Total State Funds Requested (must equal total from question #6)

### The Florida Senate Local Funding Initiative Request Fiscal Year 2023-2024

LFIR # 2632

### 14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The TMA is seeking funds for capital investment from the State of Florida. The state's contribution of \$10 million this year, and additional support over the next two years, will triple the museum's education and outreach programs across Hillsborough County and the Tampa Bay Region to serve over 63,000 students per year by 2025, quadruple the number of at-risk children and adults served in therapeutic art sessions, and expand the museum's art therapy programming from 1,300 to 10,500 participants annually.

b. What activities and services will be provided to meet the intended purpose of these funds?

The expansion of TMA focuses on increasing educational and tour programming for students in Hillsborough County schools; art-therapy informed programming through art-making and training for undergraduate students working with individuals with mental health disorders; and services for at-risk children and adults in therapeutic art sessions.

c. What direct services will be provided to citizens by the appropriation project?

Direct services include museum collections and community engagement programs, education programs focused on meeting various state standards, art therapy-informed programming as interventions for mental health challenges, Art Space programming engaging at-risk youth, studio tours and classes, and military/veteran and "Museums for All" admission to promote attendance for individuals of all backgrounds.

d. Who is the target population served by this project? How many individuals are expected to be served?

TMA expects to serve over 120,000 individuals by 2025 as a result of the expansion project. Target populations include elderly persons; persons with poor mental health; persons with poor physical health; economically disadvantaged persons; at-risk youth; homeless; physically disabled; drug users (in health services); preschool, grade school, and high school students; University/College students; and the general public (The majority of funds will benefit no specific group).

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The following benefits/outcomes are expected: Improve mental health (measure: participant surveys and attendance); Enrich cultural experience (measure: increased attendance from minority, majority, and economically disadvantaged zip code regions); Improve quality of education (measure: benchmark assessment of improved performance of students via Hillsborough County Schools); Improve transportation conditions (measure: visitor/guest feedback survey); Increase/Improve economic activity (measure: TMA increase in revenue); Increase Tourism (measure: Zip code data for increased visitors); Create job opportunities (measure: positions filled for construction, contractors, and programming expansion).

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Dispersed funds	for deliverables not	met will be returned t	o the state.
