## Local Funding Initiative Request

### Fiscal Year 2024-2025

LFIR # 2019

1. **Project Title**

2. **Senate Sponsor**

3. **Date of Request**

**4. Project/Program Description**

Compliance with 282.709, Florida Statutes, implementing a statewide communications system to provide law enforcement personnel with a shared radio system that achieves effective inter-agency, inter-operable communications; coordinated communications with local public safety entities; a viable solution to radio frequency congestion; replacement of older, agency-specific systems without duplication of effort. The requested radios would ensure seamless communications, even when we travel beyond our radio antennas reach since it uses LTE technology. Along with being able to GPS locate an officer's exact location, the increased safety and security of that officer is greatly increased. The technology afforded in this new radio system allows for on scene incident commanders and our communications center to have real time data to locate, identify and post resources during an incident.
