platforms placed in the Eastern Gulf of Mexico could jeopardize military missions and severely reduce the state's appeal in keeping military installations, and

WHEREAS, without access to airspace in order to test modern and emerging weapons systems and train the aircrews that support such systems, Florida would lose its primary reason for hosting the GOMEX Range Complex, and

WHEREAS, the Gulf of Mexico Energy Security Act (GOMESA) of 2006 restricts oil and gas leasing in all areas east of the Military Mission Line established at 86°41' W. longitude and bans oil and gas leasing within 125 miles of the Florida coastline in the Eastern Planning Area and in a portion of the Central Planning Area until 2022, and

WHEREAS, attempts to reduce restrictions on oil and gas exploration and production arose in 2013 and 2015, when the members of the United States Senate and the United States House of Representatives developed and introduced bills to change GOMESA without addressing the military need to maintain the GOMEX Range Complex, and

WHEREAS, in 2013, the Offshore Energy and Jobs Act was introduced by United States Representative Doc Hastings of Washington to propose changes in oil and gas drilling and exploration locations, and

WHEREAS, the Offshore Energy and Jobs Act of 2015 was introduced by United States Senator Bill Cassidy of Louisiana, to increase oil and gas exploration and production, most notably through reducing the exclusion area east of the Military Mission Line from 125 miles to 50 miles offshore and through shortening the time limit of the moratorium from 2022 to 2017, but the bill ultimately did not advance past committee, and GOMESA remained intact for the time being, and

WHEREAS, the United States Secretary of Defense, the Chief of Staff of the United States Air Force, and 15 members of the United States Congress from Florida have written letters requesting an extension to the moratorium that is essential for developing and sustaining the military's future capabilities and for guaranteeing long-term capabilities for future test missions that may enable new technologies such as hypersonic fifth-generation fighters, advanced subsurface weapons systems, and other projects that require enlarged testing and training footprints well beyond 2022, and

WHEREAS, without the certainty of an extension to the moratorium, investment in upgrades in telemetry, tracking, and other important improvements are at risk, and

WHEREAS, in March 2017, 20 local county commissions, chambers of commerce, local economic development councils, and military affairs committees drafted resolutions in support of the moratorium and submitted them to the Florida Legislature, NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That the State of Florida must maintain a united front in supporting an extension of the current moratorium on drilling in the Gulf of Mexico east of the Military Mission Line.

BE IT FURTHER RESOLVED that to allow drilling east of the Military Mission Line would mean loss of range areas and possible relocation of aircraft and bases to other unrestricted range areas.

BE IT FURTHER RESOLVED that the Florida Senate supports an indefinite extension of the restriction, specified in the Gulf of Mexico Energy Security Act of 2006, on oil and gas leasing in all areas east of the Military Mission Line established at 86°41' W. longitude and indefinite extension of the act's ban on oil and gas leasing within 125 miles of the Florida coastline in the Eastern Planning Area and in a portion of the Central Planning Area.

PRAYER

The following prayer was offered by Justin Wester, Associate Pastor, Canopy Roads Baptist Church, Tallahassee:

Almighty God, we come to you and pause this morning to remind ourselves and one another of our dependence upon you. You are the author of all life, including our own, the sustainer of all things big and small, and the giver of every good and perfect gift. So this morning, we thank you for the simple things—the beating of our hearts, the breath in our lungs, and the capacity to enjoy life even today. We also thank you for granting this Senate body another opportunity to gather together in service to this state and country.

Your word says that “Supplications, prayers, intercessions, and thanksgivings be made for all people, for kings and all who are in high positions,” (1 Tim. 2:1-2) so I ask for a special blessing this morning upon our Senators and Representatives, as well as their families and staff. You have appointed them for service, and oftentimes, that service comes with personal sacrifices that can go unnoticed and unappreciated. So we thank you for the many sacrifices that are made on behalf of our state’s well-being and ask that you would offer them your abundant grace as they seek to fulfill their responsibilities with integrity and honor.

You have also said that “If any of you lacks wisdom, let him ask God, who gives generously to all without reproach, and it will be given him,” (James 1:5) so we ask for wisdom during the time of deliberation and for guidance in making decisions based not on self-interest but instead on the best interest of others.

And as the Senate approaches the end of their session, I ask that you would physically strengthen their bodies and minds, encourage their spirits, and deepen their resolve to finish well. Now to him who is able to do far more abundantly than all we ask or think, according to the power at work within us, to him be glory forevermore. Amen.

PLEDGE

Senate Pages, Harley Ramba of Tallahassee; Joe Perry of Moore Haven; and David Perry of Moore Haven, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Brence A. Sell of Tallahassee, sponsored by Senator Montford, as the doctor of the day. Dr. Sell specializes in anesthesiology.

However, such right and power may be assigned or delegated by the agency to the department.

1. Notwithstanding any other provision of law to the contrary, the agency may not increase its toll rates until July 1, 2029, including any increase to the extent necessary to adjust for inflation pursuant to the procedure for toll rate adjustments provided in s. 338.165, except:

3. The amount of toll revenues used for administrative costs by the agency may not be greater than 10 percent above the annual state average of administrative costs determined as provided in this subparagraph. The Florida Transportation Commission shall determine the annual state average of administrative costs based on the annual administrative costs of all the expressway authorities in this state. For purposes of this subparagraph, administrative costs include, but are not limited to, employee salaries and benefits, small business outreach, insurance, professional service contracts not directly related to the operation and maintenance of the expressway system, and other overhead costs.

4. There must be a distance of at least 5 miles between main through-lane tolling points. The distance requirement of this subparagraph does not apply to entry and exit ramps. However, the agency may establish toll rates such that the toll rate per mile is equal to the rates in effect on July 1, 2019.

(f) To borrow money, make and issue negotiable notes, bonds, refund bonds, and other evidence of indebtedness of the agency, which bonds or other evidence of indebtedness may be issued pursuant to the State Bond Act or, in the alternative, pursuant to s. 348.0309(2) to finance or re-finance additions, extensions, or improvements to the expressway system within the geographic boundaries of the agency, and to provide for the security of the bonds or other evidence of indebtedness and the rights and remedies of the holders of the bonds or other evidence of indebtedness. Any bonds or other evidence of indebtedness pledging the full faith and credit of the state may only be issued pursuant to the State Bond Act.

1. The agency shall reimburse the county in which it exists for any sums expended from any county gasoline tax funds used for payment of such obligations. Any county gasoline tax funds so disbursed shall be repaid in accordance with the terms of any lease-purchase or interlocal agreement with any county or the department together with interest, at the rate agreed to in such agreement. In no event shall any county gasoline tax funds be more than a secondary pledge of revenues for repayment of any obligations issued pursuant to this part.

2. The agency may refund any bonds previously issued, to the extent allowable by federal tax laws, to finance or refinance an expressway system located within the geographic boundaries of the agency regardless of whether the bonds being refunded were issued by such agency, an agency of the state, or a county.

(g) To enter contracts and to execute all instruments necessary or convenient for the carrying on of its business. Notwithstanding any other provision of law to the contrary, the agency is subject to the procurement and contracting requirements applicable to the department contained in chapters 287 and 337.

(h) Without limitation of the foregoing, to borrow money and accept grants from, and to enter into contracts, leases, or other transactions with, any federal agency, the state, any agency of the state, any county, or any other public body of the state.

(i) To have the power of eminent domain, including the procedural powers granted under chapters 73 and 74.

(j) To pledge, hypothecate, or otherwise encumber all or any part of the revenues, tolls, rates, fees, rentals, or other charges or receipts of the agency, including all or any portion of county gasoline tax funds received by the agency pursuant to the terms of any lease-purchase agreement between the agency and the department, as security for all or any of the obligations of the agency.

(k) To do all acts and things necessary or convenient for the conduct of its business and the general welfare of the agency in order to carry out the powers granted to it by law.

(3) Notwithstanding any other provision of law to the contrary, the consent of any municipality is not necessary for any project of the agency, regardless of whether the project lies in whole or in part within the boundaries of the municipality, if the project is consistent with the locally adopted comprehensive plan. However, if a project is inconsistent with the affected municipal comprehensive plan, the project may not proceed without a hearing pursuant to ss. 120.569 and 120.57 at which it is determined that the project is consistent with the adopted metropolitan planning organization transportation improvement plan, if any, and the applicable strategic regional plan, and at which regional interests are determined to clearly override the interests of the municipality.

(4) The use or pledge of all or any portion of county gasoline tax funds may not be made without the prior express written consent of the board of county commissioners of each county located within the geographic boundaries of the agency.

(5) The agency shall comply with all statutory requirements of general application which relate to the filing of any report or documentation required by law, including the requirements of ss. 189.015, 189.016, 189.051, and 189.08.

(6) Notwithstanding subsection (3) or any other provision of law to the contrary, the agency may not undertake any construction that is not consistent with both the metropolitan planning organization's transportation improvement program and the county's comprehensive plan.

(7) The agency may finance or refinance the planning, design, acquisition, construction, extension, rehabilitation, equipping, preservation, maintenance, or improvement of a public transportation facility or transportation facilities owned or operated by such county, an intermodal facility or facilities, multimodal corridor or corridors, including, but not limited to, bicycle facilities or greenways that will improve transportation services within the county, or any programs or projects that will improve the levels of service on an expressway system, subject to approval of the governing body of the county after public hearing.

(8) The governing body of the county may enter into an interlocal agreement with the agency pursuant to s. 163.01 for the joint perfor-

mance or performance by either governmental entity of any corporate function of the county or agency necessary or appropriate to enable the agency to fulfill the powers and purposes of this part and promote the efficient and effective transportation of persons and goods in such county.

(9) The agency must have an annual financial audit conducted by an independent certified public accountant licensed pursuant to chapter 473, and the audit report must be made available on the agency's website.

348.0307 Greater Miami Toll Rebate Program.—There is created by the agency the Greater Miami Toll Rebate Program.

(1) The agency shall develop and implement a monthly rebate program for the month beginning January 1, 2020, subject to:

(a) Compliance with any covenants made with the holders of the agency's bonds which are in the trust indentures or resolutions adopted in connection with the issuance of the agency's bonds;

(b) Consideration of the financial feasibility of such a program as reported by the Auditor General as required by this act; and

(c) Consideration of the impact of such a program to the financial feasibility of prioritized projects that have been allocated funds for a project development and an environmental study but are not contained in the 5-year work program on July 1, 2019.

(2) Monthly rebates shall be credited to the account of each SunPass holder who incurs \$12.50 or more in tolls on the expressway system each month and whose SunPass is registered to a motor vehicle registered to an address in the county.

(3) In developing its rebate program, the agency shall have a goal of rebating 25 percent of tolls paid by eligible SunPass holders. Following initiation of the program, the agency, once every 5 years, shall review the amount of the toll rebate and may adjust the amount of the toll rebate.

(4) The agency may not impose additional requirements for receipt of the toll rebate.

348.0308 Public-private partnership.—The Legislature declares that there is a public need for the rapid construction of safe and efficient transportation facilities for traveling within the state and that it is in the public's interest to provide for public-private partnership agreements to effectuate the construction of additional safe, convenient, and economical transportation facilities.

(1) The agency may receive or solicit proposals and enter into agreements with private entities, or consortia thereof, for the building, operation, ownership, or financing of agency transportation facilities or new transportation facilities within the jurisdiction of the agency which increase transportation capacity. The agency may not sell or lease any transportation facility owned by the agency without providing the analysis required in s. 334.30(6)(e)2. to the Legislative Budget Commission created pursuant to s. 11.90 for review and approval before awarding a contract on a lease of an existing toll facility. The agency may adopt rules to implement this section and shall, by rule, establish an application fee for the submission of unsolicited proposals under this section. The fee must be sufficient to pay the costs of evaluating the proposals. The agency may engage private consultants to assist in the evaluation. Before approval, the agency must determine that a proposed project:

(a) Is in the public's best interest.

(b) Would not require state funds to be used unless the project is on or provides increased mobility on the State Highway System.

(c) Would have adequate safeguards to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or the cancellation of the agreement by the agency.

(d) Would have adequate safeguards in place to ensure that the department, the agency, or the private entity has the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations.

(e) Would be owned by the agency upon completion or termination of the agreement.

(2) The agency shall ensure that all reasonable costs to the state which are related to transportation facilities that are not part of the State Highway System are borne by the private entity. The agency shall also ensure that all reasonable costs to the state and substantially affected local governments and utilities related to the private transportation facility are borne by the private entity for transportation facilities that are owned by private entities. For projects on the State Highway System, the department may use state resources to participate in funding and financing the project as provided for under the department's enabling legislation.

(3) The agency may request proposals for public-private transportation projects or, if it receives an unsolicited proposal, it must publish a notice in the Florida Administrative Register and a newspaper of general circulation in the county in which it is located at least once a week for 2 weeks stating that it has received the proposal and will accept, for 60 days after the initial date of publication, other proposals for the same project purpose. A copy of the notice must be mailed to each local government in the affected areas. After the public notification period has expired, the agency shall rank the proposals in order of preference. In ranking the proposals, the agency shall consider professional qualifications, general business terms, innovative engineering or cost-reduction terms, finance plans, and the need for state funds to deliver the proposal. If the agency is not satisfied with the results of the negotiations, it may, at its sole discretion, terminate negotiations with the proposer. If these negotiations are unsuccessful, the agency may go to the second and lower-ranked firms, in order, using the same procedure. If only one proposal is received, the agency may negotiate in good faith, and if it is not satisfied with the results, it may, at its sole discretion, terminate negotiations with the proposer. The agency may, at its discretion, reject all proposals at any point in the process up to completion of a contract with the proposer.

(4) Agreements entered into pursuant to this section may authorize the public-private entity to impose tolls or fares for the use of the facility. However, the amount and use of toll or fare revenues shall be regulated by the agency to avoid unreasonable costs to users of the facility.

(5) Each public-private transportation facility constructed pursuant to this section shall comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; the agency's rules, policies, procedures, and standards for transportation facilities; and any other conditions that the agency determines to be in the public's best interest.

(6) The agency may exercise any power possessed by it, including eminent domain, to facilitate the development and construction of transportation projects pursuant to this section. The agency may pay all or part of the cost of operating and maintaining the facility or may provide services to the private entity for which it receives full or partial reimbursement for services rendered.

(7) Except as herein provided, this section is not intended to amend existing laws by granting additional powers to or further restricting the governmental entities from regulating and entering into cooperative arrangements with the private sector for the planning, construction, and operation of transportation facilities.

348.0309 Bonds.—

(1) Bonds may be issued on behalf of the agency as provided by the State Bond Act.

(2)(a) The agency may issue bonds pursuant to this part which do not pledge the full faith and credit of the state in such principal amount as, in the opinion of the agency, is necessary to provide sufficient moneys for achieving its corporate purposes.

(b) The bonds of the agency issued pursuant to this part, whether on original issuance or refunding, must be authorized by resolution of the agency after approval of the issuance of the bonds at a public hearing and may be either term or serial bonds, shall bear such date or dates, mature at such time or times, bear interest at such rate or rates, be payable semiannually, be in such denominations, be in such form, either coupon or fully registered, shall carry such registration, exchangeability,

and interchangeability privileges, be payable in such medium of payment and at such place or places, be subject to such terms of redemption, and be entitled to such priorities on the revenues, rates, fees, rentals, or other charges or receipts of the agency, including any county gasoline tax funds received by the agency pursuant to the terms of any interlocal or lease-purchase agreement between the agency or a county, as such resolution or any resolution subsequent thereto may provide. The bonds must be executed by such officers as the agency determines under s. 279.06.

(c) Such bonds shall be sold by the agency at public sale by competitive bid. However, if the agency, after receipt of a written recommendation from a financial adviser, determines by official action after public hearing by a two-thirds vote of all voting members of the agency that a negotiated sale of the bonds is in the best interest of the agency, the agency may negotiate for sale of the bonds with the underwriter or underwriters designated by the agency and the county in which the agency exists. The agency shall provide specific findings in a resolution as to the reasons requiring the negotiated sale, which resolution shall incorporate and have attached thereto the written recommendation of the financial adviser required by this subsection.

(d) Any such resolution or resolutions authorizing any bonds hereunder which do not pledge the full faith and credit of the state may contain provisions that are part of the contract with the holders of the bonds, as the agency determines proper. In addition, the agency may enter into trust indentures or other agreements with its fiscal agent, or with any bank or trust company within or without the state, as security for such bonds, and may, under the agreements, assign and pledge the revenues, rates, fees, rentals, tolls, or other charges or receipts of the agency, including any county gasoline tax funds received by the agency.

(e) Any of the bonds issued pursuant to this part are negotiable instruments and have all the qualities and incidents of negotiable instruments under the law merchant and the negotiable instruments law of the state.

(f) Each project, building, or facility that has been or will be financed by the issuance of bonds or other evidence of indebtedness and that does not pledge the full faith and credit of the state under this part and any refinancing thereof are subject to review and approval by the Legislative Budget Commission.

348.0310 Department may be appointed agent of agency for construction.—The department may be appointed by the agency as its agent for the purpose of constructing improvements and extensions to an expressway system and for the completion thereof. In such event, the agency shall provide the department with complete copies of all documents, agreements, resolutions, contracts, and instruments relating thereto; shall request the department to do such construction work, including the planning, surveying, and actual construction of the completion of and extensions and improvements to the expressway system; and shall transfer to the credit of an account of the department in the State Treasury the necessary funds therefor. The department shall thereupon proceed with such construction and use the funds for such purpose in the same manner as it is now authorized to use the funds otherwise provided by law for its use in the construction of roads and bridges.

348.0311 Acquisition of lands and property.—

(1) For the purposes of this act, the agency may acquire such rights, title, or interest in private or public property and such property rights, including easements, rights of access, air, view, and light, by gift, devise, purchase, or condemnation by eminent domain proceedings, as the agency may deem necessary for any of the purposes of this act, including, but not limited to, any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage ditches, water retention areas, rest areas, replacement access for landowners whose access is impaired due to the construction of an expressway system, and replacement rights-of-way for relocated rail and utility facilities; for existing, proposed, or anticipated transportation facilities on the expressway system or in a transportation corridor designated by the agency; or for the purposes of screening, relocation, removal, or disposal of junkyards and scrap metal processing facilities. The agency may also condemn any material and property necessary for such purposes.

(2) The agency and its authorized agents, contractors, and employees are authorized to enter upon any lands, waters, and premises, upon giving reasonable notice to the landowner, for the purpose of making surveys, soundings, drillings, appraisals, environmental assessments including phase I and phase II environmental surveys, archaeological assessments, and such other examinations as are necessary for the acquisition of private or public property and property rights, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation by eminent domain proceedings or as are necessary for the agency to perform its duties and functions, and any such entry shall not be deemed a trespass or an entry that would constitute a taking in an eminent domain proceeding. The agency shall make reimbursement for any actual damage to such lands, water, and premises as a result of such activities. Any entry authorized by this subsection shall be in compliance with the premises protections and landowner liability provisions contained in s. 472.029.

(3) The right of eminent domain conferred by this act must be exercised by the agency in the manner provided by law.

(4) When the agency acquires property for an expressway system or in a transportation corridor as defined in s. 334.03, it is not subject to any liability imposed by chapter 376 or chapter 403 for preexisting soil or groundwater contamination due solely to its ownership. This subsection does not affect the rights or liabilities of any past or future owners of the acquired property, nor does it affect the liability of any governmental entity for the results of its actions which create or exacerbate a pollution source. The agency and the Department of Environmental Protection may enter into interagency agreements for the performance, funding, and reimbursement of the investigative and remedial acts necessary for property acquired by the agency.

348.0312 Cooperation with other units, boards, agencies, and individuals.—Express authority and power is given and granted to any county, municipality, drainage district, road and bridge district, school district, or other political subdivision, board, commission, or individual in or of this state to enter into contracts, leases, conveyances, or other agreements within the provisions and purposes of this act with the agency. The agency may enter into contracts, leases, conveyances, and other agreements, to the extent consistent with chapters 334, 335, 338, and 339 and other provisions of the laws of the state and with 23 U.S.C. ss. 101 et seq., with any political subdivision, agency, or instrumentality of the state and any and all federal agencies, corporations, and individuals for the purpose of carrying out the provisions of this act.

348.0313 Covenant of the state.—The state does hereby pledge to, and agrees with, any person, firm, corporation, or federal or state agency subscribing to or acquiring the bonds to be issued by the agency for the purposes of this act that the state will not limit or alter the rights hereby vested in the agency and the department until all bonds at any time issued, together with the interest thereon, are fully paid and discharged, insofar as the same affects the rights of the holders of bonds issued hereunder. The state does further pledge to, and agrees with, the United States that, in the event any federal agency constructs, or contributes any funds for the completion, extension, or improvement of, an expressway system or any part or portion thereof, the state will not alter or limit the rights and powers of the agency and the department in any manner which would be inconsistent with the continued maintenance and operation of the expressway system or the completion, extension, or improvement thereof or which would be inconsistent with the due performance of any agreement between the agency and any such federal agency, and the agency and the department shall continue to have and may exercise all powers granted so long as the same shall be necessary or desirable for carrying out the purposes of this act and the purposes of the United States in the completion, extension, or improvement of the expressway system or any part or portion thereof.

348.0314 Exemption from taxation.—The effectuation of the authorized purposes of the agency is in all respects for the benefit of the people of the state, for the increase of their commerce and prosperity, and for the improvement of their health and living conditions. For this reason, the agency is not required to pay any taxes or assessments of any kind or nature whatsoever upon any property acquired by it or used by it for such purposes or upon any revenues at any time received by it. The bonds issued by or on behalf of the agency, their transfer, and the income therefrom, including any profits made on the sale thereof, are exempt from taxation of any kind by the state or by any political subdivision or other taxing agency or instrumentality thereof. The exemption granted by

this section does not apply to any tax imposed under chapter 220 on interest, income, or profits on debt obligations owned by corporations.

348.0315 Public accountability.—

- (1) The agency shall post the following information on its website:
 - (a) Audited financial statements and any interim financial reports.
 - (b) Board and committee meeting agendas, meeting packets, and minutes.
 - (c) Bond covenants for any outstanding bond issues.
 - (d) Agency budgets.
 - (e) Agency contracts. For purposes of this paragraph, the term “contract” means a written agreement or purchase order issued for the purchase of goods or services or a written agreement for the receipt of state or federal financial assistance.
 - (f) Agency expenditure data, which must include the name of the payee, the date of the expenditure, and the amount of the expenditure. Such data must be searchable by name of the payee, name of the paying agency, and fiscal year and must be downloadable in a format that allows offline analysis.
 - (g) Information relating to current, recently completed, and future projects on agency facilities.
- (2) Beginning October 1, 2020, and annually thereafter, the agency shall submit to the metropolitan planning organization for the county a report providing information regarding the amount of tolls collected and how those tolls were used in the agency’s previous fiscal year. The report shall be posted on the agency’s website.

348.0316 Eligibility for investments and security.—Any bonds or other obligations issued pursuant to this part shall be and constitute legal investments for banks, savings banks, trustees, executors, administrators, and all other fiduciaries and for all state, municipal, and other public funds and shall also be and constitute securities eligible for deposit as security for all state, municipal, or other public funds, notwithstanding the provisions of any other law or laws to the contrary.

348.0317 Pledges enforceable by bondholders.—It is the express intention of this part that any pledge by the department of rates, fees, revenues, county gasoline tax funds, or other funds, as rentals, to the agency, or any covenants or agreements relative thereto, may be enforceable in any court of competent jurisdiction against the agency or directly against the department by any holder of bonds issued by the agency.

348.0318 This part complete and additional authority.—

(1) The powers conferred by this part are in addition and supplemental to the existing powers of the department and the governing body of the agency, and this part may not be construed as repealing any of the provisions of any other law, general, special, or local, but to supersede such other laws in the exercise of the powers provided in this part and to provide a complete method for the exercise of the powers granted in this part. The extension and improvement of the expressway system, and the issuance of bonds pursuant to this part to finance all or part of the cost of the system, may be accomplished upon compliance with the provisions of this part without regard to or necessity for compliance with the provisions, limitations, or restrictions contained in any other general, special, or local law, including, but not limited to, s. 215.821, and no approval of any bonds issued under this part by the qualified electors or qualified electors who are freeholders in the state or in Miami-Dade County, or in any other political subdivision of the state, is required for the issuance of such bonds pursuant to this part, including, but not limited to, s. 215.821.

(2) This part does not repeal, rescind, or modify any other law relating to the State Board of Administration, the Department of Transportation, or the Division of Bond Finance of the State Board of Administration, but supersedes any law that is inconsistent with the provisions of this part, including, but not limited to, s. 215.821.

Section 13. (1) Effective upon this act becoming a law, the governance and control of the Miami-Dade County Expressway Authority is transferred to the Greater Miami Expressway Agency pursuant to the terms of this section. The assets, facilities, tangible and intangible property and any rights in such property, and any other legal rights of the authority, including the expressway system operated by the authority, are transferred to the agency. The agency succeeds to all powers of the authority, and the operations and maintenance of the expressway system shall be under the control of the agency. Revenues collected on the expressway system shall be considered agency revenues but shall be subject to the lien of the trust indentures securing the Miami-Dade County Expressway Authority bonds. The agency also assumes all liability for bonds of the authority pursuant to subsection (2) and the satisfaction of any judgment against the authority that may ultimately become due as a result of litigation commenced before the effective date of this act. The agency shall, in consultation with the Division of Bond Finance, review all other contracts, financial obligations, and contractual relationships and liabilities of the authority, and the agency may assume responsibility for the obligations that are determined to be necessary or desirable for the continued operation of the expressway system. Employees, officers, and members of the authority may not sell, dispose, encumber, transfer, or expend the assets of the authority as existed and reflected in the authority’s financial statements for the fiscal year ended June 30, 2018, other than in the ordinary course of business. For purposes of this section, incurring debt or issuing bonds for projects contained in the 5-year work program approved and adopted by the authority on December 5, 2017, is not considered the ordinary course of business. Notwithstanding the foregoing, nothing contained herein shall prevent the authority from designing and planning projects contained in the 5-year work program approved and adopted by the authority on December 5, 2017. The S.R. 836/Dolphin Expressway Southwest Extension to 136th Street, commonly referred to as the Kendall Parkway, shall be a priority for planning and design.

(2) The transfer pursuant to this section is subject to all terms and covenants provided for the protection of the holders of the Miami-Dade County Expressway Authority bonds in the trust indentures or resolutions adopted in connection with the issuance of such bonds. Further, the transfer does not impair the terms of the contract between the authority and the bondholders, does not act to the detriment of the bondholders, and does not diminish the security for the bonds. After the transfer, the agency shall operate and maintain the expressway system and any other facilities of the authority in accordance with the terms, conditions, and covenants contained in the trust indentures or bond resolutions securing such bonds. The agency shall collect toll revenues and apply them to the payment of debt service as provided in the trust indentures or bond resolutions securing such bonds and expressly assumes all obligations relating to the bonds to ensure that the transfer of the authority will have no adverse impact on the security for the bonds of the authority.

Section 14. Before October 1, 2019, the Auditor General shall submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives assessing the financial situation of the Greater Miami Expressway Agency, including its assets, liabilities, revenues, operating expenses, and bonding capacity; the financial feasibility of the toll rebate program established in s. 348.0307; and the financial feasibility of a toll rate reduction. In determining the financial feasibility of a toll rate reduction, the Auditor General may consult with the agency’s bond counsel, and such counsel shall have the opportunity to respond to such report.

Section 15. The Miami-Dade County Expressway Authority is hereby dissolved.

Section 16. Section 348.635, Florida Statutes, is created to read:

348.635 Public-private partnership.—The Legislature declares that there is a public need for the rapid construction of safe and efficient transportation facilities for traveling within the state and that it is in the public’s interest to provide for public-private partnership agreements to effectuate the construction of additional safe, convenient, and economical transportation facilities.

(1) Notwithstanding any other provision of this part, the authority may receive or solicit proposals and enter into agreements with private entities, or consortia thereof, for the building, operation, ownership, or financing of authority transportation facilities or new transportation facilities within the jurisdiction of the authority which increase trans-

portation capacity. The authority may not sell or lease any transportation facility owned by the authority without providing the analysis required in s. 334.30(6)(e)2. to the Legislative Budget Commission created pursuant to s. 11.90 for review and approval before awarding a contract on a lease of an existing toll facility. The authority may adopt rules to implement this section and shall, by rule, establish an application fee for the submission of unsolicited proposals under this section. The fee must be sufficient to pay the costs of evaluating the proposals. The authority may engage private consultants to assist in the evaluation. Before approval, the authority must determine that a proposed project:

- (a) Is in the public's best interest.
- (b) Would not require state funds to be used unless the project is on or provides increased mobility on the State Highway System.
- (c) Would have adequate safeguards to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or the cancellation of the agreement by the authority.
- (d) Would have adequate safeguards in place to ensure that the department, the authority, or the private entity has the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations.
- (e) Would be owned by the authority upon completion or termination of the agreement.

(2) The authority shall ensure that all reasonable costs to the state which are related to transportation facilities that are not part of the State Highway System are borne by the private entity. The authority shall also ensure that all reasonable costs to the state and substantially affected local governments and utilities related to the private transportation facility are borne by the private entity for transportation facilities that are owned by private entities. For projects on the State Highway System, the department may use state resources to participate in funding and financing the project as provided for under the department's enabling legislation.

(3) The authority may request proposals for public-private transportation projects or, if it receives an unsolicited proposal, it must publish a notice in the Florida Administrative Register and a newspaper of general circulation in the county in which it is located at least once a week for 2 weeks stating that it has received the proposal and will accept, for 60 days after the initial date of publication, other proposals for the same project purpose. A copy of the notice must be mailed to each local government in the affected areas. After the public notification period has expired, the authority shall rank the proposals in order of preference. In ranking the proposals, the authority shall consider professional qualifications, general business terms, innovative engineering or cost-reduction terms, finance plans, and the need for state funds to deliver the proposal. If the authority is not satisfied with the results of the negotiations, it may, at its sole discretion, terminate negotiations with the proposer. If these negotiations are unsuccessful, the authority may go to the second and lower-ranked firms, in order, using the same procedure. If only one proposal is received, the authority may negotiate in good faith, and if it is not satisfied with the results, it may, at its sole discretion, terminate negotiations with the proposer. The authority may, at its discretion, reject all proposals at any point in the process up to completion of a contract with the proposer.

(4) Agreements entered into pursuant to this section may authorize the public-private entity to impose tolls or fares for the use of the facility. However, the amount and use of toll or fare revenues shall be regulated by the authority to avoid unreasonable costs to users of the facility.

(5) Each public-private transportation facility constructed pursuant to this section shall comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; the authority's rules, policies, procedures, and standards for transportation facilities; and any other conditions that the authority determines to be in the public's best interest.

(6) The authority may exercise any power possessed by it, including eminent domain, to facilitate the development and construction of transportation projects pursuant to this section. The authority may pay all or part of the cost of operating and maintaining the facility or may

provide services to the private entity for which it receives full or partial reimbursement for services rendered.

(7) Except as herein provided, this section is not intended to amend existing laws by granting additional powers to or further restricting the governmental entities from regulating and entering into cooperative arrangements with the private sector for the planning, construction, and operation of transportation facilities.

Section 17. Section 348.7605, Florida Statutes, is created to read:

348.7605 Public-private partnership.—*The Legislature declares that there is a public need for the rapid construction of safe and efficient transportation facilities for traveling within the state and that it is in the public's interest to provide for public-private partnership agreements to effectuate the construction of additional safe, convenient, and economical transportation facilities.*

(1) Notwithstanding any other provision of this part, the authority may receive or solicit proposals and enter into agreements with private entities, or consortia thereof, for the building, operation, ownership, or financing of authority transportation facilities or new transportation facilities within the jurisdiction of the authority which increase transportation capacity. The authority may not sell or lease any transportation facility owned by the authority without providing the analysis required in s. 334.30(6)(e)2. to the Legislative Budget Commission created pursuant to s. 11.90 for review and approval before awarding a contract on a lease of an existing toll facility. The authority may adopt rules to implement this section and shall, by rule, establish an application fee for the submission of unsolicited proposals under this section. The fee must be sufficient to pay the costs of evaluating the proposals. The authority may engage private consultants to assist in the evaluation. Before approval, the authority must determine that a proposed project:

- (a) Is in the public's best interest.
- (b) Would not require state funds to be used unless the project is on or provides increased mobility on the State Highway System.
- (c) Would have adequate safeguards to ensure that no additional costs or service disruptions would be realized by the traveling public and residents of the state in the event of default or the cancellation of the agreement by the authority.
- (d) Would have adequate safeguards in place to ensure that the department, the authority, or the private entity has the opportunity to add capacity to the proposed project and other transportation facilities serving similar origins and destinations.
- (e) Would be owned by the authority upon completion or termination of the agreement.

(2) The authority shall ensure that all reasonable costs to the state which are related to transportation facilities that are not part of the State Highway System are borne by the private entity. The authority shall also ensure that all reasonable costs to the state and substantially affected local governments and utilities related to the private transportation facility are borne by the private entity for transportation facilities that are owned by private entities. For projects on the State Highway System, the department may use state resources to participate in funding and financing the project as provided for under the department's enabling legislation.

(3) The authority may request proposals for public-private transportation projects or, if it receives an unsolicited proposal, it must publish a notice in the Florida Administrative Register and a newspaper of general circulation in the county in which it is located at least once a week for 2 weeks stating that it has received the proposal and will accept, for 60 days after the initial date of publication, other proposals for the same project purpose. A copy of the notice must be mailed to each local government in the affected areas. After the public notification period has expired, the authority shall rank the proposals in order of preference. In ranking the proposals, the authority shall consider professional qualifications, general business terms, innovative engineering or cost-reduction terms, finance plans, and the need for state funds to deliver the proposal. If the authority is not satisfied with the results of the negotiations, it may, at its sole discretion, terminate negotiations with the proposer. If these negotiations are unsuccessful, the authority may go to

the second and lower-ranked firms, in order, using the same procedure. If only one proposal is received, the authority may negotiate in good faith, and if it is not satisfied with the results, it may, at its sole discretion, terminate negotiations with the proposer. The authority may, at its discretion, reject all proposals at any point in the process up to completion of a contract with the proposer.

(4) Agreements entered into pursuant to this section may authorize the public-private entity to impose tolls or fares for the use of the facility. However, the amount and use of toll or fare revenues shall be regulated by the authority to avoid unreasonable costs to users of the facility.

(5) Each public-private transportation facility constructed pursuant to this section shall comply with all requirements of federal, state, and local laws; state, regional, and local comprehensive plans; the authority's rules, policies, procedures, and standards for transportation facilities; and any other conditions that the authority determines to be in the public's best interest.

(6) The authority may exercise any power possessed by it, including eminent domain, to facilitate the development and construction of transportation projects pursuant to this section. The authority may pay all or part of the cost of operating and maintaining the facility or may provide services to the private entity for which it receives full or partial reimbursement for services rendered.

(7) Except as herein provided, this section is not intended to amend existing laws by granting additional powers to or further restricting the governmental entities from regulating and entering into cooperative arrangements with the private sector for the planning, construction, and operation of transportation facilities.

Amendment 1 (161690) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 456.42, Florida Statutes, is amended to read:

456.42 Written prescriptions for medicinal drugs.—

(1) A written prescription for a medicinal drug issued by a health care practitioner licensed by law to prescribe such drug must be legibly printed or typed so as to be capable of being understood by the pharmacist filling the prescription; must contain the name of the prescribing practitioner, the name and strength of the drug prescribed, the quantity of the drug prescribed, and the directions for use of the drug; must be dated; and must be signed by the prescribing practitioner on the day when issued. However, a prescription that is electronically generated and transmitted must contain the name of the prescribing practitioner, the name and strength of the drug prescribed, the quantity of the drug prescribed in numerical format, and the directions for use of the drug and must contain the date and an electronic signature, as defined in s. 668.003(4), ~~be dated and signed by the prescribing practitioner only on the day issued, which signature may be in an electronic format as defined in s. 668.003(4).~~

(2) A written prescription for a controlled substance listed in chapter 893 must have the quantity of the drug prescribed in both textual and numerical formats, must be dated in numerical, month/day/year format, or with the abbreviated month written out, or the month written out in whole, and must be either written on a standardized coun-

terfeit-proof prescription pad produced by a vendor approved by the department or electronically prescribed as that term is used in s. 408.0611. As a condition of being an approved vendor, a prescription pad vendor must submit a monthly report to the department that, at a minimum, documents the number of prescription pads sold and identifies the purchasers. The department may, by rule, require the reporting of additional information.

(3) *A health care practitioner licensed by law to prescribe a medicinal drug who maintains a system of electronic health records as defined in s. 408.051(2)(a), or who prescribes medicinal drugs as an owner, an employee, or a contractor of a licensed health care facility or practice that maintains such a system and who is prescribing in his or her capacity as such an owner, an employee, or a contractor, may only electronically transmit prescriptions for such drugs. This requirement applies to such a health care practitioner upon renewal of the health care practitioner's license or by July 1, 2021, whichever is earlier, but does not apply if:*

- (a) *The practitioner and the dispenser are the same entity;*
- (b) *The prescription cannot be transmitted electronically under the most recently implemented version of the National Council for Prescription Drug Programs SCRIPT Standard;*
- (c) *The practitioner has been issued a waiver by the department, not to exceed 1 year in duration, from the requirement to use electronic prescribing due to demonstrated economic hardship, technological limitations that are not reasonably within the control of the practitioner, or another exceptional circumstance demonstrated by the practitioner;*
- (d) *The practitioner reasonably determines that it would be impractical for the patient in question to obtain a medicinal drug prescribed by electronic prescription in a timely manner and such delay would adversely impact the patient's medical condition;*
- (e) *The practitioner is prescribing a drug under a research protocol;*
- (f) *The prescription is for a drug for which the federal Food and Drug Administration requires the prescription to contain elements that may not be included in electronic prescribing; or*
- (g) *The prescription is issued to an individual receiving hospice care or who is a resident of a nursing home facility.*
- (h) *The practitioner determines that it is in the best interest of the patient, or the patient determines that it is in his or her own best interest, to compare prescription drug prices among area pharmacies. The practitioner must document such determination in the patient's medical record.*

The department, in consultation with the Board of Medicine, the Board of Osteopathic Medicine, the Board of Podiatric Medicine, the Board of Dentistry, the Board of Nursing, and the Board of Optometry, may adopt rules to implement this subsection.

Section 2. Section 456.43, Florida Statutes, is amended to read:

456.43 Electronic prescribing for medicinal drugs.—

(1) Electronic prescribing ~~may~~ **shall** not interfere with a patient's freedom to choose a pharmacy.

(2) Electronic prescribing software ~~may~~ **shall** not use any means or permit any other person to use any means to influence or attempt to influence, through economic incentives or otherwise, the prescribing decision of a prescribing practitioner or his or her agent at the point of care, including, but not limited to, means such as advertising, instant messaging, and pop-up ads, and similar means to influence or attempt to influence, through economic incentives or otherwise, the prescribing decision of a prescribing practitioner at the point of care. Such means ~~shall not be~~ triggered by or in specific response to the input, selection, or act of a prescribing practitioner or his or her agent in prescribing a certain medicinal drug ~~pharmaceutical~~ or directing a patient to a certain pharmacy. For purposes of this subsection, the term:

(a) ~~The term~~ "Prescribing decision" means a prescribing practitioner's or his or her agent's decision to prescribe any medicinal drug ~~a certain pharmaceutical~~.

(b) ~~The term~~ "Point of care" means the time at which ~~that~~ a prescribing practitioner or his or her agent ~~prescribes any medicinal drug~~ **is in the act of prescribing a certain pharmaceutical**.

(3) Electronic prescribing software may ~~display show~~ information regarding a payor's formulary ~~if as long as~~ nothing is designed to preclude or make more difficult the selection of the act of a prescribing practitioner or patient selecting any particular pharmacy by a patient or the selection of a certain medicinal drug by a prescribing practitioner or his or her agent ~~pharmaceutical~~.

Section 3. Paragraph (a) of subsection (5) of section 409.912, Florida Statutes, is amended to read:

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician's opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. s. 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(5)(a) The agency shall implement a Medicaid prescribed-drug spending-control program that includes the following components:

1. A Medicaid preferred drug list, which shall be a listing of cost-effective therapeutic options recommended by the Medicaid Pharmacy and Therapeutics Committee established pursuant to s. 409.91195 and adopted by the agency for each therapeutic class on the preferred drug list. At the discretion of the committee, and when feasible, the preferred

drug list should include at least two products in a therapeutic class. The agency may post the preferred drug list and updates to the list on an Internet website without following the rulemaking procedures of chapter 120. Antiretroviral agents are excluded from the preferred drug list. The agency shall also limit the amount of a prescribed drug dispensed to no more than a 34-day supply unless the drug products' smallest marketed package is greater than a 34-day supply, or the drug is determined by the agency to be a maintenance drug in which case a 100-day maximum supply may be authorized. The agency may seek any federal waivers necessary to implement these cost-control programs and to continue participation in the federal Medicaid rebate program, or alternatively to negotiate state-only manufacturer rebates. The agency may adopt rules to administer this subparagraph. The agency shall continue to provide unlimited contraceptive drugs and items. The agency must establish procedures to ensure that:

a. There is a response to a request for prior consultation by telephone or other telecommunication device within 24 hours after receipt of a request for prior consultation; and

b. A 72-hour supply of the drug prescribed is provided in an emergency or when the agency does not provide a response within 24 hours as required by sub-subparagraph a.

2. Reimbursement to pharmacies for Medicaid prescribed drugs shall be set at the lowest of: the average wholesale price (AWP) minus 16.4 percent, the wholesaler acquisition cost (WAC) plus 1.5 percent, the federal upper limit (FUL), the state maximum allowable cost (SMAC), or the usual and customary (UAC) charge billed by the provider.

3. The agency shall develop and implement a process for managing the drug therapies of Medicaid recipients who are using significant numbers of prescribed drugs each month. The management process may include, but is not limited to, comprehensive, physician-directed medical-record reviews, claims analyses, and case evaluations to determine the medical necessity and appropriateness of a patient's treatment plan and drug therapies. The agency may contract with a private organization to provide drug-program-management services. The Medicaid drug benefit management program shall include initiatives to manage drug therapies for HIV/AIDS patients, patients using 20 or more unique prescriptions in a 180-day period, and the top 1,000 patients in annual spending. The agency shall enroll any Medicaid recipient in the drug benefit management program if he or she meets the specifications of this provision and is not enrolled in a Medicaid health maintenance organization.

4. The agency may limit the size of its pharmacy network based on need, competitive bidding, price negotiations, credentialing, or similar criteria. The agency shall give special consideration to rural areas in determining the size and location of pharmacies included in the Medicaid pharmacy network. A pharmacy credentialing process may include criteria such as a pharmacy's full-service status, location, size, patient educational programs, patient consultation, disease management services, and other characteristics. The agency may impose a moratorium on Medicaid pharmacy enrollment if it is determined that it has a sufficient number of Medicaid-participating providers. The agency must allow dispensing practitioners to participate as a part of the Medicaid pharmacy network regardless of the practitioner's proximity to any other entity that is dispensing prescription drugs under the Medicaid program. A dispensing practitioner must meet all credentialing requirements applicable to his or her practice, as determined by the agency.

5. The agency shall develop and implement a program that requires Medicaid practitioners who *issue written prescriptions for medicinal* ~~prescribe~~ drugs to use a counterfeit-proof prescription pad for Medicaid prescriptions. The agency shall require the use of standardized counterfeit-proof prescription pads by ~~Medicaid participating prescribers or~~ prescribers who *issue written* ~~write~~ prescriptions for Medicaid recipients. The agency may implement the program in targeted geographic areas or statewide.

6. The agency may enter into arrangements that require manufacturers of generic drugs prescribed to Medicaid recipients to provide rebates of at least 15.1 percent of the average manufacturer price for the manufacturer's generic products. These arrangements shall require that if a generic-drug manufacturer pays federal rebates for Medicaid-

reimbursed drugs at a level below 15.1 percent, the manufacturer must provide a supplemental rebate to the state in an amount necessary to achieve a 15.1-percent rebate level.

7. The agency may establish a preferred drug list as described in this subsection, and, pursuant to the establishment of such preferred drug list, negotiate supplemental rebates from manufacturers that are in addition to those required by Title XIX of the Social Security Act and at no less than 14 percent of the average manufacturer price as defined in 42 U.S.C. s. 1936 on the last day of a quarter unless the federal or supplemental rebate, or both, equals or exceeds 29 percent. There is no upper limit on the supplemental rebates the agency may negotiate. The agency may determine that specific products, brand-name or generic, are competitive at lower rebate percentages. Agreement to pay the minimum supplemental rebate percentage guarantees a manufacturer that the Medicaid Pharmaceutical and Therapeutics Committee will consider a product for inclusion on the preferred drug list. However, a pharmaceutical manufacturer is not guaranteed placement on the preferred drug list by simply paying the minimum supplemental rebate. Agency decisions will be made on the clinical efficacy of a drug and recommendations of the Medicaid Pharmaceutical and Therapeutics Committee, as well as the price of competing products minus federal and state rebates. The agency may contract with an outside agency or contractor to conduct negotiations for supplemental rebates. For the purposes of this section, the term "supplemental rebates" means cash rebates. Value-added programs as a substitution for supplemental rebates are prohibited. The agency may seek any federal waivers to implement this initiative.

8. The agency shall expand home delivery of pharmacy products. The agency may amend the state plan and issue a procurement, as necessary, in order to implement this program. The procurements must include agreements with a pharmacy or pharmacies located in the state to provide mail order delivery services at no cost to the recipients who elect to receive home delivery of pharmacy products. The procurement must focus on serving recipients with chronic diseases for which pharmacy expenditures represent a significant portion of Medicaid pharmacy expenditures or which impact a significant portion of the Medicaid population. The agency may seek and implement any federal waivers necessary to implement this subparagraph.

9. The agency shall limit to one dose per month any drug prescribed to treat erectile dysfunction.

10.a. The agency may implement a Medicaid behavioral drug management system. The agency may contract with a vendor that has experience in operating behavioral drug management systems to implement this program. The agency may seek federal waivers to implement this program.

b. The agency, in conjunction with the Department of Children and Families, may implement the Medicaid behavioral drug management system that is designed to improve the quality of care and behavioral health prescribing practices based on best practice guidelines, improve patient adherence to medication plans, reduce clinical risk, and lower prescribed drug costs and the rate of inappropriate spending on Medicaid behavioral drugs. The program may include the following elements:

(I) Provide for the development and adoption of best practice guidelines for behavioral health-related drugs such as antipsychotics, antidepressants, and medications for treating bipolar disorders and other behavioral conditions; translate them into practice; review behavioral health prescribers and compare their prescribing patterns to a number of indicators that are based on national standards; and determine deviations from best practice guidelines.

(II) Implement processes for providing feedback to and educating prescribers using best practice educational materials and peer-to-peer consultation.

(III) Assess Medicaid beneficiaries who are outliers in their use of behavioral health drugs with regard to the numbers and types of drugs taken, drug dosages, combination drug therapies, and other indicators of improper use of behavioral health drugs.

(IV) Alert prescribers to patients who fail to refill prescriptions in a timely fashion, are prescribed multiple same-class behavioral health drugs, and may have other potential medication problems.

(V) Track spending trends for behavioral health drugs and deviation from best practice guidelines.

(VI) Use educational and technological approaches to promote best practices, educate consumers, and train prescribers in the use of practice guidelines.

(VII) Disseminate electronic and published materials.

(VIII) Hold statewide and regional conferences.

(IX) Implement a disease management program with a model quality-based medication component for severely mentally ill individuals and emotionally disturbed children who are high users of care.

11. The agency shall implement a Medicaid prescription drug management system.

a. The agency may contract with a vendor that has experience in operating prescription drug management systems in order to implement this system. Any management system that is implemented in accordance with this subparagraph must rely on cooperation between physicians and pharmacists to determine appropriate practice patterns and clinical guidelines to improve the prescribing, dispensing, and use of drugs in the Medicaid program. The agency may seek federal waivers to implement this program.

b. The drug management system must be designed to improve the quality of care and prescribing practices based on best practice guidelines, improve patient adherence to medication plans, reduce clinical risk, and lower prescribed drug costs and the rate of inappropriate spending on Medicaid prescription drugs. The program must:

(I) Provide for the adoption of best practice guidelines for the prescribing and use of drugs in the Medicaid program, including translating best practice guidelines into practice; reviewing prescriber patterns and comparing them to indicators that are based on national standards and practice patterns of clinical peers in their community, statewide, and nationally; and determine deviations from best practice guidelines.

(II) Implement processes for providing feedback to and educating prescribers using best practice educational materials and peer-to-peer consultation.

(III) Assess Medicaid recipients who are outliers in their use of a single or multiple prescription drugs with regard to the numbers and types of drugs taken, drug dosages, combination drug therapies, and other indicators of improper use of prescription drugs.

(IV) Alert prescribers to recipients who fail to refill prescriptions in a timely fashion, are prescribed multiple drugs that may be redundant or contraindicated, or may have other potential medication problems.

12. The agency may contract for drug rebate administration, including, but not limited to, calculating rebate amounts, invoicing manufacturers, negotiating disputes with manufacturers, and maintaining a database of rebate collections.

13. The agency may specify the preferred daily dosing form or strength for the purpose of promoting best practices with regard to the prescribing of certain drugs as specified in the General Appropriations Act and ensuring cost-effective prescribing practices.

14. The agency may require prior authorization for Medicaid-covered prescribed drugs. The agency may prior-authorize the use of a product:

- a. For an indication not approved in labeling;
- b. To comply with certain clinical guidelines; or
- c. If the product has the potential for overuse, misuse, or abuse.

The agency may require the prescribing professional to provide information about the rationale and supporting medical evidence for the use of a drug. The agency shall post prior authorization, step-edit criteria and protocol, and updates to the list of drugs that are subject to prior authorization on the agency's Internet website within 21 days

after the prior authorization and step-edit criteria and protocol and updates are approved by the agency. For purposes of this subparagraph, the term "step-edit" means an automatic electronic review of certain medications subject to prior authorization.

15. The agency, in conjunction with the Pharmaceutical and Therapeutics Committee, may require age-related prior authorizations for certain prescribed drugs. The agency may preauthorize the use of a drug for a recipient who may not meet the age requirement or may exceed the length of therapy for use of this product as recommended by the manufacturer and approved by the Food and Drug Administration. Prior authorization may require the prescribing professional to provide information about the rationale and supporting medical evidence for the use of a drug.

16. The agency shall implement a step-therapy prior authorization approval process for medications excluded from the preferred drug list. Medications listed on the preferred drug list must be used within the previous 12 months before the alternative medications that are not listed. The step-therapy prior authorization may require the prescriber to use the medications of a similar drug class or for a similar medical indication unless contraindicated in the Food and Drug Administration labeling. The trial period between the specified steps may vary according to the medical indication. The step-therapy approval process shall be developed in accordance with the committee as stated in s. 409.91195(7) and (8). A drug product may be approved without meeting the step-therapy prior authorization criteria if the prescribing physician provides the agency with additional written medical or clinical documentation that the product is medically necessary because:

- a. There is not a drug on the preferred drug list to treat the disease or medical condition which is an acceptable clinical alternative;
- b. The alternatives have been ineffective in the treatment of the beneficiary's disease; or
- c. Based on historic evidence and known characteristics of the patient and the drug, the drug is likely to be ineffective, or the number of doses have been ineffective.

The agency shall work with the physician to determine the best alternative for the patient. The agency may adopt rules waiving the requirements for written clinical documentation for specific drugs in limited clinical situations.

17. The agency shall implement a return and reuse program for drugs dispensed by pharmacies to institutional recipients, which includes payment of a \$5 restocking fee for the implementation and operation of the program. The return and reuse program shall be implemented electronically and in a manner that promotes efficiency. The program must permit a pharmacy to exclude drugs from the program if it is not practical or cost-effective for the drug to be included and must provide for the return to inventory of drugs that cannot be credited or returned in a cost-effective manner. The agency shall determine if the program has reduced the amount of Medicaid prescription drugs which are destroyed on an annual basis and if there are additional ways to ensure more prescription drugs are not destroyed which could safely be reused.

Section 4. Section 456.0392, Florida Statutes, is amended to read:

456.0392 Prescription labeling.—

(1) A prescription ~~issued~~ ~~written~~ by a practitioner who is authorized under the laws of this state to ~~prescribe~~ ~~write prescriptions for~~ drugs that are not listed as controlled substances in chapter 893 but who is not eligible for a federal Drug Enforcement Administration number shall include that practitioner's name and professional license number. Section 17. Present subsections (3) through (12) of section 455.213, Florida Statutes, are redesignated as subsections (4) through (13), respectively, subsection (2) of that section is amended, and a new subsection (3) is added to that section, to read:

455.213 General licensing provisions.—

(2) Before the issuance of any license, the department may charge an initial license fee as determined by rule of the applicable board or, if no such board exists, by rule of the department. Upon receipt of the appropriate license fee, except as provided in subsection (4) ~~(3)~~, the department shall issue a license to any person certified by the appropriate board, or its designee, or the department when there is no board, as having met the applicable requirements imposed by law or rule. However, an applicant who is not otherwise qualified for licensure is not entitled to licensure solely based on a passing score on a required examination. Upon a determination by the department that it erroneously issued a license, or upon the revocation of a license by the applicable board, or by the department when there is no board, the licensee must surrender his or her license to the department.

(3)(a) *Notwithstanding any other law, the applicable board shall use the process in this subsection for review of an applicant's criminal record to determine his or her eligibility for licensure as:*

1. *A barber under chapter 476;*
2. *A cosmetologist or cosmetology specialist under chapter 477;*
3. *Any of the following construction professions under chapter 489:*
 - a. *Air-conditioning contractor;*
 - b. *Electrical contractor;*
 - c. *Mechanical contractor;*
 - d. *Plumbing contractor;*
 - e. *Pollutant storage systems contractor;*
 - f. *Roofing contractor;*
 - g. *Sheet metal contractor;*
 - h. *Solar contractor;*
 - i. *Swimming pool and spa contractor;*
 - j. *Underground utility and excavation contractor; or*
 - k. *Other specialty contractors; or*

4. *Any other profession for which the department issues a license, provided the profession is offered in to inmates in any correctional institution or correctional facility as vocational training or through an industry certification program.*

(b)1. A conviction, or any other adjudication, for a crime more than 5 years before the date the application is received by the applicable board may not be grounds for denial of a license specified in paragraph (a). For purposes of this paragraph, the term "conviction" means a determination of guilt that is the result of a plea or trial, regardless of whether adjudication is withheld. This paragraph does not limit the applicable board from considering an applicant's criminal history that includes a crime listed in s. 775.21(4)(a)1. or s. 776.08 at any time, but only if such criminal history has been found to relate to the practice of the applicable profession.

2. The applicable board may consider the criminal history of an applicant for licensure under subparagraph (a)3. if such criminal history has been found to relate to good moral character.

(c)1. A person may apply for a license before his or her lawful release from confinement or supervision. The department may not charge an applicant an additional fee for being confined or under supervision. The applicable board may not deny an application for a license solely on the basis of the applicant's current confinement or supervision.

2. After a license application is approved, the applicable board may stay the issuance of a license until the applicant is lawfully released from confinement or supervision and the applicant notifies the applicable board of such release. The applicable board must verify the applicant's release with the Department of Corrections before it issues a license.

3. If an applicant is unable to appear in person due to his or her confinement or supervision, the applicable board must permit the applicant to appear by teleconference or video conference, as appropriate, at any meeting of the applicable board or other hearing by the agency concerning his or her application.

4. If an applicant is confined or under supervision, the Department of Corrections and the applicable board shall cooperate and coordinate to facilitate the appearance of the applicant at a board meeting or agency hearing in person, by teleconference, or by video conference, as appropriate.

(d) Each applicable board shall compile a list of crimes that, if committed and regardless of adjudication, do not relate to the practice of the profession or the ability to practice the profession and do not constitute grounds for denial of a license. This list must be made available on the department's website and updated annually. Beginning October 1, 2019, each applicable board shall compile a list of crimes that although reported by an applicant for licensure, were not used as a basis for denial. The list must identify for each such license application the crime reported and the date of conviction and whether there was a finding of guilt, a plea, or an adjudication entered or the date of sentencing.

(e) Each applicable board shall compile a list of crimes that have been used as a basis for denial of a license in the past 2 years and shall make the list available on the department's website. Starting October 1, 2019, and updated quarterly thereafter, the applicable board shall compile a list indicating each crime used as a basis for denial. For each crime listed, the applicable board must identify the date of conviction, finding of guilt, plea, or adjudication entered, or date of sentencing. Such denials must be made available to the public upon request.

Section 18. Subsection (4) of section 474.2165, Florida Statutes, is amended to read:

474.2165 Ownership and control of veterinary medical patient records; report or copies of records to be furnished.—

(4) Except as otherwise provided in this section, such records may not be furnished to, and the medical condition of a patient may not be discussed with, any person other than the client or the client's legal representative or other veterinarians involved in the care or treatment of the patient, except upon written authorization of the client. However, such records may be furnished without written authorization under the following circumstances:

(a) To any person, firm, or corporation that has procured or furnished such examination or treatment with the client's consent.

(b) In any civil or criminal action, unless otherwise prohibited by law, upon the issuance of a subpoena from a court of competent jur-

isdiction and proper notice to the client or the client's legal representative by the party seeking such records.

(c) For statistical and scientific research, provided the information is abstracted in such a way as to protect the identity of the patient and the client, or provided written permission is received from the client or the client's legal representative.

(d) In any criminal action or situation where a veterinarian suspects a criminal violation. If a criminal violation is suspected, a veterinarian may, without notice to or authorization from the client, report the violation to a law enforcement officer, an animal control officer who is certified pursuant to s. 828.27(4)(a), or an agent appointed under s. 828.03. However, if a suspected violation occurs at a commercial food-producing animal operation on land classified as agricultural under s. 193.461, the veterinarian must provide notice to the client or the client's legal representative before reporting the suspected violation to an officer or agent under this paragraph. The report may not include written medical records except upon the issuance of an order from a court of competent jurisdiction.

Section 19. Subsections (2), (3), and (4) of section 489.126, Florida Statutes, are amended, and subsections (5) and (6) are added to that section, to read:

489.126 Moneys received by contractors.—

(2)(a) A contractor who receives, as initial payment, money totaling more than 10 percent of the contract price for repair, restoration, improvement, or construction to residential real property must:

1.(a) Apply for permits necessary to do work within 30 days after the date payment is made, except where the work does not require a permit under the applicable codes and ordinances, and

2.(b) Start the work within 90 days after the date all necessary permits for work, if any, are issued,

unless the contractor has just cause for failing to apply for the necessary permits, starting the work, or refunding the payment, or unless the person who made the payment agreed, in writing, to a longer period to apply for the necessary permits or start the work or to longer periods for both.

(b)1. If a contractor fails to comply with the requirements of paragraph (a), the contractee must make written demand to the contractor in the form of a letter that includes a demand to apply for the necessary permits, to start the work, or to refund the payment sent via certified mail, return receipt requested, mailed to the address listed in the contracting agreement. If there is no address for the contractor listed in the contracting agreement, or no written agreement exists, the contractee must mail the written demand letter to the address listed for licensing purposes with the department or the local construction industry licensing board, if applicable.

2. It may be inferred that a contractor does not have just cause if the contractor fails to apply for the necessary permits, start the work, or refund payments within 30 days of receiving written demand to apply for the necessary permits, start the work, or refund the payment from the person who made the payment.

(3)(a) A contractor who receives money for repair, restoration, addition, improvement, or construction of residential real property in excess of the value of the work performed may ~~shall not, with intent to defraud the owner,~~ fail or refuse to perform any work for any 90-day period or for any period that is mutually agreed upon and specified in the contract.

(b) It is prima facie evidence ~~Proof~~ that a contractor received money for the repair, restoration, addition, improvement, or construction of residential real property and that the amount received exceeds the value of the work performed by the contractor ~~when and that:~~

1. The contractor failed to perform any of the work for which he or she contracted during any 90-day ~~60-day~~ period or any period that is mutually agreed upon and specified in the contract;

2. The failure to perform any such work during the 90-day ~~60-day~~ period or such period that is mutually agreed upon and specified in the

contract was not related to the owner's termination of the contract or a material breach of the contract by the owner; and

3. The contractor failed to perform for the 90-day period or such period that is mutually agreed upon and specified in the contract without just cause or terminated the contract without proper notification to the owner.

a. Proper notification of termination for purposes of this subparagraph must be made by the contractor in the form of a letter that includes the reason for termination of the contract or the reason for failure to perform sent via certified mail, return receipt requested, mailed to the address of the owner listed in the contracting agreement. If no written agreement exists, the letter must be mailed to the address where the work was to be performed or the address listed on the permit, if applicable.

b. If a contractor fails to comply with paragraph (a), written demand must be made to the contractor in the form of a letter that includes a demand to perform work, or refund the money received in excess of the value of the work performed, sent via certified mail, return receipt requested, mailed to the address listed in the contracting agreement. If there is no address for the contractor listed in the contracting agreement, or no agreement exists, the letter must be mailed to the address listed with the department for licensing purposes or the local construction industry licensing board, if applicable.

c. It may be inferred that a contractor does not have just cause if the contractor fails to perform work, or refund the money received in excess of the value of the work performed, within 30 days after receiving a written demand to perform the work, or refund the money received in excess of the value of the work performed, from the person who made the payment, for an additional 30 day period after the date of mailing of notification as specified in paragraph (c), to perform any work for which he or she contracted,

~~gives rise to an inference that the money in excess of the value of the work performed was taken with the intent to defraud.~~

~~(e) Notification as contemplated in paragraph (b) consists of a certified letter, return receipt requested, mailed to the address of the contractor as listed in the written contracting agreement. The letter must indicate that the contractor has failed to perform any work for a 60 day period, that the failure to perform the work was not the result of the owner's termination of the contract or a material breach of the contract by the owner, and that the contractor must recommence construction within 30 days after the date of mailing of the letter. If there is no address for the contractor listed in the written contracting agreement, or no written agreement exists, the letter must be mailed to the address of the contractor listed in the building permit application.~~

(4) Any violation of subsection (2) or subsection (3) must be prosecuted in accordance with the thresholds established in this section and the following: ~~person who violates any provision of this section is guilty of theft and shall be prosecuted and punished under s. 812.014.~~

(a) The required intent to prove a criminal violation may be shown to exist at the time that the contractor appropriated the money to his or her own use and is not required to be proven to exist at the time of the taking of the money from the owner or at the time the owner makes a payment to the contractor.

(b) It may be inferred that a contractor intended to deprive the owner of the right to the money owed, or deprive the owner of the benefit from it, and inferred that the contractor appropriated the money for his or her own use, or to a person not entitled to the use of the money, if the contractor fails to refund any portion of the money owed within 30 days after receiving a written demand for such money from the owner.

(c) In a prosecution for a violation of this section, the fact that the person so charged intended to return the money owed is not a defense.

(5) A person who violates subsection (2) commits:

The department or other applicable authority must verify the applicant's release with the Department of Corrections before it registers such applicant.

(9) The department or other applicable authority shall compile a list of crimes that, if committed and regardless of adjudication, do not relate to the practice of the profession or the ability to practice the profession and do not constitute grounds for denial of registration. This list must be made available on the department's website and updated annually.

Beginning October 1, 2019, and updated quarterly thereafter, the department or other applicable authority shall add to this list such crimes that although reported by an applicant for registration, were not used as a basis for denial in the past 2 years. The list must identify for each such registration application the crime reported and the date of conviction, plea, adjudication, or sentencing.

(10) The department or other applicable authority shall compile a list of crimes that have been used as a basis for denial of registration in the past 2 years and make the list available on the department's website. Beginning October 1, 2019, and updated quarterly thereafter, the department shall add to this list each crime used as a basis for denial. For each crime listed, the department must identify the date of conviction, plea, adjudication, or sentencing. Such denials must be made available to the public upon request.

943.0585 Court-ordered expunction of criminal history records.—

(1) **ELIGIBILITY.**—A person is eligible to petition a court to expunge a criminal history record if:

(a) An indictment, information, or other charging document was not filed or issued in the case giving rise to the criminal history record.

(b) An indictment, information, or other charging document was filed or issued in the case giving rise to the criminal history record, was dismissed or nolle prosequi by the state attorney or statewide prosecutor, or was dismissed by a court of competent jurisdiction or a judgment of acquittal was rendered by a judge, or a verdict of not guilty was rendered by a judge or jury.

(c) The person is not seeking to expunge a criminal history record that is ineligible for court-ordered expunction under s. 943.0584.

(d) The person has never, as of the date the application for a certificate of expunction is filed, been adjudicated guilty in this state of a criminal offense or been adjudicated delinquent in this state for committing any felony or any of the following misdemeanors, unless the record of such adjudication of delinquency has been expunged pursuant to s. 943.0515:

1. Assault, as defined in s. 784.011;
2. Battery, as defined in s. 784.03;
3. Assault on a law enforcement officer, a firefighter, or other specified officers, as defined in s. 784.07(2)(a);
4. Carrying a concealed weapon, as defined in s. 790.01(1);

5. Open carrying of a weapon, as defined in s. 790.053;

6. Unlawful possession or discharge of a weapon or firearm at a school-sponsored event or on school property, as defined in s. 790.115;

(e) The person has not been adjudicated guilty of, or adjudicated delinquent for committing, any of the acts stemming from the arrest or alleged criminal activity to which the petition pertains.

(f) The person is no longer under court supervision applicable to the disposition of arrest or alleged criminal activity to which the petition to expunge pertains.

(g) The person has never secured a prior sealing or expunction of a criminal history record under this section, s. 943.059, former s. 893.14, former s. 901.33, or former s. 943.058, unless expunction is sought of a criminal history record previously sealed for 10 years pursuant to paragraph (h) and the record is otherwise eligible for expunction.

(h) The person has previously obtained a court-ordered sealing the criminal history record under s. 943.059, former s. 893.14, former s. 901.33, or former s. 943.058 for a minimum of 10 years because adjudication was withheld or because all charges related to the arrest or alleged criminal activity to which the petition to expunge pertains were not dismissed before trial, without regard to whether the outcome of the trial was other than an adjudication of guilt. The requirement for the record to have previously been sealed for a minimum of 10 years does not apply if a plea was not entered or all charges related to the arrest or alleged criminal activity to which the petition to expunge pertains were dismissed before trial or a judgment of acquittal was rendered by a judge or a verdict of not guilty was rendered by a judge or jury.

(2) **CERTIFICATE OF ELIGIBILITY.**—Before petitioning a court to expunge a criminal history record, a person seeking to expunge a criminal history record must apply to the department for a certificate of eligibility for expunction. The department shall adopt rules to establish procedures for applying for and issuing a certificate of eligibility for expunction.

(a) The department shall issue a certificate of eligibility for expunction to a person who is the subject of a criminal history record if that person:

1. Satisfies the eligibility criteria in paragraphs (1)(a)-(h) and is not ineligible under s. 943.0584.

2. Has submitted to the department a written certified statement from the appropriate state attorney or statewide prosecutor which confirms the criminal history record complies with the criteria in paragraph (1)(a) or paragraphs (1)(b) and (c).

3. Has submitted to the department a certified copy of the disposition of the charge to which the petition to expunge pertains.

4. Remits a \$75 processing fee to the department for placement in the Department of Law Enforcement Operating Trust Fund, unless the executive director waives such fee.

(b) A certificate of eligibility for expunction is valid for 12 months after the date stamped on the certificate when issued by the department. After that time, the petitioner must reapply to the department for a new certificate of eligibility. The petitioner's status and the law in effect at the time of the renewal application determine the petitioner's eligibility.

(3) *PETITION.*—Each petition to expunge a criminal history record must be accompanied by:

- (a) A valid certificate of eligibility issued by the department.
- (b) The petitioner's sworn statement that he or she:
 1. Satisfies the eligibility requirements for expunction in subsection (1).
 2. Is eligible for expunction to the best of his or her knowledge and does not have any other petition to seal or expunge a criminal history record pending before any court.

A person who knowingly provides false information on such sworn statement commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(4) *COURT AUTHORITY.*—

(a) The courts of this state have jurisdiction over their own procedures, including the maintenance, expunction, and correction of judicial records containing criminal history information to the extent that such procedures are not inconsistent with the conditions, responsibilities, and duties established by this section.

(b) A court of competent jurisdiction may order a criminal justice agency to expunge the criminal history record of a minor or an adult who complies with the requirements of this section. The court may not order a criminal justice agency to expunge a criminal history record until the person seeking to expunge a criminal history record has applied for and received a certificate of eligibility under subsection (2).

(c) The court may order expunction of a criminal history record pertaining to one arrest or one incident of alleged criminal activity only, except that the court may order the expunction of a criminal history record pertaining to more than one arrest if the additional arrests directly relate to the original arrest. If the court intends to order the expunction of records pertaining to such additional arrests, such intent must be specified in the order. A criminal justice agency may not expunge any record pertaining to such additional arrests if the order to expunge does not articulate the intention of the court to expunge a record pertaining to more than one arrest. This section does not prevent the court from ordering the expunction of only a portion of a criminal history record pertaining to one arrest or one incident of alleged criminal activity.

(d) Notwithstanding any law to the contrary, a criminal justice agency may comply with laws, court orders, and official requests of other jurisdictions relating to expunction, correction, or confidential handling of criminal history records

or information derived therefrom.

(e) This section does not confer any right to expunction of any criminal history record, and any request for expunction of a criminal history record may be denied at the sole discretion of the court.

(5) *PROCESSING OF A PETITION OR AN ORDER.*—

(a) In judicial proceedings under this section, a copy of the completed petition to expunge shall be served upon the appropriate state attorney or the statewide prosecutor and upon the arresting agency; however, it is not necessary to make any agency other than the state a party. The appropriate state attorney or the statewide prosecutor and the arresting agency may respond to the court regarding the completed petition to expunge.

(b) If relief is granted by the court, the clerk of the court shall certify copies of the order to the appropriate state attorney or the statewide prosecutor and the arresting agency. The arresting agency shall forward the order to any other agency to which the arresting agency disseminated the criminal history record information to which the order pertains. The department shall forward the order to expunge to the Federal Bureau of Investigation. The clerk of the court shall certify a copy of the order to any other agency which the records of the court reflect has received the criminal history record from the court.

(c) The department or any other criminal justice agency is not required to act on an order to expunge entered by a court when such order does not comply with the requirements of this section. Upon receipt of such an order, the department must notify the issuing court, the appropriate state attorney or statewide prosecutor, the petitioner or the petitioner's attorney, and the arresting agency of the reason for non-compliance. The appropriate state attorney or statewide prosecutor shall take action within 60 days to correct the record and petition the court to void the order. No cause of action, including contempt of court, shall arise against any criminal justice agency for failure to comply with an order to expunge when the petitioner for such order failed to obtain the certificate of eligibility as required by this section or such order does not otherwise comply with the requirements of this section.

(6) *EFFECT OF EXPUNCTION ORDER.*—

(a) Any criminal history record of a minor or an adult which is ordered expunged by a court of competent jurisdiction pursuant to this section must be physically destroyed or obliterated by any criminal justice agency having custody of such record, except that any criminal history record in the custody of the department must be retained in all cases. A criminal history record ordered expunged which is retained by the department is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution and not available to any person or entity except upon order of a court of competent jurisdiction. A criminal justice agency may retain a notation indicating compliance with an order to expunge.

(b) The person who is the subject of a criminal history record that is expunged under this section or under other provisions of law, including former s. 893.14, former s. 901.33, and former s. 943.058, may lawfully deny or fail to acknowledge the arrests covered by the expunged record, except when the subject of the record:

1. Is a candidate for employment with a criminal justice agency;
2. Is a defendant in a criminal prosecution;
3. Concurrently or subsequently petitions for relief under this section, s. 943.0583, or s. 943.059;
4. Is a candidate for admission to The Florida Bar;
5. Is seeking to be employed or licensed by or to contract with the Department of Children and Families, the Division of Vocational Rehabilitation within the Department of Education, the Agency for Health Care Administration, the Agency for Persons with Disabilities, the Department of Health, the Department of Elderly Affairs, or the Department of Juvenile Justice or to be employed or used by such contractor or licensee in a sensitive position having direct contact with children, the disabled, or the elderly;
6. Is seeking to be employed or licensed by the Department of Education, any district school board, any university laboratory school, any charter school, any private or parochial school, or any local governmental entity that licenses child care facilities;
7. Is seeking to be licensed by the Division of Insurance Agent and Agency Services within the Department of Financial Services; or
8. Is seeking to be appointed as a guardian pursuant to s. 744.3125.

(c) Subject to the exceptions in paragraph (b), a person who has been granted an expunction under this section, former s. 893.14, former s. 901.33, or former s. 943.058 may not be held under any provision of law of this state to commit perjury or to be otherwise liable for giving a false statement by reason of such person's failure to recite or acknowledge an expunged criminal history record.

(d) Information relating to the existence of an expunged criminal history record which is provided in accordance with paragraph (a) is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution, except that the department shall disclose the existence of a criminal history record ordered expunged to the entities set forth in subparagraphs (b)1., 4., 5., 6., 7., and 8. for their respective licensing, access authorization, and employment purposes and to criminal justice agencies for their respective criminal justice purposes. It is unlawful for any employee of an entity set forth in subparagraph (b)1., 4., 5., 6., 7., or 8. to disclose information relating to the existence of an expunged

criminal history record of a person seeking employment, access authorization, or licensure with such entity or contractor, except to the person to whom the criminal history record relates or to persons having direct responsibility for employment, access authorization, or licensure decisions. A person who violates this paragraph commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(b) Any court of competent jurisdiction may order a criminal justice agency to seal the criminal history record of a minor or an adult who complies with the requirements of this section. (c) The court may order the sealing of a criminal history record pertaining to one arrest or one incident of alleged criminal activity only, except the court may order the sealing of a criminal history record pertaining to more than one arrest if the additional arrests directly relate to the original arrest. For purposes of this section, the term "technical violation" means an alleged violation of supervision that is not a new felony offense, misdemeanor offense, or criminal traffic offense.

~~(h)1. The chief judge of each judicial circuit, in consultation with the state attorney, the public defender, and the department, may establish an alternative sanctioning program in which the department, after receiving court approval, may enforce specified sanctions for certain technical violations of supervision. For purposes of this paragraph, the term "technical violation" means any alleged violation of supervision that is not a new felony offense, misdemeanor offense, or criminal traffic offense.~~

~~2. To establish an alternative sanctioning program, the chief judge must issue an administrative order specifying:~~

- ~~a. Eligibility criteria.~~
- ~~b. The technical violations that are eligible for the program.~~
- ~~c. The sanctions that may be recommended by a probation officer for each technical violation.~~
- ~~d. The process for reporting technical violations through the alternative sanctioning program, including approved forms.~~

~~5. The court may impose the recommended sanction or may direct the department to submit a violation report, affidavit, and warrant to the court in accordance with this section.~~

~~6. An offender's participation in an alternative sanctioning program is voluntary. The offender may elect to waive or discontinue participation in an alternative sanctioning program at any time before the issuance of a court order imposing the recommended sanction.~~

~~7. If an offender waives or discontinues participation in an alternative sanctioning program, the probation officer may submit a violation report, affidavit, and warrant to the court in accordance with this section. The offender's prior admission to the technical violation may not be used as evidence in subsequent proceedings.~~

(2)

eligible for mandatory modification or continuation of his or her probation.

2. Upon modifying probation under subparagraph 1., the court may include in the sentence a maximum of 90 days in county jail as a special condition of probation.

3. Notwithstanding s. 921.0024, if a probationer has less than 90 days of supervision remaining on his or her term of probation and meets the criteria for mandatory modification or continuation in subparagraph 1., the court may revoke probation and sentence the probationer to a maximum of 90 days in county jail.

4. For purposes of imposing a jail sentence under this paragraph only, the court may grant credit only for time served in the county jail since the probationer's most recent arrest for the violation. However, the court may not order the probationer to a total term of incarceration greater than the maximum provided by s. 775.082.

(9)(a) Each judicial circuit shall establish an alternative sanctioning program as provided in this subsection. The chief judge of each judicial circuit may, by administrative order, define additional sanctions or eligibility criteria and specify the process for reporting technical violations through the alternative sanctioning program. 2. Failure to remain at an approved residence by an offender on community control.
3. A third violation identified in paragraph (b) by a probationer within the current term of supervision.

7. He or she has three prior low-risk level violations during the same term of supervision;

8. The term of supervision is scheduled to terminate in less than 90 days; or

2. Curfew for up to 90 days.
3. House arrest for up to 90 days.

b. However, in no circumstance shall participation in an alternative sanctioning program convert a withheld adjudication to an adjudication of guilt.

(g) The participation of a probationer or an offender on community control in the program is voluntary. The probationer or offender on community control may waive or discontinue participation in the program at any time before the court imposes a recommended sanction.

(h)1. If a probationer or offender on community control is eligible for the alternative sanctioning program under this subsection, he or she may:

(j) If a probationer or offender on community control waives or discontinues participation in the program or fails to successfully complete all alternative sanctions within 90 days after imposition or within the timeframe specified in the agreed-upon sanction, the probation officer may submit a violation report, affidavit, and warrant to the court. A prior admission by the probationer or offender on community control to a technical violation may not be used as evidence in subsequent proceedings.

907.041 Pretrial detention and release.—

(4) PRETRIAL DETENTION.—

(c) The court may order pretrial detention if it finds a substantial probability, based on a defendant's past and present patterns of behavior, the criteria in s. 903.046, and any other relevant facts, that any of the following circumstances exist:

1. The defendant has previously violated conditions of release and that no further conditions of release are reasonably likely to assure the defendant's appearance at subsequent proceedings;

2. The defendant, with the intent to obstruct the judicial process, has threatened, intimidated, or injured any victim, potential witness, juror, or judicial officer, or has attempted or conspired to do so, and that no condition of release will reasonably prevent the obstruction of the judicial process;

3. The defendant is charged with trafficking in controlled substances as defined by s. 893.135, that there is a substantial probability that the defendant has committed the offense, and that no conditions of release will reasonably assure the defendant's appearance at subsequent criminal proceedings;

4. The defendant is charged with DUI manslaughter, as defined by s. 316.193, and that there is a substantial probability that the defendant committed the crime and that the defendant poses a threat of harm to the community; conditions that would support a finding by the court pursuant to this subparagraph that the defendant poses a threat of harm to the community include, but are not limited to, any of the following:

a. The defendant has previously been convicted of any crime under s. 316.193, or of any crime in any other state or territory of the United States that is substantially similar to any crime under s. 316.193;

b. The defendant was driving with a suspended driver license when the charged crime was committed; or

c. The defendant has previously been found guilty of, or has had adjudication of guilt withheld for, driving while the defendant's driver license was suspended or revoked in violation of s. 322.34;

5. The defendant poses the threat of harm to the community. The court may so conclude, if it finds that the defendant is presently charged with a dangerous crime, that there is a substantial probability that the defendant committed such crime, that the factual circumstances of the crime indicate a disregard for the safety of the community, and that there are no conditions of release reasonably sufficient to protect the community from the risk of physical harm to persons;

6. The defendant was on probation, parole, or other release pending completion of sentence or on pretrial release for a dangerous crime at the time the current offense was committed;

7. The defendant has violated one or more conditions of pretrial release or bond for the offense currently before the court and the violation, in the discretion of the court, supports a finding that no conditions of release can reasonably protect the community from risk of physical harm to persons or assure the presence of the accused at trial; or

8.a. The defendant has ever been sentenced pursuant to s. 775.082(9) or s. 775.084 as a prison releasee reoffender, habitual violent felony offender, three-time violent felony offender, or violent career criminal, or the state attorney files a notice seeking that the defendant be sentenced pursuant to s. 775.082(9) or s. 775.084, as a prison releasee reoffender, habitual violent felony offender, three-time violent felony offender, or violent career criminal;

b. There is a substantial probability that the defendant committed the offense; and

c. There are no conditions of release that can reasonably protect the community from risk of physical harm or ensure the presence of the accused at trial.

Section 85. For the purpose of incorporating the amendment made by this act to section 509.151, Florida Statutes, in a reference thereto, section 509.161, Florida Statutes, is reenacted to read:

Section 128. For the purpose of incorporating the amendment made by this act to section 893.135, Florida Statutes, in a reference thereto, paragraph (c) of subsection (4) of section 907.041, Florida Statutes, is reenacted to read:

907.041 Pretrial detention and release.—

(4) PRETRIAL DETENTION.—

(c) The court may order pretrial detention if it finds a substantial probability, based on a defendant's past and present patterns of behavior, the criteria in s. 903.046, and any other relevant facts, that any of the following circumstances exist:

1. The defendant has previously violated conditions of release and that no further conditions of release are reasonably likely to assure the defendant's appearance at subsequent proceedings;

2. The defendant, with the intent to obstruct the judicial process, has threatened, intimidated, or injured any victim, potential witness, juror, or judicial officer, or has attempted or conspired to do so, and that no condition of release will reasonably prevent the obstruction of the judicial process;

3. The defendant is charged with trafficking in controlled substances as defined by s. 893.135, that there is a substantial probability that the defendant has committed the offense, and that no conditions of release will reasonably assure the defendant's appearance at subsequent criminal proceedings;

4. The defendant is charged with DUI manslaughter, as defined by s. 316.193, and that there is a substantial probability that the defendant committed the crime and that the defendant poses a threat of harm to the community; conditions that would support a finding by the court pursuant to this subparagraph that the defendant poses a threat of harm to the community include, but are not limited to, any of the following:

a. The defendant has previously been convicted of any crime under s. 316.193, or of any crime in any other state or territory of the United States that is substantially similar to any crime under s. 316.193;

b. The defendant was driving with a suspended driver license when the charged crime was committed; or

c. The defendant has previously been found guilty of, or has had adjudication of guilt withheld for, driving while the defendant's driver license was suspended or revoked in violation of s. 322.34;

5. The defendant poses the threat of harm to the community. The court may so conclude, if it finds that the defendant is presently charged with a dangerous crime, that there is a substantial probability that the defendant committed such crime, that the factual circumstances of the crime indicate a disregard for the safety of the community, and that there are no conditions of release reasonably sufficient to protect the community from the risk of physical harm to persons;

6. The defendant was on probation, parole, or other release pending completion of sentence or on pretrial release for a dangerous crime at the time the current offense was committed;

7. The defendant has violated one or more conditions of pretrial release or bond for the offense currently before the court and the violation, in the discretion of the court, supports a finding that no conditions of release can reasonably protect the community from risk of physical harm to persons or assure the presence of the accused at trial; or

8.a. The defendant has ever been sentenced pursuant to s. 775.082(9) or s. 775.084 as a prison releasee reoffender, habitual violent felony offender, three-time violent felony offender, or violent career criminal, or the state attorney files a notice seeking that the defendant be sentenced pursuant to s. 775.082(9) or s. 775.084, as a prison releasee reoffender, habitual violent felony offender, three-time violent felony offender, or violent career criminal;

b. There is a substantial probability that the defendant committed the offense; and

c. There are no conditions of release that can reasonably protect the community from risk of physical harm or ensure the presence of the accused at trial.

The proceeding shall be conducted by the trial judge before the trial jury as soon as practicable. If, through impossibility or inability, the trial jury is unable to reconvene for a hearing on the issue of penalty, having determined the guilt of the accused, the trial judge may summon a special juror or jurors as provided in chapter 913 to determine the issue of the imposition of the penalty. If the trial jury has been waived, or if the defendant pleaded guilty, the sentencing proceeding shall be conducted before a jury impaneled for that purpose, unless waived by the defendant. In the proceeding, evidence may be presented as to any matter that the court deems relevant to the nature of the crime and the character of the defendant and shall include matters relating to any of the aggravating factors enumerated in subsection (7) and for which notice has been provided pursuant to s. 782.04(1)(b) or mitigating circumstances enumerated in subsection (8). Any such evidence that the court deems to have probative value may be received, regardless of its admissibility under the exclusionary rules of evidence, provided the defendant is accorded a fair opportunity to rebut any hearsay statements. However, this subsection shall not be construed to authorize the introduction of any evidence secured in violation of the Constitution of the United States or the Constitution of the State of Florida. The state and the defendant or the defendant's counsel shall be permitted to present argument for or against sentence of death.

PRAYER

The following prayer was offered by Pastor Jon Kent, Gateway Baptist Church, Lake City:

God, here within this room on this day, we acknowledge your presence and that your will be followed by these men and women. May it be clear this day, that your loving words be within their hearts and minds as they sit upon your mighty shoulders.

God, I pray over these people and their families. Protect them and save them from evil. Grant them mercy and guide them by your grace.

I pray that the direction you have chosen and have declared will be our joyous journey to give you glory as we submit to your authority. May we always protect your creation and those created in your image. May we always abide within your abundant love and rest close to your calling word. For only by your son's name and his power do we pray. Amen.

2.a. Notwithstanding the fees prescribed in subparagraph 1., a party instituting a civil action in circuit court relating to real property or mortgage foreclosure shall pay a graduated filing fee based on the value of the claim.

b. A party shall estimate in writing the amount in controversy of the claim upon filing the action. For purposes of this subparagraph, the value of a mortgage foreclosure action is based upon the principal due on the note secured by the mortgage, plus interest owed on the note and any moneys advanced by the lender for property taxes, insurance, and other advances secured by the mortgage, at the time of filing the foreclosure. The value shall also include the value of any tax certificates related to the property. In stating the value of a mortgage foreclosure claim, a party shall declare in writing the total value of the claim, as well as the individual elements of the value as prescribed in this subparagraph.

c. In its order providing for the final disposition of the matter, the court shall identify the actual value of the claim. The clerk shall adjust the filing fee if there is a difference between the estimated amount in controversy and the actual value of the claim and collect any additional filing fee owed or provide a refund of excess filing fee paid.

d. The party shall pay a filing fee of:

(I) Three hundred and ninety-five dollars in all cases in which the value of the claim is \$50,000 or less and in which there are not more than five defendants. The party shall pay an additional filing fee of up to \$2.50 for each defendant in excess of five. Of the first \$200 in filing fees, \$195 must be remitted by the clerk to the Department of Revenue for deposit into the General Revenue Fund, \$4 must be remitted to the Department of Revenue for deposit into the Administrative Trust Fund within the Department of Financial Services and used to fund the contract with the Florida Clerks of Court Operations Corporation created in s. 28.35, and \$1 must be remitted to the Department of Revenue for deposit into the Administrative Trust Fund within the Department of Financial Services to fund audits of individual clerks' court-related expenditures conducted by the Department of Financial Services;

The party shall pay an additional filing fee of up to \$2.50 for each defendant in excess of five. Of the first \$705 in filing fees, \$700 must be remitted by the clerk to the Department of Revenue for deposit into the General Revenue Fund, except that the first \$1.5 million in such filing fees remitted to the Department of Revenue and deposited into the General Revenue Fund in fiscal year 2018-2019 shall be distributed to the Miami-Dade County Clerk of Court; \$4 must be remitted to the Department of Revenue for deposit into the Administrative Trust Fund within the Department of Financial Services and used to fund the contract with the Florida Clerks of Court Operations Corporation created in s. 28.35; and \$1 must be remitted to the Department of Revenue for deposit into the Administrative Trust Fund within the Department of Financial Services to fund audits of individual clerks' court-related expenditures conducted by the Department of Financial Services; or

(III) One thousand nine hundred dollars in all cases in which the value of the claim is \$250,000 or more and in which there are not more than five defendants. An additional filing fee of up to \$18 shall be paid by the party seeking each severance that is granted. The clerk may impose an additional filing fee of up to \$85 for all proceedings of garnishment, attachment, replevin, and distress. Postal charges incurred by the clerk of the circuit court in making service by certified or registered mail on defendants or other parties shall be paid by the party at whose instance service is made. Additional fees, charges, or costs may not be added to the filing fees imposed under this section, except as authorized in this section or by general law.

(b) A party reopening any civil action, suit, or proceeding in the circuit court shall pay to the clerk of court a filing fee set by the clerk in an amount not to exceed \$50. For purposes of this section, a case is reopened after all appeals have been exhausted or time to file an appeal from a final order or final judgment has expired. A reopen fee may be assessed by the clerk for any motion filed by any party at least 90 days after a final order or final judgment has been filed with the clerk in the initial case. A reservation of jurisdiction by a court does not cause a case to remain open for purposes of this section or exempt a party from paying a reopen fee. A party is exempt from paying the fee for any of the following:

2. A writ of replevin;
3. A distress writ;

If the party is determined to be indigent, the clerk shall defer payment of the fee *otherwise required by this subsection.*

The clerks of the circuit court and county court shall provide claim value data and necessary case event data to the office to be used in development of the report. The report must also include a review of fees to ensure that the court system is adequately funded and a review of the appellate jurisdiction of the district courts and the circuit courts, including the use of appellate panels by circuit courts.

Section 6. Effective July 1, 2020, paragraphs (a) and (c) of subsection (7) of section 553.73, Florida Statutes, are amended to read:

553.73 Florida Building Code.—

(7)(a) The commission shall adopt an updated Florida Building Code every 3 years through review of the most current updates of the International Building Code, the International Fuel Gas Code, International Existing Building Code, the International Mechanical Code, the International Plumbing Code, and the International Residential Code, all of which are copyrighted and published by the International Code Council, and the National Electrical Code, which is copyrighted and published by the National Fire Protection Association. At a minimum, the commission shall adopt any updates to such codes or any other code necessary to maintain eligibility for federal funding and discounts from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development. The commission shall also review and adopt updates based on the International Energy Conservation Code (IECC); however, the commission shall maintain the efficiencies of the Florida Energy Efficiency Code for Building Construction adopted and amended

pursuant to s. 553.901. *Every 3 years, the commission may approve updates to the Florida Building Code without a finding that the updates are needed in order to accommodate the specific needs of this state. The commission shall adopt updated codes by rule.*

(c) The commission may *also* adopt as a technical amendment to the Florida Building Code any portion of the codes identified in paragraph (a), but only as needed to accommodate the specific needs of this state. Standards or criteria adopted from these codes shall be incorporated by reference to the specific provisions adopted. If a referenced standard or criterion requires amplification or modification to be appropriate for use in this state, only the amplification or modification shall be set forth in the Florida Building Code. The commission may approve technical amendments to the updated Florida Building Code after the amendments have been subject to the conditions set forth in paragraphs (3)(a)-(d). Amendments that are adopted in accordance with this subsection shall be clearly marked in printed versions of the Florida Building Code so that the fact that the provisions are amendments is readily apparent.

Section 7. Subsection (7) of section 553.80, Florida Statutes, is amended to read:

553.80 Enforcement.—

(7) The governing bodies of local governments may provide a schedule of reasonable fees, as authorized by s. 125.56(2) or s. 166.222 and this section, for enforcing this part. These fees, and any fines or investment earnings related to the fees, shall be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code. When providing a schedule of reasonable fees, the total estimated annual revenue derived from fees, and the fines and investment earnings related to the fees, may not exceed the total estimated annual costs of allowable activities. Any unexpended balances shall be carried forward to future years for allowable activities or shall be refunded at the discretion of the local government. *A local government may not carry forward an amount exceeding the average of its operating budget for enforcing the Florida Building Code for the previous 4 fiscal years. For purposes of this subsection, the term "operating budget" does not include reserve amounts. Any amount exceeding this limit must be used as authorized in subparagraph (a)2. However, a local government which established, as of January 1, 2019, a Building Inspections Fund Advisory Board consisting of five members from the construction stakeholder community and carries an unexpended balance in excess of the average of its operating budget for the previous 4 fiscal years may continue to carry such excess funds forward upon the recommendation of the advisory board.* The basis for a fee structure for allowable activities shall relate to the level of service provided by the local government and shall include consideration for refunding fees due to reduced services based on services provided as prescribed by s. 553.791, but not provided by the local government. Fees charged shall be consistently applied.

(a)1. As used in this subsection, the phrase "enforcing the Florida Building Code" includes the direct costs and reasonable indirect costs associated with review of building plans, building inspections, re-inspections, and building permit processing; building code enforcement; and fire inspections associated with new construction. The phrase may also include training costs associated with the enforcement of the Florida Building Code and enforcement action pertaining to unlicensed contractor activity to the extent not funded by other user fees.

2. *A local government must use any excess funds that it is prohibited from carrying forward to rebate and reduce fees.*

(b) The following activities may not be funded with fees adopted for enforcing the Florida Building Code:

1. Planning and zoning or other general government activities.
2. Inspections of public buildings for a reduced fee or no fee.
3. Public information requests, community functions, boards, and any program not directly related to enforcement of the Florida Building Code.
4. Enforcement and implementation of any other local ordinance, excluding validly adopted local amendments to the Florida Building Code and excluding any local ordinance directly related to enforcing the Florida Building Code as defined in paragraph (a).

5. *Charging surcharges or other similar fees not directly related to enforcing the Florida Building Code.*

(c) A local government shall use recognized management, accounting, and oversight practices to ensure that fees, fines, and investment earnings generated under this subsection are maintained and allocated or used solely for the purposes described in paragraph (a).

(d) The local enforcement agency, independent district, or special district may not require at any time, including at the time of application for a permit, the payment of any additional fees, charges, or expenses associated with:

1. Providing proof of licensure pursuant to chapter 489;
2. Recording or filing a license issued pursuant to this chapter; or
3. Providing, recording, or filing evidence of workers' compensation insurance coverage as required by chapter 440.

(e) *The governing body of a local government that issues building permits may charge a person only one search fee, in an amount commensurate with the research and time costs incurred by the governing body, for identifying building permits for each unit or subunit assigned by the governing body to a particular tax parcel identification number.*

Section 8. Paragraph (a) of subsection (8) of section 553.842, Florida Statutes, is amended to read:

553.842 Product evaluation and approval.—

Such proof of compensation must be evidenced by a certificate of coverage issued by the carrier, a valid exemption certificate approved by the department, or a copy of the employer's authority to self-insure and shall be presented, electronically or physically, each time the employer applies for a building permit. As provided in s. 553.79(20) ~~s. 553.79(19)~~, for the purpose of inspection and record retention, site plans or building permits may be maintained at the worksite in the original form or in the form of an electronic copy. These plans and permits must be open to inspection by the building official or a duly authorized representative, as required by the Florida Building Code. As provided in s. 627.413(5), each certificate of coverage must show, on its face, whether or not coverage is secured under the minimum premium provisions of rules adopted by rating organizations licensed pursuant to s. 627.221.  - 2. *A term of at least 12 months, but not more than 60 months, for a loan with a principal balance upon origination of more than \$3,000.*

 - 3. *The borrower was never delinquent for more than 7 days on a previous program loan.*

(d) *A program loan may not impose a prepayment penalty. A program loan must be repayable by the borrower in substantially equal, periodic installments, except that the final payment may be less than the amount of the prior installments. Installments must be due either every 2 weeks, semimonthly, or monthly.*

(e) *A program loan must include a borrower's right to rescind the program loan by notifying the program licensee of the borrower's intent to rescind the program loan and returning the principal advanced by the end of the business day after the day the program loan is consummated.*

In determining compliance with the maximum annual interest rates in this paragraph, the computations used must be simple interest through the application of a daily periodic rate to the actual unpaid principal balance each day and may not be added-on interest or any other computations.*

(g) *If two or more interest rates are applied to the principal amount of a program loan, the program licensee may charge, contract for, and receive interest at that single annual percentage rate that, if applied according to the actuarial method to each of the scheduled periodic balances of principal, would produce at maturity the same total amount of interest as would result from the application of the two or more rates otherwise permitted, based upon the assumption that all payments are made as agreed.*

(h) *The program licensee shall reduce the interest rates specified in paragraph (f) on each subsequent program loan to the same borrower by a minimum of 1 percent, up to a maximum of 6 percent, if all of the following conditions are met:*

- 2. *The borrower was never more than 15 days delinquent on the prior program loan.*
- 3. *The prior program loan was outstanding for at least one-half of its original term before its repayment.*

(i) *The program licensee may not induce or permit any person to become obligated to the program licensee, directly or contingently, or both, under more than one program loan at the same time with the program licensee.*

(j) *The program licensee may not refinance a program loan unless all of the following conditions are met at the time the borrower submits an application to refinance:*

- 1. *The principal amount payable may not include more than 60 days' unpaid interest accrued on the previous program loan pursuant to s. 516.031(5).*

- 4. *The borrower is current on payments for his or her existing program loan.*

(k) *In lieu of the provisions of s. 687.08, the program licensee or, if applicable, its approved access partner shall make available to the borrower by electronic or physical means a plain and complete receipt of*

payment at the time that a payment is made by the borrower. For audit purposes, the program licensee must maintain an electronic record for each receipt made available to a borrower, which must include a copy of the receipt and the date and time that the receipt was generated. (2) **WRITTEN DISCLOSURES AND STATEMENTS.—**

(a) Notwithstanding s. 516.15(1), the loan contract and all written disclosures and statements may be provided by a program licensee to a borrower in English or in the language in which the loan is negotiated.

(b) The program licensee shall provide to a borrower all the statements required of licensees under s. 516.15.

(3) **ORIGINATION FEES.—**Notwithstanding s. 516.031, a program licensee may:

(a) Contract for and receive an origination fee from a borrower on a program loan. The program licensee may either deduct the origination fee from the principal amount of the loan disbursed to the borrower or capitalize the origination fee into the principal balance of the loan. The origination fee is fully earned and nonrefundable immediately upon the making of the program loan and may not exceed the lesser of 6 percent of the principal amount of the program loan made to the borrower, exclusive of the origination fee, or \$90.

The program licensee, or any wholly owned subsidiary of the program licensee, may not sell or assign an unpaid debt to an independent third

party for collection purposes unless the debt has been delinquent for at least 30 days.

(5) **CREDIT EDUCATION.—**Before disbursement of program loan proceeds to the borrower, the program licensee must:

(a) Direct the borrower to the consumer credit counseling services offered by an independent third party; or

(b) Provide a credit education program or seminar to the borrower. The borrower is not required to participate in such education program or seminar. A credit education program or seminar offered pursuant to this paragraph must be provided at no cost to the borrower.

(6) **CREDIT REPORTING.—**

(a) For a borrower who did have a credit score at the time of the borrower's loan application, the program licensee shall report each such borrower's payment performance to at least one consumer reporting agency. For a borrower who did not have a credit score at the time of the borrower's loan application, the program licensee shall report each such borrower's payment performance to at least two consumer reporting agencies.

(b) The office may not approve an applicant for the program license before the applicant has been accepted as a data furnisher by a consumer reporting agency.

(c) The program licensee shall provide each borrower with the name or names of the consumer reporting agency or agencies to which it will report the borrower's payment history.

(7) **PROGRAM LOAN UNDERWRITING.—**

(a) The program licensee must underwrite each program loan to determine a borrower's ability and willingness to repay the program loan pursuant to the program loan terms. The program licensee may not make a program loan if it determines that the borrower's total monthly debt service payments at the time of origination, including the program loan for which the borrower is being considered and all outstanding forms of credit that can be independently verified by the program licensee, exceed 50 percent of the borrower's gross monthly income for a loan of not more than \$3,000, or exceed 36 percent of the borrower's gross monthly income for a loan of more than \$3,000.

(b)1. The program licensee must seek information and documentation pertaining to all of a borrower's outstanding debt obligations during the loan application and underwriting process, including loans that are self-reported by the borrower but not available through independent verification. The program licensee must verify such information using a credit report from at least one consumer reporting agency or through other available electronic debt verification services that provide reliable evidence of a borrower's outstanding debt obligations.

2. The program licensee is not required to consider loans made to a borrower by friends or family in determining the borrower's debt-to-income ratio.

(c) The program licensee must verify the borrower's income to determine the debt-to-income ratio using information from:

1. Electronic means or services that provide reliable evidence of the borrower's actual income; or
2. The Internal Revenue Service Form W-2, tax returns, payroll receipts, bank statements, or other third-party documents that provide reasonably reliable evidence of the borrower's actual income.

(8) **WAIVERS.—**

(a) A program licensee may not require, as a condition of providing the program loan, that the borrower:

1. Waive any right, penalty, remedy, forum, or procedure provided for in any law applicable to the program loan, including the right to file and pursue a civil action or file a complaint with or otherwise communicate with the office, a court, or any other governmental entity.
2. Agree to the application of laws other than those of this state.

3. Agree to resolve disputes in a jurisdiction outside of this state.

(b) A waiver that is required as a condition of doing business with the program licensee is presumed involuntary, unconscionable, against public policy, and unenforceable.

(c) A program licensee may not refuse to do business with or discriminate against a borrower or an applicant on the basis of the borrower's or applicant's refusal to waive any right, penalty, remedy, forum, or procedure, including the right to file and pursue a civil action or complaint with, or otherwise communicate with, the office, a court, or any other governmental entity. The exercise of a person's right to refuse to waive any right, penalty, remedy, forum, or procedure, including a rejection of a contract requiring a waiver, does not affect any otherwise legal terms of a contract or an agreement.

(d) This subsection does not apply to any agreement to waive any right, penalty, remedy, forum, or procedure, including any agreement to arbitrate a claim or dispute after a claim or dispute has arisen. This subsection does not affect the enforceability or validity of any other provision of the contract.

Senator Lee moved the following amendment:

Amendment 1 (155860) (with title amendment)—Delete everything after the enacting clause and insert:

Section 1. Section 125.01055, Florida Statutes, is amended to read:

125.01055 Affordable housing.—

(1) Notwithstanding any other provision of law, a county may adopt and maintain in effect any law, ordinance, rule, or other measure that is adopted for the purpose of increasing the supply of affordable housing using land use mechanisms such as inclusionary housing ordinances.

(2) *An inclusionary housing ordinance may require a developer to provide a specified number or percentage of affordable housing units to be included in a development or allow a developer to contribute to a housing fund or other alternatives in lieu of building the affordable housing units. However, in exchange, a county must provide incentives to fully offset all costs to the developer of its affordable housing contribution. Such incentives may include, but are not limited to:*

(a) *Allowing the developer density or intensity bonus incentives or more floor space than allowed under the current or proposed future land use designation or zoning;*

(b) *Reducing or waiving fees, such as impact fees or water and sewer charges; or*

(c) *Granting other incentives.*

(3) *Subsection (2) does not apply in an area of critical state concern, as designated in s. 380.0552.*

Section 2. Section 125.022, Florida Statutes, is amended to read:

125.022 Development permits and orders.—

(1) *Within 30 days after receiving an application for approval of a development permit or development order, a county must review the application for completeness and issue a letter indicating that all required information is submitted or specifying with particularity any areas that are deficient. If the application is deficient, the applicant has 30 days to address the deficiencies by submitting the required additional information. Within 120 days after the county has deemed the application complete, or 180 days for applications that require final action through a quasi-judicial hearing or a public hearing, the county must approve, approve with conditions, or deny the application for a development permit or development order. Both parties may agree to a reasonable request for an extension of time, particularly in the event of a force majeure or other extraordinary circumstance. An approval, approval with conditions, or denial of the application for a development permit or development order must include written findings supporting*

the county’s decision. The timeframes contained in this subsection do not apply in an area of critical state concern, as designated in s. 380.0552.

(2)(1) When reviewing an application for a development permit or development order that is certified by a professional listed in s. 403.0877, a county may not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. Before a third request for additional information, the applicant must be offered a meeting to attempt to resolve outstanding issues. Except as provided in subsection (5) (4), if the applicant believes the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the county, at the applicant’s request, shall proceed to process the application for approval or denial.

(3)(2) When a county denies an application for a development permit or development order, the county shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit or order.

(4)(3) As used in this section, the terms ~~term~~ “development permit” and “development order” have ~~has~~ the same meaning as in s. 163.3164, but ~~do does~~ not include building permits.

(5)(4) For any development permit application filed with the county after July 1, 2012, a county may not require as a condition of processing or issuing a development permit or development order that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the county action on the local development permit.

(6)(5) Issuance of a development permit or development order by a county does not in any way create any rights on the part of the applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the county for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A county shall attach such a disclaimer to the issuance of a development permit and shall include a permit condition that all other applicable state or federal permits be obtained before commencement of the development.

(7)(6) This section does not prohibit a county from providing information to an applicant regarding what other state or federal permits may apply.

Section 3. Subsection (3) of section 163.3167, Florida Statutes, is amended to read:

163.3167 Scope of act.—

(3) A municipality established after the effective date of this act shall, within 1 year after incorporation, establish a local planning agency, pursuant to s. 163.3174, and prepare and adopt a comprehensive plan of the type and in the manner set out in this act within 3 years after the date of such incorporation. A county comprehensive plan is ~~shall be deemed~~ controlling until the municipality adopts a comprehensive plan in accordance ~~accord~~ with this act. A comprehensive plan adopted after January 1, 2019, and all land development regulations adopted to implement the comprehensive plan must incorporate each development order existing before the comprehensive plan’s effective date, may not impair the completion of a development in accordance with such existing development order, and must vest the density and intensity approved by such development order existing on the effective date of the comprehensive plan without limitation or modification.

Section 4. Paragraph (i) of subsection (5) and paragraph (h) of subsection (6) of section 163.3180, Florida Statutes, are amended to read:

163.3180 Concurrency.—

(5)

(i) If a local government elects to repeal transportation concurrency, it is encouraged to adopt an alternative mobility funding system that uses one or more of the tools and techniques identified in paragraph (f). Any alternative mobility funding system adopted may not be used to deny, time, or phase an application for site plan approval, plat approval,

final subdivision approval, building permits, or the functional equivalent of such approvals provided that the developer agrees to pay for the development's identified transportation impacts via the funding mechanism implemented by the local government. The revenue from the funding mechanism used in the alternative system must be used to implement the needs of the local government's plan which serves as the basis for the fee imposed. A mobility fee-based funding system must comply with *s. 163.31801 governing the dual rational nexus test applicable to impact fees*. An alternative system that is not mobility fee-based shall not be applied in a manner that imposes upon new development any responsibility for funding an existing transportation deficiency as defined in paragraph (h).

(6)

(h)1. In order to limit the liability of local governments, a local government may allow a landowner to proceed with development of a specific parcel of land notwithstanding a failure of the development to satisfy school concurrency, if all the following factors are shown to exist:

a. The proposed development would be consistent with the future land use designation for the specific property and with pertinent portions of the adopted local plan, as determined by the local government.

b. The local government's capital improvements element and the school board's educational facilities plan provide for school facilities adequate to serve the proposed development, and the local government or school board has not implemented that element or the project includes a plan that demonstrates that the capital facilities needed as a result of the project can be reasonably provided.

c. The local government and school board have provided a means by which the landowner will be assessed a proportionate share of the cost of providing the school facilities necessary to serve the proposed development.

2. If a local government applies school concurrency, it may not deny an application for site plan, final subdivision approval, or the functional equivalent for a development or phase of a development authorizing residential development for failure to achieve and maintain the level-of-service standard for public school capacity in a local school concurrency management system where adequate school facilities will be in place or under actual construction within 3 years after the issuance of final subdivision or site plan approval, or the functional equivalent. School concurrency is satisfied if the developer executes a legally binding commitment to provide mitigation proportionate to the demand for public school facilities to be created by actual development of the property, including, but not limited to, the options described in sub-subparagraph a. Options for proportionate-share mitigation of impacts on public school facilities must be established in the comprehensive plan and the interlocal agreement pursuant to *s. 163.31777*.

a. Appropriate mitigation options include the contribution of land; the construction, expansion, or payment for land acquisition or construction of a public school facility; the construction of a charter school that complies with the requirements of *s. 1002.33(18)*; or the creation of mitigation banking based on the construction of a public school facility in exchange for the right to sell capacity credits. Such options must include execution by the applicant and the local government of a development agreement that constitutes a legally binding commitment to pay proportionate-share mitigation for the additional residential units approved by the local government in a development order and actually developed on the property, taking into account residential density allowed on the property prior to the plan amendment that increased the overall residential density. The district school board must be a party to such an agreement. As a condition of its entry into such a development agreement, the local government may require the landowner to agree to continuing renewal of the agreement upon its expiration.

b. If the interlocal agreement and the local government comprehensive plan authorize a contribution of land; the construction, expansion, or payment for land acquisition; the construction or expansion of a public school facility, or a portion thereof; or the construction of a charter school that complies with the requirements of *s. 1002.33(18)*, as proportionate-share mitigation, the local government shall credit such a contribution, construction, expansion, or payment toward any other impact fee or exaction imposed by local ordinance for public educational facilities ~~the same need~~, on a dollar-for-dollar basis at fair market value.

The credit must be based on the total impact fee assessed and not on the impact fee for any particular type of school.

c. Any proportionate-share mitigation must be directed by the school board toward a school capacity improvement identified in the 5-year school board educational facilities plan that satisfies the demands created by the development in accordance with a binding developer's agreement.

3. This paragraph does not limit the authority of a local government to deny a development permit or its functional equivalent pursuant to its home rule regulatory powers, except as provided in this part.

Section 5. Section 163.31801, Florida Statutes, is amended to read:

163.31801 Impact fees; short title; intent; minimum requirements; audits; challenges definitions; ordinances levying impact fees.—

(1) This section may be cited as the "Florida Impact Fee Act."

(2) The Legislature finds that impact fees are an important source of revenue for a local government to use in funding the infrastructure necessitated by new growth. The Legislature further finds that impact fees are an outgrowth of the home rule power of a local government to provide certain services within its jurisdiction. Due to the growth of impact fee collections and local governments' reliance on impact fees, it is the intent of the Legislature to ensure that, when a county or municipality adopts an impact fee by ordinance or a special district adopts an impact fee by resolution, the governing authority complies with this section.

(3) *At a minimum*, an impact fee adopted by ordinance of a county or municipality or by resolution of a special district must *satisfy all of the following conditions, at minimum*:

(a) ~~Require that~~ The calculation of the impact fee *must* be based on the most recent and localized data.

(b) *The local government must* provide for accounting and reporting of impact fee collections and expenditures. If a local governmental entity imposes an impact fee to address its infrastructure needs, the entity *must* ~~shall~~ account for the revenues and expenditures of such impact fee in a separate accounting fund.

(c) ~~Limit~~ Administrative charges for the collection of impact fees *must be limited* to actual costs.

(d) *The local government must provide* ~~Require that~~ notice ~~not be provided no~~ less than 90 days before the effective date of an ordinance or resolution imposing a new or increased impact fee. A county or municipality is not required to wait 90 days to decrease, suspend, or eliminate an impact fee.

(e) *Collection of the impact fee may not be required to occur earlier than the date of issuance of the building permit for the property that is subject to the fee.*

(f) *The impact fee must be proportional and reasonably connected to, or have a rational nexus with, the need for additional capital facilities and the increased impact generated by the new residential or commercial construction.*

(g) *The impact fee must be proportional and reasonably connected to, or have a rational nexus with, the expenditures of the funds collected and the benefits accruing to the new residential or nonresidential construction.*

(h) *The local government must specifically earmark funds collected under the impact fee for use in acquiring, constructing, or improving capital facilities to benefit new users.*

(i) *Revenues generated by the impact fee may not be used, in whole or in part, to pay existing debt or for previously approved projects unless the expenditure is reasonably connected to, or has a rational nexus with, the increased impact generated by the new residential or nonresidential construction.*

(4) *The local government must credit against the collection of the impact fee any contribution, whether identified in a proportionate share*

agreement or other form of exaction, related to public education facilities, including land dedication, site planning and design, or construction. Any contribution must be applied to reduce any education-based impact fees on a dollar-for-dollar basis at fair market value.

(5) *If a local government increases its impact fee rates, the holder of any impact fee credits, whether such credits are granted under s. 163.3180, s. 380.06, or otherwise, which were in existence before the increase, is entitled to the full benefit of the intensity or density prepaid by the credit balance as of the date it was first established. This subsection shall operate prospectively and not retrospectively.*

(6)(4) Audits of financial statements of local governmental entities and district school boards which are performed by a certified public accountant pursuant to s. 218.39 and submitted to the Auditor General must include an affidavit signed by the chief financial officer of the local governmental entity or district school board stating that the local governmental entity or district school board has complied with this section.

(7)(5) In any action challenging an impact fee or the government's failure to provide required dollar-for-dollar credits for the payment of impact fees as provided in s. 163.3180(6)(h)2.b., the government has the burden of proving by a preponderance of the evidence that the imposition or amount of the fee or credit meets the requirements of state legal precedent and ~~or~~ this section. The court may not use a deferential standard for the benefit of the government.

(8) A county, municipality, or special district may provide an exception or waiver for an impact fee for the development or construction of housing that is affordable, as defined in s. 420.9071. If a county, municipality, or special district provides such an exception or waiver, it is not required to use any revenues to offset the impact.

(9) *This section does not apply to water and sewer connection fees.*

Section 6. Paragraph (j) is added to subsection (2) of section 163.3202, Florida Statutes, to read:

163.3202 Land development regulations.—

(2) Local land development regulations shall contain specific and detailed provisions necessary or desirable to implement the adopted comprehensive plan and shall at a minimum:

(j) *Incorporate preexisting development orders identified pursuant to s. 163.3167(3).*

Section 7. Section 166.033, Florida Statutes, is amended to read:

166.033 Development permits and orders.—

(1) *Within 30 days after receiving an application for approval of a development permit or development order, a municipality must review the application for completeness and issue a letter indicating that all required information is submitted or specifying with particularity any areas that are deficient. If the application is deficient, the applicant has 30 days to address the deficiencies by submitting the required additional information. Within 120 days after the municipality has deemed the application complete, or 180 days for applications that require final action through a quasi-judicial hearing or a public hearing, the municipality must approve, approve with conditions, or deny the application for a development permit or development order. Both parties may agree to a reasonable request for an extension of time, particularly in the event of a force majeure or other extraordinary circumstance. An approval, approval with conditions, or denial of the application for a development permit or development order must include written findings supporting the municipality's decision. The timeframes contained in this subsection do not apply in an area of critical state concern, as designated in s. 380.0552 or chapter 28-36, Florida Administrative Code.*

(2)(4) When reviewing an application for a development permit or development order that is certified by a professional listed in s. 403.0877, a municipality may not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. Before a third request for additional information, the applicant must be offered a meeting to attempt to resolve outstanding issues. Except as provided in subsection (5) (4), if the applicant believes the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the municipality, at

the applicant's request, shall proceed to process the application for approval or denial.

(3)(2) When a municipality denies an application for a development permit or development order, the municipality shall give written notice to the applicant. The notice must include a citation to the applicable portions of an ordinance, rule, statute, or other legal authority for the denial of the permit or order.

(4)(3) As used in this section, the terms ~~term~~ "development permit" and "development order" have ~~has~~ the same meaning as in s. 163.3164, but do ~~does~~ not include building permits.

(5)(4) For any development permit application filed with the municipality after July 1, 2012, a municipality may not require as a condition of processing or issuing a development permit or development order that an applicant obtain a permit or approval from any state or federal agency unless the agency has issued a final agency action that denies the federal or state permit before the municipal action on the local development permit.

(6)(5) Issuance of a development permit or development order by a municipality does not ~~in any way~~ create any right on the part of an applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the municipality for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law. A municipality shall attach such a disclaimer to the issuance of development permits and shall include a permit condition that all other applicable state or federal permits be obtained before commencement of the development.

(7)(6) This section does not prohibit a municipality from providing information to an applicant regarding what other state or federal permits may apply.

Section 8. Section 166.04151, Florida Statutes, is amended to read:

166.04151 Affordable housing.—

(1) Notwithstanding any other provision of law, a municipality may adopt and maintain in effect any law, ordinance, rule, or other measure that is adopted for the purpose of increasing the supply of affordable housing using land use mechanisms such as inclusionary housing ordinances.

(2) *An inclusionary housing ordinance may require a developer to provide a specified number or percentage of affordable housing units to be included in a development or allow a developer to contribute to a housing fund or other alternatives in lieu of building the affordable housing units. However, in exchange, a municipality must provide incentives to fully offset all costs to the developer of its affordable housing contribution. Such incentives may include, but are not limited to:*

(a) *Allowing the developer density or intensity bonus incentives or more floor space than allowed under the current or proposed future land use designation or zoning;*

(b) *Reducing or waiving fees, such as impact fees or water and sewer charges; or*

(c) *Granting other incentives.*

(3) *Subsection (2) does not apply in an area of critical state concern, as designated by s. 380.0552 or chapter 28-36, Florida Administrative Code.*

Section 9. This act shall take effect upon becoming a law.

And the title is amended as follows:

Delete everything before the enacting clause and insert: A bill to be entitled An act relating to community development and housing; amending s. 125.01055, F.S.; authorizing an inclusionary housing ordinance to require a developer to provide a specified number or percentage of affordable housing units to be included in a development or allow a developer to contribute to a housing fund or other alternatives; requiring a county to provide certain incentives to fully offset all costs to the developer of its affordable housing contribution; providing applica-

Section 7. Subsection (8) of section 163.3215, Florida Statutes, is amended to read:

163.3215 Standing to enforce local comprehensive plans through development orders.—

(8)(a) In any proceeding under subsection (3), *either party is entitled to the summary procedure provided in s. 51.011, and the court shall advance the cause on the calendar, subject to paragraph (b) or subsection (4), the Department of Legal Affairs may intervene to represent the interests of the state.*

(b) *Upon a showing by either party by clear and convincing evidence that summary procedure is inappropriate, the court may determine that summary procedure does not apply.*

(c) *The prevailing party in a challenge to a development order filed under subsection (3) is entitled to recover reasonable attorney fees and costs incurred in challenging or defending the order, including reasonable appellate attorney fees and costs.*

And the title is amended as follows:

Senator Flores moved the following amendment to **Amendment 1 (155860)** which was adopted:

Amendment 1B (518504) (with title amendment)—Between lines 413 and 414 insert:

Section 9. Subsection (8) of section 420.502, Florida Statutes, is amended to read:

420.502 Legislative findings.—It is hereby found and declared as follows:

(8)(a) It is necessary to create new programs to stimulate the construction and substantial rehabilitation of rental housing for eligible persons and families.

(b) *It is necessary to create a state housing finance strategy to provide affordable workforce housing opportunities to essential services personnel in areas of critical state concern designated under s. 380.05, for which the Legislature has declared its intent to provide affordable housing, and areas that were designated as areas of critical state concern for at least 20 consecutive years before removal of the designation. The lack of affordable workforce housing has been exacerbated by the dwindling availability of developable land, environmental constraints, rising construction and insurance costs, and the shortage of lower-cost housing units. As this state's population continues to grow, essential services personnel vital to the economies of areas of critical state concern are unable to live in the communities where they work, creating transportation congestion and hindering their quality of life and community engagement.*

Section 10. Present subsections (18) through (42) of section 420.503, Florida Statutes, are redesignated as subsections (19) through (43), respectively, a new subsection (18) is added to that section, and subsection (15) of that section is amended, to read:

420.503 Definitions.—As used in this part, the term:

(15) “Elderly” means persons 62 years of age or older; however, this definition does not prohibit housing from being deemed housing for the elderly as defined in subsection (20) ~~(19)~~ if such housing otherwise meets the requirements of subsection (20) ~~(19)~~.

(18) “Essential services personnel” means natural persons or families whose total annual household income is at or below 120 percent of the area median income, adjusted for household size, and at least one of whom is employed as police or fire personnel, a child care worker, a teacher or other education personnel, health care personnel, a public employee, or a service worker.

Section 11. Subsection (3) of section 420.5095, Florida Statutes, is amended to read:

420.5095 Community Workforce Housing Innovation Pilot Program.—

(3) For purposes of this section, the term:

(a) “Workforce housing” means housing affordable to natural persons or families whose total annual household income does not exceed 140 percent of the area median income, adjusted for household size, or 150 percent of area median income, adjusted for household size, in areas of critical state concern designated under s. 380.05, for which the Legislature has declared its intent to provide affordable housing, and areas that were designated as areas of critical state concern for at least 20 consecutive years prior to removal of the designation.

(b) ~~“Essential services personnel” means persons in need of affordable housing who are employed in occupations or professions in which they are considered essential services personnel, as defined by each county and eligible municipality within its respective local housing assistance plan pursuant to s. 420.9075(3)(a).~~

(e) “Public-private partnership” means any form of business entity that includes substantial involvement of at least one county, one municipality, or one public sector entity, such as a school district or other unit of local government in which the project is to be located, and at least one private sector for-profit or not-for-profit business or charitable entity, and may be any form of business entity, including a joint venture or contractual agreement.

And the title is amended as follows:

Between lines 493 and 494 insert: amending s. 420.502, F.S.; revising legislative findings for a certain state housing finance strategy; amending s. 420.503, F.S.; conforming cross-references; defining the term “essential services personnel”; amending s. 420.5095, F.S.; deleting the definition of the term “essential services personnel”;

Senator Lee moved the following amendments to **Amendment 1 (155860)** which were adopted:

Amendment 1C (113718) (with title amendment)—Between lines 413 and 414 insert:

Section 9. Paragraph (a) of subsection (1) of section 252.363, Florida Statutes, is amended to read:

252.363 Tolling and extension of permits and other authorizations.—

(1)(a) The declaration of a state of emergency *issued* by the Governor *for a natural emergency* tolls the period remaining to exercise the rights under a permit or other authorization for the duration of the emergency declaration. Further, the emergency declaration extends the period remaining to exercise the rights under a permit or other authorization for 6 months in addition to the tolled period. This paragraph applies to the following:

1. The expiration of a development order issued by a local government.
2. The expiration of a building permit.
3. The expiration of a permit issued by the Department of Environmental Protection or a water management district pursuant to part IV of chapter 373.
4. The buildout date of a development of regional impact, including any extension of a buildout date that was previously granted as specified in s. 380.06(7)(c).

And the title is amended as follows:

Between lines 493 and 494 insert: amending s. 252.363, F.S.; providing that the declaration of a state of emergency issued by the Governor for a natural emergency tolls the period remaining to exercise the rights under a permit or other authorization for the duration of the emergency declaration;

Amendment 1D (465196) (with title amendment)—Between lines 413 and 414 insert:

Section 9. Subsection (1), paragraph (b) of subsection (2), and subsections (4) through (7) and (18) of section 553.791, Florida Statutes, are amended to read:

553.791 Alternative plans review and inspection.—

(1) As used in this section, the term:

(a) “Applicable codes” means the Florida Building Code and any local technical amendments to the Florida Building Code but does not include the applicable minimum fire prevention and firesafety codes adopted pursuant to chapter 633.

(b) “Audit” means the process to confirm that the building code inspection services have been performed by the private provider, including ensuring that the required affidavit for the plan review has been properly completed and affixed to the permit documents and that the minimum mandatory inspections required under the building code have been performed and properly recorded. ~~The term does not mean that the~~

local building official ~~may not be required to~~ replicate the plan review or inspection being performed by the private provider, *unless expressly authorized by this section*.

(c) “Building” means any construction, erection, alteration, demolition, or improvement of, or addition to, any structure *or site work* for which permitting by a local enforcement agency is required.

(d) “Building code inspection services” means those services described in s. 468.603(5) and (8) involving the review of building plans *as well as those services involving the review of site plans and site work engineering plans or their functional equivalent*, to determine compliance with applicable codes and those inspections required by law of each phase of construction for which permitting by a local enforcement agency is required to determine compliance with applicable codes.

(e) “Duly authorized representative” means an agent of the private provider identified in the permit application who reviews plans or performs inspections as provided by this section and who is licensed as an engineer under chapter 471 or as an architect under chapter 481 or who holds a standard certificate under part XII of chapter 468.

(f) “Immediate threat to public safety and welfare” means a building code violation that, if allowed to persist, constitutes an immediate hazard that could result in death, serious bodily injury, or significant property damage. This paragraph does not limit the authority of the local building official to issue a Notice of Corrective Action at any time during the construction of a building project or any portion of such project if the official determines that a condition of the building or portion thereof may constitute a hazard when the building is put into use following completion as long as the condition cited is shown to be in violation of the building code or approved plans.

(g) “Local building official” means the individual within the governing jurisdiction responsible for direct regulatory administration or supervision of plans review, enforcement, and inspection of any construction, erection, alteration, demolition, or substantial improvement of, or addition to, any structure for which permitting is required to indicate compliance with applicable codes and includes any duly authorized designee of such person.

(h) “Permit application” means a properly completed and submitted application for the requested building or construction permit, including:

1. The plans reviewed by the private provider.
2. The affidavit from the private provider required under subsection (6).
3. Any applicable fees.
4. Any documents required by the local building official to determine that the fee owner has secured all other government approvals required by law.

(i) “Plans” means *building plans, site engineering plans, or site plans, or their functional equivalent, submitted by a fee owner or fee owner’s contractor to a private provider or duly authorized representative for review*.

(j)(4) “Private provider” means a person licensed as a building code administrator under part XII of chapter 468, as an engineer under chapter 471, or as an architect under chapter 481. For purposes of performing inspections under this section for additions and alterations that are limited to 1,000 square feet or less to residential buildings, the term “private provider” also includes a person who holds a standard certificate under part XII of chapter 468.

(k)(4) “Request for certificate of occupancy or certificate of completion” means a properly completed and executed application for:

1. A certificate of occupancy or certificate of completion.
2. A certificate of compliance from the private provider required under subsection (11).
3. Any applicable fees.

4. Any documents required by the local building official to determine that the fee owner has secured all other government approvals required by law.

(l) *“Site work” means the portion of a construction project that is not part of the building structure, including, but not limited to, grading, excavation, landscape irrigation, and installation of driveways.*

(m) ~~(k)~~ *“Stop-work order” means the issuance of any written statement, written directive, or written order which states the reason for the order and the conditions under which the cited work will be permitted to resume.*

(2)

(b) It is the intent of the Legislature that owners and contractors ~~pay reduced fees not be required to pay extra costs~~ related to building permitting requirements when hiring a private provider for plans review and building inspections. A local jurisdiction must calculate the cost savings to the local enforcement agency, based on a fee owner or contractor hiring a private provider to perform plans reviews and building inspections in lieu of the local building official, and reduce the permit fees accordingly. *The local jurisdiction may not charge fees for building inspections if the fee owner or contractor hires a private provider; however, the local jurisdiction may charge a reasonable administrative fee.*

(4) A fee owner or the fee owner's contractor using a private provider to provide building code inspection services shall notify the local building official at the time of permit application, or by 2 p.m. local time, 2 ~~no less than 7~~ business days before prior to the first scheduled inspection by the local building official or building code enforcement agency for a private provider performing required inspections of construction under this section, on a form to be adopted by the commission. This notice shall include the following information:

(a) The services to be performed by the private provider.

(b) The name, firm, address, telephone number, and facsimile number of each private provider who is performing or will perform such services, his or her professional license or certification number, qualification statements or resumes, and, if required by the local building official, a certificate of insurance demonstrating that professional liability insurance coverage is in place for the private provider's firm, the private provider, and any duly authorized representative in the amounts required by this section.

(c) An acknowledgment from the fee owner in substantially the following form:

I have elected to use one or more private providers to provide building code plans review and/or inspection services on the building or structure that is the subject of the enclosed permit application, as authorized by s. 553.791, Florida Statutes. I understand that the local building official may not review the plans submitted or perform the required building inspections to determine compliance with the applicable codes, except to the extent specified in said law. Instead, plans review and/or required building inspections will be performed by licensed or certified personnel identified in the application. The law requires minimum insurance requirements for such personnel, but I understand that I may require more insurance to protect my interests. By executing this form, I acknowledge that I have made inquiry regarding the competence of the licensed or certified personnel and the level of their insurance and am satisfied that my interests are adequately protected. I agree to indemnify, defend, and hold harmless the local government, the local building official, and their building code enforcement personnel from any and all claims arising from my use of these licensed or certified personnel to perform building code inspection services with respect to the building or structure that is the subject of the enclosed permit application.

If the fee owner or the fee owner's contractor makes any changes to the listed private providers or the services to be provided by those private providers, the fee owner or the fee owner's contractor shall, within 1 business day after any change, update the notice to reflect such changes. A change of a duly authorized representative named in the permit application does not require a revision of the permit, and the building

code enforcement agency shall not charge a fee for making the change. In addition, the fee owner or the fee owner's contractor shall post at the project site, before prior to the commencement of construction and updated within 1 business day after any change, on a form to be adopted by the commission, the name, firm, address, telephone number, and facsimile number of each private provider who is performing or will perform building code inspection services, the type of service being performed, and similar information for the primary contact of the private provider on the project.

718.112 Bylaws.—

(2) **REQUIRED PROVISIONS.**—The bylaws shall provide for the following and, if they do not do so, shall be deemed to include the following:

(l) *Firesafety.*—*An association must ensure reasonable compliance with the Florida Fire Prevention Code. For purposes of this paragraph, the term “reasonable compliance” means the ability to select an alternative solution to ensure that the property meets the level of fire safety required by the Florida Fire Prevention Code. As to a residential condominium building that is a high-rise building as defined under the Florida Fire Prevention Code, the association may either retrofit a fire sprinkler system or an engineered life safety system as specified in the Florida Fire Prevention Code. Certificate of compliance. A provision that a certificate of compliance from a licensed electrical contractor or electrician may be accepted by the association's board as evidence of compliance of the condominium units with the applicable fire and life safety code must be included.* Notwithstanding chapter 633 or of any other code, statute, ordinance, administrative rule, or regulation, or any interpretation of the foregoing, an association, residential condominium, or unit owner is not obligated to retrofit the common elements, association property, or units of a residential condominium with a fire sprinkler system or an engineered life safety system in a building that has been certified for occupancy by the applicable governmental entity if the unit owners have voted to forego such retrofitting by the affirmative vote of ~~two-thirds a majority~~ of all voting interests in the affected condominium. The local authority having jurisdiction may not require completion of retrofitting with a fire sprinkler system or an engineered life safety system before January 1, 2024 ~~2020. By December 31, 2016, a residential condominium association that is not in compliance with the requirements for a fire sprinkler system and has not voted to forego retrofitting of such a system must initiate an application for a building permit for the required installation with the local government having jurisdiction demonstrating that the association will become compliant by December 31, 2019.~~

1. A vote to forego retrofitting may be obtained by limited proxy or by a ballot personally cast at a duly called membership meeting, or by execution of a written consent by the member, and is effective upon

recording a certificate attesting to such vote in the public records of the county where the condominium is located. The association shall mail or hand deliver to each unit owner written notice at least 14 days before the membership meeting in which the vote to forego retrofitting of the required fire sprinkler system or engineered life safety system is to take place. Within 30 days after the association's opt-out vote, notice of the results of the opt-out vote must be mailed or hand delivered to all unit owners. Evidence of compliance with this notice requirement must be made by affidavit executed by the person providing the notice and filed among the official records of the association. After notice is provided to each owner, a copy must be provided by the current owner to a new owner before closing and by a unit owner to a renter before signing a lease.

2. If there has been a previous vote to forego retrofitting, a vote to require retrofitting may be obtained at a special meeting of the unit owners called by a petition of at least 10 percent of the voting interests. Such a vote may only be called once every 3 years. Notice shall be provided as required for any regularly called meeting of the unit owners, and must state the purpose of the meeting. Electronic transmission may not be used to provide notice of a meeting called in whole or in part for this purpose.

3. As part of the information collected annually from condominiums, the division shall require condominium associations to report the membership vote and recording of a certificate under this subsection and, if retrofitting has been undertaken, the per-unit cost of such work. The division shall annually report to the Division of State Fire Marshal of the Department of Financial Services the number of condominiums that have elected to forego retrofitting.

4. Notwithstanding s. 553.509, a residential association may not be obligated to, and may forego the retrofitting of, any improvements required by s. 553.509(2) upon an affirmative vote of a majority of the voting interests in the affected condominium.

5. *This paragraph does not apply to timeshare condominium associations, which shall be governed by s. 721.24.*

And the title is amended as follows:

Between lines 493 and 494 insert: amending s. 718.112, F.S.; requiring that condominium association bylaws provide requirements for the association's reasonable compliance with the Florida Fire Prevention Code; defining the term “reasonable compliance”; specifying authorized means of compliance for certain residential condominiums; deleting a requirement for association bylaws to contain a certain certificate of compliance provision; revising unit and common elements required to be retrofitted; revising provisions relating to an association vote to forego retrofitting; extending the date before which a local authority having jurisdiction may not require completion of a condominium's retrofitting with a fire sprinkler system or an engineered life safety system; providing applicability;

Section 2. Subsections (3) and (4) of section 316.515, Florida Statutes, are amended, and subsection (16) is added to that section, to read:

316.515 Maximum width, height, length.—

(3) LENGTH LIMITATION.—Except as otherwise provided in this section, length limitations apply solely to a semitrailer or trailer, and not to a truck tractor or to the overall length of a combination of vehicles. No combination of commercial motor vehicles coupled together and operating on the public roads may consist of more than one truck tractor and two trailing units. Unless otherwise specifically provided for in this section, a combination of vehicles not qualifying as commercial motor vehicles may consist of no more than two units coupled together; such nonqualifying combination of vehicles may not exceed a total length of 65 feet, inclusive of the load carried thereon, but exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. Notwithstanding any other provision of this section, a truck tractor-semitrailer combination engaged in the transportation of automobiles or boats may transport motor vehicles or boats on part of the power unit; and, except as may otherwise be mandated under federal law, an automobile or boat transporter semitrailer may not exceed 50 feet in length, exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer. The 50-foot length limitation does not apply to non-stinger-steered automobile or boat transporters that are 65 feet or less in overall length, exclusive of the load carried thereon, ~~or to stinger-steered automobile or boat transporters that are 75 feet or less in overall length, exclusive of the load carried thereon.~~ For purposes of this subsection, a “stinger-steered automobile or boat transporter” is an automobile or boat transporter configured as a semitrailer combination wherein the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit. *Automobile transporters operating under this subsection may backhaul cargo or general freight if the weight of such cargo or freight does not exceed the limits imposed under s. 316.535.* Notwithstanding paragraphs (a) and (b), any straight truck or truck tractor-semitrailer combination engaged in the transportation of horticultural trees may allow the load to extend up to an additional 10 feet beyond the rear of the vehicle, provided ~~the said~~ trees are resting against a retaining bar mounted above the truck bed so that the root balls of the trees rest on the floor and to the front of the truck bed and

the tops of the trees extend up over and to the rear of the truck bed, and provided the overhanging portion of the load is covered with protective fabric.

(a) *Straight trucks.*—A straight truck may not exceed a length of 40 feet in extreme overall dimension, exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. A straight truck may attach a forklift to the rear of the cargo bed, provided the overall combined length of the vehicle and the forklift does not exceed 50 feet. *Except as otherwise provided in this section,* a straight truck may tow no more than one trailer, and the overall length of the truck-trailer combination may not exceed 68 feet, including the load thereon. Notwithstanding any other provisions of this section, a truck-trailer combination engaged in the transportation of boats, or boat trailers whose design dictates a front-to-rear stacking method may not exceed the length limitations of this paragraph exclusive of the load; however, the load may extend up to an additional 6 feet beyond the rear of the trailer.

(b) *Semitrailers.*—

1. A semitrailer operating in a truck tractor-semitrailer combination may not exceed 48 feet in extreme overall outside dimension, measured from the front of the unit to the rear of the unit and the load carried thereon, exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads, unless it complies with subparagraph 2. A semitrailer which exceeds 48 feet in length and is used to transport divisible loads may operate in this state only if issued a permit under s. 316.550 and if such trailer meets the requirements of this chapter relating to vehicle equipment and safety. Except for highways on the tandem trailer truck highway network, public roads deemed unsafe for longer semitrailer vehicles or those roads on which such longer vehicles are determined not to be in the interest of public convenience shall, in conformance with s. 316.006, be restricted by the Department of Transportation or by the local authority to use by semitrailers not exceeding a length of 48 feet, inclusive of the load carried thereon but exclusive of safety and energy conservation devices approved by the department for use on vehicles using public roads. Truck tractor-semitrailer combinations shall be afforded reasonable access to terminals; facilities for food, fuel, repairs, and rest; and points of loading and unloading.

2. A semitrailer which is more than 48 feet but not more than 57 feet in extreme overall outside dimension, as measured pursuant to subparagraph 1., may operate on public roads, except roads on the State Highway System which are restricted by the Department of Transportation or other roads restricted by local authorities, if:

a. The distance between the kingpin or other peg that locks into the fifth wheel of a truck tractor and the center of the rear axle or rear group of axles does not exceed 41 feet, or, in the case of a semitrailer used exclusively or primarily to transport vehicles in connection with motorsports competition events, the distance does not exceed 46 feet from the kingpin to the center of the rear axles; and

b. It is equipped with a substantial rear-end underride protection device meeting the requirements of 49 C.F.R. s. 393.86, “Rear End Protection.”

(c) *Tandem trailer trucks.*—

1. Except for semitrailers and trailers of up to 28 1/2 feet in length which existed on December 1, 1982, and which were actually and lawfully operating on that date, no semitrailer or trailer operating in a truck tractor-semitrailer-trailer combination may exceed a length of 28 feet in extreme overall outside dimension, measured from the front of the unit to the rear of the unit and the load carried thereon, exclusive of safety and energy conservation devices approved by the Department of Transportation for use on vehicles using public roads.

2. Tandem trailer trucks conforming to the weight and size limitations of this chapter and in immediate transit to or from a terminal facility as defined in this chapter may operate on the public roads of this state except for residential neighborhood streets restricted by the Department of Transportation or local jurisdictions. In addition, the Department of Transportation or local jurisdictions may restrict these vehicles from using streets and roads under their maintenance responsibility on the basis of safety and engineering analyses, provided

that the restrictions are consistent with ~~the provisions of~~ this chapter. The Department of Transportation shall develop safety and engineering standards to be used by all jurisdictions when identifying public roads and streets to be restricted from tandem trailer truck operations.

3. Except as otherwise provided in this section, within 5 miles of the Federal National Network for large trucks, tandem trailer trucks shall be afforded access to terminals; facilities for food, fuel, repairs, and rest; and points of loading and unloading.

4. Notwithstanding ~~the provisions of~~ any general or special law to the contrary, all local system tandem trailer truck route review procedures must be consistent with those adopted by the Department of Transportation.

5. Tandem trailer trucks employed as household goods carriers and conforming to the weight and size limitations of this chapter shall be afforded access to points of loading and unloading on the public streets and roads of this state, except for streets and roads that have been restricted from use by such vehicles on the basis of safety and engineering analyses by the jurisdiction responsible for maintenance of the streets and roads.

(d) *Maxi-cube vehicles*.—Maxi-cube vehicles shall be allowed to operate on routes open to tandem trailer trucks under the same conditions applicable to tandem trailer trucks as specified by this section.

(4) **LOAD EXTENSION LIMITATION**.—The load upon any vehicle operated alone, or the load upon the front vehicle of a combination of vehicles, may not extend more than 3 feet beyond the front wheels of the vehicle or the front bumper of the vehicle if it is equipped with a bumper. *However, the load upon any stinger-steered automobile transporter may not extend more than 4 feet beyond the front bumper of the vehicle.*

(a) The limitations of this subsection do not apply to bicycle racks carrying bicycles on public sector transit vehicles.

(b) ~~The provisions of~~ This subsection *does shall* not apply to a front-end loading collection vehicle, when:

1. The front-end loading mechanism and container or containers are in the lowered position;
2. The vehicle is engaged in collecting solid waste or recyclable or recovered materials;
3. The vehicle is being operated at speeds less than 20 miles per hour with the vehicular hazard-warning lights activated; and
4. The extension does not exceed 8 feet 6 inches.

(16) **TOWAWAY TRAILER TRANSPORTER COMBINATIONS**.—*An unladen power unit may tow two trailers or semitrailers when the combination is not used to carry property, the overall combination length does not exceed 82 feet, and the total gross weight of the combination does not exceed 26,000 pounds. The trailers or semitrailers must constitute inventory property of a manufacturer, distributor, or dealer of such trailers or semitrailers.*

Section 3. Paragraph (c) of subsection (3) of section 316.545, Florida Statutes, is amended to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(3)

(c)1. For a vehicle fueled by natural gas *or electric batteries*, the fine is calculated by reducing the actual gross vehicle weight by the certified weight difference between the natural gas tank *or electric battery system* and fueling system and a comparable diesel tank and fueling system. Upon request by any weight inspector or law enforcement officer, the vehicle operator must present written certification that identifies the weight of the natural gas tank *or electric battery system* and fueling system and the difference in weight of a comparable diesel tank and fueling system. The written certification must originate from the vehicle manufacturer or the installer of the natural gas tank *or electric battery system* and fueling system.

2. The actual gross vehicle weight for vehicles fueled by natural gas *or electric batteries* may not exceed 82,000 pounds, excluding the weight allowed for idle-reduction technology under paragraph (b).

3. This paragraph does not apply to those vehicles described in s. 316.535(6).

Section 4. This act shall take effect October 1, 2019.

And the title is amended as follows:

WHEREAS, the state of Florida is ranked third nationally in human trafficking abuses, and recognizing that the crime of human trafficking is a gross violation of human rights, the Legislature has taken measures to raise awareness of the practices of human sex trafficking and of labor trafficking of children and adults in this state, and

WHEREAS, the Legislature deems it critical to the health, safety, and welfare of the people of this state to prevent and deter human trafficking networks, and persons who would aid and abet these networks, from operating in this state, and

WHEREAS, repeat offenses to aid and abet traffickers by way of recruitment or financial support, and clients of human trafficking networks who use physical violence, are a particularly extreme threat to public safety, and

WHEREAS, repeat offenders are extremely likely to use violence and to repeat their offenses, and to commit many offenses with many victims, many of whom are never given justice, and these offenders are only prosecuted for a small fraction of their crimes, and

WHEREAS, traffickers and clients of human trafficking networks often use hotels, motels, public lodging establishments, massage establishments, spas, or property rental sharing sites to acquire facilities wherein men, women, and children are coerced into performing sexual acts, which places the employees of these establishments in direct and frequent contact with victims of human trafficking, and

WHEREAS, this state is in critical need of a coordinated and collaborative human trafficking law enforcement response to prepare for future large-scale events taking place in this state, and the Legislature finds that a statewide effort focused on law enforcement training, detection, and enforcement, with additional focus on the safe rehabilitation of survivors, will address this critical need, and

WHEREAS, research from 2011 has demonstrated that a majority of human traffickers' clients are not interviewed by law enforcement, despite having extensive knowledge of the traffickers and the traffickers' practices, and are even used as recruiters for traffickers, and

WHEREAS, human traffickers' clients who were interviewed in the same 2011 research stated that they would think twice about purchasing sex from a victim of human trafficking if they were named on a public database, and

WHEREAS, client and trafficker anonymity has allowed for trafficking networks to continue in the shadows, and the publication of

client and trafficker identities would protect the public from potential harm and protect victims of trafficking from future harm, and

WHEREAS, the demand for prostitution is a driving force that fuels sex trafficking, and the Soliciting for Prostitution Public Database will serve to identify those who contribute to the demand for sex trafficking, thereby deterring the overall perpetuation of human trafficking, NOW, THEREFORE,

Senator Book moved the following amendment to **Amendment 1 (143836)** which was adopted:

CHAPTER 908

FEDERAL IMMIGRATION ENFORCEMENT

PART I

FINDINGS AND DEFINITIONS

908.101 *Legislative findings and intent.*—The Legislature finds that it is an important state interest to cooperate and assist the federal government in the enforcement of federal immigration laws within this state.

908.102 *Definitions.*—As used in this chapter, the term:

(1) “Federal immigration agency” means the United States Department of Justice and the United States Department of Homeland Security, a division within such an agency, including United States Immigration and Customs Enforcement and United States Customs and

Border Protection, any successor agency, and any other federal agency charged with the enforcement of immigration law.

(2) “Immigration detainer” means a facially sufficient written or electronic request issued by a federal immigration agency using that agency’s official form to request that another law enforcement agency detain a person based on probable cause to believe that the person to be detained is a removable alien under federal immigration law, including detainers issued pursuant to 8 U.S.C. ss. 1226 and 1357 along with a warrant described in this subsection. For purposes of this subsection, an immigration detainer is deemed facially sufficient if the federal immigration agency supplies with its detention request a Form I-200 Warrant for Arrest of Alien or a Form I-205 Warrant of Removal/Deportation or a successor warrant or other warrant authorized by federal law and:

(a) The federal immigration agency’s official form is complete and indicates on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law; or

(b) The federal immigration agency’s official form is incomplete and fails to indicate on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law, but is supported by an affidavit, order, or other official documentation that indicates that the federal immigration agency has probable cause to believe that the person to be detained is a removable alien under federal immigration law.

(3) “Inmate” means a person in the custody of a law enforcement agency.

(4) “Law enforcement agency” means an agency in this state charged with enforcement of state, county, municipal, or federal laws or with managing custody of detained persons in the state and includes municipal police departments, sheriff’s offices, state police departments, state university and college police departments, county correctional agencies, and the Department of Corrections.

(5) “Local governmental entity” means any county, municipality, or other political subdivision of this state.

(6) “Sanctuary policy” means a law, policy, practice, procedure, or custom adopted or permitted by a state entity, local governmental entity, or law enforcement agency which contravenes 8 U.S.C. s. 1373(a) or (b) or which knowingly prohibits or impedes a law enforcement agency from communicating or cooperating with a federal immigration agency with respect to federal immigration enforcement, including, but not limited to, limiting a law enforcement agency in, or prohibiting such agency from:

(a) Complying with an immigration detainer;

(b) Complying with a request from a federal immigration agency to notify the agency before the release of an inmate or detainee in the custody of the law enforcement agency;

(c) Providing a federal immigration agency access to an inmate for interview;

(d) Participating in any program or agreement authorized under s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357; or

(e) Providing a federal immigration agency with an inmate’s incarceration status or release date.

(7) “Sanctuary policymaker” means a state or local elected official or an appointed official of a local governmental entity governing body who has voted for, allowed to be implemented, or voted against repeal or prohibition of a sanctuary policy, or who willfully engages in a pattern of noncooperation with a federal immigration agency.

(8) “State entity” means the state or any office, board, bureau, commission, department, branch, division, or institution thereof, including institutions within the State University System and the Florida College System.

PART II

DUTIES

908.201 *Sanctuary policies prohibited.*—A state entity, law enforcement agency, or local governmental entity may not adopt or have in effect a sanctuary policy.

908.202 *Cooperation with federal immigration authorities.*—

(1) A law enforcement agency shall use best efforts to support the enforcement of federal immigration law. This subsection applies to an official, representative, agent, or employee of the entity or agency only when he or she is acting within the scope of his or her official duties or within the scope of his or her employment.

(2) Except as otherwise expressly prohibited by federal law, a state entity, local governmental entity, or law enforcement agency, or an employee, an agent, or a representative of the entity or agency, may not prohibit or in any way restrict a law enforcement agency from taking any of the following actions with respect to information regarding a person’s immigration status:

(a) Sending the information to or requesting, receiving, or reviewing the information from a federal immigration agency for purposes of this chapter.

(b) Recording and maintaining the information for purposes of this chapter.

(c) Exchanging the information with a federal immigration agency or another state entity, local governmental entity, or law enforcement agency for purposes of this chapter.

(d) Using the information to comply with an immigration detainer.

(e) Using the information to confirm the identity of a person who is detained by a law enforcement agency.

(3)(a) For purposes of this subsection the term “applicable criminal case” means a criminal case in which:

1. The judgment requires the defendant to be confined in a secure correctional facility; and

2. The judge:

a. Indicates in the record under s. 908.203 that the defendant is subject to an immigration detainer; or

b. Otherwise indicates in the record that the defendant is subject to a transfer into federal custody.

(b) In an applicable criminal case, when the judge sentences a defendant who is the subject of an immigration detainer to confinement, the judge shall issue an order requiring the secure correctional facility in which the defendant is to be confined to reduce the defendant’s sentence by a period of not more than 12 days on the facility’s determination that the reduction in sentence will facilitate the seamless transfer of the defendant into federal custody. For purposes of this paragraph, the term “secure correctional facility” means a state correctional institution as defined in s. 944.02 or a county detention facility or a municipal detention facility as defined in s. 951.23.

(c) If the information specified in sub-subparagraph (a)2.a. or sub-subparagraph (a)2.b. is not available at the time the sentence is pronounced in the case, but is received by a law enforcement agency afterwards, the law enforcement agency shall notify the judge who shall issue the order described by paragraph (b) as soon as the information becomes available.

(4) When a county correctional facility or the Department of Corrections receives verification from a federal immigration agency that a person subject to an immigration detainer is in the law enforcement agency’s custody, the agency may securely transport the person to a federal facility in this state or to another point of transfer to federal custody outside the jurisdiction of the law enforcement agency. The law enforcement agency may transfer a person who is subject to an immigration detainer and is confined in a secure correctional facility to the

custody of a federal immigration agency not earlier than 12 days before his or her release date. A law enforcement agency shall obtain judicial authorization before securely transporting an alien to a point of transfer outside of this state.

(5) This section does not require a state entity, local governmental entity, or law enforcement agency to provide a federal immigration agency with information related to a victim of or a witness to a criminal offense if the victim or witness timely and in good faith responds to the entity's or agency's request for information and cooperation in the investigation or prosecution of the offense.

(6) A state entity, local governmental entity, or law enforcement agency that, pursuant to subsection (5), withholds information regarding the immigration information of a victim of or witness to a criminal offense shall document the victim's or witness's cooperation in the entity's or agency's investigative records related to the offense and shall retain the records for at least 10 years for the purpose of audit, verification, or inspection by the Auditor General.

908.203 Duties related to immigration detainees.—

(1) A law enforcement agency that has custody of a person subject to an immigration detainer issued by a federal immigration agency shall:

(a) Provide to the judge authorized to grant or deny the person's release on bail under chapter 903 notice that the person is subject to an immigration detainer.

(b) Record in the person's case file that the person is subject to an immigration detainer.

(c) Upon determining that the immigration detainer is in accordance with s. 908.102(2), comply with the requests made in the immigration detainer.

(2) A law enforcement agency is not required to perform a duty imposed by paragraph (1)(a) or paragraph (1)(b) with respect to a person who is transferred to the custody of the agency by another law enforcement agency if the transferring agency performed that duty before the transfer.

(3) A judge who receives notice that a person is subject to an immigration detainer shall cause the fact to be recorded in the court record, regardless of whether the notice is received before or after a judgment in the case.

908.204 Reimbursement of costs.—Each county correctional facility shall enter into an agreement or agreements with a federal immigration agency for temporarily housing persons who are the subject of immigration detainees and for the payment of the costs of housing and detaining those persons. A compliant agreement may include any contract between a correctional facility and a federal immigration agency for housing or detaining persons subject to immigration detainees, such as basic ordering agreements in effect on or after July 1, 2019, agreements authorized by s. 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357, or successor agreements and other similar agreements authorized by federal law.

PART III ENFORCEMENT

908.301 Complaints.—The Attorney General shall prescribe and provide through the Department of Legal Affairs' website the format for a person to submit a complaint alleging a violation of this chapter. This section does not prohibit the filing of an anonymous complaint or a complaint not submitted in the prescribed format. Any person has standing to submit a complaint under this chapter.

908.302 Enforcement; penalties.—

(1) The state attorney for the county in which a state entity is headquartered or in which a local governmental entity or law enforcement agency is located has primary responsibility and authority for investigating credible complaints of a violation of this chapter. The results of an investigation by a state attorney shall be provided to the Attorney General in a timely manner.

(2)(a) A state entity, local governmental entity, or law enforcement agency for which the state attorney has received a complaint shall comply with a document request from the state attorney related to the complaint.

1. The complaint has been filed.

2. The state attorney has determined that the complaint is valid.

4. In addition, the state attorney or Attorney General may file suit against any local government entity or law enforcement agency for declaratory and injunctive relief caused by a violation of this chapter.

(c) No later than the 30th day after the day a state entity or local governmental entity receives written notification under paragraph (b), the state entity or local governmental entity shall provide the state attorney with a copy of:

(3) As provided in s. 1(b), Art. IV, of the State Constitution, the Governor may, in his discretion, initiate judicial proceedings in the name of the state against such officers to enforce compliance with any duty under this chapter or restrain any unauthorized act contrary to this chapter. The Attorney General, the state attorney who conducted the investigation, or a state attorney ordered by the Governor pursuant to s. 27.14 may institute proceedings in circuit court to enjoin a state entity, local governmental entity, or law enforcement agency found to be in violation of this chapter. Venue of an action brought by the Attorney General may be in Leon County. The court shall expedite an action under this section, including setting a hearing at the earliest practicable date.

(4) Upon adjudication by the court or as provided in a consent decree declaring that an officer, state entity, local governmental entity, or law enforcement agency has violated this chapter, the court shall enjoin the unlawful sanctuary policy and order that such entity or agency pay a civil penalty to the state of at least \$1,000 but not more than \$5,000 for each day that the sanctuary policy was in effect commencing on October 1, 2019, or the date the sanctuary policy was first enacted, whichever is later, until the date the injunction was granted. The court shall have continuing jurisdiction over the parties and subject matter and may enforce its orders with imposition of additional civil penalties as provided for in this section and contempt proceedings as provided by law.

(5) An order approving a consent decree or granting an injunction or civil penalties pursuant to subsection (4) must include written findings of fact that describe with specificity the existence and nature of the sanctuary policy in violation of s. 908.201 and that identify each sanctuary policymaker who voted for, allowed to be implemented, or voted against repeal or prohibition of the sanctuary policy, or who willfully engaged in a pattern of noncooperation with a federal immigration agency. The court shall provide a copy of the consent decree or order granting an injunction or civil penalties that contains the written findings required by this subsection to the Governor within 30 days after the date of rendition. Any executive or administrative state, county, or municipal officer who violates his duties under this chapter may be subject

to actions taken by the Governor in exercise of his authority under the State Constitution and Florida law.

(6) A state entity, local governmental entity, or law enforcement agency ordered to pay a civil penalty pursuant to subsection (4) shall remit payment to the Chief Financial Officer, who shall deposit such payment into the General Revenue Fund.

(7) Except as required by law, public funds may not be used to defend or reimburse a sanctuary policymaker or an official, representative, agent, or employee of a state entity, local governmental entity, or law enforcement agency who knowingly and willfully violates this chapter.

Section 1. Chapter 908, Florida Statutes, consisting of sections 908.101-908.109, is created to read:

**CHAPTER 908
FEDERAL IMMIGRATION ENFORCEMENT**

908.101 Legislative findings and intent.—*The Legislature finds that it is an important state interest to cooperate and assist the federal government in the enforcement of federal immigration laws within this state.*

908.102 Definitions.—*As used in this chapter, the term:*

(1) “Federal immigration agency” means the United States Department of Justice and the United States Department of Homeland Security, a division within such an agency, including United States Immigration and Customs Enforcement and United States Customs and Border Protection, any successor agency, and any other federal agency charged with the enforcement of immigration law.

(2) “Immigration detainer” means a facially sufficient written or electronic request issued by a federal immigration agency using that agency’s official form to request that another law enforcement agency detain a person based on probable cause to believe that the person to be detained is a removable alien under federal immigration law, including detainers issued pursuant to 8 U.S.C. ss. 1226 and 1357 along with a warrant described in paragraph (c). For purposes of this subsection, an immigration detainer is deemed facially sufficient if:

(a) The federal immigration agency’s official form is complete and indicates on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law; or

(b) The federal immigration agency’s official form is incomplete and fails to indicate on its face that the federal immigration official has probable cause to believe that the person to be detained is a removable alien under federal immigration law, but is supported by an affidavit, order, or other official documentation that indicates that the federal immigration agency has probable cause to believe that the person to be detained is a removable alien under federal immigration law; and

(c) The federal immigration agency supplies with its detention request a Form I-200 Warrant for Arrest of Alien or a Form I-205 Warrant of Removal/Deportation or a successor warrant or other warrant authorized by federal law.

(3) “Inmate” means a person in the custody of a law enforcement agency.

(4) “Law enforcement agency” means an agency in this state charged with enforcement of state, county, municipal, or federal laws or with managing custody of detained persons in this state and includes municipal police departments, sheriff’s offices, state police departments, state university and college police departments, county correctional agencies, and the Department of Corrections.

(5) “Local governmental entity” means any county, municipality, or other political subdivision of this state.

(6) “Sanctuary policy” means a law, policy, practice, procedure, or custom adopted or allowed by a state entity or local governmental entity which prohibits or impedes a law enforcement agency from complying with 8 U.S.C. s. 1373 or which prohibits or impedes a law enforcement agency from communicating or cooperating with a federal immigration agency so as to limit such law enforcement agency in, or prohibit the agency from:

(a) Complying with an immigration detainer;

(b) Complying with a request from a federal immigration agency to notify the agency before the release of an inmate or detainee in the custody of the law enforcement agency;

(c) Providing a federal immigration agency access to an inmate for interview;

(d) Participating in any program or agreement authorized under section 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357; or

(e) Providing a federal immigration agency with an inmate’s incarceration status or release date.

(7) “State entity” means the state or any office, board, bureau, commission, department, branch, division, or institution thereof, including institutions within the State University System and the Florida College System.

908.103 Sanctuary policies prohibited.—*A state entity, law enforcement agency, or local governmental entity may not adopt or have in effect a sanctuary policy.*

908.104 Cooperation with federal immigration authorities.—

(1) A law enforcement agency shall use best efforts to support the enforcement of federal immigration law. This subsection applies to an official, representative, agent, or employee of the entity or agency only when he or she is acting within the scope of his or her official duties or within the scope of his or her employment.

(2) Except as otherwise expressly prohibited by federal law, a state entity, local governmental entity, or law enforcement agency, or an employee, an agent, or a representative of the entity or agency, may not prohibit or in any way restrict a law enforcement agency from taking any of the following actions with respect to information regarding a person’s immigration status:

(a) Sending the information to or requesting, receiving, or reviewing the information from a federal immigration agency for purposes of this chapter.

(b) Recording and maintaining the information for purposes of this chapter.

(c) Exchanging the information with a federal immigration agency or another state entity, local governmental entity, or law enforcement agency for purposes of this chapter.

(d) Using the information to comply with an immigration detainer.

(e) Using the information to confirm the identity of a person who is detained by a law enforcement agency.

(3)(a) For purposes of this subsection, the term “applicable criminal case” means a criminal case in which:

1. The judgment requires the defendant to be confined in a secure correctional facility; and

2. The judge:

a. Indicates in the record under s. 908.105 that the defendant is subject to an immigration detainer; or

b. Otherwise indicates in the record that the defendant is subject to a transfer into federal custody.

(b) In an applicable criminal case, when the judge sentences a defendant who is the subject of an immigration detainer to confinement, the judge shall issue an order requiring the secure correctional facility in which the defendant is to be confined to reduce the defendant’s sentence by a period of not more than 12 days on the facility’s determination that the reduction in sentence will facilitate the seamless transfer of the defendant into federal custody. For purposes of this paragraph, the term “secure correctional facility” means a state correctional institution as defined in s. 944.02 or a county detention facility or a municipal detention facility as defined in s. 951.23.

(c) If the information specified in sub-subparagraph (a)2.a. or sub-subparagraph (a)2.b. is not available at the time the sentence is pronounced in the case, but is received by a law enforcement agency afterwards, the law enforcement agency shall notify the judge who shall issue the order described by paragraph (b) as soon as the information becomes available.

(4) When a county correctional facility or the Department of Corrections receives verification from a federal immigration agency that a person subject to an immigration detainer is in the law enforcement agency’s custody, the agency may securely transport the person to a

federal facility in this state or to another point of transfer to federal custody outside the jurisdiction of the law enforcement agency. The law enforcement agency may transfer a person who is subject to an immigration detainer and is confined in a secure correctional facility to the custody of a federal immigration agency not earlier than 12 days before his or her release date. A law enforcement agency shall obtain judicial authorization before securely transporting an alien to a point of transfer outside of this state.

(5) This section does not require a state entity, local governmental entity, or law enforcement agency to provide a federal immigration agency with information related to a victim of or a witness to a criminal offense if the victim or witness timely and in good faith responds to the entity's or agency's request for information and cooperation in the investigation or prosecution of the offense.

(6) A state entity, local governmental entity, or law enforcement agency that, pursuant to subsection (5), withholds information regarding the immigration information of a victim of or witness to a criminal offense shall document the victim's or witness's cooperation in the entity's or agency's investigative records related to the offense and shall retain the records for at least 10 years for the purpose of audit, verification, or inspection by the Auditor General.

(7) This section does not authorize a law enforcement agency to detain an alien unlawfully present in the United States pursuant to an immigration detainer solely because the alien witnessed or reported a crime or was a victim of a criminal offense.

(8) This section does not apply to any alien unlawfully present in the United States if he or she is or has been a necessary witness or victim of a crime of domestic violence, rape, sexual exploitation, sexual assault, murder, manslaughter, assault, battery, human trafficking, kidnapping, false imprisonment, involuntary servitude, fraud in foreign labor contracting, blackmail, extortion, or witness tampering.

908.105 Duties related to immigration detainees.—

(1) A law enforcement agency that has custody of a person subject to an immigration detainer issued by a federal immigration agency shall:

(a) Provide to the judge authorized to grant or deny the person's release on bail under chapter 903 notice that the person is subject to an immigration detainer.

(b) Record in the person's case file that the person is subject to an immigration detainer.

(c) Upon determining that the immigration detainer is in accordance with s. 908.102(2), comply with the requests made in the immigration detainer.

(2) A law enforcement agency is not required to perform a duty imposed by paragraph (1)(a) or paragraph (1)(b) with respect to a person who is transferred to the custody of the agency by another law enforcement agency if the transferring agency performed that duty before the transfer.

(3) A judge who receives notice that a person is subject to an immigration detainer shall cause the fact to be recorded in the court record, regardless of whether the notice is received before or after a judgment in the case.

908.106 Reimbursement of costs.—Each county correctional facility shall enter into an agreement or agreements with a federal immigration agency for temporarily housing persons who are the subject of immigration detainees and for the payment of the costs of housing and detaining those persons. A compliant agreement may include any contract between a correctional facility and a federal immigration agency for housing or detaining persons subject to immigration detainees, such as basic ordering agreements in effect on or after July 1, 2019, agreements authorized by section 287 of the Immigration and Nationality Act, 8 U.S.C. s. 1357, or successor agreements and other similar agreements authorized by federal law.

908.107 Enforcement.—

(1) Any executive or administrative state, county, or municipal officer who violates his or her duties under this chapter may be subject to action

by the Governor in the exercise of his or her authority under the State Constitution and state law. Pursuant to s. 1(b), Art. IV of the State Constitution, the Governor may initiate judicial proceedings in the name of the state against such officers to enforce compliance with any duty under this chapter or restrain any unauthorized act contrary to this chapter.

(2) In addition, the Attorney General may file suit against a local governmental entity or local law enforcement agency in a court of competent jurisdiction for declaratory or injunctive relief for a violation of this chapter.

(3) If a local governmental entity or local law enforcement agency violates this chapter, the court must enjoin the unlawful sanctuary policy. The court has continuing jurisdiction over the parties and subject matter and may enforce its orders with the initiation of contempt proceedings as provided by law.

(4) An order approving a consent decree or granting an injunction must include written findings of fact that describe with specificity the existence and nature of the sanctuary policy that violates this chapter.

908.108 Education records.—This chapter does not apply to the release of information contained in education records of an educational agency or institution, except in conformity with the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. s. 1232g.

908.109 Discrimination prohibited.—A state entity, a local governmental entity, or a law enforcement agency, or a person employed by or otherwise under the direction or control of the entity or agency, may not base its actions under this chapter on the gender, race, religion, national origin, or physical disability of a person except to the extent authorized by the United States Constitution or the State Constitution.

Section 2. A sanctuary policy, as defined in s. 908.102, Florida Statutes, that is in effect on the effective date of this act violates the public policy of this state and must be repealed within 90 days after that date.

Section 3. Section 908.107, Florida Statutes, as created by this act, shall take effect October 1, 2019, and, except as otherwise expressly provided in this act, this act shall take effect July 1, 2019.

381.986 Medical use of marijuana.—

(4) PHYSICIAN CERTIFICATION.—

(a) A qualified physician may issue a physician certification only if the qualified physician:

1. Conducted a physical examination while physically present in the same room as the patient and a full assessment of the medical history of the patient.

2. Diagnosed the patient with at least one qualifying medical condition.

3. Determined that the medical use of marijuana would likely outweigh the potential health risks for the patient, and such determination must be documented in the patient's medical record. *A physician may not issue a physician certification, except for low-THC cannabis, to a patient younger than 18 years of age, unless the qualified physician determines that marijuana other than low-THC cannabis is the most effective treatment for the patient, and a second physician who is a board-certified pediatrician concurs with such determination. Such determination and concurrence must be documented in the patient's medical record and in the medical marijuana use registry.* ~~If a patient is younger than 18 years of age, a second physician must concur with this determination, and such concurrence must be documented in the patient's medical record.~~

4. Determined whether the patient is pregnant and documented such determination in the patient's medical record. A physician may not issue a physician certification, except for low-THC cannabis, to a patient who is pregnant.

5. Reviewed the patient's controlled drug prescription history in the prescription drug monitoring program database established pursuant to s. 893.055.

6. Reviews the medical marijuana use registry and confirmed that the patient does not have an active physician certification from another qualified physician.

7. Registers as the issuer of the physician certification for the named qualified patient on the medical marijuana use registry in an electronic manner determined by the department, and:

a. Enters into the registry the contents of the physician certification, including *all of* the patient's qualifying ~~conditions~~ *condition* and the dosage not to exceed the daily dose amount *authorized under paragraph (f) determined by the department*, the amount and forms of marijuana authorized for the patient, and any types of marijuana delivery devices needed by the patient for the medical use of marijuana.

b. Updates the registry within 7 days after any change is made to the original physician certification to reflect such change.

c. Deactivates the registration of the qualified patient and the patient's caregiver when the physician no longer recommends the medical use of marijuana for the patient.

8. Obtains the voluntary and informed written consent of the patient for medical use of marijuana each time the qualified physician issues a physician certification for the patient, which shall be maintained in the patient's medical record. The patient, or the patient's parent or legal guardian if the patient is a minor, must sign the informed consent acknowledging that the qualified physician has sufficiently explained its content. The qualified physician must use a standardized informed consent form adopted in rule by the Board of Medicine and the Board of Osteopathic Medicine, which must include, at a minimum, information related to:

a. The Federal Government's classification of marijuana as a Schedule I controlled substance.

b. The approval and oversight status of marijuana by the Food and Drug Administration.

c. The current state of research on the efficacy of marijuana to treat the qualifying conditions set forth in this section.

f. The potential side effects of marijuana use, including the negative health risks associated with smoking *and the negative health effects of marijuana use on persons under 18 years of age*.

g. The risks, benefits, and drug interactions of marijuana.

h. That the patient's de-identified health information contained in the physician certification and medical marijuana use registry may be used for research purposes.

(f) A qualified physician may not issue a physician certification for more than three 70-day supply limits of marijuana, *more than six 35-day supply limits of edibles*, or more than six 35-day supply limits of marijuana in a form for smoking. The department shall quantify by rule a daily dose amount with equivalent dose amounts for each allowable form of marijuana, *other than edibles and marijuana in a form for smoking*, dispensed by a medical marijuana treatment center. The department shall use the daily dose amount to calculate a 70-day supply. *The daily dose amount for edibles shall not exceed 200 mg of tetrahydrocannabinol. The daily dose amount for marijuana in a form for smoking shall not exceed .08 ounces.*

1. A qualified physician may request an exception to the daily dose amount limit, *the 35-day supply limit for edibles*, the 35-day supply limit of marijuana in a form for smoking, and the 4-ounce possession limit of marijuana in a form for smoking established in paragraph (14)(a). The request shall be made electronically on a form adopted by the department in rule and must include, at a minimum:

a. The qualified patient's qualifying medical condition.

b. The dosage and route of administration that was insufficient to provide relief to the qualified patient.

c. A description of how the patient will benefit from an increased amount.

A licensed medical marijuana treatment center must, at all times, maintain compliance with the criteria demonstrated and representations made in the initial application and the criteria established in this subsection. Upon request, the department may grant a medical marijuana treatment center a variance from the representations made in the initial application. Consideration of such a request shall be based upon the individual facts and circumstances surrounding the request. A variance may not be granted unless the requesting medical marijuana treatment center can demonstrate to the department that it has a proposed alternative to the specific representation made in its application which fulfills the same or a similar purpose as the specific representation in a way that the department can reasonably determine will not be a lower standard than the specific representation in the application. A variance may not be granted from the requirements in subparagraph 2. and subparagraphs (b)1. and 2.

1. A licensed medical marijuana treatment center may transfer ownership to an individual or entity who meets the requirements of this section. d. Requested information omitted from an application for licensure must be filed with the department within 21 days after the department's request for omitted information or the application shall be deemed incomplete and shall be withdrawn from further consideration and the fees shall be forfeited.

Within 30 days after the receipt of a complete application, the department shall approve or deny the application.

2. A medical marijuana treatment center, and any individual or entity who directly or indirectly owns, controls, or holds with power to vote 5 percent or more of the voting shares of a medical marijuana treatment center, may not acquire direct or indirect ownership or con-

Edibles may not contain more than 200 milligrams of tetrahydrocannabinol, and a single serving portion of an edible may not exceed 10 milligrams of tetrahydrocannabinol. Edibles may have a potency variance of no greater than 15 percent. Edibles may not be attractive to children; be manufactured in the shape of humans, cartoons, or animals; be manufactured in a form that bears any reasonable resemblance to products available for consumption as commercially available candy; or contain any color additives. To discourage consumption of edibles by children, the department shall determine by rule any shapes, forms, and ingredients allowed and prohibited for edibles. Medical marijuana treatment centers may not begin processing or dispensing edibles until after the effective date of the rule. The department shall also adopt sanitation rules providing the standards and requirements for the storage, display, or dispensing of edibles.

The Department of Environmental Protection shall assist the department in developing such rules.

~~12.d. A medical marijuana treatment center must test the processed~~
marijuana using a medical marijuana testing laboratory before it is dispensed. Results must be verified and signed by two medical marijuana treatment center employees. Before dispensing, the medical marijuana treatment center must determine that the test results indicate that low-THC cannabis meets the definition of low-THC cannabis, the concentration of tetrahydrocannabinol meets the potency requirements of this section, the labeling of the concentration of tetrahydrocannabinol and cannabidiol is accurate, and all marijuana is safe for human consumption and free from contaminants that are unsafe for human consumption. The department shall determine by rule which contaminants must be tested for and the maximum levels of each contaminant which are safe for human consumption. The Department of Agriculture and Consumer Services shall assist the department in developing the testing requirements for contaminants that are unsafe for human consumption in edibles. The department shall also determine by rule the procedures for the treatment of marijuana that fails to meet the testing requirements of this section, s. 381.988, or department rule. A medical marijuana treatment center shall reserve two processed samples from each batch and retain such samples for at least 9 months for the purpose of such audits. A medical marijuana treatment center may use a laboratory that has not been certified by the department under s. 381.988 until such time as at least one laboratory holds the required certification, but in no event later than July 1, 2020 ~~2018~~.

The project represents a building maintenance project or the repair of utility infrastructure which is necessary to preserve a safe environment for students and staff, or a project that is necessary to maintain the operation of a Florida College System institution site, and for which the institution can demonstrate that it has no other funding source available to complete the project;

3. The project addresses the greatest current year need for space as indicated by increased instructional capacity that enhances educational opportunities for the greatest number of students;

4. The project reflects the priority of the submitting Florida College System institution; and

5. The project represents the most cost effective replacement or renovation of an existing building.

(b) Within the point scale developed by the state board, the project scoring the highest for each criteria shall be awarded the maximum points in the range of points within the points scale developed by the state board. The Honorable Bill Galvano, President

I am directed to inform the Senate that the House of Representatives has passed CS/CS/SB 796, with amendment(s), and requests the concurrence of the Senate.

Jeff Takacs, Clerk

CS for CS for CS for SB 796—A bill to be entitled An act relating to public utility storm protection plans; creating s. 366.96, F.S.; providing legislative findings; defining terms; requiring public utilities to individually submit to the Public Service Commission, for review and approval, a transmission and distribution storm protection plan; requiring utilities to update their respective plans on a specified basis; requiring the commission to approve or modify submitted plans within a specified timeframe, taking into consideration specified factors; requiring the commission to conduct an annual proceeding to allow utilities to justify and recover certain costs through a storm protection cost recovery clause; providing that utilities may not include certain costs in their base rates; providing for the allocation of such costs; authorizing utilities to recover depreciation on certain capital costs through the recovery clause; requiring the commission to adopt rules; requiring the commission to propose a rule for adoption within a specified timeframe; providing a directive to the Division of Law Revision; providing appropriations and authorizing positions; providing an effective date.

House Amendment 1 (690185) (with title amendment)—Remove everything after the enacting clause and insert:

Section 1. Section 366.96, Florida Statutes, is created to read:

366.96 *Storm protection plan cost recovery.*—

(1) *The Legislature finds that:*

(a) *During extreme weather conditions, high winds can cause vegetation and debris to blow into and damage electrical transmission and distribution facilities, resulting in power outages.*

(b) *A majority of the power outages that occur during extreme weather conditions in the state are caused by vegetation blown by the wind.*

(c) *It is in the state's interest to strengthen electric utility infrastructure to withstand extreme weather conditions by promoting the overhead hardening of electrical transmission and distribution facilities, the undergrounding of certain electrical distribution lines, and vegetation management.*

(d) *Protecting and strengthening transmission and distribution electric utility infrastructure from extreme weather conditions can effectively reduce restoration costs and outage times to customers and improve overall service reliability for customers.*

(e) *It is in the state's interest for each utility to mitigate restoration costs and outage times to utility customers when developing transmission and distribution storm protection plans.*

(f) *All customers benefit from the reduced costs of storm restoration.*

(2) **DEFINITIONS.**—As used in this section, the term:

(a) "Public utility" or "utility" has the same meaning as set forth in s. 366.02(1), except that it does not include a gas utility.

(b) "Transmission and distribution storm protection plan" or "plan" means a plan for the overhead hardening and increased resilience of electric transmission and distribution facilities, undergrounding of electric distribution facilities, and vegetation management.

(c) "Transmission and distribution storm protection plan costs" means the reasonable and prudent costs to implement an approved transmission and distribution storm protection plan. (d) "Vegetation management" means the actions a public utility takes to prevent or curtail vegetation from interfering with public utility infrastructure. The term includes, but is not limited to, the mowing of vegetation, application of herbicides, tree trimming, and removal of trees or brush near and around electric transmission and distribution facilities. (3) Each public utility shall file, pursuant to commission rule, a transmission and

distribution storm protection plan that covers the immediate 10-year planning period. Each plan must explain the systematic approach the utility will follow to achieve the objectives of reducing restoration costs and outage times associated with extreme weather events and enhancing reliability. The commission shall adopt rules to specify the elements that must be included in a utility's filing for review of transmission and distribution storm protection plans.

(d) "Vegetation management" means the actions a public utility takes to prevent or curtail vegetation from interfering with public utility infrastructure. The term includes, but is not limited to, the mowing of vegetation, application of herbicides, tree trimming, and removal of trees or brush near and around electric transmission and distribution facilities.

(3) Each public utility shall file, pursuant to commission rule, a transmission and distribution storm protection plan that covers the immediate 10-year planning period. Each plan must explain the systematic approach the utility will follow to achieve the objectives of reducing restoration costs and outage times associated with extreme weather events and enhancing reliability. The commission shall adopt rules to specify the elements that must be included in a utility's filing for review of transmission and distribution storm protection plans.

(4) In its review of each transmission and distribution storm protection plan filed pursuant to this section, the commission shall consider:

(a) The extent to which the plan is expected to reduce restoration costs and outage times associated with extreme weather events and enhance reliability, including whether the plan prioritizes areas of lower reliability performance.

(b) The extent to which storm protection of transmission and distribution infrastructure is feasible, reasonable, or practical in certain areas of the utility's service territory, including, but not limited to, flood zones and rural areas.

(c) The estimated costs and benefits to the utility and its customers of making the improvements proposed in the plan.

(d) The estimated annual rate impact resulting from implementation of the plan during the first 3 years addressed in the plan.

(5) No later than 180 days after a utility files a transmission and distribution storm protection plan that contains all of the elements required by commission rule, the commission shall determine whether it is in the public interest to approve, approve with modification, or deny the plan.

(6) At least every 3 years after approval of a utility's transmission and distribution storm protection plan, the utility must file for commission review an updated transmission and distribution storm protection plan that addresses each element specified by commission rule. The commission shall approve, modify, or deny each updated plan pursuant to the criteria used to review the initial plan.

(7) After a utility's transmission and distribution storm protection plan has been approved, proceeding with actions to implement the plan shall not constitute or be evidence of imprudence. The commission shall conduct an annual proceeding to determine the utility's prudently incurred transmission and distribution storm protection plan costs and allow the utility to recover such costs through a charge separate and apart from its base rates, to be referred to as the storm protection plan cost recovery clause. If the commission determines that costs were prudently incurred, those costs will not be subject to disallowance or further prudence review except for fraud, perjury, or intentional withholding of key information by the public utility.

(8) The annual transmission and distribution storm protection plan costs may not include costs recovered through the public utility's base rates and must be allocated to customer classes pursuant to the rate design most recently approved by the commission.

(9) If a capital expenditure is recoverable as a transmission and distribution storm protection plan cost, the public utility may recover the annual depreciation on the cost, calculated at the public utility's current approved depreciation rates, and a return on the undepreciated balance of the costs calculated at the public utility's weighted average cost of capital using the last approved return on equity.

(10) Beginning December 1 of the year after the first full year of implementation of a transmission and distribution storm protection plan and annually thereafter, the commission shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the status of utilities' storm protection activities. The report shall include, but is not limited to, identification of all storm protection activities completed or planned for completion, the actual costs and rate impacts associated with completed activities as compared to the estimated costs and rate impacts for those activities, and the estimated costs and rate impacts associated with activities planned for completion.

(11) The commission shall adopt rules to implement and administer this section and shall propose a rule for adoption as soon as practicable after the effective date of this act, but not later than October 31, 2019.

Section 2. For the 2019-2020 fiscal year, the sums of \$261,270 in recurring funds and \$15,020 in nonrecurring funds from the Regulatory Trust Fund are appropriated to the Public Service Commission, and 4 full-time equivalent positions with associated salary rate of 180,583 are authorized for the purpose of implementing this act.

Section 3. This act shall take effect upon becoming a law.

And the title is amended as follows:

Remove everything before the enacting clause and insert: A bill to be entitled An act relating to public utility storm protection plans; creating s. 366.96, F.S.; providing legislative findings; defining terms; requiring public utilities to submit to the Public Service Commission, for review, a transmission and distribution storm protection plan; specifying matters to be considered in the commission's review of a plan; requiring the commission to approve, modify, or deny a plan within a specified timeframe; requiring a utility to update its plan on a specified basis, subject to commission review; requiring the commission to conduct an annual proceeding to allow utilities to recover certain costs through a storm protection plan cost recovery clause; providing that utilities may not include costs recovered through their base rates; providing that certain costs will not be subject to certain disallowances or reviews; providing for the allocation of such costs; authorizing utilities to recover depreciation and a return on certain capital costs through the recovery clause; requiring the commission to submit an annual report to the Governor and Legislature; requiring rulemaking; providing appropriations and authorizing positions; providing an effective date.

Section 24. Subsections (5) and (6) and paragraph (a) of subsection (7) of section 98.075, Florida Statutes, are amended to read:

98.075 Registration records maintenance activities; ineligibility determinations.—

(5) FELONY CONVICTION.—The department shall identify those registered voters who have been convicted of a felony and whose voting rights have not been restored by comparing information received from, but not limited to, a clerk of the circuit court, the Board of Executive Clemency, the Department of Corrections, the Department of Law Enforcement, or a United States Attorney’s Office, as provided in s. 98.093. The department shall review such information and make an initial determination as to whether the information is credible and reliable. Upon receipt of the notice that the department has made a determination of initial credibility and reliability, the supervisor shall adhere to the procedures set forth in subsection (7) prior to the removal of a registered voter’s name from the statewide voter registration system.

(6) OTHER BASES FOR INELIGIBILITY.—If the department or supervisor receives information from sources other than those identified in subsections (2)-(5) that a registered voter is ineligible because he or she is deceased, adjudicated a convicted felon without having had his or her voting ~~civil~~ rights restored, adjudicated mentally incapacitated without having had his or her voting rights restored, does not meet the age requirement pursuant to s. 97.041, is not a United States citizen, is a fictitious person, or has listed a residence that is not his or her legal residence, the supervisor must adhere to the procedures set forth in subsection (7) prior to the removal of a registered voter’s name from the statewide voter registration system.

(7) PROCEDURES FOR REMOVAL.—

(a) If the supervisor receives notice or information pursuant to subsections (4)-(6), the supervisor of the county in which the voter is registered shall:

1. Notify the registered voter of his or her potential ineligibility by mail within 7 days after receipt of notice or information. The notice shall include:

a. A statement of the basis for the registered voter’s potential ineligibility and a copy of any documentation upon which the potential ineligibility is based. *Such documentation must include any conviction from another jurisdiction determined to be a similar offense to murder or a felony sexual offense, as those terms are defined in s. 98.0751.*

b. A statement that failure to respond within 30 days after receipt of the notice may result in a determination of ineligibility and in removal of the registered voter’s name from the statewide voter registration system.

c. A return form that requires the registered voter to admit or deny the accuracy of the information underlying the potential ineligibility for purposes of a final determination by the supervisor.

d. A statement that, if the voter is denying the accuracy of the information underlying the potential ineligibility, the voter has a right to request a hearing for the purpose of determining eligibility.

- a. The voter's name and address.
- b. A statement that the voter is potentially ineligible to be registered to vote.
- c. A statement that failure to respond within 30 days after the notice is published may result in a determination of ineligibility by the supervisor and removal of the registered voter's name from the statewide voter registration system.
- d. An instruction for the voter to contact the supervisor no later than 30 days after the date of the published notice to receive information regarding the basis for the potential ineligibility and the procedure to resolve the matter.
- e. An instruction to the voter that, if further assistance is needed, the voter should contact the supervisor of elections of the county in which the voter is registered.

If the supervisor determines that the voter is ineligible, the supervisor shall remove the name of the registered voter from the statewide voter registration system. The supervisor shall notify the registered voter of the supervisor's determination and action.

4. If a registered voter responds to the notice pursuant to subparagraph 1. or subparagraph 2. and admits the accuracy of the information underlying the potential ineligibility, the supervisor shall make a final determination of ineligibility and shall remove the voter's name from the statewide voter registration system. The supervisor shall notify the registered voter of the supervisor's determination and action.

5. If a registered voter responds to the notice issued pursuant to subparagraph 1. or subparagraph 2. and denies the accuracy of the information underlying the potential ineligibility but does not request a hearing, the supervisor shall review the evidence and make a final determination of eligibility. If such registered voter requests a hearing, the supervisor shall send notice to the registered voter to attend a hearing at a time and place specified in the notice. Upon hearing all evidence presented at the hearing, the supervisor shall make a determination of eligibility. If the supervisor determines that the registered voter is ineligible, the supervisor shall remove the voter's name from the statewide voter registration system and notify the registered voter of the supervisor's determination and action.

PRAYER

The following prayer was offered by Reverend Kyle Peddie, Corinth Baptist Church, Hosford:

Heavenly Father, we come to you this beautiful spring morning to pause and give thanks to the giver of life, the King of kings, the Lord of lords, creator, and savior. Father, as many all over the country prayed yesterday on the National Day of Prayer, we need your discernment and guidance in every facet of our lives, both corporately and individually today.

In times like these, where our country is so politically divided, may the great people in this chamber today come together as one voice for the people of the great State of Florida. At the end of the day, we are needy people. Help us, above all, to see our great need for you. We know, in your great sovereignty, that you owe us nothing. You are never in debt to us.

Thank you for loving us and showing us your grace. Help us daily to seek your word that truly equips and enables us to love our neighbors as we love ourselves. May that godly principle be the motivator to our great Florida Senate today and every day. May everyone who has the privilege to serve in public service be rooted in just that.

As the hanky gets ready to drop soon, we thank you for the accomplishments of this session. As the finish line is in view, may we ever be

mindful of our continued reliance on you. You indeed are the author and perfecter of our faith. Thank you so much that your mercies are new every morning, because we sure use it up by the end of each day. Bless Senate President Galvano today as he leads, and bless all of our great Senators from around the state, especially my Senator, Bill Montford. In Jesus' name I pray. Amen.

PLEDGE

Senate Pages, Malia Brown of Tallahassee; Abigail Snodgrass of Tallahassee; and Joseph Stokes of Palm Bay, led the Senate in the Pledge of Allegiance to the flag of the United States of America.

DOCTOR OF THE DAY

The President recognized Dr. Michael Forsthoefel of Tallahassee, sponsored by Senator Montford, as the doctor of the day. Dr. Forsthoefel specializes in internal medicine.

At the request of Senator Stargel—

By Senator Stargel—

SR 1872—A resolution recognizing May 2019 as “Lupus Awareness Month” in Florida.

WHEREAS, systemic lupus erythematosus, commonly known as lupus, is an acute, chronic, and lifelong autoimmune disease which creates an imbalance in the immune system, causing inflammation and tissue damage to virtually every part of the body, including the skin, lungs, heart, kidneys, and brain, and

WHEREAS, although the majority of cases of lupus can be controlled with proper treatment, the disease can cause seizures, strokes, heart attacks, miscarriages, and organ failure, and it results in the deaths of thousands of Americans each year, and

WHEREAS, more than 5 million people worldwide, and more than 1.5 million people in the United States, are living with this chronic disease for which there is no cure, and

WHEREAS, each year, more than 100,000 individuals are newly diagnosed with lupus, 90 percent of whom are women of childbearing age, with African-American, Latina, Hispanic, Native American, and Asian women being two to three times more likely to develop the disease, and

WHEREAS, lupus can be particularly difficult to diagnose because its symptoms mimic those of many other diseases, and major gaps exist in understanding the causes of this disease, and

WHEREAS, because lupus is difficult to diagnose, more than half of all people diagnosed with lupus suffer for 4 or more years and see three or more doctors before receiving an accurate diagnosis, and

WHEREAS, the Lupus Foundation of America has declared May as “Lupus Awareness Month,” NOW, THEREFORE,

Be It Resolved by the Senate of the State of Florida:

That May 2019 is recognized as “Lupus Awareness Month” in Florida.

WHEREAS, today, anglers catch a variety of fish from the George Crady Bridge Fishing Pier, including whiting, jack, drum, and tarpon, and have access to the pier 24 hours a day, 365 days a year, and

WHEREAS, Amelia Island State Park is the only state park in Florida offering horseback riding on its beaches, which has become a favorite pastime of visitors, and

WHEREAS, George Crady Bridge Fishing Pier State Park and Amelia Island State Park are two of Florida's environmental and recreational treasures, enjoyed by residents and tourists alike, NOW, THEREFORE,

RECONSIDERATION OF AMENDMENT

On motion by Senator Lee, the Senate reconsidered the vote by which engrossed **Amendment 1 (387652)**, replacing **Amendment 1 (155860)**, by Senator Lee, was previously adopted May 2.

Senator Brandes moved the following amendment to **Amendment 1 (387652)** which was adopted by two-thirds vote:

Amendment 1A (697400) (with title amendment)—Between lines 773 and 774 insert:

Section 15. Paragraph (1) of subsection (2) of section 718.112, Florida Statutes, is amended to read:

718.112 Bylaws.—

(2) **REQUIRED PROVISIONS.**—The bylaws shall provide for the following and, if they do not do so, shall be deemed to include the following:

(1) *Firesafety.*—*An association must ensure compliance with the Florida Fire Prevention Code. As to a residential condominium building that is a high-rise building as defined under the Florida Fire Prevention Code, the association must retrofit either a fire sprinkler system or an engineered life safety system as specified in the Florida Fire Prevention Code.* ~~Certificate of compliance. A provision that a certificate of compliance from a licensed electrical contractor or electrician may be accepted by the association's board as evidence of compliance of the condominium units with the applicable fire and life safety code must be included.~~ Notwithstanding chapter 633 or of any other code, statute, ordinance, administrative rule, or regulation, or any interpretation of the foregoing, an association, residential condominium, or unit owner is not obligated to retrofit the common elements, association property, or units of a residential condominium with a fire sprinkler system in a building that has been certified for occupancy by the applicable governmental entity if the unit owners have voted to forego such retrofitting by the affirmative vote of a majority of all voting interests in the affected condominium. The local authority having jurisdiction may not require completion of retrofitting with a fire sprinkler system *or an engineered life safety system* before January 1, 2024 ~~2020. By December 31, 2016, a residential condominium association that is not in compliance with the requirements for a fire sprinkler system and has not voted to forego retrofitting of such a system must initiate an application for a building permit for the required installation with the local government having jurisdiction demonstrating that the association will become compliant by December 31, 2019.~~

1. A vote to forego retrofitting may be obtained by limited proxy or by a ballot personally cast at a duly called membership meeting, or by execution of a written consent by the member, and is effective upon recording a certificate attesting to such vote in the public records of the county where the condominium is located. The association shall mail or hand deliver to each unit owner written notice at least 14 days before the membership meeting in which the vote to forego retrofitting of the required fire sprinkler system is to take place. Within 30 days after the association's opt-out vote, notice of the results of the opt-out vote must be mailed or hand delivered to all unit owners. Evidence of compliance with this notice requirement must be made by affidavit executed by the person providing the notice and filed among the official records of the association. After notice is provided to each owner, a copy must be provided by the current owner to a new owner before closing and by a unit owner to a renter before signing a lease.

2. If there has been a previous vote to forego retrofitting, a vote to require retrofitting may be obtained at a special meeting of the unit owners called by a petition of at least 10 percent of the voting interests. Such a vote may only be called once every 3 years. Notice shall be provided as required for any regularly called meeting of the unit owners, and must state the purpose of the meeting. Electronic transmission may not be used to provide notice of a meeting called in whole or in part for this purpose.

3. As part of the information collected annually from condominiums, the division shall require condominium associations to report the membership vote and recording of a certificate under this subsection and, if retrofitting has been undertaken, the per-unit cost of such work. The division shall annually report to the Division of State Fire Marshal of the Department of Financial Services the number of condominiums that have elected to forego retrofitting.

4. Notwithstanding s. 553.509, a residential association may not be obligated to, and may forego the retrofitting of, any improvements required by s. 553.509(2) upon an affirmative vote of a majority of the voting interests in the affected condominium.

5. *This paragraph does not apply to timeshare condominium associations, which shall be governed by s. 721.24.*

Section 16. Section 718.1085, Florida Statutes, is amended to read:

718.1085 Certain regulations not to be retroactively applied.—Notwithstanding the provisions of chapter 633 or of any other code, statute, ordinance, administrative rule, or regulation, or any interpretation thereof, an association, condominium, or unit owner is not obligated to retrofit the common elements or units of a residential condominium that meets the definition of "housing for older persons" in s. 760.29(4)(b) 3. to comply with requirements relating to handrails and guardrails if the unit owners have voted to forego such retrofitting by the affirmative vote of two-thirds of all voting interests in the affected condominium. However, a condominium association may not vote to forego the retrofitting in common areas in a high-rise building. For the purposes of this section, the term "high-rise building" means a building that is greater than 75 feet in height where the building height is measured from the lowest level of fire department access to the floor of the highest occupiable level. For the purposes of this section, the term "common areas" means stairwells and exposed, outdoor walkways and corridors, *but does not include individual balconies*. In no event shall the local authority having jurisdiction require retrofitting of common areas with handrails and guardrails before the end of 2024 ~~2014~~.

(1) A vote to forego retrofitting may not be obtained by general proxy or limited proxy, but shall be obtained by a vote personally cast at a duly called membership meeting, or by execution of a written consent by the member, and shall be effective upon the recording of a certificate attesting to such vote in the public records of the county where the condominium is located. The association shall provide each unit owner written notice of the vote to forego retrofitting of the required handrails or guardrails, or both, in at least 16-point bold type, by certified mail, within 20 days after the association's vote. After such notice is provided to each owner, a copy of such notice shall be provided by the current owner to a new owner prior to closing and shall be provided by a unit owner to a renter prior to signing a lease.

(2) As part of the information collected annually from condominiums, the division shall require condominium associations to report the membership vote and recording of a certificate under this subsection and, if retrofitting has been undertaken, the per-unit cost of such work. The division shall annually report to the Division of State Fire Marshal of the Department of Financial Services the number of condominiums that have elected to forego retrofitting.

Section 17. *By July 1, 2019, the State Fire Marshal shall issue a data call to all local fire officials to collect data regarding high-rise condominiums greater than 75 feet in height which have not retrofitted with a fire sprinkler system or an engineered life safety system in accordance with ss. 633.208(5) and 718.112(2)(l), Florida Statutes. Local fire officials shall submit such data to the State Fire Marshal and shall include, for each individual building, the address, the number of units, and the number of stories. By July 1, 2020, all data must be received and compiled into a report by city and county. By September 1, 2020, the report must be sent to the Governor, the President of the Senate, and the Speaker of the House of Representatives.*

And the title is amended as follows:

Delete line 892 and insert: private provider, with exceptions; amending s. 718.112, F.S.; requiring condominium associations to ensure compliance with the Florida Fire Prevention Code; requiring associations to retrofit certain high-rise buildings with either a fire sprinkler system or an engineered life safety system as specified in the
