

THE FLORIDA SENATE  
2021 SUMMARY OF LEGISLATION PASSED  
**Committee on Transportation**

**CS/SB 100 — Highway Projects**

by Appropriations Committee and Senators Harrell and Taddeo

The bill repeals the Multi-use Corridors of Regional Economic Significance (M-CORES) program and related provisions and instead creates programs related to arterial highway projects. More specifically, the bill:

- Authorizes the Florida Department of Transportation (FDOT) to upgrade existing arterial roadways with targeted improvements, such as adding new tolled or non-tolled limited access alignments to manage congestion points and retrofitting roadways with tolled or non-tolled grade separations that provide alternatives to a signalized intersection for through traffic.
- Prohibits reduction of any non-tolled general use lanes of an existing facility, requires maintenance of existing access points, and limits the location of any tolling points such that a non-tolled alternative exists for local traffic.
- Provides that all existing applicable requirements relating to FDOT or turnpike projects apply to any projects undertaken. Further, the FDOT and the Florida Turnpike Enterprise must take into consideration the guidance and recommendations of any previous studies or reports relevant to the projects.
- Directs the FDOT to develop by December 31, 2035, and include in the work program, construction of controlled access facilities to achieve free flow of traffic on U.S. 19 and requires the facility to be developed using existing or portions of existing roadway by specified improvements.
- Directs the FDOT to identify and include in the work program projects to widen certain two lane arterial rural roads serving high volumes of truck traffic to four lanes.
- Directs the FDOT to begin the project development and environmental phase for a project to extend the Florida Turnpike from its current terminus in Wildwood to a terminus as determined by the FDOT, and to submit a summary report by December 31, 2022.

The revenue redirected to the State Transportation Trust Fund (STTF) as a result of the 2019 M-CORES legislation is retained in the STTF and is dedicated for purposes of funding the authorized controlled access facility projects and widening projects on arterial rural highways. Additionally, beginning July 1, 2023, the distribution of \$35 million to the Florida Turnpike Enterprise for feeder roads and related projects is discontinued; such funds will remain in the STTF to support statewide transportation priorities.

If approved by the Governor, these provisions take effect July 1, 2021, except as otherwise provided.

*Vote: Senate 39-1; House 115-0*
