Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 1704

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Miami-Dade Fire Rescue (MDFR) planned Eureka Fire-Rescue Station 71 will be located at 15450 SW 184 Street, Miami, FL 33187. Station 71 will be manufactured by Extreme Modular Buildings and will be a 3,580-square-foot of one (1) Engine Bay with five (5) personnel dormitories, bathrooms, a kitchen and day room. Additional supporting spaces to conduct all fire operations will also be included. At present time, Rescue 71 is operating from Modello Fire-Rescue Station 6 located at 15890 SW 288 Street, Miami, FL 33033. Upon completion of the new Station 71, Rescue 71 will be relocated to it's permanent station.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2024-2025

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	1,000,000
Total State Funds Requested	1,000,000

7. Total Project Cost for Fiscal Year 2024-2025 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	1,000,000	28%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	2,600,000	72%
Other	0	0%
Total Project Costs for Fiscal Year 2024-2025	3,600,000	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 1704

If yes, indicate the amount of funds received and what the funds were used for.

Miami-Dade County received \$2,608,188,975.73 to provide financial aid to, among others, small businesses, veterans, senior meals, restaurants, hotel workers, first responders, landlords, low-income tenants, nonprofits, and day care centers; county services and also direct distributions to Miami-Dade municipalities.

Complete questions 11 and 12 for Fixed Capital Outlay Projects

11. Status of Construction

a. What is the current phase of the project?

- Planning
 Design
 Construction
 N/A

b. Is the project "shovel ready" (i.e permitted)?

No

c. What is the estimated start date of construction?

5/7/2024

d. What is the estimated completion date of construction?

12/21/2024

12. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

Miami-Dade County

13. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Site development, architectural and engineering consultants and purchase of Extreme Modular Building	1,000,000
Total State Funds Requested (must equal total from question #6)		1,000,000

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 1704

Station 71 would allow MDRF to immediately address the increased demands for fire-rescue services resulting from significant current and projected population and construction growth in South Miami-Dade County (SMDC). In addition to 10% population growth in the last 10 years, MDRF identified 66 new developments in SMDC undergoing or approved through the County's CDMP, adding more than 17,846 residential units and nearly one million sq.ft. of commercial space to the area in the next five years.

b. What activities and services will be provided to meet the intended purpose of these funds?

Implementation of Temporary Station 71 at 15450 SW 184 Street (Eureka Drive), will allow MDRF to relocate Rescue 71, currently operating out of Station 6 at 15890 SW 288 Street, to its permanent location and enhance service to the intended community by reducing response times to emergency care.

c. What direct services will be provided to citizens by the appropriation project?

Residents and visitors within the Station 71 service territory will benefit from reduced response times for Advanced Life Support (ALS) and fire emergency services. The rescue unit will enhance service delivery and improve response times to communities in the immediate area served by the station, as well as neighboring communities, which have been facing increases in service demands over the past five years, coinciding with population growth and economic development.

d. Who is the target population served by this project? How many individuals are expected to be served?

Approximately 118,000 residents reside within the proposed service area and surrounding communities. From October 1, 2022 through September 30, 2023, MDRF responded to 5,029 incidents within the proposed service area. Eureka Fire-Rescue Station 71 is projected to respond to 1,608 calls within the new proposed territory.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Construction of Eureka Fire-Rescue Station 71 is expected to alleviate service demands currently handled by existing fire-rescue resources (units) and reduce response times to incidents occurring within the proposed service area. MDRF utilizes Computer Aided Dispatch (CAD) data to track response times, unit availability, and unit reliability, which will be the key performance measures analyzed to determine that the intended outcomes are being met. The construction of Eureka Fire-Rescue Station 71 and relocation of Rescue 71 is expected to have a positive impact on response times, as well as a positive impact on existing units responding to incidents in South Miami-Dade County, as those units availability and reliability will likely increase with the addition of the new fire-rescue station.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failure to meet deliverables will result in non-payment
