### Fiscal Year 2023-2024

LFIR # 1750

1. Project Title Naussau County - County Rd 108 Extension (Paralleling east/west corridor to SR200/A1A through Yulee)

2. Senate Sponsor Clay Yarborough

3. Date of Request 02/17/2023

#### 4. Project/Program Description

The North Florida TPO (NFTPO) LRTP and Nassau County's Comprehensive Mobility Plan identify the County Road 108 Extension as a critical link to the County and Regional mobility network. Providing an east-west corridor north of and paralleling SR 200/A1A, which is part of Florida's Strategic Inter modal System (SIS), is critical for Nassau County's and Northeast Florida's transportation network over the next twenty years in response to predicted population growth in the area. The County Road 108 Ext. Will provide an alternative corridor for commuters traveling east/west through Nassau, provide an alternative evacuation route, and reduce trips on Florida's SIS. Because of the critical nature of the improvement, the corridor is identified in the NFTPO's LRTP, the County-wide Mobility Plan, the County's Future Transportation Map Series, and the East Nassau Community Planning Area Sector Plan's Mobility Plan. The seven mile roadway project has an estimated cost of approximately \$30M.

#### 14. Program Performance

##### a. What specific purpose or goal will be achieved by the funds requested?

Improve local and regional mobility, improve the overall transportation network in Nassau County and Northeast Florida, provide an alternative evacuation route, improve freight/resource hauling routes to and reduce trips on a segment of Florida's Strategic Inter modal System [SR200/A1A between I95 and Amelia Island/Port of Fernandina].

##### b. What activities and services will be provided to meet the intended purpose of these funds?

Nassau County is requesting the Legislature fund the design and permitting of the project to extend CR 108 from US 17 to Chester Road. The NFTP and Nassau County have identified this project as a critical component of the Northeast Florida Regional transportation system. Design and permitting is the first step in executing installation of the improvements. The County is currently collecting Mobility Fees to support development of the comprehensive mobility network in Nassau County.

##### c. What direct services will be provided to citizens by the appropriation project?

Improve local and regional mobility, improve the overall transportation network in Nassau County and Northeast Florida, provide an alternative evacuation route, and reduce trips on a segment of Florida's Strategic Inter modal System [SR200/A1A between I95 and Amelia Island/Port of Fernandina].

##### d. Who is the target population served by this project? How many individuals are expected to be served?

The more than 1.6 million residents that reside in the Jacksonville MSA, the more than 1.5 million visitors annually to Amelia Island, and those freight/resource haulers accessing the Port of Fernandina and the two paper mills on Amelia Island. By extension, the improvements serve the greater interests of the State by promoting industrial commerce, facilitating the State's tourism economy, reducing trips on the Strategic Inter modal System, and creating a new evacuation route.

##### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improve local and regional mobility, improve the overall transportation network in Nassau County and Northeast Florida, provide an alternative evacuation route, and reduce trips on a segment of Florida's Strategic Inter modal System [SR200/A1A between I95 and Amelia Island/Port of Fernandina].

##### f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Standard contract penalties are sufficient.
