Most substantive issues before the commission are vetted through a workgroup process. Consensus recommendations are developed and submitted by appointed representative stakeholder groups in an open process with several opportunities for public input.

According to the commission,

> General consensus is a participatory process whereby, on matters of substance, the members strive for agreements which all of the members can accept, support, live with or agree not to oppose. In instances where, after vigorously exploring possible ways to enhance the members' support for the final decision on substantive decisions, and the Commission finds that 100 percent acceptance or support is not achievable, final decisions require at least 75 percent favorable vote of all members present and voting.[30]

Building Code Cycle

Under s. 553.73(7)(a), F.S., the commission must update the Florida Building Code every three years. When updating the Florida Building Code, the commission is required to use the most current version of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, the International Residential Code, and the International Electrical Code. These I-Codes form the foundation codes of the updated Florida Building Code.

---

[27] The International Code Council (ICC) is an association that develops model codes and standards used in the design, building, and compliance process to "construct safe, sustainable, affordable and resilient structures." The ICC publishes I-Codes: a complete set of model comprehensive, coordinated building safety and fire prevention codes, for all aspects of construction, that have been developed by ICC members. All 50 states have adopted the I-Codes.
[28] Florida Building Commission Homepage, https://floridabuilding.org/c/default.aspx (last visited Jan. 18, 2017).
[29] Section 553.74, F.S.
[30] Florida Building Commission, Florida Building Commission Consensus-Building Process, *available at* http://www.floridabuilding.org/fbc/commission/FBC_0608/Commission/FBC_Discussion_and_Public_Input_Processes.htm (last visited Jan. 18, 2017).

Any amendments or modifications to the foundation codes found within the Florida Building Code remain in effect only until the effective date of a new edition of the Florida Building Code, every three years.[31] At that point, the amendments or modifications to the foundation codes are removed, unless the amendments or modifications are related to state agency regulations or are related to the wind-resistance design of buildings and structures within the high-velocity hurricane zone of Miami-Dade and Broward Counties, which are carried forward into the next edition of the Florida Building Code.

When a provision of the current Florida Building Code is not part of the foundation codes, an industry member or another interested party must resubmit the provision to the commission during the Florida Building Code adoption process in order to be considered for the next edition of the Florida Building Code.[32]

Amendments between Cycles

Section 553.73(8), F.S., authorizes the commission to approve amendments pursuant to the rule adoptions procedure in ch. 120, F.S., which are needed to address:

- Conflicts within the updated Florida Building Code;
- Conflicts between the updated Florida Building Code and the Florida Fire Prevention Code adopted pursuant to ch. 633, F.S.;
- Unintended results from the integration of the previously adopted Florida-specific amendments;
- Equivalency of standards;
- Changes to or inconsistencies with federal or state law; or
- Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to stakeholders or otherwise threatens the public health, safety, and welfare.

However, the commission may not approve amendments that would weaken the construction requirements relating to wind resistance or the prevention of water intrusion.

The commission may also approve technical amendments to the Florida Building Code once a year for statewide or regional application if the amendment:[33]

- Is needed in order to accommodate the specific needs of Florida.
- Has a reasonable and substantial connection with the health, safety, and welfare of the general public.
- Strengthens or improves the Florida Building Code, or in the case of innovation or new technology, will provide equivalent or better products or methods or systems of construction.
- Does not discriminate against materials, products, methods, or systems of construction of demonstrated capabilities.
- Does not degrade the effectiveness of the Florida Building Code.

[31] Section 553.73(7)(g), F.S.
[32] Section 553.73(7)(g), F.S.
[33] Section 553.73(9), F.S.

The 6th Edition of the Florida Building Code

The commission is currently conducting its rule development process for the 6th Edition of the Florida Building Code. Under s. 553.73(7)(e), F.S., a rule updating the Florida Building Code does not take effect until six months after the publication of the updated Florida Building Code. The 6th Edition of the Florida Building Code is tentatively expected to go into effect on December 31, 2017.[34]

The 6th Edition of the Florida Building Code will incorporate the latest version of the I-Codes (2015). The next edition of the I-Codes will be the 2018 I-Codes.

Voting Processes for the Technical Advisory Committees and the Commission

Under s. 553.73(3)(b), F.S., in order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a three-fourths vote of the members present at the meeting, and at least half of the regular members must be present in order to conduct the meeting.

The Florida Administrative Code, under 61G20-2.002(7), F.A.C., provides a similar requirement for votes taken by the commission. Specifically, the provision provides that "the decision of the commission to approve a proposed amendment shall be by 75 percent vote. Those proposals failing to meet the vote requirement shall not be adopted."

III. Effect of Proposed Changes:

Section 1 amends s. 489.516, F.S., to provide that no provision in part II, ch. 489, dealing with electrical contracting and alarm system contracting, may prevent certified electrical contractors and alarm system contractors (certified contractors) from:

- Acting as prime contractors on a project when the majority of the contracted work is within the scope of the certified contractor's license; or
- Subcontracting to other licensed contractors any contracted work on a project that is outside the scope of the certified contractor's license.

This provision does not apply to registered electrical and alarm system contractors.

Section 489.113(9)(a), F.S., under part I of ch. 489, F.S., includes a similar provision that applies to all construction contractors, whether certified or registered. The Department of Business and Professional Regulation (DBPR) and the Construction Industry Licensing Board (CILB) have applied s. 489.113(9)(a), F.S., to electrical and alarm system licensees regulated under part II of ch. 489, F.S.[35]

[34] 6th Edition (2017) FBC Code Update Development Tasks, *available at* http://www.floridabuilding.org/fbc/thecode/2017_Code_Development/Timelines/FBC_WorkplanOption1-2015.pdf (Last visited Jan. 18, 2017).

[35] *See* 2017 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation) for HB 227 (identical to SB 1372), dated Feb. 15, 2017 (on file with Senate Committee on Regulated Industries) at page 2.

Section 2 amends s. 553.73, F.S., to require the Florida Building Commission (commission) to use the International Code Council, the National Electric Code (NFPA), or other nationally adopted model codes and standards for updates to the Florida Building Code. The commission must adopt an updated Florida Building Code every three years through reviews of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, and the International Residential Code, all of which are copyrighted and published by the International Code Council, and the National Electrical Code, which is copyrighted and published by the National Fire Protection Association. At a minimum, the commission must adopt any provision from the International Code Council I-Codes (I-Codes), the National Electric Code, or any other code that is necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development. The commission must also review and adopted updates based substantially on the International Energy Conservation Code; however, the commission must maintain the efficiencies of the Florida Energy Efficiency Code for Building Construction pursuant to s. 553.901, F.S. The commission shall adopt updated codes by rule.

Amendments and modifications, other than local amendments under s. 553.73(4), F.S., to the Florida Building Code, will now remain effective when a new edition of the Florida Building Code is published.

In order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a two-thirds vote of the members present at the meeting. Current law requires a three-fourths vote of the members present at the meeting.

The bill also provides that a technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government is not rendered void when the Florida Building Code is updated if the amendment is necessary to protect or provide for more efficient use of water resources as provided in s. 373.621, F.S. However, any such technical amendment carried forward into the next edition of the Florida Building Code is subject to review or modification.

The bill removes references to Florida-specific amendments because the entire building code will now be Florida-specific. The bill also makes other conforming and clarifying changes in terminology.

Section 3 amends s. 553.76, F.S., to require the commission to adopt the Florida Building Code, and amendments thereto, by a two-thirds vote of the members present.

Section 4 provides for an effective date of July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill has an indeterminate fiscal impact. The bill specifically permits certified electrical and alarm system contractors to act as prime contractors and to subcontract work when the majority of the work is in the scope of their license. This codifies the current administrative interpretation by the Department of Business and Professional Regulation (DBPR) and the Construction Industry Licensing Board (CILB) and the Electrical Contractors' Licensing Board (ECLB) of the applicability of s. 489.113(9)(a), F.S., to such certified contractors. This authorization may benefit affected certified electrical and alarm system contractors burdened with higher insurance rates due to the uncertainty created by the administrative interpretation by the DBPR and the CILB and the ECLB.

In addition, the bill will prevent registered electrical and alarm contractors to act as a prime contractor, which had been allowed under the current administrative interpretation by the DBPR, the CILB and the ECLB. According to the DBPR, this change will prevent registered electrical and alarm contractors from bidding on jobs that include some work outside the scope of their licenses.[36] Also, this could lead to more complaints/disciplinary actions against these registered contractors for contracting outside the scope of their license.[37]

Builders and building code officials may benefit from the increased continuity of the Florida Building Code and increased transparency of the updated code adoption process.

C. Government Sector Impact:

The DBPR notes that the portions of the bill relating to certified electrical contractors and certified alarm system contractors have no fiscal impact on state government.[38]

[36] *See* 2017 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation) for CS/HB 2), dated Mar. 7, 2017 (on file with Senate Appropriations Subcommittee on General Government) at page 5.
[37] *Id.* at page 5.
[38] *Id.* at page 3.

The Florida Building Commission (commission) will have to review each change to the International Code Council I-Codes (I-Codes) and the International Energy Conservation Code (IECC) individually rather than approving wholesale changes to the Florida Building Code. However, the DBPR stated the changes in the bill relating to the revised Florida Building Code adoption process could be accomplished with current resources.[39]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 489.516, 553.73, and 553.76.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Community Affairs on April 17, 2017:

- Revises the process by which the Florida Building Code will be adopted such that the commission shall use the I-Codes, the National Electric Code, or other nationally adopted model codes and standards for updates to the Code and shall review the most current updates of such codes;
- Requires the commission to adopt any provision from the I-Codes, the National Electrical Code, or any other code necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development;
- Provides that a technical advisory committee must receive a two-thirds vote, rather than a three-fourths vote, of the members present at the meeting in order to make a favorable recommendation to the commission;
- Provides that a technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government is not rendered void when the Florida Building Code is updated if the amendment is necessary to protect or provide for more efficient use of water resources. However, any carried forward technical amendment is subject to review or modification under certain circumstances; and

[39] *See 2017 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation)* for SPB 7000, dated January 23, 2017 at page 5.

- Requires the commission to adopt the Florida Building Code by a two-thirds vote of the members present.

CS by Regulated Industries on April 4, 2017:

- Authorizes electrical and alarm systems contractors to act as prime contractors and subcontractors, consistent with a similar provision in part I of ch. 489, F.S., authorizing such activities by construction contractors.

B. Amendments:

None.

586648

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Between lines 39 and 40
insert:

Section 1. Section 468.603, Florida Statutes, is reordered and amended to read:

468.603 Definitions.—As used in this part:

(2) ~~(1)~~ "Building code administrator" or "building official" means any of those employees of municipal or county governments, or any person contracted, with building construction regulation

586648

responsibilities who are charged with the responsibility for direct regulatory administration or supervision of plan review, enforcement, or inspection of building construction, erection, repair, addition, remodeling, demolition, or alteration projects that require permitting indicating compliance with building, plumbing, mechanical, electrical, gas, fire prevention, energy, accessibility, and other construction codes as required by state law or municipal or county ordinance. This term is synonymous with "building official" as used in the ~~administrative chapter of the Standard Building Code and the South~~ Florida Building Code. One person employed or contracted by each municipal or county government as a building code administrator or building official and who is so certified under this part may be authorized to perform any plan review or inspection for which certification is required by this part, including performing any plan review or inspection as a currently designated standard certified building official under an interagency service agreement with a jurisdiction having a population of 50,000 or less.

(4) ~~(2)~~ "Building code inspector" means any of those employees of local governments or state agencies, or any person contracted, with building construction regulation responsibilities who themselves conduct inspections of building construction, erection, repair, addition, or alteration projects that require permitting indicating compliance with building, plumbing, mechanical, electrical, gas, fire prevention, energy, accessibility, and other construction codes as required by state law or municipal or county ordinance.

(1) ~~(3)~~ "Board" means the Florida Building Code

586648

Administrators and Inspectors Board.

(7) ~~(4)~~ "Department" means the Department of Business and Professional Regulation.

(6) ~~(5)~~ "Certificate" means a certificate of qualification issued by the department as provided in this part.

(5) ~~(6)~~ "Categories of building code inspectors" include the following:

(a) "Building inspector" means a person who is qualified to inspect and determine that buildings and structures are constructed in accordance with the provisions of the governing building codes and state accessibility laws.

(b) "Coastal construction inspector" means a person who is qualified to inspect and determine that buildings and structures are constructed to resist near-hurricane and hurricane velocity winds in accordance with the provisions of the governing building code.

(c) "Commercial electrical inspector" means a person who is qualified to inspect and determine the electrical safety of commercial buildings and structures by inspecting for compliance with the provisions of the National Electrical Code.

(h) ~~(d)~~ "Residential electrical inspector" means a person who is qualified to inspect and determine the electrical safety of one and two family dwellings and accessory structures by inspecting for compliance with the applicable provisions of the governing electrical code.

(e) "Mechanical inspector" means a person who is qualified to inspect and determine that the mechanical installations and systems for buildings and structures are in compliance with the provisions of the governing mechanical code.

586648

(g) ~~(f)~~ "Plumbing inspector" means a person who is qualified to inspect and determine that the plumbing installations and systems for buildings and structures are in compliance with the provisions of the governing plumbing code.

(f) ~~(g)~~ "One and two family dwelling inspector" means a person who is qualified to inspect and determine that one and two family dwellings and accessory structures are constructed in accordance with the provisions of the governing building, plumbing, mechanical, accessibility, and electrical codes.

(d) ~~(h)~~ "Electrical inspector" means a person who is qualified to inspect and determine the electrical safety of commercial and residential buildings and accessory structures by inspecting for compliance with the provisions of the National Electrical Code.

(8) ~~(7)~~ "Plans examiner" means a person who is qualified to determine that plans submitted for purposes of obtaining building and other permits comply with the applicable building, plumbing, mechanical, electrical, gas, fire prevention, energy, accessibility, and other applicable construction codes. The term includes a residential plans examiner who is qualified to determine that plans submitted for purposes of obtaining building and other permits comply with the applicable residential building, plumbing, mechanical, electrical, gas, energy, accessibility, and other applicable construction codes. Categories of plans examiners include:

(a) Building plans examiner.

(b) Plumbing plans examiner.

(c) Mechanical plans examiner.

(d) Electrical plans examiner.

586648

(3) ~~(8)~~ "Building code enforcement official" or "enforcement official" means a licensed building code administrator, building code inspector, or plans examiner.

Section 2. Paragraph (c) of subsection (2), paragraphs (a) and (d) of subsection (7), and subsection (10) of section 468.609, Florida Statutes, are amended to read:

468.609 Administration of this part; standards for certification; additional categories of certification.—

(2) A person may take the examination for certification as a building code inspector or plans examiner pursuant to this part if the person:

(c) Meets eligibility requirements according to one of the following criteria:

1. Demonstrates 5 years' combined experience in the field of construction or a related field, building code inspection, or plans review corresponding to the certification category sought;

2. Demonstrates a combination of postsecondary education in the field of construction or a related field and experience which totals 4 years, with at least 1 year of such total being experience in construction, building code inspection, or plans review;

3. Demonstrates a combination of technical education in the field of construction or a related field and experience which totals 4 years, with at least 1 year of such total being experience in construction, building code inspection, or plans review;

4. Currently holds a standard certificate issued by the board or a firesafety inspector license issued pursuant to chapter 633, has a minimum of 3 years' verifiable full-time

586648

experience in inspection or plan review, and has satisfactorily completed a building code inspector or plans examiner training program that provides at least 100 hours but not more than 200 hours of cross-training in the certification category sought. The board shall establish by rule criteria for the development and implementation of the training programs. The board shall accept all classroom training offered by an approved provider if the content substantially meets the intent of the classroom component of the training program;

5. Demonstrates a combination of the completion of an approved training program in the field of building code inspection or plan review and a minimum of 2 years' experience in the field of building code inspection, plan review, fire code inspections and fire plans review of new buildings as a firesafety inspector certified under s. 633.216, or construction. The approved training portion of this requirement shall include proof of satisfactory completion of a training program that provides at least 200 hours but not more than 300 hours of cross-training that is approved by the board in the chosen category of building code inspection or plan review in the certification category sought with at least 20 hours but not more than 30 hours of instruction in state laws, rules, and ethics relating to professional standards of practice, duties, and responsibilities of a certificateholder. The board shall coordinate with the Building Officials Association of Florida, Inc., to establish by rule the development and implementation of the training program. However, the board shall accept all classroom training offered by an approved provider if the content substantially meets the intent of the classroom

586648

component of the training program; ~~or~~

6. Currently holds a standard certificate issued by the board or a firesafety inspector license issued pursuant to chapter 633 and:

a. Has at least 5 years' verifiable full-time experience as an inspector or plans examiner in a standard certification category currently held or has a minimum of 5 years' verifiable full-time experience as a firesafety inspector licensed pursuant to chapter 633; ~~.~~

b. Has satisfactorily completed a building code inspector or plans examiner classroom training course or program that provides at least 200 but not more than 300 hours in the certification category sought, except for one-family and two-family dwelling training programs, which must provide at least 500 but not more than 800 hours of training as prescribed by the board. The board shall establish by rule criteria for the development and implementation of classroom training courses and programs in each certification category; or

7.a. Has completed a 4-year internship certification program as a building code inspector or plans examiner while employed full-time by a municipality, county, or other governmental jurisdiction, under the direct supervision of a certified building official. Proof of graduation with a related vocational degree or college degree or of verifiable work experience may be exchanged for the internship experience requirement year-for-year, but may reduce the requirement to no less than 1 year;

b. Has passed an examination administered by the International Code Council in the certification category sought.

586648

Such examination must be passed before beginning the internship certification program;

c. Has passed the principles and practice examination before completing the internship certification program;

d. Has passed a board-approved 40-hour code training course in the certification category sought before completing the internship certification program; and

e. Has obtained a favorable recommendation from the supervising building official after completion of the internship certification program.

(7)(a) The board shall provide for the issuance of provisional certificates valid for 1 year, as specified by board rule, to any ~~newly employed or promoted~~ building code inspector or plans examiner who meets the eligibility requirements described in subsection (2) and any newly employed or promoted building code administrator who meets the eligibility requirements described in subsection (3). The provisional license may be renewed by the board for just cause; however, a provisional license is not valid for longer than 3 years.

(d) A ~~newly employed or hired~~ person may perform the duties of a plans examiner or building code inspector for 120 days if a provisional certificate application has been submitted if such person is under the direct supervision of a certified building code administrator who holds a standard certification and who has found such person qualified for a provisional certificate. Direct supervision and the determination of qualifications may also be provided by a building code administrator who holds a limited or provisional certificate in a county having a population of fewer than 75,000 and in a municipality located

586648

within such county.

(10)(a) The board may by rule create categories of certification in addition to those defined in s. 468.603(5) and (8) ~~468.603(6) and (7)~~. Such certification categories shall not be mandatory and shall not act to diminish the scope of any certificate created by statute.

(b) The board shall by rule establish:

1. Reciprocity of certification with any other state that requires an examination administered by the International Code Council.

2. An applicant for certification as a building code inspector or plans examiner may apply for a provisional certificate valid for the duration of the internship period.

3. Partial completion of an internship program may be transferred between jurisdictions on a form prescribed by the board.

4. An applicant may apply for a standard certificate on a form prescribed by the board upon successful completion of an internship certification program.

5. An applicant may apply for a standard certificate at least 30 days and no more than 60 days before completing the internship certification program.

6. A building code inspector or plans examiner who has standard certification may seek an additional certification in another category by completing an additional nonconcurrent 1-year internship program in the certification category sought and passing an examination administered by the International Code Council and a board-approved 40-hour code training course.

Section 3. Subsection (3) of section 468.617, Florida

586648

Statutes, is amended to read:

468.617 Joint building code inspection department; other arrangements.—

(3) Nothing in this part shall prohibit any county or municipal government, school board, community college board, state university, or state agency from entering into any contract with any person or entity for the provision of building code administrator, building official, or building code inspection services regulated under this part, and notwithstanding any other statutory provision, such county or municipal governments may enter into contracts.

Section 4. Paragraphs (d) and (i) of subsection (1) of section 553.791, Florida Statutes, are amended to read:

553.791 Alternative plans review and inspection.—

(1) As used in this section, the term:

(d) "Building code inspection services" means those services described in s. 468.603(5) and (8) ~~468.603(6) and (7)~~ involving the review of building plans to determine compliance with applicable codes and those inspections required by law of each phase of construction for which permitting by a local enforcement agency is required to determine compliance with applicable codes.

(i) "Private provider" means a person licensed as a building code administrator under part XII of chapter 468, as an engineer under chapter 471, or as an architect under chapter 481. For purposes of performing inspections under this section for additions and alterations that are limited to 1,000 square feet or less to residential buildings, the term "private provider" also includes a person who holds a standard

586648

certificate under part XII of chapter 468.

Section 5. Subsection (10) of section 468.609, Florida Statutes, is amended to read:

468.609 Administration of this part; standards for certification; additional categories of certification.—

(10) The board may by rule create categories of certification in addition to those defined in s. 468.603(5) and (8) ~~468.603(6) and (7)~~. Such certification categories shall not be mandatory and shall not act to diminish the scope of any certificate created by statute.

Section 6. Section 471.045, Florida Statutes, is amended to read:

471.045 Professional engineers performing building code inspector duties.—Notwithstanding any other provision of law, a person who is currently licensed under this chapter to practice as a professional engineer may provide building code inspection services described in s. 468.603(5) and (8) ~~468.603(6) and (7)~~ to a local government or state agency upon its request, without being certified by the Florida Building Code Administrators and Inspectors Board under part XII of chapter 468. When performing these building code inspection services, the professional engineer is subject to the disciplinary guidelines of this chapter and s. 468.621(1)(c)-(h). Any complaint processing, investigation, and discipline that arise out of a professional engineer’s performing building code inspection services shall be conducted by the Board of Professional Engineers rather than the Florida Building Code Administrators and Inspectors Board. A professional engineer may not perform plans review as an employee of a local government upon any job that the

586648

professional engineer or the professional engineer's company designed.

Section 7. Section 481.222, Florida Statutes, is amended to read:

481.222 Architects performing building code inspection services.—Notwithstanding any other provision of law, a person who is currently licensed to practice as an architect under this part may provide building code inspection services described in s. 468.603(5) and (8) ~~468.603(6) and (7)~~ to a local government or state agency upon its request, without being certified by the Florida Building Code Administrators and Inspectors Board under part XII of chapter 468. With respect to the performance of such building code inspection services, the architect is subject to the disciplinary guidelines of this part and s. 468.621(1)(c)-(h). Any complaint processing, investigation, and discipline that arise out of an architect's performance of building code inspection services shall be conducted by the Board of Architecture and Interior Design rather than the Florida Building Code Administrators and Inspectors Board. An architect may not perform plans review as an employee of a local government upon any job that the architect or the architect's company designed.

A bill to be entitled

An act relating to building-related contracting; amending s. 489.516, F.S.; specifying that provisions regulating certified electrical contractors and certified alarm system contractors do not prevent such contractors from acting as a prime contractor or from subcontracting work to other licensed contractors under certain circumstances; amending s. 553.73, F.S.; requiring the Florida Building Commission to use certain entities and codes for updates to the Florida Building Code; revising voting requirements for a technical advisory committee to make a favorable recommendation to the commission; providing that certain technical amendments to the Florida Building Code which are adopted by a local government are not rendered void when the code is updated; specifying that such amendments are subject to review or modification if carried forward into the next edition of the code; requiring the commission to update the Florida Building Code through a review of the most current updates of specified codes; requiring the commission to adopt specified provisions from certain codes; deleting provisions limiting how long an amendment or modification is effective; deleting a provision requiring certain amendments or modifications to be carried forward into the next edition of the code, subject to certain conditions; deleting certain requirements for the resubmission of expired amendments; deleting a provision prohibiting a

578-03979-17 20171372c2

proposed amendment from being included in the code if it has been addressed in the international code; conforming provisions to changes made by the act; amending s. 553.76, F.S.; requiring the commission to adopt the Florida Building Code, and amendments thereto, by a minimum percentage of votes; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsection (5) of section 489.516, Florida Statutes, is renumbered as subsection (6), and a new subsection (5) is added to that section, to read:

489.516 Qualifications to practice; restrictions; prerequisites.—

(5) This part does not prevent any certified electrical or alarm system contractor from acting as a prime contractor where the majority of the work to be performed under the contract is within the scope of his or her license or from subcontracting to other licensed contractors that remaining work that is part of the project contracted.

Section 2. Subsection (3) of section 553.73, Florida Statutes, is amended, paragraph (d) is added to subsection (4) of that section, and subsections (7) and (8) and paragraphs (a) and (b) of subsection (9) of that section are amended, to read:

553.73 Florida Building Code.—

(3) The commission shall use the ~~International Codes published by the~~ International Code Council, the National Electric Code (NFPA 70), or other nationally adopted model codes

and standards for updates to ~~needed to develop the base code in Florida to form the foundation for~~ the Florida Building Code. The ~~Florida Building~~ commission may approve technical amendments to the code as provided in~~, subject to~~ subsections (8) and (9), ~~after the amendments have been~~ subject to all of the following conditions:

(a) The proposed amendment must have ~~has~~ been published on the commission's website for a minimum of 45 days and all the associated documentation must have ~~has~~ been made available to any interested party before ~~any~~ consideration by a technical advisory committee.~~;~~

(b) In order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a two-thirds ~~three-fourths~~ vote of the members present at the ~~technical advisory committee~~ meeting. ~~and~~ At least half of the regular members must be present in order to conduct a meeting.~~;~~

(c) After the technical advisory committee has considered and recommended ~~consideration and a recommendation for~~ approval of any proposed amendment, the proposal must be published on the commission's website for at least 45 days before ~~any~~ consideration by the commission.~~; and~~

(d) A proposal may be modified by the commission based on public testimony and evidence from a public hearing held in accordance with chapter 120.

The commission shall incorporate within ~~sections of~~ the Florida Building Code provisions that ~~which~~ address regional and local concerns and variations. The commission shall make every effort

to minimize conflicts between the Florida Building Code, the Florida Fire Prevention Code, and the Life Safety Code.

(4)

(d) A technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government pursuant to this subsection is not rendered void when the code is updated if the technical amendment is necessary to protect or provide for more efficient use of water resources as provided in s. 373.621. However, any such technical amendment carried forward into the next edition of the code pursuant to this paragraph is subject to review or modification as provided in this part.

(7)(a) The commission~~, by rule adopted pursuant to ss. 120.536(1) and 120.54,~~ shall adopt an updated ~~update the~~ Florida Building Code every 3 years through review of~~. when updating the Florida Building Code, the commission shall select~~ the most current updates ~~version~~ of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, and the International Residential Code, all of which are copyrighted and published by ~~adopted~~ by the International Code Council, and the National Electrical Code, which is copyrighted and published ~~adopted~~ by the National Fire Protection Association. At a minimum, the commission shall adopt any updates to such codes or any other code necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development~~, to form the foundation codes of the updated Florida Building Code, if the version has been adopted~~

~~by the applicable model code entity~~. The commission shall also review and adopt updates based substantially on ~~select the most current version of~~ the International Energy Conservation Code (IECC) ~~as a foundation code~~; however, ~~the IECC shall be modified by~~ the commission shall ~~to~~ maintain the efficiencies of the Florida Energy Efficiency Code for Building Construction adopted and amended pursuant to s. 553.901. The commission shall adopt updated codes by rule.

(b) Codes regarding noise contour lines shall be reviewed annually, and the most current federal guidelines shall be adopted.

(c) The commission may adopt as a technical amendment to the Florida Building Code ~~modify~~ any portion of the ~~foundation~~ codes identified in paragraph (a), but only as needed to accommodate the specific needs of this state. Standards or criteria adopted from these ~~referenced by the~~ codes shall be incorporated by reference to the specific provisions adopted. If a referenced standard or criterion requires amplification or modification to be appropriate for use in this state, only the amplification or modification shall be set forth in the Florida Building Code. The commission may approve technical amendments to the updated Florida Building Code after the amendments have been subject to the conditions set forth in paragraphs (3)(a)-(d). Amendments that ~~to the foundation codes which~~ are adopted in accordance with this subsection shall be clearly marked in printed versions of the Florida Building Code so that the fact that the provisions are ~~Florida-specific~~ amendments ~~to the foundation codes~~ is readily apparent.

(d) The commission shall further consider the commission's

own interpretations, declaratory statements, appellate decisions, and approved statewide and local technical amendments and shall incorporate such interpretations, statements, decisions, and amendments into the updated Florida Building Code only to the extent that they are needed to ~~modify the foundation codes to~~ accommodate the specific needs of the state. A change made by an institute or standards organization to any standard or criterion that is adopted by reference in the Florida Building Code does not become effective statewide until it has been adopted by the commission. Furthermore, the edition of the Florida Building Code which is in effect on the date of application for any permit authorized by the code governs the permitted work for the life of the permit and any extension granted to the permit.

(e) A rule updating the Florida Building Code in accordance with this subsection shall take effect no sooner than 6 months after publication of the updated code. Any amendment to the Florida Building Code which is adopted upon a finding by the commission that the amendment is necessary to protect the public from immediate threat of harm takes effect immediately.

(f) Provisions of the Florida Building Code ~~foundation codes~~, including those contained in referenced standards and criteria, relating to wind resistance or the prevention of water intrusion may not be modified to diminish those construction requirements; however, the commission may, subject to conditions in this subsection, modify the provisions to enhance those construction requirements.

~~(g) Amendments or modifications to the foundation code pursuant to this subsection shall remain effective only until~~

~~the effective date of a new edition of the Florida Building Code every third year. Amendments or modifications related to state agency regulations which are adopted and integrated into an edition of the Florida Building Code shall be carried forward into the next edition of the code, subject to modification as provided in this part. Amendments or modifications related to the wind-resistance design of buildings and structures within the high-velocity hurricane zone of Miami-Dade and Broward Counties which are adopted to an edition of the Florida Building Code do not expire and shall be carried forward into the next edition of the code, subject to review or modification as provided in this part. If amendments that expire pursuant to this paragraph are resubmitted through the Florida Building commission code adoption process, the amendments must specifically address whether:~~

~~1. The provisions contained in the proposed amendment are addressed in the applicable international code.~~

~~2. The amendment demonstrates by evidence or data that the geographical jurisdiction of Florida exhibits a need to strengthen the foundation code beyond the needs or regional variations addressed by the foundation code, and why the proposed amendment applies to this state.~~

~~3. The proposed amendment was submitted or attempted to be included in the foundation codes to avoid resubmission to the Florida Building Code amendment process.~~

~~If the proposed amendment has been addressed in the international code in a substantially equivalent manner, the Florida Building commission may not include the proposed amendment in the foundation Code.~~

(8) Notwithstanding ~~the provisions of~~ subsection (3) or subsection (7), the commission may address issues identified in this subsection by amending the code pursuant ~~only~~ to the rule adoption procedures ~~contained~~ in chapter 120. ~~Provisions of~~ The Florida Building Code, including provisions ~~those~~ contained in referenced standards and criteria which relate~~, relating~~ to wind resistance or the prevention of water intrusion, may not be amended pursuant to this subsection to diminish those standards ~~construction requirements~~; however, the commission may~~, subject to conditions in this subsection,~~ amend the Florida Building Code ~~the provisions~~ to enhance such standards ~~those construction requirements~~. Following the approval of any amendments to the Florida Building Code by the commission and publication of the amendments on the commission's website, authorities having jurisdiction to enforce the Florida Building Code may enforce the amendments. The commission may approve amendments that are needed to address:

(a) Conflicts within the updated code;

(b) Conflicts between the updated code and the Florida Fire Prevention Code adopted pursuant to chapter 633;

(c) Unintended results from the integration of previously adopted ~~Florida-specific~~ amendments with the model code;

(d) Equivalency of standards;

(e) Changes to or inconsistencies with federal or state law; or

(f) Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to

stakeholders or otherwise threatens the public health, safety, and welfare.

(9)(a) The commission may approve technical amendments to the Florida Building Code once each year for statewide or regional application upon a finding that the amendment:

1. Is needed in order to accommodate the specific needs of this state.

2. Has a reasonable and substantial connection with the health, safety, and welfare of the general public.

3. Strengthens or improves the Florida Building Code, or in the case of innovation or new technology, will provide equivalent or better products or methods or systems of construction.

4. Does not discriminate against materials, products, methods, or systems of construction of demonstrated capabilities.

5. Does not degrade the effectiveness of the Florida Building Code.

The Florida Building Commission may approve technical amendments to the code once each year to incorporate into the Florida Building Code its own interpretations of the code which are embodied in its opinions, final orders, declaratory statements, and interpretations of hearing officer panels under s. 553.775(3)(c), but only to the extent that the incorporation of interpretations is needed to modify the code ~~foundation codes~~ to accommodate the specific needs of this state. Amendments approved under this paragraph shall be adopted by rule after the amendments have been subjected to subsection (3).

(b) A proposed amendment must include a fiscal impact statement that documents the costs and benefits of the proposed amendment. Criteria for the fiscal impact statement shall be established by rule by the commission and shall include the impact to local government relative to enforcement, the impact to property and building owners, and the impact to industry, relative to the cost of compliance. The amendment must demonstrate by evidence or data that the state's geographical jurisdiction exhibits a need to strengthen the ~~foundation~~ code beyond the needs or regional variations addressed by the ~~foundation~~ code and why the proposed amendment applies to this state.

Section 3. Subsection (2) of section 553.76, Florida Statutes, is amended to read:

553.76 General powers of the commission.—The commission is authorized to:

(2) Issue memoranda of procedure for its internal management and control. The commission may adopt rules related to its consensus-based decisionmaking process, including, but not limited to, super majority voting requirements ~~for commission actions relating to the adoption of the Florida Building Code or amendments to the code~~. However, the commission must adopt the Florida Building Code, and amendments thereto, by at least a two-thirds vote of the members present at a meeting.

Section 4. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 176
INTRODUCER:	Senator Passidomo and others
SUBJECT:	Sales and Use Tax Exemption for Feminine Hygiene Products
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Little	McKay	CM	**Favorable**
2.	Fournier	Diez-Arguelles	AFT	**Recommend: Favorable**
3.	Fournier	Hansen	AP	**Favorable**

I. Summary:

SB 176 exempts the sale of feminine hygiene products from state sales and use tax.

The Revenue Estimating Conference has estimated that SB 176 reduces General Revenue receipts by $3.8 million in Fiscal Year 2017-2018 and by $8.9 million on a recurring basis. It reduces local revenue by $1.0 million in Fiscal Year 2017-2018 and by $2.3 million on a recurring basis. The Department of Revenue is expected to incur additional costs of approximately $90,000 to notify sales tax dealers of this new exemption.

The bill provides an effective date of January 1, 2018.

II. Present Situation:

Florida Sales and Use Tax

Florida levies a six percent state sales and use tax on the sale or rental of most tangible personal property, admissions, rentals of transient accommodations, rental of commercial real estate, and a limited number of services.[1] In addition to the six percent state sales tax, Florida law authorizes counties to levy discretionary sales surtaxes.[2] Sales tax is added to the price of taxable goods or services and the tax is collected from the purchaser at the time of sale.

Chapter 212, F.S., contains statutory provisions that authorize the levy and collection of Florida's sales and use tax, as well as the exemptions and credits applicable to certain items or uses under specified circumstances. There are currently more than 200 different exemptions,

[1] Chapter 212, F.S.
[2] Sections 212.054 and 212.055, F.S.

exclusions, deductions, and credits from sales and use tax.[3] Medical products and supplies are among the items exempt from sales and use tax.[4] Common household remedies used in the cure, mitigation, treatment, or prevention of illness or disease are also exempt from sales and use tax.[5] Cosmetics and toilet articles are not exempt from sales and use tax.[6]

Feminine Hygiene Products and Sales Tax Exemption

Feminine hygiene products are products used to absorb or contain menstrual flow. These products include tampons, sanitary napkins, panty liners, and menstrual cups. Feminine hygiene products are currently subject to state sales and use tax.

However, in 1977, feminine hygiene products were added to the list of medical items exempt from sales and use tax.[7] In 1986, feminine hygiene products were removed from the list of exempt medical items and a study commission was created to review the public policy and fiscal impact of sales tax exemptions.[8] In 1987, the Sales and Tax Exemption Study Commission reviewed the fiscal impact of levying sales tax on feminine hygiene products and estimated such taxation would generate $2.6 million taxes in 1987-1988 and $3.9 million taxes in 1988-1989.[9]

In 2016, a class action lawsuit was filed in Leon County, Florida to challenge the state sales tax levied on the sale of feminine hygiene products.[10] The plaintiffs argue that feminine hygiene products are necessary for women's health and should be exempt as common household remedies.[11] The plaintiffs seek declaratory and injunctive relief, along with a refund of taxes.[12]

Other States

Currently, thirteen states and the District of Columbia do not impose sales and use tax on the sale of feminine hygiene products or have enacted legislation to exempt these products in the future. Five of those states do not impose a state sales tax at all.[13] The District of Columbia,[14] Illinois,[15]

[11] *Id.*
[12] *Id.*
[13] Alaska, Delaware, Montana, New Hampshire, and Oregon do not impose state sales tax.
[14] D.C. Official Code §47-2005 (2016)
[15] 35 Ill. Comp. Stat. 110/3-5 (2016).

Maryland,[16] Massachusetts,[17] Pennsylvania,[18] Minnesota,[19] New Jersey,[20] Connecticut,[21] and New York,[22] have passed legislation to exempt the sale of feminine hygiene products from sales and use tax.

III. Effect of Proposed Changes:

The bill creates a sales tax exemption for the sale of feminine hygiene products. The bill also defines "feminine hygiene product" as "a product used to absorb or contain menstrual flow, including, but not limited to, tampons, sanitary napkins, panty liners, and menstrual cups."

The bill provides an effective date of January 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18 of the Florida Constitution governs laws that require counties and municipalities to spend funds or that limit their ability to raise revenue or receive state tax revenue.

Subsection (b) of Art. VII, s. 18 of the Florida Constitution provides that, except upon approval by each house of the Legislature by two-thirds vote of its membership, the Legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, these requirements do not apply to laws that have an insignificant fiscal impact on local governments, which for Fiscal Year 2017-2018, is $2 million or less.[23,24,25]

Because this bill reduces local option tax revenue of counties and municipalities by $1.1 million on a recurring bases, it has an insignificant impact on local governments and the provisions of Art. VII, s. 18 of the Florida Constitution do not apply.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference has estimated that SB 176 reduces General Revenue receipts by $3.8 million in Fiscal Year 2017-2018 and by $8.9 million on a recurring basis. It reduces local revenue by $1.0 million in Fiscal Year 2017-2018 and by $2.3 million on a recurring basis.[26]

B. Private Sector Impact:

The fiscal impact of the bill is indeterminate, but positive. Individuals will see a reduction in the cost of purchasing feminine hygiene products.

C. Government Sector Impact:

The Department of Revenue estimates the cost associated with notifying businesses of the sales tax exemption, by printing and mailing a Tax Information Publication (TIP), will be approximately $90,000.[27]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates section 212.08(7)(ooo) of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Passidomo

28-00007-17 2017176__

A bill to be entitled

An act relating to a sales and use tax exemption for feminine hygiene products; amending s. 212.08, F.S.; exempting the sale of feminine hygiene products from the sales and use tax; defining the term "feminine hygiene product"; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (ooo) is added to subsection (7) of section 212.08, Florida Statutes, to read:

212.08 Sales, rental, use, consumption, distribution, and storage tax; specified exemptions.—The sale at retail, the rental, the use, the consumption, the distribution, and the storage to be used or consumed in this state of the following are hereby specifically exempt from the tax imposed by this chapter.

(7) MISCELLANEOUS EXEMPTIONS.—Exemptions provided to any entity by this chapter do not inure to any transaction that is otherwise taxable under this chapter when payment is made by a representative or employee of the entity by any means, including, but not limited to, cash, check, or credit card, even when that representative or employee is subsequently reimbursed by the entity. In addition, exemptions provided to any entity by this subsection do not inure to any transaction that is otherwise taxable under this chapter unless the entity has obtained a sales tax exemption certificate from the department or the entity obtains or provides other documentation as required by the department. Eligible purchases or leases made with such a certificate must be in strict compliance with this subsection and departmental rules, and any person who makes an exempt purchase with a certificate that is not in strict

28-00007-17 2017176__

compliance with this subsection and the rules is liable for and shall pay the tax. The department may adopt rules to administer this subsection.

(ooo) *Feminine hygiene products.*—The sale of a feminine hygiene product is exempt from the tax imposed by this chapter. As used in this paragraph, the term "feminine hygiene product" means a product used to absorb or contain menstrual flow, including, but not limited to, tampons, sanitary napkins, panty liners, and menstrual cups.

Section 2. This act shall take effect January 1, 2018.

THE FLORIDA SENATE

February 22, 2017

The Honorable Jack Latvala, Chair
Senate Committee on Appropriations
Florida Senate
201 The Capitol
404 South Monroe Street
Tallahassee, FL 32399

Dear Chair Latvala:

Senate Bill 176, Sales and Use Tax Exemption for Feminine Hygiene Products, has been referred to the Appropriations Committee. I would appreciate the placing of this bill on the committee agenda at your earliest convenience.

Thank you for your consideration.

Sincerely,

Kathleen C. Passidomo

Cc: Mike Hansen, Staff Director
Alicia Weiss, Committee Assistant

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1144
INTRODUCER:	Health Policy Committee and Senator Montford
SUBJECT:	Laboratory Screening
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Rossitto-Van Winkle	Stovall	HP	**Fav/CS**
2.	Loe	Williams	AHS	**Recommend: Favorable**
3.	Loe	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1144 amends the powers and duties of the Department of Health (DOH) pertaining to:

- Human Immunodeficiency Virus (HIV) - The bill requires providers in only nonhealth care settings to inform persons to be tested that a positive test result will be reported to the county health department (CHD) and the CHD will provide that person with locations for anonymous testing.
- Laboratory Screening for Other States - The bill authorizes the DOH to perform public health laboratory testing for other states on a fee-for-service basis.
- Lead Poison Screening - The bill revises the Lead Poisoning Prevention Screening and Educational Act to conform to federal guidelines and modifies the scope of responsibilities required of the DOH.
- Newborn Screening - The bill revises the composition of the Genetics and Newborn Screening Advisory Council (GNSAC), adds eligible individuals who may receive test results from the Newborn Screening Program (NSP), and expands the responsibility of the NSP to screen for genetic disorders even when treatment is not currently available.

The bill has no impact on state revenues or expenditures.

The bill provides an effective date of July 1, 2017.

II. Present Situation:

Human Immunodeficiency Virus (HIV)

HIV is an immune system virus that can lead to acquired immunodeficiency syndrome, or AIDS. HIV affects specific cells in the immune system and, over time, the virus can destroy so many of those cells that the body cannot fight off infections and disease.[1] There is no cure for HIV but it can be controlled with proper medical care, including antiretroviral therapy (ART). If taken properly, ART can dramatically prolong the lives of people infected with HIV, keep them healthy, and greatly lower the chance of infecting others.[2] A person diagnosed with HIV and treated, before the disease advances, can live nearly as long as someone who does not have HIV. If left untreated, HIV is almost always fatal.[3]

In the U.S., HIV is spread mainly through unprotected sex with someone who has HIV or by sharing needles, syringes, or other equipment used to inject drugs with someone who has HIV. HIV can also be spread from mother to baby during pregnancy, birth or breastfeeding.[4] The Centers for Disease Control and Prevention (CDC) estimated that in 2013, the most recent year for which the information is available, more than 1.2 million persons in the U.S. were living with HIV, including 13 percent (one in eight) who were unaware they were infected. However, the annual number of new HIV cases declined by 19 percent from 2005 to 2014. In 2015, approximately 39,513 persons were diagnosed with HIV; and gay and bisexual African American men were the population group most affected.[5]

HIV Testing

An HIV test is a medical test ordered to determine the presence or absence of antibodies or antigens to the human immunodeficiency virus, or the presence or absence of human immunodeficiency virus itself.[6] The CDC supports HIV testing that occurs during an individual's routine health care visit.[7] This is especially important for people who may not consider themselves at risk for HIV.[8]

The most common test for HIV is an HIV antibody test, where blood or saliva are checked for specific HIV fighting proteins known as HIV antibodies.[9] This test is considered "preliminary"

[8] In Florida, only 42.2 percent of adults reported having ever been tested for HIV; Florida Department of Health, *Florida Charts*, *available at* http://www.flhealthcharts.com/charts/Brfss/StateDataViewer.aspx?bid=119 (last visited March 20, 2017).
[9] The U.S. Department of Health and Human Services, *Types of HIV Tests*, (updated Mar. 7, 2017) *available at* http://aids.gov/hiv-aids-basics/prevention/hiv-testing/hiv-test-types/index.html, (last visited March 20, 2017).

because it can take between three to 12 weeks for the body to produce sufficient HIV antibodies for the test to detect the presence of the antibodies.[10] If the test result is positive, follow-up diagnostic testing is required to confirm the presence of the HIV.

Follow-up HIV testing detects both antibodies and antigens. The antibody-antigen test can find a recent HIV infection earlier than tests that detect only antibodies, but antibody-antigen tests are only available for blood, not other body fluids.[11]

HIV in Florida

The DOH estimates that approximately 127,589 persons living in Florida are infected with HIV.[12] In 2016, Florida ranked first in the nation in the number of new HIV cases, with over 5,300 new cases; however, this was down from 2014, when there were more than 6,000 newly reported HIV infections in Florida.[13]

HIV Testing in Florida

Section 381.004, F.S., governs HIV testing in Florida. It creates a statewide network of confidential and anonymous HIV testing and counseling sites, and establishes procedures for HIV testing, informed consent, and reporting requirements. The DOH CHDs are the primary source for state-sponsored HIV programs and provide testing, counseling, prevention outreach, and education to the public. The CHDs, and any other person conducting an AIDS or HIV testing program, must register with the DOH and meet necessary requirements.[14] The statute was enacted to create an environment in which people would agree to seek out HIV testing because they would be sufficiently informed about the infection and assured about the privacy of a decision to be tested.[15]

Notification and Informed Consent

Section 381.004(2), F.S., differentiates between a "health care setting" and a "nonhealth care setting" when delineating the procedures required to obtain a person's consent to perform an HIV test.

In the health care setting, the person to be tested must be notified, either orally or in writing, that the test is planned and that he or she has a right to refuse. If the person consents and has a current, signed general medical consent form, no separate consent form is required for the HIV test. If the person refuses the HIV test, it must be documented in their medical records.[16] A

[16] Section 381.004(2), F.S.

"health care setting" is defined as a setting devoted to the diagnosis and care of persons or the provision of medical services to persons.

In a "nonhealth care setting," a provider is required to obtain a subject's informed consent before performing an HIV test. Informed consent must be preceded by an explanation of the subject's right to confidential treatment of the test results and the information identifying him or her as the test subject.[17] A "nonhealth care setting" is defined as a site that conducts HIV testing for the sole purpose of identifying HIV infection, but does not provide medical treatment.

In either the healthcare or nonhealth care setting, every person tested for HIV must first give his or her informed consent, except as specified in s. 381.004(2)(h), F.S. Informed consent for HIV testing requires:

- An explanation that the identity of the person to be tested, and the results of the test, are confidential and protected from disclosure to the extent permitted by law;
- Notice that persons with a positive HIV test will be reported to the local CHD; and
- Notice that anonymous testing is available and the locations of the anonymous testing sites.[18]

Informed consent must be in writing when it is:

- From the potential donor, or donor's legal representative, prior to donating blood, blood components, organs, skin, semen, or other human tissue or body part;
- For insurance purposes; and
- For contract purposes in a health maintenance organization.[19]

Currently, test results contained in medical records of hospitals licensed under ch. 395, F.S., can be released under s. 395.3025, F.S., if the hospital has obtained written informed consent for the HIV test. Informed consent is not required in numerous situations, including when a significant exposure has occurred.[20]

The DOH Laboratory Testing for Other States

Section 381.0202, F.S., directs the DOH to establish and maintain laboratories in the state for microbiological and chemical analysis and any other purpose it determines necessary for the protection of public health, safety, and welfare. The DOH operates the Bureau of Public Health Laboratories that provides diagnostic screening, monitoring, reference, research, and emergency public health laboratory services to CHDs and other official agencies, physicians, hospitals, and private laboratories.[21]

Due to costs and resource limitations, it is not feasible for all 50 states to maintain public health testing infrastructure.[22] Furthermore, reagents to test for rare or emerging pathogens are often

only available in limited quantities from the CDC.[23] In response, the CDC advocates for the establishment of regional testing centers to perform specialized testing for multiple states.[24]

Current statutory language does not give the DOH authority to perform public health laboratory testing for samples from other states.

Lead Poison Screening and Education

"Lead poisoning" or "lead toxicity" are both defined as high levels of lead, which is a heavy metal, typically associated with severe health effects. The amount of lead in the body and tissues, as well as the length of time of the exposure, determines the toxicity level and the signs and symptoms exhibited by a person.[25] The CDC has termed excessive absorption to lead as one of the most common pediatric health problems in the U.S. today, and it is entirely preventable.[26] Enough is known about lead poisoning to prevent lead exposure and permanently eradicate this condition. This makes the persistence of lead poisoning in the U.S. a singular and direct challenge to public health authorities, clinicians, regulatory agencies, and society.[27] While the U.S. has not eradicated lead poisoning completely, it has made tremendous progress in reducing lead exposure. [28]

Adult Lead Poisoning

Lead poisoning in adults is a medical condition caused by increased BLLs in the body that can be from, among other things, food, water, soil, home building materials including lead paint, exhaust fumes, and industrial and recycling waste. Lead interferes with a variety of biologic processes and is toxic to many organs and tissues, including the heart, bones, intestines, kidneys, and reproductive and nervous systems. The CDC states that a BLL of five micrograms per deciliter (5 µg/dL) or above for an adult is cause for concern; however, lead may impair development and have harmful health effects at even lower levels. There is no known safe level of lead exposure.[29] In 2015, the National Institute for Occupational Safety and Health also designated five micrograms per deciliter (5 µg/dL) or above from whole blood, in a venipuncture blood sample, as an elevated BLL for adults.

Childhood Lead Poisoning

In the U.S. today, there are approximately 3.6 million families with a child under six years of age who live in homes with one or more conditions that can expose a child to lead levels that the U.S. Environmental Protection Agency (EPA) considers hazardous. The CDC recognizes a reference level of five micrograms of lead per deciliter (5 µg/dL) of blood to identify children

[29] *Id.*

whose BLLs are high enough for the CDC to recommend public health actions be initiated. Approximately 500,000 children each year ages one to five years of age exceed the reference level, which is based on an extrapolation of the U.S. population of children ages one to five who are tested for BLLs. The median concentration of BLLs for U.S. children one to five years of age has declined from 15 µg/dL in 1976-1980 to 0.7 µg/dL in 2013-2014 - a decrease of 95 percent;[30] however, there is no safe BLL for children that has been identified.[31] The largest decline occurred between 1970 and 1990 following the elimination of lead in motor vehicle gasoline, the ban on lead paint for residential use, the removal of lead from food cans, bans on the use of lead pipes and plumbing fixtures, and other limitations on lead uses.[32]

Signs and Symptoms of Lead Poisoning

Lead poisoning is classified acute or chronic depending upon the length of time the individual has been exposed to the source of the lead.[33] Signs and symptoms of acute lead poisoning include abdominal pain, nausea, diarrhea, and poor appetite.

Chronic lead poisoning usually presents itself with symptoms affecting multiple body systems. It is associated with three main types of symptoms: gastrointestinal, neuromuscular, and neurological. Central nervous system and neuromuscular symptoms usually result from intense exposure while gastrointestinal symptoms usually result from exposure over longer periods of time.

Lead Toxicity Testing

In 2012, the CDC adopted the BLL as its preferred method of testing children and adults for elevated levels of lead in the body, and five micrograms per deciliter (5 µg/dL) as the level where environmental or educational public health intervention is required.[34] While testing is available to detect lead in any body tissue, the primary tests used in the last 30 years to evaluate lead exposure that are readily available to practitioners to determine lead exposure levels in the human body are:

- Venipuncture[35] - BLL, Complete Blood Count, or EP and ZPP[36] blood levels;[37]
- Capillary stick[38,39] - for BLLs;
- Radiographs - Abdominal radiographs to detect the presence of radio-dense lead foreign bodies in the gastrointestinal tract, or long bone radiographs to detect the presence of lead lines;[40]and
- Hair and fingernail scrapings.[41]

Lead Poisoning Prevention Screening and Education Act

In 2006, the Florida Legislature created the Lead Poisoning Prevention Screening and Education Act (Act). The Act requires the DOH to establish a program for the early identification of persons at risk for having elevated BLLs. Section 381.985(1), F.S., requires the program to systematically screen children under the age of six in certain targeted populations for the presence of elevated BLLs. The DOH is required to consult with professional medical groups and other sources, and adopt rules that establish procedural guidelines for the screening of children under six, the appropriate intervals for re-screening, and the follow-up for children found to have elevated BLLs.[42] The Act defines "elevated blood-lead level" as a quantity of lead in whole venous blood that exceeds ten micrograms per deciliter (10 µg/dL) or such other level as provided in the Act.[43]

The Act requires the DOH to establish a statewide, multifaceted, ongoing educational program designed to meet the needs of tenants, property owners, health care providers, early childhood educators, care providers, and realtors concerning lead poisoning prevention.[44] This educational program requires the DOH to:

- Sponsor public service announcements on radio, television, print media, and the internet about the nature of lead-based paint hazards, the importance of standards for lead poisoning prevention, and the purposes and responsibilities of the Act; and

[35] Medicare defines venipuncture, for purposes of reimbursement using CPT code 36415, as the process of puncturing a vein and withdrawing a blood sample for purposes of analysis for testing. The most common method and site of venipuncture is the insertion of a needle into the cubital vein of the anterior forearm at the elbow fold. It is fee scheduled at $3.10, the same a capillary stick. *See* Medicare Fee, Payment, Procedure code, ICD, Denial, C*PT code venipuncture - 36415 and 36416 - Billing Tips - Not separately paid*, *available at*: http://www.medicarepaymentandreimbursement.com/2010/06/cpt-venipuncture-36415-not-seperately.html, (last visited March 22, 2017).
[36] *Id.* Erythrocyte protoporphyrin (EP), commonly assayed as zinc protoporphyrin (ZPP), was previously considered the best test for screening for asymptomatic children; however, is not sufficiently sensitive at lower BLLs and therefore is not as useful a screening test for lead exposure as previously thought.
[37] *Id.* For individuals with high or chronic past exposure; however, BLLs often under-represent the total body burden because most lead is stored in the bone and may have "normal" levels in the blood.
[38] *Id.* The CDC recommends, that given the greater risk of contamination using the capillary stick method, an elevated BLL obtained through a capillary stick should always be confirmed through venipuncture.
[39] *Supra* note 43. Medicare defines a capillary stick, for purposes of reimbursement using CPT code 36416, as the collection of a blood specimen from the stick of the finger, heel, or ear. It is fee scheduled at $3.10, the same as venipuncture.
[40] *Id.* These are lines of increased density on the metaphysis growth plate of the bone, showing radiological growth retardation. This is not a routine procedure to identify lead poisoning, but a radiological finding of chronic exposure.
[41] *Id.* to detect their lead content is an uncertain estimate of body burden and is not recommended.
[42] Section 381.985(1), F.S.
[43] Section 381.983(3), F.S.
[44] Section 381.984(1), F.S.

- Develop culturally and linguistically appropriate information pamphlets regarding lead poisoning, testing, prevention, treatment, and the purposes of the Act.[45]

The DOH previously had federal funding to conduct a lead poisoning prevention program, including funding for a large media campaign; however, the federal funding for this program ended in 2012. [46]

The Act also requires the DOH to maintain records of all screenings conducted, indexed geographically and by owner, to determine the location of areas with relatively high incidence of lead poisoning and elevated BLLs. All confirmed and probable cases of lead poisoning found in the course of screening must be reported to the affected individual, his or her parent or legal guardian if he or she is a minor, and the State Surgeon General.[47]

Florida Newborn Screening Program

The Newborn Screening Program (NSP) screens all newborns for hearing impairment and to identify, diagnose, and manage newborns at risk for selected disorders that, without detection and treatment, can lead to permanent developmental and physical damage or death.[48]

The Florida Genetics and Newborn Screening Advisory Council (GNSAC) advises the DOH on which disorders should be added to the panel of screening for disorders, and the procedures for collecting and transmitting specimens.[49] The GNASC is made up of 15 members, including consumer members, various state agency representatives and health care providers, and one representative from each of the four medical schools in the state.[50] When the GNSAC was created, the state only had four medical schools. Currently there are ten medical schools in Florida.

The NSP currently screens for 31 core conditions and 22 secondary conditions,[51] and 50 of these conditions are included in the 58 disorders listed in the federal Recommended Uniform

[50] *Id.*
[51] Department of Health, *Disorder List* (December 17, 2013), *available at* http://www.floridahealth.gov/programs-and-services/childrens-health/newborn-screening/_documents/newborn-screening-disorders.pdf, (last visited March 21, 2017); this list is also maintained by the DOH as a Rule. *See* also Rule 64C-7.002, F.A.C.

Screening Panel (RUSP).[52] Currently, every disorder screened[53] on the NSP panel has known treatment options.

The NSP involves coordination among several entities, including the Bureau of Public Health Laboratories Newborn Screening Laboratory in Jacksonville (state laboratory), Children's Medical Services (CMS) Newborn Screening Follow-up Program, and referral centers, birthing centers, and physicians throughout the state.[54]

Currently, the state laboratory is only authorized to release the results of a newborn's metabolic tests or screenings to the newborn's health care practitioner.[55] Federal regulations require public health laboratories to release screening results, upon request, to the patient, the patient's parent or legal guardian, the patient's personal representative, or person designated by the patient or legal guardian.[56]

III. Effect of Proposed Changes:

Human Immunodeficiency Virus (HIV)

Section 1 amends s. 381.004(2)(a), F.S., to remove the requirement on a provider in health care settings to inform a person seeking an HIV test that a positive test result will be reported to the CHD and the CHD will provide information on the availability and locations for anonymous testing. This section requires only providers in nonhealth care settings to inform persons seeking HIV testing of those facts.

Providers in health care settings will still be required to report positive HIV test results to the DOH. This section does not remove the reporting requirement, only the requirement for providers to provide the person seeking the HIV test the information that a positive result will be reported to the CHD and the CHD will provide information on the availability and locations for anonymous testing.

The DOH Laboratory Testing for Other States

Section 2 amends s. 381.0202, F.S., to authorize the DOH to perform laboratory testing related to public health for other states on a fee-for-service basis.

---

[52] The federal Advisory Committee on Heritable Disorders in Newborns and Children (committee) advises the Secretary of the U.S. Department of Health and Human Services on the most appropriate application of universal newborn screening tests, technologies, policies, guidelines, and standards. The committee established the Recommended Uniform Screening Panel (RUSP), and periodically updates it. *See* U.S. Department of Health and Human Services, *Advisory Committee on Heritable Disorders in Newborns and Children, available at* https://www.hrsa.gov/advisorycommittees/mchbadvisory/heritabledisorders/, (last visited March 23, 2017).

[53] X-Linked Adrenoleukodystrophy (X-ALD) was recommended by the GNSAC on February 19, 2016, for inclusion to the NSP panel; however, screening for the disorder is not expected to begin until at least early 2018 when a test kit approved by the federal Food and Drug Administration is anticipated to be available.

[54] Department of Health, *Newborn Screening, available at* http://www.floridahealth.gov/programs-and-services/childrens-health/newborn-screening/ (last visited March 21, 2017).

[55] Section 383.14(1)(c), F.S.

[56] 42 C.F.R. s. 493.1291(l) (2016).

Lead Poison Screening and Education

Section 3 s. 381.983(3), F.S., to revise the definition of an "elevated blood-lead level." This section removes the requirement that, in determining a person's BLL, the blood sample tested must be only whole venous blood. This section broadens the permissible test samples for BLLs to include blood from a capillary draw, but does not define the term "draw". The use of a capillary sample to test for an elevated BLL might increase the cost of testing as, according to the CDC, all elevated BLLs from a capillary stick should be confirmed by secondary testing with a whole blood sample.[57]

Section 3 eliminates the specific, numerical level of 10 µg/dL as the quantity of lead in the blood that constitutes an "elevated blood-lead level." This section requires the DOH to specify by rule the test result level defining an elevated BLL based on national recommendations developed by the Council of State and Territorial Epidemiologists and the CDC. This change allows for the adjustment of reporting and screening requirements as the science relating to BLLs changes.

Section 4 amends s. 381.984(2)-(3), F.S., to revise the required media options for the DOH to use as it sponsors public service announcements regarding lead based paint hazards, lead poisoning prevention and the purposes and responsibilities set out in the Lead Poisoning Prevention Screening and Education Act.[58] This creates flexibility and may result in a cost savings for the distribution of educational materials regarding lead poisoning.

Section 5 amends s. 381.985, F.S., to require the DOH to establish guidelines for the early identification of persons at risk of having elevated BLLs and for the systematic screening of children under age six in targeted populations. This replaces the responsibility for the DOH to establish a program for the early identification of persons at risk for having elevated BLLs, which shall systematically screen children under the age of six in certain targeted populations for the presence of elevated BLLs.

Section 5 reduces the DOH reporting and record keeping requirements regarding BLLs. This section requires the DOH to only maintain records of screenings with an elevated BLL rather than all screenings, and removes the requirement to report all screening results to affected individuals and maintain geographically indexed records. This section places the requirement to notify the individual tested, or the individual's parent or legal guardian if he or she is a minor, on the provider conducting or ordering the lead level screening.

Newborn Screening for Metabolic, Hereditary or Congenital Disorders

Section 6 amends s. 383.14(1)(c), F.S., to allow the state laboratory to release metabolic tests or screenings to a newborn's parent or legal guardian, the newborn's personal representative, or a person designated by the newborn's parent or legal guardian. This change aligns state law with federal regulations relating to public health laboratories.

[57] *Supra* note 48.
[58] Sections 381.982 - 381.985, F.S.

Section 6 amends s. 383.14(3)(f), F.S., to expand the DOH's duties in the newborn screening program to also promote the availability of genetic services, in addition to the availability of genetic studies and counseling, so that family members may benefit from detection and available knowledge of conditions even when no treatment is currently available.

Section 6 amends s. 383.14(5), F.S. to update the composition of the GNSAC to include a representative from four of the 10 medical schools in the state. The number of medical school representatives remains the same, but this change allows representatives from all medical schools in the state the potential to be appointed to the GNSAC, not just those medical schools in existence when the GNSAC was created.

Section 7: The effective date of the bill is July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill has no impact on state revenues or expenditures.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 381.004, 381.0202, 381.983, 381.984, 381.985, and 383.14.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Health Policy on March 27, 2017:
The CS reinstates the requirement for the DOH to sponsor and seek participation from the private sector for public service announcements about lead poisoning prevention but adds a choice of media for the announcements including radio, television, the internet, or in print media, rather than requiring the use of all methods.

B. Amendments:

None.

By the Committee on Health Policy; and Senator Montford

588-02964A-17 20171144c1

A bill to be entitled

An act relating to laboratory screening; amending s. 381.004, F.S.; clarifying that certain requirements related to the reporting of positive HIV test results to county health departments apply only to testing performed in a nonhealth care setting; amending s. 381.0202, F.S.; authorizing the Department of Health to perform laboratory testing for other states; amending s. 381.983, F.S.; redefining the term "elevated blood-lead levels"; amending s. 381.984, F.S.; revising requirements of a public information initiative on lead-based-paint hazards; revising requirements on the distribution of information on childhood lead poisoning developed by the State Surgeon General or his or her designee; amending s. 381.985, F.S.; revising requirements for the State Surgeon General's program for early identification of persons at risk of having elevated blood-lead levels; requiring the department to maintain records showing elevated blood-lead levels; requiring that health care providers report to the individual who was screened the results that indicate elevated blood-lead levels; amending s. 383.14, F.S.; authorizing the State Public Health Laboratory to release the results of a newborn's hearing and metabolic tests to certain individuals; requiring the department to promote the availability of services to promote detection of genetic conditions; clarifying that the membership of the Genetics and Newborn Screening Advisory Council

588-02964A-17 20171144c1

must include one member each from four of the medical schools in this state; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (a) of subsection (2) of section 381.004, Florida Statutes, is amended to read:

381.004 HIV testing.—

(2) HUMAN IMMUNODEFICIENCY VIRUS TESTING; INFORMED CONSENT; RESULTS; COUNSELING; CONFIDENTIALITY.—

(a) Before performing an HIV test:

1. In a health care setting, the person to be tested shall be notified orally or in writing that the test is planned and that he or she has the right to decline the test. If the person to be tested declines the test, such decision shall be documented in the medical record. A person who has signed a general consent form for medical care is not required to sign or otherwise provide a separate consent for an HIV test during the period in which the general consent form is in effect.

2. In a nonhealth care setting, a provider shall obtain the informed consent of the person upon whom the test is to be performed. Informed consent shall be preceded by an explanation of the right to confidential treatment of information identifying the subject of the test and the results of the test as provided by law. The provider shall also inform the test subject that a positive HIV test result will be reported to the county health department with sufficient information to identify the test subject and provide him or her with information on the availability and location of sites where anonymous testing is

performed. As required in paragraph (3)(c), each county health department shall maintain a list of sites where anonymous testing is performed which includes site locations, telephone numbers, and hours of operation.

~~The test subject shall also be informed that a positive HIV test result will be reported to the county health department with sufficient information to identify the test subject and of the availability and location of sites at which anonymous testing is performed. As required in paragraph (3)(c), each county health department shall maintain a list of sites at which anonymous testing is performed, including the locations, telephone numbers, and hours of operation of the sites.~~

Section 2. Section 381.0202, Florida Statutes, is amended to read:

381.0202 Laboratory services.—

(1) The department shall establish and maintain, in suitable and convenient places in the state, laboratories for microbiological and chemical analyses and any other purposes it determines necessary for the protection of the public health.

(2) The department may contract or agree with any person or public or private agency to provide laboratory services relating to or having potential impact on the public health or relating to the health of clients directly under the care of the state.

(3) The department is authorized to establish and collect reasonable fees and charges for laboratory services provided. Such fees and charges shall be deposited in a trust fund administered by the department and shall be used solely for this purpose.

(4) The department may perform laboratory testing related to public health for other states on a fee-for-service basis.

Section 3. Subsection (3) of section 381.983, Florida Statutes, is amended to read:

381.983 Definitions.—As used in this act, the term:

(3) "Elevated blood-lead level" means a quantity of lead in the ~~whole venous~~ blood, measured from a venous or capillary draw ~~expressed in micrograms per deciliter (ug/dL)~~, which exceeds the cutpoint specified in department rule. The determination of elevated blood-lead level must be based on national recommendations developed by the Council of State and Territorial Epidemiologists and the Centers for Disease Control and Prevention. ~~10 ug/dL or such other level as specifically provided in this act.~~

Section 4. Subsections (2) and (3) of section 381.984, Florida Statutes, are amended to read:

381.984 Educational programs.—

(2) PUBLIC INFORMATION INITIATIVE.—The Governor, in conjunction with the State Surgeon General and his or her designee, shall sponsor a series of public service announcements on radio, television, or the Internet, or in ~~and~~ print media about the nature of lead-based-paint hazards, the importance of standards for lead poisoning prevention in properties, and the purposes and responsibilities set forth in this act. In developing and coordinating this public information initiative, the sponsors shall seek the participation and involvement of private industry organizations, including those involved in real estate, insurance, mortgage banking, or ~~and~~ pediatrics.

(3) DISTRIBUTION OF INFORMATION ~~LITERATURE~~ ABOUT CHILDHOOD

LEAD POISONING.~~—By January 1, 2007,~~ The State Surgeon General or his or her designee shall develop culturally and linguistically appropriate information and distribution methods ~~pamphlets~~ regarding childhood lead poisoning, the importance of testing for elevated blood-lead levels, prevention of childhood lead poisoning, treatment of childhood lead poisoning, and, as ~~where~~ appropriate, the requirements of this act. This ~~These~~ information ~~pamphlets~~ shall be distributed to parents or ~~the other~~ legal guardians of children 6 years of age or younger on the following occasions:

(a) By a health care provider at the time of a child's birth and at the time of any childhood immunization or vaccination unless it is established that such information ~~pamphlet~~ has been provided ~~previously~~ to the parent or legal guardian by the health care provider within the prior 12 months.

(b) By the owner or operator of any child care facility or preschool or kindergarten class on or before each October 15 ~~of the calendar year~~.

Section 5. Section 381.985, Florida Statutes, is amended to read:

381.985 Screening program.—

(1) The State Surgeon General shall establish guidelines ~~a program~~ for early identification of persons at risk of having elevated blood-lead levels and for the systematic screening of ~~. Such program shall systematically screen~~ children under 6 years of age in the target populations identified in subsection (2) for the presence of elevated blood-lead levels. Children within the specified target populations shall be screened with a blood-lead test at age 12 months and age 24 months, or between the

ages of 36 months and 72 months if they have not previously been screened. The State Surgeon General shall, after consultation with recognized professional medical groups and such other sources as the State Surgeon General deems appropriate, adopt rules to follow established national guidelines or recommendations such as those issued by the Council of State and Territorial Epidemiologists and the Centers for Disease Control and Prevention related to reporting elevated blood-lead levels and screening results to the department pursuant to this section. ~~promulgate rules establishing:~~

~~(a) The means by which and the intervals at which such children under 6 years of age shall be screened for lead poisoning and elevated blood lead levels.~~

~~(b) Guidelines for the medical followup on children found to have elevated blood-lead levels.~~

(2) In developing screening programs to identify persons at risk with elevated blood-lead levels, priority shall be given to persons within the following categories:

(a) All children enrolled in the Medicaid program at ages 12 months and 24 months, or between the ages of 36 months and 72 months if they have not previously been screened.

(b) Children under the age of 6 years exhibiting delayed cognitive development or other symptoms of childhood lead poisoning.

(c) Persons at risk residing in the same household, or recently residing in the same household, as another person at risk with an elevated ~~a~~ blood-lead level ~~of 10 ug/dL or greater~~.

(d) Persons at risk residing, or who have recently resided, in buildings or geographical areas in which significant numbers

of cases of lead poisoning or elevated blood-lead levels have recently been reported.

(e) Persons at risk residing, or who have recently resided, in an affected property contained in a building that during the preceding 3 years has been subject to enforcement for violations of lead-poisoning-prevention statutes, ordinances, rules, or regulations ~~as specified by the State Surgeon General~~.

(f) Persons at risk residing, or who have recently resided, in a room or group of rooms contained in a building whose owner also owns a building containing affected properties which, during the preceding 3 years, has been subject to an enforcement action for a violation of lead-poisoning-prevention statutes, ordinances, rules, or regulations.

(g) Persons at risk residing in other buildings or geographical areas in which the State Surgeon General reasonably determines there is ~~to be~~ a significant risk of affected individuals having an elevated blood-lead level. ~~a blood-lead level of 10 ug/dL or greater.~~

(3) The department ~~State Surgeon General~~ shall maintain comprehensive records of all screenings indicating an elevated blood-lead level. ~~conducted pursuant to this section. Such records shall be indexed geographically and by owner in order to determine the location of areas of relatively high incidence of lead poisoning and other elevated blood-lead levels.~~

~~All cases or probable cases of lead poisoning found in the course of screenings conducted pursuant to this section shall be reported to the affected individual, to his or her parent or legal guardian if he or she is a minor, and to the State Surgeon~~

~~General.~~

(4) The results of screenings conducted pursuant to this section shall be reported by the health care provider who conducted or ordered the screening to the individual who was screened, or to the individual's parent or legal guardian if he or she is a minor.

Section 6. Paragraph (c) of subsection (1), paragraph (f) of subsection (3), and subsection (5) of section 383.14, Florida Statutes, are amended to read:

383.14 Screening for metabolic disorders, other hereditary and congenital disorders, and environmental risk factors.—

(1) SCREENING REQUIREMENTS.—To help ensure access to the maternal and child health care system, the Department of Health shall promote the screening of all newborns born in Florida for metabolic, hereditary, and congenital disorders known to result in significant impairment of health or intellect, as screening programs accepted by current medical practice become available and practical in the judgment of the department. The department shall also promote the identification and screening of all newborns in this state and their families for environmental risk factors such as low income, poor education, maternal and family stress, emotional instability, substance abuse, and other high-risk conditions associated with increased risk of infant mortality and morbidity to provide early intervention, remediation, and prevention services, including, but not limited to, parent support and training programs, home visitation, and case management. Identification, perinatal screening, and intervention efforts shall begin prior to and immediately following the birth of the child by the attending health care

provider. Such efforts shall be conducted in hospitals, perinatal centers, county health departments, school health programs that provide prenatal care, and birthing centers, and reported to the Office of Vital Statistics.

(c) *Release of screening results.*—Notwithstanding any law to the contrary, the State Public Health Laboratory may release, directly or through the Children's Medical Services program, the results of a newborn's hearing and metabolic tests or screenings to the newborn's health care practitioner, the newborn's parent or legal guardian, the newborn's personal representative, or a person designated by the newborn's parent or legal guardian. As used in this paragraph, the term "health care practitioner" means a physician or physician assistant licensed under chapter 458; an osteopathic physician or physician assistant licensed under chapter 459; an advanced registered nurse practitioner, registered nurse, or licensed practical nurse licensed under part I of chapter 464; a midwife licensed under chapter 467; a speech-language pathologist or audiologist licensed under part I of chapter 468; or a dietician or nutritionist licensed under part X of chapter 468.

(3) DEPARTMENT OF HEALTH; POWERS AND DUTIES.—The department shall administer and provide certain services to implement the provisions of this section and shall:

(f) Promote the availability of genetic studies, services, and counseling in order that the parents, siblings, and affected newborns may benefit from detection and available knowledge of the condition.

All provisions of this subsection must be coordinated with the

provisions and plans established under this chapter, chapter 411, and Pub. L. No. 99-457.

(5) ADVISORY COUNCIL.—There is established a Genetics and Newborn Screening Advisory Council made up of 15 members appointed by the State Surgeon General. The council shall be composed of two consumer members, three practicing pediatricians, at least one of whom must be a pediatric hematologist, one member ~~representative from~~ each from ~~of the~~ four of the medical schools in this ~~the~~ state, the State Surgeon General or his or her designee, one representative from the Department of Health representing Children's Medical Services, one representative from the Florida Hospital Association, one individual with experience in newborn screening programs, one individual representing audiologists, and one representative from the Agency for Persons with Disabilities. All appointments shall be for a term of 4 years. The chairperson of the council shall be elected from the membership of the council and shall serve for a period of 2 years. The council shall meet at least semiannually or upon the call of the chairperson. The council may establish ad hoc or temporary technical advisory groups to assist the council with specific topics which come before the council. Council members shall serve without pay. Pursuant to the provisions of s. 112.061, the council members are entitled to be reimbursed for per diem and travel expenses. It is the purpose of the council to advise the department about:

(a) Conditions for which testing should be included under the screening program and the genetics program.

(b) Procedures for collection and transmission of specimens and recording of results.

(c) Methods whereby screening programs and genetics services for children now provided or proposed to be offered in the state may be more effectively evaluated, coordinated, and consolidated.

Section 7. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 808
INTRODUCER:	Senator Mayfield
SUBJECT:	Maximum Class Size
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Androff	Graf	ED	**Favorable**
2.	Sikes	Elwell	AED	**Recommend: Favorable**
3.	Sikes	Hansen	AP	**Pre-meeting**
4.			RC	

I. Summary:

SB 808 revises the maximum class size penalty calculation for public schools. Specifically, the bill:

- Modifies the penalty for exceeding maximum class size to be calculated at the school-wide average for all public schools, and
- Revises requirements for the compliance plan that noncompliant schools must submit to the Commissioner of Education.

The bill does not impact state revenues or expenditures.

The bill takes effect July 1, 2017.

II. Present Situation:

Florida law specifies maximum class size requirements for public schools.

Maximum Class Size

In 2002, Florida voters approved the Class Size Reduction Amendment ("CSRA") to the Florida Constitution.[1] The amendment requires the Legislature to enact provisions implementing the amendment by the beginning of the 2010 school year.[2] Specifically, the provisions must ensure that the maximum number of students assigned to each teacher in a public school does not exceed:[3]

[1] Art. IX, s. 1(a), Fla. Const.
[2] *Id.*
[3] *Id.*; *see* s. 1003.03(1), F.S.

- 18 students for prekindergarten through grade 3;
- 22 students for grades 4 through 8; and
- 25 students for grades 9 through 12.

Florida law expressly exempts extracurricular classes from the class size mandate.[4] The class size requirements apply solely to core-curricular courses defined by law.[5]

Traditional Public Schools

Currently, traditional public school class size compliance requirements are calculated at the classroom level.[6] Traditional public schools must meet class size limits for every core-curricula course.[7] If a school district fails to comply with the specified class size requirements, the school district's class size reduction categorical funds are reduced.[8]

Other Public Schools

District school boards annually report the number of students attending various public schools of choice in accordance with rules adopted by the State Board of Education. In 2010, the compliance calculation for public charter schools was changed from a classroom level average to a school-level average.[9] In 2013, the school-level average calculation was applied to district operated schools of choice.[10] In 2016, the Legislature granted the same school-level treatment to schools participating in the Principal Autonomy Pilot Program Initiative (PAPPI).[11]

Innovation schools of technology are schools that have adopted a blended learning strategy on a schoolwide basis.[12] A blended learning program is an education program in which a student learns in part through online delivery of content and instruction with some element of student control over time, place, path or pace and in part at a supervised brick-and-mortar location away from a student's home.[13] The calculation for compliance with maximum class size requirements is the average at the school level for innovation schools of technology.[14]

[4] Art. IX, s. 1(a), Fla. Const.; s. 1003.03, F.S.
[5] *Id.*; s. 1003.01(14), F.S.
[6] Each year, on or before the October student membership survey, the maximum number of students assigned to each teacher who is teaching core-curricula courses for prekindergarten through grade 3 may not exceed 18 students, school classrooms for grades 4-8 may not exceed 22 students, and core-curricula courses in grades 9-12 may not exceed 25 students. *See* ss. 1003.03(1), F.S. and 1002.33(16)(b)3., F.S.
[7] Section 1003.01(14), F.S.
[8] Section 1003.03(4), F.S.
[9] Section 6, ch. 2010-154, L.O.F.
[10] Section 1002.31(5), F.S. as amended by s. 9 ch. 2013-250, L.O.F.
[11] Section 1011.6202(3)(b)7., F.S.; s. 1, ch. 2016-223, L.O.F.
[12] Section 1002.451(1)(b), F.S.
[13] *Id.*
[14] *Id.* at (5)(a)3.

Funding

The CSRA requires that the Legislature provide sufficient funds for the school districts to reduce the number of students in each classroom by at least two students annually until the constitutionally prescribed maximum number of students is achieved.[15] The implementing statute specified that the number of students per classroom be measured at the:[16]

- District level for each of the three grade groupings during fiscal years 2003-2006.
- School level for each of the three grade groupings in fiscal years 2006-2009.
- Individual classroom level for each of the three grade groupings in fiscal years 2009-2010 and thereafter.

To implement the CSRA, the Legislature annually appropriates class size reduction categorical funding for school district operating costs.[17] Additionally, the Legislature has appropriated funds for capital outlay needs and granted bonding authority to fund classroom construction and other capital needs related to class size reduction.[18]

Noncompliance Penalty

The Florida Department of Education (DOE) is required to reduce class size categorical funding for school districts and charter schools that are out of compliance with class size requirements.[19] The penalty is calculated at the classroom level for traditional public schools and at the school level for charter schools, district-operated schools of choice, innovation schools of technology, and schools enrolled in PAPPI.[20] The DOE calculates the penalty for traditional public schools that are out of compliance as follows:[21]

- Step 1: Identify, for each grade group, the number of classrooms which exceed the maximum and the total number of students which exceed the maximum for all classes.
- Step 2: Determine the number of full-time equivalent (FTE) students which exceed the maximum for each grade group.
- Step 3: Multiply the total number of FTE students over the maximum for each grade grouping by the district's FTE dollar amount of the class size reduction operating categorical allocation for that year and calculate the total for all three grade groupings.
- Step 4: Multiply the total number of FTE students over the maximum for all classes by an amount equal to 50 percent of the base student allocation adjusted by the district cost differential for the 2013-2014 fiscal year.

A school district's class size reduction operating categorical allocation is then reduced by an amount equal to the sum of the calculations in Steps 3 and 4.[22] Beginning in the 2014-2015 fiscal year and thereafter, the total number of FTE students over the maximum for all classes must be

[15] Art. IX, s. 1(a), Fla. Const.
[16] Section 2, ch. 2003-391, L.O.F.
[17] Florida Department of Education, *Class Size Implementation Budget*, http://www.fldoe.org/finance/budget/class-size/index.stml (last visited March 20, 2017).
[18] *Id.*
[19] Section 1003.03(4)(a)5., F.S.
[20] Sections 1002.31(5), 1002.33(16)(b), 1002.451(5)(a)3., 1003.03(4)(a)1., and 1011.6202(3)(b)7., F.S.
[21] Section 1003.03(4)(a), F.S.
[22] *Id.* at (4)(a)5.

multiplied by 100 percent, rather than 50 percent, of the base student allocation adjusted by the district cost differential, thereby increasing the amount of the penalty (see Step 4).

The reduced amount is the lesser of the DOE's calculation or the undistributed balance of the school district's class size reduction operating categorical allocation. If a district made appropriate efforts to reduce class sizes, but still failed to achieve compliance or an emergency caused noncompliance, the Commissioner of Education is authorized to recommend an alternative transfer amount for approval by the Legislative Budget Commissioner.[23] Once the reduced amount is determined, after district appeals, the Commissioner of Education must prepare a reallocation of the funds made available as a bonus to districts that have fully met the class size requirements by calculating an amount that is up to 5 percent of the base student allocation, multiplied by the total district FTE students.[24] The reallocation total may not exceed 25 percent of the total funds reduced.

School districts that fail to comply with class size requirements must submit a plan certified by the district school board by February 1, which describes the actions the district will take in order to be in compliance by October of the following year.[25] For districts that submit the plan by the required deadline, the funds remaining after the reallocation calculation must be added back to the district's class size reduction operating categorical allocation based on each qualifying district's proportion of the total reduction for all qualifying districts for which a reduction was calculated.[26] The amount added back may not be greater than the amount that was reduced.[27]

III. Effect of Proposed Changes:

This bill revises the maximum class size penalty calculations for public schools. Specifically:

- Sections 1, 2, and 3 remove the class size penalty calculation exemption to the school-wide average for charter schools, district-operated schools of choice, district innovation schools of technology, and schools participating in the Principal Autonomy Pilot Program Initiative because the penalty calculation for all schools will be calculated at the school-wide average. This means that the class size penalty calculation will be determined by using the same methodology for all public schools.
- Section 4 revises the method for calculating the penalty for schools that fail to comply with the class size requirements by calculating Steps 2, 3, and 4 of the formula (as described in the Present Situation of this Analysis) at the school average instead of at the classroom level. This may reduce the penalty for the public schools that are not in compliance with class size requirements.
- Section 4 repeals an increase in the penalty calculation that began with the 2014-2015 fiscal year, by returning the penalty calculation to 50 percent of the base student allocation rather than 100 percent. This may reduce the class size penalty for school districts that are out of compliance with the class size requirements.
- Section 4 exempts a school district that has not complied with the class size limits specified in law (based on the 2017-2018 October student survey) and has timely submitted their

[23] Section 1003.03(4)(c), F.S.
[24] *Id.* at (4)(d).
[25] *Id.* at (4)(e).
[26] *Id.*
[27] *Id.*

certified plan (that describes future actions that will be taken for compliance) from the class size penalty for the 2017-2018 and 2018-2019 fiscal years. Such school districts have until the 2018-2019 October student survey to comply with the class size limit requirements. Additionally, such school districts must provide an updated plan by February 1, 2019, to the Commissioner of Education.

The bill takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

This bill does not impact state revenues or expenditures. The bill revises the class size penalty calculation for traditional public schools by performing the calculation at the school average instead of at the classroom level. The bill will likely reduce the penalty for school districts that fail to comply with the maximum class size requirements. The bill may also eliminate the penalty for a noncompliant school district in the 2017-2018 and 2018-2019 fiscal years if the school district submits its certified plan for compliance in a timely maner.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1002.31, 1002.33, 1002.451, 1003.03, 1011.6202.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Mayfield

A bill to be entitled

An act relating to maximum class size; amending s. 1002.31, F.S.; deleting a provision relating to compliance with maximum class size requirements for certain public schools of choice; amending s. 1002.33, F.S.; revising requirements for charter school compliance with maximum class size requirements; amending s. 1002.451, F.S.; revising requirements for district innovation school of technology compliance with maximum class size requirements; amending s. 1003.03, F.S.; calculating a school district's class size categorical allocation reduction at the school average when maximum class size requirements are not met; providing an exemption from the reduction of a school district's class size categorical allocation for specified fiscal years; requiring an updated plan for compliance with class size requirements from certain districts for a specified fiscal year; amending s. 1011.6202, F.S.; revising requirements for compliance with maximum class size requirements for a school participating in the Principal Autonomy Pilot Project Program; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (5) of section 1002.31, Florida Statutes, is amended to read:

1002.31 Controlled open enrollment; Public school parental choice.—

~~(5) For a school or program that is a public school of choice under this section, the calculation for compliance with maximum class size pursuant to s. 1003.03(4) is the average number of students at the school level.~~

17-01052-17 2017808__

Section 2. Paragraph (b) of subsection (16) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(16) EXEMPTION FROM STATUTES.—

(b) Additionally, a charter school shall be in compliance with the following statutes:

1. Section 286.011, relating to public meetings and records, public inspection, and criminal and civil penalties.

2. Chapter 119, relating to public records.

3. Section 1003.03, relating to the maximum class size~~, except that the calculation for compliance pursuant to s. 1003.03 shall be the average at the school level~~.

4. Section 1012.22(1)(c), relating to compensation and salary schedules.

5. Section 1012.33(5), relating to workforce reductions.

6. Section 1012.335, relating to contracts with instructional personnel hired on or after July 1, 2011.

7. Section 1012.34, relating to the substantive requirements for performance evaluations for instructional personnel and school administrators.

Section 3. Paragraph (a) of subsection (5) of section 1002.451, Florida Statutes, is amended to read:

1002.451 District innovation school of technology program.—

(5) EXEMPTION FROM STATUTES.—

(a) An innovation school of technology is exempt from chapters 1000-1013. However, an innovation school of technology shall comply with the following provisions of those chapters:

1. Laws pertaining to the following:

a. Schools of technology, including this section.

b. Student assessment program and school grading system.

c. Services to students who have disabilities.

d. Civil rights, including s. 1000.05, relating to discrimination.

e. Student health, safety, and welfare.

2. Laws governing the election and compensation of district school board members and election or appointment and compensation of district school superintendents.

3. Section 1003.03, governing maximum class size~~, except that the calculation for compliance pursuant to s. 1003.03 is the average at the school level~~.

4. Sections 1012.22(1)(c) and 1012.27(2), relating to compensation and salary schedules.

5. Section 1012.33(5), relating to workforce reductions, for annual contracts for instructional personnel. This subparagraph does not apply to at-will employees.

6. Section 1012.335, relating to contracts with instructional personnel hired on or after July 1, 2011, for annual contracts for instructional personnel. This subparagraph does not apply to at-will employees.

7. Section 1012.34, relating to requirements for performance evaluations of instructional personnel and school administrators.

Section 4. Subsection (4) of section 1003.03, Florida Statutes, is amended to read:

1003.03 Maximum class size.—

(4) ACCOUNTABILITY.—

(a) If the department determines that the number of

students assigned to any individual class exceeds the class size maximum, as required in subsection (1), based upon the October student membership survey, the department shall:

1. ~~Identify, for each grade group, the number of classes in which the number of students exceeds the maximum and the total number of students which exceeds the maximum for all classes.~~

~~2.~~ Determine the number of FTE students which exceeds the maximum for each grade group calculated at the school average.

2.~~3.~~ Multiply the total number of FTE students which exceeds the maximum for each grade group calculated at the school average by the district's FTE dollar amount of the class size categorical allocation for that year and calculate the total for all three grade groups.

3.~~4.~~ Multiply the total number of FTE students which exceeds the maximum for all classes calculated at the school average by an amount equal to 50 percent of the base student allocation adjusted by the district cost differential ~~for each of the 2010-2011 through 2013-2014 fiscal years and by an amount equal to the base student allocation adjusted by the district cost differential in the 2014-2015 fiscal year and thereafter~~.

4.~~5.~~ Reduce the district's class size categorical allocation by an amount equal to the sum of the calculations in subparagraphs 2. and 3. ~~and 4.~~

(b) The amount of funds reduced shall be the lesser of the amount calculated in paragraph (a) or the undistributed balance of the district's class size categorical allocation. The Florida Education Finance Program Appropriation Allocation Conference shall verify the department's calculation in paragraph (a). The commissioner may withhold distribution of the class size

categorical allocation to the extent necessary to comply with paragraph (a).

(c) In lieu of the reduction calculation in paragraph (a), if the Commissioner of Education has evidence that a district was unable to meet the class size requirements despite appropriate efforts to do so or because of an extreme emergency, the commissioner may recommend by February 15, subject to approval of the Legislative Budget Commission, the reduction of an alternate amount of funds from the district's class size categorical allocation.

(d) Upon approval of the reduction calculation in paragraphs (a)-(c), the commissioner must prepare a reallocation of the funds made available for the districts that have fully met the class size requirements. The funds shall be reallocated by calculating an amount of up to 5 percent of the base student allocation multiplied by the total district FTE students. The reallocation total may not exceed 25 percent of the total funds reduced.

(e) Each district that has not complied with the requirements in subsection (1) shall submit to the commissioner by February 1 a plan certified by the district school board that describes the specific actions the district will take in order to fully comply with the requirements in subsection (1) by October of the following school year. If a district submits the certified plan by the required deadline, the funds remaining after the reallocation calculation in paragraph (d) shall be added back to the district's class size categorical allocation based on each qualifying district's proportion of the total reduction for all qualifying districts for which a reduction was

calculated in paragraphs (a)-(c). However, no district shall have an amount added back that is greater than the amount that was reduced.

(f) The department shall adjust school district class size reduction categorical allocation distributions based on the calculations in paragraphs (a)-(e).

(g) A district that has not complied with the requirements in subsection (1) based on the October student membership survey for the 2017-2018 school year and has timely submitted the required plan under paragraph (e) may not have its class size categorical allocation reduced for the 2017-2018 and 2018-2019 fiscal years. The district shall have until the October student membership survey for the 2018-2019 school year to comply with subsection (1); however, the district must provide an updated plan by February 1, 2019, to the commissioner to ensure the district is working to comply with the requirements of subsection (1).

Section 5. Paragraph (b) of subsection (3) of section 1011.6202, Florida Statutes, is amended to read:

1011.6202 Principal Autonomy Pilot Program Initiative.—The Principal Autonomy Pilot Program Initiative is created within the Department of Education. The purpose of the pilot program is to provide the highly effective principal of a participating school with increased autonomy and authority to operate his or her school in a way that produces significant improvements in student achievement and school management while complying with constitutional requirements. The State Board of Education may, upon approval of a principal autonomy proposal, enter into a performance contract with up to seven district school boards for

participation in the pilot program.

(3) EXEMPTION FROM LAWS.—

(b) A participating school shall comply with the provisions of chapters 1000-1013, and rules of the state board that implement those provisions, pertaining to the following:

1. Those laws relating to the election and compensation of district school board members, the election or appointment and compensation of district school superintendents, public meetings and public records requirements, financial disclosure, and conflicts of interest.

2. Those laws relating to the student assessment program and school grading system, including chapter 1008.

3. Those laws relating to the provision of services to students with disabilities.

4. Those laws relating to civil rights, including s. 1000.05, relating to discrimination.

5. Those laws relating to student health, safety, and welfare.

6. Section 1001.42(4)(f), relating to the uniform opening date for public schools.

7. Section 1003.03, governing maximum class size~~, except that the calculation for compliance pursuant to s. 1003.03 is the average at the school level for a participating school~~.

8. Sections 1012.22(1)(c) and 1012.27(2), relating to compensation and salary schedules.

9. Section 1012.33(5), relating to workforce reductions for annual contracts for instructional personnel. This subparagraph does not apply to at-will employees.

10. Section 1012.335, relating to annual contracts for

instructional personnel hired on or after July 1, 2011. This subparagraph does not apply to at-will employees.

11. Section 1012.34, relating to personnel evaluation procedures and criteria.

12. Those laws pertaining to educational facilities, including chapter 1013, except that s. 1013.20, relating to covered walkways for relocatables, and s. 1013.21, relating to the use of relocatable facilities exceeding 20 years of age, are eligible for exemption.

13. Those laws pertaining to participating school districts, including this section and ss. 1011.69(2) and 1012.28(8).

Section 6. This act shall take effect July 1, 2017.

Re: SB 808

Dear Chairman Latvala,

I am respectfully requesting Senate Bill 808, a bill relating to the Maximum Class Size, be placed on the agenda for your committee on Appropriations.

I appreciate your consideration of this bill and I look forward to working with you and the Appropriations committee. If there are any questions or concerns, please do not hesitate to call my office at 850-487-5017.

Thank you,

Senator Debbie Mayfield
District 17

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/CS/SB 240 amends the Florida Insurance Code (code) to provide that a direct primary care agreement is not insurance and is not subject to regulation under the code. Direct primary care (DPC) is a primary care medical practice model that eliminates third party payers from the primary care provider-patient relationship. The bill also defines and establishes DPC agreements in chapter 456, Florida Statutes, relating to general provisions for health care practitioners.

Through a contractual agreement, a patient pays a monthly fee, usually between $50 and $100 per individual, to the primary care provider for defined primary care services. As of June 2016, 16 states have adopted DPC laws that define DPC as a medical service outside the scope of state insurance regulation. The bill defines terms and specifies certain provisions, including consumer disclosures, which must be included in a DPC agreement.

Health maintenance organizations (HMOs) participating in the Statewide Medicaid Managed Care (SMMC) program are required to provide Medicaid recipients the opportunity to select DPC agreements as a delivery service option.

The AHCA is expected to incur minimal workload as a result of this bill, but these costs should be absorbed within existing resources.

The effective date of the bill is July 1, 2017.

II. Present Situation:

Direct Primary Care

Direct primary care is a primary care medical practice model that eliminates third party payers from the provider-patient relationship. Through a contractual agreement, a patient generally pays a monthly retainer fee, on average $77 per individual,[1] to the primary care provider for defined primary care services, such as office visits, preventive care, annual physical examination, and routine laboratory tests.

After paying the monthly fee, a patient can access all services under the agreement at no extra charge based on the terms of the agreement. Typically, DPC practices provide routine preventive services, screenings, or tests, like lab tests, mammograms, Pap screenings, and vaccinations. A primary care provider DPC model can be designed to address most health care issues, including women's health services, pediatric care, urgent care, wellness education, and chronic disease management.

Some of the potential benefits of the DPC model for providers include reducing patient volume, minimizing administrative and staffing expenses; increasing time with patients; and increasing revenues. In the DPC practice model, the primary care provider eliminates administrative costs associated with filing and resolving insurance claims. Direct primary care practices claim to reduce expenses by more than 40 percent by eliminating administrative staff resources associated with third-party costs.[2]

In 2014, the American Academy of Private Physicians (AAPP) estimated that approximately 5,500 physicians operate under some type of direct financial relationship with their patients, outside of standard insurance coverage. According to the AAPP, that number has increased around 25 percent per year since 2010.[3] The Direct Primary Care Coalition has adopted model state legislation for DPC agreements.[4] As of June 2016, 16 states have adopted DPC legislation, which defines DPC as a medical service outside the scope of state insurance regulation.[5]

---

[1] A study of 141 DPC practices found the average monthly retainer fee to be $77.38. Of the 141 practices identified, 116 (82 percent) have cost information available online. When these 116 practices were analyzed, the average monthly cost to the patient was $93.26 (median monthly cost, $75.00; range, $26.67 to $562.50 per month). Of the 116 DPCs noted, 36 charged a one-time enrollment fee and the average enrollment fee was $78. Twenty-eight of 116 DPCs charged a fee for office visits in addition to the retainer fee, and the average visit fee was $16. *See* Phillip M. Eskew and Kathleen Klink, *Direct Primary Care: Practice Distribution and Cost Across the Nation*, Journal of the Amer. Bd. of Family Med. (Nov.-Dec. 2015) Vol. 28, No. 6, p. 797, *available at:* http://www.jabfm.org/content/28/6/793.full.pdf (last viewed Feb. 10, 2017).

[2] Lisa Zamosky, Direct-Pay Medical Practices Could Diminish Payer Headaches, MEDICAL ECONOMICS, (April 24, 2014), http://medicaleconomics.modernmedicine.com/medical-economics/content/tags/concierge-service/direct-pay-medical-practices-could-diminish-payer-h. (last viewed Feb. 10, 2017).

[5] See http://www.dpcare.org/ (last viewed Feb. 10, 2017).

The DPC practice model is often compared to the concierge practice model. However, while both provide access to primary care services for a periodic fee, the concierge model continues to bill third party payers, such as insurers, in addition to the collection of membership and retainer fees.[6]

Federal Health Care Reform and Direct Primary Care

The federal Patient Protection and Affordable Care Act (PPACA)[7] requires health insurers to make guaranteed issue coverage available to all individuals and employers without exclusions for preexisting conditions and without basing premiums on any health-related factors. The PPACA also mandates that insurers that offer qualified health plans (QHPs) provide 10 categories of essential health benefits,[8] which includes preventive[9] care and other benefits.

The PPACA addresses the DPC practice model as part of health care reform. A QHP may provide coverage through a DPC medical home plan that meets criteria[10] established by the federal Department of Health and Human Services (DHHS), provided the QHP meets all other applicable requirements.[11] Insureds who are enrolled in a DPC medical home plan are compliant with the individual mandate if they have coverage for other services, such as a wraparound catastrophic health policy[12] or high deductible, health insurance plans[13] to provide coverage for severe injuries or chronic conditions.

In Colorado and Washington, qualified health plans offer DPC medical home coverage on the state-based health insurance exchanges.[14] One of those qualified health plans also participates as a managed care plan in Washington and offers access to its DPC medical home provider sites for its Medicaid managed care plan enrollees. The three clinics offer extended office hours and 24/7 access to physicians for the recipients.[15]

In Michigan, for the 2016-2017 state fiscal year, the DHHS through the annual appropriations bill has been tasked to review and consider implementing a pilot program to allow Medicaid enrollees in managed care to participate in a direct primary care provider plan. Outcomes and performance specified in that bill include:

- The number of enrollees in the pilot program by Medicaid eligibility category;
- Direct primary care cost per enrollee; and

- Other Medicaid managed care cost savings generated from direct primary care.[16]

While the DHHS regulations do not consider DPC medical homes as insurance,[17] the Internal Revenue Service (IRS) regulations will not permit tax deductions for those individuals with both health savings accounts (HSAs) and DPCs as the tax code considers the DPC a second health plan.[18] The IRS Code additionally does not permit the periodic payments made to primary care physicians under a DPC model to qualify as a medical expense under Section 213(d) of the IRS Code.

State Regulation of Insurance

The Office of Insurance Regulation (OIR) licenses and regulates the activities of insurers, HMOs, and other risk-bearing entities. These specified entities must meet certain requirements for licensure. The AHCA issues regulations regarding the quality of care provided by HMOs and prepaid health clinics under part III of ch. 641, F.S. Before receiving a certificate of authority from the OIR, an HMO and a prepaid health clinic must receive a Health Care Provider Certificate[19] from the AHCA pursuant to part III of ch. 641, F.S.[20]

Currently, Florida law does not address DPC agreements. However, a medical provider offering DPC agreements may be considered to be operating a prepaid health clinic if the medical provider is offering to provide services in exchange for a prepaid fixed fee.[21]

Prepaid Health Clinics

Prepaid health clinics[22] are required to obtain a certificate of authority from the OIR pursuant to part II of chapter 641, F.S. The entity must meet minimum surplus requirements[23] and comply with solvency protections for the benefit of subscribers by securing insurance or filing a surety bond with the OIR.[24] Part II also provides that the procedures for offering basic services and offering and terminating contracts to subscribers may not unfairly discriminate based on age, health, or economic status.[25]

[16] 2016 Mich. Pub. Acts No. 268; section 1701; (*See:* http://www.legislature.mi.gov/documents/2015-2016/publicact/pdf/2016-PA-0268.pdf).
[17] 45 C.F.R. s. 156.245 (10-1-2016).
[18] 26 U.S. Code s. 223
[19] Section 641.49, F.S.
[20] Section 641.48, F.S., provides that the purpose of part III of ch. 641, F.S., is to ensure that HMOs and prepaid health clinics deliver high-quality care to their subscribers.
[21] Part II of ch. 641, F.S.
[22] Section 641.402, F.S., defines the term, "prepaid health clinic," to mean any organization authorized under part II that provides, either directly or through arrangements with other persons, basic services to persons enrolled with such organization, on a prepaid per capita or prepaid aggregate fixed-sum basis, including those basic services which subscribers might reasonably require to maintain good health. However, no clinic that provides or contracts for, either directly or indirectly, inpatient hospital services, hospital inpatient physician services, or indemnity against the cost of such services shall be a prepaid health clinic.
[23] Section 641.406, F.S. Each prepaid health clinic must maintain minimum surplus in the amount of $150,000 or 10 percent of total liabilities, whichever is greater.
[24] Section 641.409, F.S.
[25] Section 641.406, F.S.

Prepaid Limited Health Service Organizations

Prepaid limited health service organizations provide limited health services to enrollees through an exclusive panel of providers in exchange for a prepayment authorized under ch. 636, F.S. Limited health services include ambulance, dental, vision, mental health, substance abuse, chiropractic, podiatric, and pharmaceutical. Provider arrangements for prepaid limited health service organizations are authorized in s. 636.035, F.S., and must comply with the requirements in that section.

State Regulation of Health Care Practitioners

The Department of Health (DOH) is responsible for the licensure and regulation of most health care practitioners in the state. In addition to the regulatory authority in specific practice acts for each profession or occupation, ch. 456, F.S., provides the general regulatory provisions for health care professions within the DOH, Medical Quality Assurance Division.

Section 456.001, F.S., defines "health care practitioner" as any person licensed under chs. 457, (acupuncture); 458 (medicine); 459 (osteopathic medicine); 460 (chiropractic medicine); 461 (podiatric medicine); 462 (naturopathic medicine); 463 (optometry); 464 (nursing); 465 (pharmacy); 466 (dentistry and dental hygiene); 467 (midwifery); 478 (electrology or electrolysis); 480 (massage therapy); 484 (opticianry and hearing aid specialists); 486 (physical therapy); 490 (psychology); 491 (psychotherapy), F.S., or parts III or IV of ch. 483 (clinical laboratory personnel or medical physics), F.S.

Additionally, the miscellaneous professions and occupations regulated in parts I, II, III, V, X, XIII, or XIV (speech-language pathology and audiology; nursing home administration; occupational therapy; respiratory therapy; dietetics and nutrition practice; athletic trainers; and orthotics, prosthetics, and pedorthics) of ch. 468, F.S., are considered health care practitioners under s. 456.001, F.S.

Florida Medicaid

The Medicaid program is a partnership between the federal government and state governments to provide medical care to low income children, pregnant women, individuals with disabilities, and individuals 65 years of age and older. Each state operates its own Medicaid program under a state plan that must be approved by the federal Centers for Medicare & Medicaid Services (CMS). The state plan outlines Medicaid eligibility standards, policies, and reimbursement methodologies.

Florida Medicaid is administered by the AHCA and is financed with federal and state funds. The Department of Children and Families (DCF) determines Medicaid eligibility and transmits that information to the AHCA. The AHCA is designated as the single state Medicaid agency and has the lead responsibility for the overall program.[26]

[26] *See* s. 409.963, F.S.

Over 4 million Floridians are currently enrolled in Medicaid.[27] The Medicaid program's estimated expenditures for the 2016-2017 fiscal year are $25.8 billion.[28] The current traditional federal share is 60.99 percent with the state paying 39.01 percent for Medicaid enrollees.[29] Florida has the fourth largest Medicaid population in the country and fifth largest in expenditures.[30]

Medicaid currently covers:

- 47 percent of Florida's children;
- 63 percent of Florida's births; and
- 61 percent of Florida's nursing homes days.[31]

The structures of state Medicaid programs vary from state to state, and each state's share of expenditures also varies and is largely determined by the federal government. Approximately 85 percent of Florida's Medicaid program is enrolled in managed care. Federal law and regulations set the minimum amount, scope, and duration of services offered in the program, among other requirements. State Medicaid benefits are provided in statute under s. 409.903, F.S., (Mandatory Payments for Eligible Persons) and s. 409.904, F.S. (Optional Payments for Eligible Persons).

Applicants for Medicaid must be United States citizens or qualified noncitizens, must be Florida residents, and must provide social security numbers for data matching. While self-attestation is permitted for a number of data elements on the application, most components are matched through the Federal Data Services Hub.[32] Applicants must also agree to cooperate with Child Support Enforcement during the application process and eligibility process.[33]

Minimum eligibility coverage thresholds are established in federal law for certain population groups, such as children and pregnant women, as well as minimum benefits and maximum cost sharing. The minimum benefits include items such as physician services, hospital services, home health services, and family planning.[34] States can add benefits, pending federal approval. Florida has added benefits, including prescription drugs, adult dental services, and dialysis.[35] For children under age 21, the benefits must include the Early and Periodic Screening, Diagnostic

and Treatment services, which are those health care, diagnostic services, treatment, and measures that may be needed to correct or ameliorate defects or physical and mental illnesses and conditions discovered by screening services consistent with federal law.[36]

Statewide Medicaid Managed Care

Part IV of ch. 409, F.S., was created in 2011 by ch. 2011-134, L.O.F., and governs the Statewide Medicaid Managed Care (SMMC) program. The program, authorized under federal Medicaid waivers, is designed for the AHCA to issue invitations to negotiate[37] and competitively procure contracts with managed care plans in 11 regions of the state to provide comprehensive Medicaid coverage for most of the state's enrollees in the Medicaid program. SMMC has two components: managed medical assistance (MMA) and long-term care managed care (LTCMC).

The LTCMC component began enrolling Medicaid recipients in August 2013 and completed its statewide roll-out in March 2014. The MMA component began enrolling Medicaid recipients in May 2014 and finished its roll-out in August 2014. As of December 2016, there were over 3.2 million Medicaid recipients enrolled in an MMA plan and 94,320 recipients enrolled in an LTC plan.[38]

III. Effect of Proposed Changes:

Direct Primary Care Agreements in Statewide Medicaid Managed Care (Section 1)

Section 1 amends s. 409.973, F.S., to direct HMOs participating in the SMMC program to offer Medicaid recipients the option to enter into a direct primary care agreement with identified network primary care providers. The HMOs are encouraged to enter into alternative payment arrangements with in-network primary care providers to allow Medicaid recipients to elect a direct primary care agreement within the SMMC program.

Direct Primary Care Agreements (Sections 2 and 3)

Section 2 creates s. 456.0625, F.S., to recognize direct primary care agreements within ch. 456, F.S., relating to the general provisions for health care practitioners.

Section 2 defines the following terms within ch. 456, F.S.:

- "Direct primary care agreement" is a contract between a primary care provider and a patient, the patient's legal representative, or an employer which must satisfy certain requirements within the bill and does not indemnify for services provided by a third party.
- "Primary care provider" is a licensed health care practitioner under ch. 458, F.S., (medical doctor or physician assistant); ch. 459, F.S., (osteopathic doctor or physician assistant); ch. 460, F.S., (chiropractic physician); or ch. 464, F.S., (nurses and advanced registered nurse

[36] *See* Section 1905 9(r) of the Social Security Act.
[37] An "invitation to negotiate" is a written or electronically posted solicitation for vendors to submit competitive, sealed replies for the purpose of selecting one or more vendors with which to commence negotiations for the procurement of commodities or contractual services. *See* s. 287.012(17), F.S.
[38] Agency for Health Care Administration, *Supra* note 30, at slide 12.

practitioners); or a primary care group practice that provides medical services which are commonly provided without referral from another health care provider.
- "Primary care service" is the screening, assessment, diagnosis, and treatment of a patient for the purpose of promoting health or detecting and managing disease or injury within the competency and training of the primary care provider.

Section 2 authorizes a primary care provider or an agent of the primary care provider to execute a DPC agreement. Section 3 expressly exempts DPC agreements from the Florida Insurance Code. Additionally, the act of entering into a DPC agreement does not constitute the business of insurance and would not be subject to any chapter of the Florida Insurance Code.

To market, sell, or offer to sell a DPC agreement a primary care provider or agent of a primary care provider is not required to obtain a certification of authority or license under any chapter of the Florida Insurance Code, pursuant to s. 456.0625, F.S.

Section 2 specifies the following minimum requirements and disclosures for DPC agreements:
- Be in writing and signed by the provider or the provider's agent and the patient, the patient's legal representative, or their employer;
- Allow a party to terminate the agreement with 30 days' advance written notice and provide for the immediate termination of the agreement if the physician-patient relationship is violated or a party breaches the terms of the agreement;
- Describe the scope of primary care services covered by the monthly fee;
- Specify the monthly fee and any fees for primary care services not covered by the monthly fee;
- Specify the duration of the agreement and any automatic renewal provisions;
- Offer a refund of monthly fees paid in advance if the provider ceases to offer primary care services for any reason; and
- Contain the following statements in contrasting color and 12-point or larger type on the same page as the applicant's signature:
  - "This agreement is not insurance, and the primary care provider will not file any claims against the patient's health insurance policy or plan for reimbursement of any primary care services covered by this agreement."
  - "This agreement does not qualify as minimum essential coverage to satisfy the individual shared responsibility provision of the federal Patient Protection and Affordable Care Act, Pub. L. No. 111-148."
  - "This agreement is not workers' compensation insurance and may not replace the employer's obligations under ch. 440, F.S."

Section 4 provides that the bill takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill removes regulatory uncertainty for health care providers by stating that the direct primary care agreement is not insurance, and as a result, the OIR does not regulate the agreements. This statutory change eliminates a long-standing concern with part II of ch. 641, F.S., which requires licensure and regulation of prepaid health clinics. Currently, that section of the code is unclear about the treatment of these types of arrangements with providers. To date, the OIR has not licensed any direct primary care providers under part II to provide such services.[39]

Additional primary care providers may elect to pursue a direct primary care model and establish direct primary care practices that may increase patients' access to affordable primary care services.

Many individuals have high deductible policies and must meet a significant out of pocket cost to access many types of medical care. The DPC agreements may provide a less expensive option for accessing certain services. For many patients, the greater use of direct primary care agreements may decrease reliance on emergency rooms as a source of routine care.

C. Government Sector Impact:

The establishment of the DPC agreements under ch. 456, F.S., the chapter relating to general provisions for health care practitioners, means that oversight responsibility for the actions of health care practitioners will fall under the Department of Health and the appropriate healthcare professional boards. The department could see an increase in complaint activity to the extent that issues arise between practitioners and patients with DPC agreements.

The AHCA will incur costs related to the submission of the federal waiver or waiver amendment for the SMMC program required under this bill; however, these costs should be absorbed within existing resources.

[39] Office of Insurance Regulation, *Senate Bill 240 Analysis* (Jan. 17, 2017) (on file with the Senate Committee on Banking and Insurance).

VI. Technical Deficiencies:

None.

VII. Related Issues:

The bill does not include a provision relating to non-discrimination based on health status. The model bill provides the following:

> Direct primary care practices may not decline to accept new direct primary care patients or discontinue care to existing patients solely because of the patient's health status. A direct practice may decline to accept a patient if the practice has reached its maximum capacity, or if the patient's medical condition is such that the provider is unable to provide the appropriate level and type of primary care services the patient requires.[40]

VIII. Statutes Affected:

This bill substantially amends section 409.977 of the Florida Statutes.

This bill creates the following new sections of the Florida Statutes: 456.0625 and 624.27.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 25, 2017:
The CS/CS/CS removes the requirement for AHCA to submit a Medicaid waiver or waiver amendment to the appropriate federal authorities to provide Medicaid enrollees the opportunity to choose DPC agreements within the Statewide Medicaid Managed Care program. The CS/CS/CS requires HMOs to offer Medicaid recipients the option to enter into a direct primary care agreement with identified network primary care providers, and are encouraged to enter into alternative payment arrangements with in-network primary care providers to allow Medicaid recipients to elect a direct primary care agreement within the SMMC program.

CS/CS by Health Policy on February 21, 2017:
The CS/CS retains the exemption of the DPC agreements from the Florida Insurance Code in ch. 624, F.S., and defines and establishes DPC agreements in ch. 456, F.S. The CS/CS also directs the AHCA to submit a Medicaid waiver or waiver amendment to the appropriate federal authorities to provide Medicaid enrollees the opportunity to choose DPC agreements within the Statewide Medicaid Managed Care program.

CS by Banking and Insurance on February 7, 2017:
The CS provides an additional mandatory disclosure to the direct primary care agreement

[40] *See* http://www.dpcare.org/dpcc-model-legislation (last viewed Feb. 13, 2017.)

that states that the agreement is not workers' compensation insurance and may not replace the employer's obligation under ch. 440, F.S.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/26/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Lee) recommended the following:

Senate Amendment (with title amendment)

Delete lines 24 - 58
and insert:
Section 1. Subsection (4) of section 409.973, Florida Statutes, is amended to read:
409.973 Benefits.—
(4) PRIMARY CARE INITIATIVE.—Each plan operating in the managed medical assistance program shall establish a program to encourage enrollees to establish a relationship with their primary care provider. Plans shall provide enrollees with the

183112

opportunity to enter into a direct primary care agreement with identified network primary care providers. Plans are encouraged to enter into alternative payment arrangements with primary care providers in their networks to allow for the election by a recipient for a direct primary care agreement within the Statewide Medicaid Managed Care program. In addition, each plan shall:

(a) Provide information to each enrollee on the importance of and procedure for selecting a primary care provider, and thereafter automatically assign to a primary care provider any enrollee who fails to choose a primary care provider.

(b) If the enrollee was not a Medicaid recipient before enrollment in the plan, assist the enrollee in scheduling an appointment with the primary care provider. If possible the appointment should be made within 30 days after enrollment in the plan. For enrollees who become eligible for Medicaid between January 1, 2014, and December 31, 2015, the appointment should be scheduled within 6 months after enrollment in the plan.

(c) Report to the agency the number of enrollees assigned to each primary care provider within the plan's network.

(d) Report to the agency the number of enrollees who have not had an appointment with their primary care provider within their first year of enrollment.

(e) Report to the agency the number of emergency room visits by enrollees who have not had at least one appointment with their primary care provider.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

183112

Delete lines 3 - 9

and insert:

409.973, F.S.; requiring plans operating in the managed medical assistance program to provide enrollees an opportunity to enter into a direct primary care agreement with identified network primary care providers; encouraging such plans to enter into alternative payment arrangements with network primary care providers for a specified purpose; creating s.

By the Committees on Health Policy; and Banking and Insurance; and Senators Lee and Mayfield

588-01932-17 2017240c2

A bill to be entitled

An act relating to direct primary care; amending s. 409.977, F.S.; requiring the Agency for Health Care Administration to provide specified financial assistance to certain Medicaid recipients; requiring the agency to resubmit, by a specified date, certain federal waivers or waiver amendments to specified federal entities to incorporate recipient elections of certain direct primary care agreements; creating s. 456.0625, F.S.; defining terms; authorizing primary care providers or their agents to enter into direct primary care agreements for providing primary care services; providing applicability; specifying requirements for direct primary care agreements; creating s. 624.27, F.S.; providing construction and applicability of the Florida Insurance Code as to direct primary care agreements; providing an exception for primary care providers or their agents from certain requirements under the code under certain circumstances; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (4) of section 409.977, Florida Statutes, is amended to read:

409.977 Enrollment.—

(4) The agency shall:

(a) Develop a process to enable a recipient with access to employer-sponsored health care coverage to opt out of all

588-01932-17 2017240c2

managed care plans and to use Medicaid financial assistance to pay for the recipient's share of the cost in such employer-sponsored coverage.

(b) Contingent upon federal approval, ~~the agency shall also~~ enable recipients with access to other insurance or related products providing access to health care services created pursuant to state law, including any product available under the Florida Health Choices Program, or any health exchange, to opt out.

(c) Provide ~~The amount of~~ financial assistance ~~provided~~ for each recipient in an amount ~~may~~ not to exceed the amount of the Medicaid premium which ~~that~~ would have been paid to a managed care plan for that recipient opting to receive services under this subsection.

(d) ~~The agency shall~~ Seek federal approval to require Medicaid recipients with access to employer-sponsored health care coverage to enroll in that coverage and use Medicaid financial assistance to pay for the recipient's share of the cost for such coverage. The amount of financial assistance provided for each recipient may not exceed the amount of the Medicaid premium that would have been paid to a managed care plan for that recipient.

(e) By January 1, 2018, resubmit an appropriate federal waiver or waiver amendment to the Centers for Medicare and Medicaid Services, the United States Department of Health and Human Services, or any other designated federal entity to incorporate the election by a recipient for a direct primary care agreement, as defined in s. 456.0625, within the Statewide Medicaid Managed Care program.

Section 2. Section 456.0625, Florida Statutes, is created to read:

456.0625 Direct primary care agreements.—

(1) As used in this section, the term:

(a) "Direct primary care agreement" means a contract between a primary care provider and a patient, the patient's legal representative, or an employer which meets the requirements specified under subsection (3) and which does not indemnify for services provided by a third party.

(b) "Primary care provider" means a health care practitioner licensed under chapter 458, chapter 459, chapter 460, or chapter 464 or a primary care group practice that provides medical services to patients which are commonly provided without referral from another health care provider.

(c) "Primary care service" means the screening, assessment, diagnosis, and treatment of a patient for the purpose of promoting health or detecting and managing disease or injury within the competency and training of the primary care provider.

(2) A primary care provider or an agent of the primary care provider may enter into a direct primary care agreement for providing primary care services. Section 624.27 applies to a direct primary care agreement.

(3) A direct primary care agreement must:

(a) Be in writing.

(b) Be signed by the primary care provider or an agent of the primary care provider and the patient, the patient's legal representative, or an employer.

(c) Allow a party to terminate the agreement by giving the other party at least 30 days' advance written notice. The

agreement may provide for immediate termination due to a violation of the physician-patient relationship or a breach of the terms of the agreement.

(d) Describe the scope of primary care services that are covered by the monthly fee.

(e) Specify the monthly fee and any fees for primary care services not covered by the monthly fee.

(f) Specify the duration of the agreement and any automatic renewal provisions.

(g) Offer a refund to the patient of monthly fees paid in advance if the primary care provider ceases to offer primary care services for any reason.

(h) Contain, in contrasting color and in not less than 12-point type, the following statements on the same page as the applicant's signature:

1. This agreement is not health insurance, and the primary care provider will not file any claims against the patient's health insurance policy or plan for reimbursement of any primary care services covered by this agreement.

2. This agreement does not qualify as minimum essential coverage to satisfy the individual shared responsibility provision of the federal Patient Protection and Affordable Care Act, Pub. L. No. 111-148.

3. This agreement is not workers' compensation insurance and may not replace the employer's obligations under chapter 440, Florida Statutes.

Section 3. Section 624.27, Florida Statutes, is created to read:

624.27 Application of code as to direct primary care

agreements.—

(1) A direct primary care agreement, as defined in s. 456.0625, does not constitute insurance and is not subject to any chapter of the Florida Insurance Code. The act of entering into a direct primary care agreement does not constitute the business of insurance and is not subject to any chapter of the Florida Insurance Code.

(2) A primary care provider or an agent of a primary care provider is not required to obtain a certificate of authority or license under any chapter of the Florida Insurance Code to market, sell, or offer to sell a direct primary care agreement pursuant to s. 456.0625.

Section 4. This act shall take effect July 1, 2017.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1588 contains provisions relating to rental housing for military servicemembers, veteran-owned businesses, employment of military spouses, and student veteran support. Specifically, the bill:

- Requires expedited processing of a housing rental application, if required, for a military servicemember's spouse and other adult dependents who plan to reside with the servicemember;
- Directs the Florida Department of Veterans' Affairs to create a website to streamline the procedure for applying for certification as a veteran business enterprise;
- Provides that the Supreme Court of Florida may admit the spouse of a military servicemember to practice law in Florida, if the Florida Board of Bar Examiners certifies that the spouse meets certain requirements;
- Requires the Department of Education to expedite the processing of an application for educator certification submitted by the spouse of a military servicemember; and
- Provides legislative intent regarding academic credit for military training and coursework and collaboration between the State Board of Education and the Board of Governors on student veteran issues.

The bill requires the Florida Department of Veteran's Affairs to develop and maintain a website. According to the department, the cost to develop the website is projected to be $100,000 and the cost for the annual maintenance of the website is projected to be $25,000. This bill contains no funding for the department to create and maintain the website.

The effective date of the bill is July 1, 2017.

II. Present Situation:

Rental Housing Applications for Military Servicemembers

In 2016, the Legislature created s. 83.683, F.S., which provides that if a landlord requires a prospective tenant to complete a rental application before residing in a rental unit, the landlord must complete processing of such rental application within 7 days, if the prospective tenant is a military servicemember. This provision also applies to condominium associations, cooperative associations, and homeowners associations.

Florida Veteran Business Enterprise Opportunity Act

The Florida Veteran Business Enterprise Opportunity Act[1] exists to rectify the economic disadvantage of service-disabled veterans[2] and to recognize wartime veterans[3] for their sacrifices. The Department of Management Services' (DMS) Office of Supplier Diversity, in partnership with the Florida Department of Veterans' Affairs, is administering the Veteran Business Enterprises program. The DMS is responsible for working with the Department of Veterans' Affairs to establish a certification procedure and either granting, denying, or revoking the certification of a veteran business enterprise. Responsibilities of the Department of Veterans' Affairs include:

- Assisting the DMS in establishing a certification procedure, which shall be reviewed biennially and updated as necessary;
- Identifying eligible veteran business enterprises by any electronic means (including email or website) or by any other reasonable means; and
- Encouraging and assisting eligible veteran business enterprises to apply for certification under this section.

The application process for a veteran business enterprise requires a business to register as a vendor on MyFloridaMarketPlace, which serves as the state's procurement website, and submit the required documentation to the Office of Supplier Diversity.[4] In order to be certified as a veteran business enterprise, a business enterprise must be an independently owned and operated business that:

- Employs 200 or fewer permanent full-time employees;
- Has a net worth of $5 million or less;
- Is domiciled in Florida;

[1] Section 295.187, F.S.
[2] A service-disabled veteran is defined as a veteran who is a permanent Florida resident with a service-connected disability as determined by the United States Department of Veterans Affairs or who has been terminated from military service by reason of disability by the United States Department of Defense. See s. 295.187(3)(b), F.S.
[3] A wartime veteran is a veteran that served in a campaign or expedition for which a campaign badge has been authorized or during a specified period of wartime service. *See* s. 295.187(3)(d), F.S.
[4] Department of Management Services (DMS), Office of Supplier Diversity (OSD), *Get Certified*, http://www.dms.myflorida.com/agency_administration/office_of_supplier_diversity_osd/get_certified (last visited Mar. 24, 2017).

- Is at least 51 percent owned by one or more wartime veterans or service-disabled veterans; and
- Is managed and controlled by one or more wartime veterans or service-disabled veterans or, for a service-disabled veteran with a permanent and total disability, by the spouse or permanent caregiver of the veteran.

Certification as a veteran business enterprise by the Office of Supplier Diversity is valid for a two-year period after which the business must renew its certification. Currently, a veteran business enterprise can renew its certification online through the DMS website.[5] During fiscal year 2015-2016, there were 440 Florida businesses with a current certification as a veteran business enterprise.[6]

Pursuant to s. 295.187, F.S., a veteran business enterprise is entitled to vendor preference. Vendor preference requires a state agency, when considering two or more bids, proposals, or replies for the procurement of commodities or contractual services, at least one of which is from a certified veteran business enterprise, which are equal with respect to all relevant considerations including price, quality, and service, to award such procurement or contract to the certified veteran business enterprise.[7]

Admission to Practice Law in Florida

Article V, s. 15 of the State Constitution provides that the Supreme Court of Florida has exclusive jurisdiction to regulate the admission of persons to the practice of law and the discipline of persons admitted.[8] The requirements and procedures for admission to The Florida Bar are established in the Rules of the Supreme Court Relating to Admissions to the Bar (rules), which are administered by the Florida Board of Bar Examiners.[9]

Persons seeking admission to The Florida Bar must meet the character and fitness qualifications set forth by the rules, file the appropriate applications and fees, and comply with the rules governing background investigations and the bar examination.[10] To be qualified for admission to The Florida Bar, an applicant must produce satisfactory evidence of good moral character, an adequate knowledge of the standards and ideals of the profession, and proof that the applicant is otherwise fit to take the oath and to perform the obligations and responsibilities of an attorney.[11]

[9] Fla. Bar Admiss. R. 1-10.
[10] Fla. Bar Admiss. R. 2-10.
[11] Fla. Bar Admiss. R. 2-12.

An applicant must also sit for the Florida Bar Examination (exam). The exam consists of two components to include the General Bar Examination and the Multistate Professional Responsibility Examination (MPRE).[12] To be considered for admission to The Florida Bar, an applicant must produce satisfactory evidence of technical competence by passing all parts of the exam.[13] Additionally, the applicant must hold a Bachelor of Laws or Juris Doctor degree from an accredited law school.[14]

Currently, a spouse of a military servicemember is not permitted to practice law in Florida without meeting all of the requirements established in the Bar rules. On February 1, 2017, the Florida Board of Bar Examiners filed a petition with the Supreme Court of Florida to amend the rules by proposing a new subchapter authorizing military spouses to practice law in Florida under certain circumstances.[15]

Florida Educator Certification

In order for a person to serve as an educator in a traditional public school, charter school, virtual school, or other publicly operated school, the person must hold a certificate issued by the Florida Department of Education (DOE).[16] Persons seeking employment at a public school as a school supervisor, school principal, teacher, library media specialist, school counselor, athletic coach, or in another instructional capacity must be certified.[17] The purpose of certification is to require school-based personnel to "possess the credentials, knowledge, and skills necessary to allow the opportunity for a high-quality education in the public schools."[18]

The DOE issues three types of educator certificates:

- **Professional Certificate.** The professional certificate is Florida's highest type of full-time educator certification. The professional certificate is valid for five years and is renewable.[19]
- **Temporary Certificate.** The temporary certificate covers employment in full-time positions for which educator certification is required. The temporary certificate is valid for three years and is nonrenewable.[20]
- **Athletic Coaching Certificate.** The athletic coaching certificate covers full-time and part-time employment as a public school's athletic coach.[21]

A person seeking an educator certificate must submit an application to the DOE and remit the required fee.[22] Within 90 calendar days of receiving a completed application, the DOE must issue a professional or temporary certificate, depending on the applicant's qualifications. If the applicant does not meet the requirements for a professional or temporary certificate, the DOE

must provide a statement of eligibility that advises the applicant of any qualifications that must be completed to qualify for certification.

To be eligible for an educator certificate, a person must:[23]

- Be at least 18 years of age;
- Sign an affidavit attesting that the applicant will uphold the U.S. and State Constitutions;
- Earn a bachelor's or higher degree from an accredited institution of higher learning or from a non-accredited institution identified by the DOE as having a quality program resulting in a bachelor's or higher degree;
- Submit to fingerprinting and background screening and not have a criminal history that requires the applicant's disqualification from certification or employment;
- Be of good moral character; and
- Be competent and capable of performing the duties, functions, and responsibilities of a teacher.

An applicant seeking a professional certificate must:

- Meet the basic eligibility requirements for certification;[24]
- Demonstrate mastery of general knowledge;[25]
- Demonstrate mastery of subject area knowledge;[26] and
- Demonstrate mastery of professional preparation and education competence.[27]

A three-year nonrenewable temporary certificate[28] may be issued to an applicant who does not qualify for the professional certificate, but meets the basic eligibility requirements for certification[29] and:

- Obtains full-time employment in a position that requires a Florida educator certificate by a school district or private school that has a professional education competence demonstration program;[30] and
- Demonstrates mastery of subject area knowledge.[31]

An educator who is employed under a temporary certificate must demonstrate mastery of general knowledge[32] within one calendar year after employment in order to remain employed in a

See s. 1012.56(3), F.S.

position that requires a certificate.[33] The DOE may extend the validity period of a temporary certificate for two years if the requirements for the professional certificate (not including the mastery of general knowledge requirement) are not completed due to serious illness or injury of the applicant or other extraordinary extenuating circumstances.[34]

Veterans' Training and Coursework

State Board of Education – Florida College System

The State Board of Education is the chief implementing and coordinating body of public education in Florida, except for the State University System.[35] In accordance with Article IX, Section 2, of the State Constitution, the State Board of Education is responsible for supervising the system of free public education as provided by law and appoints the Commissioner of the Department of Education.

There are 28 locally-governed public colleges in the Florida College System. While governed by local boards, the colleges are coordinated under the jurisdiction of the State Board of Education. Administratively, the Chancellor of Florida Colleges is the chief executive officer of the system, reporting to the Commissioner of Education who serves as the chief executive officer of Florida's K-20 System.[36]

Board of Governors - State University System

The Board of Governors is the governing body for the State University System of Florida. In accordance with Article IX, Section 7(d), of the State Constitution, it is required to "operate, regulate, control, and be fully responsible for the management of the whole university system." Currently, there are 12 institutions within the State University System (SUS).[37] The SUS enrolls more than 337,000 students, offers nearly 1,800 degree programs at the baccalaureate, graduate, and professional levels, and annually awards more than 81,000 degrees at all levels.[38]

College Credit for Military Training and Education

Section 1004.096, F.S., requires the Board of Governors to adopt regulations and the State Board of Education to adopt rules that enable eligible members of the U.S. Armed Forces to earn academic college credit at public postsecondary educational institutions for college-level training and education acquired in the military.[39] Accordingly, Board of Governors Regulation 6.013 and Rule 6A-14.0302 of the Florida Administrative Code, require all Florida universities and colleges, respectively, to have an established policy and process in place for evaluating military training and education. Pursuant to both the rule and regulation, such military training and education must be recognized by the American Council on Education (ACE).

Priority Course Registration for Veterans

Section 1004.075, F.S., requires each Florida College System institution and state university to provide priority course registration for veterans receiving GI Bill benefits if the institution offers priority course registration for any segment of the student population.[40] Additionally, a spouse and dependent child of a veteran to whom GI Bill benefits have been transferred are also entitled to priority course registration until the expiration of their GI Bill benefits.[41]

III. Effect of Proposed Changes:

Section 1 amends s. 83.683, F.S., to provide that the current requirement for a landlord to process a housing rental application from a military servicemember within seven days also applies to the servicemember's spouse or any adult dependents of the servicemember who are to reside in the same rental unit. The extension of this provision also applies to condominium associations, cooperative associations, and homeowners associations.

Section 2 amends s. 295.187, F.S., to direct the Florida Department of Veterans' Affairs to create a website to streamline the procedure for applying for certification as a veteran business enterprise.

Section 3 amends s. 454.021, F.S., to provide that the Supreme Court of Florida may admit the spouse of a military servicemember, as defined in s. 250.01, F.S., to practice law in Florida given that he or she is certified by the Florida Board of Bar Examiners. Certification by the board is contingent on the applicant:

- Registering in the Defense Enrollment Eligibility Report System established by the U. S. Department of Defense;
- Holding a Juris Doctor or Bachelor of Laws degree from a law school accredited by the American Bar Association;
- Being licensed to practice law in another state, the District of Columbia, or a territory of the U.S. after having passed a written exam;
- Establishing that he or she is a member in good standing in all jurisdictions where licensed to practice law and that he or she is not currently subject to discipline or a pending disciplinary matter relating to the practice of law;
- Demonstrating his or her presence in Florida as the spouse of a servicemember; and
- Otherwise fulfilling all requirements for admission to practice law in Florida.

The Supreme Court of Florida may specify circumstances under which the license and authorization for a military spouse to practice law in Florida terminates.

Section 4 amends s. 1012.56, F.S., to require the DOE to expedite the processing of an application for an educator certificate submitted by the spouse of a military servicemember.[42] The DOE must process the application and issue a professional or temporary educator certificate

[40] Chapter 2012-159, Laws of Fla.
[41] *Id.*
[42] The term servicemember is defined in section 250.01, F.S., as any person serving as a member of the United States Armed forces on active duty or state active duty and all members of the Florida National Guard and United States Reserve Forces.

or a statement of status of eligibility within 60 calendar days after receiving the completed application. Current law requires the DOE to process an application for an educator certificate within 90 calendar days for all applicants.

The bill also requires the State Board of Education to adopt rules to allow the DOE to extend the validity period of a temporary educator certificate for two years if an applicant fails to meet the requirements for the professional certificate due to the fact that the applicant is the spouse of a servicemember stationed in Florida. Current law allows the DOE to extend the validity period of a temporary educator certificate for two years because of serious illness or injury or other extraordinary extenuating circumstances.

Section 5 provides legislative intent regarding the provision of college credit for military training and coursework and other services to student veterans. The bill provides that it is the intent of the Legislature that the State Board of Education and the Board of Governors work collaboratively to do the following:

- Align existing degree programs with applicable military training and experience to maximize academic credit awarded for such training and experience;
- Appoint and train specific faculty within each degree program at each institution as liaisons and contacts for veterans;
- Incorporate outreach services tailored to disabled veterans to inform disabled veterans of disability services provided by the U.S. Department of Veterans Affairs, and other federal and state agencies, and private entities.
- Facilitate statewide meetings for campus personnel to discuss and develop best practices, exchange ideas and experiences, and hear presentations by individuals with expertise in the unique needs of veterans; and
- Provide veterans with sufficient courses required for graduation, including but not limited to giving priority registration for veterans.

Section 6 provides an effective date of July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Article V, s. 15 of the State Constitution, the Supreme Court of Florida has exclusive jurisdiction to regulate the admission of persons to the practice of law and the discipline

of persons admitted. The bill states that the Supreme Court may admit the spouse of a military servicemember, as defined in section 250.01, F.S., to practice law in Florida if the Florida Board of Bar Examiners certifies that he or she meets certain requirements. Because the bill does not require the Supreme Court to admit any person to the practice of law in Florida, the bill does not intrude on the Supreme Court's authority.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill will enable spouses of military servicemembers to find employment more quickly by minimizing some of the impediments to obtaining any required licenses and certifications.

C. Government Sector Impact:

Section 2 of the bill requires the Florida Department of Veterans' Affairs to create a website for businesses to apply for certification as a Veteran Business Enterprise. According to the department, the costs will be $100,000 of nonrecurring funds to develop the website and $25,000 annually to maintain the website.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 83.683, 295.187, 454.021, and 1012.56. The bill also creates undesignated sections of Florida law.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Military and Veterans Affairs, Space, and Domestic Security on March 22, 2017:
The CS provides that the requirement for a landlord, condominium association, cooperative association, and homeowners association to process a housing rental application from a military servicemember within seven days of submission also applies

to the servicemember's spouse or any adult dependents of the servicemember who are to reside in the same rental unit.

B. Amendments:

Senate Amendment (with title amendment)

Delete lines 35 - 84

and insert:

Section 1. Section 295.156, Florida Statutes, is created to read:

295.156 Alternative treatment options for veterans.—

(1) Subject to legislative appropriation, the Department of Veterans' Affairs shall contract with one or more individuals, corporations not for profit, state universities, or Florida

818190

College System institutions to provide alternative treatment options for veterans who have been certified by the United States Department of Veterans Affairs or any branch of the United States Armed Forces as having a traumatic brain injury or posttraumatic stress disorder. For purposes of this section, the term "alternative treatment" means a therapeutic service that is not part of the standard of medical care established by the United States Department of Veterans Affairs for treating traumatic brain injury or posttraumatic stress disorder but has been shown by at least one scientific or medical peer-reviewed study to have some positive effect on traumatic brain injury or posttraumatic stress disorder. Alternative treatment must be provided under the direction and supervision of an individual licensed under chapter 458, chapter 459, chapter 460, chapter 464, chapter 490, or chapter 491.

(2) Each contracted individual or entity shall report annually to the department each alternative treatment provided, the number of veterans served, and the treatment outcomes.

By the Committee on Military and Veterans Affairs, Space, and Domestic Security; and Senator Latvala

583-02710-17 20171588c1

A bill to be entitled

An act relating to military and veteran support; amending s. 83.683, F.S.; requiring landlords, condominium associations, cooperative associations, and homeowners' associations that require a servicemember's spouse or certain adult dependents to submit a rental application to complete the processing of the application of within a specified timeframe; amending s. 295.187, F.S.; requiring the Department of Veterans' Affairs to create a website to streamline the procedure for businesses applying for certification as a veteran business enterprise; amending s. 454.021, F.S.; authorizing the Supreme Court to admit on motion a bar applicant who is the spouse of a servicemember stationed in this state under certain circumstances; amending s. 1012.56, F.S.; requiring the Department of Education to expedite the processing of an application for educator certification submitted by a spouse of a servicemember stationed in this state; requiring the State Board of Education to adopt rules regarding extending validity of a temporary certificate if the applicant is a spouse of a servicemember stationed in this state; providing legislative findings and intent regarding continuing education for veterans of the United States Armed Forces; providing legislative intent to require collaboration between the State Board of Education and the Board of Governors of the State University System in achieving specified goals regarding educational

583-02710-17 20171588c1

opportunities for veterans; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 83.683, Florida Statutes, is amended to read:

83.683 Rental application by a servicemember.—

(1) If a landlord requires a prospective tenant to complete a rental application before residing in a rental unit, the landlord must complete processing of a rental application submitted by a prospective tenant who is a servicemember, as defined in s. 250.01, within 7 days after submission and must, within that 7-day period, notify the servicemember in writing of an application approval or denial and, if denied, the reason for denial. If the landlord requires the servicemember's spouse or any adult dependents of the servicemember who are to reside in the same rental unit to submit a rental application, the landlord must process those applications within the same 7-day period. Absent a timely denial of the rental application, the landlord must lease the rental unit to the servicemember if all other terms of the application and lease are complied with.

(2) If a condominium association, as defined in chapter 718, a cooperative association, as defined in chapter 719, or a homeowners' association, as defined in chapter 720, requires a prospective tenant of a condominium unit, cooperative unit, or parcel within the association's control to complete a rental application before residing in a rental unit or parcel, the association must complete processing of a rental application

submitted by a prospective tenant who is a servicemember, as defined in s. 250.01, within 7 days after submission and must, within that 7-day period, notify the servicemember in writing of an application approval or denial and, if denied, the reason for denial. If the association requires the servicemember's spouse or any adult dependents of the servicemember who are to reside in the same unit or parcel to submit a rental application, the association must process those applications within the same 7-day period. Absent a timely denial of the rental application, the association must allow the unit or parcel owner to lease the rental unit or parcel to the servicemember and the landlord must lease the rental unit or parcel to the servicemember if all other terms of the application and lease are complied with.

(3) The provisions of this section may not be waived or modified by the agreement of the parties under any circumstances.

Section 2. Present paragraph (d) of subsection (6) of section 295.187, Florida Statutes, is redesignated as paragraph (e), and a new paragraph (d) is added to that subsection, to read:

295.187 Florida Veteran Business Enterprise Opportunity Act.—

(6) DUTIES OF THE DEPARTMENT OF VETERANS' AFFAIRS.—The department shall:

(d) Create a website to streamline the procedure for applying for certification as a veteran business enterprise.

Section 3. Subsection (4) is added to section 454.021, Florida Statutes, to read:

454.021 Attorneys; admission to practice law; Supreme Court

to govern and regulate.—

(4)(a) The Supreme Court of Florida may admit on motion an applicant as an attorney at law authorized to practice in this state if the applicant is a spouse of a servicemember, as defined in s. 250.01, stationed in this state and upon certification by the Florida Board of Bar Examiners that the applicant meets the following requirements:

1. The applicant has registered in the Defense Enrollment Eligibility Reporting System established by the United States Department of Defense;

2. The applicant holds a Juris Doctor or Bachelor of Laws from a law school accredited by the American Bar Association;

3. The applicant is licensed to practice law in another state, the District of Columbia, or a territory of the United States after having passed a written exam;

4. The applicant can establish that he or she is a member in good standing in all jurisdictions where licensed to practice law and that he or she is not currently subject to discipline or a pending disciplinary matter relating to the practice of law;

5. The applicant can demonstrate his or her presence in this state as a spouse of a servicemember; and

6. The applicant has otherwise fulfilled all requirements for admission to practice law in this state.

(b) The Supreme Court of Florida may specify circumstances under which the license and authorization to practice law in this state of an attorney licensed in accordance with paragraph (a) terminates.

Section 4. Subsections (1) and (7) of section 1012.56, Florida Statutes, are amended to read:

1012.56 Educator certification requirements.—

(1) APPLICATION.—Each person seeking certification pursuant to this chapter shall submit a completed application containing the applicant's social security number to the Department of Education and remit the fee required pursuant to s. 1012.59 and rules of the State Board of Education. Pursuant to the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, each party is required to provide his or her social security number in accordance with this section. Disclosure of social security numbers obtained through this requirement is limited to the purpose of administration of the Title IV-D program of the Social Security Act for child support enforcement. Pursuant to s. 120.60, the department shall issue within 90 calendar days after the stamped receipted date of the completed application:

(a) If the applicant meets the requirements, a professional certificate covering the classification, level, and area for which the applicant is deemed qualified and a document explaining the requirements for renewal of the professional certificate;

(b) If the applicant meets the requirements and if requested by an employing school district or an employing private school with a professional education competence demonstration program pursuant to paragraphs (6)(f) and (8)(b), a temporary certificate covering the classification, level, and area for which the applicant is deemed qualified and an official statement of status of eligibility; or

(c) If the ~~an~~ applicant does not meet the requirements for either certificate, an official statement of status of

eligibility. The statement of status of eligibility must advise the applicant of any qualifications that must be completed to qualify for certification. Each statement of status of eligibility is valid for 3 years after its date of issuance, except as provided in paragraph (2)(d).

If the applicant is the spouse of a servicemember, as defined in s. 250.01, stationed in this state and if the applicant holds a current professional standard teaching certificate issued by another state, the department shall expedite the processing of the application and issue a certificate or statement as provided under paragraphs (a)-(c) within 60 calendar days after the stamped receipted date of the completed application.

(7) TYPES AND TERMS OF CERTIFICATION.—

(a) The Department of Education shall issue a professional certificate for a period not to exceed 5 years to any applicant who meets all the requirements outlined in subsection (2) or, for a professional certificate covering grades 6 through 12, any applicant who:

1. Meets the requirements of paragraphs (2)(a)-(h).

2. Holds a master's or higher degree in the area of science, technology, engineering, or mathematics.

3. Teaches a high school course in the subject of the advanced degree.

4. Is rated highly effective as determined by the teacher's performance evaluation under s. 1012.34, based in part on student performance as measured by a statewide, standardized assessment or an Advanced Placement, Advanced International Certificate of Education, or International Baccalaureate

examination.

5. Achieves a passing score on the Florida professional education competency examination required by state board rule.

(b) The department shall issue a temporary certificate to any applicant who completes the requirements outlined in paragraphs (2)(a)-(f) and completes the subject area content requirements specified in state board rule or demonstrates mastery of subject area knowledge pursuant to subsection (5) and holds an accredited degree or a degree approved by the Department of Education at the level required for the subject area specialization in state board rule.

(c) The department shall issue one nonrenewable 2-year temporary certificate and one nonrenewable 5-year professional certificate to a qualified applicant who holds a bachelor's degree in the area of speech-language impairment to allow for completion of a master's degree program in speech-language impairment.

Each temporary certificate is valid for 3 school fiscal years and is nonrenewable. However, the requirement in paragraph (2)(g) must be met within 1 calendar year of the date of employment under the temporary certificate. Individuals who are employed under contract at the end of the 1 calendar year time period may continue to be employed through the end of the school year in which they have been contracted. A school district shall not employ, or continue the employment of, an individual in a position for which a temporary certificate is required beyond this time period if the individual has not met the requirement of paragraph (2)(g). The State Board of Education shall adopt

rules to allow the department to extend the validity period of a temporary certificate for 2 years when the requirements for the professional certificate, not including the requirement in paragraph (2)(g), were not completed due to the serious illness or injury of the applicant, due to the fact that the applicant is the spouse of a servicemember stationed in this state, or due to other extraordinary extenuating circumstances. The department shall reissue the temporary certificate for 2 additional years upon approval by the Commissioner of Education. A written request for reissuance of the certificate shall be submitted by the district school superintendent, the governing authority of a university lab school, the governing authority of a state-supported school, or the governing authority of a private school.

Section 5. Legislative findings and intent; continuing education of veterans of the United States Armed Forces.—The Legislature finds that many veterans of the United States Armed Forces in this state have completed training and coursework during their military service, including overseas deployments, resulting in tangible and quantifiable strides in their pursuit of a postsecondary degree. The Legislature further finds that the State Board of Education and the Board of Governors of the State University System must work together to ensure that military training and coursework are granted academic credit in order to assist veterans in continuing their education. Therefore, it is the intent of the Legislature that the State Board of Education and the Board of Governors work collaboratively to:

(1) Align existing degree programs, including, but not

limited to, vocational and technical degrees, at each state university and Florida College System institution with applicable military training and experience to maximize academic credit awarded for such training and experience.

(2) Appoint and train specific faculty within each degree program at each state university and Florida College System institution as liaisons and contacts for veterans.

(3) Incorporate outreach services tailored to disabled veterans into existing disability services on the campus of each state university and Florida College System institution to make available to such veterans information on disability services provided by the United States Department of Veterans Affairs, other federal and state agencies, and private entities.

(4) Facilitate statewide meetings for personnel at state universities and Florida College System institutions who provide student services for veterans to discuss and develop best practices, exchange ideas and experiences, and attend presentations by individuals with expertise in the unique needs of veterans.

(5) Make every effort to provide veterans with sufficient courses required for graduation, including, but not limited to, giving priority registration to veterans.

Section 6. This act shall take effect July 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 1670 (370410)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Criminal and Civil Justice); and Senator Latvala
SUBJECT:	Juvenile Justice
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jones	Hrdlicka	CJ	**Favorable**
2.	Sadberry	Sadberry	ACJ	**Recommend: Fav/CS**
3.	Sadberry	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 1670 makes numerous changes that increase the use of secure detention.

Specifically, the bill:

- Creates the designation of a "prolific juvenile offender;"
- Requires that children who meet the criteria for the designation of "prolific juvenile offender" be held in detention until disposition;
- Requires the court to place a child who is adjudicated and awaiting placement in a commitment program in secure detention until the child is placed in a commitment program;
- Requires that the period for detention be tolled on the date the Department of Juvenile Justice (DJJ) alleges the child has violated a condition of his or her detention until the court enters a ruling on the violation;
- Requires a "prolific juvenile offender's" adjudicatory hearing be held within 45 days after the child is taken into custody; and
- Waives the fees the Department of Health charges for certified birth certificates for juvenile offenders in the custody of the Department of Juvenile Justice.

The bill appropriates for Fiscal Year 2017-2018 of $2,978,012 in recurring funds and $2,978,012 in nonrecurring funds from the General Revenue Fund to the Department of Juvenile Justice (DJJ).

The bill is effective October 1, 2017.

II. Present Situation:

Detention of Juveniles

The Department of Juvenile Justice (DJJ) provides detention care to supervise juveniles charged with committing a crime or who are held pursuant to a court order. There are two types of detention care, secure and nonsecure detention. Secure detention is the temporary custody of a child while under the physical restriction of a secure detention center or facility pending adjudication, disposition, or placement.[1]

Nonsecure detention is the temporary, nonsecure custody of a child while the child is released to the custody of the parent, guardian, or custodian under the supervision of the DJJ staff pending adjudication, disposition, or placement. There are numerous forms of nonsecure detention; they include home detention, electronic monitoring, and nonsecure shelters.[2]

The DJJ operates 21 secure detention facilities with 1,302 beds in 21 counties. During Fiscal Year 2015-16, a total of 15,142 children were served through secure detention, 11,463 were served through home detention, and 2,803 were served through electronic monitoring. There are three county-operated detention centers in Marion, Polk, and Seminole counties.[3]

During Fiscal Year 2015-16, 2,437 children were committed to nonsecure residential commitment programs. These committed children awaiting placement in the community committed 4,308 new charges, including felonies, misdemeanors, and technical offenses. For that same period, 149 committed youth awaiting placement absconded during their time pending placement.[4]

Pre-Adjudication Detention

Section 985.255, F.S., requires a child to have a detention hearing within 24 hours of being taken into custody and placed in detention. The purpose of the detention hearing is to determine the existence of probable cause that the child has committed the delinquent act or violation of law that he or she is charged with and the need for continued detention.[5]

During the period of time between when a child is taken into custody and the detention hearing, the DJJ makes the determination of whether a child should be placed in detention. The DJJ must make its decision on a risk assessment of the child.[6] The child must be placed in secure detention until the detention hearing if the child:

[1] Section 985.03(18), F.S.
[2] *Id.*
[3] Department of Juvenile Justice, *2017 Agency Bill Analysis for SB 1670*, March 10, 2017, (on file with the Senate Criminal Justice Committee).
[4] *Id.*
[5] Section 985.255(3)(a), F.S.
[6] A risk assessment must take into consideration the child's prior history of failure to appear, prior offenses, offenses committed pending adjudication, any unlawful possession of a firearm, theft of a motor vehicle or possession of a stolen motor vehicle, and probation status at the time the child is taken into custody. Section 985.245(2), F.S.

- Is charged with possessing or discharging a firearm on school property.
- Has been taken into custody on three or more separate occasions within a 60-day period.[7]

Section 985.24, F.S., requires that all determinations and court orders regarding the use of detention care must be based upon findings that the child:

- Presents a substantial risk of not appearing at a subsequent hearing;
- Presents a substantial risk of inflicting bodily harm on others as evidenced by recent behavior, including the illegal possession of a firearm;
- Presents a history of committing a property offense prior to adjudication, disposition, or placement;
- Has committed contempt of court by:
  - Intentionally disrupting the administration of the court;
  - Intentionally disobeying a court order; or
  - Engaging in a punishable act or speech in the court's presence which shows disrespect for the authority and dignity of the court; or
- Requests protection from imminent bodily harm.[8]

At a detention hearing, the court must determine the need for continued detention and use the results of the DJJ's risk assessment.[9] The court may order a child to stay in detention, if the child is:

- Alleged to be an escapee from a residential commitment program; or an absconder from a nonresidential commitment program, a probation program, or conditional release supervision; or is alleged to have escaped while being lawfully transported to or from a residential commitment program.
- Wanted in another jurisdiction for a felony offense.
- Charged with a delinquent act or violation of law and requests to be detained for protection from an imminent physical threat to his or her personal safety.
- Charged with committing an offense of domestic violence[10] and is detained.[11]
- Charged with possession of or discharging a firearm on school property or the illegal possession of a firearm.
- Charged with a capital felony, a life felony, a felony of the first degree, a felony of the second degree that does not involve a violation of ch. 893, F.S., (drug offenses) or a felony of the third degree that is also a crime of violence, including any such offense involving the use or possession of a firearm.

[7] Section 985.25, F.S.
[8] Section 985.24(1), F.S.
[9] Section 985.255(3)(a), F.S., provides that a court does not have to use the DJJ's risk assessment in making its determination of detention if the child is detained because he or she is charged with a domestic violence offense, possession of or discharging a firearm on school property, or the illegal possession of a firearm.
[10] Section 741.28(2), F.S., defines domestic violence as any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, or any criminal offense resulting in physical injury or death of one family or household member by another family or household member. A family or household member includes: spouses; former spouses; persons related by blood or marriage; persons who are presently residing together as if a family or who have resided together in the past as if a family in the same single family dwelling unit; and persons who are parents of a child in common, regardless of whether they have been married.
[11] Section 985.255(2), F.S., allows a child to be held in secure detention if the court finds that respite care is not available and it is necessary to place the child in secure detention to protect the victim from injury.

- Charged with any second degree or third degree felony involving a violation of ch. 893, F.S., or any third degree felony that is not also a crime of violence, and the child:
  - Has a record of failure to appear at court hearings;
  - Has a record of law violations prior to court hearings;
  - Has already been detained or has been released and is awaiting final disposition of the case;
  - Has a record of violent conduct resulting in physical injury to others; or
  - Is found to have been in possession of a firearm.
- Alleged to have violated the conditions of the child's probation or conditional release supervision.
- Detained on a judicial order for failure to appear and has previously willfully failed to appear:
  - For an adjudicatory hearing on the same case regardless of the results of the risk assessment instrument; or
  - At two or more court hearings of any nature on the same case regardless of the results of the risk assessment instrument.[12]

If the court orders a placement more restrictive than indicated by the results of the risk assessment instrument, the court must state, in writing, clear and convincing reasons for such placement.[13]

Length of Detention

Once a detention hearing has been held and the state has filed a petition alleging a child committed a delinquent act or a violation of law, an adjudicatory hearing must be held as soon as practicable.[14] A child cannot be held in detention for more than 21 days unless an adjudicatory hearing is held.[15] The court may extend the length of the detention by nine days if more time is required for the prosecution or defense to prepare for cases involving certain serious crimes.[16] Except as stated above, after the adjudicatory hearing, a child cannot be held in detention for more than 15 days.[17]

Post-Disposition Detention

After the court finds that a child has committed a delinquent act, it must conduct a disposition hearing to determine the appropriate sanction for the child.[18] If the court places a child in a commitment program, the court must also place the child in detention care (secure or nonsecure) while awaiting placement in such commitment program.[19]

[12] Section 985.255(1), F.S.
[13] Section 985.255(3)(b), F.S.
[14] Section 985.35(1), F.S.
[15] Section 985.26(2), F.S.
[16] These serious crimes include capital felonies, life felonies, and first or second degree felonies. Section 985.26(2), F.S.
[17] Section 985.26(3), F.S.
[18] Section 985.433, F.S.
[19] Section 985.27, F.S.

If the child is awaiting placement in a nonsecure residential program he or she can only be in secure or nonsecure detention for up to five days. The DJJ may seek an extension of the five-day period to hold the child in detention care until the commitment placement is made. However, if the child is in secure detention, the continued detention cannot exceed 15 days.[20]

A child who violates his or her nonsecure detention or nonsecure detention with electronic monitoring can be placed in secure detention for five days for the first and each subsequent violation.[21]

If the placement for the child is a high- or maximum-risk residential program, the child must be held in secure detention until the placement is made.[22]

III. Effect of Proposed Changes:

Pre-Adjudication Detention

Section 3 amends s. 985.255, F.S., to add to the criteria a court may consider at a detention hearing. The bill adds the criteria of whether the child is classified as a ***prolific juvenile offender***.

A child is a ***prolific juvenile offender*** if the child:

- Is charged with a delinquent act that would be a felony if committed by an adult;
- Has been adjudicated or had adjudication withheld for a felony offense or delinquent act that would be a felony if committed by an adult, before the current charge; and
- Has 5 or more of any of the following, at least 3 of which must have been for felony offenses or delinquent acts that would have been felonies if committed by an adult:
  - An arrest event for which a disposition[23] has not been entered;
  - An adjudication; or
  - An adjudication withheld.

The term "arrest event" to mean an arrest or referral for one or more criminal offenses or delinquent acts arising out of the same episode, act, or transaction

The bill also specifies that court can only use the criteria in s. 985.255(1)-(2), F.S., and the risk assessment performed by the DJJ to determine whether a prolific juvenile offender should be held in secure detention.[24]

Under current law, a child must be placed in secure detention until the detention hearing if he or she is charged with certain offenses. **Section 2** amends s. 985.25, F.S., to include a child who is designated as a prolific juvenile offender to this list.

---

[20] Section 985.27(1)(a), F.S.
[21] *Id.*
[22] Section 985.27(1)(b) and (c), F.S.
[23] The bill defines disposition to mean the entry of a nolle prosequi for the charges, a dismissal of the case, or the entry of a disposition order by the court.
[24] Section 985.255(2), F.S., allows a child who is charged with committing an offense that is also an act of domestic violence to be held in secure detention to protect the victim from injury.

Length of Detention

Section 4 amends s. 985.26, F.S., to require a prolific juvenile offender to be placed on nonsecure detention care with electronic monitoring or held in secure detention under a special detention order until the disposition of his or her case. If secure detention is ordered by the court, it may not exceed:

- 21 days unless an adjudicatory hearing for the case has been commenced in good faith by the court or extended by the court; or
- 15 days after the entry of an order of adjudication.

The term "disposition" means a declination to file under s. 985.15(1)(h), F.S.; the entry of a nolle prosequi for the charges; the filing of an indictment under s. 985.56, F.S.; or an information under s. 985.557, F.S. (direct file); a dismissal of the case; or an order of final disposition by the court.

This section also establishes a tolling period for juveniles who have violated a condition of nonsecure detention until the court enters a ruling on the violation. A court retains jurisdiction over a child for a violation of a condition of nonsecure detention care during the tolling period. If the court finds that a child has violated his or her nonsecure detention care, the number of days that the child served in any type of detention before commission of the violation is excluded from the above time limits.

Section 7 amends s. 985.35, F.S., relating to adjudicatory hearings, to require a prolific juvenile offender's adjudicatory hearing be held within 45 days after the child is taken into custody, unless a delay is requested by the child.

Post-Disposition Detention

Section 6 amends s. 985.27, F.S., to require that all children who are adjudicated and awaiting placement in a nonsecure, high-risk, or maximum-risk residential commitment program be held in secure detention until placement or commitment.

Fees for Certified Birth Certificates

The Department of Health charges fees for a certified copy of a birth certificate. Currently, the department waives these fees for an inmate for is acquiring a state identification card before release.[25] **Section 1** amends s. 382.0255, F.S., to waive these fees for a juvenile offender who is in the custody of the DJJ and is receiving services under 985.461, F.S., (transition to adulthood services).

[25] Section 382.0255(3), F.S.

Other

Sections 5 and 8 amend ss. 985.265 and 985.514, F.S., respectively, to remove the reference of "secure" and "nonsecure" detention. The bill makes this change to consistently use "detention" care throughout ch. 985, F.S.

Sections 9-15 amend ss. 790.22, 985.115, 985.13, 985.245, 985.255, 985.275, and 985.319, F.S., respectively, to reenact provisions to incorporate changes made by the bill.

Section 16 of the bill provides an appropriation for Fiscal Year 2017-2018 of $2,978,012 in recurring funds and $2,978,012 in nonrecurring funds from the General Revenue Fund to the DJJ.

Section 17 of the bill provides the bill is effective October 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides in pertinent part that "no county or municipality shall be bound by any general law requiring such county or municipality to spend funds . . . unless the legislature has determined that such law fulfills an important state interest and unless: . . . the expenditure is required to comply with a law that applies to all persons similarly situated." Because this bill requires counties to pay more for juvenile detention costs than what was previously required, the mandate's provision of Art. VII, s. 18(a) of the Florida Constitution, appears to apply. However, the bill requires both the counties and the state to pay their respective share of the additional detention costs. Thus, the bill applies to all persons similarly situated, including the state and local governments. The bill does not include a legislative finding that the bill fulfills an important state interest.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill provides that children who meet the criteria for the designation of prolific juvenile offender be held in detention until disposition. Based on Fiscal Year 2015-2016, the DJJ determined 371 youth would meet the definition of prolific juvenile offender. Based on this, the DJJ assumes it would serve 371 youth once and 185.5 (half) of these youth a second time, totaling 557 cases annually. The current average time to disposition for these youth is 71 days. The bill provides that the adjudicatory hearing of a prolific juvenile offender must be held within 45 days.

The DJJ estimates the total cost impact of this bill to be $5,956,025. ($2,978,013 would be recurring General Revenue (GR) and $2,978,012 nonrecurring GR for Fiscal Year 2017-2018). Following Fiscal Year 2017-2018, the nonrecurring would be replaced by Shared County Detention Trust Funds based on a 50/50 split of costs as required by statute. In accordance with s. 985.6865, F.S., the DJJ bills counties for shared detention costs based on "total shared detention costs for the prior fiscal year." As such, changes that affect detention costs in Fiscal Year 2017-2018 would not be billed to counties until Fiscal Year 2018-2019. For that reason, the DJJ would need nonrecurring GR to cover the county's portion for year one costs.[26]

The cost to the Department of Health to waive the fees for certified copies of juveniles' birth certificates is unknown at this time.

VI. Technical Deficiencies:

To address the constitutional mandates requirements, a finding that the bill fulfills an important state interest should be included in the bill.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 382.0255, 985.25, 985.255, 985.26, 985.265, 985.27, 985.35, and 985.514.

This bill reenacts the following sections of the Florida Statutes: 790.22, 985.115, 985.13, 985.245, 985.255, 985.275, and 985.319.

[26] Email from Fred Schukecht, Chief of Staff, Department of Juvenile Justice, to Tim Sadberry, Staff Director, Senate Appropriations Subcommittee on Criminal and Civil Justice, (April 10, 2017) (on file with Senate Appropriations Subcommittee on Criminal and Civil Justice).

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Criminal and Civil Justice on April 13, 2017:
The committee substitute:

- Waives the fees the Department of Health charges for certified birth certificates for juvenile offenders in the custody of the DJJ.
- Allows a prolific juvenile offender to be placed on nonsecure detention with electronic monitoring or held in secure detention until the disposition of his or her case.
- Provides that an adjudicatory hearing must be held within 45 days after the child is taken into custody instead of after the petition is filed alleging that the child has committed a delinquent act.
- Removes the proposed changes to ss. 985.24 and 985.245, F.S.
- Provides an appropriation.

B. Amendments:

None.

unless such child requests a delay; revising the circumstances under which an adjudication of delinquency for a felony disqualifies a person from possessing a firearm; providing a declaration of important state interest; amending s.

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Criminal and Civil Justice)

A bill to be entitled

An act relating to juvenile justice; amending s. 382.0255, F.S.; requiring the Department of Health to waive fees for a birth certificate issued to certain juvenile offenders; amending s. 985.25, F.S.; revising terminology; requiring that a child who meets specified criteria be placed in secure detention care until the child's detention hearing; amending s. 985.255, F.S.; revising terminology; providing an additional circumstance under which the court may order continued detention; providing criteria for a child to be a prolific juvenile offender; defining the term "arrest event"; specifying certain information and criteria that may be considered by a court only when determining whether a prolific juvenile offender should be held in secure detention; conforming provisions to changes made by the act; amending s. 985.26, F.S.; revising terminology; requiring the court to place a prolific juvenile offender in certain detention care under a special detention order until disposition; specifying time limitations for secure detention for a prolific juvenile offender; defining the term "disposition"; providing for the tolling of nonsecure detention care for an alleged violation of such detention care; providing for the retention of jurisdiction by the court over a child during the tolling period; revising the calculation of detention

care days served if a child violates nonsecure detention care; amending s. 985.265, F.S.; revising terminology; amending s. 985.27, F.S.; requiring secure detention for all children awaiting placement in a residential commitment program until the placement or commitment is accomplished; deleting provisions specifying the maximum number of days a child may be placed in secure detention under certain circumstances; amending s. 985.35, F.S.; requiring the adjudicatory hearing for a child who is a prolific juvenile offender to be held within a specified period unless such child requests a delay; amending s. 985.514, F.S.; revising terminology; reenacting s. 790.22(8), F.S., relating to secure detention for minors charged with an offense involving BB guns, air or gas-operated guns, or electric weapons or devices, to incorporate the amendments made by the act to ss. 985.25, 985.255, and 985.26, F.S., in references thereto; reenacting s. 985.115(2), F.S., relating to release or delivery from custody, to incorporate the amendments made by the act to ss. 985.255 and 985.26, F.S., in references thereto; reenacting s. 985.13(2), F.S., relating to probable cause affidavits, to incorporate the amendments made by the act to ss. 985.255 and 985.26, F.S., in references thereto; reenacting s. 985.245(2)(b), F.S., relating to risk assessment instruments, to incorporate the amendment made by this act to s. 985.255, F.S., in a reference thereto; reenacting s. 985.255(2), F.S., relating to

detention criteria and hearings, to incorporate the amendment made by this act to s. 985.26, F.S., in a reference thereto; reenacting s. 985.275(1), F.S., relating to detention of an escapee or absconder, to incorporate the amendment made by this act to s. 985.255, F.S., in a reference thereto; reenacting s. 985.319(6), F.S., relating to process and service, to incorporate the amendment made by this act to s. 985.255, F.S., in a reference thereto; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (3) of section 382.0255, Florida Statutes, is amended to read:

382.0255 Fees.—

(3) Fees shall be established by rule. However, until rules are adopted, the fees assessed pursuant to this section shall be the minimum fees cited. The fees established by rule must be sufficient to meet the cost of providing the service. All fees shall be paid by the person requesting the record, are due and payable at the time services are requested, and are nonrefundable, except that, when a search is conducted and no vital record is found, any fees paid for additional certified copies shall be refunded. The department may waive all or part of the fees required under this section for any government entity. The department shall waive all fees required under this section for a certified copy of a birth certificate issued for purposes of an inmate acquiring a state identification card

before release pursuant to s. 944.605(7) and for a juvenile offender who is in the custody or under the supervision of the Department of Juvenile Justice and receiving services under s. 985.461.

Section 2. Subsection (1) of section 985.25, Florida Statutes, is amended to read:

985.25 Detention intake.—

(1) The department shall receive custody of a child who has been taken into custody from the law enforcement agency or court and shall review the facts in the law enforcement report or probable cause affidavit and make such further inquiry as may be necessary to determine whether detention care is appropriate.

(a) During the period of time from the taking of the child into custody to the date of the detention hearing, the initial decision as to the child's placement into ~~secure or nonsecure~~ detention care shall be made by the department under ss. 985.24 and 985.245(1).

(b) The department shall base the decision whether to place the child into ~~secure or nonsecure~~ detention care on an assessment of risk in accordance with the risk assessment instrument and procedures developed by the department under s. 985.245, except that~~. However,~~ a child shall be placed in secure detention care until the child's detention hearing if the child meets the criteria specified in s. 985.255(1)(j), is charged with possessing or discharging a firearm on school property in violation of s. 790.115, or ~~shall be placed in secure detention care. A child who~~ has been taken into custody on three or more separate occasions within a 60-day period ~~shall be placed in secure detention care until the child's detention hearing~~.

(c) If the final score on the child's risk assessment instrument indicates detention care is appropriate, but the department otherwise determines the child should be released, the department shall contact the state attorney, who may authorize release.

(d) If the final score on the risk assessment instrument indicates detention is not appropriate, the child may be released by the department in accordance with ss. 985.115 and 985.13.

Under no circumstances shall the department or the state attorney or law enforcement officer authorize the detention of any child in a jail or other facility intended or used for the detention of adults, without an order of the court.

Section 3. Subsections (1) and (3) of section 985.255, Florida Statutes, are amended to read:

985.255 Detention criteria; detention hearing.—

(1) Subject to s. 985.25(1), a child taken into custody and placed into ~~secure or nonsecure~~ detention care shall be given a hearing within 24 hours after being taken into custody. At the hearing, the court may order continued detention if:

(a) The child is alleged to be an escapee from a residential commitment program; or an absconder from a nonresidential commitment program, a probation program, or conditional release supervision; or is alleged to have escaped while being lawfully transported to or from a residential commitment program.

(b) The child is wanted in another jurisdiction for an offense which, if committed by an adult, would be a felony.

(c) The child is charged with a delinquent act or violation of law and requests in writing through legal counsel to be detained for protection from an imminent physical threat to his or her personal safety.

(d) The child is charged with committing an offense of domestic violence as defined in s. 741.28 and is detained as provided in subsection (2).

(e) The child is charged with possession of or discharging a firearm on school property in violation of s. 790.115 or the illegal possession of a firearm.

(f) The child is charged with a capital felony, a life felony, a felony of the first degree, a felony of the second degree that does not involve a violation of chapter 893, or a felony of the third degree that is also a crime of violence, including any such offense involving the use or possession of a firearm.

(g) The child is charged with any second degree or third degree felony involving a violation of chapter 893 or any third degree felony that is not also a crime of violence, and the child:

1. Has a record of failure to appear at court hearings after being properly notified in accordance with the Rules of Juvenile Procedure;

2. Has a record of law violations prior to court hearings;

3. Has already been detained or has been released and is awaiting final disposition of the case;

4. Has a record of violent conduct resulting in physical injury to others; or

5. Is found to have been in possession of a firearm.

(h) The child is alleged to have violated the conditions of the child's probation or conditional release supervision. However, a child detained under this paragraph may be held only in a consequence unit as provided in s. 985.439. If a consequence unit is not available, the child shall be placed on nonsecure detention with electronic monitoring.

(i) The child is detained on a judicial order for failure to appear and has previously willfully failed to appear, after proper notice:

1. For an adjudicatory hearing on the same case regardless of the results of the risk assessment instrument; or

2. At two or more court hearings of any nature on the same case regardless of the results of the risk assessment instrument.

A child may be held in secure detention for up to 72 hours in advance of the next scheduled court hearing pursuant to this paragraph. The child's failure to keep the clerk of court and defense counsel informed of a current and valid mailing address where the child will receive notice to appear at court proceedings does not provide an adequate ground for excusal of the child's nonappearance at the hearings.

(j) The child is a prolific juvenile offender. A child is a prolific juvenile offender if the child:

1. Is charged with a delinquent act that would be a felony if committed by an adult;

2. Has been adjudicated or had adjudication withheld for a felony offense, or a delinquent act that would be a felony if committed by an adult, before the charge under subparagraph 1.;

and

3. In addition to meeting the requirements of subparagraphs 1. and 2., has five or more of any of the following, at least three of which must have been for felony offenses or delinquent acts that would have been felonies if committed by an adult:

a. An arrest event for which a disposition, as defined in s. 985.26, has not been entered;

b. An adjudication; or

c. An adjudication withheld.

As used in this subparagraph, the term "arrest event" means an arrest or referral for one or more criminal offenses or delinquent acts arising out of the same episode, act, or transaction.

(3)(a) The purpose of the detention hearing required under subsection (1) is to determine the existence of probable cause that the child has committed the delinquent act or violation of law that he or she is charged with and the need for continued detention. Unless a child is detained under paragraph (1)(d) or paragraph (1)(e), the court shall use the results of the risk assessment performed by the department and, based on the criteria in subsection (1), shall determine the need for continued detention. If a child is a prolific juvenile offender who is detained under s. 985.26(2)(c), the court shall use the results of the risk assessment performed by the department and the criteria in subsection (1) or subsection (2) only to determine whether the prolific juvenile offender should be held in secure detention.

(b) If the court orders a placement more restrictive than

indicated by the results of the risk assessment instrument, the court shall state, in writing, clear and convincing reasons for such placement.

(c) Except as provided in s. 790.22(8) or ~~in~~ s. 985.27, when a child is placed into ~~secure or nonsecure~~ detention care, or into a respite home or other placement pursuant to a court order following a hearing, the court order must include specific instructions that direct the release of the child from such placement no later than 5 p.m. on the last day of the detention period specified in s. 985.26 or s. 985.27, whichever is applicable, unless the requirements of such applicable provision have been met or an order of continuance has been granted under s. 985.26(4). If the court order does not include a release date, the release date shall be requested from the court on the same date that the child is placed in detention care. If a subsequent hearing is needed to provide additional information to the court for safety planning, the initial order placing the child in detention care shall reflect the next detention review hearing, which shall be held within 3 calendar days after the child's initial detention placement.

Section 4. Subsections (1) through (4) of section 985.26, Florida Statutes, are amended to read:

985.26 Length of detention.—

(1) A child may not be placed into or held in ~~secure or nonsecure~~ detention care for longer than 24 hours unless the court orders such detention care, and the order includes specific instructions that direct the release of the child from such detention care, in accordance with s. 985.255. The order shall be a final order, reviewable by appeal under s. 985.534

and the Florida Rules of Appellate Procedure. Appeals of such orders shall take precedence over other appeals and other pending matters.

(2)(a) Except as provided in paragraph (b) or paragraph (c), a child may not be held in ~~secure or nonsecure~~ detention care under a special detention order for more than 21 days unless an adjudicatory hearing for the case has been commenced in good faith by the court.

(b) ~~However,~~ Upon good cause being shown that the nature of the charge requires additional time for the prosecution or defense of the case, the court may extend the length of detention for an additional 9 days if the child is charged with an offense that would be, if committed by an adult, a capital felony, a life felony, a felony of the first degree, or a felony of the second degree involving violence against any individual.

(c) A prolific juvenile offender under s. 985.255(1)(j) shall be placed on nonsecure detention care with electronic monitoring or in secure detention care under a special detention order until disposition. If secure detention care is ordered by the court, it must be authorized under this part and may not exceed:

1. Twenty-one days unless an adjudicatory hearing for the case has been commenced in good faith by the court or the period is extended by the court pursuant to paragraph (b); or

2. Fifteen days after the entry of an order of adjudication.

As used in this paragraph, the term "disposition" means a declination to file under s. 985.15(1)(h), the entry of nolle

576-03829-17

prosequi for the charges, the filing of an indictment under s. 985.56 or an information under s. 985.557, a dismissal of the case, or an order of final disposition by the court.

(3) Except as provided in subsection (2), a child may not be held in ~~secure or nonsecure~~ detention care for more than 15 days following the entry of an order of adjudication.

(4)(a) The time limits in subsections (2) and (3) do not include periods of delay resulting from a continuance granted by the court for cause on motion of the child or his or her counsel or of the state. Upon the issuance of an order granting a continuance for cause on a motion by either the child, the child's counsel, or the state, the court shall conduct a hearing at the end of each 72-hour period, excluding Saturdays, Sundays, and legal holidays, to determine the need for continued detention of the child and the need for further continuance of proceedings for the child or the state.

(b) The period for nonsecure detention care under this section is tolled on the date that the department or a law enforcement officer alleges that the child has violated a condition of the child's nonsecure detention care until the court enters a ruling on the violation. Notwithstanding the tolling of nonsecure detention care, the court retains jurisdiction over the child for a violation of a condition of nonsecure detention care during the tolling period. If the court finds that a child has violated his or her nonsecure detention care, the number of days that the child served in any type of detention care before commission of the violation shall be excluded from the time limits under subsections (2) and (3).

Section 5. Subsection (2) of section 985.265, Florida

576-03829-17

Statutes, is amended to read:

985.265 Detention transfer and release; education; adult jails.—

(2) If a child is on release status and not detained under this part, the child may be placed into ~~secure or nonsecure~~ detention care only pursuant to a court hearing in which the original risk assessment instrument and the newly discovered evidence or changed circumstances are introduced into evidence with a rescored risk assessment instrument.

Section 6. Section 985.27, Florida Statutes, is amended to read:

985.27 Postdisposition detention while awaiting residential commitment placement.—

~~(1)~~ The court must place all children who are adjudicated and awaiting placement in a nonsecure, high-risk, or maximum-risk residential commitment program in secure detention care until the placement or commitment is accomplished. ~~Children who are in nonsecure detention care may be placed on electronic monitoring.~~

~~(a) A child who is awaiting placement in a nonsecure residential program must be removed from detention within 5 days, excluding Saturdays, Sundays, and legal holidays. Any child held in secure detention during the 5 days must meet detention admission criteria under this part. The department may seek an order from the court authorizing continued detention for a specific period of time necessary for the appropriate residential placement of the child. However, such continued detention in secure detention care may not exceed 15 days after entry of the commitment order, excluding Saturdays, Sundays, and~~

~~legal holidays, and except as otherwise provided in this section. A child who is placed in nonsecure detention care or nonsecure detention care with electronic monitoring, while awaiting placement in a nonsecure residential program, may be held in secure detention care for 5 days, if the child violates the conditions of the nonsecure detention care or the electronic monitoring agreement. For any subsequent violation, the court may impose an additional 5 days in secure detention care.~~

~~(b) If the child is committed to a high-risk residential program, the child must be held in secure detention care until placement or commitment is accomplished.~~

~~(c) If the child is committed to a maximum-risk residential program, the child must be held in secure detention care until placement or commitment is accomplished.~~

~~(2) Regardless of detention status, a child being transported by the department to a residential commitment facility of the department may be placed in secure detention overnight, not to exceed a 24-hour period, for the specific purpose of ensuring the safe delivery of the child to his or her residential commitment program, court, appointment, transfer, or release.~~

Section 7. Subsection (1) of section 985.35, Florida Statutes, is amended to read:

985.35 Adjudicatory hearings; withheld adjudications; orders of adjudication.—

(1)(a) Except as provided in paragraph (b), the adjudicatory hearing must be held as soon as practicable after the petition alleging that a child has committed a delinquent act or violation of law is filed and in accordance with the

Florida Rules of Juvenile Procedure; but reasonable delay for the purpose of investigation, discovery, or procuring counsel or witnesses shall be granted. If the child is being detained, the time limitations in s. 985.26(2) and (3) apply.

(b) If the child is a prolific juvenile offender under s. 985.255(1)(j), the adjudicatory hearing must be held within 45 days after the child is taken into custody unless a delay is requested by the child.

Section 8. Subsection (1) of section 985.514, Florida Statutes, is amended to read:

985.514 Responsibility for cost of care; fees.—

(1) When any child is placed into ~~secure or nonsecure~~ detention care or into other placement for the purpose of being supervised by the department pursuant to a court order following a detention hearing, the court shall order the child's parents to pay fees to the department as provided in s. 985.039.

Section 9. For the purpose of incorporating the amendments made by this act to sections 985.25, 985.255, and 985.26, Florida Statutes, in references thereto, subsection (8) of section 790.22, Florida Statutes, is reenacted to read:

790.22 Use of BB guns, air or gas-operated guns, or electric weapons or devices by minor under 16; limitation; possession of firearms by minor under 18 prohibited; penalties.—

(8) Notwithstanding s. 985.24 or s. 985.25(1), if a minor is charged with an offense that involves the use or possession of a firearm, including a violation of subsection (3), or is charged for any offense during the commission of which the minor possessed a firearm, the minor shall be detained in secure detention, unless the state attorney authorizes the release of

the minor, and shall be given a hearing within 24 hours after being taken into custody. At the hearing, the court may order that the minor continue to be held in secure detention in accordance with the applicable time periods specified in s. 985.26(1)-(5), if the court finds that the minor meets the criteria specified in s. 985.255, or if the court finds by clear and convincing evidence that the minor is a clear and present danger to himself or herself or the community. The Department of Juvenile Justice shall prepare a form for all minors charged under this subsection which states the period of detention and the relevant demographic information, including, but not limited to, the gender, age, and race of the minor; whether or not the minor was represented by private counsel or a public defender; the current offense; and the minor's complete prior record, including any pending cases. The form shall be provided to the judge for determining whether the minor should be continued in secure detention under this subsection. An order placing a minor in secure detention because the minor is a clear and present danger to himself or herself or the community must be in writing, must specify the need for detention and the benefits derived by the minor or the community by placing the minor in secure detention, and must include a copy of the form provided by the department.

Section 10. For the purpose of incorporating the amendments made by this act to sections 985.255 and 985.26, Florida Statutes, in references thereto, subsection (2) of section 985.115, Florida Statutes, is reenacted to read:

985.115 Release or delivery from custody.—

(2) Unless otherwise ordered by the court under s. 985.255

or s. 985.26, and unless there is a need to hold the child, a person taking a child into custody shall attempt to release the child as follows:

(a) To the child's parent, guardian, or legal custodian or, if the child's parent, guardian, or legal custodian is unavailable, unwilling, or unable to provide supervision for the child, to any responsible adult. Prior to releasing the child to a responsible adult, other than the parent, guardian, or legal custodian, the person taking the child into custody may conduct a criminal history background check of the person to whom the child is to be released. If the person has a prior felony conviction, or a conviction for child abuse, drug trafficking, or prostitution, that person is not a responsible adult for the purposes of this section. The person to whom the child is released shall agree to inform the department or the person releasing the child of the child's subsequent change of address and to produce the child in court at such time as the court may direct, and the child shall join in the agreement.

(b) Contingent upon specific appropriation, to a shelter approved by the department or to an authorized agent.

(c) If the child is believed to be suffering from a serious physical condition which requires either prompt diagnosis or prompt treatment, to a law enforcement officer who shall deliver the child to a hospital for necessary evaluation and treatment.

(d) If the child is believed to be mentally ill as defined in s. 394.463(1), to a law enforcement officer who shall take the child to a designated public receiving facility as defined in s. 394.455 for examination under s. 394.463.

(e) If the child appears to be intoxicated and has

threatened, attempted, or inflicted physical harm on himself or herself or another, or is incapacitated by substance abuse, to a law enforcement officer who shall deliver the child to a hospital, addictions receiving facility, or treatment resource.

(f) If available, to a juvenile assessment center equipped and staffed to assume custody of the child for the purpose of assessing the needs of the child in custody. The center may then release or deliver the child under this section with a copy of the assessment.

Section 11. For the purpose of incorporating the amendments made by this act to sections 985.255 and 985.26, Florida Statutes, in references thereto, subsection (2) of section 985.13, Florida Statutes, is reenacted to read:

985.13 Probable cause affidavits.—

(2) A person taking a child into custody who determines, under part V, that the child should be detained or released to a shelter designated by the department, shall make a reasonable effort to immediately notify the parent, guardian, or legal custodian of the child and shall, without unreasonable delay, deliver the child to the appropriate juvenile probation officer or, if the court has so ordered under s. 985.255 or s. 985.26, to a detention center or facility. Upon delivery of the child, the person taking the child into custody shall make a written report or probable cause affidavit to the appropriate juvenile probation officer. Such written report or probable cause affidavit must:

(a) Identify the child and, if known, the parents, guardian, or legal custodian.

(b) Establish that the child was legally taken into

custody, with sufficient information to establish the jurisdiction of the court and to make a prima facie showing that the child has committed a violation of law.

Section 12. For the purpose of incorporating the amendment made by this act to section 985.255, Florida Statutes, in a reference thereto, paragraph (b) of subsection (2) of section 985.245, Florida Statutes, is reenacted to read:

985.245 Risk assessment instrument.—

(2)

(b) The risk assessment instrument shall take into consideration, but need not be limited to, prior history of failure to appear, prior offenses, offenses committed pending adjudication, any unlawful possession of a firearm, theft of a motor vehicle or possession of a stolen motor vehicle, and probation status at the time the child is taken into custody. The risk assessment instrument shall also take into consideration appropriate aggravating and mitigating circumstances, and shall be designed to target a narrower population of children than s. 985.255. The risk assessment instrument shall also include any information concerning the child's history of abuse and neglect. The risk assessment shall indicate whether detention care is warranted, and, if detention care is warranted, whether the child should be placed into secure or nonsecure detention care.

Section 13. For the purpose of incorporating the amendment made by this act to section 985.26, Florida Statutes, in a reference thereto, subsection (2) of section 985.255, Florida Statutes, is reenacted to read:

985.255 Detention criteria; detention hearing.—

(2) A child who is charged with committing an offense that is classified as an act of domestic violence as defined in s. 741.28 and whose risk assessment instrument indicates secure detention is not appropriate may be held in secure detention if the court makes specific written findings that:

(a) Respite care for the child is not available.

(b) It is necessary to place the child in secure detention in order to protect the victim from injury.

The child may not be held in secure detention under this subsection for more than 48 hours unless ordered by the court. After 48 hours, the court shall hold a hearing if the state attorney or victim requests that secure detention be continued. The child may continue to be held in detention care if the court makes a specific, written finding that detention care is necessary to protect the victim from injury. However, the child may not be held in detention care beyond the time limits set forth in this section or s. 985.26.

Section 14. For the purpose of incorporating the amendment made by this act to section 985.255, Florida Statutes, in a reference thereto, subsection (1) of section 985.275, Florida Statutes, is reenacted to read:

985.275 Detention of escapee or absconder on authority of the department.—

(1) If an authorized agent of the department has reasonable grounds to believe that any delinquent child committed to the department has escaped from a residential commitment facility or from being lawfully transported thereto or therefrom, or has absconded from a nonresidential commitment facility, the agent

shall notify law enforcement and, if the offense would require notification under chapter 960, notify the victim. The agent shall make every reasonable effort as permitted within existing resources provided to the department to locate the delinquent child, and the child may be returned to the facility or, if it is closer, to a detention center for return to the facility. However, a child may not be held in detention longer than 24 hours, excluding Saturdays, Sundays, and legal holidays, unless a special order so directing is made by the judge after a detention hearing resulting in a finding that detention is required based on the criteria in s. 985.255. The order shall state the reasons for such finding. The reasons shall be reviewable by appeal or in habeas corpus proceedings in the district court of appeal.

Section 15. For the purpose of incorporating the amendment made by this act to section 985.255, Florida Statutes, in a reference thereto, subsection (6) of section 985.319, Florida Statutes, is reenacted to read:

985.319 Process and service.—

(6) If the petition alleges that the child has committed a delinquent act or violation of law and the judge deems it advisable to do so, under the criteria of s. 985.255, the judge may, by endorsement upon the summons and after the entry of an order in which valid reasons are specified, order the child to be taken into custody immediately, and in such case the person serving the summons shall immediately take the child into custody.

Section 16. For the 2017-2018 fiscal year, the sums of $2,978,012 in recurring funds and $2,978,012 in nonrecurring

370410

576-03829-17

funds from the General Revenue Fund are appropriated to the Department of Juvenile Justice for the purpose of implementing this act.

Section 17. This act shall take effect October 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1670
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Criminal and Civil Justice); and Senator Latvala
SUBJECT:	Juvenile Justice
DATE:	April 25, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jones	Hrdlicka	CJ	**Favorable**
2.	Sadberry	Sadberry	ACJ	**Recommend: Fav/CS**
3.	Sadberry	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1670 makes numerous changes that increase the use of secure detention.

Specifically, the bill:

- Creates the designation of a "prolific juvenile offender;"
- Requires that children who meet the criteria for the designation of "prolific juvenile offender" be held in detention until disposition;
- Requires the court to place a child who is adjudicated and awaiting placement in a commitment program in secure detention until the child is placed in a commitment program;
- Requires that the period for detention be tolled on the date the Department of Juvenile Justice (DJJ) alleges the child has violated a condition of his or her detention until the court enters a ruling on the violation;
- Requires a "prolific juvenile offender's" adjudicatory hearing be held within 45 days after the child is taken into custody;
- Waives the fees the Department of Health charges for certified birth certificates for juvenile offenders in the custody of the Department of Juvenile Justice;
- Creates an exception to allow a person who has an adjudication of delinquency for a felony offense and has his or her criminal history record expunged pursuant to s. 943.0515(1)(b), F.S., to qualify to lawfully possess a firearm; and
- Specifies that the bill fulfills an important state interest.

The bill appropriates for Fiscal Year 2017-2018 of $2,978,012 in recurring funds and $2,978,012 in nonrecurring funds from the General Revenue Fund to the Department of Juvenile Justice (DJJ).

The bill is effective October 1, 2017.

II. Present Situation:

Detention of Juveniles

The Department of Juvenile Justice (DJJ) provides detention care to supervise juveniles charged with committing a crime or who are held pursuant to a court order. There are two types of detention care, secure and nonsecure detention. Secure detention is the temporary custody of a child while under the physical restriction of a secure detention center or facility pending adjudication, disposition, or placement.[1]

Nonsecure detention is the temporary, nonsecure custody of a child while the child is released to the custody of the parent, guardian, or custodian under the supervision of the DJJ staff pending adjudication, disposition, or placement. There are numerous forms of nonsecure detention; they include home detention, electronic monitoring, and nonsecure shelters.[2]

The DJJ operates 21 secure detention facilities with 1,302 beds in 21 counties. During Fiscal Year 2015-16, a total of 15,142 children were served through secure detention, 11,463 were served through home detention, and 2,803 were served through electronic monitoring. There are three county-operated detention centers in Marion, Polk, and Seminole counties.[3]

During Fiscal Year 2015-16, 2,437 children were committed to nonsecure residential commitment programs. These committed children awaiting placement in the community committed 4,308 new charges, including felonies, misdemeanors, and technical offenses. For that same period, 149 committed youth awaiting placement absconded during their time pending placement.[4]

Pre-Adjudication Detention

Section 985.255, F.S., requires a child to have a detention hearing within 24 hours of being taken into custody and placed in detention. The purpose of the detention hearing is to determine the existence of probable cause that the child has committed the delinquent act or violation of law that he or she is charged with and the need for continued detention.[5]

During the period of time between when a child is taken into custody and the detention hearing, the DJJ makes the determination of whether a child should be placed in detention. The DJJ must

[1] Section 985.03(18), F.S.
[2] *Id.*
[3] Department of Juvenile Justice, *2017 Agency Bill Analysis for SB 1670*, March 10, 2017, (on file with the Senate Criminal Justice Committee).
[4] *Id.*
[5] Section 985.255(3)(a), F.S.

make its decision on a risk assessment of the child.[6] The child must be placed in secure detention until the detention hearing if the child:

- Is charged with possessing or discharging a firearm on school property.
- Has been taken into custody on three or more separate occasions within a 60-day period.[7]

Section 985.24, F.S., requires that all determinations and court orders regarding the use of detention care must be based upon findings that the child:

- Presents a substantial risk of not appearing at a subsequent hearing;
- Presents a substantial risk of inflicting bodily harm on others as evidenced by recent behavior, including the illegal possession of a firearm;
- Presents a history of committing a property offense prior to adjudication, disposition, or placement;
- Has committed contempt of court by:
  - Intentionally disrupting the administration of the court;
  - Intentionally disobeying a court order; or
  - Engaging in a punishable act or speech in the court's presence which shows disrespect for the authority and dignity of the court; or
- Requests protection from imminent bodily harm.[8]

At a detention hearing, the court must determine the need for continued detention and use the results of the DJJ's risk assessment.[9] The court may order a child to stay in detention, if the child is:

- Alleged to be an escapee from a residential commitment program; or an absconder from a nonresidential commitment program, a probation program, or conditional release supervision; or is alleged to have escaped while being lawfully transported to or from a residential commitment program.
- Wanted in another jurisdiction for a felony offense.
- Charged with a delinquent act or violation of law and requests to be detained for protection from an imminent physical threat to his or her personal safety.
- Charged with committing an offense of domestic violence[10] and is detained.[11]
- Charged with possession of or discharging a firearm on school property or the illegal possession of a firearm.

---

[6] A risk assessment must take into consideration the child's prior history of failure to appear, prior offenses, offenses committed pending adjudication, any unlawful possession of a firearm, theft of a motor vehicle or possession of a stolen motor vehicle, and probation status at the time the child is taken into custody. [7] Section 985.25, F.S.

[8] Section 985.24(1), F.S.

[9] Section 985.255(3)(a), F.S., provides that a court does not have to use the DJJ's risk assessment in making its determination of detention if the child is detained because he or she is charged with a domestic violence offense, possession of or discharging a firearm on school property, or the illegal possession of a firearm.

[10] Section 741.28(2), F.S., defines domestic violence as any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, or any criminal offense resulting in physical injury or death of one family or household member by another family or household member. A family or household member includes: spouses; former spouses; persons related by blood or marriage; persons who are presently residing together as if a family or who have resided together in the past as if a family in the same single family dwelling unit; and persons who are parents of a child in common, regardless of whether they have been married.

[11] Section 985.255(2), F.S., allows a child to be held in secure detention if the court finds that respite care is not available and it is necessary to place the child in secure detention to protect the victim from injury.

- Charged with a capital felony, a life felony, a felony of the first degree, a felony of the second degree that does not involve a violation of ch. 893, F.S., (drug offenses) or a felony of the third degree that is also a crime of violence, including any such offense involving the use or possession of a firearm.
- Charged with any second degree or third degree felony involving a violation of ch. 893, F.S., or any third degree felony that is not also a crime of violence, and the child:
  - Has a record of failure to appear at court hearings;
  - Has a record of law violations prior to court hearings;
  - Has already been detained or has been released and is awaiting final disposition of the case;
  - Has a record of violent conduct resulting in physical injury to others; or
  - Is found to have been in possession of a firearm.
- Alleged to have violated the conditions of the child's probation or conditional release supervision.
- Detained on a judicial order for failure to appear and has previously willfully failed to appear:
  - For an adjudicatory hearing on the same case regardless of the results of the risk assessment instrument; or
  - At two or more court hearings of any nature on the same case regardless of the results of the risk assessment instrument.[12]

If the court orders a placement more restrictive than indicated by the results of the risk assessment instrument, the court must state, in writing, clear and convincing reasons for such placement.[13]

Length of Detention

Once a detention hearing has been held and the state has filed a petition alleging a child committed a delinquent act or a violation of law, an adjudicatory hearing must be held as soon as practicable.[14] A child cannot be held in detention for more than 21 days unless an adjudicatory hearing is held.[15] The court may extend the length of the detention by nine days if more time is required for the prosecution or defense to prepare for cases involving certain serious crimes.[16] Except as stated above, after the adjudicatory hearing, a child cannot be held in detention for more than 15 days.[17]

Post-Disposition Detention

After the court finds that a child has committed a delinquent act, it must conduct a disposition hearing to determine the appropriate sanction for the child.[18] If the court places a child in a

[13] Section 985.255(3)(b), F.S.
[14] Section 985.35(1), F.S.
[15] Section 985.26(2), F.S.
[16] These serious crimes include capital felonies, life felonies, and first or second degree felonies. Section 985.26(2), F.S.
[17] Section 985.26(3), F.S.
[18] Section 985.433, F.S.

commitment program, the court must also place the child in detention care (secure or nonsecure) while awaiting placement in such commitment program.[19]

If the child is awaiting placement in a nonsecure residential program he or she can only be in secure or nonsecure detention for up to five days. The DJJ may seek an extension of the five-day period to hold the child in detention care until the commitment placement is made. However, if the child is in secure detention, the continued detention cannot exceed 15 days.[20]

A child who violates his or her nonsecure detention or nonsecure detention with electronic monitoring can be placed in secure detention for five days for the first and each subsequent violation.[21]

If the placement for the child is a high- or maximum-risk residential program, the child must be held in secure detention until the placement is made.[22]

III. Effect of Proposed Changes:

Pre-Adjudication Detention

Section 3 amends s. 985.255, F.S., to add to the criteria a court may consider at a detention hearing. The bill adds the criteria of whether the child is classified as a ***prolific juvenile offender***.

A child is a ***prolific juvenile offender*** if the child:

- Is charged with a delinquent act that would be a felony if committed by an adult;
- Has been adjudicated or had adjudication withheld for a felony offense or delinquent act that would be a felony if committed by an adult, before the current charge; and
- Has 5 or more of any of the following, at least 3 of which must have been for felony offenses or delinquent acts that would have been felonies if committed by an adult:
  - An arrest event for which a disposition[23] has not been entered;
  - An adjudication; or
  - An adjudication withheld.

The term "arrest event" to mean an arrest or referral for one or more criminal offenses or delinquent acts arising out of the same episode, act, or transaction

The bill also specifies that court can only use the criteria in s. 985.255(1)-(2), F.S., and the risk assessment performed by the DJJ to determine whether a prolific juvenile offender should be held in secure detention.[24]

---

[19] Section 985.27, F.S.
[20] Section 985.27(1)(a), F.S.
[21] *Id.*
[22] Section 985.27(1)(b) and (c), F.S.
[23] The bill defines disposition to mean the entry of a nolle prosequi for the charges, a dismissal of the case, or the entry of a disposition order by the court.
[24] Section 985.255(2), F.S., allows a child who is charged with committing an offense that is also an act of domestic violence to be held in secure detention to protect the victim from injury.

Under current law, a child must be placed in secure detention until the detention hearing if he or she is charged with certain offenses. **Section 2** amends s. 985.25, F.S., to include a child who is designated as a prolific juvenile offender to this list.

Length of Detention

Section 4 amends s. 985.26, F.S., to require a prolific juvenile offender to be placed on nonsecure detention care with electronic monitoring or held in secure detention under a special detention order until the disposition of his or her case. If secure detention is ordered by the court, it may not exceed:

- 21 days unless an adjudicatory hearing for the case has been commenced in good faith by the court or extended by the court; or
- 15 days after the entry of an order of adjudication.

The term "disposition" means a declination to file under s. 985.15(1)(h), F.S.; the entry of a nolle prosequi for the charges; the filing of an indictment under s. 985.56, F.S.; or an information under s. 985.557, F.S. (direct file); a dismissal of the case; or an order of final disposition by the court.

This section also establishes a tolling period for juveniles who have violated a condition of nonsecure detention until the court enters a ruling on the violation. A court retains jurisdiction over a child for a violation of a condition of nonsecure detention care during the tolling period. If the court finds that a child has violated his or her nonsecure detention care, the number of days that the child served in any type of detention before commission of the violation is excluded from the above time limits.

Section 7 amends s. 985.35, F.S., relating to adjudicatory hearings, to require a prolific juvenile offender's adjudicatory hearing be held within 45 days after the child is taken into custody, unless a delay is requested by the child. Currently, a person who has an adjudication of delinquency for a felony offense is disqualified from lawfully possessing a firearm until he or she is 24 years old. The bill creates an exception to this disqualification, allowing a person who has his or her criminal history record expunged pursuant to s. 943.0515(1)(b), F.S., to qualify to lawfully possess a firearm.

Post-Disposition Detention

Section 6 amends s. 985.27, F.S., to require that all children who are adjudicated and awaiting placement in a nonsecure, high-risk, or maximum-risk residential commitment program be held in secure detention until placement or commitment.

Fees for Certified Birth Certificates

The Department of Health charges fees for a certified copy of a birth certificate. Currently, the department waives these fees for an inmate for is acquiring a state identification card before

release.[25] **Section 1** amends s. 382.0255, F.S., to waive these fees for a juvenile offender who is in the custody of the DJJ and is receiving services under 985.461, F.S., (transition to adulthood services).

Other

Sections 5 and 9 amend ss. 985.265 and 985.514, F.S., respectively, to remove the reference of "secure" and "nonsecure" detention. The bill makes this change to consistently use "detention" care throughout ch. 985, F.S.

Section 8 provides the Legislature determines and declares that is act fulfills an important state interest.

Sections 10-15 amend ss. 790.22, 985.115, 985.13, 985.245, 985.255, 985.275, and 985.319, F.S., respectively, to reenact provisions to incorporate changes made by the bill.

Section 17 of the bill provides an appropriation for Fiscal Year 2017-2018 of $2,978,012 in recurring funds and $2,978,012 in nonrecurring funds from the General Revenue Fund to the DJJ.

Section 18 of the bill provides the bill is effective October 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides, in pertinent part, that "no county or municipality shall be bound by any general law requiring such county or municipality to spend funds . . . unless the legislature has determined that such law fulfills an important state interest and unless: . . . the expenditure is required to comply with a law that applies to all persons similarly situated." Because this bill requires counties to pay more for juvenile detention costs than what was previously required, the mandate's provision of Art. VII, s. 18(a) of the Florida Constitution, appears to apply. However, the bill requires both the counties and the state to pay their respective share of the additional detention costs. Thus, the bill applies to all persons similarly situated, including the state and local governments. The bill includes a legislative finding that the bill fulfills an important state interest.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[25] Section 382.0255(3), F.S.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill provides that children who meet the criteria for the designation of prolific juvenile offender be held in detention until disposition. Based on Fiscal Year 2015-2016, the DJJ determined 371 youth would meet the definition of prolific juvenile offender. Based on this, the DJJ assumes it would serve 371 youth once and 185.5 (half) of these youth a second time, totaling 557 cases annually. The current average time to disposition for these youth is 71 days. The bill provides that the adjudicatory hearing of a prolific juvenile offender must be held within 45 days.

The DJJ estimates the total cost impact of this bill to be $5,956,025. ($2,978,013 would be recurring General Revenue (GR) and $2,978,012 nonrecurring GR for Fiscal Year 2017-2018). Following Fiscal Year 2017-2018, the nonrecurring would be replaced by Shared County Detention Trust Funds based on a 50/50 split of costs as required by statute. In accordance with s. 985.6865, F.S., the DJJ bills counties for shared detention costs based on "total shared detention costs for the prior fiscal year." As such, changes that affect detention costs in Fiscal Year 2017-2018 would not be billed to counties until Fiscal Year 2018-2019. For that reason, the DJJ would need nonrecurring GR to cover the county's portion for year one costs.[26]

The cost to the Department of Health to waive the fees for certified copies of juveniles' birth certificates is unknown at this time.

VI. Technical Deficiencies:

To address the constitutional mandates requirements, a finding that the bill fulfills an important state interest should be included in the bill.

VII. Related Issues:

None.

[26] Email from Fred Schukecht, Chief of Staff, Department of Juvenile Justice, to Tim Sadberry, Staff Director, Senate Appropriations Subcommittee on Criminal and Civil Justice, (April 10, 2017) (on file with Senate Appropriations Subcommittee on Criminal and Civil Justice).

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 382.0255, 985.25, 985.255, 985.26, 985.265, 985.27, 985.35, and 985.514.

This bill reenacts the following sections of the Florida Statutes: 790.22, 985.115, 985.13, 985.245, 985.255, 985.275, and 985.319.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 25, 2017:
The committee substitute:

- Waives the fees the Department of Health charges for certified birth certificates for juvenile offenders in the custody of the DJJ.
- Allows a prolific juvenile offender to be placed on nonsecure detention with electronic monitoring or held in secure detention until the disposition of his or her case.
- Provides that an adjudicatory hearing must be held within 45 days after the child is taken into custody instead of after the petition is filed alleging that the child has committed a delinquent act.
- Removes the proposed changes to ss. 985.24 and 985.245, F.S.
- Creates an exception to allow a person who has an adjudication of delinquency for a felony offense and has his or her criminal history record expunged pursuant to s. 943.0515(1)(b), F.S., to qualify to lawfully possess a firearm.
- Specifies that the bill fulfills an important state interest.
- Provides an appropriation.

B. Amendments:

None.

By Senator Latvala

16-00721B-17 20171670__

A bill to be entitled

An act relating to juvenile justice; amending s. 985.24, F.S.; revising requirements for placement of a child in detention care; revising terminology; amending s. 985.245, F.S.; providing that a child who is designated a prolific juvenile offender does not require a risk assessment to be placed in detention care; amending s. 985.25, F.S.; revising terminology; providing that a child meeting specified criteria shall be placed in secure detention care until the child's detention hearing; amending s. 985.255, F.S.; revising terminology; providing criteria for a child to be designated a prolific juvenile offender; defining the term "arrest event"; conforming provisions to changes made by the act; amending s. 985.26, F.S.; revising terminology; requiring the court to place a prolific juvenile offender in secure detention care under a special detention order until disposition; defining the term "disposition"; revising terminology; providing for the tolling of the period of detention care for an alleged violation of detention care conditions; providing for the retention of jurisdiction by the court over a child during the tolling period; revising the calculation of detention days served if a child violates detention care; amending s. 985.265, F.S.; revising terminology; amending s. 985.27, F.S.; requiring secure detention for all children awaiting placement in a commitment program until the placement or commitment is

16-00721B-17 20171670__

accomplished; deleting provisions relating to the detention of children; amending s. 985.35, F.S.; requiring the adjudicatory hearing for a child designated a prolific juvenile offender to be held within a specified period unless such child requests a delay; amending s. 985.514, F.S.; revising terminology; reenacting s. 790.22(8), F.S., relating to secure detention for minors charged with an offense involving firearms, to incorporate the amendments made by the act to ss. 985.24, 985.25, 985.255, and 985.26, F.S., in references thereto; reenacting s. 985.115(2), F.S., relating to release or delivery from custody, to incorporate the amendments made by the act to ss. 985.255 and 985.26, F.S., in references thereto; reenacting s. 985.13(2), F.S., relating to probable cause affidavits, to incorporate the amendments made by the act to ss. 985.255 and 985.26, F.S., in references thereto; reenacting s. 985.245(2)(b), F.S., relating to risk assessment instruments, to incorporate the amendment made by this act to s. 985.255, F.S., in a reference thereto; reenacting s. 985.255(2), F.S., relating to detention criteria and hearings, to incorporate the amendment made by this act to s. 985.26, F.S., in a reference thereto; reenacting s. 985.275(1), F.S., relating to detention of an escapee or absconder, to incorporate the amendment made by this act to s. 985.255, F.S., in a reference thereto; reenacting s. 985.319(6), F.S., relating to process and service, to incorporate the

amendment made by this act to s. 985.255, F.S., in a reference thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (d) and (e) of subsection (1) and subsection (2) of section 985.24, Florida Statutes, are amended, and paragraph (f) is added to subsection (1) of that section, to read:

985.24 Use of detention; prohibitions.—

(1) All determinations and court orders regarding the use of detention care shall be based primarily upon findings that the child:

(d) Has committed contempt of court by:

1. Intentionally disrupting the administration of the court;

2. Intentionally disobeying a court order; or

3. Engaging in a punishable act or speech in the court's presence which shows disrespect for the authority and dignity of the court; ~~or~~

(e) Requests protection from imminent bodily harm; or

(f) Is at risk for recidivism.

(2) A child alleged to have committed a delinquent act or violation of law may not be placed into ~~secure or nonsecure~~ detention care for any of the following reasons:

(a) To allow a parent to avoid his or her legal responsibility.

(b) To permit more convenient administrative access to the child.

(c) To facilitate further interrogation or investigation.

(d) Due to a lack of more appropriate facilities.

Section 2. Subsection (1) of section 985.245, Florida Statutes, is amended to read:

985.245 Risk assessment instrument.—

(1) All determinations and court orders regarding placement of a child into detention care shall comply with all requirements and criteria provided in this part and shall be based on a risk assessment of the child, unless the child is placed into detention care under ~~as provided in~~ s. 985.255(2) or is designated a prolific juvenile offender under s. 985.255(1)(j).

Section 3. Subsection (1) of section 985.25, Florida Statutes, is amended to read:

985.25 Detention intake.—

(1) The department shall receive custody of a child who has been taken into custody from the law enforcement agency or court and shall review the facts in the law enforcement report or probable cause affidavit and make such further inquiry as may be necessary to determine whether detention care is appropriate.

(a) During the period of time from the taking of the child into custody to the date of the detention hearing, the initial decision as to the child's placement into ~~secure or nonsecure~~ detention care shall be made by the department under ss. 985.24 and 985.245(1).

(b) The department shall base the decision whether to place the child into ~~secure or nonsecure~~ detention care on an assessment of risk in accordance with the risk assessment instrument and procedures developed by the department under s.

985.245, except that~~. However,~~ a child shall be placed in secure detention care until the child's detention hearing if the child meets the criteria specified in s. 985.255(1)(j), is charged with possessing or discharging a firearm on school property in violation of s. 790.115, or ~~shall be placed in secure detention care. A child who~~ has been taken into custody on three or more separate occasions within a 60-day period ~~shall be placed in secure detention care until the child's detention hearing~~.

(c) If the final score on the child's risk assessment instrument indicates detention care is appropriate, but the department otherwise determines the child should be released, the department shall contact the state attorney, who may authorize release.

(d) If the final score on the risk assessment instrument indicates detention is not appropriate, the child may be released by the department in accordance with ss. 985.115 and 985.13.

Under no circumstances shall the department or the state attorney or law enforcement officer authorize the detention of any child in a jail or other facility intended or used for the detention of adults, without an order of the court.

Section 4. Subsection (1) and paragraphs (a) and (c) of subsection (3) of section 985.255, Florida Statutes, are amended to read:

985.255 Detention criteria; detention hearing.—

(1) Subject to s. 985.25(1), a child taken into custody and placed into ~~secure or nonsecure~~ detention care shall be given a hearing within 24 hours after being taken into custody. At the

hearing, the court may order continued detention if:

(a) The child is alleged to be an escapee from a residential commitment program; or an absconder from a nonresidential commitment program, a probation program, or conditional release supervision; or is alleged to have escaped while being lawfully transported to or from a residential commitment program.

(b) The child is wanted in another jurisdiction for an offense which, if committed by an adult, would be a felony.

(c) The child is charged with a delinquent act or violation of law and requests in writing through legal counsel to be detained for protection from an imminent physical threat to his or her personal safety.

(d) The child is charged with committing an offense of domestic violence as defined in s. 741.28 and is detained as provided in subsection (2).

(e) The child is charged with possession of or discharging a firearm on school property in violation of s. 790.115 or the illegal possession of a firearm.

(f) The child is charged with a capital felony, a life felony, a felony of the first degree, a felony of the second degree that does not involve a violation of chapter 893, or a felony of the third degree that is also a crime of violence, including any such offense involving the use or possession of a firearm.

(g) The child is charged with any second degree or third degree felony involving a violation of chapter 893 or any third degree felony that is not also a crime of violence, and the child:

1. Has a record of failure to appear at court hearings after being properly notified in accordance with the Rules of Juvenile Procedure;

2. Has a record of law violations prior to court hearings;

3. Has already been detained or has been released and is awaiting final disposition of the case;

4. Has a record of violent conduct resulting in physical injury to others; or

5. Is found to have been in possession of a firearm.

(h) The child is alleged to have violated the conditions of the child's probation or conditional release supervision. However, a child detained under this paragraph may be held only in a consequence unit as provided in s. 985.439. If a consequence unit is not available, the child shall be placed on nonsecure detention with electronic monitoring.

(i) The child is detained on a judicial order for failure to appear and has previously willfully failed to appear, after proper notice:

1. For an adjudicatory hearing on the same case regardless of the results of the risk assessment instrument; or

2. At two or more court hearings of any nature on the same case regardless of the results of the risk assessment instrument.

A child may be held in secure detention for up to 72 hours in advance of the next scheduled court hearing pursuant to this paragraph. The child's failure to keep the clerk of court and defense counsel informed of a current and valid mailing address where the child will receive notice to appear at court

proceedings does not provide an adequate ground for excusal of the child's nonappearance at the hearings.

(j) The child is a prolific juvenile offender. A child must be designated by the court as a prolific juvenile offender if the child:

1. Is charged with a delinquent act that would be a felony if committed by an adult;

2. Has been adjudicated or had adjudication withheld for a felony offense or delinquent act that would be a felony if committed by an adult, before the charge under subparagraph 1.; and

3. Has 5 or more of any of the following, at least 3 of which must have been for felony offenses or delinquent acts that would have been felonies if committed by an adult:

a. An arrest event for which a disposition, as defined in s. 985.26, has not been entered;

b. An adjudication; or

c. An adjudication withheld.

This subparagraph excludes the arrest event that resulted in the charge under subparagraph 1. and the adjudication or adjudication withheld under subparagraph 2. As used in this subparagraph, the term "arrest event" means an arrest for one or more criminal offenses or delinquent acts arising out of the same episode, act, or transaction.

(3)(a) The purpose of the detention hearing required under subsection (1) is to determine the existence of probable cause that the child has committed the delinquent act or violation of law that he or she is charged with and the need for continued

detention. Unless a child is detained under paragraph (1)(d), ~~or~~ paragraph (1)(e), or paragraph (1)(j), the court shall use the results of the risk assessment performed by the department and, based on the criteria in subsection (1), shall determine the need for continued detention.

(c) Except as provided in s. 790.22(8), s. 985.26(2)(b), or ~~in~~ s. 985.27, when a child is placed into ~~secure or nonsecure~~ detention care, or into a respite home or other placement pursuant to a court order following a hearing, the court order must include specific instructions that direct the release of the child from such placement no later than 5 p.m. on the last day of the detention period specified in s. 985.26 or s. 985.27, whichever is applicable, unless the requirements of such applicable provision have been met or an order of continuance has been granted under s. 985.26(4). If the court order does not include a release date, the release date shall be requested from the court on the same date that the child is placed in detention care. If a subsequent hearing is needed to provide additional information to the court for safety planning, the initial order placing the child in detention care shall reflect the next detention review hearing, which shall be held within 3 calendar days after the child's initial detention placement.

Section 5. Subsections (1) through (4) of section 985.26, Florida Statutes, are amended to read:

985.26 Length of detention.—

(1) A child may not be placed into or held in ~~secure or nonsecure~~ detention care for longer than 24 hours unless the court orders such detention care, and the order includes specific instructions that direct the release of the child from

such detention care, in accordance with s. 985.255. The order shall be a final order, reviewable by appeal under s. 985.534 and the Florida Rules of Appellate Procedure. Appeals of such orders shall take precedence over other appeals and other pending matters.

(2)(a) Except as provided in paragraph (b), a child may not be held in ~~secure or nonsecure~~ detention care under a special detention order for more than 21 days unless an adjudicatory hearing for the case has been commenced in good faith by the court. However, upon good cause being shown that the nature of the charge requires additional time for the prosecution or defense of the case, the court may extend the length of detention for an additional 9 days if the child is charged with an offense that would be, if committed by an adult, a capital felony, a life felony, a felony of the first degree, or a felony of the second degree involving violence against any individual.

(b) A child who is designated a prolific juvenile offender under s. 985.255(1)(j) shall be held in secure detention care under a special detention order until disposition. As used in this paragraph, the term "disposition" means the entry of a nolle prosequi for the charges, a dismissal of the case, or the entry of a disposition order by the court.

(3) Except as provided in subsection (2), a child may not be held in ~~secure or nonsecure~~ detention care for more than 15 days following the entry of an order of adjudication.

(4)(a) The time limits in subsections (2) and (3) do not include periods of delay resulting from a continuance granted by the court for cause on motion of the child or his or her counsel or of the state. Upon the issuance of an order granting a

continuance for cause on a motion by either the child, the child's counsel, or the state, the court shall conduct a hearing at the end of each 72-hour period, excluding Saturdays, Sundays, and legal holidays, to determine the need for continued detention of the child and the need for further continuance of proceedings for the child or the state.

(b) The period for detention care under this section is tolled on the date that the department alleges that the child has violated a condition of the child's detention care until the court enters a ruling on the violation. Notwithstanding the tolling of detention care, the court retains jurisdiction over the child for a violation of a condition of detention care during the tolling period. If the court finds that a child has violated his or her detention care, the number of days that the child served in detention care before commission of the violation shall be excluded from the time limits under subsections (2) and (3).

Section 6. Subsection (2) of section 985.265, Florida Statutes, is amended to read:

985.265 Detention transfer and release; education; adult jails.—

(2) If a child is on release status and not detained under this part, the child may be placed into ~~secure or nonsecure~~ detention care only pursuant to a court hearing in which the original risk assessment instrument and the newly discovered evidence or changed circumstances are introduced into evidence with a rescored risk assessment instrument.

Section 7. Section 985.27, Florida Statutes, is amended to read:

985.27 Postdisposition detention while awaiting commitment placement.—

~~(1)~~ The court must place all children who are adjudicated and awaiting placement in a commitment program in secure detention care until the placement or commitment is accomplished. ~~Children who are in nonsecure detention care may be placed on electronic monitoring.~~

~~(a) A child who is awaiting placement in a nonsecure residential program must be removed from detention within 5 days, excluding Saturdays, Sundays, and legal holidays. Any child held in secure detention during the 5 days must meet detention admission criteria under this part. The department may seek an order from the court authorizing continued detention for a specific period of time necessary for the appropriate residential placement of the child. However, such continued detention in secure detention care may not exceed 15 days after entry of the commitment order, excluding Saturdays, Sundays, and legal holidays, and except as otherwise provided in this section. A child who is placed in nonsecure detention care or nonsecure detention care with electronic monitoring, while awaiting placement in a nonsecure residential program, may be held in secure detention care for 5 days, if the child violates the conditions of the nonsecure detention care or the electronic monitoring agreement. For any subsequent violation, the court may impose an additional 5 days in secure detention care.~~

~~(b) If the child is committed to a high-risk residential program, the child must be held in secure detention care until placement or commitment is accomplished.~~

~~(c) If the child is committed to a maximum-risk residential~~

~~program, the child must be held in secure detention care until placement or commitment is accomplished.~~

~~(2) Regardless of detention status, a child being transported by the department to a residential commitment facility of the department may be placed in secure detention overnight, not to exceed a 24-hour period, for the specific purpose of ensuring the safe delivery of the child to his or her residential commitment program, court, appointment, transfer, or release.~~

Section 8. Subsection (1) of section 985.35, Florida Statutes, is amended to read:

985.35 Adjudicatory hearings; withheld adjudications; orders of adjudication.—

(1)(a) Except as provided in paragraph (b), the adjudicatory hearing must be held as soon as practicable after the petition alleging that a child has committed a delinquent act or violation of law is filed and in accordance with the Florida Rules of Juvenile Procedure; but reasonable delay for the purpose of investigation, discovery, or procuring counsel or witnesses shall be granted. If the child is being detained, the time limitations in s. 985.26(2) and (3) apply.

(b) If the child is designated a prolific juvenile offender under s. 985.255(1)(j), the adjudicatory hearing must be held within 45 days after the petition alleging that the child has committed a delinquent act or violation of law has been filed unless a delay is requested by the child.

Section 9. Subsection (1) of section 985.514, Florida Statutes, is amended to read:

985.514 Responsibility for cost of care; fees.—

(1) When any child is placed into ~~secure or nonsecure~~ detention care or into other placement for the purpose of being supervised by the department pursuant to a court order following a detention hearing, the court shall order the child's parents to pay fees to the department as provided in s. 985.039.

Section 10. For the purpose of incorporating the amendments made by this act to sections 985.24, 985.25, 985.255, and 985.26, Florida Statutes, in references thereto, subsection (8) of section 790.22, Florida Statutes, is reenacted to read:

790.22 Use of BB guns, air or gas-operated guns, or electric weapons or devices by minor under 16; limitation; possession of firearms by minor under 18 prohibited; penalties.—

(8) Notwithstanding s. 985.24 or s. 985.25(1), if a minor is charged with an offense that involves the use or possession of a firearm, including a violation of subsection (3), or is charged for any offense during the commission of which the minor possessed a firearm, the minor shall be detained in secure detention, unless the state attorney authorizes the release of the minor, and shall be given a hearing within 24 hours after being taken into custody. At the hearing, the court may order that the minor continue to be held in secure detention in accordance with the applicable time periods specified in s. 985.26(1)-(5), if the court finds that the minor meets the criteria specified in s. 985.255, or if the court finds by clear and convincing evidence that the minor is a clear and present danger to himself or herself or the community. The Department of Juvenile Justice shall prepare a form for all minors charged under this subsection which states the period of detention and the relevant demographic information, including, but not limited

to, the gender, age, and race of the minor; whether or not the minor was represented by private counsel or a public defender; the current offense; and the minor's complete prior record, including any pending cases. The form shall be provided to the judge for determining whether the minor should be continued in secure detention under this subsection. An order placing a minor in secure detention because the minor is a clear and present danger to himself or herself or the community must be in writing, must specify the need for detention and the benefits derived by the minor or the community by placing the minor in secure detention, and must include a copy of the form provided by the department.

Section 11. For the purpose of incorporating the amendment made by this act to sections 985.255 and 985.26, Florida Statutes, in references thereto, subsection (2) of section 985.115, Florida Statutes, is reenacted to read:

985.115 Release or delivery from custody.—

(2) Unless otherwise ordered by the court under s. 985.255 or s. 985.26, and unless there is a need to hold the child, a person taking a child into custody shall attempt to release the child as follows:

(a) To the child's parent, guardian, or legal custodian or, if the child's parent, guardian, or legal custodian is unavailable, unwilling, or unable to provide supervision for the child, to any responsible adult. Prior to releasing the child to a responsible adult, other than the parent, guardian, or legal custodian, the person taking the child into custody may conduct a criminal history background check of the person to whom the child is to be released. If the person has a prior felony

conviction, or a conviction for child abuse, drug trafficking, or prostitution, that person is not a responsible adult for the purposes of this section. The person to whom the child is released shall agree to inform the department or the person releasing the child of the child's subsequent change of address and to produce the child in court at such time as the court may direct, and the child shall join in the agreement.

(b) Contingent upon specific appropriation, to a shelter approved by the department or to an authorized agent.

(c) If the child is believed to be suffering from a serious physical condition which requires either prompt diagnosis or prompt treatment, to a law enforcement officer who shall deliver the child to a hospital for necessary evaluation and treatment.

(d) If the child is believed to be mentally ill as defined in s. 394.463(1), to a law enforcement officer who shall take the child to a designated public receiving facility as defined in s. 394.455 for examination under s. 394.463.

(e) If the child appears to be intoxicated and has threatened, attempted, or inflicted physical harm on himself or herself or another, or is incapacitated by substance abuse, to a law enforcement officer who shall deliver the child to a hospital, addictions receiving facility, or treatment resource.

(f) If available, to a juvenile assessment center equipped and staffed to assume custody of the child for the purpose of assessing the needs of the child in custody. The center may then release or deliver the child under this section with a copy of the assessment.

Section 12. For the purpose of incorporating the amendment made by this act to section 985.255 and 985.26, Florida

Statutes, in references thereto, subsection (2) of section 985.13, Florida Statutes, is reenacted to read:

985.13 Probable cause affidavits.—

(2) A person taking a child into custody who determines, under part V, that the child should be detained or released to a shelter designated by the department, shall make a reasonable effort to immediately notify the parent, guardian, or legal custodian of the child and shall, without unreasonable delay, deliver the child to the appropriate juvenile probation officer or, if the court has so ordered under s. 985.255 or s. 985.26, to a detention center or facility. Upon delivery of the child, the person taking the child into custody shall make a written report or probable cause affidavit to the appropriate juvenile probation officer. Such written report or probable cause affidavit must:

(a) Identify the child and, if known, the parents, guardian, or legal custodian.

(b) Establish that the child was legally taken into custody, with sufficient information to establish the jurisdiction of the court and to make a prima facie showing that the child has committed a violation of law.

Section 13. For the purpose of incorporating the amendment made by this act to section 985.255, Florida Statutes, in a reference thereto, paragraph (b) of subsection (2) of section 985.245, Florida Statutes, is reenacted to read:

985.245 Risk assessment instrument.—

(2)

(b) The risk assessment instrument shall take into consideration, but need not be limited to, prior history of

failure to appear, prior offenses, offenses committed pending adjudication, any unlawful possession of a firearm, theft of a motor vehicle or possession of a stolen motor vehicle, and probation status at the time the child is taken into custody. The risk assessment instrument shall also take into consideration appropriate aggravating and mitigating circumstances, and shall be designed to target a narrower population of children than s. 985.255. The risk assessment instrument shall also include any information concerning the child's history of abuse and neglect. The risk assessment shall indicate whether detention care is warranted, and, if detention care is warranted, whether the child should be placed into secure or nonsecure detention care.

Section 14. For the purpose of incorporating the amendment made by this act to section 985.26, Florida Statutes, in a reference thereto, subsection (2) of section 985.255, Florida Statutes, is reenacted to read:

985.255 Detention criteria; detention hearing.—

(2) A child who is charged with committing an offense that is classified as an act of domestic violence as defined in s. 741.28 and whose risk assessment instrument indicates secure detention is not appropriate may be held in secure detention if the court makes specific written findings that:

(a) Respite care for the child is not available.

(b) It is necessary to place the child in secure detention in order to protect the victim from injury.

The child may not be held in secure detention under this subsection for more than 48 hours unless ordered by the court.

After 48 hours, the court shall hold a hearing if the state attorney or victim requests that secure detention be continued. The child may continue to be held in detention care if the court makes a specific, written finding that detention care is necessary to protect the victim from injury. However, the child may not be held in detention care beyond the time limits set forth in this section or s. 985.26.

Section 15. For the purpose of incorporating the amendment made by this act to section 985.255, Florida Statutes, in a reference thereto, subsection (1) of section 985.275, Florida Statutes, is reenacted to read:

985.275 Detention of escapee or absconder on authority of the department.—

(1) If an authorized agent of the department has reasonable grounds to believe that any delinquent child committed to the department has escaped from a residential commitment facility or from being lawfully transported thereto or therefrom, or has absconded from a nonresidential commitment facility, the agent shall notify law enforcement and, if the offense would require notification under chapter 960, notify the victim. The agent shall make every reasonable effort as permitted within existing resources provided to the department to locate the delinquent child, and the child may be returned to the facility or, if it is closer, to a detention center for return to the facility. However, a child may not be held in detention longer than 24 hours, excluding Saturdays, Sundays, and legal holidays, unless a special order so directing is made by the judge after a detention hearing resulting in a finding that detention is required based on the criteria in s. 985.255. The order shall

state the reasons for such finding. The reasons shall be reviewable by appeal or in habeas corpus proceedings in the district court of appeal.

Section 16. For the purpose of incorporating the amendment made by this act to section 985.255, Florida Statutes, in a reference thereto, subsection (6) of section 985.319, Florida Statutes, is reenacted to read:

985.319 Process and service.—

(6) If the petition alleges that the child has committed a delinquent act or violation of law and the judge deems it advisable to do so, under the criteria of s. 985.255, the judge may, by endorsement upon the summons and after the entry of an order in which valid reasons are specified, order the child to be taken into custody immediately, and in such case the person serving the summons shall immediately take the child into custody.

Section 17. This act shall take effect October 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1672
INTRODUCER:	Community Affairs Committee; Transportation Committee; and Senator Latvala and others
SUBJECT:	Tampa Bay Area Regional Transit Authority
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Present	Yeatman	CA	**Fav/CS**
3.	Pitts	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1672 renames the Tampa Bay Area Regional Transportation Authority (Transportation Authority) as the Tampa Bay Area Regional *Transit* Authority (Transit Authority) and makes a conforming name change to create the Metropolitan Planning Organization (MPO) Chairs Coordinating Committee within the Transit Authority. The bill also revises the short title and definitions; revises membership, appointment, term, and quorum requirements; requires the governing board to conduct an evaluation of specified committees; deletes requirements relating to establishment of certain other committees; and revises the new Transit Authority's express purposes to reflect the bill's changes. Additionally, the bill requires the Transit Authority to develop and adopt a regional transit development plan; deletes obsolete provisions; and conforms provisions to changes made by the act.

The bill also:

- Requires an action by the Transit Authority regarding the funding of commuter rail, heavy rail transit, or light rail transit to be approved by a majority vote of each MPO serving the county or counties where such rail investment will be made and the approval of the Legislature;
- Prohibits the Transit Authority from engaging in any advocacy regarding a referendum, ordinance, legislation, or proposal under consideration by any governmental entity or the Legislature which relates to such funding; and

Requires the Transit Authority to conduct a feasibility study before proceeding with the project and before any contract is issued, which must be submitted to the Speaker of the House, Senate President, and the board of county commissioners of the relevant Transit Authority counties.

The Transit Authority, the Transit Authority MPO Chairs Coordinating Committee, the five counties in the authority's revised coverage area, and PSTA and HART are expected to experience indeterminate, but likely insignificant, administrative expenses associated with provisions of the bill. See section V., "Fiscal Impact Statement" for details.

The bill has an effective date of July 1, 2017.

II. Present Situation:

The Tampa Bay Area Regional Transportation Authority (Transportation Authority)

The Transportation Authority is an agency of the state[1] created in 2007, whose purpose is improving mobility and expanding multimodal transportation options for passengers and freight throughout Citrus, Hernando, Hillsborough, Pasco, Pinellas, Manatee, and Sarasota Counties.[2]

The Transportation Authority governing board currently has 15 voting members as follows:

- Each of the county commissions of the seven counties making up the authority's coverage area appoint one elected official to serve 2-year terms, with not more than 3 consecutive terms.
- The Transportation Authority Metropolitan Planning Organization Chairs Coordinating Committee appoints one member, who must be a chair of one of the Metropolitan Planning Organizations in the region and may not serve more than three consecutive terms.
- Two members must be the mayor, or the mayor's designee, of the largest municipality within the service area of the Pinellas Suncoast Transit Authority (PSTA)[3] and the Hillsborough Area Regional Transit Authority (HART).[4] If a mayor chooses not to serve, the designee must be an elected official selected by the mayor from that largest municipality's city council or commission. The mayor or the designee serves 2-year terms, with not more than 3 consecutive terms. Additional provisions address required processes if a mayor or a designee leaves office, or if a mayor has served 3 consecutive terms.
- One membership on the board rotates every 2 years between the mayor or designee of Manatee County and the mayor or designee of the largest municipality within Sarasota County, with the Manatee County mayor or designee serving the first 2-year term. If a mayor

[1] Section 343.92, F.S.
[2] Section 343.922(1), F.S.
[3] The Legislature by special act in 1970 created the Central Pinellas Transit Authority. In 1982, the Central Pinellas Transit Authority was renamed as the PSTA. The PSTA is the public transit provider in Pinellas County with 38 bus routes, as well as two express routes to Tampa. Beach trollies and a number of other special programs are available. *See* the PSTA website for more information available at: http://psta.net/index.php. (Last visited April 10, 2017.)
[4] In 1979, the Hillsborough Transit Authority, also known as the Hillsborough Area Regional Transit Authority (HART), was created under Chapter 163, part V, F.S., authorizing creation of regional transportation authorities. HART operates fixed-route local and express bus service, door-to-door paratransit service, flex-route neighborhood connector service, a "lightened" version of bus rapid transit, and manages the TECO Line Streetcar System. See the HART website for more information available at: http://gohart.org/#. (Last visited April 10, 2017.)

chooses not to serve, the designee must be an elected official selected by the mayor from that largest municipality's city council or commission.

- The Governor appoints four business representatives (3-year terms and not more than 2 consecutive terms), each of whom must reside in one of the seven counties governed by the authority and may not be an elected official. At least one but not more than two of the four representatives must represent counties within the federally designated Tampa Bay Transportation Management Area.[5]

The Florida Department of Transportation (FDOT) secretary appoints two advisors to the board from the FDOT districts within the seven-county area (Districts 1 and 7).[6]

The respective appointing authority must fill a vacancy during a term within 90 days, in the same manner as the original appointment, for the remainder of the unexpired term.[7]

The Governor appointed the initial chair (to serve for a minimum of 2 years) from among the full board membership immediately upon their appointment.[8] These appointments were required within 45 days following the authority's creation.[9] At the end of each subsequent chair's term, the board elects a chair from among its members.[10] Eight members constitute a quorum, and the vote of eight members is required for any action taken by the authority.[11] The board may establish Planning, Policy, and Finance Committees; as well as a Citizens Advisory Committee and technical advisory committees.[12]

Consistent with statutory direction,[13] the Transportation Authority adopted a regional transportation master plan in May of 2009, and updated the plan in June of 2011, 2013, and 2015.[14] According to the annual *Transportation Authority Monitoring and Oversight, Fiscal Year 2015 Report*,[15] the most recent update "refined the established transit, freight, and roadway networks, added a regional trails network, added a future priority projects list, outlined a strategic vision for implementation, [and] identified eight regional priority projects." The update serves as the Regional Long Range Transportation Plan.

The Transportation Authority MPO Chairs Coordinating Committee

Created in 1993, the West Central Florida MPO Chairs Coordinating Committee was established to coordinate projects deemed regionally significant, review regionally significant land use decisions, review all proposed regionally significant projects affecting more than one MPO, and institute a conflict resolution process throughout the West Central Florida region. After creation

of the Transportation Authority, the West Central Florida MPO Chairs Coordinating Committee and the authority more closely integrated planning efforts for the region. In 2016, the Chairs Coordinating Committee was placed within the Transportation Authority.[16,17]

The Need for Regional Planning

Numerous studies have concluded that regional planning is needed throughout the country to address transportation needs and services. One such study asserts that transportation planning in some places, including Tampa Bay, "remains hyper-localized" and recommends an umbrella or coordinating agency in the form of a regional transit authority.[18]

III. Effect of Proposed Changes:

Section 1 amends s. 339.175(6)(i), F.S., to substitute the term "transit" for "transportation authority" in the Transit Authority MPO Chairs Coordinating Committee within the Transit Authority.

Section 2 amends s. 343.90, F.S., to revise the short title from the "Tampa Bay Area Regional Transportation Authority Act" to the "Tampa Bay Area Regional Transit Authority Act".

Section 3 amends s. 343.91, F.S., redefining the term "authority" to mean the Transit Authority, covering Hernando, Hillsborough, Manatee, Pasco, and Pinellas Counties and any other contiguous county that is party to an agreement of participation. This revision eliminates express identification of Citrus and Sarasota Counties from the authority's revised coverage area. However, Sarasota County is contiguous to Manatee County, and Citrus County is contiguous to Hernando County.

Section 4 amends s. 343.92, F.S., to:

- Rename the Transportation Authority as the Transit Authority;
- Reduce the number of voting members from 15 to 13, appointed no later than 45 days after the creation of the authority, and revises the membership as follows:
  - Each of the county commissions of Hernando, Hillsborough, Manatee, Pasco, and Pinellas Counties appoint one county commissioner to serve 2-year terms, with not more than 3 consecutive terms. If a commissioner leaves elected office, the vacancy must be filled within 90 days. This change removes Citrus and Sarasota counties' representation on the Authority.
  - The mayor of the largest municipality within PSTA's service area and the mayor within HART's service area will serve for as long as they hold office.
  - PSTA and HART (or their successor agencies) each appoint from the membership of their respective governing bodies one member to serve a 2-year term with no more than 3

[16] *See* HB 7061 (2016).
[17] *See* the Transportation Authority MPO Chairs Coordinating Committee website for additional information on background, priority projects, and regional planning and coordination efforts, available at: http://www.tbarta.com/en/chairs-coordinating-committee/about/chairs-coordinating-committee. (Last visited April 10, 2017.)
[18] *See The Need for Regional Transportation Governance in Tampa Bay*, January 2017, available at: https://www.enotrans.org/wp-content/uploads/2017/01/Eno-TPB-White-Paper-Final.pdf. (Last visited April 10, 2017.)

consecutive terms. If a member no longer meets criteria for appointment, a vacancy exists and must be filled within 90 days.
  - The Governor appoints four members from the regional business community, each of whom must reside in one of the counties governed by the authority and may not be an elected official. Of the initially appointed members, one serves a 1-year term, two serve a 2-year term, and one serves a term as the initial chair. Thereafter, these members serve a 2-year term with not more than 3 consecutive terms. A vacancy during a term must be filled within 90 days in the same manner as the original appointment for the remainder of the unexpired term.

The Governor is required to appoint one of his appointees as the initial chair immediately upon their appointment. The initial chair serves a minimum of 2 years. At the end of the initial chair's term, the board elects a chair from among its members.

Seven, rather than eight, members constitute a quorum, and the vote of seven members is required by any action taken by the authority.

Beginning July 1, 2017, the authority's governing board must evaluate (and submit evaluation recommendations before the beginning of the 2018 Regular Session for) the abolishment, continuance, modification, or establishment of the following:
- Planning committee;
- Policy committee;
- Finance committee;
- Citizens advisory committee;
- Transit Authority MPO Chairs Coordinating Committee; and
- Transit management committee.

Section 5 amends s. 343.922, F.S., revising the purposes, powers, and duties of the Transit Authority to include:
- Planning, implementing, and operating mobility improvements and expansions of multimodal transportation options for passengers and freight throughout Hillsborough, Manatee, Pasco, and Pinellas Counties.
- Producing a regional *transit* development plan (rather than a regional *transportation* plan), integrating the transit development plans of participant counties, to include a prioritization of regionally significant transit projects and facilities. The bill directs the authority to provide to the Senate President and House Speaker on or before the beginning of the 2018 Regular Session a plan to produce the regional transit development plan. The development plan must adhere to guidance and regulations set forth by the FDOT or any successor agency, including without limitation:
  - Public involvement;
  - Collection and analysis of socioeconomic data;
  - Performance evaluation of existing services;
  - Service design and ridership forecasting; and
  - Financial planning.

- Serving, with the consent of the Governor or his or her designee, as the recipient of federal funds supporting an intercountry project or a regionally significant transit project that exists in a single county within the designated region.

An action by the Transit Authority regarding the funding of commuter rail, heavy rail transit, or light rail transit, as defined in s. 343.91, F.S., or any combination of such rail transits, requires approval by a majority vote of each MPO serving the county or counties where the rail transit investment will be made, and the approval of the Legislature by an act of general law.

The Transit Authority may not engage in any advocacy regarding a referendum, ordinance, legislation, or proposal under consideration by any governmental entity or the Legislature which seeks to approve the funding of commuter rail, heavy rail transit, or light rail transit, as defined in s. 343.91, F.S., or any combination thereof.

The Transit Authority must conduct a feasibility study through an independent third party, for any project of commuter rail, heavy rail transit, or light rail transit, as defined in s. 343.91, F.S., or any combination thereof, before proceeding with the development of the project and before any related contract is issued. The feasibility study shall be submitted, upon completion, to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the board of county commissioners of Hernando, Hillsborough, Manatee, Pasco, and Pinellas Counties.

Sections 3 through 10 delete obsolete language and conform provisions to changes made by the act.

Section 11 provides the bill takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides that no county or municipality shall be bound by any general law requiring such county or municipality to spend funds or to take an action requiring the expenditure of funds unless the legislature has determined that such law fulfills an important state interest and unless: funds have been appropriated that have been estimated at the time of enactment to be sufficient to fund such expenditure; the legislature authorizes or has authorized a county or municipality to enact a funding source not available for such county or municipality on February 1, 1989, that can be used to generate the amount of funds estimated to be sufficient to fund such expenditure by a simple majority vote of the governing body of such county or municipality; the law requiring such expenditure is approved by two-thirds of the membership in each house of the legislature; the expenditure is required to comply with a law that applies to all persons similarly situated, including the state and local governments; or the law is either required to comply with a federal requirement or required for eligibility for a federal entitlement, which federal requirement specifically contemplates actions by counties or municipalities for compliance.

Article VII, s. 18(d) of the Florida Constitution provides laws adopted to require funding of pension benefits existing on the effective date of this section, criminal laws, election laws,

the general appropriations act, special appropriations acts, laws reauthorizing but not expanding then-existing statutory authority, laws having insignificant fiscal impact, and laws creating, modifying, or repealing noncriminal infractions, are exempt from the requirements of this section.

An exemption from the mandates provision may apply if the expected fiscal impact on municipalities/counties is less than $2 million. Because the fiscal impact is anticipated to be less than $2 million, the bill appears to be exempt from the mandate requirements.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

To the extent that the bill's changes result in the provision of improved and more efficient regional transit services in the Tampa Bay area, public mobility options would be increased.

C. Government Sector Impact:

The Transit Authority, the Transit Authority MPO Chairs Coordinating Committee, the five counties in the authority's revised coverage area, and PSTA and HART are expected to experience indeterminate, but likely insignificant, administrative expenses associated with the organization's name change, committee evaluation and recommendations, and various planning requirements related to producing a regional transit development plan.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 339.175, 343.90, 343.91, 343.92, 343.922, 343.94, 343.947, 343.95, 343.975, and 343.976.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Community Affairs on April 17, 2017:

- Adds Hernando County to the list of expressly covered counties under the Transit Authority;
- Revises the composition of the Transit Authority governing board such that the county commission of Hernando County shall appoint one county commissioner to the board, and the Governor shall appoint one additional member, bringing the governor's appointee total to four. These two new members replace the members that were to be appointed by the Speaker of the House and the President of the Senate under the previous version of the bill;
- Restores current law that requires the secretary of the Florida DOT to appoint two advisors to the board;
- Provides that the chair of the board shall be selected from the board's members, rather than from the appointments of the Governor, Speaker of the House, or President of the Senate specifically;
- Requires an action by Transit Authority regarding the funding of commuter rail, heavy rail transit, or light rail transit to be approved by a majority vote of each MPO serving the county or counties where such rail investment will be made and the approval of the Legislature;
- Prohibits the Transit Authority from engaging in any advocacy regarding a referendum, ordinance, legislation, or proposal under consideration by any governmental entity or the Legislature which relates to such funding; and
- Requires the Transit Authority to conduct a feasibility study before proceeding with the project and before any contract is issued, which must be submitted to the Speaker of the House, Senate President, and the board of county commissioners of the relevant Transit Authority counties.

CS by Transportation on March 22, 2017:

- Makes changes relating to the Transit Authority's membership. Specifically:
  - Restores the two mayors from the largest municipality within PSTA's and HART's service areas to governing board membership; and
  - Removes the ability of the mayors from the largest municipality within PSTA's and HART's service areas to choose not to serve and to appoint a designee to serve on the governing board, as well as provisions relating to termination of a designee's term and requirements for filling a vacancy.

B. Amendments:

None.

By the Committees on Community Affairs; and Transportation; and Senators Latvala, Galvano, and Rouson

578-03977-17 20171672c2

A bill to be entitled

An act relating to the Tampa Bay Area Regional Transit Authority; amending s. 339.175, F.S.; creating the Tampa Bay Area Regional Transit Authority Metropolitan Planning Organization Chairs Coordinating Committee to replace the Tampa Bay Area Regional Transportation Authority Metropolitan Planning Organization Chairs Coordinating Committee; providing that the Tampa Bay Area Regional Transit Authority Metropolitan Planning Organization Chairs Coordinating Committee is created within the Tampa Bay Area Regional Transit Authority; amending s. 343.90, F.S.; revising the short title to "Tampa Bay Area Regional Transit Authority Act"; amending s. 343.91, F.S.; revising the definition of the term "authority" to mean the Tampa Bay Area Regional Transit Authority and to include only Hernando, Hillsborough, Manatee, Pasco, and Pinellas Counties and any other contiguous county that is party to an agreement of participation; revising the definition of the term "commuter rail"; amending s. 343.92, F.S.; creating the Tampa Bay Area Regional Transit Authority to replace the Tampa Bay Area Regional Transportation Authority; decreasing voting membership on the governing board of the authority; requiring the members to be appointed within a specified period; revising appointment and term requirements of such membership; revising requirements for filling vacancies on the board; requiring the Governor to appoint an initial chair of the board from

578-03977-17 20171672c2

one of the four members appointed by the Governor; providing that seven members of the board constitute a quorum; providing that the vote of seven members is necessary for any action to be taken by the authority; requiring the board to evaluate the abolishment, continuance, modification, or establishment of specified committees, beginning on a specified date; requiring the board to submit its recommendations for abolishment, continuance, modification, or establishment of the committees to the Legislature before a specified time; deleting requirements related to the establishment of a Transit Management Committee, a Citizens Advisory Committee, and technical advisory committees; conforming provisions to changes made by the act; amending s. 343.922, F.S.; revising the express purposes of the authority to include planning, implementing, and operating mobility improvements and expansions of certain multimodal transportation options, producing a certain regional transit development plan, and serving as the recipient of certain federal funds under certain circumstances; directing the authority to provide to the Legislature a plan to produce the regional transit development plan by a specified date; providing requirements for the regional transit development plan; requiring the authority to develop and adopt a regional transit development plan, rather than a transportation master plan; deleting obsolete provisions; conforming provisions to changes made by the act; providing that

an action by the authority regarding the funding of commuter rail, heavy rail transit, or light rail transit, or any combination thereof, requires approval by a majority vote of each M.P.O. serving the county or counties where such rail transit investment will be made, and the approval of the Legislature by an act of general law; prohibiting the authority from engaging in certain advocacy that seeks to approve the funding of commuter rail, heavy rail transit, or light rail transit, or any combination thereof; requiring the authority to conduct a feasibility study, through an independent third party, for any project of commuter rail, heavy rail transit, or light rail transit, or any combination thereof, before proceeding with the development of the project and before any related contracts are issued; requiring the feasibility study to be submitted to the Governor, the Legislature, and the board of county commissioners of specified counties; amending ss. 343.94, 343.947, 343.95, 343.975, and 343.976, F.S.; conforming provisions to changes made by the act; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (i) of subsection (6) of section 339.175, Florida Statutes, is amended to read:

339.175 Metropolitan planning organization.—

(6) POWERS, DUTIES, AND RESPONSIBILITIES.—The powers, privileges, and authority of an M.P.O. are those specified in

this section or incorporated in an interlocal agreement authorized under s. 163.01. Each M.P.O. shall perform all acts required by federal or state laws or rules, now and subsequently applicable, which are necessary to qualify for federal aid. It is the intent of this section that each M.P.O. shall be involved in the planning and programming of transportation facilities, including, but not limited to, airports, intercity and high-speed rail lines, seaports, and intermodal facilities, to the extent permitted by state or federal law.

(i) The Tampa Bay Area Regional Transit ~~Transportation~~ Authority Metropolitan Planning Organization Chairs Coordinating Committee is created within the Tampa Bay Area Regional Transit ~~Transportation~~ Authority, composed of the M.P.O.'s serving Citrus, Hernando, Hillsborough, Manatee, Pasco, Pinellas, Polk, and Sarasota Counties. The authority shall provide administrative support and direction to the committee. The committee must, at a minimum:

1. Coordinate transportation projects deemed to be regionally significant by the committee.

2. Review the impact of regionally significant land use decisions on the region.

3. Review all proposed regionally significant transportation projects in the respective transportation improvement programs which affect more than one of the M.P.O.'s represented on the committee.

4. Institute a conflict resolution process to address any conflict that may arise in the planning and programming of such regionally significant projects.

Section 2. Section 343.90, Florida Statutes, is amended to

read:

343.90 Short title.—This part may be cited as the "Tampa Bay Area Regional Transit ~~Transportation~~ Authority Act."

Section 3. Paragraphs (a) and (e) of subsection (1) of section 343.91, Florida Statutes, are amended to read:

343.91 Definitions.—

(1) As used in this part, the term:

(a) "Authority" means the Tampa Bay Area Regional Transit ~~Transportation~~ Authority, the body politic and corporate and agency of the state created by this part, covering ~~the seven-county area comprised of Citrus,~~ Hernando, Hillsborough, Manatee, Pasco, and Pinellas~~, Manatee, and Sarasota~~ Counties and any other contiguous county that is party to an agreement of participation.

(e)1. "Commuter rail" means a complete system of tracks, guideways, stations, and rolling stock necessary to effectuate medium-distance to long-distance passenger rail service to, from, or within the municipalities within the authority's designated ~~seven-county~~ region.

2. "Heavy rail transit" means a complete rail system operating on an electric railway with the capacity for a heavy volume of traffic, characterized by high-speed and rapid-acceleration passenger rail cars operating singly or in multicar trains on fixed rails in separate rights-of-way from which all other vehicular and pedestrian traffic are excluded. "Heavy rail transit" includes metro, subway, elevated, rapid transit, and rapid rail systems.

3. "Light rail transit" means a complete system of tracks, overhead catenaries, stations, and platforms with lightweight

passenger rail cars operating singly or in short, multicar trains on fixed rails in rights-of-way that are not separated from other traffic for much of the way.

Section 4. Section 343.92, Florida Statutes, is amended to read:

343.92 Tampa Bay Area Regional Transit ~~Transportation~~ Authority.—

(1) There is created and established a body politic and corporate, an agency of the state, to be known as the Tampa Bay Area Regional Transit ~~Transportation~~ Authority.

(2) The governing board of the authority shall consist of 13 ~~15~~ voting members appointed no later than 45 days after the creation of the authority.

(a) The secretary of the department shall appoint two advisors to the board who must be the district secretary for each of the department districts within the designated ~~seven-county~~ area of the authority.

(b) The 13 ~~15~~ voting members of the board shall be as follows:

1. The county commissions of ~~Citrus,~~ Hernando, Hillsborough, Manatee, Pasco, and Pinellas~~, Manatee, and Sarasota~~ Counties shall each appoint one county commissioner ~~elected official~~ to the board. Members appointed under this subparagraph shall serve 2-year terms with not more than three consecutive terms being served by any person. If a member under this subparagraph leaves elected office, a vacancy exists on the board to be filled as provided in this subparagraph within 90 days ~~subparagraph~~.

~~2. The Tampa Bay Area Regional Transportation Authority~~

~~(TBARTA) Metropolitan Planning Organization Chairs Coordinating Committee shall appoint one member to the board who must be a chair of one of the six metropolitan planning organizations in the region. The member appointed under this subparagraph shall serve a 2-year term with not more than three consecutive terms being served by any person.~~

2.~~3.a.~~ Two members of the board shall be the mayor~~, or the mayor's designee,~~ of the largest municipality within the service area of each of the following independent transit agencies or their legislatively created successor agencies: Pinellas Suncoast Transit Authority and Hillsborough Area Regional Transit Authority. The largest municipality is that municipality with the largest population as determined by the most recent United States Decennial Census.

~~b. Should a mayor choose not to serve, his or her designee must be an elected official selected by the mayor from that largest municipality's city council or city commission. A mayor or his or her designee shall serve a 2-year term with not more than three consecutive terms being served by any person.~~

~~c. A designee's term ends if the mayor leaves office for any reason. If a designee leaves elected office on the city council or commission, a vacancy exists on the board to be filled by the mayor of that municipality as provided in sub-subparagraph a.~~

3. The following independent transit agencies or their legislatively created successor agencies shall each appoint from the membership of their governing bodies one member to the board: Pinellas Suncoast Transit Authority and Hillsborough Area Regional Transit Authority. Each member appointed under this

subparagraph shall serve a 2-year term with not more than three consecutive terms being served by any person. If a member no longer meets the transit authority's criteria for appointment, a vacancy exists on the board, which must be filled as provided in this subparagraph within 90 days.

~~d. A mayor who has served three consecutive terms on the board must designate an elected official from that largest municipality's city council or city commission to serve on the board for at least one term.~~

~~4.a. One membership on the board shall rotate every 2 years between the mayor, or his or her designee, of the largest municipality within Manatee County and the mayor, or his or her designee, of the largest municipality within Sarasota County. The mayor, or his or her designee, from the largest municipality within Manatee County shall serve the first 2-year term. The largest municipality is that municipality with the largest population as determined by the most recent United States Decennial Census.~~

~~b. Should a mayor choose not to serve, his or her designee must be an elected official selected by the mayor from that municipality's city council or city commission.~~

4.~~5.~~ The Governor shall appoint to the board four members from the regional ~~four~~ business community ~~representatives~~, each of whom must reside in one of the ~~seven~~ counties governed by the authority and~~, none of whom~~ may not be an elected official ~~officials, and at least one but not more than two of whom shall represent counties within the federally designated Tampa Bay Transportation Management Area~~. Of the members initially appointed under this subparagraph, one shall serve a 1-year

term, two shall serve 2-year terms, and one shall serve a term as the initial chair as provided in subsection (5). Thereafter, a member ~~Members~~ appointed under this subparagraph ~~by the Governor~~ shall serve a 2-year term ~~3-year terms~~ with not more than three ~~two~~ consecutive terms being served by any person.

~~(c)~~ Appointments may be staggered to avoid mass turnover at the end of any 2-year or 4-year period. A vacancy during a term shall be filled ~~by the respective appointing authority~~ within 90 days in the same manner as the original appointment ~~and only~~ for the remainder of the unexpired term.

(3) The members of the board shall serve without compensation but shall be entitled to receive from the authority reimbursement for travel expenses and per diem actually incurred in connection with the business of the authority as provided in s. 112.061.

(4) Members of the board shall comply with the applicable financial disclosure requirements of ss. 112.3145, 112.3148, and 112.3149.

(5) The Governor shall appoint one of the four members appointed under subparagraph (2)(b)4. as the initial chair ~~from among the full membership~~ of the board immediately upon their appointment. ~~In no case may those appointments be made any later than 45 days following the creation of the authority.~~ The initial chair shall serve ~~will hold this position for~~ a minimum term of 2 years. The board shall elect a vice chair and secretary-treasurer from among its members who shall serve a minimum term of 1 year and shall establish the duties and powers of those positions during its inaugural meeting. During its inaugural meeting, the board shall ~~will~~ also establish its rules

of conduct and meeting procedures.

(6) At the end of the initial chair's term, the board shall elect a chair from among the ~~its~~ members. The chair shall hold office at the will of the board. In that election, the board shall also elect a vice chair and secretary-treasurer.

(7) The first meeting of the authority shall be held no later than 60 days after the creation of the authority.

(8) Seven ~~Eight~~ members of the board shall constitute a quorum, and the vote of seven ~~eight~~ members is necessary for any action to be taken by the authority. The authority may meet upon the constitution of a quorum. A vacancy does not impair the right of a quorum of the board to exercise all rights and the ability to perform all duties of the authority.

(9) Beginning July 1, 2017, the board must evaluate the abolishment, continuance, modification, or establishment of ~~may establish committees for~~ the following committees ~~areas~~:

(a) Planning committee.

(b) Policy committee.

(c) Finance committee.

(d) Citizens advisory committee.

(e) Tampa Bay Area Regional Transit Authority Metropolitan Planning Organization Chairs Coordinating Committee.

(f) Transit management committee.

(g) Technical advisory committee.

The board must submit its recommendations for abolishment, continuance, modification, or establishment of the committees to the President of the Senate and the Speaker of the House of Representatives before the beginning of the 2018 Regular

Session.

(10) The authority may employ an executive director, an executive secretary, its own legal counsel and legal staff, technical experts, engineers, and such employees, permanent or temporary, as it may require. The authority shall determine the qualifications and fix the compensation of such persons, firms, or corporations and may employ a fiscal agent or agents; however, the authority shall solicit sealed proposals from at least three persons, firms, or corporations for the performance of any services as fiscal agents. The authority may, except for duties specified in chapter 120, delegate its power to one or more of its agents or employees to carry out the purposes of this part, subject always to the supervision and control of the authority.

~~(11)(a) The authority shall establish a Transit Management Committee comprised of the executive directors or general managers, or their designees, of each of the existing transit providers and bay area commuter services.~~

~~(b) The authority shall establish a Citizens Advisory Committee comprised of appointed citizen committee members from each county and transit provider in the region, not to exceed 16 members.~~

~~(c) The authority may establish technical advisory committees to provide guidance and advice on regional transportation issues. The authority shall establish the size, composition, and focus of any technical advisory committee created.~~

(11)~~(d)~~ Persons appointed to a committee shall serve without compensation but may be entitled to per diem or travel

expenses as provided in s. 112.061.

Section 5. Subsection (1), paragraph (a) of subsection (2), subsection (3), subsection (4), and paragraph (g) of subsection (5) of section 343.922, Florida Statutes, are amended, and subsections (9) and (10) are added to that section, to read:

343.922 Powers and duties.—

(1) The express purposes of the authority are to:

(a) Plan, implement, and operate ~~improve~~ mobility improvements and expansions of ~~expand~~ multimodal transportation options for passengers and freight throughout the designated ~~seven-county Tampa Bay~~ region.

(b) Produce a regional transit development plan, integrating the transit development plans of participant counties, to include a prioritization of regionally significant transit projects and facilities.

1. The authority shall provide to the President of the Senate and the Speaker of the House of Representatives, on or before the beginning of the 2018 Regular Session, a plan to produce the regional transit development plan.

2. The regional transit development plan prepared by the authority must adhere to guidance and regulations set forth by the department or any successor agency, including, but not limited to:

a. Public involvement;

b. Collection and analysis of socioeconomic data;

c. Performance evaluation of existing services;

d. Service design and ridership forecasting; and

e. Financial planning.

(c) Serve, with the consent of the Governor or his or her

designee, as the recipient of federal funds supporting an intercounty project or a regionally significant transit project that exists in a single county within the designated region.

(2)(a) The authority has the right to plan, develop, finance, construct, own, purchase, operate, maintain, relocate, equip, repair, and manage those public transportation projects, such as express bus services; bus rapid transit services; light rail, commuter rail, heavy rail, or other transit services; ferry services; transit stations; park-and-ride lots; transit-oriented development nodes; or feeder roads, reliever roads, connector roads, bypasses, or appurtenant facilities, that are intended to address critical transportation needs or concerns in the ~~Tampa Bay~~ region as identified by the authority ~~by July 1, 2009~~. These projects may also include all necessary approaches, roads, bridges, and avenues of access that are desirable and proper with the concurrence of the department, as applicable, if the project is to be part of the State Highway System.

(3)(a) ~~No later than July 1, 2009,~~ The authority shall develop and adopt a regional transit development ~~transportation master~~ plan that provides a vision for a regionally integrated ~~multimodal~~ transportation system. The goals and objectives of the ~~master~~ plan are to identify areas of the ~~Tampa Bay~~ region where ~~multimodal~~ mobility, traffic safety, freight mobility, and efficient emergency evacuation alternatives need to be improved; identify areas of the region where multimodal transportation systems would be most beneficial to enhance mobility and economic development; develop methods of building partnerships with local governments, existing transit providers, expressway authorities, seaports, airports, and other local, state, and

federal entities; develop methods of building partnerships with CSX Corporation and CSX Transportation, Inc., to craft mutually beneficial solutions to achieve the authority's objectives, and with other private sector business community entities that may further the authority's mission, and engage the public in support of regional multimodal transportation improvements. The ~~master~~ plan shall identify and may prioritize projects that will accomplish these goals and objectives, including, without limitation, the creation of express bus and bus rapid transit services, light rail, commuter rail, and heavy rail transit services, ferry services, freight services, and any other multimodal transportation system projects that address critical transportation needs or concerns, pursuant to subsection (2); and identify the costs of the proposed projects and revenue sources that could be used to pay those costs. In developing the ~~master~~ plan, the authority shall review and coordinate with the future land use, capital improvements, and traffic circulation elements of its member local governments' comprehensive plans and the plans, programs, and schedules of other units of government having transit or transportation authority within whose jurisdictions the projects or improvements will be located to define and resolve potential inconsistencies between such plans and the authority's developing ~~master~~ plan. ~~By July 1, 2008, the authority, working with its member local governments, shall adopt a mandatory conflict resolution process that addresses consistency conflicts between the authority's regional transportation master plan and local government comprehensive plans.~~

(b) The authority shall consult with the department to

further the goals and objectives of the Strategic Regional Transit Needs Assessment completed by the department.

(c) Before the adoption of the regional transit development ~~master~~ plan, the authority shall hold at least one public meeting in each of the ~~seven~~ counties within the designated region. At least one public hearing must be held before the authority's board.

(d) After its adoption, the regional transit development ~~master~~ plan shall be updated every 5 years before July 1.

(e) The authority shall present the original regional transit development ~~master~~ plan and updates to the governing bodies of the counties within the designated ~~seven-county~~ region, to the TBARTA Metropolitan Planning Organization Chairs Coordinating Committee, and to the legislative delegation members representing those counties within 90 days after adoption.

(f) The authority shall coordinate plans and projects with the TBARTA Metropolitan Planning Organization Chairs Coordinating Committee, to the extent practicable, and participate in the regional M.P.O. planning process to ensure regional comprehension of the authority's mission, goals, and objectives.

(g) The authority shall provide administrative support and direction to the TBARTA Metropolitan Planning Organization Chairs Coordinating Committee as provided in s. 339.175(6)(i).

(4) The authority may undertake projects or other improvements in the regional transit development ~~master~~ plan in phases as particular projects or segments become feasible, as determined by the authority. The authority shall coordinate

project planning, development, and implementation with the applicable local governments. The authority's projects that are transportation oriented must be consistent to the maximum extent feasible with the adopted local government comprehensive plans at the time such projects are funded for construction. Authority projects that are not transportation oriented and meet the definition of development pursuant to s. 380.04 must be consistent with the local comprehensive plans. In carrying out its purposes and powers, the authority may request funding and technical assistance from the department and appropriate federal and local agencies, including, but not limited to, state infrastructure bank loans.

(5) The authority is granted and may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of the aforesaid purposes, including, but not limited to, the following rights and powers:

(g) To borrow money and to make and issue negotiable notes, bonds, refunding bonds, and other evidences of indebtedness or obligations, either in temporary or definitive form, hereinafter in this chapter sometimes called "revenue bonds" of the authority, for the purpose of financing all or part of the mobility improvements within the ~~Tampa Bay~~ region, as well as the appurtenant facilities, including all approaches, streets, roads, bridges, and avenues of access authorized by this part, the bonds to mature not exceeding 40 years after the date of the issuance thereof, and to secure the payment of such bonds or any part thereof by a pledge of any or all of its revenues, rates, fees, rentals, or other charges.

(9)(a) An action by the authority regarding the funding of

commuter rail, heavy rail transit, or light rail transit, as defined in s. 343.91, or any combination thereof, requires approval by a majority vote of each M.P.O. serving the county or counties where such rail transit investment will be made, and the approval of the Legislature by an act of general law.

(b) The authority may not engage in any advocacy regarding a referendum, ordinance, legislation, or proposal under consideration by any governmental entity or the Legislature which seeks to approve the funding of commuter rail, heavy rail transit, or light rail transit, as defined in s. 343.91, or any combination thereof.

(10) The authority must conduct a feasibility study, through an independent third party, for any project of commuter rail, heavy rail transit, or light rail transit, as defined in s. 343.91, or any combination thereof, before proceeding with the development of the project and before any related contract is issued. The feasibility study shall be submitted, upon completion, to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the board of county commissioners of Hernando, Hillsborough, Manatee, Pasco, and Pinellas Counties.

Section 6. Subsection (1) of section 343.94, Florida Statutes, is amended to read:

343.94 Bond financing authority.—

(1) Pursuant to s. 11(f), Art. VII of the State Constitution, the Legislature approves bond financing by the Tampa Bay Area Regional Transit ~~Transportation~~ Authority for construction of or improvements to commuter rail systems, transit systems, ferry systems, highways, bridges, toll

collection facilities, interchanges to the system, and any other transportation facility appurtenant, necessary, or incidental to the system. Subject to terms and conditions of applicable revenue bond resolutions and covenants, such costs may be financed in whole or in part by revenue bonds issued pursuant to paragraph (2)(a) or paragraph (2)(b), whether currently issued or issued in the future or by a combination of such bonds.

Section 7. Section 343.947, Florida Statutes, is amended to read:

343.947 Department may be appointed agent of authority for construction.—The department may be appointed by the authority as its agent for the purpose of constructing and completing transportation projects, and improvements and extensions thereto, in the authority's regional transit development ~~master~~ plan. In such event, the authority shall provide the department with complete copies of all documents, agreements, resolutions, contracts, and instruments relating thereto; shall request the department to do such construction work, including the planning, surveying, and actual construction of the completion, extensions, and improvements to the system; and shall transfer to the credit of an account of the department in the treasury of the state the necessary funds therefor. The department shall proceed with such construction and use the funds for such purpose in the same manner that it is now authorized to use the funds otherwise provided by law for its use in construction of commuter rail systems, transit systems, ferry systems, roads, bridges, and related transportation facilities.

Section 8. Subsections (1) and (3) of section 343.95, Florida Statutes, are amended to read:

343.95 Acquisition of lands and property.—

(1) For the purposes of this part, the authority may acquire private or public property and property rights, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation by eminent domain proceedings, as the authority may deem necessary for any purpose of this part, including, but not limited to, any lands reasonably necessary for securing applicable permits, areas necessary for management of access, borrow pits, drainage ditches, water retention areas, rest areas, replacement access for landowners whose access is impaired due to the construction of a facility, and replacement rights-of-way for relocated rail and utility facilities; for existing, proposed, or anticipated transportation facilities within the ~~seven-county Tampa Bay~~ region designated ~~identified~~ by the authority; or for the purposes of screening, relocation, removal, or disposal of junkyards and scrap metal processing facilities. The authority may condemn any material and property necessary for such purposes.

(3) When the authority acquires property for a transportation facility within the designated ~~seven-county Tampa Bay~~ region, the authority is not subject to any liability imposed by chapter 376 or chapter 403 for preexisting soil or groundwater contamination due solely to its ownership. This subsection does not affect the rights or liabilities of any past or future owners of the acquired property, nor does it affect the liability of any governmental entity for the results of its actions which create or exacerbate a pollution source. The authority and the Department of Environmental Protection may

enter into interagency agreements for the performance, funding, and reimbursement of the investigative and remedial acts necessary for property acquired by the authority.

Section 9. Subsections (1) and (3) of section 343.975, Florida Statutes, are amended to read:

343.975 Complete and additional statutory authority.—

(1) The powers conferred by this part are supplemental to the existing powers of the board and the department. This part does not repeal any of the provisions of any other law, general, special, or local, but supplements such other laws in the exercise of the powers provided in this part and provides a complete method for the exercise of the powers granted in this part. The projects planned and constructed by the Tampa Bay Area Regional Transit ~~Transportation~~ Authority shall comply with all applicable federal, state, and local laws. The extension and improvement of the system, and the issuance of bonds hereunder to finance all or part of the cost thereof, may be accomplished upon compliance with the provisions of this part without regard to or necessity for compliance with the provisions, limitations, or restrictions contained in any other general, special, or local law, including, but not limited to, s. 215.821. An approval of any bonds issued under this part by the qualified electors or qualified electors who are freeholders in the state or in any other political subdivision of the state is not required for the issuance of such bonds pursuant to this part.

(3) This part does not preclude the department from acquiring, holding, constructing, improving, maintaining, operating, or owning tolled or nontolled facilities funded and constructed from nonauthority sources that are part of the State

Highway System within the geographical boundaries of the Tampa Bay Area Regional Transit ~~Transportation~~ Authority.

Section 10. Section 343.976, Florida Statutes, is amended to read:

343.976 Effect on local government action.—This act does not prohibit any local government that is a member of the Tampa Bay Area Regional Transit ~~Transportation~~ Authority from participating in or creating any other transit authority, regional transportation authority, or expressway authority.

Section 11. This act shall take effect July 1, 2017.

THE FLORIDA SENATE

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1070
INTRODUCER:	Ethics and Elections Committee and Senator Hutson
SUBJECT:	Voter Registration List Maintenance
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Carlton	Ulrich	EE	**Fav/CS**
2.	Pitts	Hansen	AP	**Favorable**
3.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1070 authorizes the Secretary of State to enter into information sharing agreements with other states for the purpose of maintaining the statewide voter registration system. The bill directs the Secretary to use that data to identify registered voters or applications for voter registration that would be ineligible to vote and provides that those involved with such a data sharing agreement must keep all personal information confidential, if that information or data was confidential in its state of origin.

The bill, along with its public records counterpart CS/SB 1072, will provide the statutory authorization for Florida to join the Electronic Registration Information Center (ERIC), a private, non-profit, interstate consortium designed to help states improve the accuracy of their voter rolls through data match identification of problematic registrations and to increase access to voter registration for all eligible citizens. The bill would require that the Secretary of State or his or her designee be on the board of directors of ERIC or any other similar entity it joins.

The Department of State may incur costs related to the initial membership fee and annual user fees if the department elects to participate in the program. The one-time membership fee for states is $25,000 and the annual user fee is estimated to be between $50,000 and $75,000.

County supervisors of elections may incur costs related to maintenance activity associated by the receipt of information from ERIC, including outreach to voters to confirm addresses or eligibility. However, they may also incur cost savings due to more efficient processes and

reliable sources of data to maintain the voter rolls over the long term. The actual expenses and cost savings are indeterminate.

The bill will take effect on July 1, 2017.

II. Present Situation:

No complete national system currently exists to identify duplicate voter registrations across state lines. While there is no criminal or civil penalty for being registered in two states simultaneously, it is important to identify voters registered in multiple jurisdictions to ensure the accuracy of the voter rolls. Currently, the process in Florida relies upon either the voter voluntarily notifying Florida election officials that they have moved and registered to vote in a new state or, another state's voting officials notifying Florida election officials that the elector has registered there. In the event that Florida election officials receive notice from another state's election officials that one of its electors has registered in another state, the law requires that notification to be treated as a request from the voter to have his or her name removed from the Florida Voter Registration System.[1]

If Florida election officials do not receive notice that the elector has moved, a voter who has moved out of state will eventually be put into an inactive status pursuant to the county supervisors of elections biennial voter list maintenance efforts and culled from the state's rolls by the *second subsequent general election*, as provided by federal law.[2] That means that a voter who has moved can remain on Florida's voter rolls for up to 4 years. It ***does not mean***, however, that such a voter is casting ballots in two states in the same election; which would be a felony under Florida law.[3]

Florida Voter List Maintenance Information[4]

The Secretary of State, as the chief election officer of the State, is responsible for the operation and maintenance of the statewide voter registration system implemented as part of the Help America Vote Act of 2002.[5] The 67 county Supervisors of Elections are primarily responsible for the registration of voters under section 98.045, F.S., and records maintenance activities including removal of voters pursuant to sections 98.065 and 98.075, F.S., Supervisors of Elections are the only election officials with authority to register and remove voters from the registration rolls.

These ongoing records maintenance activities are conducted to protect the integrity of the electoral process through current and accurate records and to ensure only eligible voters are registered in the statewide voter registration system. By law, any maintenance program or activity must be uniform, nondiscriminatory, and in compliance with the Voting Rights Act of 1965, the National Voter Registration Act of 1993, and the Help America Vote Act of 2002.

---

[1] Section 98.045(2)(b), F.S.
[2] Section 98.065(4)(b) and (c), F.S.
[3] Section 104.18, F.S.
[4] This section is derived almost in its entirety from the Present Situation section of the Department of State bill analysis for SB 1070 (2017), provided by the pursuant to the Legislature's Agency Bill Analysis Request (ABAR) system.
[5] *See also* § 98.035, F.S.

As part of maintenance activities, the Florida Department of State's Division of Elections and county supervisor of elections offices may receive and use information from a variety of credible and reliable sources, including other Florida state and local agencies, federal government, and other states' elections officials, that may be useful in ensuring the accuracy of the registration system. Currently, information as to whether a voter has registered elsewhere is contingent upon the voter voluntarily indicating on a voter registration application that he or she was previously registered elsewhere. A voter may provide that information at the time he or she first registers or in subsequent registration record updates. There is no requirement that a registered voter must notify a state that he or she has moved out of the state and may have registered elsewhere.

If a registered voter indicates a prior state of registration, Florida will notify the other State within two weeks of registration to take appropriate action, and other States reciprocate with similar information.[6] If the Division of Elections is notified that a Florida registered voter may have registered elsewhere the information is processed and forwarded to the county Supervisor of Elections to take appropriate action to remove the voter. Sometimes the out-of-state cancellation information is forwarded directly to the county Supervisor of Elections. As noted above, a notice from another state election official that a voter has registered there is to be processed as if it were a direct request by the voter to be removed from rolls.[7]

Voter registration information once submitted to a governmental agency is public record pursuant to chapter 119, F.S., but a few exceptions exist. The social security number, the driver license number or state identification card number, where the voter submitted his or her registration information, and whether the voter declined to register or update voter registration information are exempt from public disclosure.[8] Additionally, while a voter's signature can be viewed or inspected, it cannot be copied.[9] Further, the law allows voters who fall into a number of high-risk professional classes to request that certain information such as their address and phone numbers and dates of birth be exempt for themselves and their spouses and children.[10] Finally, the "voter stalking exemption" that the Legislature adopted in 2010 exempts the names, addresses, and telephone numbers of actual or threatened victims who participate in the Attorney General's Address Confidentiality Program for Victims of Domestic Violence.[11]

Electronic Registration Information Center (ERIC)

The Florida State Association of Supervisors of Elections has made joining ERIC one of its two *priority* legislative issues for the 2017 session.[12] This bill, along with its linked public records bill CS/SB 1072, provides the Secretary of State the necessary legal authorization to do so.

ERIC represents the best available, though admittedly only a partial, solution to identifying interstate duplicate voter registrations.

[6] Section 97.073(2), F.S.
[7] Section 98.045(2), F.S.
[8] Section 97.0585, F.S.
[9] *Id.*
[10] Section 119.071(4)(d)1., F.S.
[11] Section 741.4651, F.S.
[12] FSASE, 2017 Legislative Issues, available at, http://www.myfloridaelections.com/portals/fsase/Documents/Public%20Policy/2017_FSASE_Legislative_Priorities.pdf (last accessed (Mar. 20, 2017)

"The Electronic Registration Information Center (ERIC) is a ***non-profit organization*** (corporation) with the sole mission of assisting states to improve the accuracy of America's voter rolls and increase access to voter registration for all eligible citizens. ERIC is governed and managed by states who choose to join, and was formed in 2012 with assistance from The Pew Charitable Trusts."[13] It is essentially a multistate, data-sharing partnership that uses modern technology to provide election officials with information to keep voter lists complete and current, and to increase voter registration by notifying qualified, unregistered voters.[14]

As of July 2016, ERIC has 20 state members plus the District of Columbia: Alabama, Alaska, Colorado, Connecticut, Delaware, Louisiana, Illinois, Maryland, Minnesota, Nevada, New Mexico, Ohio, Oregon, Pennsylvania, Rhode Island, Utah, Virginia, Washington, West Virginia, and Wisconsin.[15]

ERIC is controlled by a Board of Directors with each State having a vote; however, only the first 20 states to join appoint a member of the Board of Directors.[16] Florida would be the 21st state to join ERIC.

By joining ERIC, each member state submits, at a minimum, its voter registration and motor vehicle licensee data (which it updates every 60 days), including voter names, addresses, dates of birth, and last four digits of social security numbers.[17] However, ERIC does not require information such as race, religion, political party affiliation, or other information that can be used for purposes of discrimination. Sensitive, private data is anonymized (or "one-way hashing") and then transmitted to ERIC for use in the data matching process.[18] ERIC assures that all data received is collected, matched, and stored in an environment with state-of-the-art security.[19] The ERIC website offers a technical and security brief, for those seeking more information about privacy and technical concerns: http://www.ericstates.org/images/documents/ERIC_Tech_and_Security_Brief_v2.1.pdf.

[19] *Id.*

Using advanced algorithms, ERIC compares databases from its members and determines inaccuracies in states' voting lists — who has moved *inter*state and *intra*state, who has died, and who is eligible to vote, but is not yet registered.[20]

ERIC then makes a report available to the states so that: 1) supervisors of elections can confirm the eligibility of a voter and accuracy of the voter roll and, if necessary, either remove the voter or correct the inaccuracy on the roll, as appropriate (ERIC does not purge voters from individual states' registration rolls); and, 2) the State can send voter registration forms to age-eligible voters before the voter registration closing date for the next federal election.[21]

III. Effect of Proposed Changes:

The bill authorizes the Secretary, as he or she deems necessary, to enter into agreements or to join nongovernmental entities whose membership is composed entirely of state elections officials, to share information or data with other states in order to maintain the statewide voter registration system. The bill requires that the Secretary of State, or his or her designee, must serve as a full, voting member on the board of directors of any nongovernmental entity that Florida joins. However, such agreements or entities cannot be operated or controlled by the federal government. Additionally, Florida must be allowed to withdraw from such agreements or entities at any time. The bill directs the Secretary to use that data to identify registered voters or applications for voter registration that would be potentially ineligible to vote based on current law.

The bill also provides that all states and nongovernmental entities that receive personal information maintain the confidentiality of information or data given as part of the agreement, if that information or data was confidential in its state of origin.

The bill requires an annual report to the Governor, President of the Senate, and Speaker of the House describing the agreement and providing information on the number of registered voters removed from the Florida Voter Registration system, as well as the reason for the removal.

The Secretary of State will be authorized to join ERIC,[22] in order to: 1) better identify problem voter records in the statewide registration database that the supervisors of elections can either remove, if they are determined to be invalid, or correct; and 2) identify potential voters who the State can contact to register to vote. If Florida joins ERIC, the Secretary of State, or his or her designee, must serve on ERIC's Board of Directors. As mentioned above, this same requirement concerning service on the board of directors applies to any nongovernmental entity composed

[20] Common Cause, *ERIC Fact Sheet*, Massachusetts Legislature HB 582 (Rep. Moran, 2015-2016, 189th General Court), available at, http://www.commoncause.org/states/massachusetts/issues/voting-and-elections/electronic-registration-information-center/ccma-eric-factsheet-final.pdf (last accessed Mar. 20, 2017).

[21] http://www.ericstates.org/faq; *see also*, ERIC Bylaws, Membership Agreement (Exhibit A), § 5a.,b. (last updated October 28, 2015), available at http://www.ericstates.org/images/documents/ERIC_Bylaws_10-28-2015.pdf (last visited Mar. 20, 2017). It is important to note that when online voter registration "goes live" in October 2017, the Supervisors of Elections will not necessarily need to print and mail a Florida Voter Registration Application. The Supervisor could instead simply include the website address for the online voter registration system to potential voters.

[22] While most of the discussion concerning this legislation revolves around whether Florida will join ERIC, technically the bill will allow Florida to enter into other similar agreements with other states as well.

solely of elections officials that Florida may agree to join in sharing information for voter registration list maintenance activities.

Information provided to committee staff from ERIC on an initial set of Florida reports *projects* the following numbers:[23]

- *Intra*state voters: 717,000 voters who have moved within Florida but haven't updated their voter records;
- *Inter*state voters: 233,000 *inter*state voters with out-of date records because the voter moved to another state;
- Deceased voters: 24,000 voters still on the rolls;
- Duplicates: 17,000 duplicate registrations in the statewide database; and,
- Potential Voter Registrants: 4.5 million eligible voters in the motor vehicles database to be contacted to register to vote.

ERIC caveats their numbers by stating that they are based on the "averages" of what other member states have experienced, but also indicates that their projections "have so far proven to be reliable predictors" of the number of records that show up on initial reports.

The bill is effective July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides, in pertinent part, that no county or municipality shall be bound by any general law requiring such county or municipality to spend funds or to take an action requiring the expenditure of funds unless the legislature has determined that such law fulfills an important state interest and unless: the law requiring such expenditure is approved by two-thirds of the membership in each house of the legislature; the expenditure is required to comply with a law that applies to all persons similarly situated, including the state and local governments; or the law is either required to comply with a federal requirement or required for eligibility for a federal entitlement, which federal requirement specifically contemplates actions by counties or municipalities for compliance.

Article VII, s. 18(d) of the Florida Constitution provides, in pertinent part laws having insignificant fiscal impact, and laws creating, modifying, or repealing noncriminal infractions, are exempt from the mandate requirements of this section.

An exemption from the mandates provision may apply if the expected fiscal impact on municipalities/counties is less than $2 million. Because the fiscal impact on counties is anticipated to be less than $2 million, the bill appears to be exempt from the mandate requirements.

[23] FSASE, 2017 Legislative Issues, (Page entitled ERIC at Work), available at, http://www.myfloridaelections.com/portals/fsase/Documents/Public%20Policy/2017_FSASE_Legislative_Priorities.pdf (last accessed (Mar. 20, 2017)

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

Local Government/Expenditures

County supervisors of elections may incur expenses related to maintenance activity associated by the receipt of information from ERIC, including outreach to voters to confirm addresses or eligibility. However, they may also incur cost savings due to more efficient processes and reliable sources of data to maintain the voter rolls over the long term. The actual expenses and cost savings are indeterminate.

State Government

Expenditures/non-recurring

If the DOS elects to participate in the program, the department will incur the one-time membership fee of $25,000. In addition, each ERIC member pays annual dues which are determined by a formula set by the Board of Directors, with larger states paying a bit more than smaller states. While the precise amount of dues is indeterminate and will vary from year-to-year, this amount is likely to be no more than about $50,000-$75,000/year, based on ERIC's projected budget of $785,000 for FY 2016-17 (for the current 20 members).[24]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[24] http://www.ericstates.org/faq

VIII. Statutes Affected:

This bill substantially amends section 97.012 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Ethics and Elections on April 4, 2017:
The Committee Substitute differs from the original bill in that it:

- Moves the authorization to join interstate agreements and nongovernmental entities whose membership is composed solely of elections officials for purposes of voter list maintenance activities from s. 97.012, F.S. (relating to the duties of the Secretary of State) to s. 98.075, F.S. (relating to voter registration list maintenance activities and ineligibility determinations);
- Authorizes the Department of State to participate in such agreements or entities so long as they are not operated or controlled by the federal government or any entity on behalf of the federal government;
- If the Department enters an interstate agreement or agrees to join a nongovernmental entity, the agreement must allow the Department to withdraw from the agreement or entities at any time;
- Requires an annual report to the Governor, President of the Senate, and Speaker of the House describing the agreement and providing information on the number of registered voters removed from the Florida Voter Registration system, as well as the reason for the removal;
- Requires each member, and the entity, to agree to maintain personal information such as social security numbers confidential according to the laws of the state that supplies that information; and,
- Requires the Secretary or his or her designee to be a full voting member of the board of directors of any non-governmental entity it joins for the purposes of exchange information to improve voter list maintenance activities.

B. Amendments:

None.

By the Committee on Ethics and Elections; and Senator Hutson

582-03402-17 20171070c1

A bill to be entitled

An act relating to voter registration list maintenance; amending s. 98.075, F.S.; authorizing the Department of State to enter into certain interstate agreements or become a member of a nongovernmental entity to verify voter registration information; requiring the department to share certain information with supervisors of elections; establishing requirements for participation in such agreements or memberships; establishing reporting requirements; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 98.075, Florida Statutes, is amended to read:

98.075 Registration records maintenance activities; ineligibility determinations.—

(2) DUPLICATE REGISTRATION.—

(a) The department shall identify those voters who are registered more than once within the state or those applicants whose registration applications within the state would result in duplicate registrations. The most recent application shall be deemed an update to the voter registration record.

(b)1. The department may enter into interstate agreements or become a member of a nongovernmental entity whose membership is composed solely of state government election officials if the sole purpose of the agreement or membership is to share and exchange information in order to verify voter registration

582-03402-17 20171070c1

information. If the department intends to become a member of such a nongovernmental entity, the agreement to join the entity must require that the Secretary of State, or his or her designee, serve as a full member with voting rights on the nongovernmental entity's board of directors. The department shall provide information it receives as a result of the agreements or memberships to the supervisors to conduct registration list maintenance activities.

2. If the department enters into an interstate agreement or becomes a member of a nongovernmental entity pursuant to subparagraph 1., each state that is a participant in the agreement or a member of the nongovernmental entity must agree to maintain the confidentiality of personal information as required by the laws of the state supplying the information to the entity or participating states. The bylaws of a nongovernmental entity must also contain a provision requiring member states and the entity to maintain the confidentiality of personal information as required by the laws of the state supplying the information to the entity.

3. The department may only participate in an interstate agreement or become a member of a nongovernmental entity as provided in subparagraph 1. if the agreement or entity is controlled and operated by the participating states. The interstate agreement or entity may not be operated or controlled by the Federal Government or any other entity acting on behalf of the Federal Government. The department must be able to withdraw at any time from any interstate agreement or membership entered into.

4. If the department enters into an interstate agreement or

becomes a member of a nongovernmental entity as provided in subparagraph 1., the department must submit a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 1 of each year. The report must describe the agreement or membership and provide information on the total number of voters removed from the voter registration system as a result of the agreement or membership and the reasons for their removal.

Section 2. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 916 (188616)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); and Senators Grimsley and Stargel
SUBJECT:	Statewide Medicaid Managed Care Program
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Lloyd	Stovall	HP	**Favorable**
2.	Forbes	Williams	AHS	**Recommend: Fav/CS**
3.	Forbes	Hansen	AP	**Pre-meeting**
4.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 916 modifies the Statewide Medicaid Managed Care program (SMMC) and deletes obsolete provisions from the implementation of the program. The bill specifically:

- Deletes the fee-for-service reimbursement option for provider service networks (PSNs);
- Revises the requirements for the contents of the databook used for rate setting to be consistent with actuarial rate-setting practices and standards;
- Collapses regions, re-groups counties within new regions, and revises the plan limitations within the regions for the procurement process for the Medicaid Managed Medical Assistance (MMA) and Long-Term Care (LTC) components; and
- Removes obsolete provisions.

The bill has no impact on state revenues or expenditures.

The effective date of the bill is July 1, 2017.

II. Present Situation:

Florida Medicaid

The Medicaid program is a partnership between the federal and state governments to provide medical care to low income pregnant women, children and disabled persons. Each state operates its own Medicaid program under a state plan that must be approved by the federal Centers for Medicare and Medicaid Services (CMS). The state plan outlines Medicaid eligibility standards, policies, and reimbursement methodologies.

Florida Medicaid serves as the safety net to Florida's healthcare delivery system. Medicaid currently is the second largest expenditure in Florida's budget behind education and covers 20 percent of all Floridians, including:

- 47 percent of Florida's children;
- 63 percent of Florida's births; and
- 61 percent of Florida's nursing home days.[1]

However, Florida Medicaid does not cover all low-income Floridians. The maximum income limits for programs are illustrated below as a percentage of the federal poverty level (FPL).

Florida's Current Medicaid and CHIP Eligibility Levels in Florida[2]
(With Income Disregards and Modified Adjusted Gross Income)

Children's Medicaid			CHIP (Kidcare)	Pregnant Women	Parents Caretaker Relatives	Childless Adults
Age 0-1	Age 1-5	Age 6-18	Ages 0-18			
206% FPL	140% FPL	133% FPL	210% FPL	191% FPL	31% FPL	0% FPL

Florida Medicaid is administered by the AHCA and is financed with federal and state funds. The Department of Children and Families (DCF) determines Medicaid eligibility and transmits that information to the AHCA. As the single state agency for Medicaid, the AHCA has the lead responsibility for the overall program.[3]

Applicants for Medicaid must be United States citizens or qualified noncitizens, must be Florida residents, and must provide social security numbers for data matching. While self-attestation is permitted for a number of data elements on the application, most components are matched through the Federal Data Services Hub.[4] Applicants must also agree to cooperate with Child Support Enforcement during the application process.[5]

[5] Id.

The structures of state Medicaid programs vary from state to state, and each state's share of expenditures varies and is largely determined by the federal government. Federal law and regulations set the minimum amount, scope, and duration of services offered in the program, among other requirements. State Medicaid benefits are provided in statute under s. 409.903, F.S. (Mandatory Payments for Eligible Persons) and s. 409.904, F.S. (Optional Payments for Eligible Persons).

Minimum eligibility coverage thresholds are established in federal law for certain population groups, such as children, as well as minimum benefits and maximum cost sharing. The minimum benefits include items such as physician services, hospital services, home health services, and family planning.[6] States can add benefits, pending federal approval. Florida has added benefits, including prescription drugs, adult dental services, and dialysis.[7] For children under age 21, the benefits must include the Early and Periodic Screening, Diagnostic and Treatment services, which are those health care and diagnostic services and treatment and measures that may be needed to correct or ameliorate defects or physical and mental illnesses and conditions discovered by screening services, consistent with federal law.[8]

Waivers to the state plan may be requested and negotiated by the state through the federal Centers for Medicare and Medicaid Services (CMS) by the AHCA. Florida has several such Medicaid waivers, including one that implemented the Statewide Medicaid Managed Care (SMMC) program. Current federal law requires the state to obtain a waiver to implement managed care. Through these waivers, the states have limited flexibility to design their Medicaid programs; however, even within waiver authorities, federal regulations prescribe requirements for benefits, delivery systems, cost sharing limitations, and population coverages.

Statewide Medicaid Managed Care (SMMC)

The SMMC program is currently designed for the AHCA to issue invitations to negotiate (ITN) and competitively procure contracts with managed care plans in 11 regions of the state to provide comprehensive Medicaid coverage for most of the state's enrollees in the Medicaid program. The 11 regions reflect areas that were initially set by the original Department of Health and Rehabilitative Services which was re-organized and downsized into several smaller agencies in the 1990s.

The SMMC has two components: managed medical assistance (MMA) and long-term care managed care (LTC). The MMA waiver expires on June 30, 2017, and the LTC waiver was recently extended through December 27, 2021.[9]

The LTC component began enrolling in August 2013 and completed its statewide roll-out in March 2014. The MMA component began enrolling Medicaid recipients in May 2014 and

[6] Section 409.905, F.S.
[7] Section 409.906, F.S.
[8] *See* Section 1905 9(r) of the Social Security Act.
[9] The current Managed Medical Assistance waiver is approved as an 1115 waiver and was last approved for the time period of July 31, 2014 through June 30, 2017. The Long-Term Care Managed Care waiver is approved as a section 1915(b) and section 1915(c) combination waiver and was most recently approved through December 27, 2021 by the federal Centers for Medicare and Medicaid Services.

finished its roll-out in August 2014. These contracts will be re-procured in 2017 with contract execution and implementation expected during the last part of 2018, according to the AHCA.

The chart below shows the enrollment in each of these components as of March 1, 2017:

Statewide Medicaid Managed Care - March 2017			
Component	**Enrollment Start Date**	**Budget[10]**	**Enrollment[11] *(as of Mar. 2017)***
Long-Term Care Plan	August 2013	$3.97 billion	94,803
Managed Medical Assistance	May 2014	$14.4 billion	3,233,235

The LTC program provides services in two settings: nursing facilities or home and community based services (HCBS) such as a recipient's home, an assisted living facility, or an adult family care home. Nursing facility services are an entitlement program for eligible enrollees and no waitlist exists; however, HCBS are delivered through waivers and are dependent on the availability of annual funding in the general appropriations act (GAA).

Enrollment in the HCBS portion of LTC is managed based on a priority system and wait list. For the 2016-2017 waiver year, the state is approved for 62,500 unduplicated recipients in the HCBS portion of the program.[12] In order to be eligible for the program, a recipient must be both clinically eligible as required under s. 409.979, F.S., and financially eligible for Medicaid under s. 409.904, F.S.

Eligibility and Enrollment

The AHCA is the single state agency for Medicaid; however through an interagency agreement with the Department of Elderly Affairs (DOEA), the DOEA is Florida's federally mandated pre-admission screening program for nursing home applicants through its Long-Term Care Services (CARES) program, including for the LTC component.[13] The frailty-based assessment results in a priority score for an individual, who is then placed on the wait list based on his or her priority score.

Individuals are released from the wait list periodically, based on the availability of funding and their priority scores. The Legislature has specifically directed funding in the past several years

[10] Agency for Health Care Admin., *Statewide Medicaid Managed Care (Presentation to House Health and Human Services Committee - Jan. 10, 2017)*, slide 2, http://ahca.myflorida.com/medicaid/recent_presentations/House_Health_Human_Services_Med_101_2017-01-10.pdf (last visited Mar. 14, 2017).
[11] Agency for Health Care Administration, *SMMC MMA Enrollment by County by Plan* (As of Mar. 1, 2017), http://ahca.myflorida.com/medicaid/Finance/data_analytics/enrollment_report/index.shtml (last visited Mar. 14, 2017).

through the GAA to serve elders off the waitlist who have a priority score of 4 or higher.[14] Individuals who are more frail or have an immediate need for services receive a higher rank on the waitlist. Those who have resided in a nursing facility for more than 60 days receive prior enrollment into the HCBS portion of the program. Exemptions from the wait list also exist under s. 409.979(3)(f), F.S.

Individuals who are enrolled in the following programs may enroll in the LTC program, but are not required to:

- Developmental Disabilities waiver program;
- Traumatic Brain and Spinal Injury waiver;
- Project AIDS Care waiver;
- Adult Cystic Fibrosis waiver;
- Program of All-Inclusive Care for the Elderly (PACE);
- Familial Dysautonomia waiver; or
- Model waiver.[15]

Individuals, both those who are enrolled in LTC and those on the wait list, must be re-screened at least annually or whenever there is a significant change in circumstances, such as change in caregivers or medical condition.[16]

Delivery System and Benefits

The AHCA conducted a competitive procurement to select LTC and MMA plans in each of the 11 regions in 2012. Under the Invitation to Negotiate for MMA plans, the AHCA selected 10 different companies to serve as the health care delivery system. Of the plans selected, 11 of the awarded contracts went to general, non-specialty plans, of which five were PSNs.[17] Five different specialty plans and the Children's Medical Services plan were also awarded contracts.[18,19] Currently, MMA recipients receive services through 11 different managed care plans, of which two are PSNs.

In 2012, the AHCA awarded seven LTC contracts, including one statewide contract.[20] One of the original LTC contracts operated as a PSN; however, that plan is no longer participating in SMMC. The LTC services are now delivered through six managed care plans, which vary based

[19] Agency for Health Care Administration, *Medicaid and Managed Care* (Sept. 3, 2014), http://ahca.myflorida.com/Medicaid/recent_presentations/Child_Protection_Summit_2014-09-03.pdf (last visited Mar. 20, 2017).

[20] Agency for Health Care Administration, *Statewide Medicaid Managed Care Update* (Oct. 8, 2013) (on file with the Senate Committee on Health Policy).

on the recipient's region. Each region has at least two plans to allow for recipient choice. For nursing facilities and hospices, the plans are required to pay those designated providers a rate set by the AHCA. All six of the LTC plans also participate in the MMA program.

In addition to these plans, there are six specialty plans that serve unique populations: Children's Medical Services for children with chronic conditions; two plans for individuals with HIV/AIDS; a plan for child welfare enrollees; a plan for recipients eligible for both Medicaid and Medicare with chronic conditions, such as diabetes or congestive heart failure; and a plan for individuals with serious mental illness. Recipients in both components of the program receive choice counseling services to assist them in selecting the plan that will best meet their needs.

The total enrollment in the specialty plans as of March 1, 2017 is shown in the chart below:[21]

Specialty Plan Enrollment - March 2017	
Component	**Enrollment (As of March 1, 2017)**
Child Welfare Plan	31,810
Specialty Plans (Capitated)	78,842
Children's Medical Services Network	50,924
Total:	**161,576**

The managed care plans under both components are required to cover a minimum level of benefits as prescribed under s. 409.973, F.S., for the MMA plans, and s. 409.98, F.S., for the LTC plans. However, the statutes also permit the plans to offer an expanded menu of optional benefits.

Mandatory Benefits - Statewide Medicaid Managed Care	
Managed Medical Assistance	**Long-Term Care**
Advanced registered nurse practitioner services	Nursing facility care
Ambulatory surgical treatment center services	Services provided in assisted living facility
Birthing center services	Hospice
Chiropractic services	Adult day care
Dental services	Medical equipment and supplies, including incontinence supplies
Early periodic screening diagnostic and treatment services for recipients under age 21	Personal care
Emergency services	Home accessibility adaption
Family planning services and supplies	Behavior management
Healthy Start services (with exceptions)	Home-delivered meals
Hearing services	Case management
Home health agency services	Therapies
Hospice services	Occupational therapy
Hospital inpatient services	Speech therapy

[21] Agency for Health Care Administration, SMMC MMA Specialty Capitated Enrollment Report (As of Mar. 1, 2017).

Mandatory Benefits - Statewide Medicaid Managed Care	
Managed Medical Assistance	**Long-Term Care**
Hospital outpatient services	Respiratory therapy
Laboratory and imaging services	Physical therapy
Medical supplies, equipment, prostheses, and orthoses	Intermittent and skilled nursing
Mental health services	Medication administration
Nursing care	Medication management
Optical services and supplies	Nutritional assessment and risk reduction
Optometrist services	Caregiver training
Physical, occupational, respiratory, and speech therapy services	Respite care
Physician services, including physician assistant services	Transportation
Podiatric services	Personal emergency response system
Prescription drugs	
Renal dialysis services	
Respiratory equipment and supplies	
Rural health clinic services	
Substance abuse treatment services	
Transportation to access covered services	

The LTC enrollees who are not eligible for Medicare also receive their medical services through an MMA plan. Some plans participate in both components in the same regions, and a recipient may elect the same managed care plan for both components. These plans are referred to as comprehensive plans.

Provider Service Networks

The payment design of the SMMC was intended to facilitate a smooth transition from a mix of fee-for-service, primary care case management, and managed care delivery to a statewide system of Medicaid managed care. The statute permitted the PSNs to be reimbursed on a fee-for-service or prepaid basis, but only for the first two years of the plan's operation or until the contract year beginning September 1, 2014, whichever is later. The AHCA is required to conduct cost reconciliations for the fee-for-service PSNs to determine cost reconciliations. All other managed care plans under SMMC are paid on a capitated basis meaning that a plan must pay for all covered services under the contract regardless of whether the capitated rate covers the cost of services for that recipient.

During the procurement process, at least one of the contract awards must be to a PSN if any PSNs submit a responsive bid. However, the AHCA must also issue an additional ITN following the end of a procurement, only for provider service networks, in those regions where no provider service networks submitted a responsive bid.

III. Effect of Proposed Changes:

Provider Service Networks (Sections 1, 3, 4, 6, 7, and 8)

The bill removes the option for PSNs, under both the MMA and LTC components, to be reimbursed on a fee-for-service basis. Prepaid PSNs shall be reimbursed only on a per-member, per month basis. Currently, PSNs could elect to receive payments for the first 2 years of a contract or until the contract year beginning September 1, 2014, whichever is later, under fee-for-service or on a capitated basis. The bill also deletes provisions relating to quality selection criteria specific to savings under PSNs, which are calculated under fee-for-service rates.

The reconciliation and cost savings review process sections relating to the PSN fee-for-service payment process are deleted from the MMA and LTC sections of the SMMC program. Provisions relating to how the cost reconciliations shall be conducted and the reconciliation deadline are removed to correspond to the removal of those now obsolete provisions.

The ITN process for both the MMA and LTC components is modified to no longer require the AHCA to conduct a separate procurement process within 12 months of the initial procurement process if no PSN is selected during the initial procurement.

Managed Care Plan Selection (Sections 3, 6, and 8)

The bill modifies the AHCA's responsibilities for compiling and publishing a databook as part of the ITN process to require a comprehensive set of utilization and spending data that is consistent with actuarial rate-setting practices and standards. The modification eliminates specific requirements that the data include the three most recent contract years for all Medicaid recipients by region or county. The source of the data in the databook report must include the most recent 24 months of validated data from the Medicaid Encounter Data System. The health care delivery regions for both the MMA and LTC components are also collapsed and changed to letters from numbers. These modifications provide for administrative streamlining and will enhance plan stability through increased market share by the plans, according to the AHCA. Since the original regions were created in the 1990s, the AHCA believes these revised regions more accurately reflect the health care market and current utilization patterns.[22] The larger regions will also assist the AHCA in ensuring compliance with the access and appointment standards by the managed care plans as a wider choice of plans is likely to be available to recipients. The pooling of additional membership across the collapsed regions will likely draw more interested parties to some of the less populated areas of the state.

The table below shows the proposed re-groupings of counties and the minimum and maximum number of plans for the procurement. The same range of plan limitations apply for MMA and LTC.

Obsolete Language (Sections 2, 5, 6, and 7)

Sections 2, 5, 6, and 7 amend ss. 409.964, 409.971, and 409.974(1), and 409.978(1), F.S., respectively, to remove obsolete language. These sections contain references to dates or activities associated with program implementation, the initial procurement process, and expired deadlines.

Effective Date (Section 9)

The effective date of the bill is July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill reorganizes the regions and the number of plans that may be selected in each region. The AHCA plans to re-procure the SMMC contracts in late 2017 giving the health plan industry, both those currently with contracts and those who wish to gain a contract, an opportunity to bid on the new ITN. The AHCA believes that collapsing regions will result in administrative streamlining and more accurately reflects today's health care utilization patterns. These changes may result in more competitive proposals from more managed care organizations during the upcoming procurement process, resulting in savings to the state and more choices for the consumer. In response to a voluntary Intent to Bid request, the AHCA received 41 responses from PSNs and HMOs that were interested in all three types of plans: long-term care, specialty, and managed medical assistance.[23]

Any changes in which managed care organizations receive contracts under a new procurement will impact the health care provider community in 2017 and 2018. Not only will Medicaid managed care enrollees possibly be transitioning to new providers, but the provider community may have to adapt to a new group of managed care plans.

C. Government Sector Impact:

According to the AHCA, the bill has no impact on state revenues or expenditures.[24] However, the AHCA also believes, and notes in its bill analyses that collapsing regions will result in administrative streamlining and that these new regions will more accurately

[23] Agency for Health Administration, *Statewide Medicaid Managed Care (SMMC) Program Non-Binding Letters of Intent Received by 2/13/2017, in response to Intent to Bid Posted 2/3/2017*, http://ahca.myflorida.com/medicaid/statewide_mc/pdf/Intent_to_Bid_Responses.pdf (last visited Mar. 16, 2017).
[24] *Supra* note 20, at 4.

reflect today's health care utilization patterns. These changes in the regions may result in more competitive proposals from more managed care organizations during the upcoming procurement process, resulting in additional savings to the state and more choices for the consumer.

VI. Technical Deficiencies:

Strike the word, "Prepaid" from line 101.

VII. Related Issues:

The AHCA plans to release an ITN in the summer of 2017. Non-binding letters of Intent to Bid were requested from interested bidders by February 13, 2017, using the current 11 regions.[25] With changes to the current business process, an effective date of July 1, 2017, may keep the AHCA from maintaining their current deadlines.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 409.912, 409.964, 409.966, 409.968, 409.971, 409.974, 409.978, and 409.981.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Health and Human Services on April 13, 2017:
The committee substitute:

- Requires that when selecting a plan for participation in the Medicaid program, the agency compile and publish a databook consisting of a comprehensive set of utilization and spending data consistent with actuarial rate-setting practices and standards. The source of the data in the databook report must include the most recent 24 months of validated data from the Medicaid Encounter Data System.
- Changes the following regions to the a new structure for the Managed medical assistance program: At least three plans and up to four plans for Region A; at least three plans and up to six plans for Region B; at least five and up to 10 plans for Region C; at least three and up to four plans for Region E; at least three plans and up to five plans for Region F; and at least three plans and up to five six plans for Region G.
- Changes the following regions to a new structure for the long-term care managed care program: At least three plans and up to four plans for Region A; at least three plans and up to six plans for Region B; at least five and up to eight plans for Region C; at least three and up to four plans for Region E; at least three plans and up to five plans for Region F; and at least three and up to four plans for Region G.

obsolete provision; amending s. 409.978, F.S.; deleting an obsolete provision; amending s. 409.981, F.S.; revising the number of eligible Medicaid health care plans the agency must procure for certain regions in the state; deleting a requirement that the agency consider a specific factor relating to the selection of managed medical assistance plans; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 409.912, Florida Statutes, is amended to read:

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician’s opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. s. 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed

continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify trends that are outside the normal practice patterns of a provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance

standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(2) The agency may contract with a provider service network~~, which may be reimbursed on a fee-for-service or prepaid basis~~. Prepaid provider service networks shall receive per-member, per-month payments. ~~A provider service network that does not choose to be a prepaid plan shall receive fee-for-service rates with a shared savings settlement. The fee-for-service option shall be available to a provider service network only for the first 2 years of the plan's operation or until the contract year beginning September 1, 2014, whichever is later. The agency shall annually conduct cost reconciliations to determine the amount of cost savings achieved by fee-for-service provider service networks for the dates of service in the period being~~

~~reconciled. Only payments for covered services for dates of service within the reconciliation period and paid within 6 months after the last date of service in the reconciliation period shall be included. The agency shall perform the necessary adjustments for the inclusion of claims incurred but not reported within the reconciliation for claims that could be received and paid by the agency after the 6-month claims processing time lag. The agency shall provide the results of the reconciliations to the fee-for-service provider service networks within 45 days after the end of the reconciliation period. The fee-for-service provider service networks shall review and provide written comments or a letter of concurrence to the agency within 45 days after receipt of the reconciliation results. This reconciliation shall be considered final.~~

(a) A provider service network that ~~which~~ is reimbursed by the agency on a prepaid basis shall be exempt from parts I and III of chapter 641, but must comply with the solvency requirements in s. 641.2261(2) and meet appropriate financial reserve, quality assurance, and patient rights requirements as established by the agency.

(b) A provider service network is a network established or organized and operated by a health care provider, or group of affiliated health care providers, which provides a substantial proportion of the health care items and services under a contract directly through the provider or affiliated group of providers and may make arrangements with physicians or other health care professionals, health care institutions, or any combination of such individuals or institutions to assume all or part of the financial risk on a prospective basis for the

provision of basic health services by the physicians, by other health professionals, or through the institutions. The health care providers must have a controlling interest in the governing body of the provider service network organization.

Section 2. Section 409.964, Florida Statutes, is amended to read:

409.964 Managed care program; state plan; waivers.—The Medicaid program is established as a statewide, integrated managed care program for all covered services, including long-term care services. The agency shall apply for and implement state plan amendments or waivers of applicable federal laws and regulations necessary to implement the program. Before seeking a waiver, the agency shall provide public notice and the opportunity for public comment and include public feedback in the waiver application. The agency shall hold one public meeting in each of the regions described in s. 409.966(2), and the ~~time~~ period for public comment for each region shall end no sooner than 30 days after the completion of the public meeting in that region. ~~The agency shall submit any state plan amendments, new waiver requests, or requests for extensions or expansions for existing waivers, needed to implement the managed care program by August 1, 2011.~~

Section 3. Subsection (2) and paragraphs (a), (d), and (e) of subsection (3) of section 409.966, Florida Statutes, are amended to read:

409.966 Eligible plans; selection.—

(2) ELIGIBLE PLAN SELECTION.—The agency shall select a limited number of eligible plans to participate in the Medicaid program using invitations to negotiate in accordance with s.

287.057(1)(c). At least 90 days before issuing an invitation to negotiate, the agency shall compile and publish a databook consisting of a comprehensive set of utilization and spending data consistent with actuarial rate-setting practices and standards ~~for the 3 most recent contract years consistent with the rate-setting periods for all Medicaid recipients by region or county~~. The source of the data in the databook ~~report~~ must include the 24 most recent months of ~~both historic fee-for-service claims and~~ validated data from the Medicaid Encounter Data System. ~~The report must be available in electronic form and delineate utilization use by age, gender, eligibility group, geographic area, and aggregate clinical risk score~~. Separate and simultaneous procurements shall be conducted in each of the following regions:

(a) Region A ~~Region 1~~, which consists of Bay, Calhoun, Escambia, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Madison, Okaloosa, Santa Rosa, Taylor, Wakulla, ~~and~~ Walton, and Washington Counties.

(b) Region B ~~Region 2~~, which consists of Alachua, Baker, Bradford, Citrus, Clay, Columbia, Dixie, Duval, Flagler, Gilchrist, Hamilton, Hernando, Lafayette, Lake, Levy, Marion, Nassau, Putnam, St. Johns, Sumter, Suwannee, Union, and Volusia ~~Bay, Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Madison, Taylor, Wakulla, and Washington~~ Counties.

(c) Region C ~~Region 3~~, which consists of Hardee, Highlands, Hillsborough, Manatee, Pasco, Pinellas, and Polk ~~Alachua, Bradford, Citrus, Columbia, Dixie, Gilchrist, Hamilton, Hernando, Lafayette, Lake, Levy, Marion, Putnam, Sumter, Suwannee, and Union~~ Counties.

(d) Region D ~~Region 4~~, which consists of Brevard, Orange, Osceola, and Seminole ~~Baker, Clay, Duval, Flagler, Nassau, St. Johns, and Volusia~~ Counties.

(e) Region E ~~Region 5~~, which consists of Charlotte, Collier, DeSoto, Glades, Hendry, Lee, and Sarasota ~~Pasco and Pinellas~~ Counties.

(f) Region F ~~Region 6~~, which consists of Indian River, Martin, Okeechobee, Palm Beach, and St. Lucie ~~Hardee, Highlands, Hillsborough, Manatee, and Polk~~ Counties.

(g) Region G ~~Region 7~~, which consists of Broward County ~~Brevard, Orange, Osceola, and Seminole Counties~~.

(h) Region H ~~Region 8~~, which consists of Miami-Dade and Monroe ~~Charlotte, Collier, DeSoto, Glades, Hendry, Lee, and Sarasota~~ Counties.

~~(i) Region 9, which consists of Indian River, Martin, Okeechobee, Palm Beach, and St. Lucie Counties.~~

~~(j) Region 10, which consists of Broward County.~~

~~(k) Region 11, which consists of Miami-Dade and Monroe Counties.~~

(3) QUALITY SELECTION CRITERIA.—

(a) The invitation to negotiate must specify the criteria and the relative weight of the criteria that will be used for determining the acceptability of the reply and guiding the selection of the organizations with which the agency negotiates. In addition to criteria established by the agency, the agency shall consider the following factors in the selection of eligible plans:

1. Accreditation by the National Committee for Quality

Assurance, the Joint Commission, or another nationally recognized accrediting body.

2. Experience serving similar populations, including the organization's record in achieving specific quality standards with similar populations.

3. Availability and accessibility of primary care and specialty physicians in the provider network.

4. Establishment of community partnerships with providers that create opportunities for reinvestment in community-based services.

5. Organization commitment to quality improvement and documentation of achievements in specific quality improvement projects, including active involvement by organization leadership.

6. Provision of additional benefits, particularly dental care and disease management, and other initiatives that improve health outcomes.

7. Evidence that an eligible plan has written agreements or signed contracts or has made substantial progress in establishing relationships with providers before the plan submitting a response.

8. Comments submitted in writing by any enrolled Medicaid provider relating to a specifically identified plan participating in the procurement in the same region as the submitting provider.

9. Documentation of policies and procedures for preventing fraud and abuse.

10. The business relationship an eligible plan has with any other eligible plan that responds to the invitation to

negotiate.

11. Whether a plan is proposing to establish a comprehensive long-term care plan.

(d) For the first year of the first contract term, the agency shall negotiate capitation rates or fee for service payments with each plan in order to guarantee aggregate savings of at least 5 percent.

~~1.~~ For prepaid plans, determination of the amount of savings shall be calculated by comparison to the Medicaid rates that the agency paid managed care plans for similar populations in the same areas in the prior year. In regions containing no prepaid plans in the prior year, determination of the amount of savings shall be calculated by comparison to the Medicaid rates established and certified for those regions in the prior year.

~~2. For provider service networks operating on a fee-for-service basis, determination of the amount of savings shall be calculated by comparison to the Medicaid rates that the agency paid on a fee-for-service basis for the same services in the prior year.~~

(e) To ensure managed care plan participation in Regions A and E ~~Regions 1 and 2~~, the agency shall award an additional contract to each plan with a contract award in Region A ~~Region 1~~ or Region E ~~Region 2~~. Such contract shall be in any other region in which the plan submitted a responsive bid and negotiates a rate acceptable to the agency. If a plan that is awarded an additional contract pursuant to this paragraph is subject to penalties pursuant to s. 409.967(2)(i) for activities in Region A ~~Region 1~~ or Region E ~~Region 2~~, the additional contract is automatically terminated 180 days after the imposition of the

penalties. The plan must reimburse the agency for the cost of enrollment changes and other transition activities.

Section 4. Subsection (2) of section 409.968, Florida Statutes, is amended to read:

409.968 Managed care plan payments.—

(2) Provider service networks shall ~~may~~ be prepaid plans and receive per-member, per-month payments negotiated pursuant to the procurement process described in s. 409.966. ~~Provider service networks that choose not to be prepaid plans shall receive fee-for-service rates with a shared savings settlement. The fee-for-service option shall be available to a provider service network only for the first 2 years of its operation. The agency shall annually conduct cost reconciliations to determine the amount of cost savings achieved by fee-for-service provider service networks for the dates of service within the period being reconciled. Only payments for covered services for dates of service within the reconciliation period and paid within 6 months after the last date of service in the reconciliation period must be included. The agency shall perform the necessary adjustments for the inclusion of claims incurred but not reported within the reconciliation period for claims that could be received and paid by the agency after the 6-month claims processing time lag. The agency shall provide the results of the reconciliations to the fee-for-service provider service networks within 45 days after the end of the reconciliation period. The fee-for-service provider service networks shall review and provide written comments or a letter of concurrence to the agency within 45 days after receipt of the reconciliation results. This reconciliation is considered final.~~

Section 5. Section 409.971, Florida Statutes, is amended to read:

409.971 Managed medical assistance program.—The agency shall make payments for primary and acute medical assistance and related services using a managed care model. ~~By January 1, 2013, the agency shall begin implementation of the statewide managed medical assistance program, with full implementation in all regions by October 1, 2014.~~

Section 6. Subsections (1) and (2) of section 409.974, Florida Statutes, are amended to read:

409.974 Eligible plans.—

(1) ELIGIBLE PLAN SELECTION.—The agency shall select eligible plans for the managed medical assistance program through the procurement process described in s. 409.966. ~~The agency shall notice invitations to negotiate no later than January 1, 2013.~~

(a) The agency shall procure at least three ~~two~~ plans and up to four plans for Region A ~~Region 1~~. At least one plan shall be a provider service network if any provider service networks submit a responsive bid.

(b) The agency shall procure at least three plans and up to six ~~two~~ plans for Region B ~~Region 2~~. At least one plan shall be a provider service network if any provider service networks submit a responsive bid.

(c) The agency shall procure at least five ~~three~~ plans and up to 10 ~~five~~ plans for Region C ~~Region 3~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(d) The agency shall procure at least three plans and up to

six ~~five~~ plans for Region D ~~Region 4~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(e) The agency shall procure at least three ~~two~~ plans and up to four plans for Region E ~~Region 5~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(f) The agency shall procure at least three ~~four~~ plans and up to five ~~seven~~ plans for Region F ~~Region 6~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(g) The agency shall procure at least three plans and up to five ~~six~~ plans for Region G ~~Region 7~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(h) The agency shall procure at least five ~~two~~ plans and up to 10 ~~four~~ plans for Region H ~~Region 8~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

~~(i) The agency shall procure at least two plans and up to four plans for Region 9. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(j) The agency shall procure at least two plans and up to four plans for Region 10. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(k) The agency shall procure at least five plans and up to 10 plans for Region 11. At least one plan must be a provider~~

~~service network if any provider service networks submit a responsive bid.~~

~~If no provider service network submits a responsive bid, the agency shall procure no more than one less than the maximum number of eligible plans permitted in that region. Within 12 months after the initial invitation to negotiate, the agency shall attempt to procure a provider service network. The agency shall notice another invitation to negotiate only with provider service networks in those regions where no provider service network has been selected.~~

(2) QUALITY SELECTION CRITERIA.—In addition to the criteria established in s. 409.966, the agency shall consider evidence that an eligible plan has written agreements or signed contracts or has made substantial progress in establishing relationships with providers before the plan submits ~~submitting~~ a response. The agency shall evaluate and give special weight to evidence of signed contracts with essential providers as defined by the agency pursuant to s. 409.975(1). The agency shall exercise a preference for plans with a provider network in which more than ~~over~~ 10 percent of the providers use electronic health records, as defined in s. 408.051. ~~When all other factors are equal, the agency shall consider whether the organization has a contract to provide managed long-term care services in the same region and shall exercise a preference for such plans.~~

Section 7. Subsection (1) of section 409.978, Florida Statutes, is amended to read:

409.978 Long-term care managed care program.—

(1) Pursuant to s. 409.963, the agency shall administer the

long-term care managed care program described in ss. 409.978-409.985, but may delegate specific duties and responsibilities for the program to the Department of Elderly Affairs and other state agencies. ~~By July 1, 2012, the agency shall begin implementation of the statewide long-term care managed care program, with full implementation in all regions by October 1, 2013.~~

Section 8. Subsection (2) and paragraphs (c), (d), and (e) of subsection (3) of section 409.981, Florida Statutes, are amended to read:

409.981 Eligible long-term care plans.—

(2) ELIGIBLE PLAN SELECTION.—The agency shall select eligible plans for the long-term care managed care program through the procurement process described in s. 409.966. The agency shall procure:

(a) At least three ~~two~~ plans and up to four plans for Region A ~~Region 1~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(b) At least three ~~Two~~ plans and up to six plans for Region B ~~Region 2~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(c) At least five ~~three~~ plans and up to eight ~~five~~ plans for Region C ~~Region 3~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(d) At least three plans and up to six ~~five~~ plans for Region D ~~Region 4~~. At least one plan must be a provider service network if any provider service network submits a responsive

bid.

(e) At least three ~~two~~ plans and up to four plans for Region E ~~Region 5~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(f) At least three ~~four~~ plans and up to five ~~seven~~ plans for Region F ~~Region 6~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(g) At least three plans and up to four ~~six~~ plans for Region G ~~Region 7~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(h) At least five ~~two~~ plans and up to 10 ~~four~~ plans for Region H ~~Region 8~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

~~(i) At least two plans and up to four plans for Region 9. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(j) At least two plans and up to four plans for Region 10. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(k) At least five plans and up to 10 plans for Region 11. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~If no provider service network submits a responsive bid in a region other than Region 1 or Region 2, the agency shall procure~~

~~no more than one less than the maximum number of eligible plans permitted in that region. Within 12 months after the initial invitation to negotiate, the agency shall attempt to procure a provider service network. The agency shall notice another invitation to negotiate only with provider service networks in regions where no provider service network has been selected.~~

(3) QUALITY SELECTION CRITERIA.—In addition to the criteria established in s. 409.966, the agency shall consider the following factors in the selection of eligible plans:

~~(c) Whether a plan is proposing to establish a comprehensive long-term care plan and whether the eligible plan has a contract to provide managed medical assistance services in the same region.~~

(c) ~~(d)~~ Whether a plan offers consumer-directed care services to enrollees pursuant to s. 409.221.

(d) ~~(c)~~ Whether a plan is proposing to provide home and community-based services in addition to the minimum benefits required by s. 409.98.

Section 9. This act shall take effect July 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 916
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); and Senators Grimsley and Stargel
SUBJECT:	Statewide Medicaid Managed Care Program
DATE:	April 27, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Lloyd	Stovall	HP	**Favorable**
2.	Forbes	Williams	AHS	**Recommend: Fav/CS**
3.	Forbes	Hansen	AP	**Fav/CS**
4.			RC	

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 916 modifies the Statewide Medicaid Managed Care program (SMMC) and deletes obsolete provisions from the implementation of the program. The bill specifically:

- Deletes the fee-for-service reimbursement option for provider service networks (PSNs);
- Revises the requirements for the contents of the databook used for rate setting to be consistent with actuarial rate-setting practices and standards;
- Collapses regions, re-groups counties within new regions, and revises the plan limitations within the regions for the procurement process for the Medicaid Managed Medical Assistance (MMA) and Long-Term Care (LTC) components; and
- Removes obsolete provisions.

The bill has no impact on state revenues or expenditures.

The effective date of the bill is July 1, 2017.

II. Present Situation:

Florida Medicaid

The Medicaid program is a partnership between the federal and state governments to provide medical care to low income pregnant women, children and disabled persons. Each state operates its own Medicaid program under a state plan that must be approved by the federal Centers for Medicare and Medicaid Services (CMS). The state plan outlines Medicaid eligibility standards, policies, and reimbursement methodologies.

Florida Medicaid serves as the safety net to Florida's healthcare delivery system. Medicaid currently is the second largest expenditure in Florida's budget behind education and covers 20 percent of all Floridians, including:

- 47 percent of Florida's children;
- 63 percent of Florida's births; and
- 61 percent of Florida's nursing home days.[1]

However, Florida Medicaid does not cover all low-income Floridians. The maximum income limits for programs are illustrated below as a percentage of the federal poverty level (FPL).

Florida's Current Medicaid and CHIP Eligibility Levels in Florida[2]
(With Income Disregards and Modified Adjusted Gross Income)

Children's Medicaid			CHIP (Kidcare)	Pregnant Women	Parents Caretaker Relatives	Childless Adults
Age 0-1	Age 1-5	Age 6-18	Ages 0-18			
206% FPL	140% FPL	133% FPL	210% FPL	191% FPL	31% FPL	0% FPL

Florida Medicaid is administered by the AHCA and is financed with federal and state funds. The Department of Children and Families (DCF) determines Medicaid eligibility and transmits that information to the AHCA. As the single state agency for Medicaid, the AHCA has the lead responsibility for the overall program.[3]

Applicants for Medicaid must be United States citizens or qualified noncitizens, must be Florida residents, and must provide social security numbers for data matching. While self-attestation is permitted for a number of data elements on the application, most components are matched through the Federal Data Services Hub.[4] Applicants must also agree to cooperate with Child Support Enforcement during the application process.[5]

[5] Id.

The structures of state Medicaid programs vary from state to state, and each state's share of expenditures varies and is largely determined by the federal government. Federal law and regulations set the minimum amount, scope, and duration of services offered in the program, among other requirements. State Medicaid benefits are provided in statute under s. 409.903, F.S. (Mandatory Payments for Eligible Persons) and s. 409.904, F.S. (Optional Payments for Eligible Persons).

Minimum eligibility coverage thresholds are established in federal law for certain population groups, such as children, as well as minimum benefits and maximum cost sharing. The minimum benefits include items such as physician services, hospital services, home health services, and family planning.[6] States can add benefits, pending federal approval. Florida has added benefits, including prescription drugs, adult dental services, and dialysis.[7] For children under age 21, the benefits must include the Early and Periodic Screening, Diagnostic and Treatment services, which are those health care and diagnostic services and treatment and measures that may be needed to correct or ameliorate defects or physical and mental illnesses and conditions discovered by screening services, consistent with federal law.[8]

Waivers to the state plan may be requested and negotiated by the state through the federal Centers for Medicare and Medicaid Services (CMS) by the AHCA. Florida has several such Medicaid waivers, including one that implemented the Statewide Medicaid Managed Care (SMMC) program. Current federal law requires the state to obtain a waiver to implement managed care. Through these waivers, the states have limited flexibility to design their Medicaid programs; however, even within waiver authorities, federal regulations prescribe requirements for benefits, delivery systems, cost sharing limitations, and population coverages.

Statewide Medicaid Managed Care (SMMC)

The SMMC program is currently designed for the AHCA to issue invitations to negotiate (ITN) and competitively procure contracts with managed care plans in 11 regions of the state to provide comprehensive Medicaid coverage for most of the state's enrollees in the Medicaid program. The 11 regions reflect areas that were initially set by the original Department of Health and Rehabilitative Services, which was re-organized and downsized into several smaller agencies in the 1990s.

The SMMC has two components: managed medical assistance (MMA) and long-term care managed care (LTC). The MMA waiver expires on June 30, 2017, and the LTC waiver was recently extended through December 27, 2021.[9]

The LTC component began enrolling in August 2013 and completed its statewide roll-out in March 2014. The MMA component began enrolling Medicaid recipients in May 2014 and

[6] Section 409.905, F.S.
[7] Section 409.906, F.S.
[8] *See* Section 1905 9(r) of the Social Security Act.
[9] The current Managed Medical Assistance waiver is approved as an 1115 waiver and was last approved for the time period of July 31, 2014 through June 30, 2017. The Long-Term Care Managed Care waiver is approved as a section 1915(b) and section 1915(c) combination waiver and was most recently approved through December 27, 2021 by the federal Centers for Medicare and Medicaid Services.

finished its roll-out in August 2014. These contracts will be re-procured in 2017 with contract execution and implementation expected during the last part of 2018, according to the AHCA.

The chart below shows the enrollment in each of these components as of March 1, 2017:

Statewide Medicaid Managed Care - March 2017			
Component	**Enrollment Start Date**	**Budget[10]**	**Enrollment[11] *(as of Mar. 2017)***
Long-Term Care Plan	August 2013	$3.97 billion	94,803
Managed Medical Assistance	May 2014	$14.4 billion	3,233,235

The LTC program provides services in two settings: nursing facilities or home and community based services (HCBS) such as a recipient's home, an assisted living facility, or an adult family care home. Nursing facility services are an entitlement program for eligible enrollees and no waitlist exists; however, HCBS are delivered through waivers and are dependent on the availability of annual funding in the general appropriations act (GAA).

Enrollment in the HCBS portion of LTC is managed based on a priority system and wait list. For the 2016-2017 waiver year, the state is approved for 62,500 unduplicated recipients in the HCBS portion of the program.[12] In order to be eligible for the program, a recipient must be both clinically eligible as required under s. 409.979, F.S., and financially eligible for Medicaid under s. 409.904, F.S.

Eligibility and Enrollment

The AHCA is the single state agency for Medicaid; however through an interagency agreement with the Department of Elderly Affairs (DOEA), the DOEA is Florida's federally mandated pre-admission screening program for nursing home applicants through its Long-Term Care Services (CARES) program, including for the LTC component.[13] The frailty-based assessment results in a priority score for an individual, who is then placed on the wait list based on his or her priority score.

Individuals are released from the wait list periodically, based on the availability of funding and their priority scores. The Legislature has specifically directed funding in the past several years

through the GAA to serve elders off the waitlist who have a priority score of 4 or higher.[14] Individuals who are frailer or have an immediate need for services receive a higher rank on the waitlist. Those who have resided in a nursing facility for more than 60 days receive prior enrollment into the HCBS portion of the program. Exemptions from the wait list also exist under s. 409.979(3)(f), F.S.

Individuals who are enrolled in the following programs may enroll in the LTC program, but are not required to:

- Developmental Disabilities waiver program;
- Traumatic Brain and Spinal Injury waiver;
- Project AIDS Care waiver;
- Adult Cystic Fibrosis waiver;
- Program of All-Inclusive Care for the Elderly (PACE);
- Familial Dysautonomia waiver; or
- Model waiver.[15]

Individuals, both those who are enrolled in LTC and those on the wait list, must be re-screened at least annually or whenever there is a significant change in circumstances, such as change in caregivers or medical condition.[16]

Delivery System and Benefits

The AHCA conducted a competitive procurement to select LTC and MMA plans in each of the 11 regions in 2012. Under the Invitation to Negotiate for MMA plans, the AHCA selected 10 different companies to serve as the health care delivery system. Of the plans selected, 11 of the awarded contracts went to general, non-specialty plans, of which five were PSNs.[17] Five different specialty plans and the Children's Medical Services plan were also awarded contracts.[18,19] Currently, MMA recipients receive services through 11 different managed care plans, of which two are PSNs.

In 2012, the AHCA awarded seven LTC contracts, including one statewide contract.[20] One of the original LTC contracts operated as a PSN; however, that plan is no longer participating in SMMC. The LTC services are now delivered through six managed care plans, which vary based

[20] Agency for Health Care Administration, *Statewide Medicaid Managed Care Update* (Oct. 8, 2013) (on file with the Senate Committee on Health Policy).

on the recipient's region. Each region has at least two plans to allow for recipient choice. For nursing facilities and hospices, the plans are required to pay those designated providers a rate set by the AHCA. All six of the LTC plans also participate in the MMA program.

In addition to these plans, there are six specialty plans that serve unique populations: Children's Medical Services for children with chronic conditions; two plans for individuals with HIV/AIDS; a plan for child welfare enrollees; a plan for recipients eligible for both Medicaid and Medicare with chronic conditions, such as diabetes or congestive heart failure; and a plan for individuals with serious mental illness. Recipients in both components of the program receive choice counseling services to assist them in selecting the plan that will best meet their needs.

The total enrollment in the specialty plans as of March 1, 2017 is shown in the chart below:[21]

Specialty Plan Enrollment - March 2017	
Component	**Enrollment (As of March 1, 2017)**
Child Welfare Plan	31,810
Specialty Plans (Capitated)	78,842
Children's Medical Services Network	50,924
Total:	**161,576**

The managed care plans under both components are required to cover a minimum level of benefits as prescribed under s. 409.973, F.S., for the MMA plans, and s. 409.98, F.S., for the LTC plans. However, the statutes also permit the plans to offer an expanded menu of optional benefits.

Mandatory Benefits - Statewide Medicaid Managed Care	
Managed Medical Assistance	**Long-Term Care**
Advanced registered nurse practitioner services	Nursing facility care
Ambulatory surgical treatment center services	Services provided in assisted living facility
Birthing center services	Hospice
Chiropractic services	Adult day care
Dental services	Medical equipment and supplies, including incontinence supplies
Early periodic screening diagnostic and treatment services for recipients under age 21	Personal care
Emergency services	Home accessibility adaption
Family planning services and supplies	Behavior management
Healthy Start services (with exceptions)	Home-delivered meals
Hearing services	Case management
Home health agency services	Therapies
Hospice services	Occupational therapy
Hospital inpatient services	Speech therapy

[21] Agency for Health Care Administration, SMMC MMA Specialty Capitated Enrollment Report (As of Mar. 1, 2017).

Mandatory Benefits - Statewide Medicaid Managed Care	
Managed Medical Assistance	**Long-Term Care**
Hospital outpatient services	Respiratory therapy
Laboratory and imaging services	Physical therapy
Medical supplies, equipment, prostheses, and orthoses	Intermittent and skilled nursing
Mental health services	Medication administration
Nursing care	Medication management
Optical services and supplies	Nutritional assessment and risk reduction
Optometrist services	Caregiver training
Physical, occupational, respiratory, and speech therapy services	Respite care
Physician services, including physician assistant services	Transportation
Podiatric services	Personal emergency response system
Prescription drugs	
Renal dialysis services	
Respiratory equipment and supplies	
Rural health clinic services	
Substance abuse treatment services	
Transportation to access covered services	

The LTC enrollees who are not eligible for Medicare also receive their medical services through an MMA plan. Some plans participate in both components in the same regions, and a recipient may elect the same managed care plan for both components. These plans are referred to as comprehensive plans.

Provider Service Networks

The payment design of the SMMC was intended to facilitate a smooth transition from a mix of fee-for-service, primary care case management, and managed care delivery to a statewide system of Medicaid managed care. The statute permitted the PSNs to be reimbursed on a fee-for-service or prepaid basis, but only for the first two years of the plan's operation or until the contract year beginning September 1, 2014, whichever is later. The AHCA is required to conduct cost reconciliations for the fee-for-service PSNs to determine the amount of any cost savings. All other managed care plans under SMMC are paid on a capitated basis meaning that a plan must pay for all covered services under the contract regardless of whether the capitated rate covers the cost of services for that recipient.

During the procurement process, at least one of the contract awards must be to a PSN if any PSNs submit a responsive bid. However, the AHCA must also issue an additional ITN following the end of a procurement, only for provider service networks, in those regions where no provider service networks submitted a responsive bid.

III. Effect of Proposed Changes:

Provider Service Networks (Sections 1, 3, 4, 6, 7, and 8)

The bill removes the option for PSNs, under both the MMA and LTC components, to be reimbursed on a fee-for-service basis. Prepaid PSNs shall be reimbursed only on a per-member, per month basis. Currently, PSNs could elect to receive payments for the first 2 years of a contract or until the contract year beginning September 1, 2014, whichever is later, under fee-for-service or on a capitated basis. The bill also deletes provisions relating to quality selection criteria specific to savings under PSNs, which are calculated under fee-for-service rates.

The reconciliation and cost savings review process sections relating to the PSN fee-for-service payment process are deleted from the MMA and LTC sections of the SMMC program. Provisions relating to how the cost reconciliations shall be conducted and the reconciliation deadline are removed to correspond to the removal of those now obsolete provisions.

The ITN process for both the MMA and LTC components is modified to no longer require the AHCA to conduct a separate procurement process within 12 months of the initial procurement process if no PSN is selected during the initial procurement.

Managed Care Plan Selection (Sections 3, 6, and 8)

The bill modifies the AHCA's responsibilities for compiling and publishing a databook as part of the ITN process to require a comprehensive set of utilization and spending data that is consistent with actuarial rate-setting practices and standards. The modification eliminates specific requirements that the data include the three most recent contract years for all Medicaid recipients by region or county. The source of the data in the databook report must include the most recent 24 months of validated data from the Medicaid Encounter Data System. The health care delivery regions for both the MMA and LTC components are also collapsed and changed to letters from numbers. These modifications provide for administrative streamlining and will enhance plan stability through increased market share by the plans, according to the AHCA. Since the original regions were created in the 1990s, the AHCA believes these revised regions more accurately reflect the health care market and current utilization patterns.[22] The larger regions will also assist the AHCA in ensuring compliance with the access and appointment standards by the managed care plans, as a wider choice of plans is likely to be available to recipients. The pooling of additional membership across the collapsed regions will likely draw more interested parties to some of the less populated areas of the state.

The table below shows the proposed re-groupings of counties and the minimum and maximum number of plans for the procurement. The plan limitations vary for MMA and LTC to reflect the enrollment level differences in the two programs.

Obsolete Language (Sections 2, 5, 6, and 7)

Sections 2, 5, 6, and 7 amend ss. 409.964, 409.971, and 409.974(1), and 409.978(1), F.S., respectively, to remove obsolete language. These sections contain references to dates or activities associated with program implementation, the initial procurement process, and expired deadlines.

Effective Date (Section 9)

The effective date of the bill is July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill reorganizes the regions and the number of plans that may be selected in each region. The AHCA plans to re-procure the SMMC contracts in late 2017 giving the health plan industry, both those currently with contracts and those who wish to gain a contract, an opportunity to bid on the new ITN. The AHCA believes that collapsing regions will result in administrative streamlining and more accurately reflects today's health care utilization patterns. These changes may result in more competitive proposals from more managed care organizations during the upcoming procurement process, resulting in savings to the state and more choices for the consumer. In response to a voluntary Intent to Bid request, the AHCA received 41 responses from PSNs and HMOs that were interested in all three types of plans: long-term care, specialty, and managed medical assistance.[23]

[23] Agency for Health Administration, *Statewide Medicaid Managed Care (SMMC) Program Non-Binding Letters of Intent Received by 2/13/2017, in response to Intent to Bid Posted 2/3/2017*, http://ahca.myflorida.com/medicaid/statewide_mc/pdf/Intent_to_Bid_Responses.pdf (last visited Mar. 16, 2017).

Any changes in which managed care organizations receive contracts under a new procurement will impact the health care provider community in 2017 and 2018. Not only will Medicaid managed care enrollees possibly be transitioning to new providers, but the provider community may have to adapt to a new group of managed care plans.

C. Government Sector Impact:

According to the AHCA, the bill has no impact on state revenues or expenditures.[24] However, the AHCA also believes, and notes in its bill analyses that collapsing regions will result in administrative streamlining and that these new regions will more accurately reflect today's health care utilization patterns. These changes in the regions may result in more competitive proposals from more managed care organizations during the upcoming procurement process, resulting in additional savings to the state and more choices for the consumer.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The AHCA plans to release an ITN in the summer of 2017. Non-binding letters of Intent to Bid were requested from interested bidders by February 13, 2017, using the current 11 regions. [25] With changes to the current business process, an effective date of July 1, 2017, may keep the AHCA from maintaining their current deadlines.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 409.912, 409.964, 409.966, 409.968, 409.971, 409.974, 409.978, and 409.981.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 25, 2017:
The committee substitute:

- Requires that when selecting a plan for participation in the Medicaid program, the agency compile and publish a databook consisting of a comprehensive set of utilization and spending data consistent with actuarial rate-setting practices and standards. The source of the data in the databook report must include the most recent 24 months of validated data from the Medicaid Encounter Data System.
- Changes the following regions to the a new structure for the Managed medical assistance program: At least three plans and up to four plans for Region A; at least

[24] *Supra* note 20, at 4.
[25] Agency for Health Care Administration, *Non-binding Letters of Intent from Potential SMMC Plans,* http://ahca.myflorida.com/medicaid/statewide_mc/SMMC_LOI.shtml (last visited Mar. 16, 2017).

three plans and up to six plans for Region B; at least five and up to 10 plans for Region C; at least three and up to four plans for Region E; at least three plans and up to five plans for Region F; and at least three plans and up to five six plans for Region G.

- Changes the following regions to a new structure for the long-term care managed care program: At least three plans and up to four plans for Region A; at least three plans and up to six plans for Region B; at least five and up to eight plans for Region C; at least three and up to four plans for Region E; at least three plans and up to five plans for Region F; and at least three and up to four plans for Region G.

B. Amendments:

None.

By Senator Grimsley

26-00434A-17 2017916__

A bill to be entitled

An act relating to the statewide Medicaid managed care program; amending s. 409.912, F.S.; deleting the fee-for-service option as a basis for the reimbursement of Medicaid provider service networks; amending s. 409.964, F.S.; deleting an obsolete provision; amending s. 409.966, F.S.; requiring that a required databook consist of data that is consistent with actuarial rate-setting practices and standards; revising the designation and county makeup of regions of the state for purposes of procuring health plans that may participate in the Medicaid program; adding a factor that the Agency for Health Care Administration must consider in the selection of eligible plans; deleting a requirement related to fee-for-service provider service networks; amending s. 409.968, F.S.; requiring provider service networks to be prepaid plans; deleting a fee-for-service option for Medicaid reimbursement for provider service networks; amending s. 409.971, F.S.; deleting an obsolete provision; amending s. 409.974, F.S.; revising the number of eligible Medicaid health care plans the agency must procure for certain regions in the state; deleting an obsolete provision; amending s. 409.978, F.S.; deleting an obsolete provision; amending s. 409.981, F.S.; revising the number of eligible Medicaid health care plans the agency must procure for certain regions in the state; deleting a requirement that the agency consider a specific factor relating to the selection

26-00434A-17 2017916__

of managed medical assistance plans; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (2) of section 409.912, Florida Statutes, is amended to read:

409.912 Cost-effective purchasing of health care.—The agency shall purchase goods and services for Medicaid recipients in the most cost-effective manner consistent with the delivery of quality medical care. To ensure that medical services are effectively utilized, the agency may, in any case, require a confirmation or second physician’s opinion of the correct diagnosis for purposes of authorizing future services under the Medicaid program. This section does not restrict access to emergency services or poststabilization care services as defined in 42 C.F.R. s. 438.114. Such confirmation or second opinion shall be rendered in a manner approved by the agency. The agency shall maximize the use of prepaid per capita and prepaid aggregate fixed-sum basis services when appropriate and other alternative service delivery and reimbursement methodologies, including competitive bidding pursuant to s. 287.057, designed to facilitate the cost-effective purchase of a case-managed continuum of care. The agency shall also require providers to minimize the exposure of recipients to the need for acute inpatient, custodial, and other institutional care and the inappropriate or unnecessary use of high-cost services. The agency shall contract with a vendor to monitor and evaluate the clinical practice patterns of providers in order to identify

trends that are outside the normal practice patterns of a provider's professional peers or the national guidelines of a provider's professional association. The vendor must be able to provide information and counseling to a provider whose practice patterns are outside the norms, in consultation with the agency, to improve patient care and reduce inappropriate utilization. The agency may mandate prior authorization, drug therapy management, or disease management participation for certain populations of Medicaid beneficiaries, certain drug classes, or particular drugs to prevent fraud, abuse, overuse, and possible dangerous drug interactions. The Pharmaceutical and Therapeutics Committee shall make recommendations to the agency on drugs for which prior authorization is required. The agency shall inform the Pharmaceutical and Therapeutics Committee of its decisions regarding drugs subject to prior authorization. The agency is authorized to limit the entities it contracts with or enrolls as Medicaid providers by developing a provider network through provider credentialing. The agency may competitively bid single-source-provider contracts if procurement of goods or services results in demonstrated cost savings to the state without limiting access to care. The agency may limit its network based on the assessment of beneficiary access to care, provider availability, provider quality standards, time and distance standards for access to care, the cultural competence of the provider network, demographic characteristics of Medicaid beneficiaries, practice and provider-to-beneficiary standards, appointment wait times, beneficiary use of services, provider turnover, provider profiling, provider licensure history, previous program integrity investigations and findings, peer

review, provider Medicaid policy and billing compliance records, clinical and medical record audits, and other factors. Providers are not entitled to enrollment in the Medicaid provider network. The agency shall determine instances in which allowing Medicaid beneficiaries to purchase durable medical equipment and other goods is less expensive to the Medicaid program than long-term rental of the equipment or goods. The agency may establish rules to facilitate purchases in lieu of long-term rentals in order to protect against fraud and abuse in the Medicaid program as defined in s. 409.913. The agency may seek federal waivers necessary to administer these policies.

(2) The agency may contract with a provider service network~~, which may be reimbursed on a fee-for-service or prepaid basis~~. Prepaid provider service networks shall receive per-member, per-month payments. ~~A provider service network that does not choose to be a prepaid plan shall receive fee-for-service rates with a shared savings settlement. The fee-for-service option shall be available to a provider service network only for the first 2 years of the plan's operation or until the contract year beginning September 1, 2014, whichever is later. The agency shall annually conduct cost reconciliations to determine the amount of cost savings achieved by fee-for-service provider service networks for the dates of service in the period being reconciled. Only payments for covered services for dates of service within the reconciliation period and paid within 6 months after the last date of service in the reconciliation period shall be included. The agency shall perform the necessary adjustments for the inclusion of claims incurred but not reported within the reconciliation for claims that could be~~

~~received and paid by the agency after the 6-month claims processing time lag. The agency shall provide the results of the reconciliations to the fee-for-service provider service networks within 45 days after the end of the reconciliation period. The fee-for-service provider service networks shall review and provide written comments or a letter of concurrence to the agency within 45 days after receipt of the reconciliation results. This reconciliation shall be considered final.~~

(a) A provider service network that ~~which~~ is reimbursed by the agency on a prepaid basis shall be exempt from parts I and III of chapter 641, but must comply with the solvency requirements in s. 641.2261(2) and meet appropriate financial reserve, quality assurance, and patient rights requirements as established by the agency.

(b) A provider service network is a network established or organized and operated by a health care provider, or group of affiliated health care providers, which provides a substantial proportion of the health care items and services under a contract directly through the provider or affiliated group of providers and may make arrangements with physicians or other health care professionals, health care institutions, or any combination of such individuals or institutions to assume all or part of the financial risk on a prospective basis for the provision of basic health services by the physicians, by other health professionals, or through the institutions. The health care providers must have a controlling interest in the governing body of the provider service network organization.

Section 2. Section 409.964, Florida Statutes, is amended to read:

409.964 Managed care program; state plan; waivers.—The Medicaid program is established as a statewide, integrated managed care program for all covered services, including long-term care services. The agency shall apply for and implement state plan amendments or waivers of applicable federal laws and regulations necessary to implement the program. Before seeking a waiver, the agency shall provide public notice and the opportunity for public comment and include public feedback in the waiver application. The agency shall hold one public meeting in each of the regions described in s. 409.966(2), and the ~~time~~ period for public comment for each region shall end no sooner than 30 days after the completion of the public meeting in that region. ~~The agency shall submit any state plan amendments, new waiver requests, or requests for extensions or expansions for existing waivers, needed to implement the managed care program by August 1, 2011.~~

Section 3. Subsection (2) and paragraphs (a), (d), and (e) of subsection (3) of section 409.966, Florida Statutes, are amended to read:

409.966 Eligible plans; selection.—

(2) ELIGIBLE PLAN SELECTION.—The agency shall select a limited number of eligible plans to participate in the Medicaid program using invitations to negotiate in accordance with s. 287.057(1)(c). At least 90 days before issuing an invitation to negotiate, the agency shall compile and publish a databook consisting of a comprehensive set of utilization and spending data consistent with actuarial rate-setting practices and standards ~~for the 3 most recent contract years consistent with the rate-setting periods for all Medicaid recipients by region~~

~~or county. The source of the data in the report must include both historic fee-for-service claims and validated data from the Medicaid Encounter Data System. The report must be available in electronic form and delineate utilization use by age, gender, eligibility group, geographic area, and aggregate clinical risk score~~. Separate and simultaneous procurements shall be conducted in each of the following regions:

(a) Region A ~~Region 1~~, which consists of Bay, Calhoun, Escambia, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Madison, Okaloosa, Santa Rosa, Taylor, Wakulla, ~~and~~ Walton, and Washington Counties.

(b) Region B ~~Region 2~~, which consists of Alachua, Baker, Bradford, Citrus, Clay, Columbia, Dixie, Duval, Flagler, Gilchrist, Hamilton, Hernando, Lafayette, Lake, Levy, Marion, Nassau, Putnam, St. Johns, Sumter, Suwannee, Union, and Volusia ~~Bay, Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Jefferson, Leon, Liberty, Madison, Taylor, Wakulla, and Washington~~ Counties.

(c) Region C ~~Region 3~~, which consists of Hardee, Highlands, Hillsborough, Manatee, Pasco, Pinellas, and Polk ~~Alachua, Bradford, Citrus, Columbia, Dixie, Gilchrist, Hamilton, Hernando, Lafayette, Lake, Levy, Marion, Putnam, Sumter, Suwannee, and Union~~ Counties.

(d) Region D ~~Region 4~~, which consists of Brevard, Orange, Osceola, and Seminole ~~Baker, Clay, Duval, Flagler, Nassau, St. Johns, and Volusia~~ Counties.

(e) Region E ~~Region 5~~, which consists of Charlotte, Collier, DeSoto, Glades, Hendry, Lee, and Sarasota ~~Pasco and Pinellas~~ Counties.

(f) Region F ~~Region 6~~, which consists of Indian River, Martin, Okeechobee, Palm Beach, and St. Lucie ~~Hardee, Highlands, Hillsborough, Manatee, and Polk~~ Counties.

(g) Region G ~~Region 7~~, which consists of Broward County ~~Brevard, Orange, Osceola, and Seminole Counties~~.

(h) Region H ~~Region 8~~, which consists of Miami-Dade and Monroe ~~Charlotte, Collier, DeSoto, Glades, Hendry, Lee, and Sarasota~~ Counties.

~~(i) Region 9, which consists of Indian River, Martin, Okeechobee, Palm Beach, and St. Lucie Counties.~~

~~(j) Region 10, which consists of Broward County.~~

~~(k) Region 11, which consists of Miami-Dade and Monroe Counties.~~

(3) QUALITY SELECTION CRITERIA.—

(a) The invitation to negotiate must specify the criteria and the relative weight of the criteria that will be used for determining the acceptability of the reply and guiding the selection of the organizations with which the agency negotiates. In addition to criteria established by the agency, the agency shall consider the following factors in the selection of eligible plans:

1. Accreditation by the National Committee for Quality Assurance, the Joint Commission, or another nationally recognized accrediting body.

2. Experience serving similar populations, including the organization’s record in achieving specific quality standards with similar populations.

3. Availability and accessibility of primary care and specialty physicians in the provider network.

4. Establishment of community partnerships with providers that create opportunities for reinvestment in community-based services.

5. Organization commitment to quality improvement and documentation of achievements in specific quality improvement projects, including active involvement by organization leadership.

6. Provision of additional benefits, particularly dental care and disease management, and other initiatives that improve health outcomes.

7. Evidence that an eligible plan has written agreements or signed contracts or has made substantial progress in establishing relationships with providers before the plan submitting a response.

8. Comments submitted in writing by any enrolled Medicaid provider relating to a specifically identified plan participating in the procurement in the same region as the submitting provider.

9. Documentation of policies and procedures for preventing fraud and abuse.

10. The business relationship an eligible plan has with any other eligible plan that responds to the invitation to negotiate.

11. Whether a plan is proposing to establish a comprehensive long-term care plan.

(d) For the first year of the first contract term, the agency shall negotiate capitation rates or fee for service payments with each plan in order to guarantee aggregate savings of at least 5 percent.

~~1.~~ For prepaid plans, determination of the amount of savings shall be calculated by comparison to the Medicaid rates that the agency paid managed care plans for similar populations in the same areas in the prior year. In regions containing no prepaid plans in the prior year, determination of the amount of savings shall be calculated by comparison to the Medicaid rates established and certified for those regions in the prior year.

~~2. For provider service networks operating on a fee-for-service basis, determination of the amount of savings shall be calculated by comparison to the Medicaid rates that the agency paid on a fee-for-service basis for the same services in the prior year.~~

(e) To ensure managed care plan participation in Regions A and E ~~Regions 1 and 2~~, the agency shall award an additional contract to each plan with a contract award in Region A ~~Region 1~~ or Region E ~~Region 2~~. Such contract shall be in any other region in which the plan submitted a responsive bid and negotiates a rate acceptable to the agency. If a plan that is awarded an additional contract pursuant to this paragraph is subject to penalties pursuant to s. 409.967(2)(i) for activities in Region A ~~Region 1~~ or Region E ~~Region 2~~, the additional contract is automatically terminated 180 days after the imposition of the penalties. The plan must reimburse the agency for the cost of enrollment changes and other transition activities.

Section 4. Subsection (2) of section 409.968, Florida Statutes, is amended to read:

409.968 Managed care plan payments.—

(2) Provider service networks shall ~~may~~ be prepaid plans and receive per-member, per-month payments negotiated pursuant

to the procurement process described in s. 409.966. ~~Provider service networks that choose not to be prepaid plans shall receive fee-for-service rates with a shared savings settlement. The fee-for-service option shall be available to a provider service network only for the first 2 years of its operation. The agency shall annually conduct cost reconciliations to determine the amount of cost savings achieved by fee-for-service provider service networks for the dates of service within the period being reconciled. Only payments for covered services for dates of service within the reconciliation period and paid within 6 months after the last date of service in the reconciliation period must be included. The agency shall perform the necessary adjustments for the inclusion of claims incurred but not reported within the reconciliation period for claims that could be received and paid by the agency after the 6-month claims processing time lag. The agency shall provide the results of the reconciliations to the fee-for-service provider service networks within 45 days after the end of the reconciliation period. The fee-for-service provider service networks shall review and provide written comments or a letter of concurrence to the agency within 45 days after receipt of the reconciliation results. This reconciliation is considered final.~~

Section 5. Section 409.971, Florida Statutes, is amended to read:

409.971 Managed medical assistance program.—The agency shall make payments for primary and acute medical assistance and related services using a managed care model. ~~By January 1, 2013, the agency shall begin implementation of the statewide managed medical assistance program, with full implementation in all~~

~~regions by October 1, 2014.~~

Section 6. Subsections (1) and (2) of section 409.974, Florida Statutes, are amended to read:

409.974 Eligible plans.—

(1) ELIGIBLE PLAN SELECTION.—The agency shall select eligible plans through the procurement process described in s. 409.966. ~~The agency shall notice invitations to negotiate no later than January 1, 2013.~~

(a) The agency shall procure at least two plans and up to four plans for Region A ~~Region 1~~. At least one plan shall be a provider service network if any provider service networks submit a responsive bid.

(b) The agency shall procure at least three plans and up to five ~~two~~ plans for Region B ~~Region 2~~. At least one plan shall be a provider service network if any provider service networks submit a responsive bid.

(c) The agency shall procure at least four ~~three~~ plans and up to seven ~~five~~ plans for Region C ~~Region 3~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(d) The agency shall procure at least three plans and up to six ~~five~~ plans for Region D ~~Region 4~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(e) The agency shall procure at least two plans and up to four plans for Region E ~~Region 5~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(f) The agency shall procure at least two ~~four~~ plans and up

to four ~~seven~~ plans for Region F ~~Region 6~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(g) The agency shall procure at least two ~~three~~ plans and up to four ~~six~~ plans for Region G ~~Region 7~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(h) The agency shall procure at least five ~~two~~ plans and up to 10 ~~four~~ plans for Region H ~~Region 8~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

~~(i) The agency shall procure at least two plans and up to four plans for Region 9. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(j) The agency shall procure at least two plans and up to four plans for Region 10. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(k) The agency shall procure at least five plans and up to 10 plans for Region 11. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~If no provider service network submits a responsive bid, the agency shall procure no more than one less than the maximum number of eligible plans permitted in that region. Within 12 months after the initial invitation to negotiate, the agency shall attempt to procure a provider service network. The agency~~

~~shall notice another invitation to negotiate only with provider service networks in those regions where no provider service network has been selected.~~

(2) QUALITY SELECTION CRITERIA.—In addition to the criteria established in s. 409.966, the agency shall consider evidence that an eligible plan has written agreements or signed contracts or has made substantial progress in establishing relationships with providers before the plan submits ~~submitting~~ a response. The agency shall evaluate and give special weight to evidence of signed contracts with essential providers as defined by the agency pursuant to s. 409.975(1). The agency shall exercise a preference for plans with a provider network in which more than ~~over~~ 10 percent of the providers use electronic health records, as defined in s. 408.051. ~~When all other factors are equal, the agency shall consider whether the organization has a contract to provide managed long-term care services in the same region and shall exercise a preference for such plans.~~

Section 7. Subsection (1) of section 409.978, Florida Statutes, is amended to read:

409.978 Long-term care managed care program.—

(1) Pursuant to s. 409.963, the agency shall administer the long-term care managed care program described in ss. 409.978-409.985, but may delegate specific duties and responsibilities for the program to the Department of Elderly Affairs and other state agencies. ~~By July 1, 2012, the agency shall begin implementation of the statewide long-term care managed care program, with full implementation in all regions by October 1, 2013.~~

Section 8. Subsection (2) and paragraphs (c), (d), and (e)

of subsection (3) of section 409.981, Florida Statutes, are amended to read:

409.981 Eligible long-term care plans.—

(2) ELIGIBLE PLAN SELECTION.—The agency shall select eligible plans through the procurement process described in s. 409.966. The agency shall procure:

(a) At least two plans and up to four plans for Region A ~~Region 1~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(b) At least three ~~Two~~ plans and up to five plans for Region B ~~Region 2~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(c) At least four ~~three~~ plans and up to seven ~~five~~ plans for Region C ~~Region 3~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(d) At least three plans and up to six ~~five~~ plans for Region D ~~Region 4~~. At least one plan must be a provider service network if any provider service network submits a responsive bid.

(e) At least two plans and up to four plans for Region E ~~Region 5~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(f) At least two ~~four~~ plans and up to four ~~seven~~ plans for Region F ~~Region 6~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(g) At least two ~~three~~ plans and up to four ~~six~~ plans for

Region G ~~Region 7~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

(h) At least five ~~two~~ plans and up to 10 ~~four~~ plans for Region H ~~Region 8~~. At least one plan must be a provider service network if any provider service networks submit a responsive bid.

~~(i) At least two plans and up to four plans for Region 9. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(j) At least two plans and up to four plans for Region 10. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~(k) At least five plans and up to 10 plans for Region 11. At least one plan must be a provider service network if any provider service networks submit a responsive bid.~~

~~If no provider service network submits a responsive bid in a region other than Region 1 or Region 2, the agency shall procure no more than one less than the maximum number of eligible plans permitted in that region. Within 12 months after the initial invitation to negotiate, the agency shall attempt to procure a provider service network. The agency shall notice another invitation to negotiate only with provider service networks in regions where no provider service network has been selected.~~

(3) QUALITY SELECTION CRITERIA.—In addition to the criteria established in s. 409.966, the agency shall consider the following factors in the selection of eligible plans:

~~(c) Whether a plan is proposing to establish a~~

~~comprehensive long-term care plan and whether the eligible plan has a contract to provide managed medical assistance services in the same region.~~

(c) ~~(d)~~ Whether a plan offers consumer-directed care services to enrollees pursuant to s. 409.221.

(d) ~~(c)~~ Whether a plan is proposing to provide home and community-based services in addition to the minimum benefits required by s. 409.98.

Section 9. This act shall take effect July 1, 2017.

The Florida Senate

Committee Agenda Request

To: Senator Jack Latvala, Chair
Committee on Appropriations

Subject: Committee Agenda Request

Date: April 17, 2017

I respectfully request that **CS/Senate Bill #916**, relating to Statewide Medicaid Managed Care, be placed on the:

☐ committee agenda at your earliest possible convenience.

☒ next committee agenda.

Senator Denise Grimsley
Florida Senate, District 26

File signed original with committee office

S-020 (03/2004)

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1018 (546818)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on the Environment and Natural Resources); Environmental Preservation and Conservation Committee; and Senators Grimsley and Galvano
SUBJECT:	Contaminated Site Cleanup
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Mitchell	Rogers	EP	**Fav/CS**
2.	Reagan	Betta	AEN	**Recommend: Fav/CS**
3.	Reagan	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1018 provides for the advancement ahead of priority ranking for the rehabilitation of individual petroleum contaminated sites proposed for redevelopment; the elimination of the 25 percent cost-share requirement for the advanced cleanup of such sites; a $5 million increase in the annual funding available to the Department of Environmental Protection (DEP) for petroleum rehabilitation advance cleanup work; advanced site assessments for certain sites contaminated with drycleaning solvents; and a $5 million increase in the amount of annual voluntary cleanup tax credit funding DEP is authorized to allocate.

The bill increases expenditures from the Inland Protection Trust Fund by $5 million annually. The bill will reduce revenues deposited into the General Revenue Fund by $5 million annually based on a higher volume of tax credits.

II. Present Situation:

Petroleum Restoration Program

Petroleum is stored in thousands of underground and aboveground storage tank systems throughout Florida. Releases of petroleum into the environment may occur as a result of

accidental spills, storage tank system leaks, or poor maintenance practices.[1] These discharges pose a significant threat to groundwater quality, and Florida relies on groundwater for 90 percent of its drinking water.[2] The identification and cleanup of petroleum contamination is particularly challenging due to Florida's diverse geology, diverse water systems, and the complex dynamics between contaminants and the environment.[3]

In 1983, Florida began enacting legislation to regulate underground and aboveground storage tank systems in an effort to protect Florida's groundwater from past and future petroleum releases.[4] The Department of Environmental Protection (DEP) is responsible for regulating these storage tank systems. In 1986, the Legislature enacted the State Underground Petroleum Environmental Response Act (SUPER Act) to address the pollution problems caused by leaking underground petroleum storage systems.[5] The SUPER Act authorized the department to establish criteria for the prioritization, assessment and cleanup, and reimbursement for cleanup of contaminated areas, which led to the creation of the Petroleum Restoration Program (Restoration Program). The Restoration Program establishes the requirements and procedures for cleaning up contaminated land as well as the circumstances under which the state will pay for the cleanup.

Abandoned Tank Restoration Program

In 1990, the legislature established the Abandoned Tank Restoration Program (ATRP). The ATRP was created to address the contamination at facilities that had out-of-service or abandoned tanks as of March 1990. The ATRP originally had a one-year application period, but the deadline was subsequently extended to 1992, then 1994. In 1996, the legislature waived the deadline indefinitely for owners who are unable to pay for the closure of abandoned tanks. To be eligible for the ATRP, applicants must certify that the petroleum system has not stored petroleum products for consumption, use, or sale since March 1, 1990.[6] In 2016, the legislature eliminated the June 30, 1996 application deadline.[7]

Site Rehabilitation

Florida law requires land contaminated by petroleum to be cleaned up, or rehabilitated, so that the concentration of each contaminant in the ground is below a certain level.[8] These levels are known as Cleanup Target Levels (CTLs).[9] Once the CTLs for a contaminated site[10] has been attained, rehabilitation is complete and the site may be closed. When a site is closed, no further

[10] A "site" is any contiguous land, sediment, surface water, or groundwater area upon or into which a discharge of petroleum or petroleum products has occurred or for which evidence exists that such a discharge has occurred. The site is the full extent of the contamination, regardless of property boundaries.

cleanup action is required unless the contaminant levels increase above the CTLs or another discharge occurs.[11]

State Funding Assistance for Rehabilitation

In 2012, the average cost to rehabilitate a site was approximately $400,000, but some sites may cost millions of dollars to rehabilitate.[12] Under Florida law, an owner of contaminated land (site owner) is responsible for rehabilitating the land unless the site owner can show that the contamination resulted from the activities of a previous owner or other third party (responsible party), who is then responsible.[13] Over the years, different eligibility programs have been implemented to provide state financial assistance to certain site owners and responsible parties for site rehabilitation.

To receive rehabilitation funding assistance, a site must qualify under one of these programs, which are outlined in the following table:

Table 1: State Assisted Petroleum Cleanup Eligibility Programs

Program Name	Program Dates	Program Description
Early Detection Incentive Program (EDI) (s. 376.30371(9), F.S.)	Discharges must have been reported between July 1, 1986, and December 31, 1988, to be eligible	• First state-assisted cleanup program • 100 percent state funding for cleanup if site owners reported releases • Originally gave site owners the option of conducting cleanup themselves and receiving reimbursement from the state or having the state conduct the cleanup in priority order • Reimbursement option was phased out, so all cleanups are now conducted by the state
Petroleum Liability and Restoration Insurance Program (PLRIP) (s. 376.3072, F.S.)	Discharges must have been reported between January 1, 1989, and December 31, 1998, to be eligible	• Required facilities to purchase third party liability insurance to be eligible • Provides varying amounts of state-funded site restoration coverage
Abandoned Tank Restoration Program (ATRP) (s. 376.305(6), F.S.)	For petroleum storage systems that have not stored petroleum since March 1, 1990[14]	Provides 100 percent state funding for cleanup, less deductible, at facilities that had out-of-service or abandoned tanks as of March 1990
Innocent Victim Petroleum Storage System Restoration Program (s. 376.30715, F.S.)	The application period began on July 1, 2005, and remains open	Provides 100 percent state funding for a site acquired before July 1, 1990, that ceased operating as a petroleum storage or retail business before January 1, 1985

[11] Florida Department of Environmental Protection, Division of Waste Management, *Petroleum Contamination Cleanup and Discharge Prevention Programs* (2012), http://www.dep.state.fl.us/waste/quick_topics/publications/pss/pcp/geninfo/2012Program_Briefing_11Jan12.pdf.
[12] *Id*.
[13] Section 376.308, F.S.
[14] The ATRP originally had a one-year application period, but the deadline was extended. The deadline is now waived indefinitely for site owners who are financially unable to pay for the closure of abandoned tanks. Section 376.305(6)(b), F.S.

Petroleum Cleanup Participation Program (PCPP) (s. 376.3071(13), F.S.)	Remains open	• Created to provide financial assistance for sites that had missed all previous opportunities • Only discharges that occurred before 1995 were eligible • Site owner or responsible party must pay 25 percent of cleanup costs[15] • Originally had a $300,000 cap on the amount of coverage, which was raised to $400,000 beginning July 1, 2008
Consent Order (aka "Hardship" or "Indigent") (s. 376.3071(7)(c), F.S.)	The program began in 1986 and remains open	• Created to provide financial assistance under certain circumstances for sites that the Department initiates an enforcement action to clean up • An agreement is formed whereby the Department conducts the cleanup and the site owner or responsible party pays for a portion of the costs

As of October 2015, there are 19,128 sites eligible for state funding through one of the above programs.[16] Of these, approximately 8,603 have been rehabilitated and closed, approximately 5,576 are currently undergoing some phase of rehabilitation, and approximately 4,949 await rehabilitation. [17]

Inland Protection Trust Fund

To fund the cleanup of contaminated sites, the SUPER Act created the Inland Protection Trust Fund (IPTF).[18] The IPTF is funded by an excise tax per barrel on petroleum and petroleum products in or imported into the state.[19] The amount of the excise tax per barrel is determined by a formula, which is dependent upon the unobligated balance of the IPTF.[20] Each year, approximately $200 million from the excise tax is deposited into the IPTF to fund restoration of petroleum contaminated sites.[21] At present, the excise tax is 80 cents per barrel.[22]

Funding for rehabilitation of a site is based on a relative risk scoring system. Each funding-eligible site receives a numeric score based on the threat the site contamination poses to the environment or to human health, safety, or welfare.[23] Sites currently in the Restoration Program range in score from 5 to 115 points, with a score of 115 representing a substantial threat and a

[15] The 25 percent copay requirement can be reduced or eliminated if the site owner and all responsible parties demonstrate that they are financially unable to comply. Section 376.3071(13)(c), F.S.
[16] DEP, *2016 House Bill 697 Agency Analysis*, (December 15, 2015) (on file with the Senate Committee on Environmental Preservation and Conservation).

[23] Section 376.3071(5), F.S., Fla. Admin. Code R. 62-771.100.

score of 5 representing a very low threat.[24] Sites are rehabilitated in priority order beginning with the highest score, with funding based on available budget.[25] The department sets the priority score funding threshold, which is the minimum score a site must be assigned to receive restoration funding at a particular point in time.[26]

Expediting Site Rehabilitation

Eligible contaminated sites typically receive state rehabilitation funding in priority order based on their numeric score. However, there are some programs that allow sites to receive funding for rehabilitation or site closure out of priority score order, as long as the sites are eligible under one of the programs in Table 1. Two of these programs are Advanced Cleanup and Low Scored Site Initiative.

Advanced Cleanup

The advanced cleanup (formerly known as Preapproved Advanced Cleanup) of petroleum contaminated sites was begun in 1996 to allow an eligible petroleum contamination site to receive state rehabilitation funding even if the site's priority score did not fall within the threshold currently being funded.[27] The purpose of creating the advanced cleanup process was to facilitate property transactions and public works projects on contaminated sites.[28] To obtain authorization for advanced cleanup, a site must be eligible for state restoration funding under the Early Detection Incentive Program (EDI), the Petroleum Liability and Restoration Insurance Program (PLRIP), or the Abandoned Tank Restoration Program (ATRP).[29]

Advanced cleanup is also available for discharges eligible for restoration funding under the Petroleum Cleanup Participation Program (PCPP) for the state's cost share of site rehabilitation.[30] An application for advanced cleanup for a discharge eligible under PCPP must include a cost-sharing commitment for funding under the advanced cleanup criteria in addition to the 25 percent copayment requirement of the PCPP.

To apply for advanced cleanup of petroleum contamination, a facility owner or operator or the person otherwise responsible for site rehabilitation must submit an advanced cleanup application between May 1 and June 30, for the fiscal year beginning July 1, or between November 1 and December 31. The application must consist of:

- A commitment to pay 25 percent or more of the total cleanup cost deemed recoverable along with proof of the ability to pay the cost share. Applications submitted for cleanup may be submitted in one of two formats to meet the cost-share requirement:

[24] DEP, *2016 House Bill 697 Agency Analysis*, (December 15, 2015) (on file with the Senate Committee on Environmental Preservation and Conservation).
[25] Fla. Admin. Code R. 62-771.300.
[26] DEP, *2015 Senate Bill 314 Agency Analysis*, (Mar. 13, 2015) (on file with the Senate Committee on Environmental Preservation and Conservation).
[27] Section 376.30713(1), F.S.
[28] *Id.*
[29] Section 376.30713(1)(d), F.S.
[30] For PCPP sites, Advanced Cleanup is only available for discharge cleanup if the 25 percent copay requirement of PCPP has not been reduced or eliminated pursuant to s. 376.3071(13)(d). s. 376.30713(1)(d), F.S.

  - The applicant may use a commitment to pay, a demonstrated cost savings to DEP, or both to meet the requirement; or
  - For an application relying on a demonstrated cost savings to the DEP, the applicant shall, in conjunction with the proposed agency term contractor, establish and provide in the application a 25 percent cost savings[31] to the DEP for cleanup of the site under the application compared to the cost of cleanup of the same site using the current rates provide to the DEP by the proposed agency term contractor. The DEP shall determine whether the cost savings demonstration is acceptable.
- A nonrefundable review fee of $250 to cover the DEP's administrative costs to review the application;
- A limited contamination assessment report;
- A proposed course of action; and
- A DEP site access agreement, or similar agreement.

The DEP ranks applications based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant who proposes the highest percentage of cost sharing. In some circumstances where applicants propose the same percentage of cost sharing and funds are not available to commit to all of such proposals, applicants may raise their individual cost share commitments and the DEP will rerank the applications.[32]

The DEP negotiates with applicants based on the DEP's rankings. If the DEP and an applicant agree on the course of action, the DEP may enter into a contract with the applicant and negotiate the terms and conditions of the contract. Advanced cleanup must be conducted pursuant to requirements of the Inland Protection Trust Fund and the DEP rule. If the terms of the advanced cleanup contract are not fulfilled, the applicant forfeits any right to future payment for any site rehabilitation work conducted under the contract.[33]

The DEP may enter into contracts for a total of up to $25 million of advanced cleanup work in each fiscal year.[34] All funds collected by the DEP pursuant contracts for advanced cleanup work must be deposited into the Inland Protection Trust Fund to be used in the advanced cleanup of petroleum contaminated sites.[35]

Low Scored Site Initiative

The Low Scored Site Initiative (LSSI) was created to expedite the assessment and closure of sites that contain minimal contamination and that are not a threat to human health or the environment. Low scored sites have a priority ranking score of 29 points or less.[36] These sites are eligible for state funds of up to $70,000 each for assessment and limited remediation. The DEP may not encumber more than $15 million for LSSI in any fiscal year.[37]

[31] For aggregate applications of five sites or more the percentage is not specified.

Drycleaning Solvent Cleanup Program

The Florida Legislature has established a state-funded program to cleanup properties that are contaminated as a result of operations of a drycleaning facility or wholesale supply facility (Ch. 376, F.S.). The program is administered by the DEP. The legislation was supported by the drycleaning industry to address environmental, economic, and liability issues resulting from drycleaning solvent contamination. The program limits the liability of the owner, operator and real property owner of drycleaning or wholesale supply facilities for cleanup of drycleaning solvent contamination if the parties meet the conditions stated in the law.[38]

Funding: Taxes and Fees

A fund has been established to pay for costs related to the cleanup of these properties. The source of revenue for the fund is a gross receipts sales tax, a tax on perchloroethylene sold to or imported by a drycleaning facility, and annual registration fees.[39]

Program Application

The application period for entry into the Drycleaning Solvent Cleanup Program ended December 31, 1998. Applications to the Drycleaning Solvent Cleanup Program are no longer being accepted.[40]

Eligibility and Priority Ranking

Section 376.3078(3), F.S., identifies certain criteria that must be met in order for a site to be eligible, and to remain eligible, for the program. Eligibility in this program does not relieve the owner, operator, or real property owner from federal actions or from current waste management requirements. The score that the site receives determines the order in which the DEP will begin site rehabilitation activities. For eligible sites, costs incurred by the state for site rehabilitation will be absorbed at the expense of the fund minus a deductible amount as specified in the law.[41]

Scoring System

The DEP uses a scoring system to rank and prioritize eligible sites for rehabilitation. Sites are assigned points based upon statutory point values for each site's characteristics.[42] The DEP has developed a priority list of sites for rehabilitation based upon the scoring system, with ranking commensurate with the size of a site's score.[43] Regardless of scoring, however, any site having a condition that exhibits a fire or explosion hazard is highest priority for rehabilitation. The following site characteristics are assigned points in the scoring system:

- The threat the site poses to drinking water supplies based on;
  - The size of the largest uncontaminated public water supply well located within one mile of the site;

[38] Florida Department of Environmental Protection, *Dry Cleaning Solvent Cleanup Program,* http://www.dep.state.fl.us/waste/quick_topics/publications/wc/drycleaning/information/General-Information_04Jan17.pdf

[40] *Id.*
[41] Section 376.3078(3)(e), F.S.
[42] Section 376.3078(7), F.S.
[43] Section 376.3078(8), F.S.

  - The size of the largest uncontaminated private drinking water well located within one mile of the site;
  - The size of the largest contaminated public water supply well located within one mile of the site;
  - The size of the largest contaminated private drinking water well located within one mile of the site;
  - The proximity of both uncontaminated and contaminated water wells to the site;
- The vulnerability of groundwater to contamination from the site;
- The Aquifer Classification for the aquifer area where the site is located;
- The concentrations of chlorinated drycleaning solvents in the soil of the site; and
- The location of the site if it is within:
  - One half mile of an uncontaminated surface water body used as a permitted public water system;
  - One half mile of an Outstanding Florida Water body;
  - One quarter mile of a surface water body; or
  - One quarter mile of an area of critical state concern.

Scored sites are incorporated into the priority list on a quarterly basis with the ranking of all sites adjusted accordingly. Assignments for program tasks to be conducted by state contractors are made according to the current priority list and based on criteria the DEP determines is necessary to achieve cost-effective site rehabilitation. Regardless of the score of a site, the DEP may initiate emergency action for those sites that are a threat to human health and safety, or where failure to prevent migration of drycleaning solvents would cause irreversible damage to the environment.[44]

Contaminated Site Cleanup Criteria

The DEP rules establish criteria for the purpose of determining, on a site-specific basis, a site rehabilitation program and the level at which a site rehabilitation program may be deemed completed. These rules incorporate to the maximum extent feasible, risk-based corrective action principles to achieve protection of human health and safety and the environment in a cost-effective manner.[45] For site rehabilitation to reach a status of site closure or "no further action," often appropriate institutional controls must be agreed to by the owner and applicant and implemented for the site. Institutional controls are the restrictions on use of, or access to, a site such as deed restrictions, restrictive covenants, or conservation easements to eliminate or minimize exposure to petroleum products' chemicals of concern, drycleaning solvents, or other contaminants.[46]

Average Costs and Budget Projections

The cost for cleanup at a site varies greatly depending on the extent of contamination. Typically, sites that transition quickly from assessment to no further action (closure), have lower average costs than sites that remain in the cleanup process. The below chart includes the average costs per phase of cleanup for no further action (closed) sites, and the average costs per phase for sites

[44] Section 376.3078(7) and (8), F.S.
[45] Fla. Admin. Code Ch. 62-780.
[46] Section 376.301(22), F.S.

that are still undergoing cleanup (active) sites. This provides the range in costs associated with closed and active sites.

Phase of Cleanup	Assessment	Design	Remedial Action	Operation & Maintenance	Monitoring	Interim Remedial Measure	Total Average Cost
Closed Sites	$96,038	$20,516	$98,817	$84,160	$31,347	$59,954	$184,469
Active Sites	$147,211	$55,598	$257,120	$212,836	$49,390	$86,511	$578,605

Annual budget projections require the Drycleaning Solvent Cleanup Program to track average costs associated with each phase of cleanup, and to anticipate the number of sites that will transition from one phase of cleanup to the next. Based on a dataset of 322 sites, where the remedy has been selected or the site has been closed, approximately 72 percent of all sites will require active remediation to reach closure, 10 percent will require monitoring only to reach closure, and 18 percent will meet the requirements for no further action following the site assessment. The average cost for site closure will depend on the type of closure achieved (active remediation, monitoring only, or no further action), as shown below.[47]

Sites Issued a Site Rehabilitation Completion Order (Closure) following:	Average Cost
Active Remediation	$306,462
Monitoring Only	$138,308
No Further Action	$62,419

The Brownfields Redevelopment Act

The term "brownfield" was originally coined in the 1970s and referred to any previously developed property, regardless of any contamination issues. The term, as it is currently used, is defined by the U.S. Environmental Protection Agency (EPA) as, "real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant."[48] In 1995, the EPA created the Brownfields Program in order to manage contaminated property through site remediation and redevelopment. The program was designed to provide local communities access to federal funds allocated for redevelopment, including environmental assessments and cleanups, environmental health studies, and environmental training programs.[49]

[47] Email message dated March 12, 2017, from Wayne Kiger, Director's Office, Division of Waste Management, Florida Department of Environmental Protection (on file with the Senate Committee on Environmental Preservation and Conservation).
[48] Robert A. Jones and William F. Welsh, Michigan Brownfield Redevelopment Innovation: Two Decades of Success 2 (Sept. 2010), *available at* http://www.miseagrant.umich.edu/downloads/focus/brownfields/10-201-EMU-Final-Report.pdf (last visited March 10, 2017).
[49] The Florida Brownfields Association, Brownfields 101 2, *available at* http://c.ymcdn.com/sites/www.floridabrownfields.org/resource/resmgr/imported/Brownfields101.pdf (last visited March 10, 2017).

In 1997, the Florida Legislature enacted the Brownfields Redevelopment Act (Act).[50] The Act provides financial and regulatory incentives to encourage voluntary remediation and redevelopment of brownfield sites in order to improve public health and reduce environmental hazards.[51] The Act provides liability protection for program participants who have not caused or contributed to the contamination of a brownfield site on or after July 1, 1997.[52]

Voluntary Cleanup Tax Credits

In 1998, the Florida Legislature established the Voluntary Cleanup Tax Credit (VCTC) Program to provide an incentive for the voluntary cleanup of drycleaning solvent-contaminated sites and brownfield sites in designated brownfield areas (s. 376.30781, F.S.). At these sites, a tax credit of 50 percent is allowed for the cost of voluntary cleanup activity that is integral to site rehabilitation, with a maximum of $500,000 per site per year. Additionally, at brownfield sites in designated brownfield areas, a one-time 50 percent tax credit is allowed for solid waste removal, with a maximum of $500,000 per site. Tax credits may be applied to state corporate income tax. Effective July 1, 2011, the Legislature increased the annual tax credit authorization from $2 million to $5 million. The VCTC Program has approved $66,875,735 in tax credits since it began. However, approved applications must wait until sufficient credits exist to claim them.[53]

Effective July 1, 2015, the Legislature approved a one-time VCTC authorization of $21.6 million. This authorization was only effective through June 30, 2016. On July 1, 2016, the annual VCTC authorization returned to $5 million per year.[54] The additional authorization allowed DEP to issue certificates for all approved tax credits, eliminating the backlog.[55]

The Brownfields and VCTC Programs have been successful in promoting the cleanup and redevelopment of contaminated, underutilized properties. The one-time increase in the annual authorized VCTC funding level addressed all approved tax credits through June 30, 2015. However, as shown in the figure below, since 2007, the approved tax credits have exceeded the available authorization, and since 2012, the approved tax credits have averaged more than $8.3 million per year. If the dollar amount of future tax credit applications remains consistent with the previous five years, the backlog for un-issued tax credits will continue to grow. As of the issuance of the August 2016 Brownfields Redevelopment Program Report, DEP anticipated, with the $5 million authorization available July 1, 2016, it will issue tax credit certificates to 33 of the 99 applicants for 2015 expenditures. Sixty-four applicants will receive their tax credits in July 2017 and nine applicants will receive their tax credits in July 2018.[56]

III. Effect of Proposed Changes:

Advanced Cleanup - Property Redevelopment

Section 1 amends s. 376.3071, F.S., to provide an exception from penalties for prompt payment to subcontractors pursuant to s. 287.0585, F.S. Section 1 provides that the contractor may remit payment to the subcontractor within 30 working days after the contractor receives payment from the DEP. If the payments are made within this timeframe the penalties do not apply.

Section 2 amends s. 376.30713, F.S., to add legislative findings regarding the rehabilitation of a site contaminated by discharges of petroleum or petroleum products in advance of its priority ranking. The section contains findings that the inability to advance a site's priority ranking may substantially impede or prohibit property redevelopment and that it is in the public interest and of substantial economic benefit to the state to advance site rehabilitation on a limited basis in order to encourage property redevelopment.

The section creates a separate procedure and criteria for the advancement ahead of its priority ranking of an individual contamination site slated for property redevelopment. The submittal of advanced cleanup applications for such sites are not limited to the two annual application periods from May 1 through June 30 and from November 1 through December 31, as are all other advanced cleanup applications, but are instead accepted on a first-come, first-served basis. Applicants for the advanced cleanup of individual contamination sites slated for redevelopment are also not subject to the 25 percent cost share copayment commitment required of other advanced cleanup applicants provided they demonstrate, as deemed acceptable by the Department of Environmental Protection (DEP), that the following have been included in their applications for cleanup:

- A nonrefundable review fee of $250 for DEP's administrative cost;
- A limited contamination assessment report which is sufficient to support the course of action;
- A proposed course of action for site cleanup;
- A DEP approved agreement with the property owners for site cleanup if the applicant is not the owner;
- Certification to the DEP that the applicant has the authority to enter into an advanced site cleanup contract with the DEP;
- Documentation from the local government having jurisdiction that states that the local government is in agreement with or approves the redevelopment;
- A demonstrated reasonable assurance that the applicant has sufficient financial resources to implement and complete the redevelopment project.

Section 2 provides that site eligibility is not an entitlement to advanced cleanup funding or continued restoration funding.

Section 2 also increases the dollar amount of the contracts for advance cleanup work into which the DEP is authorized to enter from $25 million to a total of $30 million in each fiscal year. The DEP is authorized to designate up to $5 million of those funds for the advance cleanup of individual contaminated sites that meet the criteria in the bill for redevelopment. A single facility or applicant for advance cleanup of an individual contaminated site slated for redevelopment may not be approved for more than $1 million of cleanup activity per fiscal year.
Section 2 also provides the DEP with the right to terminate or amend the voluntary cost-share agreement with property owners or responsible parties if, the property owners or responsible parties are eligible to bundle multiple sites and fail to do so within three subsequent open application periods or 18 months, whichever is shorter.

Section 2 provides that the property owner or responsible party must agree to conduct limited site assessments within 12 months after execution of the voluntary cost-share agreement.

Advanced Site Assessment - Drycleaning

Section 3 amends s. 376.3078, F.S., to provide a finding that it is in the public interest and of substantial environmental and economic benefit to the state to conduct site assessments on a limited basis at sites contaminated with drycleaning solvents in advance of the priority ranking of contaminated sites.

The section provides that a property owner who is eligible for site rehabilitation under the drycleaning solvent cleanup program may request, and the DEP may authorize, an advanced site assessment if the following criteria are met:

- Information from the site assessment would be sufficient for the DEP to better evaluate the actual risk of the contamination, reducing the risk to public health and the environment;
- The property owner agrees to:
  - Implement the appropriate institutional controls at the time the owner requests the advanced site assessment; and
  - Upon completion of the cleanup, implement and maintain the required institutional controls, or a combination of institutional and engineering controls, when the site meets

site rehabilitation criteria for closure with controls in accordance with the DEP rules for site rehabilitation;

- Current conditions at the site allow the site assessment to be conducted in a manner that will result in cost savings to the Water Quality Assurance Trust Fund;
- The annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program is sufficient to pay for the site assessment; and
- The property owner provides access to the site and has paid the appropriate deductible amount depending on when contamination was reported to the DEP as part of a completed application for the Drycleaning Contamination Cleanup Program to rehabilitate the drycleaning facility.

The section also provides that a site may be assessed out of priority ranking order at the DEP's discretion when the site assessment will provide a cost savings to the program.

The section requires an advanced site assessment under the drycleaning solvent cleanup program to incorporate risk-based corrective action principles to achieve protection of human health and safety and the environment in a cost-effective manner, in accordance with the DEP rules for site rehabilitation. The advanced site assessment must also be sufficient to estimate the cost of cleanup, the proposed course of action for site cleanup, and that the site is appropriate for one of the following:

- Remedial action at the site to mitigate risks that, in the judgment of the DEP, are a threat to human health or where failure to prevent migration of drycleaning solvents would cause irreversible damage to the environment;
- Additional groundwater monitoring at the site to support natural attenuation monitoring or long-term groundwater monitoring; or
- A recommendation of "no further action," with or without institutional controls or institutional and engineering controls, if the site meets the "no further action" criteria in accordance with the DEP rules for site rehabilitation.

If the site is not appropriate for one of these actions, it is not eligible for advanced site assessment. The DEP must notify the property owner in writing of this determination and return the site to the priority ranking order based on its priority score.

The section requires that advanced site assessment program tasks be assigned by the drycleaning solvent cleanup program. Task assignment must be based on:

- The potential for the development of new site assessment information to allow the DEP to better evaluate the actual risk of the contamination;
- Compatibility with appropriate institutional controls or a combination of institutional and engineering controls;
- The potential for cost savings to the Water Quality Assurance Trust Fund;
- The availability of funds from the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent program;
- The DEP's determination of contractor logistics;
- Geographical considerations; and
- Other criteria that the DEP determines are necessary to achieve the most cost-effective approach.

This section limits available funding for advanced site assessments to 10 percent of the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program. The total funds that may be committed to any one site are capped at $70,000. The DEP must prioritize requests for advanced site assessment at sites under the drycleaning solvent cleanup program based on the date of receipt and the environmental and economic value to the state until the available funding for advanced site assessments has been obligated.

Voluntary Cleanup Tax Credit (VCTC) Funding

Sections 4 and 5 amend ss. 220.1845 and 376.30781, F.S., respectively, to increase the annual cap on voluntary cleanup tax credits from $5 million to $10 million.[57]

The bill takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill should have a positive fiscal impact on the private sector. Redevelopment of property will be encouraged by an additional $5 million available annually for petroleum contamination site rehabilitation for sites proposed for redevelopment. Also, an additional $5 million in funds will be available for voluntary cleanup through corporate income tax credits for the rehabilitation of dry-cleaning solvent contaminated sites or brownfield sites.

[57] Sections 220.1845 and 376.30781, F.S.

C. Government Sector Impact:

The bill will have a $5 million recurring impact to the Inland Protection Trust Fund by increasing the total amount of contracts the DEP is authorized to approve for advanced cleanup work to $30 million annually. The bill will have a $5 million recurring impact to the General Revenue Fund by increasing the annual cap on the voluntary cleanup tax credits to $10 million.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 376.30713, 376.3078, and 376.86.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on the Environment and Natural Resources on April 13, 2017:
The committee substitute:

- Amends s. 376.3071, F.S., to provide an exception from penalties for prompt payment to subcontractors pursuant to s. 287.0585, F.S. Provides that the contractor may remit payment to the subcontractor within 30 working days after the contractor receives payment from the DEP. If the payments are made within this timeframe the penalties do not apply.
- Clarifies requirements for eligibility of advanced site cleanup applicants.
- Provides that site eligibility is not an entitlement to advanced cleanup funding or continued restoration funding.

CS by Environmental Preservation and Conservation on March 14, 2017:

- Removes unnecessary language that was inserted into the "emergency action" exception to the drycleaning rehabilitation scoring criteria. New subsection (14) in s. 376.308, F.S., already makes it clear that advance assessments are not subject to the scoring criteria.
- Increases the annual cap for the VCTC. The CS replaces the modification in the bill to the brownfield areas loan guaranty program, which had been intended to have the same practical effect.

B. Amendments:

None.

671492

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment (with title amendment)

Between lines 35 and 36
insert:
Section 1. Section 403.076, Florida Statutes, is created to read:
403.076 Short title.—Sections 403.076-403.078 may be cited as the "Public Notice of Pollution Act."
Section 2. Section 403.077, Florida Statutes, is created to read:

671492

403.077 Public notice of pollution; goals and findings.—

(1) It is a goal of the state that the public be timely notified of a discovered, reportable pollution release that may pose an immediate danger to the public health, safety, or welfare.

(2) The department has the authority and the duty to control and prohibit pollution of the air, land, and water of this state and has the primary responsibility to ensure that the public is aware of reportable pollution releases. Alerting the department about reportable pollution releases, within the timeframes and in the manner provided by this act, will better inform the department and the public regarding such releases and the need, if any, to take action to protect the public health, safety, and welfare.

(3) This act does not alter or affect the emergency management responsibilities of the Governor, the Division of Emergency Management, or the governing body of any political subdivision of the state pursuant to chapter 252.

Section 3. Section 403.078, Florida Statutes, is created to read:

403.078 Public notification of pollution.—

(1) DEFINITION.—As used in this section, the term "reportable pollution release" means the release or discharge of a substance from an installation to the air, land, or waters of the state which is discovered by the owner or operator of the installation, which is not authorized by law, and which is:

(a) Reportable to the State Watch Office within the Division of Emergency Management pursuant to department rules, permit, order, or variance;

(b) Reportable to the department or a contracted county pursuant to department rules governing storage tank systems under ss. 376.303, 376.321, and 376.322;

(c) Reportable to the department pursuant to department rules requiring notice for noncompliance from underground injection control systems where such noncompliance may endanger public health or the environment and has the potential to contaminate potable water wells outside the property boundaries of the installation;

(d) A hazardous substance at or above the quantity established in Table 302.4 of 40 C.F.R. s. 302.4, revised as of July 1, 2016, for such substance, for which notification is required by 40 C.F.R. s. 302.6; or

(e) An extremely hazardous substance pursuant to 40 C.F.R. s. 355.61, at or above the quantity established in Appendices A and B of 40 C.F.R. part 355, revised as of July 1, 2016, for such substance, for which notice is required by 40 C.F.R. s. 355.33.

(2) OWNER AND OPERATOR RESPONSIBILITIES.—

(a) In the event of a reportable pollution release, any person who is an owner or operator of the installation at which the reportable pollution release occurred must provide a notice containing the following information, to the extent known at the time of such notice, to the department within 24 hours after its discovery:

1. The name and address of the installation where the reportable pollution release occurred.

2. The name and title of the reporting person and the nature of his or her relationship to the installation.

671492

3. The identification numbers for any active department permits, variances, registrations, or orders that are relevant to the reportable pollution release.

4. The name and telephone number of a contact person for further information.

5. The substance released.

6. The estimated quantity of the substance released and, if applicable, the estimated quantity that has since been recovered.

7. The cause of the release.

8. The source of the release.

9. The location of the release.

10. The date, time, and duration of the release.

11. The medium into which the substance was released, including, but not limited to, the outdoor air, land, groundwater, aquifer, or specified waters or wetlands.

12. Whether the released substance has migrated to land or waters of the state outside the property boundaries of the installation and the location of such migration.

13. To the extent available, toxicological information associated with the substance released as specified on a safety data sheet or comparable source published by the Occupational Safety and Health Administration or the Centers for Disease Control and Prevention, or their successor agencies.

The owner or operator may also include in the notice any other information he or she wishes in order to assist in the protection of the public health, safety, and welfare.

(b) If multiple parties are subject to the notification

requirements based on a single reportable pollution release, a single notification made by one party in accordance with this section constitutes compliance on behalf of all parties subject to the requirement. However, if the notification is not made in accordance with this section, the department may pursue enforcement against all parties subject to the requirement.

(c) If, after providing notice pursuant to paragraph (a), the installation owner or operator determines that a reportable pollution release did not occur or that an amendment to the notice is warranted, the installation owner or operator may submit a letter to the department documenting such determination.

(d) If, after providing notice under paragraph (a), the installation owner or operator determines that a release subject to the noticing requirements of this act has migrated outside the property boundaries of the installation, the owner or operator, within 24 hours after such discovery, must provide an additional notice to the department. Such notice must comply with the requirements of paragraph (a) and specify the extent of the migration outside the property boundaries.

(3) DEPARTMENTAL RESPONSIBILITIES.—

(a) The department shall publish on a website accessible to the public all notices submitted by an owner or operator pursuant to subsection (2) within 24 hours of receipt.

(b) The department shall create an electronic mailing list for such notices and allow the public, including local governments, health departments, news media, and other interested persons, to subscribe to and receive periodic direct announcement of any notices submitted pursuant to subsection

(2). The department shall establish regional electronic mailing lists, such as by county or district boundaries, to allow subscribers to determine the notices they wish to receive by geographic area.

(c) The department shall establish an e-mail address and an online form as options for owners and operators to provide the notice specified in paragraphs (2)(a) and (b).

(4) ADMISSION OF LIABILITY OR HARM.—Providing notice under subsection (2) does not constitute an admission of liability or harm.

(5) VIOLATIONS.—For failure to provide the notification required by paragraph (2)(a) or paragraph (2)(d), the owner or operator shall be subject to the civil penalties specified in s. 403.121.

(6) ADOPTION OF RULES.—The department shall adopt rules necessary to administer the provisions of this section.

Section 4. Present paragraph (f) of subsection (4) of section 403.121, Florida Statutes, is redesignated as paragraph (g), and a new paragraph (f) is added to that subsection, to read:

403.121 Enforcement; procedure; remedies.—The department shall have the following judicial and administrative remedies available to it for violations of this chapter, as specified in s. 403.161(1).

(4) In an administrative proceeding, in addition to the penalties that may be assessed under subsection (3), the department shall assess administrative penalties according to the following schedule:

(f) For failure to provide required notice pursuant to s.

671492

403.078, up to $10,000 per day for each day an installation owner or operator is in violation of the section.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete line 2

and insert:

An act relating to pollution; creating s. 403.076, F.S.; providing a short title; creating s. 403.077, F.S.; providing goals and legislative findings; specifying authority of the Department of Environmental Protection; specifying that the act does not alter or affect the emergency management responsibilities of certain other governmental entities; creating s. 403.078, F.S.; defining the term "reportable pollution release"; requiring an owner or operator of an installation at which a reportable pollution release occurred to provide certain information to the department within 24 hours after the discovery of the release; authorizing the owner or operator to amend such notice; specifying compliance and enforcement requirements; requiring owners or operators to provide notice when a reportable pollution release migrates outside the property boundaries of the installation; requiring the department to publish such information in a specified manner; requiring the department to establish an electronic mailing list; requiring the department to provide a reporting form and e-mail address for such

671492

notice; specifying that providing a notice does not constitute an admission of liability or harm; specifying penalties for violations; requiring the department to adopt rules; amending s. 403.121, F.S.; specifying penalties for failure to provide required notice; amending

576-03822-17

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on the Environment and Natural Resources)

A bill to be entitled

An act relating to contaminated site cleanup; amending s. 376.3071, F.S.; providing an exception to prompt payment requirements to subcontractors and suppliers; amending s. 376.30713, F.S.; revising legislative findings; specifying that applicants for advanced cleanup of certain individual sites are not subject to application period limitations and need not pay a certain cost-sharing commitment; requiring applications by such applicants to be accepted on a first-come, first-served basis; providing that such applications are not subject to certain ranking provisions; specifying application requirements; providing construction; increasing the amount per year that the Department of Environmental Protection may use for advanced cleanup work; specifying expenditure limitations; revising duties of property owners and responsible parties with respect to voluntary cost-share agreements; amending s. 376.3078, F.S.; providing a statement of public interest; authorizing site assessments in advance of site priority ranking under certain circumstances; specifying criteria for sites to be eligible for such assessments; specifying what must be demonstrated through such assessments; specifying criteria for the assignment of assessment tasks; specifying funding limitations; specifying the

546818

576-03822-17

prioritization of requests; amending s. 220.1845, F.S.; increasing the total amount of an authorization for tax credits; amending s. 376.30781, F.S.; increasing the total amount of tax credits the department is responsible for allocating; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (h) of subsection (6) of section 376.3071, Florida Statutes, is amended to read:

376.3071 Inland Protection Trust Fund; creation; purposes; funding.—

(6) CONTRACTING AND CONTRACTOR SELECTION REQUIREMENTS.—

(h) The contractor, or the person to whom ~~which~~ the contractor has assigned its right to payment pursuant to paragraph (e), shall make prompt payment to subcontractors and suppliers for their costs associated with an approved contract pursuant to s. 287.0585, except that the contractor, or the person to whom the contractor has assigned its right to payment pursuant to paragraph (e), may remit payments to subcontractors and suppliers within 30 working days after the contractor's receipt of payment by the department before the penalties required by s. 287.0585(1) are applicable.

Section 2. Paragraphs (a) and (c) of subsection (1) and subsections (2) and (4) of section 376.30713, Florida Statutes, are amended to read:

376.30713 Advanced cleanup.—

(1) In addition to the legislative findings provided in s.

376.3071, the Legislature finds and declares:

(a) That the inability to conduct site rehabilitation in advance of a site's priority ranking pursuant to s. 376.3071(5)(a) may substantially impede or prohibit property redevelopment, property transactions, or the proper completion of public works projects.

(c) It is in the public interest and of substantial economic benefit to the state to provide an opportunity for site rehabilitation to be conducted on a limited basis at contaminated sites, in advance of the site's priority ranking, to encourage redevelopment and facilitate property transactions or public works projects.

(2) The department may approve an application for advanced cleanup at eligible sites, including applications submitted pursuant to paragraph (c), notwithstanding the site's priority ranking established pursuant to s. 376.3071(5)(a), pursuant to this section. Only the facility owner or operator or the person otherwise responsible for site rehabilitation qualifies as an applicant under this section.

(a) Advanced cleanup applications may be submitted between May 1 and June 30 and between November 1 and December 31 of each fiscal year. Applications submitted between May 1 and June 30 shall be for the fiscal year beginning July 1. An application must consist of:

1. A commitment to pay 25 percent or more of the total cleanup cost deemed recoverable under this section along with proof of the ability to pay the cost share. The department shall determine whether the cost savings demonstration is acceptable. Such determination is not subject to chapter 120.

a. Applications for the aggregate cleanup of five or more sites may be submitted in one of two formats to meet the cost-share requirement:

(I) For an aggregate application proposing that the department enter into a performance-based contract, the applicant may use a commitment to pay, a demonstrated cost savings to the department, or both to meet the requirement.

(II) For an aggregate application relying on a demonstrated cost savings to the department, the applicant shall, in conjunction with the proposed agency term contractor, establish and provide in the application the percentage of cost savings in the aggregate that is being provided to the department for cleanup of the sites under the application compared to the cost of cleanup of those same sites using the current rates provided to the department by the proposed agency term contractor.

b. Applications for the cleanup of individual sites may be submitted in one of two formats to meet the cost-share requirement:

(I) For an individual application proposing that the department enter into a performance-based contract, the applicant may use a commitment to pay, a demonstrated cost savings to the department, or both to meet the requirement.

(II) For an individual application relying on a demonstrated cost savings to the department, the applicant shall, in conjunction with the proposed agency term contractor, establish and provide in the application a 25-percent cost savings to the department for cleanup of the site under the application compared to the cost of cleanup of the same site using the current rates provided to the department by the

proposed agency term contractor.

2. A nonrefundable review fee of $250 to cover the administrative costs associated with the department's review of the application.

3. A limited contamination assessment report.

4. A proposed course of action.

5. A department site access agreement, or similar agreements approved by the department that do not violate state law, entered into with the property owner or owners, as applicable, and evidence of authorization from such owner or owners for petroleum site rehabilitation program tasks consistent with the proposed course of action where the applicant is not the property owner for any of the sites contained in the application.

The limited contamination assessment report must be sufficient to support the proposed course of action and to estimate the cost of the proposed course of action. Costs incurred related to conducting the limited contamination assessment report are not refundable from the Inland Protection Trust Fund. Site eligibility under this subsection or any other provision of this section is not an entitlement to advanced cleanup or continued restoration funding. The applicant shall certify to the department that the applicant has the prerequisite authority to enter into an advanced cleanup contract with the department. The certification must be submitted with the application.

(b) The department shall rank the applications based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant who proposes the

highest percentage of cost sharing. If the department receives applications that propose identical cost-sharing commitments and that exceed the funds available to commit to all such proposals during the advanced cleanup application period, the department shall proceed to rerank those applicants. Those applicants submitting identical cost-sharing proposals that exceed funding availability must be so notified by the department and offered the opportunity to raise their individual cost-share commitments, in a period specified in the notice. At the close of the period, the department shall proceed to rerank the applications pursuant to this paragraph.

(c) Applications for the advanced cleanup of individual sites scheduled for redevelopment are not subject to the application period limitations or the requirement to pay 25 percent of the total cleanup cost specified in paragraph (a) or to the cost-sharing commitment specified in paragraph (1)(d). Applications must be accepted on a first-come, first-served basis and are not subject to the ranking provisions of paragraph (b). Applications for the advanced cleanup of individual sites scheduled for redevelopment must include:

1. A nonrefundable review fee of $250 to cover the administrative costs associated with the department's review of the application.

2. A limited contamination assessment report. The report must be sufficient to support the proposed course of action and to estimate the cost of the proposed course of action. Costs incurred related to conducting and preparing the report are not refundable from the Inland Protection Trust Fund.

3. A proposed course of action for cleanup of the site.

4. If the applicant is not the property owner for any of the sites contained in the application, a department site access agreement, or a similar agreement approved by the department and not in violation of state law, entered into with the property owner or owners, as applicable, and evidence of authorization from such owner or owners for petroleum site rehabilitation program tasks consistent with the proposed course of action.

5. A certification to the department stating that the applicant has the prerequisite authority to enter into an advanced cleanup contract with the department. The advanced cleanup contract must include redevelopment and site rehabilitation milestones.

6. Documentation, in the form of a letter from the local government having jurisdiction over the area where the site is located, which states that the local government is in agreement with or approves the proposed redevelopment and that the proposed redevelopment complies with applicable law and requirements for such redevelopment.

7. A demonstrated reasonable assurance that the applicant has sufficient financial resources to implement and complete the redevelopment project.

Site eligibility under this section is not an entitlement to advanced cleanup funding or continued restoration funding.

(4) The department may enter into contracts for a total of up to $30 ~~$25~~ million of advanced cleanup work in each fiscal year. Up to $5 million of these funds may be designated by the department for advanced cleanup of individual sites scheduled for redevelopment under paragraph (2)(c).

(a) ~~However,~~ A facility or an applicant who bundles multiple sites as specified in subparagraph (2)(a)1. may not be approved for more than $5 million of cleanup activity in each fiscal year.

(b) A facility or an applicant applying for advanced cleanup of individual sites scheduled for redevelopment pursuant to paragraph (2)(c) may not be approved for more than $1 million of cleanup activity in any one fiscal year.

(c) A property owner or responsible party may enter into a voluntary cost-share agreement in which the property owner or responsible party commits to bundle multiple sites and lists the facilities that will be included in those future bundles. The facilities listed are not subject to agency term contractor assignment pursuant to department rule. The department must reserve ~~reserves~~ the right to terminate or amend the voluntary cost-share agreement for any identified site under the voluntary cost-share agreement if the property owner or responsible party fails to submit an application to bundle any site, not already covered by an advance cleanup contract, under such voluntary cost-share agreement within three ~~a~~ subsequent open application periods or 18 months, whichever period is shorter, ~~period~~ during which it is eligible to participate. The property owner or responsible party must agree to conduct limited site assessments on the identified sites within 12 months after the execution of the voluntary cost-share agreement. For the purposes of this section, the term "facility" includes, but is not limited to, multiple site facilities such as airports, port facilities, and terminal facilities even though such enterprises may be treated as separate facilities for other purposes under this chapter.

Section 3. Subsection (14) is added to section 376.3078, Florida Statutes, to read:

376.3078 Drycleaning facility restoration; funds; uses; liability; recovery of expenditures.—

(14) ADVANCED SITE ASSESSMENT.—It is in the public interest, and of substantial environmental and economic benefit to the state, to provide an opportunity to conduct site assessment on a limited basis at contaminated sites in advance of the ranking of the sites on the priority list as specified in subsection (8).

(a) A real property owner who is eligible for site rehabilitation at a facility that has been determined eligible for the drycleaning solvent cleanup program under this section may request an advanced site assessment, and the department may authorize the performance of a site assessment in advance of the ranking of the site on the priority list as specified in subsection (8), if the following criteria are met:

1. The site assessment information would provide new information that would be sufficient for the department to better evaluate the actual risk of the contamination, thereby reducing the risk to public health and the environment;

2. The property owner agrees:

a. To implement the appropriate institutional controls allowed by department rules adopted pursuant to subsection (4) at the time the property owner requests the advanced site assessment; and

b. To implement and maintain, upon completion of the cleanup, the required institutional controls, or a combination of institutional and engineering controls, when the site meets

the site rehabilitation criteria for closure with controls in accordance with department rules adopted pursuant to subsection (4);

3. Current conditions at the site allow the site assessment to be conducted in a manner that will result in cost savings to the Water Quality Assurance Trust Fund;

4. There is sufficient money in the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program to pay for the site assessment; and

5. In accordance with subsection (3), access to the site is provided and the deductible is paid.

(b) A site may be assessed out of priority ranking order when, at the department's discretion, the site assessment will provide a cost savings to the program.

(c) An advanced site assessment must incorporate risk-based corrective action principles to achieve protection of human health and safety and the environment in a cost-effective manner, in accordance with subsection (4). The site assessment must also be sufficient to estimate the cost and determine the proposed course of action toward site cleanup. Advanced site assessment activities performed under this subsection shall be designed to affirmatively demonstrate that the site meets one of the following findings based on the following specified criteria:

1. Recommend remedial action to mitigate risks that, in the judgment of the department, are a threat to human health or where failure to prevent migration of drycleaning solvents would cause irreversible damage to the environment;

2. Recommend additional groundwater monitoring to support

natural attenuation monitoring or long-term groundwater monitoring; or

3. Recommend "no further action," with or without institutional controls or institutional and engineering controls, for those sites that meet the "no further action" criteria department rules adopted pursuant to subsection (4).

If the site does not meet one of the findings specified in subparagraphs 1.-3., the department shall notify the property owner in writing of this decision, and the site shall be returned to its priority ranking order in accordance with its score.

(d) Advanced site assessment program tasks shall be assigned by the drycleaning solvent cleanup program. In addition to the provisions in paragraph (a), the assignment of site assessment tasks shall be based on the department's determination of contractor logistics, geographical considerations, and other criteria that the department determines are necessary to achieve the most cost-effective approach.

(e) Available funding for advanced site assessments may not exceed 10 percent of the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program.

(f) The total funds committed to any one site may not exceed $70,000.

(g) The department shall prioritize the requests for advanced site assessment, based on the date of receipt and the environmental and economic value to the state, until 10 percent of the annual Water Quality Assurance Trust Fund appropriation,

as provided in paragraph (e), has been obligated.

Section 4. Paragraph (f) of subsection (2) of section 220.1845, Florida Statutes, is amended to read:

220.1845 Contaminated site rehabilitation tax credit.—

(2) AUTHORIZATION FOR TAX CREDIT; LIMITATIONS.—

(f) The total amount of the tax credits which may be granted under this section is $21.6 million in the 2015-2016 fiscal year, ~~and~~ $5 million in the 2016-2017 fiscal year, and $10 million annually thereafter.

Section 5. Subsection 4 of section 376.30781, Florida Statutes, is amended to read:

376.30781 Tax credits for rehabilitation of drycleaning-solvent-contaminated sites and brownfield sites in designated brownfield areas; application process; rulemaking authority; revocation authority.—

(4) The Department of Environmental Protection is responsible for allocating the tax credits provided for in s. 220.1845, which may not exceed a total of $21.6 million in tax credits in the 2015-2016 fiscal year, ~~and~~ $5 million in tax credits in the 2016-2017 fiscal year, and $10 million in tax credits annually thereafter.

Section 6. This act shall take effect July 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1018
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on the Environment and Natural Resources); Environmental Preservation and Conservation Committee; and Senators Grimsley and Galvano
SUBJECT:	Contaminated Site Cleanup
DATE:	April 26, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Mitchell	Rogers	EP	**Fav/CS**
2.	Reagan	Betta	AEN	**Recommend: Fav/CS**
3.	Reagan	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1018 creates the Public Notice of Pollution Act. The bill defines a reportable pollution release as a release to the air, land, or water that is discovered by the owner or operator of an installation, is not authorized by law, and is:

- Reportable to the State Watch Office;
- Reportable to the Department of Environmental Protection (DEP) or a contracted county pursuant to rules governing storage tank systems;
- Reportable to the DEP pursuant to rules governing underground injection control systems;
- A hazardous substance; or
- An extremely hazardous substance.

The owner or operator of any installation where a reportable pollution release occurs must provide a notice of the release to the DEP. The notice must be submitted to the DEP within 24 hours after discovery of the reportable pollution release and must contain detailed information described in the bill about the installation, the substance, and the circumstances surrounding the release. The bill also requires additional notice to the DEP if a release migrates outside the property boundaries of the installation.

The bill requires the DEP to publish each notice to the Internet within 24 hours after the DEP receives it. The DEP must also create a system for electronic mailing that allows interested

parties to subscribe to and receive direct announcements of notices received by the DEP. The DEP must establish an email address and an online form so that installation owners and operators are able to submit a notice of a reportable pollution release electronically. The bill provides that submitting a notice of a reportable pollution release does not constitute an admission of liability or harm. Finally, the bill provides for $10,000 per day in civil penalties for violations of these notice requirements and authorizes the DEP to adopt rules to administer these provisions.

The bill provides for the advancement ahead of priority ranking for the rehabilitation of individual petroleum contaminated sites proposed for redevelopment; the elimination of the 25 percent cost-share requirement for the advanced cleanup of such sites; a $5 million increase in the annual funding available to the Department of Environmental Protection (DEP) for petroleum rehabilitation advance cleanup work; advanced site assessments for certain sites contaminated with drycleaning solvents; and a $5 million increase in the amount of annual voluntary cleanup tax credit funding DEP is authorized to allocate.

The bill increases expenditures from the Inland Protection Trust Fund by $5 million annually. The bill will reduce revenues deposited into the General Revenue Fund by $5 million annually based on a higher volume of tax credits. The DEP will incur minimal costs as a result of the newly established reporting requirements and initiation of the rule making process for pollution events.

II. Present Situation:

Public Notice

Many commercial, industrial, agricultural, and utility operations and entities are required to report various releases, discharges, or emissions as a condition of permitted operations or pursuant to law or rule. Under state law, to the extent notification is required, it typically must be made to the Department of Environmental Protection (DEP).[1] In some cases, notice to the DEP is provided to the State Watch Office, an emergency communications center in the Division of Emergency Management. The State Watch Office, also known as the State Warning Point, serves as Florida's primary point of contact for a wide variety of both natural and man-made emergencies. It serves as the contact point in Florida for communications between local governments and emergency agencies of both the state and federal governments and also provides emergency information to newspapers and radio and television stations.[2] Examples of notification to the State Watch Office include DEP rule requirements for notification of petroleum discharges,[3] wastewater discharges,[4] and releases of hazardous substances,[5] and a DEP statutory and rule requirement for notification of a discharge of drycleaning solvents.[6] Requirements to notify the State Watch Office may also appear in DEP orders, permits, or variances, if required or authorized.

[5] Fla. Admin. Code R. 62-150.300.
[6] Section 376.3078(9)(c) and Fla Admin. Code R. 62-780.210(2).

Notifications directly to the DEP or a county under contract with the DEP to perform compliance verification activities are required for certain releases or discharges of pollutants, including petroleum products, pesticides, ammonia, chlorine, hazardous substances, and specified mineral acids from underground or aboveground storage tanks.[7] Notification is also required to be made to the DEP of any noncompliance with an underground injection control permit that may endanger health or the environment.[8] Requirements for notifications of the release of hazardous substances in DEP rule define "hazardous substance" and "extremely hazardous substance" by referencing definitions in federal regulations.[9] Those federal regulations contain extensive lists of substances defined as hazardous substances and extremely hazardous substances.[10] In certain circumstances, statutes and rules require the owner or operator of an installation to directly notify a local government or the public of actions taken or conditions or occurrences at installations.[11]

At present, there is no comprehensive notice requirement that all releases of substances be reported under state law. There is also no requirement in current law that all such reporting be accessible to the public.

Public Notice Rule

In response to recent pollution incidents, the DEP initiated rulemaking in 2016 to establish a requirement for notification of releases of pollution from installations throughout the state. On September 27, 2016, the DEP published an emergency rule. The following day, the DEP published a notice of proposed rule with the same language. The emergency rule was in effect during the development of the proposed rule. The proposed rule would have:

- Required owners and operators of installations[12] to provide a notification of pollution within 24 hours of the incident resulting in the pollution or the discovery of the pollution to:
  - The DEP;
  - Local government officials; and
  - The general public.[13] Notification to the general public under the proposed rule would have required an owner or operator to provide notice of the pollution to local broadcast television affiliates and a newspaper of general circulation in the area of the contamination.
- Required further notifications by owners and operators of installations on the status of the pollution.
- Provided that failure to give a notification of pollution subjected an owner or operator to statutory penalties of up to $10,000 per day.[14]

[12] An installation is defined in s. 403.031(4), F.S., as "any structure, equipment, or facility, or appurtenances thereto, or operation which may emit air or water contaminants in quantities prohibited by rules of the department."
[13] Proposed Rule 62-4.161, Florida Administrative Register Vol. 42/No. 189.
[14] *Id.*

Following publication of the proposed rule, the DEP received three written proposals for a lower cost regulatory alternative (LCRA) to the rule. The DEP prepared a statement of estimated regulatory costs (SERC) for the rule in response to the proposed LCRAs, as required by s. 120.541(1), F.S.[15] In the SERC, the DEP estimated regulatory costs of $182,000 per year, a calculation based on the number of notifications made under the newly-minted emergency rule. The LCRAs proposed that the rule be altered to require the DEP to provide notification to local government officials and the general public and that notification requirements under the rule be loosened. The DEP rejected the proposals because it determined that installations in compliance with law would have no costs under the rule and other proposals were inconsistent with the intent of the rule.[16]

A notice of change for the proposed rule was published on November 15, 2016. In the change notice, the DEP altered the proposed rule by expanding and clarifying the operation of the notice requirement. The DEP added the following:

- An intent section.
- A reportable release as the trigger for the requirement to provide notice; reportable release defined in the rule as a release of a substance not authorized by law which is discovered by an owner or operator after the effective date of the rule and which is:
  - Reportable to the State Watch Office or to the DEP or a county administering a DEP program under certain rules; or
  - A hazardous or extremely hazardous substance at or above quantities established in certain federal regulations.
- Specific information that must be contained in the notice and the manner the notice must be submitted to various parties.
- Language providing that as long as one party provides notice in compliance with the rule, then other parties are not required to provide notice for the same reportable release.[17]

Rule Challenge

On November 18, 2016, several commercial associations filed an administrative challenge to the proposed rule in *Associated Industries of Florida, Inc. et al. v. Department of Environmental Protection*.[18] The petitioners argued that the rule violated statutory requirements and was invalid on four grounds:

- The DEP materially failed to follow the applicable rulemaking procedures and requirements;
- The DEP exceeded its grant of rulemaking authority;
- The proposed rule enlarges, modifies, or contravenes the specific provisions of law implemented; and
- The proposed rule imposes regulatory costs on the regulated person, county, or city, which could be reduced by the adoption of less costly alternatives that substantially accomplish the statutory objectives.[19]

[15] Statement of Estimated Regulatory Costs, Proposed Rule 62-4.161, *available at* http://dep.state.fl.us/pollutionnotice/SERC%20for%20Rule%2062-4.161%20w%20attachments.pdf.

[17] Notice of Change for Proposed Rule 62-4.161, Florida Administrative Register Vol. 42/No. 222.
[18] Case No. 16-6889RP (Fla. DOAH 2016).
[19] Section 120.52(8), F.S.

On December 30, 2016, the administrative law judge (ALJ) entered a final order, holding that the DEP lacked the rulemaking authority for the proposed rule. The final order concluded that the authorities cited by the DEP as providing it with the statutory authority to adopt the rule are general grants of authority and not specific enough to authorize the DEP to require that owners and operators of installations provide notices to local governments, the general public, and broadcast media.[20] The ALJ also found that the proposed rule enlarges the provisions of law implemented because the statutory provisions cited by the DEP did not contain specific language regarding reporting requirements for the release of contaminants. The ALJ concluded that the proposed rule was an invalid exercise of delegated legislative authority, affirming the petitioners' grounds for challenging the rule.[21] The ALJ did not evaluate the issue of whether the LCRAs were properly rejected by the DEP because he deemed the rule invalid on other grounds.[22]

The DEP has not appealed the final order. The rule, therefore, is invalid because there is insufficient statutory authority for the DEP to adopt this notice of pollution requirement by rule. Immediately following the invalidation of the DEP's proposed rule, the department began providing links on its website regarding notices of releases it receives from permitted and non-permitted facilities throughout the state.[23] The DEP continues to maintain an email list for those who want to subscribe to notices of pollution releases.[24] Upon its receipt of a notice of pollution from an installation, the DEP sends it to email list subscribers, local governments, and media outlets,[25] fulfilling the function the proposed rule had required of owners and operators of installations for the subset of all releases that are required to be reported to the DEP under current law.

Petroleum Restoration Program

Petroleum is stored in thousands of underground and aboveground storage tank systems throughout Florida. Releases of petroleum into the environment may occur as a result of accidental spills, storage tank system leaks, or poor maintenance practices.[26] These discharges pose a significant threat to groundwater quality, and Florida relies on groundwater for 90 percent of its drinking water.[27] The identification and cleanup of petroleum contamination is particularly challenging due to Florida's diverse geology, diverse water systems, and the complex dynamics between contaminants and the environment.[28]

In 1983, Florida began enacting legislation to regulate underground and aboveground storage tank systems in an effort to protect Florida's groundwater from past and future petroleum releases.[29] The Department of Environmental Protection (DEP) is responsible for regulating these storage tank systems. In 1986, the Legislature enacted the State Underground Petroleum Environmental Response Act (SUPER Act) to address the pollution problems caused by leaking underground petroleum storage systems.[30] The SUPER Act authorized the department to establish criteria for the prioritization, assessment and cleanup, and reimbursement for cleanup of contaminated areas, which led to the creation of the Petroleum Restoration Program (Restoration Program). The Restoration Program establishes the requirements and procedures for cleaning up contaminated land as well as the circumstances under which the state will pay for the cleanup.

Abandoned Tank Restoration Program

In 1990, the legislature established the Abandoned Tank Restoration Program (ATRP). The ATRP was created to address the contamination at facilities that had out-of-service or abandoned tanks as of March 1990. The ATRP originally had a one-year application period, but the deadline was subsequently extended to 1992, then 1994. In 1996, the legislature waived the deadline indefinitely for owners who are unable to pay for the closure of abandoned tanks. To be eligible for the ATRP, applicants must certify that the petroleum system has not stored petroleum products for consumption, use, or sale since March 1, 1990.[31] In 2016, the legislature eliminated the June 30, 1996 application deadline.[32]

Site Rehabilitation

Florida law requires land contaminated by petroleum to be cleaned up, or rehabilitated, so that the concentration of each contaminant in the ground is below a certain level.[33] These levels are known as Cleanup Target Levels (CTLs).[34] Once the CTLs for a contaminated site[35] has been attained, rehabilitation is complete and the site may be closed. When a site is closed, no further cleanup action is required unless the contaminant levels increase above the CTLs or another discharge occurs.[36]

State Funding Assistance for Rehabilitation

In 2012, the average cost to rehabilitate a site was approximately $400,000, but some sites may cost millions of dollars to rehabilitate.[37] Under Florida law, an owner of contaminated land (site

[35] A "site" is any contiguous land, sediment, surface water, or groundwater area upon or into which a discharge of petroleum or petroleum products has occurred or for which evidence exists that such a discharge has occurred. The site is the full extent of the contamination, regardless of property boundaries.
[36] Florida Department of Environmental Protection, Division of Waste Management, *Petroleum Contamination Cleanup and Discharge Prevention Programs* (2012), http://www.dep.state.fl.us/waste/quick_topics/publications/pss/pcp/geninfo/2012Program_Briefing_11Jan12.pdf.
[37] *Id*.

owner) is responsible for rehabilitating the land unless the site owner can show that the contamination resulted from the activities of a previous owner or other third party (responsible party), who is then responsible.[38] Over the years, different eligibility programs have been implemented to provide state financial assistance to certain site owners and responsible parties for site rehabilitation.

To receive rehabilitation funding assistance, a site must qualify under one of these programs, which are outlined in the following table:

Table 1: State Assisted Petroleum Cleanup Eligibility Programs

Program Name	Program Dates	Program Description
Early Detection Incentive Program (EDI) (s. 376.30371(9), F.S.)	Discharges must have been reported between July 1, 1986, and December 31, 1988, to be eligible	• First state-assisted cleanup program • 100 percent state funding for cleanup if site owners reported releases • Originally gave site owners the option of conducting cleanup themselves and receiving reimbursement from the state or having the state conduct the cleanup in priority order • Reimbursement option was phased out, so all cleanups are now conducted by the state
Petroleum Liability and Restoration Insurance Program (PLRIP) (s. 376.3072, F.S.)	Discharges must have been reported between January 1, 1989, and December 31, 1998, to be eligible	• Required facilities to purchase third party liability insurance to be eligible • Provides varying amounts of state-funded site restoration coverage
Abandoned Tank Restoration Program (ATRP) (s. 376.305(6), F.S.)	For petroleum storage systems that have not stored petroleum since March 1, 1990[39]	Provides 100 percent state funding for cleanup, less deductible, at facilities that had out-of-service or abandoned tanks as of March 1990
Innocent Victim Petroleum Storage System Restoration Program (s. 376.30715, F.S.)	The application period began on July 1, 2005, and remains open	Provides 100 percent state funding for a site acquired before July 1, 1990, that ceased operating as a petroleum storage or retail business before January 1, 1985
Petroleum Cleanup Participation Program (PCPP) (s. 376.3071(13), F.S.)	Remains open	• Created to provide financial assistance for sites that had missed all previous opportunities • Only discharges that occurred before 1995 were eligible • Site owner or responsible party must pay 25 percent of cleanup costs[40] • Originally had a $300,000 cap on the amount of coverage, which was raised to $400,000 beginning July 1, 2008

[38] Section 376.308, F.S.
[39] The ATRP originally had a one-year application period, but the deadline was extended. The deadline is now waived indefinitely for site owners who are financially unable to pay for the closure of abandoned tanks. Section 376.305(6)(b), F.S.
[40] The 25 percent copay requirement can be reduced or eliminated if the site owner and all responsible parties demonstrate that they are financially unable to comply. Section 376.3071(13)(c), F.S.

Table 1: State Assisted Petroleum Cleanup Eligibility Programs		
Program Name	**Program Dates**	**Program Description**
Consent Order (aka "Hardship" or "Indigent") (s. 376.3071(7)(c), F.S.)	The program began in 1986 and remains open	• Created to provide financial assistance under certain circumstances for sites that the Department initiates an enforcement action to clean up • An agreement is formed whereby the Department conducts the cleanup and the site owner or responsible party pays for a portion of the costs

As of October 2015, there are 19,128 sites eligible for state funding through one of the above programs.[41] Of these, approximately 8,603 have been rehabilitated and closed, approximately 5,576 are currently undergoing some phase of rehabilitation, and approximately 4,949 await rehabilitation. [42]

Inland Protection Trust Fund

To fund the cleanup of contaminated sites, the SUPER Act created the Inland Protection Trust Fund (IPTF).[43] The IPTF is funded by an excise tax per barrel on petroleum and petroleum products in or imported into the state.[44] The amount of the excise tax per barrel is determined by a formula, which is dependent upon the unobligated balance of the IPTF.[45] Each year, approximately $200 million from the excise tax is deposited into the IPTF to fund restoration of petroleum contaminated sites.[46] At present, the excise tax is 80 cents per barrel.[47]

Funding for rehabilitation of a site is based on a relative risk scoring system. Each funding-eligible site receives a numeric score based on the threat the site contamination poses to the environment or to human health, safety, or welfare.[48] Sites currently in the Restoration Program range in score from 5 to 115 points, with a score of 115 representing a substantial threat and a score of 5 representing a very low threat.[49] Sites are rehabilitated in priority order beginning with the highest score, with funding based on available budget.[50] The department sets the priority score funding threshold, which is the minimum score a site must be assigned to receive restoration funding at a particular point in time.[51]

Expediting Site Rehabilitation

Eligible contaminated sites typically receive state rehabilitation funding in priority order based on their numeric score. However, there are some programs that allow sites to receive funding for rehabilitation or site closure out of priority score order, as long as the sites are eligible under one of the programs in Table 1. Two of these programs are Advanced Cleanup and Low Scored Site Initiative.

Advanced Cleanup

The advanced cleanup (formerly known as Preapproved Advanced Cleanup) of petroleum contaminated sites was begun in 1996 to allow an eligible petroleum contamination site to receive state rehabilitation funding even if the site's priority score did not fall within the threshold currently being funded.[52] The purpose of creating the advanced cleanup process was to facilitate property transactions and public works projects on contaminated sites.[53] To obtain authorization for advanced cleanup, a site must be eligible for state restoration funding under the Early Detection Incentive Program (EDI), the Petroleum Liability and Restoration Insurance Program (PLRIP), or the Abandoned Tank Restoration Program (ATRP).[54]

Advanced cleanup is also available for discharges eligible for restoration funding under the Petroleum Cleanup Participation Program (PCPP) for the state's cost share of site rehabilitation.[55] An application for advanced cleanup for a discharge eligible under PCPP must include a cost-sharing commitment for funding under the advanced cleanup criteria in addition to the 25 percent copayment requirement of the PCPP.

To apply for advanced cleanup of petroleum contamination, a facility owner or operator or the person otherwise responsible for site rehabilitation must submit an advanced cleanup application between May 1 and June 30, for the fiscal year beginning July 1, or between November 1 and December 31. The application must consist of:

- A commitment to pay 25 percent or more of the total cleanup cost deemed recoverable along with proof of the ability to pay the cost share. Applications submitted for cleanup may be submitted in one of two formats to meet the cost-share requirement:
  - The applicant may use a commitment to pay, a demonstrated cost savings to DEP, or both to meet the requirement; or
  - For an application relying on a demonstrated cost savings to the DEP, the applicant shall, in conjunction with the proposed agency term contractor, establish and provide in the application a 25 percent cost savings[56] to the DEP for cleanup of the site under the application compared to the cost of cleanup of the same site using the current rates provide to the DEP by the proposed agency term contractor. The DEP shall determine whether the cost savings demonstration is acceptable.

[52] Section 376.30713(1), F.S.
[53] *Id.*
[54] Section 376.30713(1)(d), F.S.
[55] For PCPP sites, Advanced Cleanup is only available for discharge cleanup if the 25 percent copay requirement of PCPP has not been reduced or eliminated pursuant to s. 376.3071(13)(d). s. 376.30713(1)(d), F.S.
[56] For aggregate applications of five sites or more the percentage is not specified.

- A nonrefundable review fee of $250 to cover the DEP's administrative costs to review the application;
- A limited contamination assessment report;
- A proposed course of action; and
- A DEP site access agreement, or similar agreement.

The DEP ranks applications based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant who proposes the highest percentage of cost sharing. In some circumstances where applicants propose the same percentage of cost sharing and funds are not available to commit to all of such proposals, applicants may raise their individual cost share commitments and the DEP will rerank the applications.[57]

The DEP negotiates with applicants based on the DEP's rankings. If the DEP and an applicant agree on the course of action, the DEP may enter into a contract with the applicant and negotiate the terms and conditions of the contract. Advanced cleanup must be conducted pursuant to requirements of the Inland Protection Trust Fund and the DEP rule. If the terms of the advanced cleanup contract are not fulfilled, the applicant forfeits any right to future payment for any site rehabilitation work conducted under the contract.[58]

The DEP may enter into contracts for a total of up to $25 million of advanced cleanup work in each fiscal year.[59] All funds collected by the DEP pursuant contracts for advanced cleanup work must be deposited into the Inland Protection Trust Fund to be used in the advanced cleanup of petroleum contaminated sites.[60]

Low Scored Site Initiative

The Low Scored Site Initiative (LSSI) was created to expedite the assessment and closure of sites that contain minimal contamination and that are not a threat to human health or the environment. Low scored sites have a priority ranking score of 29 points or less.[61] These sites are eligible for state funds of up to $70,000 each for assessment and limited remediation. The DEP may not encumber more than $15 million for LSSI in any fiscal year.[62]

Drycleaning Solvent Cleanup Program

The Florida Legislature has established a state-funded program to cleanup properties that are contaminated as a result of operations of a drycleaning facility or wholesale supply facility (Ch. 376, F.S.). The program is administered by the DEP. The legislation was supported by the drycleaning industry to address environmental, economic, and liability issues resulting from drycleaning solvent contamination. The program limits the liability of the owner, operator and

[62] *Id.*

real property owner of drycleaning or wholesale supply facilities for cleanup of drycleaning solvent contamination if the parties meet the conditions stated in the law.[63]

Funding: Taxes and Fees

A fund has been established to pay for costs related to the cleanup of these properties. The source of revenue for the fund is a gross receipts sales tax, a tax on perchloroethylene sold to or imported by a drycleaning facility, and annual registration fees.[64]

Program Application

The application period for entry into the Drycleaning Solvent Cleanup Program ended December 31, 1998. Applications to the Drycleaning Solvent Cleanup Program are no longer being accepted.[65]

Eligibility and Priority Ranking

Section 376.3078(3), F.S., identifies certain criteria that must be met in order for a site to be eligible, and to remain eligible, for the program. Eligibility in this program does not relieve the owner, operator, or real property owner from federal actions or from current waste management requirements. The score that the site receives determines the order in which the DEP will begin site rehabilitation activities. For eligible sites, costs incurred by the state for site rehabilitation will be absorbed at the expense of the fund minus a deductible amount as specified in the law.[66]

Scoring System

The DEP uses a scoring system to rank and prioritize eligible sites for rehabilitation. Sites are assigned points based upon statutory point values for each site's characteristics.[67] The DEP has developed a priority list of sites for rehabilitation based upon the scoring system, with ranking commensurate with the size of a site's score.[68] Regardless of scoring, however, any site having a condition that exhibits a fire or explosion hazard is highest priority for rehabilitation. The following site characteristics are assigned points in the scoring system:

- The threat the site poses to drinking water supplies based on;
  - The size of the largest uncontaminated public water supply well located within one mile of the site;
  - The size of the largest uncontaminated private drinking water well located within one mile of the site;
  - The size of the largest contaminated public water supply well located within one mile of the site;
  - The size of the largest contaminated private drinking water well located within one mile of the site;
  - The proximity of both uncontaminated and contaminated water wells to the site;

[67] Section 376.3078(7), F.S.
[68] Section 376.3078(8), F.S.

- The vulnerability of groundwater to contamination from the site;
- The Aquifer Classification for the aquifer area where the site is located;
- The concentrations of chlorinated drycleaning solvents in the soil of the site; and
- The location of the site if it is within:
  - One half mile of an uncontaminated surface water body used as a permitted public water system;
  - One half mile of an Outstanding Florida Water body;
  - One quarter mile of a surface water body; or
  - One quarter mile of an area of critical state concern.

Scored sites are incorporated into the priority list on a quarterly basis with the ranking of all sites adjusted accordingly. Assignments for program tasks to be conducted by state contractors are made according to the current priority list and based on criteria the DEP determines is necessary to achieve cost-effective site rehabilitation. Regardless of the score of a site, the DEP may initiate emergency action for those sites that are a threat to human health and safety, or where failure to prevent migration of drycleaning solvents would cause irreversible damage to the environment.[69]

Contaminated Site Cleanup Criteria

The DEP rules establish criteria for the purpose of determining, on a site-specific basis, a site rehabilitation program and the level at which a site rehabilitation program may be deemed completed. These rules incorporate to the maximum extent feasible, risk-based corrective action principles to achieve protection of human health and safety and the environment in a cost-effective manner.[70] For site rehabilitation to reach a status of site closure or "no further action," often appropriate institutional controls must be agreed to by the owner and applicant and implemented for the site. Institutional controls are the restrictions on use of, or access to, a site such as deed restrictions, restrictive covenants, or conservation easements to eliminate or minimize exposure to petroleum products' chemicals of concern, drycleaning solvents, or other contaminants.[71]

Average Costs and Budget Projections

The cost for cleanup at a site varies greatly depending on the extent of contamination. Typically, sites that transition quickly from assessment to no further action (closure), have lower average costs than sites that remain in the cleanup process. The below chart includes the average costs per phase of cleanup for no further action (closed) sites, and the average costs per phase for sites that are still undergoing cleanup (active) sites. This provides the range in costs associated with closed and active sites.

[69] Section 376.3078(7) and (8), F.S.
[70] Fla. Admin. Code Ch. 62-780.
[71] Section 376.301(22), F.S.

Phase of Cleanup	Assessment	Design	Remedial Action	Operation & Maintenance	Monitoring	Interim Remedial Measure	Total Average Cost
Closed Sites	$96,038	$20,516	$98,817	$84,160	$31,347	$59,954	$184,469
Active Sites	$147,211	$55,598	$257,120	$212,836	$49,390	$86,511	$578,605

Annual budget projections require the Drycleaning Solvent Cleanup Program to track average costs associated with each phase of cleanup, and to anticipate the number of sites that will transition from one phase of cleanup to the next. Based on a dataset of 322 sites, where the remedy has been selected or the site has been closed, approximately 72 percent of all sites will require active remediation to reach closure, 10 percent will require monitoring only to reach closure, and 18 percent will meet the requirements for no further action following the site assessment. The average cost for site closure will depend on the type of closure achieved (active remediation, monitoring only, or no further action), as shown below.[72]

Sites Issued a Site Rehabilitation Completion Order (Closure) following:	Average Cost
Active Remediation	$306,462
Monitoring Only	$138,308
No Further Action	$62,419

The Brownfields Redevelopment Act

The term "brownfield" was originally coined in the 1970s and referred to any previously developed property, regardless of any contamination issues. The term, as it is currently used, is defined by the U.S. Environmental Protection Agency (EPA) as, "real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant."[73] In 1995, the EPA created the Brownfields Program in order to manage contaminated property through site remediation and redevelopment. The program was designed to provide local communities access to federal funds allocated for redevelopment, including environmental assessments and cleanups, environmental health studies, and environmental training programs.[74]

[72] Email message dated March 12, 2017, from Wayne Kiger, Director's Office, Division of Waste Management, Florida Department of Environmental Protection (on file with the Senate Committee on Environmental Preservation and Conservation).

[74] The Florida Brownfields Association, Brownfields 101 2, *available at* http://c.ymcdn.com/sites/www.floridabrownfields.org/resource/resmgr/imported/Brownfields101.pdf (last visited March 10, 2017).

In 1997, the Florida Legislature enacted the Brownfields Redevelopment Act (Act).[75] The Act provides financial and regulatory incentives to encourage voluntary remediation and redevelopment of brownfield sites in order to improve public health and reduce environmental hazards.[76] The Act provides liability protection for program participants who have not caused or contributed to the contamination of a brownfield site on or after July 1, 1997.[77]

Voluntary Cleanup Tax Credits

In 1998, the Florida Legislature established the Voluntary Cleanup Tax Credit (VCTC) Program to provide an incentive for the voluntary cleanup of drycleaning solvent-contaminated sites and brownfield sites in designated brownfield areas (s. 376.30781, F.S.). At these sites, a tax credit of 50 percent is allowed for the cost of voluntary cleanup activity that is integral to site rehabilitation, with a maximum of $500,000 per site per year. Additionally, at brownfield sites in designated brownfield areas, a one-time 50 percent tax credit is allowed for solid waste removal, with a maximum of $500,000 per site. Tax credits may be applied to state corporate income tax. Effective July 1, 2011, the Legislature increased the annual tax credit authorization from $2 million to $5 million. The VCTC Program has approved $66,875,735 in tax credits since it began. However, approved applications must wait until sufficient credits exist to claim them.[78]

Effective July 1, 2015, the Legislature approved a one-time VCTC authorization of $21.6 million. This authorization was only effective through June 30, 2016. On July 1, 2016, the annual VCTC authorization returned to $5 million per year.[79] The additional authorization allowed DEP to issue certificates for all approved tax credits, eliminating the backlog.[80]

The Brownfields and VCTC Programs have been successful in promoting the cleanup and redevelopment of contaminated, underutilized properties. The one-time increase in the annual authorized VCTC funding level addressed all approved tax credits through June 30, 2015. However, as shown in the figure below, since 2007, the approved tax credits have exceeded the available authorization, and since 2012, the approved tax credits have averaged more than $8.3 million per year. If the dollar amount of future tax credit applications remains consistent with the previous five years, the backlog for un-issued tax credits will continue to grow. As of the issuance of the August 2016 Brownfields Redevelopment Program Report, DEP anticipated, with the $5 million authorization available July 1, 2016, it will issue tax credit certificates to 33 of the 99 applicants for 2015 expenditures. Sixty-four applicants will receive their tax credits in July 2017 and nine applicants will receive their tax credits in July 2018.[81]

III. Effect of Proposed Changes:

Public Notice of Pollution Act

Section 1 creates the Public Notice of Pollution Act.

Section 2 sets forth goals and findings related to notifying the public about reportable releases. It defines a reportable pollution release as a release to the air, land, or water that is discovered by the owner or operator of an installation, is not authorized by law, and is:

- Reportable to the State Watch Office pursuant to the Department of Environmental Protection (DEP) rule, permit, order, or variance;
- Reportable to the DEP or a contracted county pursuant to rules governing storage tank systems;
- Reportable to the DEP pursuant to rules requiring notice for noncompliance from underground injection control systems where such noncompliance:
  - May endanger public health or the environment; and
  - Has the potential to contaminate potable water wells outside the property boundaries of the installation;
- A hazardous substance as defined in statute at or above quantities established in federal regulations; or
- An extremely hazardous substance as defined in federal regulations.

Section 3 requires the owner or operator of an installation at which a reportable pollution release occurs to provide a notice to the DEP within 24 hours after discovery of a reportable pollution release. The notice must include:

- The name and address of the installation where the reportable pollution release occurred.
- The name and title of the reporting person and the nature of his or her relationship to the installation.
- The identification number for any active DEP permits, variances, registrations, or orders that are relevant to the reportable pollution release.
- The name and telephone number of a contact person for further information.
- The substance released.
- The estimated quantity of the substance released and, if applicable, the estimated quantity that has since been recovered.
- The cause of the release.
- The source of the release.
- The location of the release.
- The date, time, and duration of the release.
- The medium into which the substance was released, such as, but not limited to, the outdoor air, land, groundwater, aquifer, or specified waters or wetlands.
- Whether the released substance has migrated to land or waters of the state outside the property boundaries of the installation and the location of such migration.
- To the extent available, toxicological information associated with the substance released as specified on a safety data sheet or comparable source published by the Occupational Safety and Health Administration or the Centers for Disease Control and Prevention, or their successor agencies.
- Other information to assist in the protection of the public health, safety, and welfare, at the discretion of the owner or operator.

Section 3 also requires that an additional notice be provided to the DEP if, after submitting the initial notice, the owner or operator determines that a release has migrated outside the property boundaries of the installation. Such additional notice must be given within 24 hours of discovery of the migration and must provide all of the information required in an initial notice and specify the extent of the migration.

A notification of a reportable pollution release made by a party in accordance with statutory requirements constitutes compliance on behalf of all parties subject to the notice requirement for that reportable pollution release. However, if the notification is not made in accordance with statutory requirements, the DEP may pursue enforcement against all parties subject to the notice requirement. After providing a notice of a reportable pollution release, an installation owner or operator may submit a letter to the DEP documenting additional information if an amendment to the notice is warranted or the owner or operator has determined that a reportable pollution release did not, in fact, occur.

The DEP must publish, on a website accessible to the public, all notices submitted by an owner or operator within 24 hours of receipt by the department. The DEP must also create an electronic mailing list for notices and allow the public, including local governments, health departments, news media, and other interested persons, to subscribe to and receive periodic direct announcements of any reportable pollution release notices submitted. The DEP must establish regional electronic mailing lists, such as by county or district boundaries, to allow subscribers to determine the notices they wish to receive by geographic area. The DEP must also establish an

e-mail address and an online form as options for owners and operators to provide notices of reportable pollution release.

Section 3 provides that a reportable pollution release notice provided by an owner or operator to the DEP does not constitute an admission of liability or harm. **Sections 3 and 4** provide that the owner or operator of an installation is subject to civil penalties of up to $10,000 per day for each day the owner or operator is in violation of the requirement to provide notification of a reportable pollution release. **Section 3** authorizes the DEP to adopt rules to administer these provisions.

Advanced Cleanup - Property Redevelopment

Section 5 amends s. 376.3071, F.S., to provide an exception from penalties for prompt payment to subcontractors pursuant to s. 287.0585, F.S. **Section 5** provides that the contractor may remit payment to the subcontractor within 30 working days after the contractor receives payment from the DEP. If the payments are made within this timeframe the penalties do not apply.

Section 6 amends s. 376.30713, F.S., to add legislative findings regarding the rehabilitation of a site contaminated by discharges of petroleum or petroleum products in advance of its priority ranking. The section contains findings that the inability to advance a site's priority ranking may substantially impede or prohibit property redevelopment and that it is in the public interest and of substantial economic benefit to the state to advance site rehabilitation on a limited basis in order to encourage property redevelopment.

The section creates a separate procedure and criteria for the advancement ahead of its priority ranking of an individual contamination site slated for property redevelopment. The submittal of advanced cleanup applications for such sites are not limited to the two annual application periods from May 1 through June 30 and from November 1 through December 31, as are all other advanced cleanup applications, but are instead accepted on a first-come, first-served basis. Applicants for the advanced cleanup of individual contamination sites slated for redevelopment are also not subject to the 25 percent cost share copayment commitment required of other advanced cleanup applicants provided they demonstrate, as deemed acceptable by the Department of Environmental Protection (DEP), that the following have been included in their applications for cleanup:

- A nonrefundable review fee of $250 for DEP's administrative cost;
- A limited contamination assessment report which is sufficient to support the course of action;
- A proposed course of action for site cleanup;
- A DEP approved agreement with the property owners for site cleanup if the applicant is not the owner;
- Certification to the DEP that the applicant has the authority to enter into an advanced site cleanup contract with the DEP;
- Documentation from the local government having jurisdiction that states that the local government is in agreement with or approves the redevelopment;
- A demonstrated reasonable assurance that the applicant has sufficient financial resources to implement and complete the redevelopment project.

Section 6 provides that site eligibility is not an entitlement to advanced cleanup funding or continued restoration funding.

Section 6 also increases the dollar amount of the contracts for advance cleanup work into which the DEP is authorized to enter from $25 million to a total of $30 million in each fiscal year. The DEP is authorized to designate up to $5 million of those funds for the advance cleanup of individual contaminated sites that meet the criteria in the bill for redevelopment. A single facility or applicant for advance cleanup of an individual contaminated site slated for redevelopment may not be approved for more than $1 million of cleanup activity per fiscal year.

Section 2 also provides the DEP with the right to terminate or amend the voluntary cost-share agreement with property owners or responsible parties if, the property owners or responsible parties are eligible to bundle multiple sites and fail to do so within three subsequent open application periods or 18 months, whichever is shorter.

Section 6 provides that the property owner or responsible party must agree to conduct limited site assessments within 12 months after execution of the voluntary cost-share agreement.

Advanced Site Assessment - Drycleaning

Section 7 amends s. 376.3078, F.S., to provide a finding that it is in the public interest and of substantial environmental and economic benefit to the state to conduct site assessments on a limited basis at sites contaminated with drycleaning solvents in advance of the priority ranking of contaminated sites.

The section provides that a property owner who is eligible for site rehabilitation under the drycleaning solvent cleanup program may request, and the DEP may authorize, an advanced site assessment if the following criteria are met:

- Information from the site assessment would be sufficient for the DEP to better evaluate the actual risk of the contamination, reducing the risk to public health and the environment;
- The property owner agrees to:
  - Implement the appropriate institutional controls at the time the owner requests the advanced site assessment; and
  - Upon completion of the cleanup, implement and maintain the required institutional controls, or a combination of institutional and engineering controls, when the site meets site rehabilitation criteria for closure with controls in accordance with the DEP rules for site rehabilitation;
- Current conditions at the site allow the site assessment to be conducted in a manner that will result in cost savings to the Water Quality Assurance Trust Fund;
- The annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program is sufficient to pay for the site assessment; and
- The property owner provides access to the site and has paid the appropriate deductible amount depending on when contamination was reported to the DEP as part of a completed application for the Drycleaning Contamination Cleanup Program to rehabilitate the drycleaning facility.

The section also provides that a site may be assessed out of priority ranking order at the DEP's discretion when the site assessment will provide a cost savings to the program.

The section requires an advanced site assessment under the drycleaning solvent cleanup program to incorporate risk-based corrective action principles to achieve protection of human health and safety and the environment in a cost-effective manner, in accordance with the DEP rules for site rehabilitation. The advanced site assessment must also be sufficient to estimate the cost of cleanup, the proposed course of action for site cleanup, and that the site is appropriate for one of the following:

- Remedial action at the site to mitigate risks that, in the judgment of the DEP, are a threat to human health or where failure to prevent migration of drycleaning solvents would cause irreversible damage to the environment;
- Additional groundwater monitoring at the site to support natural attenuation monitoring or long-term groundwater monitoring; or
- A recommendation of "no further action," with or without institutional controls or institutional and engineering controls, if the site meets the "no further action" criteria in accordance with the DEP rules for site rehabilitation.

If the site is not appropriate for one of these actions, it is not eligible for advanced site assessment. The DEP must notify the property owner in writing of this determination and return the site to the priority ranking order based on its priority score.

The section requires that advanced site assessment program tasks be assigned by the drycleaning solvent cleanup program. Task assignment must be based on:

- The potential for the development of new site assessment information to allow the DEP to better evaluate the actual risk of the contamination;
- Compatibility with appropriate institutional controls or a combination of institutional and engineering controls;
- The potential for cost savings to the Water Quality Assurance Trust Fund;
- The availability of funds from the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent program;
- The DEP's determination of contractor logistics;
- Geographical considerations; and
- Other criteria that the DEP determines are necessary to achieve the most cost-effective approach.

This section limits available funding for advanced site assessments to 10 percent of the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program. The total funds that may be committed to any one site are capped at $70,000. The DEP must prioritize requests for advanced site assessment at sites under the drycleaning solvent cleanup program based on the date of receipt and the environmental and economic value to the state until the available funding for advanced site assessments has been obligated.

Voluntary Cleanup Tax Credit (VCTC) Funding

Sections 8 and 9 amend ss. 220.1845 and 376.30781, F.S., respectively, to increase the annual cap on voluntary cleanup tax credits from $5 million to $10 million.[82]

[82] Sections 220.1845 and 376.30781, F.S.

The bill takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Not applicable.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Owners and operators of installations that use, produce, or contain substances listed by the Department of Environmental Protection (DEP) will likely incur some costs for gathering and reporting information regarding reportable pollution releases within 24 hours of discovery when such an event occurs.

The property redevelopment sections of this bill should have a positive fiscal impact on the private sector. Redevelopment of property will be encouraged by an additional $5 million available annually for petroleum contamination site rehabilitation for sites proposed for redevelopment. Also, an additional $5 million in funds will be available for voluntary cleanup through corporate income tax credits for the rehabilitation of dry-cleaning solvent contaminated sites or brownfield sites.

C. Government Sector Impact:

Installations owned or operated by governmental entities, including local governments, will likely incur some costs for gathering and reporting information regarding reportable pollution releases within 24 hours of discovery when such an event occurs.

The DEP also will likely incur some costs in promulgating rules to administer the provisions of the bill and in developing the website and electronic mailing lists required by the bill. The DEP currently has notifications and electronic mailing for other programs within the department and should have the ability to absorb the costs within existing resources.

The bill will have a $5 million recurring impact to the Inland Protection Trust Fund by increasing the total amount of contracts the DEP is authorized to approve for advanced cleanup work to $30 million annually. The bill will have a $5 million recurring impact to the General Revenue Fund by increasing the annual cap on the voluntary cleanup tax credits to $10 million.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 403.121, 376.30713, 376.3078, and 376.86.

This bill creates the following sections of the Florida Statutes: 403.076, 403.077, and 403.078.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The committee substitute:

- Amends s. 376.3071, F.S., to provide an exception from penalties for prompt payment to subcontractors pursuant to s. 287.0585, F.S. Provides that the contractor may remit payment to the subcontractor within 30 working days after the contractor receives payment from the Department of Environmental Protection (DEP). If the payments are made within this timeframe the penalties do not apply.
- Clarifies requirements for eligibility of advanced site cleanup applicants.
- Provides that site eligibility is not an entitlement to advanced cleanup funding or continued restoration funding.
- Creates the Public Notice of Pollution Act.
- Defines a reportable pollution release as a release to the air, land, or water that is discovered by the owner or operator of an installation, is not authorized by law, and is:
  - Reportable to the State Watch Office;
  - Reportable to the DEP or a contracted county pursuant to rules governing storage tank systems;
  - Reportable to the DEP pursuant to rules governing underground injection control systems;
  - A hazardous substance; or
  - An extremely hazardous substance.

- Requires the owner or operator of any installation where a reportable pollution release occurs to provide a notice of the release to the DEP. The notice must be submitted to the DEP within 24 hours after discovery of the reportable pollution release and must contain detailed information about the installation, the substance, and the circumstances surrounding the release.
- Requires the owner or operator to provide additional notice to the DEP if a release migrates outside the property boundaries of the installation.
- Requires the DEP to publish each notice to the Internet within 24 hours after the DEP receives it.
- Requires the DEP to create a system for electronic mailing that allows interested parties to subscribe to and receive direct announcements of notices received by the DEP.
- Requires the DEP to establish an email address and an online form so that installation owners and operators are able to submit a notice of a reportable pollution release electronically.
- Provides for $10,000 per day in civil penalties for violations of notice requirements and authorizes the DEP to adopt rules to administer these provisions.

CS by Environmental Preservation and Conservation on March 14, 2017:

- Removes unnecessary language that was inserted into the "emergency action" exception to the drycleaning rehabilitation scoring criteria. New subsection (14) in s. 376.308, F.S., already makes it clear that advance assessments are not subject to the scoring criteria.
- Increases the annual cap for the VCTC. The CS replaces the modification in the bill to the brownfield areas loan guaranty program, which had been intended to have the same practical effect.

B. Amendments:

None.

By the Committee on Environmental Preservation and Conservation; and Senator Grimsley

592-02440-17 20171018c1

A bill to be entitled

An act relating to contaminated site cleanup; amending s. 376.30713, F.S.; revising legislative findings; providing an exception to a requirement that an applicant for advanced cleanup demonstrate an ability to pay cost share; requiring that the Department of Environmental Protection determine whether specified requirements are acceptable under certain circumstances; providing that the application for the cleanup of individual redevelopment sites is not subject to certain application period limitations and cost-share provisions; specifying the application requirements for such sites; conforming provisions to changes made by the act; increasing the amount per year the department may use for advanced cleanup work; specifying expenditure limitations; amending s. 376.3078, F.S.; providing a statement of public interest; authorizing site assessments in advance of site priority ranking under certain circumstances; specifying criteria for sites to be eligible for such assessments; specifying what must be demonstrated through such assessments; specifying criteria for the assignment of assessment tasks; specifying funding limitations; specifying the prioritization of requests; amending s. 220.1845, F.S.; increasing the total amount of an authorization for tax credits; amending s. 376.30781, F.S.; increasing the total amount of tax credits the department is responsible for allocating; providing an effective date.

592-02440-17 20171018c1

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraphs (a) and (c) of subsection (1) and subsections (2) and (4) of section 376.30713, Florida Statutes, are amended to read:

376.30713 Advanced cleanup.—

(1) In addition to the legislative findings provided in s. 376.3071, the Legislature finds and declares:

(a) That the inability to conduct site rehabilitation in advance of a site's priority ranking pursuant to s. 376.3071(5)(a) may substantially impede or prohibit property redevelopment, property transactions, or the proper completion of public works projects.

(c) It is in the public interest and of substantial economic benefit to the state to provide an opportunity for site rehabilitation to be conducted on a limited basis at contaminated sites, in advance of the site's priority ranking, to encourage redevelopment and facilitate property transactions or public works projects.

(2) The department may approve an application for advanced cleanup at eligible sites, notwithstanding the site's priority ranking established pursuant to s. 376.3071(5)(a), pursuant to this section. Only the facility owner or operator or the person otherwise responsible for site rehabilitation qualifies as an applicant under this section.

(a) Advanced cleanup applications may be submitted between May 1 and June 30 and between November 1 and December 31 of each fiscal year. Applications submitted between May 1 and June 30

shall be for the fiscal year beginning July 1. An application must consist of:

1. A commitment to pay 25 percent or more of the total cleanup cost deemed recoverable under this section along with proof of the ability to pay the cost share or a demonstration that the applicant is in compliance with sub-sub-subparagraphs c.(I) and (II). The department shall determine whether the cost savings or compliance demonstration is acceptable. Such determination is not subject to chapter 120.

a. Applications for the aggregate cleanup of five or more sites may be submitted in one of two formats to meet the cost-share requirement:

(I) For an aggregate application proposing that the department enter into a performance-based contract, the applicant may use a commitment to pay, a demonstrated cost savings to the department, or both to meet the requirement.

(II) For an aggregate application relying on a demonstrated cost savings to the department, the applicant shall, in conjunction with the proposed agency term contractor, establish and provide in the application the percentage of cost savings in the aggregate that is being provided to the department for cleanup of the sites under the application compared to the cost of cleanup of those same sites using the current rates provided to the department by the proposed agency term contractor.

b. Applications for the cleanup of individual sites may be submitted in one of two formats to meet the cost-share requirement:

(I) For an individual application proposing that the department enter into a performance-based contract, the

applicant may use a commitment to pay, a demonstrated cost savings to the department, or both to meet the requirement.

(II) For an individual application relying on a demonstrated cost savings to the department, the applicant shall, in conjunction with the proposed agency term contractor, establish and provide in the application a 25-percent cost savings to the department for cleanup of the site under the application compared to the cost of cleanup of the same site using the current rates provided to the department by the proposed agency term contractor.

c. Applications for the cleanup of individual redevelopment sites are not subject to the application period limitations specified in paragraph (a) or to the cost-share provisions in paragraph (1)(d) and are accepted on a first-come, first-served basis. Applications for the cleanup of individual redevelopment sites must include:

(I) Certification that the applicant has consulted with the local government having jurisdiction over the area about the proposed redevelopment of the site, that the local government is in agreement with or approves the proposed redevelopment, and that the proposed redevelopment complies with applicable laws and requirements for such redevelopment. The certification shall be accomplished by referencing or providing a legally recorded or officially approved land use or site plan, a development order or approval, a building permit, or a similar official document issued by the local government which reflects the local government's approval of the proposed redevelopment of the site or by providing a letter from the local government which describes the proposed redevelopment of the site and expresses

the local government's agreement with or approval of the proposed redevelopment.

(II) A demonstrated reasonable assurance that the applicant has sufficient financial resources to implement and complete the redevelopment project.

2. A nonrefundable review fee of $250 to cover the administrative costs associated with the department's review of the application.

3. A limited contamination assessment report.

4. A proposed course of action.

5. A department site access agreement, or similar agreements approved by the department that do not violate state law, entered into with the property owner or owners, as applicable, and evidence of authorization from such owner or owners for petroleum site rehabilitation program tasks consistent with the proposed course of action where the applicant is not the property owner for any of the sites contained in the application.

The limited contamination assessment report must be sufficient to support the proposed course of action and to estimate the cost of the proposed course of action. Costs incurred related to conducting the limited contamination assessment report are not refundable from the Inland Protection Trust Fund. Site eligibility under this subsection or any other provision of this section is not an entitlement to advanced cleanup or continued restoration funding. The applicant shall certify to the department that the applicant has the prerequisite authority to enter into an advanced cleanup contract with the department. The

certification must be submitted with the application.

(b) The department shall rank the applications specified in sub-subparagraphs (a)1.a. and b. based on the percentage of cost-sharing commitment proposed by the applicant, with the highest ranking given to the applicant who proposes the highest percentage of cost sharing. If the department receives applications that propose identical cost-sharing commitments and that exceed the funds available to commit to all such proposals during the advanced cleanup application period, the department shall proceed to rerank those applicants. Those applicants submitting identical cost-sharing proposals that exceed funding availability must be so notified by the department and offered the opportunity to raise their individual cost-share commitments, in a period specified in the notice. At the close of the period, the department shall proceed to rerank the applications pursuant to this paragraph.

(4) The department may enter into contracts for a total of up to $30 ~~$25~~ million of advanced cleanup work in each fiscal year. Up to $5 million of these funds may be designated for cleanup of individual redevelopment sites as referenced in sub-subparagraph (2)(a)1.c.

(a) ~~However,~~ A facility or an applicant who bundles multiple sites as specified in subparagraph (2)(a)1. may not be approved for more than $5 million of cleanup activity in each fiscal year.

(b) A facility or an applicant applying for cleanup of individual redevelopment sites as referenced in sub-subparagraph (2)(a)1.c. may not be approved for more than $1 million of cleanup activity in each fiscal year.

(c) A property owner or responsible party may enter into a voluntary cost-share agreement in which the property owner or responsible party commits to bundle multiple sites and lists the facilities that will be included in those future bundles. The facilities listed are not subject to agency term contractor assignment pursuant to department rule. The department reserves the right to terminate or amend the voluntary cost-share agreement for any identified site under the voluntary cost-share agreement if the property owner or responsible party fails to submit an application to bundle any site, not already covered by an advance cleanup contract, under such voluntary cost-share agreement within a subsequent open application period during which it is eligible to participate. For the purposes of this section, the term "facility" includes, but is not limited to, multiple site facilities such as airports, port facilities, and terminal facilities even though such enterprises may be treated as separate facilities for other purposes under this chapter.

Section 2. Subsection (14) is added to section 376.3078, Florida Statutes, to read:

376.3078 Drycleaning facility restoration; funds; uses; liability; recovery of expenditures.—

(14) ADVANCED SITE ASSESSMENT.—It is in the public interest, and of substantial environmental and economic benefit to the state, to provide an opportunity to conduct site assessment on a limited basis at contaminated sites in advance of the ranking of the sites on the priority list as specified in subsection (8).

(a) A real property owner who is eligible for site rehabilitation at a facility that has been determined eligible

for the drycleaning solvent cleanup program under this section may request an advanced site assessment, and the department may authorize the performance of a site assessment in advance of the ranking of the site on the priority list as specified in subsection (8), if the following criteria are met:

1. The site assessment information would provide new information that would be sufficient for the department to better evaluate the actual risk of the contamination, thereby reducing the risk to public health and the environment;

2. The property owner agrees:

a. To implement the appropriate institutional controls allowed by department rules adopted pursuant to subsection (4) at the time the property owner requests the advanced site assessment; and

b. To implement and maintain, upon completion of the cleanup, the required institutional controls, or a combination of institutional and engineering controls, when the site meets the site rehabilitation criteria for closure with controls in accordance with department rules adopted pursuant to subsection (4);

3. Current conditions at the site allow the site assessment to be conducted in a manner that will result in cost savings to the Water Quality Assurance Trust Fund;

4. There is sufficient money in the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program to pay for the site assessment; and

5. In accordance with subsection (3), access to the site is provided and the deductible is paid.

(b) A site may be assessed out of priority ranking order

when, at the department's discretion, the site assessment will provide a cost savings to the program.

(c) An advanced site assessment must incorporate risk-based corrective action principles to achieve protection of human health and safety and the environment in a cost-effective manner, in accordance with subsection (4). The site assessment must also be sufficient to estimate the cost and determine the proposed course of action toward site cleanup. Advanced site assessment activities performed under this subsection shall be designed to affirmatively demonstrate that the site meets one of the following findings based on the following specified criteria:

1. Recommend remedial action to mitigate risks that, in the judgment of the department, are a threat to human health or where failure to prevent migration of drycleaning solvents would cause irreversible damage to the environment;

2. Recommend additional groundwater monitoring to support natural attenuation monitoring or long-term groundwater monitoring; or

3. Recommend "no further action," with or without institutional controls or institutional and engineering controls, for those sites that meet the "no further action" criteria department rules adopted pursuant to subsection (4).

If the site does not meet one of the findings specified in subparagraphs 1.-3., the department shall notify the property owner in writing of this decision, and the site shall be returned to its priority ranking order in accordance with its score.

(d) Advanced site assessment program tasks shall be assigned by the drycleaning solvent cleanup program. In addition to the provisions in paragraph (a), the assignment of site assessment tasks shall be based on the department's determination of contractor logistics, geographical considerations, and other criteria that the department determines are necessary to achieve the most cost-effective approach.

(e) Available funding for advanced site assessments may not exceed 10 percent of the annual Water Quality Assurance Trust Fund appropriation for the drycleaning solvent cleanup program.

(f) The total funds committed to any one site may not exceed $70,000.

(g) The department shall prioritize the requests for advanced site assessment, based on the date of receipt and the environmental and economic value to the state, until 10 percent of the annual Water Quality Assurance Trust Fund appropriation, as provided in paragraph (e), has been obligated.

Section 3. Paragraph (f) of subsection (2) of section 220.1845, Florida Statutes, is amended to read:

220.1845 Contaminated site rehabilitation tax credit.—

(2) AUTHORIZATION FOR TAX CREDIT; LIMITATIONS.—

(f) The total amount of the tax credits which may be granted under this section is $21.6 million in the 2015-2016 fiscal year, ~~and~~ $5 million in the 2016-2017 fiscal year, and $10 million annually thereafter.

Section 4. Subsection 4 of section 376.30781, Florida Statutes, is amended to read:

376.30781 Tax credits for rehabilitation of drycleaning-

solvent-contaminated sites and brownfield sites in designated brownfield areas; application process; rulemaking authority; revocation authority.—

(4) The Department of Environmental Protection is responsible for allocating the tax credits provided for in s. 220.1845, which may not exceed a total of $21.6 million in tax credits in the 2015-2016 fiscal year, ~~and~~ $5 million in tax credits in the 2016-2017 fiscal year, and $10 million in tax credits annually thereafter.

Section 5. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/SB 714 (897830)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services) and Senator Garcia
SUBJECT:	Comprehensive Transitional Education Programs
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Crosier	Hendon	CF	**Favorable**
2.	Loe	Williams	AHS	**Recommend: Fav/CS**
3.	Loe	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/SB 714 authorizes the Agency for Persons with Disabilities (APD) to petition a court for the appointment of a receiver for a comprehensive transitional education program under certain circumstances.

The bill has no direct impact on state revenues or expenditures.

The bill has an effective date of July 1, 2017.

II. Present Situation:

A comprehensive transitional education program (CTEP) serves individuals with developmental disabilities who also have moderate to severe maladaptive behaviors. There are two CTEPs licensed in Florida.[1] CTEP licenses are issued for a 12-month period. No fees are charged for the initial application or subsequent licensure renewal.

In s. 393.062, F.S., the legislature has expressed its intent that community-based programs and services for individuals with developmental disabilities are preferred to programs operated

[1] The two CTEP licenses are held by the same company that operates a CTEP in Mt. Dora, Florida. Section 393.18(4), F.S., limits the total number of residents served in a CTEP to 120 per license. The CTEP in Mt. Dora, Florida, serves more than 120 residents and is thus required to hold two separate licenses.

directly by the state.[2] Pursuant to the recently issued federal Medicaid waiver guidelines, there has been a shift to provide person-centered care and for care to be provided in home and community-based settings, moving away from institutionalized settings as currently utilized.[3] The new Medicaid waiver guidelines become effective March 2019.[4]

Receivership

A receiver is "[an] indifferent person between the parties appointed by a court to collect and receive the rents, issues and profits of land, or the produce or person estate, or other things which it does not seem reasonable to the court that either party should do; or where a party is incompetent to do so.[5] Pursuant to s. 393.0678, F.S., the APD may petition a court for the appointment of a receiver for a residential habilitation center or a group home facility owned and operated by a corporation or partnership when certain conditions exist:

- A person is operating a facility without a license and refuses to make an application for a license;
- The licensee is closing the facility or has informed the department that it intends to close the facility, and adequate arrangements have not been made for relocation of the residents within seven days, exclusive of weekends and holidays, of the closing of the facility;
- The agency determines that conditions exist in the facility which present an imminent danger to the health, safety, or welfare of the residents of the facility or which present a substantial probability that death or serious physical harm will result; or
- The licensee cannot meet its financial obligations to provide food, shelter, care, and utilities.[6]

III. Effect of Proposed Changes:

Section 1 amends s. 393.0678(1), F.S., to add Comprehensive Transitional Education Programs to the list of entities for which the APD can initiate receivership proceedings.

Section 2 provides that the bill becomes effective upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

[3] *Id*.
[4] Medicaid Program; State Plan Home and Community-Based Services, 5-Year Period for Waivers, Provider Payment Reassignment, and Home and Community-Based Setting Requirements for Community First Choice and Home and Community-Based Services (HCBS) Waivers; Final Rule 79 Fed. Reg. 2948 (Jan. 16, 2014). The effective date of the final regulations was March 14, 2014, and the regulations allow each state up to five years to bring its home and community-based programs into compliance with the home and community-based settings requirements.

[6] Section 393.0678(1)(a)-(d), F.S.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The transition from the current comprehensive transitional education program in Lake Nona, Florida, to smaller residential group homes will require all clients, including those with private insurance, to move into a new residential group home. The location and expense of the smaller residential group homes are not known at this time.

C. Government Sector Impact:

The bill has no direct impact on state revenues or expenditures. However, in the event a receiver is appointed, the APD will be required to provide assessments and transition plans to current residents residing at the comprehensive transitional education program in Mt. Dora, Florida. The APD will also be required to provide the licensing and oversight of the smaller group homes. These requirements will increase workload for agency staff, and can be absorbed within existing resources.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 393.0678 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS by Appropriations Subcommittee on Health and Human Services on April 18, 2017:
The committee substitute removes the sunset provision for comprehensive transitional education program licensure application and renewal.

B. Amendments:

None.

897830

576-04077A-17

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Health and Human Services)

A bill to be entitled

An act relating to comprehensive transitional education programs; amending s. 393.0678, F.S.; authorizing the Agency for Persons with Disabilities to petition a court for the appointment of a receiver for a comprehensive transitional education program under certain circumstances; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 393.0678, Florida Statutes, is amended to read:

393.0678 Receivership proceedings.—

(1) The agency may petition a court of competent jurisdiction for the appointment of a receiver for a comprehensive transitional education program, a residential habilitation center, or a group home facility owned and operated by a corporation or partnership when any of the following conditions exist:

(a) Any person is operating a facility or program without a license and refuses to make application for a license as required by s. 393.067.

(b) The licensee is closing the facility or has informed the department that it intends to close the facility; and adequate arrangements have not been made for relocation of the residents within 7 days, exclusive of weekends and holidays, of

897830

576-04077A-17

the closing of the facility.

(c) The agency determines that conditions exist in the facility which present an imminent danger to the health, safety, or welfare of the residents of the facility or which present a substantial probability that death or serious physical harm would result therefrom. Whenever possible, the agency shall facilitate the continued operation of the program.

(d) The licensee cannot meet its financial obligations to provide food, shelter, care, and utilities. Evidence such as the issuance of bad checks or the accumulation of delinquent bills for such items as personnel salaries, food, drugs, or utilities constitutes prima facie evidence that the ownership of the facility lacks the financial ability to operate the home in accordance with the requirements of this chapter and all rules promulgated thereunder.

Section 2. This act shall take effect upon becoming a law.

By Senator Garcia

36-01178-17 2017714__

A bill to be entitled

An act relating to comprehensive transitional education programs; amending s. 393.0678, F.S.; authorizing the Agency for Persons with Disabilities to petition a court for the appointment of a receiver for a comprehensive transitional education program under certain circumstances; amending s. 393.18, F.S.; providing that no new comprehensive transitional education programs may be licensed after a specified date; providing that no licenses may be renewed for comprehensive transitional education programs after a certain specified date; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (1) of section 393.0678, Florida Statutes, is amended to read:

393.0678 Receivership proceedings.—

(1) The agency may petition a court of competent jurisdiction for the appointment of a receiver for a comprehensive transitional education program, a residential habilitation center, or a group home facility owned and operated by a corporation or partnership when any of the following conditions exist:

(a) Any person is operating a facility or program without a license and refuses to make application for a license as required by s. 393.067.

(b) The licensee is closing the facility or has informed the department that it intends to close the facility; and adequate arrangements have not been made for relocation of the residents within 7 days, exclusive of weekends and holidays, of the closing of the facility.

36-01178-17 2017714__

(c) The agency determines that conditions exist in the facility which present an imminent danger to the health, safety, or welfare of the residents of the facility or which present a substantial probability that death or serious physical harm would result therefrom. Whenever possible, the agency shall facilitate the continued operation of the program.

(d) The licensee cannot meet its financial obligations to provide food, shelter, care, and utilities. Evidence such as the issuance of bad checks or the accumulation of delinquent bills for such items as personnel salaries, food, drugs, or utilities constitutes prima facie evidence that the ownership of the facility lacks the financial ability to operate the home in accordance with the requirements of this chapter and all rules promulgated thereunder.

Section 2. Subsection (7) is added to section 393.18, Florida Statutes, to read:

393.18 Comprehensive transitional education program.—A comprehensive transitional education program serves individuals who have developmental disabilities, severe maladaptive behaviors, severe maladaptive behaviors and co-occurring complex medical conditions, or a dual diagnosis of developmental disability and mental illness. Services provided by the program must be temporary in nature and delivered in a manner designed to achieve the primary goal of incorporating the principles of self-determination and person-centered planning to transition individuals to the most appropriate, least restrictive community living option of their choice which is not operated as a comprehensive transitional education program. The supervisor of the clinical director of the program licensee must hold a

doctorate degree with a primary focus in behavior analysis from an accredited university, be a certified behavior analyst pursuant to s. 393.17, and have at least 1 year of experience in providing behavior analysis services for individuals in developmental disabilities. The staff must include behavior analysts and teachers, as appropriate, who must be available to provide services in each component center or unit of the program. A behavior analyst must be certified pursuant to s. 393.17.

(7) After July 1, 2017, a license may not be granted under this section to a new comprehensive transitional education program. After December 31, 2019, a license may not be renewed for an existing comprehensive transitional education program.

Section 3. This act shall take effect July 1, 2017.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 922 amends various statutes relating to insurance adjusters. The bill eliminates licensure for public adjuster apprentices and requires a public adjuster apprentice to be licensed as an all-lines adjuster and appointed as a public adjuster apprentice.

Current law authorizes, but does not require, licensure of adjusting firms, unless the person operating the firm fails to designate a primary adjuster within specified timeframes. The bill requires licensure for adjusting firms and provides application requirements and background checks for firm owners and officers.

In addition, the bill:

- Eliminates the temporary license, which is not currently used;
- Revises the requirements for public adjusters to expressly prohibit unlicensed public adjusting that is done directly or indirectly;
- Deletes a provision of law held unconstitutional by the Florida Supreme Court;
- Excludes deductibles from the calculation of an adjuster's fee; and
- Reduces the time a public adjuster apprentice must be supervised before becoming eligible for licensure as a public adjuster.

In addition, the bill makes numerous changes to part VI of ch. 626, F.S., and other statutes applicable to adjusters to improve the efficiency of licensure and enforcement.

The Department of Financial Services (DFS) anticipates $2,500 per year in recurring revenue from penalties imposed for failing to obtain a license as an adjusting firm. [1]

The DFS will need to make updates to its licensing system to allow for adjusting firm licenses; however, these changes will be absorbed within existing resources.[2]

The Office of Insurance Regulation does not anticipate any impact to state funds or expenditures.[3]

II. Present Situation:

Insurance Adjusters

Part VI of ch. 626, F.S., regulates insurance adjusters, which includes public adjusters, independent adjusters, and company employee adjusters. A "public adjuster" is any person, other than a licensed attorney, who, for compensation, prepares, completes, or files an insurance claim form for an insured or third-party claimant in negotiating or settling an insurance claim on behalf of an insured or third party.[4] An "independent adjuster" is any person who is self-employed or employed by an independent adjusting firm and who works for an insurer to ascertain and determine the amount of an insurance claim, loss, or damage, or to settle an insurance claim under an insurance contract. A "company employee adjuster" is any person employed in-house by an insurer who ascertains and determines the amount of an insurance claim, loss, or damage, or settles an insurance claim under an insurance contract.

Public adjusters are licensed by the Department of Financial Services (DFS) and are required to meet pre-licensing requirements, which include submitting an application, paying required fees, complying with requirements as to knowledge, experience, or instruction, and submitting fingerprints.

A policyholder who has sustained an insured loss may hire a public adjuster. The public adjuster will inspect the loss site, analyze the damages, assemble claim support data, review the insured's coverage, determine current replacement costs, and confer with the insurer's representatives to adjust the claim. Public adjuster fees are capped at ten to 20 percent of the insurance claim payments.[5]

[4] Section 626.854(1), F.S.
[5] Section 626.854 (11), F.S.

Adjusting Firms

Under current law, adjusting firms are not required to be licensed by the DFS. If a firm chooses to obtain a license, it lasts for three years and costs $60.[6] An application for licensure must include:

- The name and address of each majority owner, partner, officer, and director of the adjusting firm;
- The name of the adjusting firm and its principal business address; and
- The location of each adjusting firm office and the name under which each office conducts or will conduct business.[7]

The law provides grounds for mandatory and discretionary denial, suspension, or revocation of an adjusting firm license.[8] Currently there are no licensed adjusting firms within the State of Florida; however, the DFS reports there are 3,736 unlicensed adjusting firms in the DFS system.[9] Unlicensed firms, led by unknown individuals, are controlling primary adjusters and appointed adjusters. Under current law, it would be acceptable for a person who steals money from their insurance clients, has their license revoked, and is convicted of a felony crime for the act, to start an adjusting firm.[10] In comparison, there are 39,082 licensed insurance agencies with over 24,437 additional branch locations. The DFS is aware of who owns and operates each of these entities. Convicted criminals and individuals whose license have been revoked are prohibited from owning or controlling these organizations.[11] These licensees do not currently pay a fee for licensure by the DFS and the license does not have to be renewed. These licensees are obligated to provide electronic updates when they change addresses or leadership.[12]

Solicitation by Public Adjusters

In 2008, the Legislature prohibited public adjusters from directly or indirectly through any other person or entity initiating contact or engaging in face-to-face or telephonic solicitation with any insured until at least 48 hours after the occurrence of an event that may be the subject of a claim under the insurance policy.[13] In 2012, the Florida Supreme Court held the law violated a public adjuster's right to free speech because the statute regulated commercial speech and was more extensive than necessary to serve the state's interest.[14]

Public Adjuster Apprentices

A "public adjuster apprentice" is any person who:

- Is not a licensed public adjuster;

[13] Chapter 2008-220, L.O.F.
[14] *Atwater v. Kortum*, 95 So.2d 85 (Fla. 2012).

- Is employed by or has a contract with a licensed and appointed public adjuster or a public adjusting firm to assist a public adjuster in conducting business under the license; and
- Satisfies the licensing and character requirements of s. 626.8651, F.S.

To become licensed, a public adjuster apprentice applicant must be 18 years of age; a U.S. Citizen; trustworthy; pay all fees applicable to adjuster licenses; and pass an examination. In addition, an applicant must possess specified certification related to claims adjustment and present to the DFS a bond in the amount of $50,000. A public adjuster apprentice must complete a minimum of 100 hours per month for 12 months under the supervision of a licensed all-lines public adjuster before becoming eligible for licensure as a public adjuster.[15] A public adjuster apprentice license is effective for 18 months unless the license expires due to lack of maintaining an appointment, is surrendered by the licensee, is terminated, suspended or revoked by the DFS, or is cancelled by the DFS upon issuance of a public adjuster license.[16]

Current law allows an appointing public adjusting firm to maintain up to 12 public adjuster apprentices concurrently.[17] A supervising public adjuster may only be responsible for three public adjuster apprentices simultaneously. An apprentice has the same authority as a public adjuster except that an apprentice may not execute contracts for services of a public adjuster except under the direct supervision of a public adjuster.[18]

III. Effect of Proposed Changes:

Adjusting Firms (Sections 1, 3, 4, 14 and 15)

Section 1 amends s. 624.501, F.S. to remove the $60 fee associated with an original or renewal license for an adjusting firm.

Section 3 amends s. 626.022, F.S., to include adjusting firms as part of the scope of the act.

Section 4 amends s. 626.112, F.S., to require an entity acting as an adjusting firm to have a license from the Department of Financial Services (DFS) for each place of business[19] where it engages in activities that may only be performed by a licensed adjuster. This section exempts individual adjusters operating in their own names and insurance companies that directly appoint adjusters from the firm's licensing requirements.

A branch firm, established by a licensed adjusting firm, is not required to be licensed if:
- It transacts business under the same name and federal tax identification number as the licensed adjusting firm;
- It has designated with the DFS a licensed primary adjuster in charge of the branch firm as required by s. 626.8695, F.S.; and

[15] Section 626.8651, F.S.
[16] Section 626.8651(8), F.S.
[17] Section 626.8651(7), F.S.
[18] Section 626.8651(11), F.S.
[19] The bill allows an adjusting firm to have "branch" places of business that operate under the same license. A branch place of business must transact business under the same tax identification numbers as the licensed firm, must have a designated primary adjuster, and submit contact information to the DFS within 30 days after insurance transactions begin at the location.

- Within 30 days after insurance transactions begin at the branch firm, the address and telephone number of the branch firm are submitted to the DFS for inclusion in the licensing record of the licensed adjusting firm.

This section provides for fines of $2,500 for a first time violation and up to $10,000 for any subsequent violation, if a firm is required to be licensed, but does not file an application.

Section 14 amends s. 626.8695, F.S., to require each business location established by an adjuster to designate a primary adjuster for that location. It also requires adjusting firms and branch locations of the adjusting firms to name primary adjusters. The primary adjuster is responsible for the supervision of the adjusters at that location. The primary adjuster is accountable for misconduct by those under his or her direct supervision. This section does not render a primary adjuster criminally liable to an act unless the primary adjuster personally committed the act, knew or should have known about the act constituting a violation of this act. Furthermore, this section adds contractor to the language whereby DFS may suspend or revoke the license of any adjuster employed [or contracted] by a person whose license has been suspended or revoked.

An adjusting firm location may not conduct insurance business unless a primary adjuster is designated and provides services to the firm at all times. If a primary adjuster ends his or her affiliation with the firm and the firm does not designate another primary adjuster within 90 days, the firm's license expires on the 91st day.

Any adjusting firm may determine a person's current licensure status by submitting an appointment request to the DFS.

Section 15 amends s. 628.8696, F.S., to revise the application process for an adjusting firm license. It allows a third party to sign the application on the firm's behalf but the applicant is accountable for any errors or misstatements. The application for an adjusting firm license must include:

- The names of the president, senior vice president, secretary, treasurer, and limited liability company member who directs or participates in the management and control of the firm;
- The resident address of each person required to be listed in the application;
- The name, principal street address, and valid e-mail address of the adjusting firm, registered agent, person or company authorized to accept service on behalf of the firm;
- The physical address of each branch firm, including its name, valid email address, and telephone number and the date the branch firm began transacting insurance business;
- The name of the primary adjuster in full-time charge of the adjusting firm office, including branch firms, and corresponding location;
- It requires fingerprint background checks on the following:
  - A sole proprietor, if the applicant is a sole proprietor; and
  - Each individual who directs or participates in the management or control of an incorporated firm whose shares are not traded on a securities exchange; and
- Any additional information the DFS requires by rule to ascertain the trustworthiness and competence of persons required to be listed on the application and to ascertain such persons meet the requirements of this code. However, the DFS may not require credit or character reports be submitted for such persons.

Fingerprints submitted to the DFS must be:
- Submitted by a law enforcement agency or other entity approved by the DFS;
- Accompanied by a fingerprint processing fee;[20] and
- Processed in accordance with s. 624.34, F.S.

However, fingerprints of currently licensed and appointed individuals, under this act, do not need to be filed with the DFS.

An adjusting firm license will remain in force unless canceled, suspended, revoked or otherwise terminated or expired by operation of law.

Adjusters (Sections 2, 7, 11, 16, 17, 18 and 19)

Section 2 defines "adjuster" as a public adjuster[21] or an all-lines adjuster. It allows an "all-lines adjuster" to act on behalf of a public adjuster. This conforms to the elimination of the licensure classification for public adjuster apprentices and their reclassification as licensed all-lines adjusters appointed and employed by a public adjuster or public adjusting firm.

Section 7 amends s. 626.8548, F.S., and redefines an "all-lines adjuster" as "a person who, for money, commission, or any other thing of value, directly or indirectly undertakes on behalf of a public adjuster or insurer to ascertain and determine the amount of any claim, loss, or damage payable under an insurance contract or undertakes to effect settlement of such claim, loss, or damage." This section further directs that an "all-lines adjuster" also includes "any person who, for money, commission, or any other thing of value, directly or indirectly solicits claims on behalf of a public adjuster, but does not include a paid spokesperson used as part of a written or an electronic advertisement or a person who photographs or inventories damaged personal property or business personal property if such person does not otherwise adjust, investigate, or negotiate for or attempt to effect the settlement of a claim."

Section 11 amends s. 626.864, F.S., to provide that an all-lines adjuster may be appointed as an independent adjuster, a public adjuster apprentice, or a company employee adjuster but not more than one concurrently.

Section 16 repeals s. 626.872, F.S., which created temporary licenses for all-lines adjusters.

Section 17 amends s. 626.874, F.S., to clarify that only authorized insurers or adjusting firms contracted with authorized insurers may designate emergency adjusters for temporary licensure by the DFS during a catastrophe.

Section 18 amends s. 626.875, F.S., to require adjusters to maintain records relating to claims for five years instead of the current three years.

[20] Section 624.01, F.S.
[21] *See* s. 626.854, F.S.

Section 19 amends s. 626.876, F.S., to provide that an individual licensed as a public adjuster may not be simultaneously licensed as an all-lines adjuster. It further provides that an individual licensed as an all-lines adjuster and appointed as a company adjuster or a public adjuster apprentice may not be simultaneously appointed or employed in a different adjuster capacity that would require an additional appointment type.

Public Adjusters (Sections 5 and 12)

Section 5 amends s. 626.854, F.S., to expand the definition of "public adjuster" to include persons who directly or indirectly prepare, complete, or file an insurance claim for an insured. The definition is further expanded to include persons who directly or indirectly solicit or perform specified other duties on behalf of a public adjuster, an insured, or a third-party claimant. It provides that the term does not include a person who photographs or inventories damaged personal property or a person performing duties under another professional license if the person does not otherwise solicit, adjust, investigate, or negotiate for or attempt to effect the settlement of a claim. It also removes a limitation that requires a consumer wishing to cancel a public adjuster contract to do so in writing or by phone.

This section repeals the restrictions on public adjuster solicitations within 48 hours after an event that may be the subject of an insurance claim.

The section prohibits public adjusters from charging a fee based on policy deductibles.

The section prohibits a contract provision that allows a public adjuster, public adjuster apprentice, or person acting on behalf of an adjuster or apprentice to choose the person that will perform repair work on a property insurance claim or provide goods or services that will require the insured or third-party claimant to expend funds in excess of those payable to the public adjuster under the terms of the contract for adjusting services.

Furthermore, this section creates a new paragraph to more specifically define what a person is prohibited from doing unless the person is a public adjuster or an attorney. A person who is not a public adjuster or attorney may not, for money or commission:

- Prepare, complete, or file an insurance claim for an insured or a third-party claimant;
- Act on behalf of or aid an insured or a third-party claimant in negotiating for or effecting the settlement of a claim for loss or damage covered by an insurance contract;
- Advertise for employment as a public adjuster; or
- Solicit, investigate, or adjust a claim on behalf of a public adjuster, an insured, or a third-party claimant.

Section 12 amends s. 626.865, F.S., to require a public adjuster, as part of the qualification and bond process, to be:

- Licensed in Florida as an all-lines adjuster; and
- To have been appointed on a continual basis for the previous six months as:
  - A public service apprentice under s. 626.8561, F.S.;
  - As an independent adjuster under s. 626.855, F.S.; or
  - As a company employee adjuster under s. 626.856, F.S.

Current law requires a public adjuster apprentice to serve as a public adjuster apprentice for one year before becoming a public adjuster. This section reduces the time to six months.

Public Adjuster Apprentices (Sections 6, 8 and 13)

Section 6 repeals s. 626.8541, F.S., which is the current law creating the license for public adjuster apprentices.

Section 8 creates s. 626.8561, F.S., to define a "public adjuster apprentice" as a person licensed as an all-lines adjuster who is appointed and employed by a public adjuster or public adjusting firm. The apprentice assists the public adjuster in determining the amount of any claim, loss or damage payable under an insurance contract.

Section 13 amends s. 626.8651, F.S., to provide the DFS will issue an appointment as a public adjuster apprentice to licensee who:

- Is licensed as an all-lines adjuster;
- Has filed with the DFS a bond[22] executed and issued by a surety insurer in the amount of $50,000, which is conditioned upon the faithful performance of duties as a public adjuster apprentice; and
- Maintains such bond unimpaired throughout the existence of the appointment and for at least one year after termination of the appointment.

This section provides that an appointing public adjusting firm may maintain no more than four public adjuster apprentices and that a supervising public adjuster may supervise no more than one apprentice at a time.

This section removes the limitation on solicitation of contracts by public adjuster apprentices.

Miscellaneous Provisions (Sections 9, 10, 20 - 22.)

Section 9 amends s. 626.8584, F.S., to add a public adjuster or a public adjusting firm to the list of persons or entities who can appoint, employ or contract with a nonresident all-lines adjuster.

Under current law, a "nonresident all-lines adjuster" means a person who is:

- Not a resident of Florida;
- Currently licensed as an adjuster in his or her state of residence for all lines of insurance except life and annuities or, if a resident of a state that does not license such adjusters, meets the qualifications prescribed in s. 626.8734, F.S.; and
- Licensed as an all-lines adjuster and self-appointed or appointed and employed by an independent adjusting firm or other independent adjuster, by an insurer admitted to do business in this state or wholly owned subsidiary of an insurer admitted to do business in this state, or by other insurers under the common control or ownership of such insurer.[23]

[22] The bond must be executed in favor of the DFS and must authorize recovery of the damages sustained if the licensee commits fraud or unfair practices. The aggregate liability of the surety may not exceed the amount of the bond and the bond may not be terminated without giving notice to the licensee and the DFS.
[23] Section 626.8584, F.S.

This section removes the language, "other insurers under the common control or ownership of such insurer."

Section 10 amends s. 626.861, F.S., to provide that an employee of an insurer handling claims with respect to residential property insurance can adjust such claims if the coverage does not exceed $500.

Section 20 repeals s. 626.879, F.S., which allows the DFS to have a pool of adjusters in case of declarations of emergency. The DFS has not used the pool in a number of years and does not believe the statute is necessary.

Section 21 amends s. 626.9953, F.S., to make a technical change.

Section 22 provides an effective date of January 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The impact to the private sector is indeterminate. However, the Office of Insurance Regulation indicates "tightening the licensing requirements of public adjusters may result in improved insurer loss trends."[24]

C. Government Sector Impact:

The Department of Financial Services (DFS) anticipates $2,500 per year in recurring revenue from penalties imposed for failing to obtain a license as an adjusting firm.

[24] Office of Insurance Regulation, *Senate Bill 922 Fiscal Analysis* (March 15, 2017) (on file with the Senate Appropriations Subcommittee on General Government).

The DFS will need to make updates to its licensing system to allow for adjusting firm licenses; however, these changes will be absorbed within existing resources.[25]

The Office of Insurance Regulation does not anticipate any impact to state funds or expenditures.[26]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 624.501, 626.015, 626.022, 626.112, 626.854, 626.8541, 626.8548, 626.8561, 626.8584, 626.861, 626.864, 626.865, 626.8651, 626.8695, 626.8696, 626.874, 626.875, 626.876, and 626.9953.

This bill repeals the following sections of the Florida Statutes: 626.872 and 626.879.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on General Government on April 18, 2017:
The committee substitute amends definitions of "public adjuster" and "all-lines adjuster" to exclude persons who photograph or inventory damaged property or persons performing duties under another professional license as long as the person does not otherwise act as an adjuster.

CS by Banking and Insurance on April 3, 2017:
- Creates a minimum $2,500 penalty if a firm is required to be licensed but does not apply for a license;
- Removes a requirement that adjuster websites contain certain disclosures;
- Clarifies that paid spokespersons are exempt from licensure when promoting services; and
- Makes technical changes.

[25] Department of Financial Services, *Senate Bill 922 Fiscal Analysis* (April 3, 2017) (on file with the Senate Appropriations Subcommittee on General Government).
[26] Office of Insurance Regulation, *Senate Bill 922 Fiscal Analysis* (March 15, 2017) (on file with the Senate Appropriations Subcommittee on General Government).

B. Amendments:

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/26/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Garcia) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Subsection (1) of section 626.015, Florida Statutes, is amended to read:

626.015 Definitions.—As used in this part:

(1) "Adjuster" means a public adjuster as defined in s. 626.854~~, a public adjuster apprentice as defined in s. 626.8541,~~ or an all-lines adjuster as defined in s. 626.8548.

603728

Section 2. Present subsections (7) through (19) of section 626.854, Florida Statutes, are renumbered as subsections (6) through (18), respectively, subsection (1) and present subsections (6), (7), (11), (18), and (19) are amended, and a new subsection (19) is added to that section, to read:

626.854 "Public adjuster" defined; prohibitions.—The Legislature finds that it is necessary for the protection of the public to regulate public insurance adjusters and to prevent the unauthorized practice of law.

(1) A "public adjuster" is any person, except a duly licensed attorney at law as exempted under s. 626.860, who, for money, commission, or any other thing of value, directly or indirectly prepares, completes, or files an insurance claim ~~form~~ for an insured or third-party claimant or who, for money, commission, or any other thing of value, acts on behalf of, or aids an insured or third-party claimant in negotiating for or effecting the settlement of a claim or claims for loss or damage covered by an insurance contract or who advertises for employment as an adjuster of such claims. The term also includes any person who, for money, commission, or any other thing of value, directly or indirectly solicits, investigates, or adjusts such claims on behalf of a public adjuster, an insured, or a third-party claimant. The term does not include a person who photographs or inventories damaged personal property or business personal property or a person performing duties under another professional license, if such person does not otherwise solicit, adjust, investigate, or negotiate for or attempt to effect the settlement of a claim.

~~(6) A public adjuster may not directly or indirectly~~

603728

~~through any other person or entity initiate contact or engage in face-to-face or telephonic solicitation or enter into a contract with any insured or claimant under an insurance policy until at least 48 hours after the occurrence of an event that may be the subject of a claim under the insurance policy unless contact is initiated by the insured or claimant.~~

(6) ~~(7)~~ An insured or claimant may cancel a public adjuster's contract to adjust a claim without penalty or obligation within 3 business days after the date on which the contract is executed or within 3 business days after the date on which the insured or claimant has notified the insurer of the claim, ~~by phone or in writing,~~ whichever is later. The public adjuster's contract must disclose to the insured or claimant his or her right to cancel the contract and advise the insured or claimant that notice of cancellation must be submitted in writing and sent by certified mail, return receipt requested, or other form of mailing that provides proof thereof, to the public adjuster at the address specified in the contract; provided, during any state of emergency as declared by the Governor and for 1 year after the date of loss, the insured or claimant has 5 business days after the date on which the contract is executed to cancel a public adjuster's contract.

(10)(a) ~~(11)(a)~~ If a public adjuster enters into a contract with an insured or claimant to reopen a claim or file a supplemental claim that seeks additional payments for a claim that has been previously paid in part or in full or settled by the insurer, the public adjuster may not charge, agree to, or accept from any source compensation, payment, commission, fee, or any other thing of value based on a previous settlement or

603728

previous claim payments by the insurer for the same cause of loss. The charge, compensation, payment, commission, fee, or any other thing of value must be based only on the claim payments or settlement obtained through the work of the public adjuster after entering into the contract with the insured or claimant. Compensation for the reopened or supplemental claim may not exceed 20 percent of the reopened or supplemental claim payment. In no event shall the contracts described in this paragraph exceed the limitations in paragraph (b).

(b) A public adjuster may not charge, agree to, or accept from any source compensation, payment, commission, fee, or any other thing of value in excess of:

1. Ten percent of the amount of insurance claim payments made by the insurer for claims based on events that are the subject of a declaration of a state of emergency by the Governor. This provision applies to claims made during the year after the declaration of emergency. After that year, the limitations in subparagraph 2. apply.

2. Twenty percent of the amount of insurance claim payments made by the insurer for claims that are not based on events that are the subject of a declaration of a state of emergency by the Governor.

(c) Insurance claim payments made by the insurer do not include policy deductibles, and public adjuster compensation may not be based on the deductible portion of a claim.

(d) ~~(c)~~ Any maneuver, shift, or device through which the limits on compensation set forth in this subsection are exceeded is a violation of this chapter punishable as provided under s. 626.8698.

603728

(17)~~(18)~~ A public adjuster, a public adjuster apprentice, or a person acting on behalf of an adjuster or apprentice may not enter into a contract or accept a power of attorney that vests in the public adjuster, the public adjuster apprentice, or the person acting on behalf of the adjuster or apprentice the effective authority to choose the persons or entities that will perform repair work in a property insurance claim or provide goods or services that will require the insured or third-party claimant to expend funds in excess of those payable to the public adjuster under the terms of the contract for adjusting services.

(18)~~(19)~~ Subsections (5)-(17) ~~(5)-(18)~~ apply only to residential property insurance policies and condominium unit owner policies as described in s. 718.111(11).

(19) Except as otherwise provided in this chapter, no person, except an attorney at law or a public adjuster, may for money, commission, or any other thing of value, directly or indirectly:

(a) Prepare, complete, or file an insurance claim for an insured or a third-party claimant;

(b) Act on behalf of or aid an insured or a third-party claimant in negotiating for or effecting the settlement of a claim for loss or damage covered by an insurance contract;

(c) Advertise for employment as a public adjuster; or

(d) Solicit, investigate, or adjust a claim on behalf of a public adjuster, an insured, or a third-party claimant.

Section 3. Section 626.8541, Florida Statutes, is repealed.

Section 4. Section 626.8548, Florida Statutes, is amended to read:

603728

626.8548 "All-lines adjuster" defined.—An "all-lines adjuster" is a person who, for money, commission, or any other thing of value, directly or indirectly ~~is self-employed or employed by an insurer, a wholly owned subsidiary of an insurer, or an independent adjusting firm or other independent adjuster, and who~~ undertakes on behalf of a public adjuster or an insurer ~~or other insurers under common control or ownership~~ to ascertain and determine the amount of any claim, loss, or damage payable under an insurance contract or undertakes to effect settlement of such claim, loss, or damage. The term also includes any person who, for money, commission, or any other thing of value, directly or indirectly solicits claims on behalf of a public adjuster, but does not include a paid spokesperson used as part of a written or an electronic advertisement or a person who photographs or inventories damaged personal property or business personal property if such person does not otherwise adjust, investigate, or negotiate for or attempt to effect the settlement of a claim. The term does not apply to life insurance or annuity contracts.

Section 5. Section 626.8561, Florida Statutes, is created to read:

626.8561 "Public adjuster apprentice" defined.—The term "public adjuster apprentice" means a person licensed as an all-lines adjuster who:

(1) Is appointed and employed or contracted by a public adjuster or a public adjusting firm;

(2) Assists the public adjuster or public adjusting firm in ascertaining and determining the amount of any claim, loss, or damage payable under an insurance contract, or who undertakes to

603728

effect settlement of such claim, loss, or damage; and

(3) Satisfies the requirements of s. 626.8651.

Section 6. Subsection (3) of section 626.8584, Florida Statutes, is amended to read:

626.8584 "Nonresident all-lines adjuster" defined.—A "nonresident all-lines adjuster" means a person who:

(3) Is licensed as an all-lines adjuster and self-appointed or appointed and employed or contracted by an independent adjusting firm or other independent adjuster, by an insurer admitted to do business in this state or a wholly owned subsidiary of an insurer admitted to do business in this state, or by a public adjuster or a public adjusting firm ~~other insurers under the common control or ownership of such insurer~~.

Section 7. Subsection (1) of section 626.861, Florida Statutes, is amended to read:

626.861 Insurer's officers, insurer's employees, reciprocal insurer's representatives; adjustments by.—

(1) ~~Nothing in~~ This part may not ~~shall~~ be construed to prevent an executive officer of any insurer, an ~~or a regularly salaried~~ employee of an insurer handling claims with respect to health insurance, an employee of an insurer handling claims with respect to residential property insurance in which the amount of coverage for the applicable type of loss is contractually limited to $500 or less, or the duly designated attorney or agent authorized and acting for subscribers to reciprocal insurers~~,~~ from adjusting any claim loss or damage under any insurance contract of such insurer.

Section 8. Subsection (3) of section 626.864, Florida Statutes, is amended to read:

603728

626.864 Adjuster license types.—

(3) An all-lines adjuster may be appointed as an independent adjuster, public adjuster apprentice, or company employee adjuster, but not more than one of these ~~both~~ concurrently.

Section 9. Paragraphs (d) and (e) of subsection (1) of section 626.865, Florida Statutes, are amended to read:

626.865 Public adjuster's qualifications, bond.—

(1) The department shall issue a license to an applicant for a public adjuster's license upon determining that the applicant has paid the applicable fees specified in s. 624.501 and possesses the following qualifications:

(d) Has had sufficient experience, training, or instruction concerning the adjusting of damages or losses under insurance contracts, other than life and annuity contracts, is sufficiently informed as to the terms and effects of the provisions of those types of insurance contracts, and possesses adequate knowledge of the laws of this state relating to such contracts as to enable and qualify him or her to engage in the business of insurance adjuster fairly and without injury to the public or any member thereof with whom the applicant may have business as a public adjuster~~, or has been licensed and employed as a resident insurance company adjuster or independent adjuster in this state on a continual basis for the past year~~.

(e) Has been licensed in this state as an all-lines adjuster, and has been appointed on a continual basis for the previous 6 months ~~Is licensed~~ as a public adjuster apprentice under s. 626.8561, as an independent adjuster under s. 626.855, or as a company employee adjuster under s. 626.856 ~~under s.~~

603728

~~626.8651 and complies with the requirements of that license throughout the licensure period~~.

Section 10. Section 626.8651, Florida Statutes, is amended to read:

626.8651 Public adjuster apprentice appointment ~~license~~; qualifications.—

(1)(a) The department shall issue an appointment ~~a license~~ as a public adjuster apprentice to a licensee ~~an applicant~~ who ~~is~~:

1. Is licensed as an all-lines adjuster under s. 626.866;

2. Has filed with the department a bond executed and issued by a surety insurer that is authorized to transact such business in this state in the amount of $50,000, which is conditioned upon the faithful performance of his or her duties as a public adjuster apprentice; and

3. Maintains such bond unimpaired throughout the existence of the appointment and for at least 1 year after termination of the appointment.

(b) The bond must be in favor of the department and must specifically authorize recovery by the department of the damages sustained in case the licensee commits fraud or unfair practices in connection with his or her business as a public adjuster apprentice. The aggregate liability of the surety for all such damages may not exceed the amount of the bond, and the bond may not be terminated by the issuing insurer unless written notice of at least 30 days is given to the licensee and filed with the department.

~~(a) A natural person at least 18 years of age.~~

~~(b) A United States citizen or legal alien who possesses~~

603728

~~work authorization from the United States Bureau of Citizenship and Immigration Services.~~

~~(c) Trustworthy and has such business reputation as would reasonably ensure that the applicant will conduct business as a public adjuster apprentice fairly and in good faith and without detriment to the public.~~

~~(2) All applicable license fees, as prescribed in s. 624.501, must be paid in full before issuance of the license.~~

~~(3) An applicant must pass the required written examination before a license may be issued.~~

~~(4) An applicant must have received designation as an Accredited Claims Adjuster (ACA), as a Certified Adjuster (CA), or as a Certified Claims Adjuster (CCA) after completion of training that qualifies the applicant to engage in the business of a public adjuster apprentice fairly and without injury to the public. Such training and instruction must address adjusting damages and losses under insurance contracts, the terms and effects of insurance contracts, and knowledge of the laws of this state relating to insurance contracts.~~

~~(5) At the time of application for license as a public adjuster apprentice, the applicant shall file with the department a bond executed and issued by a surety insurer authorized to transact such business in this state in the amount of $50,000, conditioned upon the faithful performance of his or her duties as a public adjuster apprentice under the license for which the applicant has applied, and thereafter maintain the bond unimpaired throughout the existence of the license and for at least 1 year after termination of the license. The bond shall be in favor of the department and shall specifically authorize~~

603728

~~recovery by the department of the damages sustained in case the licensee commits fraud or unfair practices in connection with his or her business as a public adjuster apprentice. The aggregate liability of the surety for all such damages may not exceed the amount of the bond, and the bond may not be terminated by the issuing insurer unless written notice of at least 30 days is given to the licensee and filed with the department.~~

~~(6) A public adjuster apprentice shall complete at a minimum 100 hours of employment per month for 12 months of employment under the supervision of a licensed and appointed all-lines public adjuster in order to qualify for licensure as a public adjuster. The department may adopt rules that establish standards for such employment requirements.~~

(2)~~(7)~~ An appointing public adjusting firm may not maintain more than four ~~12~~ public adjuster apprentices simultaneously. However, a supervising public adjuster may not be responsible for more than one ~~three~~ public adjuster apprentice ~~apprentices~~ simultaneously and shall be accountable for the acts of the ~~all~~ public adjuster apprentice ~~apprentices~~ which are related to transacting business as a public adjuster apprentice. This subsection does not apply to a public adjusting firm that adjusts claims primarily for commercial entities with operations in more than one state and that does not directly or indirectly perform adjusting services for insurers or individual homeowners.

~~(8) An apprentice license is effective for 18 months unless the license expires due to lack of maintaining an appointment; is surrendered by the licensee; is terminated, suspended, or~~

603728

~~revoked by the department; or is canceled by the department upon issuance of a public adjuster license. The department may not issue a public adjuster apprentice license to any individual who has held such a license in this state within 2 years after expiration, surrender, termination, revocation, or cancellation of the license.~~

~~(9) After completing the requirements for employment as a public adjuster apprentice, the licensee may file an application for a public adjuster license. The applicant and supervising public adjuster or public adjusting firm must each file a sworn affidavit, on a form prescribed by the department, verifying that the employment of the public adjuster apprentice meets the requirements of this section.~~

~~(10) In no event shall A public adjuster apprentice licensed under this section perform any of the functions for which a public adjuster's license is required after expiration of the public adjuster apprentice license without having obtained a public adjuster license.~~

(3) ~~(11)~~ A public adjuster apprentice has the same authority as the licensed public adjuster or public adjusting firm that employs the apprentice except that an apprentice may not execute contracts for the services of a public adjuster or public adjusting firm ~~and may not solicit contracts for the services except under the direct supervision and guidance of the supervisory public adjuster~~. An individual may not be, act as, or hold himself or herself out to be a public adjuster apprentice unless the individual is licensed as an all-lines adjuster and holds a current appointment by a licensed public all-lines adjuster or a public adjusting firm that employs a

603728

licensed ~~all-lines~~ public adjuster.

Section 11. Section 626.8695, Florida Statutes, is amended to read:

626.8695 Primary adjuster.—

(1) Each business location established by an adjuster, ~~person operating~~ an adjusting firm, a corporation, or an association ~~and each location of a multiple location adjusting firm~~ must designate with the department a primary adjuster who is licensed and appointed to adjust the insurance claims adjusted by the business location.

(2) An adjusting firm and each of its branch firms shall designate a primary adjuster ~~for each such firm or location~~ and ~~must~~ file with the department, at the department's designated website, the name and license number of such primary adjuster and the physical address of the adjusting firm or branch firm location where he or she is the primary adjuster~~, on a form approved by the department~~. The designation of the primary adjuster may be changed at the option of the adjusting firm. Any such change is effective upon notification to the department. Notice of change must be provided ~~sent~~ to the department within 30 days after such change.

(3) ~~(2)(a)~~ For purposes of this section, a "primary adjuster" is the licensed adjuster who is responsible for the ~~hiring and~~ supervision of all individuals within an adjusting firm location who act ~~deal with the public and who acts~~ in the capacity of ~~a public adjuster as defined in s. 626.854, or~~ an ~~independent~~ adjuster as defined in this chapter ~~s. 626.855~~. An adjuster may be designated as a primary adjuster for more than ~~only~~ one adjusting firm location provided no person engages in

603728

activity requiring licensure as an adjuster at any location when an adjuster is not physically present.

(4) ~~(b)~~ For purposes of this section, an "adjusting firm" is a location where an independent or public adjuster is engaged in the business of insurance.

(5) ~~(3)~~ The department may suspend or revoke the license of the primary adjuster if the adjusting firm employs or contracts any person who has had a license denied or any person whose license is currently suspended or revoked. However, if a person has been denied a license for failure to pass a required examination, he or she may be employed or contracted to perform clerical or administrative functions for which licensure is not required.

(6) ~~(4)~~ The primary adjuster in an ~~unincorporated~~ adjusting firm~~, or the primary adjuster in an incorporated adjusting firm in which no officer, director, or stockholder is an adjuster,~~ is ~~responsible and~~ accountable for misconduct or violations of this code committed by the primary adjuster or by any other person ~~the acts of salaried employees~~ under his or her direct supervision ~~and control~~ while acting on behalf of the adjusting firm. This section does not render a primary adjuster ~~Nothing in this section renders any person~~ criminally liable for an ~~or subject to any disciplinary proceedings for any~~ act unless the primary adjuster ~~person~~ personally committed the act or knew or should have known of the act and of the facts constituting a violation of this code.

(7) ~~(5)~~ The department may suspend or revoke the license of any adjuster who is employed or contracted by a person whose license is currently suspended or revoked.

603728

(8) ~~(6)~~ An adjusting firm location may not conduct the business of insurance unless a primary adjuster is designated and provides services to the firm at all times. If the ~~Failure of the person operating the adjusting firm to designate a~~ primary adjuster designated with the department ends his or her affiliation with the firm for any reason and if the firm fails to designate another primary adjuster, as required in subsection (2), within 90 days, the firm license automatically expires on the 91st day after the date the designated primary adjuster ended his or her affiliation with ~~for~~ the firm~~, or for each location, as applicable, on a form prescribed by the department within 30 days after inception of the firm or change of primary adjuster designation, constitutes grounds for requiring the adjusting firm to obtain an adjusting firm license pursuant to s. 626.8696~~.

(9) ~~(7)~~ Any adjusting firm may determine a ~~request, on a form prescribed by the department, verification from the department of any~~ person's current licensure status by submitting an appointment request~~. If a request is mailed to the office~~ within 5 working days after the date an adjuster is hired. If~~, and~~ the department subsequently notifies the adjusting firm that its appointee's ~~an employee's~~ license is currently suspended, revoked, or has been denied, the license of the primary adjuster may ~~shall~~ not be revoked or suspended if the unlicensed person is immediately dismissed from employment as an adjuster with the firm.

Section 12. Section 626.872, Florida Statutes, is repealed.

Section 13. Subsection (1) of section 626.874, Florida Statutes, is amended to read:

603728

626.874 Catastrophe or emergency adjusters.—

(1) In the event of a catastrophe or emergency, the department may issue a license, for the purposes and under the conditions and for the period of emergency as it shall determine, to persons who are residents or nonresidents of this state, who are at least 18 years of age, who are United States citizens or legal aliens who possess work authorization from the United States Bureau of Citizenship and Immigration Services, and who are not licensed adjusters under this part but who have been designated and certified to it as qualified to act as adjusters ~~by all-lines resident adjusters,~~ by an authorized insurer~~, or by a licensed general lines agent~~ to adjust claims, losses, or damages under policies or contracts of insurance issued by such insurers, or by the primary adjuster of an independent adjusting firm contracted with an authorized insurer to adjust claims on behalf of the insurer. The fee for the license is as provided in s. 624.501(12)(c).

Section 14. Subsection (2) of section 626.875, Florida Statutes, is amended to read:

626.875 Office and records.—

(2) The records of the adjuster relating to a particular claim or loss shall be so retained in the adjuster's place of business for a period of not less than 5 ~~3~~ years after completion of the adjustment. This provision shall not be deemed to prohibit return or delivery to the insurer or insured of documents furnished to or prepared by the adjuster and required by the insurer or insured to be returned or delivered thereto.

Section 15. Section 626.876, Florida Statutes, is amended to read:

603728

626.876 Exclusive employment; public adjusters, all-lines ~~independent~~ adjusters.—

(1) An individual licensed ~~and appointed~~ as a public adjuster may not be simultaneously licensed as an all-lines adjuster ~~employed during the same period by more than one public adjuster or public adjuster firm or corporation~~.

(2) An individual licensed as an all-lines adjuster and appointed as an independent adjuster, a company employee adjuster, or a public adjuster apprentice may not be simultaneously appointed, contracted, or employed as an adjuster that requires a different appointment type ~~during the same period by more than one independent adjuster or independent adjuster firm or corporation~~.

Section 16. Section 626.879, Florida Statutes, is repealed.

Section 17. This act shall take effect January 1, 2018.

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.	
04/26/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Garcia) recommended the following:

Senate Amendment to Amendment (603728) (with title amendment)

Delete lines 340 - 397
and insert:
(2) An adjusting firm and each of its business locations shall designate a primary adjuster ~~for each such firm or location~~ and ~~must~~ file with the department, at the department's designated website, the name and license number of such primary adjuster and the physical address of the adjusting firm or

662786

business location where he or she is the primary adjuster~~, on a form approved by the department~~. The designation of the primary adjuster may be changed at the option of the adjusting firm. Any such change is effective upon notification to the department. Notice of change must be provided ~~sent~~ to the department within 30 days after such change.

(3)~~(2)(a)~~ For purposes of this section, a "primary adjuster" is the licensed adjuster who is responsible for the ~~hiring and~~ supervision of all individuals within an adjusting firm location who act ~~deal with the public and who acts~~ in the capacity of ~~a public adjuster as defined in s. 626.854, or~~ an ~~independent~~ adjuster as defined in this chapter ~~s. 626.855~~. An adjuster may be designated as a primary adjuster for more than ~~only~~ one adjusting firm location provided no person engages in activity requiring licensure as an adjuster at any location when an adjuster is not physically present.

(4)~~(b)~~ For purposes of this section, an "adjusting firm" is a location where an independent or public adjuster is engaged in the business of insurance.

(5)~~(3)~~ The department may suspend or revoke the license of the primary adjuster if the adjusting firm employs or contracts any person who has had a license denied or any person whose license is currently suspended or revoked. However, if a person has been denied a license for failure to pass a required examination, he or she may be employed or contracted to perform clerical or administrative functions for which licensure is not required.

(6)~~(4)~~ The primary adjuster in an ~~unincorporated~~ adjusting firm~~, or the primary adjuster in an incorporated adjusting firm~~

662786

~~in which no officer, director, or stockholder is an adjuster,~~ is ~~responsible and~~ accountable for misconduct or violations of this code committed by the primary adjuster or by any other person ~~the acts of salaried employees~~ under his or her direct supervision ~~and control~~ while acting on behalf of the adjusting firm. This section does not render a primary adjuster ~~Nothing in this section renders any person~~ criminally liable for an ~~or subject to any disciplinary proceedings for any~~ act unless the primary adjuster ~~person~~ personally committed the act or knew or should have known of the act and of the facts constituting a violation of this code.

(7) ~~(5)~~ The department may suspend or revoke the license of any adjuster who is employed or contracted by a person whose license is currently suspended or revoked.

(8) ~~(6)~~ An adjusting firm ~~location~~ may not conduct the business of insurance unless a primary adjuster is designated and provides services to the firm at all times. If the ~~Failure of the person operating the adjusting firm to designate a~~ primary adjuster designated with the department ends his or her affiliation with the firm for any reason and if the firm fails to designate another primary adjuster for a business location as required in subsection (2), the firm must cease operations at the location until a primary adjuster is appointed ~~for the firm, or for each~~

insurance claims; providing an exception for attorneys and public adjusters; repealing s. 626.8541, F.S., relating to public adjuster apprentices; amending s. 626.8548, F.S.; redefining the term "all-lines adjuster"; creating s. 626.8561, F.S.; defining the term "public adjuster apprentice"; amending s. 626.8584, F.S.; redefining the term "nonresident all-lines adjuster"; amending s. 626.861, F.S.; revising construction relating to employees of an insurer; amending s. 626.864, F.S.; revising the permissible appointments of all-lines adjusters; amending s. 626.865, F.S.; revising the qualifications for licensure for public adjusters; amending s. 626.8651, F.S.; requiring public adjuster apprentices to be appointed, rather than licensed, by the department; specifying qualifications for such appointments; revising requirements and limitations for public adjusting firms and public adjusters who supervise public adjuster apprentices; revising certain prohibited acts and exceptions to such acts of public adjuster apprentices; conforming provisions to changes made by the act; amending s. 626.8695, F.S.; revising requirements for designating primary adjusters; redefining the term "primary adjuster"; revising the accountability of a primary adjuster for persons under his or her supervision; revising a prohibition against an adjusting firm location conducting insurance business under certain circumstances; revising procedures for an adjusting firm to determine a

598160

576-04073-17

person's current licensure status; amending s. 626.8696, F.S.; revising conditions for the issuance of an adjusting firm license; revising application requirements for such license; providing rulemaking authority of the department; prohibiting the department from requiring certain information on an application; providing for expiration of such license; repealing s. 626.872, F.S., relating to all-lines adjuster temporary licenses; amending s. 626.874, F.S.; revising conditions for the department to issue adjuster licenses in the event of catastrophes or emergencies; amending s. 626.875, F.S.; revising the minimum time period in a records retention requirement for adjusters; amending s. 626.876, F.S.; revising certain prohibitions relating to exclusive employment of public adjusters and all-lines adjusters and appointed independent adjusters; repealing s. 626.879, F.S., relating to pools of insurance adjusters; amending s. 626.9953, F.S.; conforming a cross-reference; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (20) of section 624.501, Florida Statutes, is amended to read:

624.501 Filing, license, appointment, and miscellaneous fees.—The department, commission, or office, as appropriate, shall collect in advance, and persons so served shall pay to it in advance, fees, licenses, and miscellaneous charges as

598160

576-04073-17

follows:

~~(20) Adjusting firm, original or renewal 3-year license $60.00~~

Section 2. Subsection (1) of section 626.015, Florida Statutes, is amended to read:

626.015 Definitions.—As used in this part:

(1) "Adjuster" means a public adjuster as defined in s. 626.854~~, a public adjuster apprentice as defined in s. 626.8541,~~ or an all-lines adjuster as defined in s. 626.8548.

Section 3. Subsection (1) of section 626.022, Florida Statutes, is amended to read:

626.022 Scope of part.—

(1) This part applies as to insurance agents, service representatives, adjusters, adjusting firms, and insurance agencies; as to any and all kinds of insurance; and as to stock insurers, mutual insurers, reciprocal insurers, and all other types of insurers, except that:

(a) It does not apply as to reinsurance, except that ss. 626.011-626.022, ss. 626.112-626.181, ss. 626.191-626.211, ss. 626.291-626.301, s. 626.331, ss. 626.342-626.521, ss. 626.541-626.591, and ss. 626.601-626.711 shall apply as to reinsurance intermediaries as defined in s. 626.7492.

(b) The applicability of this chapter as to fraternal benefit societies shall be as provided in chapter 632.

(c) It does not apply to a bail bond agent, as defined in s. 648.25, except as provided in chapter 648 or chapter 903.

(d) This part does not apply to a certified public accountant licensed under chapter 473 who is acting within the scope of the practice of public accounting, as defined in s.

598160

576-04073-17

473.302, provided that the activities of the certified public accountant are limited to advising a client of the necessity of obtaining insurance, the amount of insurance needed, or the line of coverage needed, and provided that the certified public accountant does not directly or indirectly receive or share in any commission or referral fee.

Section 4. Subsection (7) of section 626.112, Florida Statutes, is amended to read:

626.112 License and appointment required; agents, customer representatives, adjusters, insurance agencies, adjusting firms, service representatives, managing general agents.—

(7)(a) An individual, firm, partnership, corporation, association, or other entity may ~~shall~~ not act in its own name or under a trade name, directly or indirectly, as an insurance agency unless it complies with s. 626.172 with respect to possessing an insurance agency license for each place of business at which it engages in an activity that may be performed only by a licensed insurance agent. However, an insurance agency that is owned and operated by a single licensed agent conducting business in his or her individual name and not employing or otherwise using the services of or appointing other licensees is ~~shall be~~ exempt from the agency licensing requirements of this subsection.

(b) A branch place of business that is established by a licensed agency is considered a branch agency and is not required to be licensed so long as it transacts business under the same name and federal tax identification number as the licensed agency and has designated with the department a licensed agent in charge of the branch location as required by

598160

576-04073-17

s. 626.0428 and the address and telephone number of the branch location have been submitted to the department for inclusion in the licensing record of the licensed agency within 30 days after insurance transactions begin at the branch location.

(c) An individual, a firm, a partnership, a corporation, an association, or any other entity may not act in its own name or under a trade name, directly or indirectly, as an adjusting firm unless it possesses an adjusting firm license under s. 626.8696 for each place of business at which it engages in an activity that may be performed only by a licensed adjuster. However, an insurance company authorized to transact insurance in this state which directly appoints adjusters, or an adjusting firm that is owned and operated by a single licensed adjuster who is conducting business in his or her individual name and who is not employing or otherwise using the services of or appointing other licensees, is exempt from the adjusting firm licensing requirements of this subsection.

(d) A branch place of business that is established by a licensed adjusting firm is considered a branch firm and is not required to be licensed so long as:

1. It transacts business under the same name and federal tax identification number as the licensed adjusting firm;

2. It has designated with the department a licensed primary adjuster in charge of the branch firm as required by s. 626.8695; and

3. Within 30 days after insurance transactions begin at the branch firm, the address and telephone number of the branch firm are submitted to the department for inclusion in the licensing record of the licensed adjusting firm.

(e) ~~(c)~~ If an agency or firm is required to be licensed but fails to file an application for licensure in accordance with this section, the department must ~~shall~~ impose on the agency or firm an administrative penalty of up to $2,500 for a first violation and up to $10,000 for any subsequent violation.

~~(d) Effective October 1, 2015, the department must automatically convert the registration of an approved registered insurance agency to an insurance agency license.~~

Section 5. Present subsections (7) through (19) of section 626.854, Florida Statutes, are renumbered as subsections (6) through (18), respectively, subsection (1) and present subsections (6), (7), (11), (18), and (19) are amended, and a new subsection (19) is added to that section, to read:

626.854 "Public adjuster" defined; prohibitions.—The Legislature finds that it is necessary for the protection of the public to regulate public insurance adjusters and to prevent the unauthorized practice of law.

(1) A "public adjuster" is any person, except a duly licensed attorney at law as exempted under s. 626.860, who, for money, commission, or any other thing of value, directly or indirectly prepares, completes, or files an insurance claim ~~form~~ for an insured or third-party claimant or who, for money, commission, or any other thing of value, acts on behalf of, or aids an insured or third-party claimant in negotiating for or effecting the settlement of a claim or claims for loss or damage covered by an insurance contract or who advertises for employment as an adjuster of such claims. The term also includes any person who, for money, commission, or any other thing of value, directly or indirectly solicits, investigates, or adjusts

such claims on behalf of a public adjuster, an insured, or a third-party claimant. The term does not include a person who photographs or inventories damaged personal property or business personal property or a person performing duties under another professional license, if such person does not otherwise solicit, adjust, investigate, or negotiate for or attempt to effect the settlement of a claim.

~~(6) A public adjuster may not directly or indirectly through any other person or entity initiate contact or engage in face-to-face or telephonic solicitation or enter into a contract with any insured or claimant under an insurance policy until at least 48 hours after the occurrence of an event that may be the subject of a claim under the insurance policy unless contact is initiated by the insured or claimant.~~

(6) ~~(7)~~ An insured or claimant may cancel a public adjuster's contract to adjust a claim without penalty or obligation within 3 business days after the date on which the contract is executed or within 3 business days after the date on which the insured or claimant has notified the insurer of the claim, ~~by phone or in writing,~~ whichever is later. The public adjuster's contract must disclose to the insured or claimant his or her right to cancel the contract and advise the insured or claimant that notice of cancellation must be submitted in writing and sent by certified mail, return receipt requested, or other form of mailing that provides proof thereof, to the public adjuster at the address specified in the contract; provided, during any state of emergency as declared by the Governor and for 1 year after the date of loss, the insured or claimant has 5 business days after the date on which the contract is executed

to cancel a public adjuster's contract.

(10)(a) ~~(11)(a)~~ If a public adjuster enters into a contract with an insured or claimant to reopen a claim or file a supplemental claim that seeks additional payments for a claim that has been previously paid in part or in full or settled by the insurer, the public adjuster may not charge, agree to, or accept from any source compensation, payment, commission, fee, or any other thing of value based on a previous settlement or previous claim payments by the insurer for the same cause of loss. The charge, compensation, payment, commission, fee, or any other thing of value must be based only on the claim payments or settlement obtained through the work of the public adjuster after entering into the contract with the insured or claimant. Compensation for the reopened or supplemental claim may not exceed 20 percent of the reopened or supplemental claim payment. In no event shall the contracts described in this paragraph exceed the limitations in paragraph (b).

(b) A public adjuster may not charge, agree to, or accept from any source compensation, payment, commission, fee, or any other thing of value in excess of:

1. Ten percent of the amount of insurance claim payments made by the insurer for claims based on events that are the subject of a declaration of a state of emergency by the Governor. This provision applies to claims made during the year after the declaration of emergency. After that year, the limitations in subparagraph 2. apply.

2. Twenty percent of the amount of insurance claim payments made by the insurer for claims that are not based on events that are the subject of a declaration of a state of emergency by the

Governor.

(c) Insurance claim payments made by the insurer do not include policy deductibles, and public adjuster compensation may not be based on the deductible portion of a claim.

(d) ~~(c)~~ Any maneuver, shift, or device through which the limits on compensation set forth in this subsection are exceeded is a violation of this chapter punishable as provided under s. 626.8698.

(17) ~~(18)~~ A public adjuster, a public adjuster apprentice, or a person acting on behalf of an adjuster or apprentice may not enter into a contract or accept a power of attorney that vests in the public adjuster, the public adjuster apprentice, or the person acting on behalf of the adjuster or apprentice the effective authority to choose the persons or entities that will perform repair work in a property insurance claim or provide goods or services that will require the insured or third-party claimant to expend funds in excess of those payable to the public adjuster under the terms of the contract for adjusting services.

(18) ~~(19)~~ Subsections (5)-(17) ~~(5)-(18)~~ apply only to residential property insurance policies and condominium unit owner policies as described in s. 718.111(11).

(19) Except as otherwise provided in this chapter, no person, except an attorney at law or a public adjuster, may for money, commission, or any other thing of value, directly or indirectly:

(a) Prepare, complete, or file an insurance claim for an insured or a third-party claimant;

(b) Act on behalf of or aid an insured or a third-party

598160

576-04073-17

claimant in negotiating for or effecting the settlement of a claim for loss or damage covered by an insurance contract;

(c) Advertise for employment as a public adjuster; or

(d) Solicit, investigate, or adjust a claim on behalf of a public adjuster, an insured, or a third-party claimant.

Section 6. Section 626.8541, Florida Statutes, is repealed.

Section 7. Section 626.8548, Florida Statutes, is amended to read:

626.8548 "All-lines adjuster" defined.—An "all-lines adjuster" is a person who, for money, commission, or any other thing of value, directly or indirectly ~~is self-employed or employed by an insurer, a wholly owned subsidiary of an insurer, or an independent adjusting firm or other independent adjuster, and who~~ undertakes on behalf of a public adjuster or an insurer ~~or other insurers under common control or ownership~~ to ascertain and determine the amount of any claim, loss, or damage payable under an insurance contract or undertakes to effect settlement of such claim, loss, or damage. The term also includes any person who, for money, commission, or any other thing of value, directly or indirectly solicits claims on behalf of a public adjuster, but does not include a paid spokesperson used as part of a written or an electronic advertisement or a person who photographs or inventories damaged personal property or business personal property if such person does not otherwise adjust, investigate, or negotiate for or attempt to effect the settlement of a claim. The term does not apply to life insurance or annuity contracts.

Section 8. Section 626.8561, Florida Statutes, is created to read:

598160

576-04073-17

626.8561 "Public adjuster apprentice" defined.—The term "public adjuster apprentice" means a person licensed as an all-lines adjuster who:

(1) Is appointed and employed or contracted by a public adjuster or a public adjusting firm;

(2) Assists the public adjuster or public adjusting firm in ascertaining and determining the amount of any claim, loss, or damage payable under an insurance contract, or who undertakes to effect settlement of such claim, loss, or damage; and

(3) Satisfies the requirements of s. 626.8651.

Section 9. Subsection (3) of section 626.8584, Florida Statutes, is amended to read:

626.8584 "Nonresident all-lines adjuster" defined.—A "nonresident all-lines adjuster" means a person who:

(3) Is licensed as an all-lines adjuster and self-appointed or appointed and employed or contracted by an independent adjusting firm or other independent adjuster, by an insurer admitted to do business in this state or a wholly owned subsidiary of an insurer admitted to do business in this state, or by a public adjuster or a public adjusting firm ~~other insurers under the common control or ownership of such insurer~~.

Section 10. Subsection (1) of section 626.861, Florida Statutes, is amended to read:

626.861 Insurer's officers, insurer's employees, reciprocal insurer's representatives; adjustments by.—

(1) ~~Nothing in~~ This part may not ~~shall~~ be construed to prevent an executive officer of any insurer, an ~~or a regularly salaried~~ employee of an insurer handling claims with respect to health insurance, an employee of an insurer handling claims with

598160

576-04073-17

respect to residential property insurance in which the amount of coverage for the applicable type of loss is contractually limited to $500 or less, or the duly designated attorney or agent authorized and acting for subscribers to reciprocal insurers~~,~~ from adjusting any claim loss or damage under any insurance contract of such insurer.

Section 11. Subsection (3) of section 626.864, Florida Statutes, is amended to read:

626.864 Adjuster license types.—

(3) An all-lines adjuster may be appointed as an independent adjuster, public adjuster apprentice, or company employee adjuster, but not more than one of these ~~both~~ concurrently.

Section 12. Paragraphs (d) and (e) of subsection (1) of section 626.865, Florida Statutes, are amended to read:

626.865 Public adjuster's qualifications, bond.—

(1) The department shall issue a license to an applicant for a public adjuster's license upon determining that the applicant has paid the applicable fees specified in s. 624.501 and possesses the following qualifications:

(d) Has had sufficient experience, training, or instruction concerning the adjusting of damages or losses under insurance contracts, other than life and annuity contracts, is sufficiently informed as to the terms and effects of the provisions of those types of insurance contracts, and possesses adequate knowledge of the laws of this state relating to such contracts as to enable and qualify him or her to engage in the business of insurance adjuster fairly and without injury to the public or any member thereof with whom the applicant may have

598160

576-04073-17

business as a public adjuster~~, or has been licensed and employed as a resident insurance company adjuster or independent adjuster in this state on a continual basis for the past year~~.

(e) Has been licensed in this state as an all-lines adjuster, and has been appointed on a continual basis for the previous 6 months ~~Is licensed~~ as a public adjuster apprentice under s. 626.8561, as an independent adjuster under s. 626.855, or as a company employee adjuster under s. 626.856 ~~under s. 626.8651 and complies with the requirements of that license throughout the licensure period~~.

Section 13. Section 626.8651, Florida Statutes, is amended to read:

626.8651 Public adjuster apprentice appointment ~~license~~; qualifications.—

(1)(a) The department shall issue an appointment ~~a license~~ as a public adjuster apprentice to a licensee ~~an applicant~~ who ~~is~~:

1. Is licensed as an all-lines adjuster under s. 626.866;

2. Has filed with the department a bond executed and issued by a surety insurer that is authorized to transact such business in this state in the amount of $50,000, which is conditioned upon the faithful performance of his or her duties as a public adjuster apprentice; and

3. Maintains such bond unimpaired throughout the existence of the appointment and for at least 1 year after termination of the appointment.

(b) The bond must be in favor of the department and must specifically authorize recovery by the department of the damages sustained in case the licensee commits fraud or unfair practices

in connection with his or her business as a public adjuster apprentice. The aggregate liability of the surety for all such damages may not exceed the amount of the bond, and the bond may not be terminated by the issuing insurer unless written notice of at least 30 days is given to the licensee and filed with the department.

~~(a) A natural person at least 18 years of age.~~

~~(b) A United States citizen or legal alien who possesses work authorization from the United States Bureau of Citizenship and Immigration Services.~~

~~(c) Trustworthy and has such business reputation as would reasonably ensure that the applicant will conduct business as a public adjuster apprentice fairly and in good faith and without detriment to the public.~~

~~(2) All applicable license fees, as prescribed in s. 624.501, must be paid in full before issuance of the license.~~

~~(3) An applicant must pass the required written examination before a license may be issued.~~

~~(4) An applicant must have received designation as an Accredited Claims Adjuster (ACA), as a Certified Adjuster (CA), or as a Certified Claims Adjuster (CCA) after completion of training that qualifies the applicant to engage in the business of a public adjuster apprentice fairly and without injury to the public. Such training and instruction must address adjusting damages and losses under insurance contracts, the terms and effects of insurance contracts, and knowledge of the laws of this state relating to insurance contracts.~~

~~(5) At the time of application for license as a public adjuster apprentice, the applicant shall file with the~~

~~department a bond executed and issued by a surety insurer authorized to transact such business in this state in the amount of $50,000, conditioned upon the faithful performance of his or her duties as a public adjuster apprentice under the license for which the applicant has applied, and thereafter maintain the bond unimpaired throughout the existence of the license and for at least 1 year after termination of the license. The bond shall be in favor of the department and shall specifically authorize recovery by the department of the damages sustained in case the licensee commits fraud or unfair practices in connection with his or her business as a public adjuster apprentice. The aggregate liability of the surety for all such damages may not exceed the amount of the bond, and the bond may not be terminated by the issuing insurer unless written notice of at least 30 days is given to the licensee and filed with the department.~~

~~(6) A public adjuster apprentice shall complete at a minimum 100 hours of employment per month for 12 months of employment under the supervision of a licensed and appointed all-lines public adjuster in order to qualify for licensure as a public adjuster. The department may adopt rules that establish standards for such employment requirements.~~

(2) ~~(7)~~ An appointing public adjusting firm may not maintain more than four ~~12~~ public adjuster apprentices simultaneously. However, a supervising public adjuster may not be responsible for more than one ~~three~~ public adjuster apprentice ~~apprentices~~ simultaneously and shall be accountable for the acts of the ~~all~~ public adjuster apprentice ~~apprentices~~ which are related to transacting business as a public adjuster apprentice. This

subsection does not apply to a public adjusting firm that adjusts claims primarily for commercial entities with operations in more than one state and that does not directly or indirectly perform adjusting services for insurers or individual homeowners.

~~(8) An apprentice license is effective for 18 months unless the license expires due to lack of maintaining an appointment; is surrendered by the licensee; is terminated, suspended, or revoked by the department; or is canceled by the department upon issuance of a public adjuster license. The department may not issue a public adjuster apprentice license to any individual who has held such a license in this state within 2 years after expiration, surrender, termination, revocation, or cancellation of the license.~~

~~(9) After completing the requirements for employment as a public adjuster apprentice, the licensee may file an application for a public adjuster license. The applicant and supervising public adjuster or public adjusting firm must each file a sworn affidavit, on a form prescribed by the department, verifying that the employment of the public adjuster apprentice meets the requirements of this section.~~

~~(10) In no event shall A public adjuster apprentice licensed under this section perform any of the functions for which a public adjuster's license is required after expiration of the public adjuster apprentice license without having obtained a public adjuster license.~~

(3) ~~(11)~~ A public adjuster apprentice has the same authority as the licensed public adjuster or public adjusting firm that employs the apprentice except that an apprentice may not execute

contracts for the services of a public adjuster or public adjusting firm ~~and may not solicit contracts for the services except under the direct supervision and guidance of the supervisory public adjuster~~. An individual may not be, act as, or hold himself or herself out to be a public adjuster apprentice unless the individual is licensed as an all-lines adjuster and holds a current appointment by a licensed public all-lines adjuster or a public adjusting firm that employs a licensed ~~all-lines~~ public adjuster.

Section 14. Section 626.8695, Florida Statutes, is amended to read:

626.8695 Primary adjuster.—

(1) Each business location established by an adjuster, ~~person operating~~ an adjusting firm, a corporation, or an association ~~and each location of a multiple location adjusting firm~~ must designate with the department a primary adjuster who is licensed and appointed to adjust the insurance claims adjusted by the business location.

(2) An adjusting firm and each of its branch firms shall designate a primary adjuster ~~for each such firm or location~~ and ~~must~~ file with the department, at the department's designated website, the name and license number of such primary adjuster and the physical address of the adjusting firm or branch firm location where he or she is the primary adjuster~~, on a form approved by the department~~. The designation of the primary adjuster may be changed at the option of the adjusting firm. Any such change is effective upon notification to the department. Notice of change must be provided ~~sent~~ to the department within 30 days after such change.

(3) ~~(2)(a)~~ For purposes of this section, a "primary adjuster" is the licensed adjuster who is responsible for the ~~hiring and~~ supervision of all individuals within an adjusting firm location who act ~~deal with the public and who acts~~ in the capacity of ~~a public adjuster as defined in s. 626.854, or~~ an ~~independent~~ adjuster as defined in this chapter ~~s. 626.855~~. An adjuster may be designated as a primary adjuster for more than ~~only~~ one adjusting firm location provided no person engages in activity requiring licensure as an adjuster at any location when an adjuster is not physically present.

(4) ~~(b)~~ For purposes of this section, an "adjusting firm" is a location where an independent or public adjuster is engaged in the business of insurance.

(5) ~~(3)~~ The department may suspend or revoke the license of the primary adjuster if the adjusting firm employs or contracts any person who has had a license denied or any person whose license is currently suspended or revoked. However, if a person has been denied a license for failure to pass a required examination, he or she may be employed or contracted to perform clerical or administrative functions for which licensure is not required.

(6) ~~(4)~~ The primary adjuster in an ~~unincorporated~~ adjusting firm~~, or the primary adjuster in an incorporated adjusting firm in which no officer, director, or stockholder is an adjuster,~~ is ~~responsible and~~ accountable for misconduct or violations of this code committed by the primary adjuster or by any other person ~~the acts of salaried employees~~ under his or her direct supervision ~~and control~~ while acting on behalf of the adjusting firm. This section does not render a primary adjuster ~~Nothing in~~

~~this section renders any person~~ criminally liable for an ~~or subject to any disciplinary proceedings for any~~ act unless the primary adjuster ~~person~~ personally committed the act or knew or should have known of the act and of the facts constituting a violation of this code.

(7) ~~(5)~~ The department may suspend or revoke the license of any adjuster who is employed or contracted by a person whose license is currently suspended or revoked.

(8) ~~(6)~~ An adjusting firm location may not conduct the business of insurance unless a primary adjuster is designated and provides services to the firm at all times. If the ~~Failure of the person operating the adjusting firm to designate a~~ primary adjuster designated with the department ends his or her affiliation with the firm for any reason and if the firm fails to designate another primary adjuster, as required in subsection (2), within 90 days, the firm license automatically expires on the 91st day after the date the designated primary adjuster ended his or her affiliation with ~~for~~ the firm~~, or for each location, as applicable, on a form prescribed by the department within 30 days after inception of the firm or change of primary adjuster designation, constitutes grounds for requiring the adjusting firm to obtain an adjusting firm license pursuant to s. 626.8696~~.

(9) ~~(7)~~ Any adjusting firm may determine a ~~request, on a form prescribed by the department, verification from the department of any~~ person's current licensure status by submitting an appointment request~~. If a request is mailed to the office~~ within 5 working days after the date an adjuster is hired. If~~, and~~ the department subsequently notifies the

adjusting firm that its appointee's ~~an employee's~~ license is currently suspended, revoked, or has been denied, the license of the primary adjuster may ~~shall~~ not be revoked or suspended if the unlicensed person is immediately dismissed from employment as an adjuster with the firm.

Section 15. Section 626.8696, Florida Statutes, is amended to read:

626.8696 Application for adjusting firm license.—

(1) The department may issue an adjusting firm license to a person only after the person files a written application with the department and qualifies for such license.

(2) An application for an adjusting firm license must be signed by an individual required to be listed in the application under paragraph (a). An adjusting firm may authorize a third party to complete, submit, and sign an application on the firm's behalf. However, the firm must ensure that the information on the application is true and correct, and the firm is accountable for any misstatement or misrepresentation. The application for an adjusting firm license must include:

(a) The name of each majority owner, partner, officer, ~~and~~ director, president, senior vice president, secretary, treasurer, and limited liability company member who directs or participates in the management or control of the adjusting firm.

(b) The resident address of each person required to be listed in the application under paragraph (a).

(c) The name, ~~of the adjusting firm and its~~ principal business street address, and valid e-mail address of the adjusting firm, and the name, street address, and valid e-mail address of the firm's registered agent, person, or company

authorized to accept service on behalf of the firm.

(d) The physical address ~~location~~ of each branch ~~adjusting~~ firm, including its name, valid e-mail address, and telephone number, and the date that the branch firm began transacting insurance business ~~office and the name under which each office conducts or will conduct business~~.

(e) The name of the primary adjuster in full-time charge of the adjusting firm office, including branch firms, and his or her corresponding location.

(f) The fingerprints of each of the following:

1. A sole proprietor, if the applicant is a sole proprietor;

2. Each individual required to be listed in the application under paragraph (a); and

3. Each individual who directs or participates in the management or control of an incorporated firm whose shares are not traded on a securities exchange.

Fingerprints must be taken by a law enforcement agency or other entity approved by the department, must be accompanied by the fingerprint processing fee specified in s. 624.501, and must be processed in accordance with s. 624.34. However, fingerprints need not be filed for an individual who is currently licensed and appointed under this chapter. This paragraph does not apply to corporations whose voting shares are traded on a securities exchange.

(g) ~~(c)~~ Such ~~Any~~ additional information that the department requires by rule to ascertain the trustworthiness and competence of persons required to be listed on the application and to

ascertain that such persons meet the requirements of this code. However, the department may not require that credit or character reports be submitted for such persons.

~~(2) An application for an adjusting firm license must be signed by each owner of the firm. If the firm is incorporated, the application must be signed by the president and secretary of the corporation.~~

~~(3) Each application must be accompanied by payment of any applicable fee as prescribed in s. 624.501.~~

~~(4) License fees are not refundable.~~

(3)~~(5)~~ The license of an adjusting firm continues in force until it is canceled, ~~required to be licensed pursuant to s. 626.8695 must remain so licensed for a period of 3 years from the date of licensure, unless the license is~~ suspended, or revoked or until it is otherwise terminated or expires by operation of law. The department may suspend or revoke the adjusting firm's authority to do business for activities occurring during the time the firm is licensed, regardless of whether the licensing period has terminated.

Section 16. Section 626.872, Florida Statutes, is repealed.

Section 17. Subsection (1) of section 626.874, Florida Statutes, is amended to read:

626.874 Catastrophe or emergency adjusters.—

(1) In the event of a catastrophe or emergency, the department may issue a license, for the purposes and under the conditions and for the period of emergency as it shall determine, to persons who are residents or nonresidents of this state, who are at least 18 years of age, who are United States citizens or legal aliens who possess work authorization from the

United States Bureau of Citizenship and Immigration Services, and who are not licensed adjusters under this part but who have been designated and certified to it as qualified to act as adjusters ~~by all-lines resident adjusters,~~ by an authorized insurer~~, or by a licensed general lines agent~~ to adjust claims, losses, or damages under policies or contracts of insurance issued by such insurers, or by the primary adjuster of an independent adjusting firm contracted with an authorized insurer to adjust claims on behalf of the insurer. The fee for the license is as provided in s. 624.501(12)(c).

Section 18. Subsection (2) of section 626.875, Florida Statutes, is amended to read:

626.875 Office and records.—

(2) The records of the adjuster relating to a particular claim or loss shall be so retained in the adjuster's place of business for a period of not less than 5 ~~3~~ years after completion of the adjustment. This provision shall not be deemed to prohibit return or delivery to the insurer or insured of documents furnished to or prepared by the adjuster and required by the insurer or insured to be returned or delivered thereto.

Section 19. Section 626.876, Florida Statutes, is amended to read:

626.876 Exclusive employment; public adjusters, all-lines ~~independent~~ adjusters.—

(1) An individual licensed ~~and appointed~~ as a public adjuster may not be simultaneously licensed as an all-lines adjuster ~~employed during the same period by more than one public adjuster or public adjuster firm or corporation~~.

(2) An individual licensed as an all-lines adjuster and

appointed as an independent adjuster, a company employee adjuster, or a public adjuster apprentice may not be simultaneously appointed, contracted, or employed as an adjuster that requires a different appointment type ~~during the same period by more than one independent adjuster or independent adjuster firm or corporation~~.

Section 20. Section 626.879, Florida Statutes, is repealed.

Section 21. Subsection (5) of section 626.9953, Florida Statutes, is amended to read:

626.9953 Qualifications for registration; application required.—

(5) An applicant must submit a set of his or her fingerprints to the department and pay the processing fee established under s. 624.501(23) ~~s. 624.501(24)~~. The department shall submit the applicant's fingerprints to the Department of Law Enforcement for processing state criminal history records checks and local criminal records checks through local law enforcement agencies and for forwarding to the Federal Bureau of Investigation for national criminal history records checks. The fingerprints shall be taken by a law enforcement agency, a designated examination center, or another department-approved entity. The department may not approve an application for registration as a navigator if fingerprints have not been submitted.

Section 22. This act shall take effect January 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 922
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Banking and Insurance Committee; and Senator Garcia
SUBJECT:	Insurance Adjusters
DATE:	April 27, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Billmeier	Knudson	BI	**Fav/CS**
2.	Sanders/Billmeier	Betta	AGG	**Recommend: Fav/CS**
3.	Sanders/Billmeier	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 922 amends various statutes relating to insurance adjusters. The bill eliminates licensure for public adjuster apprentices and requires a public adjuster apprentice to be licensed as an all-lines adjuster and appointed as a public adjuster apprentice.

In addition, the bill:

- Eliminates the temporary license, which is not currently used;
- Revises the requirements for public adjusters to expressly prohibit unlicensed public adjusting that is done directly or indirectly;
- Deletes a provision of law held unconstitutional by the Florida Supreme Court;
- Excludes deductibles from the calculation of an adjuster's fee; and
- Reduces the time a public adjuster apprentice must be supervised before becoming eligible for licensure as a public adjuster.

In addition, the bill makes numerous changes to part VI of ch. 626, F.S., and other statutes applicable to adjusters to improve the efficiency of licensure and enforcement.

The Office of Insurance Regulation does not anticipate any impact to state funds or expenditures.[1]

II. Present Situation:

Insurance Adjusters

Part VI of ch. 626, F.S., regulates insurance adjusters, which includes public adjusters, independent adjusters, and company employee adjusters. A "public adjuster" is any person, other than a licensed attorney, who, for compensation, prepares, completes, or files an insurance claim form for an insured or third-party claimant in negotiating or settling an insurance claim on behalf of an insured or third party.[2] An "independent adjuster" is any person who is self-employed or employed by an independent adjusting firm and who works for an insurer to ascertain and determine the amount of an insurance claim, loss, or damage, or to settle an insurance claim under an insurance contract. A "company employee adjuster" is any person employed in-house by an insurer who ascertains and determines the amount of an insurance claim, loss, or damage, or settles an insurance claim under an insurance contract.

Public adjusters are licensed by the Department of Financial Services (DFS) and are required to meet pre-licensing requirements, which include submitting an application, paying required fees, complying with requirements as to knowledge, experience, or instruction, and submitting fingerprints.

A policyholder who has sustained an insured loss may hire a public adjuster. The public adjuster will inspect the loss site, analyze the damages, assemble claim support data, review the insured's coverage, determine current replacement costs, and confer with the insurer's representatives to adjust the claim. Public adjuster fees are capped at ten to 20 percent of the insurance claim payments.[3]

Adjusting Firms

Adjusting firms are not required to be licensed by the DFS. If a firm chooses to obtain a license, it lasts for three years and costs $60.[4] An application for licensure must include:

- The name and address of each majority owner, partner, officer, and director of the adjusting firm;
- The name of the adjusting firm and its principal business address; and
- The location of each adjusting firm office and the name under which each office conducts or will conduct business.[5]

[2] Section 626.854(1), F.S.
[3] Section 626.854 (11), F.S.
[4] Section 624.501, F.S.
[5] Section 626.8696, F.S.

Solicitation by Public Adjusters

In 2008, the Legislature prohibited public adjusters from directly or indirectly through any other person or entity initiating contact or engaging in face-to-face or telephonic solicitation with any insured until at least 48 hours after the occurrence of an event that may be the subject of a claim under the insurance policy.[6] In 2012, the Florida Supreme Court held the law violated a public adjuster's right to free speech because the statute regulated commercial speech and was more extensive than necessary to serve the state's interest.[7]

Public Adjuster Apprentices

A "public adjuster apprentice" is any person who:

- Is not a licensed public adjuster;
- Is employed by or has a contract with a licensed and appointed public adjuster or a public adjusting firm to assist a public adjuster in conducting business under the license; and
- Satisfies the licensing and character requirements of s. 626.8651, F.S.

To become licensed, a public adjuster apprentice applicant must be 18 years of age; a U.S. citizen; trustworthy; pay all fees applicable to adjuster licenses; and pass an examination. In addition, an applicant must possess specified certification related to claims adjustment and present to the DFS a bond in the amount of $50,000. A public adjuster apprentice must complete a minimum of 100 hours per month for 12 months under the supervision of a licensed all-lines public adjuster before becoming eligible for licensure as a public adjuster.[8] A public adjuster apprentice license is effective for 18 months unless the license expires due to lack of maintaining an appointment, is surrendered by the licensee, is terminated, suspended or revoked by the DFS, or is cancelled by the DFS upon issuance of a public adjuster license.[9]

Current law allows an appointing public adjusting firm to maintain up to 12 public adjuster apprentices concurrently.[10] A supervising public adjuster may only be responsible for three public adjuster apprentices simultaneously. An apprentice has the same authority as a public adjuster except that an apprentice may not execute contracts for services of a public adjuster except under the direct supervision of a public adjuster.[11]

III. Effect of Proposed Changes:

Adjusting Firms (Section 11)

Section 11 amends s. 626.8695, F.S., to require each business location established by an adjuster to designate a primary adjuster for that location. It also requires adjusting firms and branch locations of the adjusting firms to name primary adjusters. The primary adjuster is responsible for the supervision of the adjusters at that location. The primary adjuster is accountable for

[6] Chapter 2008-220, L.O.F.
[7] *Atwater v. Kortum*, 95 So.2d 85 (Fla. 2012).
[8] Section 626.8651, F.S.
[9] Section 626.8651(8), F.S.
[10] Section 626.8651(7), F.S.
[11] Section 626.8651(11), F.S.

misconduct by those under his or her direct supervision. This section does not render a primary adjuster criminally liable to an act unless the primary adjuster personally committed the act, knew or should have known about the act constituting a violation of this act. Furthermore, this section adds contractor to the language whereby DFS may suspend or revoke the license of any adjuster employed [or contracted] by a person whose license has been suspended or revoked.

An adjusting firm location may not conduct insurance business unless a primary adjuster is designated and provides services to the firm at all times. If a primary adjuster ends his or her affiliation with the firm and the firm does not designate another primary adjuster within 90 days, the firm's license expires on the 91st day.

Any adjusting firm may determine a person's current licensure status by submitting an appointment request to the DFS.

Adjusters (Sections 1, 4, 8, 12, 13, 14, and 15)

Section 1 defines "adjuster" as a public adjuster[12] or an all-lines adjuster.

Section 4 amends s. 626.8548, F.S., and redefines an "all-lines adjuster" as "a person who, for money, commission, or any other thing of value, directly or indirectly undertakes on behalf of a public adjuster or insurer to ascertain and determine the amount of any claim, loss, or damage payable under an insurance contract or undertakes to effect settlement of such claim, loss, or damage." This section further directs that an "all-lines adjuster" also includes "any person who, for money, commission, or any other thing of value, directly or indirectly solicits claims on behalf of a public adjuster, but does not include a paid spokesperson used as part of a written or an electronic advertisement or a person who photographs or inventories damaged personal property or business personal property if such person does not otherwise adjust, investigate, or negotiate for or attempt to effect the settlement of a claim."

Section 8 amends s. 626.864, F.S., to provide that an all-lines adjuster may be appointed as an independent adjuster, a public adjuster apprentice, or a company employee adjuster but not more than one concurrently.

Section 12 repeals s. 626.872, F.S., which created temporary licenses for all-lines adjusters.

Section 13 amends s. 626.874, F.S., to clarify that only authorized insurers or adjusting firms contracted with authorized insurers may designate emergency adjusters for temporary licensure by the DFS during a catastrophe.

Section 14 amends s. 626.875, F.S., to require adjusters to maintain records relating to claims for five years instead of the current three years.

Section 15 amends s. 626.876, F.S., to provide that an individual licensed as a public adjuster may not be simultaneously licensed as an all-lines adjuster. It further provides that an individual licensed as an all-lines adjuster and appointed as a company adjuster or a public adjuster

[12] *See* s. 626.854, F.S.

apprentice may not be simultaneously appointed or employed in a different adjuster capacity that would require an additional appointment type.

Public Adjusters (Sections 2 and 9)

Section 2 amends s. 626.854, F.S., to expand the definition of "public adjuster" to include persons who directly or indirectly prepare, complete, or file an insurance claim for an insured. The definition is further expanded to include persons who directly or indirectly solicit or perform specified other duties on behalf of a public adjuster, an insured, or a third-party claimant. It provides that the term does not include a person who photographs or inventories damaged personal property or a person performing duties under another professional license if the person does not otherwise solicit, adjust, investigate, or negotiate for or attempt to effect the settlement of a claim. It also removes a limitation that requires a consumer wishing to cancel a public adjuster contract to do so in writing or by phone.

This section repeals the restrictions on public adjuster solicitations within 48 hours after an event that may be the subject of an insurance claim.

The section prohibits public adjusters from charging a fee based on policy deductibles.

The section prohibits a contract provision that allows a public adjuster, public adjuster apprentice, or person acting on behalf of an adjuster or apprentice to choose the person that will perform repair work on a property insurance claim or provide goods or services that will require the insured or third-party claimant to expend funds in excess of those payable to the public adjuster under the terms of the contract for adjusting services.

Furthermore, section 2 creates a new paragraph to more specifically define what a person is prohibited from doing unless the person is a public adjuster or an attorney. A person who is not a public adjuster or attorney may not, for money or commission:

- Prepare, complete, or file an insurance claim for an insured or a third-party claimant;
- Act on behalf of or aid an insured or a third-party claimant in negotiating for or effecting the settlement of a claim for loss or damage covered by an insurance contract;
- Advertise for employment as a public adjuster; or
- Solicit, investigate, or adjust a claim on behalf of a public adjuster, an insured, or a third-party claimant.

Section 9 amends s. 626.865, F.S., to require a public adjuster, as part of the qualification and bond process, to be:

- Licensed in Florida as an all-lines adjuster; and
- To have been appointed on a continual basis for the previous six months as:
  - A public service apprentice under s. 626.8561, F.S.;
  - As an independent adjuster under s. 626.855, F.S.; or
  - As a company employee adjuster under s. 626.856, F.S.

Current law requires a public adjuster apprentice to serve as a public adjuster apprentice for one year before becoming a public adjuster. This section reduces the time to six months.

Public Adjuster Apprentices (Sections 3, 5 and 10)

Section 3 repeals s. 626.8541, F.S., which is the current law creating the license for public adjuster apprentices.

Section 5 creates s. 626.8561, F.S., to define a "public adjuster apprentice" as a person licensed as an all-lines adjuster who is appointed and employed by a public adjuster or public adjusting firm. The apprentice assists the public adjuster in determining the amount of any claim, loss or damage payable under an insurance contract.

Section 10 amends s. 626.8651, F.S., to provide the DFS will issue an appointment as a public adjuster apprentice to licensee who:

- Is licensed as an all-lines adjuster;
- Has filed with the DFS a bond[13] executed and issued by a surety insurer in the amount of $50,000, which is conditioned upon the faithful performance of duties as a public adjuster apprentice; and
- Maintains such bond unimpaired throughout the existence of the appointment and for at least one year after termination of the appointment.

This section provides that an appointing public adjusting firm may maintain no more than four public adjuster apprentices and that a supervising public adjuster may supervise no more than one apprentice at a time.

This section removes the limitation on solicitation of contracts by public adjuster apprentices.

Miscellaneous Provisions (Sections 6, 7, 16 and 17)

Section 6 amends s. 626.8584, F.S., to add a public adjuster or a public adjusting firm to the list of persons or entities who can appoint, employ or contract with a nonresident all-lines adjuster.

Under current law, a "nonresident all-lines adjuster" means a person who is:

- Not a resident of Florida;
- Currently licensed as an adjuster in his or her state of residence for all lines of insurance except life and annuities or, if a resident of a state that does not license such adjusters, meets the qualifications prescribed in s. 626.8734, F.S.; and
- Licensed as an all-lines adjuster and self-appointed or appointed and employed by an independent adjusting firm or other independent adjuster, by an insurer admitted to do business in this state or wholly owned subsidiary of an insurer admitted to do business in this state, or by other insurers under the common control or ownership of such insurer.[14]

This section removes the language, "other insurers under the common control or ownership of such insurer."

[13] The bond must be executed in favor of the DFS and must authorize recovery of the damages sustained if the licensee commits fraud or unfair practices. The aggregate liability of the surety may not exceed the amount of the bond and the bond may not be terminated without giving notice to the licensee and the DFS.
[14] Section 626.8584, F.S.

Section 7 amends s. 626.861, F.S., to provide that an employee of an insurer handling claims with respect to residential property insurance can adjust such claims if the coverage does not exceed $500.

Section 16 repeals s. 626.879, F.S., which allows the DFS to have a pool of adjusters in case of declarations of emergency. The DFS has not used the pool in a number of years and does not believe the statute is necessary.

Section 17 provides an effective date of January 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The impact to the private sector is indeterminate. However, the Office of Insurance Regulation indicates "tightening the licensing requirements of public adjusters may result in improved insurer loss trends."[15]

C. Government Sector Impact:

The Office of Insurance Regulation does not anticipate any impact to state funds or expenditures.[16]

VI. Technical Deficiencies:

None.

[15] Office of Insurance Regulation, *Senate Bill 922 Fiscal Analysis* (March 15, 2017) (on file with the Senate Appropriations Subcommittee on General Government).
[16] Office of Insurance Regulation, *Senate Bill 922 Fiscal Analysis* (March 15, 2017) (on file with the Senate Appropriations Subcommittee on General Government).

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 626.015, 626.854, 626.8541, 626.8548, 626.8561, 626.8584, 626.861, 626.864, 626.865, 626.8651, 626.8695, 626.874, 626.875, and 626.876.

This bill repeals the following sections of the Florida Statutes: 626.872 and 626.879.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The committee substitute removes provisions of the bill requiring adjusting firms to obtain a license from the DFS and amends definitions of "public adjuster" and "all-lines adjuster" to exclude persons who photograph or inventory damaged property or persons performing duties under another professional license as long as the person does not otherwise act as an adjuster.

CS by Banking and Insurance on April 3, 2017:
- Creates a minimum $2,500 penalty if a firm is required to be licensed but does not apply for a license;
- Removes a requirement that adjuster websites contain certain disclosures;
- Clarifies that paid spokespersons are exempt from licensure when promoting services; and
- Makes technical changes.

B. Amendments:

None.

By the Committee on Banking and Insurance; and Senator Garcia

597-03359-17 2017922c1

A bill to be entitled

An act relating to insurance adjusters; amending s. 624.501, F.S.; deleting a fee for an original or renewal license for an adjusting firm; amending s. 626.015, F.S.; conforming a cross-reference; amending s. 626.022, F.S.; revising applicability of the Licensing Procedures Law to include adjusting firms; amending s. 626.112, F.S.; prohibiting certain entities from acting as insurance adjusting firms without specified licenses; providing an exemption; providing construction; specifying that an unlicensed firm is subject to a certain administrative penalty; deleting a requirement for the Department of Financial Services to automatically convert a certain registration to an insurance agency license as of a certain date; amending s. 626.854, F.S.; redefining the term "public adjuster"; deleting a certain prohibited act of a public adjuster; deleting a provision specifying the method for an insured or claimant to provide certain notice to an insurer; providing construction relating to certain limitations on insurance claim payments and public adjuster compensation; revising a prohibition against certain entities relating to a contract or power of attorney that vests certain authority in a property insurance claim; conforming a cross-reference; prohibiting persons from conducting certain activities relating to insurance claims; providing an exception for attorneys and public adjusters; repealing s. 626.8541, F.S.,

597-03359-17 2017922c1

relating to public adjuster apprentices; amending s. 626.8548, F.S.; redefining the term "all-lines adjuster"; creating s. 626.8561, F.S.; defining the term "public adjuster apprentice"; amending s. 626.8584, F.S.; redefining the term "nonresident all-lines adjuster"; amending s. 626.861, F.S.; revising construction relating to employees of an insurer; amending s. 626.864, F.S.; revising the permissible appointments of all-lines adjusters; amending s. 626.865, F.S.; revising the qualifications for licensure for public adjusters; amending s. 626.8651, F.S.; requiring public adjuster apprentices to be appointed, rather than licensed, by the department; specifying qualifications for such appointments; revising requirements and limitations for public adjusting firms and public adjusters who supervise public adjuster apprentices; revising certain prohibited acts and exceptions to such acts of public adjuster apprentices; conforming provisions to changes made by the act; amending s. 626.8695, F.S.; revising requirements for designating primary adjusters; redefining the term "primary adjuster"; revising the accountability of a primary adjuster for persons under his or her supervision; revising a prohibition against an adjusting firm location conducting insurance business under certain circumstances; revising procedures for an adjusting firm to determine a person's current licensure status; amending s. 626.8696, F.S.; revising conditions for the issuance

of an adjusting firm license; revising application requirements for such license; providing rulemaking authority of the department; prohibiting the department from requiring certain information on an application; providing for expiration of such license; repealing s. 626.872, F.S., relating to all-lines adjuster temporary licenses; amending s. 626.874, F.S.; revising conditions for the department to issue adjuster licenses in the event of catastrophes or emergencies; amending s. 626.875, F.S.; revising the minimum time period in a records retention requirement for adjusters; amending s. 626.876, F.S.; revising certain prohibitions relating to exclusive employment of public adjusters and all-lines adjusters and appointed independent adjusters; repealing s. 626.879, F.S., relating to pools of insurance adjusters; amending s. 626.9953, F.S.; conforming a cross-reference; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (20) of section 624.501, Florida Statutes, is amended to read:

624.501 Filing, license, appointment, and miscellaneous fees.—The department, commission, or office, as appropriate, shall collect in advance, and persons so served shall pay to it in advance, fees, licenses, and miscellaneous charges as follows:

~~(20) Adjusting firm, original or renewal 3-year license~~

~~$60.00~~

Section 2. Subsection (1) of section 626.015, Florida Statutes, is amended to read:

626.015 Definitions.—As used in this part:

(1) "Adjuster" means a public adjuster as defined in s. 626.854~~, a public adjuster apprentice as defined in s. 626.8541,~~ or an all-lines adjuster as defined in s. 626.8548.

Section 3. Subsection (1) of section 626.022, Florida Statutes, is amended to read:

626.022 Scope of part.—

(1) This part applies as to insurance agents, service representatives, adjusters, adjusting firms, and insurance agencies; as to any and all kinds of insurance; and as to stock insurers, mutual insurers, reciprocal insurers, and all other types of insurers, except that:

(a) It does not apply as to reinsurance, except that ss. 626.011-626.022, ss. 626.112-626.181, ss. 626.191-626.211, ss. 626.291-626.301, s. 626.331, ss. 626.342-626.521, ss. 626.541-626.591, and ss. 626.601-626.711 shall apply as to reinsurance intermediaries as defined in s. 626.7492.

(b) The applicability of this chapter as to fraternal benefit societies shall be as provided in chapter 632.

(c) It does not apply to a bail bond agent, as defined in s. 648.25, except as provided in chapter 648 or chapter 903.

(d) This part does not apply to a certified public accountant licensed under chapter 473 who is acting within the scope of the practice of public accounting, as defined in s. 473.302, provided that the activities of the certified public accountant are limited to advising a client of the necessity of

obtaining insurance, the amount of insurance needed, or the line of coverage needed, and provided that the certified public accountant does not directly or indirectly receive or share in any commission or referral fee.

Section 4. Subsection (7) of section 626.112, Florida Statutes, is amended to read:

626.112 License and appointment required; agents, customer representatives, adjusters, insurance agencies, adjusting firms, service representatives, managing general agents.—

(7)(a) An individual, firm, partnership, corporation, association, or other entity may ~~shall~~ not act in its own name or under a trade name, directly or indirectly, as an insurance agency unless it complies with s. 626.172 with respect to possessing an insurance agency license for each place of business at which it engages in an activity that may be performed only by a licensed insurance agent. However, an insurance agency that is owned and operated by a single licensed agent conducting business in his or her individual name and not employing or otherwise using the services of or appointing other licensees is ~~shall be~~ exempt from the agency licensing requirements of this subsection.

(b) A branch place of business that is established by a licensed agency is considered a branch agency and is not required to be licensed so long as it transacts business under the same name and federal tax identification number as the licensed agency and has designated with the department a licensed agent in charge of the branch location as required by s. 626.0428 and the address and telephone number of the branch location have been submitted to the department for inclusion in

the licensing record of the licensed agency within 30 days after insurance transactions begin at the branch location.

(c) An individual, a firm, a partnership, a corporation, an association, or any other entity may not act in its own name or under a trade name, directly or indirectly, as an adjusting firm unless it possesses an adjusting firm license under s. 626.8696 for each place of business at which it engages in an activity that may be performed only by a licensed adjuster. However, an insurance company authorized to transact insurance in this state which directly appoints adjusters, or an adjusting firm that is owned and operated by a single licensed adjuster who is conducting business in his or her individual name and who is not employing or otherwise using the services of or appointing other licensees, is exempt from the adjusting firm licensing requirements of this subsection.

(d) A branch place of business that is established by a licensed adjusting firm is considered a branch firm and is not required to be licensed so long as:

1. It transacts business under the same name and federal tax identification number as the licensed adjusting firm;

2. It has designated with the department a licensed primary adjuster in charge of the branch firm as required by s. 626.8695; and

3. Within 30 days after insurance transactions begin at the branch firm, the address and telephone number of the branch firm are submitted to the department for inclusion in the licensing record of the licensed adjusting firm.

(e)~~(c)~~ If an agency or firm is required to be licensed but fails to file an application for licensure in accordance with

this section, the department must ~~shall~~ impose on the agency or firm an administrative penalty of up to $2,500 for a first violation and up to $10,000 for any subsequent violation.

~~(d) Effective October 1, 2015, the department must automatically convert the registration of an approved registered insurance agency to an insurance agency license.~~

Section 5. Present subsections (7) through (19) of section 626.854, Florida Statutes, are renumbered as subsections (6) through (18), respectively, subsection (1) and present subsections (6), (7), (11), (18), and (19) are amended, and a new subsection (19) is added to that section, to read:

626.854 "Public adjuster" defined; prohibitions.—The Legislature finds that it is necessary for the protection of the public to regulate public insurance adjusters and to prevent the unauthorized practice of law.

(1) A "public adjuster" is any person, except a duly licensed attorney at law as exempted under s. 626.860, who, for money, commission, or any other thing of value, directly or indirectly prepares, completes, or files an insurance claim ~~form~~ for an insured or third-party claimant or who, for money, commission, or any other thing of value, acts on behalf of, or aids an insured or third-party claimant in negotiating for or effecting the settlement of a claim or claims for loss or damage covered by an insurance contract or who advertises for employment as an adjuster of such claims. The term also includes any person who, for money, commission, or any other thing of value, directly or indirectly solicits, investigates, or adjusts such claims on behalf of a public adjuster, an insured, or a third-party claimant, unless such person is performing duties

under another professional license.

~~(6) A public adjuster may not directly or indirectly through any other person or entity initiate contact or engage in face-to-face or telephonic solicitation or enter into a contract with any insured or claimant under an insurance policy until at least 48 hours after the occurrence of an event that may be the subject of a claim under the insurance policy unless contact is initiated by the insured or claimant.~~

(6) ~~(7)~~ An insured or claimant may cancel a public adjuster's contract to adjust a claim without penalty or obligation within 3 business days after the date on which the contract is executed or within 3 business days after the date on which the insured or claimant has notified the insurer of the claim, ~~by phone or in writing,~~ whichever is later. The public adjuster's contract must disclose to the insured or claimant his or her right to cancel the contract and advise the insured or claimant that notice of cancellation must be submitted in writing and sent by certified mail, return receipt requested, or other form of mailing that provides proof thereof, to the public adjuster at the address specified in the contract; provided, during any state of emergency as declared by the Governor and for 1 year after the date of loss, the insured or claimant has 5 business days after the date on which the contract is executed to cancel a public adjuster's contract.

(10)(a) ~~(11)(a)~~ If a public adjuster enters into a contract with an insured or claimant to reopen a claim or file a supplemental claim that seeks additional payments for a claim that has been previously paid in part or in full or settled by the insurer, the public adjuster may not charge, agree to, or

accept from any source compensation, payment, commission, fee, or any other thing of value based on a previous settlement or previous claim payments by the insurer for the same cause of loss. The charge, compensation, payment, commission, fee, or any other thing of value must be based only on the claim payments or settlement obtained through the work of the public adjuster after entering into the contract with the insured or claimant. Compensation for the reopened or supplemental claim may not exceed 20 percent of the reopened or supplemental claim payment. In no event shall the contracts described in this paragraph exceed the limitations in paragraph (b).

(b) A public adjuster may not charge, agree to, or accept from any source compensation, payment, commission, fee, or any other thing of value in excess of:

1. Ten percent of the amount of insurance claim payments made by the insurer for claims based on events that are the subject of a declaration of a state of emergency by the Governor. This provision applies to claims made during the year after the declaration of emergency. After that year, the limitations in subparagraph 2. apply.

2. Twenty percent of the amount of insurance claim payments made by the insurer for claims that are not based on events that are the subject of a declaration of a state of emergency by the Governor.

(c) Insurance claim payments made by the insurer do not include policy deductibles, and public adjuster compensation may not be based on the deductible portion of a claim.

(d) ~~(c)~~ Any maneuver, shift, or device through which the limits on compensation set forth in this subsection are exceeded

is a violation of this chapter punishable as provided under s. 626.8698.

(17) ~~(18)~~ A public adjuster, a public adjuster apprentice, or a person acting on behalf of an adjuster or apprentice may not enter into a contract or accept a power of attorney that vests in the public adjuster, the public adjuster apprentice, or the person acting on behalf of the adjuster or apprentice the effective authority to choose the persons or entities that will perform salvage, repair, or any other work in a property insurance claim.

(18) ~~(19)~~ Subsections (5)-(17) ~~(5)-(18)~~ apply only to residential property insurance policies and condominium unit owner policies as described in s. 718.111(11).

(19) Except as otherwise provided in this chapter, no person, except an attorney at law or a public adjuster, may for money, commission, or any other thing of value, directly or indirectly:

(a) Prepare, complete, or file an insurance claim for an insured or a third-party claimant;

(b) Act on behalf of or aid an insured or a third-party claimant in negotiating for or effecting the settlement of a claim for loss or damage covered by an insurance contract;

(c) Advertise for employment as a public adjuster; or

(d) Solicit, investigate, or adjust a claim on behalf of a public adjuster, an insured, or a third-party claimant.

Section 6. Section 626.8541, Florida Statutes, is repealed.

Section 7. Section 626.8548, Florida Statutes, is amended to read:

626.8548 "All-lines adjuster" defined.—An "all-lines

adjuster" is a person who, for money, commission, or any other thing of value, directly or indirectly ~~is self-employed or employed by an insurer, a wholly owned subsidiary of an insurer, or an independent adjusting firm or other independent adjuster, and who~~ undertakes on behalf of a public adjuster or an insurer ~~or other insurers under common control or ownership~~ to ascertain and determine the amount of any claim, loss, or damage payable under an insurance contract or undertakes to effect settlement of such claim, loss, or damage. The term also includes any person who, for money, commission, or any other thing of value, directly or indirectly solicits claims on behalf of a public adjuster, but does not include paid spokespersons used as part of a written or an electronic advertisement. The term does not apply to life insurance or annuity contracts.

Section 8. Section 626.8561, Florida Statutes, is created to read:

626.8561 "Public adjuster apprentice" defined.—The term "public adjuster apprentice" means a person licensed as an all-lines adjuster who:

(1) Is appointed and employed or contracted by a public adjuster or a public adjusting firm;

(2) Assists the public adjuster or public adjusting firm in ascertaining and determining the amount of any claim, loss, or damage payable under an insurance contract, or who undertakes to effect settlement of such claim, loss, or damage; and

(3) Satisfies the requirements of s. 626.8651.

Section 9. Subsection (3) of section 626.8584, Florida Statutes, is amended to read:

626.8584 "Nonresident all-lines adjuster" defined.—A

"nonresident all-lines adjuster" means a person who:

(3) Is licensed as an all-lines adjuster and self-appointed or appointed and employed or contracted by an independent adjusting firm or other independent adjuster, by an insurer admitted to do business in this state or a wholly owned subsidiary of an insurer admitted to do business in this state, or by a public adjuster or a public adjusting firm ~~other insurers under the common control or ownership of such insurer~~.

Section 10. Subsection (1) of section 626.861, Florida Statutes, is amended to read:

626.861 Insurer's officers, insurer's employees, reciprocal insurer's representatives; adjustments by.—

(1) ~~Nothing in~~ This part may not ~~shall~~ be construed to prevent an executive officer of any insurer, an ~~or a regularly salaried~~ employee of an insurer handling claims with respect to health insurance, an employee of an insurer handling claims with respect to residential property insurance in which the amount of coverage for the applicable type of loss is contractually limited to $500 or less, or the duly designated attorney or agent authorized and acting for subscribers to reciprocal insurers~~,~~ from adjusting any claim loss or damage under any insurance contract of such insurer.

Section 11. Subsection (3) of section 626.864, Florida Statutes, is amended to read:

626.864 Adjuster license types.—

(3) An all-lines adjuster may be appointed as an independent adjuster, public adjuster apprentice, or company employee adjuster, but not more than one of these ~~both~~ concurrently.

Section 12. Paragraphs (d) and (e) of subsection (1) of section 626.865, Florida Statutes, are amended to read:

626.865 Public adjuster's qualifications, bond.—

(1) The department shall issue a license to an applicant for a public adjuster's license upon determining that the applicant has paid the applicable fees specified in s. 624.501 and possesses the following qualifications:

(d) Has had sufficient experience, training, or instruction concerning the adjusting of damages or losses under insurance contracts, other than life and annuity contracts, is sufficiently informed as to the terms and effects of the provisions of those types of insurance contracts, and possesses adequate knowledge of the laws of this state relating to such contracts as to enable and qualify him or her to engage in the business of insurance adjuster fairly and without injury to the public or any member thereof with whom the applicant may have business as a public adjuster~~, or has been licensed and employed as a resident insurance company adjuster or independent adjuster in this state on a continual basis for the past year~~.

(e) Has been licensed in this state as an all-lines adjuster, and has been appointed on a continual basis for the previous 6 months ~~Is licensed~~ as a public adjuster apprentice under s. 626.8561, as an independent adjuster under s. 626.855, or as a company employee adjuster under s. 626.856 ~~under s. 626.8651 and complies with the requirements of that license throughout the licensure period~~.

Section 13. Section 626.8651, Florida Statutes, is amended to read:

626.8651 Public adjuster apprentice appointment ~~license~~;

qualifications.—

(1)(a) The department shall issue an appointment ~~a license~~ as a public adjuster apprentice to a licensee ~~an applicant~~ who ~~is~~:

1. Is licensed as an all-lines adjuster under s. 626.866;

2. Has filed with the department a bond executed and issued by a surety insurer that is authorized to transact such business in this state in the amount of $50,000, which is conditioned upon the faithful performance of his or her duties as a public adjuster apprentice; and

3. Maintains such bond unimpaired throughout the existence of the appointment and for at least 1 year after termination of the appointment.

(b) The bond must be in favor of the department and must specifically authorize recovery by the department of the damages sustained in case the licensee commits fraud or unfair practices in connection with his or her business as a public adjuster apprentice. The aggregate liability of the surety for all such damages may not exceed the amount of the bond, and the bond may not be terminated by the issuing insurer unless written notice of at least 30 days is given to the licensee and filed with the department.

~~(a) A natural person at least 18 years of age.~~

~~(b) A United States citizen or legal alien who possesses work authorization from the United States Bureau of Citizenship and Immigration Services.~~

~~(c) Trustworthy and has such business reputation as would reasonably ensure that the applicant will conduct business as a public adjuster apprentice fairly and in good faith and without~~

~~detriment to the public.~~

~~(2) All applicable license fees, as prescribed in s. 624.501, must be paid in full before issuance of the license.~~

~~(3) An applicant must pass the required written examination before a license may be issued.~~

~~(4) An applicant must have received designation as an Accredited Claims Adjuster (ACA), as a Certified Adjuster (CA), or as a Certified Claims Adjuster (CCA) after completion of training that qualifies the applicant to engage in the business of a public adjuster apprentice fairly and without injury to the public. Such training and instruction must address adjusting damages and losses under insurance contracts, the terms and effects of insurance contracts, and knowledge of the laws of this state relating to insurance contracts.~~

~~(5) At the time of application for license as a public adjuster apprentice, the applicant shall file with the department a bond executed and issued by a surety insurer authorized to transact such business in this state in the amount of $50,000, conditioned upon the faithful performance of his or her duties as a public adjuster apprentice under the license for which the applicant has applied, and thereafter maintain the bond unimpaired throughout the existence of the license and for at least 1 year after termination of the license. The bond shall be in favor of the department and shall specifically authorize recovery by the department of the damages sustained in case the licensee commits fraud or unfair practices in connection with his or her business as a public adjuster apprentice. The aggregate liability of the surety for all such damages may not exceed the amount of the bond, and the bond may not be~~

~~terminated by the issuing insurer unless written notice of at least 30 days is given to the licensee and filed with the department.~~

~~(6) A public adjuster apprentice shall complete at a minimum 100 hours of employment per month for 12 months of employment under the supervision of a licensed and appointed all-lines public adjuster in order to qualify for licensure as a public adjuster. The department may adopt rules that establish standards for such employment requirements.~~

(2)~~(7)~~ An appointing public adjusting firm may not maintain more than four ~~12~~ public adjuster apprentices simultaneously. However, a supervising public adjuster may not be responsible for more than one ~~three~~ public adjuster apprentice ~~apprentices~~ simultaneously and shall be accountable for the acts of the ~~all~~ public adjuster apprentice ~~apprentices~~ which are related to transacting business as a public adjuster apprentice. This subsection does not apply to a public adjusting firm that adjusts claims primarily for commercial entities with operations in more than one state and that does not directly or indirectly perform adjusting services for insurers or individual homeowners.

~~(8) An apprentice license is effective for 18 months unless the license expires due to lack of maintaining an appointment; is surrendered by the licensee; is terminated, suspended, or revoked by the department; or is canceled by the department upon issuance of a public adjuster license. The department may not issue a public adjuster apprentice license to any individual who has held such a license in this state within 2 years after expiration, surrender, termination, revocation, or cancellation~~

~~of the license.~~

~~(9) After completing the requirements for employment as a public adjuster apprentice, the licensee may file an application for a public adjuster license. The applicant and supervising public adjuster or public adjusting firm must each file a sworn affidavit, on a form prescribed by the department, verifying that the employment of the public adjuster apprentice meets the requirements of this section.~~

~~(10) In no event shall A public adjuster apprentice licensed under this section perform any of the functions for which a public adjuster's license is required after expiration of the public adjuster apprentice license without having obtained a public adjuster license.~~

(3) ~~(11)~~ A public adjuster apprentice has the same authority as the licensed public adjuster or public adjusting firm that employs the apprentice except that an apprentice may not execute contracts for the services of a public adjuster or public adjusting firm ~~and may not solicit contracts for the services except under the direct supervision and guidance of the supervisory public adjuster~~. An individual may not be, act as, or hold himself or herself out to be a public adjuster apprentice unless the individual is licensed as an all-lines adjuster and holds a current appointment by a licensed public all-lines adjuster or a public adjusting firm that employs a licensed ~~all-lines~~ public adjuster.

Section 14. Section 626.8695, Florida Statutes, is amended to read:

626.8695 Primary adjuster.—

(1) Each business location established by an adjuster,

~~person operating~~ an adjusting firm, a corporation, or an association ~~and each location of a multiple location adjusting firm~~ must designate with the department a primary adjuster who is licensed and appointed to adjust the insurance claims adjusted by the business location.

(2) An adjusting firm and each of its branch firms shall designate a primary adjuster ~~for each such firm or location~~ and ~~must~~ file with the department, at the department's designated website, the name and license number of such primary adjuster and the physical address of the adjusting firm or branch firm location where he or she is the primary adjuster~~, on a form approved by the department~~. The designation of the primary adjuster may be changed at the option of the adjusting firm. Any such change is effective upon notification to the department. Notice of change must be provided ~~sent~~ to the department within 30 days after such change.

(3) ~~(2)(a)~~ For purposes of this section, a "primary adjuster" is the licensed adjuster who is responsible for the ~~hiring and~~ supervision of all individuals within an adjusting firm location who act ~~deal with the public and who acts~~ in the capacity of ~~a public adjuster as defined in s. 626.854, or~~ an ~~independent~~ adjuster as defined in this chapter ~~s. 626.855~~. An adjuster may be designated as a primary adjuster for more than ~~only~~ one adjusting firm location provided no person engages in activity requiring licensure as an adjuster at any location when an adjuster is not physically present.

(4) ~~(b)~~ For purposes of this section, an "adjusting firm" is a location where an independent or public adjuster is engaged in the business of insurance.

(5) ~~(3)~~ The department may suspend or revoke the license of the primary adjuster if the adjusting firm employs or contracts any person who has had a license denied or any person whose license is currently suspended or revoked. However, if a person has been denied a license for failure to pass a required examination, he or she may be employed or contracted to perform clerical or administrative functions for which licensure is not required.

(6) ~~(4)~~ The primary adjuster in an ~~unincorporated~~ adjusting firm~~, or the primary adjuster in an incorporated adjusting firm in which no officer, director, or stockholder is an adjuster,~~ is ~~responsible and~~ accountable for misconduct or violations of this code committed by the primary adjuster or by any other person ~~the acts of salaried employees~~ under his or her direct supervision ~~and control~~ while acting on behalf of the adjusting firm. This section does not render a primary adjuster ~~Nothing in this section renders any person~~ criminally liable for an ~~or subject to any disciplinary proceedings for any~~ act unless the primary adjuster ~~person~~ personally committed the act or knew or should have known of the act and of the facts constituting a violation of this code.

(7) ~~(5)~~ The department may suspend or revoke the license of any adjuster who is employed or contracted by a person whose license is currently suspended or revoked.

(8) ~~(6)~~ An adjusting firm location may not conduct the business of insurance unless a primary adjuster is designated and provides services to the firm at all times. If the ~~Failure of the person operating the adjusting firm to designate a~~ primary adjuster designated with the department ends his or her

affiliation with the firm for any reason and if the firm fails to designate another primary adjuster, as required in subsection (2), within 90 days, the firm license automatically expires on the 91st day after the date the designated primary adjuster ended his or her affiliation with ~~for~~ the firm~~, or for each location, as applicable, on a form prescribed by the department within 30 days after inception of the firm or change of primary adjuster designation, constitutes grounds for requiring the adjusting firm to obtain an adjusting firm license pursuant to s. 626.8696~~.

(9) ~~(7)~~ Any adjusting firm may determine a ~~request, on a form prescribed by the department, verification from the department of any~~ person's current licensure status by submitting an appointment request~~. If a request is mailed to the office~~ within 5 working days after the date an adjuster is hired. If~~, and~~ the department subsequently notifies the adjusting firm that its appointee's ~~an employee's~~ license is currently suspended, revoked, or has been denied, the license of the primary adjuster may ~~shall~~ not be revoked or suspended if the unlicensed person is immediately dismissed from employment as an adjuster with the firm.

Section 15. Section 626.8696, Florida Statutes, is amended to read:

626.8696 Application for adjusting firm license.—

(1) The department may issue an adjusting firm license to a person only after the person files a written application with the department and qualifies for such license.

(2) An application for an adjusting firm license must be signed by an individual required to be listed in the application

under paragraph (a). An adjusting firm may authorize a third party to complete, submit, and sign an application on the firm's behalf. However, the firm must ensure that the information on the application is true and correct, and the firm is accountable for any misstatement or misrepresentation. The application for an adjusting firm license must include:

(a) The name of each majority owner, partner, officer, ~~and~~ director, president, senior vice president, secretary, treasurer, and limited liability company member who directs or participates in the management or control of the adjusting firm.

(b) The resident address of each person required to be listed in the application under paragraph (a).

(c) The name, ~~of the adjusting firm and its~~ principal business street address, and valid e-mail address of the adjusting firm, and the name, street address, and valid e-mail address of the firm's registered agent, person, or company authorized to accept service on behalf of the firm.

(d) The physical address ~~location~~ of each branch ~~adjusting~~ firm, including its name, valid e-mail address, and telephone number, and the date that the branch firm began transacting insurance business ~~office and the name under which each office conducts or will conduct business~~.

(e) The name of the primary adjuster in full-time charge of the adjusting firm office, including branch firms, and his or her corresponding location.

(f) The fingerprints of each of the following:

1. A sole proprietor, if the applicant is a sole proprietor;

2. Each individual required to be listed in the application

under paragraph (a); and

3. Each individual who directs or participates in the management or control of an incorporated firm whose shares are not traded on a securities exchange.

Fingerprints must be taken by a law enforcement agency or other entity approved by the department, must be accompanied by the fingerprint processing fee specified in s. 624.501, and must be processed in accordance with s. 624.34. However, fingerprints need not be filed for an individual who is currently licensed and appointed under this chapter. This paragraph does not apply to corporations whose voting shares are traded on a securities exchange.

(g) ~~(c)~~ Such ~~Any~~ additional information that the department requires by rule to ascertain the trustworthiness and competence of persons required to be listed on the application and to ascertain that such persons meet the requirements of this code. However, the department may not require that credit or character reports be submitted for such persons.

~~(2) An application for an adjusting firm license must be signed by each owner of the firm. If the firm is incorporated, the application must be signed by the president and secretary of the corporation.~~

~~(3) Each application must be accompanied by payment of any applicable fee as prescribed in s. 624.501.~~

~~(4) License fees are not refundable.~~

(3) ~~(5)~~ The license of an adjusting firm continues in force until it is canceled, ~~required to be licensed pursuant to s. 626.8695 must remain so licensed for a period of 3 years from~~

~~the date of licensure, unless the license is~~ suspended, or revoked or until it is otherwise terminated or expires by operation of law. The department may suspend or revoke the adjusting firm's authority to do business for activities occurring during the time the firm is licensed, regardless of whether the licensing period has terminated.

Section 16. Section 626.872, Florida Statutes, is repealed.

Section 17. Subsection (1) of section 626.874, Florida Statutes, is amended to read:

626.874 Catastrophe or emergency adjusters.—

(1) In the event of a catastrophe or emergency, the department may issue a license, for the purposes and under the conditions and for the period of emergency as it shall determine, to persons who are residents or nonresidents of this state, who are at least 18 years of age, who are United States citizens or legal aliens who possess work authorization from the United States Bureau of Citizenship and Immigration Services, and who are not licensed adjusters under this part but who have been designated and certified to it as qualified to act as adjusters ~~by all-lines resident adjusters,~~ by an authorized insurer~~, or by a licensed general lines agent~~ to adjust claims, losses, or damages under policies or contracts of insurance issued by such insurers, or by the primary adjuster of an independent adjusting firm contracted with an authorized insurer to adjust claims on behalf of the insurer. The fee for the license is as provided in s. 624.501(12)(c).

Section 18. Subsection (2) of section 626.875, Florida Statutes, is amended to read:

626.875 Office and records.—

(2) The records of the adjuster relating to a particular claim or loss shall be so retained in the adjuster's place of business for a period of not less than 5 ~~3~~ years after completion of the adjustment. This provision shall not be deemed to prohibit return or delivery to the insurer or insured of documents furnished to or prepared by the adjuster and required by the insurer or insured to be returned or delivered thereto.

Section 19. Section 626.876, Florida Statutes, is amended to read:

626.876 Exclusive employment; public adjusters, all-lines ~~independent~~ adjusters.—

(1) An individual licensed ~~and appointed~~ as a public adjuster may not be simultaneously licensed as an all-lines adjuster ~~employed during the same period by more than one public adjuster or public adjuster firm or corporation~~.

(2) An individual licensed as an all-lines adjuster and appointed as an independent adjuster, a company employee adjuster, or a public adjuster apprentice may not be simultaneously appointed, contracted, or employed as an adjuster that requires a different appointment type ~~during the same period by more than one independent adjuster or independent adjuster firm or corporation~~.

Section 20. Section 626.879, Florida Statutes, is repealed.

Section 21. Subsection (5) of section 626.9953, Florida Statutes, is amended to read:

626.9953 Qualifications for registration; application required.—

(5) An applicant must submit a set of his or her fingerprints to the department and pay the processing fee

established under s. 624.501(23) ~~s. 624.501(24)~~. The department shall submit the applicant's fingerprints to the Department of Law Enforcement for processing state criminal history records checks and local criminal records checks through local law enforcement agencies and for forwarding to the Federal Bureau of Investigation for national criminal history records checks. The fingerprints shall be taken by a law enforcement agency, a designated examination center, or another department-approved entity. The department may not approve an application for registration as a navigator if fingerprints have not been submitted.

Section 22. This act shall take effect January 1, 2018.

3.	Sneed	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/CS/SB 1044 makes a number of revisions to current law relating to the care of children in the child welfare system. Many of these changes are recommended by the Department of Children and Families (department) and seek to better ensure child safety.

The specific changes in the bill:

- Require the department to identify the father earlier in the legal process to allow for more placement options and family involvement for a child removed by the department.
- Allow the department to return an abused or neglected child to his or her home with an in-home safety plan when the conditions that caused the child to be removed are resolved, rather than when the parents have substantially completed their case plan.
- Require the appropriate community-based care lead agency or subcontracted agency to establish a multi-disciplinary team to determine appropriate placement of a child after gathering customized data and information on the child.
- Require the department to collect and post on its website data on out-of-home placements and update the website twice a year.
- Require the department to consider the safety of any new children added to the home of a family after a child abuse investigation has begun.
- Require a parent to be assessed for substance abuse and complete treatment when there is evidence of harm to a child as a result of substance abuse.

- Allow the department to terminate parental rights when a child has been placed in out-of-home care in any jurisdiction three or more times.
- Prohibit payments under the Relative Caregiver Program when the parent is living with the relative along with the child.
- Allow the release of medical records by hospitals and physicians in child abuse cases.
- Authorize the department to release confidential child abuse records to screen employees at residential homes.
- Allow certain children services councils, as independent special districts having taxing authority, to remain in existence without additional voter approval in 2020 if they were reapproved for a second time since 2005.
- Prohibit the use of state-appropriated funds to pay the salary of a community-based care lead agency administrative employee in an amount that exceeds the salary paid to the secretary of the department.

The bill addresses placement, treatment, and services for substance-exposed newborns and their families to:

- Require the department and community-based lead care agencies to establish a safe-care plan and develop and implement a coordinated approach to offering treatment and services to substance-abused newborns and their families.
- Require child protective investigators and case managers to receive specialized training prior to accepting cases of substance-abused newborns.
- Establish in the Fourth Judicial Circuit the shared family care residential services pilot program to facilitate the temporary placement of substance-exposed newborns and their families in the home of trained volunteer families for the purpose of mentoring and receiving treatment and services.

The bill also addresses self-care and life needs of unaccompanied homeless youth. These changes:

- Allow certified unaccompanied homeless youth to apply for identification cards with the Department of Highway Safety and Motor Vehicles which provide that they have been certified by an authorized entity;
- Clarify eligibility for tuition exemptions for unaccompanied and homeless youth; and
- Clarify current law allowing unaccompanied homeless youth to obtain medical care without parental permission.

The following components of this bill are expected to have the following fiscal impacts to the department or community-based care lead agency:

- Requires the department to conduct abuse registry checks for residential group care employees. It is expected that this additional workload can be absorbed by existing staff.
- Requires the community-based care lead agencies (CBCs) to develop and use a full placement assessment on every child who enters out-of-home care. It is unknown whether the additional workload can be absorbed with existing CBC resources.[1]

[1] Department of Children and Families, *2017 Agency Legislative Bill Analysis* (March 2, 2017)(on file with the Senate Judiciary Committee).

- Requires the department to collect data from each community-based care lead agency and post it on the department's website, and update the information twice a year.
- Requires the department to develop screening and assessment tools for the treatment and services for substance-exposed newborns. The cost is expected to be absorbed within existing department resources.
- Requires child protective investigators and case managers to receive specialized training prior to working with substance-exposed newborns. The cost is expected to be absorbed within existing department resources.
- Requires the department to contract with the designated community-based care lead agency or a private entity to develop a pilot program in the Fourth Judicial Circuit for the shared family care residential services program.
- The bill has the following fiscal impact on state government:
  - Additional costs for the department to implement the shared family care residential services pilot program in the Fourth Judicial Circuit to serve substance-exposed newborns and their families. The bill provides a nonrecurring appropriation of $250,000 from the General Revenue Fund for Fiscal Year 2017-2018 for the department to implement the pilot program. The pilot program will provide residential treatment and individual wrap-around services to participating families.
  - A reduction in costs incurred by the community-based care lead agencies for paternity tests to the extent the court assesses those costs against the parent, which may reduce the cost to the lead agencies by potentially $131,000 to $1,310,000 annually.

The bill takes effect July 1, 2017, except for the provisions in Section 13 relating to the removal of a child from a home and placement in out-of-home care, and Section 27 relating to screening and assessment instruments, multidisciplinary staffings, and child protective investigator and case manager training to serve substance-exposed newborns and their families, which take effect January 1, 2018.

II. Present Situation:

Paternity in Dependency Cases

Although the term "legal father" is not defined in the Florida Statutes, current law provides that a man is the parent of a child if:

- The child was conceived or born while the man was married to the mother;
- The man has legally adopted the child;
- A court has determined the man to be the child's father;
- The man has signed an affidavit of paternity or he is listed on the child's birth certificate; or
- The man is the unmarried biological father who has acknowledged in writing that he is the father of the child and has complied with other requirements set forth in s. 63.062(2), F.S.[2]

The legal father is included as a party to the case in a dependency proceeding.[3] As such:

[2] *See* also ss. 39.01(49), 63.032(12), and 985.03(38) F.S.
[3] Section 39.01(51), F.S.

- Both parents must be advised of their right to counsel at each stage of the dependency proceeding;[4]
- The department must obtain the names of all parents and prospective parents when they take custody of a child;[5]
- All parents are provided written notice of their right to counsel and right to be heard and present evidence at the shelter hearing;[6]
- All parents are notified of every proceeding or hearing involving the child;[7]
- The court makes its own inquiry to discover the parent's identity when a dependency petition is filed and the identity of a parent is unknown;[8] and
- The department conducts a diligent search to determine the parent's location when the identity of a parent is known, but his or her whereabouts are unknown.[9]

Therefore, determining the identity of a child's father as early in the process as possible is essential in a dependency proceeding.

Conditions for Return and Predisposition Studies

The Legislature has declared that time is of the essence for establishing permanency for a child in the dependency system[10] and that reunification of a child with his or her parent or legal guardian is the first preference of the available permanency goals.[11] When safe to do so, reunification should occur as timely as possible to help promote, foster, and maintain child-parent attachments. Currently, the determinant for the court to address reunification with a parent and a child's return home is a parent's substantial compliance with his or her case plan. Additionally, current law requires the court to consider prevention or reunification efforts of the department and whether the reasons for removal have been remedied.[12]

The department has determined that a more reliable and time sensitive standard for determining when a child can safely return home encompasses DCF demonstrating to the court that the conditions that existed in the home which necessitated the child's placement out of home have changed and that an in-home safety plan will enable a better response to any danger or risks in the home.[13]

Conditions for return are the specific circumstances that must change prior to the child's return home when there is an out-of-home safety plan in response to impending danger. The conditions for return describe what must exist or be different with respect to specific family circumstances,

home environment, caregiver perception, behavior, capacity, and/or safety service resources that will allow for reunification to occur with the use of an in-home safety plan.[14]

Current practice also replaces substantial compliance with the case plan as the determining factors in a child's return home at disposition and other subsequent court hearings, with conditions for return and an in-depth review of the in-home safety plan. Current practice also replaces the predisposition study used to provide the court with a family functioning assessment, which focuses more narrowly and specifically on danger threats and information related to the determination of child safety.[15]

Children in Households having an Active Investigation or Ongoing Services

The department's current policy related to a child who is born into or a child who has moved into a household having an active investigation or ongoing services requires the child protective investigator or case manager to add the child to the child welfare case as a participant in Florida Safe Families Network (FSFN)[16] and assess the new child as part of the family functioning assessment.

Substance Exposed Newborn Protection

The number of babies born in Florida addicted to drugs has substantially increased in recent years. In just 1 year, from 2014 to 2015, the number of substance-exposed newborns increased from 1,903 to 2,487. Most of these newborns were opiate-addicted, such as from methadone, heroin, or oxycodone. Babies born addicted to opioids commonly remain hospitalized for weeks after they are delivered so doctors can gradually wean them off the drugs in their systems, usually by giving them diminishing amounts of morphine, phenobarbital (a relaxant) and other drugs to combat withdrawal symptoms.[17]

Abuse of drugs or alcohol by parents and other caregivers can have negative effects on the health, safety, and well-being of children ether through the harm caused prenatally or to children of any age by exposure to drug activity in their home or environment. The federal Child Abuse Prevention and Treatment Act (CAPTA) requires states to have policies and procedures in place to notify child protective services agencies of substance-exposed newborns and to establish a plan of safe care for newborns identified as being affected by substance abuse or having withdrawal symptoms resulting from prenatal drug exposure.[18]

[18] 42 U.S.C. s.5106a(b), as amended by the CAPTA Reauthorization Act of 2010 (P.L. 111-320).

The Comprehensive Addiction and Recovery Act (CARA)[19] further amended CAPTA in 2016 to add federal requirements for states to ensure the safety and well-being of infants following release from the care of health care providers by:

- Addressing the health and substance use disorder treatment needs of the infant and affected family members or caregivers;
- Monitoring plans of safe care to determine whether and how local entities are making referrals and delivering appropriate services to the infant and affected family or caregiver in accordance with state requirements; and
- Developing plans of safe care for infants affected by all substance abuse, not just illegal substance abuse, as was the requirement prior to 2016 changes.

In defining the term "harm," s. 39.01, F.S., includes exposing a child to controlled substances or alcohol as a form of harm. Exposure to a controlled substance or alcohol is established by:

- A test, administered at birth, which indicates that the child's blood, urine, or meconium contained any amount of alcohol or a controlled substance or metabolites of such substances, the presence of which was not the result of medical treatment administered to the mother or the newborn infant; or
- Evidence of extensive, abusive, and chronic use of a controlled substance or alcohol by a parent when the child is demonstrably adversely affected by such usage.[20]

Current law provides no requirement that the parents of substance-exposed newborns undergo an assessment or evaluation or complete treatment for substance abuse. The courts presently have sole discretion to determine whether a parent is required to undergo treatment.

Termination of Parental Rights

Out-of-Home Care

One of the grounds for a termination of parental rights is that on three or more occasions the child or another child of the parent or parents has been placed in out-of-home care under ch. 39, F.S., and the conditions that resulted in the out-of-home placement were caused by the parent or parents.[21] However, a prior placement of a child in out-of-home care in a state other than Florida cannot serve as a basis for the termination of parental rights.

Single Parent Termination

A termination of parental rights of one parent without a termination of parental rights of the other parent is permitted only if:

- The child has only one surviving parent;
- The identity of a prospective parent has been established as unknown after sworn testimony;
- The parent whose rights are being terminated is a parent through a single-parent adoption;
- The protection of the child demands termination of the rights of a single parent; or

[19] P.L. 114-198.
[20] Section 39.01(30)(g), F.S. As used in this paragraph, the term "controlled substance" means prescription drugs not prescribed for the parent or not administered as prescribed and controlled substances as outlined in Schedule I or Schedule II of s. 893.03, F.S.
[21] Section 39.806(l), F.S.

- The parent whose rights are being terminated meets any of the criteria specified in s. 39.806(1)(d) and (f)-(m), F.S.[22]

Grounds for termination of parental rights in s. 39.806, F.S., that are not included in the list of grounds allowable for single parent terminations are:

- Conduct toward the child or other children by a parent that demonstrates that the continuing involvement of the parent or parents in the parent-child relationship threatens the life, safety, well-being, or physical, mental, or emotional health of the child irrespective of the provision of services. A provision of services may be evidenced by proof that services were provided through a previous plan or offered as a case plan from a child welfare agency;[23] and
- A conviction of a parent for an offense that requires the parent to register as a sexual predator under s. 775.21, F.S.[24]

Supplemental Adjudication of Dependency

In 2008, the legislature amended s. 39.507, F.S., relating to adjudicatory hearings to provide:

> (7)(a) For as long as a court maintains jurisdiction over a dependency case, only one order adjudicating each child in the case dependent shall be entered. This order establishes the legal status of the child for purposes of proceedings under this chapter and may be based on the conduct of one parent, both parents, or a legal custodian.
>
> (b) However, the court must determine whether each parent or legal custodian identified in the case abused, abandoned, or neglected the child in a subsequent evidentiary hearing. If the evidentiary hearing is conducted subsequent to the adjudication of the child, the court shall supplement the adjudicatory order, disposition order, and the case plan, as necessary. With the exception of proceedings pursuant to s. 39.811, the child's dependency status may not be retried or readjudicated.[25]

Section 39.507, F.S., is not being applied uniformly across the state due to a conflict between holdings from the Third and Fifth District Courts of Appeals.[26] The Third District Court of Appeal in *D.A. v. Dep't of Children & Family Servs.*, affirmed the trial court's holding that a child may be adjudicated dependent twice, the second time based on a prospective risk of harm from a parent to a child.[27] In this case, the trial court adjudicated a child dependent based on the behavior of the mother and her consent to the adjudication of dependency of her child. Subsequently, the trial court adjudicated the child dependent based on the behavior of the father, which caused a substantial risk of imminent, but not actual harm to the child.[28] In contrast, the court in *P.S. v. Department of Children and Families*, 4 So. 3d 719 (Fla. 5th DCA 2009), held

[22] Section 39.811(6), F.S.
[23] Section 39.806(1)(c), F.S.
[24] Section 39.806(1)(n), F.S.
[25] Chapter 208-245, Laws of Florida.
[26] *See D.A. v. Department of Children & Family Services*, 84 So. 3d 1136, 1140 (Fla. 3d DCA 2012), and *P.S. v. Department of Children and Families*, 4 So. 3d 719, 720-721 (Fla. 5th DCA 2009).
[27] *D.A.*, *supra* note 23, at 1139.
[28] *Id*. at 1139-1140.

that a child may only be adjudicated dependent at a second evidentiary hearing if the second parent actually harms a child.[29]

Domestic Violence Injunction in Dependency

A child protective investigator (CPI) must implement separate safety plans for the perpetrator of domestic violence and a parent who is a victim of domestic violence as defined in s. 741.28, F.S. If the perpetrator of domestic violence is not the parent, guardian, or legal custodian of the child, the CPI shall seek issuance of an injunction authorized by s. 39.504, F.S., to implement a safety plan for the perpetrator and to impose any other conditions to protect the child.[30] The law does not address any action to be taken by the CPI if the perpetrator is not able to be located.

Parental Relocation with a Child

A parent who wishes to permanently relocate with a child more than 50 miles from the current residence must petition the court for permission to modify a court order establishing a time-sharing schedule, unless the other parent agrees to the relocation.[31] On first read, this provision appears only to apply to situations in which parents have a time-sharing arrangement for minor children.

However, the term "child" as used in s. 61.13001, F.S., is defined as any person under the jurisdiction of a state court pursuant to the Uniform Child Custody Jurisdiction and Enforcement Act (UCCJEA) or the subject of an order granting a parent or other person a right to time-sharing, residential care, kinship, or custody.[32] Therefore, the provisions on parental relocation may apply to situations in which a child is dependent.

A child custody proceeding is a proceeding in which legal custody, physical custody, residential care, or visitation with respect to a child is an issue. The term includes a proceeding for divorce, separation, neglect, abuse, dependency, guardianship, paternity, termination of parental rights, and protection from domestic violence, in which the issue may appear. The term does not include a proceeding involving juvenile delinquency, contractual emancipation, or enforcement under ss. 61.524-61.540, F.S.[33]

In 2015, the Fourth District Court of Appeal held that the provisions of s. 61.13001, F.S., apply to permanent guardianship placements for a dependent child.[34] Therefore, according to this case, if a permanent guardian wishes to move with a dependent child more than 50 miles away, the guardian must file a motion for permission to relocate the child's residence. At the hearing, the court must issue an order based on the best interests of the child, just as is the case for any

[33] Section 61.502(4), F.S.
[34] Section 39.6221, F.S.

relocation determination.[35] Still, the ability of a guardian to file a motion under s. 61.13001, F.S., is unclear.[36]

The issue of relocation with a child by a permanent guardian is addressed elsewhere, however. Section 39.6221(1)(e), F.S., requires a permanent guardian to provide notice to the court of any change in his or her residential address. Moreover, if the permanent guardian moves to another address in-state, the permanent guardian must still comply with visitation requirements as established by the court in its written order of guardianship.[37] Additionally, to ensure compliance with the UCCJEA, the department requires as standard procedure that every order of permanent guardianship include a provision that the child not be moved outside of the state without court permission.[38]

Confidential Information Sharing

Federal law requires children ages 14 years and older to participate in developing the case plan and requires the case plan to state the rights of the child to education, health, visitation, and court participation, and the right to stay safe and avoid exploitation.[39] The new federal language does not provide protections for confidential information that might be shared at a case planning conference, and there are currently no statutory safeguards in Florida law related to the confidentiality of information shared at a case planning conference.

Confidentiality of Reports and Records in Cases of Child Abuse or Neglect

Section 39.202, F.S., provides a public records exemption for all records held by the department on reports of child abandonment, abuse, or neglect, including reports made to the central abuse hotline operated by the department. Limited disclosure is authorized for the following entities and purposes, including:

- Employees, authorized agents, or contract providers of the department, the Department of Health, the Agency for Persons with Disabilities, the Office of Early Learning, or county agencies responsible for carrying out:
  - Child or adult protective investigations and services; and
  - Licensure or approval of adoptive homes, foster homes, child care facilities, facilities licensed under chapter 393, F.S., family day care homes, and other homes used to provide for the care and welfare of children;
- Criminal justice agencies having appropriate jurisdiction;
- The parent or legal custodian of any child who is alleged to have been abused, abandoned, or neglected, and the child, and their attorneys, including any attorney representing a child in civil or criminal proceedings;

- An appropriate state attorney, grand jury, or court including the Division of Administrative Hearings or the Public Employees Relations Commission;
- Any appropriate official of the department or the Agency for Persons with Disabilities who is responsible for:
  - Administration or supervision of the department's program for the prevention, investigation, or treatment of child abuse, abandonment, or neglect, or abuse, neglect, or exploitation of a vulnerable adult;
  - Taking administrative action concerning an employee of the department or the agency who is alleged to have perpetrated child abuse, abandonment, or neglect, or abuse, neglect, or exploitation of a vulnerable adult; or
  - Employing and continuing employment of personnel of the department or the agency;
- Employees or agents of the Department of Revenue responsible for child support enforcement activities;
- Certain employees of a local school district or the Department of Education; or
- Persons with whom the department is seeking to place the child or to whom placement has been granted, including foster parents for whom an approved home study has been conducted, the designee of a licensed residential group home, an approved relative or nonrelative preadoptive parents for whom a favorable preliminary adoptive home study has been conducted, adoptive parents, or an adoption entity acting on behalf of preadoptive or adoptive parents.[40]

Relative Caregiver Ineligibility

A substantial amount of research acknowledges that children in the care of relatives, or what is often referred to as "kinship care," are less likely to change placements and benefit from increased placement stability, as compared to children placed in general foster care. Most child welfare systems strive to place children in stable conditions without multiple living arrangement changes. As opposed to children living in foster care, children living in kinship care are more likely to remain in their own neighborhoods, be placed with siblings, and have more consistent interactions with their birth parents than do children placed in foster care.[41]

Recognizing the importance of relative placements, the Legislature created the Relative Caregiver Program in 1998 to provide financial assistance to eligible relatives caring for children who would otherwise be in foster care.[42] In 2014, the Legislature expanded the program to include specified nonrelative caregivers.[43]

According to the department, as of December 31, 2016, Florida had 13,056 children in kinship foster care placements and 12,478 children in licensed foster care placements.[44]

---

[40] Section 39.202(2), F.S.

Children receiving cash benefits under the Relative Caregiver Program are not eligible to simultaneously receive WAGES cash benefits under chapter 414, F.S.[45] A department rule provides that the parent's presence in the home with the child and relative caregiver for 30 days or more results in the child becoming ineligible for Relative Caregiver Program funds.[46] Currently, s. 39.5085, F.S., is silent on the issue of parents and stepparents living in the home with the child and relative caregiver, and this has resulted in cases where the courts have ordered the department to pay Relative Caregiver Program funds contrary to federal law.

Medical Records

Currently, ch. 395, F.S., relating to hospital licensing and regulation, and ch. 456, F.S., relating to health professions and occupations, address the release of patient records.

Section 395.3025(4)(g), F.S., provides that patient records are confidential and must not be disclosed without the consent of the patient or a legal representative. However, disclosure may be made without consent to entities including the department or its agent for investigations of abuse, neglect, or exploitation of children or vulnerable adults. This provision enables the department and its agents to access medical records for children in care without the patient's written authorization.

However, physician office practices not licensed under ch. 395, F.S., have no authority to release patient records to the department without the patient's written authorization.[47] These records, however, may be important to the investigation of child abuse and neglect.

Background Screening for Group Home Personnel

Current law requires all caregivers in residential group homes to meet the same education, training, and background and other screening requirements as foster parents.[48] A department rule requires foster parents to be screened through the central abuse hotline.[49] However, current law also provides that information in the central abuse hotline may not be used for employment screening, except as provided in ss. 39.202(2)(a) and (h) or 402.302(15), F.S.[50] Residential child caring agencies are not included in the exceptions. Therefore, reports to the central abuse hotline may not be used for conducting background checks of residential group care personnel.

Children's Services Councils

In 1986, the Legislature authorized Florida counties to create by ordinance children's services councils as countywide special districts to fund children's services. Counties may create:[51]

- Independent special districts, for which the county governing body must seek voter approval to levy annual ad valorem property taxes;[52] or

[45] Sections 414.045(1)(b)3. and 414.095(2)(a)5., F.S.
[46] Chapter 65C-28.008(2)(d), F.A.C.
[47] Section 456.057(7), F.S.
[48] Section 409.145(2)(e), F.S.
[49] Chapter 65C-13.023(2) and (8), F.A.C.
[50] Section 39.201(6), F.S.
[51] Chapter 86-197, L.O.F.
[52] Section 125.901(1), F.S.

- Dependent special districts, which are supported by appropriation and are authorized to accept grants and donations from public and private sources.[53]

Children's services councils are authorized to exercise the following powers and functions:
- Provide preventive, developmental, treatment, rehabilitative, and other services for children;
- Provide funds to other agencies that operate for the benefit of children, with the exception of the public school system;
- Collect data and conduct research to determine the needs of the children in the county;
- Coordinate with providers of children's services to prevent duplication of services; and
- Lease or buy necessary real estate, equipment and personal property.[54]

The governing body of the county shall submit to the electorate the question of retention or dissolution of a children's services council established as an independent special district having voter-approved taxing authority in a general election according to the following schedule:
- For a district in existence on July 1, 2010, and serving a county having a population of 400,000 or fewer persons as of that date.....2014.
- For a district in existence on July 1, 2010, and serving a county with a population of 2 million or more persons as of that date.....2020.[55]

The Children's Trust of Miami is the only council in a county having a population of 2 million or more. The trust was created in 2002 and was renewed by referendum in 2008.[56]

Placement Assessment

Research shows an association between frequent placement disruptions and adverse outcomes on a child, including poor academic performance and social or emotional adjustment difficulties such as aggression, withdrawal, and poor social interaction with peers and teachers. Despite this evidence, child welfare systems have shown a limited focus on reducing placement instability for children in their care.[57] Mismatching placements to children's needs has been identified as a factor that negatively impacts placement stability. Identifying the right placement requires effective assessment.[58]

When a child is unable to safely remain at home with a parent, the most appropriate available out-of-home placement may be chosen after analyzing the child's age, gender, sibling status, special physical, educational, emotional and developmental needs, alleged type of abuse, neglect or abandonment, community ties and school placement, and potential responsible caregivers that can meet the child's needs.[59]

[58] Teija Sudol, *Placement Stability Information Packet*, National Resource Center for Permanency and Family Connections, December 2009.
[59] Rule 65C-28.004, F.A.C

Lead agencies must consider placement in residential group care if the child is 11 or older, has been in licensed family foster care for 6 months or longer and removed from family foster care more than once, and has serious behavioral problems or has been determined to be without the options of either family reunification or adoption. In addition, the assessment must consider information from several sources, including psychological evaluations, professionals with knowledge of the child, and the desires of the child concerning placement. If the lead agency case managers determine that residential group care would be an appropriate placement, the child must be placed in residential group care if a bed is available.[60] A child who does not meet the specified criteria may be placed in residential group care if it is determined that such placement is the most appropriate for the child.[61]

These placement requirements were enacted in 2001 and 2002 to allow increased use of residential group home placements until additional foster homes could be recruited.[62] However, while the 2001 and 2002 legislation was being considered by the Legislature, the department expressed concerns that the impact of proposed legislation ran contrary to published literature, guidance from the federal government, and the actions of other states in moving away from group home care.[63]

Lead Agency Executive Compensation

The portion of the Internal Revenue Code that sets the rules governing compensation at public nonprofits, including those known as 501(c)3 organizations, specifies that no part of the net earnings of a section 501(c)3 organization may inure to the benefit of any private shareholder or individual.[64] However, the IRS also gives each nonprofit's board of directors latitude in determining how much to pay top employees. The IRS does require that the nonprofit's board have an objective process for setting executive salaries, including use of comparisons with salaries paid by similar organizations for similar services. However, a nonprofit that normally pays no taxes may be taxed for paying excess benefits to an insider.[65]

Disagreement exists within the nonprofit community about whether administrators of nonprofits need to be highly paid to remain and provide leadership in the nonprofit sector. Regarding the use of federal funds to pay executive salaries, the federal government generally caps at $196,000 how much of a nonprofit executive's salary can be paid with federal funds. A nonprofit can easily get around the standard by reporting that private funds are used to pay the portion of salary that exceeds the limit.[66] Some states have taken steps to impose similar caps.

A provision in New Jersey's budget limits what nonprofit groups can pay their chief executives if they are providing social services under state contracts.[67] Beginning July 1, 2010, the state capped the salaries of executives with any nonprofit social service agency having a budget greater than $20 million at $141,000. Executive directors of nonprofit groups who oversee budgets between $10 million and $20 million are capped at no more than $126,900 in state compensation. Persons overseeing a budget between $5 million and $10 million are limited to $119,850 a year from the state, and those with a budget less than $5 million are capped at $105,750 in salary from the state.

In Florida, each community-based care lead agency is required to post on its website the current budget for the lead agency, including salaries, bonuses, and other compensation paid, by position, for the agency's chief executive officer, chief financial officer, and chief operating officer, or their equivalents.[68]

The following chart details executive compensation for each community-based care lead agency and allows for a comparison of chief executive officer salaries, the number of children receiving both in-home and out-of-home services, and the agency annual contract amount. There does not appear to be a correlation between executive compensation and other factors.[69]

CBC Lead Agency	Chief Executive Officer Annual Compensation From CBC Contract	# of Children Receiving Services	Annual Contract Amount (Millions)	% of Budget from Public Funds
Lakeview Center – Families First Network	$199,784	2,087	$46.5	NA

Heartland for Children	$155,000	1,910	$43.6	100.00
Devereux Community Based Care	$131,211	1,011	$28.6	NA
ChildNet Palm Beach and Broward	$227,894	5,904	$44.4 (PB) $72.3 (B)	100.00
Our Kids of Miami Dade	$207,489	3,056	$104.2	100.00

In 2015, during an operational audit of community-based care lead agencies, the Auditor General found instances where salary payments, including bonuses, selected perquisites, and severance pay, or leave balances did not appear to be properly supported or calculated in accordance with established community-based care policy or state law.[71]

State law specifies that no extra compensation shall be made to any officer, agent, employee, or contractor after the service has been rendered or the contract made. The audit discovered salary

[71] Office of the Auditor General, *Department of Children and Families and Selected Community-Based Care Lead Agencies Oversight of Foster Care and Related Service*. Report No. 2015-156, pg. 1 (March 2015).

payments made with department-provided funds included a $15,000 bonus awarded to the CEO of Big Bend Community Based Care in December 2012, which was not supported by a provision in the CEO's employment contract. In response to the audit inquiry, lead agency management indicated that bonuses awarded at the discretion of the Board were based on market standards and performance.

However, as the CEO's employment contract did not provide for the payment of bonuses, the $15,000 bonus payment was extra compensation prohibited by state law. The audit procedures also found that the lead agency had not established policies and procedures regarding the award and calculation of bonuses for staff.[72]

Unaccompanied Homeless Youth

Unaccompanied homeless youth are children, most often teenagers, experiencing homelessness while not in the physical custody of a parent or guardian. It is estimated that 1.6 to 1.7 million youth experience homelessness on their own each year. These youth live in a variety of unsafe, temporary situations, including cars, parks, the homes of other people, shelters, and motels. Most of these young people have left home due to severe dysfunction in their families, including abuse and neglect. Studies have found that 20-40 percent of unaccompanied homeless youth were abused sexually in their homes, while 40-60 percent were abused physically. Over two-thirds of unaccompanied homeless youth report that at least one of their parents abuses drugs or alcohol. Other youth are thrown out of their homes because they are pregnant, gay or lesbian, or because their parents believe they are old enough to take care of themselves.[73]

In 2012, the Legislature enacted legislation to give homeless youth ages 16 and older the ability to request and receive their birth certificate from the state.[74] Without a birth certificate, minors who are not in the physical custody of a parent or guardian cannot obtain other forms of identification, such as a Social Security card, driver's license or state identification card. Without such documentation, they face barriers that hinder their ability to recover from homelessness.

In 2014, the Legislature expanded the 2012 law to enable unaccompanied homeless youth the ability to seek medical care for themselves or their children without parental consent.[75]

III. Effect of Proposed Changes:

Section 1 amends s. 39.01, F.S., to create a definition for the term "legal father" and amend the definition of the term "parent." These revised definitions work in concert with other procedures in an attempt to provide notice to biological fathers of a child in shelter proceedings.

Section 2 amends s. 39.201, F.S., relating to mandatory reporting and the child abuse hotline, to allow the use of information in the central abuse hotline for the employment screening of caregivers employed by residential group homes.

[74] Section 743.067(3)(a), F.S.
[75] *Id*.

Section 3 amends s. 39.202, F.S., relating to the confidentiality of reports and records in child abuse and neglect cases. This provision adds to the list of limited circumstances in which these records and reports may be released to include employment screening for caregivers in residential group homes. Current law authorizes a release of child abuse and neglect records for the purpose of licensing or approving adoptive homes, foster homes, childcare facilities, facilities licensed to serve persons with developmental disabilities, family day care homes, and other homes used to provide for the care and welfare of children. This bill also expands from up to 30 to up to 60 days, the number of days the department has to provide access to the parent or legal custodian of the child in the record or to any person identified in a report as having harmed the child.

Section 4 amends s. 39.301, F.S., relating to protective investigations, to require a child protective investigator to implement a safety plan for a perpetrator of domestic violence only if the investigator is able to locate the perpetrator. It also clarifies when a CPI must seek an injunction to prevent child abuse pursuant to s. 39.504, F.S., pending the disposition of the petition for dependency. The bill also requires that when a child is born into or moves into a home that is under a protective investigation, the child must be added to the investigation and assessed for child safety.

Section 5 amends s. 39.302, F.S., relating to protective investigations of institutional child abuse, abandonment or neglect, to provide that if an individual employed as a caregiver in a residential group home is named in any capacity in three or more reports to the child abuse hotline within a 5-year period, those reports may be reviewed for employment screening.

Section 6 amends s. 309.402, F.S., relating to placement in a shelter, to require additional inquiry by the court at a shelter hearing to identify and locate the legal father of the child and provide requirements for the inquiry.

Section 7 amends s. 39.503, F.S., relating to cases where the identity or location of a parent is unknown when a dependency petition is filed, to require additional inquiry under oath by the court to identify and locate the legal father of the child. The bill also provides that the required diligent search include a search of the Florida Putative Father Registry.

Section 8 amends s. 39.504, F.S., relating to injunctions, to require the same judge to hear both the dependency proceeding and the injunction proceeding when applicable. The bill also provides that if an alleged offender cannot be located after a diligent search, the court may enter an injunction based on the sworn petition and any affidavits.

Section 9 amends s. 39.507, F.S., to resolve conflicting decisions of the Third and Fifth District Courts of Appeal as to whether a petitioner must demonstrate that the second parent has actually harmed a child already adjudicated dependent based on the behavior of the first parent. The language in the bill adopts the interpretation of law provided by the Third District Court of Appeal in *D.A. v. Dep't of Children & Family Servs*.[76] Therefore, the bill specifies that a court may make supplemental findings to the original order regarding the conduct of the second parent

[76] *D.A.*, *supra* note 23, at 1140.

short of a showing of actual harm or abuse. Instead of finding harm caused by the second parent, the court may add a finding to the record that the second parent placed the child at substantial risk of imminent abuse, abandonment, or neglect. The court is also not required to conduct an evidentiary hearing for the second parent in order to supplement an order or case plan if the parent consents to or admits the relevant allegations or fails to appear at an arraignment hearing.

Section 10 amends s. 39.5085, F.S., relating to the Relative Caregiver Program, to prohibit a relative or non-relative caregiver from receiving a payment under the program if the parent or stepparent of the child resides in the home. However, a caregiver may receive a payment for a minor parent who is in his or her care, if the minor child as well as the minor parent's child are living in the home and both children have been adjudicated dependent. The proposed changes will align s. 39.5085, F.S., with s. 414.095 F.S., and federal law.

Section 11 amends s. 39.521, F.S., to replace the requirement for a predisposition study with a requirement for a family functioning assessment and revise the timelines for providing a copy of the case plan to the parties. The bill also replaces general references to the department's prevention and reunification efforts with a requirement for a specific in-home safety plan prepared or approved by the department.

Under this new requirement the court must review and make findings on whether a child can safely remain in or return to the home based upon the in-home safety plan and available safety management services. The bill also provides that when a child is adjudicated dependent based upon evidence of harm related to exposure of a child to a controlled substance or alcohol, the parent is required to undergo a substance abuse disorder assessment or evaluation and comply with treatment and services that are determined to be necessary.

The bill also specifies the information that must be provided to the court in the family functioning assessment and changes the standard for returning a child home from "parent having substantially complied with the case plan" to "circumstances that caused the out-of-home placement and issues subsequently identified have been remedied."

Section 12 amends s. 39.522, F.S., relating to postdisposition change of custody, to change the standard for returning a child home from "parent having substantially complied with the case plan" to "circumstances that caused the out-of-home placement and issues subsequently identified have been remedied."

Section 13 amends s. 39.523, F.S., effective January 1, 2018, relating to placement in out-of-home care, to require the department to establish a comprehensive placement assessment process to determine the most appropriate match for the level of care needed by the child. The bill requires the community-based lead care agency or a subcontracting agency to establish and coordinate a multi-disciplinary team in determining placement for the child. After the team is established, the team must document data and information on a variety of factors relating to the child and determine placement based upon these factors and any additional evaluations.

The bill requires the department to document placement assessments in the Florida Safe Families Network (FSFN).[77] On a semi-annual basis, the department must collect and post information on its website related to the placement of children in out-of-home care, and update the information on January 1 and July 1 of each year.

Section 14 creates s. 39.6001, F.S., relating to safe-care plans for substance-exposed newborns. The bill requires the department, in coordination with the Department of Health, the Agency for Health Care Administration, and others, to develop a strategy for coordinated services to ensure the safety and well-being of newborns with prenatal substance exposure through the implementation of a safe-care plan. The safe-care plan will prescribe treatment needs and services of the newborn.

Section 15 amends s. 39.6011, F.S., relating to case plan development, to provide that the department may discuss confidential information during a case planning conference and requires all conference participants to maintain the confidentiality of shared information.

Section 16 amends s. 39.6012, F.S., relating to case plan tasks and services, to require that whenever there is evidence of harm related to exposure of a child to a controlled substance or alcohol, the case plan must include a required task that the parent undergo a substance abuse disorder assessment or evaluation and comply with treatment and services that are determined to be necessary.

Section 17 amends s. 39.6221, F.S., to provide that the requirements of s. 61.13001, F.S., relating to parental relocation, do not apply to permanent guardianships established under chapter 39, F.S. As such, permanent guardians of a dependent child will not need the approval of a court to relocate their residences. However, these guardians will be required to report their new addresses and continue with any visitation requirements, but these guardians, pursuant to department rules, are required to have court approval to move out of the state with a dependent child.

Section 18 amends s. 39.701, F.S., relating to judicial review, to require the department to assess a child for child safety and provide notice to the court when the child is born into or moves into a home that is under court jurisdiction. The bill also provides a timeline for both the safety assessment and a progress update that are to be filed with the court and provides the department with rulemaking authority.

Section 19 amends s. 39.801, F.S., relating to court procedures, jurisdiction, notice, and service of process, to address notice requirements for a petition of termination of parental rights to a prospective father if there is no legal father.

Section 20 amends s. 39.803, F.S., relating to unknown identity or location of a parent after a termination for parental rights petition has been filed, to require additional information to the

[77] The FFSN is Florida's Statewide Automated Child Welfare Information System, considered to be the official child welfare case record. The FFNS is accessed by the Florida Abuse Hotline, child protective investigators, adult protective investigators, and others. Department of Children and Families, *Florida Safe Families Network Overview*, available *at* http://www.dcf.state.fl.us/initiatives/GMWorkgroup/docs/meeting060809/June%208%20presentation%20-%20Pasek.pdf (last visited April 17, 2017).

inquiry conducted by the court to identify or locate a parent and authorizes the court to order scientific testing to determine maternity or paternity of the child.

Section 21 amends s. 39.806, F.S., relating to termination of parental rights, to allow child removals in other states, territories or jurisdictions to be considered when establishing a ground for termination of parental rights.

Section 22 amends s. 39.811, F.S., relating to powers and orders of disposition, to add to the list of circumstances in which one parent is subject to a termination of parental rights based on possible harm to the life, safety, well-being, or physical, mental, or emotional health of the child, regardless of whether that parent is convicted of an offense requiring registration as a sexual predator under s. 775.21, F.S.

Section 23 amends s. 125.901, F.S., relating to children's services councils, to provide an exception to a requirement that a county submit the question of retention or dissolution of a district having voter-approved taxing authority to the general electorate in a general election.

Section 24 amends s. 322.051, F.S., relating to identification cards, to provide a requirement for a statement on the back of cards for unaccompanied homeless youth to acknowledge that they have been certified as such and include a citation to s. 743.067, F.S.

Section 25 amends s. 395.3025, F.S., relating to patient and personnel records, to allow these confidential records to be disclosed to contracted entities of the department without consent of the patient or his or her legal representative. Private physician offices have requested statutory authority to provide these records to child protective investigators and dependency case managers.

Section 26 amends s. 402.40, F.S., relating to child welfare training and certification, to define a "child welfare trainer" and provide the department rulemaking authority to determine standards for these trainers to ensure that they are qualified to train child welfare professionals. There are currently no standards in place.

Section 27 creates s. 409.16741, F.S., effective January 1, 2018, relating to prenatal substance abuse, to require the department to establish or adopt one or more initial screening and assessment instruments to address and treat the needs of substance-exposed newborns in the context of the family environment. To further this goal, the department or the community-based lead care agency must regularly conduct multidisciplinary staffings on services, jointly assess local service capacity for substance-exposed newborns, and adopt a plan to ensure that substance-exposed newborns are assigned to child-protective investigators and case managers having specialized training in this area.

Section 28 creates s. 409.16742, F.S., which requires the department to establish a pilot program that will provide shared family care residential services for substance-exposed newborns. In establishing the pilot program, the bill requires the department to enter into a contract with the designated lead agency or with a private entity capable of providing appropriate residential care. Shared family care will involve temporarily placing both the substance-exposed newborn and his or her entire family in the home of a family trained to mentor and provide support to the

biological parents. The family temporarily placed will receive services specified by the department. The pilot program is limited to newborns and families in the Fourth Judicial Circuit.

Section 29 amends s. 409.992, F.S., relating to community-based care lead agency expenditures, to prohibit the use of state-appropriated funds to pay the salaries of administrative employees of lead agencies in amounts in excess of the salary of the secretary of the department. The current annual salary of the secretary is $140,539, and 15 of 18 lead agencies pay their CEOs in excess of this amount.

Section 30 amends s. 456.057, F.S., relating to ownership and control of patient records, to allow the disclosure of confidential records to the department, its agent or its contracted entity, for the purpose of conducting child protective investigations of or providing services in cases of abuse, neglect or exploitation of children or vulnerable adults.

Section 31 repeals s. 409.141, F.S., relating to equitable reimbursement methodology of group homes, to remove obsolete requirements.

Section 32 repeals s. 409.1677, F.S., relating to model comprehensive residential services programs, to remove obsolete programs.

Section 33 amends s. 743.067, F.S., relating to certified unaccompanied homeless youth to define "certified unaccompanied homeless youth," to allow a continuum of care lead agency or its designee to certify a youth as an unaccompanied homeless youth, require the department's Office on Homelessness to develop a form to be used when certifying a youth, and authorize certified youth to apply for an identification card with the Department of Highway Safety and Motor Vehicles.

Section 34 amends, s. 1009.25, F.S., relating to tuition and fee exemptions for postsecondary education, to remove a reference to temporary shelter for individuals intended to be institutionalized and to clarify that college or university dormitory housing is not permanent housing.

Section 35 amends s. 39.524, F.S., relating to safe-harbor placement, to conform a cross-reference.

Section 36 amends 394.495, F.S., relating to child and adolescent mental health system of care, to conform a cross-reference.

Section 37 amends s. 409.1678, F.S., relating to specialized residential options for children who are victims of sexual exploitation, to conform a cross-reference.

Section 38 amends s. 960.065, F.S., relating to eligibility for awards, to conform a cross-reference.

Section 39 amends s. 409.1679, F.S., relating to reimbursement, to conform cross-references.

Section 40 amends s. 1002.3305, F.S., relating to College-Preparatory Boarding Academy Pilot Program for at risk students, to conform a cross-reference.

Section 41 reenacts s. 483.181(2), F.S., relating to acceptance, collection, identification, and examination of specimens.

Section 42 appropriates $250,000 of nonrecurring funds from the General Revenue Fund to the department for Fiscal Year 2017-2018 to implement a shared family care residential services pilot program created in Section 28 of the bill.

Section 43 provides an effective date of July 1, 2017, except for the provisions in Section 13 relating to the removal of a child from a home and placement in out-of-home care, and Section 27 relating to screening and assessments, multidisciplinary staffings, and child protective investigator and case manager training requirements to serve substance-exposed newborns and their families, which take effect January 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

By limiting the amount of state funds that may be used to pay the salaries of administrative employees of community based care lead agencies, more funding may be available to provide services to children and families. Conversely, some of the highly paid administrative employees will have lower salaries, assuming that the salary reductions resulting from the bill are not offset with other funds.

Additionally, a parent involved in a paternity issue for a dependent child may have to pay the cost of a paternity test.

C. Government Sector Impact:

Although the bill requires the department to develop a process to perform abuse registry checks for residential group care employees in accordance with s. 39.201(6), F.S., the department estimates that increased workload can be absorbed by existing staff.

The bill makes changes to s. 39.523, F.S., to require a full placement assessment on every child who enters out-of-home care. Although a workload impact in developing the assessment tool is expected, the impact to the community-based care lead agencies is unknown[78] but is expected to be absorbed within each lead agency's existing resources. The bill also requires the department to collect data from each community-based care lead agency and post it to the department's website, and update the information twice a year.

In the provisions relating to substance-exposed newborns, the department is required to develop screening and assessment tools for treatment and services. Child protective investigators and case managers must receive specialized training in working with substance-exposed newborns. Regarding the requirements specific to the shared family care residential services program, the department may contract with the designated community-based care lead agency or a private entity to provide residential care for the substance exposed newborns and their families. The bill appropriates $250,000 from the General Revenue Fund for Fiscal Year 2017-2018 to the department to conduct the shared family care residential services pilot program in the Fourth Judicial Circuit. The department may expend up to $250,000 to serve substance-exposed newborns and their families. Services can include, but are not limited to, residential treatment services and individual wrap-around services.

The bill is expected to reduce costs incurred by the community-based care lead agencies for paternity tests to the extent the court assesses those costs against the parent (Lines 590 through 601 of the bill). The cost of a paternity test ranges from $50 to $500, depending on the type of test. During Fiscal Year 2015-2016, Children's Legal Services served more than 52,414 children. If paternity testing is required in 5 percent of the cases, the department and its community-based care lead agencies could save between $131,000 and $1,310,000 annually.

VI. Technical Deficiencies:

None.

[78] Department of Children and Families, *2017 Agency Legislative Bill Analysis* (March 2, 2017)(on file with the Senate Judiciary Committee).

VII. Related Issues:

The Definitions of "Legal Father" and "Parent" as Used in Ch. 39, F.S.

Section 1 creates a definition of the term "legal father." This definition is also included within the definition of "parent". The purpose or intent of having duplicate definitions of the same term is not clear.

Use of Central Abuse Hotline Information for Employment Screening for Caregivers at Residential Group Homes

Section 2 allows the department to release central abuse hotline information to be used for employment screening of caregivers employed at residential group homes. In the past, constitutional due process concerns have been raised about using unsubstantiated information in a report to the central abuse hotline for employment screening.[79] Notably, the bill does not require that a person be notified of an adverse employment decision based on a report to the hotline or give the person an opportunity to challenge the allegations submitted to the hotline.

Section 3 increases from 30 to 60 days the amount of time the department has prior to having to make confidential records of child abuse, abandonment, or neglect available to a person identified in the report as having harmed the child.

Shared Family Care Residential Services Pilot Program

Section 28 establishes the Shared Family Care Residential Services Pilot Program. Shared family care will involve temporarily placing both the substance-exposed newborn and his or her entire family in the home of a family trained to mentor and provide support to the biological parents. The bill does not identify who develops the training protocol or who provides the training. Additionally, the bill does not specify the type and length of training provided to the family prior to placement, or include any safeguards typically required of other temporary placements, such as for foster families. Safeguards typically required in other out-of-home placements of children include a home study by a licensed social worker, a full Level 2 background screening for persons in the home who are older than the age of 18, and compliance with uniform fire safety standards. Additionally, members from the placed family are not required to undergo background screening, even if other children reside in the placed home.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 39.01, 39.201, 39.202, 39.301, 39.302, 39.402, 39.503, 39.504, 39.507, 39.5085, 39.521, 39.522, 39.523, 39.524, 39.6011, 39.6012, 39.6221, 39.701, 39.801, 39.803, 39.806, 39.811, 125.901, 322.051, 394.495, 395.3025, 402.40, 409.1678, 409.1679, 409.992, 456.057, 743.067, 960.065, 1002.3305, and 1009.25.

[79] Committee on Children, Families, and Elder Affairs, The Florida Senate, Issue Brief 2011-205: Review of State Child Abuse Registries (Oct. 2010), https://www.flsenate.gov/UserContent/Session/2011/Publications/InterimReports/pdf/2011-205cf.pdf; Julianna Debler, University of Central Florida, *Has the pendulum swung too far? A legal evaluation of Florida's child abuse and neglect registry* (2012), *Available at* http://stars.library.ucf.edu/cgi/viewcontent.cgi?article=2327&context=honorstheses1990-2015.

The bill creates the following sections of the Florida Statutes: 39.6001, 409.16741, and 409.16742.

This bill reenacts section 483.181(2) of the Florida Statutes.

This bill repeals the following sections of the Florida Statutes: 409.141, and 409.1677.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 25, 2017:
The committee substitute:

- Changes the effective date of Section 27 of the bill, relating to screening and assessment, staffings, and specialized training requirements for substance-exposed newborns and their families, to January 1, 2018.
- Provides a nonrecurring appropriation to the department of $250,000 from the General Revenue Fund for Fiscal Year 2017-2018 for the implementation of the shared family care residential services pilot program in the Fourth Judicial Circuit to serve substance-exposed newborns and their families.

CS/CS by Judiciary on April 19, 2017:
The committee substitute:

- Requires the court at a child placement hearing to review the in-home safety plan and available safety management services available to protect a child in making its findings to remove the child or allow the child to remain in the home.
- Requires the appropriate community-based care lead agency or subcontracted agency to establish a multi-disciplinary team to determine appropriate placement after gathering customized data and information on each child.
- Requires the department to collect and post on its website data on out-of-home placements, rather than requiring the department to draft and provide a report to the Governor and the Legislature.
- Requires the department and community-based lead care agencies to establish a safe-care plan and develop and implement a coordinated approach to offering treatment and services to substance-abused newborns and their families.
- Creates a shared family care residential services pilot program in the Fourth Judicial Circuit to facilitate the temporary placement of substance-exposed newborns and their family in the home of a volunteer trained family for the purpose of being mentored and receiving treatment and services.
- Allows for the disclosure of child abuse records held by the department for the purpose of screening employees as caregivers in residential homes, including but not limited to abuse hotline records.
- Increases from up to 30 days to up to 60 days, the number of days the department has prior to having to make confidential records of child abuse, abandonment, or neglect

available to parents or legal custodians of the child, or a person identified in the report as having harmed the child.
- Provides that a continuum of care lead agency or its designee may certify a youth as an unaccompanied homeless youth.
- Changes the effective date of the bill to July 1, 2017, except for the provisions in Section 13 of the bill relating to the removal of a child from a home and placement in out-of-home care, which take effect January 1, 2018.

CS by Children, Families, and Elder Affairs on March 13, 2017:
The committee substitute:
- Allows certified unaccompanied homeless youth to apply for identification cards with DHSMV that contain a statement that they have been certified by an authorized entity and a statutory citation on the back.
- Clarifies eligibility for tuition exemptions for unaccompanied and homeless youth.
- Clarifies current law related to unaccompanied homeless youth allowing them to obtain medical care without parental permission.
- Changes the effective date of the bill to January 1, 2018.

B. Amendments:

None.

The Committee on Appropriations (Garcia) recommended the following:

Senate Amendment (with title amendment)

Delete lines 1773 - 1829
and insert:
Section 27. Effective January 1, 2018, section 409.16741, Florida Statutes, is created to read:
409.16741 Substance-exposed newborns; legislative findings and intent; screening and assessment; case management; training.—
(1) LEGISLATIVE FINDINGS AND INTENT.-

126346

(a) The Legislature finds that children, their families, and child welfare agencies have been affected by multiple substance abuse epidemics over the past several decades, and parental substance abuse is again becoming a growing reason for removing children from their homes and placing them in foster care.

(b) The Legislature also finds that infants are the largest age group of children entering foster care and that parental substance abuse disorders are having a major impact not only on increasing child removals, but also on preventing or delaying reunification of families and increasing termination of parental rights.

(c) The Legislature further finds that two aspects of parental substance abuse affect the child welfare system: prenatal exposure when it is determined that there are immediate safety factors that necessitate the newborn being placed in protective custody; and postnatal use that affects the ability of the parent to safely care for the child.

(d) Therefore, it is the intent of the Legislature that the department establish and monitor a coordinated approach to working with children and their families affected by substance abuse and dependence.

(2) SCREENING AND ASSESSMENT.—The department shall develop or adopt one or more initial screening and assessment instruments to identify, determine the needs of, and plan services for substance-exposed newborns and their families. In addition to the conditions of the infant, conditions or behaviors of the mother or father which may indicate a risk of harm to the child shall be considered during any assessment.

126346

(3) CASE MANAGEMENT.—

(a) The department shall conduct regular multidisciplinary staffings relating to services provided for substance-exposed newborns and their families to ensure that all parties possess relevant information and that services are coordinated across systems identified in this chapter. The department or community-based care lead agency, as appropriate, shall coordinate these staffings and include individuals involved in the child's care.

(b) Each region of the department and each community-based care lead agency shall jointly assess local service capacity to meet the specialized service needs of substance-exposed newborns and their families and establish a plan to develop the necessary capacity. Each plan shall be developed in consultation with entities and agencies involved in the individuals' care.

(4) TRAINING.—The department and community-based care lead agencies shall ensure that cases in which there is a substance-exposed newborn are assigned to child protective investigators and case managers who have specialized training in working with substance-exposed newborns and their families. The department and lead agencies shall ensure that child protective investigators and case managers receive this training before accepting a case when possible. If a child protective investigator or case manager with specialized training is not available, the investigator or case manager shall consult with department staff or the case management organization staff with such expertise.

By the Committees on Judiciary; and Children, Families, and Elder Affairs; and Senators Garcia and Campbell

590-04111-17 20171044c2

A bill to be entitled

An act relating to child welfare; amending s. 39.01, F.S.; defining the term "legal father" and redefining the term "parent"; amending s. 39.201, F.S.; providing that central abuse hotline information may be used for employment screening of residential group home caregivers; amending s. 39.202, F.S.; providing that confidential records held by the department concerning reports of child abandonment, abuse, or neglect, including reports made to the central abuse hotline and all records generated as a result of such reports, may be accessed for employment screening of residential group home caregivers; changing the time period for the release of records to certain individuals; amending s. 39.301, F.S.; requiring a safety plan to be issued for a perpetrator of domestic violence only if the perpetrator can be located; specifying what constitutes reasonable efforts; requiring that a child new to a family under investigation be added to the investigation and assessed for safety; amending s. 39.302, F.S.; conforming a cross-reference; providing that central abuse hotline information may be used for certain employment screenings; amending s. 39.402, F.S.; requiring a court to inquire as to the identity and location of a child's legal father at the shelter hearing; specifying the types of information that fall within the scope of such inquiry; amending s. 39.503, F.S.; requiring a court to conduct under oath the

590-04111-17 20171044c2

inquiry to determine the identity or location of an unknown parent; requiring a court to seek additional information relating to a father's identity in such inquiry; requiring the diligent search to determine a parent's or prospective parent's location to include a search of the Florida Putative Father Registry; authorizing the court to order scientific testing to determine parentage if certain conditions exist; amending s. 39.504, F.S.; requiring the same judge to hear a pending dependency proceeding and an injunction proceeding; providing that the court may enter an injunction based on specified evidence; amending s. 39.507, F.S.; requiring a court to consider maltreatment allegations against a parent in an evidentiary hearing relating to a dependency petition; amending s. 39.5085, F.S.; revising eligibility guidelines for the Relative Caregiver Program with respect to relative and nonrelative caregivers; amending s. 39.521, F.S.; providing new time guidelines for filing with the court and providing copies of case plans and family functioning assessments; providing for assessment and program compliance for a parent who caused harm to a child by exposing the child to a controlled substance; providing in-home safety plan requirements; providing requirements for family functioning assessments; providing supervision requirements after reunification; amending s. 39.522, F.S.; providing conditions for returning a child to the home with an

in-home safety plan; amending s. 39.523, F.S.; providing legislative findings and intent; requiring children placed in out-of-home care to be assessed to determine the most appropriate placement; requiring the placement assessments to be documented in the Florida Safe Families Network; requiring a court to review and approve placements; requiring the Department of Children and Families to post specified information relating to assessment and placement on its website and update that information annually on specified dates; authorizing the department to adopt rules; creating s. 39.6001, F.S.; requiring the Department of Children and Families, in partnership with the Department of Health, the Agency for Health Care Administration, and other state agencies and community partners, to develop a strategy for certain coordinated services; providing for creation of a safe care plan that addresses the health and substance abuse disorder treatment needs of a newborn and affected family or caregivers and provides for the monitoring of services provided under the plan; amending s. 39.6011, F.S.; providing requirements for confidential information in a case planning conference; providing restrictions; amending s. 39.6012, F.S.; providing for assessment and program compliance for a parent who caused harm to a child by exposing the child to a controlled substance; amending s. 39.6221, F.S.; providing that relocation requirements for parents in dissolution proceedings do

not apply to certain permanent guardianships; amending s. 39.701, F.S.; providing safety assessment requirements for children coming into a home under court jurisdiction; granting rulemaking authority; amending s. 39.801, F.S.; providing an exception to the notice requirement regarding the advisory hearing for a petition to terminate parental rights; amending s. 39.803, F.S.; requiring a court to conduct under oath the inquiry to determine the identity or location of an unknown parent after the filing of a termination of parental rights petition; requiring a court to seek additional information relating to a legal father's identity in such inquiry; revising minimum requirements for the diligent search to determine the location of a parent or prospective parent; authorizing the court to order scientific testing to determine parentage if certain conditions exist; amending s. 39.806, F.S.; revising circumstances under which grounds for the termination of parental rights may be established; amending s. 39.811, F.S.; revising circumstances under which the rights of one parent may be terminated without terminating the rights of the other parent; amending s. 125.901, F.S.; creating an exception to the requirement that, for an independent special district in existence on a certain date and serving a population of a specified size, the governing body of the county submit the question of the district's retention or dissolution to the electorate in a specified general election; amending

s. 322.051, F.S., requiring that an identification card for certified unaccompanied homeless youth include a specified statement; amending s. 395.3025, F.S.; revising requirements for access to patient records; amending s. 402.40, F.S.; defining the term "child welfare trainer"; providing rulemaking authority; creating s. 409.16741, F.S.; providing legislative findings and intent; requiring the Department of Children and Families to develop or adopt one or more initial screening assessment instruments to identify and determine the needs of, and plan services for, substance-exposed newborns and their families; requiring the department to conduct certain staffings relating to services for substance-exposed newborns and their families; requiring that certain local service capacity be assessed; requiring that child protective investigators receive specialized training in working with substance-exposed newborns and their families before they accept such cases; creating s. 409.16742, F.S.; providing legislative findings and intent; establishing a shared family care residential services pilot program for substance-exposed newborns; amending s. 409.992, F.S.; limiting compensation from state-appropriated funds for administrative employees of community-based care agencies; amending s. 456.057, F.S.; revising requirements for access to patient records; repealing s. 409.141, F.S., relating to equitable reimbursement methodology; repealing s. 409.1677, F.S., relating to

model comprehensive residential services programs; amending s. 743.067, F.S.; defining the term "certified unaccompanied homeless youth"; requiring the Office on Homelessness within the Department of Children and Families to develop a standardized form to be used in the certification process; providing information that must be included in the form; authorizing a certified unaccompanied homeless youth to apply at no charge to the Department of Highway Safety and Motor Vehicles for an identification card; conforming terminology; amending s. 1009.25, F.S.; revising the exemption from the payment of tuition and fees for homeless students; amending ss. 39.524, 394.495, 409.1678, and 960.065, F.S.; conforming cross-references; amending ss. 409.1679 and 1002.3305, F.S.; conforming provisions to changes made by the act; reenacting s. 483.181(2), F.S., relating to acceptance, collection, identification, and examination of specimens, to incorporate the amendment made to s. 456.057, F.S., in a reference thereto; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (35) through (80) of section 39.01, Florida Statutes, are redesignated as subsections (36) through (81), respectively, a new subsection (35) is added to that section, and subsections (10) and (32) and present subsection (49) of that section are amended, to read:

39.01 Definitions.—When used in this chapter, unless the context otherwise requires:

(10) "Caregiver" means the parent, legal custodian, permanent guardian, adult household member, or other person responsible for a child's welfare as defined in subsection (48) ~~(47)~~.

(32) "Institutional child abuse or neglect" means situations of known or suspected child abuse or neglect in which the person allegedly perpetrating the child abuse or neglect is an employee of a private school, public or private day care center, residential home, institution, facility, or agency or any other person at such institution responsible for the child's care as defined in subsection (48) ~~(47)~~.

(35) "Legal father" means a man married to the mother at the time of conception or birth of their child, unless paternity has been otherwise determined by a court of competent jurisdiction. If no man was married to the mother at the time of birth or conception of the child, the term "legal father" means a man named on the birth certificate of the child pursuant to s. 382.013(2), a man determined by a court order to be the father of the child, or a man determined by an administrative proceeding to be the father of the child.

(50)~~(49)~~ "Parent" means a woman who gives birth to a child and a man whose consent to the adoption of the child would be required under s. 63.062(1). "Parent" also means a man married to the mother at the time of conception or birth of their child, unless paternity has been otherwise determined by a court of competent jurisdiction. If no man was married to the mother at the time of birth or conception of the child, the term "legal

father" means a man named on the birth certificate of the child pursuant to s. 382.013(2), a man determined by court order to be the father of the child, or a man determined by an administrative proceeding to be the father of the child. If a child has been legally adopted, the term "parent" means the adoptive mother or father of the child. For purposes of this chapter only, when the phrase "parent or legal custodian" is used, it refers to rights or responsibilities of the parent and, only if there is no living parent with intact parental rights, to the rights or responsibilities of the legal custodian who has assumed the role of the parent. The term does not include an individual whose parental relationship to the child has been legally terminated, or an alleged or prospective parent, unless:

(a) The parental status falls within the terms of s. 39.503(1) or s. 63.062(1); or

(b) Parental status is applied for the purpose of determining whether the child has been abandoned.

Section 2. Subsection (6) of section 39.201, Florida Statutes, is amended to read:

39.201 Mandatory reports of child abuse, abandonment, or neglect; mandatory reports of death; central abuse hotline.—

(6) Information in the central abuse hotline may not be used for employment screening, except as provided in s. 39.202(2)(a) and (h) or s. 402.302(15). Information in the central abuse hotline and the department's automated abuse information system may be used by the department, its authorized agents or contract providers, the Department of Health, or county agencies as part of the licensure or registration process pursuant to ss. 402.301-402.319 and ss. 409.175-409.176.

Pursuant to s. 39.202(2)(q), the information in the central abuse hotline may also be used by the Department of Education for purposes of educator certification discipline and review. Additionally, in accordance with s. 409.145(2)(e), the information in the central abuse hotline may be used for employment screening for caregivers at residential group homes.

Section 3. Paragraphs (a), (d), and (e) of subsection (2) of section 39.202, Florida Statutes, are amended to read:

39.202 Confidentiality of reports and records in cases of child abuse or neglect.—

(2) Except as provided in subsection (4), access to such records, excluding the name of the reporter which shall be released only as provided in subsection (5), shall be granted only to the following persons, officials, and agencies:

(a) Employees, authorized agents, or contract providers of the department, the Department of Health, the Agency for Persons with Disabilities, the Office of Early Learning, or county agencies responsible for carrying out:

1. Child or adult protective investigations;

2. Ongoing child or adult protective services;

3. Early intervention and prevention services;

4. Healthy Start services;

5. Licensure or approval of adoptive homes, foster homes, child care facilities, facilities licensed under chapter 393, family day care homes, providers who receive school readiness funding under part VI of chapter 1002, or other homes used to provide for the care and welfare of children; ~~or~~

6. Employment screening for caregivers in residential group homes; or

7.~~6.~~ Services for victims of domestic violence when provided by certified domestic violence centers working at the department's request as case consultants or with shared clients.

Also, employees or agents of the Department of Juvenile Justice responsible for the provision of services to children, pursuant to chapters 984 and 985.

(d) The parent or legal custodian of any child who is alleged to have been abused, abandoned, or neglected, and the child, and their attorneys, including any attorney representing a child in civil or criminal proceedings. This access shall be made available no later than 60 ~~30~~ days after the department receives the initial report of abuse, neglect, or abandonment. However, any information otherwise made confidential or exempt by law shall not be released pursuant to this paragraph.

(e) Any person alleged in the report as having caused the abuse, abandonment, or neglect of a child. This access shall be made available no later than 60 ~~30~~ days after the department receives the initial report of abuse, abandonment, or neglect and, when the alleged perpetrator is not a parent, shall be limited to information involving the protective investigation only and shall not include any information relating to subsequent dependency proceedings. However, any information otherwise made confidential or exempt by law shall not be released pursuant to this paragraph.

Section 4. Paragraph (a) of subsection (9) of section 39.301, Florida Statutes, is amended, and subsection (23) is added to that section, to read:

39.301 Initiation of protective investigations.—

(9)(a) For each report received from the central abuse hotline and accepted for investigation, the department or the sheriff providing child protective investigative services under s. 39.3065, shall perform the following child protective investigation activities to determine child safety:

1. Conduct a review of all relevant, available information specific to the child and family and alleged maltreatment; family child welfare history; local, state, and federal criminal records checks; and requests for law enforcement assistance provided by the abuse hotline. Based on a review of available information, including the allegations in the current report, a determination shall be made as to whether immediate consultation should occur with law enforcement, the child protection team, a domestic violence shelter or advocate, or a substance abuse or mental health professional. Such consultations should include discussion as to whether a joint response is necessary and feasible. A determination shall be made as to whether the person making the report should be contacted before the face-to-face interviews with the child and family members.

2. Conduct face-to-face interviews with the child; other siblings, if any; and the parents, legal custodians, or caregivers.

3. Assess the child's residence, including a determination of the composition of the family and household, including the name, address, date of birth, social security number, sex, and race of each child named in the report; any siblings or other children in the same household or in the care of the same adults; the parents, legal custodians, or caregivers; and any other adults in the same household.

4. Determine whether there is any indication that any child in the family or household has been abused, abandoned, or neglected; the nature and extent of present or prior injuries, abuse, or neglect, and any evidence thereof; and a determination as to the person or persons apparently responsible for the abuse, abandonment, or neglect, including the name, address, date of birth, social security number, sex, and race of each such person.

5. Complete assessment of immediate child safety for each child based on available records, interviews, and observations with all persons named in subparagraph 2. and appropriate collateral contacts, which may include other professionals. The department's child protection investigators are hereby designated a criminal justice agency for the purpose of accessing criminal justice information to be used for enforcing this state's laws concerning the crimes of child abuse, abandonment, and neglect. This information shall be used solely for purposes supporting the detection, apprehension, prosecution, pretrial release, posttrial release, or rehabilitation of criminal offenders or persons accused of the crimes of child abuse, abandonment, or neglect and may not be further disseminated or used for any other purpose.

6. Document the present and impending dangers to each child based on the identification of inadequate protective capacity through utilization of a standardized safety assessment instrument. If present or impending danger is identified, the child protective investigator must implement a safety plan or take the child into custody. If present danger is identified and the child is not removed, the child protective investigator

shall create and implement a safety plan before leaving the home or the location where there is present danger. If impending danger is identified, the child protective investigator shall create and implement a safety plan as soon as necessary to protect the safety of the child. The child protective investigator may modify the safety plan if he or she identifies additional impending danger.

a. If the child protective investigator implements a safety plan, the plan must be specific, sufficient, feasible, and sustainable in response to the realities of the present or impending danger. A safety plan may be an in-home plan or an out-of-home plan, or a combination of both. A safety plan may include tasks or responsibilities for a parent, caregiver, or legal custodian. However, a safety plan may not rely on promissory commitments by the parent, caregiver, or legal custodian who is currently not able to protect the child or on services that are not available or will not result in the safety of the child. A safety plan may not be implemented if for any reason the parents, guardian, or legal custodian lacks the capacity or ability to comply with the plan. If the department is not able to develop a plan that is specific, sufficient, feasible, and sustainable, the department shall file a shelter petition. A child protective investigator shall implement separate safety plans for the perpetrator of domestic violence, if the investigator, using reasonable efforts, is able to locate the perpetrator to implement a safety plan, and for the parent who is a victim of domestic violence as defined in s. 741.28. Reasonable efforts to locate a perpetrator include, but are not limited to, a diligent search pursuant to the same requirements

as in s. 39.503. If the perpetrator of domestic violence is not the parent, guardian, or legal custodian of any child in the home and if the department does not intend to file a shelter petition or dependency petition that will assert allegations against the perpetrator as a parent of a child in the home ~~the child~~, the child protective investigator shall seek issuance of an injunction authorized by s. 39.504 to implement a safety plan for the perpetrator and impose any other conditions to protect the child. The safety plan for the parent who is a victim of domestic violence may not be shared with the perpetrator. If any party to a safety plan fails to comply with the safety plan resulting in the child being unsafe, the department shall file a shelter petition.

b. The child protective investigator shall collaborate with the community-based care lead agency in the development of the safety plan as necessary to ensure that the safety plan is specific, sufficient, feasible, and sustainable. The child protective investigator shall identify services necessary for the successful implementation of the safety plan. The child protective investigator and the community-based care lead agency shall mobilize service resources to assist all parties in complying with the safety plan. The community-based care lead agency shall prioritize safety plan services to families who have multiple risk factors, including, but not limited to, two or more of the following:

(I) The parent or legal custodian is of young age;

(II) The parent or legal custodian, or an adult currently living in or frequently visiting the home, has a history of substance abuse, mental illness, or domestic violence;

(III) The parent or legal custodian, or an adult currently living in or frequently visiting the home, has been previously found to have physically or sexually abused a child;

(IV) The parent or legal custodian or an adult currently living in or frequently visiting the home has been the subject of multiple allegations by reputable reports of abuse or neglect;

(V) The child is physically or developmentally disabled; or

(VI) The child is 3 years of age or younger.

c. The child protective investigator shall monitor the implementation of the plan to ensure the child's safety until the case is transferred to the lead agency at which time the lead agency shall monitor the implementation.

(23) If, at any time during a child protective investigation, a child is born into a family under investigation or a child moves into the home under investigation, the child protective investigator shall add the child to the investigation and assess the child's safety pursuant to subsection (7) and paragraph (9)(a).

Section 5. Subsections (1) and (7) of section 39.302, Florida Statutes, are amended to read:

39.302 Protective investigations of institutional child abuse, abandonment, or neglect.—

(1) The department shall conduct a child protective investigation of each report of institutional child abuse, abandonment, or neglect. Upon receipt of a report that alleges that an employee or agent of the department, or any other entity or person covered by s. 39.01(32) or (48) ~~s. 39.01(32) or (47)~~, acting in an official capacity, has committed an act of child

abuse, abandonment, or neglect, the department shall initiate a child protective investigation within the timeframe established under s. 39.201(5) and notify the appropriate state attorney, law enforcement agency, and licensing agency, which shall immediately conduct a joint investigation, unless independent investigations are more feasible. When conducting investigations or having face-to-face interviews with the child, investigation visits shall be unannounced unless it is determined by the department or its agent that unannounced visits threaten the safety of the child. If a facility is exempt from licensing, the department shall inform the owner or operator of the facility of the report. Each agency conducting a joint investigation is entitled to full access to the information gathered by the department in the course of the investigation. A protective investigation must include an interview with the child's parent or legal guardian. The department shall make a full written report to the state attorney within 3 working days after making the oral report. A criminal investigation shall be coordinated, whenever possible, with the child protective investigation of the department. Any interested person who has information regarding the offenses described in this subsection may forward a statement to the state attorney as to whether prosecution is warranted and appropriate. Within 15 days after the completion of the investigation, the state attorney shall report the findings to the department and shall include in the report a determination of whether or not prosecution is justified and appropriate in view of the circumstances of the specific case.

(7) When an investigation of institutional abuse, neglect, or abandonment is closed and a person is not identified as a

caregiver responsible for the abuse, neglect, or abandonment alleged in the report, the fact that the person is named in some capacity in the report may not be used in any way to adversely affect the interests of that person. This prohibition applies to any use of the information in employment screening, licensing, child placement, adoption, or any other decisions by a private adoption agency or a state agency or its contracted providers.

(a) However, if such a person is a licensee of the department and is named in any capacity in three or more reports within a 5-year period, the department may review those reports and determine whether the information contained in the reports is relevant for purposes of determining whether the person's license should be renewed or revoked. If the information is relevant to the decision to renew or revoke the license, the department may rely on the information contained in the report in making that decision.

(b) Likewise, if a person is employed as a caregiver in a residential group home licensed pursuant to s. 409.175 and is named in any capacity in three or more reports within a 5-year period, all reports may be reviewed for the purposes of the employment screening required pursuant to s. 409.145(2)(e).

Section 6. Paragraph (c) of subsection (8) of section 39.402, Florida Statutes, is amended to read:

39.402 Placement in a shelter.—

(8)

(c) At the shelter hearing, the court shall:

1. Appoint a guardian ad litem to represent the best interest of the child, unless the court finds that such representation is unnecessary;

2. Inform the parents or legal custodians of their right to counsel to represent them at the shelter hearing and at each subsequent hearing or proceeding, and the right of the parents to appointed counsel, pursuant to the procedures set forth in s. 39.013; ~~and~~

3. Give the parents or legal custodians an opportunity to be heard and to present evidence; and

4. Inquire of those present at the shelter hearing as to the identity and location of the legal father. In determining who the legal father of the child may be, the court shall inquire under oath of those present at the shelter hearing whether they have any of the following information:

a. Whether the mother of the child was married at the probable time of conception of the child or at the time of birth of the child.

b. Whether the mother was cohabiting with a male at the probable time of conception of the child.

c. Whether the mother has received payments or promises of support with respect to the child or because of her pregnancy from a man who claims to be the father.

d. Whether the mother has named any man as the father on the birth certificate of the child or in connection with applying for or receiving public assistance.

e. Whether any man has acknowledged or claimed paternity of the child in a jurisdiction in which the mother resided at the time of or since conception of the child or in which the child has resided or resides.

f. Whether a man is named on the birth certificate of the child pursuant to s. 382.013(2).

g. Whether a man has been determined by a court order to be the father of the child.

h. Whether a man has been determined by an administrative proceeding to be the father of the child.

Section 7. Subsections (1), (6), and (8) of section 39.503, Florida Statutes, are amended, subsection (9) is added to that section, and subsection (7) of that section is republished, to read:

39.503 Identity or location of parent unknown; special procedures.—

(1) If the identity or location of a parent is unknown and a petition for dependency or shelter is filed, the court shall conduct under oath the following inquiry of the parent or legal custodian who is available, or, if no parent or legal custodian is available, of any relative or custodian of the child who is present at the hearing and likely to have any of the following information:

(a) Whether the mother of the child was married at the probable time of conception of the child or at the time of birth of the child.

(b) Whether the mother was cohabiting with a male at the probable time of conception of the child.

(c) Whether the mother has received payments or promises of support with respect to the child or because of her pregnancy from a man who claims to be the father.

(d) Whether the mother has named any man as the father on the birth certificate of the child or in connection with applying for or receiving public assistance.

(e) Whether any man has acknowledged or claimed paternity

of the child in a jurisdiction in which the mother resided at the time of or since conception of the child, or in which the child has resided or resides.

(f) Whether a man is named on the birth certificate of the child pursuant to s. 382.013(2).

(g) Whether a man has been determined by a court order to be the father of the child.

(h) Whether a man has been determined by an administrative proceeding to be the father of the child.

(6) The diligent search required by subsection (5) must include, at a minimum, inquiries of all relatives of the parent or prospective parent made known to the petitioner, inquiries of all offices of program areas of the department likely to have information about the parent or prospective parent, inquiries of other state and federal agencies likely to have information about the parent or prospective parent, inquiries of appropriate utility and postal providers, a thorough search of at least one electronic database specifically designed for locating persons, a search of the Florida Putative Father Registry, and inquiries of appropriate law enforcement agencies. Pursuant to s. 453 of the Social Security Act, 42 U.S.C. s. 653(c)(4), the department, as the state agency administering Titles IV-B and IV-E of the act, shall be provided access to the federal and state parent locator service for diligent search activities.

(7) Any agency contacted by a petitioner with a request for information pursuant to subsection (6) shall release the requested information to the petitioner without the necessity of a subpoena or court order.

(8) If the inquiry and diligent search identifies a

prospective parent, that person must be given the opportunity to become a party to the proceedings by completing a sworn affidavit of parenthood and filing it with the court or the department. A prospective parent who files a sworn affidavit of parenthood while the child is a dependent child but no later than at the time of or before ~~prior to~~ the adjudicatory hearing in any termination of parental rights proceeding for the child shall be considered a parent for all purposes under this section unless the other parent contests the determination of parenthood. If the prospective parent does not file a sworn affidavit of parenthood or if the other parent contests the determination of parenthood, the court may, after considering the best interest of the child, order scientific testing to determine the maternity or paternity of the child. The court shall assess the cost of the maternity or paternity determination as a cost of litigation. If the court finds the prospective parent to be a parent as a result of the scientific testing, the court shall enter a judgment of maternity or paternity, shall assess the cost of the scientific testing to the parent, and shall enter an amount of child support to be paid by the parent as determined under s. 61.30. If the known parent contests the recognition of the prospective parent as a parent, the prospective parent shall not be recognized as a parent until proceedings to determine maternity or paternity ~~under chapter 742~~ have been concluded. However, the prospective parent shall continue to receive notice of hearings as a participant until ~~pending results of the chapter 742~~ proceedings to determine maternity or paternity have been concluded.

(9) If the diligent search under subsection (5) fails to

identify and locate a prospective parent, the court shall so find and may proceed without further notice.

Section 8. Section 39.504, Florida Statutes, is amended to read:

39.504 Injunction ~~pending disposition of petition~~; penalty.—

(1) At any time after a protective investigation has been initiated pursuant to part III of this chapter, the court, upon the request of the department, a law enforcement officer, the state attorney, or other responsible person, or upon its own motion, may, if there is reasonable cause, issue an injunction to prevent any act of child abuse. Reasonable cause for the issuance of an injunction exists if there is evidence of child abuse or if there is a reasonable likelihood of such abuse occurring based upon a recent overt act or failure to act. If there is a pending dependency proceeding regarding the child whom the injunction is sought to protect, the judge hearing the dependency proceeding must also hear the injunction proceeding regarding the child.

(2) The petitioner seeking the injunction shall file a verified petition, or a petition along with an affidavit, setting forth the specific actions by the alleged offender from which the child must be protected and all remedies sought. Upon filing the petition, the court shall set a hearing to be held at the earliest possible time. Pending the hearing, the court may issue a temporary ex parte injunction, with verified pleadings or affidavits as evidence. The temporary ex parte injunction pending a hearing is effective for up to 15 days and the hearing must be held within that period unless continued for good cause

shown, which may include obtaining service of process, in which case the temporary ex parte injunction shall be extended for the continuance period. The hearing may be held sooner if the alleged offender has received reasonable notice.

(3) Before the hearing, the alleged offender must be personally served with a copy of the petition, all other pleadings related to the petition, a notice of hearing, and, if one has been entered, the temporary injunction. If the petitioner is unable to locate the alleged offender for service after a diligent search pursuant to the same requirements as in s. 39.503 and the filing of an affidavit of diligent search, the court may enter the injunction based on the sworn petition and any affidavits. At the hearing, the court may base its determination on a sworn petition, testimony, or an affidavit and may hear all relevant and material evidence, including oral and written reports, to the extent of its probative value even though it would not be competent evidence at an adjudicatory hearing. Following the hearing, the court may enter a final injunction. The court may grant a continuance of the hearing at any time for good cause shown by any party. If a temporary injunction has been entered, it shall be continued during the continuance.

(4) If an injunction is issued under this section, the primary purpose of the injunction must be to protect and promote the best interests of the child, taking the preservation of the child's immediate family into consideration.

(a) The injunction applies to the alleged or actual offender in a case of child abuse or acts of domestic violence. The conditions of the injunction shall be determined by the

court, which may include ordering the alleged or actual offender to:

1. Refrain from further abuse or acts of domestic violence.

2. Participate in a specialized treatment program.

3. Limit contact or communication with the child victim, other children in the home, or any other child.

4. Refrain from contacting the child at home, school, work, or wherever the child may be found.

5. Have limited or supervised visitation with the child.

6. Vacate the home in which the child resides.

7. Comply with the terms of a safety plan implemented in the injunction pursuant to s. 39.301.

(b) Upon proper pleading, the court may award the following relief in a temporary ex parte or final injunction:

1. Exclusive use and possession of the dwelling to the caregiver or exclusion of the alleged or actual offender from the residence of the caregiver.

2. Temporary support for the child or other family members.

3. The costs of medical, psychiatric, and psychological treatment for the child incurred due to the abuse, and similar costs for other family members.

This paragraph does not preclude an adult victim of domestic violence from seeking protection for himself or herself under s. 741.30.

(c) The terms of the final injunction shall remain in effect until modified or dissolved by the court. The petitioner, respondent, or caregiver may move at any time to modify or dissolve the injunction. Notice of hearing on the motion to

modify or dissolve the injunction must be provided to all parties, including the department. The injunction is valid and enforceable in all counties in the state.

(5) Service of process on the respondent shall be carried out pursuant to s. 741.30. The department shall deliver a copy of any injunction issued pursuant to this section to the protected party or to a parent, caregiver, or individual acting in the place of a parent who is not the respondent. Law enforcement officers may exercise their arrest powers as provided in s. 901.15(6) to enforce the terms of the injunction.

(6) Any person who fails to comply with an injunction issued pursuant to this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(7) The person against whom an injunction is entered under this section does not automatically become a party to a subsequent dependency action concerning the same child.

Section 9. Paragraph (b) of subsection (7) of section 39.507, Florida Statutes, is amended to read:

39.507 Adjudicatory hearings; orders of adjudication.—

(7)

(b) However, the court must determine whether each parent or legal custodian identified in the case abused, abandoned, or neglected the child or engaged in conduct that placed the child at substantial risk of imminent abuse, abandonment, or neglect ~~in a subsequent evidentiary hearing~~. If a second parent is served and brought into the proceeding after the adjudication, and an ~~the~~ evidentiary hearing for the second parent is conducted ~~subsequent to the adjudication of the child~~, the court

shall supplement the adjudicatory order, disposition order, and the case plan, as necessary. The petitioner is not required to prove actual harm or actual abuse by the second parent in order for the court to make supplemental findings regarding the conduct of the second parent. The court is not required to conduct an evidentiary hearing for the second parent in order to supplement the adjudicatory order, the disposition order, and the case plan if the requirements of s. 39.506(3) or (5) are satisfied. With the exception of proceedings pursuant to s. 39.811, the child's dependency status may not be retried or readjudicated.

Section 10. Paragraph (a) of subsection (2) of section 39.5085, Florida Statutes, is amended to read:

39.5085 Relative Caregiver Program.—

(2)(a) The Department of Children and Families shall establish, ~~and~~ operate, and implement the Relative Caregiver Program ~~pursuant to eligibility guidelines established in this section as further implemented~~ by rule of the department. The Relative Caregiver Program shall, within the limits of available funding, provide financial assistance to:

1. Relatives who are within the fifth degree by blood or marriage to the parent or stepparent of a child and who are caring full-time for that dependent child in the role of substitute parent as a result of a court's determination of child abuse, neglect, or abandonment and subsequent placement with the relative under this chapter.

2. Relatives who are within the fifth degree by blood or marriage to the parent or stepparent of a child and who are caring full-time for that dependent child, and a dependent half-

brother or half-sister of that dependent child, in the role of substitute parent as a result of a court's determination of child abuse, neglect, or abandonment and subsequent placement with the relative under this chapter.

3. Nonrelatives who are willing to assume custody and care of a dependent child in the role of substitute parent as a result of a court's determination of child abuse, neglect, or abandonment and subsequent placement with the nonrelative caregiver under this chapter. The court must find that a proposed placement under this subparagraph is in the best interest of the child.

4. The relative or nonrelative caregiver may not receive a Relative Caregiver Program payment if the parent or stepparent of the child resides in the home. However, a relative or nonrelative may receive the Relative Caregiver Program payment for a minor parent who is in his or her care, as well as for the minor parent's child, if both children have been adjudicated dependent and meet all other eligibility requirements. If the caregiver is currently receiving the payment, the Relative Caregiver Program payment must be terminated no later than the first of the following month after the parent or stepparent moves into the home, allowing for 10-day notice of adverse action.

The placement may be court-ordered temporary legal custody to the relative or nonrelative under protective supervision of the department pursuant to s. 39.521(1)(c)3. ~~s. 39.521(1)(b)3.~~, or court-ordered placement in the home of a relative or nonrelative as a permanency option under s. 39.6221 or s. 39.6231 or under

former s. 39.622 if the placement was made before July 1, 2006. The Relative Caregiver Program shall offer financial assistance to caregivers who would be unable to serve in that capacity without the caregiver payment because of financial burden, thus exposing the child to the trauma of placement in a shelter or in foster care.

Section 11. Subsections (1), (2), (6), and (7) of section 39.521, Florida Statutes, are amended to read:

39.521 Disposition hearings; powers of disposition.—

(1) A disposition hearing shall be conducted by the court, if the court finds that the facts alleged in the petition for dependency were proven in the adjudicatory hearing, or if the parents or legal custodians have consented to the finding of dependency or admitted the allegations in the petition, have failed to appear for the arraignment hearing after proper notice, or have not been located despite a diligent search having been conducted.

(a) A written case plan and a family functioning assessment ~~predisposition study~~ prepared by an authorized agent of the department must be approved by ~~filed with~~ the court. The department must file the case plan and the family functioning assessment with the court, serve a copy of the case plan on~~,~~ ~~served upon~~ the parents of the child, and provide a copy of the case plan ~~provided~~ to the representative of the guardian ad litem program, if the program has been appointed, and provide a copy ~~provided~~ to all other parties:

1. Not less than 72 hours before the disposition hearing, if the disposition hearing occurs on or after the 60th day after the child was placed in out-of-home care. All such case plans

must be approved by the court.

2. Not less than 72 hours before the case plan acceptance hearing, if the disposition hearing occurs before the 60th day after the date the child was placed in out-of-home care and a case plan has not been submitted pursuant to this paragraph, or if the court does not approve the case plan at the disposition hearing. ~~,~~ The case plan acceptance hearing must occur ~~the court must set a hearing~~ within 30 days after the disposition hearing to review and approve the case plan.

(b) The court may grant an exception to the requirement for a family functioning assessment ~~predisposition study~~ by separate order or within the judge's order of disposition upon finding that all the family and child information required by subsection (2) is available in other documents filed with the court.

(c) ~~(b)~~ When any child is adjudicated by a court to be dependent, the court having jurisdiction of the child has the power by order to:

1. Require the parent and, when appropriate, the legal custodian and the child to participate in treatment and services identified as necessary. The court may require the person who has custody or who is requesting custody of the child to submit to a mental health or substance abuse disorder assessment or evaluation. The order may be made only upon good cause shown and pursuant to notice and procedural requirements provided under the Florida Rules of Juvenile Procedure. The mental health assessment or evaluation must be administered by a qualified professional as defined in s. 39.01, and the substance abuse assessment or evaluation must be administered by a qualified professional as defined in s. 397.311. The court may also

require such person to participate in and comply with treatment and services identified as necessary, including, when appropriate and available, participation in and compliance with a mental health court program established under chapter 394 or a treatment-based drug court program established under s. 397.334. Adjudication of a child as dependent based upon evidence of harm as defined in s. 39.01(30)(g) demonstrates good cause, and the court shall require the parent whose actions caused the harm to submit to a substance abuse disorder assessment or evaluation and to participate and comply with treatment and services identified in the assessment or evaluation as being necessary. In addition to supervision by the department, the court, including the mental health court program or the treatment-based drug court program, may oversee the progress and compliance with treatment by a person who has custody or is requesting custody of the child. The court may impose appropriate available sanctions for noncompliance upon a person who has custody or is requesting custody of the child or make a finding of noncompliance for consideration in determining whether an alternative placement of the child is in the child's best interests. Any order entered under this subparagraph may be made only upon good cause shown. This subparagraph does not authorize placement of a child with a person seeking custody of the child, other than the child's parent or legal custodian, who requires mental health or substance abuse disorder treatment.

2. Require, if the court deems necessary, the parties to participate in dependency mediation.

3. Require placement of the child either under the protective supervision of an authorized agent of the department

in the home of one or both of the child's parents or in the home of a relative of the child or another adult approved by the court, or in the custody of the department. Protective supervision continues until the court terminates it or until the child reaches the age of 18, whichever date is first. Protective supervision shall be terminated by the court whenever the court determines that permanency has been achieved for the child, whether with a parent, another relative, or a legal custodian, and that protective supervision is no longer needed. The termination of supervision may be with or without retaining jurisdiction, at the court's discretion, and shall in either case be considered a permanency option for the child. The order terminating supervision by the department must set forth the powers of the custodian of the child and include the powers ordinarily granted to a guardian of the person of a minor unless otherwise specified. Upon the court's termination of supervision by the department, further judicial reviews are not required if permanency has been established for the child.

(d) ~~(c)~~ At the conclusion of the disposition hearing, the court shall schedule the initial judicial review hearing which must be held no later than 90 days after the date of the disposition hearing or after the date of the hearing at which the court approves the case plan, whichever occurs earlier, but in no event shall the review hearing be held later than 6 months after the date of the child's removal from the home.

(e) ~~(d)~~ The court shall, in its written order of disposition, include all of the following:

1. The placement or custody of the child.

2. Special conditions of placement and visitation.

3. Evaluation, counseling, treatment activities, and other actions to be taken by the parties, if ordered.

4. The persons or entities responsible for supervising or monitoring services to the child and parent.

5. Continuation or discharge of the guardian ad litem, as appropriate.

6. The date, time, and location of the next scheduled review hearing, which must occur within the earlier of:

a. Ninety days after the disposition hearing;

b. Ninety days after the court accepts the case plan;

c. Six months after the date of the last review hearing; or

d. Six months after the date of the child's removal from his or her home, if no review hearing has been held since the child's removal from the home.

7. If the child is in an out-of-home placement, child support to be paid by the parents, or the guardian of the child's estate if possessed of assets which under law may be disbursed for the care, support, and maintenance of the child. The court may exercise jurisdiction over all child support matters, shall adjudicate the financial obligation, including health insurance, of the child's parents or guardian, and shall enforce the financial obligation as provided in chapter 61. The state's child support enforcement agency shall enforce child support orders under this section in the same manner as child support orders under chapter 61. Placement of the child shall not be contingent upon issuance of a support order.

8.a. If the court does not commit the child to the temporary legal custody of an adult relative, legal custodian, or other adult approved by the court, the disposition order

shall include the reasons for such a decision and shall include a determination as to whether diligent efforts were made by the department to locate an adult relative, legal custodian, or other adult willing to care for the child in order to present that placement option to the court instead of placement with the department.

b. If no suitable relative is found and the child is placed with the department or a legal custodian or other adult approved by the court, both the department and the court shall consider transferring temporary legal custody to an adult relative approved by the court at a later date, but neither the department nor the court is obligated to so place the child if it is in the child's best interest to remain in the current placement.

For the purposes of this section, "diligent efforts to locate an adult relative" means a search similar to the diligent search for a parent, but without the continuing obligation to search after an initial adequate search is completed.

9. Other requirements necessary to protect the health, safety, and well-being of the child, to preserve the stability of the child's educational placement, and to promote family preservation or reunification whenever possible.

(f) ~~(e)~~ If the court finds that an in-home safety plan prepared or approved by the department ~~the prevention or reunification efforts of the department~~ will allow the child to remain safely at home or that conditions for return have been met and an in-home safety plan prepared or approved by the department will allow the child to be safely returned to the

home, the court shall allow the child to remain in or return to the home after making a specific finding of fact that ~~the reasons for removal have been remedied to the extent that~~ the child's safety, well-being, and physical, mental, and emotional health will not be endangered.

(g) ~~(f)~~ If the court places the child in an out-of-home placement, the disposition order must include a written determination that the child cannot safely remain at home with an in-home safety plan ~~reunification or family preservation services~~ and that removal of the child is necessary to protect the child. If the child is removed before the disposition hearing, the order must also include a written determination as to whether, after removal, the department made a reasonable effort to reunify the parent and child. Reasonable efforts to reunify are not required if the court finds that any of the acts listed in s. 39.806(1)(f)-(l) have occurred. The department has the burden of demonstrating that it made reasonable efforts.

1. For the purposes of this paragraph, the term "reasonable effort" means the exercise of reasonable diligence and care by the department to provide the services ordered by the court or delineated in the case plan.

2. In support of its determination as to whether reasonable efforts have been made, the court shall:

a. Enter written findings as to whether an in-home safety plan could have prevented removal ~~prevention or reunification efforts were indicated~~.

b. If an in-home safety plan was ~~prevention or reunification efforts were~~ indicated, include a brief written description of what appropriate and available safety management

services ~~prevention and reunification efforts~~ were initiated ~~made~~.

c. Indicate in writing why further efforts could or could not have prevented or shortened the separation of the parent and child.

3. A court may find that the department made a reasonable effort to prevent or eliminate the need for removal if:

a. The first contact of the department with the family occurs during an emergency;

b. The department's assessment ~~appraisal by the department~~ of the home situation indicates a substantial and immediate danger to the child's safety or physical, mental, or emotional health which cannot be mitigated by the provision of safety management ~~preventive~~ services;

c. The child cannot safely remain at home, because there are no safety management ~~preventive~~ services that can ensure the health and safety of the child or, even with appropriate and available services being provided, the health and safety of the child cannot be ensured; or

d. The parent is alleged to have committed any of the acts listed as grounds for expedited termination of parental rights under s. 39.806(1)(f)-(l).

4. A reasonable effort by the department for reunification has been made if the appraisal of the home situation by the department indicates that the severity of the conditions of dependency is such that reunification efforts are inappropriate. The department has the burden of demonstrating to the court that reunification efforts were inappropriate.

5. If the court finds that the provision of safety

management services by ~~prevention or reunification effort of~~ the department would not have permitted the child to remain safely at home, the court may commit the child to the temporary legal custody of the department or take any other action authorized by this chapter.

(2) The family functioning assessment ~~predisposition study~~ must provide the court with the following documented information:

(a) Evidence of maltreatment and the circumstances accompanying the maltreatment.

(b) Identification of all danger threats active in the home.

(c) An assessment of the adult functioning of the parents.

(d) An assessment of general parenting practices and the parent's disciplinary approach and behavior management methods.

(e) An assessment of the parent's behavioral, emotional, and cognitive protective capacities.

(f) An assessment of child functioning.

(g) A safety analysis describing the capacity for an in-home safety plan to control the conditions that result in the child being unsafe and the specific actions necessary to keep the child safe.

(h) Identification of the conditions for return which would allow the child to be placed safely back into the home with an in-home safety plan and any safety management services necessary to ensure the child's safety.

~~(a) The capacity and disposition of the parents to provide the child with food, clothing, medical care, or other remedial care recognized and permitted under the laws of this state in~~

~~lieu of medical care, and other material needs.~~

~~(b) The length of time the child has lived in a stable, satisfactory environment and the desirability of maintaining continuity.~~

~~(c) The mental and physical health of the parents.~~

~~(d) The home, school, and community record of the child.~~

(i) ~~(e)~~ The reasonable preference of the child, if the court deems the child to be of sufficient intelligence, understanding, and experience to express a preference.

~~(f) Evidence of domestic violence or child abuse.~~

~~(g) An assessment defining the dangers and risks of returning the child home, including a description of the changes in and resolutions to the initial risks.~~

~~(h) A description of what risks are still present and what resources are available and will be provided for the protection and safety of the child.~~

~~(i) A description of the benefits of returning the child home.~~

~~(j) A description of all unresolved issues.~~

(j) ~~(k)~~ Child welfare ~~A Florida Abuse Hotline Information System (FAHIS)~~ history from the Statewide Automated Child Welfare Information System (SACWIS) and criminal records check for all caregivers, family members, and individuals residing within the household from which the child was removed.

(k) ~~(l)~~ The complete report and recommendation of the child protection team of the Department of Health or, if no report exists, a statement reflecting that no report has been made.

(l) ~~(m)~~ All opinions or recommendations from other professionals or agencies that provide evaluative, social,

reunification, or other services to the parent and child.

(m) ~~(n)~~ A listing of appropriate and available safety management ~~prevention and reunification~~ services for the parent and child to prevent the removal of the child from the home or to reunify the child with the parent after removal and an ~~to reunify the child with the parent after removal, including the availability of family preservation services and an~~ explanation of the following:

1. If the services were or were not provided.

2. If the services were provided, the outcome of the services.

3. If the services were not provided, why they were not provided.

4. If the services are currently being provided and if they need to be continued.

~~(o) A listing of other prevention and reunification services that were available but determined to be inappropriate and why.~~

~~(p) Whether dependency mediation was provided.~~

(n) ~~(q)~~ If the child has been removed from the home and there is a parent who may be considered for custody pursuant to this section, a recommendation as to whether placement of the child with that parent would be detrimental to the child.

(o) ~~(r)~~ If the child has been removed from the home and will be remaining with a relative, parent, or other adult approved by the court, a home study report concerning the proposed placement shall be provided to the court ~~included in the predisposition report~~. Before recommending to the court any out-of-home placement for a child other than placement in a licensed shelter

or foster home, the department shall conduct a study of the home of the proposed legal custodians, which must include, at a minimum:

1. An interview with the proposed legal custodians to assess their ongoing commitment and ability to care for the child.

2. Records checks through the State Automated Child Welfare Information System (SACWIS), and local and statewide criminal and juvenile records checks through the Department of Law Enforcement, on all household members 12 years of age or older. In addition, the fingerprints of any household members who are 18 years of age or older may be submitted to the Department of Law Enforcement for processing and forwarding to the Federal Bureau of Investigation for state and national criminal history information. The department has the discretion to request State Automated Child Welfare Information System (SACWIS) and local, statewide, and national criminal history checks and fingerprinting of any other visitor to the home who is made known to the department. Out-of-state criminal records checks must be initiated for any individual who has resided in a state other than Florida if that state's laws allow the release of these records. The out-of-state criminal records must be filed with the court within 5 days after receipt by the department or its agent.

3. An assessment of the physical environment of the home.

4. A determination of the financial security of the proposed legal custodians.

5. A determination of suitable child care arrangements if the proposed legal custodians are employed outside of the home.

6. Documentation of counseling and information provided to the proposed legal custodians regarding the dependency process and possible outcomes.

7. Documentation that information regarding support services available in the community has been provided to the proposed legal custodians.

8. The reasonable preference of the child, if the court deems the child to be of sufficient intelligence, understanding, and experience to express a preference.

The department may not place the child or continue the placement of the child in a home under shelter or postdisposition placement if the results of the home study are unfavorable, unless the court finds that this placement is in the child's best interest.

(p) ~~(s)~~ If the child has been removed from the home, a determination of the amount of child support each parent will be required to pay pursuant to s. 61.30.

~~(t) If placement of the child with anyone other than the child's parent is being considered, the predisposition study shall include the designation of a specific length of time as to when custody by the parent will be reconsidered.~~

Any other relevant and material evidence, including other written or oral reports, may be received by the court in its effort to determine the action to be taken with regard to the child and may be relied upon to the extent of its probative value, even though not competent in an adjudicatory hearing. Except as otherwise specifically provided, nothing in this

section prohibits the publication of proceedings in a hearing.

(6) With respect to a child who is the subject in proceedings under this chapter, the court may issue to the department an order to show cause why it should not return the child to the custody of the parents upon the presentation of evidence that the conditions for return of the child have been met ~~expiration of the case plan, or sooner if the parents have substantially complied with the case plan~~.

(7) The court may enter an order ending its jurisdiction over a child when a child has been returned to the parents, provided the court shall not terminate its jurisdiction or the department's supervision over the child until 6 months after the child's return. The department shall supervise the placement of the child after reunification for at least 6 months with each parent or legal custodian from whom the child was removed. The court shall determine whether its jurisdiction should be continued or terminated in such a case based on a report of the department or agency or the child's guardian ad litem, and any other relevant factors; if its jurisdiction is to be terminated, the court shall enter an order to that effect.

Section 12. Subsections (2) and (3) of section 39.522, Florida Statutes, are amended to read:

39.522 Postdisposition change of custody.—The court may change the temporary legal custody or the conditions of protective supervision at a postdisposition hearing, without the necessity of another adjudicatory hearing.

(2) In cases where the issue before the court is whether a child should be reunited with a parent, the court shall review the conditions for return and determine whether the

circumstances that caused the out-of-home placement and issues subsequently identified have been remedied ~~parent has substantially complied with the terms of the case plan~~ to the extent that the return of the child to the home with an in-home safety plan prepared or approved by the department will not be detrimental to the child's safety, well-being, and physical, mental, and emotional health ~~of the child is not endangered by the return of the child to the home~~.

(3) In cases where the issue before the court is whether a child who is placed in the custody of a parent should be reunited with the other parent upon a finding that the circumstances that caused the out-of-home placement and issues subsequently identified have been remedied to the extent that the return of the child to the home of the other parent with an in-home safety plan prepared or approved by the department will not be detrimental to the child ~~of substantial compliance with the terms of the case plan~~, the standard shall be that the safety, well-being, and physical, mental, and emotional health of the child would not be endangered by reunification and that reunification would be in the best interest of the child.

Section 13. Effective January 1, 2018, section 39.523, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 39.523, F.S., for present text.)

39.523 Placement in out-of-home care.—

(1) LEGISLATIVE FINDINGS AND INTENT.—

(a) The Legislature finds that it is a basic tenet of child welfare practice and the law that children be placed in the least restrictive, most family-like setting available in close

proximity to the home of their parents, consistent with the best interests and needs of the child, and that children be placed in permanent homes in a timely manner.

(b) The Legislature also finds that there is an association between frequent placement changes and adverse outcomes for the child, that mismatching placements to children's needs has been identified as a factor that negatively impacts placement stability, and that identifying the right placement for each child requires effective assessment.

(c) It is the intent of the Legislature that whenever a child is unable to safely remain at home with a parent, the most appropriate available out-of-home placement shall be chosen after an assessment of the child's needs and the availability of caregivers qualified to meet the child's needs.

(2) ASSESSMENT AND PLACEMENT.—When any child is removed from a home and placed into out-of-home care, a comprehensive placement assessment process shall be completed to determine the level of care needed by the child and match the child with the most appropriate placement.

(a) The community-based care lead agency or sub-contracted agency with the responsibility for assessment and placement must coordinate a multi-disciplinary team staffing with any available individual currently involved with the child including, but not limited to, a representative from the department and the case manager for the child; a therapist, attorney ad-litem, guardian ad litem, teachers, coaches, Children's Medical Services; and other community providers of services to the child or stakeholders as applicable. The team should also include clergy, relatives and fictive kin. Team participants must gather data

and information on the child that is known at the time including, but not limited to:

1. Mental, medical, behavioral health and medication history;

2. Community ties and school placement;

3. Current placement decisions relating to any siblings;

4. Alleged type of abuse or neglect including sexual abuse and trafficking history; and

5. The child's age, maturity, strengths, hobbies or activities, and the child's preference for placement.

(b) The comprehensive placement assessment process may also include the use of an assessment instrument or tool that is best suited for the individual child.

(c) The most appropriate available out-of-home placement shall be chosen after consideration by all members of the multi-disciplinary team of all of the information and data gathered, including the results and recommendations of any evaluations conducted.

(d) Placement decisions for each child in out-of-home placement must be reviewed as often as necessary to ensure that permanency issues related to this population of children are addressed.

(e) The department shall document all placement assessments and placement decisions in the Florida Safe Families Network.

(f) If it is determined during the comprehensive placement assessment process that residential treatment as defined in s. 39.407 would be suitable for the child, the procedures in that section must be followed.

(3) JUDICIAL REVIEW.—At each judicial review, the court

shall consider the results of the assessment, the placement decision made for the child, and the services provided to the child as required under s. 39.701.

(4) DATA COLLECTION.—The department shall collect the following information by community-based care lead agency and post it on the Department of Children and Families' website. The information must be updated on January 1 and July 1 of each year.

(a) The number of children placed with relatives and nonrelatives, in family foster homes, and in residential group care.

(b) An inventory of available services that are necessary to maintain children in the least restrictive settings and a plan for filling any identified gap in those services.

(c) The number of children who were placed based upon the assessment.

(d) An inventory of existing placements for children by type and by community-based care lead agency.

(e) The strategies being used by community-based care lead agencies to recruit, train, and support an adequate number of families to provide home-based family care.

(5) RULEMAKING.—The department may adopt rules necessary to carry out the provisions of this section.

Section 14. Section 39.6001, Florida Statutes, is created to read:

39.6001 Safe care plans for substance-exposed newborns.—The department, in partnership with the Department of Health, the Agency for Health Care Administration, other state agencies, and community partners, shall develop a strategy for coordinated

services to ensure the safety and well-being of newborns with prenatal substance exposure by creating, implementing, and monitoring safe care plans. A safe care plan is a written plan for a newborn with prenatal substance abuse exposure following the newborn's release from the care of a health care provider. The plan must address the health and substance abuse disorder treatment needs of the newborn through infancy and the affected family or caregiver. The department shall monitor such plans to ensure appropriate referrals are made and services are delivered to the newborn and the affected family or caregiver.

Section 15. Subsection (1) of section 39.6011, Florida Statutes, is amended to read:

39.6011 Case plan development.—

(1) The department shall prepare a draft of the case plan for each child receiving services under this chapter. A parent of a child may not be threatened or coerced with the loss of custody or parental rights for failing to admit in the case plan of abusing, neglecting, or abandoning a child. Participating in the development of a case plan is not an admission to any allegation of abuse, abandonment, or neglect, and it is not a consent to a finding of dependency or termination of parental rights. The case plan shall be developed subject to the following requirements:

(a) The case plan must be developed in a face-to-face conference with the parent of the child, any court-appointed guardian ad litem, and, if appropriate, the child and the temporary custodian of the child.

(b) Notwithstanding s. 39.202, the department may discuss confidential information during the case planning conference in

the presence of individuals who participate in the conference. All individuals who participate in the conference shall maintain the confidentiality of all information shared during the case planning conference.

(c) ~~(b)~~ The parent may receive assistance from any person or social service agency in preparing the case plan. The social service agency, the department, and the court, when applicable, shall inform the parent of the right to receive such assistance, including the right to assistance of counsel.

(d) ~~(c)~~ If a parent is unwilling or unable to participate in developing a case plan, the department shall document that unwillingness or inability to participate. The documentation must be provided in writing to the parent when available for the court record, and the department shall prepare a case plan conforming as nearly as possible with the requirements set forth in this section. The unwillingness or inability of the parent to participate in developing a case plan does not preclude the filing of a petition for dependency or for termination of parental rights. The parent, if available, must be provided a copy of the case plan and be advised that he or she may, at any time before the filing of a petition for termination of parental rights, enter into a case plan and that he or she may request judicial review of any provision of the case plan with which he or she disagrees at any court hearing set for the child.

Section 16. Subsection (1) of section 39.6012, Florida Statutes, is amended to read:

39.6012 Case plan tasks; services.—

(1) The services to be provided to the parent and the tasks that must be completed are subject to the following:

(a) The services described in the case plan must be designed to improve the conditions in the home and aid in maintaining the child in the home, facilitate the child's safe return to the home, ensure proper care of the child, or facilitate the child's permanent placement. The services offered must be the least intrusive possible into the life of the parent and child, must focus on clearly defined objectives, and must provide the most efficient path to quick reunification or permanent placement given the circumstances of the case and the child's need for safe and proper care.

(b) The case plan must describe each of the tasks with which the parent must comply and the services to be provided to the parent, specifically addressing the identified problem, including:

1. The type of services or treatment.

2. The date the department will provide each service or referral for the service if the service is being provided by the department or its agent.

3. The date by which the parent must complete each task.

4. The frequency of services or treatment provided. The frequency of the delivery of services or treatment provided shall be determined by the professionals providing the services or treatment on a case-by-case basis and adjusted according to their best professional judgment.

5. The location of the delivery of the services.

6. The staff of the department or service provider accountable for the services or treatment.

7. A description of the measurable objectives, including the timeframes specified for achieving the objectives of the

case plan and addressing the identified problem.

(c) If there is evidence of harm as defined in s. 39.01(30)(g), the case plan must include as a required task for the parent whose actions caused the harm that the parent submit to a substance abuse disorder assessment or evaluation and participate and comply with treatment and services identified in the assessment or evaluation as being necessary.

Section 17. Subsection (7) is added to section 39.6221, Florida Statutes, to read:

39.6221 Permanent guardianship of a dependent child.—

(7) The requirements of s. 61.13001 do not apply to permanent guardianships established under this section.

Section 18. Paragraph (h) is added to subsection (1) of section 39.701, Florida Statutes, to read:

39.701 Judicial review.—

(1) GENERAL PROVISIONS.—

(h) If a child is born into a family that is under the court's jurisdiction or a child moves into a home that is under the court's jurisdiction, the department shall assess the child's safety and provide notice to the court.

1. The department shall complete an assessment to determine how the addition of a child will impact family functioning. The assessment must be completed at least 30 days before a child is expected to be born or to move into a home, or within 72 hours after the department learns of the pregnancy or addition if the child is expected to be born or to move into the home in less than 30 days. The assessment shall be filed with the court.

2. Once a child is born into a family or a child moves into the home, the department shall complete a progress update and

file it with the court.

3. The court has the discretion to hold a hearing on the progress update filed by the department.

4. The department shall adopt rules to implement this subsection.

Section 19. Subsection (3) of section 39.801, Florida Statutes, is amended to read:

39.801 Procedures and jurisdiction; notice; service of process.—

(3) Before the court may terminate parental rights, in addition to the other requirements set forth in this part, the following requirements must be met:

(a) Notice of the date, time, and place of the advisory hearing for the petition to terminate parental rights and a copy of the petition must be personally served upon the following persons, specifically notifying them that a petition has been filed:

1. The parents of the child.

2. The legal custodians of the child.

3. If the parents who would be entitled to notice are dead or unknown, a living relative of the child, unless upon diligent search and inquiry no such relative can be found.

4. Any person who has physical custody of the child.

5. Any grandparent entitled to priority for adoption under s. 63.0425.

6. Any prospective parent who has been identified under s. 39.503 or s. 39.803, unless a court order has been entered pursuant to s. 39.503(4) or (9) or s. 39.803(4) or (9) which indicates no further notice is required. Except as otherwise

provided in this section, if there is not a legal father, notice of the petition for termination of parental rights must be provided to any known prospective father who is identified under oath before the court or who is identified by a diligent search of the Florida Putative Father Registry. Service of the notice of the petition for termination of parental rights is not required if the prospective father executes an affidavit of nonpaternity or a consent to termination of his parental rights which is accepted by the court after notice and opportunity to be heard by all parties to address the best interests of the child in accepting such affidavit.

7. The guardian ad litem for the child or the representative of the guardian ad litem program, if the program has been appointed.

The document containing the notice to respond or appear must contain, in type at least as large as the type in the balance of the document, the following or substantially similar language: "FAILURE TO PERSONALLY APPEAR AT THIS ADVISORY HEARING CONSTITUTES CONSENT TO THE TERMINATION OF PARENTAL RIGHTS OF THIS CHILD (OR CHILDREN). IF YOU FAIL TO APPEAR ON THE DATE AND TIME SPECIFIED, YOU MAY LOSE ALL LEGAL RIGHTS AS A PARENT TO THE CHILD OR CHILDREN NAMED IN THE PETITION ATTACHED TO THIS NOTICE."

(b) If a party required to be served with notice as prescribed in paragraph (a) cannot be served, notice of hearings must be given as prescribed by the rules of civil procedure, and service of process must be made as specified by law or civil actions.

(c) Notice as prescribed by this section may be waived, in the discretion of the judge, with regard to any person to whom notice must be given under this subsection if the person executes, before two witnesses and a notary public or other officer authorized to take acknowledgments, a written surrender of the child to a licensed child-placing agency or the department.

(d) If the person served with notice under this section fails to personally appear at the advisory hearing, the failure to personally appear shall constitute consent for termination of parental rights by the person given notice. If a parent appears for the advisory hearing and the court orders that parent to personally appear at the adjudicatory hearing for the petition for termination of parental rights, stating the date, time, and location of said hearing, then failure of that parent to personally appear at the adjudicatory hearing shall constitute consent for termination of parental rights.

Section 20. Section 39.803, Florida Statutes, is amended to read:

39.803 Identity or location of parent unknown after filing of termination of parental rights petition; special procedures.—

(1) If the identity or location of a parent is unknown and a petition for termination of parental rights is filed, the court shall conduct under oath the following inquiry of the parent who is available, or, if no parent is available, of any relative, caregiver, or legal custodian of the child who is present at the hearing and likely to have the information:

(a) Whether the mother of the child was married at the probable time of conception of the child or at the time of birth

of the child.

(b) Whether the mother was cohabiting with a male at the probable time of conception of the child.

(c) Whether the mother has received payments or promises of support with respect to the child or because of her pregnancy from a man who claims to be the father.

(d) Whether the mother has named any man as the father on the birth certificate of the child or in connection with applying for or receiving public assistance.

(e) Whether any man has acknowledged or claimed paternity of the child in a jurisdiction in which the mother resided at the time of or since conception of the child, or in which the child has resided or resides.

(f) Whether a man is named on the birth certificate of the child pursuant to s. 382.013(2).

(g) Whether a man has been determined by a court order to be the father of the child.

(h) Whether a man has been determined by an administrative proceeding to be the father of the child.

(2) The information required in subsection (1) may be supplied to the court or the department in the form of a sworn affidavit by a person having personal knowledge of the facts.

(3) If the inquiry under subsection (1) identifies any person as a parent or prospective parent, the court shall require notice of the hearing to be provided to that person.

(4) If the inquiry under subsection (1) fails to identify any person as a parent or prospective parent, the court shall so find and may proceed without further notice.

(5) If the inquiry under subsection (1) identifies a parent

or prospective parent, and that person's location is unknown, the court shall direct the petitioner to conduct a diligent search for that person before scheduling an adjudicatory hearing regarding the petition for termination of parental rights to the child unless the court finds that the best interest of the child requires proceeding without actual notice to the person whose location is unknown.

(6) The diligent search required by subsection (5) must include, at a minimum, inquiries of all known relatives of the parent or prospective parent, inquiries of all offices of program areas of the department likely to have information about the parent or prospective parent, inquiries of other state and federal agencies likely to have information about the parent or prospective parent, inquiries of appropriate utility and postal providers, a thorough search of at least one electronic database specifically designed for locating persons, a search of the Florida Putative Father Registry, and inquiries of appropriate law enforcement agencies. Pursuant to s. 453 of the Social Security Act, 42 U.S.C. s. 653(c)(4), the department, as the state agency administering Titles IV-B and IV-E of the act, shall be provided access to the federal and state parent locator service for diligent search activities.

(7) Any agency contacted by petitioner with a request for information pursuant to subsection (6) shall release the requested information to the petitioner without the necessity of a subpoena or court order.

(8) If the inquiry and diligent search identifies a prospective parent, that person must be given the opportunity to become a party to the proceedings by completing a sworn

affidavit of parenthood and filing it with the court or the department. A prospective parent who files a sworn affidavit of parenthood while the child is a dependent child but no later than at the time of or before ~~prior to~~ the adjudicatory hearing in the termination of parental rights proceeding for the child shall be considered a parent for all purposes under this section. If the prospective parent does not file a sworn affidavit of parenthood or if the other parent contests the determination of parenthood, the court may, after considering the best interests of the child, order scientific testing to determine the maternity or paternity of the child. The court shall assess the cost of the paternity determination as a cost of litigation. If the court finds the prospective parent to be a parent as a result of the scientific testing, the court shall enter a judgment of maternity or paternity, shall assess the cost of the scientific testing to the parent, and shall enter an amount of child support to be paid by the parent as determined under s. 61.30. If the known parent contests the recognition of the prospective parent as a parent, the prospective parent may not be recognized as a parent until proceedings to establish maternity or paternity have been concluded. However, the prospective parent shall continue to receive notice of hearings as a participant until proceedings to establish maternity or paternity have been concluded.

(9) If the diligent search under subsection (5) fails to identify and locate a prospective parent, the court shall so find and may proceed without further notice.

Section 21. Paragraph (l) of subsection (1) of section 39.806, Florida Statutes, is amended, and subsections (2) and

(3) are republished, to read:

39.806 Grounds for termination of parental rights.—

(1) Grounds for the termination of parental rights may be established under any of the following circumstances:

(l) On three or more occasions the child or another child of the parent or parents has been placed in out-of-home care pursuant to this chapter or the law of any state, territory, or jurisdiction of the United States which is substantially similar to this chapter, and the conditions that led to the child's out-of-home placement were caused by the parent or parents.

(2) Reasonable efforts to preserve and reunify families are not required if a court of competent jurisdiction has determined that any of the events described in paragraphs (1)(b)-(d) or paragraphs (1)(f)-(m) have occurred.

(3) If a petition for termination of parental rights is filed under subsection (1), a separate petition for dependency need not be filed and the department need not offer the parents a case plan having a goal of reunification, but may instead file with the court a case plan having a goal of termination of parental rights to allow continuation of services until the termination is granted or until further orders of the court are issued.

Section 22. Subsection (6) of section 39.811, Florida Statutes, is amended to read:

39.811 Powers of disposition; order of disposition.—

(6) The parental rights of one parent may be severed without severing the parental rights of the other parent only under the following circumstances:

(a) If the child has only one surviving parent;

(b) If the identity of a prospective parent has been established as unknown after sworn testimony;

(c) If the parent whose rights are being terminated became a parent through a single-parent adoption;

(d) If the protection of the child demands termination of the rights of a single parent; or

(e) If the parent whose rights are being terminated meets any of the criteria specified in s. 39.806(1)(c), (d), (f), (g), (h), (i), (j), (k), (l), (m), or (n) ~~and (f)-(m)~~.

Section 23. Paragraph (b) of subsection (4) of section 125.901, Florida Statutes, is amended to read:

125.901 Children's services; independent special district; council; powers, duties, and functions; public records exemption.—

(4)

(b)1.a. Notwithstanding paragraph (a), the governing body of the county shall submit the question of retention or dissolution of a district with voter-approved taxing authority to the electorate in the general election according to the following schedule:

(I) For a district in existence on July 1, 2010, and serving a county with a population of 400,000 or fewer persons as of that date.....2014.

(II) For a district in existence on July 1, 2010, and serving a county with a population of 2 million or more persons as of that date, unless the governing body of the county has previously submitted such question voluntarily to the electorate for a second time since 2005,.....2020.

b. A referendum by the electorate on or after July 1, 2010,

creating a new district with taxing authority may specify that the district is not subject to reauthorization or may specify the number of years for which the initial authorization shall remain effective. If the referendum does not prescribe terms of reauthorization, the governing body of the county shall submit the question of retention or dissolution of the district to the electorate in the general election 12 years after the initial authorization.

2. The governing body of the district may specify, and submit to the governing body of the county no later than 9 months before the scheduled election, that the district is not subsequently subject to reauthorization or may specify the number of years for which a reauthorization under this paragraph shall remain effective. If the governing body of the district makes such specification and submission, the governing body of the county shall include that information in the question submitted to the electorate. If the governing body of the district does not specify and submit such information, the governing body of the county shall resubmit the question of reauthorization to the electorate every 12 years after the year prescribed in subparagraph 1. The governing body of the district may recommend to the governing body of the county language for the question submitted to the electorate.

3. Nothing in this paragraph limits the authority to dissolve a district as provided under paragraph (a).

4. Nothing in this paragraph precludes the governing body of a district from requesting that the governing body of the county submit the question of retention or dissolution of a district with voter-approved taxing authority to the electorate

at a date earlier than the year prescribed in subparagraph 1. If the governing body of the county accepts the request and submits the question to the electorate, the governing body satisfies the requirement of that subparagraph.

If any district is dissolved pursuant to this subsection, each county must first obligate itself to assume the debts, liabilities, contracts, and outstanding obligations of the district within the total millage available to the county governing body for all county and municipal purposes as provided for under s. 9, Art. VII of the State Constitution. Any district may also be dissolved pursuant to part VII of chapter 189.

Section 24. Subsection (9) of section 322.051, Florida Statutes, is amended to read:

322.051 Identification cards.—

(9)(a) Notwithstanding any other provision of this section or s. 322.21 to the contrary, the department shall issue or renew a card at no charge to a person who presents evidence satisfactory to the department that he or she is homeless as defined in s. 414.0252(7), to a juvenile offender who is in the custody or under the supervision of the Department of Juvenile Justice and receiving services pursuant to s. 985.461, to an inmate receiving a card issued pursuant to s. 944.605(7), or, if necessary, to an inmate receiving a replacement card if the department determines that he or she has a valid state identification card. If the replacement state identification card is scheduled to expire within 6 months, the department may also issue a temporary permit valid for at least 6 months after the release date. The department's mobile issuing units shall

process the identification cards for juvenile offenders and inmates at no charge, as provided by s. 944.605 (7)(a) and (b).

(b) If the person who presents evidence that he or she is a certified unaccompanied homeless youth as defined in s. 743.067, the back of the card must exhibit the following: As a certified unaccompanied homeless youth, this individual may consent to diagnosis and treatment and any forensic medical examination authorized pursuant to s. 743.067, F.S.

Section 25. Paragraph (g) of subsection (4) of section 395.3025, Florida Statutes, is amended, and subsection (8) of that section is republished, to read:

395.3025 Patient and personnel records; copies; examination.—

(4) Patient records are confidential and must not be disclosed without the consent of the patient or his or her legal representative, but appropriate disclosure may be made without such consent to:

(g) The Department of Children and Families, ~~or~~ its agent, or its contracted entity, for the purpose of investigations of or services for cases of abuse, neglect, or exploitation of children or vulnerable adults.

(8) Patient records at hospitals and ambulatory surgical centers are exempt from disclosure under s. 119.07(1), except as provided by subsections (1)-(5).

Section 26. Subsections (2) and (6) of section 402.40, Florida Statutes, are amended to read:

402.40 Child welfare training and certification.—

(2) DEFINITIONS.—As used in this section, the term:

(a) "Child welfare certification" means a professional

credential awarded by a department-approved third-party credentialing entity to individuals demonstrating core competency in any child welfare practice area.

(b) "Child welfare services" means any intake, protective investigations, preprotective services, protective services, foster care, shelter and group care, and adoption and related services program, including supportive services and supervision provided to children who are alleged to have been abused, abandoned, or neglected or who are at risk of becoming, are alleged to be, or have been found dependent pursuant to chapter 39.

(c) "Child welfare trainer" means any person providing training for the purposes of child welfare professionals earning certification.

(d) ~~(c)~~ "Core competency" means the minimum knowledge, skills, and abilities necessary to carry out work responsibilities.

(e) ~~(d)~~ "Person providing child welfare services" means a person who has a responsibility for supervisory, direct care, or support-related work in the provision of child welfare services pursuant to chapter 39.

(f) ~~(e)~~ "Preservice curriculum" means the minimum statewide training content based upon the core competencies which is made available to all persons providing child welfare services.

(g) ~~(f)~~ "Third-party credentialing entity" means a department-approved nonprofit organization that has met nationally recognized standards for developing and administering professional certification programs.

(6) ADOPTION OF RULES.—The Department of Children and

Families shall adopt rules necessary to carry out ~~the provisions of~~ this section, including the requirements for child welfare trainers.

Section 27. Section 409.16741, Florida Statutes, is created to read:

409.16741 Substance-exposed newborns; legislative findings and intent; screening and assessment; case management; training.—

(1) LEGISLATIVE FINDINGS AND INTENT.-

(a) The Legislature finds that children, their families, and child welfare agencies have been affected by multiple substance abuse epidemics over the past several decades, and parental substance abuse is again becoming a growing reason for removing children from their homes and placing them in foster care.

(b) The Legislature also finds that infants are the largest age group of children entering foster care and that parental substance abuse disorders are having a major impact not only on increasing child removals, but also on preventing or delaying reunification of families and increasing termination of parental rights.

(c) The Legislature further finds that two aspects of parental substance abuse affect the child welfare system: prenatal exposure when it is determined that there are immediate safety factors that necessitate the newborn being placed in protective custody; and postnatal use that affects the ability of the parent to safely care for the child.

(d) Therefore, it is the intent of the Legislature that the department establish and monitor a coordinated approach to

working with children and their families affected by substance abuse and dependence.

(2) SCREENING AND ASSESSMENT.—The department shall develop or adopt one or more initial screening and assessment instruments to identify, determine the needs of, and plan services for substance-exposed newborns and their families. In addition to the conditions of the infant, conditions or behaviors of the mother or father which may indicate a risk of harm to the child shall be considered during any assessment.

(3) CASE MANAGEMENT.—

(a) The department shall conduct regular multidisciplinary staffings relating to services provided for substance-exposed newborns and their families to ensure that all parties possess relevant information and that services are coordinated across systems identified in this chapter. The department or community-based care lead agency, as appropriate, shall coordinate these staffings and include individuals involved in the child's care.

(b) Each region of the department and each community-based care lead agency shall jointly assess local service capacity to meet the specialized service needs of substance-exposed newborns and their families and establish a plan to develop the necessary capacity. Each plan shall be developed in consultation with entities and agencies involved in the individuals' care.

(4) TRAINING.—The department and community-based care lead agencies shall ensure that cases in which there is a substance-exposed newborn are assigned to child protective investigators and case managers who have specialized training in working with substance-exposed newborns and their families. The department and lead agencies shall ensure that child protective

investigators and case managers receive this training before accepting a case.

Section 28. Section 409.16742, Florida Statutes, is created to read:

409.16742 Shared family care residential services program for substance-exposed newborns.—

(1) LEGISLATIVE FINDINGS AND INTENT.—The Legislature finds that there is evidence that, with appropriate support and training, some families can remain safely together without court involvement or traumatic separations. Therefore, it is the intent of the Legislature that alternative types of placement options be available which provide both safety for substance-exposed newborns and an opportunity for parents recovering from substance abuse disorders to achieve independence while living together in a protective, nurturing family environment.

(2) ESTABLISHMENT OF PILOT PROGRAM.—The department shall establish a shared family care residential services program in the Fourth Judicial Circuit to serve substance-exposed newborns and their families through a contract with the designated lead agency established in accordance with s. 409.987 or with a private entity capable of providing residential care that satisfies the requirements of this section. The private entity or lead agency is responsible for all programmatic functions necessary to carry out the intent of this section. As used in this section, the term "shared family care" means out-of-home care in which an entire family in need is temporarily placed in the home of a family who is trained to mentor and support the biological parents as they develop caring skills and supports necessary for independent living.

(3) SERVICES.—The department shall specify services that should be made available to newborns and their families through the pilot program.

Section 29. Section 409.992, Florida Statutes, is amended to read:

409.992 Lead agency expenditures.—

(1) The procurement of commodities or contractual services by lead agencies shall be governed by the financial guidelines developed by the department and must comply with applicable state and federal law and follow good business practices. Pursuant to s. 11.45, the Auditor General may provide technical advice in the development of the financial guidelines.

(2) Notwithstanding any other provision of law, a community-based care lead agency may make expenditures for staff cellular telephone allowances, contracts requiring deferred payments and maintenance agreements, security deposits for office leases, related agency professional membership dues other than personal professional membership dues, promotional materials, and grant writing services. Expenditures for food and refreshments, other than those provided to clients in the care of the agency or to foster parents, adoptive parents, and caseworkers during training sessions, are not allowable.

(3) Notwithstanding any other provision of law, a community-based care lead agency administrative employee may not receive a salary, whether base pay or base pay combined with any bonus or incentive payments, in excess of the salary paid to the secretary of the Department of Children and Families from state-appropriated funds, including state-appropriated federal funds. This subsection does not prohibit any party from providing cash

that is not from appropriated state funds to a community-based care lead agency administrative employee.

(4)~~(3)~~ A lead community-based care agency and its subcontractors are exempt from state travel policies as provided in s. 112.061(3)(a) for their travel expenses incurred in order to comply with the requirements of this section.

Section 30. Paragraph (a) of subsection (7) of section 456.057, Florida Statutes, is amended to read:

456.057 Ownership and control of patient records; report or copies of records to be furnished; disclosure of information.—

(7)(a) Except as otherwise provided in this section and in s. 440.13(4)(c), such records may not be furnished to, and the medical condition of a patient may not be discussed with, any person other than the patient, the patient's legal representative, or other health care practitioners and providers involved in the patient's care or treatment, except upon written authorization from the patient. However, such records may be furnished without written authorization under the following circumstances:

1. To any person, firm, or corporation that has procured or furnished such care or treatment with the patient's consent.

2. When compulsory physical examination is made pursuant to Rule 1.360, Florida Rules of Civil Procedure, in which case copies of the medical records shall be furnished to both the defendant and the plaintiff.

3. In any civil or criminal action, unless otherwise prohibited by law, upon the issuance of a subpoena from a court of competent jurisdiction and proper notice to the patient or the patient's legal representative by the party seeking such

records.

4. For statistical and scientific research, provided the information is abstracted in such a way as to protect the identity of the patient or provided written permission is received from the patient or the patient's legal representative.

5. To a regional poison control center for purposes of treating a poison episode under evaluation, case management of poison cases, or compliance with data collection and reporting requirements of s. 395.1027 and the professional organization that certifies poison control centers in accordance with federal law.

6. To the Department of Children and Families, its agent, or its contracted entity, for the purpose of investigations of or services for cases of abuse, neglect, or exploitation of children or vulnerable adults.

Section 31. Section 409.141, Florida Statutes, is repealed.

Section 32. Section 409.1677, Florida Statutes, is repealed.

Section 33. Section 743.067, Florida Statutes, is amended to read:

743.067 Certified unaccompanied homeless youths.—

(1) For purposes of this section, the term ~~an~~ "certified unaccompanied homeless youth" means a minor who is a homeless child or youth, including an unaccompanied youth, as those terms are defined in 42 U.S.C. s. 11434a., who has been certified as a unaccompanied homeless youth by ~~is an individual who is 16 years of age or older and is~~:

(a) A school district homeless liaison;

~~(a) Found by a school district's liaison for homeless~~

~~children and youths to be an unaccompanied homeless youth eligible for services pursuant to the McKinney-Vento Homeless Assistance Act, 42 U.S.C. ss. 11431-11435; or~~

~~(b) Believed to qualify as an unaccompanied homeless youth, as that term is defined in the McKinney-Vento Homeless Assistance Act, by:~~

(b)~~1.~~ The director of an emergency shelter program funded by the United States Department of Housing and Urban Development, or the director's designee;

(c)~~2.~~ The director of a runaway or homeless youth basic center or transitional living program funded by the United States Department of Health and Human Services, or the director's designee; or

(d) A Continuum of Care Lead Agency, or its designee.

~~3. A clinical social worker licensed under chapter 491; or~~

~~4. A circuit court.~~

(2)(a) The Office on Homelessness within the Department of Children and Families shall develop a standardized form that must be used by the entities specified in subsection (1) to certify qualifying unaccompanied homeless youth. The form must include the circumstances that qualify the youth; the date the youth was certified; the name, title, and signature of the certifying individual; and a citation to this section. ~~A minor who qualifies as an unaccompanied homeless youth shall be issued a written certificate documenting his or her status by the appropriate individual as provided in subsection (1). The certificate shall be issued on the official letterhead stationery of the person making the determination and shall include the date of the finding, a citation to this section, and~~

~~the signature of the individual making the finding.~~

(b) A certified unaccompanied homeless youth may use the completed form to apply at no charge for an identification card issued by the Department of Highway Safety and Motor Vehicles pursuant to s. 322.051(9).

(c) A health care provider may accept the written certificate or identification card as proof of the minor's status as a certified ~~an~~ unaccompanied homeless youth and may keep a copy of the certificate or identification card in the youth's medical file.

(3) A certified ~~an~~ unaccompanied homeless youth may:

(a) Petition the circuit court to have the disabilities of nonage removed under s. 743.015. The youth shall qualify as a person not required to prepay costs and fees as provided in s. 57.081. The court shall advance the cause on the calendar.

(b) Notwithstanding s. 394.4625(1), consent to medical, dental, psychological, substance abuse, and surgical diagnosis and treatment, including preventative care and care by a facility licensed under chapter 394, chapter 395, or chapter 397 and any forensic medical examination for the purpose of investigating any felony offense under chapter 784, chapter 787, chapter 794, chapter 800, or chapter 827, for:

1. Himself or herself; or

2. His or her child, if the certified unaccompanied homeless youth is unmarried, is the parent of the child, and has actual custody of the child.

(4) This section does not affect the requirements of s. 390.01114.

Section 34. Paragraph (f) of subsection (1) of section

1009.25, Florida Statutes, is amended to read:

1009.25 Fee exemptions.—

(1) The following students are exempt from the payment of tuition and fees, including lab fees, at a school district that provides workforce education programs, Florida College System institution, or state university:

(f) A student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence, a public or private transitional living program ~~for individuals intended to be institutionalized~~, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings. This includes a student who, if it were not for the availability of college or university dormitory housing, would be homeless.

Section 35. Subsection (1) of section 39.524, Florida Statutes, is amended to read:

39.524 Safe-harbor placement.—

(1) Except as provided in s. 39.407 or s. 985.801, a dependent child 6 years of age or older who has been found to be a victim of sexual exploitation as defined in s. 39.01 ~~s. 39.01(70)(g)~~ must be assessed for placement in a safe house or safe foster home as provided in s. 409.1678 using the initial screening and assessment instruments provided in s. 409.1754(1). If such placement is determined to be appropriate for the child as a result of this assessment, the child may be placed in a safe house or safe foster home, if one is available. However, the child may be placed in another setting, if the other setting is more appropriate to the child's needs or if a safe house or

safe foster home is unavailable, as long as the child's behaviors are managed so as not to endanger other children served in that setting.

Section 36. Paragraph (p) of subsection (4) of section 394.495, Florida Statutes, is amended to read:

394.495 Child and adolescent mental health system of care; programs and services.—

(4) The array of services may include, but is not limited to:

(p) Trauma-informed services for children who have suffered sexual exploitation as defined in s. 39.01 ~~s. 39.01(70)(g)~~.

Section 37. Paragraph (c) of subsection (1) and paragraphs (a) and (b) of subsection (6) of section 409.1678, Florida Statutes, are amended to read:

409.1678 Specialized residential options for children who are victims of sexual exploitation.—

(1) DEFINITIONS.—As used in this section, the term:

(c) "Sexually exploited child" means a child who has suffered sexual exploitation as defined in s. 39.01 ~~s. 39.01(70)(g)~~ and is ineligible for relief and benefits under the federal Trafficking Victims Protection Act, 22 U.S.C. ss. 7101 et seq.

(6) LOCATION INFORMATION.—

(a) Information about the location of a safe house, safe foster home, or other residential facility serving victims of sexual exploitation, as defined in s. 39.01 ~~s. 39.01(70)(g)~~, which is held by an agency, as defined in s. 119.011, is confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution. This exemption applies to such

confidential and exempt information held by an agency before, on, or after the effective date of the exemption.

(b) Information about the location of a safe house, safe foster home, or other residential facility serving victims of sexual exploitation, as defined in s. 39.01 ~~s. 39.01(70)(g)~~, may be provided to an agency, as defined in s. 119.011, as necessary to maintain health and safety standards and to address emergency situations in the safe house, safe foster home, or other residential facility.

Section 38. Subsection (5) of section 960.065, Florida Statutes, is amended to read:

960.065 Eligibility for awards.—

(5) A person is not ineligible for an award pursuant to paragraph (2)(a), paragraph (2)(b), or paragraph (2)(c) if that person is a victim of sexual exploitation of a child as defined in s. 39.01 ~~s. 39.01(70)(g)~~.

Section 39. Section 409.1679, Florida Statutes, is amended to read:

409.1679 Additional requirements; reimbursement methodology.—

(1) Each program established under s. 409.1676 ~~ss. 409.1676 and 409.1677~~ must meet the following expectations, which must be included in its contracts with the department or lead agency:

(a) No more than 10 percent of the children served may move from one living environment to another, unless the child is returned to family members or is moved, in accordance with the treatment plan, to a less-restrictive setting. Each child must have a comprehensive transitional plan that identifies the child's living arrangement upon leaving the program and specific

steps and services that are being provided to prepare for that arrangement. Specific expectations as to the time period necessary for the achievement of these permanency goals must be included in the contract.

(b) Each child must receive a full academic year of appropriate educational instruction. No more than 10 percent of the children may be in more than one academic setting in an academic year, unless the child is being moved, in accordance with an educational plan, to a less-restrictive setting. Each child must demonstrate academic progress and must be performing at grade level or at a level commensurate with a valid academic assessment.

(c) Siblings must be kept together in the same living environment 100 percent of the time, unless that is determined by the provider not to be in the children's best interest. When siblings are separated in placement, the decision must be reviewed and approved by the court within 30 days.

(d) The program must experience a caregiver turnover rate and an incidence of child runaway episodes which are at least 50 percent below the rates experienced in the rest of the state.

(e) In addition to providing a comprehensive assessment, the program must provide, 100 percent of the time, any or all of the following services that are indicated through the assessment: residential care; transportation; behavioral health services; recreational activities; clothing, supplies, and miscellaneous expenses associated with caring for these children; necessary arrangements for or provision of educational services; and necessary and appropriate health and dental care.

(f) The children who are served in this program must be

satisfied with the services and living environment.

(g) The caregivers must be satisfied with the program.

(2) ~~Notwithstanding the provisions of s. 409.141,~~ The Department of Children and Families shall fairly and reasonably reimburse the programs established under s. 409.1676 ~~ss. 409.1676 and 409.1677~~ based on a prospective per diem rate, which must be specified annually in the General Appropriations Act. Funding for these programs shall be made available from resources appropriated and identified in the General Appropriations Act.

Section 40. Subsection (11) of section 1002.3305, Florida Statutes, is amended to read:

1002.3305 College-Preparatory Boarding Academy Pilot Program for at-risk students.—

(11) STUDENT HOUSING.—Notwithstanding s. 409.176 ~~ss. 409.1677(3)(d) and 409.176~~ or any other provision of law, an operator may house and educate dependent, at-risk youth in its residential school for the purpose of facilitating the mission of the program and encouraging innovative practices.

Section 41. For the purpose of incorporating the amendment made by this act to section 456.057, Florida Statutes, in a reference thereto, subsection (2) of section 483.181, Florida Statutes, is reenacted to read:

483.181 Acceptance, collection, identification, and examination of specimens.—

(2) The results of a test must be reported directly to the licensed practitioner or other authorized person who requested it, and appropriate disclosure may be made by the clinical laboratory without a patient's consent to other health care

practitioners and providers involved in the care or treatment of the patient as specified in s. 456.057(7)(a). The report must include the name and address of the clinical laboratory in which the test was actually performed, unless the test was performed in a hospital laboratory and the report becomes an integral part of the hospital record.

Section 42. Except as otherwise expressly provided in this act, this act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1056
INTRODUCER:	Senator Garcia
SUBJECT:	Home Health Care Agency Licenses
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Stovall	Stovall	HP	**Favorable**
2.	Forbes	Williams	AHS	**Recommend: Favorable**
3.	Forbes	Hansen	AP	**Favorable**

I. Summary:

SB 1056 removes a prohibition on the Agency for Health Care Administration (AHCA) from issuing an initial home health agency license to an applicant that shares common controlling interests with another licensed home health agency that is located in the same county and within 10 miles of the applicant.

There is no fiscal impact on any state revenues or expenditures.

The effective date of the bill is July 1, 2017.

II. Present Situation:

Home Health Agencies (HHA)

An HHA is an organization that provides home health services and staffing services.[1] Home health services provided by an HHA include health and medical services and medical supplies provided to an individual in his or her home, such as nursing care, physical and occupational therapy, and home health aide services.[2,3]

[1] Section 400.462(12), F.S.
[2] Section 400.462(14), F.S. Additional services may include dietetics and nutrition practice and nutrition counseling.
[3] Home health aide services may include hands-on personal care, simple procedures as an extension of therapy or nursing services, assisting in ambulation or exercises, and assisting with the self-administration of medication. *See* s. 400.462(15), F.S.

Home health agencies are regulated by the AHCA pursuant to part III of ch. 400, F.S., and the general licensing provisions in part II of ch. 408, F.S. As of March 31, 2017, there are 1950 licensed HHAs in the state.[4]

A license is required to operate as an HHA unless an exemption applies.[5] Numerous exemptions exist and the most common exemptions apply to an HHA operated by the federal government or home health services provided by a state agency, licensed health care practitioner operating under his or her professional license, or other licensed health care facility.[6]

An HHA must designate a geographic service area (one or more counties within an AHCA district) in which the HHA will operate. These counties are identified on the license. An HHA may apply to amend the geographic service area to expand within the AHCA district under the same license.[7]

A licensed HHA may also operate satellite offices under the main HHA license. A satellite office must be located in the same geographic service area as the HHA's main office and share administration, fiscal management, supervision, and service provision with the main office. Supplies and records may be stored at a satellite office and signs and advertisements can notify the public of the satellite office location. If an HHA wants to open an office outside of the geographic services area where the main licensed office is located, it must obtain a separate license.[8]

Section 400.471(7), F.S., prohibits the AHCA from issuing an initial license to an applicant for an HHA license if the applicant shares common controlling interest with another licensed HHA that is located within 10 miles of the applicant and is in the same county. This restriction was enacted in ch. 2008-246, Laws of Fla.

"Controlling interest" means:[9]

- The applicant or license or
- A person or entity that serves as an officer of, is on the board of directors of, or has a five percent or greater ownership interest in the
  - Applicant or licensee or
  - Management company or other entity, related or unrelated, with which the applicant or licensee contracts to manage the provider.

[4] Agency for Health Care Administration, FloridaHealthFinder.gov, search on home health agencies, available at: http://www.floridahealthfinder.gov/facilitylocator/ListFacilities.aspx (last visited March 31, 2017),
[5] Section 400.464, F.S.
[6] Section 400.464(5), F.S.
[7] Rule 59A-8.007, F.A.C. The AHCA reviews the HHA's previous history of survey results and administrative action to assess the HHA's ability to provide quality services within the requested expanded area.
[8] Rule 59A-8.003(7), F.A.C.
[9] Section 408.803(7), F.S.

Medicare and Medicaid Fraud

The HHA industry in Florida has been marred with years of uncontrolled growth and health care fraud. The Florida Senate studied HHAs in Florida in 2007, issuing an interim report[10] that outlined unusually rapid growth in licensed HHAs, particularly in South Florida, and indications of possible quality-of-care problems and Medicaid fraud. Numerous regulatory reforms were enacted in 2008 and 2009 that focused on fraud and abuse prevention in the HHA industry.[11]

Ongoing monitoring and Medicare and Medicaid fraud enforcement action continues. Most recently, in fiscal year 2015-2016, 24 HHAs were terminated from participation in the Medicaid program as a result of fraud and abuse,[12] and 26 HHAs were denied enrollment or reenrollment in the Medicaid program because of suspected fraud and abuse.[13]

In addition, the Centers for Medicare and Medicaid Services (CMS) has imposed a federal moratorium on new HHAs in Medicare, Medicaid, and the Children's Health Insurance Program (CHIP), in order to target fraud in Florida.[14]

- In July 2013, CMS implemented a moratorium on the enrollment of new HHAs in the Miami area.
- CMS extended the moratorium in 2014 to the metropolitan areas of Fort Lauderdale. The moratoria have since been extended at 6-month intervals and remain in place in both Miami and Ft. Lauderdale.
- Effective July 29, 2016, CMS expanded the moratoria statewide and made it applicable to Medicare, Medicaid, and the CHIP.[15]

There is no indication at this point as to the duration of the CMS imposed moratoria. The CMS has created a Provider Enrollment Moratoria Access Waiver Demonstration (PEWD), which is designed to provide exceptions to the moratoria to ensure that beneficiary access to care is not adversely impacted.[16]

III. Effect of Proposed Changes:

The bill removes a prohibition on the agency from issuing an initial home health agency license to an applicant that shares common controlling interests with another licensed home health

[15] The moratoria was imposed statewide to address problems in the effectiveness of the earlier moratorium because those did not prevent providers outside the moratoria area from billing for servicing beneficiaries within that area.
[16] *Supra*, note 13.

agency that is located in the same county and within 10 miles of the applicant. The bill also removes the directive for the agency to return the application and fees to the applicant.

The effective date of the bill is July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Applicants for an initial HHA license with common controlling interests with a currently licensed HHA will be able to obtain a new license within close proximity to the currently licensed HHA. A new license will enable the HHA to do business under a different license authority.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 400.471 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Garcia

36-00455A-17 20171056__

A bill to be entitled

An act relating to home health care agency licenses; amending s. 400.471, F.S.; removing a prohibition against the issuance of an initial home health agency license to an applicant who shares common controlling interests with another licensed home health agency located within 10 miles of the applicant and in the same county; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (7) of section 400.471, Florida Statutes, is amended to read:

400.471 Application for license; fee.—

~~(7) The agency may not issue an initial license to an applicant for a home health agency license if the applicant shares common controlling interests with another licensed home health agency that is located within 10 miles of the applicant and is in the same county. The agency must return the application and fees to the applicant.~~

Section 2. This act shall take effect July 1, 2017.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB's 1318 & 1454
INTRODUCER:	Children, Families, and Elder Affairs Committee and Senators Garcia and Broxson
SUBJECT:	Child Protection
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Preston	Hendon	CF	**Fav/CS Combined**
2.	Sneed	Williams	AHS	**Recommend: Favorable**
3.	Sneed	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1318 and 1454 makes a number of changes to provisions relating to Child Protection Teams (CPT) in the Department of Health (DOH). The bill:

- Changes the limitation on physicians who can be CPT medical directors to allow a board-certified physician in family medicine (rather than pediatrics) to be hired as a medical director. Physicians employed as CPT medical directors must, within two years after their date of employment, obtain either a subspecialty certification in child abuse from the American Board of Pediatrics or meet the minimum requirements established by a third-party credentialing entity recognizing a demonstrated specialized competence in child abuse pediatrics pursuant to s. 39.303(2)(d), F.S.
- Requires the State Surgeon General and Deputy Secretary for Children's Medical Services to consult with the Statewide Medical Director for Child Protection on decisions regarding screening, employment, and termination of child protection team medical directors at headquarters and within all circuits statewide.
- Revises the group of persons who are authorized to complete the required review of all suspected abuse and neglect reports submitted to the Department of Children and Families (DCF) Florida Abuse Hotline, to determine if a face-to-face medical evaluation by a child protection team is necessary.
- Changes CPT districts to circuits to align the CPT and the DCF service areas.
- Codifies the requirements for Sexual Abuse Treatment Programs (SATP) that provide children alleged to have been sexually abused, their siblings, and their non-offending caretakers with specialized therapeutic treatment to assist in recovery from sexual abuse.

- Requires the Children's Medical Services (CMS) Division in the DOH to convene a task force to develop a standardized protocol for forensic interviewing for children suspected of having been abused and provide staff to support the task force, as needed. The task force must include various representatives from the disciplines of law enforcement, child welfare, and mental health treatment. The bill requires the DOH to provide the protocol to the Legislature by January 1, 2018.
- Expands the cases in which an expert witness certificate may be used, to include cases involving abandonment, dependency, and sexual abuse.

The bill has no impact on state revenues or expenditures.

The effective date of the bill is July 1, 2017.

II. Present Situation:

Child Protection Teams

A child protection team (CPT) is a medically directed, multidisciplinary team that works with local Sheriff's offices and the DOH in cases of child abuse and neglect to supplement investigation activities.[1] Current law governs CPTs, and requires the Children's Medical Services Program (CMS) in the DOH to develop, maintain, and coordinate the services of the CPTs in each of the service districts of the DCF. Child protection team medical directors are responsible for oversight of the teams.[2]

Specifically, CPTs help assess risk and protective factors, and provide recommendations for interventions that protect children.[3] Child abuse, abandonment, and neglect reports to the DCF Florida Abuse Hotline that must be referred to child protection teams include cases involving:

- Injuries to the head, bruises to the neck or head, burns, or fractures in a child of any age.
- Bruises anywhere on a child 5 years of age or younger.
- Any report alleging sexual abuse of a child.
- Any sexually transmitted disease in a prepubescent child.
- Reported malnutrition or failure of a child to thrive.
- Reported medical neglect of a child.
- A sibling or other child remaining in a home where one or more children have been - pronounced dead on arrival or have been injured and later died as a result of suspected abuse, abandonment, or neglect.
- Symptoms of serious emotional problems in a child when emotional or other abuse, abandonment, or neglect is suspected.[4]

---

[4] Section 39.303, F.S.

Qualifications for Child Protection Team Medical Directors

Currently, district medical directors are required to be a physician licensed under ch. 458 or ch. 459, F.S., who is a board-certified pediatrician and, within 4 years after the date of his or her employment as a district medical director, either obtain a subspecialty certification in child abuse from the American Board of Pediatrics or meet the minimum requirements established by a third-party credentialing entity recognizing a demonstrated specialized competence in child abuse pediatrics pursuant to s. 39.303(2)(d), F.S.

While child protection teams are required to be medically directed by at least one board-certified pediatrician, despite active recruitment efforts, three of the 22 child protection team medical director positions have been vacant for more than a year. Child Protection Team medical directors are state employees and currently, three are employed by state universities and the remaining 19 are employed by the DOH.[5]

Specialty Certification for Child Abuse Pediatrics

The American Board of Medical Specialties approved the child abuse pediatrics specialty in 2006 and administered the first certification exams in late 2009.[6] Eligibility for the Child Abuse Pediatric certification exam requires a person to have completed both a 3-year residency in pediatrics and a 3-year fellowship in child abuse pediatrics at an accredited program.[7] Fellowship training includes medical evaluations of children with manifestations of acute and chronic child maltreatment, as well as children with a broad range of other diagnoses. The trainee develops expertise in determining non-accidental trauma and other forms of maltreatment, by developing excellent diagnostic expertise and knowledge of various disorders that may mimic child maltreatment. Training will include mandatory reporting laws, legal proceedings, child abuse and family violence prevention, teaching opportunities, and clinical research.[8]

As of December 31, 2015, Florida has 12 physicians certified in Child Abuse Pediatrics through the American Board of Pediatrics.[9]

Third-Party Credentialing Entity

The Florida Certification Board offers the Child Protection Team Medical Provider (CPTMP) credential to eligible members of the Florida Department of Health's Child Protection Teams. This program was developed in response to the requirement that each DOH district medical director obtain a subspecialist certification in child abuse from the American Board of Pediatrics or meet the minimum requirements established by a third-party credentialing entity. The DOH has expanded eligibility for this credential to specified members of Florida's Child Protection

Teams. To be eligible to take the exam, applicants must either be a board certified pediatrician, a board certified advanced registered nurse practitioner, or another board certified medical professional.[10]

Sexual Abuse Treatment Programs (SATP)

In 1986, the legislature required the department to develop a model plan for community intervention and treatment of intrafamily sexual abuse in conjunction with the Department of Law Enforcement, the DOH, the Department of Education, the Office of Attorney General (OAG), the state Guardian Ad Litem Program, the Department of Corrections, representatives of the judiciary, and professionals and advocates from the mental health and child welfare community.[11]As a result, children alleged to have been sexually abused, their siblings, and their non-offending caretakers are currently served by 14 sexual abuse treatment programs statewide. The programs are a partnership between the DOH, the OAG, and the DCF. The DOH contracts with local programs to provide administrative and clinical oversight, OAG pays for therapeutic services, and the DOH and the DCF have an interagency agreement for the operation of the program. This program provided therapeutic counseling services to 3,400 child victims of sexual abuse and their non-offending family members during Fiscal Year 2015-2016.[12]

Forensic Interviewing of Child Victims

Forensic interviewing began after several high-profile cases in the 1980s involving allegations of daycare providers sexually abusing multiple children in their care became the subject of analysis based on the interview techniques that were used.[13] Law enforcement had relied on mental health practitioners because of their ability to establish and build rapport with children. However, these mental health practitioners used therapeutic techniques that were later deemed inappropriate for forensic purposes due to concerns of suggestibility and the encouragement of make-believe and pretend. Three specific criticisms of these methods were that:

- Investigation activities and decision-making were not coordinated across the multiple agencies involved;
- Children were interviewed too many times by too many interviewers and had to tell their story over and over again; and
- Children were interviewed in stressful or compromising locations that disturbed them further and made it difficult to talk.[14]

[14] Cross, T. Jones, L., et al, *Child forensic interviewing in Children's Advocacy Centers: Empirical data on a practice model*, Child Abuse & Neglect 31 (2007), *available from*: http://www.unh.edu/ccrc/pdf/cv108.pdf. (last visited March 23, 2017).

A forensic interview, however, is a structured conversation with a child intended to elicit detailed information about a possible event that the child may have experienced or witnessed. The purposes of a forensic interview are:

- To obtain information from a child that may be helpful in a criminal investigation;
- To assess the safety of the child's living arrangements;
- To obtain information that will either corroborate or refute allegations or suspicions of abuse and neglect; and
- To assess the need for medical treatment and psychological care.[15]

People from multiple disciplines attend, or later review, the forensic interview including child protective investigators, police officers and other law enforcement officials, child protection attorneys, victim advocates, and medical and mental health care practitioners. The interview provides facts and direction for those involved with the investigation and provision of services.[16]

Child Advocacy Centers have taken the lead in the development of forensic interviewing protocols for children and one of their primary functions is to conduct forensic interviews in a non-threatening, child-friendly environment. Florida law provided standards for child advocacy centers in 1998[17] and Florida currently has 27 Child Advocacy Centers that serve an estimated 85 percent of children in need of services statewide.[18]

The DOH reports that a variety of forensic interview protocols exist and vary from being very structured (scripted), less structured (semi-scripted) to flexible (not scripted but includes guidelines for interviewing). Agencies and entities providing forensic interviews can choose from a variety of well-known and established protocols, most of which provide structured training for forensic interviewers.[19] One of these existing protocols is the internationally recognized National Children's Advocacy Center Child Forensic Interview Structure that is flexible, can be adapted to children of all ages and cultural backgrounds, and is appropriate for interviewing children who may have experienced sexual or physical abuse or who may be a witness to violence.[20]

Expert Witness Certificates and Expert Testimony in Child Abuse Cases

Current law authorizes the DOH to issue a certificate authorizing a physician who holds an active and valid license to practice medicine or osteopathic medicine in another state or a province of Canada to provide expert testimony in this state, if the physician applies and pays for the certificate.[21]An expert witness certificate authorizes the physician to whom the certificate is issued to do only the following:

[21] Sections 458.3175 and 459.0066, F.S.

- Provide a verified written medical expert opinion as provided in s. 766.203, F.S.;
- Provide expert testimony about the prevailing professional standard of care in connection with medical negligence litigation pending in this state against a physician licensed under chapter 458 or this chapter; and
- Provide expert testimony in criminal child abuse and neglect cases in this state.[22]

Currently, expert testimony requirements in chapter 827, relating to abuse of children that rises to the level of criminal abuse, are restricted only to criminal child abuse cases and not family or dependency court.[23]

III. Effect of Proposed Changes:

Section 1 amends s. 39.303, F.S., relating to child protection teams, to change the limitation on physicians who can be CPT medical directors to allow a board-certified physician in family medicine (rather than pediatrics) to be hired as a medical director. Physicians employed as CPT medical directors would, within two years after their date of employment, obtain either a subspecialty certification in child abuse from the American Board of Pediatrics or meet the minimum requirements established by a third-party credentialing entity recognizing a demonstrated specialized competence in child abuse pediatrics pursuant to s. 39.303(2)(d), F.S.

This section includes the CPT medical director in the list of persons who can complete the required review of all suspected abuse and neglect reports called to the DCF Florida Abuse Hotline to determine if a face-to-face medical evaluation by a child protection team is necessary.

This section changes references to CPT districts to "circuits", to align the CPT and the DCF service areas.

This section requires the Children's Medical Services (CMS) within the DOH to convene a task force to develop a standardized protocol for forensic interviewing for children suspected of having been abused and provide staff to support the task force, as needed. The task force must include various representatives from the disciplines of law enforcement, child welfare, and mental health treatment. The bill requires the DOH to provide the protocol to the legislature by January 1, 2018.

This section also codifies the requirements for Sexual Abuse Treatment Programs (SATP) that provide children alleged to have been sexually abused, their siblings, and their non-offending caretakers with specialized therapeutic treatment to assist in recovery from sexual abuse.

Section 2 amends s. 39.3031, F.S., relating to rules for the implementation of s. 39.303, F.S., to conform provisions to changes made by the bill.

Section 3 amends s. 458.3175, F.S., relating to expert witness certificates, to allow a physician who holds an active and valid license to practice medicine in another state or a province of

[22] *Id*.
[23] Section 827.03, F.S.

Canada and holds an expert witness certificate to provide expert testimony in neglect, abandonment, dependency and sexual abuse cases.

Section 4 amends s. 459.0066, F.S., relating to expert witness certificates, to allow a physician who holds an active and valid license to practice osteopathic medicine in another state or a province of Canada and holds an expert witness certificate to provide expert testimony in neglect, abandonment, dependency and sexual abuse cases.

Section 5 amends s. 827.03, F.S., relating to abuse, aggravated abuse, and neglect of a child, to expand the expert testimony requirements of subsection (3) to include neglect, abandonment, dependency and sexual abuse cases.

Section 6 provides an effective date of July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill does not impact state revenues or expenditures.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

The bill substantially amends ss. 39.303, 39.3031, 458.3175, 459.0066, and 827.03 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Committee on Children, Families, and Elder Affairs on March 27, 2017:

- No longer limits physicians who could be CPT medical directors to only those board certified in pediatrics, but would allow a board-certified physician in family medicine to be hired as a medical director. Physicians employed as CPT medical directors must, within two years after their date of employment, obtain either a subspecialty certification in child abuse from the American Board of Pediatrics or meet the minimum requirements established by a third-party credentialing entity recognizing a demonstrated specialized competence in child abuse pediatrics pursuant to s. 39.303(2)(d), F.S.
- Requires the Children's Medical Services (CMS) within the DOH to convene a task force to develop a standardized protocol for forensic interviewing for children suspected of having been abused and provide staff to support the task force, as needed. The task force must include various representatives from the disciplines of law enforcement, child welfare, and mental health treatment. The bill requires the DOH to provide the protocol to the legislature by January 1, 2018.
- Expands the cases in which an expert witness certificate may be used, to include cases involving abandonment, dependency, and sexual abuse.

B. Amendments:

None.

By the Committee on Children, Families, and Elder Affairs; and Senators Garcia and Broxson

586-02923A-17 20171318c1

A bill to be entitled

An act relating to child protection; amending s. 39.303, F.S.; revising the entities responsible for screening, employing, and terminating child protection team medical directors to include the Statewide Medical Director for Child Protection; revising the term "district medical director" to "child protection team medical director"; revising references to subdivisions of the state from "districts" to "circuits"; revising the required board certifications for child protection team medical directors and reviewing physicians; revising the timeframe in which child protection team medical directors must obtain certification; requiring Children's Medical Services to convene a task force to develop a protocol for forensic interviewing of children suspected of having been abused; specifying membership of the task force; requiring Children's Medical Services to develop, maintain, and coordinate one or more sexual abuse treatment programs; amending s. 39.3031, F.S.; requiring the Department of Health, in consultation with the Department of Children and Families, to adopt rules regarding sexual abuse treatment programs; amending ss. 458.3175, 459.0066, and 827.03, F.S.; revising provisions regarding expert testimony provided by certain entities to include criminal cases involving child abuse and neglect, dependency cases, and cases involving sexual abuse of a child; providing an effective date.

586-02923A-17 20171318c1

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 39.303, Florida Statutes, is amended to read:

39.303 Child protection teams and sexual abuse treatment programs; services; eligible cases.—

(1) The Children's Medical Services Program in the Department of Health shall develop, maintain, and coordinate the services of one or more multidisciplinary child protection teams in each of the service circuits ~~districts~~ of the Department of Children and Families. Such teams may be composed of appropriate representatives of school districts and appropriate health, mental health, social service, legal service, and law enforcement agencies. The Department of Health and the Department of Children and Families shall maintain an interagency agreement that establishes protocols for oversight and operations of child protection teams and sexual abuse treatment programs. The State Surgeon General and the Deputy Secretary for Children's Medical Services, in consultation with the Secretary of Children and Families and the Statewide Medical Director for Child Protection, shall maintain the responsibility for the screening, employment, and, if necessary, the termination of child protection team medical directors~~, at headquarters and~~ in the 15 circuits ~~districts~~.

(2)(a) The Statewide Medical Director for Child Protection must be a physician licensed under chapter 458 or chapter 459 who is a board-certified pediatrician with a subspecialty certification in child abuse from the American Board of

Pediatrics.

(b) Each child protection team ~~district~~ medical director must be a physician licensed under chapter 458 or chapter 459 who is a board-certified physician in pediatrics or family medicine ~~pediatrician~~ and, within 2 ~~4~~ years after the date of ~~his or her~~ employment as a child protection team ~~district~~ medical director, obtains ~~either obtain~~ a subspecialty certification in child abuse from the American Board of Pediatrics or within 2 years meet the minimum requirements established by a third-party credentialing entity recognizing a demonstrated specialized competence in child abuse pediatrics pursuant to paragraph (d). Each child protection team ~~district~~ medical director employed on July 1, 2015, must, by July 1, 2019 ~~within 4 years~~, either obtain a subspecialty certification in child abuse from the American Board of Pediatrics or meet the minimum requirements established by a third-party credentialing entity recognizing a demonstrated specialized competence in child abuse pediatrics pursuant to paragraph (d). Child protection team medical directors shall be responsible for oversight of the teams in the circuits ~~districts~~.

(c) All medical personnel participating on a child protection team must successfully complete the required child protection team training curriculum as set forth in protocols determined by the Deputy Secretary for Children's Medical Services and the Statewide Medical Director for Child Protection.

(d) Contingent on appropriations, the Department of Health shall approve one or more third-party credentialing entities for the purpose of developing and administering a professional

credentialing program for child protection team ~~district~~ medical directors. Within 90 days after receiving documentation from a third-party credentialing entity, the department shall approve a third-party credentialing entity that demonstrates compliance with the following minimum standards:

1. Establishment of child abuse pediatrics core competencies, certification standards, testing instruments, and recertification standards according to national psychometric standards.

2. Establishment of a process to administer the certification application, award, and maintenance processes according to national psychometric standards.

3. Demonstrated ability to administer a professional code of ethics and disciplinary process that applies to all certified persons.

4. Establishment of, and ability to maintain, a publicly accessible Internet-based database that contains information on each person who applies for and is awarded certification, such as the person's first and last name, certification status, and ethical or disciplinary history.

5. Demonstrated ability to administer biennial continuing education and certification renewal requirements.

6. Demonstrated ability to administer an education provider program to approve qualified training entities and to provide precertification training to applicants and continuing education opportunities to certified professionals.

(3) The Department of Health shall use and convene the child protection teams to supplement the assessment and protective supervision activities of the family safety and

preservation program of the Department of Children and Families. This section does not remove or reduce the duty and responsibility of any person to report pursuant to this chapter all suspected or actual cases of child abuse, abandonment, or neglect or sexual abuse of a child. The role of the child protection teams is ~~shall be~~ to support activities of the program and to provide services deemed by the child protection teams to be necessary and appropriate to abused, abandoned, and neglected children upon referral. The specialized diagnostic assessment, evaluation, coordination, consultation, and other supportive services that a child protection team must ~~shall~~ be capable of providing include, but are not limited to, the following:

(a) Medical diagnosis and evaluation services, including provision or interpretation of X rays and laboratory tests, and related services, as needed, and documentation of related findings.

(b) Telephone consultation services in emergencies and in other situations.

(c) Medical evaluation related to abuse, abandonment, or neglect, as defined by policy or rule of the Department of Health.

(d) Such psychological and psychiatric diagnosis and evaluation services for the child or the child's parent or parents, legal custodian or custodians, or other caregivers, or any other individual involved in a child abuse, abandonment, or neglect case, as the team may determine to be needed.

(e) Expert medical, psychological, and related professional testimony in court cases.

(f) Case staffings to develop treatment plans for children whose cases have been referred to the team. A child protection team may provide consultation with respect to a child who is alleged or is shown to be abused, abandoned, or neglected, which consultation shall be provided at the request of a representative of the family safety and preservation program or at the request of any other professional involved with a child or the child's parent or parents, legal custodian or custodians, or other caregivers. In every such child protection team case staffing, consultation, or staff activity involving a child, a family safety and preservation program representative shall attend and participate.

(g) Case service coordination and assistance, including the location of services available from other public and private agencies in the community.

(h) Such training services for program and other employees of the Department of Children and Families, employees of the Department of Health, and other medical professionals as is deemed appropriate to enable them to develop and maintain their professional skills and abilities in handling child abuse, abandonment, and neglect cases.

(i) Educational and community awareness campaigns on child abuse, abandonment, and neglect in an effort to enable citizens more successfully to prevent, identify, and treat child abuse, abandonment, and neglect in the community.

(j) Child protection team assessments that include, as appropriate, medical evaluations, medical consultations, family psychosocial interviews, specialized clinical interviews, or forensic interviews.

A child protection team that is evaluating a report of medical neglect and assessing the health care needs of a medically complex child shall consult with a physician who has experience in treating children with the same condition.

(4) The child abuse, abandonment, and neglect reports that must be referred by the department to child protection teams of the Department of Health for an assessment and other appropriate available support services as set forth in subsection (3) must include cases involving:

(a) Injuries to the head, bruises to the neck or head, burns, or fractures in a child of any age.

(b) Bruises anywhere on a child 5 years of age or under.

(c) Any report alleging sexual abuse of a child.

(d) Any sexually transmitted disease in a prepubescent child.

(e) Reported malnutrition of a child and failure of a child to thrive.

(f) Reported medical neglect of a child.

(g) Any family in which one or more children have been pronounced dead on arrival at a hospital or other health care facility, or have been injured and later died, as a result of suspected abuse, abandonment, or neglect, when any sibling or other child remains in the home.

(h) Symptoms of serious emotional problems in a child when emotional or other abuse, abandonment, or neglect is suspected.

(5) All abuse and neglect cases transmitted for investigation to a circuit ~~district~~ by the hotline must be simultaneously transmitted to the ~~Department of Health~~ child

protection team for review. For the purpose of determining whether a face-to-face medical evaluation by a child protection team is necessary, all cases transmitted to the child protection team which meet the criteria in subsection (4) must be timely reviewed by:

(a) A physician licensed under chapter 458 or chapter 459 who holds board certification in pediatrics and is a member of a child protection team;

(b) A physician licensed under chapter 458 or chapter 459 who holds board certification in a specialty other than pediatrics, who may complete the review only when working under the direction of the child protection team medical director or a physician licensed under chapter 458 or chapter 459 who holds board certification in pediatrics and is a member of a child protection team;

(c) An advanced registered nurse practitioner licensed under chapter 464 who has a specialty in pediatrics or family medicine and is a member of a child protection team;

(d) A physician assistant licensed under chapter 458 or chapter 459, who may complete the review only when working under the supervision of the child protection team medical director or a physician licensed under chapter 458 or chapter 459 who holds board certification in pediatrics and is a member of a child protection team; or

(e) A registered nurse licensed under chapter 464, who may complete the review only when working under the direct supervision of the child protection team medical director or a physician licensed under chapter 458 or chapter 459 who holds board certification in pediatrics and is a member of a child

protection team.

(6) A face-to-face medical evaluation by a child protection team is not necessary when:

(a) The child was examined for the alleged abuse or neglect by a physician who is not a member of the child protection team, and a consultation between the child protection team medical director or a child protection team board-certified pediatrician, advanced registered nurse practitioner, physician assistant working under the supervision of a child protection team medical director or a child protection team board-certified pediatrician, or registered nurse working under the direct supervision of a child protection team medical director or a child protection team board-certified pediatrician, and the examining physician concludes that a further medical evaluation is unnecessary;

(b) The child protective investigator, with supervisory approval, has determined, after conducting a child safety assessment, that there are no indications of injuries as described in paragraphs (4)(a)-(h) as reported; or

(c) The child protection team medical director or a child protection team board-certified pediatrician, as authorized in subsection (5), determines that a medical evaluation is not required.

Notwithstanding paragraphs (a), (b), and (c), a child protection team medical director or a child protection team pediatrician, as authorized in subsection (5), may determine that a face-to-face medical evaluation is necessary.

(7) In all instances in which a child protection team is

providing certain services to abused, abandoned, or neglected children, other offices and units of the Department of Health, and offices and units of the Department of Children and Families, shall avoid duplicating the provision of those services.

(8) The Department of Health child protection team quality assurance program and the Family Safety Program Office of the Department of Children and Families shall collaborate to ensure referrals and responses to child abuse, abandonment, and neglect reports are appropriate. Each quality assurance program shall include a review of records in which there are no findings of abuse, abandonment, or neglect, and the findings of these reviews shall be included in each department's quality assurance reports.

(9)(a) Children's Medical Services shall convene a task force to develop a standardized protocol for forensic interviewing of children suspected of having been abused. The Department of Health shall provide staff to the task force as necessary. The task force must include:

1. A representative from the Florida Prosecuting Attorneys Association.

2. A representative from the Florida Psychological Association.

3. The Statewide Medical Director for Child Protection.

4. A representative from the Florida Public Defender Association.

5. The executive director of the Statewide Guardian Ad Litem Office.

6. A representative from a community-based care lead

agency.

7. A representative from Children's Medical Services.

8. A representative from the Florida Sheriffs Association.

9. A representative from the Florida Chapter of the American Academy of Pediatrics.

10. A representative from the Florida Network of Children's Advocacy Centers.

11. Other representatives designated by Children's Medical Services.

(b) Children's Medical Services must provide the standardized protocol to the President of the Senate and the Speaker of the House of Representatives by July 1, 2018.

(c) Members of the task force are not entitled to per diem or other payment for service on the task force.

(10) The Children's Medical Services program in the Department of Health shall develop, maintain, and coordinate the services of one or more sexual abuse treatment programs.

(a) A child under the age of 18 who is alleged to be a victim of sexual abuse, his or her siblings, non-offending caregivers, and family members who have been impacted by sexual abuse are eligible for services.

(b) Sexual abuse treatment programs must provide specialized therapeutic treatment to victims of child sexual abuse, their siblings, nonoffending caregivers, and family members to assist in recovery from sexual abuse, to prevent developmental impairment, to restore the children's pre-abuse level of developmental functioning, and to promote healthy, non-abusive relationships. Therapeutic intervention services must include crisis intervention, clinical treatment, and individual,

family, and group therapy.

(c) The sexual abuse treatment programs and child protection teams must provide referrals for victims of child sexual abuse and their families, as appropriate.

Section 2. Section 39.3031, Florida Statutes, is amended to read:

39.3031 Rules for implementation of s. 39.303.—The Department of Health, in consultation with the Department of Children and Families, shall adopt rules governing the child protection teams and sexual abuse treatment programs pursuant to s. 39.303, including definitions, organization, roles and responsibilities, eligibility, services and their availability, qualifications of staff, and a waiver-request process.

Section 3. Paragraph (c) of subsection (2) of section 458.3175, Florida Statutes, is amended to read:

458.3175 Expert witness certificate.—

(2) An expert witness certificate authorizes the physician to whom the certificate is issued to do only the following:

(c) Provide expert testimony in criminal child abuse and neglect cases pursuant to chapter 827, dependency cases pursuant to chapter 39, and cases involving sexual battery of a child pursuant to chapter 794 in this state.

Section 4. Paragraph (c) of subsection (2) of section 459.0066, Florida Statutes, is amended to read:

459.0066 Expert witness certificate.—

(2) An expert witness certificate authorizes the physician to whom the certificate is issued to do only the following:

(c) Provide expert testimony in criminal child abuse and neglect cases pursuant to chapter 827, dependency cases pursuant

to chapter 39, and cases involving sexual battery of a child pursuant to chapter 794 in this state.

Section 5. Paragraph (d) of subsection (3) of section 827.03, Florida Statutes, is amended to read:

827.03 Abuse, aggravated abuse, and neglect of a child; penalties.—

(3) EXPERT TESTIMONY.—

(d) The expert testimony requirements of this subsection apply only to criminal child abuse and neglect cases pursuant to chapter 827, dependency cases pursuant to chapter 39, and cases involving sexual battery of a child pursuant to chapter 794 and not to family court ~~or dependency court~~ cases.

Section 6. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1562 (424970)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Garcia
SUBJECT:	Expressway Authorities
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Pitts	Pitts	ATD	**Recommend: Fav/CS**
3.	Pitts	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1562 prohibits the Miami-Dade County Expressway Authority (MDX), subject to certain requirements, from increasing its tolls unless justified by an independent traffic and revenue study, except to the extent necessary to adjust for inflation. The MDX must approve toll increases by a two-thirds vote of its board members. The bill limits the amount of toll revenues used by the MDX for administrative expenses to not greater than ten percent above the annual state average of administrative costs. The Florida Transportation Commission (FTC) is directed to determine the annual state average of administrative costs based on the annual administrative expenses, as defined, of all expressway authorities of this state. Subject to any bond covenants, the bill authorizes the MDX to reduce by up to ten percent the toll charged for SunPass users of its facilities at the time the toll is incurred.

The bill requires the MDX to dedicate at least 10 percent, but not greater than 30 percent, of certain surplus revenues to transportation- and transit-related expenses for projects in municipalities and counties in which the MDX operates, with the MDX determining which expenses to fund from submitted proposals. These expenses must have a rational nexus to the transportation facilities of the MDX. The MDX is required to have periodic audits conducted by an independent third party, which audit reports must be made publicly available on the MDX's website, and to post other specified financial and operating information on its website.

Additionally, the bill authorizes the FDOT to require use of an electronic transponder interoperable with the FDOT's electronic toll collection system for the use of high-occupancy toll (HOT) lanes or express lanes. Effective July 1, 2018, the bill requires the FDOT to charge a customer the minimum express lane toll if the customer's average travel speed falls below 40 miles per hour.

The FTE is authorized to require use of an electronic transponder interoperable with the FDOT's electronic toll collection system for the use of express lanes on the turnpike system. Implementation of variable pricing in express lanes on the turnpike system is restricted based on certain level-of-service or highway capacity criteria. Effective July 1, 2018, the bill requires that a customer be charged a general toll lane toll amount plus 25 cents if the customer's average travel speed falls below 40 miles per hour.

The bill also extends the time frame during which the FDOT is required to program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade, Broward, and Palm Beach Counties are at least 90 percent of the share of net toll collections attributable to users of the turnpike system in those counties, as compared to total net toll collections attributable to users of the turnpike system.

The bill may reduce FDOT revenues related to the reduced toll for certain travelers of HOT lanes. The fiscal impact of the bill to the MDX is indeterminate. See Section V., "Fiscal Impact Statement," for further details.

The bill takes effect July 1, 2017, except as otherwise provided.

II. Present Situation:

Due to the disparate issues in the bill, the present situation for each section is discussed below in conjunction with the effect of proposed changes.

III. Effect of Proposed Changes:

Miami-Dade County (Sections 4 and 5)

Present Situation:

Section 125.011(1), F.S. defines a county as: "[A]any county operating under a home rule charter adopted pursuant to Art. VIII, ss. 10, 11, and 24 of the State Constitution of 1885, as preserved by Art. VIII, s. 6(e) of the State Constitution of 1968, which county, by resolution of its board of county commissioners, elects to exercise the powers herein conferred."

The local governments authorized to operate under a home rule charter by the State Constitutions of 1885 and 1968 are the City of Key West and Monroe County,[1] Dade County,[2] and

[1] FLA. CONST. art. VIII, s. 6, n. 2.
[2] FLA. CONST. art. VIII, s. 6, n. 3.

Hillsborough County.[3] Of these, only Miami-Dade County operates under a home-rule charter, which was adopted on May 21, 1957, under this constitutional provision.[4]

Miami-Dade County Expressway Authority

The Florida Expressway Authority Act (Act)[5] authorizes any county or two or more contiguous counties within a single Florida Department of Transportation (FDOT) district, by resolution adopted by the board of county commissioners, to form an expressway authority, which is an agency of the state.[6] The Miami-Dade County Commission adopted ordinance 94-215 in 1994 creating the Miami-Dade County Expressway Authority (MDX).[7] The MDX is the only expressway authority created under the Act.

The MDX's system[8] consists of the following roadways in Miami-Dade County:
- Airport Expressway (SR 112):
- Dolphin Expressway (SR 836);
- Don Shula Expressway (SR 874);
- Snapper Creek Expressway (SR 878); and
- Gratigny Parkway (SR 924).

MDX Governing Board

Section 348.0003(2)(d), F.S., F.S., provides that in any county as defined in s. 125.011(1), the authority's governing body consists of up to nine members, and the following provisions specifically apply. Except for the district secretary of the FDOT, authority members must be residents of the county. Five voting members are appointed by the governing body of the county. At the discretion of the governing body of the county, up to two of these members may be elected officials residing in the county. Three voting members are appointed by the Governor. One member is the FDOT district secretary in the district that contains such county, who is an ex officio voting member of the authority.

Purposes and Powers

Section 348.0004, F.S., provides the purposes and powers of expressway authority's created in part I of Ch. 348, F.S. Section 348.0004(2)(e), F.S., gives expressway authorities created under the Act the power to fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the services and facilities system, which tolls, rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to the Florida Expressway Authority Act.[9] However, such right and power may

[8] See MDX System Map available at http://mdxway.com/about/expressway-map(last visited March 19, 2017).
[9] Section 348.0010, F.S., provides a covenant of the state relating to the Florida Expressway Authority Act. In that statute the state pledges that it will not limit or alter the rights vested in an authority and FDOT until all bonds, together with their interest, are fully paid and discharged.

be assigned or delegated by the authority to the FDOT. As provided in s. 348.004(7), F.S., and after a public hearing and county approval, the MDX may use surplus toll revenues to fund:

- County public transportation facilities;
- Intermodal facilities;
- Multimodal corridors, including bicycle facilities or greenways that improve transportation services in the county; or
- Any programs or projects that improve the expressway system's level of service.

These expenditures must be consistent with the metropolitan planning organization's adopted long-range plan.

MDX Frequent Drivers Rewards Program

The MDX currently offers frequent users a rewards program, the operation of which the MDX describes as follows:

> Each fiscal year (July 1st to June 30th) after the close of its financial books, MDX will declare a toll distribution of dividends to members of the Frequent Driver Rewards Program. This is after the agency meets its financial obligations, including making its annual principal and interest payments, meeting its senior debt coverage ratio, and covering its operation and maintenance costs. MDX will give back those savings generated by operational efficiencies of the agency directly to its customers through the Frequent Driver Rewards Program.[10]

To participate in the program, MDX customers must register each year, be a SunPass customer in good standing, have a two-axle vehicle, and spend at least $100 annually between July 1st to June 30 in tolls per transponder on any of the MDX's five expressways. Any tolls paid using Toll-By-Plate[11] or Image Toll transactions (IToll) are considered ineligible for the annual calculation. Eligibility of SunPass tolls paid during the fiscal year is determined solely by the MDX. The most recent registration period for tolls paid between July 1, 2016, to June 30, 2017, ended on March 31, 2017. Reward checks to eligible recipients are expected in December of 2017. [12]

Procedure for Toll Rate Adjustments for Inflation

Section 338.165(3), F.S., requires the FDOT and the Florida Turnpike Enterprise (FTE) to index toll rates on their existing toll facilities to the annual Consumer Price Index or similar inflation indicators. Toll adjustments for inflation may be made no more than once a year, and no less than once every five years, as necessary to accommodate cash toll rate schedules. Toll rates may

[11] Toll-By-Plate is an FDOT image-based electronic toll collection system that uses photographic images of the vehicles license plate to identify the customer responsible for payment. This feature is available on the Homestead Extension of Florida's Turnpike from Florida City to Miramar in Miami-Dade County. *See* the FDOT website available at: https://www.tollbyplate.com/index. (Last visited March 20, 2017.)
[12] *Supra* note 22.

be increased beyond these limits as directed by bond documents, covenants, or governing body authorization or pursuant to an FDOT rule.

Effect of Proposed Changes:

Section 4 amends s. 348.0004(2)(e), F.S., to provide that the MDX, notwithstanding any law to the contrary, and subject to any contractual requirements contained in documents securing indebtedness outstanding on July 1, 2017:

- May not increase a toll unless the increase is justified to the MDX's satisfaction by a traffic and revenue study conducted by an independent third party.
- May only otherwise increase tolls to the extent necessary to adjust for inflation under the toll rate adjustment procedure in s. 338.165, F.S.; and
- Must approve a toll increase by a two-thirds vote of the MDX governing board.

The amount of toll revenues used by the MDX for administrative expenses may not be more than 10 percent above the annual state average of administrative costs, determined as follows: The FTC is directed to determine the annual state average of administrative costs based on the annual administrative expenses of all the expressway authorities of this state. Administrative expenses include, but are not limited to:

- Employee salaries and benefits;
- Small business outreach;
- Insurance;
- Professional service contracts not directly related to the operation and maintenance of the expressway system; and
- Other overhead costs.

The FTC is authorized to adopt rules necessary to implement these provisions.

The bill limits the MDX's authority to increase tolls and, therefore, decreases its ability to raise revenues. According to the MDX, this revision impacts the MDX's ability to issue future bonds and eliminates the MDX's ability to set tolls as may be operationally needed.[13] The bill also limits the MDX's use of its toll revenues for administrative expenses to not more than ten percent above the annual state average of administrative costs, as determined by the FTC. No other expressway authority is subject to similar statutory restrictions on administrative expenses.

The bill creates a new subsection (6) of s. 348.0004, F.S. Subject to compliance with bond covenants, the MDX is authorized, at the time that any toll is incurred, to reduce the toll charged on any of the MDX's toll facilities by up to ten percent for each SunPass registrant having an account in good standing and having the license plate of the vehicle or vehicles incurring the toll registered to the SunPass account at the time the toll is incurred. The bill prohibits the MDX from imposing additional requirements for receipt of the reduced toll amount.

This revision would reduce the amount of the MDX's toll revenues, if it chooses to reduce tolls for the specified users in an amount that exceeds distributions under its current Frequent Drivers

[13] The MDX email to committee staff April 18, 2017. (On file in the Senate Transportation Committee.)

Rewards Program. The amount of the reduction is dependent on the percentage of the toll reduction granted and on the number of eligible trips on the MDX's facilities.

The bill creates a new subsection (11) of s. 348.0004, F.S. The MDX is directed to determine its surplus revenues as defined in s. 348.0002(2), F.S.,[14] and deduct from the surplus revenues a prudent reserve as determined by the MDX board. The MDX must then dedicate at least ten percent, but not greater than 30 percent, of the remaining surplus revenues after the deduction of a prudent reserve to transportation- and transit-related expenses for projects in municipalities and counties in which the MDX operates. The MDX is authorized to determine which specific transportation- or transit-related expenses to fund from proposals submitted by municipalities and counties.

Funded transportation- and transit-related expenses must have a rational nexus to the MDX's transportation facilities and may include, but are not limited to:

- Expenses associated with the planning, design, acquisition, construction, extension, rehabilitation, equipping, preservation, maintenance, or improvement of public transportation facilities, transit facilities, intermodal facilities, or multimodal corridors owned or operated by such municipality or county; and
- Transit-related expenses that impact the capacity or use of the MDX's transportation facilities.

A rational nexus must demonstrate that the proposed transportation expenditure makes a substantial impact on the capacity or use of the MDX's transportation facilities, or that the proposed transit expenditure complements the operation of, or expands the access to, the MDX's transportation facilities.

This revision will reduce the amount of surplus revenues available to the MDX for use on the MDX's facilities, to the extent that a portion of the surplus revenues is used to fund transportation- or transit-related expenses in proposals submitted by municipalities and counties.

The bill creates a new subsection (12) of s. 348.0004, F.S. The new provision requires the MDX to have an audit[15] conducted by an independent third party not less than biennially, and the audit report must be posted on the MDX's website.

Section 5 creates s. 348.00115, F.S., to require the MDX to post the following information on its website:

- Audited financial statements and any interim financial reports;

[14] That section defines "surplus revenues" to mean revenues in any county as defined in s. 125.011(1) derived from rates, fees, rentals, tolls, and other charges for the services and facilities of an expressway system as may exist at the end of a fiscal year after payment of all annually required operating and maintenance expenses for the fiscal year and all debt service payable in the fiscal year on bonds issued or other debts incurred for any purpose in connection with an expressway system, including debt incurred to finance the construction, extension, repair, or maintenance of an expressway system.

[15] The MDX advises it is currently subject to an annual external audit conducted by a certified public accounting firm that is posted on the MDX website and filed with the auditor general, the Securities Exchange Commission, the bondholders trustee, and the Florida Transportation Commission. The MDX email to committee staff April 18, 2017. (On file in the Senate Transportation Committee.) As the MDX is a special district, it appears it is subject to the annual financial audit report requirements of s. 218.39, F.S.

- Board and committee meeting agendas, meeting packets, and minutes;
- Bond covenants for any outstanding bonds issues;
- Authority budgets;
- Authority contracts;[16]
- Authority expenditure data, which must include the name of the payee, the date of the expenditure, and the amount of the expenditure; be searchable by name of the payee, name of the paying agency, and fiscal year; and be in a downloadable format allowing offline access; and
- Information relating to current, recently completed, and future projects on authority facilities.

The MDX advises the majority of these requirements are already in place.[17]

High-Occupancy Toll Lanes and Express Lanes (Sections 1 and 2)

Present Situation:

A high-occupancy-vehicle (HOV) lane is a lane of a public roadway designated for use by vehicles in which there is more than one occupant.[18] A high-occupancy toll lane is an HOV lane, the use of which requires payment of a toll. Tolled HOV lanes are referred to as high-occupancy toll lanes, or HOT lanes.[19]

Current law does not define the terms "HOT lane" or "express lane." However, the FDOT's Topic No. 525-030-020-a, *Tolling for New and Existing Facilities on the State Highway System,*[20] provides the following definitions:

- "Managed Lanes" - Highway facilities or sets of lanes within a highway facility where operational strategies are proactively implemented and managed in response to changing conditions with a combination of tools. These tools may include accessibility, vehicle eligibility, pricing, or a combination thereof. Types of managed lanes include high occupancy vehicle (HOV) lanes, high occupancy toll (HOT) lanes, truck only lanes, truck only toll lanes, bus rapid transit lanes, reversible lanes, and express lanes.
- "Express Lanes" - A type of managed lane where dynamic pricing through electronic tolling is applied to lanes with through traffic, having fewer access points. Express lanes can co-locate within an existing non tolled facility to manage congestion and provide a more reliable trip time.

Section 338.166, F.S., authorizes the FDOT to request the Division of Bond Finance to issue bonds secured by toll revenues collected on HOT lanes or express lanes established on FDOT-owned facilities. The FDOT is authorized to continue to collect the tolls on HOT lanes or express lanes after any bond debt is discharged. Such tolls must first be used to pay the annual cost of

[16] The bill defines "contract" as a written agreement or purchase order issued for the purchase of goods or services or a written agreement for the receipt of state or federal financial assistance.
[17] The MDX email to committee staff April 18, 2017. (On file in the Senate Transportation Committee.)
[18] Section 316.0741(1)(a), F.S.
[19] Except that vehicles in HOT lanes must have three or more occupants. *See* the FDOT's SB 250 (2012) Agency Bill Analysis at 2. (On file in the Senate Transportation Committee.)
[20] On file in the Senate Transportation Committee. The directive expressly does not apply to Florida Turnpike facilities.

operation, maintenance, and improvement of the HOT lanes or express lanes project or associated transportation system. Section 338.166(4), F.S., authorizes variable rate tolling.

The FDOT must use any remaining toll revenue from HOT lanes or express lanes for the construction, maintenance, or improvement of any road on the State Highway System within the county or counties in which the toll revenues were collected or to support express bus service on the facility where the toll revenues were collected.

Section 338.166, F.S.,[21] expressly does not apply to the Turnpike System.[22] However, s. 338.2216(1)(d), F.S., directs the FTE to pursue and implement new technologies and processes in its operations and collection of tolls and other amounts associated with road infrastructure usage. Such technologies and processes must include variable pricing. [23]

Express Lane Management

A number of express lane projects in Florida are either in operation, under construction, or proposed.[24] These projects have or are planned to have express lanes with adjacent general use lanes (with no tolls) and, on the turnpike system, express lanes adjacent to general toll lanes (lanes that generally have fixed tolls). The FDOT describes its management of express lanes as follows:

> The express lanes are managed using a combination of eligibility, access, and pricing. Only two axle vehicles are eligible with buses eligible regardless of number of axles. This reduces the number of vehicles that can choose to use the express lanes. The access (entry and exit points on the express lanes) is limited to certain locations, providing a choice for users making longer distance trips to the major origin and destination patterns in the area. Trips that are shorter and more local must use the general use lanes. As the volume in the express lanes increases, the price to use the express lanes increases. The toll amount posted on the sign is dynamically priced based on the congestion in the express lanes with a goal of providing a free flow condition [in the express lanes].
>
> The traffic density, which is a combination of speed and volume, is used to determine the toll amount needed to optimize traffic flow in the express lanes. Volume and speed data is collected from roadside detectors and used to calculate the traffic density by dividing the volume in the express lanes by the speed in the express lanes. The toll amount is not related to the amount of congestion, speed, or performance of the general use lanes.

[21] Section 338.166(6), F.S.
[22] Section 338.2216(1)(a), F.S., grants to the FTE, in addition to the powers granted to the FDOT, full authority to exercise all powers granted to the FTE under chapter 338, F.S. Section 338.2216(4), F.S., provides the powers conferred upon the FTE under the Florida Turnpike Enterprise Law (ss. 338.22 – 338.241) are in addition and supplemental to the existing powers of the FDOT and the FTE.
[23] The FTE is not currently operating any express lanes. *See* the FDOT's SB 1570 (2012) Agency Bill Analysis, at 8. (On file in the Senate Transportation Committee.)
[24] *See* the project map with links to express lane project information available on the FDOT's website at: http://www.floridaexpresslanes.com/projects/project-map/. (Last visited March 19, 2017.)

> Where there is no congestion in the express lanes, regardless of the performance or amount of congestion in the general use lanes, the minimum toll amount in the express lanes is $0.50.[25]

The FDOT's general goal is that a driver in an express lane should be able to maintain an average speed of 45 miles per hour or greater while in the lane.[26]

Toll Collection Interoperability

Interoperable toll collection allows drivers to establish a single toll account that allows for payments on a variety of tolled facilities, regardless of the facility's ownership. An interoperable system recognizes a customer at any given toll collection facility participating in the system, and each toll facility owner or operator receives proper payment for use of the owner's or operator's facility.

The 2012 Moving Ahead for Progress in the 21st Century Act, MAP-21,[27] requires all toll facilities on Federal-aid highways to implement technologies or business practices that provide for the interoperability of electronic toll collection programs no later than four years after its enactment. Current Florida law requires all new limited access facilities and existing transportation facilities on which new or replacement electronic toll collection systems are installed to be interoperable with the FDOT's electronic toll-collection system.[28]

Level of Service

The Transportation Research Board (Board) is a division of the National Research Council, "which serves as an independent adviser to the federal government and others on scientific and technical questions of national importance, and which is jointly administered by the National Academy of Sciences, the National Academy of Engineering, and the Institute of Medicine." The Board's mission "is to provide leadership in transportation innovation and progress through research and information exchange, conducted within a setting that is objective, interdisciplinary, and multimodal." [29]

The Board's 2010 Highway Capacity Manual (Manual), along with multiple other items, addresses level of service criteria for basic highway segments. Generally, level of service is a measure of traffic conditions "using a quantitative stratification of a performance measure or measures."[30] According to the Manual, , "A basic freeway segment can be characterized by three performance measures: density in passenger cars per mile per lane, space mean speed in miles per hour, and the ratio of demand flow rate to capacity." The Manual indicates that each measure "is an indication of how well traffic is being accommodated by the basic freeway segment."[31]

---

[28] Section 338.01(7), F.S.
[29] *See* the National Academy website available at: http://www.trb.org/GetInvolvedwithTRB/GetInvolvedwithTRB.aspx. (Last visited April 19, 2017.)
[30] *See* the Federal Highway Administration's website, at 3.3.3, available at: https://safety.fhwa.dot.gov/road_diets/info_guide/ch3.cfm. (Last visited April 19, 2017.)
[31] *Highway Capacity Manual 2010,* at 11-7. (Copy on file in the Senate Transportation Committee.)

A letter grade is assigned to a given highway segment level of service, ranging from best performance at Level A to worst performance at Level F. The Manual describes the levels as follows:

- Level A: Free-flow operations. Free-flow speed (FFS) prevails on the freeway, and vehicles are almost completely unimpeded in their ability to maneuver within the traffic stream.
- Level B: Reasonably free-flow operations. FFS is maintained. The ability to maneuver is only slightly restricted.
- Level C: FFSs near the FFS of the freeway. Freedom to Maneuver is noticeably restricted.
- Level D: Speeds begin to decline with increasing flows, with density increasing more quickly. Freedom to maneuver is seriously limited.
- Level E: Operation at capacity. Operations on the freeway are highly volatile because there are virtually no usable gaps within the traffic stream, leaving little room to maneuver within the traffic.
- Level F: Breakdown, or unstable flow.[32]

Effect of Proposed Changes:

Section 1 amends s. 338.166(4), F.S., to authorize the FDOT to require use of an electronic transponder that is interoperable with the FDOT's electronic toll collection system for the use of HOT lanes or express lanes. Should the FDOT impose the requirement, all users of the FDOT's HOT lanes or express lanes must have the specified transponder to use the FDOT's HOT lanes or express lanes.[33]

The bill also creates a new subsection (5) of s. 338.166, F.S. Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the minimum express lane toll. The bill defines a customer's express lane average travel speed as the customer's average travel speed from the customer's entry point to the customer's exit point. This revision will reduce the FDOT's toll collection revenues, dependent on the number of trips and the number of times a customer's average travel speed falls below 40 miles per hour.

Section 2 amends s. 338.2216(1)(d), F.S., to authorize the FTE to require use of an electronic transponder that is interoperable with the FDOT's electronic toll collection system for the use of express lanes on the turnpike system. Should the FTE impose the requirement, all users of express lanes on the turnpike system must have the specified transponder to use the express lanes.[34]

The bill prohibits variable pricing in express lanes when the level of service in the express lane, determined in accordance with the Transportation Research Board Highway Capacity Manual

[32] *Id.*
[33] SunPass registrants may already use HOT lanes and express lanes. The FDOT announced in 2014 that Florida's SunPass, Georgia's Peach Pass, and North Carolina's Quick Pass are interoperable and valid in all three states. *See* the FDOT's November 2014 News Release available at: https://www.sunpass.com/pdf/FLGANCValid.pdf. (Last visited April 19. 2017.) Should the requirement be imposed, holders of the associated transponders would appear to be able to use HOT lanes or express lanes. If a user wishing to use HOT lanes or express lanes holds no pass from an interoperable state, it appears that user would have to register and create a SunPass account in order to receive a transponder.
[34] *Id.*

(5th Edition, HCM 2010), as amended, is equal to level of service A. When the level of service in the express lane is level of service B, variable pricing in the express lane may only be implemented by charging the general toll lane toll amount plus 25 cents. Pricing in express lanes when the level of service is other than level of service A or service B may vary in the manner established by the FTE to manage congestion in the express lanes, with an exception: Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the general toll lane toll amount plus 25 cents. A customer's express lane average travel speed is also defined as the customer's average travel speed from the customer's entry point to the customer's exit point.

This revision will reduce the FTE's, and therefore the FDOT's, toll collection revenues, dependent on the number of trips, the frequency of the existence of Level of Service A or B in the express lanes on the turnpike system, and the number of times a customer's average travel speed falls below 40 miles per hour.

Turnpike Toll Revenues/Miami-Dade, Broward, and Palm Beach Counties (Section 3)

Present Situation:

Section 338.231, F.S., directs the FDOT at all times to fix, adjust, charge, and collect such tolls and amounts for the use of the turnpike system as are required in order to provide a fund sufficient with other revenues of the turnpike system to pay the cost of maintaining, improving, repairing, and operating such turnpike system; to pay the principal of and interest on all bonds issued to finance or refinance any portion of the turnpike system; and to create reserves for these purposes.

In 1997, the Legislature enacted legislation[35] currently located in s. 338.231(3)(a), F.S. For the period July 1, 1998, through June 30, 2017, the FDOT is required, to the maximum extent feasible, to program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade County, Broward County, and Palm Beach County, compared to total turnpike toll and bond financed commitments, is at least 90 percent of the share of net toll collections attributable to users of the turnpike system in those counties, as compared to total net toll collections attributable to users of the turnpike system.[36]

Effect of Proposed Changes:

Section 3 amends s. 338.231(3)(a), F.S., currently set to expire on June 30 of this year, by extending the expiration date to June 30, 2027. The FDOT advises this revision requires no change in its current programming practice

Section 6 provides the bill take effect on July 1, 2017.

[35] Chapter 97-280, L.O.F.

[36] This provision expressly does not apply when its application would violate any bond covenant relating to the issuance of turnpike bonds.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Users of the MDX's facilities may see a reduction in the frequency and amount of toll increases. Eligible SunPass users of the MDX's toll facilities would benefit from a reduction in toll charges up to 10 percent, should the MDX chose to grant the reduction. The amount of this reduction is dependent on the number of eligible trips on MDX toll facilities, and is therefore unknown.

Users of facilities in Miami-Dade County may benefit from municipal or county transportation- or transit-related expenses funded by a portion of the MDX's surplus revenues. The MDX system may benefit from the same funded expenses. The amount, however, is indeterminate, as the funds available for such expenses are indeterminate.

Users of the FDOT's HOT lanes or express lanes, and users of the FTE's express lanes, may experience reduced tolls. The amount of this reduction with respect to the FDOT's HOT lanes or express lanes is dependent on the number of trips and the number of times a customer's average travel speed falls below 40 miles per hour, and is therefore unknown. The amount of this reduction with respect to express lanes on the turnpike system is dependent on the number of trips, the frequency of the existence of Level of Service A or B in the express lanes, and the number of times a customer's average travel speed falls below 40 miles per hour; and is therefore unknown.

C. Government Sector Impact:

The MDX is an independent agency of the state. The bill will potentially make it more difficult for the MDX to increase its tolls, making it more difficult to increase its revenues. According to the MDX, the bill limits its ability to set toll rates, which may

make its bonds less favorable in the financial markets.[37] If the MDX chooses to grant up to a 10 percent reduction in toll charges for eligible SunPass users of the MDX's toll facilities, the MDX may experience reduced toll collections in an indeterminate amount.

The bill also limits the MDX's administrative expenses to ten percent above the annual state average of administrative costs, as determined by the FTC. The impact of this revision to the MDX is unknown. .The FTC will incur administrative expenses associated with determining the annual state average of administrative costs and with any rulemaking.

The bill will reduce the amount of surplus revenues available to the MDX for use on the MDX's facilities, to the extent that a portion of the surplus revenues is used to fund transportation- or transit-related expenses in proposals submitted by municipalities and counties. The amount, however, is indeterminate, as it is dependent on the percentage of the surplus revenues dedicated to the specified expenses.

The MDX may incur expenses associated with the required traffic and revenue studies and placing the required documents on its website.

The bill may reduce FDOT revenues. FDOT will be required to charge the minimum express lane toll for HOT lanes if the customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the minimum express lane toll.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 338.166, 338.2216, 338.231, and 348.0004.

This bill creates section 348.00115 of the Florida Statutes.

[37] *See* the MDX email to House Transportation & Infrastructure Committee Staff, March 10, 2017. (On file in the Senate Transportation Committee.)

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 18, 2017:
The CS adds the following provisions to the bill:

- The FDOT is authorized to require use of an electronic transponder interoperable with the FDOT's electronic toll collection system for the use of its HOT lanes or express lanes.
- Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the minimum express lane toll.
- The FTE is authorized to require use of an electronic transponder interoperable with the FDOT's electronic toll collection system for the use of express lanes on the turnpike system.
- Variable pricing may not be implemented in express lanes on the turnpike system when the level of service in the express lane is equal to level of service A, and may only be implemented when the level of service in the express lane is level of service B by charging the general toll lane toll amount plus 25 cents.
- Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane on the turnpike system falls below 40 miles per hour, the customer must be charged the general toll lane toll amount plus 25 cents.
- The amount of toll revenues used for administrative expenses by the MDX may not be greater than ten percent above the annual state average of administrative costs based on the annual administrative expenses of all the expressway authorities of the state, as determined by the FTC. The FTC is authorized to adopt necessary rules to implement this provision.
- The MDX is authorized to reduce the toll charged at the time that any toll is incurred by up to ten percent for certain SunPass registrants and prohibited from imposing requirements not specified in the bill for receipt of the reduced toll amount.
- The MDX is required to determine its surplus revenues, calculated as specified, and dedicate at least ten percent, but not more than 30 percent, of the remaining surplus revenues to transportation- and transit-related expenses for projects in municipalities and counties in which the MDX operates under specified conditions.
- The MDX is required to have an audit conducted by an independent third party not less than biennially.

CS by Transportation on March 22, 2017:
The CS makes the following changes to the bill:

- Clarifies that the distance of five miles is required between main through-lane tolling points, excluding entry and exit ramps;
- Requires the MDX to reduce the toll charged on any of its toll facilities by 25 percent for SunPass registrants in good standing; and
- Prohibits the MDX from imposing additional requirements for receipt of the reduced toll amount.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/26/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Brandes and Garcia) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Present subsections (5) and (6) of section 338.166, Florida Statutes, are redesignated as subsections (6) and (7), respectively, subsection (4) is amended, and a new subsection (5) is added to that section, to read:

338.166 High-occupancy toll lanes or express lanes.—

(4) The department may implement variable rate tolls on

high-occupancy toll lanes or express lanes. The department may require the use of an electronic transponder interoperable with the department's electronic toll collection system for the use of high-occupancy toll lanes or express lanes.

(5) Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the minimum express lane toll. A customer's express lane average travel speed is his or her average travel speed from the customer's entry point to the customer's exit point.

Section 2. Paragraph (d) of subsection (1) of section 338.2216, Florida Statutes, is amended, and paragraph (e) is added to that subsection, to read:

338.2216 Florida Turnpike Enterprise; powers and authority.—

(1)

(d) The Florida Turnpike Enterprise shall pursue and implement new technologies and processes in its operations and collection of tolls and the collection of other amounts associated with road and infrastructure usage. Such technologies and processes must include, without limitation, video billing and variable pricing. The Florida Turnpike Enterprise may require the use of an electronic transponder interoperable with the department's electronic toll collection system for the use of express lanes on the turnpike system. Variable pricing may not be implemented in express lanes when the level of service in the express lane, determined in accordance with the criteria established by the Transportation Research Board Highway Capacity Manual (5th Edition, HCM 2010), as amended from time to

time, is equal to level of service A. Variable pricing in express lanes when the level of service in the express lane is level of service B may only be implemented by charging the general toll lane toll amount plus an amount set by department rule. Except as otherwise provided in this subsection, pricing in express lanes when the level of service is other than level of service A or level of service B may vary in the manner established by the Florida Turnpike Enterprise to manage congestion in the express lanes.

(e) Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the general toll lane toll amount plus an amount set by department rule. A customer's express lane average travel speed is his or her average travel speed from the customer's entry point to the customer's exit point.

Section 3. Paragraph (a) of subsection (3) of section 338.231, Florida Statutes, is amended to read:

338.231 Turnpike tolls, fixing; pledge of tolls and other revenues.—The department shall at all times fix, adjust, charge, and collect such tolls and amounts for the use of the turnpike system as are required in order to provide a fund sufficient with other revenues of the turnpike system to pay the cost of maintaining, improving, repairing, and operating such turnpike system; to pay the principal of and interest on all bonds issued to finance or refinance any portion of the turnpike system as the same become due and payable; and to create reserves for all such purposes.

(3)(a) For the period July 1, 1998, through June 30, 2027

~~2017~~, the department shall, to the maximum extent feasible, program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade County, Broward County, and Palm Beach County as compared to total turnpike toll and bond financed commitments shall be at least 90 percent of the share of net toll collections attributable to users of the turnpike system in Miami-Dade County, Broward County, and Palm Beach County as compared to total net toll collections attributable to users of the turnpike system. This subsection does not apply when the application of such requirements would violate any covenant established in a resolution or trust indenture relating to the issuance of turnpike bonds. The department may at any time for economic considerations establish lower temporary toll rates for a new or existing toll facility for a period not to exceed 1 year, after which the toll rates adopted pursuant to s. 120.54 shall become effective.

Section 4. Present subsections (6) through (9) of section 348.0004, Florida Statutes, are redesignated as subsections (7) through (10), respectively, paragraph (e) of subsection (2) of that section is amended, and a new subsection (6) and subsections (11), (12), and (13) are added to that section, to read:

348.0004 Purposes and powers.—

(2) Each authority may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of its purposes, including, but not limited to, the following rights and powers:

(e) To fix, alter, charge, establish, and collect tolls,

rates, fees, rentals, and other charges for the services and facilities system, which tolls, rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to the Florida Expressway Authority Act. However, such right and power may be assigned or delegated by the authority to the department.

1. Notwithstanding any other provision of law to the contrary, but subject to any contractual requirements contained in documents securing any indebtedness outstanding on July 1, 2017, in any county as defined in s. 125.011(1):

a. The authority may not increase a toll unless the increase is justified to the satisfaction of the authority by a traffic and revenue study conducted by an independent third party, except for an increase to the extent necessary to adjust for inflation pursuant to the procedure for toll rate adjustments provided in s. 338.165.

b. A toll increase must be approved by a two-thirds vote of the expressway authority board.

c. The amount of toll revenues used for administrative expenses by the authority may not be greater than 10 percent above the annual state average of administrative costs determined as provided in this sub-subparagraph. The Florida Transportation Commission shall determine the annual state average of administrative costs based on the annual administrative expenses of all the expressway authorities of this state. For purposes of this sub-subparagraph, administrative expenses include, but are not limited to, employee salaries and benefits, small business outreach, insurance, professional service contracts not directly related

to the operation and maintenance of the expressway system, and other overhead costs. The commission may adopt rules necessary for the implementation of this sub-subparagraph.

d. On transportation facilities constructed after July 1, 2017, there must be a distance of at least 5 miles between main through lane tolling points. The distance requirement of this sub-subparagraph does not apply to entry and exit ramps.

2. Notwithstanding s. 338.165 or any other provision of law to the contrary, in any county as defined in s. 125.011(1), to the extent surplus revenues exist, they may be used for purposes enumerated in subsection (8) ~~(7)~~, provided the expenditures are consistent with the metropolitan planning organization's adopted long-range plan.

3. Notwithstanding any other provision of law to the contrary, but subject to any contractual requirements contained in documents securing any outstanding indebtedness payable from tolls, in any county as defined in s. 125.011(1), the board of county commissioners may, by ordinance adopted on or before September 30, 1999, alter or abolish existing tolls and currently approved increases thereto if the board provides a local source of funding to the county expressway system for transportation in an amount sufficient to replace revenues necessary to meet bond obligations secured by such tolls and increases.

(6) Subject to compliance with any covenants made with the holders of any bonds issued pursuant to the Florida Expressway Authority Act, an authority in any county as defined in s. 125.011(1) shall, at the time that any toll is incurred, reduce the toll charged on any of the authority's toll facilities by at

least 5 percent, but not more than 10 percent, for each SunPass registrant having an account in good standing and having the license plate of the vehicle or vehicles incurring the toll registered to the SunPass account at the time the toll is incurred. The authority may not impose additional requirements for receipt of the reduced toll amount.

(11) Notwithstanding any other provision of the Florida Expressway Authority Act, an authority in any county as defined in s. 125.011(1) shall determine its surplus revenues as defined in s. 348.0002(12). The authority shall then dedicate at least 20 percent, but not more than 50 percent, of the annual surplus revenues to transportation- and transit-related expenses for projects in the area served by the authority. The metropolitan planning organization for any county as defined in s. 125.011(1) shall annually select a project or projects within the county to be funded by the authority's dedicated surplus revenues as provided in this subsection and provide to the authority a list reflecting the selected project or projects. The authority shall select from the list for funding from the authority's dedicated surplus revenues transportation- and transit-related expenses that have a rational nexus to the transportation facilities of the authority and may include, but are not limited to, expenses associated with the planning, design, acquisition, construction, extension, rehabilitation, equipping, preservation, maintenance, or improvement of public transportation facilities, transit facilities, intermodal facilities, or multimodal corridors owned or operated by such municipality or county; and transit-related expenses that impact the capacity or use of the transportation facilities of the authority. For the purpose of this subsection,

a rational nexus must demonstrate that the proposed transportation expenditure makes a substantial impact on the capacity or use of the transportation facilities of the authority, or that the proposed transit expenditure complements the operation of, or expands the access to, the transportation facilities of the authority.

(12) A county as defined in s. 125.011(1) must have a financial audit of the revenues and expenditures of the county's transportation plan conducted by an independent third party not less than biennially and must post the audits on the county's website to be eligible to receive the dedicated surplus revenues as provided in subsection (11).

(13) An authority established in any county as defined in 125.011(1) must have a financial audit conducted by an independent third party not less than biennially, and the audit report must be made publicly available on the authority's website.

Section 5. This act shall take effect July 1, 2017.

================ T I T L E A M E N D M E N T ================

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to limited access and toll facilities; amending s. 338.166, F.S.; authorizing the Department of Transportation to require the use of an electronic transponder interoperable with the department's electronic toll collection system for the use of high-

occupancy toll lanes or express lanes; requiring, as of a specified date, that a customer be charged the minimum express lane toll if his or her average travel speed for a trip in an express lane falls below a specified rate; providing measurement of a customer's express lane average travel speed; amending s. 338.2216, F.S.; authorizing the Florida Turnpike Enterprise to require the use of an electronic transponder interoperable with the department's electronic toll collection system for the use of express lanes on the turnpike system; prohibiting variable pricing from being implemented in express lanes when the level of service in the express lane, determined in accordance with specified criteria, is equal to level of service A; specifying that variable pricing in express lanes when the level of service in the express lane is level of service B may only be implemented by charging the general toll lane toll amount plus an amount set by department rule; providing that pricing in express lanes when the level of service is other than level of service A or level of service B may vary in the manner established by the Florida Turnpike Enterprise to manage congestion in the express lanes; requiring, as of a specified date, that a customer be charged a general toll lane toll amount plus an amount set by department rule if his or her average travel speed for a trip in an express lane falls below a specified rate; providing for measurement of a customer's express lane average

travel speed; amending s. 338.231, F.S.; extending the timeframe during which the department must program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade County, Broward County, and Palm Beach County are at least a specified percent of a certain share of certain net toll collections; amending s. 348.0004, F.S.; providing applicability; requiring toll increases by authorities in certain counties to be justified by an independent study by a third party; providing an exception for an increase to adjust for inflation pursuant to a specified procedure for toll rate adjustments; requiring toll increases to be approved by a specified margin in a vote of the expressway authority board; prohibiting the amount of toll revenues used for administrative expenses by the authority from being greater than a specified percentage above the annual state average of administrative costs; requiring the Florida Transportation Commission to determine the annual state average of administrative costs based on the annual administrative expenses of all the expressway authorities of this state; authorizing the commission to adopt certain rules; requiring a specified distance between main through-lane tolling points on transportation facilities constructed after a specified date; providing applicability; conforming a cross-reference; requiring authorities in certain counties to reduce toll charges by a specified amount

at the time that any toll is incurred for certain SunPass registrants, subject to certain requirements; prohibiting such authorities from imposing additional requirements for receipt of the reduced toll amount; requiring an authority in certain counties to determine its surplus revenues and dedicate a certain amount of the annual surplus revenues to transportation- and transit-related expenses for projects in the area served by the authority; requiring the metropolitan planning organization for certain counties to annually select a project or projects within the counties to be funded by the authority's dedicated surplus revenues and provide to the authority a list reflecting the selected project or projects; requiring the authority to select from the list for funding from the authority's dedicated surplus revenues transportation- and transit-related expenses that have a rational nexus to the transportation facilities of the authority; requiring a rational nexus to demonstrate that the proposed transportation expenditure makes a substantial impact on the capacity or use of the transportation facilities of the authority or that the proposed transit expenditure complements the operation of, or expands the access to, the transportation facilities of the authority; requiring certain counties to have a financial audit of the revenues and expenditures of the county's transportation plan conducted by an independent third party not less than biennially and

to post the audits on the counties' websites to be eligible to receive the dedicated surplus revenues; requiring that an authority established in certain counties have an audit conducted by an independent third party not less than biennially; requiring the audit report be made publicly available on the authority's website; providing an effective date.

576-04058-17

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to limited access and toll facilities; amending s. 338.166, F.S.; authorizing the department to require use of an electronic transponder interoperable with the department's electronic toll collection system for the use of high-occupancy toll lanes or express lanes; requiring, as of a specified date, that a customer be charged the minimum express lane toll if his or her average travel speed for a trip in an express lane falls below a specified rate; providing for measurement of a customer's express lane average travel speed; amending s. 338.2216, F.S.; authorizing the Florida Turnpike Enterprise to require use of an electronic transponder interoperable with the department's electronic toll collection system for the use of express lanes on the turnpike system; prohibiting variable pricing from being implemented in express lanes when the level of service in the express lane, determined in accordance with specified criteria, is equal to level of service A; specifying that variable pricing in express lanes when the level of service in the express lane is level of service B may only be implemented by charging the general toll lane toll amount plus a specified amount; providing that pricing in express lanes when the level of service is other than level of service A or B may vary

576-04058-17

in the manner established by the Florida Turnpike Enterprise to manage congestion in the express lanes; requiring, as of a specified date, that a customer be charged a general toll lane toll amount plus a specified amount if his or her average travel speed for a trip in an express lane falls below a specified rate; providing for measurement of a customer's express lane average travel speed; amending s. 338.231, F.S.; extending the timeframe during which the Department of Transportation must program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade County, Broward County, and Palm Beach County are at least a specified percent of a certain share of certain net toll collections; amending s. 348.0004, F.S.; providing applicability; requiring toll increases by authorities in certain counties to be justified by an independent study by a third party; providing an exception for an increase to adjust for inflation pursuant to a specified procedure for toll rate adjustments; requiring toll increases to be approved by a specified margin in a vote of the expressway authority board; prohibiting the amount of toll revenues used for administrative expenses by the authority from being greater than a specified percentage above the annual state average of administrative costs; requiring the Florida Transportation Commission to determine the annual state average of administrative costs based on the

annual administrative expenses of all the expressway authorities of this state; authorizing the commission to adopt certain rules; conforming a cross-reference; authorizing authorities in certain counties to reduce toll charges up to a specified amount at the time that any toll is incurred for certain SunPass registrants, subject to certain requirements; prohibiting such authorities from imposing additional requirements for receipt of the reduced toll amount; requiring an authority in certain counties to determine its surplus revenues and deduct from the surplus revenues a prudent reserve as determined by the board; requiring such authority to dedicate a certain amount of the remaining surplus revenues after the deduction of a prudent reserve to transportation- and transit-related expenses for projects in municipalities and counties in which the authority operates; authorizing the authority to determine which specific transportation- and transit-related expenses to fund from proposals submitted by municipalities and counties; requiring the transportation- and transit-related expenses funded to have a rational nexus to the transportation facilities of the authority; requiring a rational nexus to demonstrate that the proposed transportation expenditure makes a substantial impact on the capacity or use of the transportation facilities of the authority or that the proposed transit expenditure complements the operation of, or expands the access to, the transportation facilities of the authority;

requiring that an authority established in certain counties have an audit conducted by an independent third party not less than biennially; requiring the audit report be made publicly available on the authority's website; creating s. 348.00115, F.S.; requiring authorities in certain counties to post certain information on a website; defining the term "contract"; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (5) and (6) of section 338.166, Florida Statutes, are redesignated as subsections (6) and (7), respectively, subsection (4) is amended, and a new subsection (5) is added to that section, to read:

338.166 High-occupancy toll lanes or express lanes.—

(4) The department may implement variable rate tolls on high-occupancy toll lanes or express lanes. The department may require use of an electronic transponder interoperable with the department's electronic toll collection system for the use of high-occupancy toll lanes or express lanes.

(5) Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the minimum express lane toll. A customer's express lane average travel speed is his or her average travel speed from the customer's entry point to the customer's exit point.

Section 2. Paragraph (d) of subsection (1) of section 338.2216, Florida Statutes, is amended, and paragraph (e) is

576-04058-17

added to that subsection, to read:

338.2216 Florida Turnpike Enterprise; powers and authority.—

(1)

(d) The Florida Turnpike Enterprise shall pursue and implement new technologies and processes in its operations and collection of tolls and the collection of other amounts associated with road and infrastructure usage. Such technologies and processes must include, without limitation, video billing and variable pricing. The Florida Turnpike Enterprise may require use of an electronic transponder interoperable with the department's electronic toll collection system for the use of express lanes on the turnpike system. Variable pricing may not be implemented in express lanes when the level of service in the express lane, determined in accordance with the criteria established by the Transportation Research Board Highway Capacity Manual (5th Edition, HCM 2010), as amended from time to time, is equal to level of service A. Variable pricing in express lanes when the level of service in the express lane is level of service B may only be implemented by charging the general toll lane toll amount plus 25 cents. Except as otherwise provided in this subsection, pricing in express lanes when the level of service is other than level of service A or service B may vary in the manner established by the Florida Turnpike Enterprise to manage congestion in the express lanes.

(e) Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the general toll lane toll amount plus 25 cents. A customer's express lane average travel

576-04058-17

speed is his or her average travel speed from the customer's entry point to the customer's exit point.

Section 3. Paragraph (a) of subsection (3) of section 338.231, Florida Statutes, is amended to read:

338.231 Turnpike tolls, fixing; pledge of tolls and other revenues.—The department shall at all times fix, adjust, charge, and collect such tolls and amounts for the use of the turnpike system as are required in order to provide a fund sufficient with other revenues of the turnpike system to pay the cost of maintaining, improving, repairing, and operating such turnpike system; to pay the principal of and interest on all bonds issued to finance or refinance any portion of the turnpike system as the same become due and payable; and to create reserves for all such purposes.

(3)(a) For the period July 1, 1998, through June 30, 2027 ~~2017~~, the department shall, to the maximum extent feasible, program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade County, Broward County, and Palm Beach County as compared to total turnpike toll and bond financed commitments shall be at least 90 percent of the share of net toll collections attributable to users of the turnpike system in Miami-Dade County, Broward County, and Palm Beach County as compared to total net toll collections attributable to users of the turnpike system. This subsection does not apply when the application of such requirements would violate any covenant established in a resolution or trust indenture relating to the issuance of turnpike bonds. The department may at any time for economic considerations establish lower temporary toll rates for

576-04058-17

a new or existing toll facility for a period not to exceed 1 year, after which the toll rates adopted pursuant to s. 120.54 shall become effective.

Section 4. Present subsections (6) through (9) of section 348.0004, Florida Statutes, are redesignated as subsections (7) through (10), respectively, paragraph (e) of subsection (2) of that section is amended, and a new subsection (6), and subsections (11) and (12) are added to that section, to read:

348.0004 Purposes and powers.—

(2) Each authority may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of its purposes, including, but not limited to, the following rights and powers:

(e) To fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the services and facilities system, which tolls, rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to the Florida Expressway Authority Act. However, such right and power may be assigned or delegated by the authority to the department.

1. Notwithstanding any other provision of law to the contrary, but subject to any contractual requirements contained in documents securing any indebtedness outstanding on July 1, 2017, in any county as defined in s. 125.011(1):

a. The authority may not increase a toll unless the increase is justified to the satisfaction of the authority by a traffic and revenue study conducted by an independent third party, except for an increase to the extent necessary to adjust for inflation pursuant to the procedure for toll rate

576-04058-17

adjustments provided in s. 338.165.

b. A toll increase must be approved by a two-thirds vote of the expressway authority board.

c. The amount of toll revenues used for administrative expenses by the authority may not be greater than 10 percent above the annual state average of administrative costs determined as provided in this sub-subparagraph. The Florida Transportation Commission shall determine the annual state average of administrative costs based on the annual administrative expenses of all the expressway authorities of this state. For purposes of this sub-subparagraph, administrative expenses include, but are not limited to, employee salaries and benefits, small business outreach, insurance, professional service contracts not directly related to the operation and maintenance of the expressway system, and other overhead costs. The commission may adopt rules necessary for the implementation of this sub-subparagraph.

2. Notwithstanding s. 338.165 or any other provision of law to the contrary, in any county as defined in s. 125.011(1), to the extent surplus revenues exist, they may be used for purposes enumerated in subsection (8) ~~(7)~~, provided the expenditures are consistent with the metropolitan planning organization's adopted long-range plan.

3. Notwithstanding any other provision of law to the contrary, but subject to any contractual requirements contained in documents securing any outstanding indebtedness payable from tolls, in any county as defined in s. 125.011(1), the board of county commissioners may, by ordinance adopted on or before September 30, 1999, alter or abolish existing tolls and

currently approved increases thereto if the board provides a local source of funding to the county expressway system for transportation in an amount sufficient to replace revenues necessary to meet bond obligations secured by such tolls and increases.

(6) Subject to compliance with any covenants made with the holders of any bonds issued pursuant to the Florida Expressway Authority Act, an authority in any county as defined in s. 125.011(1) may, at the time that any toll is incurred, reduce the toll charged on any of the authority's toll facilities by up to 10 percent for each SunPass registrant having an account in good standing and having the license plate of the vehicle or vehicles incurring the toll registered to the SunPass account at the time the toll is incurred. The authority may not impose additional requirements for receipt of the reduced toll amount.

(11) Notwithstanding any other provision of the Florida Expressway Authority Act, an authority in any county as defined in s. 125.011(1) shall determine its surplus revenues as defined in s. 348.0002(12) and deduct from the surplus revenues a prudent reserve as determined by the board. The authority shall then dedicate at least 10 percent, but not greater than 30 percent, of the remaining surplus revenues after the deduction of a prudent reserve to transportation- and transit-related expenses for projects in municipalities and counties in which the authority operates. The authority may determine which specific transportation- and transit-related expenses to fund from proposals submitted by municipalities and counties. Transportation- and transit-related expenses funded pursuant to this subsection must have a rational nexus to the transportation

facilities of the authority and may include, but are not limited to, expenses associated with the planning, design, acquisition, construction, extension, rehabilitation, equipping, preservation, maintenance, or improvement of public transportation facilities, transit facilities, intermodal facilities, or multimodal corridors owned or operated by such municipality or county, and transit-related expenses that impact the capacity or use of the transportation facilities of the authority. For the purpose of this subsection, a rational nexus must demonstrate that the proposed transportation expenditure makes a substantial impact on the capacity or use of the transportation facilities of the authority, or that the proposed transit expenditure complements the operation of, or expands the access to, the transportation facilities of the authority.

(12) An authority established in any county as defined in 125.011(1) must have an audit conducted by an independent third party not less than biennially, and the audit report must be made publicly available on the authority's website.

Section 5. Section 348.00115, Florida Statutes, is created to read:

348.00115 Public accountability.—An expressway authority in a county as defined in s. 125.011(1) shall post the following information on its website:

(1) Audited financial statements and any interim financial reports.

(2) Board and committee meeting agendas, meeting packets, and minutes.

(3) Bond covenants for any outstanding bond issues.

(4) Authority budgets.

424970

576-04058-17

(5) Authority contracts. For purposes of this subsection, the term "contract" means a written agreement or purchase order issued for the purchase of goods or services or a written agreement for the receipt of state or federal financial assistance.

(6) Authority expenditure data, which must include the name of the payee, the date of the expenditure, and the amount of the expenditure. Such data must be searchable by name of the payee, name of the paying agency, and fiscal year and must be downloadable in a format that allows offline analysis.

(7) Information relating to current, recently completed, and future projects on authority facilities.

Section 6. This act shall take effect July 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1562
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Garcia
SUBJECT:	Expressway Authorities
DATE:	April 26, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Pitts	Pitts	ATD	**Recommend: Fav/CS**
3.	Pitts	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1562 prohibits the Miami-Dade County Expressway Authority (MDX), subject to certain requirements, from increasing its tolls unless justified by an independent traffic and revenue study, except to the extent necessary to adjust for inflation. The MDX must approve toll increases by a two-thirds vote of its board members. The bill limits the amount of toll revenues used by the MDX for administrative expenses to not greater than ten percent above the annual state average of administrative costs. The Florida Transportation Commission (FTC) is directed to determine the annual state average of administrative costs based on the annual administrative expenses, as defined, of all expressway authorities of this state, and is authorized to adopt rules. The bill requires a distance of five miles between main through-lane tolling points on transportation facilities constructed after July 1, 2017. Subject to any bond covenants, the bill requires the MDX to reduce by at least five percent, but not more than ten percent, the toll charged for SunPass users of its facilities at the time the toll is incurred.

The bill requires the MDX to dedicate at least 20 percent, but not greater than 50 percent, of certain surplus revenues to transportation- and transit-related expenses for projects in the MDX's service area. The metropolitan planning organization (MPO) for Miami-Dade County is directed to annually select and list a project or projects within the county to be funded by the MDX's dedicated revenues, with the MDX selecting from the list those transportation- and transit-related expenses that have a rational nexus, as defined, to the MDX's transportation facilities. Miami-

Dade County is required to have periodic financial audits of the revenues and expenditures of the county's transportation plan conducted by an independent third party at least biennially, and to post the audits on the county's website, to be eligible to receive the MDX's dedicated surplus revenues. The MDX is required to have periodic audits conducted by an independent third party, and to post the audit reports on its website.

Additionally, the bill authorizes the FDOT to require use of an electronic transponder interoperable with the FDOT's electronic toll collection system for the use of high-occupancy toll (HOT) lanes or express lanes. Effective July 1, 2018, the bill requires the FDOT to charge a customer the minimum express lane toll if the customer's average travel speed falls below 40 miles per hour.

The FTE is authorized to require use of an electronic transponder interoperable with the FDOT's electronic toll collection system for the use of express lanes on the turnpike system. Implementation of variable pricing in express lanes on the turnpike system is restricted based on certain level-of-service or highway capacity criteria. Effective July 1, 2018, the bill requires that a customer be charged a general toll lane toll amount plus 25 cents if the customer's average travel speed falls below 40 miles per hour.

The bill also extends the time frame during which the FDOT is required to program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade, Broward, and Palm Beach Counties is at least 90 percent of the share of net toll collections attributable to users of the turnpike system in those counties, as compared to total net toll collections attributable to users of the turnpike system.

The bill may reduce FDOT revenues by an indeterminate, but insignificant amount, related to the reduced toll for certain travelers of express lanes. The fiscal impact of the bill to the MDX is indeterminate, but insignificant, related to administrative expenses. See Section V., "Fiscal Impact Statement," for further details.

The bill takes effect July 1, 2017, except as otherwise provided.

II. Present Situation:

Due to the disparate issues in the bill, the present situation for each section is discussed below in conjunction with the effect of proposed changes.

III. Effect of Proposed Changes:

Miami-Dade County (Sections 4 and 5)

Present Situation:

Section 125.011(1), F.S. defines a county as: "[A]any county operating under a home rule charter adopted pursuant to Art. VIII, ss. 10, 11, and 24 of the State Constitution of 1885, as preserved by Art. VIII, s. 6(e) of the State Constitution of 1968, which county, by resolution of its board of county commissioners, elects to exercise the powers herein conferred."

The local governments authorized to operate under a home rule charter by the State Constitutions of 1885 and 1968 are the City of Key West and Monroe County,[1] Dade County,[2] and Hillsborough County.[3] Of these, only Miami-Dade County operates under a home-rule charter, which was adopted on May 21, 1957, under this constitutional provision.[4]

Miami-Dade County Expressway Authority

The Florida Expressway Authority Act (Act)[5] authorizes any county or two or more contiguous counties within a single Florida Department of Transportation (FDOT) district, by resolution adopted by the board of county commissioners, to form an expressway authority, which is an agency of the state.[6] The Miami-Dade County Commission adopted ordinance 94-215 in 1994 creating the Miami-Dade County Expressway Authority (MDX).[7] The MDX is the only expressway authority created under the Act.

The MDX's system[8] consists of the following roadways in Miami-Dade County:
- Airport Expressway (SR 112):
- Dolphin Expressway (SR 836);
- Don Shula Expressway (SR 874);
- Snapper Creek Expressway (SR 878); and
- Gratigny Parkway (SR 924).

MDX Governing Board

Section 348.0003(2)(d), F.S., F.S., provides that in any county as defined in s. 125.011(1), the authority's governing body consists of up to nine members, and the following provisions specifically apply. Except for the district secretary of the FDOT, authority members must be residents of the county. Five voting members are appointed by the governing body of the county. At the discretion of the governing body of the county, up to two of these members may be elected officials residing in the county. Three voting members are appointed by the Governor. One member is the FDOT district secretary in the district that contains such county, who is an ex officio voting member of the authority.

Purposes and Powers

Section 348.0004, F.S., provides the purposes and powers of expressway authority's created in part I of Ch. 348, F.S. Section 348.0004(2)(e), F.S., gives expressway authorities created under the Act the power to fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the services and facilities system, which tolls, rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds

[7] A copy of the ordinance is available at http://miamidade.fl.elaws.us/code/coor/coor_ptiii_ch2_artxviii/. (Last visited March 19, 2017.)
[8] See MDX System Map available at http://mdxway.com/about/expressway-map(last visited March 19, 2017).

issued pursuant to the Florida Expressway Authority Act.[9] However, such right and power may be assigned or delegated by the authority to the FDOT. As provided in s. 348.004(7), F.S., and after a public hearing and county approval, the MDX may use surplus toll revenues to fund:

- County public transportation facilities;
- Intermodal facilities;
- Multimodal corridors, including bicycle facilities or greenways that improve transportation services in the county; or
- Any programs or projects that improve the expressway system's level of service.

These expenditures must be consistent with the metropolitan planning organization's adopted long-range plan.

MDX Frequent Drivers Rewards Program

The MDX currently offers frequent users a rewards program, the operation of which the MDX describes as follows:

> Each fiscal year (July 1st to June 30th) after the close of its financial books, MDX will declare a toll distribution of dividends to members of the Frequent Driver Rewards Program. This is after the agency meets its financial obligations, including making its annual principal and interest payments, meeting its senior debt coverage ratio, and covering its operation and maintenance costs. MDX will give back those savings generated by operational efficiencies of the agency directly to its customers through the Frequent Driver Rewards Program.[10]

To participate in the program, MDX customers must register each year, be a SunPass customer in good standing, have a two-axle vehicle, and spend at least $100 annually between July 1st to June 30 in tolls per transponder on any of the MDX's five expressways. Any tolls paid using Toll-By-Plate[11] or Image Toll transactions (IToll) are considered ineligible for the annual calculation. Eligibility of SunPass tolls paid during the fiscal year is determined solely by the MDX. The most recent registration period for tolls paid between July 1, 2016, to June 30, 2017, ended on March 31, 2017. Reward checks to eligible recipients are expected in December of 2017. [12]

Procedure for Toll Rate Adjustments for Inflation

Section 338.165(3), F.S., requires the FDOT and the Florida Turnpike Enterprise (FTE) to index toll rates on their existing toll facilities to the annual Consumer Price Index or similar inflation

[9] Section 348.0010, F.S., provides a covenant of the state relating to the Florida Expressway Authority Act. In that statute the state pledges that it will not limit or alter the rights vested in an authority and FDOT until all bonds, together with their interest, are fully paid and discharged.
[10] *See* the MDX website available at: http://mdxway.com/frequentdriver/faqs. (Last visited March 19, 2017.)
[11] Toll-By-Plate is an FDOT image-based electronic toll collection system that uses photographic images of the vehicles license plate to identify the customer responsible for payment. This feature is available on the Homestead Extension of Florida's Turnpike from Florida City to Miramar in Miami-Dade County. *See* the FDOT website available at: https://www.tollbyplate.com/index. (Last visited March 20, 2017.)
[12] *Supra* note 22.

indicators. Toll adjustments for inflation may be made no more than once a year, and no less than once every five years, as necessary to accommodate cash toll rate schedules. Toll rates may be increased beyond these limits as directed by bond documents, covenants, or governing body authorization or pursuant to an FDOT rule.

Effect of Proposed Changes:

Section 4 amends s. 348.0004(2)(e), F.S., to provide that the MDX, notwithstanding any law to the contrary, and subject to any contractual requirements contained in documents securing indebtedness outstanding on July 1, 2017:

- May not increase a toll unless the increase is justified to the MDX's satisfaction by a traffic and revenue study conducted by an independent third party, except for an increase to the extent necessary to adjust for inflation under the toll rate adjustment procedures in s. 338.165, F.S.; and

Must approve a toll increase by a two-thirds vote of the MDX governing board.
The amount of toll revenues used by the MDX for administrative expenses may not be more than 10 percent above the annual state average of administrative costs, determined as follows: The FTC is directed to determine the annual state average of administrative costs based on the annual administrative expenses of all the expressway authorities of this state. Administrative expenses include, but are not limited to:

- Employee salaries and benefits;
- Small business outreach;
- Insurance;
- Professional service contracts not directly related to the operation and maintenance of the expressway system; and
- Other overhead costs.

The FTC is authorized to adopt rules necessary to implement these provisions.

The bill requires a distance of at least five miles between main through-lane tolling points on MDX transportation facilities constructed after July 1, 2017, exclusive of entry and exit ramps.

The bill limits the MDX's authority to increase tolls and, therefore, decreases its ability to raise revenues. According to the MDX, this revision impacts the MDX's ability to issue future bonds and eliminates the MDX's ability to set tolls as may be operationally needed.[13] The bill also limits the MDX's use of its toll revenues for administrative expenses to not more than ten percent above the annual state average of administrative costs, as determined by the FTC. No other expressway authority is subject to similar statutory restrictions on administrative expenses.

The bill creates a new subsection (6) of s. 348.0004, F.S. Subject to compliance with bond covenants, the MDX is required, at the time that any toll is incurred, to reduce the toll charged on any of the MDX's toll facilities by at least five percent, but not more than ten percent, for each SunPass registrant having an account in good standing and having the license plate of the vehicle or vehicles incurring the toll registered to the SunPass account at the time the toll is incurred.

[13] The MDX email to committee staff April 18, 2017. (On file in the Senate Transportation Committee.)

The bill prohibits the MDX from imposing additional requirements for receipt of the reduced toll amount.

This revision would reduce the amount of the MDX's toll revenues. The amount of the reduction is dependent on the percentage of the toll reduction granted and on the number of eligible trips on the MDX's facilities.

The bill creates a new subsection (11) of s. 348.0004, F.S. The MDX is directed to determine its surplus revenues as defined in s. 348.0002(12), F.S.[14]. The MDX must then dedicate at least 20 percent, but not greater than 50 percent, of the annual surplus revenues to transportation- and transit-related expenses for projects in the area served by the MDX. The MPO for Miami-Dade County is directed to annually select and list a project or projects within the county to be funded by the MDX's dedicated surplus revenues, with the MDX selecting from the list those transportation- and transit-related expenses that have a rational nexus, as defined, to the MDX's transportation facilities. .

A rational nexus is established by demonstrating that the proposed transportation expenditure makes a substantial impact on the capacity or use of the MDX's transportation facilities, or that the proposed transit expenditure complements the operation of, or expands the access to, the MDX's transportation facilities.

Funded transportation- and transit-related expenses may include, but are not limited to:

- Expenses associated with the planning, design, acquisition, construction, extension, rehabilitation, equipping, preservation, maintenance, or improvement of public transportation facilities, transit facilities, intermodal facilities, or multimodal corridors owned or operated by such municipality or county; and
- Transit-related expenses that impact the capacity or use of the MDX's transportation facilities.

This revision will reduce the amount of surplus revenues available to the MDX for use on the MDX's facilities, to the extent that a portion of the surplus revenues is used to fund transportation- or transit-related expenses for a project or projects selected by the MPO. The MPO will incur administrative expenses in developing the required annual list reflecting the MPO's selected project or projects to be funded by the MDX's dedicated surplus revenues.

The bill creates a new subsection (12) of s. 348.0004, F.S. The new provision requires Miami-Dade County to have a financial audit[15] of the revenues and expenditures of the county's

[14] That section defines "surplus revenues" to mean revenues in any county as defined in s. 125.011(1) derived from rates, fees, rentals, tolls, and other charges for the services and facilities of an expressway system as may exist at the end of a fiscal year after payment of all annually required operating and maintenance expenses for the fiscal year and all debt service payable in the fiscal year on bonds issued or other debts incurred for any purpose in connection with an expressway system, including debt incurred to finance the construction, extension, repair, or maintenance of an expressway system.

[15] The MDX advises it is currently subject to an annual external audit conducted by a certified public accounting firm that is posted on the MDX website and filed with the auditor general, the Securities Exchange Commission, the bondholders trustee, and the Florida Transportation Commission. The MDX email to committee staff April 18, 2017. (On file in the Senate Transportation Committee.) As the MDX is a special district, it appears it is subject to the annual financial audit report requirements of s. 218.39, F.S.

transportation plan conducted by an independent third party not less than biennially, and the audit report must be posted on the county's website.

The section requires the MDX to have a financial audit conducted by an independent third party not less than biennially and to post the audit reports on its website.

Section 5

High-Occupancy Toll Lanes and Express Lanes (Sections 1 and 2)

Present Situation:

A high-occupancy-vehicle (HOV) lane is a lane of a public roadway designated for use by vehicles in which there is more than one occupant.[16] A high-occupancy toll lane is an HOV lane, the use of which requires payment of a toll. Tolled HOV lanes are referred to as high-occupancy toll lanes, or HOT lanes.[17]

Current law does not define the terms "HOT lane" or "express lane." However, the FDOT's Topic No. 525-030-020-a, *Tolling for New and Existing Facilities on the State Highway System,*[18] provides the following definitions:

- "Managed Lanes" - Highway facilities or sets of lanes within a highway facility where operational strategies are proactively implemented and managed in response to changing conditions with a combination of tools. These tools may include accessibility, vehicle eligibility, pricing, or a combination thereof. Types of managed lanes include high occupancy vehicle (HOV) lanes, high occupancy toll (HOT) lanes, truck only lanes, truck only toll lanes, bus rapid transit lanes, reversible lanes, and express lanes.
- "Express Lanes" - A type of managed lane where dynamic pricing through electronic tolling is applied to lanes with through traffic, having fewer access points. Express lanes can co-locate within an existing non tolled facility to manage congestion and provide a more reliable trip time.

Section 338.166, F.S., authorizes the FDOT to request the Division of Bond Finance to issue bonds secured by toll revenues collected on HOT lanes or express lanes established on FDOT-owned facilities. The FDOT is authorized to continue to collect the tolls on HOT lanes or express lanes after any bond debt is discharged. Such tolls must first be used to pay the annual cost of operation, maintenance, and improvement of the HOT lanes or express lanes project or associated transportation system. Section 338.166(4), F.S., authorizes variable rate tolling.

The FDOT must use any remaining toll revenue from HOT lanes or express lanes for the construction, maintenance, or improvement of any road on the State Highway System within the county or counties in which the toll revenues were collected or to support express bus service on the facility where the toll revenues were collected.

[16] Section 316.0741(1)(a), F.S.
[17] Except that vehicles in HOT lanes must have three or more occupants. *See* the FDOT's SB 250 (2012) Agency Bill Analysis at 2. (On file in the Senate Transportation Committee.)
[18] On file in the Senate Transportation Committee. The directive expressly does not apply to Florida Turnpike facilities.

Section 338.166, F.S.,[19] expressly does not apply to the Turnpike System.[20] However, s. 338.2216(1)(d), F.S., directs the FTE to pursue and implement new technologies and processes in its operations and collection of tolls and other amounts associated with road infrastructure usage. Such technologies and processes must include variable pricing. [21]

Express Lane Management

A number of express lane projects in Florida are either in operation, under construction, or proposed.[22] These projects have or are planned to have express lanes with adjacent general use lanes (with no tolls) and, on the turnpike system, express lanes adjacent to general toll lanes (lanes that generally have fixed tolls). The FDOT describes its management of express lanes as follows:

> The express lanes are managed using a combination of eligibility, access, and pricing. Only two axle vehicles are eligible with buses eligible regardless of number of axles. This reduces the number of vehicles that can choose to use the express lanes. The access (entry and exit points on the express lanes) is limited to certain locations, providing a choice for users making longer distance trips to the major origin and destination patterns in the area. Trips that are shorter and more local must use the general use lanes. As the volume in the express lanes increases, the price to use the express lanes increases. The toll amount posted on the sign is dynamically priced based on the congestion in the express lanes with a goal of providing a free flow condition [in the express lanes].
>
> The traffic density, which is a combination of speed and volume, is used to determine the toll amount needed to optimize traffic flow in the express lanes. Volume and speed data is collected from roadside detectors and used to calculate the traffic density by dividing the volume in the express lanes by the speed in the express lanes. The toll amount is not related to the amount of congestion, speed, or performance of the general use lanes. Where there is no congestion in the express lanes, regardless of the performance or amount of congestion in the general use lanes, the minimum toll amount in the express lanes is $0.50.[23]

The FDOT's general goal is that a driver in an express lane should be able to maintain an average speed of 45 miles per hour or greater while in the lane.[24]

---

[19] Section 338.166(6), F.S.

[20] Section 338.2216(1)(a), F.S., grants to the FTE, in addition to the powers granted to the FDOT, full authority to exercise all powers granted to the FTE under chapter 338, F.S. Section 338.2216(4), F.S., provides the powers conferred upon the FTE under the Florida Turnpike Enterprise Law (ss. 338.22 – 338.241) are in addition and supplemental to the existing powers of the FDOT and the FTE.

[21] The FTE is not currently operating any express lanes. *See* the FDOT's SB 1570 (2012) Agency Bill Analysis, at 8. (On file in the Senate Transportation Committee.)

[22] *See* the project map with links to express lane project information available on the FDOT's website at: http://www.floridaexpresslanes.com/projects/project-map/. (Last visited March 19, 2017.)

[23] *Supra* note 6 at 2.

[24] The FDOT email to committee staff April 18, 2017. (On file in the Senate Transportation Committee.)

Toll Collection Interoperability

Interoperable toll collection allows drivers to establish a single toll account that allows for payments on a variety of tolled facilities, regardless of the facility's ownership. An interoperable system recognizes a customer at any given toll collection facility participating in the system, and each toll facility owner or operator receives proper payment for use of the owner's or operator's facility.

The 2012 Moving Ahead for Progress in the 21st Century Act, MAP-21,[25] requires all toll facilities on Federal-aid highways to implement technologies or business practices that provide for the interoperability of electronic toll collection programs no later than four years after its enactment. Current Florida law requires all new limited access facilities and existing transportation facilities on which new or replacement electronic toll collection systems are installed to be interoperable with the FDOT's electronic toll-collection system.[26]

Level of Service

The Transportation Research Board (Board) is a division of the National Research Council, "which serves as an independent adviser to the federal government and others on scientific and technical questions of national importance, and which is jointly administered by the National Academy of Sciences, the National Academy of Engineering, and the Institute of Medicine." The Board's mission "is to provide leadership in transportation innovation and progress through research and information exchange, conducted within a setting that is objective, interdisciplinary, and multimodal." [27]

The Board's 2010 Highway Capacity Manual (Manual), along with multiple other items, addresses level of service criteria for basic highway segments. Generally, level of service is a measure of traffic conditions "using a quantitative stratification of a performance measure or measures."[28] According to the Manual, , "A basic freeway segment can be characterized by three performance measures: density in passenger cars per mile per lane, space mean speed in miles per hour, and the ratio of demand flow rate to capacity." The Manual indicates that each measure "is an indication of how well traffic is being accommodated by the basic freeway segment."[29]

A letter grade is assigned to a given highway segment level of service, ranging from best performance at level A to worst performance at level F. The Manual describes the levels as follows:

- Level A: Free-flow operations. Free-flow speed (FFS) prevails on the freeway, and vehicles are almost completely unimpeded in their ability to maneuver within the traffic stream.
- Level B: Reasonably free-flow operations. FFS is maintained. The ability to maneuver is only slightly restricted.

[25] Section 1512(b), P.L. 112-141.
[26] Section 338.01(7), F.S.
[27] *See* the National Academy website available at: http://www.trb.org/GetInvolvedwithTRB/GetInvolvedwithTRB.aspx. (Last visited April 19, 2017.)
[28] *See* the Federal Highway Administration's website, at 3.3.3, available at: https://safety.fhwa.dot.gov/road_diets/info_guide/ch3.cfm. (Last visited April 19, 2017.)
[29] *Highway Capacity Manual 2010,* at 11-7. (Copy on file in the Senate Transportation Committee.)

- Level C: FFSs near the FFS of the freeway. Freedom to Maneuver is noticeably restricted.
- Level D: Speeds begin to decline with increasing flows, with density increasing more quickly. Freedom to maneuver is seriously limited.
- Level E: Operation at capacity. Operations on the freeway are highly volatile because there are virtually no usable gaps within the traffic stream, leaving little room to maneuver within the traffic.
- Level F: Breakdown, or unstable flow.[30]

Effect of Proposed Changes:

Section 1 amends s. 338.166(4), F.S., to authorize the FDOT to require use of an electronic transponder that is interoperable with the FDOT's electronic toll collection system for the use of HOT lanes or express lanes. Should the FDOT impose the requirement, all users of the FDOT's HOT lanes or express lanes must have the specified transponder to use the FDOT's HOT lanes or express lanes.[31]

The bill also creates a new subsection (5) of s. 338.166, F.S. Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the minimum express lane toll. The bill defines a customer's express lane average travel speed as the customer's average travel speed from the customer's entry point to the customer's exit point. This revision will reduce the FDOT's toll collection revenues, dependent on the number of trips and the number of times a customer's average travel speed falls below 40 miles per hour.

Section 2 amends s. 338.2216(1)(d), F.S., to authorize the FTE to require use of an electronic transponder that is interoperable with the FDOT's electronic toll collection system for the use of express lanes on the turnpike system. Should the FTE impose the requirement, all users of express lanes on the turnpike system must have the specified transponder to use the express lanes.[32]

The bill prohibits variable pricing in express lanes on the turnpike system when the level of service in the express lane, determined in accordance with the Transportation Research Board Highway Capacity Manual (5th Edition, HCM 2010), as amended, is equal to level of service A. When the level of service in the express lane is level of service B, variable pricing in the express lane may only be implemented by charging the general toll lane toll amount, plus an amount set by FDOT rule. Pricing in express lanes when the level of service is other than level of service A or service B may vary in the manner established by the FTE to manage congestion in the express lanes, with an exception: Effective July 1, 2018, if a customer's average travel speed for a trip in an express lane falls below 40 miles per hour, the customer must be charged the general toll lane toll amount, plus an amount set by FDOT rule. A customer's express lane average travel speed is

[30] *Id.*
[31] SunPass registrants may already use HOT lanes and express lanes. The FDOT announced in 2014 that Florida's SunPass, Georgia's Peach Pass, and North Carolina's Quick Pass are interoperable and valid in all three states. *See* the FDOT's November 2014 News Release available at: https://www.sunpass.com/pdf/FLGANCValid.pdf. (Last visited April 19. 2017.) Should the requirement be imposed, holders of the associated transponders would appear to be able to use HOT lanes or express lanes. If a user wishing to use HOT lanes or express lanes holds no pass from an interoperable state, it appears that user would have to register and create a SunPass account in order to receive a transponder.
[32] *Id.*

also defined as the customer's average travel speed from the customer's entry point to the customer's exit point.

This revision will reduce the FTE's, and therefore the FDOT's, toll collection revenues, dependent on the number of trips, the frequency of the existence of level of Service A or B in the express lanes on the turnpike system, and the number of times a customer's average travel speed falls below 40 miles per hour.

Turnpike Toll Revenues/Miami-Dade, Broward, and Palm Beach Counties (Section 3)

Present Situation:

Section 338.231, F.S., directs the FDOT at all times to fix, adjust, charge, and collect such tolls and amounts for the use of the turnpike system as are required in order to provide a fund sufficient with other revenues of the turnpike system to pay the cost of maintaining, improving, repairing, and operating such turnpike system; to pay the principal of and interest on all bonds issued to finance or refinance any portion of the turnpike system; and to create reserves for these purposes.

In 1997, the Legislature enacted legislation[33] currently located in s. 338.231(3)(a), F.S. For the period July 1, 1998, through June 30, 2017, the FDOT is required, to the maximum extent feasible, to program sufficient funds in the tentative work program such that the percentage of turnpike toll and bond financed commitments in Miami-Dade County, Broward County, and Palm Beach County, compared to total turnpike toll and bond financed commitments, is at least 90 percent of the share of net toll collections attributable to users of the turnpike system in those counties, as compared to total net toll collections attributable to users of the turnpike system.[34]

Effect of Proposed Changes:

Section 3 amends s. 338.231(3)(a), F.S., currently set to expire on June 30 of this year, by extending the expiration date to June 30, 2027. The FDOT advises this revision requires no change in its current programming practice.

Section 6 provides the bill take effect on July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

[33] Chapter 97-280, L.O.F.

[34] This provision expressly does not apply when its application would violate any bond covenant relating to the issuance of turnpike bonds.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Users of the MDX's facilities may see a reduction in the frequency and amount of toll increases. Eligible SunPass users of the MDX's toll facilities would benefit from a reduction in toll charges of at least 5 percent, but not more than 10 percent. The amount of this reduction is dependent on the number of eligible trips on MDX toll facilities, and is therefore unknown.

Users of facilities in Miami-Dade County may benefit from municipal or county transportation- or transit-related expenses funded by a portion of the MDX's surplus revenues. The MDX system may benefit from the same funded expenses. The amount, however, is indeterminate, as the funds available for such expenses are indeterminate.

Users of the FDOT's express lanes, and users of the FTE's express lanes, may experience reduced tolls. The amount of this reduction with respect to the FDOT's express lanes is dependent on the number of trips and the number of times a customer's average travel speed falls below 40 miles per hour, and is therefore unknown. The amount of this reduction with respect to express lanes on the turnpike system is dependent on the number of trips, the frequency of the existence of level of service A or B in the express lanes, and the number of times a customer's average travel speed falls below 40 miles per hour; and is therefore unknown.

C. Government Sector Impact:

The MDX is an independent agency of the state. The bill will potentially make it more difficult for the MDX to increase its tolls, making it more difficult to increase its revenues. According to the MDX, the bill limits its ability to set toll rates, which may make its bonds less favorable in the financial markets.[35] If the MDX chooses to grant up to a 10 percent reduction in toll charges for eligible SunPass users of the MDX's toll facilities, the MDX may experience reduced toll collections in an indeterminate amount.

The bill also limits the MDX's administrative expenses to ten percent above the annual state average of administrative costs, as determined by the FTC. The impact of this revision to the MDX is unknown. Also unknown is whether the MDX will be required to undertake infrastructure design revisions or to incur other related costs to comply with

[35] *See* the MDX email to House Transportation & Infrastructure Committee Staff, March 10, 2017. (On file in the Senate Transportation Committee.)

the requirements that there be a distance of five miles between main through-lane tolling points constructed after July 1, 2017.

The FTC will incur administrative expenses associated with determining the annual state average of administrative costs and with any rulemaking.

The bill will reduce the amount of surplus revenues available to the MDX for use on the MDX's facilities, to the extent that a portion of the surplus revenues is used to fund transportation- or transit-related expenses in proposals submitted by municipalities and counties. The amount, however, is indeterminate, as it is dependent on the percentage of the surplus revenues dedicated to the specified expenses.

The MDX may incur expenses associated with the required traffic and revenue studies, with the required periodic audits, and withplacing the audits on its website. Miami-Dade County may incur expenses associated with the required periodic audits and placing the audits on its website.

The bill may reduce FDOT revenues. The FDOT will be required to charge the minimum express lane toll, and not any variably priced toll, if the customer's average travel speed for a trip in an express lane falls below 40 miles per hour. Effective July 1, 2018, the bill may reduce the FTE's and, therefore, the FDOT's revenues, when the level of service in an express lane on the turnpike system is at level A or B. In the former case, variable pricing may not be implemented in express lanes on the turnpike system. When the level of service is level B, variable pricing may only be implemented by charging the general toll lane toll amount, plus an amount set by rule by the FDOT, for use of an express lane on the turnpike system.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 338.166, 338.2216, 338.231, and 348.0004.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The committee substitute makes the following revisions:

- Authorizes the FDOT and the FTE to require use of an electronic transponder interoperable with the FDOT's electronic toll collection system for the use of its HOT lanes or express lanes.
- Provides that effective July 1, 2018, if a customer's average travel speed for a trip in an express lane on the turnpike system falls below 40 miles per hour, the toll to be charged is the general toll lane toll amount plus *an amount set by FDOT rule*, rather than plus 25 cents.
- Requires MDX transportation facilities constructed after July 1, 2017, maintain a distance of at least five miles between main through-lane tolling points is required, excluding entry and exit ramps.
- Authorizes the MDX to reduce toll charges for certain SunPass registrants, the required reduction is at least five percent, but not more than ten percent.
- Requires the MDX to determine its surplus revenues, calculated as specified, and dedicate at least twenty percent, but not more than fifty percent, of the remaining surplus revenues to transportation- and transit-related expenses for projects in municipalities and counties in which the MDX operates under specified conditions.
- Directs the Miami-Dade County MPO to annually select a project or projects within the county to be funded by the dedicated surplus revenues and to submit a list reflecting the project or projects, with the MDX selecting from the list for funding transportation- and transit-related expenses that have a rational nexus to the MDX's transportation facilities.
- Requires Miami-Dade County to have a financial audit of the revenues and expenditures of the county's transportation plan conducted by an independent third party not less than biennially and to post the audit reports on its website in order to be eligible to receive the MDX's dedicated surplus revenues.

CS by Transportation on March 22, 2017:
The CS makes the following changes to the bill:

- Clarifies that the distance of five miles is required between main through-lane tolling points, excluding entry and exit ramps;
- Requires the MDX to reduce the toll charged on any of its toll facilities by 25 percent for SunPass registrants in good standing; and
- Prohibits the MDX from imposing additional requirements for receipt of the reduced toll amount.

B. Amendments:

None.

By the Committee on Transportation; and Senator Garcia

596-02748-17 20171562c1

A bill to be entitled

An act relating to expressway authorities; providing a short title; amending s. 348.0004, F.S.; providing applicability; requiring toll increases by authorities in certain counties to be justified by an independent study by a third party; providing that such authorities may only increase tolls to the extent necessary to adjust for inflation pursuant to a certain procedure for toll rate adjustments; requiring toll increases to be approved by a vote of the expressway authority boards; limiting the amount of toll revenues such authorities may use for administrative expenses; requiring a certain minimum distance between main through-lane tolling points on transportation facilities constructed after a specified date, subject to a certain restriction; providing applicability; conforming a cross-reference; requiring authorities in certain counties to reduce toll charges by a specified amount at the time that any toll is incurred for certain SunPass registrants; prohibiting authorities in certain counties from imposing additional requirements for receipt of the reduced toll amount; creating s. 348.00115, F.S.; requiring authorities in certain counties to post certain information on a website; defining the term "contract"; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

596-02748-17 20171562c1

Section 1. This act may be cited as the "Toll Reform Act."

Section 2. Present subsections (6) through (9) of section 348.0004, Florida Statutes, are redesignated as subsections (7) through (10), respectively, paragraph (e) of subsection (2) of that section is amended, and a new subsection (6) is added to that section, to read:

348.0004 Purposes and powers.—

(2) Each authority may exercise all powers necessary, appurtenant, convenient, or incidental to the carrying out of its purposes, including, but not limited to, the following rights and powers:

(e) To fix, alter, charge, establish, and collect tolls, rates, fees, rentals, and other charges for the services and facilities system, which tolls, rates, fees, rentals, and other charges must always be sufficient to comply with any covenants made with the holders of any bonds issued pursuant to the Florida Expressway Authority Act. However, such right and power may be assigned or delegated by the authority to the department.

1. Notwithstanding any other provision of law to the contrary, but subject to any contractual requirements contained in documents securing any indebtedness outstanding on July 1, 2017, in any county as defined in s. 125.011(1):

a. The authority may not increase a toll unless the increase is justified to the satisfaction of the authority by a traffic and revenue study conducted by an independent third party.

b. The authority may only increase tolls to the extent necessary to adjust for inflation pursuant to the procedure for toll rate adjustments provided in s. 338.165.

c. A toll increase must be approved by a two-thirds vote of the expressway authority board.

d. The authority may not use more than 10 percent of its toll revenues for administrative expenses. For purposes of this sub-subparagraph, administrative expenses include, but are not limited to, employee salaries and benefits, small business outreach, insurance, professional service contracts not directly related to the operation and maintenance of the expressway system, and other overhead costs.

e. On transportation facilities constructed after July 1, 2017, there must be a distance of at least 5 miles between main through-lane tolling points. The distance requirement of this sub-subparagraph does not apply to entry and exit ramps. The authority may not increase a toll on an individual toll facility to implement this sub-subparagraph.

2. Notwithstanding s. 338.165 or any other provision of law to the contrary, in any county as defined in s. 125.011(1), to the extent surplus revenues exist, they may be used for purposes enumerated in subsection (8) ~~(7)~~, provided the expenditures are consistent with the metropolitan planning organization's adopted long-range plan.

3. Notwithstanding any other provision of law to the contrary, but subject to any contractual requirements contained in documents securing any outstanding indebtedness payable from tolls, in any county as defined in s. 125.011(1), the board of county commissioners may, by ordinance adopted on or before September 30, 1999, alter or abolish existing tolls and currently approved increases thereto if the board provides a local source of funding to the county expressway system for

transportation in an amount sufficient to replace revenues necessary to meet bond obligations secured by such tolls and increases.

(6) An authority in any county as defined in s. 125.011(1) shall, at the time that any toll is incurred, reduce the toll charged on any of the authority's toll facilities by 25 percent for each SunPass registrant having an account in good standing and having the license plate of the vehicle or vehicles incurring the toll registered to the SunPass account at the time the toll is incurred. The authority may not impose additional requirements for receipt of the reduced toll amount.

Section 3. Section 348.00115, Florida Statutes, is created to read:

348.00115 Public accountability.—An expressway authority in a county as defined in s. 125.011(1) shall post the following information on its website:

(1) Audited financial statements and any interim financial reports.

(2) Board and committee meeting agendas, meeting packets, and minutes.

(3) Bond covenants for any outstanding bond issues.

(4) Authority budgets.

(5) Authority contracts. For purposes of this subsection, "contract" means a written agreement or purchase order issued for the purchase of goods or services or a written agreement for the receipt of state or federal financial assistance.

(6) Authority expenditure data, which must include the name of the payee, the date of the expenditure, and the amount of the expenditure. Such data must be searchable by name of the payee,

name of the paying agency, and fiscal year and must be downloadable in a format that allows offline analysis.

(7) Information relating to current, recently completed, and future projects on authority facilities.

Section 4. This act shall take effect July 1, 2017.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	SB 1564
INTRODUCER:	Senator Garcia
SUBJECT:	Domestic Violence
DATE:	April 24, 2017
REVISED:	4/20/17

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jones	Hrdlicka	CJ	**Favorable**
2.	McAuliffe	Sadberry	ACJ	**Recommend: Favorable**
3.	McAuliffe	Hansen	AP	**Favorable**

I. Summary:

SB 1564 amends section 741.283, Florida Statutes, to increase the penalties for both first-time and subsequent domestic violence offenders who intentionally cause bodily harm to another person and are adjudicated guilty. The bill also enhances the penalties if the domestic violence offense took place in front of a child, under 16 years of age, who is a family or household member of the victim or the perpetrator.

Section 775.08435, F.S., is amended to add an additional circumstance in which a court is prohibited from withholding the adjudication of a defendant. The bill prohibits a court from withholding adjudication for a third degree felony that is a crime of domestic violence unless certain conditions are met.

The bill creates section 741.30(1)(g), Florida Statutes, to prohibit attorney's fees from being awarded in any injunction proceeding for protection against domestic violence.

Under this bill, counties may incur additional costs associated with the minimum sentences for certain offenders. See Section V. Fiscal Impact Statement

The bill is effective October 1, 2017.

II. Present Situation:

Domestic violence affects thousands of individuals and families in Florida. In 2015, there were 107,666 domestic violence offenses reported to law enforcement.[1]

[1] Florida Department of Law Enforcement, *Domestic Violence*, available at http://www.fdle.state.fl.us/cms/FSAC/Crime-Trends/Domestic-Violence.aspx (last visited March 29, 2017).

Section 741.28(2), F.S., defines domestic violence as any assault, aggravated assault, battery, aggravated battery, sexual assault, sexual battery, stalking, aggravated stalking, kidnapping, false imprisonment, or any criminal offense resulting in physical injury or death of one family or household member by another family or household member. A family or household member includes:

- Spouses;
- Former spouses;
- Persons related by blood or marriage;
- Persons who are presently residing together as if a family or who have resided together in the past as if a family in the same single family dwelling unit; and
- Persons who are parents of a child in common, regardless of whether they have been married.[2]

Criminal Penalties for Domestic Violence Offenses

Florida law requires certain mandatory penalties related to domestic violence offenses. Section 741.281, F.S., requires a court to sentence any person convicted[3] of a domestic violence crime to a minimum term of one year probation with the condition that the person attend a batterer's intervention program.[4]

Section 741.325, F.S., requires batterer's intervention programs be based on a psychoeducational model that addresses tactics of power and control by one person over another. A batterer's intervention program must be at least 29 weeks in length and include 24 weekly sessions, and include appropriate intake, assessment, and orientation programming.[5]

In addition to the mandatory probation and the batterer's intervention program, certain domestic violence offenses require a defendant serve jail time. If a person is adjudicated guilty of a domestic violence offense and intentionally caused bodily harm to another person, a court must sentence the person to a minimum of five days in the county jail.[6]

Withholding Adjudication of Guilt

Section 775.08435, F.S., prohibits a court from withholding adjudication of guilt in certain felony cases. A court may not withhold adjudication of guilt for a defendant on:

- A capital, life, or first degree felony[7] offense.

[2] The family or household members must be currently residing or have in the past resided together in the same single dwelling unit; this excludes persons who have a child in common. Section 741.28(3), F.S.
[3] This provision applies to any person found guilty of, having an adjudication withheld on, or pleading nolo contendere to a crime of domestic violence. Section 741.281, F.S.
[4] Section 741.281, F.S., allows a court to use its discretion to impose a batterer's intervention program if the court states on the record to why such a program would be inappropriate. The court must also impose a batterer's intervention program as a condition of probation unless the court determines that the person does not qualify for such a program.
[5] Section 741.325(1), F.S.
[6] The court is not required to order five days in the county jail when the court orders an offender to a period of incarceration in a state correction facility. Section 741.283, F.S.
[7] A first degree felony is punishable by up to 30 years imprisonment and up to a $10,000 fine. Sections 775.082 and 775.083, F.S.

- A second degree felony[8] offense unless:
  - The state attorney makes a written request to withhold adjudication; or
  - The court makes written findings that a withhold of adjudication is reasonably justified based on the circumstances or mitigating factors in s. 921.0026, F.S.[9]
- A third degree felony[10] offense if the defendant has a prior withholding of adjudication for a felony offense that did not arise from the same criminal episode as the current felony offense unless:
  - The state attorney requests in writing that adjudication be withheld; or
  - The court makes written findings that a withholding of adjudication is reasonably justified based on the circumstances or mitigating factors in s. 921.0026, F.S.[11]

A court may not withhold adjudication when a defendant has committed a second degree felony and has a prior withhold of adjudication from a different offense, or when the defendant committed a third degree felony and has two or more prior withholdings of adjudication from a different offense.[12]

Domestic Violence Injunctions

Section 741.30, F.S., provides a cause of action for an injunction for protection against domestic violence. Any person who is a family or household member and who either is the victim of domestic violence or has reasonable cause to believe he or she is in imminent danger of becoming a victim of any act of domestic violence, may petition for an injunction for the protection against domestic violence.[13]

After reviewing the petition, if a court finds there is an immediate and present danger of domestic violence, the court may grant a temporary injunction, pending a full hearing.[14] Following a hearing, if the court determines the petitioner is the victim of domestic violence or is in imminent danger of becoming a victim of domestic violence, the court may enter an injunction.[15]

Attorney's fees for Domestic Violence Injunction Hearings

Section 741.30, F.S., does not address the award of attorney's fees related to domestic violence injunction hearings. Florida courts are in conflict regarding whether s. 57.105, F.S., allows a court to order attorney fees incurred in domestic violence injunction proceedings.[16] The Third

[8] A second degree felony is punishable by up to 15 years imprisonment and up to a $10,000 fine. Sections 775.082 and 775.083, F.S.
[9] Section 921.0026, F.S., provides 14 statutory mitigating circumstances a court may consider when sentencing a defendant for a felony offense.
[10] A third degree felony is punishable by up to five years imprisonment and up to a $5,000 fine. Sections 775.082, 775.083, and 775.084, F.S.
[11] Section 775.08435(1), F.S.
[12] Section 775.08435(1), F.S.
[13] Section 741.30(1), F.S.
[14] Section 741.30(5)(a), F.S.
[15] Section 741.30(6), F.S.
[16] Section 57.105, F.S., authorizes a court to award reasonable attorney's fees when the court finds the losing party or the losing party's attorney should have known that a claim or defense presented to the court or at trial was either: 1) not

District Court of Appeal held there is no statutory authority to award attorney's fees as sanctions in a domestic violence injunction case.[17] Whereas, the First District Court of Appeal held that there is no statutory prohibition against an award of attorney's fees pursuant s. 57.105, F.S., for domestic violence injunction hearings.[18]

III. Effect of Proposed Changes:

Criminal Penalties for Domestic Violence Offenses

Section 1 amends s. 741.281, F.S., to require a court to order the defendant to both attend ***and complete*** a batterer's intervention program as a condition of probation. A failure to complete a batterer's intervention program may result in a violation of probation.

Section 2 also amends s. 741.283, F.S., to increase the penalties for both first-time and subsequent domestic violence offenders who intentionally cause bodily harm to another person and are adjudicated guilty. The section requires a court to order a defendant to serve the following time in a county jail:

- 10 days for a first offense;
- 15 days for a second offense; and
- 20 days for a third or subsequent offense.

The penalties are further enhanced if the domestic violence offense took place in front of a child, under 16 years of age, who is a family or household member of the victim or the perpetrator. The bill requires a court to order a defendant to serve the following time in a county jail:

- 15 days for a first offense;
- 20 days for a second offense; and
- 30 days for a third or subsequent offense.[19]

Withholding Adjudication of Guilt

Section 4 amends s. 775.08435, F.S., to limit the authority of a court withholding the adjudication of a defendant. A court may not withhold adjudication for a third degree felony that is a crime of domestic violence unless:

- The state attorney makes a written request for the adjudication to be withheld; or
- The court makes written findings that the withholding of adjudication is reasonably justified based on the circumstances or mitigating factors in s. 921.0026, F.S.

supported by the material facts necessary to establish the claim or defense; or 2) would not be supported by the application of then-existing law to those material facts.

[17] *Ratigan v. Stone*, 947 So. 2d 607, 608 (Fla. 3d DCA 2007).

[18] *Hall v. Lopez*, 2016 41 Fla. L. Weekly D 1763 (Fla. 1st DCA 2016).

[19] The mandatory jail time does not apply if the court sentences a defendant to a nonsuspended period of incarceration in a state correctional facility.

Domestic Violence Injunctions

Attorney's fees for Domestic Violence Injunction Hearings

Section 3 amends s. 741.30, F.S., to prohibit attorney's fees from being awarded in any injunction proceeding for protection against domestic violence.

The bill is effective October 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

This bill appears to be exempt from the requirements of Article VII, Section 18 of the Florida Constitution because it is a criminal law.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

Under this bill, counties may incur additional costs associated with the minimum sentences for certain offenders. The Criminal Justice Impact Conference found that the bill will have no state prison bed impact.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 741.281, 741.283, 741.30, and 775.08435.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

None.

B. Amendments:

None.

By Senator Garcia

36-01426A-17 20171564__

A bill to be entitled

An act relating to domestic violence; amending s. 741.281, F.S.; specifying that a person must complete a batterers' intervention program ordered as a condition of probation in certain circumstances; amending s. 741.283, F.S.; increasing the minimum terms of imprisonment for domestic violence; providing enhanced minimum terms in certain circumstances; amending s. 741.30, F.S.; prohibiting the award of attorney fees in specified domestic violence proceedings; amending s. 775.08435, F.S.; prohibiting the withholding of adjudication for specified domestic violence offenses; providing exceptions; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 741.281, Florida Statutes, is amended to read:

741.281 Court to order batterers' intervention program attendance.—If a person is found guilty of, has adjudication withheld on, or pleads nolo contendere to a crime of domestic violence, as defined in s. 741.28, that person shall be ordered by the court to a minimum term of 1 year's probation and the court shall order that the defendant attend and complete a batterers' intervention program as a condition of probation. The court must impose the condition of the batterers' intervention program for a defendant under this section, but the court, in its discretion, may determine not to impose the condition if it

36-01426A-17 20171564__

states on the record why a batterers' intervention program might be inappropriate. The court must impose the condition of the batterers' intervention program for a defendant placed on probation unless the court determines that the person does not qualify for the batterers' intervention program pursuant to s. 741.325. The imposition of probation under this section does not preclude the court from imposing any sentence of imprisonment authorized by s. 775.082.

Section 2. Section 741.283, Florida Statutes, is amended to read:

741.283 Minimum term of imprisonment for domestic violence.—

(1)(a) Except as provided in paragraph (b), if a person is adjudicated guilty of a crime of domestic violence, as defined in s. 741.28, and the person has intentionally caused bodily harm to another person, the court shall order the person to serve a minimum of 10 ~~5~~ days in the county jail for a first offense, 15 days for a second offense, and 20 days for a third or subsequent offense as part of the sentence imposed, unless the court sentences the person to a nonsuspended period of incarceration in a state correctional facility.

(b) If a person is adjudicated guilty of a crime of domestic violence, as defined in s. 741.28, and the person has intentionally caused bodily harm to another person, and the crime of domestic violence takes place in the presence of a child under 16 years of age who is a family or household member, as defined in s. 741.28, of the victim or the perpetrator, the court shall order the person to serve a minimum of 15 days in the county jail for a first offense, 20 days for a second

offense, and 30 days for a third or subsequent offense as part of the sentence imposed, unless the court sentences the person to a nonsuspended period of incarceration in a state correctional facility.

(2) This section does not preclude the court from sentencing the person to probation, community control, or an additional period of incarceration.

Section 3. Paragraphs (g), (h), (i), and (j) of subsection (1) of section 741.30, Florida Statutes, are redesignated as paragraphs (h), (i), (j), and (k), respectively, and a new paragraph (g) is added to that subsection, to read:

741.30 Domestic violence; injunction; powers and duties of court and clerk; petition; notice and hearing; temporary injunction; issuance of injunction; statewide verification system; enforcement; public records exemption.—

(1) There is created a cause of action for an injunction for protection against domestic violence.

(g) Notwithstanding any other law, attorney fees may not be awarded in any proceeding under this section.

Section 4. Paragraph (c) of subsection (1) of section 775.08435, Florida Statutes, is redesignated as paragraph (d), and a new paragraph (c) is added to that subsection, to read:

775.08435 Prohibition on withholding adjudication in felony cases.—

(1) Notwithstanding the provisions of s. 948.01, the court may not withhold adjudication of guilt upon the defendant for:

(c) A third degree felony that is a crime of domestic violence, as defined in s. 741.28, unless:

1. The state attorney requests in writing that adjudication

be withheld; or

2. The court makes written findings that the withholding of adjudication is reasonably justified based on circumstances or factors in accordance with s. 921.0026.

Section 5. This act shall take effect October 1, 2017.

The Florida Senate

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1468 codifies responsibilities for the Auditor General, extends the date by which Florida Polytechnic University must meet statutory criteria, expands the authority of the Commissioner of Education, and establishes the Early Childhood Music Education Incentive Pilot Program. Specifically, the bill:

- Codifies the requirement for the Auditor General to conduct financial audits of accounts and records of the Florida School for the Deaf and the Blind.
- Codifies the December 31, 2017, deadline by which the Florida Polytechnic University must meet the criteria established in law relating to accreditation; development of science, technology, engineering, and mathematics programs; and operational framework.
- Authorizes the Commissioner of Education to coordinate, in the event of an emergency, with school districts, Florida College System institutions, and the satellite offices of the Division of Vocational Rehabilitation and the Division of Blind Services to assess their needs for resources to enable such entities to reopen as soon as possible after considering the health, safety, and welfare of students and clients.
- Establishes the Early Childhood Music Education Incentive Pilot Program in the Department of Education for a period of three school years to assist selected school districts in implementing comprehensive music education programs for students in kindergarten through grade 2.

The bill also expands educational options and services to prepare students for higher education and entry into the workforce. Specifically, the bill:

- Repeals the eligibility criteria for students to participate in virtual instruction programs.
- Removes the requirement that student enrollment in a virtual instruction program be limited to a program provided by a school district or virtual charter school operated by the district in which the student resides.
- Deems participants in on-the-job training activities administered by the Division of Blind Services (DBS) and the Division of Vocational Rehabilitation (VR) as employees of the state for purposes of workers' compensation coverage.

The bill has an indeterminate fiscal impact on state expenditures. The estimated fiscal impact to the Florida Education Finance Program (FEFP) to fund the expansion of student eligibility for public virtual education is expected to be absorbed within the FEFP calculation and is estimated at $4,363,075. The Division of Risk Management expects to incur additional claim costs for covering DBS and VR on-the-job training participants.

The bill takes effect on July 1, 2017.

II. Present Situation:

Auditor General

The Auditor General (AG) serves at the pleasure of the Legislature to audit records and perform related duties as prescribed by law.[1] The AG performs his or her duties independently but under the general policies established by the Legislative Auditing Committee (LAC)[2].[3] The AG is required to annually conduct financial audits[4] of:

- State government;
- All state universities and state colleges;
- The accounts and records of all district school boards in counties with populations of fewer than 150,000, and the Florida School for the Deaf and the Blind;[5] and
- Once every 3 years, the accounts and records of all district school boards in counties that have populations of 150,000 or more.[6]

---

[1] Art. III, s. 2, Fla. Const. *See also* s. 11.42(2), F.S.

[2] The Legislative Auditing Committee may take under investigation any matter within the scope of an audit, review, or examination completed or being conducted by the Auditor General or the Office of Program Policy Analysis and Government Accountability, and, in connection with such investigation, may exercise the powers of subpoena by law vested in a standing committee of the Legislature. Section 11.40(1), F.S.

[3] Section 11.45(2)(k), F.S.

[4] "Financial audit" means an examination of financial statements in order to express an opinion on the fairness with which they are presented in conformity with generally accepted accounting principles and an examination to determine whether operations are properly conducted in accordance with legal and regulatory requirements. Financial audits must be conducted in accordance with auditing standards generally accepted in the United States and government auditing standards as adopted by the Board of Accountancy. When applicable, the scope of financial audits shall encompass the additional activities necessary to establish compliance with the Single Audit Act Amendments of 1996, 31 U.S.C. ss. 7501-7507, and other applicable federal law. Section 11.45(1)(c).

[5] The Florida School for the Deaf and the Blind was added by the bill implementing the 2016-2017 General Appropriations Act. Sec. 5, ch. 2016-62, L.O.F.

[6] 11.45(2)(b)-(e), F.S.

Each required financial audit, when practicable, must be completed within nine months following the end of each audited fiscal year of the state agency or political subdivision.[7]

The AG must notify the LAC of any local governmental entity, district school board, charter school, or charter technical career center that does not comply with reporting requirements relating to annual financial audits.[8]

Florida School for the Deaf and Blind

The Florida School for the Deaf and the Blind (FSDB is a state-supported residential public school for hearing-impaired and visually impaired students in preschool through 12th grade.[9] The FSDB is a component of the delivery of public education within Florida's K-20 education system and is funded through the Department of Education (DOE or department).[10]

The FSDB operates under the leadership and direction of its board of trustees (board).[11] The board adopts rules, subject to the approval of the State Board of Education (SBE), as it considers necessary to operate the FSDB in conjunction with the rules of the SBE.[12]

Board authority includes, but is not limited to:

- Provide for the proper keeping of accounts and records and for budgeting of funds.
- Enter into contracts.
- Receive gifts, donations, and bequests of money or property, real or personal, tangible or intangible, from any person, firm, corporation, or other legal entity.
- Sell or convey by bill of sale, deed, or other legal instrument any property, real or personal, received as a gift, donation, or bequest, upon such terms and conditions as the board of trustees deems to be in the best interest of the school and its students; and invest[13] such moneys.
- Approve and administer an annual operating budget in accordance with law.[14]

The FSDB was appropriated $50,188,933[15] for operations $9,074,268[16] for fixed capital outlay in the 2016-17 fiscal year.

---

[7] Section 11.45(4), F.S. Or lesser time provided in law, concurrent resolution, or the Legislative Auditing Committee; however, the AG may postpone audits or other engagements based on an assessment of resources. *Id.*
[8] Section 11.45(7)(a), F.S. The criteria for financial audit reports are in s. 218.39, F.S.
[9] Section 1002.36(1), F.S.
[10] Section 1002.36(1), F.S. The Legislature appropriates fixed capital outlay moneys to the School on an annual basis from the Public Education Capital Outlay and Debt Service Trust Fund pursuant to Article XII, Section 9(a)(2) of the State Constitution.
[11] Section 1002.36(4), F.S. The School board of trustees consists of seven members who are appointed by the Governor and confirmed by the Senate. One of its members must be a blind person, and one must be a deaf person. Each member is required to have been a Florida resident for at least ten years and the term of office for each member is four years.
[12] Section 1002.36(4)(c), F.S.
[13] In securities enumerated under s. 215.47(1), (2)(c), (3), (4), and (10), and in The Common Fund, an Investment Management Fund exclusively for nonprofit educational institutions.
[14] See sections 1011.56 and 1011.57, F.S.

[16] Specific Appropriation 26, General Appropriations Act, ch. 2016-66, L.O.F.

Worker's Compensation Coverage

Florida law requires organizations, including the Division of Vocational Rehabilitation (VR) and the Division of Blind Services (DBS),[17] to cooperate to better assist individuals with disabilities in the workplace.[18] The DBS and the VR each provide community-based work experiences to their adult and youth clients.[19]

Generally, employers are required to provide medical and indemnity benefits to a worker who is injured due to an accident arising out of and during the course of employment.[20] For such injuries, an employer is responsible for providing medical treatment,[21] and compensation in the event of employee disability or death.[22] Specific employer coverage requirements are based on the type of industry, number of employees, and entity organization.[23]

Controlled Open Enrollment

Controlled open enrollment is a public education delivery system that allows school districts to make student school assignments using parents' indicated preferential school choice as a significant factor.[24] School districts have the option to offer controlled open enrollment within the public schools in addition to existing choice programs[25] such as virtual instruction programs, magnet schools, alternative schools, special programs, collegiate high school programs, advanced placement, and dual enrollment.[26] The district school board must adopt by rule and post on the district website a controlled open enrollment plan.[27]

Virtual Instruction

A student is eligible to participate in the Florida Virtual School (FLVS) or in a virtual instruction program offered by the school district or by a virtual charter school operated in the district in which the student resides[28] if he or she meets one of the following:[29]

---

[17] Both divisions are divisions within the Florida Department of Education. Section 20.15(3), F.S.

[28] Virtual instruction programs are included as options under provisions relating to "controlled open enrollment." Section 1002.31(2)(a), F.S.
[29] Sections 1002.37(8), 1002.45(5), and 1002.455(2), F.S. These requirements apply to FLVS part-time instruction in kindergarten through grade 5 (section 1002.37(8)(a), F.S.); a virtual instruction program provided

- The student spent the prior school year in attendance at a public school in the state.
- The student is a dependent child of a member of the United States Armed Forces who transferred within the last 12 months to this state from another state or from a foreign country.
- The student was enrolled during the prior school year in a virtual instruction program[30] or a full-time FLVS program.[31]
- The student has a sibling who is currently enrolled in a virtual instruction program and the sibling was enrolled in that program at the end of the prior school year.
- The student is eligible to enter kindergarten or first grade.

The student is eligible to enter grades 2 through 5 and is enrolled full-time in a school district virtual instruction program, virtual charter school, or the FLVS.

Florida Polytechnic University

In 2012, [32] the Legislature created Florida Polytechnic University (FPU) as a state university.[33] By December 31, 2017,[34] FPU must:

- Achieve accreditation from the Commission on Colleges of the Southern Association of Colleges and Schools;
- Initiate the development of the new programs in the fields of science, technology, engineering, and mathematics;
- Seek discipline-specific accreditation for programs;
- Attain a minimum FTE of 1,244, with a minimum 50 percent of that FTE in the fields of science, technology, engineering, and mathematics and 20 percent in programs related to those fields;
- Complete facilities and infrastructure, including the Science and Technology Building, Phase I of the Wellness Center, and a residence hall or halls containing no fewer than 190 beds; and
- Have the ability to provide, either directly or where feasible through a shared services model, administration of financial aid, admissions, student support, information technology, and finance and accounting with an internal audit function.

by the school district or by a virtual charter school operated in the district (section 1002.45(5), F.S.); school district operated part-time or full-time kindergarten through grade 12 virtual instruction programs for students enrolled in the school district (section 1002.455(3)(a), F.S.); full-time virtual charter school instruction (Id. at (3)(b)); and virtual courses offered in the course code directory to students within the school district or to students in other school districts throughout the state (*Id.* at (3)(c)).

[30] Section 1002.45, F.S.

[31] Section 1002.37(8)(a), F.S.

[32] Sec. 1, ch. 2012-129, L.O.F.

[33] Section 1000.21(6), F.S. Florida Polytechnic University is one of the 12 state universities in Florida. The other state universities are the University of Florida, Florida State University, Florida Agricultural and Mechanical University, the University of South Florida, Florida Atlantic University, the University of West Florida, the University of Central Florida, The University of North Florida, Florida International University, Florida Gulf Coast University, and New College of Florida.

[34] The date by which Florida Polytechnic University must fulfill those criteria was modified from December 31, 2016 to December 31, 2017, by section 30 the implementing bill to the 2016-2017 General Appropriations Act.

Commissioner of Education

The Commissioner of Education (Commissioner) is appointed by the State Board of Education (SBE)[35] and serves as the Executive Director of the DOE.[36] The Commissioner is the chief educational officer of the state, and is responsible for giving full assistance to the SBE in enforcing compliance with the mission and goals of the K-20 education system except for the State University System.[37] The commissioner's office operates all statewide functions necessary to support the State Board of Education, including strategic planning and budget development, general administration, assessment, and accountability.[38]

The DOE is responsible to coordinate, when necessary, the use of educational facilities during emergency activations among federal and state agencies, local school districts, colleges and universities.[39] The DOE also serves as the primary liaisons in coordinating all phases of emergency response from pre-disaster planning through post disaster recovery of educational facilities.[40]

The DOE has a process in place to gather information from superintendents, Florida College System institution presidents, VR directors, and Blind Services directors when an emergency situation has occurred and a process to report the needs.[41] DOE staff members are assigned to serve as contacts (called "Emergency Buddies") to all school districts and colleges.[42] In an emergency situation, the Commissioner activates the Emergency Buddies for the affected areas of the state. The Emergency Buddies contact their assigned districts and colleges and collect specific information.[43] The headquarters offices for the Divisions of Blind Services and Vocational Rehabilitation perform the same function for their offices[44]. The information from each specified education sector is provided to the department's emergency management staff to be compiled into a summary report for the Commissioner.[45]

Early Childhood Music Education Incentive Pilot Program

Florida's state standards for visual and performing arts establish specific curricular content and include distinct grade level expectations for the core content knowledge and skills that a student is expected to acquire by each grade level from kindergarten through grade 5.[46]

[45] *Id.*
[46] Section 1003.41(2)(e), F.S.

Current law[47] requires the Commissioner of Education to publish an annual report that describes student access and participation in fine arts courses and provides information about educators who instruct fine arts, facilities where the instruction is taking place, and the manner in which the curricular content is provided. The report must be posted on the DOE's website and updated annually.[48]

According to data from the 2015-2016 annual report,[49] the number of K-2 students enrolled statewide in music education programs as a percentage of total K-2 student enrollment has decreased. In the 2011-2012 school year, there were 575,262 K-2 students enrolled in music education programs (87 percent). By the 2015-2016 school year, K-2 student enrollment in music education programs had decreased to 513,648 (82 percent).

In some school districts, there is no reported K-2 student enrollment in music education programs.[50]

III. Effect of Proposed Changes:

The bill codifies responsibilities for the Auditor General, extends the date by which Florida Polytechnic University must meet statutory criteria, expands the authority of the Commissioner of Education, and establishes the Early Childhood Music Education Incentive Pilot Program.

Auditor General (Section 1)

Section 1 codifies the requirement for the Auditor General to conduct financial audits of accounts and records of the Florida School for the Deaf and the Blind.

Worker's Compensation Coverage (Sections 2 and 3)

Sections 2 and 3 amend ss. 413.011 and 413.209, F.S., respectively, to require that individuals who participate in an on-the-job training activity through the DBS or the VR be deemed an employee of the state for purposes of workers' compensation coverage.

Virtual Instruction (Section 5, 6, 7, 8, 11, 12, and 13)

Section 5 amends s. 1002.31, F.S., to expand available controlled open enrollment options to include virtual charter schools and district virtual programs.

---

[50] School districts with no reported student enrollment include Dixie, Franklin, Gilchrist, Glades, Gulf, Hamilton, and Lafayette. *Id.*

Section 8 repeals s. 1002.455, F.S., to eliminate the eligibility requirements for student participation in virtual instruction through the Florida Virtual School and in virtual instruction programs. As a result, all students enrolled in public or private schools, or in a home education program are eligible to participate in virtual instruction.

Additionally, section 7 amends s. 1002.45, F.S., to modify student participation requirements related to virtual instruction program. Specifically, this section:

- Removes the requirement that student enrollment in a virtual instruction program be limited to a program provided by a school district or virtual charter school operated by the district in which the student resides. As a result, the bill may allow a student to enroll in virtual instruction provided by any school district or virtual charter school.
- Allows a student enrolled in a virtual instruction program or virtual charter school to take state assessment tests in the district in which the student enrolls, in addition to where the student resides. This section also specifies that if requested by the provider, the district of residence must provide the student with access to the district's testing facilities.

Sections 6, 11, 12, and 13 conform cross-references and make technical changes to ss. 1002.33, 1002.37, 1003.498, and 1011.62, F.S., respectively, to account for the repeal of s. 1002.455, F.S.

Florida Polytechnic University (Section 10)

Section 10 codifies the December 31, 2017, deadline by which the Florida Polytechnic University must meet the criteria established in law.[51]

Commissioner of Education (Section 4)

Section 4 expands the Commissioner of Education's (Commissioner) authority and responsibility for supporting all sectors during an emergency and will be helpful in securing necessary information in a timely manner before, during, and after any emergency situation.[52] This section emphasizes that all sectors should work with the Commissioner to assess needs and direct resources needed to return the facilities to operation as quickly as possible.[53]

Early Childhood Music Education Incentive Pilot Program (Section 9)

Section 9 establishes the three-year Early Childhood Music Education Incentive Pilot Program (pilot program) beginning with the 2017-2018 school year to assist selected school districts in implementing comprehensive music education programs for students in kindergarten through grade 2.

This section establishes school district eligibility requirements, which include the superintendent certifying to the Commissioner that the school district has established a comprehensive music education program that:

- Includes all students at the school enrolled in kindergarten through grade 2.

[51] Section 1004.345, F.S.
[52] Email, Florida Department of Education (March 17, 2017).
[53] *Id.*

- Is staffed by certified music educators.
- Provides music instruction for at least 30 consecutive minutes 2 days a week.
- Complies with class size requirements under s. 1003.03.
- Complies with the department's standards for early childhood music education programs for students in kindergarten through grade 2.

Section 9 requires the Commissioner to select school districts for participation in the pilot program, subject to legislative appropriation, based on the school district's proximity to the University of Florida (UF) and needs-based criteria established by the State Board of Education (SBE). Selected school districts must annually receive $150 per full-time equivalent student in kindergarten through grade 2 who is enrolled in a comprehensive music education program. This section provides that each selected school district must annually certify, in a format prescribed by the department, that the school district continues to meet initial eligibility requirements. If a selected school district fails to provide the annual certification for a fiscal year, the school district must return all funds received through the pilot program for that fiscal year.

Section 9 requires the UF's College of Education to evaluate the effectiveness of the pilot program by measuring student academic performance and the success of the program. The evaluation must include, but is not limited to, a quantitative analysis of student achievement and a qualitative evaluation of students enrolled in the comprehensive music education programs.

Section 9 authorizes the SBE to adopt rules to administer the pilot program.

The bill takes effect on July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Under this bill, private sector entities may experience a cost savings by not having to provide workers compensation coverage for a person participating in a Division of Blind Services (DBS) or Vocational Rehabilitation (VR) on-the-job-training.

C. Government Sector Impact:

The Division of Risk Management expects to incur additional claim costs for covering DBS and VR on-the-job training participants.[54]

The bill repeals s. 1002.455, F.S., relating to student eligibility for K-12 virtual instruction. These changes will open various virtual education options that are not currently available to students who did not attend public school in the prior year. The estimated fiscal impact to the Florida Education Finance Program (FEFP) to fund the expansion of student eligibility for public virtual education is expected to be absorbed within the FEFP calculation and is estimated at $4,363,075.

The bill authorizes the Commissioner of Education to select school districts to participate in the Early Childhood Music Education Incentive Pilot Program. Those participating districts must annually receive $150 per full-time equivalent student in kindergarten through grade 2 enrolled in a comprehensive music program contingent upon a legislative appropriation for the program.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 11.45, 413.011, 1001.10, 1002.31, 1002.33, 1002.37, 1002.45, 1003.498,1004.345, and 1011.62.

The bill creates the following sections of Florida Statutes: 413.209 and 1003.481.

This bill repeals section 1002.455 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS /CS by Appropriations on April 25, 2017:

[54] Department of Financial Services, *Legislative Bill Analysis for SB 868* (February 22, 2017).

The committee substitute:

- Requires that individuals who participate in an on-the-job training activity through the DBS or the VR be deemed an employee of the state for purposes of workers' compensation coverage.
- Repeals s. 1002.455, F.S., to eliminate the eligibility requirements for student participation in virtual instruction through the Florida Virtual School and in virtual instruction programs. As a result, all students enrolled in public or private schools, or in a home education program are eligible to participate in virtual instruction.
- Modifies student participation requirements related to virtual instruction program. Specifically, the committee substitute:
  - Removes the requirement that student enrollment in a virtual instruction program be limited to a program provided by a school district or virtual charter school operated by the district in which the student resides. As a result, the bill may allow a student to enroll in virtual instruction provided by any school district or virtual charter school.
  - Allows a student enrolled in a virtual instruction program or virtual charter school to take state assessment tests in the district in which the student enrolls, in addition to where the student resides. This section also specifies that if requested by the provider, the district of residence must provide the student with access to the district's testing facilities.

CS by Education on April 3, 2017

The committee substitute adds a provision to the bill, establishing the Early Childhood Music Education Incentive Pilot Program (pilot program) as a 3-school year program in the Department of Education to assist selected school districts in implementing comprehensive music education programs for students in kindergarten through grade 2. Specifically, the committee substitute:

- Provides eligibility criteria for school districts to participate in the pilot program.
- Requires the Commissioner of Education to select school districts based on specified criteria.
- Includes a provision to provide selected school districts $150 annually per FTE enrolled in the program, subject to legislative appropriation.
- Requires a participating school district to annually certify eligibility for the program.
- Requires the University of Florida's College of Education to evaluate the effectiveness of the program.
- Authorizes the State Board of Education to adopt rules to administer the pilot program provisions.

	.	
	.	

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment (with title amendment)

Between lines 61 and 62

insert:

Section 3. Paragraph (a) of subsection (2) of section 1002.31, Florida Statutes, is amended to read:

1002.31 Controlled open enrollment; Public school parental choice.—

(2)(a) Beginning by the 2017-2018 school year, as part of a school district’s or charter school’s controlled open enrollment

process, and in addition to the existing public school choice programs provided in s. 1002.20(6)(a), each district school board or charter school shall allow a parent from any school district in the state whose child is not subject to a current expulsion or suspension to enroll his or her child in and transport his or her child to any public school, including charter schools, virtual charter schools, and district virtual programs, that have ~~has~~ not reached capacity in the district, subject to the maximum class size pursuant to s. 1003.03 and s. 1, Art. IX of the State Constitution, if applicable. The school district or charter school shall accept the student, pursuant to that school district's or charter school's controlled open enrollment process, and report the student for purposes of the school district's or charter school's funding pursuant to the Florida Education Finance Program. A school district or charter school may provide transportation to students described under this section.

Section 4. Subsection (8) of section 1002.37, Florida Statutes, is amended to read:

1002.37 The Florida Virtual School.—

(8)(a) The Florida Virtual School may provide full-time and part-time instruction for students in kindergarten through grade 12. ~~To receive part-time instruction in kindergarten through grade 5, a student must meet at least one of the eligibility criteria in s. 1002.455(2).~~

(b) For students receiving part-time instruction ~~in kindergarten through grade 5~~ and students receiving full-time instruction ~~in kindergarten through grade 12~~ from the Florida Virtual School, the full-time equivalent student enrollment

calculated under this subsection is subject to the requirements in s. 1011.61(4).

Section 5. Subsection (5) and paragraph (b) of subsection (6) of section 1002.45, Florida Statutes, are amended to read:

1002.45 Virtual instruction programs.—

(5) STUDENT ELIGIBILITY.—A student may enroll in a full-time or part-time virtual instruction program in kindergarten through grade 12 which is provided by a ~~the~~ school district or by a virtual charter school ~~operated in the district in which he or she resides if the student meets eligibility requirements for virtual instruction pursuant to s. 1002.455~~.

(6) STUDENT PARTICIPATION REQUIREMENTS.—Each student enrolled in a virtual instruction program or virtual charter school must:

(b) Take state assessment tests within the school district in which such student resides or enrolls, as contractually specified. If requested by the provider, the district of residence ~~which~~ must provide the student with access to the district's testing facilities.

Section 6. Section 1002.455, Florida Statutes, is repealed.

Section 7. Subsection (1) of section 1002.33, Florida Statutes, is amended to read:

1002.33 Charter schools.—

(1) AUTHORIZATION.—Charter schools shall be part of the state's program of public education. All charter schools in Florida are public schools. A charter school may be formed by creating a new school or converting an existing public school to charter status. A charter school may operate a virtual charter school pursuant to s. 1002.45(1)(d) to provide full-time online

instruction to eligible students~~, pursuant to s. 1002.455,~~ in kindergarten through grade 12. An existing charter school that is seeking to become a virtual charter school must amend its charter or submit a new application pursuant to subsection (6) to become a virtual charter school. A virtual charter school is subject to the requirements of this section; however, a virtual charter school is exempt from subsections (18) and (19), subparagraphs (20)(a)2., 4., 5., and 7., paragraph (20)(c), and s. 1003.03. A public school may not use the term charter in its name unless it has been approved under this section.

Section 8. Subsection (2) of section 1003.498, Florida Statutes, is amended to read:

1003.498 School district virtual course offerings.—

(2) School districts may offer virtual courses for students enrolled in the school district. These courses must be identified in the course code directory. ~~Students who meet the eligibility requirements of s. 1002.455 may participate in these virtual course offerings.~~

(a) Any eligible student who is enrolled in a school district may register and enroll in an online course offered by his or her school district.

(b)1. Any eligible student who is enrolled in a school district may register and enroll in an online course offered by any other school district in the state. The school district in which the student completes the course shall report the student's completion of that course for funding pursuant to s. 1011.61(1)(c)1.b.(VI), and the home school district <u>may</u> ~~shall~~ not report the student for funding for that course.

2. The full-time equivalent student membership calculated

under this subsection is subject to the requirements in s. 1011.61(4). The Department of Education shall establish procedures to enable interdistrict coordination for the delivery and funding of this online option.

Section 9. Subsection (11) of section 1011.62, Florida Statutes, is amended to read:

1011.62 Funds for operation of schools.—If the annual allocation from the Florida Education Finance Program to each district for operation of schools is not determined in the annual appropriations act or the substantive bill implementing the annual appropriations act, it shall be determined as follows:

(11) VIRTUAL EDUCATION CONTRIBUTION.—The Legislature may annually provide in the Florida Education Finance Program a virtual education contribution. The amount of the virtual education contribution shall be the difference between the amount per FTE established in the General Appropriations Act for virtual education and the amount per FTE for each district and the Florida Virtual School, which may be calculated by taking the sum of the base FEFP allocation, the discretionary local effort, the state-funded discretionary contribution, the discretionary millage compression supplement, the research-based reading instruction allocation, and the instructional materials allocation, and then dividing by the total unweighted FTE. This difference shall be multiplied by the virtual education unweighted FTE for <u>school district-operated part-time and full-time virtual instruction programs, full-time virtual charter school programs, virtual courses offered,</u> ~~programs and options identified in s. 1002.455(3)~~ and the Florida Virtual School and

416750

its franchises to equal the virtual education contribution and shall be included as a separate allocation in the funding formula.

and insert:

in an emergency situation; amending s. 1002.31, F.S.; revising available controlled open enrollment options to include virtual charter schools and district virtual programs; amending ss. 1002.37 and 1002.45, F.S.; revising student eligibility requirements for the Florida Virtual School and virtual instruction programs; repealing s. 1002.455, F.S., relating to student eligibility for K-12 virtual instruction; amending ss. 1002.33, 1003.498, and 1011.62, F.S.; conforming provisions to changes made by the act; creating s. 1003.481, F.S.;

By the Committee on Education; and Senator Galvano

581-03348-17 20171468c1

A bill to be entitled

An act relating to education; amending s. 11.45, F.S.; requiring the Auditor General to conduct annual audits of the Florida School for the Deaf and the Blind; amending s. 1001.10, F.S.; authorizing the Commissioner of Education to coordinate with specified entities to assess needs for resources and assistance in an emergency situation; creating s. 1003.481, F.S.; creating the Early Childhood Music Education Incentive Pilot Program within the Department of Education for a specified period; providing for school district eligibility; providing comprehensive music education program requirements; providing for school district selection, funding, and program payments; requiring selected school districts to annually provide a specified certification to the Commissioner of Education; requiring a selected school district to return funds under certain circumstances; requiring the University of Florida's College of Education to perform an evaluation; authorizing the State Board of Education to adopt rules; providing for expiration of the pilot program; amending s. 1004.345, F.S.; extending the timeframe by which the Florida Polytechnic University must meet specified criteria established by the Board of Governors of the State University System; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

581-03348-17 20171468c1

Section 1. Upon the expiration and reversion of the amendment to section 11.45, Florida Statutes, pursuant to section 36 of chapter 2016-62, Laws of Florida, paragraph (d) of subsection (2) of section 11.45, Florida Statutes, is amended to read:

11.45 Definitions; duties; authorities; reports; rules.—

(2) DUTIES.—The Auditor General shall:

(d) Annually conduct financial audits of the accounts and records of all district school boards in counties with populations of fewer than 150,000, according to the most recent federal decennial statewide census, and the Florida School for the Deaf and the Blind.

The Auditor General shall perform his or her duties independently but under the general policies established by the Legislative Auditing Committee. This subsection does not limit the Auditor General's discretionary authority to conduct other audits or engagements of governmental entities as authorized in subsection (3).

Section 2. Subsection (8) is added to section 1001.10, Florida Statutes, to read:

1001.10 Commissioner of Education; general powers and duties.—

(8) In the event of an emergency, the commissioner may coordinate through the most appropriate means of communication with local school districts, Florida College System institutions, and satellite offices of the Division of Blind Services and the Division of Vocational Rehabilitation to assess the need for resources and assistance to enable each school,

institution, or satellite office the ability to reopen as soon as possible after considering the health, safety, and welfare of students and clients.

Section 3. Section 1003.481, Florida Statutes, is created to read:

1003.481 Early Childhood Music Education Incentive Pilot Program.—

(1) Beginning with the 2017-2018 school year, the Early Childhood Music Education Incentive Pilot Program is created within the Department of Education for a period of 3 school years. The purpose of the pilot program is to assist selected school districts in implementing comprehensive music education programs for students in kindergarten through grade 2.

(2) In order for a school district to be eligible for participation in the pilot program, the superintendent must certify to the Commissioner of Education, in a format prescribed by the department, that each elementary school within the district has established a comprehensive music education program that:

(a) Includes all students at the school enrolled in kindergarten through grade 2.

(b) Is staffed by certified music educators.

(c) Provides music instruction for at least 30 consecutive minutes 2 days a week.

(d) Complies with class size requirements under s. 1003.03.

(e) Complies with the department's standards for early childhood music education programs for students in kindergarten through grade 2.

(3)(a) The commissioner shall select school districts for

participation in the pilot program, subject to legislative appropriation, based on the school district's proximity to the University of Florida and needs-based criteria established by the State Board of Education. Selected school districts shall annually receive $150 per full-time equivalent student in kindergarten through grade 2 who is enrolled in a comprehensive music education program.

(b) To maintain eligibility for participation in the pilot program, a selected school district must annually certify to the commissioner, in a format prescribed by the department, that each elementary school within the district provides a comprehensive music education program that meets the requirements of subsection (2). If a selected school district fails to provide the annual certification for a fiscal year, the school district must return all funds received through the pilot program for that fiscal year.

(4) The University of Florida's College of Education shall evaluate the effectiveness of the pilot program by measuring student academic performance and the success of the program. The evaluation must include, but is not limited to, a quantitative analysis of student achievement and a qualitative evaluation of students enrolled in the comprehensive music education programs.

(5) The State Board of Education may adopt rules to administer this section.

(6) This section expires June 30, 2020.

Section 4. Upon the expiration and reversion of the amendment to section 1004.345, Florida Statutes, pursuant to section 36 of chapter 2016-62, Laws of Florida, subsection (1) of section 1004.345, Florida Statutes, is amended to read:

1004.345 The Florida Polytechnic University.—

(1) By December 31, 2017 ~~2016~~, the Florida Polytechnic University shall meet the following criteria as established by the Board of Governors:

(a) Achieve accreditation from the Commission on Colleges of the Southern Association of Colleges and Schools;

(b) Initiate the development of the new programs in the fields of science, technology, engineering, and mathematics;

(c) Seek discipline-specific accreditation for programs;

(d) Attain a minimum FTE of 1,244, with a minimum 50 percent of that FTE in the fields of science, technology, engineering, and mathematics and 20 percent in programs related to those fields;

(e) Complete facilities and infrastructure, including the Science and Technology Building, Phase I of the Wellness Center, and a residence hall or halls containing no fewer than 190 beds; and

(f) Have the ability to provide, either directly or where feasible through a shared services model, administration of financial aid, admissions, student support, information technology, and finance and accounting with an internal audit function.

Section 5. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 784 (314566)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Gainer and others
SUBJECT:	Department of Highway Safety and Motor Vehicles
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jones	Miller	TR	**Fav/CS**
2.	Wells	Pitts	ATD	**Recommend: Fav/CS**
3.	Wells	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 784 makes numerous changes relating to the Department of Highway Safety and Motor Vehicles (DHSMV). Specifically, the bill:

- Creates a definition of an autocycle, requires occupants of autocycles to wear safety belts, and exempts drivers of autocycles from being required to have a motorcycle endorsement or motorcycles license, or from completing motorcycle knowledge and skills testing in order to operate the autocycle;
- Allows volunteer firefighters to use red and white, in addition to red, warning signals;
- Updates various commercial motor vehicle (CMV) regulations to address compatibility issues with federal law;
- Allows a person without a driver license to operate an autonomous vehicle in autonomous mode if the person cannot take control of the vehicle;
- Applies certain insurance coverage requirements, should legislation addressing insurance for transportation network companies (TNCs) become law, to autonomous vehicles used by TNCs to provide transportation, regardless of whether a human operator is physically present in the vehicle when the ride occurs;
- Authorizes a board of county commissioners to require, by ordinance, that the clerk of court collect an additional $5 with each *criminal*, instead of *civil* traffic penalty, which is used to fund driver education programs in schools;

- Changes "construction zone" to "work zone" for the purpose of double speeding penalties in such zones if required signs are posted and workers are present;
- Requires interstate charter buses to register as apportionable vehicles;
- Changes references to the organization "Prevent Blindness Florida" to "Preserve Vision Florida";
- Requires tax collectors perform the same motor vehicle registration and driver license services for non-county residents as they do for their home county residents;
- Effective July 1, 2018, expands the allowable operations and authorized agents of the DHSMV electronic filing system;
- Increases the time-frame apportionable vehicles must replace their license plates from annually to every five years;
- Allows a person driving a rental vehicle who is stopped by a law enforcement officer or agent of the DHSMV to show an electronic copy of a rental agreement;
- Revises the eligibility requirement for the agricultural restricted license plate to allow certain agricultural trucks that operate within the state, instead of within a 150-mile radius of the truck's home address, be eligible for the restricted license plate;
- Removes specialty license plates from statute that have been discontinued by the DHSMV;
- Authorizes a trailer to be considered a motor vehicle for purposes of receiving specified license plates;
- Creates a Purple Heart motorcycle license plate and a Bronze Star license plate;
- Clarifies the definition of motor vehicle dealers and motor vehicle brokers;
- Makes numerous changes to transporter license plates, including requiring more information from applicants for transporter plates and adding penalties for the misuse of such plates;
- Requires DHSMV work with the Agency for State Technology to provide digital proof of driver licenses;
- Allows a person diagnosed with posttraumatic stress disorder (PTSD) or traumatic brain injury (TBI) to be eligible to receive a "D" designation on his or her identification (ID) card;
- Increases the amount of time a Florida Highway Patrol (FHP) trooper must stay employed with the FHP to avoid having to reimburse training costs from two years to three years;
- Revises DHSMV reporting requirements relating to driver license suspensions for persons who do not meet school attendance requirements;
- Authorizes tax collectors to retain fees or a portion of fees when they administer subsequent driver license examinations or reinstate licenses;
- Allows the DHSMV to issue a no-fee replacement identification card upon proof to the DHSMV that the card was stolen;
- Provides the option for expedited shipping of a driver license or identification card;
- Removes an obsolete provision relating to specialty driver licenses; and
- Allows for-hire passenger vehicles be insured by an eligible surplus lines insurer and modifies certain insurance limits;
- Prohibits a person from using any device prohibited by the Federal Communications Commission which would cause interference with the legal use of a global positioning system to track vehicles; and
- Amends numerous cross-references to reflect changes made by the bill.

The bill is intended to address a broad range of federal compliance, customer service and administrative efficiency issues; however, these changes have various indeterminate impacts on state revenues and expenditures.

The Revenue Estimating Conference (REC) reviewed identical sections of the bill on March 10, 2017.1 The REC estimates that replacing stolen identification cards at no charge to a customer (section 36 of the bill) will have an insignificant negative impact to the General Revenue Fund until Fiscal Years 2020 through 2022, when it will have a negative impact of $100,000 annually.

The REC estimates that allowing local tax collectors to retain fees or portions of fees for administering subsequent driver license examinations or reinstating licenses (sections 34and 37) will shift approximately $5 million from the Highway Safety Operating Trust Fund each year to the local tax collectors.

Additionally, the REC estimates, authorizing expedited shipping fees for driver licenses and identification cards (section 37) will have an indeterminate impact in revenues to the extent that expedited shipping is requested.

Except otherwise provided, the bill takes effect October 1, 2017.

II. Present Situation:

Due to the disparate issues in the bill, the present situation for each section is discussed below in conjunction with the Effect of the Proposed Changes.

III. Effect of Proposed Changes:

Autocycles (Sections 1, 6, 11, 29, and 34)

Present Situation

An autocycle is commonly defined as a three-wheel motorcycle that has a steering wheel and seating that does not require the operator to straddle or sit astride it.[2] The term "autocycle" is not defined in federal law; however, as of February 2016, at least 22 states have created statutory definitions for an autocycle.[3] Currently, the DHSMV registers autocycles as motorcycles.[4] This means operators of autocycles, generally, are not required to maintain insurance[5] or wear safety belts[6], but are required to:

[4] DHSMV Technical Advisory RS/TL16-015, *Registering the Slingshot* (June 20, 2016), *available at* https://www.flhsmv.gov/dmv/bulletins/2016/ta_rstl16-015.pdf
[5] See ch. 324, F.S., on Motor Vehicle Financial Responsibility.
[6] See s. 316.614(3)(a)5., F.S.

- Maintain a motorcycle endorsement or motorcycle license;[7]
- Wear a helmet, unless over 21 years of age with at least $10,000 of medical insurance or riding in an enclosed cab;[8] and
- Wear eye protection[9];

Since autocycles share more characteristics with passenger motor vehicles than motorcycles, some of the motorcycle requirements, or lack of requirements, may or may not be necessary for autocycles. For example, studies suggest a motorcycle endorsement or motorcycle license should not be required for operating an autocycle.[10] Motorcycle rider courses primarily focus on operating a motorcycle in which the operator sits astride the saddle and uses handlebars, while using his or her body weight, balance, and position on the motorcycle to corner or stop; however, operating an autocycle requires mechanics similar to a passenger motor vehicle. At least 21 states do not require a motorcycle endorsement or motorcycle license to operate an autocycle.[11]

There is little research or crash data available concerning the safety of autocycles. Since autocycles fall under the definition of a motorcycle they are only required to meet the federal safety standards required for motorcycles; thus, autocycles are not required to meet the crash safety standards or occupant safety criteria that a regular passenger motor vehicle is required to meet. The National Highway Traffic Safety Administration (NHTSA) has concerns that the overall appearance of autocycles, being closer to the appearance of a car than a motorcycle, may cause people to think autocycles are as safe as passenger motor vehicles.[12]

Effect of Proposed Changes

Section 1 amends s. 316.003, F.S., defining an autocycle as a three-wheel motorcycle that has two wheels in the front and one wheel in the back, is equipped with a roll cage or roll hoops, safety belts for each occupant, antilock brakes, a steering wheel, and seating that does not require the operator to straddle or sit astride it and is manufactured by a National Highway Traffic Safety Administration (NHTSA) registered manufacturer in accordance with the applicable federal motorcycle safety standards.

Sections 1 and 11 include an autocycle in the definition of a motorcycle. Also, the definition of motorcycle is amended to exempt a vehicle in which the operator is enclosed by a cabin unless the vehicle meets the requirements set forth by the NHTSA for a motorcycle.

Section 6 amends s. 316.614, F.S., to require that the operator, front seat passenger, and any passenger under the age of 18 years old in an autocycle wear a safety belt.

Sections 29 and 34 amend ss. 322.03 and 322.12, F.S., respectively, to exempt operators of an autocycle from needing a motorcycle endorsement or motorcycle license, and from needing to complete motorcycle skills and motorcycle knowledge testing to operate an autocycle.

[7] Section 322.03(4), F.S.
[8] Section 316.211, F.S.
[9] Section 316.211(2), F.S.

[11] NCSL, *supra* note 2
[12] AAMVA, *supra* note 2 at p. 2

Volunteer Firefighters – Red and White Warning Signals (Sections 2, 3, and 28)

Present Situation

Section 316.2397, F.S., authorizes vehicles of the fire department and fire patrol, including vehicles of permitted volunteer firefighters, to show or display red warning signals. Specifically, active volunteer firefighters are authorized to display such red lights or warning signals if the volunteer firefighter has secured a written permit from the chief executive officers of the firefighting organization allowing the use of such signals. This permit is required to be carried at all times while the firefighter displays the red warning signals. The active firefighter may display red lights on their privately owned vehicle while en route to a fire or other emergency in the line of duty, or while en route to the fire station for the purpose of proceeding to a fire or other emergency.[13]

Section 316.2398, F.S., requires that the warning signals must be visible from the front and rear of the vehicle, and requires:

- No more than two red warning signals may be displayed; and
- No inscription of any kind may appear across the face of the lens of the warning signal.

A violation of these requirements is a nonmoving violation, punishable as provided in ch. 318, F.S.[14], and any volunteer firefighter who violates these requirements shall be dismissed from membership in the firefighting organization.[15]

Effect of Proposed Changes

Sections 2, 3, and 19 amend ss. 316.2397, 316.2398, and 322.01, F.S., respectively, to provide that volunteer firefighters may use red or *red and white* warning signals where provided by law. Additionally, the bill removes the prohibition on the number of warning signals a volunteer firefighter or medical staff may use; instead, the responding agency may determine the number of warning signals that may be displayed on the responding vehicle to maintain public safety and the safety of the responding vehicle occupants.

Wrecker Lights (Section 2)

Present Situation

Section 316.2397, F.S., requires wreckers use amber rotating or flashing lights while performing recoveries and loading on the roadside day or night, and they may use such lights while towing a vehicle on wheel lifts, slings, or under reach if the operator deems such lights necessary. Additionally, a flatbed, car carrier, or rollback may not use such lights when hauling a vehicle unless it creates a hazard to other motorists because of protruding objects.

[13] Section 316.2398(1), F.S.
[14] Chapter 318.18, F.S., provides that a nonmoving traffic violation is a $30 penalty plus court costs. This could result in a penalty and costs totaling up to $108.
[15] Section 316.2398(5), F.S.

Effect of Proposed Changes

Section 2 amends s. 316.2397, F.S., to remove the prohibition against flatbeds, car carriers, or rollbacks from using amber rotating or flashing lights when hauling vehicles. The section requires such vehicles, when registered as wreckers pursuant to s. 320.08(5)(d) or (e), F.S., use amber rotating or flashing lights while performing recoveries and loading on the roadside, and authorizes the use of such lights if the operator of the wrecker deems such lights necessary.

Federal Motor Carrier Safety Administration Compatibility (Section 4)

Present Situation

The Federal Motor Carrier Safety Administration (FMCSA) was established within the United States Department of Transportation on January 1, 2000. Its primary mission is to prevent commercial motor vehicle (CMV)-related fatalities and injuries.[16]

Section 316.302, F.S., provides that all owners and drivers of CMVs[17] operated on the public highways of this state while engaged in *interstate* commerce are subject to the rules and regulations contained in the following parts of the Federal Motor Carrier Safety Regulations[18]:

- Part 382, Controlled Substance and Alcohol Use and Testing;
- Part 385, Safety Fitness Procedures;
- Part 390, General Federal Motor Carrier Safety Regulations;
- Part 391, Qualifications of Drivers;
- Part 392, Driving of Commercial Motor Vehicles;
- Part 393, Parts and Accessories Necessary for Safe Operation;
- Part 395, Hours of Service of Drivers;
- Part 396, Inspection, Repair, and Maintenance; and
- Part 397, Transportation of Hazardous Materials; Driving and Parking Rules.

Owners and drivers of CMVs engaged in *intrastate* commerce are subject to the same rules and regulations, unless otherwise provided in s. 316.302, F.S., as such rules and regulations existed on December 31, 2012.[19] To remain compatible with the Federal Motor Carrier Safety Regulations, states generally have up to three years from the effective date of new federal requirements to adopt and enforce such requirements.[20] States that remain incompatible risk losing federal funding. A 2007 Florida State Motor Carrier Safety Assistance Program (MCSAP) review found that the Florida Statutes contain multiple compatibility issues.[21]

[16] FMCSA website, *About Us, available at* https://www.fmcsa.dot.gov/mission/about-us (last visited Feb. 23, 2017).
[17] Section 316.003(12), F.S., defines "commercial motor vehicle" as "any self-propelled or towed vehicle used on the public highways in commerce to transport passengers or cargo, if such vehicle: (a) Has a gross vehicle weight rating of 10,000 pounds or more; (b) Is designed to transport more than 15 passengers, including the driver; or (c) Is used in the transportation of materials found to be hazardous for the purposes of the Hazardous Materials Transportation Act, as amended (49 U.S.C. ss. 1801 et seq.)."
[18] 49 C.F.R. ch. III, subchapter B.
[19] Section 316.302(1)(b), F.S.
[20] 49 C.F.R. *Appendix A to Part 355 – Guidelines for the Regulatory Review – State Determinations* (2016)
[21] 2007 Florida State MCSAP Review, *Summary Findings, Recommendations, and Noteworthy Practices* (June 2007) (on file with the Senate Committee on Transportation).

2007 Florida State MCSAP Review Findings

Section 316.302(1)(b), F.S., provides an exception from 49 C.F.R. s. 390.5 as it relates to the definition of a bus, which is defined as "any motor vehicle designed, constructed, and/or used for the transportation of passengers, including taxicabs." Florida law excludes taxicabs from the definition of a bus.[22] The MCSAP Review noted that Florida Statutes "exempting, from the definition of a bus, taxicabs as it applies to the intrastate private transportation of passengers, is not compatible" with Federal law.[23]

Federal law prohibits certain lamps and reflective devices from being obscured on CMVs.[24] However, s. 316.215(5), F.S., provides an exception from this requirement for front-end loading collection vehicles that are engaged in collecting solid waste or recyclable or recovered materials, and are being operated at less than 20 miles per hour with hazard-warning lights activated. According to the MCSAP review, federal law provides no such exemption.[25]

Section 316.302(2)(d), F.S., provides an exemption from compliance with 49 C.F.R. s. 395.8, requiring driver's record of duty status, for drivers of CMVs if the driver:

- Is operating solely in intrastate commerce;
- Is not transporting any hazardous materials in amounts that require placarding[26];
- Is within 150-air miles of the vehicle's base location; and
- Complies with specific federal requirements relating to hours of service.[27]

Additionally, state law provides that if a driver is not released from duty within 12 hours of arriving on duty, the motor carrier must maintain documentation of the driver's driving times throughout the duty period. The MCSAP review found that the exemption and alternate records requirement contained in s. 316.302(2)(d), F.S., does not comply with federal regulations because the federal exemption also requires that the driver return to the work reporting location and is released from work within 12 consecutive hours.[28]

Federal law allows a state to exempt a CMV from all or part of its laws or regulations relating to intrastate commerce if the vehicle's gross vehicle weight, gross vehicle weight rating, gross combined weight, or gross combined weight rating is less than 26,001, and the vehicle is not:

- Transporting hazardous materials requiring a placard; or
- Designed or used to transport 16 or more people, including the driver.[29]

However, s. 316.302(2)(f), F.S., provides exemptions from federal laws or regulations for a person who operates a CMV solely in intrastate commerce, having a *declared* gross vehicle weight of less than 26,001 pounds, and who is not transporting hazardous materials in an amount that requires placarding, or who is transporting petroleum products. According to the MCSAP

[22] Section 316.003(6), F.S.
[23] 2007 Florida State MCSAP Review, *supra* note 20 at p. 2, *FL/FI-1*.
[24] 49 C.F.R. s. 393.9(b)
[25] 2007 Florida State MCSAP Review, *supra* note 20 at p. 4, *FL/FI-7*.
[26] Pursuant to 49 C.F.R. part 172
[27] As provided in 49 C.F.R. s. 395.1(e)(1)(iii) and (v).
[28] 2007 Florida State MCSAP Review, *supra* note 20 at p. 5, *FL/FI-8*.
[29] 49 C.F.R. s. 350.341(a)

Review, the State interprets this statute as exempting such vehicles transporting petroleum products even if a hazardous materials placard is required, which is not in compliance with federal regulations.[30]

Maximum Driving Time

Section 316.302(2), F.S., provides prohibitions to length of time CMV drivers may drive, as well as exemptions from federal requirements for specified vehicles. Section 316.302(2)(b), F.S., provides that a person who operates a CMV solely in intrastate commerce without any hazardous materials in amounts requiring placarding may not drive:

- More than 12 hours following 10 consecutive hours off duty; or
- For any period after the end of the 16th hour after coming on duty following 10 consecutive hours off duty.

Except as provided in the federal hours of service rules[31], a person operating a CMV solely in intrastate commerce not transporting any hazardous material may not drive after having been on duty more than 70 hours in any period of seven consecutive days or more than 80 hours in any period of eight consecutive days if the motor carrier operates every day of the week.[32] Upon request of DHSMV, motor carriers are required to furnish time records or other written verification so that DHSMV can determine compliance with the hours of service requirements. Falsification of time records is subject to a civil penalty not to exceed $100.[33]

Effect of Proposed Changes

Section 4 amends multiple provisions in s. 316.302, F.S., addressing federal compatibility issues.

This section amends s. 316.302(1), F.S., to clarify that the section applies to all CMVs except as provided in s. 316.302(3), F.S., relating to covered farm vehicles.

This section amends s. 316.302(1)(b), F.S., to remove an exception to federal law as it relates to the definition of a bus.

This section adopts federal laws that intrastate CMV owners and drivers are required to comply with as such federal rules and regulations existed on December 31, 2016.[34] Examples of some of the regulations adopted that directly affect intrastate CMVs include:

- Amending the definition of *gross combination weight rating* to provide clarification;[35] and

[30] 2007 Florida State MCSAP Review, *supra* note 20 at p. 5, *FL/FI-3*.
[31] 49 C.F.R. s. 395.1
[32] Section 316.302(2)(c), F.S.
[33] This penalty is found in 316.302(2)(c), F.S.; However, s. 316.3025, F.S., relating to CMV penalties, provides that a penalty of $100 may be assessed for a violation of s. 316.302(2)(b) or (c), F.S.
[34] A list of Final Rules adopted as of December 31, 2016, that affect FMCSA rules and regulations are available on the FMCSA website, *Rulemaking Documents, available at* https://www.fmcsa.dot.gov/regulations/search/rulemaking?keyword=&dt=final&topic= (last visited Mar. 13, 2017).
[35] Gross Combination Weight Rating; Definition, 79 Fed. Reg. 15245 (Mar. 19, 2014), *available at* https://www.federalregister.gov/documents/2014/03/19/2014-05502/gross-combination-weight-rating-definition (last visited Mar. 13, 2017).

- Requiring the use of a Unified Registration System to submit required registration and biennial update information to the FMCSA.[36]

However, s. 316.302(1)(e), F.S., is created to delay the requirement for electronic logging devices and hours of service support documents[37] for intrastate motor carriers, not carrying hazardous materials in amounts requiring placarding, until December 31, 2018.

This section amends s. 316.302(1)(d), F.S., to remove an exemption from federal law allowing specified CMVs to obscure certain lighting or reflective devices.

Due to changes in federal law, the section amends s. 316.302(2)(a), F.S., to provide clarity that drivers of intrastate CMVs that are not transporting hazardous materials requiring placarding are exempt from 49 C.F.R. s. 395.3, which provides maximum driving times for property-carrying vehicles. These drivers continue to be subject to the maximum driving times required by state law.

This removes a duplicate penalty for falsifying hours of service records from s. 316.302(2)(c), F.S.

Section 316.302(2)(d), F.S., is amended to provide that to be exempt from being required to maintain records of duty status for short-haul drivers the driver must also return to the work reporting location and be released from work within 12 consecutive hours.

Lastly, the section amends s. 316.302(2)(f), F.S., to remove specified exemptions for drivers transporting petroleum products. The section also removes that these exemptions apply when a CMV has a *declared* gross vehicle weight of less than 26,001 pounds. This criterion is changed to CMVs having a *gross vehicle weight*, *gross vehicle weight rating*, *and gross combined weight rating* of less than 26,001 pounds.

Commercial Motor Vehicle Operator Disqualifications (Sections 5 and 38)

Present Situation

Federal and state laws prohibit drivers of commercial motor vehicles from texting while driving a commercial motor vehicle (CMV) and from using a hand-held mobile telephone while driving a CMV.[38] Section 316.3025, F.S., provides that a driver who violates these laws may be assessed a civil penalty of:

- $500 for the first violation;
- $1,000 and a 60-day CDL disqualification for a second violation; and
- $2,750 and a 120-day CDL disqualification for a third and subsequent violation.

[36] Unified Registration System, 78 Fed. Reg. 52607 (Aug. 23, 2013), *available at* https://www.federalregister.gov/documents/2013/08/23/2013-20446/unified-registration-system (last visited Mar. 13, 2017). However, the system is currently delayed until all necessary data is transferred to the new database and that is compatible with State partners. See 82 Fed. Reg. 5292.

[37] Electronic Logging Devices and Hours of Service Supporting Documents, 80 Fed. Reg. 78291 (Dec. 16, 2015), *available at* https://www.federalregister.gov/documents/2015/12/16/2015-31336/electronic-logging-devices-and-hours-of-service-supporting-documents (last visited Mar. 6, 2017).

[38] See 49 C.F.R. ss. 392.80 and 392.82, and s. 316.3025, F.S.

However, federal law requires the 60 and 120-day CDL disqualification for these offenses to be assessed for any combination of certain serious traffic violations during a 3-year period. Specifically, federal law requires, for offenses occurring within a 3-year period while operating a CMV, a 60-day CDL disqualification for a second conviction and a 120-day CDL disqualification for a third or subsequent conviction of any combination of the following offenses[39]:

- Excessive speeding (15 mph or more over the posted speed limit);
- Reckless driving;
- Improper lane changes;
- Following too closely;
- A violation of any state or local law relating to motor vehicle traffic control arising in connection with a fatal accident;
- Driving a CMV:
  - Without obtaining a CDL;
  - Without a CDL in the driver's possession;
  - Without the proper class of CDL or endorsements required;
- Violating a state or local law or ordinance on motor vehicle traffic control prohibiting:
  - Texting while driving a CMV; or
  - Use of a hand-held mobile telephone while driving a CMV.

With the exception of texting while driving a CMV and the use of a hand-held mobile phone while driving a CMV, the above penalties and offenses are in state law.[40] To align with federal law, these two offenses need to be added to the list of disqualifying offenses in s. 316.3025, F.S. According to the DHSMV, non-compliance could result in a loss of federal highway funds.[41]

Effect of Proposed Changes

Sections 5 and 38 amend ss. 316.3025 and 322.61, F.S., respectively, to remove the commercial driver license disqualification penalty for texting while driving a CMV and using a hand-held mobile telephone while driving a CMV from s. 316.3025, and adds those offenses to the list of serious disqualifying offenses while operating a commercial motor vehicle listed in s. 322.61, F.S. This change aligns Florida law with federal regulations.

Autonomous Vehicle Operation (Section 7)

Present Situation

Section 316.003(2), F.S., defines "autonomous vehicle" as any vehicle equipped with autonomous technology. That subsection also includes a definition of "autonomous technology," which means technology installed on a motor vehicle that has the capability to drive the vehicle on which the technology is installed *without the active control or monitoring by a human*

[39] 49 C.F.R. s. 383.51 (2015), *Table 2, available at* https://www.gpo.gov/fdsys/pkg/CFR-2015-title49-vol5/pdf/CFR-2015-title49-vol5-subtitleB-chapIII-subchapB.pdf at p. 206-207 (last visited Feb 9, 2017).
[40] See s. 322.61(1), F.S.
[41] Meeting with the DHSMV and Senate Transportation Committee Staff (Jan. 23, 2017).

operator.[42] If a vehicle is equipped with technology that requires active control or monitoring by a human operator, that vehicle does not meet the definition of "autonomous vehicle" under Florida law.

Section 316.85, F.S., authorizes a person who possesses a valid driver license to operate an autonomous vehicle in autonomous mode on roads in this state if the vehicle is equipped with autonomous technology as defined in s. 316.003(2), F.S. A person is deemed the operator of an autonomous vehicle operating in autonomous mode when the person causes the vehicle's autonomous technology to engage, regardless of whether the person is physically present in the vehicle while the vehicle is operating in autonomous mode. Thus, under Florida law, an autonomous vehicle may be operated in autonomous mode even if a person is not physically present in the vehicle.

Section 319.145, F.S., requires autonomous vehicles registered in this state to:

- Have a system to safely alert the operator if an autonomous technology failure is detected while the technology is engaged. When an alert is given, the *system* must:
  - Require the operator to take control of the autonomous vehicle; or
  - If the operator does not, or is not able to, take control of the autonomous vehicle, be capable of bringing the vehicle to a complete stop.
- Have a means inside the vehicle to visually indicate when the vehicle is operating in autonomous mode; and
- Be capable of being operated in compliance with the applicable traffic and motor vehicle laws of this state.

Effect of Proposed Changes

Section 7 amends s. 316.85, F.S., to allow a person who does not possess a valid driver license to engage autonomous technology to operate an autonomous vehicle in autonomous mode only if the person inside the vehicle cannot take control of the vehicle's operation or disengage the autonomous technology.

Autonomous Vehicles/Transportation Network Companies/Insurance (Section 8)

Present Situation

Technological advances have led to new methods for consumers to arrange and pay for transportation, including software applications that make use of mobile smartphone applications, Internet web pages, email, and text messages. Ridesharing companies, such as Lyft, Uber, and SideCar, describe themselves as "transportation network companies" (TNCs), rather than as vehicles for hire.

TNCs use smartphone technology to connect individuals who want to ride with private drivers for a fee. A driver logs onto a phone application and indicates the driver is ready to accept

[42] The latter definition does not include a motor vehicle enabled with active safety systems or driver assistance systems, including, without limitation, a system to provide electronic blind spot assistance, crash avoidance, emergency braking, parking assistance, adaptive cruise control, lane keep assistance, lane departure warning, or traffic jam and queuing assistant, unless any such system alone or in combination with other systems enables the vehicle on which the technology is installed *to drive without the active control or monitoring by a human operator.*

passengers. Potential passengers log on, learn which drivers are nearby, see photographs, receive a fare estimate, and decide whether to accept a ride. If the passenger accepts a ride, the driver is notified and drives to pick up the passenger. Once at the destination, payment is made through the phone application.

Drivers generally use their personal vehicles, and personal automobile insurance policies may contain a "livery" exclusion that excludes coverage if the vehicle is carrying passengers for hire.[43] Consequently, personal automobile insurance policies may not cover damage or loss when a car is being used for commercial ridesharing. Some ridesharing companies provide insurance for portions of the time when the driver is transporting passengers, but such insurance is not required. This could lead to situations where drivers and passengers are involved in accidents and there is no insurance coverage. In contrast, taxis and limousines must maintain a motor vehicle liability policy with minimum limits of $125,000 per person for bodily injury, up to $250,000 per incident for bodily injury, and $50,000 for property damage.[44]

Issues relating to insurance coverage for TNCs, and other TNC-related matters, have been under review by the Florida Legislature in recent years. The Florida Senate is currently considering legislation that would create uniform statewide minimum insurance requirements for TNCs and TNC drivers. Generally, when a TNC driver is logged onto the digital network[45] but not engaged in a prearranged ride,[46] the legislation requires:

- Primary automobile liability coverage of at least $50,000 for death and bodily injury per person, $100,000 for death and bodily injury per incident, and $25,000 for property damage;
- Personal Injury Protection (PIP) benefits that meet the minimum coverage amounts required under ss. 627.730-627.7405, F.S.;[47] and
- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.[48]

When a TNC driver is engaged in a prearranged ride, the following insurance requirements apply:

- Primary automobile liability coverage of at least $1 million for death, bodily injury, and property damage;
- PIP benefits that meet the minimum coverage amounts required of a limousine[49] under ss. 627.730-627.7405, F.S.; and

[43] The exclusion in Florida law is mentioned in s. 627.041(8), F.S.
[44] Section 324.032(1)(a), F.S.
[45] CS/CS/SB 340 currently defines "digital network" to mean any online-enabled technology application service, website, or system offered or used by a TNC that enables the prearrangement of rides with TNC drivers.
[46] CS/CS/SB 340 currently defines "prearranged ride" to mean the provision of transportation by a TNC driver to a rider, beginning when a TNC driver accepts a ride requested by a rider through a digital network controlled by a TNC, continuing while the TNC driver transports the rider, and ending when the last rider exits from and is no longer occupying the TNC vehicle.
[47] These provisions, known as the No-Fault Law, require coverage for PIP to the named insured, relatives residing in the same household, persons operating the insured motor vehicle, passengers in the motor vehicle, and other persons struck by the motor vehicle and suffering bodily injury while not an occupant to a limit of $10,000 in medical and disability benefits and $5,000 in death benefits.
[48] Section 627.727(1), F.S., requires uninsured motorist vehicle coverage if a policy provides bodily injury coverage unless it is specifically rejected.
[49] Although the legislation currently requires PIP coverage at the same amounts required of limousines, limousines are excluded from PIP requirements under s 627.733(1)(a), F.S. Thus, the effect of this provision should it remain in the TNC

- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.[50]

Interest in the use of autonomous vehicles in ridesharing services is increasing, including with respect to fully autonomous vehicles that do not require drivers. General Motors reportedly paid $500 million for a stake and strategic alliance in Lyft to develop the use of autonomous vehicles in ridesharing and recently spent $1 billion to buy a technology company that has self-driving cars on roads in California.[51] Current Florida law does not specifically address insurance requirements for autonomous vehicles, or for autonomous vehicles used by TNCs.

Effect of Proposed Changes:

Section 8 of the bill creates s. 316.851, F.S., effective on the same date that the TNC legislation currently under consideration, or similar legislation, takes effect, if such legislation is enacted in the 2017 Regular Session or in any extension thereof. In that case, the bill would require an autonomous vehicle used by a TNC *to provide a prearranged ride* to be covered by automobile insurance as required by s. 627.748, F.S., created in that TNC legislation, regardless of whether a human operator is physically present in the vehicle when the ride occurs. As the legislation currently stands, the required coverage would be primary automobile liability coverage of at least $1 million for death, bodily injury, and property damage, and uninsured and underinsured vehicle coverage as required by s. 627.727, F.S. The coverage ultimately specified in that legislation, if enacted, would be required coverage for an autonomous vehicle used by a TNC to provide prearranged transportation, regardless of the presence or absence of a human driver.

- The bill further requires an autonomous vehicle logged on to a digital network but not engaged in a prearranged ride to maintain insurance coverage as defined in s. 627.748(7)(b), F.S. As the TNC legislation currently stands, subsection (7)(b) requires during the identified period of time:
  - Primary automobile liability coverage of at least $50,000 for death and bodily injury per person, $100,000 for death and bodily injury per incident, and $25,000 for property damage;
  - PIP benefits that meet the minimum coverage amounts required under ss. 627.730-627.7405, F.S.;[52] and
  - Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.

The bill also requires an autonomous vehicle used to provide a transportation service to carry in the vehicle proof of the required coverage at all times while operating in autonomous mode.

---

legislation and be enacted would require no PIP coverage when an autonomous vehicle is engaged in a prearranged ride, regardless of whether a human operator is physically present in the vehicle when the ride occurs.

[50] *See* the CS/CS/SB 340 staff analysis for additional information and details of the legislation, *available at* http://www.flsenate.gov/Session/Bill/2017/340/Analyses/2017s00340.rc.PDF. (last visited April 19, 2017.)

[51] *See* The Ford Motor Company, *Ford Targets Fully Autonomous Vehicle for RideSharing in 2021; Invests in New Tech Companies, Doubles Silicon Valley Team* (Aug. 16, 2016), *available at* https://media.ford.com/content/fordmedia/fna/us/en/news/2016/08/16/ford-targets-fully-autonomous-vehicle-for-ride-sharing-in-2021.html (last visited April 19, 2017.)

[52] These provisions, known as the No-Fault Law, require coverage for personal injury protection to the named insured, relatives residing in the same household, persons operating the insured motor vehicle, passengers in the motor vehicle, and other persons struck by the motor vehicle and suffering bodily injury while not an occupant to a limit of $10,000 in medical and disability benefits and $5,000 in death benefits.

Dori Slosberg Driver Education Safety Act (Section 9)

Present Situation

Section 318.1215, F.S., the Dori Slosberg Driver Education Safety Act, allows a board of county commissioners to require, by ordinance, that the clerk of court collect an additional $5 with each civil traffic penalty, which shall be used to fund driver education programs in schools. The funds are required to be used for direct educational expenses, and a minimum of 30 percent of the student's time in the program be behind-the-wheel-training.

According to the Dori Saves Lives non-profit, more than 60 counties in Florida require the additional $5 with each civil traffic penalty, bringing in approximately $15 million each year to fund driver education programs in Florida schools.[53]

Effect of Proposed Changes

Section 9 amends s. 318.1215, F.S., to provide that a board of county commissioners may require, by ordinance, that the clerk of court collect an additional $5 with each *criminal*, instead of *civil* traffic penalty, which is used to fund driver education programs in schools. This change will likely reduce the amount of such funds collected.

Work Zones (Sections 10 and 46)

Present Situation

Section 318.18, F.S., provides that a person cited for exceeding the speed limit in a posted construction zone, must pay double the fine for exceeding the speed limit. The posting must include notification of the speed limit and the doubling of fines. Fines are doubled only if construction personnel are present or operating equipment on the road or immediately adjacent to the road under construction. Fines for unlawful speed are:

For speed exceeding the limit by:	*Fine:*
1-5 m.p.h.	Warning
6-9 m.p.h.	$25
10-14 m.p.h.	$100
15-19 m.p.h.	$150
20-29 m.p.h.	$175
30 m.p.h. and above	$250

-

The term construction zone is not defined in Florida Statutes; however, s. 316.003(97), F.S., defines "work zone" as the area and its approaches on any state-maintained highway, county maintained highway, or municipal street where construction, repair, maintenance, or other street-related or highway-related work is being performed or where one or more lanes are closed to traffic.

[53] Dori Saves Lives, *Teen Driver Education Teachers*, http://dorisaveslives.org/driver-education-teachers/ (last visited April 19, 2017).

Effect of Proposed Changes

Section 10 amends s. 318.18(3)(d), F.S., to change the term "construction zone" to "work zone." Persons cited for exceeding the speed limit in a posted work zone must pay double the fine for unlawful speed.

Section 42 provides that this amendment applies upon the adoption by rule of uniform traffic citation forms. The DHSMV shall notify the Division of Law Revision and Information upon the adoption of such forms.

International Registration Plan – Charter Buses (Section 11)

Present Situation

The International Registration Plan (IRP) is a registration reciprocity agreement among all states in the contiguous United States, the District of Columbia, and several Canadian provinces. It provides for the payment of license fees based on fleet operation in various member jurisdictions.[54] This allows carriers to operate inter-jurisdictionally while only needing to register its vehicles in its base jurisdiction, which is the state or province where the registrant has an established place of business[55].

All apportionable vehicles domiciled in the state are required to be registered in accordance with the IRP and display "Apportioned" license plates.[56] Motor carriers registered under the IRP are also required to maintain specified records for the DHSMV, and may have their registrations and license plates withheld if:[57]

- An identifying number issued by the federal agency responsible for motor carrier safety is not provided for the motor carrier and entity responsible for motor carrier safety for each motor vehicle; or
- A motor carrier or vehicle owner has been prohibited from operating by a federal or state agency responsible for motor carrier safety.

Additionally, the DHSMV has authority to suspend, with notice, any commercial motor vehicle or license plate issued to a motor carrier or vehicle owner who has been prohibited from operating by a federal or state agency responsible for motor carrier safety.[58] Apportionable vehicles that do not regularly operate in a particular jurisdiction also have the option to register for trip permits in order to operate in IRP member jurisdictions for limited periods where they do not pay license taxes.[59]

---

[54] International Registration Plan, Inc., *About IRP*, http://www.irponline.org/?page=AboutIRP (last visited Feb. 1, 2017).
[55] As defined by the IRP, (January 2017) *available at* http://c.ymcdn.com/sites/www.irponline.org/resource/resmgr/publications/IRP_agreement_eff_january_1_.pdf at p. 16 (last visited Feb. 1, 2017).
[56] Section 320.0715(1), F.S.
[57] Section 320.0715(4), F.S.
[58] Section 320.0715(4)(c), F.S.
[59] *See* IRP, Inc., *Trip Permits- Cost/Duration* (May 2016), *available at* http://www.irponline.org/resource/resmgr/Jurisdiction_Info_2/Trip_Permits_5.19.2016.xlsx (last visited Feb. 6, 2017).

The IRP defines an apportionable vehicle as:[60]

> [A]ny Power Unit that is used or intended for use in two or more Member Jurisdictions and that is used for the transportation of persons for hire or designed, used, or maintained primarily for the transportation of property, and:
> (i) Has two Axles and a gross Vehicle weight or registered gross Vehicle weight in excess of 26,000 pounds, or
> (ii) Has three or more Axles, regardless of weight, or
> (iii) Is used in combination, when the gross Vehicle weight of such combination exceeds 26,000 pounds.

The definition excludes a recreational vehicle, a vehicle displaying restricted plates, or a government-owned vehicle. However, those excluded vehicles may choose to register under the IRP.

Prior to January 1, 2016, charter buses were also excluded from having to register under the IRP, but retained the option to do so. The IRP was amended to remove charter buses from the exemption, requiring charter bus operations to register under the IRP. This registration ensures that charter bus operations will pay license fees to each jurisdiction it operates in, and prevents or suspends the registration of unsafe carriers.[61] As of January 1, 2016, the DHSMV estimates that less than 200 charter bus carriers or companies within the state were required to register under the IRP in order for the state to remain compliant with the reciprocity agreement.[62]

Effect of Proposed Changes

Section 11 amends s. 320.01, F.S., to remove charter buses from the apportionable vehicle exclusion. This change is necessary to align with the requirements of the IRP. All charter buses operating interstate are now required to obtain an IRP registration or purchase trip permits.

Prevent Blindness Florida Organization Name Change (Sections 12, 21 and 32)

Present Situation

In May of 2016, the organization Prevent Blindness Florida changed their name to Preserve Vision Florida.[63]

---

[60] International Registration Plan (Jan. 2017), *available at* http://c.ymcdn.com/sites/www.irponline.org/resource/resmgr/publications/IRP_agreement_eff_january_1_.pdf at p. 12-13 (last visited Feb. 2, 2017).

[62] Email from the DHSMV (Feb. 17, 2017) (on file with the Senate Committee on Transportation).
[63] Department of State, Division of Corporations – Sunbiz.org, *Preserve Vision Florida, Inc.* (May 4, 2016), http://search.sunbiz.org/Inquiry/CorporationSearch/ConvertTiffToPDF?storagePath=COR%5C2016%5C0509%5C84865905.Tif&documentNumber=706503 (last visited Mar. 22, 2017).

Effect of Proposed Changes

Sections 12, 12 and 32 amend ss. 320.02, 320.08068 and 322.08, F.S., respectively, pertaining to the DHSMV to recognize the organization's name change.

Tax Collector Services and Fee Distributions (Sections 13, 34, 35 and 37)

Present Situation

In 2010, the Florida Legislature required all state driver license issuance services be transferred to tax collectors who are constitutional officers under s. 1(d), Art. VIII of the State Constitution by June 30, 2015.[64] As part of that transfer, tax collectors retain portions of specified fees when processing certain driver license services. Additionally, tax collectors charge a $6.25 service fee for completing such services.[65] However, some tax collectors refuse to offer such services to out-of-county Florida residents.

Tax collectors are not currently able to retain portions of fees for some services that the tax collectors are regularly performing. For example, an applicant who fails an initial driving knowledge or skills test is required to pay a $10 or $20 fee, respectively, to be issued a subsequent test. These fees are deposited into the Highway Safety Operating Trust Fund (HSOTF), regardless of whether the DHSMV or the tax collectors administered the exam.[66]

Similarly, service fees for license reinstatements collected pursuant to s. 322.21(8), F.S., are deposited into the General Revenue Fund and HSOTF, regardless of whether the reinstatement was conducted by the DHSMV or tax collectors. Of the $45 service fee to reinstate a driver license suspension, $15 is deposited in the General Revenue Fund and $30 in the HSOTF. Of the $75 service fee to reinstate a driver license revocation or CDL disqualification, $35 is deposited in the General Revenue Fund and $40 in the HSOTF.

Effect of Proposed Changes

Sections 13 and 35 amend ss. 320.03 and 322.135, F.S., respectively, to require each tax collector to provide the same motor vehicle registration and driver license services to residents of other counties as it does to residents of its home county.

Sections 34 and 37 amend ss. 322.12 and 322.21, F.S., respectively, to require, for subsequent driver license initial knowledge and skills tests, that the tax collector retain the $10 or $20 fee, less an eight percent General Revenue Service Charge[67], for administering tests to applicants. The bill also requires the tax collectors to retain a portion of service fees when processing driver license reinstatements. If the reinstatement is processed by the tax collector:

- Of the $45 fee for suspension reinstatement, $15 shall be retained by the tax collector, less an eight percent General Revenue Service Charge, and $15 shall be deposited into the HSOTF; and

[64] Chapter 2010-163, Laws of Florida and s. 322.02(1), F.S.
[65] Section 322.135(1)(c), F.S.
[66] Section 322.12(1), F.S.
[67] Set forth in s. 215.20, F.S.

- Of the $75 fee for revocation or disqualification reinstatement, $20 shall be retained by the tax collector, less an eight percent General Revenue Service Charge, $20 shall be deposited into the HSOTF, and $35 shall be deposited into the General Revenue Fund.

DHSMV's Electronic Filing System (Section 14)

Present Situation

Section 320.03, F.S., provides the duties of tax collectors as it relates to motor vehicle licensing. It provides that jurisdiction over the electronic filing system (EFS) for use by authorized EFS agents for certain purposes is expressly preempted to the state, and DHSMV has regulatory authority over the system. Specifically, the EFS is used to:

- Electronically title or register motor vehicles, vessels, mobile homes, or off-highway vehicles;
- Issue or transfer registration license plates or decals;
- Electronically transfer fees due for the title and registration process; and
- Perform inquiries for title, registration, and lienholder verification and certification of service providers.

The section provides that an entity that, in the normal course of its business, sells products that must be titled or registered, provides title and registration services on behalf of its consumers, *and* meets the requirements established by the DHSMV shall not be precluded from participating in the EFS upon request from the qualified entity.[68] The EFS must be available for use statewide and applied uniformly throughout the state. Additionally, the EFS agents may charge a fee to the customer for use of the EFS.

The EFS is primarily used by Florida's motor vehicle dealers to acquire access to DHSMV registration and title information, and to process title and registration transactions.[69]

Effect of Proposed Changes

Section 14 amends s. 320.03(10), F.S., to provide that effective July 1, 2018, the EFS system can be used to process title transactions, derelict motor vehicle certificates, and certificates of destruction for derelict and salvage motor vehicles. The bill adds that an entity that, in the normal course of its business, processes title transactions, derelict motor vehicle certificates, or certificates of destruction for derelict or salvage motor vehicles and meets the requirements established by the DHSMV may be an authorized EFS agent.

The section also reauthorizes DHSMV to adopt rules to administer the section, including, but not limited to, rules establishing participation requirements, certification of service providers, EFS requirements, disclosures, and enforcement authority for noncompliance.

[68] Fla. Admin. Code R. 15C-16.010 provides DHSMV's requirements to be an EFS agent.
[69] For more information, see DHSMV website, *Electronic Filing System (EFS)*, https://www.flhsmv.gov/motor-vehicles-tags-titles/electronic-lien-titles/electronic-filing-system-efs/ (last visited April 19, 2017).

Issuance of Apportionable Vehicle Plates (Sections 15 and 17)

Present Situation

Registration license plates, which bear a graphic symbol and alphanumeric system of identification, are issued for a 10-year period. However, "Apportioned" license plates issued to vehicles registered under the International Registration Plan (IRP), are issued annually.[70] Each original plate costs $28, which is deposited into the Highway Safety Operating Trust Fund (HSOTF). Apportioned vehicles are also issued an annual cab card that denotes the declared gross vehicle weight for each apportioned jurisdiction where the vehicle is authorized to operate.[71]

Effect of Proposed Changes

Sections 15 and 17 amend ss. 320.06 and 320.0607, F.S., respectively, to provide that beginning October 1, 2018, apportioned vehicles will be issued license plates valid for a 5-year period, instead of annually. If the license plate is damaged or worn prior to the end of the 5-year period, the DHSMV will replace it, upon application and surrender of the current plate, at no charge. Cab cards and validation stickers will continue to be issued annually, and the $28 annual fee will apply to the issuance of an original or renewal validation sticker, instead of for the cost of the plate.

Electronic Rental Agreements (Section 16)

Present Situation

Section 320.0605, F.S., provides that a person who rents or leases a vehicle is required to possess a true copy of rental or lease documentation for the motor vehicle at all times while the vehicle is being operated.[72] The documentation must include the following:

- Date of rental and time of exit from rental facility;
- Rental station identification;
- Rental agreement number;
- Rental vehicle identification number;
- Rental vehicle license plate number and state of registration;
- Vehicle's make, model, and color;
- Vehicle's mileage; and
- Authorized renter's name.

Effect of Proposed Changes

Section 16 amends s. 320.0605, F.S., to authorize a person to possess an *electronic copy* of the rental or lease documentation to be displayed upon the request of a law enforcement officer or an agent of the DHSMV. The bill provides that displaying the electronic copy does not constitute consent for the officer or agent to access any information on the device other than the displayed

[70] Section 320.06(1)(b)1., F.S.
[71] *See* IRP, Inc., *State of Florida Apportioned Cab Card Sample*, http://c.ymcdn.com/sites/www.irponline.org/resource/resmgr/cab_cards/fl_cc_sample.pdf (last visited Feb. 8, 2017).
[72] A person who cannot display such documentation upon request from an officer or agent of the DHSMV is guilty of a noncriminal traffic infraction, punishable as a nonmoving violation.

rental or lease documentation. The person who presents the device to the officer assumes liability for any resulting damage to the device.

This section also removes that the rental or lease documentation must include the time of exit from the rental facility.

Agricultural Restricted License Plate (Section 18)

Present Situation

Section 320.08(4)(m), F.S., provides a restricted license plate for a flat fee of $324 available for truck tractors used within a 150-mile radius of its address used for hauling forestry products.

Section 320.08(4)(n), F.S., provides a restricted plate for a flat fee available for truck tractors or heavy trucks, not operated as for-hire vehicles, engaged exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products within a 150-mile radius of its home address. The fee for such plate is:

- $87.75 if such vehicle's declared gross weight is less than 44,000 pounds; or
- $324 if the vehicle's declared gross weight is 44,000 pounds or more and such vehicle only transports from the point of production to the point of primary manufacture; the point of assembly; or to a shipping point.

For these purposes, "not-for-hire" means that the owner of the motor vehicle must also be the owner of the raw, unprocessed, and nonmanufactured agricultural or horticultural product or the user of the farm implements and fertilizer being delivered. The DHSMV may require any documentation deemed necessary to determine eligibility prior to issuance of this license plate.

Effect of Proposed Changes

Section 18 amends s. 320.08, F.S., to revise the eligibility requirement for the agricultural restricted plate by removing the 150-mile radius from its home address requirement. Instead, truck tractors or heavy trucks that operate *within the state* and meet the criteria for the restricted plate are eligible for such plate.

Section 18 also makes cross-reference changes to conform to provisions made by the bill.

Discontinued Specialty License Plates (Sections 19 and 20)

Present Situation

The DHSMV must discontinue the issuance of any approved specialty license plate if the number of valid specialty plate registrations falls below 1,000 plates for at least 12 consecutive months, or discontinue the sale of presale vouchers if the approved plate does not sell at least 1,000 vouchers in 24 months.[73] The specialty license plate must also be discontinued if the organization no longer exists, stops providing services that are authorized to be funded from the annual use fee proceeds, or pursuant to an organizational recipient's request.[74]

[73] Sections 320.08056(8)(a) and 320.08053(1)(b), F.S.; Florida collegiate plates are exempt from these requirements.
[74] Section 320.08056(8)(b), F.S.

The following specialty license plates have been discontinued by the DHSMV:

- The American Red Cross plate for failing to meet sales requirements;[75]
- The Donate Organs Pass It On plate because the organization has closed;[76] and
- The St. Johns River plate and Hispanic Achievers plate for not meeting presale requirements.[77]

Effect of Proposed Changes

Sections 19 and 20 amend ss. 320.08056 and 320.08058, F.S., respectively, to remove the American Red Cross plate, the Donate Organs Pass It On plate, the St. Johns River plate, and the Hispanic Achievers plate from law.

Ancient, Antique Motor, or Historical Motor Vehicles (Section 22)

Present Situation

Section 320.086, F.S., provides that *ancient* motor vehicle is defined as a private-use motor vehicle manufactured in 1945 or earlier. An *antique* motor vehicle is defined as a private-use motor vehicle manufactured after 1945 and of the age of 30 years or more after the date of manufacture. Additionally, the section provides requirements for a motor vehicle to be registered as a historical motor vehicle, and an ancient or antique firefighting apparatus or former military vehicle only used in exhibitions. For purposes of this section, "former military vehicle" includes a trailer.

The owner of such vehicles, upon application to the DHSMV and upon payment of the license tax, will be issued a special license plate for the motor vehicle. For *ancient* motor vehicles, the license plate is valid for use without renewal so long as the vehicle is in existence. Owners of antique and ancient motor vehicles pay a reduced, flat license tax of $7.50.[78]

Effect of Proposed Changes

Section 22 amends s. 320.086, to provide, for purpose of this section, a trailer is considered a motor vehicle. Therefore, if the owner of a trailer qualifies for such license plate upon application to the DHSMV and payment of the license tax, the trailer will be issued the corresponding special license plate.

[78] Section 320.08(2), F.S.

Purple Heart Motorcycle Plate (Section 23)

Present Situation

DHSMV currently offers multiple military special license plates available to certain military service members or veterans, but only offers two military motorcycle special plates: the Disabled Veteran motorcycle plate and the Paralyzed Vets of America motorcycle plate.[79]

Purple Heart Medal

The Purple Heart is one of the oldest and most recognized American military medals, awarded to service members who were killed or wounded by enemy action. The Purple Heart differs from all other decorations in that an individual is not "recommended" for the decoration. Rather, he or she is entitled to it upon meeting specific criteria.[80] The Purple Heart is ranked immediately behind the Bronze Star Medal and ahead of the Defense Meritorious Service Medal[81] in order of precedence.

Effect of Proposed Changes

Section 23 creates s. 320.0875, F.S., to establish a Purple Heart motorcycle special license plate. A Florida resident who owns or leases a motorcycle that is not used for hire or commercial use, and who was awarded a Purple Heart may receive a Purple Heart motorcycle license plate upon:

- Application to the DHSMV;
- Payment of the motorcycle license tax[82]; and
- Documentation acceptable to the DHSMV that he or she is a recipient of the Purple Heart medal.

The Purple Heart motorcycle plate shall be stamped with the words "Combat-wounded Veteran" followed by the serial number, the term "Purple Heart," and the likeness of the Purple Heart medal.

Bronze Star License Plate (Section 24)

Present Situation

Currently, there are 21 special military plates authorized in s. 320.089, F.S., available to military service members or veterans. [83] Special military plates authorized under this section are stamped

[79] For plate samples, see DHSMV, *Military License Plates*, *available at* http://www.flhsmv.gov/specialtytags/miltags.html (last visited Mar. 22, 2017).
[80] Paragraph 1-14(c), Army Regulation 600-8-22.
[81] The Defense Meritorious Service Medal is awarded in the name of the Secretary of Defense to members of the Armed Forces of the United States who, after 3 November 1977, distinguished themselves by noncombat meritorious achievement or service.
[82] Section 320.08(1)(a) and (c), F.S., provide the motorcycles have a flat license tax of $10 plus a $2.50 nonrefundable motorcycle education safety fee.
[83] The 21 military special plates currently offered in s. 320.089, F.S., include plates available for the following types of service: Veteran or Woman Veteran of the U.S. Armed Forces, World War II, Korean War, or Vietnam War Veteran, Navy Submariner, Active or retired National Guard member or U.S. Reservists, Pearl Harbor survivor, recipient of the Combat Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, Air Force Combat Action Medal, Distinguished Flying Cross, or Purple Heart, former Prisoner of War, and service members or veterans of Operation Desert Shield, Desert Storm, Enduring Freedom, and Iraqi Freedom.

with words consistent with the type of special plate issued, and include a likeness of the related campaign medal or badge, if applicable. Applicants for special military license plates authorized under this section are required to pay the annual license tax in s. 320.08, F.S., with the exception of certain disabled veterans who qualify for the Pearl Harbor, Purple Heart, or Prisoner of War plate, to whom such plates are issued at no cost.[84] With the exception of Woman Veteran plates, the first $100,000 of revenue generated annually from the sale of special use military plates is deposited into the Grants and Donations Trust Fund under the Veterans' Nursing Homes of Florida Act, as described in s. 296.38(2), F.S. Additional revenue is deposited into the State Homes for Veterans Trust Fund and used to construct, operate, and maintain domiciliary and nursing homes for veterans.[85] Proceeds from the Woman Veteran plates must be deposited into the Operations and Maintenance Trust Fund administered by the Department of Veterans' Affairs to be used solely for the purpose of creating and implementing programs that benefit women veterans.[86]

Bronze Star Medal

The Bronze Star Medal was established on February 4, 1944, to recognize those who served after December 6, 1941, in any capacity in or with the Armed Forces of the United States or a friendly foreign nation. The Bronze Star Medal is awarded to a person who distinguished himself or herself by heroic or meritorious service, not involving participation in aerial flight, in connection with military operations against an armed enemy; or while engaged in military operations involving conflict with an opposing armed force in which the United States is not a belligerent party. Recipients of the Bronze Star Medal must be receiving imminent danger pay while serving in a geographic area authorized for special pay.[87] In order of precedence, the Department of Defense (DoD) places the Bronze Star Medal seventh amongst DoD wide military decorations and awards following the Distinguished Flying Cross and preceding the Purple Heart.[88]

Effect of Proposed Changes

Section 24 creates a special military license plate for recipients of the Bronze Star Medal. The plate will be stamped with the words "Bronze Star" and a likeness of the Bronze Star Medal. To receive a Bronze Star special military license plate, the individual must submit an application for the plate to the DHSMV, provide proof that he or she is a Bronze Star Medal recipient, and pay the appropriate license tax as provided in s. 320.08, F.S. Revenue generated from the sale of the Bronze Star plate is deposited in the Grants and Donations Trust Fund and the State Home for Veterans Trust Fund, both of which are administered by the FDVA.

This section also makes technical changes to s. 320.089, F.S., to provide clarity.

[84] Section 320.089(1)(c) and (2)(a), F.S.

[88] Department of Defense, *Manual of Military Decorations and Awards: DoD Service Awards – Campaign, Expeditionary, and Service Medals*, Manual No. 1348.33, Vol. 2 (May 15, 2015). The order of precedence for military awards varies by branch of service.

Transporter License Plates (Section 25)

Present Situation

Section 320.133, F.S., allows the DHSMV to issue transporter license plates. Transporter plates are available for an applicant who, incidental to the conduct of the applicant's business, engages in the transporting of unregistered motor vehicles, and who pays a license tax and provides proof of liability insurance coverage of at least $100,000. A transporter plate is valid for 1 year, beginning January 1 to December 31, for a flat license tax of $101.25.[89] To apply for a transporter plate, the business applicant certifies he understands the plate may only be used for motor vehicles in possession of the business that are being transported in the course of the business.[90]

Types of businesses that may require the use of transporter plates include:
- Motor vehicle detail shops;
- Van conversion shops or other shops installing specialized equipment on vehicles;
- Businesses that transport mobile homes and recreational vehicles;
- Licensed repossessors; and
- Businesses that deliver unregistered vehicles (Drive away services).

Currently, there are 8,332 transporter license plates issued by the state, and approximately 4,618 businesses and individuals who have these plates issued to them.[91] There is no requirement for the business applying for the plate to prove it is engaged in transporting unregistered vehicles. The DHSMV has discovered businesses are using transporter license plates on company vehicles rather than on vehicles being transported for the business. According to DHSMV, it has little authority under current law to inquire as to whether the license plates are being used appropriately by applicants.[92]

Effect of Proposed Changes

Section 25 makes numerous changes to s. 320.133, F.S., concerning transporter license plates, including defining a "transporter license plate eligible business," requiring additional business information from applicants for transporter licenses, and adding penalties for improper use of transporter license plates.

This section also requires applicants for transporter license plates to provide proof satisfactory to the DHSMV that the business is a "transporter license plate eligible business," which is defined as a business engaged in the limited operation of unregistered motor vehicles or a repossessor who contracts with lending institutions to repossess or recover motor vehicles or mobile homes. Additionally, the application for a transporter license plate must include:
- The legal name of the person or persons applying for the license plate;
- The name of the business, and principal or principals of the business;

[89] Sections 320.08(15) and 320.133(3), F.S.
[90] *See* DHSMV, *Application for Transporter License Plates* (May 2011), *available at* https://www.flhsmv.gov/pdf/forms/83065.pdf (last visited Feb. 10, 2017).
[91] DHSMV, *Legislative Package Talking Points* (Jan. 24, 2017) (on file with the Senate Committee on Transportation).
[92] *Id.*

- A description of the exact physical location of the place of business within the state;
- Proof of a garage liability insurance policy or a business automobile policy in the amount of $100,000;
- Proof that the business is registered with the Division of Corporations of the Department of State to conduct business in the state; and
- A description of the business processes the business conducts that requires a need for a transporter license plate.

The business certificate of insurance must also indicate the number of transporter license plates reported to the insurance company, which will be the maximum number the DHSMV will issue to the applicant. The applicant is required to maintain such coverage for the entire transporter license plate registration period. The applicant is also required to maintain for two years, records of use for each transporter license plate. Such records must be at the business's location and open to inspection by the DHSMV or any law enforcement agency during reasonable business hours.

This section clarifies that the transporter license plate is only valid for use on an unregistered motor vehicle being transported in the course of the transporter's business and cannot be used on any motor vehicle that would require registration by the business. The DHSMV has authority to cancel any transporter license plate.

Finally, the section adds penalties for the improper use of transporter license plates. Specifically:

- A person who sells or unlawfully possesses, distributes, or brokers a transporter license plate to be attached to any vehicle commits a second-degree misdemeanor[93], and the plate is subject to removal;
- A person who fails to maintain true and accurate records of transporter license plate usage commits a second-degree misdemeanor[94], all transporter plates issued to the person may be subject to cancellation, and the person is disqualified from future transporter license plate issuance;
- A person who operates a motor vehicle with a transporter license plate attached who fails to provide the registration issued for the transporter license plate and proof of required insurance commits a second-degree misdemeanor[95], and the plate is subject to removal. This penalty does not apply to a person who contracts with dealers and auctions to transport motor vehicles; and
- A person who *knowingly and willfully* sells or unlawfully possesses, distributes, or brokers a transporter plate to avoid registering a vehicle that requires registration commits a first-degree misdemeanor[96], and all transporter plates issued to the person's business are canceled and must be returned to the DHSMV.

[93] The second-degree misdemeanor is punishable as provided in ss. 775.082 or 775.083, F.S., which is a definite term of imprisonment not exceeding 60 days or a fine of no more than $500.
[94] *Id.*
[95] *Id.*
[96] The first-degree misdemeanor is punishable as provided in ss. 775.82 or 775.083, which is a definite term of imprisonment not exceeding one year or a fine of no more than $1,000.

Motor Vehicle Dealer and Broker Definitions (Section 26)

Present Situation

Section 320.27(1)(c), F.S., defines a "motor vehicle dealer" as any person engaged in the business of buying, selling, or dealing in motor vehicles or offering or displaying motor vehicles for sale at wholesale or retail, or who may service and repair vehicles pursuant to an agreement as defined in s. 320.60(1), F.S. A person who buys, sells, offers for sale, displays for sale or deals in three or more motor vehicles in any 12-month period is presumed to be a motor vehicle dealer.

Motor vehicle dealers are required to be licensed by the state to conduct business. To become a licensed motor vehicle dealer, a person or persons must have their business site approved by a Division of Motorist Services Regional Office, and submit an application to the DHSMV with required documentation and fees, which may include:[97]

- An original $25,000 surety bond or a letter of credit;
- A copy of the business location's lease or proof of ownership;
- A copy of the pre-licensing dealer training course completion certificate;
- A garage liability insurance certificate, or a general liability insurance policy coupled with a business automobile policy;
- A copy of registration of business with Florida's Secretary of State, Division of Corporations;
- A copy of specified corporate papers;
- A sales tax number and Federal Employer Identification number; and
- Fingerprints of the applicants to be submitted to the Florida Department of Law Enforcement for state processing, and then forwarded to the Federal Bureau of Investigation for federal processing.

Additionally, motor vehicle dealers are required to follow numerous state laws and procedures in order to maintain their dealer license. Any person who violates these license requirements can be found guilty of a second-degree misdemeanor[98], and could be liable under civil law in violation of Florida's Deceptive and Unfair Trade Practices Act[99].

Section 320.27(1)(d), F.S., defines a "motor vehicle broker" as any person engaged in the business of offering to procure or procuring motor vehicles for the general public, including through solicitation or advertisement, but who does not store, display, or take ownership of any vehicle for the purpose of selling the vehicle.

Motor vehicle brokers are not considered motor vehicle dealers; thus, are not required to be licensed.

[97] *See* s. 320.27, F.S., and DHSMV website, *Licensing Requirements for Motor Vehicle Dealers*, http://www.flhsmv.gov/dmv/dealer.html (last visited April 19, 2017).
[98] Section 320.27(8), F.S.
[99] Part II, ch. 501, F.S.

Effect of Proposed Changes

Section 26 amends the definitions of "motor vehicle dealer" and "motor vehicle broker." Specifically, it adds that the term "motor vehicle dealer" also includes any person:

- Who engages in possessing, storing, or displaying motor vehicles for retail sale;
- Who advertises motor vehicles for retail sale;
- Who negotiates with consumers regarding the terms of sale for a motor vehicle;
- Who provide test drivers of motor vehicles offered for sale; or
- Who deliver or arrange for delivery a motor vehicle in conjunction with the sale of such motor vehicle.

The section clarifies that a person is not a motor vehicle dealer if his or her sole dealing in motor vehicles is owning a publication or hosting a website that displays vehicles for sale by licensed motor vehicle dealers.

This section amends the term "motor vehicle broker," which is defined in the bill as any person engaged in the business of assisting the general public in purchasing or leasing a motor vehicle from a licensed dealer, including through solicitation or advertisement, and is not considered a motor vehicle dealer.

The section adds that any advertisement or solicitation by a motor vehicle broker must include a statement that the broker is receiving a fee and that the person is not a licensed motor vehicle dealer.

FHP Law Enforcement Training Reimbursement (Section 27)

Present Situation

Section 321.25, F.S., authorizes the DHSMV "to provide for the training of law enforcement officials and individuals in matters relating to the duties, functions, and powers of the Florida Highway Patrol…" The DHSMV is authorized to charge a fee for providing authorized training, as well as tuition, lodging, and meals. New FHP troopers receive 28 to 29 weeks of paid Law Enforcement Training at the FHP Training Academy. During this paid training, meals, lodging, equipment, and study materials are provided to FHP Academy trainees at no cost to the trainee.[100] The DHSMV estimates that the cost of training and other course expenses to the DHSMV is approximately $12,386 per trooper trainee.[101]

In Florida, if an officer trainee who attends an approved training program at the expense of an employing agency terminates employment with such agency within two years after graduation from the basic recruit training program, he or she may be required to reimburse the employing agency for the full cost of tuition and other expenses.[102] Section 943.16, F.S., allows an employing agency to institute a civil action to collect these expenses if it is not reimbursed, provided that the trainee signed acknowledgement of this requirement. Trainees are not required to reimburse the employing agency if they resign their law enforcement certification upon

[100] FHP, *Be A Trooper- Requirements- Benefits, available at* http://beatrooper.com/requirements/ (last visited Feb. 10, 2017).
[101] Email from the DHSMV (Feb. 17, 2017) (on file with the Senate Committee on Transportation).
[102] Section 943.16, F.S.

terminating employment. Additionally, an employing agency may waive the reimbursement requirement in part or in full for a trainee who terminates employment due to hardship or extenuating circumstances.[103]

Since 2012, 86 FHP members terminated employment with the FHP within two years of completing training. According to the DHSMV, the FHP only pursues reimbursement if a trooper leaves within the two years to secure employment with another law enforcement agency.[104] An additional 37 FHP members terminated employment within the third year of completing FHP training.

Effect of Proposed Changes

Section 27 amends s. 321.21, F.S., relating specifically to FHP training, to increase the employment period length to which the reimbursement requirement applies from two years to three years. If an FHP trainee terminates employment with FHP prior to completing three years of service, the DHSMV may require the trainee to reimburse the cost of the FHP training tuition and other course expenses.

The amended section retains that the DHSMV may institute a civil action to collect tuition and other related expenses if it is not reimbursed, provided the trainee signed written acknowledgement of the (3-year) requirement. Additionally, the DHSMV retains authority to waive the reimbursement requirement in part or in full if the trainee terminates employment due to hardship or extenuating circumstances. However, the amendment removes the ability of FHP trainees to resign their law enforcement certification upon termination in order to avoid having to reimburse the DHSMV for the cost of tuition and other course expenses.

Digital Driver Licenses (Section 30)

Present Situation

Section 322.032, F.S.,[105] provides for the establishment of a digital proof of driver license. This section requires the DHSMV to begin to review and prepare for the development of a secure and uniform system for issuing an optional digital proof of driver license. DHSMV is authorized to contract with one or more private entities to develop a digital proof of driver license system.

The digital proof of driver license developed by DHSMV or by an entity contracted by the DHSMV is required to be in such a format as to allow law enforcement to verify the authenticity of the digital proof of driver license. DHSMV may adopt rules to ensure valid authentication of digital driver licenses by law enforcement.

A person may not be issued a digital proof of driver license until he or she has satisfied all of the requirements of Ch. 322, F.S., for issuance of a physical driver license.

This section also establishes certain penalties for a person who manufacturers or possesses a false digital proof of driver license. Specifically, a person who:

[103] *Id.*
[104] DHSMV, *Legislative Package Talking Points* (Jan. 24, 2017) (on file with the Senate Committee on Transportation).
[105] This section was created in 2014. *See* ch. 2014-216, Laws of Fla.

- Manufactures a false digital proof of driver license commits a felony of the third degree, punishable by up to five years in prison[106] and a fine not to exceed $5,000.[107]
- Possesses a false digital proof of driver license commits a misdemeanor of the second degree, punishable by up to 60 days in prison.[108]

Agency for State Technology

The Florida Legislature created the Agency for State Technology in 2014 to develop and publish state information technology policy, oversee state technology projects, and manage the State Data Center.[109]

Effect of Proposed Changes

Section 30 amends s. 322.032, to require the DHSMV to collaborate with the Agency for State Technology to *establish and implement* secure and uniform protocols and standards for issuing an optional digital proof of driver license.

This section requires DHSMV to procure any application programming interface necessary to enable a private entity to securely manufacture a digital proof of driver license.

The bill also provides that displaying the digital proof of driver license does not constitute consent for the officer or agent to access any information on the device other than the digital proof of driver license. The person who presents the device to the officer assumes liability for any resulting damage to the device.

"D" Designation on ID card for Persons with PTSD or TBI (Section 31)

Present Situation

DHSMV may issue an identification card to any person who is 5 years of age or older, or any person who has a disability, regardless of age, who applies for a disabled parking permit[110] upon completion of an application and payment of a $25 fee.[111]

Section 320.051(8)(e), F.S., provides that upon request by a person who has a developmental disability, or by a parent or guardian of a child or ward who has a developmental disability, DHSMV issue an identification card exhibiting a capital "D" for the person, child, or ward if the person or the parent or guardian of the child or ward submits:

- Payment of an additional $1 fee; and
- Proof acceptable to DHSMV of a diagnosis by a licensed physician of a developmental disability.[112]

[110] Disabled parking permits are provided under s. 320.0848, F.S.
[111] Section 322.051, F.S.
[112] Section 393.063(12), F.S., defines "developmental disability" as a disorder or syndrome that is attributable to intellectual disability, cerebral palsy, autism, spina bifida, Down syndrome, Phelan-McDermid syndrome, or Prader-Willi syndrome; that

The above provision applies upon implementation of new designs for the driver license and identification card by the DHSMV.[113]

Effect of Proposed Changes

Section 31 amends s. 322.051(8)(e)1., F.S., adding persons with post-traumatic stress disorder (PTSD)[114] or traumatic brain injury (TBI)[115] to those individuals who may receive the "D" designation on his or her identification card. This also applies to a parent or guardian's request for a child or ward.

Truancy Reporting (Section 33)

Present Situation

A minor is not eligible for driving privileges unless he or she[116]:

- Is enrolled in a public school, nonpublic school, or home education and satisfies relevant attendance requirements;
- Has received a high school diploma, a high school equivalency diploma, a special diploma, or a certificate of high school completion;
- Is enrolled in a study course in preparation for the high school equivalency examination and satisfies relevant attendance requirements; or
- Has been issued a certificate of exemption or hardship waiver under.

Subsection 322.091(5), F.S., requires the DHSMV to submit a report quarterly to each school district containing the legal name, sex, date of birth, and social security number of each student whose driving privileges have been suspended under this section.

Effect of Proposed Changes

Section 33 amends subsection 322.091(5), F.S., to remove obsolete language. According to the DHSMV, access to this report is available to school boards electronically on an accessible website.[117] The report via the website is updated in real-time whenever a new student is added.

manifests before the age of 18; and that constitutes a substantial handicap that can reasonably be expected to continue indefinitely.

[113] Section 3 of Ch. 2016-175, L.O.F.

[114] PTSD is defined as a mental health condition that is triggered by a terrifying event. Symptoms include flashbacks, nightmares and severe anxiety, as well as uncontrollable thoughts about the event. See Mayo Clinic website, http://www.mayoclinic.org/diseases-conditions/post-traumatic-stress-disorder/home/ovc-20308548 (last visited Mar. 23, 2017).

[115] TBI occurs when an external mechanical force causes brain dysfunction; usually from a violent blow or jolt to the head or body. See Mayo Clinic website, http://www.mayoclinic.org/diseases-conditions/traumatic-brain-injury/basics/definition/con-20029302 (last visited Mar. 23, 2017).

[116] Section 322.091, F.S.

[117] Meeting with the DHSMV and Senate Transportation Committee Staff (Jan. 23, 2017).

Stolen Identification Cards (Section 36)

Present Situation

Section 322.17, F.S., provides that in the event that an instruction permit or driver license is stolen from an individual, upon proof of identity and proof satisfactory to the DHSMV that such permit or license was stolen (generally, with copy of a police report), a replacement permit or license will be issued at no cost to the individual.

Replacement driver licenses and identification cards cost $25. According to the DHSMV, in Fiscal Year 2015-2016, individuals reported approximately 7,123 stolen identification cards to the DHSMV.[118]

Effect of Proposed Changes

Section 36 amends s. 322.17, F.S., to include that identification cards shall be replaced at no cost to an individual who provides proof of identity and proof satisfactory to the DHSMV that the card was stolen.

Specialty Driver License or Identification Cards (Section 37)

Present Situation

Section 322.1415, F.S., provided authority for DHSMV to issue specialty driver licenses and identification cards recognizing, at a minimum, Florida universities, Florida professional sports teams, and all branches of the United States Armed Forces. Additionally, s. 322.1415(5), F.S. provided that the section was repealed effective August 31, 2016.

The DHSMV is not currently authorized to offer expedited shipping services for renewal or replacement driver licenses or identification cards. The fastest way to receive a renewal or replacement driver license or identification card is to go in-person to a Florida driver license office. However, for individuals out-of-state or who cannot get to a driver license office, renewals and replacement driver licenses or identification cards may be requested using a convenience service[119], including the DHSMV's virtual office[120].

According to the DHSMV, it can take seven to fourteen days to receive a renewal or replacement driver license or identification card after it is ordered from the DHSMV's virtual office.

Effect of Proposed Changes

Section 37 amends s. 322.21, F.S., to remove an obsolete reference to specialty driver license and identification card costs from s. 322.21, F.S.

This section also provides that an applicant for a renewal or replacement driver license or identification card, when using a convenience service, will have the option to request expedited

[118] DHSMV, *Legislative Package Talking Points* (Jan. 24, 2017) (on file with the Senate Committee on Transportation).
[119] Section 322.01(10), F.S., defines "convenience service" as "any means whereby an individual conducts a transaction with the department other than in person."
[120] Available at https://services.flhsmv.gov/virtualoffice/Lobby.aspx (last visited Feb. 13, 2017).

shipping. If the applicant chooses expedited shipping, the DHSMV shall issue the license or identification card within five working days of receiving the application and will ship the license or card using an expedited mail service. The DHSMV may charge a fee for the expedited shipping that does not exceed the cost of the expedited mail service. This shipping fee is in addition to any fee that would have been charged for the license or card, excluding the expedited shipping. The DHSMV shall deposit expedited shipping fees into the Highway Safety Operating Trust Fund.

For-hire Passenger Transportation - Financial Responsibility (Section 39)

Present Situation

Section 324.031, F.S., provides that the owner or operator of a taxicab, limousine, jitney, or any other for-hire passenger transportation vehicle may prove financial responsibility by providing satisfactory evidence of holding a motor vehicle liability policy, which policy is issued by an insurance carrier that is a member of the Florida Insurance Guaranty Association.[121]

The operator or owner of any other vehicle may prove financial responsibility by furnishing satisfactory evidence of holding a motor vehicle liability policy, furnishing a certificate of self-insurance showing a deposit of cash, or furnishing a certificate of self-insurance issued by the DHSMV. However, any person, including a firm, partnership, association, corporation, or other person, other than a natural person, proving financial responsibility by certificate of self-insurance showing a deposit of cash must have a deposit equal to the number of vehicles owned times $30,000, to a maximum of $120,000. In addition, such person must maintain insurance providing excess coverage of minimum limits of $125,000/$250,000/$50,000 or $300,000 combined single limits.

Effect of Proposed Changes

Section 39 amends s. 324.031, F.S., providing that a for-hire passenger transportation vehicle's motor vehicle liability policy must be provided by an insurer authorized to do business in this state and who is a member of the Florida Insurance Guaranty Association, or by eligible surplus lines insurer that has a superior, excellent, exceptional or equivalent financial strength rating by a rating agency acceptable to the Office of Insurance Regulation of the Financial Services Commission.

The section also changes the excess minimum insurance limits required for persons proving financial responsibility by certificate of deposit, from $125,000/$250,000/$50,000 to $100,000/$300,000/$50,000.

Unauthorized Interference with Global Positioning Systems (Section 40)

Present Situation

Section 877.27, F.S., prohibits a person from making a radio transmission if he or she is not licensed or exempt for licensure by the Federal Communications Commission, or from causing

[121] The Florida Insurance Guaranty Association is created in s. 631.55, F.S.

an unlicensed radio transmission to interfere with a licensed radio public or commercial radio station. A person who violates this prohibition commits a third degree felony.

Global positioning system (GPS) jammers are devices using radio frequency transmitters in order to intentionally block, jam, or interfere with GPS systems. It is illegal to market, sell, or use GPS jammers in the United States.[122] Such devices have been linked to cargo thefts throughout the United States.[123]

Effect of Proposed Changes

Section 40 amends s. 877.27, F.S., to clearly prohibit a person from using a device prohibited by the Federal Communications Commission that would cause interference with the legal use of a GPS to track vehicles. A person who violates this prohibition commits a third degree felony.

Amending Cross-References (Sections 41-45)

Sections 41-45 amends numerous cross-references to reflect changes made by the bill.

Effective Date (Section 47)

Section 8 takes effect upon the same date that SB 340 or similar legislation takes effect.

Section 10 takes effect upon the adoption by rule of uniform traffic citation forms.

Section 14 takes effect July 1, 2018.

The remaining sections of the bill take effect October 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[122] See GPS.gov, *Information About GPS Jamming*, http://www.gps.gov/spectrum/jamming/ (last visited April 19, 2017).
[123] Federal Bureau of Investigation, Private Industry Notification 141002-001, *Cargo Thieves use GPS Jammers to Mask GPS Trackers* (Oct. 2, 2014), *available at* https://info.publicintelligence.net/FBI-CargoThievesGPS.pdf (last visited April 19, 2017).

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference (REC) reviewed some provisions in the bill on March 10, 2017.[124] The REC estimates that replacing stolen identification cards at no charge to a customer (section 36 of the bill) will reduce revenues deposited into the General Revenue Fund by an insignificant amount until Fiscal Years 2020 through 2022. Beginning 2020, the lost revenues are anticipated to be $100,000 annually.

The REC estimates that allowing local tax collectors to retain fees or portions of fees for administering subsequent driver license examinations or reinstating licenses (sections 34 and 37) will shift approximately $5 million of revenues from the annually to the local tax collectors.

Additionally, the REC estimates that authorizing expedited shipping fees for driver licenses and identification cards (section 11) will have an indeterminate impact in revenues to the extent that expedited shipping is requested.

B. Private Sector Impact:

The bill may have a positive impact for individuals who are:

- Issued a free replacement identification card to replace a stolen card (section 36);
- CMV operators who may replace a damaged apportioned license plate at no charge (sections 15 and 17);
- Not-for-hire truck operators within the state who may become eligible for the restricted agricultural special license plate (section 18);
- Businesses who may become eligible to use DHSMV's electronic filing system (section 14);
- Operators of autocycles (sections 20 and 24) who will not be required to obtain a motorcycle license or endorsement license, or to complete a motorcycle safety course and a motorcycle knowledge and skills test currently required to obtain such a license or endorsement; and

C. Surplus lines insurers (section 39).Government Sector Impact:

The bill makes changes to address compliance issues with federal laws relating to commercial motor vehicles (sections 1, 5, and 27). According to the DHSMV, if Florida fails to comply with FMCSA compatibility requirements, Florida may experience a reduction of up to four percent of Federal-aid highway funds following the first year of noncompliance and up to eight percent for subsequent years.[125] Noncompliance may also affect the potential award of future grants.

---

[124] Office of Economic and Demographic Research, Revenue Estimating Conference, *Highway Safety Fees – HB 545* (Mar. 10, 2017), *available at* http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2017/_pdf/Impact0310.pdf at p. 22-30 (last visited Mar. 15, 2017).

[125] Email from the DHSMV (Feb. 17, 2017) (on file with the Senate Committee on Transportation).

To the extent that FHP troopers terminate employment for employment with another agency between their second and third year of service, the DHSMV may receive reimbursement for training costs from the individual (section 18). The DHSMV estimates that the cost of training and other course expenses to the DHSMV is approximately $12,386 per trooper trainee.[126]

The DHSMV will likely incur programming costs associated with changes made by the bill, as well as production costs to create Bronze Star license plates (section 24) and Purple Heart motorcycle plates (section 23).), and procurement costs to implement a digital proof of driver license (section 30).

The bill is intended to address a broad range of federal compliance, customer service and administrative efficiency issues; however, these changes have various indeterminate impacts to revenues and expenditures and the total fiscal impact of the bill on the government sector is unknown.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 316.003, 316.2397, 316.2398, 316.302, 316.3025, 316.614, 316.85, 318.1215, 318.18, 320.01, 320.02, 320.03, 320.06, 320.0605, 320.0607, 320.08, 320.08056, 320.08058, 320.08068, 320.086, 320.089, 320.133, 320.27, 321.25, 322.01, 322.03, 322.032, 322.051, 322.08, 322.091, 322.12, 322.135, 322.17, 322.21, 322.61, 324.031, and 877.27.

This bill creates the following sections of the Florida Statutes: 316.851 and 320.0875.

This bill amends the following sections of the Florida Statutes to conform cross-references: 212.05, 316.303, 316.545, 316.613, and 655.960.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 18, 2017:
The CS adds the following issues to the bill:

[126] *Id.*

- Allows a person without a driver license to operate an autonomous vehicle in autonomous mode if the person cannot take control of the vehicle;
- Applies certain insurance coverage requirements, should legislation addressing insurance for transportation network companies (TNCs) become law, to autonomous vehicles used by TNCs to provide transportation, regardless of whether a human operator is physically present in the vehicle when the ride occurs;
- Authorizes a board of county commissioners to require, by ordinance, that the clerk of court collect an additional $5 with each *criminal*, instead of *civil* traffic penalty, which is used to fund driver education programs in schools;
- Changes "construction zone" to "work zone" for the purpose of double speeding penalties in such zones if required signs are posted and workers are present;
- Requires tax collectors perform the same motor vehicle registration and driver license services for non-county residents as they do for their home county residents;
- Expands the allowable operations and authorized agents of the DHSMV electronic filing system;
- Revises the eligibility requirement for the agricultural restricted license plate to allow certain agricultural trucks that operate within the state, instead of within a 150-mile radius of the truck's home address, be eligible for the restricted license plate;
- Authorizes a trailer to be considered a motor vehicle for purposes of receiving specified license plates;
- Clarifies the definition of motor vehicle dealers and motor vehicle brokers;
- Requires DHSMV work with the Agency for State Technology to provide digital proof of driver licenses;
- Allows for-hire passenger vehicles be insured by an eligible surplus lines insurer and modifies certain insurance limits; and
- Prohibits a person from using any device prohibited by the Federal Communications Commission that would cause interference with the legal use of a global positioning system to track vehicles.

The CS also:

- Amends the bill to allow the number of warning signals on a volunteer firefighter or medical staff vehicle to be determined by the responding agency;
- Delays the requirements for electronic logging devices and hours of service support documents for certain intrastate motor carriers until December 31, 2018; and
- Provides that tax collectors shall retain subsequent driver examination fees and specified driver license fees, *less the eight percent General Revenue Service Charge*.

CS by Transportation on March 22, 2017:

The CS adds several issues to the bill. Specifically, the CS:

- Creates a definition for an autocycle, requires occupants of autocycles to wear safety belts, and exempts drivers of autocycles from being required to have a motorcycle endorsement or motorcycles license, or from completing motorcycle knowledge and skills testing;
- Allows volunteer firefighters to use red and white, in addition to red, warning signals;

- Allows a person driving a rental vehicle who is stopped by a law enforcement officer or agent of the DHSMV to show an electronic copy of a rental agreement;
- Changes references to the organization "Prevent Blindness" to "Preserve Vision";
- Creates a Purple Heart motorcycle special license plate;
- Creates a Bronze Star license plate;
- Removes specialty license plates from statute that have been discontinued by the DHSMV; and
- Allows a person diagnosed with PTSD or TBI to be eligible to receive a "D" designation on his or her ID card.

The CS modifies changes to the bill sections on the Issuance of Apportionable Vehicle Plates. The CS removes language from current law indicating that the cab card denotes the declared gross vehicle weight *for each jurisdiction in which the vehicle is authorized to operate*. The CS also changes that a $28 annual fee is for an original and a renewed validation sticker, instead of for the annual cab card.

B. Amendments:

None.

265394

LEGISLATIVE ACTION

Senate . House

. .

. .

. .

. .

The Committee on Appropriations (Simmons) recommended the following:

Senate Amendment (with title amendment)

Between lines 287 and 288
insert:

Section 2. Subsection (2) of section 316.193, Florida Statutes, is amended to read:

316.193 Driving under the influence; penalties.—

(2)

(a) Except as provided in paragraph (b), subsection (3), or subsection (4), any person who is convicted of a violation of

subsection (1) shall be punished:

1. By a fine of:

a. Not less than $500 or more than $1,000 for a first conviction.

b. Not less than $1,000 or more than $2,000 for a second conviction; and

2. By imprisonment for:

a. Not more than 6 months for a first conviction.

b. Not more than 9 months for a second conviction.

3. For a second conviction, by mandatory placement for a period of at least 1 year, at the convicted person’s sole expense, of an ignition interlock device approved by the department in accordance with s. 316.1938 upon all vehicles that are individually or jointly leased or owned and routinely operated by the convicted person, when the convicted person qualifies for a permanent or restricted license. The installation of such device may not occur before July 1, 2003.

(b)1. Any person who is convicted of a third violation of this section for an offense that occurs within 10 years after a prior conviction for a violation of this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. In addition, the court shall order the mandatory placement for a period of not less than 2 years, at the convicted person’s sole expense, of an ignition interlock device approved by the department in accordance with s. 316.1938 upon all vehicles that are individually or jointly leased or owned and routinely operated by the convicted person, when the convicted person qualifies for a permanent or restricted license. The installation of such device may not

occur before July 1, 2003.

2. Any person who is convicted of a third violation of this section for an offense that occurs more than 10 years after the date of a prior conviction for a violation of this section shall be punished by a fine of not less than $2,000 or more than $5,000 and by imprisonment for not more than 12 months. In addition, the court shall order the mandatory placement for a period of at least 2 years, at the convicted person's sole expense, of an ignition interlock device approved by the department in accordance with s. 316.1938 upon all vehicles that are individually or jointly leased or owned and routinely operated by the convicted person, when the convicted person qualifies for a permanent or restricted license. The installation of such device may not occur before July 1, 2003.

3. Any person who is convicted of a fourth or subsequent violation of this section, regardless of when any prior conviction for a violation of this section occurred, commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. However, the fine imposed for such fourth or subsequent violation may be not less than $2,000.

(c) In addition to the penalties in paragraph (a), as a condition of probation, the court may order placement, at the convicted person's sole expense, of an ignition interlock device approved by the department in accordance with s. 316.1938 for at least 6 continuous months upon all vehicles that are ~~individually or jointly leased or owned and~~ routinely operated by the convicted person ~~if, at the time of the offense, the person had a blood-alcohol level or breath-alcohol level of .08~~

265394

~~or higher~~. If the convicted person is convicted of a first offense misdemeanor of the second degree and has not caused injury to, or the death of, a person or damage to property and such person voluntarily places, or if the court orders placement of, an interlock device under this subsection, the court, upon proper showing that the person has received counseling, treatment, rehabilitation or is enrolled in a substance abuse course pursuant to subsection (5), may withhold adjudication if the person does not have a prior withholding of adjudication or adjudication of guilt for any other offense. Failure of the person to comply with the full terms of the order of placement of the ignition interlock device may result in, among other penalties, the court ordering an adjudication of guilt.

For purposes of this subsection, the term "conviction" means a determination of guilt which is the result of a plea or a trial, regardless of whether adjudication is withheld or a plea of nolo contendere is entered.

Section 3. Subsection (2) of section 316.1937, Florida Statutes, is amended to read:

316.1937 Ignition interlock devices, requiring; unlawful acts.—

(2) If the court imposes the use of an ignition interlock device, the court shall:

(a) Stipulate on the record the requirement for, and the period of, the use of a certified ignition interlock device.

(b) Order that the records of the department reflect such requirement.

(c) Order that an ignition interlock device be installed,

as the court may determine necessary, on any vehicle owned or operated by the person.

(d) If the person claims inability to pay, provide the following discounts on the monthly leasing fee:

1. If a person's family income is at or below 100 percent of the federal poverty level as documented by written order of the court, the regular monthly leasing fee charged to all customers by the interlock provider shall be discounted by 50 percent.

2. If a person's family income is at or below 149 percent of the federal poverty level as documented by written order of the court, the regular monthly leasing fee charged to all customers by the interlock provider shall be discounted by 25 percent.

Persons who qualify for a reduced leasing fee as provided in this paragraph are not required to pay the costs of installation or removal of the device. ~~Determine the person's ability to pay for installation of the device if the person claims inability to pay. If the court determines that the person is unable to pay for installation of the device, the court may order that any portion of a fine paid by the person for a violation of s. 316.193 shall be allocated to defray the costs of installing the device.~~

(e) Require proof of installation of the device and periodic reporting to the department for verification of the operation of the device in the person's vehicle.

The Committee on Appropriations (Braynon) recommended the following:

Senate Amendment (with title amendment)

Delete lines 1081 - 1234
and insert:
Section 19. Subsection (2), paragraphs (ee), (eee), (qqq), and (rrr) of subsection (4), and paragraph (a) of subsection (10) of section 320.08056, Florida Statutes, are amended to read:
320.08056 Specialty license plates.—
(2)(a) The department shall issue a specialty license plate

to the owner or lessee of any motor vehicle or a dealer under s. 320.13, except a vehicle registered under the International Registration Plan, a commercial truck required to display two license plates pursuant to s. 320.0706, or a truck tractor, upon request and payment of the appropriate license tax and fees.

(b) A dealer license plate under s. 320.13 may be a specialty license plate. The plate shall be differentiated from other specialty license plates by a decal, developed by the department, located on the upper left corner of the plate which identifies the specialty license plate as a dealer license plate.

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

~~(cc) American Red Cross license plate, $25.~~

~~(ccc) Donate Organs-Pass It On license plate, $25.~~

~~(qqq) St. Johns River license plate, $25.~~

~~(rrr) Hispanic Achievers license plate, $25.~~

(10)(a) A specialty license plate annual use fee collected and distributed under this chapter, or any interest earned from those fees, may not be used for commercial or for-profit activities nor for general or administrative expenses, except as authorized by s. 320.08058 or to pay the cost of the audit or report required by s. 320.08062(1). The fees and any interest earned from the fees may be expended only for use in this state unless the annual use fee is derived from the sale of United States Armed Forces and veterans-related specialty license plates pursuant to paragraphs (4)(d), (bb), (kk), (iii), and (uuu) ~~(ll), (kkk), and (yyy)~~ and s. 320.0891.

Section 20. Subsections (31), (57), (69), and (70) of

section 320.08058, Florida Statutes, are repealed.

Section 21. Paragraph (b) of subsection (4) of section 320.08068, Florida Statutes, is amended to read:

320.08068 Motorcycle specialty license plates.—

(4) A license plate annual use fee of $20 shall be collected for each motorcycle specialty license plate. Annual use fees shall be distributed to The Able Trust as custodial agent. The Able Trust may retain a maximum of 10 percent of the proceeds from the sale of the license plate for administrative costs. The Able Trust shall distribute the remaining funds as follows:

(b) Twenty percent to Preserve Vision ~~Prevent Blindness~~ Florida.

Section 22. Subsection (7) is added to section 320.086, Florida Statutes, to read:

320.086 Ancient or antique motor vehicles; horseless carriage, antique, or historical license plates; former military vehicles.—

(7) For purposes of this section, a trailer is considered a motor vehicle.

Section 23. Section 320.0875, Florida Statutes, is created to read:

320.0875 Purple Heart motorcycle special license plate.—

(1) Upon application to the department and payment of the license tax for the motorcycle as provided in s. 320.08, a resident of this state who owns or leases a motorcycle that is not used for hire or commercial use shall be issued a Purple Heart motorcycle special license plate if he or she provides documentation acceptable to the department that he or she is a

recipient of the Purple Heart medal.

(2) The Purple Heart motorcycle special license plate shall be stamped with the words "Combat-wounded Veteran" followed by the serial number of the license plate. The Purple Heart motorcycle special license plate may have the term "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate.

Section 24. Paragraph (a) of subsection (1) of section 320.089, Florida Statutes, is amended to read:

320.089 ~~Veterans of the United States Armed Forces; members of National Guard; survivors of Pearl Harbor; Purple Heart medal recipients; active or retired United States Armed Forces reservists; Combat Infantry Badge, Combat Medical Badge, or Combat Action Badge recipients; Combat Action Ribbon recipients; Air Force Combat Action Medal recipients; Distinguished Flying Cross recipients; former prisoners of war; Korean War Veterans; Vietnam War Veterans; Operation Desert Shield Veterans; Operation Desert Storm Veterans; Operation Enduring Freedom Veterans; Operation Iraqi Freedom Veterans; Women Veterans; World War II Veterans; and Navy Submariners;~~ Special license plates for military servicemembers, veterans, and Pearl Harbor survivors~~; fee~~.—

(1)(a) Upon application to the department and payment of the license tax for the vehicle as provided in s. 320.08, a resident of this state who owns or leases ~~Each owner or lessee of~~ an automobile or truck for private use or recreational vehicle as specified in s. 320.08(9)(c) or (d), which is not used for hire or commercial use, shall be issued a license plate pursuant to the following if the applicant provides the

department with proof he or she meets the qualifications listed in this section for the applicable license plate:

1. A person released or discharged from any branch ~~who is a resident of the state and a veteran~~ of the United States Armed Forces shall be issued a license plate stamped with the words "Veteran" or "Woman Veteran" followed by the serial number of the license plate.~~, a Woman Veteran,~~

2. A World War II Veteran shall be issued a license plate stamped with the words "WWII Veteran" followed by the serial number of the license plate.~~,~~

3. A Navy Submariner shall be issued a license plate stamped with the words "Navy Submariner" followed by the serial number of the license plate.~~,~~

4. An active or retired member of the Florida National Guard shall be issued a license plate stamped with the words "National Guard" followed by the serial number of the license plate.

5. A member of the Pearl Harbor Survivors Association or other person on active military duty in Pearl Harbor on December 7, 1941, shall be issued a license plate stamped with the words "Pearl Harbor Survivor" followed by the serial number of the license plate.~~, a survivor of the attack on Pearl Harbor,~~

6. A recipient of the Purple Heart medal shall be issued a license plate stamped with the words "Combat-wounded Veteran" followed by the serial number of the license plate. The Purple Heart plate may have the words "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate.~~,~~

7. An active or retired member of any branch of the United

States Armed Forces Reserve shall be issued a license plate stamped with the words "U.S. Reserve" followed by the serial number of the license plate.

8. A member of the Combat Infantrymen's Association, Inc., or a recipient of the Combat Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, or Air Force Combat Action Medal shall be issued a license plate stamped with the words "Combat Infantry Badge," "Combat Medical Badge," "Combat Action Badge," "Combat Action Ribbon," or "Air Force Combat Action Medal," as appropriate, and a likeness of the related campaign badge, ribbon, or medal, followed by the serial number of the license plate.

9. A recipient of the~~, or~~ Distinguished Flying Cross shall be issued a license plate stamped with the words "Distinguished Flying Cross" and a likeness of the Distinguished Flying Cross followed by the serial number of the license plate.

10. A recipient of the Bronze Star shall be issued a license plate stamped with the words "Bronze Star" and a likeness of the Bronze Star followed by the serial number of the license plate~~, upon application to the department, accompanied by proof of release or discharge from any branch of the United States Armed Forces, proof of active membership or retired status in the Florida National Guard, proof of membership in the Pearl Harbor Survivors Association or proof of active military duty in Pearl Harbor on December 7, 1941, proof of being a Purple Heart medal recipient, proof of active or retired membership in any branch of the United States Armed Forces Reserve, or proof of membership in the Combat Infantrymen's Association, Inc., proof of being a recipient of the Combat~~

~~Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, Air Force Combat Action Medal, or Distinguished Flying Cross, and upon payment of the license tax for the vehicle as provided in s. 320.08, shall be issued a license plate as provided by s. 320.06 which, in lieu of the serial numbers prescribed by s. 320.06, is stamped with the words "Veteran," "Woman Veteran," "WWII Veteran," "Navy Submariner," "National Guard," "Pearl Harbor Survivor," "Combat-wounded veteran," "U.S. Reserve," "Combat Infantry Badge," "Combat Medical Badge," "Combat Action Badge," "Combat Action Ribbon," "Air Force Combat Action Medal," or "Distinguished Flying Cross," as appropriate, and a likeness of the related campaign medal or badge, followed by the serial number of the license plate. Additionally, the Purple Heart plate may have the words "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate~~.

Section 25. Subsection (4) is added to section 320.13, Florida Statutes, to read:

320.13 Dealer and manufacturer license plates and alternative method of registration.—

(4) A dealer license plate under this section may be a specialty license plate pursuant to s. 320.08056(2). The plate shall be differentiated from other specialty license plates by a decal, developed by the department, located on the upper left corner of the plate which identifies the specialty license plate as a dealer license plate.

The Committee on Appropriations (Braynon) recommended the following:

Senate Substitute for Amendment (254818) (with title amendment)

Between lines 2069 and 2070
insert:

Section 47. Paragraph (a) of subsection (3) of section 320.06, Florida Statutes, is amended to read:

320.06 Registration certificates, license plates, and validation stickers generally.—

(3)(a) Registration license plates must be made of metal

213662

specially treated with a retroreflection material, as specified by the department. The registration license plate is designed to increase nighttime visibility and legibility and must be at least 6 inches wide and not less than 12 inches in length, unless a plate with reduced dimensions is deemed necessary by the department to accommodate motorcycles, mopeds, or similar smaller vehicles. Validation stickers must also be treated with a retroreflection material, must be of such size as specified by the department, and must adhere to the license plate. The registration license plate must be imprinted with a combination of bold letters and numerals or numerals, not to exceed seven digits, to identify the registration license plate number. The license plate must be imprinted with the word "Florida" at the top and the name of the county in which it is sold, the state motto, or the words "Sunshine State" at the bottom. Apportioned license plates must have the word "Apportioned" at the bottom and license plates issued for vehicles taxed under s. 320.08(3)(d), (4)(m) or (n), (5)(b) or (c), or (14) must have the word "Restricted" at the bottom. License plates issued for vehicles taxed under s. 320.08(12) must be imprinted with the word "Florida" at the top and the word "Dealer" at the bottom unless the license plate is a specialty license plate as authorized in s. 320.08056. Manufacturer license plates issued for vehicles taxed under s. 320.08(12) must be imprinted with the word "Florida" at the top and the word "Manufacturer" at the bottom. License plates issued for vehicles taxed under s. 320.08(5)(d) or (e) must be imprinted with the word "Wrecker" at the bottom. Any county may, upon majority vote of the county commission, elect to have the county name removed from the

213662

license plates sold in that county. The state motto or the words "Sunshine State" shall be printed in lieu thereof. A license plate issued for a vehicle taxed under s. 320.08(6) may not be assigned a registration license number, or be issued with any other distinctive character or designation, that distinguishes the motor vehicle as a for-hire motor vehicle.

Section 48. Paragraph (b) of subsection (2) of section 320.0657, Florida Statutes, is amended to read:

320.0657 Permanent registration; fleet license plates.—

(2)

(b) The plates, which shall be of a distinctive color, shall have the word "Fleet" appearing at the bottom and the word "Florida" appearing at the top unless the license plate is a specialty license plate as authorized in s. 320.08056. The plates shall conform in all respects to the provisions of this chapter, except as specified herein. For additional fees as set forth in s. 320.08056, fleet companies may purchase specialty license plates in lieu of the standard fleet license plates. Fleet companies shall be responsible for all costs associated with the specialty license plate, including all annual use fees, processing fees, fees associated with switching license plate types, and any other applicable fees.

Section 49. Subsection (12) of section 320.08, Florida Statutes, is amended to read:

320.08 License taxes.—Except as otherwise provided herein, there are hereby levied and imposed annual license taxes for the operation of motor vehicles, mopeds, motorized bicycles as defined in s. 316.003(2), tri-vehicles as defined in s. 316.003, and mobile homes as defined in s. 320.01, which shall be paid to

213662

and collected by the department or its agent upon the registration or renewal of registration of the following:

(12) DEALER AND MANUFACTURER LICENSE PLATES.—A franchised motor vehicle dealer, independent motor vehicle dealer, marine boat trailer dealer, or mobile home dealer and manufacturer license plate: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund. For additional fees as set forth in s. 320.08056, dealers may purchase specialty license plates in lieu of the standard graphic dealer license plates. Dealers shall be responsible for all costs associated with the specialty license plate, including all annual use fees, processing fees, fees associated with switching license plate types, and any other applicable fees.

Section 50. Subsection (2) of section 320.08056, Florida Statutes, is amended to read:

320.08056 Specialty license plates.—

(2)(a) The department shall issue a specialty license plate to the owner or lessee of any motor vehicle, except a vehicle registered under the International Registration Plan, a commercial truck required to display two license plates pursuant to s. 320.0706, or a truck tractor, upon request and payment of the appropriate license tax and fees.

(b) The department may authorize dealer and fleet specialty license plates. With the permission of the sponsoring specialty license plate organization, a dealer or fleet company may purchase specialty license plates to be used on dealer and fleet vehicles.

(c) Notwithstanding s. 320.08058, a dealer or fleet specialty license plate shall include the letters “DLR” or “FLT”

213662

on the right side of the license plate. Dealer and fleet specialty license plates must be ordered directly through the department.

The Committee on Appropriations (Bean) recommended the following:

Senate Amendment (with title amendment)

Delete lines 1081 - 1103
and insert:
Section 19. Paragraphs (ee), (eee), (qqq), and (rrr) of subsection (4) of section 320.08056, Florida Statutes, are amended, paragraph (bbbb) is added to that subsection, and paragraph (a) of subsection (10) of that section is amended, to read:
320.08056 Specialty license plates.—

934212

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

~~(ee) American Red Cross license plate, $25.~~

~~(eee) Donate Organs-Pass It On license plate, $25.~~

~~(qqq) St. Johns River license plate, $25.~~

~~(rrr) Hispanic Achievers license plate, $25.~~

(bbbb) Ducks Unlimited license plate, $25.

(10)(a) A specialty license plate annual use fee collected and distributed under this chapter, or any interest earned from those fees, may not be used for commercial or for-profit activities nor for general or administrative expenses, except as authorized by s. 320.08058 or to pay the cost of the audit or report required by s. 320.08062(1). The fees and any interest earned from the fees may be expended only for use in this state unless the annual use fee is derived from the sale of United States Armed Forces and veterans-related specialty license plates pursuant to paragraphs (4)(d), (bb), (kk), (iii), and (uuu) ~~(ll), (kkk), and (yyy)~~ and s. 320.0891.

Section 20. Subsections (31), (57), (69), (70), and paragraph (b) of present subsection (80) of section 320.08058, Florida Statutes, are amended, and a new subsection (80) is added to that section, to read:

320.08058 Specialty license plates.—

~~(31) AMERICAN RED CROSS LICENSE PLATES.—~~

~~(a) Notwithstanding the provisions of s. 320.08053, the department shall develop an American Red Cross license plate as provided in this section. The word "Florida" must appear at the top of the plate, and the words "American Red Cross" must appear at the bottom of the plate.~~

934212

~~(b) The department shall retain all revenues from the sale of such plates until all startup costs for developing and issuing the plates have been recovered. Thereafter, 50 percent of the annual use fees shall be distributed to the American Red Cross Chapter of Central Florida, with statistics on sales of license plates, which are tabulated by county. The American Red Cross Chapter of Central Florida must distribute to each of the chapters in this state the moneys received from sales in the counties covered by the respective chapters, which moneys must be used for education and disaster relief in Florida. Fifty percent of the annual use fees shall be distributed proportionately to the three statewide approved poison control centers for purposes of combating bioterrorism and other poison-related purposes.~~

~~(57) DONATE ORGANS-PASS IT ON LICENSE PLATES.—~~

~~(a) The department shall develop a Donate Organs-Pass It On license plate as provided in this section. The word "Florida" must appear at the top of the plate, and the words "Donate Organs-Pass It On" must appear at the bottom of the plate.~~

~~(b) The annual use fees shall be distributed to Transplant Foundation, Inc., and shall use up to 10 percent of the proceeds from the annual use fee for marketing and administrative costs that are directly associated with the management and distribution of the proceeds. The remaining proceeds shall be used to provide statewide grants for patient services, including preoperative, rehabilitative, and housing assistance; organ donor education and awareness programs; and statewide medical research.~~

~~(69) ST. JOHNS RIVER LICENSE PLATES.—~~

~~(a) The department shall develop a St. Johns River license plate as provided in this section. The St. Johns River license plates must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "St. Johns River" must appear at the bottom of the plate.~~

~~(b) The requirements of s. 320.08053 must be met prior to the issuance of the plate. Thereafter, the license plate annual use fees shall be distributed to the St. Johns River Alliance, Inc., a s. 501(c)(3) nonprofit organization, which shall administer the fees as follows:~~

~~1. The St. Johns River Alliance, Inc., shall retain the first $60,000 of the annual use fees as direct reimbursement for administrative costs, startup costs, and costs incurred in the development and approval process. Thereafter, up to 10 percent of the annual use fee revenue may be used for administrative costs directly associated with education programs, conservation, research, and grant administration of the organization, and up to 10 percent may be used for promotion and marketing of the specialty license plate.~~

~~2. At least 30 percent of the fees shall be available for competitive grants for targeted community-based or county-based research or projects for which state funding is limited or not currently available. The remaining 50 percent shall be directed toward community outreach and access programs. The competitive grants shall be administered and approved by the board of directors of the St. Johns River Alliance, Inc. A grant advisory committee shall be composed of six members chosen by the St. Johns River Alliance board members.~~

~~3. Any remaining funds shall be distributed with the approval of and accountability to the board of directors of the St. Johns River Alliance, Inc., and shall be used to support activities contributing to education, outreach, and springs conservation.~~

~~4. Effective July 1, 2014, the St. Johns River license plate will shift into the presale voucher phase, as provided in s. 320.08053(2)(b). The St. Johns River Alliance, Inc., shall have 24 months to record a minimum of 1,000 sales of the license plates. Sales include existing active plates and vouchers sold subsequent to July 1, 2014. During the voucher period, new plates may not be issued, but existing plates may be renewed. If, at the conclusion of the 24-month presale period, the requirement of a minimum of 1,000 sales has been met, the department shall resume normal distribution of the St. Johns River specialty plate. If, after 24 months, the minimum of 1,000 sales has not been met, the department shall discontinue the development and issuance of the plate. This subparagraph is repealed June 30, 2016.~~

~~(70) HISPANIC ACHIEVERS LICENSE PLATES.—~~

~~(a) Notwithstanding the requirements of s. 320.08053, the department shall develop a Hispanic Achievers license plate as provided in this section. The plate must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Hispanic Achievers" must appear at the bottom of the plate.~~

~~(b) The proceeds from the license plate annual use fee shall be distributed to National Hispanic Corporate Achievers, Inc., a nonprofit corporation under s. 501(c)(3) of the Internal~~

~~Revenue Code, to fund grants to nonprofit organizations to operate programs and provide scholarships and for marketing the Hispanic Achievers license plate. National Hispanic Corporate Achievers, Inc., shall establish a Hispanic Achievers Grant Council that shall provide recommendations for statewide grants from available Hispanic Achievers license plate proceeds to nonprofit organizations for programs and scholarships for Hispanic and minority Floridians. National Hispanic Corporate Achievers, Inc., shall also establish a Hispanic Achievers License Plate Fund. Moneys in the fund shall be used by the grant council as provided in this paragraph. All funds received under this subsection must be used in this state.~~

~~(c) National Hispanic Corporate Achievers, Inc., may retain all proceeds from the annual use fee until documented startup costs for developing and establishing the plate have been recovered. Thereafter, the proceeds from the annual use fee shall be used as follows:~~

~~1. Up to 5 percent of the proceeds may be used for the cost of administration of the Hispanic Achievers License Plate Fund, the Hispanic Achievers Grant Council, and related matters.~~

~~2. Funds may be used as necessary for annual audit or compliance affidavit costs.~~

~~3. Up to 20 percent of the proceeds may be used to market and promote the Hispanic Achievers license plate.~~

~~4. Twenty-five percent of the proceeds shall be used by the Hispanic Corporate Achievers, Inc., located in Seminole County, for grants.~~

~~5. The remaining proceeds shall be available to the Hispanic Achievers Grant Council to award grants for services,~~

934212

~~programs, or scholarships for Hispanic and minority individuals and organizations throughout Florida. All grant recipients must provide to the Hispanic Achievers Grant Council an annual program and financial report regarding the use of grant funds. Such reports must be available to the public.~~

~~(d) Effective July 1, 2014, the Hispanic Achievers license plate will shift into the presale voucher phase, as provided in s. 320.08053(2)(b). National Hispanic Corporate Achievers, Inc., shall have 24 months to record a minimum of 1,000 sales. Sales include existing active plates and vouchers sold subsequent to July 1, 2014. During the voucher period, new plates may not be issued, but existing plates may be renewed. If, at the conclusion of the 24-month presale period, the requirement of a minimum of 1,000 sales has been met, the department shall resume normal distribution of the Hispanic Achievers license plate. If, after 24 months, the minimum of 1,000 sales has not been met, the department shall discontinue the Hispanic Achievers license plate. This subsection is repealed June 30, 2016.~~

(76) ~~(80)~~ FALLEN LAW ENFORCEMENT OFFICERS LICENSE PLATES.—

(b) The annual use fees shall be distributed to the Police and Kids Foundation, Inc., which may use up to ~~a maximum of~~ 10 percent of the proceeds for marketing ~~to promote and market~~ the plate. All remaining proceeds shall be distributed to and used by the Police and Kids Foundation, Inc., for its operations, activities, programs, and projects ~~The remainder of the proceeds shall be used by the Police and Kids Foundation, Inc., to invest and reinvest, and the interest earnings shall be used for the operation of the Police and Kids Foundation, Inc~~.

(80) DUCKS UNLIMITED LICENSE PLATES.—

934212

(a) The department shall develop a Ducks Unlimited license plate as provided in this section and s. 320.08053. Ducks Unlimited license plates must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Conserving Florida Wetlands" must appear at the bottom of the plate.

(b) The annual use fees from the sale of the plate shall be distributed to Ducks Unlimited, Inc., a nonprofit corporation under s. 501(c)(3) of the Internal Revenue Code, to be used as follows:

1. Up to 5 percent may be used for administrative costs and marketing of the plate.

2. A minimum of 95 percent shall be used in this state to support the mission and efforts of Ducks Unlimited, Inc., for the conservation, restoration, and management of Florida wetlands and associated habitats for the benefit of waterfowl, other wildlife, and people.

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Bean) recommended the following:

Senate Substitute for Amendment (934212) (with title amendment)

Delete lines 1081 - 1103
and insert:

Section 19. Paragraphs (ee), (eee), (qqq), and (rrr) of subsection (4) of section 320.08056, Florida Statutes, are amended, paragraphs (bbbb) through (gggg) are added to that subsection, and paragraph (a) of subsection (10) of that section is amended, to read:

652328

320.08056 Specialty license plates.—

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

~~(ee) American Red Cross license plate, $25.~~

~~(eee) Donate Organs-Pass It On license plate, $25.~~

~~(qqq) St. Johns River license plate, $25.~~

~~(rrr) Hispanic Achievers license plate, $25.~~

(bbbb) Ducks Unlimited license plate, $25.

(cccc) Play Ball license plate, $25.

(dddd) America the Beautiful license plate, $25.

(eeee) Protect Pollinators plate, $25.

(ffff) Florida Native license plate, $25.

(gggg) Donate Life Florida license plate, $25.

(10)(a) A specialty license plate annual use fee collected and distributed under this chapter, or any interest earned from those fees, may not be used for commercial or for-profit activities nor for general or administrative expenses, except as authorized by s. 320.08058 or to pay the cost of the audit or report required by s. 320.08062(1). The fees and any interest earned from the fees may be expended only for use in this state unless the annual use fee is derived from the sale of United States Armed Forces and veterans-related specialty license plates pursuant to paragraphs (4)(d), (bb), (kk), (iii), and (uuu) ~~(ll), (kkk), and (yyy)~~ and s. 320.0891.

Section 20. Subsections (31), (57), (69), (70), and paragraph (b) of present subsection (80) of section 320.08058, Florida Statutes, are amended, and new subsections (80) through (85) are added to that section, to read:

320.08058 Specialty license plates.—

652328

~~(31) AMERICAN RED CROSS LICENSE PLATES.—~~

~~(a) Notwithstanding the provisions of s. 320.08053, the department shall develop an American Red Cross license plate as provided in this section. The word "Florida" must appear at the top of the plate, and the words "American Red Cross" must appear at the bottom of the plate.~~

~~(b) The department shall retain all revenues from the sale of such plates until all startup costs for developing and issuing the plates have been recovered. Thereafter, 50 percent of the annual use fees shall be distributed to the American Red Cross Chapter of Central Florida, with statistics on sales of license plates, which are tabulated by county. The American Red Cross Chapter of Central Florida must distribute to each of the chapters in this state the moneys received from sales in the counties covered by the respective chapters, which moneys must be used for education and disaster relief in Florida. Fifty percent of the annual use fees shall be distributed proportionately to the three statewide approved poison control centers for purposes of combating bioterrorism and other poison-related purposes.~~

~~(57) DONATE ORGANS-PASS IT ON LICENSE PLATES.—~~

~~(a) The department shall develop a Donate Organs-Pass It On license plate as provided in this section. The word "Florida" must appear at the top of the plate, and the words "Donate Organs-Pass It On" must appear at the bottom of the plate.~~

~~(b) The annual use fees shall be distributed to Transplant Foundation, Inc., and shall use up to 10 percent of the proceeds from the annual use fee for marketing and administrative costs that are directly associated with the management and~~

652328

~~distribution of the proceeds. The remaining proceeds shall be used to provide statewide grants for patient services, including preoperative, rehabilitative, and housing assistance; organ donor education and awareness programs; and statewide medical research.~~

~~(69) ST. JOHNS RIVER LICENSE PLATES.—~~

~~(a) The department shall develop a St. Johns River license plate as provided in this section. The St. Johns River license plates must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "St. Johns River" must appear at the bottom of the plate.~~

~~(b) The requirements of s. 320.08053 must be met prior to the issuance of the plate. Thereafter, the license plate annual use fees shall be distributed to the St. Johns River Alliance, Inc., a s. 501(c)(3) nonprofit organization, which shall administer the fees as follows:~~

~~1. The St. Johns River Alliance, Inc., shall retain the first $60,000 of the annual use fees as direct reimbursement for administrative costs, startup costs, and costs incurred in the development and approval process. Thereafter, up to 10 percent of the annual use fee revenue may be used for administrative costs directly associated with education programs, conservation, research, and grant administration of the organization, and up to 10 percent may be used for promotion and marketing of the specialty license plate.~~

~~2. At least 30 percent of the fees shall be available for competitive grants for targeted community-based or county-based research or projects for which state funding is limited or not~~

652328

~~currently available. The remaining 50 percent shall be directed toward community outreach and access programs. The competitive grants shall be administered and approved by the board of directors of the St. Johns River Alliance, Inc. A grant advisory committee shall be composed of six members chosen by the St. Johns River Alliance board members.~~

~~3. Any remaining funds shall be distributed with the approval of and accountability to the board of directors of the St. Johns River Alliance, Inc., and shall be used to support activities contributing to education, outreach, and springs conservation.~~

~~4. Effective July 1, 2014, the St. Johns River license plate will shift into the presale voucher phase, as provided in s. 320.08053(2)(b). The St. Johns River Alliance, Inc., shall have 24 months to record a minimum of 1,000 sales of the license plates. Sales include existing active plates and vouchers sold subsequent to July 1, 2014. During the voucher period, new plates may not be issued, but existing plates may be renewed. If, at the conclusion of the 24-month presale period, the requirement of a minimum of 1,000 sales has been met, the department shall resume normal distribution of the St. Johns River specialty plate. If, after 24 months, the minimum of 1,000 sales has not been met, the department shall discontinue the development and issuance of the plate. This subparagraph is repealed June 30, 2016.~~

~~(70) HISPANIC ACHIEVERS LICENSE PLATES.—~~

~~(a) Notwithstanding the requirements of s. 320.08053, the department shall develop a Hispanic Achievers license plate as provided in this section. The plate must bear the colors and~~

652328

~~design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Hispanic Achievers" must appear at the bottom of the plate.~~

~~(b) The proceeds from the license plate annual use fee shall be distributed to National Hispanic Corporate Achievers, Inc., a nonprofit corporation under s. 501(c)(3) of the Internal Revenue Code, to fund grants to nonprofit organizations to operate programs and provide scholarships and for marketing the Hispanic Achievers license plate. National Hispanic Corporate Achievers, Inc., shall establish a Hispanic Achievers Grant Council that shall provide recommendations for statewide grants from available Hispanic Achievers license plate proceeds to nonprofit organizations for programs and scholarships for Hispanic and minority Floridians. National Hispanic Corporate Achievers, Inc., shall also establish a Hispanic Achievers License Plate Fund. Moneys in the fund shall be used by the grant council as provided in this paragraph. All funds received under this subsection must be used in this state.~~

~~(c) National Hispanic Corporate Achievers, Inc., may retain all proceeds from the annual use fee until documented startup costs for developing and establishing the plate have been recovered. Thereafter, the proceeds from the annual use fee shall be used as follows:~~

~~1. Up to 5 percent of the proceeds may be used for the cost of administration of the Hispanic Achievers License Plate Fund, the Hispanic Achievers Grant Council, and related matters.~~

~~2. Funds may be used as necessary for annual audit or compliance affidavit costs.~~

~~3. Up to 20 percent of the proceeds may be used to market~~

652328

~~and promote the Hispanic Achievers license plate.~~

~~4. Twenty-five percent of the proceeds shall be used by the Hispanic Corporate Achievers, Inc., located in Seminole County, for grants.~~

~~5. The remaining proceeds shall be available to the Hispanic Achievers Grant Council to award grants for services, programs, or scholarships for Hispanic and minority individuals and organizations throughout Florida. All grant recipients must provide to the Hispanic Achievers Grant Council an annual program and financial report regarding the use of grant funds. Such reports must be available to the public.~~

~~(d) Effective July 1, 2014, the Hispanic Achievers license plate will shift into the presale voucher phase, as provided in s. 320.08053(2)(b). National Hispanic Corporate Achievers, Inc., shall have 24 months to record a minimum of 1,000 sales. Sales include existing active plates and vouchers sold subsequent to July 1, 2014. During the voucher period, new plates may not be issued, but existing plates may be renewed. If, at the conclusion of the 24-month presale period, the requirement of a minimum of 1,000 sales has been met, the department shall resume normal distribution of the Hispanic Achievers license plate. If, after 24 months, the minimum of 1,000 sales has not been met, the department shall discontinue the Hispanic Achievers license plate. This subsection is repealed June 30, 2016.~~

(76)~~(80)~~ FALLEN LAW ENFORCEMENT OFFICERS LICENSE PLATES.—

(b) The annual use fees shall be distributed to the Police and Kids Foundation, Inc., which may use up to ~~a maximum of~~ 10 percent of the proceeds for marketing ~~to promote and market~~ the plate. All remaining proceeds shall be distributed to and used

652328

by the Police and Kids Foundation, Inc., for its operations, activities, programs, and projects ~~The remainder of the proceeds shall be used by the Police and Kids Foundation, Inc., to invest and reinvest, and the interest earnings shall be used for the operation of the Police and Kids Foundation, Inc~~.

(80) DUCKS UNLIMITED LICENSE PLATES.—

(a) The department shall develop a Ducks Unlimited license plate as provided in this section and s. 320.08053. Ducks Unlimited license plates must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Conserving Florida Wetlands" must appear at the bottom of the plate.

(b) The annual use fees from the sale of the plate shall be distributed to Ducks Unlimited, Inc., a nonprofit corporation under s. 501(c)(3) of the Internal Revenue Code, to be used as follows:

1. Up to 5 percent may be used for administrative costs and marketing of the plate.

2. A minimum of 95 percent shall be used in this state to support the mission and efforts of Ducks Unlimited, Inc., for the conservation, restoration, and management of Florida wetlands and associated habitats for the benefit of waterfowl, other wildlife, and people.

(81) PLAY BALL LICENSE PLATES.—

(a) The department shall develop a Play Ball license plate as provided in this section and s. 320.08053. Play Ball license plates must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Play Ball" must appear at the bottom of

652328

the plate.

(b) The license plate annual use fees shall be distributed to American Dream Baseball, Inc., which may retain all proceeds from the annual use fees until the startup costs for developing and issuing the license plates have been recovered. Thereafter, American Dream Baseball, Inc., may use the proceeds as follows:

1. A maximum of 15 percent may be used for administrative costs of the organization associated with implementing the programs funded by proceeds derived from sales of the specialty license plate.

2. A maximum of 10 percent may be used for promotion and marketing costs of the license plate.

3. The remainder shall be used to fund the activities, programs, and projects of American Dream Baseball, Inc.

(82) AMERICA THE BEAUTIFUL LICENSE PLATES.—

(a) The department shall develop an America The Beautiful license plate as provided in this section and s. 320.08053. The word "Florida" must appear at the top of the plate, and the words "America The Beautiful" must appear on the plate.

(b) The annual use fees from the plate shall be distributed to the America the Beautiful Fund as follows: 10 percent to offset its administrative, marketing and promotion costs, and the remaining 85 percent for projects and programs teaching character, leadership, and service to Florida youth; provision of wellbeing and assistance in the military community; outdoor education advancing self-sufficiency; wildlife conservation including imperiled and managed species; the maintenance of historic or culturally important sites, buildings, structures, or objects, and the development and modification of playgrounds,

652328

recreational areas, or other outdoor amenities, including disability access.

(83) PROTECT POLLINATORS PLATES.—

(a) The department shall develop a Protect Pollinators license plate as provided in this section and s. 320.08053. The word "Florida" must appear at the top of the plate, and the words "Protect Pollinators" must appear at the bottom of the plate.

(b) The annual use fees from the sale of the plate shall be distributed to the Florida Wildflower Foundation Inc., which:

1. May use a maximum of 10 percent of the proceeds to market, promote, and administer the Protect Pollinators plate.

2. Shall use the remainder of the proceeds to establish pollinator wildflower habitats, fund pollinator education and research programs, and promote awareness of pollinators, including butterflies, native bees and honeybees, hummingbirds, bats, and hundreds of other insects and animal pollinator species, and their importance to Florida agricultural success and the security of the food supply.

(84) FLORIDA NATIVE LICENSE PLATES.—

(a) The department shall develop a Florida Native license plate as provided in this section and s. 320.08053. The word "Florida" must appear at the top of the plate, and the word "Native" must appear at the bottom of the plate. The plate must contain a camouflage background including leaves, flowers, or fronds of a minimum of 12 different Florida native plants.

(b)1. The department shall retain all annual use fees from the sale of the plate until all startup costs for developing and issuing the plate have been recovered.

652328

2. Thereafter, the annual use fees from the sale of the plate shall be distributed to Florida Native Plant Society, a Florida nonprofit corporation, which may use a maximum of 10 percent of such fees for administrative costs and a maximum of 20 percent to market and promote the plate. The balance of the fees shall be used by Florida Native Plant Society, to fulfill the mission of the Florida Native Plant Society, where a minimum of 25 percent is dedicated to maintaining, improving, and restoring public native species, hunting and fishing habitats, and 25 percent is used to promote the cultivation of Florida's agricultural products through the preservation of native noncrop plants to provide habitats for pollinators and natural enemies to plant pests, and to provide pollen and nectar and undisturbed habitats for bee nesting throughout the growing season.

(85) DONATE LIFE FLORIDA LICENSE PLATES.—

(a) The department shall develop a Donate Life Florida license plate as provided in this section and s. 320.08053. The plate must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Donors Saves Lives" must appear at the bottom of the plate.

(b) The annual use fees from the sale of the plate shall be distributed to Donate Life Florida, which may use up to 10 percent of the proceeds for marketing and administrative costs. The remaining proceeds of the annual use fees shall be used by the Donate Life Florida to educate Florida residents on the importance of organ, tissue and eye donation and for the continued maintenance of the Joshua Abbott Organ and Tissue Donor Registry.

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Gainer) recommended the following:

Senate Amendment (with title amendment)

Delete lines 1081 - 1103
and insert:
Section 19. Paragraphs (ee), (eee), (qqq), and (rrr) of subsection (4) of section 320.08056, Florida Statutes, are amended, paragraph (bbbb) is added to that subsection, and paragraph (a) of subsection (10) of that section is amended, to read:
320.08056 Specialty license plates.—

403134

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

~~(ee) American Red Cross license plate, $25.~~

~~(eee) Donate Organs-Pass It On license plate, $25.~~

~~(qqq) St. Johns River license plate, $25.~~

~~(rrr) Hispanic Achievers license plate, $25.~~

(bbbb) Florida State Beekeepers Association license plate, $25.

(10)(a) A specialty license plate annual use fee collected and distributed under this chapter, or any interest earned from those fees, may not be used for commercial or for-profit activities nor for general or administrative expenses, except as authorized by s. 320.08058 or to pay the cost of the audit or report required by s. 320.08062(1). The fees and any interest earned from the fees may be expended only for use in this state unless the annual use fee is derived from the sale of United States Armed Forces and veterans-related specialty license plates pursuant to paragraphs (4)(d), (bb), (kk), (iii), and (uuu) ~~(ll), (kkk), and (yyy)~~ and s. 320.0891.

Section 20. Subsections (31), (57), (69), (70) of section 320.08058, Florida Statutes, are amended, and a new subsection (80) is added to that section, to read:

320.08058 Specialty license plates.—

~~(31) AMERICAN RED CROSS LICENSE PLATES.—~~

~~(a) Notwithstanding the provisions of s. 320.08053, the department shall develop an American Red Cross license plate as provided in this section. The word "Florida" must appear at the top of the plate, and the words "American Red Cross" must appear at the bottom of the plate.~~

403134

~~(b) The department shall retain all revenues from the sale of such plates until all startup costs for developing and issuing the plates have been recovered. Thereafter, 50 percent of the annual use fees shall be distributed to the American Red Cross Chapter of Central Florida, with statistics on sales of license plates, which are tabulated by county. The American Red Cross Chapter of Central Florida must distribute to each of the chapters in this state the moneys received from sales in the counties covered by the respective chapters, which moneys must be used for education and disaster relief in Florida. Fifty percent of the annual use fees shall be distributed proportionately to the three statewide approved poison control centers for purposes of combating bioterrorism and other poison-related purposes.~~

~~(57) DONATE ORGANS-PASS IT ON LICENSE PLATES.—~~

~~(a) The department shall develop a Donate Organs-Pass It On license plate as provided in this section. The word "Florida" must appear at the top of the plate, and the words "Donate Organs-Pass It On" must appear at the bottom of the plate.~~

~~(b) The annual use fees shall be distributed to Transplant Foundation, Inc., and shall use up to 10 percent of the proceeds from the annual use fee for marketing and administrative costs that are directly associated with the management and distribution of the proceeds. The remaining proceeds shall be used to provide statewide grants for patient services, including preoperative, rehabilitative, and housing assistance; organ donor education and awareness programs; and statewide medical research.~~

~~(69) ST. JOHNS RIVER LICENSE PLATES.—~~

~~(a) The department shall develop a St. Johns River license plate as provided in this section. The St. Johns River license plates must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "St. Johns River" must appear at the bottom of the plate.~~

~~(b) The requirements of s. 320.08053 must be met prior to the issuance of the plate. Thereafter, the license plate annual use fees shall be distributed to the St. Johns River Alliance, Inc., a s. 501(c)(3) nonprofit organization, which shall administer the fees as follows:~~

~~1. The St. Johns River Alliance, Inc., shall retain the first $60,000 of the annual use fees as direct reimbursement for administrative costs, startup costs, and costs incurred in the development and approval process. Thereafter, up to 10 percent of the annual use fee revenue may be used for administrative costs directly associated with education programs, conservation, research, and grant administration of the organization, and up to 10 percent may be used for promotion and marketing of the specialty license plate.~~

~~2. At least 30 percent of the fees shall be available for competitive grants for targeted community-based or county-based research or projects for which state funding is limited or not currently available. The remaining 50 percent shall be directed toward community outreach and access programs. The competitive grants shall be administered and approved by the board of directors of the St. Johns River Alliance, Inc. A grant advisory committee shall be composed of six members chosen by the St. Johns River Alliance board members.~~

~~3. Any remaining funds shall be distributed with the approval of and accountability to the board of directors of the St. Johns River Alliance, Inc., and shall be used to support activities contributing to education, outreach, and springs conservation.~~

~~4. Effective July 1, 2014, the St. Johns River license plate will shift into the presale voucher phase, as provided in s. 320.08053(2)(b). The St. Johns River Alliance, Inc., shall have 24 months to record a minimum of 1,000 sales of the license plates. Sales include existing active plates and vouchers sold subsequent to July 1, 2014. During the voucher period, new plates may not be issued, but existing plates may be renewed. If, at the conclusion of the 24-month presale period, the requirement of a minimum of 1,000 sales has been met, the department shall resume normal distribution of the St. Johns River specialty plate. If, after 24 months, the minimum of 1,000 sales has not been met, the department shall discontinue the development and issuance of the plate. This subparagraph is repealed June 30, 2016.~~

~~(70) HISPANIC ACHIEVERS LICENSE PLATES.—~~

~~(a) Notwithstanding the requirements of s. 320.08053, the department shall develop a Hispanic Achievers license plate as provided in this section. The plate must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Hispanic Achievers" must appear at the bottom of the plate.~~

~~(b) The proceeds from the license plate annual use fee shall be distributed to National Hispanic Corporate Achievers, Inc., a nonprofit corporation under s. 501(c)(3) of the Internal~~

~~Revenue Code, to fund grants to nonprofit organizations to operate programs and provide scholarships and for marketing the Hispanic Achievers license plate. National Hispanic Corporate Achievers, Inc., shall establish a Hispanic Achievers Grant Council that shall provide recommendations for statewide grants from available Hispanic Achievers license plate proceeds to nonprofit organizations for programs and scholarships for Hispanic and minority Floridians. National Hispanic Corporate Achievers, Inc., shall also establish a Hispanic Achievers License Plate Fund. Moneys in the fund shall be used by the grant council as provided in this paragraph. All funds received under this subsection must be used in this state.~~

~~(c) National Hispanic Corporate Achievers, Inc., may retain all proceeds from the annual use fee until documented startup costs for developing and establishing the plate have been recovered. Thereafter, the proceeds from the annual use fee shall be used as follows:~~

~~1. Up to 5 percent of the proceeds may be used for the cost of administration of the Hispanic Achievers License Plate Fund, the Hispanic Achievers Grant Council, and related matters.~~

~~2. Funds may be used as necessary for annual audit or compliance affidavit costs.~~

~~3. Up to 20 percent of the proceeds may be used to market and promote the Hispanic Achievers license plate.~~

~~4. Twenty-five percent of the proceeds shall be used by the Hispanic Corporate Achievers, Inc., located in Seminole County, for grants.~~

~~5. The remaining proceeds shall be available to the Hispanic Achievers Grant Council to award grants for services,~~

403134

~~programs, or scholarships for Hispanic and minority individuals and organizations throughout Florida. All grant recipients must provide to the Hispanic Achievers Grant Council an annual program and financial report regarding the use of grant funds. Such reports must be available to the public.~~

~~(d) Effective July 1, 2014, the Hispanic Achievers license plate will shift into the presale voucher phase, as provided in s. 320.08053(2)(b). National Hispanic Corporate Achievers, Inc., shall have 24 months to record a minimum of 1,000 sales. Sales include existing active plates and vouchers sold subsequent to July 1, 2014. During the voucher period, new plates may not be issued, but existing plates may be renewed. If, at the conclusion of the 24-month presale period, the requirement of a minimum of 1,000 sales has been met, the department shall resume normal distribution of the Hispanic Achievers license plate. If, after 24 months, the minimum of 1,000 sales has not been met, the department shall discontinue the Hispanic Achievers license plate. This subsection is repealed June 30, 2016.~~

(80) FLORIDA STATE BEEKEEPERS ASSOCIATION LICENSE PLATES.—

(a) The department shall develop a Florida State Beekeepers Association license plate as provided in this section and s. 320.08053. The plate must bear the colors and design approved by the department. The word "Florida" must appear at the top of the plate, and the words "Save the Bees" must appear at the bottom of the plate.

(b) The annual use fees shall be distributed to the Florida State Beekeepers Association, a Florida nonprofit corporation. The Florida State Beekeepers Association may use up to 18 percent of the annual use fees for:

403134

1. Direct reimbursement for administrative costs, startup costs, and costs incurred in the development and approval process of the license plate. All vendors associated with the administrative costs shall be selected by competitive bid.

2. Promotion and marketing costs of the license plate.

(c) The remaining funds shall be distributed to the Florida State Beekeepers Association and shall be used to raise awareness of the importance of beekeeping to Florida agriculture by funding honeybee research, education, outreach, and husbandry. The Florida State Beekeepers Association board of managers must approve and is accountable for all such expenditures.

insert:

Section 25. Subsection (10) is added to section 320.131, Florida Statutes, to read:

320.131 Temporary tags.—

(10) Beginning October 1, 2017, the department may partner with a county tax collector to conduct a Fleet Vehicle Temporary Tag pilot program to provide temporary tags to fleet companies

to allow them to operate fleet vehicles awaiting a permanent registration and title.

(a) The department shall establish a memorandum of understanding that allows a maximum of three companies to participate in the pilot program to receive multiple temporary tags for company fleet vehicles.

(b) To participate in the program a fleet company must have a minimum of 3,500 fleet vehicles registered in this state that qualify to be registered as fleet vehicles pursuant to s. 320.0657.

(c) The department may issue up to 50 temporary tags at a time to an eligible fleet company, if requested by such company.

(d) The temporary tags are for exclusive use for a vehicle purchased for the company's fleet, and may not be used on any other vehicle.

(e) Each temporary plate may be used by only one vehicle and each vehicle may only use one temporary plate.

(f) Upon issuance of the vehicle's permanent license plate and registration, the temporary tag becomes invalid and must be removed from the vehicle and destroyed.

(g) Upon a finding by the department that a temporary tag has been misused by a fleet company under this program, the department may terminate the memorandum of understanding with the company, invalidate all temporary tags issued to the company under this program, and require such company to return any unused temporary tags.

(h) This subsection is repealed on October 1, 2019, unless saved from repeal through reenactment by the Legislature.

The Committee on Appropriations (Gainer) recommended the following:

Senate Amendment (with title amendment)

Between lines 1727 and 1728
insert:
Section 36. Section 322.161, Florida Statutes, is amended to read:
322.161 High-risk drivers; restricted licenses.—
(1) This section may be cited as the "Brittany Baxter Act."
(2) ~~(1)~~ (a) Notwithstanding any provision of law to the contrary, the department shall restrict the driving privilege of

349606

any Class E licensee who is age 15 through 17 and who has accumulated six or more points pursuant to s. 318.14, excluding parking violations, within an 18-month ~~a 12-month~~ period.

(b) Upon determination that any person has accumulated seven ~~six~~ or more points, the department shall notify the licensee and issue the licensee a restricted license for business purposes only. The licensee must appear before the department within 10 days after notification to have this restriction applied. The period of restriction shall be for ~~a period of no less than 1 year~~ 30 days beginning on the date it is applied by the department. During the period of restriction, the licensee must complete a 12-hour approved advanced driver improvement course and receive 4 hours of behind-the-wheel training from a Florida licensed commercial driving school. Successful completion of a behind-the-wheel examination is required in order to receive completion credit for the course.

(c) The restriction shall be automatically withdrawn by the department after 1 year if the licensee has completed such driver improvement course approved by the department and does not accumulate any additional points. If the licensee has not completed the course requirement, the period of restriction shall be extended until such time as the licensee completes the course requirement. If the licensee accumulates any additional points, ~~then~~ the period of restriction shall be extended for at least 90 days and up to one year for each point. The restriction shall also be automatically withdrawn upon the licensee's 18th birthday if no other grounds for restriction exist. The licensee must appear before the department to have the restriction removed and a duplicate license issued.

349606

(3) ~~(2)~~ Any action taken by the department pursuant to this section shall not be subject to any formal or informal administrative hearing or similar administrative procedure.

The Committee on Appropriations (Book) recommended the following:

Senate Amendment (with title amendment)

Between lines 1925 and 1926
insert:

Section 40. Subsection (1) of section 531.37, Florida Statutes, is amended to read:

531.37 Definitions.—As used in this chapter:

(1) "Weights and measures" means all weights and measures of every kind, instruments, and devices for weighing and measuring, and any appliance and accessories associated with any

or all such instruments and devices, excluding taximeters, transportation measurement systems, and those weights and measures used for the purpose of inspecting the accuracy of devices used in conjunction with aviation fuel.

Section 41. Subsection (1) of section 531.61, Florida Statutes, is amended, and present subsections (2) and (3) of that section are redesignated as subsections (1) and (2), respectively, to read:

531.61 Exemptions from permit requirement.—Commercial weights or measures instruments or devices are exempt from the requirements of ss. 531.60-531.66 if:

~~(1) The device is a taximeter that is licensed, permitted, or registered by a municipality, county, or other local government and is tested for accuracy and compliance with state standards by the local government in cooperation with the state as authorized in s. 531.421.~~

Section 42. Paragraph (g) of subsection (2) of section 531.63, Florida Statutes, is amended, and present paragraphs (h) and (i) of that subsection are redesignated as paragraphs (g) and (h), respectively, to read:

531.63 Maximum permit fees.—The commercial use permit fees established for weights or measures instruments or devices shall be in an amount necessary to administer this chapter but may not exceed the amounts provided in this section.

(2) For other measuring devices, the annual permit fees per device may not exceed the following:

~~(g) Taximeters.....$50.~~

A bill to be entitled

An act relating to motor vehicles; amending s. 316.003, F.S.; defining the term "autocycle"; redefining the term "motorcycle"; conforming a cross-reference; amending ss. 316.2397 and 316.2398, F.S.; prohibiting vehicles or equipment from showing or displaying red and white lights while being driven or moved; authorizing firefighters to use or display red and white lights under certain circumstances; authorizing active volunteer firefighters to display red and white warning signals under certain circumstances; amending s. 316.302, F.S.; revising provisions relating to federal regulations to which owners and drivers of commercial motor vehicles are subject; delaying the requirement for electronic logging devices for intrastate motor carriers; terminating the maximum amount of a civil penalty for falsification of information on certain time records; deleting the requirement that a motor carrier maintain documentation of a driver's driving times throughout a duty period if the driver is not released from duty within a specified period; providing an exemption from specified rules and regulations for a person who operates a commercial motor vehicle with a declared gross vehicle weight, gross vehicle weight rating, and gross combined weight rating of less than a specified

amount under certain circumstances; amending s. 316.3025, F.S.; conforming provisions to changes made by the act; amending s. 316.614, F.S.; redefining the term "motor vehicle"; prohibiting a person from operating an autocycle unless certain safety belt or child restraint device requirements are met; amending s. 316.85, F.S.; authorizing a person who possesses a valid driver license to engage autonomous technology to operate an autonomous vehicle under a specified circumstance; authorizing a person who does not possess a valid driver license to engage autonomous technology to operate an autonomous vehicle in autonomous mode under certain circumstances; creating s. 316.851, F.S.; requiring an autonomous vehicle used by a transportation network company to be covered by automobile insurance, subject to certain requirements; requiring an autonomous vehicle used to provide a transportation service to carry in the vehicle proof of coverage satisfying certain requirements at all times while operating in autonomous mode; amending s. 318.1215, F.S.; authorizing a board of county commissioners to require, by ordinance, that the clerk of the court collect an additional specified fee with each criminal, rather than each civil, traffic penalty; amending s. 318.18, F.S.; changing the term "construction zone" to "work zone" as it relates to enhanced penalties for unlawful speed; amending s. 320.01, F.S.; redefining the terms "apportionable vehicle" and "motorcycle"; amending s. 320.02, F.S.;

requiring an application form for motor vehicle registration to include language authorizing a voluntary contribution to be distributed to Preserve Vision Florida, rather than to Prevent Blindness Florida; amending s. 320.03, F.S.; requiring tax collectors to provide motor vehicle registration services to residents of other counties; providing that jurisdiction over the electronic filing system for use by authorized electronic filing system agents to process title transactions, derelict motor vehicle certificates, and certificates of destruction for derelict and salvage motor vehicles is preempted to the state; authorizing an entity that, in the normal course of its business, processes title transactions, derelict motor vehicle certificates, or certificates of destruction for derelict or salvage motor vehicles to be an authorized electronic filing system agent; authorizing the department to adopt rules to administer specified provisions; amending s. 320.06, F.S.; providing for future repeal of issuance of a certain annual license plate and cab card to a vehicle that has an apportioned registration; providing requirements, beginning on a specified date, for license plates, cab cards, and validation stickers for vehicles registered in accordance with the International Registration Plan; authorizing a worn or damaged license plate to be replaced at no charge under certain circumstances; amending s. 320.0605, F.S.; authorizing presentation of electronic

documentation of certain information to a law enforcement officer or agent of the department; providing construction; providing liability; revising information required in such documentation; amending s. 320.0607, F.S.; providing an exemption, beginning on a specified date, of a certain fee for vehicles registered under the International Registration Plan; amending s. 320.08, F.S.; requiring a truck tractor used within this state to be eligible for a license plate for a specified fee under certain circumstances; requiring a truck tractor or heavy truck, not operated as a for-hire vehicle, which is engaged exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products within this state to be eligible for a restricted license for a certain fee; conforming cross-references; amending s. 320.08056, F.S.; deleting the American Red Cross, Donate Organs-Pass It On, St. Johns River, and Hispanic Achievers license plates; conforming cross-references; repealing s. 320.08058(31), (57), (69), and (70), F.S., relating to the American Red Cross, Donate Organs-Pass It On, St. Johns River, and Hispanic Achievers license plates, respectively; amending s. 320.08068, F.S.; requiring The Able Trust to distribute a specified percentage of annual use fees from motorcycle specialty license plates to Preserve Vision Florida, rather than to Prevent Blindness Florida; amending s. 320.086, F.S.; providing that, for purposes of this section, a

trailer is considered a motor vehicle; creating s. 320.0875, F.S.; providing for a motorcycle special license plate to be issued to a recipient of the Purple Heart; providing requirements for the plate; amending s. 320.089, F.S.; providing for a special license plate to be issued to a recipient of the Bronze Star; making technical changes; amending s. 320.133, F.S.; defining the term "transporter license plate eligible business"; providing that a person is not eligible to purchase or renew a transporter license plate unless he or she provides certain proof that his or her business is a transporter license plate eligible business; providing application and insurance requirements for qualification as a transporter license plate eligible business; authorizing the department to issue a transporter license plate to an applicant who is not a licensed dealer and is qualified as a transporter license plate eligible business, under certain circumstances; providing that a transporter license plate is valid only for use on an unregistered motor vehicle in the possession of the transporter, subject to certain requirements; providing a criminal penalty for a person who sells or unlawfully possesses, distributes, or brokers a transporter license plate to be attached to any vehicle; providing that transporter license plates are subject to cancellation by the department; providing a criminal penalty and disqualification from transporter license plate usage for a person who

knowingly and willfully sells or unlawfully possesses, distributes, or brokers a transporter license plate to avoid registering a vehicle requiring registration, subject to certain requirements; providing recordkeeping requirements for a transporter license plate eligible business; providing a criminal penalty, cancellation of transporter license plates, and disqualification from future issuance of the plates for a violation of such recordkeeping requirements; requiring a transporter license plate issued under this section to be accompanied by registration and proof of insurance when attached to a motor vehicle; providing a criminal penalty and removal of the license plate for a person who fails to provide such documentation; providing an exemption to persons who contract with dealers and auctions to transport motor vehicles; conforming provisions to changes made by the act; providing that an initial registration or renewal issued under this section is valid for a specified period; requiring a license plate attached to a motor vehicle in violation of specified provision to be removed by a law enforcement officer and surrendered to the department by the law enforcement agency for cancellation; amending s. 320.27, F.S.; revising the definitions of "motor vehicle dealer" and "motor vehicle broker"; requiring any person acting in violation of specified licensing requirements to be deemed to have committed an unfair and deceptive trade practice in violation of specified provisions; making

technical changes; amending s. 321.25, F.S.; providing for reimbursement to the department of tuition and other course expenses for certain training under certain circumstances; defining the term "other course expenses"; authorizing the department to institute a civil action under certain circumstances; authorizing the department to waive a person's requirement of reimbursement when the person terminates employment due to hardship or extenuating circumstances; amending s. 322.01, F.S.; conforming provisions to changes made by the act; amending s. 322.03, F.S.; authorizing a person to operate an autocycle without a motorcycle endorsement; amending s. 322.032, F.S.; requiring the department, in collaboration with the Agency for State Technology, to establish and implement certain protocols and standards related to digital proofs of driver licenses and to procure an application programming interface for a specified purpose; conforming a provision to changes made by the act; providing construction relating to a person's presentation of an electronic device displaying a digital proof of driver license to a law enforcement officer; amending s. 322.051, F.S.; revising eligibility for a "D" designation on an identification card to include posttraumatic stress disorder or traumatic brain injury; amending s. 322.08, F.S.; requiring an application form for an original, renewal, or replacement driver license or identification card to include language authorizing a

voluntary contribution to Preserve Vision Florida, rather than to Prevent Blindness Florida; amending s. 322.091, F.S.; requiring the department to make available, upon request, a report to each school district of certain information for each student whose driving privileges have been suspended under this section; amending s. 322.12, F.S.; requiring the tax collector to retain specified fees if a subsequent knowledge or skills test is administered by the tax collector; exempting the operation of an autocycle from certain examination requirements for licenses to operate motorcycles; amending s. 322.135, F.S.; requiring tax collectors to provide driver license services to residents of all counties; amending s. 322.17, F.S.; providing for replacement of a stolen identification card at no charge, subject to certain requirements; amending s. 322.21, F.S.; deleting obsolete provisions; deleting a fee for certain specialty driver licenses or identification cards; providing disposition of specified fees for reinstatement of a driver license following a suspension, revocation, or disqualification when the reinstatement is processed by the department or the tax collector; requiring an applicant who submits an application for a renewal or replacement driver license or identification card to the department using a convenience service to be provided with an option for expedited shipping, subject to certain requirements; requiring a fee to be charged for the

expedited shipping option, subject to certain requirements; providing for disposition of such fee; amending s. 322.61, F.S.; adding violations for texting or using a handheld mobile telephone while driving a commercial motor vehicle as specified offenses that, in certain circumstances, result in disqualification from operating a commercial motor vehicle for a specified period; amending s. 324.031, F.S.; revising insurer requirements for a motor vehicle liability policy held by the owner or operator of a taxicab, limousine, jitney, or any other for-hire passenger transportation vehicle; revising certain excess insurance minimum limits for an operator or owner of any other vehicle proving his or her financial responsibility by furnishing a certain certificate of self-insurance showing a deposit of cash; amending s. 877.27, F.S.; prohibiting a person from using a device prohibited by the Federal Communications Commission which would cause interference with the legal use of a global positioning system to track vehicles; amending ss. 212.05, 316.303, 316.545, 316.613, and 655.960, F.S.; conforming cross-references; providing applicability of certain changes made by the act; providing effective dates, one of which is contingent.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (2) through (97) of section

316.003, Florida Statutes, are redesignated as subsections (3) through (98), respectively, a new subsection (2) is added to that section, and present subsections (41) and (55) of that section are amended, to read:

316.003 Definitions.—The following words and phrases, when used in this chapter, shall have the meanings respectively ascribed to them in this section, except where the context otherwise requires:

(2) AUTOCYCLE.—A three-wheel motorcycle that has two wheels in the front and one wheel in the back, is equipped with a roll cage or roll hoops, safety belts for each occupant, antilock brakes, a steering wheel, and seating that does not require the operator to straddle or sit astride it and is manufactured by a National Highway Traffic Safety Administration registered manufacturer in accordance with the applicable federal motorcycle safety standards under 49 C.F.R. part 571.

(42)~~(41)~~ MOTORCYCLE.—Any motor vehicle that has ~~having~~ a seat or saddle for the use of the rider which is ~~and~~ designed to travel on not more than three wheels in contact with the ground, including an autocycle. The term does not include a tractor, a moped, or a vehicle in which the operator is enclosed by a cabin unless the vehicle meets the requirements set forth by the National Highway Traffic Safety Administration for a motorcycle ~~but excluding a tractor or a moped~~.

(56)~~(55)~~ PRIVATE ROAD OR DRIVEWAY.—Except as otherwise provided in paragraph (78)(b) ~~(77)(b)~~, any privately owned way or place used for vehicular travel by the owner and those having express or implied permission from the owner, but not by other persons.

Section 2. Subsections (1) and (3) of section 316.2397, Florida Statutes, are amended to read:

316.2397 Certain lights prohibited; exceptions.—

(1) A ~~No~~ person may not ~~shall~~ drive or move or cause to be moved any vehicle or equipment upon any highway within this state with a ~~any~~ lamp or device thereon showing or displaying a red, red and white, or blue light visible from directly in front thereof except for certain vehicles ~~hereinafter~~ provided in this section.

(3) Vehicles of the fire department and fire patrol, including vehicles of volunteer firefighters as permitted under s. 316.2398, may show or display red, or red and white, lights. Vehicles of medical staff physicians or technicians of medical facilities licensed by the state as authorized under s. 316.2398, ambulances as authorized under this chapter, and buses and taxicabs as authorized under s. 316.2399 may show or display red lights. Vehicles of the fire department, fire patrol, police vehicles, and such ambulances and emergency vehicles of municipal and county departments, public service corporations operated by private corporations, the Fish and Wildlife Conservation Commission, the Department of Environmental Protection, the Department of Transportation, the Department of Agriculture and Consumer Services, and the Department of Corrections as are designated or authorized by their respective department or the chief of police of an incorporated city or any sheriff of any county may operate emergency lights and sirens in an emergency. Wreckers, mosquito control fog and spray vehicles, and emergency vehicles of governmental departments or public service corporations may show or display amber lights when in

actual operation or when a hazard exists provided they are not used going to and from the scene of operation or hazard without specific authorization of a law enforcement officer or law enforcement agency. Wreckers, flatbed, car carriers, or rollbacks registered as wreckers pursuant to s. 320.08(5)(d) or (e) must use amber rotating or flashing lights while performing recoveries and loading on the roadside day or night, and may use such lights while towing a vehicle on wheel lifts, slings, ~~or~~ under reach, flatbeds, car carriers, or rollbacks if the operator of the wrecker deems such lights necessary. ~~A flatbed, car carrier, or rollback may not use amber rotating or flashing lights when hauling a vehicle on the bed unless it creates a hazard to other motorists because of protruding objects.~~ Further, escort vehicles may show or display amber lights when in the actual process of escorting overdimensioned equipment, material, or buildings as authorized by law. Vehicles owned or leased by private security agencies may show or display green and amber lights, with either color being no greater than 50 percent of the lights displayed, while the security personnel are engaged in security duties on private or public property.

Section 3. Section 316.2398, Florida Statutes, is amended to read:

316.2398 Display or use of red, or red and white, warning signals; motor vehicles of volunteer firefighters or medical staff.—

(1) A privately owned vehicle belonging to an active firefighter member of a regularly organized volunteer firefighting company or association, while en route to the fire station for the purpose of proceeding to the scene of a fire or

other emergency or while en route to the scene of a fire or other emergency in the line of duty as an active firefighter member of a regularly organized firefighting company or association, may display or use red, or red and white, warning signals. ~~or~~ A privately owned vehicle belonging to a medical staff physician or technician of a medical facility licensed by the state, while responding to an emergency in the line of duty, may display or use red warning signals. Warning signals must be visible from the front and from the rear of such vehicle, subject to the following restrictions and conditions:

(a) Red, or red and white, ~~No more than two red~~ warning signals may be displayed as determined by the responding agency in order to maintain public safety and the safety of the responding vehicle occupants.

(b) No inscription of any kind may appear across the face of the lens of the red, or red and white, warning signal.

(c) In order for an active volunteer firefighter to display such red, or red and white, warning signals on his or her vehicle, the volunteer firefighter must first secure a written permit from the chief executive officers of the firefighting organization to use the red, or red and white, warning signals, and this permit must be carried by the volunteer firefighter at all times while the red, or red and white, warning signals are displayed.

(2) A ~~It is unlawful for any~~ person who is not an active firefighter member of a regularly organized volunteer firefighting company or association or a physician or technician of the medical staff of a medical facility licensed by the state may not ~~to~~ display on any motor vehicle owned by him or her, at

any time, any red, or red and white, warning signals as described in subsection (1).

(3) ~~It is unlawful for~~ An active volunteer firefighter may not ~~to~~ operate any red, or red and white, warning signals as authorized in subsection (1), except while en route to the fire station for the purpose of proceeding to the scene of a fire or other emergency, or while at or en route to the scene of a fire or other emergency, in the line of duty.

(4) ~~It is unlawful for~~ A physician or technician of the medical staff of a medical facility may not ~~to~~ operate any red warning signals as authorized in subsection (1), except when responding to an emergency in the line of duty.

(5) A violation of this section is a nonmoving violation, punishable as provided in chapter 318. In addition, a ~~any~~ volunteer firefighter who violates this section shall be dismissed from membership in the firefighting organization by the chief executive officers thereof.

Section 4. Subsection (1) and paragraphs (a), (c), (d), and (f) of subsection (2) of section 316.302, Florida Statutes, are amended to read:

316.302 Commercial motor vehicles; safety regulations; transporters and shippers of hazardous materials; enforcement.—

(1) Except as otherwise provided in subsection (3):

(a) All owners and drivers of commercial motor vehicles that are operated on the public highways of this state while engaged in interstate commerce are subject to the rules and regulations contained in 49 C.F.R. parts 382, 385, and 390-397.

(b) Except as otherwise provided in this section, all owners or drivers of commercial motor vehicles that are engaged

in intrastate commerce are subject to the rules and regulations contained in 49 C.F.R. parts 382, 383, 385, and 390-397~~, with the exception of 49 C.F.R. s. 390.5 as it relates to the definition of bus,~~ as such rules and regulations existed on December 31, 2016 ~~2012~~.

(c) The emergency exceptions provided by 49 C.F.R. s. 392.82 also apply to communications by utility drivers and utility contractor drivers during a Level 1 activation of the State Emergency Operations Center, as provided in the Florida Comprehensive Emergency Management plan, or during a state of emergency declared by executive order or proclamation of the Governor.

(d) Except as provided in ~~s. 316.215(5), and except as provided in~~ s. 316.228 for rear overhang lighting and flagging requirements for intrastate operations, the requirements of this section supersede all other safety requirements of this chapter for commercial motor vehicles.

(e) The requirement for electronic logging devices and hours of service support documents will not go into effect for motor carriers engaged in intrastate commerce, not carrying hazardous materials in amounts that require placards, until December 31, 2018.

(2)(a) A person who operates a commercial motor vehicle solely in intrastate commerce not transporting any hazardous material in amounts that require placarding pursuant to 49 C.F.R. part 172 need not comply with 49 C.F.R. ss. 391.11(b)(1) and 395.3 ~~395.3(a) and (b)~~.

(c) Except as provided in 49 C.F.R. s. 395.1, a person who operates a commercial motor vehicle solely in intrastate

commerce not transporting any hazardous material in amounts that require placarding pursuant to 49 C.F.R. part 172 may not drive after having been on duty more than 70 hours in any period of 7 consecutive days or more than 80 hours in any period of 8 consecutive days if the motor carrier operates every day of the week. Thirty-four consecutive hours off duty shall constitute the end of any such period of 7 or 8 consecutive days. This weekly limit does not apply to a person who operates a commercial motor vehicle solely within this state while transporting, during harvest periods, any unprocessed agricultural products or unprocessed food or fiber that is subject to seasonal harvesting from place of harvest to the first place of processing or storage or from place of harvest directly to market or while transporting livestock, livestock feed, or farm supplies directly related to growing or harvesting agricultural products. Upon request of the Department of Highway Safety and Motor Vehicles, motor carriers shall furnish time records or other written verification to that department so that the Department of Highway Safety and Motor Vehicles can determine compliance with this subsection. These time records must be furnished to the Department of Highway Safety and Motor Vehicles within 2 days after receipt of that department's request. Falsification of such information is subject to a civil penalty ~~not to exceed $100~~. ~~The provisions of~~ This paragraph does ~~do~~ not apply to operators of farm labor vehicles operated during a state of emergency declared by the Governor or operated pursuant to s. 570.07(21)~~,~~ and does ~~do~~ not apply to drivers of utility service vehicles as defined in 49 C.F.R. s. 395.2.

(d) A person who operates a commercial motor vehicle solely

in intrastate commerce not transporting any hazardous material in amounts that require placarding pursuant to 49 C.F.R. part 172 within a 150 air-mile radius of the location where the vehicle is based need not comply with 49 C.F.R. s. 395.8~~,~~ if the requirements of 49 C.F.R. s. 395.1(e)(1)(ii), (e)(1)(iii)(A) and (C), ~~395.1(e)(1)(iii)~~ and (e)(1)(v) are met. ~~If a driver is not released from duty within 12 hours after the driver arrives for duty, the motor carrier must maintain documentation of the driver's driving times throughout the duty period.~~

(f) A person who operates a commercial motor vehicle having a ~~declared~~ gross vehicle weight, gross vehicle weight rating, and gross combined weight rating of less than 26,001 pounds solely in intrastate commerce and who is not transporting hazardous materials in amounts that require placarding pursuant to 49 C.F.R. part 172~~, or who is transporting petroleum products as defined in s. 376.301,~~ is exempt from subsection (1). However, such person must comply with 49 C.F.R. parts 382, 392, and 393~~,~~ and with 49 C.F.R. ss. 396.3(a)(1) and 396.9.

Section 5. Paragraph (a) of subsection (6) of section 316.3025, Florida Statutes, is amended to read:

316.3025 Penalties.—

(6)(a) A driver who violates 49 C.F.R. s. 392.80, which prohibits texting while operating a commercial motor vehicle, or 49 C.F.R. s. 392.82, which prohibits using a handheld mobile telephone while operating a commercial motor vehicle, may be assessed a civil penalty ~~and commercial driver license disqualification~~ as follows:

1. First violation: $500.

2. Second violation: $1,000 ~~and a 60-day commercial driver~~

~~license disqualification pursuant to 49 C.F.R. part 383~~.

3. Third and subsequent violations: $2,750 ~~and a 120-day commercial driver license disqualification pursuant to 49 C.F.R. part 383~~.

Section 6. Paragraph (a) of subsection (3) and subsections (4) and (5) of section 316.614, Florida Statutes, are amended to read:

316.614 Safety belt usage.—

(3) As used in this section:

(a) "Motor vehicle" means a motor vehicle as defined in s. 316.003 which is operated on the roadways, streets, and highways of this state. The term does not include:

1. A school bus.

2. A bus used for the transportation of persons for compensation.

3. A farm tractor or implement of husbandry.

4. A truck having a gross vehicle weight rating of more than 26,000 pounds.

5. A motorcycle, excluding an autocycle for purposes of subsections (4) and (5), moped, or bicycle.

(4) It is unlawful for any person:

(a) To operate a motor vehicle or an autocycle in this state unless each passenger and the operator of the vehicle under the age of 18 years are restrained by a safety belt or by a child restraint device pursuant to s. 316.613, if applicable; or

(b) To operate a motor vehicle or an autocycle in this state unless the person is restrained by a safety belt.

(5) It is unlawful for any person 18 years of age or older

to be a passenger in the front seat of a motor vehicle or an autocycle unless such person is restrained by a safety belt when the vehicle is in motion.

Section 7. Subsection (1) of section 316.85, Florida Statutes, is amended to read:

316.85 Autonomous vehicles; operation.—

(1) A person who possesses a valid driver license may operate an autonomous vehicle, or may engage autonomous technology to operate an autonomous vehicle, in autonomous mode on roads in this state if the vehicle is equipped with autonomous technology, as defined in s. 316.003. A person who does not possess a valid driver license may engage autonomous technology to operate an autonomous vehicle in autonomous mode only if the vehicle is equipped with autonomous technology, as defined in s. 316.003, and if the vehicle has no capability or means by which the person inside the vehicle is able to take control of the vehicle's operation or to disengage the autonomous technology, regardless of where the person is seated within the vehicle.

Section 8. Effective upon the same date that SB 340 or similar legislation takes effect, if such legislation is adopted in the 2017 Regular Session or any extension thereof and becomes a law, section 316.851, Florida Statutes, is created to read:

316.851 Autonomous vehicles; providing prearranged rides.—

(1) An autonomous vehicle used by a transportation network company to provide a prearranged ride must be covered by automobile insurance as required by s. 627.748, regardless of whether a human operator is physically present within the vehicle when the ride occurs. When an autonomous vehicle is

logged on to a digital network but is not engaged in a prearranged ride, the autonomous vehicle must maintain insurance coverage as defined in s. 627.748(7)(b).

(2) An autonomous vehicle used to provide a transportation service shall carry in the vehicle proof of coverage satisfying the requirements of this section at all times while operating in autonomous mode.

Section 9. Section 318.1215, Florida Statutes, is amended to read:

318.1215 Dori Slosberg Driver Education Safety Act.—Notwithstanding the provisions of s. 318.121, a board of county commissioners may require, by ordinance, that the clerk of the court collect an additional $5 with each criminal ~~civil~~ traffic penalty, which shall be used to fund driver education programs in public and nonpublic schools. The ordinance shall provide for the board of county commissioners to administer the funds, which shall be used for enhancement, and not replacement, of driver education program funds. The funds shall be used for direct educational expenses and shall not be used for administration. Each driver education program receiving funds pursuant to this section shall require that a minimum of 30 percent of a student's time in the program be behind-the-wheel training. This section may be cited as the "Dori Slosberg Driver Education Safety Act."

Section 10. Paragraph (d) of subsection (3) of section 318.18, Florida Statutes, is amended to read:

318.18 Amount of penalties.—The penalties required for a noncriminal disposition pursuant to s. 318.14 or a criminal offense listed in s. 318.17 are as follows:

(3)

(d) Notwithstanding paragraph (b), a person cited for exceeding the speed limit in a posted work ~~construction~~ zone, which posting must include notification of the speed limit and the doubling of fines, shall pay a fine double the amount listed in paragraph (b). The fine shall be doubled for work ~~construction~~ zone violations only if work ~~construction~~ personnel are present or operating equipment on the road or immediately adjacent to the road ~~under construction~~.

Section 11. Subsections (24) and (26) of section 320.01, Florida Statutes, are amended to read:

320.01 Definitions, general.—As used in the Florida Statutes, except as otherwise provided, the term:

(24) "Apportionable vehicle" means any vehicle, except recreational vehicles, vehicles displaying restricted plates, city pickup and delivery vehicles, ~~buses used in transportation of chartered parties,~~ and government-owned vehicles, which is used or intended for use in two or more member jurisdictions that allocate or proportionally register vehicles and which is used for the transportation of persons for hire or is designed, used, or maintained primarily for the transportation of property and:

(a) Is a power unit having a gross vehicle weight in excess of 26,000 pounds;

(b) Is a power unit having three or more axles, regardless of weight; or

(c) Is used in combination, when the weight of such combination exceeds 26,000 pounds gross vehicle weight.

Vehicles, or combinations thereof, having a gross vehicle weight of 26,000 pounds or less and two-axle vehicles may be proportionally registered.

(26) "Motorcycle" means any motor vehicle having a seat or saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, including an autocycle. The term does not include a tractor, a moped, or ~~excluding~~ a vehicle in which the operator is enclosed by a cabin unless the vehicle ~~it~~ meets the requirements set forth by the National Highway Traffic Safety Administration for a motorcycle. ~~The term "motorcycle" does not include a tractor or a moped.~~

Section 12. Paragraph (a) of subsection (15) of section 320.02, Florida Statutes, is amended to read:

320.02 Registration required; application for registration; forms.—

(15)(a) The application form for motor vehicle registration must ~~shall~~ include language permitting the voluntary contribution of $1 per applicant, to be quarterly distributed by the department to Preserve Vision ~~Prevent Blindness~~ Florida, a not-for-profit organization, to prevent blindness and preserve the sight of the residents of this state. A statement providing an explanation of the purpose of the funds shall be included with the application form. Prior to the department distributing the funds collected pursuant to this paragraph, Preserve Vision ~~Prevent Blindness~~ Florida must submit a report to the department that identifies how such funds were used during the preceding year.

For the purpose of applying the service charge provided in s.

215.20, contributions received under this subsection are not income of a revenue nature.

Section 13. Subsection (1) of section 320.03, Florida Statutes, is amended to read:

320.03 Registration; duties of tax collectors; International Registration Plan.—

(1)(a) The tax collectors in the several counties of the state, as authorized agents of the department, shall issue registration certificates, registration license plates, validation stickers, and mobile home stickers to applicants, and shall provide to applicants for each the option to register emergency contact information and the option to be contacted with information about state and federal benefits available as a result of military service, subject to the requirements of law, in accordance with rules of the department. Each tax collector shall provide the same motor vehicle registration services in office to residents of other counties that it provides for residents of its home county.

(b) Any person, firm, or corporation representing itself, through advertising or naming of the business, to be an authorized agent of the department shall be deemed guilty of an unfair and deceptive trade practice as defined in part II of chapter 501. No such person, firm, or corporation shall use either the state or county name as a part of their business name when such use can reasonably be interpreted as an official state or county office.

Section 14. Effective July 1, 2018, subsection (10) of section 320.03, Florida Statutes, is amended to read:

320.03 Registration; duties of tax collectors;

International Registration Plan.—

(10)(a) Jurisdiction over the electronic filing system for use by authorized electronic filing system agents to electronically title or register motor vehicles, vessels, mobile homes, or off-highway vehicles; process title transactions, derelict motor vehicle certificates, and certificates of destruction for derelict and salvage motor vehicles pursuant to s. 319.30(2), (3), (7), and (8); issue or transfer registration license plates or decals; electronically transfer fees due for the title and registration process; and perform inquiries for title, registration, and lienholder verification and certification of service providers is expressly preempted to the state, and the department shall have regulatory authority over the system. The electronic filing system shall be available for use statewide and applied uniformly throughout the state. An entity that, in the normal course of its business, sells products that must be titled or registered; ~~,~~ provides title and registration services on behalf of its consumers; or processes title transactions, derelict motor vehicle certificates, or certificates of destruction for derelict or salvage motor vehicles pursuant to s. 319.30(2), (3), (7), and (8); and meets all established requirements may be an authorized electronic filing system agent and shall not be precluded from participating in the electronic filing system in any county. Upon request from a qualified entity, the tax collector shall appoint the entity as an authorized electronic filing system agent for that county. ~~The department shall adopt rules in accordance with chapter 120 to replace the December 10, 2009, program standards and to administer the provisions of this~~

~~section, including, but not limited to, establishing participation requirements, certification of service providers, electronic filing system requirements, and enforcement authority for noncompliance. The December 10, 2009, program standards, excluding any standards which conflict with this subsection, shall remain in effect until the rules are adopted.~~ An authorized electronic filing system agent may charge a fee to the customer for use of the electronic filing system.

(b) The department shall adopt rules to administer this subsection, including, but not limited to, rules establishing participation requirements, certification of service providers, electronic filing system requirements, disclosures, and enforcement authority for noncompliance.

Section 15. Paragraph (b) of subsection (1) of section 320.06, Florida Statutes, is amended to read:

320.06 Registration certificates, license plates, and validation stickers generally.—

(1)

(b)1. Registration license plates bearing a graphic symbol and the alphanumeric system of identification shall be issued for a 10-year period. At the end of the 10-year period, upon renewal, the plate shall be replaced. The department shall extend the scheduled license plate replacement date from a 6-year period to a 10-year period. The fee for such replacement is $28, $2.80 of which shall be paid each year before the plate is replaced, to be credited toward the next $28 replacement fee. The fees shall be deposited into the Highway Safety Operating Trust Fund. A credit or refund may not be given for any prior years' payments of the prorated replacement fee if the plate is

replaced or surrendered before the end of the 10-year period, except that a credit may be given if a registrant is required by the department to replace a license plate under s. 320.08056(8)(a). With each license plate, a validation sticker shall be issued showing the owner's birth month, license plate number, and the year of expiration or the appropriate renewal period if the owner is not a natural person. The validation sticker shall be placed on the upper right corner of the license plate. The license plate and validation sticker shall be issued based on the applicant's appropriate renewal period. The registration period is 12 months, the extended registration period is 24 months, and all expirations occur based on the applicant's appropriate registration period.

2. A vehicle that has an apportioned registration shall be issued an annual license plate and a cab card denoting ~~that denote~~ the declared gross vehicle weight ~~for each apportioned jurisdiction in which the vehicle is authorized to operate~~. This subparagraph expires October 1, 2018.

3. Beginning October 1, 2018, a vehicle registered in accordance with the International Registration Plan which has an apportioned registration shall be issued a license plate for a 5-year period, an annual cab card denoting the declared gross vehicle weight, and an annual validation sticker showing the month and year of expiration. The validation sticker shall be placed in the center of the license plate. The license plate and validation sticker shall be issued based on the applicant's appropriate renewal period. The registration period is 12 months. The fee for an original and a renewed validation sticker is $28. This fee shall be deposited into the Highway Safety

Operating Trust Fund. If the license plate is damaged or worn, it may be replaced at no charge by applying to the department and surrendering the current license plate.

4.~~2.~~ In order to retain the efficient administration of the taxes and fees imposed by this chapter, the 80-cent fee increase in the replacement fee imposed by chapter 2009-71, Laws of Florida, is negated as provided in s. 320.0804.

Section 16. Section 320.0605, Florida Statutes, is amended to read:

320.0605 Certificate of registration; possession required; exception.—

(1)(a) The registration certificate or an official copy thereof, a true copy or electronic copy of rental or lease documentation issued for a motor vehicle or issued for a replacement vehicle in the same registration period, a temporary receipt printed upon self-initiated electronic renewal of a registration via the Internet, or a cab card issued for a vehicle registered under the International Registration Plan shall, at all times while the vehicle is being used or operated on the roads of this state, be in the possession of the operator thereof or be carried in the vehicle for which issued and shall be exhibited upon demand of any authorized law enforcement officer or any agent of the department, except for a vehicle registered under s. 320.0657. ~~The provisions of~~ This section does ~~do~~ not apply during the first 30 days after purchase of a replacement vehicle. A violation of this section is a noncriminal traffic infraction, punishable as a nonmoving violation as provided in chapter 318.

(b)1. The act of presenting to a law enforcement officer or

agent of the department an electronic device displaying an electronic copy of rental or lease documentation does not constitute consent for the officer or agent to access any information on the device other than the displayed rental or lease documentation.

2. The person who presents the device to the officer or agent assumes the liability for any resulting damage to the device.

(2) Rental or lease documentation that is sufficient to satisfy the requirement in subsection (1) includes the following:

(a) Date ~~of rental~~ and time of ~~exit from~~ rental ~~facility~~;

(b) Rental station identification;

(c) Rental agreement number;

(d) Rental vehicle identification number;

(e) Rental vehicle license plate number and state of registration;

(f) Vehicle's make, model, and color;

(g) Vehicle's mileage; and

(h) Authorized renter's name.

Section 17. Subsection (5) of section 320.0607, Florida Statutes, is amended to read:

320.0607 Replacement license plates, validation decal, or mobile home sticker.—

(5) Upon the issuance of an original license plate, the applicant shall pay a fee of $28 to be deposited in the Highway Safety Operating Trust Fund. Beginning October 1, 2018, this subsection does not apply to a vehicle registered under the International Registration Plan.

Section 18. Section 320.08, Florida Statutes, is amended to read:

320.08 License taxes.—Except as otherwise provided herein, there are hereby levied and imposed annual license taxes for the operation of motor vehicles, mopeds, motorized bicycles as defined in s. 316.003(4) ~~s. 316.003(2)~~, tri-vehicles as defined in s. 316.003, and mobile homes as defined in s. 320.01, which shall be paid to and collected by the department or its agent upon the registration or renewal of registration of the following:

(1) MOTORCYCLES AND MOPEDS.—

(a) Any motorcycle: $10 flat.

(b) Any moped: $5 flat.

(c) Upon registration of a motorcycle, motor-driven cycle, or moped, in addition to the license taxes specified in this subsection, a nonrefundable motorcycle safety education fee in the amount of $2.50 shall be paid. The proceeds of such additional fee shall be deposited in the Highway Safety Operating Trust Fund to fund a motorcycle driver improvement program implemented pursuant to s. 322.025, the Florida Motorcycle Safety Education Program established in s. 322.0255, or the general operations of the department.

(d) An ancient or antique motorcycle: $7.50 flat, of which $2.50 shall be deposited into the General Revenue Fund.

(2) AUTOMOBILES OR TRI-VEHICLES FOR PRIVATE USE.—

(a) An ancient or antique automobile, as defined in s. 320.086, or a street rod, as defined in s. 320.0863: $7.50 flat.

(b) Net weight of less than 2,500 pounds: $14.50 flat.

(c) Net weight of 2,500 pounds or more, but less than 3,500

pounds: $22.50 flat.

(d) Net weight of 3,500 pounds or more: $32.50 flat.

(3) TRUCKS.—

(a) Net weight of less than 2,000 pounds: $14.50 flat.

(b) Net weight of 2,000 pounds or more, but not more than 3,000 pounds: $22.50 flat.

(c) Net weight more than 3,000 pounds, but not more than 5,000 pounds: $32.50 flat.

(d) A truck defined as a "goat," or other vehicle if used in the field by a farmer or in the woods for the purpose of harvesting a crop, including naval stores, during such harvesting operations, and which is not principally operated upon the roads of the state: $7.50 flat. The term "goat" means a motor vehicle designed, constructed, and used principally for the transportation of citrus fruit within citrus groves or for the transportation of crops on farms, and which can also be used for hauling associated equipment or supplies, including required sanitary equipment, and the towing of farm trailers.

(e) An ancient or antique truck, as defined in s. 320.086: $7.50 flat.

(4) HEAVY TRUCKS, TRUCK TRACTORS, FEES ACCORDING TO GROSS VEHICLE WEIGHT.—

(a) Gross vehicle weight of 5,001 pounds or more, but less than 6,000 pounds: $60.75 flat, of which $15.75 shall be deposited into the General Revenue Fund.

(b) Gross vehicle weight of 6,000 pounds or more, but less than 8,000 pounds: $87.75 flat, of which $22.75 shall be deposited into the General Revenue Fund.

(c) Gross vehicle weight of 8,000 pounds or more, but less

than 10,000 pounds: $103 flat, of which $27 shall be deposited into the General Revenue Fund.

(d) Gross vehicle weight of 10,000 pounds or more, but less than 15,000 pounds: $118 flat, of which $31 shall be deposited into the General Revenue Fund.

(e) Gross vehicle weight of 15,000 pounds or more, but less than 20,000 pounds: $177 flat, of which $46 shall be deposited into the General Revenue Fund.

(f) Gross vehicle weight of 20,000 pounds or more, but less than 26,001 pounds: $251 flat, of which $65 shall be deposited into the General Revenue Fund.

(g) Gross vehicle weight of 26,001 pounds or more, but less than 35,000: $324 flat, of which $84 shall be deposited into the General Revenue Fund.

(h) Gross vehicle weight of 35,000 pounds or more, but less than 44,000 pounds: $405 flat, of which $105 shall be deposited into the General Revenue Fund.

(i) Gross vehicle weight of 44,000 pounds or more, but less than 55,000 pounds: $773 flat, of which $201 shall be deposited into the General Revenue Fund.

(j) Gross vehicle weight of 55,000 pounds or more, but less than 62,000 pounds: $916 flat, of which $238 shall be deposited into the General Revenue Fund.

(k) Gross vehicle weight of 62,000 pounds or more, but less than 72,000 pounds: $1,080 flat, of which $280 shall be deposited into the General Revenue Fund.

(l) Gross vehicle weight of 72,000 pounds or more: $1,322 flat, of which $343 shall be deposited into the General Revenue Fund.

(m) Notwithstanding the declared gross vehicle weight, a truck tractor used within this state ~~a 150-mile radius of its home address~~ is eligible for a license plate for a fee of $324 flat if:

1. The truck tractor is used exclusively for hauling forestry products; or

2. The truck tractor is used primarily for the hauling of forestry products, and is also used for the hauling of associated forestry harvesting equipment used by the owner of the truck tractor.

Of the fee imposed by this paragraph, $84 shall be deposited into the General Revenue Fund.

(n) A truck tractor or heavy truck, not operated as a for-hire vehicle, which is engaged exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products within this state ~~a 150-mile radius of its home address~~, is eligible for a restricted license plate for a fee of:

1. If such vehicle’s declared gross vehicle weight is less than 44,000 pounds, $87.75 flat, of which $22.75 shall be deposited into the General Revenue Fund.

2. If such vehicle’s declared gross vehicle weight is 44,000 pounds or more and such vehicle only transports from the point of production to the point of primary manufacture; to the point of assembling the same; or to a shipping point of a rail, water, or motor transportation company, $324 flat, of which $84 shall be deposited into the General Revenue Fund.

Such not-for-hire truck tractors and heavy trucks used exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products may be incidentally used to haul farm implements and fertilizers delivered direct to the growers. The department may require any documentation deemed necessary to determine eligibility prior to issuance of this license plate. For the purpose of this paragraph, "not-for-hire" means the owner of the motor vehicle must also be the owner of the raw, unprocessed, and nonmanufactured agricultural or horticultural product, or the user of the farm implements and fertilizer being delivered.

(5) SEMITRAILERS, FEES ACCORDING TO GROSS VEHICLE WEIGHT; SCHOOL BUSES; SPECIAL PURPOSE VEHICLES.—

(a)1. A semitrailer drawn by a GVW truck tractor by means of a fifth-wheel arrangement: $13.50 flat per registration year or any part thereof, of which $3.50 shall be deposited into the General Revenue Fund.

2. A semitrailer drawn by a GVW truck tractor by means of a fifth-wheel arrangement: $68 flat per permanent registration, of which $18 shall be deposited into the General Revenue Fund.

(b) A motor vehicle equipped with machinery and designed for the exclusive purpose of well drilling, excavation, construction, spraying, or similar activity, and which is not designed or used to transport loads other than the machinery described above over public roads: $44 flat, of which $11.50 shall be deposited into the General Revenue Fund.

(c) A school bus used exclusively to transport pupils to and from school or school or church activities or functions within their own county: $41 flat, of which $11 shall be

deposited into the General Revenue Fund.

(d) A wrecker, as defined in s. 320.01, which is used to tow a vessel as defined in s. 327.02, a disabled, abandoned, stolen-recovered, or impounded motor vehicle as defined in s. 320.01, or a replacement motor vehicle as defined in s. 320.01: $41 flat, of which $11 shall be deposited into the General Revenue Fund.

(e) A wrecker that is used to tow any nondisabled motor vehicle, a vessel, or any other cargo unless used as defined in paragraph (d), as follows:

1. Gross vehicle weight of 10,000 pounds or more, but less than 15,000 pounds: $118 flat, of which $31 shall be deposited into the General Revenue Fund.

2. Gross vehicle weight of 15,000 pounds or more, but less than 20,000 pounds: $177 flat, of which $46 shall be deposited into the General Revenue Fund.

3. Gross vehicle weight of 20,000 pounds or more, but less than 26,000 pounds: $251 flat, of which $65 shall be deposited into the General Revenue Fund.

4. Gross vehicle weight of 26,000 pounds or more, but less than 35,000 pounds: $324 flat, of which $84 shall be deposited into the General Revenue Fund.

5. Gross vehicle weight of 35,000 pounds or more, but less than 44,000 pounds: $405 flat, of which $105 shall be deposited into the General Revenue Fund.

6. Gross vehicle weight of 44,000 pounds or more, but less than 55,000 pounds: $772 flat, of which $200 shall be deposited into the General Revenue Fund.

7. Gross vehicle weight of 55,000 pounds or more, but less

than 62,000 pounds: $915 flat, of which $237 shall be deposited into the General Revenue Fund.

8. Gross vehicle weight of 62,000 pounds or more, but less than 72,000 pounds: $1,080 flat, of which $280 shall be deposited into the General Revenue Fund.

9. Gross vehicle weight of 72,000 pounds or more: $1,322 flat, of which $343 shall be deposited into the General Revenue Fund.

(f) A hearse or ambulance: $40.50 flat, of which $10.50 shall be deposited into the General Revenue Fund.

(6) MOTOR VEHICLES FOR HIRE.—

(a) Under nine passengers: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund; plus $1.50 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(b) Nine passengers and over: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund; plus $2 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(7) TRAILERS FOR PRIVATE USE.—

(a) Any trailer weighing 500 pounds or less: $6.75 flat per year or any part thereof, of which $1.75 shall be deposited into the General Revenue Fund.

(b) Net weight over 500 pounds: $3.50 flat, of which $1 shall be deposited into the General Revenue Fund; plus $1 per cwt, of which 25 cents shall be deposited into the General Revenue Fund.

(8) TRAILERS FOR HIRE.—

(a) Net weight under 2,000 pounds: $3.50 flat, of which $1

shall be deposited into the General Revenue Fund; plus $1.50 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(b) Net weight 2,000 pounds or more: $13.50 flat, of which $3.50 shall be deposited into the General Revenue Fund; plus $1.50 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(9) RECREATIONAL VEHICLE-TYPE UNITS.—

(a) A travel trailer or fifth-wheel trailer, as defined by s. 320.01(1)(b), that does not exceed 35 feet in length: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

(b) A camping trailer, as defined by s. 320.01(1)(b)2.: $13.50 flat, of which $3.50 shall be deposited into the General Revenue Fund.

(c) A motor home, as defined by s. 320.01(1)(b)4.:

1. Net weight of less than 4,500 pounds: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

2. Net weight of 4,500 pounds or more: $47.25 flat, of which $12.25 shall be deposited into the General Revenue Fund.

(d) A truck camper as defined by s. 320.01(1)(b)3.:

1. Net weight of less than 4,500 pounds: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

2. Net weight of 4,500 pounds or more: $47.25 flat, of which $12.25 shall be deposited into the General Revenue Fund.

(e) A private motor coach as defined by s. 320.01(1)(b)5.:

1. Net weight of less than 4,500 pounds: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

2. Net weight of 4,500 pounds or more: $47.25 flat, of

which $12.25 shall be deposited into the General Revenue Fund.

(10) PARK TRAILERS; TRAVEL TRAILERS; FIFTH-WHEEL TRAILERS; 35 FEET TO 40 FEET.—

(a) Park trailers.—Any park trailer, as defined in s. 320.01(1)(b)7.: $25 flat.

(b) A travel trailer or fifth-wheel trailer, as defined in s. 320.01(1)(b), that exceeds 35 feet: $25 flat.

(11) MOBILE HOMES.—

(a) A mobile home not exceeding 35 feet in length: $20 flat.

(b) A mobile home over 35 feet in length, but not exceeding 40 feet: $25 flat.

(c) A mobile home over 40 feet in length, but not exceeding 45 feet: $30 flat.

(d) A mobile home over 45 feet in length, but not exceeding 50 feet: $35 flat.

(e) A mobile home over 50 feet in length, but not exceeding 55 feet: $40 flat.

(f) A mobile home over 55 feet in length, but not exceeding 60 feet: $45 flat.

(g) A mobile home over 60 feet in length, but not exceeding 65 feet: $50 flat.

(h) A mobile home over 65 feet in length: $80 flat.

(12) DEALER AND MANUFACTURER LICENSE PLATES.—A franchised motor vehicle dealer, independent motor vehicle dealer, marine boat trailer dealer, or mobile home dealer and manufacturer license plate: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund.

(13) EXEMPT OR OFFICIAL LICENSE PLATES.—Any exempt or

official license plate: $4 flat, of which $1 shall be deposited into the General Revenue Fund.

(14) LOCALLY OPERATED MOTOR VEHICLES FOR HIRE.—A motor vehicle for hire operated wholly within a city or within 25 miles thereof: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund; plus $2 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(15) TRANSPORTER.—Any transporter license plate issued to a transporter pursuant to s. 320.133: $101.25 flat, of which $26.25 shall be deposited into the General Revenue Fund.

Section 19. Paragraphs (ee), (eee), (qqq), and (rrr) of subsection (4) and paragraph (a) of subsection (10) of section 320.08056, Florida Statutes, are amended to read:

320.08056 Specialty license plates.—

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

~~(ee) American Red Cross license plate, $25.~~

~~(eee) Donate Organs Pass It On license plate, $25.~~

~~(qqq) St. Johns River license plate, $25.~~

~~(rrr) Hispanic Achievers license plate, $25.~~

(10)(a) A specialty license plate annual use fee collected and distributed under this chapter, or any interest earned from those fees, may not be used for commercial or for-profit activities nor for general or administrative expenses, except as authorized by s. 320.08058 or to pay the cost of the audit or report required by s. 320.08062(1). The fees and any interest earned from the fees may be expended only for use in this state unless the annual use fee is derived from the sale of United States Armed Forces and veterans-related specialty license

plates pursuant to paragraphs (4)(d), (bb), (kk), (iii), and (uuu) ~~(ll), (kkk), and (yyy)~~ and s. 320.0891.

Section 20. Subsections (31), (57), (69), and (70) of section 320.08058, Florida Statutes, are repealed.

Section 21. Paragraph (b) of subsection (4) of section 320.08068, Florida Statutes, is amended to read:

320.08068 Motorcycle specialty license plates.—

(4) A license plate annual use fee of $20 shall be collected for each motorcycle specialty license plate. Annual use fees shall be distributed to The Able Trust as custodial agent. The Able Trust may retain a maximum of 10 percent of the proceeds from the sale of the license plate for administrative costs. The Able Trust shall distribute the remaining funds as follows:

(b) Twenty percent to Preserve Vision ~~Prevent Blindness~~ Florida.

Section 22. Subsection (7) is added to section 320.086, Florida Statutes, to read:

320.086 Ancient or antique motor vehicles; horseless carriage, antique, or historical license plates; former military vehicles.—

(7) For purposes of this section, a trailer is considered a motor vehicle.

Section 23. Section 320.0875, Florida Statutes, is created to read:

320.0875 Purple Heart motorcycle special license plate.—

(1) Upon application to the department and payment of the license tax for the motorcycle as provided in s. 320.08, a resident of this state who owns or leases a motorcycle that is

not used for hire or commercial use shall be issued a Purple Heart motorcycle special license plate if he or she provides documentation acceptable to the department that he or she is a recipient of the Purple Heart medal.

(2) The Purple Heart motorcycle special license plate shall be stamped with the words "Combat-wounded Veteran" followed by the serial number of the license plate. The Purple Heart motorcycle special license plate may have the term "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate.

Section 24. Paragraph (a) of subsection (1) of section 320.089, Florida Statutes, is amended to read:

320.089 ~~Veterans of the United States Armed Forces; members of National Guard; survivors of Pearl Harbor; Purple Heart medal recipients; active or retired United States Armed Forces reservists; Combat Infantry Badge, Combat Medical Badge, or Combat Action Badge recipients; Combat Action Ribbon recipients; Air Force Combat Action Medal recipients; Distinguished Flying Cross recipients; former prisoners of war; Korean War Veterans; Vietnam War Veterans; Operation Desert Shield Veterans; Operation Desert Storm Veterans; Operation Enduring Freedom Veterans; Operation Iraqi Freedom Veterans; Women Veterans; World War II Veterans; and Navy Submariners;~~ Special license plates for military servicemembers, veterans, and Pearl Harbor survivors~~; fee~~.—

(1)(a) Upon application to the department and payment of the license tax for the vehicle as provided in s. 320.08, a resident of this state who owns or leases ~~Each owner or lessee of~~ an automobile or truck for private use or recreational

vehicle as specified in s. 320.08(9)(c) or (d), which is not used for hire or commercial use, shall be issued a license plate pursuant to the following if the applicant provides the department with proof he or she meets the qualifications listed in this section for the applicable license plate:

1. A person released or discharged from any branch ~~who is a resident of the state and a veteran~~ of the United States Armed Forces shall be issued a license plate stamped with the words "Veteran" or "Woman Veteran" followed by the serial number of the license plate.~~, a Woman Veteran,~~

2. A World War II Veteran shall be issued a license plate stamped with the words "WWII Veteran" followed by the serial number of the license plate.~~,~~

3. A Navy Submariner shall be issued a license plate stamped with the words "Navy Submariner" followed by the serial number of the license plate.~~,~~

4. An active or retired member of the Florida National Guard shall be issued a license plate stamped with the words "National Guard" followed by the serial number of the license plate.

5. A member of the Pearl Harbor Survivors Association or other person on active military duty in Pearl Harbor on December 7, 1941, shall be issued a license plate stamped with the words "Pearl Harbor Survivor" followed by the serial number of the license plate.~~, a survivor of the attack on Pearl Harbor,~~

6. A recipient of the Purple Heart medal shall be issued a license plate stamped with the words "Combat-wounded Veteran" followed by the serial number of the license plate. The Purple Heart plate may have the words "Purple Heart" stamped on the

plate and the likeness of the Purple Heart medal appearing on the plate.~~,~~

7. An active or retired member of any branch of the United States Armed Forces Reserve shall be issued a license plate stamped with the words "U.S. Reserve" followed by the serial number of the license plate.

8. A member of the Combat Infantrymen's Association, Inc., or a recipient of the Combat Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, or Air Force Combat Action Medal shall be issued a license plate stamped with the words "Combat Infantry Badge," "Combat Medical Badge," "Combat Action Badge," "Combat Action Ribbon," or "Air Force Combat Action Medal," as appropriate, and a likeness of the related campaign badge, ribbon, or medal, followed by the serial number of the license plate.

9. A recipient of the~~, or~~ Distinguished Flying Cross shall be issued a license plate stamped with the words "Distinguished Flying Cross" and a likeness of the Distinguished Flying Cross followed by the serial number of the license plate.

10. A recipient of the Bronze Star shall be issued a license plate stamped with the words "Bronze Star" and a likeness of the Bronze Star followed by the serial number of the license plate~~, upon application to the department, accompanied by proof of release or discharge from any branch of the United States Armed Forces, proof of active membership or retired status in the Florida National Guard, proof of membership in the Pearl Harbor Survivors Association or proof of active military duty in Pearl Harbor on December 7, 1941, proof of being a Purple Heart medal recipient, proof of active or retired~~

~~membership in any branch of the United States Armed Forces Reserve, or proof of membership in the Combat Infantrymen's Association, Inc., proof of being a recipient of the Combat Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, Air Force Combat Action Medal, or Distinguished Flying Cross, and upon payment of the license tax for the vehicle as provided in s. 320.08, shall be issued a license plate as provided by s. 320.06 which, in lieu of the serial numbers prescribed by s. 320.06, is stamped with the words "Veteran," "Woman Veteran," "WWII Veteran," "Navy Submariner," "National Guard," "Pearl Harbor Survivor," "Combat-wounded veteran," "U.S. Reserve," "Combat Infantry Badge," "Combat Medical Badge," "Combat Action Badge," "Combat Action Ribbon," "Air Force Combat Action Medal," or "Distinguished Flying Cross," as appropriate, and a likeness of the related campaign medal or badge, followed by the serial number of the license plate. Additionally, the Purple Heart plate may have the words "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate~~.

Section 25. Section 320.133, Florida Statutes, is amended to read:

320.133 Transporter license plates.—

(1) As used in this section, the term "transporter license plate eligible business" means a business that is engaged in the limited operation of an unregistered motor vehicle, or a repossessor that contracts with lending institutions to repossess or recover motor vehicles or mobile homes.

(2) A person is not eligible to purchase or renew a transporter license plate unless he or she provides proof

satisfactory to the department that his or her business is a transporter license plate eligible business.

(3) The application for qualification as a transporter license plate eligible business must be in such form as is prescribed by the department and must contain the legal name of the person or persons applying for the license plate, the name of the business, and the principal or principals of the business. The application must describe the exact physical location of the place of business within the state. This location must be available at all reasonable hours for inspection of the transporter license plate records by the department or any law enforcement agency. The application must contain proof of a garage liability insurance policy, or a business automobile policy, in the amount of at least $100,000. The certificate of insurance must indicate the number of transporter license plates reported to the insurance company. Such coverage shall be maintained for the entire registration period. Upon seeking initial qualification, the applicant must provide documentation proving that the business is registered with the Division of Corporations of the Department of State to conduct business in this state. The business must indicate how it meets the qualification as a transporter license plate eligible business by describing in detail the business processes that require the use of a transporter license plate.

(4)(a) ~~(1)~~ The department may ~~is authorized to~~ issue a transporter license plate to an ~~any~~ applicant who is not a licensed dealer and who is qualified as a transporter license plate eligible business~~, incidental to the conduct of his or her business, engages in the transporting of motor vehicles which~~

~~are not currently registered to any owner and which do not have license plates,~~ upon payment of the license tax imposed by s. 320.08(15) for each transporter ~~such~~ license plate and upon proof of ~~liability~~ insurance as described in subsection (3) ~~coverage in the amount of $100,000 or more~~. The proof of insurance must indicate the number of transporter license plates reported to the insurance company, which shall be the maximum number of transporter license plates issued to the applicant. ~~Such~~ A transporter license plate is valid only for use on an unregistered ~~any~~ motor vehicle in the possession of the transporter while the motor vehicle is being transported in the course of the transporter's business and must not be attached to any vehicle owned by the transporter or his or her business for which registration would otherwise be required. A person who sells or unlawfully possesses, distributes, or brokers a transporter license plate to be attached to any vehicle commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Any and all transporter license plates issued are subject to cancellation by the department.

(b) A person who knowingly and willfully sells or unlawfully possesses, distributes, or brokers a transporter license plate to avoid registering a vehicle requiring registration pursuant to this chapter or chapter 319 commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, and is disqualified from transporter license plate usage. All transporter license plates issued to the person's business shall be canceled and must be returned to the department immediately upon disqualification. The transporter license plate is subject to removal as provided in

subsection (9), and any and all transporter plates issued are subject to cancellation by the department.

(5) A transporter license plate eligible business issued a transporter license plate must maintain for 2 years, at its location, records of each use of each transporter license plate and evidence that the plate was used as required by this chapter. Such records must be open to inspection by the department or its agents or any law enforcement officer during reasonable business hours. A person who fails to maintain true and accurate records of any transporter license plate usage or comply with this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, may be subject to cancellation of any and all transporter license plates issued, and is automatically disqualified from future transporter license plate issuance.

(6) When attached to a motor vehicle, a transporter license plate issued under this section must be accompanied by the registration issued for the transporter license plate by the department and proof of insurance as described in subsection (3). A person who operates a motor vehicle with a transporter license plate attached who fails to provide the documentation listed in this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, and the transporter license plate is subject to removal as provided in subsection (9). This subsection does not apply to a person who contracts with dealers and auctions to transport motor vehicles.

(7) ~~(2)~~ A transporter license plate issued pursuant to subsection (4) ~~(1)~~ must be in a distinctive color approved by

the department, and the word "transporter" must appear on the face of the license plate in place of the county name.

(8) ~~(3)~~ An initial registration or renewal ~~A license plate~~ issued under this section is valid for ~~a period of~~ 12 months, beginning January 1 and ending December 31. A ~~No~~ refund of the license tax imposed may not be provided for any unexpired portion of a license period.

(9) A transporter license plate attached to a motor vehicle in violation of subsection (4) or subsection (6) must be immediately removed by a law enforcement officer from the motor vehicle to which it was attached and surrendered to the department by the law enforcement agency for cancellation.

Section 26. Subsections (1) and (2) of section 320.27, Florida Statutes, are amended to read:

320.27 Motor vehicle dealers.—

(1) DEFINITIONS.—The following words, terms, and phrases when used in this section have the meanings respectively ascribed to them in this subsection, except where the context clearly indicates a different meaning:

(a) "Department" means the Department of Highway Safety and Motor Vehicles.

(b) "Motor vehicle" means any motor vehicle of the type and kind required to be registered and titled under chapter 319 and this chapter, except a recreational vehicle, moped, motorcycle powered by a motor with a displacement of 50 cubic centimeters or less, or mobile home.

(c) "Motor vehicle dealer" means any person engaged in the business of buying, selling, or dealing in motor vehicles or offering or displaying motor vehicles for sale at wholesale or

retail, or who may service and repair motor vehicles pursuant to an agreement as defined in s. 320.60(1). Any person who buys, sells, or deals in three or more motor vehicles in any 12-month period or who offers or displays for sale three or more motor vehicles in any 12-month period shall be prima facie presumed to be a motor vehicle dealer. Any person who engages in possessing, storing, or displaying motor vehicles for retail sale; advertising motor vehicles for retail sale; negotiating with consumers regarding the terms of sale for a motor vehicle; providing test drives of motor vehicles offered for sale; or delivering or arranging for the delivery of a motor vehicle in conjunction with the sale of such motor vehicle is deemed to be dealing in motor vehicles ~~engaged in such business~~. The terms "selling" and "sale" include lease-purchase transactions. A motor vehicle dealer may, at retail or wholesale, sell a recreational vehicle as described in s. 320.01(1)(b)1.-6. and 8., acquired in exchange for the sale of a motor vehicle, provided such acquisition is incidental to the principal business of being a motor vehicle dealer. However, a motor vehicle dealer may not buy a recreational vehicle for the purpose of resale unless licensed as a recreational vehicle dealer pursuant to s. 320.771. A motor vehicle dealer may apply for a certificate of title to a motor vehicle required to be registered under s. 320.08(2)(b), (c), and (d), using a manufacturer's statement of origin as permitted by s. 319.23(1), only if such dealer is authorized by a franchised agreement as defined in s. 320.60(1), to buy, sell, or deal in such vehicle and is authorized by such agreement to perform delivery and preparation obligations and warranty defect adjustments on the

motor vehicle; provided this limitation shall not apply to recreational vehicles, van conversions, or any other motor vehicle manufactured on a truck chassis. The transfer of a motor vehicle by a dealer not meeting these qualifications shall be titled as a used vehicle. The classifications of motor vehicle dealers are defined as follows:

1. "Franchised motor vehicle dealer" means any person who engages in the business of repairing, servicing, buying, selling, or dealing in motor vehicles pursuant to an agreement as defined in s. 320.60(1).

2. "Independent motor vehicle dealer" means any person other than a franchised or wholesale motor vehicle dealer who engages in the business of buying, selling, or dealing in motor vehicles, and who may service and repair motor vehicles.

3. "Wholesale motor vehicle dealer" means any person who engages exclusively in the business of buying, selling, or dealing in motor vehicles at wholesale or with motor vehicle auctions. Such person shall be licensed to do business in this state, shall not sell or auction a vehicle to any person who is not a licensed dealer, and shall not have the privilege of the use of dealer license plates. Any person who buys, sells, or deals in motor vehicles at wholesale or with motor vehicle auctions on behalf of a licensed motor vehicle dealer and as a bona fide employee of such licensed motor vehicle dealer is not required to be licensed as a wholesale motor vehicle dealer. In such cases it shall be prima facie presumed that a bona fide employer-employee relationship exists. A wholesale motor vehicle dealer shall be exempt from the display provisions of this section but shall maintain an office wherein records are kept in

order that those records may be inspected.

4. "Motor vehicle auction" means any person offering motor vehicles or recreational vehicles for sale to the highest bidder where buyers are licensed motor vehicle dealers. Such person shall not sell a vehicle to anyone other than a licensed motor vehicle dealer.

5. "Salvage motor vehicle dealer" means any person who engages in the business of acquiring salvaged or wrecked motor vehicles for the purpose of reselling them and their parts.

Notwithstanding anything in this subsection to the contrary, the term "motor vehicle dealer" does not include persons not engaged in the purchase or sale of motor vehicles as a business who are disposing of vehicles acquired for their own use or for use in their business or acquired by foreclosure or by operation of law, provided such vehicles are acquired and sold in good faith and not for the purpose of avoiding the provisions of this law; persons engaged in the business of manufacturing, selling, or offering or displaying for sale at wholesale or retail no more than 25 trailers in a 12-month period; public officers while performing their official duties; receivers; trustees, administrators, executors, guardians, or other persons appointed by, or acting under the judgment or order of, any court; banks, finance companies, or other loan agencies that acquire motor vehicles as an incident to their regular business; motor vehicle brokers; persons whose sole dealing in motor vehicles is owning a publication in which, or hosting a website on which, licensed motor vehicle dealers display vehicles for sale; and motor vehicle rental and leasing companies that sell motor vehicles to

motor vehicle dealers licensed under this section. Vehicles owned under circumstances described in this paragraph may be disposed of at retail, wholesale, or auction, unless otherwise restricted. A manufacturer of fire trucks, ambulances, or school buses may sell such vehicles directly to governmental agencies or to persons who contract to perform or provide firefighting, ambulance, or school transportation services exclusively to governmental agencies without processing such sales through dealers if such fire trucks, ambulances, school buses, or similar vehicles are not presently available through motor vehicle dealers licensed by the department.

(d) "Motor vehicle broker" means any person engaged in the business of, or who holds himself or herself out through solicitation, advertisement, or who otherwise holds himself or herself out as being in the business of, ~~offering to procure or procuring motor vehicles for~~ assisting the general public in purchasing or leasing a motor vehicle from a licensed motor vehicle dealer, ~~or who holds himself or herself out through solicitation, advertisement, or otherwise as one who offers to procure or procures motor vehicles for the general public,~~ and who does not deal in motor vehicles as provided in paragraph (1)(c) ~~store, display, or take ownership of any vehicles for the purpose of selling such vehicles~~. Any advertisement or solicitation by a motor vehicle broker must include a statement that the broker is receiving a fee and must clearly state that the person is not a licensed motor vehicle dealer.

(e) "Person" means any natural person, firm, partnership, association, or corporation.

(f) "Bona fide employee" means a person who is employed by

a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form W-2, or an independent contractor who has a written contract with a licensed motor vehicle dealer and receives annually an Internal Revenue Service Form 1099, for the purpose of acting in the capacity of or conducting motor vehicle sales transactions as a motor vehicle dealer.

(2) LICENSE REQUIRED.—No person shall engage in business as, serve in the capacity of, or act as a motor vehicle dealer in this state without first obtaining a license therefor in the appropriate classification as provided in this section. With the exception of transactions with motor vehicle auctions, no person other than a licensed motor vehicle dealer may advertise for sale any motor vehicle belonging to another party unless as a direct result of a bona fide legal proceeding, court order, settlement of an estate, or by operation of law. However, owners of motor vehicles titled in their names may advertise and offer vehicles for sale on their own behalf. It shall be unlawful for a licensed motor vehicle dealer to allow any person other than a bona fide employee to use the motor vehicle dealer license for the purpose of acting in the capacity of or conducting motor vehicle sales transactions as a motor vehicle dealer. Any person acting ~~selling or offering a motor vehicle for sale~~ in violation of the licensing requirements of this subsection, or who misrepresents to any person its relationship with any manufacturer, importer, or distributor, in addition to the penalties provided herein, is ~~shall be~~ deemed to have committed ~~guilty of~~ an unfair and deceptive trade practice in violation of ~~as defined in~~ part II of chapter 501 and is ~~shall be~~ subject to ~~the provisions of~~ subsections (8) and (9).

576-04061-17

Section 27. Section 321.25, Florida Statutes, is amended to read:

321.25 Training provided at patrol schools; reimbursement of tuition and other course expenses.—

(1) The Department of Highway Safety and Motor Vehicles may ~~is authorized to~~ provide for the training of law enforcement officials and individuals in matters relating to the duties, functions, and powers of the Florida Highway Patrol in the schools established by the department for the training of highway patrol candidates and officers. The Department of Highway Safety and Motor Vehicles may ~~is authorized to~~ charge a fee for providing the training authorized by this section. The fee shall be charged to persons attending the training. The fee shall be based on the Department of Highway Safety and Motor Vehicles' costs for providing the training, and such costs may include, but are not limited to, tuition, lodging, and meals. Revenues from the fees shall be used to offset the Department of Highway Safety and Motor Vehicles' costs for providing the training. The cost of training local enforcement officers shall be paid for by their respective offices, counties, or municipalities, as the case may be. Such cost shall be deemed a proper county or municipal expense or a proper expenditure of the office of sheriff.

(2) Notwithstanding s. 943.16, a person who attends training under subsection (1) at the expense of the Department of Highway Safety and Motor Vehicles must remain in the employment or appointment of the Florida Highway Patrol for at least 3 years. Once employed, if the person fails to remain employed by the Florida Highway Patrol for at least 3 years from

576-04061-17

the first date of employment, the person must pay the cost of tuition and other course expenses to the Department of Highway Safety and Motor Vehicles. As used in this section, the term "other course expenses" may include the cost of meals and lodging.

(3) The Department of Highway Safety and Motor Vehicles may institute a civil action to collect the cost of tuition and other course expenses if it is not reimbursed pursuant to subsection (2), provided that the Florida Highway Patrol gave written notification to the person of the 3-year employment commitment during the employment screening process and the person returned signed acknowledgment of receipt of such notification.

(4) Notwithstanding any other provision of this section, the Department of Highway Safety and Motor Vehicles may waive a person's requirement of reimbursement in part or in full when the person terminates employment due to hardship or extenuating circumstances.

Section 28. Subsection (4) of section 322.01, Florida Statutes, is amended to read:

322.01 Definitions.—As used in this chapter:

(4) "Authorized emergency vehicle" means a vehicle that is equipped with extraordinary audible and visual warning devices, that is authorized by s. 316.2397 to display red, red and white, or blue lights, and that is on call to respond to emergencies. The term includes, but is not limited to, ambulances, law enforcement vehicles, fire trucks, and other rescue vehicles. The term does not include wreckers, utility trucks, or other vehicles that are used only incidentally for emergency purposes.

Section 29. Subsection (4) of section 322.03, Florida Statutes, is amended to read:

322.03 Drivers must be licensed; penalties.—

(4) A person may not operate a motorcycle unless he or she holds a driver license that authorizes such operation, subject to the appropriate restrictions and endorsements. A person may operate an autocycle without a motorcycle endorsement.

Section 30. Subsections (1) and (2) of section 322.032, Florida Statutes, are amended to read

322.032 Digital proof of driver license.—

(1) The department, in collaboration with the Agency for State Technology, shall establish and implement ~~begin to review and prepare for the development of a~~ secure and uniform protocols and standards ~~system~~ for issuing an optional digital proof of driver license and shall procure any application programming interface necessary to enable a private entity to securely manufacture a digital proof of driver license. The department may contract with one or more private entities to develop a digital proof of driver license system.

(2)(a) A ~~The~~ digital proof of driver license ~~developed by the department or by an entity contracted by the department~~ must be in such a format as to allow law enforcement to verify the authenticity of the digital proof of driver license. The department may adopt rules to ensure valid authentication of a digital proof of driver license ~~licenses~~ by law enforcement.

(b) The act of presenting to a law enforcement officer an electronic device displaying a digital proof of driver license does not constitute consent for the officer to access any information on the device other than the digital proof of driver

license.

(c) A person who presents such device to the officer assumes liability for any resulting damage to the device.

Section 31. Paragraph (e) of subsection (8) of section 322.051, Florida Statutes, is amended to read:

322.051 Identification cards.—

(8)

(e)1. Upon request by a person who has posttraumatic stress disorder, a traumatic brain injury, or a developmental disability, or by a parent or guardian of a child or ward who has posttraumatic stress disorder, a traumatic brain injury, or a developmental disability, the department shall issue an identification card exhibiting a capital "D" for the person, child, or ward if the person or the parent or guardian of the child or ward submits:

a. Payment of an additional $1 fee; and

b. Proof acceptable to the department of a diagnosis by a licensed physician of a developmental disability as defined in s. 393.063, posttraumatic stress disorder, or traumatic brain injury.

2. The department shall deposit the additional $1 fee into the Agency for Persons with Disabilities Operations and Maintenance Trust Fund under s. 20.1971(2).

3. A replacement identification card that includes the designation may be issued without payment of the fee required under s. 322.21(1)(f).

4. The department shall develop rules to facilitate the issuance, requirements, and oversight of posttraumatic stress disorder, traumatic brain injury, and developmental disability

identification cards under this section.

Section 32. Paragraph (m) of subsection (8) of section 322.08, Florida Statutes, is amended to read:

322.08 Application for license; requirements for license and identification card forms.—

(8) The application form for an original, renewal, or replacement driver license or identification card must include language permitting the following:

(m) A voluntary contribution of $1 per applicant, which shall be distributed to Preserve Vision ~~Prevent Blindness~~ Florida, a not-for-profit organization, to prevent blindness and preserve the sight of the residents of this state.

A statement providing an explanation of the purpose of the trust funds shall also be included. For the purpose of applying the service charge provided under s. 215.20, contributions received under paragraphs (b)-(t) are not income of a revenue nature.

Section 33. Subsection (5) of section 322.091, Florida Statutes, is amended to read:

322.091 Attendance requirements.—

(5) REPORTING AND ACCOUNTABILITY.—The department shall make available, upon request, a report ~~quarterly~~ to each school district of the legal name, sex, date of birth, and social security number of each student whose driving privileges have been suspended under this section.

Section 34. Subsections (1) and (5) of section 322.12, Florida Statutes, are amended to read:

322.12 Examination of applicants.—

(1) It is the intent of the Legislature that every

applicant for an original driver license in this state be required to pass an examination pursuant to this section. However, the department may waive the knowledge, endorsement, and skills tests for an applicant who is otherwise qualified and who surrenders a valid driver license from another state or a province of Canada, or a valid driver license issued by the United States Armed Forces, if the driver applies for a Florida license of an equal or lesser classification. An ~~Any~~ applicant who fails to pass the initial knowledge test incurs a $10 fee for each subsequent test, to be deposited into the Highway Safety Operating Trust Fund; however, if a subsequent test is administered by the tax collector, the tax collector shall retain the $10 fee, less the General Revenue Service Charge set forth in s. 215.20(1). An ~~Any~~ applicant who fails to pass the initial skills test incurs a $20 fee for each subsequent test, to be deposited into the Highway Safety Operating Trust Fund; however, if a subsequent test is administered by the tax collector, the tax collector shall retain the $20 fee, less the General Revenue Service Charge set forth in s. 215.20(1). A person who seeks to retain a hazardous-materials endorsement, pursuant to s. 322.57(1)(e), must pass the hazardous-materials test, upon surrendering his or her commercial driver license, if the person has not taken and passed the hazardous-materials test within 2 years before applying for a commercial driver license in this state.

(5)(a) The department shall formulate a separate examination for applicants for licenses to operate motorcycles. Any applicant for a driver license who wishes to operate a motorcycle, and who is otherwise qualified, must successfully

complete such an examination, which is in addition to the examination administered under subsection (3). The examination must test the applicant's knowledge of the operation of a motorcycle and of any traffic laws specifically relating thereto and must include an actual demonstration of his or her ability to exercise ordinary and reasonable control in the operation of a motorcycle. Any applicant who fails to pass the initial knowledge examination will incur a $5 fee for each subsequent examination, to be deposited into the Highway Safety Operating Trust Fund. Any applicant who fails to pass the initial skills examination will incur a $10 fee for each subsequent examination, to be deposited into the Highway Safety Operating Trust Fund. In the formulation of the examination, the department shall consider the use of the Motorcycle Operator Skills Test and the Motorcycle in Traffic Test offered by the Motorcycle Safety Foundation. The department shall indicate on the license of any person who successfully completes the examination that the licensee is authorized to operate a motorcycle. If the applicant wishes to be licensed to operate a motorcycle only, he or she need not take the skill or road test required under subsection (3) for the operation of a motor vehicle, and the department shall indicate such a limitation on his or her license as a restriction. Every first-time applicant for licensure to operate a motorcycle must provide proof of completion of a motorcycle safety course, as provided for in s. 322.0255, before the applicant may be licensed to operate a motorcycle.

(b) The department may exempt any applicant from the examination provided in this subsection if the applicant

presents a certificate showing successful completion of a course approved by the department, which course includes a similar examination of the knowledge and skill of the applicant in the operation of a motorcycle.

(c) This subsection does not apply to the operation of an autocycle.

Section 35. Paragraph (d) is added to subsection (1) of section 322.135, Florida Statutes, to read:

322.135 Driver license agents.—

(1) The department shall, upon application, authorize by interagency agreement any or all of the tax collectors who are constitutional officers under s. 1(d), Art. VIII of the State Constitution in the several counties of the state, subject to the requirements of law, in accordance with rules of the department, to serve as its agent for the provision of specified driver license services.

(d) Each tax collector shall provide the same driver license services in office to residents of other counties that it provides for residents of its home county.

Section 36. Paragraph (b) of subsection (1) of section 322.17, Florida Statutes, is amended to read:

322.17 Replacement licenses, identification cards, and permits.—

(1)

(b) In the event that an instruction permit, ~~or~~ driver license, or identification card issued under ~~the provisions of~~ this chapter is stolen, the person to whom the same was issued may, at no charge, obtain a replacement upon furnishing proof satisfactory to the department that such permit, ~~or~~ license, or

identification card was stolen and further furnishing the person's full name, date of birth, sex, residence and mailing address, proof of birth satisfactory to the department, and proof of identity satisfactory to the department.

Section 37. Paragraphs (e) and (i) of subsection (1) and subsection (8) of section 322.21, Florida Statutes, are amended, and subsection (10) is added to that section, to read:

322.21 License fees; procedure for handling and collecting fees.—

(1) Except as otherwise provided herein, the fee for:

(e) A replacement driver license issued pursuant to s. 322.17 is $25. Of this amount, $7 shall be deposited into the Highway Safety Operating Trust Fund and $18 shall be deposited into the General Revenue Fund. ~~Beginning July 1, 2015, or upon completion of the transition of driver license issuance services,~~ If the replacement driver license is issued by the tax collector, the tax collector shall retain the $7 that would otherwise be deposited into the Highway Safety Operating Trust Fund and the remaining revenues shall be deposited into the General Revenue Fund.

~~(i) The specialty driver license or identification card issued pursuant to s. 322.1415 is $25, which is in addition to other fees required in this section. The fee shall be distributed as follows:~~

~~1. Fifty percent shall be distributed as provided in s. 320.08058 to the appropriate state or independent university, professional sports team, or branch of the United States Armed Forces.~~

~~2. Fifty percent shall be distributed to the department for~~

~~costs directly related to the specialty driver license and identification card program and to defray the costs associated with production enhancements and distribution.~~

(8) A ~~Any~~ person who applies for reinstatement following the suspension or revocation of the person's driver license must pay a service fee of $45 following a suspension, and $75 following a revocation, which is in addition to the fee for a license. A ~~Any~~ person who applies for reinstatement of a commercial driver license following the disqualification of the person's privilege to operate a commercial motor vehicle shall pay a service fee of $75, which is in addition to the fee for a license. The department shall collect all of these fees at the time of reinstatement. The department shall issue proper receipts for such fees and shall promptly transmit all funds received by it as follows:

(a) Of the $45 fee received from a licensee for reinstatement following a suspension:

1. If the reinstatement is processed by the department, the department shall deposit $15 in the General Revenue Fund and $30 in the Highway Safety Operating Trust Fund.

2. If the reinstatement is processed by the tax collector, $15, less the General Revenue Service Charge set forth in s. 215.20(1), shall be retained by the tax collector, $15 shall be deposited into the Highway Safety Operating Trust Fund, and $15 shall be deposited into the General Revenue Fund.

(b) Of the $75 fee received from a licensee for reinstatement following a revocation or disqualification:

1. If the reinstatement is processed by the department, the department shall deposit $35 in the General Revenue Fund and $40

in the Highway Safety Operating Trust Fund.

2. If the reinstatement is processed by the tax collector, $20, less the General Revenue Service Charge set forth in s. 215.20(1), shall be retained by the tax collector, $20 shall be deposited into the Highway Safety Operating Trust Fund, and $35 shall be deposited into the General Revenue Fund.

If the revocation or suspension of the driver license was for a violation of s. 316.193, or for refusal to submit to a lawful breath, blood, or urine test, an additional fee of $130 must be charged. However, only one $130 fee may be collected from one person convicted of violations arising out of the same incident. The department shall collect the $130 fee and deposit the fee into the Highway Safety Operating Trust Fund at the time of reinstatement of the person's driver license, but the fee may not be collected if the suspension or revocation is overturned. If the revocation or suspension of the driver license was for a conviction for a violation of s. 817.234(8) or (9) or s. 817.505, an additional fee of $180 is imposed for each offense. The department shall collect and deposit the additional fee into the Highway Safety Operating Trust Fund at the time of reinstatement of the person's driver license.

(10) An applicant who submits an application for a renewal or replacement driver license or identification card to the department using a convenience service shall be provided with an option for expedited shipping whereby the department, at the applicant's request, shall issue the license or identification card within 5 working days after receipt of the application and ship the license or card using an expedited mail service. A fee

shall be charged for the expedited shipping option, not to exceed the cost of the expedited mail service, which is in addition to fees imposed by s. 322.051, this section, or the convenience service. Fees collected for the expedited shipping option shall be deposited into the Highway Safety Operating Trust Fund.

Section 38. Subsection (1) of section 322.61, Florida Statutes, is amended, and subsection (2) of that section is reenacted, to read:

322.61 Disqualification from operating a commercial motor vehicle.—

(1) A person who, for offenses occurring within a 3-year period, is convicted of two of the following serious traffic violations, or any combination thereof, arising in separate incidents committed in a commercial motor vehicle shall, in addition to any other applicable penalties, be disqualified from operating a commercial motor vehicle for a period of 60 days. A holder of a commercial driver license or commercial learner's permit who, for offenses occurring within a 3-year period, is convicted of two of the following serious traffic violations, or any combination thereof, arising in separate incidents committed in a noncommercial motor vehicle shall, in addition to any other applicable penalties, be disqualified from operating a commercial motor vehicle for a period of 60 days if such convictions result in the suspension, revocation, or cancellation of the licenseholder's driving privilege:

(a) A violation of any state or local law relating to motor vehicle traffic control, other than a parking violation, arising in connection with a crash resulting in death;

(b) Reckless driving, as defined in s. 316.192;

(c) Unlawful speed of 15 miles per hour or more above the posted speed limit;

(d) Improper lane change, as defined in s. 316.085;

(e) Following too closely, as defined in s. 316.0895;

(f) Texting while driving a commercial motor vehicle, as prohibited by 49 C.F.R. 392.80;

(g) Using a handheld mobile telephone while driving a commercial motor vehicle, as prohibited by 49 C.F.R. 392.82;

(h) ~~(f)~~ Driving a commercial vehicle without obtaining a commercial driver license;

(i) ~~(g)~~ Driving a commercial vehicle without the proper class of commercial driver license or commercial learner's permit or without the proper endorsement; or

(j) ~~(h)~~ Driving a commercial vehicle without a commercial driver license or commercial learner's permit in possession, as required by s. 322.03.

(2)(a) Any person who, for offenses occurring within a 3-year period, is convicted of three serious traffic violations specified in subsection (1) or any combination thereof, arising in separate incidents committed in a commercial motor vehicle shall, in addition to any other applicable penalties, including but not limited to the penalty provided in subsection (1), be disqualified from operating a commercial motor vehicle for a period of 120 days.

(b) A holder of a commercial driver license or commercial learner's permit who, for offenses occurring within a 3-year period, is convicted of three serious traffic violations specified in subsection (1) or any combination thereof arising

in separate incidents committed in a noncommercial motor vehicle shall, in addition to any other applicable penalties, including, but not limited to, the penalty provided in subsection (1), be disqualified from operating a commercial motor vehicle for a period of 120 days if such convictions result in the suspension, revocation, or cancellation of the licenseholder's driving privilege.

Section 39. Section 324.031, Florida Statutes, is amended to read:

324.031 Manner of proving financial responsibility.—The owner or operator of a taxicab, limousine, jitney, or any other for-hire passenger transportation vehicle may prove financial responsibility by providing satisfactory evidence of holding a motor vehicle liability policy as defined in s. 324.021(8) or s. 324.151, which policy is provided by an insurer authorized to do business in this state ~~issued by an insurance carrier~~ which is a member of the Florida Insurance Guaranty Association or is an eligible surplus lines insurer that has a superior, excellent, exceptional, or equivalent financial strength rating by a rating agency acceptable to the Office of Insurance Regulation of the Financial Services Commission. The operator or owner of any other vehicle may prove his or her financial responsibility by:

(1) Furnishing satisfactory evidence of holding a motor vehicle liability policy as defined in ss. 324.021(8) and 324.151;

(2) Furnishing a certificate of self-insurance showing a deposit of cash in accordance with s. 324.161; or

(3) Furnishing a certificate of self-insurance issued by the department in accordance with s. 324.171.

Any person, including any firm, partnership, association, corporation, or other person, other than a natural person, electing to use the method of proof specified in subsection (2) shall furnish a certificate of deposit equal to the number of vehicles owned times $30,000, to a maximum of $120,000; in addition, any such person, other than a natural person, shall maintain insurance providing coverage in excess of limits of $10,000/20,000/10,000 or $30,000 combined single limits, and such excess insurance shall provide minimum limits of $100,000/$300,000 ~~$125,000/250,000~~ /50,000 or $300,000 combined single limits. These increased limits shall not affect the requirements for proving financial responsibility under s. 324.032(1).

Section 40. Section 877.27, Florida Statutes, is amended to read:

877.27 Unauthorized transmissions to, or interference with, a public or commercial radio station licensed by the Federal Communications Commission or global positioning system prohibited; penalties.—

(1) A person may not:

(a) Make, or cause to be made, a radio transmission in this state unless the person obtains a license or an exemption from licensure from the Federal Communications Commission under 47 U.S.C. s. 301, or other applicable federal law or regulation; or

(b) Do any act, whether direct or indirect, to cause an unlicensed radio transmission to, or interference with, a public or commercial radio station licensed by the Federal Communications Commission or to enable the radio transmission or

interference to occur.

(c) Use a device prohibited by the Federal Communications Commission which would cause interference with the legal use of a global positioning system (GPS) to track vehicles.

(2) A person who violates this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 41. Paragraph (c) of subsection (1) of section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible personal property at retail in this state, including the business of making mail order sales, or who rents or furnishes any of the things or services taxable under this chapter, or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and payable as follows:

(c) At the rate of 6 percent of the gross proceeds derived from the lease or rental of tangible personal property, as defined herein; however, the following special provisions apply to the lease or rental of motor vehicles:

1. When a motor vehicle is leased or rented for a period of less than 12 months:

a. If the motor vehicle is rented in Florida, the entire amount of such rental is taxable, even if the vehicle is dropped

off in another state.

b. If the motor vehicle is rented in another state and dropped off in Florida, the rental is exempt from Florida tax.

2. Except as provided in subparagraph 3., for the lease or rental of a motor vehicle for a period of not less than 12 months, sales tax is due on the lease or rental payments if the vehicle is registered in this state; provided, however, that no tax shall be due if the taxpayer documents use of the motor vehicle outside this state and tax is being paid on the lease or rental payments in another state.

3. The tax imposed by this chapter does not apply to the lease or rental of a commercial motor vehicle as defined in s. 316.003(13)(a) ~~s. 316.003(12)(a)~~ to one lessee or rentee for a period of not less than 12 months when tax was paid on the purchase price of such vehicle by the lessor. To the extent tax was paid with respect to the purchase of such vehicle in another state, territory of the United States, or the District of Columbia, the Florida tax payable shall be reduced in accordance with the provisions of s. 212.06(7). This subparagraph shall only be available when the lease or rental of such property is an established business or part of an established business or the same is incidental or germane to such business.

Section 42. Subsection (1) of section 316.303, Florida Statutes, is amended to read:

316.303 Television receivers.—

(1) No motor vehicle may be operated on the highways of this state if the vehicle is actively displaying moving television broadcast or pre-recorded video entertainment content that is visible from the driver's seat while the vehicle is in

motion, unless the vehicle is equipped with autonomous technology, as defined in s. 316.003(3) ~~s. 316.003(2)~~, and is being operated in autonomous mode, as provided in s. 316.85(2).

Section 43. Paragraph (b) of subsection (2) of section 316.545, Florida Statutes, is amended to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(2)

(b) The officer or inspector shall inspect the license plate or registration certificate of the commercial vehicle to determine whether its gross weight is in compliance with the declared gross vehicle weight. If its gross weight exceeds the declared weight, the penalty shall be 5 cents per pound on the difference between such weights. In those cases when the commercial vehicle is being operated over the highways of the state with an expired registration or with no registration from this or any other jurisdiction or is not registered under the applicable provisions of chapter 320, the penalty herein shall apply on the basis of 5 cents per pound on that scaled weight which exceeds 35,000 pounds on laden truck tractor-semitrailer combinations or tandem trailer truck combinations, 10,000 pounds on laden straight trucks or straight truck-trailer combinations, or 10,000 pounds on any unladen commercial motor vehicle. A driver of a commercial motor vehicle entering the state at a designated port-of-entry location, as defined in s. 316.003 ~~s. 316.003(54)~~, or operating on designated routes to a port-of-entry location, who obtains a temporary registration permit shall be assessed a penalty limited to the difference between its gross weight and the declared gross vehicle weight at 5

cents per pound. If the license plate or registration has not been expired for more than 90 days, the penalty imposed under this paragraph may not exceed $1,000. In the case of special mobile equipment, which qualifies for the license tax provided for in s. 320.08(5)(b), being operated on the highways of the state with an expired registration or otherwise not properly registered under the applicable provisions of chapter 320, a penalty of $75 shall apply in addition to any other penalty which may apply in accordance with this chapter. A vehicle found in violation of this section may be detained until the owner or operator produces evidence that the vehicle has been properly registered. Any costs incurred by the retention of the vehicle shall be the sole responsibility of the owner. A person who has been assessed a penalty pursuant to this paragraph for failure to have a valid vehicle registration certificate pursuant to the provisions of chapter 320 is not subject to the delinquent fee authorized in s. 320.07 if such person obtains a valid registration certificate within 10 working days after such penalty was assessed.

Section 44. Paragraph (a) of subsection (2) of section 316.613, Florida Statutes, is amended to read:

316.613 Child restraint requirements.—

(2) As used in this section, the term "motor vehicle" means a motor vehicle as defined in s. 316.003 that is operated on the roadways, streets, and highways of the state. The term does not include:

(a) A school bus as defined in s. 316.003 ~~s. 316.003(68)~~.

Section 45. Subsection (1) of section 655.960, Florida Statutes, is amended to read:

655.960 Definitions; ss. 655.960-655.965.—As used in this section and ss. 655.961-655.965, unless the context otherwise requires:

(1) "Access area" means any paved walkway or sidewalk which is within 50 feet of any automated teller machine. The term does not include any street or highway open to the use of the public, as defined in s. 316.003(78)(a) or (b) ~~s. 316.003(77)(a) or (b)~~, including any adjacent sidewalk, as defined in s. 316.003.

Section 46. The amendments made by this act to s. 318.18, Florida Statutes, shall apply upon the adoption by rule of uniform traffic citation forms. The Department of Highway Safety and Motor Vehicles shall notify the Division of Law Revision and Information upon the adoption of such forms.

Section 47. Except as otherwise provided in this act, this act shall take effect October 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 784
INTRODUCER:	Transportation Committee and Senator Gainer and others
SUBJECT:	Department of Highway Safety and Motor Vehicles
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jones	Miller	TR	**Fav/CS**
2.	Wells	Pitts	ATD	**Recommend: Fav/CS**
3.	Wells	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 784 makes numerous changes relating to the Department of Highway Safety and Motor Vehicles (DHSMV). Specifically, the bill:

- Creates a definition of an autocycle, requires occupants of autocycles to wear safety belts, and exempts drivers of autocycles from being required to have a motorcycle endorsement or motorcycles license, or from completing motorcycle knowledge and skills testing in order to operate the autocycle;
- Allows volunteer firefighters to use red and white, in addition to red, warning signals;
- Updates various commercial motor vehicle (CMV) regulations to address compatibility issues with federal law;
- Requires interstate charter buses to register as apportionable vehicles;
- Changes references to the organization "Prevent Blindness Florida" to "Preserve Vision Florida";
- Increases the time-frame apportionable vehicles must replace their license plates from annually to every five years;
- Allows a person driving a rental vehicle who is stopped by a law enforcement officer or agent of the DHSMV to show an electronic copy of a rental agreement;
- Removes specialty license plates from statute that have been discontinued by the DHSMV;
- Creates a Purple Heart motorcycle license plate and a Bronze Star license plate;
- Makes numerous changes to transporter license plates, including requiring more information from applicants for transporter plates and adding penalties for the misuse of such plates;

- Allows a person diagnosed with posttraumatic stress disorder (PTSD) or traumatic brain injury (TBI) to be eligible to receive a "D" designation on his or her identification (ID) card;
- Increases the amount of time a Florida Highway Patrol (FHP) trooper must stay employed with the FHP to avoid having to reimburse training costs from two years to three years;
- Revises DHSMV reporting requirements relating to driver license suspensions for persons who do not meet school attendance requirements;
- Authorizes tax collectors to retain fees or a portion of fees when they administer subsequent driver license examinations or reinstate licenses;
- Allows the DHSMV to issue a no-fee replacement identification card upon proof to the DHSMV that the card was stolen;
- Provides the option for expedited shipping of a driver license or identification card;
- Removes an obsolete provision relating to specialty driver licenses; and
- Amends numerous cross-references to reflect changes made by the bill.

The bill is intended to address a broad range of federal compliance, customer service and administrative efficiency issues; however, these changes have various indeterminate impacts on state revenues and expenditures.

The Revenue Estimating Conference (REC) reviewed identical sections of the bill on March 10, 2017.1 The REC estimates that replacing stolen identification cards at no charge to a customer (section 10 of the bill) will have an insignificant negative impact to the General Revenue Fund until Fiscal Years 2020 through 2022, when it will have a negative impact of $100,000 annually.

The REC estimates that allowing local tax collectors to retain fees or portions of fees for administering subsequent driver license examinations or reinstating licenses (sections 9 and 11) will shift approximately $5 million from the Highway Safety Operating Trust Fund and $400,000 from the General Revenue Fund each year to the local tax collectors.

Additionally, the REC estimates, authorizing expedited shipping fees for driver licenses and identification cards (section 11) will have an indeterminate impact in revenues to the extent that expedited shipping is requested.

The bill takes effect October 1, 2017.

II. Present Situation:

Due to the disparate issues in the bill, the present situation for each section is discussed below in conjunction with the Effect of the Proposed Changes.

[1] Office of Economic and Demographic Research, Revenue Estimating Conference, *Highway Safety Fees – HB 545* (Mar. 10, 2017), *available at* http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2017/_pdf/Impact0310.pdf at p. 22-30 (last visited Mar. 15, 2017).

III. Effect of Proposed Changes:

Autocycles (Sections 1, 6, 7, 20, and 24)

Present Situation

An autocycle is commonly defined as a three-wheel motorcycle that has a steering wheel and seating that does not require the operator to straddle or sit astride it.[2] The term "autocycle" is not defined in federal law; however, as of February 2016, at least 22 states have created statutory definitions for an autocycle.[3] Currently, the DHSMV registers autocycles as motorcycles.[4] This means operators of autocycles, generally, are not required to maintain insurance[5] or wear safety belts[6], but are required to:

- Maintain a motorcycle endorsement or motorcycle license;[7]
- Wear a helmet, unless over 21 years of age with at least $10,000 of medical insurance or riding in an enclosed cab;[8] and
- Wear eye protection[9];

Since autocycles share more characteristics with passenger motor vehicles than motorcycles, some of the motorcycle requirements, or lack of requirements, may or may not be necessary for autocycles. For example, studies suggest a motorcycle endorsement or motorcycle license should not be required for operating an autocycle.[10] Motorcycle rider courses primarily focus on operating a motorcycle in which the operator sits astride the saddle and uses handlebars, while using his or her body weight, balance, and position on the motorcycle to corner or stop; however, operating an autocycle requires mechanics similar to a passenger motor vehicle. At least 21 states do not require a motorcycle endorsement or motorcycle license to operate an autocycle.[11]

There is little research or crash data available concerning the safety of autocycles. Since autocycles fall under the definition of a motorcycle they are only required to meet the federal safety standards required for motorcycles; thus, autocycles are not required to meet the crash safety standards or occupant safety criteria that a regular passenger motor vehicle is required to meet. The National Highway Traffic Safety Administration (NHTSA) has concerns that the overall appearance of autocycles, being closer to the appearance of a car than a motorcycle, may cause people to think autocycles are as safe as passenger motor vehicles.[12]

[10] AAMVA, *supra* note 1 at p. 5 and 9
[11] NCSL, *supra* note 2
[12] AAMVA, *supra* note 2 at p. 2

Effect of Proposed Changes

Section 1 amends s. 316.003, F.S., defining an autocycle as a three-wheel motorcycle that has two wheels in the front and one wheel in the back, is equipped with a roll cage or roll hoops, safety belts for each occupant, antilock brakes, a steering wheel, and seating that does not require the operator to straddle or sit astride it and is manufactured by a National Highway Traffic Safety Administration (NHTSA) registered manufacturer in accordance with the applicable federal motorcycle safety standards.

Sections 1 and 7 include an autocycle in the definition of a motorcycle. Also, the definition of motorcycle is amended to exempt a vehicle in which the operator is enclosed by a cabin unless the vehicle meets the requirements set forth by the NHTSA for a motorcycle.

Section 6 amends s. 316.614, F.S., to require that the operator, front seat passenger, and any passenger under the age of 18 years old in an autocycle wear a safety belt.

Sections 20 and 24 amend ss. 322.03 and 322.12, F.S., respectively, to exempt operators of an autocycle from needing a motorcycle endorsement or motorcycle license, and from needing to complete motorcycle skills and motorcycle knowledge testing to operate an autocycle.

Volunteer Firefighters – Red and White Warning Signals (Sections 2, 3, and 19)

Present Situation

Section 316.2397, F.S., authorizes vehicles of the fire department and fire patrol, including vehicles of permitted volunteer firefighters, to show or display red warning signals. Specifically, active volunteer firefighters are authorized to display such red lights or warning signals if the volunteer firefighter has secured a written permit from the chief executive officers of the firefighting organization allowing the use of such signals. This permit is required to be carried at all times while the firefighter displays the red warning signals. The active firefighter may display red lights on their privately owned vehicle while en route to a fire or other emergency in the line of duty, or while en route to the fire station for the purpose of proceeding to a fire or other emergency.[13]

Section 316.2398, F.S., requires that the warning signals must be visible from the front and rear of the vehicle, and requires:

- No more than two red warning signals may be displayed; and
- No inscription of any kind may appear across the face of the lens of the warning signal.

A violation of these requirements is a nonmoving violation, punishable as provided in ch. 318, F.S.,[14] and any volunteer firefighter who violates these requirements shall be dismissed from membership in the firefighting organization.[15]

[13] Section 316.2398(1), F.S.
[14] Chapter 318.18, F.S., provides that a nonmoving traffic violation is a $30 penalty plus court costs. This could result in a penalty and costs totaling up to $108.
[15] Section 316.2398(5), F.S.

Effect of Proposed Changes

Sections 2, 3, and 19 amend ss. 316.2397, 316.2398, and 322.01, F.S., respectively, to provide that volunteer firefighters may use red or *red and white* warning signals where provided by law. All of the conditions and restrictions in current law for the use of red warning signals will remain applicable to the use of red and white warning signals.

Federal Motor Carrier Safety Administration Compatibility (Section 4)

Present Situation

The Federal Motor Carrier Safety Administration (FMCSA) was established within the United States Department of Transportation on January 1, 2000. Its primary mission is to prevent commercial motor vehicle (CMV)-related fatalities and injuries.[16]

Section 316.302, F.S., provides that all owners and drivers of CMVs[17] operated on the public highways of this state while engaged in *interstate* commerce are subject to the rules and regulations contained in the following parts of the Federal Motor Carrier Safety Regulations[18]:

- Part 382, Controlled Substance and Alcohol Use and Testing;
- Part 385, Safety Fitness Procedures;
- Part 390, General Federal Motor Carrier Safety Regulations;
- Part 391, Qualifications of Drivers;
- Part 392, Driving of Commercial Motor Vehicles;
- Part 393, Parts and Accessories Necessary for Safe Operation;
- Part 395, Hours of Service of Drivers;
- Part 396, Inspection, Repair, and Maintenance; and
- Part 397, Transportation of Hazardous Materials; Driving and Parking Rules.

Owners and drivers of CMVs engaged in *intrastate* commerce are subject to the same rules and regulations, unless otherwise provided in s. 316.302, F.S., as such rules and regulations existed on December 31, 2012.[19] To remain compatible with the Federal Motor Carrier Safety Regulations, states generally have up to three years from the effective date of new federal requirements to adopt and enforce such requirements.[20] States that remain incompatible risk losing federal funding. A 2007 Florida State Motor Carrier Safety Assistance Program (MCSAP) review found that the Florida Statutes contain multiple compatibility issues.[21]

[16] FMCSA website, *About Us, available at* https://www.fmcsa.dot.gov/mission/about-us (last visited Feb. 23, 2017).
[17] Section 316.003(12), F.S., defines "commercial motor vehicle" as "any self-propelled or towed vehicle used on the public highways in commerce to transport passengers or cargo, if such vehicle: (a) Has a gross vehicle weight rating of 10,000 pounds or more; (b) Is designed to transport more than 15 passengers, including the driver; or (c) Is used in the transportation of materials found to be hazardous for the purposes of the Hazardous Materials Transportation Act, as amended (49 U.S.C. ss. 1801 et seq.)."
[18] 49 C.F.R. ch. III, subchapter B.
[19] Section 316.302(1)(b), F.S.
[20] 49 C.F.R. *Appendix A to Part 355 – Guidelines for the Regulatory Review – State Determinations* (2016)
[21] 2007 Florida State MCSAP Review, *Summary Findings, Recommendations, and Noteworthy Practices* (June 2007) (on file with the Senate Committee on Transportation).

2007 Florida State MCSAP Review Findings

Section 316.302(1)(b), F.S., provides an exception from 49 C.F.R. s. 390.5 as it relates to the definition of a bus, which is defined as "any motor vehicle designed, constructed, and/or used for the transportation of passengers, including taxicabs." Florida law excludes taxicabs from the definition of a bus.[22] The MCSAP Review noted that Florida Statutes "exempting, from the definition of a bus, taxicabs as it applies to the intrastate private transportation of passengers, is not compatible" with Federal law.[23]

Federal law prohibits certain lamps and reflective devices from being obscured on CMVs.[24] However, s. 316.215(5), F.S., provides an exception from this requirement for front-end loading collection vehicles that are engaged in collecting solid waste or recyclable or recovered materials, and are being operated at less than 20 miles per hour with hazard-warning lights activated. According to the MCSAP review, federal law provides no such exemption.[25]

Section 316.302(2)(d), F.S., provides an exemption from compliance with 49 C.F.R. s. 395.8, requiring driver's record of duty status, for drivers of CMVs if the driver:

- Is operating solely in intrastate commerce;
- Is not transporting any hazardous materials in amounts that require placarding[26];
- Is within 150-air miles of the vehicle's base location; and
- Complies with specific federal requirements relating to hours of service.[27]

Additionally, state law provides that if a driver is not released from duty within 12 hours of arriving on duty, the motor carrier must maintain documentation of the driver's driving times throughout the duty period. The MCSAP review found that the exemption and alternate records requirement contained in s. 316.302(2)(d), F.S., does not comply with federal regulations because the federal exemption also requires that the driver return to the work reporting location and is released from work within 12 consecutive hours.[28]

Federal law allows a state to exempt a CMV from all or part of its laws or regulations relating to intrastate commerce if the vehicle's gross vehicle weight, gross vehicle weight rating, gross combined weight, or gross combined weight rating is less than 26,001, and the vehicle is not:

- Transporting hazardous materials requiring a placard; or
- Designed or used to transport 16 or more people, including the driver.[29]

However, s. 316.302(2)(f), F.S., provides exemptions from federal laws or regulations for a person who operates a CMV solely in intrastate commerce, having a *declared* gross vehicle weight of less than 26,001 pounds, and who is not transporting hazardous materials in an amount that requires placarding, or who is transporting petroleum products. According to the MCSAP

[22] Section 316.003(6), F.S.
[23] 2007 Florida State MCSAP Review, *supra* note 20 at p. 2, *FL/FI-1*.
[24] 49 C.F.R. s. 393.9(b)
[25] 2007 Florida State MCSAP Review, *supra* note 20 at p. 4, *FL/FI-7*.
[26] Pursuant to 49 C.F.R. part 172
[27] As provided in 49 C.F.R. s. 395.1(e)(1)(iii) and (v).
[28] 2007 Florida State MCSAP Review, *supra* note 20 at p. 5, *FL/FI-8*.
[29] 49 C.F.R. s. 350.341(a)

Review, the State interprets this statute as exempting such vehicles transporting petroleum products even if a hazardous materials placard is required, which is not in compliance with federal regulations.[30]

Maximum Driving Time

Section 316.302(2), F.S., provides prohibitions to length of time CMV drivers may drive, as well as exemptions from federal requirements for specified vehicles. Section 316.302(2)(b), F.S., provides that a person who operates a CMV solely in intrastate commerce without any hazardous materials in amounts requiring placarding may not drive:

- More than 12 hours following 10 consecutive hours off duty; or
- For any period after the end of the 16th hour after coming on duty following 10 consecutive hours off duty.

Except as provided in the federal hours of service rules[31], a person operating a CMV solely in intrastate commerce not transporting any hazardous material may not drive after having been on duty more than 70 hours in any period of seven consecutive days or more than 80 hours in any period of eight consecutive days if the motor carrier operates every day of the week.[32] Upon request of DHSMV, motor carriers are required to furnish time records or other written verification so that DHSMV can determine compliance with the hours of service requirements. Falsification of time records is subject to a civil penalty not to exceed $100.[33]

Effect of Proposed Changes

Section 4 amends multiple provisions in s. 316.302, F.S., addressing federal compatibility issues.

This section amends s. 316.302(1), F.S., to clarify that the section applies to all CMVs except as provided in s. 316.302(3), F.S., relating to covered farm vehicles.

This section amends s. 316.302(1)(b), F.S., to remove an exception to federal law as it relates to the definition of a bus.

This section adopts federal laws that intrastate CMV owners and drivers are required to comply with as such federal rules and regulations existed on December 31, 2016.[34] Examples of some of the regulations adopted that directly affect intrastate CMVs include:

- Requiring use of electronic logging devices by drivers required to prepare hours-of-service records of duty status;[35]

[30] 2007 Florida State MCSAP Review, *supra* note 20 at p. 5, *FL/FI-3*.
[31] 49 C.F.R. s. 395.1
[32] Section 316.302(2)(c), F.S.
[33] This penalty is found in 316.302(2)(c), F.S.; However, s. 316.3025, F.S., relating to CMV penalties, provides that a penalty of $100 may be assessed for a violation of s. 316.302(2)(b) or (c), F.S.
[34] A list of Final Rules adopted as of December 31, 2016, that affect FMCSA rules and regulations are available on the FMCSA website, *Rulemaking Documents, available at* https://www.fmcsa.dot.gov/regulations/search/rulemaking?keyword=&dt=final&topic= (last visited Mar. 13, 2017).
[35] Electronic Logging Devices and Hours of Service Supporting Documents, 80 Fed. Reg. 78291 (Dec. 16, 2015), *available at* https://www.federalregister.gov/documents/2015/12/16/2015-31336/electronic-logging-devices-and-hours-of-service-supporting-documents (last visited Mar. 6, 2017).

- Amending the definition of *gross combination weight rating* to provide clarification;[36] and
- Requiring the use of a Unified Registration System to submit required registration and biennial update information to the FMCSA.[37]

This section amends s. 316.302(1)(d), F.S., to remove an exemption from federal law allowing specified CMVs to obscure certain lighting or reflective devices.

Due to changes in federal law, the section amends s. 316.302(2)(a), F.S., to provide clarity that drivers of intrastate CMVs that are not transporting hazardous materials requiring placarding are exempt from 49 C.F.R. s. 395.3, which provides maximum driving times for property-carrying vehicles. These drivers continue to be subject to the maximum driving times required by state law.

This removes a duplicate penalty for falsifying hours of service records from s. 316.302(2)(c), F.S.

Section 316.302(2)(d), F.S., is amended to provide that to be exempt from being required to maintain records of duty status for short-haul drivers the driver must also return to the work reporting location and be released from work within 12 consecutive hours.

Lastly, the section amends s. 316.302(2)(f), F.S., to remove specified exemptions for drivers transporting petroleum products. The section also removes that these exemptions apply when a CMV has a *declared* gross vehicle weight of less than 26,001 pounds. This criterion is changed to CMVs having a *gross vehicle weight*, *gross vehicle weight rating*, *and gross combined weight rating* of less than 26,001 pounds.

Commercial Motor Vehicle Operator Disqualifications (Sections 5 and 27)

Present Situation

Federal and state laws prohibit drivers of commercial motor vehicles from texting while driving a commercial motor vehicle (CMV) and from using a hand-held mobile telephone while driving a CMV.[38] Section 316.3025, F.S., provides that a driver who violates these laws may be assessed a civil penalty of:

- $500 for the first violation;
- $1,000 and a 60-day CDL disqualification for a second violation; and
- $2,750 and a 120-day CDL disqualification for a third and subsequent violation.

However, federal law requires the 60 and 120-day CDL disqualification for these offenses to be assessed for any combination of certain serious traffic violations during a 3-year period.

---

[36] Gross Combination Weight Rating; Definition, 79 Fed. Reg. 15245 (Mar. 19, 2014), *available at* https://www.federalregister.gov/documents/2014/03/19/2014-05502/gross-combination-weight-rating-definition (last visited Mar. 13, 2017).

[37] Unified Registration System, 78 Fed. Reg. 52607 (Aug. 23, 2013), *available at* https://www.federalregister.gov/documents/2013/08/23/2013-20446/unified-registration-system (last visited Mar. 13, 2017). However, the system is currently delayed until all necessary data is transferred to the new database and that is compatible with State partners. See 82 Fed. Reg. 5292.

[38] See 49 C.F.R. ss. 392.80 and 392.82, and s. 316.3025, F.S.

Specifically, federal law requires, for offenses occurring within a 3-year period while operating a CMV, a 60-day CDL disqualification for a second conviction and a 120-day CDL disqualification for a third or subsequent conviction of any combination of the following offenses[39]:

- Excessive speeding (15 mph or more over the posted speed limit);
- Reckless driving;
- Improper lane changes;
- Following too closely;
- A violation of any state or local law relating to motor vehicle traffic control arising in connection with a fatal accident;
- Driving a CMV:
  - Without obtaining a CDL;
  - Without a CDL in the driver's possession;
  - Without the proper class of CDL or endorsements required;
- Violating a state or local law or ordinance on motor vehicle traffic control prohibiting:
  - Texting while driving a CMV; or
  - Use of a hand-held mobile telephone while driving a CMV.

With the exception of texting while driving a CMV and the use of a hand-held mobile phone while driving a CMV, the above penalties and offenses are in state law.[40] To align with federal law, these two offenses need to be added to the list of disqualifying offenses in s. 316.3025, F.S. According to the DHSMV, non-compliance could result in a loss of federal highway funds.[41]

Effect of Proposed Changes

Sections 5 and 27 amend ss. 316.3025 and 322.61, F.S., respectively, to remove the commercial driver license disqualification penalty for texting while driving a CMV and using a hand-held mobile telephone while driving a CMV from s. 316.3025, and adds those offenses to the list of serious disqualifying offenses while operating a commercial motor vehicle listed in s. 322.61, F.S. This change aligns Florida law with federal regulations.

International Registration Plan – Charter Buses (Section 7)

Present Situation

The International Registration Plan (IRP) is a registration reciprocity agreement among all states in the contiguous United States, the District of Columbia, and several Canadian provinces. It provides for the payment of license fees based on fleet operation in various member jurisdictions.[42] This allows carriers to operate inter-jurisdictionally while only needing to register

[39] 49 C.F.R. s. 383.51 (2015), *Table 2, available at* https://www.gpo.gov/fdsys/pkg/CFR-2015-title49-vol5/pdf/CFR-2015-title49-vol5-subtitleB-chapIII-subchapB.pdf at p. 206-207 (last visited Feb 9, 2017).
[40] See s. 322.61(1), F.S.
[41] Meeting with the DHSMV and Senate Transportation Committee Staff (Jan. 23, 2017).
[42] International Registration Plan, Inc., *About IRP*, http://www.irponline.org/?page=AboutIRP (last visited Feb. 1, 2017).

its vehicles in its base jurisdiction, which is the state or province where the registrant has an established place of business[43].

All apportionable vehicles domiciled in the state are required to be registered in accordance with the IRP and display "Apportioned" license plates.[44] Motor carriers registered under the IRP are also required to maintain specified records for the DHSMV, and may have their registrations and license plates withheld if:[45]

- An identifying number issued by the federal agency responsible for motor carrier safety is not provided for the motor carrier and entity responsible for motor carrier safety for each motor vehicle; or
- A motor carrier or vehicle owner has been prohibited from operating by a federal or state agency responsible for motor carrier safety.

Additionally, the DHSMV has authority to suspend, with notice, any commercial motor vehicle or license plate issued to a motor carrier or vehicle owner who has been prohibited from operating by a federal or state agency responsible for motor carrier safety.[46] Apportionable vehicles that do not regularly operate in a particular jurisdiction also have the option to register for trip permits in order to operate in IRP member jurisdictions for limited periods where they do not pay license taxes.[47]

The IRP defines an apportionable vehicle as:[48]

> [A]ny Power Unit that is used or intended for use in two or more Member Jurisdictions and that is used for the transportation of persons for hire or designed, used, or maintained primarily for the transportation of property, and:
> (i) Has two Axles and a gross Vehicle weight or registered gross Vehicle weight in excess of 26,000 pounds, or
> (ii) Has three or more Axles, regardless of weight, or
> (iii) Is used in combination, when the gross Vehicle weight of such combination exceeds 26,000 pounds.

The definition excludes a recreational vehicle, a vehicle displaying restricted plates, or a government-owned vehicle. However, those excluded vehicles may choose to register under the IRP.

---

[43] As defined by the IRP, (January 2017) *available at* http://c.ymcdn.com/sites/www.irponline.org/resource/resmgr/publications/IRP_agreement_eff_january_1_.pdf at p. 16 (last visited Feb. 1, 2017).
[44] Section 320.0715(1), F.S.
[45] Section 320.0715(4), F.S.
[46] Section 320.0715(4)(c), F.S.
[47] *See* IRP, Inc., *Trip Permits- Cost/Duration* (May 2016), *available at* http://www.irponline.org/resource/resmgr/Jurisdiction_Info_2/Trip_Permits_5.19.2016.xlsx (last visited Feb. 6, 2017).
[48] International Registration Plan (Jan. 2017), *available at* http://c.ymcdn.com/sites/www.irponline.org/resource/resmgr/publications/IRP_agreement_eff_january_1_.pdf at p. 12-13 (last visited Feb. 2, 2017).

Prior to January 1, 2016, charter buses were also excluded from having to register under the IRP, but retained the option to do so. The IRP was amended to remove charter buses from the exemption, requiring charter bus operations to register under the IRP. This registration ensures that charter bus operations will pay license fees to each jurisdiction it operates in, and prevents or suspends the registration of unsafe carriers.[49] As of January 1, 2016, the DHSMV estimates that less than 200 charter bus carriers or companies within the state were required to register under the IRP in order for the state to remain compliant with the reciprocity agreement.[50]

Effect of Proposed Changes

Section 7 amends s. 320.01, F.S., to remove charter buses from the apportionable vehicle exclusion. This change is necessary to align with the requirements of the IRP. All charter buses operating interstate are now required to obtain an IRP registration or purchase trip permits.

Prevent Blindness Florida Organization Name Change (Sections 8, 14 and 22)

Present Situation

In May of 2016, the organization Prevent Blindness Florida changed their name to Preserve Vision Florida.[51]

Effect of Proposed Changes

Sections 8, 14 and 22 amend ss. 320.02, 320.08068 and 322.08, F.S., respectively, pertaining to the DHSMV to recognize the organization's name change.

Issuance of Apportionable Vehicle Plates (Sections 9 and 11)

Present Situation

Registration license plates, which bear a graphic symbol and alphanumeric system of identification, are issued for a 10-year period. However, "Apportioned" license plates issued to vehicles registered under the International Registration Plan (IRP), are issued annually.[52] Each original plate costs $28, which is deposited into the Highway Safety Operating Trust Fund (HSOTF). Apportioned vehicles are also issued an annual cab card that denotes the declared gross vehicle weight for each apportioned jurisdiction where the vehicle is authorized to operate.[53]

[49] *See* IRP, Inc., *Official Amendment to the International Registration Plan* (June 2014) http://c.ymcdn.com/sites/www.irponline.org/resource/resmgr/irp_ballots/ballot_391.pdf (last visited Feb. 3, 2017).
[50] Email from the DHSMV (Feb. 17, 2017) (on file with the Senate Committee on Transportation).
[51] Department of State, Division of Corporations – Sunbiz.org, *Preserve Vision Florida, Inc.* (May 4, 2016), http://search.sunbiz.org/Inquiry/CorporationSearch/ConvertTiffToPDF?storagePath=COR%5C2016%5C0509%5C84865905.Tif&documentNumber=706503 (last visited Mar. 22, 2017).
[52] Section 320.06(1)(b)1., F.S.
[53] *See* IRP, Inc., *State of Florida Apportioned Cab Card Sample*, http://c.ymcdn.com/sites/www.irponline.org/resource/resmgr/cab_cards/fl_cc_sample.pdf (last visited Feb. 8, 2017).

Effect of Proposed Changes

Sections 9 and 11 amend ss. 320.06 and 320.0607, F.S., respectively, to provide that beginning October 1, 2018, apportioned vehicles will be issued license plates valid for a 5-year period, instead of annually. If the license plate is damaged or worn prior to the end of the 5-year period, the DHSMV will replace it, upon application and surrender of the current plate, at no charge. Cab cards and validation stickers will continue to be issued annually, and the $28 annual fee will apply to the issuance of an original or renewal validation sticker, instead of for the cost of the plate.

Electronic Rental Agreements (Section 10)

Present Situation

Section 320.0605, F.S., provides that a person who rents or leases a vehicle is required to possess a true copy of rental or lease documentation for the motor vehicle at all times while the vehicle is being operated.[54] The documentation must include the following:

- Date of rental and time of exit from rental facility;
- Rental station identification;
- Rental agreement number;
- Rental vehicle identification number;
- Rental vehicle license plate number and state of registration;
- Vehicle's make, model, and color;
- Vehicle's mileage; and
- Authorized renter's name.

Effect of Proposed Changes

The bill authorizes a person to possess an *electronic copy* of the rental or lease documentation to be displayed upon the request of a law enforcement officer or an agent of the DHSMV. The bill provides that displaying the electronic copy does not constitute consent for the officer or agent to access any information on the device other than the displayed rental or lease documentation. The person who presents the device to the officer assumes liability for any resulting damage to the device.

The bill also removes that the rental or lease documentation must include the time of exit from the rental facility.

Discontinued Specialty License Plates (Sections 12 and 13)

Present Situation

The DHSMV must discontinue the issuance of any approved specialty license plate if the number of valid specialty plate registrations falls below 1,000 plates for at least 12 consecutive months, or discontinue the sale of presale vouchers if the approved plate does not sell at least 1,000

[54] A person who cannot display such documentation upon request from an officer or agent of the DHSMV is guilty of a noncriminal traffic infraction, punishable as a nonmoving violation.

vouchers in 24 months.[55] The specialty license plate must also be discontinued if the organization no longer exists, stops providing services that are authorized to be funded from the annual use fee proceeds, or pursuant to an organizational recipient's request. [56]

The following specialty license plates have been discontinued by the DHSMV:

- The American Red Cross plate for failing to meet sales requirements;[57]
- The Donate Organs Pass It On plate because the organization has closed;[58] and
- The St. Johns River plate and Hispanic Achievers plate for not meeting presale requirements.[59]

Effect of Proposed Changes

Sections 12 and 13 amend ss. 320.08056 and 320.08058, F.S., respectively, to remove the American Red Cross plate, the Donate Organs Pass It On plate, the St. Johns River plate, and the Hispanic Achievers plate from law.

Purple Heart Motorcycle Plate (Section 15)

Present Situation

DHSMV currently offers multiple military special license plates available to certain military service members or veterans, but only offers two military motorcycle special plates: the Disabled Veteran motorcycle plate and the Paralyzed Vets of America motorcycle plate.[60]

Purple Heart Medal

The Purple Heart is one of the oldest and most recognized American military medals, awarded to service members who were killed or wounded by enemy action. The Purple Heart differs from all other decorations in that an individual is not "recommended" for the decoration; rather he or she is entitled to it upon meeting specific criteria.[61] The Purple Heart is ranked immediately behind the Bronze Star Medal and ahead of the Defense Meritorious Service Medal[62] in order of precedence.

[55] Sections 320.08056(8)(a) and 320.08053(1)(b), F.S.; Florida collegiate plates are exempt from these requirements.
[56] Section 320.08056(8)(b), F.S.
[57] DHSMV Technical Advisory RS/TL16-009, *American Red Cross Specialty License Plate* (April 6, 2016), *available at* https://www.flhsmv.gov/dmv/bulletins/2016/ta_rstl16-009.pdf (last visited Mar. 22, 2017).
[58] DHSMV Technical Advisory RS/TL16-019, *Deauthorization of Donate Organs Pass It On Specialty License Plate* (July 15, 2016), *available at* https://www.flhsmv.gov/dmv/bulletins/2016/ta_rstl16-019.pdf (last visited Mar. 22, 2017).
[59] After 24 months in the presale process, the Hispanic Achievers plate had 26 registrations and the St. Johns River plate had 45 registrations. See DHSMV website, *Pre-Sale Specialty License Plate Vouchers* (June 30, 2016), http://www.flhsmv.gov/specialtytags/PreSaleData.html (last visited Mar. 22, 2017).
[60] For plate samples, see DHSMV, *Military License Plates*, *available at* http://www.flhsmv.gov/specialtytags/miltags.html (last visited Mar. 22, 2017).
[61] Paragraph 1-14(c), Army Regulation 600-8-22.
[62] The Defense Meritorious Service Medal is awarded in the name of the Secretary of Defense to members of the Armed Forces of the United States who, after 3 November 1977, distinguished themselves by noncombat meritorious achievement or service.

Effect of Proposed Changes

Section 15 creates s. 320.0875, F.S., to establish a Purple Heart motorcycle special license plate. A Florida resident who owns or leases a motorcycle that is not used for hire or commercial use, and who was awarded a Purple Heart may receive a Purple Heart motorcycle license plate upon:

- Application to the DHSMV;
- Payment of the motorcycle license tax[63]; and
- Documentation acceptable to the DHSMV that he or she is a recipient of the Purple Heart medal.

The Purple Heart motorcycle plate shall be stamped with the words "Combat-wounded Veteran" followed by the serial number, the term "Purple Heart," and the likeness of the Purple Heart medal.

Bronze Star License Plate (Section 16)

Present Situation

Currently, there are 21 special military plates authorized in s. 320.089, F.S., available to military service members or veterans. [64] Special military plates authorized under this section are stamped with words consistent with the type of special plate issued, and include a likeness of the related campaign medal or badge, if applicable. Applicants for special military license plates authorized under this section are required to pay the annual license tax in s. 320.08, F.S., with the exception of certain disabled veterans who qualify for the Pearl Harbor, Purple Heart, or Prisoner of War plate, to whom such plates are issued at no cost.[65] With the exception of Woman Veteran plates, the first $100,000 of revenue generated annually from the sale of special use military plates is deposited into the Grants and Donations Trust Fund under the Veterans' Nursing Homes of Florida Act, as described in s. 296.38(2), F.S. Additional revenue is deposited into the State Homes for Veterans Trust Fund and used to construct, operate, and maintain domiciliary and nursing homes for veterans.[66] Proceeds from the Woman Veteran plates must be deposited into the Operations and Maintenance Trust Fund administered by the Department of Veterans' Affairs to be used solely for the purpose of creating and implementing programs that benefit women veterans.[67]

Bronze Star Medal

The Bronze Star Medal was established on February 4, 1944, to recognize those who served after December 6, 1941, in any capacity in or with the Armed Forces of the United States or a friendly

[63] Section 320.08(1)(a) and (c), F.S., provide the motorcycles have a flat license tax of $10 plus a $2.50 nonrefundable motorcycle education safety fee.
[64] The 21 military special plates currently offered in s. 320.089, F.S., include plates available for the following types of service: Veteran or Woman Veteran of the U.S. Armed Forces, World War II, Korean War, or Vietnam War Veteran, Navy Submariner, Active or retired National Guard member or U.S. Reservists, Pearl Harbor survivor, recipient of the Combat Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, Air Force Combat Action Medal, Distinguished Flying Cross, or Purple Heart, former Prisoner of War, and service members or veterans of Operation Desert Shield, Desert Storm, Enduring Freedom, and Iraqi Freedom.
[65] Section 320.089(1)(c) and (2)(a), F.S.
[66] Section 320.089(1)(b), F.S.
[67] Section 320.089(1)(c), F.S.

foreign nation. The Bronze Star Medal is awarded to a person who distinguished himself or herself by heroic or meritorious service, not involving participation in aerial flight, in connection with military operations against an armed enemy; or while engaged in military operations involving conflict with an opposing armed force in which the United States is not a belligerent party. Recipients of the Bronze Star Medal must be receiving imminent danger pay while serving in a geographic area authorized for special pay.[68] In order of precedence, the Department of Defense (DoD) places the Bronze Star Medal seventh amongst DoD wide military decorations and awards following the Distinguished Flying Cross and preceding the Purple Heart.[69]

Effect of Proposed Changes

Section 16 creates a special military license plate for recipients of the Bronze Star Medal. The plate will be stamped with the words "Bronze Star" and a likeness of the Bronze Star Medal. To receive a Bronze Star special military license plate, the individual must submit an application for the plate to the DHSMV, provide proof that he or she is a Bronze Star Medal recipient, and pay the appropriate license tax as provided in s. 320.08, F.S. Revenue generated from the sale of the Bronze Star plate is deposited in the Grants and Donations Trust Fund and the State Home for Veterans Trust Fund, both of which are administered by the FDVA.

This section also makes technical changes to s. 320.089, F.S., to provide clarity.

Transporter License Plates (Section 17)

Present Situation

Section 320.133, F.S., allows the DHSMV to issue transporter license plates. Transporter plates are available for an applicant who, incidental to the conduct of the applicant's business, engages in the transporting of unregistered motor vehicles, and who pays a license tax and provides proof of liability insurance coverage of at least $100,000. A transporter plate is valid for 1 year, beginning January 1 to December 31, for a flat license tax of $101.25.[70] To apply for a transporter plate, the business applicant certifies he understands the plate may only be used for motor vehicles in possession of the business that are being transported in the course of the business.[71]

Types of businesses that may require the use of transporter plates include:
- Motor vehicle detail shops;
- Van conversion shops or other shops installing specialized equipment on vehicles;
- Businesses that transport mobile homes and recreational vehicles;
- Licensed repossessors; and
- Businesses that deliver unregistered vehicles (Drive away services).

[68] Department of the Army, *Military* Awards, Army Regulation 600-8-22 (June 25, 2015).
[69] Department of Defense, *Manual of Military Decorations and Awards: DoD Service Awards – Campaign, Expeditionary, and Service Medals*, Manual No. 1348.33, Vol. 2 (May 15, 2015). The order of precedence for military awards varies by branch of service.
[70] Sections 320.08(15) and 320.133(3), F.S.
[71] *See* DHSMV, *Application for Transporter License Plates* (May 2011), *available at* https://www.flhsmv.gov/pdf/forms/83065.pdf (last visited Feb. 10, 2017).

Currently, there are 8,332 transporter license plates issued by the state, and approximately 4,618 businesses and individuals who have these plates issued to them.[72] There is no requirement for the business applying for the plate to prove it is engaged in transporting unregistered vehicles. The DHSMV has discovered businesses are using transporter license plates on company vehicles rather than on vehicles being transported for the business. According to DHSMV, it has little authority under current law to inquire as to whether the license plates are being used appropriately by applicants.[73]

Effect of Proposed Changes

Section 17 makes numerous changes to s. 320.133, F.S., concerning transporter license plates, including defining a "transporter license plate eligible business," requiring additional business information from applicants for transporter licenses, and adding penalties for improper use of transporter license plates.

This section also requires applicants for transporter license plates to provide proof satisfactory to the DHSMV that the business is a "transporter license plate eligible business," which is defined as a business engaged in the limited operation of unregistered motor vehicles or a repossessor who contracts with lending institutions to repossess or recover motor vehicles or mobile homes. Additionally, the application for a transporter license plate must include:

- The legal name of the person or persons applying for the license plate;
- The name of the business, and principal or principals of the business;
- A description of the exact physical location of the place of business within the state;
- Proof of a garage liability insurance policy or a business automobile policy in the amount of $100,000;
- Proof that the business is registered with the Division of Corporations of the Department of State to conduct business in the state; and
- A description of the business processes the business conducts that requires a need for a transporter license plate.

The business certificate of insurance must also indicate the number of transporter license plates reported to the insurance company, which will be the maximum number the DHSMV will issue to the applicant. The applicant is required to maintain such coverage for the entire transporter license plate registration period. The applicant is also required to maintain for two years, records of use for each transporter license plate. Such records must be at the business's location and open to inspection by the DHSMV or any law enforcement agency during reasonable business hours.

This section clarifies that the transporter license plate is only valid for use on an unregistered motor vehicle being transported in the course of the transporter's business and cannot be used on any motor vehicle that would require registration by the business. The DHSMV has authority to cancel any transporter license plate.

Finally, the section adds penalties for the improper use of transporter license plates. Specifically:

[72] DHSMV, *Legislative Package Talking Points* (Jan. 24, 2017) (on file with the Senate Committee on Transportation).
[73] *Id.*

- A person who sells or unlawfully possesses, distributes, or brokers a transporter license plate to be attached to any vehicle commits a second-degree misdemeanor[74], and the plate is subject to removal;
- A person who fails to maintain true and accurate records of transporter license plate usage commits a second-degree misdemeanor[75], all transporter plates issued to the person may be subject to cancellation, and the person is disqualified from future transporter license plate issuance;
- A person who operates a motor vehicle with a transporter license plate attached who fails to provide the registration issued for the transporter license plate and proof of required insurance commits a second-degree misdemeanor[76], and the plate is subject to removal. This penalty does not apply to a person who contracts with dealers and auctions to transport motor vehicles; and
- A person who *knowingly and willfully* sells or unlawfully possesses, distributes, or brokers a transporter plate to avoid registering a vehicle that requires registration commits a first-degree misdemeanor[77], and all transporter plates issued to the person's business are canceled and must be returned to the DHSMV;

FHP Law Enforcement Training Reimbursement (Section 18)

Present Situation

Section 321.25, F.S., authorizes the DHSMV "to provide for the training of law enforcement officials and individuals in matters relating to the duties, functions, and powers of the Florida Highway Patrol…" The DHSMV is authorized to charge a fee for providing authorized training, as well as tuition, lodging, and meals. New FHP troopers receive 28 to 29 weeks of paid Law Enforcement Training at the FHP Training Academy. During this paid training, meals, lodging, equipment, and study materials are provided to FHP Academy trainees at no cost to the trainee.[78] The DHSMV estimates that the cost of training and other course expenses to the DHSMV is approximately $12,386 per trooper trainee.[79]

In Florida, if an officer trainee who attends an approved training program at the expense of an employing agency terminates employment with such agency within two years after graduation from the basic recruit training program, he or she may be required to reimburse the employing agency for the full cost of tuition and other expenses.[80] Section 943.16, F.S., allows an employing agency to institute a civil action to collect these expenses if it is not reimbursed, provided that the trainee signed acknowledgement of this requirement. Trainees are not required to reimburse the employing agency if they resign their law enforcement certification upon terminating employment. Additionally, an employing agency may waive the reimbursement

[74] The second-degree misdemeanor is punishable as provided in ss. 775.082 or 775.083, F.S., which is a definite term of imprisonment not exceeding 60 days or a fine of no more than $500.
[75] *Id.*
[76] *Id.*
[77] The first-degree misdemeanor is punishable as provided in ss. 775.82 or 775.083, which is a definite term of imprisonment not exceeding one year or a fine of no more than $1,000.
[78] FHP, *Be A Trooper- Requirements- Benefits, available at* http://beatrooper.com/requirements/ (last visited Feb. 10, 2017).
[79] Email from the DHSMV (Feb. 17, 2017) (on file with the Senate Committee on Transportation).
[80] Section 943.16, F.S.

requirement in part or in full for a trainee who terminates employment due to hardship or extenuating circumstances.[81]

Since 2012, 86 FHP members terminated employment with the FHP within two years of completing training. According to the DHSMV, the FHP only pursues reimbursement if a trooper leaves within the two years to secure employment with another law enforcement agency.[82] An additional 37 FHP members terminated employment within the third year of completing FHP training.

Effect of Proposed Changes

Section 19 amends s. 321.21, F.S., relating specifically to FHP training, to increase the employment period length to which the reimbursement requirement applies from two years to three years. If an FHP trainee terminates employment with FHP prior to completing three years of service, the DHSMV may require the trainee to reimburse the cost of the FHP training tuition and other course expenses.

The amended section retains that the DHSMV may institute a civil action to collect tuition and other related expenses if it is not reimbursed, provided the trainee signed written acknowledgement of the (3-year) requirement. Additionally, the DHSMV retains authority to waive the reimbursement requirement in part or in full if the trainee terminates employment due to hardship or extenuating circumstances. However, the amendment removes the ability of FHP trainees to resign their law enforcement certification upon termination in order to avoid having to reimburse the DHSMV for the cost of tuition and other course expenses.

"D" Designation on ID card for Persons with PTSD or TBI (Section 21)

Present Situation

DHSMV may issue an identification card to any person who is 5 years of age or older, or any person who has a disability, regardless of age, who applies for a disabled parking permit[83] upon completion of an application and payment of a $25 fee.[84]

Section 320.051(8)(e), F.S., provides that upon request by a person who has a developmental disability, or by a parent or guardian of a child or ward who has a developmental disability, DHSMV issue an identification card exhibiting a capital "D" for the person, child, or ward if the person or the parent or guardian of the child or ward submits:

- Payment of an additional $1 fee; and
- Proof acceptable to DHSMV of a diagnosis by a licensed physician of a developmental disability.[85]

[81] *Id.*
[82] DHSMV, *Legislative Package Talking Points* (Jan. 24, 2017) (on file with the Senate Committee on Transportation).
[83] Disabled parking permits are provided under s. 320.0848, F.S.
[84] Section 322.051, F.S.
[85] Section 393.063(12), F.S., defines "developmental disability" as a disorder or syndrome that is attributable to intellectual disability, cerebral palsy, autism, spina bifida, Down syndrome, Phelan-McDermid syndrome, or Prader-Willi syndrome; that manifests before the age of 18; and that constitutes a substantial handicap that can reasonably be expected to continue indefinitely.

The above provision applies upon implementation of new designs for the driver license and identification card by the DHSMV.[86]

Effect of Proposed Changes

Section 21 amends s. 322.051(8)(e)1., F.S., adding persons with post-traumatic stress disorder (PTSD)[87] or traumatic brain injury (TBI)[88] to those individuals who may receive the "D" designation on his or her identification card. This also applies to a parent or guardian's request for a child or ward.

Truancy Reporting (Section 23)

Present Situation

A minor is not eligible for driving privileges unless he or she[89]:

- Is enrolled in a public school, nonpublic school, or home education and satisfies relevant attendance requirements;
- Has received a high school diploma, a high school equivalency diploma, a special diploma, or a certificate of high school completion;
- Is enrolled in a study course in preparation for the high school equivalency examination and satisfies relevant attendance requirements; or
- Has been issued a certificate of exemption or hardship waiver under.

Subsection 322.091(5), F.S., requires the DHSMV to submit a report quarterly to each school district containing the legal name, sex, date of birth, and social security number of each student whose driving privileges have been suspended under this section.

Effect of Proposed Changes

Section 23 amends subsection 322.091(5), F.S., to remove obsolete language. According to the DHSMV, access to this report is available to school boards electronically on an accessible website.[90] The report via the website is updated in real-time whenever a new student is added.

Tax Collector Fee Distribution (Sections 24 and 26)

Present Situation

In 2010, the Florida Legislature required all driver license issuance services be transferred to tax collectors who are constitutional officers under s. 1(d), Art. VIII of the State Constitution by

[86] Section 3 of Ch. 2016-175, L.O.F.
[87] PTSD is defined as a mental health condition that is triggered by a terrifying event. Symptoms include flashbacks, nightmares and severe anxiety, as well as uncontrollable thoughts about the event. See Mayo Clinic website, http://www.mayoclinic.org/diseases-conditions/post-traumatic-stress-disorder/home/ovc-20308548 (last visited Mar. 23, 2017).
[88] TBI occurs when an external mechanical force causes brain dysfunction; usually from a violent blow or jolt to the head or body. See Mayo Clinic website, http://www.mayoclinic.org/diseases-conditions/traumatic-brain-injury/basics/definition/con-20029302 (last visited Mar. 23, 2017).
[89] Section 322.091, F.S.
[90] Meeting with the DHSMV and Senate Transportation Committee Staff (Jan. 23, 2017).

June 30, 2015.[91] As part of that transfer, tax collectors retain portions of specified fees when processing certain driver license services. Additionally, tax collectors charge a $6.25 service fee for completing driver license services.[92]

Tax collectors are not currently able to retain portions of fees for some services that the tax collectors are regularly performing. For example, an applicant who fails an initial driving knowledge or skills test is required to pay a $10 or $20 fee, respectively, to be issued a subsequent test. These fees are deposited into the Highway Safety Operating Trust Fund (HSOTF), regardless of whether the DHSMV or the tax collectors administered the exam.[93]

Similarly, service fees for license reinstatements collected pursuant to s. 322.21(8), F.S., are deposited into the General Revenue Fund and HSOTF, regardless of whether the reinstatement was conducted by the DHSMV or tax collectors. Of the $45 service fee to reinstate a driver license suspension, $15 is deposited in the General Revenue Fund and $30 in the HSOTF. Of the $75 service fee to reinstate a driver license revocation or CDL disqualification, $35 is deposited in the General Revenue Fund and $40 in the HSOTF.

Effect of Proposed Changes

Sections 24 and 26 amend ss. 322.12 and 322.21 F.S., respectively, to require, for subsequent driver license initial knowledge and skills tests, that the tax collector retain the $10 or $20 fee for administering tests to applicants. The bill also requires the tax collectors to retain a portion of service fees when processing driver license reinstatements. If the reinstatement is processed by the tax collector:

- Of the $45 fee for suspension reinstatement, $15 shall be retained by the tax collector and $15 shall be deposited into the HSOTF; and
- Of the $75 fee for revocation or disqualification reinstatement, $20 shall be retained by the tax collector, $20 shall be deposited into the HSOTF, and $35 shall be deposited into the General Revenue Fund.

Stolen Identification Cards (Section 25)

Present Situation

Section 322.17, F.S., provides that in the event that an instruction permit or driver license is stolen from an individual, upon proof of identity and proof satisfactory to the DHSMV that such permit or license was stolen (generally, with copy of a police report), a replacement permit or license will be issued at no cost to the individual.

Replacement driver licenses and identification cards cost $25. According to the DHSMV, in Fiscal Year 2015-2016, individuals reported approximately 7,123 stolen identification cards to the DHSMV.[94]

[91] Chapter 2010-163, Laws of Florida and s. 322.02(1), F.S.
[92] Section 322.135(1)(c), F.S.
[93] Section 322.12(1), F.S.
[94] DHSMV, *Legislative Package Talking Points* (Jan. 24, 2017) (on file with the Senate Committee on Transportation).

Effect of Proposed Changes

Section 25 amends s. 322.17, F.S., to include that identification cards shall be replaced at no cost to an individual who provides proof of identity and proof satisfactory to the DHSMV that the card was stolen.

Specialty Driver License or Identification Cards (Section 26)

Present Situation

Section 322.1415, F.S., provided authority for DHSMV to issue specialty driver licenses and identification cards recognizing, at a minimum, Florida universities, Florida professional sports teams, and all branches of the United States Armed Forces. Additionally, s. 322.1415(5), F.S. provided that the section was repealed effective August 31, 2016.

The DHSMV is not currently authorized to offer expedited shipping services for renewal or replacement driver licenses or identification cards. The fastest way to receive a renewal or replacement driver license or identification card is to go in-person to a Florida driver license office. However, for individuals out-of-state or who cannot get to a driver license office, renewals and replacement driver licenses or identification cards may be requested using a convenience service[95], including the DHSMV's virtual office[96].

According to the DHSMV, it can take seven to fourteen days to receive a renewal or replacement driver license or identification card after it is ordered from the DHSMV's virtual office.

Effect of Proposed Changes

Section 26 amends s. 322.21, F.S., to remove an obsolete reference to specialty driver license and identification card costs from s. 322.21, F.S.

This section also provides that an applicant for a renewal or replacement driver license or identification card, when using a convenience service, will have the option to request expedited shipping. If the applicant chooses expedited shipping, the DHSMV shall issue the license or identification card within five working days of receiving the application and will ship the license or card using an expedited mail service. The DHSMV may charge a fee for the expedited shipping that does not exceed the cost of the expedited mail service. This shipping fee is in addition to any fee that would have been charged for the license or card, excluding the expedited shipping. The DHSMV shall deposit expedited shipping fees into the Highway Safety Operating Trust Fund.

Amending Cross-References (Sections 28-33)

Sections 28-33 amends numerous cross-references to reflect changes made by the bill.

[95] Section 322.01(10), F.S., defines "convenience service" as "any means whereby an individual conducts a transaction with the department other than in person."
[96] Available at https://services.flhsmv.gov/virtualoffice/Lobby.aspx (last visited Feb. 13, 2017).

Effective Date (Section 34)

This bill takes effect October 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference (REC) reviewed provisions in the bill on March 10, 2017.[97] The REC estimates that replacing stolen identification cards at no charge to a customer (section 10 of the bill) will reduce revenues deposited into the General Revenue Fund by an insignificant amount until Fiscal Years 2020 through 2022. Beginning 2020, the lost revenues of are anticipated to be $100,000 annually.

The REC estimates that allowing local tax collectors to retain fees or portions of fees for administering subsequent driver license examinations or reinstating licenses (sections 9 and 11) will shift approximately $5 million of revenues from the HSOTF and $400,000 of revenues from the General Revenue Fund annually to the local tax collectors.

Additionally, the REC estimates that authorizing expedited shipping fees for driver licenses and identification cards (section 11) will have an indeterminate impact in revenues to the extent that expedited shipping is requested.

B. Private Sector Impact:

The bill may have a positive impact for individuals who are issued a free replacement identification card to replace a stolen card (section 25), as well as CMV operators who may replace a damaged apportioned license plate at no charge (sections 9 and 11). In addition, operators of autocycles (sections 20 and 24) will not be required to obtain a motorcycle license or endorsement license, or to complete a motorcycle safety course and

[97] Office of Economic and Demographic Research, Revenue Estimating Conference, *Highway Safety Fees – HB 545* (Mar. 10, 2017), *available at* http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2017/_pdf/Impact0310.pdf at p. 22-30 (last visited Mar. 15, 2017).

a motorcycle knowledge and skills test currently required to obtain such a license or endorsement.

However, the bill may have a negative impact on individuals or businesses who misuse transporter license plates due to the added penalties for their misuse (section 17)).

The bill will have an indeterminate impact on the CMV industry as a result of changes made to CMV requirements within the bill (sections 1, 5, and 27).

C. Government Sector Impact:

The bill makes changes to address compliance issues with federal laws relating to commercial motor vehicles (sections 1, 5, and 27). According to the DHSMV, if Florida fails to comply with FMCSA compatibility requirements, Florida may experience a reduction of up to four percent of Federal-aid highway funds following the first year of noncompliance and up to eight percent for subsequent years.[98] Noncompliance may also affect the potential award of future grants.

To the extent that FHP troopers terminate employment for employment with another agency between their second and third year of service, the DHSMV may receive reimbursement for training costs from the individual (section 18). The DHSMV estimates that the cost of training and other course expenses to the DHSMV is approximately $12,386 per trooper trainee.[99]

The DHSMV will likely incur programming costs associated with changes made by the bill, as well as production costs to create Bronze Star license plates (section 16) and Purple Heart motorcycle plates (section 15).

The bill is intended to address a broad range of federal compliance, customer service and administrative efficiency issues; however, these changes have various indeterminate impacts to revenues and expenditures and the total fiscal impact of the bill on the government sector is unknown.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 316.003, 316.2397, 316.2398, 316.302, 316.3025, 316.614, 320.01, 320.02, 320.06, 320.0605, 320.0607, 320.08056,

[98] Email from the DHSMV (Feb. 17, 2017) (on file with the Senate Committee on Transportation).
[99] *Id.*

320.08058, 320.08068, 320.089, 320.133, 321.25, 322.01, 322.03, 322.051, 322.08, 322.091, 322.12, 322.17, 322.21, and 322.61.

This bill creates section 320.0875 of the Florida Statutes.

This bill amends the following sections of the Florida Statutes to conform cross-references: 212.05, 316.303, 316.545, 316.613, 320.08, and 655.960.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Transportation on March 22, 2017:
The CS adds several issues to the bill. Specifically, the CS:

- Creates a definition for an autocycle, requires occupants of autocycles to wear safety belts, and exempts drivers of autocycles from being required to have a motorcycle endorsement or motorcycles license, or from completing motorcycle knowledge and skills testing;
- Allows volunteer firefighters to use red and white, in addition to red, warning signals;
- Allows a person driving a rental vehicle who is stopped by a law enforcement officer or agent of the DHSMV to show an electronic copy of a rental agreement;
- Changes references to the organization "Prevent Blindness" to "Preserve Vision";
- Creates a Purple Heart motorcycle special license plate;
- Creates a Bronze Star license plate;
- Removes specialty license plates from statute that have been discontinued by the DHSMV; and
- Allows a person diagnosed with PTSD or TBI to be eligible to receive a "D" designation on his or her ID card.

The CS modifies changes to the bill sections on the Issuance of Apportionable Vehicle Plates. The CS removes language from current law indicating that the cab card denotes the declared gross vehicle weight *for each jurisdiction in which the vehicle is authorized to operate*. The CS also changes that a $28 annual fee is for an original and a renewed validation sticker, instead of for the annual cab card.

B. Amendments:

None.

By the Committee on Transportation; and Senators Gainer and Rouson

596-02740-17 2017784c1

A bill to be entitled

An act relating to the Department of Highway Safety and Motor Vehicles; amending s. 316.003, F.S.; defining the term "autocycle"; redefining the term "motorcycle"; conforming a cross-reference; amending ss. 316.2397 and 316.2398, F.S.; prohibiting vehicles or equipment from showing or displaying red and white lights while being driven or moved; authorizing firefighters to use or display red and white lights under certain circumstances; authorizing active volunteer firefighters to display red and white warning signals under certain circumstances; amending s. 316.302, F.S.; revising provisions relating to federal regulations to which owners and drivers of commercial motor vehicles are subject; terminating the maximum amount of a civil penalty for falsification of information on certain time records; deleting the requirement that a motor carrier maintain documentation of a driver's driving times throughout a duty period if the driver is not released from duty within a specified period; providing an exemption from specified rules and regulations for a person who operates a commercial motor vehicle with a declared gross vehicle weight, gross vehicle weight rating, and gross combined weight rating of less than a specified amount under certain circumstances; amending s. 316.3025, F.S.; conforming provisions to changes made by the act; amending s. 316.614, F.S.; redefining the term "motor vehicle"; prohibiting a person from

596-02740-17 2017784c1

operating an autocycle unless certain safety belt or child restraint device requirements are met; amending s. 320.01, F.S.; redefining the term "apportionable vehicle"; redefining the term "motorcycle"; amending s. 320.02, F.S.; requiring an application form for motor vehicle registration to include language authorizing a voluntary contribution to be distributed to Preserve Vision Florida, rather than to Prevent Blindness Florida; amending s. 320.06, F.S.; providing for future repeal of issuance of a certain annual license plate and cab card to a vehicle that has an apportioned registration; providing requirements, beginning on a specified date, for license plates, cab cards, and validation stickers for vehicles registered in accordance with the International Registration Plan; authorizing a worn or damaged license plate to be replaced at no charge under certain circumstances; amending s. 320.0605, F.S.; authorizing presentation of electronic documentation of certain information to a law enforcement officer or agent of the department; providing construction; providing liability; revising information required in such documentation; amending s. 320.0607, F.S.; providing an exemption, beginning on a specified date, of a certain fee for vehicles registered under the International Registration Plan; amending s. 320.08056, F.S.; deleting the American Red Cross, Donate Organs-Pass It On, St. Johns River, and Hispanic Achievers license plates; conforming cross-references; repealing s. 320.08058(31), (57), (69),

and (70), F.S., relating to the American Red Cross, Donate Organs-Pass It On, St. Johns River, and Hispanic Achievers license plates, respectively; amending s. 320.08068, F.S.; requiring The Able Trust to distribute a specified percentage of annual use fees from motorcycle specialty license plates to Preserve Vision Florida, rather than to Prevent Blindness Florida; creating s. 320.0875, F.S.; providing for a motorcycle special license plate to be issued to a recipient of the Purple Heart; providing requirements for the plate; amending s. 320.089, F.S.; providing for a special license plate to be issued to a recipient of the Bronze Star; making technical changes; amending s. 320.133, F.S.; defining the term "transporter license plate eligible business"; providing that a person is not eligible to purchase or renew a transporter license plate unless he or she provides certain proof that his or her business is a transporter license plate eligible business; providing application and insurance requirements for qualification as a transporter license plate eligible business; authorizing the department to issue a transporter license plate to an applicant who is not a licensed dealer and is qualified as a transporter license plate eligible business, under certain circumstances; providing that a transporter license plate is valid only for use on an unregistered motor vehicle in the possession of the transporter, subject to certain requirements; providing a criminal penalty

for a person who sells or unlawfully possesses, distributes, or brokers a transporter license plate to be attached to any vehicle; providing that transporter license plates are subject to cancellation by the department; providing a criminal penalty and disqualification from transporter license plate usage for a person who knowingly and willfully sells or unlawfully possesses, distributes, or brokers a transporter license plate to avoid registering a vehicle requiring registration, subject to certain requirements; providing recordkeeping requirements for a transporter license plate eligible business; providing a criminal penalty, cancellation of transporter license plates, and disqualification from future issuance of the plates for a violation of such recordkeeping requirements; requiring a transporter license plate issued under this section to be accompanied by registration and proof of insurance when attached to a motor vehicle; providing a criminal penalty and removal of the license plate for a person who fails to provide such documentation; providing an exemption to persons who contract with dealers and auctions to transport motor vehicles; conforming provisions to changes made by the act; providing that an initial registration or renewal issued under this section is valid for a specified period; requiring a license plate attached to a motor vehicle in violation of specified provision to be removed by a law enforcement officer and surrendered to the department

by the law enforcement agency for cancellation; amending s. 321.25, F.S.; providing for reimbursement to the department of tuition and other course expenses for certain training under certain circumstances; defining the term "other course expenses"; authorizing the department to institute a civil action under certain circumstances; authorizing the department to waive a person's requirement of reimbursement when the person terminates employment due to hardship or extenuating circumstances; amending s. 322.01, F.S.; conforming provisions to changes made by the act; amending s. 322.03, F.S.; authorizing a person to operate an autocycle without a motorcycle endorsement; amending s. 322.051, F.S.; revising eligibility for a "D" designation on an identification card to include posttraumatic stress disorder or traumatic brain injury; amending s. 322.08, F.S.; requiring an application form for an original, renewal, or replacement driver license or identification card to include language authorizing a voluntary contribution to Preserve Vision Florida, rather than to Prevent Blindness Florida; amending s. 322.091, F.S.; requiring the department to make available, upon request, a report to each school district of certain information for each student whose driving privileges have been suspended under this section; amending s. 322.12, F.S.; requiring the tax collector to retain specified fees if a subsequent knowledge or skills test is administered by the tax collector; exempting

the operation of an autocycle from certain examination requirements for licenses to operate motorcycles; amending s. 322.17, F.S.; providing for replacement of a stolen identification card at no charge, subject to certain requirements; amending s. 322.21, F.S.; deleting obsolete provisions; deleting a fee for certain specialty driver licenses or identification cards; providing disposition of specified fees for reinstatement of a driver license following a suspension, revocation, or disqualification when the reinstatement is processed by the department or the tax collector; requiring an applicant who submits an application for a renewal or replacement driver license or identification card to the department using a convenience service to be provided with an option for expedited shipping, subject to certain requirements; requiring a fee to be charged for the expedited shipping option, subject to certain requirements; providing for disposition of such fee; amending s. 322.61, F.S.; adding violations for texting or using a handheld mobile telephone while driving a commercial motor vehicle as specified offenses that, in certain circumstances, result in disqualification from operating a commercial motor vehicle for a specified period; amending ss. 212.05, 316.303, 316.545, 316.613, 320.08, and 655.960, F.S.; conforming cross-references; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (2) through (97) of section 316.003, Florida Statutes, are redesignated as subsections (3) through (98), respectively, a new subsection (2) is added to that section, and present subsections (41) and (55) of that section are amended, to read:

316.003 Definitions.—The following words and phrases, when used in this chapter, shall have the meanings respectively ascribed to them in this section, except where the context otherwise requires:

(2) AUTOCYCLE.—A three-wheel motorcycle that has two wheels in the front and one wheel in the back, is equipped with a roll cage or roll hoops, safety belts for each occupant, antilock brakes, a steering wheel, and seating that does not require the operator to straddle or sit astride it and is manufactured by a National Highway Traffic Safety Administration registered manufacturer in accordance with the applicable federal motorcycle safety standards under 49 C.F.R. part 571.

(42) ~~(41)~~ MOTORCYCLE.—Any motor vehicle that has ~~having~~ a seat or saddle for the use of the rider which is ~~and~~ designed to travel on not more than three wheels in contact with the ground, including an autocycle. The term does not include a tractor, a moped, or a vehicle in which the operator is enclosed by a cabin unless the vehicle meets the requirements set forth by the National Highway Traffic Safety Administration for a motorcycle ~~but excluding a tractor or a moped~~.

(56) ~~(55)~~ PRIVATE ROAD OR DRIVEWAY.—Except as otherwise provided in paragraph (78)(b) ~~(77)(b)~~, any privately owned way

or place used for vehicular travel by the owner and those having express or implied permission from the owner, but not by other persons.

Section 2. Subsections (1) and (3) of section 316.2397, Florida Statutes, are amended to read:

316.2397 Certain lights prohibited; exceptions.—

(1) A ~~No~~ person may not ~~shall~~ drive or move or cause to be moved any vehicle or equipment upon any highway within this state with a ~~any~~ lamp or device thereon showing or displaying a red, red and white, or blue light visible from directly in front thereof except for certain vehicles ~~hereinafter~~ provided in this section.

(3) Vehicles of the fire department and fire patrol, including vehicles of volunteer firefighters as permitted under s. 316.2398, may show or display red, or red and white, lights. Vehicles of medical staff physicians or technicians of medical facilities licensed by the state as authorized under s. 316.2398, ambulances as authorized under this chapter, and buses and taxicabs as authorized under s. 316.2399 may show or display red lights. Vehicles of the fire department, fire patrol, police vehicles, and such ambulances and emergency vehicles of municipal and county departments, public service corporations operated by private corporations, the Fish and Wildlife Conservation Commission, the Department of Environmental Protection, the Department of Transportation, the Department of Agriculture and Consumer Services, and the Department of Corrections as are designated or authorized by their respective department or the chief of police of an incorporated city or any sheriff of any county may operate emergency lights and sirens in

an emergency. Wreckers, mosquito control fog and spray vehicles, and emergency vehicles of governmental departments or public service corporations may show or display amber lights when in actual operation or when a hazard exists provided they are not used going to and from the scene of operation or hazard without specific authorization of a law enforcement officer or law enforcement agency. Wreckers must use amber rotating or flashing lights while performing recoveries and loading on the roadside day or night, and may use such lights while towing a vehicle on wheel lifts, slings, or under reach if the operator of the wrecker deems such lights necessary. A flatbed, car carrier, or rollback may not use amber rotating or flashing lights when hauling a vehicle on the bed unless it creates a hazard to other motorists because of protruding objects. Further, escort vehicles may show or display amber lights when in the actual process of escorting overdimensioned equipment, material, or buildings as authorized by law. Vehicles owned or leased by private security agencies may show or display green and amber lights, with either color being no greater than 50 percent of the lights displayed, while the security personnel are engaged in security duties on private or public property.

Section 3. Section 316.2398, Florida Statutes, is amended to read:

316.2398 Display or use of red, or red and white, warning signals; motor vehicles of volunteer firefighters or medical staff.—

(1) A privately owned vehicle belonging to an active firefighter member of a regularly organized volunteer firefighting company or association, while en route to the fire

station for the purpose of proceeding to the scene of a fire or other emergency or while en route to the scene of a fire or other emergency in the line of duty as an active firefighter member of a regularly organized firefighting company or association, may display or use red, or red and white, warning signals. ~~or~~ A privately owned vehicle belonging to a medical staff physician or technician of a medical facility licensed by the state, while responding to an emergency in the line of duty, may display or use red warning signals. Warning signals must be visible from the front and from the rear of such vehicle, subject to the following restrictions and conditions:

(a) No more than two red, or red and white, warning signals may be displayed.

(b) No inscription of any kind may appear across the face of the lens of the red, or red and white, warning signal.

(c) In order for an active volunteer firefighter to display such red, or red and white, warning signals on his or her vehicle, the volunteer firefighter must first secure a written permit from the chief executive officers of the firefighting organization to use the red, or red and white, warning signals, and this permit must be carried by the volunteer firefighter at all times while the red, or red and white, warning signals are displayed.

(2) A ~~It is unlawful for any~~ person who is not an active firefighter member of a regularly organized volunteer firefighting company or association or a physician or technician of the medical staff of a medical facility licensed by the state may not ~~to~~ display on any motor vehicle owned by him or her, at any time, any red, or red and white, warning signals as

described in subsection (1).

(3) ~~It is unlawful for~~ An active volunteer firefighter may not ~~to~~ operate any red, or red and white, warning signals as authorized in subsection (1), except while en route to the fire station for the purpose of proceeding to the scene of a fire or other emergency, or while at or en route to the scene of a fire or other emergency, in the line of duty.

(4) ~~It is unlawful for~~ A physician or technician of the medical staff of a medical facility may not ~~to~~ operate any red warning signals as authorized in subsection (1), except when responding to an emergency in the line of duty.

(5) A violation of this section is a nonmoving violation, punishable as provided in chapter 318. In addition, a ~~any~~ volunteer firefighter who violates this section shall be dismissed from membership in the firefighting organization by the chief executive officers thereof.

Section 4. Subsection (1) and paragraphs (a), (c), (d), and (f) of subsection (2) of section 316.302, Florida Statutes, are amended to read:

316.302 Commercial motor vehicles; safety regulations; transporters and shippers of hazardous materials; enforcement.—

(1) Except as otherwise provided in subsection (3):

(a) All owners and drivers of commercial motor vehicles that are operated on the public highways of this state while engaged in interstate commerce are subject to the rules and regulations contained in 49 C.F.R. parts 382, 385, and 390-397.

(b) Except as otherwise provided in this section, all owners or drivers of commercial motor vehicles that are engaged in intrastate commerce are subject to the rules and regulations

contained in 49 C.F.R. parts 382, 383, 385, and 390-397~~, with the exception of 49 C.F.R. s. 390.5 as it relates to the definition of bus,~~ as such rules and regulations existed on December 31, 2016 ~~2012~~.

(c) The emergency exceptions provided by 49 C.F.R. s. 392.82 also apply to communications by utility drivers and utility contractor drivers during a Level 1 activation of the State Emergency Operations Center, as provided in the Florida Comprehensive Emergency Management plan, or during a state of emergency declared by executive order or proclamation of the Governor.

(d) Except as provided in ~~s. 316.215(5), and except as provided in~~ s. 316.228 for rear overhang lighting and flagging requirements for intrastate operations, the requirements of this section supersede all other safety requirements of this chapter for commercial motor vehicles.

(2)(a) A person who operates a commercial motor vehicle solely in intrastate commerce not transporting any hazardous material in amounts that require placarding pursuant to 49 C.F.R. part 172 need not comply with 49 C.F.R. ss. 391.11(b)(1) and 395.3 ~~395.3(a) and (b)~~.

(c) Except as provided in 49 C.F.R. s. 395.1, a person who operates a commercial motor vehicle solely in intrastate commerce not transporting any hazardous material in amounts that require placarding pursuant to 49 C.F.R. part 172 may not drive after having been on duty more than 70 hours in any period of 7 consecutive days or more than 80 hours in any period of 8 consecutive days if the motor carrier operates every day of the week. Thirty-four consecutive hours off duty shall constitute

the end of any such period of 7 or 8 consecutive days. This weekly limit does not apply to a person who operates a commercial motor vehicle solely within this state while transporting, during harvest periods, any unprocessed agricultural products or unprocessed food or fiber that is subject to seasonal harvesting from place of harvest to the first place of processing or storage or from place of harvest directly to market or while transporting livestock, livestock feed, or farm supplies directly related to growing or harvesting agricultural products. Upon request of the Department of Highway Safety and Motor Vehicles, motor carriers shall furnish time records or other written verification to that department so that the Department of Highway Safety and Motor Vehicles can determine compliance with this subsection. These time records must be furnished to the Department of Highway Safety and Motor Vehicles within 2 days after receipt of that department's request. Falsification of such information is subject to a civil penalty ~~not to exceed $100~~. ~~The provisions of~~ This paragraph does ~~do~~ not apply to operators of farm labor vehicles operated during a state of emergency declared by the Governor or operated pursuant to s. 570.07(21)~~,~~ and does ~~do~~ not apply to drivers of utility service vehicles as defined in 49 C.F.R. s. 395.2.

(d) A person who operates a commercial motor vehicle solely in intrastate commerce not transporting any hazardous material in amounts that require placarding pursuant to 49 C.F.R. part 172 within a 150 air-mile radius of the location where the vehicle is based need not comply with 49 C.F.R. s. 395.8~~,~~ if the requirements of 49 C.F.R. s. 395.1(e)(1)(ii), (e)(1)(iii)(A) and (C), ~~395.1(e)(1)(iii)~~ and (e)(1)(v) are met. ~~If a driver is not released from duty within 12 hours after the driver arrives for duty, the motor carrier must maintain documentation of the driver's driving times throughout the duty period.~~

(f) A person who operates a commercial motor vehicle having a ~~declared~~ gross vehicle weight, gross vehicle weight rating, and gross combined weight rating of less than 26,001 pounds solely in intrastate commerce and who is not transporting hazardous materials in amounts that require placarding pursuant to 49 C.F.R. part 172~~, or who is transporting petroleum products as defined in s. 376.301,~~ is exempt from subsection (1). However, such person must comply with 49 C.F.R. parts 382, 392, and 393~~,~~ and with 49 C.F.R. ss. 396.3(a)(1) and 396.9.

Section 5. Paragraph (a) of subsection (6) of section 316.3025, Florida Statutes, is amended to read:

316.3025 Penalties.—

(6)(a) A driver who violates 49 C.F.R. s. 392.80, which prohibits texting while operating a commercial motor vehicle, or 49 C.F.R. s. 392.82, which prohibits using a handheld mobile telephone while operating a commercial motor vehicle, may be assessed a civil penalty ~~and commercial driver license disqualification~~ as follows:

1. First violation: $500.

2. Second violation: $1,000 ~~and a 60-day commercial driver license disqualification pursuant to 49 C.F.R. part 383~~.

3. Third and subsequent violations: $2,750 ~~and a 120-day commercial driver license disqualification pursuant to 49 C.F.R. part 383~~.

Section 6. Paragraph (a) of subsection (3) and subsections (4) and (5) of section 316.614, Florida Statutes, are amended to

read:

316.614 Safety belt usage.—

(3) As used in this section:

(a) "Motor vehicle" means a motor vehicle as defined in s. 316.003 which is operated on the roadways, streets, and highways of this state. The term does not include:

1. A school bus.

2. A bus used for the transportation of persons for compensation.

3. A farm tractor or implement of husbandry.

4. A truck having a gross vehicle weight rating of more than 26,000 pounds.

5. A motorcycle, excluding an autocycle for purposes of subsections (4) and (5), moped, or bicycle.

(4) It is unlawful for any person:

(a) To operate a motor vehicle or an autocycle in this state unless each passenger and the operator of the vehicle under the age of 18 years are restrained by a safety belt or by a child restraint device pursuant to s. 316.613, if applicable; or

(b) To operate a motor vehicle or an autocycle in this state unless the person is restrained by a safety belt.

(5) It is unlawful for any person 18 years of age or older to be a passenger in the front seat of a motor vehicle or an autocycle unless such person is restrained by a safety belt when the vehicle is in motion.

Section 7. Subsections (24) and (26) of section 320.01, Florida Statutes, are amended to read:

320.01 Definitions, general.—As used in the Florida

Statutes, except as otherwise provided, the term:

(24) "Apportionable vehicle" means any vehicle, except recreational vehicles, vehicles displaying restricted plates, city pickup and delivery vehicles, ~~buses used in transportation of chartered parties,~~ and government-owned vehicles, which is used or intended for use in two or more member jurisdictions that allocate or proportionally register vehicles and which is used for the transportation of persons for hire or is designed, used, or maintained primarily for the transportation of property and:

(a) Is a power unit having a gross vehicle weight in excess of 26,000 pounds;

(b) Is a power unit having three or more axles, regardless of weight; or

(c) Is used in combination, when the weight of such combination exceeds 26,000 pounds gross vehicle weight.

Vehicles, or combinations thereof, having a gross vehicle weight of 26,000 pounds or less and two-axle vehicles may be proportionally registered.

(26) "Motorcycle" means any motor vehicle having a seat or saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, including an autocycle. The term does not include a tractor, a moped, or ~~excluding~~ a vehicle in which the operator is enclosed by a cabin unless the vehicle ~~it~~ meets the requirements set forth by the National Highway Traffic Safety Administration for a motorcycle. ~~The term "motorcycle" does not include a tractor or a moped.~~

Section 8. Paragraph (a) of subsection (15) of section

320.02, Florida Statutes, is amended to read:

320.02 Registration required; application for registration; forms.—

(15)(a) The application form for motor vehicle registration must ~~shall~~ include language permitting the voluntary contribution of $1 per applicant, to be quarterly distributed by the department to Preserve Vision ~~Prevent Blindness~~ Florida, a not-for-profit organization, to prevent blindness and preserve the sight of the residents of this state. A statement providing an explanation of the purpose of the funds shall be included with the application form. Prior to the department distributing the funds collected pursuant to this paragraph, Preserve Vision ~~Prevent Blindness~~ Florida must submit a report to the department that identifies how such funds were used during the preceding year.

For the purpose of applying the service charge provided in s. 215.20, contributions received under this subsection are not income of a revenue nature.

Section 9. Paragraph (b) of subsection (1) of section 320.06, Florida Statutes, is amended to read:

320.06 Registration certificates, license plates, and validation stickers generally.—

(1)

(b)1. Registration license plates bearing a graphic symbol and the alphanumeric system of identification shall be issued for a 10-year period. At the end of the 10-year period, upon renewal, the plate shall be replaced. The department shall extend the scheduled license plate replacement date from a 6-

year period to a 10-year period. The fee for such replacement is $28, $2.80 of which shall be paid each year before the plate is replaced, to be credited toward the next $28 replacement fee. The fees shall be deposited into the Highway Safety Operating Trust Fund. A credit or refund may not be given for any prior years' payments of the prorated replacement fee if the plate is replaced or surrendered before the end of the 10-year period, except that a credit may be given if a registrant is required by the department to replace a license plate under s. 320.08056(8)(a). With each license plate, a validation sticker shall be issued showing the owner's birth month, license plate number, and the year of expiration or the appropriate renewal period if the owner is not a natural person. The validation sticker shall be placed on the upper right corner of the license plate. The license plate and validation sticker shall be issued based on the applicant's appropriate renewal period. The registration period is 12 months, the extended registration period is 24 months, and all expirations occur based on the applicant's appropriate registration period.

2. A vehicle that has an apportioned registration shall be issued an annual license plate and a cab card denoting ~~that denote~~ the declared gross vehicle weight ~~for each apportioned jurisdiction in which the vehicle is authorized to operate~~. This subparagraph expires October 1, 2018.

3. Beginning October 1, 2018, a vehicle registered in accordance with the International Registration Plan which has an apportioned registration shall be issued a license plate for a 5-year period, an annual cab card denoting the declared gross vehicle weight, and an annual validation sticker showing the

month and year of expiration. The validation sticker shall be placed in the center of the license plate. The license plate and validation sticker shall be issued based on the applicant's appropriate renewal period. The registration period is 12 months. The fee for an original and a renewed validation sticker is $28. This fee shall be deposited into the Highway Safety Operating Trust Fund. If the license plate is damaged or worn, it may be replaced at no charge by applying to the department and surrendering the current license plate.

4.~~2.~~ In order to retain the efficient administration of the taxes and fees imposed by this chapter, the 80-cent fee increase in the replacement fee imposed by chapter 2009-71, Laws of Florida, is negated as provided in s. 320.0804.

Section 10. Section 320.0605, Florida Statutes, is amended to read:

320.0605 Certificate of registration; possession required; exception.—

(1)(a) The registration certificate or an official copy thereof, a true copy or electronic copy of rental or lease documentation issued for a motor vehicle or issued for a replacement vehicle in the same registration period, a temporary receipt printed upon self-initiated electronic renewal of a registration via the Internet, or a cab card issued for a vehicle registered under the International Registration Plan shall, at all times while the vehicle is being used or operated on the roads of this state, be in the possession of the operator thereof or be carried in the vehicle for which issued and shall be exhibited upon demand of any authorized law enforcement officer or any agent of the department, except for a vehicle

registered under s. 320.0657. ~~The provisions of~~ This section does ~~do~~ not apply during the first 30 days after purchase of a replacement vehicle. A violation of this section is a noncriminal traffic infraction, punishable as a nonmoving violation as provided in chapter 318.

(b)1. The act of presenting to a law enforcement officer or agent of the department an electronic device displaying an electronic copy of rental or lease documentation does not constitute consent for the officer or agent to access any information on the device other than the displayed rental or lease documentation.

2. The person who presents the device to the officer or agent assumes the liability for any resulting damage to the device.

(2) Rental or lease documentation that is sufficient to satisfy the requirement in subsection (1) includes the following:

(a) Date ~~of rental~~ and time of ~~exit from~~ rental ~~facility~~;

(b) Rental station identification;

(c) Rental agreement number;

(d) Rental vehicle identification number;

(e) Rental vehicle license plate number and state of registration;

(f) Vehicle's make, model, and color;

(g) Vehicle's mileage; and

(h) Authorized renter's name.

Section 11. Subsection (5) of section 320.0607, Florida Statutes, is amended to read:

320.0607 Replacement license plates, validation decal, or

mobile home sticker.—

(5) Upon the issuance of an original license plate, the applicant shall pay a fee of $28 to be deposited in the Highway Safety Operating Trust Fund. Beginning October 1, 2018, this subsection does not apply to a vehicle registered under the International Registration Plan.

Section 12. Paragraphs (ee), (eee), (qqq), and (rrr) of subsection (4) and paragraph (a) of subsection (10) of section 320.08056, Florida Statutes, are amended to read:

320.08056 Specialty license plates.—

(4) The following license plate annual use fees shall be collected for the appropriate specialty license plates:

~~(ee) American Red Cross license plate, $25.~~

~~(eee) Donate Organs-Pass It On license plate, $25.~~

~~(qqq) St. Johns River license plate, $25.~~

~~(rrr) Hispanic Achievers license plate, $25.~~

(10)(a) A specialty license plate annual use fee collected and distributed under this chapter, or any interest earned from those fees, may not be used for commercial or for-profit activities nor for general or administrative expenses, except as authorized by s. 320.08058 or to pay the cost of the audit or report required by s. 320.08062(1). The fees and any interest earned from the fees may be expended only for use in this state unless the annual use fee is derived from the sale of United States Armed Forces and veterans-related specialty license plates pursuant to paragraphs (4)(d), (bb), (kk), (iii), and (uuu) ~~(ll), (kkk), and (yyy)~~ and s. 320.0891.

Section 13. Subsections (31), (57), (69), and (70) of section 320.08058, Florida Statutes, are repealed.

Section 14. Paragraph (b) of subsection (4) of section 320.08068, Florida Statutes, is amended to read:

320.08068 Motorcycle specialty license plates.—

(4) A license plate annual use fee of $20 shall be collected for each motorcycle specialty license plate. Annual use fees shall be distributed to The Able Trust as custodial agent. The Able Trust may retain a maximum of 10 percent of the proceeds from the sale of the license plate for administrative costs. The Able Trust shall distribute the remaining funds as follows:

(b) Twenty percent to Preserve Vision ~~Prevent Blindness~~ Florida.

Section 15. Section 320.0875, Florida Statutes, is created to read:

320.0875 Purple Heart motorcycle special license plate.—

(1) Upon application to the department and payment of the license tax for the motorcycle as provided in s. 320.08, a resident of this state who owns or leases a motorcycle that is not used for hire or commercial use shall be issued a Purple Heart motorcycle special license plate if he or she provides documentation acceptable to the department that he or she is a recipient of the Purple Heart medal.

(2) The Purple Heart motorcycle special license plate shall be stamped with the words "Combat-wounded Veteran" followed by the serial number of the license plate. The Purple Heart motorcycle special license plate may have the term "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate.

Section 16. Paragraph (a) of subsection (1) of section

320.089, Florida Statutes, is amended to read:

320.089 ~~Veterans of the United States Armed Forces; members of National Guard; survivors of Pearl Harbor; Purple Heart medal recipients; active or retired United States Armed Forces reservists; Combat Infantry Badge, Combat Medical Badge, or Combat Action Badge recipients; Combat Action Ribbon recipients; Air Force Combat Action Medal recipients; Distinguished Flying Cross recipients; former prisoners of war; Korean War Veterans; Vietnam War Veterans; Operation Desert Shield Veterans; Operation Desert Storm Veterans; Operation Enduring Freedom Veterans; Operation Iraqi Freedom Veterans; Women Veterans; World War II Veterans; and Navy Submariners;~~ Special license plates for military servicemembers, veterans, and Pearl Harbor survivors~~; fee~~.—

(1)(a) Upon application to the department and payment of the license tax for the vehicle as provided in s. 320.08, a resident of this state who owns or leases ~~Each owner or lessee of~~ an automobile or truck for private use or recreational vehicle as specified in s. 320.08(9)(c) or (d), which is not used for hire or commercial use, shall be issued a license plate pursuant to the following if the applicant provides the department with proof he or she meets the qualifications listed in this section for the applicable license plate:

1. A person released or discharged from any branch ~~who is a resident of the state and a veteran~~ of the United States Armed Forces shall be issued a license plate stamped with the words "Veteran" or "Woman Veteran" followed by the serial number of the license plate.~~, a Woman Veteran,~~

2. A World War II Veteran shall be issued a license plate

stamped with the words "WWII Veteran" followed by the serial number of the license plate.~~,~~

3. A Navy Submariner shall be issued a license plate stamped with the words "Navy Submariner" followed by the serial number of the license plate.~~,~~

4. An active or retired member of the Florida National Guard shall be issued a license plate stamped with the words "National Guard" followed by the serial number of the license plate.

5. A member of the Pearl Harbor Survivors Association or other person on active military duty in Pearl Harbor on December 7, 1941, shall be issued a license plate stamped with the words "Pearl Harbor Survivor" followed by the serial number of the license plate.~~, a survivor of the attack on Pearl Harbor,~~

6. A recipient of the Purple Heart medal shall be issued a license plate stamped with the words "Combat-wounded Veteran" followed by the serial number of the license plate. The Purple Heart plate may have the words "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate.~~,~~

7. An active or retired member of any branch of the United States Armed Forces Reserve shall be issued a license plate stamped with the words "U.S. Reserve" followed by the serial number of the license plate.

8. A member of the Combat Infantrymen's Association, Inc., or a recipient of the Combat Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, or Air Force Combat Action Medal shall be issued a license plate stamped with the words "Combat Infantry Badge," "Combat Medical Badge,"

"Combat Action Badge," "Combat Action Ribbon," or "Air Force Combat Action Medal," as appropriate, and a likeness of the related campaign badge, ribbon, or medal, followed by the serial number of the license plate.

9. A recipient of the~~, or~~ Distinguished Flying Cross shall be issued a license plate stamped with the words "Distinguished Flying Cross" and a likeness of the Distinguished Flying Cross followed by the serial number of the license plate.

10. A recipient of the Bronze Star shall be issued a license plate stamped with the words "Bronze Star" and a likeness of the Bronze Star followed by the serial number of the license plate~~, upon application to the department, accompanied by proof of release or discharge from any branch of the United States Armed Forces, proof of active membership or retired status in the Florida National Guard, proof of membership in the Pearl Harbor Survivors Association or proof of active military duty in Pearl Harbor on December 7, 1941, proof of being a Purple Heart medal recipient, proof of active or retired membership in any branch of the United States Armed Forces Reserve, or proof of membership in the Combat Infantrymen's Association, Inc., proof of being a recipient of the Combat Infantry Badge, Combat Medical Badge, Combat Action Badge, Combat Action Ribbon, Air Force Combat Action Medal, or Distinguished Flying Cross, and upon payment of the license tax for the vehicle as provided in s. 320.08, shall be issued a license plate as provided by s. 320.06 which, in lieu of the serial numbers prescribed by s. 320.06, is stamped with the words "Veteran," "Woman Veteran," "WWII Veteran," "Navy Submariner," "National Guard," "Pearl Harbor Survivor," "Combat-~~

~~wounded veteran," "U.S. Reserve," "Combat Infantry Badge," "Combat Medical Badge," "Combat Action Badge," "Combat Action Ribbon," "Air Force Combat Action Medal," or "Distinguished Flying Cross," as appropriate, and a likeness of the related campaign medal or badge, followed by the serial number of the license plate. Additionally, the Purple Heart plate may have the words "Purple Heart" stamped on the plate and the likeness of the Purple Heart medal appearing on the plate~~.

Section 17. Section 320.133, Florida Statutes, is amended to read:

320.133 Transporter license plates.—

(1) As used in this section, the term "transporter license plate eligible business" means a business that is engaged in the limited operation of an unregistered motor vehicle, or a repossessor that contracts with lending institutions to repossess or recover motor vehicles or mobile homes.

(2) A person is not eligible to purchase or renew a transporter license plate unless he or she provides proof satisfactory to the department that his or her business is a transporter license plate eligible business.

(3) The application for qualification as a transporter license plate eligible business must be in such form as is prescribed by the department and must contain the legal name of the person or persons applying for the license plate, the name of the business, and the principal or principals of the business. The application must describe the exact physical location of the place of business within the state. This location must be available at all reasonable hours for inspection of the transporter license plate records by the

department or any law enforcement agency. The application must contain proof of a garage liability insurance policy, or a business automobile policy, in the amount of at least $100,000. The certificate of insurance must indicate the number of transporter license plates reported to the insurance company. Such coverage shall be maintained for the entire registration period. Upon seeking initial qualification, the applicant must provide documentation proving that the business is registered with the Division of Corporations of the Department of State to conduct business in this state. The business must indicate how it meets the qualification as a transporter license plate eligible business by describing in detail the business processes that require the use of a transporter license plate.

(4)(a) ~~(1)~~ The department may ~~is authorized to~~ issue a transporter license plate to an ~~any~~ applicant who is not a licensed dealer and who is qualified as a transporter license plate eligible business~~, incidental to the conduct of his or her business, engages in the transporting of motor vehicles which are not currently registered to any owner and which do not have license plates,~~ upon payment of the license tax imposed by s. 320.08(15) for each transporter ~~such~~ license plate and upon proof of ~~liability~~ insurance as described in subsection (3) ~~coverage in the amount of $100,000 or more~~. The proof of insurance must indicate the number of transporter license plates reported to the insurance company, which shall be the maximum number of transporter license plates issued to the applicant. ~~Such~~ A transporter license plate is valid only for use on an unregistered ~~any~~ motor vehicle in the possession of the transporter while the motor vehicle is being transported in the

course of the transporter's business and must not be attached to any vehicle owned by the transporter or his or her business for which registration would otherwise be required. A person who sells or unlawfully possesses, distributes, or brokers a transporter license plate to be attached to any vehicle commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083. Any and all transporter license plates issued are subject to cancellation by the department.

(b) A person who knowingly and willfully sells or unlawfully possesses, distributes, or brokers a transporter license plate to avoid registering a vehicle requiring registration pursuant to this chapter or chapter 319 commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, and is disqualified from transporter license plate usage. All transporter license plates issued to the person's business shall be canceled and must be returned to the department immediately upon disqualification. The transporter license plate is subject to removal as provided in subsection (9), and any and all transporter plates issued are subject to cancellation by the department.

(5) A transporter license plate eligible business issued a transporter license plate must maintain for 2 years, at its location, records of each use of each transporter license plate and evidence that the plate was used as required by this chapter. Such records must be open to inspection by the department or its agents or any law enforcement officer during reasonable business hours. A person who fails to maintain true and accurate records of any transporter license plate usage or comply with this subsection commits a misdemeanor of the second

degree, punishable as provided in s. 775.082 or s. 775.083, may be subject to cancellation of any and all transporter license plates issued, and is automatically disqualified from future transporter license plate issuance.

(6) When attached to a motor vehicle, a transporter license plate issued under this section must be accompanied by the registration issued for the transporter license plate by the department and proof of insurance as described in subsection (3). A person who operates a motor vehicle with a transporter license plate attached who fails to provide the documentation listed in this subsection commits a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, and the transporter license plate is subject to removal as provided in subsection (9). This subsection does not apply to a person who contracts with dealers and auctions to transport motor vehicles.

(7) ~~(2)~~ A transporter license plate issued pursuant to subsection (4) ~~(1)~~ must be in a distinctive color approved by the department, and the word "transporter" must appear on the face of the license plate in place of the county name.

(8) ~~(3)~~ An initial registration or renewal ~~A license plate~~ issued under this section is valid for ~~a period of~~ 12 months, beginning January 1 and ending December 31. A ~~No~~ refund of the license tax imposed may not be provided for any unexpired portion of a license period.

(9) A transporter license plate attached to a motor vehicle in violation of subsection (4) or subsection (6) must be immediately removed by a law enforcement officer from the motor vehicle to which it was attached and surrendered to the

department by the law enforcement agency for cancellation.

Section 18. Section 321.25, Florida Statutes, is amended to read:

321.25 Training provided at patrol schools; reimbursement of tuition and other course expenses.—

(1) The Department of Highway Safety and Motor Vehicles may ~~is authorized to~~ provide for the training of law enforcement officials and individuals in matters relating to the duties, functions, and powers of the Florida Highway Patrol in the schools established by the department for the training of highway patrol candidates and officers. The Department of Highway Safety and Motor Vehicles may ~~is authorized to~~ charge a fee for providing the training authorized by this section. The fee shall be charged to persons attending the training. The fee shall be based on the Department of Highway Safety and Motor Vehicles' costs for providing the training, and such costs may include, but are not limited to, tuition, lodging, and meals. Revenues from the fees shall be used to offset the Department of Highway Safety and Motor Vehicles' costs for providing the training. The cost of training local enforcement officers shall be paid for by their respective offices, counties, or municipalities, as the case may be. Such cost shall be deemed a proper county or municipal expense or a proper expenditure of the office of sheriff.

(2) Notwithstanding s. 943.16, a person who attends training under subsection (1) at the expense of the Department of Highway Safety and Motor Vehicles must remain in the employment or appointment of the Florida Highway Patrol for at least 3 years. Once employed, if the person fails to remain

employed by the Florida Highway Patrol for at least 3 years from the first date of employment, the person must pay the cost of tuition and other course expenses to the Department of Highway Safety and Motor Vehicles. As used in this section, the term "other course expenses" may include the cost of meals and lodging.

(3) The Department of Highway Safety and Motor Vehicles may institute a civil action to collect the cost of tuition and other course expenses if it is not reimbursed pursuant to subsection (2), provided that the Florida Highway Patrol gave written notification to the person of the 3-year employment commitment during the employment screening process and the person returned signed acknowledgment of receipt of such notification.

(4) Notwithstanding any other provision of this section, the Department of Highway Safety and Motor Vehicles may waive a person's requirement of reimbursement in part or in full when the person terminates employment due to hardship or extenuating circumstances.

Section 19. Subsection (4) of section 322.01, Florida Statutes, is amended to read:

322.01 Definitions.—As used in this chapter:

(4) "Authorized emergency vehicle" means a vehicle that is equipped with extraordinary audible and visual warning devices, that is authorized by s. 316.2397 to display red, red and white, or blue lights, and that is on call to respond to emergencies. The term includes, but is not limited to, ambulances, law enforcement vehicles, fire trucks, and other rescue vehicles. The term does not include wreckers, utility trucks, or other

vehicles that are used only incidentally for emergency purposes.

Section 20. Subsection (4) of section 322.03, Florida Statutes, is amended to read:

322.03 Drivers must be licensed; penalties.—

(4) A person may not operate a motorcycle unless he or she holds a driver license that authorizes such operation, subject to the appropriate restrictions and endorsements. A person may operate an autocycle without a motorcycle endorsement.

Section 21. Paragraph (e) of subsection (8) of section 322.051, Florida Statutes, is amended to read:

322.051 Identification cards.—

(8)

(e)1. Upon request by a person who has posttraumatic stress disorder, a traumatic brain injury, or a developmental disability, or by a parent or guardian of a child or ward who has posttraumatic stress disorder, a traumatic brain injury, or a developmental disability, the department shall issue an identification card exhibiting a capital "D" for the person, child, or ward if the person or the parent or guardian of the child or ward submits:

a. Payment of an additional $1 fee; and

b. Proof acceptable to the department of a diagnosis by a licensed physician of a developmental disability as defined in s. 393.063, posttraumatic stress disorder, or traumatic brain injury.

2. The department shall deposit the additional $1 fee into the Agency for Persons with Disabilities Operations and Maintenance Trust Fund under s. 20.1971(2).

3. A replacement identification card that includes the

designation may be issued without payment of the fee required under s. 322.21(1)(f).

4. The department shall develop rules to facilitate the issuance, requirements, and oversight of posttraumatic stress disorder, traumatic brain injury, and developmental disability identification cards under this section.

Section 22. Paragraph (m) of subsection (8) of section 322.08, Florida Statutes, is amended to read:

322.08 Application for license; requirements for license and identification card forms.—

(8) The application form for an original, renewal, or replacement driver license or identification card must include language permitting the following:

(m) A voluntary contribution of $1 per applicant, which shall be distributed to Preserve Vision ~~Prevent Blindness~~ Florida, a not-for-profit organization, to prevent blindness and preserve the sight of the residents of this state.

A statement providing an explanation of the purpose of the trust funds shall also be included. For the purpose of applying the service charge provided under s. 215.20, contributions received under paragraphs (b)-(t) are not income of a revenue nature.

Section 23. Subsection (5) of section 322.091, Florida Statutes, is amended to read:

322.091 Attendance requirements.—

(5) REPORTING AND ACCOUNTABILITY.—The department shall make available, upon request, a report ~~quarterly~~ to each school district of the legal name, sex, date of birth, and social security number of each student whose driving privileges have

been suspended under this section.

Section 24. Subsections (1) and (5) of section 322.12, Florida Statutes, are amended to read:

322.12 Examination of applicants.—

(1) It is the intent of the Legislature that every applicant for an original driver license in this state be required to pass an examination pursuant to this section. However, the department may waive the knowledge, endorsement, and skills tests for an applicant who is otherwise qualified and who surrenders a valid driver license from another state or a province of Canada, or a valid driver license issued by the United States Armed Forces, if the driver applies for a Florida license of an equal or lesser classification. An ~~Any~~ applicant who fails to pass the initial knowledge test incurs a $10 fee for each subsequent test, to be deposited into the Highway Safety Operating Trust Fund; however, if a subsequent test is administered by the tax collector, the tax collector shall retain the $10 fee. An ~~Any~~ applicant who fails to pass the initial skills test incurs a $20 fee for each subsequent test, to be deposited into the Highway Safety Operating Trust Fund; however, if a subsequent test is administered by the tax collector, the tax collector shall retain the $20 fee. A person who seeks to retain a hazardous-materials endorsement, pursuant to s. 322.57(1)(e), must pass the hazardous-materials test, upon surrendering his or her commercial driver license, if the person has not taken and passed the hazardous-materials test within 2 years before applying for a commercial driver license in this state.

(5)(a) The department shall formulate a separate

examination for applicants for licenses to operate motorcycles. Any applicant for a driver license who wishes to operate a motorcycle, and who is otherwise qualified, must successfully complete such an examination, which is in addition to the examination administered under subsection (3). The examination must test the applicant's knowledge of the operation of a motorcycle and of any traffic laws specifically relating thereto and must include an actual demonstration of his or her ability to exercise ordinary and reasonable control in the operation of a motorcycle. Any applicant who fails to pass the initial knowledge examination will incur a $5 fee for each subsequent examination, to be deposited into the Highway Safety Operating Trust Fund. Any applicant who fails to pass the initial skills examination will incur a $10 fee for each subsequent examination, to be deposited into the Highway Safety Operating Trust Fund. In the formulation of the examination, the department shall consider the use of the Motorcycle Operator Skills Test and the Motorcycle in Traffic Test offered by the Motorcycle Safety Foundation. The department shall indicate on the license of any person who successfully completes the examination that the licensee is authorized to operate a motorcycle. If the applicant wishes to be licensed to operate a motorcycle only, he or she need not take the skill or road test required under subsection (3) for the operation of a motor vehicle, and the department shall indicate such a limitation on his or her license as a restriction. Every first-time applicant for licensure to operate a motorcycle must provide proof of completion of a motorcycle safety course, as provided for in s. 322.0255, before the applicant may be licensed to operate a

motorcycle.

(b) The department may exempt any applicant from the examination provided in this subsection if the applicant presents a certificate showing successful completion of a course approved by the department, which course includes a similar examination of the knowledge and skill of the applicant in the operation of a motorcycle.

(c) This subsection does not apply to the operation of an autocycle.

Section 25. Paragraph (b) of subsection (1) of section 322.17, Florida Statutes, is amended to read:

322.17 Replacement licenses, identification cards, and permits.—

(1)

(b) In the event that an instruction permit, ~~or~~ driver license, or identification card issued under ~~the provisions of~~ this chapter is stolen, the person to whom the same was issued may, at no charge, obtain a replacement upon furnishing proof satisfactory to the department that such permit, ~~or~~ license, or identification card was stolen and further furnishing the person's full name, date of birth, sex, residence and mailing address, proof of birth satisfactory to the department, and proof of identity satisfactory to the department.

Section 26. Paragraphs (e) and (i) of subsection (1) and subsection (8) of section 322.21, Florida Statutes, are amended, and subsection (10) is added to that section, to read:

322.21 License fees; procedure for handling and collecting fees.—

(1) Except as otherwise provided herein, the fee for:

(e) A replacement driver license issued pursuant to s. 322.17 is $25. Of this amount, $7 shall be deposited into the Highway Safety Operating Trust Fund and $18 shall be deposited into the General Revenue Fund. ~~Beginning July 1, 2015, or upon completion of the transition of driver license issuance services,~~ If the replacement driver license is issued by the tax collector, the tax collector shall retain the $7 that would otherwise be deposited into the Highway Safety Operating Trust Fund and the remaining revenues shall be deposited into the General Revenue Fund.

~~(i) The specialty driver license or identification card issued pursuant to s. 322.1415 is $25, which is in addition to other fees required in this section. The fee shall be distributed as follows:~~

~~1. Fifty percent shall be distributed as provided in s. 320.08058 to the appropriate state or independent university, professional sports team, or branch of the United States Armed Forces.~~

~~2. Fifty percent shall be distributed to the department for costs directly related to the specialty driver license and identification card program and to defray the costs associated with production enhancements and distribution.~~

(8) A ~~Any~~ person who applies for reinstatement following the suspension or revocation of the person's driver license must pay a service fee of $45 following a suspension, and $75 following a revocation, which is in addition to the fee for a license. A ~~Any~~ person who applies for reinstatement of a commercial driver license following the disqualification of the person's privilege to operate a commercial motor vehicle shall

pay a service fee of $75, which is in addition to the fee for a license. The department shall collect all of these fees at the time of reinstatement. The department shall issue proper receipts for such fees and shall promptly transmit all funds received by it as follows:

(a) Of the $45 fee received from a licensee for reinstatement following a suspension:

1. If the reinstatement is processed by the department, the department shall deposit $15 in the General Revenue Fund and $30 in the Highway Safety Operating Trust Fund.

2. If the reinstatement is processed by the tax collector, $15 shall be retained by the tax collector, $15 shall be deposited into the Highway Safety Operating Trust Fund, and $15 shall be deposited into the General Revenue Fund.

(b) Of the $75 fee received from a licensee for reinstatement following a revocation or disqualification:

1. If the reinstatement is processed by the department, the department shall deposit $35 in the General Revenue Fund and $40 in the Highway Safety Operating Trust Fund.

2. If the reinstatement is processed by the tax collector, $20 shall be retained by the tax collector, $20 shall be deposited into the Highway Safety Operating Trust Fund, and $35 shall be deposited into the General Revenue Fund.

If the revocation or suspension of the driver license was for a violation of s. 316.193, or for refusal to submit to a lawful breath, blood, or urine test, an additional fee of $130 must be charged. However, only one $130 fee may be collected from one person convicted of violations arising out of the same incident.

The department shall collect the $130 fee and deposit the fee into the Highway Safety Operating Trust Fund at the time of reinstatement of the person's driver license, but the fee may not be collected if the suspension or revocation is overturned. If the revocation or suspension of the driver license was for a conviction for a violation of s. 817.234(8) or (9) or s. 817.505, an additional fee of $180 is imposed for each offense. The department shall collect and deposit the additional fee into the Highway Safety Operating Trust Fund at the time of reinstatement of the person's driver license.

(10) An applicant who submits an application for a renewal or replacement driver license or identification card to the department using a convenience service shall be provided with an option for expedited shipping whereby the department, at the applicant's request, shall issue the license or identification card within 5 working days after receipt of the application and ship the license or card using an expedited mail service. A fee shall be charged for the expedited shipping option, not to exceed the cost of the expedited mail service, which is in addition to fees imposed by s. 322.051, this section, or the convenience service. Fees collected for the expedited shipping option shall be deposited into the Highway Safety Operating Trust Fund.

Section 27. Subsection (1) of section 322.61, Florida Statutes, is amended, and subsection (2) of that section is reenacted, to read:

322.61 Disqualification from operating a commercial motor vehicle.—

(1) A person who, for offenses occurring within a 3-year

period, is convicted of two of the following serious traffic violations, or any combination thereof, arising in separate incidents committed in a commercial motor vehicle shall, in addition to any other applicable penalties, be disqualified from operating a commercial motor vehicle for a period of 60 days. A holder of a commercial driver license or commercial learner's permit who, for offenses occurring within a 3-year period, is convicted of two of the following serious traffic violations, or any combination thereof, arising in separate incidents committed in a noncommercial motor vehicle shall, in addition to any other applicable penalties, be disqualified from operating a commercial motor vehicle for a period of 60 days if such convictions result in the suspension, revocation, or cancellation of the licenseholder's driving privilege:

(a) A violation of any state or local law relating to motor vehicle traffic control, other than a parking violation, arising in connection with a crash resulting in death;

(b) Reckless driving, as defined in s. 316.192;

(c) Unlawful speed of 15 miles per hour or more above the posted speed limit;

(d) Improper lane change, as defined in s. 316.085;

(e) Following too closely, as defined in s. 316.0895;

(f) Texting while driving a commercial motor vehicle, as prohibited by 49 C.F.R. 392.80;

(g) Using a handheld mobile telephone while driving a commercial motor vehicle, as prohibited by 49 C.F.R. 392.82;

(h) ~~(f)~~ Driving a commercial vehicle without obtaining a commercial driver license;

(i) ~~(g)~~ Driving a commercial vehicle without the proper

class of commercial driver license or commercial learner's permit or without the proper endorsement; or

(j) ~~(h)~~ Driving a commercial vehicle without a commercial driver license or commercial learner's permit in possession, as required by s. 322.03.

(2)(a) Any person who, for offenses occurring within a 3-year period, is convicted of three serious traffic violations specified in subsection (1) or any combination thereof, arising in separate incidents committed in a commercial motor vehicle shall, in addition to any other applicable penalties, including but not limited to the penalty provided in subsection (1), be disqualified from operating a commercial motor vehicle for a period of 120 days.

(b) A holder of a commercial driver license or commercial learner's permit who, for offenses occurring within a 3-year period, is convicted of three serious traffic violations specified in subsection (1) or any combination thereof arising in separate incidents committed in a noncommercial motor vehicle shall, in addition to any other applicable penalties, including, but not limited to, the penalty provided in subsection (1), be disqualified from operating a commercial motor vehicle for a period of 120 days if such convictions result in the suspension, revocation, or cancellation of the licenseholder's driving privilege.

Section 28. Paragraph (c) of subsection (1) of section 212.05, Florida Statutes, is amended to read:

212.05 Sales, storage, use tax.—It is hereby declared to be the legislative intent that every person is exercising a taxable privilege who engages in the business of selling tangible

personal property at retail in this state, including the business of making mail order sales, or who rents or furnishes any of the things or services taxable under this chapter, or who stores for use or consumption in this state any item or article of tangible personal property as defined herein and who leases or rents such property within the state.

(1) For the exercise of such privilege, a tax is levied on each taxable transaction or incident, which tax is due and payable as follows:

(c) At the rate of 6 percent of the gross proceeds derived from the lease or rental of tangible personal property, as defined herein; however, the following special provisions apply to the lease or rental of motor vehicles:

1. When a motor vehicle is leased or rented for a period of less than 12 months:

a. If the motor vehicle is rented in Florida, the entire amount of such rental is taxable, even if the vehicle is dropped off in another state.

b. If the motor vehicle is rented in another state and dropped off in Florida, the rental is exempt from Florida tax.

2. Except as provided in subparagraph 3., for the lease or rental of a motor vehicle for a period of not less than 12 months, sales tax is due on the lease or rental payments if the vehicle is registered in this state; provided, however, that no tax shall be due if the taxpayer documents use of the motor vehicle outside this state and tax is being paid on the lease or rental payments in another state.

3. The tax imposed by this chapter does not apply to the lease or rental of a commercial motor vehicle as defined in s.

316.003(13)(a) ~~316.003(12)(a)~~ to one lessee or rentee for a period of not less than 12 months when tax was paid on the purchase price of such vehicle by the lessor. To the extent tax was paid with respect to the purchase of such vehicle in another state, territory of the United States, or the District of Columbia, the Florida tax payable shall be reduced in accordance with the provisions of s. 212.06(7). This subparagraph shall only be available when the lease or rental of such property is an established business or part of an established business or the same is incidental or germane to such business.

Section 29. Subsection (1) of section 316.303, Florida Statutes, is amended to read:

316.303 Television receivers.—

(1) No motor vehicle may be operated on the highways of this state if the vehicle is actively displaying moving television broadcast or pre-recorded video entertainment content that is visible from the driver's seat while the vehicle is in motion, unless the vehicle is equipped with autonomous technology, as defined in s. 316.003(3) ~~316.003(2)~~, and is being operated in autonomous mode, as provided in s. 316.85(2).

Section 30. Paragraph (b) of subsection (2) of section 316.545, Florida Statutes, is amended to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(2)

(b) The officer or inspector shall inspect the license plate or registration certificate of the commercial vehicle to determine whether its gross weight is in compliance with the declared gross vehicle weight. If its gross weight exceeds the

declared weight, the penalty shall be 5 cents per pound on the difference between such weights. In those cases when the commercial vehicle is being operated over the highways of the state with an expired registration or with no registration from this or any other jurisdiction or is not registered under the applicable provisions of chapter 320, the penalty herein shall apply on the basis of 5 cents per pound on that scaled weight which exceeds 35,000 pounds on laden truck tractor-semitrailer combinations or tandem trailer truck combinations, 10,000 pounds on laden straight trucks or straight truck-trailer combinations, or 10,000 pounds on any unladen commercial motor vehicle. A driver of a commercial motor vehicle entering the state at a designated port-of-entry location, as defined in s. 316.003 ~~s. 316.003(54)~~, or operating on designated routes to a port-of-entry location, who obtains a temporary registration permit shall be assessed a penalty limited to the difference between its gross weight and the declared gross vehicle weight at 5 cents per pound. If the license plate or registration has not been expired for more than 90 days, the penalty imposed under this paragraph may not exceed $1,000. In the case of special mobile equipment, which qualifies for the license tax provided for in s. 320.08(5)(b), being operated on the highways of the state with an expired registration or otherwise not properly registered under the applicable provisions of chapter 320, a penalty of $75 shall apply in addition to any other penalty which may apply in accordance with this chapter. A vehicle found in violation of this section may be detained until the owner or operator produces evidence that the vehicle has been properly registered. Any costs incurred by the retention of the vehicle

shall be the sole responsibility of the owner. A person who has been assessed a penalty pursuant to this paragraph for failure to have a valid vehicle registration certificate pursuant to the provisions of chapter 320 is not subject to the delinquent fee authorized in s. 320.07 if such person obtains a valid registration certificate within 10 working days after such penalty was assessed.

Section 31. Paragraph (a) of subsection (2) of section 316.613, Florida Statutes, is amended to read:

316.613 Child restraint requirements.—

(2) As used in this section, the term "motor vehicle" means a motor vehicle as defined in s. 316.003 that is operated on the roadways, streets, and highways of the state. The term does not include:

(a) A school bus as defined in s. 316.003 ~~s. 316.003(68)~~.

Section 32. Section 320.08, Florida Statutes, is amended to read:

320.08 License taxes.—Except as otherwise provided herein, there are hereby levied and imposed annual license taxes for the operation of motor vehicles, mopeds, motorized bicycles as defined in s. 316.003(4) ~~s. 316.003(2)~~, tri-vehicles as defined in s. 316.003, and mobile homes as defined in s. 320.01, which shall be paid to and collected by the department or its agent upon the registration or renewal of registration of the following:

(1) MOTORCYCLES AND MOPEDS.—

(a) Any motorcycle: $10 flat.

(b) Any moped: $5 flat.

(c) Upon registration of a motorcycle, motor-driven cycle,

or moped, in addition to the license taxes specified in this subsection, a nonrefundable motorcycle safety education fee in the amount of $2.50 shall be paid. The proceeds of such additional fee shall be deposited in the Highway Safety Operating Trust Fund to fund a motorcycle driver improvement program implemented pursuant to s. 322.025, the Florida Motorcycle Safety Education Program established in s. 322.0255, or the general operations of the department.

(d) An ancient or antique motorcycle: $7.50 flat, of which $2.50 shall be deposited into the General Revenue Fund.

(2) AUTOMOBILES OR TRI-VEHICLES FOR PRIVATE USE.—

(a) An ancient or antique automobile, as defined in s. 320.086, or a street rod, as defined in s. 320.0863: $7.50 flat.

(b) Net weight of less than 2,500 pounds: $14.50 flat.

(c) Net weight of 2,500 pounds or more, but less than 3,500 pounds: $22.50 flat.

(d) Net weight of 3,500 pounds or more: $32.50 flat.

(3) TRUCKS.—

(a) Net weight of less than 2,000 pounds: $14.50 flat.

(b) Net weight of 2,000 pounds or more, but not more than 3,000 pounds: $22.50 flat.

(c) Net weight more than 3,000 pounds, but not more than 5,000 pounds: $32.50 flat.

(d) A truck defined as a "goat," or other vehicle if used in the field by a farmer or in the woods for the purpose of harvesting a crop, including naval stores, during such harvesting operations, and which is not principally operated upon the roads of the state: $7.50 flat. The term "goat" means a motor vehicle designed, constructed, and used principally for

the transportation of citrus fruit within citrus groves or for the transportation of crops on farms, and which can also be used for hauling associated equipment or supplies, including required sanitary equipment, and the towing of farm trailers.

(e) An ancient or antique truck, as defined in s. 320.086: $7.50 flat.

(4) HEAVY TRUCKS, TRUCK TRACTORS, FEES ACCORDING TO GROSS VEHICLE WEIGHT.—

(a) Gross vehicle weight of 5,001 pounds or more, but less than 6,000 pounds: $60.75 flat, of which $15.75 shall be deposited into the General Revenue Fund.

(b) Gross vehicle weight of 6,000 pounds or more, but less than 8,000 pounds: $87.75 flat, of which $22.75 shall be deposited into the General Revenue Fund.

(c) Gross vehicle weight of 8,000 pounds or more, but less than 10,000 pounds: $103 flat, of which $27 shall be deposited into the General Revenue Fund.

(d) Gross vehicle weight of 10,000 pounds or more, but less than 15,000 pounds: $118 flat, of which $31 shall be deposited into the General Revenue Fund.

(e) Gross vehicle weight of 15,000 pounds or more, but less than 20,000 pounds: $177 flat, of which $46 shall be deposited into the General Revenue Fund.

(f) Gross vehicle weight of 20,000 pounds or more, but less than 26,001 pounds: $251 flat, of which $65 shall be deposited into the General Revenue Fund.

(g) Gross vehicle weight of 26,001 pounds or more, but less than 35,000: $324 flat, of which $84 shall be deposited into the General Revenue Fund.

(h) Gross vehicle weight of 35,000 pounds or more, but less than 44,000 pounds: $405 flat, of which $105 shall be deposited into the General Revenue Fund.

(i) Gross vehicle weight of 44,000 pounds or more, but less than 55,000 pounds: $773 flat, of which $201 shall be deposited into the General Revenue Fund.

(j) Gross vehicle weight of 55,000 pounds or more, but less than 62,000 pounds: $916 flat, of which $238 shall be deposited into the General Revenue Fund.

(k) Gross vehicle weight of 62,000 pounds or more, but less than 72,000 pounds: $1,080 flat, of which $280 shall be deposited into the General Revenue Fund.

(l) Gross vehicle weight of 72,000 pounds or more: $1,322 flat, of which $343 shall be deposited into the General Revenue Fund.

(m) Notwithstanding the declared gross vehicle weight, a truck tractor used within a 150-mile radius of its home address is eligible for a license plate for a fee of $324 flat if:

1. The truck tractor is used exclusively for hauling forestry products; or

2. The truck tractor is used primarily for the hauling of forestry products, and is also used for the hauling of associated forestry harvesting equipment used by the owner of the truck tractor.

Of the fee imposed by this paragraph, $84 shall be deposited into the General Revenue Fund.

(n) A truck tractor or heavy truck, not operated as a for-hire vehicle, which is engaged exclusively in transporting raw,

unprocessed, and nonmanufactured agricultural or horticultural products within a 150-mile radius of its home address, is eligible for a restricted license plate for a fee of:

1. If such vehicle's declared gross vehicle weight is less than 44,000 pounds, $87.75 flat, of which $22.75 shall be deposited into the General Revenue Fund.

2. If such vehicle's declared gross vehicle weight is 44,000 pounds or more and such vehicle only transports from the point of production to the point of primary manufacture; to the point of assembling the same; or to a shipping point of a rail, water, or motor transportation company, $324 flat, of which $84 shall be deposited into the General Revenue Fund.

Such not-for-hire truck tractors and heavy trucks used exclusively in transporting raw, unprocessed, and nonmanufactured agricultural or horticultural products may be incidentally used to haul farm implements and fertilizers delivered direct to the growers. The department may require any documentation deemed necessary to determine eligibility prior to issuance of this license plate. For the purpose of this paragraph, "not-for-hire" means the owner of the motor vehicle must also be the owner of the raw, unprocessed, and nonmanufactured agricultural or horticultural product, or the user of the farm implements and fertilizer being delivered.

(5) SEMITRAILERS, FEES ACCORDING TO GROSS VEHICLE WEIGHT; SCHOOL BUSES; SPECIAL PURPOSE VEHICLES.—

(a)1. A semitrailer drawn by a GVW truck tractor by means of a fifth-wheel arrangement: $13.50 flat per registration year or any part thereof, of which $3.50 shall be deposited into the

General Revenue Fund.

2. A semitrailer drawn by a GVW truck tractor by means of a fifth-wheel arrangement: $68 flat per permanent registration, of which $18 shall be deposited into the General Revenue Fund.

(b) A motor vehicle equipped with machinery and designed for the exclusive purpose of well drilling, excavation, construction, spraying, or similar activity, and which is not designed or used to transport loads other than the machinery described above over public roads: $44 flat, of which $11.50 shall be deposited into the General Revenue Fund.

(c) A school bus used exclusively to transport pupils to and from school or school or church activities or functions within their own county: $41 flat, of which $11 shall be deposited into the General Revenue Fund.

(d) A wrecker, as defined in s. 320.01, which is used to tow a vessel as defined in s. 327.02, a disabled, abandoned, stolen-recovered, or impounded motor vehicle as defined in s. 320.01, or a replacement motor vehicle as defined in s. 320.01: $41 flat, of which $11 shall be deposited into the General Revenue Fund.

(e) A wrecker that is used to tow any nondisabled motor vehicle, a vessel, or any other cargo unless used as defined in paragraph (d), as follows:

1. Gross vehicle weight of 10,000 pounds or more, but less than 15,000 pounds: $118 flat, of which $31 shall be deposited into the General Revenue Fund.

2. Gross vehicle weight of 15,000 pounds or more, but less than 20,000 pounds: $177 flat, of which $46 shall be deposited into the General Revenue Fund.

3. Gross vehicle weight of 20,000 pounds or more, but less than 26,000 pounds: $251 flat, of which $65 shall be deposited into the General Revenue Fund.

4. Gross vehicle weight of 26,000 pounds or more, but less than 35,000 pounds: $324 flat, of which $84 shall be deposited into the General Revenue Fund.

5. Gross vehicle weight of 35,000 pounds or more, but less than 44,000 pounds: $405 flat, of which $105 shall be deposited into the General Revenue Fund.

6. Gross vehicle weight of 44,000 pounds or more, but less than 55,000 pounds: $772 flat, of which $200 shall be deposited into the General Revenue Fund.

7. Gross vehicle weight of 55,000 pounds or more, but less than 62,000 pounds: $915 flat, of which $237 shall be deposited into the General Revenue Fund.

8. Gross vehicle weight of 62,000 pounds or more, but less than 72,000 pounds: $1,080 flat, of which $280 shall be deposited into the General Revenue Fund.

9. Gross vehicle weight of 72,000 pounds or more: $1,322 flat, of which $343 shall be deposited into the General Revenue Fund.

(f) A hearse or ambulance: $40.50 flat, of which $10.50 shall be deposited into the General Revenue Fund.

(6) MOTOR VEHICLES FOR HIRE.—

(a) Under nine passengers: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund; plus $1.50 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(b) Nine passengers and over: $17 flat, of which $4.50

shall be deposited into the General Revenue Fund; plus $2 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(7) TRAILERS FOR PRIVATE USE.—

(a) Any trailer weighing 500 pounds or less: $6.75 flat per year or any part thereof, of which $1.75 shall be deposited into the General Revenue Fund.

(b) Net weight over 500 pounds: $3.50 flat, of which $1 shall be deposited into the General Revenue Fund; plus $1 per cwt, of which 25 cents shall be deposited into the General Revenue Fund.

(8) TRAILERS FOR HIRE.—

(a) Net weight under 2,000 pounds: $3.50 flat, of which $1 shall be deposited into the General Revenue Fund; plus $1.50 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(b) Net weight 2,000 pounds or more: $13.50 flat, of which $3.50 shall be deposited into the General Revenue Fund; plus $1.50 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(9) RECREATIONAL VEHICLE-TYPE UNITS.—

(a) A travel trailer or fifth-wheel trailer, as defined by s. 320.01(1)(b), that does not exceed 35 feet in length: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

(b) A camping trailer, as defined by s. 320.01(1)(b)2.: $13.50 flat, of which $3.50 shall be deposited into the General Revenue Fund.

(c) A motor home, as defined by s. 320.01(1)(b)4.:

1. Net weight of less than 4,500 pounds: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

2. Net weight of 4,500 pounds or more: $47.25 flat, of which $12.25 shall be deposited into the General Revenue Fund.

(d) A truck camper as defined by s. 320.01(1)(b)3.:

1. Net weight of less than 4,500 pounds: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

2. Net weight of 4,500 pounds or more: $47.25 flat, of which $12.25 shall be deposited into the General Revenue Fund.

(e) A private motor coach as defined by s. 320.01(1)(b)5.:

1. Net weight of less than 4,500 pounds: $27 flat, of which $7 shall be deposited into the General Revenue Fund.

2. Net weight of 4,500 pounds or more: $47.25 flat, of which $12.25 shall be deposited into the General Revenue Fund.

(10) PARK TRAILERS; TRAVEL TRAILERS; FIFTH-WHEEL TRAILERS; 35 FEET TO 40 FEET.—

(a) Park trailers.—Any park trailer, as defined in s. 320.01(1)(b)7.: $25 flat.

(b) A travel trailer or fifth-wheel trailer, as defined in s. 320.01(1)(b), that exceeds 35 feet: $25 flat.

(11) MOBILE HOMES.—

(a) A mobile home not exceeding 35 feet in length: $20 flat.

(b) A mobile home over 35 feet in length, but not exceeding 40 feet: $25 flat.

(c) A mobile home over 40 feet in length, but not exceeding 45 feet: $30 flat.

(d) A mobile home over 45 feet in length, but not exceeding 50 feet: $35 flat.

(e) A mobile home over 50 feet in length, but not exceeding 55 feet: $40 flat.

(f) A mobile home over 55 feet in length, but not exceeding 60 feet: $45 flat.

(g) A mobile home over 60 feet in length, but not exceeding 65 feet: $50 flat.

(h) A mobile home over 65 feet in length: $80 flat.

(12) DEALER AND MANUFACTURER LICENSE PLATES.—A franchised motor vehicle dealer, independent motor vehicle dealer, marine boat trailer dealer, or mobile home dealer and manufacturer license plate: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund.

(13) EXEMPT OR OFFICIAL LICENSE PLATES.—Any exempt or official license plate: $4 flat, of which $1 shall be deposited into the General Revenue Fund.

(14) LOCALLY OPERATED MOTOR VEHICLES FOR HIRE.—A motor vehicle for hire operated wholly within a city or within 25 miles thereof: $17 flat, of which $4.50 shall be deposited into the General Revenue Fund; plus $2 per cwt, of which 50 cents shall be deposited into the General Revenue Fund.

(15) TRANSPORTER.—Any transporter license plate issued to a transporter pursuant to s. 320.133: $101.25 flat, of which $26.25 shall be deposited into the General Revenue Fund.

Section 33. Subsection (1) of section 655.960, Florida Statutes, is amended to read:

655.960 Definitions; ss. 655.960-655.965.—As used in this section and ss. 655.961-655.965, unless the context otherwise requires:

(1) “Access area” means any paved walkway or sidewalk which

is within 50 feet of any automated teller machine. The term does not include any street or highway open to the use of the public, as defined in s. 316.003(78)(a) or (b) ~~s. 316.003(77)(a) or (b)~~, including any adjacent sidewalk, as defined in s. 316.003.

Section 34. This act shall take effect October 1, 2017.

SENATOR GEORGE B. GAINER
2nd District

April 18, 2017

Re: SB 784

Dear Chair Latvala,

I am respectfully requesting Senate Bill 784, a bill related to the Department of Highway Safety and Motor Vehicles, be placed on the agenda for your committee on Appropriations.

I appreciate your consideration of this bill and I look forward to working with you and the Appropriations committee. If there are any questions or concerns, please do not hesitate to call my office at (850) 487-5002.

Thank you,

Senator George Gainer
District 2

Cc. Mike Hansen, Tim Sadberry, John Shettle, Joe McVaney, Alicia Weiss, Carlecia Collins, Drew Aldikacti, Rich Reidy, and Tracy Caddell

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1118 (304644)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Gainer and others
SUBJECT:	Transportation
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Pitts	Pitts	ATD	**Recommend: Fav/CS**
3.	Pitts	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1118 reflects the Department of Transportation's (FDOT) 2017 Legislative Package. Specifically, the bill:

- Directs the FDOT, in consultation with the Department of Highway Safety and Motor Vehicles (DHSMV), to develop a Florida Smart City Challenge grant program;
- Increases the allowable gross vehicle weight for vehicles using natural-gas fueling systems by up to 2,000 pounds under certain conditions, resulting in a reduced overweight penalty and avoiding a potential loss of federal funds;
- Revises autonomous vehicle alert system requirements, consistent with current law, to clarify that an autonomous vehicle may operate in autonomous mode without a person physically present in the vehicle;
- Applies certain insurance coverage requirements, should legislation addressing insurance for transportation network companies (TNCs) become law, to autonomous vehicles used by TNCs to provide transportation, regardless of whether a human operator is physically present in the vehicle when the ride occurs;
- Defines the term "automated mobility district," directs the FDOT to designate such districts and, in determining a community's eligibility for designation, to consider applicable federal agency criteria for such districts and apply the criteria to eligible developments.
- Aligns state and federal law by mandating bridge inspections at regular intervals as required by the Federal Highway Administration, as opposed to intervals not exceeding two years,

resulting in compliance with revised national bridge inspection requirements and avoiding a potential but likely insignificant diversion of federal funds;
- Directs the FDOT to establish a process for applications for placement of roadside memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive safely and to establish criteria for the design and fabrication of the markers; provides for incorporation of emblems of belief on such markers under certain conditions; provides requirements for the placement of such markers; and directs the FDOT to remove such markers under certain conditions, subject to certain notice requirements.
- Increases the current $120,000 cap on "fast response" contracts to $250,000 to account for increased construction costs due to inflation;
- Allows turnpike bonds to be validated at the option of the Division of Bond Finance (DBF) and limits the location of publication of certain related notices to Leon County;
- Repeals the Florida Highway Beautification Council and creates the Florida Highway Beautification Grant Program within the FDOT;
- Defines "department" to mean the FDOT for purposes of part II of ch. 343, F.S., relating to the South Florida Regional Transportation Authority (SFRTA);
- Prohibits the SFRTA from entering into, extending, or renewing any contract without the FDOT's prior review and written approval of the proposed expenditures if such contract may be funded with FDOT-provided funds;
- Deems funds provided by the FDOT to the SFRTA to be state financial assistance subject to specified requirements;
- Requires the FDOT to provide funds to the SFRTA in accordance with a written agreement containing certain provisions;
- Authorizes the FDOT to advance funds to the SFRTA at the start of each fiscal year, with monthly payments for maintenance and dispatch on the South Florida Rail Corridor over the fiscal year on a reimbursement basis;
- Expressly includes transportation network companies (TNCs) in the list of providers of services for the transportation disadvantaged;
- Authorizes the FDOT Secretary to enroll the state in any federal pilot program or project for the collection and study of specified types of transportation-related data;
- Deletes and revises cross-references to conform to changes made in the act.
- Provides the bill take effect on July 1, 2017

The bill's provisions have both indeterminate negative and positive fiscal impacts on state funds, of which combined are neutral. The bill may have impacts to revenues and expenditures related to the SFRTA and the DBF. See Section V., "Fiscal Impact Statement," for details.

II. Present Situation:

Due to the disparate issues in the bill, the present situation for each section is discussed below in conjunction with the Effect of Proposed Changes.

III. Effect of Proposed Changes:

Florida Smart City Challenge Grant Program (Section 1)

Present Situation:

The United States Department of Transportation (USDOT) launched a Smart City Challenge in December of 2015. The challenge asked mid-sized cities "to develop ideas for an integrated, first-of-its-kind smart transportation system that would use data, applications, and technology to help people and goods move more quickly, cheaply, and efficiently."[1] The USDOT committed up to $40 million to one winning city.[2] The USDOT received 78 applications from cities across America, including the following cities in Florida: Jacksonville, Miami, Orlando, St. Petersburg, Tallahassee, and Tampa. However, no Florida city received any funding.

Ultimately, Columbus, Ohio won the challenge by proposing "a comprehensive, integrated plan addressing challenges in residential, commercial, freight, and downtown districts using a number of new technologies, including connected infrastructure, an integrated data platform, autonomous vehicles, and more."[3]The USDOT then worked with seven finalists to further develop the ideas proposed by the cities and, in October of 2016, announced an additional $65 million in grants to support advanced technology transportation projects. Again, no Florida city was among the finalists.

Effect of Proposed Changes:

Section 1 of the bill creates s. 316.0898, F.S., to direct the FDOT, in consultation with the Department of Highway Safety and Motor Vehicles, to develop the Florida Smart City Challenge grant program and establish grant award requirements for municipalities or regions. Grant applicants must demonstrate and document the adoption of emerging technologies and their impact on the transportation system, and must address at least the following focus areas:

- Autonomous vehicles;
- Connected vehicles;[4]
- Sensor-based infrastructure;
- Collecting and using data;
- Electric vehicles, including charging stations; and
- Developing strategic models and partnerships;

The stated goals of the grant program include, without limitation:

- Identifying transportation challenges and identifying how emerging technologies can address those challenges;

[44] These are "vehicles that use any of a number of different communication technologies to communicate with the driver, other cars on the road (vehicle-to-vehicle [V2V], roadside infrastructure (vehicle-to-infrastructure [V2I]), and the 'Cloud.'" *See* the Center for Advanced Automotive Technology website available at: http://autocaat.org/Technologies/Automated_and_Connected_Vehicles/. (Last visited April 14, 2017.)

- Determining the emerging technologies and strategies that have the potential to provide the most significant impacts;
- Encouraging municipalities to take significant steps to integrate emerging technologies into their day-to-day operations;
- Identifying the barriers to implementing the grant program and communicating those barriers to the Legislature and appropriate agencies and organizations;
- Leveraging the initial grant to attract additional public and private investments;
- Increasing the state's competitiveness in the pursuit of grants from the USDOT, the United States Department of Energy (USDOE), and other federal agencies;
- Committing to the continued operation of programs implemented in connection with the grant;
- Serving as a model for municipalities nationwide;
- Documenting the costs and impacts of the grant program and lessons learned during implementation; and
- Identify solutions that will demonstrate local or regional economic impact.

The FDOT is directed to develop eligibility, application, and selection criteria for the program grants and a plan for the promotion of the grant program to municipalities or regions of the state as an opportunity to compete for grant funding, including the award of grants to a single recipient and secondary grants to specific projects of merit within other applications. The FDOT may contract with a third party demonstrating knowledge and expertise in that section's focuses and goals to provide guidance in the development of that section's requirements.

The FDOT must submit the grant program guidelines and plans for promotion of the program to the Governor, Senate President, and House Speaker on or before January 1, 2018. Lastly, the new s.316.0898, F.S., expires on July 1, 2018.[5]

Natural Gas-Fueled Vehicle Weight (Section 2)

Present Situation:

Motor Vehicle Weights and Overweight Penalties

The rate of damage to roads and bridges generally increases as vehicle weight increases, resulting in higher maintenance and replacement costs and potentially creating unsafe conditions. Maximum legal vehicle weights are established for all public roads and bridges and allow compliant vehicles to travel most public highways of the state without causing excessive road damage or bridge failures. However, some roads and bridges have lower weight limits due to their age, condition, or design, and these facilities have posted weight limits; *i.e.*, their lower weight limits are identified through signage at the facility. Vehicles exceeding the maximum weight limits on a facility, including posted facilities, are presumed to have damaged the highways of the state and are subject to fines.[6]

[5] SB 2500 currently authorizes the FDOT to use up to $75,000 to establish the Florida Smart City Challenge Grant Program.
[6] *See* ss. 316.545 and 316.555, F.S.

Gross vehicle weight is the total weight of a vehicle (or combination of vehicles) and any cargo carried by the vehicle.[7] Federal and state laws generally provide that gross vehicle weight may not exceed 80,000 pounds for both the interstate and non-interstate highway system, [8] or the maximum allowed by the Federal Bridge Formula.[9] In Florida, the maximum weight limit is 22,000 pounds on a single axle, and 44,000 pounds on a tandem axle.[10] These limits do not apply to those vehicles and loads that cannot be easily dismantled or divided (*i.e.*, "non-divisible"), or to other vehicles exceeding the maximum weight limits, if a special permit has been issued in accordance with applicable state laws.[11]

However, the vehicle's number of axles and the distance between the axles in part controls a vehicle's maximum allowable weight. Thus, a vehicle's maximum allowable gross weight may be reduced because the concentration of weight on a particular axle may reach unacceptable limits. For example, pavement and bridge stress is greater for a 30-foot truck with two axles and a gross vehicle weight of 50,000 pounds than a 54-foot tractor-trailer combination of the same weight because the tractor-trailer distributes the load over a greater area. Therefore, the 30-foot truck will have a lower maximum allowable weight.

For weight violations, including violations of weight criteria contained in a special permit, the penalty is as established in s. 316.545(3)(a), F.S., *i.e.*, $10 for 200 pounds or less and 5 cents per pound for each pound over 200 pounds. Unlawful axle weights are penalized at $10 for the first 600 pounds, if the gross weight of the vehicle (or vehicle combination) does not exceed the maximum allowable gross weight.[12]

For each violation of the operational or safety restrictions established in a special permit, *e.g.*, using a restricted bridge, the penalty may be as high as $1,000. However, the cumulative total for multiple violations may not exceed $1,000.[13]

These penalties are deposited into the State Transportation Trust Fund and used for roadway maintenance and repair.[14]

Cargo Capacity of Vehicles Fueled by Natural Gas Compared to Gasoline or Diesel-Fueled Vehicles

According to the U.S. Department of Energy, about 150,000 vehicles in this country are powered by natural gas, many of which are heavy-duty vehicles.[15] Natural gas vehicles (NGVs) are reported to be similar to gasoline or diesel-fueled vehicles with respect to power, acceleration,

and cruising speed; and the use of natural gas as fuel provides additional advantages, such as its domestic availability, its relative low cost, and lower emissions.[16] However, these advantages may be offset by displacement of cargo capacity, due to the heavier weight of NGV fueling systems relative to gasoline or diesel systems.[17]

Fast Act Natural Gas Vehicle Weight Allowance

The Fixing America's Surface Transportation Act (FAST Act), which authorized Federal surface transportation programs for fiscal years 2016-2020, contained a number of incentives for natural gas. In apparent recognition of the potential displacement of cargo capacity due to the heavier weight of NGVs, the FAST Act authorized a vehicle, if operated by an engine fueled primarily[18] by natural gas, to exceed any (single axle, tandem axle and bridge formula) weight limit (up to a maximum gross vehicle weight of 82,000 pounds) by an amount that is equal to the difference between:

- The weight of the vehicle attributable to the natural gas tank and fueling system carried by that vehicle, and
- The weight of a comparable diesel tank and fueling system.[19]

The Federal Highway Administration (FHWA) has advised states to review state statutes, regulations, and procedures, as well as load rating and posting calculations and enforcement practices, for necessary updating.[20] Further, the FHWA noted that while the federally increased weight allowance does not preempt a state from enforcing *state* weight limits on all highways, it does "prevent[] the FHWA from imposing funding sanctions if a state authorizes the additional weight limit on its Interstate system."[21]

Florida law has long adhered to the general maximum weight limits contained in the Federal law,[22] and the FDOT issues special permits for vehicles transporting non-divisible loads and for other vehicles exceeding maximum weight limits.[23] Florida law currently grants a 500-pound weight allowance for idle reduction technology consistent with federal law, but does not authorize the additional weight for NGVs allowed in the FAST Act.[24]

FDOT Permitting of NGVs

In response to the FAST Act, the FDOT performed an assessment to determine if any bridges, other than those currently posted for weight, would require posting because of the additional

---

[16] *Id.* at: http://www.afdc.energy.gov/fuels/natural_gas_benefits.html. (Last visited November 18, 2016.)
[17] *Id.*.. "The driving range of NGVs is generally less than that of comparable conventional vehicles because of the lower energy density of natural gas. Extra storage tanks can increase range, but the additional weight may displace cargo capacity."
[18] Some NGVs are fueled solely by natural gas, some are bi-fueled with two separate fueling systems that enable them to run on either natural gas or gasoline, and some are dual-fueled. Dual-fueled vehicles "are traditionally limited to heavy-duty application, have fuel systems that run on natural gas, and use diesel fuel for ignition assistance." *Supra* note 8.

[20] *Id.*, Memorandum Question and Answer 16.
[21] *Id.*, Question and Answer 14.
[22] *See* s. 316.535, F.S.
[23] *See* s. 316.550, F.S.
[24] Section 316.545(3)(b), F.S.

weight allowance for NGVs authorized in the Act. The FDOT advises that the study concluded that the additional weight of NGVs would not require bridges to be re-load rated or posted.[25] The FDOT also developed a permit process in June of 2016 to allow the operation of NGVs at the new Federal weight limits, but no permits were issued, perhaps because the industry is unaware of the need for such a permit.[26] As a result, the FDOT estimates that approximately 292 citations[27] have been issued, totaling $375.00 in fines, 15 of which have been contested before the Commercial Motor Vehicle Review Board.[28] The FDOT advises no relief was granted for any of the 15 contested citations.[29]

Effect of Proposed Changes:

Section 2 amends s. 316.545(3), F.S., to provide for a specified reduction in the actual gross weight of an NGV, when calculating the penalty for exceeding maximum weight limits, so long as the actual gross weight of the vehicle does not exceed 82,000 pounds, exclusive of the existing 500-pound weight allowance for idle reduction technology. The bill will create greater uniformity between federal and state law, which is especially important for truck drivers doing interstate business, and avoids a potential withholding of federal funds.

If an NGV is found to be overweight, then the penalty will be calculated by reducing the actual gross vehicle weight by the certified difference in weight between the natural gas tank and fueling system carried by that vehicle, and a comparable diesel tank and fueling system, before applying the currently applicable penalty. If the actual gross weight of the NGV exceeds 80,000 pounds plus the certified weight difference, a penalty of $.05 per pound of excess weight could be assessed.

If the NGV is also equipped with idle reduction technology, the penalty will be calculated by reducing the actual gross vehicle weight by the certified difference in weight between the natural gas tank and fueling system carried by that vehicle and a comparable diesel tank and fueling system, and by an additional 500 pounds. If the actual gross weight of the NGV with idle reduction technology exceeds 80,500 pounds plus the certified weight difference, a penalty of $.05 per pound of excess weight could be assessed.

The bill contains a proof requirement; *i.e.*, the vehicle operator must present a written certification that identifies the weight of the natural gas tank and fueling system, and the difference in weight of a comparable diesel tank and fueling system, upon request of a weight inspector or a law enforcement officer. The certification must originate from the vehicle manufacturer or the installer of the natural gas tank and fueling system.

The bill excludes vehicles described in s. 316.535(6), F.S., from qualifying for the reduced calculation. These vehicles, typically called straight trucks, include dump trucks, concrete

[25] *See* the FDOT's response to staff questions. (On file in the Senate Transportation Committee.)
[26] *Id.*
[27] The FDOT notes this estimate is based on a search for companies that utilize NGVs and received an overweight citation in the last year. Because the citation form is not designed to specify this particular infraction, some of the 292 cases may not be related to the FAST Act. *Id.*
[28] Section 316.545(7), F.S., establishes the Board within the FDOT and authorizes the Board to review any penalty imposed under chapter 316, F.S.
[29] *Supra* note 11.

mixing trucks, trucks engaged in waste collection and disposal, and fuel oil and gasoline trucks designed and constructed for special type work. The cargo unit and the power unit on these trucks sit on the same frame,[30] meaning that the concentration of weight is greater than, for example, a combination vehicle with an axle configuration that distributes the weight over a greater area. These vehicles continue to be limited to a gross weight of 70,000 pounds.

Autonomous Vehicle Alert System Clarification (Section 5)

Present Situation:

Section 316.003(2), F.S., defines "autonomous vehicle" as any vehicle equipped with autonomous technology. That subsection also includes a definition of "autonomous technology," which means technology installed on a motor vehicle that has the capability to drive the vehicle on which the technology is installed *without the active control or monitoring by a human operator*.[31] If a vehicle is equipped with technology that requires the active control or monitoring by a human operator, that vehicle does not meet the definition of "autonomous vehicle" under Florida law.

Section 316.85, F.S., authorizes a person who possesses a valid driver license to operate an autonomous vehicle in autonomous mode on roads in this state if the vehicle is equipped with autonomous technology as defined in s. 316.003(2), F.S. A person is deemed to be the operator of an autonomous vehicle operating in autonomous mode when the person causes the vehicle's autonomous technology to engage, regardless of whether the person is physically present in the vehicle while the vehicle is operating in autonomous mode. Thus, under Florida law, an autonomous vehicle may be operated in autonomous mode even if a person is not physically present in the vehicle.

Section 319.145, F.S., requires autonomous vehicles registered in this state to:

- Have a system to safely alert the operator if an autonomous technology failure is detected while the technology is engaged. When an alert is given, the *system* must:
  - Require the operator to take control of the autonomous vehicle; or
  - If the operator does not, or is not able to, take control of the autonomous vehicle, be capable of bringing the vehicle to a complete stop.
- Have a means inside the vehicle to visually indicate when the vehicle is operating in autonomous mode; and
- Be capable of being operated in compliance with the applicable traffic and motor vehicle laws of this state.

Effect of Proposed Changes:

Section 5 of the bill amends s. 319.145, F.S., to clarify system requirements when an alert is given. The bill provides that if the *human* operator does not, or is not able to, take control of the

[30] *See* s. 316.003(76), F.S.

[31] The latter definition does not include a motor vehicle enabled with active safety systems or driver assistance systems, including, without limitation, a system to provide electronic blind spot assistance, crash avoidance, emergency braking, parking assistance, adaptive cruise control, lane keep assistance, lane departure warning, or traffic jam and queuing assistant, unless any such system alone or in combination with other systems enables the vehicle on which the technology is installed *to drive without the active control or monitoring by a human operator.*

autonomous vehicle, *or if a human operator is not physically present in the vehicle,* the system must be capable of bringing the vehicle to a complete stop. This revision is consistent with current law allowing an autonomous vehicle to operate in autonomous mode without a person physically present in the vehicle.

Transportation Network Companies/Autonomous Vehicles/Insurance (Section 3)

Present Situation: Technological advances have led to new methods for consumers to arrange and pay for transportation, including software applications that make use of mobile smartphone applications, Internet web pages, and email and text messages. Ridesharing companies, such as Lyft, Uber, and SideCar, describe themselves as "transportation network companies" (TNCs), rather than as vehicles for hire.

TNCs use smartphone technology to connect individuals who want to ride with private drivers for a fee. A driver logs onto a phone application and indicates the driver is ready to accept passengers. Potential passengers log on, learn which drivers are nearby, see photographs, receive a fare estimate, and decide whether to accept a ride. If the passenger accepts a ride, the driver is notified and drives to pick up the passenger. Once at the destination, payment is made through the phone application.

Drivers generally use their personal vehicles, and most personal automobile insurance policies contain a "livery" exclusion that excludes coverage if the vehicle is carrying passengers for hire.[32] Consequently, most personal automobile insurance policies do not cover damage or loss when a car is being used for commercial ridesharing. Some ridesharing companies provide insurance for portions of the time when the driver is transporting passengers, but such insurance is not required. This could lead to situations where drivers and passengers are involved in accidents and there is no insurance coverage. In contrast, taxis and limousines must maintain a motor vehicle liability policy with minimum limits of $125,000 per person for bodily injury, up to $250,000 per incident for bodily injury, and $50,000 for property damage.[33]

Issues relating to insurance coverage for TNCs, and other TNC-related matters, have been under review by the Florida Legislature in recent years. The Florida Senate is currently considering legislation that would create uniform statewide minimum insurance requirements for TNCs and TNC drivers. Generally, when a TNC driver is logged onto the digital network[34] but not engaged in a prearranged ride,[35] the legislation requires:

- Primary automobile liability coverage of at least $50,000 for death and bodily injury per person, $100,000 for death and bodily injury per incident, and $25,000 for property damage;

[32] The exclusion in Florida law is mentioned in s. 627.041(8), F.S.
[33] Section 324.032(1)(a), F.S.
[34] CS/CS/SB 340 currently defines "digital network" to mean any online-enabled technology application service, website, or system offered or used by a TNC that enables the prearrangement of rides with TNC drivers.
[35] CS/CS/SB 340 currently defines "prearranged ride" to mean the provision of transportation by a TNC driver to a rider, beginning when a TNC driver accepts a ride requested by a rider through a digital network controlled by a TNC, continuing while the TNC driver transports the rider, and ending when the last rider exits from and is no longer occupying the TNC vehicle.

- Personal Injury Protection (PIP) benefits that meet the minimum coverage amounts required under ss. 627.730-627.7405, F.S.;[36] and
- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.[37]

When a TNC driver is engaged in a prearranged ride, the following insurance requirements apply:

- Primary automobile liability coverage of at least $1 million for death, bodily injury, and property damage;
- PIP benefits that meet the minimum coverage amounts required of a limousine[38] under ss. 627.730-627.7405, F.S.; and
- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.[39]

Interest in the use of autonomous vehicles in ridesharing services is increasing, including with respect to fully autonomous vehicles that do not require drivers. General Motors reportedly paid $500 million for a stake and strategic alliance in Lyft to develop the use of autonomous vehicles in ridesharing and recently spent $1 billion to buy a technology company that has self-driving cars on roads in California.[40]Current Florida law does not specifically address insurance requirements for autonomous vehicles, or for autonomous vehicles used by TNCs.

Effect of Proposed Changes:

Section 3 of the bill creates s. 316.851, F.S., with an effective on the same date that the TNC legislation currently under consideration, or similar legislation, takes effect, if such legislation is enacted in the 2017 Regular Session or in any extension thereof. In that case, the bill would require an autonomous vehicle used by a TNC *to provide a prearranged ride* to be covered by automobile insurance as required by s. 627.748, F.S., created in that TNC legislation, regardless of whether a human operator is physically present in the vehicle when the ride occurs. As the legislation currently stands, the required coverage would be primary automobile liability coverage of at least $1 million for death, bodily injury, and property damage, and uninsured and underinsured vehicle coverage as required by s. 627.727, F.S. The coverage ultimately specified in that legislation, if enacted, would be required coverage for an autonomous vehicle used by a

[36] These provisions, known as the No-Fault Law, require coverage for PIP to the named insured, relatives residing in the same household, persons operating the insured motor vehicle, passengers in the motor vehicle, and other persons struck by the motor vehicle and suffering bodily injury while not an occupant to a limit of $10,000 in medical and disability benefits and $5,000 in death benefits.

[37] Section 627.727(1), F.S., requires uninsured motorist vehicle coverage if a policy provides bodily injury coverage unless it is specifically rejected.

[38] Although the legislation currently requires PIP coverage at the same amounts required of limousines, limousines are excluded from PIP requirements under s 627.733(1)(a), F.S. Thus, the effect of this provision should it remain in the TNC legislation and be enacted would be to require no PIP coverage when an autonomous vehicle is engaged in a prearranged ride, regardless of whether a human operator is physically present in the vehicle when the ride occurs.

[39] *See* the CS/CS/SB 340 staff analysis for additional information and details of the legislation, available at: http://www.flsenate.gov/Session/Bill/2017/340/Analyses/2017s00340.rc.PDF. (Last visited April 24, 2017.)

[40] *See Autonomous Cars with Ridesharing Key to GM's Vision for Future Mobility*, available at: http://www.autotrader.com/car-shopping/autonomous-cars-with-ridesharing-key-to-gms-vision-for-future-mobility-254768. *See also Ford Targets Fully Autonomous Vehicle for RideSharing in 2021; Invests in New Tech Companies, Doubles Silicon Valley Team*, available at https://media.ford.com/content/fordmedia/fna/us/en/news/2016/08/16/ford-targets-fully-autonomous-vehicle-for-ride-sharing-in-2021.html . (Last visited April 14, 2017.)

TNC to provide prearranged transportation, regardless of the presence or absence of a human driver.

The bill further requires an autonomous vehicle logged on to a digital network but not engaged in a prearranged ride to maintain insurance coverage as defined in s. 627.748(7)(b), F.S. As the TNC legislation currently stands, subsection (7)(b) requires during the identified period of time:

- Primary automobile liability coverage of at least $50,000 for death and bodily injury per person, $100,000 for death and bodily injury per incident, and $25,000 for property damage;
- PIP benefits that meet the minimum coverage amounts required under ss. 627.730-627.7405, F.S.;[41] and
- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.

The bill also requires an autonomous vehicle used to provide a transportation service to carry in the vehicle proof of the required coverage at all times while operating in autonomous mode.

Automated Mobility Districts (Section 4)

Present Situation:

The USDOE Office of Energy Efficiency and Renewable Energy (EERE) partners with business, industry, universities, and other organizations with a focus on using renewable energy and energy efficiency technologies. One of EERE's functions is to encourage the growth of such technologies by offering funding opportunities for their development and demonstration.[42] According to the EERE, most grants are selected competitively through funding opportunity announcements (FOAs) and solicitations that occur from time to time. FOA's are posted online with directions and information for finding funding opportunities, for applying for funding, and for managing awards, as well as necessary forms.[43]

The National Renewable Energy Laboratory (NERL) is a research arm of the USDOE. The NERL in a recent study introduced the term "automated mobility districts" to describe a campus-sized implementation of automated vehicle technology to realize the benefits of fully-automated vehicle mobility service. Such districts are envisioned to use fully automated and driverless vehicles, service is confined to a geographic boundary that encompasses a relatively dense area of trip attractions, and mobility within the district is restricted to or dominated by automated vehicles. The NERL has concluded that its initial study "points to the need to better understand ride-sharing scenarios and calls for future research on sustainability benefits of an AMD system at both vehicle and system levels."[44]

---

[41] These provisions, known as the No-Fault Law, require coverage for personal injury protection to the named insured, relatives residing in the same household, persons operating the insured motor vehicle, passengers in the motor vehicle, and other persons struck by the motor vehicle and suffering bodily injury while not an occupant to a limit of $10,000 in medical and disability benefits and $5,000 in death benefits.

[42] *See* the EERE website available at: https://www.energy.gov/eere/funding/eere-funding-opportunities. (Last visited April 14, 2017.)

[43] *Id.*

[44] *See Estimate of Fuel Consumption and GHG Emission Impact on an Automated Mobility District*, Chen, Young, Gonder, and Qi, presented at the 4th International Conference on Connected Vehicles & Expo in Shenzhen, China, October 19-23, 2015, available at: http://www.nrel.gov/docs/fy16osti/65257.pdf. (Last visited April 14, 2017.)

Effect of Proposed Changes:

Section 4 of the bill creates s. 316.853, F.S., to define the term "automated mobility districts" to mean a master planned development or combination of contiguous developments in which the deployment of autonomous vehicles as defined in s. 316.003, F.S., as the basis for a shared mobility system is a stated goal or objective of the development or developments. The FDOT is directed to designate such districts. In determining eligibility of a development for such designation, the FDOT must consider applicable criteria from federal agencies for autonomous mobility districts and apply those criteria to eligible developments in the state.

According to proponents, this proposed statute is expected to increase the likelihood of receiving approval of federal grant applications for funding opportunities associated with the deployment of autonomous vehicles in Florida.

Bridge Inspection Frequency (Section 6)

Present Situation:

National Bridge Inspection Standards

Federal law requires the U.S.D.O.T. Secretary, in consultation with states and Federal agencies having jurisdiction, to inventory all highway bridges on public roads; to classify the bridges according to serviceability, safety, and essentiality for public use; and to assign each bridge a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.[45] The Federal-aid Highway Act of 1968 required the Secretary to develop regulations establishing national bridge inspection standards with the primary purpose of locating and evaluating existing bridge deficiencies to ensure the safety of the traveling public. The current standards are specified in 23 C.F.R. 650, Subpart C, and apply to all highway bridges located on all public roads.

States are required by the standards to inspect all highway bridges located on public roads that are fully or partially located within the state, except for bridges owned by Federal agencies. Inspections are to be conducted in accordance with the American Association of State Highway and Transportation Officials *Manual for Condition Evaluation of Bridges*, which "serves as a standard and provides uniformity in the procedures and policies for determining the physical condition, maintenance needs, and load capacity of the Nation's highway bridges."[46]

National Inspection Frequency Revisions

Before 2005, with specific reference to frequency of bridge inspections, the national standards generally required each bridge to be inspected at regular intervals not to exceed two years but recognized that certain bridges require inspection at less than two-year intervals. Those earlier standards also recognized that the maximum inspection interval for certain bridges could be appropriately increased in cases in which past inspection reports and favorable experience and analysis justified an increase. States were authorized to submit a detailed proposal and

[45] *See* 23 U.S.C. 144 (2015).
[46] *Federal Register*, Vol. 74, no. 246, Thursday, December 24, 2009, at 68378.

supporting data for approval of an increased interval, but in no case could the maximum time period between inspections exceed four years.

Changes to the standards, effective January 13, 2005, among other items, included expansion of the bridge inspection frequency provisions, such that the FDOT is required to:

- Inspect each bridge at regular intervals not exceeding 24 months for routine inspections;[47] establish criteria to determine the level and frequency of inspection of bridges at less than 24-month intervals, considering such factors as age, traffic characteristics, and known deficiencies; and seek written approval from the Federal Highway Administration (FHWA) to inspect certain bridges at greater than 24-month intervals if past inspection findings and analyses justify an increased interval.
- Inspect underwater structural elements at regular intervals not exceeding 60 months; establish criteria to determine the level and frequency of inspection of these elements at less than 60-month intervals, considering such factors as construction material, environment, age, scour characteristics, condition rating from past inspections, and known deficiencies; and seek written approval from the FHWA to inspect certain underwater structural elements at greater than 60-month intervals, but not exceeding 72 months, if past inspection findings and analysis justify an increased interval.
- Inspect fracture critical members (FCMs)[48] at intervals not to exceed 24 months; establish criteria to determine the level and frequency of inspection of FCMs at less than 24-month intervals, considering such factors as age, traffic characteristics, and known deficiencies; and establish criteria to determine the level and frequency of damage, in-depth, and special inspections.[49]

Compliance Reviews

States are subject to an annual review for compliance with the national standards using 23 metrics[50] that contain criteria for assessing a state's compliance with each metric. A state is notified of any finding of noncompliance and provided an opportunity for correction. If a state ultimately remains noncompliant, the penalty is that the state must dedicate certain funds that would otherwise be available for projects to correcting the noncompliance.[51] The FDOT advises it has received no such notification.[52]

[47] "Routine inspection" is defined as a regularly scheduled inspection consisting of observations and/or measurements needed to determine the physical and functional condition of the bridge, to identify any changes from initial or previously recorded conditions, and to ensure that the structure continues to satisfy present service requirements. 23 C.F.R. 650.305 (4-1-16).
[48] "Fracture critical member" is defined as a member in tension, or with a tension element, whose failure would probably cause a portion of or the entire bridge to collapse. A "fracture critical member inspection" is defined as a hands-on inspection of a fracture critical member or member components that may include visual and other non-destructive evaluation. *Id.*
[49] "Damage inspection" is defined as an unscheduled inspection to assess structural damage resulting from environmental factors or human actions. "In-depth inspection" is defined as a close-up inspection of one or more members above or below the water level to identify any deficiencies not readily detectable using routine inspection procedures, with hands-on inspection being necessary at some locations. "Special inspection" is defined as an inspection scheduled at the discretion of the bridge owner, used to monitor a particular known or suspected deficiency. *Id.*
[50] *See* the *Federal Register*, Vol. 79, No. 91, Monday, May 12, 2014, for a listing of each metric and citations to their locations in the Code of Federal Regulations, as well as an overview of the compliance review process.
[51] These are National Highway Performance Program funds and Surface Transportation Block Grant Program funds. *See* 23 U.S.C. 144(h)(5) (2015).
[52] Telephone conversation with the FDOT staff, January 26, 2017.

Florida Bridge Inspection Law

The existing Florida Statutes do not comply with the described national bridge inspection frequency provisions. Currently, Florida law requires the governmental entity having maintenance responsibility for each bridge on a public transportation facility to inspect such bridges at regular intervals not to exceed two years.[53, 54]

The FDOT does have already-established criteria for routine inspections at intervals not exceeding 24 months, and for certain other inspection levels and frequencies for bridges determined to require inspection at less than 24-month intervals.[55] However, because of the existing state mandate for inspection of each bridge at intervals *not exceeding* 2 years, the FDOT has not developed nor sought written approval from the FHWA for the inspection intervals, criteria, and FHWA approvals required by the revised national standards.

Effect of Proposed Changes:

Section 6 amends s. 335.074(2), F.S., to require bridge inspections at regular intervals *as required by the Federal Highway Administration*, rather than at intervals not exceeding 2 years. This revision will allow the FDOT to seek FHWA approval of its existing procedures, develop and establish the criteria for the required increased inspection intervals, and obtain the FHWA's approval, consistent with the revised national standards. A potential but likely insignificant[56] diversion of federal funds from actual projects to noncompliance correction is avoided.

Highway Memorial Markers/Traffic-Related Fatalities (Section 7)

Present Situation:

Current Florida law contains no provision specifically relating to the placement of roadside memorial markers at or near the location of traffic-related fatalities on the State Highway System.[57] Current state law also contains no provision addressing the use of belief system symbols or imagery on roadside memorial markers. Research suggests some states ban roadside markers outright as a matter of safety, without regard to symbols or imagery. Other states, including Florida, have programs or policies for roadside markers that use a standard round sign with a safety message, such as, "Drive Safely," with the deceased person's name on the sign. Still other states appear to allow roadside memorials for a limited time, after which they are removed, but whether those memorials may display belief system symbols or imagery is not clear. Arizona's Roadside Memorial *Policy* allows markers to "incorporate various types of symbols."[58]

[53] Section 335.074(2), F.S.
[54] Section 335.074(3)(b), F.S., requires each governmental entity to report its inspections to the FDOT.
[55] *See* the FDOT Procedure 850-010-030-j, section 3.2. (Copy on file in the Senate Transportation Committee.)
[56] Telephone conversation with the FDOT staff February 1, 2017.
[57] Section 334.044(24), F.S., defines "State Highway System" as the interstate system and all other roads within the state that were under the jurisdiction of the state on June 10, 1995, and roads constructed by an agency of the state for the State Highway System, plus roads transferred to the state's jurisdiction after that date by mutual consent with another governmental entity, but not including roads so transferred from the state's jurisdiction. These facilities are facilities to which access is regulated.
[58] Copy available at: http://azdot.gov/docs/default-source/about/roadside-memorial-policy.pdf?sfvrsn=0. (Last visited April 5, 2017.)

Emblems of belief are allowed under certain conditions in National Cemeteries. The U.S. Department of Veterans Affairs National Cemetery Administration (Administration) prohibits graphics, logos, or symbols on government-furnished headstones or markers placed in National Cemeteries, other than the available emblems of belief, the Civil War Union Shield, the Civil War Confederate Southern Cross of Honor, and the Medal of Honor insignias.

An "emblem of belief" is defined in federal regulations to mean an emblem that represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent. In the absence of evidence to the contrary, the Veterans Administration will accept as genuine an applicant's statement regarding the sincerity of the religious or functionally equivalent belief system of a deceased eligible individual. The religion or belief system represented by an emblem need not be associated with or endorsed by a church, group or organized denomination. Emblems of belief do not include social, cultural, ethnic, civic, fraternal, trade, commercial, political, professional or military emblems.[59, 60]

Emblems of belief for inscription on government-furnished headstones and markers may be requested by the decedent's next of kin, a person authorized in writing by the next of kin, or a personal representative authorized in writing by the decedent.[61]

After establishing the decedent's initial eligibility, emblems of belief not available for inscription on headstones and markers may be requested by application that contains:

- Certification by the applicant that the proposed new emblem represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent;[62] and
- A three-inch diameter digitized black and white representation of the requested emblem that can be reproduced in a production-line environment.[63]

In the absence of evidence to the contrary, the Administration will accept as genuine an applicant's statement regarding the sincerity of the religious or functionally equivalent belief system. If a dispute arises, federal regulation provides for resolution first in accordance with any specific instructions given by the decedent, second in accordance with the instructions of the decedent's surviving spouse and, if no surviving spouse, in accordance with the agreement and written consent of the decedent's living next of kin.[64]

Effect of Proposed Changes:

Section 7 of the bill creates s. 335.094, F.S., relating to highway memorial markers, modeled after the National Cemetery regulations. Recognizing the FDOT's mission to provide a safe transportation system, the bill expresses Legislative intent that the FDOT allow the use of

[59] 38 C.F.R. 38.632(b)(2) (7-1-16).
[60] *See* the Administration's website, which reflects the currently approved emblems of belief, available at: https://www.cem.va.gov/hmm/emblems.asp. (Last visited April 14, 2017.)
[61] 38 C.F.R. 38.632(b)(1) (7-1-16).
[62] 38 C.F.R. 38.632(e)(1) (7-1-16).
[63] 38 C.F.R. 38.632(e)(2) (7-1-16).
[64] 38 C.F.R. 38.632(g) (7-1-16).

highway memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive safely, by memorializing people who have died as a result of a traffic-related crash.

The FDOT is required to establish a process, including any forms deemed necessary, for submitting applications for installation of memorial markers. The bill authorizes the following individuals to submit applications:

- A member of the decedent's family, which includes the decedent's spouse; a child, parent, or sibling of the decedent, whether biological, adopted, or step relation; and any lineal or collateral descendant of the decedent; or
- Any individual who is responsible under the laws of this state for the disposition of the unclaimed remains of the decedent or for other matters relating to the interment or memorialization of the decedent.

The FDOT must establish criteria for the design and fabrication of the markers, including, but not limited to, marker components, fabrication material, and size.

At no charge to the applicant, the FDOT is authorized to install a marker described as a round aluminum sign panel with white background and black letters uniformly inscribed "Drive Safely, In Memory Of" followed by the decedent's name.

On request of the applicant and payment of a reasonable fee set by the FDOT to offset production costs, the marker may incorporate the available emblems of belief approved by the National Cemetery Administration. An applicant may request a new emblem not specifically approved by the Administration for inscription on a marker as follows:

- The applicant must certify that the propose new emblem represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent.
- In the absence of evidence to the contrary, the FDOT is directed to accept as genuine an applicant's statement of the religious or functionally equivalent belief system of a decedent.

If the FDOT determines that any application is incomplete, the FDOT is directed to notify the applicant in writing of the missing information, and that no further action on the application will be taken until the missing information is provided.

For any approved application, the FDOT is directed to place a memorial marker at or near the location of the fatality in a fashion that reduces driver distraction and positions the marker as near the right-of-way line as possible.

Lastly, the bill provides that memorial markers are intended to remind passing motorists of the dangers of unsafe driving and are not intended for visitation, and directs the FDOT to remove a marker if the FDOT determines its presence creates a safety hazard. In such cases, the FDOT is directed to post a notice near where the marker was located indicating the marker has been removed and provide contact information for pickup of the marker. The FDOT must store any removed marker for 60 days and may thereafter, at its discretion, dispose of any marker not claimed.

Fast Response Contracts Cap (Section 8)

Present Situation:

FDOT Contracting Authority

Generally, the FDOT is authorized to enter into contracts for the construction and maintenance of all roads designated as part of the State Highway System, the State Park Road System, or of any roads placed under its supervision by law. This authorization includes construction and maintenance contracts for rest areas, weigh stations, and other structures, including roads, parking areas, supporting facilities and associated buildings used in connection with such facilities. With certain exceptions, these contracts must be advertised for competitive bidding, and such contracts generally must be awarded to the lowest responsible bidder.[65]

Required Surety Bond

A successful bidder on a construction or maintenance contract is required to post a surety bond in an amount equal to the awarded contract price with certain exceptions. One exception is the FDOT's authorization to waive all or a portion of the bond requirement if the contract price is $250,000 or less, and if the FDOT determines that the project is of a noncritical nature and that nonperformance will not endanger public health, safety, or property.[66] With respect to construction contracts, the FDOT may waive all or a portion of a bond for contracts of $150,000 or less if the FDOT makes the same determination.[67]

Fast Response Contracting Cap

One of the exceptions to the competitive bidding requirement currently authorizes the FDOT, under certain conditions, to enter into construction and maintenance contracts, up to the amount of $120,000, without advertising and receiving competitive bids. The FDOT may exercise this authority when the FDOT determines that doing so is in the best interest of the public for reasons of public concern, economy, or improved operations or safety, and only when circumstances dictate rapid completion of the work:

- To ensure timely completion of projects or avoidance of undue delay for other projects;
- To accomplish minor repairs or construction and maintenance activities for which time is of the essence and for which significant cost savings would occur; or
- To accomplish nonemergency work necessary to ensure avoidance of adverse conditions that affect the safe and efficient flow of traffic.[68]

The FDOT is required to make a good faith effort to obtain two or more quotes, if available, from qualified contractors before entering into any contract and give consideration to disadvantaged business enterprise participation. If, however, the work exists within the limits of an existing contract, the FDOT must make a good faith effort to negotiate and enter into a contract with the prime contractor on the existing contract. These contracts fund projects such as

[65] Section 337.11, F.S.
[66] Section 337.18(1), F.S.
[67] Section 337.14(2). F.S.
[68] Section 337.11(6)(c), F.S.

sinkhole repairs that protect roadways and other infrastructure, traffic railing and guardrail repairs needed to protect the safety of the traveling public, and drainage and inlet work that prevents roadway flooding during heavy rain.

When first enacted in 1999, the threshold amount was set at $60,000,[69] and the Legislature increased that amount to the current $120,000 in 2002.[70]

Construction Costs and Inflation

The FDOT advises that the usefulness of this statute has been limited by increased construction costs due to inflation and notes the only issue with meeting the conditions outlined in the statute is the current $120,000 cap. The FDOT performed an analysis to reach an approximate estimate of the current $120,000 contract cap converted to present-day costs, concluding that the current cap, adjusted for inflation, amounts to over $200,000.[71] The FDOT advises that increasing the current cap to $250,000 "will account for increased construction costs and extend the Department's ability to quickly respond to construction and maintenance needs that are in the best interest of safety and the economy."[72]

Effect of Proposed Changes:

Section 8 amends s. 337.11(6)(c), F.S., to increase the current $120,000 threshold amount to $250,000. The FDOT will be authorized to enter into maintenance and construction contracts, after making the necessary determination and when circumstances dictate rapid completion of the work, up to a contract amount of $250,000. The FDOT's described authority to waive all or a portion of a required surety bond remains unchanged.

Turnpike Revenue Bonds/Bond Validation (Sections 9 and 15)

Present Situation:

Bond Validation

The Division of Bond Finance (DBF) is authorized to issue revenue bonds on behalf of the FDOT to finance or refinance the cost of legislatively approved turnpike projects in accordance with s. 11(f), Art. VII of the State Constitution.[73] The state or its agencies may issue revenue bonds without a vote of the electors to finance or refinance the cost of state fixed capital outlay projects[74] authorized by law, and purposes incidental thereto, which bonds are payable solely

[69] Ch. 99-385, Laws of Fla.
[70] Ch. 2002-20, Laws of Fla.
[71] *See* the FDOT's Office of Policy Planning document, *Advisory Inflation Factors for Previous Years (1987-2016)*, available at: http://www.fdot.gov/planning/policy/costs/retrocostinflation.pdf. (Last visited January 25, 2017.)
[72] *See* the FDOT's 2017 Legislative Proposal, *Rapid-Response Contracts-Price Increase*. (On file in the Senate Transportation Committee.)
[73] Section 338.227(3), F.S.
[74] Defined in s. 216.011(1)(p), F.S., to mean the appropriation category used to fund real property (land, buildings, including appurtenances, fixtures and fixed equipment, structures, etc.), including additions, replacements, major repairs, and renovations to real property which materially extend its useful life or materially improve or change its functional use and including furniture and equipment necessary to furnish and operate a new or improved facility, when appropriated by the Legislature in the fixed capital outlay appropriation category.

from funds other than state tax revenues; e.g., toll revenues.[75] The DBF must submit a proposed bond issuance for approval by the State Board of Administration.[76] The Board, by resolution, may authorize the DBF to issue bonds on behalf of a state agency at one time or from time to time,[77] and the Board must approve all bonds to be issued by the DBF as to fiscal sufficiency.[78]

Once approved, such bonds must be validated under ch. 75, F.S.[79] In a bond validation proceeding, the entity authorized by law to issue bonds files a complaint to establish its authority to incur bonded debt, as well as the legality of all proceedings in connection with the bond issuance.[80] A final judgment validating such bonds is "forever conclusive" and may not be challenged in any court by any person or party.[81]

As described by the DBF with specific reference to Turnpike bonds:

> Bond validation is a judicial procedure through which the legality of a proposed bond issue may be determined in advance of its issuance. It serves to assure bondholders that future court proceedings will not invalidate a government's pledge to repay the bonds. Validation is generally not necessary for established borrowing programs, such as Turnpike bonds, where any legal issues relating to the bonds have been resolved previously. Validation is optional for almost all bonds issued by the Division of Bond Finance, including Public Education Capital Outlay Bonds and University Revenue Bonds. If a constitutional or statutory question arises for a proposed bond issue, a complaint for validation may be filed in circuit court even if validation is not required.[82]

Required Notice Publication

In any action to validate bonds issued pursuant to s. 338.227, F.S., the complaint must be filed in the circuit court of Leon County, and the notice required by s. 75.06, F.S., must be published in a newspaper of general circulation *in Leon County and in two other newspapers of general circulation in the state*.[83] The complaint and order of the circuit court must be served only on the state attorney of the circuit in which the action is pending (the Second Circuit).

Section 75.06(2), F.S., requires the clerk, before the date set for hearing on a complaint to validate Turnpike bonds, to publish a copy of the court's order requiring appearance at the hearing in Leon County at least once each week for two consecutive weeks, commencing with

[75] *See also* s. 215.59(2) and s. 215.79, F.S.
[76] The State Board of Administration, created by the Florida Constitution, is governed by the Governor as the Chair of the Board of Trustees, the Chief Financial Officer, and the Attorney General. The Board is one of several boards and commissions making up the Florida Cabinet system. The Florida Cabinet consists of the Attorney General, the Chief Financial Officer, and the Commissioner of Agriculture.
[77] Section 215.68, (1), F.S.
[78] Section 215.73, F.S.
[79] Section 215.82(2), F.S.
[80] *See* s. 75.02, F.S.
[81] Section 75.09, F.S.
[82] *See* copy of email from the Florida Division of Bond Finance to House staff dated January 27, 2015 (On file with the Senate Committee on Transportation).
[83] Emphasis added.

the first publication, which may not be less than 20 days before the date set for hearing, *in a newspaper in each of the counties where the proceeds of the bonds are to be expended, and in a newspaper published in Leon County.*[84]

However, if publication pursuant to s. 215.82, F.S., would require publication in more newspapers than would publication pursuant to s. 75.06, F.S., then publication pursuant to s. 75.06, F.S., controls.[85] The currently required publication is dependent upon the geographic reach of the project(s) for which funding through bond issuance is sought.

Effect of Proposed Changes:

The bill leaves validation of turnpike bonds to the discretion of the DBF and limits provisions relating to publication of the required notice.

Section 9 creates subsection (5) of s. 338.227, F.S., to:
- Provide turnpike bonds issued pursuant to that section are not required to be validated pursuant to chapter 75, F.S., notwithstanding s. 215.82, F.S.;
- Provide for validation at the option of the DBF; and
- Require the notice under s. 75.06, F.S., to be published only in Leon County.

Section 15 amends s. 215.82(2), F.S., to strike the reference to s. 338.227, F.S., and add a reference to the language in newly created s. 338.227(5), F.S.

Emergency Work Program Amendments (Section 10)

Present Situation:

The FDOT's Work Program

The FDOT is responsible for developing a five-year plan of transportation projects in partnership with other entities such as communities, metropolitan planning organizations, local governments, other state and federal agencies, modal partners, and regional entities. Each of the FDOT's districts develops a "district work program," which is a five-year listing of transportation projects planned for each fiscal year and submitted to the FDOT's central office for review. The central office then develops a "tentative work program" (TWP) based on the district work programs. The TWP is a future five-year listing of all projects planned for each fiscal year, setting forth all projects by phase to be undertaken during the ensuing fiscal year and planned for the successive four fiscal years. On July 1 of each year, the FDOT adopts the "adopted work program," (AWP) which is the five-year listing of all projects planned for each fiscal year, including the current fiscal year.[86]

The TWPs and AWPs must set out the proposed commitments and planned expenditures for the projects listed and be based on a complete, balanced financial plan.[87] Commitments[88] generally

[84] Emphasis added.
[85] *See* s. 215.82(2), F.S.
[86] *See* s. 339.135, F.S.
[87] Section 339.135(3)(a), F.S.
[88] The FDOT operates on a cash flow-commitment basis. Multi-year transportation projects begin before the total amount of cash is available to fund the entire project. Future revenues are used to pay for a project as actual expenditures occur. The

must be planned so as to deplete the estimated resources for the fiscal year.[89] Budgeting in excess of revenues received from various sources is prohibited.[90] The FDOT may include in each new TWP proposed changes to the projects contained in the previous AWP but is required to minimize changes to the four common fiscal years contained in the previous AWP and the new TWP.[91]

Amending the Adopted Work Program

The AWP may be amended, subject to certain procedures. The FDOT may amend the AWP to transfer fixed capital outlay appropriations for projects within the same appropriations category or between appropriations categories, including the following:

- To delete any project or project phase estimated to cost over $150,000;
- To add a project estimated to cost over $500,000;
- To advance or defer to another fiscal year a right-of-way phase, a construction phase, or a public transportation project phase estimated to cost over $1.5 million, with certain exceptions; or
- To advance or defer to another fiscal year any preliminary engineering phase or design phase estimated to cost over $500,000, with certain exceptions.[92, 93]

If the FDOT proposes any amendment to the AWP described above the FDOT must submit the proposed amendment to the Governor for approval.[94] The FDOT must notify:

- The chairs of the appropriations and transportation committees;
- Each member of the Legislature representing a district affected by the proposed amendment; and
- Each affected metropolitan planning organization (MPO) and unit of local government, if not notified in connection with the 14-day comment period.[95]

Current law prohibits the Governor from approving a proposed amendment until 14 days following the notification to the committee chairs, Legislative members, MPOs, and local governments.[96] If either of the appropriations committee chairs, the Senate President, or the House Speaker objects in writing to a proposed amendment within 14 days following the notification and specifies the reason for the objection, the Governor must disapprove the proposed amendment.[97]

FDOT measures and evaluates anticipated future revenues against total and planned project commitments. *See* the FDOT's *Work Program 101* computer based training available at: http://wbt.dot.state.fl.us/ois/WorkProgram101CBT/index.shtm. (Last visited December 2, 2016.)

[89] Section 339,135(3)(b), F.S.

[90] Section 339.315(3)(c), F.S.

[91] Section 339.315(4)(b)3., F.S.

[92] Section 339.135(7)(c), F.S.

[93] FDOT Districts may loan funds between districts, under specified conditions. Such loans constitute an amendment to the AWP per s. 339.135(7)(b), F.S., and are subject to the same budget amendment threshold amounts contained in s. 339.135(7)(c), F.S. The FDOT is required to index the thresholds to the Consumer Price Index or similar inflation indicators no more frequently than once a year, subject to specified notice and review procedures

[94] If the amendment deletes or defers a capacity project construction phase, affected counties and cities must be given a 14-day comment period prior to the amendment being submitted to the Governor. Section 339.135(7)(d)1., F.S.

[95] Section 339.135(7)(d)2., F.S.

[96] Section 339.135(7)(d)3., F.S.

[97] Section 339.135(7)(d)4., F.S.

Any work program amendment that also requires the transfer of fixed capital outlay[98] appropriations between categories within the FDOT, or the increase of an appropriation category, is subject to the approval of the Legislative Budget Commission (LBC), if not subject to legislation enacted in 2016.[99] The 2016 legislation required LBC approval of any work program amendment in excess of $3 million that also adds a new project, or phase thereof, to the AWP.[100]

Emergency Work Program Amendments

Recognizing that circumstances can arise that would make the above-described processes unworkable, existing law makes provision for emergencies. Notwithstanding the notification and approval requirements described above and the requirement for LBC review of amendments transferring fixed capital outlay appropriations between categories,[101] current law authorizes the FDOT secretary to request AWP amendments when an emergency[102] exists and the emergency relates to the repair or rehabilitation of any state transportation facility. The Governor may grant approval and amend the FDOT's approved budget if a delay due to the notification requirements described above would be detrimental to the interests of the state. The FDOT must immediately notify the committee chairs and the affected Legislative members, MPOs, and local governments, and provide written justification for the emergency action within seven days after approval.[103]

The FDOT notes that this exemption ensures that emergency repairs proceed quickly, protecting the safety and convenience of the traveling public.[104] However, when the 2016 legislation was enacted to require LBC approval of any work program amendment in excess of $3 million that also adds a new project, or phase thereof, to the AWP, no exception from the notification, approval, and LBC-review requirements was granted for emergencies. The FDOT seeks to clarify that emergency work program amendments are also exempt from the LBC approval requirement of the 2016 legislation. In Fiscal Year 2016-2017 so far, the FDOT advises only one work program amendment was submitted for LBC review that, under the proposed revision, would not have been submitted.[105]

---

[98] Defined in s. 216.011(1)(p), F.S., to mean the appropriation category used to fund real property (land, buildings, including appurtenances, fixtures and fixed equipment, structures, etc.), including additions, replacements, major repairs, and renovations to real property which materially extend its useful life or materially improve or change its functional use and including furniture and equipment necessary to furnish and operate a new or improved facility, when appropriated by the Legislature in the fixed capital outlay appropriation category.

[99] Section 339.135(7)(g), F.S.

[100] Section 339.135(7)(h), F.S.

[101] Section 339.135(7)(e), F.S., also expressly notwithstands the provisions of s. 216.772(2), F.S., relating to certain other notice, review, and objection procedures with respect to appropriations, and s. 216.351, F.S., providing that subsequent inconsistent laws supersede that chapter only by express reference to that section,.

[102] Defined by s. 252.34(4), F.S., to mean any occurrence, or threat thereof, whether natural, technological, or manmade, in war or in peace, which results or may result in substantial injury or harm to the population or substantial damage to or loss of property.

[103] Current law prohibits amending the AWP for emergency purposes unless the FDOT's comptroller certifies the availability of sufficient funds. Section 339.135(7)(e), F.S.

[104] *See* the FDOT's 2017 Legislative Proposal, *Work Program Amendments-LBC/Emergency Projects*. (On file in the Senate Transportation Committee.)

[105] *See* the FDOT's response to staff questions. (On file in the Senate Transportation Committee.)

Effect of Proposed Changes:

Section 10 amends s. 339.135(7)(e), F.S., relating to emergency amendment of the FDOT's work program, to insert a cross-reference to subsection (h), relating to the 2016 requirement for LBC review and approval of any work program amendment in excess of $3 million that also adds a new project, or phase thereof, to the AWP. This revision results in an exception to LBC review and approval of such amendments in the case of emergencies, under the conditions specified in current law.

Florida Highway Beautification Council Repeal/FDOT Grant Program (Section 11)

Present Situation:

The Council's Role

Section 339.2405, F.S., established the Florida Highway Beautification Council (Council) within the FDOT in 1987. The Council consists of seven members appointed by and serving at the pleasure of the Governor, with each chair selected by the Council members and serving a two-year term. Currently, all appointed members must be residents of this state. Of the seven members, two must be private citizens and one each must be:

- A licensed landscape architect;
- A representative of the Florida Federation of Garden Clubs, Inc.;
- A representative of the Florida Nurserymen and Grower Association;
- An FDOT representative designated by the FDOT secretary; and
- A representative of the Department of Agriculture and Consumer Services.

The Council is required to meet at least semiannually and may prescribe, amend, and repeal bylaws. The Council's duties are to:

- Provide information to local governments and local highway beautification councils about the state highway beautification grants program;
- Accept and review grant requests from local governments;
- Establish rules for evaluating and prioritizing the grant requests;
- Maintain a prioritized list of approved grant requests;
- Assess the feasibility of planting and maintain indigenous wildflowers and plants, instead of sod groundcovers, along the rights-of-way of state roads and highways;
- At the request of the FDOT secretary, review and make recommendations on any other highway beautification matters; and
- Annually submit to the FDOT secretary a proposal recommending the level of grant funding.

Local councils may be created by local governmental entities or by the Legislature. The local government or governments of the area in which the project is located must approve a grant request before its submission to the Council. After receiving recommendations from the Council, the FDOT secretary must award grants to local governmental entities in the order they appear on the Council's prioritized list and in accordance with available funding.[106]

[106] Section 334.044(26), F.S., requires the FDOT to allocate no less than 1.5 percent of the amount contracted for roadway and bridge construction projects for the purchase of plant materials. The FDOT advises that highway beautification grant funds are included in its calculation of the 1.5 percent requirement. *See* the FDOT's response to staff questions. (On file in the Senate Transportation Committee.)

Beautification grants may be requested only for projects to beautify through landscaping roads on the State Highway System. A grant request must identify all costs associated with the project, including sprinkler systems, plant materials, equipment, and labor. Grant funds must provide for the costs of purchase and installation of a sprinkler system and the cost of plant materials and fertilizer. Grant funds may provide for the costs for labor associated with the installation of plantings.

Each local government that receives a grant is responsible for paying any costs for water, sprinkler system maintenance, and landscaped area maintenance in accordance with a maintenance agreement with the FDOT. Except as provided in the grant, each local government is also responsible for paying any costs for labor associated with plant installation. The FDOT is authorized to provide by contract services to maintain such landscaping at a level not to exceed the cost of routine maintenance of an equivalent un-landscaped area.

The FDOT's Role

The FDOT reports that each FDOT District appoints a District Highway Beautification Council Grant Manager (District Manager). The District Manager works with the District Landscape Architect and the State Transportation Landscape Architect (STLA), promoting the grant program and assisting applicants through the grant process. Each District Manager compiles and submits to the STLA a district-wide list of all applications received, and the STLA then compiles a statewide list. After the Council ranks each project, the STLA produces a Ranked Listing of the projects. Grants are awarded in the ranked order until the remaining budget is insufficient to fund the next ranked project.[107]

Recent Grant Funding and Council Expenses

The line items for highway beautification included in the FDOT's budget for the most recent five Fiscal Years is as follows:

Fiscal Year	Line-Item
2012-2013	$1,000,000
2013-2014	$1,000,000
2014-2015	$1,800,000
2015-2016	$1,817,000
2016-2017	$1,800,000[108]

The FDOT is required to provide staff support services to the Council. For Fiscal Years 2012-13 through 2016-17, the FDOT advises it expended $167,500 for administrative costs and travel to support the Council.[109]

[107] *See* the FDOT's 2017 Legislative Proposal, *Repeal of the Florida Highway Beautification Council*. (On file in the Senate Transportation Committee.)
[108] *Id.*
[109] *See* the FDOT's *Estimated Admin and Travel Expense to Administer the Grants*. (On file in the Senate Transportation Committee.)

Effect of Proposed Changes

The bill repeals the Florida Highway Beautification Council and creates the Florida Highway Beautification Grant Program within the FDOT, with the FDOT secretary awarding grants to local governmental entities for beautification of roads on the State Highway System based on the FDOT's prioritized list.

Section 11 amends s. 339.2405, F.S., creating the Grant Program within the FDOT and repealing all of the provisions relating to the Council, its membership, chair selection, meeting frequency, quorum requirements, compensation, and bylaws, etc.

The current Council duties are transferred to the FDOT, with the exception of assessing the feasibility of planting and maintaining indigenous wildflowers and plants, instead of sod groundcovers, using data from other states. The bill removes the required assessment, as it has been accomplished. The FDOT continues its efforts to improve aesthetics and driver safety while lowering maintenance costs through its Wildflower and Natural Areas Program.[110]

Also removed to conform to the repeal of the Council is its authorization to make recommendations on other highway beautification matters and direction to the FDOT secretary to provide staff support services to the Council. Authorization to create local councils remains in place. The FDOT would rank the requests, rather than the Council, and the FDOT secretary would award grants based on the FDOT's prioritized list of approved grant requests, until the remaining budget is insufficient to fund the next ranked project.

South Florida Regional Transportation Authority (SFRTA) Funding and Contracting (Sections 712-14 and 16)

Present Situation:

The SFRTA and Funding

The SFRTA, created in 2003, is an agency of the state established in part II of ch. 343, F.S. The governing body of ten voting members includes:

- One county commissioner each, elected by the county commission from Broward, Miami-Dade, and Palm Beach Counties;
- One citizen who is not a commission member, appointed by each county commission;
- An FDOT district secretary or his designee appointed by the FDOT secretary; and
- Three citizens appointed by the Governor.

Members serve four-year terms, except that the terms of the Governor's appointees must be concurrent.

The SFRTA is authorized to coordinate, develop, and operate a regional transportation system in the tri-county area of Broward, Miami-Dade, and Palm Beach Counties. The SFRTA provides commuter rail service (Tri-Rail) for residents and visitors in the area served. Statutory provisions

[110] *See* the FDOT website for further information on the current program, including links to the referenced report, a history of the program, the FDOT's current wildflower procedure, and other related details available at: http://www.fdot.gov/designsupport/wildflowers/default.shtm. (Last visited March 2, 2017.)

require each of the three counties served to provide no less than $2.67 million annually, dedicated by each governing body by October 1 of each year, which funds may be used for capital, operations, and maintenance.[111] Additionally, current law requires each county to annually fund SFRTA operations in an amount no less than $1.565 million.[112]

Further, if the SFRTA, by December 31, 2015, had not received federal matching funds based on the dedicated $2.67 million in tri-county funding, current law provides that funding is repealed. The SFRTA's 2016 Comprehensive Annual Financial Report reflects that the three counties contributed approximately $1.6 million each towards the SFRTA's operating budget in Fiscal Years 2015 and 2016.[113] Thus, it appears the SFRTA received no federal matching funds, and the counties are no longer required to provide the annual $2.67 million to the SFRTA.

The SFRTA is currently responsible for dispatching, maintenance, and inspection of the South Florida Rail Corridor.[114] Having assumed such responsibility, the FDOT is required to annually transfer to the SFRTA a total of $42.1 million as follows:

- $15 million for SFRTA operations, maintenance, and dispatch; and
- $27.1 million for operating assistance, corridor track maintenance, and contract maintenance for the SFRTA.[115]

According to a Florida Transportation Commission report, the FDOT has agreed to cover 100 percent of annual maintenance costs up to $14.4 million, with shared costs in excess of that amount, pursuant to an Operating Agreement between the FDOT and the SFRTA setting out agreed-upon percentages.[116] The SFRTA's 2016 Comprehensive Annual Financial Report indicates that of the $102,201,506 million in total revenue for 2016, the FDOT contributed $55,260,036 million or 54.1 percent.[117]

The FDOT's Oversight Role

The SFRTA may not commit any funds provided by the FDOT without the FDOT's approval. The FDOT may not unreasonably withhold approval. At least 90 days before advertising any procurement or renewing any existing contract using state funds for payment, the SFRTA must notify the FDOT of the proposed procurement or renewal and the proposed terms. If the FDOT objects in writing within 60 days of receipt of the notice, the SFRTA may not proceed. Failure of the FDOT to object within 60 days is deemed consent.[118] To enable the FDOT's evaluation of the SFRTA's proposed uses of state funds, the SFRTA must annually provide the FDOT with its proposed budget and with any additional documentation or information required by the FDOT.[119]

[118] Section 348.58(4)(c)1., F.S.
[119] Section 348.58(4)(c)2., F.S.

Recent Contracting

According to the SFRTA, services for the operation of Tri-Rail are currently provided through four separate contracts covering train operations, maintenance of equipment, train dispatching, and station maintenance. Those contracts expire in June of this year. The SFRTA made a decision to bundle the four contracts into one and, on September 22, 2016, issued a Request for Proposals (RFP). Eighty percent of the scoring of the proposals was to be based on technical ability to do the work; 20 percent was to be based on price. The RFP cautioned proposers not to condition their prices. Proposals were due by December 16, 2016.[120]

According to the SFRTA, five of the six proposers submitted with their price proposals "extraneous" pages with labels such as "Proposal Exceptions," "Exceptions to RFP," and "Pricing Assumptions."[121] Other examples included pages indicating that their price did not include the cost of certain requirements in the RFP or that the price assumed facts that contradicted the RFP.[122] The SFRTA's procurement director determined five of the six proposers had materially and significantly conditioned their proposals — specifically, their price – and that the proposals were therefore nonresponsive and should be rejected, based on requirements in the RFP.[123]

On January 27, 2017, the SFRTA's governing board approved a Notice of Intent of Contract Award for Request for Proposal 16-010 "Operating Services," reflecting a determination to enter into a contract with an initial seven-year term, plus a three-year renewal option, for a price of $511,418,271.65.[124]

A request for an injunction to block Tri-Rail from awarding the contract was rejected following issuance of a temporary injunction to enable judicial review of allegations of unfair disqualification. The judge in the case ruled that the plaintiff failed to show any entitlement to a preliminary injunction and had not established a likelihood of success on the merits of their case." [125] Four of the five rejected bidders have timely filed a bid protest with the SFRTA, which is currently under review.[126]

The Florida Single Audit Act/Agreements Funded with Federal or State Assistance

Section 215.97, F.S., creates the Florida Single Audit Act. Among its stated purposes is to establish uniform state audit requirements for state financial assistance provided by state agencies to nonstate entities to carry out state projects.

- "State financial assistance" is defined to mean state resources, not including federal financial assistance and state matching on federal programs, provided to a nonstate entity to carry out a state project, including the types of state resources stated in the rules of the Department of Financial Services established in consultation with all state awarding agencies. State financial assistance may be provided directly by state awarding agencies or indirectly by nonstate entities. The term does not include procurement contracts used to buy goods or services from vendors and contracts to operate state-owned and contractor-operated facility.
- "Nonstate entity" means a local government entity, higher education entity, nonprofit organization, or for-profit organization that receives state financial assistance.

Section 215.971, F.S., requires an agreement that provides state financial assistant to a recipient or subrecipient to include all of the following:

- A scope of work that clearly establishes the tasks to be performed;
- A division of the agreement into deliverables that must be received and accepted in writing by the agency before payment. Deliverables must be directly related to the scope of work. The agreement must specify the required minimum level of service to be performed and criteria for evaluating completion of each deliverable;
- Specification of the financial consequences for failure to perform the minimum level of service.
- Specification that a recipient may expend funds only for allowable costs, and that any balance of unobligated funds and any funds paid in excess of the amount to which the recipient is entitled must be refunded to the state agency; and
- Any additional information required by the Florida Single Audit Act.

In 2016, the FDOT's Inspector General engaged in an effort "to determine the nature and extent of SFRTA's expenditures and whether their financial records were in compliance with applicable laws, rules, and regulations."[127] Based on the SFRTA's response, the Inspector General requested a determination from the Department of Financial Services whether appropriations to the SFRTA constitute "state financial assistance."[128] The Inspector General's report found:

> SFRTA, as determined by the Department of Financial Services (DFS), is a Special District and a nonstate entity that is a recipient of state financial

[127] *See Audit Report No. 141-4002*, available at: http://www.fdot.gov/ig/Reports/14I-4002%20Final.pdf. (Last visited March 18, 2017.)
[128] *Audit Report* at 7.

> assistance.[129] We determined the Operating Agreement[130] between SFRTA and the department does not fully comply with mandatory provisions required by Section 215.971, F.S. nor does it contain the procurement provisions outlined in Chapter 287, F.S. We also determined $153 million of state appropriations was omitted from audit coverage in accordance with the Florida Single Audit Act for fiscal years 2010/11 to 2014/15. Additionally, SFRTA did not provide a standard operating budget-to-actual expenditure report based upon the use of each grant or funding source.[131]

Effect of Proposed Changes:

The bill places restrictions on the SFRTA's contracting authority and use of state funds and revises the FDOT's oversight role.

Section 13 amends s. 343.54, F.S., to prohibit the SFRTA from entering into, extending, or renewing any contract or other agreement under that part without the FDOT's prior review and written approval of the SFRTA's proposed expenditures, if such contract or agreement may be funded, in whole or in part, with FDOT-provided funds. The prohibition applies notwithstanding any provision of that part, which contains the SFRTA's authorization to enter into contracts. The SFRTA must obtain the FDOT's approval, under the funding condition specified, to enter into, extend, or renew any contract or other agreement.

Section 14 amends s. 343.48(4)(c)1., F.S., to remove the current statutory language:

- Prohibiting the FDOT from unreasonably withholding its approval of the SFRTA's commitment of FDOT-provided funds;
- Requiring the SFRTA to notify the FDOT of a proposed procurement or renewal before advertising any procurement or renewing any existing contract that will rely on state funds;
- Requiring the FDOT to object in writing and, if timely, prohibiting the SFRTA from proceeding with the procurement or renewal;
- Providing that the FDOT's failure to timely object constitutes consent; and
- Providing no-impairment-of-contract language for contracts existing as of June 30, 2012.

This section replaces the notice and objection process with language deeming funds provided to the authority by the FDOT under that section to be state financial assistance provided to a

[129] The DFS determined the SFRTA had for nine years submitted financial audit reports per s. 28.39, F.S., as a special district; that a special district as defined by statute is a unit of government created for a special purpose by a special act with jurisdiction to operate within a limited geographic boundary; that the SFRTA was created by the South Florida Regional Transportation Authority Act for the special purpose of operating and managing a transit system in Broward, Miami-Dade and Palm Beach Counties; and that the law limits operations to those counties. The DFS also noted the SFRTA is a state project (a state program that provides state financial assistance to a nonstate organization) that must be assigned a Catalog of State Financial Assistance number and, finally, since state law created the SFRTA to carry out a state project, the SFRTA is a recipient of state financial assistance. *Audit Report,* Appendix J.

[130] The report notes a June 2013 operating agreement between the FDOT and the SFRTA for continuing SFRC operating rights for a 14-year period that included SFRTA's agreement to conduct all activities in accordance with applicable federal and state laws and regulations and the operating rules, policies, and procedures adopted pursuant to such laws and regulations. *Id.* at 5.

[131] *Audit Report* at 1.

nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971, F.S. The FDOT is directed to provide the funds in accordance with the terms of a written agreement to be entered into between the SFRTA and the FDOT. The agreement must provide for FDOT review, approval, and audit of the SFRTA's expenditure of such funds and must include such other provisions as are required by applicable law. The FDOT is expressly authorized to advance the SFRTA one-fourth of the total funding provided under that section for a state fiscal year at the beginning of each state fiscal year. Thereafter, the bill requires monthly payments over the fiscal year on a reimbursement basis as supported by invoices and such additional documentation and information as the FDOT may reasonably require, and a reconciliation of the advance against remaining invoices in the last quarter of the fiscal year.

This section of the bill also modifies the SFRTA's existing obligation to provide the FDOT with its proposed budget and any additional documentation or information required by the FDOT for its evaluation of SFRTA-proposed uses of state funds by requiring the SFRTA to *promptly* provide such documentation or information.
.

Section 12 amends s. 343.52, F.S., to define "department" within Part II of ch. 343, F.S. to mean the Department of Transportation.

Section 16 of the bill amends s. 343.53, F.S., revising a cross-reference to conform to changes made in the act.

Transportation Disadvantaged Services/Transportation Network Companies (Section 17)

Present Situation:

The Legislature created the Transportation Disadvantaged (TD) Program in Part I of ch. 427, F.S., in 1979.[132] The TD Program coordinates a network of local and state programs providing transportation services for elderly, disabled, and low-income citizens. In 1989, the Legislature created the Commission for the Transportation Disadvantaged (commission) as an independent entity within the Florida Department of Transportation.[133] The purpose of the commission is to accomplish the coordination of transportation services provided to the transportation disadvantaged,[134] with the goal of such coordination to assure the cost-effective provision of transportation by qualified community transportation coordinators[135] or transportation operators.[136] The commission describes the program as "a shared-ride service which, depending

[132] 79-180, L.O.F.
[133] 89-376, L.O.F.
[134] A "transportation disadvantaged person" is a person who because of physical or mental disability, income status, or age is unable to transport himself or herself or to purchase transportation and is, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high-risk or at-risk as defined in s. 411.202, F.S.Section 427.011(1), F.S.
[135] Section 427.011(5), F.S.
[136] A "transportation operator" is one or more public, private for-profit, or private nonprofit entities engaged by the community transportation coordinator to provide service to transportation disadvantaged persons pursuant to a coordinated system service plan. Section 427.011(6), F.S.

on location, may be provided using the fixed route transit or paratransit (door-to-door) service."[137]

Section 427.011(9), F.S., defines "paratransit" to mean those elements of public transit that provide service between specific origins and destinations selected by the individual user with such service being provided at a time agreed upon by the user and provider of the service. That section also specifies that paratransit services are provided by taxis, limousines, "dial-a-ride," buses, and other demand-responsive operations characterized by their nonscheduled, nonfixed route nature. Paratransit service has its own challenges, however, such as waiting long periods of time for a ride home after a doctor's visit or problems getting to a fixed route stop.

Some communities are employing TNCs, such as Uber, Lyft, and SideCar, to improve mobility for transportation disadvantaged persons. For example, the Massachusetts Bay Transportation Authority partnered with Uber and Lyft to provide paratransit services.[138] Here in Florida, the Pinellas Suncoast Transit Authority (PSTA) recently expanded a small pilot project to the entire county. Branded as Direct Connect, the program is designed to give low-cost rides to designated bus stops using Uber, United Taxi, and Lyft.[139] However, current state law does not expressly include TNCs as a provider of transportation disadvantaged services.

Effect of Proposed Changes:

Section 17 amends s. 427.011, F.S., to re-order the definitions alphabetically, re-numbering current subsection (9) as subsection (7), and includes TNCs as a provider of paratransit service, thereby allowing TNCs to provide transportation disadvantaged services.

Federal Pilot Program Enrollment

Present Situation:

Section 334.044, F.S., sets out a number of the FDOT's powers and duties. Among those are the FDOT's power and duty to:

- Conduct research studies and collect data necessary for the improvement of the state transportation system;
- Conduct research and demonstration projects relative to innovative transportation technologies; and
- Identify, obtain, and administer all federal funds available to the FDOT for all transportation purposes.

Effect of Proposed Changes:

Section 18 of the bill creates an unspecified section of Florida law authorizing the Secretary of Transportation to enroll the State of Florida in any federal pilot program or project for the

[137]*See* the Commission's website available at: http://www.fdot.gov/ctd/communitytransystem.htm. (Last visited March 27, 2017.)

collection and study of data for the review of federal or state roadway safety, infrastructure sustainability, congestion mitigation, transportation system efficiency, autonomous vehicle technology, or capacity challenges.

While research reveals no provision of law expressly authorizing the FDOT to enroll the state in any federal pilot program or project, the FDOT's existing powers and duties appear to grant sufficient authority for the FDOT to enroll the state in a federal pilot program or project relating to the collection and study of data for review of the identified subject matters.

Section 19 provides the act take effect on July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides that no county or municipality shall be bound by any general law requiring such county or municipality to spend funds or to take an action requiring the expenditure of funds unless the legislature has determined that such law fulfills an important state interest and unless: funds have been appropriated that have been estimated at the time of enactment to be sufficient to fund such expenditure; the legislature authorizes or has authorized a county or municipality to enact a funding source not available for such county or municipality on February 1, 1989, that can be used to generate the amount of funds estimated to be sufficient to fund such expenditure by a simple majority vote of the governing body of such county or municipality; the law requiring such expenditure is approved by two-thirds of the membership in each house of the legislature; the expenditure is required to comply with a law that applies to all persons similarly situated, including the state and local governments; or the law is either required to comply with a federal requirement or required for eligibility for a federal entitlement, which federal requirement specifically contemplates actions by counties or municipalities for compliance.

Article VII, s. 18(d) of the Florida Constitution provides laws adopted to require funding of pension benefits existing on the effective date of this section, criminal laws, election laws, the general appropriations act, special appropriations acts, laws reauthorizing but not expanding then-existing statutory authority, laws having insignificant fiscal impact, and laws creating, modifying, or repealing noncriminal infractions, are exempt from the requirements of this section.

An exemption from the mandates provision may apply if the expected fiscal impact on municipalities/counties is less than $2 million. Because the fiscal impact is anticipated to be less than $2 million, the bill appears to be exempt from the mandate requirements.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

The provisions relating to highway memorial markers and incorporation of emblems of belief may be subject to challenge under the First Amendment of the U.S. Constitution.[140]If such a legal challenge is made, case law does not provide clear direction as to the legal standard to be used as different "tests" of constitutionality have been applied in establishment clause cases based on various fact patterns leading to an inconsistency in results.[141]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Section 2: The trucking industry may realize an insignificant positive fiscal impact resulting from the additional weight allowance for natural gas vehicles due to potentially fewer overweight citations.

Section 3: Riders in autonomous vehicles used by TNCs to provide transportation may benefit from the bill's required insurance coverage. The insurance industry may benefit from increased sales.

Section 7: Applicants requesting memorial markers incorporating emblems of belief may be required to pay the fee to be set by the FDOT to offset production costs.
Section 8: The FDOT notes an indeterminate positive fiscal impact to the extent a private sector company is awarded a fast response contract and is not required to obtain a surety bond.[142]

C. Government Sector Impact:

Section 2: The FDOT may realize a loss of revenues relating to fewer overweight citations being written. This revenue loss may be offset to an extent by reduced regulatory costs. A potential withholding of federal funds is avoided.

Section 6: The FDOT will incur additional administrative expenses associated with developing the federally required bridge inspection policies and criteria, seeking FHWA approval, and revising relevant policies and procedures, which expenses are expected to be absorbed within existing resources. The FDOT expects cost savings to the extent the FHWA approves bridges for extended inspection frequencies. The FDOT estimates

[140] Congress shall make no law respecting an establishment of religion…." U.S. Const. amend. I.
[141] *Utah Highway Patrol Association v. American Atheists, Inc.*, decided October 31, 2011, available at: https://www.supremecourt.gov/opinions/11pdf/10-1276.pdf. (Last visited April 5, 2017.)
[142] *See* the FDOT's 2017 Legislative Proposal, *Rapid Response Contracts – Price Cap Increase*. (On file in the Senate Transportation Committee.)

approximately $500,000 in inspection services could be redirected to bridge repair, rehabilitation, and/or replacement.[143]

Section 7: The FDOT may experience administrative expenses associated with the memorial marker program, offset by the authorized fee for markers incorporating emblems of belief, in an indeterminate amount.

Section 9: The DBF may avoid some costs if it is not required to validate turnpike revenue bonds.

Section 11: Based on costs for Fiscal Years 2012-13 through 2016-17, the FDOT is expected to realize a positive fiscal impact of approximately $33,400 annually resulting from repeal of the Florida Highway Beautification Council, due to removal of the FDOT's duty to provide for administrative costs and travel to support the Council. The FDOT will absorb administrative expenses associated with revising Rule Chapter 14-40, F.A.C., and implementing the grant program, within existing resources.

Sections 13 and 14: The FDOT and the SFRTA may incur additional administrative expenses associated with the FDOT's review, written approval, and audit of the SFRTA's proposed expenditures using any funding provided to the SFRTA under s. 343.58(4), F.S., as well as administrative expenses associated with the requires reimbursement and reconciliation process.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 316.545, 335.074, 337.11, 338.227, 339.135, 339.2405, 343.52, 343.54, 343.58, 215.82, and 343.53.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 13, 2017:
The committee substitute:

- Directs the FDOT, in consultation with the Department of Highway Safety and Motor Vehicles (DHSMV), to develop a Florida Smart City Challenge grant program;

[143] *See* the FDOT's 2017 Legislative Proposal, *Bridge Inspection Frequency*. (On file in the Senate Transportation Committee.)

- Revises autonomous vehicle alert system requirements, consistent with current law, to clarify that an autonomous vehicle may operate in autonomous mode without a person physically present in the vehicle;
- Directs the FDOT to establish a process for applications for placement of roadside memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive safely.
- Applies certain insurance coverage requirements, should legislation addressing insurance for transportation network companies (TNCs) become law, to autonomous vehicles used by TNCs to provide transportation, regardless of whether a human operator is physically present in the vehicle when the ride occurs;
- Removes the provisions requiring the SFRTA to terminate the Operating Services contract and:
  - Deems funds provided by the FDOT to the SFRTA to be state financial assistance subject to specified accountability requirements;
  - Requires the FDOT to provide funds to the SFRTA in accordance with a written agreement containing certain provisions;
  - Authorizes the FDOT to advance funds to the SFRTA at the start of each fiscal year, with monthly payments for maintenance and dispatch on the South Florida Rail Corridor over the fiscal year on a reimbursement basis;
- Expressly includes transportation network companies (TNCs) in the list of providers of services for the transportation disadvantaged; and
- Authorizes the FDOT Secretary to enroll the state in any federal pilot program or project for the collection and study of specified types of transportation-related data.

CS by Transportation March 28, 2017:
A technical amendment to the original bill was adopted to clarify that the 2,000-pound weight allowance for natural gas-powered trucks is in addition to the 500-pound weight allowance for idle reduction technology.

B. Amendments:

None.

890844

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Between lines 134 and 135
insert:

Section 1. Subsection (1) and paragraph (a) of subsection (4) of section 20.23, Florida Statutes, are amended to read:

20.23 Department of Transportation.—There is created a Department of Transportation which shall be a decentralized agency.

(1)(a) The Department of Transportation shall consist of:

890844

1. A central office that establishes policies and procedures; and

2. Districts that carry out projects as authorized or required under the policies and procedures implemented by the central office pursuant to paragraph (3)(a).

(b) ~~(a)~~ The head of the Department of Transportation is the Secretary of Transportation. The secretary shall be appointed by the Governor from among three persons nominated by the Florida Transportation Commission and shall be subject to confirmation by the Senate. The secretary shall serve at the pleasure of the Governor.

(c) ~~(b)~~ The secretary shall be a proven, effective administrator who by a combination of education and experience shall clearly possess a broad knowledge of the administrative, financial, and technical aspects of the development, operation, and regulation of transportation systems and facilities or comparable systems and facilities.

(d) ~~(c)~~ The secretary shall provide to the Florida Transportation Commission or its staff~~,~~ such assistance, information, and documents as are requested by the commission or its staff to enable the commission to fulfill its duties and responsibilities.

(e) ~~(d)~~ The secretary may appoint up to three assistant secretaries who shall be directly responsible to the secretary and who shall perform such duties as are assigned by the secretary. The secretary shall designate to an assistant secretary the duties related to enhancing economic prosperity, including, but not limited to, the responsibility of liaison with the head of economic development in the Executive Office of

890844

the Governor. Such assistant secretary shall be directly responsible for providing the Executive Office of the Governor with investment opportunities and transportation projects that expand the state's role as a global hub for trade and investment and enhance the supply chain system in the state to process, assemble, and ship goods to markets throughout the eastern United States, Canada, the Caribbean, and Latin America. The secretary may delegate to any assistant secretary the authority to act in the absence of the secretary.

(f)1.~~(c)~~ Any secretary appointed after July 1, 2019 ~~5, 1989~~, and the assistant secretaries are ~~shall be~~ exempt from ~~the provisions of~~ part III of chapter 110 and shall receive compensation commensurate with their qualifications and competitive with compensation for comparable responsibility in other public sector organizations and in the private sector.

2. The salaries of the secretary and the assistant secretaries shall be established by the Florida Transportation Commission and determined by a market analysis focused on comparably skilled individuals in other public sector organizations, including, but not limited to, expressway authorities, aviation authorities, and port authorities, and on comparably skilled individuals in the private sector. The market analysis must serve as a basis for ascertaining compensation levels required to retain the secretary and assistant secretaries in their positions within the department and to attract external talent that can fulfill the department's mission and effect change. The salary of the secretary must be at least $180,000. The salary of an assistant secretary must be 10 percent below that of the secretary who appoints him or her.

(4)(a)1. The operations of the department shall be organized into seven districts, each headed by a district secretary, and a turnpike enterprise and a rail enterprise, each enterprise headed by an executive director. The district secretaries and the executive directors shall be registered professional engineers in accordance with ~~the provisions of~~ chapter 471 or the laws of another state, or, in lieu of professional engineer registration, a district secretary or executive director may hold an advanced degree in an appropriate related discipline, such as a Master of Business Administration.

2. The district secretaries and the executive director of the turnpike enterprise are exempt from part III of chapter 110 and shall receive compensation commensurate with their qualifications and competitive with compensation for comparable responsibility in other public sector organizations and in the private sector. The salaries of the district secretaries and the executive director of the turnpike enterprise must be 15 percent below that of the secretary, as determined under subparagraph (1)(f)2., who is head of the department at the time the district secretaries and the executive director of the turnpike enterprise take their positions.

3. The headquarters of the districts shall be located in Polk, Columbia, Washington, Broward, Volusia, Miami-Dade, and Hillsborough Counties. The headquarters of the turnpike enterprise shall be located in Orange County. The headquarters of the rail enterprise shall be located in Leon County. In order to provide for efficient operations and to expedite the decisionmaking process, the department shall provide for maximum decentralization to the districts.

408222

LEGISLATIVE ACTION

Senate . House

. . . . .

The Committee on Appropriations (Simmons) recommended the following:

Senate Amendment (with title amendment)

Between lines 134 and 135
insert:

Section 1. Subsection (1) of section 212.055, Florida Statutes, is amended to read:

212.055 Discretionary sales surtaxes; legislative intent; authorization and use of proceeds.—It is the legislative intent that any authorization for imposition of a discretionary sales surtax shall be published in the Florida Statutes as a

408222

subsection of this section, irrespective of the duration of the levy. Each enactment shall specify the types of counties or municipalities authorized to levy; the rate or rates which may be imposed; the maximum length of time the surtax may be imposed, if any; the procedure which must be followed to secure voter approval, if required; the purpose for which the proceeds may be expended; and such other requirements as the Legislature may provide. Taxable transactions and administrative procedures shall be as provided in s. 212.054.

(1) ~~CHARTER~~ COUNTY, MUNICIPALITY, AND REGIONAL TRANSPORTATION SYSTEM SURTAX.—

(a) Each charter county that has adopted a charter, each county the government of which is consolidated with that of one or more municipalities, ~~and~~ each county that is within or under an interlocal agreement with a regional transportation or transit authority created under chapter 343 or chapter 349, and each municipality and county under paragraph (b) may levy a discretionary sales surtax, subject to approval by a majority vote of the electorate of the county or municipality or by a charter amendment approved by a majority vote of the electorate of the county.

(b)1. A municipality with a population greater than 270,000 located in a county with a population greater than 1.28 million but less than 1.5 million may levy a discretionary sales surtax as provided in this subsection. The discretionary sales surtax may only be levied within the limits of the municipality.

2. The levy of a discretionary sales surtax pursuant to this paragraph does not prohibit the county in which the municipality is located from levying a discretionary sales

surtax as otherwise provided in this section. If a municipality has levied a discretionary sales surtax as described in this paragraph, the county within which the municipality is located may also levy a discretionary sales surtax, at the same level as the municipality, pursuant to referendum of the voters of the county who reside outside the municipality. The proceeds from such a discretionary sales surtax may only be collected outside the municipality limits. Alternatively, the municipality and county, by interlocal agreement, may levy such a discretionary sales surtax by referendum of all the voters of the county.

(c) ~~(b)~~ The rate of the discretionary sales surtax shall be up to 1 percent.

(d) ~~(c)~~ The proposal to adopt a discretionary sales surtax as provided in this subsection and to create a trust fund within the county or municipality accounts shall be placed on the ballot in accordance with law at a time to be set at the discretion of the governing body.

(e) ~~(d)~~ Proceeds from the surtax shall be applied to as many or as few of the uses enumerated below in whatever combination the county commission or municipal governing body deems appropriate:

1. Deposited by the county or municipality in the trust fund and shall be used for the purposes of development, construction, equipment, maintenance, operation, supportive services, including a countywide or municipality-wide bus system, on-demand transportation services, and related costs of a fixed guideway rapid transit system;

2. Remitted by the governing body of the county or municipality to an expressway, transit, or transportation

authority created by law to be used, at the discretion of such authority, for the development, construction, operation, or maintenance of roads or bridges in the county or municipality, for the operation and maintenance of a bus system, for the operation and maintenance of on-demand transportation services, for the payment of principal and interest on existing bonds issued for the construction of such roads or bridges, and, upon approval by the county commission or municipal governing body, such proceeds may be pledged for bonds issued to refinance existing bonds or new bonds issued for the construction of such roads or bridges;

3. Used by the county or municipality for the development, construction, operation, and maintenance of roads and bridges in the county or municipality; for the expansion, operation, and maintenance of bus and fixed guideway systems; for the expansion, operation, and maintenance of on-demand transportation services; and for the payment of principal and interest on bonds issued for the construction of fixed guideway rapid transit systems, bus systems, roads, or bridges; and such proceeds may be pledged by the governing body of the county or municipality for bonds issued to refinance existing bonds or new bonds issued for the construction of such fixed guideway rapid transit systems, bus systems, roads, or bridges and no more than 25 percent used for nontransit uses; and

4. Used by the county or municipality for the planning, development, construction, operation, and maintenance of roads and bridges in the county or municipality; for the planning, development, expansion, operation, and maintenance of bus and fixed guideway systems; for the planning, development,

408222

construction, operation, and maintenance of on-demand transportation services; and for the payment of principal and interest on bonds issued for the construction of fixed guideway rapid transit systems, bus systems, roads, or bridges; and such proceeds may be pledged by the governing body of the county or municipality for bonds issued to refinance existing bonds or new bonds issued for the construction of such fixed guideway rapid transit systems, bus systems, roads, or bridges. Pursuant to an interlocal agreement entered into pursuant to chapter 163, the governing body of the county may distribute proceeds from the tax to a municipality, or an expressway or transportation authority created by law to be expended for the purpose authorized by this paragraph. Any county that has entered into interlocal agreements for distribution of proceeds to one or more municipalities in the county shall revise such interlocal agreements no less than every 5 years in order to include any municipalities that have been created since the prior interlocal agreements were executed.

(f) ~~(e)~~ As used in this subsection, the term "on-demand transportation services" means transportation provided between flexible points of origin and destination selected by individual users with such service being provided at a time that is agreed upon by the user and the provider of the service and that is not fixed-schedule or fixed-route in nature.

LEGISLATIVE ACTION

Senate	.	House
Comm: WD	.	
04/28/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Delete lines 135 - 734
and insert:
Section 1. Present subsections (51) through (97) of section 316.003, Florida Statutes, are renumbered as subsections (53) through (99), respectively, present subsections (40), (55), and (95) are amended, and new subsections (51) and (52) are added to that section, to read:
316.003 Definitions.—The following words and phrases, when

463056

used in this chapter, shall have the meanings respectively ascribed to them in this section, except where the context otherwise requires:

(40) MOTOR VEHICLE.—Except when used in s. 316.1001, a self-propelled vehicle not operated upon rails or guideway, but not including any bicycle, motorized scooter, electric personal assistive mobility device, personal delivery device, swamp buggy, or moped. For purposes of s. 316.1001, "motor vehicle" has the same meaning as provided in s. 320.01(1)(a).

(51) PERSONAL DELIVERY DEVICE.—An electrically powered device that:

(a) Is operated on sidewalks and crosswalks and intended primarily for transporting property;

(b) Weighs less than 80 pounds, excluding cargo;

(c) Has a maximum speed of 10 miles per hour; and

(d) Is equipped with technology to allow for operation of the device with or without the active control or monitoring of a natural person.

A personal delivery device is not considered a vehicle unless expressly defined by law as a vehicle.

(52) PERSONAL DELIVERY DEVICE OPERATOR.—An entity or its agent that exercises direct physical control over or monitoring of the navigation system and operation of a personal delivery device. For the purposes of this subsection, the term "agent" means a person charged by the entity with the responsibility of navigating and operating the personal delivery device. The term "personal delivery device operator" does not include an entity or person who requests the services of a personal delivery

463056

device for the purpose of transporting property or an entity or person who only arranges for and dispatches the requested services of a personal delivery device.

(57) ~~(55)~~ PRIVATE ROAD OR DRIVEWAY.—Except as otherwise provided in paragraph (79)(b) ~~(77)(b)~~, any privately owned way or place used for vehicular travel by the owner and those having express or implied permission from the owner, but not by other persons.

(97) ~~(95)~~ VEHICLE.—Every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, except personal delivery devices and devices used exclusively upon stationary rails or tracks.

Section 2. Subsection (7) of section 316.008, Florida Statutes, is amended to read:

316.008 Powers of local authorities.—

(7)(a) A county or municipality may enact an ordinance to permit, control, or regulate the operation of vehicles, golf carts, mopeds, motorized scooters, and electric personal assistive mobility devices on sidewalks or sidewalk areas when such use is permissible under federal law. The ordinance must restrict such vehicles or devices to a maximum speed of 15 miles per hour in such areas.

(b)1. Except as provided in subparagraph 2., a personal delivery device may be operated on sidewalks and crosswalks within a county or municipality when such use is permissible under federal law. This paragraph does not restrict a county or municipality from otherwise adopting regulations for the safe operation of personal delivery devices.

2. A personal delivery device may not be operated on the

Florida Shared-Use Nonmotorized Trail Network created under s. 339.81 or components of the Florida Greenways and Trails System created under chapter 260.

Section 3. Section 316.0898, Florida Statutes, is created to read:

316.0898 Florida Smart City Challenge grant program.—

(1) The Department of Transportation, in consultation with the Department of Highway Safety and Motor Vehicles, shall develop the Florida Smart City Challenge grant program and shall establish grant award requirements for municipalities or regions for the purpose of receiving grant awards. Grant applicants must demonstrate and document the adoption of emerging technologies and their impact on the transportation system and must address at least the following focus areas:

(a) Autonomous vehicles.

(b) Connected vehicles.

(c) Sensor-based infrastructure.

(d) Collecting and using data.

(e) Electric vehicles, including charging stations.

(f) Developing strategic models and partnerships.

(2) The goals of the grant program include, but are not limited to:

(a) Identifying transportation challenges and identifying how emerging technologies can address those challenges.

(b) Determining the emerging technologies and strategies that have the potential to provide the most significant impacts.

(c) Encouraging municipalities to take significant steps to integrate emerging technologies into their day-to-day operations.

(d) Identifying the barriers to implementing the grant program and communicating those barriers to the Legislature and appropriate agencies and organizations.

(e) Leveraging the initial grant to attract additional public and private investments.

(f) Increasing the state's competitiveness in the pursuit of grants from the United States Department of Transportation, the United States Department of Energy, and other federal agencies.

(g) Committing to the continued operation of programs implemented in connection with the grant.

(h) Serving as a model for municipalities nationwide.

(i) Documenting the costs and impacts of the grant program and lessons learned during implementation.

(j) Identifying solutions that will demonstrate local or regional economic impact.

(3) The Department of Transportation shall develop eligibility, application, and selection criteria for the program grants and a plan for the promotion of the grant program to municipalities or regions of this state as an opportunity to compete for grant funding, including the award of grants to a single recipient and secondary grants to specific projects of merit within other applications. The Department of Transportation may contract with a third party that demonstrates knowledge and expertise in the focuses and goals of this section to provide guidance in the development of the requirements of this section.

(4) On or before January 1, 2018, the Department of Transportation shall submit the grant program guidelines and

463056

plans for promotion of the grant program to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

(5) This section expires July 1, 2018.

Section 4. Section 316.2071, Florida Statutes, is created to read:

316.2071 Personal delivery devices.—

(1) Notwithstanding any provision of law to the contrary, a personal delivery device may operate on sidewalks and crosswalks, subject to s. 316.008(7)(b). A personal delivery device operating on a sidewalk or crosswalk has all the rights and duties applicable to a pedestrian under the same circumstances, except that the personal delivery device must not unreasonably interfere with pedestrians or traffic and must yield the right-of-way to pedestrians on the sidewalk or crosswalk.

(2) A personal delivery device must:

(a) Obey all official traffic and pedestrian control signals and devices.

(b) Include a plate or marker that has a unique identifying device number and identifies the name and contact information of the personal delivery device operator.

(c) Be equipped with a braking system that, when active or engaged, enables the personal delivery device to come to a controlled stop.

(3) A personal delivery device may not:

(a) Operate on a public highway except to the extent necessary to cross a crosswalk.

(b) Operate on a sidewalk or crosswalk unless the personal

463056

delivery device operator is actively controlling or monitoring the navigation and operation of the personal delivery device.

(c) Transport hazardous materials as defined in s. 316.003.

(4) A personal delivery device operator must maintain an insurance policy, on behalf of itself and its agents, that provides general liability coverage of at least $100,000 for damages arising from the combined operations of personal delivery devices under the entity's or agent's control.

Section 5. Paragraph (b) of subsection (2) of section 316.545, Florida Statutes, is amended, and present paragraphs (c) and (d) of subsection (3) of that section are redesignated as paragraphs (d) and (e), respectively, and a new paragraph (c) is added to that subsection, to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(2)

(b) The officer or inspector shall inspect the license plate or registration certificate of the commercial vehicle to determine whether its gross weight is in compliance with the declared gross vehicle weight. If its gross weight exceeds the declared weight, the penalty shall be 5 cents per pound on the difference between such weights. In those cases when the commercial vehicle is being operated over the highways of the state with an expired registration or with no registration from this or any other jurisdiction or is not registered under the applicable provisions of chapter 320, the penalty herein shall apply on the basis of 5 cents per pound on that scaled weight which exceeds 35,000 pounds on laden truck tractor-semitrailer combinations or tandem trailer truck combinations, 10,000 pounds

on laden straight trucks or straight truck-trailer combinations, or 10,000 pounds on any unladen commercial motor vehicle. A driver of a commercial motor vehicle entering the state at a designated port-of-entry location, as defined in s. 316.003 ~~316.003(54)~~, or operating on designated routes to a port-of-entry location, who obtains a temporary registration permit shall be assessed a penalty limited to the difference between its gross weight and the declared gross vehicle weight at 5 cents per pound. If the license plate or registration has not been expired for more than 90 days, the penalty imposed under this paragraph may not exceed $1,000. In the case of special mobile equipment, which qualifies for the license tax provided for in s. 320.08(5)(b), being operated on the highways of the state with an expired registration or otherwise not properly registered under the applicable provisions of chapter 320, a penalty of $75 shall apply in addition to any other penalty which may apply in accordance with this chapter. A vehicle found in violation of this section may be detained until the owner or operator produces evidence that the vehicle has been properly registered. Any costs incurred by the retention of the vehicle shall be the sole responsibility of the owner. A person who has been assessed a penalty pursuant to this paragraph for failure to have a valid vehicle registration certificate pursuant to the provisions of chapter 320 is not subject to the delinquent fee authorized in s. 320.07 if such person obtains a valid registration certificate within 10 working days after such penalty was assessed.

(3)

(c)1. For a vehicle fueled by natural gas, the fine is

463056

calculated by reducing the actual gross vehicle weight by the certified weight difference between the natural gas tank and fueling system and a comparable diesel tank and fueling system. Upon the request of a weight inspector or a law enforcement officer, the vehicle operator shall present a written certification that identifies the weight of the natural gas tank and fueling system and the difference in weight of a comparable diesel tank and fueling system. The written certification must originate from the vehicle manufacturer or the installer of the natural gas tank and fueling system.

2. The actual gross vehicle weight for vehicles fueled by natural gas may not exceed 82,000 pounds, excluding the weight allowed for idle-reduction technology under paragraph (b).

3. This paragraph does not apply to vehicles described in s. 316.535(6).

Section 6. Effective upon the same date that SB 340 or similar legislation takes effect, if such legislation is adopted in the 2017 Regular Session or any extension thereof and becomes a law, section 316.851, Florida Statutes, is created to read:

316.851 Autonomous vehicles; providing prearranged rides.—

(1) An autonomous vehicle used by a transportation network company to provide a prearranged ride must be covered by automobile insurance as required by s. 627.748, regardless of whether a human operator is physically present within the vehicle when the ride occurs. When an autonomous vehicle is logged on to a digital network but is not engaged in a prearranged ride, the autonomous vehicle must maintain insurance coverage as defined in s. 627.748(7)(b).

(2) An autonomous vehicle used to provide a transportation

463056

service shall carry in the vehicle proof of coverage satisfying the requirements of this section at all times while operating in autonomous mode.

Section 7. Section 316.853, Florida Statutes, is created to read:

316.853 Automated mobility districts.—

(1) For the purpose of this section, an "automated mobility district" means a master planned development or combination of contiguous developments in which the deployment of autonomous vehicles as defined in s. 316.003 as the basis for a shared mobility system is a stated goal or objective of the development or developments.

(2) The Department of Transportation shall designate automated mobility districts.

(3) In determining the eligibility of a community for designation as an automated mobility district, the Department of Transportation shall consider applicable criteria from federal agencies for automated mobility districts and apply those criteria to eligible developments in this state.

Section 8. Paragraph (a) of subsection (1) of section 319.145, Florida Statutes, is amended to read:

319.145 Autonomous vehicles.—

(1) An autonomous vehicle registered in this state must continue to meet applicable federal standards and regulations for such motor vehicle. The vehicle must:

(a) Have a system to safely alert the operator if an autonomous technology failure is detected while the autonomous technology is engaged. When an alert is given, the system must:

1. Require the operator to take control of the autonomous

vehicle; or

2. If the human operator does not, or is not able to, take control of the autonomous vehicle, or if a human operator is not physically present in the vehicle, be capable of bringing the vehicle to a complete stop.

Section 9. Paragraph (a) of subsection (1) of section 320.01, Florida Statutes, is amended to read:

320.01 Definitions, general.—As used in the Florida Statutes, except as otherwise provided, the term:

(1) "Motor vehicle" means:

(a) An automobile, motorcycle, truck, trailer, semitrailer, truck tractor and semitrailer combination, or any other vehicle operated on the roads of this state, used to transport persons or property, and propelled by power other than muscular power, but the term does not include traction engines, road rollers, personal delivery devices as defined in s. 316.003, special mobile equipment as defined in s. 316.003, vehicles that run only upon a track, bicycles, swamp buggies, or mopeds.

Section 10. Subsection (19) is added to section 320.02, Florida Statutes, to read:

320.02 Registration required; application for registration; forms.—

(19) A personal delivery device as defined in s. 316.003 is not required to satisfy the registration and insurance requirements of this section.

Section 11. Subsection (1) of section 324.021, Florida Statutes, is amended to read:

324.021 Definitions; minimum insurance required.—The following words and phrases when used in this chapter shall, for

463056

the purpose of this chapter, have the meanings respectively ascribed to them in this section, except in those instances where the context clearly indicates a different meaning:

(1) MOTOR VEHICLE.—Every self-propelled vehicle that ~~which~~ is designed and required to be licensed for use upon a highway, including trailers and semitrailers designed for use with such vehicles, except traction engines, road rollers, farm tractors, power shovels, and well drillers, and every vehicle that ~~which~~ is propelled by electric power obtained from overhead wires but not operated upon rails, but not including any personal delivery device as defined in s. 316.003, bicycle, or moped. However, the term "motor vehicle" does ~~shall~~ not include a ~~any~~ motor vehicle as defined in s. 627.732(3) when the owner of such vehicle has complied with the requirements of ss. 627.730-627.7405, inclusive, unless the provisions of s. 324.051 apply; and, in such case, the applicable proof of insurance provisions of s. 320.02 apply.

Section 12. Paragraph (a) of subsection (2) of section 324.022, Florida Statutes, is amended to read:

324.022 Financial responsibility for property damage.—

(2) As used in this section, the term:

(a) "Motor vehicle" means any self-propelled vehicle that has four or more wheels and that is of a type designed and required to be licensed for use on the highways of this state, and any trailer or semitrailer designed for use with such vehicle. The term does not include:

1. A mobile home.

2. A motor vehicle that is used in mass transit and designed to transport more than five passengers, exclusive of

463056

the operator of the motor vehicle, and that is owned by a municipality, transit authority, or political subdivision of the state.

3. A school bus as defined in s. 1006.25.

4. A vehicle providing for-hire transportation that is subject to the provisions of s. 324.031. A taxicab shall maintain security as required under s. 324.032(1).

5. A personal delivery device as defined in s. 316.003.

Section 13. Subsection (2) of section 335.074, Florida Statutes, is amended to read:

335.074 Safety inspection of bridges.—

(2) At regular intervals as required by the Federal Highway Administration ~~not to exceed 2 years~~, each bridge on a public transportation facility shall be inspected for structural soundness and safety for the passage of traffic on such bridge. The thoroughness with which bridges are to be inspected shall depend on such factors as age, traffic characteristics, state of maintenance, and known deficiencies. The governmental entity having maintenance responsibility for any such bridge shall be responsible for having inspections performed and reports prepared in accordance with the provisions contained herein.

Section 14. Effective October 1, 2017, section 335.094, Florida Statutes, is created to read:

335.094 Highway memorial markers; public safety awareness.—

(1) In recognition of the department's mission to provide a safe transportation system, the Legislature intends that the department allow the use of highway memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive

463056

safely by memorializing people who have died as a result of a traffic-related crash.

(2) The department shall establish a process, including any forms deemed necessary by the department, for submitting applications for installation of a memorial marker as authorized in this section. Applications may be submitted to the department by:

(a) A member of the decedent's family, which includes the decedent's spouse; a child, parent, or sibling of the decedent, whether biological, adopted, or step relation; and any lineal or collateral descendant of the decedent; or

(b) Any individual who is responsible under the laws of this state for the disposition of the unclaimed remains of the decedent or for other matters relating to the interment or memorialization of the decedent.

(3) The department shall establish criteria for the design and fabrication of memorial markers, including, but not limited to, marker components, fabrication material, and size.

(4)(a) The department may install a round aluminum sign panel with white background and black letters uniformly inscribed "Drive Safely, In Memory Of" followed by the decedent's name at no charge to the applicant.

(b) Upon the request of the applicant and payment of a reasonable fee set by the department to offset production costs, memorial markers may incorporate the available emblems of belief approved by the United States Department of Veterans Affairs National Cemetery Administration. For purposes of this section, an "emblem of belief" means an emblem that represents the decedent's religious affiliation or sincerely held religious

463056

belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent. The religion or belief system represented by an emblem need not be associated with or endorsed by a church, group, or organized denomination. The term does not include emblems, graphics, logos, or symbols that relate to social, cultural, ethnic, civic, fraternal, trade, commercial, political, professional, or military status.

(c) An applicant may request a new emblem of belief not specifically approved by the United States Department of Veterans Affairs National Cemetery Administration for inscription on a memorial marker as follows:

1. The applicant must certify that the proposed new emblem of belief represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent.

2. In the absence of evidence to the contrary, the department shall accept as genuine an applicant's statement of the religious or functionally equivalent belief system of a decedent.

(d) If the department determines that any application under this section is incomplete, the department must notify the applicant in writing of any missing information and must notify the applicant in writing that no further action on the application will be taken until the missing information is provided.

(5) The department shall place a memorial marker for any approved application at or near the location of the fatality in

a fashion that reduces driver distraction and positions the marker as near the right-of-way line as possible.

(6) Memorial markers are intended to remind passing motorists of the dangers of unsafe driving and are not intended for visitation. The department shall remove a memorial marker if the department determines the presence of the marker creates a safety hazard. In such cases, the department shall post a notice near where the marker was located indicating that the marker has been removed and provide contact information for pickup of the marker. The department shall store any removed markers for at least 60 days. If after 60 days the memorial is not claimed, the department may dispose of the marker as it deems necessary.

Section 15. Paragraph (c) of subsection (6) of section 337.11, Florida Statutes, is amended to read:

337.11 Contracting authority of department; bids; emergency repairs, supplemental agreements, and change orders; combined design and construction contracts; progress payments; records; requirements of vehicle registration.—

(6)

(c) When the department determines that it is in the best interest of the public for reasons of public concern, economy, improved operations, or safety, and only for contracts for construction and maintenance which do not exceed $250,000 when circumstances dictate rapid completion of the work, the department may~~, up to the amount of $120,000,~~ enter into contracts ~~for construction and maintenance~~ without advertising and receiving competitive bids. The department may enter into such contracts only upon a determination that the work is necessary for one of the following reasons:

463056

1. To ensure timely completion of projects or avoidance of undue delay for other projects;

2. To accomplish minor repairs or construction and maintenance activities for which time is of the essence and for which significant cost savings would occur; or

3. To accomplish nonemergency work necessary to ensure avoidance of adverse conditions that affect the safe and efficient flow of traffic.

The department shall make a good faith effort to obtain two or more quotes, if available, from qualified contractors before entering into any contract. The department shall give consideration to disadvantaged business enterprise participation. However, when the work exists within the limits of an existing contract, the department shall make a good faith effort to negotiate and enter into a contract with the prime contractor on the existing contract.

Section 16. Subsection (5) is added to section 338.227, Florida Statutes, to read:

338.227 Turnpike revenue bonds.—

(5) Notwithstanding s. 215.82, bonds issued pursuant to this section are not required to be validated pursuant to chapter 75 but may be validated at the option of the Division of Bond Finance. Any complaint about such validation must be filed in the circuit court of the county in which the seat of state government is situated, and the clerk shall publish the notice as required by s. 75.06 only in the county in which the complaint is filed. The complaint and order of the circuit court must be served on the state attorney of the circuit in which the

action is pending.

Section 17. Paragraph (e) of subsection (7) of section 339.135, Florida Statutes, is amended to read:

339.135 Work program; legislative budget request; definitions; preparation, adoption, execution, and amendment.—

(7) AMENDMENT OF THE ADOPTED WORK PROGRAM.—

(e) Notwithstanding paragraphs (d), ~~and~~ (g), and (h) and ss. 216.177(2) and 216.351, the secretary may request the Executive Office of the Governor to amend the adopted work program when an emergency exists, as defined in s. 252.34, and the emergency relates to the repair or rehabilitation of any state transportation facility. The Executive Office of the Governor may approve the amendment to the adopted work program and amend that portion of the department's approved budget if a delay incident to the notification requirements in paragraph (d) would be detrimental to the interests of the state. However, the department shall immediately notify the parties specified in paragraph (d) and provide such parties written justification for the emergency action within 7 days after approval by the Executive Office of the Governor of the amendment to the adopted work program and the department's budget. The adopted work program may not be amended under this subsection without certification by the comptroller of the department that there are sufficient funds available pursuant to the 36-month cash forecast and applicable statutes.

Section 18. Section 339.2405, Florida Statutes, is amended to read:

339.2405 Florida Highway Beautification Grant Program ~~Council~~.—

(1) There is created within the Department of Transportation the Florida Highway Beautification Grant Program for the purpose of awarding grants to local governmental entities for beautification of roads on the State Highway System as provided in subsections (3) and (4). The department shall ~~Council. It shall consist of seven members appointed by the Governor. All appointed members must be residents of this state. One member must be a licensed landscape architect, one member must be a representative of the Florida Federation of Garden Clubs, Inc., one member must be a representative of the Florida Nurserymen and Growers Association, one member must be a representative of the department as designated by the head of the department, one member must be a representative of the Department of Agriculture and Consumer Services, and two members must be private citizens. The members of the council shall serve at the pleasure of the Governor.~~

~~(2) Each chair shall be selected by the council members and shall serve a 2-year term.~~

~~(3) The council shall meet no less than semiannually at the call of the chair or, in the chair's absence or incapacity, at the call of the head of the department. Four members shall constitute a quorum for the purpose of exercising all of the powers of the council. A vote of the majority of the members present shall be sufficient for all actions of the council.~~

~~(4) The council members shall serve without pay but shall be entitled to per diem and travel expenses pursuant to s. 112.061.~~

~~(5) A member of the council may not participate in any discussion or decision to recommend grants to any qualified~~

463056

~~local government with which the member is associated as a member of the governing body or as an employee or with which the member has entered into a contractual arrangement.~~

~~(6) The council may prescribe, amend, and repeal bylaws governing the manner in which the business of the council is conducted.~~

~~(7)~~(a) ~~The duties of the council shall be to~~:

(a)~~1.~~ Provide information to local governments and local highway beautification councils regarding the state highway beautification grants program.

(b)~~2.~~ Accept grant requests from local governments.

(c)~~3.~~ Review grant requests for compliance with department ~~council~~ rules.

(d)~~4.~~ Establish rules for evaluating and prioritizing the grant requests. The rules must include, but are not limited to, an examination of each grant's aesthetic value, cost-effectiveness, level of local support, feasibility of installation and maintenance, and compliance with state and federal regulations. Rules adopted by the department ~~council~~ which it uses to evaluate grant applications must take into consideration the contributions made by the highway beautification project in preventing litter.

(e)~~5.~~ Maintain a prioritized list of approved grant requests. The list must include recommended funding levels for each request and, if staged implementation is appropriate, funding requirements for each stage shall be provided.

~~6. Assess the feasibility of planting and maintaining indigenous wildflowers and plants, instead of sod groundcovers, along the rights-of-way of state roads and highways. In making~~

~~such assessment, the council shall utilize data from other states which include indigenous wildflower and plant species in their highway vegetative management systems.~~

~~(b) The council may, at the request of the head of the department, review and make recommendations on any other highway beautification matters relating to the State Highway System.~~

~~(8) The head of the department shall provide from existing personnel such staff support services to the council as are necessary to enable the council to fulfill its duties and responsibilities.~~

(2) ~~(9)~~ Local highway beautification councils may be created by local governmental entities or by the Legislature. Prior to being submitted to the department ~~council~~, a grant request must be approved by the local government or governments of the area in which the project is located.

(3) ~~(10)~~ The head of the department~~, after receiving recommendations from the council,~~ shall award grants to local governmental entities that have submitted grant requests for beautification of roads on the State Highway System and which requests are on the ~~council's~~ approved list. The grants shall be awarded in the order they appear on the ~~council's~~ prioritized list and in accordance with available funding.

(4) ~~(11)~~ State highway beautification grants may be requested only for projects to beautify through landscaping roads on the State Highway System. The grant request shall identify all costs associated with the project, including sprinkler systems, plant materials, equipment, and labor. A grant shall provide for the costs of purchase and installation of a sprinkler system, the cost of plant materials and

463056

fertilizer, and may provide for the costs for labor associated with the installation of the plantings. Each local government that receives a grant is ~~shall be~~ responsible for any costs for water, for the maintenance of the sprinkler system, for the maintenance of the landscaped areas in accordance with a maintenance agreement with the department, and, except as otherwise provided in the grant, for any costs for labor associated with the installation of the plantings. The department may provide, by contract, services to maintain such landscaping at a level not to exceed the cost of routine maintenance of an equivalent unlandscaped area.

~~(12) The council shall annually submit to the head of the Department of Transportation a proposal recommending the level of grant funding.~~

Section 19. Section 343.52, Florida Statutes, is reordered and amended to read:

343.52 Definitions.—As used in this part, the term:

(2)~~(1)~~ "Authority" means the South Florida Regional Transportation Authority.

(3)~~(2)~~ "Board" means the governing body of the authority.

(4) "Department" means the Department of Transportation.

(1)~~(3)~~ "Area served" means Miami-Dade, Broward, and Palm Beach Counties. However, this area may be expanded by mutual consent of the authority and the board of county commissioners of Monroe County. The authority may not expand into any additional counties without the department's prior written approval.

(8)~~(4)~~ "Transit system" means a system used for the transportation of people and goods by means of, without

463056

limitation, a street railway, an elevated railway having a fixed guideway, a commuter railroad, a subway, motor vehicles, or motor buses, and includes a complete system of tracks, stations, and rolling stock necessary to effectuate passenger service to or from the surrounding regional municipalities.

(7) ~~(5)~~ "Transit facilities" means property, avenues of access, equipment, or buildings built and installed in Miami-Dade, Broward, and Palm Beach Counties which are required to support a transit system.

(6) "Member" means the individuals constituting the board.

(5) ~~(7)~~ "Feeder transit services" means a transit system that transports passengers to or from stations within or across counties.

Section 20. Present subsections (4) and (5) of section 343.54, Florida Statutes, are redesignated as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

343.54 Powers and duties.—

(4) Notwithstanding any other provision of this part, the authority may not enter into, extend, or renew any contract or other agreement under this part without the department's prior review and written approval of the authority's proposed expenditures if such contract or agreement may be funded, in whole or in part, with funds provided by the department.

Section 21. Paragraph (c) of subsection (4) of section 343.58, Florida Statutes, is amended to read:

343.58 County funding for the South Florida Regional Transportation Authority.—

(4) Notwithstanding any other provision of law to the

463056

contrary and effective July 1, 2010, until as provided in paragraph (d), the department shall transfer annually from the State Transportation Trust Fund to the South Florida Regional Transportation Authority the amounts specified in subparagraph (a)1. or subparagraph (a)2.

(c)1. Funds provided to the authority by the department under this subsection constitute state financial assistance provided to a nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971. The department shall provide the funds in accordance with the terms of a written agreement to be entered into between the authority and the department which shall provide for department review, approval and audit of authority expenditure of such funds, and shall include such other provisions as are required by applicable law. The department is specifically authorized to agree to advance the authority one-fourth of the total funding provided under this subsection for a state fiscal year at the beginning of each state fiscal year, with monthly payments over the fiscal year on a reimbursement basis as supported by invoices and such additional documentation and information as the department may reasonably require, and a reconciliation of the advance against remaining invoices in the last quarter of the fiscal year ~~may not be committed by the authority without the approval of the department, which may not be unreasonably withheld. At least 90 days before advertising any procurement or renewing any existing contract that will rely on state funds for payment, the authority shall notify the department of the proposed procurement or renewal and the proposed terms thereof. If the department, within 60 days after receipt of notice,~~

463056

~~objects in writing to the proposed procurement or renewal, specifying its reasons for objection, the authority may not proceed with the proposed procurement or renewal. Failure of the department to object in writing within 60 days after notice shall be deemed consent. This requirement does not impair or cause the authority to cancel contracts that exist as of June 30, 2012~~.

2. To enable the department to evaluate the authority's proposed uses of state funds, the authority shall annually provide the department with its proposed budget for the following authority fiscal year and shall promptly provide the department with any additional documentation or information required by the department for its evaluation of the proposed uses of the state funds.

Section 22. Subsection (2) of section 215.82, Florida Statutes, is amended to read:

215.82 Validation; when required.—

(2) Any bonds issued pursuant to this act which are validated shall be validated in the manner provided by chapter 75. In actions to validate bonds to be issued in the name of the State Board of Education under s. 9(a) and (d), Art. XII of the State Constitution and bonds to be issued pursuant to chapter 259, the Land Conservation Program, the complaint shall be filed in the circuit court of the county where the seat of state government is situated, the notice required to be published by s. 75.06 shall be published only in the county where the complaint is filed, and the complaint and order of the circuit court shall be served only on the state attorney of the circuit in which the action is pending. In any action to validate bonds

463056

issued pursuant to s. 1010.62 or issued pursuant to s. 9(a)(1), Art. XII of the State Constitution or issued pursuant to s. 215.605 ~~or s. 338.227~~, the complaint shall be filed in the circuit court of the county where the seat of state government is situated, the notice required to be published by s. 75.06 shall be published in a newspaper of general circulation in the county where the complaint is filed and in two other newspapers of general circulation in the state, and the complaint and order of the circuit court shall be served only on the state attorney of the circuit in which the action is pending; provided, however, that if publication of notice pursuant to this section would require publication in more newspapers than would publication pursuant to s. 75.06, such publication shall be made pursuant to s. 75.06.

Section 23. Paragraph (d) of subsection (2) of section 343.53, Florida Statutes, is amended to read:

343.53 South Florida Regional Transportation Authority.—

(2) The governing board of the authority shall consist of 10 voting members, as follows:

(d) If the authority's service area is expanded pursuant to s. 343.54(6) ~~s. 343.54(5)~~, the county containing the new service area shall have two members appointed to the board as follows:

1. The county commission of the county shall elect a commissioner as that commission's representative on the board. The commissioner must be a member of the county commission when elected and for the full extent of his or her term.

2. The Governor shall appoint a citizen member to the board who is not a member of the county commission but who is a resident and a qualified elector of that county.

463056

Section 24. Section 427.011, Florida Statutes, is reordered and amended to read:

427.011 Definitions.—For the purposes of ss. 427.011-427.017:

(9)~~(1)~~ "Transportation disadvantaged" means those persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high-risk or at-risk as defined in s. 411.202.

(5)~~(2)~~ "Metropolitan planning organization" means the organization responsible for carrying out transportation planning and programming in accordance with the provisions of 23 U.S.C. s. 134, as provided in 23 U.S.C. s. 104(f)(3).

(1)~~(3)~~ "Agency" means an official, officer, commission, authority, council, committee, department, division, bureau, board, section, or any other unit or entity of the state or of a city, town, municipality, county, or other local governing body or a private nonprofit transportation service-providing agency.

(11)~~(4)~~ "Transportation improvement program" means a staged multiyear program of transportation improvements, including an annual element, which is developed by a metropolitan planning organization or designated official planning agency.

(2)~~(5)~~ "Community transportation coordinator" means a transportation entity recommended by a metropolitan planning organization, or by the appropriate designated official planning agency as provided for in ss. 427.011-427.017 in an area outside

the purview of a metropolitan planning organization, to ensure that coordinated transportation services are provided to the transportation disadvantaged population in a designated service area.

(12) ~~(6)~~ "Transportation operator" means one or more public, private for-profit, or private nonprofit entities engaged by the community transportation coordinator to provide service to transportation disadvantaged persons pursuant to a coordinated system service plan.

(3) ~~(7)~~ "Coordinating board" means an advisory entity in each designated service area composed of representatives appointed by the metropolitan planning organization or designated official planning agency, to provide assistance to the community transportation coordinator relative to the coordination of transportation services.

(8) "Purchasing agency" means a department or agency whose head is an ex officio, nonvoting adviser to the commission, or an agency that purchases transportation services for the transportation disadvantaged.

(7) ~~(9)~~ "Paratransit" means those elements of public transit which provide service between specific origins and destinations selected by the individual user with such service being provided at a time that is agreed upon by the user and provider of the service. Paratransit service is provided by taxis, limousines, "dial-a-ride," buses, transportation network companies, and other demand-responsive operations that are characterized by their nonscheduled, nonfixed route nature.

(10) "Transportation disadvantaged funds" means any local government, state, or available federal funds that are for the

463056

transportation of the transportation disadvantaged. Such funds may include, but are not limited to, funds for planning, Medicaid transportation, administration, operation, procurement, and maintenance of vehicles or equipment and capital investments. Transportation disadvantaged funds do not include funds for the transportation of children to public schools.

(4) ~~(11)~~ "Coordination" means the arrangement for the provision of transportation services to the transportation disadvantaged in a manner that is cost-effective, efficient, and reduces fragmentation and duplication of services.

(6) ~~(12)~~ "Nonsponsored transportation disadvantaged services" means transportation disadvantaged services that are not sponsored or subsidized by any funding source other than the Transportation Disadvantaged Trust Fund.

Section 25. Subsection (1) of section 316.2128, Florida Statutes, is amended to read:

316.2128 Operation of motorized scooters and miniature motorcycles; requirements for sales.—

(1) A person who engages in the business of, serves in the capacity of, or acts as a commercial seller of motorized scooters or miniature motorcycles in this state must prominently display at his or her place of business a notice that such vehicles are not legal to operate on public roads, may not be registered as motor vehicles, and may not be operated on sidewalks unless authorized by an ordinance enacted pursuant to s. 316.008(7)(a) ~~316.008(7)~~ or s. 316.212(8). The required notice must also appear in all forms of advertising offering motorized scooters or miniature motorcycles for sale. The notice and a copy of this section must also be provided to a consumer

463056

prior to the consumer's purchasing or becoming obligated to purchase a motorized scooter or a miniature motorcycle.

Section 26. Paragraph (a) of subsection (2) of section 316.613, Florida Statutes, is amended to read:

316.613 Child restraint requirements.—

(2) As used in this section, the term "motor vehicle" means a motor vehicle as defined in s. 316.003 that is operated on the roadways, streets, and highways of the state. The term does not include:

(a) A school bus as defined in s. 316.003 ~~316.003(68)~~.

Section 27. Subsection (1) of section 655.960, Florida Statutes, is amended to read:

655.960 Definitions; ss. 655.960-655.965.—As used in this section and ss. 655.961-655.965, unless the context otherwise requires:

(1) "Access area" means any paved walkway or sidewalk which is within 50 feet of any automated teller machine. The term does not include any street or highway open to the use of the public, as defined in s. 316.003(79)(a) or (b) ~~316.003(77)(a) or (b)~~, including any adjacent sidewalk, as defined in s. 316.003.

Senate Amendment to Amendment (463056) (with title amendment)

Between lines 296 and 297
insert:

Section 11. Section 320.0605, Florida Statutes, is amended to read:

320.0605 Certificate of registration; possession required; exception.—

(1)(a) The registration certificate or an official copy

536292

thereof, a true copy or electronic copy of rental or lease documentation issued for a motor vehicle or issued for a replacement vehicle in the same registration period, a temporary receipt printed upon self-initiated electronic renewal of a registration via the Internet, or a cab card issued for a vehicle registered under the International Registration Plan shall, at all times while the vehicle is being used or operated on the roads of this state, be in the possession of the operator thereof or be carried in the vehicle for which issued and shall be exhibited upon demand of any authorized law enforcement officer or any agent of the department, except for a vehicle registered under s. 320.0657. ~~The provisions of~~ This section does ~~do~~ not apply during the first 30 days after purchase of a replacement vehicle. A violation of this section is a noncriminal traffic infraction, punishable as a nonmoving violation as provided in chapter 318.

(b)1. The act of presenting to a law enforcement officer or an agent of the department an electronic device displaying an electronic copy of rental or lease documentation does not constitute consent for the officer or agent to access any information on the device other than the displayed rental or lease documentation.

2. The person who presents the device to the officer or agent assumes the liability for any resulting damage to the device.

(2) Rental or lease documentation that is sufficient to satisfy the requirement in subsection (1) includes the following:

(a) Date ~~of rental~~ and time of ~~exit from~~ rental ~~facility~~;

536292

(b) Rental station identification;
(c) Rental agreement number;
(d) Rental vehicle identification number;
(e) Rental vehicle license plate number and state of registration;
(f) Vehicle’s make, model, and color;
(g) Vehicle’s mileage; and
(h) Authorized renter’s name.

Senate Amendment (with title amendment)

Between lines 389 and 390
insert:

Section 9. Paragraph (a) of subsection (1) of section 337.401, Florida Statutes, is amended to read:

337.401 Use of right-of-way for utilities subject to regulation; permit; fees.—

(1)(a) The department and local governmental entities, referred to in this section and in ss. 337.402, 337.403, and

870828

337.404 as the "authority," that have jurisdiction and control of public roads or publicly owned rail corridors are authorized to prescribe and enforce reasonable rules or regulations with reference to the placing and maintaining across, on, or within the right-of-way limits of any road or publicly owned rail corridors under their respective jurisdictions any electric transmission, voice ~~telephone~~, telegraph, data, or other communications services lines or wireless facilities; pole lines; poles; railways; ditches; sewers; water, heat, or gas mains; pipelines; fences; gasoline tanks and pumps; or other structures referred to in this section and in ss. 337.402, 337.403, and 337.404 as the "utility." The department may enter into a permit-delegation agreement with a governmental entity if issuance of a permit is based on requirements that the department finds will ensure the safety and integrity of facilities of the Department of Transportation; however, the permit-delegation agreement does not apply to facilities of electric utilities as defined in s. 366.02(2).

Senate Amendment (with title amendment)

Delete lines 402 - 403
and insert:
Section 10. Subsection (4) is added to section 338.2275, Florida Statutes, to read:
338.2275 Approved turnpike projects.—
(1) Legislative approval of the department’s tentative work program that contains the turnpike project constitutes approval to issue bonds as required by s. 11(f), Art. VII of the State

404224

Constitution. No more than $10 billion of bonds may be outstanding to fund approved turnpike projects.

(2) The department may use turnpike revenues, the State Transportation Trust Fund moneys allocated for turnpike projects pursuant to s. 339.65, federal funds, and bond proceeds, and shall use the most cost-efficient combination of such funds, in developing a financial plan for funding turnpike projects. The department must submit a report of the estimated cost for each ongoing turnpike project and for each planned project to the Legislature 14 days before the convening of the regular legislative session. Verification of economic feasibility and statements of environmental feasibility for individual turnpike projects must be based on the entire project as approved. Statements of environmental feasibility are not required for those projects listed in s. 12, chapter 90-136, Laws of Florida, for which the Project Development and Environmental Reports were completed by July 1, 1990. All required environmental permits must be obtained before the department may advertise for bids for contracts for the construction of any turnpike project.

(3) Bonds may not be issued to fund a turnpike project until the department has made a final determination that the project is economically feasible in accordance with s. 338.221, based on the most current information available.

(4)(a) Subject to the verification of economic feasibility by the department in accordance with s. 338.221(8), the department may include the acquisition of the Garcon Point Bridge, and related assets, as a turnpike project in its tentative work program in accordance with s. 338.223. Upon approval of the acquisition through approval of the department's

404224

tentative work program in accordance with s. 339.135, the department may acquire the Garcon Point Bridge, including related assets, and as part of such acquisition may purchase outstanding Santa Rosa Bay Bridge Authority bonds. The department has the authority to enter into any agreements necessary to implement the acquisition, including the purchase of Santa Rosa Bay Bridge Authority bonds, and to specify the terms and conditions thereof. Upon acquisition, the Garcon Point Bridge shall become a part of the turnpike system. Pursuant to section 11(f), Art. VII of the State Constitution, the issuance of revenue bonds to finance the department's acquisition of the Garcon Point Bridge is approved.

(b) The acquisition price paid by the department shall first be used to settle all claims of bondholders of the Santa Rosa Bay Bridge Authority Revenue Bonds, Series 1996.

(c) No toll rate increase may be imposed on the Garcon Point Bridge by the authority, the department, or the trustee for bondholders, in connection with the acquisition of the bridge by the department. Following any acquisition by the department, no increase in tolls for use of the bridge shall be permitted except as required by law or as required to comply with the covenants contained in any resolution under which bonds have been issued.

(d) Neither the department nor the state shall incur any financial obligation for the acquisition of the Garcon Point Bridge in excess of forecasted gross revenues from the operation of the bridge. Therefore, the total acquisition price paid by the department may not exceed the present value of the gross revenues (calculated without any increase in the existing toll

404224

rate) anticipated to be collected from the operation of the bridge between the date of a purchase agreement in accordance with this section and the end of the anticipated remaining useful life of the bridge as it exists as of the date of the purchase agreement.

(e) Upon the acquisition of the Garcon Point Bridge as authorized by this subsection, the October 23, 1996, Lease Purchase Agreement between the authority and the department, as amended, shall be terminated.

Senate Amendment (with title amendment)

Between lines 734 and 735
insert:

Section 18. Section 501.977, Florida Statutes, is created to read:

501.977 Installation of unsafe tires.—

(1) A person in this state may not, for compensation, install tires on a motor vehicle with a gross vehicle weight rating of 10,000 pounds or less for use on public streets,

roads, or highways if any of the following conditions exist:

(a) Any area of the tire's tread is worn to 2/32-inch tread depth or less.

(b) Damage to the tire, including any cut, crack, bulge, puncture, scrape, or wear, that exposes the reinforcing plies of the tire.

(c) The tire has been repaired in one or more of the following manners:

1. A repair made in the tread shoulder or belt edge area of the tire.

2. A puncture repair using a cured rubber stem or plug through to the outside of the tire instead of the puncture being patched or sealed on the inside of the tire.

3. A repair to the sidewall or bead area of the tire.

4. A repair of a puncture larger than one-fourth of an inch.

(d) The tire shows evidence of a temporary tire sealant having been used without a subsequent proper repair.

(e) The tire identification number has been defaced or removed.

(f) The tire has inner liner or bead damage.

(g) The tire shows evidence of internal separation, such as a bulge or an area of irregular tread wear.

(2) A person who knowingly violates this section commits a deceptive and unfair trade practice actionable under the Florida Deceptive and Unfair Trade Practices Act pursuant to part II of this chapter.

The Committee on Appropriations (Braynon) recommended the following:

Senate Amendment (with title amendment)

Between lines 740 and 741
insert:

Section 19. Broward County has undergone significant expansion of its interstate system over the last 5 years. Broward County is the second most populous county in the state and is largely built out. The expansion of Broward County interstate highways occurred in fully developed areas in which relocation of permitted signs is difficult; the placement of new

754266

ramps, bridges, and other construction within the interstate right-of-way can hinder the ability of the public to view existing permitted signs; and allowing a minimal height increase based upon the height of the obstruction is reasonable.

Section 20. Notwithstanding general law to the contrary, in the event that a properly permitted sign on an interstate highway within Broward County is subsequently obstructed by the construction of a ramp, braided bridge, or other permanent visual obstruction within the interstate right-of-way, the allowable height of the permitted sign shall be measured from the top of the visual obstruction. However, the height of the sign may not exceed 100 feet above the crown of the main traveled way of the road to which the sign is permitted regardless of the height of the visual obstruction.

Section 21. The Department of Transportation is authorized to promulgate any rules or forms necessary to implement this act.

vehicle used by a transportation network company to be covered by automobile insurance, subject to certain requirements; requiring an autonomous vehicle used to provide a transportation service to carry in the vehicle proof of coverage satisfying certain requirements at all times while operating in autonomous mode; creating s. 316.853, F.S.; defining the term "automated mobility district"; requiring the Department of Transportation to designate automated mobility districts; requiring the department to consider applicable criteria from federal agencies for automated mobility districts in determining eligibility of a community for the designation; amending s. 319.145, F.S.; requiring an autonomous vehicle registered in this state to be capable of bringing the vehicle to a full stop when an alert is given if the human operator does not, or is not able to, take control of the autonomous vehicle, or if a human operator is not physically present in the vehicle; amending s. 335.074, F.S.; requiring bridges on public transportation facilities to be inspected for certain purposes at regular intervals as required by the Federal Highway Administration; creating s. 335.094, F.S.; providing legislative intent; requiring the department to establish a process, including any forms deemed necessary by the department, for submitting applications for installation of a memorial marker; specifying persons who may submit such applications to the department; requiring the

department to establish criteria for the design and fabrication of memorial markers; authorizing the department to install a certain sign at no charge to an applicant; providing that memorial markers may incorporate the available emblems of belief approved by the United States Department of Veterans Affairs National Cemetery Administration upon the request of the applicant and payment of a reasonable fee set by the department to offset production costs; defining the term "emblem of belief"; authorizing an applicant to request a new emblem of belief not specifically approved by the United States Department of Veterans Affairs National Cemetery Administration for inscription on a memorial marker, subject to certain requirements; requiring the department, under certain circumstances, to notify an applicant of any missing information and that no further action on the application will be taken until the missing information is provided; providing requirements for placement of the memorial marker by the department; requiring the department to remove a memorial marker if the department determines the presence of the marker creates a safety hazard, subject to certain requirements; amending s. 337.11, F.S.; increasing the allowable amount for contracts for construction and maintenance which the department may enter into, in certain circumstances, without advertising and receiving competitive bids; amending s. 338.227, F.S.; providing that certain bonds are not required to be

validated but may be validated at the option of the Division of Bond Finance; providing filing, notice, and service requirements for complaints and circuit court orders concerning such validation; amending s. 339.135, F.S.; providing an additional exception related to the amendment of adopted work programs when an emergency exists; amending s. 339.2405, F.S.; replacing the Florida Highway Beautification Council within the department with the Florida Highway Beautification Grant Program; providing the purpose of the program; providing duties of the department; conforming provisions to changes made by the act; amending s. 343.52, F.S.; defining the term "department"; amending s. 343.54, F.S.; prohibiting the South Florida Regional Transportation Authority from entering into, extending, or renewing certain contracts or other agreements without the department's prior review and written approval if such contracts or agreements may be funded with funds provided by the department; amending s. 343.58, F.S.; providing that certain funds provided to the authority by the department constitute state financial assistance for specified purposes, subject to certain requirements; requiring the department to provide certain funds in accordance with the terms of an agreement between the authority and the department; authorizing the department to advance the authority a certain amount of the total funding for a state fiscal year at the beginning of each state fiscal year, subject to

certain requirements; requiring the authority to promptly provide the department any documentation or information, in addition to the proposed annual budget, which is required by the department for its evaluation of the proposed uses of state funds; amending s. 215.82, F.S.; conforming a provision to changes made by the act; amending s. 343.53, F.S.; conforming a cross-reference; amending s. 427.011, F.S.; revising the definition of the term "paratransit"; authorizing the Secretary of Transportation to enroll the State of Florida in federal pilot programs or projects for the collection and study of data for the review of federal or state roadway safety, infrastructure sustainability, congestion mitigation, transportation system efficiency, autonomous vehicle technology, or capacity challenges; providing effective dates, one of which is contingent.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 316.0898, Florida Statutes, is created to read:

316.0898 Florida Smart City Challenge grant program.—

(1) The Department of Transportation, in consultation with the Department of Highway Safety and Motor Vehicles, shall develop the Florida Smart City Challenge grant program and shall establish grant award requirements for municipalities or regions for the purpose of receiving grant awards. Grant applicants must

demonstrate and document the adoption of emerging technologies and their impact on the transportation system and must address at least the following focus areas:

(a) Autonomous vehicles.

(b) Connected vehicles.

(c) Sensor-based infrastructure.

(d) Collecting and using data.

(e) Electric vehicles, including charging stations.

(f) Developing strategic models and partnerships.

(2) The goals of the grant program include, but are not limited to:

(a) Identifying transportation challenges and identifying how emerging technologies can address those challenges.

(b) Determining the emerging technologies and strategies that have the potential to provide the most significant impacts.

(c) Encouraging municipalities to take significant steps to integrate emerging technologies into their day-to-day operations.

(d) Identifying the barriers to implementing the grant program and communicating those barriers to the Legislature and appropriate agencies and organizations.

(e) Leveraging the initial grant to attract additional public and private investments.

(f) Increasing the state's competitiveness in the pursuit of grants from the United States Department of Transportation, the United States Department of Energy, and other federal agencies.

(g) Committing to the continued operation of programs implemented in connection with the grant.

(h) Serving as a model for municipalities nationwide.

(i) Documenting the costs and impacts of the grant program and lessons learned during implementation.

(j) Identifying solutions that will demonstrate local or regional economic impact.

(3) The Department of Transportation shall develop eligibility, application, and selection criteria for the program grants and a plan for the promotion of the grant program to municipalities or regions of this state as an opportunity to compete for grant funding, including the award of grants to a single recipient and secondary grants to specific projects of merit within other applications. The Department of Transportation may contract with a third party that demonstrates knowledge and expertise in the focuses and goals of this section to provide guidance in the development of the requirements of this section.

(4) On or before January 1, 2018, the Department of Transportation shall submit the grant program guidelines and plans for promotion of the grant program to the Governor, the President of the Senate, and the Speaker of the House of Representatives.

(5) This section expires July 1, 2018.

Section 2. Present paragraphs (c) and (d) of subsection (3) of section 316.545, Florida Statutes, are redesignated as paragraphs (d) and (e), respectively, and a new paragraph (c) is added to that subsection, to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(3)

(c)1. For a vehicle fueled by natural gas, the fine is calculated by reducing the actual gross vehicle weight by the certified weight difference between the natural gas tank and fueling system and a comparable diesel tank and fueling system. Upon the request of a weight inspector or a law enforcement officer, the vehicle operator shall present a written certification that identifies the weight of the natural gas tank and fueling system and the difference in weight of a comparable diesel tank and fueling system. The written certification must originate from the vehicle manufacturer or the installer of the natural gas tank and fueling system.

2. The actual gross vehicle weight for vehicles fueled by natural gas may not exceed 82,000 pounds, excluding the weight allowed for idle-reduction technology under paragraph (b).
