

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 2812

1. Project Title
2. Senate Sponsor
3. Date of Request

4. Project/Program Description

This project consists of construction upgrades to existing (old and outdated drainage systems) throughout the City with the following boundaries: Area encompassing SW 30th Street to the North; Countyline Road to the South; SW 32nd Avenue to the East; and SW 48th Avenue to the West. The proposed improvement areas were identified in the City's Storm Water Management Master Plan, which was completed by Calvin, Giordano & Associates, as immediate water projects. The proposed improvements will provide much needed water quality standards and required flood mitigation. These improvements will include a) catch basins; b) drainage pipes and drainage outlets; c) trenches; d) curbs; e) gutters; and f) drainage structures. Both residents and businesses will benefit from these much-needed citywide drainage improvements.

5. State Agency to receive requested funds
- State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2024-2025

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	2,000,000
Total State Funds Requested	2,000,000

7. Total Project Cost for Fiscal Year 2024-2025 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	2,000,000	50%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	2,000,000	50%
Other	0	0%
Total Project Costs for Fiscal Year 2024-2025	4,000,000	100%

8. Has this project previously received state funding?

Fiscal Year (YYYY-YY)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		

9. Is future funding likely to be requested?
- a. If yes, indicate nonrecurring amount per year.
- b. Describe the source of funding that can be used in lieu of state funding.
-

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 2812

If yes, indicate the amount of funds received and what the funds were used for.

The City was awarded \$7,557,380.00 in American Rescue Plan Act funds. These funds were used to obtain Personal Protective Equipment (PPE), provide Rental, Mortgage, and Utilities Assistance, Small Businesses, Vaccinations, Capital Improvement, etc.

Complete questions 11 and 12 for Fixed Capital Outlay Projects

11. Status of Construction

a. What is the current phase of the project?

- Planning
 Design
 Construction
 N/A

b. Is the project "shovel ready" (i.e permitted)?

c. What is the estimated start date of construction?

d. What is the estimated completion date of construction?

12. List the owners of the facility to receive, directly or indirectly, any fixed capital outlay funding. Include the relationship between the owners of the facility and the entity.

The City of West Park will directly receive any fixed capital outlay funding.

13. Details on how the requested state funds will be expended

Spending Category	Description	Amount
Administrative Costs:		
Executive Director/Project Head Salary and Benefits		0
Other Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Operational Costs: Other		
Salary and Benefits		0
Expense/Equipment/Travel/Supplies/Other		0
Consultants/Contracted Services/Study		0
Fixed Capital Construction/Major Renovation:		
Construction/Renovation/Land/Planning Engineering	Construction to provide much needed water quality standards and required flood mitigation. These improvements will include a) catch basins; b) drainage pipes and drainage outlets; c) trenches; d) curbs; e) gutters; and f) drainage structures.	2,000,000
Total State Funds Requested (must equal total from question #6)		2,000,000

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 2812

The purpose of the project is to help the community with much needed drainage upgrades along the following boundaries: Area encompassing SW 30th Street to the North; Countyline Road to the South; SW 32nd Avenue to the East; and SW 48th Avenue to the West. This will help with National Pollutant Discharge Elimination System (NPDES) support and foster public benefit to residents and business owners within the community. The proposed improvement will provide much needed water quality standards and required flood mitigation. These improvements will include a) catch basins; b) drainage pipes and drainage outlets; c) trenches; d) curbs; e) gutters; and f) drainage structures.

b. What activities and services will be provided to meet the intended purpose of these funds?

The proposed improvement will provide much needed water quality standards and required flood mitigation. These much-needed construction improvements will include a) catch basins; b) drainage pipes and drainage outlets; c) trenches; d) curbs; e) gutters; and f) drainage structures. These improvements will also assist with minimizing property damage (vehicles and homes) with heavy rain fall, ponding, or water intrusion. In addition, students and pedestrians will have less exposure to the harms caused by walking through flood waters (loss of clothing, mosquito bites, etc.). Research shows, moving water can knock a pedestrian down and sweep a vehicle away.

c. What direct services will be provided to citizens by the appropriation project?

The direct services that will be provided to citizens will include updated wastewater system with better connectivity and water quality. Customize drainage consisting of high-quality French drains used to incept water, which eradicates flood opportunities, and threat to life and property. The project will help the community to meet National Pollutant Discharge Elimination System (NPDES) requirements by addressing erosion and sediment control. These improvements will also assist with minimizing property damage (vehicles and homes) with heavy rainfall or ponding water. In addition, students and pedestrians will have less exposure to the harms caused by walking through flood waters (loss of clothing, mosquito bites, etc.). Research shows, moving water can knock a pedestrian down and sweep a vehicle away.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population served will be the residents of the City of West Park. Regardless of age, gender, race, income level, or any other demographics, residents will be the target population. Business owners will also benefit from these much-needed drainage upgrades. We expect this project to impact 2,000 people (motorists, pedestrians, students, Americans with Disabilities Act, etc.).

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

The expected benefit or outcome for this project will be as follows: The measurable outcome will be an improved water and wastewater system with better connectivity and water quality. The area has poorly designed surface drainage system with opportunities for illicit connection and discharge. There can also be propensity for flooding, mosquitoes and threat to life and property. Funds will help customize drainage consisting of high-quality French drains used to incept water, which eradicates flood opportunities, and threat to life and property. Our methodology will be reduced flooding and better connectivity for residents, businesses, visitors, pedestrians and motorists. The project will also conform with ADA.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The contract will have standard language that will include Liquidated Damages and conditions.

15. Requester Contact Information

a. First Name Last Name

b. Organization

c. E-mail Address

d. Phone Number Ext.
