#### 4. Project/Program Description

The Host Homes for Homeless Youth is an intensive program that provides parent education and family reunification, helps manage challenges, and works with students who are at risk or already experiencing homelessness. Miami Bridge would recruit homes to host youth as an intervention for youth who are currently experiencing homelessness for various reasons including family conflict, poverty, gender identification and sexual orientation. The goal of our host homes is to provide a safe, temporary welcoming space for up to six months. This would give program youth the time and opportunity to repair their relationships with family members or explore other housing options with the support and guidance of caring staff. The Host Home's process is an intensive, individualized care management process for youths with serious or complex needs who are suffering from homelessness. This program conducts universal screening of all youth and targets youth ages 17-21 who may have high needs.

#### 14. Program Performance

#### a. What specific purpose or goal will be achieved by the funds requested?

The goal is to prevent youth from living on the street. With previous funds received, we exceeded our goal of serving 20 youth. Youth receive permanent housing, mental health counseling (as needed) and services to prepare them for independent, job readiness, academic support. Funds requested for this year are to maintain services, enhance wraparound services, and develop a youth drop-in center so that youth can meet, feel safe, clean up and receive emergency funds and support.

#### b. What activities and services will be provided to meet the intended purpose of these funds?

Case Managers will provide services to youth in the areas of counseling, community support groups, case management and intensive in-home services and parenting sessions. Additionally, Needs Assessments and Service Plans are developed with the youth to assist them in meeting their educational, employment, housing and well-being needs. The Drop-in Center will provide immediate aids and services to youth who have been on the streets, as well provide a safe space to meet with case managers.

#### c. What direct services will be provided to citizens by the appropriation project?

Training will be provided to community members who volunteer to participate in housing the youth. On-going case management services, counseling, trouble shooting and oversight is provided to the youth and will be offered to the host family. There will be collaboration with partner organizations, the opportunity to attend community meetings and on-going support and consultation.

#### d. Who is the target population served by this project? How many individuals are expected to be served?

The target population includes 10, age 17 youth who have been, or are at serious risk of removal from their homes and require more intensive in-home services to prevent removal. It is the intent of this program to provide intensive case management and support for parents, relatives and non-relatives in order to prevent youth removal. In addition, we are serving 20 youth, ages 18-21 who are awaiting permanent housing. These youth are representative of the dependency system that have no permanent connections and may end up homeless upon exiting the system.

### e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

- 1. To obtain stable housing for the youth. 70% of youth exiting the program will transition to a family, friend or permanent home where they feel safe and satisfied about their housing situation.
- 2. Improve quality of education. 70% of youth participating in the program will demonstrate academic progress (pursue GED/HS Diploma/enroll in Vocational Program).
- 3. Improve Self-Sufficiency. 70% of youth will participate in a job readiness program or obtain a part-time job during the program and continued employment 30 days post completion of program.
- 4. Improve mental health. 70% of youth demonstrate during the program and at exit avoidance of at-risk behaviors, access mental health services and have not placed themselves or others in imminent harm. Youth complete self-reports and/or surveys 30 days from program exit.
