3. Date of Request

4. Project/Program Description

The City of Bristol is seeking funding to provide curb reconstruction and multi-use sidewalks to the downtown State Road 20 corridor through Bristol to enhance the City and promote economic growth. Therefore, the city has developed a plan for revitalizing the downtown area. The City currently has funding through the CDBG-DR Hometown Revitalization grant for new welcome signs, sidewalk repairs, dilapidated property acquisition, lighting improvements and sidewalk repair. Reconstructing the SR 20 curb and providing the adequate room for wider sidewalks, landscaping and benches would be a tremendous boost to the City of Bristol. The current look and esthetic of downtown is not welcoming to new businesses wanting to open or relocate.

The City of Bristol is seeking funding to provide curb reconstruction ,multi-use sidewalks, hardscape and landscaping elements to the downtown corridor to construct the complete streets project. Due to several past events such as Hurricane Michael and the Coronavirus; the downtown area has been significantly impacted. The current look and esthetic of downtown is not welcoming to new businesses wanting to open or relocate. Therefore, the city has developed a plan for revitalizing the downtown area.

b. What activities and services will be provided to meet the intended purpose of these funds?

In this project, the existing curb line will be removed and reconstructed closer to the edge of the travel lane and eliminating the rarely utilized on-street parking. A new 8' concrete, multi-use path will then be constructed along with drainage improvements and hardscape (benches) as well as some landscaping elements.

c. What direct services will be provided to citizens by the appropriation project?

The City performed outreach events to get input from the City citizens in 2019-2020 and there was overwhelming support from the community for improvements to the Commercial Corridor along Highway 20 including: sidewalks, lighting, streetscaping, parks and clean-up of derelict buildings. There was an overall general sense that the community lacked a "downtown" feel that encouraged businesses and residents to locate in the area and that these improvements would help to make the community more inviting to future opportunities.

d. Who is the target population served by this project? How many individuals are expected to be served?

The target population is the City of Bristol citizens and the thousands of vehicles that drive along State Road 20 through Bristol every day, over 4,000+.

e. What is the expected benefit or outcome of this project? What is the methodology by which this outcome will be measured?

Reconstructing the SR 20 curb and providing the adequate room for wider sidewalks, landscaping and benches would be a tremendous boost to the City of Bristol. Additional surveying can be performed to get a sense of the feeling from the public.

f. What are the suggested penalties that the contracting agency may consider in addition to its standard penalties for failing to meet deliverables or performance measures provided for the contract?

The Auditor General audits for both the Town and State agencies. If the project is not completed within the requirements outlined in the grant award, the funding may be withdrawn.
