From the funds in Specific Appropriations 7 and 91, \$1,078,156,086 is provided to school districts as an Exceptional Student Education (ESE) Guaranteed Allocation as authorized by law to provide educational programs and services for exceptional students. Funds provided for gifted educational programs and services must primarily be focused on advanced mathematics and science curriculum and enrichment with instruction provided by an in-field teacher. The ESE Guaranteed Allocation funds are provided in addition to the funds for each exceptional student in the per FTE student calculation. School districts that provided educational services in the 2016-2017 fiscal year for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriations 7 and 91, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than three FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed three FTE.

The Declining Enrollment Supplement shall be calculated based on 25 percent of the decline between the prior year and current year unweighted FTE students pursuant to section 1011.62(8), Florida Statutes.

From the funds in Specific Appropriations 7 and 91, \$64,456,019 is provided for Safe Schools activities and shall be allocated as follows: \$62,660 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) middle and high school programs for correction of specific discipline problems; (3) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (4) behavior driven intervention programs that include anger and aggression management strategies; (5) alternative school programs for adjudicated youth that may include a web-based virtual system that results in mastery and certification, competency or credentials in the following inter-related counseling disciplines necessary for success in education and the work environment, including adjustment, educational, employment and optimal mental health areas that will include, but are not limited to, anger and impulse control, depression and anxiety, self-esteem, respect for authority, personal behavior, goal setting, time and stress management, social and workplace adjustment, substance use and abuse, workplace soft skills, communication skills, work ethic, the importance of timeliness, attendance and the self-marketing skills for future educational and/or employment opportunities; (6) suicide prevention programs; (7) bullying prevention and intervention; (8) school resource officers; and (9) detection dogs. SECTION 2 - EDUCATION (ALL OTHER FUNDS)

standardized English Language Arts assessment to provide an additional hour of instruction beyond the normal school day for each day of the entire school year and a 60-hour summer school program for intensive reading instruction for the students in each of these schools. Also, beginning in the 2017-2018 fiscal year, schools that have improved student performance and are no longer on the 300 lowest performing list shall continue to provide the program, including the new summer school component, for two additional years. This additional instruction must be provided by teachers or reading specialists who are effective in teaching reading, or by a K-5 mentoring reading program that is supervised by a teacher who is effective at teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the program on an optional basis. ESE centers shall not be included in the 300 schools.

The Department of Education shall provide guidance to school districts for documentation of the expenditures for this additional instruction to ensure that all local, state and federal funds are maximized for the total instructional program and that the funds used in these schools do not supplant federal funds. School districts shall submit a report to the Department of Education in a format prepared by the department that includes summary information, including funding sources, expenditures and student outcomes for each of the participating schools that shall be submitted to the Speaker of the House of Representatives, President of the Senate, and Governor by September 30, 2017. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

The funds provided for the Supplemental Academic Instruction allocation shall consist of a base amount that shall have a workload adjustment based on changes in FTE. In addition, an additional amount is provided for districts with schools on the list of the 300 lowest-performing elementary schools and for schools with improved performance that will continue the program for two years. District allocations from these additional funds shall be based on the Fiscal Year 2015-2016 reported total expenditures for the program, each district's level of per student funding in the reading instruction allocation and the supplemental academic instruction categorical fund, and on the total FTE for each of the schools. The categorical funding shall be recalculated during the fiscal year following an updated designation of the 300 lowest-performing elementary schools and shall be based on actual student membership from the FTE surveys. If the recalculated total allocation is greater than the amount provided in the General Appropriations Act, the allocation shall be prorated to the level of the appropriation, based on each district's share of the total.

From the funds in Specific Appropriations 7 and 91, \$130,000,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$115,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the total K-12 base funding. From these funds, at least \$15,000,000 shall be used to provide an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year and a 60-hour summer school program for the students in the 300 lowest performing elementary schools based on the statewide, standardized English Language Arts assessment pursuant to sections 1008.22(3) and 1011.62(9), Florida Statutes. Also, beginning in the 2017-2018 fiscal year, schools that have improved student performance and are no longer on the 300 lowest performing list shall continue to provide the program, including the new summer school component, for two additional years. This additional instruction must be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the program on an optional basis. ESE centers shall not be included in the 300 schools. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

From the funds provided in Specific Appropriations 7 and 91, \$242,053,499 is provided for Instructional Materials including \$12,646,243 for Library Media Materials, \$3,456,640 for the purchase of science lab materials and supplies, \$13,286,751 for dual enrollment instructional materials, and \$3,233,036 for the purchase of digital instructional materials for students with disabilities. The growth allocation per FTE shall be \$315.20 for the 2017-2018 fiscal year. School districts shall pay for instructional materials used for the

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in section 1011.62(1)(i), Florida Statutes.

From the funds provided for Instructional Materials, \$165,000,000 shall be available to school districts to purchase instructional content, as well as electronic devices and technology equipment, and infrastructure. The purchases made in the 2017-2018 fiscal year must comply with the minimum or recommended requirements for instructional content, hardware, software, networking, security and bandwidth, and the number of students per device as developed and published by the Department of Education. Prior to release of the funds by the department to the school districts, each school district shall certify to the Commissioner of Education an expenditure plan for the purchase of instructional content and technology. If the district intends to use any portion of the funds for technology, the district must certify that it has the instructional content necessary to provide instruction aligned to the adopted statewide benchmarks and standards. If the district intends to use the funds for technology the district must include an expenditure plan for the purchase of electronic devices and technology equipment, and infrastructure that demonstrates the alignment of devices and equipment with the minimum or recommended requirements. The department shall provide a report to the Legislature on or before March 1, 2018, that summarizes the district expenditures for these funds.

From funds provided in Specific Appropriations 7 and 91, \$455,507,272 is provided for Student Transportation as provided in section 1011.68, Florida Statutes.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Florida Commission on Offender Review as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 582 through 756, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate substantial compliance with the performance measures described in the contract.

The Department of Corrections shall continue to submit an annual report on the state prison system to the Governor and to the Legislature using a uniform format and uniform methodologies. The report shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2018.

From the funds in Specific Appropriations 582 through 756, the Department of Corrections shall prepare a report detailing the amount of overtime expended per facility; the number of positions in overlap, with justification for each overlapped position; and identifying the number of unfunded positions that may be eliminated. The report shall be submitted to the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee by January 1, 2018.

From the funds in Specific Appropriations 582 through 756, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee for review.

From the funds in Specific Appropriations 582 through 756, the Department of Corrections may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

Funds in Specific Appropriation 582 through 756 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2017, and for which it has been determined by the Secretary of the department that there is no longer a need.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1104 through 1184A, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate substantial compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

216, Florida Statutes.

From the funds in Specific Appropriations 1104 through 1184A, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, President of the Senate, and Speaker of the House of Representatives by January 1, 2018.

From the funds in Specific Appropriations 1157 through 1171, the Department of Juvenile Justice shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget chair of the Senate Appropriations Committee, and chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1157 through 1171, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

PROGRAM: WORKFORCE SERVICES				
WORKFORCE DEVELOPMENT				
From the funds in Specific Appropriations 2195 through 2224, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.				
When allocating full-time equivalent (FTE) positions to individual regional workforce boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a regional workforce board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a regional workforce board that would use the FTE position to provide additional services to veterans.

Each development shall be required to enter into an agreement with at least one designated supportive services lead agency, such as the Local Center for Independent Living, the Agency for Persons with Disabilities, or any other such agency approved by the Florida Housing Finance Corporation (FHFC), for the purpose of coordinating services and housing for persons with special needs.

From the funds in Specific Appropriation 2225, \$10,000,000 of nonrecurring funds is provided to fund a competitive grant program for housing developments designed, constructed, and targeted for persons with developmental disabilities as defined in section 393.063, Florida Statutes. Private, nonprofit organizations whose primary mission includes serving persons with developmental disabilities as defined in section 393.063, Florida Statutes, shall be eligible for these grant funds. Housing projects funded with these grants may include community residential homes as defined in section 419.001, Florida Statutes, or individual housing units, and may include new construction and renovation of existing housing units. In evaluating proposals for these funds, the FHFC shall consider: the extent to which funds from local and other sources will be used by the applicant to leverage the grant funds provided under this section; employment opportunities and supports that will be available to residents of the proposed housing; a plan for residents to effectively and efficiently access community-based services, resources, and amenities; and partnerships with other supportive services agencies.

	GRANTS AND AIDS - HOUSING FINANCE CORPORATION (HFC) - STATE HOUSING INITIATIVES PARTNERSHIP (SHIP) PROGRAM FROM LOCAL GOVERNMENT HOUSING TRUST FUND	124,900,000

From the funds in Specific Appropriation 2226, each local government must use a minimum of 20 percent of its allocation to serve persons with special needs as defined in section 420.0004, Florida Statutes. Before this portion of the allocation is released by the Florida Housing Finance Corporation (FHFC), a local government must certify that it will meet this requirement through existing approved strategies in the local assistance plan or submit a new local housing assistance plan strategy for this purpose to the FHFC for approval to ensure that it meets these specifications. The first priority of these special needs funds must be to serve persons with developmental disabilities as defined in section 393.063, Florida Statutes, with an emphasis on home modifications, including technological enhancements and devices, which will allow homeowners to remain independent in their own homes and maintain their homeownership.

From the funds in Specific Appropriation 2226, \$5,200,000 shall be used to provide services to homeless persons. Of the funds provided, \$5,000,000 shall be transferred to the Department of Children and Families to implement the provisions of section 420.622, Florida Statutes, and \$200,000 shall be used by the Department of Economic Opportunity to provide training and technical assistance regarding affordable housing to designated lead agencies of homeless assistance continuums of care.

From the funds in Specific Appropriation 2226, local governments may create regional partnerships across jurisdictional boundaries through the pooling of appropriated funds to address homeless housing needs identified in local housing assistance plans.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including, but not limited to any emerging technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable by the Department of State. Additionally, before the supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining on June 30 of each fiscal year.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

DATE: April 6, 2017

REVISED: _____

REFERENCE

ACTION

AP Submitted as Comm. Bill/Fav

I. Summary:

SB 2502 provides the statutory authority necessary to implement and execute the General Appropriations Act for Fiscal Year 2017-2018. Statutory changes are temporary and expire on July 1, 2018.

The bill provides an effective date of July 1, 2017, except as otherwise provided.

II. Present Situation:

Article III, s. 12 of the Florida Constitution provides that “[l]aws making appropriations for salaries of public officers and other current expenses of the state shall contain provisions on no other subject.” This language has been interpreted to defeat proviso language attached to appropriations that have the effect of changing general law.¹ For this reason, when general law changes are required to effectuate appropriations, those changes are placed in a general bill implementing the appropriations act instead of in the general appropriations act. The statutory changes are effective only for one year and either expire on July 1 of the next fiscal year or the language of the amended statute reverts to that which existed before the changes made by the bill.

III. Effect of Proposed Changes:

Section 1 provides legislative intent that the implementing and administering provisions of this act apply to the General Appropriations Act for Fiscal Year 2017-2018.

Section 2 incorporates the Florida Education Finance Program (FEFP) work papers by reference for the purpose of displaying the calculations used by the Legislature.

Section 3 provides that funds provided for instructional materials shall be released and expended as required in the proviso language attached to Specific Appropriation 91.

¹ *Brown v. Firestone*, 382 So.2d 654 (Fla. 1980); *Chiles v. Milligan*, 659 So.2d 1055 (Fla. 1995).

Sections 4 amends s. 1008.46, F.S., to change the date for the Board of Governors annual accountability report from December 31 to March 15.

Section 5 amends s. 1011.62, F.S., relating to the Florida Digital Classrooms Allocation within the Florida Education Finance Program. This section changes the minimum allocation per district from \$250,000 to \$400,000 for Fiscal Year 2017-2018.

Sections 6 amends s. 1004.345, F.S., to extend the date by which Florida Polytechnic University must meet statutory deadlines by one year.

Section 7 reenacts s. 1009.986, F.S., to authorize Florida ABLE, Inc., to determine whether to require residency as a condition of participation based on market research and estimated operating revenues and costs.

Section 8 reverts the language of s. 1009.986, F.S., to the text in effect on June 30, 2016.

Section 9 authorizes the Dixie Middle School/High School special facilities project to exceed the cost per student station.

Section 10 provides that the calculations of the Medicaid Low-Income Pool, Disproportionate Share Hospital, and hospital reimbursement programs for the 2017-2018 fiscal year contained in the document titled "Medicaid Hospital Funding Programs," dated March 30, 2017, and filed with the Secretary of the Senate, are incorporated by reference for the purpose of displaying the calculations used by the Legislature, consistent with the requirements of state law, in making appropriations for the Medicaid Low-Income Pool, Disproportionate Share Hospital, and hospital reimbursement programs.

Section 11 authorizes the Agency for Health Care Administration (AHCA) to submit a budget amendment to realign funding between the AHCA and the Department of Health, for the Children's Medical Services (CMS) Network for the implementation of Statewide Medicaid Managed Care, to reflect actual enrollment changes due to the transition from fee-for-service into the capitated CMS Network.

Section 12 provides requirements to the Agency for Persons with Disabilities for setting iBudget amounts for clients receiving Home and Community-Based Waiver services. It also provides parameters under which a client's iBudget amount may be increased.

Section 13 directs the Agency for Persons with Disabilities to hire an independent consultant to review increases in Home and Community-Based Services Waiver costs to determine the underlying factors behind the growth in expenditures. It requires a report to the Legislature and Governor by December 15, 2017.

Section 14 directs the Agency for Persons with Disabilities to hire an independent consultant to examine the state's transportation disadvantaged services. It creates the Task Force on Transportation Disadvantaged Services to examine the design and use of transportation disadvantaged services.

Section 15 amends s. 296.37(3), F.S., for the 2017-2018 fiscal year, to maintain the personal needs allowance for residents of state veterans' nursing homes at \$105 per month. Otherwise, the amount would fall to \$35 per month on July 1, 2017.

Section 16 amends s. 409.911, F.S., to provide that, notwithstanding the provisions of s. 409.911, F.S., for the 2016-2017 state fiscal year, the AHCA must distribute moneys to hospitals providing a disproportionate share of Medicaid or charity care services as provided in the 2017-2018 General Appropriations Act.

Section 17 amends s. 409.9113, F.S., to provide that, notwithstanding the provisions of s. 409.9113, F.S., for the 2017-2018 state fiscal year, the AHCA must make disproportionate share payments to teaching hospitals, as defined in s. 408.07, as provided in the 2017-2018 General Appropriations Act.

Section 18 amends s. 409.9119, F.S., to provide that, notwithstanding the provisions of s. 409.9119, F.S., for the 2017-2018 state fiscal year, for hospitals achieving full compliance under 409.9119(3), the AHCA must make disproportionate share payments to specialty hospitals for children as provided in the 2017-2018 General Appropriations Act.

Section 19 amends s. 893.055(17), F.S., to provide that, for the 2017-2018 fiscal year only, the Department of Health may use state funds appropriated in the 2017-2018 General Appropriations Act to administer the prescription drug monitoring program. It also provides that neither the state attorney general nor the department may use funds received as part of a settlement agreement to administer the program.

Section 20 amends s. 216.262, F.S., to allow the Executive Office of the Governor (EOG) to request additional positions and appropriations from unallocated general revenue funds during the 2017-2018 fiscal year for the Department of Corrections (DOC), if the actual inmate population of the DOC exceeds certain Criminal Justice Estimating Conference forecasts. The additional positions and appropriations may be used for essential staff, fixed capital improvements, and other resources to provide classification, security, food services, health services, and other variable expenses within the institutions to accommodate the estimated increase in the inmate population, and are subject to Legislative Budget Commission review and approval.

Section 21 authorizes the Department of Legal Affairs to expend appropriated funds in those specific appropriations on the same programs that were funded by the department pursuant to specific appropriations made in general appropriations acts in prior years.

Section 22 amends s. 932.7055, F.S., relating to the disbursement of proceeds from the sale of forfeited property, to extend for another year the authorization for a municipality to expend funds in a special law enforcement trust fund to reimburse the general fund of the municipality for moneys advanced from the general fund to the special law enforcement trust fund prior to October 1, 2001.

Section 23 amends s. 215.18, F.S., to provide the Chief Justice the authority to request a trust fund loan.

Section 24 authorizes the Department of Corrections to transfer funds from categories other than fixed capital outlay into the Inmate Health Services category, subject to the notice, review, and objection procedures of s. 216.177, F.S.

Section 25 requires the Department of Juvenile Justice to ensure that counties are fulfilling their financial responsibilities and to report any deficiencies to the Department of Revenue. If the Department of Juvenile Justice determines that a county has not met its obligations, it must direct the Department of Revenue to deduct the amount owed to the Department of Juvenile Justice from shared revenue funds provided to the county under s. 218.23, F.S. The section also includes procedures to provide assurance to holders of bonds for which shared revenue fund distributions are pledged.

Section 26 prohibits the payment of reimbursement or application of credits to a nonfiscally constrained county for any previous overpayment of juvenile detention costs to offset detention share costs owed pursuant to s. 985.686, F.S., or any other law in Fiscal Year 2017-2018.

Sections 27 amends s. 27.5304, F.S., to permit the Legislature to increase the statutory compensation limits for fees paid to court-appointed attorneys in two case categories: noncapital, nonlife felonies and life felonies. These changes allow the Legislature to increase flat fees paid to attorneys in these categories in the General Appropriations Act.

Section 28 permits the Justice Administrative Commission to provide funds to compensate the clerks of court for juror compensation, juror lodging and meals, and jury-related personnel costs.

Sections 29 creates a 28-member Florida Criminal Justice Reform Task Force for conducting a comprehensive review of the state's criminal justice system, court system, and corrections system. The task force must submit a report of its findings, conclusions, and recommendations for proposed legislation to the President of the Senate and the Speaker of the House of Representatives by January 9, 2018. The task force will be assigned legislative support staff under an appointed executive director. The task force expires January 31, 2018. The section appropriates \$300,000 for task force member travel and other related expenses.

Section 30 requires the Department of Management Services (DMS) and agencies to utilize a tenant broker to renegotiate private lease agreements, in excess of 2,000 square feet, expiring before June 30, 2020.

Section 31 amends s. 282.709, F.S., relating to the Joint Task Force on State Agency Law Enforcement Communications, by removing a representative from the Department of Transportation from the task force and maintaining a representative from the Department of Agriculture and Consumer Services.

Section 32 provides that the online procurement system transaction fee authorized in ss. 287.042(1)(h)1 and 287.057(22)(c), F.S., will remain at 0.7 percent for the 2017-2018 fiscal year only.

Section 33 prohibits an agency from transferring funds from a data processing category to any category other than another data processing category.

Section 34 provides that the EOG is authorized to transfer funds in the specific appropriation category “Data Processing Assessment - Agency for State Technology” between agencies, in order to align the budget authority granted with the Agency for State Technology estimated billing cycle and methodology.

Section 35 provides that the EOG is authorized to transfer funds appropriated in the appropriations category “expenses” between agencies, in order to allocate a reduction relating to SUNCOM Services.

Section 36 authorizes the EOG to transfer funds in the appropriation category “Special Categories-Risk Management Insurance” between departments in order to align the budget authority granted with the premiums paid by each department for risk management insurance.

Section 37 authorizes the EOG to transfer funds in the appropriation category “Special Categories - Transfer to DMS - Human Resources Services Purchased Per Statewide Contract” of the 2017-2018 General Appropriations Act between departments, in order to align the budget authority granted with the assessments that must be paid by each agency to the DMS for human resources management services.

Section 38 defines the components of the Florida Accounting Information Resource subsystem (FLAIR) and Cash Management System (CMS) included in the Department of Financial Services Planning Accounting and Ledger Management (PALM) system. This section also provides the executive steering committee (ESC) membership and the process for ESC meetings and decisions.

Section 39 amends s. 259.105, F.S., relating to the distribution of proceeds in the Florida Forever Trust Fund, to provide: \$10,156,206 to only the Division of State Lands within the Department of Environmental Protection (DEP) for the Board of Trustees Florida Forever Priority List land acquisition projects and \$5 million for land acquisition within the Florida Keys Area of Critical State Concern.

Section 40 amends s. 216.181(11)(d), F.S., to authorize the Legislative Budget Commission to increase amounts appropriated to the Fish and Wildlife Conservation Commission or the DEP for fixed capital outlay projects. The increase in fixed capital outlay budget authority is authorized for funds provided to the state from the Gulf Environmental Benefit Fund administered by the National Fish and Wildlife Foundation, the Gulf Coast Restoration Trust Fund related to the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast Act of 2012 (RESTORE Act), or from British Petroleum Corporation (BP) for natural resources damage assessment early restoration projects. Any continuing commitment for future appropriations by the Legislature must be specifically identified.

Section 41 amends s. 206.9935, F.S., to eliminate certain revenues from the calculation of the unobligated balance of the Water Quality Assurance Trust Fund within the DEP which are used to determine the excise tax rates that support the expenditures within the trust fund.

Section 42 amends s. 403.7095, F.S., to require the DEP to award, in Fiscal Year 2017-2018, \$3 million of grant funds equally to counties having populations of fewer than 110,000 for waste tire, litter prevention, recycling and education, and general solid waste programs under the solid waste management grant program.

Section 43 amends s. 215.18, F.S., to authorize the Governor to temporarily transfer moneys, from one or more of the trust funds in the State Treasury, to a land acquisition trust fund (LATF) within the Department of Agriculture and Consumer Services, the DEP, the Department of State, or the Fish and Wildlife Conservation Commission, whenever there is a deficiency that would render the LATF temporarily insufficient to meet its just requirements, including the timely payment of appropriations from that trust fund. These funds must be expended solely and exclusively in accordance with art. X, s. 28 of the Florida Constitution. This transfer is a temporary loan and the funds must be repaid to the trust funds from which the moneys were loaned by the end of the 2017-2018 fiscal year. Any action proposed pursuant to this subsection is subject to the notice, review, and objection procedures of s. 216.177, F.S., and the Governor shall provide notice of such action at least seven days before the effective date of the transfer of trust funds.

Section 44 provides that, in order to implement specific appropriations from the land acquisition trust funds within the Department of Agriculture and Consumer Services, the DEP, the Fish and Wildlife Conservation Commission, and the Department of State, the DEP will transfer a proportionate share of revenues in the Land Acquisition Trust Fund within the DEP on a monthly basis, after subtracting required debt service payments, to each agency and retain a proportionate share within the Land Acquisition Trust Fund within the DEP. Total distributions to a land acquisition trust fund within the other agencies may not exceed the total appropriations for the fiscal year.

Section 45 requires the Department of Highway Safety and Motor Vehicles to continue to contract with Prison Rehabilitation Industries and Diversified Enterprises, Inc., (PRIDE) for manufacturing license plates, provided that the cost is the same as that paid by the department during fiscal year 2013-2014.

Section 46 creates the Law Enforcement Workgroup within the Department of Highway Safety and Motor Vehicles and requires the workgroup to review the Florida Highway Patrol's (FHP) response to calls for service and the resources available for these services. The workgroup is also required to compare FHP resources to those of local law enforcement entities and other state highway patrol agencies to determine whether additional resources are necessary to improve response times.

Section 47 creates s. 316.0898, F.S., to require the Department of Transportation (DOT) to create a Smart Cities Grant program to provide funds to applicants who submit projects that demonstrate and document the adoption of emerging technologies and their impact on the transportation system.

Section 48 amends s. 341.302, F.S., authorize the DOT to approve and provide matching grant funding for railroad quiet zones for the 2017-2018 fiscal year.

Section 49 amends s. 420.9072, F.S., relating to the State Housing Initiatives Partnership (SHIP) Program, to provide exceptions to the limitations on using SHIP funds for rent subsidies and to allow counties and eligible municipalities to use up to 25 percent of available SHIP funds for rental housing.

Section 50 amends s. 420.5087, F.S., relating to the State Apartment Incentive Loan (SAIL) Program, to change requirements for reserving percentages of available SAIL funding for specified tenant groups to reflect the projected housing needs for those groups. Additionally, notwithstanding requirements that SAIL funds be used for housing for very-low income persons and specified percentages of the units in SAIL projects be reserved for persons or families of specified income levels, the Florida Housing Finance Corporation is directed to issue, during Fiscal Year 2017-2018, a notice of fund availability for \$40 million for loans to construct workforce housing to serve primarily low-income persons.

Section 51 creates the Affordable Housing Workgroup within the Florida Housing Finance Corporation. The workgroup is required to develop recommendations for addressing the state's affordable housing needs. The recommendations shall include a review of: market rate developments; housing developments; land use for affordable housing developments; building codes for affordable housing developments; the state's implementation of the low-income housing tax credit; private and public sector development and construction industries; the rental market for assisted rental housing; and development of strategies and pathways for low-income housing.

Section 52 amends s. 427.013, F.S., to authorize the Commission for the Transportation Disadvantaged to make distributions, during Fiscal Year 2017-2018, to community transportation coordinators that do not receive federal Urbanized Area Formula Funds to provide transportation disadvantaged services; and as competitive grants to support transportation projects, to enhance access to specified activities, to assist in development of transportation systems in nonurbanized areas, to promote efficient coordination of services, to support inner-city bus transportation, and to encourage private transportation providers to participate.

Section 53 amends s. 321.04, F.S., to provide that for the 2017-2018 fiscal year, the Department of Highway Safety and Motor Vehicles may assign a patrol officer to the Lieutenant Governor, at his or her discretion, and to a Cabinet member if the department deems such assignment appropriate or in response to a threat, if requested by such Cabinet member.

Section 54 directs the State Library Council, the Florida Historical Commission, and the Florida Council on Arts and Culture to sort the applications received by each entity into two groups for ranking and funding purposes, those received from counties that are rural areas of opportunity as defined in s. 288.0656(2)(d), Florida Statutes, and those received from all other counties. The two groups of applications shall be ranked separately, but otherwise in the same manner, and submitted for approval by the Secretary of State.

Section 55 amends s. 288.1201, F.S., to direct the Department of Economic Opportunity to return to the State Treasury all funds held by any entity pursuant to a contract executed for the Quick Action Closing Fund, which are unexpended as of June 30, 2017. Such unexpended funds shall be deposited into the State Economic Enhancement and Development Trust Fund.

Section 56 amends s. 311.07, F.S., to exempt seaport projects added by a specific appropriation from matching and eligibility requirements provided in s. 311.07, F.S.

Section 57 amends s. 339.135, F.S., to require the Department of Transportation to reduce all work program items identified as a reserve box in order to fund specific appropriations added to the work program in the 2017-2018 General Appropriations Act.

Section 58 amends s. 216.292(2)(a), F.S., to grant broader legislative review of any “five percent” budget transfers. For the 2017-2018 fiscal year, the legislature is authorized to object to a proposed action that exceeds delegated authority or is contrary to legislative policy and intent.

Section 59 amends s. 112.24, F.S., to provide that the reassignment of an employee of a state agency may be made if recommended by the Governor or Chief Justice, as appropriate, and approved by the chairs of the Senate and House budget committees. Such actions shall be deemed approved if neither chair provides written notice of objection within 14 days after receiving notice of the action, pursuant to s. 216.177, F.S. This requirement applies to state employee reassignments regardless of which agency (sending or receiving) is responsible for pay and benefits of the assigned employee.

Section 60 maintains legislative salaries at the July 1, 2010, level.

Section 61 amends s. 215.32(2)(b), F.S., in order to implement the transfer of moneys to the General Revenue Fund from trust funds in the 2017-2018 General Appropriations Act.

Section 62 reverts the language of s. 215.32(2)(b), F.S., to the text in effect on June 30, 2016.

Section 63 provides that, in order to implement the issuance of new debt authorized in the 2016-2017 General Appropriations Act, and pursuant to the requirements of s. 215.98, F.S., the Legislature determines that the authorization and issuance of debt for the 2017-2018 fiscal year should be implemented and is in the best interest of the state.

Section 64 provides that funds appropriated for travel by state employees be limited to travel for activities that are critical to each state agency’s mission. The section prohibits funds from being used to travel to foreign countries, other states, conferences, staff-training, or other administrative functions unless the agency head approves in writing. The agency head is required to consider the use of teleconferencing and electronic communication to meet needs of activity before approving travel.

Section 65 provides that, notwithstanding s. 112.061, F.S., costs for lodging associated with a meeting, conference, or convention organized or sponsored in whole or in part by a state agency or the judicial branch may not exceed 150 dollars per day. An employee may expend his or her own funds for any lodging expenses in excess of 150 dollars.

Section 66 amends s. 110.12315, F.S., to modify copayments associated with the state employees' group health insurance program.

Section 67 reverts the language of s. 110.12315, F.S., to the text in effect on June 30, 2017.

Section 68 provides that a state agency may not enter into a contract containing a nondisclosure clause that prohibits a contractor from disclosing to members or staff of the Legislature information relevant to the performance of the contract.

Section 69 specifies that no section of the bill shall take effect if the appropriations and proviso to which it relates are vetoed.

Section 70 provides that a permanent change made by another law to any of the same statutes amended by this bill will take precedence over the provision in this bill.

Section 71 provides a severability clause.

Section 72 provides an effective date.

I. Summary:

SB 2504 directs the resolution of the collective bargaining issues at impasse for the 2017-2018 fiscal year regarding state employees. These issues will be resolved based on the spending decisions included in the General Appropriations Act for the 2017-2018 fiscal year.

This bill is effective July 1, 2017.

II. Present Situation:

Chapter 447, F.S., specifies the process for collective bargaining for public employees. The bargaining agent and the negotiator for the state must bargain collectively in the determination of the wages, hours, terms, and conditions of employment of the employees within the bargaining unit. Any collective bargaining agreement reached must be reduced to writing, signed by the chief executive officer for the state and the bargaining agent for the union, and submitted to the members of the bargaining unit for ratification

Upon execution of the collective bargaining agreement, the Governor must request the Legislature to appropriate amounts sufficient to fund the provisions of the agreement. If the Legislature appropriates funds that are not sufficient to fund the agreement, the agreement must be administered on the basis of the amounts actually appropriated.

Typically, at the state level, an agreement is not reached. In that instance, and pursuant to s. 216.163(6), F.S., an impasse is declared on all unresolved issues when the Governor's budget recommendations are released to the Legislature. Within five days of the start of the impasse period, each party is required to notify the presiding officers of the Legislature of the unresolved issues. A joint select committee of members of the Florida House of Representatives and the Senate is appointed to review the positions of the parties. The committee's recommendation to the Legislature regarding the resolution of those issues is presented to the presiding officers no later than 10 days before the start of the regular legislative session. During the session, the

Legislature may take action to address the issues. Any actions taken by the Legislature are binding upon the parties.

Following the resolution of the impasse issues, the parties are required to reduce to writing an agreement that includes those issues agreed to by the parties as well as those issues resolved by the Legislature. The agreement must be signed by the chief executive officer and the bargaining agent and then presented to the members of the bargaining unit for ratification.

If the members ratify the agreement, all the provisions of the agreement take effect. If the members do not ratify the agreement, the issues resolved by the Legislature take effect for the first fiscal year which was the subject of the negotiations.

The certified bargaining units for state employees and the respective bargaining agents include:

- **American Federation of State, County and Municipal Employees, Council 79.**
 - Administrative and Clerical Unit.
 - Operational Services Unit.
 - Human Services Unit.
 - Professional Unit.
- **Florida Nurses Association.**
 - Professional Health Care Unit.
- **Police Benevolent Association.**
 - Special Agent Unit.
 - Law Enforcement Unit.

 - Fire Service Unit.
- **Federation of Physicians and Dentists.**
 - Supervisory Nonprofessional Unit.
 - Physicians Unit.
 - State Employees Attorneys Guild.
- **Federation of Public Employees.**
 - Lottery Administrative and Support Unit.

III. **Effect of Proposed Changes:**

Section 1 provides that all collective bargaining issues at impasse for the 2017-2018 fiscal year regarding state employees will be resolved pursuant to the spending decisions contained in the General Appropriations Act for the 2017-2018 fiscal year.

Section 2 provides an effective date of July 1, 2017.

BILL: SB 7022

SUBJECT: State-administered Retirement Systems

DATE: April 4, 2017

REVISED: _____

<u>Ferrin</u>	<u>Ferrin</u>		GO Submitted as Committee Bill

I. Summary:

SB 7022 establishes the contribution rates paid by employers participating in the Florida Retirement System (FRS) beginning July 1, 2017. These rates are intended to fund the full normal cost and the amortization of the unfunded actuarial liability of the FRS. With these modifications to employer contribution rates, the FRS Trust Fund will receive roughly \$149.5 million more revenue on an annual basis beginning July 1, 2017. The public employers that will incur these additional costs are state agencies, state universities and colleges, school districts, counties, and certain municipalities and other governmental entities.

II. Present Situation:

The Florida Retirement System

The Florida Retirement System (FRS) was established in 1970 when the Legislature consolidated the Teachers' Retirement System, the State and County Officers and Employees' Retirement System, and the Highway Patrol Pension Fund. In 1972, the Judicial Retirement System was consolidated into the FRS, and in 2007, the Institute of Food and Agricultural Sciences Supplemental Retirement Program was consolidated under the Regular Class of the FRS as a closed group.¹ The FRS is a contributory system, with most members contributing three percent of their salaries.²

The FRS is a multi-employer, contributory plan, governed by the Florida Retirement System Act in Chapter 121, F.S. As of June 30, 2016, the FRS had 630,350 active members, 394,907 annuitants, 16,248 disabled retirees, and 29,602 active participants of the Deferred Retirement

¹ Florida Retirement System Comprehensive Annual Financial Report Fiscal Year Ended June 30, 2016, at p. 29. Available online at: https://www.rol.frs.state.fl.us/forms/2015-16_CAFR.pdf.

² Prior to 1975, members of the FRS were required to make employee contributions of either 4 percent for Regular Class employees or 6 percent for Special Risk Class members. Employees were again required to contribute to the system after July 1, 2011. Members in the Deferred Retirement Option Program do not contribute to the system.

Option Program (DROP).³ As of June 30, 2016, the FRS consisted of 1,029 total employers; it is the primary retirement plan for employees of state and county government agencies, district school boards, Florida College institutions, and state universities, and also includes the 193 cities and 270 special districts that have elected to join the system.⁴

The membership of the FRS is divided into five membership classes:

- The Regular Class⁵ consists of 545,680 active members, plus 3,709 in renewed membership;
- The Special Risk Class⁶ includes 70,695 active members;
- The Special Risk Administrative Support Class⁷ has 76 active members;
- The Elected Officers' Class⁸ has 2,026 active members, plus 115 in renewed membership; and
- The Senior Management Service Class⁹ has 7,876 members, plus 143 in renewed membership.¹⁰

Each class is funded separately based upon the costs attributable to the members of that class.

Members of the FRS have two primary plan options available for participation:

- The defined contribution plan, also known as the Investment Plan; and
- The defined benefit plan, also known as the Pension Plan.

Investment Plan

In 2000, the Legislature created the Public Employee Optional Retirement Program (investment plan), a defined contribution plan offered to eligible employees as an alternative to the FRS Pension Plan.

Benefits under the investment plan accrue in individual member accounts funded by both employee and employer contributions and earnings. Benefits are provided through employee-directed investments offered by approved investment providers.

A member vests immediately in all employee contributions paid to the investment plan.¹¹ With respect to the employer contributions, a member vests after completing one work year of

⁴ *Id.*, at 154.

⁵ The Regular Class is for all members who are not assigned to another class. Section 121.021(12), F.S.

⁶ The Special Risk Class is for members employed as law enforcement officers, firefighters, correctional officers, probation officers, paramedics and emergency technicians, among others. Section 121.0515, F.S.

⁷ The Special Risk Administrative Support Class is for a special risk member who moved or was reassigned to a nonspecial risk law enforcement, firefighting, correctional, or emergency medical care administrative support position with the same agency, or who is subsequently employed in such a position under the Florida Retirement System. Section 121.0515(8), F.S.

⁸ The Elected Officers' Class is for elected state and county officers, and for those elected municipal or special district officers whose governing body has chosen Elected Officers' Class participation for its elected officers. Section 121.052, F.S.

⁹ The Senior Management Service Class is for members who fill senior management level positions assigned by law to the Senior Management Service Class or authorized by law as eligible for Senior Management Service designation. Section 121.055, F.S.

employment with an FRS employer.¹² Vested benefits are payable upon termination or death as a lump-sum distribution, direct rollover distribution, or periodic distribution.¹³ The investment plan also provides disability coverage for both in-line-of-duty and regular disability retirement benefits.¹⁴ An FRS member who qualifies for disability while enrolled in the investment plan must apply for benefits as if the employee were a member of the pension plan. If approved for retirement disability benefits, the member is transferred to the pension plan.¹⁵

The State Board of Administration (SBA) is primarily responsible for administering the investment plan.¹⁶ The SBA is comprised of the Governor as chair, the Chief Financial Officer, and the Attorney General.¹⁷

Pension Plan

The pension plan is administered by the secretary of the Department of Management Services through the Division of Retirement.¹⁸ Investment management is handled by the State Board of Administration.

Any member initially enrolled in the pension plan before July 1, 2011, vests in the pension plan after completing six years of service with an FRS employer.¹⁹ For members enrolled on or after July 1, 2011, the member vests in the pension plan after eight years of creditable service.²⁰ Benefits payable under the pension plan are calculated based on the member's years of creditable service multiplied by the service accrual rate multiplied by the member's average final compensation.²¹ For most members of the pension plan, normal retirement (when first eligible for unreduced benefits) occurs at the earliest attainment of 30 years of service or age 62.²² For public safety employees in the Special Risk and Special Risk Administrative Support Classes, normal retirement is the earliest of 25 years of service or age 55.²³ Members initially enrolled in the pension plan on or after July 1, 2011, have longer service requirements. For members initially enrolled after that date, the member must complete 33 years of service or attain age 65, and members in the Special Risk classes must complete 30 years of service or attain age 60.²⁴

¹² If a member terminates employment before vesting in the investment plan, the nonvested money is transferred from the member's account to the SBA for deposit and investment by the SBA in its suspense account for up to five years. If the member is not reemployed as an eligible employee within five years, then any nonvested accumulations transferred from a member's account to the SBA's suspense account are forfeited. Section 121.4501(6)(b)-(d), F.S.

¹³ Section 121.591, F.S.

¹⁴ See s. 121.4501(16), F.S.

¹⁵ Pension plan disability retirement benefits, which apply for investment plan members who qualify for disability, compensate an in-line-of-duty disabled member up to 65 percent of the average monthly compensation as of the disability retirement date for special risk class members. Other members may receive up to 42 percent of the member's average monthly compensation for disability retirement benefits. If the disability occurs other than in the line of duty, the monthly benefit may not be less than 25 percent of the average monthly compensation as of the disability retirement date. Section 121.091(4)(f), F.S.

²⁴ Sections 121.021(29)(a)2. and (b)2., F.S.

Optional Retirement Programs

Eligible employees may choose to participate in one of three retirement programs instead of participating in the FRS:

- Members of the Senior Management Service Class may elect to enroll in the Senior Management Service Optional Annuity Program;²⁵
- Members in specified positions in the State University System may elect to enroll in the State University System Optional Retirement Program;²⁶ and
- Members in specified positions at a Florida College institution may elect to enroll in the State Community College System Optional Retirement Program.²⁷

Contribution Rates

FRS employers are responsible for contributing a specified percentage of the member’s monthly compensation to the Division of Retirement to be distributed into the FRS Contributions Clearing Trust Fund. The employer contribution rate is a blended contribution rate set by statute, which is the same percentage regardless of whether the member participates in the pension plan or the investment plan.²⁸ The rate is determined annually based on an actuarial study by the Department of Management Services that calculates the necessary level of funding to support all of the benefit obligations under both FRS retirement plans.

In the annual actuarial valuation of the Florida Retirement System based on July 1, 2016, plan assets and liabilities, Milliman, Inc., the state actuary, determined the following key data relating to the FRS pension plan.²⁹

	Valuation Results (in \$ billions)			
	July 1, 2013	July 1, 2014	July 1, 2015	July 1, 2016
Actuarial Liability	\$153.3	\$160.1	\$165.5	\$170.4
Actuarial Value of Assets	\$131.7	\$138.6	\$143.2	\$145.5
Unfunded Actuarial Liability	\$ 21.6	\$21.5	\$22.3	\$24.9
Funded Percentage (Actuarial Value of Assets/Actuarial Liability)	85.9%	86.6%	86.5%	85.4%

²⁵ The Senior Management Service Optional Annuity Program (SMSOAP) was established in 1986 for members of the Senior Management Service Class. Employees in eligible positions may irrevocably elect to participate in the SMSOAP rather than the FRS. Section 121.055(6), F.S.

²⁶ Eligible participants of the State University System Optional Retirement Program (SUSORP) are automatically enrolled in the SUSORP. However, the member must execute a contract with a SUSORP provider within the first 90 days of employment or the employee will default into the pension plan. If the employee decides to remain in the SUSORP, the decision is irrevocable and the member must remain in the SUSORP as long as the member remains in a SUSORP-eligible position. Section 121.35, F.S.

²⁷ If the member is eligible for participation in a State Community College System Optional Retirement Program, the member must elect to participate in the program within 90 days of employment. Unlike the other optional programs, an employee who elects to participate in this optional retirement program has one opportunity to transfer to the FRS. Section 1012.875, F.S.

²⁸ Section 121.70(1), F.S.

²⁹ Florida Retirement System Comprehensive Annual Financial Report Fiscal Year Ended June 30, 2016, at 101.

The state actuary determines a rate associated with the normal cost of the pension plan (funding the prospective benefits) and a rate necessary to amortize the unfunded actuarial liabilities (UAL) over a thirty year period. The following are the current employer contribution rates³⁰ for each class and the blended rates recommended by the state actuary beginning in July 2017:³¹

Membership Class	Current Rates Effective July 1, 2016		Recommended Rates to be effective July 1, 2017	
	Normal Cost	UAL Rate	Normal Cost	UAL Rate
Regular Class	2.97%	2.83%	2.89%	3.30%
Special Risk Class	11.80%	9.05%	11.81%	9.57%
Special Risk Administrative Support Class	3.87%	22.47%	3.81%	29.08%
Elected Officer’s Class				
• Legislators, Governor, Lt. Governor, Cabinet Officers, State Attorneys, Public Defenders	6.63%	33.75%	6.41%	42.69%
• Justices and Judges	11.68%	23.30%	11.66%	26.25%
• County Officers	8.55%	32.20%	8.48%	35.24%
Senior Management Service Class	4.38%	15.67%	4.28%	16.70%
Deferred Retirement Option Program	4.23%	7.10%	4.17%	7.43%

For all membership classes, except the DROP and certain members with renewed membership, employees contribute three percent of their compensation towards retirement.³²

After employer and employee contributions are placed into the FRS Contributions Clearing Trust Fund, the allocations under the investment plan are transferred to third-party administrators to be placed in the employee’s individual investment accounts, whereas contributions under the pension plan are transferred into the FRS Trust Fund.³³

III. Effect of Proposed Changes:

The bill modifies the employer-paid contributions for FRS retirement benefits.

Section 1 amends s. 121.71, F.S., to set the employer-paid contributions to the Florida Retirement System Trust Fund for each membership class of the FRS.

Section 2 provides findings that the bill fulfills an important state interest.

³⁰ Section 121.71(4) and (5), F.S.

³¹ Letter to Ms. Elizabeth Stevens, *Re: Blended Proposed Statutory Rates for the 2017-2018 Plan Year Reflecting a Uniform UAL Rate for All Membership Classes and DROP*, dated December 2, 2016 (on file with the Senate Committee on Governmental Accountability and Oversight).

³² Section 121.71(3), F.S.

³³ See ss. 121.4503 and 121.72(1), F.S.

The bill provides an effective date of July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides that: “No county or municipality shall be bound by any general law requiring such county or municipality to spend funds...unless the legislature has determined that such law fulfills an important state interest and unless: ...the expenditure is required to comply with a law that applies to all persons similarly situated...”

This bill includes legislative findings that the bill fulfills important state interests, and the bill applies to all persons similarly situated (those employers participating in the Florida Retirement System), including state agencies, school boards, community colleges, counties, and municipalities.

I. Summary:

SB 2506 redirects revenue from certain fines, filing fees, and penalties from the General Revenue Fund to the clerks of the court to address their revenue shortfalls. The bill also modifies the duties of the Florida Clerks of the Court Operations Corporation with respect to the budget process, removes the Legislative Budget Commission's limitation to consider only Article V revenue projections when approving clerk budgets, and clarifies the use of Public Records Modernization Trust Fund revenues. SPB 2506 also codifies current implementing bill language allowing the clerks to receive reimbursement for juror costs.

The Revenue Estimating Impact Conference estimates that this bill will have a \$24.9 million negative fiscal impact to the General Revenue Fund in Fiscal Year 2017-2018 and thereafter.

The bill takes effect upon becoming law.

II. Present Situation:

Article V of the State Constitution establishes the judicial branch of state government, including the trial and appellate courts. The Florida Constitution describes the responsibilities and functions of officials involved in the courts system, including judges, state attorneys, public defenders, and the clerks of the court.

In 1998, voters approved a revision to Article V, referenced as Revision 7, which allocated more state court costs to the state. Subsequent to that revision, Article V, section 14 of the Florida Constitution specifies the state and county responsibilities for funding the state courts system by providing that the Supreme Court and the District Courts of Appeal must be fully funded by the state, and the trial courts (the circuit and county courts) are jointly funded by the state and counties. Article V, section 14(b) provides that:

All funding for the offices of the clerks of the circuit and county courts performing court-related functions, except as otherwise provided . . . shall

be provided by adequate and appropriate filing fees for judicial proceedings and service charges and costs for performing court-related functions as required by general law. Selected salaries, costs, and expenses of the state courts system may be funded from appropriate filing fees for judicial proceedings and service charges and costs for performing court-related functions, as provided by general law.

Pursuant to authority granted in Article V, section 14(b) of the Florida Constitution, the list of court-related functions clerks may perform is limited to those functions expressly authorized by statute or court rule and must include the following:

- Case maintenance;
- Records management;
- Court preparation and attendance;
- Processing the assignment, reopening, and reassignment of cases;
- Processing of appeals;
- Collection and distribution of fines, fees, service charges, and court costs;
- Processing of bond forfeiture payments;
- Payment of jurors and witnesses;
- Payment of expenses for meals or lodging provided to jurors;
- Data collection and reporting;
- Processing of jurors;
- Determinations of indigent status; and
- Reasonable administrative support costs to enable the clerk of the court to carry out these court-related functions.¹

Post-Article V Revisions: 2004-2008

Revision 7 required the 67 clerks of court to fund their offices using revenues derived from service charges, court costs, filing fees and fines assessed in civil and criminal proceedings. Clerks collected these revenues and deposited them into their local fine and forfeiture funds.² The clerks retained necessary revenues to fund their operations while other portions were distributed from the fine and forfeiture fund to the state General Revenue Fund and other state trust funds. For example, the clerks were required to remit one-third of all fines, fees, service charges, and costs collected for court-related functions to the Department of Revenue for deposit into the Clerk of the Court Trust Fund.³

Clerks had discretion to set their individual budgets based on anticipated revenues and expenditures; however, the legislature created the Florida Clerks of Court Corporation (corporation) to review and certify budgets to ensure completeness and compliance with budget procedures.⁴ The clerks' proposed budgets were required to be balanced, with estimated revenues equaling or exceeding anticipated expenditures. Upon review and certification of the individual

clerk of court budgets by the corporation, revenue in excess of the amount needed to fund each approved clerk of court budget was deposited in the General Revenue Fund. If a clerk estimated that available funds plus projected revenues were insufficient to meet anticipated expenditures for court-related functions, statutory budget procedures allowed clerks to access revenues from the Clerks of the Court Trust Fund to address their deficits.⁵

The legislature's involvement in the clerks' budgets was limited prior to 2009. The Legislative Budget Commission (LBC) had authority to approve increases to the maximum annual budgets approved for individual clerks if the additional funding was necessary to pay the cost of performing new or additional functions required by changes in law or court rule or additional funding was necessary to pay the cost of supporting increases in the number of judges or magistrates authorized by the legislature.⁶

Clerks in the General Appropriations Act: 2009-2012

In an effort to gain greater oversight and accountability for the operations and funding of the clerks, the legislature passed chapter 2009-204, L.O.F., during the 2009 Legislative Session. This bill substantially amended the clerks' statutory budget process and procedures, most noticeably by bringing the clerks into the state budget and appropriating their funding in the annual General Appropriations Act. The law provided that all revenues received by the clerks from court-related fees, fines, costs and service charges were considered state funds and were remitted to the Department of Revenue for deposit into the Clerks of Court Trust Fund within the Justice Administrative Commission (JAC).⁷ The law permitted the clerks, however, to deposit ten percent of all court-related fines in the Public Records Modernization Trust Fund to be used in addition to state appropriations for operational needs.⁸

In 2009, revenues accruing to the Clerks of Court Trust Fund began to decline due to the downturn in the economy and the reduction in foreclosure filings. As a result, the legislature reinforced the clerks' budgets with additional moneys from the General Revenue Fund. The 2011 Legislature appropriated \$44.2 million from the General Revenue Fund to address FY 2010-2011 revenue deficits and the 2012 Legislature appropriated \$57.6 million to address FY 2011-2012 deficits.

Return to Pre-2009 Funding Model: 2013-Present

In 2013, the legislature reversed many of the funding model changes made in chapter 2009-204, L.O.F., related to the clerks' budgets but expanded the oversight and accountability in the clerks' budget process. Chapter 2013-44, L.O.F., required clerks to submit monthly all revenues collected in the prior month that were in excess of one-twelfth of the clerk's total budget to Department of Revenue for deposit into the department's Clerks of the Court Trust Fund. The

law required that revenue in excess of that needed to fund the authorized budgets for the clerks had to be transferred from the Clerks of Court Trust Fund to the General Revenue Fund each January, unless the Revenue Estimating Conference's official estimate of the funds accruing to the trust fund prepared for the current fiscal year or the next fiscal year was less than the total budgeted amount from the trust fund for the current fiscal year.

The law also enhanced the responsibilities of, and oversight by, the corporation. The law directed the corporation to conduct annual base budget reviews, conduct cost-comparisons of similarly situated clerks, report pay and benefit issues, and provide explanation of any clerk expenditure increases over 3 percent.⁹ The law also required the corporation to use the official Article V Revenue Estimating Conference revenue estimates for the clerks' budget process.¹⁰

Chapter 2013-44, L.O.F., also enhanced the role and responsibilities of the Legislative Budget Commission. The law directed the LBC to consider the budgets of the clerks and to approve, disapprove, or amend and approve the budgets by October 1 of each year.¹¹

Current budget process

In June of each year, each individual clerk must prepare, summarize and submit to the corporation his/her proposed budgets. The corporation undertakes an extensive review of the clerks' budgets using financial and performance information, such as cost comparisons with similarly situated clerks, a base budget review, and estimates of available revenues. These budgets must be balanced in such a way that aggregate estimated revenues equals or exceeds the total anticipated expenditures.¹² The official revenue estimate is determined by the Article V Revenue Estimating Conference projection of clerk revenues.¹³ Clerks who estimate that projected revenues will be insufficient to meet the anticipated expenditures must report the revenue deficit to the corporation. The corporation verifies the deficit and notifies the Department of Revenue that the specific clerk is authorized to draw down revenues from the Clerk of the Court Trust Fund to cover the deficit. For County Fiscal Year 2016-17, 47 of the 67 clerks are "funded" clerks, meaning that they generate less revenue than they need to cover expenditures and must draw down excess funds deposited into the Clerk of the Court Trust Fund from the remaining clerks.

By August 1 of each year, the corporation must submit to the Legislative Budget Commission the proposed budgets of the clerks. While individual clerk budgets may have revenue deficits, the clerks' combined budgets must be balanced and may not exceed the Article V Revenue Estimating Conference projection of clerk revenues. The commission shall approve, disapprove, or amend and approve the total of the clerks' combined budgets or any individual clerk's budget. The budget procedures do not permit the commission to approve a budget in which the aggregate

expenditures exceed the Article V Revenue Estimating Conference revenue projection nor may the commission approve additional resources to address clerk deficits. The commission may only approve increases to budgets to pay the cost of new or additional functions required by law or court rule or to support increases in the number of judges or magistrates authorized by the legislature.

Current budget problems

Since the passage of Chapter 2013-44, L.O.F., revenues to support the budgets of the clerks have not materialized as projected. As the housing market has improved, fewer foreclosure filings have resulted in reduced filing fee revenues accruing to the clerks. In addition, law enforcement officers have been issuing fewer traffic tickets resulting in declines in civil traffic revenues. The clerks reported 2,927,266 civil traffic cases in County Fiscal Year (CFY) 2015-16, which represents a 24 percent decline since CFY 2011-12. The clerks rely heavily on civil traffic revenues to sustain their budgets; these cases represented 27 percent of total clerk revenues in CFY 2015-16 but only represented a fraction of total workload. Revenues from civil traffic cases support other case types, like circuit criminal cases, that require more workload to complete than their revenues generate.

In September 2015, the commission approved a CFY 2015-16 clerk budget of \$447.9 million based on the July 2015 projected Article V revenues combined with the “ten percent” funds accruing to the Public Records Modernization Trust Fund.¹⁴ However, for all of CFY 2015-16, the clerks reported the actual Article V revenues and all “ten percent” funds totaled \$419.3 million, a shortfall of \$28.6 million. The 2016 Legislature made a supplemental appropriation of \$12.9 million to help address the deficit, but the clerks were obligated to reduce their expenditures to address the remaining shortfall.¹⁵

The clerks’ revenue picture for CFY 2016-17 does not show signs of improvement. In September 2016, the commission approved a budget of \$422.1 million for the clerks, a \$27.8 million reduction from the prior year’s approved budget, which was based on the July 2016 Article V Revenue Estimating Conference showing continued declines in clerk revenues over the forecasted period. In February 2017, the Article V Revenue Estimating Conference revised downward its CFY 2016-17 estimate of projected revenues for the clerks by another \$10 million, observing continued weakness in traffic and foreclosure revenues.

Juror Cost Reimbursement

Under Revision 7, juror compensation and related expenses were initially a state court system responsibility and paid for with state revenues appropriated by general law.¹⁶ The 2004 Legislature amended s. 28.35, F.S., to require the clerks to pay the payment of jurors and witnesses as well as juror meals and lodging.¹⁷ Each clerk prepared quarterly estimates of

¹⁴ Section 28.37(5) permits the clerk to deposit ten percent of all court-related fines, with two exceptions, into the Public Records Modernization Trust Fund for court-related operational needs and program enhancements. The commission counts these funds as clerk revenue when approving the clerks’ budgets.

needed funds for the Office of State Court Administrator (OSCA). Based on these estimates, OSCA endorsed the payment and approved funds for each clerk. In 2008, the legislature amended the law to clarify that the clerks were financially responsible for paying juror meals and lodging as well as juror and witness payments.¹⁸ Section 28.35, F.S., currently authorizes the clerks to pay for juror meals and lodging as well as juror and witness payments from filing fees, service charges, costs, and fines.

In recognition of ongoing clerk revenue deficits, the 2016 Legislature passed a provision to reimburse the clerks for juror expenses and jury-related personnel costs during the 2016-2017 fiscal year.¹⁹ The legislature also appropriated \$11.7 million in recurring general revenue in the General Appropriations Act to fund these expenses.

III. Effect of Proposed Changes:

Fee Adjustments to Generate Additional Clerk Revenue (Sections 1, 6, 7, and 8)

Four sections of the bill redirect revenue from certain fines, filing fees, and penalties from the General Revenue Fund to the clerks of court to address revenue deficits.

- **Section 1** amends s. 28.241, F.S., to redirect the \$295 fee paid by a party who files a pleading for affirmative relief by cross-claim, counterclaim, counterpetition, or third-party complaint from the General Revenue Fund to the clerk's fine and forfeiture fund.
- **Section 6** amends s. 318.18, F.S., to redirect to the clerks' funds collected for certain civil violations. Persons who fail to pay required penalties pursuant to ss. 318.14 and s. 318.17, F.S., must pay an additional \$16 civil penalty specified in s. 318.18 (8)(a), F.S. The bill redirects \$6.50 of this \$16 penalty from the General Revenue Fund to the clerks' fine and forfeiture fund. In addition, drivers who commit civil traffic violations specified in s. 316.074(1), F.S., or s. 316.075(1)(c)1., F.S., must pay a \$60 fine, of which \$30 currently goes to the General Revenue Fund. This section redirects the \$30 to the clerks' fine and forfeiture fund.
- **Section 7** amends s. 318.21(2)(a) and (f), F.S., which distributes civil penalties for traffic infractions committed under chapter 318, F.S. Currently, 20.6 percent of the funds from the penalties goes to the General Revenue Fund and five-tenths percent (0.5%) goes to the clerk for administrative costs. The section redirects 10 percent of the funds from the General Revenue Fund to the clerks for deposit into the fine and forfeiture fund.
- **Section 8** amends s. 775.083(1), F.S., which sets fine limitations for certain designated crimes and for noncriminal violations. The revenues from fines imposed by this subsection currently are available to the clerks, except for fines imposed when adjudication is withheld, in which case the funds are deposited into the General Revenue Fund. The bill removes the exception for adjudication withheld thereby directing all revenue from the fines in this subsection to the clerks.

¹⁸ Ch. 2008-111, Laws of Fla.

¹⁹ Ch. 2016-62, s. 66, Laws of Fla.

Modification of Clerk Duties and Budget Procedures (Sections 2, 3 and 4)

Collectively, these three sections of the bill modify the duties of the Florida Clerks of the Court Operations Corporation with respect to the budget process, remove the Legislative Budget Commission's limitation to consider only Article V revenue projections in approving clerk budgets, and clarifies the use of the Public Records Modernization Trust Fund revenues. These changes are intended to give the corporation and commission more budgetary flexibility within the existing clerk budget procedures.

Section 2 amends s. 28.35, F.S., to add to the duties of the corporation. This section permits the corporation to recommend a budget in excess of the Article V Revenue Estimating Conference revenue estimate, with the caveat that the budget funds only its required court-related functions. Currently, the revenue in the proposed budget is limited to the Article V Revenue Estimating Conference estimate, typically established in July each year. In addition, this section directs the corporation to certify the amounts of additional revenues necessary to fund the clerks' budgets.

This section also moves paragraph (h) of s. 28.35, F.S., which describes the budget process, to s. 28.36, F.S., which relates directly to the clerks' budget procedures. The changes to this language are discussed below in Section 3 of the analysis.

Section 3 amends s. 28.36, F.S., relating to the clerks' budget procedures. First, this section allows the corporation to certify the amount necessary to fund the clerks' expenditures if the corporation determines that total anticipated expenditures will exceed the Article V REC projection. This language mirrors language added in the section 2 of the bill.

Second, this section of the bill includes current provisions moved from s. 28.35(h), F.S., which directs the corporation to submit its budget and the clerks' budgets to the Legislative Budget Commission by August 1 of each year. Before October 1 each year, the commission shall approve, disapprove, or amend and approve the corporation's budget and the combined clerks' budgets or the budget of any individual clerk. If the commission fails to approve or amend and approve the budgets by October 1, the clerks continue to perform their court-related functions based on the budget from the previous county fiscal year.

Third, this section permits the commission to approve a budget that includes a deficit, meaning a budget in which the clerks' anticipated expenditures exceed the official Article V Revenue Estimating Conference revenue estimates and the corporation certifies that additional revenues are needed to perform court-related functions. The commission may approve a deficit budget if it determines that the budget is justified based on the budget information collected by the corporation under s. 28.35(2)(f), F.S. This includes information such as cost comparisons of similarly-situated counties, workload measure data, annual base budget information, and detailed explanations of expenditure increases that exceed 3% compared to the prior fiscal year.

Fourth, the section permits the corporation to request funds to address deficits. The corporation may request that the legislature approve an appropriation to the Clerks of the Court Trust Fund equal to the difference between the total clerk anticipated expenditures and total estimated revenues, not to exceed the budget approved by the commission. For example, at the time the clerks submit their budgets, the corporation certifies that the clerks' total expenditures are \$400

million and the Article V REC estimated revenues are \$380 million. The corporation may then certify that \$20 million in additional revenues are needed to fund the clerks' expenditures. If the commission agrees and approves a \$400 million budget, the corporation may request, during the next legislative session, an appropriation of \$20 million to address the deficit.

In addition, if the official revenue estimate is reduced from the estimate available when the commission approved the budget, the clerks may request that, during the next legislative session, the legislature approve general revenue to address the difference between the two revenue projections. For example, the official Article V REC estimate in July used to set the clerks' budget is \$400 million. A later Article V REC projection reduces that estimate to \$385 million. The bill language allows the corporation to submit a budget request, during the next session, for the \$15 million difference between the two estimates.

Section 4 amends s. 28.37, F.S., to direct court-related fines collected in this section to the clerks' fine and forfeiture fund in a similar manner to other remittances of fines, fees, and service charges in statutes. Currently, these revenues are deposited in the Public Records Modernization Trust Fund. The language also clarifies that these revenues are to be used for court-related functions like the clerks' other fines, fees, and service charges.

Codification of Juror Cost Reimbursement Language (Section 5)

Section 5 creates s. 40.29(5), F.S., to allow the clerk to receive reimbursement for juror costs. The 2016 Legislature appropriated \$11.7 million in recurring general revenue funds in the General Appropriations Act reimbursing the clerks for juror costs and jury-related personnel costs. The 2016 Legislature also passed an implementing bill provision that set forth the process for clerk reimbursement of juror costs, which only lasts for one fiscal year.²⁰ The language requires the clerks to send a quarterly estimate of juror costs to the Justice Administrative Commission. The Justice Administrative Commission determines the amount deemed necessary for payment to the clerks during the upcoming quarter and submits a request for payment to the Chief Financial Officer.

183 revenue projected to be received from fees, service charges,
184 costs, and fines for court-related functions during the fiscal
185 period covered by the budget. The anticipated expenditures must
186 be itemized as required by the corporation. If the corporation
187 determines that the clerks' total anticipated expenditures
188 exceed the clerks' total estimated revenues as determined by the
189 Revenue Estimating Conference, the corporation shall certify the
190 amount necessary to fund anticipated expenditures to the
191 Legislative Budget Commission as part of the budget process
192 pursuant to subsection (4).

193 (4)(a) Annually, on or before August 1, the corporation
194 shall submit to the Legislative Budget Commission, as provided
195 in s. 11.90, its proposed budget and the information described

199 approve, disapprove, or amend and approve the corporation's
200 budget and shall approve, disapprove, or amend and approve the
201 total of the clerks' combined budgets or any individual clerk's
202 budget. The commission may approve a budget that includes an
203 anticipated deficit based on the official estimates of revenues

207 to approve or amend and approve the corporation's budget or the
208 clerks' combined budgets before October 1, the clerk shall
209 continue to perform the court-related functions based upon the
210 clerk's budget for the previous county fiscal year.

211 (b) The corporation may request that, during the next
212 legislative session, the Legislature approve an appropriation of
213 general revenue funds to the Clerks of the Court Trust Fund
214 within the Department of Revenue equal to the difference between
215 the clerks' total estimated expenditures and the total estimated
216 revenues, as provided in the proposed budgets. The total
217 spending authority requested may not exceed that established
218 pursuant to paragraph (a).

225 approve an appropriation of general revenue funds to the Clerks
226 of the Court Trust Fund within the Department of Revenue equal
227 to the difference between the most recent official estimate of
228 revenues and the clerks' combined budgets. The total spending
229 authority requested may not exceed that established pursuant to
230 paragraph (a).

I. Summary:

SB 2508 authorizes the Department of Management Services (DMS) to implement certain cost-savings measures related to the State Group Insurance Program. The two main cost-savings measures are the contract for a dependent eligibility verification audit and the implementation of formulary management practices of the State Employees' Prescription Drug Program.

In terms of the dependent eligibility audit, the DMS is required to put all enrollees of the State Group Health Insurance Plan on notice regarding the eligibility requirements for dependents. Through the next open enrollment period for the plan, enrollees can remove dependents who are no longer eligible for coverage. Beginning in December 2017, a contractor will begin the eligibility audits, requesting and reviewing documents on each dependent to ensure eligibility requirements have been met. The documents submitted for this audit must be retained until June 30, 2019. After that date, the documents are no longer useful and may be destroyed.

In terms of the implementation of formulary management, the DMS is permitted to submit recommendations to exclude prescription drugs and supplies from coverage during the next plan year. The DMS may also propose to move prescription drugs and supplies between copayment tiers each quarter. Each proposed change is subject to the notice, review, and objection procedures pursuant to section 216.177, Florida Statutes, which allows legislative oversight of budgetary actions.

The fiscal impact of this bill is indeterminate; however, the DMS anticipates that significant costs may be avoided by eliminating ineligible dependents, excluding certain high cost drugs when suitable lower cost alternatives exist, and implementing a managed formulary that may result in more rebates paid by pharmaceutical manufacturers.

II. Present Situation:

State Group Insurance Program

Overview

The State Group Insurance Program (state program) is created by s. 110.123, F.S., and is administered by the Division of State Group Insurance (DSGI) within the DMS. The state program is an optional benefit for all state employees including all state agencies, state universities, the court system, and the Legislature. The program includes health, life, dental, vision, disability, and other supplemental insurance benefits.

State Health Insurance Plans

The state program provides four options for employees and retirees to choose as their health plan. The first two are the PPO Standard Health Plan and the PPO High Deductible Health Plan. These PPO plans are administered by Florida Blue as the third party administrator. The second two are the HMO Standard Health Plan and the HMO High Deductible Health Plan. The HMO plans are administered by Aetna, AvMed, and United Health Care as self-insured plans based on geographic regions of the state with two fully-insured HMO plans (Capital Health Plan and Florida Health Plan) offered in other areas of the state.

Florida Blue, as the third party administrator of the PPO Plans, receives an administrative services organization (ASO) fee for its work. For the 2016-2017 fiscal year, \$17.6 million is appropriated to pay this fee. With 83,829 enrollees and 77,594 covered dependents, this fee equates to roughly \$17.50 per enrollee per month.

Likewise, the HMOs (Aetna, AvMed, and United Health Care) that administer the self-insured HMO plans also receive an ASO fee. For the 2016-2017 fiscal year, \$28.1 million is appropriated for these providers. With a combined membership of 59,731 enrollees and 77,349 covered dependents, this combined fee equates to an average of \$39.20 per enrollee per month for these providers.

Capital Health Plan and Florida Health Plan administer fully-insured HMO plans where those entities bear the health claims risk. Their premiums charged to the DMS include the costs of administration. Combined, the membership of the fully-insured HMOs is 32,714 enrollees and 36,464 covered dependents.

Pharmacy Benefit

The state program also has a pharmacy benefit for members of the plan. The program covers all federal legend drugs (open formulary) for covered medical conditions, and employs very limited utilization review and clinical review for traditional or specialty prescription drugs. Specialty drugs are high-cost prescription medications used to treat complex, chronic conditions such as cancer, rheumatoid arthritis and multiple sclerosis. Specialty drugs often require special handling (e.g., refrigeration during shipping) and administration (such as injection or infusion).

The federal out-of-pocket limit applies to members of the state group self-insured health plans and insured HMOs, all of which include prescription drug coverage. The prescription drugs and

supplies are placed in copayment tiers to determine the amount of the out-of-pocket costs the members must bear. The tiers are shown in the table below:

Tier	Standard Plans		High Deductible Plans	
	Copayment for Retail ¹ Pharmacy	Copayment for Mail Order ² Pharmacy	Coinsurance for Retail Pharmacy	Coinsurance for Mail Order Pharmacy
Generic	\$7	\$14	30%	30%
Preferred brand name drugs	\$30	\$60	30%	30%
Nonpreferred brand name drugs	\$50	\$100	50%	50%

CVS Caremark has contracted with the DMS to be the pharmacy benefit manager for most members of the state program. CVS Caremark receives about \$4.4 million annually to manage the prescription drug program. The table below shows the financial impact of the prescription drug program.

Employer and Employee Contributions

The monthly premium contributions paid by the employing state agencies and employees are established in the General Appropriations Act each year. The following chart shows the monthly contributions of the state and the employee for health insurance premium as of January 1, 2017. These premiums cover the cost of health claims as well as pharmacy claims.

Plan Enrollment

The state program has 366,681 covered lives and 176,274 policyholders. According to data submitted by the DMS, there are 78,806 spouses and 112,601 other covered dependents listed as covered dependents in the state plan's records.

Dependent Eligibility

The state program covers employees and retirees of state agencies and their eligible dependents. Based on the relationship to the member, a dependent may be eligible for coverage as:

- A current spouse to whom the member is legally married;
- A biological child or adopted child of the member through the calendar year in which the child turns age 26;
- A child of the member who is permanently mentally or physically disabled. The member's child may continue health insurance coverage after reaching 26 years of age if the child is unmarried and dependent on the member for care and financial support;
- A stepchild – a child of the member's current spouse through the calendar year in which the child turns age 26;
- A foster child placed in the member's home through the calendar year in which the child turns age 26;
- A newborn dependent of a member's covered child for up to 18 months of age as long as the newborn's parent remains covered; and
- An over-age dependent until the calendar year in which the child turns age 30, if unmarried.

Dependents may be added as covered dependents during open enrollment each year or in the event of a qualifying status change. Minimal information is collected by the DMS to determine eligibility.

III. Effect of Proposed Changes:

Section 1 amends s. 110.12301, F.S., to direct the DMS to contract with a vendor to verify the eligibility of all dependents participating in the state program. The DMS must notify all members of the Health Insurance Plan regarding the eligibility criteria for dependents. During the 2017 Open Enrollment period, members will have the opportunity to update their dependents – eliminating any that are no longer eligible for participation in the program.

Beginning December 2017 (after open enrollment has closed), the DMS' vendor will begin asking for documents to verify dependent eligibility. This section specifies certain information that the vendor may request to verify certain dependent relationships. The vendor is allowed to request additional records if the records are exempt from public inspection and copying. The section requires the submitted documents to be retained until July 1, 2019, but destroyed as soon as practicable thereafter.

Section 2 amends s. 110.12315, F.S., to update the state employee Prescription Drug Program. This section makes various changes to codify permanent changes made to the program since 2010 on an annual basis in the bill implementing the general appropriations act. These updates:

- Allow a retail pharmacy to fill 90-day supply for prescription drugs and supplies;

- Require the pharmacy dispensing fee to be negotiated by the DMS; and
- Continue the current drug copayment tiers and amounts at the current year levels rather than the higher copayment levels that would be applicable beginning July 1, 2017.

Section 2 also makes a major policy change to the prescription drug program by directing the DMS to formulary management. The section:

- Codifies the current DMS practice of moving drugs among the copayment tiers as necessary on a quarterly basis. However, under the bill, the DMS is required to provide information to the Governor and Legislature regarding the impacts to members and the health insurance plan. Adjustments to copayment tiers are allowed quarterly.
- Allows the DMS to implement a closed formulary, which allows some prescription drugs and supplies to be excluded from coverage under the program.
- To exclude a drug, the DMS must propose the exclusion and provide information regarding the impact on employees and the health insurance plan. The exclusion must be approved by the Governor's Office and is subject to objection by the presiding officers or the Legislative Budget Commission (LBC) chair and vice chair. New exclusions are allowed once a year unless the Legislature directs otherwise.

Section 3 repeals s. 8 of ch. 99-255, L.O.F., which had prohibited the use of a prior authorization program or a restricted formulary for members in the PPO Plan.

Section 4 provides that the act takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The fiscal impact of SB 2508 is indeterminate; however, the DMS anticipates that significant costs may be avoided by eliminating ineligible dependents, excluding certain high cost drugs when suitable lower cost alternatives exist, and implementing a managed formulary that may result in more rebates paid by pharmaceutical manufacturers.

SB 2500, the Senate's General Appropriations Act for the 2017-2018 fiscal year, appropriates up to \$1 million to contract for the dependent eligibility audits. The DMS has suggested that it would require a "claw back" provision in the contract to ensure that the savings resulting from the audit exceeds the \$1 million appropriation.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 110.12301 and 110.12315.

This bill repeals section 8 of chapter 99-255, Laws of Florida.

I. Summary:

SB 2510 makes confidential and exempt from public inspection and copying most documents submitted to the Department of Management Services or its vendor providing dependent eligibility verification services. If a document is collected by the department for another purpose and is not exempt in that situation, that same document submitted for dependent eligibility verification purposes will not be exempt from public inspection and copying.

The bill includes a constitutionally required public necessity statement. The exemption will stand repealed on October 2, 2022, pursuant to the Open Government Sunset Review Act, unless it is reenacted.

This bill requires a two-thirds vote from each chamber for passage.

The bill has no fiscal impact.

The bill takes effect on the same date that SB 2508 takes effect (July 1, 2017).

II. Present Situation:

Public Records Law

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.¹ This applies to the official business of any public body, officer or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.²

¹ FLA. CONST., art. I, s. 24(a).

² *Id.*

In addition to the Florida Constitution, the Florida Statutes provide that the public may access legislative and executive branch records.³ Chapter 119, F.S., constitutes the main body of public records laws, and is known as the Public Records Act.⁴ The Public Records Act states that

[i]t is the policy of this state that all state, county and municipal records are open for personal inspection and copying by any person. Providing access to public records is a duty of each agency.⁵

According to the Public Records Act, a public record includes virtually any document or recording, regardless of its physical form or how it may be transmitted.⁶ The Florida Supreme Court has interpreted public records as being “any material prepared in connection with official agency business which is intended to perpetuate, communicate or formalize knowledge of some type.”⁷ A violation of the Public Records Act may result in civil or criminal liability.⁸

The Legislature may create an exemption to public records requirements.⁹ An exemption must pass by a two-thirds vote of both the House and the Senate.¹⁰ In addition, an exemption must explicitly lay out the public necessity justifying the exemption and must be no broader than necessary to accomplish the stated purpose of the exemption.¹¹ A statutory exemption that does not meet these criteria may be unconstitutional and may not be judicially saved.¹²

When creating a public records exemption, the Legislature may provide that a record is “confidential and exempt” or “exempt.”¹³ Records designated as “confidential and exempt” may be released by the records custodian only under the circumstances defined by the Legislature. Records designated as “exempt” are not required to be made available for public inspection, but may be released at the discretion of the records custodian under certain circumstances.¹⁴

³ The Public Records Act does not apply to legislative or judicial records. *Locke v. Hawkes*, 595 So. 2d 32 (Fla. 1992). Also see *Times Pub. Co. v. Ake*, 660 So. 2d 255 (Fla. 1995). The Legislature’s records are public pursuant to s. 11.0431, F.S. Public records exemptions for the Legislatures are primarily located in s. 11.0431(2)-(3), F.S.

⁴ Public records laws are found throughout the Florida Statutes.

⁵ Section 119.01(1), F.S.

⁶ Section 119.011(12), F.S., defines “public record” to mean “all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency.” Section 119.011(2), F.S., defines “agency” to mean as “any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency.”

⁸ Section 119.10, F.S. Public records laws are found throughout the Florida Statutes, as are the penalties for violating those laws.

Open Government Sunset Review Act

The Open Government Sunset Review Act (referred to hereafter as the “OGSR”) prescribes a legislative review process for newly created or substantially amended public records or open meetings exemptions.¹⁵ The OGSR provides that an exemption automatically repeals on October 2nd of the fifth year after creation or substantial amendment; in order to save an exemption from repeal, the Legislature must reenact the exemption.¹⁶

The OGSR provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than is necessary.¹⁷ An exemption serves an identifiable purpose if it meets one of the following purposes *and* the Legislature finds that the purpose of the exemption outweighs open government policy and cannot be accomplished without the exemption:

- It allows the state or its political subdivision to effectively and efficiently administer a program, and administration would be significantly impaired without the exemption;¹⁸
- Releasing sensitive personal information would be defamatory or would jeopardize an individual’s safety. If this public purpose is cited as the basis of an exemption, however, only personal identifying information is exempt;¹⁹ or
- It protects trade or business secrets.²⁰

The OGSR also requires specified questions to be considered during the review process.²¹ In examining an exemption, the OGSR asks the Legislature to carefully question the purpose and necessity of reenacting the exemption.

If, in reenacting an exemption, the exemption is expanded, then a public necessity statement and a two-thirds vote for passage are required.²² If the exemption is reenacted without substantive changes or if the exemption is narrowed, then a public necessity statement and a two-thirds vote for passage are *not* required. If the Legislature allows an exemption to sunset, the previously exempt records will remain exempt unless provided for by law.²³

¹⁵ Section 119.15, F.S. Section 119.15(4)(b), F.S., provides that an exemption is considered to be substantially amended if it is expanded to include more information or to include meetings. The OGSR does not apply to an exemption that is required by federal law or that applies solely to the Legislature or the State Court System pursuant to s. 119.15(2), F.S.

¹⁶ Section 119.15(3), F.S.

¹⁷ Section 119.15(6)(b), F.S.

¹⁸ Section 119.15(6)(b)1., F.S.

¹⁹ Section 119.15(6)(b)2., F.S.

²⁰ Section 119.15(6)(b)3., F.S.

²¹ Section 119.15(6)(a), F.S. The specified questions are:

1. What specific records or meetings are affected by the exemption?
2. Whom does the exemption uniquely affect, as opposed to the general public?
3. What is the identifiable public purpose or goal of the exemption?
4. Can the information contained in the records or discussed in the meeting be readily obtained by alternative means?
If so, how?
5. Is the record or meeting protected by another exemption?
6. Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?

²² FLA. CONST., art. I, s. 24(c).

²³ Section 119.15(7), F.S.

Current Relevant Public Record Exemptions

Personal identifying information of a dependent child²⁴ of a current or former officer or employee of an agency is exempt from public disclosure if the child is insured by an agency group insurance plan.²⁵

Social security number held by an agency are confidential and exempt from public disclosure.²⁶

Most birth records are confidential and exempt from public disclosure.²⁷

Papers and records of any governmental agency relating to adoptions are exempt from public disclosure.²⁸

The names of spouse and children of certain personnel are exempt from public disclosure.²⁹

Dependent Eligibility Verification Audit

Specific Appropriation 2086 of SB 2500, the Senate's General Appropriations Act for the 2017-2018 fiscal year, appropriates \$1 million to the Department of Management Services to contract for a dependent eligibility verification audit. SB 2508 directs the DMS to conduct the audit and provides the authority to request and receive certain documents. In the audit, the DMS or its vendor will be requesting various documents to verify dependent eligibility. The documents include tax transcripts from the Internal Revenue Service, marriage licenses, birth certificates, adoption documents, and other documents.

III. Effect of Proposed Changes:

This bill makes confidential and exempt from public inspection and copying most documents submitted to the Department of Management Services or its vendor providing dependent eligibility verification services. If a document is collected by the department for another purpose and is not exempt in that situation, that same document submitted for dependent eligibility verification purposes will not be exempt from public inspection and copying.

The bill includes a constitutionally required public necessity statement. The exemption will stand repealed on October 2, 2022, pursuant to the Open Government Sunset Review Act, unless it is reenacted.

This bill requires a two-thirds vote from each chamber for passage.

²⁵ Section 119.071(4)(b)2.a., F.S.

²⁶ Section 119.071(5)(a)5., F.S.

²⁷ Section 382.025, F.S.

²⁸ Section 63.162, F.S.

²⁹ Section 119.071(4), F.S. The personnel include law enforcement officers, investigative personnel at the departments of Financial Services and Business and Professional Regulation, state attorneys and statewide prosecutors, personnel involved in human resources, labor relations, and employee relations, code enforcement officers, guardians ad litem, juvenile justice workers, public defenders, agency inspector general staff, and others.

The bill takes effect on the same date that SB 2508 takes effect (July 1, 2017).

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

Vote Requirement

Article I, s. 24(c) of the State Constitution requires a two-thirds vote of the members present and voting for final passage of a newly created public record exemption. The bill creates a public record exemption; thus, it requires a two-thirds vote for final passage.

Public Necessity Statement

Article I, s. 24(c) of the State Constitution requires a public necessity statement for a newly created public record exemption. The bill creates a public record exemption and includes a public necessity statement.

Breadth of Exemption

Article I, s. 24(c) of the State Constitution requires a newly created public record exemption to be no broader than necessary to accomplish the stated purpose of the law. Based on the legislative findings in the statement of public necessity, the bill does not appear to be in conflict with this constitutional requirement.

A bill to be entitled

An act relating to public records; amending s. 110.12301, F.S.; creating an exemption from public records requirements for records collected for dependent eligibility verification services for the state group insurance program and held by the Department of Management Services; providing for construction; providing for future legislative review and repeal; providing a statement of public necessity; providing a contingent effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 110.12301, Florida Statutes, is amended to read:

110.12301 Competitive procurement of postpayment claims review services; public records exemption.—

(1) The Division of State Group Insurance is directed to competitively procure:

(a) ~~(1)~~ Postpayment claims review services for the state group health insurance plans established pursuant to s. 110.123. Compensation under the contract shall be paid from amounts identified as claim overpayments that are made by or on behalf of the health plans and that are recovered by the vendor. The vendor may retain that portion of the amount recovered as provided in the contract. The contract must require the vendor to maintain all necessary documentation supporting the amounts recovered, retained, and remitted to the division; and

(b) ~~(2)~~ A contingency-based contract for dependent

eligibility verification services for the state group insurance program; however, compensation under the contract may not exceed historical claim costs for the prior 12 months for the dependent populations disenrolled as a result of the vendor's services. The division may establish a 3-month grace period and hold subscribers harmless for past claims of ineligible dependents. The Department of Management Services shall submit budget amendments pursuant to chapter 216 in order to obtain budget authority necessary to expend funds from the State Employees' Group Health Self-Insurance Trust Fund for payments to the vendor as provided in the contract.

(2) Records collected for purposes of dependent eligibility verification services conducted for the state group insurance program, as authorized under paragraph (1) (b), and held by the department are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. This subsection does not apply to records that are otherwise open for inspection and copying which are held by the department for purposes other than for the performance of dependent eligibility verification services. This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2022, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. (1) The Legislature finds that it is a public necessity that records collected for purposes of dependent eligibility verification services conducted for the state group insurance program, authorized under s. 110.12301(1) (b), Florida Statutes, and held by the Department of Management Services be confidential and exempt from s. 119.07(1), Florida Statutes, and

59 s. 24(a), Article I of the State Constitution. Enrollment in the
 60 state group insurance program is available to all state
 61 employees, their children, their adult dependents, and, in
 62 certain circumstances, even their grandchildren. Eligible
 63 enrollees for the program include officers and employees from
 64 all three branches of state government and represent numerous
 65 professions. Employees are required to produce sensitive and
 66 personal information related to the state employees' and their
 67 dependents' health, finances, and personal relationships to
 68 verify their eligibility to participate in the state group
 69 insurance program. Eligibility verification can require state
 70 employees to produce a variety of documentation, including proof
 71 of marriages and divorces, child custody, children's education
 72 status, as well as the mental and medical records related to
 73 their children with disabilities. Absent the public records
 74 exemption, state employees subject to the verification process
 75 may be hesitant or less cooperative in producing documents or
 76 information out of fear that they or their families would be
 77 exposed to public ridicule or humiliation because the details of
 78 their personal lives would be subject to public disclosure.
 79 Personnel may also be uncooperative if they are concerned that
 80 they or their families may be exposed to public scorn or be
 81 subject to legal action for inappropriately or mistakenly
 82 claiming ineligible dependents. Protecting such information
 83 helps to protect state employees and their families from
 84 criminal or inappropriate use of their personal information.
 85 Enrollees and their families would be at increased risk of
 86 identity theft and fraud if the public had unfettered access to
 87 documents requested by the Department of Management Services to

88 verify dependent eligibility.
 89 (2) The Legislature further recognizes that some of the
 90 records produced to verify dependent eligibility are not exempt
 91 or confidential and exempt from public records requirements when
 92 held by other agencies under existing law. Through this act, the
 93 Legislature does not intend to make such records exempt or
 94 confidential and exempt from public records requirements other
 95 than for records held by the Department of Management Services
 96 for the express purpose of dependent eligibility verification.
 97 The verification program ensures that taxpayer money and
 98 resources of the state group insurance program are spent
 99 appropriately on eligible dependents. This exemption will
 100 promote effective and efficient administration of the program
 101 which would otherwise be significantly impaired without the
 102 exemption.
 103 Section 3. This act shall take effect on the same date that
 104 SB 2508 or similar legislation takes effect, if such legislation
 105 is adopted in the same legislative session or an extension
 106 thereof and becomes law.

- Disproportionate Share Hospital programs; and
- The Program for All-Inclusive Care for the Elderly (PACE).

The bill conforms health care statutes to the funding policies used in Senate Bill 2500, the Senate General Appropriations Act for Fiscal Year 2017-2018.

II. Present Situation:

The Medicaid Program

The Florida Medicaid program is a partnership between the federal and state governments. Each state operates its own Medicaid program under a state plan approved by the federal Centers for Medicare & Medicaid Services (CMS). The state plan outlines Medicaid eligibility standards, policies, and reimbursement methodologies.

Florida Medicaid is administered by the Agency for Health Care Administration (AHCA) and financed with federal and state funds. Approximately 4 million Floridians are currently enrolled

in Medicaid, and the program's estimated expenditures for the 2016-2017 fiscal year are over \$26.0 billion.¹

Eligibility for Florida Medicaid is based on a number of factors, including age, household or individual income, and assets. State Medicaid eligibility payment guidelines are provided in s. 409.903, F.S., (Mandatory Payments for Eligible Persons) and s. 409.904, F.S., (Optional Payments for Eligible Persons). Minimum coverage thresholds are established in federal law for certain population groups, such as children.

Statewide Medicaid Managed Care

Part IV of ch. 409, F.S., was created in 2011 by ch. 2011-134, L.O.F., and governs the Statewide Medicaid Managed Care program (SMMC). The SMMC, authorized under federal Medicaid waivers, is designed for the AHCA to issue invitations to negotiate² and competitively procure contracts with managed care plans in 11 regions of the state to provide comprehensive Medicaid coverage for most of the state's enrollees in the Medicaid program. SMMC has two components: managed medical assistance (MMA) and long-term care managed care (LTCMC).

The LTCMC component began enrolling Medicaid recipients in August 2013 and completed its statewide roll-out in March 2014. The MMA component began enrolling Medicaid recipients in May 2014 and finished its roll-out in August 2014. As of February 2017, 3.96 million Medicaid recipients were enrolled in an SMMC plan while 720,243 were enrolled in Medicaid on a fee-for-service basis.³

Voluntary Enrollment in LTC Managed Care

Some individuals who are enrolled in waiver programs or other coverages may enroll in the LTC program, but are not required to, and those include:

- Developmental Disabilities waiver program;
- Traumatic Brain and Spinal Cord Injury waiver;
- Project AIDS Care (PAC) waiver;
- Adult Cystic Fibrosis waiver;
- Program of All-Inclusive Care for the Elderly (PACE);
- Familial Dysautonomia waiver;
- Model waiver; or
- Other creditable coverage, excluding Medicare.⁴

Prior to the implementation of SMMC, at least 14 different waivers provided home and community based services (HCBS) to these same groups of beneficiaries, in both the voluntary and mandatory enrollment groups, at a cost of \$1.47 billion to state agencies in the Fiscal Year 2012-2013.⁵

Adult Cystic Fibrosis Waiver

The AHCA administers and the Department of Health (DOH) operates the waiver for individuals with a diagnosis of cystic fibrosis, a chronic, progressive, and terminal genetic disorder that affects a person's lungs and digestive system.⁶ To be eligible for the waiver, an individual must:

- Be 18 years of age or older;
- Be Medicaid eligible;
- Have a cystic fibrosis diagnosis; and
- Meet inpatient hospital level of care.⁷

The waiver includes services such as case management, counseling, skilled nursing, prescribed drugs, respite care, therapies, dental, meal delivery, and specialized medical equipment.⁸ There are approximately 140 people enrolled in this waiver.⁹

Project AIDS Care (PAC) Waiver

Preventing or delaying the institutionalizing through the promotion, maintenance, and optimization of the health of persons living with AIDS is the goal of the Project AIDS Care waiver. The waiver provides HCBS services to Medicaid eligible persons with a documented diagnosis of AIDS that choose to live at home or in the community.¹⁰

The PAC waiver provides services to recipients who:

- Are Medicaid eligible;
- Have an income of no more than 300 percent of the Social Security Income Federal Benefits Rate (approximately 222 percent of the federal poverty level);
- Have a diagnosis of Acquired Immune Deficiency Syndrome (AIDS);
- Have an AIDS-related opportunistic infection;
- Have been determined disabled by the Social Security Administration;
- Are not enrolled in a Medicaid managed care plan; and

- Meet hospital or nursing facility level of care.¹¹

The recipients enrolled in the PAC waiver are primarily receiving case management services while service utilization remains low due to the advances made over the past decade. The waiver facilitates coverage for Medicaid for those who might not otherwise have access. Some of the other services that are covered are chore services, home delivered meals, personal care, skilled nursing, specialized equipment and supplies, day health, and restorative massage.¹² Currently, approximately 7,800 people are enrolled in the PAC waiver.¹³

Traumatic Brain and Spinal Cord Injury Waiver

The Department of Health (DOH) operates the TBI/SCI waiver, which provides services for individuals with traumatic brain injuries and spinal cord injuries. To be eligible for the waiver, an individual must:

- Be 18 year of age or older;
- Be Medicaid eligible;
- Have one of the following injuries:
 - traumatic brain injury, defined as an insult to the skull, brain, or its covering from external trauma, which produces an altered state of consciousness or anatomic, motor, or sensory, or cognitive/behavioral deficits; or
 - spinal cord injury, defined as a lesion to the spinal cord or cauda equine resulting from external trauma with evidence of significant involvement of two of the following: motor deficit, sensory deficit, or bowel or bladder dysfunction;
- Meet nursing home level of care;
- Be referred to the state's Brain and Spinal Cord Injury Program's central registry in accordance with s. 381.75, F.S.¹⁴

Individuals enrolled in the waiver receive services and supports such as assistive technology, attendant care, counseling, life skills training, medical supplies, personal care, behavioral programming, and adaptive health and wellness.¹⁵

The TBI/SCI population is already eligible for enrollment in the LTC program as a voluntary population. Currently, approximately 300 people are enrolled in the TBI/SCI waiver with an additional 350 on the waitlist.¹⁶

Rural Hospitals

Part III of ch. 395, F.S., governs rural hospitals. A rural hospital is defined in s. 395.602(2)(e), F.S., as a licensed, acute care hospital having 100 or fewer licensed beds and an emergency room which is:

- The sole provider in a county with a population density no greater than 100 persons per square mile;
- An acute care hospital in a county with a population density no greater than 100 persons per square mile which is at least 30 minutes of travel time from any other acute care hospital in the same county;
- A hospital supported by a tax district or sub-district whose boundaries encompass an area of 100 persons or fewer per square mile;
- A hospital with a service area of fewer than 100 persons per square mile, with service area being defined as the fewest number of zip codes that account for 75 percent of the hospital’s discharges for the most recent five-year period; or
- A hospital designated as a critical access hospital under s. 408.07(15), F.S.¹⁷

An acute care hospital that has not previously been designated as a rural hospital and that meets the criteria of the definition will be granted rural hospital status upon submitting an application, including supporting documentation, to the Agency for Health Care Administration (AHCA).¹⁸

Currently, 28 hospitals meet the statutory definition of rural hospitals:

Rural hospitals are eligible to participate in Medicaid’s rural hospital financial assistance programs under s. 409.9116, F.S. Rural hospitals may also receive special consideration in the General Appropriations Act for Medicaid reimbursement due to their rural status.

Sole Community Hospitals

The federal Medicare program classifies a hospital as a “sole community hospital” based on criteria specified in title 42, s. 412.92, of the Code of Federal Regulations, including whether the hospital is situated in a federally-designated rural area, the hospital’s capacity, and the hospital’s distance from other hospitals. A sole community hospital is given special treatment and is eligible for payment adjustments from the Medicare program due to the federal government’s consideration of the hospital’s accessibility to residents of rural areas who have limited options for hospital services.

Florida contains seven sole community hospitals.²⁰ In 2014, the Legislature amended the definition of rural hospital to include hospitals classified as sole community hospitals having up to 340 licensed beds, beginning in the 2014-2015 fiscal year.²¹ Prior to the 2014-2015 fiscal year, two of Florida’s sole community hospitals did not qualify under Florida statutes as rural hospitals.²² The 2014 legislation had the effect of classifying all seven sole community hospitals as rural hospitals. However, one year later, the Legislature amended the definition once again to remove the provision added in 2014, which means the two sole community hospitals newly classified as rural in Fiscal Year 2014-2015 no longer meet the definition.

Disproportionate Share Hospital Programs

Federal law requires state Medicaid programs to make Disproportionate Share Hospital (DSH) payments to qualifying hospitals that serve a large number of Medicaid recipients and uninsured individuals. The federal government annually provides a limited DSH allotment to each state. States may appropriate these federal funds based on the amount of state dollars appropriated as matching funds for the federal DSH allotment, up to but not exceeding the federal limit. The legislature determines each year how DSH funds will be distributed to each eligible facility in the General Appropriations Act and according to parameters within the Florida Statutes.

For states to receive DSH payments, federal law requires states to submit an independent certified audit and an annual report to the secretary of the U.S. Department of Health and Human Services, describing DSH payments made to each DSH hospital. Florida law requires the AHCA

²⁰ The sole community hospitals in Florida are: Desoto Memorial Hospital (Arcadia); Doctors’ Memorial Hospital (Perry); Ed Fraser Memorial Hospital (MacClenny); Flagler Hospital (St. Augustine); Raulerson Hospital (Okeechobee); Jackson Hospital (Marianna); and Lower Keys Medical Center (Key West).

to use audited data from specified years to determine the amount of Medicaid and charity care to be used in calculating DSH payments.²³

Medicaid Nursing Home Reimbursement

AHCA currently reimburses nursing facility care using facility-specific, cost-based per diem rates. As of September 1, 2015, these rates are updated yearly. Prior to September 1st of each year, annual rates are calculated using inflated historical facility-specific cost information. The rates and reimbursements may be adjusted post-payment if cost reports for the timeframe in which services were rendered are audited or adjusted. For rate year 2016/17, which started on September 1, 2016, these per diem rates ranged from \$161.25 to \$308.35 per patient day. The unweighted (each facility counted once) average per diem was \$228.79. Thus, the facility with the lowest per diem receives 70 percent of the statewide average and the facility with the highest per diem receives 135 percent of the statewide average.

The nursing facility industry in Florida is sizeable and is heavily dependent on Medicaid reimbursement. As of September 1, 2016, there were 658 nursing facilities participating in the Florida Medicaid program. These nursing facilities account for a total of 81,835 beds, with an average of 124 beds per facility. These facilities account for over 26.35 million resident days a year, of which over 16 million, or 61 percent are Medicaid days, corresponding to a Medicaid daily census of approximately 44,070 individuals statewide. The number of beds per facility ranges from a minimum of 20 to a maximum of 438. Statewide, the average occupancy rate for a Medicaid participating nursing facility is 88 percent. The fiscal year 2016-2017 estimated total Medicaid spend for nursing facility care is approximately \$3.6 billion.

Since 2013, nearly all long term care for Florida Medicaid has been administered through Medicaid managed care. The managed care plans are required to pay nursing facilities the same rates that are calculated for Medicaid fee-for-service. The specific language that documents this requirement in the AHCA-to-managed care plan contract is,

“The Agency will set facility-specific payment rates based on the rate methodology outlined in the most recent version of the Florida Title XIX Long-term Care Reimbursement Plan. The Managed Care Plan shall pay nursing facilities an amount no less than the nursing facility specific payment rates set by the Agency and published on the Agency website. The Managed Care Plan shall use the published facility-specific rates as a minimum payment level for all payments.”

Thus, the calculated per diem rates currently apply to both the Medicaid fee-for-service and managed care programs.

Current statutory provisions specific to Medicaid reimbursement are found in s. 409.908(2), F.S. The Fiscal Year 2016-2017 General Appropriations Act (GAA) directed AHCA to explore a prospective payment system for Medicaid nursing facility reimbursement. The specific direction for the study directed AHCA to:

²³ See s. 409.911(2), F.S.

“...contract with an independent consultant to develop a plan to convert Medicaid payments for nursing facility services from a cost-based reimbursement methodology to a prospective payment system. The study shall identify steps necessary for the transition to be completed in a budget neutral manner.”

The legislation directed that the study be completed and submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than January 1, 2017. The legislative request also included a review of hospice rates, which are currently derived from nursing facility rates. The AHCA contracted with Navigant Consulting to complete this study. The report was submitted on December 29, 2016.²⁴

As noted above, the language in the 2016-2017 GAA required consideration of a prospective payment system that is not cost-based. The instructions also indicated that the new prospective payment method should be designed in a budget neutral manner in aggregate for the entire Medicaid nursing facility program. The report outlined the design of a new nursing facility payment method that is both prospective and budget neutral. The design described in the report took into consideration the impact of Medicaid reimbursement on nursing facilities and the unique circumstances for the nursing facility industry in Florida – most notably, the relatively high minimum staffing requirements. The payment method design also takes into consideration the goals of AHCA and feedback from the Florida nursing facility industry. AHCA’s goals for this new payment method were communicated via five meetings between Navigant and AHCA’s internal “Nursing home Prospective Payment System (NPPS) Governance Committee” which comprised all affected members of AHCA’s management team. Feedback from the Florida nursing facility industry was garnered over a six month period through six formal public meetings and from numerous less formal meetings with individual stakeholders.

The proposed new method described in report balances financial incentives for high quality care with incentives for efficiency. The payment method also attempts to provide fair and equitable payments for similar services. More specifically, the new payment method contains the following components:

- Standardized rates, some with pricing floors, for Direct Care, Indirect Care, and Operations components of per diems. This will reward facilities that operate and provide care most efficiently;
- Facility peer groupings, which account for higher costs in South Florida;
- A Quality Incentive Program, which uses quality metrics to increase reimbursement to high performing facilities. Facilities with, for example, low infection rates, high star ratings, Gold Seal status, and/or external industry quality accreditation can earn higher rates. The new system projects to provide approximately \$10 million in additional reimbursement to four star, five star, and Gold Seal facilities in the first year of implementation, given the quality scores we have modelled to date;
- A fair rental value property component, which pays a reasonable amount to providers for well-maintained and updated facilities;
- A transition period that allows facilities to adjust to the new incentive structure;

²⁴ See report entitled: Nursing Facility Payment Method Recommendations Report; prepared for Florida Agency for Health Care Administration by Navigant, on file with Appropriations Committee staff.

- No case mix adjustment; and
- Additional payments for specific high cost services to promote access to care.

With these outlined components, the report indicated that all providers have the opportunity to earn higher rates through demonstration of high quality and/or increased efficiency.

The report's recommendations reflected 18 decision areas, and a total of 28 options selected in these decision areas.

Mental Health and Substance Abuse

Mental illness creates enormous social and economic costs.²⁵ Unemployment rates for persons with mental disorders are high relative to the overall population.²⁶ People with severe mental illness have exceptionally high rates of unemployment, between 60 percent and 100 percent.²⁷ Mental illness increases a person's risk of homelessness in America threefold.²⁸ Studies show that approximately 33 percent of our nation's homeless live with a serious mental disorder, such as schizophrenia, for which they are not receiving treatment.²⁹ Often the combination of homelessness and mental illness leads to incarceration, which further decreases a person's chance of receiving proper treatment and leads to future re-offenses.³⁰

According to the National Alliance on Mental Illness (NAMI), approximately 50 percent of individuals with severe mental health disorders are affected by substance abuse.³¹ NAMI also estimates that 29 percent of all people diagnosed as mentally ill abuse alcohol or other drugs.³² When mental health disorders are left untreated, substance abuse is likely to increase. When substance abuse increases, mental health symptoms often increase as well or new symptoms may be triggered. This could also be due to discontinuation of taking prescribed medications or the contraindications for substance abuse and mental health medications. When taken with other medications, mental health medications can become less effective.³³

Mental illness affects millions of people in the United States each year. Only about 17% of adults in the United States are considered to be in a state of optimal mental health.³⁴

Significant social and economic costs are associated with mental illness. Persons diagnosed with a serious mental illness experience significantly higher rates of unemployment compared with the general population.³⁵

Mental Health and Substance Abuse Services in Florida

The Office of Substance Abuse and Mental Health (SAMH) is housed in the Department of Children and Families (DCF) and serves as the single state authority for mental health and substance abuse services. The Office of Substance Abuse and Mental Health administers a statewide system of safety-net services for substance abuse and mental health prevention, treatment, and recovery services. This system serves children and adults who are otherwise unable to obtain mental health and substance abuse treatment services. This group includes individuals who are eligible for Medicaid, Medicaid enrolled individuals who require services not covered under Florida Medicaid, and those who are not financially able to cover medical expenses independently.

Florida law requires DCF to implement a system of care to provide substance abuse treatment and mental health services as follows:

- Adults who have substance abuse disorders and a history of intravenous drug use;
- Individuals diagnosed as having co-occurring substance abuse and mental health disorders;
- Parents whose substance abuse disorder puts their children at risk for involvement in the dependency system;
- Individuals who have a substance abuse disorder and have been ordered by the court to receive treatment;
- Children at risk for initiating drug use;
- Children under state supervision;
- Children who have a substance abuse disorder but who are not under the supervision of a court or in the custody of a state agency; and
- Individuals identified as being part of a priority population as a condition for receiving services funded through federal Substance Abuse Treatment and Prevention Block Grants.

The DCF's system of care is required to prevent and remediate the consequences of substance abuse for persons with substance abuse disorders through the provision of a comprehensive continuum of accessible and quality substance abuse prevention, intervention, and treatment services in the least restrictive environment of optimum care (see s. 394.67, F.S.). The system of care is comprised of the following broad categories of substance abuse services:

- Prevention services,
- Assessment services,
- Intervention services,
- Rehabilitation services, and
- Ancillary services, including:
 - Self-help and other support groups and activities;
 - Aftercare provided in a structured, therapeutic environment;
 - Supported housing;

- Supported employment;
- Vocational services; and
- Educational services.

In 2008, the legislature required the department to implement a system of behavioral health managing entities that would serve as regional agencies to manage and pay for mental health and substance abuse services.³⁶ Prior to this time, the department, through its regional offices, contracted directly with behavioral health service providers. The legislature found that a management structure that places the responsibility for publicly-financed behavioral health treatment and prevention services within a single private, nonprofit entity at the local level would promote improved access to care, promote service continuity, and provide for more efficient and effective delivery of substance abuse and mental health services. There are currently seven managing entities across the state.³⁷

The SMMC program requires the AHCA to create an integrated managed care program for Medicaid enrollees to provide all the mandatory and optional Medicaid benefits for primary and acute care through a Managed Medical Assistance (MMA) program. Behavioral health care is covered by Medicaid managed care plans for MMA program enrollees.

Mental Health and Substance Abuse Revenue Maximization

Section 394.761, F.S., requires AHCA and the Department of Children and Families (DCF) to develop a plan to obtain federal approval for increasing the availability of federal Medicaid funding for behavioral health care. The plan was provided December 31, 2016, and identified the funding appropriated for mental health and substance abuse services that could be used as state Medicaid match to increase federal funding.³⁸ The plan also evaluated alternative uses of increased Medicaid funding and identified the advantages and disadvantages of each alternative.

According to the report, DCF has identified \$412,411,814 in general revenue funding appropriated during fiscal year 2016-2017 for mental health and substance abuse services that may be eligible to be used as state match to receive additional Medicaid funding depending on the delivery system enhancements implemented.

DCF is currently spending general revenue funds on these services for individuals with serious mental illness or substance use disorder. DCF offers several services that are funded above the service level provided under Florida Medicaid. Such services include: assessments, group and individual therapy, day treatment, medical services, case management, substance abuse inpatient detoxification, and inpatient hospital services.

Eliminating the service limitations that are in place under Florida Medicaid for these eight services provided by DCF would eliminate the need for Medicaid recipients to access these services through the managing entities. If AHCA is directed to cover these services, the receipt

of federal matching funds would free up general revenue. AHCA would be eligible to receive approximately 60 percent of the cost of services provided from the federal government. This would make it possible to replace prior general revenue expenditures on those services provided through the managing entities.

DCF also offers certain services that are not covered at all under Florida Medicaid using state general revenue funding. The most heavily used of these services by Medicaid recipients are: residential services, room and board with supervision, incidental expenses, crisis stabilization, residential detoxification, supportive housing and supportive employment. AHCA could pursue authority through a Section 1115 waiver to provide these non-covered services through the managing entities to Medicaid recipients contending with a serious mental illnesses or substance use disorder.

Other options to be considered by AHCA to increase Medicaid funding for Medicaid enrollees with Chronic Mental Illness and Substance Use Disorders include:

- Adjustment of the capitation rate for Medicaid enrollees
- Increase reimbursement rates for behavioral health services
- Increase reimbursement rates to providers through incentive payments
- Make supplemental payments to providers
- Use of intergovernmental transfers from counties, local taxing districts, county health departments, publicly funded hospitals, and in some cases other state agencies to AHCA
- Use certified public expenditures to draw down federal funds to account for uncompensated costs for medical care provided to Medicaid recipients
- Create designated state health programs to provide safety-net health care services for low-income or uninsured individuals.

Program of All-Inclusive Care for the Elderly (PACE)

PACE is a capitated benefit model³⁹ authorized by the federal Balanced Budget Act of 1997 that features a comprehensive service delivery system and integrated federal Medicare and state Medicaid financing. The model was tested through the federal Centers for Medicare and Medicaid Services (CMS) demonstration projects that began in the mid-1980s. The PACE model was developed to address the needs of long-term care clients, providers, and payers.

For most participants, the comprehensive service package permits them to continue living at home while receiving services rather than receiving services in other more costly long term care settings. Capitated financing allows providers to deliver all the services that participants need rather than being limited to those services reimbursable under the Medicare and Medicaid fee-for-service systems.

The Balanced Budget Act of 1997 established the PACE model of care as a permanent entity within the Medicare program and enabled states to provide the PACE services to Medicaid recipients as a state option without a Medicaid waiver. The state plan must include PACE as an

³⁹ Under such a model, the contracted provider entity is paid a set dollar amount per month to see patients regardless of how many treatments or the number of services the patient receives. The agreement is that the provider will get a flat, prearranged payment in advance per member per month.

optional Medicaid benefit before the state and federal governments can enter into program agreements with PACE providers.

A PACE organization is a not-for-profit private or public entity that is primarily engaged in providing the PACE services and must:

- Have a governing board that includes community representation;
- Be able to provide the complete service package regardless of frequency or duration of services;
- Have a physical site to provide adult day services;
- Have a defined service area;
- Have safeguards against conflicts of interest;
- Have demonstrated fiscal soundness; and
- Have a formal participant bill of rights.

PACE is a unique federal/state partnership. The federal government establishes the PACE organization requirements and application process. The state Medicaid agency or other state agency is responsible for oversight of the entire application process, which includes reviewing the initial application and providing an on-sight readiness review before a PACE organization can be authorized to serve patients. An approved PACE organization must sign a contract with the CMS and the state Medicaid agency.

Florida PACE Project

The Florida PACE project is one project among many that provide alternative, long-term care options for elders who qualify for Medicare and the state Medicaid program. The PACE project was initially authorized in ch. 98-327, L.O.F., and was codified in s. 430.707(2), F.S. The PACE model targets individuals who would otherwise qualify for Medicaid nursing home placement and provides them with a comprehensive array of home and community based services at a cost less than the cost of nursing home care. The PACE project is administered by the Department of Elder Affairs in consultation with the AHCA.

In addition to receiving the necessary legislative authority, the development of a new PACE organization or the expansion of an existing program is a lengthy process that includes: identifying a service area, acquiring and renovating a PACE facility, and processing the PACE application through the state and the federal review systems.

PACE projects have been approved and are operational in several Florida counties, including Lee, Miami-Dade, Pinellas, Polk, Highlands, Hardee, Palm Beach, Manatee, Sarasota, Desoto, and Broward. Most recently, PACE projects have been approved and are in various stages of the application process in Escambia and surrounding counties, Duval and surrounding counties, and Lake, Orange, and Hillsborough counties.

Cigarette Tax: Biomedical Research

Section 210.20(c), F.S., provides for the payment of monthly distributions from 1.0 percent of the net cigarette tax collections received by the Division of Alcoholic Beverages and Tobacco in the Department of Business and Professional Regulation which are deposited into the Cigarette

Tax Collection Trust Fund and transferred to the Biomedical Research Trust Fund in the Department of Health. These funds are appropriated annually in an amount not to exceed \$3 million for the purpose of establishing activities and grant opportunities in relation to biomedical research. The Department of Health and the Sanford Burnham Prebys Medical Discovery Institute are required to use the funding to work in conjunction for these purposes.

Pediatric Cancer Research

According to the National Cancer Institute, cancer remains the leading cause of death from disease among children. The major types of cancers in children ages 0 to 14 years, which account for over half of pediatric cancer incidence, are:

- Acute lymphocytic leukemia;
- Brain and other central nervous system (CNS) tumors; and
- Neuroblastoma.⁴⁰

Pediatric cancer death rates have dropped considerably in the last several decades; however, even when long-term survival is achieved, many survivors of childhood cancer may experience long-term adverse effects from the disease or its treatment. Research is needed to develop treatments for childhood cancer that are more effective and safe for children.

Pediatric cancer is relatively uncommon, representing less than one percent of all new cases of cancer diagnosed in the United States each year.⁴¹ This presents a major challenge in conducting pediatric cancer research, especially considering the unique nature of certain types of pediatric cancers with respect to the types of cancer that present in children compared to adults and the need for less toxic treatments that cause fewer adverse effects.

Pediatric clinical trials are an essential component of the research process that ensures new treatments are found to be safe and effective in treating disease before the treatment is made widely available to patients. The substantial progress that has been made in identifying curative therapies for pediatric cancers is directly attributable to the success of clinical trials.⁴² Strong collaboration amongst pediatric cancer centers is vital to the continued success of clinical trials due to the unique nature, and low prevalence, of many types of pediatric cancers. Securing adequate funding to support pediatric cancer research and clinical trials is a challenge.

In 2014, pediatric cancer research awarded by the National Institutes of Health totaled approximately \$200 million,⁴³ which represented only 5.9 percent of the total funding allocated for research.⁴⁴ Florida received a fraction of the total amount awarded for pediatric cancer research with only \$8,498,573 awarded to Florida-based institutions in 2014.⁴⁵

Bankhead-Coley Program

In 2006, the Legislature created the William G. “Bill” Bankhead, Jr., and David Coley Cancer Research Program (Bankhead-Coley Program) within the Department of Health (DOH). The purpose of the program was to advance progress towards cures for cancer through grant awards.

The funds are distributed as grants to researchers seeking cures for cancer, with emphasis given to the efforts that significantly expand cancer research capacity in the state.⁴⁶ The goals of the Bankhead-Coley Program are to expand significantly cancer research capacity and cancer treatment in the state by:

- Identifying ways to attract new research talent and attendant national grant-producing researchers to cancer research facilities in this state;
- Implementing a peer-reviewed, competitive process to identify and fund the best proposals to expand cancer research institutes in this state;
- Funding, through available resources, proposals that demonstrate the greatest opportunity to attract federal research grants and private financial support;
- Encouraging the employment of bioinformatics in order to create a cancer informatics infrastructure that enhances information and resource exchange and integration through researchers working in diverse disciplines to facilitate the full spectrum of cancer investigations;
- Facilitating the technical coordination, business development, and support of intellectual property as it relates to the advancement of cancer research;
- Aiding in other multidisciplinary, research-support activities for the advancement of cancer research;
- Improving both research and treatment through greater participation in clinical trials networks; and
- Reducing the impact of cancer on disparate groups.

The Biomedical Research Advisory Council (BRAC) is responsible for assisting in developing guidelines for fairness, neutrality, principles of merit, and quality in the conduct of the Bankhead-Coley Program, and develops guidelines, criteria and standards for the solicitation, review, and award of research grants and fellowships.⁴⁷

The Bankhead-Coley Program distributes multi-year grant awards based on the recommendation of the State Surgeon General, after consultation with the BRAC.⁴⁸ Unspent awards are deposited back into the Biomedical Research Trust Fund after five years.⁴⁹ Any university or research institute in Florida may apply for grant funding to support the goals of the Bankhead-Coley Program. All qualified investigators in the state, regardless of the institution, have an equal opportunity to compete for funding. The following types of applications may be considered for funding:

- Investigator-initiated research grants;
- Institutional research grants; and

- Collaborative research grants, including those that advance the finding of cures through basic or applied research.⁵⁰

In Fiscal Year 2016-2017, the Bankhead-Coley Program received \$10 million from funds in the Biomedical Research Trust Fund.⁵¹

The Department of Health has experience with other research programs besides the Bankhead-Coley Cancer Research Program, such as the James and Esther King Biomedical Research Program for tobacco-related diseases, and the Ed and Ethel Moore Alzheimer's Disease research program.

Research that has resulted from Bankhead-Coley and other DOH biomedical research programs has been leveraged by Florida-based researchers to bring in an additional \$260 million of federal funding to our state.⁵²

The appropriation of additional funding for pediatric cancer research hopefully will result in a similar return on investment seen with other biomedical research programs recently established by the legislature, such as the Ed and Ethel Moore Alzheimer's Disease Research Program. Federal funding for Alzheimer's research in our state increased by over \$10 million in 2015, making Florida the 7th highest funded state, up from 12th the year before.⁵³

III. Effect of Proposed Changes:

Section 1 amends s. 212.20(2)(c), F.S., relating to the distribution of cigarette tax revenue for biomedical research purposes, to redirect the cigarette tax distribution funds that would otherwise be used for the Sanford Burnham Prebys Medical Discovery Institute for distribution to National Cancer Institute research entities under s. 381.915, F.S., for advancement of cures for cancers impacting pediatric populations through basic or applied research, including but not limited to, clinical, trials and nontoxic drug discovery.

Section 2 amends s. 381.922 (2), F.S., relating to the Bankhead-Coley Cancer Research Program, and specifically grants thereunder, to stipulate that efforts to improve both research and treatment through greater participation in clinical trials networks shall include identifying ways to increase pediatric and adult enrollment in clinical trials. In addition, the Live Like Bella Initiative is created within the Bankhead-Coley Program to advance progress toward curing pediatric cancer by awarding grants according to the peer-reviewed, competitive process established under subsection (3) of this section. The implementation of this new initiative is subject to an annual appropriation.

Section 3 amends s. 394.9082, F.S., relating to behavioral health managing entities, to provide for a Substance Abuse and Mental Health (SAMH) Safety Net Network. The Department of Children and Families (DCF) and the Agency for Health Care Administration (AHCA) are

directed to establish the SAMH Network by adding specific services currently provided by managing entities to the state Medicaid plan and by adjusting the amount of units of services for specific Medicaid services to better serve target populations. The DCF is directed to submit general revenue expenditure documentation to the agency for state match for services and for the agency to pay managing entities the federal Medicaid share for services rendered. The state share of funding for implementation of these provisions is to be re-directed general revenue funds in the DCF that are used to fund SAMN services, excluding residential services. The need for these state-only funds will be offset by the infusion of federal funds made available to the Safety Net.

Section 4 directs the AHCA, in conjunction with DCF, to seek federal authority for administrative claiming for Community Action Teams and Family Intensive Treatment Teams, for Community Based Care case management activities, and central receiving facilities.

Section 5 directs DCF, in collaboration with AHCA, to document the extent to which local funding is used for behavioral health services, and directs AHCA to seek federal matching funds for this local contribution as certified public expenditures.

Section 6 amends s. 395.602, F.S., to provide that a hospital classified as a sole community hospital is included in the definition of “rural hospital” regardless of its bed size.

Section 7 amends s. 409.904(11), F.S., to expand optional payments for eligible persons in Medicaid, to add as a person for whom Medicaid payment may be made someone who meets the following criteria: a person who is diagnosed with acquired immune deficiency syndrome (AIDS); who has an AIDS-related opportunistic infection and is at risk of hospitalization; and whose income is at or below 300 percent of the federal benefit rate.

Section 8 amends s. 409.908, F.S., relating to reimbursement of Medicaid providers, to direct that, beginning October 1, 2017, and ending September 30, 2020, the Agency reimburse nursing home providers the greater of their September 2016 cost-based reimbursement rate or their prospective payment rate. Effective October 1, 2020, the Agency shall reimburse providers the greater of 95 percent of their cost-based rate or their rebased prospective rate, using the most recently audited cost report for each facility. Pediatric, Florida Department of Veterans Affairs, and government-owned facilities are exempt from this new pricing model. Related provisions are modified to keep in place applicable rate-setting ceilings and targets for those facilities that remain on cost-based reimbursement. Changes are made for calculations of direct care costs, and other patient care costs. Prospective rates are to be rebased every four years, and direct care supplemental payments may be made under specified circumstances.

This section specifies that Medicaid reimbursement will be provided for deductibles and coinsurance for Medicare Part B services provided for mobile x-ray services rendered to a person who is Medicare and Medicaid dually eligible when such services are delivered in an assisted living facility or a home, just as such reimbursement is presently provided for a nursing home resident.

Section 9 amends s. 409.9082(4), F.S., relating to the uses of revenue generated by the quality assessment on nursing home facilities, to authorize as a use the partial funding of the quality incentive program for nursing facilities that exceed quality benchmarks, in lieu of use for that

portion for the facilities' rate not otherwise addressed by the subsection provisions relating to rate reduction and assessment amounts.

Section 10 amends s. 409.909, F.S., to modify the Statewide Medicaid Residency Program such that a qualifying institution, as defined under the program, may receive the same types of program payments as hospitals. Under the program, a qualifying institution is defined as a Federally Qualified Health Center which holds an Accreditation Council for Graduate Medical Education institutional accreditation.

Section 11 amends s. 409.911, F.S., relating to the Regular Disproportionate Share Program, to require the AHCA to use the average of the 2009, 2010, and 2011 audited disproportionate share hospital (DSH) data to determine each hospital's Medicaid days and charity care for the 2017-2018 fiscal year.

Section 12 amends s. 409.9119, F.S., to modify the specialty children's hospitals that qualify for funds under this section to include those that have a specific federal certification number, and meet Medicare and Medicaid day criteria. There is an update of the year referenced for fund distribution purposes.

Section 13 amends s. 409.913 (36), F.S., relating to oversight of the integrity of the Medicaid program and the sharing of explanation of medical benefits with service recipients, to authorize that such documents be shared with recipients on a sampling basis rather than to all recipients, other than the exemptions already provided from such distributions.

Section 14 amends s. 409.975, F.S., relating to managed care plan accountability, to direct AHCA to contract with the Safety Net to plan, coordinate, and contract for the delivery of certain community SAMN services. The contract must require the managing entities to provide specified services to Medicaid-eligible services. Prior to contracting, the AHCA, with participation by the DCF, shall conduct a readiness review based on specified criteria. The AHCA is directed to work with the DCF and the managing entities in developing rates for contracted services.

Section 15 amends s. 409.979, F.S., relating to eligibility for Long-term Care Managed Care program, to include those who meet hospital level of care for individuals with cystic fibrosis. In addition, this section specifies that those individuals enrolled in the Traumatic Brain and Spinal Cord Injury Waiver, the Adult Cystic Fibrosis Waiver, and the Project AIDS Care Waiver who meet all applicable criteria shall be transitioned to Long-term Care Managed Care program by January 1, 2018. Once all such persons have been transitioned out of their waiver, the agency may seek federal authorization to terminate these waivers.

Section 16 directs the AHCA, subject to federal approval to become a PACE site, to contract with an additional not-for-profit organization located in Miami-Dade County. The organization shall have a history of primarily serving the Hispanic community by providing primary care services, nutrition, meals, and adult day care to senior citizens. The applicant organization shall leverage existing community-based care providers and health care organizations to provide PACE services. The AHCA, in conjunction with the Department of Elder Affairs and subject to a subsequent appropriation, shall approve up to 250 initial enrollees in this PACE program.

Section 17, notwithstanding section 27 of chapter 2016-65, Florida Statutes, directs the AHCA, subject to federal approval to become a PACE site, to contract with a not-for-profit organization formed by a partnership with a not-for-profit hospital, not-for-profit agency serving seniors, and a not-for-profit hospice in Leon County. The organization is authorized to serve eligible enrollees in Leon, Jefferson, Gadsden, and Wakulla counties. The AHCA, in conjunction with the Department of Elder Affairs and subject to a subsequent appropriation, shall approve up to 300 initial enrollees in this PACE program.

Section 18 amends section 17 of chapter 2011-61, Laws of Florida, to authorize the existing PACE provider in Palm Beach County to expand services to eligible enrollees in Martin, St. Lucie, Okeechobee, and Indian River Counties. The initial 150 enrollees were residents of Palm Beach County, and the enrollment in Martin County can be up to 150 persons.

Section 19, effective June 30, 2017, amends section 9 of chapter 2016-65, Laws of Florida, which amended s. 409.905, F.S., relating to Medicaid mandatory services, to delay from July 1, 2017 to July 1, 2018, the implementation of a prospective payment system for Medicaid outpatient hospital services, referred to as enhanced ambulatory payment group (or EAPGs).

Section 20 amends section 29 of chapter 2016-65, Laws of Florida, to authorize the Lake County hospice-based PACE provider to expand services into the Orlando area with an initial enrollment of 150.

Section 21 directs the AHCA, subject to federal approval to become a PACE site, to contract with one not-for-profit organization that satisfies specific criteria to provide PACE services to frail and elderly persons who reside in Alachua County. The AHCA, in conjunction with the Department of Elder Affairs and subject to a subsequent appropriation, shall approve up to 150 initial enrollees in this PACE program.

Section 22 directs the AHCA, subject to federal approval to become a PACE site, to contract with an organization located in Miami-Dade County that owns and operates primary care medical centers in South Florida. The organization shall leverage its existing community-based providers to provide PACE services to frail elders who reside in Broward, Miami-Dade, and Palm Beach Counties. The AHCA, in conjunction with the Department of Elder Affairs and subject to a subsequent appropriation, shall approve up to 300 initial enrollees in this PACE program.

Section 23 provides that, except as otherwise expressly provided in the act, and this section, which shall take effect upon becoming law, the bill has an effective date of July 1, 2017.

185 Section 2. Subsection (2) of section 381.922, Florida
 186 Statutes, is amended to read:

187 381.922 William G. "Bill" Bankhead, Jr., and David Coley
 188 Cancer Research Program.—

189 (2) The program shall provide grants for cancer research to
 190 further the search for cures for cancer.

191 (a) Emphasis shall be given to the following goals, as
 192 those goals support the advancement of such cures:

193 1. Efforts to significantly expand cancer research capacity
 194 in the state by:

195 a. Identifying ways to attract new research talent and
 196 attendant national grant-producing researchers to cancer
 197 research facilities in this state;

198 b. Implementing a peer-reviewed, competitive process to
 199 identify and fund the best proposals to expand cancer research
 200 institutes in this state;

201 c. Funding through available resources for those proposals
 202 that demonstrate the greatest opportunity to attract federal
 203 research grants and private financial support;

576-02557C-17

20172514pb

204 d. Encouraging the employment of bioinformatics in order to
 205 create a cancer informatics infrastructure that enhances
 206 information and resource exchange and integration through
 207 researchers working in diverse disciplines, to facilitate the
 208 full spectrum of cancer investigations;

209 e. Facilitating the technical coordination, business
 210 development, and support of intellectual property as it relates
 211 to the advancement of cancer research; and

212 f. Aiding in other multidisciplinary research-support
 213 activities as they inure to the advancement of cancer research.

214 2. Efforts to improve both research and treatment through
 215 greater participation in clinical trials networks by:

216 a. Identifying ways to increase pediatric and adult
 217 enrollment in cancer clinical trials;

218 b. Supporting public and private professional education
 219 programs designed to increase the awareness and knowledge about
 220 cancer clinical trials;

221 c. Providing tools to cancer patients and community-based
 222 oncologists to aid in the identification of cancer clinical
 223 trials available in the state; and

224 d. Creating opportunities for the state's academic cancer
 225 centers to collaborate with community-based oncologists in
 226 cancer clinical trials networks.

227 3. Efforts to reduce the impact of cancer on disparate
 228 groups by:

229 a. Identifying those cancers that disproportionately impact
 230 certain demographic groups; and

231 b. Building collaborations designed to reduce health
 232 disparities as they relate to cancer.

576-02557C-17

20172514pb

233 (b) Preference may be given to grant proposals that foster
 234 collaborations among institutions, researchers, and community
 235 practitioners, as such proposals support the advancement of
 236 cures through basic or applied research, including clinical
 237 trials involving cancer patients and related networks.

238 (c) There is established within the program the Live Like
 239 Bella Initiative. The purpose of the initiative is to advance
 240 progress toward curing pediatric cancer by awarding grants
 241 through the peer-reviewed, competitive process established under
 242 subsection (3). This paragraph is subject to the annual
 243 appropriation of funds by the Legislature.

244 Section 3. Subsection (11) is added to section 394.9082,
 245 Florida Statutes, to read:

246 394.9082 Behavioral health managing entities.—

247 (11) SUBSTANCE ABUSE AND MENTAL HEALTH (SAMH) SAFETY NET
 248 NETWORK.—

249 (a) It is the intent of the Legislature to create the
 250 Substance Abuse and Mental Health (SAMH) Safety Net Network to
 251 support and enhance the community mental health and substance
 252 abuse services currently provided by managing entities. The SAMH
 253 Safety Net Network as used in this section means the managing
 254 entities and their contracted network of providers. Contracted
 255 providers are considered vendors and not subrecipients, as
 256 defined in s. 215.97. Managing entities and their contracted
 257 providers are not public employees for purposes of chapter 112.

258 (b) The department and the agency shall establish the SAMH
 259 Safety Net Network by adding specific behavioral health services
 260 currently provided by managing entities to the state Medicaid
 261 plan and adjusting the amount of units of services for specific

576-02557C-17

20172514pb

262 Medicaid services to better serve Medicaid-eligible individuals
 263 with severe and persistent mental health or substance use
 264 disorders, and their families, who are currently served by
 265 managing entities. It is the intent of the Legislature to have
 266 the department submit documentation of general revenue
 267 expenditures to the agency for the state match for the services
 268 and for the agency to pay managing entities the federal Medicaid
 269 portion for services provided.

270 1. Behavioral health services currently funded by managing
 271 entities through the substance abuse and mental health program
 272 shall be added by the agency to the state Medicaid plan through
 273 a state plan amendment. These services shall be provided
 274 exclusively through the providers contracted with the SAMH
 275 Safety Net Network. The department and the agency shall
 276 determine which services are essential for individuals served by
 277 managing entities through coordinated systems of care and which
 278 services will most efficiently use state and federal resources.

279 2. The state Medicaid plan currently limits the amount of
 280 behavioral health services that may be provided to a covered
 281 individual. However, the SAMH Safety Net Network is authorized
 282 to provide Medicaid reimbursable services beyond these limits
 283 when providing services, including, but not limited to,
 284 assessment, group therapy, individual therapy, psychosocial
 285 rehabilitation, day treatment, medication management,
 286 therapeutic onsite services, substance abuse inpatient or
 287 residential detoxification, inpatient hospital services, and
 288 crisis stabilization unit or as appropriate in lieu of services.

289 (c) The required general revenue matching funds for the
 290 services shall be derived from the existing unmatched general

576-02557C-17

20172514pb

291 revenue funds within the substance abuse and mental health
 292 program and documented through general revenue expenditure
 293 submissions by the department. The Medicaid reimbursement for
 294 services provided by the SAMH Safety Net Network shall be
 295 limited to the availability of general revenue matching funds
 296 within the substance abuse and mental health program for such
 297 purpose.

298 (d) Except as otherwise provided in this part, the state
 299 share of funds sufficient to implement the provisions of this
 300 act shall be redirected from existing general revenue funds in
 301 the department which are used for funding mental health and
 302 substance abuse services, excluding funding for residential
 303 services. The need for these state-only funds must be offset by
 304 the infusion of federal funds made available to the SAMH Safety
 305 Net Network under the provisions of this act.

306 Section 4. The Agency for Health Care Administration, in
 307 consultation with the Department of Children and Families, shall
 308 seek federal authorization for administrative claiming pursuant
 309 to the Medicaid Administrative Claiming program to fund:

310 (1) The department's team-based interventions, including,
 311 but not limited to, community action treatment teams and family
 312 intervention treatment teams, which focus on the entire family
 313 to prevent out-of-home placements in the child welfare,
 314 behavioral health, and criminal justice systems.

315 (2) Case managers employed by the department's child
 316 welfare community-based care lead agency who are responsible for
 317 locating, coordinating, and monitoring necessary and appropriate
 318 services extending beyond direct services for Medicaid-eligible
 319 children, including, but not limited to, outreach, referral,

320 eligibility determination, and case management.

321 (3) Central receiving facility services for individuals
 322 with mental health or substance use disorders.

323 Section 5. The Department of Children and Families, in
 324 collaboration with the Agency for Health Care Administration,
 325 shall document the extent to which behavioral health services
 326 are funded with contributions from units of local government.
 327 The agency shall seek federal authority to have these funds
 328 qualify for federal matching funds as certified public
 329 expenditures.

330 Section 6. Paragraph (e) of subsection (2) of section
 331 395.602, Florida Statutes, is amended to read:

332 395.602 Rural hospitals.—

333 (2) DEFINITIONS.—As used in this part, the term:

334 (e) "Rural hospital" means an acute care hospital licensed
 335 under this chapter, having 100 or fewer licensed beds and an
 336 emergency room, which is:

337 1. The sole provider within a county with a population
 338 density of up to 100 persons per square mile;

339 2. An acute care hospital, in a county with a population
 340 density of up to 100 persons per square mile, which is at least
 341 30 minutes of travel time, on normally traveled roads under
 342 normal traffic conditions, from any other acute care hospital
 343 within the same county;

344 3. A hospital supported by a tax district or subdistrict
 345 whose boundaries encompass a population of up to 100 persons per
 346 square mile;

347 4. A hospital classified as a sole community hospital under
 348 42 C.F.R. s. 412.92, regardless of the number of ~~which has up to~~

349 ~~175~~ licensed beds;

350 5. A hospital with a service area that has a population of
351 up to 100 persons per square mile. As used in this subparagraph,
352 the term "service area" means the fewest number of zip codes
353 that account for 75 percent of the hospital's discharges for the
354 most recent 5-year period, based on information available from
355 the hospital inpatient discharge database in the Florida Center
356 for Health Information and Transparency at the agency; or

357 6. A hospital designated as a critical access hospital, as
358 defined in s. 408.07.

359

360 Population densities used in this paragraph must be based upon
361 the most recently completed United States census. A hospital
362 that received funds under s. 409.9116 for a quarter beginning no
363 later than July 1, 2002, is deemed to have been and shall
364 continue to be a rural hospital from that date through June 30,
365 2021, if the hospital continues to have up to 100 licensed beds
366 and an emergency room. An acute care hospital that has not
367 previously been designated as a rural hospital and that meets
368 the criteria of this paragraph shall be granted such designation
369 upon application, including supporting documentation, to the
370 agency. A hospital that was licensed as a rural hospital during
371 the 2010-2011 or 2011-2012 fiscal year shall continue to be a
372 rural hospital from the date of designation through June 30,
373 2021, if the hospital continues to have up to 100 licensed beds
374 and an emergency room.

375 Section 7. Subsection (11) is added to section 409.904,
376 Florida Statutes, to read:

377 409.904 Optional payments for eligible persons.—The agency

Page 13 of 42

378 may make payments for medical assistance and related services on
379 behalf of the following persons who are determined to be
380 eligible subject to the income, assets, and categorical
381 eligibility tests set forth in federal and state law. Payment on
382 behalf of these Medicaid eligible persons is subject to the
383 availability of moneys and any limitations established by the
384 General Appropriations Act or chapter 216.

385 (11) Subject to federal waiver approval, a person diagnosed
386 with acquired immune deficiency syndrome (AIDS) who has an AIDS-
387 related opportunistic infection and is at risk of
388 hospitalization as determined by the agency and whose income is
389 at or below 300 percent of the Federal Benefit Rate.

390 Section 8. Subsections (2) and (14) of section 409.908,
391 Florida Statutes, are amended to read:

392 409.908 Reimbursement of Medicaid providers.—Subject to
393 specific appropriations, the agency shall reimburse Medicaid
394 providers, in accordance with state and federal law, according
395 to methodologies set forth in the rules of the agency and in
396 policy manuals and handbooks incorporated by reference therein.
397 These methodologies may include fee schedules, reimbursement
398 methods based on cost reporting, negotiated fees, competitive
399 bidding pursuant to s. 287.057, and other mechanisms the agency
400 considers efficient and effective for purchasing services or
401 goods on behalf of recipients. If a provider is reimbursed based
402 on cost reporting and submits a cost report late and that cost
403 report would have been used to set a lower reimbursement rate
404 for a rate semester, then the provider's rate for that semester
405 shall be retroactively calculated using the new cost report, and
406 full payment at the recalculated rate shall be effected

Page 14 of 42

407 retroactively. Medicare-granted extensions for filing cost
 408 reports, if applicable, shall also apply to Medicaid cost
 409 reports. Payment for Medicaid compensable services made on
 410 behalf of Medicaid eligible persons is subject to the
 411 availability of moneys and any limitations or directions
 412 provided for in the General Appropriations Act or chapter 216.
 413 Further, nothing in this section shall be construed to prevent
 414 or limit the agency from adjusting fees, reimbursement rates,
 415 lengths of stay, number of visits, or number of services, or
 416 making any other adjustments necessary to comply with the
 417 availability of moneys and any limitations or directions
 418 provided for in the General Appropriations Act, provided the
 419 adjustment is consistent with legislative intent.

420 (2) (a) 1. Reimbursement to nursing homes licensed under part
 421 II of chapter 400 and state-owned-and-operated intermediate care
 422 facilities for the developmentally disabled licensed under part
 423 VIII of chapter 400 must be made prospectively.

424 2. Unless otherwise limited or directed in the General
 425 Appropriations Act, reimbursement to hospitals licensed under
 426 part I of chapter 395 for the provision of swing-bed nursing
 427 home services must be made on the basis of the average statewide
 428 nursing home payment, and reimbursement to a hospital licensed
 429 under part I of chapter 395 for the provision of skilled nursing
 430 services must be made on the basis of the average nursing home
 431 payment for those services in the county in which the hospital
 432 is located. When a hospital is located in a county that does not
 433 have any community nursing homes, reimbursement shall be
 434 determined by averaging the nursing home payments in counties
 435 that surround the county in which the hospital is located.

Page 15 of 42

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

576-02557C-17

20172514pb

436 Reimbursement to hospitals, including Medicaid payment of
 437 Medicare copayments, for skilled nursing services shall be
 438 limited to 30 days, unless a prior authorization has been
 439 obtained from the agency. Medicaid reimbursement may be extended
 440 by the agency beyond 30 days, and approval must be based upon
 441 verification by the patient's physician that the patient
 442 requires short-term rehabilitative and recuperative services
 443 only, in which case an extension of no more than 15 days may be
 444 approved. Reimbursement to a hospital licensed under part I of
 445 chapter 395 for the temporary provision of skilled nursing
 446 services to nursing home residents who have been displaced as
 447 the result of a natural disaster or other emergency may not
 448 exceed the average county nursing home payment for those
 449 services in the county in which the hospital is located and is
 450 limited to the period of time which the agency considers
 451 necessary for continued placement of the nursing home residents
 452 in the hospital.

453 (b) Subject to any limitations or directions in the General
 454 Appropriations Act, the agency shall establish and implement a
 455 state Title XIX Long-Term Care Reimbursement Plan for nursing
 456 home care in order to provide care and services in conformance
 457 with the applicable state and federal laws, rules, regulations,
 458 and quality and safety standards and to ensure that individuals
 459 eligible for medical assistance have reasonable geographic
 460 access to such care.

461 1. The agency shall amend the long-term care reimbursement
 462 plan and cost reporting system to create direct care and
 463 indirect care subcomponents of the patient care component of the
 464 per diem rate. These two subcomponents together shall equal the

Page 16 of 42

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

576-02557C-17

20172514pb

465 patient care component of the per diem rate. Separate prices
 466 ~~cost-based ceilings~~ shall be calculated for each patient care
 467 subcomponent, initially based on the September 2016 rate setting
 468 cost reports and subsequently based on the most recently audited
 469 cost report used during a rebasing year. The direct care
 470 subcomponent of the per diem rate for any providers still being
 471 reimbursed on a cost basis shall be limited by the cost-based
 472 class ceiling, and the indirect care subcomponent may be limited
 473 by the lower of the cost-based class ceiling, the target rate
 474 class ceiling, or the individual provider target. The ceilings
 475 and targets apply only to providers being reimbursed on a cost-
 476 based system.

477 2. The direct care subcomponent shall include salaries and
 478 benefits of direct care staff providing nursing services
 479 including registered nurses, licensed practical nurses, and
 480 certified nursing assistants who deliver care directly to
 481 residents in the nursing home facility, allowable therapy costs,
 482 and dietary costs. This excludes nursing administration, staff
 483 development, the staffing coordinator, and the administrative
 484 portion of the minimum data set and care plan coordinators. The
 485 direct care subcomponent also includes medically necessary
 486 dental care, vision care, hearing care, and podiatric care.

487 3. All other patient care costs shall be included in the
 488 indirect care cost subcomponent of the patient care per diem
 489 rate, including complex medical equipment, medical supplies, and
 490 other allowable ancillary costs. Costs may not be allocated
 491 directly or indirectly to the direct care subcomponent from a
 492 home office or management company.

493 4. On July 1 of each year, the agency shall report to the

Page 17 of 42

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

576-02557C-17

20172514pb

494 Legislature direct and indirect care costs, including average
 495 direct and indirect care costs per resident per facility and
 496 direct care and indirect care salaries and benefits per category
 497 of staff member per facility.

498 5. Before December 31, 2017, the agency must establish a
 499 technical advisory council to assist in ongoing development and
 500 refining of the quality measures used in the nursing home
 501 prospective payment system. The advisory council must include,
 502 but need not be limited to, representatives of nursing home
 503 providers and other interested stakeholders. ~~In order to offset~~
 504 the cost of general and professional liability insurance, the
 505 agency shall amend the plan to allow for interim rate
 506 adjustments to reflect increases in the cost of general or
 507 professional liability insurance for nursing homes. This
 508 provision shall be implemented to the extent existing
 509 appropriations are available.

510 6. Every fourth year, the agency shall rebase nursing home
 511 prospective payment rates to reflect changes in cost based on
 512 the most recently audited cost report for each participating
 513 provider.

514 7. A direct care supplemental payment may be made to
 515 providers whose direct care hours per patient day are above the
 516 80th percentile and who provide Medicaid services to a larger
 517 percentage of Medicaid patients than the state average.

518 8. For the period beginning on October 1, 2017, and ending
 519 on September 30, 2020, the agency shall reimburse providers the
 520 greater of their September 2016 cost-based rate or their
 521 prospective payment rate. Effective October 1, 2020, the agency
 522 shall reimburse providers the greater of 95 percent of their

Page 18 of 42

576-02557C-17 20172514pb

523 cost-based rate or their rebased prospective payment rate, using
 524 the most recently audited cost report for each facility. This
 525 subsection shall expire September 30, 2022.

526 9. Pediatric, Florida Department of Veterans Affairs, and
 527 government-owned facilities are exempt from the pricing model
 528 established in this subsection and shall remain on a cost-based
 529 prospective payment system. Effective October 1, 2018, the
 530 agency shall set rates for all facilities remaining on a cost-
 531 based prospective payment system using each facility's most
 532 recently audited cost report, eliminating retroactive
 533 settlements.

534

535 It is the intent of the Legislature that the reimbursement plan
 536 achieve the goal of providing access to health care for nursing
 537 home residents who require large amounts of care while
 538 encouraging diversion services as an alternative to nursing home
 539 care for residents who can be served within the community. The
 540 agency shall base the establishment of any maximum rate of
 541 payment, whether overall or component, on the available moneys
 542 as provided for in the General Appropriations Act. The agency
 543 may base the maximum rate of payment on the results of
 544 scientifically valid analysis and conclusions derived from
 545 objective statistical data pertinent to the particular maximum
 546 rate of payment.

547 (14) Medicare premiums for persons eligible for both
 548 Medicare and Medicaid coverage shall be paid at the rates
 549 established by Title XVIII of the Social Security Act. For
 550 Medicare services rendered to Medicaid-eligible persons,
 551 Medicaid shall pay Medicare deductibles and coinsurance as

552 follows:

553 (a) Medicaid's financial obligation for deductibles and
 554 coinsurance payments shall be based on Medicare allowable fees,
 555 not on a provider's billed charges.

556 (b) Medicaid will pay no portion of Medicare deductibles
 557 and coinsurance when payment that Medicare has made for the
 558 service equals or exceeds what Medicaid would have paid if it
 559 had been the sole payor. The combined payment of Medicare and
 560 Medicaid shall not exceed the amount Medicaid would have paid
 561 had it been the sole payor. The Legislature finds that there has
 562 been confusion regarding the reimbursement for services rendered
 563 to dually eligible Medicare beneficiaries. Accordingly, the
 564 Legislature clarifies that it has always been the intent of the
 565 Legislature before and after 1991 that, in reimbursing in
 566 accordance with fees established by Title XVIII for premiums,
 567 deductibles, and coinsurance for Medicare services rendered by
 568 physicians to Medicaid eligible persons, physicians be
 569 reimbursed at the lesser of the amount billed by the physician
 570 or the Medicaid maximum allowable fee established by the Agency
 571 for Health Care Administration, as is permitted by federal law.
 572 It has never been the intent of the Legislature with regard to
 573 such services rendered by physicians that Medicaid be required
 574 to provide any payment for deductibles, coinsurance, or
 575 copayments for Medicare cost sharing, or any expenses incurred
 576 relating thereto, in excess of the payment amount provided for
 577 under the State Medicaid plan for such service. This payment
 578 methodology is applicable even in those situations in which the
 579 payment for Medicare cost sharing for a qualified Medicare
 580 beneficiary with respect to an item or service is reduced or

581 eliminated. This expression of the Legislature is in
 582 clarification of existing law and shall apply to payment for,
 583 and with respect to provider agreements with respect to, items
 584 or services furnished on or after the effective date of this
 585 act. This paragraph applies to payment by Medicaid for items and
 586 services furnished before the effective date of this act if such
 587 payment is the subject of a lawsuit that is based on the
 588 provisions of this section, and that is pending as of, or is
 589 initiated after, the effective date of this act.

590 (c) Notwithstanding paragraphs (a) and (b):

591 1. Medicaid payments for Nursing Home Medicare part A
 592 coinsurance are limited to the Medicaid nursing home per diem
 593 rate less any amounts paid by Medicare, but only up to the
 594 amount of Medicare coinsurance. The Medicaid per diem rate shall
 595 be the rate in effect for the dates of service of the crossover
 596 claims and may not be subsequently adjusted due to subsequent
 597 per diem rate adjustments.

598 2. Medicaid shall pay all deductibles and coinsurance for
 599 Medicare-eligible recipients receiving freestanding end stage
 600 renal dialysis center services.

601 3. Medicaid payments for general and specialty hospital
 602 inpatient services are limited to the Medicare deductible and
 603 coinsurance per spell of illness. Medicaid payments for hospital
 604 Medicare Part A coinsurance shall be limited to the Medicaid
 605 hospital per diem rate less any amounts paid by Medicare, but
 606 only up to the amount of Medicare coinsurance. Medicaid payments
 607 for coinsurance shall be limited to the Medicaid per diem rate
 608 in effect for the dates of service of the crossover claims and
 609 may not be subsequently adjusted due to subsequent per diem

611 4. Medicaid shall pay all deductibles and coinsurance for
 612 Medicare emergency transportation services provided by
 613 ambulances licensed pursuant to chapter 401.

614 5. Medicaid shall pay all deductibles and coinsurance for
 615 portable X-ray Medicare Part B services provided in a nursing
 616 home, in an assisted living facility, or in the patient's home.

617 Section 9. Subsection (4) of section 409.9082, Florida
 618 Statutes, is amended to read:

619 409.9082 Quality assessment on nursing home facility
 620 providers; exemptions; purpose; federal approval required;
 621 remedies.—

622 (4) The purpose of the nursing home facility quality
 623 assessment is to ensure continued quality of care. Collected
 624 assessment funds shall be used to obtain federal financial
 625 participation through the Medicaid program to make Medicaid
 626 payments for nursing home facility services up to the amount of
 627 nursing home facility Medicaid rates as calculated in accordance
 628 with the approved state Medicaid plan in effect on December 31,
 629 2007. The quality assessment and federal matching funds shall be
 630 used exclusively for the following purposes and in the following
 631 order of priority:

632 (a) To reimburse the Medicaid share of the quality
 633 assessment as a pass-through, Medicaid-allowable cost;

634 (b) To increase to each nursing home facility's Medicaid
 635 rate, as needed, an amount that restores rate reductions
 636 effective on or after January 1, 2008, as provided in the
 637 General Appropriations Act; and

638 (c) To partially fund the quality incentive payment program

644 Section 10. Section 409.909, Florida Statutes, is amended
 645 to read:

646 409.909 Statewide Medicaid Residency Program.—

647 (1) The Statewide Medicaid Residency Program is established
 648 to improve the quality of care and access to care for Medicaid
 649 recipients, expand graduate medical education on an equitable
 650 basis, and increase the supply of highly trained physicians
 651 statewide. The agency shall make payments to hospitals licensed
 652 under part I of chapter 395 and to qualifying institutions as
 653 defined in paragraph (2)(c) for graduate medical education
 654 associated with the Medicaid program. This system of payments is
 655 designed to generate federal matching funds under Medicaid and
 656 distribute the resulting funds to participating hospitals on a
 657 quarterly basis in each fiscal year for which an appropriation
 658 is made.

659 (2) On or before September 15 of each year, the agency
 660 shall calculate an allocation fraction to be used for
 661 distributing funds to participating hospitals and to qualifying
 662 institutions as defined in paragraph (2)(c). On or before the
 663 final business day of each quarter of a state fiscal year, the
 664 agency shall distribute to each participating hospital one-
 665 fourth of that hospital's annual allocation calculated under
 666 subsection (4). The allocation fraction for each participating
 667 hospital is based on the hospital's number of full-time

576-02557C-17 20172514pb

668 equivalent residents and the amount of its Medicaid payments. As
 669 used in this section, the term:

670 (a) "Full-time equivalent," or "FTE," means a resident who
 671 is in his or her residency period, with the initial residency
 672 period defined as the minimum number of years of training
 673 required before the resident may become eligible for board
 674 certification by the American Osteopathic Association Bureau of
 675 Osteopathic Specialists or the American Board of Medical
 676 Specialties in the specialty in which he or she first began
 677 training, not to exceed 5 years. The residency specialty is
 678 defined as reported using the current residency type codes in
 679 the Intern and Resident Information System (IRIS), required by
 680 Medicare. A resident training beyond the initial residency
 681 period is counted as 0.5 FTE, unless his or her chosen specialty
 682 is in primary care, in which case the resident is counted as 1.0
 683 FTE. For the purposes of this section, primary care specialties
 684 include:

- 685 1. Family medicine;
- 686 2. General internal medicine;
- 687 3. General pediatrics;
- 688 4. Preventive medicine;
- 689 5. Geriatric medicine;
- 690 6. Osteopathic general practice;
- 691 7. Obstetrics and gynecology;
- 692 8. Emergency medicine;
- 693 9. General surgery; and
- 694 10. Psychiatry.

695 (b) "Medicaid payments" means the estimated total payments
 696 for reimbursing a hospital for direct inpatient services for the

576-02557C-17

20172514pb

697 fiscal year in which the allocation fraction is calculated based
 698 on the hospital inpatient appropriation and the parameters for
 699 the inpatient diagnosis-related group base rate, including
 700 applicable intergovernmental transfers, specified in the General
 701 Appropriations Act, as determined by the agency. Effective July
 702 1, 2017, the term "Medicaid payments" means the estimated total
 703 payments for reimbursing a hospital and qualifying institutions
 704 as defined in paragraph (2)(c) for direct inpatient and
 705 outpatient services for the fiscal year in which the allocation
 706 fraction is calculated based on the hospital inpatient
 707 appropriation and outpatient appropriation and the parameters
 708 for the inpatient diagnosis-related group base rate, including
 709 applicable intergovernmental transfers, specified in the General
 710 Appropriations Act, as determined by the agency.

711 (c) "Qualifying institution" means a federally Qualified
 712 Health Center holding an Accreditation Council for Graduate
 713 Medical Education institutional accreditation.

714 (d) "Resident" means a medical intern, fellow, or resident
 715 enrolled in a program accredited by the Accreditation Council
 716 for Graduate Medical Education, the American Association of
 717 Colleges of Osteopathic Medicine, or the American Osteopathic
 718 Association at the beginning of the state fiscal year during
 719 which the allocation fraction is calculated, as reported by the
 720 hospital to the agency.

721 (3) The agency shall use the following formula to calculate
 722 a participating hospital's and qualifying institution's
 723 allocation fraction:

724
$$\text{HAF} = [0.9 \times (\text{HFTE}/\text{TFTE})] + [0.1 \times (\text{HMP}/\text{TMP})]$$

730

HFTE=A hospital's and qualifying institution's total number

732

TFTE=The total FTE residents for all participating

736

TMP=The total Medicaid payments for all participating
 737 hospitals and qualifying institutions.

738

739

(4) A hospital's and qualifying institution's annual
 740 allocation shall be calculated by multiplying the funds
 741 appropriated for the Statewide Medicaid Residency Program in the
 742 General Appropriations Act by that hospital's and qualifying
 743 institution's allocation fraction. If the calculation results in
 744 an annual allocation that exceeds two times the average per FTE
 745 resident amount for all hospitals and qualifying institutions,
 746 the hospital's and qualifying institution's annual allocation
 747 shall be reduced to a sum equaling no more than two times the
 748 average per FTE resident. The funds calculated for that hospital
 749 and qualifying institution in excess of two times the average
 750 per FTE resident amount for all hospitals and qualifying
 751 institutions shall be redistributed to participating hospitals
 752 and qualifying institutions whose annual allocation does not
 753 exceed two times the average per FTE resident amount for all
 754 hospitals and qualifying institutions, using the same

755 methodology and payment schedule specified in this section.
 756 (5) The Graduate Medical Education Startup Bonus Program is
 757 established to provide resources for the education and training
 758 of physicians in specialties which are in a statewide supply-
 759 and-demand deficit. Hospitals and qualifying institutions as
 760 defined in paragraph (2)(c) eligible for participation in
 761 subsection (1) are eligible to participate in the Graduate
 762 Medical Education Startup Bonus Program established under this
 763 subsection. Notwithstanding subsection (4) or an FTE's residency
 764 period, and in any state fiscal year in which funds are
 765 appropriated for the startup bonus program, the agency shall
 766 allocate a \$100,000 startup bonus for each newly created
 767 resident position that is authorized by the Accreditation
 768 Council for Graduate Medical Education or Osteopathic
 769 Postdoctoral Training Institution in an initial or established
 770 accredited training program that is in a physician specialty in
 771 statewide supply-and-demand deficit. In any year in which
 772 funding is not sufficient to provide \$100,000 for each newly
 773 created resident position, funding shall be reduced pro rata
 774 across all newly created resident positions in physician
 775 specialties in statewide supply-and-demand deficit.
 776 (a) Hospitals and qualifying institutions as defined in
 777 paragraph (2)(c) applying for a startup bonus must submit to the
 778 agency by March 1 their Accreditation Council for Graduate
 779 Medical Education or Osteopathic Postdoctoral Training
 780 Institution approval validating the new resident positions
 781 approved on or after March 2 of the prior fiscal year through
 782 March 1 of the current fiscal year for the physician specialties
 783 identified in a statewide supply-and-demand deficit as provided

784 in the current fiscal year's General Appropriations Act. An
 785 applicant hospital or qualifying institution as defined in
 786 paragraph (2)(c) may validate a change in the number of
 787 residents by comparing the number in the prior period
 788 Accreditation Council for Graduate Medical Education or
 789 Osteopathic Postdoctoral Training Institution approval to the
 790 number in the current year.
 791 (b) Any unobligated startup bonus funds on April 15 of each
 792 fiscal year shall be proportionally allocated to hospitals and
 793 to qualifying institutions as defined in paragraph (2)(c)
 794 participating under subsection (3) for existing FTE residents in
 795 the physician specialties in statewide supply-and-demand
 796 deficit. This nonrecurring allocation shall be in addition to
 797 the funds allocated in subsection (4). Notwithstanding
 798 subsection (4), the allocation under this subsection may not
 799 exceed \$100,000 per FTE resident.
 800 (c) For purposes of this subsection, physician specialties
 801 and subspecialties, both adult and pediatric, in statewide
 802 supply-and-demand deficit are those identified in the General
 803 Appropriations Act.
 804 (d) The agency shall distribute all funds authorized under
 805 the Graduate Medical Education Startup Bonus Program on or
 806 before the final business day of the fourth quarter of a state
 807 fiscal year.
 808 (6) Beginning in the 2015-2016 state fiscal year, the
 809 agency shall reconcile each participating hospital's total
 810 number of FTE residents calculated for the state fiscal year 2
 811 years before with its most recently available Medicare cost
 812 reports covering the same time period. Reconciled FTE counts

813 shall be prorated according to the portion of the state fiscal
814 year covered by a Medicare cost report. Using the same
815 definitions, methodology, and payment schedule specified in this
816 section, the reconciliation shall apply any differences in
817 annual allocations calculated under subsection (4) to the
818 current year's annual allocations.

819 (7) The agency may adopt rules to administer this section.

820 Section 11. Paragraph (a) of subsection (2) of section
821 409.911, Florida Statutes, is amended, and paragraph (b) of that
822 subsection is republished, to read:

823 409.911 Disproportionate share program.—Subject to specific
824 allocations established within the General Appropriations Act
825 and any limitations established pursuant to chapter 216, the
826 agency shall distribute, pursuant to this section, moneys to
827 hospitals providing a disproportionate share of Medicaid or
828 charity care services by making quarterly Medicaid payments as
829 required. Notwithstanding the provisions of s. 409.915, counties
830 are exempt from contributing toward the cost of this special
831 reimbursement for hospitals serving a disproportionate share of
832 low-income patients.

833 (2) The Agency for Health Care Administration shall use the
834 following actual audited data to determine the Medicaid days and
835 charity care to be used in calculating the disproportionate
836 share payment:

837 (a) The average of the 2009, 2010, and 2011 ~~2007, 2008, and~~
838 ~~2009~~ audited disproportionate share data to determine each
839 hospital's Medicaid days and charity care for the 2017-2018
840 ~~2015-2016~~ state fiscal year.

841 (b) If the Agency for Health Care Administration does not

842 have the prescribed 3 years of audited disproportionate share
843 data as noted in paragraph (a) for a hospital, the agency shall
844 use the average of the years of the audited disproportionate
845 share data as noted in paragraph (a) which is available.

846 Section 12. Section 409.9119, Florida Statutes, is amended
847 to read:

848 409.9119 Disproportionate share program for specialty
849 hospitals for children.—In addition to the payments made under
850 s. 409.911, the Agency for Health Care Administration shall
851 develop and implement a system under which disproportionate
852 share payments are made to those hospitals that are separately
853 licensed by the state as specialty hospitals for children, have
854 a federal Centers for Medicare and Medicaid Services
855 certification number in the 3300-3399 range, have Medicaid days
856 that exceed 55 percent of their total days and Medicare days
857 that are less than 5 percent of their total days, and were
858 licensed on January 1, 2012 ~~January 1, 2000~~, as specialty
859 hospitals for children. This system of payments must conform to
860 federal requirements and must distribute funds in each fiscal
861 year for which an appropriation is made by making quarterly
862 Medicaid payments. Notwithstanding s. 409.915, counties are
863 exempt from contributing toward the cost of this special
864 reimbursement for hospitals that serve a disproportionate share
865 of low-income patients. The agency may make disproportionate
866 share payments to specialty hospitals for children as provided
867 for in the General Appropriations Act.

868 (1) Unless specified in the General Appropriations Act, the
869 agency shall use the following formula to calculate the total
870 amount earned for hospitals that participate in the specialty

874

875 Where:

876 TAE = total amount earned by a specialty hospital for
877 children.

878 DSR = disproportionate share rate.

879 BMPD = base Medicaid per diem.

880 MD = Medicaid days.

881

882 (2) The agency shall calculate the total additional payment
883 for hospitals that participate in the specialty hospital for
884 children disproportionate share program as follows:

885

886 $TAP = (TAE \times TA) \div STAE$

887

888 Where:

889 TAP = total additional payment for a specialty hospital for
890 children.

891 TAE = total amount earned by a specialty hospital for
892 children.

893 TA = total appropriation for the specialty hospital for
894 children disproportionate share program.

895 STAE = sum of total amount earned by each hospital that
896 participates in the specialty hospital for children
897 disproportionate share program.

898

899 (3) A hospital may not receive any payments under this

900 section until it achieves full compliance with the applicable
901 rules of the agency. A hospital that is not in compliance for
902 two or more consecutive quarters may not receive its share of
903 the funds. Any forfeited funds must be distributed to the
904 remaining participating specialty hospitals for children that
905 are in compliance.

906 (4) Notwithstanding any provision of this section to the
907 contrary, for the 2017-2018 ~~2016-2017~~ state fiscal year, for
908 hospitals achieving full compliance under subsection (3), the
909 agency shall make disproportionate share payments to specialty
910 hospitals for children as provided in the 2017-2018 ~~2016-2017~~
911 General Appropriations Act. This subsection expires July 1, 2018
912 ~~2017~~.

913 Section 13. Subsection (36) of section 409.913, Florida
914 Statutes, is amended to read:

915 409.913 Oversight of the integrity of the Medicaid
916 program.—The agency shall operate a program to oversee the
917 activities of Florida Medicaid recipients, and providers and
918 their representatives, to ensure that fraudulent and abusive
919 behavior and neglect of recipients occur to the minimum extent
920 possible, and to recover overpayments and impose sanctions as
921 appropriate. Beginning January 1, 2003, and each year
922 thereafter, the agency and the Medicaid Fraud Control Unit of
923 the Department of Legal Affairs shall submit a joint report to
924 the Legislature documenting the effectiveness of the state's
925 efforts to control Medicaid fraud and abuse and to recover
926 Medicaid overpayments during the previous fiscal year. The
927 report must describe the number of cases opened and investigated
928 each year; the sources of the cases opened; the disposition of

929 the cases closed each year; the amount of overpayments alleged
 930 in preliminary and final audit letters; the number and amount of
 931 fines or penalties imposed; any reductions in overpayment
 932 amounts negotiated in settlement agreements or by other means;
 933 the amount of final agency determinations of overpayments; the
 934 amount deducted from federal claiming as a result of
 935 overpayments; the amount of overpayments recovered each year;
 936 the amount of cost of investigation recovered each year; the
 937 average length of time to collect from the time the case was
 938 opened until the overpayment is paid in full; the amount
 939 determined as uncollectible and the portion of the uncollectible
 940 amount subsequently reclaimed from the Federal Government; the
 941 number of providers, by type, that are terminated from
 942 participation in the Medicaid program as a result of fraud and
 943 abuse; and all costs associated with discovering and prosecuting
 944 cases of Medicaid overpayments and making recoveries in such
 945 cases. The report must also document actions taken to prevent
 946 overpayments and the number of providers prevented from
 947 enrolling in or reenrolling in the Medicaid program as a result
 948 of documented Medicaid fraud and abuse and must include policy
 949 recommendations necessary to prevent or recover overpayments and
 950 changes necessary to prevent and detect Medicaid fraud. All
 951 policy recommendations in the report must include a detailed
 952 fiscal analysis, including, but not limited to, implementation
 953 costs, estimated savings to the Medicaid program, and the return
 954 on investment. The agency must submit the policy recommendations
 955 and fiscal analyses in the report to the appropriate estimating
 956 conference, pursuant to s. 216.137, by February 15 of each year.

 979 Unit's toll-free hotline number, and information about the
 980 rewards available under s. 409.9203. The explanation of benefits
 981 may not be mailed for Medicaid independent laboratory services
 982 as described in s. 409.905(7) or for Medicaid certified match
 983 services as described in ss. 409.9071 and 1011.70.

984 Section 14. Paragraph (e) of subsection (1) of section
 985 409.975, Florida Statutes, is amended, and subsection (7) is

 1021 determine the adequacy, timeliness, and quality of the services
 1022 provided for specified target populations and the efficiency of

 1107 housing, home care, adult day care, and care management, with a

 1109 This organization shall provide these services to frail and

1132 Mandatory services rendered by providers in mobile units to
 1133 Medicaid recipients may be restricted by the agency. Nothing in
 1134 this section shall be construed to prevent or limit the agency
 1135 from adjusting fees, reimbursement rates, lengths of stay,
 1136 number of visits, number of services, or any other adjustments
 1137 necessary to comply with the availability of moneys and any
 1138 limitations or directions provided for in the General

1140 (6) HOSPITAL OUTPATIENT SERVICES.—

1141 (b) The agency shall implement a prospective payment

 1144 effect July 1, 2018 ~~2017~~, and July 1 of each year thereafter.
 1145 The methodology shall categorize the amount and type of services
 1146 used in various ambulatory visits which group together
 1147 procedures and medical visits that share similar characteristics
 1148 and resource utilization.

1149 1. Adjustments may not be made to the rates after July 31
 1150 of the state fiscal year in which the rates take effect.

1151 2. Errors in source data or calculations discovered after
 1152 July 31 of each state fiscal year must be reconciled in a
 1153 subsequent rate period. However, the agency may not make any
 1154 adjustment to a hospital's reimbursement more than 5 years after
 1155 a hospital is notified of an audited rate established by the
 1156 agency. The prohibition against adjustments more than 5 years
 1157 after notification is remedial and applies to actions by
 1158 providers involving Medicaid claims for hospital services.
 1159 Hospital reimbursement is subject to such limits or ceilings as
 1160 may be established in law or described in the agency's hospital

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

BILL: SB 2516

INTRODUCER: Appropriations Committee

SUBJECT: Education Funding

DATE: April 6, 2017

REVISED: _____

ANALYST

STAFF DIRECTOR

Hansen

REFERENCE

ACTION

AP Submitted as Comm. Bill/Fav

I. Summary:

SB 2516 conforms various education funding statutes to the policies used to implement the funding decisions contained in SB 2500, the Senate General Appropriations Act for Fiscal Year 2017-2018.

The bill:

- Modifies the policy regarding the “extra hour of reading” at the 300 lowest-performing elementary schools by:
 - Permanently codifying the program in statute, rather than relying on annual reauthorization. The program was established for three years beginning in the 2012-2013 fiscal year but has been extended annually in the implementing bill since the 2015-2016 fiscal year.
 - Expanding the program to allow schools that improve performance to the extent that they are no longer on the most current list of 300 lowest-performing schools to maintain the program for two additional academic years.
 - Expanding the requirements of the program to include a 60-hour summer school component.
 - Codifying the methodology for calculating the allocation of Supplemental Academic Instruction (SAI) funds, which includes funds for the “extra hour of reading” requirement.
 - Requiring school districts to delineate the implementation design and reading intervention strategies for the program as part of their comprehensive reading plan.
- Modifies the small, isolated high schools provision of the Florida Education Finance Program (FEFP) by expanding its application to elementary schools and establishing the criteria by which elementary schools may qualify.
- Permanently codifies the sparsity supplement calculation used to compute the sparsity supplement for eligible districts with a full-time equivalent (FTE) student membership of between 20,000 and 24,000, by dividing the total number of full-time equivalent students in all programs by the number of permanent senior high school centers in the district, not in

excess of four (rather than three as used for other districts). This calculation has been in the implementing bill since the 2015-2016 fiscal year.

- Modifies the federally connected student supplement to allow for recalculation throughout the year based on actual student membership and the tax-exempt valuation from the most recent assessment roll.
- Permanently codifies a provision that prohibits a school district from seeking a positive allocation adjustment in the current fiscal year because of an under allocation for a prior fiscal year caused by district error.
- Modifies the qualification requirements and funding methodology for the High Growth District Capital Outlay Assistance Grant Program.
- Requires the Auditor General to conduct an annual financial audit of the Florida School for the Deaf and the Blind.
- Extends the repeal date for the Florida Endowment Foundation for Vocational Rehabilitation, which serves as the direct-support organization of the Division of Vocational Rehabilitation within the Florida Department of Education by one year, to October 1, 2018.

This bill does not have a fiscal impact on state and local revenues and expenditures. However, based on these statutory modifications, the following funding decisions have been made:

- Funding for additional requirements for the additional hour of intensive reading instruction at the lowest-performing elementary schools is provided in the supplemental academic instruction and the research-based reading instruction allocation categoricals within the Florida Education Finance Program (FEFP). The Senate General Appropriations Act for Fiscal Year 2017-2018, SB 2500, includes \$27 million for the 60-hour summer component and \$23 million for schools to continue to provide an additional hour of instruction for two subsequent academic years after the school improves performance such that it is no longer classified as one of the 300 lowest performing elementary schools.
- The bill modifies the federally connected student supplement calculation within the FEFP. The school districts eligible for funding through the categorical will receive their proportional share of the appropriated \$13 million, as proposed in SB 2500, allocated through the FEFP.
- SB 2500 appropriates \$3 million for the High Growth District Capital Outlay Assistance Grant Program.
- SB 2500 appropriates \$549,823 to the Florida Endowment Foundation for Vocational Rehabilitation.

The bill provides for an effective date of July 1, 2016.

II. Present Situation:

Auditor General

The Auditor General serves as Florida's independent external auditor. Specifically, the Auditor General:¹

¹ Florida Auditor General, *2016 Auditor General Annual Report*, available at http://www.myflorida.com/audgen/pages/pdf_files/annual%20report%202016.pdf

- Audits financial statements to provide the legislature and other users with independent assurance of the reliability of the financial statement information.
- Identifies and audits those operating units, programs, activities, functions, and transactions considered most vulnerable should a significant breakdown in internal control occur.
- Communicates the legislature's expectation that public entity management and employees are accountable for the proper administration of public funds.
- Reports on whether federal, state, and local expenditures serve a public purpose and are made in compliance with applicable laws, rules, regulations, contracts, grant agreements, best practices, and other guidelines.
- Reports on whether governmental entities have established proper internal controls that reasonably ensure that financial records are reliable and fraud, waste, abuse, and noncompliance are prevented and detected.

As it relates to public educational entities, the Auditor General is responsible for:²

- Annually conducting financial audits of all state universities and state colleges.
- Annually conducting financial audits of the accounts and records of all district school boards in counties with populations of fewer than 150,000, according to the most recent federal decennial statewide census, and the Florida School for the Deaf and the Blind.
- Once every 3 years, conducting financial audits of the accounts and records of all district school boards in counties that have populations of 150,000 or more, according to the most recent federal decennial statewide census.
- At least every 3 years, conducting operational audits of the accounts and records of state agencies, state universities, state colleges, district school boards, and the Florida School for the Deaf and the Blind.

The requirement for the Auditor General to conduct an annual financial audit of the Florida School for the Deaf and the Blind was passed into law by ch. 2016-62, L.O.F., the implementing bill for the 2016-2017 General Appropriations Act (GAA). That provision will expire July 1, 2017, unless codified in substantive law.

Division of Vocational Rehabilitation

The Division of Vocational Rehabilitation (division) is one of several divisions housed within the DOE.³ The division is the administrative unit designated at the state level that ensures compliance with the Vocational Rehabilitation Act of 1973, as amended.⁴ The division's mission is "to help people with disabilities find and maintain employment and enhance their independence."⁵ Vocational Rehabilitation (VR) is a federal-state program that helps people who have physical or mental disabilities find and maintain meaningful careers.⁶

Florida Endowment Foundation for Vocational Rehabilitation

In 1990, the Legislature created the Florida Endowment Foundation for Vocational Rehabilitation (Foundation or The Able Trust) as a direct-support organization of the division within the DOE for the purpose of encouraging public and private support to enhance vocational rehabilitation and employment of citizens who are disabled.⁷

The Foundation conducts business as The Able Trust,⁸ which operates under contract with the division to exclusively raise funds; submit requests and receive grants from the Federal Government, the state, private foundations, and individuals; to receive, hold, and administer property; and to make expenditures to or for the benefit of the rehabilitation programs approved by the Foundation's board of directors.⁹

During its 26 years, the Foundation has gone beyond the traditional direct-support organization role of supporting activities of the division by developing and expanding statewide programs to move people with disabilities into the workforce.¹⁰

Currently, the authorizing statute for the Foundation is scheduled for repeal October 1, 2017, unless reviewed and saved from repeal by the Legislature.¹¹

Exceptional Student Education Guaranteed Allocation

In order to provide exceptional education and related services, an Exceptional Student Education (ESE) Guaranteed Allocation was established by the Legislature to provide funding through the Florida Education Finance Program (FEFP) in addition to the basic program funding.¹² This allocation is a lump sum that is derived from the number of full-time equivalent (FTE) students and the cost factors associated with the matrix of services (matrix) to document the services that each student with an exceptionality will receive.¹³

The Florida Department of Education (DOE) developed the Matrix of Services Handbook to provide districts, schools and teachers with information about the matrix required for selected students with exceptionalities.¹⁴ The matrix is designed with five levels in each of the following five domain areas:¹⁵

- Curriculum and Learning Environment: This domain addresses services provided to the student in the areas of curriculum, instructional strategies and learning environment.

- Social or Emotional Behavior: This domain includes services provided to meet identified social and emotional needs of students with exceptionalities, such as positive behavioral supports, behavioral interventions, social skills development, socialization and counseling as a related service.
- Independent Functioning: This domain includes services that are necessary for the independent functioning of students with exceptionalities, such as instruction in organizational strategies, assistance for activities of daily living and self-care, physical therapy, occupational therapy, orientation and mobility training and supervision of students to ensure physical safety
- Health Care: This domain addresses services provided to students with exceptionalities who have health care needs. Included in this domain are services related to monitoring and assessment of health conditions, provision of related health care services and interagency collaboration.
- Communication: This domain includes services provided to support the communication needs of students with exceptionalities. Services included in this domain are personal assistance, instructional interventions, speech or language therapy and the use of alternative and augmentative communication systems.

A student is evaluated within each of these five domains to determine the appropriate level of service the student requires. Level 1 represents the lowest level of service and Level 5 represents the highest level of service.¹⁶ The frequency and intensity of the service and the qualifications of personnel required to provide the service are critical factors that impact the determination of the appropriate level of service for the student.¹⁷

The ESE Guaranteed Allocation was established in 2000 in conjunction with the elimination of the mandatory requirement for the determination of a matrix of services for Levels 1 through 3 ESE students. ESE services for students whose level of service is Levels 1 through 3 are funded through the ESE Guaranteed Allocation.¹⁸ These students generate FTE funding using the appropriate basic program cost factor for their grade level.¹⁹ The ESE Guaranteed Allocation provides for the additional services needed for these exceptional students.²⁰ Currently, the ESE Guaranteed Allocation is calculated initially in the GAA and recalculated once based on each school district's actual ESE and total FTE enrollment, as determined by the October FTE survey.²¹

Intensive Reading Instruction

A school district that has one or more of the 300 lowest performing elementary schools based on the state reading assessment is required to provide an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year in those schools.²² Funds for this program are designated in the Supplemental Academic Instruction and the Research-Based Reading Instruction Allocation categoricals in the FEFP within the GAA.²³

Supplemental Academic Instruction Categorical Fund

In 1999, the Legislature created the Supplemental Academic Instruction (SAI) Categorical Fund as part of the A+ Education Plan²⁴ for the purpose of assisting school districts in providing supplemental instruction to students in kindergarten through grade 12.²⁵ The SAI fund was created to:²⁶

- Address the school districts' requests for more flexibility; and
- Provide additional resources to districts to help students gain at least a year's worth of knowledge for each year in school.

A school district that has one or more of the 300 lowest-performing elementary schools based on the state reading assessment is required to provide an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year in those schools.²⁷ The additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading or by a K-5 mentoring reading program that is supervised by a teacher who is effective in teaching reading.²⁸ Students who score Level 5 on the assessment may opt to participate in the additional hour of instruction.²⁹

After the additional hour of reading requirement has been met, supplemental instruction may be provided to a student in any manner and at any time during or beyond the regular 180-day term identified by the school as being the most effective and efficient way to best help that student progress from grade to grade and to graduate.³⁰ Supplemental instructional strategies may include, but are not limited to:³¹

- Modified curriculum;
- Reading instruction;
- After-school instruction;

The SAI funds are allocated annually in the amount provided in the GAA, and are in addition to funds appropriated on the basis of FTE student membership in the FEFP.³² For the 2016-2017 fiscal year, school districts with one or more of the 300 lowest-performing elementary schools based on the statewide, standardized English Language Arts (ELA) assessment were required to use at least \$75 million in SAI funds for the required additional hour of intensive reading instruction.³³

Research-Based Reading Instruction Allocation

In addition to the SAI categorical fund, school districts may use funds from the research-based reading instruction allocation to provide comprehensive reading instruction to students in kindergarten through grade 12.³⁴ The funds must be used to provide a system of comprehensive reading instruction to K-12 students, which may include providing:³⁵

- An additional hour per day of intensive reading instruction to students in the 300 lowest-performing elementary schools by teachers and reading specialists who are effective in teaching reading.
- Intensive intervention during the school day and in the required extra hour for students identified as having a reading deficiency through K-5 reading intervention teachers.
- Highly qualified reading coaches to specifically support teachers in making instructional decisions based on student data, and improve teacher delivery of effective reading instruction, intervention, and reading in the content area based on student need.
- Professional development for school district teachers in scientifically based reading instruction, including strategies to teach reading in content areas and with an emphasis on technical and informational text.
- Summer reading camps for all K-2 students who demonstrate a reading deficiency and students in grades 3-5 who score at Level 1 on the statewide, standardized reading assessment or ELA assessment.
- Supplemental instructional materials grounded in scientifically based reading research.
- Intensive interventions for K-12 students who have been identified as having a reading deficiency or who are reading below grade level.

School districts must annually submit a K-12 comprehensive reading plan to the Department of Education (DOE) for the specific use of the allocation.³⁶ The Just Read, Florida! Office within the DOE reviews and approves the district's plan.³⁷ School districts have flexibility in

developing their plans and are encouraged to offer reading intervention through innovative methods.³⁸ One hundred percent of the research-based reading instruction allocation must be used to implement a school district's approved plan.³⁹

For the 2016-2017 fiscal year, school districts with one or more of the 300 lowest-performing elementary schools based on the statewide, standardized ELA assessment were required to use at least \$15 million of the research-based reading instruction allocation⁴⁰ for the required additional hour of intensive reading instruction.

Small, Isolated High School Supplement

High schools with between 28 students and 100 students in grades 9-12 and that are no closer than 28 miles to the nearest high school may qualify for an isolated school supplement. This supplement is allocated to each eligible school that attained a state accountability performance grade of "C" or better for its most recent school grade. Districts with qualifying schools must levy the maximum discretionary operating millage in order to receive the supplement.⁴¹

Sparsity Supplement

The FEFP recognizes the relatively higher operating cost of smaller districts due to sparse student populations through a statutory formula in which the variable factor is a sparsity index.⁴² This index is computed by dividing the FTE student membership of the qualified district by the number of permanent senior high school centers, not to exceed three.⁴³ For districts with at least 20,000 FTE, but no more than 24,000 FTE, the index is computed by dividing the total FTE by the number of permanent senior high school centers, not to exceed four.⁴⁴

Federally Connected Student Supplement

The federally connected student supplement was established initially in the 2015-2016 Implementing Bill, ch. 2015-222, L.O.F., to provide funding to school districts to support the education of students connected with federally-owned military installations, National Aeronautics and Space Administration (NASA) property, and Indian lands. To be eligible for this supplement, the district must also be eligible for federal impact aid funds, pursuant to Title VIII of the Elementary and Secondary Education Act of 1965.⁴⁵

The supplement is based on two components: a student allocation and an exempt-property allocation. The student allocation is based on the number of students in the district reported for federal impact aid, including students with disabilities, who

- Have a parent who is on active duty in the uniformed services or is an accredited foreign government official and military officer;
- Reside on eligible federally-owned Indian lands; or
- Reside with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. The number of these students shall be multiplied by a factor of 0.5.

The exempt-property allocation is based on the district's real property value of exempt federal property of federal impact aid lands reserved as military installations, NASA properties, or federally-owned Indian lands, multiplied by the millage authorized and levied under s. 1011.71 (2), F.S. The student allocation and the exempt-property allocation are added together for each eligible district to produce the federally connected student supplement.

In the 2016-2017 fiscal year, 13 school districts qualified for federal impact aid. These districts received a total of \$12,136,893 through the federally connected student supplement, as appropriated in the 2016-2017 GAA.⁴⁶

FTE Reporting

School districts are required to report FTE to the department during five survey periods each fiscal year. These reported FTE are used to calculate and adjust the FEFP funds for each district. School districts are provided with a reporting amendment period during which they may review their reported FTE and make corrections to any reporting error. The DOE is authorized to make prior-year adjustments in the allocation of funds to a district for adjudication of litigation, arithmetical errors, assessment roll change, FTE student membership errors, or allocation errors revealed in an audit report.⁴⁷ However, in the 2016-2017 Implementing Bill, ch. 2016-62, L.O.F., statute was revised to clarify that a school district may not receive a positive FEFP allocation adjustment in the current fiscal year for an under allocation in a prior fiscal year caused by a district reporting error.⁴⁸

Capital Outlay Full-Time Equivalent Membership

Public school capital outlay full-time equivalent (COFTE) is comprised of kindergarten through grade 12 students for which the school districts provide the educational facility. The COFTE membership is determined by averaging the unweighted full-time equivalent student membership for the second and third FTE surveys and comparing the results on a school-by-school basis with the Florida Inventory for School Houses.⁴⁹

High Growth District Capital Outlay Assistance Program

The High Growth District Capital Outlay Grant Program was created in 2005⁵⁰ to provide funding to construct new student stations for school districts that meet the following criteria:⁵¹

- The district must have levied the full 1.5 mills of nonvoted discretionary capital outlay millage authorized in s. 1011.71(2) for each of the past 4 fiscal years.
- Fifty percent of the revenue derived from the maximum nonvoted discretionary capital outlay millage for the past 4 fiscal years, when divided by the district's growth in capital outlay FTE students over this period, produces a value that is less than the average cost per student station calculated pursuant to s. 1013.64(6)(b)1., and weighted by statewide growth in capital outlay FTE students in elementary, middle, and high schools for the past 4 fiscal years.
- The district must have equaled or exceeded twice the statewide average of growth in capital outlay FTE students over this same 4-year period.
- The Commissioner of Education must have released all funds allocated to the district from the Classrooms First Program, and these funds were fully expended by the district as of February 1 of the current fiscal year.
- The total capital outlay FTE students of the district is greater than 15,000 students.

The High Growth District Capital Outlay Grant Program has never been implemented. The legislation establishing the program, ch. 2005-209, L.O.F., appropriated \$30 million for the program, but the Governor vetoed that appropriation.⁵² The program has not subsequently been funded.

III. Effect of Proposed Changes:

The bill conforms various education funding statutes to the policies used to implement the funding decisions contained in SB 2500, the Senate General Appropriations Act for Fiscal Year 2017-2018.

The bill:

- Modifies the policy regarding the “extra hour of reading” at the 300 lowest-performing elementary schools by:
 - Permanently codifying the program in statute, rather than relying on annual reauthorization. The program was established for three years beginning in the 2012-2013 fiscal year but has been extended annually in the implementing bill since the 2015-2016 fiscal year.
 - Expanding the program to allow schools that improve performance to the extent that they are no longer on the most current list of 300 lowest-performing schools to maintain the program for two additional academic years.
 - Expanding the requirements of the program to include a 60-hour summer school component.

⁵⁰ Chapter 2005-209, Laws of Florida

⁵¹ Section 1013.738 (2), F.S.

⁵² Chapter 2005-209, Laws of Florida

- Codifying the methodology for calculating the allocation of Supplemental Academic Instruction (SAI) funds, which includes funds for the “extra hour of reading” requirement.
- Requiring school districts to delineate the implementation design and reading intervention strategies for the program as part of their comprehensive reading plan.
- Modifies the small, isolated high schools provision of the Florida Education Finance Program (FEFP) by expanding its application to elementary schools and establishing the criteria by which elementary schools may qualify.
- Permanently codifies the sparsity supplement calculation used to compute the sparsity supplement for eligible districts with a full-time equivalent (FTE) student membership of between 20,000 and 24,000, by dividing the total number of full-time equivalent students in all programs by the number of permanent senior high school centers in the district, not in excess of four (rather than three as used for other districts). This calculation has been in the implementing bill since the 2015-2016 fiscal year.
- Modifies the federally connected student supplement to allow for recalculation throughout the year based on actual student membership and the tax-exempt valuation from the most recent assessment roll.
- Permanently codifies a provision that prohibits a school district from seeking a positive allocation adjustment in the current fiscal year because of an under allocation for a prior fiscal year caused by district error.
- Modifies the qualification requirements and funding methodology for the High Growth District Capital Outlay Assistance Grant Program.
- Requires the Auditor General to conduct an annual financial audit of the Florida School for the Deaf and the Blind.
- Extends the repeal date for the Florida Endowment Foundation for Vocational Rehabilitation, which serves as the direct-support organization of the Division of Vocational Rehabilitation within the Florida Department of Education by one year, to October 1, 2018.

Auditor General (Section 1)

Section 1 requires the Auditor General to conduct an annual financial audit of the Florida School for the Deaf and the Blind.
