Your Florida legislature has been working tirelessly to pass legislation and balance the budget to present to Governor DeSantis. I'm incredibly proud that we moved forward one of my bills, SB 1114, focusing on buckling down Homeowner's Associations. SB 1114 is ready for the Senate floor as well as SB 398 which specifies statutes of limitation periods for certain actions involving real estate appraisers and appraisal management companies.

Looking forward to Sine Die next week to come back to the District with ample good news on all the incredible things we did in Tallahassee this legislative session.

Sincerely,
Senator Ana Maria Rodriguez
