Fiscal Year 2023-2024

LFIR # 2152

Installation of new equipment that will protect from unwanted access to the network and also create a backup system inaccessible from the network outside of backup operations.

c. What direct services will be provided to citizens by the appropriation project?

Protect Putnam County's data and computer infrastructure network from criminal and/or malicious assault.

d. Who is the target population served by this project? How many individuals are expected to be served?

All citizens of Putnam County as well as visitors to the county will be served by this project.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

These hardware and software upgrades are essential to protecting Putnam County's data and network from malicious and criminal assault which could endanger the integrity of all information necessary to serve the public. The lack of network transgression by internal or external sources will be the qualitative indicator of the intended benefits of the project being realized.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Standard contract penalties are sufficient.
