consultation with sponsors ~~school districts~~ and charter school directors, shall recommend that the State Board of Education adopt rules to implement specific subsections of this section. Such rules shall require minimum paperwork and shall not limit charter school flexibility authorized by statute. The State Board of Education shall adopt rules, pursuant to ss. 120.536(1) and 120.54, to implement a standard charter application form, standard application form for the replication of charter schools in a high-performing charter school system, standard evaluation instrument, and standard charter and charter renewal contracts in accordance with this section.

Section 3. Paragraph (a) of subsection (2) and paragraph (b) of subsection (3) of section 1002.331, Florida Statutes, are amended to read:

1002.331 High-performing charter schools.—

(2) A high-performing charter school is authorized to:

(a) Increase its student enrollment once per school year to more than the capacity identified in the charter, but student enrollment may not exceed the capacity of the facility at the time the enrollment increase will take effect. Facility capacity for purposes of ~~grade level~~ expansion shall include any improvements to an existing facility or any new facility in which ~~a majority of~~ the students of the high-performing charter school will enroll.

A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and

the grade levels that will be added, as applicable. If a charter school notifies the sponsor of its intent to expand, the sponsor shall modify the charter within 90 days to include the new enrollment maximum and may not make any other changes. The sponsor may deny a request to increase the enrollment of a high-performing charter school if the commissioner has declassified the charter school as high-performing. If a high-performing charter school requests to consolidate multiple charters, the sponsor shall have 40 days after receipt of that request to provide an initial draft charter to the charter school. The sponsor and charter school shall have 50 days thereafter to negotiate and notice the charter contract for final approval by the sponsor.

(3)

(b) A high-performing charter school may submit ~~not establish more than~~ two applications for a charter school to be opened ~~schools~~ within this ~~the~~ state under paragraph (a) at a time determined by the high-performing charter school ~~in any year~~. A subsequent application to establish a charter school under paragraph (a) may not be submitted unless each charter school applicant commences operations or an application is otherwise withdrawn ~~established in this manner achieves high-performing charter school status~~. However, a high-performing charter school may establish more than one charter school within this ~~the~~ state under paragraph (a) in any year if it operates in the area of a persistently low-performing school and serves students from that school. This paragraph applies to any high-performing charter school with an existing approved application.

Section 4. Paragraph (c) of subsection (1), paragraphs (a),

(g), and (h) of subsection (6), paragraph (d) of subsection (7), and paragraph (b) of subsection (10) of section 1002.333, Florida Statutes, are amended to read:

1002.333 Persistently low-performing schools.—

(1) DEFINITIONS.—As used in this section, the term:

(c) "Persistently low-performing school" means a school that has earned three grades lower than a "C," pursuant to s. 1008.34, in at least 3 of the previous 5 years that the school received a grade and has not earned a grade of "B" or higher in the most recent 2 school years, and a school that was closed pursuant to s. 1008.33(4) within 2 years after the submission of a notice of intent.

(6) STATUTORY AUTHORITY.—

(a) A school of hope or a nonprofit entity that operates more than one school of hope through a performance-based agreement with a school district may be designated as a local education agency by the department, if requested, for the purposes of receiving federal funds and, in doing so, accepts the full responsibility for all local education agency requirements and the schools for which it will perform local education agency responsibilities.

1. A nonprofit entity designated as a local education agency may report its students to the department in accordance with the definitions in s. 1011.61 and pursuant to the department's procedures and timelines.

2. Students enrolled in a school established by a hope operator designated as a local educational agency are not eligible students for purposes of calculating the district grade pursuant to s. 1008.34(5).

(g) Each school of hope that has not been designated as a local education agency shall report its students to the school district as required in s. 1011.62, and in accordance with the definitions in s. 1011.61. The school district shall include each charter school's enrollment in the district's report of student enrollment. All charter schools submitting student record information required by the department shall comply with the department's guidelines for electronic data formats for such data, and all districts shall accept electronic data that complies with the department's electronic format.

(h)1. A school of hope shall provide the school district with a concise, uniform, quarterly financial statement summary sheet that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance shall be in the governmental fund format prescribed by the Governmental Accounting Standards Board. Additionally, a school of hope shall comply with the annual audit requirement for charter schools in s. 218.39.

2. A school of hope is in compliance with subparagraph 1. if it is operated by a nonprofit entity designated as a local education agency and if the nonprofit submits to each school district in which it operates a school of hope:

a. A concise, uniform, quarterly financial statement summary sheet that contains a balance sheet summarizing the revenue, expenditures, and changes in fund balance for the entity and for its schools of hope within the school district.

b. An annual financial audit of the nonprofit that includes all schools of hope it operates within this state and that

complies with s. 218.39 regarding audits of a school board.

(7) FACILITIES.—

(d) No later than January ~~October~~ 1, the department ~~each school district~~ shall annually provide to school districts ~~the Department of Education~~ a list of all underused, vacant, or surplus facilities owned or operated by the school district as reported in the Florida Inventory of School Houses. A school district may provide evidence to the department that the list contains errors or omissions within 30 days after receipt of the list. By each April 1, the department shall update and publish a final list of all underused, vacant, or surplus facilities owned or operated by each school district, based upon updated information provided by each school district. A hope operator establishing a school of hope may use an educational facility identified in this paragraph at no cost or at a mutually agreeable cost not to exceed $600 per student. A hope operator using a facility pursuant to this paragraph may not sell or dispose of such facility without the written permission of the school district. For purposes of this paragraph, the term "underused, vacant, or surplus facility" means an entire facility or portion thereof which is not fully used or is used irregularly or intermittently by the school district for instructional or program use.

(10) SCHOOLS OF HOPE PROGRAM.—The Schools of Hope Program is created within the Department of Education.

(b) Notwithstanding s. 216.301 and pursuant to s. 216.351, funds allocated for the purpose of this subsection which are not disbursed by June 30 of the fiscal year in which the funds are allocated may be carried forward for up to 7 ~~5~~ years after the

effective date of the original appropriation.

Section 5. Paragraph (d) of subsection (1) of section 1002.45, Florida Statutes, is amended to read:

1002.45 Virtual instruction programs.—

(1) PROGRAM.—

(d) A virtual charter school may provide full-time or part-time virtual instruction for students in kindergarten through grade 12 if the virtual charter school has a charter approved pursuant to s. 1002.33 ~~authorizing full-time virtual instruction~~. A virtual charter school may:

1. Contract with the Florida Virtual School.

2. Contract with or be an approved provider under subsection (2).

3. Contract with any public school or charter school ~~Enter into an agreement with a school district~~ to allow the participation of the virtual charter school's students in courses that the virtual school is unable to provide ~~the school district's virtual instruction program~~. The agreement must indicate a process for reporting of student enrollment and the transfer of funds required by paragraph (7)(e).

Section 6. Paragraph (a) of subsection (1) of section 1003.493, Florida Statutes, is amended to read:

1003.493 Career and professional academies and career-themed courses.—

(1)(a) A "career and professional academy" is a research-based program that integrates a rigorous academic curriculum with an industry-specific curriculum aligned directly to priority workforce needs established by the local workforce development board or the Department of Economic Opportunity.

Career and professional academies shall be offered by public schools and school districts. Career and professional academies may be offered by charter schools. The Florida Virtual School is encouraged to develop and offer rigorous career and professional courses as appropriate. Students completing career and professional academy programs must receive a standard high school diploma, the highest available industry certification, and opportunities to earn postsecondary credit if the academy partners with a postsecondary institution approved to operate in the state.

Section 7. Present subsection (3) of section 1008.3415, Florida Statutes, is redesignated as subsection (4), and a new subsection (3) is added to that section, to read:

1008.3415 School grade or school improvement rating for exceptional student education centers.—

(3) The Commissioner of Education, upon request by a charter school that is an exceptional student education center and that has received two consecutive ratings of "maintaining" or higher pursuant to s. 1008.341(2), shall provide a letter to the charter school and to the charter school's sponsor stating that the charter school may replicate its educational program in the same manner as a high-performing charter school under s. 1002.331(3).

Section 8. Subsection (2) of section 1012.32, Florida Statutes, is amended to read:

1012.32 Qualifications of personnel.—

(2)(a) Instructional and noninstructional personnel who are hired or contracted to fill positions that require direct contact with students in any district school system or

university lab school must, upon employment or engagement to provide services, undergo background screening as required under s. 1012.465 or s. 1012.56, whichever is applicable.

(b)1. Instructional and noninstructional personnel who are hired or contracted to fill positions in a ~~any~~ charter school other than a school of hope as defined in s. 1002.333, and members of the governing board of such ~~any~~ charter school, in compliance with s. 1002.33(12)(g), ~~must,~~ upon employment, engagement of services, or appointment, shall undergo background screening as required under s. 1012.465 or s. 1012.56, whichever is applicable, by filing with the district school board for the school district in which the charter school is located a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the school or school district who is trained to take fingerprints.

2. Instructional and noninstructional personnel who are hired or contracted to fill positions in a school of hope as defined in s. 1002.333, and members of the governing board of such school of hope, shall file with the school of hope a complete set of fingerprints taken by an authorized law enforcement agency, by an employee of the school of hope or school district who is trained to take fingerprints, or by any other entity recognized by the Department of Law Enforcement to take fingerprints.

(c) Instructional and noninstructional personnel who are hired or contracted to fill positions that require direct contact with students in an alternative school that operates under contract with a district school system must, upon employment or engagement to provide services, undergo background

screening as required under s. 1012.465 or s. 1012.56, whichever is applicable, by filing with the district school board for the school district to which the alternative school is under contract a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the school or school district who is trained to take fingerprints.

(d) Student teachers and persons participating in a field experience pursuant to s. 1004.04(5) or s. 1004.85 in any district school system, lab school, or charter school must, upon engagement to provide services, undergo background screening as required under s. 1012.56.

Required fingerprints must ~~shall~~ be submitted to the Department of Law Enforcement for statewide criminal and juvenile records checks and to the Federal Bureau of Investigation for federal criminal records checks. A person subject to this subsection who is found ineligible for employment under s. 1012.315, or otherwise found through background screening to have been convicted of any crime involving moral turpitude as defined by rule of the State Board of Education, shall not be employed, engaged to provide services, or serve in any position that requires direct contact with students. Probationary persons subject to this subsection terminated because of their criminal record have the right to appeal such decisions. The cost of the background screening may be borne by the district school board, the charter school, the employee, the contractor, or a person subject to this subsection. A district school board shall reimburse a charter school the cost of background screening if it does not notify the charter school of the eligibility of a

governing board member or instructional or noninstructional personnel within the earlier of 14 days after receipt of the background screening results from the Florida Department of Law Enforcement or 30 days of submission of fingerprints by the governing board member or instructional or noninstructional personnel.

Section 9. Paragraph (a) of subsection (1) of section 1013.62, Florida Statutes, is amended to read:

1013.62 Charter schools capital outlay funding.—

(1) For the 2020-2021 fiscal year, charter school capital outlay funding shall consist of state funds appropriated in the 2020-2021 General Appropriations Act. Beginning in fiscal year 2021-2022, charter school capital outlay funding shall consist of state funds when such funds are appropriated in the General Appropriations Act and revenue resulting from the discretionary millage authorized in s. 1011.71(2) if the amount of state funds appropriated for charter school capital outlay in any fiscal year is less than the average charter school capital outlay funds per unweighted full-time equivalent student for the 2018-2019 fiscal year, multiplied by the estimated number of charter school students for the applicable fiscal year, and adjusted by changes in the Consumer Price Index issued by the United States Department of Labor from the previous fiscal year. Nothing in this subsection prohibits a school district from distributing to charter schools funds resulting from the discretionary millage authorized in s. 1011.71(2).

(a) To be eligible to receive capital outlay funds, a charter school must:

1.a. Have been in operation for 2 or more years;

b. Be governed by a governing board established in the state for 2 or more years which operates both charter schools and conversion charter schools within the state;

c. Be an expanded feeder chain of a charter school within the same school district that is currently receiving charter school capital outlay funds;

d. Have been accredited by a regional accrediting association as defined by State Board of Education rule; ~~or~~

e. Serve students in facilities that are provided by a business partner for a charter school-in-the-workplace pursuant to s. 1002.33(15)(b); or

f. Be operated by a hope operator pursuant to s. 1002.333.

2. Have an annual audit that does not reveal any of the financial emergency conditions provided in s. 218.503(1) for the most recent fiscal year for which such audit results are available.

3. Have satisfactory student achievement based on state accountability standards applicable to the charter school.

4. Have received final approval from its sponsor pursuant to s. 1002.33 for operation during that fiscal year.

5. Serve students in facilities that are not provided by the charter school's sponsor.

Section 10. If any provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Section 11. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Appropriations Subcommittee on Education

BILL:	CS/CS/SB 1028
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); Education Committee; and Senator Hutson and others
SUBJECT:	Charter Schools
DATE:	April 21, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jahnke	Bouck	ED	**Fav/CS**
2.	Underhill	Elwell	AED	**Recommend: Fav/CS**
3.	Underhill	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1028 adds provisions for public postsecondary institutions to serve as a charter school sponsor, modifies provisions for hope operators, and authorizes a career and professional academy to be offered by a charter school. Specifically, the bill:

- Authorizes state universities and Florida College System (FCS) institutions to solicit applications and sponsor charter schools upon approval by the Department of Education (DOE).
- Provides that a state university sponsored charter school may serve students from multiple school districts to meet regional education or workforce demands, and an FCS sponsored charter school may serve students from any county within the college's service area to meet workforce demands.
- Authorizes an FCS institution that operates an approved teacher preparation program to operate additional charter schools.
- Provides that the board of trustees of a sponsoring state university or FCS institution charter school is a local educational agency for the purpose of receiving federal funds and accepting responsibility for all requirements in that role.
- Provides that students attending a state university or FCS institution sponsored charter school are not to be included in the school district's grade calculation.
- Establishes operational funding and capital outlay funding formulas for charter schools sponsored by a state university or FCS institution.
- Requires the DOE to collaborate to develop a charter school sponsor evaluation framework.

- Authorizes charter schools to provide career and professional academies and revises charter school enrollment limitations.
- Adds hope operators to the list of entities required to perform an annual financial audit.
- Modifies provisions that a high-performing charter school may submit two applications for a charter school within the state to be opened at a time determined by the high-performing charter school.
- Clarifies that instructional and noninstructional personnel at a school of hope must file with the school of hope, rather than the district school board as for other charter schools, a complete set of fingerprints taken by an authorized law enforcement agency or other recognized entity.
- Authorizes a charter school that is an exceptional student education center that receives a rating of "maintaining" or higher may replicate its educational program.
- Specifies that the limitation of one lab school per university does not apply to a university that establishes a lab school to serve a military installation within same county.
- Allows a virtual charter school to offer part-time instruction.
- Provides for a direct appeal in a charter dispute if a party wants to bypass mediation.
- Revises the procedures for immediately terminating a charter school.
- Provides for the award of attorney fees and costs in certain circumstances.

The fiscal impact of the bill is discussed in Section V.

The bill takes effect on July 1, 2021.

II. Present Situation:

The present situation for the relevant portions of the bill is discussed under the Effect of Proposed Changes of this bill analysis.

III. Effect of Proposed Changes:

Charter Schools

Present Situation

Charter schools are tuition-free public schools created through an agreement or "charter" that provides flexibility relative to regulations created for traditional public schools.[1] Forty-four states and the District of Columbia have enacted charter school laws as of January 2018.[2] Between the 2000-2001 and 2017-2018 school years, the percentage of all public schools that were charter schools increased from two to seven percent, and the total number of charter schools increased from 2,000 to 7,200. The percentage of public school students nationwide attending public charter schools increased from one to six percent between fall 2000 and fall 2017.[3]

[1] Florida Department of Education, Fact Sheet Office of Independent Education & Parental Choice, *Florida's Charter Schools* (October 2020), *available at* http://www.fldoe.org/core/fileparse.php/7696/urlt/Charter-Sept-2020.pdf.
[2] Education Commission of the States, *50-State Comparison Charter School Policies* http://ecs.force.com/mbdata/mbquestNB2C?rep=CS1708 (last visited March 17, 2021).
[3] National Center for Education Statistics, *Public Charter School Enrollment*, https://nces.ed.gov/programs/coe/indicator_cgb.asp (last visited March 17, 2021).

All charter schools in Florida are public schools and are part of the state's public education system.[4] During the 2019-2020 school year, over 329,000 students were enrolled in 673 charter schools in Florida. Sixty-nine percent of the students attending charter schools in the 2019-2020 school year were minorities. Hispanic students comprised 44 percent of Florida's charter school enrollment, and 19 percent were African-American students.[5]

Charter School Sponsors

Under current Florida law, a district school board may sponsor a charter school in the county over which the district school board has jurisdiction. In addition, a state university may sponsor a charter developmental research school (charter lab school).[6] FCS institutions may work with school districts to develop charter schools as provided for in law, but may not sponsor a K-12 charter school.[7]

A charter school sponsor has several responsibilities, including:

- Approving or denying charter school applications.
- Overseeing each sponsored school's progress toward the goals established in the charter.
- Monitoring the revenues and expenditures of the school.
- Ensuring that the school participates in the state's education accountability system.
- Intervening when a sponsored school demonstrates deficient student performance or financial instability.[8]

A sponsor must provide administrative and educational services and may withhold a fee of up to five percent of each charter school's total operating funds.[9]

Florida College System and State University Charter Schools

FCS institutions may work with school districts in the FCS institution's designated service area to develop charter schools that offer secondary education, including an option for students to receive an associate degree upon high school graduation. If an FCS institution offers a teacher preparation program, it may operate one charter school for students in kindergarten through grade 12 and must implement innovative blended learning instructional models for students in kindergarten through grade 8.[10]

[4] Section 1002.33(1), F.S.
[5] Florida Department of Education, Fact Sheet Office of Independent Education & Parental Choice, *Florida's Charter Schools* (October 2020), *available at* http://www.fldoe.org/core/fileparse.php/7696/urlt/Charter-Sept-2020.pdf.
[6] Section 1002.33(5)(a)1. and 2., F.S.
[7] FCS institutions may only sponsor a charter technical career center. Section 1002.33(5)(b)4., F.S. and Section 1002.34(3)(b), F.S.
[8] Section 1002.33(5)(b), F.S.
[9] Administrative and educational services include contract management services; full-time equivalent and data reporting services; exceptional student education administration services; services related to eligibility and reporting duties required to ensure that school lunch services under the National School Lunch Program; test administration services; processing of teacher certificate data services; and information services. Section 1002.33(20)(a)1. and 2., F.S.
[10] Section 1002.33(5)(b)4., F.S.

The table below lists the 15 FCS institution-operated charter schools in Florida:[11]

District Sponsor	Charter School	Affiliated FCS Institution
Charlotte	Florida SouthWestern Collegiate High School	Florida SouthWestern State College
Lee	Florida SouthWestern Collegiate High School	Florida SouthWestern State College
Manatee	State College of Florida Collegiate School - Bradenton	State College of Florida Manatee-Sarasota
Sumter	The Villages High School Early College Program	Lake-Sumter State College
Duval	San Jose Prep Charter	Florida State College at Jacksonville
Duval	Duval Charter at Baymeadows	Florida State College at Jacksonville
Duval	River City Science Academy	Florida State College at Jacksonville
Martin	Clark Advanced Learning Center	Indian River State College
Okaloosa	Collegiate High School at Northwest Florida State College	Northwest Florida State College
Polk	Polk State College Collegiate High School	Polk State College
Polk	Chain of Lakes Collegiate High School	Polk State College
Polk	Polk State Lakeland Gateway to College Charter High School	Polk State College
Pinellas	St. Petersburg Collegiate High School	St. Petersburg College
Pinellas	St. Petersburg Collegiate High School North Pinellas	St. Petersburg College
Sarasota	State College of Florida Collegiate School - Venice	State College of Florida Manatee-Sarasota

There are six existing university developmental research (laboratory) schools (lab schools). Of these, three are charter lab schools. Charter lab schools are not required to be established by the nearest state university.[12] The limitation of one lab school per university does not apply to charter lab schools authorized prior to June 1, 2003.[13] In considering an application to establish a charter lab school, a state university must consult with the district school board of the county in which the school is located. If a state university denies or does not act on the application, the applicant may appeal such decision to the State Board of Education (SBE).[14]

The table below lists the three charter lab schools operating in Florida:[15]

State University Sponsor	County	Charter Lab School
Florida Atlantic University	St. Lucie	Florida Atlantic University/St. Lucie Public Schools Palm Pointe Research School
Florida State University	Leon	Florida State University Schools
Florida State University	Broward	The Pembroke Pines Florida School

[11] Email, Department of Education (March 19, 2021) (on file with the Senate Committee on Education).
[12] Board of Governors, *2020 Agency Analysis of SB 1578* (Jan. 27, 2020), at 2. Developmental research (laboratory) schools (lab schools) are public schools. Each lab school must be affiliated with the college of education within the state university of closest geographic proximity. A lab school to which a charter has been issued is known as a charter lab school. Section 1002.32(2), F.S.
[13] Section 1002.32(2)(a), F.S.
[14] Section 1002.33(6)(g), F.S.
[15] Email, Department of Education (March 17, 2021) (on file with the Senate Committee on Education).

Sparsity Supplement for Developmental Research (lab) Schools

The FEFP recognizes the relatively higher operating cost of smaller districts due to sparse student populations through a statutory formula in which the variable factor is a sparsity index.[16] This index is computed by dividing the FTE student membership of the qualified district by the number of permanent senior high school centers, not to exceed three. For districts with at least 20,000 FTE, but no more than 24,000 FTE, the index is computed by dividing the total FTE by the number of permanent senior high school centers, not to exceed four.[17]

Each eligible lab school in operation as of September 1, 2013, with a permanent high school center must also receive a proportional share of the sparsity supplement.[18]

Effect of Proposed Changes

To address the needs of educational capacity, workforce qualifications, and career education opportunities that may extend beyond a school district's boundaries, the bill modifies s. 1002.33, F.S., and:

- Authorizes state universities and FCS institutions to solicit applications and sponsor charter schools upon approval by the SBE. A state university or FCS institution may deny an application for a charter school. Additionally:
  - A state university-sponsored charter school may serve students from multiple school districts to meet regional education or workforce demands.
  - An FCS-sponsored charter may exist in any county within its service area[19] to meet workforce demands; however, a charter school currently operated by an FCS institution is not eligible to be sponsored by an FCS institution until its existing charter with the school district expires. An FCS-sponsored charter may offer postsecondary programs leading to industry certifications for eligible charter school students.
- Removes the requirements that an FCS institution that operates an approved teacher preparation program:
  - May operate no more than one charter school; and
  - Implement an innovative blended learning instructional model for students in kindergarten through grade eight at a charter school it operates.
- Specifies that a charter's racial/ethnic balance must reflect that of nearby public schools rather than public schools located geographically within the district to address state university and FCS sponsored charter schools which may serve students from multiple school districts.
- Prohibits an FCS institution from reporting the full-time equivalent (FTE) for any students participating in FCS-sponsored charter schools who receive FTE funding through the FEFP.
- Clarifies that a student enrolled in a charter school sponsored by a state university or FCS institution may not be included in the calculation of the school district's grade.

The bill modifies s. 1002.32, F.S. to clarify that the limitation of one lab school per university does not apply to a legislatively allowed charter lab school, and:

[16] Florida Department of Education, *2020-21 Funding for Florida School Districts* (2020), available at http://www.fldoe.org/core/fileparse.php/7507/urlt/fefpdist.pdf.
[17] Section 1011.62(7), F.S.
[18] Section 1002.32(9)(a), F.S.
[19] FCS institution service areas are defined in s. 1000.21(3), F.S.

- Removes an obsolete authorization date;
- Updates Florida Atlantic University Charter lab as a K-12 school, instead of a 9-12 high school;
- Specifies that the limitation of one lab school per university does not apply to a university that establishes a lab school to serve a military installation within same county; and
- Authorizes all lab schools with permanent high school centers to receive a proportional share of the sparsity supplement, not just for those in operation prior to September 1, 2013.

To ensure charter school sponsor accountability, the bill requires the DOE, in collaboration with charter school sponsors and operators, to develop a sponsor evaluation framework that must address, at a minimum:

- The sponsor's strategic vision for charter school authorizing and progress towards that vision;
- Alignment of the sponsor's policies and practices to best practices for charter school authorizing;
- Academic and financial performance of all operating charter schools overseen by the sponsor; and
- The status of charter schools authorized by the sponsor, including approved, operating and closed schools.

The bill requires the DOE to compile the results of the evaluation framework, by sponsor, and add them to its annual charter school sponsor report.

The bill requires the sponsor to provide equal access to student information systems that at are used by public schools in the district or by schools in the sponsor's portfolio of charter schools if the sponsor is not a school district. Additionally, the sponsor must provide student performance data, such as standardized test scores and previous public school student report cards, for each student in the charter school.
The bill replaces the terms "public school district" with "public school system" and "school district" with "sponsor" to conform to the establishment of FCS institutions and state universities as authorized charter school sponsors.

Establishing a Charter School

Present Situation

Charter schools are created when an individual, a group of parents or teachers, a business, a municipality, or a legal entity submits an application to the school district; the school district approves the application; the applicants form a governing board that negotiates a contract with the district school board; and the applicants and district school board agree upon a charter or contract. The district school board then becomes the sponsor of the charter school. The negotiated contract outlines expectations of both parties regarding the school's academic and financial performance.[20]

[20] *See* Florida Department of Education, Charter Schools, *Frequently Asked Questions*, http://www.fldoe.org/schools/school-choice/charter-schools/charter-school-faqs.stml (last visited March 17, 2021).

Charter School Application

An application for a new charter school may be made by an individual, teachers, parents, a group of individuals, a municipality, or a legal entity organized under the laws of this state.[21] All charter applicants must prepare and submit a standard application, which:[22]

- Demonstrates how the school will use the guiding principles and meet the statutorily defined purpose of a charter school.
- Provides a detailed curriculum plan that illustrates how students will be provided services to attain the Sunshine State Standards.
- Contains goals and objectives for improving student learning and measuring that improvement.
- Describes the reading curriculum and differentiated strategies that will be used for students reading at grade level or higher and a separate curriculum and strategies for students who are reading below grade level.
- Contains an annual financial plan for each year requested by the charter for operation of the school for up to five years.
- Discloses the name of each applicant, governing board member, and all proposed education services providers; the name and sponsor of any charter school operated by each applicant, each governing board member, and each proposed education services provider that has closed and the reasons for the closure; and the academic and financial history of such charter schools, which the sponsor must consider in deciding whether to approve or deny the application.
- Contains additional information a sponsor may require.
- Documents, for the establishment of a virtual charter school, the applicant has contracted with a provider of virtual instruction services in accordance with law.[23]

A sponsor receives and reviews all charter school applications and, within 90 calendar days of receipt, must by majority vote approve or deny the application. A sponsor must receive and consider charter school applications received on or before February 1 of each year for charter schools to be opened 18 months later at the beginning of the school district's school year, or to be opened at a time determined by the applicant.[24]

If an application is denied, the sponsor must within ten calendar days provide specific written reasons, based upon good cause, for its denial to the applicant and the DOE.[25] The applicant has 30 calendar days to file an appeal with the SBE after the denial of or failure to act upon an application. The state board's decision is a final action subject to judicial review in the District Court of Appeal.[26]

Charter School Sponsor Reporting

A charter school sponsor must submit an annual report to the DOE summarizing the following:

[21] Section 1002.33(3)(a), F.S.
[22] Section 1002.33(6)(a), F.S. Charter school applications are incorporated into State Board of Education (SBE) Rule 6A-6.0786, F.A.C.
[23] Section 1002.45(1)(d), F.S.
[24] A sponsor may receive and consider applications after February 1, if it chooses. Section 1002.33(6)(b), F.S.
[25] Section 1002.33(6)(b)3.a.,F.S.
[26] Section 1002.33(6)(c)-(d), F.S.; *see also* s. 120.68, F.S.

- The number of draft applications received on or before May 1 and each applicant's contact information;
- The number of final applications received on or before August 1 and each applicant's contact information;
- The date each application was approved, denied, or withdrawn; and
- The date each final contract was executed.[27]

The DOE must compile the reported sponsor information into an annual report, by district, and post the information on its website by November 1 each year.[28]

Causes for Nonrenewal or Termination

A charter school sponsor must make student academic achievement for all students the most important factor when determining whether to renew or terminate a charter, but may terminate or not renew a charter for any of the following reasons:

- Failure to participate in the state's education accountability system or failure to meet the charter's requirements for student performance.
- Failure to meet generally accepted standards of fiscal management.
- Material violation of law.
- Other good cause shown.[29]

A sponsor must provide 90-days written notice to the charter school prior to termination or nonrenewal, except that a charter may be terminated immediately if the sponsor sets forth particular facts and circumstances indicating an immediate and serious danger to the health, safety or welfare of the students.[30] The sponsor must notify in writing the charter school's governing board, the charter school principal, and the DOE of an immediate termination. The governing board is entitled to a formal hearing with an administrative law judge (ALJ), who must issue a final order to the sponsor. The governing board may appeal the final order in the District Court of Appeal. Under these circumstances, the sponsor must assume operation of the charter school throughout the pendency of the hearing.[31]

Award of Attorney Fees and Costs

Current law provides the award of a reasonable attorney fees and costs to the prevailing party in a dispute between a sponsor and a charter school, including:

- A dispute under the charter;[32]
- The termination of nonrenewal of a charter school;[33] and
- Disputes relating to contracts for goods and services separate from the charter.[34]

---

[27] Section 1002.33(5)(b)1.k.(I)-(II), F.S.

[28] Section 1002.33(5)(b)1.k.(III)., F.S. *See* Florida Department of Education, *Annual Authorizer Report 2019* (2020), *available at* http://www.fldoe.org/core/fileparse.php/9905/urlt/19-AuthorizerReport.pdf.

[29] Section 1002.33(8)(a)1.-4., F.S.

[30] Section 1002.33(8)(b) and (c), F.S.

[31] Section 1002.33(8)(c), F.S. The administrative law judge must award the prevailing party reasonable attorney fees and costs incurred during the administrative proceedings and any appeals.

[32] Section 1002.33(7)(b), F.S.

[33] Section 1002.33(8)(b), F.S.

[34] Section 1002.33(20)(b), F.S.

For a charter school that is terminated immediately due to an immediate and serious danger to the health, safety or welfare of the school's students, the sponsor must assume operation of the charter school during any hearing to dispute the termination. Failure by the sponsor to assume and continue operation of the charter school must result in the awarding of reasonable costs and attorney's fees if the charter school prevails on appeal.[35]

Charter School Student Enrollment

Prospective students must apply for enrollment in a charter school, and if the number of applications exceeds the school's capacity, a random lottery must be used to determine which students are enrolled.[36] A charter school may give enrollment preference to the following specific student populations:[37]

- Students who are siblings of a student enrolled in the charter school.
- Students who are the children of a member of the governing board of the charter school.
- Students who are the children of an employee of the charter school.
- Students who are the children of:
  - An employee of the business partner of a charter school-in-the-workplace or a resident of the municipality in which the charter school is located; or
  - A resident or employee of a municipality that operates a charter school-in-a-municipality or allows a charter school to use a school facility or portion of land provided by the municipality for the operation of the charter school.
- Students who have successfully completed a voluntary prekindergarten education (VPK) program provided by the charter school or the charter school's governing board during the previous school year.
- Students who are the children of an active duty member of any branch of the United States Armed Forces.
- Students who attended or are assigned to failing schools and have received an opportunity scholarship to enroll and attend a higher performing school.[38]

A charter school may be exempt from specific enrollment requirements if the school is open to any student covered in an inter-district agreement and any student residing in the school district in which the charter school is located.[39] A charter school may limit the enrollment process only to target the following student populations:

- Students within specific age groups or grade levels.
- Students considered at risk of dropping out of school or academic failure.
- Students enrolling in a charter school-in-the-workplace or charter school-in-a-municipality.[40]
- Students residing within a reasonable distance of the charter school.

[35] Section 1002.33(8)(c), F.S.; *See also* Championship Academy of Distinction at Davie, Inc. v. Broward County School Board, Case No.20-4344F (Fla. DOAH Dec. 17, 2020). The final order denied the petitioners entitlement to attorney's fees and costs under s. 1002.33(c) finding that the fee provision under 1002.33(8)(b), F.S. is substantive, rather than procedural, and as such, it cannot be included among the procedures set forth in paragraph (b) that have been incorporated into s. 1002.33(8)(c), F.S.
[36] Section 1002.33(10)(b), F.S.
[37] Section 1002.33(10)(d)1.-7., F.S.
[38] Section 1002.38(2), F.S.
[39] Section 1002.33(10)(a), F.S.
[40] Section 1002.33(15), F.S.

- Students who meet established academic, artistic, or other eligibility standards.
- Students articulating from one charter school to another.
- Students living in a development in which a business entity provides the school facility and related property having an appraised value of at least $5 million.[41]

Effect of Proposed Changes

Charter School Application

The bill modifies s. 1002.33, F.S., by repealing an obsolete August 1 application deadline. The bill modifies the charter school application process to specify that an application may be submitted at any time, rather than by February 1.

The bill repeals the requirement that a charter school sponsor report on draft applications it receives and specifies that each sponsor's report to the DOE must reflect the applications it receives during the school year and up to August 1. The bill revises the date by which a sponsor must annually report the number of applications it receives from August 31 to November 1. Accordingly, the bill revises the date by which the DOE annually reports the number of applications on its website from November 1 to January 15.

Additionally, the bill allows a charter school to be opened at a time determined by the applicant and removes the requirement that the charter school initial startup commences with the beginning of the public school calendar for the district where the charter is granted.

Charter Contract

The bill authorizes a charter school to immediately appeal any formal or informal decision by a sponsor in a dispute regarding a charter contract to an administrative law judge. The appeal may occur if either the charter school or the sponsor do not wish to mediate the decision and indicates such a decision in writing.

The bill requires a school district that fails to implement the decision affirmed by a district court of appeal to reduce the administrative fees withheld to one percent for all charter schools operating in the school district. Such school district is required to file a monthly report detailing the reduction in the amount of administrative fees withheld. In addition, the bill specifies that upon execution of the charter, the sponsor can resume withholding the full amount of administrative fees but may not recover any fees that would have accrued during the period of noncompliance.

The bill specifies that changes to a charter school's curriculum consistent with state standards are deemed approved in terms of modifications to the charter, unless the sponsor determines in writing that the curriculum is inconsistent with state standards.

The bill specifies that, for the purpose of assisting the development of a charter school, a school district may enter into a nonexclusive interlocal agreement with federal and state agencies, counties, municipalities, and other government entities. An interlocal agreement between a school district and a federal or state agency, county, municipality, or other governmental entity

[41] Section 1002.33(10)(e), F.S.

which prohibits or limits the creation of a charter school within the geographic borders of the school district is void and unenforceable.

Charter School Student Enrollment

The bill expands the enrollment preference for students who complete the VPK program provided by the charter school to include students who complete the program at a provider with which the charter school has a written agreement.

The bill expands the criteria by which a charter school may limit the enrollment process to include students living in a development in which a developer, including any affiliated business entity or charitable foundation, contributes to the formation, acquisition, construction, or operation of one or more charter schools, facilities and related property in an amount equal to or having a total appraised value of at least $5 million.

Termination

In the case of an immediate termination of a charter school, the bill requires the sponsor to provide the facts and circumstances supporting the termination in writing. They must demonstrate that an immediate and serious danger exists to the charter school's students, that the immediate and serious danger is likely to continue, and that an immediate termination of the charter is necessary.

The bill authorizes a charter school sponsor to seek an injunction in circuit court to prohibit continued operation of a charter school if continued operation of the school would materially threaten the health, safety, or welfare of the students.

The bill removes the requirement for a sponsor to assume and continue operation of a charter school pending a hearing on the school's immediate termination.

Award of Attorney Fees and Costs

The bill revises requirements for awarding reasonable attorney fees and costs in disputes relating to charter schools by:

- Authorizing the prevailing party in the appeal of a charter school application denial to file an action with the Division of Administrative Hearings to recover reasonable attorney's fees and costs incurred during the denial and any appeals; and
- Authorizes an administrative law judge to award reasonable attorney fees and costs to the prevailing parting of any inunction, administrative proceeding, or appeal.

In addition, the bill authorizes any charter school that had administrative fees withheld to recover attorney fees and costs to enforce these requirements.

High-Performing Charter Schools

Present Situation

Charter schools and operators of systems of charter schools with a track record of academic excellence and financial stability may earn "high-performing" status.[42] A high-performing charter school is a charter school that during each of the three previous years:

- Received at least two school grades of "A" and no school grade below "B;"
- Has received an unqualified opinion[43] on each annual financial audit; and
- Has not received an annual financial audit that reveals a financial emergency condition.[44]

Initial eligibility for "high-performing" status is verified by the commissioner, upon request by a charter school. Thereafter, the commissioner must annually verify continued eligibility.[45]

High-performing charter schools may take advantage of various benefits, such as, the operator of a high-performing charter school may submit an application in any Florida school district to establish and operate a new charter school that substantially replicates one of its high-performing charter schools. The application process for such applications is streamlined to expedite approval.[46]

A high-performing charter school may not be replicated more than twice in any given year and may not replicate again until the new charter school achieves "high-performing" status.[47] Systems may replicate their high-performing charter schools using the same process applicable to high-performing charter schools.[48] Additionally, a high-performing charter school may have the term of its charter extended to up to 15 years.[49]

A high-performing charter school may increase the school's enrollment once per year to more than the capacity identified in the charter, but student enrollment may not exceed the capacity of the facility at the time the enrollment increase will take effect. If the school chooses to expand the grade levels it serves, e.g., a K-5 school adding grade six, the facility capacity must include any improvements to an existing facility or any new facility in which a majority of the high-performing charter school students will enroll. A high-performing charter school may also expand grade levels within kindergarten through grade 12 to add grade levels not already served as long as the increase in enrollment in either case does not exceed the current facility capacity.[50]

Effect of Proposed Changes

The bill modifies s. 1002.331, F.S., to allow a high-performing charter school to submit two applications at a time instead of two per year. Subsequent applications may be submitted so long

[42] Section 1002.331(1), F.S.
[43] An unqualified audit opinion means that the charter school's financial statements are materially correct.
[44] Section 1002.331(1), F.S.; *see* s. 218.503(1), F.S. (financial emergency conditions).
[45] Sections 1002.331(4) and 1002.332(2)(a), F.S.
[46] Section 1002.331(3)(a)1. and 2., F.S.
[47] Section 1002.331(3)(b), F.S.
[48] Section 1002.332(2)(b), F.S.
[49] Section 1002.331(2)(e), F.S.
[50] Section 1002.331(2)(a) and (b), F.S.

as each previous charter school application is withdrawn or has commenced operation instead of upon each school being designated high-performing.

The bill revises the determination of a high-performing charter school facility's capacity so that any expansion of enrollment, regardless of grade level expansion or where a majority of new students will be enrolled, is based on the school's facilities at the time the expansion will take effect.

The bill clarifies that a charter school is high-performing if the school received at least two consecutive grades of "A" in the most recent two school years for the years that the school received a grade or receives, during its first three years of operation, or funding through the National Fund of the Charter School Growth Fund, and has received no school grade lower than a "C," during each of the previous three school years for the years that the school received a grade.

Charter School Funding

Present Situation

Charter school operations, like other public schools, are funded through the Florida Education Finance Program (FEFP). Each charter school reports student enrollment to its sponsor for inclusion in the district's report of student enrollment for FEFP funding. Operating funds from the FEFP are distributed to the charter school by the sponsor. A charter school is entitled to receive its proportionate share of categorical funds included in the FEFP for qualifying students.[51] Categorical funds must be spent for specified purposes, such as student transportation, safe schools, and supplemental academic instruction.

Charter schools are eligible to receive federal education funding through such programs as the Individuals with Disabilities Education Act (IDEA), Title I programs for disadvantaged students, and Title II programs for improving teaching and leadership in the same manner as district school board-operated public schools and must be included in requests for federal funding by the school district or the DOE.[52] A high performing charter school system[53] governing board may be designated as a local educational agency for the purpose of receiving federal funds, the same as if the charter school system were in the school district, if the governing board of the charter school system has adopted and filed a resolution with its sponsoring district school board and the DOE.[54]

Capital outlay funding for charter schools consists of state funds when appropriated in the General Appropriations Act (GAA) and revenue resulting from discretionary millage authorized in law.[55] To be eligible to receive capital outlay funds, a charter school must:

[51] Section 1002.33(17)(a) and (b), F.S.
[52] Section 1002.33(17)(c), F.S.
[53] A high-performing charter school system is an entity that operated at least three high-performing charter schools in the state during each of the previous 3 school years; operated a system of charter schools in which at least 50 percent of the charter schools were high-performing charter schools and no charter school earned a school grade of "D" or "F", and did not receive a financial audit that revealed one or more of the financial emergency conditions. Section 1002.332 (1)(b), F.S.
[54] Section, 1002.33(25), F.S.
[55] Section 10013.62, F.S.

- Have operated for two or more years and meet specified requirements.[56]
- Have an annual audit that does not reveal any financial emergency conditions.
- Have satisfactory student achievement based on state accountability standards.
- Have received final approval from its sponsor for operation during that fiscal year.
- Serve students in facilities that are not provided by the charter school's sponsor.[57]

While each university receives additional state capital funding, unlike local school districts, university lab schools are dependent on funding from the Legislature for both operational and capital needs.[58]

Effect of Proposed Changes

The bill modifies s. 1002.33, F.S., to provide that students enrolled in a charter school sponsored by a state university or FCS institution be funded as if they are in a basic program or special program in the school district.

The bill establishes the basis for funding these students as the sum of the total operating funds for the school district in which the school is located as provided from the FEFP and the GAA, including gross state and local funds, discretionary lottery funds, and funds from each school district's current operating discretionary millage levy; divided by total funded weighted FTE students in the school district; and multiplied by the FTE membership of the charter school.

The bill specifies that a board of trustees of a sponsoring state university or FCS institution is the local education agency (LEA) for the charter schools it sponsors. As the LEA, the sponsor may receive federal funds and accepts full responsibility for the schools it oversees, including LEA requirements.

The DOE is required to develop a tool that each state university or FCS institution sponsoring a charter school must use for purposes of calculating the funding amount for each eligible charter school student. The total obtained by the calculation must be appropriated to the charter school from state funds in the GAA.

In addition, the bill requires capital outlay funding for state university or FCS-sponsored charter schools to be determined in accordance with the requirements established in law for other charter schools.

[56] Specified requirements include being governed by a governing board established in the state for two or more years which operates both charter schools and conversion charter schools within the state; being an expanded feeder chain of a charter school within the same school district that is currently receiving charter school capital outlay funds; having been accredited by a regional accrediting association as defined by State Board of Education rule; or serving students in facilities that are provided by a business partner for a charter school-in-the-workplace pursuant to s.1002.33(15)(b). Section 1013.62(1)(a), F.S.
[57] Section 10013.62(1)(a), F.S.
[58] Board of Governors, *2020 Agency Analysis of SB 1578* (Jan. 27, 2020) (on file with the Senate Committee on Education).

Exceptional Student Education Centers

Present Situation

Exceptional Student Education (ESE) is specially designed instruction and related services that are provided to students with disabilities and students who are identified as gifted.[59] A student may not be given special instruction or services as an ESE student until after the student has been properly evaluated and found eligible.[60]

With regard to students with disabilities, the IDEA requires school districts to make a free appropriate public education (FAPE) available to such students ages three through 21.[61] A FAPE must include special education and related services[62] that are provided by the public school system at no cost to the parent, which meet the standards of the state and which are in conformity with the student's individual educational plan (IEP).[63]

An ESE center is a separate public school to which nondisabled students ages six through 21 years of age do not have access.[64] For school accountability purposes, an ESE center school is one which is specifically designed to meet the needs of students with disabilities and in which all students in attendance in grades K-12 are identified as students with a disability.[65] Each ESE center must choose to receive a school grade based on student performance on statewide standardized assessments or to receive a school improvement rating.[66] An ESE center school that does not choose to receive a school grade must be assigned a school improvement rating of Commendable, Maintaining, or Unsatisfactory annually, and the school must assess at least 80 percent of their eligible students to receive a school improvement rating. A school that tests less than 90 percent of its students may not earn a rating higher than maintaining.[67]

The school improvement rating is calculated using student learning gains on statewide, standardized English Language Arts and Mathematics assessments for all eligible students who are enrolled in the school and who have assessment scores, concordant scores, or comparable scores for the preceding school year.[68]

[59] Section 1003.57(1)(b), F.S.; Rule 6A-6.03411(1)(m) and (n), F.A.C.
[60] Section 1003.57(1)(c), F.S.; *see also* Rule 6A-6.0331, F.A.C.
[61] 20 U.S.C. s. 1400(d)(1)(A); 34 C.F.R. s. 300.101; Rules 6A-6.03028(1) and 6A-6.03411(1)(p), F.A.C.
[62] "Related services" means "transportation and such developmental, corrective, and other supportive services as are required to assist a child with a disability to benefit from special education, and includes speech-language pathology and audiology services, interpreting services, psychological services, physical and occupational therapy, recreation, including therapeutic recreation, early identification and assessment of disabilities in children, counseling services, including rehabilitation counseling, orientation and mobility services, and medical services for diagnostic or evaluation purposes." "Related services" also include school health services and school nurse services, social work services in schools, and parent counseling and training. 34 C.F.R. s. 300.34 (a).
[63] 34 C.F.R. s. 300.17; Rule 6A-6.03411(1)(p), F.A.C.
[64] Section 1003.57(1)(a)1.a., F.S.
[65] Rule 6A-1.099828(2)(b), F.A.C.
[66] Section 1008.3415, F.S.; *see also* s. 1008.34(3)(a), F.S.
[67] Rule 6A-1.099822(3)(c)-(d), F.A.C.
[68] Section 1008.341(3), F.S.

The overall school improvement rating is calculated based on the percentage of possible points, 100 points are available for each component, earned by each school.[69] A school's overall improvement rating based, on applicable points earned, are as follows:

- "Commendable" – a significant percentage of students attending the school are making learning gains
- "Maintaining" – a sufficient percentage of students attending the school are making learning gains
- "Unsatisfactory" – an insufficient percentage of students attending the school are making learning gains

Effect of Proposed Changes

The bill modifies s. 1008.3415, F.S., by authorizing a charter school that is an exceptional student education center and receives two consecutive ratings of "maintaining" or higher to replicate its educational program. In addition, the bill requires the Commissioner of Education, upon request by a charter school, to verify that the charter school meets the specified requirements and provide a letter to the charter school and the sponsor stating that the charter school may replicate its educational program in the same manner as a high-performing charter school.

The bill modifies s. 1002.33, F.S., by specifying the charter school sponsor's administrative fee for up to two percent for enrollment of up to and including 250 students in an ESE center.

Virtual Instruction Programs

Present Situation

Florida law establishes a variety of options to make virtual instruction accessible to K-12 students. These options include:

- Full-time or part-time enrollment in a school district virtual instruction program;[70]
- Full-time enrollment in a virtual charter school;[71]
- Enrollment in individual virtual courses offered by school districts and approved by the DOE;[72] and
- Full-time and part-time enrollment in Florida Virtual Schools (FLVS) or school district FLVS franchises.[73]

The DOE is required to annually publish online a list of providers approved to offer virtual instruction programs in Florida. To be approved by the DOE, among other requirements specified in law, a virtual provider must document that the provider makes available to parents and students in their virtual program specific contact information. The contact information must be posted and accessible online and include, but is not limited to, the following teacher-parent and teacher-student contact information for each virtual course:

[69] Section 1008.341(4)(b)1, F.S.
[70] Section 1002.45, F.S.
[71] Sections 1002.33(1) and 1002.45(1)(d), F.S.
[72] Section 1003.498, F.S.
[73] Section 1002.45(2)(a), F.S.; see also Florida Department of Education, List of Approved Program and Course Providers, https://www.fldoe.org/schools/school-choice/virtual-edu/provider-resources/approved-providers/ (last visited April 7, 2021).

- How to contact the instructor via phone, e-mail, or online messaging tools.
- How to contact technical support via phone, e-mail, or online messaging tools.
- How to contact the administration office via phone, e-mail, or online messaging tools.
- Any requirement for regular contact with the instructor for the course and clear expectations for meeting the requirement.
- The requirement that the instructor in each course must, at minimum, conduct one contact via phone with the parent and the student each month.

Effect of Proposed Changes

The bill amends s. 1002.45, F.S. to allow a virtual charter school to offer part-time instruction. In addition, the bill removes the requirement for a virtual provider to contact a parent by phone only.

Career and Professional Academies

Present Situation

In 2007, the Legislature enacted the Florida Career and Professional Education (CAPE) Act to provide a statewide planning partnership between the business and education communities to attract, expand, and retain targeted, high-value industry and to sustain a strong, knowledge-based economy.[74] The primary purpose of the CAPE Act is to:

- Improve middle and high school academic performance by providing rigorous and relevant curriculum opportunities;
- Provide rigorous and relevant career-themed courses that articulate to post-secondary level coursework and lead to industry certification;
- Support local and regional economic development;
- Respond to Florida's critical workforce needs; and
- Provide state residents with access to high-wage and high-demand careers.[75]

Each school board must offer career and professional academies[76] and include plans to implement a career and professional academy or career-themed course in at least one middle school in the district as part of its three-year strategic plan.[77] A career and professional academy is a research-based program that integrates a rigorous academic curriculum with an industry-specific curriculum aligned directly to priority workforce needs.[78] During the 2019-20 school year, 67 school districts, as well as, the Florida Virtual School, Florida School for Deaf and Blind, the Florida State University School, and the Florida A&M University Laboratory School registered 1,706 high school and 301 middle school career and professional academies with 194,197 participating students.[79]

[74] Section 1003.491, F.S.
[75] *Id*. at (1).
[76] Section 1003.493(1)(a), F.S.
[77] Section 1003.4935(1), F.S.
[78] Section 1003.493(1)(a), F.S.
[79] Florida Department of Education, *Career and Professional Education Act, Enrollment and Performance Report, 2019-20* (2021), *available at* http://www.fldoe.org/core/fileparse.php/9904/urlt/1920capepr.pdf.

Current law does not expressly authorize charter schools to offer career and professional academies.

Effect of Proposed Changes

The bill modifies s. 1003.493 F.S., to authorize charter schools to provide career and professional academies. This may increase the number of charter middle and high schools offering career and professional academies to better meet career and workforce needs.

Schools of Hope

Present Situation

In 2017, the Legislature established the Schools of Hope Program to provide students in areas of persistently low-performing schools the opportunity to access a high-quality education designed to close the opportunity gap and increase student achievement.[80] A school of hope is defined as a charter school operated by a hope operator to serve students from one or more persistently low-performing schools; is located within the attendance zone of the persistently low-performing school or within a five mile radius of the school, whichever is greater; and is a Title I eligible school.[81]

Under the Schools of Hope Program administered by the DOE, a school of hope may receive additional funding for certain expenses such as funds for initial school facility leasing, hiring instructional support personnel, or acquiring supplies and educational materials, along with other expenses specified in law. Funds allocated that are not disbursed by June 30 of the fiscal year in which the funds are allocated may be carried forward for up to five years.[82]

A school of hope may request that the SBE designate the school as an LEA for the purposes of receiving federal funds. As an LEA, the school accepts the full responsibility for all LEA requirements and the schools for which it will perform LEA responsibilities. Students enrolled in a school established by a hope operator designated as an LEA are not eligible students for purposes of calculating a district's school grade.[83]

A school of hope must report its students to the school district for purposes of determining the school district's full-time equivalent FTE membership in calculating the FEFP.[84]

<u>Persistently Low Performing Schools</u>

A persistently low-performing school is a school that has earned three grades lower than a "C" in at least three of the previous five school years and has not earned a grade of "B" or higher in the most recent two school years. A school is also a persistently low-performing school if it was closed pursuant to the school's turnaround option plan within two years after the submission of a notice of intent.[85] The SBE must publish annually a list of persistently low-performing schools

[80] Section 43, ch. 2017-116, L.O.F., codified at s.1002.333, F.S.
[81] Section 1002.333(1)(d)1., F.S.
[82] Section 1002.333(10), F.S.
[83] Section 1002.333(6)(a), F.S.
[84] Section 1002.333(6)(g), F.S.
[85] Section 1002.333(1)(c), F.S.

and must provide students in persistently low-performing schools with a public school that meets accountability standards.[86] For school year 2018-2019, the SBE's published list includes 183 persistently low-performing schools.[87]

Pursuant to the DOE Emergency Order No. 2020-EO-1, the spring administration of K-12 statewide, standardized assessments for the 2019-2020 school year was canceled and accountability measures reliant on the assessment data, such as school grades, were not calculated for the 2019-2020 school year.[88]

Hope Operators

A hope operator is a tax-exempt, nonprofit organization that operates three or more charter schools that serve students in grades K-12 in Florida or other states with a record of serving students from low-income families and is designated by the SBE as a hope operator.[89] SBE rule designates an entity as a hope operator if it submits a complete application and meets at least one of the following criteria: [90]

- The entity was awarded a United States Department of Education Charter School Program grant for the Replication and Expansion of High-Quality Charter Schools pursuant to Title IV, Part C of the Elementary and Secondary Education Act of 1965 as amended by the Every Student Succeeds Act (20 U.S.C. 7221-7221j) within the preceding three years from the date the entity submits an application to the Department;
- The entity has a current and active grant award for funding through the National Fund of the Charter School Growth Fund; or
- The entity is a non-profit charter school that is selected by a district school board to turnaround the performance of a low-performing public school.

Designation as a hope operator is valid for five years from the opening of a school of hope.[91] Presently, Florida has designated five hope operators: Democracy Prep Public Schools, Inc., Individuals Dedicated to Excellence and Achievement (IDEA) Public Schools, the Knowledge is Power Program (KIPP) New Jersey, Mater Academy, and Somerset Academy, Inc.[92]

Facilities

A school of hope must use facilities that comply with the Florida Building Code, except for the State Requirements for Educational Facilities (SREF). A school of hope that uses school district facilities must comply with SREF only if the school district and the hope operator have entered into a mutual management plan for the reasonable maintenance of such facilities, as specified in law.[93]

[93] Section 1002.333(7)(a), F.S.

Each school district must provide to the DOE, no later than October 1, a list of all underused, vacant, or surplus facilities owned or operated by the school district. A hope operator establishing a school of hope may use an educational facility identified by a school district at no cost or at a mutually agreeable cost not to exceed $600 per student. In addition, a hope operator that uses a facility owned or operated by a school district may not sell or dispose of the facility without the written permission of the school district.[94]

Personnel Background Screening

Each person who seeks educator certification in Florida must be fingerprinted and undergo a state and national criminal history background screening by a district school board or the DOE.[95] If a background screening reveals a criminal history, or if an applicant for certification acknowledges a criminal history, the applicant's records must be assigned to DOE's Office of Professional Practices Services (OPPS) for review and determination of eligibility for certification.[96]

Instructional and non-instructional personnel hired or contracted to fill positions that require direct contact with students in any charter school are required to undergo background screening[97] by filing with the district school board for the school district in which the charter school is located a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the school or school district who is trained to take fingerprints.[98] Current law provides a list of disqualifying criminal offenses for educator certification or employment in any position that requires direct contact with students in a charter school.[99] Instructional and non-instructional personnel who are hired must be rescreened every five years.[100]

Charter School Capital Outlay Funding

Capital outlay funds appropriated by the Legislature in the GAA are allocated to eligible charter schools by the DOE based on a methodology specified in law.[101] For fiscal year 2020-2021, the Legislature appropriated $169.6 million for charter school capital outlay funding.[102] As of March 2021, 610 charter schools received capital outlay disbursements from the DOE.[103]

To be eligible for charter school capital outlay funding, a charter school must:[104]

- Be in operation for at least two years;

[94] Section 1002.333(7)(d), F.S.
[95] Section 1012.56(10)(a), F.S.
[96] Section 1012.56(2)(d), F.S. The OPPS administers a state-level grievance process. The OPPS investigates alleged misconduct by educators in Florida who hold an educator's certificate and pursues disciplinary actions against the certificates of educators found to have committed acts of misconduct. *See* Florida Department of Education, *Professional Practices*, http://www.fldoe.org/teaching/professional-practices/ (last visited March 22, 2021).

[104] Section 1013.62(1)(a)1.a., F.S.

- Be governed by a governing board established in Florida for two or more years which operates both charter schools and conversion charter schools within the state;
- Be part of an expanded feeder chain[105] with an existing charter school in the district that is currently receiving charter school capital outlay funds;
- Be accredited by a regional accrediting association as defined by state board rule; or
- Serve students in facilities that are provided by a business partner for a charter school-in-the-workplace.

In addition, a charter school must:

- Have an annual audit that does not reveal a financial emergency for the most recent fiscal year for which such audit results are available;[106]
- Have satisfactory student achievement based upon the state accountability standards applicable to charter schools;[107]
- Have received final approval from its sponsor for operation during that fiscal year; and
- Serve students in facilities that are not provided by the charter school sponsor.[108]

Capital outlay funds may be used by a charter school's governing board for the:

- Purchase of real property;
- Construction of school facilities;
- Purchase, lease-purchase or lease of permanent or relocatable school facilities;
- Purchase of vehicles to transport students to and from the charter school;
- Renovation, repair, and maintenance of school facilities that the charter school owns or is purchasing through a lease-purchase or long-term lease of five years or longer;
- Purchase, lease-purchase, or lease of computer and device hardware and operating system software necessary for gaining access to or enhancing the use of electronic and digital instructional content and resources;
- Payment of the cost of premiums for property and casualty insurance necessary to insure the school facilities;
- Purchase, lease-purchase or lease of driver's education vehicles, motor vehicles used for the maintenance or operation of plants and equipment, security vehicles, or vehicles used in storing or distributing materials and equipment; and
- Payment of the cost of the opening day collection for the library media center of a new school.[109]

[105] A charter school may be considered a part of an expanded feeder chain under s. 1013.62, F.S., if it either sends or receives a majority of its students directly to or from a charter school that is currently receiving capital outlay funding pursuant to s. 1013.62, F.S. Rule 6A-2.0020 (1), F.A.C.
[106] The definition of financial emergency is provided in s. 218.503(1), F.S.
[107] Section 1013.62(1)(a)3., F.S.; rule 6A-2.0020, F.A.C. A charter school that receives a grade of "F," two consecutive grades lower than a "C" or a school improvement rating of "Unsatisfactory" is not eligible for capital outlay funding. *See also, Florida Assoc. of Independent Charter Schools vs. Florida Dept. of Education, Case No. 17-1986RP (2017), available at* https://www.doah.state.fl.us/ROS/2017/17001986.pdf.
[108] Section 1013.62(1)(a), F.S. A conversion charter school, i.e., a charter school created by the conversion of an existing public school to charter status, is not eligible for capital outlay funding if it operates in facilities provided by its sponsor at no charge or for a nominal fee or if it is directly or indirectly operated by the school district. Section 1013.62(1)(b), F.S.
[109] Section 1013.62(4), F.S.

Financial Accountability

Like other charter schools, a school of hope must provide for an annual audit.[110] The Auditor General may choose to conduct the audit. If not, the school must arrange for an audit by an independent certified public accountant.[111] The audit must:

- Examine the school's financial statements to determine if its financial position and any changes in financial position comply with generally accepted accounting principles;
- Examine the school's operations to determine compliance with legal and regulatory requirements; and
- Examine any additional financial information necessary to comply with generally accepted accounting principles.[112]

Each school of hope must file a copy of its audit report with the sponsor, the district school board, if not the sponsor, the Auditor General and the DOE.[113]

Generally, each charter school must also submit a monthly financial statement summary sheet to the charter's sponsor.[114] The monthly summary sheet must include a balance sheet and a statement of revenue, expenditures, and changes in fund balance in a governmental funds format prescribed by the Governmental Accounting Standards Board.[115] The sponsor must review the financial statement summary to determine if the school exhibits a deteriorating financial condition.[116] The law allows a school of hope to submit its financial statement summary sheet on a quarterly basis, rather than monthly.[117]

Effect of Proposed Changes

Financial Accountability

The bill specifies that a school of hope operated by a nonprofit entity designated by an LEA is in compliance with financial reporting requirements if the nonprofit submits to each school district a financial statement summary for all its schools of hope in the district, and an annual financial audit of the nonprofit for all schools of hope it operates in the state that complies with s. 218.39, F.S.

[113] Section 218.39(10), F.S.
[114] Section 1002.33(9)(g)3., F.S. A high-performing charter school may submit quarterly rather than monthly financial statements. Section 1002.331(2)(c), F.S. Pursuant to Rule 6A-1.0081, F.A.C., DOE adopted two monthly financial statement forms for use by charter schools. Florida Department of Education, *Government Accountability and Standards Board (GASB) Monthly Financial Form (Form IEPC-F1) and Non-Profit Monthly Financial Form (Form IEPC-F2),* http://www.fldoe.org/schools/school-choice/charter-schools/charter-school-reference (last visited March 15, 2021).
[115] Florida Department of Education, *Government Accountability and Standards Board (GASB) Monthly Financial Form (Form IEPC-F1) and Non-Profit Monthly Financial Form (Form IEPC-F2),* http://www.fldoe.org/schools/school-choice/charter-schools/charter-school-reference (last visited March 15, 2021).
[116] Section 1002.33(9)(g)3., F.S.
[117] Section 1002.333(6)(h), F.S.

Additionally, the bill modifies s. 1002.333, F.S., by providing that a hope operator, rather than each school of hope it operates, is the entity responsible for providing quarterly financial statements to the school district and meeting annual financial audit requirements.

Persistently Low Performing Schools

The bill modifies s. 1002.333, F.S., by revising the definition of a persistently low-performing school to be a school that has earned three grades lower than a "C" in at least three of the previous five years in which the school received a grade. This change would allow a school to be designated as persistently low performing even if it does not receive a school grade for one or more of the school years during a 5-year period.

Hope Operators

The bill modifies s. 1002.333, F.S., by authorizing a school of hope, which has been designated as a LEA, to report its students to the DOE according to procedures and timelines established by the DOE. A school of hope that has not been designated as a LEA must continue to report its students to the school district.

The bill specifies that a nonprofit entity that operates more than one school of hope may be designated as an LEA by the department.

Facilities

The bill modifies s. 1002.333, F.S., by requiring that the DOE must annually provide to school districts a list of underused, vacant, or surplus facilities operated by the school district as reported in the Florida Inventory of School Houses no later than January 1. The bill also specifies:

- A school district may provide evidence to the DOE that the list contains errors or omissions within 30 days after receipt of the list.
- By each April 1, the DOE must update and publish a final list based on updated information provided by each school district.

Personnel Background Screening

The bill modifies s. 1012.32, F.S., to authorize instructional and non-instructional personnel who are hired or contracted to fill positions in any school of hope to complete background screening requirements by filing with the school a set of fingerprints taken by:

- An authorized law enforcement agency;
- An employee of the charter school or school district who is trained to take fingerprints; or
- A private vendor who maintains an agreement with the Florida Department of Law Enforcement.

Charter School Capital Outlay Funding

The bill modifies s. 1002.333, F.S., to extend the authorization for undisbursed Schools of Hope Program funds to be carried forward from five years to seven years and modifies s. 1013.62, F.S., to authorize a charter school operated as a school of hope to be eligible to receive charter school capital outlay funding.

The bill authorizes a not for profit entity designated by the department as an LEA to use any unrestricted current and capital assets identified in the annual financial audit to be used by any other school of hope operated by the LEA within the same district.

The bill provides for severability.

The bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill requires that the funds for eligible university or FCS institution sponsored charter school students must be appropriated from state funds in the GAA to the charter school. Currently full-time equivalent students funded in the FEFP are funded with a combination of state and local funds. Since the eligible university or FCS institution sponsored charter school student will only be funded from state funds appropriated in the FEFP, there may need to be additional state funds provided to offset the potential loss of

local funds; however, at this time the individual amounts cannot be determined and would vary based upon the school district and its total amount of local funds.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1002.32, 1002.33, 1002.331, 1002.333, 1002.45, 1003.493, 1008.3415, 1012.32, and 1013.62.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The committee substitute makes the following changes:

- Specifies that the limitation of one lab school per university does not apply to a university that establishes a lab school to serve a military installation within same county.
- Clarifies that the limitation of one lab school per university must not apply to legislatively allowed schools.
- Removes an obsolete authorization date related to charter lab schools.
- Updates Florida Atlantic University Charter Lab to be a K-12 school, instead of 9-12 high school.
- Authorizes all lab schools with permanent high school center to receive sparsity supplement, not just those in operation prior to Sept. 1, 2013.
- Specifies that, for the purpose of assisting the development of a charter school, a school district may enter into a nonexclusive interlocal agreement with federal and state agencies, counties, municipalities, and other government entities.
- Voids an interlocal agreement between a school district and federal or state agency, county, municipality, or other governmental entity that prohibits or limits the creation of a charter school within the geographic border of the school district.
- Authorizes a prevailing party to file an action with the Division of Administrative Hearings to recover reasonable attorney fees and costs incurred during the denial of the application and any appeals.
- Authorizes a charter school to immediately appeal any formal or informal decision by a sponsor in a dispute regarding a charter contract to an administrative law judge. The appeal may occur if either the charter school or the sponsor do not wish to mediate the decision and indicates such a decision in writing.

- Requires a school district that fails to implement the decision affirmed by a district court of appeal to reduce the administrative fees withheld to one percent for all charter schools operating in the school district.
- Requires such school district to file a monthly report detailing the reduction in the amount of administrative fees withheld.
- Specifies that upon execution of the charter, the sponsor can resume withholding the full amount of administrative fees but may not recover any fees that would have accrued during the period of noncompliance.
- Authorizes any charter school that had administrative fees withheld may recover attorney fees and costs to enforce these requirements.
- Specifies that changes to a charter school's curriculum consistent with state standards are deemed approved in terms of modifications to the charter, unless the sponsor determines in writing that the curriculum is inconsistent with state standards.
- In the case of an immediate termination of a charter school, the amendment requires the sponsor to provide the facts and circumstances supporting the termination in writing. The sponsor must demonstrate that an immediate and serious danger exists to the charter school's students, that the immediate and serious danger is likely to continue, and that an immediate termination of the charter is necessary.
- Authorizes an administrative law judge to award reasonable attorney fees and costs to the prevailing parting of any inunction, administrative proceeding, or appeal.
- Authorizes a charter school sponsor to seek an injunction in circuit court to prohibit continued operation of a charter school if continued operation of the school would materially threaten the health, safety, or welfare of the students.
- Removes the requirement for a sponsor to assume and continue operation of a charter school pending a hearing on the school's immediate termination.
- Expands the enrollment preference for students who complete the VPK program provided by the charter school to include students who complete the program at a provider with which the charter school has a written agreement.
- Specifies that a nonprofit entity that operates more than one school of hope may be designated as an LEA by the department.
- Clarifies that a charter school is high-performing if the school received at least two consecutive grades of "A" in the most recent two school years for the years that the school received a grade or receives, during its first three years of operation, funding through the National Fund of the Charter School Growth Fund and has not received a grade lower than "C" in the previous three years for the years that the school received a grade.
- Revises the determination of a high-performing charter school facility's capacity so that any expansion of enrollment, regardless of grade level expansion or where a majority of new students will be enrolled, is based on the school's facilities at the time the expansion will take effect.
- Authorizes a not for profit entity designated by the department as an LEA to use any unrestricted current and capital assets identified in the annual financial audit to be used by any other school of hope operated by the LEA within the same district.
- Authorizes a charter school that is an exceptional student education center and receives two consecutive ratings of "maintaining" or higher to replicate its educational program.

- Modifies bill provision to require the Commissioner of Education, upon request by a charter school, to verify that the charter school meets the specified requirements and provide a letter to the charter school and the sponsor stating that the charter school may replicate its educational program in the same manner as a high-performing charter school under s. 1002.331(3).
- Specifies that a school of hope operated by a nonprofit entity designated by an LEA is in compliance with financial reporting requirements if the nonprofit submits to school district a financial statement summary for all its schools of hope in the district, and an annual financial audit of nonprofit for all schools of hope it operates in state that complies with s. 218.39.
- Allows for a virtual charter school to provide part-time instruction.
- Removes the requirement that a virtual provider contact a parent by phone only.
- Provides for severability.

CS by Education on March 23, 2021:
The committee substitute retains the original bill provisions, and:
- Adds hope operators to the list of entities required to perform an annual financial audit.
- Modifies the charter school application process to specify that an application may be submitted at any time, rather than by February 1, for a school opening at a time of the applicant's choosing.
- Adds provisions specifying the charter school sponsor's administrative fee for up to two percent for enrollment of up to and including 250 students in an exceptional student education center.
- Modifies provisions that a high-performing charter school may submit two applications for a charter school within the state to be opened at a time determined by the high-performing charter school.
- Clarifies that a subsequent application may not be submitted unless the applicant commences operations or an application is withdrawn and that the provisions apply to an existing high-performing charter school.
- Specifies each school of hope that has not been designated as local education agency must report its students to the school district. Additionally, each school of hope that has been designated as a local education agency may report its students to the department.
- Clarifies that instructional and noninstructional personnel hired or contracted to fill positions at a school of hope must file with the school of hope, rather than the district school board as for other charter schools, a complete set of fingerprints taken by an authorized law enforcement agency or other recognized entity.
- Requires the DOE to annually provide to school districts, no later than January 1, a list of underused, vacant, or surplus facilities operated by the school district as reported in the Florida Inventory of School Houses, and:
    - A school district may provide evidence to the DOE that the list contains errors or omissions within 30 days after receipt of the list.
    - By each April 1, the DOE must update and publish a final list based on updated information provided by each school district.

- Authorizes a charter school that is an exceptional student education center that receives a rating of "maintaining" or higher may replicate its educational program.
- Requires the Commissioner of Education to verify that the charter school meets the specified requirements and provide a letter to the charter school and sponsor stating that the charter school may replicate its educational program in the same manner as a high-performing charter school.
- Extends the authorization for undispersed Schools of Hope Program funds to be carried forward from five years to seven years.
- Authorizes a charter school operated as a school of hope to be eligible to receive charter school capital outlay funding.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Education; and Senator Hutson

581-03259-21 20211028c1

A bill to be entitled

An act relating to charter schools; amending s. 218.39, F.S.; providing that a hope operator that has not been notified that a financial audit for a fiscal year will be performed by the Auditor General must retain an independent certified public accountant to complete, within 9 months after the end of its fiscal year, an annual financial audit of its accounts, which must be paid from its public funds; requiring an auditor to discuss comments that will be included in the audit report with the hope operator's board chair or the chair's designee; requiring the auditor to notify each hope operator board member of specified information; requiring hope operators to file an officer's written statement of explanation or rebuttal concerning an auditor's findings within a certain timeframe; authorizing the Legislative Auditing Committee to require the chair of the hope operator or the chair's designee to appear before the committee if it is determined that the written statement is insufficient; requiring each hope operator to file a copy of its audit report with specified entities; amending s. 1002.33, F.S.; authorizing state universities and Florida College System institutions to solicit applications and sponsor charter schools under certain circumstances; prohibiting certain charter schools from being sponsored by a Florida College System institution until such charter school's existing charter expires; authorizing a state

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

581-03259-21 20211028c1

university or Florida College System institution to, at its discretion, deny an application for a charter school; revising the contents of an annual report that charter school sponsors must provide to the Department of Education; revising the date by which the department must post a specified annual report; revising provisions relating to Florida College System institutions that are operating charter schools; requiring the board of trustees of a state university or Florida College System institution that is sponsoring a charter school to serve as the local educational agency for such school; prohibiting certain charter school students from being included in specified school district grade calculations; requiring the department to develop a sponsor evaluation framework; providing requirements for the framework; requiring the department to compiles results in a specified manner; deleting obsolete language; revising requirements for the charter school application process; revising the student populations for which a charter school is authorized to limit the enrollment process; providing a calculation for the operational funding for a charter school sponsored by a state university or Florida College System institution; requiring the department to develop a tool for state universities and Florida College System institutions for specified purposes relating to certain funding calculations; providing that such funding must be appropriated to the charter school;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

providing for capital outlay funding for such schools; authorizing a sponsor to withhold an administrative fee for the provision of certain services to an exceptional student education center that meets specified requirements; conforming provisions to changes made by the act; amending s. 1002.331, F.S.; revising provisions relating to the opening of additional high-performing charter schools; amending s. 1002.333, F.S.; revising the definition of the term "persistently low-performing school"; authorizing, instead of requiring, a school of hope designated as a local education agency to report students in accordance with procedures and timelines adopted by the Department of Education; requiring hope operators, rather than schools of hope, to provide school districts with quarterly financial statement summary sheets; revising the manner in which underused, vacant, or surplus facilities owned or operated by school districts are identified; increasing the number of years for which certain funds may be carried forward; amending s. 1003.493, F.S.; authorizing a charter school to offer a career and professional academy; amending s. 1008.3415, F.S.; requiring the Commissioner of Education, upon request by a charter school that meets specified criteria, to provide a letter to the charter school and the charter school's sponsor authorizing the charter school to replicate the charter school's education program; amending s. 1012.32, F.S.; providing an alternate screening method

for specified persons employed by certain schools of hope or serving on certain school of hope governing boards; amending s. 1013.62, F.S.; expanding eligibility to receive capital outlay funds to schools of hope operated by a hope operator; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsections (1), (5), and (6), paragraph (b) of subsection (8), and subsection (10) of section 218.39, Florida Statutes, are amended to read:

218.39 Annual financial audit reports.—

(1) If, by the first day in any fiscal year, a local governmental entity, district school board, charter school, hope operator, or charter technical career center has not been notified that a financial audit for that fiscal year will be performed by the Auditor General, each of the following entities shall have an annual financial audit of its accounts and records completed within 9 months after the end of its fiscal year by an independent certified public accountant retained by it and paid from its public funds:

(a) Each county.

(b) Any municipality with revenues or the total of expenditures and expenses in excess of $250,000, as reported on the fund financial statements.

(c) Any special district with revenues or the total of expenditures and expenses in excess of $100,000, as reported on the fund financial statements.

(d) Each district school board.

(e) Each charter school established under s. 1002.33.

(f) Each charter technical center established under s. 1002.34.

(g) Each municipality with revenues or the total of expenditures and expenses between $100,000 and $250,000, as reported on the fund financial statements, which has not been subject to a financial audit pursuant to this subsection for the 2 preceding fiscal years.

(h) Each special district with revenues or the total of expenditures and expenses between $50,000 and $100,000, as reported on the fund financial statement, which has not been subject to a financial audit pursuant to this subsection for the 2 preceding fiscal years.

(i) Each hope operator operating at least one school of hope in this state.

(5) At the conclusion of the audit, the auditor shall discuss with the chair of the governing body of the local governmental entity or the chair's designee, the elected official of each county agency or the elected official's designee, the chair of the district school board or the chair's designee, the chair of the board of the charter school or the chair's designee, the chair of the board of the hope operator or the chair's designee, or the chair of the board of the charter technical career center or the chair's designee, as appropriate, all of the auditor's comments that will be included in the audit report. If the officer is not available to discuss the auditor's comments, their discussion is presumed when the comments are delivered in writing to his or her office. The auditor shall

notify each member of the governing body of a local governmental entity, district school board, charter school, hope operator, or charter technical career center for which:

(a) Deteriorating financial conditions exist that may cause a condition described in s. 218.503(1) to occur if actions are not taken to address such conditions.

(b) A fund balance deficit in total or a deficit for that portion of a fund balance not classified as restricted, committed, or nonspendable, or a total or unrestricted net assets deficit, as reported on the fund financial statements of entities required to report under governmental financial reporting standards or on the basic financial statements of entities required to report under not-for-profit financial reporting standards, for which sufficient resources of the local governmental entity, charter school, hope operator, charter technical career center, or district school board, as reported on the fund financial statements, are not available to cover the deficit. Resources available to cover reported deficits include fund balance or net assets that are not otherwise restricted by federal, state, or local laws, bond covenants, contractual agreements, or other legal constraints. Property, plant, and equipment, the disposal of which would impair the ability of a local governmental entity, charter school, hope operator, charter technical career center, or district school board to carry out its functions, are not considered resources available to cover reported deficits.

(6) The officer's written statement of explanation or rebuttal concerning the auditor's findings, including corrective action to be taken, must be filed with the governing body of the

local governmental entity, district school board, charter school, hope operator, or charter technical career center within 30 days after the delivery of the auditor's findings.

(8) The Auditor General shall notify the Legislative Auditing Committee of any audit report prepared pursuant to this section which indicates that an audited entity has failed to take full corrective action in response to a recommendation that was included in the two preceding financial audit reports.

(b) If the committee determines that the written statement is not sufficient, it may require the chair of the governing body of the local governmental entity or the chair's designee, the elected official of each county agency or the elected official's designee, the chair of the district school board or the chair's designee, the chair of the board of the charter school or the chair's designee, the chair of the hope operator or the chair's designee, or the chair of the board of the charter technical career center or the chair's designee, as appropriate, to appear before the committee.

(10) Each charter school, hope operator who operates a charter school, and charter technical career center must file a copy of its audit report with the sponsoring entity; the local district school board, if not the sponsoring entity; the Auditor General; and with the Department of Education.

Section 2. Paragraph (c) of subsection (2), subsection (5), paragraph (b) of subsection (6), paragraphs (a) and (d) of subsection (7), paragraphs (d) and (e) of subsection (8), paragraphs (g) and (n) of subsection (9), paragraph (e) of subsection (10), subsection (14), paragraph (c) of subsection (15), subsection (17), paragraph (e) of subsection (18),

subsections (20) and (21), paragraph (a) of subsection (25), and subsection (28) of section 1002.33, Florida Statutes, are amended to read:

1002.33 Charter schools.—

(2) GUIDING PRINCIPLES; PURPOSE.—

(c) Charter schools may fulfill the following purposes:

1. Create innovative measurement tools.

2. Provide rigorous competition within the public school system ~~district~~ to stimulate continual improvement in all public schools.

3. Expand the capacity of the public school system.

4. Mitigate the educational impact created by the development of new residential dwelling units.

5. Create new professional opportunities for teachers, including ownership of the learning program at the school site.

(5) SPONSOR; DUTIES.—

(a) *Sponsoring entities.*—

1. A district school board may sponsor a charter school in the county over which the district school board has jurisdiction.

2. A state university may grant a charter to a lab school created under s. 1002.32 and shall be considered to be the school's sponsor. Such school shall be considered a charter lab school.

3. Because needs relating to educational capacity, workforce qualifications, and career education opportunities are constantly changing and extend beyond school district boundaries:

a. A state university may, upon approval by the Department

of Education, solicit applications and sponsor a charter school to meet regional education or workforce demands by serving students from multiple school districts.

b. A Florida College System institution may, upon approval by the Department of Education, solicit applications and sponsor a charter school in any county within its service area to meet workforce demands and may offer postsecondary programs leading to industry certifications to eligible charter school students. A charter school established under subparagraph (b)4. may not be sponsored by a Florida College System institution until its existing charter with the school district expires as provided under subsection (7).

c. Notwithstanding paragraph (6)(b), a state university or Florida College System institution may, at its discretion, deny an application for a charter school.

(b) *Sponsor duties.*—

1.a. The sponsor shall monitor and review the charter school in its progress toward the goals established in the charter.

b. The sponsor shall monitor the revenues and expenditures of the charter school and perform the duties provided in s. 1002.345.

c. The sponsor may approve a charter for a charter school before the applicant has identified space, equipment, or personnel, if the applicant indicates approval is necessary for it to raise working funds.

d. The sponsor shall not apply its policies to a charter school unless mutually agreed to by both the sponsor and the charter school. If the sponsor subsequently amends any agreed-

upon sponsor policy, the version of the policy in effect at the time of the execution of the charter, or any subsequent modification thereof, shall remain in effect and the sponsor may not hold the charter school responsible for any provision of a newly revised policy until the revised policy is mutually agreed upon.

e. The sponsor shall ensure that the charter is innovative and consistent with the state education goals established by s. 1000.03(5).

f. The sponsor shall ensure that the charter school participates in the state's education accountability system. If a charter school falls short of performance measures included in the approved charter, the sponsor shall report such shortcomings to the Department of Education.

g. The sponsor shall not be liable for civil damages under state law for personal injury, property damage, or death resulting from an act or omission of an officer, employee, agent, or governing body of the charter school.

h. The sponsor shall not be liable for civil damages under state law for any employment actions taken by an officer, employee, agent, or governing body of the charter school.

i. The sponsor's duties to monitor the charter school shall not constitute the basis for a private cause of action.

j. The sponsor shall not impose additional reporting requirements on a charter school without providing reasonable and specific justification in writing to the charter school.

k. The sponsor shall submit an annual report to the Department of Education in a web-based format to be determined by the department.

(I) The report shall include the following information:

(A) ~~The number of draft applications received on or before May 1 and each applicant's contact information.~~

~~(B)~~ The number of ~~final~~ applications received on or before February ~~August~~ 1 and each applicant's contact information.

(B) ~~(C)~~ The date each application was approved, denied, or withdrawn.

(C) ~~(D)~~ The date each final contract was executed.

(II) Annually, by November 1 ~~Beginning August 31, 2013, and each year thereafter~~, the sponsor shall submit to the department the information for the applications submitted the previous year.

(III) The department shall compile an annual report, by sponsor ~~district~~, and post the report on its website by January 15 ~~November 1~~ of each year.

2. Immunity for the sponsor of a charter school under subparagraph 1. applies only with respect to acts or omissions not under the sponsor's direct authority as described in this section.

3. This paragraph does not waive a sponsor's ~~district school board's~~ sovereign immunity.

4. A Florida College System institution may work with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. If a Florida College System institution operates an approved teacher preparation program under s. 1004.04 or s. 1004.85, the institution may operate ~~no more than one~~ charter schools ~~school~~

that serve ~~serves~~ students in kindergarten through grade 12 in any school district within the service area of the institution. ~~In kindergarten through grade 8, the charter school shall implement innovative blended learning instructional models in which, for a given course, a student learns in part through online delivery of content and instruction with some element of student control over time, place, path, or pace and in part at a supervised brick-and-mortar location away from home. A student in a blended learning course must be a full-time student of the charter school and receive the online instruction in a classroom setting at the charter school.~~ District school boards shall cooperate with and assist the Florida College System institution on the charter application. Florida College System institution applications for charter schools are not subject to the time deadlines outlined in subsection (6) and may be approved by the district school board at any time during the year. Florida College System institutions may not report FTE for any students participating under this subparagraph who receive FTE funding through the Florida Education Finance Program.

5. A school district may enter into nonexclusive interlocal agreements with federal and state agencies, counties, municipalities, and other governmental entities that operate within the geographical borders of the school district to act on behalf of such governmental entities in the inspection, issuance, and other necessary activities for all necessary permits, licenses, and other permissions that a charter school needs in order for development, construction, or operation. A charter school may use, but may not be required to use, a school district for these services. The interlocal agreement must

include, but need not be limited to, the identification of fees that charter schools will be charged for such services. The fees must consist of the governmental entity's fees plus a fee for the school district to recover no more than actual costs for providing such services. These services and fees are not included within the services to be provided pursuant to subsection (20).

6. The board of trustees of a sponsoring state university or Florida College System institution under paragraph (a) is the local educational agency for all charter schools it sponsors for purposes of receiving federal funds and accepts full responsibility for all local educational agency requirements and the schools for which it will perform local educational agency responsibilities. A student enrolled in a charter school that is sponsored by a state university or Florida College System institution may not be included in the calculation of the school district's grade under s. 1008.34(5) for the school district in which he or she resides.

(c) *Sponsor accountability.*—

1. The department shall, in collaboration with charter school sponsors and charter school operators, develop a sponsor evaluation framework that must address, at a minimum:

a. The sponsor's strategic vision for charter school authorizing and the sponsor's progress toward that vision.

b. The alignment of the sponsor's policies and practices to best practices for charter school authorizing.

c. The academic and financial performance of all operating charter schools overseen by the sponsor.

d. The status of charter schools authorized by the sponsor,

including approved, operating, and closed schools.

2. The department shall compile the results by sponsor and include the results in the report required under sub-sub-subparagraph (b)1.k.(III).

(6) APPLICATION PROCESS AND REVIEW.—Charter school applications are subject to the following requirements:

(b) A sponsor shall receive and review all applications for a charter school using the evaluation instrument developed by the Department of Education. ~~A sponsor shall receive and consider charter school applications received on or before August 1 of each calendar year for charter schools to be opened at the beginning of the school district's next school year, or to be opened at a time agreed to by the applicant and the sponsor. A sponsor may not refuse to receive a charter school application submitted before August 1 and may receive an application submitted later than August 1 if it chooses. Beginning in 2018 and thereafter,~~ A sponsor shall receive and consider charter school applications ~~received on or before February 1 of each calendar year~~ for charter schools ~~to be opened 18 months later at the beginning of the school district's school year, or~~ to be opened at a time determined by the applicant. ~~A sponsor may not refuse to receive a charter school application submitted before February 1 and may receive an application submitted later than February 1 if it chooses.~~ A sponsor may not charge an applicant for a charter any fee for the processing or consideration of an application, and a sponsor may not base its consideration or approval of a final application upon the promise of future payment of any kind. Before approving or denying any application, the sponsor shall

allow the applicant, upon receipt of written notification, at least 7 calendar days to make technical or nonsubstantive corrections and clarifications, including, but not limited to, corrections of grammatical, typographical, and like errors or missing signatures, if such errors are identified by the sponsor as cause to deny the final application.

1. In order to facilitate an accurate budget projection process, a sponsor shall be held harmless for FTE students who are not included in the FTE projection due to approval of charter school applications after the FTE projection deadline. In a further effort to facilitate an accurate budget projection, within 15 calendar days after receipt of a charter school application, a sponsor shall report to the Department of Education the name of the applicant entity, the proposed charter school location, and its projected FTE.

2. In order to ensure fiscal responsibility, an application for a charter school shall include a full accounting of expected assets, a projection of expected sources and amounts of income, including income derived from projected student enrollments and from community support, and an expense projection that includes full accounting of the costs of operation, including start-up costs.

3.a. A sponsor shall by a majority vote approve or deny an application no later than 90 calendar days after the application is received, unless the sponsor and the applicant mutually agree in writing to temporarily postpone the vote to a specific date, at which time the sponsor shall by a majority vote approve or deny the application. If the sponsor fails to act on the application, an applicant may appeal to the State Board of

Education as provided in paragraph (c). If an application is denied, the sponsor shall, within 10 calendar days after such denial, articulate in writing the specific reasons, based upon good cause, supporting its denial of the application and shall provide the letter of denial and supporting documentation to the applicant and to the Department of Education.

b. An application submitted by a high-performing charter school identified pursuant to s. 1002.331 or a high-performing charter school system identified pursuant to s. 1002.332 may be denied by the sponsor only if the sponsor demonstrates by clear and convincing evidence that:

(I) The application of a high-performing charter school does not materially comply with the requirements in paragraph (a) or, for a high-performing charter school system, the application does not materially comply with s. 1002.332(2)(b);

(II) The charter school proposed in the application does not materially comply with the requirements in paragraphs (9)(a)-(f);

(III) The proposed charter school's educational program does not substantially replicate that of the applicant or one of the applicant's high-performing charter schools;

(IV) The applicant has made a material misrepresentation or false statement or concealed an essential or material fact during the application process; or

(V) The proposed charter school's educational program and financial management practices do not materially comply with the requirements of this section.

Material noncompliance is a failure to follow requirements or a

violation of prohibitions applicable to charter school applications, which failure is quantitatively or qualitatively significant either individually or when aggregated with other noncompliance. An applicant is considered to be replicating a high-performing charter school if the proposed school is substantially similar to at least one of the applicant's high-performing charter schools and the organization or individuals involved in the establishment and operation of the proposed school are significantly involved in the operation of replicated schools.

c. If the sponsor denies an application submitted by a high-performing charter school or a high-performing charter school system, the sponsor must, within 10 calendar days after such denial, state in writing the specific reasons, based upon the criteria in sub-subparagraph b., supporting its denial of the application and must provide the letter of denial and supporting documentation to the applicant and to the Department of Education. The applicant may appeal the sponsor's denial of the application in accordance with paragraph (c).

4. For budget projection purposes, the sponsor shall report to the Department of Education the approval or denial of an application within 10 calendar days after such approval or denial. In the event of approval, the report to the Department of Education shall include the final projected FTE for the approved charter school.

5. ~~Upon approval of an application, the initial startup shall commence with the beginning of the public school calendar for the district in which the charter is granted.~~ A charter school may defer the opening of the school's operations for up

to 3 years to provide time for adequate facility planning. The charter school must provide written notice of such intent to the sponsor and the parents of enrolled students at least 30 calendar days before the first day of school.

(7) CHARTER.—The terms and conditions for the operation of a charter school shall be set forth by the sponsor and the applicant in a written contractual agreement, called a charter. The sponsor and the governing board of the charter school shall use the standard charter contract pursuant to subsection (21), which shall incorporate the approved application and any addenda approved with the application. Any term or condition of a proposed charter contract that differs from the standard charter contract adopted by rule of the State Board of Education shall be presumed a limitation on charter school flexibility. The sponsor may not impose unreasonable rules or regulations that violate the intent of giving charter schools greater flexibility to meet educational goals. The charter shall be signed by the governing board of the charter school and the sponsor, following a public hearing to ensure community input.

(a) The charter shall address and criteria for approval of the charter shall be based on:

1. The school's mission, the students to be served, and the ages and grades to be included.

2. The focus of the curriculum, the instructional methods to be used, any distinctive instructional techniques to be employed, and identification and acquisition of appropriate technologies needed to improve educational and administrative performance which include a means for promoting safe, ethical, and appropriate uses of technology which comply with legal and

professional standards.

a. The charter shall ensure that reading is a primary focus of the curriculum and that resources are provided to identify and provide specialized instruction for students who are reading below grade level. The curriculum and instructional strategies for reading must be consistent with the Next Generation Sunshine State Standards and grounded in scientifically based reading research.

b. In order to provide students with access to diverse instructional delivery models, to facilitate the integration of technology within traditional classroom instruction, and to provide students with the skills they need to compete in the 21st century economy, the Legislature encourages instructional methods for blended learning courses consisting of both traditional classroom and online instructional techniques. Charter schools may implement blended learning courses which combine traditional classroom instruction and virtual instruction. Students in a blended learning course must be full-time students of the charter school pursuant to s. 1011.61(1)(a)1. Instructional personnel certified pursuant to s. 1012.55 who provide virtual instruction for blended learning courses may be employees of the charter school or may be under contract to provide instructional services to charter school students. At a minimum, such instructional personnel must hold an active state or school district adjunct certification under s. 1012.57 for the subject area of the blended learning course. The funding and performance accountability requirements for blended learning courses are the same as those for traditional courses.

3. The current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used. The criteria listed in this subparagraph shall include a detailed description of:

a. How the baseline student academic achievement levels and prior rates of academic progress will be established.

b. How these baseline rates will be compared to rates of academic progress achieved by these same students while attending the charter school.

c. To the extent possible, how these rates of progress will be evaluated and compared with rates of progress of other closely comparable student populations.

A ~~The~~ district school board is required to provide academic student performance data to charter schools for each of their students coming from the district school system, as well as rates of academic progress of comparable student populations in the district school system.

4. The methods used to identify the educational strengths and needs of students and how well educational goals and performance standards are met by students attending the charter school. The methods shall provide a means for the charter school to ensure accountability to its constituents by analyzing student performance data and by evaluating the effectiveness and efficiency of its major educational programs. Students in charter schools shall, at a minimum, participate in the statewide assessment program created under s. 1008.22.

5. In secondary charter schools, a method for determining that a student has satisfied the requirements for graduation in

s. 1002.3105(5), s. 1003.4281, or s. 1003.4282.

6. A method for resolving conflicts between the governing board of the charter school and the sponsor.

7. The admissions procedures and dismissal procedures, including the school's code of student conduct. Admission or dismissal must not be based on a student's academic performance.

8. The ways by which the school will achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other nearby public schools ~~in the same school district~~.

9. The financial and administrative management of the school, including a reasonable demonstration of the professional experience or competence of those individuals or organizations applying to operate the charter school or those hired or retained to perform such professional services and the description of clearly delineated responsibilities and the policies and practices needed to effectively manage the charter school. A description of internal audit procedures and establishment of controls to ensure that financial resources are properly managed must be included. Both public sector and private sector professional experience shall be equally valid in such a consideration.

10. The asset and liability projections required in the application which are incorporated into the charter and shall be compared with information provided in the annual report of the charter school.

11. A description of procedures that identify various risks and provide for a comprehensive approach to reduce the impact of losses; plans to ensure the safety and security of students and

staff; plans to identify, minimize, and protect others from violent or disruptive student behavior; and the manner in which the school will be insured, including whether or not the school will be required to have liability insurance, and, if so, the terms and conditions thereof and the amounts of coverage.

12. The term of the charter which shall provide for cancellation of the charter if insufficient progress has been made in attaining the student achievement objectives of the charter and if it is not likely that such objectives can be achieved before expiration of the charter. The initial term of a charter shall be for 5 years, excluding 2 planning years. In order to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a municipality or other public entity as provided by law are eligible for up to a 15-year charter, subject to approval by the sponsor ~~district school board~~. A charter lab school is eligible for a charter for a term of up to 15 years. In addition, to facilitate access to long-term financial resources for charter school construction, charter schools that are operated by a private, not-for-profit, s. 501(c)(3) status corporation are eligible for up to a 15-year charter, subject to approval by the sponsor ~~district school board~~. Such long-term charters remain subject to annual review and may be terminated during the term of the charter, but only according to the provisions set forth in subsection (8).

13. The facilities to be used and their location. The sponsor may not require a charter school to have a certificate of occupancy or a temporary certificate of occupancy for such a facility earlier than 15 calendar days before the first day of

school.

14. The qualifications to be required of the teachers and the potential strategies used to recruit, hire, train, and retain qualified staff to achieve best value.

15. The governance structure of the school, including the status of the charter school as a public or private employer as required in paragraph (12)(i).

16. A timetable for implementing the charter which addresses the implementation of each element thereof and the date by which the charter shall be awarded in order to meet this timetable.

17. In the case of an existing public school that is being converted to charter status, alternative arrangements for current students who choose not to attend the charter school and for current teachers who choose not to teach in the charter school after conversion in accordance with the existing collective bargaining agreement or district school board rule in the absence of a collective bargaining agreement. However, alternative arrangements shall not be required for current teachers who choose not to teach in a charter lab school, except as authorized by the employment policies of the state university which grants the charter to the lab school.

18. Full disclosure of the identity of all relatives employed by the charter school who are related to the charter school owner, president, chairperson of the governing board of directors, superintendent, governing board member, principal, assistant principal, or any other person employed by the charter school who has equivalent decisionmaking authority. For the purpose of this subparagraph, the term "relative" means father,

mother, son, daughter, brother, sister, uncle, aunt, first cousin, nephew, niece, husband, wife, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, stepfather, stepmother, stepson, stepdaughter, stepbrother, stepsister, half brother, or half sister.

19. Implementation of the activities authorized under s. 1002.331 by the charter school when it satisfies the eligibility requirements for a high-performing charter school. A high-performing charter school shall notify its sponsor in writing by March 1 if it intends to increase enrollment or expand grade levels the following school year. The written notice shall specify the amount of the enrollment increase and the grade levels that will be added, as applicable.

(d) A charter may be modified during its initial term or any renewal term upon the recommendation of the sponsor or the charter school's governing board and the approval of both parties to the agreement. Modification during any term may include, but is not limited to, consolidation of multiple charters into a single charter if the charters are operated under the same governing board, regardless of the renewal cycle. A charter school that is not subject to a school improvement plan and that closes as part of a consolidation shall be reported by the sponsor ~~school district~~ as a consolidation.

(8) CAUSES FOR NONRENEWAL OR TERMINATION OF CHARTER.—

(d) When a charter is not renewed or is terminated, the school shall be dissolved under the provisions of law under which the school was organized, and any unencumbered public funds, except for capital outlay funds and federal charter school program grant funds, from the charter school shall revert

to the sponsor. Capital outlay funds provided pursuant to s. 1013.62 and federal charter school program grant funds that are unencumbered shall revert to the department to be redistributed among eligible charter schools. In the event a charter school is dissolved or is otherwise terminated, all sponsor ~~district school board~~ property and improvements, furnishings, and equipment purchased with public funds shall automatically revert to full ownership by the sponsor ~~district school board~~, subject to complete satisfaction of any lawful liens or encumbrances. Any unencumbered public funds from the charter school, ~~district school board~~ property and improvements, furnishings, and equipment purchased with public funds, or financial or other records pertaining to the charter school, in the possession of any person, entity, or holding company, other than the charter school, shall be held in trust upon the sponsor's ~~district school board's~~ request, until any appeal status is resolved.

(e) If a charter is not renewed or is terminated, the charter school is responsible for all debts of the charter school. The sponsor ~~district~~ may not assume the debt from any contract made between the governing body of the school and a third party, except for a debt that is previously detailed and agreed upon in writing by both the sponsor ~~district~~ and the governing body of the school and that may not reasonably be assumed to have been satisfied by the sponsor ~~district~~.

(9) CHARTER SCHOOL REQUIREMENTS.—

(g)1. In order to provide financial information that is comparable to that reported for other public schools, charter schools are to maintain all financial records that constitute their accounting system:

a. In accordance with the accounts and codes prescribed in the most recent issuance of the publication titled "Financial and Program Cost Accounting and Reporting for Florida Schools"; or

b. At the discretion of the charter school's governing board, a charter school may elect to follow generally accepted accounting standards for not-for-profit organizations, but must reformat this information for reporting according to this paragraph.

2. Charter schools shall provide annual financial report and program cost report information in the state-required formats for inclusion in sponsor ~~district~~ reporting in compliance with s. 1011.60(1). Charter schools that are operated by a municipality or are a component unit of a parent nonprofit organization may use the accounting system of the municipality or the parent but must reformat this information for reporting according to this paragraph.

3. A charter school shall, upon approval of the charter contract, provide the sponsor with a concise, uniform, monthly financial statement summary sheet that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance shall be in the governmental funds format prescribed by the Governmental Accounting Standards Board. A high-performing charter school pursuant to s. 1002.331 may provide a quarterly financial statement in the same format and requirements as the uniform monthly financial statement summary sheet. The sponsor shall review each monthly or quarterly financial statement to identify

the existence of any conditions identified in s. 1002.345(1)(a).

4. A charter school shall maintain and provide financial information as required in this paragraph. The financial statement required in subparagraph 3. must be in a form prescribed by the Department of Education.

(n)1. The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34 shall appear before the sponsor to present information concerning each contract component having noted deficiencies. The director and a representative of the governing board shall submit to the sponsor for approval a school improvement plan to raise student performance. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades below a "C," the charter school governing board shall choose one of the following corrective actions:

(I) Contract for educational services to be provided directly to students, instructional personnel, and school administrators, as prescribed in state board rule;

(II) Contract with an outside entity that has a demonstrated record of effectiveness to operate the school;

(III) Reorganize the school under a new director or principal who is authorized to hire new staff; or

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action

in the school year following receipt of a third consecutive grade below a "C."

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 3.

d. A charter school is no longer required to implement a corrective action if it improves to a "C" or higher. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 4.

e. A charter school implementing a corrective action that does not improve to a "C" or higher after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve to a "C" or higher if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 3.

3. A charter school's charter contract is automatically

terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)2. Such charter schools shall be governed by s. 1008.33;

b. The charter school serves a student population the majority of which resides in a school zone served by a district public school subject to s. 1008.33(4) and the charter school earns at least a grade of "D" in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby ~~district~~ public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school's governing board, the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. A charter terminated under this subparagraph must follow the

procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(d)-(f) and (9)(o).

4. The director and a representative of the governing board of a graded charter school that has implemented a school improvement plan under this paragraph shall appear before the sponsor at least once a year to present information regarding the progress of intervention and support strategies implemented by the school pursuant to the school improvement plan and corrective actions, if applicable. The sponsor shall communicate at the meeting, and in writing to the director, the services provided to the school to help the school address its deficiencies.

5. Notwithstanding any provision of this paragraph except sub-subparagraphs 3.a.-c., the sponsor may terminate the charter at any time pursuant to subsection (8).

(10) ELIGIBLE STUDENTS.—

(e) A charter school may limit the enrollment process only to target the following student populations:

1. Students within specific age groups or grade levels.

2. Students considered at risk of dropping out of school or academic failure. Such students shall include exceptional education students.

3. Students enrolling in a charter school-in-the-workplace or charter school-in-a-municipality established pursuant to subsection (15).

4. Students residing within a reasonable distance of the charter school, as described in paragraph (20)(c). Such students shall be subject to a random lottery and to the racial/ethnic balance provisions described in subparagraph (7)(a)8. or any

federal provisions that require a school to achieve a racial/ethnic balance reflective of the community it serves or within the racial/ethnic range of other nearby public schools ~~in the same school district~~.

5. Students who meet reasonable academic, artistic, or other eligibility standards established by the charter school and included in the charter school application and charter or, in the case of existing charter schools, standards that are consistent with the school's mission and purpose. Such standards shall be in accordance with current state law and practice in public schools and may not discriminate against otherwise qualified individuals.

6. Students articulating from one charter school to another pursuant to an articulation agreement between the charter schools that has been approved by the sponsor.

7. Students living in a development in which a developer, including any affiliated business entity or charitable foundation, contributes to the formation, acquisition, construction, or operation of one or more charter schools or charter ~~provides the~~ school facilities ~~facility~~ and related property in an amount equal to or having a total ~~an~~ appraised value of at least $5 million to be used as ~~a~~ charter schools ~~school~~ to mitigate the educational impact created by the development of new residential dwelling units. Students living in the development are ~~shall be~~ entitled to ~~no more than~~ 50 percent of the student stations in the charter schools ~~school~~. The students who are eligible for enrollment are subject to a random lottery, the racial/ethnic balance provisions, or any federal provisions, as described in subparagraph 4. The

remainder of the student stations must ~~shall~~ be filled in accordance with subparagraph 4.

(14) CHARTER SCHOOL FINANCIAL ARRANGEMENTS; INDEMNIFICATION OF THE STATE AND SPONSOR ~~SCHOOL DISTRICT~~; CREDIT OR TAXING POWER NOT TO BE PLEDGED.—Any arrangement entered into to borrow or otherwise secure funds for a charter school authorized in this section from a source other than the state or a sponsor ~~school district~~ shall indemnify the state and the sponsor ~~school district~~ from any and all liability, including, but not limited to, financial responsibility for the payment of the principal or interest. Any loans, bonds, or other financial agreements are not obligations of the state or the sponsor ~~school district~~ but are obligations of the charter school authority and are payable solely from the sources of funds pledged by such agreement. The credit or taxing power of the state or the sponsor ~~school district~~ shall not be pledged and no debts shall be payable out of any moneys except those of the legal entity in possession of a valid charter approved by a sponsor ~~district school board~~ pursuant to this section.

(15) CHARTER SCHOOLS-IN-THE-WORKPLACE; CHARTER SCHOOLS-IN-A-MUNICIPALITY.—

(c) A charter school-in-a-municipality designation may be granted to a municipality that possesses a charter; enrolls students based upon a random lottery that involves all of the children of the residents of that municipality who are seeking enrollment, as provided for in subsection (10); and enrolls students according to the racial/ethnic balance provisions described in subparagraph (7)(a)8. When a municipality has submitted charter applications for the establishment of a

charter school feeder pattern, consisting of elementary, middle, and senior high schools, and each individual charter application is approved by the sponsor ~~district school board~~, such schools shall then be designated as one charter school for all purposes listed pursuant to this section. Any portion of the land and facility used for a public charter school shall be exempt from ad valorem taxes, as provided for in s. 1013.54, for the duration of its use as a public school.

(17) FUNDING.—Students enrolled in a charter school, regardless of the sponsorship, shall be funded as if they are in a basic program or a special program, the same as students enrolled in other public schools in a ~~the~~ school district. Funding for a charter lab school shall be as provided in s. 1002.32.

(a) Each charter school shall report its student enrollment to the sponsor as required in s. 1011.62, and in accordance with the definitions in s. 1011.61. The sponsor shall include each charter school's enrollment in the sponsor's ~~district's~~ report of student enrollment. All charter schools submitting student record information required by the Department of Education shall comply with the Department of Education's guidelines for electronic data formats for such data, and all sponsors ~~districts~~ shall accept electronic data that complies with the Department of Education's electronic format.

(b)1. The basis for the agreement for funding students enrolled in a charter school shall be the sum of the school district's operating funds from the Florida Education Finance Program as provided in s. 1011.62 and the General Appropriations Act, including gross state and local funds, discretionary

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

lottery funds, and funds from the school district's current operating discretionary millage levy; divided by total funded weighted full-time equivalent students in the school district; and multiplied by the weighted full-time equivalent students for the charter school. Charter schools whose students or programs meet the eligibility criteria in law are entitled to their proportionate share of categorical program funds included in the total funds available in the Florida Education Finance Program by the Legislature, including transportation, the research-based reading allocation, and the Florida digital classrooms allocation. Total funding for each charter school shall be recalculated during the year to reflect the revised calculations under the Florida Education Finance Program by the state and the actual weighted full-time equivalent students reported by the charter school during the full-time equivalent student survey periods designated by the Commissioner of Education. For charter schools operated by a not-for-profit or municipal entity, any unrestricted current and capital assets identified in the charter school's annual financial audit may be used for other charter schools operated by the not-for-profit or municipal entity within the school district. Unrestricted current assets shall be used in accordance with s. 1011.62, and any unrestricted capital assets shall be used in accordance with s. 1013.62(2).

2.a. Students enrolled in a charter school sponsored by a state university or Florida College System institution pursuant to paragraph (5)(a) shall be funded as if they are in a basic program or a special program in the school district. The basis for funding these students is the sum of the total operating

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

funds from the Florida Education Finance Program for the school district in which the school is located as provided in s. 1011.62 and the General Appropriations Act, including gross state and local funds, discretionary lottery funds, and funds from each school district's current operating discretionary millage levy, divided by total funded weighted full-time equivalent students in the district, and multiplied by the full-time equivalent membership of the charter school. The Department of Education shall develop a tool that each state university or Florida College System institution sponsoring a charter school shall use for purposes of calculating the funding amount for each eligible charter school student. The total amount obtained from the calculation must be appropriated from state funds in the General Appropriations Act to the charter school.

b. Capital outlay funding for a charter school sponsored by a state university or Florida College System institution pursuant to paragraph (5)(a) is determined pursuant to s. 1013.62 and the General Appropriations Act.

(c) Pursuant to 20 U.S.C. 8061 s. 10306, all charter schools shall receive all federal funding for which the school is otherwise eligible, including Title I funding, not later than 5 months after the charter school first opens and within 5 months after any subsequent expansion of enrollment. Unless otherwise mutually agreed to by the charter school and its sponsor, and consistent with state and federal rules and regulations governing the use and disbursement of federal funds, the sponsor shall reimburse the charter school on a monthly basis for all invoices submitted by the charter school for federal funds available to the sponsor for the benefit of the

charter school, the charter school's students, and the charter school's students as public school students in the school district. Such federal funds include, but are not limited to, Title I, Title II, and Individuals with Disabilities Education Act (IDEA) funds. To receive timely reimbursement for an invoice, the charter school must submit the invoice to the sponsor at least 30 days before the monthly date of reimbursement set by the sponsor. In order to be reimbursed, any expenditures made by the charter school must comply with all applicable state rules and federal regulations, including, but not limited to, the applicable federal Office of Management and Budget Circulars; the federal Education Department General Administrative Regulations; and program-specific statutes, rules, and regulations. Such funds may not be made available to the charter school until a plan is submitted to the sponsor for approval of the use of the funds in accordance with applicable federal requirements. The sponsor has 30 days to review and approve any plan submitted pursuant to this paragraph.

(d) Charter schools shall be included by the Department of Education and the district school board in requests for federal stimulus funds in the same manner as district school board-operated public schools, including Title I and IDEA funds and shall be entitled to receive such funds. Charter schools are eligible to participate in federal competitive grants that are available as part of the federal stimulus funds.

(e) Sponsors ~~District school boards~~ shall make timely and efficient payment and reimbursement to charter schools, including processing paperwork required to access special state and federal funding for which they may be eligible. Payments of

funds under paragraph (b) shall be made monthly or twice a month, beginning with the start of the sponsor's ~~district school board's~~ fiscal year. Each payment shall be one-twelfth, or one twenty-fourth, as applicable, of the total state and local funds described in paragraph (b) and adjusted as set forth therein. For the first 2 years of a charter school's operation, if a minimum of 75 percent of the projected enrollment is entered into the sponsor's student information system by the first day of the current month, the sponsor ~~district school board~~ shall distribute funds to the school for the months of July through October based on the projected full-time equivalent student membership of the charter school as submitted in the approved application. If less than 75 percent of the projected enrollment is entered into the sponsor's student information system by the first day of the current month, the sponsor shall base payments on the actual number of student enrollment entered into the sponsor's student information system. Thereafter, the results of full-time equivalent student membership surveys shall be used in adjusting the amount of funds distributed monthly to the charter school for the remainder of the fiscal year. The payments shall be issued no later than 10 working days after the sponsor ~~district school board~~ receives a distribution of state or federal funds or the date the payment is due pursuant to this subsection. If a warrant for payment is not issued within 10 working days after receipt of funding by the sponsor ~~district school board~~, the sponsor ~~school district~~ shall pay to the charter school, in addition to the amount of the scheduled disbursement, interest at a rate of 1 percent per month calculated on a daily basis on the unpaid balance from the

expiration of the 10 working days until such time as the warrant is issued. The district school board may not delay payment to a charter school of any portion of the funds provided in paragraph (b) based on the timing of receipt of local funds by the district school board.

(f) Funding for a virtual charter school shall be as provided in s. 1002.45(7).

(g) To be eligible for public education capital outlay (PECO) funds, a charter school must be located in the State of Florida.

(h) A charter school that implements a schoolwide standard student attire policy pursuant to s. 1011.78 is eligible to receive incentive payments.

(18) FACILITIES.—

(e) If a district school board facility or property is available because it is surplus, marked for disposal, or otherwise unused, it shall be provided for a charter school's use on the same basis as it is made available to other public schools in the district. A charter school receiving property from the sponsor ~~school district~~ may not sell or dispose of such property without written permission of the sponsor ~~school district~~. Similarly, for an existing public school converting to charter status, no rental or leasing fee for the existing facility or for the property normally inventoried to the conversion school may be charged by the district school board to the parents and teachers organizing the charter school. The charter school shall agree to reasonable maintenance provisions in order to maintain the facility in a manner similar to district school board standards. The Public Education Capital

Outlay maintenance funds or any other maintenance funds generated by the facility operated as a conversion school shall remain with the conversion school.

(20) SERVICES.—

(a)1. A sponsor shall provide certain administrative and educational services to charter schools. These services shall include contract management services; full-time equivalent and data reporting services; exceptional student education administration services; services related to eligibility and reporting duties required to ensure that school lunch services under the National School Lunch Program, consistent with the needs of the charter school, are provided by the sponsor ~~school district~~ at the request of the charter school, that any funds due to the charter school under the National School Lunch Program be paid to the charter school as soon as the charter school begins serving food under the National School Lunch Program, and that the charter school is paid at the same time and in the same manner under the National School Lunch Program as other public schools serviced by the sponsor or the school district; test administration services, including payment of the costs of state-required or district-required student assessments; processing of teacher certificate data services; and information services, including equal access to the sponsor's student information systems that are used by public schools in the district in which the charter school is located or by schools in the sponsor's portfolio of charter schools if the sponsor is not a school district. Student performance data for each student in a charter school, including, but not limited to, FCAT scores, standardized test scores, previous public

school student report cards, and student performance measures, shall be provided by the sponsor to a charter school in the same manner provided to other public schools in the district or by schools in the sponsor's portfolio of charter schools if the sponsor is not a school district.

2. A sponsor may withhold an administrative fee for the provision of such services which shall be a percentage of the available funds defined in paragraph (17)(b) calculated based on weighted full-time equivalent students. If the charter school serves 75 percent or more exceptional education students as defined in s. 1003.01(3), the percentage shall be calculated based on unweighted full-time equivalent students. The administrative fee shall be calculated as follows:

a. Up to 5 percent for:

(I) Enrollment of up to and including 250 students in a charter school as defined in this section.

(II) Enrollment of up to and including 500 students within a charter school system which meets all of the following:

(A) Includes conversion charter schools and nonconversion charter schools.

(B) Has all of its schools located in the same county.

(C) Has a total enrollment exceeding the total enrollment of at least one school district in the state.

(D) Has the same governing board for all of its schools.

(E) Does not contract with a for-profit service provider for management of school operations.

(III) Enrollment of up to and including 250 students in a virtual charter school.

b. Up to 2 percent for enrollment of up to and including

250 students in a high-performing charter school as defined in s. 1002.331.

c. Up to 2 percent for enrollment of up to and including 250 students in an exceptional student education center that meets the requirements of the rules adopted by the State Board of Education pursuant to s. 1008.3415(3).

3. A sponsor may not charge charter schools any additional fees or surcharges for administrative and educational services in addition to the maximum percentage of administrative fees withheld pursuant to this paragraph.

4. A sponsor shall provide to the department by September 15 of each year the total amount of funding withheld from charter schools pursuant to this subsection for the prior fiscal year. The department must include the information in the report required under sub-sub-subparagraph (5)(b)1.k.(III).

(b) If goods and services are made available to the charter school through the contract with the sponsor ~~school district~~, they shall be provided to the charter school at a rate no greater than the sponsor's ~~district's~~ actual cost unless mutually agreed upon by the charter school and the sponsor in a contract negotiated separately from the charter. When mediation has failed to resolve disputes over contracted services or contractual matters not included in the charter, an appeal may be made to an administrative law judge appointed by the Division of Administrative Hearings. The administrative law judge has final order authority to rule on the dispute. The administrative law judge shall award the prevailing party reasonable attorney fees and costs incurred during the mediation process, administrative proceeding, and any appeals, to be paid by the

party whom the administrative law judge rules against. To maximize the use of state funds, sponsors ~~school districts~~ shall allow charter schools to participate in the sponsor's bulk purchasing program if applicable.

(c) Transportation of charter school students shall be provided by the charter school consistent with the requirements of subpart I.E. of chapter 1006 and s. 1012.45. The governing body of the charter school may provide transportation through an agreement or contract with the sponsor ~~district school board~~, a private provider, or parents. The charter school and the sponsor shall cooperate in making arrangements that ensure that transportation is not a barrier to equal access for all students residing within a reasonable distance of the charter school as determined in its charter.

(d) Each charter school shall annually complete and submit a survey, provided in a format specified by the Department of Education, to rate the timeliness and quality of services provided by the sponsor ~~district~~ in accordance with this section. The department shall compile the results, by sponsor ~~district~~, and include the results in the report required under sub-sub-subparagraph (5)(b)1.k.(III).

(21) PUBLIC INFORMATION ON CHARTER SCHOOLS.—

(a) The Department of Education shall provide information to the public, directly and through sponsors, on how to form and operate a charter school and how to enroll in a charter school once it is created. This information shall include the standard application form, standard charter contract, standard evaluation instrument, and standard charter renewal contract, which shall include the information specified in subsection (7) and shall be

developed by consulting and negotiating with both sponsors ~~school districts~~ and charter schools before implementation. The charter and charter renewal contracts shall be used by charter school sponsors.

(b)1. The Department of Education shall report to each charter school receiving a school grade pursuant to s. 1008.34 or a school improvement rating pursuant to s. 1008.341 the school's student assessment data.

2. The charter school shall report the information in subparagraph 1. to each parent of a student at the charter school, the parent of a child on a waiting list for the charter school, the sponsor ~~district in which the charter school is located~~, and the governing board of the charter school. This paragraph does not abrogate the provisions of s. 1002.22, relating to student records, or the requirements of 20 U.S.C. s. 1232g, the Family Educational Rights and Privacy Act.

(25) LOCAL EDUCATIONAL AGENCY STATUS FOR CERTAIN CHARTER SCHOOL SYSTEMS.—

(a) A charter school system's governing board shall be designated a local educational agency for the purpose of receiving federal funds, the same as though the charter school system were a school district, if the governing board of the charter school system has adopted and filed a resolution with its sponsor ~~sponsoring district school board~~ and the Department of Education in which the governing board of the charter school system accepts the full responsibility for all local education agency requirements and the charter school system meets all of the following:

1. Has all schools located in the same county;

2. Has a total enrollment exceeding the total enrollment of at least one school district in the state; and

3. Has the same governing board.

Such designation does not apply to other provisions unless specifically provided in law.

(28) RULEMAKING.—The Department of Education, after consultation with sponsors ~~school districts~~ and charter school directors, shall recommend that the State Board of Education adopt rules to implement specific subsections of this section. Such rules shall require minimum paperwork and shall not limit charter school flexibility authorized by statute. The State Board of Education shall adopt rules, pursuant to ss. 120.536(1) and 120.54, to implement a standard charter application form, standard application form for the replication of charter schools in a high-performing charter school system, standard evaluation instrument, and standard charter and charter renewal contracts in accordance with this section.

Section 3. Paragraph (b) of subsection (3) of section 1002.331, Florida Statutes, is amended to read:

1002.331 High-performing charter schools.—

(3)

(b) A high-performing charter school may submit ~~not establish more than~~ two applications for a charter school ~~schools~~ within the state under paragraph (a) to be opened at a time determined by the high-performing charter school ~~in any year~~. A subsequent application to establish a charter school under paragraph (a) may not be submitted unless each charter school applicant commences operations or an application is

otherwise withdrawn ~~established in this manner achieves high-performing charter school status~~. However, a high-performing charter school may establish more than one charter school within the state under paragraph (a) in any year if it operates in the area of a persistently low-performing school and serves students from that school. This paragraph applies to any high-performing charter school with an existing approved application.

Section 4. Paragraph (c) of subsection (1), paragraphs (g) and (h) of subsection (6), paragraph (d) of subsection (7), and paragraph (b) of subsection (10) of section 1002.333, Florida Statutes, are amended to read:

1002.333 Persistently low-performing schools.—

(1) DEFINITIONS.—As used in this section, the term:

(c) "Persistently low-performing school" means a school that has earned three grades lower than a "C," pursuant to s. 1008.34, in at least 3 of the previous 5 years that the school received a grade and has not earned a grade of "B" or higher in the most recent 2 school years, and a school that was closed pursuant to s. 1008.33(4) within 2 years after the submission of a notice of intent.

(6) STATUTORY AUTHORITY.—

(g) Each school of hope that has not been designated as a local education agency shall report its students to the school district as required in s. 1011.62, and in accordance with the definitions in s. 1011.61. The school district shall include each charter school's enrollment in the district's report of student enrollment. A school of hope designated as a local education agency may report its students to the department in accordance with the definitions in s. 1011.61 pursuant to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

procedures and timelines adopted by the department. All charter schools submitting student record information required by the department shall comply with the department's guidelines for electronic data formats for such data, and all districts shall accept electronic data that complies with the department's electronic format.

(h) A ~~school of~~ hope operator shall provide the school district with a concise, uniform, quarterly financial statement summary sheet that contains a balance sheet and a statement of revenue, expenditures, and changes in fund balance. The balance sheet and the statement of revenue, expenditures, and changes in fund balance shall be in the governmental fund format prescribed by the Governmental Accounting Standards Board. Additionally, a ~~school of~~ hope operator shall comply with the annual audit requirement ~~for charter schools~~ in s. 218.39.

(7) FACILITIES.—

(d) No later than January ~~October~~ 1, the department ~~each school district~~ shall annually provide to school districts ~~the Department of Education~~ a list of all underused, vacant, or surplus facilities owned or operated by the school district as reported in the Florida Inventory of School Houses. A school district may provide evidence to the department that the list contains errors or omissions within 30 days after receipt of the list. By each April 1, the department shall update and publish a final list of all underused, vacant, or surplus facilities owned or operated by each school district, based upon updated information provided by each school district. A hope operator establishing a school of hope may use an educational facility identified in this paragraph at no cost or at a mutually

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

agreeable cost not to exceed $600 per student. A hope operator using a facility pursuant to this paragraph may not sell or dispose of such facility without the written permission of the school district. For purposes of this paragraph, the term "underused, vacant, or surplus facility" means an entire facility or portion thereof which is not fully used or is used irregularly or intermittently by the school district for instructional or program use.

(10) SCHOOLS OF HOPE PROGRAM.—The Schools of Hope Program is created within the Department of Education.

(b) Notwithstanding s. 216.301 and pursuant to s. 216.351, funds allocated for the purpose of this subsection which are not disbursed by June 30 of the fiscal year in which the funds are allocated may be carried forward for up to 7 ~~5~~ years after the effective date of the original appropriation.

Section 5. Paragraph (a) of subsection (1) of section 1003.493, Florida Statutes, is amended to read:

1003.493 Career and professional academies and career-themed courses.—

(1)(a) A "career and professional academy" is a research-based program that integrates a rigorous academic curriculum with an industry-specific curriculum aligned directly to priority workforce needs established by the local workforce development board or the Department of Economic Opportunity. Career and professional academies shall be offered by public schools and school districts. Career and professional academies may be offered by charter schools. The Florida Virtual School is encouraged to develop and offer rigorous career and professional courses as appropriate. Students completing career and

professional academy programs must receive a standard high school diploma, the highest available industry certification, and opportunities to earn postsecondary credit if the academy partners with a postsecondary institution approved to operate in the state.

Section 6. Present subsection (3) of section 1008.3415, Florida Statutes, is redesignated as subsection (4), and a new subsection (3) is added to that section, to read:

1008.3415 School grade or school improvement rating for exceptional student education centers.—

(3) The Commissioner of Education, upon request by a charter school that is an exceptional student education center and that has received two consecutive ratings of "maintaining" or higher pursuant to s. 1008.341(2), shall provide a letter to the charter school and to the charter school's sponsor stating that the charter school may replicate its educational program in the same manner as a high-performing charter school under s. 1002.331(3).

Section 7. Subsection (2) of section 1012.32, Florida Statutes, is amended to read:

1012.32 Qualifications of personnel.—

(2)(a) Instructional and noninstructional personnel who are hired or contracted to fill positions that require direct contact with students in any district school system or university lab school must, upon employment or engagement to provide services, undergo background screening as required under s. 1012.465 or s. 1012.56, whichever is applicable.

(b)1. Instructional and noninstructional personnel who are hired or contracted to fill positions in a ~~any~~ charter school

other than a school of hope as defined in s. 1002.333(1)(d)1., and members of the governing board of such ~~any~~ charter school, in compliance with s. 1002.33(12)(g), ~~must,~~ upon employment, engagement of services, or appointment, shall undergo background screening as required under s. 1012.465 or s. 1012.56, whichever is applicable, by filing with the district school board for the school district in which the charter school is located a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the school or school district who is trained to take fingerprints.

2. Instructional and noninstructional personnel who are hired or contracted to fill positions in a school of hope as defined in s. 1002.333(1)(d)1., and members of the governing board of such school of hope, shall file with the school of hope a complete set of fingerprints taken by an authorized law enforcement agency, by an employee of the school of hope or school district who is trained to take fingerprints, or by any other entity recognized by the Department of Law Enforcement to take fingerprints.

(c) Instructional and noninstructional personnel who are hired or contracted to fill positions that require direct contact with students in an alternative school that operates under contract with a district school system must, upon employment or engagement to provide services, undergo background screening as required under s. 1012.465 or s. 1012.56, whichever is applicable, by filing with the district school board for the school district to which the alternative school is under contract a complete set of fingerprints taken by an authorized law enforcement agency or an employee of the school or school

district who is trained to take fingerprints.

(d) Student teachers and persons participating in a field experience pursuant to s. 1004.04(5) or s. 1004.85 in any district school system, lab school, or charter school must, upon engagement to provide services, undergo background screening as required under s. 1012.56.

Required fingerprints must ~~shall~~ be submitted to the Department of Law Enforcement for statewide criminal and juvenile records checks and to the Federal Bureau of Investigation for federal criminal records checks. A person subject to this subsection who is found ineligible for employment under s. 1012.315, or otherwise found through background screening to have been convicted of any crime involving moral turpitude as defined by rule of the State Board of Education, shall not be employed, engaged to provide services, or serve in any position that requires direct contact with students. Probationary persons subject to this subsection terminated because of their criminal record have the right to appeal such decisions. The cost of the background screening may be borne by the district school board, the charter school, the employee, the contractor, or a person subject to this subsection. A district school board shall reimburse a charter school the cost of background screening if it does not notify the charter school of the eligibility of a governing board member or instructional or noninstructional personnel within the earlier of 14 days after receipt of the background screening results from the Florida Department of Law Enforcement or 30 days of submission of fingerprints by the governing board member or instructional or noninstructional

personnel.

Section 8. Paragraph (a) of subsection (1) of section 1013.62, Florida Statutes, is amended to read:

1013.62 Charter schools capital outlay funding.—

(1) For the 2020-2021 fiscal year, charter school capital outlay funding shall consist of state funds appropriated in the 2020-2021 General Appropriations Act. Beginning in fiscal year 2021-2022, charter school capital outlay funding shall consist of state funds when such funds are appropriated in the General Appropriations Act and revenue resulting from the discretionary millage authorized in s. 1011.71(2) if the amount of state funds appropriated for charter school capital outlay in any fiscal year is less than the average charter school capital outlay funds per unweighted full-time equivalent student for the 2018-2019 fiscal year, multiplied by the estimated number of charter school students for the applicable fiscal year, and adjusted by changes in the Consumer Price Index issued by the United States Department of Labor from the previous fiscal year. Nothing in this subsection prohibits a school district from distributing to charter schools funds resulting from the discretionary millage authorized in s. 1011.71(2).

(a) To be eligible to receive capital outlay funds, a charter school must:

1.a. Have been in operation for 2 or more years;

b. Be governed by a governing board established in the state for 2 or more years which operates both charter schools and conversion charter schools within the state;

c. Be an expanded feeder chain of a charter school within the same school district that is currently receiving charter

school capital outlay funds;

d. Have been accredited by a regional accrediting association as defined by State Board of Education rule; ~~or~~

e. Serve students in facilities that are provided by a business partner for a charter school-in-the-workplace pursuant to s. 1002.33(15)(b); or

f. Be operated by a hope operator pursuant to s. 1002.333.

2. Have an annual audit that does not reveal any of the financial emergency conditions provided in s. 218.503(1) for the most recent fiscal year for which such audit results are available.

3. Have satisfactory student achievement based on state accountability standards applicable to the charter school.

4. Have received final approval from its sponsor pursuant to s. 1002.33 for operation during that fiscal year.

5. Serve students in facilities that are not provided by the charter school’s sponsor.

Section 9. This act shall take effect July 1, 2021.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1094
INTRODUCER:	Education Committee and Senator Bean
SUBJECT:	Required Health Education Instruction
DATE:	April 16, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Sagues	Bouck	ED	**Fav/CS**
2.	Underhill	Sadberry	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1094 requires that the general health education curriculum for K-12 public schools be developmentally and age-appropriate. The curriculum must include information on the prevention of child sexual abuse, exploitation, and human trafficking.

The bill also modifies the existing health education requirement to specify that instruction on abstinence and the consequences of teen pregnancy applies only to those students in grades six through 12.

The bill does not require a state appropriation. The bill may have a fiscal impact to school districts. See section V.

The bill takes effect on July 1, 2021.

II. Present Situation:

Required Instruction in Schools

Florida law specifies required coursework and instruction for public school students. Specifically, each district school board must provide all courses required for middle grades promotion, high school graduation, and appropriate instruction designed to ensure that students meet State Board of Education (SBE) adopted standards in the following subject areas: reading

and other language arts, mathematics, science, social studies, foreign languages, health and physical education, and the arts.[1]

Instructional staff of public schools,[2] subject to the rules of the SBE and the district school board, must provide instruction in:

- The history and content of the Declaration of Independence.
- The history, meaning, significance, and effect of the provisions of the Constitution of the United States.
- The arguments in support of adopting our republican form of government.
- Flag education, including proper flag display and flag salute.
- The elements of civil government.
- The history of the Holocaust.
- The history of the United States.
- The history of African Americans.
- The elementary principles of agriculture.
- The effects of alcoholic and intoxicating liquors and beverages and narcotics.
- Kindness to animals.
- The history of the state.
- The conservation of natural resources.
- Comprehensive health education.
- The study of Hispanic contributions to the United States.
- The study of women's contributions to the United States.
- The nature and importance of free enterprise to the United States economy.
- A character-development program in kindergarten through grade 12.
- The sacrifices that veterans and Medal of Honor recipients have made serving the country.[3]

Comprehensive health education currently addresses 12 components. Eleven of the components are delivered in kindergarten through grade 12, and include: concepts of community health; consumer health; environmental health; family life, including an awareness of the benefits of sexual abstinence as the expected standard and the consequences of teenage pregnancy; mental and emotional health; injury prevention and safety; Internet safety; nutrition; personal health; prevention and control of disease; and substance use and abuse. Instruction related to teen dating violence and abuse must be provided in grades 7 through 12 only.[4]

Human Trafficking Instruction and Awareness in Schools

Florida law defines human trafficking as transporting, soliciting, recruiting, harboring, providing, enticing, maintaining, or obtaining another person for the purpose of exploitation of that person. Human trafficking is a form of modern-day slavery.[5] Victims of human trafficking are young children, teenagers, and adults; include citizens of the United States and those persons trafficked

[1] Section 1003.42(1), F.S.
[2] Instructional staff of charter schools are exempt from this section of law. Section 1002.33(16), F.S.
[3] The law encourages the SBE to adopt standards and pursue assessment relating to the required instructional content. Section 1003.42(2), F.S.
[4] Section 1003.42(2)(n), F.S.
[5] Section 787.06(1) and (2)(d), F.S.

domestically within the borders of the United States; and are subjected to force, fraud, or coercion for the purpose of sexual exploitation or forced labor.[6]

Florida is third in the nation for reported human trafficking cases.[7] In 2018, there were 767 human trafficking cases reported in Florida. Of those cases, 149 were minors. The average ages of trafficked youth are 11-13 years old.[8] In fiscal year 2019-2020, the total number of reports received by the Florida Abuse Hotline alleging human trafficking was 1,901 reports involving 1,463 children.[9]

Information on human trafficking is not currently included in required comprehensive health education instruction.[10] Additionally, SBE adopted standards do not include instruction on human trafficking, nor is there an instructional model currently available in CPALMS.[11]

In September 2019, the SBE adopted a rule addressing Child Trafficking Prevention Education, which requires school districts to annually provide instruction to students in grades K-12 related to child trafficking prevention and awareness using current health education standards. Age appropriate elements of effective and evidence-based programs, on child trafficking prevention and awareness must address the following topics:

- Recognition of signs of human trafficking;
- Awareness of resources, including national, state and local resources;
- Prevention of the abuse of and addiction to alcohol, nicotine, and drugs;
- Information of the prevalence, nature, and strategies to reduce the risk of human trafficking, techniques to set healthy boundaries, and how to safely seek assistance; and
- Information on how social media and mobile device applications are used for human trafficking.[12]

As required by the new rule, the Florida Department of Education (FDOE) maintains resources and training for the required instruction on child trafficking prevention and awareness.[13]

---

[6] Florida law describes sexual exploitation as prostitution or the work in the sexual entertainment industry and forced labor as domestic servitude, restaurant work, janitorial work, sweatshop factory work, and migrant agricultural work. *Id.*

By July 1 annually, each school district must submit a report to verify completion of the instruction required under law[14] as well as instruction in Child Trafficking Prevention Education required by SBE rule.[15]

Child Abuse Instruction and Awareness in Schools

As defined by Florida law, child abuse means any willful act or threatened act that results in any physical, mental, or sexual abuse, injury, or harm that causes or is likely to cause the child's physical, mental, or emotional health to be significantly impaired.[16] Every Florida citizen, including school teachers and other school personnel are required by law to report known or suspected child abuse.[17] In 2018, the Children's Advocacy Centers in Florida served over 34,000 children who were victims of child abuse or neglect:

- Sixty percent of the victims were female and 40 percent were male.
- Thirty-six percent of the victims were between birth and age six.
- Thirty-five percent of the victims suffered from sexual abuse, of which:
  - Twenty-seven percent suffered from physical abuse; and
  - Seventeen percent suffered from neglect.[18]

Child abuse awareness is not included in the required comprehensive health education instruction.[19] The FDOE provides child abuse prevention training materials and resources on their website.[20] Teachers in grades K-12 are required to participate in continuing education on identifying and reporting child abuse and neglect provided by the Florida Department of Children and Families.[21]

III. Effect of Proposed Changes:

The bill amends s. 1003.42, F.S., to require that the general health education curriculum for K-12 public schools be developmentally and age-appropriate and must include information on the prevention of child sexual abuse, exploitation, and human trafficking. Adding such topics to the required instruction health education curriculum may help raise awareness of associated dangers and improve student health.

The bill limits the existing kindergarten through grade 12 requirement to specify that instruction on abstinence and the consequences of teen pregnancy applies only to those students in grades six through 12, providing developmentally and age-appropriate instruction for this topic. Also, the bill amends s. 1006.148, F.S., to conform a cross reference for the purpose of defining dating violence and abuse.

The bill takes effect on July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill does not require a state appropriation. However, for those school districts that do not already provide child sexual abuse prevention instruction, there may be a cost associated with including this instruction in the required health education curriculum.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1003.42 and 1006.148.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education on March 23, 2021:
The committee substitute modifies the existing health education requirement to specify that instruction on abstinence and the consequences of teen pregnancy applies only to those students in grades six through 12.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Education; and Senator Bean

581-03258-21 20211094c1

A bill to be entitled

An act relating to required health education instruction; amending s. 1003.42, F.S.; providing additional requirements for health education; revising the grade levels when students receive certain health education instruction; requiring health education instruction to include prevention of specified harms; requiring such education to include an awareness of the benefits of sexual abstinence as the expected standard and the consequences of teenage pregnancy; amending s. 1006.148, F.S.; conforming a cross-reference; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (n) of subsection (2) of section 1003.42, Florida Statutes, is amended to read:

1003.42 Required instruction.—

(2) Members of the instructional staff of the public schools, subject to the rules of the State Board of Education and the district school board, shall teach efficiently and faithfully, using the books and materials required that meet the highest standards for professionalism and historical accuracy, following the prescribed courses of study, and employing approved methods of instruction, the following:

(n)1. Comprehensive age-appropriate and developmentally appropriate K-12 health education that addresses concepts of community health,~~;~~ consumer health,~~;~~ environmental health, and~~;~~ family life, including:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

581-03258-21 20211094c1

d. Nutrition.~~;~~

e. Personal health.~~;~~

f. Prevention and control of disease.~~; and~~

g. Substance use and abuse.

h. Prevention of child sexual abuse, exploitation, and human trafficking.

2. The health education curriculum for students in grades 7 through 12 shall include a teen dating violence and abuse component that includes, but is not limited to, the definition of dating violence and abuse, the warning signs of dating violence and abusive behavior, the characteristics of healthy relationships, measures to prevent and stop dating violence and abuse, and community resources available to victims of dating violence and abuse.

3. The health education curriculum for students in grades 6 through 12 shall include an awareness of the benefits of sexual abstinence as the expected standard and the consequences of teenage pregnancy.

The State Board of Education is encouraged to adopt standards and pursue assessment of the requirements of this subsection. A character development program that incorporates the values of the recipients of the Congressional Medal of Honor and that is offered as part of a social studies, English Language Arts, or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

other schoolwide character building and veteran awareness initiative meets the requirements of paragraphs (s) and (t).

Section 2. Paragraph (c) of subsection (1) of section 1006.148, Florida Statutes, is amended to read:

1006.148 Dating violence and abuse prohibited.—

(1) Each district school board shall adopt and implement a dating violence and abuse policy. The policy shall:

(c) Define dating violence and abuse and provide for a teen dating violence and abuse component in the health education curriculum, according to s. 1003.42(2)(n)2. ~~s. 1003.42(2)(n)~~, with emphasis on prevention education.

Section 3. This act shall take effect July 1, 2021.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1108
INTRODUCER:	Appropriations Committee; Judiciary Committee; and Senator Diaz
SUBJECT:	Education
DATE:	April 21, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Ravelo	Cibula	JU	**Fav/CS**
2.	Sagues	Bouck	ED	**Favorable**
3.	Underhill	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

CS/CS/SB 1108 revises several areas of education law, primarily relating to graduation requirements and statewide standardized assessments. Specifically, the bill:

- Requires every school district, alternative school, and the Department of Juvenile Justice (DJJ) to offer either the SAT or ACT to every student in the 11th grade free of charge, subject to an appropriation for that purpose;
- Amends the civic literacy requirement for post-secondary education to include both an assessment and a course, as opposed to one or the other;
- Creates a process to allow students in high school to earn the civic literacy requirement before enrolling in a public college or university in this state;
- Requires the statewide, standardized math and English learning assessments in grades 3 through 6 to be paper-based;
- Deletes obsolete language relating to prior statewide standardized assessments, and updates the assessment publication requirement in anticipation of the implementation of new state standards;
- Authorizes the Department of Education (DOE) to hold certain intellectual property rights, including the right to patent, copyright, and trademark. This authority will allow the DOE to protect certain materials, such as state authored assessments, from being sold or distributed without authorization; and
- Creates the Innovative Blended Learning and Real-Time Student Assessment Pilot Program.

The bill does not require a state appropriation. However, the DOE estimates that an appropriation of $8 million would be necessary to provide funding for the SAT or ACT to be offered to each student in the 11th grade.

The bill provides an effective date of July 1, 2021.

II. Present Situation:

Course and Testing Requirements

Florida Statewide Standardized Assessments

The Next Generation Sunshine State Standards (NGSSS) establish the core curricula, knowledge, and skills expected of K-12 students in Florida. Standards may be adopted by rule through the State Board of Education.[1] In 2014, the Legislature amended Florida's assessment program to set forth the transition process from the prior statewide, standardized assessment (FCAT and FCAT 2.0) to the Florida Standards Assessment (FSA), including new English Language Arts (ELA) and mathematics assessments.[2]

The statewide standardized assessments measure the extent to which students have mastered the NGSSS.[3] Students are required to take a standardized assessment in the following courses:

- English Language Arts (grades 3-10);
- Mathematics (grades 3-8);
- Science (grades 5 and 8); and
- EOC assessments in Algebra 1, Biology 1, Civics, Geometry, and U.S. History.[4]

The Commissioner of Education (commissioner) assists and supports districts in measuring student performance on the state standards by maintaining a statewide item bank, facilitating the sharing of developed tests or test items among school districts, and providing technical assistance in best assessment practices. The commissioner may discontinue the item bank if he or she determines that district participation is insufficient for its sustainability.[5]

High School Course Requirements

As part of the 24 credits required to graduate from high school, students must earn three credits in social studies, including:

- One credit in United States History;
- One credit in World History;
- One-half credit in economics; and
- One-half credit in the United States Government.[6]

[1] Section 1003.41(1) and (4), F.S.
[2] Chapter 2014-39, Laws of Fla.
[3] Section 1008.22(3), F.S.
[4] Section 1008.22(3)(a) and (b), F.S.
[5] Section 1008.22(6)(b), F.S.
[6] Section 1003.4282(3)(d), F.S.

Collegiate Course Requirements

Each student graduating from a Florida College System or state university must demonstrate civic literacy.[7] Currently, civic literacy may be accomplished by either passing an assessment or taking a course. Florida State University, for example, offers for students to enroll in certain courses for credit or obtain a score of 60 out of 100 on the U.S. Citizenship and Immigration Services Naturalization Test, which is offered free of charge.[8]

Intellectual Property

Under Florida Law:

> An agency created by statute does not possess any inherent powers. Rather, the agency is limited to the powers that have been granted, either expressly or by necessary implication, by the statute that created the agency.[9]

A state agency, for example, is not authorized to secure or hold a copyright, trademark, or patent absent specific statutory authority.[10] While the Department of State (DOS) has administrative authority to enforce any copyright, trademark, or patent *held* by the state,[11] the DOS does not have unilateral authority to apply for or enforce intellectual property rights outside of a specific statutory authorization. For example, the following agencies have independent statutory authority to seek and enforce a copyright, trademark, or patent:

- The Department of Lottery;[12]
- The Department of Citrus;[13]
- The Department of Transportation;[14]
- Each water management district;[15]
- The Department of Law Enforcement;[16]
- The Florida Virtual School;[17]
- Each state university;[18] and
- Each Florida College System institution Board of Trustees.[19]

Blended Learning

School districts may deliver courses through blended learning courses consisting of both traditional classroom and online instructional techniques. Students in a blended learning course must be full-time students of the school. The funding, performance, and accountability requirements for blended learning courses are the same as those for traditional courses.[20]

District Innovation School of Technology Program

An innovation school of technology is a school that has, on a schoolwide basis, adopted and implemented a blended learning program. A blended learning program is an education program in which a student learns in part through online delivery of content and instruction with some element of student control over time, place, path, or pace and in part at a supervised brick-and-mortar location away from home. Blended learning models must include major components such as differentiated instruction, data-driven placement, flexible scheduling, differentiated teaching, and self-paced learning. The school may use one of the following blended learning models:

- Flipped classroom model in which students use online instructional videos and practice concepts in the classroom with the support of the teacher;
- Flex model in which students learn primarily online and teachers act as facilitators; or
- Rotation model in which students move between different learning modalities, such as online instruction, teacher-directed instruction, seminar or group projects, and one-on-one teacher coaching. Rotation models include individual, station, and laboratory models.[21]

A school district may operate an innovation school for a period of five years upon their application being approved by the State Board of Education. An innovation school must be guided by the principles set forth in statute and is exempt from specified provisions of law in chs. 1000-1013, Florida Statutes. School districts must annually submit a report that delineates the academic performance of students enrolled in the innovation school.[22]

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 1001.23, F.S., to authorize the DOE to hold patents, copyrights, trademarks, and service marks. Additionally, the DOE is authorized to take any actions necessary to enforce its rights in regard to any such patent trademark, copyright, or service mark. The DOE must notify the Department of State in writing when it secures a patent, trademark, copyright, or service mark. Except for educational materials and products, any proceeds received by the DOE from the exercise of such rights must be deposited in the DOE's Operating Trust Fund.

Section 2 of the bill creates s. 1002.334, F.S., to establish the Innovative Blended Learning and Real-Time Student Assessment Pilot Program. The bill defines "innovative blended learning" as a mode of learning where in-person and remote students are combined in one classroom

[20] Section 1003.498, F.S.
[21] Section 1002.451, F.S.
[22] *Id*.

experience where students learn in part through online delivery of content and instruction with some element of student control over time, place path, or pace and in part at a supervised classroom location.

Eligible applicants include high-performing charter schools, high-performing charter school systems, and academically high-performing school districts. The application submitted to DOE must include:

- A plan for synchronous technological and resource design, curriculum, classroom operation, school or district management, privacy protection, teacher professional development, and weekly progress monitoring of real-time student performance.
- A plan to reduce achievement gaps.
- A requirement that distance learning will always be at the choosing of the student or parent.
- A requirement that a participating classroom may not be fully virtual and that at least two-thirds of students are present in the classroom on any regularly scheduled day.
- A requirement that any struggling student must return to learning in person.
- A requirement that any student can switch learning modalities on any given day.
- A requirement that the applicant provide all requested student-level data.

Applicants approved by the Commissioner of Education are authorized to receive funding based upon the number of FTE students as if each student was physically present at the school. Districts and schools may not begin programs until October 1, 2021. The commissioner may remove an approved applicant if the applicant fails to meet the requirements of the pilot program, which is scheduled to sunset on July 1, 2024.

Section 3 of the bill amends s. 1003.4282, F.S., to require every student who takes the United States Government course in high school to take a civic literacy assessment, beginning with the 2021-2022 school year. Students who earn a passing score on the course assessment are exempt from the postsecondary civic literacy requirement.

Section 4 of the bill amends s. 1007.25, F.S., to require students who initially enter a Florida College Institution or state university during or after the 2021-2022 school year demonstrate civic literacy by passing an assessment *and* taking a course on civic literacy. Students in high school may complete the civic literacy requirement through an accelerated mechanism, such as dual enrollment.

The bill requires the State Board of Education and the Board of Governors to adopt rules and regulations to:

- Develop one or more new civic literacy courses that provide students, at a minimum, opportunities to engage synchronously in political discussion and civil debates with multiple points of view and master the ability to synthesize information to inform civic decision-making; and
- Approve civic literacy assessments that address competencies that include:
    - An understanding the basic principles of American democracy and how they are applied in our republican form of government;
    - An understanding of the U.S. Constitution;

- Knowledge of the founding documents and how they have shaped the nature and functions of our institutions of self-governance; and
- An understanding of landmark Supreme Court cases and their impact on law and society.

Section 5 of the bill amends s. 1008.212, F.S., to conform cross-references to changes made by the act.

Section 6 of the bill amends s. 1008.22, F.S., to make adjustments to student assessments. Specifically, the bill requires school districts, alternative schools, and the DJJ education programs, subject to appropriation, to provide either the SAT or ACT to all 11th grade students. The DOE estimates that such an initiative would require an $8 million appropriation per year.[23]

The bill requires the standardized English language arts and the mathematics assessments for grades 3 through 6 to be delivered in a paper-based format.

The bill requires that a student's results on the statewide, standardized science and social studies assessments be included in the mandatory report of assessment results provided to students, parents, and teachers. The mandatory report was previously required to only include the student's results on the statewide, standardized ELA and mathematics assessments.

The bill deletes the requirement that the DOE include data on students who enroll in adult education following 8th grade rather than other secondary education from the required annual report on assessments.

The bill repeals the requirement that the commissioner maintain a statewide item bank, facilitate the sharing of developed tests or test items among school districts, and provide technical assistance in best assessment practices. Additionally, the bill repeals language regarding certain statewide standardized assessments that are no longer used, which specifically includes the standardized reading assessment and the standardized writing assessment for grades 3 through 10. The bill retains the existing English Language Arts Assessments, which has replaced the assessment that the bill repeals. The bill removes the requirement for each school district to administer specified assessments no earlier than four weeks before the last day of school for the district.

Section 7 of the bill amends the test administration and security public records exemption under s. 1008.24, F.S., which currently protects tests under the student assessment program, to expressly identify the protected assessment tests. The assessment tests expressly incorporated into the exemption relate to:

- Statewide kindergarten screening;
- Assessments administered by the Department of Juvenile Justice education programs;
- English language assessments for limited English proficient students;
- Postsecondary General Education courses;
- The Florida Partnership for Minority and Underrepresented Student Achievement;

[23] E-mail from Bethany Swanson, Deputy Chief of Staff, Florida Department of Education, *RE: SB 1108* (March 2021) (on file with the Senate Committee on Judiciary). *See also* Florida Department of Education, *2021 Agency Analysis of SB 1108* (Feb. 11, 2021).

- The Student assessment programs for public schools;
- The public school student progression, student support, reporting requirements; and
- Educator certification.

Section 8 of the bill amends s. 1008.34, F.S., conforming cross-reference to changes made by this act.

Section 9 of the bill amends s. 1008.3415, F.S., conforming cross-reference to changes made by this act.

Section 10 of the bill amends s. 1009.286, F.S., to exempt the civics literacy requirement from the excess credit charges under the excess credit hour for a baccalaureate degree program at state universities. If a student at a state university achieves an excess of 120 percent of credit hours required for a baccalaureate program, the remaining hours are charged an additional 100 percent of the tuition.
The bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

Article I, s. 24 of the Florida Constitution allows the general public to "inspect or copy any public record made or received in connection with the official business of any public body, officer, or employee of the state[.]"[24] Generally, a public records exemption is required when a bill prevents access to public records, including when Florida law provides copyright protection.[25]

The bill gives the DOE the authority to protect certain public records, such as state authored exam questions, by allowing the Department to assert patent, copyright, and trademark protections. The bill does not specifically create a new public records exemption, and the DOE intends to use these intellectual property protections on public records that are already exempt, such as public records under to s. 1008.23, F.S., regarding testing and assessments and s. 1002.221, F.S., regarding education records.[26] Thus, a public records exemption is not required to specifically allow for copyright, trademark, or patent protections to the extent that these protections will be used on public records that are already exempt.

[24] FLA. CONST. art. I, s. 24.
[25] *See supra* note 12, and accompanying text.
[26] Conversation with Matthew Mears, General Counsel, Florida Department of Education (Mar. 15 2021). Additionally, *See supra* note 22.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

CS/SB 1108 requires school districts, alternative schools, and the DJJ education programs to provide either the SAT or ACT to all 11th grade students, subject to an appropriation. The DOE estimates that such an initiative would require an $8 million appropriation per year.[27]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1001.23, 1003.4282, 1007.25, 1008.212, 1008.22, 1008.24, 1008.34, 1008.3415, and 1009.286.

The bill creates section 1002.334 of the Florida Statutes.

[27] *See supra* note 22.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The committee substitute creates s. 1002.334, F.S. to establish the Innovative Blended Learning and Real-Time Student Assessment Pilot Program. Specifically, the amendment:

- Defines "innovative blended learning" as a mode of learning where in-person and remote students are combined in one classroom experience where students learn in part through online delivery of content and instruction with some element of student control over time, place path, or pace and in part at a supervised classroom location.
- Requires an applicant to be a high-performing charter school or high-performing charter school system, or an academically high-performing school district.
- Requires an applicant to submit a DOE developed application that includes:
  - A plan for synchronous technological and resource design, curriculum, classroom operation, school or district management, privacy protection, teacher professional development, and weekly progress monitoring of real-time student performance.
  - A plan to reduce achievement gaps.
  - A requirement that distance learning will always be at the choosing of the student or parent.
  - A requirement that a participating classroom may not be fully virtual and that at least two-thirds of students are present in the classroom on any regularly scheduled day.
  - A requirement that any struggling student must return to learning in person.
  - A requirement that any student can switch learning modalities on any given day.
  - A requirement that the applicant provide all requested student-level data.
- Authorizes the Commissioner of Education to pick applicants to participate in the program.
- Restricts districts and schools from beginning programs until October 1, 2021.
- Authorizes approved applicants to receive funding based upon the number of FTE students as if each student was physically present at the school.
- Authorizes the commissioner to remove an approved applicant if the applicant fails to meet the requirements of the pilot.
- Sunsets the pilot July 1, 2024.

CS by Judiciary on March 22, 2021:
The committee substitute provides that each school district administer the SAT or ACT to 11th grade students in the "Department of Juvenile Justice education programs" as opposed to "centers of the Department of Juvenile Justice."

B. Amendments:

None.

732008

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.

	.	
	.	
	.	

The Committee on Appropriations (Diaz) recommended the following:

Senate Amendment (with title amendment)

Between lines 70 and 71

insert:

Section 2. Section 1002.334, Florida Statutes, is created to read:

1002.334 Synchronous Innovative Blended Learning Pilot Program.—

(1) There is created within the Department of Education the Synchronous Innovative Blended Learning Pilot Program. The

732008

purpose of the program is to develop and measure a synchronous and innovative blended learning model that improves the educational progress of this state's students and helps close achievement gaps for this state's traditionally underserved students.

(2) As used in this section, the term "synchronous innovative blended learning" means:

(a) A mode of learning where in-person and remote students are combined in one classroom environment where the education, instruction, and engagement occurs at the same time with the teacher and other students physically present in the classroom; and

(b) For a given course, students learn in part through online delivery of content and instruction with some element of student control over time, place, path, or pace and in part at a traditional supervised classroom location away from home.

(3) To be eligible to work with the program, an applicant must be:

(a) A high-performing charter school under s. 1002.331;

(b) A high-performing charter school system under s. 1002.332; or

(c) An academically high-performing school district pursuant to s. 1003.621.

(4) A program applicant must submit an application to the department in a format prescribed by the department. The application must include all of the following:

(a) A plan for the synchronous technological and resource design, curriculum, classroom operation, school or district management, privacy protection and teacher professional

development, and at least weekly progress monitoring of student performance in synchronous innovative blended learning programs.

(b) A plan to reduce achievement gaps through synchronous innovative blended learning.

(c) A requirement that distance learning will always be at the choosing of the student or the student's parent or guardian and that a family will never be coerced to choose distance learning.

(d) A requirement that a participating classroom may not be fully virtual such that at least one-third of the students in a class must be present for in-person learning on any regularly scheduled school day.

(e) A requirement that any struggling student who is participating in this program and who, according to progress monitoring data, is on pace to learn less than a year's content in a year's time must return to learning in person.

(f) A requirement that any student can choose to switch learning modalities, in person or distance, on any given day, without notice and therefore a seat must always be available for every student registered to take any participating course.

(g) A requirement that the applicant provide all requested student-level data from participating schools, including, as necessary, benchmark historical data for up to the prior 3 school years, to the department upon request.

(5) Applications may be considered only for synchronous innovative blended learning programs.

(6) The Commissioner of Education shall pick applicants to participate in the program.

(7)(a) Applicants approved by the commissioner shall

732008

receive funding based upon the number of full-time equivalent students being educated under the pilot program, as if each student were being educated full time in person at his or her respective school.

(b) The commissioner may remove an approved applicant from program participation if the applicant fails to maintain the designations listed in subsection (3) or the applicant fails to meet any of the requirements listed in subsection (4).

(8) This section expires July 1, 2024.

of Education to select applicants to participate in the program; providing a start date for the program; providing for funding; authorizing the commissioner to remove an approved applicant from the program under certain circumstances; providing for future expiration;

By the Committee on Judiciary; and Senator Diaz

590-03163-21 20211108c1

A bill to be entitled

An act relating to education; amending s. 1001.23, F.S.; authorizing the Department of Education to hold patents, copyrights, trademarks, and service marks; authorizing the department to take specified actions to enforce its rights under certain circumstances; requiring the department to notify the Department of State in writing when property rights by patent, copyright, trademark, or service marks are secured by the department; requiring, except for educational materials and products, any proceeds received by the department from the exercise of its rights to be deposited in the department's Operating Trust Fund; amending s. 1003.4282, F.S.; deleting obsolete language; requiring certain students to take a specified assessment relating to civic literacy; providing that such assessment meets certain postsecondary requirements under specified circumstances; conforming a cross-reference; amending s. 1007.25, F.S.; requiring certain postsecondary students to complete a civic literacy course and pass a specified assessment to demonstrate competency in civic literacy; authorizing students to meet the assessment requirements in high school; providing for rulemaking; authorizing the development of new civic literacy courses; providing requirements for such courses; amending s. 1008.212, F.S.; conforming cross-references; amending s. 1008.22, F.S.; revising the purpose of the assessment program; deleting obsolete

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

590-03163-21 20211108c1

language; requiring that certain assessments be given in a paper-based format; requiring school districts to provide the SAT or ACT to grade 11 students beginning in a specified school year; requiring school districts to choose which assessment to administer; deleting specified reporting requirements; deleting a requirement that the Commissioner of Education maintain a specified item bank; deleting specified requirements for the date of the administration of specified assessments; revising a deadline for the publication of certain assessments; conforming provisions to changes made by the act; amending s. 1008.24, F.S.; revising the tests that are included under test administration and security rules; amending ss. 1008.34 and 1008.3415, F.S.; conforming cross-references; amending s. 1009.286, F.S.; providing an additional exception to credit hours used when calculating baccalaureate degrees; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (5) is added to section 1001.23, Florida Statutes, to read:

1001.23 Specific powers and duties of the Department of Education.—In addition to all other duties assigned to it by law or by rule of the State Board of Education, the department shall:

(5) Notwithstanding the provisions of chapter 286, have the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

authority to hold patents, copyrights, trademarks, and service marks. The department may take any action necessary to enforce its rights with respect to such patents, copyrights, trademarks, and service marks or enter into a transaction to sell, lease, license, or transfer such rights for monetary gain or other consideration at the discretion of the department. The department shall notify the Department of State in writing when property rights by patent, copyright, trademark, or service marks are secured by the department. Except for educational materials and products, any proceeds received by the department from the exercise of such rights shall be deposited in the department's Operating Trust Fund.

Section 2. Paragraphs (a) and (d) of subsection (3), subsection (7), and paragraph (e) of subsection (10) of section 1003.4282, Florida Statutes, are amended to read:

1003.4282 Requirements for a standard high school diploma.—

(3) STANDARD HIGH SCHOOL DIPLOMA; COURSE AND ASSESSMENT REQUIREMENTS.—

(a) *Four credits in English Language Arts (ELA).*—The four credits must be in ELA I, II, III, and IV. A student must pass the statewide, standardized grade 10 ~~Reading assessment or, when implemented, the grade 10~~ ELA assessment, or earn a concordant score, in order to earn a standard high school diploma.

(d) *Three credits in social studies.*—A student must earn one credit in United States History; one credit in World History; one-half credit in economics; and one-half credit in United States Government. The United States History EOC assessment constitutes 30 percent of the student's final course grade. Beginning with the 2021-2022 school year, students taking

the United States Government course are required to take the assessment of civic literacy identified by the State Board of Education pursuant to s. 1007.25(4). Students earning a passing score on the assessment are exempt from the postsecondary civic literacy assessment required by s. 1007.25(4).

(7) UNIFORM TRANSFER OF HIGH SCHOOL CREDITS.—Beginning with the 2012-2013 school year, if a student transfers to a Florida public high school from out of country, out of state, a private school, or a home education program and the student's transcript shows a credit in Algebra I, the student must pass the statewide, standardized Algebra I EOC assessment in order to earn a standard high school diploma unless the student earned a comparative score, passed a statewide assessment in Algebra I administered by the transferring entity, or passed the statewide mathematics assessment the transferring entity uses to satisfy the requirements of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act (ESSA), 20 U.S.C. ss. 6301 et seq. If a student's transcript shows a credit in high school reading or English Language Arts II or III, in order to earn a standard high school diploma, the student must take and pass the statewide, standardized grade 10 ~~Reading assessment or, when implemented, the grade 10~~ ELA assessment, or earn a concordant score. If a transfer student's transcript shows a final course grade and course credit in Algebra I, Geometry, Biology I, or United States History, the transferring course final grade and credit shall be honored without the student taking the requisite statewide, standardized EOC assessment and without the assessment results constituting 30 percent of the student's final course grade.

(10) STUDENTS WITH DISABILITIES.—Beginning with students entering grade 9 in the 2014-2015 school year, this subsection applies to a student with a disability.

(e) Any waiver of the statewide, standardized assessment requirements by the individual education plan team, pursuant to s. 1008.22(3)(d) ~~s. 1008.22(3)(c)~~, must be approved by the parent and is subject to verification for appropriateness by an independent reviewer selected by the parent as provided for in s. 1003.572.

The State Board of Education shall adopt rules under ss. 120.536(1) and 120.54 to implement this subsection, including rules that establish the minimum requirements for students described in this subsection to earn a standard high school diploma. The State Board of Education shall adopt emergency rules pursuant to ss. 120.536(1) and 120.54.

Section 3. Subsection (4) of section 1007.25, Florida Statutes, is amended to read:

1007.25 General education courses; common prerequisites; other degree requirements.—

(4)(a) Beginning with students initially entering a Florida College System institution or state university in the 2018-2019 school year and thereafter, each student must demonstrate competency in civic literacy. Students must have the option to demonstrate competency either through successful completion of a civic literacy course or by achieving a passing score on an assessment. The State Board of Education must adopt in rule and the Board of Governors must adopt in regulation at least one existing assessment that measures competencies consistent with

the required course competencies outlined in subparagraph (b)2 ~~paragraph (b)~~.

(b) Beginning with students initially entering a Florida College System institution or state university in the 2021-2022 school year and thereafter, each student must demonstrate competency in civic literacy by achieving a passing score on an assessment and by successfully completing a civic literacy course. Credits earned for such courses via articulated acceleration mechanisms in s. 1007.27 will count toward the civic literacy competency requirement. The State Board of Education and the Board of Governors shall adopt by rule and regulation, respectively, approved assessments that address the competencies in subparagraph 2. and courses that meet the requirements in subparagraph 1. The chair of the State Board of Education and the chair of the Board of Governors, or their respective designees, shall jointly appoint a faculty committee to:

1.~~(a)~~ Develop one or more ~~a~~ new courses ~~course~~ in civic literacy or revise an existing general education core course in American History or American Government to include, at a minimum, opportunities to engage synchronously in political discussions and civil debates with multiple points of view and to master the ability to synthesize information that informs civic decisionmaking ~~civic literacy~~.

2.~~(b)~~ Establish course competencies and identify outcomes that include, at a minimum, an understanding of the basic principles of American democracy and how they are applied in our republican form of government, an understanding of the United States Constitution, knowledge of the founding documents and how

they have shaped the nature and functions of our institutions of self-governance, and an understanding of landmark Supreme Court cases and their impact on law and society.

Section 4. Paragraph (a) of subsection (1) and subsection (2) of section 1008.212, Florida Statutes, are amended to read:

1008.212 Students with disabilities; extraordinary exemption.—

(1) As used in this section, the term:

(a) "Circumstance" means a situation in which accommodations allowable for use on the statewide standardized assessment, a statewide standardized end-of-course assessment, or an alternate assessment pursuant to s. 1008.22(3)(d) ~~s. 1008.22(3)(c)~~ are not offered to a student during the current year's assessment administration due to technological limitations in the testing administration program which lead to results that reflect the student's impaired sensory, manual, or speaking skills rather than the student's achievement of the benchmarks assessed by the statewide standardized assessment, a statewide standardized end-of-course assessment, or an alternate assessment.

(2) A student with a disability for whom the individual education plan (IEP) team determines is prevented by a circumstance or condition from physically demonstrating the mastery of skills that have been acquired and are measured by the statewide standardized assessment, a statewide standardized end-of-course assessment, or an alternate assessment pursuant to s. 1008.22(3)(d) ~~s. 1008.22(3)(c)~~ shall be granted an extraordinary exemption from the administration of the assessment. A learning, emotional, behavioral, or significant

cognitive disability, or the receipt of services through the homebound or hospitalized program in accordance with rule 6A-6.03020, Florida Administrative Code, is not, in and of itself, an adequate criterion for the granting of an extraordinary exemption.

Section 5. Paragraph (c) of subsection (3) of section 1008.22, Florida Statutes, is redesignated as paragraph (d), a new paragraph (c) is added to that subsection, and paragraph (a) of subsection (1), paragraphs (a), (b), (d), and (g) of subsection (3), subsection (6), paragraphs (a), (b), (c), and (h) of subsection (7), subsections (8) and (9), and paragraph (e) of subsection (12) of that section are amended, to read:

1008.22 Student assessment program for public schools.—

(1) PURPOSE.—The primary purpose of the student assessment program is to provide student academic achievement and learning gains data to students, parents, teachers, school administrators, and school district staff. This data is to be used by districts to improve instruction; by students, parents, and teachers to guide learning objectives; by education researchers to assess national and international education comparison data; and by the public to assess the cost benefit of the expenditure of taxpayer dollars. The program must be designed to:

(a) Assess the achievement level and ~~annual~~ learning gains of each student in English Language Arts and mathematics and the achievement level in all other subjects assessed.

(3) STATEWIDE, STANDARDIZED ASSESSMENT PROGRAM.—The Commissioner of Education shall design and implement a statewide, standardized assessment program aligned to the core

curricular content established in the Next Generation Sunshine State Standards. The commissioner also must develop or select and implement a common battery of assessment tools that will be used in all juvenile justice education programs in the state. These tools must accurately measure the core curricular content established in the Next Generation Sunshine State Standards. Participation in the assessment program is mandatory for all school districts and all students attending public schools, including adult students seeking a standard high school diploma under s. 1003.4282 and students in Department of Juvenile Justice education programs, except as otherwise provided by law. If a student does not participate in the assessment program, the school district must notify the student's parent and provide the parent with information regarding the implications of such nonparticipation. The statewide, standardized assessment program shall be designed and implemented as follows:

(a) *Statewide, standardized comprehensive assessments.*—The statewide, standardized ~~Reading assessment shall be administered annually in grades 3 through 10. The statewide, standardized Writing assessment shall be administered annually at least once at the elementary, middle, and high school levels. When the Reading and Writing assessments are replaced by~~ English Language Arts (ELA) assessments~~, ELA assessments~~ shall be administered to students in grades 3 through 10. Retake opportunities for the ~~grade 10 Reading assessment or, upon implementation, the~~ grade 10 ELA assessment must be provided. ~~Students taking the ELA assessments shall not take the statewide, standardized assessments in Reading or Writing.~~ Reading passages and writing prompts for ELA assessments shall incorporate grade-level core

curricula content from social studies. The statewide, standardized Mathematics assessments shall be administered annually in grades 3 through 8. ~~Students taking a revised Mathematics assessment shall not take the discontinued assessment.~~ The statewide, standardized Science assessment shall be administered annually at least once at the elementary and middle grades levels. In order to earn a standard high school diploma, a student who has not earned a passing score on the grade 10 ~~Reading assessment or, upon implementation, the grade 10~~ ELA assessment must earn a passing score on the assessment retake or earn a concordant score as authorized under subsection (9). Statewide, standardized ELA and Mathematics assessments in grades 3 through 6 must be delivered in a paper-based format.

(b) *End-of-course (EOC) assessments.*—EOC assessments must be statewide, standardized, and developed or approved by the Department of Education as follows:

1. EOC assessments for Algebra I, Geometry, Biology I, United States History, and Civics shall be administered to students enrolled in such courses as specified in the course code directory.

2. Students enrolled in a course, as specified in the course code directory, with an associated statewide, standardized EOC assessment must take the EOC assessment for such course and may not take the corresponding subject or grade-level statewide, standardized assessment pursuant to paragraph (a). Sections 1003.4156 and 1003.4282 govern the use of statewide, standardized EOC assessment results for students.

3. The commissioner may select one or more nationally developed comprehensive examinations, which may include

examinations for a College Board Advanced Placement course, International Baccalaureate course, or Advanced International Certificate of Education course, or industry-approved examinations to earn national industry certifications identified in the CAPE Industry Certification Funding List, for use as EOC assessments under this paragraph if the commissioner determines that the content knowledge and skills assessed by the examinations meet or exceed the grade-level expectations for the core curricular content established for the course in the Next Generation Sunshine State Standards. Use of any such examination as an EOC assessment must be approved by the state board in rule.

4. Contingent upon funding provided in the General Appropriations Act, including the appropriation of funds received through federal grants, the commissioner may establish an implementation schedule for the development and administration of additional statewide, standardized EOC assessments that must be approved by the state board in rule. If approved by the state board, student performance on such assessments constitutes 30 percent of a student's final course grade.

5. All statewide, standardized EOC assessments must be administered online except as otherwise provided in paragraph (d) ~~(c)~~.

6. A student enrolled in an Advanced Placement (AP), International Baccalaureate (IB), or Advanced International Certificate of Education (AICE) course who takes the respective AP, IB, or AICE assessment and earns the minimum score necessary to earn college credit, as identified in s. 1007.27(2), meets

the requirements of this paragraph and does not have to take the EOC assessment for the corresponding course.

(c) *Nationally recognized high school assessments.*—Each school district shall, by the 2021-2022 school year and subject to appropriation, select either the SAT or ACT for districtwide administration to each public school student in grade 11, including students attending public high schools, alternative schools, and Department of Juvenile Justice education programs.

~~(d) *Implementation schedule.*—~~

~~1. The Commissioner of Education shall establish and publish on the department's website an implementation schedule to transition from the statewide, standardized Reading and Writing assessments to the ELA assessments and to the revised Mathematics assessments, including the Algebra I and Geometry EOC assessments. The schedule must take into consideration funding, sufficient field and baseline data, access to assessments, instructional alignment, and school district readiness to administer the assessments online. All such assessments must be delivered through computer-based testing, however, the following assessments must be delivered in a computer-based format, as follows: the grade 3 Mathematics assessment beginning in the 2016-2017 school year; the grade 4 ELA assessment, beginning in the 2015-2016 school year; and the grade 4 Mathematics assessment, beginning in the 2016-2017 school year. Notwithstanding the requirements of this subparagraph, statewide, standardized ELA and mathematics assessments in grades 3 through 6 must be delivered only in a paper-based format, beginning with the 2017-2018 school year, and all such assessments must be paper-based no later than the~~

~~2018-2019 school year.~~

~~2. The Department of Education shall publish minimum and recommended technology requirements that include specifications for hardware, software, networking, security, and broadband capacity to facilitate school district compliance with the requirements of this section.~~

(g) *Contracts for assessments.*—

~~1.~~ The commissioner shall provide for the assessments to be developed or obtained, as appropriate, through contracts and project agreements with private vendors, public vendors, public agencies, postsecondary educational institutions, or school districts. The commissioner may enter into contracts for the continued administration of the assessments authorized and funded by the Legislature. Contracts may be initiated in 1 fiscal year and continue into the next fiscal year and may be paid from the appropriations of either or both fiscal years. The commissioner may negotiate for the sale or lease of tests, scoring protocols, test scoring services, and related materials developed pursuant to law.

~~2. A student's performance results on statewide, standardized assessments, EOC assessments, and Florida Alternative Assessments administered pursuant to this subsection must be provided to the student's teachers and parents by the end of the school year, unless the commissioner determines that extenuating circumstances exist and reports the extenuating circumstances to the State Board of Education. This subparagraph does not apply to existing contracts for such assessments, but shall apply to new contracts and any renewal of existing contracts for such assessments.~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~3. If liquidated damages are applicable, the department shall collect liquidated damages that are due in response to the administration of the spring 2015 computer-based assessments of the department's Florida Standards Assessment contract with American Institutes for Research, and expend the funds to reimburse parties that incurred damages.~~

(6) LOCAL ASSESSMENT OF STUDENT PERFORMANCE ON STATE STANDARDS.—

~~(a)~~ Measurement of student performance is the responsibility of school districts except in those subjects and grade levels measured under the statewide, standardized assessment program described in this section. When available, instructional personnel must be provided with information on student achievement of standards and benchmarks in order to improve instruction.

~~(b) The Commissioner of Education shall assist and support districts in measuring student performance on the state standards by maintaining a statewide item bank, facilitating the sharing of developed tests or test items among school districts, and providing technical assistance in best assessment practices. The commissioner may discontinue the item bank if he or she determines that district participation is insufficient for its sustainability.~~

(7) ASSESSMENT SCHEDULES AND REPORTING OF RESULTS.—

(a) The Commissioner of Education shall establish schedules for the administration of statewide, standardized assessments and the reporting of student assessment results. The commissioner shall consider the observance of religious and school holidays when developing the schedules. The assessment

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

and reporting schedules must provide the earliest possible reporting of student assessment results to the school districts~~, consistent with the requirements of paragraph (3)(g)~~. Assessment results for the statewide, standardized ELA and mathematics assessments and all statewide, standardized EOC assessments must be made available no later than June 30, except for results for the grade 3 statewide, standardized ELA assessment, which must be made available no later than May 31. School districts shall administer statewide, standardized assessments in accordance with the schedule established by the commissioner.

(b) By January of each year, ~~beginning in 2018,~~ the commissioner shall publish on the department's website a uniform calendar that includes the assessment and reporting schedules for, at a minimum, the next 2 school years. The uniform calendar must be provided to school districts in an electronic format that allows each school district and public school to populate the calendar with, at minimum, the following information for reporting the district assessment schedules under paragraph (d):

1. Whether the assessment is a district-required assessment or a state-required assessment.

2. The specific date or dates that each assessment will be administered.

3. The time allotted to administer each assessment.

4. Whether the assessment is a computer-based assessment or a paper-based assessment.

5. The grade level or subject area associated with the assessment.

6. The date that the assessment results are expected to be available to teachers and parents.

7. The type of assessment, the purpose of the assessment, and the use of the assessment results.

8. A glossary of assessment terminology.

9. Estimates of average time for administering state-required and district-required assessments, by grade level.

(c) ~~Beginning with the 2018-2019 school year,~~ The spring administration of the statewide, standardized assessments in paragraphs (3)(a) and (b), excluding assessment retakes, must be in accordance with the following schedule:

1. The grade 3 statewide, standardized ELA assessment and the writing portion of the statewide, standardized ELA assessment ~~for grades 4 through 10~~ must be administered no earlier than April 1 each year within an assessment window not to exceed 2 weeks.

2. With the exception of assessments identified in subparagraph 1., any statewide, standardized assessment that is delivered in a paper-based format must be administered no earlier than May 1 each year within an assessment window not to exceed 2 weeks.

3. With the exception of assessments identified in subparagraphs 1. and 2., any statewide, standardized assessment must be administered within a 4-week assessment window that opens no earlier than May 1 each year.

~~Each school district shall administer the assessments identified under subparagraphs 2. and 3. no earlier than 4 weeks before the last day of school for the district.~~

(h) The results of statewide, standardized assessment in ELA and mathematics, science, and social studies ~~assessments~~,

including assessment retakes, shall be reported in an easy-to-read and understandable format and delivered in time to provide useful, actionable information to students, parents, and each student's current teacher of record and teacher of record for the subsequent school year; however, in any case, the district shall provide the results pursuant to this paragraph within 1 week after receiving the results from the department. A report of student assessment results must, at a minimum, contain:

1. A clear explanation of the student's performance on the applicable statewide, standardized assessments.

2. Information identifying the student's areas of strength and areas in need of improvement.

3. Specific actions that may be taken, and the available resources that may be used, by the student's parent to assist his or her child based on the student's areas of strength and areas in need of improvement.

4. Longitudinal information, if available, on the student's progress in each subject area based on previous statewide, standardized assessment data.

5. Comparative information showing the student's score compared to other students in the school district, in the state, or, if available, in other states.

6. Predictive information, if available, showing the linkage between the scores attained by the student on the statewide, standardized assessments and the scores he or she may potentially attain on nationally recognized college entrance examinations.

(8) PUBLICATION OF ASSESSMENTS.—To promote transparency in the statewide assessment program, in any procurement for the

statewide, standardized assessment in ELA, ~~assessment in grades 3 through 10 and the~~ mathematics, science, and social studies ~~assessment in grades 3 through 8~~, the Department of Education shall solicit cost proposals for publication of the state assessments on its website in accordance with this subsection.

(a) The department shall publish each assessment administered under paragraph (3)(a) and subparagraph (3)(b)1., excluding assessment retakes, at least once on a triennial basis pursuant to a schedule determined by the Commissioner of Education. Each assessment, when published, must have been administered during the most recent school year and be in a format that facilitates the sharing of assessment items.

(b) The initial publication of assessments must occur no later than June 30, 2024 ~~June 30, 2021~~, subject to appropriation, and must include, at a minimum, the grade 3 ELA and mathematics assessments, the grade 10 ELA assessment, and the Algebra I EOC assessment.

(c) The department must provide materials on its website to help the public interpret assessment information published pursuant to this subsection.

(9) CONCORDANT SCORES.—The Commissioner of Education must identify scores on the SAT and ACT that if achieved satisfy the graduation requirement that a student pass the grade 10 ~~statewide, standardized Reading assessment or, upon implementation, the grade 10~~ ELA assessment. The commissioner may identify concordant scores on assessments other than the SAT and ACT. If the content or scoring procedures change for the grade 10 ~~Reading assessment or, upon implementation, the grade 10~~ ELA assessment, new concordant scores must be determined. If

new concordant scores are not timely adopted, the last-adopted concordant scores remain in effect until such time as new scores are adopted. The state board shall adopt concordant scores in rule.

(12) REPORTS.—The Department of Education shall annually provide a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives which shall include the following:

~~(c) The number of students who after 8th grade enroll in adult education rather than other secondary education, which is defined as grades 9 through 12.~~

Section 6. Subsection (1) of section 1008.24, Florida Statutes, is amended to read:

1008.24 Test administration and security; public records exemption.—

(1) A person may not knowingly and willfully violate test security rules adopted by the State Board of Education for mandatory tests administered by or through the State Board of Education or the Commissioner of Education to students, educators, or applicants for certification or administered by school districts pursuant to ss. 1002.69, 1003.52, 1003.56, 1007.25, 1007.35, 1008.22, 1008.25, and 1012.56 ~~s. 1008.22~~, or, with respect to any such test, knowingly and willfully to:

(a) Give examinees access to test questions prior to testing;

(b) Copy, reproduce, or use in any manner inconsistent with test security rules all or any portion of any secure test booklet;

(c) Coach examinees during testing or alter or interfere

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

with examinees' responses in any way;

(d) Make answer keys available to examinees;

(e) Fail to follow security rules for distribution and return of secure test as directed, or fail to account for all secure test materials before, during, and after testing;

(f) Fail to follow test administration directions specified in the test administration manuals; or

(g) Participate in, direct, aid, counsel, assist in, or encourage any of the acts prohibited in this section.

Section 7. Paragraph (a) of subsection (1) of section 1008.34, Florida Statutes, is amended to read:

1008.34 School grading system; school report cards; district grade.—

(1) DEFINITIONS.—For purposes of the statewide, standardized assessment program and school grading system, the following terms are defined:

(a) "Achievement level," "student achievement," or "achievement" describes the level of content mastery a student has acquired in a particular subject as measured by a statewide, standardized assessment administered pursuant to s. 1008.22(3)(a) and (b). There are five achievement levels. Level 1 is the lowest achievement level, level 5 is the highest achievement level, and level 3 indicates satisfactory performance. A student passes an assessment if the student achieves a level 3, level 4, or level 5. For purposes of the Florida Alternate Assessment administered pursuant to s. 1008.22(3)(d) ~~s. 1008.22(3)(c)~~, the state board shall provide, in rule, the number of achievement levels and identify the achievement levels that are considered passing.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 8. Subsection (2) of section 1008.3415, Florida Statutes, is amended to read:

1008.3415 School grade or school improvement rating for exceptional student education centers.—

(2) Notwithstanding s. 1008.34, the achievement levels and Learning Gains of a student with a disability who attends an exceptional student education center and has not been enrolled in or attended a public school other than an exceptional student education center for grades K-12 within the school district shall not be included in the calculation of the home school's grade if the student is identified as an emergent student on the alternate assessment described in s. 1008.22(3)(d) ~~s. 1008.22(3)(c)~~.

Section 9. Paragraph (i) is added to subsection (4) of section 1009.286, Florida Statutes, to read:

1009.286 Additional student payment for hours exceeding baccalaureate degree program completion requirements at state universities.—

(4) For purposes of this section, credit hours earned under the following circumstances are not calculated as hours required to earn a baccalaureate degree:

(i) Credit hours earned to meet the requirements of s. 1007.25(4).

Section 10. This act shall take effect July 1, 2021.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1132 allows a nursing home to employ personal care attendants (PCA), as defined in the bill, participating in the PCA training program. The bill:

- Authorizes the Agency for Health Care Administration (AHCA) in consultation with the Board of Nursing, to develop a program for PCAs;
- Provides for PCA program requirements, including 16 hours of education in the content areas specified in the program curriculum developed by the AHCA;
- Requires a PCA to complete the required training before having any direct contact with a resident;
- Prohibits a PCA from performing any task that requires clinical assessment, interpretation, or judgment;
- Clarifies that a PCA must work exclusively for one nursing facility before becoming a certified nursing assistant (CNA);
- Requires the AHCA to adopt rules necessary to implement the PCA program. If the COVID-19 State of Emergency is terminated prior to the AHCA adopting rules, the AHCA is authorized to continue the PCA program until such rules are adopted; and
- Allows a PCA to work as a nursing assistant and count as a CNA for the purposes of staffing requirements for a single consecutive period of four months.

The bill has no fiscal impact on state revenues or expenditures. *See* Section V of this analysis.

The bill takes effect upon becoming a law.

II. Present Situation:

Nursing Home Staffing Standards

Section 400.23(3), F.S., requires the Agency for Health Care Administration (AHCA) to adopt rules[1] providing minimum staffing requirements for nursing home facilities. The requirements must include:

- A minimum weekly average of 3.6 hours of direct care per resident per day provided by a combination of certified nursing assistants (CNA) and licensed nursing staff. A week is defined as Sunday through Saturday.
- A minimum of 2.5 hours of direct care per resident per day provided by CNA staff. A facility may not staff at a ratio of less than one CNA per 20 residents.
- A minimum of 1.0 hour of direct care per resident per day provided by licensed nursing staff. A facility may not staff at a ratio of less than one licensed nurse per 40 residents.
- Nursing assistants employed under s. 400.211(2), F.S., may be included in computing the staffing ratio for CNAs if their job responsibilities include only nursing-assistant-related duties.
- Each nursing home facility must document compliance with staffing standards and post daily the names of staff on duty for the benefit of facility residents and the public.
- Licensed nurses may be used to meet staffing requirements for CNAs if the licensed nurses are performing the duties of a CNA and the facility otherwise meets minimum staffing requirements for licensed nurses.
- Non-nursing staff providing eating assistance to residents do not count toward compliance with minimum staffing standards.

COVID-19 Personal Care Attendant Training Program

To help address a shortage of skilled nursing services during the COVID-19 pandemic, the AHCA temporarily approved the creation of the personal care attendant (PCA) training program to assist with resident care procedures usually delivered by CNAs. The program has been extended to correspond with the COVID-19 State of Emergency, or until the AHCA determines it is no longer necessary.[2]

The PCA program training must be taught by a registered nurse and consists of a total of eight hours of preservice course work, including five hours of classroom training and three hours of supervised simulation. Upon completion of instruction, PCA candidates must simulate and demonstrate competency in all required care procedures and continue to work under the direct

[1] Rule 59A-4.108(4), F.A.C., requires that "in accordance with the requirements outlined in subsection 400.23(3)(a), F.S., the nursing home licensee must have sufficient nursing staff, on a 24-hour basis to provide nursing and related services to residents in order to maintain the highest practicable physical, mental, and psychosocial well-being of each resident, as determined by resident assessments and individual plans of care."

[2] Florida Health Care Association, *Temporary COVID-19 Personal Care Attendant Program*, *available at* https://www.fhca.org/facility_operations/pcaprogram (last visited Apr. 13, 2021).

supervision of the nursing staff and in collaboration with the CNAs providing activities of daily life services to residents.[3]

The PCA training program requires a PCA candidate to receive training and demonstrate competency in the following required areas:

- Resident Rights, the Health Insurance Portability and Accountability Act (HIPPA), and abuse and neglect;
- Infection control including how infection is spread, hand hygiene, standard precautions and personal protective equipment, handling of clean and soiled linens, and disinfection of common use articles, equipment, high tough objects, and areas;
- Emergency procedures including the Heimlich Maneuver and assisting a resident who is fallen;
- Activities of daily living, including:
  - Initial steps to responding to a call light;
  - Obtaining a resident's temperature and appropriate documentation;
  - Making an occupied bed, an unoccupied bed, and handling of linens;
  - Turning and repositioning a resident while in bed;
  - Transferring a resident from bed to a chair, wheelchair, bath or partial bath, and the use of a gait belt;
  - Assisting a resident with dressing or undressing;
  - Incontinence, perineal care, and assisting a resident to the toilet;
  - Oral care;
  - Using and storing devices, such as hearing aids, eyeglasses, and dentures; and
  - Final steps and observations to report to the supervising nurse.
- Skin care and pressure prevention including observations to report to the supervising nurse;
- Oxygen use and safety including observing liter flow;
- Nutrition and hydration including retrieving trays, passing ice water, and opening packages for residents who can consume meals independently;
- Dementia care including the stages of dementia, tips on communicating with cognitively impaired residents, and when to seek additional staff assistance;
- Mental health and challenging behaviors including when to seek additional staff assistance and reporting a challenging behavior to the supervising nurse; and
- Review of Resident Rights, abuse and neglect reporting, and reporting to the nurse.[4]

Federal Requirements for Nurse Aide Training

Federal regulations establish requirements that must be met by states and state agencies for nurse aide training programs and competency evaluations, including:

- Specifying that the state cannot approve training programs in certain nursing homes that are operating under specified waivers of federal requirements or that have had certain penalties assessed against them.[5]

[3] Memorandum from the Agency for Health Care Administration to the Florida Health Care Association and Florida Leading Age (Mar. 28, 2020), *available at* https://www.fhca.org/images/uploads/pdf/Personal_Care_Attendent.pdf (last visited Apr. 13, 2021).
[4] *Id.*
[5] 42 CFR 483.151.

- Establishing specific requirements for such training programs including at least 75 clock hours of training, the inclusion of specific subjects, at least 16 hours of supervised practical training, supervision requirements, and 16 hours of training prior to direct contact with a resident.[6]
- Establishing requirements for competency evaluations including written and oral exams and demonstrations of skills.[7]

Florida Requirements for Certification as a Nursing Assistant

The Board of Nursing (BON) is required to issue a certificate to practice as a CNA to any person who demonstrates the minimum competency to read and write, successfully passes the required background screening, and has met either of the following requirements[8]:

- Has successfully completed an approved training program[9] and achieved a minimum score, established by rule of the BON, on the nursing assistant competency examination, which consists of a written portion and skills-demonstration portion approved by the BON and administered at a site and by personnel approved by the department;
- Has achieved a minimum score, established by rule of the BON, on the nursing assistant competency examination, which consists of a written portion and skills-demonstration portion, approved by the BON and administered at a site and by personnel approved by the department and:
  - Has a high school diploma, or its equivalent; or
  - Is at least 18 years of age.
- Is currently certified in another state or territory of the United States or in the District of Columbia; is listed on that jurisdiction's certified nursing assistant registry; and has not been found to have committed abuse, neglect, or exploitation in that jurisdiction; or
- Has completed the curriculum developed under the Enterprise Florida Jobs and Education Partnership Grant and achieved a minimum score, established by rule of the BON, on the nursing assistant competency examination, which consists of a written portion and skills-demonstration portion, approved by the BON and administered at a site and by personnel approved by the department.

If the applicant fails to pass the certification examination in three attempts the applicant is not eligible to take the exam again until he or she completes an approved training course.

III. Effect of Proposed Changes:

This bill amends s. 400.141, F.S., to allow a nursing home to employ personal care attendants (PCA) participating in the PCA program developed by the Agency for Health Care

[6] 42 CFR 483.152.
[7] 42 CFR 483.154.
[8] Section 464.203, F.S.
[9] Curriculum requirements for certified nursing assistants training programs are established in Rule 64B9-15.006, F.A.C., and include 80 hours of classroom training and 40 hours of clinical instruction. Additionally the rule requires 16 hours of classroom instruction on specified topics prior to any direct contact with a resident.

Administration (AHCA), in consultation with the Board of Nursing (BON) and in accordance with federal regulations.[10]

The bill requires the PCA program to consist of a minimum of 16 hours of education and at a minimum, include training in all of the following content areas:

- Residents' rights.
- Confidentiality of residents' personal information and medical records.
- Control of contagious and infectious diseases.
- Emergency response measures.
- Assistance with activities of daily living.[11]
- Measuring vital signs.
- Skin care and pressure sores prevention.
- Portable oxygen use and safety.
- Nutrition and hydration.
- Dementia care.

The bill also:

- Requires a PCA to complete the 16 hours of required education before having any direct contact with a resident.
- Prohibits a PCA from performing any task that requires clinical assessment, interpretation, or judgment.
- Requires a PCA to work exclusively for one nursing facility before becoming a certified nursing assistant (CNA).
- Authorizes the AHCA to adopt rules necessary to implement the PCA program. If the COVID-19 State of Emergency is terminated prior to the AHCA adopting rules, the AHCA is authorized to continue the PCA program until such rules are adopted.
- Allows a nursing home to hire a PCA, who has completed the program as detailed above, to work as a nursing assistant and count as a CNA for the purposes of staffing requirements for a single consecutive period of up to four months.
- Defines a PCA as a person who meets the above training requirements and who provides care to residents and assists residents with tasks related to the activities of daily living.

The bill takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[10] 42 CFR 483.151-483.154. These sections establish requirements for state training programs for nurse aides. (Under Florida law, nurse aides are certified as nursing assistants.)

[11] Although not defined in nursing home statutes, activities of daily living are defined in other health care and facility statutes. For example, for assisted living facilities activities of daily living are defined as "the functions and tasks for self-care, including eating bathing grooming, dressing, ambulating, and other similar tasks. *See* s. 429.65(1), F.S., and for home health care activities of daily living are included in the definition of personal care and include bathing, dressing, eating, personal hygiene, assistance in physical transfer, ambulation, and in administering medications permitted by rule. *See* s. 400.462(23), F.S.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill may have an indeterminate fiscal impact on nursing homes that utilize the personal care attendants (PCA) program created under the bill. The bill may have a positive fiscal impact on individuals who are employed as PCAs under the program.

C. Government Sector Impact:

The bill has no fiscal impact on state revenues or expenditures. The Florida Department of Health[12] and the Agency for Health Care Administration[13] report no fiscal impacts under the bill's requirements.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 400.141 and 400.211.

[12] Department of Health, *House Bill 485 Bill Analysis* (Jan. 11, 2021) (on file with Senate Committee on Appropriations).
[13] Agency for Health Care Administration, *House Bill 485 Bill Analysis* (Jan. 28, 2021) (on file with Senate Committee on Appropriations).

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/cs by Appropriations on April 19, 2021:
The committee substitute:

- Provides that a personal care attendant (PCA) must complete 16 hours of required education before having any direct contact with a resident;
- Clarifies that an individual must work exclusively for one nursing facility before becoming a certified nursing assistant;
- Clarifies the AHCA is authorized to continue the PCA program until rules are adopted to implement the PCA program, should the COVID-19 State of Emergency terminate prior to the AHCA adopting program rules;
- Provides that a PCA working as a certified nursing assistant (CNA) and counted as a CNA for the purposes of staffing requirements is authorized to do so for a single consecutive period of four months, as opposed to just a period of four months; and
- Makes technical changes.

CS by Health Policy on March 17, 2021:
The CS expands the hours of training required to work as a PCA from 8 to 16 and ties the PCA training program to federal requirements for nurse aide training in 42 C.F.R. ss. 483.151-483.154. The CS prohibits PCAs from performing tasks that require clinical assessment, interpretation, or judgment; specifies that a PCA must work exclusively for one nursing home; and prohibits a PCA from working as a PCA for more than one nursing home before being certified as a CNA.

The CS also specifies that the current PCA program will continue until the AHCA adopts rules to implement the PCA training program established by the bill regardless of whether Emergency Order 20-52 or its extension expires or is terminated. The bill requires the AHCA to notify the Division of Law Revision of the date that the rules take effect. These requirements expire on the effective date of the AHCA's rules.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

j. Dementia care.

3. A personal care attendant may not perform any task that requires clinical assessment, interpretation, or judgment.

4. A personal care attendant must work exclusively for one nursing home facility and may not work as a personal care attendant for more than one nursing home facility before becoming a certified nursing assistant.

5. Personal care attendants must be identified and treated as students and not as nursing staff of nursing home facilities during the classroom hours or during any hours designated as clinical training hours.

6. The agency may adopt rules to implement this paragraph.

7. If the Governor's Emergency Order 20-52 or an extension

By the Committee on Health Policy; and Senator Bean

588-02981-21 20211132c1

A bill to be entitled

An act relating to personal care attendants; amending s. 400.141, F.S.; authorizing nursing home facilities to employ personal care attendants if they are participating in a certain training program developed by the Agency for Health Care Administration, in consultation with the Board of Nursing; providing minimum requirements for such program; providing limitations on such personal care attendants' practice; authorizing the agency to adopt rules; authorizing certain personal care attendant programs to continue operating during the agency's rulemaking process under certain circumstances; requiring the agency to notify the Division of Law Revision of the date certain rules take effect; providing for future repeal; amending s. 400.211, F.S.; authorizing certain persons to be employed by a nursing home facility as personal care attendants for a specified period if a certain training requirement is met; defining the term "personal care attendants"; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (w) is added to subsection (1) of section 400.141, Florida Statutes, to read:

400.141 Administration and management of nursing home facilities.—

(1) Every licensed facility shall comply with all

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

588-02981-21 20211132c1

applicable standards and rules of the agency and shall:

(w) Be allowed to employ personal care attendants as defined in s. 400.211(2)(d), if such personal care attendants are participating in the personal care attendant training program developed by the agency, in accordance with 42 C.F.R. ss. 483.151-483.154, in consultation with the Board of Nursing.

1. The personal care attendant training program must consist of a minimum of 16 hours of education and must include training in all of the topics and lessons specified in the program curriculum.

2. The program curriculum for the personal care attendant training program must include, but need not be limited to, all of the following content areas:

a. Residents' rights.

b. Confidentiality of residents' personal information and medical records.

c. Control of contagious and infectious diseases.

d. Emergency response measures.

e. Assistance with activities of daily living.

f. Measuring vital signs.

g. Skin care and pressure sore prevention.

h. Portable oxygen use and safety.

i. Nutrition and hydration.

j. Dementia care.

3. A personal care attendant may not perform any task that requires clinical assessment, interpretation, or judgment.

4. A personal care attendant must work exclusively for one nursing home facility and may not work as a personal care attendant for more than one nursing home facility before

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

becoming a certified nursing assistant.

5. The agency may adopt rules to implement this paragraph.

6. If the Governor's Emergency Order 20-52 or an extension thereof expires or is terminated before the completion of the agency's rulemaking process to implement this paragraph, any personal care attendant program that is operating pursuant to agency approval that was issued during the time in which the executive order was effective may continue to operate as authorized until the agency's rulemaking process is completed, at which time the program must comply with agency rule. The agency shall notify the Division of Law Revision of the date such rules take effect. This subparagraph expires on the effective date of such rules.

Section 2. Subsection (2) of section 400.211, Florida Statutes, is amended to read:

400.211 Persons employed as nursing assistants; certification requirement.—

(2) The following categories of persons who are not certified as nursing assistants under part II of chapter 464 may be employed by a nursing facility for a period of 4 months:

(a) Persons who are enrolled in, or have completed, a state-approved nursing assistant program.~~;~~

(b) Persons who have been positively verified as actively certified and on the registry in another state with no findings of abuse, neglect, or exploitation in that state.~~; or~~

(c) Persons who have preliminarily passed the state's certification exam.

(d) Persons who are employed as personal care attendants and who have completed the personal care attendant training

program developed pursuant to s. 400.141(1)(w). As used in this paragraph, the term "personal care attendants" means persons who meet the training requirement in s. 400.141(1)(w) and provide care to and assist residents with tasks related to the activities of daily living.

The certification requirement must be met within 4 months after initial employment as a nursing assistant in a licensed nursing facility.

Section 3. This act shall take effect upon becoming a law.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1242 (246400)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); Health Policy Committee; and Senator Book
SUBJECT:	Program of All-Inclusive Care for the Elderly
DATE:	April 16, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Smith	Brown	HP	**Fav/CS**
2.	McKnight	Kidd	AHS	**Recommend: Fav/CS**
3.	McKnight	Sadberry	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1242 codifies the Program of All-Inclusive Care for the Elderly (PACE) in section 430.84, Florida Statutes. The bill:

- Establishes a statutory process for the review, approval, and oversight of future and current PACE organizations.
- Authorizes the Agency for Health Care Administration (AHCA), in consultation with the Department of Elder Affairs (DOEA), to approve entities that have submitted the required application and data to the federal Centers for Medicare and Medicaid Services (CMS) as PACE organizations pursuant to federal regulations.
- Requires all PACE organizations to meet specific quality and performance standards established by the federal CMS and the AHCA.
- Requires the AHCA to provide oversight and monitoring of Florida's PACE program and organizations.
- Exempts all PACE organizations from the requirements of ch. 641, F.S., which regulates health maintenance organizations, prepaid health clinics, and other health care service programs.

The bill has no fiscal impact on state revenues or expenditures. *See* Section V of this analysis.

The bill takes effect on July 1, 2021.

II. Present Situation:

Medicaid

Medicaid is the health care safety net for low-income Floridians. Medicaid is a partnership between the federal and state governments where the federal government establishes the structure for the program and pays a share of the cost. Each state operates its own Medicaid program under a state plan that must be approved by the federal Centers for Medicare and Medicaid Services (CMS). The plan outlines current Medicaid eligibility standards, policies, and reimbursement methodologies.

To qualify for nursing home care under Medicaid, both an individual's income and assets are reviewed. Additionally, a personal needs allowance is applied as part of the eligibility determination process.[1] The current standard income limit in Florida for institutional care or services under the home and community based services waiver is $2,382 for an individual and $4,764 for a couple. There is also an asset limit for either category of $2,000 for an individual or $3,000 for a couple.[2]

In Florida, the Medicaid program is administered by the Agency for Health Care Administration (AHCA). The AHCA, however, delegates certain functions to other state agencies, including the Department of Children and Families (DCF), the Agency for Persons with Disabilities (APD), and the Department of Elder Affairs (DOEA). The AHCA has overall responsibility for the program and qualifies providers, sets payment levels, and pays for services.

The DOEA assesses Medicaid recipients to determine if they require nursing home level of care. Specifically, the DOEA determines whether an individual requires or is at imminent risk of nursing home placement as evidenced by the need for medical observation throughout a 24-hour period and requires:

- Medically complex care to be performed on a daily basis under the direct supervision of a health professional because of mental or physical incapacitation;
- Care to be performed on a daily basis under the supervision of a health professional because of mental or physical incapacitation; or
- Limited care to be performed on a daily basis under the supervision of a health professional because of mild mental or physical incapacitation.[3]

Floridians who need nursing home care, but do not qualify for Medicaid, must pay from their own funds or through insurance.

---

[1] The personal needs allowance (PNA) of an individual is defined as that portion of an individual's income that is protected to meet the individual's personal needs while in an institution. *See* Department of Children and Families (DCF), *Glossary (Chapter 4600) "Personal Needs Allowance," p. 19, available at* http://www.dcf.state.fl.us/programs/access/docs/esspolicymanual/4600.pdf (last visited Mar. 16, 2021).

[2] DCF, *SSI-Related Program-Financial Eligibility Standards: Apr. 1, 2021, available at* https://www.myflfamilies.com/service-programs/access/docs/esspolicymanual/a_09.pdf (last visited Mar. 16, 2021).

[3] Section 409.985, F.S.

Long-Term Care Managed Care

In 2011, Statewide Medicaid Managed Care (SMMC) was established,[4] requiring both Medicaid Long-Term Care (LTC) services and Managed Medical Assistance (MMA) services to be provided through managed care plans.

Long-Term Care Managed Care plans participating in SMMC are required to provide minimum benefits that include nursing home care as well as home and community based services. The minimum benefits include:

- Nursing home care;
- Services provided in assisted living facilities;
- Hospice;
- Adult day care;
- Medical equipment and supplies, including incontinence supplies;
- Personal care;
- Home accessibility adaptation;
- Behavior management;
- Home delivered meals;
- Case management;
- Therapies, including physical, respiratory, speech, and occupational;
- Intermittent and skilled nursing;
- Medication administration;
- Medication management;
- Nutritional assessment and risk reduction;
- Caregiver training;
- Respite care;
- Transportation; and
- Personal emergency response system.

Program of All-Inclusive Care for the Elderly

The Program of All-Inclusive Care for the Elderly (PACE) is a capitated benefit model authorized by the federal Balanced Budget Act of 1997 (BBA)[5] that features a comprehensive service delivery system and integrated federal Medicare and state Medicaid financing mechanism. The model was developed to address the needs of long-term care clients, providers, and payers.

The PACE operates as a three-way agreement between the federal government, the state administering agency, and a PACE organization. In Florida, the PACE is a Florida Medicaid LTC managed care plan option providing comprehensive long-term and acute care services which support Medicaid and Medicare enrollees who would otherwise qualify for Medicaid nursing facility services.[6]

[4] Chapter 2011-134, Laws of Fla.
[5] Specifically, services under the PACE are authorized under Section 1905(a)(26) of the Social Security Act.
[6] Department of Elder Affairs (DOEA) and Agency for Health Care Administration (AHCA), *Program of All-Inclusive Care for the Elderly and Statewide Medicaid Managed Care Long-term Care Program Comparison Report* (January 14, 2014),

The BBA established the PACE model of care as a permanent entity within the Medicare program and enabled states to provide PACE services to Medicaid beneficiaries as an optional state plan service without a Medicaid waiver.

The federal government established the PACE organization requirements and application process; however, the state is responsible for oversight of the application process, which includes reviewing the initial application and providing an on-site readiness review before a PACE organization can be authorized to serve participants. An approved PACE organization must sign a contract with the federal CMS and the state Medicaid agency, the AHCA.

The PACE is administered by the DOEA in consultation with the AHCA. The DOEA oversees the contracted PACE organizations but is not a party to the contract between the federal CMS, the AHCA, and the PACE organizations.[7] The DOEA, the AHCA, and the federal CMS must approve any applications for new PACE organizations if expansion is authorized by the Legislature through the necessary appropriation of the state matching funds.

PACE Organizations

A PACE organization is a private not-for-profit 501(c)(3) organization, for-profit private or public entity that is primarily engaged in providing PACE services and must also:

- Have a governing board that includes participant representation;
- Be able to provide the complete service package regardless of frequency or duration of services;
- Have a physical site and staff to provide primary care, social services, restorative therapies, personal care and supportive services, nutritional counseling, recreational therapy, and meals;
- Have a defined service area;
- Have safeguards against conflicts of interest;
- Have demonstrated fiscal soundness;
- Have a formal participant bill of rights; and
- Have a process to address grievances and appeals.[8]

Eligibility and Benefits

To be eligible for PACE, an individual must:

- Be 55 years of age or older;
- Live within the defined service area of the PACE Center;
- Meet medical eligibility requirements as determined by a Comprehensive Assessment and Review of Long-Term Care Services (CARES);[9]

---

available at https://ahca.myflorida.com/Medicaid/recent_presentations/PACE_Evaluation_2014.pdf (last visited Mar. 31, 2021).

[7] *Id.*

[8] HHS, Centers for Medicare and Medicaid Services, *CMS Manual System: Pub. 100-11 Programs of All-Inclusive Care for the Elderly (PACE) Manual* (issued June 9, 2011), *available at* https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/pace111c01.pdf (last visited Mar. 31, 2021).

[9] Comprehensive Assessment and Review for Long-Term Care Services (CARES) is Florida's federally mandated pre-admission screening program for nursing home applicants. Federal law mandates that the CARES Program perform an assessment or review of each individual who requests Medicaid reimbursement for nursing facility placement, or who seeks

- Be able to live safely in the community; and
- Be dually eligible for Medicaid and Medicare, or Medicaid only. There is also a private pay option with PACE, however this is not regulated by the State.[10]

By federal law, the first three contract years for a PACE organization are considered a trial period, and the PACE organization is subject to annual reviews to ensure compliance.[11] Review of the PACE organization may continue after the trial period by the Secretary or the administering state agency as appropriate, depending upon the PACE organization's performance and compliance with requirements and regulations.

No deductibles, copayments, coinsurance, or other cost-sharing can be charged by a PACE organization. No other limits relating to amount, duration, or scope of services that might otherwise apply in Medicaid are permitted.[12] The PACE enrollee must accept the PACE center physician as his or her new Medicare primary care physician, if enrolled in Medicare.[13]

Quality of Care Requirements

Each PACE organization is required to develop, implement, maintain, and evaluate an effective data-driven Quality Assurance and Performance Improvement (QAPI) program. The program must incorporate all aspects of the PACE organization's operations, which allows for the identification of areas that need performance improvement. The organization's written QAPI plan must be reviewed by the PACE organization's governing body at least annually. At a minimum, the plan should address the following areas:

- Utilization of services in the PACE organization, especially in key services;
- Participant and caregiver satisfaction with services;
- Data collected during patient assessments to determine if individual and organizational-level outcomes were achieved within a specified time period;
- Effectiveness and safety of direct and contracted services delivered to participants; and
- Outcomes in the organization's non-clinical areas.[14]

---

to receive home and community-based services through Medicaid waivers like Familial Dysautonomia Waiver, and Statewide Medicaid Managed Care Long-Term Care Program. Any person or family member can initiate a CARES assessment by applying for the Medicaid Institutional Care Program (ICP). Assessments are completed at no cost to the clients and are performed by a registered nurse and/or assessor. Florida PACE

The original Florida PACE project was authorized in 1998,[15] under the administration of the DOEA operating in consultation with the AHCA.[16] Florida's first PACE organization, located in Miami-Dade County, began serving enrollees in February 2003 with a total of 150 slots. Since then, the Legislature has approved additional slots either as part of the General Appropriations Act (GAA) or general law.

In 2011, administrative responsibility for the PACE was moved from the DOEA to the AHCA as part of the expansion of Medicaid managed care into the SMMC program.[17] Participation by the PACE in the SMMC program is not subject to the procurement requirements or regional plan number limits normally applicable to SMMC plans. Instead, PACE plans may continue to provide services to individuals at such levels and enrollment caps as authorized by the GAA.[18]

The current approval process for a new PACE project authorized by the Legislature requires any entity interested in becoming a PACE organization to submit a comprehensive PACE application to the AHCA, which sets forth details about the adult day care center, staffing, provider network, financial solvency and pro forma financial projections, and policies and procedures, among other elements. The application is similar in detail to the provider applications submitted by managed care plans seeking to provide medical care to Medicaid recipients. PACE providers operating in the same geographic region must establish that there is adequate demand for services so that each provider will be viable. The application requires that documentation be submitted demonstrating that PACE providers in the same geographic region are not competing for the same potential enrollees.

The AHCA and the DOEA review the application and, when the entity has satisfied all requirements, conduct an on-site survey of the entity's readiness to serve PACE enrollees. Once all requirements are met, including full licensure of the PACE center, staffing for key positions, and signed provider network contracts, the AHCA certifies to the federal CMS that the PACE site is ready. At that time, the federal CMS reviews the application and readiness certification and, if all requirements are satisfied, executes a three-way agreement with the PACE provider and the AHCA. The PACE provider may then begin enrolling members, subject to an appropriation to fund the slots.

Enrollment and Organizational Slots

Slots are authorized by the Legislature for a specific PACE area; however, slots may not always be fully funded in the same year the program is authorized. Some PACE providers need additional time to complete the application process, obtain necessary licensures, or to finalize operations.

[15] Chapter 98-327, Laws of Fla.
[16] Chapter 2011-135, s. 24, Laws of Fla., repealed s. 430.707, F.S., effective October 1, 2013, as part of the expansion of Medicaid managed care.
[17] Chapter 2011-134, Laws of Fla.
[18] Section 409.981(4), F.S.

Funding and Rates

Each year since the PACE's inception, the Legislature has appropriated funds for PACE organizations through proviso language in the GAA or through one of the GAA's accompanying implementing or conforming bills.[19] These directives provide specific slot increases or decreases by county or authorization for implementation of a new program.

PACE organizations receive a capitated Medicaid payment for each enrolled Medicaid long-term care recipient and an enhanced Medicare payment for Medicare enrollees for acute care services from the federal government. The payment amount is established in the GAA and is based on estimates that have been forecast by the Social Services Estimating Conference for the PACE.

The Fiscal Year 2020-2021 GAA provided just over $73 million in PACE program funding to PACE organizations around the state.[20] The following table includes allocation and enrollment information outlined in the Fiscal Year 2020-2021 GAA:

Current PACE Programs[21]				
PACE Organization		**Enrollment**		
Service Area	**Organization**	**Authorized Slots**	**Funded Slots**	**Enrollment (Feb. 2021)[22]**
Broward	Florida PACE	150	125	99
Charlotte	Hope Select PACE	150	150	89
Clay, Duval	Northeast PACE Partners	300	150	57
Collier	Hope Select PACE	120	120	63
Lake, Orange, Osceola, Seminole, Sumter	InnovAge PACE	300	150	0
Lee	Hope Select PACE	380	380	260
Martin	Florida PACE	150	125	0
Miami-Dade	Florida PACE	828	828	816
Palm Beach	Morse PACE	706	706	649
Pinellas	Empath PACE	325	325	314
Total		**3,409**	**3,059**	**2,347**

III. Effect of Proposed Changes:

Section 1 creates s. 430.84, F.S., and codifies the Program of All-Inclusive Care for the Elderly (PACE) within the Florida Statutes. Currently, the program does not have an implementing statute and has been operationalized through annual appropriations, proviso, or bills designed to implement the state budget or conform statute to provisions of the state budget. In addition, the bill:

[19] Chapter 2013-40, Laws of Fla.
[20] Chapter 2020-111, Laws of Fla.
[21] Email from the DOEA, (March 9, 2021) (on file with the Senate Appropriations Subcommittee on Health and Human Services).
[22] AHCA, *Florida Statewide Medicaid Monthly Enrollment Report* (February 28, 2021), *available at* https://ahca.myflorida.com/Medicaid/Finance/data_analytics/enrollment_report/index.shtml (last visited Mar. 31, 2021).

- Authorizes the Agency for Health Care Administration (AHCA), in consultation with the Department of Elder Affairs (DOEA), to approve entities that have submitted the required application and data to the federal Centers for Medicare and Medicaid Services (CMS) as PACE organizations pursuant to 42 U.S.C. s. 1395eee. Applications, as required by the federal CMS, will be reviewed by the AHCA on an ongoing basis, in consultation with the DOEA for initial approval as PACE organizations. Notice of applications must be published in the Florida Administrative Register.
- Requires a prospective PACE organization to submit an application to the AHCA before submitting a request for program funding. An applicant must meet the following requirements:
  - Provide evidence that the applicant can meet all of the federal regulations and requirements established by the federal CMS by the proposed implementation date;
  - Provide market studies which include an estimate of the potential number of participants and which show the geographic area the applicant proposes to serve; and
  - Develop and provide a business plan of operation, including pro forma financial statement and projections based on the planned implementation date.
- Requires each applicant to serve a unique and defined geographic service area without duplication of services or target populations. No more than one PACE organization may be authorized to provide services within any unique and defined geographic area.
- Authorizes a PACE organization that has received funding for slots in a given geographic area to use the funding and slots to provide services in an authorized contiguous geographic area, upon approval from the AHCA.
- Requires an existing PACE organization seeking authority to serve an additional geographic service area not previously authorized by the AHCA to show evidence of regulatory compliance and meet market study requirements.
- Requires any prospective PACE organization that is granted initial state approval by the AHCA, in consultation with the DOEA, to submit its complete federal PACE application to the AHCA and the federal CMS within 12 months after date of initial state approval. If the organization fails to timely meet this requirement, the state approval of the application is void.
- Requires all PACE organizations to meet specific quality and performance standards established by the federal CMS and the state administering agency (the AHCA). The AHCA has the responsibility to oversee and monitor Florida's PACE and the contracted organizations through the data and reports submitted periodically to the AHCA and the federal CMS.
- Exempts all PACE organizations from the requirements of chapter 641, the chapter of Florida law that regulates health maintenance organizations, prepaid health clinics, and other health care service programs.

Section 2 provides an effective date of July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Additional private sector providers that meet the criteria to be a Program of All-Inclusive Care for the Elderly (PACE) organization and achieve eligibility confirmation status could be approved as PACE sites. Expansion of PACE sites would also mean additional individuals in the community would have access to the PACE model for medical care and long-term care.

C. Government Sector Impact:

PCS/CS/SB 1242 poses a minor operational impact to the AHCA, however, the workload can be absorbed using existing agency resources. Although the bill does not direct the AHCA to initiate rulemaking in conjunction with the new statutory language, the AHCA would need to utilize existing statutory authority to promulgate an administrative rule to clearly outline the AHCA's standard business operation. This can also be completed using existing agency resources.[23]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[23] AHCA, *House Bill 905 Fiscal Analysis* (Feb. 12, 2021) (on file with Senate Committee on Health Policy).

VIII. Statutes Affected:

This bill creates section 430.84 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

PCS 246400 by Appropriations (Recommended by Appropriations Subcommittee on Health and Human Services):
The proposed committee substitute authorizes a Program of All-Inclusive Care for the Elderly (PACE) organization that has received funding for slots in a given geographic area to use the funding and slots to provide services in an authorized contiguous geographic area, upon approval from the Agency for Health Care Administration (AHCA).

CS by Health Policy on March 24, 2021:
The CS requires all PACE organizations to meet specific quality performance standards established by the federal CMS and the state administering agency (the AHCA), rather than just the federal CMS.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

246400

576-03900-21

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to the Program of All-Inclusive Care for the Elderly; creating s. 430.84, F.S.; defining terms; authorizing the Agency for Health Care Administration, in consultation with the Department of Elderly Affairs, to approve entities applying to deliver PACE services in the state; requiring applications to be reviewed and considered on a continuous basis; requiring notice of applications to be published in the Florida Administrative Register; providing specified application requirements for such prospective PACE organizations; requiring existing PACE organizations to meet specified requirements under certain circumstances; requiring prospective PACE organizations to submit a complete application to the agency and the Centers for Medicare and Medicaid Services within a specified period; requiring that PACE organizations meet certain federal and state quality and performance standards; requiring the agency to oversee and monitor the PACE program and organizations; providing that a PACE organization is exempt from certain requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 430.84, Florida Statutes, is created to

246400

576-03900-21

read:

430.84 Program of All-Inclusive Care for the Elderly.—

(1) DEFINITIONS.—As used in this section, the term:

(a) "Agency" means the Agency for Health Care Administration.

(b) "Applicant" means an entity that has filed an application with the agency for consideration as a Program of All-Inclusive Care for the Elderly (PACE) organization.

(c) "CMS" means the Centers for Medicare and Medicaid Services within the United States Department of Health and Human Services.

(d) "Department" means the Department of Elderly Affairs.

(e) "PACE organization" means an entity under contract with the agency to deliver PACE services.

(f) "Participant" means an individual receiving services from a PACE organization who has been determined by the department to need the level of care required under the state Medicaid plan for coverage of nursing facility services.

(2) PROGRAM CREATION.—The agency, in consultation with the department, may approve entities that have submitted applications required by the CMS to the agency for review and consideration which contain the data and information required in subsection (3) to provide benefits pursuant to the PACE program as established in 42 U.S.C. s. 1395eee and in accordance with the requirements set forth in this section.

(3) PACE ORGANIZATION SELECTION.—The agency, in consultation with the department, shall, on a continuous basis, review and consider applications required by the CMS for PACE that have been submitted to the agency by entities seeking

246400

576-03900-21

initial, state approval to become PACE organizations. Notice of such applications shall be published in the Florida Administrative Register.

(a) A prospective PACE organization shall submit application documents to the agency before requesting program funding. Application documents submitted to and reviewed by the agency, in consultation with the department, must include all of the following:

1. Evidence that the applicant has the ability to meet all of the applicable federal regulations and requirements, established by the CMS, for participation as a PACE organization by the proposed implementation date.

2. Market studies, including an estimate of the number of potential participants and the geographic service area in which the applicant proposes to serve.

3. A business plan of operation, including pro forma financial statements and projections, based on the proposed implementation date.

(b) Each applicant must propose to serve a unique and defined geographic service area without duplication of services or target populations. No more than one PACE organization may be authorized to provide services within any unique and defined geographic service area.

(c) Upon agency approval, a PACE organization that is authorized to provide and has received funding for PACE slots in a given geographic area may use such slots and funding to serve the needs of participants in a contiguous geographic area if such PACE organization is authorized to provide PACE services in that area.

246400

576-03900-21

(d) An existing PACE organization seeking authority to serve an additional geographic service area not previously authorized by the agency or Legislature shall meet the requirements set forth in paragraphs (a) and (b).

(e) Any prospective PACE organization that is granted initial state approval by the agency, in consultation with the department, shall submit its complete federal PACE application, in accordance with the application process and guidelines established by the CMS, to the agency and the CMS within 12 months after the date of initial state approval, or such approval is void.

(4) ACCOUNTABILITY.—All PACE organizations must meet specific quality and performance standards established by the CMS and the state administering agency for the PACE program. The agency shall oversee and monitor the PACE program and organizations based upon data and reports periodically submitted by PACE organizations to the agency and the CMS. A PACE organization is exempt from the requirements of chapter 641.

Section 2. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1242
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); Health Policy Committee; and Senator Book
SUBJECT:	Program of All-Inclusive Care for the Elderly
DATE:	April 20, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Smith	Brown	HP	**Fav/CS**
2.	McKnight	Kidd	AHS	**Recommend: Fav/CS**
3.	McKnight	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1242 codifies the Program of All-Inclusive Care for the Elderly (PACE) in section 430.84, Florida Statutes. The bill:

- Establishes a statutory process for the review, approval, and oversight of future and current PACE organizations.
- Authorizes the Agency for Health Care Administration (AHCA), in consultation with the Department of Elder Affairs (DOEA), to approve entities that have submitted the required application and data to the federal Centers for Medicare and Medicaid Services (CMS) as PACE organizations pursuant to federal regulations.
- Requires all PACE organizations to meet specific quality and performance standards established by the federal CMS and the AHCA.
- Requires the AHCA to provide oversight and monitoring of Florida's PACE program and organizations.
- Exempts all PACE organizations from the requirements of ch. 641, F.S., which regulates health maintenance organizations, prepaid health clinics, and other health care service programs.

The bill has no fiscal impact on state revenues or expenditures. *See* Section V of this analysis.

The bill takes effect on July 1, 2021.

II. Present Situation:

Medicaid

Medicaid is the health care safety net for low-income Floridians. Medicaid is a partnership between the federal and state governments where the federal government establishes the structure for the program and pays a share of the cost. Each state operates its own Medicaid program under a state plan that must be approved by the federal Centers for Medicare and Medicaid Services (CMS). The plan outlines current Medicaid eligibility standards, policies, and reimbursement methodologies.

To qualify for nursing home care under Medicaid, both an individual's income and assets are reviewed. Additionally, a personal needs allowance is applied as part of the eligibility determination process.[1] The current standard income limit in Florida for institutional care or services under the home and community based services waiver is $2,382 for an individual and $4,764 for a couple. There is also an asset limit for either category of $2,000 for an individual or $3,000 for a couple.[2]

In Florida, the Medicaid program is administered by the Agency for Health Care Administration (AHCA). The AHCA, however, delegates certain functions to other state agencies, including the Department of Children and Families (DCF), the Agency for Persons with Disabilities (APD), and the Department of Elder Affairs (DOEA). The AHCA has overall responsibility for the program and qualifies providers, sets payment levels, and pays for services.

The DOEA assesses Medicaid recipients to determine if they require nursing home level of care. Specifically, the DOEA determines whether an individual requires or is at imminent risk of nursing home placement as evidenced by the need for medical observation throughout a 24-hour period and requires:

- Medically complex care to be performed on a daily basis under the direct supervision of a health professional because of mental or physical incapacitation;
- Care to be performed on a daily basis under the supervision of a health professional because of mental or physical incapacitation; or
- Limited care to be performed on a daily basis under the supervision of a health professional because of mild mental or physical incapacitation.[3]

Floridians who need nursing home care, but do not qualify for Medicaid, must pay from their own funds or through insurance.

---

[1] The personal needs allowance (PNA) of an individual is defined as that portion of an individual's income that is protected to meet the individual's personal needs while in an institution. *See* Department of Children and Families (DCF), *Glossary (Chapter 4600) "Personal Needs Allowance," p. 19, available at* http://www.dcf.state.fl.us/programs/access/docs/esspolicymanual/4600.pdf (last visited Mar. 16, 2021).

[3] Section 409.985, F.S.

Long-Term Care Managed Care

In 2011, Statewide Medicaid Managed Care (SMMC) was established,[4] requiring both Medicaid Long-Term Care (LTC) services and Managed Medical Assistance (MMA) services to be provided through managed care plans.

Long-Term Care Managed Care plans participating in SMMC are required to provide minimum benefits that include nursing home care as well as home and community based services. The minimum benefits include:

- Nursing home care;
- Services provided in assisted living facilities;
- Hospice;
- Adult day care;
- Medical equipment and supplies, including incontinence supplies;
- Personal care;
- Home accessibility adaptation;
- Behavior management;
- Home delivered meals;
- Case management;
- Therapies, including physical, respiratory, speech, and occupational;
- Intermittent and skilled nursing;
- Medication administration;
- Medication management;
- Nutritional assessment and risk reduction;
- Caregiver training;
- Respite care;
- Transportation; and
- Personal emergency response system.

Program of All-Inclusive Care for the Elderly

The Program of All-Inclusive Care for the Elderly (PACE) is a capitated benefit model authorized by the federal Balanced Budget Act of 1997 (BBA)[5] that features a comprehensive service delivery system and integrated federal Medicare and state Medicaid financing mechanism. The model was developed to address the needs of long-term care clients, providers, and payers.

The PACE operates as a three-way agreement between the federal government, the state administering agency, and a PACE organization. In Florida, the PACE is a Florida Medicaid LTC managed care plan option providing comprehensive long-term and acute care services which support Medicaid and Medicare enrollees who would otherwise qualify for Medicaid nursing facility services.[6]

[4] Chapter 2011-134, Laws of Fla.
[5] Specifically, services under the PACE are authorized under Section 1905(a)(26) of the Social Security Act.
[6] Department of Elder Affairs (DOEA) and Agency for Health Care Administration (AHCA), *Program of All-Inclusive Care for the Elderly and Statewide Medicaid Managed Care Long-term Care Program Comparison Report* (January 14, 2014),

The BBA established the PACE model of care as a permanent entity within the Medicare program and enabled states to provide PACE services to Medicaid beneficiaries as an optional state plan service without a Medicaid waiver.

The federal government established the PACE organization requirements and application process; however, the state is responsible for oversight of the application process, which includes reviewing the initial application and providing an on-site readiness review before a PACE organization can be authorized to serve participants. An approved PACE organization must sign a contract with the federal CMS and the state Medicaid agency, the AHCA.

The PACE is administered by the DOEA in consultation with the AHCA. The DOEA oversees the contracted PACE organizations but is not a party to the contract between the federal CMS, the AHCA, and the PACE organizations.[7] The DOEA, the AHCA, and the federal CMS must approve any applications for new PACE organizations if expansion is authorized by the Legislature through the necessary appropriation of the state matching funds.

PACE Organizations

A PACE organization is a private not-for-profit 501(c)(3) organization, for-profit private or public entity that is primarily engaged in providing PACE services and must also:

- Have a governing board that includes participant representation;
- Be able to provide the complete service package regardless of frequency or duration of services;
- Have a physical site and staff to provide primary care, social services, restorative therapies, personal care and supportive services, nutritional counseling, recreational therapy, and meals;
- Have a defined service area;
- Have safeguards against conflicts of interest;
- Have demonstrated fiscal soundness;
- Have a formal participant bill of rights; and
- Have a process to address grievances and appeals.[8]

Eligibility and Benefits

To be eligible for PACE, an individual must:

- Be 55 years of age or older;
- Live within the defined service area of the PACE Center;
- Meet medical eligibility requirements as determined by a Comprehensive Assessment and Review of Long-Term Care Services (CARES);[9]

---

available at https://ahca.myflorida.com/Medicaid/recent_presentations/PACE_Evaluation_2014.pdf (last visited Mar. 31, 2021).

[7] *Id.*

[8] HHS, Centers for Medicare and Medicaid Services, *CMS Manual System: Pub. 100-11 Programs of All-Inclusive Care for the Elderly (PACE) Manual* (issued June 9, 2011), *available at* https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/Downloads/pace111c01.pdf (last visited Mar. 31, 2021).

[9] Comprehensive Assessment and Review for Long-Term Care Services (CARES) is Florida's federally mandated pre-admission screening program for nursing home applicants. Federal law mandates that the CARES Program perform an assessment or review of each individual who requests Medicaid reimbursement for nursing facility placement, or who seeks

- Be able to live safely in the community; and
- Be dually eligible for Medicaid and Medicare, or Medicaid only. There is also a private pay option with PACE, however this is not regulated by the State.[10]

By federal law, the first three contract years for a PACE organization are considered a trial period, and the PACE organization is subject to annual reviews to ensure compliance.[11] Review of the PACE organization may continue after the trial period by the Secretary or the administering state agency as appropriate, depending upon the PACE organization's performance and compliance with requirements and regulations.

No deductibles, copayments, coinsurance, or other cost-sharing can be charged by a PACE organization. No other limits relating to amount, duration, or scope of services that might otherwise apply in Medicaid are permitted.[12] The PACE enrollee must accept the PACE center physician as his or her new Medicare primary care physician, if enrolled in Medicare.[13]

Quality of Care Requirements

Each PACE organization is required to develop, implement, maintain, and evaluate an effective data-driven Quality Assurance and Performance Improvement (QAPI) program. The program must incorporate all aspects of the PACE organization's operations, which allows for the identification of areas that need performance improvement. The organization's written QAPI plan must be reviewed by the PACE organization's governing body at least annually. At a minimum, the plan should address the following areas:

- Utilization of services in the PACE organization, especially in key services;
- Participant and caregiver satisfaction with services;
- Data collected during patient assessments to determine if individual and organizational-level outcomes were achieved within a specified time period;
- Effectiveness and safety of direct and contracted services delivered to participants; and
- Outcomes in the organization's non-clinical areas.[14]

---

to receive home and community-based services through Medicaid waivers like Familial Dysautonomia Waiver, and Statewide Medicaid Managed Care Long-Term Care Program. Any person or family member can initiate a CARES assessment by applying for the Medicaid Institutional Care Program (ICP). Assessments are completed at no cost to the clients and are performed by a registered nurse and/or assessor. [14] *Id.*

Florida PACE

The original Florida PACE project was authorized in 1998,[15] under the administration of the DOEA operating in consultation with the AHCA.[16] Florida's first PACE organization, located in Miami-Dade County, began serving enrollees in February 2003 with a total of 150 slots. Since then, the Legislature has approved additional slots either as part of the General Appropriations Act (GAA) or general law.

In 2011, administrative responsibility for the PACE was moved from the DOEA to the AHCA as part of the expansion of Medicaid managed care into the SMMC program.[17] Participation by the PACE in the SMMC program is not subject to the procurement requirements or regional plan number limits normally applicable to SMMC plans. Instead, PACE plans may continue to provide services to individuals at such levels and enrollment caps as authorized by the GAA.[18]

The current approval process for a new PACE project authorized by the Legislature requires any entity interested in becoming a PACE organization to submit a comprehensive PACE application to the AHCA, which sets forth details about the adult day care center, staffing, provider network, financial solvency and pro forma financial projections, and policies and procedures, among other elements. The application is similar in detail to the provider applications submitted by managed care plans seeking to provide medical care to Medicaid recipients. PACE providers operating in the same geographic region must establish that there is adequate demand for services so that each provider will be viable. The application requires that documentation be submitted demonstrating that PACE providers in the same geographic region are not competing for the same potential enrollees.

The AHCA and the DOEA review the application and, when the entity has satisfied all requirements, conduct an on-site survey of the entity's readiness to serve PACE enrollees. Once all requirements are met, including full licensure of the PACE center, staffing for key positions, and signed provider network contracts, the AHCA certifies to the federal CMS that the PACE site is ready. At that time, the federal CMS reviews the application and readiness certification and, if all requirements are satisfied, executes a three-way agreement with the PACE provider and the AHCA. The PACE provider may then begin enrolling members, subject to an appropriation to fund the slots.

Enrollment and Organizational Slots

Slots are authorized by the Legislature for a specific PACE area; however, slots may not always be fully funded in the same year the program is authorized. Some PACE providers need additional time to complete the application process, obtain necessary licensures, or to finalize operations.

[15] Chapter 98-327, Laws of Fla.
[16] Chapter 2011-135, s. 24, Laws of Fla., repealed s. 430.707, F.S., effective October 1, 2013, as part of the expansion of Medicaid managed care.
[17] Chapter 2011-134, Laws of Fla.
[18] Section 409.981(4), F.S.

Funding and Rates

Each year since the PACE's inception, the Legislature has appropriated funds for PACE organizations through proviso language in the GAA or through one of the GAA's accompanying implementing or conforming bills.[19] These directives provide specific slot increases or decreases by county or authorization for implementation of a new program.

PACE organizations receive a capitated Medicaid payment for each enrolled Medicaid long-term care recipient and an enhanced Medicare payment for Medicare enrollees for acute care services from the federal government. The payment amount is established in the GAA and is based on estimates that have been forecast by the Social Services Estimating Conference for the PACE.

The Fiscal Year 2020-2021 GAA provided just over $73 million in PACE program funding to PACE organizations around the state.[20] The following table includes allocation and enrollment information outlined in the Fiscal Year 2020-2021 GAA:

Current PACE Programs[21]				
PACE Organization		**Enrollment**

III. Effect of Proposed Changes:

Section 1 creates s. 430.84, F.S., and codifies the Program of All-Inclusive Care for the Elderly (PACE) within the Florida Statutes. Currently, the program does not have an implementing statute and has been operationalized through annual appropriations, proviso, or bills designed to implement the state budget or conform statute to provisions of the state budget. In addition, the bill:

[19] Chapter 2013-40, Laws of Fla.
[20] Chapter 2020-111, Laws of Fla.
[21] Email from the DOEA, (March 9, 2021) (on file with the Senate Appropriations Subcommittee on Health and Human Services).
[22] AHCA, *Florida Statewide Medicaid Monthly Enrollment Report* (February 28, 2021), *available at* https://ahca.myflorida.com/Medicaid/Finance/data_analytics/enrollment_report/index.shtml (last visited Mar. 31, 2021).

- Authorizes the Agency for Health Care Administration (AHCA), in consultation with the Department of Elder Affairs (DOEA), to approve entities that have submitted the required application and data to the federal Centers for Medicare and Medicaid Services (CMS) as PACE organizations pursuant to 42 U.S.C. s. 1395eee. Applications, as required by the federal CMS, will be reviewed by the AHCA on an ongoing basis, in consultation with the DOEA for initial approval as PACE organizations. Notice of applications must be published in the Florida Administrative Register.
- Requires a prospective PACE organization to submit an application to the AHCA before submitting a request for program funding. An applicant must meet the following requirements:
  - Provide evidence that the applicant can meet all of the federal regulations and requirements established by the federal CMS by the proposed implementation date;
  - Provide market studies which include an estimate of the potential number of participants and which show the geographic area the applicant proposes to serve; and
  - Develop and provide a business plan of operation, including pro forma financial statement and projections based on the planned implementation date.
- Requires each applicant to serve a unique and defined geographic service area without duplication of services or target populations. No more than one PACE organization may be authorized to provide services within any unique and defined geographic area.
- Authorizes a PACE organization that has received funding for slots in a given geographic area to use the funding and slots to provide services in an authorized contiguous geographic area, upon approval from the AHCA.
- Requires an existing PACE organization seeking authority to serve an additional geographic service area not previously authorized by the AHCA to show evidence of regulatory compliance and meet market study requirements.
- Requires any prospective PACE organization that is granted initial state approval by the AHCA, in consultation with the DOEA, to submit its complete federal PACE application to the AHCA and the federal CMS within 12 months after date of initial state approval. If the organization fails to timely meet this requirement, the state approval of the application is void.
- Requires all PACE organizations to meet specific quality and performance standards established by the federal CMS and the state administering agency (the AHCA). The AHCA has the responsibility to oversee and monitor Florida's PACE and the contracted organizations through the data and reports submitted periodically to the AHCA and the federal CMS.
- Exempts all PACE organizations from the requirements of chapter 641, the chapter of Florida law that regulates health maintenance organizations, prepaid health clinics, and other health care service programs.

Section 2 provides an effective date of July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Additional private sector providers that meet the criteria to be a Program of All-Inclusive Care for the Elderly (PACE) organization and achieve eligibility confirmation status could be approved as PACE sites. Expansion of PACE sites would also mean additional individuals in the community would have access to the PACE model for medical care and long-term care.

C. Government Sector Impact:

CS/CS/SB 1242 poses a minor operational impact to the AHCA, however, the workload can be absorbed using existing agency resources. Although the bill does not direct the AHCA to initiate rulemaking in conjunction with the new statutory language, the AHCA would need to utilize existing statutory authority to promulgate an administrative rule to clearly outline the AHCA's standard business operation. This can also be completed using existing agency resources.[23]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[23] AHCA, *House Bill 905 Fiscal Analysis* (Feb. 12, 2021) (on file with Senate Committee on Health Policy).

VIII. Statutes Affected:

This bill creates section 430.84 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The committee substitute authorizes a Program of All-Inclusive Care for the Elderly (PACE) organization that has received funding for slots in a given geographic area to use the funding and slots to provide services in an authorized contiguous geographic area, upon approval from the Agency for Health Care Administration (AHCA).

CS by Health Policy on March 24, 2021:
The CS requires all PACE organizations to meet specific quality performance standards established by the federal CMS and the state administering agency (the AHCA), rather than just the federal CMS.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Health Policy; and Senator Book

588-03330-21 20211242c1

A bill to be entitled

An act relating to the Program of All-Inclusive Care for the Elderly; creating s. 430.84, F.S.; defining terms; authorizing the Agency for Health Care Administration, in consultation with the Department of Elderly Affairs, to approve entities applying to deliver PACE services in the state; requiring applications to be reviewed and considered on a continuous basis; requiring notice of applications to be published in the Florida Administrative Register; providing specified application requirements for such prospective PACE organizations; requiring existing PACE organizations to meet specified requirements under certain circumstances; requiring prospective PACE organizations to submit a complete application to the agency and the Centers for Medicare and Medicaid Services within a specified period; requiring that PACE organizations meet certain federal and state quality and performance standards; requiring the agency to oversee and monitor the PACE program and organizations; providing that a PACE organization is exempt from certain requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 430.84, Florida Statutes, is created to read:

430.84 Program of All-Inclusive Care for the Elderly.—

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

588-03330-21 20211242c1

(1) DEFINITIONS.—As used in this section, the term:

(a) "Agency" means the Agency for Health Care Administration.

(b) "Applicant" means an entity that has filed an application with the agency for consideration as a Program of All-Inclusive Care for the Elderly (PACE) organization.

(c) "CMS" means the Centers for Medicare and Medicaid Services within the United States Department of Health and Human Services.

(d) "Department" means the Department of Elderly Affairs.

(e) "PACE organization" means an entity under contract with the agency to deliver PACE services.

(f) "Participant" means an individual receiving services from a PACE organization who has been determined by the department to need the level of care required under the state Medicaid plan for coverage of nursing facility services.

(2) PROGRAM CREATION.—The agency, in consultation with the department, may approve entities that have submitted applications required by the CMS to the agency for review and consideration which contain the data and information required in subsection (3) to provide benefits pursuant to the PACE program as established in 42 U.S.C. s. 1395eee and in accordance with the requirements set forth in this section.

(3) PACE ORGANIZATION SELECTION.—The agency, in consultation with the department, shall, on a continuous basis, review and consider applications required by the CMS for PACE that have been submitted to the agency by entities seeking initial, state approval to become PACE organizations. Notice of such applications shall be published in the Florida

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Administrative Register.

(a) A prospective PACE organization shall submit application documents to the agency before requesting program funding. Application documents submitted to and reviewed by the agency, in consultation with the department, must include all of the following:

1. Evidence that the applicant has the ability to meet all of the applicable federal regulations and requirements, established by the CMS, for participation as a PACE organization by the proposed implementation date.

2. Market studies, including an estimate of the number of potential participants and the geographic service area in which the applicant proposes to serve.

3. A business plan of operation, including pro forma financial statements and projections, based on the proposed implementation date.

(b) Each applicant must propose to serve a unique and defined geographic service area without duplication of services or target populations. No more than one PACE organization may be authorized to provide services within any unique and defined geographic service area.

(c) An existing PACE organization seeking authority to serve an additional geographic service area not previously authorized by the agency or Legislature shall meet the requirements set forth in paragraphs (a) and (b).

(d) Any prospective PACE organization that is granted initial state approval by the agency, in consultation with the department, shall submit its complete federal PACE application, in accordance with the application process and guidelines

established by the CMS, to the agency and the CMS within 12 months after the date of initial state approval, or such approval is void.

(4) ACCOUNTABILITY.—All PACE organizations must meet specific quality and performance standards established by the CMS and the state administering agency for the PACE program. The agency shall oversee and monitor the PACE program and organizations based upon data and reports periodically submitted by PACE organizations to the agency and the CMS. A PACE organization is exempt from the requirements of chapter 641.

Section 2. This act shall take effect July 1, 2021.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1292
INTRODUCER:	Health Policy Committee and Senator Bean
SUBJECT:	Medicaid
DATE:	April 16, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Smith	Brown	HP	**Fav/CS**
2.	McKnight	Kidd	AHS	**Recommend: Favorable**
3.	McKnight	Sadberry	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1292 updates or repeals outdated or obsolete language relating to:

- Reimbursement of prescribed drugs based on average wholesale price;
- Implementation of, including increases and decreases to, a variable pharmacy dispensing fee;
- Review of certain drugs by the Medicaid Pharmaceutical and Therapeutics Committee;
- Duties of the Department of Children and Families regarding Medicaid Fair Hearings;
- Providing prior "authorizations" rather than "consultations" for pharmacy services;
- Expansion of mail order delivery of pharmacy products;
- Medicaid reimbursement of drugs prescribed to treat erectile dysfunction;
- The definition of "medical necessity;" and
- The Organ Transplant Advisory Council.

The bill also eliminates requirements that the Agency for Health Care Administration (AHCA) submit reports to the Legislature that are obsolete or outdated related to the Pharmaceutical Expense Assistance Program, the Medicaid Reform 1115 Waiver, and Fee-for-Service Pharmaceutical spending.

The bill does not have a fiscal impact on the Florida Medicaid program. *See* Section V of this analysis.

The bill takes effect on July 1, 2021.

II. Present Situation:

Due to the diverse range of issues within the bill, additional background information is provided within the effect of proposed changes section of this analysis for the reader's convenience.

The Agency for Health Care Administration

The Agency for Health Care Administration (AHCA) is the chief health policy and planning entity for the state and is responsible for, among other things, the administration of the Florida Medicaid program, and health facility licensure, inspection, and regulatory enforcement. It licenses or certifies and regulates 40 different types of health care providers, including hospitals, nursing homes, assisted living facilities, and home health agencies, and licenses, certifies, regulates or provides exemptions for more than 48,000 providers.[1]

Florida Medicaid Program

The Medicaid program is a partnership between the federal and state governments that finances health coverage for individuals, including eligible low-income adults, children, pregnant women, elderly adults and persons with disabilities.[2] The federal Centers for Medicare and Medicaid Services (CMS) within the United States Department of Health and Human Services is responsible for administering the federal Medicaid program. Florida Medicaid is the health care safety net for low-income Floridians and is administered by the AHCA, and financed through state and federal funds.[3]

A Medicaid state plan is an agreement between a state and the federal government describing how the state administers its Medicaid programs. The state plan establishes groups of individuals covered under the Medicaid program, services that are provided, payment methodologies, and other administrative and organizational requirements.

In order to participate in Medicaid, federal law requires states to cover certain population groups (mandatory eligibility groups) and gives states the flexibility to cover other population groups (optional eligibility groups). States set individual eligibility criteria within federal minimum standards. The AHCA may seek an amendment to the state plan as necessary to comply with federal or state laws or to implement program changes. States send state plan amendments to the federal CMS for review and approval.[4]

Medicaid enrollees generally receive benefits through one of two service-delivery systems: fee-for-service (FFS) or managed care. Under FFS, health care providers are paid by the state Medicaid program for each service provided to a Medicaid enrollee. Under managed care, the AHCA contracts with private managed care plans for the coordination and payment of services

for Medicaid enrollees. The state pays the managed care plans a capitation payment, or fixed monthly payment, per recipient enrolled in the managed care plan.

In Florida, the majority of Medicaid recipients receive their services through a managed care plan contracted with the AHCA under the Statewide Medicaid Managed Care (SMMC) program.[5] The SMMC program has two components, the Managed Medical Assistance (MMA) program and the Long-term Care program. Florida's SMMC offers a health care package covering both acute and long-term care.[6] The SMMC benefits are authorized by federal authority and are specifically required in ss. 409.973 and 409.98, F.S.

The AHCA contracts with managed care plans on a regional basis to provide services to eligible recipients. The MMA program, which covers most medical and acute care services for managed care plan enrollees, was fully implemented in August 2014, and the current contracts expire in 2024.[7]

III. Effect of Proposed Changes:

Pharmaceutical Expense Assistance Program Report

The Pharmaceutical Expense Assistance Program was established within the AHCA in 2006 to provide pharmaceutical expense assistance to individuals diagnosed with cancer or individuals who have received organ transplants who were medically needy recipients prior to January 1, 2006, and who are eligible for Medicare.[8] Using Medicaid payment policies, the AHCA pays Medicare Part B prescription drug coinsurance and deductibles for Medicare Part B medications that treat eligible cancer and organ transplant patients.[9]

The initial program was funded with $3.7 million and approximately 650 people were identified as potentially eligible for the program. Only those unique individuals identified as eligible at the time of the program's passage are eligible and, as a result, program size and expenditures have reduced significantly. The program currently pays pharmacy expenses for approximately 20 individuals who meet that criterion, requiring a total expenditure of $4,457 during Fiscal Year 2019-2020.[10]

The AHCA is currently required to submit an annual report to the Legislature on the operation of the program. The annual report must include information on the number of individuals served, use rates, and expenditures under the program.

Section 1 of the bill amends s. 402.81, F.S., to eliminate the requirement that the AHCA submit a report to the Legislature by January 1 of each year on the operation of the Pharmaceutical Expense Assistance Program.

[9] Section 402.81(3), F.S.
[10] AHCA, *Senate Bill 1292 Fiscal Analysis* (Feb. 19, 2021) (on file with the Senate Committee on Health Policy).

Drug Pricing Formula

The AHCA is required to reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in agency rule.[11] Florida law specifies that a provider of prescribed drugs must be reimbursed the least of the amount billed by the provider, the provider's usual and customary charge, or the Medicaid maximum allowable fee established by the AHCA, plus a dispensing fee.[12]

On February 1, 2016, the federal CMS published a final rule, effective April 1, 2017, that requires states to update reimbursement methodologies for covered outpatient drugs in the Medicaid program.[13] The requirements of this rule include a revised federal regulation requiring states to reimburse at an aggregate upper limit based on actual acquisition cost plus a professional dispensing fee established by the state Medicaid agency.[14]

While states retained the flexibility to establish reimbursement methodologies consistent with the requirements of this final rule, Florida's statutory reimbursement methodology does not align with the new federal requirements. In response, the AHCA amended its reimbursement methodology for covered outpatient drugs.[15] Changes in the bill would update the statutory reimbursement methodologies so they are in line with the federal rules and with the AHCA's current practice.[16]

Section 3 of the bill amends s. 409.908(14), F.S., and **Section 5** of the bill amends s. 409.912(5)(a), F.S., to make changes to provisions setting reimbursement rates for providers of prescribed drugs. Currently, a provider of prescribed drugs must be reimbursed the least of the amount billed by the provider, the provider's usual and customary charge, or the Medicaid maximum allowable fee established by the agency, plus a dispensing fee. The Medicaid maximum allowable fee for ingredient cost must be based on the lowest of: the average wholesale price minus 16.4 percent, the wholesaler acquisition cost plus 1.5 percent, the federal upper limit, the state maximum allowable cost, or the usual and customary charge billed by the provider. Under the bill, a provider of prescribed drugs will be reimbursed in an amount not to exceed the lesser of the actual acquisition cost based on the federal CMS National Average Drug Acquisition Cost pricing files plus a professional dispensing fee, the wholesale acquisition cost plus a professional dispensing fee, the state maximum allowable cost plus a professional dispensing fee, or the usual and customary charge billed by the provider.

Section 4 of the bill reenacts s. 409.91195(4), F.S., to incorporate the changes made to s. 409.912(5)(a), F.S.

[11] Section 409.908, F.S.
[12] Sections 409.908(14) and 409.912(5)(a), F.S.
[13] AHCA, *Senate Bill 1292 Fiscal Analysis* (Feb. 19, 2021) (on file with the Senate Committee on Health Policy).
[14] 42 CFR s. 447.512(b)
[15] Fla. Admin. Code R. 59G-4.251 (2020).
[16] AHCA, *Senate Bill 1292 Fiscal Analysis* (Feb. 19, 2021) (on file with the Senate Committee on Health Policy).

Variable Dispensing Fee

In addition to reimbursement for a prescription drug's cost, Medicaid pays pharmacies a professional dispensing fee for filling the prescription.

The AHCA is currently required to implement a variable dispensing fee for prescribed drugs. The AHCA is authorized to increase the dispensing fee by $0.50 for the dispensing of a drug on the Medicaid preferred drug list and to reduce the dispensing fee by $0.50 for drugs not on the preferred drug list.[17]

Effective April 1, 2017, federal CMS implemented the use of the term "professional dispensing fee" and mandated that certain criteria be met in setting the dispensing fee.[18] In response, the AHCA updated the Medicaid state plan with a new professional dispensing fee that does not conform to s. 409.908(14)(b) and (c), F.S. **Section 3** of the bill deletes these obsolete paragraphs.

Medicaid Preferred Drug List and Patient Safety

Established in 2000, the Medicaid Pharmaceutical and Therapeutics Committee (Committee) is composed of four allopathic physicians, one osteopathic physician, five pharmacists, and a consumer representative, each appointed by the Governor.[19] The Committee must meet at least quarterly and is responsible for developing, implementing, updating, and providing the AHCA with the Medicaid Preferred Drug List.[20]

Section 4 of the bill amends s. 409.91195(9), F.S., to remove language requiring the AHCA to ensure that any therapeutic class of drugs, including drugs that have been removed from distribution to the public by their manufacturer or the federal Food and Drug Administration (FDA) or have been required to carry a black box warning label by the federal FDA because of safety concerns, is reviewed by the Committee at the "next regularly scheduled meeting." Under current law, after such review, the Committee must recommend whether to retain the therapeutic class of drugs or subcategories of drugs within a therapeutic class on the Medicaid preferred drug list and whether to institute prior authorization requirements necessary to ensure patient safety.

If drugs covered by Florida Medicaid are removed from distribution for safety reasons or because of an FDA-mandated black box warning, the AHCA does not wait for the quarterly committee meetings or for its recommendations because the safety of enrollees could be at stake.[21]

Medicaid Fair Hearings

Individuals who have been turned down for a Medicaid service, or who were receiving a Medicaid service that has been was reduced or stopped, should receive a letter explaining why

[17] Section 409.908(14), F.S.

[19] AHCA, *Medicaid Pharmaceutical & Therapeutics Committee*, *available at* https://ahca.myflorida.com/medicaid/prescribed_drug/pharm_thera/ (last visited Mar. 22, 2021). *See* s. 409.91195, F.S.
[20] *Id*.
[21] AHCA, *Senate Bill 1292 Fiscal Analysis* (Feb. 19, 2021) (on file with the Senate Committee on Health Policy).

Medicaid will not pay for or cover the service.[22] In these cases, the individual has the right to challenge that determination in a Medicaid fair hearing.[23] Medicaid fair hearing responsibilities were moved from the Department of Children and Families (DCF) to the AHCA in 2016.[24]

Section 4 of the bill amends s. 409.91195(10), F.S., to reflect that the AHCA is responsible for Medicaid fair hearings in which preferred drug formulary decisions are appealed, rather than the DCF.

Prior Consultation and Prior Authorization

The AHCA is required to establish procedures ensuring that there is a response to a request for prior consultation by telephone or other communication device within 24 hours after receipt of a request for prior consultation.[25] Prior authorization means a process by which a health care provider must qualify for payment coverage by obtaining advance approval from a health plan before a specific service is delivered to the patient.[26]

Section 5 of the bill amends that provision to change prior "consultation" to prior "authorization." The AHCA does not provide pharmacy consultations, as that responsibility lies with the pharmacist.[27]

Home Delivery of Pharmacy Products

Since 2011, the AHCA has been required to "expand" home delivery of pharmaceuticals.[28] This provision predates the implementation of the SMMC program and the current Medicaid Pharmacy services rule.[29] The AHCA reports that this language is no longer needed because Medicaid FFS and managed care plans already provide for mail order delivery of drugs.

Section 5 deletes the outdated provisions requiring the AHCA to expand home delivery of pharmacy products.

Erectile Dysfunction Drugs

In 2005, federal law was amended to prohibit Medicaid federal financial participation for drugs used for the treatment of sexual or erectile dysfunction, unless such drugs were approved by the federal Food and Drug Administration to treat a different condition.[30] The Florida Medicaid

[29] *Id.*
[30] *Id.*

program is currently authorized to reimburse any drug prescribed to treat erectile dysfunction, limited to one dose per month.[31] This authorization predates the federal prohibition.

Section 5 deletes the provision limiting the doses of sexual or erectile dysfunction drugs, as Florida Medicaid does not cover such drugs based on the 2005 prohibition.

Medicaid Fee-for-Service Pharmaceutical Quarterly Report

The AHCA is currently required to submit quarterly reports to the Legislature on the implementation of a Medicaid prescribed-drug spending-control program for the FFS delivery system.[32] The reporting requirement has been in place since 2010 and pre-dates the implementation of the SMMC program and therefore, the cost controls described are no longer applicable to most Medicaid recipients in Florida. Fee-for-service Medicaid recipients are typically not enrolled in managed care due to specific health needs, the presence of other insurance, or because they are living in a facility that provides their prescription drugs. The results of the report do not generally reflect the Medicaid population.

Section 5 eliminates the requirement that the AHCA report quarterly to the Governor, the President of the Senate, and the Speaker of the House of Representatives on the progress made on implementing s. 409.912(5), F.S., relating to Medicaid prescribed drug spending and its effect on expenditures.

Medicaid Reform 1115 Waiver Report

The AHCA is required to submit to the Legislature quarterly progress reports and annual reports that are submitted to the federal CMS for the 1115 Managed Medical Assistance waiver which is tied to the original 2006 Medicaid Reform waiver authority. The Medicaid Reform pilot program ended in 2014 with the full implementation of the SMMC program. These reports are now obsolete. All federal CMS-mandated reports regarding the SMMC waiver are posted on the AHCA's website to ensure transparency about the waiver.[33]

Section 6 of the bill repeals s. 409.91213, F.S., to eliminate the requirement that the AHCA submit a quarterly progress report and an annual report relating to the 1115 Managed Medical Assistance waiver to the Governor, the President of the Senate, the Speaker of the House of Representatives, the Minority Leader of the Senate, the Minority Leader of the House of Representatives, and the Office of Program Policy Analysis and Government Accountability.

[31] Section 409.912(5)(a), F.S.
[32] Section 409.912 (5)(c), F.S.
[33] AHCA, *Senate Bill 1292 Fiscal Analysis* (Feb. 19, 2021) (on file with the Senate Committee on Health Policy).

Medical Necessity

Federal law specifies that state Medicaid programs do not have to cover services that are not medically necessary.[34] Each state has adopted its own definition of "medical necessity."[35] Section 409.913(1)(d), F.S., specifies that the AHCA is the final arbiter of medical necessity for purposes of medical reimbursement. Further, that paragraph requires determinations of medical necessity to be made by a licensed physician employed by or under contract with the AHCA, based upon information available *at the time the goods or services are provided*.

Pursuant to Rule 59G-1.010 of the Florida Administrative Code, care, goods, and services are medically necessary if they are:

- Necessary to protect life, to prevent significant illness or significant disability, or to alleviate severe pain;
- Individualized, specific, and consistent with symptoms or confirmed diagnosis of the illness or injury under treatment, and not in excess of the patient's needs;
- Consistent with generally accepted professional medical standards as determined by the Medicaid program, and not experimental or investigational;
- Reflective of the level of service that can be safely furnished, and for which no equally effective and more conservative or less costly treatment is available statewide; and
- Furnished in a manner not primarily intended for the convenience of the recipient, the recipient's caretaker, or the provider.

Section 7 of the bill amends s. 409.913, F.S., to create an exception to the requirement that determinations of medical necessity must be made by a licensed physician employed by or under contract with the AHCA. The exception enables doctoral-level, board-certified behavior analysts to make determinations of medical necessity for behavior analysis services in addition to licensed physicians. The bill also requires a determination of medical necessity to be based on information available at the time the goods or services are requested, rather than when they are provided. This change will bring Florida law into line with federal regulations.[36]

Organ Transplant Advisory Council

Section 765.53, F.S., establishes the Organ Transplant Advisory Council (OTAC) to consist of 12 physician members who are appointed to represent the interests of the public and the clients of the Department of Health or the AHCA. All members are appointed by the Secretary of Health Care Administration for two-year terms. The OTAC is responsible for recommending indications for adult and pediatric organ transplants to the AHCA and formulating guidelines and standards for organ transplants and for the development of End Stage Organ Disease and Tissue/Organ Transplant programs. The OTAC's recommendations, guidelines, and standards are limited in applicability to only those health programs funded through the AHCA.

[35] Dickey, Elizabeth, NOLO, Getting Approval for Medicaid Services: Medical Necessity *available at* https://www.nolo.com/legal-encyclopedia/getting-approval-medicaid-services-medical-necessity.html (last viewed Mar. 22, 2021).
[36] AHCA, *Senate Bill 1292 Fiscal Analysis* (Feb. 19, 2021) (on file with the Senate Committee on Health Policy).

The OTAC met 22 times with its first meeting held on August 27, 2007, and its last meeting held on April 14, 2015.[37]

Most actions of the OTAC revolved around approving guidelines for organ transplantations and reviewing and approving hospital transplant program applications for recommendation to the AHCA, which have been adopted into rule and into the Medicaid State Plan.[38] The AHCA indicates that the duties and responsibilities of the OTAC have become redundant because of federal CMS oversight, the Organ Procurement and Transplantation Network, the federal Health Resources and Services Administration, the United Network for Organ Sharing, Organ Procurement Organizations, the Foundation for the Accreditation of Cellular Therapy, and the Joint Commission.[39] The non-statutory function of the OTAC (recommending approval of transplant programs to the Secretary of Health Care Administration for Medicaid-designation) could be undertaken by staff of the AHCA.[40]

Section 8 of the bill repeals s. 765.53, F.S., to dissolve the OTAC by eliminating its statutory authority. **Section 2** of the bill amends s. 409.815, F.S., to delete a reference to the OTAC which would be dissolved under such repeal.

Section 9 of the bill provides an effective date of July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The AHCA reports that the bill will not have a fiscal impact on the Medicaid program, nor have any impact on recipients or providers.[41]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 402.81, 409.815, 409.908, 409.91195, 409.912, and 409.913.

This bill repeals the following sections of the Florida Statutes: 409.91213 and 765.53.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Health Policy on March 24, 2021:
The CS reinstates the current requirement in s. 409.908(2)(b), F.S., for the AHCA to submit an annual report related to nursing home direct and indirect care costs to the Legislature.

The CS also reinstates the current requirement in s. 409.913(d), F.S., that a determination of medical necessity must be made by a licensed physician, but also creates an exception for behavior analysis services by authorizing a doctoral-level, board-certified behavior analyst to make a determination of medical necessity, in addition to a licensed physician. The CS also reinstates and revises the current requirement for a determination of medical necessity to be based upon information available at the time the goods and services are "requested," rather than when they are "provided."

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Health Policy; and Senator Bean

588-03321-21 20211292c1

A bill to be entitled

An act relating to Medicaid; amending s. 402.81, F.S.; deleting a requirement for the Agency for Health Care Administration to submit an annual report to the Legislature on the operation of the pharmaceutical expense assistance program; amending s. 409.815, F.S.; conforming a provision to changes made by the act; amending s. 409.908, F.S.; revising the method for determining prescribed drug provider reimbursements; deleting a requirement for the agency to implement certain fees for prescribed medicines; deleting authorization for the agency to increase certain dispensing fees by certain amounts; reenacting and amending s. 409.91195, F.S., relating to the Medicaid Pharmaceutical and Therapeutics Committee; deleting a requirement for the agency to ensure that the committee reviews certain drugs under certain circumstances; designating the agency, rather than the Department of Children and Families, as the administrator for certain hearings; amending s. 409.912, F.S.; requiring the agency to establish certain procedures related to prior authorization requests rather than prior consultation requests; revising the method for determining prescribed drug provider reimbursements; deleting a requirement for the agency to expand home delivery of pharmacy products; deleting a dosage limitation on certain drugs; deleting a requirement for the agency to submit certain quarterly reports to the Governor and the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

588-03321-21 20211292c1

Legislature; repealing s. 409.91213, F.S., relating to quarterly progress reports and annual reports; amending s. 409.913, F.S.; revising the definitions of the terms "medical necessity" and "medically necessary" to provide an exception for behavior analysis services determinations; requiring that determinations be based on information available at the time goods or services are requested, rather than at the time such goods or services are provided; repealing s. 765.53, F.S., relating to the Organ Transplant Advisory Council; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (4) of section 402.81, Florida Statutes, is amended to read:

402.81 Pharmaceutical expense assistance.—

(4) ADMINISTRATION.—The agency shall administer the pharmaceutical expense assistance program ~~shall be administered by the agency,~~ in collaboration with the Department of Elderly Affairs and the Department of Children and Families. ~~By January 1 of each year, the agency shall report to the Legislature on the operation of the program. The report shall include information on the number of individuals served, use rates, and expenditures under the program.~~

Section 2. Paragraph (e) of subsection (2) of section 409.815, Florida Statutes, is amended to read:

409.815 Health benefits coverage; limitations.—

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(2) BENCHMARK BENEFITS.—In order for health benefits coverage to qualify for premium assistance payments for an eligible child under ss. 409.810-409.821, the health benefits coverage, except for coverage under Medicaid and Medikids, must include the following minimum benefits, as medically necessary.

(e) *Organ transplantation services.*—Covered services include pretransplant, transplant, and postdischarge services and treatment of complications after transplantation for transplants deemed necessary and appropriate within the guidelines set by the ~~Organ Transplant Advisory Council under s. 765.53 or the~~ Bone Marrow Transplant Advisory Panel under s. 627.4236.

Section 3. Subsection (14) of section 409.908, Florida Statutes, is amended to read:

409.908 Reimbursement of Medicaid providers.—Subject to specific appropriations, the agency shall reimburse Medicaid providers, in accordance with state and federal law, according to methodologies set forth in the rules of the agency and in policy manuals and handbooks incorporated by reference therein. These methodologies may include fee schedules, reimbursement methods based on cost reporting, negotiated fees, competitive bidding pursuant to s. 287.057, and other mechanisms the agency considers efficient and effective for purchasing services or goods on behalf of recipients. If a provider is reimbursed based on cost reporting and submits a cost report late and that cost report would have been used to set a lower reimbursement rate for a rate semester, then the provider's rate for that semester shall be retroactively calculated using the new cost report, and full payment at the recalculated rate shall be effected

retroactively. Medicare-granted extensions for filing cost reports, if applicable, shall also apply to Medicaid cost reports. Payment for Medicaid compensable services made on behalf of Medicaid eligible persons is subject to the availability of moneys and any limitations or directions provided for in the General Appropriations Act or chapter 216. Further, nothing in this section shall be construed to prevent or limit the agency from adjusting fees, reimbursement rates, lengths of stay, number of visits, or number of services, or making any other adjustments necessary to comply with the availability of moneys and any limitations or directions provided for in the General Appropriations Act, provided the adjustment is consistent with legislative intent.

(14) A provider of prescribed drugs shall be reimbursed in an amount not to exceed the lesser of the actual acquisition cost based on the Centers for Medicare and Medicaid Services National Average Drug Acquisition Cost pricing files plus a professional dispensing fee, the wholesale acquisition cost plus a professional dispensing fee, the state maximum allowable cost plus a professional dispensing fee, or the usual and customary charge billed by the provider ~~the least of the amount billed by the provider, the provider's usual and customary charge, or the Medicaid maximum allowable fee established by the agency, plus a dispensing fee. The Medicaid maximum allowable fee for ingredient cost must be based on the lowest of: the average wholesale price (AWP) minus 16.4 percent, the wholesaler acquisition cost (WAC) plus 1.5 percent, the federal upper limit (FUL), the state maximum allowable cost (SMAC), or the usual and customary (UAC) charge billed by the provider~~.

(a) Medicaid providers must dispense generic drugs if available at lower cost and the agency has not determined that the branded product is more cost-effective, unless the prescriber has requested and received approval to require the branded product.

(b) ~~The agency shall implement a variable dispensing fee for prescribed medicines while ensuring continued access for Medicaid recipients. The variable dispensing fee may be based upon, but not limited to, either or both the volume of prescriptions dispensed by a specific pharmacy provider, the volume of prescriptions dispensed to an individual recipient, and dispensing of preferred drug list products.~~

~~(c) The agency may increase the pharmacy dispensing fee authorized by statute and in the General Appropriations Act by $0.50 for the dispensing of a Medicaid preferred-drug-list product and reduce the pharmacy dispensing fee by $0.50 for the dispensing of a Medicaid product that is not included on the preferred drug list.~~

~~(d)~~ The agency may establish a supplemental pharmaceutical dispensing fee to be paid to providers returning unused unit-dose packaged medications to stock and crediting the Medicaid program for the ingredient cost of those medications if the ingredient costs to be credited exceed the value of the supplemental dispensing fee.

(c) ~~(e)~~ The agency may limit reimbursement for prescribed medicine in order to comply with any limitations or directions provided in the General Appropriations Act, which may include implementing a prospective or concurrent utilization review program.

Section 4. Subsections (9) and (11) of section 409.91195, Florida Statutes, are amended, and subsection (4) of that section is reenacted for the purpose of incorporating the amendment made by this act to section 409.912, Florida Statutes, in a reference thereto, to read:

409.91195 Medicaid Pharmaceutical and Therapeutics Committee.—There is created a Medicaid Pharmaceutical and Therapeutics Committee within the agency for the purpose of developing a Medicaid preferred drug list.

(4) Upon recommendation of the committee, the agency shall adopt a preferred drug list as described in s. 409.912(5). To the extent feasible, the committee shall review all drug classes included on the preferred drug list every 12 months, and may recommend additions to and deletions from the preferred drug list, such that the preferred drug list provides for medically appropriate drug therapies for Medicaid patients which achieve cost savings contained in the General Appropriations Act.

~~(9) Upon timely notice, the agency shall ensure that any therapeutic class of drugs which includes a drug that has been removed from distribution to the public by its manufacturer or the United States Food and Drug Administration or has been required to carry a black box warning label by the United States Food and Drug Administration because of safety concerns is reviewed by the committee at the next regularly scheduled meeting. After such review, the committee must recommend whether to retain the therapeutic class of drugs or subcategories of drugs within a therapeutic class on the preferred drug list and whether to institute prior authorization requirements necessary to ensure patient safety.~~

(10)~~(11)~~ Medicaid recipients may appeal agency preferred drug formulary decisions using the Medicaid fair hearing process administered by the Agency for Health Care Administration ~~Department of Children and Families~~.

Section 5. Paragraphs (a) and (c) of subsection (5) of section 409.912, Florida Statutes, are amended to read:

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician's opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. s. 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a

provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records,

clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(5)(a) The agency shall implement a Medicaid prescribed-drug spending-control program that includes the following components:

1. A Medicaid preferred drug list, which shall be a listing of cost-effective therapeutic options recommended by the Medicaid Pharmacy and Therapeutics Committee established pursuant to s. 409.91195 and adopted by the agency for each therapeutic class on the preferred drug list. At the discretion of the committee, and when feasible, the preferred drug list should include at least two products in a therapeutic class. The agency may post the preferred drug list and updates to the list on an Internet website without following the rulemaking procedures of chapter 120. Antiretroviral agents are excluded from the preferred drug list. The agency shall also limit the amount of a prescribed drug dispensed to no more than a 34-day supply unless the drug products' smallest marketed package is greater than a 34-day supply, or the drug is determined by the agency to be a maintenance drug in which case a 100-day maximum supply may be authorized. The agency may seek any federal

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

waivers necessary to implement these cost-control programs and to continue participation in the federal Medicaid rebate program, or alternatively to negotiate state-only manufacturer rebates. The agency may adopt rules to administer this subparagraph. The agency shall continue to provide unlimited contraceptive drugs and items. The agency must establish procedures to ensure that:

a. There is a response to a request for prior authorization ~~consultation~~ by telephone or other telecommunication device within 24 hours after receipt of a request for prior authorization ~~consultation~~; and

b. A 72-hour supply of the drug prescribed is provided in an emergency or when the agency does not provide a response within 24 hours as required by sub-subparagraph a.

2. A provider of prescribed drugs is reimbursed in an amount not to exceed the lesser of the actual acquisition cost based on the Centers for Medicare and Medicaid Services National Average Drug Acquisition Cost pricing files plus a professional dispensing fee, the wholesale acquisition cost plus a professional dispensing fee, the state maximum allowable cost plus a professional dispensing fee, or the usual and customary charge billed by the provider ~~Reimbursement to pharmacies for Medicaid prescribed drugs shall be set at the lowest of: the average wholesale price (AWP) minus 16.4 percent, the wholesaler acquisition cost (WAC) plus 1.5 percent, the federal upper limit (FUL), the state maximum allowable cost (SMAC), or the usual and customary (UAC) charge billed by the provider~~.

3. The agency shall develop and implement a process for managing the drug therapies of Medicaid recipients who are using

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

significant numbers of prescribed drugs each month. The management process may include, but is not limited to, comprehensive, physician-directed medical-record reviews, claims analyses, and case evaluations to determine the medical necessity and appropriateness of a patient's treatment plan and drug therapies. The agency may contract with a private organization to provide drug-program-management services. The Medicaid drug benefit management program shall include initiatives to manage drug therapies for HIV/AIDS patients, patients using 20 or more unique prescriptions in a 180-day period, and the top 1,000 patients in annual spending. The agency shall enroll any Medicaid recipient in the drug benefit management program if he or she meets the specifications of this provision and is not enrolled in a Medicaid health maintenance organization.

4. The agency may limit the size of its pharmacy network based on need, competitive bidding, price negotiations, credentialing, or similar criteria. The agency shall give special consideration to rural areas in determining the size and location of pharmacies included in the Medicaid pharmacy network. A pharmacy credentialing process may include criteria such as a pharmacy's full-service status, location, size, patient educational programs, patient consultation, disease management services, and other characteristics. The agency may impose a moratorium on Medicaid pharmacy enrollment if it is determined that it has a sufficient number of Medicaid-participating providers. The agency must allow dispensing practitioners to participate as a part of the Medicaid pharmacy network regardless of the practitioner's proximity to any other

entity that is dispensing prescription drugs under the Medicaid program. A dispensing practitioner must meet all credentialing requirements applicable to his or her practice, as determined by the agency.

5. The agency shall develop and implement a program that requires Medicaid practitioners who issue written prescriptions for medicinal drugs to use a counterfeit-proof prescription pad for Medicaid prescriptions. The agency shall require the use of standardized counterfeit-proof prescription pads by prescribers who issue written prescriptions for Medicaid recipients. The agency may implement the program in targeted geographic areas or statewide.

6. The agency may enter into arrangements that require manufacturers of generic drugs prescribed to Medicaid recipients to provide rebates of at least 15.1 percent of the average manufacturer price for the manufacturer's generic products. These arrangements shall require that if a generic-drug manufacturer pays federal rebates for Medicaid-reimbursed drugs at a level below 15.1 percent, the manufacturer must provide a supplemental rebate to the state in an amount necessary to achieve a 15.1-percent rebate level.

7. The agency may establish a preferred drug list as described in this subsection, and, pursuant to the establishment of such preferred drug list, negotiate supplemental rebates from manufacturers that are in addition to those required by Title XIX of the Social Security Act and at no less than 14 percent of the average manufacturer price as defined in 42 U.S.C. s. 1936 on the last day of a quarter unless the federal or supplemental rebate, or both, equals or exceeds 29 percent. There is no upper

limit on the supplemental rebates the agency may negotiate. The agency may determine that specific products, brand-name or generic, are competitive at lower rebate percentages. Agreement to pay the minimum supplemental rebate percentage guarantees a manufacturer that the Medicaid Pharmaceutical and Therapeutics Committee will consider a product for inclusion on the preferred drug list. However, a pharmaceutical manufacturer is not guaranteed placement on the preferred drug list by simply paying the minimum supplemental rebate. Agency decisions will be made on the clinical efficacy of a drug and recommendations of the Medicaid Pharmaceutical and Therapeutics Committee, as well as the price of competing products minus federal and state rebates. The agency may contract with an outside agency or contractor to conduct negotiations for supplemental rebates. For the purposes of this section, the term "supplemental rebates" means cash rebates. Value-added programs as a substitution for supplemental rebates are prohibited. The agency may seek any federal waivers to implement this initiative.

8.a. ~~The agency shall expand home delivery of pharmacy products. The agency may amend the state plan and issue a procurement, as necessary, in order to implement this program. The procurements must include agreements with a pharmacy or pharmacies located in the state to provide mail order delivery services at no cost to the recipients who elect to receive home delivery of pharmacy products. The procurement must focus on serving recipients with chronic diseases for which pharmacy expenditures represent a significant portion of Medicaid pharmacy expenditures or which impact a significant portion of the Medicaid population. The agency may seek and implement any~~

~~federal waivers necessary to implement this subparagraph.~~

~~9. The agency shall limit to one dose per month any drug prescribed to treat erectile dysfunction.~~

~~10.a.~~ The agency may implement a Medicaid behavioral drug management system. The agency may contract with a vendor that has experience in operating behavioral drug management systems to implement this program. The agency may seek federal waivers to implement this program.

b. The agency, in conjunction with the Department of Children and Families, may implement the Medicaid behavioral drug management system that is designed to improve the quality of care and behavioral health prescribing practices based on best practice guidelines, improve patient adherence to medication plans, reduce clinical risk, and lower prescribed drug costs and the rate of inappropriate spending on Medicaid behavioral drugs. The program may include the following elements:

(I) Provide for the development and adoption of best practice guidelines for behavioral health-related drugs such as antipsychotics, antidepressants, and medications for treating bipolar disorders and other behavioral conditions; translate them into practice; review behavioral health prescribers and compare their prescribing patterns to a number of indicators that are based on national standards; and determine deviations from best practice guidelines.

(II) Implement processes for providing feedback to and educating prescribers using best practice educational materials and peer-to-peer consultation.

(III) Assess Medicaid beneficiaries who are outliers in

their use of behavioral health drugs with regard to the numbers and types of drugs taken, drug dosages, combination drug therapies, and other indicators of improper use of behavioral health drugs.

(IV) Alert prescribers to patients who fail to refill prescriptions in a timely fashion, are prescribed multiple same-class behavioral health drugs, and may have other potential medication problems.

(V) Track spending trends for behavioral health drugs and deviation from best practice guidelines.

(VI) Use educational and technological approaches to promote best practices, educate consumers, and train prescribers in the use of practice guidelines.

(VII) Disseminate electronic and published materials.

(VIII) Hold statewide and regional conferences.

(IX) Implement a disease management program with a model quality-based medication component for severely mentally ill individuals and emotionally disturbed children who are high users of care.

9.~~11.~~ The agency shall implement a Medicaid prescription drug management system.

a. The agency may contract with a vendor that has experience in operating prescription drug management systems in order to implement this system. Any management system that is implemented in accordance with this subparagraph must rely on cooperation between physicians and pharmacists to determine appropriate practice patterns and clinical guidelines to improve the prescribing, dispensing, and use of drugs in the Medicaid program. The agency may seek federal waivers to implement this

program.

b. The drug management system must be designed to improve the quality of care and prescribing practices based on best practice guidelines, improve patient adherence to medication plans, reduce clinical risk, and lower prescribed drug costs and the rate of inappropriate spending on Medicaid prescription drugs. The program must:

(I) Provide for the adoption of best practice guidelines for the prescribing and use of drugs in the Medicaid program, including translating best practice guidelines into practice; reviewing prescriber patterns and comparing them to indicators that are based on national standards and practice patterns of clinical peers in their community, statewide, and nationally; and determine deviations from best practice guidelines.

(II) Implement processes for providing feedback to and educating prescribers using best practice educational materials and peer-to-peer consultation.

(III) Assess Medicaid recipients who are outliers in their use of a single or multiple prescription drugs with regard to the numbers and types of drugs taken, drug dosages, combination drug therapies, and other indicators of improper use of prescription drugs.

(IV) Alert prescribers to recipients who fail to refill prescriptions in a timely fashion, are prescribed multiple drugs that may be redundant or contraindicated, or may have other potential medication problems.

10.~~12.~~ The agency may contract for drug rebate administration, including, but not limited to, calculating rebate amounts, invoicing manufacturers, negotiating disputes

with manufacturers, and maintaining a database of rebate collections.

11.~~13.~~ The agency may specify the preferred daily dosing form or strength for the purpose of promoting best practices with regard to the prescribing of certain drugs as specified in the General Appropriations Act and ensuring cost-effective prescribing practices.

12.~~14.~~ The agency may require prior authorization for Medicaid-covered prescribed drugs. The agency may prior-authorize the use of a product:

a. For an indication not approved in labeling;

b. To comply with certain clinical guidelines; or

c. If the product has the potential for overuse, misuse, or abuse.

The agency may require the prescribing professional to provide information about the rationale and supporting medical evidence for the use of a drug. The agency shall post prior authorization, step-edit criteria and protocol, and updates to the list of drugs that are subject to prior authorization on the agency's Internet website within 21 days after the prior authorization and step-edit criteria and protocol and updates are approved by the agency. For purposes of this subparagraph, the term "step-edit" means an automatic electronic review of certain medications subject to prior authorization.

13.~~15.~~ The agency, in conjunction with the Pharmaceutical and Therapeutics Committee, may require age-related prior authorizations for certain prescribed drugs. The agency may preauthorize the use of a drug for a recipient who may not meet

the age requirement or may exceed the length of therapy for use of this product as recommended by the manufacturer and approved by the Food and Drug Administration. Prior authorization may require the prescribing professional to provide information about the rationale and supporting medical evidence for the use of a drug.

14.~~16.~~ The agency shall implement a step-therapy prior authorization approval process for medications excluded from the preferred drug list. Medications listed on the preferred drug list must be used within the previous 12 months before the alternative medications that are not listed. The step-therapy prior authorization may require the prescriber to use the medications of a similar drug class or for a similar medical indication unless contraindicated in the Food and Drug Administration labeling. The trial period between the specified steps may vary according to the medical indication. The step-therapy approval process shall be developed in accordance with the committee as stated in s. 409.91195(7) and (8). A drug product may be approved without meeting the step-therapy prior authorization criteria if the prescribing physician provides the agency with additional written medical or clinical documentation that the product is medically necessary because:

a. There is not a drug on the preferred drug list to treat the disease or medical condition which is an acceptable clinical alternative;

b. The alternatives have been ineffective in the treatment of the beneficiary's disease; or

c. Based on historic evidence and known characteristics of the patient and the drug, the drug is likely to be ineffective,

or the number of doses have been ineffective.

The agency shall work with the physician to determine the best alternative for the patient. The agency may adopt rules waiving the requirements for written clinical documentation for specific drugs in limited clinical situations.

15.~~17.~~ The agency shall implement a return and reuse program for drugs dispensed by pharmacies to institutional recipients, which includes payment of a $5 restocking fee for the implementation and operation of the program. The return and reuse program shall be implemented electronically and in a manner that promotes efficiency. The program must permit a pharmacy to exclude drugs from the program if it is not practical or cost-effective for the drug to be included and must provide for the return to inventory of drugs that cannot be credited or returned in a cost-effective manner. The agency shall determine if the program has reduced the amount of Medicaid prescription drugs which are destroyed on an annual basis and if there are additional ways to ensure more prescription drugs are not destroyed which could safely be reused.

~~(c) The agency shall submit quarterly reports to the Governor, the President of the Senate, and the Speaker of the House of Representatives which must include, but need not be limited to, the progress made in implementing this subsection and its effect on Medicaid prescribed-drug expenditures.~~

Section 6. Section 409.91213, Florida Statutes, is repealed.

Section 7. Paragraph (d) of subsection (1) of section

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

409.913, Florida Statutes, is amended to read:

409.913 Oversight of the integrity of the Medicaid program.—The agency shall operate a program to oversee the activities of Florida Medicaid recipients, and providers and their representatives, to ensure that fraudulent and abusive behavior and neglect of recipients occur to the minimum extent possible, and to recover overpayments and impose sanctions as appropriate. Each January 15, the agency and the Medicaid Fraud Control Unit of the Department of Legal Affairs shall submit a report to the Legislature documenting the effectiveness of the state's efforts to control Medicaid fraud and abuse and to recover Medicaid overpayments during the previous fiscal year. The report must describe the number of cases opened and investigated each year; the sources of the cases opened; the disposition of the cases closed each year; the amount of overpayments alleged in preliminary and final audit letters; the number and amount of fines or penalties imposed; any reductions in overpayment amounts negotiated in settlement agreements or by other means; the amount of final agency determinations of overpayments; the amount deducted from federal claiming as a result of overpayments; the amount of overpayments recovered each year; the amount of cost of investigation recovered each year; the average length of time to collect from the time the case was opened until the overpayment is paid in full; the amount determined as uncollectible and the portion of the uncollectible amount subsequently reclaimed from the Federal Government; the number of providers, by type, that are terminated from participation in the Medicaid program as a result of fraud and abuse; and all costs associated with

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

discovering and prosecuting cases of Medicaid overpayments and making recoveries in such cases. The report must also document actions taken to prevent overpayments and the number of providers prevented from enrolling in or reenrolling in the Medicaid program as a result of documented Medicaid fraud and abuse and must include policy recommendations necessary to prevent or recover overpayments and changes necessary to prevent and detect Medicaid fraud. All policy recommendations in the report must include a detailed fiscal analysis, including, but not limited to, implementation costs, estimated savings to the Medicaid program, and the return on investment. The agency must submit the policy recommendations and fiscal analyses in the report to the appropriate estimating conference, pursuant to s. 216.137, by February 15 of each year. The agency and the Medicaid Fraud Control Unit of the Department of Legal Affairs each must include detailed unit-specific performance standards, benchmarks, and metrics in the report, including projected cost savings to the state Medicaid program during the following fiscal year.

(1) For the purposes of this section, the term:

(d) "Medical necessity" or "medically necessary" means any goods or services necessary to palliate the effects of a terminal condition, or to prevent, diagnose, correct, cure, alleviate, or preclude deterioration of a condition that threatens life, causes pain or suffering, or results in illness or infirmity, which goods or services are provided in accordance with generally accepted standards of medical practice. For purposes of determining Medicaid reimbursement, the agency is the final arbiter of medical necessity. Determinations of

medical necessity must be made by a licensed physician employed by or under contract with the agency, except for behavior analysis services, which may be determined by a licensed physician or a doctoral-level board-certified behavior analyst. Determinations ~~and~~ must be based upon information available at the time the goods or services are requested ~~provided~~.

Section 8. Section 765.53, Florida Statutes, is repealed.

Section 9. This act shall take effect July 1, 2021.

Committee Agenda Request

To: Senator Kelli Stargel, Chair
Committee on Appropriations

Subject: Committee Agenda Request

Date: April 6, 2021

I respectfully request that **Senate Bill #1292**, relating to Medicaid, be placed on the:

☐ committee agenda at your earliest possible convenience.

☒ next committee agenda.

Senator Aaron Bean
Florida Senate, District 4

File signed original with committee office

S-020 (03/2004)

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1344
INTRODUCER:	Appropriations Committee; Criminal Justice Committee; and Senator Burgess
SUBJECT:	Protection of Elderly Persons and Disabled Adults
DATE:	April 21, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Delia	Cox	CF	**Favorable**
2.	Siples	Jones	CJ	**Fav/CS**
3.	Dale	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1344 expands the jurisdiction of the Office of Statewide Prosecution (OSP) within the Florida Office of the Attorney General (OAG) to include specified authority over crimes against elderly persons and disabled adults as outlined in ch. 825, F.S.

The bill also provides additional methods of proving abuse and exploitation of an elderly person or disabled adult by criminalizing the intentional isolation of vulnerable adults from family members for a length of time which could reasonably lead to physical or psychological injury to the elderly person, or with the intent to effect, conceal, or disguise criminal activity involving the elderly person or disabled adult or their property.

The bill criminalizes the previously uncharged conduct of an exploiter who fraudulently creates or changes the terms of the will or trust of a vulnerable adult in order to benefit the exploiter or a co-conspirator. The bill forfeits inheritances under a will, through a trust, through joint tenancy or contractual arrangements for a person convicted of abuse, neglect, exploitation, or aggravated manslaughter. In the absence of a conviction, the bill affects disinheritance if a court finds, by the greater weight of the evidence that an individual caused or contributed to the death of the decedent. The bill also expands who may file an injunction for protection for exploitation of a vulnerable adult and extends the time of a temporary injunction to up to 45 days.

The OAG anticipates that the bill will have a positive fiscal impact on state government by consolidating the investigation and prosecution of multi-circuit criminal activity related to crimes

of elder abuse and exploitation, alleviating some of the burden on local law enforcement and prosecution. The Office of Economic and Demographic Research preliminarily estimates that the bill will have a "positive indeterminate" prison bed impact (an unquantifiable increase in prison beds). See Section V. Fiscal Impact Statement.

The bill is effective July 1, 2021.

II. Present Situation:

Refer to Section III. Effect of Proposed Changes for discussion of the relevant portions of current law.

III. Effect of Proposed Changes:

Elder Population

As the country's "baby-boomer" population reaches retirement age and life expectancy increases, the nation's elder population is projected to increase from 49.2 million in 2016[1] to 77 million by 2034.[2] Florida has long been a destination state for senior citizens and has the highest percentage of senior residents in the entire nation.[3] In 2019, individuals age 65 and older represented approximately 20.9 percent of Florida's total population.[4] By 2030, this number is projected to increase to 5.9 million, meaning the elderly will make up approximately one quarter of the state's population and it is estimated that individuals age 65 and older will account for approximately 47.9 percent of the state's population growth between 2010 and 2030.[5]

Vulnerable Adults and Elderly Residents

In 2016, 35.2 percent of individuals nationwide 65 years of age or older were reported to have a disability.[6] Moreover, 19 percent of Florida elders surveyed in a 2016 study conducted by the

Department of Elder Affairs (DOEA) indicated that they required assistance with activities of daily living, such as walking, bathing, and dressing.[7]

Elder populations are vulnerable to abuse and exploitation due to risk factors associated with aging, such as physical and mental infirmities and social isolation.[8] In Florida, almost 1.3 million senior citizens live in medically underserved areas and 1.4 million suffer from one or more disabilities.[9] According to the U.S. Department of Justice, approximately 1 in 10 seniors is abused each year in the United States, though incidents of elder abuse are reported to local authorities in 1 out of every 24 cases.[10] Elder abuse can have significant physical and emotional effects on an older adult and can lead to premature death.[11] Abused seniors are twice as likely to be hospitalized and three times more likely to die than non-abused seniors.[12]

Elder abuse occurs in community settings, such as private homes, as well as in institutional settings like nursing homes and other long-term care facilities. Prevalent forms of abuse are financial exploitation, neglect, emotional or psychological abuse, and physical abuse; however, an elder abuse victim will often experience multiple forms of abuse at the same time.[13] The most common perpetrators of elder abuse are relatives, such as adult children or a spouse, followed by friends and neighbors, and then home care aides.[14] Research shows that elder abuse is underreported, often because the victims fear retribution or care for or trust their perpetrators.[15] Elder abuse deaths are more likely to go undetected because an elder death is expected to occur, given age or infirmity, more so than other deaths due to abuse such as a child death or a death

involving domestic violence.[16] Experts believe this may be one of the reasons elder abuse lags behind child abuse and domestic violence in research, awareness, and systemic change.[17]

Vulnerable adults residing in nursing homes, assisted living facilities, and adult family care homes are particularly vulnerable to financial exploitation due to the risk of discharge or eviction because of the inability to pay for necessary care and services.[18] Under state and federal law, a nursing home may discharge or transfer a resident with 30 days written notice if the resident has failed to pay a bill for care, after reasonable and appropriate notice for residence at the facility.[19] Assisted living facilities and adult family care homes can relocate or terminate the residency of a vulnerable adult with 45 days' notice or 30 days' notice, respectively.[20]

Adult Protective Services Act

In 1977, the Legislature enacted the "Adult Protective Services Act" (APSA), ch. 415, F.S., authorizing the Department of Children and Families (DCF) to investigate reports of abuse, neglect, or exploitation of a vulnerable adult. An assessment of an individual's need for protective services is initiated upon a report of alleged abuse, neglect, or exploitation.[21]

The APSA defines a "vulnerable adult" as a person 18 years of age or older whose ability to perform the normal activities of daily living, or whose ability to provide for his or her own care or protection, is impaired due to a mental, emotional, sensory, long-term physical, developmental disability or dysfunction, brain damage, or the infirmities of aging.[22] Under the APSA, abuse, neglect, or exploitation constitutes the following conduct:

- **Abuse**: Any willful act or threatened act by a relative, caregiver,[23] or household member which causes or is likely to cause significant impairment to a vulnerable adult's physical, mental, or emotional health.[24]
- **Neglect**: The failure or omission on the part of the caregiver or vulnerable adult to provide the care, supervision, and services necessary to maintain the physical and mental health of the vulnerable adult, including, but not limited to, food, clothing, medicine, shelter, supervision, and medical services, which a prudent person would consider essential for the well-being of a vulnerable adult. "Neglect" also means the failure of a caregiver or

[21] Section 415.104, F.S.
[22] Section 415.102(28), F.S.
[23] Section 415.102(5), F.S. defines "caregiver" to mean "a person who has been entrusted with or has assumed the responsibility for frequent and regular care of or services to a vulnerable adult on a temporary or permanent basis and who has a commitment, agreement, or understanding with that person or that person's guardian that a caregiver role exists." "Caregiver" includes, but is not limited to, relatives, household members, guardians, neighbors, and employees and volunteers of facilities.
[24] Section 415.102(1), F.S.

vulnerable adult to make a reasonable effort to protect a vulnerable adult from abuse, neglect, or exploitation by others.[25]

- **Exploitation**: Knowingly, by deception or intimidation, obtains or uses, or endeavors to obtain or use, a vulnerable adult's funds, assets, or property with the intent to temporarily or permanently deprive a vulnerable adult of the use, benefit, or possession of the funds, assets, or property for the benefit of someone other than the vulnerable adult by a person who stands in a position of trust and confidence with a vulnerable adult or by a person who knows or should know that the vulnerable adult lacks the capacity to consent. Exploitation may include breaches of fiduciary relationships, unauthorized taking of personal assets; misappropriation, misuse, or transfer of moneys belonging to a vulnerable adult from a personal or joint account; or intentional or negligent failure to effectively use a vulnerable adult's income and assets for the necessities required for that person's support and maintenance.[26]

Criminal Penalties under ch. 825, F.S.

Current law provides criminal penalties for the abuse, neglect, and exploitation of elderly and disabled adults.[27] Under s. 825.103, F.S., a person is guilty of the "exploitation of an elderly person or disabled adult" when he or she:

- Stands in a position of trust and confidence, or has a business relationship, with an elderly person or a disabled adult and knowingly obtains or uses, or endeavors to obtain or use, the elderly person's or disabled adult's funds, assets, or property with the intent to temporarily or permanently deprive that person of the use, benefit, or possession of the funds, assets, or property, or to benefit someone other than the elderly person or disabled adult;[28]
- Obtains or uses, endeavors to obtain or use, or conspires with another to obtain or use an elderly person's or disabled adult's funds, assets, or property with the intent to temporarily or permanently deprive the elderly person or disabled adult of the use, benefit, or possession of the funds, assets, or property, or to benefit someone other than the elderly person or disabled adult, and he or she knows or reasonably should know that the elderly person or disabled adult lacks the capacity to consent;[29]
- Breaches a fiduciary duty to the elderly person or disabled adult while acting as the person's guardian, trustee, or agent under a power of attorney, and such breach results in an unauthorized appropriation, sale, or transfer of property;[30]
- Misappropriates, misuses, or transfers without authorization money belonging to an elderly person or disabled adult from an account in which the elderly person or disabled adult placed the funds, owned the funds, and was the sole contributor or payee of the funds before the misappropriation, misuse, or unauthorized transfer;[31] or
- Intentionally or negligently fails to effectively use an elderly person's or disabled adult's income and assets for the necessities required for that person's support and maintenance

[25] Section 415.102(16), F.S.
[26] Section 415.102(8), F.S.
[27] Sections 825.101-825.106, F.S.
[28] Section 825.103(1)(a), F.S.
[29] Section 825.103(1)(b), F.S.
[30] Section 825.103(1)(c), F.S.
[31] Section 825.103(1)(d), F.S.

while acting as a caregiver or standing in a position of trust and confidence with the elderly person or disabled adult.[32]

The term "lacks capacity to consent" means an impairment by reason of mental illness, developmental disability, organic brain disorder, physical illness or disability, chronic use of drugs, chronic intoxication, short-term memory loss, or other cause, causing an elderly person or disabled adult to lack sufficient understanding or capacity to make or communicate reasonable decisions concerning their person or property.[33]

An offender commits a first-degree felony[34] if the funds, assets, or property involved in the exploitation of the elderly person or disabled adult is valued at $50,000 or more.[35] An offender commits a second-degree felony[36] if the funds, assets, or property involved in the exploitation of the elderly person or disabled adult is valued between $10,000 and $50,000.[37] An offender commits a third-degree felony[38] if the funds, assets, or property involved in the exploitation of an elderly person or disabled adult is valued at less than $10,000.[39]

The court is required to hold an evidentiary hearing when a person is charged with financial exploitation of an elderly person or disabled adult involving the taking of or loss of property valued at more than $5,000 and property belonging to a victim is seized from the defendant pursuant to a search warrant. The court then determines, by a preponderance of the evidence, whether the defendant unlawfully obtained the victim's property. The court may order it returned to the victim for restitution purposes before trial if the court finds that the property was unlawfully obtained.[40]

Fiduciary Relationships, and Kickbacks, Improper Benefits

Current law does not address instances where the fiduciary is either employed by, or has some pecuniary relationship with, a third party involved in the care or provision of services to the elderly person or disabled adult.[41] A relationship between the fiduciary and third-party provider may not always lead to an identifiable financial loss by an elderly person or disabled adult; however, this relationship creates a conflict of interest and breach of fiduciary duty.[42]

Current law also does not specifically address cases where a perpetrator seeks a designation as a specified fiduciary with the intent to benefit someone other than the elderly person or disabled

[42] The OAG White Paper at pp. 2-3.

adult.[43] The absence of a specific prohibition on such conduct creates a potential gap for prosecution and enforcement when a perpetrator seeks out appointment as a guardian, trustee, or agent under power of attorney with the intention and design of obtaining control over the victim's assets and person for the benefit of the perpetrator or a third party.[44] Current law also criminalizes conduct which results in a taking or other specified harm while the elderly person or disabled adult victim is alive, but does not specifically prohibit conduct by a perpetrator who intentionally alters a victim's will, trust, or other testamentary devise.[45]

Isolation

The Florida Office of Attorney General (OAG) states that in many instances of abuse, neglect, and exploitation, the perpetrator will first isolate the elderly person or disabled adult victim from family and friends who might otherwise intervene or object to the perpetrator's involvement on the victim's behalf.[46] Isolation is particularly problematic with victims who either lack the mental capacity to fully comprehend or react to the isolation, or with victims who depend upon the perpetrator for their physical care and wellbeing.[47] The perpetrator is often a family member or other individual trusted by the victim in such cases, and will use social isolation to achieve their efforts and exert a level of control and influence over the victim unrelated to, or disproportionally related to, effective caregiving, with the intent of concealing underlying criminal conduct, which may include, but is not limited to; abuse, neglect, or exploitation.[48]

In cases beginning with intentional social isolation, the resulting injury or harm to the victim often could have been avoided with earlier intervention by law enforcement.[49] If ch. 825, F.S., specifically prohibited acts of unreasonable isolation of an elderly or disabled adult from family, irreversible harm to the victim may be avoided.[50]

Effect of the Bill

Definitions

The bill amends s. 825.101, F.S., adding definitions for the terms, 'improper benefit' and 'kickback.' These terms will apply to ch. 825, F.S.

The bill defines "improper benefit" to mean "any remuneration or payment, by or on behalf of any service provider or merchant of goods, to any person as an incentive or inducement to refer customers or patrons for past or future services or goods." The bill defines "kickback" to have the same meaning as s. 456.054(1), F.S., which means "a remuneration or payment, by or on behalf of a provider of health care services or items, to any person as an incentive or inducement to refer patients for past or future services or items, when the payment is not tax deductible as an ordinary and necessary expense."

[48] *Id*.
[49] *Id*.
[50] *Id*.

Abuse of an Elderly Person or Disabled Adult

The bill amends s. 825.102, F.S., expanding the definition of "abuse of an elderly person or disabled adult" to include "intentionally, and without lawful authority, isolating or restricting access of an elderly person or a disabled adult to family members for any length of time which could reasonably be expected to result in physical or psychological injury to the elderly person or disabled adult, or with the intent to promote, facilitate, conceal, or disguise some form of criminal activity involving the person or property of the elderly person or disabled adult." The effect of this provision is that a person who commits abuse of an elderly person or disabled adult in the newly defined manner will be subject to the criminal penalties mentioned above.

The bill adds that a reasonable cause to believe that a defendant's action was necessary to protect the elderly person or disabled adult from danger constitutes a valid defense to a potential abuse violation under s. 825.102, F.S.

Exploitation of an Elderly Person or Disabled Adult

The bill amends s. 825.103, F.S., adding to the current definition of "exploitation of an elderly person or disabled adult." Specifically, the bill provides that a breach of a fiduciary duty to an elderly person or disabled adult by their guardian, trustee, or agent under power of attorney that results in a "kickback" or "receipt of improper benefits" constitutes the offense of exploitation (in addition to prohibited breaches of fiduciary duty under current law, which include actions resulting in an unauthorized appropriation, sale, or transfer of property). Where the fiduciary owing a duty to an elderly person or disabled adult is also an agent of such a person appointed under ch. 709, F.S.[51] or a guardian or trustee appointed under chs. 736 and 744, F.S., respectively, the bill adds that obtaining appointments with the purpose and design of benefiting someone other than the principal or beneficiary is considered an unauthorized appropriation and therefore constitutes the offense of exploitation.

The bill also adds financial exploitation of an elderly person or disabled adult to the current definition. Any person who knowingly obtains or uses, endeavors to obtain or use, or conspires with another to obtain or use the funds, assets, property, or the estate of an elderly person or disabled adult through the intentional modification, alteration, or fraudulent creation of a planned distribution or disbursement in a will, trust, or other testamentary document commits exploitation under the bill unless they have first obtained any of the following:

- A court order authorizing the modification;
- A written instrument authored by the elderly person or disabled adult, sworn to by the elderly person or disabled adult with two witnesses, authorizing the change; or
- The action of an agent under a valid power of attorney authorized by the elderly person or disabled adult permitting the change.

Florida Office of the Attorney General

The Florida Attorney General (AG) is recognized as the chief legal officer of the state and, absent express legislative restriction, may exercise such power and authority as the public

[51] Chapter 709, F.S., relates to power of attorney and similar instruments.

interest may require.[52] As chief legal officer of the state, the AG must be noticed in certain proceedings under Florida law and may bring actions on behalf of citizens of the state as provided for by law.[53]

The Office of Statewide Prosecution

The Florida Constitution gives the Office of Statewide Prosecution (OSP) concurrent jurisdiction with the state attorneys to prosecute violations of criminal laws that occur in two or more judicial circuits, or when any such offense is affecting or has affected two or more judicial circuits as provided by general law.[54] The Statewide Prosecutor is appointed by the AG and serves a term of four years.[55] The OSP is authorized to investigate and prosecute a number of statutorily enumerated offenses.[56]

Effect of the Bill

The bill amends s. 16.56, F.S., broadening the investigative and prosecutorial authority of the OSP to cover criminal offenses enumerated in ch. 825, F.S. Specifically, this change would result in the following offenses being under the OSP:

- Abuse, aggravated abuse, and neglect of an elderly person or disabled adult;
- Lewd or lascivious offenses committed upon or in the presence of an elderly person or disabled person, including;
  - Lewd or lascivious battery upon an elderly or disabled person;
  - Lewd or lascivious molestation of an elderly or disabled person; and
  - Lewd or lascivious exhibition in the presence of an elderly or disabled person;
- Exploitation of an elderly person or disabled adult; and
- Violation of an injunction for protection against exploitation of a vulnerable adult.

The other jurisdictional requirements must be met for OSP to investigate or prosecute one of these offenses.

Elder Exploitation Injunctions

In 2018, the Legislature created a cause of action for an injunction prohibiting exploitation of a vulnerable adult.[57] Section 825.1035, F.S., specifies who may file for an injunction, including:

- A vulnerable adult in imminent danger of being exploited;
- The guardian of a vulnerable adult in imminent danger of being exploited;
- A person or organization acting on behalf of the vulnerable adult with the consent of the vulnerable adult or his or her guardian; or

[56] *See* s. 16.56(1)(a), F.S., for a list of criminal offenses investigated and prosecuted by the OSP.
[57] Chapter 2018-100, L.O.F.; codified in s. 825.1035, F.S.

- A person who simultaneously files a petition for determination of incapacity and appointment of an emergency temporary guardian with respect to the vulnerable adult.[58]

Current law also:
- Identifies proper venue and details procedural framework for the parties and court;
- Requires the clerk of the circuit court to perform specific duties and limits the amount of the fee for filing a petition;
- Provides a sworn petition form for parties filing an injunction;
- Allows the court to grant a temporary injunction under certain circumstances;
- Provides direction for effecting service of process;
- Lists standards for the court to follow when issuing an injunction;
- Identifies forms of relief the court may grant to a vulnerable adult in issuing an injunction, including temporary and exclusive use of a shared residence and freezing the assets and credit lines of the vulnerable adult and those of an individual accused of exploiting the vulnerable adult;
- Permits the court to order payment of specified living expenses when the vulnerable adult's assets are frozen;
- Requires the sheriff or a law enforcement agency to assist the court and clerks of court with specific tasks in issuing and executing an injunction;
- Provides criminal penalties for violating an injunction and authorizes law enforcement to arrest an individual who has violated the terms of an injunction; and
- Limits the liability of financial institutions for freezing assets or credit lines.[59]

The court may issue a temporary injunction ex parte, prior to the hearing on the petition, which grants relief as the court deems proper if the court finds:
- An immediate and present danger of exploitation of the vulnerable adult exists;
- There is a likelihood of irreparable harm and nonavailability of an adequate remedy at law;
- There is a substantial likelihood of success on the merits;
- The threatened injury to the vulnerable adult outweighs possible harm to the respondent;
- Granting a temporary injunction will not disserve the public interest; and
- Such injunction provides for the vulnerable adult's physical or financial safety.[60]

The relief granted by the court may include, but is not limited to:
- Restraining the respondent from committing any acts of exploitation against the vulnerable adult;
- Awarding to the vulnerable adult the temporary exclusive use and possession of the dwelling shared by the vulnerable adult and the respondent, or barring the respondent from the residence of the vulnerable adult; and
- Freezing any assets of the vulnerable adult in any depository or financial institution whether titled solely in the vulnerable adult's name, solely in the respondent's name, jointly with the respondent, in guardianship, in trust, or in a Totten trust under certain circumstances.[61]

[58] Section 825.1035(2)(a)1.-4., F.S.
[59] *See* s. 825.1035, F.S.
[60] Section 825.1035(5)(a), F.S.
[61] *Id*.

An ex parte temporary injunction may not exceed 15 days, and a hearing on the petition for the injunction must be set for a date no later than the last day the temporary injunction is effective.[62] The court may grant a continuance for the hearing, for good cause shown. However, the ex parte injunction is not be extended beyond the initial 15 days as a result of the continuance.[63]

Petition for Injunction for the Protection of a Vulnerable Adult

A sworn petition must be filed alleging exploitation, or imminent exploitation, of a vulnerable adult, containing the following information:

- The last known residence of both the vulnerable adult and the respondent;
- The respondent's last known employer, a physical description of the respondent, and any aliases they are known to have;
- The manner in which the respondent is associated with the vulnerable adult and any previous or pending legal actions between the respondent and the vulnerable adult;
- The petitioner's knowledge of any reports made to a state agency regarding exploitation, abuse, or neglect of the vulnerable adult;
- The reasons the petitioner claims to genuinely fear an imminent danger of exploitation, or any facts the petitioner believes show the respondent has already committed exploitation;
- The petitioner's knowledge of reasons why the adult depends on the respondent for care, any alternative provisions for care not involving the respondent, resources allowing the adult to access such provisions, and the willingness of the adult to access such provisions;
- Financial institutions where the petitioner knows the adult maintains assets, accounts, or lines of credit;
- Whether the estimated value of the adult's assets is below $1500, between $1500 and $5000, or greater than $5000;
- Attestation that the petitioner genuinely fears imminent exploitation of the vulnerable adult by the respondent; and
- Remedies sought through the injunction, which may include:
    - Prohibiting any direct or indirect contact between the respondent and the vulnerable adult;
    - Immediately restraining the respondent from committing any acts of exploitation;
    - Freezing specified assets of the vulnerable adult, whether solely in the adult's name, jointly named with the respondent, or solely in the respondent's name; and
    - Providing any other conditions the court feels necessary to protect the vulnerable adult or their assets.[64]

Effect of the Bill

The bill amends s. 825.1035, F.S., adding authorized agents acting under a durable power of attorney to the list of individuals authorized to petition for an injunction for protection against exploitation of a vulnerable adult.

[62] Section 825.1035(5)(d), F.S.
[63] *Id*.
[64] Section 825.1035(3)(a)1.-14., F.S.

The bill also specifies new informational fields for the petition for protective injunction against exploitation of a vulnerable adult. Specifically, the bill requires the following to be included in a petition for injunction under s. 825.1035, F.S.:

- The petitioner's name;
- The petitioner's address;
- The petitioner's relationship to the vulnerable adult;
- The length of time the petitioner has known the vulnerable adult;
- The vulnerable adult's name and aliases;
- The vulnerable adult's date of birth; and
- Any known impairments affecting either the vulnerable adult's normal activities of daily living or ability to provide for their own care or protection, specifically any of the following:
  - Long-term physical disabilities;
  - Sensory disabilities, such as hearing or vision impairments;
  - Cognitive disabilities;
  - Mental or emotional disabilities;
  - Developmental disabilities;
  - Infirmities of aging; or
  - Any other known impairments.

The bill also allows courts to extend an ex parte temporary injunction from a maximum of 15 days to up to 30 days beyond the initial injunction period (for a total of 45 days) if good cause for an extension is shown. Only one such extension is permitted under the bill. The bill also repeals the authority of the court to grant a continuance of the hearing on the petition for injunction against exploitation of a vulnerable adult.

Probate Process in Florida

Probate is a court-supervised process for identifying and gathering the assets of a deceased person (decedent), paying the decedent's debts, and distributing the decedent's assets to his or her beneficiaries.[65] Probate proceedings are governed by The Florida Probate Code, found in chs. 731–735, F.S., and the Florida Probate Rules of court.[66] The probate process ensures that the decedent's debts are paid in an orderly fashion and that the rightful beneficiaries, whether determined according to a will or by default rules of succession, receive the property to which they are entitled.[67]

Assets subject to probate are those that were owned in the decedent's sole name at death or that were owned by the decedent and one or more co-owners but lacked a provision for automatic succession of ownership at death.[68] The following are examples to illustrate common probate and non-probate assets:

[65] The Florida Bar, *Consumer Pamphlet: Probate in Florida*, available at https://www.floridabar.org/public/consumer/pamphlet026/ (last visitedApril 20, 2021) (hereinafter cited as "Consumer Pamphlet 1").
[66] The Florida Bar, *The Florida Probate Rules*, available at https://www-media.floridabar.org/uploads/2020/01/Probate-Rules-01-01-20.pdf (last visitedApril 20, 2021).
[67] Consumer Pamphlet 1.
[68] Consumer Pamphlet 1.

- A bank account or investment account in the sole name of a decedent is a probate asset; but a bank account or investment account owned by the decedent and payable on death or transferable on death to another, or held jointly with rights of survivorship with another, is not a probate asset.
- A life insurance policy, annuity contract or individual retirement account that is payable to a specific beneficiary is not a probate asset; but a life insurance policy, annuity contract, or individual retirement account payable to the decedent's estate is a probate asset.
- Real estate titled in the sole name of the decedent, or in the name of the decedent and another person as tenants in common, is a probate asset (unless it is homestead property); but real estate titled in the name of the decedent and one or more other persons as joint tenants with rights of survivorship is not a probate asset.
- Property owned by spouses as tenants by the entirety is not a probate asset on the death of the first spouse to die; it goes automatically to the surviving spouse.[69]

Qualified Personal Representatives in Probate Cases

A personal representative is a person or business entity appointed by a circuit court to administer a decedent's estate.[70] If an individual serves as a personal representative, he or she must be at least 18 years old, have full capacity, and be a resident of Florida[71] at the time of the death of the person whose estate he or she is administering.[72] A person is not qualified to serve as a personal representative if he or she is under 18 years of age, has been convicted of a felony, or is mentally or physically unable to perform the duties of a personal representative.[73]

Slayer Statutes

All states have enacted "slayer rules" which effectively bar a person who causes a killing from inheriting property from their victims.[74] While the specific criteria and applicability of slayer statutes vary by jurisdiction, these laws are uniformly predicated on the idea that those responsible for a killing should not benefit from their wrongful acts.[75]

Eight states have expanded their slayer rules to include disqualification of persons from inheriting if they have engaged in the abuse or financial exploitation of a decedent.[76] Six of the eight states with such laws require a criminal conviction in order to disinherit an individual responsible for abuse or exploitation.[77] Moreover, three of the eight states provide for

---

[69] *Id*.
[70] *Id*.
[71] A non-resident of the state may qualify if he or she is a legally adopted child or adoptive parent of the decedent, related by lineal consanguinity, one of certain enumerated relatives of the decedent, or the spouse of a person otherwise qualified to be the personal representative. [75] *Id*.
[76] *Id*.
[77] Travis Hunt, *Disincentivizing Elder Abuse Through Disinheritance: Revamping California Probate Code s. 259 and Using It as a Model*, 2014 BYU L. Rev. 445 at p. 446 (2014), available at https://digitalcommons.law.byu.edu/cgi/viewcontent.cgi?article=2922&context=lawreview (last visited April 20, 2021).

disinheritance only when financial elder abuse occurs.[78] California's slayer rule does not require a criminal conviction to effect disinheritance, and it covers physical abuse, neglect, false imprisonment, or financial abuse of an elder or a dependent adult.[79]

Florida's Slayer Rule - Probate

Current law provides that a surviving person who unlawfully and intentionally kills or participates in procuring the death of a decedent is not entitled to any benefits under a will or through intestacy under the Florida Probate Code.[80] In such instances, the estate of the decedent passes as if the killer had predeceased the decedent.[81] A joint tenant who unlawfully and intentionally kills another joint tenant thereby effects a severance of the interest of the decedent so that the share of the decedent passes as the decedent's property and the killer has no rights by survivorship.[82] This also applies to tenancies with right of survivorship and tenancies by the entirety in real and personal property; joint and multiple-party accounts in banks, savings and loan associations, credit unions, and other institutions; and any other form of co-ownership with survivorship incidents.[83]

A named beneficiary of a bond, life insurance policy, or other contractual arrangements who unlawfully and intentionally kills the principal obligee or the person upon whose life the policy is issued is not entitled to any benefit under the bond, policy, or other contractual arrangement, and the bond or policy becomes payable as though the killer had predeceased the decedent.[84] A final judgment of conviction of murder of any degree is conclusive.[85] In the absence of a conviction of murder, the court may determine by the greater weight of the evidence whether the killing of the decedent was unlawful and intentional.[86]

Effect of the Bill

The bill amends s. 733.303, F.S., prohibiting an individual convicted in any state or other jurisdiction of abuse, neglect, or exploitation of an elderly person or disabled adult from serving as a personal representative in probate matters.

The bill creates s. 732.8031, F.S., which expands Florida's slayer rule under the Florida Probate Code by prohibiting the following persons convicted in any state or foreign jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or disabled adult from inheriting assets from a decedent, or other person whose death was necessary for passage of the perpetrator's interest, who was the victim of the disqualifying offense:

- A surviving person whose beneficiary interest depends on the death of the victim.
- A joint tenant with a right of survivorship and a tenant by the entirety in real and personal property, a joint and multiple-party accountholder in a bank, savings and loan association,

[78] *Id*.
[79] Cal. Prob. Code s. 259.
[80] *See* s. 732.802, F.S.; the Florida Probate Code is contained in chs. 731-735, F.S.
[81] Section 732.802(1), F.S.
[82] Section 732.802(2), F.S.
[83] *Id*.

[85] Section 732.802(5), F.S.
[86] *Id*.

credit union, and any other financial institution, and any other form of coownership with survivorship interests whose survivorship interest depends on the death of the victim.
- A named beneficiary of a bond, life insurance policy, or other contractual arrangement where the victim is the owner or principal obligee of the bond, life insurance policy, or other contractual arrangement or the person upon whose life such policy was issued.

Under the bill, assets in the will of the decedent which would otherwise pass to the perpetrator of the crime pass instead as if the perpetrator had predeceased the victim.

The bill creates a rebuttable presumption that disinheritance will apply where there is a final judgment of conviction for any of the aforementioned offenses. Absent a conviction, the bill allows a court to determine by the greater weight of the evidence whether the actions of the alleged perpetrator contributed to the death of the elderly person, disabled adult, or other person whose death is necessary for passage of the probate assets to the perpetrator.

The bill provides that the rights of any person who, before rights under this section of the bill are adjudicated, purchases from the abuser, neglector, exploiter, or killer for value and without notice property that the perpetrator would have acquired except for this section of the bill. The perpetrator is held liable for the amount of the proceeds or the value of the property owed to such a purchaser.

Any insurance company, bank, or other obligor making payment according to the terms of its policy or obligation is not liable unless, more than 2 business days before payment, it receives at its home office or principal address written notice of a claim under this section of the bill.

Any property or interest acquired by the abuser, neglector, exploiter, or killer, as a result of their respective offense against the decedent must be returned to the victim under the bill.

This section of the bill does not apply if it can be proven by clear and convincing evidence that after the conviction of abuse, neglect, or exploitation, the victim of the offense, if capacitated, executes a written instrument, sworn to and witnessed by two persons who would be competent as witnesses to a will, which expresses a specific intent to allow the person so convicted of abuse, neglect, or exploitation to retain his or her inheritance, survivorship rights, or any other right that would otherwise be removed.

The Florida Trust Code

The revocable, or "living," trust is often promoted as a means of avoiding probate and saving taxes at death and is governed by ch. 736, F.S.,[87] referred to as the "Florida Trust Code" (Code). The term "terms of a trust" is defined to mean the manifestation of the settlor's intent regarding a trust's provisions as expressed in the trust instrument or as may be established by other evidence that would be admissible in a judicial proceeding.[88] Under the Code, "settlor" is defined as a

[87] The Florida Bar, *Consumer Pamphlet: The Revocable Trust in Florida*, available at https://www.floridabar.org/public/consumer/pamphlet028/#WHAT%20IS%20A%20REVOCABLE%20TRUST%3F (last visited April 20, 2021) (hereinafter cited as, "Consumer Pamphlet 2").
[88] Section 736.0103(21), F.S.

person who creates or contributes property to a trust.[89] A "beneficiary" of the trust is a person who has a present or future beneficial interest in the trust.[90] The person responsible for the management of the trust assets is the "trustee."[91]

Except as otherwise provided in the terms of the trust, the Code governs the duties and powers of a trustee, relations among trustees, and the rights and interests any beneficiaries. The terms of a trust prevail over any provision of the Code, except as provided in s. 736.0105(2), F.S. In all, the Code currently provides 23 terms that are solely governed by the Code and cannot be changed, waived, or otherwise altered by the terms of the trust.[92]

Florida's Slayer Rule - Trusts

Under s. 736.1104, F.S., a beneficiary who unlawfully and intentionally kills or participates in procuring the death of the settlor or another person on whose death such beneficiary's interest depends is precluded from taking that interest. Instead, the interest devolves as if the slayer predeceased the victim. This rule is triggered by a civil evidentiary standard (the greater weight of the evidence) although a final judgment of murder in any degree is conclusive.[93]

Effect of the Bill

The bill amends s. 736.1104, F.S., similarly expanding Florida's slayer rule under the Florida Trust Code by prohibiting a beneficiary of a trust convicted in any state or foreign jurisdiction of abuse, neglect, or exploitation, or aggravated manslaughter of an elderly person or disabled adult, from receiving trust benefits when the victim is the settlor of a trust, or another person on whose death such beneficiary's interest depends from inheriting trust interests, including a homestead dependent on the victim's death.

Under the bill, trust interests which would otherwise pass to the perpetrator of the crime pass instead as if the perpetrator had predeceased the victim.

The bill creates a rebuttable presumption that the trust interest is extinguished where there is a final judgment of conviction against the individual holding the interest for any of the aforementioned offenses. Absent a conviction, the bill allows a court to determine by the greater weight of the evidence whether the actions of the alleged perpetrator contributed to the death of the elderly person, disabled adult, or other person whose death is necessary for passage of the trust interest to the perpetrator.

This section of the bill does not apply if can be proven by clear and convincing evidence that after the conviction of abuse, neglect, or exploitation, the victim of the offense, if capacitated, executes a written instrument, sworn to and witnessed by two persons who would be competent as witnesses to a will, which expresses a specific intent to allow the person so convicted of abuse, neglect, or exploitation to retain a trust interest.

[92] *See* s. 736.0105(2)(a)-(w), F.S.
[93] Section 736.1104(2), F.S.

Effective Date

The bill is effective July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The bill does not appear to require cities and counties to expend funds or limit their authority to raise revenue or receive state-shared revenues as specified by Article VII, s. 18, of the State Constitution.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The OAG estimates that expanding the OSP's authority in s. 16.56, F.S., to investigate and prosecute qualifying cases under ch. 825, F.S., would alleviate some of the financial burden on local law enforcement and prosecution, while consolidating the prosecution of multi-circuit criminal activity related to such crimes into comprehensive statewide prosecution cases.[94]

The Criminal Justice Impact Conference, which provides the final, official estimate of the prison bed impact, if any, of legislation, has not yet reviewed the bill. The Legislature's

[94] The OAG White Paper, at p. 5.

Office of Economic and Demographic Research (EDR) preliminarily estimates that the bill will have a "positive indeterminate" prison bed impact (an unquantifiable increase in prison beds).[95]

The EDR provides that the bill's expansion of the definition of "abuse of an elderly person or disabled adult" in s. 825.102, F.S., would impact the multiple felonies listed under the statute. The bill adds the definitions of "improper benefit" and "kickback" in s. 825.101, F.S., and the following (new language in bold): "Breach of a fiduciary duty to an elderly person or disabled adult by the person's guardian, trustee who is an individual, or agent under a power of attorney which results in an unauthorized appropriation, sale, transfer of property, **kickback, or receipt of an improper benefit**," to s. 825.103, F.S. It also adds "obtaining appointments with the purpose and design of benefiting someone other than the principal or beneficiary" to the list of acts resulting in unauthorized appropriations. It also adds the act of "knowingly obtaining or using, endeavoring to obtain or use, or conspiring with another to obtain or use an elderly person's or a disabled adult's funds, assets, property, or estate through intentional modification or alteration of a plan of distribution or disbursement expressed in a will, trust agreement, or other testamentary devise of the elderly person or disabled adult." This expands the definition for exploitation of an elderly person or disabled adult, impacting the multiple felonies listed under this statute. Finally, this bill amends s. 825.1035, F.S., adding "an agent under a valid durable power of attorney with the authority specifically granted in the power of attorney" to those who may file an injunction for protection against exploitation of a vulnerable adult, and extends the time for a temporary injunction from 15 days to up to 45 days. This would impact the Level 1, 3rd degree felony under s. 825.1036, F.S., for "a person who has two or more prior convictions for violation of an injunction or foreign protection order against the same victim, and who subsequently commits a violation of any injunction or foreign protection order against the same victim."[96]

The EDR advises that per DOC, in FY 18-19, there were 35 new commitments to prison for felonies listed under these statutes (14 for abuse, 21 for exploitation), and 29 new commitments in FY 19-20 (11 for abuse, 18 for exploitation). It is not known how this new language will impact prison beds, but commitments are low under current language.[97]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[95] The EDR estimate is on file with the Senate Committee on Criminal Justice.
[96] *Id*.
[97] *Id*.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 16.56, 733.303, 736.1104, 825.101, 825.102, 825.103, and 825.1035.

This bill creates section 732.8031 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The committee substitute:

- Clarifies that the probate and trust disinheritance provisions apply to individuals convicted of specified offenses in any state or foreign jurisdiction, rather than any state or other jurisdiction.
- Specifies that any property or interest acquired as a result of abuse, neglect, or exploitation of an elder or disabled adult is to be returned to its rightful owner.
- Absolves an insurance company, bank, or other obligor from liability under the trust provision of the bill unless it receives notice of a claim more than 2 business days before payment.
- Clarifies that a convicted person may inherit from an estate, trust, or other beneficiary asset if it can be shown by clear and convincing evidence that the capacitated victim reinstated the person as a beneficiary.
- Makes technical changes to improve clarity and readability.

CS by Criminal Justice on March 23, 2021:
The committee substitute:

- Prohibits a person convicted of abuse, neglect, or exploitation of an elderly person or disabled adult, in any state or other jurisdiction, rather than only Florida, from serving as a personal representative in probate matters.
- Forfeits the inheritance under a will or life insurance policy or through a trust, joint tenancy, or other contractual arrangement for a person convicted of abuse, neglect, exploitation, or manslaughter in any state or other jurisdiction, rather than only Florida.
- Clarifies that the terms “elderly person” and “disabled adult” used in this section are defined in s. 825.101, F.S.
- Specifies the sections of laws that describe the conduct the judge must weigh when determining if sufficient evidence exists that the actions of the abuser, neglector, exploiter, or killer caused or contributed to the decedent’s death.
- Adds fraudulent creation of a plan of distribution or disbursement expressed in a will, trust agreement, or testamentary devise of an elderly person or disabled adult to the definition of “exploitation of an elderly person or disabled adult.”

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/20/2021	.	
	.	
	.	
	.	

The Committee on Appropriations (Burgess) recommended the following:

Senate Amendment (with title amendment)

Delete lines 102 - 223

and insert:

(b) Has been convicted in any state or foreign jurisdiction of abuse, neglect, or exploitation of an elderly person or a disabled adult, as those terms are defined in s. 825.101.

(c) ~~(b)~~ Is mentally or physically unable to perform the duties.

(d) ~~(c)~~ Is under the age of 18 years.

693350

Section 3. Section 732.8031, Florida Statutes, is created to read:

732.8031 Forfeiture for abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or a disabled adult.—

(1) A surviving person who is convicted in any state or foreign jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or a disabled adult, as those terms are defined in s. 825.101, for conduct against the decedent or another person on whose death such beneficiary's interest depends is not entitled to any benefits under the will of the decedent or the Florida Probate Code, and the estate of the decedent passes as if the abuser, neglector, exploiter, or killer had predeceased the decedent. Property appointed by the will of the decedent to or for the benefit of the abuser, neglector, exploiter, or killer passes as if the abuser, neglector, exploiter, or killer had predeceased the decedent.

(a) A final judgment of conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the abuser's, neglector's, exploiter's, or killer's conduct as defined in s. 825.102, s. 825.103, or s. 782.07(2) for purposes of this section.

(2) A joint tenant who is convicted in any state or foreign

693350

jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or a disabled adult, as those terms are defined in s. 825.101, for conduct against another joint tenant decedent thereby effects a severance of the interest of the decedent so that the share of the decedent passes as the decedent's sole property and as if the abuser, neglector, exploiter, or killer has no rights by survivorship. This subsection applies to joint tenancies with right of survivorship and tenancies by the entirety in real and personal property; joint and multiple-party accounts in banks, savings and loan associations, credit unions, and other financial institutions; and any other form of coownership with survivorship interests.

(a) A final judgment of conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the abuser's, neglector's, exploiter's, or killer's conduct as defined in s. 825.102, s. 825.103, or s. 782.07(2) for purposes of this section.

(3) A named beneficiary of a bond, life insurance policy, or other contractual arrangement who is convicted in any state or foreign jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or a disabled adult, as those terms are defined in s. 825.101, for conduct against the owner or principal obligee of the bond, life

693350

insurance policy, or other contractual arrangement or the person upon whose life such policy was issued is not entitled to any benefit under the bond, policy, or other contractual arrangement, and the bond, policy, or other contractual arrangement becomes payable as though the abuser, neglector, exploiter, or killer had predeceased the decedent.

(a) A final judgment of conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the abuser's, neglector's, exploiter's, or killer's conduct as defined in s. 825.102, s. 825.103, or s. 782.07(2) for purposes of this section.

(4) Any other property or interest acquired as a result of the abuse, neglect, exploitation, or manslaughter must be returned in accordance with this section.

(5)(a) This section does not affect the rights of any person who purchases property for value and without notice from the abuser, neglector, exploiter, or killer before rights have been adjudicated in accordance with this section.

(b) The abuser, neglector, exploiter, or killer is liable for the amount of the proceeds or the value of the property under paragraph (a).

(6) Any insurance company, financial institution, or other obligor making payment according to the terms of its policy or obligation is not liable by reason of this section unless more

693350

than 2 business days before payment it receives at its home office or principal address written notice, or in the case of a financial institution it receives notice in accordance with s. 655.0201, of a claim under this section.

(7) This section does not apply if it can be proven by clear and convincing evidence that, after the conviction of abuse, neglect, or exploitation, the victim of the offense, if capacitated, ratifies an intent that the person so convicted of abuse, neglect, or exploitation retain his or her inheritance, survivorship rights, or any other right that might otherwise be removed by this section by executing a valid written instrument, sworn to and witnessed by two persons who would be competent as witnesses to a will, which expresses a specific intent to allow the convicted person to retain his or her inheritance, survivorship rights, or any other right that might otherwise be removed by this section.

Section 4. Subsection (3) is added to section 736.1104, Florida Statutes, to read:

736.1104 Person ~~Killer~~ not entitled to receive property or other benefits by reason of victim's death.—

(3) A beneficiary of a trust who was convicted in any state or foreign jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or a disabled adult, as those terms are defined in s. 825.101, for conduct against a settlor or another person on whose death such beneficiary's interest depends is not entitled to any trust interest, including a homestead dependent on the victim's death, and such interest shall devolve as though the abuser, neglector, exploiter, or killer had predeceased the victim.

693350

(a) A final judgment of conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the abuser's, neglector's, exploiter's, or killer's conduct as defined in s. 825.102, s. 825.103, or s. 782.07(2) for purposes of this section.

(c) This subsection does not apply if it can be proven by clear and convincing evidence that, after the conviction of abuse, neglect, or exploitation, the victim of the offense, if capacitated, ratifies an intent that the person so convicted of abuse, neglect, or exploitation retain a trust interest by executing a valid written instrument, sworn to and witnessed by two persons who would be competent as witnesses to a will, which expresses a specific intent to allow the convicted person to retain a trust interest.

591-03248-21 20211344c1

provisions concerning injunctions for protection against exploitation of a vulnerable adult; providing for extension of ex parte temporary injunctions; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (1) of section 16.56, Florida Statutes, is amended to read:

16.56 Office of Statewide Prosecution.—

(1) There is created in the Department of Legal Affairs an Office of Statewide Prosecution. The office shall be a separate "budget entity" as that term is defined in chapter 216. The office may:

(a) Investigate and prosecute the offenses of:

1. Bribery, burglary, criminal usury, extortion, gambling, kidnapping, larceny, murder, prostitution, perjury, robbery, carjacking, home-invasion robbery, and patient brokering;

2. Any crime involving narcotic or other dangerous drugs;

3. Any violation of the Florida RICO (Racketeer Influenced and Corrupt Organization) Act, including any offense listed in the definition of racketeering activity in s. 895.02(8)(a), providing such listed offense is investigated in connection with a violation of s. 895.03 and is charged in a separate count of an information or indictment containing a count charging a violation of s. 895.03, the prosecution of which listed offense may continue independently if the prosecution of the violation of s. 895.03 is terminated for any reason;

4. Any violation of the Florida Anti-Fencing Act;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

5. Any violation of the Florida Antitrust Act of 1980, as amended;

6. Any crime involving, or resulting in, fraud or deceit upon any person;

7. Any violation of s. 847.0135, relating to computer pornography and child exploitation prevention, or any offense related to a violation of s. 847.0135 or any violation of chapter 827 where the crime is facilitated by or connected to the use of the Internet or any device capable of electronic data storage or transmission;

8. Any violation of chapter 815;

9. Any violation of chapter 825;

10.~~9.~~ Any criminal violation of part I of chapter 499;

11.~~10.~~ Any violation of the Florida Motor Fuel Tax Relief Act of 2004;

12.~~11.~~ Any criminal violation of s. 409.920 or s. 409.9201;

13.~~12.~~ Any crime involving voter registration, voting, or candidate or issue petition activities;

14.~~13.~~ Any criminal violation of the Florida Money Laundering Act;

15.~~14.~~ Any criminal violation of the Florida Securities and Investor Protection Act; or

16.~~15.~~ Any violation of chapter 787, as well as any and all offenses related to a violation of chapter 787;

or any attempt, solicitation, or conspiracy to commit any of the crimes specifically enumerated above. The office shall have such power only when any such offense is occurring, or has occurred, in two or more judicial circuits as part of a related

transaction, or when any such offense is connected with an organized criminal conspiracy affecting two or more judicial circuits. Informations or indictments charging such offenses shall contain general allegations stating the judicial circuits and counties in which crimes are alleged to have occurred or the judicial circuits and counties in which crimes affecting such circuits or counties are alleged to have been connected with an organized criminal conspiracy.

Section 2. Subsection (1) of section 733.303, Florida Statutes, is amended to read:

733.303 Persons not qualified.—

(1) A person is not qualified to act as a personal representative if the person:

(a) Has been convicted of a felony.

(b) Has been convicted in any state or other jurisdiction of abuse, neglect, or exploitation of an elderly person or a disabled adult as those terms are defined in s. 825.101.

(c)~~(b)~~ Is mentally or physically unable to perform the duties.

(d)~~(c)~~ Is under the age of 18 years.

Section 3. Section 732.8031, Florida Statutes, is created to read:

732.8031 Forfeiture for abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or disabled adult.—

(1) A surviving person who is convicted in any state or other jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or disabled adult, as those terms are defined in s. 825.101, for conduct against the decedent or another person on whose death such beneficiary's

interest depends is not entitled to any benefits under the will of the decedent or the Florida Probate Code, and the estate of the decedent passes as if the abuser, neglector, exploiter, or killer had predeceased the decedent. Property appointed by the will of the decedent to or for the benefit of the abuser, neglector, exploiter, or killer passes as if the abuser, neglector, exploiter, or killer had predeceased the decedent.

(a) A conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the conduct of the abuser or neglector as those terms are described in s. 825.102, exploiter as described in s. 825.103, or killer as provided in s. 782.07.

(2) A joint tenant who is convicted in any state or other jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or disabled adult, as those terms are defined in s. 825.101, for conduct against another joint tenant decedent thereby effects a severance of the interest of the decedent so that the share of the decedent passes as the decedent's sole property and as if the abuser, neglector, exploiter, or killer has no rights by survivorship. This subsection applies to joint tenancies with right of survivorship and tenancies by the entirety in real and personal property; joint and multiple-party accounts in banks, savings and loan associations, credit unions, and other financial institutions; and any other form of coownership with

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

survivorship interests.

(a) A conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the conduct of the abuser or neglector as those terms are described in s. 825.102, exploiter as described in s. 825.103, or killer as provided in s. 782.07.

(3) A named beneficiary of a bond, life insurance policy, or other contractual arrangement who is convicted in any state or other jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or disabled adult, as those terms are defined in s. 825.101, for conduct against the owner or principal obligee of the bond, life insurance policy, or other contractual arrangement or the person upon whose life such policy was issued is not entitled to any benefit under the bond, policy, or other contractual arrangement, and the bond, policy, or other contractual arrangement becomes payable as though the abuser, neglector, exploiter, or killer had predeceased the decedent.

(a) A conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the conduct of the abuser or neglector as those terms are

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

described in s. 825.102, exploiter as described in s. 825.103, or killer as provided in s. 782.07.

(4) Any other acquisition of property or interest by the abuser, neglector, exploiter, or killer, including a life estate in homestead property, shall be treated in accordance with the principles of this section.

(5)(a) This section does not affect the rights of any person who, before rights under this section have been adjudicated, purchases from the abuser, neglector, exploiter, or killer for value and without notice property that the abuser, neglector, exploiter, or killer would have acquired except for this section.

(b) The abuser, neglector, exploiter, or killer is liable for the amount of the proceeds or the value of the property under paragraph (a).

(6) Any insurance company, bank, or other obligor making payment according to the terms of its policy or obligation is not liable by reason of this section unless before payment it receives at its home office or principal address written notice of a claim under this section.

(7) This section does not apply if, after the conviction of abuse, neglect, or exploitation, the victim of the offense, if capacitated, executes a written instrument, sworn to and witnessed by two persons who would be competent as witnesses to a will, which expresses a specific intent to allow the person so convicted of abuse, neglect, or exploitation to retain his or her inheritance or survivorship rights.

Section 4. Subsection (3) is added to section 736.1104, Florida Statutes, to read:

736.1104 Person ~~Killer~~ not entitled to receive property or other benefits by reason of victim's death.—

(3) A beneficiary of a trust who was convicted in any state or other jurisdiction of abuse, neglect, exploitation, or aggravated manslaughter of an elderly person or disabled adult, as those terms are defined in s. 825.101, for conduct against a settlor or another person on whose death such beneficiary's interest depends is not entitled to any trust interest, including a homestead dependent on the victim's death, and such interest shall devolve as though the abuser, neglecter, exploiter, or killer had predeceased the victim.

(a) A conviction for abuse, neglect, exploitation, or aggravated manslaughter of the decedent or other person creates a rebuttable presumption that this section applies.

(b) In the absence of a qualifying conviction, the court may determine by the greater weight of the evidence whether the decedent's or other person's death was caused by or contributed to by the conduct of the abuser or neglector as those terms are described in s. 825.102, exploiter as described in s. 825.103, or killer as provided in s. 782.07.

Section 5. Present subsections (8) through (14) of section 825.101, Florida Statutes, are redesignated as subsections (10) through (16), respectively, and new subsections (8) and (9) are added to that section, to read:

825.101 Definitions.—As used in this chapter:

(8) "Improper benefit" means any remuneration or payment, by or on behalf of any service provider or merchant of goods, to any person as an incentive or inducement to refer customers or patrons for past or future services or goods.

(9) "Kickback" has the same meaning as in s. 456.054(1).

Section 6. Paragraphs (b) and (c) of subsection (1) of section 825.102, Florida Statutes, are amended, and paragraph (d) is added to that subsection, to read:

825.102 Abuse, aggravated abuse, and neglect of an elderly person or disabled adult; penalties.—

(1) "Abuse of an elderly person or disabled adult" means:

(b) An intentional act that could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; ~~or~~

(c) Active encouragement of any person to commit an act that results or could reasonably be expected to result in physical or psychological injury to an elderly person or disabled adult; or

(d) Intentionally, and without lawful authority, isolating or restricting access of an elderly person or a disabled adult to family members for any length of time which could reasonably be expected to result in physical or psychological injury to the elderly person or disabled adult, or with the intent to promote, facilitate, conceal, or disguise some form of criminal activity involving the person or property of the elderly person or disabled adult. It is a defense to a violation of this paragraph that the defendant had reasonable cause to believe that his or her action was necessary to protect the elderly person or disabled adult from danger to his or her welfare.

A person who knowingly or willfully abuses an elderly person or disabled adult without causing great bodily harm, permanent disability, or permanent disfigurement to the elderly person or

disabled adult commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 7. Paragraphs (c), (d), and (e) of subsection (1) of section 825.103, Florida Statutes, are amended, and paragraph (f) is added to that subsection, to read:

825.103 Exploitation of an elderly person or disabled adult; penalties.—

(1) "Exploitation of an elderly person or disabled adult" means:

(c) Breach of a fiduciary duty to an elderly person or disabled adult by the person's guardian, trustee who is an individual, or agent under a power of attorney which results in an unauthorized appropriation, sale, ~~or~~ transfer of property, kickback, or receipt of an improper benefit. An unauthorized appropriation under this paragraph occurs when the elderly person or disabled adult does not receive the reasonably equivalent financial value in goods or services, or when the fiduciary violates any of these duties:

1. For agents appointed under chapter 709:

a. Committing fraud in obtaining their appointments;

b. Obtaining appointments with the purpose and design of benefiting someone other than the principal or beneficiary;

c.~~b.~~ Abusing their powers;

d.~~c.~~ Wasting, embezzling, or intentionally mismanaging the assets of the principal or beneficiary; or

e.~~d.~~ Acting contrary to the principal's sole benefit or best interest; or

2. For guardians and trustees who are individuals and who are appointed under chapter 736 or chapter 744:

a. Committing fraud in obtaining their appointments;

b. Obtaining appointments with the purpose and design of benefiting someone other than the principal or beneficiary;

c.~~b.~~ Abusing their powers; or

d.~~c.~~ Wasting, embezzling, or intentionally mismanaging the assets of the ward or beneficiary of the trust;

(d) Misappropriating, misusing, or transferring without authorization money belonging to an elderly person or disabled adult from an account in which the elderly person or disabled adult placed the funds, owned the funds, and was the sole contributor or payee of the funds before the misappropriation, misuse, or unauthorized transfer. This paragraph only applies to the following types of accounts:

1. Personal accounts;

2. Joint accounts created with the intent that only the elderly person or disabled adult enjoys all rights, interests, and claims to moneys deposited into such account; or

3. Convenience accounts created in accordance with s. 655.80; ~~or~~

(e) Intentionally or negligently failing to effectively use an elderly person's or disabled adult's income and assets for the necessities required for that person's support and maintenance, by a caregiver or a person who stands in a position of trust and confidence with the elderly person or disabled adult; or

(f) Knowingly obtaining or using, endeavoring to obtain or use, or conspiring with another to obtain or use an elderly person's or a disabled adult's funds, assets, property, or estate through intentional modification, alteration, or

fraudulent creation of a plan of distribution or disbursement expressed in a will, trust agreement, or other testamentary devise of the elderly person or disabled adult without:

1. A court order, from a court having jurisdiction over the elderly person or disabled adult, which authorizes the modification or alteration;

2. A written instrument executed by the elderly person or disabled adult, sworn to and witnessed by two persons who would be competent as witnesses to a will, which authorizes the modification or alteration; or

3. Action of an agent under a valid power of attorney executed by the elderly person or disabled adult which authorizes the modification or alteration.

Section 8. Paragraph (a) of subsection (2), paragraph (a) of subsection (3), and paragraph (d) of subsection (5) of section 825.1035, Florida Statutes, are amended to read:

825.1035 Injunction for protection against exploitation of a vulnerable adult.—

(2) WHO MAY FILE; VENUE; RECORDING.—

(a) The cause of action may be sought in an adversary proceeding by:

1. A vulnerable adult in imminent danger of being exploited;

2. The guardian of a vulnerable adult in imminent danger of being exploited;

3. A person or organization acting on behalf of the vulnerable adult with the consent of the vulnerable adult or his or her guardian; ~~or~~

4. An agent under a valid durable power of attorney with

the authority specifically granted in the power of attorney; or

5.~~4.~~ A person who simultaneously files a petition for determination of incapacity and appointment of an emergency temporary guardian with respect to the vulnerable adult.

(3) FORM OF PETITION.—

(a) A sworn petition filed under this section must allege the existence of exploitation, or the imminent exploitation, of the vulnerable adult and must include the specific facts and circumstances for which relief is sought. The sworn petition must be in substantially the following form:

PETITION FOR INJUNCTION FOR PROTECTION
AGAINST EXPLOITATION OF A VULNERABLE ADULT

Before me, the undersigned authority, personally appeared Petitioner ...(Name)..., who has been sworn and says that the following statements are true:

1. The petitioner's name is: _____

2. The petitioner's address is: _____

3. The petitioner's relationship to the vulnerable adult is: _____

4. How long has the petitioner known the vulnerable adult: _____

5. The vulnerable adult's name is: _____

6. Aliases of the vulnerable adult are: _____

7. The vulnerable adult's date of birth is: _____

8.~~1.~~ The vulnerable adult's address is ~~adult resides at~~: _____ ~~...(address)....~~

9. Does the vulnerable adult have one or more impairments

that impact his or her ability to perform normal activities of daily living or to provide for his or her own care or protection?

Yes_____ No_____

If so, what are this person's impairments? (check all that apply)

.... Long-term physical disability

.... Sensory disability (e.g., hearing or vision impaired)

.... Cognitive disability

.... Mental or emotional disability

.... Developmental disability

.... Infirmity of aging

.... Other (explain)

10.~~2.~~ The respondent's last known address is ~~respondent resides at~~: _____ ~~...(last known address)....~~

11.~~3.~~ The respondent's last known place of employment is: ...(name of business and address)....

12.~~4.~~ Physical description of the respondent: ....

Race....

Sex....

Date of birth....

Height....

Weight....

Eye color....

Hair color....

Distinguishing marks or scars....

13.~~5.~~ Aliases of the respondent: ....

14.~~6.~~ The respondent is associated with the vulnerable adult as follows: ....

15.~~7.~~ The following describes any other cause of action currently pending between the petitioner and the respondent, any proceeding under chapter 744 concerning the vulnerable adult, and any previous or pending attempts by the petitioner to obtain an injunction for protection against exploitation of the vulnerable adult in this or any other circuit; related case numbers, if available; and the results of any such attempts:.....

16.~~8.~~ The following describes the petitioner's knowledge of any reports made to a government agency, including, but not limited to, the Department of Elderly Affairs, the Department of Children and Families, and the adult protective services program relating to the abuse, neglect, or exploitation of the vulnerable adult; any investigations performed by a government agency relating to abuse, neglect, or exploitation of the vulnerable adult; and the results of any such reports or investigations: ....

17.~~9.~~ The petitioner knows the vulnerable adult is either a victim of exploitation or the petitioner has reasonable cause to believe the vulnerable adult is, or is in imminent danger of becoming, a victim of exploitation because the respondent has: ...(describe in the spaces below the incidents or threats of exploitation)....

18.~~10.~~ The following describes the petitioner's knowledge of the vulnerable adult's dependence on the respondent for care; alternative provisions for the vulnerable adult's care in the absence of the respondent, if necessary; available resources the vulnerable adult has to access such alternative provisions; and

the vulnerable adult's willingness to use such alternative provisions: ....

19.~~11.~~ The petitioner knows the vulnerable adult maintains assets, accounts, or lines of credit at the following financial institution(s): ...(list name, address, and account number of each)....

20.~~12.~~ The petitioner believes that the vulnerable adult's assets to be frozen are: ...(mark one)....

....Worth less than $1500;

....Worth between $1500 and $5000; or

....Worth more than $5000.

21.~~13.~~ The petitioner genuinely fears imminent exploitation of the vulnerable adult by the respondent.

22.~~14.~~ The petitioner seeks an injunction for the protection of the vulnerable adult, including: ...(mark appropriate section or sections)....

....Prohibiting the respondent from having any direct or indirect contact with the vulnerable adult.

....Immediately restraining the respondent from committing any acts of exploitation against the vulnerable adult.

....Freezing the assets of the vulnerable adult held at ...(name and address of depository or financial institution)... even if titled jointly with the respondent, or in the respondent's name only, in the court's discretion.

....Freezing the credit lines of the vulnerable adult at ...(name and address of financial institution)... even if jointly with the respondent, in the court's discretion.

....Providing any terms the court deems necessary for the protection of the vulnerable adult or his or her assets,

including any injunctions or directives to law enforcement agencies.

23.~~15.~~ Should the court enter an injunction freezing assets and credit lines, the petitioner believes that the critical expenses of the vulnerable adult will be paid for or provided by the following persons or entities, or the petitioner requests that the following expenses be paid notwithstanding the freeze: ...(for each expense, list the name of the payee, address, account number if known, amount, and a brief explanation of why payment is critical)....

(5) TEMPORARY INJUNCTION; SERVICE; HEARING.—

(d) An ex parte temporary injunction may be effective for a fixed period not to exceed 15 days unless good cause is shown to extend the injunction. The ex parte temporary injunction may be extended one time for up to an additional 30 days. A full hearing, as provided by this section, must be set for a date no later than the date when the ex parte temporary injunction ceases to be effective. ~~The court may grant a continuance of the hearing, before or during the hearing, for good cause shown by any party, which good cause may include a continuance to obtain service of process. An ex parte injunction is not extended beyond the initial 15 days as a result of a continuance.~~

Section 9. This act shall take effect July 1, 2021.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1436 (298982)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); and Senator Gruters
SUBJECT:	Florida Postsecondary Academic Library Network
DATE:	April 16, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Westmark	Bouck	ED	**Favorable**
2.	Underhill	Elwell	AED	**Recommend: Fav/CS**
3.	Underhill	Sadberry	AP	**Pre-meeting**

I. Summary:

PCS/SB 1436 establishes the Florida Postsecondary Academic Library Network (Network) under the joint oversight of the Office of the Board of Governors (BOG) and the Department of Education, and repeals the Complete Florida Plus Program (Complete Florida Plus). The bill retains certain functions from Complete Florida Plus Program, with modifications, and adds new functions. The bill:

- Maintains Complete Florida Plus purposes related to distance learning courses and degree programs, and online academic support services, but specifies that the Network purposes must include providing recommendations on the use and distribution of open-access textbooks and education resources, and innovative pricing techniques as a method to reduce costs.
- Specifies that the Network single library automation system and associated resources and services must include a shared Internet-based catalog and discovery tool, an Internet-based searchable collection of electronic resources, an integrated library management system, and a statewide searchable database that includes an inventory of digital archives and collections that public postsecondary education institutions hold.
- Increases reporting requirements on host entity performance in delivering specified services.
- Maintains an online admissions and computer-assisted student advising system.
- Requires, by June 1, 2022, the Commissioner of Education and the Chancellor of the BOG to provide a joint recommendation for a process by which school district career centers and charter technical career centers would access appropriate Network services.

The bill will require a state recurring appropriation. See Section V for fiscal comments.

The bill takes effect July 1, 2021.

II. Present Situation:

Complete Florida Plus Program Funding for Fiscal Year 2020-2021

In June 2020, the Governor vetoed the $29.4 million appropriation in the 2020-2021 budget for the Complete Florida Plus Program.[1] The program provided support services for distance learning, libraries, and student services. These services were provided to all 40 Florida College System (FCS) and State University System (SUS) institutions. Beginning July 2020, the Florida Department of Education and Board of Governors used limited carryforward funds and nonrecurring contributions from the 40 institutions' funds to ensure that the distance learning and library services components of the program were not disrupted for the 2020-2021 fiscal year.[2]

Complete Florida Plus Program

In 2014, the Legislature amended the Florida Virtual Campus (FLVC) to be the Complete Florida Plus Program (Complete Florida Plus) and in 2015 moved management of the FLVC to the University of West Florida's (UWF's) Division of Research and Strategic Innovation, where its mission and purpose remained the same. The units under FLVC included the Florida Academic Library Services Cooperative and the Distance Learning and Student Services.[3]

Complete Florida Plus was created at the UWF to:

- Facilitate degree completion for Florida's adult learners through the Complete Florida Degree Initiative;[4]
- Maintain and manage Florida's online catalog of distance learning courses, degree programs, and resources;
- Provide statewide online student advising services and support;
- Provide information regarding and access to distance learning courses and degree programs offered by public postsecondary education institutions within the state;
- Coordinate with the Florida College System (FCS) and the State University System (SUS) to identify and provide online academic support services and resources when the multi-institutional provision of such services and resources is more cost effective or operationally effective; and
- Administer the Florida Academic Library Services Cooperative and consult with the chancellors of the FCS and the SUS regarding the implementation and operations of the cooperative.[5]

[3] Florida Virtual Campus, *Organization Profile*, https://www.flvc.org/organization-profile (last visited Feb. 26, 2021). The Florida Virtual Campus (FLVC) was created in 2012 by the Florida Legislature through the consolidation of four statewide organizations: the College Center for Library Automation, the Florida Center for Library Automation, the Florida Center for Advising and Academic Support, and the Florida Distance Learning Consortium.
[4] *See* s. 1006.735(2), F.S.
[5] Distance Learning and Student Services, *Complete Florida Plus Program*, https://dlss.flvc.org/about/legislation-regulation/complete-florida-plus-program (last visited Feb. 25, 2021). *See also* s. 1006.735(1), F.S.

Complete Florida Plus was required to make available online student advising services and support, including all of the following:

- A streamlined online admissions application process, to be used by all postsecondary institutions, for undergraduate transient students currently enrolled and pursuing a degree at a public postsecondary education institution who enroll in a course offered by a public postsecondary education institution that is not the student's degree-granting institution. UWF is required to work with FCS institutions and state universities as specified in law.
- A K-20 statewide computer-assisted student advising system to support career and education planning for the K-12 system and the process of advising, registering, and certifying postsecondary students for graduation and to include a degree audit and an articulation component. FCS institutions and state universities are to interface institutional advising systems with the statewide computer-assisted student advising system that meets minimum specified requirements.
- A method for identifying and evaluating new technologies and instructional methods for improving distance learning instruction and development for faculty, student learning outcomes, student access, the efficient delivery of student support services, the alignment of degrees to career needs, and the overall quality of postsecondary distance learning courses and degree programs.
- Help desk support and training and consultation services to institutions and students using Complete Florida Plus services and resources.
- Negotiation of statewide licensing resources and preferred pricing agreements, issuing purchase orders, and entering into contracts for the acquisition of distance learning resources, student and support services, electronic resources, and other goods and services necessary.
- Development and implementation of a plan, in consultation with public postsecondary education institutions, which describes the services and resources available through Complete Florida Plus to encourage current and prospective students' use.[6]

Complete Florida Plus developed and managed a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education institutions which is intended to assist in the coordination and collaboration of articulation and access. Operational procedures for the catalog must:

- Require participating institutions to provide specified information concerning the distance learning course or degree program.
- Require that distance learning courses and degree programs meet applicable accreditation standards and criteria.
- Require that the catalog is reviewed and updated frequently to ensure compliance with operational procedures.
- Define and describe the catalog's search and retrieval options that will allow users to search by specified criteria, at a minimum.
- Use an Internet-based analytic tool that allows the collection and analysis of specified data.[7]

[6] Section 1006.735(4), F.S.
[7] Section 1006.735(3), F.S.

The UWF is required to submit a report on an annual basis to the President of the Senate and the Speaker of the House of Representatives regarding the implementation and operation of all components of Complete Florida Plus, including information and associated costs relating to the services and functions of the program.[8]

The Northwest Regional Data Center[9] is required by law to provide all data center services necessary to support the statewide Internet-based catalog established and the statewide online student advising services and support.[10]

Florida Academic Library Services Cooperative

The Florida Academic Library Services Cooperative (FALSC) provides a single library automation system and associated resources and services for all public postsecondary institutions to use to support learning, teaching, and research needs.[11] The FALSC develops and manages a library information portal and automated library management tools for use by FCS institutions and state universities.[12]

The FALSC is a unit of the FLVC which operates the integrated library system used by public colleges and university libraries statewide. The FALSC also provides more than 150,000 unique, digital archive and collection items and a statewide collection of over 400,000 online journals, e-books, and e-resources, available to assist nearly 1.3 million students, faculty, and staff throughout Florida.[13]

Products and services offered by the FALSC include:

- Management and maintenance of the statewide collection of e-resources available to students at all 40 public colleges and universities.[14]
- A shared catalog of library holdings for students to search for materials owned by any college or university in Florida.
- An integrated library system used by libraries to manage their local collections.
- Collaboration with public post-secondary education institutions to create and support Florida libraries' digital archives and collections.
- Negotiation and procurement of e-resources for individual institutions through a group licensing process.
- In-person training and consultation on the FALSC products and services, in addition to online webinars, instruction, and self-paced training for all college and university libraries.

[14] Students enrolled in Florida public secondary schools are required to have access to state funded electronic library resources licensed by the Florida Academic Library Services Cooperative. Fla. Admin. Code R. 6A-7.077. Public secondary school students enrolled in the articulated acceleration programs are also eligible to use electronic library resources funded by the Florida Center for Library Automation. Board of Governors Regulation 6.012.

- A centralized Help Desk providing user and technical support for the FALSC library services.
- A statewide open education community to promote and support textbook affordability and Open Educational Resources.[15]

Distance Learning and Student Services

Distance Learning and Student Services (DLSS) provides an array of innovative educational services for students, educators, and administrators in Florida. The DLSS operates several statewide services that impact the success of the state's students, of which is FloridaShines.[16]

FloridaShines

FloridaShines works with the state's public colleges and universities and other partners as a website where students can check their transcripts, register for online courses, search academic libraries across the state, and compare colleges and universities, among other activities, at no cost to the student.[17]

MyCareerShines

MyCareerShines provides career education and associated academic advising as a portal for Complete Florida Plus.[18] The FLVC's MyCareerShines career exploration system allows individuals to take skill and interest assessments and match their results to profiles of potential careers, while emphasizing those with high-growth potential in Florida. Cost-free resources available assist in creating an education plan, searching for scholarships, writing a resume, interviewing, and locating available jobs in Florida. MyCareerShines offers specialized modules for PreK-5 students, middle and high school students, college and university students, and adults.[19]

MyCareerShines has registered more than 859,000 users, with more than 1.2 million career assessments completed by middle school, high school, college, and adult users of the system. MyCareerShines is being used in approximately 3,400 middle school, high school and postsecondary institutions throughout Florida.[20]

III. Effect of Proposed Changes:

The bill establishes the Florida Postsecondary Academic Library Network (Network) under the joint oversight of the Office of the Board of Governors (BOG) and the Department of Education

(DOE) in place of the Florida Academic Library Services Cooperative, and repeals the Complete Florida Plus Program (Complete Florida Plus).

The bill declares that the purpose of the Network is to deliver specified services to public postsecondary education institutions in Florida, namely all Florida College System (FCS) and State University System (SUS) institutions. The bill retains the general purpose of Complete Florida Plus, which includes the following services:

- Provision of information regarding and access to distance learning courses and degree programs offered by public postsecondary education institutions within the state.
- Coordination with the FCS and SUS to identify and provide online academic support services and resources when the multi-institutional provision of such services and resources is more cost effective or operationally effective.
- Administration of a single library automation system and associated resources and services that all public postsecondary institutions use to support learning, teaching, and research needs, and development of automated library management tools.

The bill also adds to the Network the following services and functions:

- To the single library automation system:
  - A shared Internet-based catalog and discovery tool that allows a user to search and, if authorized, access the aggregate library holdings of the state's public postsecondary education institutions. The catalog and discovery tool must allow a user to search the library holdings of one institution, selected institutions, or all institutions and, to the extent feasible, must include an interlibrary loan function that ensures an authorized user can access the required library holding.
  - An Internet-based searchable collection of electronic resources which must include, but not be limited to, full-text journals, articles, databases, and electronic books licensed as specified.
  - An integrated library management system and its associated services that all public postsecondary education institution academic libraries must use for purposes of acquiring, cataloging, circulating, and tracking library material.
  - A statewide searchable database that includes an inventory of digital archives and collections held by public postsecondary education institutions.
- Coordination, with FCS institutions' and state universities' library staff, of the negotiation of statewide licensing of electronic library resources and preferred pricing agreements, issue purchase orders, and entering into contracts for the acquisition of library support services, electronic resources, and other goods and services necessary to carry out its authorized duties.
- Promotion and provision of recommendations concerning the use and distribution of open-access textbooks and education resources and innovative pricing techniques as a method for reducing costs.
- Provision of appropriate help desk support and training and consultation services to institutions and students.

The bill maintains from Complete Florida Plus a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education

institutions, intended to assist in the coordination and collaboration of articulation and access specified in law.[21]

In addition, the bill expands on functions in the Complete Florida Plus catalog of distance learning courses, to specify that the host entity is responsible for developing and disseminating operational procedures and technical guidelines for the catalog, to be followed by all participating institutions, which guidelines must address all of the following:

- Specific information concerning the distance learning course or degree program, including but not limited to course number, classification of instructional programs number, and information on the availability of the course or degree program; any prerequisite course or technology competency or skill; the availability of academic support services and financial aid resources; and course costs, fees, and payment policies.
- Definitions and descriptions of the catalog's search and retrieval options that will at a minimum allow users to search by academic term or course start date; institution, multiple institutions, or all institutions; and course or program delivery methods, course type, course availability, subject or discipline, and course number or classification of instructional programs number.
- An Internet-based analytic tool that allows for the collection and analysis of data as to usage of resources accessed or interaction with constituent institutions whose courses and programs are listed in the catalog.
- Frequent review and updates to institution catalogs to ensure that distance learning courses and degree programs comply with operational procedures.

The bill retains Complete Florida Plus student advising and support, with some modifications. Specifically, the bill requires the student advising services to provide all of the following:

- A streamlined online admissions application process, to be used by all public postsecondary institutions, for undergraduate transient students currently enrolled and pursuing a degree at a public postsecondary education institution who enroll in a course offered by a public postsecondary education institution that is not the student's degree-granting institution, which must:
  - Use the transient student admissions application available through the statewide computer-assisted student advising system as specified. This admissions application is the only application required for enrollment of a transient student as described;
  - Implement the financial aid procedures required by the transient student admissions application process;
  - Transfer credit awarded by the institution offering the course to the transient student's degree-granting institution; and
  - Provide an interface between the institutional advising system and the statewide computer-assisted student advising system established, in order to electronically send, receive, and process the transient student admissions application.
- A statewide computer-assisted student advising system to support the process of advising, registering, and capturing student progression toward a degree and career and which must include a degree audit and an articulation component.
- A method for identifying and evaluating new technologies and instructional methods for improving distance learning instruction and development for faculty, student learning

[21] Sections 1007.01 - 1007.273, F.S.

outcomes, student access, the efficient delivery of student support services, and the overall quality of postsecondary distance learning courses and degree programs.
- Negotiation of statewide licensing resources and preferred pricing agreements, issuing purchase orders, and entering into contracts for the acquisition of distance learning resources, student and support services, electronic resources, and other goods and services necessary.

The bill requires FCS institutions and state universities to interface institutional advising systems with the statewide computer-assisted student advising system, which must, at a minimum:
- Allow a student to access the system at any time;
- Supports K-12 career and education planning;
- Allow a student to search public postsecondary education institutions and identify course options that will meet the requirements of a selected path toward a degree;
- Audit transcripts of students enrolled in a public postsecondary education institution to assess current academic standing, the requirements for a student to transfer to another institution, and all requirements necessary for graduation;
- Serve as the official statewide repository for the common prerequisite manual, admissions information for transferring programs, foreign language requirements, residency requirements, and statewide articulation agreements;
- Provide information relating to career descriptions and corresponding educational requirements, admissions requirements, and available student financial assistance sources; and
- Provide the admissions application for transient students as specified, which must include the electronic transfer and receipt of information and records for admissions and readmissions, financial aid, and transfer of credit awarded by the institution offering the course to the transient student's degree-granting institution using the Florida Automated System for Transferring Educational Records (the "FASTER System").

The bill changes the host from the UWF, but retains a reporting requirement similar to Complete Florida Plus. The bill requires the host entity, beginning December 31, 2021, and each year thereafter, to submit a report to the Chancellors of the SUS and FCS regarding the implementation and operation of all components described, including, but not limited to, usage information collected, information and associated costs relating to the services and functions of the program, and the implementation and operation of the automated library services. The chancellors are required to provide an annual report on the performance of the host entity in delivering the services and any recommendations for changes needed to the Governor, the President of the Senate, the Speaker of the House of Representatives, the BOG, and the State Board of Education.

The bill assigns the Office of the BOG and the DOE joint responsibility for determining the host entity for the services described and sharing in the receipt and administration of an associated appropriation as described in the General Appropriations Act. The Chancellors of the FCS and BOG are required to provide oversight for successful delivery by the host entity of the services described. The bill also removes the requirement under Complete Florida Plus that the Northwest Regional Data Center support the Network.

The bill adds a new requirement that the Commissioner of Education and the Chancellor of the SUS must, by June 1, 2022, provide a joint recommendation for a process by which school district career centers operated pursuant to state law and charter technical career centers operated pursuant to state law would access appropriate postsecondary distance learning, student support services, and library assets described. The recommendation must include an analysis of the resources necessary to expand access and assets to centers and their students.

Where applicable, the bill updates statutory references to specified services provided by the Network to read Florida Postsecondary Academic Library Network.

In accordance with the repeal of Complete Florida Plus, the bill removes statutory references to Complete Florida Plus and to the Complete Florida Degree Initiative, removes statutory requirements to use a graphic and description provided by Complete Florida Plus to inform students of the catalog, and removes a directive in law that encouraged veterans, if appropriate, to participate in the Complete Florida Degree Program.

The bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Governor has recommended funding to cover costs associated with the Florida Postsecondary Academic Library Network in the amount of $9,076,322 for Florida College System institutions and $11,836,500 for state universities.[22]

However, the system component that supports career and education planning for the K-12 education system was not included in the Governor's recommended budget.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 257.02, 295.22, 1004.013, 1006.73, 1007.01, 1007.27, 1009.23, and 1009.24.

This bill repeals section 1006.735 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

PCS 298982 by Appropriations (Recommended by Appropriations Subcommittee on Education):
The committee substitute:

- Includes innovative pricing techniques as a method to reduce costs related to textbooks and education resources; and
- Specifies that the statewide computer-assisted student advising system is a K-20 statewide system that also supports career and education planning for the K-12 system.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

[22] Governor Ron DeSantis, *Fiscal Year 2021-2022 Governor's Recommended General Appropriations Act* (2021), *available at* http://www.bolderbrighterbetterfuture.com/content/Current/reports/Governors-Bill.pdf, Section 1, at 4 and 5.

The Committee on Appropriations (Gruters) recommended the following:

Senate Amendment

Delete lines 247 - 257
and insert:
(b) A statewide computer-assisted student advising system that shall support career and education planning for the system and the process of advising, registering, and certifying postsecondary students for graduation and that shall include a degree audit and an articulation component. Florida College System institutions and state universities shall interface

907384

institutional advising systems with the statewide computer-assisted student advising system. At a minimum, the statewide computer-assisted student advising system shall:

1. Allow a student to access the system at any time.

2. Support career and education planning.

298982

576-02710-21

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Education)

A bill to be entitled

An act relating to the Florida Postsecondary Academic Library Network; amending ss. 257.02 and 295.22, F.S.; conforming provisions to changes made by the act; amending s. 1004.013, F.S.; revising provisions relating to the awareness of certain postsecondary education programs and initiatives; amending s. 1006.73, F.S.; deleting provisions relating to the Florida Academic Library Services Cooperative; providing responsibilities for the Florida Postsecondary Academic Library Network; providing that the Board of Governors and the Department of Education will oversee a host entity chosen to deliver certain services; providing the services to be provided by the host entity; transferring responsibility for the statewide Internet-based catalog of distance learning courses to the host entity; providing requirements for such catalog; transferring responsibility for certain statewide online student advising services to the host entity; providing requirements for such services; requiring the host entity to annually submit a certain report by a specified date; providing requirements for such report; requiring the chancellors of the State University System and the Florida College System to provide a certain report; providing that specified entities have responsibility for the governance and administration of the provided services; requiring

298982

576-02710-21

specified entities to issue a recommendation and report on expanding organizations who may access the provided services; repealing s. 1006.735, F.S., relating to the Complete Florida Plus Program; amending s. 1007.01, F.S.; conforming a cross-reference; amending s. 1007.27, F.S.; conforming a provision to changes made by the act; amending ss. 1009.23 and 1009.24, F.S.; conforming cross-references; revising a requirement to include a certain graphic on specified websites; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 257.02, Florida Statutes, is amended to read:

257.02 State Library Council.—

(1) There shall be a State Library Council to advise and assist the division with planning, policy, and priorities related to the development of statewide information services. The council shall consist of nine members who shall be appointed by the Secretary of State. Of the nine members, three members must represent Florida public libraries, two members must represent the Florida Postsecondary Academic Library Network ~~Services Cooperative~~, one member must represent a multitype library cooperative, one member must represent a school library media center, one member must represent the Independent Colleges and Universities of Florida, and one member must represent a Florida library professional association. Members shall be

appointed for 4-year terms. A vacancy on the council shall be filled for the period of the unexpired term. A person may not be appointed to serve more than two consecutive terms as a member of the council. The secretary may remove from office any council member for malfeasance, misfeasance, neglect of duty, incompetence, permanent inability to perform official duties, or pleading guilty or nolo contendere to, or being found guilty of, a felony.

Section 2. Paragraph (b) of subsection (3) of section 295.22, Florida Statutes, is amended to read:

295.22 Veterans Employment and Training Services Program.—

(3) ADMINISTRATION.—Florida Is For Veterans, Inc., shall administer the Veterans Employment and Training Services Program and perform all of the following functions:

(b) Assist veterans who reside in or relocate to this state and who are seeking employment. The corporation shall offer skills assessments to veterans and assist them in establishing employment goals and applying for and achieving gainful employment.

1. Assessment may include skill match information, skill gap analysis, resume creation, translation of military skills into civilian workforce skills, and translation of military achievements and experience into generally understood civilian workforce skills.

2. Assistance may include providing the veteran with information on current workforce demand by industry or geographic region, creating employment goals, and aiding or teaching general knowledge related to completing applications. The corporation may provide information related to industry

certifications approved by the Department of Education under s. 1008.44 as well as information related to earning academic college credit at public postsecondary educational institutions for college-level training and education acquired in the military under s. 1004.096.

3. The corporation shall encourage veterans to register with the state's job bank system and may refer veterans to local one-stop career centers for further services. The corporation shall provide each veteran with information about state workforce programs and shall consolidate information about all available resources on one website that, if possible, includes a hyperlink to each resource's website and contact information, if available. ~~If appropriate, a veteran shall be encouraged to participate in the Complete Florida Degree Program established under s. 1006.735.~~

4. Assessment and assistance may be in person or by electronic means, as determined by the corporation to be most efficient and best meet the needs of veterans.

Section 3. Paragraph (a) of subsection (2) of section 1004.013, Florida Statutes, is amended to read:

1004.013 SAIL to 60 Initiative.—

(2) The State Board of Education and the Board of Governors shall work collaboratively to, at a minimum:

(a) Increase the awareness and use of:

1. The student advising system established under s. 1006.73 ~~s. 1006.735(4)(b)~~.

~~2. The Complete Florida Degree Initiative established under s. 1006.735(2) that facilitates degree completion for the state's adult learners. The Chancellor of the State University~~

~~System and the Chancellor of the Florida College System shall consult with the Complete Florida Degree Initiative to identify barriers to program expansion and develop recommendations to increase the number of participating institutions and students served by the program. The recommendations must consider, at a minimum, methods for increasing outreach efforts to help students complete the "last mile" by providing financial assistance to students who are within 12 credit hours of completing their first associate or baccalaureate degree, but have separated from their institution of enrollment for more than one semester. Recommendations must be submitted to the Board of Governors, the State Board of Education, and the Governor no later than October 1, 2019.~~

2.~~3.~~ Summer bridge programs at state universities and Florida College System institutions that help students transition to postsecondary education.

Section 4. Section 1006.73, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 1006.73, F.S., for present text.)

1006.73 Florida Postsecondary Academic Library Network.—

(1) PURPOSE.—The Board of Governors and the Department of Education shall jointly oversee the host entity in accordance with subsection (5) which will deliver the following services to public postsecondary education institutions in this state, which, for the purposes of this section, means all Florida College System and State University System institutions:

(a) Provide information regarding and access to distance learning courses and degree programs offered by public

postsecondary education institutions within this state.

(b) Coordinate with the Florida College System and the State University System to identify and provide online academic support services and resources when the multi-institutional provision of such services and resources is more cost effective or operationally effective.

(c) Administer a single library automation system and associated resources and services that all public postsecondary institutions shall use to support learning, teaching, and research needs and develop automated library management tools that shall include, but are not limited to, the following services and functions:

1. A shared Internet-based catalog and discovery tool that allows a user to search and, if authorized, access the aggregate library holdings of this state's public postsecondary education institutions. The catalog and discovery tool shall allow a user to search the library holdings of one institution, selected institutions, or all institutions and, to the extent feasible, shall include an interlibrary loan function that ensures an authorized user can access the required library holding.

2. An Internet-based searchable collection of electronic resources which shall include, but not be limited to, full-text journals, articles, databases, and electronic books licensed pursuant to paragraph (d).

3. An integrated library management system and its associated services that all public postsecondary education institution academic libraries shall use for purposes of acquiring, cataloging, circulating, and tracking library material.

4. A statewide searchable database that includes an inventory of digital archives and collections held by public postsecondary education institutions.

(d) In collaboration with library staff from Florida College System institutions and state universities, coordinate the negotiation of statewide licensing of electronic library resources and preferred pricing agreements, issue purchase orders, and enter into contracts for the acquisition of library support services, electronic resources, and other goods and services necessary to carry out its duties under this section.

(e) Promote and provide recommendations concerning the use and distribution of open-access textbooks and education resources and innovative pricing techniques that comply with all applicable laws in regard to copyrighted material as a method for reducing costs.

(f) Provide appropriate help desk support, training, and consultation services to institutions and students.

(2) STATEWIDE INTERNET-BASED CATALOG OF DISTANCE LEARNING COURSES.—There is established a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education institutions which is intended to assist in the coordination and collaboration of articulation and access pursuant to parts II and III of chapter 1007. The host entity is responsible for developing and disseminating operational procedures and technical guidelines for the catalog, to be followed by all participating institutions. Operating procedures and technical guidelines will address the following:

(a) Specific information concerning the distance learning

course or degree program, including, but not limited to, course number, classification of instructional programs number, and information on the availability of the course or degree program; any prerequisite course or technology competency or skill; the availability of academic support services and financial aid resources; and course costs, fees, and payment policies.

(b) Definitions and descriptions of the catalog's search and retrieval options that, at a minimum, will allow users to search by academic term or course start date; institution, multiple institutions, or all institutions; and course or program delivery methods, course type, course availability, subject or discipline, and course number or classification of instructional programs number.

(c) An Internet-based analytic tool that allows for the collection and analysis of data as to usage of resources accessed or interaction with constituent institutions whose courses and programs are listed in the catalog.

(d) Frequent review and updates to institution catalogs to ensure that distance learning courses and degree programs comply with operational procedures.

(3) STATEWIDE ONLINE STUDENT ADVISING SERVICES AND SUPPORT.—The following online services and support shall be made available on a statewide basis:

(a) A streamlined online admissions application process, which shall be used by all public postsecondary institutions, for undergraduate transient students currently enrolled and pursuing a degree at a public postsecondary education institution who enroll in a course offered by a public postsecondary education institution that is not the student's

degree-granting institution, which shall:

1. Use the transient student admissions application available through the statewide computer-assisted student advising system established pursuant to paragraph (b). This admissions application is the only application required for enrollment of a transient student as described in this paragraph.

2. Implement the financial aid procedures required by the transient student admissions application process.

3. Transfer credit awarded by the institution offering the course to the transient student's degree-granting institution.

4. Provide an interface between the institutional advising system and the statewide computer-assisted student advising system established pursuant to paragraph (b) in order to electronically send, receive, and process transient student admissions application.

(b) A K-20 statewide computer-assisted student advising system that shall support career and education planning for the K-12 system and the process of advising, registering, and certifying postsecondary students for graduation and that shall include a degree audit and an articulation component. Florida College System institutions and state universities shall interface institutional advising systems with the statewide computer-assisted student advising system. At a minimum, the statewide computer-assisted student advising system shall:

1. Allow a student to access the system at any time.

2. Support K-12 career and education planning.

3. Allow a student to search public postsecondary education institutions and identify course options that will meet the

requirements of a selected path toward a degree.

4. Audit transcripts of students enrolled in a public postsecondary education institution to assess current academic standing, the requirements for a student to transfer to another institution, and all requirements necessary for graduation.

5. Serve as the official statewide repository for the common prerequisite manual, admissions information for transferring programs, foreign language requirements, residency requirements, and statewide articulation agreements.

6. Provide information relating to career descriptions and corresponding educational requirements, admissions requirements, and available sources of student financial assistance.

7. Provide the admissions application for transient students pursuant to paragraph (a) which must include the electronic transfer and receipt of information and records for:

a. Admissions and readmissions.

b. Financial aid.

c. Transfer of credit awarded by the institution offering the course to the transient student's degree-granting institution using the Florida Automated System for Transferring Educational Records (the "FASTER System").

(c) A method for identifying and evaluating new technologies and instructional methods for improving distance learning instruction and development for faculty, student learning outcomes, student access, the efficient delivery of student support services, and the overall quality of postsecondary distance learning courses and degree programs.

(d) Negotiation of statewide licensing resources and preferred pricing agreements, issuing purchase orders, and

entering into contracts for the acquisition of distance learning resources, student and support services, electronic resources, and other goods and services necessary to carry out duties under this section.

(4) REPORTING.—Beginning December 31, 2021, and each year thereafter, the host entity shall submit a report to the chancellors of the State University System and the Florida College System regarding the implementation and operation of all components described in this section, including, but not limited to, usage information collected under paragraph (2)(c), information and associated costs relating to the services and functions of the program, and the implementation and operation of the automated library services. The chancellors will provide an annual report on the performance of the host entity in delivering the services and any recommendations for changes needed to this section to the Governor, the President of the Senate, the Speaker of the House of Representatives, the Board of Governors, and the State Board of Education.

(5) GOVERNANCE AND ADMINISTRATION.—The Office of the Board of Governors and the Department of Education shall have joint responsibility for determining the host entity for the services described in this section and shall share in the receipt and administration of an associated appropriation as described in the General Appropriations Act. The chancellors of the Florida College System and the Board of Governors shall provide oversight for successful delivery by the host entity of the services described in this section.

(6) RECOMMENDATION ON OTHER EDUCATIONAL INSTITUTIONS TO BE INCLUDED WITHIN THE FLORIDA POSTSECONDARY ACADEMIC LIBRARY

NETWORK.—By June 1, 2022, the Commissioner of Education and the Chancellor of the State University System shall provide a joint recommendation for a process by which school district career centers operated under s. 1001.44 and charter technical career centers under s. 1002.34 would access appropriate postsecondary distance learning, student support services, and library assets described in this section. The recommendation must include an analysis of the resources necessary to expand access and assets to centers and their students.

Section 5. Section 1006.735, Florida Statutes, is repealed.

Section 6. Paragraph (h) of subsection (3) of section 1007.01, Florida Statutes, is amended to read:

1007.01 Articulation; legislative intent; purpose; role of the State Board of Education and the Board of Governors; Articulation Coordinating Committee.—

(3) The Commissioner of Education, in consultation with the Chancellor of the State University System, shall establish the Articulation Coordinating Committee, which shall make recommendations related to statewide articulation policies and issues regarding access, quality, and reporting of data maintained by the K-20 data warehouse, established pursuant to ss. 1001.10 and 1008.31, to the Higher Education Coordination Council, the State Board of Education, and the Board of Governors. The committee shall consist of two members each representing the State University System, the Florida College System, public career and technical education, K-12 education, and nonpublic postsecondary education and one member representing students. The chair shall be elected from the membership. The Office of K-20 Articulation shall provide

administrative support for the committee. The committee shall:

(h) Recommend roles and responsibilities of public education entities in interfacing with the single, statewide computer-assisted student advising system established pursuant to s. 1006.73 ~~s. 1006.735~~.

Section 7. Subsection (1) of section 1007.27, Florida Statutes, is amended to read:

1007.27 Articulated acceleration mechanisms.—

(1) It is the intent of the Legislature that a variety of articulated acceleration mechanisms be available for secondary and postsecondary students attending public educational institutions. It is intended that articulated acceleration serve to shorten the time necessary for a student to complete the requirements associated with the conference of a high school diploma and a postsecondary degree, broaden the scope of curricular options available to students, or increase the depth of study available for a particular subject. Articulated acceleration mechanisms shall include, but are not limited to, dual enrollment and early admission as provided for in s. 1007.271, advanced placement, credit by examination, the International Baccalaureate Program, and the Advanced International Certificate of Education Program. Credit earned through the Florida Virtual School shall provide additional opportunities for early graduation and acceleration. Students of Florida public secondary schools enrolled pursuant to this subsection shall be deemed authorized users of the state-funded electronic library resources that are licensed for Florida College System institutions and state universities by the Florida Postsecondary Academic Library Network ~~Services~~

~~Cooperative~~. Verification of eligibility shall be in accordance with rules established by the State Board of Education and regulations established by the Board of Governors and processes implemented by Florida College System institutions and state universities.

Section 8. Paragraphs (a) and (c) of subsection (16) and subsection (17) of section 1009.23, Florida Statutes, are amended to read:

1009.23 Florida College System institution student fees.—

(16)(a) Each Florida College System institution may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.73 ~~s. 1006.735~~, a per-credit-hour distance learning course user fee. For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

(c) If an institution assesses the distance learning fee, the institution must provide a link to the catalog within the advising and distance learning sections of the institution's website~~, using a graphic and description provided by the Complete Florida Plus Program, to inform students of the catalog~~.

(17) Each Florida College System institution that accepts transient students, pursuant to s. 1006.73 ~~s. 1006.735~~, may establish a transient student fee not to exceed $5 per course for processing the transient student admissions application.

Section 9. Paragraph (t) of subsection (14) and paragraphs

298982

576-02710-21

(a) and (c) of subsection (17) of section 1009.24, Florida Statutes, are amended to read:

1009.24 State university student fees.—

(14) Except as otherwise provided in subsection (15), each university board of trustees is authorized to establish the following fees:

(t) A transient student fee that may not exceed $5 per course for accepting a transient student and processing the transient student admissions application pursuant to s. 1006.73 ~~s. 1006.735~~.

With the exception of housing rental rates and except as otherwise provided, fees assessed pursuant to paragraphs (h)-(s) shall be based on reasonable costs of services. The Board of Governors shall adopt regulations and timetables necessary to implement the fees and fines authorized under this subsection. The fees assessed under this subsection may be used for debt only as authorized under s. 1010.62.

(17)(a) A state university may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.73 ~~s. 1006.735~~, a per-credit-hour distance learning course fee. For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

(c) If an institution assesses the distance learning fee, the institution must provide a link to the catalog within the advising and distance learning sections of the institution's

298982

576-02710-21

website~~, using a graphic and description provided by the Complete Florida Plus Program, informing students of the catalog~~.

Section 10. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1436
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Education); and Senator Gruters
SUBJECT:	Florida Postsecondary Academic Library Network
DATE:	April 21, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Westmark	Bouck	ED	**Favorable**
2.	Underhill	Elwell	AED	**Recommend: Fav/CS**
3.	Underhill	Sadberry	AP	**Fav/CS**

I. Summary:

CS/SB 1436 establishes the Florida Postsecondary Academic Library Network (Network) under the joint oversight of the Office of the Board of Governors (BOG) and the Department of Education, and repeals the Complete Florida Plus Program (Complete Florida Plus). The bill retains certain functions from Complete Florida Plus, with modifications, and adds new functions. The bill:

- Maintains Complete Florida Plus purposes related to distance learning courses and degree programs, and online academic support services, but specifies that the Network purposes must include providing recommendations on the use and distribution of open-access textbooks and education resources, and innovative pricing techniques as a method to reduce costs.
- Specifies that the Network single library automation system and associated resources and services must include a shared Internet-based catalog and discovery tool, an Internet-based searchable collection of electronic resources, an integrated library management system, and a statewide searchable database that includes an inventory of digital archives and collections that public postsecondary education institutions hold.
- Increases reporting requirements on host entity performance in delivering specified services.
- Maintains an online admissions and computer-assisted student advising system.
- Requires, by June 1, 2022, the Commissioner of Education and the Chancellor of the BOG to provide a joint recommendation for a process by which school district career centers and charter technical career centers would access appropriate Network services.

The bill will require a state recurring appropriation. See Section V for fiscal comments.

The bill takes effect July 1, 2021.

II. Present Situation:

Complete Florida Plus Program Funding for Fiscal Year 2020-2021

In June 2020, the Governor vetoed the $29.4 million appropriation in the 2020-2021 budget for the Complete Florida Plus Program (Complete Florida Plus).[1] The program provided support services for distance learning, libraries, and student services. These services were provided to all 40 Florida College System (FCS) and State University System (SUS) institutions. Beginning July 2020, the Florida Department of Education and Board of Governors used limited carryforward funds and nonrecurring contributions from the 40 institutions' funds to ensure that the distance learning and library services components of the program were not disrupted for the 2020-2021 fiscal year.[2]

Complete Florida Plus Program

In 2014, the Legislature amended the Florida Virtual Campus (FLVC) to be the Complete Florida Plus Program and in 2015 moved management of the FLVC to the University of West Florida's (UWF's) Division of Research and Strategic Innovation, where its mission and purpose remained the same. The units under FLVC included the Florida Academic Library Services Cooperative and the Distance Learning and Student Services.[3]

Complete Florida Plus was created at UWF to:

- Facilitate degree completion for Florida's adult learners through the Complete Florida Degree Initiative;[4]
- Maintain and manage Florida's online catalog of distance learning courses, degree programs, and resources;
- Provide statewide online student advising services and support;
- Provide information regarding and access to distance learning courses and degree programs offered by public postsecondary education institutions within the state;
- Coordinate with the Florida College System (FCS) and the State University System (SUS) to identify and provide online academic support services and resources when the multi-institutional provision of such services and resources is more cost effective or operationally effective; and
- Administer the Florida Academic Library Services Cooperative and consult with the chancellors of the FCS and the SUS regarding the implementation and operations of the cooperative.[5]

[3] Florida Virtual Campus, *Organization Profile*, https://www.flvc.org/organization-profile (last visited Feb. 26, 2021). The Florida Virtual Campus (FLVC) was created in 2012 by the Florida Legislature through the consolidation of four statewide organizations: the College Center for Library Automation, the Florida Center for Library Automation, the Florida Center for Advising and Academic Support, and the Florida Distance Learning Consortium.
[4] *See* s. 1006.735(2), F.S.
[5] Distance Learning and Student Services, *Complete Florida Plus Program*, https://dlss.flvc.org/about/legislation-regulation/complete-florida-plus-program (last visited Feb. 25, 2021). *See also* s. 1006.735(1), F.S.

Complete Florida Plus was required to make available online student advising services and support, including all of the following:

- A streamlined online admissions application process, to be used by all postsecondary institutions, for undergraduate transient students currently enrolled and pursuing a degree at a public postsecondary education institution who enroll in a course offered by a public postsecondary education institution that is not the student's degree-granting institution. UWF is required to work with FCS institutions and state universities as specified in law.
- A K-20 statewide computer-assisted student advising system to support career and education planning for the K-12 system and the process of advising, registering, and certifying postsecondary students for graduation and to include a degree audit and an articulation component. FCS institutions and state universities are to interface institutional advising systems with the statewide computer-assisted student advising system that meets minimum specified requirements.
- A method for identifying and evaluating new technologies and instructional methods for improving distance learning instruction and development for faculty, student learning outcomes, student access, the efficient delivery of student support services, the alignment of degrees to career needs, and the overall quality of postsecondary distance learning courses and degree programs.
- Help desk support and training and consultation services to institutions and students using Complete Florida Plus services and resources.
- Negotiation of statewide licensing resources and preferred pricing agreements, issuing purchase orders, and entering into contracts for the acquisition of distance learning resources, student and support services, electronic resources, and other goods and services necessary.
- Development and implementation of a plan, in consultation with public postsecondary education institutions, which describes the services and resources available through Complete Florida Plus to encourage current and prospective students' use.[6]

Complete Florida Plus developed and managed a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education institutions which is intended to assist in the coordination and collaboration of articulation and access. Operational procedures for the catalog must:

- Require participating institutions to provide specified information concerning the distance learning course or degree program.
- Require that distance learning courses and degree programs meet applicable accreditation standards and criteria.
- Require that the catalog is reviewed and updated frequently to ensure compliance with operational procedures.
- Define and describe the catalog's search and retrieval options that will allow users to search by specified criteria, at a minimum.
- Use an Internet-based analytic tool that allows the collection and analysis of specified data.[7]

[6] Section 1006.735(4), F.S.
[7] Section 1006.735(3), F.S.

UWF is required to submit a report on an annual basis to the President of the Senate and the Speaker of the House of Representatives regarding the implementation and operation of all components of Complete Florida Plus, including information and associated costs relating to the services and functions of the program.[8]

The Northwest Regional Data Center[9] is required by law to provide all data center services necessary to support the statewide Internet-based catalog established and the statewide online student advising services and support.[10]

Florida Academic Library Services Cooperative

The Florida Academic Library Services Cooperative (FALSC) provides a single library automation system and associated resources and services for all public postsecondary institutions to use to support learning, teaching, and research needs.[11] The FALSC develops and manages a library information portal and automated library management tools for use by FCS institutions and state universities.[12]

The FALSC is a unit of the FLVC which operates the integrated library system used by public colleges and university libraries statewide. The FALSC also provides more than 150,000 unique, digital archive and collection items and a statewide collection of over 400,000 online journals, e-books, and e-resources, available to assist nearly 1.3 million students, faculty, and staff throughout Florida.[13]

Products and services offered by the FALSC include:

- Management and maintenance of the statewide collection of e-resources available to students at all 40 public colleges and universities.[14]
- A shared catalog of library holdings for students to search for materials owned by any college or university in Florida.
- An integrated library system used by libraries to manage their local collections.
- Collaboration with public post-secondary education institutions to create and support Florida libraries' digital archives and collections.
- Negotiation and procurement of e-resources for individual institutions through a group licensing process.
- In-person training and consultation on the FALSC products and services, in addition to online webinars, instruction, and self-paced training for all college and university libraries.

[13] Florida Academic Library Services Cooperative, *About FALSC*, https://libraries.flvc.org/about-falsc (last visited Feb. 25, 2021).

[14] Students enrolled in Florida public secondary schools are required to have access to state funded electronic library resources licensed by the Florida Academic Library Services Cooperative. Fla. Admin. Code R. 6A-7.077. Public secondary school students enrolled in the articulated acceleration programs are also eligible to use electronic library resources funded by the Florida Center for Library Automation. Board of Governors Regulation 6.012.

- A centralized Help Desk providing user and technical support for the FALSC library services.
- A statewide open education community to promote and support textbook affordability and Open Educational Resources.[15]

Distance Learning and Student Services

Distance Learning and Student Services (DLSS) provides an array of innovative educational services for students, educators, and administrators in Florida. The DLSS operates several statewide services that impact the success of the state's students, of which is FloridaShines.[16]

FloridaShines

FloridaShines works with the state's public colleges and universities and other partners as a website where students can check their transcripts, register for online courses, search academic libraries across the state, and compare colleges and universities, among other activities, at no cost to the student.[17]

MyCareerShines

MyCareerShines provides career education and associated academic advising as a portal for Complete Florida Plus.[18] The FLVC's MyCareerShines career exploration system allows individuals to take skill and interest assessments and match their results to profiles of potential careers, while emphasizing those with high-growth potential in Florida. Cost-free resources available assist in creating an education plan, searching for scholarships, writing a resume, interviewing, and locating available jobs in Florida. MyCareerShines offers specialized modules for PreK-5 students, middle and high school students, college and university students, and adults.[19]

MyCareerShines has registered more than 859,000 users, with more than 1.2 million career assessments completed by middle school, high school, college, and adult users of the system. MyCareerShines is being used in approximately 3,400 middle school, high school and postsecondary institutions throughout Florida.[20]

III. Effect of Proposed Changes:

The bill establishes the Florida Postsecondary Academic Library Network (Network) under the joint oversight of the Office of the Board of Governors (BOG) and the Department of Education

(DOE) in place of the Florida Academic Library Services Cooperative, and repeals the Complete Florida Plus Program (Complete Florida Plus).

The bill declares that the purpose of the Network is to deliver specified services to public postsecondary education institutions in Florida, namely all Florida College System (FCS) and State University System (SUS) institutions. The bill retains the general purpose of Complete Florida Plus, which includes the following services:

- Provision of information regarding and access to distance learning courses and degree programs offered by public postsecondary education institutions within the state.
- Coordination with the FCS and SUS to identify and provide online academic support services and resources when the multi-institutional provision of such services and resources is more cost effective or operationally effective.
- Administration of a single library automation system and associated resources and services that all public postsecondary institutions use to support learning, teaching, and research needs, and development of automated library management tools.

The bill also adds to the Network the following services and functions:

- To the single library automation system:
  - A shared Internet-based catalog and discovery tool that allows a user to search and, if authorized, access the aggregate library holdings of the state's public postsecondary education institutions. The catalog and discovery tool must allow a user to search the library holdings of one institution, selected institutions, or all institutions and, to the extent feasible, must include an interlibrary loan function that ensures an authorized user can access the required library holding.
  - An Internet-based searchable collection of electronic resources which must include, but not be limited to, full-text journals, articles, databases, and electronic books licensed as specified.
  - An integrated library management system and its associated services that all public postsecondary education institution academic libraries must use for purposes of acquiring, cataloging, circulating, and tracking library material.
  - A statewide searchable database that includes an inventory of digital archives and collections held by public postsecondary education institutions.
- Coordination, with FCS institutions' and state universities' library staff, of the negotiation of statewide licensing of electronic library resources and preferred pricing agreements, issue purchase orders, and entering into contracts for the acquisition of library support services, electronic resources, and other goods and services necessary to carry out its authorized duties.
- Promotion and provision of recommendations concerning the use and distribution of open-access textbooks and education resources and innovative pricing techniques as a method for reducing costs.
- Provision of appropriate help desk support and training and consultation services to institutions and students.

The bill maintains from Complete Florida Plus a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education

institutions, intended to assist in the coordination and collaboration of articulation and access specified in law.[21]

In addition, the bill expands on functions in the Complete Florida Plus catalog of distance learning courses, to specify that the host entity is responsible for developing and disseminating operational procedures and technical guidelines for the catalog, to be followed by all participating institutions, which guidelines must address all of the following:

- Specific information concerning the distance learning course or degree program, including but not limited to course number, classification of instructional programs number, and information on the availability of the course or degree program; any prerequisite course or technology competency or skill; the availability of academic support services and financial aid resources; and course costs, fees, and payment policies.
- Definitions and descriptions of the catalog's search and retrieval options that will at a minimum allow users to search by academic term or course start date; institution, multiple institutions, or all institutions; and course or program delivery methods, course type, course availability, subject or discipline, and course number or classification of instructional programs number.
- An Internet-based analytic tool that allows for the collection and analysis of data as to usage of resources accessed or interaction with constituent institutions whose courses and programs are listed in the catalog.
- Frequent review and updates to institution catalogs to ensure that distance learning courses and degree programs comply with operational procedures.

The bill retains Complete Florida Plus student advising and support, with some modifications. Specifically, the bill requires the student advising services to provide all of the following:

- A streamlined online admissions application process, to be used by all public postsecondary institutions, for undergraduate transient students currently enrolled and pursuing a degree at a public postsecondary education institution who enroll in a course offered by a public postsecondary education institution that is not the student's degree-granting institution, which must:
  - Use the transient student admissions application available through the statewide computer-assisted student advising system as specified. This admissions application is the only application required for enrollment of a transient student as described;
  - Implement the financial aid procedures required by the transient student admissions application process;
  - Transfer credit awarded by the institution offering the course to the transient student's degree-granting institution; and
  - Provide an interface between the institutional advising system and the statewide computer-assisted student advising system established, in order to electronically send, receive, and process the transient student admissions application.
- A statewide computer-assisted student advising system to support the process of advising, registering, and certifying student progression toward a degree and career and which must include a degree audit and an articulation component.
- A method for identifying and evaluating new technologies and instructional methods for improving distance learning instruction and development for faculty, student learning

[21] Sections 1007.01 - 1007.273, F.S.

outcomes, student access, the efficient delivery of student support services, and the overall quality of postsecondary distance learning courses and degree programs.
- Negotiation of statewide licensing resources and preferred pricing agreements, issuing purchase orders, and entering into contracts for the acquisition of distance learning resources, student and support services, electronic resources, and other goods and services necessary.

The bill requires FCS institutions and state universities to interface institutional advising systems with the statewide computer-assisted student advising system, which must, at a minimum:
- Allow a student to access the system at any time;
- Support career and education planning;
- Allow a student to search public postsecondary education institutions and identify course options that will meet the requirements of a selected path toward a degree;
- Audit transcripts of students enrolled in a public postsecondary education institution to assess current academic standing, the requirements for a student to transfer to another institution, and all requirements necessary for graduation;
- Serve as the official statewide repository for the common prerequisite manual, admissions information for transferring programs, foreign language requirements, residency requirements, and statewide articulation agreements;
- Provide information relating to career descriptions and corresponding educational requirements, admissions requirements, and available student financial assistance sources; and
- Provide the admissions application for transient students as specified, which must include the electronic transfer and receipt of information and records for admissions and readmissions, financial aid, and transfer of credit awarded by the institution offering the course to the transient student's degree-granting institution using the Florida Automated System for Transferring Educational Records (the "FASTER System").

The bill changes the host from UWF, but retains a reporting requirement similar to Complete Florida Plus. The bill requires the host entity, beginning December 31, 2021, and each year thereafter, to submit a report to the Chancellors of the SUS and FCS regarding the implementation and operation of all components described, including, but not limited to, usage information collected, information and associated costs relating to the services and functions of the program, and the implementation and operation of the automated library services. The chancellors are required to provide an annual report on the performance of the host entity in delivering the services and any recommendations for changes needed to the Governor, the President of the Senate, the Speaker of the House of Representatives, the BOG, and the State Board of Education.

The bill assigns the Office of the BOG and the DOE joint responsibility for determining the host entity for the services described and sharing in the receipt and administration of an associated appropriation as described in the General Appropriations Act. The Chancellors of the FCS and the BOG are required to provide oversight for successful delivery by the host entity of the services described. The bill also removes the requirement under Complete Florida Plus that the Northwest Regional Data Center support the Network.

The bill adds a new requirement that the Commissioner of Education and the Chancellor of the SUS must, by June 1, 2022, provide a joint recommendation for a process by which school district career centers operated pursuant to state law and charter technical career centers operated pursuant to state law would access appropriate postsecondary distance learning, student support services, and library assets as described. The recommendation must include an analysis of the resources necessary to expand access and assets to centers and their students.

Where applicable, the bill updates statutory references to specified services provided by the Network to read Florida Postsecondary Academic Library Network.

In accordance with the repeal of Complete Florida Plus, the bill removes statutory references to Complete Florida Plus and to the Complete Florida Degree Initiative, removes statutory requirements to use a graphic and description provided by Complete Florida Plus to inform students of the catalog, and removes a directive in law that encouraged veterans, if appropriate, to participate in the Complete Florida Degree Program.

The bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Governor has recommended funding to cover costs associated with the Florida Postsecondary Academic Library Network in the amount of $9,076,322 for Florida College System institutions and $11,836,500 for state universities.[22]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 257.02, 295.22, 1004.013, 1006.73, 1007.01, 1007.27, 1009.23, and 1009.24.

This bill repeals section 1006.735 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 19, 2021:
The committee substitute:

- Includes innovative pricing techniques as a method to reduce costs related to textbooks and education resources; and
- Specifies that the statewide computer-assisted student advising system must, in addition to its other functions, support career and education planning.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

23-01057A-21 20211436__

A bill to be entitled

An act relating to the Florida Postsecondary Academic Library Network; amending ss. 257.02 and 295.22, F.S.; conforming provisions to changes made by the act; amending s. 1004.013, F.S.; revising provisions relating to the awareness of certain postsecondary education programs and initiatives; amending s. 1006.73, F.S.; deleting provisions relating to the Florida Academic Library Services Cooperative; providing responsibilities for the Florida Postsecondary Academic Library Network; providing that the Board of Governors and the Department of Education will oversee a host entity chosen to deliver certain services; providing the services to be provided by the host entity; transferring responsibility for the statewide Internet-based catalog of distance learning courses to the host entity; providing requirements for such catalog; transferring responsibility for certain statewide online student advising services to the host entity; providing requirements for such services; requiring the host entity to annually submit a certain report by a specified date; providing requirements for such report; requiring the chancellors of the State University System and the Florida College System to provide a certain report; providing that specified entities have responsibility for the governance and administration of the provided services; requiring specified entities to issue a recommendation and report on expanding organizations who may access the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

23-01057A-21 20211436__

provided services; repealing s. 1006.735, F.S., relating to the Complete Florida Plus Program; amending s. 1007.01, F.S.; conforming a cross-reference; amending s. 1007.27, F.S.; conforming a provision to changes made by the act; amending ss. 1009.23 and 1009.24, F.S.; conforming cross-references; revising a requirement to include a certain graphic on specified websites; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 257.02, Florida Statutes, is amended to read:

257.02 State Library Council.—

(1) There shall be a State Library Council to advise and assist the division with planning, policy, and priorities related to the development of statewide information services. The council shall consist of nine members who shall be appointed by the Secretary of State. Of the nine members, three members must represent Florida public libraries, two members must represent the Florida Postsecondary Academic Library Network ~~Services Cooperative~~, one member must represent a multitype library cooperative, one member must represent a school library media center, one member must represent the Independent Colleges and Universities of Florida, and one member must represent a Florida library professional association. Members shall be appointed for 4-year terms. A vacancy on the council shall be filled for the period of the unexpired term. A person may not be

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

appointed to serve more than two consecutive terms as a member of the council. The secretary may remove from office any council member for malfeasance, misfeasance, neglect of duty, incompetence, permanent inability to perform official duties, or pleading guilty or nolo contendere to, or being found guilty of, a felony.

Section 2. Paragraph (b) of subsection (3) of section 295.22, Florida Statutes, is amended to read:

295.22 Veterans Employment and Training Services Program.—

(3) ADMINISTRATION.—Florida Is For Veterans, Inc., shall administer the Veterans Employment and Training Services Program and perform all of the following functions:

(b) Assist veterans who reside in or relocate to this state and who are seeking employment. The corporation shall offer skills assessments to veterans and assist them in establishing employment goals and applying for and achieving gainful employment.

1. Assessment may include skill match information, skill gap analysis, resume creation, translation of military skills into civilian workforce skills, and translation of military achievements and experience into generally understood civilian workforce skills.

2. Assistance may include providing the veteran with information on current workforce demand by industry or geographic region, creating employment goals, and aiding or teaching general knowledge related to completing applications. The corporation may provide information related to industry certifications approved by the Department of Education under s. 1008.44 as well as information related to earning academic

college credit at public postsecondary educational institutions for college-level training and education acquired in the military under s. 1004.096.

3. The corporation shall encourage veterans to register with the state's job bank system and may refer veterans to local one-stop career centers for further services. The corporation shall provide each veteran with information about state workforce programs and shall consolidate information about all available resources on one website that, if possible, includes a hyperlink to each resource's website and contact information, if available. ~~If appropriate, a veteran shall be encouraged to participate in the Complete Florida Degree Program established under s. 1006.735.~~

4. Assessment and assistance may be in person or by electronic means, as determined by the corporation to be most efficient and best meet the needs of veterans.

Section 3. Paragraph (a) of subsection (2) of section 1004.013, Florida Statutes, is amended to read:

1004.013 SAIL to 60 Initiative.—

(2) The State Board of Education and the Board of Governors shall work collaboratively to, at a minimum:

(a) Increase the awareness and use of:

1. The student advising system established under s. 1006.73 ~~s. 1006.735(4)(b)~~.

~~2. The Complete Florida Degree Initiative established under s. 1006.735(2) that facilitates degree completion for the state's adult learners. The Chancellor of the State University System and the Chancellor of the Florida College System shall consult with the Complete Florida Degree Initiative to identify~~

~~barriers to program expansion and develop recommendations to increase the number of participating institutions and students served by the program. The recommendations must consider, at a minimum, methods for increasing outreach efforts to help students complete the "last mile" by providing financial assistance to students who are within 12 credit hours of completing their first associate or baccalaureate degree, but have separated from their institution of enrollment for more than one semester. Recommendations must be submitted to the Board of Governors, the State Board of Education, and the Governor no later than October 1, 2019.~~

2.~~3.~~ Summer bridge programs at state universities and Florida College System institutions that help students transition to postsecondary education.

Section 4. Section 1006.73, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 1006.73, F.S., for present text.)

1006.73 Florida Postsecondary Academic Library Network.—

(1) PURPOSE.—The Board of Governors and the Department of Education shall jointly oversee the host entity in accordance with subsection (5) which will deliver the following services to public postsecondary education institutions in this state, which, for the purposes of this section, means all Florida College System and State University System institutions:

(a) Provide information regarding and access to distance learning courses and degree programs offered by public postsecondary education institutions within this state.

(b) Coordinate with the Florida College System and the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

State University System to identify and provide online academic support services and resources when the multi-institutional provision of such services and resources is more cost effective or operationally effective.

(c) Administer a single library automation system and associated resources and services that all public postsecondary institutions shall use to support learning, teaching, and research needs and develop automated library management tools that shall include, but are not limited to, the following services and functions:

1. A shared Internet-based catalog and discovery tool that allows a user to search and, if authorized, access the aggregate library holdings of this state's public postsecondary education institutions. The catalog and discovery tool shall allow a user to search the library holdings of one institution, selected institutions, or all institutions and, to the extent feasible, shall include an interlibrary loan function that ensures an authorized user can access the required library holding.

2. An Internet-based searchable collection of electronic resources which shall include, but not be limited to, full-text journals, articles, databases, and electronic books licensed pursuant to paragraph (d).

3. An integrated library management system and its associated services that all public postsecondary education institution academic libraries shall use for purposes of acquiring, cataloging, circulating, and tracking library material.

4. A statewide searchable database that includes an inventory of digital archives and collections held by public

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

postsecondary education institutions.

(d) In collaboration with library staff from Florida College System institutions and state universities, coordinate the negotiation of statewide licensing of electronic library resources and preferred pricing agreements, issue purchase orders, and enter into contracts for the acquisition of library support services, electronic resources, and other goods and services necessary to carry out its duties under this section.

(e) Promote and provide recommendations concerning the use and distribution of open-access textbooks and education resources as a method for reducing costs.

(f) Provide appropriate help desk support, training, and consultation services to institutions and students.

(2) STATEWIDE INTERNET-BASED CATALOG OF DISTANCE LEARNING COURSES.—There is established a statewide Internet-based catalog of distance learning courses, degree programs, and resources offered by public postsecondary education institutions which is intended to assist in the coordination and collaboration of articulation and access pursuant to parts II and III of chapter 1007. The host entity is responsible for developing and disseminating operational procedures and technical guidelines for the catalog, to be followed by all participating institutions. Operating procedures and technical guidelines will address the following:

(a) Specific information concerning the distance learning course or degree program, including, but not limited to, course number, classification of instructional programs number, and information on the availability of the course or degree program; any prerequisite course or technology competency or skill; the

availability of academic support services and financial aid resources; and course costs, fees, and payment policies.

(b) Definitions and descriptions of the catalog's search and retrieval options that, at a minimum, will allow users to search by academic term or course start date; institution, multiple institutions, or all institutions; and course or program delivery methods, course type, course availability, subject or discipline, and course number or classification of instructional programs number.

(c) An Internet-based analytic tool that allows for the collection and analysis of data as to usage of resources accessed or interaction with constituent institutions whose courses and programs are listed in the catalog.

(d) Frequent review and updates to institution catalogs to ensure that distance learning courses and degree programs comply with operational procedures.

(3) STATEWIDE ONLINE STUDENT ADVISING SERVICES AND SUPPORT.—The following online services and support shall be made available on a statewide basis:

(a) A streamlined online admissions application process, which shall be used by all public postsecondary institutions, for undergraduate transient students currently enrolled and pursuing a degree at a public postsecondary education institution who enroll in a course offered by a public postsecondary education institution that is not the student's degree-granting institution, which shall:

1. Use the transient student admissions application available through the statewide computer-assisted student advising system established pursuant to paragraph (b). This

admissions application is the only application required for enrollment of a transient student as described in this paragraph.

2. Implement the financial aid procedures required by the transient student admissions application process.

3. Transfer credit awarded by the institution offering the course to the transient student's degree-granting institution.

4. Provide an interface between the institutional advising system and the statewide computer-assisted student advising system established pursuant to paragraph (b) in order to electronically send, receive, and process transient student admissions application.

(b) A statewide computer-assisted student advising system that shall support the process of advising, registering, and capturing student progression toward a degree and career and shall include a degree audit and an articulation component. Florida College System institutions and state universities shall interface institutional advising systems with the statewide computer-assisted student advising system. At a minimum, the statewide computer-assisted student advising system shall:

1. Allow a student to access the system at any time.

2. Allow a student to search public postsecondary education institutions and identify course options that will meet the requirements of a selected path toward a degree.

3. Audit transcripts of students enrolled in a public postsecondary education institution to assess current academic standing, the requirements for a student to transfer to another institution, and all requirements necessary for graduation.

4. Serve as the official statewide repository for the

common prerequisite manual, admissions information for transferring programs, foreign language requirements, residency requirements, and statewide articulation agreements.

5. Provide information relating to career descriptions and corresponding educational requirements, admissions requirements, and available sources of student financial assistance.

6. Provide the admissions application for transient students pursuant to paragraph (a) which must include the electronic transfer and receipt of information and records for:

a. Admissions and readmissions.

b. Financial aid.

c. Transfer of credit awarded by the institution offering the course to the transient student's degree-granting institution using the Florida Automated System for Transferring Educational Records (the "FASTER System").

(c) A method for identifying and evaluating new technologies and instructional methods for improving distance learning instruction and development for faculty, student learning outcomes, student access, the efficient delivery of student support services, and the overall quality of postsecondary distance learning courses and degree programs.

(d) Negotiation of statewide licensing resources and preferred pricing agreements, issuing purchase orders, and entering into contracts for the acquisition of distance learning resources, student and support services, electronic resources, and other goods and services necessary to carry out duties under this section.

(4) REPORTING.—Beginning December 31, 2021, and each year thereafter, the host entity shall submit a report to the

chancellors of the State University System and the Florida College System regarding the implementation and operation of all components described in this section, including, but not limited to, usage information collected under paragraph (2)(c), information and associated costs relating to the services and functions of the program, and the implementation and operation of the automated library services. The chancellors will provide an annual report on the performance of the host entity in delivering the services and any recommendations for changes needed to this section to the Governor, the President of the Senate, the Speaker of the House of Representatives, the Board of Governors, and the State Board of Education.

(5) GOVERNANCE AND ADMINISTRATION.—The Office of the Board of Governors and the Department of Education shall have joint responsibility for determining the host entity for the services described in this section and shall share in the receipt and administration of an associated appropriation as described in the General Appropriations Act. The chancellors of the Florida College System and the Board of Governors shall provide oversight for successful delivery by the host entity of the services described in this section.

(6) RECOMMENDATION ON OTHER EDUCATIONAL INSTITUTIONS TO BE INCLUDED WITHIN THE FLORIDA POSTSECONDARY ACADEMIC LIBRARY NETWORK.—By June 1, 2022, the Commissioner of Education and the Chancellor of the State University System shall provide a joint recommendation for a process by which school district career centers operated under s. 1001.44 and charter technical career centers under s. 1002.34 would access appropriate postsecondary distance learning, student support services, and library assets

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

described in this section. The recommendation must include an analysis of the resources necessary to expand access and assets to centers and their students.

Section 5. Section 1006.735, Florida Statutes, is repealed.

Section 6. Paragraph (h) of subsection (3) of section 1007.01, Florida Statutes, is amended to read:

1007.01 Articulation; legislative intent; purpose; role of the State Board of Education and the Board of Governors; Articulation Coordinating Committee.—

(3) The Commissioner of Education, in consultation with the Chancellor of the State University System, shall establish the Articulation Coordinating Committee, which shall make recommendations related to statewide articulation policies and issues regarding access, quality, and reporting of data maintained by the K-20 data warehouse, established pursuant to ss. 1001.10 and 1008.31, to the Higher Education Coordination Council, the State Board of Education, and the Board of Governors. The committee shall consist of two members each representing the State University System, the Florida College System, public career and technical education, K-12 education, and nonpublic postsecondary education and one member representing students. The chair shall be elected from the membership. The Office of K-20 Articulation shall provide administrative support for the committee. The committee shall:

(h) Recommend roles and responsibilities of public education entities in interfacing with the single, statewide computer-assisted student advising system established pursuant to s. 1006.73 ~~s. 1006.735~~.

Section 7. Subsection (1) of section 1007.27, Florida

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Statutes, is amended to read:

1007.27 Articulated acceleration mechanisms.—

(1) It is the intent of the Legislature that a variety of articulated acceleration mechanisms be available for secondary and postsecondary students attending public educational institutions. It is intended that articulated acceleration serve to shorten the time necessary for a student to complete the requirements associated with the conference of a high school diploma and a postsecondary degree, broaden the scope of curricular options available to students, or increase the depth of study available for a particular subject. Articulated acceleration mechanisms shall include, but are not limited to, dual enrollment and early admission as provided for in s. 1007.271, advanced placement, credit by examination, the International Baccalaureate Program, and the Advanced International Certificate of Education Program. Credit earned through the Florida Virtual School shall provide additional opportunities for early graduation and acceleration. Students of Florida public secondary schools enrolled pursuant to this subsection shall be deemed authorized users of the state-funded electronic library resources that are licensed for Florida College System institutions and state universities by the Florida Postsecondary Academic Library Network ~~Services Cooperative~~. Verification of eligibility shall be in accordance with rules established by the State Board of Education and regulations established by the Board of Governors and processes implemented by Florida College System institutions and state universities.

Section 8. Paragraphs (a) and (c) of subsection (16) and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

subsection (17) of section 1009.23, Florida Statutes, are amended to read:

1009.23 Florida College System institution student fees.—

(16)(a) Each Florida College System institution may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.73 ~~s. 1006.735~~, a per-credit-hour distance learning course user fee. For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

(c) If an institution assesses the distance learning fee, the institution must provide a link to the catalog within the advising and distance learning sections of the institution's website~~, using a graphic and description provided by the Complete Florida Plus Program, to inform students of the catalog~~.

(17) Each Florida College System institution that accepts transient students, pursuant to s. 1006.73 ~~s. 1006.735~~, may establish a transient student fee not to exceed $5 per course for processing the transient student admissions application.

Section 9. Paragraph (t) of subsection (14) and paragraphs (a) and (c) of subsection (17) of section 1009.24, Florida Statutes, are amended to read:

1009.24 State university student fees.—

(14) Except as otherwise provided in subsection (15), each university board of trustees is authorized to establish the following fees:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

(t) A transient student fee that may not exceed $5 per course for accepting a transient student and processing the transient student admissions application pursuant to s. 1006.73 ~~s. 1006.735~~.

With the exception of housing rental rates and except as otherwise provided, fees assessed pursuant to paragraphs (h)-(s) shall be based on reasonable costs of services. The Board of Governors shall adopt regulations and timetables necessary to implement the fees and fines authorized under this subsection. The fees assessed under this subsection may be used for debt only as authorized under s. 1010.62.

(17)(a) A state university may assess a student who enrolls in a course listed in the distance learning catalog, established pursuant to s. 1006.73 ~~s. 1006.735~~, a per-credit-hour distance learning course fee. For purposes of assessing this fee, a distance learning course is a course in which at least 80 percent of the direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.

(c) If an institution assesses the distance learning fee, the institution must provide a link to the catalog within the advising and distance learning sections of the institution's website~~, using a graphic and description provided by the Complete Florida Plus Program, informing students of the catalog~~.

Section 10. This act shall take effect July 1, 2021.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

2.	Ravelo	Cibula	JU	**Fav/CS**
3.	Blizzard	Sadberry	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1532 makes numerous changes to the Child Support Program, which is administered by the Department of Revenue (DOR), Florida's Title IV-D agency. As the state's Title IV-D agency, the DOR is responsible for collecting and enforcing child support. To receive services from the Child Support Program, families either complete an application for services, or are automatically referred because a parent is receiving cash or food assistance.

The bill makes the following changes to the Child Support Program:

- Specifies that affidavits of default or a default in payments are not required for Title IV-D cases to have accounts established in the Clerk of Court Child Support Collection System, and that Title IV-D payments are processed through the State Disbursement Unit;
- Amends the statements the DOR is required to certify when requesting a consumer report, to conform to the federal Fair Credit Reporting Act;
- Allows notices relating to consumer reports to be made by regular mail instead of by certified or registered mail;
- Prohibits the state from treating incarceration as voluntary unemployment when a support order is established or modified, unless limited exceptions apply;
- Codifies how social security dependent benefits affect the amount of child support ordered; the extent to which the parent receives credit for the benefits; and how a parent obtains credit for dependent benefits;
- Updates the process for rendering final orders;

- Authorizes the use of electronic notices of garnishment to consenting financial institutions;
- Revises the data exchange process between the DOR and the Department of Financial Services relating to the use of unclaimed property for past due child support;
- Permits the DOR to transmit confidential and exempt information with limited exception by unencrypted electronic mail to a parent, caregiver, or other person authorized to receive information about DOR services upon his or her consent; and
- Requires an entity to report to the State Directory of New Hires nonemployees who perform services and are paid $600 or more in a calendar year.

Additionally, the bill expands the authorized topics under the parent education and family stabilization course that is required for parents of minor children seeking a dissolution of marriage. The bill requires the parents of children with special needs or emotional concerns to select a course that is tailored towards those needs. Moreover, a court may authorize a parent to take an additional course covering those needs, separate from the required parent education and family stabilization course.

The bill has an indeterminate operational fiscal impact to the DOR. However, any impact is likely insignificant and can be absorbed within existing resources.

The bill is effective October 1, 2021.

II. Present Situation:

Refer to Section III. Effect of Proposed Changes for discussion of the relevant portions of current law.

III. Effect of Proposed Changes:

Support of Children (Section 1)

Present Situation

Title IV-D cases

Title IV-D (IV-D) refers to Title IV, Part D of the Social Security Act, which is the federally funded, state administered child support enforcement program.[1] The IV-D program is administered by the federal Office of Child Support Enforcement (OCSE), within the United States Department of Health and Human Services. The OCSE oversees the national child support program and partners with state and local child support agencies to encourage parental responsibility so that children receive financial, emotional, and medical support from both parents, even when they live in separate households.[2] The OCSE does not provide services directly to families, but helps state child support agencies develop, manage, and operate their child support programs effectively and according to federal law.[3]

[1] 42 U.S.C. s. 651, et. seq.
[2] *Id*.
[3] U.S. Department of Health & Human Services, Office of Child Support Enforcement (OCSE), An Office of the Administration for Children & Families, *About the Office of Child Support Enforcement*, (February 2, 2021) *available at* https://www.acf.hhs.gov/css/about (last visited Mar. 8, 2021).

As Florida's IV-D agency,[4] the Department of Revenue (DOR) is responsible for collecting and enforcing child support.[5] The Child Support Program provides child support services to over one million children and collects over a billion dollars in child support each year.[6] The Child Support Program works with parents, employers, financial institutions, the Internal Revenue Service, state and local agencies, and courts throughout the state to receive timely child support payments and also works with families and partners to:

- Locate parents, employers, and assets;
- Establish paternity;
- Establish and modify child support orders;
- Collect and disburse child support payments; and
- Monitor and enforce child support orders.[7]

Child support services are available even if a parent lives in another state or country. To receive the no-cost services from the Child Support Program, families either complete an application for services or are automatically referred because a parent is receiving cash or food assistance.[8]

The DOR offers child support services in all but two Florida counties, partnering with the State Attorney's Office for services in Miami-Dade County and the Manatee County Clerk of Court for services in Manatee County.[9]

Depository Role in IV-D Cases

Once a judge orders child support, the obligor may pay the obligee directly or payments can be made through an Income Withholding Order. If an Income Withholding Order is issued, the payments will be processed at the State Disbursement Unit (SDU)[10] administered by the DOR. The clerks of courts act as record keepers for payments processed at the SDU. Obligors must make all child support payments in IV-D cases to the SDU.[11]

Upon request of the parties, the court may order that child support payments be made through the depository or directly to the obligee if it is in the child's best interest.[12] If such an order is made,

[10] Section 61.046(20), F.S., provides that the "State Disbursement Unit" means the unit established and operated by the Title IV-D agency to provide one central address for collection and disbursement of child support payments made in cases enforced by the DOR pursuant to Title IV-D of the Social Security Act and in cases not being enforced by the DOR in which the support order was initially issued in this state on or after January 1, 1994, and in which the obligor's child support obligation is being paid through income deduction order.
[11] Sections 61.1824(1)(a), 61.1824(6), and 409.2559, F.S., and 42 U.S.C. s. 654b(a)(1)(A).
[12] Section 61.13(1)(d), F.S.

any party or the DOR in an IV-D case may file an affidavit with the depository[13] that alleges the obligor has defaulted on his or her child support payment obligations and that requests the payments be made through the depository.[14] The party must submit a copy of the affidavit to the court and to all parties.[15] Fifteen days after receipt of the affidavit, the depository must notify all parties that future payments will be paid through the depository, except income deduction payments must be made through the State Disbursement Unit.[16]

When a private case with a support order payable directly to the parent who is owed support becomes an IV-D case, the clerk's depository must create payment accounts on the Clerk of Court Child Support Collection System (CLERC System) for payments to be disbursed to the parent owed support and for the payment data to be sent to the DOR.[17] A private case may become an IV-D case due to either payment of public assistance or because a parent applies for IV-D services.[18]

Effect of Bill

The bill amends s. 61.13, F.S., to:

- Specify that payments in IV-D cases must be made to the SDU; and
- Require that, upon notice by the DOR that it is providing IV-D services in a case with an existing support order, the depository establish a case on the CLERC System and set up the appropriate payment accounts so that payments can be disbursed by the SDU, regardless of whether there is a default in payment.

Child Support Guidelines; Retroactive Payments (Section 4)

Present Situation

As the state's IV-D agency, federal law authorizes the head of the DOR, or its designee, to obtain consumer reports to determine an individual's income, establish that individual's capacity to make support payments, or determine the appropriate amount of child support the individual pays. Additionally, s. 61.1354(3), F.S., specifies that, to obtain the information, the head of the IV-D agency, or its designee, must certify that:[19]

- The consumer report is needed for the purpose of determining an individual's income and establishing an individual's capacity to make support payments or determining the appropriate amount of child support payment to be made by the individual;
- Paternity of the child of the individual whose report is sought, if that individual is the father of the child, has been established or acknowledged pursuant to Florida law;

[13] Section 61.046(4), F.S., provides "depository" means the central governmental depository established pursuant to s. 61.181, F.S., created by special act of the Legislature or other entity established before June 1, 1985, to perform depository functions and to receive, record, report, disburse, monitor, and otherwise handle alimony and child support payments not otherwise required to be processed by the State Disbursement Unit.

[18] *Id.*
[19] Section 61.1354(3), F.S.

- The individual whose report is sought was provided with at least 15 days' prior notice by certified or registered mail to the individual's last known address that the report was requested; and
- The consumer report will be used solely for the purpose specified.

In *DOR v. Jackson*,[20] the Florida Supreme Court held that a parent may not automatically have his or her child support payment obligations modified based solely on a reduction in income resulting from incarceration. The trial court has some discretion, but the child's interest in receiving support must generally supersede the obligor parent's substantial change in circumstances resulting from incarceration.

The District Courts of Appeal are not in agreement on whether income can be imputed when determining *an initial* child support order when the parent is in prison or going to prison.

In *McCall v. Martin*,[21] the Fourth District Court of Appeal (DCA) reversed the trial court's order refusing to impute income to the father during his incarceration for committing battery on his wife, citing his absence of income. Relying on *Jackson* and *Mascola v. Lusskin*,[22] which was approved by the Supreme Court in *Jackson*, the Fourth District held that the father's child support order may not be modified based on his incarceration due to a conviction for attempting to kill the mother to avoid child support.

However, in *DOR v. Llamas*,[23] the First District Court of Appeal affirmed an order declining to impose a child support obligation upon the father who was going to prison. The First DCA certified conflict with the Fourth DCA's opinion in *McCall*, finding that the administrative law judge reasonably applied the law and did not abuse his discretion in declining to impute income to the father. Subsequently, in *Wilkerson v. Wilkerson*,[24] the Fifth DCA aligned itself with *McCall* and certified conflict with *Llamas*, holding that a court does not abuse its discretion in setting an initial child support obligation by imputing income to an incarcerated parent. The court in *Wilkerson* believed that an individual's actions that lead to incarceration are voluntary for purposes of s. 61.30(2)(b), F.S., and that s. 61.30, F.S., was not intended to operate as a shield to avoid having an initial support obligation established while the parent is incarcerated.

In 2016, federal law was amended to prohibit state laws from treating incarceration as voluntary unemployment for purposes of establishing or modifying child support orders.[25] On September 17, 2020, the U.S. Office of Child Support Enforcement proposed two optional exceptions to allow incarceration to be treated as voluntary unemployment under child support guidelines, including incarceration which results from:

- Intentional nonpayment of child support resulting from a criminal case or civil contempt action; or

[20] 846 So. 2d 486 (Fla. 2003).
[21] 34 So. 3d 121 (Fla. 4th DCA 2010).
[22] 727 So. 2d 328 (Fla. 4th DCA 1999).
[23] 196 So.3d 1267 (Fla. 1st DCA 2016).
[24] 220 So. 3d 480 (Fla. 5th DCA 2017).
[25] 45 CFR 302.56(c)(3).

- Any offense of which the individual's dependent child or the child support recipient was the victim.[26]

Effect of Bill

The bill prohibits treating incarceration as voluntary unemployment when a support order is established or modified, unless incarceration is for intentional nonpayment of child support or an offense against a child or person who is owed child support, or the court or administrative tribunal deviates from the guideline amount as provided under current law. This change will bring the state guidelines into closer compliance with federal regulations, though state guidelines would include exemptions not authorized in current regulations. Should the proposed rule creating limited exceptions for treating incarceration as voluntary unemployment be finalized, the exception in the bill relating to "willful nonpayment of child support" will be in conflict with the new federal rule, which may necessitate a future amendment.

The bill also amends s. 61.30(2) and (10), F.S., to be consistent with Florida case law, specifying:

- Social security benefits received by a minor child due to the retirement or disability of the child's parent are considered part of the parent's gross income for determining child support obligations.
- A parent is entitled to credit for social security benefits paid directly to the child or the child's caregiver when the benefits are paid due to the parent's retirement or disability.
- The parent's share of the monthly support obligation is considered paid in full each month for which such benefits are paid that are equal to or greater than the parent's share of the monthly obligation.
- If the benefits are less than the parent's share of the monthly obligation, the parent must pay the difference. If the benefits are more than the parent's share of the monthly obligation, the excess inures to the benefit of the child and may not be credited to arrears or retroactive support that accrued before the benefits commenced.

To obtain credit, a parent subject to a court order for child support, or the DOR in a IV-D case, may file a motion with the court or include the request in a petition to modify the support order, and that, alternatively, in a IV-D case, the DOR may determine and apply credit after notice and opportunity for hearing as provided under ch. 120, F.S. If credit is determined and applied by the DOR, the DOR shall notify the clerk of court and the clerk shall update the payment record.

Consumer Reporting Agencies (Section 2)

Present Situation

As the state's IV-D agency, federal law authorizes the head of the DOR, or its designee, to obtain consumer reports to determine an individual's income, establish that individual's capacity to make support payments, or determine the appropriate amount of child support the individual pays. Additionally, s. 61.1354(3), F.S., specifies that, to obtain the information, head of the IV-D agency, or its designee, must certify that:

[26] 85 FR 58029 (September 17, 2020).

- The consumer report is needed for the purpose of determining an individual's income and establishing an individual's capacity to make support payments or determining the appropriate amount of child support payment to be made by the individual;
- Paternity of the child of the individual whose report is sought, if that individual is the father of the child, has been established or acknowledged pursuant to Florida law;
- The individual whose report is sought was provided with at least 15 days' prior notice by certified or registered mail to the individual's last known address that the report was requested; and
- The consumer report will be used solely for the purpose specified.[27]

Effect of Bill

The bill amends s. 63.1354, F.S., requiring consumer reporting agencies to provide requested consumer reports to the DOR, rather than the head of the IV-D agency or its designee. The bill also requires that, when requesting a consumer report, certified statements required to be made under s. 61.1354, F.S., to conform to the federal Fair Credit Reporting Act (FCRA)[28] and that the DOR, rather than the head of the IV-D agency, or its designee, make the certification.

Although the FCRA was amended in 2015 to remove the requirement to provide notice to individuals, the bill maintains the current notice requirement; however, the bill authorizes such notice to be made by regular mail instead of by certified or registered mail.

Parent Education and Family Stabilization (Section 3)

Present Situation

When the parents of minor children are in the process of a divorce or separation, they are required by statute to take a course on parent education and family stabilization. The course must be completed prior to the entry of the final judgement of dissolution of marriage.[29] The course is a minimum of four hours long, and designed to educate, train, and assist divorcing parents on the consequences of divorce on parents and children. The course may include topics such as:

- Legal aspects of deciding child-related issues between parents;
- Emotional aspects of separation and divorce on adults;
- Emotional aspects of separation and divorce on children;
- Family relationships and family dynamics;
- Financial responsibilities to a child or children;
- Issues regarding spousal or child abuse and neglect; and
- Skill-based relationship education that may be generalized to parenting, workplace, school, neighborhood, and civic relationships.[30]

[27] Section 61.1354(3), F.S.
[28] 15 U.S.C. s. 1681b(a)(4). FCRA protects information held by credit reporting agencies, and places legal obligations on companies who report information to them. The Federal Trade Commission, *Fair Credit Reporting Act*, available at https://www.ftc.gov/enforcement/statutes/fair-credit-reporting-act (last visited Mar. 8, 2021).
[29] Section 61.21(4), F.S.
[30] Section 61.21(2)(a), F.S.

The Department of Children and Families approves a list of providers to teach this course, which is called the Parent Education and Family Stabilization Course.[31]

Effect of Bill

The bill provides the following legislative finding: "It is…beneficial to divorcing or separating parents of children who have identified special needs or emotional concerns to have available an educational program that will provide information tailored to children who have special needs or emotional concerns."

The bill adds to the list of topics that may be taught under the Parent Education and Family Stabilization Course to include the "particularized needs of children who have identified special needs or emotional concerns." Neither current law nor the bill require the course to include this subject in particular, as the list only contains topics that *may* be included. The course, in general, is only required to "educate, train, and assist divorcing parents in regard to the consequences of divorce on parents and children."[32] The bill does require, however, the parents of children with special needs or emotional concerns to select a course that is tailored to education relating to children who have special needs or emotional concerns.

The bill gives a court discretion to require a parent to attend a course separate from the Parent Education and Family Stabilization Course. Specifically, a court may require a parent to attend additional courses relating to children who have special needs or emotional concerns.

Rendering Final Orders (Section 5)

Present Situation

Final orders determining paternity or paternity and child support rendered as authorized by s. 409.256(11), F.S., and administrative support orders rendered as authorized by s. 409.2563(7), F.S., are prepared, reviewed and approved using the Child Support Program's automated system.[33] Once approved, the rendered final orders are digitally stored as PDF documents after electronic signatures are affixed and copies are automatically mailed to the parties by the automated system.[34] Under current law, rendered means that a signed written order is filed with the clerk or any deputy clerk of the DOR and served on the respondent. [35] The date of filing must also be indicated on the face of the order at the time of rendition.[36] Final orders issued by the Child Support Program under ss. 409.256 and 409.2563, F.S., must state that "The Final Order has been rendered on the above date by filing it with the agency clerk of the Florida Department of Revenue and serving it on the respondent."[37]

[31] Section 61.21(2), F.S. The approved providers can be found at https://www.myflfamilies.com/service-programs/child-welfare/stabilization/
[32] Section 61.21(2), F.S.
[33] The DOR, *Senate Bill 1532 Analysis*, p. 5 (March 12, 2021).
[34] *Id*.
[35] Sections 409.256(1)(i) and 409.2563(1)(e), F.S.
[36] *Id*.
[37] The DOR, *Senate Bill 1532 Analysis*, p. 5 (March 12, 2021).

As it relates to administrative support orders, s. 409.2563(8), F.S., also requires the DOR to file a certified copy of such orders with the clerk of the circuit court. Currently, the DOR's automated system generates final administrative support orders, which are batch e-filed electronically through the Florida Courts E-Filing Portal or automatically sent via U.S. mail to the clerk.[38]

Effect of Bill

The bill amends ss. 409.256(1)(i) and 409.2563(1)(e), F.S., modifying the definition of "rendered" to reflect that final orders and administrative support orders are system-generated with electronic signatures, rather than filed with the agency clerk or a deputy clerk.

The bill also removes the requirement to file a certified copy of an administrative support order with the clerk of the circuit court, as the orders are filed electronically or automatically sent via U.S. mail to the clerk.

Garnishment/ Federally Assisted State Transmitted Levy (Section 7)

Present Situation

The DOR is authorized to collect unpaid child support obligations by garnishing accounts at banks, credit unions and other financial institutions.[39] Upon service of the initial garnishment notice (Notice to Freeze) by registered mail, a person in possession of personal property owned by or owed to a person who owes past due support may not transfer or otherwise dispose of the obligor's property until 60 days after receipt of the notice.[40] After the Notice to Freeze is served on the one in possession of the property, the obligor is served with a Notice of Intent to Levy by certified or registered mail and given an opportunity to contest the notice.[41] If a timely petition to contest is not filed, or there is a hearing and an order entered that garnishment may proceed, the DOR is authorized to serve a Notice of Levy by registered mail on the one in possession of the property to be levied upon.[42]

The federal OCSE sponsors the Federally Assisted State Transmitted (FAST) Levy program. The FAST Levy program, which is voluntary for both child support and financial institutions, allows the agency and institutions to communicate more easily in respect of levy actions and in a standardized, automated manner.[43] The FAST Levy program also reduces costs, increases efficiency to collect past due child support, and gets support to families faster.[44] To participate, the DOR must provide notice by secure electronic means to the participating financial institutions. However, since the statute requires service of the Notice of Levy by registered mail, the DOR and Florida financial institutions are currently unable to participate in the FAST Levy program.

---

[38] *Id*.
[39] Section 409.25656, F.S
[40] Section 409.25656(1), F.S
[41] *See* ss. 409.25656(7) and (8), F.S.
[42] Section 409.25656(3), F.S. The Notice of Levy requires a financial institution to transfer the funds in the account to the DOR up to the amount of past due or overdue support. The DOR then disburses the funds to the parent who is owed support.
[43] Office of Child Support Enforcement: *An Office of the Administration for Children & Families, FAST Levy Overview*, available at https://www.acf.hhs.gov/css/training-technical-assistance/fast-levy-overview (last visited Mar. 8, 2021).
[44] *Id*.

Effect of Bill

The bill amends s. 409.25656(4), F.S., authorizing the DOR to deliver levy notices electronically to banks, credit unions, and other financial institutions that provide express consent to receive notice in that manner. For financial institutions that elect to participate in the FAST Levy program, the DOR would notify participating financial institutions of pending levy actions by periodically transmitting an electronic data file to the OCSE.[45] The financial institution would access the data on the secure website maintained by the federal office and process the data to determine which customer accounts would be levied on and for what amounts.[46] The financial institution would provide this data to the central site which would generate a response file to the DOR that would be used to automatically update the Child Support Program's automated system.[47] Financial institutions that do not elect to participate in the program would continue to receive hard copy levy notices from the DOR by registered mail pursuant to current law.

Unclaimed Property (Section 8)

Present Situation

Florida's Department of Financial Services (DFS) regulates the disposition of unclaimed property in this state.[48] In addition to money and securities, unclaimed property includes tangible property such as watches, jewelry, coins, currency, stamps, historical items and other miscellaneous articles from abandoned safe deposit boxes. Until claimed, unclaimed money is deposited into the state school fund, where it is used for public education. Florida's Chief Financial Officer holds unclaimed property claimable accounts valued at $2 billion, mostly from dormant accounts in financial institutions, insurance and utility companies, securities and trust holdings. There is, however, no statute of limitations, and citizens have the right to claim their property any time at no cost.[49]

As part of an effort to collect and pay past due support, s. 409.25658, F.S., requires the DOR and the DFS to identify past due obligors' unclaimed property held by the DFS.[50] The DOR is required to periodically provide the DFS with an electronic file of support obligors who owe past due support.[51] The DFS is then required to conduct a data match of the file against all apparent owners of unclaimed property under ch. 717, F.S., and provide the resulting match list to the DOR.[52] Upon receipt of the data match list, the DOR is required to provide the DFS the obligor's last known address and DFS is required to follow the notification procedures under s. 717.118, F.S., ensuring owners of unclaimed property are notified in a cost-effective manner.[53]

---

[45] The DOR, *Senate Bill 1532 Analysis*, p. 6 (March 12, 2021).
[46] *Id*.
[47] *Id*.
[48] Section 717.101, F.S.
[49] The DFS, *Unclaimed Property*, available at https://myfloridacfo.com/division/unclaimedproperty/home (last visited Mar. 8, 2021).
[50] Section 409.25658(1), F.S.
[51] Section 409.25658(2), F.S.
[52] *Id*.
[53] Section 409.25658(3), F.S.

Prior to paying the approved claim for unclaimed property of an obligor owing past due support, the DFS must notify the DOR that the claim has been approved.[54] Upon such notice by the DFS to the DOR, the DOR must immediately send a notice by certified mail to the obligor, with a copy to the DFS, advising the obligor of the DOR's intent to intercept the approved claim up to the amount of the past due support owed, and informing the obligor of the obligor's right to request a hearing under ch. 120, F.S.[55] The DFS must retain custody of the property until a final order is entered by the DOR and any appeals have been concluded.[56] If the obligor does not request a hearing, the DOR enters a final order instructing the DFS to transfer the property to the DOR in the amount stated in the final order.[57]

The following chart reflects recent data from the DOR on the number of actions, collections, and final orders related to unclaimed property:[58]

State Fiscal Year	Actions Initiated	Final Orders Entered	Collections Received
2020/21 (YTD)	5,261	4,617	$721,040
2019/20	6,943	4,904	$1,165,414
2018/19	6,726	5,285	$1,021,727
2017/18	8,316	5,035	$1,388,238

Effect of Bill

The bill switches the current roles of the DOR and the DFS as they relate to unclaimed property. The DFS must periodically provide the DOR with an electronic data file of unclaimed property accounts. The DOR must then use this data to identify support obligors with unclaimed property accounts and send the DFS an electronic data file with the names and other personal identifying information of the support obligors.[59] The bill authorizes the DOR to submit claims for unclaimed property to the DFS.

The bill requires the DOR to send a notice of intent to intercept unclaimed property by regular mail, instead of certified mail. If a support obligor does not request a hearing, the DOR notifies the DFS to transfer property to the DOR in the amount of the past due support instead of entering a final order.

Customer Service via E-mail (Section 9)

Present Situation

Under the Department of Management Services, Division of State Technology, R. 60GG-2.003(4)(b)1., F.A.C., each state agency is required to "[e]ncrypt confidential and exempt information during transmission, except when the transport medium is owned or

[59] This reflects the 2015 Memorandum of Understanding currently in effect between the DOR and the DFS. *See* The DOR Analysis at p. 7.

managed by the agency and controls are in place to protect the data during transit." Due to the COVID-19 pandemic, the DOR is operating under a waiver of this rule, providing consumer services by e-mail, phone, fax, online chat, and online self-help.[60] Since March 2020, e-mails from customers have increased tenfold.[61] Using encrypted e-mail to respond to customers' e-mails is cumbersome and disfavored by customers.[62]

Effect of Bill

The bill amends s. 409.2567, F.S., authorizing the DOR to include confidential and exempt information in unencrypted e-mail communications with a parent, caregiver, or other person who is authorized to receive the information, provided the parent, caregiver, or other person consents. Social security numbers, federal tax information, driver license numbers, and bank account numbers may not be provided in this manner.

Compensation Reporting (Section 10)

Present Situation

Under state and federal law, employers are required to report newly hired or rehired employees to the State Directory of New Hires[63] within 20 days after the date of hire.[64] Employers must report the employee's name, address, social security number, date of birth (if available) date of hire (the date the employee first performs services for pay), employer's name and address, and the employer's federal employer identification number.[65] Employers may report new hires online by submitting electronic data files or by fax, phone or by first class mail.

The Child Support Program adds the new hire data to the State Directory of New Hires database daily and performs automated data matching using the names and social security numbers provided to identify employers of individuals who owe child support.[66] Within two business days after the information is reported and added to the data base, the Child Support Program must, when appropriate, issue an income deduction notice to the employer.[67] The information is also made available to other agencies responsible for determining eligibility for various benefit programs under s. 409.2576(9), F.S.

Some individuals rendering services for payment may not be classified as employees but might instead be considered independent contractors. However, income paid to individuals not classified as employees is not reported to the State Directory of New Hires, limiting the ability of the Child Support Program to collect child support by income deduction. Income earned by independent contractors who are paid or will be paid $600 or more during a calendar year by a

[61] *Id.*
[62] *Id.*
[63] The State Directory of New Hires is a database maintained by each state containing information regarding newly hired employees for the respective state.
[64] *See* s. 409.2576, F.S. and 42 USC s. 653a.
[65] Section 409.2576(3)(a), F.S. See also, OCSE, New Hire Reporting-Answers to Employer Questions, available at https://www.acf.hhs.gov/css/faq/new-hire-reporting-answers-employer-questions (last visited Mar. 8, 2021).
[66] The DOR, *Senate Bill 1532 Analysis*, p. 7. (March 12, 2021).
[67] Section 409.2576(7), F.S.

service-recipient engaged in a business must be reported to the Internal Revenue Service.[68] Mandatory reporting of these individuals in the same manner as employees could result in increased child support collections for families. Several states have laws requiring employers to report new-hire information on independent contractors, including California, Connecticut, Iowa, Maine, Massachusetts, Michigan, Nebraska, New Hampshire, New Jersey, Ohio, Texas, Utah and West Virginia.[69]

Effect of Bill

The bill amends s. 409.2576, F.S., adding the definition of "service recipient," a person engaged in a trade or business for whom a service is performed by an individual in a capacity other than that of an employee. The bill requires a service recipient to report to the State Directory of New Hires any individual, other than an employee, to whom the service recipient pays more than $600 in a calendar year for services performed by the individual in the course of the service recipient's trade or business.

The bill also specifies that, for an individual who is not an employee, the service recipient's report must include the individual's name, address, and social security number, or other identifying number assigned under s. 6109 of the Internal Revenue Code, the date services for payment were first performed by the individual, and the name, address, and employer identification number of the service recipient. The bill provides that service recipients must report these individuals within 20 days after the earlier of either:

- First making payments that require an IRS Form 1099; or
- Entering into a contract providing for such payments.

The bill specifies that the information would be provided to the National Directory of New Hires for use by other state child support programs, the same as new hire reports for employees under current law.

The effective date of the bill is October 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[68] 26 U.S.C. s. 6041A
[69] The DOR, *Senate Bill 1532 Analysis*, p. 8. (March 12, 2021).

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Private businesses will need to start reporting independent contractors' information to the State Directory of New Hires and the new reporting requirement may require more resources and additional costs to private businesses.

Incarcerated parents will benefit from not having their incarceration treated as voluntary unemployment, as income will not be imputed to them while they have no ability to pay, reducing the amount in past-due child support they would otherwise owe.

Financial institutions that participate in the Federally Assisted State Transmitted (FAST) Levy program may experience cost savings with the improved efficiencies associated with participating in the program such as processing levy notices from multiple states in a standardized, automated manner.

Providers of parenting courses that address children having special needs or emotional concerns may experience greater demands for their courses and greater revenues.

C. Government Sector Impact:

With respect to a fiscal impact on state government, the Department of Revenue reports an operational impact, which is most likely insignificant, and can be absorbed within existing resources.[70] The Florida Court Clerks & Comptrollers (FCCC) report the bill would most likely result in minimal impact to the Clerks' operations and to those of FCCC in its operation and maintenance of the Clerk of Court Child Support Collection System.[71]

[70] The DOR, *Senate Bill 1532 Analysis*, p. 9 (March 12, 2021)
[71] The FCCC, *Senate Bill 1532 Analysis*, p. 4 (March 12, 2021) (on file with the Senate Committee on Children, Families, and Elder Affairs).

VI. Technical Deficiencies:

The short title of the bill, an act relating to child support, is narrower than its subject matter, which relates to child support and parenting courses. The Legislature may wish to revise the short title to be "an act relating to family law."

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 61.13, 61.1354, 61.21, 61.30, 409.256, 409.2563, 409.25656, 409.25658, 409.2567, and 409.2576.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Judiciary on March 22, 2021:
The committee substitute amends the list of topics taught in the Parent Education and Family Stabilization Course to include the particularized needs of children who have identified special needs or emotional concerns.

- Requires parents of children with special needs or emotional concerns to take a Parent Education and Family Stabilization course tailored towards those needs prior to any dissolution of marriage.
- Allows for a court to require a parent to take a course relating to children who have special needs or emotional concerns. This course would be separate from the required Parent Education and Family Stabilization Course.

CS by Children, Families, and Elder Affairs on March 9, 2021:
The committee substitute:

- Amends the provision which permits the Department of Revenue (DOR) to deliver notices required under the garnishment section to the obligor by secured electronic means upon express written consent to a person who is in possession of personal property belonging to the obligor;
- Authorizes the DOR to transmit certain confidential and exempt electronic mail regarding support services made on behalf of dependent children in an "unencrypted" format; and
- Makes technical changes to the notice that may be given by the DOR to receive depository services even if the obligor is not delinquent in payment of child support.

B. Amendments:

None.

By the Committees on Judiciary; and Children, Families, and Elder Affairs; and Senator Book

590-03167-21 20211532c2

A bill to be entitled

An act relating to child support; amending s. 61.13, F.S.; revising requirements for child support depositories in Title IV-D cases; requiring the depositories to transmit case data through and set up appropriate payment accounts in the Clerk of the Court Child Support Enforcement Collection System upon certain notice from the Department of Revenue; amending s. 61.1354, F.S.; revising provisions related to the sharing of information between consumer reporting agencies and the department; requiring consumer reports to be kept confidential and used only for specified purposes; amending s. 61.21, F.S.; revising legislative findings; revising course topics for the Parent Education and Family Stabilization Course; requiring certain parties to complete a Parent Education and Family Stabilization Course tailored to education relating to children who have special needs or emotional concerns; authorizing the court to require additional education courses for certain parents; amending s. 61.30, F.S.; prohibiting the treatment of incarceration as voluntary unemployment for purposes of establishing or modifying child support orders, with exceptions; providing that certain social security benefits are included in a parent's gross income; authorizing certain social security benefits paid to be applied as a credit for purposes of monthly support obligations; providing requirements for such credit; providing procedures for

a parent to seek application of such credit; amending s. 409.256, F.S.; revising the definition of the term "rendered"; amending s. 409.2563, F.S.; revising the definition of the term "rendered"; deleting a requirement that a certain order filed by the department be a certified copy of the order; amending s. 409.25656, F.S.; authorizing the department to deliver certain notices by secure electronic means under certain circumstances; amending s. 409.25658, F.S.; revising provisions related to the department's joint efforts with the Department of Financial Services to use unclaimed property for past due child support; amending s. 409.2567, F.S.; authorizing the department to include confidential and exempt information in unencrypted electronic mail communications with parents, caregivers, or other authorized persons under certain circumstances, with exceptions; amending s. 409.2576, F.S.; requiring service recipients to report certain information to the State Directory of New Hires; defining the term "service recipient"; providing reporting requirements for service recipients; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (d) of subsection (1) of section 61.13, Florida Statutes, is amended to read:

61.13 Support of children; parenting and time-sharing;

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

powers of court.—

(1)

(d)1. All child support orders shall provide the full name and date of birth of each minor child who is the subject of the child support order.

2. If both parties request and the court finds that it is in the best interest of the child, support payments need not be subject to immediate income deduction. Support orders that are not subject to immediate income deduction may be directed through the depository under s. 61.181 or made payable directly to the obligee. Payments made by immediate income deduction shall be made to the State Disbursement Unit. The court shall provide a copy of the order to the depository.

3. For support orders payable directly to the obligee, any party~~, or the department in a IV-D case,~~ may subsequently file an affidavit with the depository alleging a default in payment of child support and stating that the party wishes to require that payments be made through the depository. The party shall provide copies of the affidavit to the court and to each other party. Fifteen days after receipt of the affidavit, the depository shall notify all parties that future payments shall be paid through the depository, except that payments in Title IV-D cases and income deduction payments shall be made to the State Disbursement Unit. In Title IV-D cases, an affidavit of default or a default in payments is not required to receive depository services. Upon notice by the department that it is providing Title IV-D services in a case with an existing support order, the depository shall transmit case data through, and set up appropriate payment accounts in, regardless of whether there

is a delinquency, the Clerk of the Court Child Support Enforcement Collection System as required under s. 61.181(2)(b).

Section 2. Subsection (3) of section 61.1354, Florida Statutes, is amended to read:

61.1354 Sharing of information between consumer reporting agencies and the IV-D agency.—

(3) A consumer reporting agency ~~For purposes of determining an individual's income and establishing an individual's capacity to make support payments or for determining the appropriate amount of child support payment to be made by the individual, consumer reporting agencies~~ shall provide, upon request, consumer reports to the department ~~head of the IV-D agency~~ pursuant to s. 604 of the Fair Credit Reporting Act, provided that the department ~~head of the IV-D agency, or its designee,~~ certifies that:

(a) The consumer report is needed for the purpose of ~~determining an individual's income and~~ establishing an individual's capacity to make support payments, ~~or~~ determining the appropriate level of support payments, or enforcing a child support order, award, agreement, or judgment ~~amount of child support payment to be made by the individual~~;

(b) The consumer's parentage of the child to whom the obligation relates has been established or acknowledged by the consumer in accordance with state laws under which the obligation arises ~~Paternity of the child of the individual whose report is sought, if that individual is the father of the child, has been established or acknowledged pursuant to the laws of Florida~~;

(c) The individual whose report is sought was provided with

at least 15 days' prior notice, by regular ~~certified or registered~~ mail to the individual's last known address, that the report was requested; and

(d) The consumer report will be kept confidential, will be used solely for the purpose described in paragraph (a), and will not be used in connection with any other civil, administrative, or criminal proceeding or for any other purpose.

Section 3. Present paragraph (d) of subsection (1) of section 61.21, Florida Statutes, is redesignated as paragraph (e), a new paragraph (d) is added to that subsection, subsection (12) is added to that section, and paragraph (c) of subsection (1), paragraph (a) of subsection (2), and subsection (4) of that section are amended, to read:

61.21 Parenting course authorized; fees; required attendance authorized; contempt.—

(1) LEGISLATIVE FINDINGS; PURPOSE.—It is the finding of the Legislature that:

(c) It is ~~has been found to be~~ beneficial to parents who are separating or divorcing to have available an educational program that will provide general information regarding:

1. The issues and legal procedures for resolving time-sharing and child support disputes.

2. The emotional experiences and problems of divorcing adults.

3. The family problems and the emotional concerns and needs of the children.

4. The availability of community services and resources.

(d) It is also beneficial to divorcing or separating parents of children who have identified special needs or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

emotional concerns to have available an educational program that will provide information tailored to children who have special needs or emotional concerns.

(2) The Department of Children and Families shall approve a parenting course which must ~~shall~~ be ~~a course of~~ a minimum of 4 hours and designed to educate, train, and assist divorcing parents in regard to the consequences of divorce on parents and children.

(a) The parenting course referred to in this section is ~~shall be~~ named the Parent Education and Family Stabilization Course and may include, but need not be limited to, the following topics as they relate to court actions between parents involving custody, care, time-sharing, and support of a child or children:

1. Legal aspects of deciding child-related issues between parents.

2. Emotional aspects of separation and divorce on adults.

3. Emotional aspects of separation and divorce on children.

4. Family relationships and family dynamics.

5. Financial responsibilities to a child or children.

6. Issues regarding spousal or child abuse and neglect.

7. Skill-based relationship education that may be generalized to parenting, workplace, school, neighborhood, and civic relationships.

8. Particularized needs of children who have identified special needs or emotional concerns.

(4)(a) All parties to a dissolution of marriage proceeding with minor children or a paternity action that involves issues of parental responsibility shall ~~be required to~~ complete the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Parent Education and Family Stabilization Course before ~~prior to~~ the entry by the court of a final judgment. If the parties have children who have identified special needs or emotional concerns, the parties must select a Parent Education and Family Stabilization Course that is tailored to education relating to children who have special needs or emotional concerns.

(b) The court may excuse a party from attending the parenting course, or from completing the course within the required time, for good cause.

(12) The court, in its discretion, may require a parent to attend educational courses relating to children who have special needs or emotional concerns in addition to the Parent Education and Family Stabilization Course required under this section.

Section 4. Present paragraph (c) of subsection (2) of section 61.30, Florida Statutes, is redesignated as paragraph (e), new paragraphs (c) and (d) are added to that subsection, and subsection (10) of that section is amended, to read:

61.30 Child support guidelines; retroactive child support.—

(2) Income shall be determined on a monthly basis for each parent as follows:

(c) Except for incarceration for willful nonpayment of child support or for an offense against a child or person who is owed child support, incarceration may not be treated as voluntary unemployment in establishing or modifying a support order. However, the court may deviate from the child support guideline amount as provided in paragraph (1)(a).

(d) Social security benefits received by a minor child due to the retirement or disability of the child's parent shall be included in the parent's gross income.

(10)(a) Each parent's actual dollar share of the total minimum child support need shall be determined by multiplying the minimum child support need by each parent's percentage share of the combined monthly net income.

(b)1. A parent is entitled to credit for social security benefits paid directly to the child or the child's caregiver when the benefits are paid due to the parent's retirement or disability. The parent's share of the monthly support obligation is paid in full each month for which such benefits are paid that are equal to or greater than the parent's share of the monthly obligation. If the benefits are less than the parent's share of the monthly obligation, the parent owes the difference. If the benefits are more than the parent's share of the monthly obligation, the excess inures to the benefit of the child and may not be credited to arrears or retroactive support that accrued before the benefits commenced.

2. To obtain credit for social security benefits paid, a parent subject to a court order for child support, or the department in a Title IV-D case, may file a motion with the court or include the request in a petition to modify the support order. Alternatively, in a Title IV-D case, the department may determine and apply credit after notice and an opportunity for a hearing are provided in accordance with chapter 120. If the department determines that a credit applies, the department shall notify the clerk of court, and the clerk shall update the payment record to reflect the credit.

Section 5. Paragraph (i) of subsection (1) of section 409.256, Florida Statutes, is amended to read:

409.256 Administrative proceeding to establish paternity or

paternity and child support; order to appear for genetic testing.—

(1) DEFINITIONS.—As used in this section, the term:

(i) "Rendered" means that a signed written order is issued by ~~filed with the clerk or a deputy clerk of~~ the Department of Revenue and served on the respondent. ~~The date of filing must be indicated on the face of the order at the time of rendition.~~

Section 6. Paragraph (e) of subsection (1) and subsection (8) of section 409.2563, Florida Statutes, are amended to read:

409.2563 Administrative establishment of child support obligations.—

(1) DEFINITIONS.—As used in this section, the term:

(e) "Rendered" means that a signed written order is issued by ~~filed with the clerk or any deputy clerk of~~ the department and served on the respondent. ~~The date of filing must be indicated on the face of the order at the time of rendition.~~

Other terms used in this section have the meanings ascribed in ss. 61.046 and 409.2554.

(8) FILING WITH THE CLERK OF THE CIRCUIT COURT; OFFICIAL PAYMENT RECORD; JUDGMENT BY OPERATION OF LAW.—The department shall file with the clerk of the circuit court a ~~certified~~ copy of an administrative support order rendered under this section. The depository operated pursuant to s. 61.181 for the county where the administrative support order has been filed shall:

(a) Act as the official recordkeeper for payments required under the administrative support order;

(b) Establish and maintain the necessary payment accounts;

(c) Upon a delinquency, initiate the judgment by operation

of law procedure as provided by s. 61.14(6); and

(d) Perform all other duties required of a depository with respect to a support order entered by a court of this state.

When a proceeding to establish an administrative support order is commenced under subsection (4), the department shall file a copy of the initial notice with the depository. The depository shall assign an account number and provide the account number to the department within 4 business days after the initial notice is filed.

Section 7. Subsection (4) of section 409.25656, Florida Statutes, is amended to read:

409.25656 Garnishment.—

(4) A notice that is delivered under this section is effective at the time of delivery against all credits, other personal property, or debts of the obligor which are not at the time of such notice subject to an attachment, garnishment, or execution issued through a judicial process. Upon express written consent of a person who is or may be in possession of personal property belonging to the obligor, the department may deliver the notices required by this section to that person by secure electronic means.

Section 8. Section 409.25658, Florida Statutes, is amended to read:

409.25658 Use of unclaimed property for past due support.—

(1) In a joint effort to facilitate the collection and payment of past due support, the Department of Revenue, in cooperation with the Department of Financial Services, shall identify persons owing support collected by the department

~~through a court~~ who are presumed to have unclaimed property held by the Department of Financial Services.

(2) The Department of Financial Services ~~department~~ shall periodically provide the department ~~of Financial Services~~ with an electronic file of unclaimed property accounts. The department shall use the data to identify obligors with unclaimed property accounts and shall provide the Department of Financial Services with an electronic data file that includes the names and other personal identifying information of the obligors ~~support obligors who owe past due support. The Department of Financial Services shall conduct a data match of the file against all apparent owners of unclaimed property under chapter 717 and provide the resulting match list to the department~~.

(3) As the state's Title IV-D agency under s. 409.2557(1), the department is authorized to submit claims for unclaimed property to the Department of Financial Services for the purpose of collecting past due support and shall do so in accordance with the standards established by the Department of Financial Services ~~Upon receipt of the data match list, the department shall provide to the Department of Financial Services the obligor's last known address. The Department of Financial Services shall follow the notification procedures under s. 717.118~~.

(4) Before ~~Prior to~~ paying an obligor's approved claim, the Department of Financial Services shall notify the department that such claim has been approved. Upon confirmation that the Department of Financial Services has approved the claim or a claim submitted by the department, the department shall

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

~~immediately~~ send a notice by regular ~~certified~~ mail to the obligor~~, with a copy to the Department of Financial Services,~~ advising the obligor of the department's intent to intercept the property ~~approved claim~~ up to the amount of the past due support, and informing the obligor of the obligor's right to request a hearing under chapter 120. If there is a hearing, the Department of Financial Services shall retain custody of the property until a final order has been entered and any appeals thereon have been concluded. If the obligor fails to request a hearing, the department shall inform ~~enter a final order instructing~~ the Department of Financial Services to transfer to the department the property up to the amount of past due support owed ~~in the amount stated in the final order~~. Upon ~~such~~ transfer, the Department of Financial Services shall be released from further liability related to the transferred property.

(5) ~~The provisions of~~ This section provides ~~provide~~ a supplemental remedy, and the department may use this remedy in conjunction with any other method of collecting support.

Section 9. Subsection (1) of section 409.2567, Florida Statutes, is amended to read:

409.2567 Services to individuals not otherwise eligible.—

(1)(a) All support services provided by the department shall be made available on behalf of all dependent children. Services shall be provided upon acceptance of public assistance or upon proper application filed with the department. The federally required application fee for individuals who do not receive public assistance is $1, which shall be waived for all applicants and paid by the department. The annual fee required under 42 U.S.C. s. 654(6)(B), as amended by Pub. L. No. 115-123,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

for cases involving an individual who has never received temporary cash assistance and for whom the department has collected the federally required minimum amount of support shall be paid by the department.

(b) The department may include confidential and exempt information in unencrypted electronic mail communications with a parent, a caregiver, or any other person who is authorized to receive the information, provided the parent, caregiver, or other person consents to such communications, except that social security numbers, federal tax information, driver license numbers, and bank account numbers may not be provided in this manner.

Section 10. Section 409.2576, Florida Statutes, is amended to read:

409.2576 State Directory of New Hires.—

(1) DIRECTORY CREATED.—The State Directory of New Hires is hereby created and shall be administered by the Department of Revenue or its agent. All employers and service recipients in this ~~the~~ state shall furnish a report consistent with subsection (3) for each newly hired or rehired employee or individual who is not an employee but is provided payment for services rendered, unless the employee or individual is employed by or under contract with a federal or state agency performing intelligence or counterintelligence functions and the head of such agency has determined that reporting pursuant to this section could endanger the safety of the employee or individual or compromise an ongoing investigation or intelligence mission.

(2) DEFINITIONS.—For purposes of this section:

(b) ~~(a)~~ "Employee" is defined as an individual who is an

employee within the meaning of chapter 24 of the Internal Revenue Code of 1986.

(c) ~~(b)~~ "Employer" has the meaning given such term in s. 3401(d) of the Internal Revenue Code of 1986 and includes any government entity and labor organization.

(d) ~~(c)~~ "Labor organization" has the meaning given such term in s. 2(5) of the National Labor Relations Act and includes any entity which is used by the organization and an employer to carry out requirements described in s. 8(f)(3) of such act of an agreement between the organization and employer.

(a) ~~(d)~~ "Date of hire" is the first day of work for which the employee is owed income.

(e) "Service recipient" means a person engaged in a trade or business who pays an individual for services rendered in the course of such trade or business.

(3) EMPLOYERS AND SERVICE RECIPIENTS TO FURNISH REPORTS.—

(a) ~~Each employer subject to the reporting requirements of chapter 443 with 250 or more employees, shall provide to the State Directory of New Hires, a report listing the employer's legal name, address, and reemployment assistance identification number. The report must also provide the name and social security number of each new employee or rehired employee at the end of the first pay period following employment or reemployment.~~

~~(b)~~ All employers shall furnish a report to the State Directory of New Hires of the state in which the newly hired or rehired employee works. The report required in this section shall be made on a W-4 form or, at the option of the employer, an equivalent form, and can be transmitted magnetically,

electronically, by first-class mail, or other methods which may be prescribed by the State Directory. Each report shall include the name, address, date of hire, and social security number of every new and rehired employee and the name, address, and federal employer identification number of the reporting employer. If available, the employer may also include the employee's date of birth in the report. Multistate employers that report new hire information electronically or magnetically may designate a single state to which it will transmit the above noted report, provided the employer has employees in that state and the employer notifies the Secretary of Health and Human Services in writing to which state the information will be provided. Agencies of the United States Government shall report directly to the National Directory of New Hires.

(b) A service recipient shall report to the State Directory of New Hires an individual who is not an employee in the same manner as described in paragraph (a) but who the service recipient, while engaged in a trade or business, pays in an amount of $600 or more per calendar year for services rendered in the course of the trade or business. The report must include the name, address, and social security number or other identifying number assigned to the individual under section 6109 of the Internal Revenue Code of 1986; the date services for payment were first rendered by the individual; and the name, address, and employer identification number of the service recipient.

(c) Pursuant to the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, each party is required to provide his or her social security number in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

accordance with this section. Disclosure of social security numbers obtained through this requirement shall be limited to the purpose of administration of the Title IV-D program for child support enforcement and those programs listed in subsection (9).

(4) TIME FOR REPORTS.—

(a) Employers must report new hire information, as described in subsection (3), within 20 days of the hire date of the employee, or, in the case of employers that report new hire information electronically or by magnetic tape, by two monthly transmissions, if necessary, not less than 12 days nor more than 16 days apart.

(b) Service recipients must report on individuals subject to reporting under paragraph (3)(b) within 20 days after the earlier of:

1. The date of the first payment made which requires an information return in accordance with section 6041A(a) of the Internal Revenue Code of 1986; or

2. The date on which a contract providing for such payments is entered into.

If service recipients report individuals under this paragraph electronically or by magnetic tape, the reports may be made by two monthly transmissions, if necessary, but may not be less than 12 days or more than 16 days apart.

(5) ENTRY OF DATA.—The State Directory of New Hires shall enter ~~new hire~~ information reported under this section into an automated database within 5 business days of receipt.

(6) MATCHES TO STATE REGISTRY.—~~Not later than May 1, 1998,~~

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Department of Revenue or its agent must conduct automated matches of the social security numbers of employees reported to the State Directory of New Hires against the social security numbers of records in the State Case Registry. The Title IV-D agency shall use the new hire information received to locate individuals for the purposes of establishing paternity and establishing, modifying, and enforcing support obligations. Private entities under contract with the Title IV-D agency to provide Title IV-D services may have access to information obtained from the State Directory of New Hires and must comply with privacy safeguards.

(7) WAGE WITHHOLDING NOTICE AND NATIONAL MEDICAL SUPPORT NOTICE.—The department shall transmit a wage withholding notice consistent with s. 61.1301 and, when appropriate, a national medical support notice, as defined in s. 61.046, ~~to the employee's employer~~ within 2 business days after entry of the new hire information into the State Directory of New Hires' database, unless the court has determined that the obligor's ~~employee's~~ wages or other income is ~~are~~ not subject to withholding or, for purposes of the national medical support notice, the support order does not contain a provision ~~for the employee~~ to provide health insurance. The withholding notice shall direct the employer or other payor of income to withhold income in accordance with the income deduction order, and the national medical support notice shall direct the employer to withhold premiums for health insurance.

(8) PROVIDING INFORMATION TO NATIONAL DIRECTORY.—The State Directory of New Hires must furnish information regarding newly hired or rehired employees and other individuals subject to

reporting to the National Directory of New Hires for matching with the records of other state case registries within 3 business days of entering such information ~~from the employer~~ into the State Directory of New Hires. The State Directory of New Hires shall enter into an agreement with the Department of Economic Opportunity or its tax collection service provider for the quarterly reporting to the National Directory of New Hires information on wages and reemployment assistance taken from the quarterly report to the Secretary of Labor, now required by Title III of the Social Security Act, except that no report shall be filed with respect to an employee of a state or local agency performing intelligence or counterintelligence functions, if the head of such agency has determined that filing such a report could endanger the safety of the employee or compromise an ongoing investigation or intelligence mission.

(9) DISCLOSURE OF INFORMATION.—

(a) ~~New hire~~ Information reported under this section shall be disclosed to the state agency administering the following programs for the purposes of determining eligibility under those programs:

1. Any state program funded under part A of Title IV of the Social Security Act;

2. The Medicaid program under Title XIX of the Social Security Act;

3. The reemployment assistance or unemployment compensation program under s. 3304 of the Internal Revenue Code of 1954;

4. The food assistance program under the Food and Nutrition Act of 2008; and

5. Any state program under a plan approved under Title I

(Old-Age Assistance for the Aged), Title X (Aid to the Blind), Title XIV (Aid to the Permanently and Totally Disabled), or Title XVI (Aid to the Aged, Blind, or Disabled; Supplemental Security Income for the Aged, Blind, and Disabled) of the Social Security Act.

(b) ~~New hire~~ Information reported under this section shall be disclosed to the state agencies operating employment security and workers' compensation programs for the purposes of administering such programs.

Section 11. This act shall take effect October 1, 2021.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1560 (419562)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Commerce and Tourism Committee; and Senator Ausley
SUBJECT:	Broadband Internet Service
DATE:	April 16, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Harmsen	McKay	CM	**Fav/CS**
2.	Hrdlicka	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	Hrdlicka	Sadberry	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1560 expands the duties of the Florida Office of Broadband (Office) within the Department of Economic Opportunity (DEO) to further the development of broadband Internet service in Florida.

The bill requires the Office to undertake two mapping programs: one that identifies Florida's geographic availability of broadband and one that inventory assets that may be used for the further buildout of broadband infrastructure. The first maps are due June 30, 2022.

The bill creates the Broadband Opportunity Program, administered by the Office, to award grants for the expansion of broadband Internet service in unserved and underserved areas of Florida. The program is subject to appropriation.

The bill also creates the Broadband Deployment Task Force within the Office to support and provide recommendations to the Office for the deployment of broadband Internet throughout Florida. The task force is required to identify federal funding sources and gaps in service areas and recommend to the office strategies for expansion, among other duties. The task force is required to submit a report of its findings and recommendations for inclusion in the DEO annual report.

The bill expands the Office's local technology planning teams' duties to focus on rural, unserved, and underserved areas; and requires the Office to identify potentially eligible households for the federal Emergency Broadband Benefit Program and provide other information to them.

The increased duties required by the bill will have a significant negative fiscal impact on the agency. The DEO estimates a cost of about $3.7 million in Fiscal Year 2021-2022 and a recurring cost of about $1.7 million. The bill makes no appropriations for the increased workload, including the mapping; the task force; or the grant program, which is subject to appropriation.

The bill is effective July 1, 2021.

II. Present Situation:

Broadband Internet Deployment

Fixed and mobile broadband Internet services provide access to numerous employment, education, entertainment, and health care opportunities.[1] Access to a sufficient internet connection has only grown more important during the COVID-19 pandemic, which requires many Americans to connect to their family and friends, schooling, work, and even medical appointments over the internet.[2]

While Florida's urban areas are served at a fixed broadband coverage rate of 98 percent, its rural areas are served at a rate of 78.6 percent.[3] This disparity is caused primarily by high per-unit construction costs required to build broadband infrastructure across larger swaths of rural geographic areas.[4] Communities that lack broadband access can have difficulty attracting new capital investment.[5] Additionally, data indicates that low-income households disproportionately lack access to broadband Internet service, which puts children in those households at risk of falling behind.[6]

Broadband internet is a high speed internet that is faster than dial-up access and is always on; in 2015, the Federal Communications Commission (FCC) defined broadband as 25/3 megabits per

second (Mbps), i.e., 25 Mbps (download rate) and 3 Mbps (upload rate).[7] Consumers can receive Broadband internet through several different technologies, including a digital subscriber line (DSL), a cable modem, fiber, wireless, satellite, and broadband over power lines.[8]

Federal Broadband Initiatives

FCC Digital Opportunity Data Collection Program

The FCC collects and monitors data on broadband deployment in order to identify underserved and unserved localities in the United States.[9] In August 2019, the FCC adopted the Digital Opportunity Data Collection Program, which modernized the collection of broadband deployment data by creating granular coverage maps, as opposed to census tract maps, and by implementing a process to accept public data to confirm the maps' accuracy.[10] In March 2020, Congress ratified the FCC's Data Collection Program with passage of the Broadband Data Act, which requires the FCC to establish a semiannual collection of geographically granular broadband coverage data to use to create coverage maps.[11] Congress allocated $65 million to the FCC to achieve this mapping project in December 2020.[12]

To create these geographic service maps, the FCC collects information from service providers according to specific reporting standards. The service providers must report their service coverage areas, including where their services were available to residences or businesses, and the speed and latency at which their services are delivered.[13] The FCC also set up a website to allow for public input regarding consumers' experiences with broadband.[14] The FCC anticipates completing initial, targeted mapping by July 2021.[15]

FCC's Rural Digital Opportunity Fund

In January 2020, the FCC established the Rural Digital Opportunity Fund to fund the deployment of broadband networks in rural America over the next decade. The first phase of the fund began in 2020 and made available up to $16 billion to target census blocks that are wholly unserved by fixed broadband speeds of at least 25 Mbps downstream and 3 Mbps upstream (25/3 Mbps).[16]

Florida entities received over $190 million (to be distributed over the next 10 years) in this first round of funding.[17]

Phase II of the Fund will target underserved localities, as identified by the FCC's Digital Opportunity Data Collection Program.[18] Using this more precise data, the second phase of FCC grants will make available at least $4.4 billion to target geographic areas where some locations lack access to 25/3 Mbps broadband.[19]

FCC's Emergency Broadband Benefit Program

Congress appropriated $3.2 billion in December 2020 to expand broadband access via subsidies for broadband service to students, families, and unemployed workers.[20] Eligible households can receive a discount of up to $50 per month off their broadband service bill for service and associated equipment. A household is eligible to receive a subsidy if any member of the household: qualifies for the Lifeline program, receives benefits under the free or reduce-price school lunch program, received a Federal Pell Grant, experienced a substantial loss of income in the last year and had a total household income in 2020 below $99,000 for single filers and $198,000 for joint filers, or meets criteria to participate in service providers' existing low-income or COVID-19 programs.[21] The program will conclude when all the funding has been expended or six months after the end of the public health emergency.[22]

U.S. Department of Agriculture Programs

The U.S. Department of Agriculture (USDA) has several rural utilities programs to provide a variety of loans and grants to build and expand broadband networks.[23] The ReConnect Program offers federal loans, grants, and loan/grant combinations to facilitate broadband deployment to rural areas without access to sufficient broadband service. Eligible entities include cooperatives and nonprofits, for-profit companies, and state and local governments and their agencies and political subdivisions. Applicants for a grant or a loan/grant combination under the ReConnect Program must submit a scoring sheet by which USDA may analyze nine separate evaluation criteria to score the application. One of the evaluation criteria is whether the proposed project is in a state with a broadband plan that has been updated within the previous 5 years.[24]

Miscellaneous Federal Broadband Initiatives

Federal assets to assist with the expansion and promotion of broadband comes from a variety of sources, for example:[25]

- The FCC's E-Rate Universal Service Fund subsidizes telephone service (including broadband Internet access) to low-income households, high-cost areas, rural healthcare providers, and eligible schools and libraries;[26]
- The U.S. Department of Housing and Urban Development[27] and Department of Education[28] offer block grants that can support broadband infrastructure;
- The Department of the Interior launched a mapping tool to allow service providers to locate federal property available for infrastructure development;[29] and
- The National Telecommunications and Information Administration within the U.S. Department of Commerce is working to improve coordination between federal programs that fund broadband and statewide efforts.[30]

The COVID-19 relief bill passed by Congress in December 2020[31] included the following funding to expand broadband Internet access for students, families, and unemployed workers:[32]

- $300 million for rural broadband;[33]
- $250 million for the FCC's telehealth program;[34]
- $285 million to fund a pilot program to assist with broadband issues at historically Black colleges and universities;[35]

- $1.9 billion for "rip and replace" efforts related to Huawei and ZTE equipment in U.S. networks;[36] and
- $1 billion in grants for tribal broadband programs.[37]

Additionally, the American Rescue Plan, signed into law on March 11, 2021, includes multiple appropriations that can be used for broadband infrastructure, such as $10 billion for the Capital Projects Fund to provide grants to states for the costs of capital projects, like broadband infrastructure and $130.2 billion for Community Development Block Grants that can be used for community development projects, including broadband infrastructure.[38]

Other State Action

All 50 states have created either a task force, commission, or authority to coordinate broadband expansion.[39] One organization has studied the work of several state broadband offices authorities and determined that effective practices include stakeholder outreach and engagement at both the state and local levels; thorough development of a policy framework with well-defined goals; adoption of a state broadband plan; and helping communities identify their broadband goals and needs to better connect them with satisfactory resources.[40]

Florida's Office of Broadband

In 2020 the Legislature created the Florida Office of Broadband (Office) within the Department of Economic Opportunity (DEO).[41] The Office is tasked with developing, marketing, and promoting broadband Internet service in the state.

Specifically, the Office must:

- Create a strategic plan for increasing the use of broadband Internet service in Florida which must include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service throughout the state;
- Build local technology planning teams representing, among others, libraries, schools, colleges and universities, local health care providers, private businesses, community

[41] Chapter 2020-26, Laws of Fla.

organizations, economic development organizations, local governments, tourism, parks and recreation, and agriculture;
- Encourage the use of broadband Internet service, especially in rural, unserved, and underserved[42] areas of the state through grant programs; and
- Monitor, participate in, and provide input in proceedings of the FCC and other federal agencies related to the geographic availability and deployment of broadband Internet service as necessary to ensure that Florida's rural, unserved, and underserved areas are best positioned to benefit from federal and state broadband deployment programs.[43]

The DEO may apply for and accept federal grant funds, enter into necessary or useful contracts, and establish any committee or workgroup to further the above goals.[44]

III. Effect of Proposed Changes:

Office of Broadband Mapping Requirements (Section 1, amending s. 364.0135, F.S.)

The bill expands the Office's duties to require it to develop geographical information system (GIS) maps of Florida's broadband Internet service availability by June 30, 2022, and to update the mapping annually thereafter. The mapping must be consistent with the FCC's Digital Opportunity Data Collection Program and be made in consultation with other state agencies, local governments, service providers, private businesses, educational institutions, and community organizations and leaders.

The maps must specifically identify:
- Where broadband-capable networks currently exist and where broadband Internet service is available to Florida's consumers.
- The download and upload rates at which service providers make broadband Internet service available to Florida's businesses and individuals.
- Gaps in Florida's broadband Internet service coverage—especially any areas that are underserved or unserved within rural areas of opportunity.[45]
- Any other mapping information that another Florida agency has already compiled.
- Locations where broadband Internet service is not available, or is provided at speeds below 25/3 Mbps, as identified by public input.

The bill permits the Office to collaborate with Enterprise Florida, Inc., state agencies, local governments, private businesses, and community organizations to create a process to collect and verify public data regarding the availability of broadband Internet service. The bill repeals the current requirement in s. 364.0135(4)(a), F.S., that the Office include a process to review and

[42] Section 364.0135(2)(d), F.S., defines the term "underserved" to mean a geographic area of this state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 10 Mbps downstream and at least 1 Mbps upstream
[43] Section 364.0135(4), F.S.
[44] Section 364.0135(5), F.S.
[45] The currently designated rural areas of opportunity (RAOs) are the Northwest RAO, the South Central RAO, and the North Central RAO. *See* DEO, *Rural Areas of Opportunity*, *available at* http://www.floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity (last visited Mar. 28, 2021).

verify public input regarding transmission speeds and availability of broadband Internet service in its strategic plan.

The Office must also verify any mapping data it receives from another governmental entity or a contractor by comparing it to the source of the data and by evaluating the collection methodology, study organization, and verification processes. If a contractor is used, the governmental entity must also describe the contractor collecting the data.

The bill also requires the Office to create another GIS map by June 30, 2022, that details Florida's broadband infrastructure assets. This map must include the location of any state and federal physical or funding assets that can be used for expanding broadband infrastructure by, e.g., burying or stringing fiber optic cable. Such assets include municipally or city-owned towers, public transportation corridors, capital projects, community-owned land and infrastructure (such as utility poles), and federal E-rate funding commitments.

Florida Broadband Opportunity Program (Section 2, amending s. 364.0136, F.S.)

The bill creates the Broadband Opportunity Program, which will award grants of up to $5 million per project to applicants who seek to expand access to broadband Internet service in unserved and underserved areas of the state. The Office will administer the grant program. Entities may apply for grants to fund the installation or deployment of infrastructure that supports broadband Internet service in underserved or unserved areas. Eligible entities to apply for a grant include businesses and Indian tribes. The grant program is subject to appropriation and state funds may not be used to install or deploy broadband Internet service in a geographic area that already has service from at least one provider.

Applicants must submit a grant application to the Office, which must include:
- A description of the project area;
- A description of the kind and amount of broadband Internet service infrastructure that is proposed;
- Evidence demonstrating the unserved or underserved nature of the project area and the number of households and businesses that would have new access to broadband Internet service or that would have upgraded broadband Internet service as a result of the grant;
- A list of significant community institutions that would benefit from the grant;
- The total cost of the project and the timeframe in which it would be completed;
- Sources of funding or in-kind contributions that would supplement any awarded grant; and
- Any other information required by the Office.

The Office must publish the criteria and quantitative scoring system it will use to evaluate applications and award grants each fiscal year. The criteria and quantitative scoring system must include the criteria listed in the bill, as discussed below.

After it receives grant program applications, the Office must publish the proposed areas to be served and the proposed broadband Internet speed at which the area will be served. A broadband Internet service provider that provides existing service in, or adjacent to, a proposed project area may challenge the grant program applicant's plan. The challenge must be made within 45 days of the Office publishing the application information and demonstrate that:

- The provider currently has deployed broadband Internet service to retail customers within the proposed project area;
- The provider has begun construction to provide broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant; or
- The provider commits to providing broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant.

The Office must notify the applicant if a challenge is made. If the Office determines that the challenge is valid, the Office may not fund the challenged project. If a challenger fails to fulfill its commitment to provide broadband Internet service in accordance with its challenge, it is excluded from submitting another challenge for the next two grant cycles, unless the Office determines the failure to fulfill the commitment was due to circumstances beyond provider's control.

The Office must prioritize applications that:
- Offer broadband Internet service to community institutions including libraries, educational institutions, public safety facilities, and healthcare facilities;
- Facilitate the use of telemedicine and electronic health records;
- Serve economically distressed areas of the state;
- Provide for scalability to transmission speeds of at least 100/10 Mbps;
- Actively promote the adoption of the newly available broadband Internet services in the community;
- Provide evidence of strong support for the project from citizens, government, businesses, and institutions in the community;
- Provide access to broadband Internet service to the greatest number of unserved and underserved households and businesses;
- Leverage greater amounts of funding for the project from private or federal sources; or
- Demonstrate consistency with the Office's strategic plan.[46]

The Office must attempt to award grants to qualified applicants in all regions of the state. The Office cannot award grants:
- To provide broadband Internet service to an area that already has broadband Internet service from at least one provider.
- To a governmental entity, rural electric cooperative or its broadband affiliate, or an educational institution or affiliate, for the purpose of providing broadband Internet service to any residential or commercial premises, unless other broadband Internet service providers have not deployed broadband Internet service to the unserved or underserved area.
- For the purpose of serving any retail end user that already has access to broadband Internet service.
- To any entity if, when combined with any other federal, state, or local funds, the grant will constitute more than 50 percent of the project's funding.

[46] The Office has not published a strategic plan at this time.

The Office must enter into an agreement with the applicant that is awarded a grant under the grant program. The agreement must specify the total amount of the grant, performance conditions, payment schedule, and sanctions for failure to meet performance conditions, including, but not limited to, requiring the return of grant funds.

By October 15, 2022, and each year thereafter, the Office must publish on its website and include in the DEO's annual report under s. 20.60, F.S.:

- A list of all grant applications it received during the previous fiscal year and for each application:
  - The results of any quantitative weighting or scoring system the Office used to award grants or rank the applications.
  - The grant amount requested.
  - The grant amount awarded, if any.
  - A report on the progress of each grant recipient in acquiring and installing infrastructure that supports the provision of broadband Internet service in the project areas for which the grant was awarded and in securing adoption of such service in each project area.
- All written challenges during the previous fiscal year.

Florida Broadband Deployment Task Force (Section 1, amending s. 364.0135(5), F.S.)

The bill creates a Broadband Deployment Task Force to support and provide recommendations to the Office for the deployment of broadband Internet service throughout Florida, including addressing rural infrastructure issues and urban adoption strategies.

The task force members must have an interest and significant expertise in broadband and the bill establishes the membership as follows:

- One member each from the Department of Agriculture and Consumer Services, the Department of Management Services, the Department of Transportation, the Department of Education, the Department of Health, and the Office of Technology and Information Services within the Department of Environmental Protection, all of whom will be appointed by his or her respective agency head;
- One member from the Florida Association of Counties to represent underserved or unserved rural communities, who will be appointed by the DEO's executive director;
- One member of the Florida League of Cities to represent underserved or unserved rural communities, who will be appointed by the DEO's executive director;
- Two members of the public—one who lives in an underserved area and one who lives in an unserved area of Florida—who will be appointed by the Governor; and
- One member from each of the following types of broadband industry providers, who will all be appointed by the Governor: a wireless provider, a wireline provider, a broadband satellite provider, a cable provider, a rural local exchange carrier, and a competitive local exchange carrier.

The initial task force members must be appointed by September 1, 2021. The DEO is required to provide administrative and technical assistance to the task force.

The bill outlines the following specific duties for the task force:

- Identify federal funding sources to assist with the expansion or improvement of broadband Internet in Florida;
- Identify geographic gaps in Florida's broadband Internet service coverage;
- Identify specific projects to further deploy broadband Internet service throughout Florida;
- Develop strategies and recommendations to the Office for inclusion in the strategic plan to:
  - Expand broadband Internet service to rural areas of opportunity—including establishing partnerships with local governments, other state and federal entities, electric utilities, businesses, and the public;
  - Address areas in the state which have broadband Internet service, but where such service is not affordable, as part of an urban strategy;
  - Enable outreach and establish partnerships to best use the federal Emergency Broadband Benefit Program; and
- Coordinate with state agencies and other governmental entities that have oversight in broadband Internet activities or that control potential funding opportunities.

By October 15, the task force is required to submit an annual report that details its findings and recommendations to the DEO for inclusion in its annual report. The Office must also publish the report on its website. The task force expires three years after its members are required to be appointed, on September 1, 2024.

Office of Broadband's Role in the Emergency Broadband Benefit Program (Section 3, creating s. 364.0137, F.S.)

The bill requires the Office to establish a process to identify households that may be eligible to receive a subsidy under the federal Emergency Broadband Benefit Program. The Office must also, when possible, provide notice to identified households that they may be eligible to receive assistance under the program along with information on other state or federal resources that may provide assistance with debt relief.

The bill adopts the federal Emergency Broadband Benefit Program recipient eligibility language, as discussed above in the Present Situation.

The bill requires providers to provide the subsidies in compliance with the federal program. A provider cannot disqualify an eligible household because a member of the household owes payments to the provider or has owed payments in the past. The bill continues to mirrors the federal law by requiring that the subsidy must be up to $50, but no more than the standard rate for service and associated equipment.

Local Technology Planning Teams

Current law requires the Office to create local technology planning teams or partnerships, the membership of which consists of representatives of education, health care, private business, agriculture, economic development organizations, local government, and tourism. Current law does not provide a specific purpose or goal for these teams. The bill adds language that targets the teams' work to unserved and underserved communities—especially fiscally constrained counties. The bill outlines the following duties for the teams:

- Work with rural communities to help them understand their current service availability;

- Locate unserved and underserved businesses or residents;
- Identify assets that may be used to further deploy broadband;
- Build partnerships with broadband service providers;
- Identify opportunities to increase the use and deployment of broadband in the community; and
- Be proactive in fiscally constrained counties to identify and provide assistance with applications for federal broadband grants.

Miscellaneous

Legislative Findings

The bill updates the legislative findings to state that Florida's sustainable adoption of broadband Internet service is essential to all its residents, rather than beneficial to specific entities.

Definitions

The bill adds a definition of the term "unserved" to mean a geographic area of Florida in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a speed of 25/3 Mbps—the speed used by the FCC to define sufficient broadband Internet.

The bill also amends the definition of "underserved" to mean a geographic area of Florida in which there is no internet service provider that offers a connection to the Internet with a capacity for transmission at a speed of 100/10 Mbps. This is higher than any current definition of broadband.

Public Records

The bill adds language that clarifies that any information that is already confidential or exempt from public disclosure under ch. 119, F.S., when held by the DEO retains that confidentiality or exemption when given to the DEO by a broadband service provider pursuant to s. 364.0135, F.S.

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.[47] The right to inspect or copy applies to the official business of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[48]

Chapter 119, F.S., known as the Public Records Act, provides that all state, county, and municipal records are open for personal inspection and copying by any person, and that Florida agencies must provide access to its public records.[49] The Legislature may exempt specific types

[47] Art. I, s. 24(a), Fla. Const.
[48] *Id*.
[49] Section 119.01(1), F.S. Section 119.011(2), F.S., defines "agency" as "any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency."

of public records from public access requirements;[50] the exemption must state with specificity the public necessity that justifies the exemption and must be no broader than necessary to accomplish the stated purpose of the exemption.[51] For example, s. 288.075(3) and (4), F.S., make trade secrets held by an economic development agency and proprietary confidential business information held by an economic development agency, respectively, confidential and exempt from s. 119.071(1), F.S.

Effective Date

The bill takes effect on July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

The bill does not create a new public records exemption or expand an existing exemption.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill may ultimately help to provide more affordable broadband Internet service to Florida's communities by increasing related infrastructure and identifying funding

[50] Art. I, s. 24(c), Fla. Const.

[51] *Id*. *See, e.g.*, *Halifax Hosp. Medical Center v. News-Journal Corp.*, 724 So. 2d 567 (Fla. 1999) (holding that a public meetings exemption was unconstitutional because the statement of public necessity did not define important terms and did not justify the breadth of the exemption); *Baker County Press, Inc. v. Baker County Medical Services, Inc.*, 870 So. 2d 189 (Fla. 1st DCA 2004) (holding that a statutory provision written to bring another party within an existing public records exemption is unconstitutional without a public necessity statement).

sources to subsidize other related costs. The bill will benefit eligible provides by assisting them to expand their services.

Households eligible for the federal Emergency Broadband Benefit Program may benefit from notification by the DEO of their potential eligibility for the program.

C. Government Sector Impact:

The bill creates several new duties for the DEO, including:

- Undertaking GIS mapping for both broadband Internet service availability and broadband infrastructure assets;
- Gathering public input for the service availability map;
- Providing administrative and technical support to the task force created within the Office;
- Administering the Broadband Opportunity Program; and
- Identifying and providing information to potentially eligible households for the federal Emergency Broadband Benefit Program.

The bill does not appropriate the Office any resources or funding to complete these expanded duties. To staff the Office to meet these new duties, the DEO estimates the need for 3 FTE and 1 OPS, at a total cost of about $321,000 recurring.[52]

The DEO estimates that to hire a vendor and complete project setup for the GIS mapping would cost about $1 million in Fiscal Year 2021-2022 and $500,000 recurring for yearly maintenance and updates. Related to the broadband infrastructure asset mapping, the DEO estimates that to hire a vendor and complete project setup for the asset mapping would cost about $1 million in Fiscal Year 2021-2022 and $500,000 recurring for yearly maintenance and updates.

To establish the task force, host and conduct the meetings, pay for travel and per diem expenses, and complete the annual report, the DEO estimates a cost of $300,000 recurring. The task force is required to verify any mapping data it receives from another governmental entity or contractor; the DEO anticipates hiring a vendor to assist with this requirement, with an initial setup cost of $1 million in in Fiscal Year 2021-2022.

Related to the new duties that the bill prescribes to local technology planning teams, the DEO estimates a recurring cost of $100,000 to provide administrative support and cover the costs of meeting and other related expenses.

The bill does not appropriate any funds to the Broadband Opportunity Program, created in the bill to provide grants to support the growth of broadband Internet infrastructure in Florida. The bill provides that this program is subject to appropriation. At this time, no funding is provided in SB 2500 for this program.

[52] Fiscal impacts attributed to DEO estimates are from DEO, *Fiscal Request – SB 1560 Broadband Internet Service* (April 5, 2021) (on file with the Senate Transportation, Tourism, and Economic Development Appropriations Subcommittee).

VI. Technical Deficiencies:

None.

VII. Related Issues:

Section 20.052, F.S., sets forth requirements for advisory bodies created by law. The body must be created only when found to be necessary and beneficial to furthering a public purpose, and it must be terminated when that need or benefit no longer exists. The body may not be created unless it meets a statutorily defined purpose; its powers and responsibilities conform to s. 20.03, F.S., as discussed below; its members are appointed to 4-year staggered terms; and its members serve without additional compensation or honorarium, unless otherwise expressly provided, and are authorized to receive only per diem and reimbursement for travel.

The bill states that the task force shall operate in a manner consistent with s. 20.052, F.S. The bill does not expressly provide for task force member terms, whether the members are authorized to receive per diem or travel reimbursement, or the duration of the task force. By operating in a manner consistent with s. 20.052, F.S., the term of task force members is 4 years, though the application of staggered terms is not clear, and task force members serve without additional compensation, but are entitled to per diem or travel reimbursement.

Section 20.03, F.S., defines a "task force" as an advisory body that is created by a specific statutory enactment for a time not to exceed 3 years and that will cease to exist after it completes its assignment. The task force created in the bill expires three years after its members are appointed, on September 1, 2024.

The confidentiality and public record exemption language in s. 364.0135(6), F.S., of the bill appears to reiterate current confidentiality and public record exemption language that already exist elsewhere in law. Therefore, this language appears to be duplicative and unnecessary.

The DEO may lack expertise to be able to identify potentially eligible households for the federal Emergency Broadband Benefit Program and to direct consumers to state or federal resources that may provide assistance with debt relief as required by the bill.

VIII. Statutes Affected:

The bill substantially amends section 364.0135 of the Florida Statutes.

The bill creates the following sections of the Florida Statutes: 364.0136 and 364.0137.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

PCS 419562 by Appropriations (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development):
The proposed committee substitute does the following:

- Removes duplicative language related to public input;
- Clarifies that the Office of Technology and Information Services is within the Department of Environmental Protection (task force member);
- Clarifies the duties of the task force and directs strategies developed to be recommended to the Office of Broadband for inclusion in its strategic plan;
- Requires the annual report by the task force to be submitted by October 15 for inclusion in the DEO annual report and also to be published on the Office's website;
- Sets the task force to expire 3 years after appointments are required to be made – on September 1, 2024;
- Clarifies that current law related to priority to grants by the Office does not apply to the new Broadband Opportunity Grant Program;
- Allows for leverage of federal funding for grants under the grant program; and
- Requires the annual report by the Office on the grant program to be submitted by October 15 for inclusion in the DEO annual report and clarifies the timeframe for the information (by fiscal year).

CS by Commerce and Tourism on March 15, 2021:
The CS creates the Broadband Opportunity Program to award grants to support broadband Internet infrastructure in underserved and unserved areas of Florida. The Grant Program will be administered by the Office and is subject to appropriation.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

703658

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/20/2021	.	
	.	
	.	
	.	

The Committee on Appropriations (Ausley) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 364.0135, Florida Statutes, is amended to read:

364.0135 Promotion of broadband adoption; Florida Office of Broadband.—

(1) LEGISLATIVE FINDINGS.—The Legislature finds that the

703658

sustainable adoption of broadband Internet service is critical to the economic and business development of this ~~the~~ state and is essential ~~beneficial~~ for all residents of this state, libraries, schools, colleges and universities, health care providers, and community organizations.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Department" means the Department of Economic Opportunity.

(b) "Office" means the Florida Office of Broadband.

(c) "Sustainable adoption" means the ability for communications service providers to offer broadband services in all areas of this ~~the~~ state by encouraging adoption and use ~~utilization~~ levels that allow for these services to be offered in the free market absent the need for governmental subsidy.

(d) "Underserved" means a geographic area of this ~~the~~ state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 100 ~~10~~ megabits per second downstream and at least 10 megabits ~~1 megabit~~ per second upstream.

(e) "Unserved" means a geographic area of this state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 25 megabits per second downstream and at least 3 megabits per second upstream.

(3) STATE AGENCY.—The department is designated as the lead state agency to facilitate the expansion of broadband Internet service in this ~~the~~ state. The department shall work collaboratively with private businesses and receive staffing

703658

support and other resources from Enterprise Florida, Inc., state agencies, local governments, and community organizations.

(4) FLORIDA OFFICE OF BROADBAND.—The Florida Office of Broadband is created within the Division of Community Development in the department for the purpose of developing, marketing, and promoting broadband Internet services in this ~~the~~ state. The office, in the performance of its duties, shall do all of the following:

(a) Create a strategic plan that has short-term and long-term goals and strategies for increasing and improving the availability of and access to ~~use of~~ broadband Internet service in this ~~the~~ state. In development of the plan, the department shall incorporate applicable federal broadband activities, including any efforts or initiatives of the Federal Communications Commission, to improve broadband Internet service in this state. ~~The plan must include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service throughout the state.~~ The plan must identify available federal funding sources for the expansion or improvement of broadband. The strategic plan must be submitted to the Governor, the Chief Justice of the Supreme Court, the President of the Senate, and the Speaker of the House of Representatives by June 30, 2022. The strategic plan must be updated biennially thereafter.

(b) Build and facilitate local technology planning teams or partnerships with members representing cross-sections of the community, which may include, but are not limited to, representatives from the following organizations and industries: libraries, K-12 education, colleges and universities, local

health care providers, private businesses, community organizations, economic development organizations, local governments, tourism, parks and recreation, and agriculture. The local technology planning teams or partnerships shall work with rural communities to help the communities understand their current broadband availability, locate unserved and underserved businesses and residents, identify assets relevant to broadband deployment, build partnerships with broadband service providers, and identify opportunities to leverage assets and reduce barriers to the deployment of broadband Internet services in the community. The teams or partnerships must be proactive in fiscally constrained counties in identifying and providing assistance with applying for federal grants for broadband Internet service.

(c) Provide technical and planning assistance related to broadband infrastructure to rural communities.

(d) ~~(c)~~ Encourage the use of broadband Internet service, especially in the rural, unserved, or underserved communities of this ~~the~~ state through grant programs having effective strategies to facilitate the statewide deployment of broadband Internet service. For any grants to be awarded, priority must be given to projects that:

1. Provide access to broadband education, awareness, training, access, equipment, and support to libraries, schools, colleges and universities, health care providers, and community support organizations.

2. Encourage the sustainable adoption of broadband in primarily underserved areas by removing barriers to entry.

3. Work toward encouraging investments in establishing

703658

affordable and sustainable broadband Internet service in underserved areas of this ~~the~~ state.

4. Facilitate the development of applications, programs, and services, including, but not limited to, telework, telemedicine, and e-learning to increase the usage of, and demand for, broadband Internet service in this ~~the~~ state.

(e) ~~(d)~~ Monitor, participate in, and provide input in proceedings of the Federal Communications Commission and other federal agencies related to the geographic availability and deployment of broadband Internet service in this ~~the~~ state as necessary to ensure that this information is accurately presented and that rural, unserved, and underserved areas of this ~~the~~ state are best positioned to benefit from federal and state broadband deployment programs.

(f) By June 30, 2022, and subject to appropriation, develop geographic information system maps of broadband Internet service availability throughout this state. The office shall collaborate with broadband service providers, state agencies, local governmental entities, private businesses, educational institutions, and community organizations and leaders to develop such maps.

1. The maps must do all of the following:

a. Be consistent with the Digital Opportunity Data Collection program reporting standards established by the Federal Communications Commission.

b. Identify where broadband-capable networks exist and broadband Internet service is available to end users.

c. Identify download and upload transmission speeds made available to businesses and individuals in this state.

703658

d. Identify gaps in broadband Internet service coverage, specifying underserved and unserved areas within those areas of this state designated as a rural area of opportunity under s. 288.0656(2).

e. Include any other mapping information already compiled by other state agencies.

f. Be updated annually.

2. Any mapping data received from another governmental entity or a contractor must be verified. Such data must be verified against the source of the data and whether such entity is able to demonstrate that it has employed a sound and reliable methodology in the collection, organization, and verification of the data it has submitted to the office. If a governmental entity enters into a valid contract with a contractor to collect broadband availability data, the entity must describe the third party providing the data as well as the methodology used to collect, organize, and verify the availability data provided.

3. The office must establish a mechanism to receive and verify public input which identifies locations in which broadband Internet service is not available, including locations in which broadband Internet service is provided at data transmission speeds below the standard established by the Federal Communications Commission for broadband Internet service. Upon verification, the office shall adjust its geographic information system maps to reflect information received from the public. In developing and implementing this mechanism, the office may work in collaboration with, and receive staffing support and other resources from, Enterprise Florida, Inc., state agencies, local governments, private

703658

businesses, and community organizations.

(g) By June 30, 2022, and subject to appropriation, develop a broadband infrastructure asset map that includes, but is not limited to:

1. State and federal assets, including, but not limited to, municipally or city-owned towers that may be used by providers; rights-of-way that may be made available for easier and less expensive access to burying or stringing fiber optic cable; public transportation corridors; capital projects that may be used as an opportunity to lay new fiber optic conduit for future activation; and federal E-rate funding commitments; and

2. Community-owned land and infrastructure, including, but not limited to, land that may be leased and utility poles that may be used to expand broadband networks.

(h) Administer the Broadband Opportunity Program established in s. 364.0136.

(5) CONFIDENTIALITY.—Any information that is confidential or exempt from public disclosure under chapter 119 when in the possession of the department retains its status as confidential or exempt from disclosure under chapter 119 when provided by a broadband service provider under this section.

(6) ~~(5)~~ ADMINISTRATION.—The department may:

(a) Apply for and accept federal funds for purposes of this section.

(b) Enter into contracts necessary or useful to carry out the purposes of this section.

(c) Establish any committee or workgroup to administer and carry out the purposes of this section.

Section 2. Section 364.0136, Florida Statutes, is created

to read:

364.0136 Broadband Opportunity Program.—

(1) The Broadband Opportunity Program is established within the Florida Office of Broadband within the Department of Economic Opportunity to award grants to applicants who seek to expand broadband Internet service to unserved and underserved areas of this state. The office must administer and act as fiscal agent for the program and is responsible for receiving and reviewing applications and awarding grants. Funding for the program shall be subject to appropriation.

(2) Grants awarded under this section shall fund the installation or deployment of infrastructure that supports the provision of broadband Internet service. State funds may not be used to install or deploy broadband Internet service to a geographic area in which broadband Internet service is already deployed by at least one provider.

(3) Applicants eligible for grant awards include:

(a) Corporations, limited liability companies, general partnerships, and limited partnerships that are organized under the laws of this state or otherwise authorized to transact business in this state.

(b) Indian tribes.

(c) A political subdivision in partnership with a provider of broadband Internet service.

(4) The office may not award, directly or indirectly, grants under this section to a governmental entity, a rural electric cooperative or its broadband affiliate, or an educational institution or affiliate to provide broadband Internet service to any residential or commercial premises,

703658

unless other broadband Internet service providers have not deployed service to an unserved or underserved area. This subsection does not apply to provision of broadband Internet service in an unserved or underserved area in a fiscally constrained county as defined in s. 218.67.

(5) An eligible applicant shall submit a grant application to the office on a form prescribed by the office. A grant application must include all of the following information:

(a) A description of the project area.

(b) A description of the kind and amount of broadband Internet service infrastructure which is proposed.

(c) Evidence demonstrating the unserved or underserved nature of the project area.

(d) The number of households and businesses which would have access to broadband Internet service as a result of the grant.

(e) A list of significant community institutions that would benefit from the grant.

(f) The total cost of the project and the timeframe in which it would be completed.

(g) A list identifying sources of funding or in-kind contributions that would supplement any awarded grant.

(h) Any other information required by the office.

(6)(a) At least 30 days before the first day grant applications may be submitted each fiscal year, the office shall publish on its website the specific criteria and quantitative scoring system it will use to evaluate or rank grant applications. Such criteria and quantitative scoring system must include the criteria set forth in subsection (7).

(b) Within 3 business days after the close of the grant application process, the office shall publish on its website, from each grant application submitted, the proposed unserved or underserved areas to be served and the proposed broadband Internet speeds of the areas to be served.

(c) A broadband Internet service provider that provides existing service in or adjacent to a proposed project area may submit to the office, within 45 days after publication of the information under paragraph (b), a written challenge to an application. The challenge must contain information demonstrating that:

1. The provider currently has deployed broadband Internet service to retail customers within the project area;

2. The provider has begun construction to provide broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant; or

3. The provider commits to providing broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant.

(d) Within 3 business days after the submission of a written challenge, the office shall notify the applicant, in writing, of the challenge.

(e) The office shall evaluate each challenge submitted under this subsection. If the office determines that the provider currently has deployed, has begun construction to provide, or commits to provide broadband Internet service in the proposed project area, the office may not fund the challenged project.

(f) If the office denies funding to an applicant as a

703658

result of a broadband Internet service provider's challenge, and the provider does not fulfill its commitment to provide broadband Internet service in the unserved or underserved area, the office may not consider another challenge from the provider for the next two grant application cycles, unless the office determines that the failure to fulfill the commitment was due to circumstances beyond the provider's control.

(7)(a) Notwithstanding s. 364.0135(4)(c), in evaluating grant applications and awarding grants, the office must give priority to applications that:

1. Offer broadband Internet service to important community institutions, including, but not limited to, libraries, educational institutions, public safety facilities, and health care facilities;

2. Facilitate the use of telemedicine and electronic health records;

3. Serve economically distressed areas of this state, as measured by indices of unemployment, poverty, or population loss which are significantly greater than the statewide average;

4. Provide for scalability to transmission speeds of at least 100 megabits per second download and 10 megabits per second upload;

5. Include a component to actively promote the adoption of the newly available broadband Internet service in the community;

6. Provide evidence of strong support for the project from residents, government, businesses, and institutions in the community;

7. Provide access to broadband Internet service to the greatest number of unserved and underserved households and

703658

businesses;

8. Leverage greater amounts of funding for a project from private or federal sources; or

9. Demonstrate consistency with the strategic plan adopted under s. 364.0135.

(b) The office must endeavor to award grants to qualified applications serving all regions of this state.

(8)(a) A grant awarded under this section may not be used to serve any retail end user that already has access to broadband Internet service.

(b) A grant awarded under this section, when combined with any state, local, or federal funds, may not fund more than 50 percent of the total cost of a project. However, the grant award may fund more than 50 percent of the total cost of a project in a fiscally constrained county as defined in s. 218.67.

(c) A single project may not be awarded a grant in excess of $5 million.

(9) For each grant awarded, the office shall enter into an agreement with the applicant. The agreement must specify the total amount of the grant, performance conditions that must be met to obtain the grant, the schedule of payment, and sanctions that would apply for failure to meet performance conditions, including, but not limited to, requiring the return of grant funds.

(10) By October 15, 2022, and each year thereafter, the office shall publish on its website and include in the department’s annual report required under s. 20.60 all of the following information:

(a) A list of all grant applications received during the

703658

previous fiscal year and for each application:

1. The results of any quantitative weighting or scoring system the office used to award grants or rank the applications.

2. The grant amounts requested.

3. The grant amounts awarded, if any.

4. A report on the progress of each grant recipient in acquiring and installing infrastructure that supports the provision of broadband Internet service in the project areas for which that grant was awarded and in securing adoption of such service in each project area.

(b) All written challenges filed during the previous fiscal year and the results of those challenges.

(11) The department may adopt rules to implement this section.

Section 3. This act shall take effect July 1, 2021.

================ T I T L E A M E N D M E N T ================

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to broadband Internet service; amending s. 364.0135, F.S.; revising legislative findings; defining terms; revising the duties of the Florida Office of Broadband within the Department of Economic Opportunity; requiring the office's strategic plan to include short-term and long-term goals for increasing the availability of and access to broadband Internet service in this state; providing requirements

703658

for the development of the plan; requiring the updated plan to be submitted to the Governor, the Chief Justice of the Supreme Court, and the Legislature by a specified date; requiring the plan to be updated biennially; requiring local technology planning teams or partnerships to work with rural communities for specified purposes; requiring the office to provide technical and planning assistance related to broadband infrastructure to rural communities; requiring the office to develop geographic information system maps in collaboration with specified entities and consistent with certain federal reporting standards by a specified date; specifying required contents of the maps; requiring the department to annually update such maps and establish a mechanism to receive and verify governmental and public input related to broadband Internet service; authorizing the department to work collaboratively with specified entities in developing the mechanism; requiring the office to develop a broadband infrastructure asset map by a specified date; specifying required contents of the map; providing that certain information provided to the department from broadband service providers retains its exemption from public disclosure; providing rulemaking authority; creating s. 364.0136, F.S.; creating the Broadband Opportunity Program within the office; providing for administration of the program; providing requirements for grant awards; providing eligibility requirements; providing application

requirements; requiring the office to publish certain information related to grant applications and grant awards on its website; authorizing grant applications to be challenged under certain circumstances; specifying contents of a challenge; providing procedures to be used by the office in evaluating challenges; providing direction for prioritizing grant funding; specifying conditions for the award of grants; requiring the office to enter into an agreement containing specified information with each grant recipient; requiring the office to publish specified information annually on its website and include the information in the department's annual report; providing an effective date.

576-03917-21

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to broadband Internet service; amending s. 364.0135, F.S.; revising legislative findings; defining terms; revising the duties of the Florida Office of Broadband within the Department of Economic Opportunity; requiring local technology planning teams or partnerships to work with rural communities for specified purposes; requiring the office to develop geographic information system maps in collaboration with specified entities and consistent with certain federal reporting standards by a specified date; specifying required contents of the maps; requiring the department to annually update such maps and establish a mechanism to receive and verify governmental and public input related to broadband Internet service; authorizing the department to work collaboratively with specified entities in developing the mechanism; requiring the office to develop a broadband infrastructure asset map by a specified date; specifying required contents of the map; establishing the Broadband Deployment Task Force within the department for a specified purpose; requiring the department to provide administrative and technical assistance to the task force; providing for the membership and duties of the task force; requiring the task force to submit annual progress reports to

576-03917-21

the department by a specified date for inclusion in its annual report; providing for expiration of the task force; providing that certain information provided to the department from broadband service providers retains its exemption from public disclosure; creating s. 364.0136, F.S.; creating the Broadband Opportunity Program within the office; providing for administration of the program; providing requirements for grant awards; providing eligibility requirements; providing application requirements; requiring the office to publish certain information related to grant applications and grant awards on its website; authorizing grant applications to be challenged under certain circumstances; specifying contents of a challenge; providing procedures to be used by the office in evaluating challenges; providing direction for prioritizing grant funding; specifying conditions for the award of grants; requiring the office to enter into an agreement containing specified information with each grant recipient; requiring the office to publish specified information annually on its website and include the information in the department’s annual report; creating s. 364.0137, F.S.; defining terms; requiring the office to establish a process to identify eligible households to receive federal Emergency Broadband Benefit Program funds under certain circumstances; providing for direct subsidy payments; providing for household participation in the program; requiring the office to

provide certain information to potentially eligible households; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 364.0135, Florida Statutes, is amended to read:

364.0135 Promotion of broadband adoption; Florida Office of Broadband.—

(1) LEGISLATIVE FINDINGS.—The Legislature finds that the sustainable adoption of broadband Internet service is critical to the economic and business development of this ~~the~~ state and is essential ~~beneficial~~ for all residents of this state, libraries, schools, colleges and universities, health care providers, and community organizations.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Department" means the Department of Economic Opportunity.

(b) "Office" means the Florida Office of Broadband.

(c) "Sustainable adoption" means the ability for communications service providers to offer broadband services in all areas of this ~~the~~ state by encouraging adoption and use ~~utilization~~ levels that allow for these services to be offered in the free market absent the need for governmental subsidy.

(d) "Task force" means the Broadband Deployment Task Force within the office.

(e) ~~(d)~~ "Underserved" means a geographic area of this ~~the~~ state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity

for transmission at a consistent speed of at least 100 ~~10~~ megabits per second downstream and at least 10 megabits ~~1 megabit~~ per second upstream.

(f) "Unserved" means a geographic area of this state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 25 megabits per second downstream and at least 3 megabits per second upstream.

(3) STATE AGENCY.—The department is designated as the lead state agency to facilitate the expansion of broadband Internet service in this ~~the~~ state. The department shall work collaboratively with private businesses and receive staffing support and other resources from Enterprise Florida, Inc., state agencies, local governments, and community organizations.

(4) FLORIDA OFFICE OF BROADBAND.—The Florida Office of Broadband is created within the Division of Community Development in the department for the purpose of developing, marketing, and promoting broadband Internet services in this ~~the~~ state. The office, in the performance of its duties, shall do all of the following:

(a) Create a strategic plan that has goals and strategies for increasing the use of broadband Internet service in this ~~the~~ state. ~~The plan must include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service throughout the state.~~

(b) Build and facilitate local technology planning teams or partnerships with members representing cross-sections of the community, which may include, but are not limited to, representatives from the following organizations and industries:

576-03917-21

libraries, K-12 education, colleges and universities, local health care providers, private businesses, community organizations, economic development organizations, local governments, tourism, parks and recreation, and agriculture. The local technology planning teams or partnerships shall work with rural communities to help the communities understand their current broadband availability, locate unserved and underserved businesses and residents, identify assets relevant to broadband deployment, build partnerships with broadband service providers, and identify opportunities to leverage assets and reduce barriers to the deployment of broadband Internet services in the community. The teams or partnerships must be proactive in fiscally constrained counties in identifying and providing assistance with applying for federal grants for broadband Internet service.

(c) Encourage the use of broadband Internet service, especially in the rural, unserved, or underserved communities of this ~~the~~ state through grant programs having effective strategies to facilitate the statewide deployment of broadband Internet service. For any grants to be awarded, priority must be given to projects that:

1. Provide access to broadband education, awareness, training, access, equipment, and support to libraries, schools, colleges and universities, health care providers, and community support organizations.

2. Encourage the sustainable adoption of broadband in primarily underserved areas by removing barriers to entry.

3. Work toward encouraging investments in establishing affordable and sustainable broadband Internet service in

576-03917-21

underserved areas of this ~~the~~ state.

4. Facilitate the development of applications, programs, and services, including, but not limited to, telework, telemedicine, and e-learning to increase the usage of, and demand for, broadband Internet service in this ~~the~~ state.

(d) Monitor, participate in, and provide input in proceedings of the Federal Communications Commission and other federal agencies related to the geographic availability and deployment of broadband Internet service in this ~~the~~ state as necessary to ensure that this information is accurately presented and that rural, unserved, and underserved areas of this ~~the~~ state are best positioned to benefit from federal and state broadband deployment programs.

(e) By June 30, 2022, develop geographic information system maps of broadband Internet service availability throughout this state. The office shall collaborate with broadband service providers, state agencies, local governmental entities, private businesses, educational institutions, and community organizations and leaders to develop such maps.

1. The maps must do all of the following:

a. Be consistent with the Digital Opportunity Data Collection program reporting standards established by the Federal Communications Commission.

b. Identify where broadband-capable networks exist and broadband Internet service is available to end users.

c. Identify download and upload transmission speeds made available to businesses and individuals in this state.

d. Identify gaps in broadband Internet service coverage, specifying underserved and unserved areas within those areas of

this state designated as a rural area of opportunity under s. 288.0656(2).

e. Include any other mapping information already compiled by other state agencies.

f. Be updated annually.

2. Any mapping data received from another governmental entity or a contractor must be verified. Such data must be verified against the source of the data and whether such entity is able to demonstrate that it has employed a sound and reliable methodology in the collection, organization, and verification of the data it has submitted to the office. If a governmental entity enters into a valid contract with a contractor to collect broadband availability data, the entity must describe the third party providing the data as well as the methodology used to collect, organize, and verify the availability data provided.

3. The office must establish a mechanism to receive and verify public input which identifies locations in which broadband Internet service is not available, including locations in which broadband Internet service is provided at data transmission speeds below the standard established by the Federal Communications Commission for broadband Internet service. Upon verification, the office shall adjust its geographic information system maps to reflect information received from the public. In developing and implementing this mechanism, the office may work in collaboration with, and receive staffing support and other resources from, Enterprise Florida, Inc., state agencies, local governments, private businesses, and community organizations.

(f) By June 30, 2022, develop a broadband infrastructure

asset map that includes, but is not limited to:

1. State and federal assets, including, but not limited to, municipally or city-owned towers that may be used by providers; rights-of-way that may be made available for easier and less expensive access to burying or stringing fiber optic cable; public transportation corridors; capital projects that may be used as an opportunity to lay new fiber optic conduit for future activation; and federal E-rate funding commitments; and

2. Community-owned land and infrastructure, including, but not limited to, land that may be leased and utility poles that may be used to expand broadband networks.

(g) Administer the Broadband Opportunity Program established in s. 364.0136.

(5) BROADBAND DEPLOYMENT TASK FORCE.—The Broadband Deployment Task Force, a task force as defined in s. 20.03(8), is established within the department to support and provide recommendations to the office for the deployment of broadband Internet service throughout this state, including, but not limited to, rural buildout and urban adoption strategies. The department shall provide administrative and technical assistance to the task force in the performance of its duties. The task force shall operate in a manner consistent with s. 20.052.

(a) The task force shall be composed of the following members, who must be appointed by September 1, 2021, and who must have an interest and significant expertise in broadband Internet services:

1. One member from each of the following state agencies, who shall be appointed by his or her agency head: the Department of Agriculture and Consumer Services, the Department of

Management Services, the Department of Transportation, the Department of Education, the Department of Health, and the Office of Technology and Information Services within the Department of Environmental Protection.

2. One member from the Florida Association of Counties as a representative of underserved or unserved rural communities, who is recommended by the association and appointed by the executive director.

3. One member from the Florida League of Cities as a representative of underserved or unserved rural communities, who is recommended by the league and appointed by the executive director.

4. Two members of the public who are appointed by the Governor, including one member who resides in an underserved area of this state and one member who resides in an unserved area of this state.

5. One member from each of the following segments of the broadband industry, who shall be appointed by the Governor: a wireless provider, a wireline provider, a broadband satellite provider, a cable provider, a rural local exchange carrier, and a competitive local exchange carrier.

(b) Any vacancy on the task force must be filled in the same manner as the original appointment.

(c) The task force shall identify:

1. Any available federal funding sources for the expansion or improvement of broadband Internet services in this state.

2. Any gaps in broadband Internet service coverage for any area of this state.

3. Specific projects that will accomplish the deployment of

broadband Internet service throughout this state.

(d) The task force shall develop strategies and make recommendations to the office for inclusion in its strategic plan to:

1. Expand broadband Internet service to any area of this state designated as a rural area of opportunity, including, but not limited to, methods of building partnerships with local governments, other state and federal entities, electric utilities, the business community, and the public to support broadband Internet service in such areas.

2. Address areas of this state which have broadband Internet service, but where such service is not affordable, as part of an urban strategy.

3. Enable outreach and establish partnerships to facilitate maximum use of the federal Emergency Broadband Benefit Program within the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260 and regulations adopted thereunder.

(e) The task force may coordinate with state agencies and other governmental entities with oversight in broadband Internet activities or potential funding opportunities.

(f) The task force shall submit an annual report of its findings and recommendations by October 15 to the department for inclusion in its annual report required under s. 20.60. The office must also publish the report on its website.

(g) This subsection expires on September 1, 2024.

(6) CONFIDENTIALITY.—Any information that is confidential or exempt from public disclosure under chapter 119 when in the possession of the department retains its status as confidential or exempt from disclosure under chapter 119 when provided by a

broadband service provider under this section.

(7)~~(5)~~ ADMINISTRATION.—The department may:

(a) Apply for and accept federal funds for purposes of this section.

(b) Enter into contracts necessary or useful to carry out the purposes of this section.

(c) Establish any committee or workgroup to administer and carry out the purposes of this section.

Section 2. Section 364.0136, Florida Statutes, is created to read:

364.0136 Broadband Opportunity Program.—

(1) The Broadband Opportunity Program is established within the Florida Office of Broadband within the Department of Economic Opportunity to award grants to applicants who seek to expand broadband Internet service to unserved and underserved areas of this state. The office must administer and act as fiscal agent for the program and is responsible for receiving and reviewing applications and awarding grants. Funding for the program shall be subject to appropriation.

(2) Grants awarded under this section shall fund the installation or deployment of infrastructure that supports the provision of broadband Internet service. State funds may not be used to install or deploy broadband Internet service to a geographic area in which broadband Internet service is already deployed by at least one provider.

(3) Applicants eligible for grant awards include:

(a) Corporations, limited liability companies, general partnerships, and limited partnerships that are organized under the laws of this state or otherwise authorized to transact

business in this state.

(b) Indian tribes.

(4) The office may not award, directly or indirectly, grants under this section to a governmental entity, a rural electric cooperative or its broadband affiliate, or an educational institution or affiliate to provide broadband Internet service to any residential or commercial premises, unless other broadband Internet service providers have not deployed service to an unserved or underserved area.

(5) An eligible applicant shall submit a grant application to the office on a form prescribed by the office. A grant application must include all of the following information:

(a) A description of the project area.

(b) A description of the kind and amount of broadband Internet service infrastructure which is proposed.

(c) Evidence demonstrating the unserved or underserved nature of the project area.

(d) The number of households and businesses which would have access to broadband Internet service as a result of the grant.

(e) A list of significant community institutions that would benefit from the grant.

(f) The total cost of the project and the timeframe in which it would be completed.

(g) A list identifying sources of funding or in-kind contributions that would supplement any awarded grant.

(h) Any other information required by the office.

(6)(a) At least 30 days before the first day grant applications may be submitted each fiscal year, the office shall

publish on its website the specific criteria and quantitative scoring system it will use to evaluate or rank grant applications. Such criteria and quantitative scoring system must include the criteria set forth in subsection (7).

(b) Within 3 business days after the close of the grant application process, the office shall publish on its website, from each grant application submitted, the proposed unserved or underserved areas to be served and the proposed broadband Internet speeds of the areas to be served.

(c) A broadband Internet service provider that provides existing service in or adjacent to a proposed project area may submit to the office, within 45 days after publication of the information under paragraph (b), a written challenge to an application. The challenge must contain information demonstrating that:

1. The provider currently has deployed broadband Internet service to retail customers within the project area;

2. The provider has begun construction to provide broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant; or

3. The provider commits to providing broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant.

(d) Within 3 business days after the submission of a written challenge, the office shall notify the applicant, in writing, of the challenge.

(e) The office shall evaluate each challenge submitted under this subsection. If the office determines that the provider currently has deployed, has begun construction to

provide, or commits to provide broadband Internet service in the proposed project area, the office may not fund the challenged project.

(f) If the office denies funding to an applicant as a result of a broadband Internet service provider's challenge, and the provider does not fulfill its commitment to provide broadband Internet service in the unserved or underserved area, the office may not consider another challenge from the provider for the next two grant application cycles, unless the office determines that the failure to fulfill the commitment was due to circumstances beyond the provider's control.

(7)(a) Notwithstanding s. 364.0135(4)(c), in evaluating grant applications and awarding grants, the office must give priority to applications that:

1. Offer broadband Internet service to important community institutions, including, but not limited to, libraries, educational institutions, public safety facilities, and health care facilities;

2. Facilitate the use of telemedicine and electronic health records;

3. Serve economically distressed areas of this state, as measured by indices of unemployment, poverty, or population loss which are significantly greater than the statewide average;

4. Provide for scalability to transmission speeds of at least 100 megabits per second download and 10 megabits per second upload;

5. Include a component to actively promote the adoption of the newly available broadband Internet service in the community;

6. Provide evidence of strong support for the project from

576-03917-21

residents, government, businesses, and institutions in the community;

7. Provide access to broadband Internet service to the greatest number of unserved and underserved households and businesses;

8. Leverage greater amounts of funding for a project from private or federal sources; or

9. Demonstrate consistency with the strategic plan adopted under s. 364.0135.

(b) The office must endeavor to award grants to qualified applications serving all regions of this state.

(8)(a) A grant awarded under this section may not be used to serve any retail end user that already has access to broadband Internet service.

(b) A grant awarded under this section, when combined with any state, local, or federal funds, may not fund more than 50 percent of the total cost of a project.

(c) A single project may not be awarded a grant in excess of $5 million.

(9) For each grant awarded, the office shall enter into an agreement with the applicant. The agreement must specify the total amount of the grant, performance conditions that must be met to obtain the grant, the schedule of payment, and sanctions that would apply for failure to meet performance conditions, including, but not limited to, requiring the return of grant funds.

(10) By October 15, 2022, and each year thereafter, the office shall publish on its website and include in the department's annual report required under s. 20.60 all of the

576-03917-21

following information:

(a) A list of all grant applications received during the previous fiscal year and for each application:

1. The results of any quantitative weighting or scoring system the office used to award grants or rank the applications.

2. The grant amounts requested.

3. The grant amounts awarded, if any.

4. A report on the progress of each grant recipient in acquiring and installing infrastructure that supports the provision of broadband Internet service in the project areas for which that grant was awarded and in securing adoption of such service in each project area.

(b) All written challenges filed during the previous fiscal year and the results of those challenges.

Section 3. Section 364.0137, Florida Statutes, is created to read:

364.0137 Broadband assistance funds.—

(1) For purposes of this section, the term:

(a) "Broadband service provider" means a provider of broadband Internet access service in this state.

(b) "Federal broadband program" means the Emergency Broadband Benefit Program within the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260 and regulations adopted thereunder.

(2) In order to assist participating broadband service providers in identifying potential recipients for broadband assistance funds under the federal broadband program, the Florida Office of Broadband, as created in s. 364.0135, must establish a process to quickly identify potential eligible

households to receive such funds.

(3) An eligible broadband service provider that participates in and receives funds under the federal broadband program must provide direct subsidy payments by providing monthly discounts for eligible households as set forth in the federal broadband program. A provider may not disqualify a household because a member of the household has any past or present arrearages with a broadband provider. Such discounts may be no more than the standard rate for an Internet service offering and associated equipment, in an amount equal to that set forth in the federal broadband program.

(4) To be eligible for direct subsidy payments, an eligible household must demonstrate low income. Such eligible households include those in which at least one member of the household is eligible for the National School Lunch Program or the School Breakfast Program, as provided in s. 595.402, has experienced a substantial loss of income since February 29, 2020, has received a federal Pell Grant, is eligible for the federal Lifeline program, or meets participation requirements for a service provider's existing low-income or COVID-19 program, subject to any other eligibility requirements required by the Federal Communications Commission.

(5) Where possible, the office shall provide potentially eligible households with notice of their potential eligibility to receive financial assistance under the federal broadband program and shall also direct the members of those households to other state or federal resources that may provide assistance with debt relief.

Section 4. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1560
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Commerce and Tourism Committee; and Senator Ausley
SUBJECT:	Broadband Internet Service
DATE:	April 21, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Harmsen	McKay	CM	**Fav/CS**
2.	Hrdlicka	Hrdlicka	ATD	**Recommend: Fav/CS**
3.	Hrdlicka	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1560 expands the duties of the Florida Office of Broadband (Office) within the Department of Economic Opportunity (DEO) to further the development of broadband Internet service in Florida.

The bill creates the Broadband Opportunity Program, administered by the Office, to award grants for the expansion of broadband Internet service in unserved and underserved areas of Florida. The program is subject to appropriation.

The bill expands the Office's local technology planning teams' duties to focus on rural, unserved, and underserved areas.

The increased duties required by the bill will have an insignificant negative fiscal impact on the agency.

The bill is effective July 1, 2021.

II. Present Situation:

Broadband Internet Deployment

Fixed and mobile broadband Internet services provide access to numerous employment, education, entertainment, and health care opportunities.[1] Access to a sufficient internet connection has only grown more important during the COVID-19 pandemic, which requires many Americans to connect to their family and friends, schooling, work, and even medical appointments over the internet.[2]

While Florida's urban areas are served at a fixed broadband coverage rate of 98 percent, its rural areas are served at a rate of 78.6 percent.[3] This disparity is caused primarily by high per-unit construction costs required to build broadband infrastructure across larger swaths of rural geographic areas.[4] Communities that lack broadband access can have difficulty attracting new capital investment.[5] Additionally, data indicates that low-income households disproportionately lack access to broadband Internet service, which puts children in those households at risk of falling behind.[6]

Broadband internet is a high speed internet that is faster than dial-up access and is always on; in 2015, the Federal Communications Commission (FCC) defined broadband as 25/3 megabits per second (Mbps), i.e., 25 Mbps (download rate) and 3 Mbps (upload rate).[7] Consumers can receive Broadband internet through several different technologies, including a digital subscriber line (DSL), a cable modem, fiber, wireless, satellite, and broadband over power lines.[8]

Federal Broadband Initiatives

FCC Digital Opportunity Data Collection Program

The FCC collects and monitors data on broadband deployment in order to identify underserved and unserved localities in the United States.[9] In August 2019, the FCC adopted the Digital Opportunity Data Collection Program, which modernized the collection of broadband deployment data by creating granular coverage maps, as opposed to census tract maps, and by implementing a process to accept public data to confirm the maps' accuracy.[10] In March 2020, Congress ratified the FCC's Data Collection Program with passage of the Broadband Data Act, which requires the FCC to establish a semiannual collection of geographically granular broadband coverage data to use to create coverage maps.[11] Congress allocated $65 million to the FCC to achieve this mapping project in December 2020.[12]

To create these geographic service maps, the FCC collects information from service providers according to specific reporting standards. The service providers must report their service coverage areas, including where their services were available to residences or businesses, and the speed and latency at which their services are delivered.[13] The FCC also set up a website to allow for public input regarding consumers' experiences with broadband.[14] The FCC anticipates completing initial, targeted mapping by July 2021.[15]

FCC's Rural Digital Opportunity Fund

In January 2020, the FCC established the Rural Digital Opportunity Fund to fund the deployment of broadband networks in rural America over the next decade. The first phase of the fund began in 2020 and made available up to $16 billion to target census blocks that are wholly unserved by fixed broadband speeds of at least 25 Mbps downstream and 3 Mbps upstream (25/3 Mbps).[16] Florida entities received over $190 million (to be distributed over the next 10 years) in this first round of funding.[17]

Phase II of the Fund will target underserved localities, as identified by the FCC's Digital Opportunity Data Collection Program.[18] Using this more precise data, the second phase of FCC

grants will make available at least $4.4 billion to target geographic areas where some locations lack access to 25/3 Mbps broadband.[19]

FCC's Emergency Broadband Benefit Program

Congress appropriated $3.2 billion in December 2020 to expand broadband access via subsidies for broadband service to students, families, and unemployed workers.[20] Eligible households can receive a discount of up to $50 per month off their broadband service bill for service and associated equipment. A household is eligible to receive a subsidy if any member of the household: qualifies for the Lifeline program, receives benefits under the free or reduce-price school lunch program, received a Federal Pell Grant, experienced a substantial loss of income in the last year and had a total household income in 2020 below $99,000 for single filers and $198,000 for joint filers, or meets criteria to participate in service providers' existing low-income or COVID-19 programs.[21] The program will conclude when all the funding has been expended or six months after the end of the public health emergency.[22]

U.S. Department of Agriculture Programs

The U.S. Department of Agriculture (USDA) has several rural utilities programs to provide a variety of loans and grants to build and expand broadband networks.[23] The ReConnect Program offers federal loans, grants, and loan/grant combinations to facilitate broadband deployment to rural areas without access to sufficient broadband service. Eligible entities include cooperatives and nonprofits, for-profit companies, and state and local governments and their agencies and political subdivisions. Applicants for a grant or a loan/grant combination under the ReConnect Program must submit a scoring sheet by which USDA may analyze nine separate evaluation criteria to score the application. One of the evaluation criteria is whether the proposed project is in a state with a broadband plan that has been updated within the previous 5 years.[24]

Miscellaneous Federal Broadband Initiatives

Federal assets to assist with the expansion and promotion of broadband comes from a variety of sources, for example:[25]

- The FCC's E-Rate Universal Service Fund subsidizes telephone service (including broadband Internet access) to low-income households, high-cost areas, rural healthcare providers, and eligible schools and libraries;[26]
- The U.S. Department of Housing and Urban Development[27] and Department of Education[28] offer block grants that can support broadband infrastructure;
- The Department of the Interior launched a mapping tool to allow service providers to locate federal property available for infrastructure development;[29] and
- The National Telecommunications and Information Administration within the U.S. Department of Commerce is working to improve coordination between federal programs that fund broadband and statewide efforts.[30]

The COVID-19 relief bill passed by Congress in December 2020[31] included the following funding to expand broadband Internet access for students, families, and unemployed workers:[32]

- $300 million for rural broadband;[33]
- $250 million for the FCC's telehealth program;[34]
- $285 million to fund a pilot program to assist with broadband issues at historically Black colleges and universities;[35]

- $1.9 billion for "rip and replace" efforts related to Huawei and ZTE equipment in U.S. networks;[36] and
- $1 billion in grants for tribal broadband programs.[37]

Additionally, the American Rescue Plan, signed into law on March 11, 2021, includes multiple appropriations that can be used for broadband infrastructure, such as $10 billion for the Capital Projects Fund to provide grants to states for the costs of capital projects, like broadband infrastructure and $130.2 billion for Community Development Block Grants that can be used for community development projects, including broadband infrastructure.[38]

Other State Action

All 50 states have created either a task force, commission, or authority to coordinate broadband expansion.[39] One organization has studied the work of several state broadband offices authorities and determined that effective practices include stakeholder outreach and engagement at both the state and local levels; thorough development of a policy framework with well-defined goals; adoption of a state broadband plan; and helping communities identify their broadband goals and needs to better connect them with satisfactory resources.[40]

Florida's Office of Broadband

In 2020 the Legislature created the Florida Office of Broadband (Office) within the Department of Economic Opportunity (DEO).[41] The Office is tasked with developing, marketing, and promoting broadband Internet service in the state.

Specifically, the Office must:

- Create a strategic plan for increasing the use of broadband Internet service in Florida which must include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service throughout the state;
- Build local technology planning teams representing, among others, libraries, schools, colleges and universities, local health care providers, private businesses, community

organizations, economic development organizations, local governments, tourism, parks and recreation, and agriculture;
- Encourage the use of broadband Internet service, especially in rural, unserved, and underserved[42] areas of the state through grant programs; and
- Monitor, participate in, and provide input in proceedings of the FCC and other federal agencies related to the geographic availability and deployment of broadband Internet service as necessary to ensure that Florida's rural, unserved, and underserved areas are best positioned to benefit from federal and state broadband deployment programs.[43]

The DEO may apply for and accept federal grant funds, enter into necessary or useful contracts, and establish any committee or workgroup to further the above goals.[44]

III. Effect of Proposed Changes:

Office of Broadband Mapping Requirements (Section 1, amending s. 364.0135, F.S.)

The bill expands the Office's duties to require it, subject to appropriation, to develop geographical information system (GIS) maps of Florida's broadband Internet service availability. If funds are appropriated, the initial GIS mapping must be complete by June 30, 2022, and must be updated annually thereafter. The mapping must be consistent with the FCC's Digital Opportunity Data Collection Program and be made in consultation with other state agencies, local governments, service providers, private businesses, educational institutions, and community organizations and leaders.

The maps must specifically identify:
- Where broadband-capable networks currently exist and where broadband Internet service is available to Florida's consumers.
- The download and upload rates at which service providers make broadband Internet service available to Florida's businesses and individuals.
- Gaps in Florida's broadband Internet service coverage—especially any areas that are underserved or unserved within rural areas of opportunity.[45]
- Any other mapping information that another Florida agency has already compiled.
- Locations where broadband Internet service is not available, or is provided at speeds below 25/3 Mbps, as identified by public input.

The bill permits the Office to collaborate with Enterprise Florida, Inc., state agencies, local governments, private businesses, and community organizations to create a process to collect and verify public data regarding the availability of broadband Internet service. The bill repeals the current requirement in s. 364.0135(4)(a), F.S., that the Office include a process to review and

[42] Section 364.0135(2)(d), F.S., defines the term "underserved" to mean a geographic area of this state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 10 Mbps downstream and at least 1 Mbps upstream
[43] Section 364.0135(4), F.S.
[44] Section 364.0135(5), F.S.
[45] The currently designated rural areas of opportunity (RAOs) are the Northwest RAO, the South Central RAO, and the North Central RAO. *See* DEO, *Rural Areas of Opportunity*, *available at* http://www.floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity (last visited Mar. 28, 2021).

verify public input regarding transmission speeds and availability of broadband Internet service in its strategic plan.

The Office must also verify any mapping data it receives from another governmental entity or a contractor by comparing it to the source of the data and by evaluating the collection methodology, study organization, and verification processes. If a contractor is used, the governmental entity must also describe the contractor collecting the data.

The bill also requires the Office to create another GIS map by June 30, 2022, that details Florida's broadband infrastructure assets. This activity is also subject to appropriation. This map must include the location of any state and federal physical or funding assets that can be used for expanding broadband infrastructure by, e.g., burying or stringing fiber optic cable. Such assets include municipally or city-owned towers, public transportation corridors, capital projects, community-owned land and infrastructure (such as utility poles), and federal E-rate funding commitments.

Florida Broadband Opportunity Program (Section 2, amending s. 364.0136, F.S.)

The bill creates the Broadband Opportunity Program, which will award grants of up to $5 million per project to applicants who seek to expand access to broadband Internet service in unserved and underserved areas of the state. The Office will administer the grant program. Entities may apply for grants to fund the installation or deployment of infrastructure that supports broadband Internet service in underserved or unserved areas. Eligible entities to apply for a grant include businesses, a political subdivision in partnership with a provider, and Indian tribes. The grant program is subject to appropriation and state funds may not be used to install or deploy broadband Internet service in a geographic area that already has service from at least one provider.

Applicants must submit a grant application to the Office, which must include:
- A description of the project area;
- A description of the kind and amount of broadband Internet service infrastructure that is proposed;
- Evidence demonstrating the unserved or underserved nature of the project area and the number of households and businesses that would have new access to broadband Internet service or that would have upgraded broadband Internet service as a result of the grant;
- A list of significant community institutions that would benefit from the grant;
- The total cost of the project and the timeframe in which it would be completed;
- Sources of funding or in-kind contributions that would supplement any awarded grant; and
- Any other information required by the Office.

The Office must publish the criteria and quantitative scoring system it will use to evaluate applications and award grants each fiscal year. The criteria and quantitative scoring system must include the criteria listed in the bill, as discussed below.

After it receives grant program applications, the Office must publish the proposed areas to be served and the proposed broadband Internet speed at which the area will be served. A broadband Internet service provider that provides existing service in, or adjacent to, a proposed project area

may challenge the grant program applicant's plan. The challenge must be made within 45 days of the Office publishing the application information and demonstrate that:

- The provider currently has deployed broadband Internet service to retail customers within the proposed project area;
- The provider has begun construction to provide broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant; or
- The provider commits to providing broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant.

The Office must notify the applicant if a challenge is made. If the Office determines that the challenge is valid, the Office may not fund the challenged project. If a challenger fails to fulfill its commitment to provide broadband Internet service in accordance with its challenge, it is excluded from submitting another challenge for the next two grant cycles, unless the Office determines the failure to fulfill the commitment was due to circumstances beyond provider's control.

The Office must prioritize applications that:

- Offer broadband Internet service to community institutions including libraries, educational institutions, public safety facilities, and healthcare facilities;
- Facilitate the use of telemedicine and electronic health records;
- Serve economically distressed areas of the state;
- Provide for scalability to transmission speeds of at least 100/10 Mbps;
- Actively promote the adoption of the newly available broadband Internet services in the community;
- Provide evidence of strong support for the project from citizens, government, businesses, and institutions in the community;
- Provide access to broadband Internet service to the greatest number of unserved and underserved households and businesses;
- Leverage greater amounts of funding for the project from private or federal sources; or
- Demonstrate consistency with the Office's strategic plan.[46]

The Office must attempt to award grants to qualified applicants in all regions of the state. The Office cannot award grants:

- To provide broadband Internet service to an area that already has broadband Internet service from at least one provider.
- To a governmental entity, rural electric cooperative or its broadband affiliate, or an educational institution or affiliate, for the purpose of providing broadband Internet service to any residential or commercial premises, unless other broadband Internet service providers have not deployed broadband Internet service to the unserved or underserved area. This prohibition does not apply to grants for project areas in fiscally constrained counties.
- For the purpose of serving any retail end user that already has access to broadband Internet service.

[46] The Office has not published a strategic plan at this time.

- To any entity if, when combined with any other federal, state, or local funds, the grant will constitute more than 50 percent of the project's funding. This prohibition does not apply to grants for project areas in fiscally constrained counties.

The Office must enter into an agreement with the applicant that is awarded a grant under the grant program. The agreement must specify the total amount of the grant, performance conditions, payment schedule, and sanctions for failure to meet performance conditions, including, but not limited to, requiring the return of grant funds.

By October 15, 2022, and each year thereafter, the Office must publish on its website and include in the DEO's annual report under s. 20.60, F.S.:

- A list of all grant applications it received during the previous fiscal year and for each application:
  - The results of any quantitative weighting or scoring system the Office used to award grants or rank the applications.
  - The grant amount requested.
  - The grant amount awarded, if any.
  - A report on the progress of each grant recipient in acquiring and installing infrastructure that supports the provision of broadband Internet service in the project areas for which the grant was awarded and in securing adoption of such service in each project area.
- All written challenges during the previous fiscal year.

The bill authorizes the DEO to adopt rules to administer the grant program.

Local Technology Planning Teams

Current law requires the Office to create local technology planning teams or partnerships, the membership of which consists of representatives of education, health care, private business, agriculture, economic development organizations, local government, and tourism. Current law does not provide a specific purpose or goal for these teams. The bill adds language that targets the teams' work to unserved and underserved communities—especially fiscally constrained counties. The bill outlines the following duties for the teams:

- Work with rural communities to help them understand their current service availability;
- Locate unserved and underserved businesses or residents;
- Identify assets that may be used to further deploy broadband;
- Build partnerships with broadband service providers;
- Identify opportunities to increase the use and deployment of broadband in the community; and
- Be proactive in fiscally constrained counties to identify and provide assistance with applications for federal broadband grants.

Miscellaneous

Legislative Findings

The bill updates the legislative findings to state that Florida's sustainable adoption of broadband Internet service is essential to all its residents, rather than beneficial to specific entities.

Definitions

The bill adds a definition of the term "unserved" to mean a geographic area of Florida in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a speed of 25/3 Mbps—the speed used by the FCC to define sufficient broadband Internet.

The bill also amends the definition of "underserved" to mean a geographic area of Florida in which there is no internet service provider that offers a connection to the Internet with a capacity for transmission at a speed of 100/10 Mbps. This is higher than any current definition of broadband.

Public Records

The bill adds language that clarifies that any information that is already confidential or exempt from public disclosure under ch. 119, F.S., when held by the DEO retains that confidentiality or exemption when given to the DEO by a broadband service provider pursuant to s. 364.0135, F.S.

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.[47] The right to inspect or copy applies to the official business of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[48]

Chapter 119, F.S., known as the Public Records Act, provides that all state, county, and municipal records are open for personal inspection and copying by any person, and that Florida agencies must provide access to its public records.[49] The Legislature may exempt specific types of public records from public access requirements;[50] the exemption must state with specificity the public necessity that justifies the exemption and must be no broader than necessary to accomplish the stated purpose of the exemption.[51] For example, s. 288.075(3) and (4), F.S., make trade secrets held by an economic development agency and proprietary confidential business information held by an economic development agency, respectively, confidential and exempt from s. 119.071(1), F.S.

[47] Art. I, s. 24(a), Fla. Const.
[48] *Id*.
[49] Section 119.01(1), F.S. Section 119.011(2), F.S., defines "agency" as "any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency."
[50] Art. I, s. 24(c), Fla. Const.
[51] *Id*. *See, e.g., Halifax Hosp. Medical Center v. News-Journal Corp.*, 724 So. 2d 567 (Fla. 1999) (holding that a public meetings exemption was unconstitutional because the statement of public necessity did not define important terms and did not justify the breadth of the exemption); *Baker County Press, Inc. v. Baker County Medical Services, Inc.*, 870 So. 2d 189 (Fla. 1st DCA 2004) (holding that a statutory provision written to bring another party within an existing public records exemption is unconstitutional without a public necessity statement).

Effective Date

The bill takes effect on July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

The bill does not create a new public records exemption or expand an existing exemption.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill may ultimately help to provide more affordable broadband Internet service to Florida's communities by increasing related infrastructure and identifying funding sources to subsidize other related costs. The bill will benefit eligible providers by assisting them to expand their services.

C. Government Sector Impact:

The DEO estimates that to hire a vendor and complete project setup for the GIS mapping would cost about $1 million in Fiscal Year 2021-2022 and $500,000 recurring for yearly maintenance and updates.[52] Related to the broadband infrastructure asset mapping, the DEO estimates that to hire a vendor and complete project setup for the asset mapping would cost about $1 million in Fiscal Year 2021-2022 and $500,000 recurring for yearly

[52] Fiscal impacts attributed to DEO estimates are from DEO, *Fiscal Request – SB 1560 Broadband Internet Service* (April 5, 2021) (on file with the Senate Transportation, Tourism, and Economic Development Appropriations Subcommittee).

maintenance and updates. The bill makes the requirements for the GIS mapping and for the asset mapping subject to appropriation.

Related to the new duties that the bill prescribes to local technology planning teams, the DEO estimates a recurring cost of $100,000 to provide administrative support and cover the costs of meeting and other related expenses.

The bill does not appropriate any funds to the Broadband Opportunity Program, created in the bill to provide grants to support the growth of broadband Internet infrastructure in Florida. The bill provides that this program is subject to appropriation. At this time, no funding is provided in SB 2500 for this program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The confidentiality and public record exemption language in s. 364.0135(6), F.S., of the bill appears to reiterate current confidentiality and public record exemption language that already exist elsewhere in law. Therefore, this language appears to be duplicative and unnecessary.

VIII. Statutes Affected:

The bill substantially amends section 364.0135 of the Florida Statutes.

The bill creates the following sections of the Florida Statutes: 364.0136 and 364.0137.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The proposed committee substitute does the following:

- Removes the task force; the requirement for DEO assistance for the federal Emergency Broadband Benefit Program from the bill; and duplicative language related to public input;
- Requires the Office to develop short-term and long-term goals and strategies to increase the availability of and access to broadband Internet service in Florida; incorporate federal broadband activities that may improve Florida's broadband Internet service; and identify available federal funding for the expansion or improvement of broadband Internet service.
- Requires the Office to assist rural communities with technical and planning assistance related to broadband infrastructure.
- Makes both the GIS mapping and the broadband asset mapping subject to appropriation.

- Related to the Broadband Opportunity Grant Program:
  - Clarifies that current law related to priority to grants by the Office does not apply to the new Broadband Opportunity Grant Program;
  - Adds a political subdivision in partnership with a provider as eligible to apply;
  - Exempts a fiscally constrained county from the prohibition on awards, directly or indirectly, to governmental entities, rural electric cooperatives, or educational institutions; and the limitation on the award funding more than 50 percent of the total project costs;
  - Allows for leverage of federal funding for grants under the grant program;
  - Requires the annual report by the Office on the grant program to be submitted by October 15 for inclusion in the DEO annual report and clarifies the timeframe for the information (by fiscal year); and
  - Grants the DEO rulemaking authority for the program.

CS by Commerce and Tourism on March 15, 2021:
The CS creates the Broadband Opportunity Program to award grants to support broadband Internet infrastructure in underserved and unserved areas of Florida. The Grant Program will be administered by the Office and is subject to appropriation.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Commerce and Tourism; and Senator Ausley

577-02879-21 20211560c1

A bill to be entitled

An act relating to broadband Internet service; amending s. 364.0135, F.S.; revising legislative findings; defining terms; revising the duties of the Florida Office of Broadband within the Department of Economic Opportunity; requiring local technology planning teams or partnerships to work with rural communities for specified purposes; requiring the office to develop geographic information system maps in collaboration with specified entities and consistent with certain federal reporting standards by a specified date; specifying required contents of the maps; requiring the department to annually update such maps and establish a mechanism to receive and verify governmental and public input related to broadband Internet service; authorizing the department to work collaboratively with specified entities in developing the mechanism; requiring the office to develop a broadband infrastructure asset map by a specified date; specifying required contents of the map; establishing the Broadband Deployment Task Force within the office for a specified purpose; requiring the department to provide administrative and technical assistance to the task force; providing for the membership and duties of the task force; requiring the task force to submit annual progress reports to the Governor and the Legislature by a specified date; providing that certain information provided to the department from broadband service providers retains

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

577-02879-21 20211560c1

its exemption from public disclosure; creating s. 364.0136, F.S.; creating the Broadband Opportunity Program within the office; providing for administration of the program; providing requirements for grant awards; providing eligibility requirements; providing application requirements; requiring the office to publish certain information related to grant applications and grant awards on its website; authorizing grant applications to be challenged under certain circumstances; specifying contents of a challenge; providing procedures to be used by the office in evaluating challenges; providing direction for prioritizing grant funding; specifying conditions for the award of grants; requiring the office to enter into an agreement containing specified information with each grant recipient; requiring the office to publish specified information annually on its website and provide the information to the Governor and Legislature; creating s. 364.0137, F.S.; defining terms; requiring the office to establish a process to identify eligible households to receive federal Emergency Broadband Benefit Program funds under certain circumstances; providing for direct subsidy payments; providing for household participation in the program; requiring the office to provide certain information to potentially eligible households; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Section 1. Section 364.0135, Florida Statutes, is amended to read:

364.0135 Promotion of broadband adoption; Florida Office of Broadband.—

(1) LEGISLATIVE FINDINGS.—The Legislature finds that the sustainable adoption of broadband Internet service is critical to the economic and business development of this ~~the~~ state and is essential ~~beneficial~~ for all residents of this state, libraries, schools, colleges and universities, health care providers, and community organizations.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Department" means the Department of Economic Opportunity.

(b) "Office" means the Florida Office of Broadband.

(c) "Sustainable adoption" means the ability for communications service providers to offer broadband services in all areas of this ~~the~~ state by encouraging adoption and use ~~utilization~~ levels that allow for these services to be offered in the free market absent the need for governmental subsidy.

(d) "Task force" means the Broadband Deployment Task Force within the office.

(e) ~~(d)~~ "Underserved" means a geographic area of this ~~the~~ state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 100 ~~10~~ megabits per second downstream and at least 10 megabits ~~1 megabit~~ per second upstream.

(f) "Unserved" means a geographic area of this state in which there is no provider of broadband Internet service that offers a connection to the Internet with a capacity for transmission at a consistent speed of at least 25 megabits per second downstream and at least 3 megabits per second upstream.

(3) STATE AGENCY.—The department is designated as the lead state agency to facilitate the expansion of broadband Internet service in this ~~the~~ state. The department shall work collaboratively with private businesses and receive staffing support and other resources from Enterprise Florida, Inc., state agencies, local governments, and community organizations.

(4) FLORIDA OFFICE OF BROADBAND.—The Florida Office of Broadband is created within the Division of Community Development in the department for the purpose of developing, marketing, and promoting broadband Internet services in this ~~the~~ state. The office, in the performance of its duties, shall do all of the following:

(a) Create a strategic plan that has goals and strategies for increasing the use of broadband Internet service in this ~~the~~ state. The plan must include a process to review and verify public input regarding transmission speeds and availability of broadband Internet service throughout this ~~the~~ state.

(b) Build and facilitate local technology planning teams or partnerships with members representing cross-sections of the community, which may include, but are not limited to, representatives from the following organizations and industries: libraries, K-12 education, colleges and universities, local health care providers, private businesses, community organizations, economic development organizations, local governments, tourism, parks and recreation, and agriculture. The

local technology planning teams or partnerships shall work with rural communities to help the communities understand their current broadband availability, locate unserved and underserved businesses and residents, identify assets relevant to broadband deployment, build partnerships with broadband service providers, and identify opportunities to leverage assets and reduce barriers to the deployment of broadband Internet services in the community. The teams or partnerships must be proactive in fiscally constrained counties in identifying and providing assistance with applying for federal grants for broadband Internet service.

(c) Encourage the use of broadband Internet service, especially in the rural, unserved, or underserved communities of this ~~the~~ state through grant programs having effective strategies to facilitate the statewide deployment of broadband Internet service. For any grants to be awarded, priority must be given to projects that:

1. Provide access to broadband education, awareness, training, access, equipment, and support to libraries, schools, colleges and universities, health care providers, and community support organizations.

2. Encourage the sustainable adoption of broadband in primarily underserved areas by removing barriers to entry.

3. Work toward encouraging investments in establishing affordable and sustainable broadband Internet service in underserved areas of this ~~the~~ state.

4. Facilitate the development of applications, programs, and services, including, but not limited to, telework, telemedicine, and e-learning to increase the usage of, and

demand for, broadband Internet service in this ~~the~~ state.

(d) Monitor, participate in, and provide input in proceedings of the Federal Communications Commission and other federal agencies related to the geographic availability and deployment of broadband Internet service in this ~~the~~ state as necessary to ensure that this information is accurately presented and that rural, unserved, and underserved areas of this ~~the~~ state are best positioned to benefit from federal and state broadband deployment programs.

(e) By June 30, 2022, develop geographic information system maps of broadband Internet service availability throughout this state. The office shall collaborate with broadband service providers, state agencies, local governmental entities, private businesses, educational institutions, and community organizations and leaders to develop such maps.

1. The maps must do all of the following:

a. Be consistent with the Digital Opportunity Data Collection program reporting standards established by the Federal Communications Commission.

b. Identify where broadband-capable networks exist and broadband Internet service is available to end users.

c. Identify download and upload transmission speeds made available to businesses and individuals in this state.

d. Identify gaps in broadband Internet service coverage, specifying underserved and unserved areas within those areas of this state designated as a rural area of opportunity under s. 288.0656(2).

e. Include any other mapping information already compiled by other state agencies.

f. Be updated annually.

2. Any mapping data received from another governmental entity or a contractor must be verified. Such data must be verified against the source of the data and whether such entity is able to demonstrate that it has employed a sound and reliable methodology in the collection, organization, and verification of the data it has submitted to the office. If a governmental entity enters into a valid contract with a contractor to collect broadband availability data, the entity must describe the third party providing the data as well as the methodology used to collect, organize, and verify the availability data provided.

3. The office must establish a mechanism to receive and verify public input which identifies locations in which broadband Internet service is not available, including locations in which broadband Internet service is provided at data transmission speeds below the standard established by the Federal Communications Commission for broadband Internet service. Upon verification, the board shall adjust its geographic information system maps to reflect information received from the public. In developing and implementing this mechanism, the office may work in collaboration with, and receive staffing support and other resources from, Enterprise Florida, Inc., state agencies, local governments, private businesses, and community organizations.

(f) By June 30, 2022, develop a broadband infrastructure asset map that includes, but is not limited to:

1. State and federal assets, including, but not limited to, municipally or city-owned towers that may be used by providers; rights-of-way that may be made available for easier and less

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

expensive access to burying or stringing fiber optic cable; public transportation corridors; capital projects that may be used as an opportunity to lay new fiber optic conduit for future activation; and federal E-rate funding commitments; and

2. Community-owned land and infrastructure, including, but not limited to, land that may be leased and utility poles that may be used to expand broadband networks.

(g) Administer the Broadband Opportunity Program established in s. 364.0136.

(5) BROADBAND DEPLOYMENT TASK FORCE.—The Broadband Deployment Task Force, a task force as defined in s. 20.03(8), is established within the department to support and provide recommendations to the office for the deployment of broadband Internet service throughout this state, including, but not limited to, rural buildout and urban adoption strategies. The department shall provide administrative and technical assistance to the task force in the performance of its duties. The task force shall operate in a manner consistent with s. 20.052.

(a) The task force shall be composed of the following members, who must be appointed by September 1, 2021, and who must have an interest and significant expertise in broadband Internet services:

1. One member from each of the following state agencies, who shall be appointed by his or her agency head: the Department of Agriculture and Consumer Services, the Department of Management Services, the Department of Transportation, the Department of Education, the Department of Health, and the Office of Technology and Information Services.

2. One member from the Florida Association of Counties as a

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

representative of underserved or unserved rural communities, who is recommended by the association and appointed by the executive director.

3. One member from the Florida League of Cities as a representative of underserved or unserved rural communities, who is recommended by the league and appointed by the executive director.

4. Two members of the public who are appointed by the Governor, including one member who resides in an underserved area of this state and one member who resides in an unserved area of this state.

5. One member from each of the following segments of the broadband industry, who shall be appointed by the Governor: a wireless provider, a wireline provider, a broadband satellite provider, a cable provider, a rural local exchange carrier, and a competitive local exchange carrier.

(b) Any vacancy on the task force must be filled in the same manner as the original appointment.

(c) The task force shall:

1. Identify any available federal funding sources for the expansion or improvement of broadband Internet services in this state.

2. Identify any gaps in broadband Internet service coverage for any area of this state.

3. Develop strategies to expand broadband Internet service to any area of this state designated as a rural area of opportunity, including, but not limited to, methods of building partnerships with local governments, other state and federal entities, electric utilities, the business community, and the

public to support broadband Internet service in such areas.

4. Develop an urban adoption strategy to address areas of this state which have broadband Internet service, but where such service is not affordable.

5. Identify specific projects that will accomplish the deployment of broadband Internet service throughout this state, including grants provided through the rural infrastructure fund pursuant to s. 288.0655(2)(b).

6. Coordinate with the Cabinet, state agencies, and other governmental entities with oversight in broadband Internet activities or potential funding opportunities.

7. Recommend outreach strategies and partnerships for maximum use of the federal Emergency Broadband Benefit Program within the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260 and regulations adopted thereunder.

(d) The task force shall submit a report of its findings and recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 30, 2022, and each year thereafter.

(6) CONFIDENTIALITY.—Any information that is confidential or exempt from public disclosure under chapter 119 when in the possession of the department retains its status as confidential or exempt from disclosure under chapter 119 when provided by a broadband service provider under this section.

(7)~~(5)~~ ADMINISTRATION.—The department may:

(a) Apply for and accept federal funds for purposes of this section.

(b) Enter into contracts necessary or useful to carry out the purposes of this section.

(c) Establish any committee or workgroup to administer and carry out the purposes of this section.

Section 2. Section 364.0136, Florida Statutes, is created to read:

364.0136 Broadband Opportunity Program.—

(1) The Broadband Opportunity Program is established within the Florida Office of Broadband within the Department of Economic Opportunity to award grants to applicants who seek to expand broadband Internet service to unserved and underserved areas of this state. The office must administer and act as fiscal agent for the program and is responsible for receiving and reviewing applications and awarding grants. Funding for the program shall be subject to appropriation.

(2) Grants awarded under this section shall fund the installation or deployment of infrastructure that supports the provision of broadband Internet service. State funds may not be used to install or deploy broadband Internet service to a geographic area in which broadband Internet service is already deployed by at least one provider.

(3) Applicants eligible for grant awards include:

(a) Corporations, limited liability companies, general partnerships, and limited partnerships that are organized under the laws of this state or otherwise authorized to transact business in this state.

(b) Indian tribes.

(4) The office may not award, directly or indirectly, grants under this section to a governmental entity, a rural electric cooperative or its broadband affiliate, or an educational institution or affiliate to provide broadband

Internet service to any residential or commercial premises, unless other broadband Internet service providers have not deployed service to an unserved or underserved area.

(5) An eligible applicant shall submit a grant application to the office on a form prescribed by the office. A grant application must include all of the following information:

(a) A description of the project area.

(b) A description of the kind and amount of broadband Internet service infrastructure which is proposed.

(c) Evidence demonstrating the unserved or underserved nature of the project area.

(d) The number of households and businesses which would have access to broadband Internet service as a result of the grant.

(e) A list of significant community institutions that would benefit from the grant.

(f) The total cost of the project and the timeframe in which it would be completed.

(g) A list identifying sources of funding or in-kind contributions that would supplement any awarded grant.

(h) Any other information required by the office.

(6)(a) At least 30 days before the first day grant applications may be submitted each fiscal year, the office shall publish on its website the specific criteria and quantitative scoring system it will use to evaluate or rank grant applications. Such criteria and quantitative scoring system must include the criteria set forth in subsection (7).

(b) Within 3 business days after the close of the grant application process, the office shall publish on its website,

from each grant application submitted, the proposed unserved or underserved areas to be served and the proposed broadband Internet speeds of the areas to be served.

(c) A broadband Internet service provider that provides existing service in or adjacent to a proposed project area may submit to the office, within 45 days after publication of the information under paragraph (b), a written challenge to an application. The challenge must contain information demonstrating that:

1. The provider currently has deployed broadband Internet service to retail customers within the project area;

2. The provider has begun construction to provide broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant; or

3. The provider commits to providing broadband Internet service to retail customers within the proposed project area within the timeframe proposed by the applicant.

(d) Within 3 business days after the submission of a written challenge, the office shall notify the applicant, in writing, of the challenge.

(e) The office shall evaluate each challenge submitted under this subsection. If the office determines that the provider currently has deployed, has begun construction to provide, or commits to provide broadband Internet service in the proposed project area, the office may not fund the challenged project.

(f) If the office denies funding to an applicant as a result of a broadband Internet service provider's challenge, and the provider does not fulfill its commitment to provide

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

broadband Internet service in the unserved or underserved area, the office may not consider another challenge from the provider for the next two grant application cycles, unless the office determines that the failure to fulfill the commitment was due to circumstances beyond the provider's control.

(7)(a) In evaluating grant applications and awarding grants, the office must give priority to applications that:

1. Offer broadband Internet service to important community institutions, including, but not limited to, libraries, educational institutions, public safety facilities, and health care facilities;

2. Facilitate the use of telemedicine and electronic health records;

3. Serve economically distressed areas of this state, as measured by indices of unemployment, poverty, or population loss which are significantly greater than the statewide average;

4. Provide for scalability to transmission speeds of at least 100 megabits per second download and 10 megabits per second upload;

5. Include a component to actively promote the adoption of the newly available broadband Internet service in the community;

6. Provide evidence of strong support for the project from residents, government, businesses, and institutions in the community;

7. Provide access to broadband Internet service to the greatest number of unserved and underserved households and businesses;

8. Leverage greater amounts of funding for a project from private sources; or

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

9. Demonstrate consistency with the strategic plan adopted under s. 364.0135.

(b) The office must endeavor to award grants to qualified applications serving all regions of this state.

(8)(a) The office may not award any grant to an otherwise eligible grant applicant to provide broadband Internet service in a project area for which any other federal funding has been awarded.

(b) A grant awarded under this section may not be used to serve any retail end user that already has access to broadband Internet service.

(c) A grant awarded under this section, when combined with any state or local funds, may not fund more than 50 percent of the total cost of a project.

(d) A single project may not be awarded a grant in excess of $5 million.

(9) For each grant awarded, the office shall enter into an agreement with the applicant. The agreement must specify the total amount of the grant, performance conditions that must be met to obtain the grant, the schedule of payment, and sanctions that would apply for failure to meet performance conditions, including, but not limited to, requiring the return of grant funds.

(10) By January 1, 2023, and each year thereafter, the office shall publish on its website and provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives all of the following information:

(a) A list of all grant applications received during the previous fiscal year and for each application:

1. The results of any quantitative weighting or scoring system the office used to award grants or rank the applications.

2. The grant amounts requested.

3. The grant amounts awarded, if any.

4. A report on the progress of each grant recipient in acquiring and installing infrastructure that supports the provision of broadband Internet service in the project areas for which that grant was awarded and in securing adoption of such service in each project area.

(b) All written challenges filed during the previous year and the results of those challenges.

Section 3. Section 364.0137, Florida Statutes, is created to read:

364.0137 Broadband assistance funds.—

(1) For purposes of this section, the term:

(a) "Broadband service provider" means a provider of broadband Internet access service in this state.

(b) "Federal broadband program" means the Emergency Broadband Benefit Program within the Consolidated Appropriations Act, 2021, Pub. L. No. 116-260 and regulations adopted thereunder.

(2) In order to assist participating broadband service providers in identifying potential recipients for broadband assistance funds under the federal broadband program, the Florida Office of Broadband, as created in s. 364.0135, must establish a process to quickly identify potential eligible households to receive such funds.

(3) An eligible broadband service provider that participates in and receives funds under the federal broadband

program must provide direct subsidy payments by providing monthly discounts for eligible households as set forth in the federal broadband program. A provider may not disqualify a household because a member of the household has any past or present arrearages with a broadband provider. Such discounts may be no more than the standard rate for an Internet service offering and associated equipment, in an amount equal to that set forth in the federal broadband program.

(4) To be eligible for direct subsidy payments, an eligible household must demonstrate low income. Such eligible households include those in which at least one member of the household is eligible for the National School Lunch Program or the School Breakfast Program, as provided in s. 595.402, has experienced a substantial loss of income since February 29, 2020, has received a federal Pell Grant, is eligible for the federal Lifeline program, or meets participation requirements for a service provider's existing low-income or COVID-19 program, subject to any other eligibility requirements required by the Federal Communications Commission.

(5) Where possible, the office shall provide potentially eligible households with notice of their potential eligibility to receive financial assistance under the federal broadband program and shall also direct the members of those households to other state or federal resources that may provide assistance with debt relief.

Section 4. This act shall take effect July 1, 2021.

The Florida Senate

Committee Agenda Request

To: Senator Kelli Stargel, Chair
Committee on Appropriations

Cc: Tim Sadberry, Staff Director
Alicia Weiss, Committee Administrative Assistant

Subject: Committee Agenda Request

Date: April 12, 2021

I respectfully request that **Senate Bill #1560**, relating to Broadband Internet Service, be placed on the:

☒ committee agenda at your earliest possible convenience.

☐ next committee agenda.

This bill works to comprehensively address unserved and underserved areas of the state, especially rural areas, to ensure broadband is widely available. Additionally, the legislation creates a task force comprised of subject matter experts to assist with these complex broadband issues.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1574 revises Citizens Property Insurance Corporation (Citizens or corporation) eligibility criteria, rates, assessment surcharges on Citizens' policyholders, depopulation programs, producing agent commissions, and confidentiality exceptions for underwriting and claim files.

The bill defines "primary residence" to mean the dwelling that the insured represented as their permanent home on the insurance application or otherwise to the corporation.

The bill limits application of the Citizens "glide path," which prevents rate increases of greater than 10 percent, by applying the glide path to only Citizens personal lines residential policies issued on or before January 1, 2022, on residential properties used as the primary residence with a dwelling replacement cost of less than $700,000 or single-unit condominiums with a dwelling and contents replacement cost of less than $700,000.

The bill provides that Citizens policyholders become ineligible for Citizens personal lines residential coverage upon receiving an offer from an authorized insurer for comparable coverage that is not 15 percent greater than the actuarially sound Citizens premium would be on the property. Under current law, Citizens policyholders remain eligible unless they receive an offer

of comparable coverage less than the current Citizens premium, which for many policyholders is subject to the glide path's 10 percent limit on annual rate increases.

The bill increases the maximum surcharge that may be levied on Citizens' policyholders if Citizens projects a deficit in one of its accounts to: 20 percent of premium if Citizens has one million policyholders but less than 1.5 million policyholders; and 25 percent of premium if Citizens has 1.5 million policyholders or more. The surcharge may be levied for each of Citizens' three accounts.

The bill authorizes surplus lines insurers to participate in Citizens' depopulation, take-out, and keep-out plans. The surplus lines insurer must: meet financial requirements; provide notice to the policyholder which outlines any coverage differences and explains surplus lines policies are not covered by the Florida Insurance Guaranty Association; and provide coverage similar to that provided by Citizens. A risk with a personal residential dwelling replacement cost or a single condominium unit with a combined dwelling and contents replacement cost that is less than $700,000, remains eligible for Citizens regardless of receipt of an offer of comparable coverage from a surplus lines insurer. If such risk has a replacement cost of $700,000 or more, however, the risk is ineligible for Citizens coverage upon receiving an offer of comparable coverage from a surplus lines insurer that is not greater than 15 percent more than the premium for Citizens coverage.

The bill also:

- Revises confidentiality exceptions for Citizens' underwriting and confidential claim files;
- Limits the commissions Citizens may pay to producing agents; and
- Makes technical changes to s. 627.3517, F.S., and reenacts and makes conforming changes to s. 627.3518, F.S.

The bill does not impact state revenue or expenditures.

The bill takes effect January 1, 2022.

II. Present Situation:

Citizens Property Insurance Corporation—Overview

Citizens Property Insurance Corporation (Citizens or corporation) is a state-created, not-for-profit, tax-exempt governmental entity whose public purpose is to provide property insurance coverage to those unable to find affordable coverage in the voluntary admitted market.[1] Citizens is not a private insurance company.[2] Citizens was statutorily created in 2002 when the Florida Legislature combined the state's two insurers of last resort, the Florida Residential Property and Casualty Joint Underwriting Association (RPCJUA) and the Florida Windstorm Underwriting Association (FWUA). Citizens operates in accordance with the provisions in s. 627.351(6), F.S., and is governed by an eight member Board of Governors that administers its Plan of Operations. The Plan of Operations is reviewed and approved by the Financial Services Commission.[3] The

[1] Admitted market means insurance companies licensed to transact insurance in Florida.
[2] Section 627.351(6)(a)1., F.S.
[3] Section 627.351(6)(a)2., F.S.

Governor, President of the Senate, Speaker of the House of Representatives, and Chief Financial Officer each appoints two members to the board.[4] Citizens is subject to regulation by the Florida Office of Insurance Regulation (OIR).

Citizens currently offers three policy types: Personal Lines Accounts, Commercial Lines Accounts and Coastal.

Citizens' Accounts

The Personal Lines Account (PLA) offers personal lines residential policies that provide comprehensive, multi-peril coverage statewide, except for those areas contained in the Coastal Account. The PLA also writes policies that exclude coverage for wind in areas contained within the Coastal Account. Personal lines residential coverage consists of the types of coverage provided to homeowners, mobile homeowners, dwellings, tenants, and condominium unit owner's policies.[5]

The Commercial Lines Account (CLA) offers commercial lines residential and non-residential policies that provide basic perils coverage statewide, except for those areas contained in the Coastal Account. The CLA also writes policies that exclude coverage for wind in areas contained within the Coastal Account. Commercial lines coverage includes commercial residential policies covering condominium associations, homeowners' associations, and apartment buildings. The coverage also includes commercial non-residential policies covering business properties.[6]

The Coastal Account offers personal residential, commercial residential, and commercial non-residential policies in coastal areas of the state. Citizens must offer policies that solely cover the peril of wind (wind only policies) and may offer multi-peril policies.[7]

The Citizens policyholder eligibility clearinghouse program was established by the Legislature in 2013.[8] Under the program, new and renewal policies for Citizens are placed into the clearinghouse where participating private insurers can review and decide to make offers of coverage before policies are placed or renewed with Citizens.[9]

Current Policies

As of February 28, 2021, Citizens reports 552,340 policies in-force with a total exposure of $150,498,489,611.[10] The below chart outlines Citizens account and product type, number of policies in-force, total exposure and premium with surcharges.

	Total	552,340	150,498,489,611	1,227,963,109

Source: Citizens Property Insurance[11]

These numbers do not reflect policies tagged for takeout via Citizens' Depopulation Program but still serviced by Citizens.[12] Citizens' policy count grew by more than 100,000 in 2020 with 2,000-3,000 new policies written each week. At this rate, Citizens estimates an additional 100,000 policies by year end 2021.[13]

Citizens Glide Path Rates

From 2007 until 2010, Citizens rates were frozen by statute at the level that had been established in 2006. In 2010, the Legislature established a "glide path" to impose annual rate increases up to a level that is actuarially sound. Citizens must implement an annual rate increase which, except for sinkhole coverage, does not exceed 10 percent above the previous year for any individual policyholder, adjusted for coverage changes and surcharges.[14] The implementation of this increase ceases when Citizens has achieved actuarially sound rates. In addition to the overall glide path rate increase, Citizens can increase its rates to recover the additional reimbursement premium that it incurs as a result of the annual cash build-up factor added to the price of the mandatory layer of the Florida Hurricane Catastrophe Fund coverage, pursuant to s. 215.555(5)(b), F.S.

Citizens Financial Resources

Citizens' financial resources include insurance premiums, investment income, and operating surplus from prior years, Florida Hurricane Catastrophe Fund (FHCF) reimbursements, private

[14] Section 627.351(6)(n)6., F.S.

reinsurance, policyholder surcharges, and regular and emergency assessments. Non-weather water losses, reinsurance costs and litigation are the major determinants of insurance rates.[15] In the event of a catastrophic storm or series of smaller storms, reserves could be exhausted, leaving Citizens unable to pay all claims.[16] Under Florida law, if the Citizens' Board of Directors determines that a Citizens' account has a projected deficit, Citizens is authorized to levy assessments[17] on its policyholders and on each line of property and casualty line of business other than workers' compensation insurance and medical malpractice insurance.[18] Citizens may impose three assessment tiers and their sequence is as follows:[19]

Citizens Policyholder Surcharge:

Requires up to 15 percent of premium surcharge for 12 months on all Citizens' policies, collected upon issuance or renewal. This 15 percent assessment can be levied for each of the three Citizens' accounts—the CLA, the PLA, and the Coastal Account— that project a deficit. Thus, the total maximum premium surcharge a policyholder could be assessed is 45 percent.[20]

Regular Assessment:

If the Citizens' surcharge is insufficient to cure the deficit for the coastal account, Citizens can require an assessment against all other insurers except medical malpractice and workers' compensation. The assessment may be recouped from policyholders through a rate filing process of up to two percent of premium or two percent of the deficit, whichever is greater.[21] This assessment is not levied against Citizens' policyholders.

Emergency Assessment:

Requires any remaining deficit for Citizens' three accounts be funded by multi-year emergency assessments on all insurance policyholders (except medical malpractice and workers' compensation), including Citizens' policyholders. This assessment may not exceed the greater of 10 percent of the amount needed to cover the deficit, plus interest, fees, commissions, required reserves, and other costs associated with financing the original deficit, or 10 percent of the aggregate statewide direct written premium for subject lines of business and all accounts of the

[21] Section 627.351.(6)(b)3.a., F.S.

corporation for the prior year, plus interest, fees, commissions, required reserves, and other costs associated with financing the deficit.[22]

Eligibility for Insurance in Citizens

Current law requires Citizens to provide a procedure for determining the eligibility of a potential risk for insurance in Citizens and provides specific eligibility requirements based on premium amounts, value of the property insured, and the location of the property. Risks not meeting the statutory eligibility requirements cannot be insured by Citizens. Citizens has additional eligibility requirements set out in their underwriting rules. These rules are approved by the Office of Insurance Regulation (OIR) and are set out in Citizens' underwriting manuals.[23]

Eligibility Based on Premium Amount

An applicant for residential insurance cannot buy insurance in Citizens if an authorized insurer in the private market offers the applicant insurance for a premium that does not exceed the Citizens premium by 15 percent or more. [24] In addition, the coverage offered by the private insurer must be comparable to Citizens' coverage.

A residential policyholder cannot renew insurance in Citizens if an authorized insurer offers to insure the property at a premium equal to or less than the Citizens' renewal premium. The insurance from the private market insurer must be comparable to the insurance from Citizens in order for the renewal premium eligibility requirement to apply.[25]

Eligibility Based on Value of Property Insured

In addition to the eligibility restrictions based on premium amount, current law provides eligibility restrictions for homes and condominium units based on the value of the property insured.[26] Structures with a dwelling replacement cost of $700,000 or more, or a single condominium unit that has a combined dwelling and contents replacement cost of $700,000 or more, are not eligible for coverage with Citizens.[27] However, Citizens is allowed to insure structures with a dwelling replacement cost or a condominium unit with a dwelling and contents replacement cost of one million dollars or less in Miami-Dade and Monroe counties, after the OIR determined these counties to be non-competitive.[28]

Citizens Depopulation

Florida law requires Citizens to create programs to help return Citizens policies to the private market and reduce the risk of additional assessments for all Floridians.[29] In 2016, the Legislature passed requirements that Citizens, by January 1, 2017, amend its operations relating to takeout agreements.[30] As part of these updated requirements, codified under s. 627.351(6)(ii), F.S., a policy may not be taken out of Citizens unless Citizens:

- Publishes a periodic schedule of cycles during which an insurer may identify, and notify Citizens of, policies the insurer is requesting to take out;[31]
- Maintains and makes available to the agent of record a consolidated list of all insurers requesting to take-out a policy; such list must include a description of the coverage offered and the estimated premium for each take-out request; and
- Provides written notice to the policyholder and the agent of record regarding all insurers requesting to take-out the policy and regarding the policyholder's option to accept a take-out offer or to reject all take-out offers and to remain with the corporation. The notice must be in a format prescribed by the corporation and include, for each take-out offer:
  - The amount of the estimated premium;
  - A description of the coverage; and
  - A comparison of the estimated premium and coverage offered by the insurer to the estimated premium and coverage provided by the corporation.

Access to Public Records – Generally

The Florida Constitution provides the public has the right to inspect or copy records made or received in connection with official governmental business.[32] The right to inspect or copy applies to the official business of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[33]

Additional requirements and exemptions related to public records are found in various statutes and rules, depending on the branch of government involved. For instance, s. 11.0431, F.S., provides public access requirements for legislative records. Relevant exemptions are codified in ss. 11.0431(2)-(3), F.S., and the statutory provisions are adopted in the rules of each house of the legislature.[34] Florida Rule of Judicial Administration 2.420 governs public access to judicial

[33] *Id*.
[34] *See* Rule 1.48, *Rules and Manual of the Florida Senate*, (2020-2022), https://www.flsenate.gov/UserContent/Publications/SenateRules/2020-2022_Rules.pdf and Rule 14.1, *Rules of the Florida House of Representatives*, Edition 1, (2020-2022), and https://www.myfloridahouse.gov/Sections/Documents/loaddoc.aspx?PublicationType=Reference&CommitteeId=&Session=2021&DocumentType=The%20Rules%20Of%20The%20House%20of%20Representatives&FileName=2020-2022%20House%20Rules%20-%20%20Edition%201.pdf (last visited Mar. 26, 2021).

branch records.[35] Lastly, ch. 119, F.S., provides requirements for public records held by executive agencies.

Confidentiality of Citizens' Underwriting and Claims Files

Section 626.916(1)(x), F.S., establishes certain records of Citizens are confidential and exempt from the provisions of s. 119.07(1), F.S., and s. 24(a), Art. I of the State Constitution. Pursuant to sub-sub-paragraphs 1.a.-b. these exempt records include:

- Underwriting files, except that a policyholder or an applicant shall have access to his or her own underwriting files.
- Claims files, until termination of all litigation and settlement of all claims arising out of the same incident, although portions of the claims files may remain exempt, as otherwise provided by law.

Sub-sub-paragraphs 1.a.-b. also provide that such records may be released to other governmental agencies upon written request and demonstration of need. Records so released and held by the receiving agency would remain confidential and exempt.

III. Effect of Proposed Changes:

Section 1 revises s. 627.021, F.S., to revise the scope of the Rating Law under ch. 627, F.S., to state the chapter does apply to surplus lines coverage placed pursuant to the Surplus Lines Law under ss. 626.913-626.937, F.S., when "specifically stated to apply."

Section 2 defines "primary residence" to mean the dwelling that the insured has represented as their permanent home on the insurance application or otherwise to the corporation and makes a number of revisions to s. 627.351, F.S., regarding Citizens Property Insurance Corporation (Citizens or corporation).

Surcharge Levied on Citizens' Policyholders for Projected Account Deficits

The bill revises s. 627.351(6)(b)3.i.(I), F.S., to revise the 15 percent of premium surcharge cap for Citizens' policyholders when the Citizens' Board of Governors determines Citizens has a projected deficit. The 15 percent cap is replaced with an escalating cap for Citizens' policy holders, based upon the total number of Citizens' policyholders if:

- Citizens has less than one million policyholders, the premium surcharge cap is 15 percent per account.
- Citizens has at least one million policyholders, but less than 1.5 million policyholders, the premium surcharge cap is 20 percent per account.
- Citizens has at least 1.5 million or more policyholders, the premium surcharge cap is 25 percent per account.

As under current law, a surcharge may be levied for each of Citizens' three accounts. For example, under the bill, if Citizens has 1.2 million policies, a Citizens policyholder could be assessed a maximum policyholder surcharge of 60 percent of premium, consisting of a 20 percent surcharge for each of Citizens' three accounts.

[35] *State v. Wooten*, 260 So. 3d 1060 (Fla. 4th DCA 2018).

Revision to Eligibility for Coverage with Citizens Regarding Renewal Premiums

The bill revises s. 627.351(6)(c)5.a., F.S., to state a residential policyholder is ineligible to renew a policy with Citizens if such policyholder can obtain comparable coverage from an authorized insurer for less than, or equal to, 15 percent more than the actuarially sound Citizens' renewal premium would be for the risk. Under existing law, a policyholder would be ineligible only if an authorized insurer could offer comparable coverage for less than or equal to Citizens' premium, which for many policyholders is subject to the glide path's 10 percent limit on annual rate increases.

Limitations on Commissions

In proposed new s. 627.351(6)(c)22., F.S., the bill limits the commissions Citizens may pay to producing agents of record. The bill limits the commissions to no more than the average of commissions paid in the preceding year by the 20 insurers writing the greatest market share of property insurance in Florida.

Glide Path Eligibility

The bill revises s. 627.351(6)(n)6., F.S., to create new requirements to remain eligible for the 10 percent rate increase cap under Citizens' glide path provision. To continue to qualify for the glide path, the coverage, must:

- Be a personal residential property used as a primary residence;
- Be a policy initially issued before January 1, 2022; and
- Cover homestead personal residential property that has a dwelling replacement cost below $700,000, or, if a single condominium unit has a combined dwelling and contents replacement cost below $700,000.

These provisions take effect on or after January 1, 2022.

Surplus Lines Insurer Participation in Citizens' Depopulation, Take-out, and Keep-out Plans

The bill revises. 627.351(6)(q)3.d., F.S., to establish a new program where eligible surplus lines insurers may participate in any Citizens' depopulation, take-out, or keep-out plan in the same manner and terms as an authorized insurer. To be eligible for participation in a particular program, a surplus lines insurer must follow all Citizens' requirements relating to the plan that would be applicable to admitted insurers, follow statutory requirements applicable to the removal of policies from Citizens, and obtain approval from the OIR. In considering a surplus lines insurer's request for approval, the OIR must ensure that the insurer:

- Maintains surplus of $50 million on a company or pooled basis;
- Has a superior, excellent, exceptional, or equally comparable financial strength rating by a rating agency acceptable to the OIR;
- Maintains reserves, surplus, reinsurance, and reinsurance equivalents sufficient to cover its 100-year probable maximum hurricane loss at least twice in a single hurricane season;[36]

[36] The insurer also must submit such reinsurance to the OIR for review.

- Provides prominent notice to the policyholder that surplus lines policies are not provided coverage by the Florida Insurance Guaranty Association and outline any substantial policy differences between the existing Citizens' policy and the policy the insurer is offering; and
- Provides policy coverage similar to that provided by Citizens.

The surplus lines insurer also must file the following with the OIR:

- Information requested by the OIR to demonstrate compliance with s. 624.404(3), F.S., regarding basic qualifications to transact insurance in Florida;[37]
- A service-of-process consent and agreement form executed by the insurer;
- Proof that the insurer has been an eligible or authorized insurer for at least three years;
- A duly authenticated copy of the insurer's current audited financial statement;[38]
- A certified copy of the insurer's most recent official financial statement required by the insurer's domiciliary state (this is only required if the authenticated copy provided above differs from what the insurer provided to their domiciliary state); and
- A copy of the United States trust account agreement, if applicable.

Participation in these plans would not make a surplus line insurer subject to additional requirements under ch. 626, F.S., except that which is already required under part VIII. Policies taken out are not subject to the exporting requirements provided in s. 626.916(1)(a)-(c), and (e), F.S.

After assuming policies under these plans, a surplus lines insurer would be required to remit a special deposit equal to the unearned premium net of unearned commissions on the assumed block of business to the Bureau of Collateral Management within the Department of Financial Services (DFS). The insurer would also need to submit to the OIR an accounting of the policies assumed and the amount of unearned premium for such policies and a sworn affidavit attesting to its accuracy by an officer of the surplus lines insurer. Subsequently, each quarter, the surplus lines insurer must update the OIR with the unearned premium in force for the previous quarter on policies assumed from the corporation, and must submit additional funds with that filing if the special deposit is insufficient to cover the unearned premium on assumed policies. The purpose of the special deposit is to allow the DFS, in the event of liquidation of the surplus lines insurer, to pay unearned premium or policy claims, return all or part of the deposit to the domiciliary receiver, or use the funds in accordance with any action authorized under part I of ch. 631, F.S., or in compliance with any order of a court having jurisdiction over the insurer's insolvency.

A surplus lines broker representing a surplus lines insurer must obtain confirmation, in advance, from the producing agent that the agent is willing to participate in the take-out plan with the surplus lines insurer. Also, authorized insurers are to be given priority over surplus lines insurers if both select a particular policy for removal.

[37] This may include biographical affidavits, fingerprints processed pursuant to s. 624.34, F.S., and the results of criminal history records checks for officers and directors of the insurer and its parent or holding company.
[38] The statement must be in English, expressing all monetary values in United States dollars, at an exchange rate then current and shown in the statement, in the case of statements originally made in the currencies of other countries, and including any additional information relative to the insurer as the OIR may request.

The surplus lines insurer participation provision also states if a policyholder has a dwelling replacement cost of $700,000 or more or if a single condominium unit has a combined dwelling and contents replacement cost of $700,000 or more, the policyholder would no longer qualify for Citizens coverage should the premium offered by the surplus lines insurer is no greater than 15 percent higher than that offered by Citizens. This provision does not apply to policyholders with a dwelling replacement cost below $700,000 or a single condominium unit with a combined dwelling and contents replacement cost below $700,000. Such policyholders would maintain eligibility for coverage with Citizens.

Underwriting and Confidential Claim Files

The bill revises an existing public records exemption[39] under s. 626.916(1)(x)2., F.S., to allow authorized insurers, considering underwriting a risk held by Citizens, to access underwriting files and confidential claims files that would otherwise be exempt from public records requirements. The bill expands this exception to also include reinsurance intermediaries, eligible surplus lines insurers, or entities that have been created to seek authority to write property insurance in this state. The bill also revises activities that would allow such parties, including authorized insurers, to receive this information. In particular, relevant information from both the underwriting files and confidential claim files may be released to the parties seeking to underwrite or assist in underwriting a risk.

Section 3 of the bill makes technical changes to s. 627.3517, F.S.

Section 4 of the bill makes conforming changes to s. 627.3518(5) and reenacts s. 627.3518(6)-(7), F.S., to implement revisions made by **Section 2** of the bill above.

Section 5 specifies an effective date of January 1, 2022 for the bill.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

[39] Public records, unless expressly stated to be confidential and exempt, are subject to s. 119.07(1) and s. 24(a), Art. 1 of the State Constitution.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill revises surcharge limits Citizens Property Insurance Corporation (Citizens) may charge its policyholders when a Citizens' account shortfall is projected. In addition, the bill authorizes a new surcharge on Citizens' policyholders when a legal expense deficit exists. These additional authorized surcharges, may, depending on the necessity of assessing such surcharges, lead to additional insurance costs for Citizens' policyholders.

Provisions of the bill revising glide path eligibility may also lead to increased premiums, at least in the short term, for some Citizens' policyholders whose policies no longer qualify for the 10 percent rate increase cap. However, private market insurers seeking to write coverage on such policies will benefit from not having to compete on price with Citizens' coverage for which the glide path suppresses an actuarially sound rate.

The bill provides Citizens' policyholders become ineligible for Citizens' personal lines residential coverage upon receiving an offer from an authorized insurer for comparable coverage that is not 15 percent greater than the actuarially sound Citizens' premium would be on the property. This will result in ineligibility for some Citizens' policyholders as competitive market rates may be at a much higher rate than the customer currently pays under Citizens. For example, if a Citizens' premium subject to the glide path is $2,000 but the actuarially sound premium for that property is $2,500, the policyholder would be ineligible for Citizens coverage upon receiving an offer of coverage that is not more than 15 percent higher than the actuarially sound premium. In this example, the offered premium could not exceed $2,875, which represents a 43.75 percent premium increase.

Provisions of the bill allowing surplus lines insurers to participate in Citizens' depopulation, take-out, and keep-out plans will likely have some impact on the number of policies held by Citizens and may result in additional policies moving from Citizens into the private market. Allowing surplus lines insurers to participate in these plans may have an indeterminate negative impact on the number of such policies taken by authorized insurers due to increased competition.

C. Government Sector Impact:

The provisions of the bill relating to allowing surplus lines insurers to participate in Citizens' depopulation, take-out, and keep-out plans requires such insurers, if they take out policies from Citizens, to make specified deposits with the Bureau of Collateral

Management and to make regular filings with the Office of Insurance Regulation. This will likely lead to an indeterminate amount of additional regulatory cost for those government entities.

The bill's revisions to Citizens' eligibility criteria and ratemaking should result in further depopulation of policies, which will reduce the amount of risk insured by Citizens and the possibility of assessments. Citizens will collect an actuarially sound premium on all new business after July 1, 2021, which will benefit Citizens' financial status, and reduce the likelihood of deficits and associated surcharges and assessments.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 627.021 and 627.351.

This bill makes technical changes to section 627.3517 of the Florida Statutes.

This bill reenacts and makes conforming changes to section 627.3518 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

PCS (274232) by Appropriations Committee (Recommended by Appropriations Subcommittee on Agriculture, Environment, and General Government):
The committee substitute:

- Defines "primary residence" to mean the "dwelling that the insured has represented as their permanent home on the insurance application or otherwise to the corporation."
- Removes language establishing a legal surcharge for new policies and subsequent renewals.
- Replaces the phrase "owner occupied" with the newly defined "primary residence" in regards to Citizens' policy eligibility and glide-path eligibility.

CS by Banking and Insurance on March 16, 2021:
The committee substitute revises a bill provision creating new requirements for an insurance policy to remain eligible for the 10 percent rate increase cap under Citizens Property Insurance Corporation's (Citizens) glide path provision. Under the original bill, to continue to qualify for the glide path, the policy must meet certain guidelines, including that it cover homestead personal residential property. The committee substitute

deletes the homestead provision and replaces it with the property needing to be owner-occupied and makes a conforming change in in the bill for this revised provision.

The committee substitute also revises a requirement in the original bill regarding qualifications for a surplus lines insurer to participate in a Citizens depopulation, take-out, or keep-out program. The requirement that the insurer maintain "a financial strength rating of A- or higher by A.M. Best Company" is replaced in the committee substitute with a more general requirement that the insurer "have a superior, exceptional, or comparable financial strength rating by a rating agency acceptable to" the Office of Insurance Regulation.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

274232

576-03926-21

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Agriculture, Environment, and General Government)

A bill to be entitled

An act relating to Citizens Property Insurance Corporation; amending s. 627.021, F.S.; revising applicability; amending s. 627.351, F.S.; revising the method for determining the amounts of potential surcharges to be levied against policyholders under certain circumstances; defining the term "primary residence"; revising conditions for eligibility for coverage with the corporation to require a certain minimum premium; specifying a limit for agent commission rates; revising the application of annual rate increase limits to certain policies issued by the corporation; providing that eligible surplus lines insurers may participate, in the same manner and on the same terms as an authorized insurer, in depopulation, take-out, or keep-out programs relating to policies removed from Citizens Property Insurance Corporation; providing certain exceptions, conditions, and requirements relating to such participation by a surplus lines insurer in the corporation's depopulation, take-out, or keep-out programs; providing thresholds for eligibility for coverage by the corporation for risks offered coverage from qualified surplus lines insurers; authorizing information from underwriting files and confidential claims files to be released by the corporation to

274232

576-03926-21

specified entities considering writing or underwriting risks insured by the corporation under certain circumstances; specifying that only the corporation's transfer of a policy file to an insurer, as opposed to the transfer of any file, changes the file's public record status; making technical changes; amending s. 627.3517, F.S.; making technical changes; amending s. 627.3518, F.S., and reenacting subsections (6) and (7), relating to the Citizens Property Insurance Corporation policyholder eligibility clearinghouse program, to incorporate the amendments made to s. 627.351, F.S., in references thereto; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 627.021, Florida Statutes, is amended to read:

627.021 Scope of this part.—

(2) This part does not apply to:

(a) Reinsurance, except joint reinsurance as provided in s. 627.311.

(b) Insurance against loss of or damage to aircraft, their hulls, accessories, or equipment, or against liability, other than workers' compensation and employer's liability, arising out of the ownership, maintenance, or use of aircraft.

(c) Insurance of vessels or craft, their cargoes, marine builders' risks, marine protection and indemnity, or other risks

commonly insured under marine insurance policies.

(d) Commercial inland marine insurance.

(e) Except as may be specifically stated to apply, surplus lines insurance placed under ~~the provisions of~~ ss. 626.913-626.937.

Section 2. Paragraphs (b), (c), (n), (q), and (x) of subsection (6) of section 627.351, Florida Statutes, are amended to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(b)1. All insurers authorized to write one or more subject lines of business in this state are subject to assessment by the corporation and, for the purposes of this subsection, are referred to collectively as "assessable insurers." Insurers writing one or more subject lines of business in this state pursuant to part VIII of chapter 626 are not assessable insurers; however, insureds who procure one or more subject lines of business in this state pursuant to part VIII of chapter 626 are subject to assessment by the corporation and are referred to collectively as "assessable insureds." An insurer's assessment liability begins on the first day of the calendar year following the year in which the insurer was issued a certificate of authority to transact insurance for subject lines of business in this state and terminates 1 year after the end of the first calendar year during which the insurer no longer holds a certificate of authority to transact insurance for subject lines of business in this state.

2.a. All revenues, assets, liabilities, losses, and expenses of the corporation shall be divided into three separate

accounts as follows:

(I) A personal lines account for personal residential policies issued by the corporation which provides comprehensive, multiperil coverage on risks that are not located in areas eligible for coverage by the Florida Windstorm Underwriting Association as those areas were defined on January 1, 2002, and for policies that do not provide coverage for the peril of wind on risks that are located in such areas;

(II) A commercial lines account for commercial residential and commercial nonresidential policies issued by the corporation which provides coverage for basic property perils on risks that are not located in areas eligible for coverage by the Florida Windstorm Underwriting Association as those areas were defined on January 1, 2002, and for policies that do not provide coverage for the peril of wind on risks that are located in such areas; and

(III) A coastal account for personal residential policies and commercial residential and commercial nonresidential property policies issued by the corporation which provides coverage for the peril of wind on risks that are located in areas eligible for coverage by the Florida Windstorm Underwriting Association as those areas were defined on January 1, 2002. The corporation may offer policies that provide multiperil coverage and shall offer policies that provide coverage only for the peril of wind for risks located in areas eligible for coverage in the coastal account. Effective July 1, 2014, the corporation shall cease offering new commercial residential policies providing multiperil coverage and shall instead continue to offer commercial residential wind-only

policies, and may offer commercial residential policies excluding wind. The corporation may, however, continue to renew a commercial residential multiperil policy on a building that is insured by the corporation on June 30, 2014, under a multiperil policy. In issuing multiperil coverage, the corporation may use its approved policy forms and rates for the personal lines account. An applicant or insured who is eligible to purchase a multiperil policy from the corporation may purchase a multiperil policy from an authorized insurer without prejudice to the applicant's or insured's eligibility to prospectively purchase a policy that provides coverage only for the peril of wind from the corporation. An applicant or insured who is eligible for a corporation policy that provides coverage only for the peril of wind may elect to purchase or retain such policy and also purchase or retain coverage excluding wind from an authorized insurer without prejudice to the applicant's or insured's eligibility to prospectively purchase a policy that provides multiperil coverage from the corporation. It is the goal of the Legislature that there be an overall average savings of 10 percent or more for a policyholder who currently has a wind-only policy with the corporation, and an ex-wind policy with a voluntary insurer or the corporation, and who obtains a multiperil policy from the corporation. It is the intent of the Legislature that the offer of multiperil coverage in the coastal account be made and implemented in a manner that does not adversely affect the tax-exempt status of the corporation or creditworthiness of or security for currently outstanding financing obligations or credit facilities of the coastal account, the personal lines account, or the commercial lines

account. The coastal account must also include quota share primary insurance under subparagraph (c)2. The area eligible for coverage under the coastal account also includes the area within Port Canaveral~~,~~ which is bordered on the south by the City of Cape Canaveral, bordered on the west by the Banana River, and bordered on the north by Federal Government property.

b. The three separate accounts must be maintained as long as financing obligations entered into by the Florida Windstorm Underwriting Association or Residential Property and Casualty Joint Underwriting Association are outstanding, in accordance with the terms of the corresponding financing documents. If the financing obligations are no longer outstanding, the corporation may use a single account for all revenues, assets, liabilities, losses, and expenses of the corporation. Consistent with this subparagraph and prudent investment policies that minimize the cost of carrying debt, the board shall exercise its best efforts to retire existing debt or obtain the approval of necessary parties to amend the terms of existing debt, so as to structure the most efficient plan for consolidating the three separate accounts into a single account.

c. Creditors of the Residential Property and Casualty Joint Underwriting Association and the accounts specified in sub-sub-subparagraphs a.(I) and (II) may have a claim against, and recourse to, those accounts and no claim against, or recourse to, the account referred to in sub-sub-subparagraph a.(III). Creditors of the Florida Windstorm Underwriting Association have a claim against, and recourse to, the account referred to in sub-sub-subparagraph a.(III) and no claim against, or recourse to, the accounts referred to in sub-sub-subparagraphs a.(I) and

576-03926-21

(II).

d. Revenues, assets, liabilities, losses, and expenses not attributable to particular accounts shall be prorated among the accounts.

e. The Legislature finds that the revenues of the corporation are revenues that are necessary to meet the requirements set forth in documents authorizing the issuance of bonds under this subsection.

f. The income of the corporation may not inure to the benefit of any private person.

3. With respect to a deficit in an account:

a. After accounting for the Citizens policyholder surcharge imposed under sub-subparagraph i., if the remaining projected deficit incurred in the coastal account in a particular calendar year:

(I) Is not greater than 2 percent of the aggregate statewide direct written premium for the subject lines of business for the prior calendar year, the entire deficit shall be recovered through regular assessments of assessable insurers under paragraph (q) and assessable insureds.

(II) Exceeds 2 percent of the aggregate statewide direct written premium for the subject lines of business for the prior calendar year, the corporation shall levy regular assessments on assessable insurers under paragraph (q) and on assessable insureds in an amount equal to the greater of 2 percent of the projected deficit or 2 percent of the aggregate statewide direct written premium for the subject lines of business for the prior calendar year. Any remaining projected deficit shall be recovered through emergency assessments under sub-subparagraph

576-03926-21

d.

b. Each assessable insurer's share of the amount being assessed under sub-subparagraph a. must be in the proportion that the assessable insurer's direct written premium for the subject lines of business for the year preceding the assessment bears to the aggregate statewide direct written premium for the subject lines of business for that year. The assessment percentage applicable to each assessable insured is the ratio of the amount being assessed under sub-subparagraph a. to the aggregate statewide direct written premium for the subject lines of business for the prior year. Assessments levied by the corporation on assessable insurers under sub-subparagraph a. must be paid as required by the corporation's plan of operation and paragraph (q). Assessments levied by the corporation on assessable insureds under sub-subparagraph a. shall be collected by the surplus lines agent at the time the surplus lines agent collects the surplus lines tax required by s. 626.932, and paid to the Florida Surplus Lines Service Office at the time the surplus lines agent pays the surplus lines tax to that office. Upon receipt of regular assessments from surplus lines agents, the Florida Surplus Lines Service Office shall transfer the assessments directly to the corporation as determined by the corporation.

c. After accounting for the Citizens policyholder surcharge imposed under sub-subparagraph i., the remaining projected deficits in the personal lines account and in the commercial lines account in a particular calendar year shall be recovered through emergency assessments under sub-subparagraph d.

d. Upon a determination by the board of governors that a

projected deficit in an account exceeds the amount that is expected to be recovered through regular assessments under sub-subparagraph a., plus the amount that is expected to be recovered through surcharges under sub-subparagraph i., the board, after verification by the office, shall levy emergency assessments for as many years as necessary to cover the deficits, to be collected by assessable insurers and the corporation and collected from assessable insureds upon issuance or renewal of policies for subject lines of business, excluding National Flood Insurance policies. The amount collected in a particular year must be a uniform percentage of that year's direct written premium for subject lines of business and all accounts of the corporation, excluding National Flood Insurance Program policy premiums, as annually determined by the board and verified by the office. The office shall verify the arithmetic calculations involved in the board's determination within 30 days after receipt of the information on which the determination was based. The office shall notify assessable insurers and the Florida Surplus Lines Service Office of the date on which assessable insurers shall begin to collect and assessable insureds shall begin to pay such assessment. The date must be at least 90 days after the date the corporation levies emergency assessments pursuant to this sub-subparagraph. Notwithstanding any other provision of law, the corporation and each assessable insurer that writes subject lines of business shall collect emergency assessments from its policyholders without such obligation being affected by any credit, limitation, exemption, or deferment. Emergency assessments levied by the corporation on assessable insureds shall be collected by the surplus lines

agent at the time the surplus lines agent collects the surplus lines tax required by s. 626.932 and paid to the Florida Surplus Lines Service Office at the time the surplus lines agent pays the surplus lines tax to that office. The emergency assessments collected shall be transferred directly to the corporation on a periodic basis as determined by the corporation and held by the corporation solely in the applicable account. The aggregate amount of emergency assessments levied for an account in any calendar year may be less than but may not exceed the greater of 10 percent of the amount needed to cover the deficit, plus interest, fees, commissions, required reserves, and other costs associated with financing the original deficit, or 10 percent of the aggregate statewide direct written premium for subject lines of business and all accounts of the corporation for the prior year, plus interest, fees, commissions, required reserves, and other costs associated with financing the deficit.

e. The corporation may pledge the proceeds of assessments, projected recoveries from the Florida Hurricane Catastrophe Fund, other insurance and reinsurance recoverables, policyholder surcharges and other surcharges, and other funds available to the corporation as the source of revenue for and to secure bonds issued under paragraph (q), bonds or other indebtedness issued under subparagraph (c)3., or lines of credit or other financing mechanisms issued or created under this subsection, or to retire any other debt incurred as a result of deficits or events giving rise to deficits, or in any other way that the board determines will efficiently recover such deficits. The purpose of the lines of credit or other financing mechanisms is to provide additional resources to assist the corporation in covering claims and

expenses attributable to a catastrophe. As used in this subsection, the term "assessments" includes regular assessments under sub-subparagraph a. or subparagraph (q)1. and emergency assessments under sub-subparagraph d. Emergency assessments collected under sub-subparagraph d. are not part of an insurer's rates, are not premium, and are not subject to premium tax, fees, or commissions; however, failure to pay the emergency assessment shall be treated as failure to pay premium. The emergency assessments shall continue as long as any bonds issued or other indebtedness incurred with respect to a deficit for which the assessment was imposed remain outstanding, unless adequate provision has been made for the payment of such bonds or other indebtedness pursuant to the documents governing such bonds or indebtedness.

f. As used in this subsection for purposes of any deficit incurred on or after January 25, 2007, the term "subject lines of business" means insurance written by assessable insurers or procured by assessable insureds for all property and casualty lines of business in this state, but not including workers' compensation or medical malpractice. As used in this sub-subparagraph, the term "property and casualty lines of business" includes all lines of business identified on Form 2, Exhibit of Premiums and Losses, in the annual statement required of authorized insurers under s. 624.424 and any rule adopted under this section, except for those lines identified as accident and health insurance and except for policies written under the National Flood Insurance Program or the Federal Crop Insurance Program. For purposes of this sub-subparagraph, the term "workers' compensation" includes both workers' compensation

insurance and excess workers' compensation insurance.

g. The Florida Surplus Lines Service Office shall determine annually the aggregate statewide written premium in subject lines of business procured by assessable insureds and report that information to the corporation in a form and at a time the corporation specifies to ensure that the corporation can meet the requirements of this subsection and the corporation's financing obligations.

h. The Florida Surplus Lines Service Office shall verify the proper application by surplus lines agents of assessment percentages for regular assessments and emergency assessments levied under this subparagraph on assessable insureds and assist the corporation in ensuring the accurate, timely collection and payment of assessments by surplus lines agents as required by the corporation.

i. Upon determination by the board of governors that an account has a projected deficit, the board shall levy a Citizens policyholder surcharge against all policyholders of the corporation.

(I) The surcharge shall be levied as a uniform percentage of the premium for the policy ~~of up to 15 percent of such premium~~, which funds shall be used to offset the deficit, as follows:

(A) If the total number of policyholders of the corporation is less than 1 million, a surcharge of 15 percent of the premium shall be levied.

(B) If the total number of policyholders of the corporation is at least 1 million but less than 1.5 million policyholders, a surcharge of 20 percent of the premium shall be levied.

(C) If the total number of policyholders of the corporation is at least 1.5 million, a surcharge of 25 percent of the premium shall be levied.

(II) The surcharge is payable upon cancellation or termination of the policy, upon renewal of the policy, or upon issuance of a new policy by the corporation within the first 12 months after the date of the levy or the period of time necessary to fully collect the surcharge amount.

(III) The corporation may not levy any regular assessments under paragraph (q) pursuant to sub-subparagraph a. or sub-subparagraph b. with respect to a particular year's deficit until the corporation has first levied the full amount of the surcharge authorized by this sub-subparagraph.

(IV) The surcharge is not considered premium and is not subject to commissions, fees, or premium taxes. However, failure to pay the surcharge shall be treated as failure to pay premium.

j. If the amount of any assessments or surcharges collected from corporation policyholders, assessable insurers or their policyholders, or assessable insureds exceeds the amount of the deficits, such excess amounts shall be remitted to and retained by the corporation in a reserve to be used by the corporation, as determined by the board of governors and approved by the office, to pay claims or reduce any past, present, or future plan-year deficits or to reduce outstanding debt.

(c) The corporation's plan of operation:

1. Must provide for adoption of residential property and casualty insurance policy forms and commercial residential and nonresidential property insurance forms, which must be approved by the office before use. The corporation shall adopt the

following policy forms:

a. Standard personal lines policy forms that are comprehensive multiperil policies providing full coverage of a residential property equivalent to the coverage provided in the private insurance market under an HO-3, HO-4, or HO-6 policy.

b. Basic personal lines policy forms that are policies similar to an HO-8 policy or a dwelling fire policy that provide coverage meeting the requirements of the secondary mortgage market, but which is more limited than the coverage under a standard policy.

c. Commercial lines residential and nonresidential policy forms that are generally similar to the basic perils of full coverage obtainable for commercial residential structures and commercial nonresidential structures in the admitted voluntary market.

d. Personal lines and commercial lines residential property insurance forms that cover the peril of wind only. The forms are applicable only to residential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

e. Commercial lines nonresidential property insurance forms that cover the peril of wind only. The forms are applicable only to nonresidential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

f. The corporation may adopt variations of the policy forms listed in sub-subparagraphs a.-e. which contain more restrictive coverage.

g. Effective January 1, 2013, the corporation shall offer a

basic personal lines policy similar to an HO-8 policy with dwelling repair based on common construction materials and methods.

2. Must provide that the corporation adopt a program in which the corporation and authorized insurers enter into quota share primary insurance agreements for hurricane coverage, as defined in s. 627.4025(2)(a), for eligible risks, and adopt property insurance forms for eligible risks which cover the peril of wind only.

a. As used in this subsection, the term:

(II) "Primary residence" means the dwelling that the insured has represented as their permanent home on the insurance application or otherwise to the corporation.

(III) ~~(I)~~ "Quota share primary insurance" means an arrangement in which the primary hurricane coverage of an eligible risk is provided in specified percentages by the corporation and an authorized insurer. The corporation and authorized insurer are each solely responsible for a specified percentage of hurricane coverage of an eligible risk as set forth in a quota share primary insurance agreement between the corporation and an authorized insurer and the insurance contract. The responsibility of the corporation or authorized insurer to pay its specified percentage of hurricane losses of an eligible risk, as set forth in the agreement, may not be altered by the inability of the other party to pay its specified percentage of losses. Eligible risks that are provided hurricane coverage through a quota share primary insurance arrangement must be provided policy forms that set forth the obligations of the corporation and authorized insurer under the arrangement,

clearly specify the percentages of quota share primary insurance provided by the corporation and authorized insurer, and conspicuously and clearly state that the authorized insurer and the corporation may not be held responsible beyond their specified percentage of coverage of hurricane losses.

(I) ~~(II)~~ "Eligible risks" means personal lines residential and commercial lines residential risks that meet the underwriting criteria of the corporation and are located in areas that were eligible for coverage by the Florida Windstorm Underwriting Association on January 1, 2002.

b. The corporation may enter into quota share primary insurance agreements with authorized insurers at corporation coverage levels of 90 percent and 50 percent.

c. If the corporation determines that additional coverage levels are necessary to maximize participation in quota share primary insurance agreements by authorized insurers, the corporation may establish additional coverage levels. However, the corporation's quota share primary insurance coverage level may not exceed 90 percent.

d. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation must provide for a uniform specified percentage of coverage of hurricane losses, by county or territory as set forth by the corporation board, for all eligible risks of the authorized insurer covered under the agreement.

e. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation is subject to review and approval by the office. However, such agreement shall be authorized only as to insurance contracts entered into

between an authorized insurer and an insured who is already insured by the corporation for wind coverage.

f. For all eligible risks covered under quota share primary insurance agreements, the exposure and coverage levels for both the corporation and authorized insurers shall be reported by the corporation to the Florida Hurricane Catastrophe Fund. For all policies of eligible risks covered under such agreements, the corporation and the authorized insurer must maintain complete and accurate records for the purpose of exposure and loss reimbursement audits as required by fund rules. The corporation and the authorized insurer shall each maintain duplicate copies of policy declaration pages and supporting claims documents.

g. The corporation board shall establish in its plan of operation standards for quota share agreements which ensure that there is no discriminatory application among insurers as to the terms of the agreements, pricing of the agreements, incentive provisions if any, and consideration paid for servicing policies or adjusting claims.

h. The quota share primary insurance agreement between the corporation and an authorized insurer must set forth the specific terms under which coverage is provided, including, but not limited to, the sale and servicing of policies issued under the agreement by the insurance agent of the authorized insurer producing the business, the reporting of information concerning eligible risks, the payment of premium to the corporation, and arrangements for the adjustment and payment of hurricane claims incurred on eligible risks by the claims adjuster and personnel of the authorized insurer. Entering into a quota sharing insurance agreement between the corporation and an authorized

insurer is voluntary and at the discretion of the authorized insurer.

3. May provide that the corporation may employ or otherwise contract with individuals or other entities to provide administrative or professional services that may be appropriate to effectuate the plan. The corporation may borrow funds by issuing bonds or by incurring other indebtedness, and shall have other powers reasonably necessary to effectuate the requirements of this subsection, including, without limitation, the power to issue bonds and incur other indebtedness in order to refinance outstanding bonds or other indebtedness. The corporation may seek judicial validation of its bonds or other indebtedness under chapter 75. The corporation may issue bonds or incur other indebtedness, or have bonds issued on its behalf by a unit of local government pursuant to subparagraph (q)2. in the absence of a hurricane or other weather-related event, upon a determination by the corporation, subject to approval by the office, that such action would enable it to efficiently meet the financial obligations of the corporation and that such financings are reasonably necessary to effectuate the requirements of this subsection. The corporation may take all actions needed to facilitate tax-free status for such bonds or indebtedness, including formation of trusts or other affiliated entities. The corporation may pledge assessments, projected recoveries from the Florida Hurricane Catastrophe Fund, other reinsurance recoverables, policyholder surcharges and other surcharges, and other funds available to the corporation as security for bonds or other indebtedness. In recognition of s. 10, Art. I of the State Constitution, prohibiting the impairment

of obligations of contracts, it is the intent of the Legislature that no action be taken whose purpose is to impair any bond indenture or financing agreement or any revenue source committed by contract to such bond or other indebtedness.

4. Must require that the corporation operate subject to the supervision and approval of a board of governors consisting of nine individuals who are residents of this state and who are from different geographical areas of this ~~the~~ state, one of whom is appointed by the Governor and serves solely to advocate on behalf of the consumer. The appointment of a consumer representative by the Governor is deemed to be within the scope of the exemption provided in s. 112.313(7)(b) and is in addition to the appointments authorized under sub-subparagraph a.

a. The Governor, the Chief Financial Officer, the President of the Senate, and the Speaker of the House of Representatives shall each appoint two members of the board. At least one of the two members appointed by each appointing officer must have demonstrated expertise in insurance and be deemed to be within the scope of the exemption provided in s. 112.313(7)(b). The Chief Financial Officer shall designate one of the appointees as chair. All board members serve at the pleasure of the appointing officer. All members of the board are subject to removal at will by the officers who appointed them. All board members, including the chair, must be appointed to serve for 3-year terms beginning annually on a date designated by the plan. However, for the first term beginning on or after July 1, 2009, each appointing officer shall appoint one member of the board for a 2-year term and one member for a 3-year term. A board vacancy shall be filled for the unexpired term by the appointing officer. The

Chief Financial Officer shall appoint a technical advisory group to provide information and advice to the board in connection with the board's duties under this subsection. The executive director and senior managers of the corporation shall be engaged by the board and serve at the pleasure of the board. Any executive director appointed on or after July 1, 2006, is subject to confirmation by the Senate. The executive director is responsible for employing other staff as the corporation may require, subject to review and concurrence by the board.

b. The board shall create a Market Accountability Advisory Committee to assist the corporation in developing awareness of its rates and its customer and agent service levels in relationship to the voluntary market insurers writing similar coverage.

(I) The members of the advisory committee consist of the following 11 persons, one of whom must be elected chair by the members of the committee: four representatives, one appointed by the Florida Association of Insurance Agents, one by the Florida Association of Insurance and Financial Advisors, one by the Professional Insurance Agents of Florida, and one by the Latin American Association of Insurance Agencies; three representatives appointed by the insurers with the three highest voluntary market share of residential property insurance business in this ~~the~~ state; one representative from the Office of Insurance Regulation; one consumer appointed by the board who is insured by the corporation at the time of appointment to the committee; one representative appointed by the Florida Association of Realtors; and one representative appointed by the Florida Bankers Association. All members shall be appointed to

3-year terms and may serve for consecutive terms.

(II) The committee shall report to the corporation at each board meeting on insurance market issues that ~~which~~ may include rates and rate competition with the voluntary market; service, including policy issuance, claims processing, and general responsiveness to policyholders, applicants, and agents; and matters relating to depopulation.

5. Must provide a procedure for determining the eligibility of a risk for coverage, as follows:

a. Subject to s. 627.3517, with respect to personal lines residential risks, if the risk is offered coverage from an authorized insurer at the insurer's approved rate under a standard policy including wind coverage or, if consistent with the insurer's underwriting rules as filed with the office, a basic policy including wind coverage, for a new application to the corporation for coverage, the risk is not eligible for any policy issued by the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from the corporation. Whenever an offer of coverage for a personal lines residential risk is received for a policyholder of the corporation ~~at renewal~~ from an authorized insurer, ~~if the offer is equal to or less than the corporation's renewal premium for comparable coverage,~~ the risk is not eligible for coverage with the corporation unless the premium for comparable coverage from the authorized insurer is more than 15 percent greater than the premium under subparagraph (n)1. for personal residential properties that are not the insured's primary residence. If the risk is not able to obtain such offer, the risk is eligible for

a standard policy including wind coverage or a basic policy including wind coverage issued by the corporation; however, if the risk could not be insured under a standard policy including wind coverage regardless of market conditions, the risk is eligible for a basic policy including wind coverage unless rejected under subparagraph 8. However, a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the end of the assumption period. The corporation shall determine the type of policy to be provided on the basis of objective standards specified in the underwriting manual and based on generally accepted underwriting practices.

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation other than a plan established by s. 627.3518, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or to the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of

policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

b. With respect to commercial lines residential risks, for a new application to the corporation for coverage, if the risk is offered coverage under a policy including wind coverage from an authorized insurer at its approved rate, the risk is not eligible for a policy issued by the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from

the corporation. Whenever an offer of coverage for a commercial lines residential risk is received for a policyholder of the corporation at renewal from an authorized insurer, if the offer is equal to or less than the corporation's renewal premium for comparable coverage, the risk is not eligible for coverage with the corporation. If the risk is not able to obtain any such offer, the risk is eligible for a policy including wind coverage issued by the corporation. However, a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the end of the assumption period.

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation other than a plan established by s. 627.3518, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

c. For purposes of determining comparable coverage under sub-subparagraphs a. and b., the comparison must be based on those forms and coverages that are reasonably comparable. The corporation may rely on a determination of comparable coverage and premium made by the producing agent who submits the application to the corporation, made in the agent's capacity as the corporation's agent. A comparison may be made solely of the premium with respect to the main building or structure only on

the following basis: the same coverage A or other building limits; the same percentage hurricane deductible that applies on an annual basis or that applies to each hurricane for commercial residential property; the same percentage of ordinance and law coverage, if the same limit is offered by both the corporation and the authorized insurer; the same mitigation credits, to the extent the same types of credits are offered both by the corporation and the authorized insurer; the same method for loss payment, such as replacement cost or actual cash value, if the same method is offered both by the corporation and the authorized insurer in accordance with underwriting rules; and any other form or coverage that is reasonably comparable as determined by the board. If an application is submitted to the corporation for wind-only coverage in the coastal account, the premium for the corporation's wind-only policy plus the premium for the ex-wind policy that is offered by an authorized insurer to the applicant must be compared to the premium for multiperil coverage offered by an authorized insurer, subject to the standards for comparison specified in this subparagraph. If the corporation or the applicant requests from the authorized insurer a breakdown of the premium of the offer by types of coverage so that a comparison may be made by the corporation or its agent and the authorized insurer refuses or is unable to provide such information, the corporation may treat the offer as not being an offer of coverage from an authorized insurer at the insurer's approved rate.

6. Must include rules for classifications of risks and rates.

7. Must provide that if premium and investment income for

an account attributable to a particular calendar year are in excess of projected losses and expenses for the account attributable to that year, such excess shall be held in surplus in the account. Such surplus must be available to defray deficits in that account as to future years and used for that purpose before assessing assessable insurers and assessable insureds as to any calendar year.

8. Must provide objective criteria and procedures to be uniformly applied to all applicants in determining whether an individual risk is so hazardous as to be uninsurable. In making this determination and in establishing the criteria and procedures, the following must be considered:

a. Whether the likelihood of a loss for the individual risk is substantially higher than for other risks of the same class; and

b. Whether the uncertainty associated with the individual risk is such that an appropriate premium cannot be determined.

The acceptance or rejection of a risk by the corporation shall be construed as the private placement of insurance, and ~~the provisions of~~ chapter 120 does ~~do~~ not apply.

9. Must provide that the corporation make its best efforts to procure catastrophe reinsurance at reasonable rates, to cover its projected 100-year probable maximum loss as determined by the board of governors.

10. The policies issued by the corporation must provide that if the corporation or the market assistance plan obtains an offer from an authorized insurer to cover the risk at its approved rates, the risk is no longer eligible for renewal

through the corporation, except as otherwise provided in this subsection.

11. Corporation policies and applications must include a notice that the corporation policy could, under this section, be replaced with a policy issued by an authorized insurer which does not provide coverage identical to the coverage provided by the corporation. The notice must also specify that acceptance of corporation coverage creates a conclusive presumption that the applicant or policyholder is aware of this potential.

12. May establish, subject to approval by the office, different eligibility requirements and operational procedures for any line or type of coverage for any specified county or area if the board determines that such changes are justified due to the voluntary market being sufficiently stable and competitive in such area or for such line or type of coverage and that consumers who, in good faith, are unable to obtain insurance through the voluntary market through ordinary methods continue to have access to coverage from the corporation. If coverage is sought in connection with a real property transfer, the requirements and procedures may not provide an effective date of coverage later than the date of the closing of the transfer as established by the transferor, the transferee, and, if applicable, the lender.

13. Must provide that, with respect to the coastal account, any assessable insurer with a surplus as to policyholders of $25 million or less writing 25 percent or more of its total countrywide property insurance premiums in this state may petition the office, within the first 90 days of each calendar year, to qualify as a limited apportionment company. A regular

assessment levied by the corporation on a limited apportionment company for a deficit incurred by the corporation for the coastal account may be paid to the corporation on a monthly basis as the assessments are collected by the limited apportionment company from its insureds, but a limited apportionment company must begin collecting the regular assessments not later than 90 days after the regular assessments are levied by the corporation, and the regular assessments must be paid in full within 15 months after being levied by the corporation. A limited apportionment company shall collect from its policyholders any emergency assessment imposed under sub-subparagraph (b)3.d. The plan must provide that, if the office determines that any regular assessment will result in an impairment of the surplus of a limited apportionment company, the office may direct that all or part of such assessment be deferred as provided in subparagraph (q)4. However, an emergency assessment to be collected from policyholders under sub-subparagraph (b)3.d. may not be limited or deferred.

14. Must provide that the corporation appoint as its licensed agents only those agents who throughout such appointments also hold an appointment as defined in s. 626.015 by an insurer who is authorized to write and is actually writing or renewing personal lines residential property coverage, commercial residential property coverage, or commercial nonresidential property coverage within this ~~the~~ state.

15. Must provide a premium payment plan option to its policyholders which, at a minimum, allows for quarterly and semiannual payment of premiums. A monthly payment plan may, but is not required to, be offered.

16. Must limit coverage on mobile homes or manufactured homes built before 1994 to actual cash value of the dwelling rather than replacement costs of the dwelling.

17. Must provide coverage for manufactured or mobile home dwellings. Such coverage must also include the following attached structures:

a. Screened enclosures that are aluminum framed or screened enclosures that are not covered by the same or substantially the same materials as those of the primary dwelling;

b. Carports that are aluminum or carports that are not covered by the same or substantially the same materials as those of the primary dwelling; and

c. Patios that have a roof covering that is constructed of materials that are not the same or substantially the same materials as those of the primary dwelling.

The corporation shall make available a policy for mobile homes or manufactured homes for a minimum insured value of at least $3,000.

18. May provide such limits of coverage as the board determines, consistent with the requirements of this subsection.

19. May require commercial property to meet specified hurricane mitigation construction features as a condition of eligibility for coverage.

20. Must provide that new or renewal policies issued by the corporation on or after January 1, 2012, which cover sinkhole loss do not include coverage for any loss to appurtenant structures, driveways, sidewalks, decks, or patios that are directly or indirectly caused by sinkhole activity. The

corporation shall exclude such coverage using a notice of coverage change, which may be included with the policy renewal, and not by issuance of a notice of nonrenewal of the excluded coverage upon renewal of the current policy.

21. As of January 1, 2012, must require that the agent obtain from an applicant for coverage from the corporation an acknowledgment signed by the applicant~~,~~ which includes, at a minimum, the following statement:

ACKNOWLEDGMENT OF POTENTIAL SURCHARGE
AND ASSESSMENT LIABILITY:

1. AS A POLICYHOLDER OF CITIZENS PROPERTY INSURANCE CORPORATION, I UNDERSTAND THAT IF THE CORPORATION SUSTAINS A DEFICIT AS A RESULT OF HURRICANE LOSSES OR FOR ANY OTHER REASON, MY POLICY COULD BE SUBJECT TO SURCHARGES, WHICH WILL BE DUE AND PAYABLE UPON RENEWAL, CANCELLATION, OR TERMINATION OF THE POLICY, AND THAT THE SURCHARGES COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

2. I UNDERSTAND THAT I CAN AVOID THE CITIZENS POLICYHOLDER SURCHARGE, WHICH COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, BY OBTAINING COVERAGE FROM A PRIVATE MARKET INSURER AND THAT TO BE ELIGIBLE FOR COVERAGE BY CITIZENS, I MUST FIRST TRY TO OBTAIN PRIVATE MARKET COVERAGE BEFORE APPLYING FOR OR RENEWING COVERAGE WITH CITIZENS. I UNDERSTAND THAT PRIVATE MARKET INSURANCE RATES ARE REGULATED AND APPROVED BY THE STATE.

3. I UNDERSTAND THAT I MAY BE SUBJECT TO EMERGENCY ASSESSMENTS TO THE SAME EXTENT AS POLICYHOLDERS OF OTHER

INSURANCE COMPANIES, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

4. I ALSO UNDERSTAND THAT CITIZENS PROPERTY INSURANCE CORPORATION IS NOT SUPPORTED BY THE FULL FAITH AND CREDIT OF THE STATE OF FLORIDA.

a. The corporation shall maintain, in electronic format or otherwise, a copy of the applicant's signed acknowledgment and provide a copy of the statement to the policyholder as part of the first renewal after the effective date of this subparagraph.

b. The signed acknowledgment form creates a conclusive presumption that the policyholder understood and accepted his or her potential surcharge and assessment liability as a policyholder of the corporation.

22. The corporation shall pay a producing agent of record a reasonable commission not to exceed the average of commissions paid in the preceding year by the 20 admitted insurers writing the greatest market share of property insurance in this state.

(n)1. Rates for coverage provided by the corporation must be actuarially sound and subject to s. 627.062, except as otherwise provided in this paragraph. The corporation shall file its recommended rates with the office at least annually. The corporation shall provide any additional information regarding the rates which the office requires. The office shall consider the recommendations of the board and issue a final order establishing the rates for the corporation within 45 days after the recommended rates are filed. The corporation may not pursue an administrative challenge or judicial review of the final order of the office.

2. In addition to the rates otherwise determined pursuant to this paragraph, the corporation shall impose and collect an amount equal to the premium tax provided in s. 624.509 to augment the financial resources of the corporation.

3. ~~After~~ The public hurricane loss-projection model under s. 627.06281, if ~~has been~~ found to be accurate and reliable by the Florida Commission on Hurricane Loss Projection Methodology, ~~the model~~ shall be considered when establishing the windstorm portion of the corporation's rates. The corporation may use the public model results in combination with the results of private models to calculate rates for the windstorm portion of the corporation's rates. This subparagraph does not require or allow the corporation to adopt rates lower than the rates otherwise required or allowed by this paragraph.

4. The rate filings for the corporation which were approved by the office and took effect January 1, 2007, are rescinded, except for those rates that were lowered. As soon as possible, the corporation shall begin using the lower rates that were in effect on December 31, 2006, and provide refunds to policyholders who paid higher rates as a result of that rate filing. The rates in effect on December 31, 2006, remain in effect for the 2007 and 2008 calendar years except for any rate change that results in a lower rate. The next rate change that may increase rates shall take effect pursuant to a new rate filing recommended by the corporation and established by the office, subject to this paragraph.

5. Beginning on July 15, 2009, and annually thereafter, the corporation must make a recommended actuarially sound rate filing for each personal and commercial line of business it

writes, to be effective no earlier than January 1, 2010.

6. Beginning on or after January 1, 2022 ~~January 1, 2010~~, and notwithstanding the board's recommended rates and the office's final order regarding the corporation's filed rates under subparagraph 1., the corporation shall annually implement a rate increase which, except for sinkhole coverage, does not exceed 10 percent for any single policy renewed ~~issued~~ by the corporation covering a personal residential property that is used as the primary residence of the insured which has a dwelling replacement cost less than $700,000 or that is a single condominium unit that has a combined dwelling and contents replacement cost less than $700,000, excluding coverage changes and surcharges, if the policy was initially issued by the corporation before January 1, 2022.

7. The corporation may also implement an increase to reflect the effect on the corporation of the cash buildup factor pursuant to s. 215.555(5)(b).

8. The corporation's implementation of rates as prescribed in subparagraph 6. shall cease for any line of business written by the corporation upon the corporation's implementation of actuarially sound rates. Thereafter, the corporation shall annually make a recommended actuarially sound rate filing for each commercial and personal line of business the corporation writes.

(q)1. The corporation shall certify to the office its needs for annual assessments as to a particular calendar year, and for any interim assessments that it deems to be necessary to sustain operations as to a particular year pending the receipt of annual assessments. Upon verification, the office shall approve such

certification, and the corporation shall levy such annual or interim assessments. Such assessments shall be prorated as provided in paragraph (b). The corporation shall take all reasonable and prudent steps necessary to collect the amount of assessments due from each assessable insurer, including, if prudent, filing suit to collect the assessments, and the office may provide such assistance to the corporation it deems appropriate. If the corporation is unable to collect an assessment from any assessable insurer, the uncollected assessments shall be levied as an additional assessment against the assessable insurers and any assessable insurer required to pay an additional assessment as a result of such failure to pay shall have a cause of action against such nonpaying assessable insurer. Assessments shall be included as an appropriate factor in the making of rates. The failure of a surplus lines agent to collect and remit any regular or emergency assessment levied by the corporation is considered to be a violation of s. 626.936 and subjects the surplus lines agent to the penalties provided in that section.

2. The governing body of any unit of local government, any residents of which are insured by the corporation, may issue bonds as defined in s. 125.013 or s. 166.101 from time to time to fund an assistance program, in conjunction with the corporation, for the purpose of defraying deficits of the corporation. In order to avoid needless and indiscriminate proliferation, duplication, and fragmentation of such assistance programs, any unit of local government, any residents of which are insured by the corporation, may provide for the payment of losses, regardless of whether or not the losses occurred within

or outside of the territorial jurisdiction of the local government. Revenue bonds under this subparagraph may not be issued until validated pursuant to chapter 75, unless a state of emergency is declared by executive order or proclamation of the Governor pursuant to s. 252.36 making such findings as are necessary to determine that it is in the best interests of, and necessary for, the protection of the public health, safety, and general welfare of residents of this state and declaring it an essential public purpose to permit certain municipalities or counties to issue such bonds as will permit relief to claimants and policyholders of the corporation. Any such unit of local government may enter into such contracts with the corporation and with any other entity created pursuant to this subsection as are necessary to carry out this paragraph. Any bonds issued under this subparagraph shall be payable from and secured by moneys received by the corporation from emergency assessments under sub-subparagraph (b)3.d., and assigned and pledged to or on behalf of the unit of local government for the benefit of the holders of such bonds. The funds, credit, property, and taxing power of the state or of the unit of local government may ~~shall~~ not be pledged for the payment of such bonds.

3.a. The corporation shall adopt one or more programs subject to approval by the office for the reduction of both new and renewal writings in the corporation. Beginning January 1, 2008, any program the corporation adopts for the payment of bonuses to an insurer for each risk the insurer removes from the corporation shall comply with s. 627.3511(2) and may not exceed the amount referenced in s. 627.3511(2) for each risk removed. The corporation may consider any prudent and not unfairly

discriminatory approach to reducing corporation writings, and may adopt a credit against assessment liability or other liability that provides an incentive for insurers to take risks out of the corporation and to keep risks out of the corporation by maintaining or increasing voluntary writings in counties or areas in which corporation risks are highly concentrated and a program to provide a formula under which an insurer voluntarily taking risks out of the corporation by maintaining or increasing voluntary writings will be relieved wholly or partially from assessments under sub-subparagraph (b)3.a. However, any "take-out bonus" or payment to an insurer must be conditioned on the property being insured for at least 5 years by the insurer, unless canceled or nonrenewed by the policyholder. If the policy is canceled or nonrenewed by the policyholder before the end of the 5-year period, the amount of the take-out bonus must be prorated for the time period the policy was insured. When the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on such policy, and the insurer shall either:

(I) Pay to the producing agent of record of the policy, for the first year, an amount which is the greater of the insurer's usual and customary commission for the type of policy written or a policy fee equal to the usual and customary commission of the corporation; or

(II) Offer to allow the producing agent of record of the policy to continue servicing the policy for a period of not less than 1 year and offer to pay the agent the insurer's usual and customary commission for the type of policy written. If the

producing agent is unwilling or unable to accept appointment by the new insurer, the new insurer shall pay the agent in accordance with sub-sub-subparagraph (I).

b. Any credit or exemption from regular assessments adopted under this subparagraph shall last no longer than the 3 years following the cancellation or expiration of the policy by the corporation. With the approval of the office, the board may extend such credits for an additional year if the insurer guarantees an additional year of renewability for all policies removed from the corporation, or for 2 additional years if the insurer guarantees 2 additional years of renewability for all policies so removed.

c. There shall be no credit, limitation, exemption, or deferment from emergency assessments to be collected from policyholders pursuant to sub-subparagraph (b)3.d.

d. Notwithstanding any other provision of law, for purposes of a depopulation, take-out, or keep-out program adopted by the corporation, including an initial or renewal offer of coverage made to a policyholder removed from the corporation pursuant to such program, an eligible surplus lines insurer may participate in the program in the same manner and on the same terms as an authorized insurer, except as provided under this sub-subparagraph.

(I) To qualify for participation, the surplus lines insurer must first obtain approval from the office for its depopulation, take-out, or keep-out plan and then comply with all of the corporation's requirements for the plan applicable to admitted insurers and with all statutory provisions applicable to the removal of policies from the corporation.

(II) In considering a surplus lines insurer's request for approval for its plan, the office shall determine that the surplus lines insurer meets the following requirements:

(A) Maintains surplus of $50 million on a company or pooled basis;

(B) Has a superior, excellent, exceptional, or equally comparable financial strength rating by a rating agency acceptable to the office;

(C) Maintains reserves, surplus, reinsurance, and reinsurance equivalents sufficient to cover the insurer's 100-year probable maximum hurricane loss at least twice in a single hurricane season, and submits such reinsurance to the office to review for purposes of the take-out;

(D) Provides prominent notice to the policyholder before the assumption of the policy that surplus lines policies are not provided coverage by the Florida Insurance Guaranty Association, and an outline of any substantial differences in coverage between the existing policy and the policy being offered to the insured; and

(E) Provides policy coverage similar to that provided by the corporation.

(III) To obtain approval for a plan, the surplus lines insurer must file the following with the office:

(A) Information requested by the office to demonstrate compliance with s. 624.404(3), including biographical affidavits, fingerprints processed pursuant to s. 624.34, and the results of criminal history records checks for officers and directors of the insurer and its parent or holding company;

(B) A service-of-process consent and agreement form

executed by the insurer;

(C) Proof that the insurer has been an eligible or authorized insurer for at least 3 years;

(D) A duly authenticated copy of the insurer's current audited financial statement, in English, expressing all monetary values in United States dollars, at an exchange rate then current and shown in the statement, in the case of statements originally made in the currencies of other countries, and including any additional information relative to the insurer as the office may request;

(E) A complete certified copy of the latest official financial statement required by the insurer's domiciliary state, if different from sub-sub-sub-subparagraph (D); and

(F) A copy of the United States trust account agreement, if applicable.

This sub-subparagraph does not subject any surplus lines insurer to requirements in addition to part VIII of chapter 626. Surplus lines brokers making an offer of coverage under this sub-subparagraph are not required to comply with s. 626.916(1)(a), (b), (c), and (e).

(IV) Within 10 days after the date of assumption, the surplus lines insurer assuming policies from the corporation shall remit a special deposit equal to the unearned premium net of unearned commissions on the assumed block of business to the Bureau of Collateral Management within the Department of Financial Services. The surplus lines insurer shall submit to the office, along with the initial deposit, an accounting of the policies assumed and the amount of unearned premium for such

policies and a sworn affidavit attesting to its accuracy by an officer of the surplus lines insurer. Thereafter, the surplus lines insurer shall make a filing within 10 days after each calendar quarter attesting to the unearned premium in force for the previous quarter on policies assumed from the corporation, and shall submit additional funds with that filing if the special deposit is insufficient to cover the unearned premium on assumed policies, or shall receive a return of funds within 60 days if the special deposit exceeds the amount of unearned premium required for assumed policies. The special deposit is an asset of the surplus lines insurer which is held by the department for the benefit of state policyholders of the surplus lines insurer in the event of the insolvency of the surplus lines insurer. If an order of liquidation is entered in any state against the surplus lines insurer, the department may use the special deposit for payment of unearned premium or policy claims, return all or part of the deposit to the domiciliary receiver, or use the funds in accordance with any action authorized under part I of chapter 631 or in compliance with any order of a court having jurisdiction over the insolvency.

(V) Surplus lines brokers representing a surplus lines insurer on a take-out program shall obtain confirmation, in written or e-mail form, from each producing agent in advance stating that the agent is willing to participate in the take-out program with the surplus lines insurer engaging in the take-out program. The take-out program is also subject to s. 627.3517. If a policyholder is selected for removal from the corporation by a surplus lines insurer and an authorized insurer, the corporation shall give the offer of coverage from the authorized insurer

priority.

(VI)(A) When offered comparable coverage from a qualified surplus lines insurer no greater than 15 percent higher than the premium charged by the corporation, a risk that has a dwelling replacement cost of $700,000 or more or a single condominium unit that has a combined dwelling and contents replacement cost of $700,000 or more is not eligible for coverage by the corporation.

(B) When offered coverage from a qualified surplus lines insurer, a risk that has a dwelling replacement cost below $700,000 or a single condominium unit that has a combined dwelling and contents replacement cost below $700,000 remains eligible for coverage by the corporation.

4. The plan shall provide for the deferment, in whole or in part, of the assessment of an assessable insurer, other than an emergency assessment collected from policyholders pursuant to sub-subparagraph (b)3.d., if the office finds that payment of the assessment would endanger or impair the solvency of the insurer. In the event an assessment against an assessable insurer is deferred in whole or in part, the amount by which such assessment is deferred may be assessed against the other assessable insurers in a manner consistent with the basis for assessments set forth in paragraph (b).

5. Effective July 1, 2007, in order to evaluate the costs and benefits of approved take-out plans, if the corporation pays a bonus or other payment to an insurer for an approved take-out plan, it shall maintain a record of the address or such other identifying information on the property or risk removed in order to track if and when the property or risk is later insured by

the corporation.

6. Any policy taken out, assumed, or removed from the corporation is, as of the effective date of the take-out, assumption, or removal, direct insurance issued by the insurer and not by the corporation, even if the corporation continues to service the policies. This subparagraph applies to policies of the corporation and not policies taken out, assumed, or removed from any other entity.

7. For a policy taken out, assumed, or removed from the corporation, the insurer may, for a period of no more than 3 years, continue to use any of the corporation's policy forms or endorsements that apply to the policy taken out, removed, or assumed without obtaining approval from the office for use of such policy form or endorsement.

(x)1. The following records of the corporation are confidential and exempt from ~~the provisions of~~ s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

a. Underwriting files, except that a policyholder or an applicant shall have access to his or her own underwriting files. Confidential and exempt underwriting file records may also be released to other governmental agencies upon written request and demonstration of need; such records held by the receiving agency remain confidential and exempt as provided herein.

b. Claims files, until termination of all litigation and settlement of all claims arising out of the same incident, although portions of the claims files may remain exempt, as otherwise provided by law. Confidential and exempt claims file records may be released to other governmental agencies upon

written request and demonstration of need; such records held by the receiving agency remain confidential and exempt as provided herein.

c. Records obtained or generated by an internal auditor pursuant to a routine audit, until the audit is completed, or if the audit is conducted as part of an investigation, until the investigation is closed or ceases to be active. An investigation is considered "active" while the investigation is being conducted with a reasonable, good faith belief that it could lead to the filing of administrative, civil, or criminal proceedings.

d. Matters reasonably encompassed in privileged attorney-client communications.

e. Proprietary information licensed to the corporation under contract and the contract provides for the confidentiality of such proprietary information.

f. All information relating to the medical condition or medical status of a corporation employee which is not relevant to the employee's capacity to perform his or her duties, except as otherwise provided in this paragraph. Information that is exempt <u>includes</u> ~~shall include~~, but is not limited to, information relating to workers' compensation, insurance benefits, and retirement or disability benefits.

g. Upon an employee's entrance into the employee assistance program, a program to assist any employee who has a behavioral or medical disorder, substance abuse problem, or emotional difficulty that affects the employee's job performance, all records relative to that participation <u>are</u> ~~shall be~~ confidential and exempt from ~~the provisions of~~ s. 119.07(1) and s. 24(a),

Art. I of the State Constitution, except as otherwise provided in s. 112.0455(11).

h. Information relating to negotiations for financing, reinsurance, depopulation, or contractual services, until the conclusion of the negotiations.

i. Minutes of closed meetings regarding underwriting files, and minutes of closed meetings regarding an open claims file until termination of all litigation and settlement of all claims with regard to that claim, except that information otherwise confidential or exempt by law shall be redacted.

2. If an authorized insurer, a reinsurance intermediary, an eligible surplus lines insurer, or an entity that has filed an application with the office for licensure as a property and casualty insurer in this state is considering writing or assisting in the underwriting of a risk insured by the corporation, relevant information from both the underwriting files and confidential claims files may be released to the insurer, reinsurance intermediary, eligible surplus lines insurer, or entity that has been created to seek authority to write property insurance in this state, provided the recipient ~~insurer~~ agrees in writing, notarized and under oath, to maintain the confidentiality of such files. If a policy file is transferred to an insurer, that policy file is no longer a public record because it is not held by an agency subject to ~~the provisions of~~ the public records law. Underwriting files and confidential claims files may also be released to staff and the board of governors of the market assistance plan established pursuant to s. 627.3515, who must retain the confidentiality of such files, except such files may be released to authorized

insurers that are considering assuming the risks to which the files apply, provided the insurer agrees in writing, notarized and under oath, to maintain the confidentiality of such files. Finally, the corporation or the board or staff of the market assistance plan may make the following information obtained from underwriting files and confidential claims files available to an entity that has obtained a permit to become an authorized insurer, a reinsurer that may provide reinsurance under s. 624.610, a licensed reinsurance broker, a licensed rating organization, a modeling company, or a licensed general lines insurance agent: name, address, and telephone number of the residential property owner or insured; location of the risk; rating information; loss history; and policy type. The receiving person must retain the confidentiality of the information received and may use the information only for the purposes of developing a take-out plan or a rating plan to be submitted to the office for approval or otherwise analyzing the underwriting of a risk or risks insured by the corporation on behalf of the private insurance market. A licensed general lines insurance agent may not use such information for the direct solicitation of policyholders.

3. A policyholder who has filed suit against the corporation has the right to discover the contents of his or her own claims file to the same extent that discovery of such contents would be available from a private insurer in litigation as provided by the Florida Rules of Civil Procedure, the Florida Evidence Code, and other applicable law. Pursuant to subpoena, a third party has the right to discover the contents of an insured’s or applicant’s underwriting or claims file to the same

extent that discovery of such contents would be available from a private insurer by subpoena as provided by the Florida Rules of Civil Procedure, the Florida Evidence Code, and other applicable law, and subject to any confidentiality protections requested by the corporation and agreed to by the seeking party or ordered by the court. The corporation may release confidential underwriting and claims file contents and information as it deems necessary and appropriate to underwrite or service insurance policies and claims, subject to any confidentiality protections deemed necessary and appropriate by the corporation.

4. Portions of meetings of the corporation are exempt from the provisions of s. 286.011 and s. 24(b), Art. I of the State Constitution wherein confidential underwriting files or confidential open claims files are discussed. All portions of corporation meetings which are closed to the public shall be recorded by a court reporter. The court reporter shall record the times of commencement and termination of the meeting, all discussion and proceedings, the names of all persons present at any time, and the names of all persons speaking. No portion of any closed meeting shall be off the record. Subject to the provisions hereof and s. 119.07(1)(d)-(f), the court reporter's notes of any closed meeting shall be retained by the corporation for a minimum of 5 years. A copy of the transcript, less any exempt matters, of any closed meeting wherein claims are discussed shall become public as to individual claims after settlement of the claim.

Section 3. Section 627.3517, Florida Statutes, is amended to read:

627.3517 Consumer choice.—No provision of s. 627.351, s.

627.3511, or s. 627.3515 shall be construed to impair the right of any insurance risk apportionment plan policyholder, upon receipt of any keep-out ~~keepout~~ or take-out offer, to retain his or her current agent, so long as that agent is duly licensed and appointed by the insurance risk apportionment plan or otherwise authorized to place business with the insurance risk apportionment plan. This right may ~~shall~~ not be canceled, suspended, impeded, abridged, or otherwise compromised by any rule, plan of operation, or depopulation plan, whether through keep-out ~~keepout~~, take-out, midterm assumption, or any other means, of any insurance risk apportionment plan or depopulation plan, including, but not limited to, those described in s. 627.351, s. 627.3511, or s. 627.3515. The commission shall adopt any rules necessary to cause any insurance risk apportionment plan or market assistance plan under such sections to demonstrate that the operations of the plan do not interfere with, promote, or allow interference with the rights created under this section. If the policyholder's current agent is unable or unwilling to be appointed with the insurer making the take-out or keep-out ~~keepout~~ offer, the policyholder is ~~shall~~ not ~~be~~ disqualified from participation in the appropriate insurance risk apportionment plan because of an offer of coverage in the voluntary market. An offer of full property insurance coverage by the insurer currently insuring either the ex-wind or wind-only coverage on the policy to which the offer applies is ~~shall~~ not ~~be~~ considered a take-out or keep-out ~~keepout~~ offer. Any rule, plan of operation, or plan of depopulation, through keep-out ~~keepout~~, take-out, midterm assumption, or any other means, of any property insurance risk

apportionment plan under s. 627.351(2) or (6) is subject to ss. 627.351(2)(b) and (6)(c) and 627.3511(4).

Section 4. Subsection (5) of section 627.3518, Florida Statutes, is amended, and paragraph (a) of subsection (6) and paragraph (a) of subsection (7) of that section are reenacted, to read:

627.3518 Citizens Property Insurance Corporation policyholder eligibility clearinghouse program.—The purpose of this section is to provide a framework for the corporation to implement a clearinghouse program by January 1, 2014.

(5) Notwithstanding s. 627.3517, any applicant for new coverage from the corporation is not eligible for coverage from the corporation if provided an offer of coverage from an authorized insurer through the program at a premium that is at or below the eligibility threshold established in s. 627.351(6)(c)5.a. Whenever an offer of coverage for a personal lines risk is received for a policyholder of the corporation at renewal from an authorized insurer through the program, if the offer is at or below the eligibility threshold established in s. 627.351(6)(c)5.a. ~~equal to or less than the corporation's renewal premium for comparable coverage~~, the risk is not eligible for coverage with the corporation. In the event an offer of coverage for a new applicant or a personal lines risk at renewal is received from an authorized insurer through the program, and the premium offered exceeds the eligibility thresholds specified ~~threshold contained~~ in s. 627.351(6)(c)5.a., the applicant or insured may elect to accept such coverage, or may elect to accept or continue coverage with the corporation. ~~In the event an offer of coverage for a~~

~~personal lines risk is received from an authorized insurer at renewal through the program, and the premium offered is more than the corporation's renewal premium for comparable coverage, the insured may elect to accept such coverage, or may elect to accept or continue coverage with the corporation.~~ Section 627.351(6)(c)5.a.(I) does not apply to an offer of coverage from an authorized insurer obtained through the program. An applicant for coverage from the corporation who was declared ineligible for coverage at renewal by the corporation in the previous 36 months due to an offer of coverage pursuant to this subsection shall be considered a renewal under this section if the corporation determines that the authorized insurer making the offer of coverage pursuant to this subsection continues to insure the applicant and increased the rate on the policy in excess of the increase allowed for the corporation under s. 627.351(6)(n)6.

(6) Independent insurance agents submitting new applications for coverage or that are the agent of record on a renewal policy submitted to the program:

(a) Are granted and must maintain ownership and the exclusive use of expirations, records, or other written or electronic information directly related to such applications or renewals written through the corporation or through an insurer participating in the program, notwithstanding s. 627.351(6)(c)5.a.(I)(B) and (II)(B). Such ownership is granted for as long as the insured remains with the agency or until sold or surrendered in writing by the agent. Contracts with the corporation or required by the corporation must not amend, modify, interfere with, or limit such rights of ownership. Such

expirations, records, or other written or electronic information may be used to review an application, issue a policy, or for any other purpose necessary for placing such business through the program.

Applicants ineligible for coverage in accordance with subsection (5) remain ineligible if their independent agent is unwilling or unable to enter into a standard or limited agency agreement with an insurer participating in the program.

(7) Exclusive agents submitting new applications for coverage or that are the agent of record on a renewal policy submitted to the program:

(a) Must maintain ownership and the exclusive use of expirations, records, or other written or electronic information directly related to such applications or renewals written through the corporation or through an insurer participating in the program, notwithstanding s. 627.351(6)(c)5.a.(I)(B) and (II)(B). Contracts with the corporation or required by the corporation must not amend, modify, interfere with, or limit such rights of ownership. Such expirations, records, or other written or electronic information may be used to review an application, issue a policy, or for any other purpose necessary for placing such business through the program.

Applicants ineligible for coverage in accordance with subsection (5) remain ineligible if their exclusive agent is unwilling or unable to enter into a standard or limited agency agreement with an insurer making an offer of coverage to that applicant.

Section 5. This act shall take effect January 1, 2022.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1574
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Agriculture, Environment, and General Government); Banking and Insurance Committee; and Senator Brandes
SUBJECT:	Citizens Property Insurance Corporation
DATE:	April 20, 2021 REVISED:

2.	Sanders	Betta	AEG	**Recommend: Fav/CS**
3.	Sanders	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1574 revises Citizens Property Insurance Corporation (Citizens or corporation) eligibility criteria, rates, assessment surcharges on Citizens' policyholders, depopulation programs, producing agent commissions, and confidentiality exceptions for underwriting and claim files.

The bill defines "primary residence" to mean the dwelling that the insured represented as their permanent home on the insurance application or otherwise to the corporation.

The bill limits application of the Citizens "glide path," which prevents rate increases of greater than 10 percent, by applying the glide path to only Citizens personal lines residential policies issued on or before January 1, 2022, on residential properties used as the primary residence with a dwelling replacement cost of less than $700,000 or single-unit condominiums with a dwelling and contents replacement cost of less than $700,000.

The bill provides that Citizens policyholders become ineligible for Citizens personal lines residential coverage upon receiving an offer from an authorized insurer for comparable coverage that is not 15 percent greater than the actuarially sound Citizens premium would be on the property. Under current law, Citizens policyholders remain eligible unless they receive an offer

of comparable coverage less than the current Citizens premium, which for many policyholders is subject to the glide path's 10 percent limit on annual rate increases.

The bill increases the maximum surcharge that may be levied on Citizens' policyholders if Citizens projects a deficit in one of its accounts to: 20 percent of premium if Citizens has one million policyholders but less than 1.5 million policyholders; and 25 percent of premium if Citizens has 1.5 million policyholders or more. The surcharge may be levied for each of Citizens' three accounts.

The bill authorizes surplus lines insurers to participate in Citizens' depopulation, take-out, and keep-out plans. The surplus lines insurer must: meet financial requirements; provide notice to the policyholder which outlines any coverage differences and explains surplus lines policies are not covered by the Florida Insurance Guaranty Association; and provide coverage similar to that provided by Citizens. A risk with a personal residential dwelling replacement cost or a single condominium unit with a combined dwelling and contents replacement cost that is less than $700,000, remains eligible for Citizens regardless of receipt of an offer of comparable coverage from a surplus lines insurer. If such risk has a replacement cost of $700,000 or more, however, the risk is ineligible for Citizens coverage upon receiving an offer of comparable coverage from a surplus lines insurer that is not greater than 15 percent more than the premium for Citizens coverage.

The bill also:

- Revises confidentiality exceptions for Citizens' underwriting and confidential claim files;
- Limits the commissions Citizens may pay to producing agents; and
- Makes technical changes to s. 627.3517, F.S., and reenacts and makes conforming changes to s. 627.3518, F.S.

The bill does not impact state revenue or expenditures.

The bill takes effect January 1, 2022.

II. Present Situation:

Citizens Property Insurance Corporation—Overview

Citizens Property Insurance Corporation (Citizens or corporation) is a state-created, not-for-profit, tax-exempt governmental entity whose public purpose is to provide property insurance coverage to those unable to find affordable coverage in the voluntary admitted market.[1] Citizens is not a private insurance company.[2] Citizens was statutorily created in 2002 when the Florida Legislature combined the state's two insurers of last resort, the Florida Residential Property and Casualty Joint Underwriting Association (RPCJUA) and the Florida Windstorm Underwriting Association (FWUA). Citizens operates in accordance with the provisions in s. 627.351(6), F.S., and is governed by an eight member Board of Governors that administers its Plan of Operations. The Plan of Operations is reviewed and approved by the Financial Services Commission.[3] The

[1] Admitted market means insurance companies licensed to transact insurance in Florida.
[2] Section 627.351(6)(a)1., F.S.
[3] Section 627.351(6)(a)2., F.S.

Governor, President of the Senate, Speaker of the House of Representatives, and Chief Financial Officer each appoints two members to the board.[4] Citizens is subject to regulation by the Florida Office of Insurance Regulation (OIR).

Citizens currently offers three policy types: Personal Lines Accounts, Commercial Lines Accounts and Coastal.

Citizens' Accounts

The Personal Lines Account (PLA) offers personal lines residential policies that provide comprehensive, multi-peril coverage statewide, except for those areas contained in the Coastal Account. The PLA also writes policies that exclude coverage for wind in areas contained within the Coastal Account. Personal lines residential coverage consists of the types of coverage provided to homeowners, mobile homeowners, dwellings, tenants, and condominium unit owner's policies.[5]

The Commercial Lines Account (CLA) offers commercial lines residential and non-residential policies that provide basic perils coverage statewide, except for those areas contained in the Coastal Account. The CLA also writes policies that exclude coverage for wind in areas contained within the Coastal Account. Commercial lines coverage includes commercial residential policies covering condominium associations, homeowners' associations, and apartment buildings. The coverage also includes commercial non-residential policies covering business properties.[6]

The Coastal Account offers personal residential, commercial residential, and commercial non-residential policies in coastal areas of the state. Citizens must offer policies that solely cover the peril of wind (wind only policies) and may offer multi-peril policies.[7]

The Citizens policyholder eligibility clearinghouse program was established by the Legislature in 2013.[8] Under the program, new and renewal policies for Citizens are placed into the clearinghouse where participating private insurers can review and decide to make offers of coverage before policies are placed or renewed with Citizens.[9]

Current Policies

As of February 28, 2021, Citizens reports 552,340 policies in-force with a total exposure of $150,498,489,611.[10] The below chart outlines Citizens account and product type, number of policies in-force, total exposure and premium with surcharges.

Source: Citizens Property Insurance[11]

These numbers do not reflect policies tagged for takeout via Citizens' Depopulation Program but still serviced by Citizens.[12] Citizens' policy count grew by more than 100,000 in 2020 with 2,000-3,000 new policies written each week. At this rate, Citizens estimates an additional 100,000 policies by year end 2021.[13]

Citizens Glide Path Rates

From 2007 until 2010, Citizens rates were frozen by statute at the level that had been established in 2006. In 2010, the Legislature established a "glide path" to impose annual rate increases up to a level that is actuarially sound. Citizens must implement an annual rate increase which, except for sinkhole coverage, does not exceed 10 percent above the previous year for any individual policyholder, adjusted for coverage changes and surcharges.[14] The implementation of this increase ceases when Citizens has achieved actuarially sound rates. In addition to the overall glide path rate increase, Citizens can increase its rates to recover the additional reimbursement premium that it incurs as a result of the annual cash build-up factor added to the price of the mandatory layer of the Florida Hurricane Catastrophe Fund coverage, pursuant to s. 215.555(5)(b), F.S.

Citizens Financial Resources

Citizens' financial resources include insurance premiums, investment income, and operating surplus from prior years, Florida Hurricane Catastrophe Fund (FHCF) reimbursements, private

[14] Section 627.351(6)(n)6., F.S.

reinsurance, policyholder surcharges, and regular and emergency assessments. Non-weather water losses, reinsurance costs and litigation are the major determinants of insurance rates.[15] In the event of a catastrophic storm or series of smaller storms, reserves could be exhausted, leaving Citizens unable to pay all claims.[16] Under Florida law, if the Citizens' Board of Directors determines that a Citizens' account has a projected deficit, Citizens is authorized to levy assessments[17] on its policyholders and on each line of property and casualty line of business other than workers' compensation insurance and medical malpractice insurance.[18] Citizens may impose three assessment tiers and their sequence is as follows:[19]

Citizens Policyholder Surcharge:

Requires up to 15 percent of premium surcharge for 12 months on all Citizens' policies, collected upon issuance or renewal. This 15 percent assessment can be levied for each of the three Citizens' accounts—the CLA, the PLA, and the Coastal Account— that project a deficit. Thus, the total maximum premium surcharge a policyholder could be assessed is 45 percent.[20]

Regular Assessment:

If the Citizens' surcharge is insufficient to cure the deficit for the coastal account, Citizens can require an assessment against all other insurers except medical malpractice and workers' compensation. The assessment may be recouped from policyholders through a rate filing process of up to two percent of premium or two percent of the deficit, whichever is greater.[21] This assessment is not levied against Citizens' policyholders.

Emergency Assessment:

Requires any remaining deficit for Citizens' three accounts be funded by multi-year emergency assessments on all insurance policyholders (except medical malpractice and workers' compensation), including Citizens' policyholders. This assessment may not exceed the greater of 10 percent of the amount needed to cover the deficit, plus interest, fees, commissions, required reserves, and other costs associated with financing the original deficit, or 10 percent of the aggregate statewide direct written premium for subject lines of business and all accounts of the

corporation for the prior year, plus interest, fees, commissions, required reserves, and other costs associated with financing the deficit.[22]

Eligibility for Insurance in Citizens

Current law requires Citizens to provide a procedure for determining the eligibility of a potential risk for insurance in Citizens and provides specific eligibility requirements based on premium amounts, value of the property insured, and the location of the property. Risks not meeting the statutory eligibility requirements cannot be insured by Citizens. Citizens has additional eligibility requirements set out in their underwriting rules. These rules are approved by the Office of Insurance Regulation (OIR) and are set out in Citizens' underwriting manuals.[23]

Eligibility Based on Premium Amount

An applicant for residential insurance cannot buy insurance in Citizens if an authorized insurer in the private market offers the applicant insurance for a premium that does not exceed the Citizens premium by 15 percent or more. [24] In addition, the coverage offered by the private insurer must be comparable to Citizens' coverage.

A residential policyholder cannot renew insurance in Citizens if an authorized insurer offers to insure the property at a premium equal to or less than the Citizens' renewal premium. The insurance from the private market insurer must be comparable to the insurance from Citizens in order for the renewal premium eligibility requirement to apply.[25]

Eligibility Based on Value of Property Insured

In addition to the eligibility restrictions based on premium amount, current law provides eligibility restrictions for homes and condominium units based on the value of the property insured.[26] Structures with a dwelling replacement cost of $700,000 or more, or a single condominium unit that has a combined dwelling and contents replacement cost of $700,000 or more, are not eligible for coverage with Citizens.[27] However, Citizens is allowed to insure structures with a dwelling replacement cost or a condominium unit with a dwelling and contents replacement cost of one million dollars or less in Miami-Dade and Monroe counties, after the OIR determined these counties to be non-competitive.[28]

Citizens Depopulation

Florida law requires Citizens to create programs to help return Citizens policies to the private market and reduce the risk of additional assessments for all Floridians.[29] In 2016, the Legislature passed requirements that Citizens, by January 1, 2017, amend its operations relating to takeout agreements.[30] As part of these updated requirements, codified under s. 627.351(6)(ii), F.S., a policy may not be taken out of Citizens unless Citizens:

- Publishes a periodic schedule of cycles during which an insurer may identify, and notify Citizens of, policies the insurer is requesting to take out;[31]
- Maintains and makes available to the agent of record a consolidated list of all insurers requesting to take-out a policy; such list must include a description of the coverage offered and the estimated premium for each take-out request; and
- Provides written notice to the policyholder and the agent of record regarding all insurers requesting to take-out the policy and regarding the policyholder's option to accept a take-out offer or to reject all take-out offers and to remain with the corporation. The notice must be in a format prescribed by the corporation and include, for each take-out offer:
  - The amount of the estimated premium;
  - A description of the coverage; and
  - A comparison of the estimated premium and coverage offered by the insurer to the estimated premium and coverage provided by the corporation.

Access to Public Records – Generally

The Florida Constitution provides the public has the right to inspect or copy records made or received in connection with official governmental business.[32] The right to inspect or copy applies to the official business of any public body, officer, or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[33]

Additional requirements and exemptions related to public records are found in various statutes and rules, depending on the branch of government involved. For instance, s. 11.0431, F.S., provides public access requirements for legislative records. Relevant exemptions are codified in ss. 11.0431(2)-(3), F.S., and the statutory provisions are adopted in the rules of each house of the legislature.[34] Florida Rule of Judicial Administration 2.420 governs public access to judicial

branch records.[35] Lastly, ch. 119, F.S., provides requirements for public records held by executive agencies.

Confidentiality of Citizens' Underwriting and Claims Files

Section 626.916(1)(x), F.S., establishes certain records of Citizens are confidential and exempt from the provisions of s. 119.07(1), F.S., and s. 24(a), Art. I of the State Constitution. Pursuant to sub-sub-paragraphs 1.a.-b. these exempt records include:

- Underwriting files, except that a policyholder or an applicant shall have access to his or her own underwriting files.
- Claims files, until termination of all litigation and settlement of all claims arising out of the same incident, although portions of the claims files may remain exempt, as otherwise provided by law.

Sub-sub-paragraphs 1.a.-b. also provide that such records may be released to other governmental agencies upon written request and demonstration of need. Records so released and held by the receiving agency would remain confidential and exempt.

III. Effect of Proposed Changes:

Section 1 revises s. 627.021, F.S., to revise the scope of the Rating Law under ch. 627, F.S., to state the chapter does apply to surplus lines coverage placed pursuant to the Surplus Lines Law under ss. 626.913-626.937, F.S., when "specifically stated to apply."

Section 2 defines "primary residence" to mean the dwelling that the insured has represented as their permanent home on the insurance application or otherwise to the corporation and makes a number of revisions to s. 627.351, F.S., regarding Citizens Property Insurance Corporation (Citizens or corporation).

Surcharge Levied on Citizens' Policyholders for Projected Account Deficits

The bill revises s. 627.351(6)(b)3.i.(I), F.S., to revise the 15 percent of premium surcharge cap for Citizens' policyholders when the Citizens' Board of Governors determines Citizens has a projected deficit. The 15 percent cap is replaced with an escalating cap for Citizens' policy holders, based upon the total number of Citizens' policyholders if:

- Citizens has less than one million policyholders, the premium surcharge cap is 15 percent per account.
- Citizens has at least one million policyholders, but less than 1.5 million policyholders, the premium surcharge cap is 20 percent per account.
- Citizens has at least 1.5 million or more policyholders, the premium surcharge cap is 25 percent per account.

As under current law, a surcharge may be levied for each of Citizens' three accounts. For example, under the bill, if Citizens has 1.2 million policies, a Citizens policyholder could be assessed a maximum policyholder surcharge of 60 percent of premium, consisting of a 20 percent surcharge for each of Citizens' three accounts.

[35] *State v. Wooten*, 260 So. 3d 1060 (Fla. 4th DCA 2018).

Revision to Eligibility for Coverage with Citizens Regarding Renewal Premiums

The bill revises s. 627.351(6)(c)5.a., F.S., to state a residential policyholder is ineligible to renew a policy with Citizens if such policyholder can obtain comparable coverage from an authorized insurer for less than, or equal to, 15 percent more than the actuarially sound Citizens' renewal premium would be for the risk. Under existing law, a policyholder would be ineligible only if an authorized insurer could offer comparable coverage for less than or equal to Citizens' premium, which for many policyholders is subject to the glide path's 10 percent limit on annual rate increases.

Limitations on Commissions

In proposed new s. 627.351(6)(c)22., F.S., the bill limits the commissions Citizens may pay to producing agents of record. The bill limits the commissions to no more than the average of commissions paid in the preceding year by the 20 insurers writing the greatest market share of property insurance in Florida.

Glide Path Eligibility

The bill revises s. 627.351(6)(n)6., F.S., to create new requirements to remain eligible for the 10 percent rate increase cap under Citizens' glide path provision. To continue to qualify for the glide path, the coverage, must:

- Be a personal residential property used as a primary residence;
- Be a policy initially issued before January 1, 2022; and
- Cover homestead personal residential property that has a dwelling replacement cost below $700,000, or, if a single condominium unit has a combined dwelling and contents replacement cost below $700,000.

These provisions take effect on or after January 1, 2022.

Surplus Lines Insurer Participation in Citizens' Depopulation, Take-out, and Keep-out Plans

The bill revises. 627.351(6)(q)3.d., F.S., to establish a new program where eligible surplus lines insurers may participate in any Citizens' depopulation, take-out, or keep-out plan in the same manner and terms as an authorized insurer. To be eligible for participation in a particular program, a surplus lines insurer must follow all Citizens' requirements relating to the plan that would be applicable to admitted insurers, follow statutory requirements applicable to the removal of policies from Citizens, and obtain approval from the OIR. In considering a surplus lines insurer's request for approval, the OIR must ensure that the insurer:

- Maintains surplus of $50 million on a company or pooled basis;
- Has a superior, excellent, exceptional, or equally comparable financial strength rating by a rating agency acceptable to the OIR;
- Maintains reserves, surplus, reinsurance, and reinsurance equivalents sufficient to cover its 100-year probable maximum hurricane loss at least twice in a single hurricane season;[36]

[36] The insurer also must submit such reinsurance to the OIR for review.

- Provides prominent notice to the policyholder that surplus lines policies are not provided coverage by the Florida Insurance Guaranty Association and outline any substantial policy differences between the existing Citizens' policy and the policy the insurer is offering; and
- Provides policy coverage similar to that provided by Citizens.

The surplus lines insurer also must file the following with the OIR:

- Information requested by the OIR to demonstrate compliance with s. 624.404(3), F.S., regarding basic qualifications to transact insurance in Florida;[37]
- A service-of-process consent and agreement form executed by the insurer;
- Proof that the insurer has been an eligible or authorized insurer for at least three years;
- A duly authenticated copy of the insurer's current audited financial statement;[38]
- A certified copy of the insurer's most recent official financial statement required by the insurer's domiciliary state (this is only required if the authenticated copy provided above differs from what the insurer provided to their domiciliary state); and
- A copy of the United States trust account agreement, if applicable.

Participation in these plans would not make a surplus line insurer subject to additional requirements under ch. 626, F.S., except that which is already required under part VIII. Policies taken out are not subject to the exporting requirements provided in s. 626.916(1)(a)-(c), and (e), F.S.

After assuming policies under these plans, a surplus lines insurer would be required to remit a special deposit equal to the unearned premium net of unearned commissions on the assumed block of business to the Bureau of Collateral Management within the Department of Financial Services (DFS). The insurer would also need to submit to the OIR an accounting of the policies assumed and the amount of unearned premium for such policies and a sworn affidavit attesting to its accuracy by an officer of the surplus lines insurer. Subsequently, each quarter, the surplus lines insurer must update the OIR with the unearned premium in force for the previous quarter on policies assumed from the corporation, and must submit additional funds with that filing if the special deposit is insufficient to cover the unearned premium on assumed policies. The purpose of the special deposit is to allow the DFS, in the event of liquidation of the surplus lines insurer, to pay unearned premium or policy claims, return all or part of the deposit to the domiciliary receiver, or use the funds in accordance with any action authorized under part I of ch. 631, F.S., or in compliance with any order of a court having jurisdiction over the insurer's insolvency.

A surplus lines broker representing a surplus lines insurer must obtain confirmation, in advance, from the producing agent that the agent is willing to participate in the take-out plan with the surplus lines insurer. Also, authorized insurers are to be given priority over surplus lines insurers if both select a particular policy for removal.

[37] This may include biographical affidavits, fingerprints processed pursuant to s. 624.34, F.S., and the results of criminal history records checks for officers and directors of the insurer and its parent or holding company.
[38] The statement must be in English, expressing all monetary values in United States dollars, at an exchange rate then current and shown in the statement, in the case of statements originally made in the currencies of other countries, and including any additional information relative to the insurer as the OIR may request.

The surplus lines insurer participation provision also states if a policyholder has a dwelling replacement cost of $700,000 or more or if a single condominium unit has a combined dwelling and contents replacement cost of $700,000 or more, the policyholder would no longer qualify for Citizens coverage should the premium offered by the surplus lines insurer is no greater than 15 percent higher than that offered by Citizens. This provision does not apply to policyholders with a dwelling replacement cost below $700,000 or a single condominium unit with a combined dwelling and contents replacement cost below $700,000. Such policyholders would maintain eligibility for coverage with Citizens.

Underwriting and Confidential Claim Files

The bill revises an existing public records exemption[39] under s. 626.916(1)(x)2., F.S., to allow authorized insurers, considering underwriting a risk held by Citizens, to access underwriting files and confidential claims files that would otherwise be exempt from public records requirements. The bill expands this exception to also include reinsurance intermediaries, eligible surplus lines insurers, or entities that have been created to seek authority to write property insurance in this state. The bill also revises activities that would allow such parties, including authorized insurers, to receive this information. In particular, relevant information from both the underwriting files and confidential claim files may be released to the parties seeking to underwrite or assist in underwriting a risk.

Section 3 of the bill makes technical changes to s. 627.3517, F.S.

Section 4 of the bill makes conforming changes to s. 627.3518(5) and reenacts s. 627.3518(6)-(7), F.S., to implement revisions made by **Section 2** of the bill above.

Section 5 specifies an effective date of January 1, 2022 for the bill.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

[39] Public records, unless expressly stated to be confidential and exempt, are subject to s. 119.07(1) and s. 24(a), Art. 1 of the State Constitution.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill revises surcharge limits Citizens Property Insurance Corporation (Citizens) may charge its policyholders when a Citizens' account shortfall is projected. In addition, the bill authorizes a new surcharge on Citizens' policyholders when a legal expense deficit exists. These additional authorized surcharges, may, depending on the necessity of assessing such surcharges, lead to additional insurance costs for Citizens' policyholders.

Provisions of the bill revising glide path eligibility may also lead to increased premiums, at least in the short term, for some Citizens' policyholders whose policies no longer qualify for the 10 percent rate increase cap. However, private market insurers seeking to write coverage on such policies will benefit from not having to compete on price with Citizens' coverage for which the glide path suppresses an actuarially sound rate.

The bill provides Citizens' policyholders become ineligible for Citizens' personal lines residential coverage upon receiving an offer from an authorized insurer for comparable coverage that is not 15 percent greater than the actuarially sound Citizens' premium would be on the property. This will result in ineligibility for some Citizens' policyholders as competitive market rates may be at a much higher rate than the customer currently pays under Citizens. For example, if a Citizens' premium subject to the glide path is $2,000 but the actuarially sound premium for that property is $2,500, the policyholder would be ineligible for Citizens coverage upon receiving an offer of coverage that is not more than 15 percent higher than the actuarially sound premium. In this example, the offered premium could not exceed $2,875, which represents a 43.75 percent premium increase.

Provisions of the bill allowing surplus lines insurers to participate in Citizens' depopulation, take-out, and keep-out plans will likely have some impact on the number of policies held by Citizens and may result in additional policies moving from Citizens into the private market. Allowing surplus lines insurers to participate in these plans may have an indeterminate negative impact on the number of such policies taken by authorized insurers due to increased competition.

C. Government Sector Impact:

The provisions of the bill relating to allowing surplus lines insurers to participate in Citizens' depopulation, take-out, and keep-out plans requires such insurers, if they take out policies from Citizens, to make specified deposits with the Bureau of Collateral

Management and to make regular filings with the Office of Insurance Regulation. This will likely lead to an indeterminate amount of additional regulatory cost for those government entities.

The bill's revisions to Citizens' eligibility criteria and ratemaking should result in further depopulation of policies, which will reduce the amount of risk insured by Citizens and the possibility of assessments. Citizens will collect an actuarially sound premium on all new business after July 1, 2021, which will benefit Citizens' financial status, and reduce the likelihood of deficits and associated surcharges and assessments.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 627.021 and 627.351.

This bill makes technical changes to section 627.3517 of the Florida Statutes.

This bill reenacts and makes conforming changes to section 627.3518 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The committee substitute:

- Defines "primary residence" to mean the "dwelling that the insured has represented as their permanent home on the insurance application or otherwise to the corporation."
- Removes language establishing a legal surcharge for new policies and subsequent renewals.
- Replaces the phrase "owner occupied" with the newly defined "primary residence" in regards to Citizens' policy eligibility and glide-path eligibility.

CS by Banking and Insurance on March 16, 2021:
The committee substitute revises a bill provision creating new requirements for an insurance policy to remain eligible for the 10 percent rate increase cap under Citizens Property Insurance Corporation's (Citizens) glide path provision. Under the original bill, to continue to qualify for the glide path, the policy must meet certain guidelines, including that it cover homestead personal residential property. The committee substitute

deletes the homestead provision and replaces it with the property needing to be owner-occupied and makes a conforming change in in the bill for this revised provision.

The committee substitute also revises a requirement in the original bill regarding qualifications for a surplus lines insurer to participate in a Citizens depopulation, take-out, or keep-out program. The requirement that the insurer maintain "a financial strength rating of A- or higher by A.M. Best Company" is replaced in the committee substitute with a more general requirement that the insurer "have a superior, exceptional, or comparable financial strength rating by a rating agency acceptable to" the Office of Insurance Regulation.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Banking and Insurance; and Senator Brandes

597-02917-21 20211574c1

A bill to be entitled

An act relating to Citizens Property Insurance Corporation; amending s. 627.021, F.S.; revising applicability; amending s. 627.351, F.S.; revising the method for determining the amounts of potential surcharges to be levied against policyholders under certain circumstances; requiring the corporation to levy an annual legal expenses surcharge; revising conditions for eligibility for coverage with the corporation to require a certain minimum premium; specifying a limit for agent commission rates; revising the application of annual rate increase limits to certain policies issued by the corporation; providing that eligible surplus lines insurers may participate, in the same manner and on the same terms as an authorized insurer, in depopulation, take-out, or keep-out programs relating to policies removed from Citizens Property Insurance Corporation; providing certain exceptions, conditions, and requirements relating to such participation by a surplus lines insurer in the corporation's depopulation, take-out, or keep-out programs; providing thresholds for eligibility for coverage by the corporation for risks offered coverage from qualified surplus lines insurers; authorizing information from underwriting files and confidential claims files to be released by the corporation to specified entities considering writing or underwriting risks insured by the corporation under certain circumstances; specifying

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

597-02917-21 20211574c1

that only the corporation's transfer of a policy file to an insurer, as opposed to the transfer of any file, changes the file's public record status; making technical changes; amending s. 627.3517, F.S.; making technical changes; amending s. 627.3518, F.S., and reenacting subsections (6) and (7), relating to the Citizens Property Insurance Corporation policyholder eligibility clearinghouse program, to incorporate the amendments made to s. 627.351, F.S., in references thereto; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 627.021, Florida Statutes, is amended to read:

627.021 Scope of this part.—

(2) This part does not apply to:

(a) Reinsurance, except joint reinsurance as provided in s. 627.311.

(b) Insurance against loss of or damage to aircraft, their hulls, accessories, or equipment, or against liability, other than workers' compensation and employer's liability, arising out of the ownership, maintenance, or use of aircraft.

(c) Insurance of vessels or craft, their cargoes, marine builders' risks, marine protection and indemnity, or other risks commonly insured under marine insurance policies.

(d) Commercial inland marine insurance.

(e) Except as may be specifically stated to apply, surplus

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

lines insurance placed under ~~the provisions of~~ ss. 626.913-626.937.

Section 2. Paragraphs (b), (c), (n), (q), and (x) of subsection (6) of section 627.351, Florida Statutes, are amended to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(b)1. All insurers authorized to write one or more subject lines of business in this state are subject to assessment by the corporation and, for the purposes of this subsection, are referred to collectively as "assessable insurers." Insurers writing one or more subject lines of business in this state pursuant to part VIII of chapter 626 are not assessable insurers; however, insureds who procure one or more subject lines of business in this state pursuant to part VIII of chapter 626 are subject to assessment by the corporation and are referred to collectively as "assessable insureds." An insurer's assessment liability begins on the first day of the calendar year following the year in which the insurer was issued a certificate of authority to transact insurance for subject lines of business in this state and terminates 1 year after the end of the first calendar year during which the insurer no longer holds a certificate of authority to transact insurance for subject lines of business in this state.

2.a. All revenues, assets, liabilities, losses, and expenses of the corporation shall be divided into three separate accounts as follows:

(I) A personal lines account for personal residential policies issued by the corporation which provides comprehensive,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

multiperil coverage on risks that are not located in areas eligible for coverage by the Florida Windstorm Underwriting Association as those areas were defined on January 1, 2002, and for policies that do not provide coverage for the peril of wind on risks that are located in such areas;

(II) A commercial lines account for commercial residential and commercial nonresidential policies issued by the corporation which provides coverage for basic property perils on risks that are not located in areas eligible for coverage by the Florida Windstorm Underwriting Association as those areas were defined on January 1, 2002, and for policies that do not provide coverage for the peril of wind on risks that are located in such areas; and

(III) A coastal account for personal residential policies and commercial residential and commercial nonresidential property policies issued by the corporation which provides coverage for the peril of wind on risks that are located in areas eligible for coverage by the Florida Windstorm Underwriting Association as those areas were defined on January 1, 2002. The corporation may offer policies that provide multiperil coverage and shall offer policies that provide coverage only for the peril of wind for risks located in areas eligible for coverage in the coastal account. Effective July 1, 2014, the corporation shall cease offering new commercial residential policies providing multiperil coverage and shall instead continue to offer commercial residential wind-only policies, and may offer commercial residential policies excluding wind. The corporation may, however, continue to renew a commercial residential multiperil policy on a building that is

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

insured by the corporation on June 30, 2014, under a multiperil policy. In issuing multiperil coverage, the corporation may use its approved policy forms and rates for the personal lines account. An applicant or insured who is eligible to purchase a multiperil policy from the corporation may purchase a multiperil policy from an authorized insurer without prejudice to the applicant's or insured's eligibility to prospectively purchase a policy that provides coverage only for the peril of wind from the corporation. An applicant or insured who is eligible for a corporation policy that provides coverage only for the peril of wind may elect to purchase or retain such policy and also purchase or retain coverage excluding wind from an authorized insurer without prejudice to the applicant's or insured's eligibility to prospectively purchase a policy that provides multiperil coverage from the corporation. It is the goal of the Legislature that there be an overall average savings of 10 percent or more for a policyholder who currently has a wind-only policy with the corporation, and an ex-wind policy with a voluntary insurer or the corporation, and who obtains a multiperil policy from the corporation. It is the intent of the Legislature that the offer of multiperil coverage in the coastal account be made and implemented in a manner that does not adversely affect the tax-exempt status of the corporation or creditworthiness of or security for currently outstanding financing obligations or credit facilities of the coastal account, the personal lines account, or the commercial lines account. The coastal account must also include quota share primary insurance under subparagraph (c)2. The area eligible for coverage under the coastal account also includes the area within

Port Canaveral~~,~~ which is bordered on the south by the City of Cape Canaveral, bordered on the west by the Banana River, and bordered on the north by Federal Government property.

b. The three separate accounts must be maintained as long as financing obligations entered into by the Florida Windstorm Underwriting Association or Residential Property and Casualty Joint Underwriting Association are outstanding, in accordance with the terms of the corresponding financing documents. If the financing obligations are no longer outstanding, the corporation may use a single account for all revenues, assets, liabilities, losses, and expenses of the corporation. Consistent with this subparagraph and prudent investment policies that minimize the cost of carrying debt, the board shall exercise its best efforts to retire existing debt or obtain the approval of necessary parties to amend the terms of existing debt, so as to structure the most efficient plan for consolidating the three separate accounts into a single account.

c. Creditors of the Residential Property and Casualty Joint Underwriting Association and the accounts specified in sub-sub-subparagraphs a.(I) and (II) may have a claim against, and recourse to, those accounts and no claim against, or recourse to, the account referred to in sub-sub-subparagraph a.(III). Creditors of the Florida Windstorm Underwriting Association have a claim against, and recourse to, the account referred to in sub-sub-subparagraph a.(III) and no claim against, or recourse to, the accounts referred to in sub-sub-subparagraphs a.(I) and (II).

d. Revenues, assets, liabilities, losses, and expenses not attributable to particular accounts shall be prorated among the

accounts.

e. The Legislature finds that the revenues of the corporation are revenues that are necessary to meet the requirements set forth in documents authorizing the issuance of bonds under this subsection.

f. The income of the corporation may not inure to the benefit of any private person.

3. With respect to a deficit in an account:

a. After accounting for the Citizens policyholder surcharge imposed under sub-subparagraph i., if the remaining projected deficit incurred in the coastal account in a particular calendar year:

(I) Is not greater than 2 percent of the aggregate statewide direct written premium for the subject lines of business for the prior calendar year, the entire deficit shall be recovered through regular assessments of assessable insurers under paragraph (q) and assessable insureds.

(II) Exceeds 2 percent of the aggregate statewide direct written premium for the subject lines of business for the prior calendar year, the corporation shall levy regular assessments on assessable insurers under paragraph (q) and on assessable insureds in an amount equal to the greater of 2 percent of the projected deficit or 2 percent of the aggregate statewide direct written premium for the subject lines of business for the prior calendar year. Any remaining projected deficit shall be recovered through emergency assessments under sub-subparagraph d.

b. Each assessable insurer's share of the amount being assessed under sub-subparagraph a. must be in the proportion

that the assessable insurer's direct written premium for the subject lines of business for the year preceding the assessment bears to the aggregate statewide direct written premium for the subject lines of business for that year. The assessment percentage applicable to each assessable insured is the ratio of the amount being assessed under sub-subparagraph a. to the aggregate statewide direct written premium for the subject lines of business for the prior year. Assessments levied by the corporation on assessable insurers under sub-subparagraph a. must be paid as required by the corporation's plan of operation and paragraph (q). Assessments levied by the corporation on assessable insureds under sub-subparagraph a. shall be collected by the surplus lines agent at the time the surplus lines agent collects the surplus lines tax required by s. 626.932, and paid to the Florida Surplus Lines Service Office at the time the surplus lines agent pays the surplus lines tax to that office. Upon receipt of regular assessments from surplus lines agents, the Florida Surplus Lines Service Office shall transfer the assessments directly to the corporation as determined by the corporation.

c. After accounting for the Citizens policyholder surcharge imposed under sub-subparagraph i., the remaining projected deficits in the personal lines account and in the commercial lines account in a particular calendar year shall be recovered through emergency assessments under sub-subparagraph d.

d. Upon a determination by the board of governors that a projected deficit in an account exceeds the amount that is expected to be recovered through regular assessments under sub-subparagraph a., plus the amount that is expected to be

recovered through surcharges under sub-subparagraph i., the board, after verification by the office, shall levy emergency assessments for as many years as necessary to cover the deficits, to be collected by assessable insurers and the corporation and collected from assessable insureds upon issuance or renewal of policies for subject lines of business, excluding National Flood Insurance policies. The amount collected in a particular year must be a uniform percentage of that year's direct written premium for subject lines of business and all accounts of the corporation, excluding National Flood Insurance Program policy premiums, as annually determined by the board and verified by the office. The office shall verify the arithmetic calculations involved in the board's determination within 30 days after receipt of the information on which the determination was based. The office shall notify assessable insurers and the Florida Surplus Lines Service Office of the date on which assessable insurers shall begin to collect and assessable insureds shall begin to pay such assessment. The date must be at least 90 days after the date the corporation levies emergency assessments pursuant to this sub-subparagraph. Notwithstanding any other provision of law, the corporation and each assessable insurer that writes subject lines of business shall collect emergency assessments from its policyholders without such obligation being affected by any credit, limitation, exemption, or deferment. Emergency assessments levied by the corporation on assessable insureds shall be collected by the surplus lines agent at the time the surplus lines agent collects the surplus lines tax required by s. 626.932 and paid to the Florida Surplus Lines Service Office at the time the surplus lines agent pays

the surplus lines tax to that office. The emergency assessments collected shall be transferred directly to the corporation on a periodic basis as determined by the corporation and held by the corporation solely in the applicable account. The aggregate amount of emergency assessments levied for an account in any calendar year may be less than but may not exceed the greater of 10 percent of the amount needed to cover the deficit, plus interest, fees, commissions, required reserves, and other costs associated with financing the original deficit, or 10 percent of the aggregate statewide direct written premium for subject lines of business and all accounts of the corporation for the prior year, plus interest, fees, commissions, required reserves, and other costs associated with financing the deficit.

e. The corporation may pledge the proceeds of assessments, projected recoveries from the Florida Hurricane Catastrophe Fund, other insurance and reinsurance recoverables, policyholder surcharges and other surcharges, and other funds available to the corporation as the source of revenue for and to secure bonds issued under paragraph (q), bonds or other indebtedness issued under subparagraph (c)3., or lines of credit or other financing mechanisms issued or created under this subsection, or to retire any other debt incurred as a result of deficits or events giving rise to deficits, or in any other way that the board determines will efficiently recover such deficits. The purpose of the lines of credit or other financing mechanisms is to provide additional resources to assist the corporation in covering claims and expenses attributable to a catastrophe. As used in this subsection, the term "assessments" includes regular assessments under sub-subparagraph a. or subparagraph (q)1. and emergency

assessments under sub-subparagraph d. Emergency assessments collected under sub-subparagraph d. are not part of an insurer's rates, are not premium, and are not subject to premium tax, fees, or commissions; however, failure to pay the emergency assessment shall be treated as failure to pay premium. The emergency assessments shall continue as long as any bonds issued or other indebtedness incurred with respect to a deficit for which the assessment was imposed remain outstanding, unless adequate provision has been made for the payment of such bonds or other indebtedness pursuant to the documents governing such bonds or indebtedness.

f. As used in this subsection for purposes of any deficit incurred on or after January 25, 2007, the term "subject lines of business" means insurance written by assessable insurers or procured by assessable insureds for all property and casualty lines of business in this state, but not including workers' compensation or medical malpractice. As used in this sub-subparagraph, the term "property and casualty lines of business" includes all lines of business identified on Form 2, Exhibit of Premiums and Losses, in the annual statement required of authorized insurers under s. 624.424 and any rule adopted under this section, except for those lines identified as accident and health insurance and except for policies written under the National Flood Insurance Program or the Federal Crop Insurance Program. For purposes of this sub-subparagraph, the term "workers' compensation" includes both workers' compensation insurance and excess workers' compensation insurance.

g. The Florida Surplus Lines Service Office shall determine annually the aggregate statewide written premium in subject

lines of business procured by assessable insureds and report that information to the corporation in a form and at a time the corporation specifies to ensure that the corporation can meet the requirements of this subsection and the corporation's financing obligations.

h. The Florida Surplus Lines Service Office shall verify the proper application by surplus lines agents of assessment percentages for regular assessments and emergency assessments levied under this subparagraph on assessable insureds and assist the corporation in ensuring the accurate, timely collection and payment of assessments by surplus lines agents as required by the corporation.

i. Upon determination by the board of governors that an account has a projected deficit, the board shall levy a Citizens policyholder surcharge against all policyholders of the corporation.

(I) The surcharge shall be levied as a uniform percentage of the premium for the policy ~~of up to 15 percent of such premium~~, which funds shall be used to offset the deficit, as follows:

(A) If the total number of policyholders of the corporation is less than 1 million, a surcharge of 15 percent of the premium shall be levied.

(B) If the total number of policyholders of the corporation is at least 1 million but less than 1.5 million policyholders, a surcharge of 20 percent of the premium shall be levied.

(C) If the total number of policyholders of the corporation is at least 1.5 million, a surcharge of 25 percent of the premium shall be levied.

(II) The surcharge is payable upon cancellation or termination of the policy, upon renewal of the policy, or upon issuance of a new policy by the corporation within the first 12 months after the date of the levy or the period of time necessary to fully collect the surcharge amount.

(III) The corporation may not levy any regular assessments under paragraph (q) pursuant to sub-subparagraph a. or sub-subparagraph b. with respect to a particular year's deficit until the corporation has first levied the full amount of the surcharge authorized by this sub-subparagraph.

(IV) The surcharge is not considered premium and is not subject to commissions, fees, or premium taxes. However, failure to pay the surcharge shall be treated as failure to pay premium.

j. If the amount of any assessments or surcharges collected from corporation policyholders, assessable insurers or their policyholders, or assessable insureds exceeds the amount of the deficits, such excess amounts shall be remitted to and retained by the corporation in a reserve to be used by the corporation, as determined by the board of governors and approved by the office, to pay claims or reduce any past, present, or future plan-year deficits or to reduce outstanding debt.

4. After accounting for the rate limitations specified in subparagraph (n)6., any remaining deficit in legal expenses must be recovered through an annual Citizens policyholder legal expenses surcharge against all policyholders of the corporation. The surcharge must be levied as a uniform percentage of the premium for the policy. The surcharge is payable upon issuance of a new policy by the corporation and upon each subsequent renewal of the policy. The surcharge is not considered premium

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

and is not subject to commissions, fees, or premium taxes. However, failure to pay the surcharge must be treated as failure to pay premium.

(c) The corporation's plan of operation:

1. Must provide for adoption of residential property and casualty insurance policy forms and commercial residential and nonresidential property insurance forms, which must be approved by the office before use. The corporation shall adopt the following policy forms:

a. Standard personal lines policy forms that are comprehensive multiperil policies providing full coverage of a residential property equivalent to the coverage provided in the private insurance market under an HO-3, HO-4, or HO-6 policy.

b. Basic personal lines policy forms that are policies similar to an HO-8 policy or a dwelling fire policy that provide coverage meeting the requirements of the secondary mortgage market, but which is more limited than the coverage under a standard policy.

c. Commercial lines residential and nonresidential policy forms that are generally similar to the basic perils of full coverage obtainable for commercial residential structures and commercial nonresidential structures in the admitted voluntary market.

d. Personal lines and commercial lines residential property insurance forms that cover the peril of wind only. The forms are applicable only to residential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

e. Commercial lines nonresidential property insurance forms

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

that cover the peril of wind only. The forms are applicable only to nonresidential properties located in areas eligible for coverage under the coastal account referred to in sub-subparagraph (b)2.a.

f. The corporation may adopt variations of the policy forms listed in sub-subparagraphs a.-e. which contain more restrictive coverage.

g. Effective January 1, 2013, the corporation shall offer a basic personal lines policy similar to an HO-8 policy with dwelling repair based on common construction materials and methods.

2. Must provide that the corporation adopt a program in which the corporation and authorized insurers enter into quota share primary insurance agreements for hurricane coverage, as defined in s. 627.4025(2)(a), for eligible risks, and adopt property insurance forms for eligible risks which cover the peril of wind only.

a. As used in this subsection, the term:

(I) "Quota share primary insurance" means an arrangement in which the primary hurricane coverage of an eligible risk is provided in specified percentages by the corporation and an authorized insurer. The corporation and authorized insurer are each solely responsible for a specified percentage of hurricane coverage of an eligible risk as set forth in a quota share primary insurance agreement between the corporation and an authorized insurer and the insurance contract. The responsibility of the corporation or authorized insurer to pay its specified percentage of hurricane losses of an eligible risk, as set forth in the agreement, may not be altered by the

inability of the other party to pay its specified percentage of losses. Eligible risks that are provided hurricane coverage through a quota share primary insurance arrangement must be provided policy forms that set forth the obligations of the corporation and authorized insurer under the arrangement, clearly specify the percentages of quota share primary insurance provided by the corporation and authorized insurer, and conspicuously and clearly state that the authorized insurer and the corporation may not be held responsible beyond their specified percentage of coverage of hurricane losses.

(II) "Eligible risks" means personal lines residential and commercial lines residential risks that meet the underwriting criteria of the corporation and are located in areas that were eligible for coverage by the Florida Windstorm Underwriting Association on January 1, 2002.

b. The corporation may enter into quota share primary insurance agreements with authorized insurers at corporation coverage levels of 90 percent and 50 percent.

c. If the corporation determines that additional coverage levels are necessary to maximize participation in quota share primary insurance agreements by authorized insurers, the corporation may establish additional coverage levels. However, the corporation's quota share primary insurance coverage level may not exceed 90 percent.

d. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation must provide for a uniform specified percentage of coverage of hurricane losses, by county or territory as set forth by the corporation board, for all eligible risks of the authorized insurer covered

under the agreement.

e. Any quota share primary insurance agreement entered into between an authorized insurer and the corporation is subject to review and approval by the office. However, such agreement shall be authorized only as to insurance contracts entered into between an authorized insurer and an insured who is already insured by the corporation for wind coverage.

f. For all eligible risks covered under quota share primary insurance agreements, the exposure and coverage levels for both the corporation and authorized insurers shall be reported by the corporation to the Florida Hurricane Catastrophe Fund. For all policies of eligible risks covered under such agreements, the corporation and the authorized insurer must maintain complete and accurate records for the purpose of exposure and loss reimbursement audits as required by fund rules. The corporation and the authorized insurer shall each maintain duplicate copies of policy declaration pages and supporting claims documents.

g. The corporation board shall establish in its plan of operation standards for quota share agreements which ensure that there is no discriminatory application among insurers as to the terms of the agreements, pricing of the agreements, incentive provisions if any, and consideration paid for servicing policies or adjusting claims.

h. The quota share primary insurance agreement between the corporation and an authorized insurer must set forth the specific terms under which coverage is provided, including, but not limited to, the sale and servicing of policies issued under the agreement by the insurance agent of the authorized insurer producing the business, the reporting of information concerning

eligible risks, the payment of premium to the corporation, and arrangements for the adjustment and payment of hurricane claims incurred on eligible risks by the claims adjuster and personnel of the authorized insurer. Entering into a quota sharing insurance agreement between the corporation and an authorized insurer is voluntary and at the discretion of the authorized insurer.

3. May provide that the corporation may employ or otherwise contract with individuals or other entities to provide administrative or professional services that may be appropriate to effectuate the plan. The corporation may borrow funds by issuing bonds or by incurring other indebtedness, and shall have other powers reasonably necessary to effectuate the requirements of this subsection, including, without limitation, the power to issue bonds and incur other indebtedness in order to refinance outstanding bonds or other indebtedness. The corporation may seek judicial validation of its bonds or other indebtedness under chapter 75. The corporation may issue bonds or incur other indebtedness, or have bonds issued on its behalf by a unit of local government pursuant to subparagraph (q)2. in the absence of a hurricane or other weather-related event, upon a determination by the corporation, subject to approval by the office, that such action would enable it to efficiently meet the financial obligations of the corporation and that such financings are reasonably necessary to effectuate the requirements of this subsection. The corporation may take all actions needed to facilitate tax-free status for such bonds or indebtedness, including formation of trusts or other affiliated entities. The corporation may pledge assessments, projected

recoveries from the Florida Hurricane Catastrophe Fund, other reinsurance recoverables, policyholder surcharges and other surcharges, and other funds available to the corporation as security for bonds or other indebtedness. In recognition of s. 10, Art. I of the State Constitution, prohibiting the impairment of obligations of contracts, it is the intent of the Legislature that no action be taken whose purpose is to impair any bond indenture or financing agreement or any revenue source committed by contract to such bond or other indebtedness.

4. Must require that the corporation operate subject to the supervision and approval of a board of governors consisting of nine individuals who are residents of this state and who are from different geographical areas of this ~~the~~ state, one of whom is appointed by the Governor and serves solely to advocate on behalf of the consumer. The appointment of a consumer representative by the Governor is deemed to be within the scope of the exemption provided in s. 112.313(7)(b) and is in addition to the appointments authorized under sub-subparagraph a.

a. The Governor, the Chief Financial Officer, the President of the Senate, and the Speaker of the House of Representatives shall each appoint two members of the board. At least one of the two members appointed by each appointing officer must have demonstrated expertise in insurance and be deemed to be within the scope of the exemption provided in s. 112.313(7)(b). The Chief Financial Officer shall designate one of the appointees as chair. All board members serve at the pleasure of the appointing officer. All members of the board are subject to removal at will by the officers who appointed them. All board members, including the chair, must be appointed to serve for 3-year terms beginning

annually on a date designated by the plan. However, for the first term beginning on or after July 1, 2009, each appointing officer shall appoint one member of the board for a 2-year term and one member for a 3-year term. A board vacancy shall be filled for the unexpired term by the appointing officer. The Chief Financial Officer shall appoint a technical advisory group to provide information and advice to the board in connection with the board's duties under this subsection. The executive director and senior managers of the corporation shall be engaged by the board and serve at the pleasure of the board. Any executive director appointed on or after July 1, 2006, is subject to confirmation by the Senate. The executive director is responsible for employing other staff as the corporation may require, subject to review and concurrence by the board.

b. The board shall create a Market Accountability Advisory Committee to assist the corporation in developing awareness of its rates and its customer and agent service levels in relationship to the voluntary market insurers writing similar coverage.

(I) The members of the advisory committee consist of the following 11 persons, one of whom must be elected chair by the members of the committee: four representatives, one appointed by the Florida Association of Insurance Agents, one by the Florida Association of Insurance and Financial Advisors, one by the Professional Insurance Agents of Florida, and one by the Latin American Association of Insurance Agencies; three representatives appointed by the insurers with the three highest voluntary market share of residential property insurance business in this ~~the~~ state; one representative from the Office

of Insurance Regulation; one consumer appointed by the board who is insured by the corporation at the time of appointment to the committee; one representative appointed by the Florida Association of Realtors; and one representative appointed by the Florida Bankers Association. All members shall be appointed to 3-year terms and may serve for consecutive terms.

(II) The committee shall report to the corporation at each board meeting on insurance market issues that ~~which~~ may include rates and rate competition with the voluntary market; service, including policy issuance, claims processing, and general responsiveness to policyholders, applicants, and agents; and matters relating to depopulation.

5. Must provide a procedure for determining the eligibility of a risk for coverage, as follows:

a. Subject to s. 627.3517, with respect to personal lines residential risks, if the risk is offered coverage from an authorized insurer at the insurer's approved rate under a standard policy including wind coverage or, if consistent with the insurer's underwriting rules as filed with the office, a basic policy including wind coverage, for a new application to the corporation for coverage, the risk is not eligible for any policy issued by the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from the corporation. Whenever an offer of coverage for a personal lines residential risk is received for a policyholder of the corporation ~~at renewal~~ from an authorized insurer, ~~if the offer is equal to or less than the corporation's renewal premium for comparable coverage,~~ the risk is not eligible for coverage with the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

corporation unless the premium for comparable coverage from the authorized insurer is more than 15 percent greater than the premium under subparagraph (n)1. for personal residential properties that are not owner-occupied. If the risk is not able to obtain such offer, the risk is eligible for a standard policy including wind coverage or a basic policy including wind coverage issued by the corporation; however, if the risk could not be insured under a standard policy including wind coverage regardless of market conditions, the risk is eligible for a basic policy including wind coverage unless rejected under subparagraph 8. However, a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the end of the assumption period. The corporation shall determine the type of policy to be provided on the basis of objective standards specified in the underwriting manual and based on generally accepted underwriting practices.

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation other than a plan established by s. 627.3518, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or to the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

b. With respect to commercial lines residential risks, for a new application to the corporation for coverage, if the risk

is offered coverage under a policy including wind coverage from an authorized insurer at its approved rate, the risk is not eligible for a policy issued by the corporation unless the premium for coverage from the authorized insurer is more than 15 percent greater than the premium for comparable coverage from the corporation. Whenever an offer of coverage for a commercial lines residential risk is received for a policyholder of the corporation at renewal from an authorized insurer, if the offer is equal to or less than the corporation's renewal premium for comparable coverage, the risk is not eligible for coverage with the corporation. If the risk is not able to obtain any such offer, the risk is eligible for a policy including wind coverage issued by the corporation. However, a policyholder removed from the corporation through an assumption agreement remains eligible for coverage from the corporation until the end of the assumption period.

(I) If the risk accepts an offer of coverage through the market assistance plan or through a mechanism established by the corporation other than a plan established by s. 627.3518, before a policy is issued to the risk by the corporation or during the first 30 days of coverage by the corporation, and the producing agent who submitted the application to the plan or the corporation is not currently appointed by the insurer, the insurer shall:

(A) Pay to the producing agent of record of the policy, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record of the policy to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

(II) If the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on the policy, and the insurer shall:

(A) Pay to the producing agent of record, for the first year, an amount that is the greater of the insurer's usual and customary commission for the type of policy written or a fee equal to the usual and customary commission of the corporation; or

(B) Offer to allow the producing agent of record to continue servicing the policy for at least 1 year and offer to pay the agent the greater of the insurer's or the corporation's usual and customary commission for the type of policy written.

If the producing agent is unwilling or unable to accept appointment, the new insurer shall pay the agent in accordance with sub-sub-sub-subparagraph (A).

c. For purposes of determining comparable coverage under sub-subparagraphs a. and b., the comparison must be based on those forms and coverages that are reasonably comparable. The

corporation may rely on a determination of comparable coverage and premium made by the producing agent who submits the application to the corporation, made in the agent's capacity as the corporation's agent. A comparison may be made solely of the premium with respect to the main building or structure only on the following basis: the same coverage A or other building limits; the same percentage hurricane deductible that applies on an annual basis or that applies to each hurricane for commercial residential property; the same percentage of ordinance and law coverage, if the same limit is offered by both the corporation and the authorized insurer; the same mitigation credits, to the extent the same types of credits are offered both by the corporation and the authorized insurer; the same method for loss payment, such as replacement cost or actual cash value, if the same method is offered both by the corporation and the authorized insurer in accordance with underwriting rules; and any other form or coverage that is reasonably comparable as determined by the board. If an application is submitted to the corporation for wind-only coverage in the coastal account, the premium for the corporation's wind-only policy plus the premium for the ex-wind policy that is offered by an authorized insurer to the applicant must be compared to the premium for multiperil coverage offered by an authorized insurer, subject to the standards for comparison specified in this subparagraph. If the corporation or the applicant requests from the authorized insurer a breakdown of the premium of the offer by types of coverage so that a comparison may be made by the corporation or its agent and the authorized insurer refuses or is unable to provide such information, the corporation may treat the offer as

not being an offer of coverage from an authorized insurer at the insurer's approved rate.

6. Must include rules for classifications of risks and rates.

7. Must provide that if premium and investment income for an account attributable to a particular calendar year are in excess of projected losses and expenses for the account attributable to that year, such excess shall be held in surplus in the account. Such surplus must be available to defray deficits in that account as to future years and used for that purpose before assessing assessable insurers and assessable insureds as to any calendar year.

8. Must provide objective criteria and procedures to be uniformly applied to all applicants in determining whether an individual risk is so hazardous as to be uninsurable. In making this determination and in establishing the criteria and procedures, the following must be considered:

a. Whether the likelihood of a loss for the individual risk is substantially higher than for other risks of the same class; and

b. Whether the uncertainty associated with the individual risk is such that an appropriate premium cannot be determined.

The acceptance or rejection of a risk by the corporation shall be construed as the private placement of insurance, and ~~the provisions of~~ chapter 120 does ~~do~~ not apply.

9. Must provide that the corporation make its best efforts to procure catastrophe reinsurance at reasonable rates, to cover its projected 100-year probable maximum loss as determined by

the board of governors.

10. The policies issued by the corporation must provide that if the corporation or the market assistance plan obtains an offer from an authorized insurer to cover the risk at its approved rates, the risk is no longer eligible for renewal through the corporation, except as otherwise provided in this subsection.

11. Corporation policies and applications must include a notice that the corporation policy could, under this section, be replaced with a policy issued by an authorized insurer which does not provide coverage identical to the coverage provided by the corporation. The notice must also specify that acceptance of corporation coverage creates a conclusive presumption that the applicant or policyholder is aware of this potential.

12. May establish, subject to approval by the office, different eligibility requirements and operational procedures for any line or type of coverage for any specified county or area if the board determines that such changes are justified due to the voluntary market being sufficiently stable and competitive in such area or for such line or type of coverage and that consumers who, in good faith, are unable to obtain insurance through the voluntary market through ordinary methods continue to have access to coverage from the corporation. If coverage is sought in connection with a real property transfer, the requirements and procedures may not provide an effective date of coverage later than the date of the closing of the transfer as established by the transferor, the transferee, and, if applicable, the lender.

13. Must provide that, with respect to the coastal account,

any assessable insurer with a surplus as to policyholders of $25 million or less writing 25 percent or more of its total countrywide property insurance premiums in this state may petition the office, within the first 90 days of each calendar year, to qualify as a limited apportionment company. A regular assessment levied by the corporation on a limited apportionment company for a deficit incurred by the corporation for the coastal account may be paid to the corporation on a monthly basis as the assessments are collected by the limited apportionment company from its insureds, but a limited apportionment company must begin collecting the regular assessments not later than 90 days after the regular assessments are levied by the corporation, and the regular assessments must be paid in full within 15 months after being levied by the corporation. A limited apportionment company shall collect from its policyholders any emergency assessment imposed under sub-subparagraph (b)3.d. The plan must provide that, if the office determines that any regular assessment will result in an impairment of the surplus of a limited apportionment company, the office may direct that all or part of such assessment be deferred as provided in subparagraph (q)4. However, an emergency assessment to be collected from policyholders under sub-subparagraph (b)3.d. may not be limited or deferred.

14. Must provide that the corporation appoint as its licensed agents only those agents who throughout such appointments also hold an appointment as defined in s. 626.015 by an insurer who is authorized to write and is actually writing or renewing personal lines residential property coverage, commercial residential property coverage, or commercial

nonresidential property coverage within this ~~the~~ state.

15. Must provide a premium payment plan option to its policyholders which, at a minimum, allows for quarterly and semiannual payment of premiums. A monthly payment plan may, but is not required to, be offered.

16. Must limit coverage on mobile homes or manufactured homes built before 1994 to actual cash value of the dwelling rather than replacement costs of the dwelling.

17. Must provide coverage for manufactured or mobile home dwellings. Such coverage must also include the following attached structures:

a. Screened enclosures that are aluminum framed or screened enclosures that are not covered by the same or substantially the same materials as those of the primary dwelling;

b. Carports that are aluminum or carports that are not covered by the same or substantially the same materials as those of the primary dwelling; and

c. Patios that have a roof covering that is constructed of materials that are not the same or substantially the same materials as those of the primary dwelling.

The corporation shall make available a policy for mobile homes or manufactured homes for a minimum insured value of at least $3,000.

18. May provide such limits of coverage as the board determines, consistent with the requirements of this subsection.

19. May require commercial property to meet specified hurricane mitigation construction features as a condition of eligibility for coverage.

20. Must provide that new or renewal policies issued by the corporation on or after January 1, 2012, which cover sinkhole loss do not include coverage for any loss to appurtenant structures, driveways, sidewalks, decks, or patios that are directly or indirectly caused by sinkhole activity. The corporation shall exclude such coverage using a notice of coverage change, which may be included with the policy renewal, and not by issuance of a notice of nonrenewal of the excluded coverage upon renewal of the current policy.

21. As of January 1, 2012, must require that the agent obtain from an applicant for coverage from the corporation an acknowledgment signed by the applicant~~,~~ which includes, at a minimum, the following statement:

ACKNOWLEDGMENT OF POTENTIAL SURCHARGE
AND ASSESSMENT LIABILITY:

1. AS A POLICYHOLDER OF CITIZENS PROPERTY INSURANCE CORPORATION, I UNDERSTAND THAT IF THE CORPORATION SUSTAINS A DEFICIT AS A RESULT OF HURRICANE LOSSES OR FOR ANY OTHER REASON, MY POLICY COULD BE SUBJECT TO SURCHARGES, WHICH WILL BE DUE AND PAYABLE UPON RENEWAL, CANCELLATION, OR TERMINATION OF THE POLICY, AND THAT THE SURCHARGES COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

2. I UNDERSTAND THAT I CAN AVOID THE CITIZENS POLICYHOLDER SURCHARGE, WHICH COULD BE AS HIGH AS 45 PERCENT OF MY PREMIUM, BY OBTAINING COVERAGE FROM A PRIVATE MARKET INSURER AND THAT TO BE ELIGIBLE FOR COVERAGE BY CITIZENS, I MUST FIRST TRY TO OBTAIN

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

PRIVATE MARKET COVERAGE BEFORE APPLYING FOR OR RENEWING COVERAGE WITH CITIZENS. I UNDERSTAND THAT PRIVATE MARKET INSURANCE RATES ARE REGULATED AND APPROVED BY THE STATE.

3. I UNDERSTAND THAT I MAY BE SUBJECT TO EMERGENCY ASSESSMENTS TO THE SAME EXTENT AS POLICYHOLDERS OF OTHER INSURANCE COMPANIES, OR A DIFFERENT AMOUNT AS IMPOSED BY THE FLORIDA LEGISLATURE.

4. I ALSO UNDERSTAND THAT CITIZENS PROPERTY INSURANCE CORPORATION IS NOT SUPPORTED BY THE FULL FAITH AND CREDIT OF THE STATE OF FLORIDA.

a. The corporation shall maintain, in electronic format or otherwise, a copy of the applicant's signed acknowledgment and provide a copy of the statement to the policyholder as part of the first renewal after the effective date of this subparagraph.

b. The signed acknowledgment form creates a conclusive presumption that the policyholder understood and accepted his or her potential surcharge and assessment liability as a policyholder of the corporation.

22. The corporation shall pay a producing agent of record a reasonable commission not to exceed the average of commissions paid in the preceding year by the 20 admitted insurers writing the greatest market share of property insurance in this state.

(n)1. Rates for coverage provided by the corporation must be actuarially sound and subject to s. 627.062, except as otherwise provided in this paragraph. The corporation shall file its recommended rates with the office at least annually. The corporation shall provide any additional information regarding the rates which the office requires. The office shall consider

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the recommendations of the board and issue a final order establishing the rates for the corporation within 45 days after the recommended rates are filed. The corporation may not pursue an administrative challenge or judicial review of the final order of the office.

2. In addition to the rates otherwise determined pursuant to this paragraph, the corporation shall impose and collect an amount equal to the premium tax provided in s. 624.509 to augment the financial resources of the corporation.

3. ~~After~~ The public hurricane loss-projection model under s. 627.06281, if ~~has been~~ found to be accurate and reliable by the Florida Commission on Hurricane Loss Projection Methodology, ~~the model~~ shall be considered when establishing the windstorm portion of the corporation's rates. The corporation may use the public model results in combination with the results of private models to calculate rates for the windstorm portion of the corporation's rates. This subparagraph does not require or allow the corporation to adopt rates lower than the rates otherwise required or allowed by this paragraph.

4. The rate filings for the corporation which were approved by the office and took effect January 1, 2007, are rescinded, except for those rates that were lowered. As soon as possible, the corporation shall begin using the lower rates that were in effect on December 31, 2006, and provide refunds to policyholders who paid higher rates as a result of that rate filing. The rates in effect on December 31, 2006, remain in effect for the 2007 and 2008 calendar years except for any rate change that results in a lower rate. The next rate change that may increase rates shall take effect pursuant to a new rate

filing recommended by the corporation and established by the office, subject to this paragraph.

5. Beginning on July 15, 2009, and annually thereafter, the corporation must make a recommended actuarially sound rate filing for each personal and commercial line of business it writes, to be effective no earlier than January 1, 2010.

6. Beginning on or after January 1, 2022 ~~January 1, 2010~~, and notwithstanding the board's recommended rates and the office's final order regarding the corporation's filed rates under subparagraph 1., the corporation shall annually implement a rate increase which, except for sinkhole coverage, does not exceed 10 percent for any single policy renewed ~~issued~~ by the corporation covering an owner-occupied personal residential property that has a dwelling replacement cost less than $700,000 or that is a single condominium unit that has a combined dwelling and contents replacement cost less than $700,000, excluding coverage changes and surcharges, if the policy was initially issued by the corporation and the dwelling was determined by the corporation to be owner-occupied before July 1, 2021.

7. The corporation may also implement an increase to reflect the effect on the corporation of the cash buildup factor pursuant to s. 215.555(5)(b).

8. The corporation's implementation of rates as prescribed in subparagraph 6. shall cease for any line of business written by the corporation upon the corporation's implementation of actuarially sound rates. Thereafter, the corporation shall annually make a recommended actuarially sound rate filing for each commercial and personal line of business the corporation

writes.

(q)1. The corporation shall certify to the office its needs for annual assessments as to a particular calendar year, and for any interim assessments that it deems to be necessary to sustain operations as to a particular year pending the receipt of annual assessments. Upon verification, the office shall approve such certification, and the corporation shall levy such annual or interim assessments. Such assessments shall be prorated as provided in paragraph (b). The corporation shall take all reasonable and prudent steps necessary to collect the amount of assessments due from each assessable insurer, including, if prudent, filing suit to collect the assessments, and the office may provide such assistance to the corporation it deems appropriate. If the corporation is unable to collect an assessment from any assessable insurer, the uncollected assessments shall be levied as an additional assessment against the assessable insurers and any assessable insurer required to pay an additional assessment as a result of such failure to pay shall have a cause of action against such nonpaying assessable insurer. Assessments shall be included as an appropriate factor in the making of rates. The failure of a surplus lines agent to collect and remit any regular or emergency assessment levied by the corporation is considered to be a violation of s. 626.936 and subjects the surplus lines agent to the penalties provided in that section.

2. The governing body of any unit of local government, any residents of which are insured by the corporation, may issue bonds as defined in s. 125.013 or s. 166.101 from time to time to fund an assistance program, in conjunction with the

corporation, for the purpose of defraying deficits of the corporation. In order to avoid needless and indiscriminate proliferation, duplication, and fragmentation of such assistance programs, any unit of local government, any residents of which are insured by the corporation, may provide for the payment of losses, regardless of whether or not the losses occurred within or outside of the territorial jurisdiction of the local government. Revenue bonds under this subparagraph may not be issued until validated pursuant to chapter 75, unless a state of emergency is declared by executive order or proclamation of the Governor pursuant to s. 252.36 making such findings as are necessary to determine that it is in the best interests of, and necessary for, the protection of the public health, safety, and general welfare of residents of this state and declaring it an essential public purpose to permit certain municipalities or counties to issue such bonds as will permit relief to claimants and policyholders of the corporation. Any such unit of local government may enter into such contracts with the corporation and with any other entity created pursuant to this subsection as are necessary to carry out this paragraph. Any bonds issued under this subparagraph shall be payable from and secured by moneys received by the corporation from emergency assessments under sub-subparagraph (b)3.d., and assigned and pledged to or on behalf of the unit of local government for the benefit of the holders of such bonds. The funds, credit, property, and taxing power of the state or of the unit of local government may ~~shall~~ not be pledged for the payment of such bonds.

3.a. The corporation shall adopt one or more programs subject to approval by the office for the reduction of both new

and renewal writings in the corporation. Beginning January 1, 2008, any program the corporation adopts for the payment of bonuses to an insurer for each risk the insurer removes from the corporation shall comply with s. 627.3511(2) and may not exceed the amount referenced in s. 627.3511(2) for each risk removed. The corporation may consider any prudent and not unfairly discriminatory approach to reducing corporation writings, and may adopt a credit against assessment liability or other liability that provides an incentive for insurers to take risks out of the corporation and to keep risks out of the corporation by maintaining or increasing voluntary writings in counties or areas in which corporation risks are highly concentrated and a program to provide a formula under which an insurer voluntarily taking risks out of the corporation by maintaining or increasing voluntary writings will be relieved wholly or partially from assessments under sub-subparagraph (b)3.a. However, any "take-out bonus" or payment to an insurer must be conditioned on the property being insured for at least 5 years by the insurer, unless canceled or nonrenewed by the policyholder. If the policy is canceled or nonrenewed by the policyholder before the end of the 5-year period, the amount of the take-out bonus must be prorated for the time period the policy was insured. When the corporation enters into a contractual agreement for a take-out plan, the producing agent of record of the corporation policy is entitled to retain any unearned commission on such policy, and the insurer shall either:

(I) Pay to the producing agent of record of the policy, for the first year, an amount which is the greater of the insurer's usual and customary commission for the type of policy written or

a policy fee equal to the usual and customary commission of the corporation; or

(II) Offer to allow the producing agent of record of the policy to continue servicing the policy for a period of not less than 1 year and offer to pay the agent the insurer's usual and customary commission for the type of policy written. If the producing agent is unwilling or unable to accept appointment by the new insurer, the new insurer shall pay the agent in accordance with sub-sub-subparagraph (I).

b. Any credit or exemption from regular assessments adopted under this subparagraph shall last no longer than the 3 years following the cancellation or expiration of the policy by the corporation. With the approval of the office, the board may extend such credits for an additional year if the insurer guarantees an additional year of renewability for all policies removed from the corporation, or for 2 additional years if the insurer guarantees 2 additional years of renewability for all policies so removed.

c. There shall be no credit, limitation, exemption, or deferment from emergency assessments to be collected from policyholders pursuant to sub-subparagraph (b)3.d.

d. Notwithstanding any other provision of law, for purposes of a depopulation, take-out, or keep-out program adopted by the corporation, including an initial or renewal offer of coverage made to a policyholder removed from the corporation pursuant to such program, an eligible surplus lines insurer may participate in the program in the same manner and on the same terms as an authorized insurer, except as provided under this sub-subparagraph.

(I) To qualify for participation, the surplus lines insurer must first obtain approval from the office for its depopulation, take-out, or keep-out plan and then comply with all of the corporation's requirements for the plan applicable to admitted insurers and with all statutory provisions applicable to the removal of policies from the corporation.

(II) In considering a surplus lines insurer's request for approval for its plan, the office shall determine that the surplus lines insurer meets the following requirements:

(A) Maintains surplus of $50 million on a company or pooled basis;

(B) Has a superior, excellent, exceptional, or equally comparable financial strength rating by a rating agency acceptable to the office;

(C) Maintains reserves, surplus, reinsurance, and reinsurance equivalents sufficient to cover the insurer's 100-year probable maximum hurricane loss at least twice in a single hurricane season, and submits such reinsurance to the office to review for purposes of the take-out;

(D) Provides prominent notice to the policyholder before the assumption of the policy that surplus lines policies are not provided coverage by the Florida Insurance Guaranty Association, and an outline of any substantial differences in coverage between the existing policy and the policy being offered to the insured; and

(E) Provides policy coverage similar to that provided by the corporation.

(III) To obtain approval for a plan, the surplus lines insurer must file the following with the office:

(A) Information requested by the office to demonstrate compliance with s. 624.404(3), including biographical affidavits, fingerprints processed pursuant to s. 624.34, and the results of criminal history records checks for officers and directors of the insurer and its parent or holding company;

(B) A service-of-process consent and agreement form executed by the insurer;

(C) Proof that the insurer has been an eligible or authorized insurer for at least 3 years;

(D) A duly authenticated copy of the insurer's current audited financial statement, in English, expressing all monetary values in United States dollars, at an exchange rate then current and shown in the statement, in the case of statements originally made in the currencies of other countries, and including any additional information relative to the insurer as the office may request;

(E) A complete certified copy of the latest official financial statement required by the insurer's domiciliary state, if different from sub-sub-sub-subparagraph (D); and

(F) A copy of the United States trust account agreement, if applicable.

This sub-subparagraph does not subject any surplus lines insurer to requirements in addition to part VIII of chapter 626. Surplus lines brokers making an offer of coverage under this sub-subparagraph are not required to comply with s. 626.916(1)(a), (b), (c), and (e).

(IV) Within 10 days after the date of assumption, the surplus lines insurer assuming policies from the corporation

shall remit a special deposit equal to the unearned premium net of unearned commissions on the assumed block of business to the Bureau of Collateral Management within the Department of Financial Services. The surplus lines insurer shall submit to the office, along with the initial deposit, an accounting of the policies assumed and the amount of unearned premium for such policies and a sworn affidavit attesting to its accuracy by an officer of the surplus lines insurer. Thereafter, the surplus lines insurer shall make a filing within 10 days after each calendar quarter attesting to the unearned premium in force for the previous quarter on policies assumed from the corporation, and shall submit additional funds with that filing if the special deposit is insufficient to cover the unearned premium on assumed policies, or shall receive a return of funds within 60 days if the special deposit exceeds the amount of unearned premium required for assumed policies. The special deposit is an asset of the surplus lines insurer which is held by the department for the benefit of state policyholders of the surplus lines insurer in the event of the insolvency of the surplus lines insurer. If an order of liquidation is entered in any state against the surplus lines insurer, the department may use the special deposit for payment of unearned premium or policy claims, return all or part of the deposit to the domiciliary receiver, or use the funds in accordance with any action authorized under part I of chapter 631 or in compliance with any order of a court having jurisdiction over the insolvency.

(V) Surplus lines brokers representing a surplus lines insurer on a take-out program shall obtain confirmation, in written or e-mail form, from each producing agent in advance

stating that the agent is willing to participate in the take-out program with the surplus lines insurer engaging in the take-out program. The take-out program is also subject to s. 627.3517. If a policyholder is selected for removal from the corporation by a surplus lines insurer and an authorized insurer, the corporation shall give the offer of coverage from the authorized insurer priority.

(VI)(A) When offered comparable coverage from a qualified surplus lines insurer no greater than 15 percent higher than the premium charged by the corporation, a risk that has a dwelling replacement cost of $700,000 or more or a single condominium unit that has a combined dwelling and contents replacement cost of $700,000 or more is not eligible for coverage by the corporation.

(B) When offered coverage from a qualified surplus lines insurer, a risk that has a dwelling replacement cost below $700,000 or a single condominium unit that has a combined dwelling and contents replacement cost below $700,000 remains eligible for coverage by the corporation.

4. The plan shall provide for the deferment, in whole or in part, of the assessment of an assessable insurer, other than an emergency assessment collected from policyholders pursuant to sub-subparagraph (b)3.d., if the office finds that payment of the assessment would endanger or impair the solvency of the insurer. In the event an assessment against an assessable insurer is deferred in whole or in part, the amount by which such assessment is deferred may be assessed against the other assessable insurers in a manner consistent with the basis for assessments set forth in paragraph (b).

5. Effective July 1, 2007, in order to evaluate the costs and benefits of approved take-out plans, if the corporation pays a bonus or other payment to an insurer for an approved take-out plan, it shall maintain a record of the address or such other identifying information on the property or risk removed in order to track if and when the property or risk is later insured by the corporation.

6. Any policy taken out, assumed, or removed from the corporation is, as of the effective date of the take-out, assumption, or removal, direct insurance issued by the insurer and not by the corporation, even if the corporation continues to service the policies. This subparagraph applies to policies of the corporation and not policies taken out, assumed, or removed from any other entity.

7. For a policy taken out, assumed, or removed from the corporation, the insurer may, for a period of no more than 3 years, continue to use any of the corporation's policy forms or endorsements that apply to the policy taken out, removed, or assumed without obtaining approval from the office for use of such policy form or endorsement.

(x)1. The following records of the corporation are confidential and exempt from ~~the provisions of~~ s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

a. Underwriting files, except that a policyholder or an applicant shall have access to his or her own underwriting files. Confidential and exempt underwriting file records may also be released to other governmental agencies upon written request and demonstration of need; such records held by the receiving agency remain confidential and exempt as provided

herein.

b. Claims files, until termination of all litigation and settlement of all claims arising out of the same incident, although portions of the claims files may remain exempt, as otherwise provided by law. Confidential and exempt claims file records may be released to other governmental agencies upon written request and demonstration of need; such records held by the receiving agency remain confidential and exempt as provided herein.

c. Records obtained or generated by an internal auditor pursuant to a routine audit, until the audit is completed, or if the audit is conducted as part of an investigation, until the investigation is closed or ceases to be active. An investigation is considered "active" while the investigation is being conducted with a reasonable, good faith belief that it could lead to the filing of administrative, civil, or criminal proceedings.

d. Matters reasonably encompassed in privileged attorney-client communications.

e. Proprietary information licensed to the corporation under contract and the contract provides for the confidentiality of such proprietary information.

f. All information relating to the medical condition or medical status of a corporation employee which is not relevant to the employee's capacity to perform his or her duties, except as otherwise provided in this paragraph. Information that is exempt includes ~~shall include~~, but is not limited to, information relating to workers' compensation, insurance benefits, and retirement or disability benefits.

g. Upon an employee's entrance into the employee assistance program, a program to assist any employee who has a behavioral or medical disorder, substance abuse problem, or emotional difficulty that affects the employee's job performance, all records relative to that participation are ~~shall be~~ confidential and exempt from ~~the provisions of~~ s. 119.07(1) and s. 24(a), Art. I of the State Constitution, except as otherwise provided in s. 112.0455(11).

h. Information relating to negotiations for financing, reinsurance, depopulation, or contractual services, until the conclusion of the negotiations.

i. Minutes of closed meetings regarding underwriting files, and minutes of closed meetings regarding an open claims file until termination of all litigation and settlement of all claims with regard to that claim, except that information otherwise confidential or exempt by law shall be redacted.

2. If an authorized insurer, a reinsurance intermediary, an eligible surplus lines insurer, or an entity that has filed an application with the office for licensure as a property and casualty insurer in this state is considering writing or assisting in the underwriting of a risk insured by the corporation, relevant information from both the underwriting files and confidential claims files may be released to the insurer, reinsurance intermediary, eligible surplus lines insurer, or entity that has been created to seek authority to write property insurance in this state, provided the recipient ~~insurer~~ agrees in writing, notarized and under oath, to maintain the confidentiality of such files. If a policy file is transferred to an insurer, that policy file is no longer a

public record because it is not held by an agency subject to ~~the provisions of~~ the public records law. Underwriting files and confidential claims files may also be released to staff and the board of governors of the market assistance plan established pursuant to s. 627.3515, who must retain the confidentiality of such files, except such files may be released to authorized insurers that are considering assuming the risks to which the files apply, provided the insurer agrees in writing, notarized and under oath, to maintain the confidentiality of such files. Finally, the corporation or the board or staff of the market assistance plan may make the following information obtained from underwriting files and confidential claims files available to an entity that has obtained a permit to become an authorized insurer, a reinsurer that may provide reinsurance under s. 624.610, a licensed reinsurance broker, a licensed rating organization, a modeling company, or a licensed general lines insurance agent: name, address, and telephone number of the residential property owner or insured; location of the risk; rating information; loss history; and policy type. The receiving person must retain the confidentiality of the information received and may use the information only for the purposes of developing a take-out plan or a rating plan to be submitted to the office for approval or otherwise analyzing the underwriting of a risk or risks insured by the corporation on behalf of the private insurance market. A licensed general lines insurance agent may not use such information for the direct solicitation of policyholders.

3. A policyholder who has filed suit against the corporation has the right to discover the contents of his or her

own claims file to the same extent that discovery of such contents would be available from a private insurer in litigation as provided by the Florida Rules of Civil Procedure, the Florida Evidence Code, and other applicable law. Pursuant to subpoena, a third party has the right to discover the contents of an insured's or applicant's underwriting or claims file to the same extent that discovery of such contents would be available from a private insurer by subpoena as provided by the Florida Rules of Civil Procedure, the Florida Evidence Code, and other applicable law, and subject to any confidentiality protections requested by the corporation and agreed to by the seeking party or ordered by the court. The corporation may release confidential underwriting and claims file contents and information as it deems necessary and appropriate to underwrite or service insurance policies and claims, subject to any confidentiality protections deemed necessary and appropriate by the corporation.

4. Portions of meetings of the corporation are exempt from the provisions of s. 286.011 and s. 24(b), Art. I of the State Constitution wherein confidential underwriting files or confidential open claims files are discussed. All portions of corporation meetings which are closed to the public shall be recorded by a court reporter. The court reporter shall record the times of commencement and termination of the meeting, all discussion and proceedings, the names of all persons present at any time, and the names of all persons speaking. No portion of any closed meeting shall be off the record. Subject to the provisions hereof and s. 119.07(1)(d)-(f), the court reporter's notes of any closed meeting shall be retained by the corporation for a minimum of 5 years. A copy of the transcript, less any

exempt matters, of any closed meeting wherein claims are discussed shall become public as to individual claims after settlement of the claim.

Section 3. Section 627.3517, Florida Statutes, is amended to read:

627.3517 Consumer choice.—No provision of s. 627.351, s. 627.3511, or s. 627.3515 shall be construed to impair the right of any insurance risk apportionment plan policyholder, upon receipt of any keep-out ~~keepout~~ or take-out offer, to retain his or her current agent, so long as that agent is duly licensed and appointed by the insurance risk apportionment plan or otherwise authorized to place business with the insurance risk apportionment plan. This right may ~~shall~~ not be canceled, suspended, impeded, abridged, or otherwise compromised by any rule, plan of operation, or depopulation plan, whether through keep-out ~~keepout~~, take-out, midterm assumption, or any other means, of any insurance risk apportionment plan or depopulation plan, including, but not limited to, those described in s. 627.351, s. 627.3511, or s. 627.3515. The commission shall adopt any rules necessary to cause any insurance risk apportionment plan or market assistance plan under such sections to demonstrate that the operations of the plan do not interfere with, promote, or allow interference with the rights created under this section. If the policyholder's current agent is unable or unwilling to be appointed with the insurer making the take-out or keep-out ~~keepout~~ offer, the policyholder is ~~shall~~ not ~~be~~ disqualified from participation in the appropriate insurance risk apportionment plan because of an offer of coverage in the voluntary market. An offer of full property

insurance coverage by the insurer currently insuring either the ex-wind or wind-only coverage on the policy to which the offer applies is ~~shall~~ not ~~be~~ considered a take-out or keep-out ~~keepout~~ offer. Any rule, plan of operation, or plan of depopulation, through keep-out ~~keepout~~, take-out, midterm assumption, or any other means, of any property insurance risk apportionment plan under s. 627.351(2) or (6) is subject to ss. 627.351(2)(b) and (6)(c) and 627.3511(4).

Section 4. Subsection (5) of section 627.3518, Florida Statutes, is amended, and paragraph (a) of subsection (6) and paragraph (a) of subsection (7) of that section are reenacted, to read:

627.3518 Citizens Property Insurance Corporation policyholder eligibility clearinghouse program.—The purpose of this section is to provide a framework for the corporation to implement a clearinghouse program by January 1, 2014.

(5) Notwithstanding s. 627.3517, any applicant for new coverage from the corporation is not eligible for coverage from the corporation if provided an offer of coverage from an authorized insurer through the program at a premium that is at or below the eligibility threshold established in s. 627.351(6)(c)5.a. Whenever an offer of coverage for a personal lines risk is received for a policyholder of the corporation at renewal from an authorized insurer through the program, if the offer is at or below the eligibility threshold established in s. 627.351(6)(c)5.a. ~~equal to or less than the corporation's renewal premium for comparable coverage~~, the risk is not eligible for coverage with the corporation. In the event an offer of coverage for a new applicant or a personal lines risk

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

at renewal is received from an authorized insurer through the program, and the premium offered exceeds the eligibility thresholds specified ~~threshold contained~~ in s. 627.351(6)(c)5.a., the applicant or insured may elect to accept such coverage, or may elect to accept or continue coverage with the corporation. ~~In the event an offer of coverage for a personal lines risk is received from an authorized insurer at renewal through the program, and the premium offered is more than the corporation's renewal premium for comparable coverage, the insured may elect to accept such coverage, or may elect to accept or continue coverage with the corporation.~~ Section 627.351(6)(c)5.a.(I) does not apply to an offer of coverage from an authorized insurer obtained through the program. An applicant for coverage from the corporation who was declared ineligible for coverage at renewal by the corporation in the previous 36 months due to an offer of coverage pursuant to this subsection shall be considered a renewal under this section if the corporation determines that the authorized insurer making the offer of coverage pursuant to this subsection continues to insure the applicant and increased the rate on the policy in excess of the increase allowed for the corporation under s. 627.351(6)(n)6.

(6) Independent insurance agents submitting new applications for coverage or that are the agent of record on a renewal policy submitted to the program:

(a) Are granted and must maintain ownership and the exclusive use of expirations, records, or other written or electronic information directly related to such applications or renewals written through the corporation or through an insurer

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

participating in the program, notwithstanding s. 627.351(6)(c)5.a.(I)(B) and (II)(B). Such ownership is granted for as long as the insured remains with the agency or until sold or surrendered in writing by the agent. Contracts with the corporation or required by the corporation must not amend, modify, interfere with, or limit such rights of ownership. Such expirations, records, or other written or electronic information may be used to review an application, issue a policy, or for any other purpose necessary for placing such business through the program.

Applicants ineligible for coverage in accordance with subsection (5) remain ineligible if their independent agent is unwilling or unable to enter into a standard or limited agency agreement with an insurer participating in the program.

(7) Exclusive agents submitting new applications for coverage or that are the agent of record on a renewal policy submitted to the program:

(a) Must maintain ownership and the exclusive use of expirations, records, or other written or electronic information directly related to such applications or renewals written through the corporation or through an insurer participating in the program, notwithstanding s. 627.351(6)(c)5.a.(I)(B) and (II)(B). Contracts with the corporation or required by the corporation must not amend, modify, interfere with, or limit such rights of ownership. Such expirations, records, or other written or electronic information may be used to review an application, issue a policy, or for any other purpose necessary for placing such business through the program.

Applicants ineligible for coverage in accordance with subsection (5) remain ineligible if their exclusive agent is unwilling or unable to enter into a standard or limited agency agreement with an insurer making an offer of coverage to that applicant.

Section 5. This act shall take effect January 1, 2022.

The Florida Senate

Committee Agenda Request

To: Senator Kelli Stargel, Chair
Committee on Appropriations

Subject: Committee Agenda Request

Date: April 7, 2021

I respectfully request that **Senate Bill # 1574**, relating to Citizens Property Insurance Corporation, be placed on the:

☒ committee agenda at your earliest possible convenience.

☐ next committee agenda.

Senator Jeff Brandes
Florida Senate, District 24

File signed original with committee office

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1592
INTRODUCER:	Appropriations Committee; Finance and Tax Committee; and Senator Burgess and others
SUBJECT:	Broadband Internet Infrastructure
DATE:	April 21, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Imhof	Imhof	RI	**Favorable**
2.	Bruno	Babin	FT	**Fav/CS**
3.	Bruno	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1592 provides broadband providers access for attachments to utility poles of municipal electric utilities at a promotional rate of $1 per attachment per pole from July 1, 2021 to July 1, 2024 when serving unserved or underserved broadband Internet customers. All such attachments must follow the higher of the safety standards in the National Electrical Safety Code or the standards set by the utility. The promotional rate is available after application and can be lost if unserved or underserved customers are not provided with broadband Internet access within 12 months of the attachments being made. A utility may not increase the fees charged to broadband providers for pole attachments made between July 1, 2021 and July 31, 2022.

The bill requires municipal electric utilities to identify customers who are unserved or underserved with broadband Internet access to the Office of Broadband. They are further required to disclose pole attachments made at the promotional rate.

The bill directs the Office of Broadband to work with rural communities to identify underserved and unserved communities and leverage resources to help those communities access broadband Internet. The Office of Broadband is directed to provide assistance to fiscally restrained counties to identify and apply for federal grants.

The bill establishes guidelines for cost-sharing when a utility pole must be replaced due to an attachment between the utility and the broadband provider.

The Revenue Estimating Conference has not reviewed CS/CS/SB 1592. Staff estimates an indeterminate impact to municipal utility revenue.

The bill takes effect July 1, 2021.

II. Present Situation:

Pole Attachments

Utility poles can be configured to disburse services to customers including electrical power, telephone, cable television, broadband, and wireless service.[1] Typically, communication services are attached at a level on the pole below the electrical supply lines.[2]

Utility poles may be installed and owned by different kinds of utilities, such electrical providers or telecommunications providers.[3,4] Utility pole owners can charge others to attach another service to the owners' pole.[5] Pole attachments are regulated either federally by the Federal Communications Commission (FCC) or at the state level.[6] As of March 19, 2020, 23 states have certified to the FCC that they regulate rates, terms, and conditions for pole attachments.[7] Florida is not among these states and is subject to FCC oversight for investor-owned electric utilities.[8]

Municipally-Owned Electric Utilities

A municipal electric utility is an electric utility system owned or operated by a municipality engaged in serving residential, commercial or industrial customers, usually within the boundaries of the municipality.[9] Municipally-owned utility rates and revenues are regulated by their city commission.[10] The PSC has limited jurisdiction over municipally-owned electric utilities.[11]

[3] The term "utility" is defined as: "…any person who is a local exchange carrier or an electric, gas, water, steam, or other public utility, and who owns or controls poles, ducts, conduits, or rights-of-way used, in whole or in part, for any wire communications. Such term does not include any railroad, any person who is cooperatively organized, or any person owned by the Federal Government or any State," and the term State is defined as "any State, territory, or possession of the United States, the District of Columbia, or any political subdivision, agency, or instrumentality thereof." 47 U.S.C. s. 224 (1996).

There are 34 municipal electric companies in Florida[12] and 33 of those municipal electric utilities are represented by the Florida Municipal Electric Association.[13] These companies serve over three million Floridians.[14]

Municipally-owned utilities are specifically exempt from FCC oversight under the Pole Attachment Act passed in 1978.[15]

III. Effect of Proposed Changes:

Section 1 provides the act may be cited as the "Florida Broadband Deployment Act of 2021."

Section 2 creates s. 364.0137, F.S., to provide the requirements for broadband provider attachments to municipal electric utility poles.

The bill provides legislative findings that there is a need for increased availability of broadband Internet access in Florida, especially in areas that do not have access to acceptable broadband Internet speeds or to Internet broadband at all.

The bill defines the following terms:

- "Broadband provider" means a person or entity who provides fixed broadband service.
- "Broadband service" means a service that provides high-speed access to the Internet at a rate of at least 25 megabits per second for downloading and at least 3 megabits per second for uploading.
- "Underserved" means that retail access to the Internet is not available at speeds of at least 25 megabits per seconds for downloading and 3 megabits per second for uploading.
- "Unserved" means that retail access to the Internet is not available at speeds of at least 10 megabits per seconds for downloading and 1 megabit per second for uploading.
- "Wireline attachment" means a wire or cable and associated equipment affixed to a utility pole in the communications space of the pole.

The bill provides that each municipal utility must provide broadband providers with access to any utility pole it owns for the purpose of providing service to unserved or underserved ends users within the utility's service area. From July 1, 2021, to July 1, 2024, a municipal electrical utility will provide such attachments at a promotional rate of $1 per attachment per pole. A broadband provider who wishes to make attachments at the promotional rate must submit an application to the utility and to the Office of Broadband, including maps and descriptions of which underserved or unserved users will be served by the attachments. A utility will report to the Office of Broadband all connections made at the promotional rate along with any information available as to which of its customers do or do not have access to broadband Internet.

---

[12] Florida Department of Agriculture and Consumer Services, *Electric Utilities*, https://www.fdacs.gov/Energy/Florida-Energy-Clearinghouse/Electric-Utilities (last visited April 19, 2021).
[13] Florida Municipal Electric Association, *About FMEA*, https://www.publicpower.com/about-us (last visited April 19, 2021).
[14] *Id.*
[15] Pub. L. No. 95-234, 224, 92 Stat. 33 (1978).

The bill provides that any broadband provider that uses the promotional rate must make all reasonable efforts to provide broadband service to the identified underserved or unserved customers identified in the application. If the broadband provider is unable to provide service to those customers within 12 months, the broadband provider may be required to pay the prevailing rate for those attachments.

The bill directs that wireline attachments that are subject to the promotional rate must conform to all other terms and conditions of existing attachment agreements between a municipally-owned electric utility and a broadband provider. If no agreement exists, the parties have 90 days to enter such agreement.

The bill provides that the local technology planning teams within the Office of Broadband shall work with rural communities to help determine availability, locate unserved and underserved customers, and take other steps to further encourage expansion on broadband Internet access.

The bill provides that all attachments must comply with the National Electrical Safety Code or other, higher standards for the public health, safety and welfare if set by the municipal electrical utility.

The bill directs that if a municipal electrical utility is required to replace a pole due to a broadband provider's attachment, the utility may require reimbursement for reasonable and nondiscriminatory costs minus any positive salvage value of the pole. The utility may only require pole replacement if necessary to comply with safety and engineering standards, and may not charge a broadband provider to correct existing violations, to bring a pole into compliance with changed standards, or poles at the end of their useful lives. "Useful life" is defined as 30 years for a wood utility pole and 50 years for all other utility poles, including concrete, steel, or iron poles.

The bill provides that a municipal electrical utility may not increase the fees charged to broadband providers for pole attachments made between July 1, 2021 and July 31, 2022.

Section 3 provides an effective date of July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18 of the Florida Constitution governs laws that require counties and municipalities to spend funds or that limit their ability to raise revenue or receive state tax revenues.

Subsection (b) Art. VII, s. 18 of Florida Constitution, provides that except upon approval of each house of the Legislature by two-thirds vote of the membership, the Legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandates

requirements do not apply to laws having an insignificant fiscal impact[16, 17] which for Fiscal Year 2021-2022, is forecast at approximately $2.2 million or less.[18]

The Revenue Estimating Conference has not reviewed CS/CS/SB 1592. Staff estimates an indeterminate impact to municipal utility revenues. Therefore, the mandate provision may apply.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

Not applicable. The bill does not create or increase state taxes or fees. Thus, Art. VII, s. 19 of the Florida Constitution does not apply.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has not reviewed CS/CS/SB 1592. Staff estimates an indeterminate impact to municipal utility revenues.

B. Private Sector Impact:

Broadband service providers may see an adjustment in the pole attachment fees paid to municipal electric utilities for installation of attachments to the utilities' poles. Broadband service providers will be guaranteed access for pole attachment purposes when providing service to underserved or unserved broadband Internet users.

[16] FLA. CONST. art. VII, s. 18(d).
[17] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year multiplied by $0.10. *See* Florida Senate Committee on Community Affairs, Interim Report 2012-115: Insignificant Impact at p. 1, (September 2011), available at http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited April 19, 2021).
[18] Based on the Demographic Estimating Conference's April 1, 2021, estimated population, adopted on March 13, 2021. The conference packet is *available* at http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf (last visited April 19, 2021).

C. Government Sector Impact:

Municipal utilities may see an adjustment in the amount of pole attachment fees received from broadband service providers for installation of attachments to the utilities' poles. Municipal utilities will not be able to refuse pole attachments by broadband service providers providing service to underserved or unserved broadband Internet users.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

The bill substantially amends section 212.08 of the Florida Statutes.

The bill creates section 364.0137 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriation on April 19, 2021:
The committee substitute:

- Contains a legislative finding that there is a need for increased broadband internet access throughout Florida.
- Defines the terms "broadband provider", "broadband service", "underserved", "unserved", and "wireline attachment".
- Creates a promotional period from July 1, 2021 to July 1, 2024 during which a municipal utility must charge $1 per attachment per pole per year upon application by a broadband provider to the municipal utility and the Office of Broadband.
    - If the broadband provider is unable to provide broadband service to identified unserved or underserved customers within 12 months the broadband provider may be required to pay the prevailing rate on the attachments identified to provide those customers with broadband.
    - The attachments subject to the promotional rate must follow all other terms and conditions of the agreement between the utility and the broadband provider and if no agreement exists, the parties have 90 days to create one.
- Requires the Office of Broadband to work with rural communities to locate unserved and underserved communities and take steps to establish broadband connections in those communities.

- Requires all attachments to comply with standards in the National Electrical Safety Code or nondiscriminatory standards set by the municipal utility which are in excess of the National Electrical Safety code.
- Sets shared responsibility for cost sharing when a pole must be replaced to accept an attachment.
- Freezes rates charged by municipal electrical utilities to broadband providers from July 1, 2021 to July 31, 2021.
- Provides an effective date of July 1, 2021.

CS by Finance and Tax on March 31, 2021:
The committee substitute:

- Narrows the sales tax exemption by including only purchases and leases of qualifying equipment (excluding sales) and by excluding items such as real estate, office equipment, certain facilities, and vehicles.
- Adds definitions for "central office," "headend," "qualifying equipment," and "hub," which definitions are used to limit the exemption to certain equipment located at certain locations.
- Narrows the types of services that qualify as "Internet Access Service" by limiting Internet Access Service to certain upload and download speeds.
- Allows broadband providers and municipal electric utilities to enter agreements and set costs consistent with 47 U.S.C. s. 224 and rules created pursuant to it or as otherwise agreed.
- Outlines the attachment specifications a utility may require broadband providers to follow.
- Creates two processes for broadband providers to follow to attach their equipment to utilities' poles including a stream-lined process known as "Florida one-touch, make-ready" or "FOTMR."
- Clarifies the definition of "attachment" and defines the terms "communication space," "make-ready work," "simple make-ready work," "complex make-ready work," "redundant pole", and "larger order." These definitions are used in the attachment process.
- Outlines certain rights and responsibilities for utilities and broadband providers in regards to indemnification, inspections, audits, repairs, rent, and overlashing.
- Provides emergency rule making authority to the Department of Revenue.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

	.	
	.	
	.	

The Committee on Appropriations (Burgess) recommended the following:

Senate Amendment (with title amendment)

Delete lines 132 - 311

and insert:

4. A provider of communications services or Internet access services that receives an exemption under this paragraph must make investments in and improvements to its broadband services and equipment in this state in an amount equal to or greater than the exemption. The provider must annually provide to the Office of Broadband within the Department of Economic

509904

Opportunity a report listing the investments and improvements made in each tax year of the provider in which the provider claims an exemption pursuant to this paragraph.

5. As used in this paragraph, the term:

a. "Central office" means the location where telephone subscribers' lines are joined to switching equipment to connect subscribers to each other, locally and long distance. Central office equipment includes, but is not limited to, switches, cable distribution frames, and batteries.

b. "Communications services" has the same meaning as in s. 202.11(1).

c. "Headend" means the primary location in a communications provider's network which receives television programming signals through satellite antennae or fiber optic cables for distribution to the customer premises through a distribution network. Headend equipment includes, but is not limited to, computer-based electronic equipment that receives programming signals and uses prescribed processes to combine, amplify, and convert the programming signals and transmit them through the distribution network. The headend processes and combines signals for distribution to hubs or directly to customer premises. In most cases, the headend also serves as a distribution hub for the fiber optic transfer nodes closest to the headend. The term also includes a super headend, which processes all incoming programming signals and transmits them to regional headends or directly to hubs.

d. "Hub" means the secondary location in a communications provider's network which is connected to the headend by a fiber optic or other cable. A hub may contain electronic equipment

509904

that processes, converts, and transmits signals through the distribution network, and can serve a large number of business and residential communities.

e. "Internet access service" has the same meaning as in s. 202.11(6) and only applies to services that provide access to the Internet with a capacity for transmission at a consistent speed of at least 25 megabits per second download and 3 megabits per second upload.

f. "Provider of communications services or Internet access services" includes a dealer as defined in s. 202.11(2), a provider of Internet access service, and any member of an affiliated group as defined in s. 202.37(1)(c)2.

g. "Qualifying equipment" means equipment, machinery, software, or other infrastructure used to provide communications services or Internet access services and located within a central office, headend, or hub operated by a provider of communications services or Internet access services.

Section 3. Section 364.0137, Florida Statutes, is created to read:

364.0137 Broadband service infrastructure.—

(1) The Legislature finds that just, reasonable, and nondiscriminatory rates, terms, and conditions for the access and use of municipal electric utility poles by broadband service providers is essential to deploy, upgrade, and maintain broadband service to residents of this state. It is critical that municipal electric utility pole access and use rates are just, reasonable, nondiscriminatory, and fully compensatory, which may be achieved under the federal framework applicable to utility poles owned and operated by investor-owned utilities.

509904

The terms and conditions associated with the access and use of utility poles must be consistent with 47 U.S.C. s. 224, the Communications Act of 1934, as amended, and the regulations of the Federal Communications Commission as those regulations existed on July 1, 2021, except as authorized by this section and agreed to by the parties.

(2) As used in this section, the term:

(a) "Attachment" means a wire or cable affixed to a utility pole or structure in the communications space or in a duct, conduit, or right-of-way owned or controlled by a municipal electric utility.

(b) "Broadband provider" means a person who provides fixed, terrestrial broadband service. The term includes a person who provides or offers additional services to the public in addition to broadband service.

(c) "Broadband service" means a service that provides high-speed access to the Internet at a rate of at least 25 megabits per second in the downstream direction and at least 3 megabits per second in the upstream direction.

(d) "Communications space" means the lower usable space on a utility pole which is typically reserved for low-voltage communications equipment.

(e) "Complex make-ready work" means transfers and work within the communications space which would be reasonably likely to cause a service outage or facility damage, including work such as splicing of any communication attachment or relocation of existing wireless attachments. The term includes any and all wireless activities, including those involving mobile, fixed, and point-to-point wireless communications and wireless service

509904

providers, and any work involving the space above the safety space as defined in the National Electrical Safety Code.

(f) "Larger order" means a pole attachment application requesting access to a number of poles greater than the lesser of 300 poles or 0.5 percent of a municipal electric utility's poles, and up to the lesser of 3,000 poles or 5 percent of the municipal electric utility's poles. For purposes of determining whether a request is a larger order, a municipal electric utility may treat multiple requests from a single new attacher as one request when the requests are filed within 30 days of one another.

(g) "Make-ready work" means engineering or construction activities necessary to make a pole or similar structure available for a new pole attachment or pole attachment modification, including, but not limited to, rearrangement, removal, and replacement of the pole, transfers, and other work incident thereto.

(h) "Redundant pole" means a utility pole designated for removal from which the municipal electric utility has removed its facilities and provided written notice to the broadband service provider that the provider needs to remove its facilities.

(i) "Simple make-ready work" means work in the communications space to accommodate a new pole attachment on a pole which can be conducted without any reasonable expectation of a:

1. Service outage or facility damage;

2. Need to splice an existing communications attachment; or

3. Need to relocate an existing wireless attachment.

509904

(j) "Utility pole" means a pole owned or controlled by a municipal electric utility which is used in whole or in part for electric distribution.

(3) To promote the deployment of broadband service to all residents, each municipal electric utility shall:

(a) Charge just, reasonable, and nondiscriminatory rates for access to any utility pole it owns or operates which do not discriminate between or among such providers and any other attaching entity, including any entity affiliated with the municipal electric utility, regardless of the services furnished. Except as provided in subsection (4), such rates may not exceed the rate calculated consistent with 47 U.S.C. 224(d) and any Federal Communications Commission regulations and decisions adopted thereunder as such regulations and decisions existed on July 1, 2021.

(b) Maintain and make available to a broadband provider all records necessary to calculate the rate it charges to the provider in accordance with paragraph (a).

(c) Provide broadband providers with access to any utility pole it owns or operates and adopt just, reasonable, and nondiscriminatory terms and conditions for such access consistent with the requirements applicable to investor-owned utilities under 47 U.S.C. s. 224 and any Federal Communications Commission regulations and decisions adopted thereunder, as such regulations and decisions existed on July 1, 2021, except as otherwise provided in this section and agreed to by the parties. Notwithstanding the foregoing:

1. If necessary to accommodate a broadband provider's new attachment, the municipal electric utility shall rearrange,

509904

expand, replace, or otherwise safely reengineer any utility pole upon the request of the broadband provider.

2. If the municipal electric utility is required to replace a utility pole pursuant to subparagraph 1., the municipal electric utility may require a broadband provider to reimburse reasonable costs attributable solely to the new attachment. Broadband providers may not be required to pay for the cost of utility betterment or for costs attributable to preexisting noncompliance.

(4) A municipal electric utility may require a broadband provider to enter into a pole attachment agreement to attach to a utility pole the municipal electric utility owns or operates, and the parties shall negotiate such agreements in good faith.

(a) Broadband providers and municipal electric utilities shall negotiate in good faith to adopt pole attachment agreements consistent with this section or to amend existing agreements to ensure that attachments installed after July 1, 2021, are performed consistent with the terms of this section. The parties must negotiate in good faith for at least 60 days after receipt of a written request, after which either party may petition the circuit court to determine rates, terms, and conditions for the agreements consistent with this section.

(b) At a minimum, a broadband provider shall comply with the safety and engineering standards for pole attachments specified in the National Electrical Safety Code. A municipal electric utility may adopt publicly available, reasonable, and nondiscriminatory municipal electric utility safety and engineering standards for the protection of the public health, safety, or welfare which exceed specifications in the National

509904

Electrical Safety Code. If a municipality has adopted or adopts such standards that exceed such specification in the National Electrical Safety Code, the broadband provider must meet the stricter standards.

	.	
	.	
	.	

The Committee on Appropriations (Burgess) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. This act may be cited as the "Florida Broadband Deployment Act of 2021."

Section 2. Section 364.0137, Florida Statutes, is created to read:

364.0137 Attachment of broadband facilities to municipal electric utility poles.—

430276

(1) The Legislature finds that there is a need for increased availability of broadband Internet access throughout this state, particularly in areas where residents do not have access to acceptable Internet download and upload speeds, or any access at all. The lack of Internet connectivity and widespread broadband availability is detrimental to the growth of the economy, access to telehealth, and educational opportunities. The federal government has provided vast resources for private cable and other broadband providers to expand the deployment of broadband infrastructure in areas where Internet access and broadband service are inadequate or nonexistent.

(2) As used in this section, the term:

(a) "Broadband provider" means a person or an entity who provides fixed broadband service.

(b) "Broadband service" means a service that provides high-speed access to the Internet at a rate of at least 25 megabits per seconds for downloading and at least 3 megabits per second for uploading.

(c) "Underserved" means that retail access to the Internet is not available at speeds of at least 25 megabits per seconds for downloading and 3 megabits per second for uploading.

(d) "Unserved" means that retail access to the Internet is not available at speeds of at least 10 megabits per seconds for downloading and 1 megabit per second for uploading.

(e) "Wireline attachment" means a wire or cable and associated equipment affixed to a utility pole in the communications space of the pole.

(3) From July 1, 2021, to July 1, 2024, a municipal electric utility shall provide a broadband provider with a

promotional rate of $1 per wireline attachment per pole per year for any new attachment necessary to make service available to an unserved or underserved end user within the municipal electric utility's service territory during such time period.

(a) A broadband provider that wishes to make wireline attachments subject to the promotional rate shall submit an application, including a route map, to the municipal electric utility specifying which wireline attachments on which utility poles are necessary to extend broadband service to unserved or underserved end users and therefore qualify for the promotional rate under this subsection, together with such information necessary to identify which unserved or underserved end users within the municipal electric utility's service territory will have access to broadband service as a result. The broadband provider shall also submit a copy of such application and plan simultaneously to the Office of Broadband within the Department of Economic Opportunity.

(b) A municipal electric utility shall report to the Office of Broadband which connections on which utility poles were made available to broadband providers subject to the promotional rate, together with any information available to it regarding which of its municipal electric utility customers do and do not have access to broadband service and whether they are unserved or underserved.

(c) A broadband provider who makes an application to attach under the promotional rate shall make all reasonable efforts to make broadband service available to the unserved or underserved municipal electric utility customers identified in the application. If the broadband provider fails to make broadband

service available to those customers within 12 months, the broadband provider may be required to pay the prevailing rate for those attachments that failed to make broadband service available to the intended customers.

(d) Except to the extent provided in this section, wireline attachments subject to the promotional rate must conform to all other terms and conditions of existing pole attachment agreements between the broadband provider and the municipal electric utility. If no such agreement exists, the parties have 90 days to enter into a pole attachment agreement for all other terms and conditions of attachment.

(4) The local technology planning teams within the Office of Broadband shall work with rural communities to help the communities determine their current broadband availability, locate unserved and underserved customers, identify assets relevant to broadband deployment, build partnerships with broadband service providers, and identify opportunities to leverage assets and reduce barriers to the deployment of public and private broadband service in the community. In fiscally constrained counties, the teams or partnerships must be proactive in identifying and providing assistance with applying for federal grants for broadband service.

(5) All wireline attachments must comply, at a minimum, with the safety and engineering standards for pole attachments specified in the National Electrical Safety Code. A municipal electric utility may adopt publicly available, reasonable, and nondiscriminatory safety and engineering standards for the protection of the public health, safety, or welfare which exceed specifications in the National Electrical Safety Code. If a

municipality has adopt or adopts such standards that exceed such specification in the national Electrical Safety Code, the broadband provider must meet the stricter standards.

(6) If the municipal electric utility is required to replace a utility pole due to a broadband provider's attachment, the municipal electric utility may require, as a condition of pole attachment, a broadband provider to reimburse all reasonable and nondiscriminatory costs attributable solely to the new attachment minus the salvage value of the removed pole, if such value is positive. The municipal electric utility may not require a utility pole to be replaced to accommodate a broadband provider's attachment except where necessary to comply with applicable engineering and safety standards. With respect to such replacement poles, if pole replacement is necessary to correct an existing violation, to bring the pole into compliance with any changes in applicable standards, or because the pole is at the end of its useful life, such replacement cost may not be charged to the broadband provider. As used in this subsection, the term "useful life" means not less than 30 years for a wood utility pole and not less than 50 years for a concrete, steel, or ductile iron pole and all other utility poles.

(7) A municipal electric utility may not increase the fees charged to broadband providers for pole attachments made between July 1, 2021, and July 31, 2022.

Section 3. This act shall take effect July 1, 2021.

And the title is amended as follows:

Delete everything before the enacting clause

430276

and insert:

A bill to be entitled

An act relating to broadband Internet infrastructure; providing a short title; creating s. 364.0137, F.S.; providing legislative findings; defining terms; requiring municipal electric utilities to provide a specified promotional rate to broadband providers for wireline attachments made in unserved or underserved areas within the utility's service area; requiring the broadband provider to submit an application that meets certain requirements to receive the promotional rate; requiring municipal electric utilities to provide certain information regarding connections made available to broadband providers to the Office of Broadband within the Department of Economic Opportunity; providing requirements for the promotional rate; requiring the local technology planning teams within the office to provide support to rural communities regarding broadband service availability; requiring wireline attachments to comply with certain safety and engineering standards; authorizing a municipal electric utility to require a broadband provider to reimburse the electric utility for the replacement of utility poles under certain circumstances; defining the term "useful life"; prohibiting a municipal electric utility from increasing pole attachment fees during a specified timeframe; providing an effective date.

By the Committee on Finance and Tax; and Senators Burgess, Diaz, and Albritton

593-03645-21 20211592c1

A bill to be entitled

An act relating to broadband Internet infrastructure; providing a short title; amending s. 212.08, F.S.; exempting the purchase or lease of certain equipment by a provider of communications services or a provider of Internet access services in this state from the sales and use tax; providing exceptions; defining terms; creating s. 364.0137, F.S.; providing legislative findings; defining terms; requiring municipal electric utilities to ensure that their broadband provider rates and fees meet certain requirements, make certain records available to broadband providers, provide access to its utility poles, and establish just and reasonable terms and conditions for broadband provider attachments; providing a process for a municipal electric utility and a broadband provider to enter into pole attachment agreements; prohibiting municipal electric utilities from prohibiting a broadband provider from using certain techniques and equipment if used in accordance with certain safety standards; providing an application process and timelines for pole access between a municipal electric utility and a broadband provider; authorizing a broadband provider seeking a new pole attachment to invoke the Florida one-touch, make-ready process; providing requirements for such process; authorizing a municipal electric utility to make periodic inspections of a broadband provider's attachments; requiring the broadband provider to

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

593-03645-21 20211592c1

reimburse the municipal electric utility for certain costs relating to such inspections; authorizing a municipal electric utility to conduct audits of such attachments according to a specified timeframe; requiring advanced written notice of such inspections or audits; providing for the removal of pole attachments within a specified timeframe upon unresolved disputes; prohibiting a municipal electric utility from charging additional rent or requiring prior approval or applications for overlashes; requiring any billed costs to be commercially reasonable, nondiscriminatory, and sufficiently detailed; authorizing municipal electric utilities and broadband providers to seek any available remedies; authorizing the Department of Revenue to adopt emergency rules; providing that such rules are effective for a specified timeframe and may be renewed; providing an effective date.

WHEREAS, although this state is a national leader in private sector broadband investment, including billions of dollars invested by existing service providers, estimates show that as many as 804,000 residents lack access to the services, particularly in rural areas where the cost to deploy facilities is significantly higher than in more densely populated areas, and

WHEREAS, the lack of advanced communication capabilities, broadband facilities, and services in certain areas deprives residents of access to opportunities, and

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

WHEREAS, the Legislature finds that it is in the public interest of this state to encourage private-sector investment in broadband deployment and upgrades, encourage greater participation and access for all residents, and remove regulatory and economic barriers to such investment, and

WHEREAS, the Legislature finds that it is in the public interest of this state to encourage and facilitate the development of and investment in broadband facilities to advance Florida's economic competitiveness, create job opportunities, enhance health care, and enhance educational advancement, and

WHEREAS, the Legislature finds that reasonable rates, terms, and conditions for access and use of municipal utility poles by broadband service providers are essential for the deployment, upgrade, and maintenance of broadband service, and

WHEREAS, it is critical that such access rates, terms, and conditions be reasonable and fully compensatory, as approved by the federal pole attachment regime imposed by the Communications Act of 1934, as amended, 47 U.S.C. s. 224, and the rules and regulations of the Federal Communications Commission governing utilities whose pole attachments are regulated under federal law, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. This act may be cited as the "Florida Broadband Deployment Act of 2021."

Section 2. Paragraph (ppp) is added to subsection (7) of section 212.08, Florida Statutes, to read:

212.08 Sales, rental, use, consumption, distribution, and

storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(7) MISCELLANEOUS EXEMPTIONS.—Exemptions provided to any entity by this chapter do not inure to any transaction that is otherwise taxable under this chapter when payment is made by a representative or employee of the entity by any means, including, but not limited to, cash, check, or credit card, even when that representative or employee is subsequently reimbursed by the entity. In addition, exemptions provided to any entity by this subsection do not inure to any transaction that is otherwise taxable under this chapter unless the entity has obtained a sales tax exemption certificate from the department or the entity obtains or provides other documentation as required by the department. Eligible purchases or leases made with such a certificate must be in strict compliance with this subsection and departmental rules, and any person who makes an exempt purchase with a certificate that is not in strict compliance with this subsection and the rules is liable for and shall pay the tax. The department may adopt rules to administer this subsection.

(ppp) *Equipment purchased or leased in this state by a provider of communications services or a provider of Internet access services.—*

1. The purchase or lease of qualifying equipment by a provider of communications services or Internet access services is exempt from the tax imposed by this chapter.

2. The exemption provided by this paragraph does not apply to the purchase or lease of any of the following:

a. Real property;

b. Improvements to real property;

c. Office furniture and fixtures;

d. General office equipment and machinery that is not used to provide communications services or Internet access services;

e. Vehicles;

f. Customer premise equipment; or

g. Facilities used to distribute signals beyond the central office, headend, or hub facilities, including fiber optic, coaxial, or other transmission cables; amplifiers; taps; and customer drops.

3. The exemption provided by this paragraph does not apply to the tax levied by s. 212.031.

4. As used in this paragraph, the term:

a. "Central office" means the location where telephone subscribers' lines are joined to switching equipment to connect subscribers to each other, locally and long distance. Central office equipment includes, but is not limited to, switches, cable distribution frames, and batteries.

b. "Communications services" has the same meaning as in s. 202.11(1).

c. "Headend" means the primary location in a communications provider's network which receives television programming signals through satellite antennae or fiber optic cables for distribution to the customer premises through a distribution network. Headend equipment includes, but is not limited to, computer-based electronic equipment that receives programming

signals and uses prescribed processes to combine, amplify, and convert the programming signals and transmit them through the distribution network. The headend processes and combines signals for distribution to hubs or directly to customer premises. In most cases, the headend also serves as a distribution hub for the fiber optic transfer nodes closest to the headend. The term also includes a super headend, which processes all incoming programming signals and transmits them to regional headends or directly to hubs.

d. "Hub" means the secondary location in a communications provider's network which is connected to the headend by a fiber optic or other cable. A hub may contain electronic equipment that processes, converts, and transmits signals through the distribution network, and can serve a large number of business and residential communities.

e. "Internet access service" has the same meaning as in s. 202.11(6) and only applies to services that provide access to the Internet with a capacity for transmission at a consistent speed of at least 25 megabits per second download and 3 megabits per second upload.

f. "Provider of communications services or Internet access services" includes a dealer as defined in s. 202.11(2), a provider of Internet access service, and any member of an affiliated group as defined in s. 202.37(1)(c)2.

g. "Qualifying equipment" means equipment, machinery, software, or other infrastructure used to provide communications services or Internet access services and located within a central office, headend, or hub operated by a provider of communications services or Internet access services.

Section 3. Section 364.0137, Florida Statutes, is created to read:

364.0137 Broadband service infrastructure.—

(1) The Legislature finds that just, reasonable, and nondiscriminatory rates, terms, and conditions for the access and use of municipal electric utility poles by broadband service providers is essential to deploy, upgrade, and maintain broadband service to residents of this state. It is critical that municipal electric utility pole access and use rates are just, reasonable, nondiscriminatory, and fully compensatory, which may be achieved under the federal framework applicable to utility poles owned and operated by investor-owned utilities. The terms and conditions associated with the access and use of utility poles must be consistent with 47 U.S.C. s. 224, the Communications Act of 1934, as amended, and the regulations of the Federal Communications Commission as those regulations existed on July 1, 2021, except as authorized by this section and agreed to by the parties.

(2) As used in this section, the term:

(a) "Attachment" means a wire or cable affixed to a utility pole or structure in the communications space or in a duct, conduit, or right-of-way owned or controlled by a municipal electric utility.

(b) "Broadband provider" means a person who provides fixed, terrestrial broadband service. The term includes a person who provides or offers additional services to the public in addition to broadband service.

(c) "Broadband service" means a service that provides high-speed access to the Internet at a rate of at least 25 megabits

per second in the downstream direction and at least 3 megabits per second in the upstream direction.

(d) "Communications space" means the lower usable space on a utility pole which is typically reserved for low-voltage communications equipment.

(e) "Complex make-ready work" means transfers and work within the communications space which would be reasonably likely to cause a service outage or facility damage, including work such as splicing of any communication attachment or relocation of existing wireless attachments. The term includes any and all wireless activities, including those involving mobile, fixed, and point-to-point wireless communications and wireless service providers, and any work involving the space above the safety space as defined in the National Electrical Safety Code.

(f) "Larger order" means a pole attachment application requesting access to a number of poles greater than the lesser of 300 poles or 0.5 percent of a municipal electric utility's poles, and up to the lesser of 3,000 poles or 5 percent of the municipal electric utility's poles. For purposes of determining whether a request is a larger order, a municipal electric utility may treat multiple requests from a single new attacher as one request when the requests are filed within 30 days of one another.

(g) "Make-ready work" means engineering or construction activities necessary to make a pole or similar structure available for a new pole attachment or pole attachment modification, including, but not limited to, rearrangement, removal, and replacement of the pole, transfers, and other work incident thereto.

(h) "Redundant pole" means a utility pole designated for removal from which the municipal electric utility has removed its facilities and provided written notice to the broadband service provider that the provider needs to remove its facilities.

(i) "Simple make-ready work" means work in the communications space to accommodate a new pole attachment on a pole which can be conducted without any reasonable expectation of a:

1. Service outage or facility damage;

2. Need to splice an existing communications attachment; or

3. Need to relocate an existing wireless attachment.

(j) "Utility pole" means a pole owned or controlled by a municipal electric utility which is used in whole or in part for electric distribution.

(3) To promote the deployment of broadband service to all residents, each municipal electric utility shall:

(a) Charge just, reasonable, and nondiscriminatory rates for access to any utility pole it owns or operates which do not discriminate between or among such providers and any other attaching entity, including any entity affiliated with the municipal electric utility, regardless of the services furnished. Except as provided in subsection (4), such rates may not exceed the rate calculated consistent with 47 U.S.C. 224(d) and any Federal Communications Commission regulations and decisions adopted thereunder as such regulations and decisions existed on July 1, 2021.

(b) Maintain and make available to a broadband provider all records necessary to calculate the rate it charges to the

provider in accordance with paragraph (a).

(c) Provide broadband providers with access to any utility pole it owns or operates and adopt just, reasonable, and nondiscriminatory terms and conditions for such access consistent with the requirements applicable to investor-owned utilities under 47 U.S.C. s. 224 and any Federal Communications Commission regulations and decisions adopted thereunder, as such regulations and decisions existed on July 1, 2021, except as otherwise provided in this section and agreed to by the parties. Notwithstanding the foregoing:

1. If necessary to accommodate a broadband provider's new attachment, the municipal electric utility shall rearrange, expand, replace, or otherwise safely reengineer any utility pole upon the request of the broadband provider.

2. If the municipal electric utility is required to replace a utility pole pursuant to subparagraph 1., the municipal electric utility may require a broadband provider to reimburse reasonable costs attributable solely to the new attachment. Broadband providers may not be required to pay for the cost of utility betterment or for costs attributable to preexisting noncompliance.

(4) A municipal electric utility may require a broadband provider to enter into a pole attachment agreement to attach to a utility pole the municipal electric utility owns or operates, and the parties shall negotiate such agreements in good faith.

(a) Broadband providers and municipal electric utilities shall negotiate in good faith to adopt pole attachment agreements consistent with this section or to amend existing agreements to ensure that attachments installed after July 1,

2021, are performed consistent with the terms of this section. The parties must negotiate in good faith for at least 60 days after receipt of a written request, after which either party may petition the circuit court to determine rates, terms, and conditions for the agreements consistent with this section.

(b) A municipal utility may not require a broadband provider to comply with any utility pole attachment specifications except as provided in this section.

1. A municipal electric utility may adopt publicly available, reasonable, and nondiscriminatory safety and engineering standards for the protection of public health, safety, or welfare applicable to attachments to the municipal electric utility's poles.

2. Safety and engineering standards adopted pursuant to this section may not exceed the specifications in the National Electrical Safety Code, applicable fire safety codes, or any building code or publicly available, reasonable, and nondiscriminatory municipal electric utility safety and engineering standards for the protection of public health, safety, or welfare adopted before the broadband provider filed a utility pole attachment application.

(5) If a broadband provider does not request to use one-touch, make-ready procedures pursuant to subsection (6), or if such procedures are unavailable due to the nature of the make-ready work required to accommodate a broadband provider's attachment, a municipal electric utility and broadband provider shall conduct the pole access process as provided under this subsection.

(a) An application is deemed complete if the municipal

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

electric utility does not respond within 10 business days or if the response does not specify any reasons why the application is incomplete. Preconstruction surveys and engineering must be completed within 45 days or within 60 days for larger orders.

(b) If a municipal electric utility grants a pole attachment application that requires make-ready work, the municipal electric utility shall identify any make-ready work necessary to accommodate the proposed pole attachment, on a pole-by-pole basis if requested, along with a cost estimate, within 15 days after the date of approval of the pole attachment application. A municipal electric utility may withdraw an outstanding estimate beginning 15 days after the estimate is presented except that such time must be tolled during any good faith negotiation concerning the estimate cost or timing.

(c) Upon receipt of payment of the estimate, a municipal electric utility shall immediately notify in writing all known entities with existing attachments which may be affected by the make-ready work.

(d)1. Except as provided in paragraph (e), make-ready work must be commenced within 20 business days after the date the applicant made payment for the make-ready work estimate, and must be completed in a timely manner, at a reasonable cost, and as reasonably practicable, but not later than:

a. For applications requesting attachment to the lesser of 300 poles or 0.5 percent of the electric utility's poles in any 30-day period, 30 days or 90 days for attachments above the communications space.

b. For larger orders, 75 days or 105 days for attachments above the safety space.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

2. If an application seeks attachment to a number of poles exceeding a larger order, the parties shall negotiate a reasonable timeframe for completion of the make-ready work covered by the application.

(e) A municipal electric utility may deviate from the timelines set forth in paragraph (d) if the parties otherwise agree in their pole attachment agreement, or for good and sufficient cause that renders it infeasible to complete the make-ready work within the time limits set forth in this section, including incidents of natural disasters and emergencies.

(f) If a municipal electric utility or any existing attachers fail to complete a survey necessary to the review of an application or to complete make-ready work within the times specified in this section, a broadband provider may hire a contractor to perform such survey or make-ready work.

(g) A new attacher shall provide the affected municipal electric utility and existing attachers with advance notice of not less than 5 days of the impending make-ready work and within 15 days after completion of make-ready work on a particular pole. The municipal electric utility and affected existing attachers shall inspect the make-ready work within 90 days after receipt of notice.

(h) The new attacher shall notify an affected utility or existing attacher immediately if make-ready work damages the equipment of a utility or an existing attacher or causes an outage that is reasonably likely to interrupt the service of a utility or an existing attacher. Upon notice or discovery of damage or noncompliance caused by the new attacher, the utility

or existing attacher may either:

1. Complete any necessary remedial work and bill the new attacher for the reasonable costs related to fixing the damage; or

2. Require the new attacher to fix the damage at its expense immediately following notice from the utility or existing attacher.

(6) A broadband provider seeking a new pole attachment may elect to invoke the Florida one-touch, make-ready (FOTMR) process pursuant to this subsection.

(a) Any FOTMR pole attachment application must identify the make-ready work to be performed and must state that the make-ready work required for every utility pole in the application does not require anything more than simple make-ready work. It is the responsibility of the broadband provider to ensure that the make-ready work requested in an attachment application is simple make-ready work and not complex make-ready work.

(b) A municipal electric utility shall review a new FOTMR pole attachment application for completeness. An application is deemed complete if the municipal electric utility does not respond within 10 business days after receipt of the application or if the response does not specify any reasons why the application is incomplete.

(c) A municipal electric utility shall review a completed application requesting FOTMR and respond to the applicant either granting or denying an application within 15 days after the municipal electric utility's receipt of a complete application or 30 days after for a larger order.

(d) The municipal electric utility or an existing attacher

may object in writing to the applicant's designation that certain aspects of the work required is simple make-ready work. If the municipal electric utility or existing attacher reasonably objects, then the work is deemed complex make-ready work and the FOTMR process is not available to the broadband provider and the application must be processed under the standard make-ready provisions.

(e) The new attacher is responsible for coordinating all surveys as part of the FOTMR process and shall use a qualified contractor as set forth in this section. The new attacher shall make commercially reasonable efforts to provide at least 3 business days advance notice to the municipal electric utility and existing attachers to allow them to be present for any surveys performed in advance of the FOTMR application.

(f) If the new attacher's application is approved and if it has provided 15 days prior written notice of the date, time and nature of the make-ready work to the affected municipal electric utility and existing attaching entities, the new attacher may proceed with the make-ready work using a qualified contractor.

(g) The new attacher shall notify any affected municipal electric utility or existing attaching entity immediately if the make-ready work performed damages any equipment or facilities of the municipal electric utility or of an existing attaching entity. Upon receiving notice from the applicant, the municipal electric utility or existing attaching entity may each make the decision to:

1. Complete any necessary remedial work and bill the applicant for the actual costs incurred related to fixing the damage or outage; or

2. Require the applicant to fix the damage or outage at its expense immediately following the notice from the municipal electric utility or any existing attacher.

(h) The new attacher shall notify the municipal electric utility and existing attachers within 15 days after the make-ready work is completed on a particular pole, and the municipal electric utility and existing attachers shall have 90 days after receipt of the notice to inspect the make-ready work at the new attacher's cost. The municipal electric utility and existing attaching entities may complete any necessary remedial work and bill the applicant for the actual cost incurred or require the applicant the fix the damage or code violations at its expense within 14 days after notice from the pole owner or existing attaching entity.

(7)(a) A municipal electric utility may make periodic inspections of a broadband provider's attachments, using its own employees or contractors, and such broadband provider shall reimburse the municipal electric utility for the actual and reasonable expense of such inspections, but only for the costs of inspecting the poles on which the broadband provider is found to be in violation of the National Electrical Safety Code or publicly available, reasonable, and nondiscriminatory municipal electric utility safety and engineering standards for the protection of public health, safety, or welfare permitted by this section.

(b) No more frequently than once every 5 years, a municipal electric utility may conduct an audit of a broadband provider's attachments, with the reasonable cost of the audit of the broadband provider's attachments to be borne by the broadband

provider. If the results of the pole audit show attachments to poles by the broadband service provider not previously authorized by the municipal electric utility, such poles must be added to the next annual rent invoice and the municipal electric utility may require the broadband service provider to pay up to 5 years' back rent for attachments to all such poles not previously authorized as required by the agreement in effect at the time of the attachment.

(c) The municipal electric utility shall give a broadband provider reasonable advance written notice of such audits or inspections, except in those instances where safety considerations justify the need for such inspection without the delay of waiting until written notice has been received.

(8) If a municipal electric utility pole owner and any attacher cannot reach an agreement or have a dispute related to facilities attached to a redundant pole:

(a) A broadband service provider must remove its pole attachments from a redundant pole within 120 calendar days after receipt of written or electronic notice consistent with industry standards from the pole owner requesting such removal which notice includes the pole number, physical address, and GIS coordinates of such pole.

(b) If a broadband service provider fails to remove a pole attachment pursuant to paragraph (a), except to the extent excused by an event of force majeure or other good cause, the pole owner or its agent may transfer or relocate the pole attachment to a new pole at the noncompliant attaching entity's expense or, if no new pole exists because the municipal electric utility has relocated its facilities underground, remove the

pole attachment and store the attached facility for 60 days.

(c) The broadband service provider shall indemnify, defend, and hold harmless the pole owner and its directors, officers, agents, and employees from and against all liability for direct damage and personal injury caused by the removal, transfer, sale, or disposal of the pole attachments from a redundant pole by the pole owner except to the extent of the municipal electric utility's negligence or willful misconduct.

(9) Municipal electric utilities may not charge additional rent or require prior approval or applications for a broadband provider that overlashes its existing wires on a pole. Municipal electric utilities may require up to 15 days' advance notice of planned overlashing. A party that engages in overlashing is responsible for its own equipment and shall ensure that it complies with National Electrical Safety Code and publicly available, reasonable, and nondiscriminatory municipal electric utility safety and engineering standards for the protection of public health, safety, or welfare permitted by this section.

(10) Municipal electric utilities and broadband providers are responsible for their own costs related to utility poles and attachments, except as specifically provided herein. Any costs billed in connection with pole attachments must be commercially reasonable and nondiscriminatory, and must include sufficient detail to enable the billed party to verify the accuracy and reasonableness of the costs. A municipal electric utility that provides broadband shall impute to itself the costs of providing such services, and charge any affiliate, subsidiary, or associate company engaged in the provision of such services, an equal amount to the pole attachment rate for which such company

would be liable under this section.

(11) A municipal electric utility or broadband provider may seek any available remedies at law or equity for violations of this section. In all cases involving this section, and to the extent not otherwise provided by this section, the court shall give effect to the provisions and intent of 47 U.S.C. s. 224 and any Federal Communications Commission rules, regulations, or decisions adopted thereunder, as such existed on July 1, 2021, or as authorized by this section.

Section 4. (1) The Department of Revenue is authorized, and all conditions are deemed met, to adopt emergency rules pursuant to s. 120.54(4), Florida Statutes, for the purpose of administering this act.

(2) Notwithstanding any other law, emergency rules adopted pursuant to subsection (1) are effective for 6 months after adoption and may be renewed during the pendency of procedures to adopt permanent rules addressing the subject of the emergency rules.

(3) This section shall take effect upon this act becoming a law and expires July 1, 2022.

Section 5. This act shall take effect July 1, 2021.

The Florida Senate

Committee Agenda Request

To: Senator Kelli Stargel, Chair
Committee on Appropriations

Subject: Committee Agenda Request

Date: April 6, 2021

I respectfully request that **Senate Bill #1592**, relating to Broadband Internet Infrastructure, be placed on the:

☐ committee agenda at your earliest possible convenience.

☒ next committee agenda.

Senator Danny Burgess
Florida Senate, District 20

File signed original with committee office

S-020 (03/2004)

YOU MUST PRINT AND DELIVER THIS FORM TO THE ASSIGNED TESTIMONY ROOM

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1606
INTRODUCER:	Governmental Oversight and Accountability Committee and Senator Rodriguez and others
SUBJECT:	Victims of Communism
DATE:	April 16, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Paglialonga	Ryon	CA	**Favorable**
2.	Candelaria	McVaney	GO	**Fav/CS**
3.	Hrdlicka	Sadberry	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1606 establishes November 7, Victims of Communism Day, as a legal and public holiday. The bill's recitals describe the human costs and suffrage that victims of communism have endured. The bill provides that the Legislature shall observe a moment of silence in observance of the victims of communism on the final day of each regular legislative session.

Beginning in the 2022-2023 school year, high students enrolled in the United States Government class as required by s. 1003.4282, F.S., must receive at least 45 minutes of instruction on "Victims of Communism Day."

The bill has an effective date of July 1, 2021.

II. Present Situation:

Legal Holidays and Special Observance Days

Chapter 683, F.S., establishes legal holidays and special observance days in Florida. Legal holidays are listed in s. 683.01, F.S., while ss. 683.04 – 683.333, F.S., establish special observance days.

Section 683.01, F.S., enumerates legal holidays, which are also public holidays, under Florida law. This section also provides that if any legal holiday falls on a Sunday, the next following Monday is deemed a public holiday.[1] Florida currently has 21 legal holidays:

- Sunday, the first day of each week;
- New Year's Day, January 1;
- Birthday of Martin Luther King, Jr., January 15;
- Birthday of Robert E. Lee, January 19;
- Lincoln's Birthday, February 12;
- Susan B. Anthony's Birthday, February 15;
- Washington's Birthday, the third Monday in February;
- Good Friday;
- Pascua Florida Day, April 2;
- Confederate Memorial Day, April 26;
- Memorial Day, the last Monday in May;
- Birthday of Jefferson Davis, June 3;
- Flag Day, June 14;
- Independence Day, July 4;
- Labor Day, the first Monday in September;
- Columbus Day and Farmers' Day, the second Monday in October;
- Veterans' Day, November 11;
- General Election Day;
- Thanksgiving Day, the fourth Thursday in November;
- Christmas Day, December 25; and
- Shrove Tuesday, sometimes also known as "Mardi Gras," in counties where carnival associations are organized for the purpose of celebrating the same.

Under s. 683.02, F.S., whenever a contract is to be performed in the state and reference is made to "legal holidays," the term includes the holidays designated in s. 683.01, F.S., and any other holidays designed in law. Alternatively, a legal holiday designation does not necessarily make a day a paid holiday for public employees. Section 110.117, F.S., establishes which legal holidays are paid holidays for the employees of all state branches and agencies.[2] Likewise, the court system does not necessarily use the legal holidays described in s. 683.01, F.S., while computing time frames for matters in civil and criminal procedure.[3]

Unlike legal holidays, special observances, as provided in ss. 683.04 – 683.333, F.S., do not directly affect the definition of "legal holidays" in contracts. Special observance days may apply throughout the state or they may be limited to particular counties. For example, "Gasparilla Day"[4] is a legal holiday observed only in Hillsborough County, while "Bill of Rights Day,"[5] if issued by the Governor, is observed throughout the state.

---

[1] Section 683.01(2), F.S. The most recent added holiday was Flag Day, added during the 1990 legislative session.
[2] Section 110.117(1), F.S., establishes the following paid holidays: New Year's Day; Martin Luther King Birthday; Memorial Day; Independence Day; Labor Day; Veterans' Day; Thanksgiving Day; the Friday after Thanksgiving; and Christmas Day.
[3] *See R.J. Reynolds Tobacco Co. v. Kenyon*, 826 So.2d 370 (Fla. 2nd DCA 2002); *see also State v. Garber*, 726 So.2d 338 (Fla. 5th DCA 1999).

[5] Section 683.25, F.S.

Communism

Communism is a political and economic philosophy that aims to replace private property and a profit-based economy with public ownership and communal control of the major means of production and society's natural resources. Communism is a form of socialism. Modern communism grew out of the socialist movement in 19th-century Europe. Critics blamed capitalism for the unfavorable and often-hazardous conditions of workers during the Industrial Revolution. As leaders of this socialist movement, Karl Marx and his associate, Friedrich Engels, established the modern definition of communism in their widely circulated pamphlet, The Communist Manifesto.[6]

One explicit facet of the communist theory is that the proletariat (the social class whose only economic asset is their own labor) would capture political power, abolish private property ownership, and take the private property of the bourgeoisie (the social class who own the capital or means of production). Communism postulates that the taking and abolishment of private property by the proletariat would result in shared ownership of the means of production, ushering the world into a communal economic and societal utopia with equality for all.[7]

However, before reaching this utopia, the communist theory suggests that the taking and abolishment of private property will result in a dictatorship of the proletariat. Marx claimed that communism entailed the withering away of the state and that the dictatorship of the proletariat would be a transition phase between the abolishment of capitalism and the establishment of communism.[8] Engels wrote that the only way to achieve the utopia was for 'society' to openly and directly take over the means of production that have outgrown all control, but that of society as a whole. In the communist view, total state-ownership of property is a likely occurrence and a positive sign that a society is progressing toward a communist utopia.[9] As a practical matter, communist movements throughout history have been unable to transition out of State control and dictatorship into the utopia of equality promised by communism and instead devolved into State tyranny and democide.[10]

Bolshevik Revolution

The Bolshevik Revolution, also known as the October Revolution, was the second of two revolutions in Russia in 1917. The Bolshevik Revolution was a socialist-led revolution in Russia against the Duma provisional government. The coup began on November 7, 1917, when the Bolsheviks led the forces into Petrograd, then the capital of Russia. The Bolsheviks occupied government buildings and other locations across Petrograd. The coup led to the Russian Civil War and eventually the creation of the Soviet Union. The event inspired and ignited communist

[10] Democide is "the intentional killing of an unarmed or disarmed person by government agents acting in their authoritative capacity and pursuant to government policy or high command." *See* Harff, Barbara, The Journal of Interdisciplinary History, *Review: Death by Government by R. J. Rummel*, 27 (1):117-119 (1996).

movements across Europe.[11] However, the results of the revolution was not the expected dictatorship of the majority class of proletarians, but instead was one of a political party that claimed to represent proletarian interests.[12]

Victims of Communism

Although living under communism may cause victimization in all areas of life, the absolute use of State power over the individual is easily characterized by the intentional State-sanctioned killing of civilians. One researcher compiled data from 1900 to 1987 related to State-sanctioned killings to provide a metric to consider when reflecting on the victims of communism.[13]

This researcher concluded that the Soviet Union appears to have directly caused the most significant number of victims. The Soviet Union is approximately responsible for the deaths of over 61 million people. "Stalin himself is responsible for almost 43,000,000 of these. Most of the deaths, around 39,000,000, are due to lethal forced labor in gulag and transit thereto."[14] The researcher found that Communist China and the People's Republic of China (PRC) have caused the second most deaths. Communist China (1923 – 1949) was responsible for about 3.5 million and the PRC (1949 – present) was responsible for an additional 35.2 million.[15]

Of the data compiled, the researcher concluded that the most deadly of all communist countries in this century was Cambodia under the Khmer Rouge. Pol Pot and his regime likely killed about 2 million Cambodians from April 1975 through December 1978 out of a population of around 7 million – calculated annually, about 8 percent of the population died each year. During this time, the odds of an average Cambodian surviving Pol Pot's rule was slightly over two to one.[16]

In sum, from 1900 to 1987, communist dictators and regimes were responsible for the death of approximately 110,000,000 individuals.[17] In 1993, Congress made similar findings and authorized a national memorial to honor victims of communism.[18] In addition to death, Congress found that "the imperialist regimes of international communism have brutally suppressed the human rights, national independence, religious liberty, intellectual freedom, and cultured life of the peoples of over 40 captive nations." The purpose of the memorial is to permanently honor the sacrifices of these victims "so that never again will nations and peoples allow so evil a tyranny to terrorize the world." The Victims of Communism Memorial Foundation was created in response as an educational, research, and human rights nonprofit organization.[19]

Victims of Communism Day

The first national Victims of Communism Day was November 7, 2017. Currently, three states have officially recognized November 7 as Victims of Communism Day and ten other states currently have legislation filed to follow suit.[20]

Requirements for a Standard High School Diploma

Beginning with students entering grade 9, receipt of a standard high school diploma requires successful completion of 24 credits, an International Baccalaureate curriculum, or an Advanced International Certificate of Education curriculum. Of the 24 required credits, three credits must be social studies. A student must earn one credit in United States History, one-half credit in Economics, and one-half credit in United States Government.[21]

III. Effect of Proposed Changes:

Section 1 amends s. 683.01, F.S., to establish November 7, Victims of Communism Day, as a legal and public holiday. Pursuant to s. 683.02, F.S., this holiday will be included as a holiday in any reference to "legal holidays" made by a contract meant to be performed in the state.

Section 2 provides that the Legislature shall observe a moment of silence in observance of the victims of communism on the final day of each regular legislative session.

Section 3 provides that beginning in the 2022-2023 school year, high school students enrolled in the United States Government class as defined in s. 1003.4282, F.S., must receive at least 45 minutes of instruction on Victims of Communism Day. Instruction includes topics such as Mao Zedong, Joseph Stalin and the Soviet System, Fidel Castro and the Cuban Revolution, Vladimir Lenin and the Russian Revolution, Ho Chi Minh in Vietnam, and Nicolas Maduro in Venezuela and how the victims suffered under these regimes through suppression of speech, poverty, starvation, migration, and systematic lethal violence against civilians.

Section 4 provides an effective date of July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable. This bill does not require counties or municipalities to take an action requiring the expenditure of funds, reduce the authority that counties or municipalities have to raise revenue in the aggregate, nor reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

None.

[20] Victims of Communism Memorial Foundation, *Victims of Communism Memorial Day*, *available at*: https://victimsofcommunism.org/programs/memory/voc-day/ (last visited April 14, 2021).
[21] Section 1003.4282, F.S.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 683.01 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Governmental Oversight and Accountability on March 24, 2021:
The CS provides that beginning in the 2022-2023 school year, high school students enrolled in the United States Government class as required by s. 1003.4282, F.S., must receive at least 45 minutes of instruction on "Victims of Communism Day."

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Governmental Oversight and Accountability; and Senators Rodriguez, Garcia, Hutson, and Rodrigues

585-03333-21 20211606c1

A bill to be entitled

An act relating to victims of communism; amending s. 683.01, F.S.; establishing November 7 as the Victims of Communism legal holiday; requiring the Legislature to annually observe a moment of silence in observance of the victims of communism; requiring high school students in a United States Government course to receive certain instruction on "Victims of Communism Day"; providing an effective date.

WHEREAS, over 100 years have passed since the Bolshevik Revolution in Russia and the formation of the first communist government under Vladimir Lenin, leading to decades of oppression and violence under communist regimes throughout the world, and

WHEREAS, based on the economic philosophies of Karl Marx, communism has proven incompatible with the ideals of liberty, prosperity, and dignity of human life and has given rise to such infamous totalitarian dictators as Joseph Stalin, Mao Zedong, Hồ Chí Minh, and Pol Pot, and

WHEREAS, communist regimes worldwide have killed more than 100 million people and subjected countless others to exploitation and unspeakable atrocities, with victims representing many different ethnicities, creeds, and backgrounds, and

WHEREAS, through false promises of equality and liberation, communist regimes have systematically robbed their own citizens of the rights of freedom of worship, freedom of speech, and freedom of association through coercion, brutality, and fear,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

585-03333-21 20211606c1

and

WHEREAS, many victims of communism were persecuted as political prisoners for speaking out against these regimes, and others were killed in genocidal state-sponsored purges of undesirable groups, and

WHEREAS, in addition to violating basic human rights, communist regimes have suppressed intellectual freedom, cultural life, and self-determination movements in more than 40 nations, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present paragraphs (q) through (u) of subsection (1) of section 683.01, Florida Statutes, are redesignated as paragraphs (r) through (v), respectively, and a new paragraph (q) is added to that subsection, to read:

683.01 Legal holidays.—

(1) The legal holidays, which are also public holidays, are the following:

(q) Victims of Communism Day, November 7.

Section 2. The Legislature shall, on the final day of each regular legislative session, observe a moment of silence in observance of the victims of communism.

Section 3. Beginning in the 2022-2023 school year, high school students enrolled in the United States Government class required by s. 1003.4282, Florida Statutes, must receive at least 45 minutes of instruction on "Victims of Communism Day" on topics such as Mao Zedong in China, Joseph Stalin and the Soviet System, Fidel Castro and the Cuban Revolution, Vladimir Lenin

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

and the Russian Revolution, Ho Chi Minh in Vietnam, and Nicolas Maduro in Venezuela and how the victims suffered under these regimes through suppression of speech, poverty, starvation, migration, and systemic lethal violence against civilians.

Section 4. This act shall take effect July 1, 2021.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1616 revises several provisions of the part I of chapter 287, Florida Statutes, related to public procurement. The bill requires the Secretary of Management Services, rather than the Department of Management Services (DMS), make a written determination finding a contract to be cost effective and the best value to the state before an agency may be authorized to enter such contract let by the Federal Government, another state, or a political subdivision.

The bill provides that each agency contract must include authorization for the agency to inspect certain financial and programmatic records of the contractor relevant to the performance of the contract.

The bill requires an agency that issues a request for quote for contractual services for any state term contract with 25 vendors or fewer to issue a request to *all* approved vendors. For state term contracts with more than 25 vendors, the agency must issue a request to a minimum of 25 approved vendors.

The bill provides for the immediate disqualification from state term contract eligibility for a firm or individual who has been removed from the source of supply or placed on the convicted vendor list or the discriminatory vendor list.

The bill changes the electronic posting requirement for single source contracting from seven to 15 days and to require agencies report – on a quarterly basis – to the DMS each instance in which the agency entered into a single source purchase contract. The DMS is required to report such information to the Governor and the Legislature no later than January 1, 2022, and each January thereafter.

The bill restricts an agency from initiating a competitive solicitation that would require a change in law or change to the agency's budget, unless specifically authorized.

This bill amends the provision governing an agency's designation of a contract manager to prohibit a contract manager from having been employed, within the previous five years, by the vendor awarded the contractual services contract that he or she is assigned. The bill provides for primary responsibilities of a contract manager.

Current law requires the Chief Financial Officer provide training for accountability in contracts and grant management for a contract manager responsible for contracts in excess of the threshold amount for category two ($35,000). The bill requires the Chief Financial Officer to evaluate this training every five years.

Current law requires a contract manager who is responsible for contracts over $100,000 annually to complete training in contract management and become a certified contract manager. The bill requires this training to be completed within six months. The bill provides that in addition to the training provided under current law, such a contract manager must also complete the accountability in contracts and grant management training. The DMS is responsible for disseminating the training and certification requirements for certified contract managers and is required to evaluate the training every five years.

The bill provides that a contract manager who is responsible for contracts in excess of $10 million annually, in addition to completing the accountability in contracts and grant management training and the contract management training and certification requirements, must possess at least five years of experience managing contracts in excess of $5 million annually.

The bill permits a designated contract administrator to also serve as the contract manager for contracts less than $500,000 annually, if he or she has completed the required training. For contracts in excess of $500,000 annually, the contact administrator is prohibited from serving in both capacities.

The bill specifies that for contracts in excess of $195,000 (category four threshold), the agency head must appoint at least three persons to *independently* evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for the commodity or contractual services sought. The bill specifies that a negotiation *team* conduct negotiations during a competitively sealed reply procurement. For a competitively procured contract in excess of $1 million in any fiscal year, the negotiation team must include a certified contract negotiator.

Current law provides that for contracts in excess of $10 million in any fiscal year, at least one person conducting negotiations must be a Project Management Professional. The bill specifies

that such Project Management Professional must provide guidance based on his or her experience, education, and competency to lead and direct complex projects.

The bill requires the DMS to establish and disseminate the training and certification requirements for certified contract negotiators. The bill provides for certification renewal and qualification requirements for certification. The DMS must evaluate such training every five years.

The bill provides that, beginning July 1, 2022, any person who supervises certain contract administrators or contract or grant managers to annually complete public procurement training for supervisors within 12 months of appointment to the supervisory position. The DMS is responsible for establishing and disseminating the training course content required for supervisors.

The bill requires a head of an agency to establish a four person "continuing oversight team" for each contractual services contract in excess of $5 million. The bill requires the teams to meet to discuss the status of the contract, the pace of deliverables, the quality of deliverables, contractor responsiveness, and contractor performance; and requires the team to provide written notice to the agency head, the DMS, the Office of Policy and Budget within the Executive Office of the Governor, and the legislative appropriations committees in certain instances.

The bill provides that a contract may not contain a nondisclosure clause exempting certain information.

The bill provides that a vendor who is placed on the suspended vendor list is disqualified from bidding on or renewing a contract with the state and provides a mechanism for a vendor to petition for removal from the suspended vendor list.

The bill requires each agency inspector general to complete a risk based compliance audit of all contracts executed by the agency for the preceding three fiscal years and requires the audit to identify and evaluate any trend in vendor preference.

The bill makes conforming statutory changes.

The bill will have an indeterminate negative fiscal impact. *See* Part V, Fiscal Impact Statement.

The bill takes effect on July 1, 2021.

II. Present Situation:

Procurement of Commodities and Services

Chapter 287, F.S., regulates state agency procurement of personal property and services. The term "agency" is defined broadly to mean any unit of the executive branch of state government.[1]

[1] Section 287.012(1), F.S. The term "agency" is defined as "any of the various state officers, departments, boards, commissions, divisions, bureaus, and councils and any other unit of organization, however designated, of the executive

The Department of Management Services (DMS) is responsible for overseeing state purchasing activity, including professional and contractual services, as well as commodities needed to support agency activities.[2] The agency head of the DMS is the "Secretary of Management Services" who is appointed by the Governor, subject to confirmation by the Florida Senate, and serves at the pleasure of the Governor.[3]

The DMS is authorized to evaluate contracts let by the federal government, another state, or a political subdivision for the provision of commodities and contract services and, when it is determined to be cost effective and in the best interest of the state, to enter into written agreement authorizing a state agency to make purchases under such contract.[4] The DMS negotiates contracts and purchasing agreements that are intended to leverage the state's buying power.

Section 287.017, F.S., establishes the following purchasing categories, which are threshold amounts linked to other requirements in ch. 287, F.S.:

- Category one: $20,000.
- Category two: $35,000.
- Category three: $65,000.
- Category four: $195,000.
- Category five: $325,000.

Written Agreements for Procurements Exceeding $35,000

Every procurement for contractual services in excess of the threshold amount in category two, $35,000, with certain exceptions[5], must be evidenced by a written agreement embodying all provisions and conditions of the procurement of such services.[6] The provisions and conditions must, where applicable, include, but are not limited to a provision:

- That bills for fees or other compensation for services or expenses are to be submitted in detail sufficient for a proper preaudit and postaudit thereof.[7]
- That bills for travel expenses are to be submitted in accordance with statutory procedures.[8]
- Allowing unilateral cancellation by the agency for refusal by the contractor to allow public access to all documents, papers, letters, or other material made or received by the contractor in conjunction with the contract, unless the records are exempt from provisions governing the inspection and copying of public records.[9]

branch of state government. "Agency" does not include the university and college boards of trustees or the state universities and colleges."

[2] *See* ss. 287.032 and 287.042, F.S.

[3] Section 20.22(1), F.S.

[4] Section 287.042(16), F.S.

[5] Excepting providing of health and mental health services or drugs in the examination, diagnosis, or treatment of sick or injured state employees or the providing of other benefits as required by the Workers' Compensation Law.

[6] Section 287.058(1), F.S.

[7] Section 287.058(1)(a), F.S.

[8] Section 287.058(1)(b), F.S., referring to s. 112.061, F.S., and providing further that a state agency may establish rates lower than the maximum provided in that statute.

[9] Section 287.058(1)(c), F.S., referring to Art. I, § 24(a), Fla. Const., and s. 119.07(1), F.S.

- Specifying a scope of work that clearly establishes all tasks the contractor is required to perform.[10]
- Dividing the contract into quantifiable, measurable, and verifiable units of deliverables that must be received and accepted in writing by the contract manager before payment; each deliverable must be directly related to the scope of work and specify a performance measure, that is, the required minimum acceptable level of service to be performed and criteria for evaluating the successful completion of each deliverable.[11]
- Specifying the criteria and the final date by which such criteria must be met for completion of the contract.[12]
- Specifying that the contract may be renewed for a period that may not exceed three years or the term of the original contract, whichever is longer, specifying the renewal price for the contractual service as set forth in the bid, proposal, or reply; specifying that costs for the renewal may not be charged; and specifying that renewals are contingent upon satisfactory performance evaluations by the agency and subject to the availability of funds.[13]
- Specifying the financial consequences that the agency must apply if the contractor fails to perform in accordance with the contract.[14]
- Addressing the property rights of any intellectual property related to the contract and the specific rights of the State regarding the intellectual property if the contractor fails to provide the services or is no longer providing services.[15]

The written agreement must be signed by the agency head or designee and the contractor before the rendering of any contractual service in excess of $35,000.[16,17] Unless otherwise provided in the General Appropriations Act (GAA) or the substantive bill implementing the GAA, the Chief Financial Officer (CFO) may waive these requirements for services, which are included in law for procurement of commodities or contractual services.[18] A contract may not prohibit a contractor from lobbying the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding any contract to which the contractor and a state agency are parties, after contract execution and during the contract term.[19]

Each public agency contract for services must authorize the public agency to inspect the:

- Financial records, papers, and documents of the contractor that are directly related to the performance of the contract or the expenditure of state funds.

[10] Section 287.058(1)(d), F.S.
[11] Section 287.058(1)(e), F.S.
[12] Section 287.058(1)(f), F.S.
[13] Section 287.058(1)(g), F.S., noting, however, that exceptional purchase contracts pursuant to ss. 287.057(3)(a), and 287.057(3)(c), F.S., may not be renewed. *See* Florida Dept. of Highway Safety and Motor Vehicles v. National Safety Com'n, Inc., 75 So. 3d 298 (Fla. 1st DCA 2011) (The purpose of the statute allowing state procurement contracts to include a renewal provision is to exempt the parties from the competitive bidding process for a limited time if they are mutually satisfied with the agreement; it does not guarantee any vendor the right to continue to do business with the State beyond the original term of the contract.).
[14] Section 287.058(1)(h), F.S.
[15] Section 287.058(1)(i), F.S.
[16] There is an exception in the case of a valid emergency as certified by the agency head.
[17] Section 287.058(2), F.S.
[18] Section 287.058(5), F.S.
[19] Section 287.058(6), F.S.

- Programmatic records, papers, and documents of the contractor that the public agency determines are necessary to monitor the performance of the contract or to ensure that the terms of the contract are being met. [20]

The contract must require the contractor to provide the records, papers, and documents requested by the public agency within 10 business days after the request is made.[21]

Contract Renewals

Current law allows contracts for commodities or contractual services to be renewed for a period that does not exceed three years or the term of the original contract, whichever is longer.[22] Renewal of a contract for commodities or contractual services must be in writing and is subject to the same terms and conditions set forth in the initial contract and any written amendments signed by the parties.[23] A renewal contract may not include any compensation for costs associated with the renewal, is contingent upon satisfactory performance evaluations by the agency, and is subject to the availability of funds.[24]

If a contract amendment results in a longer contract term or increased payments, an agency may not renew or amend a contract for the outsourcing of a service or activity that has an original term value exceeding $10 million before submitting a written report concerning contract performance to the Governor, the President of the Senate, and the Speaker of the House of Representatives.[25] The written report must be submitted at least 90 days before execution of the renewal or amendment.

Alternate Contract Sources

The DMS must evaluate contracts let by the Federal Government, another state, or a political subdivision for commodities or contractual services, often referred to as alternate contract sources to determine if the contracts are cost-effective and in the best interest of the state. If the DMS makes such determination in writing, then an agency may make purchases under the contract.[26]

State Term Contracts & Request for Quotes

Section 287.056, F.S., requires agencies and permits eligible users[27] to purchase commodities and contractual services from purchasing agreements and state term contracts[28] procured by the DMS.

---

[20] Section 216.1366(1), F.S.
[21] Section 216.1366(2), F.S.
[22] Section 287.57(13), F.S.
[23] *Id.*
[24] *Id.*
[25] *Id.*
[26] Section 287.042(16), F.S.; *see* Agency Alternate Contract Source (ACS) Requests, available at *https://www.dms.myflorida.com/business_operations/state_purchasing/state_agency_resources/agency_alternate_contract_source_acs_requests*.
[27] Section 287.012(11), F.S., defines "eligible user" to mean any person or entity authorized by the Department of Management Services (DMS) pursuant to rule to purchase from state term contracts or to use the online procurement system.
[28] Section 287.012(28), F.S., defines "state term contract" to mean a term contract that is competitively procured by the DMS pursuant to s. 287.057, F.S., and that is used by agencies and eligible users pursuant to s. 287.056, F.S.

Agencies and eligible users may use a request for quote, to obtain written pricing or services information from a state term contract vendor to determine whether a more favorable price, term or condition than that provided in the state term contract is available.[29] The use of a request for quote does not constitute a decision subject to protest.[30] Rule 60A-1.043, F.A.C., requires agencies to request at least two quotes from state term contracts with multiple vendors, unless (i) the purchase is less than category one ($20,000), or (ii) the state term contract requires otherwise. Agencies must document the justification for a selection based on receipt of less than two quotes.[31]

Competitive-Solicitation

With certain exceptions,[32] the procurement of commodities or contractual services in excess of category two, $35,000, requires agencies to use a competitive solicitation process.[33] Any form of competitive solicitation must be made available simultaneously to all vendors, must include the time and date for the receipt of bids, proposals, or replies, and must include all contractual terms and conditions applicable to the procurement.[34] Agencies may use a variety of methods, depending on the cost and characteristics of the needed good or service, the complexity of the procurement, and the number of available vendors, including:

- Single source contracts,[35] used when an agency determines that only one vendor is available to provide a commodity or service at the time of purchase;
- Invitations to bid,[36] used when an agency determines that standard services or goods will meet needs, wide competition is available, and the vendor's experience will not greatly influence the agency's results;
- Requests for proposals,[37] which are used when the procurement requirements allow for consideration of various solutions and the agency believes more than two or three vendors exist who can provide the required goods or services; and
- Invitations to negotiate,[38] which are used when negotiations are determined to be necessary to obtain the best value and involve a request for highly complex, customized, mission-critical services, by an agency dealing with a limited number of vendors.

Contract Evaluations and Negotiations

For a contract in excess of $195,000, the agency head must appoint at least three people to evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for which commodities or contractual services are sought.[39] In

[38] Section 287.057(1)(c), F.S.
[39] Section 287.057(16)(a), F.S.

addition, the agency head must appoint three people[40] to conduct negotiations during an invitation to negotiate procurement who collectively have experience and knowledge in negotiating contracts, contract procurement, and the program areas and service requirements for which commodities or contractual services are sought.[41]

If the value of a contract is in excess of $1 million in any fiscal year, at least one of the persons conducting negotiations must be certified as a Florida certified contract negotiator [42] in order to ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and involved appropriately in the procurement process.[43] If the value of a contract is in excess of $10 million in any fiscal year, at least one of the persons conducting negotiations must be a Project Management Professional certified by the Project Management Institute.[44]

Qualifications for Contract Managers and Contract Negotiators

Section 287.057(14), F.S., provides that for each contractual services contract, the agency must designate an employee to function as contract manager who must be responsible for enforcing performance of the contract terms and conditions and serve as a liaison with the contractor. Each contract manager who is responsible for contracts in excess of the threshold amount for category two ($35,000) must complete training in accountability in contracts and grant management conducted by the CFO.[45]

Each contract manager responsible for contracts in excess of $100,000 annually must complete training in contract management and become a certified contract manager.[46] The DMS must establish and disseminate the requirements for certification which include completing the training conducted by the CFO for accountability and grant management. All agency contract

[40] Section 287.057(16)(b), F.S., provides that if the value of the contract is in excess of $1 million in any fiscal year, then at least one person conducting negotiations must be certified as a contract negotiator. If the value of the contract is in excess of $10 million in any fiscal year, then at least one person conducting negotiations must be a Project Management Professional certified by the Project Management Institute.

[41] Section 287.057(16)(a)2., F.S.

[42] Rule 60A-1.041(3), F.A.C., provides that a person must meet the following requirements for Florida certified contract negotiator (FCCN) Certification, which is valid for five years or until the expiration date stated on the person's FCCN certificate, whichever is later:

- Successful completion of the FCCN certification course;
- At least 12 months' experience as a purchasing agent, contract manager, or contract administrator for an agency or local government entity, where the job description for the position required that at least half of the employee's designated duties included procuring commodities or contractual services, participating in contract negotiation, contract management, or contract administration, or working as an agency attorney whose duties included providing legal counsel to the agency's purchasing or contracting staff; and
- Experience during the preceding five years in leading at least one federal, state, or local government negotiation team through a negotiated procurement, or participation in at least two federal, state, or local government negotiated procurements. Negotiated procurements include those from a single source; those negotiated when fewer than two responsive bids, proposals, or replies are received; and contract renewals. Employees must provide documentation to show compliance with the experience and participation requirements when submitting the application.

managers must become certified within 24 months after establishment of the training and certification requirements by the DMS and the Department of Financial Services (DFS).

Each agency must designate at least one employee to serve as a contract administrator responsible for maintaining a contract file and financial information on all contractual services contracts and who shall serve as a liaison with the contract managers and the DMS.[47]

For a contract in excess of the threshold amount for category four ($195,000) the agency head must appoint:

- At least three persons to evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for which commodities or contractual services are sought.[48]
- At least three persons to conduct negotiations during a competitive sealed reply procurement who collectively have experience and knowledge in negotiating contracts, contract procurement, and the program areas and service requirements for which commodities or contractual services are sought.[49]

If the value of a contract is in excess of $1 million in any fiscal year, at least one of the persons conducting negotiations must be certified as a contract negotiator based upon the DMS' rules.[50] If the value of a contract is in excess of $10 million in any fiscal year, at least one of the persons conducting negotiations must be a Project Management Professional, as certified by the Project Management Institute.

Project Management Professional

Section 287.076, F.S., authorizes the DMS to implement a program to train state agency employees who are involved in managing outsourcings as Project Management Professionals, as certified by the Project Management Institute.[51] The Project Management Institute has stringent requirements for individuals to earn and maintain certification.[52] Subject to annual appropriations, the DMS, in consultation with entities subject to this part, shall identify personnel to participate in this training based on requested need and ensure that each agency is represented. The DMS may remit payment for this training on behalf of all participating personnel.

Vendor Registration and the Vendor Bid System

Any vendor that wishes to provide goods or services to the state must register in the Vendor Registration System.[53] Once registered, vendors are able to do business with the State of Florida executive branch agencies through the Vendor Information Portal.[54]

The Vendor Bid System (VBS), allows for agencies to post competitive solicitations of $35,000 or more. These solicitations include ITBs, RFPs, and ITNs for all vendors to review. Vendors can then bid, submit proposals, or submit a request to negotiate with the state agency through the VBS. A vendor will be notified through the VBS if its bid has been chosen and proceed by following bid specifications, timelines, and budgets.[55]

Vendor Lists and Removal of Any Source of Supply

Based on the vendor registration process as set out in s. 287.042, F.S., and Rule 60A-1.006, F.A.C., the DMS maintains a vendor list. Section 287.042(1)(b), F.S., authorizes the DMS to remove from its vendor list "any source of supply" – any vendor – which fails to fulfill any of its duties specified in a contract. Rule 60A-1.006, F.A.C., prescribes a three step process for removing a vendor or source of supply. The agency must provide written notice of the nature of the vendor's failure to perform and provide time certain (more than 10 days) for correcting the failure. Unless the vendor corrects its failure to perform or the agency determines the failure is legally excusable, the agency must find the vendor in default and issue a second notice stating (i) the reasons for default; (ii) that the agency will reprocure or has reprocured the commodities or services, and (iii) the amount of the reprocurement if known. The defaulting vendor is ineligible for award of a contract by the agency until the agency is reimbursed by the defaulting vendor for all reprocurement costs.[56] The defaulting vendor must be advised of the right to petition for an administrative hearing on the intended decision to remove the vendor from the list. An agency is required to provide a copy of all default actions to the DMS for removal from its vendor list.

The DMS maintains the following lists of vendors who have been removed for cause:
- Suspended Vendor List;[57]
- Convicted Vendor List;[58]
- Discriminatory Vendor List;[59]

[53] In order to register, a vendor must provide the following information: (1) Company Name; (2) Federal Tax ID; (3) Tax Filing Name; (4) Business Location; (5) Commodities and Services Offered; and (5) Certified Business and Enterprise Status. *See* Department of Management Services (DMS), *Vendor Resources, available at* https://www.dms.myflorida.com/business_operations/state_purchasing/vendor_resources (last visited Feb. 23, 2021).

[59] Section 287.134(1)(c), F.S.

- Scrutinized List of Prohibited Companies;[60,61] and
- Vendor Complaint List.[62]

Suspended Vendor List

The suspended vendor list[63] includes vendors that have been removed from the vendor list for "failing to fulfill any of its duties specified in a contract with the State."[64] Currently, the DMS has five vendors on the suspended vendor list: (1) Building Maintenance of America, LLC d/b/a Florida Building Maintenance; (2) Club Tex, Inc.; (3) Correctional Consultants; (4) iColor Printing and Mailing, Inc.; and (5) Visual Image Design Firm, LLC.[65]

Convicted Vendor List

The convicted vendor list comprises the names and addresses of those who have been disqualified from the public contracting and purchasing process due to the conviction of a public entity crime.[66] A vendor who has been placed on the convicted vendor list following a conviction may not submit a bid, proposal, or reply on a contract to provide goods or services to a public entity, and a public entity may not accept any bid, proposal, or reply from, award any contract to, or contract any business with a vendor on the convicted vendor list.[67]

After receiving information that a vendor has been convicted of a public entity crime, the DMS must investigate and determine whether good cause exists to place the vendor on the convicted vendor list. If good cause exists, the DMS must provide written notification to the vendor of its intent to place that vendor on the convicted vendor list and of the vendors' legal rights. If the vendor does not request an administrative hearing, the DMS must enter a final order placing the vendor on the convicted vendor list.[68]

---

[60] Section 287.135, F.S.
[61] There are currently 78 companies on the scrutinized list of prohibited companies. No companies were added to the scrutinized list in the fourth quarter of 2020.
[62] DMS tracks formal complaints issued to vendors by state agencies which is provided to agencies to assist in determining vendor responsibility pursuant to s. 287.057(1-3), F.S. There are currently no vendors on the vendor complaint list. [65] DMS, *Suspended Vendor List*, https://www.dms.myflorida.com/business_operations/state_purchasing/state_agency_resources/vendor_registration_and_vendor_lists/suspended_vendor_list (last visited Apr. 2, 2021).
[66] Section 287.133, F.S.; Section 287.133(1)(f), F.S., defines the term "public entity" to mean the State of Florida, any of its departments or agencies, or any political subdivision. Section 287.133(1)(g) defines "public entity crime" to mean a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.
[67] Section 281.133(2)(b), F.S.
[68] Section 287.133(2)(e), F.S.

A disqualified vendor may to petition for removal no sooner than six months after being placed on the convicted vendor list.[69] Since 2016, five vendors have petitioned not to be placed on the convicted vendor list. Currently, there is one vendor on the convicted vendor list, Calixte, Jacques A. (Haitian American Association Against Cancer, Inc.).

Discriminatory Vendor List

The discriminatory vendor list consists of the names and addresses of any vendor that has been disqualified from the public contracting and purchasing powers due to a violation of any state or federal law prohibiting discrimination on the basis of race, gender, national origin, disability, or religion by an entity under s. 287.134, F.S. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity. The investigative and administrative process for discriminatory vendors is the same as that described above for the convicted vendor list, including the removal process and specified timelines.[70] Currently, there are no vendors on the discriminatory vendor list.

Chief Financial Officer and Department of Financial Services

As provided in the constitution,[71] the CFO is the chief fiscal officer of Florida and is responsible for settling and approving accounts against the state and keeping all state funds and securities.[72] The CFO is a member of the Governor's cabinet,[73] must reside at the seat of government of Florida, and must hold office in a room in the Capitol.[74]

The CFO, using generally accepted auditing procedures for testing or sampling, must examine, audit, and settle all accounts, claims, and demands, whatsoever, against the State, arising under any law or resolution of the Legislature, and issue a warrant directing the payment out of the State Treasury of such amount as he or she allows thereon.[75] The CFO may adopt and disseminate to the agencies procedural and documentation standards for payment requests and may provide training and technical assistance to the agencies for these standards.[76] In addition, the CFO has the legal duty of delivering all state warrants and will be charged with the official responsibility of the protection and security of the state warrants while in his or her custody. The CFO may delegate this authority to other state agencies or officers.[77]

The CFO also serves as the head of the DFS.[78] The DFS consists of the following divisions:

- The Division of Accounting and Auditing.
- The Division of Consumer Services.
- The Division of Funeral, Cemetery, and Consumer Services.

- The Division of Treasury.[80]
- The Division of Unclaimed Property.
- The Division of Workers' Compensation.
- The Division of Administration.
- The Office of Insurance Consumer Advocate.

Agency Inspectors General

Section 20.55, F.S., establishes an office of inspector general in each state agency to provide a central point for coordination of and responsibility for activities that promote accountability, integrity, and efficiency in government. It is the duty of each inspector general to:

- Advise in the development of performance measures, standards, and procedures for the evaluation of state agency programs;[81]
- Assess the reliability and validity of the information provided by the state agency on performance measures and standards, and make recommendations for improvement, if necessary, before submission of those measures and standards to the Executive Office of the Governor;[82]
- Review the actions taken by the state agency to improve program performance and meet program standards and make recommendations for improvement, if necessary;[83]
- With specified exception,[84] provide direction for, supervise, and coordinate audits, investigations, and management reviews relating to the programs and operations of the state agency; [85]
- Conduct, supervise, or coordinate other activities carried out or financed by that state agency for the purpose of promoting economy and efficiency in the administration of, or preventing and detecting fraud and abuse in, its programs and operations;[86]

[79] This division functions as a criminal justice agency for purposes of ss. 943.045-943.08. The division may conduct investigations within or outside of this state as it deems necessary. If, during an investigation, the division has reason to believe that any criminal law of this state has or may have been violated, it shall refer any records tending to show such violation to state or federal law enforcement or prosecutorial agencies and shall provide investigative assistance to those agencies as required. The division includes the following bureaus and office: (1) The Bureau of Forensic Services; (2) The Bureau of Fire, Arson and Explosives Investigations; (3) The Office of Fiscal Integrity; (4) The Bureau of Insurance Fraud; and (5) The Bureau of Workers' Compensation Fraud.
[80] This division includes a Bureau of Deferred Compensation responsible for administering the Government Employees Deferred Compensation Plan for state employees.
[81] Section 20.055(2)(a), F.S.
[82] Section 20.055(2)(b), F.S.
[83] Section 20.055(2)(c), F.S.
[84] When the inspector general does not possess the qualifications required by s. 20.055(4), F.S., the director of auditing shall conduct such audits.
[85] Section 20.055(2)(d), F.S.
[86] Section 20.055(2)(e), F.S.

- Keep the agency head or, for state agencies under the jurisdiction of the Governor, the Chief Inspector General informed concerning fraud, abuses, and deficiencies relating to programs and operations administered or financed by the state agency, recommend corrective action concerning fraud, abuses, and deficiencies, and report on the progress made in implementing corrective action;[87]
- Ensure effective coordination and cooperation between the Auditor General, federal auditors, and other governmental bodies with a view toward avoiding duplication;[88]
- Review, as appropriate, rules relating to the programs and operations of such state agency and make recommendations concerning their impact;[89]
- Ensure that an appropriate balance is maintained between audit, investigative, and other accountability activities;[90] and
- Comply with the General Principles and Standards for Offices of Inspector General as published and revised by the Association of Inspectors General.[91]

Each inspector general reports to and is under the general supervision of the agency head and is not subject to supervision by any other employee of the state agency.[92] An inspector general may be removed from office by the agency head.[93] The agency head or agency staff may not prevent or prohibit the inspector general from initiating, carrying out, or completing any audit or investigation.[94]

To ensure that state agency audits are performed in accordance with applicable auditing standards, the inspector general or the director of auditing within the inspector general's office must possess qualifications specified by statute.[95] In carrying out the auditing duties and responsibilities of this act, each inspector general must review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency and conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of its findings.[96] Each inspector general must initiate, conduct, supervise, and coordinate investigations designed to detect, deter, prevent, and eradicate fraud, waste, mismanagement, misconduct, and other abuses in state government.[97] Except as otherwise provided, each inspector general must, no later than September 30 of each year, prepare an annual report summarizing the activities of the office during the immediately preceding state fiscal year.[98]

[97] Section 20.055(6), F.S.
[98] Section 20.055(7)(a), F.S.

III. Effect of Proposed Changes:

Section 1 reenacts s. 216.1366, F.S.,[99] and removes the July 1, 2021, termination date to require each agency contractor services to include authorization for the agency to inspect certain records of the contractor. These records include both financial and programmatic records, papers, and documents of the contractor directly related to the performance of the contract and that are deemed necessary by the agency to monitor the performance of the contract. The contract must require the contractor to provide such records, papers, and documents requested by the agency within 10 business days after the request is made.

Section 2 amends s. 287.042, F.S., to require the Secretary of Management Services to make a written determination finding a contract to be cost effective and the best value to the state before an agency may be authorized to enter such contract let by the Federal Government, another state, or a political subdivision.

Section 3 amends s. 287.056, F.S., to require that when an agency issues a request for quote for contractual services for a state term with 25 vendors or fewer, the agency *must* issue a request for quote to *all vendors* approved to provide that contractual service. For any contract with more than 25 vendors, the agency must issue a request for quote to a minimum of 25 vendors approved to provide such contractual services.

This section also provides for the immediate disqualification from state term contract eligibility of a firm or individual who has been placed on the suspended vendor list pursuant to s. 287.1351, F.S., or placed on a disqualified vendor list pursuant to s. 287.133, F.S. (removal based upon public entity crime), or s. 287.134, F.S. (removal based on discriminatory practices).

Section 4 amends s. 287.057, F.S., to change the electronic posting requirement for single source contracting from seven to 15 days. This section requires agencies to report, on a quarterly basis, to the Department of Management Services (DMS) each instance in which the agency entered into a single source purchase contract. Such report is to be in a manner and form prescribed by the DMS. The DMS is required to report such information to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2022, and each January 1 thereafter.

This section provides that a state agency as defined in s. 287.012, F.S.,[100] may not initiate a competitive solicitation for a product or service if the completion of the competitive solicitation would require a change in law or change to the agency's budget (other than a transfer authorized in law) unless the initiation of the competitive solicitation is specifically authorized in law, in the General Appropriations Act, or by the Legislative Budget Commission.[101] This prohibition does

[99] Section 106 of ch. 2020-114, Laws of Florida, created s. 216.1366, F.S., in order to implement the appropriation of funds in the special categories, contracted services, and expenses categories of the 2020-2021 General Appropriations Act.
[100] Section 287.012(1), F.S., defines "agency" to mean any of the various state officers, departments, boards, commissions, divisions, bureaus, and councils and any other unit of organization, however designated, of the executive branch of state government. "Agency" does not include the university and college boards of trustees or the state universities and colleges.
[101] This provision has been part of the implementing bill for the General Appropriations Act for the past five years (2020-114(98), 2019-116(106), 2018-10(79), and 2017-71(52)).

not apply to a competitive solicitation when the agency head certifies that a valid emergency exists.

This section amends the provision governing an agency's designation of a contract manager to clarify that the contract manager works as a liaison *between* the contractor *and the agency,* and prohibits a contract manager from having been employed, within the previous five years, by the vendor awarded the contractual services contract that he or she is assigned.

This section sets forth the following primary responsibilities of a contract manager:
- Participating in the solicitation development and review of contract documents;
- Monitoring the contractor's progress and performance to ensure procured products and services conform to the contract requirements and to keep timely records of findings;
- Managing and documenting any changes to the contract through the amendment process authorized by the terms of the contract;
- Monitoring the contract budget to ensure sufficient funds are available throughout the term of the contract; and
- Exercising applicable remedies, as appropriate, when a contractor's performance is deficient.

Current law provides that the Chief Financial Officer (CFO) provide training for accountability in contracts and grant management for a contract manager responsible for contracts in excess of the threshold amount for category two ($35,000). The bill requires the CFO to evaluate this training every five years.

Current law requires a contract manager responsible for contracts in excess of $100,000 annually to complete training in contract management and become a certified contract manager. The bill requires this training be completed within six months of a contract manager being assigned responsibility of qualifying contracts. Additionally, the bill requires a contract manager to complete the accountability in contracts and grant management training. The DMS is required to evaluate such training every five years to assess its effectiveness and update the training curriculum.

This section provides that a contract manager responsible for contracts in excess of $10 million annually must, in addition to the accountability in contracts and grant management training, and the training in contract management and certification, also possess at least five years of experience managing contracts in excess of $5 million annually.

Current law requires a contract administrator be designated to maintain a contract file and financial information on all contractual services contracts. The bill permits a contract administrator to also serve as the contract manager for contracts less than $500,000 annually, if he or she has completed the required training. For contracts in excess of $500, 000 annually, the contract administrator is prohibited from serving in both capacities.

The bill specifies that for contracts in excess of $195,000, the agency head must appoint at least three persons to *independently* evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for the commodity or contractual services sought, and a *negotiation team* of at least three persons is to conduct negotiations during a competitive sealed reply procurement. In addition, a negotiation team for a competitively

procured contract in excess of $1 million in any fiscal year must include a certified contract negotiator.

Current law provides that for contracts in excess of $10 million in any fiscal year, at least one person conducting negotiations must be a Project Management Professional. The bill specifies that such Project Management Professional must provide guidance based on his or her experience, education, and competency to lead and direct complex projects.

The bill requires the DMS to establish and disseminate the certification and training requirements for certified contract negotiators. The bill specifies that the training must ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and appropriately involved in the procurement process. The DMS must evaluate such training every five years to assess its effectiveness and update the training curriculum.

A certified contract negotiator is required to complete training every five years for certification renewal. This section specifies that the qualification requirements for certification must include:

- At least 12 months experience as a purchasing agent, contract manager, or contract administrator for an agency or local governmental entity where at least 50 percent of the designated duties included procuring commodities or contractual services, participating in contract negotiation, contract management, or contract administration, or working as an agency attorney whose duties included providing legal counsel to the agency's purchasing or contracting staff.
- Experience during the preceding five years in leading at least two federal, state, or local government negotiation teams through a negotiated procurement, or participation in at least three federal, state, or local government negotiated procurements.

In addition, this section requires any person who supervises certain contract administrators or contract or grant managers to annually complete public procurement training for supervisors within 12 months of appointment to the supervisory position. The DMS is responsible for establishing and disseminating the training course content required for supervisors, and training must commence no later than July 1, 2022.

This section requires a head of an agency to establish a continuing oversight team for each contractual services contract in excess of $5 million after the award of such contract. The agency head must appoint at least four persons to the continuing oversight team, with one being the certified contract manager. If the value of the contract is in excess of $10 million, at least one member must possess at least five years of experience in managing contracts of a similar scope or size. If the value of the contractual services contract is in excess of $20 million, the continuing oversight team must consist of at least five persons, at least one member must be from a state agency other than the agency or agencies participating in the contract. Members of the continuing oversight team must be employees of the state and collectively have experience and knowledge in contract management, contract administration, contract enforcement, and the program areas and service requirements for the contractual services purchased.

For contracts in excess of $5 million, each continuing oversight team is required to meet at least quarterly. For contracts in excess of $10 million, each continuing oversight team must meet at

least monthly. A representative of the contractor must be made available to members of the continuing oversight team for at least one meeting every calendar quarter to respond to any questions or requests for information from the continuing oversight team concerning contractor performance.

This section requires that within 30 days after formation of the continuing oversight team, an initial meeting between the continuing oversight team and representatives of the contractor must convene to achieve a mutual understanding of the contract requirements, to provide the contractor with an orientation to the contract management process, and to explain the role of the continuing oversight team, contract manager, and contract administrator.

The continuing oversight team must meet to discuss the status of the contract, the pace of deliverables, the quality of deliverables, contractor responsiveness, and contractor performance. The contract administrator must be present at each meeting with the contract file and all applicable financial information. The continuing oversight team may submit written questions to the contractor concerning any items discussed during a continuing oversight team meeting. The contractor must respond to the team's questions within 10 business days of receiving the written questions. The questions and responses must be included in the contract file.

This section requires the continuing oversight team to provide written notification to:

- The agency head and the DMS of any deficiency in a contractor's performance which substantially affects the pace of deliverables or the likelihood of successful completion of the contract.
- The agency head, the DMS, and the Office of Policy and Budget in the Executive Office of the Governor of any significant change in contract scope and any increase in the cost of the contract that is five percent of the planned contract cost or greater within the fiscal year for contractual service contracts of at least $5 million.
- The agency head, the DMS, the Office of Policy and Budget in the Executive Office of the Governor, and the legislative appropriations committees of any significant change in contract scope and any increase in the cost of the contract that is five percent of the planned contract cost or greater within the fiscal year for contractual service contracts of $10 million or greater.

Section 5 amends s. 287.058, F.S., to prohibit a contract from containing a nondisclosure clause prohibiting a contractor from disclosing information relevant to the performance of the contract to members or staff of the Senate or the House of Representatives.

Section 6 creates s. 287.1351, F.S., regarding suspended vendors and state contracts. The bill prohibits a vendor that is in default on any contract with an agency or has otherwise repeatedly demonstrated an inability to fulfill the terms and conditions of previous state contracts from submitting a bid, proposal, or reply to an agency or enter into or renew a contract to provide goods or services to an agency after its placement on the suspended vendor list. An agency may not accept a bid, proposal, or reply from, or enter into or renew any contract with, a vendor that is on the suspended vendor list until the vendor has been removed from such list and returned to the vendor list by the DMS. The bill defines the term "vendor" as a person or an entity that provides goods or services to an agency under a contract or submits a bid, proposal, or reply to provide goods or services to an agency.

This section requires an agency to notify the DMS of any vendor that has met the grounds for suspension and must provide documentation to the DMS evidencing the vendor's default or other grounds for suspension. The DMS must review the submitted documentation and decide whether good cause exists to remove the vendor from the vendor list and to place it on the suspended vendor list. The bill requires the DMS to notify the vendor in writing of its intent to remove the vendor from the vendor list and of the vendor's right to an administrative hearing, as well as the applicable procedures and time requirements for any such hearing. A vendor may not be removed from the vendor list without receiving an individual notice of intent from the DMS. If a vendor does not request an administrative hearing, the DMS must enter a final order removing the vendor from the vendor list.

This section provides that, within 21 days after receipt of the notice of intent, a vendor may file with the DMS a petition for a formal hearing to challenge the decision. If a vendor does not file a petition in a timely manner, it is deemed to have waived its right to a hearing and the DMS's decision to remove the vendor from the list becomes final agency action.

This section provides that if a vendor is placed on the suspended vendor list, the vendor may file a petition with the DMS one year or more after entry of the final order of its suspension. A proceeding on the petition must be conducted in accordance with ch. 120, F.S., and an Administrative Law Judge (ALJ) may remove a vendor from the suspended vendor list if the ALJ determines it would be in the public interest. In determining whether removal from the list would be in the public interest, the ALJ may consider whether the suspended vendor has prepared a corrective action plan to address the original grounds for default or failure to fulfill the terms and conditions of the contract, reimbursed the agency for any reprocurement costs, or provided additional evidence that the vendor has taken other remedial action.

If a petition for removal from the suspended vendor list is denied, the vendor may not petition for another hearing for at least nine months after the date of denial. However, the DMS may petition for the suspended vendor's removal before the expiration period if, in the DMS's discretion, the removal of the vendor from the suspended list would be in the public's interest.

Section 7 amends s. 287.136, F.S., to require, beginning October 1, 2021, and every three years thereafter, each agency inspector general to complete a risk-based compliance audit of all contract documents executed by the agency for the preceding three fiscal years. The audit must include an evaluation of and identify any trend in vendor preference. The audit findings must be submitted to the agency head, the Secretary of Management Services, and the Governor.

Sections 8, 9, 10, 11, 12, 13, 14, 15, and 16 amends ss. 43.16, 215.971, 287.0571, 295.187, 394.47865, 402.7305, 408.045, 570.07, and 627.351, F.S., respectively, to make conforming changes.

Section 17 provides that the bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable. This bill does not require counties or municipalities to take an action requiring the expenditure of funds, reduce the authority that counties or municipalities have to raise revenue in the aggregate, nor reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

A private firm or individual may experience an indeterminate fiscal impact if such party is disqualified from state term contract eligibility upon removal from the vendor list as specified within the bill.

C. Government Sector Impact:

The bill will have an indeterminate negative fiscal impact on state government expenditures related to additional workload for:

- Additional contract performance reporting before executing a contract renewal or amendment due to lowering the reporting threshold;
- A potential increase in the number of vendors responding to RFQs for contractual services; and
- Expanding contract monitoring through continuing oversight teams and by requiring an agency inspector general to perform additional contract auditing.

The Department of Management Services (DMS) will incur additional costs related to workload for establishing and disseminating certification and training requirements for certified contract negotiators, for performing training evaluations every five years, and for maintain and administering the suspended vendor list.

Additionally, the six-month time limitation imposed on training for a contract manager responsible for contracts in excess of $100,000 annually will likely require the DMS to expend additional resources to ensure timely training.

The Department of Financial Services may also incur nominal additional costs associated with specified training evaluation every five years.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 43.16, 215.971, 216.1366, 287.042, 287.056, 287.057, 287.0571, 287.058, 287.136, 295.187, 394.47865, 402.7305, 408.045, 570.07, and 627.351.

This bill creates the following section of the Florida Statutes: 287.1351.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

PCS (479650) by Appropriations Committee (Recommended by Appropriations Subcommittee on Agriculture, Environment, and General Government):
The proposed committee substitute:

- Revises the requirements related to requests for quotes for contractual services available on state term contract. Specifically, the CS provides that if there are 25 or fewer approved vendors on the state term contract, then the agency must issue a request for quote to all approved vendors. If there are more than 25 approved vendors, then the agency must issue the request for quote to at least 25 of the approved vendors on the state term contract.
- Increases certain contract thresholds that trigger certain oversight by the continuing oversight team.
- Includes a statutory reference to the definition of “agency".

CS by Governmental Oversight and Accountability on March 24, 2021:
The CS:

- Adds language to reenact s. 216.1366, F.S., and remove the July 1, 2021, termination date, to require each agency contract for services to include authorization for the agency to inspect certain records of the contractor.
- Adds the requirement prohibiting an agency from initiating a competitive solicitation that would require a change in law or change to the agency's budget, unless specifically authorized.
- Revises the requirement that an agency issuing a request for quote for commodities or contractual services issue the request to *all* approved vendors to require a request for quote issued for *contractual services* be issued to all approved vendors if there are fewer than 100 approved vendors and to at least 100 of the approved vendors when there are more than 100 approved vendors.
- Adds the requirement that Department of Management Services (DMS) to report certain single source contract information received by agencies to the Governor and Legislature by a specified date.
- Removes the requirement that a contract manager who is responsible for contracts in excess of $10 million annually be a Project Management Professional and instead requires such person to meet certain experience thresholds.
- Increases the threshold for when a contract administrator may also serve as a contract manager from a contract value of $250,000 to a contract value of $500,000.
- Specifies that for contracts in excess of $195,000 that the evaluation is performed *independently,* and removes language regarding an evaluation *team*.
- Revises the experience requirements for qualification for certification as a contract negotiator, to require experience during the preceding five years in leading at least two, instead of three, federal, state, or local government negotiation teams through a negotiated procurement, or participation in at least three, instead of five, federal, state, or local government-negotiated procurements.
- Adds the requirement that supervisors of contract administrators or contract or grant managers must complete training within a specified period.
- Alters the membership requirements meeting requirements for the continuing oversight team (e.g., requires one member be the *certified* contract manager, rather than the contract manager; and removes the requirement that for contracts over $5 million that one member must be a Project Management Professional and instead imposes an experience threshold).
- Provides more specificity for the notice requirements for the continuing oversight team.
- Adds the requirement that a contract may not contain a nondisclosure clause exempting certain information.
- Adds new language addressing the process for suspending vendors and provides that vendors who are in default on any contract with an agency or has otherwise repeatedly demonstrated an inability to fulfill the terms and conditions of previous state contracts is disqualified from bidding on or renewing a contract with the state.
- Adds language providing a mechanism whereby a vendor placed on the suspended vendor list may petition for removal.
- Revises the requirement that each agency inspector general complete a compliance audit of all contracts executed by the agency every three years to completing a risk based compliance audit of all contracts executed by the agency.

- Makes conforming changes.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

The Committee on Appropriations (Brodeur) recommended the following:

Senate Amendment

Delete lines 183 - 378
and insert:
(4)(a) An agency may not initiate a competitive solicitation for a product or service if the completion of such competitive solicitation would:
1. Require a change in law; or
2. Require a change to the agency's original approved budget as defined in s. 216.011, other than a transfer

519034

authorized in s. 216.292(2) or (3), unless the initiation of such competitive solicitation is specifically authorized in law, in the General Appropriations Act, or by the Legislative Budget Commission.

(b) This subsection does not apply to a competitive solicitation for which the agency head certifies that a valid emergency exists.

(14) ~~(13)~~ Contracts for commodities or contractual services may be renewed for a period that may not exceed 3 years or the term of the original contract, whichever is longer. Renewal of a contract for commodities or contractual services must be in writing and is subject to the same terms and conditions set forth in the initial contract and any written amendments signed by the parties. If the commodity or contractual service is purchased as a result of the solicitation of bids, proposals, or replies, the price of the commodity or contractual service to be renewed must be specified in the bid, proposal, or reply, except that an agency may negotiate lower pricing. A renewal contract may not include any compensation for costs associated with the renewal. Renewals are contingent upon satisfactory performance evaluations by the agency and subject to the availability of funds. Exceptional purchase contracts pursuant to paragraphs (3)(a) and (c) may not be renewed. With the exception of subsection (11) ~~(10)~~, if a contract amendment results in a longer contract term or increased payments, a state agency may not renew or amend a contract for the outsourcing of a service or activity that has an original term value exceeding $5 ~~$10~~ million before submitting a written report concerning contract performance to the Governor, the President of the Senate, and

519034

the Speaker of the House of Representatives at least 90 days before execution of the renewal or amendment.

(15)(a) ~~(14)~~ For each contractual services contract, the agency shall designate an employee to function as contract manager who is responsible for enforcing performance of the contract terms and conditions and to serve as a liaison between ~~with~~ the contractor and the agency. The contract manager may not be an individual who has been employed within the previous 5 years by the vendor awarded the contractual services contract. The primary responsibilities of a contract manager include, but are not limited to:

1. Participating in the solicitation development and review of contract documents.

2. Monitoring the contractor's progress and performance to ensure procured products and services conform to the contract requirements and keeping timely records of findings.

3. Managing and documenting any changes to the contract through the amendment process authorized by the terms of the contract.

4. Monitoring the contract budget to ensure sufficient funds are available throughout the term of the contract.

5. Exercising applicable remedies, as appropriate, when a contractor's performance is deficient.

(b) ~~(a)~~ Each contract manager who is responsible for contracts in excess of the threshold amount for CATEGORY TWO must, at a minimum, complete training conducted by the Chief Financial Officer for accountability in contracts and grant management. The Chief Financial Officer shall evaluate such training every 5 years to assess its effectiveness and update

519034

the training curriculum. The Chief Financial Officer shall establish and disseminate uniform procedures pursuant to s. 17.03(3) to ensure that contractual services have been rendered in accordance with the contract terms before the agency processes the invoice for payment. The procedures must include, but need not be limited to, procedures for monitoring and documenting contractor performance, reviewing and documenting all deliverables for which payment is requested by vendors, and providing written certification by contract managers of the agency's receipt of goods and services.

(c) ~~(b)~~ Each contract manager who is responsible for contracts in excess of $100,000 annually must, in addition to the accountability in contracts and grant management training required in paragraph (b) and within 6 months after being assigned responsibility for such contracts, complete training in contract management and become a certified contract manager. The department is responsible for establishing and disseminating the training and certification requirements for certified contract managers. Training must promote best practices and procedures related to negotiating, managing, and ensuring accountability in agency contracts and grant agreements, which must include the use of case studies based upon previous audits, contracts, and grant agreements. A certified contract manager must complete training every 5 years for certification renewal ~~requirements for certification which include completing the training conducted by the Chief Financial Officer for accountability in contracts and grant management~~. Training and certification must be coordinated by the department, and the training must be conducted jointly by the department and the Department of

519034

Financial Services. The department shall evaluate such training every 5 years to assess its effectiveness and update the training curriculum ~~Training must promote best practices and procedures related to negotiating, managing, and ensuring accountability in agency contracts and grant agreements, which must include the use of case studies based upon previous audits, contracts, and grant agreements. All agency contract managers must become certified within 24 months after establishment of the training and certification requirements by the department and the Department of Financial Services~~.

(d) Each contract manager who is responsible for contracts in excess of $10 million annually must, in addition to the training required in paragraph (b) and the training and certification required in paragraph (c), possess at least 5 years of experience managing contracts in excess of $5 million annually.

(16) ~~(15)~~ Each agency shall designate at least one employee who shall serve as a contract administrator responsible for maintaining a contract file and financial information on all contractual services contracts and who shall serve as a liaison with the contract managers and the department. For a contract of $500,000 or less annually, the contract administrator may also serve as the contract manager if he or she has completed the required training. For a contract in excess of $500,000 annually, the contract administrator may not serve as both the contract administrator and the contract manager.

(17)(a) ~~(16)(a)~~ For a contract in excess of the threshold amount provided in s. 287.017 for CATEGORY FOUR, the agency head shall appoint:

519034

1. At least three persons to independently evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for the commodity ~~which commodities~~ or contractual services ~~are~~ sought.

2. At least three persons to a negotiation team to conduct negotiations during a competitive sealed reply procurement. The negotiation team members must ~~who~~ collectively have experience and knowledge in negotiating contracts, contract procurement, and the program areas and service requirements for the commodity ~~which commodities~~ or contractual services ~~are~~ sought.

(b)1. If the value of a contract is in excess of $1 million in any fiscal year, at least one of the persons conducting negotiations must be ~~certified as~~ a certified contract negotiator ~~based upon department rules in order to ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and involved appropriately in the procurement process. At a minimum, the rules must address the qualifications required for certification, the method of certification, and the procedure for involving the certified negotiator~~.

2. If the value of a contract is in excess of $10 million in any fiscal year, at least one of the persons conducting negotiations must be a Project Management Professional, as certified by the Project Management Institute. The Project Management Professional shall provide guidance based on his or her experience, education, and competency to lead and direct complex projects.

3. The department is responsible for establishing and disseminating the certification and training requirements for

519034

certified contract negotiators. Training must ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and involved appropriately in the procurement process. The department shall evaluate such training every 5 years in order to assess its effectiveness and update the training curriculum. A certified contract negotiator is required to complete training every 5 years for certification renewal. Qualification requirements for certification must include:

a. At least 12 months' experience as a purchasing agent, contract manager, or contract administrator for an agency or a local governmental entity where at least 50 percent of the designated duties included procuring commodities or contractual services; participating in contract negotiation, contract management, or contract administration; or working as an agency attorney whose duties included providing legal counsel to the agency's purchasing or contracting staff; and

b. Experience during the preceding 5 years in leading at least two federal, state, or local government negotiation teams through a negotiated procurement or participation in at least three federal, state, or local government-negotiated procurements.

(18) Any person who supervises contract administrators or contract or grant managers who meet criteria for certification in subsection (15) shall annually complete public procurement training for supervisors within 12 months after appointment to the supervisory position. The department is responsible for establishing and disseminating the training course content required for supervisors, and training shall commence no later

519034

than July 1, 2022.

(26)(a) For each contractual services contract in excess of $5 million, the agency head shall establish a continuing oversight team after the contract has been awarded. The agency head shall appoint at least four persons, one of whom must be the certified contract manager, to the continuing oversight team. If the value of the contractual services contract is in excess of $10 million, at least one of the persons on the continuing oversight team must possess at least 5 years of experience in managing contracts of a similar scope or size. If the value of the contractual services contract is in excess of $20 million, the continuing oversight team must consist of at least five persons, and at least one of the persons on the continuing oversight team must be from an agency other than the agency or agencies participating in the contract. Members of the continuing oversight team must be agency employees and must

	.	

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Between lines 822 and 823
insert:

Section 17. Statewide inventory.—

(1) The Department of Management Services shall prepare an inventory of all state-owned motor vehicles, maintenance facilities, and fuel depots. By December 31, 2021, the department shall submit the inventory to the Governor, the President of the Senate, and the Speaker of the House of

Representatives.

(2) The inventory must provide, at a minimum, all of the following:

(a) Entity of ownership of all state-owned motor vehicles, maintenance facilities, and fuel depots.

(b) Entity of possession of all state-owned motor vehicles, maintenance facilities, and fuel depots.

(c) Estimated annual operating and other costs of all state-owned motor vehicles, maintenance facilities, and fuel depots.

(d) Number of full-time equivalent and other personal services positions assigned to operate and maintain each state-owned maintenance facility and fuel depot.

(e) Physical address for the location of all state-owned motor vehicles, maintenance facilities, and fuel depots.

(3) Each state agency and state university shall provide any information requested by the Department of Management Services necessary for the completion of the inventory.

Section 18. Centralized fleet and fleet operations management.—

(1) The Department of Management Services shall create, administer, and maintain a centralized management system for the state-owned motor vehicle fleet, maintenance facilities, and fuel depots.

(2) The Department of Management Services shall consolidate under a centralized system the management of existing state-owned motor vehicles, maintenance facilities, fuel depots, and any full-time equivalent and other personal services positions assigned to operate and maintain each state-owned maintenance

facility and fuel depot.

(3) Each state agency and state university shall provide any information requested by the Department of Management Services necessary for consolidating under the centralized system the management of existing state-owned motor vehicles, maintenance facilities, fuel depots, and any full-time equivalent and other personal services positions assigned to operate and maintain each state-owned maintenance facility and fuel depot.

Section 19. Privatization of fleet management.—The Department of Management Services shall contract with a vendor or contractor for privatizing the centralized management and operation of the state-owned motor vehicle fleet, motor vehicle acquisitions, maintenance facilities, and fuel depots. Any data that relates to the contract must be stored in at least one common format approved by the department, and such data remains the property of the department. Any vehicle-monitoring hardware installed in a state-owned motor vehicle must be commercially available and may not be proprietary to the vendor or contractor.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Agriculture, Environment, and General Government)

A bill to be entitled

An act relating to agency contracts for commodities and contractual services; reenacting and amending s. 216.1366, F.S.; abrogating the scheduled expiration of provisions relating to certain public agency contracts for services; amending s. 287.042, F.S.; providing that the Department of Management Services may enter into an agreement authorizing an agency to make purchases under certain contracts if the Secretary of Management Services makes a certain determination; amending s. 287.056, F.S.; providing that an agency must issue a request for quote to certain approved vendors when it issues certain requests for quote for contractual services; providing for the disqualification of certain firms or individuals from state term contract eligibility; amending s. 287.057, F.S.; revising the period of time during which an agency must electronically post a description of certain services in certain circumstances; requiring an agency to periodically report certain actions to the department in a specified manner and form; requiring the department to annually report certain information to the Governor and the Legislature by a specified date; prohibiting an agency from initiating a competitive solicitation in certain circumstances; providing applicability; revising the maximum value of

576-03930-21

certain contracts that may not be renewed or amended by state agency before submitting a written report to the Governor and the Legislature; requiring the agency to designate a contract manager to serve as a liaison between the contractor and the agency; prohibiting certain individuals from serving as a contract manager; providing the responsibilities of a contract manager; requiring the Chief Financial Officer to evaluate certain training at certain intervals; requiring that certain contract managers complete training and certification within a specified timeframe; requiring the department to establish and disseminate certain training and certification requirements; requiring the department to evaluate certain training at certain intervals; requiring certain contract managers to possess certain experience in managing contracts; authorizing a contract administrator to also serve as a contract manager in certain circumstances; providing that evaluations of proposals and replies must be conducted independently; providing for specified teams to conduct certain negotiations; requiring a Project Management Professional to provide guidance based on certain qualifications; providing qualification requirements for contract negotiator certification; requiring supervisors of contract administrators or contract and grant managers meeting certain criteria to complete training within a specified period; providing that the department is responsible for

establishing and disseminating supervisor training by a certain date; providing for a continuing oversight team in certain circumstances; providing requirements for continuing oversight team members and meetings; requiring a continuing oversight team to provide notice of certain deficiencies and changes in contract scope to certain entities; amending s. 287.058, F.S.; prohibiting a contract document for certain contractual services from containing a certain nondisclosure clause; creating s. 287.1351, F.S.; defining the term "vendor"; prohibiting certain vendors from submitting bids, proposals, or replies to, or entering into or renewing any contract with, an agency; prohibiting an agency from accepting a bid, proposal, or reply from, or entering into a contract with, a suspended vendor until certain conditions are met; requiring an agency to notify the department of, and provide certain information regarding, any such vendors; requiring the department to review any vendor reported by an agency; requiring the department to notify a vendor of any intended removal from the vendor list; specifying administrative remedies and applicable procedures for an affected vendor; requiring the department to place certain vendors on the suspended vendor list; authorizing the removal of a suspended vendor from the suspended vendor list in accordance with specified procedures; specifying requirements and limitations; amending s. 287.136, F.S.; requiring each agency inspector general to

complete certain audits of executed contracts at certain intervals; amending ss. 43.16, 215.971, 287.0571, 295.187, 394.47865, 402.7305, 408.045, 570.07, and 627.351, F.S.; conforming cross-references to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Notwithstanding the expiration date in section 106 of chapter 2020-114, Laws of Florida, section 216.1366, Florida Statutes, is reenacted and amended to read:

216.1366 Contract terms.—

(1) In order to preserve the interest of the state in the prudent expenditure of state funds, each public agency contract for services entered into or amended on or after July 1, 2020, shall authorize the public agency to inspect the:

(a) Financial records, papers, and documents of the contractor that are directly related to the performance of the contract or the expenditure of state funds.

(b) Programmatic records, papers, and documents of the contractor which the public agency determines are necessary to monitor the performance of the contract or to ensure that the terms of the contract are being met.

(2) The contract shall require the contractor to provide such records, papers, and documents requested by the public agency within 10 business days after the request is made.

~~(3) This section expires July 1, 2021.~~

Section 2. Subsection (16) of section 287.042, Florida

Statutes, is amended to read:

287.042 Powers, duties, and functions.—The department shall have the following powers, duties, and functions:

(16) To evaluate contracts let by the Federal Government, another state, or a political subdivision for the provision of commodities and contract services, and, if it is determined by the Secretary of Management Services in writing to be cost-effective and ~~in~~ the best value to ~~interest of~~ the state, to enter into a written agreement authorizing an agency to make purchases under such contract.

Section 3. Subsection (2) of section 287.056, Florida Statutes, is amended, and subsection (4) is added to that section, to read:

287.056 Purchases from purchasing agreements and state term contracts.—

(2) Agencies and eligible users may use a request for quote to obtain written pricing or services information from a state term contract vendor for commodities or contractual services available on state term contract from that vendor. The purpose of a request for quote is to determine whether a price, term, or condition more favorable to the agency or eligible user than that provided in the state term contract is available. If an agency issues a request for quote for contractual services for any contract with 25 vendors or fewer, the agency must issue a request for quote to all vendors approved to provide such contractual services. For any contract with more than 25 vendors, the agency must issue a request for quote to a minimum of 25 vendors approved to provide such contractual services. Use of a request for quote does not constitute a decision or

intended decision that is subject to protest under s. 120.57(3).

(4) A firm or individual placed on the suspended vendor list pursuant to s. 287.1351 or placed on a disqualified vendor list pursuant to s. 287.133 or s. 287.134 is immediately disqualified from state term contract eligibility.

Section 4. Present subsections (4) through (16) and (17) through (23) of section 287.057, Florida Statutes, are redesignated as subsections (5) through (17) and (19) through (25), respectively, new subsections (4) and (18) and subsection (26) are added to that section, and paragraph (c) of subsection (3) and present subsections (13) through (16) of that section are amended, to read:

287.057 Procurement of commodities or contractual services.—

(3) If the purchase price of commodities or contractual services exceeds the threshold amount provided in s. 287.017 for CATEGORY TWO, purchase of commodities or contractual services may not be made without receiving competitive sealed bids, competitive sealed proposals, or competitive sealed replies unless:

(c) Commodities or contractual services available only from a single source may be excepted from the competitive-solicitation requirements. If an agency believes that commodities or contractual services are available only from a single source, the agency shall electronically post a description of the commodities or contractual services sought for at least 15 ~~7~~ business days. The description must include a request that prospective vendors provide information regarding their ability to supply the commodities or contractual services

described. If it is determined in writing by the agency, after reviewing any information received from prospective vendors that the commodities or contractual services are available only from a single source, the agency shall provide notice of its intended decision to enter a single-source purchase contract in the manner specified in s. 120.57(3). Each agency shall report all such actions to the department on a quarterly basis in a manner and form prescribed by the department, and the department shall report such information to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2022, and each January 1 thereafter.

(4) A state agency as defined in s. 287.012 may not initiate a competitive solicitation for a product or service if the completion of such competitive solicitation would:

(a) Require a change in law; or

(b) Require a change to the agency's budget other than a transfer authorized in s. 216.292(2) or (3), unless the initiation of such competitive solicitation is specifically authorized in law, in the General Appropriations Act, or by the Legislative Budget Commission.

(c) This subsection does not apply to a competitive solicitation for which the agency head certifies that a valid emergency exists.

(14) ~~(13)~~ Contracts for commodities or contractual services may be renewed for a period that may not exceed 3 years or the term of the original contract, whichever is longer. Renewal of a contract for commodities or contractual services must be in writing and is subject to the same terms and conditions set forth in the initial contract and any written amendments signed

by the parties. If the commodity or contractual service is purchased as a result of the solicitation of bids, proposals, or replies, the price of the commodity or contractual service to be renewed must be specified in the bid, proposal, or reply, except that an agency may negotiate lower pricing. A renewal contract may not include any compensation for costs associated with the renewal. Renewals are contingent upon satisfactory performance evaluations by the agency and subject to the availability of funds. Exceptional purchase contracts pursuant to paragraphs (3)(a) and (c) may not be renewed. With the exception of subsection (11) ~~(10)~~, if a contract amendment results in a longer contract term or increased payments, a state agency may not renew or amend a contract for the outsourcing of a service or activity that has an original term value exceeding $5 ~~$10~~ million before submitting a written report concerning contract performance to the Governor, the President of the Senate, and the Speaker of the House of Representatives at least 90 days before execution of the renewal or amendment.

(15)(a) ~~(14)~~ For each contractual services contract, the agency shall designate an employee to function as contract manager who is responsible for enforcing performance of the contract terms and conditions and serve as a liaison between ~~with~~ the contractor and the agency. The contract manager may not be an individual who has been employed, within the previous 5 years, by the vendor awarded the contractual services contract. The primary responsibilities of a contract manager include, but are not limited to:

1. Participating in the solicitation development and review of contract documents.

2. Monitoring the contractor's progress and performance to ensure procured products and services conform to the contract requirements and keeping timely records of findings.

3. Managing and documenting any changes to the contract through the amendment process authorized by the terms of the contract.

4. Monitoring the contract budget to ensure sufficient funds are available throughout the term of the contract.

5. Exercising applicable remedies, as appropriate, when a contractor's performance is deficient.

(b) ~~(a)~~ Each contract manager who is responsible for contracts in excess of the threshold amount for CATEGORY TWO must, at a minimum, complete training conducted by the Chief Financial Officer for accountability in contracts and grant management. The Chief Financial Officer shall evaluate such training every 5 years to assess its effectiveness and update the training curriculum. The Chief Financial Officer shall establish and disseminate uniform procedures pursuant to s. 17.03(3) to ensure that contractual services have been rendered in accordance with the contract terms before the agency processes the invoice for payment. The procedures must include, but need not be limited to, procedures for monitoring and documenting contractor performance, reviewing and documenting all deliverables for which payment is requested by vendors, and providing written certification by contract managers of the agency's receipt of goods and services.

(c) ~~(b)~~ Each contract manager who is responsible for contracts in excess of $100,000 annually must, in addition to the accountability in contracts and grant management training

required in paragraph (b) and within 6 months after being assigned responsibility for such contracts, complete training in contract management and become a certified contract manager. The department is responsible for establishing and disseminating the training and certification requirements for certified contract managers. Training must promote best practices and procedures related to negotiating, managing, and ensuring accountability in agency contracts and grant agreements, which must include the use of case studies based upon previous audits, contracts, and grant agreements. A certified contract manager must complete training every 5 years for certification renewal ~~requirements for certification which include completing the training conducted by the Chief Financial Officer for accountability in contracts and grant management~~. Training and certification must be coordinated by the department, and the training must be conducted jointly by the department and the Department of Financial Services. The department shall evaluate such training every 5 years to assess its effectiveness and update the training curriculum ~~Training must promote best practices and procedures related to negotiating, managing, and ensuring accountability in agency contracts and grant agreements, which must include the use of case studies based upon previous audits, contracts, and grant agreements. All agency contract managers must become certified within 24 months after establishment of the training and certification requirements by the department and the Department of Financial Services~~.

(d) Each contract manager who is responsible for contracts in excess of $10 million annually must, in addition to the training required in paragraph (b) and the training and

certification required in paragraph (c), possess at least 5 years of experience managing contracts in excess of $5 million annually.

(16) ~~(15)~~ Each agency shall designate at least one employee who shall serve as a contract administrator responsible for maintaining a contract file and financial information on all contractual services contracts and who shall serve as a liaison with the contract managers and the department. For a contract of $500,000 or less annually, the contract administrator may also serve as the contract manager if he or she has completed the required training. For a contract in excess of $500,000 annually, the contract administrator may not serve as both the contract administrator and the contract manager.

(17)(a) ~~(16)(a)~~ For a contract in excess of the threshold amount provided in s. 287.017 for CATEGORY FOUR, the agency head shall appoint:

1. At least three persons to independently evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for the commodity ~~which commodities~~ or contractual services ~~are~~ sought.

2. At least three persons to a negotiation team to conduct negotiations during a competitive sealed reply procurement. The negotiation team members must ~~who~~ collectively have experience and knowledge in negotiating contracts, contract procurement, and the program areas and service requirements for the commodity ~~which commodities~~ or contractual services ~~are~~ sought.

(b)1. If the value of a contract is in excess of $1 million in any fiscal year, at least one of the persons conducting negotiations must be ~~certified as~~ a certified contract

negotiator ~~based upon department rules in order to ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and involved appropriately in the procurement process. At a minimum, the rules must address the qualifications required for certification, the method of certification, and the procedure for involving the certified negotiator~~.

2. If the value of a contract is in excess of $10 million in any fiscal year, at least one of the persons conducting negotiations must be a Project Management Professional, as certified by the Project Management Institute. The Project Management Professional shall provide guidance based on his or her experience, education, and competency to lead and direct complex projects.

3. The department is responsible for establishing and disseminating the certification and training requirements for certified contract negotiators. Training must ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and involved appropriately in the procurement process. The department shall evaluate such training every 5 years in order to assess its effectiveness and update the training curriculum. A certified contract negotiator is required to complete training every 5 years for certification renewal. Qualification requirements for certification must include:

a. At least 12 months' experience as a purchasing agent, contract manager, or contract administrator for an agency or a local governmental entity where at least 50 percent of the designated duties included procuring commodities or contractual

services; participating in contract negotiation, contract management, or contract administration; or working as an agency attorney whose duties included providing legal counsel to the agency's purchasing or contracting staff; and

b. Experience during the preceding 5 years in leading at least two federal, state, or local government negotiation teams through a negotiated procurement, or participation in at least three federal, state, or local government-negotiated procurements.

(18) Any person who supervises contract administrators or contract or grant managers who meet criteria for certification in subsection (15) shall annually complete public procurement training for supervisors within 12 months after appointment to the supervisory position. The department is responsible for establishing and disseminating the training course content required for supervisors, and training shall commence no later than July 1, 2022.

(26)(a) For each contractual services contract in excess of $5 million, the agency head of an agency as defined in s. 287.012 shall establish a continuing oversight team after the contract has been awarded. The agency head shall appoint at least four persons, one of whom must be the certified contract manager, to the continuing oversight team. If the value of the contractual services contract is in excess of $10 million, at least one of the persons on the continuing oversight team must possess at least 5 years of experience in managing contracts of a similar scope or size. If the value of the contractual services contract is in excess of $20 million, the continuing oversight team must consist of at least five persons, and at

least one of the persons on the continuing oversight team must be from a state agency other than the agency or agencies participating in the contract. Members of the continuing oversight team must be employees of the state and must collectively have experience and knowledge in contract management, contract administration, contract enforcement, and the program areas and service requirements for the contractual services purchased.

(b)1. For contracts in excess of $5 million, each continuing oversight team must meet at least quarterly.

2. For contracts in excess of $10 million, each continuing oversight team must meet at least monthly. A representative of the contractor must be made available to members of the continuing oversight team for at least one meeting every calendar quarter to respond to any questions or requests for information from the continuing oversight team concerning contractor performance.

(c)1. Within 30 days after the formation of the continuing oversight team, the continuing oversight team must convene an initial meeting with representatives of the contractor to achieve a mutual understanding of the contract requirements, to provide the contractor with an orientation to the contract management process, and to provide an explanation of the role of the continuing oversight team, contract manager, and contract administrator.

2. The continuing oversight team must meet to discuss the status of the contract, the pace of deliverables, the quality of deliverables, contractor responsiveness, and contractor performance. The contract administrator must be present at each

meeting with the contract file and all applicable financial information. The continuing oversight team may submit written questions to the contractor concerning any items discussed during a continuing oversight team meeting. The contractor must respond to the team's questions within 10 business days after receiving the written questions. The questions and responses must be included in the contract file.

(d) The continuing oversight team must notify, in writing:

1. The agency head and the department of any deficiency in a contractor's performance which substantially affects the pace of deliverables or the likelihood of the successful completion of the contract.

2. The agency head, the department, and the Office of Policy and Budget in the Executive Office of the Governor of any significant change in contract scope or any increase in the cost of the contract which is 5 percent of the planned contract cost or greater within the fiscal year for contractual service contracts of at least $5 million.

3. The agency head, the department, the Office of Policy and Budget in the Executive Office of the Governor, and the legislative appropriations committees of any significant change in contract scope or any increase in the cost of the contract which is 5 percent of the planned contract cost or greater within the fiscal year for contractual service contracts of $10 million or greater.

Section 5. Subsection (7) is added to section 287.058, Florida Statutes, to read:

287.058 Contract document.—

(7) A contract may not contain a nondisclosure clause that

prohibits the contractor from disclosing information relevant to the performance of the contract to members or staff of the Senate or the House of Representatives.

Section 6. Section 287.1351, Florida Statutes, is created to read:

287.1351 Suspended vendors; state contracts.—

(1) As used in this section, the term "vendor" means a person or an entity that provides goods or services to an agency under a contract or submits a bid, proposal, or reply to provide goods or services to an agency.

(2)(a) A vendor that is in default on any contract with an agency or has otherwise repeatedly demonstrated a recent inability to fulfill the terms and conditions of previous state contracts or to adequately perform its duties under those contracts may not submit a bid, proposal, or reply to an agency or enter into or renew a contract to provide any goods or services to an agency after its placement, pursuant to this section, on the suspended vendor list.

(b) An agency may not accept a bid, proposal, or reply from, or enter into or renew any contract with, a vendor on the suspended vendor list until such vendor has been removed from the suspended vendor list and returned to the vendor list maintained by the department pursuant to s. 287.042(1)(a) and (b) and the vendor has reimbursed the agency for any reprocurement costs.

(3) An agency shall notify the department of any vendor that has met the grounds for suspension described in paragraph (2)(a). The agency must provide documentation to the department evidencing the vendor's default or other grounds for suspension.

The department shall review the documentation provided and determine whether good cause exists to remove the vendor from the vendor list and to place it on the suspended vendor list. If good cause exists, the department must notify the vendor in writing of its intent to remove the vendor from the vendor list and of the vendor's right to an administrative hearing and the applicable procedures and time requirements for any such hearing. If the vendor does not request an administrative hearing, the department must enter a final order removing the vendor from the vendor list. A vendor may not be removed from the vendor list without receiving an individual notice of intent from the department.

(4) Within 21 days after receipt of the notice of intent, the vendor may file with the department a petition for a formal hearing pursuant to ss. 120.569 and 120.57 to challenge the department's decision to remove the vendor from the vendor list. A vendor that fails to timely file a petition in accordance with this subsection is deemed to have waived its right to a hearing, and the department's decision to remove the vendor from the vendor list becomes final agency action.

(5)(a) The department shall place any vendor removed from the vendor list pursuant to this section on the suspended vendor list. One year or more after entry of the final order of its suspension, a suspended vendor may file a petition with the department for removal from the suspended vendor list. The proceeding on the petition must be conducted in accordance with chapter 120. The vendor may be removed from the suspended vendor list if the administrative law judge determines that removal from the list would be in the public interest. In determining

whether removal from the list would be in the public interest, the administrative law judge may consider, but is not limited to, whether the suspended vendor has prepared a corrective action plan that addresses the original grounds for default or failure to fulfill the terms and conditions of the contract, reimbursed the agency for any reprocurement costs, or provided additional evidence that the vendor has taken other remedial action.

(b) If a petition for removal from the suspended vendor list is denied, the vendor may not petition for another hearing on removal for a period of at least 9 months after the date of the denial. The department may petition for the suspended vendor's removal before the expiration of such period if, in the department's discretion, the department determines that removal from the suspended vendor list would be in the public interest.

Section 7. Section 287.136, Florida Statutes, is amended to read:

287.136 Audit of executed contract documents.—

(1) After execution of a contract, the Chief Financial Officer shall perform audits of the executed contract document and contract manager's records to ensure that adequate internal controls are in place for complying with the terms and conditions of the contract and for the validation and receipt of goods and services.

(a) ~~(1)~~ At the conclusion of the audit, the Chief Financial Officer's designee shall discuss the audit and potential findings with the official whose office is subject to audit. The final audit report shall be submitted to the agency head.

(b) ~~(2)~~ Within 30 days after receipt of the final audit

report, the agency head shall submit to the Chief Financial Officer or designee his or her written statement of explanation or rebuttal concerning findings requiring corrective action, including corrective action to be taken to preclude a recurrence.

(2) Beginning October 1, 2021, and every 3 years thereafter, each agency inspector general shall complete a risk-based compliance audit of all contracts executed by the agency for the preceding 3 fiscal years. The audit must include an evaluation of and identify any trend in vendor preference. The audit findings must be submitted to the agency head, the secretary of the Department of Management Services, and the Governor.

Section 8. Subsection (1) of section 43.16, Florida Statutes, is amended to read:

43.16 Justice Administrative Commission; membership, powers and duties.—

(1) There is hereby created a Justice Administrative Commission, with headquarters located in the state capital. The necessary office space for use of the commission shall be furnished by the proper state agency in charge of state buildings. For purposes of the fees imposed on agencies pursuant to s. 287.057(24) ~~s. 287.057(22)~~, the Justice Administrative Commission shall be exempt from such fees.

Section 9. Paragraph (a) of subsection (2) of section 215.971, Florida Statutes, is amended to read:

215.971 Agreements funded with federal or state assistance.—

(2) For each agreement funded with federal or state

financial assistance, the state agency shall designate an employee to function as a grant manager who shall be responsible for enforcing performance of the agreement's terms and conditions and who shall serve as a liaison with the recipient or subrecipient.

(a)1. Each grant manager who is responsible for agreements in excess of the threshold amount for CATEGORY TWO under s. 287.017 must, at a minimum, complete training conducted by the Chief Financial Officer for accountability in contracts and grant management.

2. Effective December 1, 2014, each grant manager responsible for agreements in excess of $100,000 annually must complete the training and become a certified contract manager as provided under s. 287.057(15) ~~s. 287.057(14)~~. All grant managers must become certified contract managers within 24 months after establishment of the training and certification requirements by the Department of Management Services and the Department of Financial Services.

Section 10. Paragraph (a) of subsection (3) of section 287.0571, Florida Statutes, is amended to read:

287.0571 Business case to outsource; applicability.—

(3) This section does not apply to:

(a) A procurement of commodities and contractual services listed in s. 287.057(3)(d) and (e) and (23) ~~(21)~~.

Section 11. Paragraph (b) of subsection (4) of section 295.187, Florida Statutes, is amended to read:

295.187 Florida Veteran Business Enterprise Opportunity Act.—

(4) VENDOR PREFERENCE.—

(b) Notwithstanding s. 287.057(12) ~~s. 287.057(11)~~, if a veteran business enterprise entitled to the vendor preference under this section and one or more businesses entitled to this preference or another vendor preference provided by law submit bids, proposals, or replies for procurement of commodities or contractual services which are equal with respect to all relevant considerations, including price, quality, and service, the state agency shall award the procurement or contract to the business having the smallest net worth.

Section 12. Paragraph (a) of subsection (1) of section 394.47865, Florida Statutes, is amended to read:

394.47865 South Florida State Hospital; privatization.—

(1) The Department of Children and Families shall, through a request for proposals, privatize South Florida State Hospital. The department shall plan to begin implementation of this privatization initiative by July 1, 1998.

(a) Notwithstanding s. 287.057(14) ~~s. 287.057(13)~~, the department may enter into agreements, not to exceed 20 years, with a private provider, a coalition of providers, or another agency to finance, design, and construct a treatment facility having up to 350 beds and to operate all aspects of daily operations within the facility. The department may subcontract any or all components of this procurement to a statutorily established state governmental entity that has successfully contracted with private companies for designing, financing, acquiring, leasing, constructing, and operating major privatized state facilities.

Section 13. Paragraph (b) of subsection (2) and subsection (3) of section 402.7305, Florida Statutes, are amended to read:

402.7305 Department of Children and Families; procurement of contractual services; contract management.—

(2) PROCUREMENT OF COMMODITIES AND CONTRACTUAL SERVICES.—

(b) When it is in the best interest of a defined segment of its consumer population, the department may competitively procure and contract for systems of treatment or service that involve multiple providers, rather than procuring and contracting for treatment or services separately from each participating provider. The department must ensure that all providers that participate in the treatment or service system meet all applicable statutory, regulatory, service quality, and cost control requirements. If other governmental entities or units of special purpose government contribute matching funds to the support of a given system of treatment or service, the department shall formally request information from those funding entities in the procurement process and may take the information received into account in the selection process. If a local government contributes matching funds to support the system of treatment or contracted service and if the match constitutes at least 25 percent of the value of the contract, the department shall afford the governmental match contributor an opportunity to name an employee as one of the persons required by s. 287.057(17) ~~s. 287.057(16)~~ to evaluate or negotiate certain contracts, unless the department sets forth in writing the reason why the inclusion would be contrary to the best interest of the state. Any employee so named by the governmental match contributor shall qualify as one of the persons required by s. 287.057(17) ~~s. 287.057(16)~~. A governmental entity or unit of special purpose government may not name an employee as one of

the persons required by s. 287.057(17) ~~s. 287.057(16)~~ if it, or any of its political subdivisions, executive agencies, or special districts, intends to compete for the contract to be awarded. The governmental funding entity or contributor of matching funds must comply with all procurement procedures set forth in s. 287.057 when appropriate and required.

(3) CONTRACT MANAGEMENT REQUIREMENTS AND PROCESS.—The Department of Children and Families shall review the time period for which the department executes contracts and shall execute multiyear contracts to make the most efficient use of the resources devoted to contract processing and execution. Whenever the department chooses not to use a multiyear contract, a justification for that decision must be contained in the contract. Notwithstanding s. 287.057(15) ~~s. 287.057(14)~~, the department is responsible for establishing a contract management process that requires a member of the department's Senior Management or Selected Exempt Service to assign in writing the responsibility of a contract to a contract manager. The department shall maintain a set of procedures describing its contract management process which must minimally include the following requirements:

(a) The contract manager shall maintain the official contract file throughout the duration of the contract and for a period not less than 6 years after the termination of the contract.

(b) The contract manager shall review all invoices for compliance with the criteria and payment schedule provided for in the contract and shall approve payment of all invoices before their transmission to the Department of Financial Services for

payment.

(c) The contract manager shall maintain a schedule of payments and total amounts disbursed and shall periodically reconcile the records with the state's official accounting records.

(d) For contracts involving the provision of direct client services, the contract manager shall periodically visit the physical location where the services are delivered and speak directly to clients receiving the services and the staff responsible for delivering the services.

(e) The contract manager shall meet at least once a month directly with the contractor's representative and maintain records of such meetings.

(f) The contract manager shall periodically document any differences between the required performance measures and the actual performance measures. If a contractor fails to meet and comply with the performance measures established in the contract, the department may allow a reasonable period for the contractor to correct performance deficiencies. If performance deficiencies are not resolved to the satisfaction of the department within the prescribed time, and if no extenuating circumstances can be documented by the contractor to the department's satisfaction, the department must terminate the contract. The department may not enter into a new contract with that same contractor for the services for which the contract was previously terminated for a period of at least 24 months after the date of termination. The contract manager shall obtain and enforce corrective action plans, if appropriate, and maintain records regarding the completion or failure to complete

corrective action items.

(g) The contract manager shall document any contract modifications, which shall include recording any contract amendments as provided for in this section.

(h) The contract manager shall be properly trained before being assigned responsibility for any contract.

Section 14. Subsection (2) of section 408.045, Florida Statutes, is amended to read:

408.045 Certificate of need; competitive sealed proposals.—

(2) The agency shall make a decision regarding the issuance of the certificate of need in accordance with the provisions of s. 287.057(17) ~~s. 287.057(16)~~, rules adopted by the agency relating to intermediate care facilities for the developmentally disabled, and the criteria in s. 408.035, as further defined by rule.

Section 15. Subsection (42) of section 570.07, Florida Statutes, is amended to read:

570.07 Department of Agriculture and Consumer Services; functions, powers, and duties.—The department shall have and exercise the following functions, powers, and duties:

(42) Notwithstanding the provisions of s. 287.057(24) ~~s. 287.057(22)~~ that require all agencies to use the online procurement system developed by the Department of Management Services, the department may continue to use its own online system. However, vendors utilizing such system shall be prequalified as meeting mandatory requirements and qualifications and shall remit fees pursuant to s. 287.057(24) ~~s. 287.057(22)~~, and any rules implementing s. 287.057.

Section 16. Paragraph (e) of subsection (6) of section

627.351, Florida Statutes, is amended to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(e) The corporation is subject to s. 287.057 for the purchase of commodities and contractual services except as otherwise provided in this paragraph. Services provided by tradepersons or technical experts to assist a licensed adjuster in the evaluation of individual claims are not subject to the procurement requirements of this section. Additionally, the procurement of financial services providers and underwriters must be made pursuant to s. 627.3513. Contracts for goods or services valued at or more than $100,000 are subject to approval by the board.

1. The corporation is an agency for purposes of s. 287.057, except that, for purposes of s. 287.057(24) ~~s. 287.057(22)~~, the corporation is an eligible user.

a. The authority of the Department of Management Services and the Chief Financial Officer under s. 287.057 extends to the corporation as if the corporation were an agency.

b. The executive director of the corporation is the agency head under s. 287.057, except for resolution of bid protests for which the board would serve as the agency head.

2. The corporation must provide notice of a decision or intended decision concerning a solicitation, contract award, or exceptional purchase by electronic posting. Such notice must contain the following statement: "Failure to file a protest within the time prescribed in this section constitutes a waiver of proceedings."

a. A person adversely affected by the corporation's

decision or intended decision to award a contract pursuant to s. 287.057(1) or (3)(c) who elects to challenge the decision must file a written notice of protest with the executive director of the corporation within 72 hours after the corporation posts a notice of its decision or intended decision. For a protest of the terms, conditions, and specifications contained in a solicitation, including provisions governing the methods for ranking bids, proposals, replies, awarding contracts, reserving rights of further negotiation, or modifying or amending any contract, the notice of protest must be filed in writing within 72 hours after posting the solicitation. Saturdays, Sundays, and state holidays are excluded in the computation of the 72-hour time period.

b. A formal written protest must be filed within 10 days after the date the notice of protest is filed. The formal written protest must state with particularity the facts and law upon which the protest is based. Upon receipt of a formal written protest that has been timely filed, the corporation must stop the solicitation or contract award process until the subject of the protest is resolved by final board action unless the executive director sets forth in writing particular facts and circumstances that require the continuance of the solicitation or contract award process without delay in order to avoid an immediate and serious danger to the public health, safety, or welfare.

(I) The corporation must provide an opportunity to resolve the protest by mutual agreement between the parties within 7 business days after receipt of the formal written protest.

(II) If the subject of a protest is not resolved by mutual

agreement within 7 business days, the corporation's board must transmit the protest to the Division of Administrative Hearings and contract with the division to conduct a hearing to determine the merits of the protest and to issue a recommended order. The contract must provide for the corporation to reimburse the division for any costs incurred by the division for court reporters, transcript preparation, travel, facility rental, and other customary hearing costs in the manner set forth in s. 120.65(9). The division has jurisdiction to determine the facts and law concerning the protest and to issue a recommended order. The division's rules and procedures apply to these proceedings; the division's applicable bond requirements do not apply. The protest must be heard by the division at a publicly noticed meeting in accordance with procedures established by the division.

c. In a protest of an invitation-to-bid or request-for-proposals procurement, submissions made after the bid or proposal opening which amend or supplement the bid or proposal may not be considered. In protesting an invitation-to-negotiate procurement, submissions made after the corporation announces its intent to award a contract, reject all replies, or withdraw the solicitation that amends or supplements the reply may not be considered. Unless otherwise provided by law, the burden of proof rests with the party protesting the corporation's action. In a competitive-procurement protest, other than a rejection of all bids, proposals, or replies, the administrative law judge must conduct a de novo proceeding to determine whether the corporation's proposed action is contrary to the corporation's governing statutes, the corporation's rules or policies, or the

solicitation specifications. The standard of proof for the proceeding is whether the corporation's action was clearly erroneous, contrary to competition, arbitrary, or capricious. In any bid-protest proceeding contesting an intended corporation action to reject all bids, proposals, or replies, the standard of review by the board is whether the corporation's intended action is illegal, arbitrary, dishonest, or fraudulent.

d. Failure to file a notice of protest or failure to file a formal written protest constitutes a waiver of proceedings.

3. The board, acting as agency head, shall consider the recommended order of an administrative law judge in a public meeting and take final action on the protest. Any further legal remedy lies with the First District Court of Appeal.

Section 17. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1616 revises several provisions of the part I of chapter 287, Florida Statutes, related to public procurement. The bill requires the Secretary of Management Services, rather than the Department of Management Services (DMS), make a written determination finding a contract to be cost effective and the best value to the state before an agency may be authorized to enter such contract let by the Federal Government, another state, or a political subdivision.

The bill provides that each agency contract must include authorization for the agency to inspect certain financial and programmatic records of the contractor relevant to the performance of the contract.

The bill requires an agency that issues a request for quote for contractual services for any state term contract with 25 vendors or fewer to issue a request to *all* approved vendors. For state term contracts with more than 25 vendors, the agency must issue a request to a minimum of 25 approved vendors.

The bill provides for the immediate disqualification from state term contract eligibility for a firm or individual who has been removed from the source of supply or placed on the convicted vendor list or the discriminatory vendor list.

The bill changes the electronic posting requirement for single source contracting from seven to 15 days and to require agencies report – on a quarterly basis – to the DMS each instance in which the agency entered into a single source purchase contract. The DMS is required to report such information to the Governor and the Legislature no later than January 1, 2022, and each January thereafter.

The bill restricts an agency from initiating a competitive solicitation that would require a change in law or change to the agency's original approved budget, unless specifically authorized.

This bill amends the provision governing an agency's designation of a contract manager to prohibit a contract manager from having been employed, within the previous five years, by the vendor awarded the contractual services contract that he or she is assigned. The bill provides for primary responsibilities of a contract manager.

Current law requires the Chief Financial Officer provide training for accountability in contracts and grant management for a contract manager responsible for contracts in excess of the threshold amount for category two ($35,000). The bill requires the Chief Financial Officer to evaluate this training every five years.

Current law requires a contract manager who is responsible for contracts over $100,000 annually to complete training in contract management and become a certified contract manager. The bill requires this training to be completed within six months. The bill provides that in addition to the training provided under current law, such a contract manager must also complete the accountability in contracts and grant management training. The DMS is responsible for disseminating the training and certification requirements for certified contract managers and is required to evaluate the training every five years.

The bill provides that a contract manager who is responsible for contracts in excess of $10 million annually, in addition to completing the accountability in contracts and grant management training and the contract management training and certification requirements, must possess at least five years of experience managing contracts in excess of $5 million annually.

The bill permits a designated contract administrator to also serve as the contract manager for contracts less than $500,000 annually, if he or she has completed the required training. For contracts in excess of $500,000 annually, the contact administrator is prohibited from serving in both capacities.

The bill specifies that for contracts in excess of $195,000 (category four threshold), the agency head must appoint at least three persons to *independently* evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for the commodity or contractual services sought. The bill specifies that a negotiation *team* conduct negotiations during a competitively sealed reply procurement. For a competitively procured contract in excess of $1 million in any fiscal year, the negotiation team must include a certified contract negotiator.

Current law provides that for contracts in excess of $10 million in any fiscal year, at least one person conducting negotiations must be a Project Management Professional. The bill specifies

that such Project Management Professional must provide guidance based on his or her experience, education, and competency to lead and direct complex projects.

The bill requires the DMS to establish and disseminate the training and certification requirements for certified contract negotiators. The bill provides for certification renewal and qualification requirements for certification. The DMS must evaluate such training every five years.

The bill provides that, beginning July 1, 2022, any person who supervises certain contract administrators or contract or grant managers to annually complete public procurement training for supervisors within 12 months of appointment to the supervisory position. The DMS is responsible for establishing and disseminating the training course content required for supervisors.

The bill requires an agency to establish a four person "continuing oversight team" for each contractual services contract in excess of $5 million. The bill requires the teams to meet to discuss the status of the contract, the pace of deliverables, the quality of deliverables, contractor responsiveness, and contractor performance; and requires the team to provide written notice to the agency head, the DMS, the Office of Policy and Budget within the Executive Office of the Governor, and the legislative appropriations committees in certain instances.

The bill provides that a contract may not contain a nondisclosure clause exempting certain information.

The bill provides that a vendor who is placed on the suspended vendor list is disqualified from bidding on or renewing a contract with the state and provides a mechanism for a vendor to petition for removal from the suspended vendor list.

The bill requires each agency inspector general to complete a risk based compliance audit of all contracts executed by the agency for the preceding three fiscal years and requires the audit to identify and evaluate any trend in vendor preference.

The bill requires the DMS to conduct a study evaluating fleet management options to identify potential savings, of which, the results must be provided in a written report to the President of the Senate and Speaker of the House of Representatives by January 1, 2022.

The bill makes conforming statutory changes.

The bill will have an indeterminate negative fiscal impact. *See* Part V, Fiscal Impact Statement.

The bill takes effect on July 1, 2021.

II. Present Situation:

Procurement of Commodities and Services

Chapter 287, F.S., regulates state agency procurement of personal property and services. The term "agency" is defined broadly to mean any unit of the executive branch of state government.[1] The Department of Management Services (DMS) is responsible for overseeing state purchasing activity, including professional and contractual services, as well as commodities needed to support agency activities.[2] The agency head of the DMS is the "Secretary of Management Services" who is appointed by the Governor, subject to confirmation by the Florida Senate, and serves at the pleasure of the Governor.[3]

The DMS is authorized to evaluate contracts let by the federal government, another state, or a political subdivision for the provision of commodities and contract services and, when it is determined to be cost effective and in the best interest of the state, to enter into written agreement authorizing a state agency to make purchases under such contract.[4] The DMS negotiates contracts and purchasing agreements that are intended to leverage the state's buying power.

Section 287.017, F.S., establishes the following purchasing categories, which are threshold amounts linked to other requirements in ch. 287, F.S.:

- Category one: $20,000.
- Category two: $35,000.
- Category three: $65,000.
- Category four: $195,000.
- Category five: $325,000.

Written Agreements for Procurements Exceeding $35,000

Every procurement for contractual services in excess of the threshold amount in category two, $35,000, with certain exceptions[5], must be evidenced by a written agreement embodying all provisions and conditions of the procurement of such services.[6] The provisions and conditions must, where applicable, include, but are not limited to a provision:

- That bills for fees or other compensation for services or expenses are to be submitted in detail sufficient for a proper preaudit and postaudit thereof.[7]

[1] Section 287.012(1), F.S. The term "agency" is defined as "any of the various state officers, departments, boards, commissions, divisions, bureaus, and councils and any other unit of organization, however designated, of the executive branch of state government. "Agency" does not include the university and college boards of trustees or the state universities and colleges."
[2] *See* ss. 287.032 and 287.042, F.S.
[3] Section 20.22(1), F.S.
[4] Section 287.042(16), F.S.
[5] Excepting providing of health and mental health services or drugs in the examination, diagnosis, or treatment of sick or injured state employees or the providing of other benefits as required by the Workers' Compensation Law.
[6] Section 287.058(1), F.S.
[7] Section 287.058(1)(a), F.S.

- That bills for travel expenses are to be submitted in accordance with statutory procedures.[8]
- Allowing unilateral cancellation by the agency for refusal by the contractor to allow public access to all documents, papers, letters, or other material made or received by the contractor in conjunction with the contract, unless the records are exempt from provisions governing the inspection and copying of public records.[9]
- Specifying a scope of work that clearly establishes all tasks the contractor is required to perform.[10]
- Dividing the contract into quantifiable, measurable, and verifiable units of deliverables that must be received and accepted in writing by the contract manager before payment; each deliverable must be directly related to the scope of work and specify a performance measure, that is, the required minimum acceptable level of service to be performed and criteria for evaluating the successful completion of each deliverable.[11]
- Specifying the criteria and the final date by which such criteria must be met for completion of the contract.[12]
- Specifying that the contract may be renewed for a period that may not exceed three years or the term of the original contract, whichever is longer, specifying the renewal price for the contractual service as set forth in the bid, proposal, or reply; specifying that costs for the renewal may not be charged; and specifying that renewals are contingent upon satisfactory performance evaluations by the agency and subject to the availability of funds.[13]
- Specifying the financial consequences that the agency must apply if the contractor fails to perform in accordance with the contract.[14]
- Addressing the property rights of any intellectual property related to the contract and the specific rights of the State regarding the intellectual property if the contractor fails to provide the services or is no longer providing services.[15]

The written agreement must be signed by the agency head or designee and the contractor before the rendering of any contractual service in excess of $35,000.[16,17] Unless otherwise provided in the General Appropriations Act (GAA) or the substantive bill implementing the GAA, the Chief Financial Officer (CFO) may waive these requirements for services, which are included in law for procurement of commodities or contractual services.[18] A contract may not prohibit a contractor from lobbying the executive or legislative branch concerning the scope of services,

[8] Section 287.058(1)(b), F.S., referring to s. 112.061, F.S., and providing further that a state agency may establish rates lower than the maximum provided in that statute.
[9] Section 287.058(1)(c), F.S., referring to Art. I, § 24(a), Fla. Const., and s. 119.07(1), F.S.
[10] Section 287.058(1)(d), F.S.
[11] Section 287.058(1)(e), F.S.
[12] Section 287.058(1)(f), F.S.
[13] Section 287.058(1)(g), F.S., noting, however, that exceptional purchase contracts pursuant to ss. 287.057(3)(a), and 287.057(3)(c), F.S., may not be renewed. *See* Florida Dept. of Highway Safety and Motor Vehicles v. National Safety Com'n, Inc., 75 So. 3d 298 (Fla. 1st DCA 2011) (The purpose of the statute allowing state procurement contracts to include a renewal provision is to exempt the parties from the competitive bidding process for a limited time if they are mutually satisfied with the agreement; it does not guarantee any vendor the right to continue to do business with the State beyond the original term of the contract.).
[14] Section 287.058(1)(h), F.S.
[15] Section 287.058(1)(i), F.S.
[16] There is an exception in the case of a valid emergency as certified by the agency head.
[17] Section 287.058(2), F.S.
[18] Section 287.058(5), F.S.

performance, term, or compensation regarding any contract to which the contractor and a state agency are parties, after contract execution and during the contract term.[19]

Each public agency contract for services must authorize the public agency to inspect the:

- Financial records, papers, and documents of the contractor that are directly related to the performance of the contract or the expenditure of state funds.
- Programmatic records, papers, and documents of the contractor that the public agency determines are necessary to monitor the performance of the contract or to ensure that the terms of the contract are being met. [20]

The contract must require the contractor to provide the records, papers, and documents requested by the public agency within 10 business days after the request is made.[21]

Contract Renewals

Current law allows contracts for commodities or contractual services to be renewed for a period that does not exceed three years or the term of the original contract, whichever is longer.[22] Renewal of a contract for commodities or contractual services must be in writing and is subject to the same terms and conditions set forth in the initial contract and any written amendments signed by the parties.[23] A renewal contract may not include any compensation for costs associated with the renewal, is contingent upon satisfactory performance evaluations by the agency, and is subject to the availability of funds.[24]

If a contract amendment results in a longer contract term or increased payments, an agency may not renew or amend a contract for the outsourcing of a service or activity that has an original term value exceeding $10 million before submitting a written report concerning contract performance to the Governor, the President of the Senate, and the Speaker of the House of Representatives.[25] The written report must be submitted at least 90 days before execution of the renewal or amendment.

Alternate Contract Sources

The DMS must evaluate contracts let by the Federal Government, another state, or a political subdivision for commodities or contractual services, often referred to as alternate contract sources to determine if the contracts are cost-effective and in the best interest of the state. If the DMS makes such determination in writing, then an agency may make purchases under the contract.[26]

State Term Contracts & Request for Quotes

Section 287.056, F.S., requires agencies and permits eligible users[27] to purchase commodities and contractual services from purchasing agreements and state term contracts[28] procured by the DMS.

Agencies and eligible users may use a request for quote, to obtain written pricing or services information from a state term contract vendor to determine whether a more favorable price, term or condition than that provided in the state term contract is available.[29] The use of a request for quote does not constitute a decision subject to protest.[30] Rule 60A-1.043, F.A.C., requires agencies to request at least two quotes from state term contracts with multiple vendors, unless (i) the purchase is less than category one ($20,000), or (ii) the state term contract requires otherwise. Agencies must document the justification for a selection based on receipt of less than two quotes.[31]

Competitive-Solicitation

With certain exceptions,[32] the procurement of commodities or contractual services in excess of category two, $35,000, requires agencies to use a competitive solicitation process.[33] Any form of competitive solicitation must be made available simultaneously to all vendors, must include the time and date for the receipt of bids, proposals, or replies, and must include all contractual terms and conditions applicable to the procurement.[34] Agencies may use a variety of methods, depending on the cost and characteristics of the needed good or service, the complexity of the procurement, and the number of available vendors, including:

- Single source contracts,[35] used when an agency determines that only one vendor is available to provide a commodity or service at the time of purchase;
- Invitations to bid,[36] used when an agency determines that standard services or goods will meet needs, wide competition is available, and the vendor's experience will not greatly influence the agency's results;
- Requests for proposals,[37] which are used when the procurement requirements allow for consideration of various solutions and the agency believes more than two or three vendors exist who can provide the required goods or services; and
- Invitations to negotiate,[38] which are used when negotiations are determined to be necessary to obtain the best value and involve a request for highly complex, customized, mission-critical services, by an agency dealing with a limited number of vendors.

[27] Section 287.012(11), F.S., defines "eligible user" to mean any person or entity authorized by the Department of Management Services (DMS) pursuant to rule to purchase from state term contracts or to use the online procurement system.
[28] Section 287.012(28), F.S., defines "state term contract" to mean a term contract that is competitively procured by the DMS pursuant to s. 287.057, F.S., and that is used by agencies and eligible users pursuant to s. 287.056, F.S.
[29] Section 287.056(2), F.S.

[33] Section 287.057(1), F.S.
[34] *Id.*
[35] Section 287.057(3)(c), F.S.
[36] Section 287.057(1)(a), F.S.
[37] Section 287.057(1)(b), F.S.
[38] Section 287.057(1)(c), F.S.

Contract Evaluations and Negotiations

For a contract in excess of $195,000, the agency head must appoint at least three people to evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for which commodities or contractual services are sought.[39] In addition, the agency head must appoint three people[40] to conduct negotiations during an invitation to negotiate procurement who collectively have experience and knowledge in negotiating contracts, contract procurement, and the program areas and service requirements for which commodities or contractual services are sought.[41]

If the value of a contract is in excess of $1 million in any fiscal year, at least one of the persons conducting negotiations must be certified as a Florida certified contract negotiator [42] in order to ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and involved appropriately in the procurement process.[43] If the value of a contract is in excess of $10 million in any fiscal year, at least one of the persons conducting negotiations must be a Project Management Professional certified by the Project Management Institute.[44]

Qualifications for Contract Managers and Contract Negotiators

Section 287.057(14), F.S., provides that for each contractual services contract, the agency must designate an employee to function as contract manager who must be responsible for enforcing performance of the contract terms and conditions and serve as a liaison with the contractor. Each contract manager who is responsible for contracts in excess of the threshold amount for category two ($35,000) must complete training in accountability in contracts and grant management conducted by the CFO.[45]

---

[39] Section 287.057(16)(a), F.S.

[40] Section 287.057(16)(b), F.S., provides that if the value of the contract is in excess of $1 million in any fiscal year, then at least one person conducting negotiations must be certified as a contract negotiator. If the value of the contract is in excess of $10 million in any fiscal year, then at least one person conducting negotiations must be a Project Management Professional certified by the Project Management Institute.

[41] Section 287.057(16)(a)2., F.S.

[42] Rule 60A-1.041(3), F.A.C., provides that a person must meet the following requirements for Florida certified contract negotiator (FCCN) Certification, which is valid for five years or until the expiration date stated on the person's FCCN certificate, whichever is later:

- Successful completion of the FCCN certification course;
- At least 12 months' experience as a purchasing agent, contract manager, or contract administrator for an agency or local government entity, where the job description for the position required that at least half of the employee's designated duties included procuring commodities or contractual services, participating in contract negotiation, contract management, or contract administration, or working as an agency attorney whose duties included providing legal counsel to the agency's purchasing or contracting staff; and
- Experience during the preceding five years in leading at least one federal, state, or local government negotiation team through a negotiated procurement, or participation in at least two federal, state, or local government negotiated procurements. Negotiated procurements include those from a single source; those negotiated when fewer than two responsive bids, proposals, or replies are received; and contract renewals. Employees must provide documentation to show compliance with the experience and participation requirements when submitting the application.

[43] Section 287.057(16)(b), F.S.

[44] *Id.*

[45] Section 287.057(14)(a), F.S.

Each contract manager responsible for contracts in excess of $100,000 annually must complete training in contract management and become a certified contract manager.[46] The DMS must establish and disseminate the requirements for certification which include completing the training conducted by the CFO for accountability and grant management. All agency contract managers must become certified within 24 months after establishment of the training and certification requirements by the DMS and the Department of Financial Services (DFS).

Each agency must designate at least one employee to serve as a contract administrator responsible for maintaining a contract file and financial information on all contractual services contracts and who shall serve as a liaison with the contract managers and the DMS.[47]

For a contract in excess of the threshold amount for category four ($195,000) the agency head must appoint:

- At least three persons to evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for which commodities or contractual services are sought.[48]
- At least three persons to conduct negotiations during a competitive sealed reply procurement who collectively have experience and knowledge in negotiating contracts, contract procurement, and the program areas and service requirements for which commodities or contractual services are sought.[49]

If the value of a contract is in excess of $1 million in any fiscal year, at least one of the persons conducting negotiations must be certified as a contract negotiator based upon the DMS' rules.[50] If the value of a contract is in excess of $10 million in any fiscal year, at least one of the persons conducting negotiations must be a Project Management Professional, as certified by the Project Management Institute.

Project Management Professional

Section 287.076, F.S., authorizes the DMS to implement a program to train state agency employees who are involved in managing outsourcings as Project Management Professionals, as certified by the Project Management Institute.[51] The Project Management Institute has stringent requirements for individuals to earn and maintain certification.[52] Subject to annual appropriations, the DMS, in consultation with entities subject to this part, shall identify personnel to participate in this training based on requested need and ensure that each agency is represented. The DMS may remit payment for this training on behalf of all participating personnel.

Vendor Registration and the Vendor Bid System

Any vendor that wishes to provide goods or services to the state must register in the Vendor Registration System.[53] Once registered, vendors are able to do business with the State of Florida executive branch agencies through the Vendor Information Portal.[54]

The Vendor Bid System (VBS), allows for agencies to post competitive solicitations of $35,000 or more. These solicitations include ITBs, RFPs, and ITNs for all vendors to review. Vendors can then bid, submit proposals, or submit a request to negotiate with the state agency through the VBS. A vendor will be notified through the VBS if its bid has been chosen and proceed by following bid specifications, timelines, and budgets.[55]

Vendor Lists and Removal of Any Source of Supply

Based on the vendor registration process as set out in s. 287.042, F.S., and Rule 60A-1.006, F.A.C., the DMS maintains a vendor list. Section 287.042(1)(b), F.S., authorizes the DMS to remove from its vendor list "any source of supply" – any vendor – which fails to fulfill any of its duties specified in a contract. Rule 60A-1.006, F.A.C., prescribes a three step process for removing a vendor or source of supply. The agency must provide written notice of the nature of the vendor's failure to perform and provide time certain (more than 10 days) for correcting the failure. Unless the vendor corrects its failure to perform or the agency determines the failure is legally excusable, the agency must find the vendor in default and issue a second notice stating (i) the reasons for default; (ii) that the agency will reprocure or has reprocured the commodities or services, and (iii) the amount of the reprocurement if known. The defaulting vendor is ineligible for award of a contract by the agency until the agency is reimbursed by the defaulting vendor for all reprocurement costs.[56] The defaulting vendor must be advised of the right to petition for an administrative hearing on the intended decision to remove the vendor from the list. An agency is required to provide a copy of all default actions to the DMS for removal from its vendor list.

The DMS maintains the following lists of vendors who have been removed for cause:
- Suspended Vendor List;[57]
- Convicted Vendor List;[58]
- Discriminatory Vendor List;[59]

[53] In order to register, a vendor must provide the following information: (1) Company Name; (2) Federal Tax ID; (3) Tax Filing Name; (4) Business Location; (5) Commodities and Services Offered; and (5) Certified Business and Enterprise Status. *See* Department of Management Services (DMS), *Vendor Resources, available at* https://www.dms.myflorida.com/business_operations/state_purchasing/vendor_resources (last visited Feb. 23, 2021).
[54] DMS, *Vendor Resources, available at* https://www.dms.myflorida.com/business_operations/state_purchasing/vendor_resources (last visited Feb. 23, 2021).
[55] *Id.*
[56] Rule 60A-1.006(3)(c), F.A.C., provides that reprocurement costs may include both administrative costs and costs or price increases incurred or to be incurred as a result of the reprocurement.
[57] Rule 60A-1.006(2), F.A.C., (vendors that have been removed for failing to fulfill any of its duties specified in a State contract).
[58] Section 287.133, F.S.
[59] Section 287.134(1)(c), F.S.

- Scrutinized List of Prohibited Companies;[60,61] and
- Vendor Complaint List.[62]

Suspended Vendor List

The suspended vendor list[63] includes vendors that have been removed from the vendor list for "failing to fulfill any of its duties specified in a contract with the State."[64] Currently, the DMS has five vendors on the suspended vendor list: (1) Building Maintenance of America, LLC d/b/a Florida Building Maintenance; (2) Club Tex, Inc.; (3) Correctional Consultants; (4) iColor Printing and Mailing, Inc.; and (5) Visual Image Design Firm, LLC.[65]

Convicted Vendor List

The convicted vendor list comprises the names and addresses of those who have been disqualified from the public contracting and purchasing process due to the conviction of a public entity crime.[66] A vendor who has been placed on the convicted vendor list following a conviction may not submit a bid, proposal, or reply on a contract to provide goods or services to a public entity, and a public entity may not accept any bid, proposal, or reply from, award any contract to, or contract any business with a vendor on the convicted vendor list.[67]

After receiving information that a vendor has been convicted of a public entity crime, the DMS must investigate and determine whether good cause exists to place the vendor on the convicted vendor list. If good cause exists, the DMS must provide written notification to the vendor of its intent to place that vendor on the convicted vendor list and of the vendors' legal rights. If the vendor does not request an administrative hearing, the DMS must enter a final order placing the vendor on the convicted vendor list.[68]

---

[60] Section 287.135, F.S.
[61] There are currently 78 companies on the scrutinized list of prohibited companies. No companies were added to the scrutinized list in the fourth quarter of 2020.
[62] DMS tracks formal complaints issued to vendors by state agencies which is provided to agencies to assist in determining vendor responsibility pursuant to s. 287.057(1-3), F.S. There are currently no vendors on the vendor complaint list. DMS, *Vendor Complaint List*, https://www.dms.myflorida.com/business_operations/state_purchasing/state_agency_resources/vendor_registration_and_vendor_lists/vendor_complaint_list (last visited Mar. 16, 2021).
[63] DMS, *Vendor Registration and Vendor Lists*, https://www.dms.myflorida.com/business_operations/state_purchasing/state_agency_resources/vendor_registration_and_vendor_lists (last visited Feb. 23, 2021).
[64] Section 287.042, F.S.; *See* Rule 60A-10.006, F.A.C.
[65] DMS, *Suspended Vendor List*, https://www.dms.myflorida.com/business_operations/state_purchasing/state_agency_resources/vendor_registration_and_vendor_lists/suspended_vendor_list (last visited Apr. 2, 2021).
[66] Section 287.133, F.S.; Section 287.133(1)(f), F.S., defines the term "public entity" to mean the State of Florida, any of its departments or agencies, or any political subdivision. Section 287.133(1)(g) defines "public entity crime" to mean a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United States, including, but not limited to, any bid, proposal, reply, or contract for goods or services, any lease for real property, or any contract for the construction or repair of a public building or public work, involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.
[67] Section 281.133(2)(b), F.S.
[68] Section 287.133(2)(e), F.S.

A disqualified vendor may to petition for removal no sooner than six months after being placed on the convicted vendor list.[69] Since 2016, five vendors have petitioned not to be placed on the convicted vendor list. Currently, there is one vendor on the convicted vendor list, Calixte, Jacques A. (Haitian American Association Against Cancer, Inc.).

Discriminatory Vendor List

The discriminatory vendor list consists of the names and addresses of any vendor that has been disqualified from the public contracting and purchasing powers due to a violation of any state or federal law prohibiting discrimination on the basis of race, gender, national origin, disability, or religion by an entity under s. 287.134, F.S. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity. The investigative and administrative process for discriminatory vendors is the same as that described above for the convicted vendor list, including the removal process and specified timelines.[70] Currently, there are no vendors on the discriminatory vendor list.

Chief Financial Officer and Department of Financial Services

As provided in the constitution,[71] the CFO is the chief fiscal officer of Florida and is responsible for settling and approving accounts against the state and keeping all state funds and securities.[72] The CFO is a member of the Governor's cabinet,[73] must reside at the seat of government of Florida, and must hold office in a room in the Capitol.[74]

The CFO, using generally accepted auditing procedures for testing or sampling, must examine, audit, and settle all accounts, claims, and demands, whatsoever, against the State, arising under any law or resolution of the Legislature, and issue a warrant directing the payment out of the State Treasury of such amount as he or she allows thereon.[75] The CFO may adopt and disseminate to the agencies procedural and documentation standards for payment requests and may provide training and technical assistance to the agencies for these standards.[76] In addition, the CFO has the legal duty of delivering all state warrants and will be charged with the official responsibility of the protection and security of the state warrants while in his or her custody. The CFO may delegate this authority to other state agencies or officers.[77]

The CFO also serves as the head of the DFS.[78] The DFS consists of the following divisions:

- The Division of Accounting and Auditing.
- The Division of Consumer Services.
- The Division of Funeral, Cemetery, and Consumer Services.

[78] Section 20.121, F.S.

- The Division of Insurance Agent and Agency Services.
- The Division of Investigative and Forensic Services.[79]
- The Division of Public Assistance Fraud.
- The Division of Rehabilitation and Liquidation.
- The Division of Risk Management.
- The Division of State Fire Marshal.
- The Division of Treasury.[80]
- The Division of Unclaimed Property.
- The Division of Workers' Compensation.
- The Division of Administration.
- The Office of Insurance Consumer Advocate.

Agency Inspectors General

Section 20.55, F.S., establishes an office of inspector general in each state agency to provide a central point for coordination of and responsibility for activities that promote accountability, integrity, and efficiency in government. It is the duty of each inspector general to:

- Advise in the development of performance measures, standards, and procedures for the evaluation of state agency programs;[81]
- Assess the reliability and validity of the information provided by the state agency on performance measures and standards, and make recommendations for improvement, if necessary, before submission of those measures and standards to the Executive Office of the Governor;[82]
- Review the actions taken by the state agency to improve program performance and meet program standards and make recommendations for improvement, if necessary;[83]
- With specified exception,[84] provide direction for, supervise, and coordinate audits, investigations, and management reviews relating to the programs and operations of the state agency; [85]
- Conduct, supervise, or coordinate other activities carried out or financed by that state agency for the purpose of promoting economy and efficiency in the administration of, or preventing and detecting fraud and abuse in, its programs and operations;[86]

[79] This division functions as a criminal justice agency for purposes of ss. 943.045-943.08. The division may conduct investigations within or outside of this state as it deems necessary. If, during an investigation, the division has reason to believe that any criminal law of this state has or may have been violated, it shall refer any records tending to show such violation to state or federal law enforcement or prosecutorial agencies and shall provide investigative assistance to those agencies as required. The division includes the following bureaus and office: (1) The Bureau of Forensic Services; (2) The Bureau of Fire, Arson and Explosives Investigations; (3) The Office of Fiscal Integrity; (4) The Bureau of Insurance Fraud; and (5) The Bureau of Workers' Compensation Fraud.
[80] This division includes a Bureau of Deferred Compensation responsible for administering the Government Employees Deferred Compensation Plan for state employees.
[81] Section 20.055(2)(a), F.S.
[82] Section 20.055(2)(b), F.S.
[83] Section 20.055(2)(c), F.S.
[84] When the inspector general does not possess the qualifications required by s. 20.055(4), F.S., the director of auditing shall conduct such audits.
[85] Section 20.055(2)(d), F.S.
[86] Section 20.055(2)(e), F.S.

- Keep the agency head or, for state agencies under the jurisdiction of the Governor, the Chief Inspector General informed concerning fraud, abuses, and deficiencies relating to programs and operations administered or financed by the state agency, recommend corrective action concerning fraud, abuses, and deficiencies, and report on the progress made in implementing corrective action;[87]
- Ensure effective coordination and cooperation between the Auditor General, federal auditors, and other governmental bodies with a view toward avoiding duplication;[88]
- Review, as appropriate, rules relating to the programs and operations of such state agency and make recommendations concerning their impact;[89]
- Ensure that an appropriate balance is maintained between audit, investigative, and other accountability activities;[90] and
- Comply with the General Principles and Standards for Offices of Inspector General as published and revised by the Association of Inspectors General.[91]

Each inspector general reports to and is under the general supervision of the agency head and is not subject to supervision by any other employee of the state agency.[92] An inspector general may be removed from office by the agency head.[93] The agency head or agency staff may not prevent or prohibit the inspector general from initiating, carrying out, or completing any audit or investigation.[94]

To ensure that state agency audits are performed in accordance with applicable auditing standards, the inspector general or the director of auditing within the inspector general's office must possess qualifications specified by statute.[95] In carrying out the auditing duties and responsibilities of this act, each inspector general must review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency and conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of its findings.[96] Each inspector general must initiate, conduct, supervise, and coordinate investigations designed to detect, deter, prevent, and eradicate fraud, waste, mismanagement, misconduct, and other abuses in state government.[97] Except as otherwise provided, each inspector general must, no later than September 30 of each year, prepare an annual report summarizing the activities of the office during the immediately preceding state fiscal year.[98]

[97] Section 20.055(6), F.S.
[98] Section 20.055(7)(a), F.S.

III. Effect of Proposed Changes:

Section 1 reenacts s. 216.1366, F.S.,[99] and removes the July 1, 2021, termination date to require each agency contractor services to include authorization for the agency to inspect certain records of the contractor. These records include both financial and programmatic records, papers, and documents of the contractor directly related to the performance of the contract and that are deemed necessary by the agency to monitor the performance of the contract. The contract must require the contractor to provide such records, papers, and documents requested by the agency within 10 business days after the request is made.

Section 2 amends s. 287.042, F.S., to require the Secretary of Management Services to make a written determination finding a contract to be cost effective and the best value to the state before an agency may be authorized to enter such contract let by the Federal Government, another state, or a political subdivision.

Section 3 amends s. 287.056, F.S., to require that when an agency issues a request for quote for contractual services for a state term with 25 vendors or fewer, the agency *must* issue a request for quote to *all vendors* approved to provide that contractual service. For any contract with more than 25 vendors, the agency must issue a request for quote to a minimum of 25 vendors approved to provide such contractual services.

This section also provides for the immediate disqualification from state term contract eligibility of a firm or individual who has been placed on the suspended vendor list pursuant to s. 287.1351, F.S., or placed on a disqualified vendor list pursuant to s. 287.133, F.S. (removal based upon public entity crime), or s. 287.134, F.S. (removal based on discriminatory practices).

Section 4 amends s. 287.057, F.S., to change the electronic posting requirement for single source contracting from seven to 15 days. This section requires agencies to report, on a quarterly basis, to the Department of Management Services (DMS) each instance in which the agency entered into a single source purchase contract. Such report is to be in a manner and form prescribed by the DMS. The DMS is required to report such information to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2022, and each January 1 thereafter.

This section provides that an agency,[100] may not initiate a competitive solicitation for a product or service if the completion of the competitive solicitation would require a change in law or change to the agency's original approved budget as defined in s. 216.011, F.S., (other than a transfer authorized in law) unless the initiation of the competitive solicitation is specifically authorized in law, in the General Appropriations Act, or by the Legislative Budget

[99] Section 106 of ch. 2020-114, Laws of Florida, created s. 216.1366, F.S., in order to implement the appropriation of funds in the special categories, contracted services, and expenses categories of the 2020-2021 General Appropriations Act.
[100] Section 287.012(1), F.S., defines "agency" to mean any of the various state officers, departments, boards, commissions, divisions, bureaus, and councils and any other unit of organization, however designated, of the executive branch of state government. "Agency" does not include the university and college boards of trustees or the state universities and colleges.

Commission.[101] This prohibition does not apply to a competitive solicitation when the agency head certifies that a valid emergency exists.

This section amends the provision governing an agency's designation of a contract manager to clarify that the contract manager works as a liaison *between* the contractor *and the agency,* and prohibits a contract manager from having been employed, within the previous five years, by the vendor awarded the contractual services contract that he or she is assigned.

This section sets forth the following primary responsibilities of a contract manager:
- Participating in the solicitation development and review of contract documents;
- Monitoring the contractor's progress and performance to ensure procured products and services conform to the contract requirements and to keep timely records of findings;
- Managing and documenting any changes to the contract through the amendment process authorized by the terms of the contract;
- Monitoring the contract budget to ensure sufficient funds are available throughout the term of the contract; and
- Exercising applicable remedies, as appropriate, when a contractor's performance is deficient.

Current law provides that the Chief Financial Officer (CFO) provide training for accountability in contracts and grant management for a contract manager responsible for contracts in excess of the threshold amount for category two ($35,000). The bill requires the CFO to evaluate this training every five years.

Current law requires a contract manager responsible for contracts in excess of $100,000 annually to complete training in contract management and become a certified contract manager. The bill requires this training be completed within six months of a contract manager being assigned responsibility of qualifying contracts. Additionally, the bill requires a contract manager to complete the accountability in contracts and grant management training. The DMS is required to evaluate such training every five years to assess its effectiveness and update the training curriculum.

This section provides that a contract manager responsible for contracts in excess of $10 million annually must, in addition to the accountability in contracts and grant management training, and the training in contract management and certification, also possess at least five years of experience managing contracts in excess of $5 million annually.

Current law requires a contract administrator be designated to maintain a contract file and financial information on all contractual services contracts. The bill permits a contract administrator to also serve as the contract manager for contracts less than $500,000 annually, if he or she has completed the required training. For contracts in excess of $500, 000 annually, the contract administrator is prohibited from serving in both capacities.

[101] This provision has been part of the implementing bill for the General Appropriations Act for the past five years (2020-114(98), 2019-116(106), 2018-10(79), and 2017-71(52)).

The bill specifies that for contracts in excess of $195,000, the agency head must appoint at least three persons to *independently* evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for the commodity or contractual services sought, and a *negotiation team* of at least three persons is to conduct negotiations during a competitive sealed reply procurement. In addition, a negotiation team for a competitively procured contract in excess of $1 million in any fiscal year must include a certified contract negotiator.

Current law provides that for contracts in excess of $10 million in any fiscal year, at least one person conducting negotiations must be a Project Management Professional. The bill specifies that such Project Management Professional must provide guidance based on his or her experience, education, and competency to lead and direct complex projects.

The bill requires the DMS to establish and disseminate the certification and training requirements for certified contract negotiators. The bill specifies that the training must ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and appropriately involved in the procurement process. The DMS must evaluate such training every five years to assess its effectiveness and update the training curriculum.

A certified contract negotiator is required to complete training every five years for certification renewal. This section specifies that the qualification requirements for certification must include:

- At least 12 months experience as a purchasing agent, contract manager, or contract administrator for an agency or local governmental entity where at least 50 percent of the designated duties included procuring commodities or contractual services, participating in contract negotiation, contract management, or contract administration, or working as an agency attorney whose duties included providing legal counsel to the agency's purchasing or contracting staff.
- Experience during the preceding five years in leading at least two federal, state, or local government negotiation teams through a negotiated procurement, or participation in at least three federal, state, or local government negotiated procurements.

In addition, this section requires any person who supervises certain contract administrators or contract or grant managers to annually complete public procurement training for supervisors within 12 months of appointment to the supervisory position. The DMS is responsible for establishing and disseminating the training course content required for supervisors, and training must commence no later than July 1, 2022.

This section requires the agency head to establish a continuing oversight team for each contractual services contract in excess of $5 million after the award of such contract. The agency head must appoint at least four persons to the continuing oversight team, with one being the certified contract manager. If the value of the contract is in excess of $10 million, at least one member must possess at least five years of experience in managing contracts of a similar scope or size. If the value of the contractual services contract is in excess of $20 million, the continuing oversight team must consist of at least five persons, at least one member must be from an agency other than the agency or agencies participating in the contract. Members of the continuing oversight team must be agency employees and collectively have experience and knowledge in

contract management, contract administration, contract enforcement, and the program areas and service requirements for the contractual services purchased.

For contracts in excess of $5 million, each continuing oversight team is required to meet at least quarterly. For contracts in excess of $10 million, each continuing oversight team must meet at least monthly. A representative of the contractor must be made available to members of the continuing oversight team for at least one meeting every calendar quarter to respond to any questions or requests for information from the continuing oversight team concerning contractor performance.

This section requires that within 30 days after formation of the continuing oversight team, an initial meeting between the continuing oversight team and representatives of the contractor must convene to achieve a mutual understanding of the contract requirements, to provide the contractor with an orientation to the contract management process, and to explain the role of the continuing oversight team, contract manager, and contract administrator.

The continuing oversight team must meet to discuss the status of the contract, the pace of deliverables, the quality of deliverables, contractor responsiveness, and contractor performance. The contract administrator must be present at each meeting with the contract file and all applicable financial information. The continuing oversight team may submit written questions to the contractor concerning any items discussed during a continuing oversight team meeting. The contractor must respond to the team's questions within 10 business days of receiving the written questions. The questions and responses must be included in the contract file.

This section requires the continuing oversight team to provide written notification to:

- The agency head and the DMS of any deficiency in a contractor's performance which substantially affects the pace of deliverables or the likelihood of successful completion of the contract.
- The agency head, the DMS, and the Office of Policy and Budget in the Executive Office of the Governor of any significant change in contract scope and any increase in the cost of the contract that is five percent of the planned contract cost or greater within the fiscal year for contractual service contracts of at least $5 million.
- The agency head, the DMS, the Office of Policy and Budget in the Executive Office of the Governor, and the legislative appropriations committees of any significant change in contract scope and any increase in the cost of the contract that is five percent of the planned contract cost or greater within the fiscal year for contractual service contracts of $10 million or greater.

Section 5 amends s. 287.058, F.S., to prohibit a contract from containing a nondisclosure clause prohibiting a contractor from disclosing information relevant to the performance of the contract to members or staff of the Senate or the House of Representatives.

Section 6 creates s. 287.1351, F.S., regarding suspended vendors and state contracts. The bill prohibits a vendor that is in default on any contract with an agency or has otherwise repeatedly demonstrated an inability to fulfill the terms and conditions of previous state contracts from submitting a bid, proposal, or reply to an agency or enter into or renew a contract to provide goods or services to an agency after its placement on the suspended vendor list. An agency may

not accept a bid, proposal, or reply from, or enter into or renew any contract with, a vendor that is on the suspended vendor list until the vendor has been removed from such list and returned to the vendor list by the DMS. The bill defines the term "vendor" as a person or an entity that provides goods or services to an agency under a contract or submits a bid, proposal, or reply to provide goods or services to an agency.

This section requires an agency to notify the DMS of any vendor that has met the grounds for suspension and must provide documentation to the DMS evidencing the vendor's default or other grounds for suspension. The DMS must review the submitted documentation and decide whether good cause exists to remove the vendor from the vendor list and to place it on the suspended vendor list. The bill requires the DMS to notify the vendor in writing of its intent to remove the vendor from the vendor list and of the vendor's right to an administrative hearing, as well as the applicable procedures and time requirements for any such hearing. A vendor may not be removed from the vendor list without receiving an individual notice of intent from the DMS. If a vendor does not request an administrative hearing, the DMS must enter a final order removing the vendor from the vendor list.

This section provides that, within 21 days after receipt of the notice of intent, a vendor may file with the DMS a petition for a formal hearing to challenge the decision. If a vendor does not file a petition in a timely manner, it is deemed to have waived its right to a hearing and the DMS's decision to remove the vendor from the list becomes final agency action.

This section provides that if a vendor is placed on the suspended vendor list, the vendor may file a petition with the DMS one year or more after entry of the final order of its suspension. A proceeding on the petition must be conducted in accordance with ch. 120, F.S., and an Administrative Law Judge (ALJ) may remove a vendor from the suspended vendor list if the ALJ determines it would be in the public interest. In determining whether removal from the list would be in the public interest, the ALJ may consider whether the suspended vendor has prepared a corrective action plan to address the original grounds for default or failure to fulfill the terms and conditions of the contract, reimbursed the agency for any reprocurement costs, or provided additional evidence that the vendor has taken other remedial action.

If a petition for removal from the suspended vendor list is denied, the vendor may not petition for another hearing for at least nine months after the date of denial. However, the DMS may petition for the suspended vendor's removal before the expiration period if, in the DMS's discretion, the removal of the vendor from the suspended list would be in the public's interest.

Section 7 amends s. 287.136, F.S., to require, beginning October 1, 2021, and every three years thereafter, each agency inspector general to complete a risk-based compliance audit of all contract documents executed by the agency for the preceding three fiscal years. The audit must include an evaluation of and identify any trend in vendor preference. The audit findings must be submitted to the agency head, the Secretary of Management Services, and the Governor.

Sections 8, 9, 10, 11, 12, 13, 14, 15, and 16 amends ss. 43.16, 215.971, 287.0571, 295.187, 394.47865, 402.7305, 408.045, 570.07, and 627.351, F.S., respectively, to make conforming changes.

Section 17 requires the DMS to conduct a study evaluating fleet management options to identify potential savings, of which, the results must be provided in a written report to the President of the Senate and Speaker of the House of Representatives by January 1, 2022

Section 18 provides that the bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable. This bill does not require counties or municipalities to take an action requiring the expenditure of funds, reduce the authority that counties or municipalities have to raise revenue in the aggregate, nor reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

A private firm or individual may experience an indeterminate fiscal impact if such party is disqualified from state term contract eligibility upon removal from the vendor list as specified within the bill.

C. Government Sector Impact:

The bill will have an indeterminate negative fiscal impact on state government expenditures related to additional workload for:

- Additional contract performance reporting before executing a contract renewal or amendment due to lowering the reporting threshold;

- A potential increase in the number of vendors responding to RFQs for contractual services; and
- Expanding contract monitoring through continuing oversight teams and by requiring an agency inspector general to perform additional contract auditing.

The Department of Management Services (DMS) will incur additional costs related to workload for establishing and disseminating certification and training requirements for certified contract negotiators, for performing training evaluations every five years, and for maintain and administering the suspended vendor list. In addition, the DMS may incur additional workload costs related to conducting the study evaluating fleet management options identifying potential savings.

Additionally, the six-month time limitation imposed on training for a contract manager responsible for contracts in excess of $100,000 annually will likely require the DMS to expend additional resources to ensure timely training.

The Department of Financial Services may also incur nominal additional costs associated with specified training evaluation every five years.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 43.16, 215.971, 216.1366, 287.042, 287.056, 287.057, 287.0571, 287.058, 287.136, 295.187, 394.47865, 402.7305, 408.045, 570.07, and 627.351.

This bill creates the following section of the Florida Statutes: 287.1351.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The committee substitute:

- Revises the requirements related to requests for quotes for contractual services available on state term contract. Specifically, the CS provides that if there are 25 or fewer approved vendors on the state term contract, then the agency must issue a request for quote to all approved vendors. If there are more than 25 approved vendors, then the agency must issue the request for quote to at least 25 of the approved vendors on the state term contract.

- Increases certain contract thresholds that trigger certain oversight by the continuing oversight team.
- Specifies that an agency may not initiate a competitive solicitation that would require a change to the agency's original approved budget, unless specifically authorized.

CS by Governmental Oversight and Accountability on March 24, 2021:
The CS:

- Adds language to reenact s. 216.1366, F.S., and remove the July 1, 2021, termination date, to require each agency contract for services to include authorization for the agency to inspect certain records of the contractor.
- Adds the requirement prohibiting an agency from initiating a competitive solicitation that would require a change in law or change to the agency's budget, unless specifically authorized.
- Revises the requirement that an agency issuing a request for quote for commodities or contractual services issue the request to *all* approved vendors to require a request for quote issued for *contractual services* be issued to all approved vendors if there are fewer than 100 approved vendors and to at least 100 of the approved vendors when there are more than 100 approved vendors.
- Adds the requirement that Department of Management Services (DMS) to report certain single source contract information received by agencies to the Governor and Legislature by a specified date.
- Removes the requirement that a contract manager who is responsible for contracts in excess of $10 million annually be a Project Management Professional and instead requires such person to meet certain experience thresholds.
- Increases the threshold for when a contract administrator may also serve as a contract manager from a contract value of $250,000 to a contract value of $500,000.
- Specifies that for contracts in excess of $195,000 that the evaluation is performed *independently,* and removes language regarding an evaluation *team*.
- Revises the experience requirements for qualification for certification as a contract negotiator, to require experience during the preceding five years in leading at least two, instead of three, federal, state, or local government negotiation teams through a negotiated procurement, or participation in at least three, instead of five, federal, state, or local government-negotiated procurements.
- Adds the requirement that supervisors of contract administrators or contract or grant managers must complete training within a specified period.
- Alters the membership requirements meeting requirements for the continuing oversight team (e.g., requires one member be the *certified* contract manager, rather than the contract manager; and removes the requirement that for contracts over $5 million that one member must be a Project Management Professional and instead imposes an experience threshold).
- Provides more specificity for the notice requirements for the continuing oversight team.
- Adds the requirement that a contract may not contain a nondisclosure clause exempting certain information.
- Adds new language addressing the process for suspending vendors and provides that vendors who are in default on any contract with an agency or has otherwise

repeatedly demonstrated an inability to fulfill the terms and conditions of previous state contracts is disqualified from bidding on or renewing a contract with the state.
- Adds language providing a mechanism whereby a vendor placed on the suspended vendor list may petition for removal.
- Revises the requirement that each agency inspector general complete a compliance audit of all contracts executed by the agency every three years to completing a risk based compliance audit of all contracts executed by the agency.
- Makes conforming changes.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Governmental Oversight and Accountability; and Senator Brodeur

585-03332-21 20211616c1

A bill to be entitled

An act relating to agency contracts for commodities and contractual services; reenacting and amending s. 216.1366, F.S.; abrogating the scheduled expiration of provisions relating to certain public agency contracts for services; amending s. 287.042, F.S.; providing that the Department of Management Services may enter into an agreement authorizing an agency to make purchases under certain contracts if the Secretary of Management Services makes a certain determination; amending s. 287.056, F.S.; providing that an agency must issue a request for quote to certain approved vendors when it issues certain requests for quote for contractual services; providing for the disqualification of certain firms or individuals from state term contract eligibility; amending s. 287.057, F.S.; revising the period of time during which an agency must electronically post a description of certain services in certain circumstances; requiring an agency to periodically report certain actions to the department in a specified manner and form; requiring the department to annually report certain information to the Governor and the Legislature by a specified date; prohibiting an agency from initiating a competitive solicitation in certain circumstances; providing applicability; revising the maximum value of certain contracts that may not be renewed or amended by state agency before submitting a written report to the Governor and the Legislature; requiring the agency

Florida Senate - 2021 CS for SB 1616

585-03332-21 20211616c1

to designate a contract manager to serve as a liaison between the contractor and the agency; prohibiting certain individuals from serving as a contract manager; providing the responsibilities of a contract manager; requiring the Chief Financial Officer to evaluate certain training at certain intervals; requiring that certain contract managers complete training and certification within a specified timeframe; requiring the department to establish and disseminate certain training and certification requirements; requiring the department to evaluate certain training at certain intervals; requiring certain contract managers to possess certain experience in managing contracts; authorizing a contract administrator to also serve as a contract manager in certain circumstances; providing that evaluations of proposals and replies must be conducted independently; providing for specified teams to conduct certain negotiations; requiring a Project Management Professional to provide guidance based on certain qualifications; providing qualification requirements for contract negotiator certification; requiring supervisors of contract administrators or contract and grant managers meeting certain criteria to complete training within a specified period; providing that the department is responsible for establishing and disseminating supervisor training by a certain date; providing for a continuing oversight team in certain circumstances; providing requirements

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

for continuing oversight team members and meetings; requiring a continuing oversight team to provide notice of certain deficiencies and changes in contract scope to certain entities; amending s. 287.058, F.S.; prohibiting a contract document for certain contractual services from containing a certain nondisclosure clause; creating s. 287.1351, F.S.; defining the term "vendor"; prohibiting certain vendors from submitting bids, proposals, or replies to, or entering into or renewing any contract with, an agency; prohibiting an agency from accepting a bid, proposal, or reply from, or entering into a contract with, a suspended vendor until certain conditions are met; requiring an agency to notify the department of, and provide certain information regarding, any such vendors; requiring the department to review any vendor reported by an agency; requiring the department to notify a vendor of any intended removal from the vendor list; specifying administrative remedies and applicable procedures for an affected vendor; requiring the department to place certain vendors on the suspended vendor list; authorizing the removal of a suspended vendor from the suspended vendor list in accordance with specified procedures; specifying requirements and limitations; amending s. 287.136, F.S.; requiring each agency inspector general to complete certain audits of executed contracts at certain intervals; amending ss. 43.16, 215.971, 287.0571, 295.187, 394.47865, 402.7305, 408.045,

570.07, and 627.351, F.S.; conforming cross-references to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Notwithstanding the expiration date in section 106 of chapter 2020-114, Laws of Florida, section 216.1366, Florida Statutes, is reenacted and amended to read:

216.1366 Contract terms.—

(1) In order to preserve the interest of the state in the prudent expenditure of state funds, each public agency contract for services entered into or amended on or after July 1, 2020, shall authorize the public agency to inspect the:

(a) Financial records, papers, and documents of the contractor that are directly related to the performance of the contract or the expenditure of state funds.

(b) Programmatic records, papers, and documents of the contractor which the public agency determines are necessary to monitor the performance of the contract or to ensure that the terms of the contract are being met.

(2) The contract shall require the contractor to provide such records, papers, and documents requested by the public agency within 10 business days after the request is made.

~~(3) This section expires July 1, 2021.~~

Section 2. Subsection (16) of section 287.042, Florida Statutes, is amended to read:

287.042 Powers, duties, and functions.—The department shall have the following powers, duties, and functions:

(16) To evaluate contracts let by the Federal Government, another state, or a political subdivision for the provision of commodities and contract services, and, if it is determined by the Secretary of Management Services in writing to be cost-effective and ~~in~~ the best value to ~~interest of~~ the state, to enter into a written agreement authorizing an agency to make purchases under such contract.

Section 3. Subsection (2) of section 287.056, Florida Statutes, is amended, and subsection (4) is added to that section, to read:

287.056 Purchases from purchasing agreements and state term contracts.—

(2) Agencies and eligible users may use a request for quote to obtain written pricing or services information from a state term contract vendor for commodities or contractual services available on state term contract from that vendor. The purpose of a request for quote is to determine whether a price, term, or condition more favorable to the agency or eligible user than that provided in the state term contract is available. If an agency issues a request for quote for contractual services for any contract with 100 vendors or fewer, the agency must issue a request for quote to all vendors approved to provide such contractual services. For any contract with more than 100 vendors, the agency must issue a request for quote to a minimum of 100 vendors approved to provide such contractual services. Use of a request for quote does not constitute a decision or intended decision that is subject to protest under s. 120.57(3).

(4) A firm or individual placed on the suspended vendor list pursuant to s. 287.1351 or placed on a disqualified vendor

list pursuant to s. 287.133 or s. 287.134 is immediately disqualified from state term contract eligibility.

Section 4. Present subsections (4) through (16) and (17) through (23) of section 287.057, Florida Statutes, are redesignated as subsections (5) through (17) and (19) through (25), respectively, new subsections (4) and (18) and subsection (26) are added to that section, and paragraph (c) of subsection (3) and present subsections (13) through (16) of that section are amended, to read:

287.057 Procurement of commodities or contractual services.—

(3) If the purchase price of commodities or contractual services exceeds the threshold amount provided in s. 287.017 for CATEGORY TWO, purchase of commodities or contractual services may not be made without receiving competitive sealed bids, competitive sealed proposals, or competitive sealed replies unless:

(c) Commodities or contractual services available only from a single source may be excepted from the competitive-solicitation requirements. If an agency believes that commodities or contractual services are available only from a single source, the agency shall electronically post a description of the commodities or contractual services sought for at least 15 ~~7~~ business days. The description must include a request that prospective vendors provide information regarding their ability to supply the commodities or contractual services described. If it is determined in writing by the agency, after reviewing any information received from prospective vendors that the commodities or contractual services are available only from

a single source, the agency shall provide notice of its intended decision to enter a single-source purchase contract in the manner specified in s. 120.57(3). Each agency shall report all such actions to the department on a quarterly basis in a manner and form prescribed by the department, and the department shall report such information to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2022, and each January 1 thereafter.

(4) A state agency may not initiate a competitive solicitation for a product or service if the completion of such competitive solicitation would:

(a) Require a change in law; or

(b) Require a change to the agency's budget other than a transfer authorized in s. 216.292(2) or (3), unless the initiation of such competitive solicitation is specifically authorized in law, in the General Appropriations Act, or by the Legislative Budget Commission.

(c) This subsection does not apply to a competitive solicitation for which the agency head certifies that a valid emergency exists.

(14) ~~(13)~~ Contracts for commodities or contractual services may be renewed for a period that may not exceed 3 years or the term of the original contract, whichever is longer. Renewal of a contract for commodities or contractual services must be in writing and is subject to the same terms and conditions set forth in the initial contract and any written amendments signed by the parties. If the commodity or contractual service is purchased as a result of the solicitation of bids, proposals, or replies, the price of the commodity or contractual service to be

renewed must be specified in the bid, proposal, or reply, except that an agency may negotiate lower pricing. A renewal contract may not include any compensation for costs associated with the renewal. Renewals are contingent upon satisfactory performance evaluations by the agency and subject to the availability of funds. Exceptional purchase contracts pursuant to paragraphs (3)(a) and (c) may not be renewed. With the exception of subsection (11) ~~(10)~~, if a contract amendment results in a longer contract term or increased payments, a state agency may not renew or amend a contract for the outsourcing of a service or activity that has an original term value exceeding $5 ~~$10~~ million before submitting a written report concerning contract performance to the Governor, the President of the Senate, and the Speaker of the House of Representatives at least 90 days before execution of the renewal or amendment.

(15)(a) ~~(14)~~ For each contractual services contract, the agency shall designate an employee to function as contract manager who is responsible for enforcing performance of the contract terms and conditions and serve as a liaison between ~~with~~ the contractor and the agency. The contract manager may not be an individual who has been employed, within the previous 5 years, by the vendor awarded the contractual services contract. The primary responsibilities of a contract manager include, but are not limited to:

1. Participating in the solicitation development and review of contract documents.

2. Monitoring the contractor's progress and performance to ensure procured products and services conform to the contract requirements and keeping timely records of findings.

3. Managing and documenting any changes to the contract through the amendment process authorized by the terms of the contract.

4. Monitoring the contract budget to ensure sufficient funds are available throughout the term of the contract.

5. Exercising applicable remedies, as appropriate, when a contractor's performance is deficient.

(b) ~~(a)~~ Each contract manager who is responsible for contracts in excess of the threshold amount for CATEGORY TWO must, at a minimum, complete training conducted by the Chief Financial Officer for accountability in contracts and grant management. The Chief Financial Officer shall evaluate such training every 5 years to assess its effectiveness and update the training curriculum. The Chief Financial Officer shall establish and disseminate uniform procedures pursuant to s. 17.03(3) to ensure that contractual services have been rendered in accordance with the contract terms before the agency processes the invoice for payment. The procedures must include, but need not be limited to, procedures for monitoring and documenting contractor performance, reviewing and documenting all deliverables for which payment is requested by vendors, and providing written certification by contract managers of the agency's receipt of goods and services.

(c) ~~(b)~~ Each contract manager who is responsible for contracts in excess of $100,000 annually must, in addition to the accountability in contracts and grant management training required in paragraph (b) and within 6 months after being assigned responsibility for such contracts, complete training in contract management and become a certified contract manager. The

department is responsible for establishing and disseminating the training and certification requirements for certified contract managers. Training must promote best practices and procedures related to negotiating, managing, and ensuring accountability in agency contracts and grant agreements, which must include the use of case studies based upon previous audits, contracts, and grant agreements. A certified contract manager must complete training every 5 years for certification renewal ~~requirements for certification which include completing the training conducted by the Chief Financial Officer for accountability in contracts and grant management~~. Training and certification must be coordinated by the department, and the training must be conducted jointly by the department and the Department of Financial Services. The department shall evaluate such training every 5 years to assess its effectiveness and update the training curriculum ~~Training must promote best practices and procedures related to negotiating, managing, and ensuring accountability in agency contracts and grant agreements, which must include the use of case studies based upon previous audits, contracts, and grant agreements. All agency contract managers must become certified within 24 months after establishment of the training and certification requirements by the department and the Department of Financial Services~~.

(d) Each contract manager who is responsible for contracts in excess of $10 million annually must, in addition to the training required in paragraph (b) and the training and certification required in paragraph (c), possess at least 5 years of experience managing contracts in excess of $5 million annually.

(16)~~(15)~~ Each agency shall designate at least one employee who shall serve as a contract administrator responsible for maintaining a contract file and financial information on all contractual services contracts and who shall serve as a liaison with the contract managers and the department. For a contract of $500,000 or less annually, the contract administrator may also serve as the contract manager if he or she has completed the required training. For a contract in excess of $500,000 annually, the contract administrator may not serve as both the contract administrator and the contract manager.

(17)(a)~~(16)(a)~~ For a contract in excess of the threshold amount provided in s. 287.017 for CATEGORY FOUR, the agency head shall appoint:

1. At least three persons to independently evaluate proposals and replies who collectively have experience and knowledge in the program areas and service requirements for the commodity ~~which commodities~~ or contractual services ~~are~~ sought.

2. At least three persons to a negotiation team to conduct negotiations during a competitive sealed reply procurement. The negotiation team members must ~~who~~ collectively have experience and knowledge in negotiating contracts, contract procurement, and the program areas and service requirements for the commodity ~~which commodities~~ or contractual services ~~are~~ sought.

(b)1. If the value of a contract is in excess of $1 million in any fiscal year, at least one of the persons conducting negotiations must be ~~certified as~~ a certified contract negotiator ~~based upon department rules in order to ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing~~

~~those strategies, and involved appropriately in the procurement process. At a minimum, the rules must address the qualifications required for certification, the method of certification, and the procedure for involving the certified negotiator~~.

2. If the value of a contract is in excess of $10 million in any fiscal year, at least one of the persons conducting negotiations must be a Project Management Professional, as certified by the Project Management Institute. The Project Management Professional shall provide guidance based on his or her experience, education, and competency to lead and direct complex projects.

3. The department is responsible for establishing and disseminating the certification and training requirements for certified contract negotiators. Training must ensure that certified contract negotiators are knowledgeable about effective negotiation strategies, capable of successfully implementing those strategies, and involved appropriately in the procurement process. The department shall evaluate such training every 5 years in order to assess its effectiveness and update the training curriculum. A certified contract negotiator is required to complete training every 5 years for certification renewal. Qualification requirements for certification must include:

a. At least 12 months' experience as a purchasing agent, contract manager, or contract administrator for an agency or a local governmental entity where at least 50 percent of the designated duties included procuring commodities or contractual services; participating in contract negotiation, contract management, or contract administration; or working as an agency attorney whose duties included providing legal counsel to the

agency's purchasing or contracting staff; and

b. Experience during the preceding 5 years in leading at least two federal, state, or local government negotiation teams through a negotiated procurement, or participation in at least three federal, state, or local government-negotiated procurements.

(18) Any person who supervises contract administrators or contract or grant managers who meet criteria for certification in subsection (15) shall annually complete public procurement training for supervisors within 12 months after appointment to the supervisory position. The department is responsible for establishing and disseminating the training course content required for supervisors, and training shall commence no later than July 1, 2022.

(26)(a) For each contractual services contract in excess of $1 million, the agency head shall establish a continuing oversight team after the contract has been awarded. The agency head shall appoint at least four persons, one of whom must be the certified contract manager, to the continuing oversight team. If the value of the contractual services contract is in excess of $5 million, at least one of the persons on the continuing oversight team must possess at least 5 years of experience in managing contracts of a similar scope or size. If the value of the contractual services contract is in excess of $20 million, the continuing oversight team shall consist of at least five persons, at least one of the persons on the continuing oversight team must be from a state agency other than the agency or agencies participating in the contract. Members of the continuing oversight team must be employees of the state and

must collectively have experience and knowledge in contract management, contract administration, contract enforcement, and the program areas and service requirements for the contractual services purchased.

(b)1. For contracts in excess of $1 million, each continuing oversight team must meet at least quarterly.

2. For contracts in excess of $10 million, each continuing oversight team must meet at least monthly. A representative of the contractor must be made available to members of the continuing oversight team for at least one meeting every calendar quarter to respond to any questions or requests for information from the continuing oversight team concerning contractor performance.

(c)1. Within 30 days after the formation of the continuing oversight team, the continuing oversight team must convene an initial meeting with representatives of the contractor to achieve a mutual understanding of the contract requirements, to provide the contractor with an orientation to the contract management process, and to provide an explanation of the role of the continuing oversight team, contract manager, and contract administrator.

2. The continuing oversight team must meet to discuss the status of the contract, the pace of deliverables, the quality of deliverables, contractor responsiveness, and contractor performance. The contract administrator must be present at each meeting with the contract file and all applicable financial information. The continuing oversight team may submit written questions to the contractor concerning any items discussed during a continuing oversight team meeting. The contractor must

respond to the team's questions within 10 business days after receiving the written questions. The questions and responses must be included in the contract file.

(d) The continuing oversight team must notify, in writing:

1. The agency head and the department of any deficiency in a contractor's performance which substantially affects the pace of deliverables or the likelihood of the successful completion of the contract.

2. The agency head, the department, and the Office of Policy and Budget in the Executive Office of the Governor of any significant change in contract scope or any increase in the cost of the contract which is 5 percent of the planned contract cost or greater within the fiscal year for contractual service contracts of at least $5 million.

3. The agency head, the department, the Office of Policy and Budget in the Executive Office of the Governor, and the legislative appropriations committees of any significant change in contract scope or any increase in the cost of the contract which is 5 percent of the planned contract cost or greater within the fiscal year for contractual service contracts of $10 million or greater.

Section 5. Subsection (7) is added to section 287.058, Florida Statutes, to read:

287.058 Contract document.—

(7) A contract may not contain a nondisclosure clause that prohibits the contractor from disclosing information relevant to the performance of the contract to members or staff of the Senate or the House of Representatives.

Section 6. Section 287.1351, Florida Statutes, is created

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

to read:

287.1351 Suspended vendors; state contracts.—

(1) As used in this section, the term "vendor" means a person or an entity that provides goods or services to an agency under a contract or submits a bid, proposal, or reply to provide goods or services to an agency.

(2)(a) A vendor that is in default on any contract with an agency or has otherwise repeatedly demonstrated a recent inability to fulfill the terms and conditions of previous state contracts or to adequately perform its duties under those contracts may not submit a bid, proposal, or reply to an agency or enter into or renew a contract to provide any goods or services to an agency after its placement, pursuant to this section, on the suspended vendor list.

(b) An agency may not accept a bid, proposal, or reply from, or enter into or renew any contract with, a vendor on the suspended vendor list until such vendor has been removed from the suspended vendor list and returned to the vendor list maintained by the department pursuant to s. 287.042(1)(a) and (b) and the vendor has reimbursed the agency for any reprocurement costs.

(3) An agency shall notify the department of any vendor that has met the grounds for suspension described in paragraph (2)(a). The agency must provide documentation to the department evidencing the vendor's default or other grounds for suspension. The department shall review the documentation provided and determine whether good cause exists to remove the vendor from the vendor list and to place it on the suspended vendor list. If good cause exists, the department must notify the vendor in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

writing of its intent to remove the vendor from the vendor list and of the vendor's right to an administrative hearing and the applicable procedures and time requirements for any such hearing. If the vendor does not request an administrative hearing, the department must enter a final order removing the vendor from the vendor list. A vendor may not be removed from the vendor list without receiving an individual notice of intent from the department.

(4) Within 21 days after receipt of the notice of intent, the vendor may file with the department a petition for a formal hearing pursuant to ss. 120.569 and 120.57 to challenge the department's decision to remove the vendor from the vendor list. A vendor that fails to timely file a petition in accordance with this subsection is deemed to have waived its right to a hearing, and the department's decision to remove the vendor from the vendor list becomes final agency action.

(5)(a) The department shall place any vendor removed from the vendor list pursuant to this section on the suspended vendor list. One year or more after entry of the final order of its suspension, a suspended vendor may file a petition with the department for removal from the suspended vendor list. The proceeding on the petition must be conducted in accordance with chapter 120. The vendor may be removed from the suspended vendor list if the administrative law judge determines that removal from the list would be in the public interest. In determining whether removal from the list would be in the public interest, the administrative law judge may consider, but is not limited to, whether the suspended vendor has prepared a corrective action plan that addresses the original grounds for default or

failure to fulfill the terms and conditions of the contract, reimbursed the agency for any reprocurement costs, or provided additional evidence that the vendor has taken other remedial action.

(b) If a petition for removal from the suspended vendor list is denied, the vendor may not petition for another hearing on removal for a period of at least 9 months after the date of the denial. The department may petition for the suspended vendor's removal before the expiration of such period if, in the department's discretion, the department determines that removal from the suspended vendor list would be in the public interest.

Section 7. Section 287.136, Florida Statutes, is amended to read:

287.136 Audit of executed contract documents.—

(1) After execution of a contract, the Chief Financial Officer shall perform audits of the executed contract document and contract manager's records to ensure that adequate internal controls are in place for complying with the terms and conditions of the contract and for the validation and receipt of goods and services.

(a) ~~(1)~~ At the conclusion of the audit, the Chief Financial Officer's designee shall discuss the audit and potential findings with the official whose office is subject to audit. The final audit report shall be submitted to the agency head.

(b) ~~(2)~~ Within 30 days after receipt of the final audit report, the agency head shall submit to the Chief Financial Officer or designee his or her written statement of explanation or rebuttal concerning findings requiring corrective action, including corrective action to be taken to preclude a

recurrence.

(2) Beginning October 1, 2021, and every 3 years thereafter, each agency inspector general shall complete a risk-based compliance audit of all contracts executed by the agency for the preceding 3 fiscal years. The audit must include an evaluation of and identify any trend in vendor preference. The audit findings must be submitted to the agency head, the secretary of the Department of Management Services, and the Governor.

Section 8. Subsection (1) of section 43.16, Florida Statutes, is amended to read:

43.16 Justice Administrative Commission; membership, powers and duties.—

(1) There is hereby created a Justice Administrative Commission, with headquarters located in the state capital. The necessary office space for use of the commission shall be furnished by the proper state agency in charge of state buildings. For purposes of the fees imposed on agencies pursuant to s. 287.057(24) ~~s. 287.057(22)~~, the Justice Administrative Commission shall be exempt from such fees.

Section 9. Paragraph (a) of subsection (2) of section 215.971, Florida Statutes, is amended to read:

215.971 Agreements funded with federal or state assistance.—

(2) For each agreement funded with federal or state financial assistance, the state agency shall designate an employee to function as a grant manager who shall be responsible for enforcing performance of the agreement's terms and conditions and who shall serve as a liaison with the recipient

or subrecipient.

(a)1. Each grant manager who is responsible for agreements in excess of the threshold amount for CATEGORY TWO under s. 287.017 must, at a minimum, complete training conducted by the Chief Financial Officer for accountability in contracts and grant management.

2. Effective December 1, 2014, each grant manager responsible for agreements in excess of $100,000 annually must complete the training and become a certified contract manager as provided under s. 287.057(15) ~~s. 287.057(14)~~. All grant managers must become certified contract managers within 24 months after establishment of the training and certification requirements by the Department of Management Services and the Department of Financial Services.

Section 10. Paragraph (a) of subsection (3) of section 287.0571, Florida Statutes, is amended to read:

287.0571 Business case to outsource; applicability.—

(3) This section does not apply to:

(a) A procurement of commodities and contractual services listed in s. 287.057(3)(d) and (e) and (23) ~~(21)~~.

Section 11. Paragraph (b) of subsection (4) of section 295.187, Florida Statutes, is amended to read:

295.187 Florida Veteran Business Enterprise Opportunity Act.—

(4) VENDOR PREFERENCE.—

(b) Notwithstanding s. 287.057(12) ~~s. 287.057(11)~~, if a veteran business enterprise entitled to the vendor preference under this section and one or more businesses entitled to this preference or another vendor preference provided by law submit

bids, proposals, or replies for procurement of commodities or contractual services which are equal with respect to all relevant considerations, including price, quality, and service, the state agency shall award the procurement or contract to the business having the smallest net worth.

Section 12. Paragraph (a) of subsection (1) of section 394.47865, Florida Statutes, is amended to read:

394.47865 South Florida State Hospital; privatization.—

(1) The Department of Children and Families shall, through a request for proposals, privatize South Florida State Hospital. The department shall plan to begin implementation of this privatization initiative by July 1, 1998.

(a) Notwithstanding s. 287.057(14) ~~s. 287.057(13)~~, the department may enter into agreements, not to exceed 20 years, with a private provider, a coalition of providers, or another agency to finance, design, and construct a treatment facility having up to 350 beds and to operate all aspects of daily operations within the facility. The department may subcontract any or all components of this procurement to a statutorily established state governmental entity that has successfully contracted with private companies for designing, financing, acquiring, leasing, constructing, and operating major privatized state facilities.

Section 13. Paragraph (b) of subsection (2) and subsection (3) of section 402.7305, Florida Statutes, are amended to read:

402.7305 Department of Children and Families; procurement of contractual services; contract management.—

(2) PROCUREMENT OF COMMODITIES AND CONTRACTUAL SERVICES.—

(b) When it is in the best interest of a defined segment of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

its consumer population, the department may competitively procure and contract for systems of treatment or service that involve multiple providers, rather than procuring and contracting for treatment or services separately from each participating provider. The department must ensure that all providers that participate in the treatment or service system meet all applicable statutory, regulatory, service quality, and cost control requirements. If other governmental entities or units of special purpose government contribute matching funds to the support of a given system of treatment or service, the department shall formally request information from those funding entities in the procurement process and may take the information received into account in the selection process. If a local government contributes matching funds to support the system of treatment or contracted service and if the match constitutes at least 25 percent of the value of the contract, the department shall afford the governmental match contributor an opportunity to name an employee as one of the persons required by s. 287.057(17) ~~s. 287.057(16)~~ to evaluate or negotiate certain contracts, unless the department sets forth in writing the reason why the inclusion would be contrary to the best interest of the state. Any employee so named by the governmental match contributor shall qualify as one of the persons required by s. 287.057(17) ~~s. 287.057(16)~~. A governmental entity or unit of special purpose government may not name an employee as one of the persons required by s. 287.057(17) ~~s. 287.057(16)~~ if it, or any of its political subdivisions, executive agencies, or special districts, intends to compete for the contract to be awarded. The governmental funding entity or contributor of

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

matching funds must comply with all procurement procedures set forth in s. 287.057 when appropriate and required.

(3) CONTRACT MANAGEMENT REQUIREMENTS AND PROCESS.—The Department of Children and Families shall review the time period for which the department executes contracts and shall execute multiyear contracts to make the most efficient use of the resources devoted to contract processing and execution. Whenever the department chooses not to use a multiyear contract, a justification for that decision must be contained in the contract. Notwithstanding s. 287.057(15) ~~s. 287.057(14)~~, the department is responsible for establishing a contract management process that requires a member of the department's Senior Management or Selected Exempt Service to assign in writing the responsibility of a contract to a contract manager. The department shall maintain a set of procedures describing its contract management process which must minimally include the following requirements:

(a) The contract manager shall maintain the official contract file throughout the duration of the contract and for a period not less than 6 years after the termination of the contract.

(b) The contract manager shall review all invoices for compliance with the criteria and payment schedule provided for in the contract and shall approve payment of all invoices before their transmission to the Department of Financial Services for payment.

(c) The contract manager shall maintain a schedule of payments and total amounts disbursed and shall periodically reconcile the records with the state's official accounting

records.

(d) For contracts involving the provision of direct client services, the contract manager shall periodically visit the physical location where the services are delivered and speak directly to clients receiving the services and the staff responsible for delivering the services.

(e) The contract manager shall meet at least once a month directly with the contractor's representative and maintain records of such meetings.

(f) The contract manager shall periodically document any differences between the required performance measures and the actual performance measures. If a contractor fails to meet and comply with the performance measures established in the contract, the department may allow a reasonable period for the contractor to correct performance deficiencies. If performance deficiencies are not resolved to the satisfaction of the department within the prescribed time, and if no extenuating circumstances can be documented by the contractor to the department's satisfaction, the department must terminate the contract. The department may not enter into a new contract with that same contractor for the services for which the contract was previously terminated for a period of at least 24 months after the date of termination. The contract manager shall obtain and enforce corrective action plans, if appropriate, and maintain records regarding the completion or failure to complete corrective action items.

(g) The contract manager shall document any contract modifications, which shall include recording any contract amendments as provided for in this section.

(h) The contract manager shall be properly trained before being assigned responsibility for any contract.

Section 14. Subsection (2) of section 408.045, Florida Statutes, is amended to read:

408.045 Certificate of need; competitive sealed proposals.—

(2) The agency shall make a decision regarding the issuance of the certificate of need in accordance with the provisions of s. 287.057(17) ~~s. 287.057(16)~~, rules adopted by the agency relating to intermediate care facilities for the developmentally disabled, and the criteria in s. 408.035, as further defined by rule.

Section 15. Subsection (42) of section 570.07, Florida Statutes, is amended to read:

570.07 Department of Agriculture and Consumer Services; functions, powers, and duties.—The department shall have and exercise the following functions, powers, and duties:

(42) Notwithstanding the provisions of s. 287.057(24) ~~s. 287.057(22)~~ that require all agencies to use the online procurement system developed by the Department of Management Services, the department may continue to use its own online system. However, vendors utilizing such system shall be prequalified as meeting mandatory requirements and qualifications and shall remit fees pursuant to s. 287.057(24) ~~s. 287.057(22)~~, and any rules implementing s. 287.057.

Section 16. Paragraph (e) of subsection (6) of section 627.351, Florida Statutes, is amended to read:

627.351 Insurance risk apportionment plans.—

(6) CITIZENS PROPERTY INSURANCE CORPORATION.—

(e) The corporation is subject to s. 287.057 for the

purchase of commodities and contractual services except as otherwise provided in this paragraph. Services provided by tradepersons or technical experts to assist a licensed adjuster in the evaluation of individual claims are not subject to the procurement requirements of this section. Additionally, the procurement of financial services providers and underwriters must be made pursuant to s. 627.3513. Contracts for goods or services valued at or more than $100,000 are subject to approval by the board.

1. The corporation is an agency for purposes of s. 287.057, except that, for purposes of s. 287.057(24) ~~s. 287.057(22)~~, the corporation is an eligible user.

a. The authority of the Department of Management Services and the Chief Financial Officer under s. 287.057 extends to the corporation as if the corporation were an agency.

b. The executive director of the corporation is the agency head under s. 287.057, except for resolution of bid protests for which the board would serve as the agency head.

2. The corporation must provide notice of a decision or intended decision concerning a solicitation, contract award, or exceptional purchase by electronic posting. Such notice must contain the following statement: "Failure to file a protest within the time prescribed in this section constitutes a waiver of proceedings."

a. A person adversely affected by the corporation's decision or intended decision to award a contract pursuant to s. 287.057(1) or (3)(c) who elects to challenge the decision must file a written notice of protest with the executive director of the corporation within 72 hours after the corporation posts a

notice of its decision or intended decision. For a protest of the terms, conditions, and specifications contained in a solicitation, including provisions governing the methods for ranking bids, proposals, replies, awarding contracts, reserving rights of further negotiation, or modifying or amending any contract, the notice of protest must be filed in writing within 72 hours after posting the solicitation. Saturdays, Sundays, and state holidays are excluded in the computation of the 72-hour time period.

b. A formal written protest must be filed within 10 days after the date the notice of protest is filed. The formal written protest must state with particularity the facts and law upon which the protest is based. Upon receipt of a formal written protest that has been timely filed, the corporation must stop the solicitation or contract award process until the subject of the protest is resolved by final board action unless the executive director sets forth in writing particular facts and circumstances that require the continuance of the solicitation or contract award process without delay in order to avoid an immediate and serious danger to the public health, safety, or welfare.

(I) The corporation must provide an opportunity to resolve the protest by mutual agreement between the parties within 7 business days after receipt of the formal written protest.

(II) If the subject of a protest is not resolved by mutual agreement within 7 business days, the corporation's board must transmit the protest to the Division of Administrative Hearings and contract with the division to conduct a hearing to determine the merits of the protest and to issue a recommended order. The

contract must provide for the corporation to reimburse the division for any costs incurred by the division for court reporters, transcript preparation, travel, facility rental, and other customary hearing costs in the manner set forth in s. 120.65(9). The division has jurisdiction to determine the facts and law concerning the protest and to issue a recommended order. The division's rules and procedures apply to these proceedings; the division's applicable bond requirements do not apply. The protest must be heard by the division at a publicly noticed meeting in accordance with procedures established by the division.

c. In a protest of an invitation-to-bid or request-for-proposals procurement, submissions made after the bid or proposal opening which amend or supplement the bid or proposal may not be considered. In protesting an invitation-to-negotiate procurement, submissions made after the corporation announces its intent to award a contract, reject all replies, or withdraw the solicitation that amends or supplements the reply may not be considered. Unless otherwise provided by law, the burden of proof rests with the party protesting the corporation's action. In a competitive-procurement protest, other than a rejection of all bids, proposals, or replies, the administrative law judge must conduct a de novo proceeding to determine whether the corporation's proposed action is contrary to the corporation's governing statutes, the corporation's rules or policies, or the solicitation specifications. The standard of proof for the proceeding is whether the corporation's action was clearly erroneous, contrary to competition, arbitrary, or capricious. In any bid-protest proceeding contesting an intended corporation

action to reject all bids, proposals, or replies, the standard of review by the board is whether the corporation's intended action is illegal, arbitrary, dishonest, or fraudulent.

d. Failure to file a notice of protest or failure to file a formal written protest constitutes a waiver of proceedings.

3. The board, acting as agency head, shall consider the recommended order of an administrative law judge in a public meeting and take final action on the protest. Any further legal remedy lies with the First District Court of Appeal.

Section 17. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1624
INTRODUCER:	Senator Albritton
SUBJECT:	Special District Accountability
DATE:	April 16, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Paglialonga	Ryon	CA	**Favorable**
2.	Ponder	McVaney	GO	**Favorable**
3.	Hrdlicka	Sadberry	AP	**Favorable**

I. Summary:

SB 1624 requires all independent special fire control districts and each hospital governed by the governing body of a special district or the board of trustees of a public health trust to conduct a performance audit every five years beginning October 1, 2021, and October 1, 2022, respectively. The bill also requires the Office of Program Policy Analysis and Government Accountability to conduct performance audits of all independent mosquito control districts and soil and water conservation districts by September 30, 2023, and September 30, 2024, respectively.

The bill provides that the annual financial report and annual financial audit report of all special districts must separately specify the following information:

- The total number of people employed by the district;
- The amounts budgeted by the district for employee salaries and benefits; and
- Each construction project approved by the district to begin after October 1 of the fiscal year being reported and the amount budgeted for the project.

The annual financial report of each independent special district that levies ad valorem taxes or non-ad valorem special assessments must include the rate of such levies, the total amount collected by the levies, and the total amount of all outstanding bonds issued by the district and the terms of such bonds.

The bill clarifies that the annual financial auditing report of a community redevelopment agency must be filed separately from the annual financial auditing report of the county or municipality that created the district.

Special districts may experience increased costs in complying with the requirements of the bill.

The bill takes effect on October 1, 2021.

II. Present Situation:

Independent Special Districts

A "special district" is a unit of local government created for a particular purpose, with jurisdiction to operate within a limited geographic boundary.[1] Special districts are created by general law, special act, local ordinance, or by rule of the Governor and Cabinet.[2] A special district has only those powers expressly provided by, or reasonably implied from, the authority provided in the district's charter. "Special districts provide specific municipal services in addition to, or in place of, those provided by a municipality or county."[3] Special districts are funded through the imposition of ad valorem taxes, fees, or charges on the users of those services as authorized by law.[4]

A "dependent special district" is a special district where the membership of the governing body is identical to the governing body of a single county or municipality, all members of the governing body are appointed by the governing body of a single county or municipality, members of the district's governing body are removable at will by the governing body of a single county or municipality, or the district's budget is subject to the approval of governing body of a single county or municipality.[5] An "independent special district" is any district that is not a dependent special district.[6]

According to the Department of Economic Opportunity's Special District Accountability Program Official List of Special Districts, as of March 3, 2021, the state had 1,785 special districts. There were 1,159 independent special districts and 626 dependent districts.

Special districts are governed generally by the Uniform Special District Accountability Act.[7] The act centralizes provisions governing special districts and applies such provisions to the

[4] The method of financing a district must be stated in its charter. Sections 189.02(4)(g) and 189.031(3), F.S. Independent special districts may be authorized to impose ad valorem taxes as well as non-ad valorem special assessments in the special acts comprising their charters. See, e.g., ch. 2017-220, s. 6(6)(o), Laws of Fla. (Sunbridge Stewardship District). See also, e.g., ss. 190.021 (community development districts), 191.009 (independent fire control districts), 197.3631 (non-ad valorem assessments), 298.305 (water control districts), and 388.221 (mosquito control).
[5] Section 189.012(2), F.S.
[6] Section 189.012(3), F.S.
[7] Section 189.01, F.S. Also see ch. 190 (community development districts), ch. 191 (independent special fire control districts), ch. 298 (water control districts), ch. 388 (mosquito control districts), and ch. 582, F.S. (soil and water conservation districts).

formation,[8] governance,[9] administration,[10] supervision,[11] merger,[12] and dissolution[13] of special districts, unless otherwise expressly provided in law.[14]

Special districts do not possess "home rule" powers and may impose only those taxes, assessments, or fees authorized by special or general law. The special act creating an independent special district may provide for funding from a variety of sources while prohibiting others. For example, ad valorem tax authority is not mandatory for a special district.[15]

Independent Special Fire Control Districts

Independent special fire control districts are created by the Legislature to provide fire suppression and related activities within the territorial jurisdiction of the district.[16] As of March 1, 2021, there were 64 active independent special fire control districts.[17]

The Independent Special Fire Control District Act provides standards, direction, and procedures for greater uniformity in the operation and governance of these districts, including financing authority, fiscally-responsible service delivery, and election of members to the governing boards.[18] The act preempts more specific provisions in any special act or general law of local application creating a fire control district's charter,[19] requires every fire control district be governed by a five-member board,[20] and provides:

- General powers;[21]
- Special powers;[22]
- Authority and procedures for the assessment and collection of ad valorem taxes;[23]
- Authority and procedures for the imposition, levy, and collection of non-ad valorem assessments, charges, and fees;[24] and
- Issuance of district bonds and evidence of debt.[25]

[18] Section 191.002, F.S.
[19] Section 191.004, F.S. Provisions in other laws pertaining to district boundaries or geographical sub-districts for electing members to the governing board are excepted from this section.
[20] Section 191.005(1)(a), F.S. (fire control district may continue to be governed by a three-member board if authorized by special act adopted in or after 1997).
[21] Section 191.006, F.S. (e.g. the power to sue and be sued in the name of the district, the power to contract, and the power of eminent domain).
[22] Section 191.008, F.S.
[23] Sections 191.006(14) and 191.009(1), F.S.
[24] Sections 191.006(11) and (15), 191.009(2), (3), and (4), and 191.011, F.S.
[25] Section 191.012, F.S.

Fire control districts may levy ad valorem taxes on real property within the district of no more than 3.75 mills unless a greater amount was previously authorized.[26] A district also may levy non-ad valorem assessments.[27] The district board may adopt a schedule of reasonable fees for services performed.[28] Additionally, the district board may impose an impact fee if so authorized by law and the local general purpose government has not adopted an impact fee for fire services that is distributed to the district for construction.[29]

Hospital Districts

Hospital districts are a type of independent special district specializing in the provision of health care services. As of March 1, 2021, there are 27 active hospital districts: 24 that directly operate health care facilities and three that provide oversight for facilities leased by local governments to private sector entities.[30] The charters of hospital districts generally possess a set of core features: a board appointed by the Governor, the authority to build and operate hospitals, the power of eminent domain, the ability to issue bonds payable from ad valorem taxes, the use of ad valorem tax revenue for operating and maintaining hospitals, and providing that such facilities are established for the benefit of the indigent sick.[31]

Mosquito Control Districts

Mosquito control districts (MCD) are created to protect health and safety, improve quality of life, promote economic development, and allow for the enjoyment of natural attractions of the state by reducing the number of insects that transmit disease within their boundaries.[32] As of March 1, 2021, there are 18 mosquito control districts: 15 independent and three dependent districts.[33]

An MCD may contain part or all of a county or municipality.[34] The creation of new independent MCDs has been prohibited since July 1, 1980.[35] In counties without a district, the board of county commissioners may exercise all the rights, powers, and duties authorized by statute for an MCD or may direct the county health department to do so.[36]

[34] Section 388.021(1), F.S.
[35] Section 388.021(2), F.S.
[36] Sections 388.241 and 388.251, F.S. The county health department must keep the books and make all reports required under ch. 388, F.S., and all purchases, whether by bid or otherwise, must be made in accordance with the procedures allowed by the Board of County Commissioners. The health department must also submit to the Board of County Commissioners itemized monthly statements of expenses incurred in carrying out the control program in the county.

MCDs are authorized to levy ad valorem taxes not exceeding 10 mills on real and personal property.[37] Each MCD or county participating in arthropod control under the statutes must submit to the Department of Agriculture and Consumer Services (DACS) a report for the preceding month of expenditures from all funds for arthropod control within 30 days after the end of each month.[38]

Soil and Water Conservation Districts

The stated purpose of soil and water conservation districts (SWCD) is to provide assistance, guidance, and education to landowners, land occupiers, the agricultural industry, and the general public in implementing land and water resource protection practices.[39] All SWCDs are created by the DACS upon petition by landowners in the proposed district.[40] The DACS must provide for an annual audit of the accounts of receipts and disbursements for each district.[41] As of March 1, 2021, there are 56 active districts.[42]

Beginning in 1937,[43] SWCDs were initially established to encourage cooperation between governments and local landowners concerning local conservation needs.[44] The authority of SWCDs now overlap significantly with other agencies created to manage and protect the state's land and water resources, such as the Department of Environmental Protection,[45] the Department of Economic Opportunity,[46] and water management districts.[47] Due to this jurisdictional overlap, SWCDs today primarily focus on working with partners to provide funding and technical support to aid local landowners in conservation efforts.[48]

Local Government Financial Reports and Audits

Florida law requires all units of local government, including special districts, to complete annual financial reports and annual financial audit reports. Each district must submit its annual financial report to the Department of Financial Services (DFS) within 9 months of the completion of its fiscal year.[49] If a district fails to file a completed annual financial report within the required period, the DFS must notify the Legislative Auditing Committee and the Special District Accountability Program of the Department of Economic Opportunity.[50]

[46] See, e.g., ch. 380, F.S.
[47] See, e.g., ch. 373, F.S.
[48] The primary partners for soil and water conservation districts are the United States Department of Agriculture's Natural Resource Conservation Service, DACS's Office of Agricultural Water Policy, and county governments. DACS Office of Agricultural Water Policy, supra note 58.
[49] A district that is required to complete a financial audit report must submit both reports within 45 days of the completion of the audit report, but no later than 9 months after the end of the fiscal year. Section 218.32(1)(d), F.S.
[50] Section 218.32(1)(f), F.S.

Special districts with revenues or total expenditures and expenses exceeding $100,000 must have an annual financial audit prepared by an independent certified public accountant, unless the district has been notified before the start of the fiscal year that the Auditor General will conduct a financial audit for that year.[51] Special districts with revenues (or a total of expenditures and expenses) between $50,000 and $100,000 are required to conduct a financial audit every 3 years.[52] The financial audit must be performed according to specific statutory criteria and the rules of the Auditor General.[53] The audit report for a dependent special district may be included in the annual financial audit report of the county or municipality on which it is dependent. The audit report must be filed with the Auditor General within 45 days of its receipt by the district, but no later than 9 months after the end of the fiscal year.[54]

Community Redevelopment Agency Auditing Requirements

Each community redevelopment agency with revenues or a total of expenditures and expenses in excess of $100,000 must have an annual financial audit prepared by an independent certified public accountant.[55] The audit report must accompany the annual financial report of the county or municipality that created the district.[56]

Performance Audits

A performance audit is an examination of a program, activity, or function of a governmental entity, conducted in accordance with applicable government auditing standards or auditing and evaluation standards of other appropriate authoritative bodies. This may include examining:

- The economy, efficiency, or effectiveness of the program;
- How a program is structured or designed to accomplish its goals and objectives;
- The adequacy of the program to meet the needs identified by the Legislature or local governing body;
- Whether alternative methods exist to deliver services provided by the program;
- The goals, objectives, and performance measures used by the agency to monitor and report program accomplishments;
- The accuracy or adequacy of public documents, reports, or requests prepared under the program by state agencies;
- The program's compliance with appropriate policies, rules, or laws; and
- Any other issues related to governmental entities as directed by the Legislative Auditing Committee.[57]

The purpose of a performance audit is to provide objective information that may be used to assist in governance and oversight by providing information that will improve program performance,

[57] Section 11.45(1)(j), F.S.

reduce costs to taxpayers, and otherwise facilitate decision-making.[58] The Auditor General currently conducts a performance audit at least once every 3 years of the local government financial reporting system and the Department of Revenue's administration of the ad valorem tax laws.[59] A performance audit also must be conducted on any program associated with a proposed discretionary sales surtax levy.[60]

The Office of Program Policy Analysis and Government Accountability

The Office of Program Policy Analysis and Government Accountability (OPPAGA) is the research arm of the Legislature. The OPPAGA was created by the Legislature in 1994 to help improve the performance and accountability of state government. The OPPAGA provides data, evaluative research, and objective analyses to assist legislative budget and policy deliberations. The OPPAGA conducts research as directed by state law, the presiding officers, or the Joint Legislative Auditing Committee.[61] The OPPAGA provides a variety of research services such as performance evaluations and policy reviews of government programs, research and technical assistance to legislators and legislative committees, and government program summaries containing descriptive and evaluative information on all major state programs.

III. Effect of Proposed Changes:

Performance Audits (Section 1)

The bill creates s. 189.0695, F.S., to require all independent special fire control districts and each hospital governed by the governing body of a special district or the board of trustees of a public health trust to conduct a performance audit every five years beginning October 1, 2021, and October 1, 2022, respectively. The performance audit must be conducted by a qualified independent entity from a list generated by OPPAGA. To be included on the list, an entity must have at least five years of experience conducting performance audits, must conduct audits according to applicable auditing or evaluation standards of appropriate authoritative bodies, and must follow any relevant industry best practices. The audit report must be filed with the governing body of the district, the Auditor General, the President of the Senate, and the Speaker of the House of Representatives no later than 9 months from the beginning of the fiscal year in which the report is due. If the Auditor General conducts a performance audit of a district in the same fiscal year, that report may be used to satisfy this requirement.

The bill also requires all independent mosquito control districts and soil and water conservation districts to undergo a performance audit conducted by the OPPAGA. The performance audit must compare the services provided by each district with similar services provided by counties and municipalities, examining the similarities and differences as well as relative costs and

[58] Gov't Auditing Standards, s. 1.21 (Gov't Accountability Office 2018). Rule 10.55(3) of the Auditor General incorporates the 2018 Government Auditing Standards adopted by the U.S. Government Accounting Office (2018 Yellow Book).
[59] Section 11.45(2)(g)-(h), F.S.
[60] Section 212.055(11)(a), F.S.
[61] Office of Program Policy Analysis and Government Accountability, *About OPPAGA, available at*: https://oppaga.fl.gov/About (last visited Apr. 15, 2021).

efficiencies of services. The OPPAGA must submit the performance audits of the districts to the President of the Senate and the Speaker of the House of Representatives by:

- September 30, 2023, for independent mosquito control districts; and
- September 30, 2024, for soil and water conservation districts.

The bill defines the term "performance audit" as having the same meaning used in statutes concerning audits performed by the Auditor General.

Annual Financial Report and Annual Financial Audit Report (Sections 2 & 3)

Sections 2 and 3 amend ss. 218.32 and 218.39, F.S., respectively, to require the annual financial report and annual financial audit report for all special districts to separately specify the following information:

- The total number of people employed by the district;
- The amounts budgeted by the district for employee salaries and benefits; and
- Each construction project approved by the district to begin after October 1 of the fiscal year being reported and the amount budgeted for the project.

Section 2 requires the annual financial report of each independent special district that levies ad valorem taxes or non-ad valorem special assessments to include the rates of such levies, the total amount collected by the levies, and the total amount of all outstanding bonds issued by the district and the terms of such bonds.

Section 3 revises requirements concerning annual financial audit reports to clarify that the annual financial audit report of a community redevelopment agency with revenues or a total of expenditures and expenses in excess of $100,000 must be provided separately from the annual financial audit report of the county or municipality that created the district.

The bill takes effect October 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The mandate restrictions do not apply because the bill does not require counties and municipalities to spend funds, reduce counties' or municipalities' ability to raise revenue, or reduce the percentage of state tax shared with counties and municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

Special districts may experience workload increases and associated costs to comply with additional reporting requirements created by the bill.

Independent special fire control districts and hospitals governed by special districts or the board of trustees of a public health trust will incur increased costs related to conducting performance audits.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 218.32 and 218.39.

This bill creates section 189.0695 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Albritton

26-01565A-21 20211624__

A bill to be entitled

An act relating to special district accountability; creating s. 189.0695, F.S.; defining the term "performance audit"; requiring certain independent special districts to contract with an independent entity to conduct performance audits; providing an exception; specifying the frequency of such audits; requiring the Office of Program Policy Analysis and Government Accountability to conduct performance audits of certain classifications of independent special districts; providing criteria for contracting for such audits; requiring the performance audits to be reported by a time certain; amending s. 218.32, F.S.; requiring additional information to be reported by special districts in the annual report; amending s. 218.39, F.S.; requiring that certain data be included in financial audits of special districts; requiring certain community redevelopment agencies to file separate audited financial statements; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 189.0695, Florida Statutes, is created to read:

189.0695 Independent special districts; performance audits.—

(1) The term "performance audit" has the same meaning as in

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

26-01565A-21 20211624__

s. 11.45(1).

(2)(a) Each independent special district as described in paragraph (c) must contract with an independent entity to conduct a performance audit of the district. The Office of Program Policy Analysis and Government Accountability must generate a list of independent entities qualified to perform the performance audit and the independent special district must select an independent entity from the list. To be included on the list, an entity must have at least 5 years of experience conducting performance audits, must conduct audits according to applicable auditing or evaluation standards of appropriate authoritative bodies, and must follow any applicable industry best practices.

(b) The entity's final report of the performance audit must be filed with the governing board of the district, the Auditor General, the President of the Senate, and the Speaker of the House of Representatives no later than 9 months from the beginning of the district's fiscal year according to the schedule provided in paragraph (c). However, a performance audit of a district conducted by the Auditor General during the same fiscal year in which a performance audit is due pursuant to paragraph (c) qualifies as that district's scheduled performance audit under this section.

(c)1. Beginning October 1, 2021, and every 5 years thereafter, each independent special fire control district as defined in s. 191.003, must have a performance audit conducted.

2. Beginning October 1, 2022, and every 5 years thereafter, each hospital licensed under chapter 395 which is governed by the governing body of a special district as defined in s.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

189.012 or by the board of trustees of a public health trust created under s. 154.07, must have a performance audit conducted.

(3) The Office of Program Policy Analysis and Government Accountability must conduct a performance audit of all independent special districts within the classifications described in paragraphs (a) and (b). The performance audit must compare the services provided by each district examined with similar services provided by the county and municipal governments wholly or partially within the boundaries of the district, expressly stating the similarities and differences, and relative costs and efficiencies, between the services provided by the district and those provided by the relevant counties and municipalities. The Office of Program Policy Analysis and Government Accountability shall submit the final report of the performance audit to the President of the Senate and the Speaker of the House of Representatives as follows:

(a) For all independent mosquito control districts as defined in s. 388.011, no later than September 30, 2023.

(b) For all soil and water conservation districts as defined in s. 582.01, no later than September 30, 2024.

Section 2. Paragraph (e) of subsection (1) of section 218.32, Florida Statutes, is amended to read:

218.32 Annual financial reports; local governmental entities.—

(1)(e)1. Each local governmental entity that is not required to provide for an audit under s. 218.39 must submit the annual financial report to the department no later than 9 months after the end of the fiscal year. The department shall consult

with the Auditor General in the development of the format of annual financial reports submitted pursuant to this paragraph. The format must include balance sheet information used by the Auditor General pursuant to s. 11.45(7)(f). The department must forward the financial information contained within the annual financial reports to the Auditor General in electronic form. This paragraph does not apply to housing authorities created under chapter 421.

2. The annual financial report filed by a dependent special district or an independent special district shall specify separately:

a. The total number of district employees.

b. The amounts budgeted by the district for employee salaries and the amounts budgeted for employee benefits.

c. Each construction project approved by the district to begin after October 1 of the fiscal year being reported together with the amount budgeted for such project.

3. The annual financial report of an independent special district that imposes ad valorem taxes shall include the millage rate or rates imposed by the district, the total amount of ad valorem taxes collected by or on behalf of the district, and the total amount of outstanding bonds issued by the district and the terms of such bonds.

4. The annual financial report of an independent special district that imposes non-ad valorem special assessments shall include the rate or rates of such assessments imposed by the district, the total amount of special assessments collected by or on behalf of the district, and the total amount of outstanding bonds issued by the district and the terms of such

bonds.

Section 3. Paragraph (h) of subsection (1) of section 218.39, Florida Statutes, is redesignated as paragraph (i), a new paragraph (h) is added to that subsection, and subsection (3) of that section is amended, to read:

218.39 Annual financial audit reports.—

(1) If, by the first day in any fiscal year, a local governmental entity, district school board, charter school, or charter technical career center has not been notified that a financial audit for that fiscal year will be performed by the Auditor General, each of the following entities shall have an annual financial audit of its accounts and records completed within 9 months after the end of its fiscal year by an independent certified public accountant retained by it and paid from its public funds:

(h) As required by s. 163.387(8)(a), each community redevelopment agency with revenues or a total of expenditures and expenses in excess of $100,000, as reported on the trust fund financial statements.

(3)(a) A dependent special district, excluding a community redevelopment agency with revenues or a total of expenditures and expenses in excess of $100,000, as reported on the trust fund financial statements, may provide for an annual financial audit by being included in the audit of the local governmental entity upon which it is dependent. An independent special district may not make provision for an annual financial audit by being included in the audit of another local governmental entity.

(b) A special district that is a component unit, as defined

by generally accepted accounting principles, of a local governmental entity shall provide the local governmental entity, within a reasonable time period as established by the local governmental entity, with financial information necessary to comply with this section. The failure of a component unit to provide this financial information must be noted in the annual financial audit report of the local governmental entity.

(c) The financial audit of a dependent special district or of an independent special district, or the financial audit of a local governmental entity including the information of a dependent special district as provided in paragraph (a) of this subsection, shall separately include and specify the information required in s. 218.32(1)(e)2.

Section 4. This act shall take effect October 1, 2021.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1672 creates the State University Free Seat Program to require each state university to waive the tuition and fees for one online course for a Florida resident who is either a veteran, an active duty member of the United States Armed Forces, an active drilling members of the Florida National Guard, or who has not been enrolled in a postsecondary institution for more than five years, and is enrolled in an online baccalaureate degree program. The bill specifies that:

- A state university may not charge a student who meets such criteria more than 75 percent of the tuition rate or tuition differential for all other courses.
- A student who qualifies for the tuition discount is eligible to receive the discount for up to 110 percent of the number of required credit hours of the enrolled degree program.

The bill does not require a state appropriation. However, state universities will have reduced revenues from tuition and fees for each eligible student who enrolls in their online degree programs. See Section V.

The bill takes effect July 1, 2021.

II. Present Situation:

Tuition and Fees

Tuition is the basic fee a student is charged for instruction provided by a public postsecondary educational institution in Florida.[1] All students are charged fees except students who are exempt or whose fees are waived. State university boards of trustees are authorized to establish fees, which include activity and service, health, and athletic fees; a technology fee; a financial aid fee; and a tuition differential fee. State universities may also charge a per-credit hour distance learning course fee.[2]

Tuition and Fee Rate

The resident undergraduate tuition is set by law at $105.07 per credit hour.[3] The 2020-2021 State University System (SUS) resident undergraduate tuition and fees average is $199.72 per credit hour. The tuition and fees at Florida International University is $218.71 per credit hour, whereas the tuition and fees at Florida Polytechnic University is $164.65 per credit hour.[4]

Tuition Differential

Each university board of trustees may establish, upon approval by the Board of Governors, a tuition differential to promote improvements in the quality of undergraduate education and is required to provide financial aid to undergraduate students who exhibit financial need for undergraduate courses.[5]

Seventy percent of the revenues from the tuition differential must be expended for purposes of undergraduate education, such as increasing course offerings, improving graduation rates, increasing the percentage of undergraduate students who are taught by faculty, decreasing student-faculty ratios, providing salary increases for faculty who have a history of excellent teaching in undergraduate courses, improving the efficiency of the delivery of undergraduate education through academic advisement and counseling, and reducing the percentage of students who graduate with excess hours. Except as otherwise provided, the remaining 30 percent of the revenues from the tuition differential, or the equivalent amount of revenue from private sources, must be expended to provide financial aid to undergraduate students who exhibit financial need, to meet the cost of university attendance.[6]

The aggregate sum of undergraduate tuition and fees per credit hour, including the tuition differential, may not exceed the national average of undergraduate tuition and fees at four-year degree-granting public postsecondary educational institutions. Each tuition differential may be assessed on one or more undergraduate courses or on all undergraduate courses at a state university, may vary by course or courses, by campus or center location, and by institution.[7]

---

[1] Section 1009.01(1), F.S.
[2] Sections 1009.24(2), (4), (5), (7) through (13), (16), and (17), F.S.
[3] Section 1009.24(4)(a), F.S.
[4] State University System of Florida, *Tuition and Required Fees, 2020-2021, available at* https://www.flbog.edu/wp-content/uploads/2020-2021-SUS-Tuition-and-Fees-Report-1.pdf, at 1.
[5] Section 1009.24(16), F.S.
[6] Section 1009.24(16)(a), F.S.
[7] Section 1009.24(16)(b), F.S.

In 2020-2021, the SUS average resident undergraduate student tuition differential fee is $42.88 per credit hour. Polytechnic University is the only state university that does not charge a tuition differential fee. [8]

Residency for Tuition Purposes

A legal resident of Florida for tuition purposes means one who has maintained his or her residence in this state for the preceding year, has purchased and occupies a home as primary residence, or has established a domicile in this state.[9] Unless costs are exempted or waived, all students are charged fees.[10] An out-of-state fee is charged as an additional fee for a student who does not qualify for the in-state tuition rate.[11]

Benefits for Military

Veterans of the United States Armed Forces

The term "veteran" is defined in law to mean a person who served in the active military, naval, or air service and who was discharged or released under honorable conditions only or who later received an upgraded discharge under honorable conditions, notwithstanding any action by the United States Department of Veterans Affairs on individuals discharged or released with other than honorable discharges. To receive benefits as a wartime veteran, a veteran must have served in a campaign or expedition for which a campaign badge has been authorized or during a period of wartime service as specified in law.[12]

Veterans currently receive priority course registration[13] and may be eligible to receive credit for relevant military training and education.[14]

Florida National Guard

The Florida National Guard consists of enlisted personnel, commissioned officers, and warrant officers who are citizens of the United States, or who have declared their intention to become citizens of the United States, organized, armed, equipped, and federally recognized, in accordance with the laws of the state and the laws and regulations of the Department of the Army and the Department of the Air Force.[15]

Active duty members of the Army, Navy, Air Force, Navy, Marines, Coast Guard, any current reservists, and active Florida National Guard are afforded some residency protections under Florida law. The following military personnel are classified as residents for tuition purposes:

[10] Section 1009.24(2), F.S.
[11] Section 1009.01(2), F.S. The in-state tuition rate is described in s. 1009.21(1)(g), F.S.
[12] Section 1.01(14), F.S.
[13] Sections 1004.075 and 1005.09, F.S.
[14] Sections 489.1131, 489.5161, and 493.61035, F.S.
[15] Section 250.07(1), F.S.

- Active duty members of the Armed Services of the United States residing or stationed in Florida and active drilling members of the Florida National Guard.
- Military personnel not stationed in Florida whose home of record or state of legal residence certificate is Florida.[16]

Congressman C.W. Bill Young Tuition Waiver Program

The Congressman C.W. Bill Young Veteran Tuition Waiver Program requires a state university, Florida College System institution, or career center to waive out-of-state fees for an honorably discharged veteran of the U.S. Armed Forces, the U.S. Reserve Forces or the National Guard who physically resides in Florida while enrolled at the institution. The waiver covers the applicable portion of the fees up to 110 percent of the required credit hours for the degree or certificate program of enrollment.[17]

Online Courses at State University System Institutions

Nationally, Florida ranks second in the number and percentage of students enrolled in distance learning courses. In the 2018-2019 academic year, 75 percent of undergraduate students at Florida's state universities took at least one distance learning course. At four institutions, the University of Central Florida, University of Florida, University of South Florida, and University of West Florida, at least 80 percent of undergraduate students took one or more distance learning courses. Across the SUS, 11 percent (36,648) of undergraduate students took distance learning courses exclusively, and a majority (63 percent) of undergraduate students (202,895) in the SUS took a combination of distance learning, classroom, or hybrid courses. Systemwide, 30 percent of total undergraduate credit hours were taken in distance learning courses. During the Fall 2019 term, SUS institutions offered 164 online bachelor's degree programs.[18]

University of Florida Online

University of Florida Online (UF Online) was created by the 2013 Legislature as an institute for online learning at a preeminent state research university to provide for high quality, fully online baccalaureate degree programs at an affordable cost.[19] By 2018-2019, strategic development and expansion efforts allowed the program to offer 21 fully online majors and seven minors. More than 2,000 students have graduated from UF Online.[20] For the UF Online program, both the tuition rate ($78.80) and tuition differential fee ($33.12) are set at 75 percent of the per credit hour rates for traditional undergraduate programs at the University of Florida.[21]

National Recognition

In 2020, *U.S. News & World Report* ranked UF Online as one of the top five best online bachelor's degree programs in the nation. The University of Central Florida ranked in the top 15, while Florida Atlantic University, Florida International University, and University of West Florida all ranked in the top 100.[22]

III. Effect of Proposed Changes:

The bill creates s. 1009.266, F.S., to establish the State University Free Seat Program to encourage veterans, active duty members of the United States Armed Forces, active drilling members of the Florida National Guard, and nontraditional students to enroll in an online baccalaureate degree program at a state university.

The bill specifies that a state university:

- Shall waive the tuition and fees, including lab fees, for one online course during each academic year, provided the student is a resident, enrolled in an online baccalaureate degree program and meets one of the following eligibility requirements:
  - Is a veteran defined by law;
  - Is an active duty member of the United States Armed Forces;
  - Is an active drilling member of the Florida National Guard; or
  - Has not been enrolled in a postsecondary institution for more than five years.
- May not charge an eligible student more than 75 percent of the tuition rate and 75 percent of the tuition differential for all other courses in the program if the student remains enrolled in at least one online course during each academic year.

The bill also specifies that a student is eligible to receive the discount for up to 110 percent of the number of required credit hours of the degree program for which the student is enrolled. Most SUS baccalaureate degree programs are set at 120 credit hours, which would authorize the tuition discount for up to 132 credit hours.

The bill requires each state university to report to the Board of Governors (BOG) the number and value of all such fee waivers granted annually, and requires the BOG to adopt regulations to administer the program.

The bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

[22] *Id*. (showing UF Online ranked at number 4 in 2020 and number 5 in 2019). *See also* U.S. News and World Report, *Best Online Bachelor's Programs*, *accessible at* https://www.usnews.com/education/online-education/bachelors/rankings.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Providing one free online course to students enrolled in an online baccalaureate degree program at a state university and a 25 percent discount on tuition for all other courses in the program may increase access to online classes and enrollment at state universities.

C. Government Sector Impact:

The bill does not require a state appropriation. However, state universities will have reduced revenues from tuition and fees for each eligible student who enrolls in their online degree programs. The number of eligible students who will participate in the State University Free Seat Program is unknown. For each eligible student, a state university will not receive tuition and fees for one online course in an academic year. For example, for each course waived, for UF Online this represents a loss of $129.18[23] per credit hour, and at Florida State University, a loss of 180.49[24] per credit hour.

In addition, for all other courses in the online degree program, each state university will not collect 25 percent of the resident undergraduate tuition rate of $105.07 and 25 percent of the resident undergraduate tuition differential, which averages $42.88, for a total loss of approximately $36.99 per credit hour.

VI. Technical Deficiencies:

None.

[23] State University System of Florida, *Tuition and Required Fees, 2020-2021, available at* https://www.flbog.edu/wp-content/uploads/2020-2021-SUS-Tuition-and-Fees-Report-1.pdf, at 4.
[24] Florida State University, *2020-2021 Tuition, Distance Learning, available at* https://studentbusiness.fsu.edu/sites/g/files/upcbnu1241/files/2020-2021%20Tuition_DistanceLearning.pdf.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends section 1009.266 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education on March 23, 2021:
The committee substitute adds, beyond a student who has not been enrolled in a postsecondary institution for more than five years, criteria for a student who is a resident for tuition purposes and enrolled in an online baccalaureate degree program at a state university to have tuition and fees, including lab fees, waived for one online course. The following may also qualify for the waiver:

- A veteran defined in law;
- An active duty member of the United States Armed Forces;
- An active drilling member of the Florida National Guard; or

In addition, the bill requires each state university to report to the Board of Governors (BOG) the number and value of all such fee waivers granted annually, and requires the BOG to adopt regulations to administer the program.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Education; and Senator Diaz

581-03261-21 20211672c1

A bill to be entitled

An act relating to the State University Free Seat Program; amending s. 1009.26, F.S.; creating the State University Free Seat Program; providing a purpose; providing an exemption from tuition and fees, including lab fees, for one online course at a state university for certain resident students; prohibiting a state university from charging such students more than a specified percentage of the tuition rate and the tuition differential under certain circumstances; providing a limitation on the application of such tuition discount; requiring each state university to report certain information regarding waivers under the program to the Board of Governors annually; requiring the board to adopt regulations; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (18) is added to section 1009.26, Florida Statutes, to read:

1009.26 Fee waivers.—

(18) The State University Free Seat Program is created to encourage veterans, active duty members of the United States Armed Forces, active drilling members of the Florida National Guard, and nontraditional students to enroll in an online baccalaureate degree program at a state university.

(a) A state university shall waive the tuition and fees, including lab fees, for one online course for a student who is a

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1786 makes several changes to the Florida Birth-Related Neurological Injury Compensation Plan (Plan).

Specifically, the bill:

- Requires the Florida Birth-Related Neurological Injury Compensation Association (NICA) to administer the Plan in a manner that promotes and protects health and best interests of birth-injured children.
- Increases the maximum amount that may be awarded to parents or legal guardians of an infant who has sustained a birth-related neurological injury from $100,000 to $250,000 for pending petitions or claims filed on or after January 1, 2021, with the amount to be incrementally increased by three percent annually. This provision of the bill applies retroactively to claims filed before January 1, 2021.
- Increases the death benefit for an infant who sustained a neurological injury from $10,000 to $50,000.
- Increase the number of directors on the NICA's board from five to seven by adding a parent or legal guardian of a Plan participant and a representative of an advocacy organization for children with disabilities.
- Specifies that at least one director on the NICA's board is a woman.
- Provides that it is not the intent for the NICA to serve as payor of last resort and it is not the intent to shield physicians who engage in certain activities from filing legitimate claims of medical malpractice against such physicians.

- Extends the time for filing a claim from five years to eight years.
- Requires the Division of Medical Quality Assurance of the Department of Health to conduct a review of claims in which a physician is involved in multiple claims to determine whether the physician's conduct establishes a pattern or practice subject to disciplinary action.
- Requires the plan to reimburse parents or legal guardians of Plan participants for any service, drug, equipment, or treatment at a reasonable rate if they submit a letter of medical necessity from a provider.
- If the Plan determines that the service, drug, equipment, or treatment was not medically necessary, the Plan must ask the parent or legal guardian to provide a second letter of medical necessity from another provider.
- Authorizes the Plan to review and reimburse for experimental treatments using the same medical review process, and if a second letter is not provided, the plan is not required to provide reimbursement.
- Requires the Plan to reimburse private nursing staff or attendant care at a rate of at least equal to the greater of state or federal minimum hourly wage, regardless of setting.
- Requires the Plan to provide family support services, including mental health, for the immediate family members living with the child.
- Requires the Plan to provide quality of life reimbursement for entertainment and other activities that promote mental health of at least $1,500 per year.
- Requires the Plan to reimburse without any limitations expenses for diapers, baby food, and formula.
- Increases the annual assessment for hospitals and nonparticipating and participating physicians.
- Provides an annual benefit of $5,000 for parents and legal guardians of Plan participants for counseling.
- Provides reimbursement for transportation for all necessary trips for prescription refills.
- Creates code of ethics for specified staff and members of the board of directors.
- Requires the NICA to submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The first annual report must include an actuarial analysis of the fiscal impacts of revising certain eligibility standards and benefits.
- Requires the Auditor General to conduct an audit of the NICA.
- Provides a sunset on December 31, 2026, of the NICA and the Plan, unless the Legislature reviews and reenacts the provisions by that date.

The NICA engaged an actuary to determine the viability and likely impact of increasing the parental award from $100,000 to $250,000. It was determined that the bill will have a negative fiscal impact on the Plan; however the actuary's report recommended increasing the parental award. Since the 2020 actuarial study did not appear to consider the impact of an increase in the death benefit for an infant from $10,000 to $50,000, as provided in the bill, the fiscal impact is indeterminate, but most likely insignificant.

Additional provisions in the bill increasing Plan services and compensations have a significant indeterminate fiscal impact. *See* Part V, Fiscal Impact Statement.

The bill provides an effective date of July 1, 2021.

II. Present Situation:

Florida Birth-Related Neurological Injury Compensation Association

In 1988, the Legislature enacted the Florida Birth-Related Neurological Injury Compensation Plan[1] (Plan) to provide compensation, long-term medical care, and other services to persons with birth-related neurological injuries.[2] If an infant suffers such an injury, and the physician participates in the Florida Birth-Related Neurological Injury Compensation Association (NICA) and delivers obstetrical services in connection with the birth, then an administrative award for a compensable injury is the infant's sole and exclusive remedy for the injury, with exceptions.[3] Although the benefits paid under the Plan are limited, the Plan does not require the claimant to prove malpractice and provides a streamlined administrative hearing process to resolve the claim.[4]

A "birth-related neurological injury" is an injury to the brain or spinal cord of a live infant who weighs at least 2,500 grams for a single gestation or, in the case of a multiple gestation, a live infant who weighs at least 2,000 grams at birth caused by oxygen deprivation or by mechanical injury occurring in the course of labor, delivery, or resuscitation in the immediate post-delivery period in a hospital.[5] Such an injury addressed by this statute renders the infant permanently and substantially mentally and physically impaired.[6]

The NICA is an independent association, and was created by the Legislature to manage the Plan. Although it is not a state agency, the NICA is subject to regulation and oversight by the Office of Insurance Regulation (OIR) and the Joint Legislative Auditing Committee. Directors on the NICA's board are appointed by the Chief Financial Officer for staggered terms of three years or until their successor is appointed, but there is no limit on the number of terms a director may serve.[7] The five-member board of directors of the Florida Birth-Related NICA administers the Plan.[8] The board of directors is composed of:

- One citizen representative;
- One representative of participating physicians;
- One representative of hospitals;
- One representative of casualty insurers; and
- One representative of physicians other than participating physicians.[9]

Duties of the NICA board of directors include:

- Administering the plan;

[7] Section 766.315, F.S., and ch. 88-1, s. 74, Laws of Fla.

[8] Sections 766.315(1) and (2), F.S.

[9] Section 766.315, F.S., and ch. 88-1, s. 74, Laws of Fla.

- Administering the funds collected on behalf of the plan;
- Reviewing and paying claims;
- Directing the investment and reinvestment of any surplus funds over losses and expenses, provided that any investment income generated thereby remains credited to the Plan;
- Reinsuring the risks of the Plan in whole or in part;
- Suing and being sued, appearing and defending, in all actions and proceedings in its name;
- Exercising all powers necessary or convenient to effect any or all of the purposes for which the Plan was created;
- Entering into such contracts as are necessary or proper to administer the Plan;
- Employing or retaining such persons as are necessary to perform the administrative and financial transactions and responsibilities of the Plan;
- Taking such legal action as may be necessary to avoid payment of improper claims; and
- Indemnifying any person acting on behalf of the Plan in an official capacity, provided that such person acted in good faith.[10]

Annually, the NICA must furnish audited financial reports to:
- Any Plan participant upon request;
- The OIR; and
- The Joint Legislative Auditing Committee.[11]

The reports must be prepared in accordance with accepted accounting procedures. The OIR or the Joint Legislative Auditing Committee may conduct an audit of the Plan at any time.[12]

NICA Funding

The funding for the Plan is derived from an initial appropriation of $20 million by the Legislature at the time the Plan was created[13] and annual assessments paid by physicians and hospitals.[14] A participating physician is required to pay a $5,000 fee each year for coverage which runs January 1 through December 31.[15] All licensed Florida physicians pay a mandatory fee of $250, regardless of specialty. Hospitals pay $50 for each live birth during the previous calendar year. Certain exemptions apply to all of these categories, including resident physicians, retired physicians, government physicians, and facilities.[16] In 2019, NICA collected $26,989,960 in hospital and physician assessments; in 2020, NICA collected $27,000,000.[17]

Section 766.314, F.S., requires the OIR to maintain a $20 million reserve in the Insurance Regulatory Trust Fund. If the assessments collected and the appropriation of funds provided by ch. 88-277, s. 41, Laws of Florida, to the Plan from the trust fund are insufficient to maintain the

Plan on an actuarially sound basis, the OIR is authorized to transfer an additional amount up to $20 million to the NICA from the Insurance Regulatory Trust Fund reserve.[18]

Benefits

The Plan pays, on behalf of a qualifying infant, the following benefits:

- Actual expenses for medically necessary and reasonable care, services, drugs, equipment, facilities, and travel;[19]
- Periodic or lump-sum award, not to exceed $100,000, to the infant's parents or guardians;[20]
- Death benefit of $10,000 for the infant; and
- Reasonable expenses for filing the claim under the Plan, including attorney's fees.[21]

The administrative law judge (ALJ) must require the Plan to immediately pay expenses previously incurred and require that future expenses be paid as incurred.[22]

The $100,000 cash award limit was established when the NICA statutory provisions were enacted in 1988. If the initial award of $100,000 established for the first birth year of 1989 was adjusted for inflation, and assuming an annual increase of three percent, this would result in an indicated award of approximately $250,000.[23]

Exclusions

The Plan does not reimburse or pay expenses that might otherwise be covered by insurance or any private or governmental programs, unless such exclusion is prohibited by federal law.[24] Many children with birth-related injuries are either covered by programs such as Children's Medical Services or Medicaid. Under current state and federal law, Medicaid is the payor of last resort for medically necessary goods and services furnished to Medicaid recipients

Filing a Claim for Benefits

A claim for compensation under the Plan must be filed within five years of the birth of the infant alleged to be injured.[25] First, the parents or guardians of the infant must file a petition with the Division of Administrative Hearings (DOAH).[26] Then, the DOAH serves a copy of the petition upon the NICA, the physician(s) and hospital named in the petition, the Division of Medical Quality Assurance, and the Agency for Health Care Administration.[27] Within 10 days of filing

the petition, the parents or guardian must provide to the NICA all medical records, assessments, evaluations and prognoses, documentation of expenses, and documentation of any private or governmental source of services, or reimbursement relative to the impairments.[28]

Within 45 days from the date of service of a complete claim, the NICA must file a response to the petition and submit relevant written information relating to the issue of whether the injury alleged is a birth-related neurological injury.[29] An ALJ from the DOAH will set a hearing on the claim to be conducted 60-120 days from the petition filing date.[30]

The issue of whether the claim for compensation is covered by the Plan is determined exclusively in an administrative proceeding.[31] The ALJ presiding over the hearing makes the following determinations:

- Whether the injury claimed is a birth-related neurological injury;
- Whether obstetrical services were delivered by a participating physician;
- How much compensation, if any, is awardable under s. 766.31, F.S.; and
- Whether, if raised by the claimant or other party, the factual determination regarding the notice requirement in s. 766.316, F.S.[32]

If the ALJ determines that an injury meets the definition of a birth-related neurological injury, compensation from the Plan is the exclusive legal remedy.[33] If the ALJ determines that, the injury alleged is not a birth-related neurological injury or that a participating physician did not deliver the obstetrical services, the ALJ will enter an order to that effect.[34] The ALJ may also bifurcate the proceeding and address compensability and notice first, and address an award, if any, in a separate proceeding.[35] If any party chooses to appeal the ALJ's order under s. 766.309, F.S., the appeal must be filed in the District Court of Appeal.[36]

Notice Requirement

Section 766.316, F.S., requires any hospital with a participating physician on its staff and each participating physician under the Plan, to provide notice to an obstetrical patient as to the limited no-fault alternative for birth-related neurological injuries. The notice must:

- Be provided on forms furnished by the association; and
- Include a clear and concise explanation of a patient's rights and limitations under the plan.

This section of statute also provides that the notice does not need to be provided to a patient when the patient has an emergency medical condition or when notice is not practicable.

[30] Section 766.307(1), F.S.
[31] Section 766.301(1)(d), F.S.
[32] Section 766.309(1), F.S.
[33] Section 766.303(2), F.S., only allows a civil action in place of a claim under the plan where there is clear and convincing evidence of bad faith or malicious purpose or willful and wanton disregard of human rights, safety, or property.
[34] Section 766.309(2), F.S.
[35] Section 766.309(4), F.S.
[36] Section 766.311(1), F.S.

Auditor General

Article III, s. 2 of the State Constitution establishes the Office of the Auditor General. The Auditor General is appointed by a majority vote of the members of the Joint Legislative Auditing Committee, subject to confirmation by both houses of the Legislature, and serves at the Legislature's pleasure.[37] The Auditor General must conduct audits, examinations, or reviews of government programs as well as audit the accounts of state agencies, state universities, state colleges, district school boards, and others as directed by the Joint Legislative Auditing Committee.[38] The Auditor General conducts operational and performance audits on public records and information technology systems and reviews all audit reports of local governmental entities, charter schools, and charter technical career centers.[39]

A financial audit is an examination of financial statements to determine whether the financial statements conform to generally accepted accounting principles. Its purpose is also to determine whether operations are properly conducted in accordance with legal and regulatory requirements.[40] An operational audit is an audit whose purpose is to evaluate management's performance in establishing and maintaining internal controls, including controls designed to prevent and detect fraud, waste, and abuse, and in administering assigned responsibilities in accordance with applicable laws, administrative rules, contracts, grant agreements, and other guidelines.[41]

III. Effect of Proposed Changes:

Section 1 amends s. 766.301, F.S., to specify that the Florida Birth-Related Neurological Injury Compensation Plan (Plan) is not intended to serve as the payor of last resort for claims arising out of birth-related neurological injuries. This section also provides that it is not the intent of the Legislature to shield physicians who engage in willful misconduct, gross negligence, or recklessness or to preclude individuals from filing legitimate claims of medical malpractice against such physicians.

Section 2 amends s. 766.303, F.S., to require the Florida Birth-Related Neurological injury Compensation Association (NICA) to administer the Plan in a manner that promotes and protects the health and best interests of children with birth-related neurological injuries who have been accepted in the Plan. The NICA must strive to ensure all of their medical reasonable needs are being met.

Section 3 amends s. 766.305, F.S., to require the Division of Medical Quality Assurance of the Department of Health to conduct a review of claims in which the physician is involved in multiple claims to determine whether the physician's conduct establishes a pattern or practice subject to disciplinary action.

[37] Section 11.42(2), F.S.
[38] Sections 11.45(2)(d)-(f), F.S.
[39] Section 11.45(7)(b), F.S.
[40] Section 11.42(1)(d), F.S.
[41] Section 11.42(1)(i), F.S

Section 4 amends s. 766.31, F.S., to increase the limit for periodic payments or a lump-sum payment of an award from $100,000 to $250,000, beginning January 1, 2021. Each January 1 thereafter, the award limit is increased by three percent. This section provides parents or legal guardians who have received an award of $100,000 or less prior to January 1, 2021, and have a child currently in the Plan, will receive a supplemental payment to achieve a total payout of $250,000. The additional payment may be made in a lump sum or in periodic payments as designated by the parents or legal guardians. Section 4 also increases the death benefit from $10,000 to $50,000.

Once an administrative law judge (ALJ) determines a child is eligible under the Plan, additional Plan services under the bill include, at a minimum, compensation be provided for the following actual expenses:

- Diapers and baby formula for the infant from the time of birth and pureed baby food or other baby food for the infant at the appropriate age or developmental stage.
- An annual benefit of up to $5,000 for immediate family members residing with the infant for psychotherapeutic services.
- Transportation reimbursement for all necessary trips to the pharmacy each month for prescription fills.

Section 4 requires the Plan, within 20 days after the receipt of a request for payment of expenses, to:

- Pay the expenses;
- Notify the parents or legal guardians, or their designee, that specific additional information or documentation is needed to evaluate the request; or
- Notify the parents or legal guardians, or their designee, that the request for payment of expenses is denied.

Section 5 amends s. 766.313, F.S., to extend the time that birth-related neurological injury compensation claims must be filed from five years to eight years.

Section 6 creates s. 766.3135, F.S., to specify the NICA is responsible for reimbursement of actual expenses for medically necessary and reasonable services for a child under the Plan. The Plan is not intended to serve as a payor of last resort and the NICA may not hold itself out as such.

Section 6 provides the following Plan services:

- Requires the Plan to reimburse parents or legal guardians of Plan participants for any service, drug, equipment, or treatment at a reasonable rate if they submit a letter of medical necessity from a provider.
- Authorizes the Plan to establish an independent review process to determine whether the provider's determination of medical necessity was reasonable.
    - If the plan determines that the service, drug, equipment, or treatment was not medically necessary, the Plan may ask the parent or legal guardian to provide a second letter of medical necessity from another provider. If such letter is provided, the Plan may not take further action.

    - If a second letter is not provided, the Plan may debit the reimbursement from future reimbursements.
    - Authorizes the Plan to review and reimburse for experimental treatments using the same medical review process as above, and if a second letter is not provided, the Plan is not required to provide reimbursement.
- Allows reimbursement for the following expenses:
    - Medical, dental, and hospital care;
    - Habilitative services and training;
    - Mental health services;
    - Music or art therapy;
    - Family residential or custodial care;
    - Private nursing services or attendant care must be provided at a rate at least equal to the state or federal minimum wage, whichever is greater, and must be reimbursed at the same rate regardless of the setting in which the services or care is provided;
    - Medically necessary drugs, special equipment, and facilities;
    - Family support services, including mental health, for the immediate family members living with the child;
    - Travel related to the child's care;
    - Entertainment and other promotion of the child's mental and emotional well-being of at least $1,500 per year; and
    - Nutrition and hygiene needs of the child.
- Requires the Plan to provide transportation assistance for the life of the child. The Plan must provide a reliable method of transportation for the care of the child or reimburse the cost of upgrading an existing vehicle to accommodate the child's needs not to be limited based on the child's age or weight.
- Requires the Plan to provide ongoing housing assistance for the life of the child that includes, but is not limited to:
    - Payment assistance for rent and utilities to cover the cost of any increase due to the accommodation of the child's condition and medical needs;
    - Reimbursement of moving costs; and
    - Payment assistance for home construction up to $100,000.
- Requires the Plan to establish an online network portal for parents and legal guardians of children under the Plan to support one another and exchange information and resources. Access to the online network must be provided at no cost to parents and legal guardians.

Section 7 amends s. 766.314, F.S., beginning January 1, 2022, and annually thereafter, to increase the annual assessments to be paid to fund the Plan required from nonparticipating (currently $250), and participating physicians (currently $5,000) and hospitals (currently $50 per infant delivered in the hospital) by three percent.

Section 8 creates s. 766.3145, F.S., to establish a code of ethics for specified employees of the NICA and members of the board of directors. Specifically, on or before July 1 of each year, employees of the NICA must sign and submit a statement attesting that they do not have a conflict of interest. As a condition of employment, all prospective employees must sign and submit to the NICA a conflict of interest statement.

The executive director, the ombudsman, senior managers, and members of the board of directors are subject to part III of ch. 112, F.S., (Code of Ethics for Public Officers and Employees), including, but not limited to, the code of ethics and the public disclosure and reporting of financial interests requirements.

This section prohibits a board member from voting on any measure:

- That would inure to his or her special private gain or loss;
- That he or she knows would inure to the special private gain or loss of any principal, parent organization, subsidiary of a corporate principal, or by whom he or she is retained; or
- That he or she knows would inure to the special private gain or loss of a relative or business associate of the public officer.

Before the vote is taken, the board member must publicly state to the board the nature of his or her interest in the matter from which he or she is abstaining from voting. Within 15 days after the vote occurs, the board member is required to disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who must incorporate the memorandum in the minutes.

This section requires the executive director, senior managers, and board members to file disclosures with the Commission on Ethics and the Office of Insurance Regulation. At least quarterly, the executive director or his or her designee must submit to the Commission on Ethics a list of names of the members of the board of directors and senior managers subject to the public disclosure requirements.

The bill provides that an employee or board member may not knowingly accept, directly or indirectly, any gift or expenditure from a person or entity, or an employee or representative of such person or entity, which has a contractual relationship with the NICA or is under consideration for a contract. An employee or board member who fails to comply is subject to penalties provided in ss. 112.317 and 3173, F.S.

Lastly, this section prohibits a senior manager or executive director of the NICA who is employed on or after January 1, 2022, regardless of the date of hire, who subsequently retires or terminates employment from representing another person or entity before the NICA for two years after retirement or termination.

Section 9 amends s. 766.315, F.S., to increase the number of directors on the NICA's board from five to seven and requires that at least one member of the board is a woman. In addition, of the seven members, the Chief Financial Officer must appoint one parent or legal guardian representative of an injured infant under the Plan and one representative of an advocacy organization for children with disabilities. This section prohibits a participating physician who is named in a pending petition for a claim from being appointed to the board. Also, an appointed director who is a participating physician may not vote on any board matter relating to a claim accepted for an award for compensation if the physician was named in the petition for the claim.

This section requires the board of directors to employ an ombudsman who will serve at the pleasure of, and must report directly to, the board and who will act as an advocate for the parents and legal guardians of Plan participants. The ombudsman must be do the following:

- Provide information and assistance, outreach, and education to parents and legal guardians of plan participants regarding Plan benefits and community, state, and federal government resources.
- Investigate complaints of parents or legal guardians of Plan participants regarding the operation of the Plan.
- Provide an annual report to the board regarding the ombudsman's activities, the disposition of complaints, and any recommendations to improve the operations of the Plan and the delivery of benefits to participants.

Section 9 requires, on or before January 31, 2022, and annually thereafter, the NICA to submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The report must include:

- The number of petitions filed for compensation with the Division of Administrative Hearings (DOAH), the number of claimants awarded compensation, the number of claimants denied compensation, and the reasons for the denial of compensation.
- The number and dollar amount of paid and denied compensation for expenses by category and the reason for any denied compensation for expenses by category.
- The average turnaround time for paying or denying compensation for expenses.
- Legislative recommendations to improve the program.
- A summary of any pending or resolved litigation during the year which affects the plan.

For the initial report due on or before January 31, 2022, the bill requires an actuarial report conducted by an independent actuary that provides an analysis of the estimated costs of revising certain eligibility standards and benefits. Specifically, the actuarial report must include the analysis of implementing the following changes to the Plan:

- Reducing the minimum birth weight eligibility for a participant in the Plan from 2,500 grams to 2,000;
- Revising the eligibility of participation in the Plan by providing that an infant must be permanently and substantially mentally or physically impaired, rather than permanently and substantially mentally and physically impaired; and
- Increasing the annual special benefit or quality of life benefit from $500 to $2,500 per calendar year.

Section 10 requires the Auditor General, by January 15, 2022, to conduct a performance audit of the NICA and the Plan to evaluate management performance in administering the laws, policies, and procedures governing the operations of the NICA and the Plan in an efficient and effective manner. The audit must include evaluations of the following:

- Protocols used for the payment of expenses, including standards for determining medical necessity and reasonableness or requests for medical care, services, or other benefits provided under the Plan and the timeliness of the payment of expenses.
- Effectiveness of the NICA's outreach to inform parents and legal guardians of participants of available benefits and any changes in benefits and processes to resolve disputes regarding the payment of expenses internally.
- Efficacy of the current processes for the procurement of goods and services.
- Internal controls of the Plan and the NICA.

Section 11 provides that ss. 766.301 through 766.316, F.S., establishing the NICA and the Plan and related provisions will stand repealed on December 31, 2026, unless the Legislature reviews and reenacts the provisions by that date.

Section 1 provides that the amendments made to s. 766.31, F.S., by this act apply to claims filed under s. 766.305, F.S., on or after January 1, 2021.

Section 13 provides that the bill is effective July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

To the extent the bill authorizes the increase of the annual assessments required to fund the Florida Birth-Related Neurological Injury Compensation Plan and such annual assessments are considered a "state tax or fee," the requirements of Article VII, Section 19 of the Florida Constitution may apply. Under that section, a state tax or fee imposed, authorized, or raised must be contained in a separate bill that contains no other subject. A "fee" is defined by the Florida Constitution to mean "any charge or payment required by law, including any fee for service, fee or cost for licenses, and charge for service."[42]

E. Other Constitutional Issues:

Once a bill becomes law, it is presumed to apply only prospectively. The presumption against retroactive application may be rebutted by clear evidence of legislative intent.[43] To determine if the terms of a statute and the purpose of the enactment indicate retroactive application, a court may consider the language, structure, purpose, and legislative history of the enactment.[44]

If the legislation clearly expresses an intent that the law should apply retroactively, then the second inquiry is whether retroactive application is constitutionally permissible.[45]

Even when the Legislature has clearly expressed its intention that the statute be given a retroactive application, courts must refuse to do so if it impairs vested rights, creates new obligations, imposes new penalties,[46] or impairs an obligation of contract.[47] For example, ex post facto legislation, i.e., a law that expands criminal liability retroactively by either creating a new crime for past conduct or by increasing the penalty for past conduct, is forbidden by both the State Constitution and the United States Constitution. Statutes that do not alter vested rights, but relate only to remedies or procedure may be applied retroactively.[48]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Increasing the cash payment limit from $100,000 to $250,000 and authorizing reimbursement of expenses not currently allowed would assist parents and legal guardians in meeting significant medical expenses and other necessary services and care of children with birth-related neurological injuries.

C. Government Sector Impact:

NICA Report[49]

Florida Birth-Related Neurological Injury Compensation Association (NICA) engaged actuaries to evaluate the viability and likely impact of the proposed increase in parental award, which is authorized pursuant to s. 766.31(1)(b), F.S. The actuaries concluded that, if the payment were increased from $100,000 to $250,000, this would result in additional expected costs to the NICA of approximately $2.70 million for the 2020 birth year. However, the actuaries noted:

> [G]iven the current net assets of approximately $393.2 million[50] plus the recent better than expected inflation levels, it is not likely this increase will significantly impact the overall financial position in the short-term. Given the erosion resulting from the impact of inflation on the parental award coupled with the current NICA financial position, we would recommend the proposed change from $100,000 to $250,000.

---

[46] *Id*.
[47] *Menendez v. Progressive Exp. Ins. Co., Inc*., 35 So. 3d 873 (Fla. 2010).
[48] *Metropolitan Dade County v. Chase Federal Housing Corporation*, 737 So. 2d 494 (Fla. 1999).
[49] *Supra* note 15.
[50] Net assets were approximately $426.5 million on June 30, 2020. Florida Birth-Related Neurological Injury Compensation Association, Financial Statements for years ended June 30, 2020 and 2019, pg. 5, a*vailable at* https://www.nica.com/downloads/2020%20NICA%20Audited%20Financial%20Statements.pdf (last viewed Mar. 25, 2021).

The actuaries also noted that the NICA's financial position and the potential need for assessment level increases in the longer run would depend on actual investment results and inflation levels experienced over shorter term three to five year periods. The shortfall in assessments (i.e., without the additional investment income realized on the net assets and/or the better than expected inflation) and the indicated funding levels have in the past been offset by the better than expected realized the NICA investment returns and inflation rates. To the extent this favorable relationship continues, the actuaries contend that it is likely additional increases in assessment levels will not be required. Alternatively, the actuaries note that volatility in the prospective results or increases in benefit inflation levels may require assessment level increases at some point in the longer term.

Although the bill increases the cap or maximum amount of the one-time parental award from $100,000 to $250,000, the NICA's investment activities will likely absorb the increased costs estimated at $2.7 million per year and should not result in any significant impact for the NICA or increased assessments for hospitals or physicians.

Since the 2020 actuarial study did not appear to consider the impact of an increase in the death benefit for an infant from $10,000 to $50,000, as provided in the bill, the fiscal impact is indeterminate, but most likely insignificant.

Additional provisions in the bill provide significant changes in the benefits offered in the Florida Birth-Related Neurological Injury Compensation Plan (Plan), which have an indeterminate significant fiscal impact and were not considered in the 2020 actuarial study. To the extent benefits exceed the assessments collected, and the appropriation of funds provided by ch. 88-277, s. 41, Laws of Florida, to the Plan from the Insurance Regulatory Trust Fund are insufficient to maintain the Plan on an actuarially sound basis, under current law the Office of Insurance Regulation is authorized to transfer an additional amount up to $20 million to the NICA from the Insurance Regulatory Trust Fund reserve.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 766.301, 766.303, 766.305, 766.31, 766.313, 766.314, and 766.315.

This bill creates the following sections of the Florida Statutes: 766.3135 and 766.3145.

The bill creates undesignated sections of the Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The committee substitute:

- Provides that it is not the intent for Birth-Related Neurological Injury Compensation Association (NICA) to serve as payor of last resort and it is not the intent to shield physicians who engage in certain activities from filing legitimate claims of medical malpractice against such physicians.
- Requires the NICA to administer the Birth-Related Neurological Injury Compensation Plan (Plan) in a manner that promotes the health and best interest of the Plan participants.
- Extends the time for filing a claim from five years to eight years.
- Requires the Division of Medical Quality Assurance of the Department of Health to conduct a review of claims in which a physician is involved in multiple claims to determine whether the physician's conduct establishes a pattern or practice subject to disciplinary action.
- Requires the Plan to reimburse parents or legal guardian of Plan participants for any service, drug, equipment, or treatment at a reasonable rate if they submit a letter of medical necessity from a provider.
- If the Plan determines that the service, drug, equipment or treatment was not medically necessary, the Plan must ask the parent or legal guardian to provide a second letter of medical necessity from another provider.
- Authorizes the Plan to review and reimburse for experimental treatments using the same medical review process, and if a second letter is not provided, the Plan is not required to provide reimbursement.
- Requires the Plan to reimburse private nursing staff or attendant care at a rate of at least equal to the greater of state or federal minimum hourly wage, regardless of setting.
- Requires the Plan to provide family support services, including mental health, for the immediate family members living with the child.
- Requires the Plan to provide quality of life reimbursement for entertainment and other activities that promote mental health of at least $1,500 per year.
- Requires the Plan to provide transportation assistance for the care of the child or reimburse the cost of upgrading an existing vehicle to accommodate the child's needs.
- Requires the Plan to provide ongoing housing assistance for the child that includes, but is not limited to:
  - Payment assistance for rent and utilities to cover the cost of any increase due to the accommodation of the child's condition.
  - Reimbursement of moving costs.
  - Payment assistance for home construction up to $100,000.
- Requires the Plan to reimburse without any limitations expenses for diapers, baby food, and formula.

- Increases the annual assessment for hospitals, nonparticipating and participating physicians.
- Provides an annual benefit of $5,000 for parents and legal guardians of Plan participants for counseling.
- Provides reimbursement for transportation for all necessary trips for prescription refills.
- Creates code of ethics for specified staff and members of the board of directors.
- Increases board membership from five to seven members by adding a parent or legal guardian of a Plan participant and a representative of an advocacy organization for children with disabilities.
- Requires the NICA to submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The first annual report must include an actuarial analysis of the fiscal impacts of revising certain eligibility standards and benefits.
- Requires the Auditor General to conduct an audit of the NICA.
- Provides a sunset on December 31, 2026, of the NICA and the Plan, unless the Legislature reviews and reenacts the provisions by that date.

CS by Health Policy on March 24, 2021:
The CS increases the death benefit for an infant from $10,000 to $50,000. An ALJ must award this death benefit if he or she determines that the infant died due to a birth-related neurological injury and obstetrical services were delivered by a physician participating in the plan at the time of birth. Like the changes made in the underlying bill, the increased death benefit under the CS would apply to claims filed on or after January 1, 2021.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

	.	
	.	
	.	

The Committee on Appropriations (Burgess) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsections (1) and (2) of section 766.31, Florida Statutes, are amended to read:

766.31 Administrative law judge awards for birth-related neurological injuries; notice of award.—

(1) Upon determining that an infant has sustained a birth-related neurological injury and that obstetrical services were

754030

delivered by a participating physician at the birth, the administrative law judge shall make an award providing compensation for the following items relative to such injury:

(a) Actual expenses for medically necessary and reasonable medical and hospital, habilitative and training, family residential or custodial care, professional residential, and custodial care and service, for medically necessary drugs, special equipment, and facilities, and for related travel. Compensation must be provided for the following actual expenses, at a minimum:

1. Diapers and baby formula for the infant from the time of birth and pureed baby food or other baby food for the infant at the appropriate age or developmental stage.

2. A total annual benefit of up to $5,000 for parents or legal guardians of the infant for psychotherapeutic services obtained from providers licensed under chapter 490 or chapter 491.

3. Transportation reimbursement for all necessary trips to the pharmacy each month for prescription fills for the infant.

(b) However, the following expenses are not subject to compensation ~~such expenses shall not include~~:

1. Expenses for items or services that the infant has received, or is entitled to receive, under the laws of any state or the Federal Government, except to the extent such exclusion may be prohibited by federal law.

2. Expenses for items or services that the infant has received, or is contractually entitled to receive, from any prepaid health plan, health maintenance organization, or other private insuring entity.

754030

3. Expenses for which the infant has received reimbursement, or for which the infant is entitled to receive reimbursement, under the laws of any state or the Federal Government, except to the extent such exclusion may be prohibited by federal law.

4. Expenses for which the infant has received reimbursement, or for which the infant is contractually entitled to receive reimbursement, pursuant to the provisions of any health or sickness insurance policy or other private insurance program.

Expenses included under ~~this~~ paragraph (a) may not exceed ~~shall be limited to~~ reasonable charges prevailing in the same community for similar treatment of injured persons when such treatment is paid for by the injured person.

(c) ~~(b)~~1.a. Periodic payments of an award to the parents or legal guardians of the infant found to have sustained a birth-related neurological injury, which award may ~~shall~~ not exceed $100,000. However, at the discretion of the administrative law judge, such award may be made in a lump sum. Beginning on January 1, 2021, the award may not exceed $250,000, and each January 1 thereafter the maximum award authorized under this paragraph shall increase by 3 percent.

b. Parents or legal guardians who received an award pursuant to this section before January 1, 2021, and whose child currently receives benefits under the plan must receive a retroactive payment in an amount sufficient to bring the total award paid to the parents or legal guardians pursuant to sub-subparagraph a. to $250,000. This additional payment may be made

754030

in a lump sum or in periodic payments as designated by the parents or legal guardians.

2. Death benefit for the infant in an amount of $50,000 ~~$10,000~~.

(d) ~~(c)~~ Reasonable expenses incurred in connection with the filing of a claim under ss. 766.301-766.316, including reasonable attorney's fees, which are ~~shall be~~ subject to the approval and award of the administrative law judge. In determining an award for attorney's fees, the administrative law judge shall consider the following factors:

1. The time and labor required, the novelty and difficulty of the questions involved, and the skill requisite to perform the legal services properly.

2. The fee customarily charged in the locality for similar legal services.

3. The time limitations imposed by the claimant or the circumstances.

4. The nature and length of the professional relationship with the claimant.

5. The experience, reputation, and ability of the lawyer or lawyers performing services.

6. The contingency or certainty of a fee.

Should there be a final determination of compensability, and the claimants accept an award under this section, the claimants are ~~shall~~ not ~~be~~ liable for any expenses, including attorney's fees, incurred in connection with the filing of a claim under ss. 766.301-766.316 other than those expenses awarded under this section.

(2) The award shall require the immediate payment of expenses previously incurred and shall require that future expenses be paid as incurred.

(a) Within 20 days after the receipt of a request for payment of expenses, the plan must pay the expenses or notify the parents or legal guardians, or their designee, that specific additional information or documentation is needed to evaluate the request or that the request for payment of the expenses is being denied.

(b) Parents or legal guardians, or their designee, must submit any additional information or documentation requested by the plan within 35 days after receipt of the notification by the plan that additional information or documentation is needed. Additional information is considered submitted on the date it is mailed or electronically submitted to the plan.

(c) A request for payment of expenses must be paid or denied within 90 days after receipt of the request. Failure to pay or deny the claim within 120 days after receipt of the request creates an uncontestable obligation to pay the expenses.

Section 2. Section 766.3145, Florida Statutes, is created to read:

766.3145 Code of ethics.—

(1) On or before July 1 of each year, employees of the association must sign and submit a statement attesting that they do not have a conflict of interest as defined in part III of chapter 112. As a condition of employment, all prospective employees must sign and submit to the association a conflict-of-interest statement.

(2) The executive director, the ombudsman, senior managers,

and members of the board of directors are subject to part III of chapter 112, including, but not limited to, the code of ethics and the public disclosure and reporting of financial interests requirements of s. 112.3145. For purposes of applying part III of chapter 112 to activities of the executive director, senior managers, and members of the board of directors, those persons are considered public officers or employees and the association is considered their agency. Pursuant to s. 112.3143(2), a board member may not vote on any measure that would inure to his or her special private gain or loss; that he or she knows would inure to the special private gain or loss of any principal by whom he or she is retained or to the parent organization or subsidiary of a corporate principal by which he or she is retained, other than an agency as defined in s. 112.312; or that he or she knows would inure to the special private gain or loss of a relative or business associate of the public officer. Before the vote is taken, such member shall publicly state to the board the nature of his or her interest in the matter from which he or she is abstaining from voting and, within 15 days after the vote occurs, disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who shall incorporate the memorandum in the minutes. The executive director, senior managers, and board members are also required to file such disclosures with the Commission on Ethics and the Office of Insurance Regulation. The executive director of the association or his or her designee shall notify each existing and newly appointed member of the board of directors and senior managers of his or her duty to comply with the reporting

754030

requirements of part III of chapter 112. At least quarterly, the executive director or his or her designee shall submit to the Commission on Ethics a list of names of the members of the board of directors and senior managers who are subject to the public disclosure requirements under s. 112.3145.

(3) Notwithstanding s. 112.3148, s. 112.3149, or any other law, an employee or board member may not knowingly accept, directly or indirectly, any gift or expenditure from a person or entity, or an employee or representative of such person or entity, which has a contractual relationship with the association or which is under consideration for a contract.

(4) An employee or board member who fails to comply with subsection (2) or (3) is subject to penalties provided under ss. 112.317 and 112.3173.

(5) Any senior manager or executive director of the association who is employed on or after January 1, 2022, regardless of the date of hire, who subsequently retires or terminates employment is prohibited from representing another person or entity before the association for 2 years after retirement or termination of employment from the association.

Section 3. Paragraphs (a) and (c) of subsection (1), paragraph (a) of subsection (2), and paragraph (i) of subsection (4) of section 766.315, Florida Statutes, are amended, and subsection (6) is added to that section, to read:

766.315 Florida Birth-Related Neurological Injury Compensation Association; board of directors.—

(1)(a) The Florida Birth-Related Neurological Injury Compensation Plan shall be governed by a board of seven ~~five~~ directors which shall be known as the Florida Birth-Related

754030

Neurological Injury Compensation Association. The association is not a state agency, board, or commission. Notwithstanding ~~the provision of~~ s. 15.03, the association is authorized to use the state seal.

(c) The directors shall be appointed by the Chief Financial Officer as follows:

1. One citizen representative.

2. One representative of participating physicians.

3. One representative of hospitals.

4. One representative of casualty insurers.

5. One representative of physicians other than participating physicians.

6. One parent or legal guardian representative of an injured infant under the plan.

7. One representative of an advocacy organization for children with disabilities.

(2)(a) The Chief Financial Officer may select the representative of the participating physicians from a list of at least three names recommended by the American Congress of Obstetricians and Gynecologists, District XII; the representative of hospitals from a list of at least three names recommended by the Florida Hospital Association; the representative of casualty insurers from a list of at least three names, one of which is recommended by the American Insurance Association, one of which is recommended by the Florida Insurance Council, and one of which is recommended by the Property Casualty Insurers Association of America; and the representative of physicians, other than participating physicians, from a list of three names recommended by the

754030

Florida Medical Association and a list of three names recommended by the Florida Osteopathic Medical Association. However, the Chief Financial Officer is not required to make an appointment from among the nominees of the respective associations. A participating physician who is named in a pending petition for a claim may not be appointed to the board. An appointed director who is a participating physician may not vote on any board matter relating to a claim accepted for an award for compensation if the physician was named in the petition for the claim.

(4) The board of directors shall have the power to:

(i) Employ or retain such persons as are necessary to perform the administrative and financial transactions and responsibilities of the plan and to perform other necessary and proper functions not prohibited by law.

1. The board of directors shall employ an ombudsman who will serve at the pleasure of, and must report directly to, the board and who will act as an advocate for the parents and legal guardians of plan participants.

2. The ombudsman shall do all of the following:

a. Provide information and assistance, outreach, and education to parents and legal guardians of plan participants regarding plan benefits and community, state, and federal government resources.

b. Investigate complaints of parents or legal guardians of plan participants regarding the operation of the plan.

c. Provide an annual report to the board regarding the ombudsman’s activities, the disposition of complaints, and any recommendations to improve the operations of the plan and the

delivery of benefits to participants.

(6) On or before January 31, 2022, and by each January 31 thereafter, the association shall submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The report must include:

(a) The number of petitions filed for compensation with the division, the number of claimants awarded compensation, the number of claimants denied compensation, and the reasons for the denial of compensation.

(b) The number and dollar amount of paid and denied compensation for expenses by category and the reasons for any denied compensation for expenses by category.

(c) The average turnaround time for paying or denying compensation for expenses.

(d) Legislative recommendations to improve the program.

(e) A summary of any pending or resolved litigation during the year which affects the plan.

(f) For the initial report due on or before January 31, 2022, an actuarial report conducted by an independent actuary that provides an analysis of the estimated costs of implementing the following changes to the plan:

1. Reducing the minimum birth weight eligibility for a participant in the plan from 2,500 grams to 2,000 grams.

2. Revising the eligibility of participation in the plan by providing that an infant must be permanently and substantially mentally or physically impaired, rather than permanently and substantially mentally and physically impaired.

3. Increasing the annual special benefit or quality of life benefit from $500 to $2,500 per calendar year.

754030

Section 4. The Auditor General shall conduct a performance audit of the association and plan to evaluate management's performance in administering the laws, policies, and procedures governing the operations of the association and plan in an efficient and effective manner.

(1) The audit must include evaluations of all of the following:

(a) The protocols used for the payment of expenses, including standards for determining medical necessity and reasonableness of requests for medical care, services, or other benefits provided under the plan and the timeliness of the payment of expenses.

(b) The effectiveness of the association's outreach to inform parents and legal guardians of participants of available benefits and any changes in benefits and processes to resolve disputes regarding the payment of expenses internally.

(c) The efficacy of the current processes for the procurement of goods and services.

(d) The internal controls of the plan and association.

(2) The Auditor General shall release the audit by January 15, 2022.

Section 5. Sections 766.301-766.316, Florida Statutes, are repealed on December 31, 2026, unless reviewed and saved from repeal by the Legislature.

Section 6. The amendments made to s. 766.31(1)(c), Florida Statutes, by this act apply to all claims filed under s. 766.305, Florida Statutes, for which an award was made through entry of final order under s. 766.31(1), Florida Statutes, on or after January 1, 2021.

754030

Section 7. This act shall take effect July 1, 2021.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to the Florida Birth-Related Neurological Injury Compensation Plan; amending s. 766.31, F.S.; revising requirements for the award for compensation for claims under the plan; increasing the maximum amount that may be awarded to the parents or legal guardians of an infant found to have sustained a birth-related neurological injury, as of a specified date; requiring that the maximum award amount be increased by a certain percentage annually; requiring the plan to provide retroactive payments in a specified amount to certain parents or legal guardians; authorizing such payment to made in lump sum or periodic payments; increasing the amount of the death benefit that must be awarded; requiring the plan to act on a request for payment of expenses within a specified timeframe; requiring parents or legal guardians, or their designee, to submit any additional information or documentation requested by the plan within a specified timeframe; requiring the plan to pay or deny a request within a specified timeframe; providing that failure to pay or deny the claim within a specified timeframe results in an uncontestable

obligation to pay the claim; creating s. 766.3145, F.S.; requiring association employees to annually sign and submit a conflict-of-interest statement as a condition of employment; requiring prospective employees to sign and submit such statement as a condition of employment; providing that the executive director, the ombudsman, senior managers, and the board of directors are subject to specified provisions; prohibiting board members from voting on measures under certain circumstances; providing procedures and requirements for board members who have a conflict of interest; requiring the executive director, senior managers, and board members to file certain disclosures; requiring the executive director or his or her designee to notify specified individuals of the reporting requirements; requiring the executive director or his or her designee to submit, at least quarterly, a list of specified individuals to the Commission on Ethics; prohibiting employees and board members from accepting gifts or expenditures from certain individuals; providing penalties; prohibiting certain senior managers and executive directors from representing persons or entities before the association for a specified timeframe; amending s. 766.315, F.S.; revising membership of the plan's board of directors; requiring the board of directors to employ an ombudsman for a specified purpose; providing duties of the ombudsman; requiring the association to submit an annual report to the Governor and the

754030

Legislature by a specified date; providing requirements for the report; requiring the first report to include a certain actuarial report; providing requirements for the actuarial report; requiring the Auditor General to conduct a performance audit of the association and plan; providing requirements for the audit; requiring the Auditor General to release the audit by a specified date; providing for future repeal; providing applicability; providing an effective date.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/20/2021	.	
	.	
	.	
	.	

The Committee on Appropriations (Book) recommended the following:

Senate Amendment to Amendment (754030) (with title amendment)

Delete lines 5 - 190
and insert:
Section 1. Subsection (2) of section 766.301, Florida Statutes, is amended to read:
766.301 Legislative findings and intent.—
(2) It is the intent of the Legislature to provide compensation, on a no-fault basis, for a limited class of

catastrophic injuries that result in unusually high costs for custodial care and rehabilitation. This plan shall apply only to birth-related neurological injuries and is not intended to serve as the payor of last resort for claims arising out of such injuries. It is not the intent of the Legislature to shield physicians who engage in willful misconduct, gross negligence, or recklessness or to preclude individuals from filing legitimate claims of medical malpractice against such physicians.

Section 2. Subsection (4) is added to section 766.303, Florida Statutes, to read:

766.303 Florida Birth-Related Neurological Injury Compensation Plan; exclusiveness of remedy.—

(4) The Florida Birth-Related Neurological Injury Compensation Association shall administer the plan in a manner that promotes and protects the health and best interests of children with birth-related neurological injuries who have been accepted into the plan, and the association shall strive to ensure that all of their medically reasonable needs are being met.

Section 3. Subsection (5) of section 766.305, Florida Statutes, is amended to read:

766.305 Filing of claims and responses; medical disciplinary review.—

(5) Upon receipt of such petition, the Division of Medical Quality Assurance shall review the information therein and determine whether it involved conduct by a physician licensed under chapter 458 or an osteopathic physician licensed under chapter 459 which ~~that~~ is subject to disciplinary action. If a

physician is involved in more than one filed claim, the division also must review the circumstances of all such claims together to determine whether the physician's conduct establishes a pattern of practice subject to disciplinary action. Section 456.073 applies in such cases~~, in which case the provisions of s. 456.073 shall apply~~.

Section 4. Section 766.313, Florida Statutes, is amended to read:

766.313 Limitation on claim.—Any claim for compensation under ss. 766.301-766.316 which ~~that~~ is filed more than 8 ~~5~~ years after the birth of an infant alleged to have a birth-related neurological injury is ~~shall be~~ barred.

Section 5. Section 766.3135, Florida Statutes, is created to read:

766.3135 Plan services.—

(1) Pursuant to an award under s. 766.31(1), the association is responsible for reimbursement of actual expenses for medically necessary and reasonable services for a child under the plan. The plan is not intended to serve as the payor of last resort and the association may not hold itself out as such.

(a) The association must reimburse the parents or legal guardians of a child under the plan for any service, drug, equipment, or treatment at a reasonable rate if they submit a letter of medical necessity from the child's physician or other treating health care provider for such service, drug, equipment, or treatment.

(b) The association may establish an independent review process that uses medical experts to review such requests after

140544

reimbursement to determine whether the physician's or health care provider's determination of medical necessity was reasonable. If the review finds that such determination was not reasonable, the association may ask the parents or legal guardians to provide a letter of medical necessity from a second health care provider. If such letter is provided, the association may not take further action. If the parents or legal guardians are unable to provide a second letter, the association may debit the reimbursement from future reimbursements.

(c) For experimental treatments, therapies, or programs, the parents or legal guardians of the child must submit a report of medical necessity from the physician or other health care provider which details the medical necessity for the experimental treatment, therapy, or program and provides proof that it has shown objective, observable, and demonstrable medical benefits to other patients similarly situated to the child under the plan. The association may use its review process established under paragraph (b) to conclude whether the report reasonably supports the determination of medical necessity. If the review finds that such determination is not reasonable, the association may require the parents or legal guardians to provide a second report from a different health care provider. If such report is provided, the association must reimburse the parents or legal guardians for the experimental treatment, therapy, or program, as applicable. If the parents or legal guardians are unable to provide a second report, the association is not required to provide reimbursement.

(2) Parents or legal guardians of a child under the plan are eligible for reimbursement of expenses for any of the

140544

following, at a minimum:

(a) Medical, dental, and hospital care; habilitative services and training; mental health services; music or art therapy; family residential or custodial care; and professional residential and custodial care and services. Reimbursement for private nursing staff or attendant care under this paragraph must be provided at a rate at least equal to the state or federal minimum wage, whichever is greater, and must be reimbursed at the same rate regardless of the setting in which the care is provided.

(b) Medically necessary drugs, special equipment, and facilities.

(c) Family support services for immediate family members living with the child, including, but not limited to, mental health services.

(d) Travel expenses related to the child's care. The association may not limit the amount or type of travel which may be reimbursed or differentiate reimbursement rates based on the purpose of such travel, provided that it is related to the child's care.

(e) Entertainment and other promotion of the child's mental and emotional well-being. The parents or legal guardians of the child are entitled to a reimbursement of at least $1,500 per year under this paragraph.

(f) Nutrition and hygiene needs of the child. The association may not limit reimbursement for diapers, baby food, or formula if such items are appropriate for the child's age or developmental stage.

(3) The association is also responsible for the following:

(a) Providing ongoing transportation assistance for the life of the child. The association must provide parents or legal guardians with a reliable method of transportation for the care of the child or reimburse the cost of upgrading an existing vehicle to accommodate the child's needs. The mode of transportation must take into account the special accommodations required for the specific child. The association may not limit such transportation assistance based on the child's age or weight.

(b) Providing ongoing housing assistance for the life of the child. Such assistance includes, but is not limited to:

1. Payment assistance for rent and utilities to cover the cost of any increase due to the accommodation of the child's condition and medical needs.

2. Reimbursement of moving costs.

3. Payment assistance for home construction costs up to $100,000.

(c) Establishing an online network portal for parents and legal guardians of children under the plan to support one another and exchange information and resources. Access to the online network must be provided at no cost to parents and legal guardians.

Section 6. Paragraph (a) of subsection (5) of section 766.314, Florida Statutes, is amended to read:

766.314 Assessments; plan of operation.—

(5)(a) Beginning January 1, 1990, the persons and entities listed in paragraphs (4)(b) and (c), except those persons or entities who are specifically excluded from said provisions, as of the date determined in accordance with the plan of operation,

taking into account persons licensed subsequent to the payment of the initial assessment, shall pay an annual assessment in the amount equal to the initial assessments provided in paragraphs (4)(b) and (c). If payment of the annual assessment by a physician is received by the association by January 31 of any calendar year, the physician shall qualify as a participating physician for that entire calendar year. If the payment is received after January 31 of any calendar year, the physician shall qualify as a participating physician for that calendar year only from the date the payment was received by the association. Beginning on January 1, 2022, and on each January 1 thereafter, the annual assessment shall increase by 3 percent. On January 1, 1991, and on each January 1 thereafter, the association shall determine the amount of additional assessments necessary pursuant to subsection (7), in the manner required by the plan of operation, subject to any increase determined to be necessary by the Office of Insurance Regulation pursuant to paragraph (7)(b). On July 1, 1991, and on each July 1 thereafter, the persons and entities listed in paragraphs (4)(b) and (c), except those persons or entities who are specifically excluded from said provisions, shall pay the additional assessments which were determined on January 1. Beginning January 1, 1990, the entities listed in paragraph (4)(a), including those licensed on or after October 1, 1988, shall pay an annual assessment of $50 per infant delivered during the prior calendar year. The additional assessments which were determined on January 1, 1991, pursuant to ~~the provisions of~~ subsection (7) are ~~shall~~ not ~~be~~ due and payable by the entities listed in paragraph (4)(a) until July 1.

140544

Section 7. Subsections (1) and (2) of section 766.31, Florida Statutes, are amended to read:

766.31 Administrative law judge awards for birth-related neurological injuries; notice of award.—

(1) Upon determining that an infant has sustained a birth-related neurological injury and that obstetrical services were delivered by a participating physician at the birth, the administrative law judge shall make an award providing compensation for the following items relative to such injury:

(a) Actual expenses for medically necessary and reasonable medical and hospital, habilitative and training, family residential or custodial care, professional residential, and custodial care and service, for medically necessary drugs, special equipment, and facilities, and for related travel. At a minimum, compensation must be provided for the following actual expenses:

1. Diapers and baby formula for the infant from the time of birth and pureed baby food or other baby food for the infant at the appropriate age or developmental stage.

2. A total annual benefit of up to $5,000 for immediate family members who reside with the infant for psychotherapeutic services obtained from providers licensed under chapter 490 or chapter 491.

3. Transportation reimbursement for all necessary trips to the pharmacy each month for prescription fills for the infant.

(b) However, the following expenses are not subject to compensation ~~such expenses shall not include~~:

1. Expenses for items or services that the infant has received, or is entitled to receive, under the laws of any state

or the Federal Government, except to the extent such exclusion may be prohibited by federal law.

2. Expenses for items or services that the infant has received, or is contractually entitled to receive, from any prepaid health plan, health maintenance organization, or other private insuring entity.

3. Expenses for which the infant has received reimbursement, or for which the infant is entitled to receive reimbursement, under the laws of any state or the Federal Government, except to the extent such exclusion may be prohibited by federal law.

4. Expenses for which the infant has received reimbursement, or for which the infant is contractually entitled to receive reimbursement, pursuant to the provisions of any health or sickness insurance policy or other private insurance program.

(c) Expenses included under ~~this~~ paragraph (a) may not exceed ~~shall be limited to~~ reasonable charges prevailing in the same community for similar treatment of injured persons when such treatment is paid for by the injured person.

(d)1.a.~~(b)1.~~ Periodic payments of an award to the parents or legal guardians of the infant found to have sustained a birth-related neurological injury, which award may ~~shall~~ not exceed $100,000. However, at the discretion of the administrative law judge, such award may be made in a lump sum. Beginning on January 1, 2021, the award may not exceed $250,000, and each January 1 thereafter the maximum award authorized under this paragraph shall increase by 3 percent.

b. Parents or legal guardians who received an award

140544

pursuant to this section before January 1, 2021, and whose child currently receives benefits under the plan must receive a retroactive payment in an amount sufficient to bring the total award paid to the parents or legal guardians pursuant to sub-subparagraph a. to $250,000. This additional payment may be made in a lump sum or in periodic payments as designated by the parents or legal guardians.

2. Death benefit for the infant in an amount of $50,000 ~~$10,000~~.

(e) ~~(c)~~ Reasonable expenses incurred in connection with the filing of a claim under ss. 766.301-766.316, including reasonable attorney ~~attorney's~~ fees, which are ~~shall be~~ subject to the approval and award of the administrative law judge. In determining an award for attorney's fees, the administrative law judge shall consider the following factors:

1. The time and labor required, the novelty and difficulty of the questions involved, and the skill requisite to perform the legal services properly.

2. The fee customarily charged in the locality for similar legal services.

3. The time limitations imposed by the claimant or the circumstances.

4. The nature and length of the professional relationship with the claimant.

5. The experience, reputation, and ability of the lawyer or lawyers performing services.

6. The contingency or certainty of a fee.

Should there be a final determination of compensability, and the

claimants accept an award under this section, the claimants are ~~shall~~ not ~~be~~ liable for any expenses, including attorney ~~attorney's~~ fees, incurred in connection with the filing of a claim under ss. 766.301-766.316 other than those expenses awarded under this section.

(2) The award shall require the immediate payment of expenses previously incurred and shall require that future expenses be paid as incurred.

(a) Within 20 days after the receipt of a request for payment of expenses, the plan must pay the expenses or notify the parents or legal guardians, or their designee, that specific additional information or documentation is needed to evaluate the request or that the request for payment of the expenses is being denied.

(b) Parents or legal guardians, or their designee, must submit any additional information or documentation requested by the plan within 35 days after receipt of the notification by the plan that additional information or documentation is needed. Additional information is considered submitted on the date it is mailed or electronically submitted to the plan.

(c) A request for payment of expenses must be paid or denied within 90 days after receipt of the request. Failure to pay or deny the claim within 120 days after receipt of the request creates an uncontestable obligation to pay the expenses.

Section 8. Section 766.3145, Florida Statutes, is created to read:

766.3145 Code of ethics.—

(1) On or before July 1 of each year, employees of the association must sign and submit a statement attesting that they

do not have a conflict of interest as defined in part III of chapter 112. As a condition of employment, all prospective employees must sign and submit to the association a conflict-of-interest statement.

(2) The executive director, the ombudsman, senior managers, and members of the board of directors are subject to part III of chapter 112, including, but not limited to, the code of ethics and the public disclosure and reporting of financial interests requirements of s. 112.3145. For purposes of applying part III of chapter 112 to activities of the executive director, senior managers, and members of the board of directors, those persons are considered public officers or employees and the association is considered their agency. A board member may not vote on any measure that would inure to his or her special private gain or loss and, notwithstanding s. 112.3143(2), may not vote on any measure that he or she knows would inure to the special private gain or loss of any principal by whom he or she is retained or to the parent organization or subsidiary of a corporate principal by which he or she is retained, other than an agency as defined in s. 112.312; or that he or she knows would inure to the special private gain or loss of a relative or business associate of the public officer. Before the vote is taken, such member shall publicly state to the board the nature of his or her interest in the matter from which he or she is abstaining from voting and, within 15 days after the vote occurs, disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who shall incorporate the memorandum in the minutes. The executive director, senior managers, and board

members are also required to file such disclosures with the Commission on Ethics and the Office of Insurance Regulation. The executive director of the association or his or her designee shall notify each existing and newly appointed member of the board of directors and senior managers of his or her duty to comply with the reporting requirements of part III of chapter 112. At least quarterly, the executive director or his or her designee shall submit to the Commission on Ethics a list of names of the members of the board of directors and senior managers who are subject to the public disclosure requirements under s. 112.3145.

(3) Notwithstanding s. 112.3148, s. 112.3149, or any other law, an employee or board member may not knowingly accept, directly or indirectly, any gift or expenditure from a person or entity, or an employee or representative of such person or entity, which has a contractual relationship with the association or which is under consideration for a contract.

(4) An employee or board member who fails to comply with subsection (2) or subsection (3) is subject to penalties provided under ss. 112.317 and 112.3173.

(5) Any senior manager or executive director of the association who is employed on or after January 1, 2022, regardless of the date of hire, who subsequently retires or terminates employment is prohibited from representing another person or entity before the association for 2 years after retirement or termination of employment from the association.

Section 9. Paragraphs (a) and (c) of subsection (1), paragraph (a) of subsection (2), and paragraph (i) of subsection (4) of section 766.315, Florida Statutes, are amended, and

140544

subsection (6) is added to that section, to read:

766.315 Florida Birth-Related Neurological Injury Compensation Association; board of directors.—

(1)(a) The Florida Birth-Related Neurological Injury Compensation Plan shall be governed by a board of seven ~~five~~ directors which shall be known as the Florida Birth-Related Neurological Injury Compensation Association. The association is not a state agency, board, or commission. Notwithstanding ~~the provision of~~ s. 15.03, the association is authorized to use the state seal.

(c) The Chief Financial Officer shall appoint the directors, ensuring that at least one board member is a woman, ~~shall be appointed by the Chief Financial Officer~~ as follows:

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Between lines 309 and 310

(3) The award must require the association to conduct a periodic review of benefits provided to claimants to ensure that they are receiving the greatest benefit amount for which they are eligible.

(4) The award must require the reimbursement of expenses for private nursing staff or attendant care to be provided at a rate at least equal to the state or federal minimum wage, whichever is greater.

Section 2. Section 766.3145, Florida Statutes, is created to read:

766.3145 Code of ethics.—

(1) On or before July 1 of each year, employees of the association must sign and submit a statement attesting that they do not have a conflict of interest as defined in part III of chapter 112. As a condition of employment, all prospective employees must sign and submit to the association a conflict-of-interest statement.

(2) The executive director, the ombudsman, senior managers, and members of the board of directors are subject to part III of chapter 112, including, but not limited to, the code of ethics and the public disclosure and reporting of financial interests requirements of s. 112.3145. For purposes of applying part III of chapter 112 to activities of the executive director, senior managers, and members of the board of directors, those persons are considered public officers or employees and the association is considered their agency. Pursuant to s. 112.3143(2), a board member may not vote on any measure that would inure to his or her special private gain or loss; that he or she knows would inure to the special private gain or loss of any principal by

790104

whom he or she is retained or to the parent organization or subsidiary of a corporate principal by which he or she is retained, other than an agency as defined in s. 112.312; or that he or she knows would inure to the special private gain or loss of a relative or business associate of the public officer. Before the vote is taken, such member shall publicly state to the board the nature of his or her interest in the matter from which he or she is abstaining from voting and, within 15 days after the vote occurs, disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who shall incorporate the memorandum in the minutes. The executive director, senior managers, and board members are also required to file such disclosures with the Commission on Ethics and the Office of Insurance Regulation. The executive director of the association or his or her designee shall notify each existing and newly appointed member of the board of directors and senior managers of his or her duty to comply with the reporting requirements of part III of chapter 112. At least quarterly, the executive director or his or her designee shall submit to the Commission on Ethics a list of names of the members of the board of directors and senior managers who are subject to the public disclosure requirements under s. 112.3145.

(3) Notwithstanding s. 112.3148, s. 112.3149, or any other law, an employee or board member may not knowingly accept, directly or indirectly, any gift or expenditure from a person or entity, or an employee or representative of such person or entity, which has a contractual relationship with the association or which is under consideration for a contract.

(4) An employee or board member who fails to comply with subsection (2) or (3) is subject to penalties provided under ss. 112.317 and 112.3173.

(5) Any senior manager or executive director of the association who is employed on or after January 1, 2022, regardless of the date of hire, who subsequently retires or terminates employment is prohibited from representing another person or entity before the association for 2 years after retirement or termination of employment from the association.

Section 3. Paragraphs (a) and (c) of subsection (1), subsection (2), paragraph (i) of subsection (4), and paragraph (b) of subsection (5) of section 766.315, Florida Statutes, are amended, and subsection (6) is added to that section, to read:

766.315 Florida Birth-Related Neurological Injury Compensation Association; board of directors.—

(1)(a) The Florida Birth-Related Neurological Injury Compensation Plan shall be governed by a board of nine ~~five~~ directors which shall be known as the Florida Birth-Related Neurological Injury Compensation Association. The association is not a state agency, board, or commission. Notwithstanding ~~the provision of~~ s. 15.03, the association is authorized to use the state seal.

(c) The President of the Senate and the Speaker of the House of Representatives, alternating appointments as vacancies occur, shall appoint the directors, ensuring that the board represents the gender diversity of this state, ~~shall be appointed by the~~ ~~Chief Financial Officer~~ as follows:

1. One citizen representative.

2. One representative of participating physicians.

790104

3. One representative of hospitals.

4. One representative of casualty insurers.

5. One representative of physicians other than participating physicians.

6. One parent or legal guardian representative of an injured infant under the plan.

7. One representative of an advocacy organization for children with disabilities.

8. One representative who is a financial management expert with a fiduciary duty to clients.

9. One member in good standing of The Florida Bar who is not affiliated with any of the groups identified in subparagraphs 2.-8. and who has experience representing cases on behalf of children who have been injured in a health care setting. This director must not have represented anyone in legal matters against the association within the 2-year period immediately preceding appointment to the board and may not handle any legal matters against the association while serving as a director or within 2 years after leaving the board.

(2)(a) The President of the Senate or the Speaker of the House of Representatives, as applicable, ~~Chief Financial Officer~~ may select the representative of the participating physicians from a list of at least three names recommended by the American Congress of Obstetricians and Gynecologists, District XII; the representative of hospitals from a list of at least three names recommended by the Florida Hospital Association; the representative of casualty insurers from a list of at least three names, one of which is recommended by the American Insurance Association, one of which is recommended by the

Florida Insurance Council, and one of which is recommended by the Property Casualty Insurers Association of America; ~~and~~ the representative of physicians, other than participating physicians, from a list of three names recommended by the Florida Medical Association and a list of three names recommended by the Florida Osteopathic Medical Association; the parent or guardian of a child from a list of three names recommended by the Governor; the financial management expert from a list of three names recommended by the Governor; and the member of The Florida Bar from a list of three names recommended by the President of The Florida Bar. However, the President of the Senate or the Speaker of the House of Representatives, as applicable, ~~Chief Financial Officer~~ is not required to make an appointment from among the nominees of the respective associations. A participating physician who is named in a pending petition for a claim may not be appointed to the board. An appointed director who is a participating physician may not vote on any board matter relating to a claim accepted for an award for compensation if the physician was named in the petition for the claim.

(b) The President of the Senate or the Speaker of the House of Representatives, as applicable, ~~Chief Financial Officer~~ shall promptly notify the appropriate ~~medical~~ association or person identified in paragraph (a) who makes recommendations upon the occurrence of any vacancy, and like nominations may be made for the filling of the vacancy.

(c) The Governor, the President of the Senate, or the Speaker of the House of Representatives may remove a director from office for misconduct, malfeasance, misfeasance, or neglect

790104

of duty in office. Any vacancy so created shall be filled as provided in paragraph (a).

(4) The board of directors shall have the power to:

(i) Employ or retain such persons as are necessary to perform the administrative and financial transactions and responsibilities of the plan and to perform other necessary and proper functions not prohibited by law.

1. The board of directors shall employ an ombudsman who will serve at the pleasure of, and must report directly to, the board and who will act as an advocate for the parents and legal guardians of plan participants.

2. The ombudsman shall do all of the following:

a. Provide information and assistance, outreach, and education to parents and legal guardians of plan participants regarding plan benefits and community, state, and federal government resources.

b. Investigate complaints of parents or legal guardians of plan participants regarding the operation of the plan.

c. Provide an annual report to the board regarding the ombudsman’s activities, the disposition of complaints, and any recommendations to improve the operations of the plan and the delivery of benefits to participants.

(5)

(b) All meetings of the board of directors are subject to the requirements of s. 286.011, and all books, records, and audits of the plan are open to the public for reasonable inspection ~~to the general public~~, except that a claim file in the possession of the association or its representative is confidential and exempt from the provisions of s. 119.07(1) and

790104

s. 24(a), Art. I of the State Constitution until termination of litigation or settlement of the claim, although medical records and other portions of the claim file may remain confidential and exempt as otherwise provided by law. Any book, record, document, audit, or asset acquired by, prepared for, or paid for by the association is subject to the authority of the board of directors, which is responsible therefor.

(6) On or before January 31, 2022, and by each January 31 thereafter, the association shall submit an annual report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The report must include:

(a) The number of petitions filed for compensation with the division, the number of claimants awarded compensation, the number of claimants denied compensation, and the reasons for the denial of compensation.

(b) The number and dollar amount of paid and denied compensation for expenses by category and the reasons for any denied compensation for expenses by category.

(c) The average turnaround time for paying or denying compensation for expenses.

(d) Legislative recommendations to improve the program.

(e) A summary of any pending or resolved litigation during the year which affects the plan.

(f) For the initial report due on or before January 31, 2022, an actuarial report conducted by an independent actuary that provides an analysis of the estimated costs of implementing the following changes to the plan:

1. Reducing the minimum birth weight eligibility for a participant in the plan from 2,500 grams to 2,000 grams.

790104

2. Revising the eligibility of participation in the plan by providing that an infant must be permanently and substantially mentally or physically impaired, rather than permanently and substantially mentally and physically impaired.

3. Increasing the annual special benefit or quality of life benefit from $500 to $2,500 per calendar year.

Section 4. The Auditor General shall conduct an annual performance audit of the association and plan to evaluate management's performance in administering the laws, policies, and procedures governing the operations of the association and plan in an efficient and effective manner.

(1) The audit must include evaluations of all of the following:

(a) The protocols used for the payment of expenses, including standards for determining medical necessity and reasonableness of requests for medical care, services, or other benefits provided under the plan and the timeliness of the payment of expenses.

(b) The effectiveness of the association's outreach to inform parents and legal guardians of participants of available benefits and any changes in benefits and processes to resolve disputes regarding the payment of expenses internally.

(c) The efficacy of the current processes for the procurement of goods and services.

(d) The internal controls of the plan and association.

(2) The Auditor General shall release the audit and publish it on its website by January 15 of each year, beginning on January 15, 2022.

(3) The award must require the association to conduct a periodic review of benefits provided to claimants to ensure that they are receiving the greatest benefit amount for which they are eligible.

Section 2. Section 766.3145, Florida Statutes, is created to read:

766.3145 Code of ethics.—

(1) On or before July 1 of each year, employees of the association must sign and submit a statement attesting that they do not have a conflict of interest as defined in part III of chapter 112. As a condition of employment, all prospective employees must sign and submit to the association a conflict-of-interest statement.

(2) The executive director, the ombudsman, senior managers, and members of the board of directors are subject to part III of chapter 112, including, but not limited to, the code of ethics and the public disclosure and reporting of financial interests requirements of s. 112.3145. For purposes of applying part III of chapter 112 to activities of the executive director, senior managers, and members of the board of directors, those persons are considered public officers or employees and the association is considered their agency. Pursuant to s. 112.3143(2), a board member may not vote on any measure that would inure to his or her special private gain or loss; that he or she knows would inure to the special private gain or loss of any principal by whom he or she is retained or to the parent organization or subsidiary of a corporate principal by which he or she is retained, other than an agency as defined in s. 112.312; or that he or she knows would inure to the special private gain or loss

601382

of a relative or business associate of the public officer. Before the vote is taken, such member shall publicly state to the board the nature of his or her interest in the matter from which he or she is abstaining from voting and, within 15 days after the vote occurs, disclose the nature of his or her interest as a public record in a memorandum filed with the person responsible for recording the minutes of the meeting, who shall incorporate the memorandum in the minutes. The executive director, senior managers, and board members are also required to file such disclosures with the Commission on Ethics and the Office of Insurance Regulation. The executive director of the association or his or her designee shall notify each existing and newly appointed member of the board of directors and senior managers of his or her duty to comply with the reporting requirements of part III of chapter 112. At least quarterly, the executive director or his or her designee shall submit to the Commission on Ethics a list of names of the members of the board of directors and senior managers who are subject to the public disclosure requirements under s. 112.3145.

(3) Notwithstanding s. 112.3148, s. 112.3149, or any other law, an employee or board member may not knowingly accept, directly or indirectly, any gift or expenditure from a person or entity, or an employee or representative of such person or entity, which has a contractual relationship with the association or which is under consideration for a contract.

(4) An employee or board member who fails to comply with subsection (2) or (3) is subject to penalties provided under ss. 112.317 and 112.3173.

(5) Any senior manager or executive director of the

601382

association who is employed on or after January 1, 2022, regardless of the date of hire, who subsequently retires or terminates employment is prohibited from representing another person or entity before the association for 2 years after retirement or termination of employment from the association.

Section 3. Paragraphs (a) and (c) of subsection (1), subsection (2), paragraph (i) of subsection (4), and paragraph (b) of subsection (5) of section 766.315, Florida Statutes, are amended, and subsection (6) is added to that section, to read:

766.315 Florida Birth-Related Neurological Injury Compensation Association; board of directors.—

(1)(a) The Florida Birth-Related Neurological Injury Compensation Plan shall be governed by a board of nine ~~five~~ directors which shall be known as the Florida Birth-Related Neurological Injury Compensation Association. The association is not a state agency, board, or commission. Notwithstanding ~~the provision of~~ s. 15.03, the association is authorized to use the state seal.

(c) The directors shall be appointed by the Chief Financial Officer, ensuring that the board represents the gender diversity of this state, as follows:

1. One citizen representative.

2. One representative of participating physicians.

3. One representative of hospitals.

4. One representative of casualty insurers.

5. One representative of physicians other than participating physicians.

6. One parent or legal guardian representative of an injured infant under the plan.

601382

7. One representative of an advocacy organization for children with disabilities.

8. One representative who is a financial management expert with a fiduciary duty to clients.

9. One member in good standing of The Florida Bar who is not affiliated with any of the groups identified in subparagraphs 2.-8. and who has experience representing cases on behalf of children who have been injured in a health care setting. This director must not have represented anyone in legal matters against the association within the 2-year period immediately preceding appointment to the board and may not handle any legal matters against the association while serving as a director or within 2 years after leaving the board.

(2)(a) The Chief Financial Officer may select the representative of the participating physicians from a list of at least three names recommended by the American Congress of Obstetricians and Gynecologists, District XII; the representative of hospitals from a list of at least three names recommended by the Florida Hospital Association; the representative of casualty insurers from a list of at least three names, one of which is recommended by the American Insurance Association, one of which is recommended by the Florida Insurance Council, and one of which is recommended by the Property Casualty Insurers Association of America; ~~and~~ the representative of physicians, other than participating physicians, from a list of three names recommended by the Florida Medical Association and a list of three names recommended by the Florida Osteopathic Medical Association; the parent or guardian of a child from a list of three names

recommended by the Governor; the financial management expert from a list of three names recommended by the Governor; and the member of The Florida Bar from a list of three names recommended by the President of The Florida Bar. However, the Chief Financial Officer is not required to make an appointment from among the nominees of the respective associations. A participating physician who is named in a pending petition for a claim may not be appointed to the board. An appointed director who is a participating physician may not vote on any board matter relating to a claim accepted for an award for compensation if the physician was named in the petition for the claim.

(b) The Chief Financial Officer shall promptly notify the appropriate ~~medical~~ association or person identified in paragraph (a) who makes recommendations upon the occurrence of any vacancy, and like nominations may be made for the filling of the vacancy.

(c) The Governor, the President of the Senate, the Speaker of the House of Representatives, or the Chief Financial Officer may remove a director from office for misconduct, malfeasance, misfeasance, or neglect of duty in office. Any vacancy so created shall be filled as provided in paragraph (a).

(4) The board of directors shall have the power to:

(i) Employ or retain such persons as are necessary to perform the administrative and financial transactions and responsibilities of the plan and to perform other necessary and proper functions not prohibited by law.

1. The board of directors shall employ an ombudsman who will serve at the pleasure of, and must report directly to, the

601382

board and who will act as an advocate for the parents and legal guardians of plan participants.

2. The ombudsman shall do all of the following:

a. Provide information and assistance, outreach, and education to parents and legal guardians of plan participants regarding plan benefits and community, state, and federal government resources.

b. Investigate complaints of parents or legal guardians of plan participants regarding the operation of the plan.

c. Provide an annual report to the board regarding the ombudsman's activities, the disposition of complaints, and any recommendations to improve the operations of the plan and the delivery of benefits to participants.

(5)

(b) All meetings of the board of directors are subject to the requirements of s. 286.011, and all books, records, and audits of the plan are open to the public for reasonable inspection ~~to the general public~~, except that a claim file in the possession of the association or its representative is confidential and exempt from the provisions of s. 119.07(1) and s. 24(a), Art. I of the State Constitution until termination of litigation or settlement of the claim, although medical records and other portions of the claim file may remain confidential and exempt as otherwise provided by law. Any book, record, document, audit, or asset acquired by, prepared for, or paid for by the association is subject to the authority of the board of directors, which is responsible therefor.

(6) On or before January 31, 2022, and by each January 31 thereafter, the association shall submit an annual report to the

601382

Governor, the President of the Senate, and the Speaker of the House of Representatives. The report must include:

(a) The number of petitions filed for compensation with the division, the number of claimants awarded compensation, the number of claimants denied compensation, and the reasons for the denial of compensation.

(b) The number and dollar amount of paid and denied compensation for expenses by category and the reasons for any denied compensation for expenses by category.

(c) The average turnaround time for paying or denying compensation for expenses.

(d) Legislative recommendations to improve the program.

(e) A summary of any pending or resolved litigation during the year which affects the plan.

(f) For the initial report due on or before January 31, 2022, an actuarial report conducted by an independent actuary that provides an analysis of the estimated costs of implementing the following changes to the plan:

1. Reducing the minimum birth weight eligibility for a participant in the plan from 2,500 grams to 2,000 grams.

2. Revising the eligibility of participation in the plan by providing that an infant must be permanently and substantially mentally or physically impaired, rather than permanently and substantially mentally and physically impaired.

3. Increasing the annual special benefit or quality of life benefit from $500 to $2,500 per calendar year.

Section 4. The Auditor General shall conduct an annual performance audit of the association and the plan to evaluate management’s performance in administering the laws, policies,

601382

and procedures governing the operations of the association and the plan in an efficient and effective manner.

(1) The audit must include evaluations of all of the following:

(a) The protocols used for the payment of expenses, including standards for determining medical necessity and reasonableness of requests for medical care, services, or other benefits provided under the plan and the timeliness of the payment of expenses.

(b) The effectiveness of the association's outreach to inform parents and legal guardians of participants of available benefits and any changes in benefits and processes to resolve disputes regarding the payment of expenses internally.

(c) The efficacy of the current processes for the procurement of goods and services.

(d) The internal controls of the plan and association.

(2) The Auditor General shall release the audit and publish it on its website by January 15 of each year, beginning on January 15, 2022.

LEGISLATIVE ACTION

Senate	.	House
Comm: OO	.	
04/20/2021	.	
	.	
	.	
	.	

The Committee on Appropriations (Book) recommended the following:

Senate Amendment (with title amendment)

Before line 14
insert:
Section 1. Subsection (2) of section 766.301, Florida Statutes, is amended to read:
766.301 Legislative findings and intent.—
(2) It is the intent of the Legislature to provide compensation, on a no-fault basis, for a limited class of catastrophic injuries that result in unusually high costs for

559616

custodial care and rehabilitation. This plan shall apply only to birth-related neurological injuries and is not intended to serve as the payor of last resort for claims arising out of such injuries. It is not the intent of the Legislature to shield physicians who engage in willful misconduct, gross negligence, or recklessness or to preclude individuals from filing legitimate claims of medical malpractice against such physicians.

Section 2. Subsection (5) of section 766.305, Florida Statutes, is amended to read:

766.305 Filing of claims and responses; medical disciplinary review.—

(5) Upon receipt of such petition, the Division of Medical Quality Assurance shall review the information therein and determine whether it involved conduct by a physician licensed under chapter 458 or an osteopathic physician licensed under chapter 459 which ~~that~~ is subject to disciplinary action. If a physician is involved in more than one filed claim, the division also must review the circumstances of all such claims together to determine whether the physician's conduct establishes a pattern of practice subject to disciplinary action. Section 456.073 applies in such cases~~, in which case the provisions of s. 456.073 shall apply~~.

Section 3. Section 766.313, Florida Statutes, is amended to read:

766.313 Limitation on claim.—Any claim for compensation under ss. 766.301-766.316 which ~~that~~ is filed more than 8 ~~5~~ years after the birth of an infant alleged to have a birth-related neurological injury is ~~shall be~~ barred.

559616

Section 4. Section 766.3135, Florida Statutes, is created to read:

766.3135 Plan services.—

(1) Pursuant to an award under s. 766.31(1), the association is responsible for reimbursement of actual expenses for medically necessary and reasonable services for the injured child under the plan. The plan is not intended to serve as the payor of last resort and the association may not hold itself out as such. The association must reimburse the parent or legal guardian of the child for any service, drug, equipment, or treatment at a reasonable rate if he or she submits a letter of medical necessity from the child's physician or other treating health care provider for such service, drug, equipment, or treatment. The association may establish an independent review process that uses medical experts to review such requests after reimbursement to determine whether the physician's or health care provider's determination of medical necessity was reasonable. If the medical experts find that such determination was not reasonable, the association may ask the parent or legal guardian to provide a letter of medical necessity from a second health care provider. If provided, the association may not take further action. If the parent or legal guardian is unable to provide a second letter, the association may debit the reimbursement from future reimbursements.

(2) Parents or legal guardians of the child are eligible for reimbursement of expenses for any of the following, at a minimum:

(a) Medical, dental, and hospital care; habilitative services and training; mental health services; music or art

559616

therapy; family residential or custodial care; and professional residential and custodial care and services. Reimbursement for private nursing staff or attendant care under this paragraph must be provided at a rate at least equal to the state or federal minimum wage, whichever is greater, and must be reimbursed at the same rate regardless of the setting in which the care is provided.

(b) Medically necessary drugs, special equipment, and facilities.

(c) Family support services for immediate family members living with the child, including, but not limited to, mental health services.

(d) Travel expenses related to the child's care. The association may not limit the amount or type of travel which may be reimbursed or differentiate reimbursement rates based on the purpose of such travel, provided that it is related to the child's care.

(e) Entertainment and other promotion of the child's wellbeing. The parents or legal guardians of a child are entitled to a reimbursement of at least $1,500 per year under this paragraph.

(f) Nutrition and hygiene needs of the child. The association may not limit reimbursement for diapers, baby food, or formula if such items are appropriate for the child's age or developmental stage.

(3) The association is also responsible for the following:

(a) Providing ongoing transportation assistance for the life of the child. The association must provide parents or legal guardians with a reliable method of transportation for the care

559616

of the child or reimburse them the cost of upgrading an existing vehicle to accommodate the child's needs. The mode of transportation must take into account the special accommodations required for the specific child. The association may not limit such transportation assistance based on the child's age or weight.

(b) Providing ongoing housing assistance for the life of the child. Such assistance includes, but is not limited to:

1. Payment assistance for rent and utilities to cover the cost of any increase due to the accommodation of the child's condition and medical needs.

2. Reimbursement of moving costs.

3. Payment assistance for home construction costs up to $100,000.

(c) Establishing an online network portal for parents and legal guardians of children under the plan to support one another and exchange information and resources. Access to the online network must be provided at no cost to the parents and legal guardians.

Section 5. Paragraph (a) of subsection (5) of section 766.314, Florida Statutes, is amended to read:

766.314 Assessments; plan of operation.—

(5)(a) Beginning January 1, 1990, the persons and entities listed in paragraphs (4)(b) and (c), except those persons or entities who are specifically excluded from said provisions, as of the date determined in accordance with the plan of operation, taking into account persons licensed subsequent to the payment of the initial assessment, shall pay an annual assessment in the amount equal to the initial assessments provided in paragraphs

(4)(b) and (c). If payment of the annual assessment by a physician is received by the association by January 31 of any calendar year, the physician shall qualify as a participating physician for that entire calendar year. If the payment is received after January 31 of any calendar year, the physician shall qualify as a participating physician for that calendar year only from the date the payment was received by the association. Beginning on January 1, 2022, and on each January 1 thereafter, the annual assessment shall increase by 3 percent. On January 1, 1991, and on each January 1 thereafter, the association shall determine the amount of additional assessments necessary pursuant to subsection (7), in the manner required by the plan of operation, subject to any increase determined to be necessary by the Office of Insurance Regulation pursuant to paragraph (7)(b). On July 1, 1991, and on each July 1 thereafter, the persons and entities listed in paragraphs (4)(b) and (c), except those persons or entities who are specifically excluded from said provisions, shall pay the additional assessments which were determined on January 1. Beginning January 1, 1990, the entities listed in paragraph (4)(a), including those licensed on or after October 1, 1988, shall pay an annual assessment of $50 per infant delivered during the prior calendar year. The additional assessments which were determined on January 1, 1991, pursuant to ~~the provisions of~~ subsection (7) are ~~shall~~ not ~~be~~ due and payable by the entities listed in paragraph (4)(a) until July 1.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

559616

Delete line 3
and insert:
neurological injuries; amending s. 766.301, F.S.; revising legislative intent; amending s. 766.305, F.S.; requiring the Division of Medical Quality Assurance of the Department of Health to review all claims under the Florida Birth-Related Neurological Injury Compensation Plan involving a particular physician together when making certain determinations; amending s. 766.313, F.S.; revising the timeframe within which birth-related neurological injury compensation claims must be filed; creating s. 766.3135, F.S.; providing that the Florida Birth-Related Neurological Injury Compensation Association is responsible for reimbursing parents and legal guardians for actual expenses for medically necessary and reasonable services for the injured child; prohibiting the association from holding itself out as the payor of last resort for services under the plan; requiring the association to reimburse parents and legal guardians for services, drugs, equipment, or treatment if they provide a certain letter of medical necessity; authorizing the association to establish a certain review process for such reimbursements; specifying expenses for which parents and legal guardians are eligible to receive reimbursement; providing duties for the association; amending s. 766.314, F.S.; beginning on a specified date, requiring the annual assessments imposed on physicians

559616

and certain entities participating in the plan to be increased by a certain percentage annually; amending s. 766.31, F.S.;

By the Committee on Health Policy; and Senators Burgess and Book

588-03320-21 20211786c1

A bill to be entitled

An act relating to payments for birth-related neurological injuries; amending s. 766.31, F.S.; increasing the amount that may be awarded to the parents or legal guardians of an infant found to have sustained a birth-related neurological injury; requiring that such amount be revised annually; increasing the amount of the death benefit that may be awarded; providing for retroactive application; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (1) of section 766.31, Florida Statutes, is amended to read:

766.31 Administrative law judge awards for birth-related neurological injuries; notice of award.—

(1) Upon determining that an infant has sustained a birth-related neurological injury and that obstetrical services were delivered by a participating physician at the birth, the administrative law judge shall make an award providing compensation for the following items relative to such injury:

(b)1. Periodic payments of an award to the parents or legal guardians of the infant found to have sustained a birth-related neurological injury, which award may ~~shall~~ not exceed $100,000. However, at the discretion of the administrative law judge, such award may be made in a lump sum. Beginning on January 1, 2021, the award may not exceed $250,000, and each January 1 thereafter the award authorized under this paragraph shall increase by 3

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

588-03320-21 20211786c1

percent.

2. Death benefit for the infant in an amount of $50,000 ~~$10,000~~.

Section 2. The amendments made to s. 766.31, Florida Statutes, by this act apply to claims filed under s. 766.305, Florida Statutes, on or after January 1, 2021.

Section 3. This act shall take effect July 1, 2021.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

Committee Agenda Request

To: Senator Kelli Stargel, Chair
Committee on Appropriations

Subject: Committee Agenda Request

Date: April 6, 2021

I respectfully request that **Senate Bill #1786**, relating to Payments for Birth-related Neurological Injuries, be placed on the:

☐ committee agenda at your earliest possible convenience.

☒ next committee agenda.

Senator Danny Burgess
Florida Senate, District 20

File signed original with committee office

SELECT COMMITTEE:
Select Committee on Pandemic Preparedness and Response

JOINT COMMITTEE:
Joint Legislative Budget Commission

April 16, 2021

Dear Chair Stargel,

It has been a pleasure and a privilege to serve under you on the Senate Appropriations Committee as we work to shape meaningful public policy for the State of Florida. I am writing today to ask for your help as Chair so that we may ensure the health and safety of some of our state's most vulnerable families.

Next week, you have placed CS/SB 1786: Payments for Birth-related Neurological Injuries on our Committee Calendar. With this good bill, Senator Burgess and I seek to provide positive improvements to the Florida Birth-Related Neurological Injury Compensation Association (NICA) created by the Florida Legislature in 1988.

Senator Burgess and I have learned that several families served by NICA will be traveling to Tallahassee to testify in support of the bill and to share their experiences with our Committee. As you can imagine, these parents – mostly mothers – have the weight of the world on their shoulders, caring for children with severe physical and neurological disabilities. That weight only increased over the past year, as their children are extremely vulnerable to the COVID-19 virus.

To minimize any risk of COVID exposure for these herculean mothers who are operating under undeniably special circumstances, I am requesting permission to have them testify in our committee room. While every precaution is being taken to ensure safety for those providing remote testimonies, the Civic Center is being flooded with individuals seeking to have their voices heard as Session draws to a close.

The sheer volume of individuals at the remote site increases the risk exponentially for these moms – many of whom avoid grocery stores and other such crowded places.

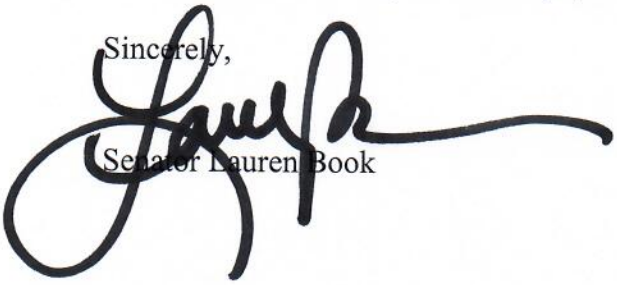
WILTON SIMPSON
President of the Senate

AARON BEAN
President Pro Tempore

Thank you in advance for your consideration of this unique circumstance, and for allowing the CS/SB 1786 to be heard in the Appropriations Committee next week. As Senator Burgess and I look forward to sharing, this legislation has the power to change these deserving families' lives in transformational ways.

Please let me know if you have any questions about this request. I am available at any time.

Sincerely,



Senator Lauren Book

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1798
INTRODUCER:	Senators Perry and Diaz
SUBJECT:	Higher Education
DATE:	April 18, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Westmark	Bouck	ED	**Favorable**
2.	Underhill	Elwell	AED	**Recommend: Favorable**
3.	Underhill	Sadberry	AP	**Favorable**

I. Summary:

SB 1798 establishes a waiver of 100 percent of tuition and fees for one course in a program of strategic emphasis for every course in such a program for which a student pays the full tuition and fees. In order to qualify for the waiver, a student must:

- Be a resident for tuition purposes.
- Initially enroll full-time at a state university for the fall academic term immediately following high school graduation.
- Earn at least 60 semester credit hours towards a baccalaureate degree within two years after initial enrollment.
- Enroll in a program of strategic emphasis as specified by the Board of Governors (BOG).

In addition, the bill specifies that a waiver so granted is applicable only for upper-level courses and up to 110 percent of the number of required credit hours of the baccalaureate degree program.

The bill requires the BOG to adopt regulations to administer the above, and requires each state university to report to the BOG the number and value of all such waivers granted annually.

The bill does not require a state appropriation. However, state universities will have reduced revenues from tuition and fees for each eligible student who enrolls in a program of strategic emphasis. See Section V.

The bill takes effect July 1, 2021.

II. Present Situation:

Tuition and Fees

Tuition is the basic fee a student is charged for instruction provided by a public postsecondary educational institution in Florida.[1] All students are charged fees except students who are exempt or whose fees are waived. State university boards of trustees are authorized to establish fees, which include activity and service, health, and athletic fees; a technology fee; a distance learning fee; a financial aid fee; and a tuition differential fee.[2]

Residency for Tuition Purposes

To qualify as a resident for tuition purposes, a person or, if that person is a dependent child, his or her parent or parents must have established legal residence in this state and must have maintained legal residence in this state for at least 12 consecutive months immediately prior to his or her initial enrollment in an institution of higher education.[3]

Tuition and Fee Rate

The State University System (SUS) resident undergraduate tuition is set in law at $105.07 per credit hour.[4] The 2020-2021 SUS average resident undergraduate tuition and fees is $199.72 per credit hour. The tuition and fees at Florida International University is $218.71 per credit hour, whereas the tuition and fees at Florida Polytechnic University is $164.65 per credit hour.[5]

Fee Waivers

Each university board of trustees is authorized to waive tuition and out-of-state fees for purposes that support and enhance the mission of the university. All fees waived must be based on policies that are adopted by university boards of trustees pursuant to regulations adopted by the Board of Governors (BOG). Each university must report the purpose, number, and value of all fee waivers granted annually in a format prescribed by the BOG.[6]

Board of Governors

The BOG is fully responsible for the operation, regulation, control, and management of the whole university system.[7] The BOG must exercise its authority in a manner that supports, promotes, and enhances a K-20 education system that provides affordable access to postsecondary educational opportunities for residents of the state.[8]

---

[1] Section 1009.01(1), F.S.
[2] Section 1009.24(2), (4), (5), (7) through (13), (14), (16), and (17) F.S.
[3] Section. 1009.21(2)(a), F.S. A person may establish legal residence by maintaining residence in this state for the preceding year, purchasing a home which is occupied by him or her as his or her residence, or establishing a domicile in this state as specified in law. Section 1009.21(1)(d), F.S.
[4] Section 1009.24(4)(a), F.S.
[5] State University System of Florida, *Tuition and Required Fees, 2020-2021, available at* https://www.flbog.edu/wp-content/uploads/2020-2021-SUS-Tuition-and-Fees-Report-1.pdf, at 1.
[6] Section 1009.26(9), F.S.
[7] Art. IX, s. 7(d), Fla. Const.
[8] Section 1001.70(3), F.S.

The BOG, or the BOG's designee, is responsible for cost-effective policy decisions appropriate to each constituent university's mission, the implementation and maintenance of high-quality education programs within law, the measurement of performance, the reporting of information, and the provision of input regarding state policy, budgeting, and education standards. Further, the BOG is required to develop a strategic plan specifying goals and objectives for the SUS and each constituent university, including each university's contribution to overall system goals and objectives. The strategic plan must include:

- Performance metrics and standards common for all institutions and metrics and standards unique to institutions depending on institutional core missions.
- Criteria for designating baccalaureate degree and master's degree programs at specified universities as high-demand programs of emphasis.[9]

Programs of Strategic Emphasis

The Programs of Strategic Emphasis exist as one of several tools for aligning the degree production goals of the SUS with the economic and workforce needs of Florida.[10] Florida law specifies that 50 percent of the criteria for designation as high-demand programs of emphasis must be based on achievement of performance outcome thresholds determined by the BOG, and 50 percent of the criteria must be based on achievement of performance outcome thresholds specifically linked to:[11]

- Job placement in employment of 36 hours or more per week and average full-time wages of graduates of the degree programs one year and five years after graduation, based in part on data provided in the economic security report of employment and earning outcomes produced annually.
- Data-driven gap analyses, conducted by the BOG, of the state's job market demands and the outlook for jobs that require a baccalaureate or higher degree.[12]

The BOG periodically updates the list of identified programs of strategic emphasis, and most recently updated the list in September 2020,[13] identifying 868 such programs.[14] The BOG categorizes programs of strategic emphasis into five areas:

- Critical Workforce - Education: comprised of the State Board of Education critical teacher shortage areas.
- Critical Workforce - Health: comprised of workforce projections by the Florida Department of Economic Opportunity.

---

[10] Florida Board of Governors, *Methodology for Updating Programs of Strategic Emphasis in the State University System of Florida, Board of Governors 2019 Mid-Course Correction - 2025 Strategic Plan* (Sept. 2019), *available at* https://www.flbog.edu/wp-content/uploads/SPC_06c_2019_PSE_Methodology_and_list_CE.pdf, at 1.
[11] Section 1001.706(5)(b)4., F.S.
[12] *See also* Florida Board of Governors, *State University System Workforce Initiatives*, Presentation to the House of Representatives Post-Secondary Education & Lifelong Learning Subcommittee (Feb. 10, 2021), *available at* https://www.myfloridahouse.gov/Sections/Documents/loaddoc.aspx?PublicationType=Committees&CommitteeId=3109&Session=2021&DocumentType=Meeting%20Packets&FileName=pel%202-10-21.pdf, at 6.
[13] Florida Board of Governors, *Programs of Strategic Emphasis*, https://www.flbog.edu/resources/academic/programs-of-strategic-emphasis/ (last visited March 24, 2021).
[14] Florida Board of Governors, *Approved PSE List 2020-2021* (Sept. 2020), *available at* https://www.flbog.edu/wp-content/uploads/Current-PSE-list-approved-by-the-BOG-at-its-September-2020-meeting-XLSX.xlsx.

- Critical Workforce - Gap Analysis: programs leading to occupations projected to be critically under-supplied in the BOG analysis of labor market projections and related degree production.
- Economic Development - Global Competitiveness: programs that assist in making the SUS globally competitive.
- Economic Development - Science Technology Engineering and Math: programs identified on at least two program lists published by the Florida Department of Economic Opportunity, the Department of Homeland Security, the National Science Foundation, and the Washington State Education Research and Data Center. [15]

The programs of strategic emphasis are used by the BOG to develop annual accountability plans, coordinate academic programs, and approve new academic programs.[16] Programs of strategic emphasis are also a component of SUS performance-based funding.[17] For the 2019-2020 academic year, 54 percent of bachelor's degrees awarded by the SUS and 63 percent of graduate degrees awarded by the SUS were in programs of strategic emphasis.[18]

State University System Performance-Based Incentive

The State University System Performance-Based Incentive is awarded to state universities using performance-based metrics adopted by the BOG. Beginning with the BOG's determination of each university's performance improvement and achievement ratings, and the related distribution of annual fiscal year appropriation, the performance-based metrics must include all of the following:[19]

- The four-year graduation rate for first-time-in-college students.
- Beginning in fiscal year 2021-2022, the two-year graduation rate for associate in arts transfer students.
- Retention rates.
- Postgraduation education rates.
- Degree production.
- Affordability.
- Postgraduation employment and salaries, including wage thresholds that reflect the added value of a baccalaureate degree.
- Access rate, based on the percentage of undergraduate students enrolled during the fall term who received a Pell Grant during the fall term.

[19] Section 1001.92(1), F.S.

- Beginning in fiscal year 2021-2022, the six-year graduation rate for students who are awarded a Pell Grant in their first year.

The BOG must adopt benchmarks to evaluate each state university's performance on the metrics to measure the state university's achievement of institutional excellence or need for improvement and minimum requirements for eligibility to receive performance funding.[20]

III. Effect of Proposed Changes:

The bill requires, beginning with the 2021-2022 academic year, for every course in a program of strategic emphasis in which a student pays the full tuition and fees, a state university must waive 100 percent of the tuition and fees for another course in a program of strategic emphasis for a student who:

- Is a resident for tuition purposes.
- Initially enrolls full-time at a state university for the fall academic term immediately following high school graduation.
- Earns at least 60 semester credit hours towards a baccalaureate degree within two years after initial enrollment.
- Enrolls in a program of strategic emphasis in one of the following categories as identified by the Board of Governors (BOG):
  - Science, technology, engineering, or math.
  - Critical workforce education.
  - Critical workforce healthcare.
  - Critical workforce and undersupplied.

In addition, the bill specifies that:

- A waiver so granted is applicable only for upper-level courses and up to 110 percent of the number of required credit hours of the baccalaureate degree program for which the student is enrolled. For example, for a 120-credit hour state university baccalaureate degree program, the waiver is applicable up to 132 credit hours.
- Tuition and course fees waived in this manner may not be reported for state funding purposes.
- A state university that fails to comply with the waiver requirements as specified is ineligible for the State University System Performance-Based Incentive.

The bill requires the BOG to adopt regulations to administer the waiver, and requires each state university to report to the BOG the number and value of all such waivers granted annually.

The bill may provide students an incentive to select a program identified as a critical need.

The bill takes effect July 1, 2021.

[20] Section 1001.92(1), F.S.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

A student enrolled in an identified program of strategic emphasis may realize a substantial cost savings from the waiver. For example, a student who completes the last 60 credit hours of a 120 credit hour program in a program of strategic emphasis may realize an average savings of $5,991.79 in tuition and fees.[21]

C. Government Sector Impact:

The exact number of students who will qualify for and make use of the tuition and fees waiver is unknown. The negative fiscal impact to each state university would continue for up to 110 percent of the number of required credit hours of the baccalaureate degree program. However, the waivers would only apply to upper-level courses in identified programs of strategic emphasis.

VI. Technical Deficiencies:

None.

[21] *See* Florida Board of Governors, *State University System of Florida, Tuition and Required Fees, 2020-21*, *available at* https://www.flbog.edu/wp-content/uploads/2020-2021-SUS-Tuition-and-Fees-Report-1.pdf.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 1009.26 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By Senator Perry

8-01365A-21 20211798__

A bill to be entitled

An act relating to higher education; amending s. 1009.26, F.S.; requiring a state university to waive the tuition and fees for certain courses in which certain resident students are enrolled; providing specified criteria for such waiver; providing applicability; prohibiting the reporting of tuition and fees waived for state funding purposes; requiring each state university to report certain information regarding such waiver to the Board of Governors annually; providing that a state university is ineligible for a specified performance-based incentive for failure to comply; requiring the board to adopt regulations; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (18) is added to section 1009.26, Florida Statutes, to read:

1009.26 Fee waivers.—

(18)(a) Beginning with the 2021-2022 academic year, for every course in a program of strategic emphasis in which a student pays the full tuition and fees, a state university shall waive 100 percent of the tuition and fees for another course in a program of strategic emphasis for a student who:

1. Is a resident for tuition purposes under s. 1009.21.

2. Initially enrolls full-time at a state university for the fall academic term immediately following high school graduation.

Florida Senate - 2021 **SB 1798**

8-01365A-21 20211798__

3. Earns at least 60 semester credit hours towards a baccalaureate degree within 2 years after initial enrollment.

4. Enrolls in a program of strategic emphasis in one of the following categories as identified by the Board of Governors:

a. Science, technology, engineering, or math.

b. Critical workforce education.

c. Critical workforce healthcare.

d. Critical workforce and undersupplied.

(b) A waiver granted under this subsection is applicable only for upper-level courses and up to 110 percent of the number of required credit hours of the baccalaureate degree program for which the student is enrolled.

(c) Tuition and course fees waived under this subsection may not be reported for state funding purposes.

(d) Each state university shall report to the Board of Governors the number and value of all waivers granted annually under this subsection. A state university that fails to comply with the requirements of this section is ineligible for the State University System Performance-Based Incentive under s. 1001.92.

(e) The Board of Governors shall adopt regulations to administer this subsection.

Section 2. This act shall take effect July 1, 2021.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1816
INTRODUCER:	Senator Rouson
SUBJECT:	Task Force on Closing the Achievement Gap for Boys
DATE:	April 18, 2021
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jahnke	Bouck	ED	**Favorable**
2.	Underhill	Elwell	AED	**Recommend: Favorable**
3.	Underhill	Sadberry	AP	**Favorable**

I. Summary:

SB 1816 establishes the Task Force on Closing the Achievement Gap for Boys within the Department of Education (DOE) to examine evidence-based strategies for closing the achievement gap for boys and to make recommendations to the department, the Governor, and the Legislature. The recommendations must address:

- Professional development for instructional personnel and school administrators.
- The selection of curriculum, supplemental materials, and classroom activities in early learning programs and K-12 schools.
- Academic, behavioral, and mental health supports to help educate and raise young men who are better prepared for success in school and in life.

The bill establishes the Commissioner of Education or a designee as chair of the task force. Other members of the task force must be appointed by August 1, 2021, including stakeholders appointed by the Governor, the Senate President, and the Speaker of the House of Representatives.

The bill requires the task force to convene by October 1, 2021, and upon the call of the chair thereafter. The task force must submit a report containing its recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2022.

The task force expires on June 30, 2022.

The DOE will incur costs associated with support of the functions and meetings of the task force. These costs are indeterminate. Task force members may be entitled to reimbursement for travel and per diem. See Section V.

The bill takes effect July 1, 2021.

II. Present Situation:

Low reading performance in 3rd grade predicts future poor academic performance, increased risk of not graduating from high school, and lower economic stability as an adult.[1] Girls have outscored boys in reading at ages 9, 13, and 17 on the National Assessment of Educational Progress (NAEP) every year since it was first administered in 1971, and as far back as the 1940s, educators found girls outscoring boys in reading comprehension and vocabulary.[2]

In Florida, boys had an average scale score on the 2019 NAEP reading assessment that was nine points lower than girls had both in 4th grade (220 to 229) and in 8th grade (259 to 268).[3] Data from the 2018-2019 administration of Florida's statewide, standardized English Language Arts (ELA) assessment shows that 44 percent of 3rd grade boys were reading below grade level, a four percentage point deficit as compared to girls (40 percent). The deficit is 12 percentage points for 10th grade boys.[4]

2018-19 Florida Standards Assessment in ELA			
Grade Level	**Percent of Female Students Scoring Below Grade Level**	**Percent of Male Students Scoring Below Grade Level**	**Percentage Point Deficit of Males Compared to Females**
3	40%	44%	4%
4	37%	46%	9%
5	39%	48%	9%
6	40%	51%	11%
7	41%	54%	13%
8	38%	49%	11%
9	40%	50%	10%
10	41%	53%	12%

Girls generally outperform boys in reading and writing in most school districts in the United States, regardless of the district's demographics—girls are about half a grade ahead by 3rd grade, and almost a full grade ahead by 8th grade.[5] Gender achievement gaps in 3rd grade through 8th grade have narrowed significantly over the last decade, most notably in math.[6]

[6] *Id.*

There are some theories as to why the reading skills of boys fall behind that of girls, particularly in early years. Some theories attribute differences to environmental or cultural and societal causes or a teacher's treatment and expectations of a student and assumptions about how the student typically behaves.[7] A student's interest or motivation in the subject area could also be a factor. For example, boys are less likely to read for pleasure than girls are.[8] One study has supported cultural-societal theories, suggesting further review of differential responses to school-based instruction as well as student interest and motivation, and noted that differences in pre-reading skills apparent in kindergarten are surmountable by later grades.[9]

Some instructional strategies have been identified as helping to improve boys reading skills, including:[10]

- Autonomy in selecting text, including informational texts, to increase interest and motivation to read.
- Robust classroom libraries with high-interest books.
- Small reading groups including common texts or subjects of interest.
- Setting a purpose for a reading activity.
- Providing flexible seating options.
- Incorporating movement into reading lessons.
- Differentiating instruction to ensure success.
- Explicit, systematic instruction including goalsetting with monitoring and feedback.

At least one school district in Florida has implemented an initiative to provide teacher training on strategies that can help close the reading gap for boys.[11] However, there has not been a statewide effort to understand and address the reading gap.

III. Effect of Proposed Changes:

This bill establishes the Task Force[12] on Closing the Achievement Gap for Boys within the Department of Education (DOE) to examine evidence-based strategies for closing the

[12] A "task force" means an advisory body created without specific statutory enactment for a time not to exceed 1 year or created by specific statutory enactment for a time not to exceed 3 years and appointed to study a specific problem and recommend a solution or policy alternative with respect to that problem. Its existence terminates upon the completion of its assignment. Section 20.03(8), F.S.

achievement gap for boys and to make recommendations to the DOE, the Governor, and the Legislature. The recommendations must address:

- Professional development for instructional personnel and school administrators.
- The selection of curriculum, supplemental materials, and classroom activities in early learning programs and K-12 schools.
- Academic, behavioral, and mental health supports to help educate and raise young men who are better prepared for success in school and in life.

The bill establishes the Commissioner of Education or a designee as chair of the task force. Other members of the task force must be appointed by August 1, 2021, as follows:

- Two members appointed by the Governor:
  - The parent of a boy enrolled in either the Voluntary Prekindergarten (VPK) Education Program or the school readiness program.
  - The parent of a boy enrolled in a public elementary school.
- Five members appointed by the Senate President:
  - A school psychologist employed by a school district.
  - An elementary classroom teacher.
  - A prekindergarten teacher employed by a provider participating in the VPK Education Program or the school readiness program.
  - The executive director of an early learning coalition.
  - A member of the Senate.
- Five members appointed by the Speaker of the House of Representatives:
  - A representative of a nonprofit organization that has conducted research or implemented a program designed to close the achievement gap for boys through specific instructional, behavioral, and mental health supports.
  - The superintendent of a school district that has implemented programming and strategies specifically to help close the achievement gap for boys through a partnership with one or more nonprofit organizations.
  - The director of an early learning provider participating in the VPK Education Program or the school readiness program.
  - The principal of a public elementary school.
  - A member of the House of Representatives.

The bill specifies that members may not receive compensation for serving on the task force, but may receive reimbursements for per diem and travel expenses.

The bill requires the task force to convene by October 1, 2021, and upon the call of the chair thereafter. The bill specifies that meetings may be held through teleconference or other electronic means.

The bill requires the DOE to provide staffing, administrative support, data, and other relevant information to the task force to help it carry out its responsibilities. The task force must submit a report containing its recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2022.

The task force expires on June 30, 2022.

The bill takes effect July 1, 2021.

A bill to be entitled

An act relating to the Task Force on Closing the Achievement Gap for Boys; creating the Task Force on Closing the Achievement Gap for Boys within the Department of Education; providing a purpose for the task force; providing for membership and meetings of the task force; requiring the department to provide staff, administrative support, and necessary data and other relevant information to assist the task force; requiring that the task force submit a report to the Governor and Legislature by a specified date; providing for future expiration of the task force; providing an effective date.

WHEREAS, 44 percent of third grade boys are reading below grade level, 4 percentage points more than girls, and 53 percent of 10th grade boys are reading below grade level, 11 percentage points more than girls, based on the 2018-2019 statewide, standardized English Language Arts assessment, and

WHEREAS, research shows that boys develop literacy skills later than girls, and

WHEREAS, in comparison to girls, boys are suspended and expelled from schools more than twice as often, are diagnosed with learning disabilities nearly three times as often, and are diagnosed with emotional disorders over three times as often, and

WHEREAS, boys require specialized instructional, behavioral, and mental health supports in order to flourish academically and personally, NOW, THEREFORE,

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

19-01369-21 20211816__

Be It Enacted by the Legislature of the State of Florida:

Section 1. Task Force on Closing the Achievement Gap for Boys.—

(1) The Task Force on Closing the Achievement Gap for Boys, a task force as defined in s. 20.03(8), Florida Statutes, is created within the Department of Education to examine evidence-based strategies for closing the achievement gap for boys and to make recommendations to the department, the Governor, and the Legislature regarding boys' instructional needs through professional development for instructional personnel and school administrators; the selection of curriculum, supplemental materials, and classroom activities in early learning programs and K-12 schools; and other academic, behavioral, and mental health supports necessary to help educate and raise young men who are better prepared for success in school and in life.

(2) The task force shall be composed of the following members, to be appointed by August 1, 2021:

(a) The Commissioner of Education, or his or her designee, who shall be the chair of the task force.

(b) The following members appointed by the Governor:

1. The parent of a boy enrolled in either the Voluntary Prekindergarten Education Program under part V of chapter 1002, Florida Statutes, or the school readiness program under part VI of chapter 1002, Florida Statutes.

2. The parent of a boy enrolled in a public elementary school.

(c) The following members appointed by the President of the

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

Senate:

1. A school psychologist employed by a school district.

2. An elementary classroom teacher.

3. A prekindergarten teacher employed by a provider participating in the Voluntary Prekindergarten Education Program or the school readiness program.

4. The executive director of an early learning coalition.

5. A member of the Senate.

(d) The following members appointed by the Speaker of the House of Representatives:

1. A representative of a nonprofit organization that has conducted research or implemented a program designed to close the achievement gap for boys through specific instructional, behavioral, and mental health supports.

2. The superintendent of a school district that has implemented programming and strategies specifically to help close the achievement gap for boys through a partnership with one or more nonprofit organizations.

3. The director of an early learning provider participating in the Voluntary Prekindergarten Education Program or the school readiness program.

4. The principal of a public elementary school.

5. A member of the House of Representatives.

(3) Members of the task force shall serve without compensation, but may be entitled to receive reimbursement for per diem and travel expenses.

(4) The task force shall convene no later than October 1, 2021, and upon the call of the chair thereafter. Meetings of the task force may be held through teleconference or other

electronic means.

(5) The department shall provide staff, administrative support, and necessary data and other relevant information to assist the task force in carrying out its responsibilities.

(6) The task force shall submit a report containing its recommendations to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2022.

(7) The task force expires June 30, 2022.

Section 2. This act shall take effect July 1, 2021.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1900 expands the duties and responsibilities of the Florida Digital Service (FDS) relating to the state's cybersecurity governance framework.

The bill defines "cybersecurity" to mean the protection afforded to an automated information system in order to attain the applicable objectives of preserving the confidentiality, integrity, and availability of data, information, and information technology (IT) resources.

The bill requires that a cybersecurity audit plan be included in the long-term and annual audit plans that agency inspectors general are required to complete.

The bill specifies the Department of Management Services (DMS), acting through the FDS, is the lead entity responsible for assessing state agency cybersecurity risks and determining appropriate security measures to combat such risks. The bill creates new, and amends current, cybersecurity related duties and responsibilities of the DMS. The bill also expands the responsibilities of each state agency head in relation to cybersecurity.

The bill creates the Florida Cybersecurity Advisory Council (council) within the DMS. The purpose of the council is to assist the state in protecting the state's IT resources from cyber threats and incidents, and to assist the FDS in implementing best cybersecurity practices. The bill

outlines membership requirements of the council, term requirements of each member, and duties and responsibilities of the council as a whole.

Beginning June 30, 2022, and annually thereafter, the council is required to submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives outlining any recommendations considered necessary by the council to address cybersecurity.

The bill makes conforming changes across several provisions by replacing all versions of the term "information technology security" with the term "cybersecurity."

The bill has an indeterminate significant fiscal impact on state expenditures. *See* Part V, Fiscal Impact Statement.

The bill takes effect July 1, 2021.

II. Present Situation:

Agency Inspectors General

An office of the inspector general (office) is established in each state agency to provide a central point for coordination of, and responsibility for, activities that promote accountability, integrity, and efficiency in government.[1] The office within each agency is responsible for advising in the development of performance measures, standards, and procedures for the evaluation of state agency programs. The office is also required to assess the reliability and validity of information provided by the state agency on performance measures and standards and must make recommendations for improvement when necessary.

In carrying out the auditing duties and responsibilities, each inspector general should review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency. The inspector general will conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of the findings. At the conclusion of an audit, the inspector general will submit preliminary findings and recommendations to the person responsible for supervision of the program function or operational unit who can respond to any adverse findings within 20 working days after receipt of the preliminary findings. The inspector general will submit the final report to the agency head, the Auditor General and, for state agencies under the Governor, the Chief Inspector General. The inspector general shall develop long-term and annual audit plans based on the findings of the risk assessment. The plan, where appropriate, should include post-audit samplings of payments and accounts. The plan should show the individual audits to be conducted during each year and related resources to be devoted to the respective audits. A copy of the approved plan shall be submitted to the Auditor General.[2]

[1] Section 20.055(2), F.S.
[2] *Id.*

National Institute for Standards and Technology Cybersecurity Framework

The National Institute for Standards and Technology Cybersecurity (NIST) is a non-regulatory federal agency housed within the U.S. Department of Commerce. The NIST is charged with providing a prioritized, flexible, repeatable, performance-based, and cost effective framework that helps owners and operators of critical infrastructure identify, assess, and manage cyber risk. While the framework was developed with critical infrastructure in mind, it can be used by organizations in any sector of the economy or society.[3] The framework is designed to complement, and not replace, an organization's own unique approach to cybersecurity risk management. As such, there are a variety of ways to use the framework and the decision about how to apply it is left to the implementing organization. Overall, the framework provides an outline of best practices that helps organizations decide where to focus resources for cybersecurity protection.[4]

The Information Technology Security Act

The Information Technology (IT) Security Act (act) requires the Department of Management Services (DMS) and heads of state agencies[5] to meet certain requirements to enhance the IT security of state agencies. Specifically, the act provides that the DMS is responsible for establishing standards and processes consistent with generally accepted best practices for IT security, including cybersecurity, and adopting rules that safeguard an agency's data, information, and IT resources to mitigate risks.[6] The DMS is required to designate an employee of the Florida Digital Service (FDS) as the state chief information security officer, who must have experience and expertise in security and risk management for communications and IT resources.

The DMS is required, by February 1 of each year, to develop a statewide IT security strategic plan that includes security goals and objectives for the strategic issues of IT security policy, risk management, training, and disaster recovery planning. Further, the DMS is required to develop and publish for use by state agencies an information technology security framework that includes specific guidelines and processes.[7]

The DMS, in collaboration with the Cybercrime Office of the Department of Law Enforcement, provides training for state agency information security managers and computer security incident response team members that contains training on IT security.[8] The DMS is required to develop and publish for use by state agencies an IT security framework. The act requires each state

[3] National Institute of Standards and Technology, *Framework for Improving Critical Infrastructure Cybersecurity*, https://nvlpubs.nist.gov/nistpubs/CSWP/NIST.CSWP.04162018.pdf (last visited March 30, 2021).
[4] *Id.*
[5] The term "state agency" means any official, officer, commission, board, authority, council, committee, or department of the executive branch of state government; the Justice Administrative Commission; and the Public Service Commission. The term does not include university boards of trustees or state universities. Section 282.0041(33), F.S. For purposes of the IT Security Act, the term includes the Department of Legal Affairs, the Department of Agriculture and Consumer Services, and the Department of Financial Services. Section 282.318(2), F.S.
[6] Section 282.318, F.S.
[7] Section 282.318(3)(b), F.S.
[8] Section 282.318(3)(e), F.S.

agency to designate an information security manager to administer the IT security program of the state agency. This designation must be provided annually in writing to the DMS.[9]

The act requires the head of each state agency to designate an information security manager to administer the IT security program of the state agency.[10] In addition, the head of each state agency must:

- Establish an agency computer incident response team in consultation with the Cybercrime Office within the Florida Department of Law Enforcement (FDLE);
- Annually submit to the DMS the state agency's strategic and operational IT security plans;
- Conduct, and update every three years, a comprehensive risk assessment to determine the security threats to the data, information, and IT resources of the state agency;
- Develop, and periodically update, written internal policies and procedures, including procedures for reporting IT security incidents and breaches to the Cybercrime Office within the FDLE and the Florida Digital Service (FDS);
- Ensure that periodic internal audits and evaluations of the agency's IT security program for the data, information, and IT resources of the agency are conducted;
- Ensure that the IT security and cybersecurity requirements in both written specifications for the solicitation and service-level agreement of IT and IT resources and services meet or exceed applicable state and federal laws, regulations, and standards for IT security and cybersecurity;
- Provide IT security and cybersecurity awareness training to all state agency employees within 30 days of commencing employment; and
- Develop a process that is consistent with the rules and guidelines established by the DMS for detecting, reporting, and responding to threats, breaches, or IT security incidents.[11]

Florida Digital Service

The FDS has been created within the DMS to propose innovative solutions that securely modernize state government, including technology and information services, to achieve value through digital transformation, and to fully support cloud-first policy[12]. The FDS partners with all state agencies to deliver better government services through design and technology. The FDS is responsible for developing an enterprise architecture, project management and oversight standards, and technology policy for the management of the state's IT[13] resources.

The Secretary of the DMS is required to designate a state chief information officer (CIO), who will administer the FDS. The CIO must have at least five years of experience in the development of IT strategic planning and development or IT policy, and preferably have leadership-level experience in the design, development, and deployment of interoperable software and data solutions. The CIO, on consultation with the Secretary of the DMS, is required to designate a

[9] *Id.*
[10] Section 282.318(4)(a), F.S.
[11] Section 282.318(4), F.S.
[12] Section 282.0051(1), F.S.
[13] Section 282.0041(1), F.S., defines "information technology" to mean equipment, hardware, software, firmware, programs, systems, networks, infrastructure, media, and related material used to automatically, electronically, and wirelessly collect, receive, access, transmit, display, store, record, retrieve, analyze, evaluate, process, classify, manipulate, manage, assimilate, control, communicate, exchange, convert, converge, interface, switch, or disseminate information of any kind or form.

state chief data officer. The chief data officer must be a proven and effective administrator who must have significant and substantive experience in data management, data governance, interoperability, and security.

Florida Center for Cybersecurity

Section 1004.444, F.S., creates the Florida Center for Cybersecurity (Cyber Florida).[14] Cyber Florida was created to help the state become a national leader in cybersecurity education, academics, practical research, and community outreach. Established under the auspices of the University of South Florida, Cyber Florida works with all 12 State University System institutions to:

- Assist in the creation of jobs in the state's cybersecurity industry and enhance the existing cybersecurity workforce;
- Act as a cooperative facilitator for state business and higher education communities to share cybersecurity knowledge, resources, and training;
- Seek out partnerships with major military installations to assist, when possible, in homeland cybersecurity defense initiatives; and
- Attract cybersecurity companies to the state with an emphasis on defense, finance, health care, transportation, and utility sectors.[15]

State Data Center

The State Data Center (data center) within the DMS provides data center services that comply with applicable state and federal laws, regulations, and policies, including all applicable security, privacy, and auditing requirements.[16] The data center offers, develops, and supports the services and applications defined in service-level agreements executed with its customer entities. The data center enters into service-level agreements with each customer entity to provide the required type and level of service or services.

Cybercrime Office

The cybercrime office is created within the FDLE. The cybercrime office may investigate violations of state law pertaining to the sexual exploitation of children which are facilitated or connected to the use of any device capable of storing electronic data. The cybercrime office monitors state IT resources and provides analysis on IT security incidents, threats, and breaches as defined in s. 282.0041, F.S. Further, the cybercrime office provides security awareness training and information to state agency employees concerning cybersecurity, online sexual exploitation of children, and the responsibility of employees to comply with policies, standards, guidelines, and operating procedures adopted by the FDLE. The cybercrime office consults with the FDS in the adoption of rules relating to the information technology security provisions in s. 282.318, F.S.[17]

[14] Section 1004.444, F.S.
[15] *Id.*
[16] Section 282.201, F.S.
[17] Section 943.0415, F.S.

Advisory Council Requirements under Section 20.03, Florida Statutes

Section 20.03(7), F.S., defines a "council" or "advisory council" to mean an advisory body created by specific statutory enactment and appointed to function on a continuing basis for the study of problems arising in a specified functional or program area of state government and to provide recommendations and policy alternatives.[18]

Florida law provides the following requirements for statutorily enacted advisory councils:

- A council may only be created when it is found to be necessary and beneficial to the furtherance of a public purpose.
- An advisory council may not be created or reestablished unless it meets a statutorily defined purpose and its powers conform to the definition of "advisory council" under law.
- An advisory council must be terminated by the Legislature when it is no longer necessary and beneficial to the furtherance of a public purpose. The executive agency to which the advisory council is made an adjunct must advise the Legislature at the time the committee ceases to be essential to the furtherance of a public purpose.
- The Legislature and the public must be kept informed of the numbers, purposes, memberships, activities, and expenses of the committee.[19]

A private citizen member of an advisory council that is adjunct to an executive agency must be appointed by the Governor, the head of the department, the executive director of the department, or a Cabinet officer.[20]

Standards of Conduct for Public Officers and Employees

Section 112.313, F.S., provides standards of conduct to which a public officer or public employee must adhere in performing his or her official duties and responsibilities. The standards of conduct are intended to ensure that a public officer or public employee conducts his or her self independently and impartially. Such standards include limitations on the solicitation or acceptance of gifts, doing business with one's agency, unauthorized compensation, salary and expenses, misuse of his or her public position, and disclosure of information not available to members of the general public and gained by reason of his or her official position.[21]

III. Effect of Proposed Changes:

Section 1 amends s. 20.055, F.S., to require that a specific cybersecurity audit plan be included in the long-term and annual audit plans that agency inspector generals are required to complete.

Section 2 amends s. 282.0041, F.S., to substitute the term "cybersecurity" for "information technology (IT) security" and to define the term "cybersecurity" to mean the protection afforded to an automated information system in order to attain the applicable objectives of preserving the confidentiality, integrity, and availability of data, information, and IT resources.

[18] Section 20.03(7), F.S.
[19] Section 20.052(1)-(4), F.S.
[20] Section 20.052(5)(a), F.S.
[21] Section 112.313(2)-(17), F.S.

This section repeals the definition of the term "information technology security," which is made obsolete by this bill.

Sections 3, 4, and 5 amend ss. 282.0051, 282.201, and 282.206, F.S., respectively, relating to the powers and duties of the Department of Management Services (DMS), the state data center, and "cloud-first" policy, to conform to the changes of the bill by replacing all versions of the term "information technology security" with the term "cybersecurity."

Section 6 amends s. 282.318, F.S., to rename the "Information Technology Security Act" as the "State Cybersecurity Act."

This section designates the DMS, acting through the Florida Digital Service (FDS), as the lead entity responsible for assessing state agency cybersecurity risks and determining appropriate security measures. Thus, the DMS, acting through the FDS, must:

- Establish standards and processes that must be consistent with generally accepted technology best practices, including the National Institute for Standards and Technology (NIST) Cybersecurity Framework, for cybersecurity;
- Adopt rules that mitigate risk, safeguard the state's digital assets and agency data to ensure availability, confidentiality, and integrity and support a security governance framework;
- Designate an employee of the FDS as the state chief information security officer. The state chief information security officer is responsible for the development, operation, and oversight of cybersecurity for state technology systems. The state chief information security officer must be notified of all confirmed or suspected incidents or threats of state agency IT resources and must report such incidents the state chief information officer (CIO);
- Develop, and update annually by February 1, a statewide cybersecurity strategic plan that includes security goals and objectives for cybersecurity, including the identification and mitigation of risk, proactive protections against threats, tactical risk detection, threat reporting, and response and recovery protocols for a cyber-incident;
- Develop and publish for use by state agencies a cybersecurity governance that includes guidelines;
- Establish procedures for procuring IT commodities and services that require the commodity or service to meet the NIST Framework;
- Provide training to all state agency technology professionals which develops, assesses, and documents competencies by role and skill level. The training may be provided in collaboration with the Cybercrime Office of the Florid Department of Law Enforcement (FDLE), a private sector entity, or a state university;
- Operate and maintain a Cybersecurity Operations Center led by the state chief information security officer, which must be primarily virtue and staffed with tactical detection and incident response personnel. The Cybersecurity Operations Center must serve as a clearinghouse for threat information and coordinate with the FDLE to support state agencies and their response to any confirmed or suspected cybersecurity incident; and
- Lead an Emergency Support Function, ESF CYBER, under the state comprehensive emergency management plan as described in s. 252.35, F.S.

This section requires each state agency head to:

- Establish an agency cybersecurity response team in consultation with the FDS and the FDLE, and immediately report all confirmed or suspected cybersecurity incidents to the state chief information security officer, or his or her designee;
- Conduct, and update every three years, a comprehensive risk assessment which may be completed by a private sector vendor to determine security threats to the data, information, and IT resources of the agency. If a private sector vendor is used to complete this requirement, the vendor must attest to the validity of the risk assessment findings;
- Implement managerial, operational, and risk assessment remediation plans recommended by the DMS to addresses identified risks to the agency. The DMS, through the FDS, must track implementation by state agencies upon development of such remediation plans in coordination with agency inspectors general;
- Ensure that the cybersecurity requirements in both the written specifications for the solicitation, contracts, and service-level agreement of IT and IT resources and services meet the NIST Cybersecurity Framework; and
- Provide cybersecurity awareness training, in collaboration with the Cybercrime Office, a private sector entity, or an institution of the state university system to all state agency employees in the first 30 days after commencing employment.

This section replaces all versions of the term "information technology security" with the term "cybersecurity."

Section 7 creates s. 282.319, F.S., establishing the Florida Cybersecurity Advisory Council (council) within the DMS.

The council must operate in a manner consistent with s. 20.052, F.S. The purpose of the council is to assist the state in protecting the state's IT resources from cyber threats and incidents and to assist the FDS in implementing the best cybersecurity practices, taking into consideration the final recommendations of the Florida Cybersecurity Task Force.

The council is comprised of the following members:
- The Lieutenant Governor or his or her designee;
- The state chief information officer;
- The state chief information security officer;
- The director of the Division of Emergency Management or his or her designee;
- A representative of the computer crime center of the FDLE, appointed by the executive director of the FDLE;
- A representative of the Florida Fusion Center of the FDLE, appointed by the executive director of the FDLE;
- The Chief Inspector General;
- A representative from the Public Service Commission;
- Up to two representatives from institutions of higher education located in the state, appointed by the Governor;
- Three representatives from critical infrastructure sectors, one of which must be from a water-treatment facility, appointed by the Governor;

- Four representatives of the private sector with senior level experience in cybersecurity or software engineering from within finance, energy, health care, and transportation sector, appointed by the Governor; and
- Two representatives with expertise on emerging technology with one appointed by the President of the Senate and one appointed by the Speaker of the House of Representatives.

The members serve for a term of four years, with the initial appointments made serving for a term of two years. A vacancy must be filled for the remainder of the unexpired term in the same manner as the initial appointment, and all members of the council are eligible for reappointment. The Secretary of Management Services, or his or her designee, must serve as the ex officio, nonvoting executive director of the council. Members of the council serve without compensation but are entitled to reimbursement for per diem and travel expenses as defined in s. 112.061, F.S.

Council members are required to maintain the confidential or exempt status of information received in the performance of their official duties and responsibilities. The bill prohibits current or former members from disclosing or using information not available to the general public and gained by reason of their official position for their personal gain or benefit or the personal gain or benefit of another. Council members must sign an agreement acknowledging these provisions.

The council must meet quarterly to:
- Review existing state agency cybersecurity policies;
- Assess ongoing risks to state agency information technology;
- Recommend a method to notify state agencies of new risks;
- Recommend data breach simulation exercises;
- Examine inconsistencies between state and federal law regarding cybersecurity; and
- Assist the FDS in developing cybersecurity best practices recommendations for state agencies which include recommendations regarding:
  - Continuous risk monitoring;
  - Password management; and
  - Protecting data in legacy and new systems.

The council must work with the NIST and other federal agencies, private sector businesses, and private cybersecurity experts:
- For critical infrastructure not covered by federal law, to identify which local infrastructure sectors are at greatest risk of cyber-attacks and need the most enhanced security measures; and
- To use federal guidance to identify categories of critical infrastructure as critical cyber infrastructure if cyber damage or access could reasonable result in catastrophic consequences.

Beginning June 30, 2022, and annually thereafter, the council must submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives outlining any recommendations considered necessary by the council to address cybersecurity.

Section 8 provides the bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The mandate restrictions do not apply because the bill does not require counties and municipalities to spend funds, reduce counties' or municipalities' ability to raise revenue, or reduce the percentage of state tax shared with counties and municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill will have a significant fiscal impact on state government due to the operation and maintenance of the Cybersecurity Operations Center, and expenses associated with the Florida Digital Service and the Florida Cybersecurity Advisory Council.

The Department of Management Services (DMS) submitted an Amended Legislative Budget Request (LBR) for Fiscal Year 2021-2022 requesting $30 million ($21 million non-recurring) General Revenue to allow the Florida Digital Service (FDS) to begin implementing the recommendations[22] of the February 1, 2021, Florida Cybersecurity Task Force Final Report, including additional training, incident reporting, and threat detection monitoring. According to the LBR request, funds would be used to support

[22] The Department of Management Services Amended Legislative Budget Request for FY 2021-2022 Fist Submission, available at http://floridafiscalportal.state.fl.us/Document.aspx?ID=21881&DocType=PDF

immediate enterprise level resiliency priorities and risk mitigation measure as identified by the state chief information officer and chief information security officer. The DMS also, provided cost estimates for the following responsibilities required in the bill, which are encompassed in the LBR request: $672,000 for providing new cybersecurity training, $3.2 million for operating a virtual Cybersecurity Operations Center, and $320,000 for procurement of an incident tracking tool.

In addition, an agency may incur additional costs if it uses a private sector vendor to complete the required risk assessment once every three years.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 20.055, 282.0041, 282.0051, 282.201, 282.206, and 282.318.

This bill creates section 282.319 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

PCS (410182) by Appropriations Committee (Recommended by Appropriations Subcommittee on Agriculture, Environment, and General Government):
The proposed committee substitute:

- Clarifies that the executive director of the Department of Law Enforcement appoints the representatives from the computer crime center and the Florida Fusion Center to the advisory council; and
- Includes a provision requiring members of the advisory council to maintain the confidential or exempt status of information received in the performance of their official duties and responsibilities.

CS by Governmental Oversight and Accountability on March 31, 2021:
The committee substitute:

- Revises the definition for the term “Cybersecurity;”
- Removes the designation of employees under the chief information security officer as selected exempt service;
- Revises the duties of the chief information security officer from the “development, operation, and management of cybersecurity for state technology systems” to the

"development, operations, and oversight of cybersecurity for state technology systems";

- Removes the authority from the Florida Digital Service to intervene in any confirmed or suspected cybersecurity incident of a state agency;
- Removes the requirement that an agency head must provide an asset management report detailing the agency's IT resources to the chief information officer and chief information security officer;
- Removes the requirement that an agency head must conduct a comprehensive risk assessment on an annual basis, and maintains the three-year requirement provided in current law;
- Requires that solicitations, contracts and service level-agreements relating to cybersecurity meet the National Institute of Standards and Technology Cybersecurity Framework;
- Revises the membership of the newly created Florida Cybersecurity Advisory Council; and
- Requires the council to work with the National Institute of Standards and Technology, federal agencies, private sector businesses, and private cybersecurity experts to identify infrastructure vulnerable to cyber attacks.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

410182

576-03929-21

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Agriculture, Environment, and General Government)

A bill to be entitled

An act relating to cybersecurity; amending s. 20.055, F.S.; requiring certain audit plans of an inspector general to include certain information; amending s. 282.0041, F.S.; revising and providing definitions; amending ss. 282.0051, 282.201, and 282.206, F.S.; revising provisions to replace references to information technology security with cybersecurity; amending s. 282.318, F.S.; revising provisions to replace references to information technology security and computer security with references to cybersecurity; revising a short title; providing that the Department of Management Services, acting through the Florida Digital Service, is the lead entity for the purpose of certain responsibilities; providing and revising requirements for the department, acting through the Florida Digital Service; providing that the state chief information security officer is responsible for state technology systems and shall be notified of certain incidents and threats; revising requirements for state agency heads; requiring the department, through the Florida Digital Service, to track the implementation by state agencies of certain plans; creating s. 282.319, F.S.; creating the Florida Cybersecurity Advisory Council within the Department of Management Services; providing the purpose of the

410182

576-03929-21

council; requiring the council to provide certain assistance to the Florida Digital Service; providing for the membership of the council; providing for terms of council members; providing that the Secretary of Management Services, or his or her designee, shall serve as the ex officio, nonvoting executive director of the council; providing that members shall serve without compensation but are entitled to reimbursement for per diem and travel expenses; requiring council members to maintain the confidential or exempt status of information received; prohibiting council members from using information not otherwise public for their own personal gain; requiring council members to sign an agreement acknowledging certain provisions; requiring the council to meet at least quarterly for certain purposes; requiring the council to work with certain entities to identify certain local infrastructure sectors and critical cyber infrastructure; requiring the council to submit an annual report to the Legislature; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (i) of subsection (6) of section 20.055, Florida Statutes, is amended to read:

20.055 Agency inspectors general.—

(6) In carrying out the auditing duties and responsibilities of this act, each inspector general shall

review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency. The inspector general shall conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of his or her findings. The scope and assignment of the audits shall be determined by the inspector general; however, the agency head may at any time request the inspector general to perform an audit of a special program, function, or organizational unit. The performance of the audit shall be under the direction of the inspector general, except that if the inspector general does not possess the qualifications specified in subsection (4), the director of auditing shall perform the functions listed in this subsection.

(i) The inspector general shall develop long-term and annual audit plans based on the findings of periodic risk assessments. The plan, where appropriate, should include postaudit samplings of payments and accounts. The plan shall show the individual audits to be conducted during each year and related resources to be devoted to the respective audits. The plan shall include a specific cybersecurity audit plan. The Chief Financial Officer, to assist in fulfilling the responsibilities for examining, auditing, and settling accounts, claims, and demands pursuant to s. 17.03(1), and examining, auditing, adjusting, and settling accounts pursuant to s. 17.04, may use audits performed by the inspectors general and internal auditors. For state agencies under the jurisdiction of the Governor, the audit plans shall be submitted to the Chief Inspector General. The plan shall be submitted to the agency head for approval. A copy of the approved plan shall be

submitted to the Auditor General.

Section 2. Present subsections (8) through (21) of section 282.0041, Florida Statutes, are redesignated as subsections (9) through (22), respectively, a new subsection (8) is added to that section, and present subsection (22) of that section is amended, to read:

282.0041 Definitions.—As used in this chapter, the term:

(8) "Cybersecurity" means the protection afforded to an automated information system in order to attain the applicable objectives of preserving the confidentiality, integrity, and availability of data, information, and information technology resources.

~~(22) "Information technology security" means the protection afforded to an automated information system in order to attain the applicable objectives of preserving the integrity, availability, and confidentiality of data, information, and information technology resources.~~

Section 3. Paragraph (j) of subsection (1) of section 282.0051, Florida Statutes, is amended to read:

282.0051 Department of Management Services; Florida Digital Service; powers, duties, and functions.—

(1) The Florida Digital Service has been created within the department to propose innovative solutions that securely modernize state government, including technology and information services, to achieve value through digital transformation and interoperability, and to fully support the cloud-first policy as specified in s. 282.206. The department, through the Florida Digital Service, shall have the following powers, duties, and functions:

576-03929-21

(j) Provide operational management and oversight of the state data center established pursuant to s. 282.201, which includes:

1. Implementing industry standards and best practices for the state data center's facilities, operations, maintenance, planning, and management processes.

2. Developing and implementing cost-recovery mechanisms that recover the full direct and indirect cost of services through charges to applicable customer entities. Such cost-recovery mechanisms must comply with applicable state and federal regulations concerning distribution and use of funds and must ensure that, for any fiscal year, no service or customer entity subsidizes another service or customer entity. The Florida Digital Service may recommend other payment mechanisms to the Executive Office of the Governor, the President of the Senate, and the Speaker of the House of Representatives. Such mechanism may be implemented only if specifically authorized by the Legislature.

3. Developing and implementing appropriate operating guidelines and procedures necessary for the state data center to perform its duties pursuant to s. 282.201. The guidelines and procedures must comply with applicable state and federal laws, regulations, and policies and conform to generally accepted governmental accounting and auditing standards. The guidelines and procedures must include, but need not be limited to:

a. Implementing a consolidated administrative support structure responsible for providing financial management, procurement, transactions involving real or personal property, human resources, and operational support.

576-03929-21

b. Implementing an annual reconciliation process to ensure that each customer entity is paying for the full direct and indirect cost of each service as determined by the customer entity's use of each service.

c. Providing rebates that may be credited against future billings to customer entities when revenues exceed costs.

d. Requiring customer entities to validate that sufficient funds exist in the appropriate data processing appropriation category or will be transferred into the appropriate data processing appropriation category before implementation of a customer entity's request for a change in the type or level of service provided, if such change results in a net increase to the customer entity's cost for that fiscal year.

e. By November 15 of each year, providing to the Office of Policy and Budget in the Executive Office of the Governor and to the chairs of the legislative appropriations committees the projected costs of providing data center services for the following fiscal year.

f. Providing a plan for consideration by the Legislative Budget Commission if the cost of a service is increased for a reason other than a customer entity's request made pursuant to sub-subparagraph d. Such a plan is required only if the service cost increase results in a net increase to a customer entity for that fiscal year.

g. Standardizing and consolidating procurement and contracting practices.

4. In collaboration with the Department of Law Enforcement, developing and implementing a process for detecting, reporting, and responding to cybersecurity ~~information technology security~~

incidents, breaches, and threats.

5. Adopting rules relating to the operation of the state data center, including, but not limited to, budgeting and accounting procedures, cost-recovery methodologies, and operating procedures.

Section 4. Paragraph (g) of subsection (1) of section 282.201, Florida Statutes, is amended to read:

282.201 State data center.—The state data center is established within the department. The provision of data center services must comply with applicable state and federal laws, regulations, and policies, including all applicable security, privacy, and auditing requirements. The department shall appoint a director of the state data center, preferably an individual who has experience in leading data center facilities and has expertise in cloud-computing management.

(1) STATE DATA CENTER DUTIES.—The state data center shall:

(g) In its procurement process, show preference for cloud-computing solutions that minimize or do not require the purchasing, financing, or leasing of state data center infrastructure, and that meet the needs of customer agencies, that reduce costs, and that meet or exceed the applicable state and federal laws, regulations, and standards for cybersecurity ~~information technology security~~.

Section 5. Subsection (2) of section 282.206, Florida Statutes, is amended to read:

282.206 Cloud-first policy in state agencies.—

(2) In its procurement process, each state agency shall show a preference for cloud-computing solutions that either minimize or do not require the use of state data center

infrastructure when cloud-computing solutions meet the needs of the agency, reduce costs, and meet or exceed the applicable state and federal laws, regulations, and standards for cybersecurity ~~information technology security~~.

Section 6. Section 282.318, Florida Statutes, is amended to read:

282.318 Cybersecurity ~~Security of data and information technology~~.—

(1) This section may be cited as the "State Cybersecurity Act." ~~"Information Technology Security Act."~~

(2) As used in this section, the term "state agency" has the same meaning as provided in s. 282.0041, except that the term includes the Department of Legal Affairs, the Department of Agriculture and Consumer Services, and the Department of Financial Services.

(3) The department, acting through the Florida Digital Service, is the lead entity responsible for establishing standards and processes for assessing state agency cybersecurity risks and determining appropriate security measures. Such standards and processes must be consistent with generally accepted technology best practices, including the National Institute for Standards and Technology Cybersecurity Framework, for cybersecurity. The department, acting through the Florida Digital Service, shall adopt ~~information technology security, to include cybersecurity, and adopting~~ rules that mitigate risks; safeguard state agency digital assets, ~~an agency's~~ data, information, and information technology resources to ensure availability, confidentiality, and integrity; and support a security governance framework ~~and to mitigate risks~~. The

department, acting through the Florida Digital Service, shall also:

(a) Designate an employee of the Florida Digital Service as the state chief information security officer. The state chief information security officer must have experience and expertise in security and risk management for communications and information technology resources. The state chief information security officer is responsible for the development, operation, and oversight of cybersecurity for state technology systems. The state chief information security officer shall be notified of all confirmed or suspected incidents or threats of state agency information technology resources and must report such incidents or threats to the state chief information officer and the Governor.

(b) Develop, and annually update by February 1, a statewide cybersecurity ~~information technology security~~ strategic plan that includes security goals and objectives for cybersecurity, including the identification and mitigation of risk, proactive protections against threats, tactical risk detection, threat reporting, and response and recovery protocols for a cyber incident ~~the strategic issues of information technology security policy, risk management, training, incident management, and disaster recovery planning~~.

(c) Develop and publish for use by state agencies a cybersecurity governance ~~an information technology security~~ framework that, at a minimum, includes guidelines and processes for:

1. Establishing asset management procedures to ensure that an agency's information technology resources are identified and

managed consistent with their relative importance to the agency's business objectives.

2. Using a standard risk assessment methodology that includes the identification of an agency's priorities, constraints, risk tolerances, and assumptions necessary to support operational risk decisions.

3. Completing comprehensive risk assessments and cybersecurity ~~information technology security~~ audits, which may be completed by a private sector vendor, and submitting completed assessments and audits to the department.

4. Identifying protection procedures to manage the protection of an agency's information, data, and information technology resources.

5. Establishing procedures for accessing information and data to ensure the confidentiality, integrity, and availability of such information and data.

6. Detecting threats through proactive monitoring of events, continuous security monitoring, and defined detection processes.

7. Establishing agency cybersecurity ~~computer security~~ incident response teams and describing their responsibilities for responding to cybersecurity ~~information technology security~~ incidents, including breaches of personal information containing confidential or exempt data.

8. Recovering information and data in response to a cybersecurity ~~an information technology security~~ incident. The recovery may include recommended improvements to the agency processes, policies, or guidelines.

9. Establishing a cybersecurity ~~an information technology~~

~~security~~ incident reporting process that includes procedures and tiered reporting timeframes for notifying the department and the Department of Law Enforcement of cybersecurity ~~information technology security~~ incidents. The tiered reporting timeframes shall be based upon the level of severity of the cybersecurity ~~information technology security~~ incidents being reported.

10. Incorporating information obtained through detection and response activities into the agency's cybersecurity ~~information technology security~~ incident response plans.

11. Developing agency strategic and operational cybersecurity ~~information technology security~~ plans required pursuant to this section.

12. Establishing the managerial, operational, and technical safeguards for protecting state government data and information technology resources that align with the state agency risk management strategy and that protect the confidentiality, integrity, and availability of information and data.

13. Establishing procedures for procuring information technology commodities and services that require the commodity or service to meet the National Institute of Standards and Technology Cybersecurity Framework.

(d) Assist state agencies in complying with this section.

(e) In collaboration with the Cybercrime Office of the Department of Law Enforcement, annually provide training for state agency information security managers and computer security incident response team members that contains training on cybersecurity ~~information technology security~~, including cybersecurity~~,~~ threats, trends, and best practices.

(f) Annually review the strategic and operational

cybersecurity ~~information technology security~~ plans of state ~~executive branch~~ agencies.

(g) Provide cybersecurity training to all state agency technology professionals which develops, assesses, and documents competencies by role and skill level. The training may be provided in collaboration with the Cybercrime Office of the Department of Law Enforcement, a private sector entity, or an institution of the state university system.

(h) Operate and maintain a Cybersecurity Operations Center led by the state chief information security officer, which must be primarily virtual and staffed with tactical detection and incident response personnel. The Cybersecurity Operations Center shall serve as a clearinghouse for threat information and coordinate with the Department of Law Enforcement to support state agencies and their response to any confirmed or suspected cybersecurity incident.

(i) Lead an Emergency Support Function, ESF CYBER, under the state comprehensive emergency management plan as described in s. 252.35.

(4) Each state agency head shall, at a minimum:

(a) Designate an information security manager to administer the cybersecurity ~~information technology security~~ program of the state agency. This designation must be provided annually in writing to the department by January 1. A state agency's information security manager, for purposes of these information security duties, shall report directly to the agency head.

(b) In consultation with the department, through the Florida Digital Service, and the Cybercrime Office of the Department of Law Enforcement, establish an agency cybersecurity

~~computer security incident~~ response team to respond to a cybersecurity ~~an information technology security~~ incident. The agency cybersecurity ~~computer security incident~~ response team shall convene upon notification of a cybersecurity ~~an information technology security~~ incident and must immediately report all confirmed or suspected incidents to the state chief information security officer, or his or her designee, and comply with all applicable guidelines and processes established pursuant to paragraph (3)(c).

(c) Submit to the department annually by July 31, the state agency's strategic and operational cybersecurity ~~information technology security~~ plans developed pursuant to rules and guidelines established by the department, through the Florida Digital Service.

1. The state agency strategic cybersecurity ~~information technology security~~ plan must cover a 3-year period and, at a minimum, define security goals, intermediate objectives, and projected agency costs for the strategic issues of agency information security policy, risk management, security training, security incident response, and disaster recovery. The plan must be based on the statewide cybersecurity ~~information technology security~~ strategic plan created by the department and include performance metrics that can be objectively measured to reflect the status of the state agency's progress in meeting security goals and objectives identified in the agency's strategic information security plan.

2. The state agency operational cybersecurity ~~information technology security~~ plan must include a progress report that objectively measures progress made towards the prior operational

cybersecurity ~~information technology security~~ plan and a project plan that includes activities, timelines, and deliverables for security objectives that the state agency will implement during the current fiscal year.

(d) Conduct, and update every 3 years, a comprehensive risk assessment, which may be completed by a private sector vendor, to determine the security threats to the data, information, and information technology resources, including mobile devices and print environments, of the agency. The risk assessment must comply with the risk assessment methodology developed by the department and is confidential and exempt from s. 119.07(1), except that such information shall be available to the Auditor General, the Florida Digital Service within the department, the Cybercrime Office of the Department of Law Enforcement, and, for state agencies under the jurisdiction of the Governor, the Chief Inspector General. If a private sector vendor is used to complete a comprehensive risk assessment, it must attest to the validity of the risk assessment findings.

(e) Develop, and periodically update, written internal policies and procedures, which include procedures for reporting cybersecurity ~~information technology security~~ incidents and breaches to the Cybercrime Office of the Department of Law Enforcement and the Florida Digital Service within the department. Such policies and procedures must be consistent with the rules, guidelines, and processes established by the department to ensure the security of the data, information, and information technology resources of the agency. The internal policies and procedures that, if disclosed, could facilitate the unauthorized modification, disclosure, or destruction of data or

information technology resources are confidential information and exempt from s. 119.07(1), except that such information shall be available to the Auditor General, the Cybercrime Office of the Department of Law Enforcement, the Florida Digital Service within the department, and, for state agencies under the jurisdiction of the Governor, the Chief Inspector General.

(f) Implement managerial, operational, and technical safeguards and risk assessment remediation plans recommended by the department to address identified risks to the data, information, and information technology resources of the agency. The department, through the Florida Digital Service, shall track implementation by state agencies upon development of such remediation plans in coordination with agency inspectors general.

(g) Ensure that periodic internal audits and evaluations of the agency's cybersecurity ~~information technology security~~ program for the data, information, and information technology resources of the agency are conducted. The results of such audits and evaluations are confidential information and exempt from s. 119.07(1), except that such information shall be available to the Auditor General, the Cybercrime Office of the Department of Law Enforcement, the Florida Digital Service within the department, and, for agencies under the jurisdiction of the Governor, the Chief Inspector General.

(h) Ensure that the ~~information technology security and~~ cybersecurity requirements in both the written specifications for the solicitation, contracts, and service-level agreement of information technology and information technology resources and services meet or exceed the applicable state and federal laws,

regulations, and standards for ~~information technology security and~~ cybersecurity, including the National Institute of Standards and Technology Cybersecurity Framework. Service-level agreements must identify service provider and state agency responsibilities for privacy and security, protection of government data, personnel background screening, and security deliverables with associated frequencies.

(i) Provide ~~information technology security and~~ cybersecurity awareness training to all state agency employees in the first 30 days after commencing employment concerning cybersecurity ~~information technology security~~ risks and the responsibility of employees to comply with policies, standards, guidelines, and operating procedures adopted by the state agency to reduce those risks. The training may be provided in collaboration with the Cybercrime Office of the Department of Law Enforcement, a private sector entity, or an institution of the state university system.

(j) Develop a process for detecting, reporting, and responding to threats, breaches, or cybersecurity ~~information technology security~~ incidents which is consistent with the security rules, guidelines, and processes established by the department through the Florida Digital Service.

1. All cybersecurity ~~information technology security~~ incidents and breaches must be reported to the Florida Digital Service within the department and the Cybercrime Office of the Department of Law Enforcement and must comply with the notification procedures and reporting timeframes established pursuant to paragraph (3)(c).

2. For cybersecurity ~~information technology security~~

breaches, state agencies shall provide notice in accordance with s. 501.171.

(5) Portions of records held by a state agency which contain network schematics, hardware and software configurations, or encryption, or which identify detection, investigation, or response practices for suspected or confirmed cybersecurity ~~information technology security~~ incidents, including suspected or confirmed breaches, are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution, if the disclosure of such records would facilitate unauthorized access to or the unauthorized modification, disclosure, or destruction of:

(a) Data or information, whether physical or virtual; or

(b) Information technology resources, which includes:

1. Information relating to the security of the agency's technologies, processes, and practices designed to protect networks, computers, data processing software, and data from attack, damage, or unauthorized access; or

2. Security information, whether physical or virtual, which relates to the agency's existing or proposed information technology systems.

(6) The portions of risk assessments, evaluations, external audits, and other reports of a state agency's cybersecurity ~~information technology security~~ program for the data, information, and information technology resources of the state agency which are held by a state agency are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution if the disclosure of such portions of records would facilitate unauthorized access to or the unauthorized

modification, disclosure, or destruction of:

(a) Data or information, whether physical or virtual; or

(b) Information technology resources, which include:

1. Information relating to the security of the agency's technologies, processes, and practices designed to protect networks, computers, data processing software, and data from attack, damage, or unauthorized access; or

2. Security information, whether physical or virtual, which relates to the agency's existing or proposed information technology systems.

For purposes of this subsection, "external audit" means an audit that is conducted by an entity other than the state agency that is the subject of the audit.

(7) Those portions of a public meeting as specified in s. 286.011 which would reveal records which are confidential and exempt under subsection (5) or subsection (6) are exempt from s. 286.011 and s. 24(b), Art. I of the State Constitution. No exempt portion of an exempt meeting may be off the record. All exempt portions of such meeting shall be recorded and transcribed. Such recordings and transcripts are confidential and exempt from disclosure under s. 119.07(1) and s. 24(a), Art. I of the State Constitution unless a court of competent jurisdiction, after an in camera review, determines that the meeting was not restricted to the discussion of data and information made confidential and exempt by this section. In the event of such a judicial determination, only that portion of the recording and transcript which reveals nonexempt data and information may be disclosed to a third party.

576-03929-21

(8) The portions of records made confidential and exempt in subsections (5), (6), and (7) shall be available to the Auditor General, the Cybercrime Office of the Department of Law Enforcement, the Florida Digital Service within the department, and, for agencies under the jurisdiction of the Governor, the Chief Inspector General. Such portions of records may be made available to a local government, another state agency, or a federal agency for cybersecurity ~~information technology security~~ purposes or in furtherance of the state agency's official duties.

(9) The exemptions contained in subsections (5), (6), and (7) apply to records held by a state agency before, on, or after the effective date of this exemption.

(10) Subsections (5), (6), and (7) are subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2025, unless reviewed and saved from repeal through reenactment by the Legislature.

(11) The department shall adopt rules relating to cybersecurity ~~information technology security~~ and to administer this section.

Section 7. Section 282.319, Florida Statutes, is created to read:

282.319 Florida Cybersecurity Advisory Council.—

(1) The Florida Cybersecurity Advisory Council, an advisory council as defined in s. 20.03(7), is created within the department. Except as otherwise provided in this section, the advisory council shall operate in a manner consistent with s. 20.052.

(2) The purpose of the council is to assist state agencies

576-03929-21

in protecting their information technology resources from cyber threats and incidents.

(3) The council shall assist the Florida Digital Service in implementing best cybersecurity practices, taking into consideration the final recommendations of the Florida Cybersecurity Task Force created under chapter 2019-118, Laws of Florida.

(4) The council shall be comprised of the following members:

(a) The Lieutenant Governor or his or her designee.

(b) The state chief information officer.

(c) The state chief information security officer.

(d) The director of the Division of Emergency Management or his or her designee.

(e) A representative of the computer crime center of the Department of Law Enforcement, appointed by the executive director of the Department of Law Enforcement.

(f) A representative of the Florida Fusion Center of the Department of Law Enforcement, appointed by the executive director of the Department of Law Enforcement.

(g) The Chief Inspector General.

(h) A representative from the Public Service Commission.

(i) Up to two representatives from institutions of higher education located in this state, appointed by the Governor.

(j) Three representatives from critical infrastructure sectors, one of which must be from a water treatment facility, appointed by the Governor.

(k) Four representatives of the private sector with senior level experience in cybersecurity or software engineering from

within the finance, energy, health care, and transportation sectors, appointed by the Governor.

(l) Two representatives with expertise on emerging technology, with one appointed by the President of the Senate and one appointed by the Speaker of the House of Representatives.

(5) Members shall serve for a term of 4 years; however, for the purpose of providing staggered terms, the initial appointments of members made by the Governor shall be for a term of 2 years. A vacancy shall be filled for the remainder of the unexpired term in the same manner as the initial appointment. All members of the council are eligible for reappointment.

(6) The Secretary of Management Services, or his or her designee, shall serve as the ex officio, nonvoting executive director of the council.

(7) Members of the council shall serve without compensation but are entitled to receive reimbursement for per diem and travel expenses pursuant to s. 112.061.

(8) Members of the council shall maintain the confidential or exempt status of information received in the performance of their duties and responsibilities as members of the council. In accordance with s. 112.313, a current or former member of the council may not disclose or use information not available to the general public and gained by reason of their official position, except for information relating exclusively to governmental practices, for their personal gain or benefit or for the personal gain or benefit of any other person or business entity. Members shall sign an agreement acknowledging the provisions of this subsection.

(9) The council shall meet at least quarterly to:

(a) Review existing state agency cybersecurity policies.

(b) Assess ongoing risks to state agency information technology.

(c) Recommend a reporting and information sharing system to notify state agencies of new risks.

(d) Recommend data breach simulation exercises.

(e) Assist the Florida Digital Service in developing cybersecurity best practice recommendations for state agencies which include recommendations regarding:

1. Continuous risk monitoring.

2. Password management.

3. Protecting data in legacy and new systems.

(f) Examine inconsistencies between state and federal law regarding cybersecurity.

(10) The council shall work with the National Institute of Standards and Technology and other federal agencies, private sector businesses, and private cybersecurity experts:

(a) For critical infrastructure not covered by federal law, to identify which local infrastructure sectors are at the greatest risk of cyber attacks and need the most enhanced cybersecurity measures.

(b) To use federal guidance to identify categories of critical infrastructure as critical cyber infrastructure if cyber damage or unauthorized cyber access to the infrastructure could reasonably result in catastrophic consequences.

(11) Beginning June 30, 2022, and each June 30 thereafter, the council shall submit to the President of the Senate and the Speaker of the House of Representatives any legislative

recommendations considered necessary by the council to address cybersecurity.

Section 8. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1900
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Agriculture, Environment, and General Government); Governmental Oversight and Accountability Committee; and Senator Boyd
SUBJECT:	Cybersecurity
DATE:	April 21, 2021 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Candelaria	McVaney	GO	**Fav/CS**
2.	Davis	Betta	AEG	**Recommend: Fav/CS**
3.	Davis	Sadberry	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1900 expands the duties and responsibilities of the Florida Digital Service (FDS) relating to the state's cybersecurity governance framework.

The bill defines "cybersecurity" to mean the protection afforded to an automated information system in order to attain the applicable objectives of preserving the confidentiality, integrity, and availability of data, information, and information technology (IT) resources.

The bill requires that a cybersecurity audit plan be included in the long-term and annual audit plans that agency inspectors general are required to complete.

The bill specifies the Department of Management Services (DMS), acting through the FDS, is the lead entity responsible for assessing state agency cybersecurity risks and determining appropriate security measures to combat such risks. The bill creates new, and amends current, cybersecurity related duties and responsibilities of the DMS. The bill also expands the responsibilities of each state agency head in relation to cybersecurity.

The bill creates the Florida Cybersecurity Advisory Council (council) within the DMS. The purpose of the council is to assist the state in protecting the state's IT resources from cyber threats and incidents, and to assist the FDS in implementing best cybersecurity practices. The bill

outlines membership requirements of the council, term requirements of each member, and duties and responsibilities of the council as a whole.

Beginning June 30, 2022, and annually thereafter, the council is required to submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives outlining any recommendations considered necessary by the council to address cybersecurity.

The bill makes conforming changes across several provisions by replacing all versions of the term "information technology security" with the term "cybersecurity."

The bill has an indeterminate significant fiscal impact on state expenditures. *See* Part V, Fiscal Impact Statement.

The bill takes effect July 1, 2021.

II. Present Situation:

Agency Inspectors General

An office of the inspector general (office) is established in each state agency to provide a central point for coordination of, and responsibility for, activities that promote accountability, integrity, and efficiency in government.[1] The office within each agency is responsible for advising in the development of performance measures, standards, and procedures for the evaluation of state agency programs. The office is also required to assess the reliability and validity of information provided by the state agency on performance measures and standards and must make recommendations for improvement when necessary.

In carrying out the auditing duties and responsibilities, each inspector general should review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency. The inspector general will conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of the findings. At the conclusion of an audit, the inspector general will submit preliminary findings and recommendations to the person responsible for supervision of the program function or operational unit who can respond to any adverse findings within 20 working days after receipt of the preliminary findings. The inspector general will submit the final report to the agency head, the Auditor General and, for state agencies under the Governor, the Chief Inspector General. The inspector general shall develop long-term and annual audit plans based on the findings of the risk assessment. The plan, where appropriate, should include post-audit samplings of payments and accounts. The plan should show the individual audits to be conducted during each year and related resources to be devoted to the respective audits. A copy of the approved plan shall be submitted to the Auditor General.[2]

[1] Section 20.055(2), F.S.
[2] *Id.*

National Institute for Standards and Technology Cybersecurity Framework

The National Institute for Standards and Technology Cybersecurity (NIST) is a non-regulatory federal agency housed within the U.S. Department of Commerce. The NIST is charged with providing a prioritized, flexible, repeatable, performance-based, and cost effective framework that helps owners and operators of critical infrastructure identify, assess, and manage cyber risk. While the framework was developed with critical infrastructure in mind, it can be used by organizations in any sector of the economy or society.[3] The framework is designed to complement, and not replace, an organization's own unique approach to cybersecurity risk management. As such, there are a variety of ways to use the framework and the decision about how to apply it is left to the implementing organization. Overall, the framework provides an outline of best practices that helps organizations decide where to focus resources for cybersecurity protection.[4]

The Information Technology Security Act

The Information Technology (IT) Security Act (act) requires the Department of Management Services (DMS) and heads of state agencies[5] to meet certain requirements to enhance the IT security of state agencies. Specifically, the act provides that the DMS is responsible for establishing standards and processes consistent with generally accepted best practices for IT security, including cybersecurity, and adopting rules that safeguard an agency's data, information, and IT resources to mitigate risks.[6] The DMS is required to designate an employee of the Florida Digital Service (FDS) as the state chief information security officer, who must have experience and expertise in security and risk management for communications and IT resources.

The DMS is required, by February 1 of each year, to develop a statewide IT security strategic plan that includes security goals and objectives for the strategic issues of IT security policy, risk management, training, and disaster recovery planning. Further, the DMS is required to develop and publish for use by state agencies an information technology security framework that includes specific guidelines and processes.[7]

The DMS, in collaboration with the Cybercrime Office of the Department of Law Enforcement, provides training for state agency information security managers and computer security incident response team members that contains training on IT security.[8] The DMS is required to develop and publish for use by state agencies an IT security framework. The act requires each state

[4] *Id.*
[5] The term "state agency" means any official, officer, commission, board, authority, council, committee, or department of the executive branch of state government; the Justice Administrative Commission; and the Public Service Commission. The term does not include university boards of trustees or state universities. Section 282.0041(33), F.S. For purposes of the IT Security Act, the term includes the Department of Legal Affairs, the Department of Agriculture and Consumer Services, and the Department of Financial Services. Section 282.318(2), F.S.
[6] Section 282.318, F.S.
[7] Section 282.318(3)(b), F.S.
[8] Section 282.318(3)(e), F.S.

agency to designate an information security manager to administer the IT security program of the state agency. This designation must be provided annually in writing to the DMS.[9]

The act requires the head of each state agency to designate an information security manager to administer the IT security program of the state agency.[10] In addition, the head of each state agency must:

- Establish an agency computer incident response team in consultation with the Cybercrime Office within the Florida Department of Law Enforcement (FDLE);
- Annually submit to the DMS the state agency's strategic and operational IT security plans;
- Conduct, and update every three years, a comprehensive risk assessment to determine the security threats to the data, information, and IT resources of the state agency;
- Develop, and periodically update, written internal policies and procedures, including procedures for reporting IT security incidents and breaches to the Cybercrime Office within the FDLE and the Florida Digital Service (FDS);
- Ensure that periodic internal audits and evaluations of the agency's IT security program for the data, information, and IT resources of the agency are conducted;
- Ensure that the IT security and cybersecurity requirements in both written specifications for the solicitation and service-level agreement of IT and IT resources and services meet or exceed applicable state and federal laws, regulations, and standards for IT security and cybersecurity;
- Provide IT security and cybersecurity awareness training to all state agency employees within 30 days of commencing employment; and
- Develop a process that is consistent with the rules and guidelines established by the DMS for detecting, reporting, and responding to threats, breaches, or IT security incidents.[11]

Florida Digital Service

The FDS has been created within the DMS to propose innovative solutions that securely modernize state government, including technology and information services, to achieve value through digital transformation, and to fully support cloud-first policy[12]. The FDS partners with all state agencies to deliver better government services through design and technology. The FDS is responsible for developing an enterprise architecture, project management and oversight standards, and technology policy for the management of the state's IT[13] resources.

The Secretary of the DMS is required to designate a state chief information officer (CIO), who will administer the FDS. The CIO must have at least five years of experience in the development of IT strategic planning and development or IT policy, and preferably have leadership-level experience in the design, development, and deployment of interoperable software and data solutions. The CIO, on consultation with the Secretary of the DMS, is required to designate a

[10] Section 282.318(4)(a), F.S.
[11] Section 282.318(4), F.S.
[12] Section 282.0051(1), F.S.
[13] Section 282.0041(1), F.S., defines "information technology" to mean equipment, hardware, software, firmware, programs, systems, networks, infrastructure, media, and related material used to automatically, electronically, and wirelessly collect, receive, access, transmit, display, store, record, retrieve, analyze, evaluate, process, classify, manipulate, manage, assimilate, control, communicate, exchange, convert, converge, interface, switch, or disseminate information of any kind or form.

state chief data officer. The chief data officer must be a proven and effective administrator who must have significant and substantive experience in data management, data governance, interoperability, and security.

Florida Center for Cybersecurity

Section 1004.444, F.S., creates the Florida Center for Cybersecurity (Cyber Florida).[14] Cyber Florida was created to help the state become a national leader in cybersecurity education, academics, practical research, and community outreach. Established under the auspices of the University of South Florida, Cyber Florida works with all 12 State University System institutions to:

- Assist in the creation of jobs in the state's cybersecurity industry and enhance the existing cybersecurity workforce;
- Act as a cooperative facilitator for state business and higher education communities to share cybersecurity knowledge, resources, and training;
- Seek out partnerships with major military installations to assist, when possible, in homeland cybersecurity defense initiatives; and
- Attract cybersecurity companies to the state with an emphasis on defense, finance, health care, transportation, and utility sectors.[15]

State Data Center

The State Data Center (data center) within the DMS provides data center services that comply with applicable state and federal laws, regulations, and policies, including all applicable security, privacy, and auditing requirements.[16] The data center offers, develops, and supports the services and applications defined in service-level agreements executed with its customer entities. The data center enters into service-level agreements with each customer entity to provide the required type and level of service or services.

Cybercrime Office

The cybercrime office is created within the FDLE. The cybercrime office may investigate violations of state law pertaining to the sexual exploitation of children which are facilitated or connected to the use of any device capable of storing electronic data. The cybercrime office monitors state IT resources and provides analysis on IT security incidents, threats, and breaches as defined in s. 282.0041, F.S. Further, the cybercrime office provides security awareness training and information to state agency employees concerning cybersecurity, online sexual exploitation of children, and the responsibility of employees to comply with policies, standards, guidelines, and operating procedures adopted by the FDLE. The cybercrime office consults with the FDS in the adoption of rules relating to the information technology security provisions in s. 282.318, F.S.[17]

[14] Section 1004.444, F.S.
[15] *Id.*
[16] Section 282.201, F.S.
[17] Section 943.0415, F.S.

Advisory Council Requirements under Section 20.03, Florida Statutes

Section 20.03(7), F.S., defines a "council" or "advisory council" to mean an advisory body created by specific statutory enactment and appointed to function on a continuing basis for the study of problems arising in a specified functional or program area of state government and to provide recommendations and policy alternatives.[18]

Florida law provides the following requirements for statutorily enacted advisory councils:

- A council may only be created when it is found to be necessary and beneficial to the furtherance of a public purpose.
- An advisory council may not be created or reestablished unless it meets a statutorily defined purpose and its powers conform to the definition of "advisory council" under law.
- An advisory council must be terminated by the Legislature when it is no longer necessary and beneficial to the furtherance of a public purpose. The executive agency to which the advisory council is made an adjunct must advise the Legislature at the time the committee ceases to be essential to the furtherance of a public purpose.
- The Legislature and the public must be kept informed of the numbers, purposes, memberships, activities, and expenses of the committee.[19]

A private citizen member of an advisory council that is adjunct to an executive agency must be appointed by the Governor, the head of the department, the executive director of the department, or a Cabinet officer.[20]

Standards of Conduct for Public Officers and Employees

Section 112.313, F.S., provides standards of conduct to which a public officer or public employee must adhere in performing his or her official duties and responsibilities. The standards of conduct are intended to ensure that a public officer or public employee conducts his or her self independently and impartially. Such standards include limitations on the solicitation or acceptance of gifts, doing business with one's agency, unauthorized compensation, salary and expenses, misuse of his or her public position, and disclosure of information not available to members of the general public and gained by reason of his or her official position.[21]

III. Effect of Proposed Changes:

Section 1 amends s. 20.055, F.S., to require that a specific cybersecurity audit plan be included in the long-term and annual audit plans that agency inspector generals are required to complete.

Section 2 amends s. 282.0041, F.S., to substitute the term "cybersecurity" for "information technology (IT) security" and to define the term "cybersecurity" to mean the protection afforded to an automated information system in order to attain the applicable objectives of preserving the confidentiality, integrity, and availability of data, information, and IT resources.

[18] Section 20.03(7), F.S.
[19] Section 20.052(1)-(4), F.S.
[20] Section 20.052(5)(a), F.S.
[21] Section 112.313(2)-(17), F.S.

This section repeals the definition of the term "information technology security," which is made obsolete by this bill.

Sections 3, 4, and 5 amend ss. 282.0051, 282.201, and 282.206, F.S., respectively, relating to the powers and duties of the Department of Management Services (DMS), the state data center, and "cloud-first" policy, to conform to the changes of the bill by replacing all versions of the term "information technology security" with the term "cybersecurity."

Section 6 amends s. 282.318, F.S., to rename the "Information Technology Security Act" as the "State Cybersecurity Act."

This section designates the DMS, acting through the Florida Digital Service (FDS), as the lead entity responsible for assessing state agency cybersecurity risks and determining appropriate security measures. Thus, the DMS, acting through the FDS, must:

- Establish standards and processes that must be consistent with generally accepted technology best practices, including the National Institute for Standards and Technology (NIST) Cybersecurity Framework, for cybersecurity;
- Adopt rules that mitigate risk, safeguard the state's digital assets and agency data to ensure availability, confidentiality, and integrity and support a security governance framework;
- Designate an employee of the FDS as the state chief information security officer. The state chief information security officer is responsible for the development, operation, and oversight of cybersecurity for state technology systems. The state chief information security officer must be notified of all confirmed or suspected incidents or threats of state agency IT resources and must report such incidents the state chief information officer (CIO);
- Develop, and update annually by February 1, a statewide cybersecurity strategic plan that includes security goals and objectives for cybersecurity, including the identification and mitigation of risk, proactive protections against threats, tactical risk detection, threat reporting, and response and recovery protocols for a cyber-incident;
- Develop and publish for use by state agencies a cybersecurity governance that includes guidelines;
- Establish procedures for procuring IT commodities and services that require the commodity or service to meet the NIST Framework;
- Provide training to all state agency technology professionals which develops, assesses, and documents competencies by role and skill level. The training may be provided in collaboration with the Cybercrime Office of the Florid Department of Law Enforcement (FDLE), a private sector entity, or a state university;
- Operate and maintain a Cybersecurity Operations Center led by the state chief information security officer, which must be primarily virtue and staffed with tactical detection and incident response personnel. The Cybersecurity Operations Center must serve as a clearinghouse for threat information and coordinate with the FDLE to support state agencies and their response to any confirmed or suspected cybersecurity incident; and
- Lead an Emergency Support Function, ESF CYBER, under the state comprehensive emergency management plan as described in s. 252.35, F.S.

This section requires each state agency head to:

- Establish an agency cybersecurity response team in consultation with the FDS and the FDLE, and immediately report all confirmed or suspected cybersecurity incidents to the state chief information security officer, or his or her designee;
- Conduct, and update every three years, a comprehensive risk assessment which may be completed by a private sector vendor to determine security threats to the data, information, and IT resources of the agency. If a private sector vendor is used to complete this requirement, the vendor must attest to the validity of the risk assessment findings;
- Implement managerial, operational, and risk assessment remediation plans recommended by the DMS to addresses identified risks to the agency. The DMS, through the FDS, must track implementation by state agencies upon development of such remediation plans in coordination with agency inspectors general;
- Ensure that the cybersecurity requirements in both the written specifications for the solicitation, contracts, and service-level agreement of IT and IT resources and services meet the NIST Cybersecurity Framework; and
- Provide cybersecurity awareness training, in collaboration with the Cybercrime Office, a private sector entity, or an institution of the state university system to all state agency employees in the first 30 days after commencing employment.

This section replaces all versions of the term "information technology security" with the term "cybersecurity."

Section 7 creates s. 282.319, F.S., establishing the Florida Cybersecurity Advisory Council (council) within the DMS.

The council must operate in a manner consistent with s. 20.052, F.S. The purpose of the council is to assist the state in protecting the state's IT resources from cyber threats and incidents and to assist the FDS in implementing the best cybersecurity practices, taking into consideration the final recommendations of the Florida Cybersecurity Task Force.

The council is comprised of the following members:
- The Lieutenant Governor or his or her designee;
- The state chief information officer;
- The state chief information security officer;
- The director of the Division of Emergency Management or his or her designee;
- A representative of the computer crime center of the FDLE, appointed by the executive director of the FDLE;
- A representative of the Florida Fusion Center of the FDLE, appointed by the executive director of the FDLE;
- The Chief Inspector General;
- A representative from the Public Service Commission;
- Up to two representatives from institutions of higher education located in the state, appointed by the Governor;
- Three representatives from critical infrastructure sectors, one of which must be from a water-treatment facility, appointed by the Governor;

- Four representatives of the private sector with senior level experience in cybersecurity or software engineering from within finance, energy, health care, and transportation sector, appointed by the Governor; and
- Two representatives with expertise on emerging technology with one appointed by the President of the Senate and one appointed by the Speaker of the House of Representatives.

The members serve for a term of four years, with the initial appointments made serving for a term of two years. A vacancy must be filled for the remainder of the unexpired term in the same manner as the initial appointment, and all members of the council are eligible for reappointment. The Secretary of Management Services, or his or her designee, must serve as the ex officio, nonvoting executive director of the council. Members of the council serve without compensation but are entitled to reimbursement for per diem and travel expenses as defined in s. 112.061, F.S.

Council members are required to maintain the confidential or exempt status of information received in the performance of their official duties and responsibilities. The bill prohibits current or former members from disclosing or using information not available to the general public and gained by reason of their official position for their personal gain or benefit or the personal gain or benefit of another. Council members must sign an agreement acknowledging these provisions.

The council must meet quarterly to:
- Review existing state agency cybersecurity policies;
- Assess ongoing risks to state agency information technology;
- Recommend a method to notify state agencies of new risks;
- Recommend data breach simulation exercises;
- Examine inconsistencies between state and federal law regarding cybersecurity; and
- Assist the FDS in developing cybersecurity best practices recommendations for state agencies which include recommendations regarding:
  - Continuous risk monitoring;
  - Password management; and
  - Protecting data in legacy and new systems.

The council must work with the NIST and other federal agencies, private sector businesses, and private cybersecurity experts:
- For critical infrastructure not covered by federal law, to identify which local infrastructure sectors are at greatest risk of cyber-attacks and need the most enhanced security measures; and
- To use federal guidance to identify categories of critical infrastructure as critical cyber infrastructure if cyber damage or access could reasonable result in catastrophic consequences.

Beginning June 30, 2022, and annually thereafter, the council must submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives outlining any recommendations considered necessary by the council to address cybersecurity.

Section 8 provides the bill takes effect July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

The mandate restrictions do not apply because the bill does not require counties and municipalities to spend funds, reduce counties' or municipalities' ability to raise revenue, or reduce the percentage of state tax shared with counties and municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

None identified.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill will have a significant fiscal impact on state government due to the operation and maintenance of the Cybersecurity Operations Center, and expenses associated with the Florida Digital Service and the Florida Cybersecurity Advisory Council.

The Department of Management Services (DMS) submitted an Amended Legislative Budget Request (LBR) for Fiscal Year 2021-2022 requesting $30 million ($21 million non-recurring) General Revenue to allow the Florida Digital Service (FDS) to begin implementing the recommendations[22] of the February 1, 2021, Florida Cybersecurity Task Force Final Report, including additional training, incident reporting, and threat detection monitoring. According to the LBR request, funds would be used to support

[22] The Department of Management Services Amended Legislative Budget Request for FY 2021-2022 Fist Submission, available at http://floridafiscalportal.state.fl.us/Document.aspx?ID=21881&DocType=PDF

immediate enterprise level resiliency priorities and risk mitigation measure as identified by the state chief information officer and chief information security officer. The DMS also, provided cost estimates for the following responsibilities required in the bill, which are encompassed in the LBR request: $672,000 for providing new cybersecurity training, $3.2 million for operating a virtual Cybersecurity Operations Center, and $320,000 for procurement of an incident tracking tool.

In addition, an agency may incur additional costs if it uses a private sector vendor to complete the required risk assessment once every three years.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 20.055, 282.0041, 282.0051, 282.201, 282.206, and 282.318.

This bill creates section 282.319 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 19, 2021:
The proposed committee substitute:

- Clarifies that the executive director of the Department of Law Enforcement appoints the representatives from the computer crime center and the Florida Fusion Center to the advisory council; and
- Includes a provision requiring members of the advisory council to maintain the confidential or exempt status of information received in the performance of their official duties and responsibilities.

CS by Governmental Oversight and Accountability on March 31, 2021:
The committee substitute:

- Revises the definition for the term "Cybersecurity;"
- Removes the designation of employees under the chief information security officer as selected exempt service;
- Revises the duties of the chief information security officer from the "development, operation, and management of cybersecurity for state technology systems" to the "development, operations, and oversight of cybersecurity for state technology systems";

- Removes the authority from the Florida Digital Service to intervene in any confirmed or suspected cybersecurity incident of a state agency;
- Removes the requirement that an agency head must provide an asset management report detailing the agency's IT resources to the chief information officer and chief information security officer;
- Removes the requirement that an agency head must conduct a comprehensive risk assessment on an annual basis, and maintains the three-year requirement provided in current law;
- Requires that solicitations, contracts and service level-agreements relating to cybersecurity meet the National Institute of Standards and Technology Cybersecurity Framework;
- Revises the membership of the newly created Florida Cybersecurity Advisory Council; and
- Requires the council to work with the National Institute of Standards and Technology, federal agencies, private sector businesses, and private cybersecurity experts to identify infrastructure vulnerable to cyber attacks.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

By the Committee on Governmental Oversight and Accountability; and Senator Boyd

585-03626A-21 20211900c1

A bill to be entitled

An act relating to cybersecurity; amending s. 20.055, F.S.; requiring certain audit plans of an inspector general to include certain information; amending s. 282.0041, F.S.; revising and providing definitions; amending ss. 282.0051, 282.201, and 282.206, F.S.; revising provisions to replace references to information technology security with cybersecurity; amending s. 282.318, F.S.; revising provisions to replace references to information technology security and computer security with references to cybersecurity; revising a short title; providing that the Department of Management Services, acting through the Florida Digital Service, is the lead entity for the purpose of certain responsibilities; providing and revising requirements for the department, acting through the Florida Digital Service; providing that the state chief information security officer is responsible for state technology systems and shall be notified of certain incidents and threats; revising requirements for state agency heads; requiring the department, through the Florida Digital Service, to track the implementation by state agencies of certain plans; creating s. 282.319, F.S.; creating the Florida Cybersecurity Advisory Council within the Department of Management Services; providing the purpose of the council; requiring the council to provide certain assistance to the Florida Digital Service; providing for the membership of the council; providing for terms

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

585-03626A-21 20211900c1

of council members; providing that the Secretary of Management Services, or his or her designee, shall serve as the ex officio, nonvoting executive director of the council; providing that members shall serve without compensation but are entitled to reimbursement for per diem and travel expenses; requiring the council to meet at least quarterly for certain purposes; requiring the council to work with certain entities to identify certain local infrastructure sectors and critical cyber infrastructure; requiring the council to submit an annual report to the Legislature; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (i) of subsection (6) of section 20.055, Florida Statutes, is amended to read:

20.055 Agency inspectors general.—

(6) In carrying out the auditing duties and responsibilities of this act, each inspector general shall review and evaluate internal controls necessary to ensure the fiscal accountability of the state agency. The inspector general shall conduct financial, compliance, electronic data processing, and performance audits of the agency and prepare audit reports of his or her findings. The scope and assignment of the audits shall be determined by the inspector general; however, the agency head may at any time request the inspector general to perform an audit of a special program, function, or organizational unit. The performance of the audit shall be under

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

the direction of the inspector general, except that if the inspector general does not possess the qualifications specified in subsection (4), the director of auditing shall perform the functions listed in this subsection.

(i) The inspector general shall develop long-term and annual audit plans based on the findings of periodic risk assessments. The plan, where appropriate, should include postaudit samplings of payments and accounts. The plan shall show the individual audits to be conducted during each year and related resources to be devoted to the respective audits. The plan shall include a specific cybersecurity audit plan. The Chief Financial Officer, to assist in fulfilling the responsibilities for examining, auditing, and settling accounts, claims, and demands pursuant to s. 17.03(1), and examining, auditing, adjusting, and settling accounts pursuant to s. 17.04, may use audits performed by the inspectors general and internal auditors. For state agencies under the jurisdiction of the Governor, the audit plans shall be submitted to the Chief Inspector General. The plan shall be submitted to the agency head for approval. A copy of the approved plan shall be submitted to the Auditor General.

Section 2. Present subsections (8) through (21) of section 282.0041, Florida Statutes, are redesignated as subsections (9) through (22), respectively, a new subsection (8) is added to that section, and present subsection (22) of that section is amended, to read:

282.0041 Definitions.—As used in this chapter, the term:

(8) "Cybersecurity" means the protection afforded to an automated information system in order to attain the applicable

objectives of preserving the confidentiality, integrity, and availability of data, information, and information technology resources.

~~(22) "Information technology security" means the protection afforded to an automated information system in order to attain the applicable objectives of preserving the integrity, availability, and confidentiality of data, information, and information technology resources.~~

Section 3. Paragraph (j) of subsection (1) of section 282.0051, Florida Statutes, is amended to read:

282.0051 Department of Management Services; Florida Digital Service; powers, duties, and functions.—

(1) The Florida Digital Service has been created within the department to propose innovative solutions that securely modernize state government, including technology and information services, to achieve value through digital transformation and interoperability, and to fully support the cloud-first policy as specified in s. 282.206. The department, through the Florida Digital Service, shall have the following powers, duties, and functions:

(j) Provide operational management and oversight of the state data center established pursuant to s. 282.201, which includes:

1. Implementing industry standards and best practices for the state data center's facilities, operations, maintenance, planning, and management processes.

2. Developing and implementing cost-recovery mechanisms that recover the full direct and indirect cost of services through charges to applicable customer entities. Such cost-

recovery mechanisms must comply with applicable state and federal regulations concerning distribution and use of funds and must ensure that, for any fiscal year, no service or customer entity subsidizes another service or customer entity. The Florida Digital Service may recommend other payment mechanisms to the Executive Office of the Governor, the President of the Senate, and the Speaker of the House of Representatives. Such mechanism may be implemented only if specifically authorized by the Legislature.

3. Developing and implementing appropriate operating guidelines and procedures necessary for the state data center to perform its duties pursuant to s. 282.201. The guidelines and procedures must comply with applicable state and federal laws, regulations, and policies and conform to generally accepted governmental accounting and auditing standards. The guidelines and procedures must include, but need not be limited to:

a. Implementing a consolidated administrative support structure responsible for providing financial management, procurement, transactions involving real or personal property, human resources, and operational support.

b. Implementing an annual reconciliation process to ensure that each customer entity is paying for the full direct and indirect cost of each service as determined by the customer entity's use of each service.

c. Providing rebates that may be credited against future billings to customer entities when revenues exceed costs.

d. Requiring customer entities to validate that sufficient funds exist in the appropriate data processing appropriation category or will be transferred into the appropriate data

processing appropriation category before implementation of a customer entity's request for a change in the type or level of service provided, if such change results in a net increase to the customer entity's cost for that fiscal year.

e. By November 15 of each year, providing to the Office of Policy and Budget in the Executive Office of the Governor and to the chairs of the legislative appropriations committees the projected costs of providing data center services for the following fiscal year.

f. Providing a plan for consideration by the Legislative Budget Commission if the cost of a service is increased for a reason other than a customer entity's request made pursuant to sub-subparagraph d. Such a plan is required only if the service cost increase results in a net increase to a customer entity for that fiscal year.

g. Standardizing and consolidating procurement and contracting practices.

4. In collaboration with the Department of Law Enforcement, developing and implementing a process for detecting, reporting, and responding to cybersecurity ~~information technology security~~ incidents, breaches, and threats.

5. Adopting rules relating to the operation of the state data center, including, but not limited to, budgeting and accounting procedures, cost-recovery methodologies, and operating procedures.

Section 4. Paragraph (g) of subsection (1) of section 282.201, Florida Statutes, is amended to read:

282.201 State data center.—The state data center is established within the department. The provision of data center

services must comply with applicable state and federal laws, regulations, and policies, including all applicable security, privacy, and auditing requirements. The department shall appoint a director of the state data center, preferably an individual who has experience in leading data center facilities and has expertise in cloud-computing management.

(1) STATE DATA CENTER DUTIES.—The state data center shall:

(g) In its procurement process, show preference for cloud-computing solutions that minimize or do not require the purchasing, financing, or leasing of state data center infrastructure, and that meet the needs of customer agencies, that reduce costs, and that meet or exceed the applicable state and federal laws, regulations, and standards for cybersecurity ~~information technology security~~.

Section 5. Subsection (2) of section 282.206, Florida Statutes, is amended to read:

282.206 Cloud-first policy in state agencies.—

(2) In its procurement process, each state agency shall show a preference for cloud-computing solutions that either minimize or do not require the use of state data center infrastructure when cloud-computing solutions meet the needs of the agency, reduce costs, and meet or exceed the applicable state and federal laws, regulations, and standards for cybersecurity ~~information technology security~~.

Section 6. Section 282.318, Florida Statutes, is amended to read:

282.318 Cybersecurity ~~Security of data and information technology~~.—

(1) This section may be cited as the "State Cybersecurity

Act." ~~"Information Technology Security Act."~~

(2) As used in this section, the term "state agency" has the same meaning as provided in s. 282.0041, except that the term includes the Department of Legal Affairs, the Department of Agriculture and Consumer Services, and the Department of Financial Services.

(3) The department, acting through the Florida Digital Service, is the lead entity responsible for establishing standards and processes for assessing state agency cybersecurity risks and determining appropriate security measures. Such standards and processes must be consistent with generally accepted technology best practices, including the National Institute for Standards and Technology Cybersecurity Framework, for cybersecurity. The department, acting through the Florida Digital Service, shall adopt ~~information technology security, to include cybersecurity, and adopting~~ rules that mitigate risks; safeguard state agency digital assets, ~~an agency's~~ data, information, and information technology resources to ensure availability, confidentiality, and integrity; and support a security governance framework ~~and to mitigate risks~~. The department, acting through the Florida Digital Service, shall also:

(a) Designate an employee of the Florida Digital Service as the state chief information security officer. The state chief information security officer must have experience and expertise in security and risk management for communications and information technology resources. The state chief information security officer is responsible for the development, operation, and oversight of cybersecurity for state technology systems. The

state chief information security officer shall be notified of all confirmed or suspected incidents or threats of state agency information technology resources and must report such incidents or threats to the state chief information officer and the Governor.

(b) Develop, and annually update by February 1, a statewide cybersecurity ~~information technology security~~ strategic plan that includes security goals and objectives for cybersecurity, including the identification and mitigation of risk, proactive protections against threats, tactical risk detection, threat reporting, and response and recovery protocols for a cyber incident ~~the strategic issues of information technology security policy, risk management, training, incident management, and disaster recovery planning~~.

(c) Develop and publish for use by state agencies a cybersecurity governance ~~an information technology security~~ framework that, at a minimum, includes guidelines and processes for:

1. Establishing asset management procedures to ensure that an agency's information technology resources are identified and managed consistent with their relative importance to the agency's business objectives.

2. Using a standard risk assessment methodology that includes the identification of an agency's priorities, constraints, risk tolerances, and assumptions necessary to support operational risk decisions.

3. Completing comprehensive risk assessments and cybersecurity ~~information technology security~~ audits, which may be completed by a private sector vendor, and submitting

completed assessments and audits to the department.

4. Identifying protection procedures to manage the protection of an agency's information, data, and information technology resources.

5. Establishing procedures for accessing information and data to ensure the confidentiality, integrity, and availability of such information and data.

6. Detecting threats through proactive monitoring of events, continuous security monitoring, and defined detection processes.

7. Establishing agency cybersecurity ~~computer security~~ incident response teams and describing their responsibilities for responding to cybersecurity ~~information technology security~~ incidents, including breaches of personal information containing confidential or exempt data.

8. Recovering information and data in response to a cybersecurity ~~an information technology security~~ incident. The recovery may include recommended improvements to the agency processes, policies, or guidelines.

9. Establishing a cybersecurity ~~an information technology security~~ incident reporting process that includes procedures and tiered reporting timeframes for notifying the department and the Department of Law Enforcement of cybersecurity ~~information technology security~~ incidents. The tiered reporting timeframes shall be based upon the level of severity of the cybersecurity ~~information technology security~~ incidents being reported.

10. Incorporating information obtained through detection and response activities into the agency's cybersecurity ~~information technology security~~ incident response plans.

11. Developing agency strategic and operational cybersecurity ~~information technology security~~ plans required pursuant to this section.

12. Establishing the managerial, operational, and technical safeguards for protecting state government data and information technology resources that align with the state agency risk management strategy and that protect the confidentiality, integrity, and availability of information and data.

13. Establishing procedures for procuring information technology commodities and services that require the commodity or service to meet the National Institute of Standards and Technology Cybersecurity Framework.

(d) Assist state agencies in complying with this section.

(e) In collaboration with the Cybercrime Office of the Department of Law Enforcement, annually provide training for state agency information security managers and computer security incident response team members that contains training on cybersecurity ~~information technology security~~, including cybersecurity~~,~~ threats, trends, and best practices.

(f) Annually review the strategic and operational cybersecurity ~~information technology security~~ plans of state ~~executive branch~~ agencies.

(g) Provide cybersecurity training to all state agency technology professionals which develops, assesses, and documents competencies by role and skill level. The training may be provided in collaboration with the Cybercrime Office of the Department of Law Enforcement, a private sector entity, or an institution of the state university system.

(h) Operate and maintain a Cybersecurity Operations Center

led by the state chief information security officer, which must be primarily virtual and staffed with tactical detection and incident response personnel. The Cybersecurity Operations Center shall serve as a clearinghouse for threat information and coordinate with the Department of Law Enforcement to support state agencies and their response to any confirmed or suspected cybersecurity incident.

(i) Lead an Emergency Support Function, ESF CYBER, under the state comprehensive emergency management plan as described in s. 252.35.

(4) Each state agency head shall, at a minimum:

(a) Designate an information security manager to administer the cybersecurity ~~information technology security~~ program of the state agency. This designation must be provided annually in writing to the department by January 1. A state agency's information security manager, for purposes of these information security duties, shall report directly to the agency head.

(b) In consultation with the department, through the Florida Digital Service, and the Cybercrime Office of the Department of Law Enforcement, establish an agency cybersecurity ~~computer security incident~~ response team to respond to a cybersecurity ~~an information technology security~~ incident. The agency cybersecurity ~~computer security incident~~ response team shall convene upon notification of a cybersecurity ~~an information technology security~~ incident and must immediately report all confirmed or suspected incidents to the state chief information security officer, or his or her designee, and comply with all applicable guidelines and processes established pursuant to paragraph (3)(c).

(c) Submit to the department annually by July 31, the state agency's strategic and operational cybersecurity ~~information technology security~~ plans developed pursuant to rules and guidelines established by the department, through the Florida Digital Service.

1. The state agency strategic cybersecurity ~~information technology security~~ plan must cover a 3-year period and, at a minimum, define security goals, intermediate objectives, and projected agency costs for the strategic issues of agency information security policy, risk management, security training, security incident response, and disaster recovery. The plan must be based on the statewide cybersecurity ~~information technology security~~ strategic plan created by the department and include performance metrics that can be objectively measured to reflect the status of the state agency's progress in meeting security goals and objectives identified in the agency's strategic information security plan.

2. The state agency operational cybersecurity ~~information technology security~~ plan must include a progress report that objectively measures progress made towards the prior operational cybersecurity ~~information technology security~~ plan and a project plan that includes activities, timelines, and deliverables for security objectives that the state agency will implement during the current fiscal year.

(d) Conduct, and update every 3 years, a comprehensive risk assessment, which may be completed by a private sector vendor, to determine the security threats to the data, information, and information technology resources, including mobile devices and print environments, of the agency. The risk assessment must

comply with the risk assessment methodology developed by the department and is confidential and exempt from s. 119.07(1), except that such information shall be available to the Auditor General, the Florida Digital Service within the department, the Cybercrime Office of the Department of Law Enforcement, and, for state agencies under the jurisdiction of the Governor, the Chief Inspector General. If a private sector vendor is used to complete a comprehensive risk assessment, it must attest to the validity of the risk assessment findings.

(e) Develop, and periodically update, written internal policies and procedures, which include procedures for reporting cybersecurity ~~information technology security~~ incidents and breaches to the Cybercrime Office of the Department of Law Enforcement and the Florida Digital Service within the department. Such policies and procedures must be consistent with the rules, guidelines, and processes established by the department to ensure the security of the data, information, and information technology resources of the agency. The internal policies and procedures that, if disclosed, could facilitate the unauthorized modification, disclosure, or destruction of data or information technology resources are confidential information and exempt from s. 119.07(1), except that such information shall be available to the Auditor General, the Cybercrime Office of the Department of Law Enforcement, the Florida Digital Service within the department, and, for state agencies under the jurisdiction of the Governor, the Chief Inspector General.

(f) Implement managerial, operational, and technical safeguards and risk assessment remediation plans recommended by the department to address identified risks to the data,

information, and information technology resources of the agency. The department, through the Florida Digital Service, shall track implementation by state agencies upon development of such remediation plans in coordination with agency inspectors general.

(g) Ensure that periodic internal audits and evaluations of the agency's cybersecurity ~~information technology security~~ program for the data, information, and information technology resources of the agency are conducted. The results of such audits and evaluations are confidential information and exempt from s. 119.07(1), except that such information shall be available to the Auditor General, the Cybercrime Office of the Department of Law Enforcement, the Florida Digital Service within the department, and, for agencies under the jurisdiction of the Governor, the Chief Inspector General.

(h) Ensure that the ~~information technology security and~~ cybersecurity requirements in both the written specifications for the solicitation, contracts, and service-level agreement of information technology and information technology resources and services meet or exceed the applicable state and federal laws, regulations, and standards for ~~information technology security and~~ cybersecurity, including the National Institute of Standards and Technology Cybersecurity Framework. Service-level agreements must identify service provider and state agency responsibilities for privacy and security, protection of government data, personnel background screening, and security deliverables with associated frequencies.

(i) Provide ~~information technology security and~~ cybersecurity awareness training to all state agency employees

in the first 30 days after commencing employment concerning cybersecurity ~~information technology security~~ risks and the responsibility of employees to comply with policies, standards, guidelines, and operating procedures adopted by the state agency to reduce those risks. The training may be provided in collaboration with the Cybercrime Office of the Department of Law Enforcement, a private sector entity, or an institution of the state university system.

(j) Develop a process for detecting, reporting, and responding to threats, breaches, or cybersecurity ~~information technology security~~ incidents which is consistent with the security rules, guidelines, and processes established by the department through the Florida Digital Service.

1. All cybersecurity ~~information technology security~~ incidents and breaches must be reported to the Florida Digital Service within the department and the Cybercrime Office of the Department of Law Enforcement and must comply with the notification procedures and reporting timeframes established pursuant to paragraph (3)(c).

2. For cybersecurity ~~information technology security~~ breaches, state agencies shall provide notice in accordance with s. 501.171.

(5) Portions of records held by a state agency which contain network schematics, hardware and software configurations, or encryption, or which identify detection, investigation, or response practices for suspected or confirmed cybersecurity ~~information technology security~~ incidents, including suspected or confirmed breaches, are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State

Constitution, if the disclosure of such records would facilitate unauthorized access to or the unauthorized modification, disclosure, or destruction of:

(a) Data or information, whether physical or virtual; or

(b) Information technology resources, which includes:

1. Information relating to the security of the agency's technologies, processes, and practices designed to protect networks, computers, data processing software, and data from attack, damage, or unauthorized access; or

2. Security information, whether physical or virtual, which relates to the agency's existing or proposed information technology systems.

(6) The portions of risk assessments, evaluations, external audits, and other reports of a state agency's cybersecurity ~~information technology security~~ program for the data, information, and information technology resources of the state agency which are held by a state agency are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution if the disclosure of such portions of records would facilitate unauthorized access to or the unauthorized modification, disclosure, or destruction of:

(a) Data or information, whether physical or virtual; or

(b) Information technology resources, which include:

1. Information relating to the security of the agency's technologies, processes, and practices designed to protect networks, computers, data processing software, and data from attack, damage, or unauthorized access; or

2. Security information, whether physical or virtual, which relates to the agency's existing or proposed information

technology systems.

For purposes of this subsection, "external audit" means an audit that is conducted by an entity other than the state agency that is the subject of the audit.

(7) Those portions of a public meeting as specified in s. 286.011 which would reveal records which are confidential and exempt under subsection (5) or subsection (6) are exempt from s. 286.011 and s. 24(b), Art. I of the State Constitution. No exempt portion of an exempt meeting may be off the record. All exempt portions of such meeting shall be recorded and transcribed. Such recordings and transcripts are confidential and exempt from disclosure under s. 119.07(1) and s. 24(a), Art. I of the State Constitution unless a court of competent jurisdiction, after an in camera review, determines that the meeting was not restricted to the discussion of data and information made confidential and exempt by this section. In the event of such a judicial determination, only that portion of the recording and transcript which reveals nonexempt data and information may be disclosed to a third party.

(8) The portions of records made confidential and exempt in subsections (5), (6), and (7) shall be available to the Auditor General, the Cybercrime Office of the Department of Law Enforcement, the Florida Digital Service within the department, and, for agencies under the jurisdiction of the Governor, the Chief Inspector General. Such portions of records may be made available to a local government, another state agency, or a federal agency for cybersecurity ~~information technology security~~ purposes or in furtherance of the state agency's official

duties.

(9) The exemptions contained in subsections (5), (6), and (7) apply to records held by a state agency before, on, or after the effective date of this exemption.

(10) Subsections (5), (6), and (7) are subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2025, unless reviewed and saved from repeal through reenactment by the Legislature.

(11) The department shall adopt rules relating to cybersecurity ~~information technology security~~ and to administer this section.

Section 7. Section 282.319, Florida Statutes, is created to read:

282.319 Florida Cybersecurity Advisory Council.—

(1) The Florida Cybersecurity Advisory Council, an advisory council as defined in s. 20.03(7), is created within the department. Except as otherwise provided in this section, the advisory council shall operate in a manner consistent with s. 20.052.

(2) The purpose of the council is to assist state agencies in protecting their information technology resources from cyber threats and incidents.

(3) The council shall assist the Florida Digital Service in implementing best cybersecurity practices, taking into consideration the final recommendations of the Florida Cybersecurity Task Force created under chapter 2019-118, Laws of Florida.

(4) The council shall be comprised of the following members:

(a) The Lieutenant Governor or his or her designee.

(b) The state chief information officer.

(c) The state chief information security officer.

(d) The director of the Division of Emergency Management or his or her designee.

(e) A representative of the computer crime center of the Department of Law Enforcement, appointed by the executive director of the department.

(f) A representative of the Florida Fusion Center of the Department of Law Enforcement, appointed by the executive director of the department.

(g) The Chief Inspector General.

(h) A representative from the Public Service Commission.

(i) Up to two representatives from institutions of higher education located in this state, appointed by the Governor.

(j) Three representatives from critical infrastructure sectors, one of which must be from a water treatment facility, appointed by the Governor.

(k) Four representatives of the private sector with senior level experience in cybersecurity or software engineering from within the finance, energy, health care, and transportation sectors, appointed by the Governor.

(l) Two representatives with expertise on emerging technology, with one appointed by the President of the Senate and one appointed by the Speaker of the House of Representatives.

(5) Members shall serve for a term of 4 years; however, for the purpose of providing staggered terms, the initial appointments of members made by the Governor shall be for a term

of 2 years. A vacancy shall be filled for the remainder of the unexpired term in the same manner as the initial appointment. All members of the council are eligible for reappointment.

(6) The Secretary of Management Services, or his or her designee, shall serve as the ex officio, nonvoting executive director of the council.

(7) Members of the council shall serve without compensation but are entitled to receive reimbursement for per diem and travel expenses pursuant to s. 112.061.

(8) The council shall meet at least quarterly to:

(a) Review existing state agency cybersecurity policies.

(b) Assess ongoing risks to state agency information technology.

(c) Recommend a reporting and information sharing system to notify state agencies of new risks.

(d) Recommend data breach simulation exercises.

(e) Assist the Florida Digital Service in developing cybersecurity best practice recommendations for state agencies which include recommendations regarding:

1. Continuous risk monitoring.

2. Password management.

3. Protecting data in legacy and new systems.

(f) Examine inconsistencies between state and federal law regarding cybersecurity.

(9) The council shall work with the National Institute of Standards and Technology and other federal agencies, private sector businesses, and private cybersecurity experts:

(a) For critical infrastructure not covered by federal law, to identify which local infrastructure sectors are at the

greatest risk of cyber attacks and need the most enhanced cybersecurity measures.

(b) To use federal guidance to identify categories of critical infrastructure as critical cyber infrastructure if cyber damage or unauthorized cyber access to the infrastructure could reasonably result in catastrophic consequences.

(10) Beginning June 30, 2022, and each June 30 thereafter, the council shall submit to the President of the Senate and the Speaker of the House of Representatives any legislative recommendations considered necessary by the council to address cybersecurity.

Section 8. This act shall take effect July 1, 2021.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1920 (771334)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Criminal and Civil Justice); Children, Families, and Elder Affairs Committee; and Senator Book
SUBJECT:	Child Welfare

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1920 creates the Statewide Office of Child Representation (OCR) and makes a number of changes to various provisions related to guardians ad litem (GAL) under ch. 39, F.S., and regarding attorney representation for the child.

The bill provides that on or after July 1, 2022, a GAL must be appointed in specified circumstances including to a child who remains in his or her home or nonlicensed placement under protective supervision of the department, and may be appointed at the court's discretion upon a finding that circumstances exist which require the appointment. If a GAL is appointed initially and the circumstances of the child change resulting in the requirement of the court to subsequently appoint an attorney, the court may maintain the appointment of the guardian ad litem even though an attorney for the child has been appointed.

The bill defines a "conflict of interest" with respect to GAL volunteers and requires the guardian ad litem program (GALP) to develop guidelines to identify when there is reasonable cause to suspect an assigned GAL has a conflict of interest. The bill prohibits the GALP from appointing a GAL when a conflict of interest is identified. It also requires the court to order that a new GAL be assigned or, unless otherwise prohibited by law, discharge the GAL and appoint an attorney for the child when such circumstances exist. Further, the GALP must identify any GAL who is experiencing a physical or mental health issue and who appears to present a danger to any child,

and remove him or her from all assigned cases and terminate his or her volunteer services. The GALP has discretion to allow a GAL to work in the office in certain circumstances, but a GAL who has caused harm to a child during the course of his or her appointment is prohibited from being an employee of or volunteer for the program.

The GAL Qualifications Committee is redesignated as the Child Well-Being Qualifications Committee. The bill provides that the executive director of the GALP may be reappointed to serve more than one term and the reappointment process must be made in accordance with the initial appointment process.

The OCR is established within the Justice Administrative Commission (JAC) and is structured with requirements substantially similar to current law relating to the GALP. Regional Offices are created within the area serviced by each of the five district court of appeals. Child Representation Counsel (CRC) must comply with proscribed duties. The bill provides specified duties for the OCR and the Department of Children and Families (DCF) is required to take any necessary steps to obtain federal Title IV-E funding reimbursement for the OCR. The OCR may contract with a local nonprofit agency to provide direct representation for the child.

Section 39.831, F.S., is created to make provisions regarding when an "attorney for the child", as defined in the bill, must or may be appointed. The bill relocates s. 39.01305(4)(b) and (5), F.S. to s. 39.831, F.S., but clarifies the scope of attorney representation and, unless otherwise agreed, requires an attorney to be compensated in accordance with s. 27.5304, F.S. The bill provides that an attorney for the child, or certain staff when appropriate, may represent the child in fair hearings in certain circumstances within the resources allocated for representation in dependency proceedings. The bill also sets out several other provisions regarding an attorney for the child, including when the OCR must be appointed, the process that must be followed when OCR has a conflict of interest in representing a child, when the attorney for the child may withdraw or be discharged, his or her access to records, and requirement to file all appropriate motions at least 72 hours before a court hearing.

Several sections are amended to conform cross-references and provisions to changes made by the act.

The bill will result in an indeterminate negative fiscal impact on state expenditures. The GALP reports an indeterminate fiscal impact of the bill as it is unknown how many children will meet the criteria in the bill. Further, the JAC states that the bill will likely have a substantial fiscal impact on the JAC through increased workload. Finally, the fiscal impact to fund the creation and operation of the OCR will likely have a substantial negative fiscal impact. See Section V. Fiscal Impact Statement.

The bill is effective July 1, 2021.

II. Present Situation:

Current law requires any person who knows or suspects that a child has been abused, abandoned, or neglected to report such knowledge or suspicion to the Florida central abuse hotline (hotline).[1] A child protective investigation begins if the hotline determines the allegations meet the statutory definition of abuse,[2] abandonment,[3] or neglect.[4] A child protective investigator investigates the situation either immediately, or within 24 hours after the report is received, depending on the nature of the allegation.[5]

After conducting an investigation, if the child protective investigator determines that the child is in need of protection and supervision that necessitates removal, the investigator may initiate formal proceedings to remove the child from his or her home. When the Department of Children and Families (DCF) removes a child from the home, a series of dependency court proceedings must occur before a child may be adjudicated dependent.[6] The dependency court process is summarized in the table below.

The Dependency Court Process

Dependency Proceeding	Description of Process	Controlling Statute
Removal	A child protective investigation determines the child's home is unsafe, and the child is removed.	s. 39.401, F.S.
Shelter Hearing	A shelter hearing occurs within 24 hours after removal. The judge determines whether to keep the child out-of-home.	s. 39.401, F.S.
Petition for Dependency	A petition for dependency occurs within 21 days of the shelter hearing. This petition seeks to find the child dependent.	s. 39.501, F.S.

[1] Section 39.201(a), F.S.

[2] Section 39.01(2), F.S. The term "abuse" means any willful act or threatened act that results in any physical, mental, or sexual abuse, injury, or harm that causes or is likely to cause the child's physical, mental, or emotional health to be significantly impaired. Abuse of a child includes the birth of a new child into a family during the course of an open dependency case when the parent or caregiver has been determined to lack the protective capacity to safely care for the children in the home and has not substantially complied with the case plan towards successful reunification or met the conditions for return of the children into the home. Abuse of a child includes acts or omissions. Corporal discipline of a child by a parent or legal custodian for disciplinary purposes does not in itself constitute abuse when it does not result in harm to the child.

[3] Section 39.01(1), F.S. The term "abandoned" or "abandonment" means a situation in which the parent or legal custodian of a child or, in the absence of a parent or legal custodian, the caregiver, while being able, has made no significant contribution to the child's care and maintenance or has failed to establish or maintain a substantial and positive relationship with the child, or both.

[4] Sections 39.01(50) and 39.201(2)(a), F.S. "Neglect" occurs when a child is deprived of, or is allowed to be deprived of, necessary food, clothing, shelter, or medical treatment or a child is permitted to live in an environment when such deprivation or environment causes the child's physical, mental, or emotional health to be significantly impaired or to be in danger of being significantly impaired. The foregoing circumstances shall not be considered neglect if caused primarily by financial inability unless actual services for relief have been offered to and rejected by such person. A parent or legal custodian legitimately practicing religious beliefs in accordance with a recognized church or religious organization who thereby does not provide specific medical treatment for a child may not, for that reason alone, be considered a negligent parent or legal custodian; however, such an exception does not preclude a court from ordering necessary services.

[5] Section 39.201(5), F.S.

[6] *See* s. 39.01(15), F.S., for the definition of "child who is found to be dependent".

Dependency Proceeding	Description of Process	Controlling Statute
Arraignment Hearing and Shelter Review	An arraignment and shelter review occurs within 28 days of the shelter hearing. This allows the parent to admit, deny, or consent to the allegations within the petition for dependency and allows the court to review any shelter placement.	s. 39.506, F.S.
Adjudicatory Trial	An adjudicatory trial is held within 30 days of arraignment. The judge determines whether a child is dependent during trial.	s. 39.507, F.S.
Disposition Hearing	If the child is found dependent, disposition occurs within 15 days of arraignment or 30 days of adjudication. The judge reviews the case plan and placement of the child. The judge orders the case plan for the family and the appropriate placement of the child.	s. 39.506, F.S. s. 39.521, F.S.
Postdisposition hearing	The court may change temporary placement at a postdisposition hearing any time after disposition but before the child is residing in the permanent placement approved at a permanency hearing.	s. 39.522, F.S.
Judicial Review Hearings	The court must review the case plan and placement every 6 months, or upon motion of a party.	s. 39.701, F.S.
Petition for Termination of Parental Rights	Once the child has been out-of-home for 12 months, if DCF determines that reunification is no longer a viable goal, termination of parental rights is in the best interest of the child, and other requirements are met, a petition for termination of parental rights is filed.	s. 39.802, F.S. s. 39.8055, F.S. s. 39.806, F.S. s. 39.810, F.S.
Advisory Hearing	This hearing is set as soon as possible after all parties have been served with the petition for termination of parental rights. The hearing allows the parent to admit, deny, or consent to the allegations within the petition for termination of parental rights.	s. 39.808, F.S.
Adjudicatory Hearing	An adjudicatory trial shall be set within 45 days after the advisory hearing. The judge determines whether to terminate parental rights to the child at this trial.	s. 39.809, F.S.

Attorney Representation in Dependency Cases

An attorney must comply with the Florida Rules of Professional Conduct promulgated by the Florida Bar. An attorney must zealously advocate for his or her client and must abide by a client's decision on how to proceed in a matter.[7] This means the client has authority to decide the purpose and scope of the attorney's representation, within the limits imposed by law and the attorney's professional obligations, including for instance whether to settle a matter.[8] An attorney

[7] Rules Regulating the Fla. Bar 4-1.2.
[8] *Id.*

has an obligation to communicate with his or her client about such decisions,[9] and should try to reach a mutually agreeable resolution with his or her client if a disagreement arises on how to proceed.[10]

Attorney Duties and Conflicts of Interest

Attorneys are required to adhere to specified duties within the Rules of Professional Conduct. For instance, an attorney must be competent to represent his or her client, and must act with reasonable diligence and promptness in representing a client.[11]An attorney also has duties of loyalty and confidentiality to his client.[12] However, an attorney must disclose confidential information if he or she reasonably believes it is necessary to prevent a client from committing a crime, or to prevent death or substantial bodily harm to another.[13] An attorney may also disclose confidential information, in part, if the client gives informed consent or the attorney reasonably believes the disclosure is necessary to serve the client's interest provided the client does not specifically require the information not to be disclosed.[14]

The Rules of Professional Conduct also contain provisions regarding how an attorney must handle circumstances in which conflict of interest exists.[15] This includes, in part, when an attorney has a conflict with a current[16] or former client[17] as well as prohibited transactions.[18] An attorney must not represent a client whose interests are directly adverse to another client, or there is a substantial risk that representation of the client would materially limit the attorney's representation of another client, a former client or personal interest of the lawyer, except when the client waives the conflict in specified circumstances.[19] This means an attorney must not represent opposing parties in litigation.[20] Further, an attorney generally may not use information to the disadvantage of a client without informed consent, unless otherwise permitted in the rules.[21]

An attorney must not represent a client if his or her representation will result in a violation of the Rules of Professional Conduct or law, or the attorney's physical or mental condition materially impairs his or her ability to represent the client.[22] In such instances, the attorney must not commence representation or must withdraw as counsel if specified conditions are met.[23]

Attorney for the DCF

The DCF must be represented by counsel in dependency and termination of parental rights proceedings.[24] The DCF, through its counsel, must make recommendations to the court and may present evidence including testimony from its own employees or employees of its agents, subcontractors, or other community providers.[25] The DCF may enter into a contract for the provision of children legal services, and all counsel included those contracted must adopt the child welfare practice model as proscribed by the DCF.[26]

Except when legal representation is contracted out, the State of Florida is represented by Children Legal Services through the DCF.[27] The DCF is required to contract with the state attorney in the sixth judicial circuit for children legal services.[28] The DCF contracts with the Florida Attorney General's Office to provide children's legal services in Hillsborough and Broward counties.[29]

Attorney for the parents

Parents have the right to be represented by counsel in dependency proceedings, and they must be informed of this right at each stage of the dependency proceedings.[30] The court must appoint counsel to represent parents who are indigent.[31] The Office of Criminal Conflict and Civil Regional Counsel (OCCCRC) has primary responsibility for representing parents in proceedings under ch. 39, F.S.[32] If OCCCRC has a conflict of interest in representing a parent or parents, private counsel who must be selected from a registry is appointed on a rotating basis.[33] The private attorneys contract with the JAC under specified terms to provide such services.[34]

Attorney for the child

Attorney representation of children

An attorney should, as far as reasonably practical, maintain a normal attorney-client relationship when a client's ability to make an adequately informed decision is impaired, such as in representation of a minor child.[35] An attorney may seek the appointment of a GAL if he or she reasonably believes the client is not able to adequately act in his or her own interest.[36] The Rules of Professional Conduct acknowledge that the law recognizes intermediate degrees of

competence, and explicitly provides that children ages 10 or 12 are regarded as having opinions which are entitled to be considered in respect of legal proceedings concerning their custody.[37]

Child Representation Models

Child representation in dependency proceedings varies but in most instances is based on what is in the child's best interest, direct representation, or a hybrid approach.[38] A summary of the different models and how they operate is set out in the table below.[39]

Exhibit 3
States' Models of Representation for Children in Dependency Proceedings Fall Into Six Categories

Representation Model	Number of States That Use Model	Description
Age Dependent	4	Children in these states receive different types of representation depending on their age. In these states, older children receive a client-directed attorney, and younger children receive a GAL.
Best Interest (attorney or professional)	20	Children in these states always receive a GAL who is required to be either an attorney or a professional (e.g., professional GAL or mental health counselor). These states may also allow for the appointment of a client-directed attorney at the discretion of the judge or in certain circumstances.
Best Interest (lay volunteer)	12	Children in these states always receive a GAL, who is not required to be an attorney. These states may also allow for the appointment of a client-directed attorney at the discretion of the judge or in certain circumstances.
Client-Directed Attorney	7	Children in these states always receive a client-directed attorney. These states may also allow for the appointment of a separate GAL or CASA at the discretion of the judge or in certain circumstances.
Hybrid	6	Children in these states always receive both a client-directed attorney and a GAL.
Multidisciplinary Team	2	Children in these states are represented by a GAL team, made up of a volunteer, a staff advocate, and an attorney.

Representation under current Florida law

Section 39.01305, F.S., provides that an attorney must be appointed to represent a dependent child[40] who has the following special needs:

- Resides in or is being considered for placement in a skilled nursing home;
- Is prescribed psychotropic medication but does not agree to take it;
- Has a diagnosis of a developmental disability;[41]

[37] *Id.*

[39] OPPAGA, *OPPAGA Review of Florida's Guardian ad Litem Program*, p. 5 and 34, December 2020 (on file with the Committee on Children, Families, and Elder Affairs) (hereinafter cited as "The OPPAGA Memo").
[40] Section 39.01305(2), F.S., defines "dependent child" as a child who is subject to any proceeding under ch. 39, F.S. The term does not require that a child be adjudicated dependent for purposes of this section.
[41] Section 393.063(12), F.S., defines "developmental disability" as a disorder or syndrome that is attributable to intellectual disability, cerebral palsy, autism, spina bifida, Down syndrome, Phelan-McDermid syndrome, or Prader-Willi syndrome; that manifests before the age of 18; and that constitutes a substantial handicap that can reasonably be expected to continue indefinitely. *See* s. 393.063, F.S., for other definitions related to developmental disability.

- Is being placed or is being considered for placement in a residential treatment center; or
- Is a victim of human trafficking.[42]

A court is not restricted to appointing an attorney to represent a child for the reasons listed above.[43]

The court must request a recommendation from the GALP for an attorney who is willing to represent a child without additional compensation before a court may appoint one under s. 39.01305(4)(a), F.S. If the GAL recommends an attorney who is available within 15 days from the date of the court's request, the court must appoint that attorney.[44] The court may appoint an attorney who will receive additional compensation within 15 days if the GALP notifies the court that it will not be able to make a recommendation within the specified time.[45]

An attorney who is appointed to represent a child continues to be appointed until the attorney is allowed to withdraw or is discharged by the court or until the case is dismissed.[46] An attorney who is appointed must provide a range of legal services including from removal or appointment through any appellate proceedings.[47] The appointment must be in writing and the attorney must be adequately compensated unless he or she was agreed to provide pro bono services.[48] Unless an attorney has agreed to represent a child pro bono, the JAC must contract with attorneys appointed by the court and their fees may not exceed $1,000 per child per year.[49] All appointed attorneys must also be provided with access to funding for due process costs of litigation subject to appropriations.[50]

Several counties in Florida currently operate offices that provide child representation, including Palm Beach, Broward, and Hillsborough counties.[51] For instance, the Legal Aid Society of Palm Beach (LAS Palm Beach) Children's Foster Project is appointed to every child 0 to 12 years old who is in out-of-home care.[52] The Legal Aid Society of Broward County (LAS Broward) represents children in dependency cases and provides free legal services for eligible relative and nonrelative caregivers.[53] Similarly, the L. David Shear Children's Law Center of Bay Area Legal Services provides representation to children who have been abused, abandoned, or neglected.[54]

---

[42] Section 787.06(2)(d), F.S., defines "human trafficking" as transporting, soliciting, recruiting, harboring, providing, enticing, maintaining, or obtaining another person for the purpose of exploitation of that person.

At least some of these organizations receive government funding.[55] For instance, the LAS Palm Beach County receives public grants, such as the U.S. Department of Justice under the Violence against Women Act and Children's Services Council of Palm Beach County, and private grants, such as William and Helen Thomas Charitable Foundation.[56] LAS Broward receives funding from the Children's Services Council of Broward County (CSCBC).[57] In many instances, these organizations rely on donations and pro bono attorneys who donate their services to provide representation to children who are the subject of a dependency case.[58]

The Legal Aid Society of Palm Beach County provides representation to all children in the foster care system who are between birth and 12 years old, and their siblings under a program referred to as the Foster Children Project (Project).[59] The Chapin Hall Center for Children at the University of Chicago (CFC) conducted a study that found that children who were represented by the Project had a significantly higher rate of exit to permanency than children not served by the Project due to higher rates of adoption and long-term custody.[60] Additionally, it has been reported that children who were represented by counsel, including those served by the Project, exited foster care 88.3 days quicker on average.[61]

Office of Child Representation (OCR) (Section 8)

Florida law does not currently provide for an OCR. Colorado and Travis County, Texas, however, do have offices of child representation. The Colorado Office of Child's Representative (COCR) is a state agency that was established in 2000 to provide representation to children.[62] The COCR represent children in several types of cases, including:

- Dependency and Neglect;
- Juvenile Delinquency;
- Domestic Relations; and
- Adoption, Truancy, Probation, Mental Health, and Paternity.[63]

[63] *Id.*

All COCR attorneys are trained on the law, social science research, child development, mental health and education issues, and best practices in court proceedings.[64] A Colorado court must appoint a GAL in dependency and neglect cases to represent the child's best interest, and must appoint an OCR attorney to act as the child's counsel when the child faces contempt citations or the court has determined that the child holds his or her own patient-therapist privilege.[65, 66] The COCR is responsible for overseeing both roles as a GAL and as counsel for the children, if applicable.[67] When COCR is appointed as counsel for the child, the attorney has a traditional attorney-client role in which he or she represents the child's wishes in court proceedings.[68]

In Colorado, a GAL is a COCR attorney who is appointed to represent the best interest of the child which means that the COCR attorney does not advocate for the child's express wishes in a traditional attorney-client role.[69] Instead, the GAL must advocate for the child's health, safety, and well-being, and his or her advocacy must align with the interests and needs of the child.[70] The GAL has specified requirements that must be met, including attending all court hearings and conducting an independent investigation which must continue throughout the duration of the case.[71]

The Travis County, Texas Office of Children Representation (TOCR), however, provides legal representation to children who are the subject of dependency cases only.[72] The TOCR counsel act in a traditional attorney-client role and represent children's legal interests.[73]

Guardian ad Litem

Appointment and Discharge

Federal and Florida law provide that a GAL must be appointed to represent the child in every case.[74] The Child Abuse Prevention and Treatment Act makes the approval of grants contingent on a eligible state plans which must include provisions and procedures to appoint a GAL in every case.[75] The GAL must be appointed to:

- Obtain first-hand knowledge of the child's situation and needs; and
- Make recommendations to the court regarding the best interest of the child.[76]

[76] *Id.*

Under Florida law, a court must appoint a GAL at the earliest possible time to represent the child in a dependency proceeding.[77] The GALP publishes monthly representation reports which summarize, in part, the number of reported dependent children, the GALPs appointments in those cases, and the number of certified volunteer GALs.[78] The December 2020 Representation Report details the following statistics:

- The Office of State Courts Administrator reports there are 31,288 children who are the subject of a dependency case.[79]
- The GALP reports that 22,960 children are appointed to the program, and there are 11,116 certified case volunteers including pro bono attorneys.[80]
- The GALP reports 98 newly certified case volunteers in its December 2020 report.[81]

In some cases, the GALP may discharge from a case when a child's permanency goal has been established and the child is in a stable placement.[82] A summary of the reasons the GALP has been discharged from dependency cases from 2016 to 2020 by Fiscal Year is summarized in the table below.[83]

Exhibit 6
Closure Reasons Reported by GAL Program Remained Stable From Fiscal Year 2016-17 Through the First Half of Fiscal Year 2019-20[1]

GAL Program Closure Reason for GAL Program Closures	FY 2016-17	FY 2017-18	FY 2018-19	FY 2019-20[1]	Four-Year Total
Reunification	29%	31%	29%	31%	30%
Adoption	18%	18%	20%	19%	19%
Permanency Goal Established[2]	18%	19%	23%	22%	21%
Permanent Guardianship	17%	15%	13%	12%	15%
Other[3]	9%	9%	6%	6%	8%
Insufficient Program Resources[4]	5%	4%	4%	4%	5%
Aged Out of Care	3%	4%	4%	4%	4%

Role of the GALP and GAL

"Guardian ad litem" is defined as the Statewide Guardian Ad Litem Office, which includes circuit guardian ad litem programs, a duly certified volunteer, a staff member, a staff attorney, a contract attorney, pro bono attorney working on behalf of a GAL; court-appointed attorney; or responsible adult who is appointed by the court to represent the best interest of a child in a proceeding as provided by law including ch. 39, F.S., until discharged by the court.[84]

The GALP reports that it represents the children who are alleged to be abused, abandoned, or neglected and are subject to the dependency court's jurisdiction.[85] The Florida Supreme Court has recognized that a GAL is appointed to serve as the child's representative in court to present what is in the child's best interest.[86] The GALP reports that the adult representing the child's best interest will ordinarily be represented by counsel in the judicial proceedings, and suggests such attorney owes a duty of care to both the guardian ad litem and the child with whom the GAL is appointed to represent.[87] The GALP acknowledges that there is no attorney-client relationship between the GALP attorney and the child, and suggests that independent legal representation is provided through the GAL.[88]

The GAL or GALP representative must review all disposition recommendations or changes in placements, and must be present at all critical stages of the proceeding or submit a written report, which must be filed and served on all parties whose whereabouts are known at least 72 hours prior to the hearing.[89]

Performance Advocacy Snapshot (PASS) summarizes the individual GAL circuit program performance and GAL influence on child welfare outcomes by circuit.[90] The December 2020 PASS report states that a GAL has been appointed to 73.4% of children who are the subject of dependency proceedings, with some exceptions.[91] It also reports 67.5% active certified volunteers statewide.[92] Children achieving permanency within 12 months of entering care totals 18 percent and 40.6 percent of adoptions occur within 24 months according to the PASS report.[93]

Activities of GAL

The GALP reports that GAL are involved in a number of activities related to the child, including, in part:

- Attending school events;
- Guiding children through changes of placement;

- Creating community awareness about children who are abused, abandoned, or neglected;
- Being a safe and stable adult in the child's life; or
- Reporting quality information to judges.[94]

Conflicts of Interest

Under current law, there is no statutory provision under ch. 39, F.S., which requires the GALP to identify any conflict of interest a GAL may have. The GALP Standards of Operation, however, provide that the GALP "shall not accept appointment to a case where the Program has an impermissible conflict of interest and shall seek discharge if an impermissible conflict of interest arises after appointment. An impermissible conflict of interest between the GAL Program and a child or children will be found if the GAL Program has a duty, or the appearance of a duty, to another that may prevent the GAL Program from being fully able to represent the child to whom the Program is appointed. If an individual GAL Volunteer or staff member has a conflict, this may be resolved by assigning another individual from the Program in the discretion of the Circuit Director."[95] Standard 7.D. further states that GALs have an obligation to notify the GAL Program Attorney if they are aware of a possible conflict of interest, which could include prior involvement with individuals involved in the case, any personal reasons that may not allow them to provide best interests advocacy for a child, and situations when the GALP is appointed to represent multiple related children whose interests conflict with one another.
Further, Standard 7.D. states that an impermissible conflict will not be found simply because the GAL is advocating in good faith for the child's best interests and the child conveys a position that may be opposed to the position taken by the GAL.[96]

The GAL's Standards of Operation 3, Code of Conduct, prohibit GALs from practicing, condoning, facilitating, or participating in any form of discrimination, including in part, discrimination based on race, color, gender, sexual orientation, sexual identity, age, religion, or ethnicity.[97] Finally, the GALP reports that the Standards of Operation prohibit a GAL from receiving a fee for their services as a GAL or accepting a gift for personal benefit.[98]

GAL Executive Director Appointment and Reappointment

The GALP's executive director is appointed by the Governor from a list of at least three nominees of eligible applicants selected by the Guardian Ad Litem Qualifications Committee (GALQC).[99] The executive director must meet minimum qualifications, serve a term of 3 years, and has specified duties.[100] The executive director is permitted to serve more than one term, but current law is unclear on whether any additional terms are subject to the appointment process.

Funding

GAL Funding

The OPPAGA reports that state funding for the GALP has increased by 21% over the past five years from $43.6 million in Fiscal Year 2015-16 to $52.9 million in Fiscal Year 2019-20.[101] Other sources of funding, including local governments, federal Victims of Crime Act (VOCA) funds, and non-profit sources, have also increased over the past five years from $4.6 million in Calendar Year (CY) 2015 to $9.7 million in CY 2019.[102] With this increase, the number of staff increased, the number of volunteers remained stable, and the number of children served has decreased from 40,032 in Fiscal Year (FY) 2016-17 to 36,506 in FY 2019-20.[103]

Family First Prevention Services Act

The Bipartisan Budget Act of 2018 (HR 1892) was signed into law on February 9, 2018, which included the Family First Prevention Services Act (FFPSA). The legislation aims at providing financial assistance with a focus on prevention services and reducing funds to residential group care.[104] It also has the potential to dramatically change child welfare systems by expanding the way in which Title IV-E funding may be spent.[105] The FFPSA requirements include:

- Option to use funds for up to 12 months for evidence-based services, such as substance abuse treatment;
- Eligible candidates include children who can remain safely in the home with the provision of services, children in foster care who are parents, or parents or caregivers who require services to prevent a child's entry into foster care;
- States must prepare a prevention plan for the child to safely remain at home with services; and
- Services must be trauma-informed and pre-approved on the Health and Human Services website.[106]

Title IV-E funds previously were restricted to being used for the costs of eligible children's foster care maintenance; administrative expenses to manage the foster care program; training for specified persons; and kinship guardianship assistance. Title IV-E federal funding is now available for direct legal representation and advocacy for eligible children in foster care and their parents.[107] As the GALP attorney does not have a direct attorney-client relationship with the child[108] and directly represent the children in Florida dependency proceedings, it is unclear

whether the GALP is eligible for Title IV-E funding under the new federal standards. However, the GALP has not begun to be reimbursed for legal representation and advocacy under the FFPSA standards.

III. Effect of Proposed Changes:

Office of Child Representation (Section 8)

The bill establishes a new Office of Child Representation (OCR) to provide direct legal representation to specified children during dependency proceedings. Similar to the GALP, the bill creates the OCR within the JAC which provides administrative support and services but does not control, supervisor, or direct the OCR in the performance of its duties. However, employees are governed by plans, including salary and benefits, approved by the JAC.

The bill provides for an executive director to be appointed to the OCR with the same appointment process, term, and requirements as the executive of the GALP provided for in s. 39.8296(2)(a), F.S. The OCR executive director must be a member of The Florida Bar in good standing for at least 5 years and have knowledge of dependency law and social service delivery systems to meet the needs of children who are abused, abandoned and neglected. The bill requires the appointment of the initial executive director to be completed by January 1, 2022.

The OCR, within the resources of the JAC, must provide oversight and technical assistance, in part, as follows:

- Identify the resources required to implement methods of collecting, reporting, and tracking case data;
- Review and collect information relating to offices of child representation and other models of attorney representation in other states;
- Develop statewide performance measures and standards in collaboration with the regional offices of OCR;
- Develop a training program for each attorney for the child, and create a curriculum committee composed of specified professionals[109] for such purpose;
- Develop protocols that must be implemented to assist children in meeting eligibility requirements to receive all federal funding;[110]
- Review methods of funding, maximum the use of those funds, and review the kinds of services being provided by the regional offices;
- Determine the feasibility or desirability of new concepts regarding the operation and scope of services provided by the OCR;
- Develop standards and protocols to represent children who have diminished capacity; and
- Submit a report to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Chief Justice of the Supreme Court, including:

[109] Members must include, but not limited to, a dependency judge, a director of circuit guardian ad litem programs, an active certified guardian ad litem, a mental health professional who specializes in the treatment of children, a member of a child advocacy group, a representative of a domestic violence advocacy group, an individual with at least a Master of Social Work degree, and a social worker experienced in working with victims and perpetrators of child abuse.

[110] This may not be construed to mean that the protocols may interfere with zealous and effective representation of the children.

- An interim report describing the progress of the statewide office in meeting the responsibilities described in this paragraph.
- A proposed plan that includes alternatives for meeting the representation needs of children in this state. The plan may include recommendations for implementation in only a portion of this state or phased-in statewide implementation and must include an estimate of the cost of each such alternative.
- An annual status report that includes any additional recommendations for addressing the representation needs of children in this state and related issues.

The DCF or community-based care lead agency must take any steps necessary to obtain and maintain eligible federal funding. The bill provides that OCR may contract with local nonprofit agencies to provide direct representation to a child if it is the most efficient method to satisfy its duties and if federal funding has been approved for reimbursement.

The bill provides for regional offices to be established within each of the five district court of appeals which must commence fulfilling their purpose and duties on July 1, 2022. Each regional office is also assigned to the JAC for it to provide administrative support and services within available resources. Like the statewide office, the regional offices are not subject to control, supervision, or direction by the JAC, but are governed by plans such as salary and benefits.

Finally, the child representation counsel (CRC) who is the head of the regional offices must serve on a full-time basis and may not engage in private practice. Assistant child representation counsel (ACRC) must give priority to his or her duties in that position but part-time ACRC may practice dependency law provided the representation does not result in a legal or ethical conflict of interest with a case that OCR is providing representation.

Attorney for the Child (Sections 1-3 and 9)

Appointment

Section 39.013(13), F.S. is amended to provide that an attorney for the child must be appointed pursuant to s. 39.831, F.S. The bill defines "attorney for the child" as an attorney providing direct representation to the child, which may include the appointment of the Office of the Child Representation, an attorney provided by an entity contracted through the Office of the Child Representation to provide direct representation, any privately court-appointed counsel who is compensated pursuant to s. 27.5305, F.S., any privately retained counsel or pro bono counsel, or any other attorney who represents the child under ch. 39, F.S.

The bill creates s. 39.831, F.S., which provides that an attorney for the child:

- Must be appointed when the child has special needs as provided in s. 39.01305(3), F.S.;
- Must be appointed by the court for any child who is subject to a dependency proceeding and who is placed in out-of-home licensed care on or after July 1, 2022; and
- May be appointed upon a finding by the court that circumstances exist which necessitate the appointment.

The bill modifies s. 39.01305(4)(a), F.S., to provide that an attorney must be appointed as provided for in s. 39.831, F.S.

Scope of Representation and Compensation

The bill clarifies that the scope of the appointment of an attorney for the child is limited to representation of the child in the dependency proceedings, which may include representation in fair hearings and appellate proceedings that are directly related to matters needing resolution for the child to achieve permanency. Further, representation in fair hearings must be provided within the resources allotted for representation in the dependency proceedings. Trained staff of the OCR or local nonprofit agency, which may include social workers, case workers, education advocates, or health care advocates, may attend the fair hearings rather than the appointed attorney when appropriate.

The bill relocates s. 39.01305(4)(b),F.S., to s. 39.831, F.S., which specifies that the appointment continues in effect until the attorney is allowed to withdraw, the attorney is discharged by the court, or the case is dismissed. The attorney for the child must provide all legal services required from the time the child is removed or the initial appointment through appellate proceedings. With court permission, the attorney for the child may arrange for supplemental or separate counsel to represent the child in appellate proceedings. An order appointing an attorney for the child must be in writing.

The bill clarifies that the attorney must be adequately compensated as provided in s. 27.5304, F.S. The bill also relocates s. 39.01305(5), F.S., to s. 39.831, F.S., in regards to payment required to be made to an attorney for his or her representation which may not exceed $1,000 unless the attorney agrees to represent the child pro bono, and the requirement to provide access to funding for due process costs of litigation which is subject to appropriations.

The court must appoint the OCR unless the child is otherwise represented. Similar to the GALP, parents who are financially able must reimburse the court for the costs of the OCR representation, but reimbursement for the attorney's services may not be contingent upon successful collection by the court of reimbursement from the parent.

Conflicts of Interest

If the OCR determines that the interests of clients are so adverse or hostile that they cannot all be counseled by child representation counsel or his or her staff because of a conflict of interest, the OCR must file a motion to withdraw and move the court to appoint alternative counsel. The bill provides that the OCR must not automatically determine the appointment to represent siblings as a conflict of interest. If requested, the OCR must provide the JAC with a copy of the motion at the time it is filed. The court must consider the OCR's submission regarding the conflict without requiring the disclosure of any confidential communications. The court must deny the motion if there are insufficient grounds for the request. If the motion is granted, the court must appoint an attorney as provided in s. 27.40, F.S.

Access to Records

Upon presentation of a court order by an attorney for the child, an agency, person, or organization must allow the attorney to inspect and copy records related to the child who is the subject of the appointment, including records that are made confidential. An agency must also allow an attorney for the child to inspect and copy records that are exempt from

s. 119.07(1), F.S., or s. 24(a), Art. I of the Florida Constitution, but he or she must maintain the confidential or exempt[111] status of any records shared.

The attorney for the child must review all disposition recommendations and changes in placement and file any appropriate motions at least 72 hours in advance of the hearing. The DCF must develop procedures to request that a court appoint an attorney for the child, and may adopt rules to implement the section.

Guardian ad Litem (Section 4 to 7)

Part XI is retitled to state "GUARDIAN AD LITEM, GUARDIAN ADVOCATES, AND ATTORNEY FOR THE CHILD."

Appointment

The bill amends s. 39.822, F.S., providing that a GAL will continue to be appointed as proscribed under current law before July 1, 2022. On or after that date:

- The GAL must be appointed at the earliest possible time to represent a child who is:
  - Placed in nonlicensed care or remains in-home under the protective supervision of the department;
  - The subject of a dependency proceeding and the subject of a criminal proceeding;
  - The subject of a termination of parental rights proceeding under Part X; or
  - A dependent child as described in s. 39.01305(3), F.S.[112]
- The GAL may be appointed at the court's discretion upon a finding that circumstances exist which require the appointment.

If a guardian ad litem is appointed, the court may maintain the appointment even if an attorney for the child is later appointed because the child subsequently meets the above-mentioned criteria requiring the appointment of an attorney, such as he or she was placed in out-of-home care.

Conflicts of Interest

The GALP must develop guidelines to identify any possible conflicts of interest of a GAL when he or she is being considered for assignment to a child's case, and prohibits the GALP from appointing such GALs when a conflict is identified. "Conflict of interest" is defined as a GAL who:

- Has a personal relationship that could influence a recommendation regarding a child whom he or she is serving as a GAL;
- Is in a position to derive a personal benefit from his or her role as a GAL; or
- Has a personal factor or circumstance, including a bias or prejudice, which impairs the GALs ability to fully and fairly discharge his or her duties.

[111] When creating a public records exemption, the Legislature may provide that a record is "exempt" or "confidential and exempt." Custodians of records designated as "exempt" are not prohibited from disclosing the record; rather, the exemption means that the custodian cannot be compelled to disclose the record. *See Williams v. City of Minneola*, 575 So. 2d 683, 687 (Fla. 5th DCA 1991). Custodians of records designated as "confidential and exempt" may not disclose the record except under circumstances specifically defined by the Legislature. *WFTV, Inc. v. The School Board of Seminole*, 874 So. 2d 48 (Fla. 5th DCA 2004).

[112] See below for further discussion on this section.

The bill permits the court to order that a new GAL be assigned or, unless otherwise provided by law, that the GAL be discharged and an attorney for the child be appointed upon:

- Consent of a child who is the subject of a dependency proceeding; or
- Any party presenting evidence that there is reasonable cause to suspect the assigned GAL has a conflict of interest.

The bill also requires the GALP to identify any GAL who is experiencing any physical or mental health issues and who appears to present a danger to any child, remove such GAL from all assigned cases, and terminate his or her direct contact voluntary services with the GALP. This action must be disclosed to the court. A GAL who has a physical or mental issue may work at the GALP office without direct child contact provided such issue does not negatively affect his or her ability to perform any required work duties or pose a risk of harm to any children represented by the program. A GAL who has caused harm to any child during the course of his or her appointment must not be employed or permitted to volunteer for the program.

Reappointment Process

The GAL Qualifications Committee who nominates at least three eligible applicants for the executive director position of the GALP to the Governor is renamed to the Child Well-Being Qualifications Committee. The bill provides that the executive director may be reappointed to serve more than one term pursuant to the appointment process. Every term is for a 3 year period.

Conforming Sections (Sections 10-40)

The bill amends ss. 39.00145, 39.0139, 39.402, 39.407, 39.4085, and 39.523, F.S., in part, to change the term "attorney ad litem" or other term used to refer to an attorney appointed to represent a child to the term "attorney for the child."

The bill also amends ss. 28.345, 39.001, 39.00145, 39.0132, 39.0139, 39.202, 39.302, 39.402, 39.407, 39.502, 39.521, 39.6011, 39.6012, 39.6251, 39.701, 39.702, 39.801, 39.802, 39.808, 39.810, 39.811, 39.812, 43.16, 63.085, 322.09, 394.495, 627.746, 934.255, and 960.065 to update reference to the attorney for the child as counsel for a party that is applicable to these sections as contemplated in the provisions in this bill.

The bill is effective July 1, 2021.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. State Tax or Fee Increases:

None.

E. Other Constitutional Issues:

The bill permits the attorney for the child to file a termination of parental rights petition which the GALP reports could raise constitutional issues with respect to the fundamental rights of parents.[113] However, s. 39.802, F.S., currently authorizes any party who has knowledge of the facts alleged or is informed of them and believes that they are true may file a termination of parental rights.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

To the extent a parent is financially able, he or she would have to reimburse the cost of the attorney for the child pursuant to s. 39.831(1)(c), F.S.

C. Government Sector Impact:

Statewide Guardian ad Litem Office Fiscal Impact

The bill's provisions would clearly reduce the demand for services provided by the GALP, though the impact is indeterminate. The GALP reports an indeterminate fiscal impact of the bill as it is unknown how many children will meet the criteria under s. 39.822(1)(b), F.S.[114] Of the 35,160 children in out-of-home care or receiving in-home services as of February 28, 2021, 23,444 children were under 10 years old and 11,714 children were 10 years of age or older.[115] Further, the number of GALs appointed to represent children will vary depending on how many termination of parental rights petitions are filed, how many children have special needs, and whether the children have pending delinquency proceedings.

[113] *2021 Agency Legislative Bill Analysis* at p. 14. (SB 1920) (March 14, 2021), Statewide Guardian ad Litem Program (on file with the Senate Appropriations Subcommittee on Criminal and Civil Justice).
[114] *Id.* at p. 15.
[115] *Id.*

Justice Administrative Commission (JAC) Fiscal Impact

PCS/CS/SB 1920 will have an indeterminate, but significant, negative fiscal impact on the Justice Administrative Commission. The bill's provisions require the JAC to provide administrative support and services to the Statewide Office of Child Representation. Additional funding would be necessary for new administrative and infrastructure costs inherent in establishing and serving the new Offices of Child Representation, including employee training on the legal requirements of the OCR and incorporating the OCR into the existing state budgeting, finance, and IT systems. The JAC estimates that FTE costs for these functions would total $594,183 as follows:

- One-half FTE in Executive
- One FTE in Human Resources
- One FTE in Accounting
- One-half FTE in Financial Services
- One FTE in Information Technology
- One 3/4 FTE in Budget
- One FTE in Court-Appointed Audit (a blend of a flat fee auditor and hourly/due process auditor)
- Two FTEs in Legal (one attorney and one court-appointed paralegal)

Additionally, the JAC estimates that between $1.1 million to $5.5 million will be needed beginning in FY 2022-2023 for private court-appointed attorneys where the Offices of Child Representation have a conflict precluding representation. These costs are likely to be higher in the first year of appointments while the offices are beginning implementation of this initiative.[116]

The costs to the JAC associated with the bill are also partially contingent upon the service delivery model that the JAC provides to each of the Offices of Child Representation. The bill is silent on whether a single new state entity, the Statewide Office of Child Representation, would serve its regional offices (similar to current GALP), or whether the JAC would support the statewide office and the six separate new state entities, each functioning independently, similar to the Office of Criminal Conflict and Civil Regional Counsel.

Regional Office of the Child Representation Fiscal Impact

The bill requires the creation of five regional offices of child representation, which would have a significant negative fiscal impact on state resources. The estimated costs for the regional offices are difficult to quantify due to the multiple cost drivers, including expected caseload and conflict rate of the offices. In addition to operating costs, each office would also incur start-up costs and ongoing overhead costs. The example below projects annual recurring costs of $20.9 million based on the assumptions below; however, funding scenarios could easily range from $10 to $30 million.

[116] *2021 Agency Legislative Bill Analysis* (SB 1920) (April 2, 2021), Justice Administrative Commission (on file with the Senate Appropriations Subcommittee on Criminal and Civil Justice).

ASSUMPTIONS	
Number of Children Eligible	6,500
Caseload Per Attorney	60
Length of Appointment (In Months)	12
Cost Per Case Paid to Registry Attorney	$1,000
Conflict Rate	10%

FTE		Total Recurring Need	Total Nonrecurring Need
6.00	Salaries and Benefits for Director Positions (1 Per Region + Executive Director)	$ 1,078,152	$ -
	Operations Costs for Directors (Standard # 3 w/ Law Library)	$ 63,600	$ 23,370
5.00	Salaries and Benefits for Regional "Chiefs"	$ 718,365	$ -
	Operations Costs for Chiefs (Standard # 3 w/ Law Library)	$ 53,000	$ 19,475

As discussed in the "Present Situation," state funding for these services could be partially offset by Title IV-E federal funds.

The number of cases that will require the appointment of counsel to represent children is anticipated to be fewer than the number of children eligible for the appointment of an attorney. As of December 31, 2020, there are a total of 21,122 children in out-of-home care in Florida of which 12,875 are in DCF custody.[117] There were a total of 3,573 sibling groups of which 1,732 sibling groups, or 4,317 children, were in DCF custody.[118] Given the fact that sibling representation is not a per se conflict and there are a significant number of sibling groups in out-of-home care, the caseloads will likely be less than the number of children eligible for legal representation.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 28.345, 39.001, 39.00145, 39.01, 39.013, 39.01305, 39.0132, 39.0139, 39.202, 39.302, 39.402, 39.407, 39.4085, 39.502, 39.521, 39.523, 39.6011, 39.6012, 39.6251, 39.701, 39.702, 39.801, 39.802, 39.808, 39.810, 39.811, 39.812, 39.820, 39.822, 39.8296, 43.16, 63.085, 322.09, 394.495, 627.746, 934.255, and 960.065 of the Florida Statutes.

This bill creates the following sections of the Florida Statutes: 39.83 and 39.831.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

PCS 771334 by Appropriations (Recommended by Appropriations Subcommittee on Criminal and Civil Justice):
The proposed committee substitute:

- Removes the requirement to appoint a GAL to a child who is under 10 years old;
- Requires a GAL to be appointed to represent the best interest of a child who remains in-home or is placed in nonlicensed care who is under the protective supervision of the department;
- Permits the court to maintain the appointment of a GAL when an attorney for the child is appointed if the child is subsequently placed in out-of-home care;
- Clarifies that the GALP must terminate direct child contact volunteer services of any volunteer who has a physical or mental health issue and presents a danger to any child whom the GAL is assigned;
- Permits a GAL with a physical or mental health issue to work in the office performing non-direct contact duties in specified instances;
- Prohibits a GAL who has caused harm to any child during the course of his or her appointment from being an employee or volunteer for the program;
- Removes the requirement to appoint an attorney to a child who is 10 years of age and older;
- Requires an attorney to be appointed to represent a child who is the subject of a dependency proceeding and who is placed in out-of-home licensed care on or after July 1, 2022;
- Permits the attorney for the child to represent the child in fair hearings and appellate proceedings that are directly related to matters needing resolution for the child to achieve permanency;

- Permits the OCR to contract with a local nonprofit agency for attorney representation in a dependency proceeding which includes representation in fair hearings as provided in s. 39.81, F.S., if specified conditions are met;
- Requires that representation at the fair hearings be provided within the resources allocated for representation in the dependency proceedings;
- Permits trained staff rather than the appointed attorney to attend the fair hearings when appropriate;
- Removes the requirement for a GAL or an attorney for the child to be appointed to represent a child in a related adoption proceeding;
- Revises the definition of "attorney for the child" to include private court-appointed counsel who is compensated by the state; and
- Amends a cross-reference regarding private court-appointed counsel compensation to refer to s. 27.5304, F.S., instead of s. 27.5305, F.S.

CS by Children, Families, and Elder Affairs on March 23, 2021:
The committee substitute:

- Relocates and clarifies s. 39.01305(4)(b) and (c), F.S., to s. 39.81 relating to the scope of representation and payment of the attorney for the child;
- Clarifies that the GALP must not appoint a GAL to a child when a conflict of interest is identified;
- Modifies the requirement that the OCR collect certain information about national models related to GALP to other representation models for child representation;
- Modifies the composition of the OCR training curriculum committee to only one director of circuit GAL program and one active certified GAL;
- Permits the court discretion to appoint a GAL to represent a child upon a finding that circumstances exist which require the appointment;
- Requires the OCR to establish standards and protocols for representing children with diminished capacity;
- Removes the requirement for the court to consider a child's age and maturity when deciding whether to discharge a GAL upon the child's express wishes;
- Provides for private counsel to be appointed when OCR determines that it has a conflict of interest in representing a child and establishes the process which must be followed in those instances;
- Clarifies that the scope of the appointment of an attorney for the child is limited to representation in the dependency or related adoption proceeding;
- Clarifies that the court may not discharge a GAL and appoint an attorney for the child if the law otherwise requires a GAL to be appointed;
- Removes references to the OCR or attorney for the child in various sections included in the bill that are not appropriate for such references and clarifying terminology, where appropriate; and
- Makes other technical changes to update cross-references, and modifies language for consistency.

B. Amendments:

None.

This Senate Bill Analysis does not reflect the intent or official position of the bill's introducer or the Florida Senate.

879448

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Book) recommended the following:

Senate Amendment (with title amendment)

Delete lines 450 - 631

and insert:

representation of children with diminished capacity;

9. Shall retain responsibility for the quality of contracted services and ensure that, at a minimum, services are delivered in accordance with applicable federal and state statutes and regulations; and

10. Shall submit to the Governor, the President of the

Senate, the Speaker of the House of Representatives, and the Chief Justice of the Supreme Court:

a. An interim report describing the progress of the statewide office in meeting the responsibilities described in this paragraph.

b. A proposed plan that includes alternatives for meeting the representation needs of children in this state. The plan may include recommendations for implementation in only a portion of this state or phased-in statewide implementation and must include an estimate of the cost of each such alternative.

c. An annual status report that includes any additional recommendations for addressing the representation needs of children in this state and related issues.

(d) The department or community-based care lead agency shall take any steps necessary to obtain all available federal funding and maintain compliance with eligibility requirements.

(e) The statewide office may contract with a local nonprofit agency to provide direct attorney representation to a child, including, but not limited to, representation in the dependency proceeding as provided for in s. 39.831, if the office determines that the contract is the most efficient method to satisfy its statutory duties and if federal funding has been approved for this purpose or the local agency is required in the contract to seek such approval. The office must ensure that reimbursement of any Title IV-E funds is properly documented.

1. A local nonprofit agency under contract with the statewide office shall:

a. Provide competent representation to all children to whom the agency is appointed, including compliance with the protocols

879448

and standards developed by the statewide office with respect to its representation;

b. Ensure that any documentation that is required for reimbursement of any Title IV-E funds is provided to the statewide office on a monthly basis;

c. Provide accurate and timely information that is necessary for the statewide office to provide oversight and comply with its requirements under this section;

d. Ensure all staff comply with mandatory training as required by the statewide office; and

e. Comply with federal and state statutory requirements and provisions as required under the contract.

2. A contract established between the statewide office and any local nonprofit agency must be funded by a grant of general revenue, other applicable state funds, or applicable federal funding sources. Unless otherwise provided by law, nothing in this paragraph shall preclude such an agency from raising funds by other means.

a. The method of payment and distribution of funds must be provided for in the contract between the statewide office and a local nonprofit agency; and

b. Each contract with a local nonprofit agency shall provide for the payment by the department to the agency of a reasonable administrative cost in addition to funding for the provision of services.

(2) REGIONAL OFFICES OF CHILD REPRESENTATION.—An office of child representation is created within the area served by each of the five district courts of appeal. The offices shall commence fulfilling their statutory purpose and duties on July

879448

1, 2022.

(3) CHILD REPRESENTATION COUNSEL; DUTIES.—The child representation counsel shall serve on a full-time basis and may not engage in the private practice of law while holding office. Each assistant child representation counsel shall give priority and preference to his or her duties as assistant child representation counsel and may not otherwise engage in the practice of dependency law. However, a part-time child representation counsel may practice dependency law for private payment so long as the representation does not result in a legal or ethical conflict of interest with a case in which the office of child representation is providing representation.

Section 8. Section 39.831, Florida Statutes, is created to read:

39.831 Attorney for the child.—

(1) APPOINTMENT.—

(a) An attorney for the child:

1. Shall be appointed by the court as provided in s. 39.01305(3);

2. Shall be appointed by the court for any child who is placed in out-of-home licensed care on or after July 1, 2022, and who is the subject of a dependency proceeding under this chapter; or

3. May be appointed at the court's discretion to represent a child who is the subject of a dependency proceeding upon a finding that circumstances exist which require the appointment.

(b) The court who appoints an attorney for the child under paragraph (a) shall appoint the Statewide Office of Child Representation unless the child is otherwise represented by

879448

counsel.

(c) An attorney for the child appointed pursuant to this section shall represent the child only in the dependency proceeding, which may include representation in fair hearings and appellate proceedings that are directly related to matters needing resolution for the child to achieve permanency. The Statewide Office of Child Representation or local nonprofit agency appointed to represent a child in the dependency proceeding shall provide representation in fair hearings within the resources allotted for representation in the dependency proceeding. Trained staff of the office of child representation or local nonprofit agency may attend the fair hearings rather than the appointed attorney when appropriate. Trained staff for purposes of this paragraph may include, but is not limited to, social workers, case managers, education advocates, or health care advocates.

(d) Notwithstanding the basis on which an attorney for the child is appointed under paragraph (a), the appointment of the attorney for the child continues in effect until the attorney for the child is allowed to withdraw or is discharged by the court or until the case is dismissed. An attorney for the child who is appointed under this section to represent a child shall provide all required legal services in the dependency proceeding or fair hearings provided for in this section from the time of the child's removal from home or of the attorney for the child's initial appointment through all appellate proceedings. With the permission of the court, the appointed attorney for the child may arrange for supplemental or separate counsel to represent the child in appellate proceedings. A court order appointing an

attorney for the child under this section must be in writing.

(e) If, at any time during the representation of two or more children in a dependency proceeding, a child representation counsel determines that the interests of those clients are so adverse or hostile that they cannot all be counseled by child representation counsel or his or her staff because of a conflict of interest, the child representation counsel shall file a motion to withdraw and move the court to appoint other counsel. Child representation counsel may not automatically determine the appointment to represent siblings is a conflict of interest. If requested by the Justice Administrative Commission, the child representation counsel shall submit a copy of the motion to the Justice Administrative Commission at the time it is filed with the court. The court shall review and may inquire or conduct a hearing into the adequacy of the child representation counsel's submissions regarding a conflict of interest without requiring the disclosure of any confidential communications. The court shall deny the motion to withdraw if the court finds the grounds for withdrawal are insufficient or the asserted conflict is not prejudicial to the client. If the court grants the motion to withdraw, the court shall appoint one or more private attorneys to represent the person in accordance with the requirements and process provided for in s. 27.40. The clerk of court shall inform the child representation counsel and the commission when the court appoints private counsel.

(f) Unless the attorney has agreed to provide pro bono services, an appointed attorney or organization must be adequately compensated as provided in s. 27.5304. All appointed attorneys and organizations, including pro bono attorneys, must

879448

be provided with access to funding for expert witnesses, depositions, and other due process costs of litigation. Payments of attorney fees and case-related due process costs are subject to appropriations and review by the Justice Administrative Commission for reasonableness. The Justice Administrative Commission shall contract with attorneys appointed by the court. Attorney fees may not exceed $1,000 per child per year.

(g) In cases in which one or both parents are financially able, the parent or parents, as applicable, of the child shall reimburse the court, in whole or in part, for the cost of services provided under this section; however, reimbursement for services provided by the attorney for the child may not be contingent upon successful collection by the court of reimbursement from the parent or parents.

(2) ACCESS TO RECORDS.—Upon presentation of a court order appointing an attorney for the child:

(a) An agency as defined in chapter 119 must allow the attorney for the child to inspect and copy records related to the child who is the subject of the appointment, including, but not limited to, records made confidential or exempt from s. 119.07(1) or s. 24(a), Art. I of the State Constitution. The attorney for the child shall maintain the confidential or exempt status of any records shared by an agency under this paragraph.

(b) A person or an organization, other than an agency under paragraph (a), must allow the attorney for the child to inspect and copy any records related to the child who is the subject of the appointment, including, but not limited to, confidential records.

For the purposes of this subsection, the term "records" includes, but is not limited to, medical, mental health, substance abuse, child care, education, law enforcement, court, social services, and financial records.

(3) COURT HEARINGS.—The attorney for the child shall review all disposition recommendations and changes in placements and file all appropriate motions on behalf of the child at least 72 hours before the hearing.

(4) PROCEDURES.—The department shall develop procedures to request that a court appoint an attorney for the child.

(5) RULEMAKING.—The department may adopt rules to implement this section.

Section 9. Subsection (1) of section 28.345, Florida Statutes, is amended to read:

28.345 State access to records; exemption from court-related fees and charges.—

(1) Notwithstanding any other provision of law, the clerk of the circuit court shall, upon request, provide access to public records without charge to the state attorney, public defender, guardian ad litem, public guardian, ~~attorney ad litem,~~ criminal conflict and civil regional counsel, court-appointed attorney for the child, and private court-appointed counsel paid by the state, and to authorized staff acting on their behalf. The clerk of court may provide the requested public record in an electronic format in lieu of a paper format if the requesting entity is capable of accessing such public record electronically.

Section 10. Section 29.007, Florida Statutes, is amended to read:

879448

29.007 Court-appointed counsel.—For purposes of implementing s. 14, Art. V of the State Constitution, the elements of court-appointed counsel to be provided from state revenues appropriated by general law are as follows:

(1) Private attorneys appointed by the court to handle cases where the defendant is indigent and cannot be represented by the public defender or the office of criminal conflict and civil regional counsel.

(2) When the office of criminal conflict and civil regional counsel has a conflict of interest, private attorneys appointed by the court to represent indigents or other classes of litigants in civil proceedings requiring court-appointed counsel in accordance with state and federal constitutional guarantees and federal and state statutes.

(3) When the Statewide Office of Child Representation or a local nonprofit agency with which it has contracted has a conflict of interest, private attorneys appointed by the court to represent indigents or other classes of litigants in civil proceedings requiring court-appointed counsel in accordance with federal and state statutes.

(4) ~~(3)~~ Reasonable court reporting and transcription services necessary to meet constitutional or statutory requirements, including the cost of transcribing and copying depositions of witnesses and the cost of foreign language and sign-language interpreters and translators.

(5) ~~(4)~~ Witnesses, including expert witnesses, summoned to appear for an investigation, preliminary hearing, or trial in a case when the witnesses are summoned on behalf of an indigent, and any other expert witnesses approved by the court.

879448

(6) ~~(5)~~ Mental health professionals appointed pursuant to s. 394.473 and required in a court hearing involving an indigent, mental health professionals appointed pursuant to s. 916.115(2) and required in a court hearing involving an indigent, and any other mental health professionals required by law for the full adjudication of any civil case involving an indigent person.

(7) ~~(6)~~ Reasonable pretrial consultation fees and costs.

(8) ~~(7)~~ Travel expenses reimbursable under s. 112.061 reasonably necessary in the performance of constitutional and statutory responsibilities.

Subsections ~~(3),~~ (4), (5), (6), ~~and~~ (7), and (8) apply when court-appointed counsel is appointed; when the court determines that the litigant is indigent for costs; or when the litigant is acting pro se and the court determines that the litigant is indigent for costs at the trial or appellate level. This section applies in any situation in which the court appoints counsel to protect a litigant's due process rights. The Justice Administrative Commission shall approve uniform contract forms for use in processing payments for due process services under this section. In each case in which a private attorney represents a person determined by the court to be indigent for costs, the attorney shall execute the commission's contract for private attorneys representing persons determined to be indigent for costs.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Criminal and Civil Justice)

A bill to be entitled

An act relating to child welfare; amending s. 39.01, F.S.; defining the term "attorney for the child"; amending ss. 39.013 and 39.01305, F.S.; conforming provisions to changes made by the act; renaming part XI of ch. 39, F.S., as "Guardians ad litem, guardian advocates, and attorney for the child"; amending s. 39.822, F.S.; conforming provisions to changes made by the act; specifying circumstances under which a court is authorized or required, on or after a specified date, to appoint a guardian ad litem; authorizing the court to maintain the appointment of a guardian ad litem in specified circumstances; authorizing the court to order that a new guardian ad litem be assigned for a child or discharge a guardian ad litem and appoint an attorney for the child under specified circumstances; amending s. 39.8296, F.S.; renaming the Guardian Ad Litem Qualifications Committee as the Child Well-Being Qualifications Committee; specifying that the executive director of the Statewide Guardian Ad Litem Office may be reappointed; clarifying that second and subsequent appointments made for the executive director of the office are for 3 years; requiring the office to develop guidelines to identify conflicts of interest of guardians ad litem; prohibiting the office from assigning such guardians; defining the term "conflicts of interest"; requiring

771334

576-03940-21

the office to identify guardians ad litem who are experiencing health issues and who present a danger to the child to whom the guardian ad litem is assigned; requiring the office to remove such guardians from assigned cases, terminate their volunteer services in specified circumstances, and disclose such actions to the circuit court; creating s. 39.83, F.S.; creating the Statewide Office of Child Representation within the Justice Administrative Commission; requiring the commission to provide administrative support and services to the statewide office; providing that the statewide office is not subject to control, supervision, or direction by the commission; providing that employees of the statewide office are governed by the classification plan and salary and benefits plan approved by the commission; providing that the head of the statewide office is the executive director; providing the process for appointment; requiring that the initial executive director be appointed by a specified date; providing responsibilities of the office; authorizing the office to contract with local nonprofit agencies under certain conditions; creating a regional office of child representation within the boundaries of each of the five district courts of appeal; requiring such offices to commence fulfilling their purpose and duties on a specified date; requiring the commission to provide administrative support to the regional offices; providing that the offices are not subject to control, supervision, or

direction by the commission; providing that employees of the offices are governed by the classification plan and salary and benefits plan for the commission; prescribing qualifications for child representation counsel; providing certain prohibitions; creating s. 39.831, F.S.; specifying when the court is authorized or required to appoint an attorney for the child; requiring the court to appoint the Statewide Office of Child Representation; providing for the scope of representation for court-appointed counsel; limiting resources to be allocated; providing that staff may attend fair hearings; providing for the duration of attorney representation; authorizing the attorney for the child to arrange for supplemental or separate counsel in specified circumstances; providing for the appointment of private counsel when the office has a conflict of interest; requiring an attorney for the child to be compensated and have access to funding for expenses with specified conditions; providing conditions under which a parent is required to reimburse the court for the cost of the attorney; requiring agencies, persons, and organizations to allow an attorney for the child to inspect and copy certain records; defining the term "records"; providing requirements for an attorney for the child relating to hearings; requiring the Department of Children and Families to develop procedures to request that a court appoint an attorney for the child; authorizing the department to adopt rules; amending

ss. 28.345, 39.001, 39.00145, 39.0132, 39.0139, 39.202, 39.302, 39.402, 39.407, 39.4085, 39.502, 39.521, 39.523, 39.6011, 39.6012, 39.6251, 39.701, 39.702, 39.801, 39.802, 39.808, 39.810, 39.811, 39.812, 43.16, 63.085, 322.09, 394.495, 627.746, 934.255, and 960.065, F.S.; conforming cross-references and provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (9) through (87) of section 39.01, Florida Statutes, are redesignated as subsections (10) through (88), respectively, a new subsection (9) is added to that section, and present subsections (10) and (37) are amended, to read:

39.01 Definitions.—When used in this chapter, unless the context otherwise requires:

(9) "Attorney for the child" means an attorney providing direct representation to the child, which may include the appointment of the Office of Child Representation, an attorney provided by an entity contracted through the Office of Child Representation to provide direct representation, any private court-appointed counsel who is compensated pursuant to s. 27.5304, any privately retained counsel or pro bono counsel, or any other attorney who is appointed to represent the child under this chapter.

(11)~~(10)~~ "Caregiver" means the parent, legal custodian, permanent guardian, adult household member, or other person

responsible for a child's welfare as defined in subsection (55) ~~(54)~~.

(38)~~(37)~~ "Institutional child abuse or neglect" means situations of known or suspected child abuse or neglect in which the person allegedly perpetrating the child abuse or neglect is an employee of a public or private school, public or private day care center, residential home, institution, facility, or agency or any other person at such institution responsible for the child's welfare as defined in subsection (55) ~~(54)~~.

Section 2. Subsection (13) is added to section 39.013, Florida Statutes, to read:

39.013 Procedures and jurisdiction; right to counsel.—

(13) The court shall appoint an attorney for the child pursuant to s. 39.831.

Section 3. Subsections (4) and (5) of section 39.01305, Florida Statutes, are amended to read:

39.01305 Appointment of an attorney for a dependent child with certain special needs.—

(4)~~(a)~~ An attorney for the child appointed under this section shall be made in accordance with s. 39.831 ~~Before a court may appoint an attorney, who may be compensated pursuant to this section, the court must request a recommendation from the Statewide Guardian Ad Litem Office for an attorney who is willing to represent a child without additional compensation. If such an attorney is available within 15 days after the court's request, the court must appoint that attorney. However, the court may appoint a compensated attorney within the 15-day period if the Statewide Guardian Ad Litem Office informs the court that it will not be able to recommend an attorney within that time period.~~

~~(b) After an attorney is appointed, the appointment continues in effect until the attorney is allowed to withdraw or is discharged by the court or until the case is dismissed. An attorney who is appointed under this section to represent the child shall provide the complete range of legal services, from the removal from home or from the initial appointment through all available appellate proceedings. With the permission of the court, the attorney for the dependent child may arrange for supplemental or separate counsel to represent the child in appellate proceedings. A court order appointing an attorney under this section must be in writing.~~

~~(5) Unless the attorney has agreed to provide pro bono services, an appointed attorney or organization must be adequately compensated. All appointed attorneys and organizations, including pro bono attorneys, must be provided with access to funding for expert witnesses, depositions, and other due process costs of litigation. Payment of attorney fees and case-related due process costs are subject to appropriations and review by the Justice Administrative Commission for reasonableness. The Justice Administrative Commission shall contract with attorneys appointed by the court. Attorney fees may not exceed $1,000 per child per year~~.

Section 4. Part XI of chapter 39, Florida Statutes, entitled "GUARDIANS AD LITEM AND GUARDIAN ADVOCATES," is renamed "GUARDIANS AD LITEM, GUARDIAN ADVOCATES, AND ATTORNEY FOR THE CHILD."

Section 5. Section 39.822, Florida Statutes, is amended to read:

39.822 Appointment of guardian ad litem for abused, abandoned, or neglected child.—

(1)(a) Before July 1, 2022, a guardian ad litem must ~~shall~~ be appointed by the court at the earliest possible time to represent a ~~the~~ child in any child abuse, abandonment, or neglect judicial proceeding, whether civil or criminal.

(b) On or after July 1, 2022, a guardian ad litem:

1. Must be appointed by the court at the earliest possible time to represent a child under the following circumstances:

a. The child remains in his or her home or nonlicensed placement under the protective supervision of the department;

b. The child is the subject of a dependency proceeding under this chapter and the subject of a criminal proceeding;

c. The child is the subject of a termination of parental rights proceeding under part X of this chapter; or

d. The child is a dependent child as described in s. 39.01305(3).

2. May be appointed at the court's discretion upon a finding that circumstances exist which require the appointment.

(2) If a child who is appointed a guardian ad litem when placed under the protective supervision of the department as required under subparagraph (1)(b)1. is subsequently appointed an attorney for the child pursuant to s. 39.831, the court has the discretion to maintain the appointment of the guardian ad litem notwithstanding the appointment of an attorney for the child.

(3) Upon request by a child who is the subject of a dependency proceeding under this chapter and who has a guardian ad litem assigned, or upon any party presenting evidence that

there is reasonable cause to suspect the assigned guardian ad litem has a conflict of interest as defined in s. 39.8296(2)(b)9., the court may:

(a) Order that a new guardian ad litem be assigned; or

(b) Unless otherwise provided by law, discharge the child's current guardian ad litem and appoint an attorney for the child if one is not appointed.

(4) Any person participating in a civil or criminal judicial proceeding resulting from such appointment shall be presumed prima facie to be acting in good faith and in so doing shall be immune from any liability, civil or criminal, that otherwise might be incurred or imposed.

(5)~~(2)~~ In those cases in which the parents are financially able, the parent or parents of the child shall reimburse the court, in part or in whole, for the cost of provision of guardian ad litem services. Reimbursement to the individual providing guardian ad litem services may ~~shall~~ not be contingent upon successful collection by the court from the parent or parents.

(6)~~(3)~~ Upon presentation by a guardian ad litem of a court order appointing the guardian ad litem:

(a) An agency, as defined in chapter 119, shall allow the guardian ad litem to inspect and copy records related to the best interests of the child who is the subject of the appointment, including, but not limited to, records made confidential or exempt from s. 119.07(1) or s. 24(a), Art. I of the State Constitution. The guardian ad litem shall maintain the confidential or exempt status of any records shared by an agency under this paragraph.

(b) A person or organization, other than an agency under paragraph (a), shall allow the guardian ad litem to inspect and copy any records related to the best interests of the child who is the subject of the appointment, including, but not limited to, confidential records.

For the purposes of this subsection, the term "records related to the best interests of the child" includes, but is not limited to, medical, mental health, substance abuse, child care, education, law enforcement, court, social services, and financial records.

(7) ~~(4)~~ The guardian ad litem or the program representative shall review all disposition recommendations and changes in placements, and must be present at all critical stages of the dependency proceeding or submit a written report of recommendations to the court. Written reports must be filed with the court and served on all parties whose whereabouts are known at least 72 hours before ~~prior to~~ the hearing.

Section 6. Subsection (2) of section 39.8296, Florida Statutes, is amended to read:

39.8296 Statewide Guardian Ad Litem Office; legislative findings and intent; creation; appointment of executive director; duties of office.—

(2) STATEWIDE GUARDIAN AD LITEM OFFICE.—There is created a Statewide Guardian Ad Litem Office within the Justice Administrative Commission. The Justice Administrative Commission shall provide administrative support and service to the office to the extent requested by the executive director within the available resources of the commission. The Statewide Guardian Ad

Litem Office is not subject to control, supervision, or direction by the Justice Administrative Commission in the performance of its duties, but the employees of the office are governed by the classification plan and salary and benefits plan approved by the Justice Administrative Commission.

(a) The head of the Statewide Guardian Ad Litem Office is the executive director, who shall be appointed by the Governor from a list of a minimum of three eligible applicants submitted by the Child Well-Being ~~a Guardian Ad Litem~~ Qualifications Committee. The Child Well-Being ~~Guardian Ad Litem~~ Qualifications Committee shall be composed of five persons, two persons appointed by the Governor, two persons appointed by the Chief Justice of the Supreme Court, and one person appointed by the Statewide Guardian Ad Litem Association. The committee shall provide for statewide advertisement and the receiving of applications for the position of executive director. The Governor shall appoint an executive director from among the recommendations, or the Governor may reject the nominations and request the submission of new nominees. The executive director must have knowledge in dependency law and knowledge of social service delivery systems available to meet the needs of children who are abused, neglected, or abandoned. The executive director shall serve on a full-time basis and shall personally, or through representatives of the office, carry out the purposes and functions of the Statewide Guardian Ad Litem Office in accordance with state and federal law. The executive director shall report to the Governor. The executive director shall serve a 3-year term, subject to removal for cause by the Governor. Any person appointed to serve as the executive director may be

reappointed ~~permitted~~ to serve more than one term in accordance with the process provided for in this paragraph. Every second or subsequent appointment shall be for a term of 3 years.

(b) The Statewide Guardian Ad Litem Office shall, within available resources, have oversight responsibilities for and provide technical assistance to all guardian ad litem and attorney ad litem programs located within the judicial circuits.

1. The office shall identify the resources required to implement methods of collecting, reporting, and tracking reliable and consistent case data.

2. The office shall review the current guardian ad litem programs in Florida and other states.

3. The office, in consultation with local guardian ad litem offices, shall develop statewide performance measures and standards.

4. The office shall develop a guardian ad litem training program, which shall include, but is not limited to, training on the recognition of and responses to head trauma and brain injury in a child under 6 years of age. The office shall establish a curriculum committee to develop the training program specified in this subparagraph. The curriculum committee shall include, but not be limited to, dependency judges, directors of circuit guardian ad litem programs, active certified guardians ad litem, a mental health professional who specializes in the treatment of children, a member of a child advocacy group, a representative of a domestic violence advocacy group, an individual with a degree in social work, and a social worker experienced in working with victims and perpetrators of child abuse.

5. The office shall review the various methods of funding

guardian ad litem programs, maximize the use of those funding sources to the extent possible, and review the kinds of services being provided by circuit guardian ad litem programs.

6. The office shall determine the feasibility or desirability of new concepts of organization, administration, financing, or service delivery designed to preserve the civil and constitutional rights and fulfill other needs of dependent children.

7. In an effort to promote normalcy and establish trust between a court-appointed volunteer guardian ad litem and a child alleged to be abused, abandoned, or neglected under this chapter, a guardian ad litem may transport a child. However, a guardian ad litem volunteer may not be required or directed by the program or a court to transport a child.

8. The office shall submit to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Chief Justice of the Supreme Court an interim report describing the progress of the office in meeting the goals as described in this section. The office shall submit to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Chief Justice of the Supreme Court a proposed plan including alternatives for meeting the state's guardian ad litem and attorney ad litem needs. This plan may include recommendations for less than the entire state, may include a phase-in system, and shall include estimates of the cost of each of the alternatives. Each year the office shall provide a status report and provide further recommendations to address the need for guardian ad litem services and related issues.

9. The office shall develop guidelines to identify any possible conflicts of interest of a guardian ad litem when he or she is being considered for assignment to a child's case. The office may not assign a guardian ad litem for whom a conflict of interest has been identified to a child's case. For purposes of this subparagraph, the term "conflicts of interest" means the guardian ad litem:

a. Has a personal relationship that could influence a recommendation regarding a child whom he or she is serving as a guardian ad litem;

b. Is in a position to derive a personal benefit from his or her role as a guardian ad litem; or

c. Has a particular factor or circumstance, including personal bias or prejudice against a protected class of the child or the child's family, that prevents or substantially impairs his or her ability to fairly and fully discharge the duties of the guardian ad litem.

(c) The Statewide Guardian Ad Litem Office shall identify any guardian ad litem who is experiencing an issue with his or her physical or mental health and who appears to present a danger to any child to whom the guardian ad litem is assigned. As soon as possible after identification, the office must remove such guardian ad litem from all assigned cases, terminate his or her direct child contact volunteer services with the Guardian Ad Litem Program, and disclose such action to the appropriate circuit court. The Statewide Guardian Ad Litem Office may allow a guardian ad litem with physical or mental health issues identified in accordance with this paragraph to work in the office without direct child contact provided such issues do not

negatively affect his or her ability to perform any required work duties or pose a risk of harm to any children represented by the program. A guardian ad litem who has caused harm to any child during the course of his or her appointment may not be employed by or permitted to volunteer for the program.

Section 7. Section 39.83, Florida Statutes, is created to read:

39.83 Statewide Office of Child Representation; qualifications, appointment, and duties of executive director and attorney for the child.—

(1) STATEWIDE OFFICE OF CHILD REPRESENTATION.—

(a) There is created a Statewide Office of Child Representation within the Justice Administrative Commission. The Justice Administrative Commission shall provide administrative support and services to the statewide office as directed by the executive director within the available resources of the commission. The statewide office is not subject to control, supervision, or direction by the Justice Administrative Commission in the performance of its duties, but the employees of the office are governed by the classification plan and salary and benefits plan approved by the Justice Administrative Commission.

(b) The head of the Statewide Office of Child Representation is the executive director who must be a member of The Florida Bar in good standing for at least 5 years and have knowledge of dependency law and the social service delivery systems available to meet the needs of children who are abused, neglected, or abandoned. The executive director shall be appointed in accordance with the process, and serve in

accordance with the terms and requirements, provided in s. 39.8296(2)(a) for the head of the Statewide Guardian Ad Litem Office. The appointment for the initial executive director must be completed by January 1, 2022.

(c) The Statewide Office of Child Representation, within available resources of the Justice Administrative Commission, is responsible for oversight of, and for providing technical assistance to, all offices of child representation in this state. The statewide office:

1. Shall identify the resources required to implement methods of collecting, reporting, and tracking reliable and consistent case data;

2. Shall review and collect information relating to offices of child representation and other models of attorney representation of children in other states;

3. In consultation with the regional offices of child representation established under subsection (2), shall develop statewide performance measures and standards;

4. Shall develop a training program for each attorney for the child. To that end, the statewide office shall establish a curriculum committee composed of members including, but not limited to, a dependency judge, a director of circuit guardian ad litem programs, an active certified guardian ad litem, a mental health professional who specializes in the treatment of children, a member of a child advocacy group, a representative of a domestic violence advocacy group, an individual with at least a Master of Social Work degree, and a social worker experienced in working with victims and perpetrators of child abuse;

5. Shall develop protocols that must be implemented to assist children who are represented by the Statewide Office of Child Representation, regional offices, or its contracted local agencies in meeting eligibility requirements to receive all available federal funding. This subparagraph may not be construed to mean that the protocols may interfere with zealous and effective representation of the children;

6. Shall review the various methods of funding the regional offices, maximize the use of those funding sources to the extent possible, and review the kinds of services being provided by the regional offices;

7. Shall determine the feasibility or desirability of new concepts of organization, administration, financing, or service delivery designed to preserve the civil and constitutional rights of, and fulfill other needs of, dependent children;

8. Shall establish standards and protocols for representation of children with diminished capacity; and

9. Shall submit to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Chief Justice of the Supreme Court:

a. An interim report describing the progress of the statewide office in meeting the responsibilities described in this paragraph.

b. A proposed plan that includes alternatives for meeting the representation needs of children in this state. The plan may include recommendations for implementation in only a portion of this state or phased-in statewide implementation and must include an estimate of the cost of each such alternative.

c. An annual status report that includes any additional

771334

576-03940-21

recommendations for addressing the representation needs of children in this state and related issues.

(d) The department or community-based care lead agency shall take any steps necessary to obtain all available federal funding and maintain compliance with eligibility requirements.

(e) The statewide office may contract with a local nonprofit agency to provide direct attorney representation to a child, including, but not limited to, representation in the dependency proceeding as provided for in s. 39.831, if the office determines that the contract is the most efficient method to satisfy its statutory duties and if federal funding has been approved for this purpose or the local agency is required in the contract to seek such approval. The office must ensure that reimbursement of any Title IV-E funds is properly documented.

(2) REGIONAL OFFICES OF CHILD REPRESENTATION.—

(a) An office of child representation is created within the area served by each of the five district courts of appeal. The offices shall commence fulfilling their statutory purpose and duties on July 1, 2022.

(b) Each regional office of child representation is assigned to the Justice Administrative Commission for administrative purposes. The commission shall provide administrative support and service to the offices within the available resources of the commission. The offices are not subject to control, supervision, or direction by the commission in the performance of their duties, but the employees of the offices are governed by the classification plan and the salary and benefits plan approved by the commission.

(3) CHILD REPRESENTATION COUNSEL; DUTIES.—The child

771334

576-03940-21

representation counsel shall serve on a full-time basis and may not engage in the private practice of law while holding office. Each assistant child representation counsel shall give priority and preference to his or her duties as assistant child representation counsel and may not otherwise engage in the practice of dependency law. However, a part-time child representation counsel may practice dependency law for private payment so long as the representation does not result in a legal or ethical conflict of interest with a case in which the office of child representation is providing representation.

Section 8. Section 39.831, Florida Statutes, is created to read:

39.831 Attorney for the child.—

(1) APPOINTMENT.—

(a) An attorney for the child:

1. Shall be appointed by the court as provided in s. 39.01305(3);

2. Shall be appointed by the court for any child who is placed in out-of-home licensed care on or after July 1, 2022, and who is the subject of a dependency proceeding under this chapter; or

3. May be appointed at the court’s discretion to represent a child who is the subject of a dependency proceeding upon a finding that circumstances exist which require the appointment.

(b) The court shall appoint the Statewide Office of Child Representation unless the child is otherwise represented by counsel.

(c) An attorney for the child appointed pursuant to this section shall represent the child only in the dependency

proceeding, which may include representation in fair hearings and appellate proceedings that are directly related to matters needing resolution for the child to achieve permanency. The Statewide Office of Child Representation or local nonprofit agency appointed to represent a child in the dependency proceeding shall provide representation in fair hearings within the resources allotted for representation in the dependency proceeding. Trained staff of the office of child representation or local nonprofit agency may attend the fair hearings rather than the appointed attorney when appropriate. Trained staff for purposes of this paragraph may include, but is not limited to, social workers, case managers, education advocates, or health care advocates.

(d) Notwithstanding the basis on which an attorney for the child is appointed under paragraph (a), the appointment of the attorney for the child continues in effect until the attorney for the child is allowed to withdraw or is discharged by the court or until the case is dismissed. An attorney for the child who is appointed under this section to represent a child shall provide all required legal services in the dependency proceeding or fair hearings provided for in this section from the time of the child's removal from home or of the attorney for the child's initial appointment through all appellate proceedings. With the permission of the court, the appointed attorney for the child may arrange for supplemental or separate counsel to represent the child in appellate proceedings. A court order appointing an attorney for the child under this section must be in writing.

(e) If, at any time during the representation of two or more children in a dependency proceeding, a child representation

counsel determines that the interests of those clients are so adverse or hostile that they cannot all be counseled by child representation counsel or his or her staff because of a conflict of interest, the child representation counsel shall file a motion to withdraw and move the court to appoint other counsel. Child representation counsel may not automatically determine the appointment to represent siblings is a conflict of interest. If requested by the Justice Administrative Commission, the child representation counsel shall submit a copy of the motion to the Justice Administrative Commission at the time it is filed with the court. The court shall review and may inquire or conduct a hearing into the adequacy of the child representation counsel's submissions regarding a conflict of interest without requiring the disclosure of any confidential communications. The court shall deny the motion to withdraw if the court finds the grounds for withdrawal are insufficient or the asserted conflict is not prejudicial to the client. If the court grants the motion to withdraw, the court shall appoint one or more private attorneys to represent the person in accordance with the requirements and process provided for in s. 27.40. The clerk of court shall inform the child representation counsel and the commission when the court appoints private counsel.

(f) Unless the attorney has agreed to provide pro bono services, an appointed attorney or organization must be adequately compensated as provided in s. 27.5304. All appointed attorneys and organizations, including pro bono attorneys, must be provided with access to funding for expert witnesses, depositions, and other due process costs of litigation. Payments of attorney fees and case-related due process costs are subject

to appropriations and review by the Justice Administrative Commission for reasonableness. The Justice Administrative Commission shall contract with attorneys appointed by the court. Attorney fees may not exceed $1,000 per child per year.

(g) In cases in which one or both parents are financially able, the parent or parents, as applicable, of the child shall reimburse the court, in whole or in part, for the cost of services provided under this section; however, reimbursement for services provided by the attorney for the child may not be contingent upon successful collection by the court of reimbursement from the parent or parents.

(2) ACCESS TO RECORDS.—Upon presentation of a court order appointing an attorney for the child:

(a) An agency as defined in chapter 119 must allow the attorney for the child to inspect and copy records related to the child who is the subject of the appointment, including, but not limited to, records made confidential or exempt from s. 119.07(1) or s. 24(a), Art. I of the State Constitution. The attorney for the child shall maintain the confidential or exempt status of any records shared by an agency under this paragraph.

(b) A person or an organization, other than an agency under paragraph (a), must allow the attorney for the child to inspect and copy any records related to the child who is the subject of the appointment, including, but not limited to, confidential records.

For the purposes of this subsection, the term "records" includes, but is not limited to, medical, mental health, substance abuse, child care, education, law enforcement, court,

social services, and financial records.

(3) COURT HEARINGS.—The attorney for the child shall review all disposition recommendations and changes in placements and file all appropriate motions on behalf of the child at least 72 hours before the hearing.

(4) PROCEDURES.—The department shall develop procedures to request that a court appoint an attorney for the child.

(5) RULEMAKING.—The department may adopt rules to implement this section.

Section 9. Subsection (1) of section 28.345, Florida Statutes, is amended to read:

28.345 State access to records; exemption from court-related fees and charges.—

(1) Notwithstanding any other provision of law, the clerk of the circuit court shall, upon request, provide access to public records without charge to the state attorney, public defender, guardian ad litem, public guardian, ~~attorney ad litem,~~ criminal conflict and civil regional counsel, court-appointed attorney for the child, ~~and private court-appointed counsel paid by the state,~~ and to authorized staff acting on their behalf. The clerk of court may provide the requested public record in an electronic format in lieu of a paper format if the requesting entity is capable of accessing such public record electronically.

Section 10. Paragraph (j) of subsection (3) and paragraph (a) of subsection (10) of section 39.001, Florida Statutes, are amended to read:

39.001 Purposes and intent; personnel standards and screening.—

(3) GENERAL PROTECTIONS FOR CHILDREN.—It is a purpose of the Legislature that the children of this state be provided with the following protections:

(j) The ability to contact their guardian ad litem or attorney for the child ~~attorney ad litem~~, if appointed, by having that individual's name entered on all orders of the court.

(10) PLAN FOR COMPREHENSIVE APPROACH.—

(a) The office shall develop a state plan for the promotion of adoption, support of adoptive families, and prevention of abuse, abandonment, and neglect of children. The Department of Children and Families, the Department of Corrections, the Department of Education, the Department of Health, the Department of Juvenile Justice, the Department of Law Enforcement, and the Agency for Persons with Disabilities shall participate and fully cooperate in the development of the state plan at both the state and local levels. Furthermore, appropriate local agencies and organizations shall be provided an opportunity to participate in the development of the state plan at the local level. Appropriate local groups and organizations shall include, but not be limited to, community mental health centers; guardian ad litem programs for children under the circuit court; child representation counsel regional offices; the school boards of the local school districts; the Florida local advocacy councils; community-based care lead agencies; private or public organizations or programs with recognized expertise in working with child abuse prevention programs for children and families; private or public organizations or programs with recognized expertise in working

with children who are sexually abused, physically abused, emotionally abused, abandoned, or neglected and with expertise in working with the families of such children; private or public programs or organizations with expertise in maternal and infant health care; multidisciplinary Child Protection Teams; child day care centers; law enforcement agencies; and the circuit courts, when guardian ad litem programs and attorney for the child are not available in the local area. The state plan to be provided to the Legislature and the Governor shall include, as a minimum, the information required of the various groups in paragraph (b).

Section 11. Subsections (2) and (4) of section 39.00145, Florida Statutes, are amended to read:

39.00145 Records concerning children.—

(2) Notwithstanding any other provision of this chapter, all records in a child's case record must be made available for inspection, upon request, to the child who is the subject of the case record and to the child's caregiver, guardian ad litem, or attorney for the child ~~attorney~~.

(a) A complete and accurate copy of any record in a child's case record must be provided, upon request and at no cost, to the child who is the subject of the case record and to the child's caregiver, guardian ad litem, or attorney.

(b) The department shall release the information in a manner and setting that are appropriate to the age and maturity of the child and the nature of the information being released, which may include the release of information in a therapeutic setting, if appropriate. This paragraph does not deny the child access to his or her records.

(c) If a child or the child's caregiver, guardian ad litem,

or attorney for the child ~~attorney~~ requests access to the child's case record, any person or entity that fails to provide any record in the case record under assertion of a claim of exemption from the public records requirements of chapter 119, or fails to provide access within a reasonable time, is subject to sanctions and penalties under s. 119.10.

(d) For the purposes of this subsection, the term "caregiver" is limited to parents, legal custodians, permanent guardians, or foster parents; employees of a residential home, institution, facility, or agency at which the child resides; and other individuals legally responsible for a child's welfare in a residential setting.

(4) Notwithstanding any other provision of law, all state and local agencies and programs that provide services to children or that are responsible for a child's safety, including the Department of Juvenile Justice, the Department of Health, the Agency for Health Care Administration, the Agency for Persons with Disabilities, the Department of Education, the Department of Revenue, the school districts, the Statewide Guardian Ad Litem Office, the Statewide Office of Child Representation, and any provider contracting with such agencies, may share with each other confidential records or information that are confidential or exempt from disclosure under chapter 119 if the records or information are reasonably necessary to ensure access to appropriate services for the child, including child support enforcement services, or for the safety of the child. However:

(a) Records or information made confidential by federal law may not be shared.

(b) This subsection does not apply to information concerning clients and records of certified domestic violence centers, which are confidential under s. 39.908 and privileged under s. 90.5036.

Section 12. Subsections (3) and (4) of section 39.0132, Florida Statutes, are amended to read:

39.0132 Oaths, records, and confidential information.—

(3) The clerk shall keep all court records required by this chapter separate from other records of the circuit court. All court records required by this chapter shall not be open to inspection by the public. All records shall be inspected only upon order of the court by persons deemed by the court to have a proper interest therein, except that, subject to the provisions of s. 63.162, a child, ~~and~~ the parents of the child and their attorneys, guardian ad litem, attorney for the child, law enforcement agencies, and the department and its designees shall always have the right to inspect and copy any official record pertaining to the child. The Justice Administrative Commission may inspect court dockets required by this chapter as necessary to audit compensation of court-appointed attorneys. If the docket is insufficient for purposes of the audit, the commission may petition the court for additional documentation as necessary and appropriate. The court may permit authorized representatives of recognized organizations compiling statistics for proper purposes to inspect and make abstracts from official records, under whatever conditions upon their use and disposition the court may deem proper, and may punish by contempt proceedings any violation of those conditions.

(4)(a)1. All information obtained pursuant to this part in

the discharge of official duty by any judge, employee of the court, authorized agent of the department, correctional probation officer, or law enforcement agent is confidential and exempt from s. 119.07(1) and may not be disclosed to anyone other than the authorized personnel of the court, the department and its designees, correctional probation officers, law enforcement agents, guardian ad litem, attorney for the child, and others entitled under this chapter to receive that information, except upon order of the court.

2.a. The following information held by a guardian ad litem is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution:

(I) Medical, mental health, substance abuse, child care, education, law enforcement, court, social services, and financial records.

(II) Any other information maintained by a guardian ad litem which is identified as confidential information under this chapter.

b. Such confidential and exempt information may not be disclosed to anyone other than the authorized personnel of the court, the department and its designees, correctional probation officers, law enforcement agents, guardians ad litem, and others entitled under this chapter to receive that information, except upon order of the court.

(b) The department shall disclose to the school superintendent the presence of any child in the care and custody or under the jurisdiction or supervision of the department who has a known history of criminal sexual behavior with other juveniles; is an alleged juvenile sex offender, as defined in s.

39.01; or has pled guilty or nolo contendere to, or has been found to have committed, a violation of chapter 794, chapter 796, chapter 800, s. 827.071, or s. 847.0133, regardless of adjudication. Any employee of a district school board who knowingly and willfully discloses such information to an unauthorized person commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083.

Section 13. Paragraphs (a) and (b) of subsection (4) of section 39.0139, Florida Statutes, are amended to read:

39.0139 Visitation or other contact; restrictions.—

(4) HEARINGS.—A person who meets any of the criteria set forth in paragraph (3)(a) who seeks to begin or resume contact with the child victim shall have the right to an evidentiary hearing to determine whether contact is appropriate.

(a) Before ~~Prior to~~ the hearing, the court shall appoint an attorney for the child ~~an attorney ad litem~~ or a guardian ad litem, as appropriate, for the child if one has not already been appointed. Any attorney for the child ~~attorney ad litem~~ or guardian ad litem appointed shall have special training in the dynamics of child sexual abuse.

(b) At the hearing, the court may receive and rely upon any relevant and material evidence submitted to the extent of its probative value, including written and oral reports or recommendations from the Child Protection Team, the child's therapist, or the child's guardian ad litem~~, or the child's attorney ad litem~~, even if these reports, recommendations, and evidence may not be admissible under the rules of evidence.

Section 14. Paragraphs (k) and (t) of subsection (2) of section 39.202, Florida Statutes, are amended to read:

39.202 Confidentiality of reports and records in cases of child abuse or neglect.—

(2) Except as provided in subsection (4), access to such records, excluding the name of, or other identifying information with respect to, the reporter which shall be released only as provided in subsection (5), shall be granted only to the following persons, officials, and agencies:

(k) Any appropriate official of a Florida advocacy council investigating a report of known or suspected child abuse, abandonment, or neglect; the Auditor General or the Office of Program Policy Analysis and Government Accountability for the purpose of conducting audits or examinations pursuant to law; or the child's guardian ad litem or attorney for the child.

(t) Persons with whom the department is seeking to place the child or to whom placement has been granted, including foster parents for whom an approved home study has been conducted, the designee of a licensed child-caring agency as defined in s. 39.01(42) ~~s. 39.01(41)~~, an approved relative or nonrelative with whom a child is placed pursuant to s. 39.402, preadoptive parents for whom a favorable preliminary adoptive home study has been conducted, adoptive parents, or an adoption entity acting on behalf of preadoptive or adoptive parents.

Section 15. Subsection (1) of section 39.302, Florida Statutes, is amended to read:

39.302 Protective investigations of institutional child abuse, abandonment, or neglect.—

(1) The department shall conduct a child protective investigation of each report of institutional child abuse, abandonment, or neglect. Upon receipt of a report that alleges

that an employee or agent of the department, or any other entity or person covered by s. 39.01(38) or (55) ~~s. 39.01(37) or (54)~~, acting in an official capacity, has committed an act of child abuse, abandonment, or neglect, the department shall initiate a child protective investigation within the timeframe established under s. 39.201(5) and notify the appropriate state attorney, law enforcement agency, and licensing agency, which shall immediately conduct a joint investigation, unless independent investigations are more feasible. When conducting investigations or having face-to-face interviews with the child, investigation visits shall be unannounced unless it is determined by the department or its agent that unannounced visits threaten the safety of the child. If a facility is exempt from licensing, the department shall inform the owner or operator of the facility of the report. Each agency conducting a joint investigation is entitled to full access to the information gathered by the department in the course of the investigation. A protective investigation must include an interview with the child's parent or legal guardian. The department shall make a full written report to the state attorney within 3 working days after making the oral report. A criminal investigation shall be coordinated, whenever possible, with the child protective investigation of the department. Any interested person who has information regarding the offenses described in this subsection may forward a statement to the state attorney as to whether prosecution is warranted and appropriate. Within 15 days after the completion of the investigation, the state attorney shall report the findings to the department and shall include in the report a determination of whether or not prosecution is justified and

appropriate in view of the circumstances of the specific case.

Section 16. Paragraph (c) of subsection (8) and paragraph (a) of subsection (14) of section 39.402, Florida Statutes, are amended to read:

39.402 Placement in a shelter.—

(8)

(c) At the shelter hearing, the court shall:

1. Appoint a guardian ad litem to represent the best interest of the child or an attorney for the child to provide direct representation as provided in part XI, unless the court finds that such representation is unnecessary;

2. Inform the parents or legal custodians of their right to counsel to represent them at the shelter hearing and at each subsequent hearing or proceeding, and the right of the parents to appointed counsel, pursuant to the procedures set forth in s. 39.013;

3. Give the parents or legal custodians an opportunity to be heard and to present evidence; and

4. Inquire of those present at the shelter hearing as to the identity and location of the legal father. In determining who the legal father of the child may be, the court shall inquire under oath of those present at the shelter hearing whether they have any of the following information:

a. Whether the mother of the child was married at the probable time of conception of the child or at the time of birth of the child.

b. Whether the mother was cohabiting with a male at the probable time of conception of the child.

c. Whether the mother has received payments or promises of

support with respect to the child or because of her pregnancy from a man who claims to be the father.

d. Whether the mother has named any man as the father on the birth certificate of the child or in connection with applying for or receiving public assistance.

e. Whether any man has acknowledged or claimed paternity of the child in a jurisdiction in which the mother resided at the time of or since conception of the child or in which the child has resided or resides.

f. Whether a man is named on the birth certificate of the child pursuant to s. 382.013(2).

g. Whether a man has been determined by a court order to be the father of the child.

h. Whether a man has been determined to be the father of the child by the Department of Revenue as provided in s. 409.256.

(14) The time limitations in this section do not include:

(a) Periods of delay resulting from a continuance granted at the request or with the consent of the attorney for the child or the child's ~~counsel or the child's~~ guardian ad litem, if one has been appointed by the court, or, if the child is of sufficient capacity to express reasonable consent, at the request or with the consent of the attorney for the child ~~child's attorney~~ or the child's guardian ad litem~~, if one has been appointed by the court,~~ and the child.

Section 17. Paragraphs (e) and (f) of subsection (3) and subsection (6) of section 39.407, Florida Statutes, are amended to read:

39.407 Medical, psychiatric, and psychological examination

and treatment of child; physical, mental, or substance abuse examination of person with or requesting child custody.—

(3)

(e)1. If the child's prescribing physician or psychiatric nurse, as defined in s. 394.455, certifies in the signed medical report required in paragraph (c) that delay in providing a prescribed psychotropic medication would more likely than not cause significant harm to the child, the medication may be provided in advance of the issuance of a court order. In such event, the medical report must provide the specific reasons why the child may experience significant harm and the nature and the extent of the potential harm. The department must submit a motion seeking continuation of the medication and the physician's or psychiatric nurse's medical report to the court, the child's guardian ad litem or the attorney for the child, and all other parties within 3 working days after the department commences providing the medication to the child. The department shall seek the order at the next regularly scheduled court hearing required under this chapter, or within 30 days after the date of the prescription, whichever occurs sooner. If any party objects to the department's motion, the court shall hold a hearing within 7 days.

2. Psychotropic medications may be administered in advance of a court order in hospitals, crisis stabilization units, and in statewide inpatient psychiatric programs. Within 3 working days after the medication is begun, the department must seek court authorization as described in paragraph (c).

(f)1. The department shall fully inform the court of the child's medical and behavioral status as part of the social

services report prepared for each judicial review hearing held for a child for whom psychotropic medication has been prescribed or provided under this subsection. As a part of the information provided to the court, the department shall furnish copies of all pertinent medical records concerning the child which have been generated since the previous hearing. On its own motion or on good cause shown by any party, including any guardian ad litem~~,~~ or the child ~~attorney, or attorney ad litem who has been appointed to represent the child or the child's interests~~, the court may review the status more frequently than required in this subsection.

2. The court may, in the best interests of the child, order the department to obtain a medical opinion addressing whether the continued use of the medication under the circumstances is safe and medically appropriate.

(6) Children who are in the legal custody of the department may be placed by the department, without prior approval of the court, in a residential treatment center licensed under s. 394.875 or a hospital licensed under chapter 395 for residential mental health treatment only pursuant to this section or may be placed by the court in accordance with an order of involuntary examination or involuntary placement entered pursuant to s. 394.463 or s. 394.467. All children placed in a residential treatment program under this subsection must be appointed ~~have~~ a guardian ad litem and an attorney for the child ~~appointed~~.

(a) As used in this subsection, the term:

1. "Residential treatment" means placement for observation, diagnosis, or treatment of an emotional disturbance in a residential treatment center licensed under s. 394.875 or a

hospital licensed under chapter 395.

2. "Least restrictive alternative" means the treatment and conditions of treatment that, separately and in combination, are no more intrusive or restrictive of freedom than reasonably necessary to achieve a substantial therapeutic benefit or to protect the child or adolescent or others from physical injury.

3. "Suitable for residential treatment" or "suitability" means a determination concerning a child or adolescent with an emotional disturbance as defined in s. 394.492(5) or a serious emotional disturbance as defined in s. 394.492(6) that each of the following criteria is met:

a. The child requires residential treatment.

b. The child is in need of a residential treatment program and is expected to benefit from mental health treatment.

c. An appropriate, less restrictive alternative to residential treatment is unavailable.

(b) Whenever the department believes that a child in its legal custody is emotionally disturbed and may need residential treatment, an examination and suitability assessment must be conducted by a qualified evaluator who is appointed by the Agency for Health Care Administration. This suitability assessment must be completed before the placement of the child in a residential treatment center for emotionally disturbed children and adolescents or a hospital. The qualified evaluator must be a psychiatrist or a psychologist licensed in Florida who has at least 3 years of experience in the diagnosis and treatment of serious emotional disturbances in children and adolescents and who has no actual or perceived conflict of interest with any inpatient facility or residential treatment

center or program.

(c) Before a child is admitted under this subsection, the child shall be assessed for suitability for residential treatment by a qualified evaluator who has conducted a personal examination and assessment of the child and has made written findings that:

1. The child appears to have an emotional disturbance serious enough to require residential treatment and is reasonably likely to benefit from the treatment.

2. The child has been provided with a clinically appropriate explanation of the nature and purpose of the treatment.

3. All available modalities of treatment less restrictive than residential treatment have been considered, and a less restrictive alternative that would offer comparable benefits to the child is unavailable.

A copy of the written findings of the evaluation and suitability assessment must be provided to the department, to the guardian ad litem and attorney for the child, and, if the child is a member of a Medicaid managed care plan, to the plan that is financially responsible for the child's care in residential treatment, all of whom must be provided with the opportunity to discuss the findings with the evaluator.

(d) Immediately upon placing a child in a residential treatment program under this section, the department must notify the guardian ad litem, the attorney for the child, and the court having jurisdiction over the child and must provide the guardian ad litem, the attorney for the child, and the court with a copy

of the assessment by the qualified evaluator.

(e) Within 10 days after the admission of a child to a residential treatment program, the director of the residential treatment program or the director's designee must ensure that an individualized plan of treatment has been prepared by the program and has been explained to the child, to the department, ~~and~~ to the guardian ad litem, and to the attorney for the child, and submitted to the department. The child must be involved in the preparation of the plan to the maximum feasible extent consistent with his or her ability to understand and participate, and the guardian ad litem, the attorney for the child, and the child's foster parents must be involved to the maximum extent consistent with the child's treatment needs. The plan must include a preliminary plan for residential treatment and aftercare upon completion of residential treatment. The plan must include specific behavioral and emotional goals against which the success of the residential treatment may be measured. A copy of the plan must be provided to the child, to the guardian ad litem, to the attorney for the child, and to the department.

(f) Within 30 days after admission, the residential treatment program must review the appropriateness and suitability of the child's placement in the program. The residential treatment program must determine whether the child is receiving benefit toward the treatment goals and whether the child could be treated in a less restrictive treatment program. The residential treatment program shall prepare a written report of its findings and submit the report to the guardian ad litem, to the attorney for the child, and to the department. The

department must submit the report to the court. The report must include a discharge plan for the child. The residential treatment program must continue to evaluate the child's treatment progress every 30 days thereafter and must include its findings in a written report submitted to the department. The department may not reimburse a facility until the facility has submitted every written report that is due.

(g)1. The department must submit, at the beginning of each month, to the court having jurisdiction over the child, a written report regarding the child's progress toward achieving the goals specified in the individualized plan of treatment.

2. The court must conduct a hearing to review the status of the child's residential treatment plan no later than 60 days after the child's admission to the residential treatment program. An independent review of the child's progress toward achieving the goals and objectives of the treatment plan must be completed by a qualified evaluator and submitted to the court before its 60-day review.

3. For any child in residential treatment at the time a judicial review is held pursuant to s. 39.701, the child's continued placement in residential treatment must be a subject of the judicial review.

4. If at any time the court determines that the child is not suitable for continued residential treatment, the court shall order the department to place the child in the least restrictive setting that is best suited to meet his or her needs.

(h) After the initial 60-day review, the court must conduct a review of the child's residential treatment plan every 90

days.

(i) The department must adopt rules for implementing timeframes for the completion of suitability assessments by qualified evaluators and a procedure that includes timeframes for completing the 60-day independent review by the qualified evaluators of the child's progress toward achieving the goals and objectives of the treatment plan which review must be submitted to the court. The Agency for Health Care Administration must adopt rules for the registration of qualified evaluators, the procedure for selecting the evaluators to conduct the reviews required under this section, and a reasonable, cost-efficient fee schedule for qualified evaluators.

Section 18. Subsections (20) and (21) of section 39.4085, Florida Statutes, are amended to read:

39.4085 Legislative findings and declaration of intent for goals for dependent children.—The Legislature finds and declares that the design and delivery of child welfare services should be directed by the principle that the health and safety of children should be of paramount concern and, therefore, establishes the following goals for children in shelter or foster care:

(20) To have a guardian ad litem appointed to represent, within reason, their best interests; and, as appropriate, have an attorney for the child ~~and, where appropriate, an attorney ad litem~~ appointed to represent their legal interests.~~,~~ The guardian ad litem and attorney for the child ~~attorney ad litem~~ shall have immediate and unlimited access to the children they represent.

(21) To have all their records available for review by

their guardian ad litem or attorney for the child, as applicable, ~~and attorney ad litem~~ if they deem such review necessary.

The provisions of this section establish goals and not rights. Nothing in this section shall be interpreted as requiring the delivery of any particular service or level of service in excess of existing appropriations. No person shall have a cause of action against the state or any of its subdivisions, agencies, contractors, subcontractors, or agents, based upon the adoption of or failure to provide adequate funding for the achievement of these goals by the Legislature. Nothing herein shall require the expenditure of funds to meet the goals established herein except funds specifically appropriated for such purpose.

Section 19. Subsections (8), (12), (13), (14), and (17) of section 39.502, Florida Statutes, are amended to read:

39.502 Notice, process, and service.—

(8) It is not necessary to the validity of a proceeding covered by this part that the parents be present if their identity or residence is unknown after a diligent search has been made, but in this event the petitioner shall file an affidavit of diligent search prepared by the person who made the search and inquiry, and the court may appoint a guardian ad litem for the child or an attorney for the child, as appropriate.

(12) All process and orders issued by the court shall be served or executed as other process and orders of the circuit court and, in addition, may be served or executed by authorized agents of the department or the guardian ad litem or attorney

for the child, as applicable.

(13) Subpoenas may be served within the state by any person over 18 years of age who is not a party to the proceeding and, in addition, may be served by authorized agents of the department or the guardian ad litem or attorney for the child, as applicable.

(14) No fee shall be paid for service of any process or other papers by an agent of the department or the guardian ad litem or attorney for the child, as applicable. If any process, orders, or any other papers are served or executed by any sheriff, the sheriff's fees shall be paid by the county.

(17) The parent or legal custodian of the child, the attorney for the department, the guardian ad litem or attorney for the child, as applicable, the foster or preadoptive parents, and all other parties and participants shall be given reasonable notice of all proceedings and hearings provided for under this part. All foster or preadoptive parents must be provided with at least 72 hours' notice, verbally or in writing, of all proceedings or hearings relating to children in their care or children they are seeking to adopt to ensure the ability to provide input to the court.

Section 20. Paragraphs (c) and (e) of subsection (1) of section 39.521, Florida Statutes, are amended to read:

39.521 Disposition hearings; powers of disposition.—

(1) A disposition hearing shall be conducted by the court, if the court finds that the facts alleged in the petition for dependency were proven in the adjudicatory hearing, or if the parents or legal custodians have consented to the finding of dependency or admitted the allegations in the petition, have

failed to appear for the arraignment hearing after proper notice, or have not been located despite a diligent search having been conducted.

(c) When any child is adjudicated by a court to be dependent, the court having jurisdiction of the child has the power by order to:

1. Require the parent and, when appropriate, the legal guardian or the child to participate in treatment and services identified as necessary. The court may require the person who has custody or who is requesting custody of the child to submit to a mental health or substance abuse disorder assessment or evaluation. The order may be made only upon good cause shown and pursuant to notice and procedural requirements provided under the Florida Rules of Juvenile Procedure. The mental health assessment or evaluation must be administered by a qualified professional as defined in s. 39.01, and the substance abuse assessment or evaluation must be administered by a qualified professional as defined in s. 397.311. The court may also require such person to participate in and comply with treatment and services identified as necessary, including, when appropriate and available, participation in and compliance with a mental health court program established under chapter 394 or a treatment-based drug court program established under s. 397.334. Adjudication of a child as dependent based upon evidence of harm as defined in s. 39.01(36)(g) ~~s. 39.01(35)(g)~~ demonstrates good cause, and the court shall require the parent whose actions caused the harm to submit to a substance abuse disorder assessment or evaluation and to participate and comply with treatment and services identified in the assessment or

evaluation as being necessary. In addition to supervision by the department, the court, including the mental health court program or the treatment-based drug court program, may oversee the progress and compliance with treatment by a person who has custody or is requesting custody of the child. The court may impose appropriate available sanctions for noncompliance upon a person who has custody or is requesting custody of the child or make a finding of noncompliance for consideration in determining whether an alternative placement of the child is in the child's best interests. Any order entered under this subparagraph may be made only upon good cause shown. This subparagraph does not authorize placement of a child with a person seeking custody of the child, other than the child's parent or legal custodian, who requires mental health or substance abuse disorder treatment.

2. Require, if the court deems necessary, the parties to participate in dependency mediation.

3. Require placement of the child either under the protective supervision of an authorized agent of the department in the home of one or both of the child's parents or in the home of a relative of the child or another adult approved by the court, or in the custody of the department. Protective supervision continues until the court terminates it or until the child reaches the age of 18, whichever date is first. Protective supervision shall be terminated by the court whenever the court determines that permanency has been achieved for the child, whether with a parent, another relative, or a legal custodian, and that protective supervision is no longer needed. The termination of supervision may be with or without retaining jurisdiction, at the court's discretion, and shall in either

case be considered a permanency option for the child. The order terminating supervision by the department must set forth the powers of the custodian of the child and include the powers ordinarily granted to a guardian of the person of a minor unless otherwise specified. Upon the court's termination of supervision by the department, further judicial reviews are not required if permanency has been established for the child.

4. Determine whether the child has a strong attachment to the prospective permanent guardian and whether such guardian has a strong commitment to permanently caring for the child.

(e) The court shall, in its written order of disposition, include all of the following:

1. The placement or custody of the child.

2. Special conditions of placement and visitation.

3. Evaluation, counseling, treatment activities, and other actions to be taken by the parties, if ordered.

4. The persons or entities responsible for supervising or monitoring services to the child and parent.

5. Continuation or discharge of the guardian ad litem or attorney for the child if appointed, as appropriate.

6. The date, time, and location of the next scheduled review hearing, which must occur within the earlier of:

a. Ninety days after the disposition hearing;

b. Ninety days after the court accepts the case plan;

c. Six months after the date of the last review hearing; or

d. Six months after the date of the child's removal from his or her home, if no review hearing has been held since the child's removal from the home.

7. If the child is in an out-of-home placement, child

support to be paid by the parents, or the guardian of the child's estate if possessed of assets which under law may be disbursed for the care, support, and maintenance of the child. The court may exercise jurisdiction over all child support matters, shall adjudicate the financial obligation, including health insurance, of the child's parents or guardian, and shall enforce the financial obligation as provided in chapter 61. The state's child support enforcement agency shall enforce child support orders under this section in the same manner as child support orders under chapter 61. Placement of the child shall not be contingent upon issuance of a support order.

8.a. If the court does not commit the child to the temporary legal custody of an adult relative, legal custodian, or other adult approved by the court, the disposition order must include the reasons for such a decision and shall include a determination as to whether diligent efforts were made by the department to locate an adult relative, legal custodian, or other adult willing to care for the child in order to present that placement option to the court instead of placement with the department.

b. If no suitable relative is found and the child is placed with the department or a legal custodian or other adult approved by the court, both the department and the court shall consider transferring temporary legal custody to an adult relative approved by the court at a later date, but neither the department nor the court is obligated to so place the child if it is in the child's best interest to remain in the current placement.

For the purposes of this section, "diligent efforts to locate an adult relative" means a search similar to the diligent search for a parent, but without the continuing obligation to search after an initial adequate search is completed.

9. Other requirements necessary to protect the health, safety, and well-being of the child, to preserve the stability of the child's child care, early education program, or any other educational placement, and to promote family preservation or reunification whenever possible.

Section 21. Paragraph (a) of subsection (2) of section 39.523, Florida Statutes, is amended to read:

39.523 Placement in out-of-home care.—

(2) ASSESSMENT AND PLACEMENT.—When any child is removed from a home and placed into out-of-home care, a comprehensive placement assessment process shall be completed to determine the level of care needed by the child and match the child with the most appropriate placement.

(a) The community-based care lead agency or subcontracted agency with the responsibility for assessment and placement must coordinate a multidisciplinary team staffing with any available individual currently involved with the child, including, but not limited to, a representative from the department and the case manager for the child; a therapist, ~~attorney ad litem,~~ a guardian ad litem, an attorney for the child, teachers, coaches, and Children's Medical Services; and other community providers of services to the child or stakeholders as applicable. The team may also include clergy, relatives, and fictive kin if appropriate. Team participants must gather data and information on the child which is known at the time including, but not

limited to:

1. Mental, medical, behavioral health, and medication history;

2. Community ties and school placement;

3. Current placement decisions relating to any siblings;

4. Alleged type of abuse or neglect including sexual abuse and trafficking history; and

5. The child's age, maturity, strengths, hobbies or activities, and the child's preference for placement.

Section 22. Paragraph (a) of subsection (1) of section 39.6011, Florida Statutes, is amended to read:

39.6011 Case plan development.—

(1) The department shall prepare a draft of the case plan for each child receiving services under this chapter. A parent of a child may not be threatened or coerced with the loss of custody or parental rights for failing to admit in the case plan of abusing, neglecting, or abandoning a child. Participating in the development of a case plan is not an admission to any allegation of abuse, abandonment, or neglect, and it is not a consent to a finding of dependency or termination of parental rights. The case plan shall be developed subject to the following requirements:

(a) The case plan must be developed in a face-to-face conference with the parent of the child, any court-appointed guardian ad litem or attorney for the child, and, if appropriate, the child and the temporary custodian of the child.

Section 23. Paragraph (c) of subsection (1) of section 39.6012, Florida Statutes, is amended to read:

39.6012 Case plan tasks; services.—

(1) The services to be provided to the parent and the tasks that must be completed are subject to the following:

(c) If there is evidence of harm as defined in s. 39.01(36)(g) ~~s. 39.01(35)(g)~~, the case plan must include as a required task for the parent whose actions caused the harm that the parent submit to a substance abuse disorder assessment or evaluation and participate and comply with treatment and services identified in the assessment or evaluation as being necessary.

Section 24. Subsection (8) of section 39.6251, Florida Statutes, is amended to read:

39.6251 Continuing care for young adults.—

(8) During the time that a young adult is in care, the court shall maintain jurisdiction to ensure that the department and the lead agencies are providing services and coordinate with, and maintain oversight of, other agencies involved in implementing the young adult's case plan, individual education plan, and transition plan. The court shall review the status of the young adult at least every 6 months and hold a permanency review hearing at least annually. If the young adult is appointed a guardian under chapter 744 or a guardian advocate under s. 393.12, at the permanency review hearing the court shall review the necessity of continuing the guardianship and whether restoration of guardianship proceedings are needed when the young adult reaches 22 years of age. The court may appoint an attorney for the child ~~a guardian ad litem~~ or continue the appointment of a guardian ad litem or an attorney for the child, as applicable, with the young adult's consent. The young adult or any other party to the dependency case may request an

additional hearing or review.

Section 25. Paragraph (b) of subsection (1) and paragraph (b) of subsection (2) of section 39.701, Florida Statutes, are amended to read:

39.701 Judicial review.—

(1) GENERAL PROVISIONS.—

(b)1. The court shall retain jurisdiction over a child returned to his or her parents for a minimum period of 6 months following the reunification, but, at that time, based on a report of the social service agency and the guardian ad litem or attorney for the child, if one has been appointed, and any other relevant factors, the court shall make a determination as to whether supervision by the department and the court's jurisdiction shall continue or be terminated.

2. Notwithstanding subparagraph 1., the court must retain jurisdiction over a child if the child is placed in the home with a parent or caregiver with an in-home safety plan and such safety plan remains necessary for the child to reside safely in the home.

(2) REVIEW HEARINGS FOR CHILDREN YOUNGER THAN 18 YEARS OF AGE.—

(b) *Submission and distribution of reports.*—

1. A copy of the social service agency's written report and the written report of the guardian ad litem, and a report of the attorney for the child, if he or she has prepared one, must be served on all parties whose whereabouts are known; to the foster parents or legal custodians; and to the citizen review panel, at least 72 hours before the judicial review hearing or citizen review panel hearing. The requirement for providing parents with

a copy of the written report does not apply to those parents who have voluntarily surrendered their child for adoption or who have had their parental rights to the child terminated.

2. In a case in which the child has been permanently placed with the social service agency, the agency shall furnish to the court a written report concerning the progress being made to place the child for adoption. If the child cannot be placed for adoption, a report on the progress made by the child towards alternative permanency goals or placements, including, but not limited to, guardianship, long-term custody, long-term licensed custody, or independent living, must be submitted to the court. The report must be submitted to the court at least 72 hours before each scheduled judicial review.

3. In addition to or in lieu of any written statement provided to the court, the foster parent or legal custodian, or any preadoptive parent, shall be given the opportunity to address the court with any information relevant to the best interests of the child at any judicial review hearing.

Section 26. Paragraph (g) of subsection (5) of section 39.702, Florida Statutes, is amended to read:

39.702 Citizen review panels.—

(5) The independent not-for-profit agency authorized to administer each citizen review panel shall:

(g) Establish policies to ensure adequate communication with the parent, the foster parent or legal custodian, the guardian ad litem or attorney for the child, and any other person deemed appropriate.

Section 27. Paragraph (a) of subsection (3) and subsections (5), (6), and (7) of section 39.801, Florida Statutes, are

amended to read:

39.801 Procedures and jurisdiction; notice; service of process.—

(3) Before the court may terminate parental rights, in addition to the other requirements set forth in this part, the following requirements must be met:

(a) Notice of the date, time, and place of the advisory hearing for the petition to terminate parental rights and a copy of the petition must be personally served upon the following persons, specifically notifying them that a petition has been filed:

1. The parents of the child.

2. The legal custodians of the child.

3. If the parents who would be entitled to notice are dead or unknown, a living relative of the child, unless upon diligent search and inquiry no such relative can be found.

4. Any person who has physical custody of the child.

5. Any grandparent entitled to priority for adoption under s. 63.0425.

6. Any prospective parent who has been identified under s. 39.503 or s. 39.803, unless a court order has been entered pursuant to s. 39.503(4) or (9) or s. 39.803(4) or (9) which indicates no further notice is required. Except as otherwise provided in this section, if there is not a legal father, notice of the petition for termination of parental rights must be provided to any known prospective father who is identified under oath before the court or who is identified by a diligent search of the Florida Putative Father Registry. Service of the notice of the petition for termination of parental rights is not

required if the prospective father executes an affidavit of nonpaternity or a consent to termination of his parental rights which is accepted by the court after notice and opportunity to be heard by all parties to address the best interests of the child in accepting such affidavit.

7. The guardian ad litem for the child or the representative of the guardian ad litem program, if the program has been appointed.

8. The attorney for the child, if appointed.

The document containing the notice to respond or appear must contain, in type at least as large as the type in the balance of the document, the following or substantially similar language: "FAILURE TO PERSONALLY APPEAR AT THIS ADVISORY HEARING CONSTITUTES CONSENT TO THE TERMINATION OF PARENTAL RIGHTS OF THIS CHILD (OR CHILDREN). IF YOU FAIL TO APPEAR ON THE DATE AND TIME SPECIFIED, YOU MAY LOSE ALL LEGAL RIGHTS AS A PARENT TO THE CHILD OR CHILDREN NAMED IN THE PETITION ATTACHED TO THIS NOTICE."

(5) All process and orders issued by the court must be served or executed as other process and orders of the circuit court and, in addition, may be served or executed by authorized agents of the department, ~~or~~ the guardian ad litem, or the attorney for the child.

(6) Subpoenas may be served within the state by any person over 18 years of age who is not a party to the proceeding and, in addition, may be served or executed by authorized agents of the department, ~~or~~ of the guardian ad litem, or of the attorney for the child.

(7) A fee may not be paid for service of any process or other papers by an agent of the department, ~~or~~ the guardian ad litem, or the attorney for the child. If any process, orders, or other papers are served or executed by any sheriff, the sheriff's fees must be paid by the county.

Section 28. Subsection (1) of section 39.802, Florida Statutes, is amended to read:

39.802 Petition for termination of parental rights; filing; elements.—

(1) All proceedings seeking an adjudication to terminate parental rights pursuant to this chapter must be initiated by the filing of an original petition by the department, the guardian ad litem, the attorney for the child, or any other person who has knowledge of the facts alleged or is informed of them and believes that they are true.

Section 29. Subsection (2) of section 39.808, Florida Statutes, is amended to read:

39.808 Advisory hearing; pretrial status conference.—

(2) At the hearing the court shall inform the parties of their rights under s. 39.807, shall appoint counsel for the parties in accordance with legal requirements, and shall appoint a guardian ad litem or an attorney for the child as provided for in s. 39.831 to represent the interests of the child if one has not already been appointed.

Section 30. Subsection (11) of section 39.810, Florida Statutes, is amended to read:

39.810 Manifest best interests of the child.—In a hearing on a petition for termination of parental rights, the court shall consider the manifest best interests of the child. This

consideration shall not include a comparison between the attributes of the parents and those of any persons providing a present or potential placement for the child. For the purpose of determining the manifest best interests of the child, the court shall consider and evaluate all relevant factors, including, but not limited to:

(11) The recommendations for the child provided by the child's guardian ad litem ~~or legal representative~~.

Section 31. Subsection (9) of section 39.811, Florida Statutes, is amended to read:

39.811 Powers of disposition; order of disposition.—

(9) After termination of parental rights, the court shall retain jurisdiction over any child for whom custody is given to a social service agency until the child is adopted. The court shall review the status of the child's placement and the progress being made toward permanent adoptive placement. As part of this continuing jurisdiction, for good cause shown by the attorney for the child or guardian ad litem for the child, the court may review the appropriateness of the adoptive placement of the child.

Section 32. Subsection (4) of section 39.812, Florida Statutes, is amended to read:

39.812 Postdisposition relief; petition for adoption.—

(4) The court shall retain jurisdiction over any child placed in the custody of the department until the child is adopted. After custody of a child for subsequent adoption has been given to the department, the court has jurisdiction for the purpose of reviewing the status of the child and the progress being made toward permanent adoptive placement. As part of this

continuing jurisdiction, for good cause shown by the attorney for the child or guardian ad litem for the child, the court may review the appropriateness of the adoptive placement of the child. When a licensed foster parent or court-ordered custodian has applied to adopt a child who has resided with the foster parent or custodian for at least 6 months and who has previously been permanently committed to the legal custody of the department and the department does not grant the application to adopt, the department may not, in the absence of a prior court order authorizing it to do so, remove the child from the foster home or custodian, except when:

(a) There is probable cause to believe that the child is at imminent risk of abuse or neglect;

(b) Thirty days have expired following written notice to the foster parent or custodian of the denial of the application to adopt, within which period no formal challenge of the department's decision has been filed; or

(c) The foster parent or custodian agrees to the child's removal.

Section 33. Subsections (5), (6), and (7) of section 43.16, Florida Statutes, are amended to read:

43.16 Justice Administrative Commission; membership, powers and duties.—

(5) The duties of the commission shall include, but not be limited to, the following:

(a) The maintenance of a central state office for administrative services and assistance when possible to and on behalf of the state attorneys and public defenders of Florida, the capital collateral regional counsel of Florida, the criminal

conflict and civil regional counsel, ~~and~~ the Guardian Ad Litem Program, and the Statewide Office of Child Representation.

(b) Each state attorney, public defender, ~~and~~ criminal conflict and civil regional counsel, ~~and~~ the Guardian Ad Litem Program, and the Statewide Office of Child Representation shall continue to prepare necessary budgets, vouchers that represent valid claims for reimbursement by the state for authorized expenses, and other things incidental to the proper administrative operation of the office, such as revenue transmittals to the Chief Financial Officer and automated systems plans, but will forward such items to the commission for recording and submission to the proper state officer. However, when requested by a state attorney, a public defender, a criminal conflict and civil regional counsel, ~~or~~ the Guardian Ad Litem Program, or the Statewide Office of Child Representation, the commission will either assist in the preparation of budget requests, voucher schedules, and other forms and reports or accomplish the entire project involved.

(6) The commission, each state attorney, each public defender, the criminal conflict and civil regional counsel, the capital collateral regional counsel, ~~and~~ the Guardian Ad Litem Program, and the Statewide Office of Child Representation shall establish and maintain internal controls designed to:

(a) Prevent and detect fraud, waste, and abuse as defined in s. 11.45(1).

(b) Promote and encourage compliance with applicable laws, rules, contracts, grant agreements, and best practices.

(c) Support economical and efficient operations.

(d) Ensure reliability of financial records and reports.

(e) Safeguard assets.

(7) The provisions contained in this section shall be supplemental to those of chapter 27, relating to state attorneys, public defenders, criminal conflict and civil regional counsel, and capital collateral regional counsel; to those of chapter 39, relating to the Guardian Ad Litem Program and the Statewide Office of Child Representation; or to other laws pertaining hereto.

Section 34. Paragraph (a) of subsection (2) of section 63.085, Florida Statutes, is amended to read:

63.085 Disclosure by adoption entity.—

(2) DISCLOSURE TO ADOPTIVE PARENTS.—
