| Total State Funds Requested (m | Total State Funds Requested (must equal total from question #6) 220,000 | | | |

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Utilities Administration Building houses the professional staff responsible for the functions of a full-service utility, including management, customer service, finance, engineering, technology services, and compliance. During emergency response events, such as hurricanes, the Administration Building serves as the command center for the coordinated response and recovery efforts to protect public health and safety. The generator replacement will allow Polk County Utilities to continue providing the services described above.

LFIR # 1678

b. What activities and services will be provided to meet the intended purpose of these funds?

Polk County Facilities Management Division will provide project management services and budget oversight through out the project from the beginning until project closeout.

c. What direct services will be provided to citizens by the appropriation project?

The Utilities Administration Building houses the professional staff responsible for the functions of a full-service utility, including management, customer service, finance, engineering, technology services, and compliance. During emergency response events, such as hurricanes, the Administration Building serves as the command center for the coordinated response and recovery efforts to protect public health and safety. The generator replacement will allow Polk County Utilities to continue providing the services described above during a power outage.

d. Who is the target population served by this project? How many individuals are expected to be served?

The citizens/residents of Polk County and visitors to Polk County. 800K+/-

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The level of service will be determined by the support required to provide uninterrupted services to the citizens/residents and visitors to Polk County. The Polk County Utilities Administration Building serves as the command center for the coordinated response and recovery efforts to protect public health and safety. The generator replacement will allow Polk County Utilities to continue providing the services required needed by citizens and residents during a power outage.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failing to support the required uninterrupted services to the citizens/residents and visitors to Polk County will increase the time required by Polk County Utilities Administration to perform their duties which will reduce the level of confidence and respect Polk County's citizens have for the Polk County Utilities Division.
