The county will oversee all required activities and services relating to this project and ensure the completion of the project.

**c. What direct services will be provided to citizens by the appropriation project?**

The construction of a new EMS substation will ensure faster EMS responses to the citizens throughout the eastern part of the county. The county will also save money since they currently rent a building for EMS.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

The general population will be served by this project. This EMS substation will serve over 12,000 citizens.

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The expected outcome from this project is to have faster medical response times in the eastern part of the county. The county will be able to measure this benefit by the ambulance records showing calls and times for response.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

Agency standard contract penalties are sufficient.
