## Local Funding Initiative Request

### Fiscal Year 2023-2024

LFIR # 3011

This project would mitigate all flood issues that occur in these specific areas. The City would see a significant cost savings within their public works department due to not having to restore any damages caused by local flooding. Also, private property owners will not incur any flood damages from the City's poorly functioning storm water system.

**b. What activities and services will be provided to meet the intended purpose of these funds?**

Rehabilitation of two (2) storm water ponds, new drainage structure, new storm drain pipes, and any restoration to existing roadways needed due to construction process.

**c. What direct services will be provided to citizens by the appropriation project?**

The citizens that live in these specific areas would be provided a functional storm water system in their neighborhoods. Thus, the opportunity for private property flooding would be eliminated.

**d. Who is the target population served by this project? How many individuals are expected to be served?**

>1,000

**e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?**

The City would see a significant cost savings within their public works department due to not having to restore any damages caused by local flooding. Also, private property owners will not incur any flood damages from the City's poorly functioning storm water system.

**f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?**

The City of Quincy has the proper processes in place to meet all deliverables and performance measures with in the time frame allowable if approved for funding. The city is cognizant of all state and federal requirements for reporting and compliance necessary to administer funding to successfully complete the project scope with no penalties.
