

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 2835

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

The project is comprised of the installation of a stormwater system and flood protection within a Special Flood Hazard Area that is characterized with 38 single family homes and 7 commercial parcels comprised of 16 different businesses. LiDAR data shows this area is the lowest point within the sub-basin between two lateral canals. The stormwater project includes the installation of exfiltration trench, catch basins and legal positive outfall connection to properly drain the area.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2024-2025

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	502,421
Total State Funds Requested	502,421

7. Total Project Cost for Fiscal Year 2024-2025 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	502,421	50%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	502,421	50%
Other	0	0%
Total Project Costs for Fiscal Year 2024-2025	1,004,842	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

Fiscal Year 2024-2025

LFIR # 2835

ARPA (\$12million) stimulus funds were used for stormwater projects, cybersecurity enhancements, and revenue replacement.

Complete questions 11 and 12 for Fixed Capital Outlay Projects

11. Status of Construction

a. What is the current phase of the project?

- Planning
 Design
 Construction
 N/A

b. Is the project "shovel ready" (i.e permitted)?

No

c. What is the estimated start date of construction?

Summer 2024

d. What is the estimated completion date of construction?

Summer 2025

12. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The stormwater facilities are owned and maintained by the Village of Palm Springs (Public Works Department). The installation of the drainage/flood protection improvements will be overseen by the Village, and the facilities will maintained by the Public Works Department.

13. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Installation of 18" exfiltration trench piping, 7 new catch basins, and a type "e" inlet with weir. Construction will occur within existing road right-of-way and includes reshaping of grass swales along the residential street.	502,421
Total State Funds Requested (must equal total from question #6)		502,421

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 2835

The goal is to provide a stormwater system and flood protection within a Special Flood Hazard Area that is characterized with 38 single family homes and 7 commercial parcels comprised of 16 different businesses. LiDAR data shows this area is the lowest point within the sub-basin between two lateral canals. The stormwater project includes the installation of exfiltration trench, catch basins and legal positive outfall connection to properly drain the area.

b. What activities and services will be provided to meet the intended purpose of these funds?

Completion of the stormwater/flood protection project by installing an 18-inch exfiltration trench and 8 catch basins within the Lorene Drive right-of-way, with connection to an existing 15' drainage pipe outfalling to the L-9 canal. The provision of legal positive outfall of stormwaters to prevent flooding of homes and businesses within a Special Flood Hazard Area.

c. What direct services will be provided to citizens by the appropriation project?

Installation of 290' of exfiltration trench and restore 3530 linear feet of grass swale to provide percolation of stormwaters to improve water quality and minimize flow to outfall pipe. The completed drainage project to provide protection against a 100-year storm event.

d. Who is the target population served by this project? How many individuals are expected to be served?

The project will provide flood protection within a Special Flood Hazard Area (AE Flood Zone) that is comprised of 38 single-family homes (estimated 95 residents) and 7 commercial parcels with 16 separate businesses.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The project will provide legal positive outfall of stormwaters to prevent flooding of homes and businesses within a Special Flood Hazard Area. Completion of the stormwater/flood protection project by installing an 18-inch exfiltration trench and 8 catch basins within the Lorene Drive right-of-way, with connection to an existing 15' drainage pipe outfalling to the L-9 canal.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Reimbursement of funds to the State
