LFIR # 1767

The funds will contribute to the construction budget of a Village fire station, police offices, post office, and municipal government services.

c. What direct services will be provided to citizens by the appropriation project?

Citizens will enjoy a brand new emergency and municipal complex that will improve their relationship and engagement with local government. Once built, first responders will be located in the municipality's boundaries and provide faster response times to residents in need of emergency services.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population served by this project is the general population of North Bay Village. Given that the population of North Bay Village is just over 8,000 residents, it is fair to assume this Emergency and Municipal Complex will serve approximately 10,000 residents including several thousand residing outside the municipality's boundaries.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The main benefit of this project is improved response times of first responders, including fire rescue and police personnel. This project will provide the infrastructure necessary to accommodate the projected growth of administrative and first responder staff as the municipality sees a population increase over the next several years.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The agency will not be reimbursed for project activities that do not meet the deliverables or performance measures.
