Fiscal Year 2023-2024

LFIR # 1444

FAAST will continue the expanded number of reutilization services provided by assistive technology reutilization partners, purchase new assistive technology devices for our short-term loan program, and continue the increased assistive technology services provided through Regional Demonstration Centers.

b. What activities and services will be provided to meet the intended purpose of these funds?

All assistive technology services described in the federal Assistive Technology Act: assistive technology device demonstrations, device short-term loans, public awareness activities (information and assistance and device training), and device reutilization.

c. What direct services will be provided to citizens by the appropriation project?

Compare and contrasting assistive technology devices to ensure an individual makes the most appropriate decision on which device will work best for them. The ability to borrow an assistive technology device at no cost to use in their home, work, or school environment. Citizens will have the ability through these services to be trained on assistive technology devices (this could be devices they currently own or intend to purchase). Citizens will also be able to recycle their durable medical equipment through this program and can obtain lightly used or refurbished durable medical equipment at no cost to them.

d. Who is the target population served by this project? How many individuals are expected to be served?

Individuals who have disabilities (all disabilities) and elderly persons. This funding request is estimated to provide 2,026 services to individuals.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improve access to and acquisition of assistive technology. Performance Measures collected and reported in National Assistive Technology Act Data System's Annual Progress Report requested by the Administration for Community Living and the Florida Department of Education (built into contract with DOE). Survey questions used to address performance measures: primary purpose for which demonstrated assistive technology is needed and decision making outcome; primary purpose of short-term loan and decision making outcomes; reason for accessing loaned assistive technology; and primary purpose for which assistive technology is needed and reason for using the reuse program.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Current contract with Department of Education, Division of Vocational Rehabilitation #21-101 includes financial consequences for not meeting deliverables and performance measures.
