Fiscal Year 2024-2025

LFIR # 3226

The proposed drainage improvements project will reduce flooding and standing water. This will improve the functionality of Burnett Park and the adjacent roadways. This will also reduce the risk of flooding to nearby homes during major storms.

b. What activities and services will be provided to meet the intended purpose of these funds?

The drainage infrastructure in this area will be greatly improved. This will allow residents to better access the park and increase the park's usage after rains. The safety of the roadways will also be improved due to a reduced risk of flooding.

c. What direct services will be provided to citizens by the appropriation project?

Citizens will be provided with upgraded drainage collection in this area.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is the users of Burnett Park, as well as anyone who travels on Burnett Park Road or Hampton Road.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit is to reduce flooding and standing water in the vicinity of the proposed project. This can be measured by reviewing the area after storms once the project is completed.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Money per day for not meeting contract deliverables.
