Currently, district personnel use dip nets and have 1995 truck that we put the debris into; it takes six men 2 to 3 days to get this accomplished. This piece of equipment is a one-man operation much more efficient and safer. This would be a tremendous asset to the cities we serve, Pahokee, Belle Glade, South Bay and Clewiston as well as incorporated Lake Harbor and Canal Point. It is a vital piece of equipment that would be used to unclog culverts and structures for flood protection and It would reduce the wear and tear on pumps within our system as well as the network of canals within Palm Beach County and Hendry.
