	d. What is the e	estimated comp	pletion date of construction?		
12			y to receive, directly or indirect ners of the facility and the ent	outlay funding. Include the	

13. Details on how the requested state funds will be expended

Spending Category	Description		
Administrative Costs:			
Executive Director/Project Head Salary and Benefits	Project Management - Responsibility for project execution, risk mitigation and cost control	172,500	
Other Salary and Benefits	Legal and Accounting services	20,000	
Expense/Equipment/Travel/Supplies/ Other	Travel expenses required for Training and Supervision of effective program delivery. Application hosting. Office rent, supplies and utilities.	94,000	
Consultants/Contracted Services/Study	FDLE - Research and Data Analysis	100,000	
Operational Costs: Other			
Salary and Benefits	Application Development team essential for client customizations (Software Developers, Database Administrators, Quality Control, Engineers) Direct training and supervision onsite with clients. Supervision and Oversight supervision.	543,500	
Expense/Equipment/Travel/Supplies/ Other	Wearable devices and training equipment	320,000	
Consultants/Contracted Services/Study	Functional movement consultant to offer prescriptive guidance for prevention and rehabilitation of injuries.	50,000	
Fixed Capital Construction/Majo	r Renovation:		
Construction/Renovation/Land/ Planning Engineering		0	
Total State Funds Requested (m	ust equal total from question #6)	1,300,000	

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

LFIR # 2440

The Readiness, Resiliency and Optimization of our First Responders lacks a coordinated and scalable infrastructure. In Partnership with FDLE, Tallahassee Community College and Indian River State College we will create the first foundation for a common human-centric data standard, shared best practices and prescriptive approach to readiness and resiliency. This approach includes the physical, mental and digital Testing, Tracking, and Training our first responders from Academy to Inservice.

b. What activities and services will be provided to meet the intended purpose of these funds?

TITUS is proposing a 3-T Model of Testing, Tracking and Training for our First Responders. This 3-T Model consists of Sleep-Strain-Recovery wearables, Scalable/Digital Assessments methods, Modular and Connected Training Facilities, and a Human-Centric Data Architecture which includes a seamless ingestion of data from commercial devices and external healthcare.

c. What direct services will be provided to citizens by the appropriation project?

The direct service will be an empowered First Responder who will optimize their physical and mental readiness thus maximizing public safety and minimizing operational risk throughout the State of Florida. This will be accomplished by creating an effective Test, Trak, Train model which will quantify and qualify best practices for holistic readiness.

d. Who is the target population served by this project? How many individuals are expected to be served?

General	public
Contona	pablic.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Improve physical health: Tracking optimal Sleep, Strain and Recovery with digital movement screens using an integrated wearable device. The infrastructure empowers First Responders to take action and reduce injury by tracking fitness through the modular physical and digital infrastructure.

Improve mental health: Tracking Sleep, Strain, and Recovery allows First Responders to establish baselines and communicate with experts for optimal performance by minimizing down time and maximizing readiness and resiliency efforts. Sleep tracking is an effective way to track the mental health of an individual and will help mitigate strategies to optimize First Responders through an objective and digital experience, a holistic readiness strategy can be scaled.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Failure to meet deliverables or performance measures will result in either the inability to draw down all of the appropriated funds or the repayment of funds to the agency.
