

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 2706

1. Project Title

2. Senate Sponsor

3. Date of Request

4. Project/Program Description

Constructed in the 1980's, the existing A-14 control structure did not provide the upstream basin with any water quality benefits. Using current South Florida Water Management District design standards, the proposed structure is designed to provide water quality treatment for the upstream A-14 Sub-Basins. Replacement of the critical stormwater structure will include water quality enhancements before discharge into the North Fork of the St. Lucie River Aquatic Preserve.

5. State Agency to receive requested funds

State Agency contacted?

6. Amount of the Nonrecurring Request for Fiscal Year 2024-2025

Type of Funding	Amount
Operations	0
Fixed Capital Outlay	525,000
Total State Funds Requested	525,000

7. Total Project Cost for Fiscal Year 2024-2025 (including matching funds available for this project)

Type of Funding	Amount	Percentage
Total State Funds Requested (from question #6)	525,000	75%
Matching Funds		
Federal	0	0%
State (excluding the amount of this request)	0	0%
Local	175,000	25%
Other	0	0%
Total Project Costs for Fiscal Year 2024-2025	700,000	100%

8. Has this project previously received state funding?

Fiscal Year (yyyy-yy)	Amount		Specific Appropriation #	Vetoed
	Recurring	Nonrecurring		
2023-24	0	0		No

9. Is future funding likely to be requested?

a. If yes, indicate nonrecurring amount per year.

b. Describe the source of funding that can be used in lieu of state funding.

10. Has the entity requesting this project received any federal assistance related to the COVID-19 pandemic?

If yes, indicate the amount of funds received and what the funds were used for.

Construction/Renovation/Land/Planning Engineering	Construction of a brand new 200' wide storm water facility that will allow for additional storage and water quality before entering the North Fork of the St. Lucie River Aquatic Preserve.	525,000
Total State Funds Requested (must equal total from question #6)		525,000

14. Program Performance

a. What specific purpose or goal will be achieved by the funds requested?

The Florida Senate

Local Funding Initiative Request

Fiscal Year 2024-2025

LFIR # 2706

The City of Port St. Lucie is requesting funding for the A-14 Control Structure Replacement that will provide increased water quality treatment for the upstream basin. The A-14 Drainage Control Structure was originally constructed in 1981 and is no longer functioning as designed. The City will remove and replace the structure with a v-notch bleeder design. The proposed structure will provide the upstream A-14 Sub-Basins with approximately 26.63 acre-feet of water quality volume.

b. What activities and services will be provided to meet the intended purpose of these funds?

Demolition and total reconstructure to the original structure.

c. What direct services will be provided to citizens by the appropriation project?

Significant public safety improvement to insure that the structure will protect residents downstream of the facility to manage flooding potential.

d. Who is the target population served by this project? How many individuals are expected to be served?

50,000.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Perform random water quality testing after "first flush" weather events.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

Return funding to the State.

15. Requester Contact Information

a. First Name **Last Name**

b. Organization
