c. What direct services will be provided to citizens by the appropriation project?

Decreased roadway congestion by decreasing the number of trips to the landfill by solid waste collection vehicles. This decrease in trips also reduces roadway wear and tear generated by the solid waste collection vehicles. Also, by using more efficient haul vehicles, green house emissions are reduced.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population would be a significant portion of Escambia County by helping to keep service costs low and reduce traffic impacts.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Monthly truck mileage reports should show reduction in overall distance traveled. Reduced energy usage by solid waste collection vehicles should be evident at refill station. Customer complaints for missed pickups should be less frequent.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Revocation of appropriation funds.
