

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2023-2024

LFIR # 1146

1. **Project Title**
2. **Senate Sponsor**
3. **Date of Request**

4. Project/Program Description

During significant storm events, stormwater runoff floods the SW 185th Way and SW 69th Street intersection. Constructing a stormwater conveyance system on SW 69th Street and SW 185th Way Right of Way to outfall into an existing South Broward Drainage District secondary canal west of SW 185th Way will improve the level of service of the intersection during storm events. A proper stormwater collection and conveyance system needs to be constructed to ensure that water within SW 69th Street and SW 185th Way right-of-way is conveyed properly into the existing secondary canal to the west.

5. **State Agency to receive requested funds**

State Agency contacted? Yes

6. Amount of the Nonrecurring Request for Fiscal Year 2023-2024

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	340,200
Total State Funds Requested	340,200

7. Total Project Cost for Fiscal Year 2023-2024 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	340,200	77%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	100,000	23%
Other	0	0%
Total Project Costs for Fiscal Year 2023-2024	440,200	100%

8. **Has this project previously received state funding?** No

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. **Is future funding likely to be requested?** No

a. **If yes, indicate nonrecurring amount per year.**

b. **Describe the source of funding that can be used in lieu of state funding.**

Increase in ad valorem taxes.

10. **Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?**

Yes

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2023-2024

LFIR # 1146

If yes, indicate the amount of funds received and what the funds were used for.

\$3.9 million ARPA funds - use to be determined.
 \$50,000 CARES Act via Broward County - Telework, sanitation.

Complete questions 11 and 12 for Fixed Capital Outlay Projects

11. Status of Construction

a. What is the current phase of the project?

- Planning
 Design
 Construction

b. Is the project "shovel ready" (i.e permitted)? No

c. What is the estimated start date of construction? 10/1/2023

d. What is the estimated completion date of construction? 6/30/2024

12. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

This drainage project will be completed within Southwest Ranches owned land and right-of-way.

13. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	This project includes surveying, design and construction. Construction excavation, installation of storm drainage piping, clearing and grubbing, constructing concrete catch basins and inlets with grates, headwalls, grading, back-filling and street repair and repaving, installation of erosion control measures, and installation of swales and grass sodding.	340,200
Total State Funds Requested (must equal total from question #6)		340,200

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2023-2024

LFIR # 1146

The project goal is to provide flood relief and improved water quality to all our constituents. This project is part of the Town's overall resiliency efforts to create a healthy community while improving water quality. This project will remove flood waters from roads in this heavily traveled area. It will provide critical drainage capacity for storm-water runoff, thereby reducing roadway flooding (both volume and duration), and the frequency of property damage and personal injury.

b. What activities and services will be provided to meet the intended purpose of these funds?

The project includes but is not limited to the furnishing of all labor, materials, tools, equipment, machinery, expertise, services, and all else necessary for proper construction and completion of the project consisting of excavation, installation of storm drainage piping, clearing and grubbing, constructing concrete catch basins and inlets with grates, headwalls, coring of existing catch basins, grading, back-filling and street repair and repaving, installation of erosion control measures, and installation of swales and grass sodding.

c. What direct services will be provided to citizens by the appropriation project?

The project will remove flood waters from roadways in the heavily traveled area of Southwest Ranches. It will provide critical drainage capacity for storm-water runoff, thereby reducing roadway flooding and the frequency of property damage and personal injury to motorists and pedestrians.

d. Who is the target population served by this project? How many individuals are expected to be served?

The execution of this project will provide flood relief to all of our constituents. It is a highly traveled area that serves as a major collector for traffic for the City of Weston and City of Pembroke Pines. It also serves as emergency access routes during evacuations and other emergency purposes.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The Town and South Broward Drainage District have long established the need to improve water quality and combat eutrophication in the S9 and S-10 basins. These respective basins are sampled regularly by SBDD and the Town has partnered with SBDD to try and continually improve the readings displaying nutrient loading with respect to total nitrogen and total phosphorous. The purpose of this project is multi-faceted, with one objective set to reduce stormwater staging in the basins and the other to significantly increase water quality in the S9 and S10 basins.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

De-obligation of funding.

15. Requester Contact Information

a. First Name **Last Name**

b. Organization

c. E-mail Address

d. Phone Number **Ext.**

16. Recipient Contact Information

a. Organization

b. Municipality and County

c. Organization Type

- For Profit Entity
- Non Profit 501(c)(3)
