3. This paragraph does not apply to vehicles described in s. 316.535(6).

Section 3. Effective upon the same date that SB 340 or similar legislation takes effect, if such legislation is adopted in the 2017 Regular Session or any extension thereof and becomes a law, section 316.851, Florida Statutes, is created to read:

316.851 Autonomous vehicles; providing prearranged rides.—

(1) An autonomous vehicle used by a transportation network company to provide a prearranged ride must be covered by automobile insurance as required by s. 627.748, regardless of whether a human operator is physically present within the vehicle when the ride occurs. When an autonomous vehicle is logged on to a digital network but is not engaged in a prearranged ride, the autonomous vehicle must maintain insurance coverage as defined in s. 627.748(7)(b).

(2) An autonomous vehicle used to provide a transportation service shall carry in the vehicle proof of coverage satisfying the requirements of this section at all times while operating in autonomous mode.

Section 4. Section 316.853, Florida Statutes, is created to read:

316.853 Automated mobility districts.—

(1) For the purpose of this section, an "automated mobility district" means a master planned development or combination of contiguous developments in which the deployment of autonomous vehicles as defined in s. 316.003 as the basis for a shared mobility system is a stated goal or objective of the development or developments.

(2) The Department of Transportation shall designate automated mobility districts.

(3) In determining the eligibility of a community for designation as an automated mobility district, the Department of Transportation shall consider applicable criteria from federal agencies for automated mobility districts and apply those criteria to eligible developments in this state.

Section 5. Paragraph (a) of subsection (1) of section 319.145, Florida Statutes, is amended to read:

319.145 Autonomous vehicles.—

(1) An autonomous vehicle registered in this state must continue to meet applicable federal standards and regulations for such motor vehicle. The vehicle must:

(a) Have a system to safely alert the operator if an autonomous technology failure is detected while the autonomous technology is engaged. When an alert is given, the system must:

1. Require the operator to take control of the autonomous vehicle; or

2. If the human operator does not, or is not able to, take control of the autonomous vehicle, or if a human operator is not physically present in the vehicle, be capable of bringing the vehicle to a complete stop.

Section 6. Subsection (2) of section 335.074, Florida Statutes, is amended to read:

335.074 Safety inspection of bridges.—

(2) At regular intervals as required by the Federal Highway Administration ~~not to exceed 2 years~~, each bridge on a public transportation facility shall be inspected for structural soundness and safety for the passage of traffic on such bridge. The thoroughness with which bridges are to be inspected shall depend on such factors as age, traffic characteristics, state of maintenance, and known deficiencies. The governmental entity having maintenance responsibility for any such bridge shall be responsible for having inspections performed and reports prepared in accordance with the provisions contained herein.

Section 7. Effective October 1, 2017, section 335.094, Florida Statutes, is created to read:

335.094 Highway memorial markers; public safety awareness.—

(1) In recognition of the department's mission to provide a safe transportation system, the Legislature intends that the department allow the use of highway memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive safely by memorializing people who have died as a result of a traffic-related crash.

(2) The department shall establish a process, including any forms deemed necessary by the department, for submitting applications for installation of a memorial marker as authorized in this section. Applications may be submitted to the department by:

(a) A member of the decedent's family, which includes the decedent's spouse; a child, parent, or sibling of the decedent, whether biological, adopted, or step relation; and any lineal or collateral descendant of the decedent; or

(b) Any individual who is responsible under the laws of this state for the disposition of the unclaimed remains of the decedent or for other matters relating to the interment or memorialization of the decedent.

(3) The department shall establish criteria for the design and fabrication of memorial markers, including, but not limited to, marker components, fabrication material, and size.

(4)(a) The department may install a round aluminum sign panel with white background and black letters uniformly inscribed "Drive Safely, In Memory Of" followed by the decedent's name at no charge to the applicant.

(b) Upon the request of the applicant and payment of a reasonable fee set by the department to offset production costs, memorial markers may incorporate the available emblems of belief approved by the United States Department of Veterans Affairs National Cemetery Administration. For purposes of this section, an "emblem of belief" means an emblem that represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life

of the decedent. The religion or belief system represented by an emblem need not be associated with or endorsed by a church, group, or organized denomination. The term does not include emblems, graphics, logos, or symbols that relate to social, cultural, ethnic, civic, fraternal, trade, commercial, political, professional, or military status.

(c) An applicant may request a new emblem of belief not specifically approved by the United States Department of Veterans Affairs National Cemetery Administration for inscription on a memorial marker as follows:

1. The applicant must certify that the proposed new emblem of belief represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent.

2. In the absence of evidence to the contrary, the department shall accept as genuine an applicant's statement of the religious or functionally equivalent belief system of a decedent.

(d) If the department determines that any application under this section is incomplete, the department must notify the applicant in writing of any missing information and must notify the applicant in writing that no further action on the application will be taken until the missing information is provided.

(5) The department shall place a memorial marker for any approved application at or near the location of the fatality in a fashion that reduces driver distraction and positions the marker as near the right-of-way line as possible.

(6) Memorial markers are intended to remind passing motorists of the dangers of unsafe driving and are not intended for visitation. The department shall remove a memorial marker if the department determines the presence of the marker creates a safety hazard. In such cases, the department shall post a notice near where the marker was located indicating that the marker has been removed and provide contact information for pickup of the marker. The department shall store any removed markers for at least 60 days. If after 60 days the memorial is not claimed, the department may dispose of the marker as it deems necessary.

Section 8. Paragraph (c) of subsection (6) of section 337.11, Florida Statutes, is amended to read:

337.11 Contracting authority of department; bids; emergency repairs, supplemental agreements, and change orders; combined design and construction contracts; progress payments; records; requirements of vehicle registration.—

(6)

(c) When the department determines that it is in the best interest of the public for reasons of public concern, economy, improved operations, or safety, and only for contracts for construction and maintenance which do not exceed $250,000 when circumstances dictate rapid completion of the work, the department may~~, up to the amount of $120,000,~~ enter into contracts ~~for construction and maintenance~~ without advertising and receiving competitive bids. The department may enter into such contracts only upon a determination that the work is necessary for one of the following reasons:

1. To ensure timely completion of projects or avoidance of undue delay for other projects;

2. To accomplish minor repairs or construction and maintenance activities for which time is of the essence and for which significant cost savings would occur; or

3. To accomplish nonemergency work necessary to ensure avoidance of adverse conditions that affect the safe and efficient flow of traffic.

The department shall make a good faith effort to obtain two or more quotes, if available, from qualified contractors before entering into any contract. The department shall give consideration to disadvantaged business enterprise participation. However, when the work exists within the limits of an existing contract, the department shall make a good faith effort to negotiate and enter into a contract with the prime contractor on the existing contract.

Section 9. Subsection (5) is added to section 338.227, Florida Statutes, to read:

338.227 Turnpike revenue bonds.—

(5) Notwithstanding s. 215.82, bonds issued pursuant to this section are not required to be validated pursuant to chapter 75 but may be validated at the option of the Division of Bond Finance. Any complaint about such validation must be filed in the circuit court of the county in which the seat of state government is situated, and the clerk shall publish the notice as required by s. 75.06 only in the county in which the complaint is filed. The complaint and order of the circuit court must be served on the state attorney of the circuit in which the action is pending.

Section 10. Paragraph (e) of subsection (7) of section

339.135, Florida Statutes, is amended to read:

339.135 Work program; legislative budget request; definitions; preparation, adoption, execution, and amendment.—

(7) AMENDMENT OF THE ADOPTED WORK PROGRAM.—

(e) Notwithstanding paragraphs (d), ~~and~~ (g), and (h) and ss. 216.177(2) and 216.351, the secretary may request the Executive Office of the Governor to amend the adopted work program when an emergency exists, as defined in s. 252.34, and the emergency relates to the repair or rehabilitation of any state transportation facility. The Executive Office of the Governor may approve the amendment to the adopted work program and amend that portion of the department's approved budget if a delay incident to the notification requirements in paragraph (d) would be detrimental to the interests of the state. However, the department shall immediately notify the parties specified in paragraph (d) and provide such parties written justification for the emergency action within 7 days after approval by the Executive Office of the Governor of the amendment to the adopted work program and the department's budget. The adopted work program may not be amended under this subsection without certification by the comptroller of the department that there are sufficient funds available pursuant to the 36-month cash forecast and applicable statutes.

Section 11. Section 339.2405, Florida Statutes, is amended to read:

339.2405 Florida Highway Beautification Grant Program ~~Council~~.—

(1) There is created within the Department of Transportation the Florida Highway Beautification Grant Program

for the purpose of awarding grants to local governmental entities for beautification of roads on the State Highway System as provided in subsections (3) and (4). The department shall ~~Council. It shall consist of seven members appointed by the Governor. All appointed members must be residents of this state. One member must be a licensed landscape architect, one member must be a representative of the Florida Federation of Garden Clubs, Inc., one member must be a representative of the Florida Nurserymen and Growers Association, one member must be a representative of the department as designated by the head of the department, one member must be a representative of the Department of Agriculture and Consumer Services, and two members must be private citizens. The members of the council shall serve at the pleasure of the Governor.~~

~~(2) Each chair shall be selected by the council members and shall serve a 2-year term.~~

~~(3) The council shall meet no less than semiannually at the call of the chair or, in the chair's absence or incapacity, at the call of the head of the department. Four members shall constitute a quorum for the purpose of exercising all of the powers of the council. A vote of the majority of the members present shall be sufficient for all actions of the council.~~

~~(4) The council members shall serve without pay but shall be entitled to per diem and travel expenses pursuant to s. 112.061.~~

~~(5) A member of the council may not participate in any discussion or decision to recommend grants to any qualified local government with which the member is associated as a member of the governing body or as an employee or with which the member~~

~~has entered into a contractual arrangement.~~

~~(6) The council may prescribe, amend, and repeal bylaws governing the manner in which the business of the council is conducted.~~

~~(7)~~ (a) ~~The duties of the council shall be to~~:

(a) ~~1.~~ Provide information to local governments and local highway beautification councils regarding the state highway beautification grants program.

(b) ~~2.~~ Accept grant requests from local governments.

(c) ~~3.~~ Review grant requests for compliance with department ~~council~~ rules.

(d) ~~4.~~ Establish rules for evaluating and prioritizing the grant requests. The rules must include, but are not limited to, an examination of each grant's aesthetic value, cost-effectiveness, level of local support, feasibility of installation and maintenance, and compliance with state and federal regulations. Rules adopted by the department ~~council~~ which it uses to evaluate grant applications must take into consideration the contributions made by the highway beautification project in preventing litter.

(e) ~~5.~~ Maintain a prioritized list of approved grant requests. The list must include recommended funding levels for each request and, if staged implementation is appropriate, funding requirements for each stage shall be provided.

~~6. Assess the feasibility of planting and maintaining indigenous wildflowers and plants, instead of sod groundcovers, along the rights-of-way of state roads and highways. In making such assessment, the council shall utilize data from other states which include indigenous wildflower and plant species in~~

~~their highway vegetative management systems.~~

~~(b) The council may, at the request of the head of the department, review and make recommendations on any other highway beautification matters relating to the State Highway System.~~

~~(8) The head of the department shall provide from existing personnel such staff support services to the council as are necessary to enable the council to fulfill its duties and responsibilities.~~

(2) ~~(9)~~ Local highway beautification councils may be created by local governmental entities or by the Legislature. Prior to being submitted to the department ~~council~~, a grant request must be approved by the local government or governments of the area in which the project is located.

(3) ~~(10)~~ The head of the department~~, after receiving recommendations from the council,~~ shall award grants to local governmental entities that have submitted grant requests for beautification of roads on the State Highway System and which requests are on the ~~council's~~ approved list. The grants shall be awarded in the order they appear on the ~~council's~~ prioritized list and in accordance with available funding.

(4) ~~(11)~~ State highway beautification grants may be requested only for projects to beautify through landscaping roads on the State Highway System. The grant request shall identify all costs associated with the project, including sprinkler systems, plant materials, equipment, and labor. A grant shall provide for the costs of purchase and installation of a sprinkler system, the cost of plant materials and fertilizer, and may provide for the costs for labor associated with the installation of the plantings. Each local government

that receives a grant is ~~shall be~~ responsible for any costs for water, for the maintenance of the sprinkler system, for the maintenance of the landscaped areas in accordance with a maintenance agreement with the department, and, except as otherwise provided in the grant, for any costs for labor associated with the installation of the plantings. The department may provide, by contract, services to maintain such landscaping at a level not to exceed the cost of routine maintenance of an equivalent unlandscaped area.

~~(12) The council shall annually submit to the head of the Department of Transportation a proposal recommending the level of grant funding.~~

Section 12. Section 343.52, Florida Statutes, is reordered and amended to read:

343.52 Definitions.—As used in this part, the term:

(2)~~(1)~~ "Authority" means the South Florida Regional Transportation Authority.

(3)~~(2)~~ "Board" means the governing body of the authority.

(4) "Department" means the Department of Transportation.

(1)~~(3)~~ "Area served" means Miami-Dade, Broward, and Palm Beach Counties. However, this area may be expanded by mutual consent of the authority and the board of county commissioners of Monroe County. The authority may not expand into any additional counties without the department's prior written approval.

(8)~~(4)~~ "Transit system" means a system used for the transportation of people and goods by means of, without limitation, a street railway, an elevated railway having a fixed guideway, a commuter railroad, a subway, motor vehicles, or

motor buses, and includes a complete system of tracks, stations, and rolling stock necessary to effectuate passenger service to or from the surrounding regional municipalities.

(7)~~(5)~~ "Transit facilities" means property, avenues of access, equipment, or buildings built and installed in Miami-Dade, Broward, and Palm Beach Counties which are required to support a transit system.

(6) "Member" means the individuals constituting the board.

(5)~~(7)~~ "Feeder transit services" means a transit system that transports passengers to or from stations within or across counties.

Section 13. Present subsections (4) and (5) of section 343.54, Florida Statutes, are redesignated as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

343.54 Powers and duties.—

(4) Notwithstanding any other provision of this part, the authority may not enter into, extend, or renew any contract or other agreement under this part without the department's prior review and written approval of the authority's proposed expenditures if such contract or agreement may be funded, in whole or in part, with funds provided by the department.

Section 14. Paragraph (c) of subsection (4) of section 343.58, Florida Statutes, is amended to read:

343.58 County funding for the South Florida Regional Transportation Authority.—

(4) Notwithstanding any other provision of law to the contrary and effective July 1, 2010, until as provided in paragraph (d), the department shall transfer annually from the

576-03797-17

State Transportation Trust Fund to the South Florida Regional Transportation Authority the amounts specified in subparagraph (a)1. or subparagraph (a)2.

(c)1. Funds provided to the authority by the department under this subsection constitute state financial assistance provided to a nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971. The department shall provide the funds in accordance with the terms of a written agreement to be entered into between the authority and the department which shall provide for department review, approval and audit of authority expenditure of such funds, and shall include such other provisions as are required by applicable law. The department is specifically authorized to agree to advance the authority one-fourth of the total funding provided under this subsection for a state fiscal year at the beginning of each state fiscal year, with monthly payments over the fiscal year on a reimbursement basis as supported by invoices and such additional documentation and information as the department may reasonably require, and a reconciliation of the advance against remaining invoices in the last quarter of the fiscal year ~~may not be committed by the authority without the approval of the department, which may not be unreasonably withheld. At least 90 days before advertising any procurement or renewing any existing contract that will rely on state funds for payment, the authority shall notify the department of the proposed procurement or renewal and the proposed terms thereof. If the department, within 60 days after receipt of notice, objects in writing to the proposed procurement or renewal, specifying its reasons for objection, the authority may not~~

576-03797-17

~~proceed with the proposed procurement or renewal. Failure of the department to object in writing within 60 days after notice shall be deemed consent. This requirement does not impair or cause the authority to cancel contracts that exist as of June 30, 2012~~.

2. To enable the department to evaluate the authority's proposed uses of state funds, the authority shall annually provide the department with its proposed budget for the following authority fiscal year and shall promptly provide the department with any additional documentation or information required by the department for its evaluation of the proposed uses of the state funds.

Section 15. Subsection (2) of section 215.82, Florida Statutes, is amended to read:

215.82 Validation; when required.—

(2) Any bonds issued pursuant to this act which are validated shall be validated in the manner provided by chapter 75. In actions to validate bonds to be issued in the name of the State Board of Education under s. 9(a) and (d), Art. XII of the State Constitution and bonds to be issued pursuant to chapter 259, the Land Conservation Program, the complaint shall be filed in the circuit court of the county where the seat of state government is situated, the notice required to be published by s. 75.06 shall be published only in the county where the complaint is filed, and the complaint and order of the circuit court shall be served only on the state attorney of the circuit in which the action is pending. In any action to validate bonds issued pursuant to s. 1010.62 or issued pursuant to s. 9(a)(1), Art. XII of the State Constitution or issued pursuant to s.

215.605 ~~or s. 338.227~~, the complaint shall be filed in the circuit court of the county where the seat of state government is situated, the notice required to be published by s. 75.06 shall be published in a newspaper of general circulation in the county where the complaint is filed and in two other newspapers of general circulation in the state, and the complaint and order of the circuit court shall be served only on the state attorney of the circuit in which the action is pending; provided, however, that if publication of notice pursuant to this section would require publication in more newspapers than would publication pursuant to s. 75.06, such publication shall be made pursuant to s. 75.06.

Section 16. Paragraph (d) of subsection (2) of section 343.53, Florida Statutes, is amended to read:

343.53 South Florida Regional Transportation Authority.—

(2) The governing board of the authority shall consist of 10 voting members, as follows:

(d) If the authority's service area is expanded pursuant to s. 343.54(6) ~~s. 343.54(5)~~, the county containing the new service area shall have two members appointed to the board as follows:

1. The county commission of the county shall elect a commissioner as that commission's representative on the board. The commissioner must be a member of the county commission when elected and for the full extent of his or her term.

2. The Governor shall appoint a citizen member to the board who is not a member of the county commission but who is a resident and a qualified elector of that county.

Section 17. Section 427.011, Florida Statutes, is reordered and amended to read:

427.011 Definitions.—For the purposes of ss. 427.011-427.017:

(9) ~~(1)~~ "Transportation disadvantaged" means those persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation and are, therefore, dependent upon others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high-risk or at-risk as defined in s. 411.202.

(5) ~~(2)~~ "Metropolitan planning organization" means the organization responsible for carrying out transportation planning and programming in accordance with the provisions of 23 U.S.C. s. 134, as provided in 23 U.S.C. s. 104(f)(3).

(1) ~~(3)~~ "Agency" means an official, officer, commission, authority, council, committee, department, division, bureau, board, section, or any other unit or entity of the state or of a city, town, municipality, county, or other local governing body or a private nonprofit transportation service-providing agency.

(11) ~~(4)~~ "Transportation improvement program" means a staged multiyear program of transportation improvements, including an annual element, which is developed by a metropolitan planning organization or designated official planning agency.

(2) ~~(5)~~ "Community transportation coordinator" means a transportation entity recommended by a metropolitan planning organization, or by the appropriate designated official planning agency as provided for in ss. 427.011-427.017 in an area outside the purview of a metropolitan planning organization, to ensure that coordinated transportation services are provided to the

transportation disadvantaged population in a designated service area.

(12) ~~(6)~~ "Transportation operator" means one or more public, private for-profit, or private nonprofit entities engaged by the community transportation coordinator to provide service to transportation disadvantaged persons pursuant to a coordinated system service plan.

(3) ~~(7)~~ "Coordinating board" means an advisory entity in each designated service area composed of representatives appointed by the metropolitan planning organization or designated official planning agency, to provide assistance to the community transportation coordinator relative to the coordination of transportation services.

(8) "Purchasing agency" means a department or agency whose head is an ex officio, nonvoting adviser to the commission, or an agency that purchases transportation services for the transportation disadvantaged.

(7) ~~(9)~~ "Paratransit" means those elements of public transit which provide service between specific origins and destinations selected by the individual user with such service being provided at a time that is agreed upon by the user and provider of the service. Paratransit service is provided by taxis, limousines, "dial-a-ride," buses, transportation network companies, and other demand-responsive operations that are characterized by their nonscheduled, nonfixed route nature.

(10) "Transportation disadvantaged funds" means any local government, state, or available federal funds that are for the transportation of the transportation disadvantaged. Such funds may include, but are not limited to, funds for planning,

Medicaid transportation, administration, operation, procurement, and maintenance of vehicles or equipment and capital investments. Transportation disadvantaged funds do not include funds for the transportation of children to public schools.

(4) ~~(11)~~ "Coordination" means the arrangement for the provision of transportation services to the transportation disadvantaged in a manner that is cost-effective, efficient, and reduces fragmentation and duplication of services.

(6) ~~(12)~~ "Nonsponsored transportation disadvantaged services" means transportation disadvantaged services that are not sponsored or subsidized by any funding source other than the Transportation Disadvantaged Trust Fund.

Section 18. The Secretary of Transportation may enroll the State of Florida in any federal pilot program or project for the collection and study of data for the review of federal or state roadway safety, infrastructure sustainability, congestion mitigation, transportation system efficiency, autonomous vehicle technology, or capacity challenges.

Section 19. Except as otherwise provided in this act, this act shall take effect July 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 1118 (304644)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Gainer and others
SUBJECT:	Transportation
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION

2.	Pitts	Pitts	ATD	**Recommend: Fav/CS**
3.	Pitts	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 1118 reflects the Department of Transportation's (FDOT) 2017 Legislative Package. Specifically, the bill:

- Directs the FDOT, in consultation with the Department of Highway Safety and Motor Vehicles (DHSMV), to develop a Florida Smart City Challenge grant program;
- Increases the allowable gross vehicle weight for vehicles using natural-gas fueling systems by up to 2,000 pounds under certain conditions, resulting in a reduced overweight penalty and avoiding a potential loss of federal funds;
- Revises autonomous vehicle alert system requirements, consistent with current law, to clarify that an autonomous vehicle may operate in autonomous mode without a person physically present in the vehicle;
- Applies certain insurance coverage requirements, should legislation addressing insurance for transportation network companies (TNCs) become law, to autonomous vehicles used by TNCs to provide transportation, regardless of whether a human operator is physically present in the vehicle when the ride occurs;
- Defines the term "automated mobility district," directs the FDOT to designate such districts and, in determining a community's eligibility for designation, to consider applicable federal agency criteria for such districts and apply the criteria to eligible developments.
- Aligns state and federal law by mandating bridge inspections at regular intervals as required by the Federal Highway Administration, as opposed to intervals not exceeding two years,

resulting in compliance with revised national bridge inspection requirements and avoiding a potential but likely insignificant diversion of federal funds;
- Directs the FDOT to establish a process for applications for placement of roadside memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive safely and to establish criteria for the design and fabrication of the markers; provides for incorporation of emblems of belief on such markers under certain conditions; provides requirements for the placement of such markers; and directs the FDOT to remove such markers under certain conditions, subject to certain notice requirements.
- Increases the current $120,000 cap on "fast response" contracts to $250,000 to account for increased construction costs due to inflation;
- Allows turnpike bonds to be validated at the option of the Division of Bond Finance (DBF) and limits the location of publication of certain related notices to Leon County;
- Repeals the Florida Highway Beautification Council and creates the Florida Highway Beautification Grant Program within the FDOT;
- Defines "department" to mean the FDOT for purposes of part II of ch. 343, F.S., relating to the South Florida Regional Transportation Authority (SFRTA);
- Prohibits the SFRTA from entering into, extending, or renewing any contract without the FDOT's prior review and written approval of the proposed expenditures if such contract may be funded with FDOT-provided funds;
- Deems funds provided by the FDOT to the SFRTA to be state financial assistance subject to specified requirements;
- Requires the FDOT to provide funds to the SFRTA in accordance with a written agreement containing certain provisions;
- Authorizes the FDOT to advance funds to the SFRTA at the start of each fiscal year, with monthly payments for maintenance and dispatch on the South Florida Rail Corridor over the fiscal year on a reimbursement basis;
- Expressly includes transportation network companies (TNCs) in the list of providers of services for the transportation disadvantaged;
- Authorizes the FDOT Secretary to enroll the state in any federal pilot program or project for the collection and study of specified types of transportation-related data;
- Deletes and revises cross-references to conform to changes made in the act.
- Provides the bill take effect on July 1, 2017

The bill's provisions have both indeterminate negative and positive fiscal impacts on state funds, of which combined are neutral. The bill may have impacts to revenues and expenditures related to the SFRTA and the DBF. See Section V., "Fiscal Impact Statement," for details.

II. Present Situation:

Due to the disparate issues in the bill, the present situation for each section is discussed below in conjunction with the Effect of Proposed Changes.

III. Effect of Proposed Changes:

Florida Smart City Challenge Grant Program (Section 1)

Present Situation:

The United States Department of Transportation (USDOT) launched a Smart City Challenge in December of 2015. The challenge asked mid-sized cities "to develop ideas for an integrated, first-of-its-kind smart transportation system that would use data, applications, and technology to help people and goods move more quickly, cheaply, and efficiently."[1] The USDOT committed up to $40 million to one winning city.[2] The USDOT received 78 applications from cities across America, including the following cities in Florida: Jacksonville, Miami, Orlando, St. Petersburg, Tallahassee, and Tampa. However, no Florida city received any funding.

Ultimately, Columbus, Ohio won the challenge by proposing "a comprehensive, integrated plan addressing challenges in residential, commercial, freight, and downtown districts using a number of new technologies, including connected infrastructure, an integrated data platform, autonomous vehicles, and more."[3]The USDOT then worked with seven finalists to further develop the ideas proposed by the cities and, in October of 2016, announced an additional $65 million in grants to support advanced technology transportation projects. Again, no Florida city was among the finalists.

Effect of Proposed Changes:

Section 1 of the bill creates s. 316.0898, F.S., to direct the FDOT, in consultation with the Department of Highway Safety and Motor Vehicles, to develop the Florida Smart City Challenge grant program and establish grant award requirements for municipalities or regions. Grant applicants must demonstrate and document the adoption of emerging technologies and their impact on the transportation system, and must address at least the following focus areas:

- Autonomous vehicles;
- Connected vehicles;[4]
- Sensor-based infrastructure;
- Collecting and using data;
- Electric vehicles, including charging stations; and
- Developing strategic models and partnerships;

The stated goals of the grant program include, without limitation:

- Identifying transportation challenges and identifying how emerging technologies can address those challenges;

[44] These are "vehicles that use any of a number of different communication technologies to communicate with the driver, other cars on the road (vehicle-to-vehicle [V2V], roadside infrastructure (vehicle-to-infrastructure [V2I]), and the 'Cloud.'" *See* the Center for Advanced Automotive Technology website available at: http://autocaat.org/Technologies/Automated_and_Connected_Vehicles/. (Last visited April 14, 2017.)

- Determining the emerging technologies and strategies that have the potential to provide the most significant impacts;
- Encouraging municipalities to take significant steps to integrate emerging technologies into their day-to-day operations;
- Identifying the barriers to implementing the grant program and communicating those barriers to the Legislature and appropriate agencies and organizations;
- Leveraging the initial grant to attract additional public and private investments;
- Increasing the state's competitiveness in the pursuit of grants from the USDOT, the United States Department of Energy (USDOE), and other federal agencies;
- Committing to the continued operation of programs implemented in connection with the grant;
- Serving as a model for municipalities nationwide;
- Documenting the costs and impacts of the grant program and lessons learned during implementation; and
- Identify solutions that will demonstrate local or regional economic impact.

The FDOT is directed to develop eligibility, application, and selection criteria for the program grants and a plan for the promotion of the grant program to municipalities or regions of the state as an opportunity to compete for grant funding, including the award of grants to a single recipient and secondary grants to specific projects of merit within other applications. The FDOT may contract with a third party demonstrating knowledge and expertise in that section's focuses and goals to provide guidance in the development of that section's requirements.

The FDOT must submit the grant program guidelines and plans for promotion of the program to the Governor, Senate President, and House Speaker on or before January 1, 2018. Lastly, the new s.316.0898, F.S., expires on July 1, 2018.[5]

Natural Gas-Fueled Vehicle Weight (Section 2)

Present Situation:

Motor Vehicle Weights and Overweight Penalties

The rate of damage to roads and bridges generally increases as vehicle weight increases, resulting in higher maintenance and replacement costs and potentially creating unsafe conditions. Maximum legal vehicle weights are established for all public roads and bridges and allow compliant vehicles to travel most public highways of the state without causing excessive road damage or bridge failures. However, some roads and bridges have lower weight limits due to their age, condition, or design, and these facilities have posted weight limits; *i.e.*, their lower weight limits are identified through signage at the facility. Vehicles exceeding the maximum weight limits on a facility, including posted facilities, are presumed to have damaged the highways of the state and are subject to fines.[6]

[5] SB 2500 currently authorizes the FDOT to use up to $75,000 to establish the Florida Smart City Challenge Grant Program.
[6] *See* ss. 316.545 and 316.555, F.S.

Gross vehicle weight is the total weight of a vehicle (or combination of vehicles) and any cargo carried by the vehicle.[7] Federal and state laws generally provide that gross vehicle weight may not exceed 80,000 pounds for both the interstate and non-interstate highway system, [8] or the maximum allowed by the Federal Bridge Formula.[9] In Florida, the maximum weight limit is 22,000 pounds on a single axle, and 44,000 pounds on a tandem axle.[10] These limits do not apply to those vehicles and loads that cannot be easily dismantled or divided (*i.e.*, "non-divisible"), or to other vehicles exceeding the maximum weight limits, if a special permit has been issued in accordance with applicable state laws.[11]

However, the vehicle's number of axles and the distance between the axles in part controls a vehicle's maximum allowable weight. Thus, a vehicle's maximum allowable gross weight may be reduced because the concentration of weight on a particular axle may reach unacceptable limits. For example, pavement and bridge stress is greater for a 30-foot truck with two axles and a gross vehicle weight of 50,000 pounds than a 54-foot tractor-trailer combination of the same weight because the tractor-trailer distributes the load over a greater area. Therefore, the 30-foot truck will have a lower maximum allowable weight.

For weight violations, including violations of weight criteria contained in a special permit, the penalty is as established in s. 316.545(3)(a), F.S., *i.e.*, $10 for 200 pounds or less and 5 cents per pound for each pound over 200 pounds. Unlawful axle weights are penalized at $10 for the first 600 pounds, if the gross weight of the vehicle (or vehicle combination) does not exceed the maximum allowable gross weight.[12]

For each violation of the operational or safety restrictions established in a special permit, *e.g.*, using a restricted bridge, the penalty may be as high as $1,000. However, the cumulative total for multiple violations may not exceed $1,000.[13]

These penalties are deposited into the State Transportation Trust Fund and used for roadway maintenance and repair.[14]

Cargo Capacity of Vehicles Fueled by Natural Gas Compared to Gasoline or Diesel-Fueled Vehicles

According to the U.S. Department of Energy, about 150,000 vehicles in this country are powered by natural gas, many of which are heavy-duty vehicles.[15] Natural gas vehicles (NGVs) are reported to be similar to gasoline or diesel-fueled vehicles with respect to power, acceleration,

[7] Section 316.003(27), F.S.
[8] *See* 23 U.S.C. 127 (2015) and s. 316.535, F.S.
[9] This formula is used to determine the maximum allowable weight that any set of axles on a motor vehicle may carry on the Interstate Highway System. For further detail, see the Federal Highway Administration website: http://ops.fhwa.dot.gov/freight/sw/brdgcalc/calc_page.htm. (Last visited January 20, 2017.)

and cruising speed; and the use of natural gas as fuel provides additional advantages, such as its domestic availability, its relative low cost, and lower emissions.[16] However, these advantages may be offset by displacement of cargo capacity, due to the heavier weight of NGV fueling systems relative to gasoline or diesel systems.[17]

Fast Act Natural Gas Vehicle Weight Allowance

The Fixing America's Surface Transportation Act (FAST Act), which authorized Federal surface transportation programs for fiscal years 2016-2020, contained a number of incentives for natural gas. In apparent recognition of the potential displacement of cargo capacity due to the heavier weight of NGVs, the FAST Act authorized a vehicle, if operated by an engine fueled primarily[18] by natural gas, to exceed any (single axle, tandem axle and bridge formula) weight limit (up to a maximum gross vehicle weight of 82,000 pounds) by an amount that is equal to the difference between:

- The weight of the vehicle attributable to the natural gas tank and fueling system carried by that vehicle, and
- The weight of a comparable diesel tank and fueling system.[19]

The Federal Highway Administration (FHWA) has advised states to review state statutes, regulations, and procedures, as well as load rating and posting calculations and enforcement practices, for necessary updating.[20] Further, the FHWA noted that while the federally increased weight allowance does not preempt a state from enforcing *state* weight limits on all highways, it does "prevent[] the FHWA from imposing funding sanctions if a state authorizes the additional weight limit on its Interstate system."[21]

Florida law has long adhered to the general maximum weight limits contained in the Federal law,[22] and the FDOT issues special permits for vehicles transporting non-divisible loads and for other vehicles exceeding maximum weight limits.[23] Florida law currently grants a 500-pound weight allowance for idle reduction technology consistent with federal law, but does not authorize the additional weight for NGVs allowed in the FAST Act.[24]

FDOT Permitting of NGVs

In response to the FAST Act, the FDOT performed an assessment to determine if any bridges, other than those currently posted for weight, would require posting because of the additional

---

[16] *Id.* at: http://www.afdc.energy.gov/fuels/natural_gas_benefits.html. (Last visited November 18, 2016.)
[17] *Id.*.. "The driving range of NGVs is generally less than that of comparable conventional vehicles because of the lower energy density of natural gas. Extra storage tanks can increase range, but the additional weight may displace cargo capacity."
[18] Some NGVs are fueled solely by natural gas, some are bi-fueled with two separate fueling systems that enable them to run on either natural gas or gasoline, and some are dual-fueled. Dual-fueled vehicles "are traditionally limited to heavy-duty application, have fuel systems that run on natural gas, and use diesel fuel for ignition assistance." *Supra* note 8.

[23] *See* s. 316.550, F.S.
[24] Section 316.545(3)(b), F.S.

weight allowance for NGVs authorized in the Act. The FDOT advises that the study concluded that the additional weight of NGVs would not require bridges to be re-load rated or posted.[25] The FDOT also developed a permit process in June of 2016 to allow the operation of NGVs at the new Federal weight limits, but no permits were issued, perhaps because the industry is unaware of the need for such a permit.[26] As a result, the FDOT estimates that approximately 292 citations[27] have been issued, totaling $375.00 in fines, 15 of which have been contested before the Commercial Motor Vehicle Review Board.[28] The FDOT advises no relief was granted for any of the 15 contested citations.[29]

Effect of Proposed Changes:

Section 2 amends s. 316.545(3), F.S., to provide for a specified reduction in the actual gross weight of an NGV, when calculating the penalty for exceeding maximum weight limits, so long as the actual gross weight of the vehicle does not exceed 82,000 pounds, exclusive of the existing 500-pound weight allowance for idle reduction technology. The bill will create greater uniformity between federal and state law, which is especially important for truck drivers doing interstate business, and avoids a potential withholding of federal funds.

If an NGV is found to be overweight, then the penalty will be calculated by reducing the actual gross vehicle weight by the certified difference in weight between the natural gas tank and fueling system carried by that vehicle, and a comparable diesel tank and fueling system, before applying the currently applicable penalty. If the actual gross weight of the NGV exceeds 80,000 pounds plus the certified weight difference, a penalty of $.05 per pound of excess weight could be assessed.

If the NGV is also equipped with idle reduction technology, the penalty will be calculated by reducing the actual gross vehicle weight by the certified difference in weight between the natural gas tank and fueling system carried by that vehicle and a comparable diesel tank and fueling system, and by an additional 500 pounds. If the actual gross weight of the NGV with idle reduction technology exceeds 80,500 pounds plus the certified weight difference, a penalty of $.05 per pound of excess weight could be assessed.

The bill contains a proof requirement; *i.e.*, the vehicle operator must present a written certification that identifies the weight of the natural gas tank and fueling system, and the difference in weight of a comparable diesel tank and fueling system, upon request of a weight inspector or a law enforcement officer. The certification must originate from the vehicle manufacturer or the installer of the natural gas tank and fueling system.

The bill excludes vehicles described in s. 316.535(6), F.S., from qualifying for the reduced calculation. These vehicles, typically called straight trucks, include dump trucks, concrete

[25] *See* the FDOT's response to staff questions. (On file in the Senate Transportation Committee.)
[26] *Id.*
[27] The FDOT notes this estimate is based on a search for companies that utilize NGVs and received an overweight citation in the last year. Because the citation form is not designed to specify this particular infraction, some of the 292 cases may not be related to the FAST Act. *Id.*
[28] Section 316.545(7), F.S., establishes the Board within the FDOT and authorizes the Board to review any penalty imposed under chapter 316, F.S.
[29] *Supra* note 11.

mixing trucks, trucks engaged in waste collection and disposal, and fuel oil and gasoline trucks designed and constructed for special type work. The cargo unit and the power unit on these trucks sit on the same frame,[30] meaning that the concentration of weight is greater than, for example, a combination vehicle with an axle configuration that distributes the weight over a greater area. These vehicles continue to be limited to a gross weight of 70,000 pounds.

Autonomous Vehicle Alert System Clarification (Section 5)

Present Situation:

Section 316.003(2), F.S., defines "autonomous vehicle" as any vehicle equipped with autonomous technology. That subsection also includes a definition of "autonomous technology," which means technology installed on a motor vehicle that has the capability to drive the vehicle on which the technology is installed *without the active control or monitoring by a human operator*.[31] If a vehicle is equipped with technology that requires the active control or monitoring by a human operator, that vehicle does not meet the definition of "autonomous vehicle" under Florida law.

Section 316.85, F.S., authorizes a person who possesses a valid driver license to operate an autonomous vehicle in autonomous mode on roads in this state if the vehicle is equipped with autonomous technology as defined in s. 316.003(2), F.S. A person is deemed to be the operator of an autonomous vehicle operating in autonomous mode when the person causes the vehicle's autonomous technology to engage, regardless of whether the person is physically present in the vehicle while the vehicle is operating in autonomous mode. Thus, under Florida law, an autonomous vehicle may be operated in autonomous mode even if a person is not physically present in the vehicle.

Section 319.145, F.S., requires autonomous vehicles registered in this state to:

- Have a system to safely alert the operator if an autonomous technology failure is detected while the technology is engaged. When an alert is given, the *system* must:
  - Require the operator to take control of the autonomous vehicle; or
  - If the operator does not, or is not able to, take control of the autonomous vehicle, be capable of bringing the vehicle to a complete stop.
- Have a means inside the vehicle to visually indicate when the vehicle is operating in autonomous mode; and
- Be capable of being operated in compliance with the applicable traffic and motor vehicle laws of this state.

Effect of Proposed Changes:

Section 5 of the bill amends s. 319.145, F.S., to clarify system requirements when an alert is given. The bill provides that if the *human* operator does not, or is not able to, take control of the

[30] *See* s. 316.003(76), F.S.

[31] The latter definition does not include a motor vehicle enabled with active safety systems or driver assistance systems, including, without limitation, a system to provide electronic blind spot assistance, crash avoidance, emergency braking, parking assistance, adaptive cruise control, lane keep assistance, lane departure warning, or traffic jam and queuing assistant, unless any such system alone or in combination with other systems enables the vehicle on which the technology is installed *to drive without the active control or monitoring by a human operator.*

autonomous vehicle, *or if a human operator is not physically present in the vehicle,* the system must be capable of bringing the vehicle to a complete stop. This revision is consistent with current law allowing an autonomous vehicle to operate in autonomous mode without a person physically present in the vehicle.

Transportation Network Companies/Autonomous Vehicles/Insurance (Section 3)

Present Situation: Technological advances have led to new methods for consumers to arrange and pay for transportation, including software applications that make use of mobile smartphone applications, Internet web pages, and email and text messages. Ridesharing companies, such as Lyft, Uber, and SideCar, describe themselves as "transportation network companies" (TNCs), rather than as vehicles for hire.

TNCs use smartphone technology to connect individuals who want to ride with private drivers for a fee. A driver logs onto a phone application and indicates the driver is ready to accept passengers. Potential passengers log on, learn which drivers are nearby, see photographs, receive a fare estimate, and decide whether to accept a ride. If the passenger accepts a ride, the driver is notified and drives to pick up the passenger. Once at the destination, payment is made through the phone application.

Drivers generally use their personal vehicles, and most personal automobile insurance policies contain a "livery" exclusion that excludes coverage if the vehicle is carrying passengers for hire.[32] Consequently, most personal automobile insurance policies do not cover damage or loss when a car is being used for commercial ridesharing. Some ridesharing companies provide insurance for portions of the time when the driver is transporting passengers, but such insurance is not required. This could lead to situations where drivers and passengers are involved in accidents and there is no insurance coverage. In contrast, taxis and limousines must maintain a motor vehicle liability policy with minimum limits of $125,000 per person for bodily injury, up to $250,000 per incident for bodily injury, and $50,000 for property damage.[33]

Issues relating to insurance coverage for TNCs, and other TNC-related matters, have been under review by the Florida Legislature in recent years. The Florida Senate is currently considering legislation that would create uniform statewide minimum insurance requirements for TNCs and TNC drivers. Generally, when a TNC driver is logged onto the digital network[34] but not engaged in a prearranged ride,[35] the legislation requires:

- Primary automobile liability coverage of at least $50,000 for death and bodily injury per person, $100,000 for death and bodily injury per incident, and $25,000 for property damage;

[32] The exclusion in Florida law is mentioned in s. 627.041(8), F.S.
[33] Section 324.032(1)(a), F.S.
[34] CS/CS/SB 340 currently defines "digital network" to mean any online-enabled technology application service, website, or system offered or used by a TNC that enables the prearrangement of rides with TNC drivers.
[35] CS/CS/SB 340 currently defines "prearranged ride" to mean the provision of transportation by a TNC driver to a rider, beginning when a TNC driver accepts a ride requested by a rider through a digital network controlled by a TNC, continuing while the TNC driver transports the rider, and ending when the last rider exits from and is no longer occupying the TNC vehicle.

- Personal Injury Protection (PIP) benefits that meet the minimum coverage amounts required under ss. 627.730-627.7405, F.S.;[36] and
- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.[37]

When a TNC driver is engaged in a prearranged ride, the following insurance requirements apply:

- Primary automobile liability coverage of at least $1 million for death, bodily injury, and property damage;
- PIP benefits that meet the minimum coverage amounts required of a limousine[38] under ss. 627.730-627.7405, F.S.; and
- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.[39]

Interest in the use of autonomous vehicles in ridesharing services is increasing, including with respect to fully autonomous vehicles that do not require drivers. General Motors reportedly paid $500 million for a stake and strategic alliance in Lyft to develop the use of autonomous vehicles in ridesharing and recently spent $1 billion to buy a technology company that has self-driving cars on roads in California.[40]Current Florida law does not specifically address insurance requirements for autonomous vehicles, or for autonomous vehicles used by TNCs.

Effect of Proposed Changes:

Section 3 of the bill creates s. 316.851, F.S., with an effective on the same date that the TNC legislation currently under consideration, or similar legislation, takes effect, if such legislation is enacted in the 2017 Regular Session or in any extension thereof. In that case, the bill would require an autonomous vehicle used by a TNC *to provide a prearranged ride* to be covered by automobile insurance as required by s. 627.748, F.S., created in that TNC legislation, regardless of whether a human operator is physically present in the vehicle when the ride occurs. As the legislation currently stands, the required coverage would be primary automobile liability coverage of at least $1 million for death, bodily injury, and property damage, and uninsured and underinsured vehicle coverage as required by s. 627.727, F.S. The coverage ultimately specified in that legislation, if enacted, would be required coverage for an autonomous vehicle used by a

[36] These provisions, known as the No-Fault Law, require coverage for PIP to the named insured, relatives residing in the same household, persons operating the insured motor vehicle, passengers in the motor vehicle, and other persons struck by the motor vehicle and suffering bodily injury while not an occupant to a limit of $10,000 in medical and disability benefits and $5,000 in death benefits.

[37] Section 627.727(1), F.S., requires uninsured motorist vehicle coverage if a policy provides bodily injury coverage unless it is specifically rejected.

[38] Although the legislation currently requires PIP coverage at the same amounts required of limousines, limousines are excluded from PIP requirements under s 627.733(1)(a), F.S. Thus, the effect of this provision should it remain in the TNC legislation and be enacted would be to require no PIP coverage when an autonomous vehicle is engaged in a prearranged ride, regardless of whether a human operator is physically present in the vehicle when the ride occurs.

[39] *See* the CS/CS/SB 340 staff analysis for additional information and details of the legislation, available at: http://www.flsenate.gov/Session/Bill/2017/340/Analyses/2017s00340.rc.PDF. (Last visited April 24, 2017.)

[40] *See Autonomous Cars with Ridesharing Key to GM's Vision for Future Mobility*, available at: http://www.autotrader.com/car-shopping/autonomous-cars-with-ridesharing-key-to-gms-vision-for-future-mobility-254768. *See also Ford Targets Fully Autonomous Vehicle for RideSharing in 2021; Invests in New Tech Companies, Doubles Silicon Valley Team*, available at https://media.ford.com/content/fordmedia/fna/us/en/news/2016/08/16/ford-targets-fully-autonomous-vehicle-for-ride-sharing-in-2021.html . (Last visited April 14, 2017.)

TNC to provide prearranged transportation, regardless of the presence or absence of a human driver.

The bill further requires an autonomous vehicle logged on to a digital network but not engaged in a prearranged ride to maintain insurance coverage as defined in s. 627.748(7)(b), F.S. As the TNC legislation currently stands, subsection (7)(b) requires during the identified period of time:

- Primary automobile liability coverage of at least $50,000 for death and bodily injury per person, $100,000 for death and bodily injury per incident, and $25,000 for property damage;
- PIP benefits that meet the minimum coverage amounts required under ss. 627.730-627.7405, F.S.;[41] and
- Uninsured and underinsured vehicle coverage as required by s. 627.727, F.S.

The bill also requires an autonomous vehicle used to provide a transportation service to carry in the vehicle proof of the required coverage at all times while operating in autonomous mode.

Automated Mobility Districts (Section 4)

Present Situation:

The USDOE Office of Energy Efficiency and Renewable Energy (EERE) partners with business, industry, universities, and other organizations with a focus on using renewable energy and energy efficiency technologies. One of EERE's functions is to encourage the growth of such technologies by offering funding opportunities for their development and demonstration.[42] According to the EERE, most grants are selected competitively through funding opportunity announcements (FOAs) and solicitations that occur from time to time. FOA's are posted online with directions and information for finding funding opportunities, for applying for funding, and for managing awards, as well as necessary forms.[43]

The National Renewable Energy Laboratory (NERL) is a research arm of the USDOE. The NERL in a recent study introduced the term "automated mobility districts" to describe a campus-sized implementation of automated vehicle technology to realize the benefits of fully-automated vehicle mobility service. Such districts are envisioned to use fully automated and driverless vehicles, service is confined to a geographic boundary that encompasses a relatively dense area of trip attractions, and mobility within the district is restricted to or dominated by automated vehicles. The NERL has concluded that its initial study "points to the need to better understand ride-sharing scenarios and calls for future research on sustainability benefits of an AMD system at both vehicle and system levels."[44]

---

[41] These provisions, known as the No-Fault Law, require coverage for personal injury protection to the named insured, relatives residing in the same household, persons operating the insured motor vehicle, passengers in the motor vehicle, and other persons struck by the motor vehicle and suffering bodily injury while not an occupant to a limit of $10,000 in medical and disability benefits and $5,000 in death benefits.

[42] *See* the EERE website available at: https://www.energy.gov/eere/funding/eere-funding-opportunities. (Last visited April 14, 2017.)

[43] *Id.*

[44] *See Estimate of Fuel Consumption and GHG Emission Impact on an Automated Mobility District*, Chen, Young, Gonder, and Qi, presented at the 4th International Conference on Connected Vehicles & Expo in Shenzhen, China, October 19-23, 2015, available at: http://www.nrel.gov/docs/fy16osti/65257.pdf. (Last visited April 14, 2017.)

Effect of Proposed Changes:

Section 4 of the bill creates s. 316.853, F.S., to define the term "automated mobility districts" to mean a master planned development or combination of contiguous developments in which the deployment of autonomous vehicles as defined in s. 316.003, F.S., as the basis for a shared mobility system is a stated goal or objective of the development or developments. The FDOT is directed to designate such districts. In determining eligibility of a development for such designation, the FDOT must consider applicable criteria from federal agencies for autonomous mobility districts and apply those criteria to eligible developments in the state.

According to proponents, this proposed statute is expected to increase the likelihood of receiving approval of federal grant applications for funding opportunities associated with the deployment of autonomous vehicles in Florida.

Bridge Inspection Frequency (Section 6)

Present Situation:

National Bridge Inspection Standards

Federal law requires the U.S.D.O.T. Secretary, in consultation with states and Federal agencies having jurisdiction, to inventory all highway bridges on public roads; to classify the bridges according to serviceability, safety, and essentiality for public use; and to assign each bridge a risk-based priority for systematic preventative maintenance, replacement, or rehabilitation.[45] The Federal-aid Highway Act of 1968 required the Secretary to develop regulations establishing national bridge inspection standards with the primary purpose of locating and evaluating existing bridge deficiencies to ensure the safety of the traveling public. The current standards are specified in 23 C.F.R. 650, Subpart C, and apply to all highway bridges located on all public roads.

States are required by the standards to inspect all highway bridges located on public roads that are fully or partially located within the state, except for bridges owned by Federal agencies. Inspections are to be conducted in accordance with the American Association of State Highway and Transportation Officials *Manual for Condition Evaluation of Bridges*, which "serves as a standard and provides uniformity in the procedures and policies for determining the physical condition, maintenance needs, and load capacity of the Nation's highway bridges."[46]

National Inspection Frequency Revisions

Before 2005, with specific reference to frequency of bridge inspections, the national standards generally required each bridge to be inspected at regular intervals not to exceed two years but recognized that certain bridges require inspection at less than two-year intervals. Those earlier standards also recognized that the maximum inspection interval for certain bridges could be appropriately increased in cases in which past inspection reports and favorable experience and analysis justified an increase. States were authorized to submit a detailed proposal and

[45] *See* 23 U.S.C. 144 (2015).
[46] *Federal Register*, Vol. 74, no. 246, Thursday, December 24, 2009, at 68378.

supporting data for approval of an increased interval, but in no case could the maximum time period between inspections exceed four years.

Changes to the standards, effective January 13, 2005, among other items, included expansion of the bridge inspection frequency provisions, such that the FDOT is required to:

- Inspect each bridge at regular intervals not exceeding 24 months for routine inspections;[47] establish criteria to determine the level and frequency of inspection of bridges at less than 24-month intervals, considering such factors as age, traffic characteristics, and known deficiencies; and seek written approval from the Federal Highway Administration (FHWA) to inspect certain bridges at greater than 24-month intervals if past inspection findings and analyses justify an increased interval.
- Inspect underwater structural elements at regular intervals not exceeding 60 months; establish criteria to determine the level and frequency of inspection of these elements at less than 60-month intervals, considering such factors as construction material, environment, age, scour characteristics, condition rating from past inspections, and known deficiencies; and seek written approval from the FHWA to inspect certain underwater structural elements at greater than 60-month intervals, but not exceeding 72 months, if past inspection findings and analysis justify an increased interval.
- Inspect fracture critical members (FCMs)[48] at intervals not to exceed 24 months; establish criteria to determine the level and frequency of inspection of FCMs at less than 24-month intervals, considering such factors as age, traffic characteristics, and known deficiencies; and establish criteria to determine the level and frequency of damage, in-depth, and special inspections.[49]

Compliance Reviews

States are subject to an annual review for compliance with the national standards using 23 metrics[50] that contain criteria for assessing a state's compliance with each metric. A state is notified of any finding of noncompliance and provided an opportunity for correction. If a state ultimately remains noncompliant, the penalty is that the state must dedicate certain funds that would otherwise be available for projects to correcting the noncompliance.[51] The FDOT advises it has received no such notification.[52]

[47] "Routine inspection" is defined as a regularly scheduled inspection consisting of observations and/or measurements needed to determine the physical and functional condition of the bridge, to identify any changes from initial or previously recorded conditions, and to ensure that the structure continues to satisfy present service requirements. 23 C.F.R. 650.305 (4-1-16).
[48] "Fracture critical member" is defined as a member in tension, or with a tension element, whose failure would probably cause a portion of or the entire bridge to collapse. A "fracture critical member inspection" is defined as a hands-on inspection of a fracture critical member or member components that may include visual and other non-destructive evaluation. *Id.*
[49] "Damage inspection" is defined as an unscheduled inspection to assess structural damage resulting from environmental factors or human actions. "In-depth inspection" is defined as a close-up inspection of one or more members above or below the water level to identify any deficiencies not readily detectable using routine inspection procedures, with hands-on inspection being necessary at some locations. "Special inspection" is defined as an inspection scheduled at the discretion of the bridge owner, used to monitor a particular known or suspected deficiency. *Id.*

[52] Telephone conversation with the FDOT staff, January 26, 2017.

Florida Bridge Inspection Law

The existing Florida Statutes do not comply with the described national bridge inspection frequency provisions. Currently, Florida law requires the governmental entity having maintenance responsibility for each bridge on a public transportation facility to inspect such bridges at regular intervals not to exceed two years.[53, 54]

The FDOT does have already-established criteria for routine inspections at intervals not exceeding 24 months, and for certain other inspection levels and frequencies for bridges determined to require inspection at less than 24-month intervals.[55] However, because of the existing state mandate for inspection of each bridge at intervals *not exceeding* 2 years, the FDOT has not developed nor sought written approval from the FHWA for the inspection intervals, criteria, and FHWA approvals required by the revised national standards.

Effect of Proposed Changes:

Section 6 amends s. 335.074(2), F.S., to require bridge inspections at regular intervals *as required by the Federal Highway Administration*, rather than at intervals not exceeding 2 years. This revision will allow the FDOT to seek FHWA approval of its existing procedures, develop and establish the criteria for the required increased inspection intervals, and obtain the FHWA's approval, consistent with the revised national standards. A potential but likely insignificant[56] diversion of federal funds from actual projects to noncompliance correction is avoided.

Highway Memorial Markers/Traffic-Related Fatalities (Section 7)

Present Situation:

Current Florida law contains no provision specifically relating to the placement of roadside memorial markers at or near the location of traffic-related fatalities on the State Highway System.[57] Current state law also contains no provision addressing the use of belief system symbols or imagery on roadside memorial markers. Research suggests some states ban roadside markers outright as a matter of safety, without regard to symbols or imagery. Other states, including Florida, have programs or policies for roadside markers that use a standard round sign with a safety message, such as, "Drive Safely," with the deceased person's name on the sign. Still other states appear to allow roadside memorials for a limited time, after which they are removed, but whether those memorials may display belief system symbols or imagery is not clear. Arizona's Roadside Memorial *Policy* allows markers to "incorporate various types of symbols."[58]

[53] Section 335.074(2), F.S.
[54] Section 335.074(3)(b), F.S., requires each governmental entity to report its inspections to the FDOT.
[55] *See* the FDOT Procedure 850-010-030-j, section 3.2. (Copy on file in the Senate Transportation Committee.)
[56] Telephone conversation with the FDOT staff February 1, 2017.
[57] Section 334.044(24), F.S., defines "State Highway System" as the interstate system and all other roads within the state that were under the jurisdiction of the state on June 10, 1995, and roads constructed by an agency of the state for the State Highway System, plus roads transferred to the state's jurisdiction after that date by mutual consent with another governmental entity, but not including roads so transferred from the state's jurisdiction. These facilities are facilities to which access is regulated.

Emblems of belief are allowed under certain conditions in National Cemeteries. The U.S. Department of Veterans Affairs National Cemetery Administration (Administration) prohibits graphics, logos, or symbols on government-furnished headstones or markers placed in National Cemeteries, other than the available emblems of belief, the Civil War Union Shield, the Civil War Confederate Southern Cross of Honor, and the Medal of Honor insignias.

An "emblem of belief" is defined in federal regulations to mean an emblem that represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent. In the absence of evidence to the contrary, the Veterans Administration will accept as genuine an applicant's statement regarding the sincerity of the religious or functionally equivalent belief system of a deceased eligible individual. The religion or belief system represented by an emblem need not be associated with or endorsed by a church, group or organized denomination. Emblems of belief do not include social, cultural, ethnic, civic, fraternal, trade, commercial, political, professional or military emblems.[59, 60]

Emblems of belief for inscription on government-furnished headstones and markers may be requested by the decedent's next of kin, a person authorized in writing by the next of kin, or a personal representative authorized in writing by the decedent.[61]

After establishing the decedent's initial eligibility, emblems of belief not available for inscription on headstones and markers may be requested by application that contains:

- Certification by the applicant that the proposed new emblem represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent;[62] and
- A three-inch diameter digitized black and white representation of the requested emblem that can be reproduced in a production-line environment.[63]

In the absence of evidence to the contrary, the Administration will accept as genuine an applicant's statement regarding the sincerity of the religious or functionally equivalent belief system. If a dispute arises, federal regulation provides for resolution first in accordance with any specific instructions given by the decedent, second in accordance with the instructions of the decedent's surviving spouse and, if no surviving spouse, in accordance with the agreement and written consent of the decedent's living next of kin.[64]

Effect of Proposed Changes:

Section 7 of the bill creates s. 335.094, F.S., relating to highway memorial markers, modeled after the National Cemetery regulations. Recognizing the FDOT's mission to provide a safe transportation system, the bill expresses Legislative intent that the FDOT allow the use of

[59] 38 C.F.R. 38.632(b)(2) (7-1-16).
[60] *See* the Administration's website, which reflects the currently approved emblems of belief, available at: https://www.cem.va.gov/hmm/emblems.asp. (Last visited April 14, 2017.)
[61] 38 C.F.R. 38.632(b)(1) (7-1-16).
[62] 38 C.F.R. 38.632(e)(1) (7-1-16).
[63] 38 C.F.R. 38.632(e)(2) (7-1-16).
[64] 38 C.F.R. 38.632(g) (7-1-16).

highway memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive safely, by memorializing people who have died as a result of a traffic-related crash.

The FDOT is required to establish a process, including any forms deemed necessary, for submitting applications for installation of memorial markers. The bill authorizes the following individuals to submit applications:

- A member of the decedent's family, which includes the decedent's spouse; a child, parent, or sibling of the decedent, whether biological, adopted, or step relation; and any lineal or collateral descendant of the decedent; or
- Any individual who is responsible under the laws of this state for the disposition of the unclaimed remains of the decedent or for other matters relating to the interment or memorialization of the decedent.

The FDOT must establish criteria for the design and fabrication of the markers, including, but not limited to, marker components, fabrication material, and size.

At no charge to the applicant, the FDOT is authorized to install a marker described as a round aluminum sign panel with white background and black letters uniformly inscribed "Drive Safely, In Memory Of" followed by the decedent's name.

On request of the applicant and payment of a reasonable fee set by the FDOT to offset production costs, the marker may incorporate the available emblems of belief approved by the National Cemetery Administration. An applicant may request a new emblem not specifically approved by the Administration for inscription on a marker as follows:

- The applicant must certify that the propose new emblem represents the decedent's religious affiliation or sincerely held religious belief system, or a sincerely held belief system that was functionally equivalent to a religious belief system in the life of the decedent.
- In the absence of evidence to the contrary, the FDOT is directed to accept as genuine an applicant's statement of the religious or functionally equivalent belief system of a decedent.

If the FDOT determines that any application is incomplete, the FDOT is directed to notify the applicant in writing of the missing information, and that no further action on the application will be taken until the missing information is provided.

For any approved application, the FDOT is directed to place a memorial marker at or near the location of the fatality in a fashion that reduces driver distraction and positions the marker as near the right-of-way line as possible.

Lastly, the bill provides that memorial markers are intended to remind passing motorists of the dangers of unsafe driving and are not intended for visitation, and directs the FDOT to remove a marker if the FDOT determines its presence creates a safety hazard. In such cases, the FDOT is directed to post a notice near where the marker was located indicating the marker has been removed and provide contact information for pickup of the marker. The FDOT must store any removed marker for 60 days and may thereafter, at its discretion, dispose of any marker not claimed.

Fast Response Contracts Cap (Section 8)

Present Situation:

FDOT Contracting Authority

Generally, the FDOT is authorized to enter into contracts for the construction and maintenance of all roads designated as part of the State Highway System, the State Park Road System, or of any roads placed under its supervision by law. This authorization includes construction and maintenance contracts for rest areas, weigh stations, and other structures, including roads, parking areas, supporting facilities and associated buildings used in connection with such facilities. With certain exceptions, these contracts must be advertised for competitive bidding, and such contracts generally must be awarded to the lowest responsible bidder.[65]

Required Surety Bond

A successful bidder on a construction or maintenance contract is required to post a surety bond in an amount equal to the awarded contract price with certain exceptions. One exception is the FDOT's authorization to waive all or a portion of the bond requirement if the contract price is $250,000 or less, and if the FDOT determines that the project is of a noncritical nature and that nonperformance will not endanger public health, safety, or property.[66] With respect to construction contracts, the FDOT may waive all or a portion of a bond for contracts of $150,000 or less if the FDOT makes the same determination.[67]

Fast Response Contracting Cap

One of the exceptions to the competitive bidding requirement currently authorizes the FDOT, under certain conditions, to enter into construction and maintenance contracts, up to the amount of $120,000, without advertising and receiving competitive bids. The FDOT may exercise this authority when the FDOT determines that doing so is in the best interest of the public for reasons of public concern, economy, or improved operations or safety, and only when circumstances dictate rapid completion of the work:

- To ensure timely completion of projects or avoidance of undue delay for other projects;
- To accomplish minor repairs or construction and maintenance activities for which time is of the essence and for which significant cost savings would occur; or
- To accomplish nonemergency work necessary to ensure avoidance of adverse conditions that affect the safe and efficient flow of traffic.[68]

The FDOT is required to make a good faith effort to obtain two or more quotes, if available, from qualified contractors before entering into any contract and give consideration to disadvantaged business enterprise participation. If, however, the work exists within the limits of an existing contract, the FDOT must make a good faith effort to negotiate and enter into a contract with the prime contractor on the existing contract. These contracts fund projects such as

[65] Section 337.11, F.S.
[66] Section 337.18(1), F.S.
[67] Section 337.14(2). F.S.
[68] Section 337.11(6)(c), F.S.

sinkhole repairs that protect roadways and other infrastructure, traffic railing and guardrail repairs needed to protect the safety of the traveling public, and drainage and inlet work that prevents roadway flooding during heavy rain.

When first enacted in 1999, the threshold amount was set at $60,000,[69] and the Legislature increased that amount to the current $120,000 in 2002.[70]

Construction Costs and Inflation

The FDOT advises that the usefulness of this statute has been limited by increased construction costs due to inflation and notes the only issue with meeting the conditions outlined in the statute is the current $120,000 cap. The FDOT performed an analysis to reach an approximate estimate of the current $120,000 contract cap converted to present-day costs, concluding that the current cap, adjusted for inflation, amounts to over $200,000.[71] The FDOT advises that increasing the current cap to $250,000 "will account for increased construction costs and extend the Department's ability to quickly respond to construction and maintenance needs that are in the best interest of safety and the economy."[72]

Effect of Proposed Changes:

Section 8 amends s. 337.11(6)(c), F.S., to increase the current $120,000 threshold amount to $250,000. The FDOT will be authorized to enter into maintenance and construction contracts, after making the necessary determination and when circumstances dictate rapid completion of the work, up to a contract amount of $250,000. The FDOT's described authority to waive all or a portion of a required surety bond remains unchanged.

Turnpike Revenue Bonds/Bond Validation (Sections 9 and 15)

Present Situation:

Bond Validation

The Division of Bond Finance (DBF) is authorized to issue revenue bonds on behalf of the FDOT to finance or refinance the cost of legislatively approved turnpike projects in accordance with s. 11(f), Art. VII of the State Constitution.[73] The state or its agencies may issue revenue bonds without a vote of the electors to finance or refinance the cost of state fixed capital outlay projects[74] authorized by law, and purposes incidental thereto, which bonds are payable solely

[69] Ch. 99-385, Laws of Fla.
[70] Ch. 2002-20, Laws of Fla.
[71] *See* the FDOT's Office of Policy Planning document, *Advisory Inflation Factors for Previous Years (1987-2016)*, available at: http://www.fdot.gov/planning/policy/costs/retrocostinflation.pdf. (Last visited January 25, 2017.)
[72] *See* the FDOT's 2017 Legislative Proposal, *Rapid-Response Contracts-Price Increase*. (On file in the Senate Transportation Committee.)
[73] Section 338.227(3), F.S.
[74] Defined in s. 216.011(1)(p), F.S., to mean the appropriation category used to fund real property (land, buildings, including appurtenances, fixtures and fixed equipment, structures, etc.), including additions, replacements, major repairs, and renovations to real property which materially extend its useful life or materially improve or change its functional use and including furniture and equipment necessary to furnish and operate a new or improved facility, when appropriated by the Legislature in the fixed capital outlay appropriation category.

from funds other than state tax revenues; e.g., toll revenues.[75] The DBF must submit a proposed bond issuance for approval by the State Board of Administration.[76] The Board, by resolution, may authorize the DBF to issue bonds on behalf of a state agency at one time or from time to time,[77] and the Board must approve all bonds to be issued by the DBF as to fiscal sufficiency.[78]

Once approved, such bonds must be validated under ch. 75, F.S.[79] In a bond validation proceeding, the entity authorized by law to issue bonds files a complaint to establish its authority to incur bonded debt, as well as the legality of all proceedings in connection with the bond issuance.[80] A final judgment validating such bonds is "forever conclusive" and may not be challenged in any court by any person or party.[81]

As described by the DBF with specific reference to Turnpike bonds:

> Bond validation is a judicial procedure through which the legality of a proposed bond issue may be determined in advance of its issuance. It serves to assure bondholders that future court proceedings will not invalidate a government's pledge to repay the bonds. Validation is generally not necessary for established borrowing programs, such as Turnpike bonds, where any legal issues relating to the bonds have been resolved previously. Validation is optional for almost all bonds issued by the Division of Bond Finance, including Public Education Capital Outlay Bonds and University Revenue Bonds. If a constitutional or statutory question arises for a proposed bond issue, a complaint for validation may be filed in circuit court even if validation is not required.[82]

Required Notice Publication

In any action to validate bonds issued pursuant to s. 338.227, F.S., the complaint must be filed in the circuit court of Leon County, and the notice required by s. 75.06, F.S., must be published in a newspaper of general circulation *in Leon County and in two other newspapers of general circulation in the state*.[83] The complaint and order of the circuit court must be served only on the state attorney of the circuit in which the action is pending (the Second Circuit).

Section 75.06(2), F.S., requires the clerk, before the date set for hearing on a complaint to validate Turnpike bonds, to publish a copy of the court's order requiring appearance at the hearing in Leon County at least once each week for two consecutive weeks, commencing with

[75] *See also* s. 215.59(2) and s. 215.79, F.S.
[76] The State Board of Administration, created by the Florida Constitution, is governed by the Governor as the Chair of the Board of Trustees, the Chief Financial Officer, and the Attorney General. The Board is one of several boards and commissions making up the Florida Cabinet system. The Florida Cabinet consists of the Attorney General, the Chief Financial Officer, and the Commissioner of Agriculture.
[77] Section 215.68, (1), F.S.
[78] Section 215.73, F.S.
[79] Section 215.82(2), F.S.
[80] *See* s. 75.02, F.S.
[81] Section 75.09, F.S.
[82] *See* copy of email from the Florida Division of Bond Finance to House staff dated January 27, 2015 (On file with the Senate Committee on Transportation).
[83] Emphasis added.

the first publication, which may not be less than 20 days before the date set for hearing, *in a newspaper in each of the counties where the proceeds of the bonds are to be expended, and in a newspaper published in Leon County.*[84]

However, if publication pursuant to s. 215.82, F.S., would require publication in more newspapers than would publication pursuant to s. 75.06, F.S., then publication pursuant to s. 75.06, F.S., controls.[85] The currently required publication is dependent upon the geographic reach of the project(s) for which funding through bond issuance is sought.

Effect of Proposed Changes:

The bill leaves validation of turnpike bonds to the discretion of the DBF and limits provisions relating to publication of the required notice.

Section 9 creates subsection (5) of s. 338.227, F.S., to:
- Provide turnpike bonds issued pursuant to that section are not required to be validated pursuant to chapter 75, F.S., notwithstanding s. 215.82, F.S.;
- Provide for validation at the option of the DBF; and
- Require the notice under s. 75.06, F.S., to be published only in Leon County.

Section 15 amends s. 215.82(2), F.S., to strike the reference to s. 338.227, F.S., and add a reference to the language in newly created s. 338.227(5), F.S.

Emergency Work Program Amendments (Section 10)

Present Situation:

The FDOT's Work Program

The FDOT is responsible for developing a five-year plan of transportation projects in partnership with other entities such as communities, metropolitan planning organizations, local governments, other state and federal agencies, modal partners, and regional entities. Each of the FDOT's districts develops a "district work program," which is a five-year listing of transportation projects planned for each fiscal year and submitted to the FDOT's central office for review. The central office then develops a "tentative work program" (TWP) based on the district work programs. The TWP is a future five-year listing of all projects planned for each fiscal year, setting forth all projects by phase to be undertaken during the ensuing fiscal year and planned for the successive four fiscal years. On July 1 of each year, the FDOT adopts the "adopted work program," (AWP) which is the five-year listing of all projects planned for each fiscal year, including the current fiscal year.[86]

The TWPs and AWPs must set out the proposed commitments and planned expenditures for the projects listed and be based on a complete, balanced financial plan.[87] Commitments[88] generally

[84] Emphasis added.
[85] *See* s. 215.82(2), F.S.
[86] *See* s. 339.135, F.S.
[87] Section 339.135(3)(a), F.S.
[88] The FDOT operates on a cash flow-commitment basis. Multi-year transportation projects begin before the total amount of cash is available to fund the entire project. Future revenues are used to pay for a project as actual expenditures occur. The

must be planned so as to deplete the estimated resources for the fiscal year.[89] Budgeting in excess of revenues received from various sources is prohibited.[90] The FDOT may include in each new TWP proposed changes to the projects contained in the previous AWP but is required to minimize changes to the four common fiscal years contained in the previous AWP and the new TWP.[91]

Amending the Adopted Work Program

The AWP may be amended, subject to certain procedures. The FDOT may amend the AWP to transfer fixed capital outlay appropriations for projects within the same appropriations category or between appropriations categories, including the following:

- To delete any project or project phase estimated to cost over $150,000;
- To add a project estimated to cost over $500,000;
- To advance or defer to another fiscal year a right-of-way phase, a construction phase, or a public transportation project phase estimated to cost over $1.5 million, with certain exceptions; or
- To advance or defer to another fiscal year any preliminary engineering phase or design phase estimated to cost over $500,000, with certain exceptions.[92, 93]

If the FDOT proposes any amendment to the AWP described above the FDOT must submit the proposed amendment to the Governor for approval.[94] The FDOT must notify:

- The chairs of the appropriations and transportation committees;
- Each member of the Legislature representing a district affected by the proposed amendment; and
- Each affected metropolitan planning organization (MPO) and unit of local government, if not notified in connection with the 14-day comment period.[95]

Current law prohibits the Governor from approving a proposed amendment until 14 days following the notification to the committee chairs, Legislative members, MPOs, and local governments.[96] If either of the appropriations committee chairs, the Senate President, or the House Speaker objects in writing to a proposed amendment within 14 days following the notification and specifies the reason for the objection, the Governor must disapprove the proposed amendment.[97]

FDOT measures and evaluates anticipated future revenues against total and planned project commitments. *See* the FDOT's *Work Program 101* computer based training available at: http://wbt.dot.state.fl.us/ois/WorkProgram101CBT/index.shtm. (Last visited December 2, 2016.)

[89] Section 339,135(3)(b), F.S.

[90] Section 339.315(3)(c), F.S.

[91] Section 339.315(4)(b)3., F.S.

[92] Section 339.135(7)(c), F.S.

[93] FDOT Districts may loan funds between districts, under specified conditions. Such loans constitute an amendment to the AWP per s. 339.135(7)(b), F.S., and are subject to the same budget amendment threshold amounts contained in s. 339.135(7)(c), F.S. The FDOT is required to index the thresholds to the Consumer Price Index or similar inflation indicators no more frequently than once a year, subject to specified notice and review procedures

[94] If the amendment deletes or defers a capacity project construction phase, affected counties and cities must be given a 14-day comment period prior to the amendment being submitted to the Governor. Section 339.135(7)(d)1., F.S.

[95] Section 339.135(7)(d)2., F.S.

[96] Section 339.135(7)(d)3., F.S.

[97] Section 339.135(7)(d)4., F.S.

Any work program amendment that also requires the transfer of fixed capital outlay[98] appropriations between categories within the FDOT, or the increase of an appropriation category, is subject to the approval of the Legislative Budget Commission (LBC), if not subject to legislation enacted in 2016.[99] The 2016 legislation required LBC approval of any work program amendment in excess of $3 million that also adds a new project, or phase thereof, to the AWP.[100]

Emergency Work Program Amendments

Recognizing that circumstances can arise that would make the above-described processes unworkable, existing law makes provision for emergencies. Notwithstanding the notification and approval requirements described above and the requirement for LBC review of amendments transferring fixed capital outlay appropriations between categories,[101] current law authorizes the FDOT secretary to request AWP amendments when an emergency[102] exists and the emergency relates to the repair or rehabilitation of any state transportation facility. The Governor may grant approval and amend the FDOT's approved budget if a delay due to the notification requirements described above would be detrimental to the interests of the state. The FDOT must immediately notify the committee chairs and the affected Legislative members, MPOs, and local governments, and provide written justification for the emergency action within seven days after approval.[103]

The FDOT notes that this exemption ensures that emergency repairs proceed quickly, protecting the safety and convenience of the traveling public.[104] However, when the 2016 legislation was enacted to require LBC approval of any work program amendment in excess of $3 million that also adds a new project, or phase thereof, to the AWP, no exception from the notification, approval, and LBC-review requirements was granted for emergencies. The FDOT seeks to clarify that emergency work program amendments are also exempt from the LBC approval requirement of the 2016 legislation. In Fiscal Year 2016-2017 so far, the FDOT advises only one work program amendment was submitted for LBC review that, under the proposed revision, would not have been submitted.[105]

---

[98] Defined in s. 216.011(1)(p), F.S., to mean the appropriation category used to fund real property (land, buildings, including appurtenances, fixtures and fixed equipment, structures, etc.), including additions, replacements, major repairs, and renovations to real property which materially extend its useful life or materially improve or change its functional use and including furniture and equipment necessary to furnish and operate a new or improved facility, when appropriated by the Legislature in the fixed capital outlay appropriation category.

[99] Section 339.135(7)(g), F.S.

[100] Section 339.135(7)(h), F.S.

[101] Section 339.135(7)(e), F.S., also expressly notwithstands the provisions of s. 216.772(2), F.S., relating to certain other notice, review, and objection procedures with respect to appropriations, and s. 216.351, F.S., providing that subsequent inconsistent laws supersede that chapter only by express reference to that section,.

[102] Defined by s. 252.34(4), F.S., to mean any occurrence, or threat thereof, whether natural, technological, or manmade, in war or in peace, which results or may result in substantial injury or harm to the population or substantial damage to or loss of property.

[103] Current law prohibits amending the AWP for emergency purposes unless the FDOT's comptroller certifies the availability of sufficient funds. Section 339.135(7)(e), F.S.

[104] *See* the FDOT's 2017 Legislative Proposal, *Work Program Amendments-LBC/Emergency Projects*. (On file in the Senate Transportation Committee.)

[105] *See* the FDOT's response to staff questions. (On file in the Senate Transportation Committee.)

Effect of Proposed Changes:

Section 10 amends s. 339.135(7)(e), F.S., relating to emergency amendment of the FDOT's work program, to insert a cross-reference to subsection (h), relating to the 2016 requirement for LBC review and approval of any work program amendment in excess of $3 million that also adds a new project, or phase thereof, to the AWP. This revision results in an exception to LBC review and approval of such amendments in the case of emergencies, under the conditions specified in current law.

Florida Highway Beautification Council Repeal/FDOT Grant Program (Section 11)

Present Situation:

The Council's Role

Section 339.2405, F.S., established the Florida Highway Beautification Council (Council) within the FDOT in 1987. The Council consists of seven members appointed by and serving at the pleasure of the Governor, with each chair selected by the Council members and serving a two-year term. Currently, all appointed members must be residents of this state. Of the seven members, two must be private citizens and one each must be:

- A licensed landscape architect;
- A representative of the Florida Federation of Garden Clubs, Inc.;
- A representative of the Florida Nurserymen and Grower Association;
- An FDOT representative designated by the FDOT secretary; and
- A representative of the Department of Agriculture and Consumer Services.

The Council is required to meet at least semiannually and may prescribe, amend, and repeal bylaws. The Council's duties are to:

- Provide information to local governments and local highway beautification councils about the state highway beautification grants program;
- Accept and review grant requests from local governments;
- Establish rules for evaluating and prioritizing the grant requests;
- Maintain a prioritized list of approved grant requests;
- Assess the feasibility of planting and maintain indigenous wildflowers and plants, instead of sod groundcovers, along the rights-of-way of state roads and highways;
- At the request of the FDOT secretary, review and make recommendations on any other highway beautification matters; and
- Annually submit to the FDOT secretary a proposal recommending the level of grant funding.

Local councils may be created by local governmental entities or by the Legislature. The local government or governments of the area in which the project is located must approve a grant request before its submission to the Council. After receiving recommendations from the Council, the FDOT secretary must award grants to local governmental entities in the order they appear on the Council's prioritized list and in accordance with available funding.[106]

[106] Section 334.044(26), F.S., requires the FDOT to allocate no less than 1.5 percent of the amount contracted for roadway and bridge construction projects for the purchase of plant materials. The FDOT advises that highway beautification grant funds are included in its calculation of the 1.5 percent requirement. *See* the FDOT's response to staff questions. (On file in the Senate Transportation Committee.)

Beautification grants may be requested only for projects to beautify through landscaping roads on the State Highway System. A grant request must identify all costs associated with the project, including sprinkler systems, plant materials, equipment, and labor. Grant funds must provide for the costs of purchase and installation of a sprinkler system and the cost of plant materials and fertilizer. Grant funds may provide for the costs for labor associated with the installation of plantings.

Each local government that receives a grant is responsible for paying any costs for water, sprinkler system maintenance, and landscaped area maintenance in accordance with a maintenance agreement with the FDOT. Except as provided in the grant, each local government is also responsible for paying any costs for labor associated with plant installation. The FDOT is authorized to provide by contract services to maintain such landscaping at a level not to exceed the cost of routine maintenance of an equivalent un-landscaped area.

The FDOT's Role

The FDOT reports that each FDOT District appoints a District Highway Beautification Council Grant Manager (District Manager). The District Manager works with the District Landscape Architect and the State Transportation Landscape Architect (STLA), promoting the grant program and assisting applicants through the grant process. Each District Manager compiles and submits to the STLA a district-wide list of all applications received, and the STLA then compiles a statewide list. After the Council ranks each project, the STLA produces a Ranked Listing of the projects. Grants are awarded in the ranked order until the remaining budget is insufficient to fund the next ranked project.[107]

Recent Grant Funding and Council Expenses

The line items for highway beautification included in the FDOT's budget for the most recent five Fiscal Years is as follows:

Fiscal Year	Line-Item
2012-2013	$1,000,000
2013-2014	$1,000,000
2014-2015	$1,800,000
2015-2016	$1,817,000
2016-2017	$1,800,000[108]

The FDOT is required to provide staff support services to the Council. For Fiscal Years 2012-13 through 2016-17, the FDOT advises it expended $167,500 for administrative costs and travel to support the Council.[109]

[107] *See* the FDOT's 2017 Legislative Proposal, *Repeal of the Florida Highway Beautification Council*. (On file in the Senate Transportation Committee.)
[108] *Id.*
[109] *See* the FDOT's *Estimated Admin and Travel Expense to Administer the Grants*. (On file in the Senate Transportation Committee.)

Effect of Proposed Changes

The bill repeals the Florida Highway Beautification Council and creates the Florida Highway Beautification Grant Program within the FDOT, with the FDOT secretary awarding grants to local governmental entities for beautification of roads on the State Highway System based on the FDOT's prioritized list.

Section 11 amends s. 339.2405, F.S., creating the Grant Program within the FDOT and repealing all of the provisions relating to the Council, its membership, chair selection, meeting frequency, quorum requirements, compensation, and bylaws, etc.

The current Council duties are transferred to the FDOT, with the exception of assessing the feasibility of planting and maintaining indigenous wildflowers and plants, instead of sod groundcovers, using data from other states. The bill removes the required assessment, as it has been accomplished. The FDOT continues its efforts to improve aesthetics and driver safety while lowering maintenance costs through its Wildflower and Natural Areas Program.[110]

Also removed to conform to the repeal of the Council is its authorization to make recommendations on other highway beautification matters and direction to the FDOT secretary to provide staff support services to the Council. Authorization to create local councils remains in place. The FDOT would rank the requests, rather than the Council, and the FDOT secretary would award grants based on the FDOT's prioritized list of approved grant requests, until the remaining budget is insufficient to fund the next ranked project.

South Florida Regional Transportation Authority (SFRTA) Funding and Contracting (Sections 712-14 and 16)

Present Situation:

The SFRTA and Funding

The SFRTA, created in 2003, is an agency of the state established in part II of ch. 343, F.S. The governing body of ten voting members includes:

- One county commissioner each, elected by the county commission from Broward, Miami-Dade, and Palm Beach Counties;
- One citizen who is not a commission member, appointed by each county commission;
- An FDOT district secretary or his designee appointed by the FDOT secretary; and
- Three citizens appointed by the Governor.

Members serve four-year terms, except that the terms of the Governor's appointees must be concurrent.

The SFRTA is authorized to coordinate, develop, and operate a regional transportation system in the tri-county area of Broward, Miami-Dade, and Palm Beach Counties. The SFRTA provides commuter rail service (Tri-Rail) for residents and visitors in the area served. Statutory provisions

[110] *See* the FDOT website for further information on the current program, including links to the referenced report, a history of the program, the FDOT's current wildflower procedure, and other related details available at: http://www.fdot.gov/designsupport/wildflowers/default.shtm. (Last visited March 2, 2017.)

require each of the three counties served to provide no less than $2.67 million annually, dedicated by each governing body by October 1 of each year, which funds may be used for capital, operations, and maintenance.[111] Additionally, current law requires each county to annually fund SFRTA operations in an amount no less than $1.565 million.[112]

Further, if the SFRTA, by December 31, 2015, had not received federal matching funds based on the dedicated $2.67 million in tri-county funding, current law provides that funding is repealed. The SFRTA's 2016 Comprehensive Annual Financial Report reflects that the three counties contributed approximately $1.6 million each towards the SFRTA's operating budget in Fiscal Years 2015 and 2016.[113] Thus, it appears the SFRTA received no federal matching funds, and the counties are no longer required to provide the annual $2.67 million to the SFRTA.

The SFRTA is currently responsible for dispatching, maintenance, and inspection of the South Florida Rail Corridor.[114] Having assumed such responsibility, the FDOT is required to annually transfer to the SFRTA a total of $42.1 million as follows:

- $15 million for SFRTA operations, maintenance, and dispatch; and
- $27.1 million for operating assistance, corridor track maintenance, and contract maintenance for the SFRTA.[115]

According to a Florida Transportation Commission report, the FDOT has agreed to cover 100 percent of annual maintenance costs up to $14.4 million, with shared costs in excess of that amount, pursuant to an Operating Agreement between the FDOT and the SFRTA setting out agreed-upon percentages.[116] The SFRTA's 2016 Comprehensive Annual Financial Report indicates that of the $102,201,506 million in total revenue for 2016, the FDOT contributed $55,260,036 million or 54.1 percent.[117]

The FDOT's Oversight Role

The SFRTA may not commit any funds provided by the FDOT without the FDOT's approval. The FDOT may not unreasonably withhold approval. At least 90 days before advertising any procurement or renewing any existing contract using state funds for payment, the SFRTA must notify the FDOT of the proposed procurement or renewal and the proposed terms. If the FDOT objects in writing within 60 days of receipt of the notice, the SFRTA may not proceed. Failure of the FDOT to object within 60 days is deemed consent.[118] To enable the FDOT's evaluation of the SFRTA's proposed uses of state funds, the SFRTA must annually provide the FDOT with its proposed budget and with any additional documentation or information required by the FDOT.[119]

[119] Section 348.58(4)(c)2., F.S.

Recent Contracting

According to the SFRTA, services for the operation of Tri-Rail are currently provided through four separate contracts covering train operations, maintenance of equipment, train dispatching, and station maintenance. Those contracts expire in June of this year. The SFRTA made a decision to bundle the four contracts into one and, on September 22, 2016, issued a Request for Proposals (RFP). Eighty percent of the scoring of the proposals was to be based on technical ability to do the work; 20 percent was to be based on price. The RFP cautioned proposers not to condition their prices. Proposals were due by December 16, 2016.[120]

According to the SFRTA, five of the six proposers submitted with their price proposals "extraneous" pages with labels such as "Proposal Exceptions," "Exceptions to RFP," and "Pricing Assumptions."[121] Other examples included pages indicating that their price did not include the cost of certain requirements in the RFP or that the price assumed facts that contradicted the RFP.[122] The SFRTA's procurement director determined five of the six proposers had materially and significantly conditioned their proposals — specifically, their price – and that the proposals were therefore nonresponsive and should be rejected, based on requirements in the RFP.[123]

On January 27, 2017, the SFRTA's governing board approved a Notice of Intent of Contract Award for Request for Proposal 16-010 "Operating Services," reflecting a determination to enter into a contract with an initial seven-year term, plus a three-year renewal option, for a price of $511,418,271.65.[124]

A request for an injunction to block Tri-Rail from awarding the contract was rejected following issuance of a temporary injunction to enable judicial review of allegations of unfair disqualification. The judge in the case ruled that the plaintiff failed to show any entitlement to a preliminary injunction and had not established a likelihood of success on the merits of their case." [125] Four of the five rejected bidders have timely filed a bid protest with the SFRTA, which is currently under review.[126]

The Florida Single Audit Act/Agreements Funded with Federal or State Assistance

Section 215.97, F.S., creates the Florida Single Audit Act. Among its stated purposes is to establish uniform state audit requirements for state financial assistance provided by state agencies to nonstate entities to carry out state projects.

- "State financial assistance" is defined to mean state resources, not including federal financial assistance and state matching on federal programs, provided to a nonstate entity to carry out a state project, including the types of state resources stated in the rules of the Department of Financial Services established in consultation with all state awarding agencies. State financial assistance may be provided directly by state awarding agencies or indirectly by nonstate entities. The term does not include procurement contracts used to buy goods or services from vendors and contracts to operate state-owned and contractor-operated facility.
- "Nonstate entity" means a local government entity, higher education entity, nonprofit organization, or for-profit organization that receives state financial assistance.

Section 215.971, F.S., requires an agreement that provides state financial assistant to a recipient or subrecipient to include all of the following:

- A scope of work that clearly establishes the tasks to be performed;
- A division of the agreement into deliverables that must be received and accepted in writing by the agency before payment. Deliverables must be directly related to the scope of work. The agreement must specify the required minimum level of service to be performed and criteria for evaluating completion of each deliverable;
- Specification of the financial consequences for failure to perform the minimum level of service.
- Specification that a recipient may expend funds only for allowable costs, and that any balance of unobligated funds and any funds paid in excess of the amount to which the recipient is entitled must be refunded to the state agency; and
- Any additional information required by the Florida Single Audit Act.

In 2016, the FDOT's Inspector General engaged in an effort "to determine the nature and extent of SFRTA's expenditures and whether their financial records were in compliance with applicable laws, rules, and regulations."[127] Based on the SFRTA's response, the Inspector General requested a determination from the Department of Financial Services whether appropriations to the SFRTA constitute "state financial assistance."[128] The Inspector General's report found:

> SFRTA, as determined by the Department of Financial Services (DFS), is a Special District and a nonstate entity that is a recipient of state financial

[127] *See Audit Report No. 141-4002*, available at: http://www.fdot.gov/ig/Reports/14I-4002%20Final.pdf. (Last visited March 18, 2017.)
[128] *Audit Report* at 7.

> assistance.[129] We determined the Operating Agreement[130] between SFRTA and the department does not fully comply with mandatory provisions required by Section 215.971, F.S. nor does it contain the procurement provisions outlined in Chapter 287, F.S. We also determined $153 million of state appropriations was omitted from audit coverage in accordance with the Florida Single Audit Act for fiscal years 2010/11 to 2014/15. Additionally, SFRTA did not provide a standard operating budget-to-actual expenditure report based upon the use of each grant or funding source.[131]

Effect of Proposed Changes:

The bill places restrictions on the SFRTA's contracting authority and use of state funds and revises the FDOT's oversight role.

Section 13 amends s. 343.54, F.S., to prohibit the SFRTA from entering into, extending, or renewing any contract or other agreement under that part without the FDOT's prior review and written approval of the SFRTA's proposed expenditures, if such contract or agreement may be funded, in whole or in part, with FDOT-provided funds. The prohibition applies notwithstanding any provision of that part, which contains the SFRTA's authorization to enter into contracts. The SFRTA must obtain the FDOT's approval, under the funding condition specified, to enter into, extend, or renew any contract or other agreement.

Section 14 amends s. 343.48(4)(c)1., F.S., to remove the current statutory language:

- Prohibiting the FDOT from unreasonably withholding its approval of the SFRTA's commitment of FDOT-provided funds;
- Requiring the SFRTA to notify the FDOT of a proposed procurement or renewal before advertising any procurement or renewing any existing contract that will rely on state funds;
- Requiring the FDOT to object in writing and, if timely, prohibiting the SFRTA from proceeding with the procurement or renewal;
- Providing that the FDOT's failure to timely object constitutes consent; and
- Providing no-impairment-of-contract language for contracts existing as of June 30, 2012.

This section replaces the notice and objection process with language deeming funds provided to the authority by the FDOT under that section to be state financial assistance provided to a

[129] The DFS determined the SFRTA had for nine years submitted financial audit reports per s. 28.39, F.S., as a special district; that a special district as defined by statute is a unit of government created for a special purpose by a special act with jurisdiction to operate within a limited geographic boundary; that the SFRTA was created by the South Florida Regional Transportation Authority Act for the special purpose of operating and managing a transit system in Broward, Miami-Dade and Palm Beach Counties; and that the law limits operations to those counties. The DFS also noted the SFRTA is a state project (a state program that provides state financial assistance to a nonstate organization) that must be assigned a Catalog of State Financial Assistance number and, finally, since state law created the SFRTA to carry out a state project, the SFRTA is a recipient of state financial assistance. *Audit Report,* Appendix J.

[130] The report notes a June 2013 operating agreement between the FDOT and the SFRTA for continuing SFRC operating rights for a 14-year period that included SFRTA's agreement to conduct all activities in accordance with applicable federal and state laws and regulations and the operating rules, policies, and procedures adopted pursuant to such laws and regulations. *Id.* at 5.

[131] *Audit Report* at 1.

nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971, F.S. The FDOT is directed to provide the funds in accordance with the terms of a written agreement to be entered into between the SFRTA and the FDOT. The agreement must provide for FDOT review, approval, and audit of the SFRTA's expenditure of such funds and must include such other provisions as are required by applicable law. The FDOT is expressly authorized to advance the SFRTA one-fourth of the total funding provided under that section for a state fiscal year at the beginning of each state fiscal year. Thereafter, the bill requires monthly payments over the fiscal year on a reimbursement basis as supported by invoices and such additional documentation and information as the FDOT may reasonably require, and a reconciliation of the advance against remaining invoices in the last quarter of the fiscal year.

This section of the bill also modifies the SFRTA's existing obligation to provide the FDOT with its proposed budget and any additional documentation or information required by the FDOT for its evaluation of SFRTA-proposed uses of state funds by requiring the SFRTA to *promptly* provide such documentation or information.
.

Section 12 amends s. 343.52, F.S., to define "department" within Part II of ch. 343, F.S. to mean the Department of Transportation.

Section 16 of the bill amends s. 343.53, F.S., revising a cross-reference to conform to changes made in the act.

Transportation Disadvantaged Services/Transportation Network Companies (Section 17)

Present Situation:

The Legislature created the Transportation Disadvantaged (TD) Program in Part I of ch. 427, F.S., in 1979.[132] The TD Program coordinates a network of local and state programs providing transportation services for elderly, disabled, and low-income citizens. In 1989, the Legislature created the Commission for the Transportation Disadvantaged (commission) as an independent entity within the Florida Department of Transportation.[133] The purpose of the commission is to accomplish the coordination of transportation services provided to the transportation disadvantaged,[134] with the goal of such coordination to assure the cost-effective provision of transportation by qualified community transportation coordinators[135] or transportation operators.[136] The commission describes the program as "a shared-ride service which, depending

[132] 79-180, L.O.F.
[133] 89-376, L.O.F.
[134] A "transportation disadvantaged person" is a person who because of physical or mental disability, income status, or age is unable to transport himself or herself or to purchase transportation and is, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities, or children who are handicapped or high-risk or at-risk as defined in s. 411.202, F.S.Section 427.011(1), F.S.
[135] Section 427.011(5), F.S.
[136] A "transportation operator" is one or more public, private for-profit, or private nonprofit entities engaged by the community transportation coordinator to provide service to transportation disadvantaged persons pursuant to a coordinated system service plan. Section 427.011(6), F.S.

on location, may be provided using the fixed route transit or paratransit (door-to-door) service."[137]

Section 427.011(9), F.S., defines "paratransit" to mean those elements of public transit that provide service between specific origins and destinations selected by the individual user with such service being provided at a time agreed upon by the user and provider of the service. That section also specifies that paratransit services are provided by taxis, limousines, "dial-a-ride," buses, and other demand-responsive operations characterized by their nonscheduled, nonfixed route nature. Paratransit service has its own challenges, however, such as waiting long periods of time for a ride home after a doctor's visit or problems getting to a fixed route stop.

Some communities are employing TNCs, such as Uber, Lyft, and SideCar, to improve mobility for transportation disadvantaged persons. For example, the Massachusetts Bay Transportation Authority partnered with Uber and Lyft to provide paratransit services.[138] Here in Florida, the Pinellas Suncoast Transit Authority (PSTA) recently expanded a small pilot project to the entire county. Branded as Direct Connect, the program is designed to give low-cost rides to designated bus stops using Uber, United Taxi, and Lyft.[139] However, current state law does not expressly include TNCs as a provider of transportation disadvantaged services.

Effect of Proposed Changes:

Section 17 amends s. 427.011, F.S., to re-order the definitions alphabetically, re-numbering current subsection (9) as subsection (7), and includes TNCs as a provider of paratransit service, thereby allowing TNCs to provide transportation disadvantaged services.

Federal Pilot Program Enrollment

Present Situation:

Section 334.044, F.S., sets out a number of the FDOT's powers and duties. Among those are the FDOT's power and duty to:

- Conduct research studies and collect data necessary for the improvement of the state transportation system;
- Conduct research and demonstration projects relative to innovative transportation technologies; and
- Identify, obtain, and administer all federal funds available to the FDOT for all transportation purposes.

Effect of Proposed Changes:

Section 18 of the bill creates an unspecified section of Florida law authorizing the Secretary of Transportation to enroll the State of Florida in any federal pilot program or project for the

[137]*See* the Commission's website available at: http://www.fdot.gov/ctd/communitytransystem.htm. (Last visited March 27, 2017.)
[138]*See Uber, Lyft partner with transportation authority to offer paratransit customers service in Boston*, available at: https://www.washingtonpost.com/news/dr-gridlock/wp/2016/09/16/uber-lyft-partner-with-city-to-offer-paratransit-customers-on-demand-service-in-boston/?utm_term=.0a9f1dca38bb. (Last visited April 13, 2017.
[139]*See PSTA Expands Partnership with Uber, Lyft Across Pinellas County,* available at: https://patch.com/florida/stpete/psta-expands-partnership-uber-lyft-across-pinellas-county. (Last visited April 14, 2017.)

collection and study of data for the review of federal or state roadway safety, infrastructure sustainability, congestion mitigation, transportation system efficiency, autonomous vehicle technology, or capacity challenges.

While research reveals no provision of law expressly authorizing the FDOT to enroll the state in any federal pilot program or project, the FDOT's existing powers and duties appear to grant sufficient authority for the FDOT to enroll the state in a federal pilot program or project relating to the collection and study of data for review of the identified subject matters.

Section 19 provides the act take effect on July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(a) of the Florida Constitution provides that no county or municipality shall be bound by any general law requiring such county or municipality to spend funds or to take an action requiring the expenditure of funds unless the legislature has determined that such law fulfills an important state interest and unless: funds have been appropriated that have been estimated at the time of enactment to be sufficient to fund such expenditure; the legislature authorizes or has authorized a county or municipality to enact a funding source not available for such county or municipality on February 1, 1989, that can be used to generate the amount of funds estimated to be sufficient to fund such expenditure by a simple majority vote of the governing body of such county or municipality; the law requiring such expenditure is approved by two-thirds of the membership in each house of the legislature; the expenditure is required to comply with a law that applies to all persons similarly situated, including the state and local governments; or the law is either required to comply with a federal requirement or required for eligibility for a federal entitlement, which federal requirement specifically contemplates actions by counties or municipalities for compliance.

Article VII, s. 18(d) of the Florida Constitution provides laws adopted to require funding of pension benefits existing on the effective date of this section, criminal laws, election laws, the general appropriations act, special appropriations acts, laws reauthorizing but not expanding then-existing statutory authority, laws having insignificant fiscal impact, and laws creating, modifying, or repealing noncriminal infractions, are exempt from the requirements of this section.

An exemption from the mandates provision may apply if the expected fiscal impact on municipalities/counties is less than $2 million. Because the fiscal impact is anticipated to be less than $2 million, the bill appears to be exempt from the mandate requirements.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

The provisions relating to highway memorial markers and incorporation of emblems of belief may be subject to challenge under the First Amendment of the U.S. Constitution.[140]If such a legal challenge is made, case law does not provide clear direction as to the legal standard to be used as different "tests" of constitutionality have been applied in establishment clause cases based on various fact patterns leading to an inconsistency in results.[141]

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Section 2: The trucking industry may realize an insignificant positive fiscal impact resulting from the additional weight allowance for natural gas vehicles due to potentially fewer overweight citations.

Section 3: Riders in autonomous vehicles used by TNCs to provide transportation may benefit from the bill's required insurance coverage. The insurance industry may benefit from increased sales.

Section 7: Applicants requesting memorial markers incorporating emblems of belief may be required to pay the fee to be set by the FDOT to offset production costs.
Section 8: The FDOT notes an indeterminate positive fiscal impact to the extent a private sector company is awarded a fast response contract and is not required to obtain a surety bond.[142]

C. Government Sector Impact:

Section 2: The FDOT may realize a loss of revenues relating to fewer overweight citations being written. This revenue loss may be offset to an extent by reduced regulatory costs. A potential withholding of federal funds is avoided.

Section 6: The FDOT will incur additional administrative expenses associated with developing the federally required bridge inspection policies and criteria, seeking FHWA approval, and revising relevant policies and procedures, which expenses are expected to be absorbed within existing resources. The FDOT expects cost savings to the extent the FHWA approves bridges for extended inspection frequencies. The FDOT estimates

[140] Congress shall make no law respecting an establishment of religion…." U.S. Const. amend. I.
[141] *Utah Highway Patrol Association v. American Atheists, Inc.*, decided October 31, 2011, available at: https://www.supremecourt.gov/opinions/11pdf/10-1276.pdf. (Last visited April 5, 2017.)
[142] *See* the FDOT's 2017 Legislative Proposal, *Rapid Response Contracts – Price Cap Increase*. (On file in the Senate Transportation Committee.)

approximately $500,000 in inspection services could be redirected to bridge repair, rehabilitation, and/or replacement.[143]

Section 7: The FDOT may experience administrative expenses associated with the memorial marker program, offset by the authorized fee for markers incorporating emblems of belief, in an indeterminate amount.

Section 9: The DBF may avoid some costs if it is not required to validate turnpike revenue bonds.

Section 11: Based on costs for Fiscal Years 2012-13 through 2016-17, the FDOT is expected to realize a positive fiscal impact of approximately $33,400 annually resulting from repeal of the Florida Highway Beautification Council, due to removal of the FDOT's duty to provide for administrative costs and travel to support the Council. The FDOT will absorb administrative expenses associated with revising Rule Chapter 14-40, F.A.C., and implementing the grant program, within existing resources.

Sections 13 and 14: The FDOT and the SFRTA may incur additional administrative expenses associated with the FDOT's review, written approval, and audit of the SFRTA's proposed expenditures using any funding provided to the SFRTA under s. 343.58(4), F.S., as well as administrative expenses associated with the requires reimbursement and reconciliation process.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 316.545, 335.074, 337.11, 338.227, 339.135, 339.2405, 343.52, 343.54, 343.58, 215.82, and 343.53.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 13, 2017:
The committee substitute:

- Directs the FDOT, in consultation with the Department of Highway Safety and Motor Vehicles (DHSMV), to develop a Florida Smart City Challenge grant program;

[143] *See* the FDOT's 2017 Legislative Proposal, *Bridge Inspection Frequency*. (On file in the Senate Transportation Committee.)

- Revises autonomous vehicle alert system requirements, consistent with current law, to clarify that an autonomous vehicle may operate in autonomous mode without a person physically present in the vehicle;
- Directs the FDOT to establish a process for applications for placement of roadside memorial markers at or near the location of traffic-related fatalities on the State Highway System to raise public awareness and remind motorists to drive safely.
- Applies certain insurance coverage requirements, should legislation addressing insurance for transportation network companies (TNCs) become law, to autonomous vehicles used by TNCs to provide transportation, regardless of whether a human operator is physically present in the vehicle when the ride occurs;
- Removes the provisions requiring the SFRTA to terminate the Operating Services contract and:
  - Deems funds provided by the FDOT to the SFRTA to be state financial assistance subject to specified accountability requirements;
  - Requires the FDOT to provide funds to the SFRTA in accordance with a written agreement containing certain provisions;
  - Authorizes the FDOT to advance funds to the SFRTA at the start of each fiscal year, with monthly payments for maintenance and dispatch on the South Florida Rail Corridor over the fiscal year on a reimbursement basis;
- Expressly includes transportation network companies (TNCs) in the list of providers of services for the transportation disadvantaged; and
- Authorizes the FDOT Secretary to enroll the state in any federal pilot program or project for the collection and study of specified types of transportation-related data.

CS by Transportation March 28, 2017:
A technical amendment to the original bill was adopted to clarify that the 2,000-pound weight allowance for natural gas-powered trucks is in addition to the 500-pound weight allowance for idle reduction technology.

B. Amendments:

None.

By the Committee on Transportation; and Senators Gainer and Rouson

596-03007-17 20171118c1

A bill to be entitled

An act relating to transportation; amending s. 316.545, F.S.; providing for the calculation of fines for unlawful weight and load for a vehicle fueled by natural gas; requiring the vehicle operator to present a certain written certification upon request by a weight inspector or law enforcement officer; prescribing a maximum actual gross vehicle weight for vehicles fueled by natural gas; providing applicability; amending s. 335.074, F.S.; requiring bridges on public transportation facilities to be inspected for certain purposes at regular intervals as required by the Federal Highway Administration; amending s. 337.11, F.S.; increasing the allowable amount for contracts for construction and maintenance which the Department of Transportation may enter into, in certain circumstances, without advertising and receiving competitive bids; amending s. 338.227, F.S.; providing that certain bonds are not required to be validated but may be validated at the option of the Division of Bond Finance; providing filing, notice, and service requirements for complaints and circuit court orders concerning such validation; amending s. 339.135, F.S.; providing an additional exception related to the amendment of adopted work programs when an emergency exists; amending s. 339.2405, F.S.; replacing the Florida Highway Beautification Council within the department with the Florida Highway Beautification Grant Program; providing the purpose of

596-03007-17 20171118c1

the program; providing duties of the department, including the establishment of rules related to grant requests; conforming provisions to changes made by the act; amending s. 343.52, F.S.; defining the term "department"; amending s. 343.54, F.S.; prohibiting the South Florida Regional Transportation Authority from entering into, extending, or renewing certain contracts or other agreements without the department's prior review and written approval if such contracts or agreements may be funded with funds provided by the department; amending s. 343.58, F.S.; prohibiting specified funds provided to the authority by the department from being committed by the authority without the prior review and written approval by the department of the authority's expenditures; deleting requirements relating to notification by the authority to the department of a proposed procurement or of a renewal of any existing contract that will rely on state funds for payment; requiring the authority to promptly provide the department any documentation or information, in addition to the proposed annual budget, which is required by the department for its evaluation of the proposed uses of state funds; prohibiting certain funding from being provided to the authority by the department until the authority terminates a Notice of Intent of Contract Award for a specified request for proposal; requiring the authority, before entering into a new contract for the services that were the subject of such request for

proposal, to obtain the department's written approval of all terms and conditions of the new procurement and contract for such services; amending s. 215.82, F.S.; conforming a provision to changes made by the act; amending s. 343.53, F.S.; conforming a cross-reference; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present paragraphs (c) and (d) of subsection (3) of section 316.545, Florida Statutes, are redesignated as paragraphs (d) and (e), respectively, and a new paragraph (c) is added to that subsection, to read:

316.545 Weight and load unlawful; special fuel and motor fuel tax enforcement; inspection; penalty; review.—

(3)

(c)1. For a vehicle fueled by natural gas, the fine is calculated by reducing the actual gross vehicle weight by the certified weight difference between the natural gas tank and fueling system and a comparable diesel tank and fueling system. Upon the request of a weight inspector or a law enforcement officer, the vehicle operator shall present a written certification that identifies the weight of the natural gas tank and fueling system and the difference in weight of a comparable diesel tank and fueling system. The written certification must originate from the vehicle manufacturer or the installer of the natural gas tank and fueling system.

2. The actual gross vehicle weight for vehicles fueled by natural gas may not exceed 82,000 pounds, excluding the weight

allowed for idle-reduction technology under paragraph (b).

3. This paragraph does not apply to vehicles described in s. 316.535(6).

Section 2. Subsection (2) of section 335.074, Florida Statutes, is amended to read:

335.074 Safety inspection of bridges.—

(2) At regular intervals as required by the Federal Highway Administration ~~not to exceed 2 years~~, each bridge on a public transportation facility shall be inspected for structural soundness and safety for the passage of traffic on such bridge. The thoroughness with which bridges are to be inspected shall depend on such factors as age, traffic characteristics, state of maintenance, and known deficiencies. The governmental entity having maintenance responsibility for any such bridge shall be responsible for having inspections performed and reports prepared in accordance with the provisions contained herein.

Section 3. Paragraph (c) of subsection (6) of section 337.11, Florida Statutes, is amended to read:

337.11 Contracting authority of department; bids; emergency repairs, supplemental agreements, and change orders; combined design and construction contracts; progress payments; records; requirements of vehicle registration.—

(6)

(c) When the department determines that it is in the best interest of the public for reasons of public concern, economy, improved operations, or safety, and only for contracts for construction and maintenance which do not exceed $250,000 when circumstances dictate rapid completion of the work, the department may~~, up to the amount of $120,000,~~ enter into

contracts ~~for construction and maintenance~~ without advertising and receiving competitive bids. The department may enter into such contracts only upon a determination that the work is necessary for one of the following reasons:

1. To ensure timely completion of projects or avoidance of undue delay for other projects;

2. To accomplish minor repairs or construction and maintenance activities for which time is of the essence and for which significant cost savings would occur; or

3. To accomplish nonemergency work necessary to ensure avoidance of adverse conditions that affect the safe and efficient flow of traffic.

The department shall make a good faith effort to obtain two or more quotes, if available, from qualified contractors before entering into any contract. The department shall give consideration to disadvantaged business enterprise participation. However, when the work exists within the limits of an existing contract, the department shall make a good faith effort to negotiate and enter into a contract with the prime contractor on the existing contract.

Section 4. Subsection (5) is added to section 338.227, Florida Statutes, to read:

338.227 Turnpike revenue bonds.—

(5) Notwithstanding s. 215.82, bonds issued pursuant to this section are not required to be validated pursuant to chapter 75 but may be validated at the option of the Division of Bond Finance. Any complaint about such validation must be filed in the circuit court of the county in which the seat of state

government is situated, and the clerk shall publish the notice as required by s. 75.06 only in the county in which the complaint is filed. The complaint and order of the circuit court must be served on the state attorney of the circuit in which the action is pending.

Section 5. Paragraph (e) of subsection (7) of section 339.135, Florida Statutes, is amended to read:

339.135 Work program; legislative budget request; definitions; preparation, adoption, execution, and amendment.—

(7) AMENDMENT OF THE ADOPTED WORK PROGRAM.—

(e) Notwithstanding paragraphs (d), ~~and~~ (g), and (h) and ss. 216.177(2) and 216.351, the secretary may request the Executive Office of the Governor to amend the adopted work program when an emergency exists, as defined in s. 252.34, and the emergency relates to the repair or rehabilitation of any state transportation facility. The Executive Office of the Governor may approve the amendment to the adopted work program and amend that portion of the department's approved budget if a delay incident to the notification requirements in paragraph (d) would be detrimental to the interests of the state. However, the department shall immediately notify the parties specified in paragraph (d) and provide such parties written justification for the emergency action within 7 days after approval by the Executive Office of the Governor of the amendment to the adopted work program and the department's budget. The adopted work program may not be amended under this subsection without certification by the comptroller of the department that there are sufficient funds available pursuant to the 36-month cash forecast and applicable statutes.

Section 6. Section 339.2405, Florida Statutes, is amended to read:

339.2405 Florida Highway Beautification Grant Program ~~Council~~.—

(1) There is created within the Department of Transportation the Florida Highway Beautification Grant Program for the purpose of awarding grants to local governmental entities for beautification of roads on the State Highway System as provided in subsections (3) and (4). The department shall ~~Council. It shall consist of seven members appointed by the Governor. All appointed members must be residents of this state. One member must be a licensed landscape architect, one member must be a representative of the Florida Federation of Garden Clubs, Inc., one member must be a representative of the Florida Nurserymen and Growers Association, one member must be a representative of the department as designated by the head of the department, one member must be a representative of the Department of Agriculture and Consumer Services, and two members must be private citizens. The members of the council shall serve at the pleasure of the Governor.~~

~~(2) Each chair shall be selected by the council members and shall serve a 2-year term.~~

~~(3) The council shall meet no less than semiannually at the call of the chair or, in the chair's absence or incapacity, at the call of the head of the department. Four members shall constitute a quorum for the purpose of exercising all of the powers of the council. A vote of the majority of the members present shall be sufficient for all actions of the council.~~

~~(4) The council members shall serve without pay but shall~~

~~be entitled to per diem and travel expenses pursuant to s. 112.061.~~

~~(5) A member of the council may not participate in any discussion or decision to recommend grants to any qualified local government with which the member is associated as a member of the governing body or as an employee or with which the member has entered into a contractual arrangement.~~

~~(6) The council may prescribe, amend, and repeal bylaws governing the manner in which the business of the council is conducted.~~

~~(7)(a) The duties of the council shall be to~~:

(a) ~~1.~~ Provide information to local governments and local highway beautification councils regarding the state highway beautification grants program.

(b) ~~2.~~ Accept grant requests from local governments.

(c) ~~3.~~ Review grant requests for compliance with department ~~council~~ rules.

(d) ~~4.~~ Establish rules for evaluating and prioritizing the grant requests. The rules must include, but are not limited to, an examination of each grant's aesthetic value, cost-effectiveness, level of local support, feasibility of installation and maintenance, and compliance with state and federal regulations. Rules adopted by the department ~~council~~ which it uses to evaluate grant applications must take into consideration the contributions made by the highway beautification project in preventing litter.

(e) ~~5.~~ Maintain a prioritized list of approved grant requests. The list must include recommended funding levels for each request and, if staged implementation is appropriate,

funding requirements for each stage shall be provided.

~~6. Assess the feasibility of planting and maintaining indigenous wildflowers and plants, instead of sod groundcovers, along the rights-of-way of state roads and highways. In making such assessment, the council shall utilize data from other states which include indigenous wildflower and plant species in their highway vegetative management systems.~~

~~(b) The council may, at the request of the head of the department, review and make recommendations on any other highway beautification matters relating to the State Highway System.~~

~~(8) The head of the department shall provide from existing personnel such staff support services to the council as are necessary to enable the council to fulfill its duties and responsibilities.~~

(2) ~~(9)~~ Local highway beautification councils may be created by local governmental entities or by the Legislature. Prior to being submitted to the department ~~council~~, a grant request must be approved by the local government or governments of the area in which the project is located.

(3) ~~(10)~~ The head of the department~~, after receiving recommendations from the council,~~ shall award grants to local governmental entities that have submitted grant requests for beautification of roads on the State Highway System and which requests are on the ~~council's~~ approved list. The grants shall be awarded in the order they appear on the ~~council's~~ prioritized list and in accordance with available funding.

(4) ~~(11)~~ State highway beautification grants may be requested only for projects to beautify through landscaping roads on the State Highway System. The grant request shall

identify all costs associated with the project, including sprinkler systems, plant materials, equipment, and labor. A grant shall provide for the costs of purchase and installation of a sprinkler system, the cost of plant materials and fertilizer, and may provide for the costs for labor associated with the installation of the plantings. Each local government that receives a grant is ~~shall be~~ responsible for any costs for water, for the maintenance of the sprinkler system, for the maintenance of the landscaped areas in accordance with a maintenance agreement with the department, and, except as otherwise provided in the grant, for any costs for labor associated with the installation of the plantings. The department may provide, by contract, services to maintain such landscaping at a level not to exceed the cost of routine maintenance of an equivalent unlandscaped area.

~~(12) The council shall annually submit to the head of the Department of Transportation a proposal recommending the level of grant funding.~~

Section 7. Section 343.52, Florida Statutes, is reordered and amended to read:

343.52 Definitions.—As used in this part, the term:

(2) ~~(1)~~ "Authority" means the South Florida Regional Transportation Authority.

(3) ~~(2)~~ "Board" means the governing body of the authority.

(4) "Department" means the Department of Transportation.

(1) ~~(3)~~ "Area served" means Miami-Dade, Broward, and Palm Beach Counties. However, this area may be expanded by mutual consent of the authority and the board of county commissioners of Monroe County. The authority may not expand into any

additional counties without the department's prior written approval.

(8) ~~(4)~~ "Transit system" means a system used for the transportation of people and goods by means of, without limitation, a street railway, an elevated railway having a fixed guideway, a commuter railroad, a subway, motor vehicles, or motor buses, and includes a complete system of tracks, stations, and rolling stock necessary to effectuate passenger service to or from the surrounding regional municipalities.

(7) ~~(5)~~ "Transit facilities" means property, avenues of access, equipment, or buildings built and installed in Miami-Dade, Broward, and Palm Beach Counties which are required to support a transit system.

(6) ~~(6)~~ "Member" means the individuals constituting the board.

(5) ~~(7)~~ "Feeder transit services" means a transit system that transports passengers to or from stations within or across counties.

Section 8. Present subsections (4) and (5) of section 343.54, Florida Statutes, are redesignated as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

343.54 Powers and duties.—

(4) Notwithstanding any other provision of this part, the authority may not enter into, extend, or renew any contract or other agreement under this part without the department's prior review and written approval of the authority's proposed expenditures if such contract or agreement may be funded, in whole or in part, with funds provided by the department.

Section 9. Paragraph (c) of subsection (4) of section 343.58, Florida Statutes, is amended, and paragraph (e) is added to that subsection, to read:

343.58 County funding for the South Florida Regional Transportation Authority.—

(4) Notwithstanding any other provision of law to the contrary and effective July 1, 2010, until as provided in paragraph (d), the department shall transfer annually from the State Transportation Trust Fund to the South Florida Regional Transportation Authority the amounts specified in subparagraph (a)1. or subparagraph (a)2.

(c)1. Funds provided to the authority by the department under this subsection may not be committed by the authority without the prior review and written approval by ~~of~~ the department of the authority's expenditures~~, which may not be unreasonably withheld. At least 90 days before advertising any procurement or renewing any existing contract that will rely on state funds for payment, the authority shall notify the department of the proposed procurement or renewal and the proposed terms thereof. If the department, within 60 days after receipt of notice, objects in writing to the proposed procurement or renewal, specifying its reasons for objection, the authority may not proceed with the proposed procurement or renewal. Failure of the department to object in writing within 60 days after notice shall be deemed consent. This requirement does not impair or cause the authority to cancel contracts that exist as of June 30, 2012~~.

2. To enable the department to evaluate the authority's proposed uses of state funds, the authority shall annually

provide the department with its proposed budget for the following authority fiscal year and shall promptly provide the department with any additional documentation or information required by the department for its evaluation of the proposed uses of the state funds.

(e) Funding may not be provided to the authority by the department under this subsection until the authority withdraws, cancels, or otherwise terminates the authority's Notice of Intent of Contract Award for Request for Proposal 16-010 "Operating Services," approved by the authority's board on January 27, 2017. Before entering into a new contract for the services that were the subject of the Request for Proposal 16-010, the authority must obtain the department's written approval of all terms and conditions of a new procurement and contract for the services that were the subject of such request for proposal to ensure that the authority has sufficient revenues to fund the contract.

Section 10. Subsection (2) of section 215.82, Florida Statutes, is amended to read:

215.82 Validation; when required.—

(2) Any bonds issued pursuant to this act which are validated shall be validated in the manner provided by chapter 75. In actions to validate bonds to be issued in the name of the State Board of Education under s. 9(a) and (d), Art. XII of the State Constitution and bonds to be issued pursuant to chapter 259, the Land Conservation Program, the complaint shall be filed in the circuit court of the county where the seat of state government is situated, the notice required to be published by s. 75.06 shall be published only in the county where the

complaint is filed, and the complaint and order of the circuit court shall be served only on the state attorney of the circuit in which the action is pending. In any action to validate bonds issued pursuant to s. 1010.62 or issued pursuant to s. 9(a)(1), Art. XII of the State Constitution or issued pursuant to s. 215.605 ~~or s. 338.227~~, the complaint shall be filed in the circuit court of the county where the seat of state government is situated, the notice required to be published by s. 75.06 shall be published in a newspaper of general circulation in the county where the complaint is filed and in two other newspapers of general circulation in the state, and the complaint and order of the circuit court shall be served only on the state attorney of the circuit in which the action is pending; provided, however, that if publication of notice pursuant to this section would require publication in more newspapers than would publication pursuant to s. 75.06, such publication shall be made pursuant to s. 75.06.

Section 11. Paragraph (d) of subsection (2) of section 343.53, Florida Statutes, is amended to read:

343.53 South Florida Regional Transportation Authority.—

(2) The governing board of the authority shall consist of 10 voting members, as follows:

(d) If the authority's service area is expanded pursuant to s. 343.54(6) ~~s. 343.54(5)~~, the county containing the new service area shall have two members appointed to the board as follows:

1. The county commission of the county shall elect a commissioner as that commission's representative on the board. The commissioner must be a member of the county commission when elected and for the full extent of his or her term.

2. The Governor shall appoint a citizen member to the board who is not a member of the county commission but who is a resident and a qualified elector of that county.

Section 12. This act shall take effect July 1, 2017.

CODING: Words ~~stricken~~ are deletions; words underlined are additions.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 814
INTRODUCER:	Appropriations Committee and Senator Broxson
SUBJECT:	Florida Life and Health Insurance Guaranty Association
DATE:	April 27, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Johnson	Knudson	BI	**Favorable**
2.	Sanders	Betta	AGG	**Recommend: Favorable**
3.	Sanders/Johnson	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 814 revises coverage provisions relating to the Florida Life and Health Insurance Guaranty Association (association). In 1979, the Legislature created the association to protect policyholders against failure in the performance of contractual obligations under life and health insurance policies and annuity contracts due to the impairment or insolvency of the member insurer that issued the policies or contracts.

The bill provides the limit on coverage for specified health insurance policies increases from $300,000 to $500,000 for any one person, effective January 1, 2020. The bill expands the association's scope of coverage to include annuities issued by an insurer pursuant to an individual retirement annuity and annuities issued by an insurer and held by a third party custodian or trustee pursuant to an individual retirement account.

The bill does not affect state revenues or expenditures.

The bill has an effective date of July 1, 2017.

II. Present Situation:

Insurer Insolvency

States primarily regulate insurance companies, and the state of domicile serves as the primary regulator for insurers. Solvency regulations are designed to protect policyholders against the risk that insurers will not be able to meet their financial responsibilities. In Florida, the Office of Insurance Regulation (OIR) licenses and regulates the activities of insurers and other risk-bearing entities.[1] The OIR is primarily responsible for monitoring the solvency of regulated insurers and examining insurers to determine compliance with applicable laws, and taking administrative action, if necessary. The Division of Rehabilitation and Liquidation of the Department of Financial Services (DFS) is responsible for rehabilitating or liquidating insurance companies.[2]

Chapter 631, F.S., relating to insurer insolvency and guaranty payment, governs the receivership process for insurance companies in Florida.[3] Federal law specifies that insurance companies cannot file for bankruptcy. Instead, they are either "rehabilitated" or "liquidated" by the state. Florida has five insurance guaranty funds that protect policyholders of liquidated insurers from financial losses and delays in claim payment and settlement, up to limits provided by law.[4] A guaranty association generally is a not-for-profit corporation created by law directed to protect policyholders from financial losses and delays in claim payment and settlement due to the insolvency of an insurance company. A guaranty association accomplishes its mission by assuming responsibility for settling claims and refunding unearned premiums[5] to policyholders. As a condition of transacting business in Florida, all insurers are required to participate in a guaranty association.

Florida Life and Health Insurance Guaranty Association

Part III of ch. 631, F.S., governs the powers and duties of the Florida Life and Health Insurance Guaranty Association (association).[6] All insurers licensed to write life and health insurance

[1] Section 20.121(3), F.S.
[2] Typically, insurers are placed into liquidation when the company is insolvent whereas insurers are put into rehabilitation for numerous reasons, one of which is an unsound financial condition. The goal of rehabilitation is to return the insurer to a sound financial condition. The goal of liquidation, however, is to dissolve the insurer. *See* s. 631.051, F.S., for the grounds for rehabilitation and s. 631.061, F.S., for the grounds for liquidation.
[3] The Bankruptcy Code expressly provides that "a domestic insurance company" may not be the subject of a federal bankruptcy proceeding. 11 U.S.C. s. 109(b)(2). The exclusion of insurers from the federal bankruptcy court process is consistent with federal policy generally allowing states to regulate the business of insurance. *See* 15 U.S.C. ss. 1011- 1012.
[4] The Florida Life and Health Insurance Guaranty Association generally is responsible for claims settlement and premium refunds for health and life insurers who are impaired or insolvent. The Florida Health Maintenance Organization Consumer Assistance Plan assists members of insolvent health maintenance organizations, and the Florida Workers' Compensation Insurance Guaranty Association protects policyholders of insolvent workers' compensation insurers. The Florida Self-Insurers Guaranty Association protects policyholders of insolvent individual self-insured employers for workers' compensation claims. The Florida Insurance Guaranty Association is responsible for paying claims for insolvent insurers for most remaining lines of insurance, including residential and commercial property insurance, automobile insurance, and liability insurance, among others.
[5] The term "unearned premium" refers to that portion of a premium that is paid in advance, typically for six months or one year, and which is still owed on the unexpired portion of the policy.
[6] *Florida Life and Health Insurance Guaranty Association Act*. s. 1, ch. 79-189, Laws of Fla.

policies or annuities (with exceptions) in Florida are required, as a condition of doing business in the state, to be members of the association.[7] The board of directors is composed of nine member insurers.[8]

In the event a member insurer is found to be insolvent and is ordered to be liquidated by a court, a receiver takes over the insurer under court supervision and processes the assets and liabilities through liquidation. Upon liquidation, the association automatically becomes liable for the policy obligations that the liquidated insurer owed to its Florida policyholders.[9] The association services the policies, collects premiums and pays valid claims under the policies. The rights of the association under the policies are those that applied to the insurer prior to liquidation. The association may cancel the policy if the insurer could have done so, but generally, the association continues the policies until the association can transfer or substitute the policies to a new, stable insurer with approval of the OIR.[10]

The National Organization of Life and Health Insurance Guaranty Associations (NOLHGA) is a voluntary association comprised of the life and health insurance guaranty associations of all 50 states and the District of Columbia. The NOLHGA assembles a task force of guaranty association officials to address situations where insurers licensed in multiple states are facing insolvency or are declared insolvent. This task force analyzes the companies' policies, ensures that covered claims are paid, and arranges for the transfer of covered policies to another insurer (when possible). This allows the receiver and potential assuming carriers to deal with a single point of contact and contracting instead of having to engage in multiple discussions, negotiations, and contracts with a variety of different associations. [11] The NOLGHA allocates these expenses[12] to affected guaranty associations for payment.[13]

Covered Policies

Generally, direct life insurance policies, health insurance policies, individual and allocated[14] annuity contracts, and supplemental contracts[15] issued by member insurers are covered. A policy must meet coverage requirements, and association payments are limited for any one person as follows:

- Life Insurance Death Benefit: $300,000 per insured life.
- Life Insurance Cash Surrender: $100,000 per insured life.
- Health Insurance Claims: $300,000 per insured life.
- Annuity Cash Surrender: $250,000 for deferred annuity contracts per contract owner.

[7] Section 631.713(3), F.S.
[8] Section 631.716(1), F.S.
[9] Generally, FLAHIGA covers only policyholders and certificate holders who were Florida residents on the date that a member insurer is declared insolvent and liquidated with some exceptions. (s. 631.713(2), F.S.).
[10] See http://www.flahiga.org/aboutus.cfm (last viewed Mar. 10, 2017)
[11] See https://www.nolhga.com/resource/file/costs/Report16.pdf (last viewed Mar. 12, 2017).
[12] https://www.nolhga.com/aboutnolhga/main.cfm/location/whatisnolhga (last viewed Mar. 12, 2017).
[13] Section 631.721, F.S.
[14] Allocated annuity contracts are directly issued to and owned by individuals or annuities that directly guarantee benefits to individuals by the insurer.
[15] Section 631.713(1), F.S.

- Annuity in Benefit: $300,000 per contract owner.[16]

In addition, s. 631.713(3), F.S., excludes all of the following from coverage by the association:

- any portion or part of a variable life insurance contract or a variable annuity contract that is not guaranteed by a licensed insurer;
- any portion or part of any policy or contract under which the risk is borne by the policyholder;
- any policy or contract or part thereof assumed by the failed insurer under a contract of reinsurance, unless assumption certificates were issued;
- fraternal benefit society products;
- health maintenance insurance;
- dental service plan insurance;
- pharmaceutical service plan insurance;
- optometric service plan insurance;
- ambulance service association insurance;
- preneed funeral merchandise or service contract insurance;
- prepaid health clinic insurance;
- certain federal employees group policies;
- any annuity contract or group annuity contract that is not issued to and owned by an individual, except to the extent of any annuity benefits guaranteed directly and not through an intermediary to an individual by an insurer under such contract or certificate.[17]

Assessments

The association has three operating accounts: health insurance, life insurance, and annuity for purposes of administration and assessments. The association may impose two classes of assessments: Class A for administrative costs and general expenses and Class B to carry out the powers and duties of the association with regard to an impaired or insolvent domestic insurer.[18] Class A assessments may not exceed $250 per year per member insurer. Class B assessments are calculated based on the premiums collected by each assessed member insurer on policies or contracts covered for each account in proportion to premiums collected by all assessed member insurers for the three most recent years. Florida law limits assessments on a member insurer to a maximum of one percent of the insurer's premiums written in the state regarding business covered by the account received during the three calendar years preceding the year in which the assessment is made, divided by three.[19]

[16] Section 631.717(9), F.S., and FLAHIGA, *Frequently Asked Questions*, available at http://www.flahiga.org/faq.cfm (last viewed Mar. 1, 2017).

[17] The association provides coverage for an annuity contract or certificate if the insurer issues an annuity to an individual and guarantees annuity benefits directly to the individual and does not guarantee through an intermediary. Under federal law, annuities of a custodial individual retirement account (IRA) are deemed owned by the individuals and are subject to control of the individuals. [26 United States Code ss. 408(a) and (b).] Currently, the association does not provide coverage of custodial IRA annuities because of the inclusion of "*guaranteed directly and* n*ot through an intermediary*" in the annuity coverage language provided in s. 631.713(3)(l), F.S. See DFS and association correspondence (on file with Banking and Insurance Committee).

[18] Section 631.718(2), F.S.

[19] Section 631.718(5)(a), F.S.

The National Association of Insurance Commissioners

The National Association of Insurance Commissioners (NAIC) is an association of insurance regulators that coordinates regulation and examination of multistate insurers, provides a forum for addressing major insurance issues, and promotes uniform model laws among the states. In 2017, the NAIC released an updated Life and Health Insurance Guaranty Association Act.[20] The model act is designed to protect policy owners, insureds, beneficiaries, annuitants, payees and assignees against losses (both in terms of payment of claims and continuation of coverage), which might otherwise occur due to an impairment or insolvency of an insurer. Further, the model provides a maximum liability of $500,000 for basic hospital medical and surgical insurance or major medical insurance.

III. Effect of Proposed Changes:

Section 1 amends s. 631.713, F.S., to revise the types of policies covered by the association. The bill expands coverage to include annuities issued by an insurer pursuant to the provisions of 26 U.S.C. s. 408(b), relating to individual retirement annuities, and annuities issued by an insurer and held by a custodian or trustee in accordance with the requirements of 26 U.S.C. s. 408 (a), relating to individual retirement accounts.

Section 2 amends s. 631.717, F.S., to increase the association's liability for the contractual obligations of an insolvent insurer for basic hospital expense health insurance policies, basic medical-surgical health insurance policies, or major medical expense health insurance policies from $300,000 to $500,000 with respect to any one life, effective January 1, 2020. The section provides that this coverage does not include long-term care policies, which have a coverage limit of $300,000.

Section 3 provides this act will take effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

[20] NAIC, Life and Health Insurance Guaranty Association Model Act 520-1 (1st Quarter 2017) available at: http://www.naic.org/store/free/MDL-520.pdf (last viewed Feb. 9, 2017).

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The bill increases the association's liability for health insurance benefits from $300,000 to $500,000, which will provide greater protections for insureds who exceed the current limit and who are covered by an insolvent insurer. Further, the added coverage of annuities under an individual retirement account (IRA) or individual retirement annuity may provide additional consumer protections to beneficiaries of such annuities in the event of an insolvency.

The increase in the health insurance coverage limits from $300,000 to $500,000 and coverage of annuities under an IRA by the association may lead to additional assessments on member insurers in the event of the insolvency of an insurer.

C. Government Sector Impact:

The bill does not impact state revenues or expenditures.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 631.713 and 631.717.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Appropriations on April 25, 2017:
The committee substitute:

- Reinstates the current statutory cap of $250 for the Class A assessment; and
- Provides that the increase in coverage limits by the association for specified health insurance policies is effective January 1, 2020, and does not include long-term care policies.

B. Amendments:

None.

A bill to be entitled

An act relating to the Florida Life and Health Insurance Guaranty Association; amending s. 631.713, F.S.; revising applicability of the Florida Life and Health Insurance Guaranty Association Act as to specified annuity contracts; amending s. 631.717, F.S.; revising the association's maximum aggregate liability for the contractual obligations of an insolvent insurer with respect to one life; specifying the association's maximum liability as to certain health insurance policies; amending s. 631.718, F.S.; revising the maximum limit of a certain annual assessment levied on member insurers by the association's board of directors; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (l) of subsection (3) of section 631.713, Florida Statutes, is amended to read:

631.713 Application of part.—

(3) This part does not apply to:

(l) Any annuity contract or group annuity contract that is not issued to and owned by an individual, except to the extent of any annuity benefits:

1. Guaranteed directly and not through an intermediary to an individual by an insurer under such contract or certificate;~~.~~

2. Under an annuity issued by an insurer under 26 U.S.C. s. 408(b); or

3. Under an annuity issued by an insurer and held by a custodian or trustee in accordance with 26 U.S.C. 408(a).

1-00852-17 2017814__

This paragraph applies to every insolvency regardless of its date of inception, and an assessment base may not include premiums for such excluded products.

Section 2. Subsection (9) of section 631.717, Florida Statutes, is amended to read:

631.717 Powers and duties of the association.—

(9) The association's liability for the contractual obligations of the insolvent insurer must ~~shall~~ be as great as, but no greater than, the contractual obligations of the insurer in the absence of such insolvency, unless such obligations are reduced as permitted by subsection (4), but the aggregate liability of the association with respect to one life may ~~shall~~ not exceed the following:

(a) For life insurance, $100,000 in net cash surrender and net cash withdrawal values. ~~for life insurance,~~

(b) For deferred annuity contracts, $250,000 in net cash surrender and net cash withdrawal values. ~~for deferred annuity contracts, or~~

(c) For all benefits, $300,000, ~~for all benefits~~ including cash values, except as provided in paragraph (d) ~~with respect to any one life~~.

(d) For basic hospital expense health insurance policies, basic medical-surgical health insurance policies, or major medical expense health insurance policies, $500,000.

In no event is ~~shall~~ the association ~~be~~ liable for any penalties or interest.

Section 3. Paragraph (a) of subsection (3) of section 631.718, Florida Statutes, is amended to read:

631.718 Assessments.—

(3)(a) The amount of any Class A assessment must ~~shall~~ be determined by the board and may be made on a non-pro rata basis. The assessment may not be credited against future insolvency assessments and may not exceed $500 ~~$250~~ per member insurer in any one calendar year.

Section 4. This act shall take effect July 1, 2017.

Dear Senator Latvala,

I respectfully request that Senate Bill 814 be placed on the Appropriations Committee agenda at your earliest convenience.

Thank you for your consideration and I look forward to discussing this good bill with you, and the members of the committee.

Respectfully,

Doug Broxson
State Senator

Re: **CS/SB 48** – Judiciary Committee and Senator Oscar Braynon
HB 6515 – Representative Shevrin D. Jones
Relief of Wendy Smith and Dennis Darling

SPECIAL MASTER'S FINAL REPORT

THIS IS A UNOPPOSED CLAIM BILL BY DENNIS DARLING AND WENDY DARLING, AS REPRESENTATIVES OF THE ESTATE OF THEIR SON, DEVAUGHN DARLING, FOR $1.8 MILLION, BASED ON A FINAL JUDGMENT SUPPORTED BY A SETTLEMENT AGREEMENT BETWEEN THE DARLINGS AND THE BOARD OF TRUSTEES OF FLORIDA STATE UNIVERSITY (FSU) AS COMPENSATION FOR THE DEATH OF DEVAUGHN WHICH OCCURRED DURING PRESEASON FOOTBALL DRILLS IN 2001.

CURRENT STATUS:

A claim bill for these Claimants was first filed in the 2007 Session, but was withdrawn at the request of Claimants before a hearing was held. A claim bill was filed again in the 2008 Session and a joint Senate/House claim bill hearing was held in 2007.

On February 16, 2009, an administrative law judge from the Division of Administrative Hearings, serving as a Senate Special Master, held a de novo hearing on a previous version of this bill, SB 32 (2008). After the hearing, the judge issued a report containing findings of fact and conclusions of law and recommended that the bill be reported FAVORABLY.

It should be noted that the attached report issued by original Senate Special Master has been corrected to reflect $1.8 million as the amount of funds due Dennis Darling and Wendy Darling. Additionally, the report indicates that the original Special Master heard SB 26 (2008). However, that bill number is incorrect. The correct bill number is SB 32 (2008).

Due to the passage of time since the hearing, the Senate President reassigned the claim to me, Barbara M. Crosier. My responsibilities were to review the records relating to the claim bill, be available for questions from Senators, and determine whether any changes have occurred since the hearing before Judge Canter, which if known at the hearing, might have significantly altered the findings or recommendation in the report.

According to counsel for the parties, there have been no substantial changes in the facts and circumstances for the underlying claim. Accordingly, I find no cause to alter the findings and recommendations of the original report.

For the reasons set forth above the undersigned recommends that Senate Bill 48 (2017) be reported favorably.

Respectfully submitted,

Barbara M .Crosier
Senate Special Master

cc: Secretary of the Senate

CS by Judiciary:
The committee substitute, in conformity with a recent opinion of the Florida Supreme Court, does not include the limits on costs, lobbying fees, and other similar expenses, which were included in the original bill.

February 16, 2009

The Honorable Jeff Atwater
President, The Florida Senate
Suite 409, The Capitol
Tallahassee, Florida 32399-1100

Re: **SB 26 (2008)** Senator Al Lawson
Relief of Dennis Darling and Wendy Darling

SPECIAL MASTER'S FINAL REPORT

THIS IS AN UNOPPOSED CLAIM BY DENNIS DARLING AND WENDY DARLING, AS REPRESENTATIVES OF THE ESTATE OF THEIR SON, DEVAUGHN DARLING, FOR $1.2 MILLION, BASED ON A FINAL JUDGMENT SUPPORTED BY A SETTLEMENT AGREEMENT BETWEEN THE DARLINGS AND THE BOARD OF TRUSTEES OF FLORIDA STATE UNIVERSITY (FSU) AS COMPENSATION FOR THE DEATH OF DEVAUGHNWHICH OCCURRED DURING PRESEASON FOOTBALL DRILLS IN 2001.

FINDINGS OF FACT:

On February 26, 2001, while participating in "mat drills" in the Moore Athletic Center at Florida State University (FSU), DeVaughn Darling collapsed and died. Two autopsies were performed, but found "no definite morphologic cause of death." The autopsies, however, did find evidence of distended blood vessels "engorged" with sickled blood cells in several organs of his body.

It was determined months before, during DeVaughn's initial physical examination upon entering FSU as a freshman, that he had sickle cell trait. Sickle cell trait is the inheritance of one gene of sickle hemoglobin and one for normal hemoglobin. In contrast, sickle cell anemia is caused by the inheritance of two sickle cell genes and is a much more serious condition with

many adverse health consequences. In both the trait and the anemia, blood cells can distort (changing from a round shape to a crescent shape) and become less flexible. The cells are then less efficient at transporting oxygen to the muscles and organs of the body. The distortion and inflexibility of the blood cells impairs their ability to pass easily through the smaller blood vessels. The proportion of cells that distort and the degree of their distortion is greater in the case of sickle cell anemia.

Sickle cell trait occurs most commonly in persons of African descent and occurs in approximately 8% of African-Americans. It occurs in persons of other ancestry as well, but much less frequently.

Sickle cell trait is not treatable, but usually does not compromise the health of the individual with the trait. However, sickle cell trait has been linked to the deaths of 13 high school and college football players and a larger number of U.S. Army recruits. In all cases, the deaths occurred during extreme exertion while the individual was training. The sickling of blood cells during extreme exertion is brought on by four forces: (1) deficiency in the concentration of oxygen in arterial blood), (2) increase in body acids, (3) hyperthermia in muscles, and (4) red cell dehydration. It was established before 2001 that sickle cell trait is a factor that, when combined with other stress factors such as high temperature and dehydration, can result in "sickle cell collapse" and death during extreme exertion.

The medical issues related to athletes with sickle cell trait caused the National Collegiate Athletic Association (NCAA) to adopt guidelines regarding athletes with sickle cell trait. The 1998 guidelines contain a statement that, "There is controversy in the medical literature concerning whether sickle cell trait increases the risk of exercise-associated sudden death," but recommended that all athletes (1) avoid dehydration and acclimatize gradually to heat and humidity, (2) condition gradually for several weeks before engaging in exhaustive exercise regimens, and (3) refrain from extreme exertion during acute illness, especially one involving fever.

Mat drills are the name given to the pre-season conditioning drills for FSU football players conducted in February of each

year. They consist of three different physical activities conducted at separate "stations" which the players rotate through. There is a station which mostly involves running sprints, an "agility station" which involves running through ropes and around cones, and a station which involves drills on a large wrestling mat. The stations are run simultaneously, beginning and ending at same time. The football players are divided into three groups according to their size. As soon as the players in a group finish the drills at one station, they move together to another station. The entire exercise takes about 90 minutes to complete.

FSU football coaches are assigned to a single station for the entire 90-minute period. Trainers are also divided between stations. The coaches and trainers watch the players closely at all times. The coaches grade the players' performances in the drills, record the grades, and discuss the grades with the players at a meeting of all of the players after all the drills have been completed.

The mat drills had a reputation for being extremely challenging because of the physical exertion required. Devard Darling, Devaughn's twin brother and also a FSU football player, said the older players teased the freshmen about what they had in store for them when February came around and the mat drills started. The players were awakened at 5:30 a.m. and started the mat drills soon after getting up. Trash cans were set out for the specific purpose of providing receptacles for the players to vomit into.

At the mat drill station, the players formed in groups of four abreast at one end of the mat. There would usually be three or four lines with four players in each line. The seniors and starters formed the first lines; freshmen formed the back lines. At the oral commands or hand signals of the coaches, the players would throw themselves onto the mat on their chests and stomachs, spin quickly to the left and right, jump onto their feet, move laterally, sprint forward to the middle of the mat, run in place, sprint to the end of the mat, run in place, and then sprint forward to a matted wall. The number of times the players performed any single maneuver on the mat and the sequence of maneuvers would vary. For example, the coaches might make the players dive forward onto the mat once or they might make them do it several times. After

completing the drill, the four players would return to the end of the formation to await their turn to go again.

If a player did not perform a drill correctly, or "fell out" during a mat drill, all four players would be sent back to redo the drill. They redid the drill immediately while the other lines of players waited. Because of the inexperience of the freshmen, they would usually have to do more "go backs" than the other players.

The room where the mat drill took place was relatively small, about by 120 feet by 49 feet. Devard Darling said the room was always hot and muggy. In his statement to a police investigator, the head trainer said Devaughn was taken from the mat room to the training room after he collapsed because the mat room was "very hot."

The parties disputed whether the players were given reasonable access to water. The head trainer said the players were told to drink water before the mat drills began and there were water fountains in the hallways not far from the mat area. The players, however, said it was impossible to get a drink of water during the drills and nearly impossible to get water in the short time when the players moved to a new station. No "water break" was provided during the 90-minute mat drills. Furthermore, a high-pressure, hurry-up atmosphere was created that discouraged and impeded the players from going for water. I am persuaded by the evidence presented to me that, because of the way in which the mat drills were run, it was difficult for the players to get water, many of the players did not get water, and the players that managed to get water got less than they wanted.

On February 26, 2001, the mat drill was the last station for DeVaughn. Four coaches and seven trainers (including the student trainers) were present. The written statements provided by FSU's coaches and non-student trainers were identical in stating that they saw nothing "out of the ordinary" in DeVaughn's level of fatigue or behavior leading up to his collapse at the conclusion of the mat drill. However, the statements of several players and a couple of the student trainers were quite different. Some players said DeVaughn told them he couldn't see, that they saw him clutching his chest, and that he was having trouble getting up off the mat

and sometimes could not get up without help from other players. One student trainer said that, instead of diving forward onto the mat like the others, DeVaughn would just fall forward "like a board." Another student trainer said Devaughn would sometimes attempt to stand, but would fall back down.

DeVaughn's line of four players was made to go back more than once and was the last to finish the drill. Some players reported that Devaughn was not able to get into position fast enough to go back with his line and finished the drill by himself. He was the last player to finish the last station.

When DeVaughn finished the mat drill, he fell to his knees with his head resting against the wall. The head trainer and one of the players carried DeVaughn to the edge of the mat. His pulse was irregular and his breathing was shallow and erratic. DeVaughn was then carried downstairs to the training room where he was given oxygen and surrounded with ice packs to reduce his body temperature. Soon thereafter, however, DeVaughn stopped breathing. At that point, the training staff called 911. Policemen arrived first and brought a defibrillator which was used on Devaughn in an attempt to get his pulse going again. When the ambulance arrived, DeVaughn was taken to the hospital where he was pronounced dead.

Beginning in 2002, FSU changed the way it conducted the mat drills. Now, a water break and short rest are provided to the players when they are between stations and an emergency medical crew and ambulance are standing by to render medical assistance to a player if needed.

LITIGATION HISTORY:

Claimants sued FSU in the circuit court for Leon County in 2002. The case was successfully mediated and the parties entered into a Stipulated Settlement Agreement which called for payment to Dennis and Wendy Darling, as representatives of the estate of Devaughn Darling, the sovereign immunity limit of $200,000 and for FSU to support the passage of a claim bill for an additional $1.8 Million. The agreement does not contain a denial of liability by FSU. The circuit court entered a Final Judgment approving the settlement agreement on June 28, 2004.

CLAIMANTS' POSITION:

The Department is liable for the negligence of its coaches and trainers for 1) failing to provide DeVaughn access to water, 2)

failing to provide sufficient rest periods, 3) failing to recognize DeVaughn's physical distress, 4) failing to provide adequate access to emergency medical personnel and a defibrillator, and 5) failing to maintain an adequate emergency plan.

FSU'S POSITION:

- FSU denies liability for negligence, but believes the settlement is fair and reasonable under the circumstances.
- FSU complied with all applicable standards of care.
- DeVaughn exhibited no unusual signs of exhaustion that put any coach or trainer on notice of his critical condition.
- No FSU employee was negligent in failing to provide assistance to DeVaughn.
- DeVaughn had a cold that could have contributed to his physical distress.

CONCLUSIONS OF LAW:

The claim bill hearing was a *de novo* proceeding for the purpose of determining, based on the evidence presented to the Special Master, whether FSU is liable in negligence for the death of DeVaughn Darling and, if so, whether the amount of the claim is reasonable.

FSU had a duty to conduct its football training activities in a manner that did not unreasonably endanger the health of the players beyond the dangers that are inherent in the game of football. FSU breached that duty when its employees, both coaches and trainers, created a situation with the mat drills that was unreasonably dangerous for all players, but especially for a player with sickle cell trait. The situation was unreasonably dangerous because it involved extreme physical exertion in high temperature without reasonable access to water and without adequate opportunity to rest. The situation was more dangerous for players with sickle cell trait because the trait reduces the ability of the blood to transport oxygen and, therefore, increases the risk of exercise-associated sudden death.

DeVaughn's death was foreseeable because FSU knew that DeVaughn had sickle cell trait, knew that sickle cell trait was linked the deaths of football players during preseason training, and was aware of the sports medicine literature and NCAA

guidelines about extreme exertion, heat, dehydration, and lack of adequate pre-conditioning as factors that contribute to incidents of exercise-associated sudden death.

Furthermore, I am not persuaded by the statements of the coaches and trainers that DeVaughn's fatigue was "not out of the ordinary." No coach or trainer alleged that other players were grasping their chests, falling over "like boards," and unable to stand without help. The evidence shows that DeVaughn was showing signs of more intense physical exhaustion than other players and was probably suffering from sickle cell collapse during the course of the mat drill. However, only his final collapse at the end of the mat drill was considered by the training staff to be significant enough to warrant their intervention and assistance. It was negligent for the coaches and trainers not to intervene and render assistance to DeVaughn earlier than they did. Instead, the coaches worsened his physical distress by making him repeat the drill without a moment to rest or to get water.

The sickling of blood cells in a person with sickle cell trait begins quickly with extreme exertion, but is relieved quickly by rest. Providing water (or sports drinks) and short periods of rest during the mat drills, both of which are provided to players during a football game, is all that was needed to avoid the tragedy of DeVaughn Darling's death.

The amount of the claim is fair and reasonable.

ATTORNEY'S FEES AND LOBBYIST'S FEES: Claimant's attorneys agree to limit their fees to 25 percent of any amount awarded by the Legislature as required by s. 768.28(8), F.S. They also agree to pay the lobbyist's fee out of the attorney's fees. They have not acknowledged their awareness of the provision of the bill that also requires costs to be included in the 25 percent figure.

LEGISLATIVE HISTORY: A claim bill for these Claimants was first filed in the 2007 Session, but was withdrawn at the request of Claimants before a hearing was held. A claim bill was filed again in the 2008 Session and a joint Senate/House claim bill hearing was held in 2007.

RECOMMENDATIONS: For the reasons set forth above, I recommend that Senate Bill 34 (2008) be reported FAVORABLY.

Respectfully submitted,

Bram D. E. Canter
Senate Special Master

cc: Senator Al Lawson
Counsel of Record

By the Committee on Judiciary; and Senator Braynon

590-01952-17 201748c1

A bill to be entitled

An act for the relief of Wendy Smith and Dennis Darling, Sr., parents of Devaughn Darling, deceased; providing an appropriation to compensate the parents for the loss of their son, Devaughn Darling, whose death occurred while he was engaged in football preseason training on the Florida State University campus; providing a limitation on the payment of attorney fees; providing an effective date.

WHEREAS, on February 21, 2001, Devaughn Darling, the son of Wendy Smith and Dennis Darling, Sr., collapsed and died while participating in preseason training in preparation for the upcoming football season at Florida State University, and

WHEREAS, after litigation had ensued and during mediation, the parents of Devaughn Darling and Florida State University agreed to compromise and settle all of the disputed claims rather than continue with litigation and its attendant uncertainties, and

WHEREAS, the parties resolved, compromised, and settled all claims by a stipulated settlement agreement providing for the entry of a consent final judgment against Florida State University in the amount of $2 million, of which the Division of Risk Management of the Department of Financial Services has paid the statutory limit of $200,000 pursuant to s. 768.28, Florida Statutes, and

WHEREAS, as provided by the settlement agreement, Florida State University has agreed to support the passage of a claim bill for the remaining unpaid portion of the consent judgment,

590-01952-17 201748c1

$1.8 million, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. The facts stated in the preamble to this act are found and declared to be true.

Section 2. Florida State University is authorized and directed to appropriate from funds of the university not otherwise appropriated to draw a warrant in the amount of $1.8 million, to be paid to Wendy Smith and Dennis Darling, Sr., parents of decedent Devaughn Darling, as relief for their losses.

Section 3. The amount paid by the Division of Risk Management of the Department of Financial Services pursuant to s. 768.28, Florida Statutes, and the amount awarded under this act are intended to provide the sole compensation for all present and future claims arising out of the factual situation described in the preamble to this act which resulted in the death of Devaughn Darling. The total amount paid for attorney fees relating to this claim may not exceed 25 percent of the amount awarded under this act.

Section 4. This act shall take effect upon becoming a law.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

PCS/CS/SB 590 authorizes the Department of Revenue (department) to establish parenting time plans agreed to by both parents in Title IV-D child support actions. The department will be required to provide parents Title IV-D Parenting Time Plans with a proposed administrative support order. The bill also creates a standard Title IV-D Parenting Time Plan that may be used by parents. In the event the parents cannot agree on a parenting time plan, they will be referred to the circuit court for the establishment of a plan. In these instances, parents will not pay a fee to file a petition to determine a parenting time plan.

The bill has a significant impact on the Department of Revenue and appropriates $1,041,126 from the General Revenue Fund to the department to carry out the provisions of the bill. The bill has an indeterminate impact on the workload of the state court system. See Section V.

The bill takes effect January 1, 2018.

II. Present Situation:

Chapter 61, F.S., addresses the issues of dissolution of marriage, child support, and parenting time plans. In a dissolution of marriage, matters relating to the marriage are settled as part of the judicial proceeding or through the adoption of a marital settlement agreement. If the parties to

the dissolution cannot agree then the circuit court has the jurisdiction to resolve outstanding issues.

The Legislature designated the Department of Revenue (department) as the state agency responsible for the administration of the child support enforcement program, Title IV-D of the Social Security Act, 42 USC. ss. 651 et seq.[1] As the state Title IV-D agency, the department has the authority to take actions to carry out the public policy of ensuring children are maintained from the resources of their parents to the extent possible. The department's authority includes, but is not limited to, the establishment of paternity or support obligations, as well as modifications, enforcement, and collection of support obligations.[2] According to the department's website, as of federal fiscal year 2014, the department collected $1.57 billion in child support whereby 98 percent went to the families. The remaining 2 percent reimbursed public assistance dollars. Additionally, $1.02 billion in child support was collected through income withholding from the parent's paycheck. For every dollar spent the child support program collects $5.75[3].

The Title IV-D program plays a critical role in assuring that parents who live apart from their children meet their financial obligations.[4] Child well-being is improved by positive and consistent emotional and financial support from both parents.[5] Engaged fathering significantly enhances children's social, cognitive, and academic behavior in a positive manner.[6]

There is no systematic, efficient mechanism for families to establish parenting time agreements for children whose parents were not married at the time of their birth.[7] While divorcing parents often establish parenting time agreements as part of the divorce proceedings in circuit court, child support systems require unmarried parents to participate in multiple, often overlapping, legal proceedings in order to resolve issues of child support and parenting time.[8] Addressing both the calculation of child support and the amount of parenting time as part of the same process increases efficiency and reduces the burdens on parents of being involved in multiple administrative or judicial processes. A structured, formal approach to parenting time helps both parents manage their co-parenting relationship and reduce conflict, ambiguity, unpredictability about parenting time arrangements, and may increase child support compliance.[9]

A handful of states or jurisdictions (Michigan, Texas, Orange County, California, Hennepin County, Minnesota) have child support initiatives that incorporate parenting time agreements into initial child support orders, many focusing on parenting agreements where the parents

already agree on the division of time.[10] Texas is the most standardized, statewide program incorporating parenting time agreements into child support orders.[11] The Texas Family Code requires that a final order that stems from a suit affecting a parent-child relationship must include a parenting plan.[12] Unlike other states, Texas provides a statutory "standard possession order" that is presumed to provide a noncustodial parent with reasonable minimum time with his or her child and to be in the best interest of the child.[13]

In 1989, the Texas Legislature moved forward with not only the required child support guidelines as required by the federal government, but also with statutory presumptive visitation guidelines in the form of a standard order.[14] If there is a history of domestic violence or sexual abuse, the standard possession order may be inapplicable. The court must consider the commission of family violence or sexual abuse in determining whether to deny, restrict, or limit the possession of a child by a noncustodial parent.[15]

In the initial creation of the Title IV-D program, the United States Congress provided financial subsidies for the operation of state Title IV-D programs through financial incentives based on support collections. Because the activities that are eligible for federal funding are limited to those required to establish paternity, establish and enforce child support obligations, collect and distribute payment, and locate absent parents, most states have taken the position that child support orders obtained or issued by IV-D programs not include provisions regarding parenting time, at the risk of jeopardizing federal funding for their programs.[16]

Texas has managed to include parenting plans in its support order for the last 30 years by maintaining that the cost of establishing a visitation order, coinciding with the establishment of paternity and/or a support obligation is a reasonable and minimal expense that must be incurred as part of the support order establishment process. Texas has argued that its success is based on:

- The existence in Texas law of the standard possession order,
- Simple child support guidelines,
- Agency policies and practices with dealing with cases where any dispute regarding parenting time, and
- The agency's successful public educational and outreach activities.[17]

The Texas Office of Attorney General (the Title IV-D agency in Texas) has adopted policies and practices to make the visitation order establishment process highly efficient. The agency is not involved in the resolution of any disputed possession issue between the parties. Disputed cases are referred to the appropriate trial court for a final resolution of visitation disputes.[18] However,

the parties do not need to file additional pleadings or incur additional expense at the second hearing for a decision on the visitation issues that may be in dispute.[19]

In s. 409.2563, F.S., the legislative intent is clear that the jurisdiction of the circuit courts to hear and determine issues regarding child support were not limited. The intent was to provide the department with an alternative procedure to establish child support obligations in Title IV-D cases in a fair and expeditious manner when there is no court order of support.[20] The Legislature did not grant the department the jurisdiction to hear or determine issues of dissolution of marriage, separation, alimony or spousal support, termination of parental rights, dependency, disputed paternity except as otherwise provided in statute, or award of or change of time-sharing.[21] In Title IV-D cases, if parents want to establish a shared parenting time schedule that is enforceable by the courts, they have to file a separate cause of action in the circuit court.

III. Effect of Proposed Changes:

Section 1 amends s. 409.2551, F.S., to provide that it is the public policy of the state to encourage frequent contact between child and each parent.

Section 2 amends s. 409.2554, F.S., to provide definitions for "State Case Registry," "State Disbursement Unit," and "Title IV-D Standard Parenting Time Plans."

Section 3 amends s. 409.2557, F.S., to provide the department the authority to establish Title IV-D Standard Parenting Time Plans or any other parenting time plan agreed to and signed by the parents.

Section 4 amends s. 409.2563, F.S., to allow the department to establish parenting time plans only if the parents are in agreement. This section also provides that, if the parents do not have a parenting time plan and do not agree to a Title IV-D Standard Parenting Time Plan, a time plan will not be included in the initial administrative order setting child support. A statement explaining the absence of the parenting time plan will be included with the initial administrative order setting child support.

Any notifications by the department to parents will not include a Title IV-D Standard Parenting Time Plan if Florida is not the child's home state or one parent does not reside in Florida. The Title IV-D Standard Parenting Time Plan is not intended for use by and shall not be provided to either parent if there is a request for nondisclosure due to domestic or family violence, or if the parent who owes child support is incarcerated.

The bill also provides that if both parents have agreed to a parenting time plan before the administrative support order is established, the plan will be incorporated into the administrative support order. However, the department does not have the jurisdiction to enforce any parenting time plan that is incorporated into an administrative support order. When the department provides notice of proceeding to establish an administrative support order it must include a copy of the Title IV-D Standard Parenting Time Plan. Copies of proposed administrative support

[19] Key, *supra* at 263.
[20] section 409.2568(2)(a), F.S.
[21] section 409.2568(2)(b), F.S.

orders provided to parents will include a copy of the Title IV-D Standard Parenting Time Plan, along with other required documents. If a hearing is held, an administrative support order will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to by both parents.

Section 5 creates s. 409.25633, F.S., to provide that a Title IV-D Standard Parenting Time Plan must be included in any administrative action to establish child support taken by the department if the parents agree to and sign the plan. If there is no agreement as to a parenting time plan, then the department must enter an administrative order for child support and refer the parents to a court of appropriate jurisdiction to establish a parenting time plan. The department must also develop a form petition and provide information to the parents on the process to establish such plan.

This section also creates a Title IV-D Standard Parenting Time Plan that will be presented to parents in an administrative child support action. The agreed upon parenting time plan is to be in the best interest of the child and special consideration should be given to the age and needs of each child. There is no presumption for or against the father or mother of the child or against any specific time-sharing schedule when a parenting time plan is created. The Title IV-D Standard Parenting Time Plans are not intended for use by and shall not be provided to parents and families with domestic or family violence concerns.

The department is directed to create and provide a form for a petition to establish a parenting time plan for parents who have not agreed to a parenting schedule at the time of the child support hearing. The department will provide the form to the parents but will not file the petition or represent either parent at a hearing to establish parenting time. The parents will not be required to pay a fee to file the petition to establish a parenting time plan.

Section 6 amends s. 409.2564, F.S., to provide that when the department institutes an action to secure the payment of current support or any arrearage that may have accrued under an existing order of support, and a parenting time plan was not incorporated into the existing order of support and is appropriate, the department will include either a parenting time plan or Title IV-D Standard Parenting Time Plan that has been agreed to and signed by the parents.

Section 7 amends s. 409.256, F.S., to correct cross-references.

Section 8 amends s. 409.2572, F.S., to correct cross-references.

Section 9 directs the Department of Revenue to report to the Governor, the President of the Senate and the Speaker of the House of Representatives by December 31, 2018, on:

- The status of the implementation of this act;
- The number of parenting plans that were entered into with the administrative child support orders;
- The number of parents that were referred to circuit court for the establishment of parenting time plans; and
- Any recommendations the department may have to further implement this act.

Section 10 provides an appropriation to the Department of Revenue of $690,650 in nonrecurring general revenue and $350,476 in recurring general revenue for the 2017-2018 fiscal year to implement the provisions in the bill.

Section 11 provides an effective date of January 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

This bill does not require counties or municipalities to spend funds or limit their authority to raise revenue or receive state-shared revenues as specified in Article VII, s. 18 of the Florida Constitution.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill provides what appears to be a simple and cost-effective means of determining parenting time plans to separated or never-married parents who generally have a low income. If the parents can agree on the standard parenting time plan or another parenting time plan, they will not need to proceed in circuit court and incur the related costs to acquire a parenting time order.

C. Government Sector Impact:

The bill appropriates $1,041,126 from the General Revenue Fund to the Department of Revenue (department) for Fiscal Year 2017-2018. Of that amount, $690,650 in nonrecurring general revenue is appropriated to update the department's Child Support Automated Management System to meet new requirements, and $350,476 in recurring general revenue is appropriated to develop and deploy new forms, notices, procedures, and training.

The impact on the workload of the state court system is indeterminate but is expected to be insignificant. The bill waives the filing fee for parents who go through the Title IV-D administrative action but cannot agree on a parenting time plan, and who then proceed in circuit court. Currently, the parent who files an action in circuit court presumably must

pay the filing fee. However, the number of these cases currently filed each year, as well as the number that will be filed under the bill, is unknown.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 409.2551, 409.2554, 409.2557, 409.2563, 409.2564, 409.256, and 409.2572.

This bill creates section 409.25633 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on General Government on April 13, 2017:
The bill:

- Clarifies that parents must agree to and sign any parenting time plan that will be incorporated into an administrative child support order.
- Removes the reference to separate parenting time plans for children under the age of three and removes the reference for Title IV-D Standard Parenting Time Plan for parents that live more than 100 miles of each other.
- Clarifies that the Title IV-D Standard Parenting Time Plan is not for the use by and will not be provided to parents and families with domestic or family violence concerns.
- Directs the department to report to the Governor, the President of the Senate and the Speaker of the House of Representatives by December 31, 2018, on:
  - The status of implementation of this act;
  - The number of parenting plans that were entered into with the administrative child support orders;
  - The number of parents that were referred to circuit court for the establishment of parenting time plans; and
  - Any recommendations the department may have to further implement this act.
- Provides an appropriation of $1,041,126 from the General Revenue Fund to the department to implement the provisions in this act.

CS by Judiciary on March 28, 2017:
Clarifies that the parents in a Title IV-D action to determine paternity or to establish or modify child support must be presented with a Title IV-D Standard Parenting Time Plan,

and that the standard plan or another parenting time plan must be incorporated in the administrative order resulting from the action if the parents agree to one of the plans.

B. Amendments:

None.

(Appropriations Subcommittee on General Government)

A bill to be entitled

An act relating to child support and parenting time plans; amending s. 409.2551, F.S.; providing legislative intent to encourage frequent contact between a child and each parent; amending s. 409.2554, F.S.; defining terms; amending s. 409.2557, F.S.; authorizing the Department of Revenue to establish parenting time plans agreed to by both parents in Title IV-D child support actions; amending s. 409.2563, F.S.; requiring the department to mail a Title IV-D Standard Parenting Time Plan with proposed administrative support orders; providing requirements for including parenting time plans in certain administrative orders; creating s. 409.25633, F.S.; providing the purpose and requirements for a Title IV-D Standard Parenting Time Plan; requiring the department to refer parents who do not agree on a parenting time plan to a circuit court; requiring the department to create and provide a form for a petition to establish a parenting time plan under certain circumstances; specifying that the parents are not required to pay a fee to file the petition; authorizing the department to adopt rules; amending s. 409.2564, F.S.; authorizing the department to incorporate either a signed, agreed-upon parenting time plan or a signed Title IV-D Standard Parenting Time Plan in a child support order; amending ss.

765792

576-03834-17

409.256 and 409.2572, F.S.; conforming cross-references; requiring the department to submit a report to the Governor and Legislature by a specified date; specifying requirements for the report; providing an appropriation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 409.2551, Florida Statutes, is amended to read:

409.2551 Legislative intent.—Common-law and statutory procedures governing the remedies for enforcement of support for financially dependent children by persons responsible for their support have not proven sufficiently effective or efficient to cope with the increasing incidence of financial dependency. The increasing workload of courts, prosecuting attorneys, and the Attorney General has resulted in a growing burden on the financial resources of the state, which is constrained to provide public assistance for basic maintenance requirements when parents fail to meet their primary obligations. The state, therefore, exercising its police and sovereign powers, declares that the common-law and statutory remedies pertaining to family desertion and nonsupport of dependent children shall be augmented by additional remedies directed to the resources of the responsible parents. In order to render resources more immediately available to meet the needs of dependent children, it is the legislative intent that the remedies provided herein are in addition to, and not in lieu of, existing remedies. It is

765792

576-03834-17

declared to be the public policy of this state that this act be construed and administered to the end that children shall be maintained from the resources of their parents, thereby relieving, at least in part, the burden presently borne by the general citizenry through public assistance programs. It is also the public policy of this state to encourage frequent contact between a child and each parent to optimize the development of a close and continuing relationship between each parent and the child.

Section 2. Section 409.2554, Florida Statutes, is reordered and amended to read:

409.2554 Definitions; ss. 409.2551-409.2598.—As used in ss. 409.2551-409.2598, the term:

(5) ~~(1)~~ "Department" means the Department of Revenue.

(6) ~~(2)~~ "Dependent child" means any unemancipated person under the age of 18, any person under the age of 21 and still in school, or any person who is mentally or physically incapacitated when such incapacity began before ~~prior to~~ such person reaching the age of 18. This definition may ~~shall~~ not be construed to impose an obligation for child support beyond the child's attainment of majority except as imposed in s. 409.2561.

(3) "Court" means the circuit court.

(4) "Court order" means any judgment or order of any court of appropriate jurisdiction of the state, or an order of a court of competent jurisdiction of another state, ordering payment of a set or determinable amount of support money.

(7) ~~(5)~~ "Health insurance" means coverage under a fee-for-service arrangement, health maintenance organization, or preferred provider organization, and other types of coverage

765792

576-03834-17

available to either parent, under which medical services could be provided to a dependent child.

(8) ~~(6)~~ "Obligee" means the person to whom support payments are made pursuant to an alimony or child support order.

(9) ~~(7)~~ "Obligor" means a person who is responsible for making support payments pursuant to an alimony or child support order.

(12) ~~(8)~~ "Public assistance" means money assistance paid on the basis of Title IV-E and Title XIX of the Social Security Act, temporary cash assistance, or food assistance benefits received on behalf of a child under 18 years of age who has an absent parent.

(10) ~~(9)~~ "Program attorney" means an attorney employed by the department, under contract with the department, or employed by a contractor of the department, to provide legal representation for the department in a proceeding related to the determination of paternity or the establishment, modification, or enforcement of support brought pursuant to law.

(11) ~~(10)~~ "Prosecuting attorney" means any private attorney, county attorney, city attorney, state attorney, program attorney, or an attorney employed by an entity of a local political subdivision who engages in legal action related to the determination of paternity or the establishment, modification, or enforcement of support brought pursuant to this act.

(13) "State Case Registry" means the automated registry maintained by the Title IV-D agency, containing records of each Title IV-D case and of each support order established or modified in the state on or after October 1, 1998. Such records must consist of data elements as required by the United States

765792

576-03834-17

Secretary of Health and Human Services.

(14) "State Disbursement Unit" means the unit established and operated by the Title IV-D agency to provide one central address for collection and disbursement of child support payments made in cases enforced by the department pursuant to Title IV-D of the Social Security Act and in cases not being enforced by the department in which the support order was initially issued in this state on or after January 1, 1994, and in which the obligor's child support obligation is being paid through income deduction order.

(16) "Title IV-D Standard Parenting Time Plan" means a document that may be agreed to by the parents to govern the relationship between the parents and to provide the parent who owes support a reasonable minimum amount of time with his or her child. The plan set forth in s. 409.25633 includes timetables that specify the time, including overnights and holidays, that a child may spend with each parent.

(15) ~~(11)~~ "Support," unless otherwise specified, means:

(a) Child support, and, when the child support obligation is being enforced by the Department of Revenue, spousal support or alimony for the spouse or former spouse of the obligor with whom the child is living.

(b) Child support only in cases not being enforced by the Department of Revenue.

(1) ~~(12)~~ "Administrative costs" means any costs, including attorney ~~attorney's~~ fees, clerk's filing fees, recording fees and other expenses incurred by the clerk of the circuit court, service of process fees, or mediation costs, incurred by the Title IV-D agency in its effort to administer the Title IV-D

765792

576-03834-17

program. The administrative costs that ~~which~~ must be collected by the department shall be assessed on a case-by-case basis based upon a method for determining costs approved by the Federal Government. The administrative costs shall be assessed periodically by the department. The methodology for determining administrative costs shall be made available to the judge or any party who requests it. Only those amounts ordered independent of current support, arrears, or past public assistance obligation shall be considered and applied toward administrative costs.

(2) ~~(13)~~ "Child support services" includes any civil, criminal, or administrative action taken by the Title IV-D program to determine paternity, establish, modify, enforce, or collect support.

(17) ~~(14)~~ "Undistributable collection" means a support payment received by the department which the department determines cannot be distributed to the final intended recipient.

(18) ~~(15)~~ "Unidentifiable collection" means a payment received by the department for which a parent, depository or circuit civil numbers, or source of the payment cannot be identified.

Section 3. Subsection (2) of section 409.2557, Florida Statutes, is amended to read:

409.2557 State agency for administering child support enforcement program.—

(2) The department in its capacity as the state Title IV-D agency has ~~shall have~~ the authority to take actions necessary to carry out the public policy of ensuring that children are maintained from the resources of their parents to the extent

possible. The department's authority includes ~~shall include~~, but is not ~~be~~ limited to, the establishment of paternity or support obligations, the establishment of a Title IV-D Standard Parenting Time Plan or any other parenting time plan agreed to and signed by the parents, and ~~as well as~~ the modification, enforcement, and collection of support obligations.

Section 4. Subsections (2), (4), (5), and (7) of section 409.2563, Florida Statutes, are amended to read:

409.2563 Administrative establishment of child support obligations.—

(2) PURPOSE AND SCOPE.—

(a) It is not the Legislature's intent to limit the jurisdiction of the circuit courts to hear and determine issues regarding child support or parenting time. This section is intended to provide the department with an alternative procedure for establishing child support obligations and establishing a parenting time plan only if the parents are in agreement, in Title IV-D cases in a fair and expeditious manner when there is no court order of support. The procedures in this section are effective throughout the state and shall be implemented statewide.

(b) If the parents do not have an existing time-sharing schedule or parenting time plan and do not agree to a parenting time plan, a plan may not be included in the initial administrative order and the order must include a statement explaining its absence.

(c) If the parents have a judicially established parenting time plan, the plan may not be included in the administrative or initial judicial order.

(d) Any notification provided by the department may not include a Title IV-D Standard Parenting Time Plan if Florida is not the child's home state, when one parent does not reside in Florida, if either parent has requested nondisclosure for fear of harm from the other parent, or when the parent who owes support is incarcerated.

(e) ~~(b)~~ The administrative procedure set forth in this section concerns only the establishment of child support obligations and, if agreed to and signed by both parents, a parenting time plan or Title IV-D Standard Parenting Time Plan. This section does not grant jurisdiction to the department or the Division of Administrative Hearings to hear or determine issues of dissolution of marriage, separation, alimony or spousal support, termination of parental rights, dependency, disputed paternity, except for a determination of paternity as provided in s. 409.256, ~~or award of~~ or change of time-sharing. If both parents have agreed to and signed a parenting time plan before the establishment of the administrative support order, the department or the Division of Administrative Hearings shall incorporate the agreed-upon parenting time plan into the administrative support order. This paragraph notwithstanding, the department and the Division of Administrative Hearings may make findings of fact that are necessary for a proper determination of a parent's support obligation as authorized by this section.

(f) ~~(c)~~ If there is no support order for a child in a Title IV-D case whose paternity has been established or is presumed by law, or whose paternity is the subject of a proceeding under s. 409.256, the department may establish a parent's child support

obligation pursuant to this section, s. 61.30, and other relevant provisions of state law. The administrative support order must include a parenting time plan or Title IV-D Standard Parenting Time Plan as agreed to and signed by both parents. The parent's obligation determined by the department may include any obligation to pay retroactive support and any obligation to provide for health care for a child, whether through insurance coverage, reimbursement of expenses, or both. The department may proceed on behalf of:

1. An applicant or recipient of public assistance, as provided by ss. 409.2561 and 409.2567;

2. A former recipient of public assistance, as provided by s. 409.2569;

3. An individual who has applied for services as provided by s. 409.2567;

4. Itself or the child, as provided by s. 409.2561; or

5. A state or local government of another state, as provided by chapter 88.

(g) ~~(d)~~ Either parent, or a caregiver if applicable, may at any time file a civil action in a circuit court having jurisdiction and proper venue to determine parental support obligations, if any. A support order issued by a circuit court prospectively supersedes an administrative support order rendered by the department.

(h) ~~(c)~~ Pursuant to paragraph (e) ~~(b)~~, neither the department nor the Division of Administrative Hearings has jurisdiction to ~~award or~~ change child custody or rights of parental contact. The department or the Division of Administrative Hearings shall incorporate a parenting time plan

or Title IV-D Standard Parenting Time Plan as agreed to and signed by both parents into the administrative support order. Either parent may at any time file a civil action in a circuit having jurisdiction and proper venue for a determination of child custody and rights of parental contact.

(i) ~~(f)~~ The department shall terminate the administrative proceeding and file an action in circuit court to determine support if within 20 days after receipt of the initial notice the parent from whom support is being sought requests in writing that the department proceed in circuit court or states in writing his or her intention to address issues concerning time-sharing or rights to parental contact in court and if within 10 days after receipt of the department's petition and waiver of service the parent from whom support is being sought signs and returns the waiver of service form to the department.

(j) ~~(g)~~ The notices and orders issued by the department under this section shall be written clearly and plainly.

(4) NOTICE OF PROCEEDING TO ESTABLISH ADMINISTRATIVE SUPPORT ORDER.—To commence a proceeding under this section, the department shall provide to the parent from whom support is not being sought and serve the parent from whom support is being sought with a notice of proceeding to establish administrative support order, a copy of the Title IV-D Standard Parenting Time Plan, and a blank financial affidavit form. The notice must state:

(a) The names of both parents, the name of the caregiver, if any, and the name and date of birth of the child or children;

(b) That the department intends to establish an administrative support order as defined in this section;

(c) That the department will incorporate a parenting time plan or Title IV-D Standard Parenting Time Plan, as agreed to and signed by both parents, into the administrative support order;

(d) ~~(c)~~ That both parents must submit a completed financial affidavit to the department within 20 days after receiving the notice, as provided by paragraph (13)(a);

(e) ~~(d)~~ That both parents, or parent and caregiver if applicable, are required to furnish to the department information regarding their identities and locations, as provided by paragraph (13)(b);

(f) ~~(e)~~ That both parents, or parent and caregiver if applicable, are required to promptly notify the department of any change in their mailing addresses to ensure receipt of all subsequent pleadings, notices, and orders, as provided by paragraph (13)(c);

(g) ~~(f)~~ That the department will calculate support obligations based on the child support guidelines schedule in s. 61.30 and using all available information, as provided by paragraph (5)(a), and will incorporate such obligations into a proposed administrative support order;

(h) ~~(g)~~ That the department will send by regular mail to both parents, or parent and caregiver if applicable, a copy of the proposed administrative support order, the department's child support worksheet, and any financial affidavits submitted by a parent or prepared by the department;

(i) ~~(h)~~ That the parent from whom support is being sought may file a request for a hearing in writing within 20 days after the date of mailing or other service of the proposed

administrative support order or will be deemed to have waived the right to request a hearing;

(j) ~~(i)~~ That if the parent from whom support is being sought does not file a timely request for hearing after service of the proposed administrative support order, the department will issue an administrative support order that incorporates the findings of the proposed administrative support order, and any agreed-upon parenting time plan. The department will send by regular mail a copy of the administrative support order and any incorporated parenting time plan to both parents, or parent and caregiver if applicable;

(k) ~~(j)~~ That after an administrative support order is rendered incorporating any agreed-upon parenting time plan, the department will file a copy of the order with the clerk of the circuit court;

(l) ~~(k)~~ That after an administrative support order is rendered, the department may enforce the administrative support order by any lawful means. The department does not have jurisdiction to enforce any parenting time plan that is incorporated into an administrative support order;

(m) ~~(l)~~ That either parent, or caregiver if applicable, may file at any time a civil action in a circuit court having jurisdiction and proper venue to determine parental support obligations, if any, and that a support order issued by a circuit court supersedes an administrative support order rendered by the department;

(n) ~~(m)~~ That neither the department nor the Division of Administrative Hearings has jurisdiction to ~~award or~~ change child custody or rights of parental contact or time-sharing, and

these issues may be addressed only in circuit court. The department or the Division of Administrative Hearings may incorporate, if agreed to and signed by both parents, a parenting time plan or Title IV-D Standard Parenting Time Plan when the administrative support order is established.

1. The parent from whom support is being sought may request in writing that the department proceed in circuit court to determine his or her support obligations.

2. The parent from whom support is being sought may state in writing to the department his or her intention to address issues concerning custody or rights to parental contact in circuit court.

3. If the parent from whom support is being sought submits the request authorized in subparagraph 1., or the statement authorized in subparagraph 2. to the department within 20 days after the receipt of the initial notice, the department shall file a petition in circuit court for the determination of the parent's child support obligations, and shall send to the parent from whom support is being sought a copy of its petition, a notice of commencement of action, and a request for waiver of service of process as provided in the Florida Rules of Civil Procedure.

4. If, within 10 days after receipt of the department's petition and waiver of service, the parent from whom support is being sought signs and returns the waiver of service form to the department, the department shall terminate the administrative proceeding without prejudice and proceed in circuit court.

5. In any circuit court action filed by the department pursuant to this paragraph or filed by a parent from whom

support is being sought or other person pursuant to paragraph (m) ~~(l)~~ or paragraph (o) ~~(n)~~, the department shall be a party only with respect to those issues of support allowed and reimbursable under Title IV-D of the Social Security Act. It is the responsibility of the parent from whom support is being sought or other person to take the necessary steps to present other issues for the court to consider; ~~.~~

(o) ~~(n)~~ That if the parent from whom support is being sought files an action in circuit court and serves the department with a copy of the petition within 20 days after being served notice under this subsection, the administrative process ends without prejudice and the action must proceed in circuit court; and

(p) ~~(o)~~ Information provided by the Office of State Courts Administrator concerning the availability and location of self-help programs for those who wish to file an action in circuit court but who cannot afford an attorney.

The department may serve the notice of proceeding to establish an administrative support order and agreed-upon parenting time plan or Title IV-D Standard Parenting Time Plan by certified mail, restricted delivery, return receipt requested. Alternatively, the department may serve the notice by any means permitted for service of process in a civil action. For purposes of this section, an authorized employee of the department may serve the notice and execute an affidavit of service. Service by certified mail is completed when the certified mail is received or refused by the addressee or by an authorized agent as designated by the addressee in writing. If a person other than the addressee signs the return receipt, the department shall

attempt to reach the addressee by telephone to confirm whether the notice was received, and the department shall document any telephonic communications. If someone other than the addressee signs the return receipt, the addressee does not respond to the notice, and the department is unable to confirm that the addressee has received the notice, service is not completed and the department shall attempt to have the addressee served personally. The department shall provide the parent from whom support is not being sought or the caregiver with a copy of the notice by regular mail to the last known address of the parent from whom support is not being sought or caregiver.

(5) PROPOSED ADMINISTRATIVE SUPPORT ORDER.—

(a) After serving notice upon a parent in accordance with subsection (4), the department shall calculate that parent's child support obligation under the child support guidelines schedule as provided by s. 61.30, based on any timely financial affidavits received and other information available to the department. If either parent fails to comply with the requirement to furnish a financial affidavit, the department may proceed on the basis of information available from any source, if such information is sufficiently reliable and detailed to allow calculation of guideline schedule amounts under s. 61.30. If a parent receives public assistance and fails to submit a financial affidavit, the department may submit a financial affidavit or written declaration for that parent pursuant to s. 61.30(15). If there is a lack of sufficient reliable information concerning a parent's actual earnings for a current or past period, it shall be presumed for the purpose of establishing a support obligation that the parent had an earning capacity equal

to the federal minimum wage during the applicable period.

(b) The department shall send by regular mail to both parents, or to a parent and caregiver if applicable, copies of the proposed administrative support order, a copy of the Title IV-D Standard Parenting Time Plan, its completed child support worksheet, and any financial affidavits submitted by a parent or prepared by the department. The proposed administrative support order must contain the same elements as required for an administrative support order under paragraph (7)(e).

(c) The department shall provide a notice of rights with the proposed administrative support order, which notice must inform the parent from whom support is being sought that:

1. The parent from whom support is being sought may, within 20 days after the date of mailing or other service of the proposed administrative support order, request a hearing by filing a written request for hearing in a form and manner specified by the department;

2. If the parent from whom support is being sought files a timely request for a hearing, the case shall be transferred to the Division of Administrative Hearings, which shall conduct further proceedings and may enter an administrative support order;

3. A parent from whom support is being sought who fails to file a timely request for a hearing shall be deemed to have waived the right to a hearing, and the department may render an administrative support order pursuant to paragraph (7)(b);

4. The parent from whom support is being sought may consent in writing to entry of an administrative support order without a hearing;

5. The parent from whom support is being sought may, within 10 days after the date of mailing or other service of the proposed administrative support order, contact a department representative, at the address or telephone number specified in the notice, to informally discuss the proposed administrative support order and, if informal discussions are requested timely, the time for requesting a hearing will be extended until 10 days after the department notifies the parent that the informal discussions have been concluded; and

6. If an administrative support order that establishes a parent's support obligation and incorporates either a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to and signed by both parents is rendered, whether after a hearing or without a hearing, the department may enforce the administrative support order by any lawful means. The department does not have the jurisdiction or authority to enforce a parenting time plan.

(d) If, after serving the proposed administrative support order but before a final administrative support order is rendered, the department receives additional information that makes it necessary to amend the proposed administrative support order, it shall prepare an amended proposed administrative support order, with accompanying amended child support worksheets and other material necessary to explain the changes, and follow the same procedures set forth in paragraphs (b) and (c).

(7) ADMINISTRATIVE SUPPORT ORDER.—

(a) If a hearing is held, the administrative law judge of the Division of Administrative Hearings shall issue an

administrative support order that will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to and signed by both parents, or a final order denying an administrative support order, which constitutes final agency action by the department. The Division of Administrative Hearings shall transmit any such order to the department for filing and rendering.

(b) If the parent from whom support is being sought does not file a timely request for a hearing, the parent will be deemed to have waived the right to request a hearing.

(c) If the parent from whom support is being sought waives the right to a hearing, or consents in writing to the entry of an order without a hearing, the department may render an administrative support order that will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to and signed by both parents.

(d) The department shall send by regular mail a copy of the administrative support order that will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to and signed by both parents, or the final order denying an administrative support order, to both parents, or a parent and caregiver if applicable. The parent from whom support is being sought shall be notified of the right to seek judicial review of the administrative support order in accordance with s. 120.68.

(e) An administrative support order must comply with ss. 61.13(1) and 61.30. The department shall develop a standard form or forms for administrative support orders. An administrative support order must provide and state findings, if applicable, concerning:

1. The full name and date of birth of the child or children;

2. The name of the parent from whom support is being sought and the other parent or caregiver;

3. The parent's duty and ability to provide support;

4. The amount of the parent's monthly support obligation;

5. Any obligation to pay retroactive support;

6. The parent's obligation to provide for the health care needs of each child, whether through health insurance, contribution toward the cost of health insurance, payment or reimbursement of health care expenses for the child, or any combination thereof;

7. The beginning date of any required monthly payments and health insurance;

8. That all support payments ordered must be paid to the ~~Florida~~ State Disbursement Unit as provided by s. 61.1824;

9. That the parents, or caregiver if applicable, must file with the department when the administrative support order is rendered, if they have not already done so, and update as appropriate the information required pursuant to paragraph (13)(b);

10. That both parents, or parent and caregiver if applicable, are required to promptly notify the department of any change in their mailing addresses pursuant to paragraph (13)(c); and

11. That if the parent ordered to pay support receives reemployment assistance or unemployment compensation benefits, the payor shall withhold, and transmit to the department, 40 percent of the benefits for payment of support, not to exceed

the amount owed.

An income deduction order as provided by s. 61.1301 must be incorporated into the administrative support order or, if not incorporated into the administrative support order, the department or the Division of Administrative Hearings shall render a separate income deduction order.

Section 5. Section 409.25633, Florida Statutes, is created to read:

409.25633 Title IV-D Standard Parenting Time Plans.—The best interest of the child is the primary consideration of the parenting plan and special consideration should be given to the age and needs of each child. There is no presumption for or against the father or mother of the child or for or against any specific time-sharing schedule when a parenting time plan is created.

(1) A Title IV-D Standard Parenting Time Plan shall be presented to the parents in any administrative action taken by the Title IV-D program to establish or modify child support or to determine paternity. If the parents agree to the Title IV-D Standard Parenting Time Plan or to another parenting time plan, the plan must be signed by the parents and incorporated into the administrative order. If the parents do not agree to a Title IV-D Standard Parenting Time Plan or if an agreed-upon parenting time plan is not included, the Department of Revenue must enter an administrative support order and refer the parents to the court of appropriate jurisdiction to establish a parenting time plan. The department must note on the referral that an administrative support order has been entered. If a parenting

time plan is not included in the administrative support order entered pursuant to s. 409.2563, the department must provide information to the parents on the process to establish such a plan.

(2) The parent who owes support is entitled to parenting time with the child. If the parents do not have a signed, agreed-upon parenting time plan, the following Title IV-D Standard Parenting Time Plan must be incorporated into an administrative support order if agreed to and signed by the parents:

(a) Every other weekend.—The second and fourth full weekend of the month from 6 p.m. on Friday through 6 p.m. on Sunday. The weekends may begin upon the child's release from school on Friday and end on Sunday at 6 p.m. or when the child returns to school on Monday morning. The weekend time may be extended by holidays that fall on Friday or Monday;

(b) One evening per week.—One weekday beginning at 6 p.m. and ending at 8 p.m. or, if both parents agree, from when the child is released from school until 8 p.m.;

(c) Thanksgiving break.—In even-numbered years, the Thanksgiving break from 6 p.m. on the Wednesday before Thanksgiving until 6 p.m. on the Sunday following Thanksgiving. If both parents agree, the Thanksgiving break parenting time may begin upon the child's release from school and end upon the child's return to school the following Monday;

(d) Winter break.—In odd-numbered years, the first half of winter break, from the child's release from school, beginning at 6 p.m. or, if both parents agree, upon the child's release from school, until noon on December 26. In even-numbered years, the

second half of winter break from noon on December 26 until 6 p.m. on the day before school resumes or, if both parents agree, upon the child's return to school;

(e) Spring break.—In even-numbered years, the week of spring break from 6 p.m. the day the child is released from school until 6 p.m. the night before school resumes. If both parents agree, the spring break parenting time may begin upon the child's release from school and end upon the child's return to school the following Monday; and

(f) Summer break.—For 2 weeks in the summer beginning at 6 p.m. the first Sunday following the last day of school.

(3) In the event the parents have not agreed on a parenting schedule at the time of the child support hearing, the department shall enter an administrative support order and refer the parents to a court of appropriate jurisdiction for the establishment of a parenting time plan.

(4) The Title IV-D Standard Parenting Time Plan is not intended for the use by, and may not be provided to, parents and families with domestic or family violence concerns.

(5) If, after the incorporation of an agreed-upon parenting time plan into an administrative support order, a parent becomes concerned about the safety of the child during the child's time with the other parent, a modification of the parenting time plan may be sought through a court of appropriate jurisdiction.

(6) The department shall create and provide a form for a petition to establish a parenting time plan for parents who have not agreed on a parenting schedule at the time of the child support hearing. The department shall provide the form to the parents, but may not file the petition or represent either

parent at the hearing.

(7) The parents may not be required to pay a fee to file the petition to establish a parenting plan.

(8) The department may adopt rules to implement and administer this section.

Section 6. Subsections (1) and (2) of section 409.2564, Florida Statutes, are amended to read:

409.2564 Actions for support.—

(1) In each case in which regular support payments are not being made as provided herein, the department shall institute, within 30 days after determination of the obligor's reasonable ability to pay, action as is necessary to secure the obligor's payment of current support, ~~and~~ any arrearage that ~~which~~ may have accrued under an existing order of support, and, if a parenting time plan was not incorporated into the existing order of support, include either a signed, agreed-upon parenting time plan or a signed Title IV-D Standard Parenting Time Plan, if appropriate. The department shall notify the program attorney in the judicial circuit in which the recipient resides setting forth the facts in the case, including the obligor's address, if known, and the public assistance case number. Whenever applicable, the procedures established under ~~the provisions of~~ chapter 88, Uniform Interstate Family Support Act, chapter 61, Dissolution of Marriage; Support; Time-sharing, chapter 39, Proceedings Relating to Children, chapter 984, Children and Families in Need of Services, and chapter 985, Delinquency; Interstate Compact on Juveniles, may govern actions instituted under ~~the provisions of~~ this act, except that actions for support under chapter 39, chapter 984, or chapter 985 brought

pursuant to this act shall not require any additional investigation or supervision by the department.

(2) The order for support entered pursuant to an action instituted by the department under ~~the provisions of~~ subsection (1) shall require that the support payments be made periodically to the department through the depository. An order for support entered under subsection (1) must include either a signed, agreed-upon parenting time plan or a signed Title IV-D Standard Parenting Time Plan, if appropriate. Upon receipt of a payment made by the obligor pursuant to any order of the court, the depository shall transmit the payment to the department within 2 working days, except those payments made by personal check which shall be disbursed in accordance with s. 61.181. Upon request, the depository shall furnish to the department a certified statement of all payments made by the obligor. Such statement shall be provided by the depository at no cost to the department.

Section 7. Paragraph (g) of subsection (2) and paragraph (a) of subsection (4) of section 409.256, Florida Statutes, are amended to read:

409.256 Administrative proceeding to establish paternity or paternity and child support; order to appear for genetic testing.—

(2) JURISDICTION; LOCATION OF HEARINGS; RIGHT OF ACCESS TO THE COURTS.—

(g) Section 409.2563(2)(h), (i), and (j) ~~409.2563(2)(e), (f), and (g)~~ apply to a proceeding under this section.

(4) NOTICE OF PROCEEDING TO ESTABLISH PATERNITY OR PATERNITY AND CHILD SUPPORT; ORDER TO APPEAR FOR GENETIC

TESTING; MANNER OF SERVICE; CONTENTS.—The Department of Revenue shall commence a proceeding to determine paternity, or a proceeding to determine both paternity and child support, by serving the respondent with a notice as provided in this section. An order to appear for genetic testing may be served at the same time as a notice of the proceeding or may be served separately. A copy of the affidavit or written declaration upon which the proceeding is based shall be provided to the respondent when notice is served. A notice or order to appear for genetic testing shall be served by certified mail, restricted delivery, return receipt requested, or in accordance with the requirements for service of process in a civil action. Service by certified mail is completed when the certified mail is received or refused by the addressee or by an authorized agent as designated by the addressee in writing. If a person other than the addressee signs the return receipt, the department shall attempt to reach the addressee by telephone to confirm whether the notice was received, and the department shall document any telephonic communications. If someone other than the addressee signs the return receipt, the addressee does not respond to the notice, and the department is unable to confirm that the addressee has received the notice, service is not completed and the department shall attempt to have the addressee served personally. For purposes of this section, an employee or an authorized agent of the department may serve the notice or order to appear for genetic testing and execute an affidavit of service. The department may serve an order to appear for genetic testing on a caregiver. The department shall provide a copy of the notice or order to appear by regular mail

to the mother and caregiver, if they are not respondents.

(a) A notice of proceeding to establish paternity must state:

1. That the department has commenced an administrative proceeding to establish whether the putative father is the biological father of the child named in the notice.

2. The name and date of birth of the child and the name of the child's mother.

3. That the putative father has been named in an affidavit or written declaration that states the putative father is or may be the child's biological father.

4. That the respondent is required to submit to genetic testing.

5. That genetic testing will establish either a high degree of probability that the putative father is the biological father of the child or that the putative father cannot be the biological father of the child.

6. That if the results of the genetic test do not indicate a statistical probability of paternity that equals or exceeds 99 percent, the paternity proceeding in connection with that child shall cease unless a second or subsequent test is required.

7. That if the results of the genetic test indicate a statistical probability of paternity that equals or exceeds 99 percent, the department may:

a. Issue a proposed order of paternity that the respondent may consent to or contest at an administrative hearing; or

b. Commence a proceeding, as provided in s. 409.2563, to establish an administrative support order for the child. Notice of the proceeding shall be provided to the respondent by regular

mail.

8. That, if the genetic test results indicate a statistical probability of paternity that equals or exceeds 99 percent and a proceeding to establish an administrative support order is commenced, the department shall issue a proposed order that addresses paternity and child support. The respondent may consent to or contest the proposed order at an administrative hearing.

9. That if a proposed order of paternity or proposed order of both paternity and child support is not contested, the department shall adopt the proposed order and render a final order that establishes paternity and, if appropriate, an administrative support order for the child.

10. That, until the proceeding is ended, the respondent shall notify the department in writing of any change in the respondent's mailing address and that the respondent shall be deemed to have received any subsequent order, notice, or other paper mailed to the most recent address provided or, if a more recent address is not provided, to the address at which the respondent was served, and that this requirement continues if the department renders a final order that establishes paternity and a support order for the child.

11. That the respondent may file an action in circuit court for a determination of paternity, child support obligations, or both.

12. That if the respondent files an action in circuit court and serves the department with a copy of the petition or complaint within 20 days after being served notice under this subsection, the administrative process ends without prejudice

and the action must proceed in circuit court.

13. That, if paternity is established, the putative father may file a petition in circuit court for a determination of matters relating to custody and rights of parental contact.

A notice under this paragraph must also notify the respondent of the provisions in s. 409.2563(4)(n) and (p) ~~s. 409.2563(4)(m) and (o)~~.

Section 8. Subsection (5) of section 409.2572, Florida Statutes, is amended to read:

409.2572 Cooperation.—

(5) As used in this section only, the term "applicant for or recipient of public assistance for a dependent child" refers to such applicants and recipients of public assistance as defined in s. 409.2554(12) ~~s. 409.2554(8)~~, with the exception of applicants for or recipients of Medicaid solely for the benefit of a dependent child.

Section 9. The Department of Revenue shall report to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 31, 2018, on the status of the implementation of this act, including the number of parenting plans entered with administrative support orders and the number of parents referred to the circuit court to determine a parenting plan. The report must include recommendations to facilitate further implementation of this act.

Section 10. For the 2017-2018 fiscal year, the sums of $350,476 in recurring funds and $690,650 in nonrecurring funds are appropriated from the General Revenue Fund to the Department of Revenue for the purpose of implementing this act.

576-03834-17

Section 11. This act shall take effect January 1, 2018.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 590
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on General Government); Judiciary Committee; and Senator Brandes and others
SUBJECT:	Child Support and Parenting Time Plans
DATE:	April 27, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Crosier	Hendon	CF	**Favorable**
2.	Stallard	Cibula	JU	**Fav/CS**
3.	Blizzard	Betta	AGG	**Recommend: Fav/CS**
4.	Blizzard	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Technical Changes

I. Summary:

CS/CS/SB 590 authorizes the Department of Revenue (department) to establish parenting time plans agreed to by both parents in Title IV-D child support actions. The department will be required to provide parents Title IV-D Parenting Time Plans with a proposed administrative support order. The bill creates a standard Title IV-D Parenting Time Plan that may be used by parents. In the event the parents cannot agree on a parenting time plan, they will be referred to the circuit court for the establishment of a plan. In these instances, parents will not pay a fee to file a petition to determine a parenting time plan. The bill also requires the enforcement or modification of an established parenting time plan to be sought through a court of appropriate jurisdiction.

The bill has a significant impact on the Department of Revenue and appropriates $1,041,126 from the General Revenue Fund to the department to carry out the provisions of the bill. The bill has an indeterminate impact on the workload of the state court system. See Section V.

The bill takes effect January 1, 2018.

II. Present Situation:

Chapter 61, F.S., addresses the issues of dissolution of marriage, child support, and parenting time plans. In a dissolution of marriage, matters relating to the marriage are settled as part of the judicial proceeding or through the adoption of a marital settlement agreement. If the parties to the dissolution cannot agree then the circuit court has the jurisdiction to resolve outstanding issues.

The Legislature designated the Department of Revenue (department) as the state agency responsible for the administration of the child support enforcement program, Title IV-D of the Social Security Act, 42 USC. ss. 651 et seq.[1] As the state Title IV-D agency, the department has the authority to take actions to carry out the public policy of ensuring children are maintained from the resources of their parents to the extent possible. The department's authority includes, but is not limited to, the establishment of paternity or support obligations, as well as modifications, enforcement, and collection of support obligations.[2] According to the department's website, as of federal fiscal year 2014, the department collected $1.57 billion in child support whereby 98 percent went to the families. The remaining 2 percent reimbursed public assistance dollars. Additionally, $1.02 billion in child support was collected through income withholding from the parent's paycheck. For every dollar spent the child support program collects $5.75[3].

The Title IV-D program plays a critical role in assuring that parents who live apart from their children meet their financial obligations.[4] Child well-being is improved by positive and consistent emotional and financial support from both parents.[5] Engaged fathering significantly enhances children's social, cognitive, and academic behavior in a positive manner.[6]

There is no systematic, efficient mechanism for families to establish parenting time agreements for children whose parents were not married at the time of their birth.[7] While divorcing parents often establish parenting time agreements as part of the divorce proceedings in circuit court, child support systems require unmarried parents to participate in multiple, often overlapping, legal proceedings in order to resolve issues of child support and parenting time.[8] Addressing both the calculation of child support and the amount of parenting time as part of the same process increases efficiency and reduces the burdens on parents of being involved in multiple administrative or judicial processes. A structured, formal approach to parenting time helps both parents manage their co-parenting relationship and reduce conflict, ambiguity, unpredictability about parenting time arrangements, and may increase child support compliance.[9]

A handful of states or jurisdictions (Michigan, Texas, Orange County, California, Hennepin County, Minnesota) have child support initiatives that incorporate parenting time agreements into initial child support orders, many focusing on parenting agreements where the parents already agree on the division of time.[10] Texas is the most standardized, statewide program incorporating parenting time agreements into child support orders.[11] The Texas Family Code requires that a final order that stems from a suit affecting a parent-child relationship must include a parenting plan.[12] Unlike other states, Texas provides a statutory "standard possession order" that is presumed to provide a noncustodial parent with reasonable minimum time with his or her child and to be in the best interest of the child.[13]

In 1989, the Texas Legislature moved forward with not only the required child support guidelines as required by the federal government, but also with statutory presumptive visitation guidelines in the form of a standard order.[14] If there is a history of domestic violence or sexual abuse, the standard possession order may be inapplicable. The court must consider the commission of family violence or sexual abuse in determining whether to deny, restrict, or limit the possession of a child by a noncustodial parent.[15]

In the initial creation of the Title IV-D program, the United States Congress provided financial subsidies for the operation of state Title IV-D programs through financial incentives based on support collections. Because the activities that are eligible for federal funding are limited to those required to establish paternity, establish and enforce child support obligations, collect and distribute payment, and locate absent parents, most states have taken the position that child support orders obtained or issued by IV-D programs not include provisions regarding parenting time, at the risk of jeopardizing federal funding for their programs.[16]

Texas has managed to include parenting plans in its support order for the last 30 years by maintaining that the cost of establishing a visitation order, coinciding with the establishment of paternity and/or a support obligation is a reasonable and minimal expense that must be incurred as part of the support order establishment process. Texas has argued that its success is based on:

- The existence in Texas law of the standard possession order,
- Simple child support guidelines,
- Agency policies and practices with dealing with cases where any dispute regarding parenting time, and
- The agency's successful public educational and outreach activities.[17]

The Texas Office of Attorney General (the Title IV-D agency in Texas) has adopted policies and practices to make the visitation order establishment process highly efficient. The agency is not

involved in the resolution of any disputed possession issue between the parties. Disputed cases are referred to the appropriate trial court for a final resolution of visitation disputes.[18] However, the parties do not need to file additional pleadings or incur additional expense at the second hearing for a decision on the visitation issues that may be in dispute.[19]

In s. 409.2563, F.S., the legislative intent is clear that the jurisdiction of the circuit courts to hear and determine issues regarding child support were not limited. The intent was to provide the department with an alternative procedure to establish child support obligations in Title IV-D cases in a fair and expeditious manner when there is no court order of support.[20] The Legislature did not grant the department the jurisdiction to hear or determine issues of dissolution of marriage, separation, alimony or spousal support, termination of parental rights, dependency, disputed paternity except as otherwise provided in statute, or award of or change of time-sharing.[21] In Title IV-D cases, if parents want to establish a shared parenting time schedule that is enforceable by the courts, they have to file a separate cause of action in the circuit court.

III. Effect of Proposed Changes:

Section 1 amends s. 409.2551, F.S., to provide that it is the public policy of the state to encourage frequent contact between child and each parent.

Section 2 amends s. 409.2554, F.S., to provide definitions for "State Case Registry," "State Disbursement Unit," and "Title IV-D Standard Parenting Time Plans."

Section 3 amends s. 409.2557, F.S., to provide the department the authority to establish Title IV-D Standard Parenting Time Plans or any other parenting time plan agreed to and signed by the parents.

Section 4 amends s. 409.2563, F.S., to allow the department to establish parenting time plans only if the parents are in agreement. This section also provides that, if the parents do not have a parenting time plan and do not agree to a Title IV-D Standard Parenting Time Plan, a time plan will not be included in the initial administrative order setting child support. A statement explaining the absence of the parenting time plan will be included with the initial administrative order setting child support.

Any notifications by the department to parents will not include a Title IV-D Standard Parenting Time Plan if Florida is not the child's home state or one parent does not reside in Florida. The Title IV-D Standard Parenting Time Plan is not intended for use by and shall not be provided to either parent if there is a request for nondisclosure due to domestic or family violence, or if the parent who owes child support is incarcerated.

The bill also provides that if both parents have agreed to a parenting time plan before the administrative support order is established, the plan will be incorporated into the administrative support order. However, the department does not have the jurisdiction to enforce any parenting

[18] See Tex. Fam. Code Section 201.007(b)
[19] Key, *supra* at 263.
[20] section 409.2568(2)(a), F.S.
[21] section 409.2568(2)(b), F.S.

time plan that is incorporated into an administrative support order. When the department provides notice of proceeding to establish an administrative support order it must include a copy of the Title IV-D Standard Parenting Time Plan. Copies of proposed administrative support orders provided to parents will include a copy of the Title IV-D Standard Parenting Time Plan, along with other required documents. If a hearing is held, an administrative support order will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to by both parents.

Section 5 creates s. 409.25633, F.S., to provide that a Title IV-D Standard Parenting Time Plan must be included in any administrative action to establish child support taken by the department if the parents agree to and sign the plan. If there is no agreement as to a parenting time plan, then the department must enter an administrative order for child support and refer the parents to a court of appropriate jurisdiction to establish a parenting time plan. The department must also develop a form petition and provide information to the parents on the process to establish such plan. Additionally, a modification or enforcement of an established parenting time plan may be sought through a court of appropriate jurisdiction, after the plan is incorporated into an administrative order.

This section also creates a Title IV-D Standard Parenting Time Plan that will be presented to parents in an administrative child support action. The agreed upon parenting time plan is to be in the best interest of the child and special consideration should be given to the age and needs of each child. There is no presumption for or against the father or mother of the child or against any specific time-sharing schedule when a parenting time plan is created. The Title IV-D Standard Parenting Time Plans are not intended for use by and shall not be provided to parents and families with domestic or family violence concerns.

The department is directed to create and provide a form for a petition to establish a parenting time plan for parents who have not agreed to a parenting schedule at the time of the child support hearing. The department will provide the form to the parents but will not file the petition or represent either parent at a hearing to establish parenting time. The parents will not be required to pay a fee to file the petition to establish a parenting time plan.

Section 6 amends s. 409.2564, F.S., to provide that when the department institutes an action to secure the payment of current support or any arrearage that may have accrued under an existing order of support, and a parenting time plan was not incorporated into the existing order of support and is appropriate, the department will include either a parenting time plan or Title IV-D Standard Parenting Time Plan that has been agreed to and signed by the parents.

Section 7 amends s. 409.256, F.S., to correct cross-references.

Section 8 amends s. 409.2572, F.S., to correct cross-references.

Section 9 directs the Department of Revenue to report to the Governor, the President of the Senate and the Speaker of the House of Representatives by December 31, 2018, on:

- The status of the implementation of this act;
- The number of parenting plans that were entered into with the administrative child support orders;

- The number of parents that were referred to circuit court for the establishment of parenting time plans; and
- Any recommendations the department may have to further implement this act.

Section 10 provides an appropriation to the Department of Revenue of $690,650 in nonrecurring general revenue and $350,476 in recurring general revenue for the 2017-2018 fiscal year to implement the provisions in the bill.

Section 11 provides an effective date of January 1, 2018.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

This bill does not require counties or municipalities to spend funds or limit their authority to raise revenue or receive state-shared revenues as specified in Art. VII, s. 18 of the Florida Constitution.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill provides what appears to be a simple and cost-effective means of determining parenting time plans to separated or never-married parents who generally have a low income. If the parents can agree on the standard parenting time plan or another parenting time plan, they will not need to proceed in circuit court and incur the related costs to acquire a parenting time order.

C. Government Sector Impact:

The bill appropriates $1,041,126 from the General Revenue Fund to the Department of Revenue (department) for Fiscal Year 2017-2018. Of that amount, $690,650 in nonrecurring general revenue is appropriated to update the department's Child Support Automated Management System to meet new requirements, and $350,476 in recurring general revenue is appropriated to develop and deploy new forms, notices, procedures, and training.

The impact on the workload of the state court system is indeterminate but is expected to be insignificant. The bill waives the filing fee for parents who go through the Title IV-D administrative action but cannot agree on a parenting time plan, and who then proceed in circuit court. Currently, the parent who files an action in circuit court presumably must pay the filing fee. However, the number of these cases currently filed each year, as well as the number that will be filed under the bill, is unknown.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 409.2551, 409.2554, 409.2557, 409.2563, 409.2564, 409.256, and 409.2572.

This bill creates section 409.25633 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The bill:

- Clarifies that parents must agree to and sign any parenting time plan that will be incorporated into an administrative child support order.
- Requires the enforcement or modification of an established parenting time plan to be sought through a court of appropriate jurisdiction.
- Removes the reference to separate parenting time plans for children under the age of three and removes the reference for Title IV-D Standard Parenting Time Plan for parents that live more than 100 miles of each other.
- Clarifies that the Title IV-D Standard Parenting Time Plan is not for the use by and will not be provided to parents and families with domestic or family violence concerns.
- Directs the department to report to the Governor, the President of the Senate and the Speaker of the House of Representatives by December 31, 2018, on:
  - The status of implementation of this act;
  - The number of parenting plans that were entered into with the administrative child support orders;
  - The number of parents that were referred to circuit court for the establishment of parenting time plans; and
  - Any recommendations the department may have to further implement this act.

- Provides an appropriation of $1,041,126 from the General Revenue Fund to the department to implement the provisions in this act.

CS by Judiciary on March 28, 2017:
Clarifies that the parents in a Title IV-D action to determine paternity or to establish or modify child support must be presented with a Title IV-D Standard Parenting Time Plan, and that the standard plan or another parenting time plan must be incorporated in the administrative order resulting from the action if the parents agree to one of the plans.

B. Amendments:

None.

By the Committee on Judiciary; and Senators Brandes, Stargel, and Gibson

590-02996-17 2017590c1

A bill to be entitled

An act relating to child support and parenting time plans; amending s. 409.2551, F.S.; stating legislative intent to encourage frequent contact between a child and each parent; amending s. 409.2554, F.S.; defining terms; amending s. 409.2557, F.S.; authorizing the Department of Revenue to establish parenting time plans agreed to by both parents in Title IV-D child support actions; amending s. 409.2563, F.S.; requiring the department to mail Title IV-D Standard Parenting Time Plans with proposed administrative support orders; providing requirements for including parenting time plans in certain administrative orders; creating s. 409.25633, F.S.; providing the purpose and requirements for Title IV-D Standard Parenting Time Plans; requiring the department to refer parents who do not agree on a parenting time plan to a circuit court; requiring the department to create and provide a form for a petition to establish a parenting time plan under certain circumstances; specifying that the parents are not required to pay a fee to file the petition; authorizing the department to adopt rules; amending s. 409.2564, F.S.; authorizing the department to incorporate either an agreed-upon parenting time plan or a Title IV-D Standard Parenting Time Plan in a child support order; amending ss. 409.256 and 409.2572, F.S.; conforming cross-references; providing an appropriation; providing an effective date.

590-02996-17 2017590c1

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 409.2551, Florida Statutes, is amended to read:

409.2551 Legislative intent.—Common-law and statutory procedures governing the remedies for enforcement of support for financially dependent children by persons responsible for their support have not proven sufficiently effective or efficient to cope with the increasing incidence of financial dependency. The increasing workload of courts, prosecuting attorneys, and the Attorney General has resulted in a growing burden on the financial resources of the state, which is constrained to provide public assistance for basic maintenance requirements when parents fail to meet their primary obligations. The state, therefore, exercising its police and sovereign powers, declares that the common-law and statutory remedies pertaining to family desertion and nonsupport of dependent children shall be augmented by additional remedies directed to the resources of the responsible parents. In order to render resources more immediately available to meet the needs of dependent children, it is the legislative intent that the remedies provided herein are in addition to, and not in lieu of, existing remedies. It is declared to be the public policy of this state that this act be construed and administered to the end that children shall be maintained from the resources of their parents, thereby relieving, at least in part, the burden presently borne by the general citizenry through public assistance programs. It is also the public policy of this state to encourage frequent contact between a child and each parent to optimize the development of a

close and continuing relationship between each parent and the child. There is no presumption for or against the father or mother of the child or for or against any specific time-sharing schedule when a parenting time plan is created.

Section 2. Section 409.2554, Florida Statutes, is reordered and amended to read:

409.2554 Definitions; ss. 409.2551-409.2598.—As used in ss. 409.2551-409.2598, the term:

(5)~~(1)~~ "Department" means the Department of Revenue.

(6)~~(2)~~ "Dependent child" means any unemancipated person under the age of 18, any person under the age of 21 and still in school, or any person who is mentally or physically incapacitated when such incapacity began before ~~prior to~~ such person reaching the age of 18. This definition may ~~shall~~ not be construed to impose an obligation for child support beyond the child's attainment of majority except as imposed in s. 409.2561.

(3) "Court" means the circuit court.

(4) "Court order" means any judgment or order of any court of appropriate jurisdiction of the state, or an order of a court of competent jurisdiction of another state, ordering payment of a set or determinable amount of support money.

(7)~~(5)~~ "Health insurance" means coverage under a fee-for-service arrangement, health maintenance organization, or preferred provider organization, and other types of coverage available to either parent, under which medical services could be provided to a dependent child.

(8)~~(6)~~ "Obligee" means the person to whom support payments are made pursuant to an alimony or child support order.

(9)~~(7)~~ "Obligor" means a person who is responsible for

making support payments pursuant to an alimony or child support order.

(12)~~(8)~~ "Public assistance" means money assistance paid on the basis of Title IV-E and Title XIX of the Social Security Act, temporary cash assistance, or food assistance benefits received on behalf of a child under 18 years of age who has an absent parent.

(10)~~(9)~~ "Program attorney" means an attorney employed by the department, under contract with the department, or employed by a contractor of the department, to provide legal representation for the department in a proceeding related to the determination of paternity or the establishment, modification, or enforcement of support brought pursuant to law.

(11)~~(10)~~ "Prosecuting attorney" means any private attorney, county attorney, city attorney, state attorney, program attorney, or an attorney employed by an entity of a local political subdivision who engages in legal action related to the determination of paternity or the establishment, modification, or enforcement of support brought pursuant to this act.

(13) "State Case Registry" means the automated registry maintained by the Title IV-D agency, containing records of each Title IV-D case and of each support order established or modified in the state on or after October 1, 1998. Such records must consist of data elements as required by the United States Secretary of Health and Human Services.

(14) "State Disbursement Unit" means the unit established and operated by the Title IV-D agency to provide one central address for collection and disbursement of child support payments made in cases enforced by the department pursuant to

Title IV-D of the Social Security Act and in cases not being enforced by the department in which the support order was initially issued in this state on or after January 1, 1994, and in which the obligor's child support obligation is being paid through income deduction order.

(16) "Title IV-D Standard Parenting Time Plan" means a document which may be agreed to by the parents to govern the relationship between the parents and to provide the parent who owes support a reasonable minimum amount of time with his or her child. The plans set forth in s. 409.25633 include timetables that specify the time, including overnights and holidays, that a minor child 3 years of age or older may spend with each parent.

(15)~~(11)~~ "Support," unless otherwise specified, means:

(a) Child support, and, when the child support obligation is being enforced by the Department of Revenue, spousal support or alimony for the spouse or former spouse of the obligor with whom the child is living.

(b) Child support only in cases not being enforced by the Department of Revenue.

(1)~~(12)~~ "Administrative costs" means any costs, including attorney's fees, clerk's filing fees, recording fees and other expenses incurred by the clerk of the circuit court, service of process fees, or mediation costs, incurred by the Title IV-D agency in its effort to administer the Title IV-D program. The administrative costs that ~~which~~ must be collected by the department shall be assessed on a case-by-case basis based upon a method for determining costs approved by the Federal Government. The administrative costs shall be assessed periodically by the department. The methodology for determining

administrative costs shall be made available to the judge or any party who requests it. Only those amounts ordered independent of current support, arrears, or past public assistance obligation shall be considered and applied toward administrative costs.

(2)~~(13)~~ "Child support services" includes any civil, criminal, or administrative action taken by the Title IV-D program to determine paternity, establish, modify, enforce, or collect support.

(17)~~(14)~~ "Undistributable collection" means a support payment received by the department which the department determines cannot be distributed to the final intended recipient.

(18)~~(15)~~ "Unidentifiable collection" means a payment received by the department for which a parent, depository or circuit civil numbers, or source of the payment cannot be identified.

Section 3. Subsection (2) of section 409.2557, Florida Statutes, is amended to read:

409.2557 State agency for administering child support enforcement program.—

(2) The department in its capacity as the state Title IV-D agency has ~~shall have~~ the authority to take actions necessary to carry out the public policy of ensuring that children are maintained from the resources of their parents to the extent possible. The department's authority includes ~~shall include~~, but is not ~~be~~ limited to, the establishment of paternity or support obligations, the establishment of a Title IV-D Standard Parenting Time Plan or any other parenting time plan agreed to by the parents, and ~~as well as~~ the modification, enforcement,

and collection of support obligations.

Section 4. Subsections (2), (4), (5), and (7) of section 409.2563, Florida Statutes, are amended to read:

409.2563 Administrative establishment of child support obligations.—

(2) PURPOSE AND SCOPE.—

(a) It is not the Legislature's intent to limit the jurisdiction of the circuit courts to hear and determine issues regarding child support or parenting time. This section is intended to provide the department with an alternative procedure for establishing child support obligations and establishing a parenting time plan only if the parents are in agreement, in Title IV-D cases in a fair and expeditious manner when there is no court order of support. The procedures in this section are effective throughout the state and shall be implemented statewide.

(b) If the parents do not have an existing time sharing schedule or parenting time plan and do not agree to a parenting time plan, a parenting time plan will not be included in the initial administrative order, only a statement explaining its absence.

(c) If the parents have a judicially established parenting time plan, the plan will not be included in the administrative or initial judicial order.

(d) Any notification provided by the department will not include Title IV-D Standard Parenting Time Plans if Florida is not the child's home state, when one parent does not reside in Florida, if either parent has requested nondisclosure for fear of harm from the other parent, or when the parent who owes

support is incarcerated.

(e)~~(b)~~ The administrative procedure set forth in this section concerns only the establishment of child support obligations and, if agreed to by both parents, a parenting time plan or Title IV-D Standard Parenting Time Plan. This section does not grant jurisdiction to the department or the Division of Administrative Hearings to hear or determine issues of dissolution of marriage, separation, alimony or spousal support, termination of parental rights, dependency, disputed paternity, except for a determination of paternity as provided in s. 409.256, ~~or award of~~ or change of time-sharing. If both parents have agreed to a parenting time plan before the establishment of the administrative support order, the department or the Division of Administrative Hearings will incorporate the agreed-upon parenting time plan into the administrative support order. This paragraph notwithstanding, the department and the Division of Administrative Hearings may make findings of fact that are necessary for a proper determination of a parent's support obligation as authorized by this section.

(f)~~(c)~~ If there is no support order for a child in a Title IV-D case whose paternity has been established or is presumed by law, or whose paternity is the subject of a proceeding under s. 409.256, the department may establish a parent's child support obligation pursuant to this section, s. 61.30, and other relevant provisions of state law. The administrative support order will include a parenting time plan or Title IV-D Standard Parenting Time Plan as agreed to by both parents. The parent's obligation determined by the department may include any obligation to pay retroactive support and any obligation to

provide for health care for a child, whether through insurance coverage, reimbursement of expenses, or both. The department may proceed on behalf of:

1. An applicant or recipient of public assistance, as provided by ss. 409.2561 and 409.2567;

2. A former recipient of public assistance, as provided by s. 409.2569;

3. An individual who has applied for services as provided by s. 409.2567;

4. Itself or the child, as provided by s. 409.2561; or

5. A state or local government of another state, as provided by chapter 88.

(g) ~~(d)~~ Either parent, or a caregiver if applicable, may at any time file a civil action in a circuit court having jurisdiction and proper venue to determine parental support obligations, if any. A support order issued by a circuit court prospectively supersedes an administrative support order rendered by the department.

(h) ~~(c)~~ Pursuant to paragraph (e) ~~(b)~~, neither the department nor the Division of Administrative Hearings has jurisdiction to ~~award or~~ change child custody or rights of parental contact. The department or the Division of Administrative Hearings will incorporate a parenting time plan or Title IV-D Standard Parenting Time Plan as agreed to by both parents into the administrative support order. Either parent may at any time file a civil action in a circuit having jurisdiction and proper venue for a determination of child custody and rights of parental contact.

(i) ~~(f)~~ The department shall terminate the administrative

proceeding and file an action in circuit court to determine support if within 20 days after receipt of the initial notice the parent from whom support is being sought requests in writing that the department proceed in circuit court or states in writing his or her intention to address issues concerning time-sharing or rights to parental contact in court and if within 10 days after receipt of the department's petition and waiver of service the parent from whom support is being sought signs and returns the waiver of service form to the department.

(j) ~~(g)~~ The notices and orders issued by the department under this section shall be written clearly and plainly.

(4) NOTICE OF PROCEEDING TO ESTABLISH ADMINISTRATIVE SUPPORT ORDER.—To commence a proceeding under this section, the department shall provide to the parent from whom support is not being sought and serve the parent from whom support is being sought with a notice of proceeding to establish administrative support order, a copy of the Title IV-D Standard Parenting Time Plans, and a blank financial affidavit form. The notice must state:

(a) The names of both parents, the name of the caregiver, if any, and the name and date of birth of the child or children;

(b) That the department intends to establish an administrative support order as defined in this section;

(c) That the department will incorporate a parenting time plan or Title IV-D Standard Parenting Time Plan, as agreed to by both parents, into the administrative support order;

(d) ~~(c)~~ That both parents must submit a completed financial affidavit to the department within 20 days after receiving the notice, as provided by paragraph (13)(a);

(e) ~~(d)~~ That both parents, or parent and caregiver if applicable, are required to furnish to the department information regarding their identities and locations, as provided by paragraph (13)(b);

(f) ~~(e)~~ That both parents, or parent and caregiver if applicable, are required to promptly notify the department of any change in their mailing addresses to ensure receipt of all subsequent pleadings, notices, and orders, as provided by paragraph (13)(c);

(g) ~~(f)~~ That the department will calculate support obligations based on the child support guidelines schedule in s. 61.30 and using all available information, as provided by paragraph (5)(a), and will incorporate such obligations into a proposed administrative support order;

(h) ~~(g)~~ That the department will send by regular mail to both parents, or parent and caregiver if applicable, a copy of the proposed administrative support order, the department's child support worksheet, and any financial affidavits submitted by a parent or prepared by the department;

(i) ~~(h)~~ That the parent from whom support is being sought may file a request for a hearing in writing within 20 days after the date of mailing or other service of the proposed administrative support order or will be deemed to have waived the right to request a hearing;

(j) ~~(i)~~ That if the parent from whom support is being sought does not file a timely request for hearing after service of the proposed administrative support order, the department will issue an administrative support order that incorporates the findings of the proposed administrative support order, and any agreed-

upon parenting time plan. The department will send by regular mail a copy of the administrative support order and any incorporated parenting time plan to both parents, or parent and caregiver if applicable;

(k) ~~(j)~~ That after an administrative support order is rendered incorporating any agreed-upon parenting time plan, the department will file a copy of the order with the clerk of the circuit court;

(l) ~~(k)~~ That after an administrative support order is rendered, the department may enforce the administrative support order by any lawful means. The department does not have jurisdiction to enforce any parenting time plan that is incorporated into an administrative support order;

(m) ~~(l)~~ That either parent, or caregiver if applicable, may file at any time a civil action in a circuit court having jurisdiction and proper venue to determine parental support obligations, if any, and that a support order issued by a circuit court supersedes an administrative support order rendered by the department;

(n) ~~(m)~~ That neither the department nor the Division of Administrative Hearings has jurisdiction to ~~award or~~ change child custody or rights of parental contact or time-sharing, and these issues may be addressed only in circuit court. The department or the Division of Administrative Hearings may incorporate, if agreed to by both parents, a parenting time plan or Title IV-D Standard Parenting Time Plan when the administrative support order is established.

1. The parent from whom support is being sought may request in writing that the department proceed in circuit court to

determine his or her support obligations.

2. The parent from whom support is being sought may state in writing to the department his or her intention to address issues concerning custody or rights to parental contact in circuit court.

3. If the parent from whom support is being sought submits the request authorized in subparagraph 1., or the statement authorized in subparagraph 2. to the department within 20 days after the receipt of the initial notice, the department shall file a petition in circuit court for the determination of the parent's child support obligations, and shall send to the parent from whom support is being sought a copy of its petition, a notice of commencement of action, and a request for waiver of service of process as provided in the Florida Rules of Civil Procedure.

4. If, within 10 days after receipt of the department's petition and waiver of service, the parent from whom support is being sought signs and returns the waiver of service form to the department, the department shall terminate the administrative proceeding without prejudice and proceed in circuit court.

5. In any circuit court action filed by the department pursuant to this paragraph or filed by a parent from whom support is being sought or other person pursuant to paragraph (m) ~~(l)~~ or paragraph (o) ~~(n)~~, the department shall be a party only with respect to those issues of support allowed and reimbursable under Title IV-D of the Social Security Act. It is the responsibility of the parent from whom support is being sought or other person to take the necessary steps to present other issues for the court to consider; ~~.~~

(o) ~~(n)~~ That if the parent from whom support is being sought files an action in circuit court and serves the department with a copy of the petition within 20 days after being served notice under this subsection, the administrative process ends without prejudice and the action must proceed in circuit court;

(p) ~~(o)~~ Information provided by the Office of State Courts Administrator concerning the availability and location of self-help programs for those who wish to file an action in circuit court but who cannot afford an attorney.

The department may serve the notice of proceeding to establish an administrative support order and Title IV-D Standard Parenting Time Plans by certified mail, restricted delivery, return receipt requested. Alternatively, the department may serve the notice by any means permitted for service of process in a civil action. For purposes of this section, an authorized employee of the department may serve the notice and execute an affidavit of service. Service by certified mail is completed when the certified mail is received or refused by the addressee or by an authorized agent as designated by the addressee in writing. If a person other than the addressee signs the return receipt, the department shall attempt to reach the addressee by telephone to confirm whether the notice was received, and the department shall document any telephonic communications. If someone other than the addressee signs the return receipt, the addressee does not respond to the notice, and the department is unable to confirm that the addressee has received the notice, service is not completed and the department shall attempt to have the addressee served personally. The department shall

provide the parent from whom support is not being sought or the caregiver with a copy of the notice by regular mail to the last known address of the parent from whom support is not being sought or caregiver.

(5) PROPOSED ADMINISTRATIVE SUPPORT ORDER.—

(a) After serving notice upon a parent in accordance with subsection (4), the department shall calculate that parent's child support obligation under the child support guidelines schedule as provided by s. 61.30, based on any timely financial affidavits received and other information available to the department. If either parent fails to comply with the requirement to furnish a financial affidavit, the department may proceed on the basis of information available from any source, if such information is sufficiently reliable and detailed to allow calculation of guideline schedule amounts under s. 61.30. If a parent receives public assistance and fails to submit a financial affidavit, the department may submit a financial affidavit or written declaration for that parent pursuant to s. 61.30(15). If there is a lack of sufficient reliable information concerning a parent's actual earnings for a current or past period, it shall be presumed for the purpose of establishing a support obligation that the parent had an earning capacity equal to the federal minimum wage during the applicable period.

(b) The department shall send by regular mail to both parents, or to a parent and caregiver if applicable, copies of the proposed administrative support order, a copy of the Title IV-D Standard Parenting Time Plans, its completed child support worksheet, and any financial affidavits submitted by a parent or prepared by the department. The proposed administrative support

order must contain the same elements as required for an administrative support order under paragraph (7)(e).

(c) The department shall provide a notice of rights with the proposed administrative support order, which notice must inform the parent from whom support is being sought that:

1. The parent from whom support is being sought may, within 20 days after the date of mailing or other service of the proposed administrative support order, request a hearing by filing a written request for hearing in a form and manner specified by the department;

2. If the parent from whom support is being sought files a timely request for a hearing, the case shall be transferred to the Division of Administrative Hearings, which shall conduct further proceedings and may enter an administrative support order;

3. A parent from whom support is being sought who fails to file a timely request for a hearing shall be deemed to have waived the right to a hearing, and the department may render an administrative support order pursuant to paragraph (7)(b);

4. The parent from whom support is being sought may consent in writing to entry of an administrative support order without a hearing;

5. The parent from whom support is being sought may, within 10 days after the date of mailing or other service of the proposed administrative support order, contact a department representative, at the address or telephone number specified in the notice, to informally discuss the proposed administrative support order and, if informal discussions are requested timely, the time for requesting a hearing will be extended until 10 days

after the department notifies the parent that the informal discussions have been concluded; and

6. If an administrative support order that establishes a parent's support obligation and incorporates either a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to by both parents is rendered, whether after a hearing or without a hearing, the department may enforce the administrative support order by any lawful means. The department does not have the jurisdiction or authority to enforce a parenting time plan.

(d) If, after serving the proposed administrative support order but before a final administrative support order is rendered, the department receives additional information that makes it necessary to amend the proposed administrative support order, it shall prepare an amended proposed administrative support order, with accompanying amended child support worksheets and other material necessary to explain the changes, and follow the same procedures set forth in paragraphs (b) and (c).

(7) ADMINISTRATIVE SUPPORT ORDER.—

(a) If a hearing is held, the administrative law judge of the Division of Administrative Hearings shall issue an administrative support order that will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to by both parents, or a final order denying an administrative support order, which constitutes final agency action by the department. The Division of Administrative Hearings shall transmit any such order to the department for filing and rendering.

(b) If the parent from whom support is being sought does not file a timely request for a hearing, the parent will be

deemed to have waived the right to request a hearing.

(c) If the parent from whom support is being sought waives the right to a hearing, or consents in writing to the entry of an order without a hearing, the department may render an administrative support order that will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to by both parents.

(d) The department shall send by regular mail a copy of the administrative support order that will include a parenting time plan or Title IV-D Standard Parenting Time Plan agreed to by both parents, or the final order denying an administrative support order, to both parents, or a parent and caregiver if applicable. The parent from whom support is being sought shall be notified of the right to seek judicial review of the administrative support order in accordance with s. 120.68.

(e) An administrative support order must comply with ss. 61.13(1) and 61.30. The department shall develop a standard form or forms for administrative support orders. An administrative support order must provide and state findings, if applicable, concerning:

1. The full name and date of birth of the child or children;

2. The name of the parent from whom support is being sought and the other parent or caregiver;

3. The parent's duty and ability to provide support;

4. The amount of the parent's monthly support obligation;

5. Any obligation to pay retroactive support;

6. The parent's obligation to provide for the health care needs of each child, whether through health insurance,

contribution toward the cost of health insurance, payment or reimbursement of health care expenses for the child, or any combination thereof;

7. The beginning date of any required monthly payments and health insurance;

8. That all support payments ordered must be paid to the ~~Florida~~ State Disbursement Unit as provided by s. 61.1824;

9. That the parents, or caregiver if applicable, must file with the department when the administrative support order is rendered, if they have not already done so, and update as appropriate the information required pursuant to paragraph (13)(b);

10. That both parents, or parent and caregiver if applicable, are required to promptly notify the department of any change in their mailing addresses pursuant to paragraph (13)(c); and

11. That if the parent ordered to pay support receives reemployment assistance or unemployment compensation benefits, the payor shall withhold, and transmit to the department, 40 percent of the benefits for payment of support, not to exceed the amount owed.

An income deduction order as provided by s. 61.1301 must be incorporated into the administrative support order or, if not incorporated into the administrative support order, the department or the Division of Administrative Hearings shall render a separate income deduction order.

Section 5. Section 409.25633, Florida Statutes, is created to read:

409.25633. Title IV-D Standard Parenting Time Plans.—

(1) A Title IV-D Standard Parenting Time Plan must be presented to the parents in any administrative action taken by the Title IV-D program to establish or modify child support or to determine paternity. If the parents agree to the Title IV-D Standard Parenting Time Plan or to another parenting time plan, the plan must be incorporated into the administrative order. If the parents do not agree to a Title IV-D Standard Parenting Time Plan or if an agreed-upon parenting time plan is not included, the Department of Revenue must enter an administrative support order and refer the parents to the court of appropriate jurisdiction to establish a parenting time plan. The department must note on the referral that an administrative support order has been entered. If a parenting time plan is not included in the administrative support order entered under s. 409.2563, the department must provide information to the parents on the process to establish such plan.

(2) If the parents live within 100 miles of each other and the child is 3 years of age or older, the parent who owes support shall have parenting time with the child:

(a) *Every other weekend.*—The second and fourth full weekend of the month from 6 p.m. on Friday through 6 p.m. on Sunday. The weekends may begin upon the child's release from school on Friday and end on Sunday at 6 p.m. or when the child returns to school on Monday morning. The weekend time may be extended by holidays that fall on Friday or Monday;

(b) *One evening per week.*—One weekday beginning at 6 p.m. and ending at 8 p.m. or if both parents agree, from when the child is released from school until 8 p.m.;

(c) *Thanksgiving break.*—In even-numbered years, the Thanksgiving break from 6 p.m. on the Wednesday before Thanksgiving until 6 p.m. on the Sunday following Thanksgiving. If both parents agree, the Thanksgiving break parenting time may begin upon the child's release from school and end upon the child's return to school the following Monday;

(d) *Winter break.*—In odd-numbered years, the first half of winter break, from the day school is released, beginning at 6 p.m. or, if both parents agree, upon the child's release from school, until noon on December 26. In even-numbered years, the second half of winter break from noon on December 26 until 6 p.m. on the day before school resumes or, if both parents agree, upon the child's return to school;

(e) *Spring break.*—In even-numbered years, the week of spring break from 6 p.m. the day that school is released until 6 p.m. the night before school resumes. If both parents agree, the spring break parenting time may begin upon the child's release from school and end upon the child's return to school the following Monday; and

(f) *Summer break.*—For 2 weeks in the summer beginning at 6 p.m. the first Sunday following the last day of school.

(3) If the parents live more than 100 miles from each other and the child is 3 years of age or older, the parties may agree to follow the schedule set forth in subsection (2), or else the parent who owes child support has parenting time with the child:

(a) *One weekend per month.*—The second or fourth full weekend of the month throughout the year beginning Friday at 6 p.m. through Sunday at 6 p.m. The parent who owes child support can choose the one weekend per month within 90 days after the

parents begin to live more than 100 miles apart; and

(b) *Summer break.*—Forty-two days of parenting time during the summer months. The parent who is owed child support will have parenting time one weekend beginning on Friday at 6 p.m. through Sunday at 6 p.m. during any one extended period during the summer.

(4) If the child is under 3 years of age, the parents may agree on a parenting time plan that includes more frequent visitation with shorter timeframes, gradually leading into overnight visits and either a parenting time plan agreed to by both parents or the Title IV-D Standard Parenting Time Plan set out in this section.

(5) In the event the parents have not agreed on a parenting schedule at the time of the child support hearing, the department will enter an administrative support order and refer the parents to a court of appropriate jurisdiction for the establishment of a parenting time plan.

(6) The Title IV-D Standard Parenting Time Plans are not intended for use by parents and families with domestic or family violence concerns.

(7) If after the incorporation of an agreed-upon parenting time plan into an administrative support order, a parent becomes concerned about the safety of the child during the child's time with the other parent, a modification of the parenting time plan may be sought through a court of appropriate jurisdiction.

(8) The department will create and provide a form for a petition to establish a parenting time plan for parents who have not agreed on a parenting schedule at the time of the child support hearing. The department will provide the form to the

parents but will not file the petition or represent either parent at the hearing.

(9) The parents will not be required to pay a fee to file the petition to establish a parenting plan.

(10) The department may adopt rules to implement and administer this section.

Section 6. Subsections (1) and (2) of section 409.2564, Florida Statutes, are amended to read:

409.2564 Actions for support.—

(1) In each case in which regular support payments are not being made as provided herein, the department shall institute, within 30 days after determination of the obligor's reasonable ability to pay, action as is necessary to secure the obligor's payment of current support, ~~and~~ any arrearage that ~~which~~ may have accrued under an existing order of support, and if a parenting time plan was not incorporated into the existing order of support and is appropriate, include either an agreed-upon parenting time plan or Title IV-D Standard Parenting Time Plan. The department shall notify the program attorney in the judicial circuit in which the recipient resides setting forth the facts in the case, including the obligor's address, if known, and the public assistance case number. Whenever applicable, the procedures established under ~~the provisions of~~ chapter 88, Uniform Interstate Family Support Act, chapter 61, Dissolution of Marriage; Support; Time-sharing, chapter 39, Proceedings Relating to Children, chapter 984, Children and Families in Need of Services, and chapter 985, Delinquency; Interstate Compact on Juveniles, may govern actions instituted under ~~the provisions of~~ this act, except that actions for support under chapter 39,

chapter 984, or chapter 985 brought pursuant to this act shall not require any additional investigation or supervision by the department.

(2) The order for support entered pursuant to an action instituted by the department under ~~the provisions of~~ subsection (1) shall require that the support payments be made periodically to the department through the depository. An order for support entered under the provisions of subsection (1) must include either an agreed-upon parenting time plan or Title IV-D Standard Parenting Time Plan, if appropriate. Upon receipt of a payment made by the obligor pursuant to any order of the court, the depository shall transmit the payment to the department within 2 working days, except those payments made by personal check which shall be disbursed in accordance with s. 61.181. Upon request, the depository shall furnish to the department a certified statement of all payments made by the obligor. Such statement shall be provided by the depository at no cost to the department.

Section 7. Paragraph (g) of subsection (2) and paragraph (a) of subsection (4) of section 409.256, Florida Statutes, are amended to read:

409.256 Administrative proceeding to establish paternity or paternity and child support; order to appear for genetic testing.—

(2) JURISDICTION; LOCATION OF HEARINGS; RIGHT OF ACCESS TO THE COURTS.—

(g) Section 409.2563(2)(h), (i), and (j) ~~409.2563(2)(e), (f), and (g)~~ apply to a proceeding under this section.

(4) NOTICE OF PROCEEDING TO ESTABLISH PATERNITY OR

PATERNITY AND CHILD SUPPORT; ORDER TO APPEAR FOR GENETIC TESTING; MANNER OF SERVICE; CONTENTS.—The Department of Revenue shall commence a proceeding to determine paternity, or a proceeding to determine both paternity and child support, by serving the respondent with a notice as provided in this section. An order to appear for genetic testing may be served at the same time as a notice of the proceeding or may be served separately. A copy of the affidavit or written declaration upon which the proceeding is based shall be provided to the respondent when notice is served. A notice or order to appear for genetic testing shall be served by certified mail, restricted delivery, return receipt requested, or in accordance with the requirements for service of process in a civil action. Service by certified mail is completed when the certified mail is received or refused by the addressee or by an authorized agent as designated by the addressee in writing. If a person other than the addressee signs the return receipt, the department shall attempt to reach the addressee by telephone to confirm whether the notice was received, and the department shall document any telephonic communications. If someone other than the addressee signs the return receipt, the addressee does not respond to the notice, and the department is unable to confirm that the addressee has received the notice, service is not completed and the department shall attempt to have the addressee served personally. For purposes of this section, an employee or an authorized agent of the department may serve the notice or order to appear for genetic testing and execute an affidavit of service. The department may serve an order to appear for genetic testing on a caregiver. The department shall

provide a copy of the notice or order to appear by regular mail to the mother and caregiver, if they are not respondents.

(a) A notice of proceeding to establish paternity must state:

1. That the department has commenced an administrative proceeding to establish whether the putative father is the biological father of the child named in the notice.

2. The name and date of birth of the child and the name of the child's mother.

3. That the putative father has been named in an affidavit or written declaration that states the putative father is or may be the child's biological father.

4. That the respondent is required to submit to genetic testing.

5. That genetic testing will establish either a high degree of probability that the putative father is the biological father of the child or that the putative father cannot be the biological father of the child.

6. That if the results of the genetic test do not indicate a statistical probability of paternity that equals or exceeds 99 percent, the paternity proceeding in connection with that child shall cease unless a second or subsequent test is required.

7. That if the results of the genetic test indicate a statistical probability of paternity that equals or exceeds 99 percent, the department may:

a. Issue a proposed order of paternity that the respondent may consent to or contest at an administrative hearing; or

b. Commence a proceeding, as provided in s. 409.2563, to establish an administrative support order for the child. Notice

of the proceeding shall be provided to the respondent by regular mail.

8. That, if the genetic test results indicate a statistical probability of paternity that equals or exceeds 99 percent and a proceeding to establish an administrative support order is commenced, the department shall issue a proposed order that addresses paternity and child support. The respondent may consent to or contest the proposed order at an administrative hearing.

9. That if a proposed order of paternity or proposed order of both paternity and child support is not contested, the department shall adopt the proposed order and render a final order that establishes paternity and, if appropriate, an administrative support order for the child.

10. That, until the proceeding is ended, the respondent shall notify the department in writing of any change in the respondent's mailing address and that the respondent shall be deemed to have received any subsequent order, notice, or other paper mailed to the most recent address provided or, if a more recent address is not provided, to the address at which the respondent was served, and that this requirement continues if the department renders a final order that establishes paternity and a support order for the child.

11. That the respondent may file an action in circuit court for a determination of paternity, child support obligations, or both.

12. That if the respondent files an action in circuit court and serves the department with a copy of the petition or complaint within 20 days after being served notice under this

subsection, the administrative process ends without prejudice and the action must proceed in circuit court.

13. That, if paternity is established, the putative father may file a petition in circuit court for a determination of matters relating to custody and rights of parental contact.

A notice under this paragraph must also notify the respondent of the provisions in s. 409.2563(4)(n) and (p) ~~s. 409.2563(4)(m) and (o)~~.

Section 8. Subsection (5) of section 409.2572, Florida Statutes, is amended to read:

409.2572 Cooperation.—

(5) As used in this section only, the term "applicant for or recipient of public assistance for a dependent child" refers to such applicants and recipients of public assistance as defined in s. 409.2554(12) ~~s. 409.2554(8)~~, with the exception of applicants for or recipients of Medicaid solely for the benefit of a dependent child.

Section 9. The sum of $419,520 in nonrecurring general revenue is appropriated for contracted services to the Department of Revenue for the fiscal year 2017-2018 for the purpose of implementing this act. The sum of $20,729 in recurring general revenue is appropriated for expenses, and the sum of $91,127 in recurring general revenue is appropriated for salaries and benefits to the Department of Revenue for the fiscal year 2017-2018 for the purpose of implementing this act.

Section 10. This act shall take effect January 1, 2018.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 406 amends section 381.986, Florida Statutes, to implement the provisions of Article X, section 29 of the State Constitution, Medical Marijuana Production, Possession, and Use. The bill makes numerous changes to the section including:

- Adding legislative intent.
- Amending definitions to incorporate terms used in Article X, section 29 of the State Constitution, and to add definitions for "chronic nonmalignant pain" and "close relative."
- Allowing allopathic[1] and osteopathic[2] physicians to certify the medical use of marijuana for patients with debilitating medical conditions and other specified patients, including certain patients from other states who meet Florida requirements.
- Establishing requirements that a physician must meet before certifying a patient and after certification.
- Reducing the required course a physician must take prior to certifying patients to a 4-hour course that must be taken each time such physician renews his or her license.[3]
- Removing the three-month patient treatment prerequisite.
- Amending current criminal penalties to conform to other changes in the bill and establishing new criminal violations for patients and caregivers cultivating or purchasing marijuana from

[1] Licensed under ch. 458, F.S.
[2] Licensed under ch. 459, F.S.
[3] Section 381.986(4)(a), F.S., requires that physicians take an 8-hour course biannually.

a source other than a medical marijuana treatment center (MMTC) or who violate other provisions of the act.
- Prohibiting unlicensed activity and providing for criminal and financial penalties.
- Establishing requirements for caregivers including limiting a patient to one caregiver and a caregiver to one patient with certain exceptions, and requiring that caregivers pass a Level 2 background screening with certain exceptions for a caregiver who is a close relative.
- Provides that a nursing home or assisted living facility may not prevent a qualifying patient residing in the nursing home or assisted living facility from hiring a caregiver, but a nursing home or assisted living facility may prohibit its employees from acting as caregivers to residents of the nursing home or assisted living facility, and a nursing home or assisted living facility is not required to provide a caregiver to a resident who is a qualifying patient.
- Requiring the Department of Health (DOH) to begin issuing identification cards to patients and caregivers by October 3, 2017.
- Requiring the DOH to establish requirements for the licensure and certification of independent testing laboratories (ITL), a marijuana quality control program, and a seed-to-sale tracking program for marijuana.
- Grandfathering in existing dispensing organizations as MMTCs,[4] adding five MMTCs by October 3, 2017, and increasing the overall number of MMTCs that may be registered when certain numbers of patients are registered on the compassionate use registry.
- Requiring MMTCs to maintain compliance with the representations made in their applications for registration and allowing the DOH to grant variances in certain circumstances.
- Limiting each MMTC to no more than three dispensing facilities.
- Authorizing emergency rulemaking for implementation and timeframes for initiating nonemergency rulemaking.

The bill creates section 1004.4351, Florida Statutes, to establish the "Medical Marijuana Research and Education Act" and the Coalition for Medical Marijuana Research and Education within the H. Lee Moffitt Cancer Center and Research Institute, Inc.

The bill also makes other conforming and technical changes to sections 381.986, 381.987, 385.211, 499.0295, and 1004.411, Florida Statutes.

The fiscal impact of the bill is indeterminate. On April 7, 2017, the Revenue Estimating Conference estimated the bill has an indeterminate positive fiscal impact on state revenues.[5] The increased costs incurred by the DOH and the Florida Department of Law Enforcement (FDLE) should be offset by fees and fines authorized in the bill.

The bill is effective upon becoming a law.

[4] Including dispensing organizations that are currently in litigation but would qualify under ch. 2016-1236, L.O.F.
[5] Office of Economic and Demographic Research, *Revenue Estimating Impact Conference results for CS/SB 406, (April 7, 2017)* available at http://edr.state.fl.us/Content/conferences/revenueimpact/archives/2017/_pdf/Impact0407.pdf, pages 527-531 (last visited April 16, 2017).

II. Present Situation:

Treatment of Marijuana in Florida

Florida law defines cannabis as "all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin,"[6] and places it, along with other sources of tetrahydrocannabinol (THC), on the list of Schedule I controlled substances.[7] The definition excludes "low-THC cannabis" as defined in s. 381.986, F.S., if manufactured, possessed, sold, purchased, delivered, distributed, or dispensed in conformance with that section.

Schedule I controlled substances are substances that have a high potential for abuse and no currently accepted medical use in the United States.[8] As a Schedule I controlled substance, possession and trafficking of cannabis carry criminal penalties that vary from a first-degree misdemeanor[9] up to a first-degree felony with a mandatory minimum sentence of 15 years in state prison and a $200,000 fine.[10] Paraphernalia[11] that is sold, manufactured, used, or possessed with the intent to be used to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, conceal, inject, ingest, inhale, or otherwise introduce into the human body a controlled substance, is also prohibited and carries criminal penalties ranging from a first degree misdemeanor to a third degree felony.[12]

Medical Marijuana in Florida: the Compassionate Medical Cannabis Act of 2014

Patient Treatment with Low-THC Cannabis

The Compassionate Medical Cannabis Act of 2014[13] (act) legalized a low tetrahydrocannabinol (THC) and high cannabidiol (CBD) form of cannabis (low-THC cannabis)[14] for medical use[15] by patients suffering from cancer or a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms. The act provides that a Florida

---

[6] Section 893.02(3), F.S.
[7] Section 893.03(1)(c)7. and 37., F.S.
[8] Section 893.03(1), F.S.
[9] This penalty is applicable to possession or delivery of less than 20 grams of cannabis. *See* s. 893.13(3) and (6)(b), F.S.
[10] Trafficking in more than 25 pounds, or 300 plants, of cannabis is a first-degree felony with a mandatory minimum sentence that varies from three to 15 years in state prison depending on the quantity of the cannabis possessed, sold, etc. *See* s. 893.135(1)(a), F.S.
[11] Section 893.145, F.S.
[12] Section 893.147, F.S.
[13] Chapter 2014-157, Laws of Fla., codified in s. 381.986, F.S.
[14] Section 381.986(b), F.S., defines "low-THC cannabis," as the dried flowers of the plant *Cannabis* which contain 0.8 percent or less of tetrahydrocannabinol and more than 10 percent of cannabidiol weight for weight, or the seeds, resin, or any compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin.
[15] Section 381.986(1)(c), F.S., defines "medical use" as administration of the ordered amount of low-THC cannabis; and the term does not include the possession, use, or administration by smoking, or the transfer of low-THC cannabis to a person other than the qualified patient for whom it was ordered or the qualified patient's legal representative. Section 381.986(1)(e), F.S., defines "smoking" as burning or igniting a substance and inhaling the smoke; smoking does not include the use of a vaporizer.

licensed allopathic or osteopathic physician who has completed the required training[16] and has examined and is treating such a patient may order low-THC cannabis for that patient to treat such disease, disorder, or condition or to alleviate its symptoms, if no other satisfactory alternative treatment options exist for that patient. In order for a physician to order low-THC cannabis for a patient, all of the following conditions must apply:

- The patient is a permanent resident of Florida;
- The physician has treated the patient for at least 3 months immediately preceding the patient's registration and has determined that the risks of ordering low-THC cannabis are reasonable in light of the potential benefit for that patient;[17]
- The physician registers as the orderer of low-THC cannabis for the patient on the compassionate use registry (registry) maintained by the DOH and updates the registry to reflect the contents of the order;
- The physician maintains a patient treatment plan that includes the dose, route of administration, planned duration, and monitoring of the patient's symptoms and other indicators of tolerance or reaction to the low-THC cannabis;
- The physician submits the patient treatment plan quarterly to the University of Florida, College of Pharmacy (UFCP) for research on the safety and efficacy of low-THC cannabis on patients; and
- The physician obtains the voluntary informed consent of the patient or the patient's legal guardian to treatment with low-THC cannabis after sufficiently explaining the current state of knowledge in the medical community about the effectiveness of treatment of the patient's condition with low-THC cannabis, the medically acceptable alternatives, and the potential risks and side effects.[18]

The act creates exceptions to existing law to allow qualified patients[19] and their legal representatives to purchase, acquire, and possess low-THC cannabis – up to the amount ordered – for that patient's medical use; and to allow dispensing organizations (DO) and their owners, managers, and employees to acquire, possess, cultivate, and dispose of excess product in reasonable quantities to produce low-THC cannabis and to possess, process, and dispense low-THC cannabis. The DOs and their owners, managers, and employees are not subject to licensure and regulation under ch. 465, F.S., relating to pharmacies.[20]

Patient Treatment with Medical Cannabis

Chapter 2016-123, Laws of Florida, amended the act to expand the regulatory structure relating to dispensing low-THC cannabis and authorized approved dispensing organizations to cultivate and dispense medical cannabis to eligible patients as defined under the Right to Try Act

[16] Section 381.986(4), F.S., requires such physicians to successfully complete an 8-hour course and examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association that encompasses the clinical indications for the appropriate use of low-THC cannabis, appropriate delivery mechanisms, contraindications for such use, and the state and federal laws governing its ordering, dispensing, and processing.
[17] If a patient is younger than 18 years of age, a second physician must concur with this determination, and such determination must be documented in the patient's medical record.
[18] Section 381.986(2), F.S.
[19] Section 381.986(1)(d), F.S., defines a "qualified patient" as a Florida resident who has been added by a physician licensed under ch. 458 or 459, F.S., to the compassionate use registry to receive low-THC cannabis from a DO.
[20] Section 381.986(7), F.S.

(RTTA).[21] In conjunction with s. 381.986, F.S., the RTTA allows physicians to treat eligible patients with terminal conditions with medical cannabis by including medical cannabis[22] within the definition of an investigational drug, biological product, or device. Physicians must order the use of medical cannabis for those patients pursuant to the provisions of s. 381.986, F.S.

Dispensing Organizations under the Act

Section 381.986, F.S., requires that the DOH approve five DOs, one in each of five regions throughout the state. In order to be approved as a DO, an applicant must possess a certificate of registration issued by the Department of Agriculture and Consumer Services (DACS) for the cultivation of more than 400,000 plants, be operated by a nurseryman, and have been operating as a registered nursery in this state for at least 30 continuous years. DOs must be vertically integrated, meaning the DO performs all stages in the production, processing, marketing, and retailing of low-THC and medical cannabis. Applicants are required to demonstrate:

- The technical and technological ability to cultivate and produce low-THC cannabis;
- The ability to secure the premises, resources, and personnel necessary to operate as a DO;
- The ability to maintain accountability of all raw materials, finished products, and any byproducts to prevent diversion or unlawful access to or possession of these substances;
- An infrastructure reasonably located to dispense low-THC cannabis to registered patients statewide or regionally as determined by the DOH;
- The financial ability to maintain operations for the duration of the two year approval cycle, including the provision of certified financials to the DOH;
- That all owners and managers have been fingerprinted and have successfully passed a Level 2 background screening pursuant to s. 435.04, F.S; and
- The employment of a medical director, who must be a physician[23] and successfully completed a course and examination that encompasses appropriate safety procedures and knowledge of low-THC cannabis.[24]

An approved DO must post a $5 million performance bond within 10 business days of approval. The DOH is authorized to charge an initial application fee and a licensure renewal fee, but is not authorized to charge an initial licensure fee.[25] An approved DO must maintain all approval criteria at all times.[26]

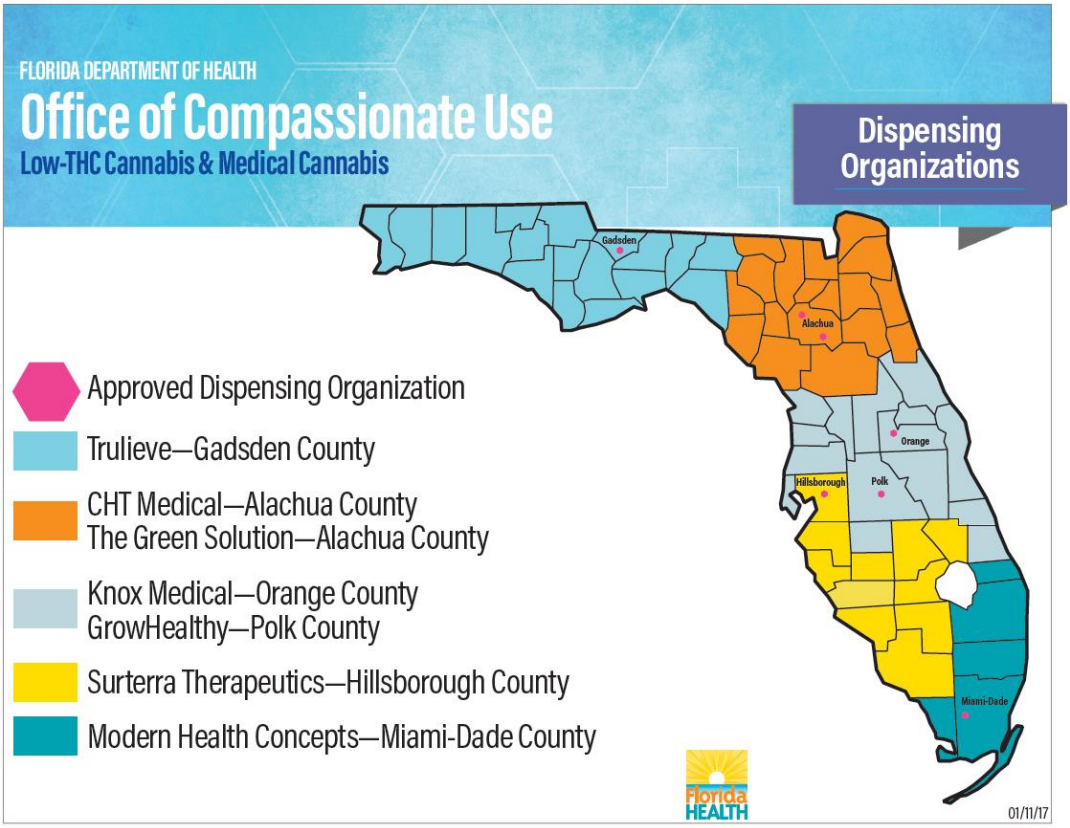
Beginning on July 7, 2014, the DOH held several rule workshops[27] to write and adopt rules implementing the provisions of s. 381.986, F.S., and the DOH put forward a proposed rule on September 9, 2014.[28] This proposed rule was challenged by multiple organizations involved in

[21] Section 499.0295, F.S.
[22] "Medical cannabis" means all parts of any plant of the genus Cannabis, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, sale, derivative, mixture, or preparation of the plant or its seeds or resin that is dispensed only from a DO for medical use by an eligible patient as defined in the Right to Try Act.
[23] Licensed under ch. 458 or 459, F.S.
[24] *Id.*
[25] *Id.*
[26] Section 381.986(6), F.S.
[27] Audio recordings of the rule development workshops are available on the DOH website at: http://www.floridahealth.gov/programs-and-services/office-of-compassionate-use/resources/rulemaking/index.html (last visited Mar. 20, 2017).
[28] Proposed Rule ch. 64-4, F.A.C., ID 14941024, (Aug. 14, 2014) and changed, ID 15040352, (Sept. 9, 2014).

the rulemaking workshops and was found to be an invalid exercise of delegated legislative authority by an administrative law judge on November 14, 2014.[29] Afterward, the DOH held a negotiated rulemaking workshop in February of 2015, which resulted in a new proposed rule being published on February 6, 2015.[30] The new proposed rule was also challenged on, among other things, the DOH's statement of estimated regulatory costs and the DOH's conclusion that the rule will not require legislative ratification. Hearings were held on April 23 and 24, 2015, and a final order was issued on May 27, 2015, which found the rule to be valid.[31] The rule took effect June 17, 2015, and the DOH held an application period for DO approval which ended on July 8, 2015. Twenty-eight applications were submitted.[32]

On November 23, 2015, the DOH approved a DO in each of the following five regions as required by the act: northwest Florida, northeast Florida, central Florida, southeast Florida, and southwest Florida.[33] Numerous petitions were filed challenging the DOH's selection process. In order to allow the approved DOs to begin dispensing products, the 2016 Legislature required the DOH to approve as a DO applicants that received the highest aggregate score through the DOH's evaluation process, notwithstanding any prior determination by the DOH that the applicant failed to meet the requirements of s. 381.986, F.S. The Legislature also provided that if the Division of Administrative Hearings, the DOH, or a court of competent jurisdiction makes a final determination that an applicant was entitled to be a DO, that both this DO and currently approved DOs may operate in the same region.[34] Currently, in addition to the five DOs originally approved, the DOH has since approved The Green Solution in Alachua County and Grow Health in Polk County. The following map depicts the currently approved DOs.

[29] Tornello Landscape Corp. v. DOH, Case No. 14-4547RP; Fl. Medical Cannabis Assoc. v. DOH, Case No. 14-4517RP; Plants of Ruskin, Inc. v. DOH, Case No. 14-4299RP; Costa Farms, LLC v. DOH, Case No. 14-4296RP (Fla. DOAH 2014). A copy of each Final Order is available on the Division of Administrative Hearings website.
[30] Proposed Rule ch. 64-4, F.A.C., ID 15645147, (Feb. 2, 2015).
[31] Baywood Nurseries Co., Inc. v. DOH, Case No. 15-1694RP (Fla. DOAH 2015).
[32] Information about the applications and the approved DOs is available on the DOH, Office of Compassionate Use, website, available at: http://www.floridahealth.gov/programs-and-services/office-of-compassionate-use/dispensing-organizations/dispensing-application-process/index.html (last visited Mar. 20, 2017).
[33] Section 381.986(5)(b), F.S. A map of the dispensing regions and approved dispensing organizations is available on the DOH website at: http://www.floridahealth.gov/programs-and-services/office-of-compassionate-use/_documents/ocu-dispensing-map.pdf (last visited Mar. 20, 2017).
[34] Chapter 2016-123, Laws of Fla.



In addition to the currently approved DOs, s. 381.986(5)(c), F.S., requires the DOH to approve three additional DOs upon the registration of 250,000 active qualified patients in the compassionate use registry. At least one of the newly approved DOs must be an applicant that is a recognized class member of Pigford v. Glickman, 185 F.R.D. 82 (D.D.C. 1999), or In Re Black Farmers Litig., 856 F. Supp. 2d 1 (D.D.C. 2011), and a member of the Black Farmers and Agriculturalists Association. These additional applicants are not required to meet the requirement to possess a certificate of registration issued by the DACS for the cultivation of more than 400,000 plants, be operated by a nurseryman, and have been operating as a registered nursery in Florida for at least 30 continuous years.

The Compassionate Use Registry

The act requires the DOH to create a secure, electronic, and online registry for the registration of physicians and patients and for the verification of patient orders by DOs, which is accessible to law enforcement.[35] The registry must allow DOs to record the dispensing of low-THC cannabis, and must prevent an active registration of a patient by multiple physicians. Physicians must register qualified patients with the registry and DOs are required to verify that the patient has an active registration in the registry, that the order presented matches the order contents as recorded in the registry, and that the order has not already been filled before dispensing any low-THC cannabis. The DOs are also required to record in the registry the date, time, quantity, and form of low-THC cannabis dispensed.[36] The Compassionate Use Registry became operational on

[35] Section 381.986(5)(a), F.S.
[36] Section 381.986(6), F.S.

July 11, 2016.[37] As of the end of February 2017, there were 4,079 patients registered with the Compassionate Use Registry.[38]

The Office of Compassionate Use and Research on Low-THC Cannabis

The DOH was required to establish the Office of Compassionate Use under the direction of the deputy state health officer to administer the act.[39, 40]

The act includes several provisions related to research on low-THC cannabis and cannabidiol including:

- Requiring physicians to submit quarterly patient treatment plans to the UFCP for research on the safety and efficacy of low-THC cannabis;[41]
- Authorizing state universities to perform research on cannabidiol and low-THC cannabis and exempting them from the provisions in ch. 893, F.S., for the purposes of such research;[42] and
- Appropriating $1 million to the James and Esther King Biomedical Research Program for research on cannabidiol and its effects on intractable childhood epilepsy.[43]

Medical Marijuana in Florida: Amendment 2 (2016)

On November 4, 2016, Amendment 2 was voted into law and established Article X, section 29 of the State Constitution. This section of the constitution became effective on January 3, 2017, and creates several exemptions from criminal and civil liability for:

- Qualifying patients medically using marijuana in compliance with the amendment;
- Physicians, solely for issuing physician certifications with reasonable care and in compliance with the amendment; and
- Medical Marijuana Treatment Centers (MMTCs), their agents, and employees for actions or conduct under the amendment and in compliance with DOH rules.

The constitution defines multiple terms including:

- "Qualifying patient" to mean a person who:
  - Has been diagnosed with a "debilitating medical condition;"

  - Has a "physician certification;" and
  - Has a valid qualifying patient identification card issued by the DOH.
  - In the case of a minor patient, must also have the consent of a parent or legal guardian prior to both obtaining a physician certification and obtaining an identification card from the DOH.[44]
- "Debilitating Medical Condition" to mean:
  - Cancer;
  - Epilepsy;
  - Glaucoma;
  - HIV/AIDS;
  - Post-Traumatic Stress Disorder (PTSD);
  - Amyotrophic lateral sclerosis (ALS);
  - Crohn's Disease;
  - Parkinson's Disease;
  - Multiple Sclerosis; or
  - Another debilitating medical condition of the same kind or class as, or comparable to, the enumerated conditions.
  - Additionally, a physician must believe that the medical use of marijuana would likely outweigh the potential health risks for the patient.
- "Marijuana" to have the meaning given to cannabis in section 893.02(3), F.S. (2014), and, in addition, "low-THC cannabis" as defined in section 381.986(1)(b), F.S. (2014), shall also be included in the meaning of the term "marijuana."
- "Medical Marijuana Treatment Center" or "MMTC" to mean an entity that acquires, cultivates, possesses, processes (including development of related products such as food, tinctures, aerosols, oils, or ointments), transfers, transports, sells, distributes, dispenses, or administers marijuana, products containing marijuana, related supplies, or educational materials to qualifying patients or their caregivers and is registered by the DOH.
- "Medical use" to mean the acquisition, possession, use, delivery, transfer, or administration of an amount of marijuana not in conflict with DOH rules, or of related supplies by a qualifying patient or caregiver for use by the caregiver's designated qualifying patient for the treatment of a debilitating medical condition.
- "Physician Certification" to mean a written document signed by a person who is "licensed to practice medicine" in Florida stating:
  - The physician has conducted a medical examination of the patient and a full assessment of the patient's medical history;
  - That, in the physician's professional opinion, the patient has a debilitating medical condition;
  - That, in the physician's professional opinion, the medical use of marijuana will outweigh the health risks for the patient; and
  - For how long the physician recommends the medical use of marijuana for the patient.

Once certified, a patient may designate one or more caregivers to assist him or her with the medical use of marijuana. The amendment defines a "caregiver" as a person who is at least 21 years of age who has agreed to assist with a qualifying patient's medical use of marijuana and has qualified for and obtained a caregiver identification card issued by the DOH. Caregivers:

[44] This provision is included in the definition of "physician certification."

- Are prohibited from consuming medical marijuana;
- Must obtain an ID card from the DOH;
- Are subject to standards and qualifications established by the DOH including:
  - Background checks;
  - Procedures for issuing ID cards; and
  - Limitations on the number of caregivers per patient and the number of patients per caregiver.

The DOH is required to register MMTCs that will be authorized to acquire, cultivate, possess, process, transfer, transport, sell, distribute, dispense, or administer medical marijuana, related supplies, or educational materials to patients and caregivers. The DOH is required to adopt rules regarding MMTCs including:

- Procedures to register as an MMTC;
- Procedures for the issuance, renewal, suspension, and revocation of MMTC registrations; and
- Standards to ensure proper security, record keeping, testing, labeling, inspection, and safety.

The amendment requires the DOH to adopt rules no later than July 3, 2017, six months after its effective date. The stated purpose of the rules is to ensure the availability and safe use of medical marijuana by qualifying patients. Currently, the DOH has begun the rulemaking process to implement Article X, section 29 of the State Constitution and has held several workshops around Florida.[45] The DOH is required to adopt rules for:

- Issuing patient and caregiver ID cards;[46]
- Procedures for establishing caregiver qualifications;
- Procedures for registering MMTCs; and
- A regulation that defines the amount of marijuana that could reasonably be presumed to be an adequate supply, based on the best available medical evidence. This presumption can be overcome on an individual patient basis.

If the DOH does not adopt rules by the deadline, the amendment creates a cause of action for any Florida citizen to seek judicial relief to compel the DOH's compliance.

Additionally, the DOH is required to begin registering MMTCs and issuing patient and caregiver ID cards by October 3, 2017, nine months after the amendment's effective date. If the DOH does not comply with this requirement, the amendment states that a physician certification is sufficient for a person to become a qualifying patient without being issued an ID card from the DOH.

The amendment also creates a number of specific restrictions on its exemption from liability, and its grants of authority, including specifically:

- Not repealing or allowing violations of other laws related to the non-medical use of marijuana;

[45] Rule 64-4.012, F.A.C., rule notice published on Jan. 17, 2017, *available at* https://www.flrules.org/gateway/ruleNo.asp?id=64-4.012, (last visited on Mar. 20, 2017).

[46] On Feb. 18, 2017, the DOH adopted Rule 64-4.011, F.A.C., addressing the issuance of Compassionate Use Registry Identification Cards. This rule may bring the DOH into compliance with the requirement to adopt rules for issuing ID cards by July 3, 2017; however, the rule may need requiring amending to comply with constitutional terms and to comply with changes to s. 381.986, F.S., provided in this bill.

- Not permitting the operation of any vehicle under the influence of marijuana;
- Not requiring the accommodation of the use of marijuana in specific areas or in any public place;
- Not requiring any health insurance provider to cover the medical use of marijuana; and
- Not affecting laws related to negligence or malpractice on the part of any patient, caregiver, physician, or MMTC agent or employee.

The State Constitution authorizes the Legislature to enact laws consistent with the constitution's language, and provides for severability so that if any clause, sentence, paragraph or section of the amendment, or an application thereof, is found to be invalid by a court of competent jurisdiction, other provisions shall continue to be in effect to the fullest extent possible.

The Revenue Estimating Conference has estimated that under Amendment 2 and the proposed DOH rules, sales tax revenue from medical marijuana sales will be $2.6 million in Fiscal Year 2017-2018 and will increase to $24.3 million in Fiscal Year 2021-2022.

Medical Marijuana in Florida: The Necessity Defense

Despite the fact that the use, possession, and sale of marijuana are prohibited by state law, Florida courts have found that circumstances can necessitate medical use of marijuana and circumvent the application of criminal penalties. The necessity defense was successfully applied in a marijuana possession case in *Jenks v. State* where the First District Court of Appeal found that s. 893.03, F.S., does not preclude the defense of medical necessity for the use of marijuana if the defendant:

- Did not intentionally bring about the circumstance which precipitated the unlawful act;
- Could not accomplish the same objective using a less offensive alternative available; and
- The evil sought to be avoided was more heinous than the unlawful act.[47]

In the cited case, the defendants, a married couple, were suffering from uncontrollable nausea due to AIDS treatment and had testimony from their physician that he could find no effective alternative treatment. Under these facts, the court found that the defendants met the criteria to qualify for the necessity defense and ordered an acquittal of the charges of cultivating cannabis and possession of drug paraphernalia.

Medical Marijuana Laws in Other States

Currently, 28 states, the District of Columbia, and Guam have some form of law that permits the use of marijuana for medicinal purposes.[48] These laws vary widely in detail but most share

[47] *Jenks v. State*, 582 So.2d 676, 679 (Fla. 1st DCA 1991), *review denied*, 589 So.2d 292 (Fla. 1991).

[48] These states include: Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Hawaii, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, and Washington. California was the first to establish a medical marijuana program in 1996 and New York was the most recent state to pass medical marijuana legislation in June 2014. Seventeen states allow limited access to marijuana products (low-THC and/or high CBD-cannabidiol). Alabama, Florida, Georgia, Iowa, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Utah, Virginia, Wisconsin, and Wyoming. National Conference of State Legislatures, *State Medical Marijuana Laws*, (Mar. 16, 2017), *available at* http://www.ncsl.org/research/health/state-medical-marijuana-laws.aspx (last visited Mar. 20, 2017).

certain features. For example, most state laws require an identification card and registry for patients and caregivers to use medical marijuana; require the patient to receive certification from up to two physicians that the patient has a qualifying condition before the patient may use medical marijuana; allow a patient to designate a caregiver who can possess the medical marijuana and assist the patient in using the medical marijuana; and provide general restrictions on how medical marijuana can be obtained (self-cultivated or from a dispensary) and where it can be used.[49]

Of the 17 states with low-THC cannabis laws similar to s. 381.986, F.S., most specify that the use of such low-THC cannabis is reserved for patients with epileptic or seizure disorders. Florida allows the treatment of cancer and Georgia allows the treatment of end stage cancer and other specified conditions. Additionally, the definition of low-THC cannabis differs from state to state. The THC level allowed ranges from a high of below five percent to less than 0.3 percent; most states restrict the level of THC to below one percent. CBD levels are generally required to be high, with most states requiring at least 10 percent.[50]

Interaction with the Federal Government

The federal Controlled Substances Act lists marijuana as a Schedule 1 drug and provides no exceptions for medical uses.[51] Possession, manufacture, and distribution of marijuana is a crime under federal law.[52] Although a state's medical marijuana laws protect patients from prosecution for the legitimate use of marijuana under state law, state medical marijuana laws, or Constitutional provisions, do not protect individuals from prosecution under federal law.

In 2013, the U.S. Department of Justice (USDOJ) issued statements indicating that the federal government would not pursue cases for low-level drug crimes, leaving such prosecutions largely up to state authorities. The U.S. Attorney General issued a statement that the USDOJ was changing policy such that individuals "who have committed low-level, nonviolent drug offenses, who have no ties to large-scale organizations, gangs, or cartels, will no longer be charged with offenses that impose draconian mandatory minimum sentences… [and] would instead receive sentences better suited to their individual conduct…"[53] Further, the USDOJ issued a memorandum clarifying that the department considers small-scale marijuana use to be a state matter which states may choose to punish, and certain operations adhering to state laws legalizing marijuana in conjunction with robust state regulatory systems would be far less likely to come under federal scrutiny.[54] In addition, a rider in recent appropriations acts and continuing resolutions has prohibited the USDOJ from using appropriated funds to prevent specified states

[49] Analysis by Senate Health Policy committee staff of s*upra* note 49.

(including Florida) from implementing the states' own medical marijuana laws.[55] It is worth noting that, with the election of President Trump and changes to the leadership of the USDOJ, the guidance issued by the USDOJ may be amended in the future; however, it would require an act of Congress to amend the rider preventing the USDOJ from using funds to prevent specified states from implementing medical marijuana laws.

III. Effect of Proposed Changes:

In addition to technical and conforming changes made by the bill to ss. 381.986, 381.987, 385.211, 499.0295, and 1004.441, the bill substantially amends s. 381.986, F.S.

Legislative Intent

The bill adds the legislative intent:

- To implement Art. X, s. 29 of the State Constitution by creating a unified regulatory structure for the acquisition, cultivation, possession, processing, transfer, transportation, sale, distribution, and dispensing of marijuana, marijuana products, related supplies, and educational materials;
- That all rules adopted by the DOH to implement the section be adopted pursuant to ch. 120, F.S., and that the DOH may use emergency rulemaking procedures to adopt rules if necessary to meet any rulemaking deadlines established in Art. X, s. 29 of the State Constitution; and
- That all registrations for MMTC activities be issued solely in accordance with the requirements of this section and rules adopted under the section.

Definitions

The bill:

- Conforms the definitions for "caregiver," "debilitating medical condition," "marijuana," "medical marijuana treatment center" or "MMTC," to the definitions in Article X section 29 of the State Constitution.
- Uses the constitutional definition for "medical use" but amends the definition to restrict:
  - Smoking;
  - The possession, use, or administration of marijuana not purchased from an MMTC;
  - The transfer of marijuana to anyone other than a qualifying patient or his or her caregiver;
  - The use or administration of any type or amount of marijuana not specified on a qualifying patient's physician certification; and
  - The use or administration of marijuana:
    - On any form of public transportation;
    - In any public place;

[55] *See* Pub. Law No. 114-113, s. 542 (Consolidated Appropriations Act, 2016). A recent court order by the U.S. District Court for the Northern District of California recently held that a similar provision in the previous appropriations act (s. 538, Pub. L. No. 113-235) does not prohibit the USDOJ from enforcing violations of *federal* marijuana laws by individuals or businesses who are complying with state medical marijuana laws. U.S. v. Marin Alliance for Medical Marijuana and Shaw, Order re: Motion to Dissolve Permanent Injunction, No. C 98-00086 CB, (Oct. 19, 2015), available at http://www.scribd.com/doc/286089509/US-vs-Marin-Alliance-for-Medical-Marijuana#scribd (last visited Mar. 20, 2017).

  - In a qualifying patient's place of employment if restricted by his or her employer;
  - In a state correctional institution;
  - On the grounds of a preschool, primary school, or secondary school; or
  - On a school bus or in a vehicle, aircraft, or motorboat.
- Uses the constitutional definition for "qualifying patient," but also includes "eligible patients" as defined in the Right to Try Act, patients suffering from a physical medical condition that produces symptoms of seizures or severe and persistent muscle spasms, and patients suffering from chronic nonmalignant pain.
- Adds definitions for:
  - "Chronic nonmalignant pain" to mean pain that is caused by a debilitating medical condition or that originates from a debilitating medical condition and persists beyond the usual course of that debilitating medical condition; and
  - "Close relative" to mean a spouse, parent, sibling, grandparent, child, or grandchild, whether related by whole or half-blood, by marriage, or by adoption.

Physician Certifications

The bill allows physicians to issue physician certifications to:
- A patient suffering from a debilitating medical condition;
- A patient suffering from a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms;[56]
- A patient suffering from chronic nonmalignant pain, if the physician has diagnosed an underlying debilitating medical condition as the cause of the pain, which allows the patient to receive marijuana for the patient's medical use to alleviate the patient's pain;
- An eligible patient as defined in the Right to Try Act; or
- A patient who is not a Florida resident and who qualifies under one of the above listed conditions and who can lawfully receive marijuana in the state in which he or she resides.

Before certifying a patient the physician must:
- Be licensed under ch. 458 or 459, F.S.;
- Have successfully completed the required 4-hour course and exam administered by the Florida Medical Association or the Florida Osteopathic Medical Association each time the physician renews his or her license;[57]
- Have conducted a full assessment of the patient's medical history;
- Have determined that, in the physician's professional opinion, the patient meets one of the criteria specified above;
- Have determined that the medical use of marijuana would likely outweigh the potential health risks to the patient; and
- Have obtained the voluntary written informed consent of the patient or, if the patient is a minor, the patient's parent or legal guardian, after having sufficiently explained the current state of knowledge in the medical community of the effectiveness of treatment of the patient's condition with marijuana and the potential risks and side effects.[58]

[56] Such patient may receive only low-THC cannabis if the patient does not meet any of the other qualifications.
[57] Section 381.986(4)(a), F.S., requires an 8-hour course and exam which must be retaken biannually.
[58] If the patient is an eligible patient, the physician must obtain written informed consent pursuant to s. 499.0295, F.S.

For patients under the age of 18, a second physician must concur with the treating physician's determination that the medical use of marijuana would likely outweigh the health risks for the patient. Additionally, patients under the age of 18 are restricted from purchasing marijuana and are required to have a parent, legal guardian, caregiver, or health care provider assist them in purchasing and administering marijuana.

The physician must also register as the treating physician with the compassionate use registry and maintain a patient treatment plan that must be submitted to the University of Florida College of Pharmacy on a quarterly basis. The bill increases the amount of marijuana a physician may certify a patient to receive from a 45-day supply to a 90-day supply and allows a physician to certify a patient for longer than the 90-day period if the physician believes that the patient will use the additional marijuana in a medically appropriate way. Patients must be recertified at least annually. A physician may not issue physician certifications if he or she is a medical director employed by an MMTC.

The bill also grandfathers in all orders for low-THC cannabis issued prior to the effective date of the act as physician certifications, and requires the DOH to consider patients with such orders as qualifying patients until the DOH begins issuing compassionate use registry identification cards.

Prohibited Acts

The bill:

- Conforms existing penalties to the changes made by the bill;
- Creates two new misdemeanors for a qualifying patient or caregiver who cultivates marijuana or who purchases or acquires marijuana from any person or entity other than an MMTC[59] and a caregiver who violates any of the applicable provisions of this section or applicable department rules;[60]
- Specifies that an MMTC may not advertise services that it is not registered to provide; and
- Prohibits any person or entity from offering or advertising services as an MMTC without being registered as an MMTC. The bill establishes penalties for unlicensed activity including fines of up to $10,000 per day, and that the DOH or any state attorney may bring action for an injunction of the activity until compliance has been established to the satisfaction of the DOH. The bill also allows the DOH to assess reasonable investigative and legal costs for a successful prosecution.

Caregivers

The bill allows a qualifying patient to designate a caregiver to assist him or her with the medical use of marijuana. The bill requires the DOH to register a caregiver and issue him or her a compassionate use registry identification card if designated by a qualifying patient, and the caregiver:

- Is 21 years of age or older, unless the patient is a close relative of the caregiver;
- Agrees in writing to be the qualifying patient's caregiver;

[59] A first degree misdemeanor.
[60] A second degree misdemeanor on the first offense and a first degree misdemeanor on subsequent offenses.

- Does not receive compensation, other than actual expenses incurred, for assisting the qualifying patient with the medical use of marijuana unless the caregiver is acting pursuant to employment in a licensed facility in accordance with subparagraph (c)2.; and
- Passes a Level 2 background screening pursuant to ch. 435, F.S., unless the patient is a close relative of the caregiver.

A qualifying patient may have only one designated caregiver at a time unless all of the patient's caregivers are his or her close relatives or legal representatives. A caregiver may assist only one patient at a time unless:

- All qualifying patients the caregiver is assisting are close relatives of each other and the caregiver is the legal representative of at least one of the patients; or
- All qualifying patients the caregiver is assisting are receiving hospice services, or are residents, in the same assisted living facility, nursing home, or other licensed facility and have requested the assistance of that caregiver with the medical use of marijuana; the caregiver is an employee of the hospice or licensed facility; and the caregiver provides personal care or services directly to clients of the hospice or licensed facility as a part of his or her employment duties at the hospice or licensed facility.
- A nursing home or assisted living facility may not prevent a qualifying patient residing in the nursing home or assisted living facility from hiring a caregiver, but a nursing home or assisted living facility may prohibit its employees from acting as caregivers to residents of the nursing home or assisted living facility. A nursing home or assisted living facility is not required to provide a caregiver to a resident who is a qualifying patient.

Duties of the DOH

Compassionate Use Registry

The bill requires the DOH to expand access to the compassionate use registry to:

- Practitioners licensed under ch. 458 or 459, F.S., to ensure proper care for patients requesting physician certifications; and
- Practitioners licensed to prescribe prescription drugs, to ensure proper care for patients before prescribing medications that may interact with the medical use of marijuana;

The bill specifies that law enforcement agencies may check the registry to verify the authorization of a qualifying patient or a patient's caregiver to possess marijuana or a cannabis delivery device.

Compassionate Use Registry Identification Cards

By July 3, 2017, the bill requires the DOH to adopt rules establishing procedures for the issuance, annual renewal, suspension, and revocation of compassionate use registry identification cards for patients and caregivers who are residents of this state. The bill allows the DOH to charge a reasonable fee for issuing and renewal of identification cards. The bill requires that the DOH begin issuing identification cards to patients and caregivers by October 3, 2017. Minor patients must provide the DOH with written consent from a parent or a legal guardian before being issued an identification card. Identification cards may be issued to out-of-state patients after the DOH confirms they are able to receive marijuana legally in their state of residency through a medical marijuana program.

The bill specifies that the identification cards must be resistant to counterfeiting and tampering and at a minimum contain:

- The name, address, and date of birth of the patient or caregiver, as appropriate;
- A full-face, passport-type, color photograph of the patient or caregiver, as appropriate, taken within the 90 days immediately preceding registration;
- Designation of the cardholder as a patient or caregiver;
- A unique numeric identifier for the patient or caregiver which is matched to the identifier used for such person in the department's compassionate use registry. A caregiver's identification number and file in the compassionate use registry must be linked to the file of the patient or patients the caregiver is assisting so that the caregiver's status may be verified for each patient individually;
- The expiration date, which shall be one year after issuance or the date treatment ends as provided in the patient's physician certification, whichever occurs first; and
- For caregivers who are assisting three or fewer qualifying patients, the names and unique numeric identifiers of the qualifying patient or patients that the caregiver is assisting.

Dispensing Organization Grandfathering

The bill requires the DOH to grandfather in all existing DOs as MMTCs as soon as practicable.[61] The DOH may not charge the DOs a registration fee and the bill states that, for the purposes of the act, all DOs are deemed to be MMTCs on the effective date of the act. The bill requires that the DOs continue to comply with all representations made in their applications to be dispensing organizations after being registered as MMTCs and allows the DOH to grant variances to those representations.

Additional MMTCs

The bill requires that, by October 3, 2017, the DOH register five additional MMTCs with at least one applicant that is a recognized class member of Pigford v. Glickman, 185 F.R.D. 82 (D.D.C. 1999) or In re Black Farmers Litig., 856 F. Supp. 2d 1 (D.D.C. 2011) and a member of the Black Farmers and Agriculturalists Association. Additionally, within six months of each instance of the registration of 75,000 patients in the compassionate use registry, the DOH must register four additional MMTCs. The bill retains the requirement that MMTCs be vertically integrated, but eliminates the requirements that MMTCs possess a valid certificate of registration issued by the DACS pursuant to s. 581.131, F.S., that is issued for the cultivation of more than 400,000 plants, be operated by a nurseryman as defined in s. 581.011, F.S., and have been operated as a registered nursery in this state for at least 30 continuous years. The bill requires that all applicants must be registered to do business in Florida for at least five continuous years prior to applying. The bill also restricts the DOH from issuing more than one MMTC registration to a person or entity.

Independent Testing Laboratories

The bill authorizes the establishment of independent testing laboratories (ITLs) to collect and accept samples of, possess, store, transport, and test marijuana. All MMTCs are required to have

[61] Including DOs that become MMTCs pursuant to the results of litigation (see present situation for details).

their marijuana tested at an ITL to ensure that it meets DOH standards before it is dispensed. All ITLs must be licensed by the DOH except clinical laboratories licensed by the Agency for Health Care Administration (AHCA) which are exempt from this requirement. The DOH is required to adopt rules for ITL licensure requirements and a process for licensing ITLs including an application form, an initial application fee, and a biennial renewal fee.

In addition to licensure, the bill also requires that ITLs be certified by the DOH to perform all required tests. The DOH must issue a certification to an ITL that has been certified by a third-party laboratory certification body approved by the DOH. The DOH must adopt rules for certifying ITLs including rules for personnel qualifications, equipment and methodology, proficiency testing, tracking, sampling, chain of custody, record and sample retention, reporting, audit and inspection, and security.

The bill specifies that an ITL may accept samples only from a sample source approved by the DOH which, at a minimum, must include an MMTC, a researcher affiliated with an accredited university or research hospital, a qualifying patient, or a caregiver.

Quality Control Program

The bill requires the DOH to establish a marijuana quality control program that must require MMTCs to submit samples from each batch or lot of marijuana harvested or manufactured to an ITL to ensure that, at a minimum, labeling of the potency of THC and other marketed cannabinoids or terpenes is accurate and that it is safe for human consumption. The MMTC is required to maintain records of all tests conducted including the results and any other information required by the DOH. The DOH is required to adopt rules to create and oversee the program which must, at a minimum, include:

- Permissible levels of variation in potency labeling and standards requiring THC be consistently distributed throughout edible marijuana products;
- Permissible levels of contaminants and mandatory testing for contaminants including, but not limited to, testing for microbiological impurity, residual solvents, and pesticide residues;
- The destruction of marijuana determined to be inaccurately labeled or unsafe for human consumption after the MMTC has an opportunity to take remedial action;
- The collection, storage, handling, recording, and destruction of samples of marijuana by ITLs; and
- Security, inventory tracking, and record retention.

The bill also requires the DOH to reduce or suspend any testing requirement in its quality control program if the number of licensed and certified ITLs is insufficient to process the tests necessary to meet patient demand.

Seed-to-Sale Tracking System

The bill requires the DOH to establish, maintain, and control a computer software tracking system that traces marijuana from seed to sale. The tracking system must allow real-time, 24-hour access by the DOH to data from all MMTCs and ITLs and must, at a minimum, include notification of when marijuana seeds are planted, when marijuana plants are harvested and destroyed, and when marijuana is transported, sold, stolen, diverted, or lost. Each MMTC must use the seed-to-sale tracking system selected by the DOH.

MMTC Requirements

The requirements for MMTCs are substantially similar to the requirements for DOs in current law. The bill amends requirements for MMTCs so that:

- MMTCs are required to maintain compliance with all the representations made to the DOH in the MMTC's application for registration.
  - Upon request, the DOH may grant an MMTC one or more variances from the representations made in the MMTC's application.
  - Consideration of such a variance shall be based upon the individual facts and circumstances surrounding the request.
  - A variance may not be granted unless the requesting MMTC can demonstrate to the department that it has a proposed alternative to the specific representation made in its application which fulfills the same or a similar purpose as the specific representation in a way that the DOH can reasonably determine will not be a lower standard than the specific representation in the application.
- MMTCs are required to label all marijuana with the concentration of THC and CBD in the product and with the recommended dose for the qualifying patient receiving it.
- MMTCs are allowed to produce edible products, but may not produce such items that are designed to be attractive to children. Additionally, MMTCs must meet all food safety standards established in state and federal law, including, but not limited to, the identification of the serving size and the amount of THC in each serving.
- MMTCs may not dispense marijuana from more than three dispensing facilities. This limitation does not apply to retail facilities that dispense only low-THC cannabis and sell marijuana delivery devices to qualified patients.
- When transporting marijuana, a copy of the transportation manifest must be in the vehicle at all times.

The bill also requires the DOH to adopt by rule a process for approving MMTC changes in ownership and changes in an MMTC owner's investment interest.

Rulemaking

The bill requires the DOH to adopt emergency rules pursuant to s. 120.54(4), F.S., as necessary to implement the section. The bill states that if an emergency rule adopted under this section is voided due to being held unconstitutional or an invalid exercise of delegated legislative authority, the DOH and any applicable boards may adopt an emergency rule to replace the voided rule. However, if the second emergency rule is voided, the DOH and the applicable boards must adopt rules based on standard procedures.

The bill exempts emergency rules from the requirement to make findings pursuant to s. 120.54(4)(a), F.S.;[62] from ss. 120.54(3)(b),[63] 120.541,[64] and 120.54(4)(c), F.S.[65] The DOH and applicable boards must meet the procedural requirements in s. 120.54(2)(a), F.S.,[66] if the DOH or the applicable boards have, before the effective date of the act, held any public workshops or hearings on the subject matter of the emergency rules. Additionally, challenges to emergency rules adopted under this section are subject to the time schedules provided in s. 120.56(5), F.S.[67] Emergency rules adopted under this section remain in effect until they are replaced by rules adopted through normal procedures. The DOH must begin nonemergency rulemaking by January 1, 2018, and may not use emergency rulemaking procedures after that date, unless replacing emergency rules deemed invalid.

Miscellaneous Provisions

The bill:

- Specifies that nothing in the act limits the ability of an employer to establish, continue, or enforce a drug-free workplace program or policy and that an employer is not required to accommodate the use of marijuana in the workplace or any employee working while under the influence of the marijuana.
- Specifies that nothing in the section creates a cause of action against an employer for wrongful discharge or discrimination.
- Creates an additional exemption from criminal penalties related to marijuana for research institutions established by a public postsecondary educational institution, such as the H. Lee Moffitt Cancer Center and Research Institute, and for state universities that have achieved preeminent state research university designation.[68]

The Medical Marijuana Research and Education Act

The bill creates s. 1004.4351, F.S., to create the Medical Marijuana Research and Education Act. The act:

- Establishes the Coalition for Medicinal Cannabis Research and Education (Coalition) within the H. Lee Moffitt Cancer Center and Research Institute, Inc. (MCCRI) and provides that the Coalition's purpose is to conduct rigorous scientific research, provide education, disseminate research, and to guide policy development for the adoption of a statewide policy on ordering and dosing practices for the medicinal use of cannabis.
- Creates the Medicinal Cannabis Research and Education Board (Board) to direct the Coalition's operations. Additionally, the bill specifies Board membership requirements and requires the Board to:

[62] Section 120.54(a)3., F.S., requires the agency publishing emergency rules to also publish in writing at the time of, or prior to, its action the specific facts and reasons for finding an immediate danger to the public health, safety, or welfare and its reasons for concluding that the procedure used is fair under the circumstances.
[63] The requirement to prepare a statement of estimated regulatory cost (SERC) and to consider the impact of rules on small business, small counties, and small cities.
[64] Detailing the requirements of a SERC.
[65] Restricting an emergency rule from being effective for more than 90 days with some exceptions.
[66] Requiring notice of rule development be published prior to filing for rule adoption.
[67] The DOAH has seven days to assign an administrative law judge who must conduct the hearing within 14 total days (including the days used in assigning the judge). The judge then has 14 days after the hearing to render a decision.
[68] Pursuant to s. 1001.7065, F.S.

  - Advise the Board of Governors, the State Surgeon General, the Governor, and the Legislature with respect to medicinal cannabis research and education in Florida.
  - Explore methods of implementing and enforcing medicinal cannabis laws in relation to cancer control, research, treatment, and education.
  - Annually adopt a plan for medicinal cannabis research, known as the Medicinal Cannabis Research and Education Plan (Plan) in accordance with state law, and must include recommendations for the coordination and integration of medical, nursing, paramedical, community, and other resources connected with the treatment of debilitating medical conditions, research related to the treatment of such conditions, and education.
  - Issue an annual report, by February 15, to the Governor, the President of the Senate, and the Speaker of the House Representatives on research projects, community outreach initiatives, and future plans for the Coalition.
- Provides that the Coalition must be administered by a director who, subject to Board approval, must:
  - Propose a budget.
  - Foster the collaboration of scientists, researchers, and other appropriate personnel.
  - Identify and prioritize the Coalition's research.
  - Prepare the Plan for submission to the Board.
  - Apply for grants to obtain funding for the Coalition's research.
  - Perform other Board specified duties.
- Requires the MCCRI to allocate staff, information, and assistance to assist the Board.

The bill is effective upon becoming law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Article X, section 29 of the State Constitution is a unique provision in that it directs a state agency, the DOH, to implement its provisions without requiring implementing legislation. However, Article X, section 29(4)(e) of the State Constitution, does provide that nothing in that section shall limit the Legislature from enacting laws consistent with the section. Given the novelty of the constitutional provision, it is unclear how the courts will interpret its provisions as well as the interaction between its provisions and implementing legislation and rules.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that the bill has a positive but indeterminate fiscal impact on state revenues.

B. Private Sector Impact:

The bill will create opportunities for new MMTCs that are called for under its provisions, and for independent testing laboratories. Existing DOs may face a more competitive marketplace due to the increase in the number of allowed suppliers of marijuana, but the number of patients using their services is also expected to grow.

Patients and caregivers will be required to pay for identification cards, and caregivers and employees of MMTCs must pay for background screening.

C. Government Sector Impact:

The bill has an indeterminate fiscal impact on the DOH due to the cost of increased regulatory activity required by the bill, which should be offset by fees and fines the DOH is allowed to assess. The DOH estimates that fees and fines may generate between $6.1 million and $8.6 million while total expenditures may be between $6 million and $8.9 million.[69]

The FDLE estimates that revenues derived from the bill for the FDLE may range from $9 million to $18 million generated by fees for criminal history records checks.[70] The FDLE analysis indicates that implementation of the bill will require 16 FTEs to perform criminal history background checks, two additional toxicology analysts, and two additional fingerprint analysts. Cost estimates provided by the FDLE for the additional staff are $1,278,157 in Fiscal Year 2017-2018, and $1,197,237 on a recurring basis; however, fees for criminal history records checks should offset these costs.[71]

The bill may have an indeterminate fiscal impact on local governments. Local governments may see a positive fiscal impact from fees associated with licensing and inspecting additional MMTC facilities as permitted by current law and may derive additional tax revenue from the sale of marijuana. Local governments may see a negative fiscal impact due to the expenses associated with implementing ordinances and undertaking regulatory activities required by such ordinances.

---

[69] The DOH states that expenditures are highly dependent on the number of qualifying patients. See DOH, *Senate Bill 406 Analysis* (Feb. 14, 2017) (on file with the Senate Committee on Health Policy).
[70] The fee depends on whether or not caregivers are intended to be entered into the clearinghouse. See FDLE, *Senate Bill 406 Analysis* (Feb. 15, 2017) (on file with the Senate Committee on Health Policy).
[71] FDLE, *Senate Bill 406 Analysis* (Feb 15, 2017) (on file with the Senate Appropriations Subcommittee on Finance and Tax).

VI. Technical Deficiencies:

None.

VII. Related Issues:

Although the bill allows MMTCs to use contractors in general, it is unclear from the text of the bill what limits are placed on how an MMTC may use a contractor. The bill should be clarified to specify the duties a contractor may perform for an MMTC.

The FDLE notes that entering results obtained from a state or criminal history record check into a registry, as the bill appears to require DOH to do with information it receives from physicians, patients and caregivers, is prohibited by Public Law 92-544. Similarly, the provision in the bill that the application form for registration as an MMTC must demonstrate that all owners and managers have been fingerprinted and have successfully passed a level 2 background screening is also prohibited by Public Law 92-544.[72]

The bill provides circumstances under which a physician may lawfully issue a physician certification to a patient who is not a resident of this state or under which DOH may issue a compassionate use registry identification card to a patient who is not a resident of this state, but never explicitly states that a patient must otherwise be a resident of this state.[73]

The bill allows a physician to certify an amount greater than a 90-day supply of marijuana if he or she has reasonable belief that the patient will use the additional marijuana in a medically appropriate way; however, the bill does not apply the exception to the 90-day supply limit of marijuana to the exemptions from criminal penalties contained in chapter 893, F.S. The bill should be clarified to apply the exception to the 90-day supply limit of marijuana consistently throughout the bill.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 381.986, 381.987, 385.211, 499.0295, and 1004.441.

The bill creates section 1004.4351 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Health and Human Services on April 18, 2017:
The committee substitute:

[72] FDLE, *Senate Bill 406 Analysis* (Feb 15, 2017) (on file with the Senate Appropriations Subcommittee on Finance and Tax).
[73] Amendment 2 provides that a "qualifying patient" means a person (not a Florida resident) who meets certain criteria.

- Requires a physician who issues a physician certification for marijuana to successfully complete the 4-hour course each time he or she renews his or her license.
- Provides that a nursing home or assisted living facility may not prevent a qualifying patient residing in the nursing home or assisted living facility from hiring a caregiver, but a nursing home or assisted living facility may prohibit its employees from acting as caregivers to residents of the nursing home or assisted living facility, and a nursing home or assisted living facility is not required to provide a caregiver to a resident who is a qualifying patient.
- Limits MMTCs to three dispensing facilities. This limitation does not apply to facilities that only dispense low-THC cannabis and sell marijuana delivery devices to qualified patients.

CS by Health Policy on April 3, 2017:
The CS amends SB 406 to:

- Add legislative intent.
- Reinstate the requirement that a second physician confirm a diagnosis when certifying a person under the age of 18 and require a parent, legal guardian, caregiver, or health care provider to purchase marijuana for qualifying patients under the age of 18.
- Allow a physician to certify out of state patients that meet Florida requirements for treatment with marijuana.
- Allow a physician to certify a patient for greater than a 90-day supply if the physician believes the patient will use the marijuana appropriately.
- Specify that MMTCs may not advertise services that they are not registered to provide.
- Prohibit any person or entity from offering or advertising services as an MMTC without being registered as an MMTC and provide penalties for unlicensed activity.
- Require the DOH to register five additional MMTCs by October 3, 2017, including one that is a member of the Black Farmers and Agriculturalists Association.
- Require the Department of Health to add four new MMTCs within six months after the registration of each instance of 75,000 patients in the Compassionate Use Registry.
- Require that all MMTC applicants be registered to do business in Florida for at least five consecutive years prior to submitting their application.
- Prohibit any person or entity from being issued more than one MMTC registration.
- Require the DOH to license ITLs (clinical laboratories licensed by the AHCA are exempt from this requirement). ITLs must also be certified by the DOH to perform all required tests. The DOH must certify an ITL that has third-party accreditation from an accrediting body approved by the DOH. The DOH must adopt rules for licensure and certification of ITLs.
- Require the DOH to establish a quality control program for the testing of marijuana. The program must require MMTCs to submit samples of marijuana to an ITL to ensure minimum standards are met. The DOH must adopt rules to create and oversee the program.
- Require the DOH to establish, maintain, and control a seed-to-sale tracking system.

- Authorize an employer to deny accommodation for the ingestion of marijuana in the workplace or for any employee working while under the influence of marijuana.
- Specify that the section does not create a cause of action for wrongful discharge or discrimination.
- Incorporate an exemption from criminal laws for research institutions performing research on marijuana.
- Require the DOH to abide by the provisions of ch. 120, F.S., when adopting rules to implement this section and allows the department to use emergency rulemaking procedures.
- Establish the "Medical Marijuana Research and Education Act" to:
  - Create the Coalition for Medical Marijuana Research and Education within the H. Lee Moffitt Cancer Center and Research Institute, Inc.;
  - Task the coalition with conducting rigorous scientific research, providing education, disseminating research, and guiding policy for the adoption of a statewide policy on ordering and dosing practices for medical marijuana;
  - Specify the make-up of the coalition including the duties of the director of the coalition;
  - Require the coalition to annually adopt a research plan; and
  - Require the coalition to annually report to the Governor and the Legislature on research projects, community outreach, and future plans.

The Committee on Appropriations (Bradley) recommended the following:

Senate Amendment (with title amendment)

Delete lines 585 - 610
and insert:
1. Before issuing an identification card to a patient, the department must determine that:
a. The patient is a permanent resident of the state or, for a patient under the age of 18, the patient's parent or legal guardian is a permanent resident of the state. The patient, or the parent or legal guardian of the patient, must prove

974884

permanent residency by providing the department with a copy of a valid Florida driver license or Florida identification card, a copy of a utility bill in his or her name issued within the prior 90 days which shows an address in this state, or a copy of his or her Florida voter information card.

b. If the patient is not a permanent resident of the state:

(I) He or she is eligible to receive marijuana in his or her state of permanent residence; and

(II) He or she will be remaining in this state for at least 3 consecutive months.

(A) An adult patient may provide the department with documentation that may include, but is not limited to, a rental agreement for a property in this state for period of at least 3 months, an employment contract based in this state which indicates the employment is for a period of at least 3 months, or a receipt for paid tuition at a school in this state for a period of at least 3 months.

(B) A parent or legal guardian of a patient who is under the age of 18 must provide documentation as described in sub-sub-sub-subparagraph (A) or in department rule and provide additional documentation that the patient is his or her child or ward.

The department shall adopt in rule a list of documents that a patient may provide to qualify for an identification card under this subparagraph.

2. Patient and caregiver identification cards must be resistant to counterfeiting and tampering and must include at least the following:

974884

a. The name, address, and date of birth of the patient or caregiver, as appropriate;

b. A full-face, passport-type, color photograph of the patient or caregiver, as appropriate, taken within the 90 days immediately preceding registration;

c. Designation of the cardholder as a patient or caregiver;

d. A unique identification number for the patient or caregiver which is matched to the identification number used for such person in the department's compassionate use registry. A caregiver's identification number and file in the compassionate use registry must be linked to the file of the patient or patients the caregiver is assisting so that the caregiver's status may be verified for each patient individually;

e. The expiration date, which shall be 1 year after the date of issuance of the identification card or the date treatment ends, as provided in the patient's physician certification, whichever occurs first; and

f. For caregivers who are assisting three or fewer

Senate Amendment

Delete lines 661 - 714
and insert:
(g) Identify applicants with strong diversity plans reflecting this state's commitment to diversity.
(h) Implement training programs and other educational programs to enable minority persons and minority business enterprises, as defined in s. 288.703, and veteran business enterprises, as defined in s. 295.187, to compete for MMTC

registration and contracts.

(i) ~~The department shall~~ Develop an application form for registration as an MMTC and impose an initial application and biennial renewal fee that is sufficient to cover the costs of administering this section. To be registered as an MMTC, the ~~an~~ applicant ~~for approval as a dispensing organization~~ must be able to demonstrate:

1. That, for the 5 consecutive years before submitting the application, the applicant has been registered to do business in this state.

2.~~1.~~ The technical and technological ability to cultivate and produce low-THC cannabis and marijuana. ~~The applicant must possess a valid certificate of registration issued by the Department of Agriculture and Consumer Services pursuant to s. 581.131 that is issued for the cultivation of more than 400,000 plants, be operated by a nurseryman as defined in s. 581.011, and have been operated as a registered nursery in this state for at least 30 continuous years.~~

3.~~2.~~ The ability to secure the premises, resources, and personnel necessary to operate as an MMTC ~~a dispensing organization~~.

4.~~3.~~ The ability to maintain accountability of all raw materials, finished products, and any byproducts to prevent diversion or unlawful access to or possession of these substances.

5.~~4.~~ An infrastructure reasonably located to dispense low-THC cannabis and marijuana to registered qualifying patients statewide ~~or regionally as determined by the department~~.

6.~~5.~~ The financial ability to maintain operations for the

duration of the 2-year approval cycle, including the provision of certified financials to the department. Upon approval, the applicant must post a $5 million performance bond. However, upon an MMTC ~~a dispensing organization's~~ serving at least 1,000 qualifying ~~qualified~~ patients, the MMTC ~~dispensing organization~~ is only required to maintain a $2 million performance bond.

7.~~6.~~ That all owners and managers have been fingerprinted and have successfully passed a level 2 background screening pursuant to s. 435.04.

8. The ability to implement a diversity plan that promotes and ensures the involvement of minority persons and minority business enterprises, as defined in s. 288.703, or veteran business enterprises, as defined in s. 295.187, in ownership, management, employment, and contracting opportunities.

a. A diversity plan must be submitted with an MMTC application.

b. Upon registration renewal the MMTC must show the effectiveness of the diversity plan by including the following:

(I) Representation of minority persons and veterans in the MMTC's workforce;

(II) Efforts to recruit minority persons and veterans for employment; and

(III) A record of contracts for services with minority business enterprises and veteran business enterprises.

9.~~7.~~ The employment of a medical director to supervise the activities of the MMTC ~~dispensing organization~~.

~~(c) Upon the registration of 250,000 active qualified patients in the compassionate use registry, approve three dispensing organizations, including, but not limited to, an~~

~~applicant that is a recognized class member of *Pigford v. Glickman*, 185 F.R.D. 82 (D.D.C. 1999), or *In Re Black Farmers Litig.*, 856 F. Supp. 2d 1 (D.D.C. 2011), and a member of the Black Farmers and Agriculturalists Association, which must meet the requirements of subparagraphs (b)2.-7. and demonstrate the technical and technological ability to cultivate and produce low-THC cannabis.~~

(j)~~(d)~~ Allow an MMTC ~~a dispensing organization~~ to make a wholesale purchase of marijuana ~~low-THC cannabis or medical cannabis~~ from, or a distribution of marijuana ~~low-THC cannabis or medical cannabis~~ to, another MMTC ~~dispensing organization~~.

(k)~~(e)~~ Monitor physician registration in the compassionate

center; providing penalties; authorizing a distance learning format for a specified course and reducing the number of hours required for the course; providing that physicians who meet specified requirements are grandfathered for the purpose of specified education requirements; authorizing qualifying patients to designate caregivers; requiring caregivers to meet specified requirements; prohibiting a qualifying patient from designating more than one caregiver at any given time; providing exceptions; requiring the Department of Health to register caregivers meeting certain requirements on the compassionate use registry; prohibiting a nursing home or assisted living facility from preventing certain residents from hiring a caregiver; authorizing a nursing home or assisted living facility to prohibit its employees from acting as caregivers to residents; providing that a nursing home or assisted living facility is not required to provide a caregiver to certain residents; revising the entities to which the compassionate use registry must be accessible; requiring the department to adopt certain rules by a specified date; authorizing the department to charge a fee for identification cards; requiring the department to begin issuing identification cards to qualified registrants by a specific date; providing requirements for the identification cards; requiring the department to register certain dispensing organizations as medical marijuana treatment centers by a certain date;

requiring the department to register additional medical marijuana treatment centers in accordance with a specified schedule; deleting obsolete provisions; revising the operational requirements for medical marijuana treatment centers; authorizing the department to waive certain requirements under specified circumstances; requiring that certain receptacles be childproof; requiring that additional information be included on certain labels; requiring that a medical marijuana treatment center comply with certain standards in the production and dispensing of edible or food products; requiring a medical marijuana treatment center to enter additional information into the compassionate use registry; restricting the number of dispensing facilities that may dispense marijuana; providing an exception; requiring a medical marijuana treatment center to keep a copy of a transportation manifest in certain vehicles at certain times; requiring the department to establish a quality control program that requires medical marijuana treatment centers to submit samples from each batch or lot of marijuana to an independent testing laboratory; requiring a medical marijuana treatment center to maintain records of all tests conducted; requiring the department to adopt rules to create and oversee the quality control program; providing that the department must license independent testing laboratories; authorizing an independent testing laboratory to collect and accept samples of, possess, store,

transport, and test marijuana; prohibiting a person with an ownership interest in a medical marijuana treatment center from owning an independent testing laboratory; requiring the department to develop rules and a process for licensing requirements; authorizing the department to impose application and renewal fees; specifying that an independent testing laboratory must be certified to perform required tests; requiring the department to suspend or reduce any mandatory testing if the number of licensed and certified independent testing laboratories is insufficient to process the tests necessary to meet the patient demand for medical marijuana treatment centers; providing that an independent testing laboratory may only accept certain samples; requiring the department to adopt rules related to ownership changes or changes in an owner's investment interest; requiring the department to establish, maintain, and control a seed-to-sale tracking system for marijuana; providing applicability; conforming provisions to changes made by the act; providing that certain research institutions may possess, test, transport, and dispose of marijuana subject to certain conditions and as provided by department rule; providing for the use of emergency rulemaking procedures by the department; creating s. 1004.4351, F.S.; providing a short title; providing legislative findings; defining terms; establishing the Coalition for Medical Marijuana Research and Education within the H. Lee Moffitt

Cancer Center and Research Institute, Inc.; providing a purpose for the coalition; establishing the Medical Marijuana Research and Education Board to direct the operations of the coalition; providing for the appointment of board members; providing for terms of office, reimbursement for certain expenses, and the conduct of meetings of the board; authorizing the board to appoint a coalition director; prescribing the duties of the coalition director; requiring the board to advise specified entities and officials regarding medical marijuana research and education in this state; requiring the board to annually adopt a Medical Marijuana Research and Education Plan; providing requirements for the plan; requiring the board to issue an annual report to the Governor and the Legislature by a specified date; specifying responsibilities of the H. Lee Moffitt Cancer Center and Research Institute, Inc.; amending ss. 381.987, 385.211, 499.0295, and 1004.441, F.S.; conforming provisions to changes made by the act; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 381.986, Florida Statutes, is amended to read:

381.986 Compassionate use of low-THC ~~and medical~~ cannabis and marijuana.—

(1) LEGISLATIVE INTENT.—

(a) It is the intent of the Legislature to implement s. 29, Art. X of the State Constitution by creating a unified regulatory structure within the framework of this section for the acquisition, cultivation, possession, processing, transfer, transportation, sale, distribution, and dispensing of marijuana, products containing marijuana, related supplies, and educational materials to qualifying patients or their caregivers.

(b) The Legislature intends that all rules adopted by the Department of Health to implement this section be adopted pursuant to s. 120.536(1) or s. 120.54. The Legislature intends that the department use emergency rulemaking procedures pursuant to s. 120.54(4) to adopt rules under this section if necessary to meet any deadline for rulemaking established in s. 29, Art. X of the State Constitution.

(c) Further, the Legislature intends that all registrations for the purposes specified in paragraph (a) be issued solely in accordance with the requirements of this section and all rules adopted under this section.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Cannabis delivery device" means an object used, intended for use, or designed for use in preparing, storing, ingesting, inhaling, or otherwise introducing marijuana ~~low-THC cannabis or medical cannabis~~ into the human body.

(b) "Caregiver" has the same meaning as provided in s. 29, Art. X of the State Constitution.

(c) "Chronic nonmalignant pain" means pain that is caused by a debilitating medical condition or that originates from a debilitating medical condition and persists beyond the usual

course of that debilitating medical condition.

(d) "Close relative" means a spouse, parent, sibling, grandparent, child, or grandchild, whether related by whole or half blood, by marriage, or by adoption.

(e) ~~(b)~~ "Debilitating medical condition" has the same meaning as provided in s. 29, Art. X of the State Constitution ~~"Dispensing organization" means an organization approved by the department to cultivate, process, transport, and dispense low-THC cannabis or medical cannabis pursuant to this section~~.

(f) ~~(c)~~ "Independent testing laboratory" means a laboratory, including the managers, employees, or contractors of the laboratory, which has no direct or indirect interest in a medical marijuana treatment center ~~a dispensing organization~~.

(g) ~~(d)~~ "Legal representative" means the qualifying ~~qualified~~ patient's parent, legal guardian acting pursuant to a court's authorization as required under s. 744.3215(4), health care surrogate acting pursuant to the qualifying ~~qualified~~ patient's written consent or a court's authorization as required under s. 765.113, or an individual who is authorized under a power of attorney to make health care decisions on behalf of the qualifying ~~qualified~~ patient.

(h) ~~(e)~~ "Low-THC cannabis" means a plant of the genus *Cannabis*, the dried flowers of which contain 0.8 percent or less of tetrahydrocannabinol and more than 10 percent of cannabidiol weight for weight; the seeds thereof; the resin extracted from any part of such plant; or any compound, manufacture, salt, derivative, mixture, or preparation of such plant or its seeds or resin that is dispensed only by a medical marijuana treatment center ~~from a dispensing organization~~.

(i) ~~(f)~~ "Marijuana" has the same meaning as provided in s. 29, Art. X of the State Constitution ~~"Medical cannabis" means all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin that is dispensed only from a dispensing organization for medical use by an eligible patient as defined in s. 499.0295~~.

(j) "Medical marijuana treatment center" or "MMTC" has the same meaning as provided in s. 29, Art. X of the State Constitution.

(k) ~~(g)~~ "Medical use" has the same meaning as provided in s. 29, Art. X of the State Constitution ~~means administration of the ordered amount of low-THC cannabis or medical cannabis~~. The term does not include the:

1. Possession, use, or administration of marijuana ~~low-THC cannabis or medical cannabis~~ by smoking.

2. Possession, use, or administration of marijuana that was not purchased or acquired from an MMTC registered with the Department of Health.

3. ~~2.~~ Transfer of marijuana ~~low-THC cannabis or medical cannabis~~ to a person other than the qualifying ~~qualified~~ patient ~~for whom it was ordered~~ or the qualifying ~~qualified~~ patient's caregiver ~~legal representative~~ on behalf of the qualifying ~~qualified~~ patient.

4. Use or administration of any type or amount of marijuana not specified on the qualifying patient's physician certification.

5. ~~3.~~ Use or administration of marijuana ~~low-THC cannabis or~~

~~medical cannabis~~:

a. On any form of public transportation.

b. In any public place.

c. In a qualifying ~~qualified~~ patient's place of employment, if restricted by his or her employer.

d. In a state correctional institution as defined in s. 944.02 or a correctional institution as defined in s. 944.241.

e. On the grounds of a preschool, primary school, or secondary school.

f. On a school bus or in a vehicle, aircraft, or motorboat.

(l) ~~(h)~~ "Qualifying ~~Qualified~~ patient" has the same meaning as provided in s. 29, Art. X of the State Constitution but also includes eligible patients, as that term is defined in s. 499.0295, and patients who are issued a physician certification under subparagraph (3)(a)2. or subparagraph (3)(a)3. A patient is not a qualifying patient unless he or she is registered with the department and has been issued a compassionate use registry identification card ~~means a resident of this state who has been added to the compassionate use registry by a physician licensed under chapter 458 or chapter 459 to receive low-THC cannabis or medical cannabis from a dispensing organization~~.

(m) ~~(i)~~ "Smoking" means burning or igniting a substance and inhaling the smoke. Smoking does not include the use of a vaporizer.

(3) ~~(2)~~ PHYSICIAN CERTIFICATION ~~ORDERING~~.—

(a) A physician is authorized to issue a physician certification to:

1. A patient suffering from a debilitating medical condition, which allows the patient to receive marijuana for the

patient's medical use;

2. A ~~order low-THC cannabis to treat a qualified~~ patient suffering from ~~cancer or~~ a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms, which allows the patient to receive low-THC cannabis for the patient's medical use;

3. A patient suffering from chronic nonmalignant pain, if the physician has diagnosed an underlying debilitating medical condition as the cause of the pain, which allows the patient to receive marijuana for the patient's medical use ~~order low-THC cannabis~~ to alleviate the patient's pain ~~symptoms of such disease, disorder, or condition, if no other satisfactory alternative treatment options exist for the qualified patient~~;

4. ~~order medical cannabis to treat~~ An eligible patient as defined in s. 499.0295, which allows the patient to receive marijuana for the patient's medical use; or

5. A patient who is not a resident of this state; who qualifies under subparagraph 1., subparagraph 2., subparagraph 3., or subparagraph 4.; and who can lawfully obtain marijuana through a medical marijuana program in the state that he or she resides in.

(b) In the physician certification, the physician may also specify one or more ~~or order a~~ cannabis delivery devices to assist with ~~device for~~ the patient's medical use of marijuana. ~~low-THC cannabis or medical cannabis,~~

(c) A physician may certify a patient and specify a delivery device under paragraphs (a) and (b) only if the physician:

1. ~~(a)~~ Holds an active, unrestricted license as a physician

under chapter 458 or an osteopathic physician under chapter 459;

~~(b) Has treated the patient for at least 3 months immediately preceding the patient's registration in the compassionate use registry;~~

2.~~(c)~~ Has successfully completed the course and examination required under paragraph (5)(a) ~~(4)(a)~~;

3. Has conducted a physical examination and made a full assessment of the medical history of the patient;

4. Has determined that, in the physician's professional opinion, the patient meets one or more of the criteria specified in paragraph (a);

5.~~(d)~~ Has determined that the medical use of marijuana would likely outweigh the potential health risks to ~~of treating the patient with low-THC cannabis or medical cannabis are reasonable in light of the potential benefit to~~ the patient. If a patient is younger than 18 years of age:~~,~~

a. A second physician must concur with this determination, and such determination must be documented in the patient's medical record;

b. Only a parent, legal guardian, caregiver, or health care provider may assist the qualifying patient in the purchasing and administering of marijuana for medical use; and

c. The qualifying patient may not purchase marijuana;

6.~~(c)~~ Registers as the patient's physician ~~orderer of low-THC cannabis or medical cannabis for the named patient~~ on the compassionate use registry maintained by the department and updates the registry to reflect ~~the contents of the order, including~~ the amount of marijuana ~~low-THC cannabis or medical cannabis~~ that will provide the patient with not more than a 90-

day ~~45-day~~ supply and a cannabis delivery device needed by the patient for the medical use of marijuana ~~low-THC cannabis or medical cannabis~~. A physician may certify an amount greater than a 90-day supply of marijuana if the physician has a reasonable belief that the patient will use the additional marijuana in a medically appropriate way. If the physician's recommended amount of marijuana for a 90-day supply changes, the physician must ~~also~~ update the registry within 7 days after the ~~any~~ change is made ~~to the original order to reflect the change~~. The physician shall deactivate the registration of the patient ~~and the patient's legal representative~~ when the physician no longer recommends the medical use of marijuana for the patient ~~treatment is discontinued~~;

7.~~(f)~~ Maintains a patient treatment plan that includes the dose, route of administration, planned duration, and monitoring of the patient's symptoms and other indicators of tolerance or reaction to the marijuana ~~low-THC cannabis or medical cannabis~~;

8.~~(g)~~ Submits the patient treatment plan quarterly to the University of Florida College of Pharmacy for research on the safety and efficacy of marijuana ~~low-THC cannabis and medical cannabis~~ on patients; and

9.~~(h)~~ Obtains the voluntary written informed consent of the patient or the patient's legal representative to treatment with marijuana ~~low-THC cannabis~~ after sufficiently explaining the current state of knowledge in the medical community of the effectiveness of treatment of the patient's condition with marijuana ~~low-THC cannabis, the medically acceptable alternatives,~~ and the potential risks and side effects. If the patient is a minor, the patient's parent or legal guardian must

consent to treatment in writing. If the patient is an eligible patient as defined in s. 499.0295, the physician must obtain written informed consent as defined in and required by s. 499.0295.~~;~~

(d) At least annually, a physician must recertify the qualifying patient pursuant to paragraph (c).

~~(i) Obtains written informed consent as defined in and required under s. 499.0295, if the physician is ordering medical cannabis for an eligible patient pursuant to that section; and~~

(e)~~(j)~~ A physician may not issue a physician certification if the physician is ~~not~~ a medical director employed by an MMTC ~~a dispensing organization~~.

(f) An order for low-THC cannabis or medical cannabis issued pursuant to former s. 381.986, Florida Statutes 2016, and registered with the compassionate use registry on the effective date of this act, shall be considered a physician certification issued pursuant to this subsection. The details and expiration date of such certification must be identical to the details and expiration date of the order as logged in the compassionate use registry. Until the department begins issuing compassionate use registry identification cards, all patients with such orders shall be considered qualifying patients, notwithstanding the requirement that a qualifying patient have a compassionate use registry identification card.

(4)~~(3)~~ PROHIBITED ACTS ~~PENALTIES~~.~~—~~

(a) A physician commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, if the physician issues a physician certification for marijuana to ~~orders low-THC cannabis for~~ a patient in a manner other than as

required in subsection (3) ~~without a reasonable belief that the patient is suffering from:~~

~~1. Cancer or A physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms that can be treated with low-THC cannabis; or~~

~~2. Symptoms of cancer or a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms that can be alleviated with low-THC cannabis~~.

~~(b) A physician commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, if the physician orders medical cannabis for a patient without a reasonable belief that the patient has a terminal condition as defined in s. 499.0295.~~

(b)~~(c)~~ A person who fraudulently represents that he or she has a debilitating medical condition ~~cancer~~, a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms, chronic nonmalignant pain, or a terminal condition as defined in s. 499.0295 to a physician for the purpose of being issued a physician certification for marijuana ~~ordered low-THC cannabis, medical cannabis,~~ or a cannabis delivery device by such physician commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(c)~~(d)~~ A qualifying patient ~~an eligible patient as defined in s. 499.0295~~ who uses marijuana ~~medical cannabis~~, and such patient's caregiver ~~legal representative~~ who administers marijuana ~~medical cannabis~~, in plain view of or in a place open to the general public, on the grounds of a school, or in a

school bus, vehicle, aircraft, or motorboat, commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(d) A qualifying patient or caregiver who cultivates marijuana or who purchases or acquires marijuana from any person or entity other than an MMTC commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(e) A caregiver who violates any of the applicable provisions of this section or applicable department rules commits, upon the first offense, a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, and, upon the second and subsequent offenses, a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(f) ~~(c)~~ A physician who issues a physician certification for marijuana ~~orders low-THC cannabis, medical cannabis,~~ or a cannabis delivery device and receives compensation from an MMTC ~~a dispensing organization~~ related to issuing the physician certification for marijuana ~~the ordering of low-THC cannabis, medical cannabis,~~ or a cannabis delivery device is subject to disciplinary action under the applicable practice act and s. 456.072(1)(n).

(g) An MMTC that advertises or holds out to the public that it may provide services other than services for which it is registered to provide violates this section, and the department may impose a fine on the MMTC pursuant to paragraph (10)(h).

(h) A person or entity that offers or advertises services as an MMTC without registering as an MMTC with the department violates this section. The operation or maintenance of a

facility as an MMTC, or the performance of a service that requires registration, without proper registration is a violation of this section.

1. If after receiving notification from the department, such person or entity fails to cease operation, the department may impose an administrative fine of up to $10,000 per violation. Each day of continued operation is a separate offense.

2. The department or any state attorney may, in addition to other remedies provided in this section, bring an action for an injunction to restrain any unauthorized activity or to enjoin the future operation or maintenance of the unauthorized dispensing organization or entity or the performance of any service in violation of this section until compliance with this section and department rules has been demonstrated to the satisfaction of the department.

3. If found to be in violation of this paragraph, the department may assess reasonable investigative and legal costs for prosecution of the violation against the person or entity.

(5) ~~(4)~~ PHYSICIAN EDUCATION.—

(a) Before a physician may issue a physician certification pursuant to subsection (3) ~~ordering low-THC cannabis, medical cannabis, or a cannabis delivery device for medical use by a patient in this state~~, the appropriate board shall require the ~~ordering~~ physician to successfully complete a 4-hour ~~an 8-hour~~ course and subsequent examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association which ~~that~~ encompasses the clinical indications for the appropriate use of marijuana ~~low-THC cannabis and medical cannabis~~, the

appropriate cannabis delivery devices, the contraindications for such use, and the relevant state and federal laws governing the issuance of physician certifications ~~ordering~~, as well as dispensing~~,~~ and possessing ~~of~~ these substances and devices. The course and examination shall be administered at least quarterly ~~annually~~. Successful completion of the course may be used by a physician to satisfy 4 hours ~~8 hours~~ of the continuing medical education requirements required by his or her respective board for licensure renewal. This course may be offered in a distance learning format, including an electronic, online format that is available on request. Physicians who have completed an 8-hour course and subsequent examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association which encompasses the clinical indications for the appropriate use of marijuana and who are registered in the compassionate use registry on the effective date of this act are deemed to meet the requirements of this paragraph.

(b) The appropriate board shall require the medical director of each MMTC ~~dispensing organization~~ to hold an active, unrestricted license as a physician under chapter 458 or as an osteopathic physician under chapter 459 and successfully complete a 2-hour course and subsequent examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association which ~~that~~ encompasses appropriate safety procedures and knowledge of marijuana ~~low-THC cannabis, medical cannabis,~~ and cannabis delivery devices.

(c) Successful completion of the course and examination specified in paragraph (a) is required for every physician who issues a physician certification for marijuana ~~orders low-THC~~

~~cannabis, medical cannabis, or a cannabis delivery device~~ each time such physician renews his or her license. ~~In addition, successful completion of the course and examination specified in paragraph (b) is required for the medical director of each dispensing organization each time such physician renews his or her license.~~

(d) A physician who fails to comply with this subsection and issues a physician certification for marijuana ~~who orders low-THC cannabis, medical cannabis,~~ or a cannabis delivery device may be subject to disciplinary action under the applicable practice act and under s. 456.072(1)(k).

(6) CAREGIVERS.—

(a) During the course of registration with the department for inclusion on the compassionate use registry, or at any time while registered, a qualifying patient may designate an individual as his or her caregiver to assist him or her with the medical use of marijuana. The designated caregiver must be 21 years of age or older, unless the patient is a close relative of the caregiver; must agree in writing to be the qualifying patient's caregiver; may not receive compensation, other than actual expenses incurred, for assisting the qualifying patient with the medical use of marijuana, unless the caregiver is acting pursuant to employment in a licensed facility in accordance with subparagraph (c)2.; and must pass a level 2 screening pursuant to chapter 435, unless the patient is a close relative of the caregiver.

(b) A qualifying patient may have only one designated caregiver at any given time unless all of the patient's caregivers are his or her close relatives or legal

representatives.

(c) A caregiver may assist only one qualifying patient at any given time unless:

1. All qualifying patients the caregiver is assisting are close relatives of each other and the caregiver is the legal representative of at least one of the patients; or

2. All qualifying patients the caregiver is assisting are receiving hospice services, or are residents, in the same assisted living facility, nursing home, or other licensed facility and have requested the assistance of that caregiver with the medical use of marijuana; the caregiver is an employee of the hospice or licensed facility; and the caregiver provides personal care or services directly to clients of the hospice or licensed facility as a part of his or her employment duties at the hospice or licensed facility.

(d) The department must register a caregiver on the compassionate use registry and issue him or her a caregiver identification card if he or she is designated by a qualifying patient pursuant to paragraph (a) and meets all of the requirements of this subsection and department rule.

(e) A nursing home or assisted living facility may not prevent a qualifying patient residing in the nursing home or assisted living facility from hiring a caregiver. A nursing home or assisted living facility may prohibit its employees from acting as caregivers to residents of the nursing home or assisted living facility. A nursing home or assisted living facility is not required to provide a caregiver to a resident who is a qualifying patient.

(7)~~(5)~~ DUTIES OF THE DEPARTMENT.—The department shall:

(a) Create and maintain a secure, electronic, and online compassionate use registry for the registration of physicians, patients, and caregivers ~~the legal representatives of patients~~ as provided under this section. The registry must be accessible to:

1. Practitioners licensed under chapter 458 or chapter 459, to ensure proper care for patients requesting physician certifications;

2. Practitioners licensed to prescribe prescription drugs, to ensure proper care for patients before prescribing medications that may interact with the medical use of marijuana;

3. Law enforcement agencies, to verify the authorization of a qualifying patient or a patient's caregiver to possess marijuana or a cannabis delivery device; and

4. MMTCs, to ~~a dispensing organization to~~ verify the authorization of a qualifying patient or a patient's caregiver ~~legal representative~~ to possess marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device and to record the marijuana ~~low-THC cannabis, medical cannabis,~~ or cannabis delivery device dispensed.

The registry must prevent ~~an~~ active registration of a patient by multiple physicians.

(b) By July 3, 2017, adopt rules establishing procedures for the issuance, annual renewal, suspension, and revocation of compassionate use registry identification cards for patients and caregivers. The department may charge a reasonable fee associated with the issuance and renewal of patient and caregiver identification cards. By October 3, 2017, the

department shall begin issuing identification cards to adult patients who have a physician certification that meets the requirements of subsection (3); minor patients who have a physician certification that meets the requirements of subsection (3) and the written consent of a parent or legal guardian; and caregivers registered pursuant to subsection (6). In addition to the other requirements of this section, the department may issue a compassionate use registry identification card to a patient who is not a resident of this state only after the department has verified that the patient can lawfully obtain marijuana through a medical marijuana program in the state that he or she resides in. Patient and caregiver identification cards must be resistant to counterfeiting and tampering and must include at least the following:

1. The name, address, and date of birth of the patient or caregiver, as appropriate;

2. A full-face, passport-type, color photograph of the patient or caregiver, as appropriate, taken within the 90 days immediately preceding registration;

3. Designation of the cardholder as a patient or caregiver;

4. A unique identification number for the patient or caregiver which is matched to the identification number used for such person in the department's compassionate use registry. A caregiver's identification number and file in the compassionate use registry must be linked to the file of the patient or patients the caregiver is assisting so that the caregiver's status may be verified for each patient individually;

5. The expiration date, which shall be 1 year after the date of issuance of the identification card or the date

treatment ends as provided in the patient's physician certification, whichever occurs first; and

6. For caregivers who are assisting three or fewer qualifying patients, the names and identification number of the qualifying patient or patients that the caregiver is assisting.

(c) As soon as practicable after the effective date of this act, update its records by registering each dispensing organization approved pursuant to chapter 2014-157, Laws of Florida, or chapter 2016-123, Laws of Florida, as an MMTC with an effective registration date that coincides with that dispensing organization's date of approval as a dispensing organization. On the effective date of this act, all dispensing organizations approved pursuant to chapter 2014-157, Laws of Florida, or chapter 2016-123, Laws of Florida, are deemed to be registered MMTCs. The department may not require a dispensing organization approved pursuant to chapter 2014-157, Laws of Florida, or chapter 2016-123, Laws of Florida, to submit an application and may not charge the dispensing organization an application or registration fee for the initial registration of that dispensing organization as an MMTC pursuant to this section. For purposes of the requirement that an MMTC comply with the representations made in its application pursuant to subsection (8), an MMTC registered pursuant to this paragraph shall continue to comply with the representations made in its application for approval as a dispensing organization, including any revision authorized by the department before the effective date of this act. After the effective date of this act, the department may grant variances from the representations made in a dispensing organization's application for approval pursuant to

subsection (8). For purposes of the definition of the term "marijuana" in s. 29, of Art. X of the State Constitution, an MMTC is deemed to be a dispensing organization as that term is defined in former s. 381.986(1)(a), Florida Statutes 2014 ~~Authorize the establishment of five dispensing organizations to ensure reasonable statewide accessibility and availability as necessary for patients registered in the compassionate use registry and who are ordered low-THC cannabis, medical cannabis, or a cannabis delivery device under this section, one in each of the following regions: northwest Florida, northeast Florida, central Florida, southeast Florida, and southwest Florida~~.

(d) By October 3, 2017, register five additional MMTCs with at least one of the MMTCs being an applicant that is a recognized class member of *Pigford v. Glickman*, 185 F.R.D. 82 (D.D.C. 1999), or *In re Black Farmers Litig.*, 856 F. Supp. 2d 1 (D.D.C. 2011), and a member of the Black Farmers and Agriculturalists Association.

(e) Within 6 months after each instance of the registration of 75,000 qualifying patients with the compassionate use registry, register four additional MMTCs if a sufficient number of MMTC applicants meet the registration requirements established in this section and by department rule.

(f) Not issue more than one registration as an MMTC to a person or an entity.

(g) ~~The department shall~~ Develop an application form for registration as an MMTC and impose an initial application and biennial renewal fee that is sufficient to cover the costs of administering this section. To be registered as an MMTC, the ~~an~~ applicant ~~for approval as a dispensing organization~~ must be able

to demonstrate:

1. That the applicant has been registered to do business in this state for the previous 5 consecutive years before submitting the application.

2.~~1.~~ The technical and technological ability to cultivate and produce low-THC cannabis and marijuana. ~~The applicant must possess a valid certificate of registration issued by the Department of Agriculture and Consumer Services pursuant to s. 581.131 that is issued for the cultivation of more than 400,000 plants, be operated by a nurseryman as defined in s. 581.011, and have been operated as a registered nursery in this state for at least 30 continuous years.~~

3.~~2.~~ The ability to secure the premises, resources, and personnel necessary to operate as an MMTC ~~a dispensing organization~~.

4.~~3.~~ The ability to maintain accountability of all raw materials, finished products, and any byproducts to prevent diversion or unlawful access to or possession of these substances.

5.~~4.~~ An infrastructure reasonably located to dispense low-THC cannabis and marijuana to registered qualifying patients statewide ~~or regionally as determined by the department~~.

6.~~5.~~ The financial ability to maintain operations for the duration of the 2-year approval cycle, including the provision of certified financials to the department. Upon approval, the applicant must post a $5 million performance bond. However, upon an MMTC ~~a dispensing organization's~~ serving at least 1,000 qualifying ~~qualified~~ patients, the MMTC ~~dispensing organization~~ is only required to maintain a $2 million performance bond.

7.~~6.~~ That all owners and managers have been fingerprinted and have successfully passed a level 2 background screening pursuant to s. 435.04.

8.~~7.~~ The employment of a medical director to supervise the activities of the MMTC ~~dispensing organization~~.

~~(c) Upon the registration of 250,000 active qualified patients in the compassionate use registry, approve three dispensing organizations, including, but not limited to, an applicant that is a recognized class member of *Pigford v. Glickman*, 185 F.R.D. 82 (D.D.C. 1999), or *In Re Black Farmers Litig.*, 856 F. Supp. 2d 1 (D.D.C. 2011), and a member of the Black Farmers and Agriculturalists Association, which must meet the requirements of subparagraphs (b)2.-7. and demonstrate the technical and technological ability to cultivate and produce low-THC cannabis.~~

(h)~~(d)~~ Allow an MMTC ~~a dispensing organization~~ to make a wholesale purchase of marijuana ~~low-THC cannabis or medical cannabis~~ from, or a distribution of marijuana ~~low-THC cannabis or medical cannabis~~ to, another MMTC ~~dispensing organization~~.

(i)~~(e)~~ Monitor physician registration in the compassionate use registry and the issuance of physician certifications pursuant to subsection (3) ~~ordering of low-THC cannabis, medical cannabis, or a cannabis delivery device~~ for ~~ordering~~ practices that could facilitate unlawful diversion or misuse of marijuana ~~low-THC cannabis, medical cannabis,~~ or ~~a~~ cannabis delivery devices ~~device~~ and take disciplinary action as indicated.

(8)~~(6)~~ MEDICAL MARIJUANA TREATMENT CENTERS ~~DISPENSING ORGANIZATION~~.~~—~~Each MMTC must register with the department. A registered MMTC ~~An approved dispensing organization~~ must, at all

times, maintain compliance with paragraph (7)(g), ~~the criteria demonstrated for selection and approval as a dispensing organization under subsection(5) and~~ the criteria required in this subsection, and all representations made to the department in the MMTC's application for registration. Upon request, the department may grant an MMTC one or more variances from the representations made in the MMTC's application. Consideration of such a variance shall be based upon the individual facts and circumstances surrounding the request. A variance may not be granted unless the requesting MMTC can demonstrate to the department that it has a proposed alternative to the specific representation made in its application which fulfills the same or a similar purpose as the specific representation in a way that the department can reasonably determine will not be a lower standard than the specific representation in the application.

(a) When growing marijuana ~~low-THC cannabis or medical cannabis~~, an MMTC ~~a dispensing organization~~:

1. May use pesticides determined by the department, after consultation with the Department of Agriculture and Consumer Services, to be safely applied to plants intended for human consumption, but may not use pesticides designated as restricted-use pesticides pursuant to s. 487.042.

2. Must grow marijuana ~~low-THC cannabis or medical cannabis~~ within an enclosed structure and in a room separate from any other plant.

3. Must inspect seeds and growing plants for plant pests that endanger or threaten the horticultural and agricultural interests of the state, notify the Department of Agriculture and Consumer Services within 10 calendar days after a determination

that a plant is infested or infected by such plant pest, and implement and maintain phytosanitary policies and procedures.

4. Must perform fumigation or treatment of plants, or the removal and destruction of infested or infected plants, in accordance with chapter 581 and any rules adopted thereunder.

(b) When processing marijuana ~~low-THC cannabis or medical cannabis~~, an MMTC ~~a dispensing organization~~ must:

1. Process the marijuana ~~low-THC cannabis or medical cannabis~~ within an enclosed structure and in a room separate from other plants or products.

2. Have the marijuana tested by an independent testing laboratory to ensure it meets the standards established by the department's quality control program ~~Test the processed low-THC cannabis and medical cannabis~~ before it is ~~they are~~ dispensed. ~~Results must be verified and signed by two dispensing organization employees. Before dispensing low-THC cannabis, the dispensing organization must determine that the test results indicate that the low-THC cannabis meets the definition of low-THC cannabis and, for medical cannabis and low-THC cannabis, that all medical cannabis and low-THC cannabis is safe for human consumption and free from contaminants that are unsafe for human consumption. The dispensing organization must retain records of all testing and samples of each homogenous batch of cannabis and low-THC cannabis for at least 9 months. The dispensing organization must contract with an independent testing laboratory to perform audits on the dispensing organization's standard operating procedures, testing records, and samples and provide the results to the department to confirm that the low-THC cannabis or medical cannabis meets the requirements of this section and that the medical cannabis and low-THC cannabis is safe for human consumption.~~

3. Package the marijuana ~~low-THC cannabis or medical cannabis~~ in compliance with the United States Poison Prevention Packaging Act of 1970, 15 U.S.C. ss. 1471 et seq.

4. Package the marijuana ~~low-THC cannabis or medical cannabis~~ in a childproof receptacle that has a firmly affixed and legible label stating the following information:

a. A statement that the marijuana ~~low-THC cannabis or medical cannabis~~ meets the requirements of subparagraph 2.;

b. The name of the MMTC ~~dispensing organization~~ from which the marijuana ~~medical cannabis or low-THC cannabis~~ originates; ~~and~~

c. The batch number and harvest number from which the marijuana ~~medical cannabis or low-THC cannabis~~ originates; and

d. The concentration of tetrahydrocannabinol and cannabidiol in the product.

e. Any other information required by department rule

~~5. Reserve two processed samples from each batch and retain such samples for at least 9 months for the purpose of testing pursuant to the audit required under subparagraph 2~~.

(c) When dispensing marijuana ~~low-THC cannabis, medical cannabis,~~ or a marijuana ~~cannabis~~ delivery device, an MMTC ~~a dispensing organization~~:

1. May not dispense more than the ~~a 45-day~~ supply of marijuana authorized by a qualifying patient's physician certification ~~low-THC cannabis or medical cannabis~~ to a qualifying patient or caregiver ~~the patient's legal representative~~.

2. Must ensure that the ~~have the dispensing organization's~~ employee who dispenses the marijuana ~~low-THC cannabis, medical cannabis,~~ or marijuana ~~a cannabis~~ delivery device enters ~~enter~~ into the compassionate use registry his or her name or unique employee identifier.

3. Must verify that the qualifying patient and the caregiver, if applicable, both have an active and valid compassionate use registry identification card and that the amount and type of marijuana dispensed match the physician certification in the compassionate use registry for that qualifying patient ~~that a physician has ordered the low-THC cannabis, medical cannabis, or a specific type of a cannabis delivery device for the patient~~.

4. Must label the marijuana with the recommended dose for the qualifying patient receiving the marijuana.

5.~~4.~~ May not dispense or sell any other type of marijuana ~~cannabis~~, alcohol, or illicit drug-related product, including pipes, bongs, or wrapping papers, other than a ~~physician-ordered~~ cannabis delivery device required for the medical use of marijuana which is specified in a physician certification ~~low-THC cannabis or medical cannabis, while dispensing low-THC cannabis or medical cannabis~~. An MMTC may produce and dispense marijuana as an edible or food product but may not produce such items in a format designed to be attractive to children. In addition to the requirements of this section and department rule, food products produced by an MMTC must meet all food safety standards established in state and federal law, including, but not limited to, the identification of the serving size and the amount of tetrahydrocannabinol in each serving.

~~5. Must verify that the patient has an active registration in the compassionate use registry, the patient or patient's legal representative holds a valid and active registration card, the order presented matches the order contents as recorded in the registry, and the order has not already been filled.~~

6. Must, upon dispensing the marijuana ~~low-THC cannabis, medical cannabis,~~ or marijuana ~~cannabis~~ delivery device, record in the registry the date, time, quantity, and form of marijuana ~~low-THC cannabis or medical cannabis~~ dispensed; ~~and~~ the type of marijuana ~~cannabis~~ delivery device dispensed; and the name and compassionate use registry identification number of the qualifying patient or caregiver to whom the marijuana delivery device was dispensed.

7. May not dispense marijuana from more than three dispensing facilities. This subparagraph does not apply to MMTC retail facilities that only dispense low-THC cannabis and sell marijuana delivery devices to qualified patients.

(d) To ensure the safety and security of its premises and any off-site storage facilities, and to maintain adequate controls against the diversion, theft, and loss of marijuana ~~low-THC cannabis, medical cannabis,~~ or marijuana ~~cannabis~~ delivery devices, an MMTC ~~a dispensing organization~~ shall:

1.a. Maintain a fully operational security alarm system that secures all entry points and perimeter windows and is equipped with motion detectors; pressure switches; and duress, panic, and hold-up alarms; or

b. Maintain a video surveillance system that records continuously 24 hours each day and meets at least one of the following criteria:

(I) Cameras are fixed in a place that allows for the clear identification of persons and activities in controlled areas of the premises. Controlled areas include grow rooms, processing rooms, storage rooms, disposal rooms or areas, and point-of-sale rooms;

(II) Cameras are fixed in entrances and exits to the premises, which shall record from both indoor and outdoor, or ingress and egress, vantage points;

(III) Recorded images must clearly and accurately display the time and date; or

(IV) Retain video surveillance recordings for a minimum of 45 days, or longer upon the request of a law enforcement agency.

2. Ensure that the MMTC's ~~organization's~~ outdoor premises have sufficient lighting from dusk until dawn.

3. Implement ~~Establish and maintain~~ a tracking system using a vendor approved by the department which ~~that~~ traces the marijuana ~~low-THC cannabis or medical cannabis~~ from seed to sale. The tracking system must ~~shall~~ include notification of key events as determined by the department, including when cannabis seeds are planted, when cannabis plants are harvested and destroyed, and when marijuana ~~low-THC cannabis or medical cannabis~~ is transported, sold, stolen, diverted, or lost.

4. Not dispense from its premises marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device between the hours of 9 p.m. and 7 a.m., but may perform all other operations and deliver marijuana ~~low-THC cannabis and medical cannabis~~ to qualifying ~~qualified~~ patients 24 hours each day.

5. Store marijuana ~~low-THC cannabis or medical cannabis~~ in

a secured, locked room or a vault.

6. Require at least two of its employees, or two employees of a security agency with whom it contracts, to be on the premises at all times.

7. Require each employee or contractor to wear a photo identification badge at all times while on the premises.

8. Require each visitor to wear a visitor's pass at all times while on the premises.

9. Implement an alcohol and drug-free workplace policy.

10. Report to local law enforcement within 24 hours after it is notified or becomes aware of the theft, diversion, or loss of marijuana ~~low-THC cannabis or medical cannabis~~.

(e) To ensure the safe transport of marijuana ~~low-THC cannabis or medical cannabis~~ to MMTC ~~dispensing organization~~ facilities, independent testing laboratories, or qualifying patients, the MMTC ~~dispensing organization~~ must:

1. Maintain a transportation manifest, which must be retained for at least 1 year. A copy of the manifest must be in the vehicle at all times when transporting marijuana.

2. Ensure only vehicles in good working order are used to transport marijuana ~~low-THC cannabis or medical cannabis~~.

3. Lock marijuana ~~low-THC cannabis or medical cannabis~~ in a separate compartment or container within the vehicle.

4. Require at least two persons to be in a vehicle transporting marijuana ~~low-THC cannabis or medical cannabis~~, and require at least one person to remain in the vehicle while the marijuana ~~low-THC cannabis or medical cannabis~~ is being delivered.

5. Provide specific safety and security training to

employees transporting or delivering marijuana ~~low-THC cannabis or medical cannabis~~.

(9) MARIJUANA QUALITY CONTROL PROGRAM AND INDEPENDENT TESTING LABORATORY LICENSURE.—

(a) The department shall establish a quality control program requiring marijuana to be tested by an independent testing laboratory for potency and contaminants before sale to qualifying patients and caregivers.

1. The quality control program must require MMTCs to submit samples from each batch or lot of marijuana harvested or processed to an independent testing laboratory for testing to ensure, at a minimum, that the labeling of the potency of tetrahydrocannabinol and all other marketed cannabinoids or terpenes is accurate and that the marijuana dispensed to qualifying patients is safe for human consumption.

2. An MMTC must maintain records of all tests conducted, including the results of each test and any additional information, as required by the department.

3. The department shall adopt all rules necessary to create and oversee the quality control program, which must include, at a minimum:

a. Permissible levels of variation in potency labeling and standards requiring tetrahydrocannabinol in edible marijuana products to be distributed consistently throughout the product;

b. Permissible levels of contaminants and mandatory testing for contaminants to confirm that the tested marijuana is safe for human consumption. This testing must include, but is not limited to, testing for microbiological impurity, residual solvents, and pesticide residues;

c. The destruction of marijuana determined to be inaccurately labeled or unsafe for human consumption after the MMTC has an opportunity to take remedial action;

d. The collection, storage, handling, recording, and destruction of samples of marijuana by independent testing laboratories; and

e. Security, inventory tracking, and record retention.

(b) The department must license all independent testing laboratories to ensure that all marijuana is tested for potency and contaminants in accordance with the department's quality control program. An independent testing laboratory may collect and accept samples of, and possess, store, transport, and test marijuana. An independent testing laboratory may not be owned by a person who also possesses an ownership interest in an MMTC. A clinical laboratory that is licensed by the Agency for Health Care Administration pursuant to part I of chapter 483 and that performs nonwaived clinical tests is exempt from the requirement to be licensed by the department pursuant to this paragraph but must be certified to perform all required tests pursuant to subparagraph 2.

1. The department shall develop rules establishing independent testing laboratory license requirements and a process for licensing independent testing laboratories; develop an application form for an independent testing laboratory license; and impose an initial application fee and a biennial renewal fee sufficient to cover the costs of administering this subsection.

2. In addition to licensure, an independent testing laboratory must be certified to perform all required tests by

the department. The department must issue a certification to an independent testing laboratory that has been certified by a third-party laboratory certification body approved by the department. The department shall establish reasonable rules for the certification and operation of independent testing laboratories. Rules for certification must, at a minimum, address standards relating to:

a. Personnel qualifications;

b. Equipment and methodology;

c. Proficiency testing;

d. Tracking;

e. Sampling;

f. Chain of custody;

g. Record and sample retention;

h. Reporting;

i. Audit and inspection; and

j. Security.

3. The department shall suspend or reduce any mandatory testing requirement specified in its quality control program if the number of licensed and certified independent testing laboratories is insufficient to process the tests necessary to meet the patients' demand for marijuana.

4. An independent testing laboratory may accept only samples composed of marijuana which are obtained from a sample source approved by the department. At a minimum, these sources must include an MMTC, a researcher affiliated with an accredited university or research hospital, a qualifying patient, and a caregiver.

(10) ~~(7)~~ DEPARTMENT AUTHORITY AND RESPONSIBILITIES.—

(a) The department may conduct announced or unannounced inspections of MMTCs ~~dispensing organizations~~ to determine compliance with this section or rules adopted pursuant to this section.

(b) The department shall inspect an MMTC ~~a dispensing organization~~ upon complaint or notice provided to the department that the MMTC ~~dispensing organization~~ has dispensed marijuana ~~low-THC cannabis or medical cannabis~~ containing any mold, bacteria, or other contaminant that may cause or has caused an adverse effect to human health or the environment.

(c) The department shall conduct at least a biennial inspection of each MMTC ~~dispensing organization~~ to evaluate the MMTC's ~~dispensing organization's~~ records, personnel, equipment, processes, security measures, sanitation practices, and quality assurance practices.

(d) The department shall adopt by rule a process for approving changes in MMTC ownership or a change in an MMTC owner's investment interest. This process must include specific criteria for the approval or denial of an application for change of ownership or a change in investment interest and procedures for screening applicants' criminal and financial histories.

(e) The department shall establish, maintain, and control a computer software tracking system that traces marijuana from seed to sale and allows real-time, 24-hour access by the department to data from all MMTCs and independent testing laboratories. The tracking system must, at a minimum, include notification of when marijuana seeds are planted, when marijuana plants are harvested and destroyed, and when marijuana is transported, sold, stolen, diverted, or lost. Each MMTC shall

use the seed-to-sale tracking system selected by the department.

(f) ~~(d)~~ The department may enter into interagency agreements with the Department of Agriculture and Consumer Services, the Department of Business and Professional Regulation, the Department of Transportation, the Department of Highway Safety and Motor Vehicles, and the Agency for Health Care Administration, and such agencies are authorized to enter into an interagency agreement with the department, to conduct inspections or perform other responsibilities assigned to the department under this section.

(g) ~~(e)~~ The department must make a list of all approved MMTCs, ~~dispensing organizations and qualified ordering~~ physicians who are qualified to issue physician certifications, and medical directors publicly available on its website.

~~(f) The department may establish a system for issuing and renewing registration cards for patients and their legal representatives, establish the circumstances under which the cards may be revoked by or must be returned to the department, and establish fees to implement such system. The department must require, at a minimum, the registration cards to:~~

~~1. Provide the name, address, and date of birth of the patient or legal representative.~~

~~2. Have a full-face, passport-type, color photograph of the patient or legal representative taken within the 90 days immediately preceding registration.~~

~~3. Identify whether the cardholder is a patient or legal representative.~~

~~4. List a unique numeric identifier for the patient or legal representative that is matched to the identifier used for~~

~~such person in the department's compassionate use registry.~~

~~5. Provide the expiration date, which shall be 1 year after the date of the physician's initial order of low-THC cannabis or medical cannabis.~~

~~6. For the legal representative, provide the name and unique numeric identifier of the patient that the legal representative is assisting.~~

~~7. Be resistant to counterfeiting or tampering.~~

(h) ~~(g)~~ The department may impose reasonable fines not to exceed $10,000 on an MMTC ~~a dispensing organization~~ for any of the following violations:

1. Violating this section, s. 499.0295, or department rule.

2. Failing to maintain qualifications for registration with the department ~~approval~~.

3. Endangering the health, safety, or security of a qualifying ~~qualified~~ patient.

4. Improperly disclosing personal and confidential information of a qualifying ~~the qualified~~ patient.

5. Attempting to procure MMTC registration with the department ~~dispensing organization approval~~ by bribery, fraudulent misrepresentation, or extortion.

6. Any owner or manager of the MMTC being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction which directly relates to the business of an MMTC ~~a dispensing organization~~.

7. Making or filing a report or record that the MMTC ~~dispensing organization~~ knows to be false.

8. Willfully failing to maintain a record required by this

section or department rule.

9. Willfully impeding or obstructing an employee or agent of the department in the furtherance of his or her official duties.

10. Engaging in fraud or deceit, negligence, incompetence, or misconduct in the business practices of an MMTC ~~a dispensing organization~~.

11. Making misleading, deceptive, or fraudulent representations in or related to the business practices of an MMTC ~~a dispensing organization~~.

12. Having a license or the authority to engage in any regulated profession, occupation, or business that is related to the business practices of an MMTC ~~a dispensing organization~~ suspended, revoked, or otherwise acted against by the licensing authority of any jurisdiction, including its agencies or subdivisions, for a violation that would constitute a violation under Florida law.

13. Violating a lawful order of the department or an agency of the state, or failing to comply with a lawfully issued subpoena of the department or an agency of the state.

(i) ~~(h)~~ The department may suspend, revoke, or refuse to renew an MMTC's registration with the department ~~a dispensing organization's approval~~ if the MMTC ~~a dispensing organization~~ commits a violation specified ~~any of the violations~~ in paragraph (h) ~~(g)~~.

(j) ~~(i)~~ The department shall renew an MMTC's registration with the department ~~the approval of a dispensing organization~~ biennially if the MMTC ~~dispensing organization~~ meets the requirements of this section and pays the biennial renewal fee.

(k) ~~(j)~~ The department may adopt rules necessary to implement this section.

(11) ~~(8)~~ PREEMPTION.—

(a) All matters regarding the regulation of the cultivation and processing of marijuana ~~medical cannabis or low-THC cannabis~~ by MMTCs ~~dispensing organizations~~ are preempted to the state.

(b) A municipality may determine by ordinance the criteria for the number and location of, and other permitting requirements that do not conflict with state law or department rule for, dispensing facilities of MMTCs ~~dispensing organizations~~ located within its municipal boundaries. A county may determine by ordinance the criteria for the number, location, and other permitting requirements that do not conflict with state law or department rule for all dispensing facilities of MMTCs ~~dispensing organizations~~ located within the unincorporated areas of that county.

(12) ~~(9)~~ EXCEPTIONS TO OTHER LAWS.—

(a) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or any other provision of law, but subject to the requirements of this section, a qualifying ~~qualified~~ patient, or a caregiver who has obtained a valid compassionate use registry identification card from the department, ~~and the qualified patient's legal representative~~ may purchase from an MMTC, and possess for the qualifying patient's medical use, up to the amount of marijuana in the physician certification ~~low-THC cannabis or medical cannabis ordered for the patient~~, but not more than a 90-day ~~45-day~~ supply, and a cannabis delivery device specified in the physician certification ~~ordered~~ for the qualifying patient.

(b) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or

any other provision of law, but subject to the requirements of this section, an MMTC ~~an approved dispensing organization~~ and its owners, managers, contractors, and employees may manufacture, possess, sell, deliver, distribute, dispense, administer, and lawfully dispose of reasonable quantities, as established by department rule, of marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device. For purposes of this subsection, the terms "manufacture," "possession," "deliver," "distribute," and "dispense" have the same meanings as provided in s. 893.02.

(c) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or any other provision of law, but subject to the requirements of this section, an approved independent testing laboratory may possess, test, transport, and lawfully dispose of marijuana ~~low-THC cannabis or medical cannabis~~ as provided by department rule.

(d) An MMTC ~~approved dispensing organization~~ and its owners, managers, contractors, and employees are not subject to licensure or regulation under chapter 465 or chapter 499 for manufacturing, possessing, selling, delivering, distributing, dispensing, or lawfully disposing of reasonable quantities, as established by department rule, of marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device.

(e) Exercise by an MMTC of ~~An approved dispensing organization that continues to meet the requirements for approval is presumed to be registered with the department and to meet the regulations adopted by the department or its successor agency for the purpose of dispensing medical cannabis or low-THC cannabis under Florida law. Additionally,~~ the authority provided to MMTCs ~~a dispensing organization~~ in s. 499.0295 does not

impair its registration with the department ~~the approval of a dispensing organization~~.

(f) This subsection does not exempt a person from prosecution for a criminal offense related to impairment or intoxication resulting from the medical use of marijuana ~~low-THC cannabis or medical cannabis~~ or relieve a person from any requirement under law to submit to a breath, blood, urine, or other test to detect the presence of a controlled substance.

(g) This section does not limit the ability of an employer to establish, continue, or enforce a drug-free workplace program or substance abuse policy. Notwithstanding any other provision of law, this section does not require an employer to accommodate the ingestion of marijuana in any workplace or any employee working while under the influence of marijuana. Notwithstanding any other provision of law, this section does not create a cause of action against an employer for wrongful discharge or discrimination.

(h) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or any other provision of law, but subject to the requirements of this section, a research institute established by a public postsecondary educational institution, such as the H. Lee Moffitt Cancer Center and Research Institute established under s. 1004.43, or a state university that has achieved the preeminent state research university designation pursuant to s. 1001.7065 may possess, test, transport, and lawfully dispose of marijuana for research purposes as provided by department rule.

(13) RULEMAKING.—

(a) The department and the applicable boards shall adopt emergency rules pursuant to s. 120.54(4) and this subsection

necessary to implement this section. If an emergency rule adopted under this subsection is held to be unconstitutional or an invalid exercise of delegated legislative authority and becomes void, the department and the applicable boards may adopt an emergency rule to replace the rule that has become void. If the emergency rule adopted to replace the void emergency rule is also held to be unconstitutional or an invalid exercise of delegated legislative authority and becomes void, the department and the applicable boards must follow the nonemergency rulemaking procedures of the Administrative Procedures Act to replace the rule that has become void.

(b) For emergency rules adopted under this subsection, the department and the applicable boards need not make the findings required by s. 120.54(4)(a). Emergency rules adopted under this subsection are exempt from ss. 120.54(3)(b) and 120.541. The department and the applicable boards shall meet the procedural requirements in s. 120.54(2)(a) if the department or the applicable boards have, before the effective date of this act, held any public workshops or hearings on the subject matter of emergency rules adopted under this subsection. Challenges to emergency rules adopted under this subsection are subject to the time schedules provided in s. 120.56(5).

(c) Emergency rules adopted under this section are exempt from s. 120.54(4)(c) and shall remain in effect until replaced by rules adopted under the nonemergency rulemaking procedures of the Administrative Procedures Act. By January 1, 2018, the department and the applicable boards shall initiate nonemergency rulemaking pursuant to the Administrative Procedures Act by publishing a notice of rule development in the Florida

Administrative Register. Except as provided in paragraph (a), after January 1, 2018, the department and applicable boards may not adopt rules pursuant to the emergency rulemaking procedures provided in this subsection.

Section 2. Section 1004.4351, Florida Statutes, is created to read:

1004.4351 Medical marijuana research and education.—

(1) SHORT TITLE.—This section shall be known and may be cited as the "Medical Marijuana Research and Education Act."

(2) LEGISLATIVE FINDINGS.—The Legislature finds that:

(a) The present state of knowledge concerning the use of marijuana to alleviate pain and treat illnesses is limited because permission to perform clinical studies on marijuana is difficult to obtain, with access to research-grade marijuana so restricted that little or no unbiased studies have been performed.

(b) Under the State Constitution, marijuana is available for the treatment of certain debilitating medical conditions.

(c) Additional clinical studies are needed to ensure that the residents of this state obtain the correct dosing, formulation, route, modality, frequency, quantity, and quality of marijuana for specific illnesses.

(d) An effective medical marijuana research and education program would mobilize the scientific, educational, and medical resources that presently exist in this state to determine the appropriate and best use of marijuana to treat illness.

(3) DEFINITIONS.—As used in this section, the term:

(a) "Board" means the Medical Marijuana Research and Education Board.

(b) "Coalition" means the Coalition for Medical Marijuana Research and Education.

(c) "Marijuana"" has the same meaning as provided in s. 29, Art. X of the State Constitution.

(4) COALITION FOR MEDICAL MARIJUANA RESEARCH AND EDUCATION.—

(a) There is established within the H. Lee Moffitt Cancer Center and Research Institute, Inc., the Coalition for Medical Marijuana Research and Education. The purpose of the coalition is to conduct rigorous scientific research, provide education, disseminate research, and guide policy for the adoption of a statewide policy on ordering and dosing practices for the medicinal use of marijuana. The coalition shall be physically located at the H. Lee Moffitt Cancer Center and Research Institute, Inc.

(b) The Medical Marijuana Research and Education Board is established to direct the operations of the coalition. The board shall be composed of seven members appointed by the chief executive officer of the H. Lee Moffitt Cancer Center and Research Institute, Inc. Board members must have experience in a variety of scientific and medical fields, including, but not limited to, oncology, neurology, psychology, pediatrics, nutrition, and addiction. Members shall be appointed to 4-year terms and may be reappointed to serve additional terms. The chair shall be elected by the board from among its members to serve a 2-year term. The board shall meet no less than semiannually, at the call of the chair or, in his or her absence or incapacity, the vice chair. Four members constitute a quorum. A majority vote of the members present is required for all

actions of the board. The board may prescribe, amend, and repeal a charter governing the manner in which it conducts its business. A board member shall serve without compensation but is entitled to be reimbursed for travel expenses by the coalition or the organization he or she represents in accordance with s. 112.061.

(c) The coalition shall be administered by a coalition director, who shall be appointed by and serve at the pleasure of the board. The coalition director shall, subject to the approval of the board:

1. Propose a budget for the coalition.

2. Foster the collaboration of scientists, researchers, and other appropriate personnel in accordance with the coalition's charter.

3. Identify and prioritize the research to be conducted by the coalition.

4. Prepare the Medical Marijuana Research and Education Plan for submission to the board.

5. Apply for grants to obtain funding for research conducted by the coalition.

6. Perform other duties as determined by the board.

(d) The board shall advise the Board of Governors, the State Surgeon General, the Governor, and the Legislature with respect to medical marijuana research and education in this state. The board shall explore methods of implementing and enforcing medical marijuana laws in relation to cancer control, research, treatment, and education.

(e) The board shall annually adopt a plan for medical marijuana research, known as the "Medical Marijuana Research and

Education Plan," which must be in accordance with state law and coordinate with existing programs in this state. The plan must include recommendations for the coordination and integration of medical, nursing, paramedical, community, and other resources connected with the treatment of debilitating medical conditions, research related to the treatment of such medical conditions, and education.

(f) By February 15 of each year, the board shall issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on research projects, community outreach initiatives, and future plans for the coalition.

(5) RESPONSIBILITIES OF THE H. LEE MOFFITT CANCER CENTER AND RESEARCH INSTITUTE, INC.—The H. Lee Moffitt Cancer Center and Research Institute, Inc., shall allocate staff and provide information and assistance, as the coalition's budget permits, to assist the board in fulfilling its responsibilities.

Section 3. Paragraph (b) of subsection (3) of section 381.987, Florida Statutes, is amended to read:

381.987 Public records exemption for personal identifying information in the compassionate use registry.—

(3) The department shall allow access to the registry, including access to confidential and exempt information, to:

(b) A medical marijuana treatment center registered with ~~dispensing organization approved by~~ the department pursuant to s. 381.986 which is attempting to verify the authenticity of a physician certification ~~physician's order~~ for marijuana ~~low-THC cannabis~~, including whether the physician certification ~~order~~ had been previously filled and whether the physician

certification ~~order~~ was written for the person attempting to have it filled.

Section 4. Subsection (1) of section 385.211, Florida Statutes, is amended to read:

385.211 Refractory and intractable epilepsy treatment and research at recognized medical centers.—

(1) As used in this section, the term "low-THC cannabis" means "low-THC cannabis" as defined in s. 381.986 which ~~that~~ is dispensed only from a medical marijuana treatment center ~~dispensing organization~~ as defined in s. 381.986.

Section 5. Present paragraphs (b) and (c) of subsection (2) of section 499.0295, Florida Statutes, are redesignated as paragraphs (a) and (b), respectively, present paragraphs (a) and (c) of that subsection are amended, a new paragraph (c) is added to that subsection, and subsection (3) of that section is amended, to read:

499.0295 Experimental treatments for terminal conditions.—

(2) As used in this section, the term:

~~(a) "Dispensing organization" means an organization approved by the Department of Health under s. 381.986(5) to cultivate, process, transport, and dispense low-THC cannabis, medical cannabis, and cannabis delivery devices.~~

(b) ~~(c)~~ "Investigational drug, biological product, or device" means:

1. A drug, biological product, or device that has successfully completed phase 1 of a clinical trial but has not been approved for general use by the United States Food and Drug Administration and remains under investigation in a clinical trial approved by the United States Food and Drug

Administration; or

2. Marijuana ~~Medical cannabis~~ that is manufactured and sold by an MMTC ~~a dispensing organization~~.

(c) "Medical marijuana treatment center" or "MMTC" means an organization registered with the Department of Health under s. 381.986.

(3) Upon the request of an eligible patient, a manufacturer may, or upon the issuance of a physician certification ~~a physician's order~~ pursuant to s. 381.986, an MMTC ~~a dispensing organization~~ may:

(a) Make its investigational drug, biological product, or device available under this section.

(b) Provide an investigational drug, biological product, device, or cannabis delivery device as defined in s. 381.986 to an eligible patient without receiving compensation.

(c) Require an eligible patient to pay the costs of, or the costs associated with, the manufacture of the investigational drug, biological product, device, or cannabis delivery device as defined in s. 381.986.

Section 6. Subsection (1) of section 1004.441, Florida Statutes, is amended to read:

1004.441 Refractory and intractable epilepsy treatment and research.—

(1) As used in this section, the term "low-THC cannabis" means "low-THC cannabis" as defined in s. 381.986 which ~~that~~ is dispensed only from a medical marijuana treatment center ~~dispensing organization~~ as defined in s. 381.986.

Section 7. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act"

wherever it occurs in this act with the date the act becomes a law.

Section 8. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 406
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Health and Human Services); Health Policy Committee; and Senator Bradley and others
SUBJECT:	Compassionate Use of Low-THC Cannabis and Marijuana
DATE:	April 27, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Looke	Stovall	HP	**Fav/CS**
2.	Fournier/Loe	Williams	AHS	**Recommend: Fav/CS**
3.	Fournier/Loe	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 406 amends section 381.986, Florida Statutes, to implement the provisions of Article X, section 29 of the State Constitution, Medical Marijuana Production, Possession, and Use. The bill makes numerous changes to the section including:

- Adding legislative intent.
- Amending definitions to incorporate terms used in Article X, section 29 of the State Constitution, and to add definitions for "chronic nonmalignant pain" and "close relative."
- Allowing allopathic[1] and osteopathic[2] physicians to certify the medical use of marijuana for patients with debilitating medical conditions and other specified patients, including certain patients from other states who meet Florida requirements.
- Establishing requirements that a physician must meet before certifying a patient and after certification.
- Reducing the required course a physician must take prior to certifying patients to a 4-hour course that must be taken each time such physician renews his or her license.[3]
- Removing the three-month patient treatment prerequisite.
- Amending current criminal penalties to conform to other changes in the bill and establishing new criminal violations for patients and caregivers cultivating or purchasing marijuana from

[1] Licensed under ch. 458, F.S.
[2] Licensed under ch. 459, F.S.
[3] Section 381.986(4)(a), F.S., requires that physicians take an 8-hour course biannually.

a source other than a medical marijuana treatment center (MMTC) or who violate other provisions of the act.
- Prohibiting unlicensed activity and providing for criminal and financial penalties.
- Establishing requirements for caregivers including limiting a patient to one caregiver and a caregiver to one patient with certain exceptions, and requiring that caregivers pass a Level 2 background screening with certain exceptions for a caregiver who is a close relative.
- Provides that a nursing home or assisted living facility may not prevent a qualifying patient residing in the nursing home or assisted living facility from hiring a caregiver, but a nursing home or assisted living facility may prohibit its employees from acting as caregivers to residents of the nursing home or assisted living facility, and a nursing home or assisted living facility is not required to provide a caregiver to a resident who is a qualifying patient.
- Requiring the Department of Health (DOH) to begin issuing identification cards to patients and caregivers by October 3, 2017.
- Requiring the DOH to implement training and educational programs to enable minority persons and minority or veteran businesses to compete for MMTC registration and contracts.
- Requiring the DOH to establish requirements for the licensure and certification of independent testing laboratories (ITL), a marijuana quality control program, and a seed-to-sale tracking program for marijuana.
- Grandfathering in existing dispensing organizations as MMTCs,[4] adding five MMTCs by October 3, 2017, and increasing the overall number of MMTCs that may be registered when certain numbers of patients are registered on the compassionate use registry.
- Requiring MMTCs to demonstrate the ability to implement a diversity plan and maintain compliance with the representations made in their applications for registration, and allowing the DOH to grant variances in certain circumstances.
- Limiting each MMTC to no more than three dispensing facilities.
- Authorizing emergency rulemaking for implementation and timeframes for initiating nonemergency rulemaking.

The bill creates section 1004.4351, Florida Statutes, to establish the "Medical Marijuana Research and Education Act" and the Coalition for Medical Marijuana Research and Education within the H. Lee Moffitt Cancer Center and Research Institute, Inc.

The bill also makes other conforming and technical changes to sections 381.986, 381.987, 385.211, 499.0295, and 1004.411, Florida Statutes.

The fiscal impact of the bill is indeterminate. On April 7, 2017, the Revenue Estimating Conference estimated the bill has an indeterminate positive fiscal impact on state revenues.[5] The increased costs incurred by the DOH and the Florida Department of Law Enforcement (FDLE) should be offset by fees and fines authorized in the bill.

The bill is effective upon becoming a law.

[4] Including dispensing organizations that are currently in litigation but would qualify under ch. 2016-1236, L.O.F.

II. Present Situation:

Treatment of Marijuana in Florida

Florida law defines cannabis as "all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin,"[6] and places it, along with other sources of tetrahydrocannabinol (THC), on the list of Schedule I controlled substances.[7] The definition excludes "low-THC cannabis" as defined in s. 381.986, F.S., if manufactured, possessed, sold, purchased, delivered, distributed, or dispensed in conformance with that section.

Schedule I controlled substances are substances that have a high potential for abuse and no currently accepted medical use in the United States.[8] As a Schedule I controlled substance, possession and trafficking of cannabis carry criminal penalties that vary from a first-degree misdemeanor[9] up to a first-degree felony with a mandatory minimum sentence of 15 years in state prison and a $200,000 fine.[10] Paraphernalia[11] that is sold, manufactured, used, or possessed with the intent to be used to plant, propagate, cultivate, grow, harvest, manufacture, compound, convert, produce, process, prepare, test, analyze, pack, repack, store, contain, conceal, inject, ingest, inhale, or otherwise introduce into the human body a controlled substance, is also prohibited and carries criminal penalties ranging from a first degree misdemeanor to a third degree felony.[12]

Medical Marijuana in Florida: the Compassionate Medical Cannabis Act of 2014

Patient Treatment with Low-THC Cannabis

The Compassionate Medical Cannabis Act of 2014[13] (act) legalized a low tetrahydrocannabinol (THC) and high cannabidiol (CBD) form of cannabis (low-THC cannabis)[14] for medical use[15] by patients suffering from cancer or a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms. The act provides that a Florida

[6] Section 893.02(3), F.S.
[7] Section 893.03(1)(c)7. and 37., F.S.
[8] Section 893.03(1), F.S.
[9] This penalty is applicable to possession or delivery of less than 20 grams of cannabis. *See* s. 893.13(3) and (6)(b), F.S.
[10] Trafficking in more than 25 pounds, or 300 plants, of cannabis is a first-degree felony with a mandatory minimum sentence that varies from three to 15 years in state prison depending on the quantity of the cannabis possessed, sold, etc. *See* s. 893.135(1)(a), F.S.
[11] Section 893.145, F.S.
[12] Section 893.147, F.S.
[13] Chapter 2014-157, Laws of Fla., codified in s. 381.986, F.S.
[14] Section 381.986(b), F.S., defines "low-THC cannabis," as the dried flowers of the plant *Cannabis* which contain 0.8 percent or less of tetrahydrocannabinol and more than 10 percent of cannabidiol weight for weight, or the seeds, resin, or any compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin.
[15] Section 381.986(1)(c), F.S., defines "medical use" as administration of the ordered amount of low-THC cannabis; and the term does not include the possession, use, or administration by smoking, or the transfer of low-THC cannabis to a person other than the qualified patient for whom it was ordered or the qualified patient's legal representative. Section 381.986(1)(e), F.S., defines "smoking" as burning or igniting a substance and inhaling the smoke; smoking does not include the use of a vaporizer.

licensed allopathic or osteopathic physician who has completed the required training[16] and has examined and is treating such a patient may order low-THC cannabis for that patient to treat such disease, disorder, or condition or to alleviate its symptoms, if no other satisfactory alternative treatment options exist for that patient. In order for a physician to order low-THC cannabis for a patient, all of the following conditions must apply:

- The patient is a permanent resident of Florida;
- The physician has treated the patient for at least 3 months immediately preceding the patient's registration and has determined that the risks of ordering low-THC cannabis are reasonable in light of the potential benefit for that patient;[17]
- The physician registers as the orderer of low-THC cannabis for the patient on the compassionate use registry (registry) maintained by the DOH and updates the registry to reflect the contents of the order;
- The physician maintains a patient treatment plan that includes the dose, route of administration, planned duration, and monitoring of the patient's symptoms and other indicators of tolerance or reaction to the low-THC cannabis;
- The physician submits the patient treatment plan quarterly to the University of Florida, College of Pharmacy (UFCP) for research on the safety and efficacy of low-THC cannabis on patients; and
- The physician obtains the voluntary informed consent of the patient or the patient's legal guardian to treatment with low-THC cannabis after sufficiently explaining the current state of knowledge in the medical community about the effectiveness of treatment of the patient's condition with low-THC cannabis, the medically acceptable alternatives, and the potential risks and side effects.[18]

The act creates exceptions to existing law to allow qualified patients[19] and their legal representatives to purchase, acquire, and possess low-THC cannabis – up to the amount ordered – for that patient's medical use; and to allow dispensing organizations (DO) and their owners, managers, and employees to acquire, possess, cultivate, and dispose of excess product in reasonable quantities to produce low-THC cannabis and to possess, process, and dispense low-THC cannabis. The DOs and their owners, managers, and employees are not subject to licensure and regulation under ch. 465, F.S., relating to pharmacies.[20]

Patient Treatment with Medical Cannabis

Chapter 2016-123, Laws of Florida, amended the act to expand the regulatory structure relating to dispensing low-THC cannabis and authorized approved dispensing organizations to cultivate and dispense medical cannabis to eligible patients as defined under the Right to Try Act

[16] Section 381.986(4), F.S., requires such physicians to successfully complete an 8-hour course and examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association that encompasses the clinical indications for the appropriate use of low-THC cannabis, appropriate delivery mechanisms, contraindications for such use, and the state and federal laws governing its ordering, dispensing, and processing.
[17] If a patient is younger than 18 years of age, a second physician must concur with this determination, and such determination must be documented in the patient's medical record.
[18] Section 381.986(2), F.S.
[19] Section 381.986(1)(d), F.S., defines a "qualified patient" as a Florida resident who has been added by a physician licensed under ch. 458 or 459, F.S., to the compassionate use registry to receive low-THC cannabis from a DO.
[20] Section 381.986(7), F.S.

(RTTA).[21] In conjunction with s. 381.986, F.S., the RTTA allows physicians to treat eligible patients with terminal conditions with medical cannabis by including medical cannabis[22] within the definition of an investigational drug, biological product, or device. Physicians must order the use of medical cannabis for those patients pursuant to the provisions of s. 381.986, F.S.

Dispensing Organizations under the Act

Section 381.986, F.S., requires that the DOH approve five DOs, one in each of five regions throughout the state. In order to be approved as a DO, an applicant must possess a certificate of registration issued by the Department of Agriculture and Consumer Services (DACS) for the cultivation of more than 400,000 plants, be operated by a nurseryman, and have been operating as a registered nursery in this state for at least 30 continuous years. DOs must be vertically integrated, meaning the DO performs all stages in the production, processing, marketing, and retailing of low-THC and medical cannabis. Applicants are required to demonstrate:

- The technical and technological ability to cultivate and produce low-THC cannabis;
- The ability to secure the premises, resources, and personnel necessary to operate as a DO;
- The ability to maintain accountability of all raw materials, finished products, and any byproducts to prevent diversion or unlawful access to or possession of these substances;
- An infrastructure reasonably located to dispense low-THC cannabis to registered patients statewide or regionally as determined by the DOH;
- The financial ability to maintain operations for the duration of the two year approval cycle, including the provision of certified financials to the DOH;
- That all owners and managers have been fingerprinted and have successfully passed a Level 2 background screening pursuant to s. 435.04, F.S; and
- The employment of a medical director, who must be a physician[23] and successfully completed a course and examination that encompasses appropriate safety procedures and knowledge of low-THC cannabis.[24]

An approved DO must post a $5 million performance bond within 10 business days of approval. The DOH is authorized to charge an initial application fee and a licensure renewal fee, but is not authorized to charge an initial licensure fee.[25] An approved DO must maintain all approval criteria at all times.[26]

Beginning on July 7, 2014, the DOH held several rule workshops[27] to write and adopt rules implementing the provisions of s. 381.986, F.S., and the DOH put forward a proposed rule on September 9, 2014.[28] This proposed rule was challenged by multiple organizations involved in

[21] Section 499.0295, F.S.
[22] "Medical cannabis" means all parts of any plant of the genus Cannabis, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, sale, derivative, mixture, or preparation of the plant or its seeds or resin that is dispensed only from a DO for medical use by an eligible patient as defined in the Right to Try Act.
[23] Licensed under ch. 458 or 459, F.S.
[24] *Id.*
[25] *Id.*
[26] Section 381.986(6), F.S.
[27] Audio recordings of the rule development workshops are available on the DOH website at: http://www.floridahealth.gov/programs-and-services/office-of-compassionate-use/resources/rulemaking/index.html (last visited Mar. 20, 2017).
[28] Proposed Rule ch. 64-4, F.A.C., ID 14941024, (Aug. 14, 2014) and changed, ID 15040352, (Sept. 9, 2014).

the rulemaking workshops and was found to be an invalid exercise of delegated legislative authority by an administrative law judge on November 14, 2014.[29] Afterward, the DOH held a negotiated rulemaking workshop in February of 2015, which resulted in a new proposed rule being published on February 6, 2015.[30] The new proposed rule was also challenged on, among other things, the DOH's statement of estimated regulatory costs and the DOH's conclusion that the rule will not require legislative ratification. Hearings were held on April 23 and 24, 2015, and a final order was issued on May 27, 2015, which found the rule to be valid.[31] The rule took effect June 17, 2015, and the DOH held an application period for DO approval, which ended on July 8, 2015. Twenty-eight applications were submitted.[32]

On November 23, 2015, the DOH approved a DO in each of the following five regions as required by the act: northwest Florida, northeast Florida, central Florida, southeast Florida, and southwest Florida.[33] Numerous petitions were filed challenging the DOH's selection process. In order to allow the approved DOs to begin dispensing products, the 2016 Legislature required the DOH to approve as a DO applicants that received the highest aggregate score through the DOH's evaluation process, notwithstanding any prior determination by the DOH that the applicant failed to meet the requirements of s. 381.986, F.S. The Legislature also provided that if the Division of Administrative Hearings, the DOH, or a court of competent jurisdiction makes a final determination that an applicant was entitled to be a DO, that both this DO and currently approved DOs may operate in the same region.[34] Currently, in addition to the five DOs originally approved, the DOH has since approved The Green Solution in Alachua County and Grow Health in Polk County. The following map depicts the currently approved DOs.

[29] Tornello Landscape Corp. v. DOH, Case No. 14-4547RP; Fl. Medical Cannabis Assoc. v. DOH, Case No. 14-4517RP; Plants of Ruskin, Inc. v. DOH, Case No. 14-4299RP; Costa Farms, LLC v. DOH, Case No. 14-4296RP (Fla. DOAH 2014). A copy of each Final Order is available on the Division of Administrative Hearings website.

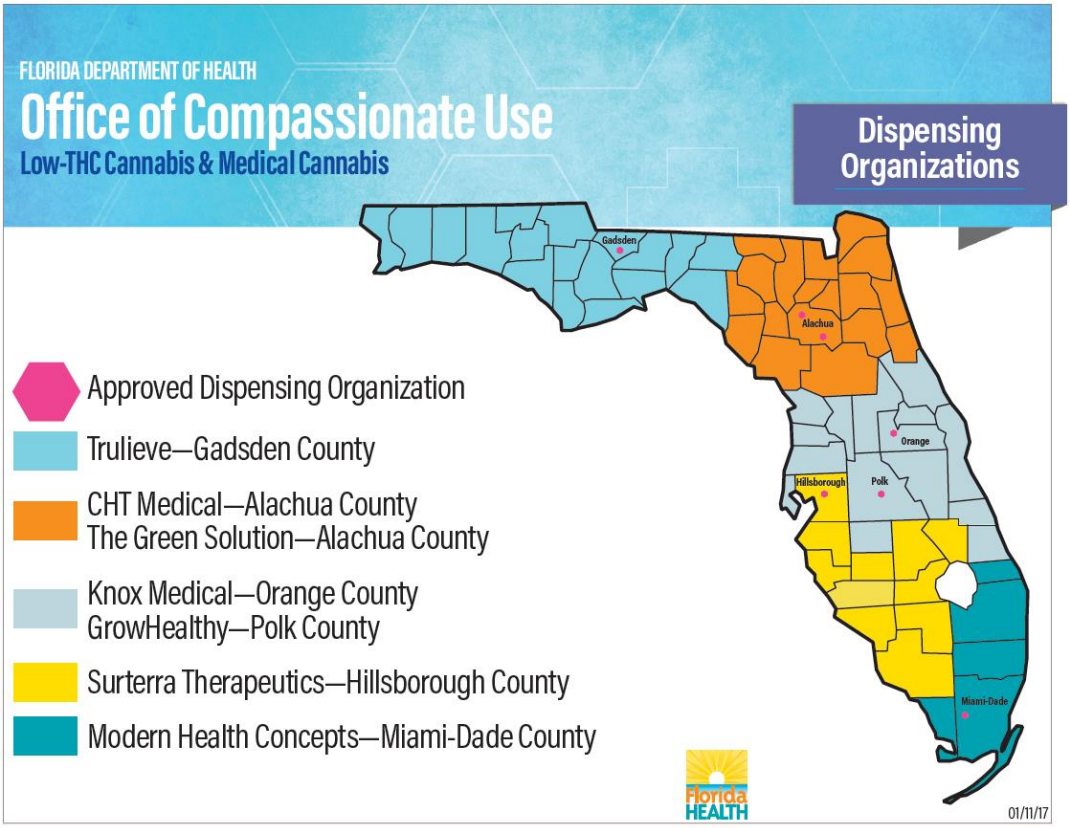
[33] Section 381.986(5)(b), F.S. A map of the dispensing regions and approved dispensing organizations is available on the DOH website at: http://www.floridahealth.gov/programs-and-services/office-of-compassionate-use/_documents/ocu-dispensing-map.pdf (last visited Mar. 20, 2017).
[34] Chapter 2016-123, Laws of Fla.



In addition to the currently approved DOs, s. 381.986(5)(c), F.S., requires the DOH to approve three additional DOs upon the registration of 250,000 active qualified patients in the compassionate use registry. At least one of the newly approved DOs must be an applicant that is a recognized class member of Pigford v. Glickman, 185 F.R.D. 82 (D.D.C. 1999), or In Re Black Farmers Litig., 856 F. Supp. 2d 1 (D.D.C. 2011), and a member of the Black Farmers and Agriculturalists Association. These additional applicants are not required to meet the requirement to possess a certificate of registration issued by the DACS for the cultivation of more than 400,000 plants, be operated by a nurseryman, and have been operating as a registered nursery in Florida for at least 30 continuous years.

The Compassionate Use Registry

The act requires the DOH to create a secure, electronic, and online registry for the registration of physicians and patients and for the verification of patient orders by DOs, which is accessible to law enforcement.[35] The registry must allow DOs to record the dispensing of low-THC cannabis, and must prevent an active registration of a patient by multiple physicians. Physicians must register qualified patients with the registry and DOs are required to verify that the patient has an active registration in the registry, that the order presented matches the order contents as recorded in the registry, and that the order has not already been filled before dispensing any low-THC cannabis. The DOs are also required to record in the registry the date, time, quantity, and form of low-THC cannabis dispensed.[36] The Compassionate Use Registry became operational on

[35] Section 381.986(5)(a), F.S.
[36] Section 381.986(6), F.S.

July 11, 2016.[37] As of the end of February 2017, there were 4,079 patients registered with the Compassionate Use Registry.[38]

The Office of Compassionate Use and Research on Low-THC Cannabis

The DOH was required to establish the Office of Compassionate Use under the direction of the deputy state health officer to administer the act.[39, 40]

The act includes several provisions related to research on low-THC cannabis and cannabidiol including:

- Requiring physicians to submit quarterly patient treatment plans to the UFCP for research on the safety and efficacy of low-THC cannabis;[41]
- Authorizing state universities to perform research on cannabidiol and low-THC cannabis and exempting them from the provisions in ch. 893, F.S., for the purposes of such research;[42] and
- Appropriating $1 million to the James and Esther King Biomedical Research Program for research on cannabidiol and its effects on intractable childhood epilepsy.[43]

Medical Marijuana in Florida: Amendment 2 (2016)

On November 4, 2016, Amendment 2 was voted into law and established Article X, section 29 of the State Constitution. This section of the constitution became effective on January 3, 2017, and creates several exemptions from criminal and civil liability for:

- Qualifying patients medically using marijuana in compliance with the amendment;
- Physicians, solely for issuing physician certifications with reasonable care and in compliance with the amendment; and
- Medical Marijuana Treatment Centers (MMTCs), their agents, and employees for actions or conduct under the amendment and in compliance with DOH rules.

The constitution defines multiple terms including:

- "Qualifying patient" to mean a person who:
  - Has been diagnosed with a "debilitating medical condition;"

[43] Chapter 2014-157, Laws of Fla. The DOH and the University of Florida executed a contract (ID 5EP01) on June 5, 2015, and $483,334 of the $1 million grant award has been spent. Florida Accountability Contract Tracking System (FACTS). *Available at:* https://facts.fldfs.com/Search/ContractDetail.aspx?AgencyId=640000&ContractId=5EP01. (last visited April 16, 2017).

  - Has a "physician certification;" and
  - Has a valid qualifying patient identification card issued by the DOH.
  - In the case of a minor patient, must also have the consent of a parent or legal guardian prior to both obtaining a physician certification and obtaining an identification card from the DOH.[44]
- "Debilitating Medical Condition" to mean:
  - Cancer;
  - Epilepsy;
  - Glaucoma;
  - HIV/AIDS;
  - Post-Traumatic Stress Disorder (PTSD);
  - Amyotrophic lateral sclerosis (ALS);
  - Crohn's Disease;
  - Parkinson's Disease;
  - Multiple Sclerosis; or
  - Another debilitating medical condition of the same kind or class as, or comparable to, the enumerated conditions.
  - Additionally, a physician must believe that the medical use of marijuana would likely outweigh the potential health risks for the patient.
- "Marijuana" to have the meaning given to cannabis in section 893.02(3), F.S. (2014), and, in addition, "low-THC cannabis" as defined in section 381.986(1)(b), F.S. (2014), shall also be included in the meaning of the term "marijuana."
- "Medical Marijuana Treatment Center" or "MMTC" to mean an entity that acquires, cultivates, possesses, processes (including development of related products such as food, tinctures, aerosols, oils, or ointments), transfers, transports, sells, distributes, dispenses, or administers marijuana, products containing marijuana, related supplies, or educational materials to qualifying patients or their caregivers and is registered by the DOH.
- "Medical use" to mean the acquisition, possession, use, delivery, transfer, or administration of an amount of marijuana not in conflict with DOH rules, or of related supplies by a qualifying patient or caregiver for use by the caregiver's designated qualifying patient for the treatment of a debilitating medical condition.
- "Physician Certification" to mean a written document signed by a person who is "licensed to practice medicine" in Florida stating:
  - The physician has conducted a medical examination of the patient and a full assessment of the patient's medical history;
  - That, in the physician's professional opinion, the patient has a debilitating medical condition;
  - That, in the physician's professional opinion, the medical use of marijuana will outweigh the health risks for the patient; and
  - For how long the physician recommends the medical use of marijuana for the patient.

Once certified, a patient may designate one or more caregivers to assist him or her with the medical use of marijuana. The amendment defines a "caregiver" as a person who is at least 21 years of age who has agreed to assist with a qualifying patient's medical use of marijuana and has qualified for and obtained a caregiver identification card issued by the DOH. Caregivers:

[44] This provision is included in the definition of "physician certification."

- Are prohibited from consuming medical marijuana;
- Must obtain an ID card from the DOH;
- Are subject to standards and qualifications established by the DOH including:
  - Background checks;
  - Procedures for issuing ID cards; and
  - Limitations on the number of caregivers per patient and the number of patients per caregiver.

The DOH is required to register MMTCs that will be authorized to acquire, cultivate, possess, process, transfer, transport, sell, distribute, dispense, or administer medical marijuana, related supplies, or educational materials to patients and caregivers. The DOH is required to adopt rules regarding MMTCs including:

- Procedures to register as an MMTC;
- Procedures for the issuance, renewal, suspension, and revocation of MMTC registrations; and
- Standards to ensure proper security, record keeping, testing, labeling, inspection, and safety.

The amendment requires the DOH to adopt rules no later than July 3, 2017, six months after its effective date. The stated purpose of the rules is to ensure the availability and safe use of medical marijuana by qualifying patients. Currently, the DOH has begun the rulemaking process to implement Article X, section 29 of the State Constitution and has held several workshops around Florida.[45] The DOH is required to adopt rules for:

- Issuing patient and caregiver ID cards;[46]
- Procedures for establishing caregiver qualifications;
- Procedures for registering MMTCs; and
- A regulation that defines the amount of marijuana that could reasonably be presumed to be an adequate supply, based on the best available medical evidence. This presumption can be overcome on an individual patient basis.

If the DOH does not adopt rules by the deadline, the amendment creates a cause of action for any Florida citizen to seek judicial relief to compel the DOH's compliance.

Additionally, the DOH is required to begin registering MMTCs and issuing patient and caregiver ID cards by October 3, 2017, nine months after the amendment's effective date. If the DOH does not comply with this requirement, the amendment states that a physician certification is sufficient for a person to become a qualifying patient without being issued an ID card from the DOH.

The amendment also creates a number of specific restrictions on its exemption from liability, and its grants of authority, including specifically:

- Not repealing or allowing violations of other laws related to the non-medical use of marijuana;

[45] Rule 64-4.012, F.A.C., rule notice published on Jan. 17, 2017, *available at* https://www.flrules.org/gateway/ruleNo.asp?id=64-4.012, (last visited on Mar. 20, 2017).

[46] On Feb. 18, 2017, the DOH adopted Rule 64-4.011, F.A.C., addressing the issuance of Compassionate Use Registry Identification Cards. This rule may bring the DOH into compliance with the requirement to adopt rules for issuing ID cards by July 3, 2017; however, the rule may need requiring amending to comply with constitutional terms and to comply with changes to s. 381.986, F.S., provided in this bill.

- Not permitting the operation of any vehicle under the influence of marijuana;
- Not requiring the accommodation of the use of marijuana in specific areas or in any public place;
- Not requiring any health insurance provider to cover the medical use of marijuana; and
- Not affecting laws related to negligence or malpractice on the part of any patient, caregiver, physician, or MMTC agent or employee.

The State Constitution authorizes the Legislature to enact laws consistent with the constitution's language, and provides for severability so that if any clause, sentence, paragraph or section of the amendment, or an application thereof, is found to be invalid by a court of competent jurisdiction, other provisions shall continue to be in effect to the fullest extent possible.

The Revenue Estimating Conference has estimated that under Amendment 2 and the proposed DOH rules, sales tax revenue from medical marijuana sales will be $2.6 million in Fiscal Year 2017-2018 and will increase to $24.3 million in Fiscal Year 2021-2022.

Medical Marijuana in Florida: The Necessity Defense

Despite the fact that the use, possession, and sale of marijuana are prohibited by state law, Florida courts have found that circumstances can necessitate medical use of marijuana and circumvent the application of criminal penalties. The necessity defense was successfully applied in a marijuana possession case in *Jenks v. State* where the First District Court of Appeal found that s. 893.03, F.S., does not preclude the defense of medical necessity for the use of marijuana if the defendant:

- Did not intentionally bring about the circumstance which precipitated the unlawful act;
- Could not accomplish the same objective using a less offensive alternative available; and
- The evil sought to be avoided was more heinous than the unlawful act.[47]

In the cited case, the defendants, a married couple, were suffering from uncontrollable nausea due to AIDS treatment and had testimony from their physician that he could find no effective alternative treatment. Under these facts, the court found that the defendants met the criteria to qualify for the necessity defense and ordered an acquittal of the charges of cultivating cannabis and possession of drug paraphernalia.

Medical Marijuana Laws in Other States

Currently, 28 states, the District of Columbia, and Guam have some form of law that permits the use of marijuana for medicinal purposes.[48] These laws vary widely in detail but most share

[47] *Jenks v. State*, 582 So.2d 676, 679 (Fla. 1st DCA 1991), *review denied*, 589 So.2d 292 (Fla. 1991).

[48] These states include: Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Hawaii, Illinois, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, and Washington. California was the first to establish a medical marijuana program in 1996 and New York was the most recent state to pass medical marijuana legislation in June 2014. Seventeen states allow limited access to marijuana products (low-THC and/or high CBD-cannabidiol). Alabama, Florida, Georgia, Iowa, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Utah, Virginia, Wisconsin, and Wyoming. National Conference of State Legislatures, *State Medical Marijuana Laws*, (Mar. 16, 2017), *available at* http://www.ncsl.org/research/health/state-medical-marijuana-laws.aspx (last visited Mar. 20, 2017).

certain features. For example, most state laws require an identification card and registry for patients and caregivers to use medical marijuana; require the patient to receive certification from up to two physicians that the patient has a qualifying condition before the patient may use medical marijuana; allow a patient to designate a caregiver who can possess the medical marijuana and assist the patient in using the medical marijuana; and provide general restrictions on how medical marijuana can be obtained (self-cultivated or from a dispensary) and where it can be used.[49]

Of the 17 states with low-THC cannabis laws similar to s. 381.986, F.S., most specify that the use of such low-THC cannabis is reserved for patients with epileptic or seizure disorders. Florida allows the treatment of cancer and Georgia allows the treatment of end stage cancer and other specified conditions. Additionally, the definition of low-THC cannabis differs from state to state. The THC level allowed ranges from a high of below five percent to less than 0.3 percent; most states restrict the level of THC to below one percent. CBD levels are generally required to be high, with most states requiring at least 10 percent.[50]

Interaction with the Federal Government

The federal Controlled Substances Act lists marijuana as a Schedule 1 drug and provides no exceptions for medical uses.[51] Possession, manufacture, and distribution of marijuana is a crime under federal law.[52] Although a state's medical marijuana laws protect patients from prosecution for the legitimate use of marijuana under state law, state medical marijuana laws, or Constitutional provisions, do not protect individuals from prosecution under federal law.

In 2013, the U.S. Department of Justice (USDOJ) issued statements indicating that the federal government would not pursue cases for low-level drug crimes, leaving such prosecutions largely up to state authorities. The U.S. Attorney General issued a statement that the USDOJ was changing policy such that individuals "who have committed low-level, nonviolent drug offenses, who have no ties to large-scale organizations, gangs, or cartels, will no longer be charged with offenses that impose draconian mandatory minimum sentences… [and] would instead receive sentences better suited to their individual conduct…"[53] Further, the USDOJ issued a memorandum clarifying that the department considers small-scale marijuana use to be a state matter which states may choose to punish, and certain operations adhering to state laws legalizing marijuana in conjunction with robust state regulatory systems would be far less likely to come under federal scrutiny.[54] In addition, a rider in recent appropriations acts and continuing resolutions has prohibited the USDOJ from using appropriated funds to prevent specified states

[49] Analysis by Senate Health Policy committee staff of s*upra* note 49.

[54] USDOJ Memorandum for all U.S. Attorneys from James M. Cole, Deputy Attorney General, *Guidance Regarding Marijuana Enforcement* (August 29, 2013), *available at* http://www.justice.gov/iso/opa/resources/305201382913275685746 7.pdf (last visited Mar. 20, 2017).

(including Florida) from implementing the states' own medical marijuana laws.[55] It is worth noting that, with the election of President Trump and changes to the leadership of the USDOJ, the guidance issued by the USDOJ may be amended in the future; however, it would require an act of Congress to amend the rider preventing the USDOJ from using funds to prevent specified states from implementing medical marijuana laws.

III. Effect of Proposed Changes:

In addition to technical and conforming changes made by the bill to ss. 381.986, 381.987, 385.211, 499.0295, and 1004.441, the bill substantially amends s. 381.986, F.S.

Legislative Intent

The bill adds the legislative intent:

- To implement Art. X, s. 29 of the State Constitution by creating a unified regulatory structure for the acquisition, cultivation, possession, processing, transfer, transportation, sale, distribution, and dispensing of marijuana, marijuana products, related supplies, and educational materials;
- That all rules adopted by the DOH to implement the section be adopted pursuant to ch. 120, F.S., and that the DOH may use emergency rulemaking procedures to adopt rules if necessary to meet any rulemaking deadlines established in Art. X, s. 29 of the State Constitution; and
- That all registrations for MMTC activities be issued solely in accordance with the requirements of this section and rules adopted under the section.

Definitions

The bill:

- Conforms the definitions for "caregiver," "debilitating medical condition," "marijuana," "medical marijuana treatment center" or "MMTC," to the definitions in Article X section 29 of the State Constitution.
- Uses the constitutional definition for "medical use" but amends the definition to restrict:
  - Smoking;
  - The possession, use, or administration of marijuana not purchased from an MMTC;
  - The transfer of marijuana to anyone other than a qualifying patient or his or her caregiver;
  - The use or administration of any type or amount of marijuana not specified on a qualifying patient's physician certification; and
  - The use or administration of marijuana:
    - On any form of public transportation;
    - In any public place;

[55] *See* Pub. Law No. 114-113, s. 542 (Consolidated Appropriations Act, 2016). A recent court order by the U.S. District Court for the Northern District of California recently held that a similar provision in the previous appropriations act (s. 538, Pub. L. No. 113-235) does not prohibit the USDOJ from enforcing violations of *federal* marijuana laws by individuals or businesses who are complying with state medical marijuana laws. U.S. v. Marin Alliance for Medical Marijuana and Shaw, Order re: Motion to Dissolve Permanent Injunction, No. C 98-00086 CB, (Oct. 19, 2015), available at http://www.scribd.com/doc/286089509/US-vs-Marin-Alliance-for-Medical-Marijuana#scribd (last visited Mar. 20, 2017).

    - In a qualifying patient's place of employment if restricted by his or her employer;
    - In a state correctional institution;
    - On the grounds of a preschool, primary school, or secondary school; or
    - On a school bus or in a vehicle, aircraft, or motorboat.
- Uses the constitutional definition for "qualifying patient," but also includes "eligible patients" as defined in the Right to Try Act, patients suffering from a physical medical condition that produces symptoms of seizures or severe and persistent muscle spasms, and patients suffering from chronic nonmalignant pain.
- Adds definitions for:
    - "Chronic nonmalignant pain" to mean pain that is caused by a debilitating medical condition or that originates from a debilitating medical condition and persists beyond the usual course of that debilitating medical condition; and
    - "Close relative" to mean a spouse, parent, sibling, grandparent, child, or grandchild, whether related by whole or half-blood, by marriage, or by adoption.

Physician Certifications

The bill allows physicians to issue physician certifications to:
- A patient suffering from a debilitating medical condition;
- A patient suffering from a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms;[56]
- A patient suffering from chronic nonmalignant pain, if the physician has diagnosed an underlying debilitating medical condition as the cause of the pain, which allows the patient to receive marijuana for the patient's medical use to alleviate the patient's pain;
- An eligible patient as defined in the Right to Try Act; or
- A patient who is not a Florida resident and who qualifies under one of the above listed conditions and who can lawfully receive marijuana in the state in which he or she resides.

Before certifying a patient the physician must:
- Be licensed under ch. 458 or 459, F.S.;
- Have successfully completed the required 4-hour course and exam administered by the Florida Medical Association or the Florida Osteopathic Medical Association each time the physician renews his or her license;[57]
- Have conducted a full assessment of the patient's medical history;
- Have determined that, in the physician's professional opinion, the patient meets one of the criteria specified above;
- Have determined that the medical use of marijuana would likely outweigh the potential health risks to the patient;
- Have reviewed the compassionate use registry and confirmed that the patient does not have an active physician certification issued by another physician; and
- Have obtained the voluntary written informed consent of the patient or, if the patient is a minor, the patient's parent or legal guardian, after having sufficiently explained the current

[56] Such patient may receive only low-THC cannabis if the patient does not meet any of the other qualifications.
[57] Section 381.986(4)(a), F.S., requires an 8-hour course and exam which must be retaken biannually.

state of knowledge in the medical community of the effectiveness of treatment of the patient's condition with marijuana and the potential risks and side effects.[58]

For patients under the age of 18, a second physician must concur with the treating physician's determination that the medical use of marijuana would likely outweigh the health risks for the patient. Additionally, patients under the age of 18 are restricted from purchasing marijuana and are required to have a parent, legal guardian, caregiver, or health care provider assist them in purchasing and administering marijuana.

The physician must also register as the treating physician with the compassionate use registry. The bill increases the amount of marijuana a physician may certify a patient to receive from a 45-day supply to a 90-day supply and allows a physician to certify a patient for longer than the 90-day period if the physician believes that the patient will use the additional marijuana in a medically appropriate way. Patients must be recertified at least annually. A physician may not issue physician certifications if he or she is a medical director employed by an MMTC.

The bill also grandfathers in all orders for low-THC cannabis issued prior to the effective date of the act as physician certifications, and requires the DOH to consider patients with such orders as qualifying patients until the DOH begins issuing compassionate use registry identification cards.

Prohibited Acts

The bill:

- Conforms existing penalties to the changes made by the bill;
- Creates two new misdemeanors for a qualifying patient or caregiver who cultivates marijuana or who purchases or acquires marijuana from any person or entity other than an MMTC[59] and a caregiver who violates any of the applicable provisions of this section or applicable department rules;[60]
- Specifies that an MMTC may not advertise services that it is not registered to provide; and
- Prohibits any person or entity from offering or advertising services as an MMTC without being registered as an MMTC. The bill establishes penalties for unlicensed activity including fines of up to $10,000 per day, and that the DOH or any state attorney may bring action for an injunction of the activity until compliance has been established to the satisfaction of the DOH. The bill also allows the DOH to assess reasonable investigative and legal costs for a successful prosecution.

Caregivers

The bill allows a qualifying patient to designate a caregiver to assist him or her with the medical use of marijuana. The bill requires the DOH to register a caregiver and issue him or her a compassionate use registry identification card if designated by a qualifying patient, and the caregiver:

- Is 21 years of age or older, unless the patient is a close relative of the caregiver;

[58] If the patient is an eligible patient, the physician must obtain written informed consent pursuant to s. 499.0295, F.S.
[59] A first degree misdemeanor.
[60] A second degree misdemeanor on the first offense and a first degree misdemeanor on subsequent offenses.

- Agrees in writing to be the qualifying patient's caregiver;
- Does not receive compensation, other than actual expenses incurred, for assisting the qualifying patient with the medical use of marijuana unless the caregiver is acting pursuant to employment in a licensed facility in accordance with subparagraph (c)2.; and
- Passes a Level 2 background screening pursuant to ch. 435, F.S., unless the patient is a close relative of the caregiver.

A qualifying patient may have only one designated caregiver at a time unless all of the patient's caregivers are his or her close relatives or legal representatives. A caregiver may assist only one patient at a time unless:

- All qualifying patients the caregiver is assisting are close relatives of each other and the caregiver is the legal representative of at least one of the patients; or
- All qualifying patients the caregiver is assisting are receiving hospice services, or are residents, in the same assisted living facility, nursing home, or other licensed facility and have requested the assistance of that caregiver with the medical use of marijuana; the caregiver is an employee of the hospice or licensed facility; and the caregiver provides personal care or services directly to clients of the hospice or licensed facility as a part of his or her employment duties at the hospice or licensed facility.
- A nursing home or assisted living facility may not prevent a qualifying patient residing in the nursing home or assisted living facility from hiring a caregiver, but a nursing home or assisted living facility may prohibit its employees from acting as caregivers to residents of the nursing home or assisted living facility. A nursing home or assisted living facility is not required to provide a caregiver to a resident who is a qualifying patient.

Duties of the DOH

Compassionate Use Registry

The bill requires the DOH to expand access to the compassionate use registry to:

- Practitioners licensed under ch. 458 or 459, F.S., to ensure proper care for patients requesting physician certifications; and
- Practitioners licensed to prescribe prescription drugs, to ensure proper care for patients before prescribing medications that may interact with the medical use of marijuana;

The bill specifies that law enforcement agencies may check the registry to verify the authorization of a qualifying patient or a patient's caregiver to possess marijuana or a cannabis delivery device.

Compassionate Use Registry Identification Cards

By July 3, 2017, the bill requires the DOH to adopt rules establishing procedures for the issuance, annual renewal, suspension, and revocation of compassionate use registry identification cards for patients and caregivers who are residents of this state. The bill allows the DOH to charge a reasonable fee for issuing and renewal of identification cards. The bill requires that the DOH begin issuing identification cards to patients and caregivers by October 3, 2017. Minor patients must provide the DOH with written consent from a parent or a legal guardian before being issued an identification card. Identification cards may be issued to Florida residents, who must provide proof of permanent residency, or to out-of-state patients who will be in the state for

at least three consecutive months and who are eligible to receive marijuana legally in their state of residency through a medical marijuana program.

The bill specifies that the identification cards must be resistant to counterfeiting and tampering and at a minimum contain:

- The name, address, and date of birth of the patient or caregiver, as appropriate;
- A full-face, passport-type, color photograph of the patient or caregiver, as appropriate, taken within the 90 days immediately preceding registration;
- Designation of the cardholder as a patient or caregiver;
- A unique numeric identifier for the patient or caregiver which is matched to the identifier used for such person in the department's compassionate use registry. A caregiver's identification number and file in the compassionate use registry must be linked to the file of the patient or patients the caregiver is assisting so that the caregiver's status may be verified for each patient individually;
- The expiration date, which shall be one year after issuance or the date treatment ends as provided in the patient's physician certification, whichever occurs first; and
- For caregivers who are assisting three or fewer qualifying patients, the names and unique numeric identifiers of the qualifying patient or patients that the caregiver is assisting.

Dispensing Organization Grandfathering

The bill requires the DOH to grandfather in all existing DOs as MMTCs as soon as practicable.[61] The DOH may not charge the DOs a registration fee and the bill states that, for the purposes of the act, all DOs are deemed to be MMTCs on the effective date of the act. The bill requires that the DOs continue to comply with all representations made in their applications to be dispensing organizations after being registered as MMTCs and allows the DOH to grant variances to those representations.

Additional MMTCs

The bill requires that, by October 3, 2017, the DOH register five additional MMTCs with at least one applicant that is a recognized class member of Pigford v. Glickman, 185 F.R.D. 82 (D.D.C. 1999) or In re Black Farmers Litig., 856 F. Supp. 2d 1 (D.D.C. 2011) and a member of the Black Farmers and Agriculturalists Association. Additionally, within six months of each instance of the registration of 75,000 patients in the compassionate use registry, the DOH must register four additional MMTCs. The DOH must identify applicants with strong diversity plans, and implement training programs and other educational programs to enable minority persons,[62] minority businesses,[63] and veteran businesses[64] to compete for MMTC registration and contracts. The bill retains the requirement that MMTCs be vertically integrated, but eliminates the requirements that MMTCs possess a valid certificate of registration issued by the DACS pursuant to s. 581.131, F.S., that is issued for the cultivation of more than 400,000 plants, be operated by a nurseryman as defined in s. 581.011, F.S., and have been operated as a registered nursery in this state for at least 30 continuous years. The bill requires that all applicants must be

[61] Including DOs that become MMTCs pursuant to the results of litigation (see present situation for details).
[62] Section 288.703(4), F.S.
[63] Section 288.703(3), F.S.
[64] Section 295.187(3)(c), F.S.

registered to do business in Florida for at least five continuous years prior to applying, and must demonstrate the ability to implement a diversity plan that promotes and ensures the involvement of minority persons and minority business enterprises or veteran business enterprises in ownership, management, employment, and contracting opportunities. The bill also restricts the DOH from issuing more than one MMTC registration to a person or entity.

Independent Testing Laboratories

The bill authorizes the establishment of independent testing laboratories (ITLs) to collect and accept samples of, possess, store, transport, and test marijuana. All MMTCs are required to have their marijuana tested at an ITL to ensure that it meets DOH standards before it is dispensed. All ITLs must be licensed by the DOH except clinical laboratories licensed by the Agency for Health Care Administration (AHCA) which are exempt from this requirement. The DOH is required to adopt rules for ITL licensure requirements and a process for licensing ITLs including an application form, an initial application fee, and a biennial renewal fee.

In addition to licensure, the bill also requires that ITLs be certified by the DOH to perform all required tests. The DOH must issue a certification to an ITL that has been certified by a third-party laboratory certification body approved by the DOH. The DOH must adopt rules for certifying ITLs including rules for personnel qualifications, equipment and methodology, proficiency testing, tracking, sampling, chain of custody, record and sample retention, reporting, audit and inspection, and security.

The bill specifies that an ITL may accept samples only from a sample source approved by the DOH which, at a minimum, must include an MMTC, a researcher affiliated with an accredited university or research hospital, a qualifying patient, or a caregiver.

Quality Control Program

The bill requires the DOH to establish a marijuana quality control program that must require MMTCs to submit samples from each batch or lot of marijuana harvested or manufactured to an ITL to ensure that, at a minimum, labeling of the potency of THC and other marketed cannabinoids or terpenes is accurate and that it is safe for human consumption. The MMTC is required to maintain records of all tests conducted including the results and any other information required by the DOH. The DOH is required to adopt rules to create and oversee the program which must, at a minimum, include:

- Permissible levels of variation in potency labeling and standards requiring THC be consistently distributed throughout edible marijuana products;
- Permissible levels of contaminants and mandatory testing for contaminants including, but not limited to, testing for microbiological impurity, residual solvents, and pesticide residues;
- The destruction of marijuana determined to be inaccurately labeled or unsafe for human consumption after the MMTC has an opportunity to take remedial action;
- The collection, storage, handling, recording, and destruction of samples of marijuana by ITLs; and
- Security, inventory tracking, and record retention.

The bill also requires the DOH to reduce or suspend any testing requirement in its quality control program if the number of licensed and certified ITLs is insufficient to process the tests necessary to meet patient demand.

Seed-to-Sale Tracking System

The bill requires the DOH to establish, maintain, and control a computer software tracking system that traces marijuana from seed to sale. The tracking system must allow real-time, 24-hour access by the DOH to data from all MMTCs and ITLs and must, at a minimum, include notification of when marijuana seeds are planted, when marijuana plants are harvested and destroyed, and when marijuana is transported, sold, stolen, diverted, or lost. Each MMTC must use the seed-to-sale tracking system selected by the DOH.

MMTC Requirements

The requirements for MMTCs are substantially similar to the requirements for DOs in current law. The bill amends requirements for MMTCs so that:

- MMTCs are required to maintain compliance with all the representations made to the DOH in the MMTC's application for registration.
  - Upon request, the DOH may grant an MMTC one or more variances from the representations made in the MMTC's application.
  - Consideration of such a variance shall be based upon the individual facts and circumstances surrounding the request.
  - A variance may not be granted unless the requesting MMTC can demonstrate to the department that it has a proposed alternative to the specific representation made in its application which fulfills the same or a similar purpose as the specific representation in a way that the DOH can reasonably determine will not be a lower standard than the specific representation in the application.
- MMTCs are required to label all marijuana with the concentration of THC and CBD in the product and with the recommended dose for the qualifying patient receiving it.
- MMTCs are allowed to produce edible products, but may not produce such items that are designed to be attractive to children. Additionally, MMTCs must meet all food safety standards established in state and federal law, including, but not limited to, the identification of the serving size and the amount of THC in each serving.
- MMTCs may not dispense marijuana from more than three dispensing facilities. This limitation does not apply to retail facilities that dispense only low-THC cannabis and sell marijuana delivery devices to qualified patients.
- When transporting marijuana, a copy of the transportation manifest must be in the vehicle at all times.

The bill requires the DOH to approve an MMTC's request for a change in ownership, equity structure, or transfer of registration to a new entity under certain conditions, and requires the DOH to adopt by rule a process for approving MMTC changes in ownership and changes in an MMTC owner's investment interest.

Rulemaking

The bill requires the DOH to adopt emergency rules pursuant to s. 120.54(4), F.S., as necessary to implement the section. The bill states that if an emergency rule adopted under this section is voided due to being held unconstitutional or an invalid exercise of delegated legislative authority, the DOH and any applicable boards may adopt an emergency rule to replace the voided rule. However, if the second emergency rule is voided, the DOH and the applicable boards must adopt rules based on standard procedures.

The bill exempts emergency rules from the requirement to make findings pursuant to s. 120.54(4)(a), F.S.;[65] from ss. 120.54(3)(b),[66] 120.541,[67] and 120.54(4)(c), F.S.[68] The DOH and applicable boards must meet the procedural requirements in s. 120.54(2)(a), F.S.,[69] if the DOH or the applicable boards have, before the effective date of the act, held any public workshops or hearings on the subject matter of the emergency rules. Additionally, challenges to emergency rules adopted under this section are subject to the time schedules provided in s. 120.56(5), F.S.[70] Emergency rules adopted under this section remain in effect until they are replaced by rules adopted through normal procedures. The DOH must begin nonemergency rulemaking by January 1, 2018, and may not use emergency rulemaking procedures after that date, unless replacing emergency rules deemed invalid.

Miscellaneous Provisions

The bill:

- Specifies that nothing in the act limits the ability of an employer to establish, continue, or enforce a drug-free workplace program or policy and that an employer is not required to accommodate the use of marijuana in the workplace or any employee working while under the influence of the marijuana.
- Specifies that nothing in the section creates a cause of action against an employer for wrongful discharge or discrimination.
- Creates an additional exemption from criminal penalties related to marijuana for research institutions established by a public postsecondary educational institution, such as the H. Lee Moffitt Cancer Center and Research Institute, and for state universities that have achieved preeminent state research university designation.[71]

[65] Section 120.54(a)3., F.S., requires the agency publishing emergency rules to also publish in writing at the time of, or prior to, its action the specific facts and reasons for finding an immediate danger to the public health, safety, or welfare and its reasons for concluding that the procedure used is fair under the circumstances.
[66] The requirement to prepare a statement of estimated regulatory cost (SERC) and to consider the impact of rules on small business, small counties, and small cities.
[67] Detailing the requirements of a SERC.
[68] Restricting an emergency rule from being effective for more than 90 days with some exceptions.
[69] Requiring notice of rule development be published prior to filing for rule adoption.
[70] The DOAH has seven days to assign an administrative law judge who must conduct the hearing within 14 total days (including the days used in assigning the judge). The judge then has 14 days after the hearing to render a decision.
[71] Pursuant to s. 1001.7065, F.S.

The Medical Marijuana Research and Education Act

The bill creates s. 1004.4351, F.S., to create the Medical Marijuana Research and Education Act. The act:

- Establishes the Coalition for Medicinal Cannabis Research and Education (Coalition) within the H. Lee Moffitt Cancer Center and Research Institute, Inc. (MCCRI) and provides that the Coalition's purpose is to conduct rigorous scientific research, provide education, disseminate research, and to guide policy development for the adoption of a statewide policy on ordering and dosing practices for the medicinal use of cannabis.
  - Beginning January 1, 2018, the DOH must submit quarterly to the coalition information for each patient registered with the compassionate use registry, including the patient's debilitating medical condition, the amount and duration of the patient's marijuana recommendation, the method of marijuana administration and any delivery device, and the patient's certifying physician.
  - The coalition must review these data and determine whether state law and rules should be modified to address abuse or fraud of the system established in Article X, section 29 of the State Constitution, and state law and rules, and if so, must include recommendations to address such abuse or fraud.
- Creates the Medicinal Cannabis Research and Education Board (Board) to direct the Coalition's operations. Additionally, the bill specifies Board membership requirements and requires the Board to:
  - Advise the Board of Governors, the State Surgeon General, the Governor, and the Legislature with respect to medicinal cannabis research and education in Florida.
  - Explore methods of implementing and enforcing medicinal cannabis laws in relation to cancer control, research, treatment, and education.
  - Annually adopt a plan for medicinal cannabis research, known as the Medicinal Cannabis Research and Education Plan (Plan) in accordance with state law, and must include recommendations for the coordination and integration of medical, nursing, paramedical, community, and other resources connected with the treatment of debilitating medical conditions, research related to the treatment of such conditions, and education.
  - Issue an annual report, by February 15, to the Governor, the President of the Senate, and the Speaker of the House Representatives on research projects, community outreach initiatives, and future plans for the Coalition.
- Provides that the Coalition must be administered by a director who, subject to Board approval, must:
  - Propose a budget.
  - Foster the collaboration of scientists, researchers, and other appropriate personnel.
  - Identify and prioritize the Coalition's research.
  - Prepare the Plan for submission to the Board.
  - Apply for grants to obtain funding for the Coalition's research.
  - Perform other Board specified duties.
- Requires the MCCRI to allocate staff, information, and assistance to assist the Board.

The bill is effective upon becoming law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

Article X, section 29 of the State Constitution is a unique provision in that it directs a state agency, the DOH, to implement its provisions without requiring implementing legislation. However, Article X, section 29(4)(e) of the State Constitution, does provide that nothing in that section shall limit the Legislature from enacting laws consistent with the section. Given the novelty of the constitutional provision, it is unclear how the courts will interpret its provisions as well as the interaction between its provisions and implementing legislation and rules.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that the bill has a positive but indeterminate fiscal impact on state revenues.

B. Private Sector Impact:

The bill will create opportunities for new MMTCs that are called for under its provisions, and for independent testing laboratories. Existing DOs may face a more competitive marketplace due to the increase in the number of allowed suppliers of marijuana, but the number of patients using their services is also expected to grow.

Patients and caregivers will be required to pay for identification cards, and caregivers and employees of MMTCs must pay for background screening.

C. Government Sector Impact:

The bill has an indeterminate fiscal impact on the DOH due to the cost of increased regulatory, training, and other educational activities required by the bill, which should be offset by fees and fines the DOH is allowed to assess. The DOH estimates that fees and

fines may generate between $6.1 million and $8.6 million while total expenditures may be between $6 million and $8.9 million.[72]

The FDLE estimates that revenues derived from the bill for the FDLE may range from $9 million to $18 million generated by fees for criminal history records checks.[73] The FDLE analysis indicates that implementation of the bill will require 16 FTEs to perform criminal history background checks, two additional toxicology analysts, and two additional fingerprint analysts. Cost estimates provided by the FDLE for the additional staff are $1,278,157 in Fiscal Year 2017-2018, and $1,197,237 on a recurring basis; however, fees for criminal history records checks should offset these costs.[74]

The bill may have an indeterminate fiscal impact on local governments. Local governments may see a positive fiscal impact from fees associated with licensing and inspecting additional MMTC facilities as permitted by current law and may derive additional tax revenue from the sale of marijuana. Local governments may see a negative fiscal impact due to the expenses associated with implementing ordinances and undertaking regulatory activities required by such ordinances.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Although the bill allows MMTCs to use contractors in general, it is unclear from the text of the bill what limits are placed on how an MMTC may use a contractor. The bill should be clarified to specify the duties a contractor may perform for an MMTC.

The FDLE notes that entering results obtained from a state or criminal history record check into a registry, as the bill appears to require DOH to do with information it receives from physicians, patients and caregivers, is prohibited by Public Law 92-544. Similarly, the provision in the bill that the application form for registration as an MMTC must demonstrate that all owners and managers have been fingerprinted and have successfully passed a level 2 background screening is also prohibited by Public Law 92-544.[75]

The bill allows a physician to certify an amount greater than a 90-day supply of marijuana if he or she has reasonable belief that the patient will use the additional marijuana in a medically appropriate way; however, the bill does not apply the exception to the 90-day supply limit of marijuana to the exemptions from criminal penalties contained in chapter 893, F.S. The bill should be clarified to apply the exception to the 90-day supply limit of marijuana consistently throughout the bill.

---

[72] The DOH states that expenditures are highly dependent on the number of qualifying patients. See DOH, *Senate Bill 406 Analysis* (Feb. 14, 2017) (on file with the Senate Committee on Health Policy).

[73] The fee depends on whether or not caregivers are intended to be entered into the clearinghouse. See FDLE, *Senate Bill 406 Analysis* (Feb. 15, 2017) (on file with the Senate Committee on Health Policy).

[74] FDLE, *Senate Bill 406 Analysis* (Feb 15, 2017) (on file with the Senate Appropriations Subcommittee on Finance and Tax).

[75] FDLE, *Senate Bill 406 Analysis* (Feb 15, 2017) (on file with the Senate Appropriations Subcommittee on Finance and Tax).

The bill prohibits a caregiver from receiving compensation, other than actual expenses incurred, but also provides that a nursing home or assisted living facility may not prevent a qualifying resident patient from hiring a caregiver. A common definition of "hiring" is "engaging the services of [a person] for a fee"[76] which appears to be inconsistent with the compensation prohibition.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 381.986, 381.987, 385.211, 499.0295, and 1004.441.

The bill creates section 1004.4351 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The committee substitute:

- Requires a physician who issues a physician certification for marijuana to successfully complete the 4-hour course each time he or she renews his or her license.
- Requires a physician to review the compassionate use registry to confirm that a patient who is seeking certification does not have an active certification issued by another physician.
- Deletes the requirement that a certifying physician submit a patient treatment plan quarterly to the University of Florida College of Pharmacy.
- Requires that a Florida resident seeking certification must provide proof of permanent residence for a patient or, for a minor patient, for the patient's parent or guardian.
- Requires that a patient seeking certification who is not a Florida resident must provide proof that he or she is eligible to receive marijuana in his or her state of permanent residence and that he or she will be remaining in Florida for at least three consecutive months.
- Provides that a nursing home or assisted living facility may not prevent a qualifying patient residing in the nursing home or assisted living facility from hiring a caregiver, but a nursing home or assisted living facility may prohibit its employees from acting as caregivers to residents of the nursing home or assisted living facility, and a nursing home or assisted living facility is not required to provide a caregiver to a resident who is a qualifying patient.
- Provides that the DOH must identify applicants with strong diversity plans, and implement training programs and other educational programs to enable minority persons, minority businesses, and veteran businesses to compete for MMTC registration and contracts.

[76] *The American Heritage Dictionary*(2nd coll. ed. 1982)

- Requires an MMTC applicant to demonstrate the ability to implement a diversity plan that promotes and ensures the involvement of minority persons and minority business enterprises or veteran business enterprises in ownership, management, employment, and contracting opportunities.
- Limits MMTCs to three dispensing facilities. This limitation does not apply to facilities that only dispense low-THC cannabis and sell marijuana delivery devices to qualified patients.
- Provides that the DOH shall approve an MMTC's request for a change in ownership, equity structure, or transfer of registration to a new entity that meets the requirements of an MMTC application if persons seeking a five percent or greater equity interest in the MMTC are fingerprinted and have successfully passed a level 2 background screening. A request for a change in ownership, equity structure, or transfer of registration is deemed approved if not denied by the DOH within 15 days.
- Beginning January 1, 2018, requires the DOH to submit quarterly to the Coalition for Medicinal Cannabis Research and Education information for each patient registered with the compassionate use registry, including the patient's debilitating medical condition, the amount and duration of the patient's marijuana recommendation, the method of marijuana administration and any delivery device, and the patient's certifying physician. The coalition must review these data and determine whether state law and rules should be modified to address abuse or fraud of the system established in Article X, section 29 of the State Constitution, and state law and rules, and if so, must include recommendations to address such abuse or fraud.

CS by Health Policy on April 3, 2017:
The CS amends SB 406 to:

- Add legislative intent.
- Reinstate the requirement that a second physician confirm a diagnosis when certifying a person under the age of 18 and require a parent, legal guardian, caregiver, or health care provider to purchase marijuana for qualifying patients under the age of 18.
- Allow a physician to certify out of state patients that meet Florida requirements for treatment with marijuana.
- Allow a physician to certify a patient for greater than a 90-day supply if the physician believes the patient will use the marijuana appropriately.
- Specify that MMTCs may not advertise services that they are not registered to provide.
- Prohibit any person or entity from offering or advertising services as an MMTC without being registered as an MMTC and provide penalties for unlicensed activity.
- Require the DOH to register five additional MMTCs by October 3, 2017, including one that is a member of the Black Farmers and Agriculturalists Association.
- Require the Department of Health to add four new MMTCs within six months after the registration of each instance of 75,000 patients in the Compassionate Use Registry.
- Require that all MMTC applicants be registered to do business in Florida for at least five consecutive years prior to submitting their application.
- Prohibit any person or entity from being issued more than one MMTC registration.

- Require the DOH to license ITLs (clinical laboratories licensed by the AHCA are exempt from this requirement). ITLs must also be certified by the DOH to perform all required tests. The DOH must certify an ITL that has third-party accreditation from an accrediting body approved by the DOH. The DOH must adopt rules for licensure and certification of ITLs.
- Require the DOH to establish a quality control program for the testing of marijuana. The program must require MMTCs to submit samples of marijuana to an ITL to ensure minimum standards are met. The DOH must adopt rules to create and oversee the program.
- Require the DOH to establish, maintain, and control a seed-to-sale tracking system.
- Authorize an employer to deny accommodation for the ingestion of marijuana in the workplace or for any employee working while under the influence of marijuana.
- Specify that the section does not create a cause of action for wrongful discharge or discrimination.
- Incorporate an exemption from criminal laws for research institutions performing research on marijuana.
- Require the DOH to abide by the provisions of ch. 120, F.S., when adopting rules to implement this section and allows the department to use emergency rulemaking procedures.
- Establish the "Medical Marijuana Research and Education Act" to:
  - Create the Coalition for Medical Marijuana Research and Education within the H. Lee Moffitt Cancer Center and Research Institute, Inc.;
  - Task the coalition with conducting rigorous scientific research, providing education, disseminating research, and guiding policy for the adoption of a statewide policy on ordering and dosing practices for medical marijuana;
  - Specify the make-up of the coalition including the duties of the director of the coalition;
  - Require the coalition to annually adopt a research plan; and
  - Require the coalition to annually report to the Governor and the Legislature on research projects, community outreach, and future plans.

B. Amendments:

None.

By the Committee on Health Policy; and Senators Bradley, Young, and Hutson

588-03368A-17 2017406c1

A bill to be entitled

An act relating to compassionate use of low-THC cannabis and marijuana; amending s. 381.986, F.S.; providing legislative intent; defining and redefining terms; authorizing physicians to issue physician certifications to specified patients who meet certain conditions; authorizing physicians to make specific determinations in certifications; requiring physicians to meet certain conditions to be authorized to issue and make determinations in physician certifications; specifying certain persons who may assist a qualifying patient under the age of 18 in the purchasing and administering of marijuana; prohibiting qualifying patients under the age of 18 from purchasing marijuana; providing that a physician may in certain circumstances certify an amount greater than a 90-day supply; requiring written consent of a parent or legal guardian for the treatment of minors; requiring that certain physicians annually reexamine and reassess patients and update patient information in the compassionate use registry; revising criminal penalties; prohibiting a medical marijuana treatment center from advertising services it is not authorized to provide; providing fines; prohibiting a person or entity from advertising or providing medical marijuana treatment center services without being registered with the department as a medical marijuana treatment center; providing penalties; authorizing a distance learning format for a specified course and reducing

588-03368A-17 2017406c1

the number of hours required for the course; providing that physicians who meet specified requirements are grandfathered for the purpose of specified education requirements; authorizing qualifying patients to designate caregivers; requiring caregivers to meet specified requirements; prohibiting a qualifying patient from designating more than one caregiver at any given time; providing exceptions; requiring the Department of Health to register caregivers meeting certain requirements on the compassionate use registry; revising the entities to which the compassionate use registry must be accessible; requiring the department to adopt certain rules by a specified date; authorizing the department to charge a fee for identification cards; requiring the department to begin issuing identification cards to qualified registrants by a specific date; providing requirements for the identification cards; requiring the department to register certain dispensing organizations as medical marijuana treatment centers by a certain date; requiring the department to register additional medical marijuana treatment centers in accordance with a specified schedule; deleting obsolete provisions; revising the operational requirements for medical marijuana treatment centers; authorizing the department to waive certain requirements under specified circumstances; requiring that certain receptacles be childproof; requiring that additional information be included on certain labels; requiring

that a medical marijuana treatment center comply with certain standards in the production and dispensing of edible or food products; requiring a medical marijuana treatment center to enter additional information into the compassionate use registry; requiring a medical marijuana treatment center to keep a copy of a transportation manifest in certain vehicles at certain times; requiring the department to establish a quality control program that requires medical marijuana treatment centers to submit samples from each batch or lot of marijuana to an independent testing laboratory; requiring a medical marijuana treatment center to maintain records of all tests conducted; requiring the department to adopt rules to create and oversee the quality control program; providing that the department must license independent testing laboratories; authorizing an independent testing laboratory to collect and accept samples of, possess, store, transport, and test marijuana; prohibiting a person with an ownership interest in a medical marijuana treatment center from owning an independent testing laboratory; requiring the department to develop rules and a process for licensing requirements; authorizing the department to impose application and renewal fees; specifying that an independent testing laboratory must be certified to perform required tests; requiring the department to suspend or reduce any mandatory testing if the number of licensed and certified independent testing laboratories is insufficient to process the

tests necessary to meet the patient demand for medical marijuana treatment centers; providing that an independent testing laboratory may only accept certain samples; requiring the department to adopt rules related to ownership changes or changes in an owner's investment interest; requiring the department to establish, maintain, and control a seed-to-sale tracking system for marijuana; providing applicability; conforming provisions to changes made by the act; providing that certain research institutions may possess, test, transport, and dispose of marijuana subject to certain conditions and as provided by department rule; providing for the use of emergency rulemaking procedures by the department; creating s. 1004.4351, F.S.; providing a short title; providing legislative findings; defining terms; establishing the Coalition for Medical Marijuana Research and Education within the H. Lee Moffitt Cancer Center and Research Institute, Inc.; providing a purpose for the coalition; establishing the Medical Marijuana Research and Education Board to direct the operations of the coalition; providing for the appointment of board members; providing for terms of office, reimbursement for certain expenses, and the conduct of meetings of the board; authorizing the board to appoint a coalition director; prescribing the duties of the coalition director; requiring the board to advise specified entities and officials regarding medical marijuana research and education in this

state; requiring the board to annually adopt a Medical Marijuana Research and Education Plan; providing requirements for the plan; requiring the board to issue an annual report to the Governor and the Legislature by a specified date; specifying responsibilities of the H. Lee Moffitt Cancer Center and Research Institute, Inc.; amending ss. 381.987, 385.211, 499.0295, and 1004.441, F.S.; conforming provisions to changes made by the act; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 381.986, Florida Statutes, is amended to read:

381.986 Compassionate use of low-THC ~~and medical~~ cannabis and marijuana.—

(1) LEGISLATIVE INTENT.—

(a) It is the intent of the Legislature to implement s. 29, Art. X of the State Constitution by creating a unified regulatory structure within the framework of this section for the acquisition, cultivation, possession, processing, transfer, transportation, sale, distribution, and dispensing of marijuana, products containing marijuana, related supplies, and educational materials to qualifying patients or their caregivers.

(b) The Legislature intends that all rules adopted by the Department of Health to implement this section be adopted pursuant to s. 120.536(1) or s. 120.54. The Legislature intends

that the department use emergency rulemaking procedures pursuant to s. 120.54(4) to adopt rules under this section if necessary to meet any deadline for rulemaking established in s. 29, Art. X of the State Constitution.

(c) Further, the Legislature intends that all registrations for the purposes specified in paragraph (a) be issued solely in accordance with the requirements of this section and all rules adopted under this section.

(2) DEFINITIONS.—As used in this section, the term:

(a) "Cannabis delivery device" means an object used, intended for use, or designed for use in preparing, storing, ingesting, inhaling, or otherwise introducing marijuana ~~low-THC cannabis or medical cannabis~~ into the human body.

(b) "Caregiver" has the same meaning as provided in s. 29, Art. X of the State Constitution.

(c) "Chronic nonmalignant pain" means pain that is caused by a debilitating medical condition or that originates from a debilitating medical condition and persists beyond the usual course of that debilitating medical condition.

(d) "Close relative" means a spouse, parent, sibling, grandparent, child, or grandchild, whether related by whole or half blood, by marriage, or by adoption.

(e) ~~(b)~~ "Debilitating medical condition" has the same meaning as provided in s. 29, Art. X of the State Constitution ~~"Dispensing organization" means an organization approved by the department to cultivate, process, transport, and dispense low-THC cannabis or medical cannabis pursuant to this section~~.

(f) ~~(c)~~ "Independent testing laboratory" means a laboratory, including the managers, employees, or contractors of the

laboratory, which has no direct or indirect interest in a medical marijuana treatment center ~~a dispensing organization~~.

(g) ~~(d)~~ "Legal representative" means the qualifying ~~qualified~~ patient's parent, legal guardian acting pursuant to a court's authorization as required under s. 744.3215(4), health care surrogate acting pursuant to the qualifying ~~qualified~~ patient's written consent or a court's authorization as required under s. 765.113, or an individual who is authorized under a power of attorney to make health care decisions on behalf of the qualifying ~~qualified~~ patient.

(h) ~~(c)~~ "Low-THC cannabis" means a plant of the genus *Cannabis*, the dried flowers of which contain 0.8 percent or less of tetrahydrocannabinol and more than 10 percent of cannabidiol weight for weight; the seeds thereof; the resin extracted from any part of such plant; or any compound, manufacture, salt, derivative, mixture, or preparation of such plant or its seeds or resin that is dispensed only by a medical marijuana treatment center ~~from a dispensing organization~~.

(i) ~~(f)~~ "Marijuana" has the same meaning as provided in s. 29, Art. X of the State Constitution ~~"Medical cannabis" means all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin that is dispensed only from a dispensing organization for medical use by an eligible patient as defined in s. 499.0295~~.

(j) "Medical marijuana treatment center" or "MMTC" has the same meaning as provided in s. 29, Art. X of the State Constitution.

(k) ~~(g)~~ "Medical use" has the same meaning as provided in s. 29, Art. X of the State Constitution ~~means administration of the ordered amount of low-THC cannabis or medical cannabis~~. The term does not include the:

1. Possession, use, or administration of marijuana ~~low-THC cannabis or medical cannabis~~ by smoking.

2. Possession, use, or administration of marijuana that was not purchased or acquired from an MMTC registered with the Department of Health.

3. ~~2.~~ Transfer of marijuana ~~low-THC cannabis or medical cannabis~~ to a person other than the qualifying ~~qualified~~ patient ~~for whom it was ordered~~ or the qualifying ~~qualified~~ patient's caregiver ~~legal representative~~ on behalf of the qualifying ~~qualified~~ patient.

4. Use or administration of any type or amount of marijuana not specified on the qualifying patient's physician certification.

5. ~~3.~~ Use or administration of marijuana ~~low-THC cannabis or medical cannabis~~:

a. On any form of public transportation.

b. In any public place.

c. In a qualifying ~~qualified~~ patient's place of employment, if restricted by his or her employer.

d. In a state correctional institution as defined in s. 944.02 or a correctional institution as defined in s. 944.241.

e. On the grounds of a preschool, primary school, or secondary school.

f. On a school bus or in a vehicle, aircraft, or motorboat.

(l) ~~(h)~~ "Qualifying ~~Qualified~~ patient" has the same meaning

as provided in s. 29, Art. X of the State Constitution but also includes eligible patients, as that term is defined in s. 499.0295, and patients who are issued a physician certification under subparagraph (3)(a)2. or subparagraph (3)(a)3. A patient is not a qualifying patient unless he or she is registered with the department and has been issued a compassionate use registry identification card ~~means a resident of this state who has been added to the compassionate use registry by a physician licensed under chapter 458 or chapter 459 to receive low-THC cannabis or medical cannabis from a dispensing organization~~.

(m) ~~(i)~~ "Smoking" means burning or igniting a substance and inhaling the smoke. Smoking does not include the use of a vaporizer.

(3) ~~(2)~~ PHYSICIAN CERTIFICATION ~~ORDERING~~.—

(a) A physician is authorized to issue a physician certification to:

1. A patient suffering from a debilitating medical condition, which allows the patient to receive marijuana for the patient's medical use;

2. A ~~order low-THC cannabis to treat a qualified~~ patient suffering from ~~cancer or~~ a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms, which allows the patient to receive low-THC cannabis for the patient's medical use;

3. A patient suffering from chronic nonmalignant pain, if the physician has diagnosed an underlying debilitating medical condition as the cause of the pain, which allows the patient to receive marijuana for the patient's medical use ~~order low-THC cannabis~~ to alleviate the patient's pain ~~symptoms of such~~

~~disease, disorder, or condition, if no other satisfactory alternative treatment options exist for the qualified patient~~;

4. ~~order medical cannabis to treat~~ An eligible patient as defined in s. 499.0295, which allows the patient to receive marijuana for the patient's medical use; or

5. A patient who is not a resident of this state; who qualifies under subparagraph 1., subparagraph 2., subparagraph 3., or subparagraph 4.; and who can lawfully obtain marijuana through a medical marijuana program in the state that he or she resides in.

(b) In the physician certification, the physician may also specify one or more ~~or order a~~ cannabis delivery devices to assist with ~~device for~~ the patient's medical use of marijuana. ~~low-THC cannabis or medical cannabis,~~

(c) A physician may certify a patient and specify a delivery device under paragraphs (a) and (b) only if the physician:

1. ~~(a)~~ Holds an active, unrestricted license as a physician under chapter 458 or an osteopathic physician under chapter 459;

~~(b) Has treated the patient for at least 3 months immediately preceding the patient's registration in the compassionate use registry;~~

2. ~~(c)~~ Has successfully completed the course and examination required under paragraph (5)(a) ~~(4)(a)~~;

3. Has conducted a physical examination and made a full assessment of the medical history of the patient;

4. Has determined that, in the physician's professional opinion, the patient meets one or more of the criteria specified in paragraph (a);

5.~~(d)~~ Has determined that the medical use of marijuana would likely outweigh the potential health risks to ~~of treating the patient with low-THC cannabis or medical cannabis are reasonable in light of the potential benefit to~~ the patient. If a patient is younger than 18 years of age:~~,~~

a. A second physician must concur with this determination, and such determination must be documented in the patient's medical record;

b. Only a parent, legal guardian, caregiver, or health care provider may assist the qualifying patient in the purchasing and administering of marijuana for medical use; and

c. The qualifying patient may not purchase marijuana;

6.~~(e)~~ Registers as the patient's physician ~~orderer of low-THC cannabis or medical cannabis for the named patient~~ on the compassionate use registry maintained by the department and updates the registry to reflect ~~the contents of the order, including~~ the amount of marijuana ~~low-THC cannabis or medical cannabis~~ that will provide the patient with not more than a 90-day ~~45-day~~ supply and a cannabis delivery device needed by the patient for the medical use of marijuana ~~low-THC cannabis or medical cannabis~~. A physician may certify an amount greater than a 90-day supply of marijuana if the physician has a reasonable belief that the patient will use the additional marijuana in a medically appropriate way. If the physician's recommended amount of marijuana for a 90-day supply changes, the physician must ~~also~~ update the registry within 7 days after the ~~any~~ change is made ~~to the original order to reflect the change~~. The physician shall deactivate the registration of the patient ~~and the patient's legal representative~~ when the physician no longer

recommends the medical use of marijuana for the patient ~~treatment is discontinued~~;

7.~~(f)~~ Maintains a patient treatment plan that includes the dose, route of administration, planned duration, and monitoring of the patient's symptoms and other indicators of tolerance or reaction to the marijuana ~~low-THC cannabis or medical cannabis~~;

8.~~(g)~~ Submits the patient treatment plan quarterly to the University of Florida College of Pharmacy for research on the safety and efficacy of marijuana ~~low-THC cannabis and medical cannabis~~ on patients; and

9.~~(h)~~ Obtains the voluntary written informed consent of the patient or the patient's legal representative to treatment with marijuana ~~low-THC cannabis~~ after sufficiently explaining the current state of knowledge in the medical community of the effectiveness of treatment of the patient's condition with marijuana ~~low-THC cannabis, the medically acceptable alternatives,~~ and the potential risks and side effects. If the patient is a minor, the patient's parent or legal guardian must consent to treatment in writing. If the patient is an eligible patient as defined in s. 499.0295, the physician must obtain written informed consent as defined in and required by s. 499.0295.~~,~~

(d) At least annually, a physician must recertify the qualifying patient pursuant to paragraph (c).

~~(i) Obtains written informed consent as defined in and required under s. 499.0295, if the physician is ordering medical cannabis for an eligible patient pursuant to that section; and~~

(e)~~(j)~~ A physician may not issue a physician certification if the physician is ~~not~~ a medical director employed by an MMTC ~~a~~

~~dispensing organization~~.

(f) An order for low-THC cannabis or medical cannabis issued pursuant to former s. 381.986, Florida Statutes 2016, and registered with the compassionate use registry on the effective date of this act, shall be considered a physician certification issued pursuant to this subsection. The details and expiration date of such certification must be identical to the details and expiration date of the order as logged in the compassionate use registry. Until the department begins issuing compassionate use registry identification cards, all patients with such orders shall be considered qualifying patients, notwithstanding the requirement that a qualifying patient have a compassionate use registry identification card.

(4) ~~(3)~~ PROHIBITED ACTS ~~PENALTIES~~.—

(a) A physician commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, if the physician issues a physician certification for marijuana to ~~orders low-THC cannabis for~~ a patient in a manner other than as required in subsection (3) ~~without a reasonable belief that the patient is suffering from:~~

~~1. Cancer or A physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms that can be treated with low-THC cannabis; or~~

~~2. Symptoms of cancer or a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms that can be alleviated with low-THC cannabis~~.

~~(b) A physician commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083, if the~~

~~physician orders medical cannabis for a patient without a reasonable belief that the patient has a terminal condition as defined in s. 499.0295.~~

(b) ~~(c)~~ A person who fraudulently represents that he or she has a debilitating medical condition ~~cancer~~, a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms, chronic nonmalignant pain, or a terminal condition as defined in s. 499.0295 to a physician for the purpose of being issued a physician certification for marijuana ~~ordered low-THC cannabis, medical cannabis,~~ or a cannabis delivery device by such physician commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(c) ~~(d)~~ A qualifying patient ~~an eligible patient as defined in s. 499.0295~~ who uses marijuana ~~medical cannabis~~, and such patient's caregiver ~~legal representative~~ who administers marijuana ~~medical cannabis~~, in plain view of or in a place open to the general public, on the grounds of a school, or in a school bus, vehicle, aircraft, or motorboat, commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(d) A qualifying patient or caregiver who cultivates marijuana or who purchases or acquires marijuana from any person or entity other than an MMTC commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(e) A caregiver who violates any of the applicable provisions of this section or applicable department rules commits, upon the first offense, a misdemeanor of the second degree, punishable as provided in s. 775.082 or s. 775.083, and,

upon the second and subsequent offenses, a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083.

(f) ~~(e)~~ A physician who issues a physician certification for marijuana ~~orders low-THC cannabis, medical cannabis,~~ or a cannabis delivery device and receives compensation from an MMTC ~~a dispensing organization~~ related to issuing the physician certification for marijuana ~~the ordering of low-THC cannabis, medical cannabis,~~ or a cannabis delivery device is subject to disciplinary action under the applicable practice act and s. 456.072(1)(n).

(g) An MMTC that advertises or holds out to the public that it may provide services other than services for which it is registered to provide violates this section, and the department may impose a fine on the MMTC pursuant to paragraph (10)(h).

(h) A person or entity that offers or advertises services as an MMTC without registering as an MMTC with the department violates this section. The operation or maintenance of a facility as an MMTC, or the performance of a service that requires registration, without proper registration is a violation of this section.

1. If after receiving notification from the department, such person or entity fails to cease operation, the department may impose an administrative fine of up to $10,000 per violation. Each day of continued operation is a separate offense.

2. The department or any state attorney may, in addition to other remedies provided in this section, bring an action for an injunction to restrain any unauthorized activity or to enjoin

the future operation or maintenance of the unauthorized dispensing organization or entity or the performance of any service in violation of this section until compliance with this section and department rules has been demonstrated to the satisfaction of the department.

3. If found to be in violation of this paragraph, the department may assess reasonable investigative and legal costs for prosecution of the violation against the person or entity.

(5) ~~(4)~~ PHYSICIAN EDUCATION.—

(a) Before a physician may issue a physician certification pursuant to subsection (3) ~~ordering low-THC cannabis, medical cannabis, or a cannabis delivery device for medical use by a patient in this state~~, the appropriate board shall require the ~~ordering~~ physician to successfully complete a 4-hour ~~an 8-hour~~ course and subsequent examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association which ~~that~~ encompasses the clinical indications for the appropriate use of marijuana ~~low-THC cannabis and medical cannabis~~, the appropriate cannabis delivery devices, the contraindications for such use, and the relevant state and federal laws governing the issuance of physician certifications ~~ordering~~, as well as dispensing~~,~~ and possessing ~~of~~ these substances and devices. The course and examination shall be administered at least quarterly ~~annually~~. Successful completion of the course may be used by a physician to satisfy 4 hours ~~8 hours~~ of the continuing medical education requirements required by his or her respective board for licensure renewal. This course may be offered in a distance learning format, including an electronic, online format that is available on request. Physicians who have completed an 8-hour

course and subsequent examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association which encompasses the clinical indications for the appropriate use of marijuana and who are registered in the compassionate use registry on the effective date of this act are deemed to meet the requirements of this paragraph.

(b) The appropriate board shall require the medical director of each MMTC ~~dispensing organization~~ to hold an active, unrestricted license as a physician under chapter 458 or as an osteopathic physician under chapter 459 and successfully complete a 2-hour course and subsequent examination offered by the Florida Medical Association or the Florida Osteopathic Medical Association which ~~that~~ encompasses appropriate safety procedures and knowledge of marijuana ~~low-THC cannabis, medical cannabis,~~ and cannabis delivery devices.

~~(c) Successful completion of the course and examination specified in paragraph (a) is required for every physician who orders low-THC cannabis, medical cannabis, or a cannabis delivery device each time such physician renews his or her license. In addition, successful completion of the course and examination specified in paragraph (b) is required for the medical director of each dispensing organization each time such physician renews his or her license.~~

(c) ~~(d)~~ A physician who fails to comply with this subsection and issues a physician certification for marijuana ~~who orders low-THC cannabis, medical cannabis,~~ or a cannabis delivery device may be subject to disciplinary action under the applicable practice act and under s. 456.072(1)(k).

(6) CAREGIVERS.—

(a) During the course of registration with the department for inclusion on the compassionate use registry, or at any time while registered, a qualifying patient may designate an individual as his or her caregiver to assist him or her with the medical use of marijuana. The designated caregiver must be 21 years of age or older, unless the patient is a close relative of the caregiver; must agree in writing to be the qualifying patient's caregiver; may not receive compensation, other than actual expenses incurred, for assisting the qualifying patient with the medical use of marijuana, unless the caregiver is acting pursuant to employment in a licensed facility in accordance with subparagraph (c)2.; and must pass a level 2 screening pursuant to chapter 435, unless the patient is a close relative of the caregiver.

(b) A qualifying patient may have only one designated caregiver at any given time unless all of the patient's caregivers are his or her close relatives or legal representatives.

(c) A caregiver may assist only one qualifying patient at any given time unless:

1. All qualifying patients the caregiver is assisting are close relatives of each other and the caregiver is the legal representative of at least one of the patients; or

2. All qualifying patients the caregiver is assisting are receiving hospice services, or are residents, in the same assisted living facility, nursing home, or other licensed facility and have requested the assistance of that caregiver with the medical use of marijuana; the caregiver is an employee of the hospice or licensed facility; and the caregiver provides

personal care or services directly to clients of the hospice or licensed facility as a part of his or her employment duties at the hospice or licensed facility.

(d) The department must register a caregiver on the compassionate use registry and issue him or her a caregiver identification card if he or she is designated by a qualifying patient pursuant to paragraph (a) and meets all of the requirements of this subsection and department rule.

(7)~~(5)~~ DUTIES OF THE DEPARTMENT.—The department shall:

(a) Create and maintain a secure, electronic, and online compassionate use registry for the registration of physicians, patients, and caregivers ~~the legal representatives of patients~~ as provided under this section. The registry must be accessible to:

1. Practitioners licensed under chapter 458 or chapter 459, to ensure proper care for patients requesting physician certifications;

2. Practitioners licensed to prescribe prescription drugs, to ensure proper care for patients before prescribing medications that may interact with the medical use of marijuana;

3. Law enforcement agencies, to verify the authorization of a qualifying patient or a patient's caregiver to possess marijuana or a cannabis delivery device; and

4. MMTCs, to ~~a dispensing organization to~~ verify the authorization of a qualifying patient or a patient's caregiver ~~legal representative~~ to possess marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device and to record the marijuana ~~low-THC cannabis, medical cannabis,~~ or cannabis delivery device dispensed.

The registry must prevent ~~an~~ active registration of a patient by multiple physicians.

(b) By July 3, 2017, adopt rules establishing procedures for the issuance, annual renewal, suspension, and revocation of compassionate use registry identification cards for patients and caregivers. The department may charge a reasonable fee associated with the issuance and renewal of patient and caregiver identification cards. By October 3, 2017, the department shall begin issuing identification cards to adult patients who have a physician certification that meets the requirements of subsection (3); minor patients who have a physician certification that meets the requirements of subsection (3) and the written consent of a parent or legal guardian; and caregivers registered pursuant to subsection (6). In addition to the other requirements of this section, the department may issue a compassionate use registry identification card to a patient who is not a resident of this state only after the department has verified that the patient can lawfully obtain marijuana through a medical marijuana program in the state that he or she resides in. Patient and caregiver identification cards must be resistant to counterfeiting and tampering and must include at least the following:

1. The name, address, and date of birth of the patient or caregiver, as appropriate;

2. A full-face, passport-type, color photograph of the patient or caregiver, as appropriate, taken within the 90 days immediately preceding registration;

3. Designation of the cardholder as a patient or caregiver;

4. A unique identification number for the patient or caregiver which is matched to the identification number used for such person in the department's compassionate use registry. A caregiver's identification number and file in the compassionate use registry must be linked to the file of the patient or patients the caregiver is assisting so that the caregiver's status may be verified for each patient individually;

5. The expiration date, which shall be 1 year after the date of issuance of the identification card or the date treatment ends as provided in the patient's physician certification, whichever occurs first; and

6. For caregivers who are assisting three or fewer qualifying patients, the names and identification number of the qualifying patient or patients that the caregiver is assisting.

(c) As soon as practicable after the effective date of this act, update its records by registering each dispensing organization approved pursuant to chapter 2014-157, Laws of Florida, or chapter 2016-123, Laws of Florida, as an MMTC with an effective registration date that coincides with that dispensing organization's date of approval as a dispensing organization. On the effective date of this act, all dispensing organizations approved pursuant to chapter 2014-157, Laws of Florida, or chapter 2016-123, Laws of Florida, are deemed to be registered MMTCs. The department may not require a dispensing organization approved pursuant to chapter 2014-157, Laws of Florida, or chapter 2016-123, Laws of Florida, to submit an application and may not charge the dispensing organization an application or registration fee for the initial registration of that dispensing organization as an MMTC pursuant to this

section. For purposes of the requirement that an MMTC comply with the representations made in its application pursuant to subsection (8), an MMTC registered pursuant to this paragraph shall continue to comply with the representations made in its application for approval as a dispensing organization, including any revision authorized by the department before the effective date of this act. After the effective date of this act, the department may grant variances from the representations made in a dispensing organization's application for approval pursuant to subsection (8). For purposes of the definition of the term "marijuana" in s. 29, of Art. X of the State Constitution, an MMTC is deemed to be a dispensing organization as that term is defined in former s. 381.986(1)(a), Florida Statutes 2014 ~~Authorize the establishment of five dispensing organizations to ensure reasonable statewide accessibility and availability as necessary for patients registered in the compassionate use registry and who are ordered low-THC cannabis, medical cannabis, or a cannabis delivery device under this section, one in each of the following regions: northwest Florida, northeast Florida, central Florida, southeast Florida, and southwest Florida~~.

(d) By October 3, 2017, register five additional MMTCs with at least one of the MMTCs being an applicant that is a recognized class member of *Pigford v. Glickman*, 185 F.R.D. 82 (D.D.C. 1999), or *In re Black Farmers Litig.*, 856 F. Supp. 2d 1 (D.D.C. 2011), and a member of the Black Farmers and Agriculturalists Association.

(e) Within 6 months after each instance of the registration of 75,000 qualifying patients with the compassionate use registry, register four additional MMTCs if a sufficient number

of MMTC applicants meet the registration requirements established in this section and by department rule.

(f) Not issue more than one registration as an MMTC to a person or an entity.

(g) ~~The department shall~~ Develop an application form for registration as an MMTC and impose an initial application and biennial renewal fee that is sufficient to cover the costs of administering this section. To be registered as an MMTC, the ~~an~~ applicant ~~for approval as a dispensing organization~~ must be able to demonstrate:

1. That the applicant has been registered to do business in this state for the previous 5 consecutive years before submitting the application.

2.~~1.~~ The technical and technological ability to cultivate and produce low-THC cannabis and marijuana. ~~The applicant must possess a valid certificate of registration issued by the Department of Agriculture and Consumer Services pursuant to s. 581.131 that is issued for the cultivation of more than 400,000 plants, be operated by a nurseryman as defined in s. 581.011, and have been operated as a registered nursery in this state for at least 30 continuous years.~~

3.~~2.~~ The ability to secure the premises, resources, and personnel necessary to operate as an MMTC ~~a dispensing organization~~.

4.~~3.~~ The ability to maintain accountability of all raw materials, finished products, and any byproducts to prevent diversion or unlawful access to or possession of these substances.

5.~~4.~~ An infrastructure reasonably located to dispense low-

THC cannabis and marijuana to registered qualifying patients statewide ~~or regionally as determined by the department~~.

6.~~5.~~ The financial ability to maintain operations for the duration of the 2-year approval cycle, including the provision of certified financials to the department. Upon approval, the applicant must post a $5 million performance bond. However, upon an MMTC ~~a dispensing organization's~~ serving at least 1,000 qualifying ~~qualified~~ patients, the MMTC ~~dispensing organization~~ is only required to maintain a $2 million performance bond.

7.~~6.~~ That all owners and managers have been fingerprinted and have successfully passed a level 2 background screening pursuant to s. 435.04.

8.~~7.~~ The employment of a medical director to supervise the activities of the MMTC ~~dispensing organization~~.

~~(c) Upon the registration of 250,000 active qualified patients in the compassionate use registry, approve three dispensing organizations, including, but not limited to, an applicant that is a recognized class member of *Pigford v. Glickman*, 185 F.R.D. 82 (D.D.C. 1999), or *In Re Black Farmers Litig.*, 856 F. Supp. 2d 1 (D.D.C. 2011), and a member of the Black Farmers and Agriculturalists Association, which must meet the requirements of subparagraphs (b)2.-7. and demonstrate the technical and technological ability to cultivate and produce low-THC cannabis.~~

(h)~~(d)~~ Allow an MMTC ~~a dispensing organization~~ to make a wholesale purchase of marijuana ~~low-THC cannabis or medical cannabis~~ from, or a distribution of marijuana ~~low-THC cannabis or medical cannabis~~ to, another MMTC ~~dispensing organization~~.

(i)~~(e)~~ Monitor physician registration in the compassionate

use registry and the issuance of physician certifications pursuant to subsection (3) ~~ordering of low-THC cannabis, medical cannabis, or a cannabis delivery device~~ for ~~ordering~~ practices that could facilitate unlawful diversion or misuse of marijuana ~~low-THC cannabis, medical cannabis,~~ or ~~a~~ cannabis delivery devices ~~device~~ and take disciplinary action as indicated.

(8)~~(6)~~ MEDICAL MARIJUANA TREATMENT CENTERS ~~DISPENSING ORGANIZATION~~.~~—~~Each MMTC must register with the department. A registered MMTC ~~An approved dispensing organization~~ must, at all times, maintain compliance with paragraph (7)(g), ~~the criteria demonstrated for selection and approval as a dispensing organization under subsection(5) and~~ the criteria required in this subsection, and all representations made to the department in the MMTC's application for registration. Upon request, the department may grant an MMTC one or more variances from the representations made in the MMTC's application. Consideration of such a variance shall be based upon the individual facts and circumstances surrounding the request. A variance may not be granted unless the requesting MMTC can demonstrate to the department that it has a proposed alternative to the specific representation made in its application which fulfills the same or a similar purpose as the specific representation in a way that the department can reasonably determine will not be a lower standard than the specific representation in the application.

(a) When growing marijuana ~~low-THC cannabis or medical cannabis~~, an MMTC ~~a dispensing organization~~:

1. May use pesticides determined by the department, after consultation with the Department of Agriculture and Consumer Services, to be safely applied to plants intended for human

consumption, but may not use pesticides designated as restricted-use pesticides pursuant to s. 487.042.

2. Must grow marijuana ~~low-THC cannabis or medical cannabis~~ within an enclosed structure and in a room separate from any other plant.

3. Must inspect seeds and growing plants for plant pests that endanger or threaten the horticultural and agricultural interests of the state, notify the Department of Agriculture and Consumer Services within 10 calendar days after a determination that a plant is infested or infected by such plant pest, and implement and maintain phytosanitary policies and procedures.

4. Must perform fumigation or treatment of plants, or the removal and destruction of infested or infected plants, in accordance with chapter 581 and any rules adopted thereunder.

(b) When processing marijuana ~~low-THC cannabis or medical cannabis~~, an MMTC ~~a dispensing organization~~ must:

1. Process the marijuana ~~low-THC cannabis or medical cannabis~~ within an enclosed structure and in a room separate from other plants or products.

2. Have the marijuana tested by an independent testing laboratory to ensure it meets the standards established by the department's quality control program ~~Test the processed low-THC cannabis and medical cannabis~~ before it is ~~they are~~ dispensed. ~~Results must be verified and signed by two dispensing organization employees. Before dispensing low-THC cannabis, the dispensing organization must determine that the test results indicate that the low-THC cannabis meets the definition of low-THC cannabis and, for medical cannabis and low-THC cannabis, that all medical cannabis and low-THC cannabis is safe for human~~

~~consumption and free from contaminants that are unsafe for human consumption. The dispensing organization must retain records of all testing and samples of each homogenous batch of cannabis and low-THC cannabis for at least 9 months. The dispensing organization must contract with an independent testing laboratory to perform audits on the dispensing organization's standard operating procedures, testing records, and samples and provide the results to the department to confirm that the low-THC cannabis or medical cannabis meets the requirements of this section and that the medical cannabis and low-THC cannabis is safe for human consumption.~~

3. Package the marijuana ~~low-THC cannabis or medical cannabis~~ in compliance with the United States Poison Prevention Packaging Act of 1970, 15 U.S.C. ss. 1471 et seq.

4. Package the marijuana ~~low-THC cannabis or medical cannabis~~ in a childproof receptacle that has a firmly affixed and legible label stating the following information:

a. A statement that the marijuana ~~low-THC cannabis or medical cannabis~~ meets the requirements of subparagraph 2.;

b. The name of the MMTC ~~dispensing organization~~ from which the marijuana ~~medical cannabis or low-THC cannabis~~ originates; ~~and~~

c. The batch number and harvest number from which the marijuana ~~medical cannabis or low-THC cannabis~~ originates; and

d. The concentration of tetrahydrocannabinol and cannabidiol in the product.

e. Any other information required by department rule

~~5. Reserve two processed samples from each batch and retain such samples for at least 9 months for the purpose of testing~~

~~pursuant to the audit required under subparagraph 2~~.

(c) When dispensing marijuana ~~low-THC cannabis, medical cannabis,~~ or a marijuana ~~cannabis~~ delivery device, an MMTC ~~a dispensing organization~~:

1. May not dispense more than the ~~a 45-day~~ supply of marijuana authorized by a qualifying patient's physician certification ~~low-THC cannabis or medical cannabis~~ to a qualifying patient or caregiver ~~the patient's legal representative~~.

2. Must ensure that the ~~have the dispensing organization's~~ employee who dispenses the marijuana ~~low-THC cannabis, medical cannabis,~~ or marijuana ~~a cannabis~~ delivery device enters ~~enter~~ into the compassionate use registry his or her name or unique employee identifier.

3. Must verify that the qualifying patient and the caregiver, if applicable, both have an active and valid compassionate use registry identification card and that the amount and type of marijuana dispensed match the physician certification in the compassionate use registry for that qualifying patient ~~that a physician has ordered the low-THC cannabis, medical cannabis, or a specific type of a cannabis delivery device for the patient~~.

4. Must label the marijuana with the recommended dose for the qualifying patient receiving the marijuana.

5.~~4.~~ May not dispense or sell any other type of marijuana ~~cannabis~~, alcohol, or illicit drug-related product, including pipes, bongs, or wrapping papers, other than a ~~physician-ordered~~ cannabis delivery device required for the medical use of marijuana which is specified in a physician certification ~~low-~~

~~THC cannabis or medical cannabis, while dispensing low-THC cannabis or medical cannabis~~. An MMTC may produce and dispense marijuana as an edible or food product but may not produce such items in a format designed to be attractive to children. In addition to the requirements of this section and department rule, food products produced by an MMTC must meet all food safety standards established in state and federal law, including, but not limited to, the identification of the serving size and the amount of tetrahydrocannabinol in each serving.

~~5. Must verify that the patient has an active registration in the compassionate use registry, the patient or patient's legal representative holds a valid and active registration card, the order presented matches the order contents as recorded in the registry, and the order has not already been filled.~~

6. Must, upon dispensing the marijuana ~~low-THC cannabis, medical cannabis,~~ or marijuana ~~cannabis~~ delivery device, record in the registry the date, time, quantity, and form of marijuana ~~low-THC cannabis or medical cannabis~~ dispensed; ~~and~~ the type of marijuana ~~cannabis~~ delivery device dispensed; and the name and compassionate use registry identification number of the qualifying patient or caregiver to whom the marijuana delivery device was dispensed.

(d) To ensure the safety and security of its premises and any off-site storage facilities, and to maintain adequate controls against the diversion, theft, and loss of marijuana ~~low-THC cannabis, medical cannabis,~~ or marijuana ~~cannabis~~ delivery devices, an MMTC ~~a dispensing organization~~ shall:

1.a. Maintain a fully operational security alarm system that secures all entry points and perimeter windows and is

equipped with motion detectors; pressure switches; and duress, panic, and hold-up alarms; or

b. Maintain a video surveillance system that records continuously 24 hours each day and meets at least one of the following criteria:

(I) Cameras are fixed in a place that allows for the clear identification of persons and activities in controlled areas of the premises. Controlled areas include grow rooms, processing rooms, storage rooms, disposal rooms or areas, and point-of-sale rooms;

(II) Cameras are fixed in entrances and exits to the premises, which shall record from both indoor and outdoor, or ingress and egress, vantage points;

(III) Recorded images must clearly and accurately display the time and date; or

(IV) Retain video surveillance recordings for a minimum of 45 days, or longer upon the request of a law enforcement agency.

2. Ensure that the MMTC's ~~organization's~~ outdoor premises have sufficient lighting from dusk until dawn.

3. Implement ~~Establish and maintain~~ a tracking system using a vendor approved by the department which ~~that~~ traces the marijuana ~~low-THC cannabis or medical cannabis~~ from seed to sale. The tracking system must ~~shall~~ include notification of key events as determined by the department, including when cannabis seeds are planted, when cannabis plants are harvested and destroyed, and when marijuana ~~low-THC cannabis or medical cannabis~~ is transported, sold, stolen, diverted, or lost.

4. Not dispense from its premises marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device

between the hours of 9 p.m. and 7 a.m., but may perform all other operations and deliver marijuana ~~low-THC cannabis and medical cannabis~~ to qualifying ~~qualified~~ patients 24 hours each day.

5. Store marijuana ~~low-THC cannabis or medical cannabis~~ in a secured, locked room or a vault.

6. Require at least two of its employees, or two employees of a security agency with whom it contracts, to be on the premises at all times.

7. Require each employee or contractor to wear a photo identification badge at all times while on the premises.

8. Require each visitor to wear a visitor's pass at all times while on the premises.

9. Implement an alcohol and drug-free workplace policy.

10. Report to local law enforcement within 24 hours after it is notified or becomes aware of the theft, diversion, or loss of marijuana ~~low-THC cannabis or medical cannabis~~.

(e) To ensure the safe transport of marijuana ~~low-THC cannabis or medical cannabis~~ to MMTC ~~dispensing organization~~ facilities, independent testing laboratories, or qualifying patients, the MMTC ~~dispensing organization~~ must:

1. Maintain a transportation manifest, which must be retained for at least 1 year. A copy of the manifest must be in the vehicle at all times when transporting marijuana.

2. Ensure only vehicles in good working order are used to transport marijuana ~~low-THC cannabis or medical cannabis~~.

3. Lock marijuana ~~low-THC cannabis or medical cannabis~~ in a separate compartment or container within the vehicle.

4. Require at least two persons to be in a vehicle

transporting marijuana ~~low-THC cannabis or medical cannabis~~, and require at least one person to remain in the vehicle while the marijuana ~~low-THC cannabis or medical cannabis~~ is being delivered.

5. Provide specific safety and security training to employees transporting or delivering marijuana ~~low-THC cannabis or medical cannabis~~.

(9) MARIJUANA QUALITY CONTROL PROGRAM AND INDEPENDENT TESTING LABORATORY LICENSURE.—

(a) The department shall establish a quality control program requiring marijuana to be tested by an independent testing laboratory for potency and contaminants before sale to qualifying patients and caregivers.

1. The quality control program must require MMTCs to submit samples from each batch or lot of marijuana harvested or processed to an independent testing laboratory for testing to ensure, at a minimum, that the labeling of the potency of tetrahydrocannabinol and all other marketed cannabinoids or terpenes is accurate and that the marijuana dispensed to qualifying patients is safe for human consumption.

2. An MMTC must maintain records of all tests conducted, including the results of each test and any additional information, as required by the department.

3. The department shall adopt all rules necessary to create and oversee the quality control program, which must include, at a minimum:

a. Permissible levels of variation in potency labeling and standards requiring tetrahydrocannabinol in edible marijuana products to be distributed consistently throughout the product;

b. Permissible levels of contaminants and mandatory testing for contaminants to confirm that the tested marijuana is safe for human consumption. This testing must include, but is not limited to, testing for microbiological impurity, residual solvents, and pesticide residues;

c. The destruction of marijuana determined to be inaccurately labeled or unsafe for human consumption after the MMTC has an opportunity to take remedial action;

d. The collection, storage, handling, recording, and destruction of samples of marijuana by independent testing laboratories; and

e. Security, inventory tracking, and record retention.

(b) The department must license all independent testing laboratories to ensure that all marijuana is tested for potency and contaminants in accordance with the department's quality control program. An independent testing laboratory may collect and accept samples of, and possess, store, transport, and test marijuana. An independent testing laboratory may not be owned by a person who also possesses an ownership interest in an MMTC. A clinical laboratory that is licensed by the Agency for Health Care Administration pursuant to part I of chapter 483 and that performs nonwaived clinical tests is exempt from the requirement to be licensed by the department pursuant to this paragraph but must be certified to perform all required tests pursuant to subparagraph 2.

1. The department shall develop rules establishing independent testing laboratory license requirements and a process for licensing independent testing laboratories; develop an application form for an independent testing laboratory

license; and impose an initial application fee and a biennial renewal fee sufficient to cover the costs of administering this subsection.

2. In addition to licensure, an independent testing laboratory must be certified to perform all required tests by the department. The department must issue a certification to an independent testing laboratory that has been certified by a third-party laboratory certification body approved by the department. The department shall establish reasonable rules for the certification and operation of independent testing laboratories. Rules for certification must, at a minimum, address standards relating to:

a. Personnel qualifications;

b. Equipment and methodology;

c. Proficiency testing;

d. Tracking;

e. Sampling;

f. Chain of custody;

g. Record and sample retention;

h. Reporting;

i. Audit and inspection; and

j. Security.

3. The department shall suspend or reduce any mandatory testing requirement specified in its quality control program if the number of licensed and certified independent testing laboratories is insufficient to process the tests necessary to meet the patients' demand for marijuana.

4. An independent testing laboratory may accept only samples composed of marijuana which are obtained from a sample

source approved by the department. At a minimum, these sources must include an MMTC, a researcher affiliated with an accredited university or research hospital, a qualifying patient, and a caregiver.

(10) ~~(7)~~ DEPARTMENT AUTHORITY AND RESPONSIBILITIES.—

(a) The department may conduct announced or unannounced inspections of MMTCs ~~dispensing organizations~~ to determine compliance with this section or rules adopted pursuant to this section.

(b) The department shall inspect an MMTC ~~a dispensing organization~~ upon complaint or notice provided to the department that the MMTC ~~dispensing organization~~ has dispensed marijuana ~~low-THC cannabis or medical cannabis~~ containing any mold, bacteria, or other contaminant that may cause or has caused an adverse effect to human health or the environment.

(c) The department shall conduct at least a biennial inspection of each MMTC ~~dispensing organization~~ to evaluate the MMTC's ~~dispensing organization's~~ records, personnel, equipment, processes, security measures, sanitation practices, and quality assurance practices.

(d) The department shall adopt by rule a process for approving changes in MMTC ownership or a change in an MMTC owner's investment interest. This process must include specific criteria for the approval or denial of an application for change of ownership or a change in investment interest and procedures for screening applicants' criminal and financial histories.

(e) The department shall establish, maintain, and control a computer software tracking system that traces marijuana from seed to sale and allows real-time, 24-hour access by the

department to data from all MMTCs and independent testing laboratories. The tracking system must, at a minimum, include notification of when marijuana seeds are planted, when marijuana plants are harvested and destroyed, and when marijuana is transported, sold, stolen, diverted, or lost. Each MMTC shall use the seed-to-sale tracking system selected by the department.

(f) ~~(d)~~ The department may enter into interagency agreements with the Department of Agriculture and Consumer Services, the Department of Business and Professional Regulation, the Department of Transportation, the Department of Highway Safety and Motor Vehicles, and the Agency for Health Care Administration, and such agencies are authorized to enter into an interagency agreement with the department, to conduct inspections or perform other responsibilities assigned to the department under this section.

(g) ~~(e)~~ The department must make a list of all approved MMTCs, ~~dispensing organizations and qualified ordering~~ physicians who are qualified to issue physician certifications, and medical directors publicly available on its website.

~~(f) The department may establish a system for issuing and renewing registration cards for patients and their legal representatives, establish the circumstances under which the cards may be revoked by or must be returned to the department, and establish fees to implement such system. The department must require, at a minimum, the registration cards to:~~

~~1. Provide the name, address, and date of birth of the patient or legal representative.~~

~~2. Have a full-face, passport-type, color photograph of the patient or legal representative taken within the 90 days~~

~~immediately preceding registration.~~

~~3. Identify whether the cardholder is a patient or legal representative.~~

~~4. List a unique numeric identifier for the patient or legal representative that is matched to the identifier used for such person in the department's compassionate use registry.~~

~~5. Provide the expiration date, which shall be 1 year after the date of the physician's initial order of low-THC cannabis or medical cannabis.~~

~~6. For the legal representative, provide the name and unique numeric identifier of the patient that the legal representative is assisting.~~

~~7. Be resistant to counterfeiting or tampering.~~

(h) ~~(g)~~ The department may impose reasonable fines not to exceed $10,000 on an MMTC ~~a dispensing organization~~ for any of the following violations:

1. Violating this section, s. 499.0295, or department rule.

2. Failing to maintain qualifications for registration with the department ~~approval~~.

3. Endangering the health, safety, or security of a qualifying ~~qualified~~ patient.

4. Improperly disclosing personal and confidential information of a qualifying ~~the qualified~~ patient.

5. Attempting to procure MMTC registration with the department ~~dispensing organization approval~~ by bribery, fraudulent misrepresentation, or extortion.

6. Any owner or manager of the MMTC being convicted or found guilty of, or entering a plea of guilty or nolo contendere to, regardless of adjudication, a crime in any jurisdiction

which directly relates to the business of an MMTC ~~a dispensing organization~~.

7. Making or filing a report or record that the MMTC ~~dispensing organization~~ knows to be false.

8. Willfully failing to maintain a record required by this section or department rule.

9. Willfully impeding or obstructing an employee or agent of the department in the furtherance of his or her official duties.

10. Engaging in fraud or deceit, negligence, incompetence, or misconduct in the business practices of an MMTC ~~a dispensing organization~~.

11. Making misleading, deceptive, or fraudulent representations in or related to the business practices of an MMTC ~~a dispensing organization~~.

12. Having a license or the authority to engage in any regulated profession, occupation, or business that is related to the business practices of an MMTC ~~a dispensing organization~~ suspended, revoked, or otherwise acted against by the licensing authority of any jurisdiction, including its agencies or subdivisions, for a violation that would constitute a violation under Florida law.

13. Violating a lawful order of the department or an agency of the state, or failing to comply with a lawfully issued subpoena of the department or an agency of the state.

(i) ~~(h)~~ The department may suspend, revoke, or refuse to renew an MMTC's registration with the department ~~a dispensing organization's approval~~ if the MMTC ~~a dispensing organization~~ commits a violation specified ~~any of the violations~~ in paragraph

(h) ~~(g)~~.

(j)~~(i)~~ The department shall renew an MMTC's registration with the department ~~the approval of a dispensing organization~~ biennially if the MMTC ~~dispensing organization~~ meets the requirements of this section and pays the biennial renewal fee.

(k)~~(j)~~ The department may adopt rules necessary to implement this section.

(11)~~(8)~~ PREEMPTION.—

(a) All matters regarding the regulation of the cultivation and processing of marijuana ~~medical cannabis or low-THC cannabis~~ by MMTCs ~~dispensing organizations~~ are preempted to the state.

(b) A municipality may determine by ordinance the criteria for the number and location of, and other permitting requirements that do not conflict with state law or department rule for, dispensing facilities of MMTCs ~~dispensing organizations~~ located within its municipal boundaries. A county may determine by ordinance the criteria for the number, location, and other permitting requirements that do not conflict with state law or department rule for all dispensing facilities of MMTCs ~~dispensing organizations~~ located within the unincorporated areas of that county.

(12)~~(9)~~ EXCEPTIONS TO OTHER LAWS.—

(a) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or any other provision of law, but subject to the requirements of this section, a qualifying ~~qualified~~ patient, or a caregiver who has obtained a valid compassionate use registry identification card from the department, ~~and the qualified patient's legal representative~~ may purchase from an MMTC, and possess for the qualifying patient's medical use, up to the amount of marijuana

in the physician certification ~~low-THC cannabis or medical cannabis ordered for the patient~~, but not more than a 90-day ~~45-day~~ supply, and a cannabis delivery device specified in the physician certification ~~ordered~~ for the qualifying patient.

(b) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or any other provision of law, but subject to the requirements of this section, an MMTC ~~an approved dispensing organization~~ and its owners, managers, contractors, and employees may manufacture, possess, sell, deliver, distribute, dispense, administer, and lawfully dispose of reasonable quantities, as established by department rule, of marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device. For purposes of this subsection, the terms "manufacture," "possession," "deliver," "distribute," and "dispense" have the same meanings as provided in s. 893.02.

(c) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or any other provision of law, but subject to the requirements of this section, an approved independent testing laboratory may possess, test, transport, and lawfully dispose of marijuana ~~low-THC cannabis or medical cannabis~~ as provided by department rule.

(d) An MMTC ~~approved dispensing organization~~ and its owners, managers, contractors, and employees are not subject to licensure or regulation under chapter 465 or chapter 499 for manufacturing, possessing, selling, delivering, distributing, dispensing, or lawfully disposing of reasonable quantities, as established by department rule, of marijuana ~~low-THC cannabis, medical cannabis,~~ or a cannabis delivery device.

(e) Exercise by an MMTC of ~~An approved dispensing organization that continues to meet the requirements for~~

~~approval is presumed to be registered with the department and to meet the regulations adopted by the department or its successor agency for the purpose of dispensing medical cannabis or low-THC cannabis under Florida law. Additionally,~~ the authority provided to MMTCs ~~a dispensing organization~~ in s. 499.0295 does not impair its registration with the department ~~the approval of a dispensing organization~~.

(f) This subsection does not exempt a person from prosecution for a criminal offense related to impairment or intoxication resulting from the medical use of marijuana ~~low-THC cannabis or medical cannabis~~ or relieve a person from any requirement under law to submit to a breath, blood, urine, or other test to detect the presence of a controlled substance.

(g) This section does not limit the ability of an employer to establish, continue, or enforce a drug-free workplace program or substance abuse policy. Notwithstanding any other provision of law, this section does not require an employer to accommodate the ingestion of marijuana in any workplace or any employee working while under the influence of marijuana. Notwithstanding any other provision of law, this section does not create a cause of action against an employer for wrongful discharge or discrimination.

(h) Notwithstanding s. 893.13, s. 893.135, s. 893.147, or any other provision of law, but subject to the requirements of this section, a research institute established by a public postsecondary educational institution, such as the H. Lee Moffitt Cancer Center and Research Institute established under s. 1004.43, or a state university that has achieved the preeminent state research university designation pursuant to s.

1001.7065 may possess, test, transport, and lawfully dispose of marijuana for research purposes as provided by department rule.

(13) RULEMAKING.—

(a) The department and the applicable boards shall adopt emergency rules pursuant to s. 120.54(4) and this subsection necessary to implement this section. If an emergency rule adopted under this subsection is held to be unconstitutional or an invalid exercise of delegated legislative authority and becomes void, the department and the applicable boards may adopt an emergency rule to replace the rule that has become void. If the emergency rule adopted to replace the void emergency rule is also held to be unconstitutional or an invalid exercise of delegated legislative authority and becomes void, the department and the applicable boards must follow the nonemergency rulemaking procedures of the Administrative Procedures Act to replace the rule that has become void.

(b) For emergency rules adopted under this subsection, the department and the applicable boards need not make the findings required by s. 120.54(4)(a). Emergency rules adopted under this subsection are exempt from ss. 120.54(3)(b) and 120.541. The department and the applicable boards shall meet the procedural requirements in s. 120.54(2)(a) if the department or the applicable boards have, before the effective date of this act, held any public workshops or hearings on the subject matter of emergency rules adopted under this subsection. Challenges to emergency rules adopted under this subsection are subject to the time schedules provided in s. 120.56(5).

(c) Emergency rules adopted under this section are exempt from s. 120.54(4)(c) and shall remain in effect until replaced

by rules adopted under the nonemergency rulemaking procedures of the Administrative Procedures Act. By January 1, 2018, the department and the applicable boards shall initiate nonemergency rulemaking pursuant to the Administrative Procedures Act by publishing a notice of rule development in the Florida Administrative Register. Except as provided in paragraph (a), after January 1, 2018, the department and applicable boards may not adopt rules pursuant to the emergency rulemaking procedures provided in this subsection.

Section 2. Section 1004.4351, Florida Statutes, is created to read:

1004.4351 Medical marijuana research and education.—

(1) SHORT TITLE.—This section shall be known and may be cited as the "Medical Marijuana Research and Education Act."

(2) LEGISLATIVE FINDINGS.—The Legislature finds that:

(a) The present state of knowledge concerning the use of marijuana to alleviate pain and treat illnesses is limited because permission to perform clinical studies on marijuana is difficult to obtain, with access to research-grade marijuana so restricted that little or no unbiased studies have been performed.

(b) Under the State Constitution, marijuana is available for the treatment of certain debilitating medical conditions.

(c) Additional clinical studies are needed to ensure that the residents of this state obtain the correct dosing, formulation, route, modality, frequency, quantity, and quality of marijuana for specific illnesses.

(d) An effective medical marijuana research and education program would mobilize the scientific, educational, and medical

resources that presently exist in this state to determine the appropriate and best use of marijuana to treat illness.

(3) DEFINITIONS.—As used in this section, the term:

(a) "Board" means the Medical Marijuana Research and Education Board.

(b) "Coalition" means the Coalition for Medical Marijuana Research and Education.

(c) "Marijuana"" has the same meaning as provided in s. 29, Art. X of the State Constitution.

(4) COALITION FOR MEDICAL MARIJUANA RESEARCH AND EDUCATION.—

(a) There is established within the H. Lee Moffitt Cancer Center and Research Institute, Inc., the Coalition for Medical Marijuana Research and Education. The purpose of the coalition is to conduct rigorous scientific research, provide education, disseminate research, and guide policy for the adoption of a statewide policy on ordering and dosing practices for the medicinal use of marijuana. The coalition shall be physically located at the H. Lee Moffitt Cancer Center and Research Institute, Inc.

(b) The Medical Marijuana Research and Education Board is established to direct the operations of the coalition. The board shall be composed of seven members appointed by the chief executive officer of the H. Lee Moffitt Cancer Center and Research Institute, Inc. Board members must have experience in a variety of scientific and medical fields, including, but not limited to, oncology, neurology, psychology, pediatrics, nutrition, and addiction. Members shall be appointed to 4-year terms and may be reappointed to serve additional terms. The

chair shall be elected by the board from among its members to serve a 2-year term. The board shall meet no less than semiannually, at the call of the chair or, in his or her absence or incapacity, the vice chair. Four members constitute a quorum. A majority vote of the members present is required for all actions of the board. The board may prescribe, amend, and repeal a charter governing the manner in which it conducts its business. A board member shall serve without compensation but is entitled to be reimbursed for travel expenses by the coalition or the organization he or she represents in accordance with s. 112.061.

(c) The coalition shall be administered by a coalition director, who shall be appointed by and serve at the pleasure of the board. The coalition director shall, subject to the approval of the board:

1. Propose a budget for the coalition.

2. Foster the collaboration of scientists, researchers, and other appropriate personnel in accordance with the coalition's charter.

3. Identify and prioritize the research to be conducted by the coalition.

4. Prepare the Medical Marijuana Research and Education Plan for submission to the board.

5. Apply for grants to obtain funding for research conducted by the coalition.

6. Perform other duties as determined by the board.

(d) The board shall advise the Board of Governors, the State Surgeon General, the Governor, and the Legislature with respect to medical marijuana research and education in this

state. The board shall explore methods of implementing and enforcing medical marijuana laws in relation to cancer control, research, treatment, and education.

(e) The board shall annually adopt a plan for medical marijuana research, known as the "Medical Marijuana Research and Education Plan," which must be in accordance with state law and coordinate with existing programs in this state. The plan must include recommendations for the coordination and integration of medical, nursing, paramedical, community, and other resources connected with the treatment of debilitating medical conditions, research related to the treatment of such medical conditions, and education.

(f) By February 15 of each year, the board shall issue a report to the Governor, the President of the Senate, and the Speaker of the House of Representatives on research projects, community outreach initiatives, and future plans for the coalition.

(5) RESPONSIBILITIES OF THE H. LEE MOFFITT CANCER CENTER AND RESEARCH INSTITUTE, INC.—The H. Lee Moffitt Cancer Center and Research Institute, Inc., shall allocate staff and provide information and assistance, as the coalition's budget permits, to assist the board in fulfilling its responsibilities.

Section 3. Paragraph (b) of subsection (3) of section 381.987, Florida Statutes, is amended to read:

381.987 Public records exemption for personal identifying information in the compassionate use registry.—

(3) The department shall allow access to the registry, including access to confidential and exempt information, to:

(b) A medical marijuana treatment center registered with

~~dispensing organization approved by~~ the department pursuant to s. 381.986 which is attempting to verify the authenticity of a physician certification ~~physician's order~~ for marijuana ~~low-THC cannabis~~, including whether the physician certification ~~order~~ had been previously filled and whether the physician certification ~~order~~ was written for the person attempting to have it filled.

Section 4. Subsection (1) of section 385.211, Florida Statutes, is amended to read:

385.211 Refractory and intractable epilepsy treatment and research at recognized medical centers.—

(1) As used in this section, the term "low-THC cannabis" means "low-THC cannabis" as defined in s. 381.986 which ~~that~~ is dispensed only from a medical marijuana treatment center ~~dispensing organization~~ as defined in s. 381.986.

Section 5. Present paragraphs (b) and (c) of subsection (2) of section 499.0295, Florida Statutes, are redesignated as paragraphs (a) and (b), respectively, present paragraphs (a) and (c) of that subsection are amended, a new paragraph (c) is added to that subsection, and subsection (3) of that section is amended, to read:

499.0295 Experimental treatments for terminal conditions.—

(2) As used in this section, the term:

~~(a) "Dispensing organization" means an organization approved by the Department of Health under s. 381.986(5) to cultivate, process, transport, and dispense low-THC cannabis, medical cannabis, and cannabis delivery devices.~~

(b) ~~(c)~~ "Investigational drug, biological product, or device" means:

1. A drug, biological product, or device that has successfully completed phase 1 of a clinical trial but has not been approved for general use by the United States Food and Drug Administration and remains under investigation in a clinical trial approved by the United States Food and Drug Administration; or

2. Marijuana ~~Medical cannabis~~ that is manufactured and sold by an MMTC ~~a dispensing organization~~.

(c) "Medical marijuana treatment center" or "MMTC" means an organization registered with the Department of Health under s. 381.986.

(3) Upon the request of an eligible patient, a manufacturer may, or upon the issuance of a physician certification ~~a physician's order~~ pursuant to s. 381.986, an MMTC ~~a dispensing organization~~ may:

(a) Make its investigational drug, biological product, or device available under this section.

(b) Provide an investigational drug, biological product, device, or cannabis delivery device as defined in s. 381.986 to an eligible patient without receiving compensation.

(c) Require an eligible patient to pay the costs of, or the costs associated with, the manufacture of the investigational drug, biological product, device, or cannabis delivery device as defined in s. 381.986.

Section 6. Subsection (1) of section 1004.441, Florida Statutes, is amended to read:

1004.441 Refractory and intractable epilepsy treatment and research.—

(1) As used in this section, the term "low-THC cannabis"

means "low-THC cannabis" as defined in s. 381.986 which ~~that~~ is dispensed only from a medical marijuana treatment center ~~dispensing organization~~ as defined in s. 381.986.

Section 7. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" wherever it occurs in this act with the date the act becomes a law.

Section 8. This act shall take effect upon becoming a law.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 494
INTRODUCER:	Judiciary Committee and Senator Bradley
SUBJECT:	Compensation of Victims of Wrongful Incarceration
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Cellon	Hrdlicka	CJ	**Favorable**
2.	Brown	Cibula	JU	**Fav/CS**
3.	McAuliffe	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 494 amends chapter 961, Florida Statutes, which establishes an administrative process for compensation for a person who has been wrongfully incarcerated.

Under current law, a person is not eligible for compensation for wrongful incarceration through an administrative process if he or she has a criminal history that includes any felony.[1] This is commonly known as the "clean hands" provision of Florida's wrongful incarceration compensation law. The bill narrows the list of felony offenses that disqualify a person from compensation from all felonies to violent felonies. The bill also removes as a disqualifier any offense for which the person was convicted of or pled guilty or nolo contendere to before he or she was wrongfully convicted and incarcerated. By narrowing the types of disqualifying felonies, the bill expands the pool of potential applicants for compensation through the administrative process.

This bill has an indeterminate fiscal impact because it is unknown how many applicants would be eligible under the expanded criteria.

The bill takes effect October 1, 2017.

[1] Section 961.04, F.S.

II. Present Situation:

The Victims of Wrongful Incarceration Compensation Act has been in effect since July 1, 2008.[2] The law establishes an administrative process for a person to petition the original sentencing court for an order finding the petitioner to have been wrongfully incarcerated and eligible for compensation.

The Department of Legal Affairs administers the eligible person's application process and verifies the validity of the claim.[3] The Chief Financial Officer arranges for payment of the claim by securing an annuity or annuities payable to the claimant over at least 10 years, calculated at a rate of $50,000 for each year of wrongful incarceration up to a total of $2 million.[4]

"Clean Hands" Provision of the Act – Section 961.04, Florida Statutes

In cases in which sufficient evidence of actual innocence can be shown, the person is still ineligible for compensation if:

- Before the person's wrongful conviction and incarceration, the person was convicted of, or pled guilty or nolo contendere to, regardless of adjudication, any felony offense, or a crime committed in another jurisdiction the elements of which would constitute a felony in this state, or a crime committed against the United States which is designated a felony, excluding any delinquency disposition;
- During the person's wrongful incarceration, the person was convicted of, or pled guilty or nolo contendere to, regardless of adjudication, any felony offense; or
- During the person's wrongful incarceration, the person was also serving a concurrent sentence for another felony for which the person was not wrongfully convicted.[5]

Of the 30 states that have statutes that provide for compensation for wrongfully incarcerated persons, Florida is the only state with a "clean hands" provision.[6]

---

[2] Chapter 961, F.S. (ch. 2008-39, L.O.F.).
[3] Section 961.05(2), F.S.
[4] Additionally, the wrongfully incarcerated person is entitled to: waiver of tuition and fees for up to 120 hours of instruction at any career center established under s. 1001.44, F.S., any Florida College System Institution as defined in s. 1000.21(3), F.S., or any state university as defined in s. 1000.21(6), F.S., if the wrongfully incarcerated person meets and maintains the regular admission requirements; remains registered; and makes satisfactory academic progress as defined by the educational institution in which the claimant is enrolled. The wrongfully incarcerated person is also entitled to reimbursement of the amount of any fine, penalty, or court costs paid, and the amount of any reasonable attorney's fees and expenses incurred for all criminal proceedings and appeals regarding the wrongful conviction, to be calculated by the department based upon supporting documentation submitted as specified in s. 961.05, F.S.. Finally, the wrongfully incarcerated person is entitled to immediate administrative expunction of the person's criminal record resulting from his or her wrongful arrest, wrongful conviction, and wrongful incarceration. s. 961.06, F.S.
[5] Section 961.04, F.S.
[6] *Making Up for Lost Time*, page 19, The Innocence Project, Benjamin N. Cardozo School of Law, www.innocenceproject.org; ("Clean hands" meaning that a person is ineligible for compensation if he or she has prior felony offenses to the one for which compensation is being sought.). Other states generally take these matters up by "personal bills," a process much like Florida's claim bill process.

Wrongfully Incarcerated - Placed on Parole or Community Supervision for the Offense

A person convicted of a felony may be sentenced to a split sentence, which is a sentence including both incarceration and release under supervision. Alternatively, a person could be granted parole if he or she meets the statutory criteria.[7] Therefore, a person could potentially be wrongfully incarcerated for a crime and then placed on parole or community supervision as part of the sentence. If a person violates a condition of parole or community supervision, he or she may have parole or community supervision revoked. The basis for revocation of parole or community supervision may affect eligibility for compensation for wrongful incarceration.

Under s. 961.06(2), F.S., if a person commits a misdemeanor or a technical violation while under supervision which results in revocation of the community supervision or parole, the person remains eligible for compensation. If, however, a felony law violation results in revocation, the person is no longer eligible for compensation.[8] Ineligibility based on a felony violation applies to any felony.

Wrongful Incarceration Claims

To date, four persons have been compensated under the administrative process for a total of $4,276,901. Six other claimants had their claims denied, based on either ineligibility or incomplete applications.[9]

III. Effect of Proposed Changes:

The bill amends ch. 961, F.S., the Victims of Wrongful Incarceration Compensation Act. Chapter 961, F.S., currently provides an administrative process for a person who has been wrongfully incarcerated for a felony conviction to seek a court order finding the person to be eligible for compensation. Current law disqualifies a person who is otherwise eligible for compensation if he or she has a record of any prior felony, a felony committed while wrongfully incarcerated, or a felony committed while on parole or community supervision.

Section 2 limits disqualifying felonies to violent felonies. In other words, the bill provides that in order to be found ineligible for compensation based on other crimes, the person must have committed a violent felony, not a simple felony. Specifically a felony is disqualifying if:

- During the person's wrongful incarceration, he or she was convicted of, pled nolo contendere to, regardless of adjudication, any violent felony;[10] or

[7] Persons are not eligible for parole in Florida unless they were sentenced prior to the effective date of the sentencing guidelines which was October 1, 1983, and only if they meet the statutory criteria. Ch. 82-171, Laws of Florida; s. 947.16, F.S. The term "community supervision" as used in s. 961.06(2), F.S., could include controlled release, conditional medical or conditional release under the authority of the Commission on Offender Review (ch. 947, F.S.) or community control or probation under the supervision of the Department of Corrections (ch. 948, F.S.).

[8] Section 961.06(2), F.S.

[9] Email correspondence with the Office of the Attorney General (Jan. 14, 2016 and March 1, 2017) (on file with the Senate Committee on Judiciary). Persons whose claims have been successful are Leroy McGee (2010), James Bain (2011), Luis Diaz (2012), and James Richardson (2015). Jarvis McBride's claim was denied (2012). Three persons had their claims rejected based on incomplete applications. These are Robert Lewis (2011), Edwin Lampkin (2012), and Robert Glenn Mosley (2014). Two other claimants were determined to be ineligible for compensation (Ricardo Johnson (2013) and Joseph McGowan (2015)).

[10] Section 961.04(2), F.S.

- During a period of parole or community supervision on the sentence that led to his or her wrongful incarceration, the person committed a violent felony that resulted in the revocation of the parole or community supervision.[11]

A violent felony is defined in section 1 by a cross-reference to ss. 775.084(1)(c)1. and 948.06(8)(c), F.S. The combined list of those violent felony offenses includes attempts to commit the crimes as well as offenses committed in other jurisdictions if the elements of the crimes are substantially similar.

Section 2 also removes as a disqualifying offense any felony for which the person was convicted or pled guilty or nolo contendere to before he or she was wrongfully incarcerated.

Violent felony offenses which would preclude a wrongfully incarcerated person from being eligible for compensation under the bill are:

- Kidnapping;
- False imprisonment of a child;
- Luring or enticing a child;
- Murder;
- Manslaughter;
- Aggravated manslaughter of a child;
- Aggravated manslaughter of an elderly person or disabled adult;
- Robbery;
- Carjacking;
- Home invasion robbery;
- Sexual Battery;
- Aggravated battery;
- Armed burglary and other burglary offenses that are first or second degree felonies;
- Aggravated child abuse;
- Aggravated abuse of an elderly person or disabled adult;
- Arson;
- Aggravated assault;
- Unlawful throwing, placing, or discharging of a destructive device or bomb;
- Treason;
- Aggravated stalking;
- Aircraft piracy;
- Abuse of a dead human body;
- Poisoning food or water;
- Lewd or lascivious battery, molestation, conduct, exhibition, or exhibition on computer;
- Lewd or lascivious offense upon or in the presence of an elderly or disabled person;
- Sexual performance by a child;
- Computer pornography;
- Transmission of child pornography; and
- Selling or buying of minors.

[11] Section 961.06(2), F.S.

In limiting disqualifying felonies to violent felonies, the pool of potential persons eligible for compensation due to wrongful incarceration may increase.

The bill takes effect October 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

More persons are potentially eligible for compensation under the provisions of the bill. A person who is entitled to compensation based on wrongful incarceration may be paid at the rate of $50,000 per year of wrongful incarceration up to a limit of $2 million.[12] Payment is made from an annuity or annuities purchased by the Chief Financial Officer for the benefit of the wrongfully incarcerated person. The Victims of Wrongful Incarceration Compensation Act is funded through a continuing appropriation pursuant to s. 961.07, F.S.

Although statutory limits on compensation under the Act are clear, the fiscal impact of the bill is unquantifiable. The possibility that a person would be compensated for wrongful incarceration is based upon variables that cannot be known, such as the number of wrongful incarcerations that currently exist or might exist in the future. Four successful claims since the Act became effective total $4,276,901.

[12] The Chief Financial Officer may adjust the annual rate of compensation for inflation for persons found to be wrongfully incarcerated after December 31, 2008. Section 961.06(1)(a), F.S.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 961.02, 961.04, and 961.06.

This bill reenacts the following sections of the Florida Statutes: 961.03, 961.05, 961.055, and 961.056.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Judiciary on March 7, 2017:
This CS removes as a disqualifying offense that makes a person ineligible for compensation for a wrongful incarceration any felony for which the person was convicted of or pled nolo contendere to before the person's wrongful conviction and incarceration.

B. Amendments:

None.

By the Committee on Judiciary; and Senator Bradley

590-02191-17 2017494c1

A bill to be entitled

An act relating to compensation of victims of wrongful incarceration; reordering and amending s. 961.02, F.S.; making technical changes; defining the term "violent felony"; amending s. 961.04, F.S.; revising the circumstances under which a wrongfully incarcerated person is not eligible for compensation under the Victims of Wrongful Incarceration Compensation Act; amending s. 961.06, F.S.; providing that a wrongfully incarcerated person who commits a violent felony, rather than a felony law violation, which results in revocation of parole or community supervision is ineligible for compensation; reenacting s. 961.03(1)(a), (2), (3), and (4), F.S., relating to determination of status as a wrongfully incarcerated person and of eligibility for compensation, to incorporate the amendment made to s. 961.04, F.S., in references thereto; reenacting ss. 961.05(6), 961.055(1), and 961.056(4), F.S., relating to determination of entitlement to compensation, application for compensation for a wrongfully incarcerated person, and an alternative application for compensation for a wrongfully incarcerated person, respectively, to incorporate the amendment made to s. 961.06, F.S., in references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 961.02, Florida Statutes, is reordered and amended to read:

961.02 Definitions.—As used in ss. 961.01-961.07, the term:

(1) "Act" means the Victims of Wrongful Incarceration Compensation Act.

(2) "Department" means the Department of Legal Affairs.

(3) "Division" means the Division of Administrative Hearings.

(7)~~(4)~~ "Wrongfully incarcerated person" means a person whose felony conviction and sentence have been vacated by a court of competent jurisdiction and who is the subject of an order issued by the original sentencing court pursuant to s. 961.03~~, with respect to whom pursuant to the requirements of s. 961.03, the original sentencing court has issued its order~~ finding that the person did not commit ~~neither committed~~ the act or ~~nor the~~ offense that served as the basis for the conviction and incarceration and that the person did not aid, abet, or act as an accomplice or accessory to a person who committed the act or offense.

(4)~~(5)~~ "Eligible for compensation" means that a person meets the definition of the term "wrongfully incarcerated person" and is not disqualified from seeking compensation under the criteria prescribed in s. 961.04.

(5)~~(6)~~ "Entitled to compensation" means that a person meets the definition of the term "eligible for compensation" and satisfies the application requirements prescribed in s. 961.05, and may receive compensation pursuant to s. 961.06.

(6) "Violent felony" means a felony listed in s. 775.084(1)(c)1. or s. 948.06(8)(c).

Section 2. Section 961.04, Florida Statutes, is amended to read:

961.04 Eligibility for compensation for wrongful incarceration.—A wrongfully incarcerated person is not eligible for compensation under the act if:

~~(1) Before the person's wrongful conviction and incarceration, the person was convicted of, or pled guilty or nolo contendere to, regardless of adjudication, any felony offense, or a crime committed in another jurisdiction the elements of which would constitute a felony in this state, or a crime committed against the United States which is designated a felony, excluding any delinquency disposition;~~

(1) ~~(2)~~ During the person's wrongful incarceration, the person was convicted of, or pled guilty or nolo contendere to, regardless of adjudication, any violent felony ~~offense~~; or

(2) ~~(3)~~ During the person's wrongful incarceration, the person was also serving a concurrent sentence for another felony for which the person was not wrongfully convicted.

Section 3. Subsection (2) of section 961.06, Florida Statutes, is amended to read:

961.06 Compensation for wrongful incarceration.—

(2) In calculating monetary compensation under paragraph (1)(a), a wrongfully incarcerated person who is placed on parole or community supervision while serving the sentence resulting from the wrongful conviction and who commits anything less than a violent felony ~~law violation~~ that results in revocation of the parole or community supervision is eligible for compensation for the total number of years incarcerated. A wrongfully incarcerated person who commits a violent felony ~~law violation~~

that results in revocation of the parole or community supervision is ineligible for any compensation under subsection (1).

Section 4. For the purpose of incorporating the amendment made by this act to section 961.04, Florida Statutes, in references thereto, paragraph (a) of subsection (1) and subsections (2), (3), and (4) of section 961.03, Florida Statutes, are reenacted to read:

961.03 Determination of status as a wrongfully incarcerated person; determination of eligibility for compensation.—

(1)(a) In order to meet the definition of a "wrongfully incarcerated person" and "eligible for compensation," upon entry of an order, based upon exonerating evidence, vacating a conviction and sentence, a person must set forth the claim of wrongful incarceration under oath and with particularity by filing a petition with the original sentencing court, with a copy of the petition and proper notice to the prosecuting authority in the underlying felony for which the person was incarcerated. At a minimum, the petition must:

1. State that verifiable and substantial evidence of actual innocence exists and state with particularity the nature and significance of the verifiable and substantial evidence of actual innocence; and

2. State that the person is not disqualified, under the provisions of s. 961.04, from seeking compensation under this act.

(2) The prosecuting authority must respond to the petition within 30 days. The prosecuting authority may respond:

(a) By certifying to the court that, based upon the

petition and verifiable and substantial evidence of actual innocence, no further criminal proceedings in the case at bar can or will be initiated by the prosecuting authority, that no questions of fact remain as to the petitioner's wrongful incarceration, and that the petitioner is not ineligible from seeking compensation under the provisions of s. 961.04; or

(b) By contesting the nature, significance, or effect of the evidence of actual innocence, the facts related to the petitioner's alleged wrongful incarceration, or whether the petitioner is ineligible from seeking compensation under the provisions of s. 961.04.

(3) If the prosecuting authority responds as set forth in paragraph (2)(a), the original sentencing court, based upon the evidence of actual innocence, the prosecuting authority's certification, and upon the court's finding that the petitioner has presented clear and convincing evidence that the petitioner committed neither the act nor the offense that served as the basis for the conviction and incarceration, and that the petitioner did not aid, abet, or act as an accomplice to a person who committed the act or offense, shall certify to the department that the petitioner is a wrongfully incarcerated person as defined by this act. Based upon the prosecuting authority's certification, the court shall also certify to the department that the petitioner is eligible for compensation under the provisions of s. 961.04.

(4)(a) If the prosecuting authority responds as set forth in paragraph (2)(b), the original sentencing court shall make a determination from the pleadings and supporting documentation whether, by a preponderance of the evidence, the petitioner is

ineligible for compensation under the provisions of s. 961.04, regardless of his or her claim of wrongful incarceration. If the court finds the petitioner ineligible under the provisions of s. 961.04, it shall dismiss the petition.

(b) If the prosecuting authority responds as set forth in paragraph (2)(b), and the court determines that the petitioner is eligible under the provisions of s. 961.04, but the prosecuting authority contests the nature, significance or effect of the evidence of actual innocence, or the facts related to the petitioner's alleged wrongful incarceration, the court shall set forth its findings and transfer the petition by electronic means through the division's website to the division for findings of fact and a recommended determination of whether the petitioner has established that he or she is a wrongfully incarcerated person who is eligible for compensation under this act.

Section 5. For the purpose of incorporating the amendment made by this act to section 961.06, Florida Statutes, in a reference thereto, subsection (6) of section 961.05, Florida Statutes, is reenacted to read:

961.05 Application for compensation for wrongful incarceration; administrative expunction; determination of entitlement to compensation.—

(6) If the department determines that a claimant meets the requirements of this act, the wrongfully incarcerated person who is the subject of the claim becomes entitled to compensation, subject to the provisions in s. 961.06.

Section 6. For the purpose of incorporating the amendment made by this act to section 961.06, Florida Statutes, in a

reference thereto, subsection (1) of section 961.055, Florida Statutes, is reenacted to read:

961.055 Application for compensation for a wrongfully incarcerated person; exemption from application by nolle prosequi.—

(1) A person alleged to be a wrongfully incarcerated person who was convicted and sentenced to death on or before December 31, 1979, is exempt from the application provisions of ss. 961.03, 961.04, and 961.05 in the determination of wrongful incarceration and eligibility to receive compensation pursuant to s. 961.06 if:

(a) The Governor issues an executive order appointing a special prosecutor to review the defendant's conviction; and

(b) The special prosecutor thereafter enters a nolle prosequi for the charges for which the defendant was convicted and sentenced to death.

Section 7. For the purpose of incorporating the amendment made by this act to section 961.06, Florida Statutes, in a reference thereto, subsection (4) of section 961.056, Florida Statutes, is reenacted to read:

961.056 Alternative application for compensation for a wrongfully incarcerated person.—

(4) If the department determines that a claimant making application under this section meets the requirements of this chapter, the wrongfully incarcerated person is entitled to compensation under s. 961.06.

Section 8. This act shall take effect October 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1844
INTRODUCER:	Governmental Oversight and Accountability Committee and Senator Bradley
SUBJECT:	Public Records/Compassionate Use Registry
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Ferrin	Ferrin	GO	**Fav/CS**
2.	Loe	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1844 expands the public records exemption for the Compassionate Use Registry (registry) to conform its provisions to changes being made to section 381.986, Florida Statutes, regarding the compassionate use of low-THC and medical marijuana by CS/SB 406. Specifically, the bill makes a qualifying patient's and a caregiver's personal identifying information held in the registry confidential and exempt from public records laws; clarifies that law enforcement access to the registry is for the purpose of verifying the authorization of a qualifying patient or caregiver to possess marijuana; and expands access to information within the registry to:

- Allopathic and osteopathic physicians licensed under chapter 458 or 459, Florida Statutes, respectively;
- Practitioners licensed to prescribe prescription drugs to ensure proper care for patients before prescribing medications that may interact with marijuana; and
- Employees of the Department of Health (DOH) for the purpose of monitoring physician registration in the registry and monitoring physician certifications for practices that could facilitate diversion or misuse of marijuana.

The bill also extends the open government sunset review date to October 2, 2022, includes the constitutionally required public necessity statement, and makes other conforming changes to provisions amended by CS/SB 406.

The bill requires a two-thirds vote from each chamber for passage.

The bill has no impact on state revenues or expenditures.

The bill takes effect on the same date as CS/SB 406, or other similar legislation, becomes a law, provided both are adopted in the same legislative session.

II. Present Situation:

Public Records Law

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.[1] This applies to the official business of any public body, officer or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[2]

In addition to the Florida Constitution, the Florida Statutes provide that the public may access legislative and executive branch records.[3] Chapter 119, F.S., constitutes the main body of public records laws, and is known as the Public Records Act.[4] The Public Records Act states that:

> It is the policy of this state that all state, county and municipal records are open for personal inspection and copying by any person. Providing access to public records is a duty of each agency.[5]

According to the Public Records Act, a public record includes virtually any document or recording, regardless of its physical form or how it may be transmitted.[6] The Florida Supreme Court has interpreted public records as being "any material prepared in connection with official agency business which is intended to perpetuate, communicate or formalize knowledge of some type."[7] A violation of the Public Records Act may result in civil or criminal liability.[8]

The Legislature may create an exemption to public records requirements.[9] An exemption must pass by a two-thirds vote of the House and the Senate.[10] In addition, an exemption must

---

[1] FLA. CONST., art. I, s. 24(a).
[2] *Id*.
[3] The Public Records Act does not apply to legislative or judicial records. *Locke v. Hawkes*, 595 So. 2d 32 (Fla. 1992). Also see *Times Pub. Co. v. Ake*, 660 So. 2d 255 (Fla. 1995). The Legislature's records are public pursuant to s. 11.0431, F.S. Public records exemptions for the Legislatures are primarily located in s. 11.0431(2)-(3), F.S.
[4] Public records laws are found throughout the Florida Statutes.
[5] Section 119.01(1), F.S.
[6] Section 119.011(12), F.S., defines "public record" to mean "all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency." Section 119.011(2), F.S., defines "agency" to mean as "any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency."
[7] *Shevin v. Byron, Harless, Schaffer, Reid and Assoc. Inc*., 379 So. 2d 633, 640 (Fla. 1980).
[8] Section 119.10, F.S. Public records laws are found throughout the Florida Statutes, as are the penalties for violating those laws.
[9] FLA. CONST., art. I, s. 24(c).
[10] *Id.*

explicitly lay out the public necessity justifying the exemption, and the exemption must be no broader than necessary to accomplish the stated purpose of the exemption.[11] A statutory exemption that does not meet these criteria may be unconstitutional and may not be judicially saved.[12]

When creating a public records exemption, the Legislature may provide that a record is "confidential and exempt" or "exempt."[13] Records designated as "confidential and exempt" may be released by the records custodian only under the circumstances defined by the Legislature. Records designated as "exempt" are not required to be made available for public inspection, but may be released at the discretion of the records custodian under certain circumstances.[14]

Open Government Sunset Review Act

The Open Government Sunset Review Act (referred to hereafter as the "OGSR") prescribes a legislative review process for newly created or substantially amended public records or open meetings exemptions.[15] The OGSR provides that an exemption automatically repeals on October 2nd of the fifth year after creation or substantial amendment; in order to save an exemption from repeal, the Legislature must reenact the exemption.[16]

The OGSR provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than is necessary.[17] An exemption serves an identifiable purpose if it meets one of the following purposes *and* the Legislature finds that the purpose of the exemption outweighs open government policy and cannot be accomplished without the exemption:

- It allows the state or its political subdivision to effectively and efficiently administer a program, and administration would be significantly impaired without the exemption;[18]
- Releasing sensitive personal information would be defamatory or would jeopardize an individual's safety. If this public purpose is cited as the basis of an exemption, however, only personal identifying information is exempt;[19] or
- It protects trade or business secrets.[20]

[11] *Id*.
[12] *Halifax Hosp. Medical Center v. New-Journal Corp.*, 724 So. 2d 567 (Fla. 1999). See also *Baker County Press, Inc. v. Baker County Medical Services, Inc.*, 870 So. 2d 189 (Fla. 1st DCA 2004).
[13] If the Legislature designates a record as confidential, such record may not be released to anyone other than the persons or entities specifically designated in the statutory exemption. *WFTV, Inc. v. The School Board of Seminole*, 874 So. 2d 48 (Fla. 5th DCA 2004).
[14] *Williams v. City of Minneola*, 575 So. 2d 687 (Fla. 5th DCA 1991).
[15] Section 119.15, F.S. Section 119.15(4)(b), F.S., provides that an exemption is considered to be substantially amended if it is expanded to include more information or to include meetings. The OGSR does not apply to an exemption that is required by federal law or that applies solely to the Legislature or the State Court System pursuant to section 119.15(2), F.S.
[16] Section 119.15(3), F.S.
[17] Section 119.15(6)(b), F.S.
[18] Section 119.15(6)(b)1., F.S.
[19] Section 119.15(6)(b)2., F.S.
[20] Section 119.15(6)(b)3., F.S.

The OGSR also requires specified questions to be considered during the review process.[21] In examining an exemption, the OGSR asks the Legislature to carefully question the purpose and necessity of reenacting the exemption.

If, in reenacting an exemption, the exemption is expanded, then a public necessity statement and a two-thirds vote for passage are required.[22] If the exemption is reenacted without substantive changes or if the exemption is narrowed, then a public necessity statement and a two-thirds vote for passage are *not* required. If the Legislature allows an exemption to sunset, the previously exempt records will remain exempt unless provided for by law.[23]

Medical Marijuana in Florida

The Compassionate Medical Cannabis Act of 2014[24] (act) legalized a low tetrahydrocannabinol (THC) and high cannabidiol (CBD) form of cannabis (low-THC cannabis)[25] for medical use[26] by patients suffering from cancer or a physical medical condition that chronically produces symptoms of seizures or severe and persistent muscle spasms.

In 2016, Florida voters approved Amendment 2 that added s. 29, Art. X to the State Constitution. This new constitutional provision approved the medical use of marijuana by certain patients with debilitating medical conditions pursuant to a physician's certification. CS/SB 406 is proposed legislation that amends Florida's current low-THC and medical cannabis law to implement the provisions of s. 29, Art. X of the State Constitution. Along with other requirements, s. 29(d)(4), Art. X of the State Constitution requires that the DOH protect the confidentiality of all qualifying patients and makes all records containing the identity of qualifying patients confidential except for valid medical or law enforcement purposes.

For more details on current medical marijuana laws in Florida and other states, including details on Amendment 2, and s. 29, Art. X of the State Constitution, please see the analysis for CS/SB 406.

---

[21] Section 119.15(6)(a), F.S. The specified questions are:
1. What specific records or meetings are affected by the exemption?
2. Whom does the exemption uniquely affect, as opposed to the general public?
3. What is the identifiable public purpose or goal of the exemption?
4. Can the information contained in the records or discussed in the meeting be readily obtained by alternative means? If so, how?
5. Is the record or meeting protected by another exemption?
6. Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?

[22] FLA. CONST. art. I, s. 24(c).

[23] Section 119.15(7), F.S.

[24] Chapter 2014-157, Laws of Fla., codified in s. 381.986, F.S.

[25] Section 381.986(b), F.S., defines "low-THC cannabis," as the dried flowers of the plant *Cannabis* which contain 0.8 percent or less of tetrahydrocannabinol and more than 10 percent of cannabidiol weight for weight, or the seeds, resin, or any compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin.

[26] Section 381.986(1)(c), F.S., defines "medical use" as administration of the ordered amount of low-THC cannabis; and the term does not include the possession, use, or administration by smoking, or the transfer of low-THC cannabis to a person other than the qualified patient for whom it was ordered or the qualified patient's legal representative. Section 381.986(1)(e), F.S., defines "smoking" as burning or igniting a substance and inhaling the smoke; smoking does not include the use of a vaporizer.

Compassionate Use Registry and Identification Cards

Section 381.986, F.S., requires the DOH to create a secure, electronic, and online registry, for the registration of physicians and patients and for the verification of patient orders by dispensing organizations (DOs) that is accessible to law enforcement.[27] The registry must allow DOs to record the dispensing of low-THC cannabis, and must prevent an active registration of a patient by multiple physicians. Physicians must register qualified patients with the registry and DOs are required to verify that the patient has an active registration in the registry, that the order presented matches the order contents as recorded in the registry, and that the order has not already been filled before dispensing any low-THC cannabis. The DOs are also required to record in the registry the date, time, quantity, and form of low-THC cannabis dispensed.[28] The registry became operational on July 11, 2016.[29] As of the end of February 2017, there were 4,079 patients registered with the registry.[30]

On February 19, 2017, the DOH adopted Rule 64-4.011, F.A.C., which governs the issuance and renewal of registry identification cards (ID card). The rule requires patients and legal representatives to obtain ID cards to obtain low-THC cannabis, medical cannabis, or a cannabis delivery device. In order to obtain an ID card, a patient or legal representative must submit an application form[31] created by the DOH. The form requires the patient or legal representative to submit personal identifying information to the DOH including his or her name, address, social security number, telephone number, date of birth, a passport style photo, and proof of residency including a driver's license, utility bill, or voter registration card.

CS/SB 406 amends the section of law governing both the registry and issuing of ID cards[32] to conform terms to definitions provided in s. 29, Art. X of the State Constitution (such as changing the term "legal representative" to "caregiver") and to provide more statutory detail on what is required to be on an ID card. CS/SB 406 requires that all patient and caregiver ID cards include, at a minimum:

- The name, address, and date of birth of the patient or caregiver, as appropriate;
- A full-face, passport-type, color photograph of the patient or caregiver, as appropriate, taken within 90 days immediately preceding registration;
- A designation of the cardholder as a patient or caregiver;
- A unique numeric identifier for the patient or caregiver that is matched to the identifier used for such person in the DOH's compassionate use registry. A caregiver's identification number and file in the compassionate use registry must be linked to the file of the patient or patients the caregiver is assisting so that the caregiver's status may be verified for each patient individually;

[27] Section 381.986(5)(a), F.S.
[28] Section 381.986(6), F.S.
[29] Office of Compassionate Use, *Implementation Timeline* (October 2016) *available at* http://www.floridahealth.gov/programs-and-services/office-of-compassionate-use/_documents/ocu-timeline.pdf, (last visited Mar. 21, 2017).
[30] Revenue Estimating Conference, *Use of Marijuana for Debilitating Medical Conditions* (March 2, 2017), p. 3, (on file with the Senate Committee on Health Policy).
[31] For patients form DH8009-OCU-10/2016, available at https://www.flrules.org/Gateway/reference.asp?No=Ref-07855, (last visited on April 12, 2017) and for legal representatives form DH8010-OCU-10/2016 available at https://www.flrules.org/Gateway/reference.asp?No=Ref-07856, (last visited on April 12, 2017).
[32] Section 381.986, F.S.

- The expiration date, which shall be one year after issuance or the date treatment ends as provided in the patient's physician certification, whichever occurs first; and
- For caregivers who are assisting three or fewer qualifying patients, the names and unique numeric identifiers of the qualifying patient or patients that the caregiver is assisting.

Additionally, CS/SB 406[33] allows non-Florida residents to receive ID cards if they qualify for an ID card in Florida and if the DOH confirms that they are able to legally receive marijuana in their state of residency. This confirmation will likely require the submission of some additional personal identifying information to the DOH, which is not detailed in the bill.

III. Effect of Proposed Changes:

The bill amends s. 381.987, F.S., to conform its provisions to changes made to s. 381.986, F.S., by CS/SB 406.

Section 1 of the bill:

- Makes a qualifying patient's or caregiver's personal identifying information that is held in the Compassionate Use Registry (registry) confidential and exempt from public records laws. Protected information includes, but is not limited to:
  - The patient's name, address, date of birth, photograph, telephone number, and government-issued identification number;
  - All information collected for the purpose of issuing a qualifying patient's or caregiver's registry identification card;[34] and
  - All information pertaining to a physician certification for marijuana;
- Clarifies that law enforcement access to the registry is for the purpose of verifying the authorization of a qualifying patient or caregiver to possess marijuana; and
- Expands access to information within the registry to:
  - Allopathic and osteopathic physician's licensed under ch. 458 or 459, F.S., respectively;
  - Practitioner's licensed to prescribe prescription drugs to ensure proper care for patients before prescribing medications that may interact with marijuana; and
  - Employees of the Department of Health (DOH) for the purpose of monitoring physician registration in the compassionate use registry and monitoring physician certifications for practices that could facilitate diversion or misuse of marijuana.

The bill also extends the open government sunset review date to October 2, 2022, and makes other conforming and technical changes.

Section 2 of the bill provides legislative findings. The bill states that the Legislature finds it is a public necessity to protect qualifying patients' and caregivers' information in the registry, including all information pertaining to the physician's certification of marijuana for the patient, in order to protect their privacy. The Legislature finds that the public availability of registry information could make the public aware of a patient's medical diseases or conditions and may

[33] As originally filed, SB 406 restricted ID cards to Florida residents, however as amended by the Health Policy Committee on April 3, 2017, CS/SB 406 allows non-Florida residents to receive ID cards.
[34] This information includes the caregiver's name, address, date of birth, photograph, and registry ID card number.

also expose patients and caregivers to discrimination for their use, or assisting with the use, of marijuana.

Section 3 provides that the bill takes effect on the same date that CS/SB 406, or similar legislation, becomes a law, provided both are adopted in the same legislative session.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

Voting Requirement

Article I, s. 24(c) of the Florida Constitution requires a two-thirds vote of the members present and voting for final passage of a newly created public records or public meetings exemption. The bill creates a new public record exemption; thus, it requires a two-thirds vote for final passage.

Public Necessity Statement

Article I, s. 24(c) of the Florida Constitution requires a public necessity statement for a newly created or expanded public records or public meetings exemption. The bill creates a new public records exemption and includes a public necessity statement.

Breadth of Exemption

Article I, s. 24(c) of the Florida Constitution requires a newly created public records exemption to be no broader than necessary to accomplish the stated purpose of the law. The bill exempts certain identifying information of caregivers that is held by the DOH within the registry. The public necessity for the exemption provides that it is necessary to protect patient and caregiver information from disclosure to protect their privacy and to protect them from potential discrimination. This bill appears to be no broader than necessary to accomplish the public necessity for this public records exemption.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 381.987 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Governmental Oversight and Accountability on April 17, 2017:
The following changes were made to align the public records exemption in SB 1844 with provisions in CS/SB 406, its linked substantive bill:

- Includes the "date of birth" and "photograph" on an ID card to the specified information exempted from public disclosure; and
- Clarifies that all information collected for the purpose of issuing an ID card is exempt, rather than just the information on the ID card.

B. Amendments:

None.

By the Committee on Governmental Oversight and Accountability; and Senator Bradley

585-03992-17 20171844c1

A bill to be entitled

An act relating to public records; amending s. 381.987, F.S.; providing an exemption from public records requirements for a qualifying patient's or caregiver's personal identifying information, all information contained on their compassionate use registry identification cards, and all information pertaining to a physician certification for marijuana; requiring the Department of Health to allow access to the compassionate use registry to a law enforcement agency, a medical marijuana treatment center, certain licensed practitioners, certain employees of the department, and certain persons engaged in research, for specified purposes; extending the date of future review and repeal of the exemption; providing a statement of public necessity; providing a contingent effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 381.987, Florida Statutes, is amended to read:

381.987 Public records exemption for personal identifying information in the compassionate use registry.—

(1) A qualifying patient's or caregiver's personal identifying information held by the department in the compassionate use registry established under s. 381.986, including, but not limited to, the qualifying patient's or caregiver's name, address, date of birth, photograph, telephone

585-03992-17 20171844c1

number, and government-issued identification number, all information collected for the purpose of issuing a qualifying patient's or caregiver's compassionate use registry identification card issued in accordance with s. 381.986, and all information pertaining to a physician certification for marijuana ~~the physician's order for low-THC cannabis~~ and the dispensing thereof are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(2) A physician's identifying information held by the department in the compassionate use registry established under s. 381.986, including, but not limited to, the physician's name, address, telephone number, government-issued identification number, and Drug Enforcement Administration number, and all information pertaining to the physician certification for marijuana ~~physician's order for low-THC cannabis~~ and the dispensing thereof are confidential and exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(3) The department shall allow access to the registry, including access to confidential and exempt information, to:

(a) A law enforcement agency, to verify the authorization of a qualifying patient or a qualifying patient's caregiver to possess marijuana or a marijuana delivery device ~~that is investigating a violation of law regarding cannabis in which the subject of the investigation claims an exception established~~ under s. 381.986.

(b) A medical marijuana treatment center registered with ~~dispensing organization approved by~~ the department pursuant to s. 381.986, ~~which is attempting~~ to verify the authenticity of a physician certification ~~physician's order~~ for marijuana ~~low-THC~~

~~cannabis~~, including whether the physician certification ~~order~~ had been previously filled and whether the physician certification ~~order~~ was written for the person attempting to have it filled.

(c) A physician licensed under chapter 458 or chapter 459, to ensure proper care for patients ~~who has written an order for low-THC cannabis for the purpose of monitoring the patient's use of such cannabis or for the purpose of determining, before issuing an order for low-THC cannabis, whether another physician has ordered the patient's use of low-THC cannabis. The physician may access the confidential and exempt information only for the patient for whom he or she has ordered or is determining whether to order the use of low-THC cannabis pursuant to s. 381.986~~.

(d) A practitioner licensed to prescribe prescription drugs, to ensure proper care for patients before prescribing medications that may interact with marijuana.

(e) An employee of the department for the purposes of maintaining the registry and periodic reporting or disclosure of information that has been redacted to exclude personal identifying information.

(f) An employee of the department for the purpose of monitoring physician registration in the compassionate use registry and the issuance of physician certifications as authorized in s. 381.986 for practices that could facilitate unlawful diversion or misuse of marijuana or cannabis delivery devices.

(g) ~~(e)~~ The department's relevant health care regulatory boards responsible for the licensure, regulation, or discipline of a physician if he or she is involved in a specific

investigation of a violation of s. 381.986. If a health care regulatory board's investigation reveals potential criminal activity, the board may provide any relevant information to the appropriate law enforcement agency.

(h) ~~(f)~~ A person engaged in bona fide research if the person agrees:

1. To submit a research plan to the department which specifies the exact nature of the information requested and the intended use of the information;

2. To maintain the confidentiality of the records or information if personal identifying information is made available to the researcher;

3. To destroy any confidential and exempt records or information obtained after the research is concluded; and

4. Not to contact, directly or indirectly, for any purpose, a patient or physician whose information is in the registry.

(4) All information released from the registry under subsection (3) remains confidential and exempt, and a person who receives access to such information must maintain the confidential and exempt status of the information received.

(5) A person who willfully and knowingly violates this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(6) This section is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2022 ~~2019~~, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. The Legislature finds that it is a public necessity that the personal identifying information of

qualifying patients who use marijuana for medical reasons and of these patients' caregivers held by the Department of Health in the compassionate use registry established under s. 381.986, Florida Statutes, be made confidential and exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution. Specifically, the Legislature finds that it is a public necessity to make confidential and exempt from public records requirements the names, addresses, dates of birth, photographs, telephone numbers, and government-issued identification numbers of a qualifying patient and the patient's caregiver, any other information collected for the purpose of issuing the qualifying patient's or caregiver's compassionate use registry identification card issued pursuant to s. 381.986, Florida Statutes, and all information pertaining to a physician certification for marijuana issued in accordance with s. 381.986, Florida Statutes, which are held in the registry. The choice to use marijuana to treat a qualifying patient's medical condition or symptom and the choice to assist a qualifying patient with the medical use of marijuana are personal and private matters. The availability of such information to the public could make the public aware of both the qualifying patient's use of marijuana and the qualifying patient's disease or other medical conditions for which the qualifying patient is using marijuana. The knowledge of the qualifying patient's use of marijuana, the knowledge of the qualifying patient's medical condition, and the knowledge that a caregiver is assisting a qualifying patient with the use of marijuana could be exploited to embarrass, harass, or discriminate against the qualifying patient and the patient's caregiver and could also be used as a

discriminatory tool by an employer who disapproves of the qualifying patient's use of marijuana or the caregiver's assistance in the use of marijuana. However, despite the potential hazards of collecting such information, maintaining the compassionate use registry established under s. 381.986, Florida Statutes, is necessary to prevent the diversion and nonmedical use of any marijuana as well as to aid and improve research done on the efficacy of marijuana. Thus, the Legislature finds that it is a public necessity to make confidential and exempt from public records requirements the personal identifying information of qualifying patients and caregivers held by the Department of Health in the compassionate use registry established under s. 381.986, Florida Statutes.

Section 3. This act shall take effect on the same date that SB 406 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes a law.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 668
INTRODUCER:	Education Committee and Senators Bean and Bradley
SUBJECT:	Postsecondary Distance Education
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.		Graf	ED	**Fav/CS**
2.	Sikes	Elwell	AHE	**Recommend: Favorable**
3.	Sikes	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 668 authorizes the State of Florida to participate in the State Authorization Reciprocity Agreement (SARA) for the delivery of postsecondary distance education. Specifically, the bill:

- Requires all parties to the SARA must be willing to accept each other's authorization of accredited institutions to operate in their state to offer distance education services.
- Establishes the Postsecondary Reciprocal Distance Education Coordinating Council (Council) within the Florida Department of Education, for the purpose of entering into and administering the SARA.
- Establishes membership of the Council and requires the Commission for Independent Education to provide administrative support to the Council.
- Requires the Council to propose an annual fee schedule and collect fees from each Florida institution participating in the SARA.
- Requires the State Board of Education to adopt rules for the implementation of the SARA.

The bill has no impact on state expenditures. *See* Section V. Fiscal Impact Statement for details.

The bill takes effect upon becoming law.

II. Present Situation:

Students may access higher education through the traditional classroom setting or through distance education.

The Southern Association of Colleges and Schools Commission on Colleges defines distance learning as a formal educational process in which the majority of the instruction in a course occurs when students and instructors do not share the same location.[1] Florida law defines distance learning, for the purpose of assessing a distance learning course fee, as a course in which at least 80 percent of direct instruction of the course is delivered using some form of technology when the student and instructor are separated by time or space, or both.[2]

The Southern Regional Education Board

The Southern Regional Education Board (SREB) maintains a regional system for sharing online college courses known as the Electronic Campus (EC).[3] SREB's EC allows students residing in an SREB member state to access online courses in any SREB state through the SREB's Electronic Reciprocity Agreement (SECRRA).[4] The SECRRA is a voluntary agreement, which allows institutions that offer courses and degree programs that have been reviewed and approved by the institution's home state to be recognized as approved to offer courses in other SREB states.[5] In order to participate in SECCRA, an institution must be not-for-profit, regionally accredited, and charted in one of the 16 SREB member states.[6] Florida currently participates in this agreement.[7]

The SECRRA will expire on June 30, 2017.[8]

Federal Requirements

Federal law requires each state to regulate out-of-state educational institutions with a physical presence in their state or that provides an education via distance learning to students in that state.[9] The state authorization of online programs can be achieved through a state authorization reciprocity agreement.[10] A "state authorization reciprocity agreement" is

> …an agreement between two or more states that authorizes an institution located and legally authorized in a State covered by the agreement to provide postsecondary education through distance education or correspondence courses to students residing in other States covered by the agreement and does not prohibit any State in agreement from enforcing its

> own statutes and regulations, whether general or specifically directed at all or a subgroup of educational institutions. [11]

Currently, there is a national interstate reciprocity agreement for the state authorization of distance learning programs.[12]

State Authorization Reciprocity Agreement

The State Authorization Reciprocity Agreement, also known as SARA, is a voluntary agreement among participating states that establishes comparable national standards for interstate offerings of postsecondary distance education courses and programs.[13] SARA is overseen by a national council[14] and administered by the four regional education compacts.[15] SARA membership requires the state to designate a portal entity as the coordinating entity responsible for contact with other state entities and students from other states.[16] Each state must apply to the National Council for SARA (NC-SARA) through its portal entity to be a member of SARA.[17] Once a state becomes a member of SARA, institutions within that state are authorized to apply to the portal entity to participate in SARA.[18] An institution in an SARA member state is not required to participate in SARA.[19]

To participate in SARA, an institution must:[20]

- Be a degree granting institution;
- Be physically located in the United States;
- Hold proper authorization from Congress, a U.S. state, or a federally recognized Indian Tribe; and
- Hold accreditation as a single entity from an accrediting association recognized by the U.S. Department of Education and whose scope of authority includes distance education.

Institutions participating in the reciprocity agreement pay a fee directly to NC- SARA based on the institution's full-time equivalent enrollment.[21] States have the option of charging a SARA-participating institution a fee to cover the state's costs in administering SARA.[22]

[22] *Id.*

The Commission for Independent Education

The Commission for Independent Education (CIE) is responsible for matters relating to nonpublic postsecondary educational institutions.[23] The CIE's functions include consumer protection; program improvements; institutional policies and administration; data management; licensure of independent schools, colleges and universities; and establishing minimum standards for the approval of employees of independent postsecondary educational institutions.[24] The CIE may adopt rules to ensure that licensed employees of an independent postsecondary educational institution meets specified standards.[25] An employee of an independent postsecondary educational institution may not solicit prospective students in Florida for enrollment in any independent postsecondary educational institution under the CIE's purview or in any out-of-state independent postsecondary educational institution unless the employee has received a license as prescribed by the CIE.[26]

III. Effect of Proposed Changes:

This bill authorizes the state of Florida to participate in the State Authorization Reciprocity Agreement (SARA) for the delivery of postsecondary distance education. Specifically, the bill:

- Specifies that all parties to the SARA must be willing to accept each other's authorization of accredited institutions to operate in their state to offer distance education services.
- Establishes the Postsecondary Reciprocal Distance Education Coordinating Council (Council) within the Florida Department of Education, for the purpose of entering into and administering the SARA.
- Establishes membership of the Council and requires the Commission for Independent Education (CIE) to provide administrative support to the Council.
- Requires the Council to propose an annual fee schedule and collect fees from each Florida institution participating in the SARA.
- Requires the State Board of Education to adopt rules for the implementation of the SARA.

Under the section 1, each member state or institution that participates in the SARA must be willing to accept the participating states' authorization of accredited institutions to operate in their states to offer distance educational services beyond state boundaries.

Section 1 defines institution to mean a public or private postsecondary educational institution that is accredited by a federally recognized accrediting body that awards, at a minimum, associate level degrees requiring at least two years of full-time equivalent college coursework.

[25] Section 1005.22(e), F.S.
[26] Section 1005.31(11), F.S.

Postsecondary Reciprocal Distance Education Coordinating Council Responsibilities (Section 1)

Section 1 grants to the Council the authority to apply to National Council for SARA (NC-SARA) and recommend rules, necessary to administer the SARA, for adoption by the State Board of Education.[27] Additionally, the Council is required to:

- Review and approve applications from Florida institutions to participate in the SARA and establish an appeals process for institutions that are not approved to participate in the SARA;
- Ensure compliance by Florida's institutions with the terms of the SARA, including but not limited to, accreditation and institutional quality, and consumer information and protection;
- Comply with the terms and provisions of the SARA relating to any member state, Florida institution, or non-Florida institution;
- Comply with reporting requirements in the SARA and post all such reports on the Council's website;
- Develop and administer a complaint resolution process for complaints related to the SARA; and
- Delegate to the CIE's staff any responsibilities, obligations, or authorities necessary for the administration of Florida's participation in the SARA.
- Propose an annual fee schedule and collect fees from each Florida SARA institution. The fees must be commensurate with the costs incurred by the Council.

The Council must consist of the Chancellor of the State University System, the Chancellor of the Florida College System, the Chancellor of the Division of Career and Adult Education, the Executive Director of the CIE, and the President of the Independent Colleges and Universities of Florida.

Commission for Independent Education Responsibilities (Sections 2 and 3)

Section 2 provides that a non-Florida institution participating in the SARA that offers degree programs and conducts activities limited to distance education degree programs and activities in accordance with the SARA is not under the jurisdiction of the CIE. As a result, the CIE is not required to independently authorize every institution that provides distance education that serves Florida's students.

Additionally, section 3 specifies that an employee of an independent postsecondary educational institution may not solicit prospective students in Florida for enrollment in any independent postsecondary educational institution unless the employee solicits for a postsecondary educational institution that is a member of the SARA, and therefore not under the jurisdiction of the CIE.

The bill takes effect upon becoming law.

[27] State University System of Florida Board of Governors, *2017 Agency Legislative Bill Analysis for SB 668* (Feb. 14, 2017), at 3.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

Public Records

Article I, s. 24(a) of the Florida Constitution sets forth the state's policy regarding access to government records. The section guarantees every person a right to inspect or copy any public record of the legislative, executive, and judicial branches of government.[28] Public policy regarding access to government records is addressed further in the Florida Statutes. Section 119.07(1), F.S., guarantees every person a right to inspect and copy any state, county, or municipal record.

Florida law provides that access to public records is a duty of each agency.[29] Florida law defines "agency" in part as "any separate unit of government created or established by law."[30] The bill creates the Council in the Florida Statutes and therefore, the Council would be subject to the requirements of chapter 119.[31] Likewise, the Commission on Independent Education, providing administrative support of the council, may be an "agency" for purposes of ch. 119, F.S., for records relating to the council.

Public Meetings

Article I, s. 24(b) of the Florida Constitution sets forth the state's policy regarding access to government meetings. The section requires that all meetings of any collegial public body of the executive branch of state government or of any collegial public body of a county, municipality, school district, or special district, at which official acts are to be taken or at which public business of such body is to be transacted or discussed, be open and noticed to the public.[32]

The Council would be statutorily responsible for taking governmental actions such as serving as the single portal entity designated by the state to administer SARA and the point of contact for SARA-related questions, complaints, and other matters related to SARA. Accordingly, the Council would be subject to the public meetings law.[33] Individual members of the council must ensure that all discussions regarding matters before the council are in compliance with the public meetings law.

C. Trust Funds Restrictions:

None.

[28] Art I, s. 24, Fla. Const.
[29] Section 119.01(1), F.S.
[30] *Id.* at (2).
[31] Email, Board of Governors of the State University System of Florida (April 7, 2017).
[32] Section 286.011, F.S.
[33] Email, Board of Governors of the State University System of Florida (April 7, 2017).

D. Other Constitutional Issues:

Dual Office-holdings

Article II, s. 5 of the Florida Constitution prohibits any person holding any office of emolument under any foreign government, or civic office of emolument under the United States or any other state from holding any office of honor or emolument under the government of Florida. No person may hold at the same time more than one office under the government of Florida and the counties and municipalities therein, except that a notary public or military officer may hold another office, and any officer may be a member of a constitution revision commission, taxation and budget reform commission, constitutional convention, or statutory body having only advisory powers. This provision prohibits a person from simultaneously serving in more than one "office" under the governments of the state, counties, or municipalities. Article II, s. 5 does not define the term "office" or "officer" for the purposes of the dual office-holding prohibition. The Supreme Court of Florida has stated:

> The term "office" implies a delegation of a portion of the sovereign power to, and the possession of it by, the person filling the office, while an "employment" does not comprehend a delegation of any part of the sovereign authority. The term "office" embraces the idea of tenure, duration, and duties in exercising some portion of the sovereign power, conferred or defined by law and not by contract. An employment does not authorize the exercise in one's own right of any sovereign power or any prescribed independent authority of a governmental nature; and this constitutes the most decisive difference between an employment and an office…"

Accordingly, it is the nature of the power and duties of a particular position, which determines whether it is an "office" or an "employment."

The bill requires the membership of the Postsecondary Reciprocal Distance Education Coordinating Council must include the Chancellor of the State University System (SUS), the Chancellor of the Florida College System (FCS), the Chancellor of the Division of Career and Adult Education (CAE), the Executive Director of the Commission for Independent Education (CIE) and the president of the Independent Colleges and Universities of Florida (ICUF).

According to the Board of Governors, the positions enumerated in the bill do not constitute an "office." In 1974, the Attorney General concluded the position of Chancellor, at that time, did not have the indicia of state "offices". The same conclusion may apply to the chancellors of the FCS and Division of CAE, and the executive director for the CIE because of similarities in such positions.

Should the above positions be considered offices, the attorney general has found that the prohibition on dual office holding does not apply where the legislature is "directing that

official to serve as a member and carry out the powers and duties of another office because of an office already held by him, where the duties of the two offices are not incompatible and not inconsistent."

If the nature of the powers and duties of the chancellor position is similar to those powers and duties in 1974, the chancellor may be able to rely on the 1974 Attorney General Opinion. On the other hand, if the powers and duties have been expanded to the extent that the chancellor today is an officer, the consequences of serving on this new council are significant.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

According to the Department of Education, an estimated 45 private postsecondary institutions will participate in the State Authorization Reciprocity Agreement (SARA).[34] The annual fee required for participation is based on full-time equivalent (FTE) student enrollment as specified in the table below.[35]

Enrolled FTE	SARA Annual Fee
Under 2,500	$2,000
2500-9,999	$4,000
10,000 or more	$6,000

C. Government Sector Impact:

The Department of Education estimates 75 public and private postsecondary institutions will participate in SARA, resulting in approximately $318,000 in annual fee revenue deposited into the Institutional Assessment Trust Fund. These funds will be used to pay the council's annual operational costs, which are estimated to be $225,000.[36]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 1005.06 and 1005.31.

This bill creates section 1000.35 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Education March 27, 2017:
The committee substitute:

- Authorizes Florida to participate specifically in the State Authorization Reciprocity Agreement (SARA).
- Specifies that all parties to the SARA must be willing to accept each other's authorization of accredited institutions to offer distance educational services.
- Requires the Postsecondary Reciprocal Distance Education Coordinating Council (Council) to apply to participate in the SARA within 60 days after the effective date of this act.
- Specifies the terms and conditions with which Florida SARA institutions must comply, including, but not limited to, accreditation and institutional quality, consumer information and protections, disclosure and reporting requirements, complaint mechanisms and financial responsibility.
- Requires the annual fee schedule, proposed by the Council, be based on a graduated scale based on enrollment.

B. Amendments:

None.

By the Committee on Education; and Senator Bean

581-02932-17 2017668c1

A bill to be entitled

An act relating to postsecondary distance education; creating s. 1000.35, F.S.; authorizing this state to participate in the State Authorization Reciprocity Agreement (SARA) for delivery of postsecondary distance education; providing definitions; establishing the Postsecondary Reciprocal Distance Education Coordinating Council within the Department of Education; requiring the Commission for Independent Education to provide administrative support for the council; providing membership and duties of the council; requiring the council to propose an annual fee schedule and collect fees from Florida SARA institutions; requiring the proposed fee schedule to be submitted to the State Board of Education for approval; providing for deposit of such fees into a specified trust fund; authorizing the council to revoke a Florida SARA institution's participation for noncompliance; authorizing such institution to withdraw from participation in the SARA after providing notice; exempting council decisions from the Administrative Procedure Act; providing that provisions relating to the jurisdiction of the commission are not superseded; requiring the state board to adopt rules; amending s. 1005.06, F.S.; providing that the commission does not have jurisdiction over certain non-Florida institutions participating in the SARA; amending s. 1005.31, F.S.; authorizing the solicitation of prospective students

581-02932-17 2017668c1

for enrollment in certain postsecondary educational institutions; providing a directive to the Division of Law Revision and Information; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 1000.35, Florida Statutes, is created to read:

1000.35 State Authorization Reciprocity Agreement.—

(1) The purpose of this section is to authorize this state's participation in the State Authorization Reciprocity Agreement (SARA) as established by the Southern Regional Education Board (SREB) and the National Council for State Authorization Reciprocity Agreements (NC-SARA) relative to postsecondary distance education as defined in the SARA. All parties to the SARA must be willing to accept each other's authorization of accredited institutions to operate in their state to offer distance educational services beyond state boundaries.

(2) For purposes of this section, the term:

(a) "Commission" means the Commission for Independent Education.

(b) "Complaint" means a formal assertion in writing that a person, institution, state, agency, or other entity operating under the SARA has violated the terms of the SARA or the laws, standards, or regulations incorporated therein.

(c) "Council" means the Postsecondary Reciprocal Distance Education Coordinating Council, which serves as the single

portal entity designated by the state to administer the SARA and serves as the interstate point of contact for SARA-related questions, complaints, and other matters related to the SARA.

(d) "Department" means the Department of Education.

(e) "Florida SARA institution" means a postsecondary institution in this state approved by the council to participate in the SARA.

(f) "Institution" means a public or private postsecondary degree-granting college or university that is accredited by a federally recognized accrediting body and that awards, at a minimum, associate-level degrees requiring at least 2 years of full-time equivalent college work.

(g) "Member state" means a state, territory, or district within the United States that has been approved to participate in the SARA.

(h) "Non-Florida SARA institution" means an institution approved by a member state other than this state to participate in the SARA.

(i) "SREB" means the Southern Regional Education Board.

(j) "State Authorization Reciprocity Agreement" or "SARA" means the agreement that establishes reciprocity between member states that accept other member states' authorization of accredited institutions to operate in their states to offer distance educational services beyond state boundaries pursuant to the terms and conditions set forth in the agreement.

(k) "State board" means the State Board of Education.

(3) The council is created within the department for the purpose of administering the SARA. The council shall consist of the Chancellor of the State University System, the Chancellor of

the Florida College System, the Chancellor of the Division of Career and Adult Education, the executive director of the commission, and the president of the Independent Colleges and Universities of Florida. The commission shall provide administrative support for the council. The council shall:

(a) Within 60 days after the effective date of this act, apply for this state to participate as a member of the SARA pursuant to the procedures established by the SREB;

(b) Serve as the single portal entity for administration of the SARA;

(c) Review and approve applications from institutions in this state to participate in the SARA and establish an appeals process for institutions that are not approved to participate in the SARA;

(d) Ensure compliance by Florida SARA institutions with the terms and provisions of the SARA, including, but not limited to, accreditation and institutional quality, consumer information and protection, disclosure and reporting requirements, complaint mechanisms, and financial responsibility;

(e) Comply with the terms and provisions of the SARA relating to any member state, Florida SARA institution, or non-Florida SARA institution;

(f) Comply with the reporting requirements in the SARA and post all such reports on the council's website;

(g) Consistent with the complaint resolution processes in the SARA, develop and administer a complaint resolution process to resolve SARA-related complaints after all complaint processes in place at a Florida SARA institution have been exhausted by the complainant;

(h) Delegate any responsibilities, obligations, or authorities necessary for the administration of this state's participation in the SARA to the commission's staff; and

(i) Recommend rules necessary to administer this section for adoption by the state board.

(4) The council shall propose an annual fee schedule and collect fees from each Florida SARA institution. The fees shall be commensurate with the costs incurred by the council and commission to administer the SARA and shall be based on a graduated scale of institutional enrollment. The council shall propose an annual fee schedule to generate the amount of revenue necessary for its operations. The proposed fee schedule shall be submitted to the state board for approval. The department shall include the approved fee schedule in its legislative budget request which takes effect unless revised by the Legislature in the General Appropriations Act. All fees collected pursuant to this subsection shall be submitted through the department to the Chief Financial Officer for deposit into a separate account within the Institutional Assessment Trust Fund. Any fee authorized by the council is nonrefundable unless paid in error.

(5) The council may revoke a Florida SARA institution's approval to participate in the SARA if the council determines such institution is not in compliance with the terms and provisions of the SARA.

(6) A Florida SARA institution may withdraw from participation as a Florida SARA institution by submitting notice of its intent to withdraw to the council, which shall become effective at the beginning of the next academic term after receipt of such notice.

(7) Decisions of the council are not subject to chapter 120.

(8) This section does not supersede the requirements in chapter 1005 relating to postsecondary educational institutions under the jurisdiction of the commission.

(9) The state board shall adopt rules to implement this section.

Section 2. Paragraph (h) is added to subsection (1) of section 1005.06, Florida Statutes, to read:

1005.06 Institutions not under the jurisdiction or purview of the commission.—

(1) Except as otherwise provided in law, the following institutions are not under the jurisdiction or purview of the commission and are not required to obtain licensure:

(h) Any non-Florida institution that has been approved by a member state to participate in the State Authorization Reciprocity Agreement (SARA), as those terms are defined in s. 1000.35(2), if the degree programs that may be offered and the activities that may be conducted by such institution in this state are limited to the distance education degree programs and activities provided in and consistent with the terms and provisions of the SARA.

Section 3. Subsection (11) of section 1005.31, Florida Statutes, is amended to read:

1005.31 Licensure of institutions.—

(11) The commission shall establish minimum standards for the approval of agents. The commission may adopt rules to ensure that licensed agents meet these standards and uphold the intent of this chapter. An agent may not solicit prospective students

in this state for enrollment in any independent postsecondary educational institution under the commission's purview or in any out-of-state independent postsecondary educational institution unless the agent has received a license as prescribed by the commission or solicits for a postsecondary educational institution that is not under the jurisdiction of the commission pursuant to s. 1005.06(1)(h).

Section 4. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" wherever it occurs in this act with the date this act becomes a law.

Section 5. This act shall take effect upon becoming a law.

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 796 creates the high-impact school operator designation, specifies eligibility requirements, and defines related terms. Specifically, the bill:

- Defines high-impact school operator, high-impact schools, and persistently-low performing schools.
- Provides the authority and responsibility of school districts, high-impact operators, high-impact schools, and the State Board of Education with respect to high-impact school operators and high-impact schools.
- Outlines the State Board of Education's role and duties regarding the oversight and implementation of the high-impact school and high-impact operator requirements.
- Establishes a revolving loan program to assist high-impact operators meet school building construction needs, pay for expenses related to the start-up of a new high-impact school, and support the performance-based contract components of high-impact schools.

The bill has no impact on state revenues or expenditures. Funding for high impact schools is subject to appropriation in the General Appropriations Act.
The bill takes effect July 1, 2017.

II. Present Situation:

The Florida Legislature has enacted legislation to promote school choice and strengthen education accountability.

Charter Schools

Charter schools are nonsectarian, public schools that operate under a performance contract with a sponsor, called a charter.[1] A guiding principle of charter schools is to meet high standards of student achievement while providing parents flexibility to choose among diverse educational opportunities within the state's public school system.[2]

Charter School Application Process

Florida law establishes an application process for establishing a new charter school.[3] An applicant must submit a charter school application to the sponsor.[4] The sponsor must approve or deny the application.[5] The law requires sponsors and applicants to use a standard charter school application and application evaluation instrument.[6] The standard application is designed to enable the sponsor to evaluate the applicant's educational plan, organizational plan, financial viability, and business plan.[7]

In order to facilitate greater collaboration in the application process, an applicant may submit a draft charter school application by May 1 with an application fee of $500.[8] Otherwise, a sponsor is prohibited from charging an applicant any fee for the processing or consideration of an application.[9]

Charter school sponsors evaluate a variety of factors when considering an application to open a charter school.[10] The standard application requires the applicant to:[11]

- List each proposed member of the charter school's governing board and his or her background and qualifications.
- Indicate to what extent the governing board will contract with a management company, summarize the management company's history of operating charter schools, and list other charter schools managed by the company along with student achievement and financial performance data of such schools.

Charter School Accountability

Florida law establishes several requirements designed to hold charter schools accountable both financially and academically, including:[12]

- A detailed application and rigorous review and approval process.

[1] Section 1002.33(5)(a), (6)(h), (7) and (9)(a), F.S.
[2] Section 1002.33(2)(a)1., F.S.
[3] *Id.* at (6)(a).
[4] *Id.*
[5] *Id.*
[6] *Id.*
[7] *Id.*
[8] Section 1002.33(6)(b), F.S. The deadline for applications is August 1, although a sponsor may receive applications later if it so choses. *Id.*
[9] *Id.*
[10] *Id.* at (6)(a), (7), (8), (9).
[11] *Id.* at (6).
[12] Sections 1002.33(6), (7), (9), 16), (21), (23), (24), (26), and 1002.345, F.S.

- The execution and maintenance of charter agreements between the charter school and its sponsor.
- Annual reporting, annual financial audits, and sponsor monitoring of monthly financial statements.
- Participation in statewide assessments and Florida's school grading system.
- Interventions for unsatisfactory academic performance and financial instability.
- Reporting of student performance information to parents and the public.
- Compliance with ethical standards for employees and governing board members.

Florida assigns each public school, including charter schools, a school grade in order to help parents and the public measure the performance of a school.[13]

Schools are graded using one of the following grades:[14]
- "A," for schools making excellent progress – 62% or higher of total points.
- "B," for schools making above average progress – 54% to 61% of total points.
- "C," for schools making satisfactory progress – 41% to 53% of total points.
- "D," for schools making less than satisfactory progress – 32% to 40% of total points.
- "F," for schools failing to make adequate progress – 31% or less of total points.

For a charter school that earns a grade of "D" or "F," the director and a representative of the governing board must appear before the sponsor to address each contract component having noted deficiencies.[15] If a charter school earns three consecutive grades of "D," two consecutive grades of "D" followed by a grade of "F," or two nonconsecutive grades of "F" within a 3-year period, the governing board must choose a statutorily authorized corrective action.[16] Such a charter school may choose one of the following corrective actions:[17]
- Contract for educational services to be provided directly to students, instructional personnel, and school administrators;
- Contract with an outside entity with a track record of effectiveness to operate the school;
- Reorganize the school under a new director or principal who is authorized to hire new staff; or
- Voluntarily close the school.

The charter school must implement the corrective action in the school year following receipt of a third consecutive grade of "D," a grade of "F" following two consecutive grades of "D," or a second nonconsecutive grade of "F" within a 3-year period.[18] A corrective action is no longer required if the charter school improves by at least one letter grade.[19] However, the school must continue to implement its school improvement plan.[20] If a charter school does not improve by at

[20] *Id.*

least one letter grade after two full school years of implementing a corrective action, the school must choose a different corrective action.[21]

A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all appeals are final unless:[22]

- The charter school is established to turn around the performance of a district public school;
- The charter school serves a student population the majority of which resides in a school zone served by a district public school that earned a grade of "F" in the year before the charter school opened and the charter school earns at least a grade of "D" in its third year of operation; or
- The State Board of Education grants the charter school a waiver of termination.

III. Effect of Proposed Changes:

The bill creates the high-impact school operator designation, specifies eligibility requirements, and defines related terms. Specifically, the bill:

- Defines high-impact school operator, high-impact schools, and persistently-low performing schools.
- Provides the authority and responsibility of school districts, high-impact school operators and high-impact schools with respect to high-impact school operators and high-impact schools.
- Outlines the State Board of Education's role and duty regarding the oversight and implementation of the high-impact school and high-impact operator requirements.
- Establishes a revolving loan program to assist high-impact operators meet school building construction needs, pay for expenses related to the start-up of a new high-impact school, and support the performance-based contract components of high-impact schools.

High-Impact School Operator (Section 1)

Section 1 defines:

- **High-impact school operator** as a nonprofit organization with tax exempt status under the Internal Revenue Code which operates three or more charter schools that serve students in grades K-12 in Florida or other states, has a record of serving students from low-income families, and is designated by the State Board of Education (SBE) as a high-impact school operator based on the operator meeting specified requirements. The term does not include a for-profit entity.
- **High-impact school** as a full-time public school operated by a high-impact school operator which primarily serves students who were attending, or were assigned to attend, a persistently low-performing school and who comprise at least 60 percent of its total enrollment; which is located in the attendance zone of a persistently low-performing school;

[21] Section 1002.33(9)(n)2.c. and e., F.S. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action. The sponsor may waive corrective actions if it determines that the charter school is likely to improve its grade if additional time is given to implement the school improvement plan. The sponsor may also extend the implementation period for a corrective action based upon a similar standard. The sponsor may not waive or extend corrective actions if the charter school earns a second consecutive grade of "F" while in corrective action. *Id.* Unless an exception applies, such a charter school must be terminated by the sponsor. Section 1002.33(9)(n) 4., F.S.

[22] Section 1002.33(9)(n)4., F.S.

and which is a Title I eligible school. The term does not include a part-time school or a virtual charter school.

- **Persistently low-performing school** as a turnaround school, a school that has earned a grade of "F" or two consecutive grades below a "C," that has been either closed by the state or is persistently, for more than 3 consecutive years, unable to improve to a grade of "C."[23]

Designation Process

Section 1authorizes the SBE to adopt rules prescribing the process and criteria for initial designation as a high-impact school operator and renewal of the designation. The initial designation as a high-impact school operator is valid for 3 years after the high-impact school opens.

The SBE may designate an entity as a high-impact school operator based on a determination that the operator meets at least one of the following requirements:

- The past performance of the high-impact operator meets or exceeds the following criteria:
  - The achievement of enrolled students exceeds the district and state averages of the states in which the operator's schools operate.
  - The average college attendance rate at all schools currently operated by the operator exceeds 80 percent, if such data is available.
  - The percentage of students eligible for a free or reduced price lunch under the National School Lunch Act enrolled at all schools currently operated by the operator exceeds 70 percent.
  - The operator is in good standing with the authorizer in each state in which it operates.
  - The audited financial statements of the operator are free of material exceptions and going concern issues.
  - Other outcome measures as determined by the SBE.
- The operator was awarded a U.S. Department of Education Charter School Program grant for Replication and Expansion of High-Quality Charter Schools within the preceding 3 years before applying to be a high-impact school operator.
- The operator receives funding through the National Fund or a Regional Fund of the Charter School Growth Fund to accelerate the growth of the nation's best charter schools.
- A district school board selected the operator in the turnaround process in accordance with the law.

Section 1 provides that before the SBE adopts measurable criteria for the designation, an operator that meets one of the specified criteria related to grant funding or selection by a district school board in the turnaround process may be designated as a high-impact operator. After the SBE has adopted measurable criteria, an entity may be designated as a high-impact school operator if the entity meets the specified criteria or is selected by a district school board in a turnaround process.

[23] The bill defines persistently low-performing school by cross reference to section 1008.33(3)(c), F.S. Pursuant to the definition specified in CS/CS/SB 1552, a persistently low-performing school is a turnaround school, a school that has earned a grade of "F" or two consecutive grades below a "C," that has been either closed by the state or is persistently, for more than 3 consecutive years, unable to improve to a grade of "C."

If the operator seeks the renewal of its status, such renewal must be based solely on the academic and financial performance of all schools established by the operator in the state since its initial designation and the operator's material compliance with the terms of its performance-based agreement.

High-Impact Schools (Section 1)

A high-impact school operator may submit a notice of intent to open a high-impact school to the school district in which a persistently low-performing school has been identified by the SBE.

Notice of Intent

The notice of intent must include:
- An academic focus and plan;
- A financial plan;
- Goals and objectives for increasing student achievement for the students from any persistently low-performing school and students from low-income families;
- A completed or planned community outreach plan;
- The organizational history of success in working with students with similar demographics;
- The grade levels to be served and enrollment projections;
- The proposed location or geographic area proposed for the school and its proximity to the persistently low-performing school; and
- A staffing plan.

Such information may assist district school boards to make informed decisions to improve student performance outcomes.

A school district with a school that is designated, or is likely to be designated, as a persistently low-performing school during the 2017-2018 school year may, with the approval of the SBE contingent on its determination that the school is likely to improve to a grade of "C" or higher during the 2018-2019 school year, implement a new turnaround option specified in law. In the absence of SBE approval, a school district must enter into a performance-based agreement with a high-impact school operator, or may relinquish the district's authority to the SBE to enter into a performance-based agreement with a high-impact school operator, to open one or more high-impact schools.

Performance-Based Agreement

Section 1 also specifies that the performance-based agreement entered into with a high-impact school operator must include the following components:
- The notice of intent, which must be incorporated by reference and attached to the agreement.
- The location or geographic area proposed for the high-impact school and its proximity to the persistently low-performing school.
- An enumeration of the grades to be served in each year of the agreement and whether the school will serve children in the school readiness or prekindergarten programs.
- A plan of action and specific milestones for student recruitment and the enrollment of students from persistently low-performing schools, including enrollment preferences and

procedures for conducting transparent admissions lotteries that are open to the public. However, the bill specifies that enrollment preference must be given to students who are attending, or are assigned to attend, a low-performing school. Moreover, if the high-impact school's total enrollment consists of at least 60 percent of students who were attending, or were assigned to attend, a persistently low-performing school, students attending the high-impact school are exempt, to the extent permitted by federal grant requirements, from any enrollment lottery.

- A delineation of the current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used.
- A description of the methods of involving parents and expected levels for such involvement.
- The grounds for termination, including failure to meet the requirements for student performance established in the performance-based agreement, generally accepted standards of fiscal management, or material violation of terms of the agreement. The nonrenewal or termination of a performance-based agreement must comply with the requirements specified in law for charter schools.
- A provision allowing the high-impact school operator to open additional schools to serve students enrolled in or zoned for a persistently low-performing school if the high-impact school operator maintains its status as a high-impact school operator.
- A provision establishing the initial term as 3 years. The agreement must be renewed, upon the request of the high-impact school operator, unless the school fails to meet the requirements for student performance established in the agreement or generally accepted standards of fiscal management, or the high-impact school operator or its high-impact school materially violates the law or the terms of the agreement.
- A requirement to provide transportation consistent with Florida law. The governing body of the high-impact school may provide transportation through an agreement or contract with the district school board, a private provider, or parents of enrolled students. Transportation may not be a barrier to the equal access for all students residing within a reasonable distance of the school.
- A requirement that any arrangement entered into to borrow or otherwise secure funds from the high-impact school from a source other than the state or a school district must indemnify the state and the school district from any and all liability, including, but not limited to, financial responsibility for the payment of principal or interest.
- A provision specifying that any loans, bonds, or other financial agreements are not obligations of the state or the school district but are obligations of the high-impact school and are payable solely from the sources of funds pledged by such agreement.
- A prohibition on the pledge of credit or taxing power of the state or the school district.

The performance-based agreement may assist with clarifying performance expectations and requirements associated with operating high-impact schools in Florida.

Facilities

Section 1specifies that a high-impact school must use facilities that comply with the Florida Building Code, except for the State Requirements for Educational Facilities. A high-impact school that uses school district facilities is only required to comply with the State Requirements for Educational Facilities if the school district and the high-impact school operator have entered into a mutual management plan for the reasonable maintenance of such facilities. Such mutual

management plan must contain a provision by which the district school board agrees to maintain the school facilities in the same manner as its other public schools within the district. The bill prohibits the local governing authority from adopting or imposing any local building requirements or site-development restrictions, such as parking and site-size criteria, which are addressed by and more stringent than those found in the State Requirements for Educational Facilities of the Florida Building Code.

Section 1 requires a local governing authority to treat high-impact schools equitably in comparison to similar requirements, restrictions, and site planning processes imposed on public schools. The agency having jurisdiction for the inspection of a facility and issuance of a certificate of occupancy or use must be the local municipality, or the county governing authority if in an unincorporated area. If an official or employee of the local governing authority refuses to comply with this paragraph, the aggrieved school or entity has an immediate right to bring an action in circuit court to enforce its rights by injunction. An aggrieved party that receives injunctive relief may be awarded reasonable attorney fees and court costs.

Consistent with Florida law regarding facilities used to house charter schools, the bill provides that any facility, or portion thereof, that is used to house a high-impact school is exempt from ad valorem taxes. Specifically, a library, community service, museum, performing arts, theatre, cinema, church, Florida College System institution, college and university facilities may provide space to high-impact schools within their facilities under their preexisting zoning and land use designations. Similar to current fee exemptions for charter schools, the bill states that high-impact school facilities are exempt from assessments or fees for building permits; fees for building and occupational licenses; impact fees or exactions; service availability fees; and any assessments for special benefits.

Section 1 requires each school district to annually provide to the Florida Department of Education (DOE) a list of all underused, vacant, or surplus facilities owned or operated by the school district by October 1 and permits a high-impact school operator establishing a high-impact school to use a facility identified on this list at no cost or at a mutually agreeable cost, not to exceed fair market value rates. The bill clarifies that a high-impact school operator that uses a facility from this list may not sell or dispose of the facility without the written permission of the school district. For such purposes, "underused, vacant, or surplus facility" is defined as an entire facility or portion that is not fully used or is used irregularly or intermittently by the school district for instructional or program use.

Funding

Section 1 provides that high-impact schools must receive priority in the DOE's Public Charter School Grant Program competitions. The bill also specifies that high-impact schools are considered charter schools for purposes of charter school capital outlay funding, except that such funds may not be used to purchase real property or for the construction of school facilities.

This section authorizes funding for high-impact schools to be provided in the General Appropriations Act to support the following eligible expenditures:

- Preparing teachers, school leaders, and specialized instructional support personnel, including costs associated with providing professional development and hiring and compensating

teachers, school leaders, and specialized instructional support personnel for services beyond the school day and year.
- Acquiring supplies, training, equipment, and educational materials, including developing and acquiring instructional materials.
- Providing one-time startup costs associated with providing transportation to students to and from the high-impact school.
- Carrying out community engagement activities, which may include paying the cost of student and staff recruitment.
- Providing funds to cover the nonvoted ad valorem millage that would otherwise be required for schools and the required local effort funds when the SBE enters into an agreement with a high-impact school operator.

Additionally, section 1 states that if a high-impact school is not renewed or is terminated, any unencumbered funds and all equipment and property purchased with the funds must revert to the ownership of the district school board. The reversion of such equipment, property, and furnishings must focus on tangible or irrecoverable costs such as rental or leasing fees, normal maintenance, and limited renovations. Additionally, the reversion of all property secured with grant funds is subject to the complete satisfaction of al lawful liens or encumbrances.

Statutory Flexibilities (Section 1)

Section 1 provides the following statutory flexibilities to high-impact school operators and high-impact schools:
- A high-impact school may be designated by the SBE as a local education agency, if requested, for the purposes of receiving federal funds. A high-impact school that is designated as a local education agency accepts the full responsibility for all local education agency requirements and the schools for which the high-impact school will perform local education agency responsibilities. Students enrolled in a school established by a high-impact school operator designated as a local educational agency are not eligible students for purposes of calculating the district grade.
- For the purposes of tort liability, the high-impact school operator, the high-impact school, and its employees or agents are governed by the waiver of sovereign immunity contained in Florida law.[24] The bill specifies that the school district sponsor is not liable for civil damages under state law for the employment actions or personal injury, property damage, or death resulting from an act or omission of a high-impact school operator, the high-impact school, or its employees or agents.
- A high-impact school may be either a public or private employer. As a public employer, the school may participate in the Florida Retirement System upon application and approval as a covered group. If a high-impact school participates in the Florida Retirement System, the high-impact school's employees must be compulsory members.
- A high-impact school operator may employ school administrators and instructional personnel who do not meet certain statutory requirements if they are not ineligible for such employment under Florida law.
- Compliance with maximum class size requirements must be calculated as the average at the school level for high-impact schools.

[24] Section 768.28, F.S.

- High-impact schools operated by a high-impact school operator are exempt from the school code and all district school board policies. However, a high-impact school operator must comply with provisions of the school code related to:
  - The student assessment program and school grading system.
  - Student progression and graduation.
  - The provision of services to students with disabilities.
  - Civil rights, including s. 1000.05, F.S., related to discrimination.
  - Student health, safety, and welfare.
  - Public meetings and records, public inspection, and criminal and civil penalties pursuant to Florida law. The governing board of a high-impact school must hold at least two public meetings per school year in the school district in which the high-impact school is located.
  - Public records pursuant to Florida law.
  - The code of ethics for public officers and employees.

SBE Authority and Obligations (Section 1)

Section 1 establishes certain responsibilities for the SBE related to high-impact schools and high-impact school operators. Specifically, this section requires the SBE to:

- Publish an annual list of persistently low-performing schools after the release of preliminary school grades.
- Adopt a standard notice of intent and performance-based agreement that must be used by high-impact school operators and district school boards to eliminate regulatory and bureaucratic barriers that delay access to high-quality schools for students in persistently low-performing schools.
- Resolve disputes between a high-impact school operator and a school district arising from a performance-based agreement or a contract between a charter operator and a school district under the SBE's oversight and enforcement authority.
- Provide students in persistently low-performing schools with a public school that meets accountability standards. Subject to the authorities and approvals created in this bill, the SBE is authorized to enter into a performance-based agreement with a high-impact school operator to establish a high-impact school. Upon the SBE entering into a performance-based agreement with a high-impact school operator, the school district must transfer the proportionate share of state funds allocated from the Florida Education Finance Program.
- Adopt rules to implement the high-impact school operator provisions.

The establishment of the high-impact school operator designation may result in the creation of high-impact schools to serve students currently enrolled in persistently low-performing schools.

Revolving Loan Program (Section 2)

Section 2 creates the High-Impact Schools Revolving Loan Program within the Department of Education to provide assistance to a high-impact operator to meet school building construction needs and pay for expenses related to the startup of a new high-impact school. The program must consist of funds appropriated by the Legislature, money received from the repayment of loans made from the program, and interest earned. Funds provided through the program cannot exceed 25 percent of the total cost of the project, which is calculated based on 80 of the cost per student station multiplied by the capacity of the facility.

Section 2 permits the DOE to contract with a third-party administrator to administer the program. If the DOE contracts with a third-party administrator, funds must be granted to the administrator to create a revolving loan fund for the purpose of financing projects that meet specified criteria. The third-party administrator is required to annually report to the DOE. The bill requires the DOE to administer the program until a third-party administrator is selected.

Section 2 provides that high-impact school operators that are designated as such by the SBE and that have executed a performance-based agreement to operate a high-impact school must be provided a loan to support the performance-based contract components of the high-impact school. The DOE must post on the DOE's website the projects that have received loans, the geographic distribution of the projects, the status of the projects, the costs of the program, and the student outcomes for students enrolled in the high-impact school receiving funds.

All repayments of principal and interest must be returned to the loan fund and made available for loans to other applicants. Interest on loans provided in this program may be used to defray the costs of administration and must be the lower of the rate paid on money held in the fund or 50 percent of the rate authorized in law.[25]

The creation of the high-impact schools revolving loan program within the DOE may assist and provide incentive to high-impact school operators to open high-impact schools to serve students enrolled in persistently low-performing schools. The number of high-impact schools that may open is indeterminate.

The bill takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

[25] Section 215.84, F.S.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill has no impact on state revenues or expenditures. Funding for high impact schools is subject to appropriation in the General Appropriations Act.

The bill provides that high-impact schools opened by high-impact school operators will be eligible for charter school capital outlay, notwithstanding the statutory requirements. It is not known how many such schools will be opened under the bill and will be eligible for charter school capital outlay funding.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill creates sections the following sections of the Florida Statutes: 1001.292 and 1002.333.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The committee substitute:

- Defines high-impact school operators, high-impact schools and persistently low-performing schools.
- Specifies the authority and responsibility of school districts, high-impact operators, high-impact schools and the State Board of Education with respect to high-impact school operators and high-impact schools.
- Outlines the State Board of Education's role and responsibility regarding the oversight and implementation of the high-impact school and high-impact operator requirements.
- Establishes a revolving loan program to assist high-impact operators meet school building construction needs, pay for expenses related to the start-up of a new high-impact school, and support the performance-based contract components of high-impact schools.

CS by Education on April 17, 2017:

The committee substitute assigns a new section of law to the High-Impact Charter Management Organization provisions in the bill.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Bean) recommended the following:

Senate Amendment (with title amendment)

Delete everything after the enacting clause and insert:

Section 1. Section 1002.333, Florida Statutes, is created to read:

1002.333 High-impact school; high-impact school operator.—

(1) DEFINITIONS.—As used in this section, the term:

406464

(a) "High-impact school operator" means an entity identified by the department pursuant to subsection (2). The term does not include a for-profit entity.

(b) "Persistently low-performing school" means a school defined pursuant to s. 1008.33(3)(c).

(c) "High-impact school" means a full-time public school operated by a high-impact school operator which primarily serves students who were attending, or were assigned to attend, a persistently low-performing school and who comprise at least 60 percent of its total enrollment; which is located in the attendance zone of a persistently low-performing school; and which is a Title I eligible school. The term does not include a part-time school or a virtual charter school.

(2) HIGH-IMPACT SCHOOL OPERATOR.—A high-impact school operator is a nonprofit organization with tax exempt status under s. 501(c)(3) of the Internal Revenue Code which operates three or more charter schools that serve students in grades K-12 in Florida or other states has a record of serving students from low-income families, and is designated by the State Board of Education as a high-impact school operator based on a determination that it meets at least one of the following requirements:

(a) The past performance of the high-impact school operator meets or exceeds the following criteria:

1. The achievement of enrolled students exceeds the district and state averages of the states in which the operator's schools operate;

2. The average college attendance rate at all schools currently operated by the operator exceeds 80 percent, if such

406464

data is available;

3. The percentage of students eligible for a free or reduced price lunch under the National School Lunch Act enrolled at all schools currently operated by the operator exceeds 70 percent;

4. The operator is in good standing with the authorizer in each state in which it operates;

5. The audited financial statements of the operator are free of material exceptions and going concern issues; and

6. Other outcome measures as determined by the State Board of Education.

(b) The operator was awarded a United States Department of Education Charter School Program grant for Replication and Expansion of High-Quality Charter Schools within the preceding 3 years before applying to be a high-impact school operator.

(c) The operator receives funding through the National Fund or a Regional Fund of the Charter School Growth Fund to accelerate the growth of the nation's best charter schools.

(d) The operator is selected by a district school board in accordance with s. 1008.33.

An entity that meets the requirements of paragraph (b), paragraph (c), or paragraph (d) before the adoption by the state board of measurable criteria pursuant to paragraph (a) shall be designated as a high-impact school operator. After the adoption of the measurable criteria, an entity shall be designated as a high-impact school operator if it meets the criteria or is selected by a district school board in accordance with s. 1008.33.

406464

(3) DESIGNATION OF HIGH-IMPACT SCHOOL OPERATOR.—Initial status as a high-impact school operator is valid for 5 years after the opening of a high-impact school. If a high-impact school operator seeks the renewal of its status, such renewal shall solely be based upon the academic and financial performance of all schools established by the operator in the state since its initial designation and the operator's material compliance with the terms of its performance-based agreement established pursuant to subsection (5).

(4) ESTABLISHMENT OF HIGH-IMPACT SCHOOLS.—A high-impact school operator may submit a notice of intent to open a high-impact school to the school district in which a persistently low-performing school has been identified by the State Board of Education pursuant to subsection (9).

(a) The notice of intent must include:

1. An academic focus and plan;

2. A financial plan;

3. Goals and objectives for increasing student achievement for the students from any persistently low-performing school and students from low-income families;

4. A completed or planned community outreach plan;

5. The organizational history of success in working with students with similar demographics;

6. The grade levels to be served and enrollment projections;

7. The proposed location or geographic area proposed for the school and its proximity to the persistently low-performing school; and

8. A staffing plan.

406464

(b) A school district with a school that is designated, or is likely to be designated, as a persistently low-performing school during the 2017-2018 school year may, with the approval of the State Board of Education contingent on its determination that the school will likely improve to a grade of "C" or higher during the 2018-2019 school year, implement a new turnaround option specified under s. 1008.33(4). Absent the approval of the state board, a school district must enter into a performance-based agreement with a high-impact operator, or may relinquish authority to the state board to enter into a performance-based agreement with a high-impact school operator, to open one or more high-impact schools.

(5) PERFORMANCE-BASED AGREEMENT.—The performance-based agreement must include all of the following components:

(a) The notice of intent, which is incorporated by reference and attached to the agreement.

(b) The location or geographic area proposed for the high-impact school and its proximity to the persistently low-performing school.

(c) An enumeration of the grades to be served in each year of the agreement and whether the school will serve children in the school readiness or prekindergarten programs.

(d) A plan of action and specific milestones for student recruitment and the enrollment of students from persistently low-performing schools, including enrollment preferences and procedures for conducting transparent admissions lotteries that are open to the public; however, enrollment preference must be given to students who are attending, or are assigned to attend, a persistently low-performing school. If the high-impact

406464

school's total enrollment consists of at least 60 percent of students who were attending, or were assigned to attend, a persistently low-performing school, students attending the high-impact school are exempt, to the extent permitted by federal grant requirements, from any enrollment lottery.

(e) A delineation of the current incoming baseline standard of student academic achievement, the outcomes to be achieved, and the method of measurement that will be used.

(f) A description of the methods of involving parents and expected levels for such involvement.

(g) The grounds for termination, including failure to meet the requirements for student performance established pursuant to paragraph (e), generally accepted standards of fiscal management, or material violation of terms of the agreement. The nonrenewal or termination of a performance-based agreement must comply with the requirements of s. 1002.33(8).

(h) A provision allowing the high-impact school operator to open additional schools to serve students enrolled in or zoned for a persistently low-performing school if the high-impact school operator maintains its status under subsection (3).

(i) A provision establishing the initial term as 5 years. The agreement shall be renewed, upon the request of the high-impact school operator, unless the school fails to meet the requirements for student performance established pursuant to paragraph (e) or generally accepted standards of fiscal management, or the high-impact school operator or its high-impact school materially violates the law or the terms of the agreement.

(j) A requirement to provide transportation consistent with

406464

the requirements of ss. 1006.21-1006.27 and s. 1012.45. The governing body of the high-impact school may provide transportation through an agreement or contract with the district school board, a private provider, or parents of enrolled students. Transportation may not be a barrier to equal access for all students residing within a reasonable distance of the school.

(k) A requirement that any arrangement entered into to borrow or otherwise secure funds for the high-impact school from a source other than the state or a school district shall indemnify the state and the school district from any and all liability, including, but not limited to, financial responsibility for the payment of the principal or interest.

(l) A provision that any loans, bonds, or other financial agreements are not obligations of the state or the school district but are obligations of the high-impact school and are payable solely from the sources of funds pledged by such agreement.

(m) A prohibition on the pledge of credit or taxing power of the state or the school district.

(6) AUTHORIZED FLEXIBILITIES.—

(a) A high-impact school may be designated by the State Board of Education as a local education agency, if requested, for the purposes of receiving federal funds and, in doing so, accepts the full responsibility for all local education agency requirements and the schools for which it will perform local education agency responsibilities. Students enrolled in a school established by a high-impact school operator designated as a local educational agency are not eligible students for purposes

406464

of calculating the district grade pursuant to s. 1008.34(5).

(b) For the purposes of tort liability, the high-impact school operator, the high-impact school, and its employees or agents shall be governed by s. 768.28. The school district sponsor is not liable for civil damages under state law for the employment actions or personal injury, property damage, or death resulting from an act or omission of a high-impact school operator, the high-impact school, or its employees or agents.

(c) A high-impact school may be either a private or a public employer. As a public employer, the high-impact school may participate in the Florida Retirement System upon application and approval as a covered group under s. 121.021(34). If a high-impact school participates in the Florida Retirement System, the high-impact school's employees shall be compulsory members of the Florida Retirement System.

(d) A high-impact school operator may employ school administrators and instructional personnel who do not meet the requirements of s. 1012.56 if the school administrators and instructional personnel are not ineligible for such employment under s. 1012.315.

(e) Compliance with s. 1003.03 shall be calculated as the average at the school level.

(f) High-impact schools operated by a high-impact school operator shall be exempt from chapters 1000-1013 and all school board policies. However, a high-impact school operator shall be in compliance with the laws in chapters 1000-1013 relating to:

1. The student assessment program and school grading system;

2. Student progression and graduation;

406464

3. The provision of services to students with disabilities;

4. Civil rights, including s. 1000.05, relating to discrimination;

5. Student health, safety, and welfare;

6. Public meetings and records, public inspection, and criminal and civil penalties pursuant to s. 286.011. The governing board of a high-impact school must hold at least two public meetings per school year in the school district in which the high-impact school is located. Any other meetings of the governing board may be held in accordance with s. 120.54(2)(b)2.;

7. Public records pursuant to chapter 119; and

8. The code of ethics for public officers and employees pursuant to ss. 112.313(2), (3), (7), and (12) and 112.3143(3).

(7) FACILITIES.—

(a) A high-impact school shall use facilities that comply with the Florida Building Code, except for the State Requirements for Educational Facilities. A high-impact school that uses school district facilities must comply with the State Requirements for Educational Facilities only if the school district and the high-impact school operator have entered into a mutual management plan for the reasonable maintenance of such facilities. The mutual management plan shall contain a provision by which the district school board agrees to maintain the school facilities in the same manner as its other public schools within the district. The local governing authority shall not adopt or impose any local building requirements or site-development restrictions, such as parking and site-size criteria, which are addressed by and more stringent than those found in the State

406464

Requirements for Educational Facilities of the Florida Building Code. A local governing authority must treat high-impact schools equitably in comparison to similar requirements, restrictions, and site planning processes imposed upon public schools. The agency having jurisdiction for inspection of a facility and issuance of a certificate of occupancy or use shall be the local municipality or, if in an unincorporated area, the county governing authority. If an official or employee of the local governing authority refuses to comply with this paragraph, the aggrieved school or entity has an immediate right to bring an action in circuit court to enforce its rights by injunction. An aggrieved party that receives injunctive relief may be awarded reasonable attorney fees and court costs.

(b) Any facility, or portion thereof, used to house a high-impact school shall be exempt from ad valorem taxes pursuant to s. 196.1983. Library, community service, museum, performing arts, theatre, cinema, church, Florida College System institution, college, and university facilities may provide space to high-impact schools within their facilities under their preexisting zoning and land use designations.

(c) High-impact school facilities are exempt from assessments of fees for building permits, except as provided in s. 553.80; fees for building and occupational licenses; impact fees or exactions; service availability fees; and assessments for special benefits.

(d) No later than October 1, each school district shall annually provide to the department a list of all underused, vacant, or surplus facilities owned or operated by the school district. A high-impact school operator establishing a high-

406464

impact school may use an educational facility identified in this paragraph at no cost or at a mutually agreeable cost not to exceed fair market value rates. A high-impact school operator using a facility pursuant to this paragraph may not sell or dispose of such facility without the written permission of the school district. For purposes of this paragraph, "underused, vacant, or surplus facility" means an entire facility or portion thereof which is not fully used or is used irregularly or intermittently by the school district for instructional or program use.

(8) FUNDING.—

(a) High-impact schools shall be funded in accordance with s. 1002.33(17).

(b) High-impact schools shall receive priority in the department's Public Charter School Grant Program competitions.

(c) High-impact schools shall be considered charter schools for purposes of s. 1013.62, except charter capital outlay may not be used to purchase real property or for the construction of school facilities.

(d) Funding for high-impact schools may be provided in the General Appropriations Act to support the following eligible expenditures:

1. Preparing teachers, school leaders, and specialized instructional support personnel, including costs associated with:

a. Providing professional development; and

b. Hiring and compensating teachers, school leaders, and specialized instructional support personnel for services beyond the school day and year.

406464

2. Acquiring supplies, training, equipment, and educational materials, including developing and acquiring instructional materials.

3. Providing one-time startup costs associated with providing transportation to students to and from the high-impact school.

4. Carrying out community engagement activities, which may include paying the cost of student and staff recruitment.

5. Providing funds to cover the nonvoted ad valorem millage that would otherwise be required for schools and the required local effort funds calculated pursuant to s. 1011.62 when the State Board of Education enters into an agreement with a high-impact school operator pursuant to subsection (5).

(e) If a high-impact school is not renewed or is terminated, any unencumbered funds and all equipment and property purchased with the funds shall revert to the ownership of the state. The reversion of such equipment, property, and furnishings shall focus on tangible or irrecoverable costs such as rental or leasing fees, normal maintenance, and limited renovations. The reversion of all property secured with grant funds is subject to the complete satisfaction of all lawful liens or encumbrances.

(9) STATE BOARD OF EDUCATION AUTHORITY AND OBLIGATIONS.—Pursuant to Art. IX of the State Constitution, which prescribes the duty of the State Board of Education to supervise the public school system, the State Board of Education shall:

(a) Publish an annual list of persistently low-performing schools after the release of preliminary school grades.

(b) Adopt a standard notice of intent and performance-based

406464

agreement that must be used by high-impact school operators and district school boards to eliminate regulatory and bureaucratic barriers that delay access to high-quality schools for students in persistently low-performing schools.

(c) Resolve disputes between a high-impact school operator and a school district arising from a performance-based agreement or a contract between a charter operator and a school district under the board's oversight and enforcement authority and the requirements of s. 1008.33.

(d) Provide students in persistently low-performing schools with a public school that meets accountability standards. Subject to the authorities and approvals specified under paragraph (4)(b), the State Board of Education may enter into a performance-based agreement with a high-impact school operator to establish a high-impact school. Upon the State Board of Education entering into a performance-based agreement with a high-impact school operator, the school district shall transfer to the high-impact school the proportionate share of state funds allocated from the Florida Education Finance Program.

(10) RULES.—The State Board of Education shall adopt rules pursuant to ss. 120.536(1) and 120.54 to implement this section.

Section 2. Section 1001.292, Florida Statutes, is created to read:

1001.292 High-impact Schools Revolving Loan Program.—

(1) The High-impact Schools Revolving Loan Program is established within the Department of Education to provide assistance to a high-impact school operator, as defined in s. 1002.333, to meet school building construction needs and pay for expenses related to the startup of a new high-impact school. The

406464

program shall consist of funds appropriated by the Legislature, money received from the repayment of loans made from the program, and interest earned.

(2) Funds provided pursuant to this section may not exceed 25 percent of the total cost of the project, which shall be calculated based on 80 percent of the cost per student station established by s. 1013.64(6)(b) multiplied by the capacity of the facility.

(3) The department may contract with a third-party administrator to administer the program. If the department contracts with a third-party administrator, funds shall be granted to the third-party administrator to create a revolving loan fund for the purpose of financing projects that meet the requirements of subsection (4). The third-party administrator shall report to the department annually. The department shall continue to administer the program until a third-party administrator is selected.

(4) High-impact school operators that have been designated by the State Board of Education and have executed a performance-based agreement pursuant to s. 1002.333 shall be provided a loan up to the amount provided in subsection (2) to support the performance-based contract components of high-impact schools, as defined in s. 1002.333(1).

(5) The department shall post on its website the projects that have received loans, the geographic distribution of the projects, the status of the projects, the costs of the program, and student outcomes for students enrolled in the high-impact school receiving funds.

(6) All repayments of principal and interest shall be

406464

returned to the loan fund and made available for loans to other applicants.

(7) Interest on loans provided under this program may be used to defray the costs of administration and shall be the lower of:

(a) The rate paid on moneys held in the fund; or

(b) A rate equal to 50 percent of the rate authorized under s. 215.84.

Section 3. This act shall take effect July 1, 2017.

========== T I T L E A M E N D M E N T ==========

And the title is amended as follows:

Delete everything before the enacting clause and insert:

A bill to be entitled

An act relating to K-12 public schools; creating s. 1002.333, F.S., relating to high-impact schools and high-impact school operators; defining terms; providing eligibility criteria for high-impact school operators; providing for the designation and redesignation of a high-impact school operator; authorizing high-impact school operators to establish high-impact schools in specified areas; providing the process for the establishment of a high-impact school; providing the requirements for a performance-based agreement; authorizing the State Board of Education to designate a high-impact school as a local education agency; providing that a school district sponsor is not liable for specified damages; providing that a

406464

high-impact school may be a private or public employer; authorizing a high-impact school to participate in the Florida Retirement System; authorizing a high-impact school operator to employ certain staff; providing specific statutory exemptions for high-impact schools; providing requirements for facilities used by high-impact schools; requiring districts to annually provide a list of specified property to the Department of Education; requiring that high-impact schools be funded through the Florida Education Finance Program; establishing additional funding sources and guidelines for eligible expenditures; providing authority and obligations of the State Board of Education; providing a mechanism for the resolution of disputes; providing for rulemaking; creating s. 1001.292, F.S.; establishing the High-impact Schools Revolving Loan Program; providing criteria for administration of the program; providing an effective date.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/25/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Montford) recommended the following:

Senate Amendment to Amendment (406464)

Delete lines 68 - 145
and insert:
status as a high-impact school operator is valid for 3 years after the opening of a high-impact school. If a high-impact school operator seeks the renewal of its status, such renewal shall solely be based upon the academic and financial performance of all schools established by the operator in the state since its initial designation and the operator's material

740332

compliance with the terms of its performance-based agreement established pursuant to subsection (5).

(4) ESTABLISHMENT OF HIGH-IMPACT SCHOOLS.—A high-impact school operator may submit a notice of intent to open a high-impact school to the school district in which a persistently low-performing school has been identified by the State Board of Education pursuant to subsection (9).

(a) The notice of intent must include:

1. An academic focus and plan;

2. A financial plan;

3. Goals and objectives for increasing student achievement for the students from any persistently low-performing school and students from low-income families;

4. A completed or planned community outreach plan;

5. The organizational history of success in working with students with similar demographics;

6. The grade levels to be served and enrollment projections;

7. The proposed location or geographic area proposed for the school and its proximity to the persistently low-performing school; and

8. A staffing plan.

(b) A school district with a school that is designated, or is likely to be designated, as a persistently low-performing school during the 2017-2018 school year may, with the approval of the State Board of Education contingent on its determination that the school will likely improve to a grade of "C" or higher during the 2018-2019 school year, implement a new turnaround option specified under s. 1008.33(4). Absent the approval of the

740332

state board, a school district must enter into a performance-based agreement with a high-impact operator, or may relinquish authority to the state board to enter into a performance-based agreement with a high-impact school operator, to open one or more high-impact schools.

(5) PERFORMANCE-BASED AGREEMENT.—The performance-based agreement must include all of the following components:

(a) The notice of intent, which is incorporated by reference and attached to the agreement.

(b) The location or geographic area proposed for the high-impact school and its proximity to the persistently low-performing school.

(c) An enumeration of the grades to be served in each year of the agreement and whether the school will serve children in the school readiness or prekindergarten programs.

(d) A plan of action and specific milestones for student recruitment and the enrollment of students from persistently low-performing schools, including enrollment preferences and procedures for conducting transparent admissions lotteries that are open to the public; however, enrollment preference must be given to students who are attending, or are assigned to attend, a persistently low-performing school. If the high-impact school's total enrollment consists of at least 60 percent of students who were attending, or were assigned to attend, a persistently low-performing school, students attending the high-impact school are exempt, to the extent permitted by federal grant requirements, from any enrollment lottery.

(e) A delineation of the current incoming baseline standard of student academic achievement, the outcomes to be achieved,

740332

and the method of measurement that will be used.

(f) A description of the methods of involving parents and expected levels for such involvement.

(g) The grounds for termination, including failure to meet the requirements for student performance established pursuant to paragraph (e), generally accepted standards of fiscal management, or material violation of terms of the agreement. The nonrenewal or termination of a performance-based agreement must comply with the requirements of s. 1002.33(8).

(h) A provision allowing the high-impact school operator to open additional schools to serve students enrolled in or zoned for a persistently low-performing school if the high-impact school operator maintains its status under subsection (3).

(i) A provision establishing the initial term as 3 years.

of the district school board. The reversion of such equipment, property, and

By the Committee on Education; and Senator Bean

581-03950-17 2017796c1

A bill to be entitled

An act relating to charter schools; amending s. 1002.33, F.S.; revising charter school contract and funding requirements; creating s. 1002.336, F.S.; defining terms; authorizing certain entities to apply for designation as a High-Impact Charter Management Organization; requiring the State Board of Education to adopt rules; providing criteria for an initial and renewal designation; providing that the charter school may receive charter school capital outlay; authorizing certain administrative fees to be waived under certain conditions; requiring the Department of Education to give priority to certain charter schools applying for specified grants; amending s. 1013.62, F.S.; revising the standards that a charter school must meet to be eligible for a funding allocation; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (n) of subsection (9) and paragraph (c) of subsection (17) of section 1002.33, Florida Statutes, are amended to read:

1002.33 Charter schools.—

(9) CHARTER SCHOOL REQUIREMENTS.—

(n)1. The director and a representative of the governing board of a charter school that has earned a grade of "D" or "F" pursuant to s. 1008.34 shall appear before the sponsor to present information concerning each contract component having

581-03950-17 2017796c1

noted deficiencies. The director and a representative of the governing board shall submit to the sponsor for approval a school improvement plan to raise student performance. Upon approval by the sponsor, the charter school shall begin implementation of the school improvement plan. The department shall offer technical assistance and training to the charter school and its governing board and establish guidelines for developing, submitting, and approving such plans.

2.a. If a charter school earns three consecutive grades of "D," two consecutive grades of "D" followed by a grade of "F," or two nonconsecutive grades of "F" within a 3-year period, the charter school governing board shall choose one of the following corrective actions:

(I) Contract for educational services to be provided directly to students, instructional personnel, and school administrators, as prescribed in state board rule;

(II) Contract with an outside entity that has a demonstrated record of effectiveness to operate the school;

(III) Reorganize the school under a new director or principal who is authorized to hire new staff; or

(IV) Voluntarily close the charter school.

b. The charter school must implement the corrective action in the school year following receipt of a third consecutive grade of "D," a grade of "F" following two consecutive grades of "D," or a second nonconsecutive grade of "F" within a 3-year period.

c. The sponsor may annually waive a corrective action if it determines that the charter school is likely to improve a letter grade if additional time is provided to implement the

intervention and support strategies prescribed by the school improvement plan. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" is subject to subparagraph 4.

d. A charter school is no longer required to implement a corrective action if it improves by at least one letter grade. However, the charter school must continue to implement strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 5.

e. A charter school implementing a corrective action that does not improve by at least one letter grade after 2 full school years of implementing the corrective action must select a different corrective action. Implementation of the new corrective action must begin in the school year following the implementation period of the existing corrective action, unless the sponsor determines that the charter school is likely to improve a letter grade if additional time is provided to implement the existing corrective action. Notwithstanding this sub-subparagraph, a charter school that earns a second consecutive grade of "F" while implementing a corrective action is subject to subparagraph 4.

3. A charter school with a grade of "D" or "F" which ~~that~~ improves by at least one letter grade must continue to implement the strategies identified in the school improvement plan. The sponsor must annually review implementation of the school improvement plan to monitor the school's continued improvement pursuant to subparagraph 5.

4. A charter school's charter contract is automatically terminated if the school earns two consecutive grades of "F" after all school grade appeals are final unless:

a. The charter school is established to turn around the performance of a district public school pursuant to s. 1008.33(4)(b)3. Such charter schools shall be governed by s. 1008.33;

b. The charter school is designated under s. 1002.336 as a High-Impact Charter Management Organization to serve a critical need area or serves a student population the majority of which resides in a school zone served by a district public school that earned a grade of "F" in the year before the charter school opened and the charter school earns at least a grade of "D" in its third year of operation. The exception provided under this sub-subparagraph does not apply to a charter school in its fourth year of operation and thereafter; or

c. The state board grants the charter school a waiver of termination. The charter school must request the waiver within 15 days after the department's official release of school grades. The state board may waive termination if the charter school demonstrates that the Learning Gains of its students on statewide assessments are comparable to or better than the Learning Gains of similarly situated students enrolled in nearby district public schools. The waiver is valid for 1 year and may only be granted once. Charter schools that have been in operation for more than 5 years are not eligible for a waiver under this sub-subparagraph.

The sponsor shall notify the charter school's governing board,

the charter school principal, and the department in writing when a charter contract is terminated under this subparagraph. The letter of termination must meet the requirements of paragraph (8)(c). A charter terminated under this subparagraph must follow the procedures for dissolution and reversion of public funds pursuant to paragraphs (8)(e)-(g) and (9)(o).

5. The director and a representative of the governing board of a graded charter school that has implemented a school improvement plan under this paragraph shall appear before the sponsor at least once a year to present information regarding the progress of intervention and support strategies implemented by the school pursuant to the school improvement plan and corrective actions, if applicable. The sponsor shall communicate at the meeting, and in writing to the director, the services provided to the school to help the school address its deficiencies.

6. Notwithstanding any provision of this paragraph except sub-subparagraphs 4.a.-c., the sponsor may terminate the charter at any time pursuant to subsection (8).

(17) FUNDING.—Students enrolled in a charter school, regardless of the sponsorship, shall be funded as if they are in a basic program or a special program, the same as students enrolled in other public schools in the school district. Funding for a charter lab school shall be as provided in s. 1002.32.

(c) If the district school board is providing programs or services to students funded by federal funds, any eligible students enrolled in charter schools in the school district shall be provided federal funds for the same level of service provided students in the schools operated by the district school

board. Pursuant to provisions of 20 U.S.C. 8061 s. 10306, all charter schools shall receive all federal funding for which the school is otherwise eligible, including Title I funding, not later than 5 months after the charter school first opens and within 5 months after any subsequent expansion of enrollment. Unless otherwise mutually agreed to by the charter school and its sponsor, and consistent with state and federal rules and regulations governing the use and disbursement of federal funds, the sponsor shall reimburse the charter school on a monthly basis for all invoices submitted by the charter school for federal funds available to the sponsor for the benefit of the charter school, the charter school's students, and the charter school's students as public school students in the school district. Such federal funds include, but are not limited to, Title I, Title II, and Individuals with Disabilities Education Act (IDEA) funds. The department shall provide school districts with technical assistance to ensure the federal funds are allocated to charter schools using an appropriate methodology. To receive timely reimbursement for an invoice, the charter school must submit the invoice to the sponsor at least 30 days before the monthly date of reimbursement set by the sponsor. In order to be reimbursed, any expenditures made by the charter school must comply with all applicable state rules and federal regulations, including, but not limited to, the applicable federal Office of Management and Budget Circulars; the federal Education Department General Administrative Regulations; and program-specific statutes, rules, and regulations. Such funds may not be made available to the charter school until a plan is submitted to the sponsor for approval of the use of the funds in

accordance with applicable federal requirements. The sponsor has 30 days to review and approve any plan submitted pursuant to this paragraph.

Section 2. Section 1002.336, Florida Statutes, is created to read:

1002.336 High-Impact Charter Management Organization.—

(1) As used in this section, the term:

(a) "Critical need area" means an area designated as such by the Legislature or an area that is served by one or more public schools that are subject to the turnaround options specified in s. 1008.33(4)(b).

(b) "Entity" means a nonprofit organization with tax exempt status under s. 501(c)(3) of the Internal Revenue Code which is authorized by law to operate a public charter school.

(2) An entity that successfully operates a system of charter schools which primarily serves educationally disadvantaged students who are eligible for free or reduced-price lunch under the Richard B. Russell National School Lunch Act, may apply to the State Board of Education for status as a High-Impact Charter Management Organization.

(3) The State Board of Education shall adopt rules prescribing the process and criteria for the initial designation and renewal designation of a High-Impact Charter Management Organization. The criteria for initial designation must include a review of the data from all schools currently and previously operated by the entity during the past 3 years and the comparison of student-level data to the data of similar students in other schools. The initial designation period may not exceed 5 years. The criteria for initial and renewal designation must

include, but need not be limited to, all of the following:

(a) Student demographic and achievement data, including performance on statewide assessments and nationally norm-referenced assessments.

(b) Student attendance, promotion, retention, and graduation rates.

(c) Other student outcome data, such as college attendance rates and completion rates.

(d) Annual finance statements and audits.

(4) An entity that is designated as a High-Impact Charter Management Organization may:

(a) Submit an application to a local school board pursuant to s. 1002.33 to establish and operate charter schools in critical need areas;

(b) Take the actions described in s. 1002.331(2); and

(c) Notwithstanding the criteria in s. 1002.33(25), be designated as a local educational agency for the purpose of receiving federal funds.

(5) Notwithstanding s. 1013.62(1)(a), a charter school operated by a High-Impact Charter Management Organization is eligible to receive charter school capital outlay.

(6) The administrative fee provided for in s. 1002.33(20)(a)2. shall be waived for a charter school established by a High-Impact Charter Management Organization in a critical need area if the entity maintains its status as a High-Impact Charter Management Organization.

(7) The department shall give priority to charter schools operated by a High-Impact Charter Management Organization in the department's Public Charter School Grant Program competitions.

Such priority treatment may be provided only for a new charter school that will operate in a critical need area.

(8) If an entity seeks status renewal, the State Board of Education shall review the academic and financial performance of the charter schools established in critical need areas consistent with subsection (3).

(9) The State Board of Education shall adopt rules under ss. 120.536(1) and 120.54 to administer this section.

Section 3. Paragraph (a) of subsection (1) of section 1013.62, Florida Statutes, is amended to read:

1013.62 Charter schools capital outlay funding.—

(1) In each year in which funds are appropriated for charter school capital outlay purposes, the Commissioner of Education shall allocate the funds among eligible charter schools as specified in this section.

(a) To be eligible for a funding allocation, a charter school must:

1.a. Have been in operation for 2 or more years;

b. Be governed by a governing board established in the state for 3 or more years which operates both charter schools and conversion charter schools within the state;

c. Be an expanded feeder chain of a charter school within the same school district that is currently receiving charter school capital outlay funds;

d. Have been accredited by the Commission on Schools of the Southern Association of Colleges and Schools; or

e. Serve students in facilities that are provided by a business partner for a charter school-in-the-workplace pursuant to s. 1002.33(15)(b).

2. Have an annual audit that does not reveal any of the financial emergency conditions provided in s. 218.503(1) for the most recent fiscal year for which such audit results are available.

~~3. Have satisfactory student achievement based on state accountability standards applicable to the charter school.~~

3.~~4.~~ Have received final approval from its sponsor pursuant to s. 1002.33 for operation during that fiscal year.

4.~~5.~~ Serve students in facilities that are not provided by the charter school's sponsor.

Section 4. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 684
INTRODUCER:	Criminal Justice Committee; and Senator Baxley
SUBJECT:	Internet Identifiers
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Erickson	Hrdlicka	CJ	**Fav/CS**
2.	McAuliffe	Sadberry	ACJ	**Recommend: Favorable**
3.	McAuliffe	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 684 revises provisions requiring registered sexual predators and sexual offenders to report Internet identifiers. These revisions include modifying the definition of the term "Internet identifier" and defining the connected terms "social Internet communication" and "application software." A recent Florida federal court found that the current definition of "Internet identifier" is overbroad and vague and requires an individual to either forego protected speech or run the risk of criminal prosecution.

The bill also requires a sexual predator and sexual offender to report each Internet identifier's corresponding website homepage or application software name. The bill also expands third degree felony offenses involving failure to report certain information to include failure to report each Internet identifier's corresponding website homepage or application software name.

The Criminal Justice Impact Conference estimated that the original bill would have a "positive indeterminate" prison bed impact (an unquantifiable increase in prison beds). Nominal changes to the original bill, which do not relate to penalties, should not change this estimate. See Section V. Fiscal Impact.

The bill takes effect upon becoming law.

II. Present Situation:

Registration of Sexual Predators and Sexual Offenders

Florida law requires registration of any person who has been convicted or adjudicated delinquent of a specified sex offense or offenses and who meets other statutory criteria that qualify the person for designation as a sexual predator or classification as a sexual offender. The registration laws also require reregistration and provide for public and community notification of certain information about sexual predators and sexual offenders. The laws span several different chapters and numerous statutes,[1] and are implemented through the combined efforts of the Florida Department of Law Enforcement (FDLE), all Florida sheriffs, the Department of Corrections (DOC), the Department of Juvenile Justice (DJJ), the Department of Highway Safety and Motor Vehicles (DHSMV), and the Department of Children and Families (DCF).

A person is designated as a sexual predator by a court if the person:

- Has been convicted of a current qualifying capital, life, or first degree felony sex offense committed on or after October 1, 1993;[2]
- Has been convicted of a current qualifying sex offense committed on or after October 1, 1993, and has a prior conviction for a qualifying sex offense; or
- Was found to be a sexually violent predator in a civil commitment proceeding.[3]

A person is classified as a sexual offender if the person:

- Has been convicted of a qualifying sex offense and has been released on or after October 1, 1997 (the date the modern registry became effective) from the sanction imposed for that offense;
- Establishes or maintains a Florida residence and is subject to registration or community or public notification in another state or jurisdiction or is in the custody or control of, or under the supervision of, another state or jurisdiction as a result of a conviction for a qualifying sex offense; or
- On or after July 1, 2007, has been adjudicated delinquent of a qualifying sexual battery or lewd offense committed when the person was 14 years of age or older.[4]

[1] Sections 775.21-775.25, 943.043-943.0437, 944.606-944.607, and 985.481-985.4815, F.S.
[2] Examples of qualifying sex offenses are sexual battery by an adult on a child under 12 years of age (s. 794.011(2)(a), F.S.) and lewd battery by an adult on a child 12 years of age or older but under 16 years of age (s. 800.04(4)(a), F.S.).
[3] Section s. 775.21(4) and (5), F.S. The Jimmy Ryce Involuntary Civil Commitment for Sexually Violent Predators' Treatment and Care Act, part V, ch. 394, F.S., provides for the civil confinement of a group of sexual offenders who, due to their criminal history and the presence of mental abnormality, are found likely to engage in future acts of sexual violence if they are not confined in a secure facility for long-term control, care, and treatment.
[4] Sections 943.0435(1)(h) and 985.4815(1)(h), F.S. Sections 944.606(1)(f) and 944.607(1)(f), F.S., which address sexual offenders in the custody of or under the supervision of the Department of Corrections, also define the term "sexual offender."

Sexual predators and sexual offenders are required to report certain information, including electronic mail addresses[5] and Internet identifiers.[6] The FDLE may provide information relating to electronic mail addresses and Internet identifiers maintained as part of the sexual offender registry to commercial social networking websites[7] or third parties designated by commercial social networking websites.[8] The commercial social networking website may use this information for the purpose of comparing registered users and screening potential users of the commercial social networking website against the list of electronic mail addresses and Internet identifiers provided by the FDLE.[9]

Requirements for in-person registration and reregistration are similar for sexual predators and sexual offenders,[10] but the frequency of reregistration may differ.[11] Registration requirements may also differ based on a special status, e.g., the sexual predator or sexual offender is in the DOC's control or custody, under DOC or DJJ supervision, or in residential commitment under the DJJ.[12]

The FDLE, through its agency website, provides a searchable database that contains information about sexual predators and sexual offenders.[13] Further, local law enforcement agencies provide access to this information, typically through a link to the state public registry webpage.

Florida's registry laws meet minimum requirements of the federal Sex Offender Registration and Notification Act (SORNA), which is Title I of the Adam Walsh Protection and Safety Act of

---

[5] An "electronic mail address" is defined in s. 775.21(2)(g), F.S., as having the same meaning as provided in s. 668.602, F.S. Section 668.602(6), F.S., defines an "electronic mail address" as a destination, commonly expressed as a string of characters, to which electronic mail may be sent or delivered.

[6] Requirements to report electronic mail addresses and Internet identifiers and changes in this information are in: s. 775.21(6)(a), (e), and (g) and (8), F.S.; s. 943.0435(2)(a), (4)(e), and (14)(c), F.S.; s. 944.607(4)(a) and (13)(c), F.S.; and s. 985.4815(4)(a) and (13)(b), F.S.

[7] For purpose of s. 943.0437, F.S., the term "commercial social networking website" means a commercially operated Internet website that allows users to create web pages or profiles that provide information about themselves and are available publicly or to other users and that offers a mechanism for communication with other users, such as a forum, chat room, electronic mail, or instant messenger. Section 943.0437(1), F.S.

[8] Section 943.0437(2), F.S.

[9] *Id.*

[10] Sexual predator reporting requirements are in s. 775.21(6) and (8), F.S. Sexual offender reporting requirements are in ss. 943.0435(2-4), (7-8), and (14), 944.607(4), (9), and (13), and 985.4815(4), (9), and (13), F.S.

[11] A sexual predator is required to reregister each year during the month of the predator's birthday and during every third month thereafter. Section 775.21(8), F.S. A sexual offender convicted of any listed offense in s. 943.0435(14)(b), F.S., must reregister in the same manner as a sexual predator. Any other sex offender must reregister each year during the month of the offender's birthday and during the sixth month following the offender's birth month. Section 943.0435(14)(a), F.S.

[12] *See* footnote 10.

[13] The FDLE is the central repository for registration information. The department also maintains the state public registry and ensures Florida's compliance with federal laws. The Florida sheriffs handle in-person registration and reregistration. "About Us" (updated October 1, 2016), Florida Department of Law Enforcement, *available at* http://offender.fdle.state.fl.us/offender/About.jsp (last visited on March 13, 2017). The FDLE maintains a database that allows members of the public to search for sexual offenders and sexual predators through a variety of search options, including name, neighborhood, and enrollment, employment, or volunteer status at a institute of higher education. Members of the public may also check whether an electronic mail address or Internet identifier belongs to a registered sexual offender or sexual predator. Offender searches and other information may be accessed from "Florida Sexual Offenders and Predators," Florida Department of Law Enforcement, *available* at http://offender.fdle.state.fl.us/offender/Search.jsp (last visited on March 13, 2017).

2006 (AWA).[14] The SORNA attempts to make all states' laws uniform with respect to requirements (or minimum standards) that Congress judged to be necessary to be included in states' registry laws. The U.S. Department of Justice (DOJ) maintains the Dru Sjodin National Sex Offender Public Website (NSOPW).[15] States may choose not to substantially implement the SORNA, but the AWA penalizes noncompliance by partially reducing Byrne Justice Assistance Grant funding.[16] The DOJ has determined that Florida has substantially implemented the SORNA.[17]

Preliminary Injunction Precluding Enforcement of the Current Definition of Internet Identifier

As previously noted, sexual predators and sexual offenders are required to report certain information, including Internet identifiers. The requirement to report Internet identifiers was created by the Legislature in 2014.[18] In 2016, the Legislature modified the original definition of "Internet identifier."[19] This modified definition, which was to take effect on October 1, 2016,[20] expanded the original definition to include Internet identifiers associated with a website or URL[21] or software applications.

Section 775.21(2)(j), F.S., provides that an "Internet identifier" includes, but is not limited to, all website uniform resource locators (URLs) and application software, whether mobile or nonmobile, used for Internet communication, including anonymous communication, through electronic mail, chat, instant messages, social networking, social gaming, or other similar programs and all corresponding usernames, logins, screen names, and screen identifiers associated with each URL or application software. Internet identifier does not include a date of birth, Social Security number, personal identification number (PIN), URL, or application

---

[14] 42 U.S.C. Sections 16911 *et seq*. The Department of Justice issued guidelines for the implementation of the SORNA. The final guidelines (July 2008) and supplemental guidelines (January 11, 2011) may be accessed at "Guidelines," Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking (SMART), Office of Justice Programs, U.S. Department of Justice, *available at* https://ojp.gov/smart/guidelines.htm (last visited on March 13, 2017).

[15] Offender searches and other information may be accessed from "NSPOW," Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking (SMART), Office of Justice Programs, U.S. Department of Justice, *available at* http://www.nsopw.gov/Core/Portal.aspx (last visited on March 13, 2017).

[18] Chapter 2014-5, L.O.F.

[19] Chapter 2016-104, L.O.F. (amending s. 775.21(2)(i), F.S., and renumbering it as s. 775.21(2)(j), F.S.). The original definition of "Internet identifier" was all electronic mail, chat, instant messenger, social networking, application software, or similar names used for Internet communication, but did not include a date of birth, social security number, or personal identification number (PIN). Voluntary disclosure by a sexual predator of his or her date of birth, social security number, or PIN as an Internet identifier waived the disclosure exemption in this paragraph for such personal information. Section 775.21(2)(i), F.S. (2014).

[20] *Id*.

[21] "URL stands for Uniform Resource Locator, and is used to specify addresses on the World Wide Web. A URL is the fundamental network identification for any resource connected to the web (e.g., hypertext pages, images, and sound files)." "ARCHIVED: What is a URL?", Indiana University Information Technology Knowledge Base Repository, *available at* https://kb.iu.edu/d/adnz (last visited on March 14, 2017).

software used for utility, banking, retail, or medical purposes. Voluntary disclosure by a sexual predator or sexual offender of his or her date of birth, Social Security number, or PIN as an Internet identifier waives the disclosure exemption in this paragraph for such personal information.[22]

Shortly before the amended definition of "Internet identifier" was slated to take effect, a group of plaintiffs in Florida who had been convicted as sexual offenders filed a lawsuit against the Commissioner of the FDLE in the United States District Court for the Northern District of Florida, Tallahassee Division.[23] The plaintiffs argued that the prior and amended definition of "Internet identifier" violated the First Amendment and raised a vagueness challenge. The plaintiffs also moved for a preliminary injunction, which the court treated as a challenge only to the amended definition.

The court found the current definition is "hopelessly vague, chills speech protected by the First Amendment, and is far broader than necessary to serve the state's legitimate interest in deterring or solving online sex crimes." The court granted the preliminary injunction.

The court stated the definition "sets no outer limit, because the term is expressly 'not limited to' what the definition says. Having jettisoned the ordinary understanding and replaced it with an expressly unlimited description, the definition leaves a sex offender guessing at what must be disclosed." The court also stated that the definition, "at least on many plausible readings, is hopelessly and unnecessarily broad in scope." One of the examples the court cited in its finding was Mr. Doe's digital subscription to a newspaper. Mr. Doe receives an e-mail every morning with the day's headlines and e-mails every day with additional articles or breaking news. The court continued:

> He plainly must register at least the URL for the newspaper, if not the URL for every article the newspaper sends. But the State has absolutely no legitimate interest in requiring a sex offender to register the URL of the newspaper or articles the offender reads. And if Mr. Doe chooses one day to make a comment on an article, he must now figure out whether the same URL is in use, and he must make his identity available to the public. Unlike every other subscriber or member of the public, Mr. Doe cannot comment anonymously. *See White v. Baker*, 696 F. Supp. 2d 1289, 1313 (N.D. Ga. 2010) (holding that enforcement of a registration requirement would irreparably harm a registered sex offender "by chilling his First Amendment right to engage in anonymous free speech").

The order states that the preliminary injunction remains in effect until entry of a final judgment in the case or until otherwise ordered. The injunction prohibits the FDLE Commissioner[24] from

[22] Sections 943.0435(1)(e), 944.607, and 985.4815, F.S., provide that "Internet identifier" has the same meaning as provided in s. 775.21, F.S.

[23] The plaintiffs filed this action against current FDLE Commissioner Richard "Rick" L. Swearingen in his official capacity. Preliminary Injunction, *Doe 1 et al. v. Swearingen, etc*., Case No. 4:16-00501-RH-CAS (N.D. Fla. Sept. 27, 2016) (on file with the Senate Committee on Criminal Justice). All information regarding this case is from this source.

[24] The injunction also binds the Commissioner's "officers, agents, servants, employees, and attorneys - and others in active concert or participation with any of them - who receive actual notice of this injunction by personal service or otherwise."

taking any action based on the current definition of "Internet identifier." However, the injunction does not preclude enforcement of the prior definition.

III. Effect of Proposed Changes:

Section 1 amends s. 775.21, F.S., relating to sexual predator registration. The section modifies the definition of "Internet identifier" in s. 775.21(2)(j), F.S. "Internet identifier" means any designation, moniker, screen name, username, or other name used for self-identification to send or receive social Internet communication. Internet identifier does not include a date of birth, social security number, personal identification number (PIN), or password. A sexual offender's or sexual predator's use of an Internet identifier that discloses his or her date of birth, social security number, PIN, password, or other information that would reveal the identity of the sexual offender or sexual predator waives the described disclosure exemption described in this paragraph and in s. 119.071(5)(l), F.S.[25]

Connected to the definition of "Internet identifier," s. 775.21(2)(m), F.S., is created, which defines "social Internet communication" as any communication through a commercial social networking website, as defined in s. 943.0437, F.S., or application software. The term does not include any of the following:

- Communication for which the primary purpose is the facilitation of commercial transactions involving goods or services;
- Communication on an Internet website for which the primary purpose of the website is the dissemination of news; or
- Communication with a governmental entity.

For purposes of paragraph (2)(m), the term "application software" is defined as any computer program that is designed to run on a mobile device such as a smartphone or tablet computer, that allows users to create web pages or profiles that provide information about themselves and are available publicly or to other users, and that offers a mechanism for communication with other users through a forum, a chatroom, electronic mail, or an instant messenger.

The following provisions of s. 775.21, F.S. are amended or created to require a sexual predator to report each Internet identifier's corresponding website homepage or application software name:

- Section 775.21(6)(a)1., F.S., relating to information a sexual predator is required to report at initial registration.
- Section 775.21(6)(a)1.a., F.S., which is created by the bill, provides that any change to the following that occurs after the sexual predator initially registers must be reported as provided in s. 775.21(6)(g), (i), and (j), F.S.: permanent, temporary, or transient residence; name; electronic mail addresses; Internet identifiers and each Internet identifier's corresponding website homepage or application software name; home and cellular telephone numbers; and employment information; and status at an institution of higher education.[26]

[25] A connected bill, SB 686 (2017), creates s. 119.071(5)(1), F.S., which exempts from public disclosure electronic mail addresses and Internet identifiers of sexual predators and sexual offenders which they report pursuant to specified registration statutes, unless otherwise ordered by a court.

[26] Excluding changes to Internet identifier's corresponding website homepage or application software name, changes to all of the other noted information are already reported under current s. 775.21(6)(g), (i), or (j), F.S.

- Section 775.21(6)(e)2., F.S., which requires a sexual predator who is not in the custody or under the supervision of the DOC to report changes in certain information.
- Section 775.21(6)(g)5.a., F.S., which requires a sexual predator to report certain information to: the FDLE through the department's online system or in person with the sheriff's office; or the Department of Corrections or Department of Juvenile Justice, if the sexual predator is in custody or under the supervision of either department. The bill also modifies the current requirement for a sexual predator who is not under custody or supervision to register all electronic mail addresses and Internet identifiers before using them. Under the bill, this sexual predator must register them within 48 hours after using them.
- Section 775.21(6)(g)5.c., F.S., which specifies that FDLE's online system may be accessed by a sexual predator to report changes in certain information.
- Section 775.21(8)(a)1., F.S., which requires a sexual predator at reregistration to report any changes in certain information.

Currently, s. 775.21(6)(k), F.S., provides that the FDLE's sexual predator list, which contains information a sexual predator registers (pursuant to s. 775.21(6)(a)1., F.S.), is a public record. Section 1 specifies that this information is a public record, unless otherwise made exempt or confidential and exempt from public disclosure.

Section 775.21(10)(a), F.S., which provides that it is a third degree felony for a sexual predator to fail to report certain information, is expanded to include the failure to report each Internet identifier's corresponding website homepage or application software name.

Section 1 also makes several technical or conforming changes.

Section 2 amends s. 943.0435, F.S., relating to sexual offender registration. The following provisions of s. 943.0435, F.S., are amended to require a sexual offender to report each Internet identifier's corresponding website homepage or application software name:

- Section 943.0435(2)(a) and (b), F.S., relating to information a sexual offender is required to report at initial registration and changes to that information after initial registration.
- Section 943.0435(4)(e)1., F.S., which requires a sexual offender to report certain information to the FDLE through the department's online system or in person with the sheriff's office; or the Department of Corrections or Department of Juvenile Justice, if the sexual offender is in custody or under the supervision of either department. The bill also modifies the current requirement for a sexual offender who is not under custody or supervision to register all electronic mail addresses and Internet identifiers before using them. Under the bill, this sexual offender must register them within 48 hours after using them.
- Section 943.0435(4)(e)3., F.S., which specifies that FDLE's online system may be accessed by a sexual offender to report changes in certain information.
- Section 943.0435(14)(c)1., F.S., which requires a sexual offender at reregistration to report any changes in certain information.

Section 943.0435(14)(c)4., F.S., which provides that it is a third degree felony for a sexual offender to fail to report certain information, is expanded to include the failure to report each Internet identifier's corresponding website homepage or application software name.

Section 2 of the bill also makes several technical or conforming changes.

Sections 3 through 14 of the bill reenact, respectively, ss. 794.056, 921.0022, 938.085, 943.0437, 944.606, 944.607, 985.481, and 985.4815, F.S., for the purpose of incorporating amendments to ss. 775.21 and 943.0435, F.S., made by the bill.

Section 15 of the bill provides that the bill takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The Criminal Justice Impact Conference estimated that the original bill would have a "positive indeterminate" prison bed impact (an unquantifiable increase in prison beds).[27] Nominal changes to the original bill, which do not relate to penalties, should not change this estimate.

The CJIC states that, per the Department of Corrections, in FY 2015-2016, there were 1,001 (adjusted)[28] offenders sentenced for registration/false information offenses relating to sexual offenders and sexual predators, with 503 (adjusted) of these offenders sentenced to prison (mean sentence length of 40.2 months and an incarceration rate of 60.5 percent

[27] Impact information was provided by staff of the Office of Economic and Demographic Research on March 6, 2017, via e-mail (on file with the Senate Committee on Criminal Justice).

[28] Sentencing data from the DOC is incomplete, which means that the numbers the EDR receives are potentially lower than what the actual numbers are. The EDR adjusts these numbers by the percentage of scoresheets received for the applicable fiscal year.

adjusted and 60.4 percent unadjusted). It is unknown how many additional offenders might be added due to proposed changes made by the bill.

The FDLE states that Internet identifiers are to be reported as part of the sexual offender or sexual predator registration requirements pursuant to the federal Sex Offender Registration and Notification Act (SORNA), which is Title I of the Adam Walsh Protection and Safety Act of 2006, and SORNA guidelines. According to the FDLE, failure to comply with the guideline requirements could result in a 10 percent reduction of funding provided under the Edward Byrne Justice Assistance Grant (JAG) Program.[29]

VI. Technical Deficiencies:

None.

VII. Related Issues:

A connected bill, CS/SB 686 (2017), creates s. 119.071(5)(1), F.S., to exempt from public disclosure electronic mail addresses and Internet identifiers of sexual predators and sexual offenders which they report pursuant to specified registration statutes, unless otherwise ordered by a court.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 775.21 and 943.0435.

This bill also reenacts sections 794.056, 921.0022, 938.085, 943.0437, 944.606, 944.607, 985.481, and 985.4815, Florida Statutes, for the purpose of incorporating amendments made by the bill to sections 775.21 and 943.0435, Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:

(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Criminal Justice on April 3, 2017:
The committee substitute:

- Redefines "social Internet communication" and defines "application software."
- Provides that the FDLE's sexual predator list, which contains information a sexual predator registers (pursuant to s. 775.21(6)(a)1., F.S.), is a public record, unless otherwise made exempt or confidential and exempt from public disclosure.

B. Amendments:

None.

[29] 2017 FDLE Legislative Bill Analysis (SB 684) (February 9, 2017), Florida Department of Law Enforcement (on file with the Senate Committee on Criminal Justice).

By the Committee on Criminal Justice; and Senator Baxley

591-03322-17 2017684c1

A bill to be entitled

An act relating to Internet identifiers; amending s. 775.21, F.S.; revising the definition of the term "Internet identifier"; defining the term "social Internet communication"; requiring a sexual predator to register each Internet identifier's corresponding website home page or application software name with the Department of Law Enforcement through the sheriff's office; requiring a sexual predator to report any change to certain information after initial in-person registration in a specified manner; requiring a sexual predator to register all electronic mail addresses, Internet identifiers, and Internet identifiers' corresponding website home pages or application names with the department within 48 hours after using the addresses or identifiers, rather than before using them; providing that the department's sexual predator registration list is a public record, unless otherwise made exempt or confidential and exempt; revising the information that a sexual predator must report to the sheriff's office each year; conforming provisions to change made by the act; making technical changes; amending s. 943.0435, F.S.; requiring a sexual offender, upon initial registration, to report in person at the sheriff's office; requiring the sexual offender to report any change to each Internet identifier's corresponding website home page or application software name in person at the sheriff's office in a specified manner;

591-03322-17 2017684c1

requiring a sexual offender to report any change to certain information after initial in-person registration in a specified manner; requiring a sexual offender to register all electronic mail addresses and Internet identifiers, and each Internet identifier's corresponding website home page or application software name, with a specified period after using these addresses or identifiers, rather than before using them; making technical changes; reenacting ss. 943.0437(2), 944.606(1)(c), 944.607(1)(e), 985.481(1)(c), and 985.4815(1)(e), F.S., relating to the definition of the term "Internet identifier," to incorporate the amendment made to s. 775.21, F.S., in references thereto; reenacting ss. 944.606(3)(a), 944.607(4)(a), (9), and (13)(c), 985.481(3)(a), and 985.4815(4)(a), (9), and (13)(b), F.S., relating to sexual offenders, notification to the Department of Law Enforcement of information on sexual offenders, notification to the department upon release of sexual offenders adjudicated delinquent, and notification to the department of information on juvenile sexual offenders, respectively, to incorporate the amendment made to s. 943.0435, F.S., in references thereto; reenacting ss. 794.056(1), 921.0022(3)(g), and 938.085, F.S., relating to the Rape Crisis Program Trust Fund, the Criminal Punishment Code offense severity ranking chart, and additional costs to fund rape crisis centers, respectively, to incorporate the amendments made to ss. 775.21 and 943.0435, F.S., in

references thereto; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present paragraphs (m), (n), and (o) of subsection (2) of section 775.21, Florida Statutes, are redesignated as paragraphs (n), (o), and (p), respectively, a new paragraph (m) is added to that subsection, paragraph (j) of that subsection is amended, paragraphs (a) and (d) of subsection (4) and paragraph (d) of subsection (5) of that section are republished, paragraphs (a), (e), (g), and (k) of subsection (6) of that section are amended, paragraph (i) of subsection (6) of that section is republished, paragraph (a) of subsection (8) and paragraph (a) of subsection (10) of that section are amended, and paragraph (e) of subsection (10) of that section is republished, to read:

775.21 The Florida Sexual Predators Act.—

(2) DEFINITIONS.—As used in this section, the term:

(j) "Internet identifier" means any designation, moniker, screen name, username, or other name used for self-identification to send or receive social Internet communication ~~includes, but is not limited to, all website uniform resource locators (URLs) and application software, whether mobile or nonmobile, used for Internet communication, including anonymous communication, through electronic mail, chat, instant messages, social networking, social gaming, or other similar programs and all corresponding usernames, logins, screen names, and screen identifiers associated with each URL or application software~~. Internet identifier does not include a date of birth, social

security number, personal identification number (PIN), or password. A sexual offender's or sexual predator's use of an Internet identifier that discloses his or her date of birth, social security number, personal identification number (PIN), password, or other information that would reveal the identity of the sexual offender or sexual predator ~~URL, or application software used for utility, banking, retail, or medical purposes. Voluntary disclosure by a sexual predator or sexual offender of his or her date of birth, Social Security number, or PIN as an Internet identifier~~ waives the disclosure exemption in this paragraph and in s. 119.071(5)(l) for such personal information.

(m) "Social Internet communication" means any communication through a commercial social networking website, as defined in s. 943.0437, or application software. The term does not include any of the following:

1. Communication for which the primary purpose is the facilitation of commercial transactions involving goods or services;

2. Communication on an Internet website for which the primary purpose of the website is the dissemination of news; or

3. Communication with a governmental entity.

For purposes of this paragraph, the term "application software" means any computer program that is designed to run on a mobile device such as a smartphone or tablet computer, that allows users to create web pages or profiles that provide information about themselves and are available publicly or to other users, and that offers a mechanism for communication with other users through a forum, a chatroom, electronic mail, or an instant

messenger.

(4) SEXUAL PREDATOR CRITERIA.—

(a) For a current offense committed on or after October 1, 1993, upon conviction, an offender shall be designated as a "sexual predator" under subsection (5), and subject to registration under subsection (6) and community and public notification under subsection (7) if:

1. The felony is:

a. A capital, life, or first degree felony violation, or any attempt thereof, of s. 787.01 or s. 787.02, where the victim is a minor, or s. 794.011, s. 800.04, or s. 847.0145, or a violation of a similar law of another jurisdiction; or

b. Any felony violation, or any attempt thereof, of s. 393.135(2); s. 394.4593(2); s. 787.01, s. 787.02, or s. 787.025(2)(c), where the victim is a minor; s. 787.06(3)(b), (d), (f), or (g); former s. 787.06(3)(h); s. 794.011, excluding s. 794.011(10); s. 794.05; former s. 796.03; former s. 796.035; s. 800.04; s. 810.145(8)(b); s. 825.1025; s. 827.071; s. 847.0135, excluding s. 847.0135(6); s. 847.0145; s. 895.03, if the court makes a written finding that the racketeering activity involved at least one sexual offense listed in this sub-subparagraph or at least one offense listed in this sub-subparagraph with sexual intent or motive; s. 916.1075(2); or s. 985.701(1); or a violation of a similar law of another jurisdiction, and the offender has previously been convicted of or found to have committed, or has pled nolo contendere or guilty to, regardless of adjudication, any violation of s. 393.135(2); s. 394.4593(2); s. 787.01, s. 787.02, or s. 787.025(2)(c), where the victim is a minor; s. 787.06(3)(b), (d), (f), or (g); former s. 787.06(3)(h); s. 794.011, excluding s. 794.011(10); s. 794.05; former s. 796.03; former s. 796.035; s. 800.04; s. 825.1025; s. 827.071; s. 847.0133; s. 847.0135, excluding s. 847.0135(6); s. 847.0145; s. 895.03, if the court makes a written finding that the racketeering activity involved at least one sexual offense listed in this sub-subparagraph or at least one offense listed in this sub-subparagraph with sexual intent or motive; s. 916.1075(2); or s. 985.701(1); or a violation of a similar law of another jurisdiction;

2. The offender has not received a pardon for any felony or similar law of another jurisdiction that is necessary for the operation of this paragraph; and

3. A conviction of a felony or similar law of another jurisdiction necessary to the operation of this paragraph has not been set aside in any postconviction proceeding.

(d) An offender who has been determined to be a sexually violent predator pursuant to a civil commitment proceeding under chapter 394 shall be designated as a "sexual predator" under subsection (5) and subject to registration under subsection (6) and community and public notification under subsection (7).

(5) SEXUAL PREDATOR DESIGNATION.—An offender is designated as a sexual predator as follows:

(d) A person who establishes or maintains a residence in this state and who has not been designated as a sexual predator by a court of this state but who has been designated as a sexual predator, as a sexually violent predator, or by another sexual offender designation in another state or jurisdiction and was, as a result of such designation, subjected to registration or community or public notification, or both, or would be if the

person was a resident of that state or jurisdiction, without regard to whether the person otherwise meets the criteria for registration as a sexual offender, shall register in the manner provided in s. 943.0435 or s. 944.607 and shall be subject to community and public notification as provided in s. 943.0435 or s. 944.607. A person who meets the criteria of this section is subject to the requirements and penalty provisions of s. 943.0435 or s. 944.607 until the person provides the department with an order issued by the court that designated the person as a sexual predator, as a sexually violent predator, or by another sexual offender designation in the state or jurisdiction in which the order was issued which states that such designation has been removed or demonstrates to the department that such designation, if not imposed by a court, has been removed by operation of law or court order in the state or jurisdiction in which the designation was made, and provided such person no longer meets the criteria for registration as a sexual offender under the laws of this state.

(6) REGISTRATION.—

(a) A sexual predator shall register with the department through the sheriff's office by providing the following information to the department:

1. Name; social security number; age; race; sex; date of birth; height; weight; tattoos or other identifying marks; hair and eye color; photograph; address of legal residence and address of any current temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence within the state; address, location or description,

and dates of any current or known future temporary residence within the state or out of state; ~~all~~ electronic mail addresses; ~~and all~~ Internet identifiers and each Internet identifier's corresponding website home page or application software name ~~required to be provided pursuant to subparagraph (g)5.~~; ~~all~~ home telephone numbers and cellular telephone numbers ~~required to be provided pursuant to subparagraph (g)5.~~; employment information ~~required to be provided pursuant to subparagraph (g)5.~~; the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; date and place of each conviction; fingerprints; palm prints; and a brief description of the crime or crimes committed by the offender. A post office box may not be provided in lieu of a physical residential address. The sexual predator shall produce his or her passport, if he or she has a passport, and, if he or she is an alien, shall produce or provide information about documents establishing his or her immigration status. The sexual predator shall also provide information about any professional licenses he or she has.

a. Any change that occurs after the sexual predator registers in person at the sheriff's office as provided in this subparagraph in any of the following information related to the sexual predator must be reported as provided in paragraphs (g), (i), and (j): permanent, temporary, or transient residence; name; electronic mail addresses; Internet identifiers and each Internet identifier's corresponding website home page or application software name; home telephone numbers and cellular telephone numbers; employment information; and status at an institution of higher education.

b.~~a.~~ If the sexual predator's place of residence is a motor vehicle, trailer, mobile home, or manufactured home, as defined in chapter 320, the sexual predator shall also provide to the department written notice of the vehicle identification number; the license tag number; the registration number; and a description, including color scheme, of the motor vehicle, trailer, mobile home, or manufactured home. If a sexual predator's place of residence is a vessel, live-aboard vessel, or houseboat, as defined in chapter 327, the sexual predator shall also provide to the department written notice of the hull identification number; the manufacturer's serial number; the name of the vessel, live-aboard vessel, or houseboat; the registration number; and a description, including color scheme, of the vessel, live-aboard vessel, or houseboat.

c.~~b.~~ If the sexual predator is enrolled or employed, whether for compensation or as a volunteer, at an institution of higher education in this state, the sexual predator shall also provide to the department ~~pursuant to subparagraph (g)5.~~ the name, address, and county of each institution, including each campus attended, and the sexual predator's enrollment, volunteer, or employment status. The sheriff, the Department of Corrections, or the Department of Juvenile Justice shall promptly notify each institution of higher education of the sexual predator's presence and any change in the sexual predator's enrollment, volunteer, or employment status.

d.~~c.~~ A sexual predator shall report in person to the sheriff's office within 48 hours after any change in vehicles owned to report those vehicle information changes.

2. Any other information determined necessary by the

department, including criminal and corrections records; nonprivileged personnel and treatment records; and evidentiary genetic markers when available.

(e)1. If the sexual predator is not in the custody or control of, or under the supervision of, the Department of Corrections or is not in the custody of a private correctional facility, the sexual predator shall register in person:

a. At the sheriff's office in the county where he or she establishes or maintains a residence within 48 hours after establishing or maintaining a residence in this state; and

b. At the sheriff's office in the county where he or she was designated a sexual predator by the court within 48 hours after such finding is made.

2. Any change that occurs after the sexual predator registers in person at the sheriff's office as provided in subparagraph 1. in any of the following information related to ~~in~~ the sexual predator must be reported as provided in paragraphs (g), (i), and (j): ~~predator's~~ permanent, temporary, or transient residence; name; vehicles owned; electronic mail addresses; Internet identifiers and each Internet identifier's corresponding website home page or application software name; home telephone numbers and cellular telephone numbers; ~~and~~ employment information; and ~~any~~ change in status at an institution of higher education~~, required to be provided pursuant to subparagraph (g)5., after the sexual predator registers in person at the sheriff's office as provided in subparagraph 1. must be accomplished in the manner provided in paragraphs (g), (i), and (j)~~. When a sexual predator registers with the sheriff's office, the sheriff shall take a photograph,

a set of fingerprints, and palm prints of the predator and forward the photographs, palm prints, and fingerprints to the department, along with the information that the predator is required to provide pursuant to this section.

(g)1. Each time a sexual predator's driver license or identification card is subject to renewal, and, without regard to the status of the predator's driver license or identification card, within 48 hours after any change of the predator's residence or change in the predator's name by reason of marriage or other legal process, the predator shall report in person to a driver license office and is subject to the requirements specified in paragraph (f). The Department of Highway Safety and Motor Vehicles shall forward to the department and to the Department of Corrections all photographs and information provided by sexual predators. Notwithstanding the restrictions set forth in s. 322.142, the Department of Highway Safety and Motor Vehicles may release a reproduction of a color-photograph or digital-image license to the Department of Law Enforcement for purposes of public notification of sexual predators as provided in this section. A sexual predator who is unable to secure or update a driver license or an identification card with the Department of Highway Safety and Motor Vehicles as provided in paragraph (f) and this paragraph shall also report any change of the predator's residence or change in the predator's name by reason of marriage or other legal process within 48 hours after the change to the sheriff's office in the county where the predator resides or is located and provide confirmation that he or she reported such information to the Department of Highway Safety and Motor Vehicles. The reporting requirements under this

subparagraph do not negate the requirement for a sexual predator to obtain a Florida driver license or identification card as required by this section.

2.a. A sexual predator who vacates a permanent, temporary, or transient residence and fails to establish or maintain another permanent, temporary, or transient residence shall, within 48 hours after vacating the permanent, temporary, or transient residence, report in person to the sheriff's office of the county in which he or she is located. The sexual predator shall specify the date upon which he or she intends to or did vacate such residence. The sexual predator shall provide or update all of the registration information required under paragraph (a). The sexual predator shall provide an address for the residence or other place that he or she is or will be located during the time in which he or she fails to establish or maintain a permanent or temporary residence.

b. A sexual predator shall report in person at the sheriff's office in the county in which he or she is located within 48 hours after establishing a transient residence and thereafter must report in person every 30 days to the sheriff's office in the county in which he or she is located while maintaining a transient residence. The sexual predator must provide the addresses and locations where he or she maintains a transient residence. Each sheriff's office shall establish procedures for reporting transient residence information and provide notice to transient registrants to report transient residence information as required in this sub-subparagraph. Reporting to the sheriff's office as required by this sub-subparagraph does not exempt registrants from any reregistration

requirement. The sheriff may coordinate and enter into agreements with police departments and other governmental entities to facilitate additional reporting sites for transient residence registration required in this sub-subparagraph. The sheriff's office shall, within 2 business days, electronically submit and update all information provided by the sexual predator to the department.

3. A sexual predator who remains at a permanent, temporary, or transient residence after reporting his or her intent to vacate such residence shall, within 48 hours after the date upon which the predator indicated he or she would or did vacate such residence, report in person to the sheriff's office to which he or she reported pursuant to subparagraph 2. for the purpose of reporting his or her address at such residence. When the sheriff receives the report, the sheriff shall promptly convey the information to the department. An offender who makes a report as required under subparagraph 2. but fails to make a report as required under this subparagraph commits a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

4. The failure of a sexual predator who maintains a transient residence to report in person to the sheriff's office every 30 days as required by sub-subparagraph 2.b. is punishable as provided in subsection (10).

5.a. A sexual predator shall register all electronic mail addresses and Internet identifiers, and each Internet identifier's corresponding website home page or application software name, with the department through the department's online system or in person at the sheriff's office within 48

hours after ~~before~~ using such electronic mail addresses and Internet identifiers. If the sexual predator is in the custody or control, or under the supervision, of the Department of Corrections, he or she must report all electronic mail addresses and Internet identifiers, and each Internet identifier's corresponding website home page or application software name, to the Department of Corrections before using such electronic mail addresses or Internet identifiers. If the sexual predator is in the custody or control, or under the supervision, of the Department of Juvenile Justice, he or she must report all electronic mail addresses and Internet identifiers, and each Internet identifier's corresponding website home page or application software name, to the Department of Juvenile Justice before using such electronic mail addresses or Internet identifiers.

b. A sexual predator shall register all changes to home telephone numbers and cellular telephone numbers, including added and deleted numbers, all changes to employment information, and all changes in status related to enrollment, volunteering, or employment at institutions of higher education, through the department's online system; in person at the sheriff's office; in person at the Department of Corrections if the sexual predator is in the custody or control, or under the supervision, of the Department of Corrections; or in person at the Department of Juvenile Justice if the sexual predator is in the custody or control, or under the supervision, of the Department of Juvenile Justice. All changes required to be reported in this sub-subparagraph shall be reported within 48 hours after the change.

c. The department shall establish an online system through which sexual predators may securely access, submit, and update all electronic mail addresses; ~~address and~~ Internet identifiers and each Internet identifier's corresponding website home page or application software name; ~~identifier information,~~ home telephone numbers and cellular telephone numbers;~~,~~ employment information;~~,~~ and institution of higher education information.

(i) A sexual predator who intends to establish a permanent, temporary, or transient residence in another state or jurisdiction other than the State of Florida shall report in person to the sheriff of the county of current residence within 48 hours before the date he or she intends to leave this state to establish residence in another state or jurisdiction or at least 21 days before the date he or she intends to travel if the intended residence of 5 days or more is outside of the United States. Any travel that is not known by the sexual predator 21 days before the departure date must be reported to the sheriff's office as soon as possible before departure. The sexual predator shall provide to the sheriff the address, municipality, county, state, and country of intended residence. For international travel, the sexual predator shall also provide travel information, including, but not limited to, expected departure and return dates, flight number, airport of departure, cruise port of departure, or any other means of intended travel. The sheriff shall promptly provide to the department the information received from the sexual predator. The department shall notify the statewide law enforcement agency, or a comparable agency, in the intended state, jurisdiction, or country of residence of the sexual predator's intended residence. The failure of a sexual

predator to provide his or her intended place of residence is punishable as provided in subsection (10).

(k)1. The department is responsible for the online maintenance of current information regarding each registered sexual predator. The department shall maintain hotline access for state, local, and federal law enforcement agencies to obtain instantaneous locator file and offender characteristics information on all released registered sexual predators for purposes of monitoring, tracking, and prosecution. The photograph, palm prints, and fingerprints do not have to be stored in a computerized format.

2. The department's sexual predator registration list, containing the information described in subparagraph (a)1., is a public record, unless otherwise made exempt or confidential and exempt from s. 119.07(1) and s. 24(a) of Art. I of the State Constitution. The department may disseminate this public information by any means deemed appropriate, including operating a toll-free telephone number for this purpose. When the department provides information regarding a registered sexual predator to the public, department personnel shall advise the person making the inquiry that positive identification of a person believed to be a sexual predator cannot be established unless a fingerprint comparison is made, and that it is illegal to use public information regarding a registered sexual predator to facilitate the commission of a crime.

3. The department shall adopt guidelines as necessary regarding the registration of sexual predators and the dissemination of information regarding sexual predators as required by this section.

(8) VERIFICATION.—The department and the Department of Corrections shall implement a system for verifying the addresses of sexual predators. The system must be consistent with the federal Adam Walsh Child Protection and Safety Act of 2006 and any other federal standards applicable to such verification or required to be met as a condition for the receipt of federal funds by the state. The Department of Corrections shall verify the addresses of sexual predators who are not incarcerated but who reside in the community under the supervision of the Department of Corrections and shall report to the department any failure by a sexual predator to comply with registration requirements. County and local law enforcement agencies, in conjunction with the department, shall verify the addresses of sexual predators who are not under the care, custody, control, or supervision of the Department of Corrections, and may verify the addresses of sexual predators who are under the care, custody, control, or supervision of the Department of Corrections. Local law enforcement agencies shall report to the department any failure by a sexual predator to comply with registration requirements.

(a) A sexual predator shall report in person each year during the month of the sexual predator's birthday and during every third month thereafter to the sheriff's office in the county in which he or she resides or is otherwise located to reregister. The sheriff's office may determine the appropriate times and days for reporting by the sexual predator, which must be consistent with the reporting requirements of this paragraph. Reregistration must include any changes to the following information:

1. Name; social security number; age; race; sex; date of birth; height; weight; tattoos or other identifying marks; hair and eye color; address of any permanent residence and address of any current temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence within the state including the~~r~~ address, location or description of the transient residences, and dates of any current or known future temporary residence within the state or out of state; all electronic mail addresses; all ~~or~~ Internet identifiers and each Internet identifier's corresponding website home page or application software name ~~required to be provided pursuant to subparagraph (6)(g)5.~~; all home telephone numbers and cellular telephone numbers ~~required to be provided pursuant to subparagraph (6)(g)5.~~; date and place of any employment ~~required to be provided pursuant to subparagraph (6)(g)5.~~; the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; fingerprints; palm prints; and photograph. A post office box may not be provided in lieu of a physical residential address. The sexual predator shall also produce his or her passport, if he or she has a passport, and, if he or she is an alien, shall produce or provide information about documents establishing his or her immigration status. The sexual predator shall also provide information about any professional licenses he or she has.

2. If the sexual predator is enrolled or employed, whether for compensation or as a volunteer, at an institution of higher education in this state, the sexual predator shall also provide to the department the name, address, and county of each

institution, including each campus attended, and the sexual predator's enrollment, volunteer, or employment status.

3. If the sexual predator's place of residence is a motor vehicle, trailer, mobile home, or manufactured home, as defined in chapter 320, the sexual predator shall also provide the vehicle identification number; the license tag number; the registration number; and a description, including color scheme, of the motor vehicle, trailer, mobile home, or manufactured home. If the sexual predator's place of residence is a vessel, live-aboard vessel, or houseboat, as defined in chapter 327, the sexual predator shall also provide the hull identification number; the manufacturer's serial number; the name of the vessel, live-aboard vessel, or houseboat; the registration number; and a description, including color scheme, of the vessel, live-aboard vessel, or houseboat.

(10) PENALTIES.—

(a) Except as otherwise specifically provided, a sexual predator who fails to register; who fails, after registration, to maintain, acquire, or renew a driver license or an identification card; who fails to provide required location information; who fails to provide~~,~~ electronic mail addresses ~~address information before use~~, Internet identifiers, and each Internet identifier's corresponding website home page or application software name; who fails to provide ~~identifier information before use,~~ all home telephone numbers and cellular telephone numbers, employment information, change in status at an institution of higher education, or change-of-name information; who fails to make a required report in connection with vacating a permanent residence; who fails to reregister as

required; who fails to respond to any address verification correspondence from the department within 3 weeks of the date of the correspondence; who knowingly provides false registration information by act or omission; or who otherwise fails, by act or omission, to comply with the requirements of this section commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(e) An arrest on charges of failure to register, the service of an information or a complaint for a violation of this section, or an arraignment on charges for a violation of this section constitutes actual notice of the duty to register when the predator has been provided and advised of his or her statutory obligation to register under subsection (6). A sexual predator's failure to immediately register as required by this section following such arrest, service, or arraignment constitutes grounds for a subsequent charge of failure to register. A sexual predator charged with the crime of failure to register who asserts, or intends to assert, a lack of notice of the duty to register as a defense to a charge of failure to register shall immediately register as required by this section. A sexual predator who is charged with a subsequent failure to register may not assert the defense of a lack of notice of the duty to register.

Section 2. Paragraph (e) of subsection (1) of section 943.0435, Florida Statutes, is republished, and subsection (2), paragraph (e) of subsection (4), and paragraph (c) of subsection (14) of that section, are amended to read:

943.0435 Sexual offenders required to register with the department; penalty.—

(1) As used in this section, the term:

(e) "Internet identifier" has the same meaning as provided in s. 775.21.

(2) Upon initial registration, a sexual offender shall:

(a) Report in person at the sheriff's office:

1. In the county in which the offender establishes or maintains a permanent, temporary, or transient residence within 48 hours after:

a. Establishing permanent, temporary, or transient residence in this state; or

b. Being released from the custody, control, or supervision of the Department of Corrections or from the custody of a private correctional facility; or

2. In the county where he or she was convicted within 48 hours after being convicted for a qualifying offense for registration under this section if the offender is not in the custody or control of, or under the supervision of, the Department of Corrections, or is not in the custody of a private correctional facility.

Any change in the information required to be provided pursuant to paragraph (b), including, but not limited to, any change in the sexual offender's permanent, temporary, or transient residence; name; electronic mail addresses; Internet identifiers and each Internet identifier's corresponding website home page or application software name; home telephone numbers and cellular telephone numbers; ~~and~~ employment information; and any change in status at an institution of higher education~~, required to be provided pursuant to paragraph (4)(c),~~ after the sexual

offender reports in person at the sheriff's office must be reported ~~accomplished~~ in the manner provided in subsections (4), (7), and (8).

(b) Provide his or her name; date of birth; social security number; race; sex; height; weight; hair and eye color; tattoos or other identifying marks; fingerprints; palm prints; photograph; employment information ~~required to be provided pursuant to paragraph (4)(c)~~; address of permanent or legal residence or address of any current temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence within the state, address, location or description, and dates of any current or known future temporary residence within the state or out of state; the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; ~~all~~ home telephone numbers and cellular telephone numbers ~~required to be provided pursuant to paragraph (4)(c)~~; ~~all~~ electronic mail addresses; ~~and all~~ Internet identifiers and each Internet identifier's corresponding website home page or application software name ~~required to be provided pursuant to paragraph (4)(c)~~; date and place of each conviction; and a brief description of the crime or crimes committed by the offender. A post office box may not be provided in lieu of a physical residential address. The sexual offender shall also produce his or her passport, if he or she has a passport, and, if he or she is an alien, shall produce or provide information about documents establishing his or her immigration status. The sexual offender shall also provide information about any professional licenses he or she has.

1. If the sexual offender's place of residence is a motor vehicle, trailer, mobile home, or manufactured home, as defined in chapter 320, the sexual offender shall also provide to the department through the sheriff's office written notice of the vehicle identification number; the license tag number; the registration number; and a description, including color scheme, of the motor vehicle, trailer, mobile home, or manufactured home. If the sexual offender's place of residence is a vessel, live-aboard vessel, or houseboat, as defined in chapter 327, the sexual offender shall also provide to the department written notice of the hull identification number; the manufacturer's serial number; the name of the vessel, live-aboard vessel, or houseboat; the registration number; and a description, including color scheme, of the vessel, live-aboard vessel, or houseboat.

2. If the sexual offender is enrolled or employed, whether for compensation or as a volunteer, at an institution of higher education in this state, the sexual offender shall also provide to the department ~~pursuant to paragraph (4)(c)~~ the name, address, and county of each institution, including each campus attended, and the sexual offender's enrollment, volunteer, or employment status. The sheriff, the Department of Corrections, or the Department of Juvenile Justice shall promptly notify each institution of higher education of the sexual offender's presence and any change in the sexual offender's enrollment, volunteer, or employment status.

3. A sexual offender shall report in person to the sheriff's office within 48 hours after any change in vehicles owned to report those vehicle information changes.

(c) Provide any other information determined necessary by

the department, including criminal and corrections records; nonprivileged personnel and treatment records; and evidentiary genetic markers, when available.

When a sexual offender reports at the sheriff's office, the sheriff shall take a photograph, a set of fingerprints, and palm prints of the offender and forward the photographs, palm prints, and fingerprints to the department, along with the information provided by the sexual offender. The sheriff shall promptly provide to the department the information received from the sexual offender.

(4)

(e)1. A sexual offender shall register all electronic mail addresses and Internet identifiers, and each Internet identifier's corresponding website home page or application software name, with the department through the department's online system or in person at the sheriff's office within 48 hours after ~~before~~ using such electronic mail addresses and Internet identifiers. If the sexual offender is in the custody or control, or under the supervision, of the Department of Corrections, he or she must report all electronic mail addresses and Internet identifiers, and each Internet identifier's corresponding website home page or application software name, to the Department of Corrections before using such electronic mail addresses or Internet identifiers. If the sexual offender is in the custody or control, or under the supervision, of the Department of Juvenile Justice, he or she must report all electronic mail addresses and Internet identifiers, and each Internet identifier's corresponding website home page or

application software name, to the Department of Juvenile Justice before using such electronic mail addresses or Internet identifiers.

2. A sexual offender shall register all changes to home telephone numbers and cellular telephone numbers, including added and deleted numbers, all changes to employment information, and all changes in status related to enrollment, volunteering, or employment at institutions of higher education, through the department's online system; in person at the sheriff's office; in person at the Department of Corrections if the sexual offender is in the custody or control, or under the supervision, of the Department of Corrections; or in person at the Department of Juvenile Justice if the sexual offender is in the custody or control, or under the supervision, of the Department of Juvenile Justice. All changes required to be reported under this subparagraph must be reported within 48 hours after the change.

3. The department shall establish an online system through which sexual offenders may securely access, submit, and update all changes in status to electronic mail addresses; ~~address and~~ Internet identifiers and each Internet identifier's corresponding website home page or application software name; ~~identifier information,~~ home telephone numbers and cellular telephone numbers;~~,~~ employment information;~~,~~ and institution of higher education information.

(14)

(c) The sheriff's office may determine the appropriate times and days for reporting by the sexual offender, which must be consistent with the reporting requirements of this

subsection. Reregistration must include any changes to the following information:

1. Name; social security number; age; race; sex; date of birth; height; weight; tattoos or other identifying marks; hair and eye color; address of any permanent residence and address of any current temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence within the state; address, location or description, and dates of any current or known future temporary residence within the state or out of state; all electronic mail addresses or Internet identifiers and each Internet identifier's corresponding website home page or application software name ~~required to be provided pursuant to paragraph (4)(c)~~; all home telephone numbers and cellular telephone numbers ~~required to be provided pursuant to paragraph (4)(c)~~; employment information ~~required to be provided pursuant to paragraph (4)(c)~~; the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; fingerprints; palm prints; and photograph. A post office box may not be provided in lieu of a physical residential address. The sexual offender shall also produce his or her passport, if he or she has a passport, and, if he or she is an alien, shall produce or provide information about documents establishing his or her immigration status. The sexual offender shall also provide information about any professional licenses he or she has.

2. If the sexual offender is enrolled or employed, whether for compensation or as a volunteer, at an institution of higher education in this state, the sexual offender shall also provide

to the department the name, address, and county of each institution, including each campus attended, and the sexual offender's enrollment, volunteer, or employment status.

3. If the sexual offender's place of residence is a motor vehicle, trailer, mobile home, or manufactured home, as defined in chapter 320, the sexual offender shall also provide the vehicle identification number; the license tag number; the registration number; and a description, including color scheme, of the motor vehicle, trailer, mobile home, or manufactured home. If the sexual offender's place of residence is a vessel, live-aboard vessel, or houseboat, as defined in chapter 327, the sexual offender shall also provide the hull identification number; the manufacturer's serial number; the name of the vessel, live-aboard vessel, or houseboat; the registration number; and a description, including color scheme, of the vessel, live-aboard vessel, or houseboat.

4. Any sexual offender who fails to report in person as required at the sheriff's office, who fails to respond to any address verification correspondence from the department within 3 weeks of the date of the correspondence, who fails to report all electronic mail addresses and all Internet identifiers<u>, and each Internet identifier's corresponding website home page or application software name</u> ~~before use~~, or who knowingly provides false registration information by act or omission commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 3. For the purpose of incorporating the amendment made by this act to section 775.21, Florida Statutes, in a reference thereto, subsection (2) of section 943.0437, Florida

Statutes, is reenacted to read:

943.0437 Commercial social networking websites.—

(2) The department may provide information relating to electronic mail addresses and Internet identifiers, as defined in s. 775.21, maintained as part of the sexual offender registry to commercial social networking websites or third parties designated by commercial social networking websites. The commercial social networking website may use this information for the purpose of comparing registered users and screening potential users of the commercial social networking website against the list of electronic mail addresses and Internet identifiers provided by the department.

Section 4. For the purpose of incorporating the amendment made by this act to section 775.21, Florida Statutes, in a reference thereto, paragraph (c) of subsection (1) of section 944.606, Florida Statutes, is reenacted to read:

944.606 Sexual offenders; notification upon release.—

(1) As used in this section, the term:

(c) "Internet identifier" has the same meaning as provided in s. 775.21.

Section 5. For the purpose of incorporating the amendment made by this act to section 775.21, Florida Statutes, in a reference thereto, paragraph (e) of subsection (1) of section 944.607, Florida Statutes, is reenacted to read:

944.607 Notification to Department of Law Enforcement of information on sexual offenders.—

(1) As used in this section, the term:

(e) "Internet identifier" has the same meaning as provided in s. 775.21.

Section 6. For the purpose of incorporating the amendment made by this act to section 775.21, Florida Statutes, in a reference thereto, paragraph (c) of subsection (1) of section 985.481, Florida Statutes, is reenacted to read:

985.481 Sexual offenders adjudicated delinquent; notification upon release.—

(1) As used in this section:

(c) "Internet identifier" has the same meaning as provided in s. 775.21.

Section 7. For the purpose of incorporating the amendment made by this act to section 775.21, Florida Statutes, in a reference thereto, paragraph (e) of subsection (1) of section 985.4815, Florida Statutes, is reenacted to read:

985.4815 Notification to Department of Law Enforcement of information on juvenile sexual offenders.—

(1) As used in this section, the term:

(e) "Internet identifier" has the same meaning as provided in s. 775.21.

Section 8. For the purpose of incorporating the amendment made by this act to section 943.0435, Florida Statutes, in a reference thereto, paragraph (a) of subsection (3) of section 944.606, Florida Statutes, is reenacted to read:

944.606 Sexual offenders; notification upon release.—

(3)(a) The department shall provide information regarding any sexual offender who is being released after serving a period of incarceration for any offense, as follows:

1. The department shall provide: the sexual offender's name, any change in the offender's name by reason of marriage or other legal process, and any alias, if known; the correctional

facility from which the sexual offender is released; the sexual offender's social security number, race, sex, date of birth, height, weight, and hair and eye color; tattoos or other identifying marks; address of any planned permanent residence or temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence within the state; address, location or description, and dates of any known future temporary residence within the state or out of state; date and county of sentence and each crime for which the offender was sentenced; a copy of the offender's fingerprints, palm prints, and a digitized photograph taken within 60 days before release; the date of release of the sexual offender; all electronic mail addresses and all Internet identifiers required to be provided pursuant to s. 943.0435(4)(e); employment information, if known, provided pursuant to s. 943.0435(4)(e); all home telephone numbers and cellular telephone numbers required to be provided pursuant to s. 943.0435(4)(e); information about any professional licenses the offender has, if known; and passport information, if he or she has a passport, and, if he or she is an alien, information about documents establishing his or her immigration status. The department shall notify the Department of Law Enforcement if the sexual offender escapes, absconds, or dies. If the sexual offender is in the custody of a private correctional facility, the facility shall take the digitized photograph of the sexual offender within 60 days before the sexual offender's release and provide this photograph to the Department of Corrections and also place it in the sexual offender's file. If the sexual offender is in the custody of a

local jail, the custodian of the local jail shall register the offender within 3 business days after intake of the offender for any reason and upon release, and shall notify the Department of Law Enforcement of the sexual offender's release and provide to the Department of Law Enforcement the information specified in this paragraph and any information specified in subparagraph 2. that the Department of Law Enforcement requests.

2. The department may provide any other information deemed necessary, including criminal and corrections records, nonprivileged personnel and treatment records, when available.

Section 9. For the purpose of incorporating the amendment made by this act to section 943.0435, Florida Statutes, in references thereto, paragraph (a) of subsection (4), subsection (9), and paragraph (c) of subsection (13) of section 944.607, Florida Statutes, are reenacted to read:

944.607 Notification to Department of Law Enforcement of information on sexual offenders.—

(4) A sexual offender, as described in this section, who is under the supervision of the Department of Corrections but is not incarcerated shall register with the Department of Corrections within 3 business days after sentencing for a registrable offense and otherwise provide information as required by this subsection.

(a) The sexual offender shall provide his or her name; date of birth; social security number; race; sex; height; weight; hair and eye color; tattoos or other identifying marks; all electronic mail addresses and Internet identifiers required to be provided pursuant to s. 943.0435(4)(e); employment information required to be provided pursuant to s.

943.0435(4)(e); all home telephone numbers and cellular telephone numbers required to be provided pursuant to s. 943.0435(4)(e); the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; permanent or legal residence and address of temporary residence within the state or out of state while the sexual offender is under supervision in this state, including any rural route address or post office box; if no permanent or temporary address, any transient residence within the state; and address, location or description, and dates of any current or known future temporary residence within the state or out of state. The sexual offender shall also produce his or her passport, if he or she has a passport, and, if he or she is an alien, shall produce or provide information about documents establishing his or her immigration status. The sexual offender shall also provide information about any professional licenses he or she has. The Department of Corrections shall verify the address of each sexual offender in the manner described in ss. 775.21 and 943.0435. The department shall report to the Department of Law Enforcement any failure by a sexual predator or sexual offender to comply with registration requirements.

(9) A sexual offender, as described in this section, who is under the supervision of the Department of Corrections but who is not incarcerated shall, in addition to the registration requirements provided in subsection (4), register and obtain a distinctive driver license or identification card in the manner provided in s. 943.0435(3), (4), and (5), unless the sexual offender is a sexual predator, in which case he or she shall register and obtain a distinctive driver license or

identification card as required under s. 775.21. A sexual offender who fails to comply with the requirements of s. 943.0435 is subject to the penalties provided in s. 943.0435(9).

(13)

(c) The sheriff's office may determine the appropriate times and days for reporting by the sexual offender, which must be consistent with the reporting requirements of this subsection. Reregistration must include any changes to the following information:

1. Name; social security number; age; race; sex; date of birth; height; weight; tattoos or other identifying marks; hair and eye color; address of any permanent residence and address of any current temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence; address, location or description, and dates of any current or known future temporary residence within the state or out of state; all electronic mail addresses and Internet identifiers required to be provided pursuant to s. 943.0435(4)(e); all home telephone numbers and cellular telephone numbers required to be provided pursuant to s. 943.0435(4)(e); employment information required to be provided pursuant to s. 943.0435(4)(e); the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; fingerprints; palm prints; and photograph. A post office box may not be provided in lieu of a physical residential address. The sexual offender shall also produce his or her passport, if he or she has a passport, and, if he or she is an alien, shall produce or provide information about documents establishing his or her immigration status. The

sexual offender shall also provide information about any professional licenses he or she has.

2. If the sexual offender is enrolled or employed, whether for compensation or as a volunteer, at an institution of higher education in this state, the sexual offender shall also provide to the department the name, address, and county of each institution, including each campus attended, and the sexual offender's enrollment, volunteer, or employment status.

3. If the sexual offender's place of residence is a motor vehicle, trailer, mobile home, or manufactured home, as defined in chapter 320, the sexual offender shall also provide the vehicle identification number; the license tag number; the registration number; and a description, including color scheme, of the motor vehicle, trailer, mobile home, or manufactured home. If the sexual offender's place of residence is a vessel, live-aboard vessel, or houseboat, as defined in chapter 327, the sexual offender shall also provide the hull identification number; the manufacturer's serial number; the name of the vessel, live-aboard vessel, or houseboat; the registration number; and a description, including color scheme, of the vessel, live-aboard vessel or houseboat.

4. Any sexual offender who fails to report in person as required at the sheriff's office, who fails to respond to any address verification correspondence from the department within 3 weeks of the date of the correspondence, who fails to report all electronic mail addresses or Internet identifiers before use, or who knowingly provides false registration information by act or omission commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 10. For the purpose of incorporating the amendment made by this act to section 943.0435, Florida Statutes, in a reference thereto, paragraph (a) of subsection (3) of section 985.481, Florida Statutes, is reenacted to read:

985.481 Sexual offenders adjudicated delinquent; notification upon release.—

(3)(a) The department shall provide information regarding any sexual offender who is being released after serving a period of residential commitment under the department for any offense, as follows:

1. The department shall provide the sexual offender's name, any change in the offender's name by reason of marriage or other legal process, and any alias, if known; the correctional facility from which the sexual offender is released; the sexual offender's social security number, race, sex, date of birth, height, weight, and hair and eye color; tattoos or other identifying marks; the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; address of any planned permanent residence or temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence within the state; address, location or description, and dates of any known future temporary residence within the state or out of state; date and county of disposition and each crime for which there was a disposition; a copy of the offender's fingerprints, palm prints, and a digitized photograph taken within 60 days before release; the date of release of the sexual offender; all home telephone numbers and cellular telephone numbers required to be provided

pursuant to s. 943.0435(4)(e); all electronic mail addresses and Internet identifiers required to be provided pursuant to s. 943.0435(4)(e); information about any professional licenses the offender has, if known; and passport information, if he or she has a passport, and, if he or she is an alien, information about documents establishing his or her immigration status. The department shall notify the Department of Law Enforcement if the sexual offender escapes, absconds, or dies. If the sexual offender is in the custody of a private correctional facility, the facility shall take the digitized photograph of the sexual offender within 60 days before the sexual offender's release and also place it in the sexual offender's file. If the sexual offender is in the custody of a local jail, the custodian of the local jail shall register the offender within 3 business days after intake of the offender for any reason and upon release, and shall notify the Department of Law Enforcement of the sexual offender's release and provide to the Department of Law Enforcement the information specified in this subparagraph and any information specified in subparagraph 2. which the Department of Law Enforcement requests.

2. The department may provide any other information considered necessary, including criminal and delinquency records, when available.

Section 11. For the purpose of incorporating the amendment made by this act to section 943.0435, Florida Statutes, in references thereto, paragraph (a) of subsection (4), subsection (9), and paragraph (b) of subsection (13) of section 985.4815, Florida Statutes, are reenacted to read:

985.4815 Notification to Department of Law Enforcement of

information on juvenile sexual offenders.—

(4) A sexual offender, as described in this section, who is under the supervision of the department but who is not committed shall register with the department within 3 business days after adjudication and disposition for a registrable offense and otherwise provide information as required by this subsection.

(a) The sexual offender shall provide his or her name; date of birth; social security number; race; sex; height; weight; hair and eye color; tattoos or other identifying marks; the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; permanent or legal residence and address of temporary residence within the state or out of state while the sexual offender is in the care or custody or under the jurisdiction or supervision of the department in this state, including any rural route address or post office box; if no permanent or temporary address, any transient residence; address, location or description, and dates of any current or known future temporary residence within the state or out of state; all home telephone numbers and cellular telephone numbers required to be provided pursuant to s. 943.0435(4)(e); all electronic mail addresses and Internet identifiers required to be provided pursuant to s. 943.0435(4)(e); and the name and address of each school attended. The sexual offender shall also produce his or her passport, if he or she has a passport, and, if he or she is an alien, shall produce or provide information about documents establishing his or her immigration status. The offender shall also provide information about any professional licenses he or she has. The department shall verify the address of each sexual offender and shall report to the Department of

Law Enforcement any failure by a sexual offender to comply with registration requirements.

(9) A sexual offender, as described in this section, who is under the care, jurisdiction, or supervision of the department but who is not incarcerated shall, in addition to the registration requirements provided in subsection (4), register in the manner provided in s. 943.0435(3), (4), and (5), unless the sexual offender is a sexual predator, in which case he or she shall register as required under s. 775.21. A sexual offender who fails to comply with the requirements of s. 943.0435 is subject to the penalties provided in s. 943.0435(9).

(13)

(b) The sheriff's office may determine the appropriate times and days for reporting by the sexual offender, which must be consistent with the reporting requirements of this subsection. Reregistration must include any changes to the following information:

1. Name; social security number; age; race; sex; date of birth; height; weight; hair and eye color; tattoos or other identifying marks; fingerprints; palm prints; address of any permanent residence and address of any current temporary residence, within the state or out of state, including a rural route address and a post office box; if no permanent or temporary address, any transient residence; address, location or description, and dates of any current or known future temporary residence within the state or out of state; passport information, if he or she has a passport, and, if he or she is an alien, information about documents establishing his or her immigration status; all home telephone numbers and cellular

telephone numbers required to be provided pursuant to s. 943.0435(4)(e); all electronic mail addresses and Internet identifiers required to be provided pursuant to s. 943.0435(4)(e); name and address of each school attended; employment information required to be provided pursuant to s. 943.0435(4)(e); the make, model, color, vehicle identification number (VIN), and license tag number of all vehicles owned; and photograph. A post office box may not be provided in lieu of a physical residential address. The offender shall also provide information about any professional licenses he or she has.

2. If the sexual offender is enrolled or employed, whether for compensation or as a volunteer, at an institution of higher education in this state, the sexual offender shall also provide to the department the name, address, and county of each institution, including each campus attended, and the sexual offender's enrollment, volunteer, or employment status.

3. If the sexual offender's place of residence is a motor vehicle, trailer, mobile home, or manufactured home, as defined in chapter 320, the sexual offender shall also provide the vehicle identification number; the license tag number; the registration number; and a description, including color scheme, of the motor vehicle, trailer, mobile home, or manufactured home. If the sexual offender's place of residence is a vessel, live-aboard vessel, or houseboat, as defined in chapter 327, the sexual offender shall also provide the hull identification number; the manufacturer's serial number; the name of the vessel, live-aboard vessel, or houseboat; the registration number; and a description, including color scheme, of the vessel, live-aboard vessel, or houseboat.

4. Any sexual offender who fails to report in person as required at the sheriff's office, who fails to respond to any address verification correspondence from the department within 3 weeks after the date of the correspondence, or who knowingly provides false registration information by act or omission commits a felony of the third degree, punishable as provided in ss. 775.082, 775.083, and 775.084.

Section 12. For the purpose of incorporating the amendments made by this act to sections 775.21 and 943.0435, Florida Statutes, in references thereto, subsection (1) of section 794.056, Florida Statutes, is reenacted to read:

794.056 Rape Crisis Program Trust Fund.—

(1) The Rape Crisis Program Trust Fund is created within the Department of Health for the purpose of providing funds for rape crisis centers in this state. Trust fund moneys shall be used exclusively for the purpose of providing services for victims of sexual assault. Funds credited to the trust fund consist of those funds collected as an additional court assessment in each case in which a defendant pleads guilty or nolo contendere to, or is found guilty of, regardless of adjudication, an offense provided in s. 775.21(6) and (10)(a), (b), and (g); s. 784.011; s. 784.021; s. 784.03; s. 784.041; s. 784.045; s. 784.048; s. 784.07; s. 784.08; s. 784.081; s. 784.082; s. 784.083; s. 784.085; s. 787.01(3); s. 787.02(3); s. 787.025; s. 787.06; s. 787.07; s. 794.011; s. 794.05; s. 794.08; former s. 796.03; former s. 796.035; s. 796.04; s. 796.05; s. 796.06; s. 796.07(2)(a)-(d) and (i); s. 800.03; s. 800.04; s. 810.14; s. 810.145; s. 812.135; s. 817.025; s. 825.102; s. 825.1025; s. 827.071; s. 836.10; s. 847.0133; s. 847.0135(2); s.

847.0137; s. 847.0145; s. 943.0435(4)(c), (7), (8), (9)(a), (13), and (14)(c); or s. 985.701(1). Funds credited to the trust fund also shall include revenues provided by law, moneys appropriated by the Legislature, and grants from public or private entities.

Section 13. For the purpose of incorporating the amendments made by this act to sections 775.21 and 943.0435, Florida Statutes, in references thereto, paragraph (g) of subsection (3) of section 921.0022, Florida Statutes, is reenacted to read:

921.0022 Criminal Punishment Code; offense severity ranking chart.—

Dear Chairman Latvala,

I respectfully request you place Senate Bill 684 Internet Identifiers/SB 686 Internet Identifiers Public Records on your next available agenda.

This bill requires sexual offenders and predators to register their internet identifiers and email addresses.

I appreciate your favorable consideration.

Onward & Upward,

Dennis Baxley

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 686
INTRODUCER:	Criminal Justice Committee and Senator Baxley
SUBJECT:	Public Records/Internet Identifiers
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Erickson	Hrdlicka	CJ	**Fav/CS**
2.	Kim	Ferrin	GO	**Favorable**
3.	McAuliffe	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 686 exempts electronic mail addresses and Internet identifiers registered by sexual predators or sexual offenders and held by agencies pursuant to specified statutory authority from public disclosure. This exemption applies to records held before, on, or after the effective date of the bill. However, a law enforcement agency is not prohibited from confirming to a member of the public that an electronic mail address or Internet identifier is registered in the Florida Department of Law Enforcement sexual offender and sexual predator registry.

The bill provides that the exemption is subject to the Open Government Sunset Review Act, and stands repealed on October 2, 2022, unless reviewed and saved from repeal through reenactment by the Legislature.

The bill includes a public necessity statement as required by the Florida Constitution.

The bill does not appear to have a fiscal impact on state or local governments.

The Florida Constitution requires a two-thirds vote of the members present and voting in each house of the Legislature for final passage because it creates a new public records exemption.

This bill becomes effective at the same time that SB 684 or similar legislation takes effect.

II. Present Situation:

Florida law requires registration of any person who has been convicted or adjudicated delinquent of a specified sex offense or offenses and who meets other statutory criteria that qualify the person for designation as a sexual predator or classification as a sexual offender. The registration laws also require reregistration and provide for public and community notification of certain information about sexual predators and sexual offenders. The laws span several different chapters and numerous statutes,[1] and are implemented through the combined efforts of the Florida Department of Law Enforcement (FDLE), all Florida sheriffs, the Department of Corrections (DOC), the Department of Juvenile Justice (DJJ), the Department of Highway Safety and Motor Vehicles (DHSMV), and the Department of Children and Families (DCF).

A person is designated as a sexual predator by a court if the person:

- Has been convicted of a current qualifying capital, life, or first degree felony sex offense committed on or after October 1, 1993;[2]
- Has been convicted of a current qualifying sex offense committed on or after October 1, 1993, and has a prior conviction for a qualifying sex offense; or
- Was found to be a sexually violent predator in a civil commitment proceeding.[3]

A person is classified as a sexual offender if the person:

- Has been convicted of a qualifying sex offense and has been released on or after October 1, 1997, (the date the modern registry became effective), from the sanction imposed for that offense;
- Establishes or maintains a Florida residence and is subject to registration or community or public notification in another state or jurisdiction or is in the custody or control of, or under the supervision of, another state or jurisdiction as a result of a conviction for a qualifying sex offense; or
- On or after July 1, 2007, has been adjudicated delinquent of a qualifying sexual battery or lewd offense committed when the person was 14 years of age or older.[4]

Sexual predators and sexual offenders are required to report certain information, including electronic mail addresses[5] and Internet identifiers.[6] The FDLE may provide information relating to electronic mail addresses and Internet identifiers maintained as part of the sexual offender

[1] Sections 775.21-775.25, 943.043-943.0437, 944.606-944.607, and 985.481-985.4815, F.S.

[2] Examples of qualifying sex offenses are sexual battery by an adult on a child under 12 years of age (s. 794.011(2)(a), F.S.) and lewd battery by an adult on a child 12 years of age or older but under 16 years of age (s. 800.04(4)(a), F.S.).

[3] Section s. 775.21(4) and (5), F.S. The Jimmy Ryce Involuntary Civil Commitment for Sexually Violent Predators' Treatment and Care Act, part V, ch. 394, F.S., provides for the civil confinement of a group of sexual offenders who, due to their criminal history and the presence of mental abnormality, are found likely to engage in future acts of sexual violence if they are not confined in a secure facility for long-term control, care, and treatment.

[4] Sections 943.0435(1)(h) and 985.4815(1)(h), F.S. Sections 944.606(1)(f) and 944.607(1)(f), F.S., which address sexual offenders in the custody of or under the supervision of the Department of Corrections, also define the term "sexual offender."

[5] An "electronic mail address" is defined in s. 775.21(2)(g), F.S., as having the same meaning as provided in s. 668.602, F.S. Section 668.602(6), F.S., defines an "electronic mail address" as a destination, commonly expressed as a string of characters, to which electronic mail may be sent or delivered.

[6] Requirements to report electronic mail addresses and Internet identifiers and changes in this information are in: s. 775.21(6)(a), (e), and (g) and (8), F.S.; s. 943.0435(2)(a), (4)(e), and (14)(c), F.S.; s. 944.607(4)(a) and (13)(c), F.S.; and s. 985.4815(4)(a) and (13)(b), F.S.

registry to commercial social networking websites[7] or third parties designated by commercial social networking websites.[8] The commercial social networking website may use this information for the purpose of comparing registered users and screening potential users of the commercial social networking website against the list of electronic mail addresses and Internet identifiers provided by the FDLE.[9]

Requirements for in-person registration and reregistration are similar for sexual predators and sexual offenders,[10] but the frequency of reregistration may differ.[11] Registration requirements may also differ based on a special status, e.g., the sexual predator or sexual offender is in the DOC's control or custody, under DOC or DJJ supervision, or in residential commitment under the DJJ.[12]

The FDLE, through its agency website, provides a searchable database that contains information about sexual predators and sexual offenders.[13] Further, local law enforcement agencies provide access to this information, typically through a link to the state public registry webpage.

Florida's registry laws meet minimum requirements of the federal Sex Offender Registration and Notification Act (SORNA), which is Title I of the Adam Walsh Protection and Safety Act of 2006 (AWA).[14] The SORNA attempts to make all states' laws uniform with respect to requirements (or minimum standards) that Congress judged to be necessary to be included in states' registry laws. The U.S. Department of Justice (DOJ) maintains the Dru Sjodin National

[7] For the purpose of s. 943.0437, F.S., the term "commercial social networking website" means a commercially operated Internet website that allows users to create web pages or profiles that provide information about themselves and are available publicly or to other users and that offers a mechanism for communication with other users, such as a forum, chat room, electronic mail, or instant messenger. Section 943.0437(1), F.S.
[8] Section 943.0437(2), F.S.
[9] *Id.*
[10] Sexual predator reporting requirements are in s. 775.21(6) and (8), F.S. Sexual offender reporting requirements are in ss. 943.0435(2-4), (7-8), and (14), 944.607(4), (9), and (13), and 985.4815(4), (9), and (13), F.S.
[11] A sexual predator is required to reregister each year during the month of the predator's birthday and during every third month thereafter. Section 775.21(8), F.S. A sexual offender convicted of any listed offense in s. 943.0435(14)(b), F.S., must reregister in the same manner as a sexual predator. Any other sex offender must reregister each year during the month of the offender's birthday and during the sixth month following the offender's birth month. Section 943.0435(14)(a), F.S.
[12] *See* footnote 10.
[13] The FDLE is the central repository for registration information. The department also maintains the state public registry and ensures Florida's compliance with federal laws. The Florida sheriffs handle in-person registration and reregistration. "About Us" (updated October 1, 2016), Florida Department of Law Enforcement, *available at* http://offender.fdle.state.fl.us/offender/About.jsp (last visited on March 13, 2017). The FDLE maintains a database that allows members of the public to search for sexual offenders and sexual predators through a variety of search options, including name, neighborhood, and enrollment, employment, or volunteer status at a institute of higher education. Members of the public may also check whether an electronic mail address or Internet identifier belongs to a registered sexual offender or sexual predator. Offender searches and other information may be accessed from "Florida Sexual Offenders and Predators," Florida Department of Law Enforcement, *available* at http://offender.fdle.state.fl.us/offender/Search.jsp (last visited on March 13, 2017).
[14] 42 U.S.C. Sections 16911 *et seq.* The Department of Justice issued guidelines for the implementation of the SORNA. The final guidelines (July 2008) and supplemental guidelines (January 11, 2011) may be accessed at "Guidelines," Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking (SMART), Office of Justice Programs, U.S. Department of Justice, *available at* https://ojp.gov/smart/guidelines.htm (last visited on March 13, 2017).

Sex Offender Public Website (NSOPW).[15] States may choose not to substantially implement the SORNA, but the AWA penalizes noncompliance by partially reducing Byrne Justice Assistance Grant funding.[16] The DOJ has determined that Florida has substantially implemented the SORNA.[17]

Preliminary Injunction Precluding Enforcement of the Current Definition of Internet Identifier

As previously noted, sexual predators and sexual offenders are required to report certain information, including Internet identifiers. The requirement to report Internet identifiers was created by the Legislature in 2014.[18] In 2016, the Legislature modified the original definition of "Internet identifier."[19] This modified definition, which was to take effect on October 1, 2016,[20] expanded the original definition to include Internet identifiers associated with a website, URL[21] or software applications.

Section 775.21(2)(j), F.S., provides that an "Internet identifier" includes, but is not limited to, all websites, URLs and application software mobile or nonmobile, used for Internet communication, including anonymous communication, through electronic mail, chat, instant messages, social networking, social gaming, or other similar programs and all corresponding usernames, logins, screen names, and screen identifiers associated with each URL or application software. Internet identifier does not include a date of birth, Social Security number, personal identification number (PIN), URL, or application software used for utility, banking, retail, or medical purposes. Voluntary disclosure by a sexual predator or sexual offender of his or her date of birth, Social Security number, or PIN as an Internet identifier waives the disclosure exemption in this paragraph for such personal information.[22]

Shortly before the amended definition of "Internet identifier" was slated to take effect, a group of plaintiffs in Florida who had been convicted as sexual offenders filed a lawsuit against the

[18] Chapter 2014-5, Laws of Fla.

[19] Chapter 2016-104, Laws of Fla, (amending s. 775.21(2)(i), F.S., and renumbering it as s. 775.21(2)(j), F.S.). The original definition of "Internet identifier" was all electronic mail, chat, instant messenger, social networking, application software, or similar names used for Internet communication, but did not include a date of birth, social security number, or PIN. Voluntary disclosure by a sexual predator of his or her date of birth, social security number, or PIN as an Internet identifier waived the disclosure exemption in this paragraph for such personal information. Section 775.21(2)(i), F.S. (2014).

[20] *Id.*

[21] "URL stands for Uniform Resource Locator, and is used to specify addresses on the World Wide Web. A URL is the fundamental network identification for any resource connected to the web (e.g., hypertext pages, images, and sound files)." "ARCHIVED: What is a URL?" Indiana University Information Technology Knowledge Base Repository, *available at* https://kb.iu.edu/d/adnz (last visited on March 14, 2017).

[22] Sections 943.0435(1)(e), 944.607, and 985.4815, F.S., provide that "Internet identifier" has the same meaning as provided in s. 775.21, F.S.

Commissioner of the FDLE in the United States District Court for the Northern District of Florida, Tallahassee Division.[23] The plaintiffs argued that the prior and amended definition of "Internet identifier" violated the First Amendment and raised a vagueness challenge. The plaintiffs also moved for a preliminary injunction, which the court treated as a challenge only to the amended definition.

The court found the current definition is "hopelessly vague, chills speech protected by the First Amendment, and is far broader than necessary to serve the state's legitimate interest in deterring or solving online sex crimes."[24] The court granted the preliminary injunction.

The court stated the definition "sets no outer limit, because the term is expressly 'not limited to' what the definition says. Having jettisoned the ordinary understanding and replaced it with an expressly unlimited description, the definition leaves a sex offender guessing at what must be disclosed."[25] The court also stated that the definition, "at least on many plausible readings, is hopelessly and unnecessarily broad in scope." One of the examples the court cited in its finding was that of a registered sex offender, John Doe's, subscription to a digital newspaper. In the court's illustration, Mr. Doe, receives an e-mail every morning with the day's headlines and e-mails every day with additional articles or breaking news. The court continued:

> He plainly must register at least the URL for the newspaper, if not the URL for every article the newspaper sends. But the State has absolutely no legitimate interest in requiring a sex offender to register the URL of the newspaper or articles the offender reads. And if Mr. Doe chooses one day to make a comment on an article, he must now figure out whether the same URL is in use, and he must make his identity available to the public. Unlike every other subscriber or member of the public, Mr. Doe cannot comment anonymously. *See White v. Baker*, 696 F. Supp. 2d 1289, 1313 (N.D. Ga. 2010) (holding that enforcement of a registration requirement would irreparably harm a registered sex offender "by chilling his First Amendment right to engage in anonymous free speech").[26]

The order states that the preliminary injunction remains in effect until entry of a final judgment in the case or until otherwise ordered. The injunction prohibits the FDLE Commissioner[27] from taking any action based on the current definition of "Internet identifier." However, the injunction does not preclude enforcement of the prior definition.

Public Records Law

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.[28] This applies to the official business of any public body, officer or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[29]

In addition to the Florida Constitution, the Florida Statutes provide that the public may access legislative and executive branch records.[30] Chapter 119, F.S., constitutes the main body of public records laws, and is known as the Public Records Act.[31] The Public Records Act states that:

> It is the policy of this state that all state, county and municipal records are open for personal inspection and copying by any person. Providing access to public records is a duty of each agency.[32]

According to the Public Records Act, a public record includes virtually any document or recording, regardless of its physical form or how it may be transmitted.[33] The Florida Supreme Court has interpreted public records as being "any material prepared in connection with official agency business which is intended to perpetuate, communicate or formalize knowledge of some type."[34] A violation of the Public Records Act may result in civil or criminal liability.[35]

The Legislature may create an exemption to public records requirements.[36] An exemption must pass by a two-thirds vote of the House and the Senate.[37] In addition, an exemption must explicitly lay out the public necessity justifying the exemption, and the exemption must be no broader than necessary to accomplish the stated purpose of the exemption.[38] A statutory exemption which does not meet these criteria may be unconstitutional and may not be judicially saved.[39]

[28] FLA. CONST., art. I, s. 24(a).
[29] *Id*.
[30] The Public Records Act does not apply to legislative or judicial records. *Locke v. Hawkes*, 595 So. 2d 32 (Fla. 1992). Also see *Times Pub. Co. v. Ake*, 660 So. 2d 255 (Fla. 1995). The Legislature's records are public pursuant to s. 11.0431, F.S. Public records exemptions for the Legislatures are primarily located in s. 11.0431(2)-(3), F.S.
[31] Public records laws are found throughout the Florida Statutes.
[32] Section 119.01(1), F.S.
[33] Section 119.011(12), F.S., defines "public record" to mean "all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency." Section 119.011(2), F.S., defines "agency" to mean as "any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency."

When creating a public records exemption, the Legislature may provide that a record is "confidential and exempt" or "exempt."[40] Records designated as "confidential and exempt" may be released by the records custodian only under the circumstances defined by the Legislature. Records designated as "exempt" are not required to be made available for public inspection, but may be released at the discretion of the records custodian under certain circumstances.[41]

Open Government Sunset Review Act

The Open Government Sunset Review Act (referred to hereafter as the "OGSR") prescribes a legislative review process for newly created or substantially amended public records or open meetings exemptions.[42] The OGSR provides that an exemption automatically repeals on October 2nd of the fifth year after creation or substantial amendment; in order to save an exemption from repeal, the Legislature must reenact the exemption.[43]

The OGSR provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than is necessary.[44] An exemption serves an identifiable purpose if it meets one of the following purposes *and* the Legislature finds that the purpose of the exemption outweighs open government policy and cannot be accomplished without the exemption:

- It allows the state or its political subdivision to effectively and efficiently administer a program, and administration would be significantly impaired without the exemption;[45]
- Releasing sensitive personal information would be defamatory or would jeopardize an individual's safety. If this public purpose is cited as the basis of an exemption, however, only personal identifying information is exempt;[46] or
- It protects trade or business secrets.[47]

The OGSR also requires specified questions to be considered during the review process.[48] In examining an exemption, the OGSR asks the Legislature to carefully question the purpose and necessity of reenacting the exemption.

---

[40] If the Legislature designates a record as confidential, such record may not be released to anyone other than the persons or entities specifically designated in the statutory exemption. *WFTV, Inc. v. The School Board of Seminole*, 874 So. 2d 48 (Fla. 5th DCA 2004).

[41] *Williams v. City of Minneola*, 575 So. 2d 687 (Fla. 5th DCA 1991).

[42] Section 119.15, F.S. Section 119.15(4)(b), F.S., provides that an exemption is considered to be substantially amended if it is expanded to include more information or to include meetings. The OGSR does not apply to an exemption that is required by federal law or that applies solely to the Legislature or the State Court System pursuant to section 119.15(2), F.S.

[43] Section 119.15(3), F.S.

[44] Section 119.15(6)(b), F.S.

[45] Section 119.15(6)(b)1., F.S.

[46] Section 119.15(6)(b)2., F.S.

[47] Section 119.15(6)(b)3., F.S.

[48] Section 119.15(6)(a), F.S. The specified questions are:

1. What specific records or meetings are affected by the exemption?
2. Whom does the exemption uniquely affect, as opposed to the general public?
3. What is the identifiable public purpose or goal of the exemption?
4. Can the information contained in the records or discussed in the meeting be readily obtained by alternative means? If so, how?
5. Is the record or meeting protected by another exemption?

If, in reenacting an exemption, the exemption is expanded, then a public necessity statement and a two-thirds vote for passage are required.[49] If the exemption is reenacted without substantive changes or if the exemption is narrowed, then a public necessity statement and a two-thirds vote for passage are *not* required. If the Legislature allows an exemption to sunset, the previously exempt records will remain exempt unless provided for by law.[50]

III. Effect of Proposed Changes:

Section 1 amends s. 119.071(5), F.S., to exempt from public disclosure those electronic mail addresses and Internet identifiers registered by sexual predators or sexual offenders and held by agencies pursuant to ss. 775.21, 943.0435, 944.606, 944.607, 985.481, or 985.4815, F.S.

Section 1 references definitions for "electronic mail address" and "Internet identifier." "Electronic mail address" has the same meaning as provided in s. 668.602, F.S. Section 668.602(6), F.S., provides that "electronic mail address" means a destination, commonly expressed as a string of characters, to which electronic mail may be sent or delivered. "Internet identifier" has the same meaning as provided in s. 775.21, F.S. The substantive linked bill, CS/SB 684, provides that "Internet identifier" means:

> …any designation, moniker, screen name, username, or other name used for self-identification to send or receive social Internet communication. Internet identifier does not include a date of birth, social security number, personal identification number (PIN), or password. A sexual offender's or sexual predator's use of an Internet identifier that discloses his or her date of birth, social security number, personal identification number (PIN), password, or other information that would reveal the identity of the sexual offender or sexual predator waives the disclosure exemption in this paragraph and in s. 119.071(5)(l) for such personal information.[51]

This exemption applies to records held before, on, or after the effective date of the bill.

The section expressly states that a law enforcement agency is not prohibited from confirming to a member of the public that an electronic mail address or Internet identifier reported pursuant to ss. 775.21, 943.0435, 944.606, 944.607, 985.481, or 985.4815, F.S., is registered in the FDLE sexual offender and sexual predator registry.

Section 1 also provides that the exemption is subject to the OGSR Act in accordance with s. 119.15, F.S., and stands repealed on October 2, 2022, unless reviewed and saved from repeal through reenactment by the Legislature.

6. Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?

[49] FLA. CONST. art. I, s. 24(c).

[50] Section 119.15(7), F.S.

[51] This is the definition as amended by the CS/SB 684. Coding has been removed.

Section 2 includes a public necessity statement as required by the Florida Constitution.[52] The statement includes the following legislative findings that it is a public necessity to create the exemption:

- The exemption strikes an important balance between the government's legitimate interest in public safety and protecting individuals' rights afforded under the Florida Constitution and First Amendment rights protected by the United States Constitution.
- The exemption maintains the ability of members of the public to confirm whether an electronic mail address or Internet identifier is associated with or is contained in the sexual offender and sexual predator registry without obtaining the personal identifying information of the registrant associated with this information.
- The exemption allows members of the public access to safety information which assists them in making informed decisions regarding communicating or otherwise interacting with registered sexual predators and sexual offenders.
- The exemption preserves the ability of criminal justice agencies to access valuable investigative information.
- Criminal justice agencies are tasked with the prevention of crimes to protect residents, particularly children, from sexual exploitation through investigating and bringing offenders to justice.
- As daily life necessitates increasing dependence upon access to the Internet, sexual exploitation through the use of the Internet grows as well.
- There is a nexus between commercial social networking sites and Internet sex crimes. Commercial social networking sites are widely used among youth and adults for introduction, communication, and publication of personal details that may be exploited.
- Locating missing children, sexual predators, and sexual offenders who have evaded registration is greatly aided through the use of registered electronic mail addresses and Internet identifiers.
- Without the exemption, criminal justice agencies may lose access to information which has become a valuable investigative tool since the inception of this registration requirement.
- Absent a registration requirement for electronic mail addresses and Internet identifiers, investigative agencies will be severely hampered in the growing call to protect Florida residents from sexual exploitation online.
- Electronic mail addresses and Internet identifiers have an exceptional distinction from other registration requirements in that they are used as unique personal identifiers for speech and communication, and because of this distinction, a public records exemption is required to avoid any appearance of infringement on registrants' constitutional rights.
- If the ability to collect this information were prevented, it would greatly disrupt the ability of criminal justice agencies to use this essential information in combatting the prevalent problem of online sexual exploitation of children.

Section 3 directs the Division of Law Revision and Information to replace the phrase "the effective date of this act" whenever it occurs in this act with the date the act becomes a law.

The bill takes effect on the same date that SB 684 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof, and becomes law.

[52] Article I, s. 24(c), FLA. CONST.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

Vote Requirement

Article I, s. 24(c) of the Florida Constitution requires a two-thirds vote of the members present and voting for final passage of a newly created public record or public meeting exemption. The bill creates a new public record exemption; thus, it requires a two-thirds vote for final passage.

Public Necessity Statement

Article I, s. 24(c) of the Florida Constitution requires a public necessity statement for a newly created or expanded public record or public meeting exemption. The bill creates a new public record exemption and includes a public necessity statement.

Breadth of Exemption

Article I, s. 24(c) of the Florida Constitution requires a newly created public record exemption to be no broader than necessary to accomplish the stated purpose of the law. Based on the legislative findings in the statement of public necessity, the public records exemption is no broader than necessary to accomplish its stated purpose.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

None.

C. Government Sector Impact:

The bill does not appear to have an impact on state or local government revenues or expenditures.

VI. Technical Deficiencies:

None.

VII. Related Issues:

Connected Bill

A connected bill, CS/SB 684 (2017), revises provisions requiring registered sexual predators and sexual offenders to report Internet identifiers. These revisions include modifying the definition of the term "Internet identifier" and defining a connected term "social Internet communication." The bill also requires a sexual predator and sexual offender to report each Internet identifier's corresponding website homepage or application software name.

Access to Sex Offender Registry Information

The bill does not affect the public's access to information currently available on the sex offender registry. The online registry does not include sex offenders' electronic mail addresses or Internet identifiers.

VIII. Statutes Affected:

This bill substantially amends section 119.071 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Criminal Justice on April 3, 2017:
The committee substitute:

- Specifies that the public records exemption applies to electronic mail addresses and Internet identifiers registered by sexual predators or sexual offenders and held by agencies pursuant to specified statutory authority.
- Removes language stating that the electronic mail addresses and Internet identifiers can be used "only by criminal justice agencies for criminal justice purposes."
- Removes language precluding disclosure of personal identification information linked to exempt electronic mail addresses and Internet identifiers.
- Removes language authorizing the FDLE to provide exempt information pursuant to s. 943.0437, F.S. (commercial social networking sites).
- Revises the public necessity statement.
- Revises the effective date by providing a contingent effective date (effective on the same date that SB 684 or similar legislation takes effect in the same session).

B. Amendments:

None.

By the Committee on Criminal Justice; and Senator Baxley

591-03323A-17 2017686c1

A bill to be entitled

An act relating to public records; amending s. 119.071, F.S.; defining terms; requiring that electronic mail addresses and Internet identifiers of sexual predators or sexual offenders reported pursuant to specified laws be exempt from public records requirements; providing retroactive applicability; providing construction; providing for future review and repeal of the exemption; providing a statement of public necessity; providing a directive to the Division of Law Revision and Information; providing a contingent effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (l) is added to subsection (5) of section 119.071, Florida Statutes, to read:

119.071 General exemptions from inspection or copying of public records.—

(5) OTHER PERSONAL INFORMATION.—

(l)1. As used in this paragraph, the term:

a. "Electronic mail address" has the same meaning as in s. 668.602.

b. "Internet identifier" has the same meaning as in s. 775.21.

2. Electronic mail addresses and Internet identifiers registered by sexual predators or sexual offenders and held by agencies pursuant to s. 775.21, s. 943.0435, s. 944.606, s. 944.607, s. 985.481, or s. 985.4815 are exempt from s. 119.07(1)

591-03323A-17 2017686c1

and s. 24(a), Art. I of the State Constitution. This exemption applies to records held before, on, or after the effective date of this act.

3. This paragraph does not prohibit a law enforcement agency from confirming to a member of the public that an electronic mail address or Internet identifier reported pursuant to s. 775.21, s. 943.0435, s. 944.606, s. 944.607, s. 985.481, or s. 985.4815 is registered in the Department of Law Enforcement sexual offender and sexual predator registry.

4. This paragraph is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2022, unless reviewed and saved from repeal through reenactment by the Legislature.

Section 2. (1) The Legislature finds that it is a public necessity that electronic mail addresses and Internet identifiers registered by sexual predators and sexual offenders and held by agencies pursuant to s. 775.21, s. 943.0435, s. 944.606, s. 944.607, s. 985.481, or s. 985.4815, Florida Statutes, be made exempt from s. 119.071(1), Florida Statutes, and s. 24(a), Article I of the State Constitution. The Legislature finds that the exemption strikes an important balance between the government's legitimate interest in public safety and protecting individuals' rights afforded under the Constitution of the State of Florida and the First Amendment rights protected by the United States Constitution. The exemption maintains the ability of members of the public to confirm whether an electronic mail address or Internet identifier is associated with or is contained in the sexual offender and sexual predator registry without obtaining the

personal identifying information of the registrant associated with the electronic mail address or Internet identifier. This exemption allows members of the public access to safety information which assists them in making informed decisions regarding communicating or otherwise interacting with registered sexual predators and sexual offenders. Additionally, this exemption preserves the ability of criminal justice agencies to access valuable investigative information. Criminal justice agencies are tasked with the prevention of crimes to protect residents, particularly children, from sexual exploitation through investigating and bringing offenders to justice. As daily life necessitates increasing dependence upon access to the Internet, sexual exploitation through the use of the Internet grows as well. There is a nexus between commercial social networking sites and Internet sex crimes. Commercial social networking sites are widely used among youth and adults for introduction, communication, and publication of personal details that may be exploited. Additionally, locating missing children and sexual predators and sexual offenders who have evaded registration is greatly aided through the use of registered electronic mail addresses and Internet identifiers. Without this exemption, criminal justice agencies may lose access to information which has become a valuable investigative tool since the inception of this registration requirement. Absent a registration requirement for electronic mail addresses and Internet identifiers, investigative agencies will be severely hampered in the growing call to protect our residents from sexual exploitation online.

(2) The Legislature recognizes the importance of protecting

rights provided in the First Amendment to the United States Constitution for all citizens. Equally, the Legislature recognizes the importance of preserving the civil regulatory processes of sexual offender and sexual predator registration and ensuring criminal justice agencies have the critical resource of sexual offender and sexual predator electronic mail address and Internet identifier registration information necessary to protect our residents. Electronic mail addresses and Internet identifiers have an exceptional distinction from other registration requirements in that they are used as unique personal identifiers for speech and communication. Because of this distinction, a public records exemption is required to avoid any appearance of infringement on registrants' constitutional rights. If the ability to collect this information were prevented, it would greatly disrupt the ability of criminal justice agencies to use this essential information in combatting the prevalent problem of online sexual exploitation of children. For these reasons and for the preservation of and continued collection of this information, the Legislature finds that it is a public necessity that the electronic mail addresses and Internet identifiers continue to be registered by sexual predators and sexual offenders and held by agencies pursuant to ss. 775.21, 943.0435, 944.606, 944.607, 985.481, and 985.4815, Florida Statutes, be exempt from public record requirements.

Section 3. The Division of Law Revision and Information is directed to replace the phrase "the effective date of this act" whenever it occurs in this act with the date the act becomes a law.

Section 4. This act shall take effect on the same date that SB 684 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes a law.

THE FLORIDA SENATE

SENATOR DENNIS BAXLEY
12th District

COMMITTEES:
Governmental Oversight and Accountability, *Chair*

The Honorable Senator Jack Latvala
412 Senate Office Building
Tallahassee, Florida 32399

Dear Chairman Latvala,

I respectfully request you place Senate Bill 684 Internet Identifiers/SB 686 Internet Identifiers Public Records on your next available agenda.

This bill requires sexual offenders and predators to register their internet identifiers and email addresses.

I appreciate your favorable consideration.

Onward & Upward,

Dennis Baxley
Senator, District 12

4.	Babin	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/CS/SB 764 provides an exemption from ad valorem taxation for the homestead of a first responder who is totally and permanently disabled as a result of injuries sustained in the line of duty and to his or her surviving spouse.

The bill also provides application requirements and specifies documentation required to receive the exemption, including a physician's and an employer's certificate. Additionally, the bill provides penalties for any person submitting false information for purposes of claiming the exemption.

The Revenue Estimating Conference estimates that the bill will reduce local governments' property tax receipts by $2.88 million per year, beginning in Fiscal Year 2017-2018.

The bill takes effect upon becoming law and applies to the 2017 tax roll.

II. Present Situation:

General Overview of Property Taxation

The ad valorem tax or "property tax" is an annual tax levied by counties, municipalities, school districts, and some special districts. The tax is based on the taxable value of property as of

January 1 of each year.[1] The property appraiser annually determines the "just value"[2] of property within the taxing authority and then applies relevant exclusions, assessment limitations, and exemptions to determine the property's "taxable value."[3] Tax bills are mailed in November of each year based on the previous January 1 valuation, and payment is due by March 31 of the following year.

The Florida Constitution prohibits the state from levying ad valorem taxes,[4] and it limits the Legislature's authority to provide for property valuations at less than just value, unless expressly authorized.[5]

The just valuation standard generally requires the property appraiser to consider the highest and best use of property;[6] however, the Florida Constitution authorizes certain types of property to be valued based on their current use (classified use assessments), which often result in lower assessments. Properties that receive classified use treatment in Florida include agricultural land, land producing high water recharge to Florida's aquifers, and land used exclusively for noncommercial recreational purposes;[7] land used for conservation purposes;[8] historic properties when authorized by the county or municipality;[9] and certain working waterfront property.[10]

Property Tax Exemptions

The Legislature may only grant property tax exemptions that are authorized in the Florida Constitution, and any modifications to existing property tax exemptions must be consistent with the constitutional provision authorizing the exemption.[11] The following information discusses the exemptions that disabled persons may receive.

Homestead Exemption

Although not specific to disabled persons, the Florida Constitution provides that every person having legal and equitable title to real estate and who maintains a permanent residence on the real estate (homestead property) is eligible for a $25,000 homestead tax exemption applicable to

[1] Both real property and tangible personal property are subject to tax. Section 192.001(12), F.S., defines "real property" as land, buildings, fixtures, and all other improvements to land. Section 192.001(11)(d), F.S., defines "tangible personal property" as all goods, chattels, and other articles of value capable of manual possession and whose chief value is intrinsic to the article itself.
[2] Property must be valued at "just value" for purposes of property taxation, unless the Florida Constitution provides otherwise. FLA. CONST. art VII, s. 4. Just value has been interpreted by the courts to mean the fair market value that a willing buyer would pay a willing seller for the property in an arm's-length transaction. *See Walter v. Shuler,* 176 So. 2d 81 (Fla. 1965); *Deltona Corp. v. Bailey,* 336 So. 2d 1163 (Fla. 1976); *Southern Bell Tel. & Tel. Co. v. Dade County,* 275 So. 2d 4 (Fla. 1973).
[3] *See* s. 192.001(2) and (16), F.S.

all ad valorem tax levies, including levies by school districts.[12] An additional $25,000 homestead exemption applies to a homestead's property value between $50,000 and $75,000; however, the additional exemption does not apply to ad valorem taxes levied by school districts.[13]

General Disability Exemption

The Florida Constitution provides broad authority for exemptions from property taxes for widows and widowers, blind persons, and persons who are totally and permanently disabled.[14] The Legislature has implemented this provision through various property tax exemptions in ch. 196, F.S.

Full Homestead Exemption for Blind Persons and Quadriplegic, Paraplegic, Hemiplegic, and Totally and Permanently Disabled Persons Confined to Wheelchairs

Section 196.101, F.S., provides a full property tax exemption for any real estate used and owned as a homestead by any quadriplegic, paraplegic, hemiplegic, or other totally and permanently disabled person who must use a wheelchair for mobility, or who is legally blind.[15] Generally, in order to qualify for the exemption, the taxpayer must submit evidence of such disability as certified by two licensed physicians of this state or the United States Department of Veterans Affairs or its predecessor.[16] Except for a quadriplegic, applicants must also show that they meet certain income limitations.[17]

Full Homestead Exemption for Totally and Permanently Disabled Veterans

Section 196.081(1), F.S., provides a full property tax exemption for the homesteads of totally and permanently disabled veterans who were honorably discharged with a service-connected disability and have a letter from the United States Government certifying their disability.

Full Homestead Exemption for Veterans confined to Wheelchairs

Section 196.091, F.S., provides a full property tax exemption for the homesteads of totally disabled veterans who were honorably discharged with a service-connected disability and have a letter from the United States Government certifying that the ex-service member is receiving or has received special pecuniary assistance for specially adopted housing due to the ex-service member's need for a wheelchair.

Proportional Homestead Discount for Combat-disabled Veterans

The Florida Constitution provides a property tax discount to honorably discharged veterans, age 65 or older, who are permanently disabled due to a combat-related injury.[18] The discount applies for partial or total disabilities. For partially disabled persons, the discount is in proportion to the percentage of their disability.

[15] Section 196.101(1)-(2), F.S.
[16] Section 196.101(3), F.S.
[17] Section 196.101(4), F.S.
[18] FLA. CONST. art. VII, s. 6(e); s. 196.082, F.S.

Homestead Exemption for Surviving Spouses of Veterans and First Responders

Although not specific to disabled persons, the Florida Constitution also authorizes the Legislature to provide, by general law, ad valorem tax relief to the surviving spouse of a veteran who died from service-connected causes while on active duty as a member of the United States Armed Forces, as well as the surviving spouse of a first responder who died in the line of duty.[19] This constitutional provision is implemented in s. 196.081, F.S. The Constitution defines "first responder" as a law enforcement officer, a correctional officer, a firefighter, an emergency medical technician, or a paramedic.[20]

The Constitution defines "in the line of duty" as arising out of and in the actual performance of duty required by employment as a first responder.[21] This term is further defined in statute to include:

- While engaging in law enforcement;
- While performing an activity relating to fire suppression and prevention;
- While responding to a hazardous material emergency;
- While performing rescue activity;
- While providing emergency medical services;
- While performing disaster relief activity;
- While otherwise engaging in emergency response activity; or
- While engaging in a training exercise related to any of the events or activities listed above if the training has been authorized by the employing entity.[22]

2016 Constitutional Amendment for First Responders – Amendment 3

In the general election held on November 8, 2016, the electors authorized the Legislature to grant property tax relief to certain disabled first responders.[23,24,25]

Under the amendment, the Legislature is authorized to provide property tax relief to first responders who are totally and permanently disabled as a result of injuries sustained in the line of duty; however, the causal connection between a disability and service in the line of duty shall not be presumed, and disability, for purposes of the amendment, does not include a chronic condition or chronic disease, unless the injury sustained in the line of duty was the sole cause of the chronic condition or chronic disease.[26]

The amendment took effect on January 1, 2017.

[24] FLA. CONST. art. VII, s. 6(f)(3).
[25] The Legislature proposed the amendment through HJR 1009 (2016).
[26] FLA. CONST. art. VII, s. 6(f)(3).

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 196.011(1)(b), F.S., to add a reference to the exemption for certain totally and permanently disabled first responders and for their surviving spouses contained in newly created s. 196.102, F.S., to the list of exemptions for which the application form must include a space for social security numbers of the applicant and the applicant's spouse.

Section 2 of the bill creates s. 196.102, F.S., creating a full property tax exemption for homestead property owned by a person who is totally and permanently disabled as a result of an injury received in the line of duty as a first responder. The person must be a resident of this state on January 1 of the year for which the exemption is claimed.

The bill defines "first responder" as a law enforcement officer or correctional officer as defined in s. 943.10, F.S.,[27] a firefighter as defined in s. 633.102, F.S.,[28] or an emergency medical technician or paramedic as defined in s. 401.23, F.S.,[29] who is a full-time paid employee, part-time paid employee, or unpaid volunteer.

The bill defines "cardiac event" as a heart attack, stroke, or vascular rupture.

The bill defines "in the line of duty" to mean:

- While engaging in activities within the course and scope of employment as a first responder;
- While performing an activity relating to fire suppression and prevention;
- While responding to a hazardous material emergency;
- While performing rescue activity;
- While providing emergency medical services;
- While performing disaster relief activity;
- While otherwise engaging in emergency response activity; or
- While engaging in a training exercise related to any of the events or activities listed above if the training has been authorized by the employing entity.

---

[27] Section 943.10(1), F.S., defines "law enforcement officer" as any person who is elected, appointed, or employed full-time by any municipality or the state or any political subdivision thereof; who is vested with authority to bear arms and make arrests; and whose primary responsibility is the prevention and detection of crime or the enforcement of the penal, criminal, traffic, or highway laws of the state. This definition includes all certified supervisory and command personnel whose duties include, in whole or in part, the supervision, training, guidance, and management responsibilities of full-time law enforcement officers, part-time law enforcement officers, or auxiliary law enforcement officers but does not include support personnel employed by the employing agency. Section 943.10(2), F.S., defines "correctional officer" as any person who is appointed or employed full-time by the state or any political subdivision thereof, or by any private entity which has contracted with the state or county, and whose primary responsibility is the supervision, protection, care, custody, and control, or investigation, of inmates within a correctional institution; however, the term "correctional officer" does not include any secretarial, clerical, or professionally trained personnel.

[28] Section 633.102(9), F.S., defines "firefighter" as an individual who holds a current and valid Firefighter Certificate of Compliance or Special Certificate of Compliance issued by the Division of State Fire Marshal within the Department of Financial Services under s. 633.408, F.S.

[29] Section 401.23(11), F.S., defines "emergency medical technician" as a person who is certified by the Department of Health to perform basic life support pursuant to part III of ch. 401, F.S. Section 401.23(17), F.S., defines "paramedic" as a person who is certified by the Department of Health to perform basic and advanced life support pursuant to this part.

The bill provides that total and permanent disability requires that the applicant's disability render him or her unable to engage in any substantial gainful occupation due to an impairment of the mind or body that is reasonably certain to continue throughout the life of the applicant.[30]

The bill provides that total and permanent disability that results from a cardiac event does not qualify for the exemption unless the cardiac event occurs no later than 24 hours after the first responder performed nonroutine stressful or strenuous physical activity in the line of duty and the first responder provides the employer with competent medical evidence showing that:

- The nonroutine stressful or strenuous activity directly and proximately caused the cardiac event that gave rise to the first responder's total and permanent disability; and
- The cardiac event was not caused by preexisting vascular disease.

The bill allows the first responder to qualify for the exemption using one of two methods.

Under method one, the first responder can qualify by demonstrating that he or she qualifies for the homestead exemption for totally and permanently disabled persons provided in s. 196.101, F.S. (*See* discussion supra, page 3).

Under method two, if the first responder provides the following documents to the property appraiser of the county where the property is located, the documents serve as prima facie evidence that the first responder is entitled to the exemption:

- An award letter, based on total and permanent disability, from the Social Security Administration;
- A certificate of total and permanent disability, in a specified form, from a physician licensed in this state, attesting that the applicant's total and permanent disability is reasonably expected to continue for the duration of the applicant's life.
- A certificate from the organization that employed the first responder at the time that the injury or injuries occurred.

Physician's Certification of Total and Permanent Disability

The bill requires the physician's certificate to include specified information regarding the applicant's total and permanent disability. The physician must certify that the applicant, identified by name and social security number, is totally and permanently disabled. The physician must also list the disabling condition. Additionally, the physician's certificate must include a notice to the taxpayer that each Florida resident applying for an exemption must present to the county property appraiser a copy of the form, an award letter from the Social Security Administration, and a letter from the first responder's employer. Each form is to be completed by a licensed Florida physician. The physician's certificate must also include a notice to the taxpayer and the physician that any person who knowingly and willfully gives false information for the purpose of claiming the homestead exemption commits a misdemeanor of the first degree, punishable by up to 1 year in prison, a fine up to $5,000, or both.

[30] This standard is based on the standard used by the Veterans Administration. *See* 38 C.F.R. s. 3.340(a) and (b).

Employer Certificate

The employer certificate must, at a minimum, attest and include the title of the person signing the certificate, the name and address of the employing entity, a description of the incident that caused the injury or injuries, and a statement that the first responder's injury or injuries were:

- Directly and proximately caused by service in the line of duty.
- Without willful negligence on the part of the first responder.
- The sole cause of the first responder's total and permanent disability.
- If the total and permanent disability resulted from a cardiac event, the employer must also certify that the cardiac event occurred no later than 24 hours after the first responder performed nonroutine stressful or strenuous physical activity in the line of duty and the first responder has provided the employer with medical evidence showing that the nonroutine stressful or strenuous activity directly and proximately caused the cardiac event that gave rise to the total and permanent disability, and that the cardiac event was not caused by a preexisting vascular disease.

In addition, the employer certificate must be supplemented with extant documentation of the incident or event that caused the injury, such as an accident or incident report. The first responder may deliver the original employer certificate to the property appraiser's office or the first responder's employer may directly transmit the employer certificate to the applicable property appraiser.

Surviving Spouse

The bill provides that the tax exemption carries over to the surviving spouse as long as the surviving spouse holds the legal or beneficial title to the homestead, permanently resides thereon, and does not remarry. If the surviving spouse sells the property, an exemption not to exceed the amount granted under the most recent ad valorem tax roll may be transferred to the new residence if it is used as the surviving spouse's primary residence and he or she does not remarry.

Application for Exemption

The bill provides that a first responder may apply for the exemption before producing the necessary documentation. Upon receipt of the documentation, the property appraiser will grant the exemption as of the date of the original application and the excess taxes paid shall be refunded. Any refund of excess taxes paid is limited to those paid during the 4-year period of limitation set forth in s. 197.182(1)(e), F.S.[31]

The provisions of s. 196.011(9), F.S., for waiving the requirement for property owners to submit an annual application to the property appraiser also apply to applications made under this section.

[31] A claim for refund may not be granted unless the claim is made within 4 years after January 1 of the tax year for which the taxes were paid.

Penalties

The bill provides that any person who knowingly or willfully gives false information for the purpose of claiming homestead exemption under this section is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082, F.S.,[32] or by fine of not more than $5,000, or both.

Administrative Rules

The bill authorizes and provides that the Department of Revenue may adopt emergency rules pursuant to ss. 120.536(1) and 120.54, F.S., for the administration of the application process for the 2017 calendar year. This provision is repealed on August 30, 2018.

The bill provides that notwithstanding the provisions of ss. 196.011 and 196.102, F.S., the deadline for a first responder to file an application with the property appraiser for an exemption under s. 196.102, F.S., for the 2017 tax year is August 1, 2017.

The property appraiser may grant an application for an exemption that is filed untimely for the 2017 tax roll if:

- The applicant is qualified for the exemption; and
- The applicant produces sufficient evidence, as determined by the property appraiser, which demonstrates that the applicant was unable to apply for the exemption in a timely manner or otherwise demonstrates extenuating circumstances that warrant granting the exemption.

If the property appraiser denies an application for the 2017 tax roll, the applicant may file a petition with the value adjustment board as set forth in s. 194.011(3), F.S. The petition must be filed on or before the 25th day after the mailing by the property appraiser during the 2017 calendar year of the notice required under s. 194.011(1), F.S. Notwithstanding s. 194.013, F.S., the applicant is not required to pay a filing fee for such petition. Upon review of the petition, the value adjustment board shall grant the exemption if it determines the applicant is qualified and has demonstrated the existence of extenuating circumstances warranting the exemption.

Section 3 of the bill specifies that the act operates retroactively to January 1, 2017.

Section 4 of the bill provides that it takes effect upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(b) of the Florida Constitution provides that, except upon the approval of each house of the Legislature by a two-thirds vote of the membership, the Legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandate

[32] A person convicted of a misdemeanor of the first degree may be sentenced by a definite term of imprisonment not exceeding 1 year.

requirements do not apply to laws having an insignificant impact, which for Fiscal Year 2016-2017 was $2 million or less.[33,34,35]

The bill reduces counties' and municipalities' authority to raise revenue by reducing ad valorem tax bases compared to the tax bases that would exist under current law. However, the bill is expected to have an insignificant impact on counties and municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that the bill will reduce local governments' property tax revenues by $2.88 million per year, beginning in Fiscal Year 2017-2018. Of the $2.88 million impact, the impact to schools is $1.24 million and the impact to counties and municipalities is $1.64 million.

B. Private Sector Impact:

Homestead owners who were totally and permanently disabled in the line of duty as a first responder will pay less property taxes.

C. Government Sector Impact:

None.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

---

[33] FLA. CONST. art. VII, s. 18(d).

[34] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (Sept. 2011), *available at* http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited April 6, 2017).

[35] Based on the Demographic Estimating Conference's population adopted on November 1, 2016. The conference packet is *available at* http://edr.state.fl.us/Content/conferences/population/ConferenceResults.pdf (last visited April 6, 2017).

VIII. Statutes Affected:

This bill substantially amends section 196.011 of the Florida Statutes.

This bill creates section 196.102 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS/CS by Appropriations Subcommittee on Finance and Tax on April 13, 2017:
The committee substitute:

- Deletes the definition of "disabled" from the bill and provides that the physician certificate attesting to totally and permanently disability requires a finding by the physician that the total and permanent disability prevents the applicant from engaging in substantial gainful occupation due to an impairment of the mind or body, and the condition is reasonably expected to continue throughout the life of the applicant;
- Allows an applicant to qualify for the exemption by demonstrating that the applicant qualifies for the totally and permanently disabled exemption in s. 196.101, F.S.;
- Reduces the number of physician certifications from 2 to 1, but requires an applicant who is relying on certifications by a physician and the applicant's prior employer to qualify for the exemption to also provide an award letter from the Social Security Administration; and
- Deletes from the bill an unnecessary grant of permanent rulemaking authority for the Department of Revenue.

CS/CS by Community Affairs on March 22, 2017:

- Revises the physician's required certification form to include disclaimers to the taxpayer and physician;
- Removes a provision that extended the deadline for a property appraiser to serve notice setting his or her grounds for denial of the exemption in certain circumstances; and
- Makes a technical change for the act to apply retroactively, rather than prospectively, to the 2017 tax roll.

CS by Governmental Oversight and Accountability on March 6, 2017:

- Leaves s. 196.091(6), F.S.,(exemption for surviving spouse of first responder who dies in the line of duty) where it is in statute and does not move this exemption to newly created s. 196.02, F.S.;
- Adds definition of "cardiac event" and revises definition of "in the line of duty";
- Revises application requirements to remove Department of Veteran Affairs as an option for providing physician letter;
- Revises application procedures to allow first responder to deliver employer certification to property appraiser;

- Revises procedures for denying exemption by property appraiser and provides additional time to issue notice of denial from date of application; and
- Changes effective date from July 1, 2017, to effective upon becoming a law.

B. Amendments:

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/26/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Baxley) recommended the following:

Senate Amendment (with title amendment)

Delete lines 52 - 171

and insert:

(a) "Cardiac event" means a heart attack, stroke, or vascular rupture.

(b) "First responder" has the same meaning as in s. 196.081.

(c) "In the line of duty" has the same meaning as in s. 196.081.

135936

(d) "Total and permanent disability" means an impairment of the mind or body which renders a first responder unable to engage in a substantial gainful occupation and which is reasonably certain to continue throughout his or her life.

(2) Any real estate that is owned and used as a homestead by a person who has a total and permanent disability as a result of an injury or injuries sustained in the line of duty while serving as a first responder in this state or during an operation in another state or country authorized by this state or by a political subdivision of this state is exempt from taxation, if the first responder is a permanent resident of this state on January 1 of the year for which the exemption is being claimed.

(3) An applicant may qualify for the exemption under this section by applying by March 1, pursuant to subsection (4) or subsection (5), to the property appraiser of the county where the property is located.

(4) An applicant may qualify for the exemption under this section by providing the employer certificate described in paragraph (5)(b) and satisfying the requirements for the totally and permanently disabled exemption in s. 196.101; however, for purposes of this section, the applicant is not required to satisfy the gross income requirement in s. 196.101(4)(a).

(5) An applicant may qualify for the exemption under this section by providing all of the following documents to the property appraiser, which serve as prima facie evidence that the person is entitled to the exemption:

(a) Documentation from the Social Security Administration stating that the applicant is totally and permanently disabled.

135936

The documentation must be provided to the property appraiser within 3 months after issuance. An applicant who is not eligible to receive a medical status determination from the Social Security Administration due to his or her ineligibility for Social Security benefits or Medicare benefits may provide documentation from the Social Security Administration stating that the applicant is not eligible to receive a medical status determination from the Social Security Administration, and provide physician certifications as required by paragraph (c) from two professionally unrelated physicians, rather than the one certification required by that paragraph.

(b)1. A certificate from the organization that employed the applicant as a first responder or supervised the applicant as a volunteer first responder at the time that the injury or injuries occurred. The employer certificate must contain, at a minimum:

a. The title of the person signing the certificate;

b. The name and address of the employing entity;

c. A description of the incident that caused the injury or injuries;

d. The date and location of the incident; and

e. A statement that the first responder’s injury or injuries were:

(I) Directly and proximately caused by service in the line of duty.

(II) Without willful negligence on the part of the first responder.

(III) The sole cause of the first responder’s total and permanent disability.

135936

2. If the first responder's total and permanent disability was caused by a cardiac event, the employer must also certify that the requirements of subsection (6) are satisfied.

3. The employer certificate must be supplemented with extant documentation of the incident or event that caused the injury, such as an accident or incident report. The applicant may deliver the original employer certificate to the property appraiser's office or the employer may directly transmit the employer certificate to the applicable property appraiser.

(c) A certificate from a physician licensed in this state under chapter 458 or chapter 459 which certifies that the applicant has a total and permanent disability and that such disability renders the applicant unable to engage in any substantial gainful occupation due to an impairment of the mind or body, which condition is reasonably certain to continue throughout the life of the applicant. The physician certificate shall read as follows:

FIRST RESPONDER'S
PHYSICIAN CERTIFICATE OF
TOTAL AND PERMANENT DISABILITY

I,...(name of physician)..., a physician licensed pursuant to chapter 458 or chapter 459, Florida Statutes, hereby certify that Mr.....Mrs.....Miss.... Ms.....(applicant name and social security number)..., is totally and permanently disabled due to an impairment of the mind or body, and such impairment renders him or her unable to engage in any substantial gainful occupation, which condition is reasonably certain to continue

throughout his or her life. Mr.....Mrs.....Miss.... Ms.....(applicant name)... has the following mental or physical condition(s):

It is my professional belief that within a degree of medical certainty, the above-named condition(s) render Mr.....Mrs.....Miss.... Ms.....(applicant name)... totally and permanently disabled and that the foregoing statements are true, correct, and complete to the best of my knowledge and professional belief.

Signature....
Address...(print)...

NOTICE TO TAXPAYER: Each Florida resident applying for an exemption due to a total and permanent disability that occurred in the line of duty while serving as a first responder must present to the county property appraiser the required physician certificate(s), the required documentation from the Social Security Administration, and a certificate from the employer for whom the applicant worked as a first responder at the time of the injury or injuries, as required by section 196.102(5), Florida Statutes. This form is to be completed by a licensed Florida physician.

NOTICE TO TAXPAYER AND PHYSICIAN: Section 196.102(10), Florida

135936

Statutes, provides that any person who knowingly and willingly gives false information for the purpose of claiming the homestead exemption for totally and permanently disabled first responders commits a misdemeanor of the first degree, punishable by a term of imprisonment not exceeding 1 year or a fine not exceeding $5,000, or both.

(6) A total and permanent disability that results from a cardiac event does not qualify for the exemption provided in this section unless the cardiac event occurs no later than 24 hours after the first responder performed nonroutine stressful or strenuous physical activity in the line of duty and the first responder provides the employer with a certificate from the first responder's treating cardiologist for the cardiac event and pertinent supporting documentation showing that:

(a) The nonroutine stressful or strenuous activity directly and proximately caused the cardiac event that gave rise to the total and permanent disability; and

(b) The cardiac event was not caused by a preexisting vascular disease.

(7) An applicant who is granted the exemption under this

An act relating to an ad valorem tax exemption for first responders; amending s.

929072

576-03804-17

Proposed Committee Substitute by the Committee on Appropriations
(Appropriations Subcommittee on Finance and Tax)

A bill to be entitled

An act relating to ad valorem taxation; amending s. 196.011, F.S.; specifying the information to be included in an application for certain tax exemptions; creating s. 196.102, F.S.; providing definitions; providing an exemption from ad valorem taxation for certain first responders under specified conditions; providing procedures for applying for the exemption; specifying requirements for documents that serve as prima facie evidence of entitlement to the exemption; providing that total and permanent disabilities resulting from cardiac events do not qualify for the exemption except when certain conditions are met; providing that applicants have a continuing duty to notify property appraisers of certain changes; providing that the exemption carries over to the benefit of surviving spouses under certain circumstances; providing requirements relating to the date of granting an exemption and the refund of excess taxes; providing a criminal penalty for knowingly or willfully giving false information to claim the exemption; specifying a deadline and procedures for applying for the exemption for the 2017 tax year; specifying procedures for petitioning a denial with the value adjustment board; authorizing the Department of Revenue to adopt emergency rules; providing retroactive operation; providing an effective date.

929072

576-03804-17

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (1) of section 196.011, Florida Statutes, is amended to read:

196.011 Annual application required for exemption.—

(1)

(b) The form to apply for an exemption under s. 196.031, s. 196.081, s. 196.091, s. 196.101, s. 196.102, s. 196.173, or s. 196.202 must include a space for the applicant to list the social security number of the applicant and of the applicant's spouse, if any. If an applicant files a timely and otherwise complete application, and omits the required social security numbers, the application is incomplete. In that event, the property appraiser shall contact the applicant, who may refile a complete application by April 1. Failure to file a complete application by that date constitutes a waiver of the exemption privilege for that year, except as provided in subsection (7) or subsection (8).

Section 2. Section 196.102, Florida Statutes, is created to read:

196.102 Exemption for certain totally and permanently disabled first responders.—

(1) As used in this section, the term:

(a) "First responder" has the same meaning as in s. 196.081.

(b) "Cardiac event" means a heart attack, stroke, or vascular rupture.

(c) "In the line of duty" has the same meaning as in s.

196.081.

(2) Any real estate that is owned and used as a homestead by a person who is totally and permanently disabled as a result of an injury or injuries sustained in the line of duty while serving as a first responder is exempt from taxation, if the first responder is a permanent resident of this state on January 1 of the year for which the exemption is being claimed.

(3) An applicant may qualify for the exemption under this section by applying by March 1, pursuant to subsection (4) or subsection (5), to the property appraiser of the county where the property is located.

(4) An applicant may qualify for the exemption under this section by satisfying the requirements for the totally and permanently disabled exemption in s. 196.101; however, for purposes of this section, the applicant is not required to satisfy the gross income requirement in s. 196.101(4)(a).

(5) An applicant may qualify for the exemption under this section by providing all of the following documents, which serve as prima facie evidence that the person is entitled to the exemption:

(a) An award letter from the Social Security Administration, based upon the applicant's total and permanent disability, provided to the property appraiser within 3 months after issuance.

(b)1. A certificate from the organization that employed the applicant as a first responder at the time that the injury or injuries occurred. The employer certificate must contain, at a minimum:

a. The title of the person signing the certificate;

b. The name and address of the employing entity;

c. A description of the incident that caused the injury or injuries;

d. The date and location of the incident; and

e. A statement that the first responder's injury or injuries were:

(I) Directly and proximately caused by service in the line of duty.

(II) Without willful negligence on the part of the first responder.

(III) The sole cause of the first responder's total and permanent disability.

2. If the first responder's total and permanent disability was caused by a cardiac event, the employer must also certify that the requirements of subsection (6) are satisfied.

3. The employer certificate must be supplemented with extant documentation of the incident or event that caused the injury, such as an accident or incident report. The applicant may deliver the original employer certificate to the property appraiser's office or the employer may directly transmit the employer certificate to the applicable property appraiser.

(c) A certificate from a physician licensed in this state under chapter 458 or chapter 459 which certifies that the applicant is totally and permanently disabled and that such disability renders the applicant unable to engage in any substantial gainful occupation due to an impairment of the mind or body, which condition is reasonably certain to continue throughout the life of the applicant. The physician certificate shall read as follows:

FIRST RESPONDER'S
PHYSICIAN CERTIFICATE OF
TOTAL AND PERMANENT DISABILITY

I,...(name of physician)..., a physician licensed pursuant to chapter 458 or chapter 459, Florida Statutes, hereby certify that Mr.....Mrs.....Miss.... Ms.....(applicant name and social security number)..., is totally and permanently disabled due to an impairment of the mind or body, and such impairment renders him or her unable to engage in any substantial gainful occupation, which condition is reasonably certain to continue throughout his or her life. This is due to the following mental or physical condition(s):

It is my professional belief that the above-named condition(s) render Mr.....Mrs.....Miss.... Ms.....(applicant name)... totally and permanently disabled and that the foregoing statements are true, correct, and complete to the best of my knowledge and professional belief.

Signature....
Address...(print)...
Date....
Florida Board of Medicine or Osteopathic Medicine license number
Issued on.....

NOTICE TO TAXPAYER: Each Florida resident applying for an exemption due to a disability that occurred in the line of duty

while serving as a first responder must present to the county property appraiser a copy of this form, an award letter from the Social Security Administration, and a certificate from the employer for whom the applicant worked as a first responder at the time of the injury, as required by section 196.102(5), Florida Statutes. This form is to be completed by a licensed Florida physician.

NOTICE TO TAXPAYER AND PHYSICIAN: Section 196.102(10), Florida Statutes, provides that any person who knowingly and willingly gives false information for the purpose of claiming the homestead exemption for totally and permanently disabled first responders commits a misdemeanor of the first degree, punishable by a term of imprisonment not exceeding 1 year or a fine not exceeding $5,000, or both.

(6) A total and permanent disability that results from a cardiac event does not qualify for the exemption provided in this section unless the cardiac event occurs no later than 24 hours after the first responder performed nonroutine stressful or strenuous physical activity in the line of duty and the first responder provides the employer with medical evidence showing that:

(a) The nonroutine stressful or strenuous activity directly and proximately caused the cardiac event that gave rise to the total and permanent disability; and

(b) The cardiac event was not caused by a preexisting vascular disease.

(7) An applicant that is granted the exemption under this section has a continuing duty to notify the property appraiser

of any changes in his or her status with the Social Security Administration or in employment or other relevant changes in circumstances which affect his or her qualification for the exemption.

(8) The tax exemption carries over to the benefit of the surviving spouse as long as the surviving spouse holds the legal or beneficial title to the homestead, permanently resides thereon as specified in s. 196.031, and does not remarry. If the surviving spouse sells the property, an exemption not to exceed the amount granted under the most recent ad valorem tax roll may be transferred to the new residence if it is used as the surviving spouse's primary residence and he or she does not remarry.

(9) An applicant may apply for the exemption before producing the necessary documentation described in subsection (4) or subsection (5). Upon receipt of the documentation, the exemption must be granted as of the date of the original application and the excess taxes paid must be refunded. Any refund of excess taxes paid must be limited to those paid during the 4-year period of limitation set forth in s. 197.182(1)(e).

(10) A person who knowingly or willfully gives false information for the purpose of claiming the exemption provided in this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or by a fine of not more than $5,000, or both.

(11) Notwithstanding s. 196.011 and this section, the deadline for a first responder to file an application with the property appraiser for an exemption under this section for the 2017 tax year is August 1, 2017.

(12) If an application is not timely filed under subsection (11), a property appraiser may grant the exemption if:

(a) The applicant files an application for the exemption on or before the 25th day after the mailing of the notice required under s. 194.011(1) by the property appraiser during the 2017 calendar year;

(b) The applicant is qualified for the exemption; and

(c) The applicant produces sufficient evidence, as determined by the property appraiser, which demonstrates that the applicant was unable to apply for the exemption in a timely manner or otherwise demonstrates extenuating circumstances that warrant granting the exemption.

(13) If the property appraiser denies an exemption under subsection (11) or subsection (12), the applicant may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting that the exemption be granted. Notwithstanding s. 194.013, the eligible first responder is not required to pay a filing fee for such petition filed on or before December 31, 2017. Upon review of the petition, the value adjustment board shall grant the exemption if it determines the applicant is qualified and has demonstrated the existence of extenuating circumstances warranting the exemption.

(14) The Department of Revenue may, and all conditions are deemed to be met to, adopt emergency rules pursuant to ss. 120.536(1) and 120.54 to administer the application process for the 2017 calendar year. This subsection expires August 30, 2018.

Section 3. This act operates retroactively to January 1, 2017.

Section 4. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/CS/SB 764 provides an exemption from ad valorem taxation for the homestead of a first responder who has a total and permanent disability as a result of injuries sustained in the line of duty and to his or her surviving spouse.

The bill also provides application requirements and specifies documentation required to receive the exemption, including documentation from the Social Security Administration, and a physician's and an employer's certificate. Additionally, the bill provides penalties for any person submitting false information for purposes of claiming the exemption.

The Revenue Estimating Conference estimates that the bill will reduce local governments' property tax receipts by $2.88 million per year, beginning in Fiscal Year 2017-2018.

The bill takes effect upon becoming law and applies to the 2017 tax roll.

II. Present Situation:

General Overview of Property Taxation

The ad valorem tax or "property tax" is an annual tax levied by counties, municipalities, school districts, and some special districts. The tax is based on the taxable value of property as of

January 1 of each year.[1] The property appraiser annually determines the "just value"[2] of property within the taxing authority and then applies relevant exclusions, assessment limitations, and exemptions to determine the property's "taxable value."[3] Tax bills are mailed in November of each year based on the previous January 1 valuation, and payment is due by March 31 of the following year.

The Florida Constitution prohibits the state from levying ad valorem taxes,[4] and it limits the Legislature's authority to provide for property valuations at less than just value, unless expressly authorized.[5]

The just valuation standard generally requires the property appraiser to consider the highest and best use of property;[6] however, the Florida Constitution authorizes certain types of property to be valued based on their current use (classified use assessments), which often result in lower assessments. Properties that receive classified use treatment in Florida include agricultural land, land producing high water recharge to Florida's aquifers, and land used exclusively for noncommercial recreational purposes;[7] land used for conservation purposes;[8] historic properties when authorized by the county or municipality;[9] and certain working waterfront property.[10]

Property Tax Exemptions

The Legislature may only grant property tax exemptions that are authorized in the Florida Constitution, and any modifications to existing property tax exemptions must be consistent with the constitutional provision authorizing the exemption.[11] The following information discusses the exemptions that disabled persons may receive.

Homestead Exemption

Although not specific to disabled persons, the Florida Constitution provides that every person having legal and equitable title to real estate and who maintains a permanent residence on the real estate (homestead property) is eligible for a $25,000 homestead tax exemption applicable to

[1] Both real property and tangible personal property are subject to tax. Section 192.001(12), F.S., defines "real property" as land, buildings, fixtures, and all other improvements to land. Section 192.001(11)(d), F.S., defines "tangible personal property" as all goods, chattels, and other articles of value capable of manual possession and whose chief value is intrinsic to the article itself.
[2] Property must be valued at "just value" for purposes of property taxation, unless the Florida Constitution provides otherwise. FLA. CONST. art VII, s. 4. Just value has been interpreted by the courts to mean the fair market value that a willing buyer would pay a willing seller for the property in an arm's-length transaction. *See Walter v. Shuler,* 176 So. 2d 81 (Fla. 1965); *Deltona Corp. v. Bailey,* 336 So. 2d 1163 (Fla. 1976); *Southern Bell Tel. & Tel. Co. v. Dade County,* 275 So. 2d 4 (Fla. 1973).
[3] *See* s. 192.001(2) and (16), F.S.

[5] *See* FLA. CONST. art. VII, s. 4.
[6] Section 193.011(2), F.S.
[7] FLA. CONST. art. VII, s. 4(a).
[8] FLA. CONST. art. VII, s. 4(b).
[9] FLA. CONST. art. VII, s. 4(e).
[10] FLA. CONST. art. VII, s. 4(j).
[11] *Sebring Airport Auth. v. McIntyre*, 783 So. 2d 238, 248 (Fla. 2001); *Archer v. Marshall,* 355 So. 2d 781, 784 (Fla. 1978); *Am Fi Inv. Corp. v. Kinney,* 360 So. 2d 415 (Fla. 1978); *See also Sparkman v. State*, 58 So. 2d 431, 432 (Fla. 1952).

all ad valorem tax levies, including levies by school districts.[12] An additional $25,000 homestead exemption applies to a homestead's property value between $50,000 and $75,000; however, the additional exemption does not apply to ad valorem taxes levied by school districts.[13]

General Disability Exemption

The Florida Constitution provides broad authority for exemptions from property taxes for widows and widowers, blind persons, and persons who are totally and permanently disabled.[14] The Legislature has implemented this provision through various property tax exemptions in ch. 196, F.S.

Full Homestead Exemption for Blind Persons and Quadriplegic, Paraplegic, Hemiplegic, and Totally and Permanently Disabled Persons Confined to Wheelchairs

Section 196.101, F.S., provides a full property tax exemption for any real estate used and owned as a homestead by any quadriplegic, paraplegic, hemiplegic, or other totally and permanently disabled person who must use a wheelchair for mobility, or who is legally blind.[15] Generally, in order to qualify for the exemption, the taxpayer must submit evidence of such disability as certified by two licensed physicians of this state or the United States Department of Veterans Affairs or its predecessor.[16] Except for a quadriplegic, applicants must also show that they meet certain income limitations.[17]

Full Homestead Exemption for Totally and Permanently Disabled Veterans

Section 196.081(1), F.S., provides a full property tax exemption for the homesteads of totally and permanently disabled veterans who were honorably discharged with a service-connected disability and have a letter from the United States Government certifying their disability.

Full Homestead Exemption for Veterans confined to Wheelchairs

Section 196.091, F.S., provides a full property tax exemption for the homesteads of totally disabled veterans who were honorably discharged with a service-connected disability and have a letter from the United States Government certifying that the ex-service member is receiving or has received special pecuniary assistance for specially adopted housing due to the ex-service member's need for a wheelchair.

Proportional Homestead Discount for Combat-disabled Veterans

The Florida Constitution provides a property tax discount to honorably discharged veterans, age 65 or older, who are permanently disabled due to a combat-related injury.[18] The discount applies for partial or total disabilities. For partially disabled persons, the discount is in proportion to the percentage of their disability.

[17] Section 196.101(4), F.S.
[18] FLA. CONST. art. VII, s. 6(e); s. 196.082, F.S.

Homestead Exemption for Surviving Spouses of Veterans and First Responders

Although not specific to disabled persons, the Florida Constitution also authorizes the Legislature to provide, by general law, ad valorem tax relief to the surviving spouse of a veteran who died from service-connected causes while on active duty as a member of the United States Armed Forces, as well as the surviving spouse of a first responder who died in the line of duty.[19] This constitutional provision is implemented in s. 196.081, F.S. The Constitution defines "first responder" as a law enforcement officer, a correctional officer, a firefighter, an emergency medical technician, or a paramedic.[20]

The Constitution defines "in the line of duty" as arising out of and in the actual performance of duty required by employment as a first responder.[21] This term is further defined in statute to include:

- While engaging in law enforcement;
- While performing an activity relating to fire suppression and prevention;
- While responding to a hazardous material emergency;
- While performing rescue activity;
- While providing emergency medical services;
- While performing disaster relief activity;
- While otherwise engaging in emergency response activity; or
- While engaging in a training exercise related to any of the events or activities listed above if the training has been authorized by the employing entity.[22]

2016 Constitutional Amendment for First Responders – Amendment 3

In the general election held on November 8, 2016, the electors authorized the Legislature to grant property tax relief to certain disabled first responders.[23,24,25]

Under the amendment, the Legislature is authorized to provide property tax relief to first responders who are totally and permanently disabled as a result of injuries sustained in the line of duty; however, the causal connection between a disability and service in the line of duty shall not be presumed, and disability, for purposes of the amendment, does not include a chronic condition or chronic disease, unless the injury sustained in the line of duty was the sole cause of the chronic condition or chronic disease.[26]

The amendment took effect on January 1, 2017.

[24] FLA. CONST. art. VII, s. 6(f)(3).
[25] The Legislature proposed the amendment through HJR 1009 (2016).
[26] FLA. CONST. art. VII, s. 6(f)(3).

III. Effect of Proposed Changes:

Section 1 of the bill amends s. 196.011(1)(b), F.S., to add a reference to the exemption for certain totally and permanently disabled first responders and for their surviving spouses contained in newly created s. 196.102, F.S., to the list of exemptions for which the application form must include a space for social security numbers of the applicant and the applicant's spouse.

Section 2 of the bill creates s. 196.102, F.S., creating a full property tax exemption for homestead property owned by a person who has a total and permanent disability as a result of an injury received in the line of duty as a first responder. The person must be a resident of this state on January 1 of the year for which the exemption is claimed.

The bill defines "first responder" as a law enforcement officer or correctional officer as defined in s. 943.10, F.S.,[27] a firefighter as defined in s. 633.102, F.S.,[28] or an emergency medical technician or paramedic as defined in s. 401.23, F.S.,[29] who is a full-time paid employee, part-time paid employee, or unpaid volunteer.

The bill defines "cardiac event" as a heart attack, stroke, or vascular rupture.

The bill defines "in the line of duty" to mean:

- While engaging in activities within the course and scope of employment as a first responder;
- While performing an activity relating to fire suppression and prevention;
- While responding to a hazardous material emergency;
- While performing rescue activity;
- While providing emergency medical services;
- While performing disaster relief activity;
- While otherwise engaging in emergency response activity; or
- While engaging in a training exercise related to any of the events or activities listed above if the training has been authorized by the employing entity.

[27] Section 943.10(1), F.S., defines "law enforcement officer" as any person who is elected, appointed, or employed full-time by any municipality or the state or any political subdivision thereof; who is vested with authority to bear arms and make arrests; and whose primary responsibility is the prevention and detection of crime or the enforcement of the penal, criminal, traffic, or highway laws of the state. This definition includes all certified supervisory and command personnel whose duties include, in whole or in part, the supervision, training, guidance, and management responsibilities of full-time law enforcement officers, part-time law enforcement officers, or auxiliary law enforcement officers but does not include support personnel employed by the employing agency. Section 943.10(2), F.S., defines "correctional officer" as any person who is appointed or employed full-time by the state or any political subdivision thereof, or by any private entity which has contracted with the state or county, and whose primary responsibility is the supervision, protection, care, custody, and control, or investigation, of inmates within a correctional institution; however, the term "correctional officer" does not include any secretarial, clerical, or professionally trained personnel.

[28] Section 633.102(9), F.S., defines "firefighter" as an individual who holds a current and valid Firefighter Certificate of Compliance or Special Certificate of Compliance issued by the Division of State Fire Marshal within the Department of Financial Services under s. 633.408, F.S.

[29] Section 401.23(11), F.S., defines "emergency medical technician" as a person who is certified by the Department of Health to perform basic life support pursuant to part III of ch. 401, F.S. Section 401.23(17), F.S., defines "paramedic" as a person who is certified by the Department of Health to perform basic and advanced life support pursuant to this part.

The bill defines "total and permanent disability" as an impairment of the mind or body which renders a first responder unable to engage in a substantial gainful occupation and which is reasonably certain to continue throughout his or her life.[30]

The bill provides that total and permanent disability that results from a cardiac event does not qualify for the exemption unless the cardiac event occurs no later than 24 hours after the first responder performed nonroutine stressful or strenuous physical activity in the line of duty. The first responder must provide the employer with a certificate from the first responder's treating cardiologist for the cardiac event, along with pertinent supporting documentation, showing that:

- The nonroutine stressful or strenuous activity directly and proximately caused the cardiac event that gave rise to the first responder's total and permanent disability; and
- The cardiac event was not caused by preexisting vascular disease.

The bill allows the first responder to qualify for the exemption using one of two methods.

Under method one, the first responder can qualify by providing a certificate from the organization that employed the first responder at the time that the injury or injuries occurred and by demonstrating that he or she qualifies for the homestead exemption for totally and permanently disabled persons provided in s. 196.101, F.S. (*See* discussion supra, page 3).

Under method two, if the first responder provides the following documents to the property appraiser of the county where the property is located, the documents serve as prima facie evidence that the first responder is entitled to the exemption:

- Documentation from the Social Security Administration stating that the first responder is totally and permanently disabled;
- A certificate of total and permanent disability, in a specified form, from a physician licensed in this state, attesting that the applicant's total and permanent disability is reasonably expected to continue for the duration of the applicant's life.
- A certificate from the organization that employed the first responder at the time that the injury or injuries occurred.

Under method two, if the first responder does not qualify for disability benefits and thus is unable to have his or her disability evaluated by the Social Security Administration, the first responder may instead provide documentation from the Social Security Administration stating that the first responder is not eligible to be evaluated and provide certificates of total and permanent disability from two professionally unrelated physicians, rather than the one certificate normally required.

Physician's Certification of Total and Permanent Disability

The bill requires the physician's certificate to include specified information regarding the applicant's total and permanent disability. The physician must certify that the applicant, identified by name and social security number, is totally and permanently disabled. The physician must also list the disabling condition. Additionally, the physician's certificate must include a notice to the taxpayer that each Florida resident applying for an exemption must

[30] This standard is based on the standard used by the Veterans Administration. *See* 38 C.F.R. s. 3.340(a) and (b).

present to the county property appraiser the required physician certificate(s), the required documentation from the Social Security Administration, and a letter from the first responder's employer. Each form is to be completed by a licensed Florida physician. The physician's certificate must also include a notice to the taxpayer and the physician that any person who knowingly and willfully gives false information for the purpose of claiming the homestead exemption commits a misdemeanor of the first degree, punishable by up to 1 year in prison, a fine up to $5,000, or both.

Employer Certificate

The employer certificate must, at a minimum, attest and include the title of the person signing the certificate, the name and address of the employing entity, a description of the incident that caused the injury or injuries, and a statement that the first responder's injury or injuries were:

- Directly and proximately caused by service in the line of duty.
- Without willful negligence on the part of the first responder.
- The sole cause of the first responder's total and permanent disability.
- If the total and permanent disability resulted from a cardiac event, the employer must also certify that the cardiac event occurred no later than 24 hours after the first responder performed nonroutine stressful or strenuous physical activity in the line of duty and the first responder has provided the employer with medical evidence showing that the nonroutine stressful or strenuous activity directly and proximately caused the cardiac event that gave rise to the total and permanent disability, and that the cardiac event was not caused by a preexisting vascular disease.

In addition, the employer certificate must be supplemented with extant documentation of the incident or event that caused the injury, such as an accident or incident report. The first responder may deliver the original employer certificate to the property appraiser's office or the first responder's employer may directly transmit the employer certificate to the applicable property appraiser.

Surviving Spouse

The bill provides that the tax exemption carries over to the surviving spouse as long as the surviving spouse holds the legal or beneficial title to the homestead, permanently resides thereon, and does not remarry. If the surviving spouse sells the property, an exemption not to exceed the amount granted under the most recent ad valorem tax roll may be transferred to the new residence if it is used as the surviving spouse's primary residence and he or she does not remarry.

Application for Exemption

The bill provides that a first responder may apply for the exemption before producing the necessary documentation. Upon receipt of the documentation, the property appraiser will grant the exemption as of the date of the original application and the excess taxes paid shall be

refunded. Any refund of excess taxes paid is limited to those paid during the 4-year period of limitation set forth in s. 197.182(1)(e), F.S.[31]

The provisions of s. 196.011(9), F.S., for waiving the requirement for property owners to submit an annual application to the property appraiser also apply to applications made under this section.

Penalties

The bill provides that any person who knowingly or willfully gives false information for the purpose of claiming homestead exemption under this section is guilty of a misdemeanor of the first degree, punishable as provided in s. 775.082, F.S.,[32] or by fine of not more than $5,000, or both.

Administrative Rules

The bill authorizes and provides that the Department of Revenue may adopt emergency rules pursuant to ss. 120.536(1) and 120.54, F.S., for the administration of the application process for the 2017 calendar year. This provision is repealed on August 30, 2018.

The bill provides that notwithstanding the provisions of ss. 196.011 and 196.102, F.S., the deadline for a first responder to file an application with the property appraiser for an exemption under s. 196.102, F.S., for the 2017 tax year is August 1, 2017.

The property appraiser may grant an application for an exemption that is filed untimely for the 2017 tax roll if:

- The applicant is qualified for the exemption; and
- The applicant produces sufficient evidence, as determined by the property appraiser, which demonstrates that the applicant was unable to apply for the exemption in a timely manner or otherwise demonstrates extenuating circumstances that warrant granting the exemption.

If the property appraiser denies an application for the 2017 tax roll, the applicant may file a petition with the value adjustment board as set forth in s. 194.011(3), F.S. The petition must be filed on or before the 25th day after the mailing by the property appraiser during the 2017 calendar year of the notice required under s. 194.011(1), F.S. Notwithstanding s. 194.013, F.S., the applicant is not required to pay a filing fee for such petition. Upon review of the petition, the value adjustment board shall grant the exemption if it determines the applicant is qualified and has demonstrated the existence of extenuating circumstances warranting the exemption.

Section 3 of the bill specifies that the act operates retroactively to January 1, 2017.

Section 4 of the bill provides that it takes effect upon becoming a law.

[31] A claim for refund may not be granted unless the claim is made within 4 years after January 1 of the tax year for which the taxes were paid.
[32] A person convicted of a misdemeanor of the first degree may be sentenced by a definite term of imprisonment not exceeding 1 year.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

Article VII, s. 18(b) of the Florida Constitution provides that, except upon the approval of each house of the Legislature by a two-thirds vote of the membership, the Legislature may not enact, amend, or repeal any general law if the anticipated effect of doing so would be to reduce the authority that municipalities or counties have to raise revenue in the aggregate, as such authority existed on February 1, 1989. However, the mandate requirements do not apply to laws having an insignificant impact, which for Fiscal Year 2016-2017 was $2 million or less.[33,34,35]

The bill reduces counties' and municipalities' authority to raise revenue by reducing ad valorem tax bases compared to the tax bases that would exist under current law. However, the bill is expected to have an insignificant impact on counties and municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The Revenue Estimating Conference estimates that the bill will reduce local governments' property tax revenues by $2.88 million per year, beginning in Fiscal Year 2017-2018. Of the $2.88 million impact, the impact to schools is $1.24 million and the impact to counties and municipalities is $1.64 million.

B. Private Sector Impact:

Homestead owners who were totally and permanently disabled in the line of duty as a first responder will pay less property taxes.

C. Government Sector Impact:

None.

---

[33] FLA. CONST. art. VII, s. 18(d).

[34] An insignificant fiscal impact is the amount not greater than the average statewide population for the applicable fiscal year times $0.10. *See* Florida Senate Committee on Community Affairs, *Interim Report 2012-115: Insignificant Impact*, (Sept. 2011), *available at* http://www.flsenate.gov/PublishedContent/Session/2012/InterimReports/2012-115ca.pdf (last visited April 24, 2017).

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 196.011 of the Florida Statutes.

This bill creates section 196.102 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS/CS by Appropriations on April 25, 2017:
The committee substitute:

- Deletes the definition of "disabled" and inserts a new definition for "total and permanent disability";
- Allows an applicant to qualify for the exemption by providing an employer certificate and demonstrating that the applicant qualifies for the totally and permanently disabled exemption in s. 196.081, F.S.;
- Requires applicants to obtain a disability determination from the Social Security Administration;
- Reduces the number of physician certifications from 2 to 1, except when the applicant does not qualify for a disability determination by the Social Security Administration; and
- Deletes an unnecessary grant of permanent rulemaking authority for the Department of Revenue.

CS/CS by Community Affairs on March 22, 2017:

- Revises the physician's required certification form to include disclaimers to the taxpayer and physician;
- Removes a provision that extended the deadline for a property appraiser to serve notice setting his or her grounds for denial of the exemption in certain circumstances; and
- Makes a technical change for the act to apply retroactively, rather than prospectively, to the 2017 tax roll.

CS by Governmental Oversight and Accountability on March 6, 2017:

- Leaves s. 196.091(6), F.S.,(exemption for surviving spouse of first responder who dies in the line of duty) where it is in statute and does not move this exemption to newly created s. 196.02, F.S.;
- Adds definition of "cardiac event" and revises definition of "in the line of duty";

- Revises application requirements to remove Department of Veteran Affairs as an option for providing physician letter;
- Revises application procedures to allow first responder to deliver employer certification to property appraiser;
- Revises procedures for denying exemption by property appraiser and provides additional time to issue notice of denial from date of application; and
- Changes effective date from July 1, 2017, to effective upon becoming a law.

B. Amendments:

None.

By the Committees on Community Affairs; and Governmental Oversight and Accountability; and Senator Baxley

578-02732-17 2017764c2

A bill to be entitled

An act relating to ad valorem taxation; amending s. 196.011, F.S.; specifying the information to be included in an application for certain tax exemptions; creating s. 196.102, F.S.; providing definitions; providing an exemption from ad valorem taxation for certain first responders under specified conditions; providing an exemption from ad valorem taxation for certain surviving spouses of first responders who have died; specifying the documentation required to receive the exemption; providing a criminal penalty for knowingly or willingly giving false information for a certain purpose; granting rulemaking authority; specifying a deadline for applying for the exemption; authorizing property appraisers, under certain circumstances, to grant exemptions for untimely filed applications; providing procedures and requirements for petitioning value adjustment boards regarding denied exemptions; providing retroactive applicability; providing construction; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (b) of subsection (1) of section 196.011, Florida Statutes, is amended to read:

196.011 Annual application required for exemption.—

(1)

(b) The form to apply for an exemption under s. 196.031, s. 196.081, s. 196.091, s. 196.101, s. 196.102, s. 196.173, or s. 196.202 must include a space for the applicant to list the social security number of the applicant and of the applicant's spouse, if any. If an applicant files a timely and otherwise complete application, and omits the required social security numbers, the application is incomplete. In that event, the property appraiser shall contact the applicant, who may refile a complete application by April 1. Failure to file a complete application by that date constitutes a waiver of the exemption privilege for that year, except as provided in subsection (7) or subsection (8).

Section 2. Section 196.102, Florida Statutes, is created to read:

196.102 Exemption for certain totally and permanently disabled first responders and their surviving spouses.—

(1) As used in this section, and not applicable to the payment of benefits under s. 112.19 or s. 112.191, the term:

(a) "Disabled" means a physical or cognitive impairment that constitutes or results in a substantial impediment to employment as a first responder. The term does not include a chronic condition or chronic disease, unless the injury sustained in the line of duty was the sole cause of the chronic condition or chronic disease.

(b) "First responder" means a law enforcement officer or correctional officer as defined in s. 943.10, a firefighter as defined in s. 633.102, or an emergency medical technician or paramedic as defined in s. 401.23 who is a full-time paid employee, part-time paid employee, or unpaid volunteer.

(c) "Cardiac event" means a heart attack, stroke or

vascular rupture.

(d) "In the line of duty" means:

1. While engaging in activities within the course and scope of employment as a first responder;

2. While performing an activity relating to fire suppression and prevention;

3. While responding to a hazardous material emergency;

4. While performing rescue activity;

5. While providing emergency medical services;

6. While performing disaster relief activity;

7. While otherwise engaging in emergency response activity; or

8. While engaging in a training exercise related to any of the events or activities enumerated in this paragraph if the training has been authorized by the employing entity.

(2) Any real estate that is owned and used as a homestead by a person who is totally and permanently disabled as a result of an injury or injuries sustained in the line of duty while serving as a first responder is exempt from taxation if the first responder is a permanent resident of this state on January 1 of the tax year for which the exemption is being claimed.

(3) The following documents, if provided to the property appraiser of the county where the property is located, serve as prima facie evidence that the first responder is entitled to the exemption:

(a) A certificate of total and permanent disability, in the form set forth in subsection (7), from two licensed physicians of this state who are professionally unrelated, attesting to the applicant's total and permanent disability.

(b) A certificate from the organization that employed the first responder at the time that the injury or injuries occurred. The employer certificate must contain, at a minimum, the information identified in subsection (8). The employer certificate shall be supplemented with extant documentation of the incident or event that caused the injury, such as an accident or incident report. The first responder may deliver the original employer certificate to the property appraiser's office or the first responder's employer may directly transmit the employer certificate to the applicable property appraiser.

Total and permanent disability that results from a cardiac event does not qualify for the exemption provided in this section unless the cardiac event occurs no later than 24 hours after the first responder performed nonroutine stressful or strenuous physical activity in the line of duty and the first responder provides the employer with competent medical evidence showing that:

1. The nonroutine stressful or strenuous activity directly and proximately caused the cardiac event that gave rise to the first responder's total and permanent disability; and

2. The cardiac event was not caused by preexisting vascular disease.

(4)(a) Any real estate owned and used as a homestead by the surviving spouse of a first responder who died but who had been receiving a tax exemption under subsection (2), is exempt from taxation.

(b) The tax exemption provided in paragraph (a) applies as long as the surviving spouse holds the legal or beneficial title

to the homestead, permanently resides thereon as specified in s. 196.031, and does not remarry. If the surviving spouse sells the property, an exemption not to exceed the amount granted under the most recent ad valorem tax roll may be transferred to the new residence if it is used as the surviving spouse's primary residence and he or she does not remarry.

(5) A first responder may apply for the exemption before producing the necessary documentation described in paragraphs (3)(a) or (b). Upon receipt of the documentation, the exemption shall be granted as of the date of the original application and the excess taxes paid shall be refunded. Any refund of excess taxes paid shall be limited to those paid during the 4-year period of limitation set forth in s. 197.182(1)(e).

(6) The provisions of s. 196.011(9) waiving the requirement that an annual application be submitted to the property appraiser and providing lien authority are applicable to applications submitted pursuant to this section.

(7) The physician's certification shall read as follows:

PHYSICIAN'S CERTIFICATION OF
TOTAL AND PERMANENT DISABILITY

I,...(name of physician)..., a physician licensed pursuant to chapter 458 or chapter 459, Florida Statutes, hereby certify that Mr.....Mrs.....Miss.... Ms.....(applicant name and social security number)..., is totally and permanently disabled, due to the following mental or physical condition(s):

...(Physical or cognitive impairment that constitutes or results

in a substantial impediment to employment as a first responder)...

...(Chronic condition or chronic disease solely caused by an injury sustained in the line of duty as a first responder)...

It is my professional belief that the above-named condition(s) render Mr.....Mrs.....Miss.... Ms.....(applicant name)... totally and permanently disabled, and that the foregoing statements are true, correct, and complete to the best of my knowledge and professional belief.

Signature....
Address...(print)...
Date....
Florida Board of Medicine or Osteopathic Medicine license number
Issued on.....

NOTICE TO TAXPAYER: Each Florida resident applying for an exemption due to a disability that occurred in the line of duty while serving as a first responder must present to the county property appraiser a copy of this form and a letter from the employer for whom the first responder worked at the time of the injury, as required by section 196.102(8), Florida Statutes. Each form is to be completed by a licensed Florida physician.

NOTICE TO TAXPAYER AND PHYSICIAN: Section 196.131(2), Florida Statutes, provides that any person who knowingly and willingly gives false information for the purpose of claiming homestead exemption commits a misdemeanor of the first degree, punishable

by a term of imprisonment not exceeding 1 year or a fine not exceeding $5,000, or both.

(8) An employer for whom the first responder worked at the time of the injury must provide a certificate that, at a minimum, attests and includes:

(a) The title of the person signing the certificate.

(b) The name and address of the employing entity.

(c) A description of the incident that caused the injury or injuries.

(d) A statement that the first responder's injury or injuries were:

1. Directly and proximately caused by service in the line of duty.

2. Without willful negligence on the part of the first responder.

3. The sole cause of the first responder's total and permanent disability.

(9) Any person who knowingly or willfully gives false information for the purpose of claiming homestead exemption as set forth in this section commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or by fine of not more than $5,000, or both.

(10) The Department of Revenue may, and all conditions are deemed to be met to, adopt emergency rules pursuant to ss. 120.536(1) and 120.54 to administer the application process for the 2017 calendar year. This subsection is repealed on August 30, 2018.

(11) The Department of Revenue may adopt rules to administer this section.

(12) Notwithstanding s. 196.011 and this section, the deadline for a first responder to file an application with the property appraiser for an exemption under this section for the 2017 tax year is August 1, 2017.

(13) If an application is not timely filed under subsection (12), a property appraiser may grant the exemption if:

(a) The applicant files an application for the exemption on or before the 25th day after the mailing of the notice required under s. 194.011(1) by the property appraiser during the 2017 calendar year;

(b) The applicant is qualified for the exemption; and

(c) The applicant produces sufficient evidence, as determined by the property appraiser, which demonstrates that the applicant was unable to apply for the exemption in a timely manner or otherwise demonstrates extenuating circumstances that warrant granting the exemption.

(14) If the property appraiser denies an exemption under subsection (12) or subsection (13), the applicant may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting the exemption be granted. Notwithstanding s. 194.013, the eligible first responder is not required to pay a filing fee for such petition filed on or before December 31, 2017. Upon review of the petition, the value adjustment board shall grant the exemption if it determines the applicant is qualified and has demonstrated the existence of extenuating circumstances warranting the exemption.

Section 3. This act operates retroactively to the 2017 tax roll and does not provide a basis for relief from an assessment of taxes not paid or create a right to a refund of taxes paid

before January 1, 2017.

Section 4. This act shall take effect upon becoming a law.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 776
INTRODUCER:	Communications, Energy, and Public Utilities Committee; Criminal Justice Committee; and Senator Baxley
SUBJECT:	Unlawful Acquisition of Utility Services
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Jones	Hrdlicka	CJ	**Fav/CS**
2.	Caldwell	Caldwell	CU	**Fav/CS**
3.	McAuliffe	Sadberry	ACJ	**Recommend: Favorable**
4.	McAuliffe	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 776 revises provisions relating to utility theft as follows:

- Requires a court to include certain specified amounts in its order for civil damages or restitution related to the theft and labor costs.
- Allows the state to make a prima facie showing of the estimated losses of unlawfully obtained electric services based on any methodology reasonably relied upon by utilities.
- Allows the methodology to consider the estimated start date of the theft and the estimated daily or hourly use of electricity.
- Provides specified criteria to determine the estimated start date of the theft and the estimated daily or hourly use of electricity.
- Requires that once the state has made a prima facie showing the burden shifts to the defendant to demonstrate that the loss is something other than that claimed by the utility.
- Allows the court to order a defendant to pay restitution for damages to the property of a utility or for the theft of electricity for criminal offenses that are causally connected to the utility theft.

The bill may have a positive fiscal impact on public and private utilities to the extent that additional restitution is made to those utilities relating to theft of utilities.

The bill is effective October 1, 2017.

II. Present Situation:

Theft of Utilities and Marijuana

As the cost of electricity increases, the rate of theft of electricity goes up.[1] The utility industry estimates that energy theft losses are $6 billion a year.[2] In Canada, the majority of electricity theft comes from the indoor cultivation of marijuana. The United States and Florida in particular are seeing an increase in indoor marijuana grow operations.[3]

A man in Tampa was arrested for growing marijuana and stealing over $4,500 in electricity over a 3-month period. Authorities discovered an illegal tap was supplying the unmetered power to the house where the man was growing marijuana.[4] In Brooksville, Florida, the Withlacoochee River Electric Cooperative informed the Hernando County Sheriff's Office of three different locations where irregular power usage had been detected. The sheriff's office executed search warrants and found extensive marijuana grow operations at all three locations. The cooperative approximated that its total loss due to the theft and labor costs for all three locations was over $143,000.[5]

Section 812.14, F.S., Theft of Utilities

A utility is any person, firm, corporation, association, or political subdivision, whether private, municipal, county, or cooperative, which is engaged in the sale, generation, provision, or delivery of gas, electricity, heat, water, oil, sewer service, telephone service, telegraph service, radio service, or telecommunication service.

Section 812.14(2), F.S., makes it a crime to:

- Willfully alter, tamper with, injure, or knowingly cause to be injured any meter, meter seal, pipe, conduit, wire, line, cable, transformer, amplifier, or other apparatus or device belonging to a utility line service which causes loss or damage or to prevent any meter installed for registering from registering the quantity used;
- Alter the index or break the seal of any meter;
- Hinder or interfere with any meter or device; or
- Knowingly use, waste, or cause the waste of electricity or gas or water passing through any meter, wire, pipe, or fitting, or other appliance or appurtenance connected with or belonging

to any utility, after the meter, wire, pipe or fitting, or other appliance or appurtenance has been tampered with, injured, or altered.[6]

It is also a crime to:

- Make or cause a connection to be made with any wire, main, service pipe or other pipes, appliance, or appurtenance without the consent of the utility and take any service or electricity, gas, or water without the service being measured and reported for payment; or
- Use or receive the direct benefit from the use of a utility with the knowledge, or under such circumstances that would induce a reasonable person to believe, that such use resulted from tampering, altering, or injuring any connection, wire, conductor, meter, pipe, conduit, line, cable, transformer, amplifier, or other apparatus or device owned, operated, or controlled by the utility, for the purpose of avoiding payment.[7]

The penalties for the above-described crimes are based on the value of theft. A theft of utilities valued at:

- $100,000 or more is a first degree felony;[8]
- $20,000 or more but less than $100,000 is a second degree felony;[9]
- $300 or more but less than $20,000 is a third degree felony;[10]
- $100 or more but less than $300 is a first degree misdemeanor;[11] and
- Under $100 is a second degree misdemeanor.[12]

When a person who is in actual possession of property where a devise or alteration affecting the registration or reporting of the use of utility services to avoid payment is present, it is prima facie evidence of a violation of s. 812.14, F.S. This presumption does not apply unless the:

- Presence of the device or alteration can be attributed to a deliberate act in furtherance of an intent to avoid payment for utility services;
- Person charged has received the direct benefit of the reduction of the cost of the utility services; and
- Customer or recipient of the utility services has received the direct benefit of the utility service for at least one full billing cycle.[13]

It is a first degree misdemeanor for a person or entity that owns, leases, or subleases property to allow a tenant or occupant to use utility services knowing, or under such circumstances that a

[6] Section 812.14(2)(a), F.S.
[7] Section 812.14(2)(b) and (c), F.S.
[8] Section 812.014(2)(a)1., F.S. A first degree felony is punishable by up to 30 years imprisonment and a $10,000 fine. Sections 775.082 and 775.083, F.S.
[9] Section 812.014(2)(b)1., F.S. A second degree felony is punishable by up to 15 years imprisonment and a $10,000 fine. Sections 775.082 and 775.083, F.S.
[10] Section 812.014(2)(c), F.S. A third degree felony is punishable by up to 5 years imprisonment and a $5,000 fine. Sections 775.082, 775.083, and 775.084, F.S.
[11] Section 812.014(2)(e), F.S. A first degree misdemeanor is punishable by up to 1 year in jail and a $1,000 fine. Sections 775.082 and 775.083, F.S.
[12] Section 812.014(3)(a), F.S. A second degree misdemeanor is punishable by up to 60 days in county jail and a $500 fine. Sections 775.082 and 775.083, F.S.
[13] Section 812.14(3), F.S.

reasonable person would believe, that the utility services have been connected in one of the above listed ways.[14] It is prima facie evidence of a person's intent to violate this provision if:

- A controlled substance and materials for manufacturing the controlled substance intended for sale or distribution to another were found in a dwelling or structure;
- The dwelling or structure has been visibly modified to accommodate the use of equipment to grow marijuana indoors, including, but not limited to, the installation of equipment to provide additional air conditioning, equipment to provide high-wattage lighting, or equipment for hydroponic cultivation; and
- The person or entity that owned, leased, or subleased the dwelling or structure knew of, or under such circumstances believed, that there was a controlled substance and materials for manufacturing a controlled substance in the dwelling or structure, regardless of whether the person or entity was involved in the manufacture or sale of a controlled substance or was in actual possession of the dwelling or structure.[15]

Theft of Utility Services for the Purpose of Facilitating the Manufacture of a Controlled Substance

Theft of utility services for the purpose of facilitating the manufacture of a controlled substance is punishable as a theft under s. 812.014, F.S.[16] There is prima facie evidence of a person's intent to violate this provision if:

- The person committed theft of utility services that resulted in a dwelling or structure receiving unauthorized access to utility services;[17]
- A controlled substance and materials for manufacturing the controlled substance were found in the dwelling or structure; and
- The person knew of the presence of the controlled substance and materials for manufacturing the controlled substance in the dwelling or structure, regardless of whether the person was involved in the manufacture of the controlled substance.[18]

Public Service Commission Rule 25-6.104, F.A.C.

The Public Service Commission regulates the utilities in Florida through market oversight, monitoring the safety, reliability, and services of the utilities and rate base, and economic regulation.[19] The Public Service Commission rules allow a utility to bill a customer in the event of unauthorized or fraudulent use, or meter tampering. The utility may bill for a reasonable estimate of the energy that was used.[20]

[20] Rule 25-6.104, F.A.C.

Civil Damages

In a civil action, any person who is found to have committed an offense in s. 812.14, F.S., is liable to a utility involved for an amount equal to three times the amount of the services unlawfully obtained or $3,000, whichever is greater.[21]

Restitution in a Criminal Case

Section 775.089, F.S., requires a court to order a defendant to make restitution to the victim for:
- Damage or loss caused directly or indirectly by the defendant's offense; and
- Damage or loss related to the defendant's criminal episode.

When a court determines whether to order restitution and the amount of restitution, it must consider the amount of the loss sustained by the victim because of the offense.[22]

III. Effect of Proposed Changes:

The bill provides that prima facie evidence includes:
- Person knew ***or should have known*** of the presence of the controlled substance and materials for manufacturing the controlled substance in the dwelling or structure.

The bill requires a court to include the following amounts in its order for civil damages under s. 812.14(10), F.S., or criminal restitution for theft of electricity:
- The costs to repair or replace damaged property owned by a utility, including reasonable labor costs.
- Reasonable costs for the use of specialized equipment to investigate or calculate the amount of unlawfully obtained electric services, including reasonable labor costs.
- The amount of unlawfully obtained electric services.

The bill allows the state or a utility to make a prima facie showing of the estimated losses of unlawfully obtained electric services based on any methodology reasonably relied upon by utilities. The methodology may consider the estimated start date of the theft and the estimated daily or hourly use of electricity.

The estimated start date of a theft may be based upon one or more of the following:
- The date of an overload notification from a transformer, or the tripping of a transformer, that the utility reasonably believes was overloaded because of the theft of electricity.
- The date the utility verified a substantive difference between the amount of electricity used at a property and the amount billed to the accountholder.
- The date the utility or a law enforcement officer located a tap or other device bypassing a meter.
- The date the utility or a law enforcement officer observed or verified meter tampering.
- The maturity of a cannabis crop found in a dwelling or structure using unlawfully obtained electric services or the number of cannabis crops the utility or a law enforcement officer reasonably believes to have been grown in the dwelling or structure.

[21] Section 812.14(10), F.S.
[22] Section 775.089(6)(a), F.S.

- The date the utility or a law enforcement agency received a report of suspicious activity potentially indicating the presence of the unlawful cultivation of cannabis in a dwelling or structure or when a law enforcement officer or an employee or contractor of a utility observes such suspicious activity.
- The date when a utility observes a significant change in metered energy usage.
- The date when an account with the utility was opened for a property that receives both metered and unlawfully obtained electric services.
- Any other facts or data reasonably relied upon by utilities to estimate the start date of a theft of electricity.

The estimated average daily or hourly use of the electricity may be based upon any, or a combination, of the following:

- The load imposed by the fixtures, appliances, or equipment powered by unlawfully obtained electric services.
- Recordings by the utility of the amount of electricity used by a property or the difference between the amount used and the amount billed.
- A comparison of the amount of electricity historically used by the property and the amount billed while the property was using unlawfully obtained electricity.
- A reasonable analysis of a meter that was altered or tampered with to prevent the creation of an accurate record of the amount of electricity obtained.
- Any other facts or data reasonably relied upon by utilities to estimate the amount of unlawfully obtained electric services.

Once the state or a utility has made a prima facie showing, the burden shifts to the defendant to demonstrate that the loss is something other than that claimed by the utility.

The bill allows the court to order a defendant to pay restitution for damages to the property of a utility or for the theft of electricity for criminal offenses that are causally connected to the damages or losses and bear a significant relationship to those damages or losses. A conviction for theft of utilities is not required for the court to issue a restitution order.

The bill specifies the criminal offenses that bear a significant relationship and are causally connected to a violation of s. 812.14, F.S., include, but are not limited to, offenses relating to the unlawful cultivation of cannabis in a dwelling or structure if the theft of electricity was used to facilitate the growth of the cannabis.

The monetary threshold of any criminal charge does not limit the restitution amount that a defendant may be ordered to pay.

The bill is effective October 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

This bill does not appear to require counties or municipalities to spend funds or take action requiring the expenditure of funds; reduce the authority that counties or

municipalities have to raise revenues in the aggregate as such authority existed on February 1, 1989; or reduce the percentage of state tax shared with counties or municipalities.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

D. Other Constitutional Issues:

The bill specifies that criminal offenses that bear a significant relationship, and are causally connected, to a violation of s. 812.14, F.S., include, but are not limited to, offenses relating to the unlawful cultivation of cannabis in a dwelling or structure if the theft of electricity was used to facilitate the growth of the cannabis. Section 775.089, F.S., requires, in a restitution hearing, the state to prove the causal relationship between the defendant's offense and the damages or losses. In *J.S.H. v. State*, 472 So.2d 737, 738 (Fla. 1985), the Florida Supreme Court found that the offense charged does not have to describe the damage done for restitution to be ordered, but that the "damage bear a significant relationship to the convicted offense." If the bill allows restitution to be ordered for the theft of utility services when these requirements are not met, it may be found unconstitutional.

Section 775.089(7), F.S., requires that the state prove the amount of loss sustained by a victim by the preponderance of the evidence. The bill specifies that once the state has made a prima facie showing the burden shifts to the defendant to demonstrate that the loss is something other than that claimed by a utility. If this provision shifts the burden to the defendant without the state having to prove the amount of loss by the preponderance of the evidence, and if the bill treats these defendants differently than any other defendant in a restitution hearing, the bill could be found unconstitutional.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

This bill allows the state to seek restitution for utilities for criminal offenses that are causally connected to the damages or losses and bear a significant relationship to those damages or losses. This may result in an indeterminate positive fiscal impact on utilities.

The bill allows utilities to estimate losses of unlawfully obtained electric services based on any reasonably used utility methodology. Utilities could use a methodology that

results in the largest estimate of loss, which could have an indeterminate positive fiscal impact on those utilities.

C. Government Sector Impact:

The bill allows the state to seek restitution for utilities in criminal offenses that are causally connected to the damages or losses and bears a significant relationship to those damages or losses. This may result in a positive indeterminate fiscal impact on public utilities.

The bill allows utilities to estimate losses of unlawfully obtained electric services based on any reasonably used utility methodology. Utilities could use a methodology that results in the largest estimate of loss, which could have an indeterminate positive fiscal impact on public utilities.

VI. Technical Deficiencies:

None.

VII. Related Issues:

In several instances, the bill provides certain criteria for a prima facie showing that can be used to prove start date of theft or estimated use. Those criteria are "that the utility reasonably believes[23]" and "reasonably relied upon by utilities.[24]" This standard suggests that if the utility believes the evidence is reasonable, such evidence meets the prima facie showing. This standard is different from a more general standard of whether it is reasonable for the utility to rely on such evidence or that the court finds to be reasonable. While all are subjective, the latter standards are less so.

VIII. Statutes Affected:

This bill substantially amends section 812.14 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Communications, Energy, and Public Utilities Committee on March 28, 2017:
The committee substitute reverts the penalty from grand theft back to current law.

CS by Criminal Justice on March 21, 2017:
The committee substitute:

- Removes the references "of a diversion" because s. 812.14, F.S., does not criminalize such behavior or define it.

[23] Section 812.14(11)(b)1.a. and (11)(b)2.e., F.S., of the bill.
[24] Section 812.14(11)(b)1.i., F.S., of the bill.

- Replaces the term "grow house" with the terms "dwelling" and "structure" to provide consistency throughout s. 812.14, F.S.
- Deletes proposed changes that would have included a person acting on the behalf of an owner, lessor, or sublessor as a person who could violate s. 812.14(5), F.S.
- Deletes the proposed change that replaced the term "prima facie evidence" with the term "permissive inference."
- Provides that theft of utility services for the purpose of facilitating the manufacture of a controlled substance is a grand theft punishable under s. 812.014, F.S.
- Removes the requirement that the amount of taxes be included in a court's civil damages or restitution order.
- Deletes the proposed change that allowed the number of cannabis crops that could have reasonably been grown to be used to determine the start date of the utility theft.
- Makes technical and stylistic changes.

Changes the effective date from July 1, 2017, to October 1, 2017.

B. Amendments:

None.

By the Committees on Communications, Energy, and Public Utilities; and Criminal Justice; and Senator Baxley

579-02988-17 2017776c2

A bill to be entitled

An act relating to the unlawful acquisition of utility services; amending s. 812.14, F.S.; revising the elements that constitute theft of utilities; clarifying that the presence of certain devices and alterations on the property of, and the actual possession by, a person constitutes prima facie evidence of a violation; clarifying that certain evidence of the manufacturing of a controlled substance in a leased dwelling constitutes prima facie evidence of a violation by an owner, lessor, sublessor; clarifying that specified circumstances create prima facie evidence of theft of utility services for the purpose of facilitating the manufacture of a controlled substance; revising such circumstances; specifying the types of damages that may be recovered as civil damages or restitution in a criminal case for damaging property of a utility or for the theft of electricity services; specifying the methods and bases used to determine and assess damages in a civil action or restitution in a criminal case for damaging property of a utility or for the theft of electricity services; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 812.14, Florida Statutes, is amended to read:

812.14 Trespass and larceny with relation to utility

579-02988-17 2017776c2

fixtures; theft of utility services.—

(1) As used in this section, "utility" includes any person, firm, corporation, association, or political subdivision, whether private, municipal, county, or cooperative, which is engaged in the sale, generation, provision, or delivery of gas, electricity, heat, water, oil, sewer service, telephone service, telegraph service, radio service, or telecommunication service.

(2) A person may not ~~It is unlawful to~~:

(a) Willfully alter, tamper with, damage ~~injure~~, or knowingly allow damage to a ~~suffer to be injured any~~ meter, meter seal, pipe, conduit, wire, line, cable, transformer, amplifier, or other apparatus or device belonging to a utility line service in such a manner as to cause loss or damage or to prevent any meter installed for registering electricity, gas, or water from registering the quantity which otherwise would pass through the same; ~~to~~

(b) Alter the index or break the seal of any such meter; ~~in any way to~~

(c) Hinder or interfere in any way with the proper action or accurate ~~just~~ registration of any such meter or device; ~~or~~

(d) Knowingly ~~to~~ use, waste, or allow ~~suffer~~ the waste of, by any means, ~~of~~ electricity, ~~or~~ gas, or water passing through any such meter, wire, pipe, or fitting, or other appliance or appurtenance connected with or belonging to any such utility, after the ~~such~~ meter, wire, pipe, or fitting, or other appliance or appurtenance has been tampered with, injured, or altered; ~~.~~

(e) ~~(b)~~ Connect ~~Make~~ or cause a ~~to be made any~~ connection with a ~~any~~ wire, main, service pipe or other pipes, appliance, or appurtenance in a ~~such~~ manner that uses ~~as to use~~, without

the consent of the utility, any service or any electricity, gas, or water;~~, or to~~

(f) Cause a utility, without its consent, to supply any ~~to be supplied any~~ service or electricity, gas, or water ~~from a utility~~ to any person, firm, or corporation or any lamp, burner, orifice, faucet, or other outlet ~~whatsoever,~~ without reporting the ~~such~~ service ~~being reported~~ for payment; ~~or~~

(g) Cause, without the consent of a utility, ~~such~~ electricity, gas, or water to bypass ~~passing through~~ a meter provided by the utility; or ~~and used for measuring and registering the quantity of electricity, gas, or water passing through the same.~~

(h) ~~(c)~~ Use or receive the direct benefit from the use of a utility knowing, or under ~~such~~ circumstances that ~~as~~ would induce a reasonable person to believe, that the ~~such~~ direct benefits have resulted from any tampering with, altering of, or injury to any connection, wire, conductor, meter, pipe, conduit, line, cable, transformer, amplifier, or other apparatus or device owned, operated, or controlled by such utility, for the purpose of avoiding payment.

(3) The presence on the property of and ~~in~~ the actual possession by ~~of~~ a person of any device or alteration that prevents ~~affects the diversion or use of the services of a utility so as to avoid~~ the registration of the ~~such~~ use of services by ~~or on~~ a meter installed by the utility or that avoids ~~so as to otherwise avoid~~ the reporting of the use of services ~~such service~~ for payment is prima facie evidence of the violation of subsection (2) ~~this section~~ by such person.~~,~~ However, this presumption does not apply unless:

(a) The presence of the ~~such a~~ device or alteration can be attributed only to a deliberate act in furtherance of an intent to avoid payment for utility services;

(b) The person charged has received the direct benefit of the reduction of the cost of the ~~such~~ utility services; and

(c) The customer or recipient of the utility services has received the direct benefit of the ~~such~~ utility service for at least one full billing cycle.

(4) A person who willfully violates subsection (2) ~~paragraph (2)(a), paragraph (2)(b), or paragraph (2)(c)~~ commits theft, punishable as provided in s. 812.014.

(5) ~~It is unlawful for~~ A person or entity that owns, leases, or subleases a property may not ~~to~~ permit a tenant or occupant to use utility services knowing, or under such circumstances as would induce a reasonable person to believe, that such utility services have been connected in violation of subsection (2) ~~paragraph (2)(a), paragraph (2)(b), or paragraph (2)(c)~~.

(6) It is prima facie evidence that an owner, lessor, or sublessor intended ~~It is prima facie evidence of a person's intent~~ to violate subsection (5) if:

(a) A controlled substance and materials for manufacturing the controlled substance intended for sale or distribution to another were found in a dwelling or structure;

(b) The dwelling or structure was ~~has been~~ visibly modified to accommodate the use of equipment to grow cannabis ~~marijuana~~ indoors, including, but not limited to, the installation of equipment to provide additional air conditioning, equipment to provide high-wattage lighting, or equipment for hydroponic

cultivation; and

(c) The person or entity that owned, leased, or subleased the dwelling or structure knew of, or did so under such circumstances as would induce a reasonable person to believe in, the presence of a controlled substance and materials for manufacturing a controlled substance in the dwelling or structure, regardless of whether the person or entity was involved in the manufacture or sale of a controlled substance or was in actual possession of the dwelling or structure.

(7) An owner, lessor, or sublessor ~~A person~~ who willfully violates subsection (5) commits a misdemeanor of the first degree, punishable as provided in s. 775.082 or s. 775.083. Prosecution for a violation of subsection (5) does not preclude prosecution for theft pursuant to subsection (8) or s. 812.014.

(8) Theft of utility services for the purpose of facilitating the manufacture of a controlled substance is theft, punishable as provided in s. 812.014.

(9) It is prima facie evidence of a person's intent to violate subsection (8) if:

(a) The person committed theft of utility services resulting in a dwelling, as defined in s. 810.011, or a structure, as defined in s. 810.011, receiving unauthorized access to utility services;

(b) A controlled substance and materials for manufacturing the controlled substance were found in the dwelling or structure; and

(c) The person knew or should have known of the presence of the controlled substance and materials for manufacturing the controlled substance in the dwelling or structure, regardless of

whether the person was involved in the manufacture of the controlled substance.

(10) Whoever is found in a civil action to have violated this section is liable to the utility involved in an amount equal to 3 times the amount of services unlawfully obtained or $3,000, whichever is greater.

(11)(a) For purposes of determining a defendant's liability for civil damages under subsection (10) or criminal restitution for the theft of electricity, the amount of civil damages or a restitution order must include all of the following amounts:

1. The costs to repair or replace damaged property owned by a utility, including reasonable labor costs.

2. Reasonable costs for the use of specialized equipment to investigate or calculate the amount of unlawfully obtained electricity services, including reasonable labor costs.

3. The amount of unlawfully obtained electricity services.

(b) A prima facie showing of the amount of unlawfully obtained electricity services may be based on any methodology reasonably relied upon by a utility to estimate such loss. The methodology may consider the estimated start date of the theft and the estimated daily or hourly use of electricity. Once a prima facie showing has been made, the burden shifts to the defendant to demonstrate that the loss is other than that claimed by the utility.

1. The estimated start date of a theft may be based upon one or more of the following:

a. The date of an overload notification from a transformer, or the tripping of a transformer, which the utility reasonably believes was overloaded as a result of the theft of electricity.

b. The date the utility verified a substantive difference between the amount of electricity used at a property and the amount billed to the account holder.

c. The date the utility or a law enforcement officer located a tap or other device bypassing a meter.

d. The date the utility or a law enforcement officer observed or verified meter tampering.

e. The maturity of a cannabis crop found in a dwelling or structure using unlawfully obtained electricity services the utility or a law enforcement officer reasonably believes to have been grown in the dwelling or structure.

f. The date the utility or a law enforcement agency received a report of suspicious activity potentially indicating the presence of the unlawful cultivation of cannabis in a dwelling or structure or the date a law enforcement officer or an employee or contractor of a utility observed such suspicious activity.

g. The date when a utility observed a significant change in metered energy usage.

h. The date when an account with the utility was opened for a property that receives both metered and unlawfully obtained electricity services.

i. Any other fact or data reasonably relied upon by the utility to estimate the start date of a theft of electricity.

2. The estimated average daily or hourly use of the electricity may be based upon any, or a combination, of the following:

a. The load imposed by the fixtures, appliances, or equipment powered by unlawfully obtained electricity services.

b. Recordings by the utility of the amount of electricity used by a property or the difference between the amount used and the amount billed.

c. A comparison of the amount of electricity historically used by the property and the amount billed while the property was using unlawfully obtained electricity.

d. A reasonable analysis of a meter that was altered or tampered with to prevent the creation of an accurate record of the amount of electricity obtained.

e. Any other fact or data reasonably relied upon by utilities to estimate the amount of unlawfully obtained electricity services.

(12) A court order requiring a defendant to pay restitution for damages to the property of a utility or for the theft of electricity need only be based on a conviction for a criminal offense that is causally connected to the damages or losses and bears a significant relationship to those damages or losses. A conviction for a violation of this section is not a prerequisite for a restitution order. Criminal offenses that bear a significant relationship and are causally connected to a violation of this section include, but are not limited to, offenses relating to the unlawful cultivation of cannabis in a dwelling or structure if the theft of electricity was used to facilitate the growth of the cannabis.

(13) The amount of restitution that a defendant may be ordered to pay is not limited by the monetary threshold of any criminal charge on which the restitution order is based.

(14)~~(11)~~ This section does not apply to licensed and certified electrical contractors while such persons are

performing usual and ordinary service in accordance with recognized standards.

Section 2. This act shall take effect October 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	PCS/CS/SB 842 (326920)
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Artiles and others
SUBJECT:	South Florida Regional Transportation Authority
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Pitts	Pitts	ATD	**Recommend: Fav/CS**
3.	Pitts	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

PCS/CS/SB 842 authorizes the South Florida Regional Transportation Authority (SFRTA) to enter into contractual indemnification agreements with All Aboard Florida (AAF) and Florida East Coast Railway (FECR) on a rail corridor owned by AAF or FECR and in which all three entities operate rail service. The bill authorizes the Florida Department of Transportation (FDOT or department) to assume the obligations to indemnify and insure under such contractual agreements any freight rail service, intercity passenger service, and commuter rail service on a department-owned rail corridor or on a rail corridor where the FDOT has the right to operate.

The bill also deems funds provided by the FDOT to the SFRTA to be state financial assistance subject to specified requirements. The bill requires the FDOT to provide funds to the SFRTA in accordance with a written agreement containing certain provisions and authorizes the FDOT to advance funds at the start of each fiscal year, with monthly payments from the State Transportation Trust Fund (STTF) to the SFRTA for maintenance and dispatch on the South Florida Rail Corridor (SFRC) over the fiscal year on a reimbursement basis.

An indeterminate negative fiscal impact on state government and the SFRTA is expected. See Section V., "Fiscal Impact Statement," for details.

The bill takes effect July 1, 2017.

II. Present Situation:

Freight Rail, Commuter Rail, and Intercity Passenger Rail

In 1988, the FDOT and CSX Transportation, Inc., (CSX) entered into an agreement under which the department bought approximately 81 miles of CSX track and right-of-way in order to operate commuter rail in South Florida. In 2003, the Legislature created the SFRTA, an agency of the state, as the successor to the Tri-County Commuter Rail Authority with all of its rights, privileges, and obligations.[1] The SFRTA is authorized to coordinate, develop, and operate a regional transportation system in the tri-county area of Broward, Miami-Dade, and Palm Beach Counties,[2] providing commuter rail service (Tri-Rail) for residents and visitors in the area served. The FDOT continues ownership of the SFRC, which runs parallel to I-95, extending south to Miami International Airport and north into Palm Beach County.

Florida East Coast Railway (FECR) owns[3] an existing rail corridor between Miami and Cocoa on which it operates freight rail service.[4] All Aboard Florida (AAF)[5], a subsidiary of the parent holding company of FECR, is currently developing an intercity express train service, called "Brightline," using the existing FECR corridor between Miami and Cocoa. AAF will build new track along State Road 528 between Cocoa and Orlando. Service between Miami and West Palm Beach is expected to be launched this year, with service from Miami to Orlando following.[6]

The SFRTA is planning to expand Tri-Rail service using the existing FECR corridor. Known as the "Tri-Rail Coastal Link," the project would reintroduce commuter service for passengers along an 85-mile stretch of the FECR corridor between downtown Miami and Jupiter, connecting 28 densely populated cities in east Miami-Dade, Broward, and Palm Beach Counties.[7] SFRTA's service on this link would share tracks with FECR's freight trains and AAF's Brightline, providing intercity passenger service. The SFRTA will have co-located stations with Brightline in Miami, Ft. Lauderdale, and West Palm Beach. AAF construction projects for the stations are at various stages.[8] AAF is reportedly unwilling to proceed with completion of Tri-Rail's portion of the Miami Central Station in part due to the absence of a contractual agreement to indemnify and insure FECR and AAF.[9]

Liability on Rail Corridors

Commuter rail operators often seek to use existing track or right-of-way, which is primarily owned by freight rail operators, because of the expense of building new rail infrastructure.[10] Consequently, commuter rail operators must enter into agreements with the freight rail operators regarding how they will access the right-of-way. The most common challenge that occurs during negotiations between the commuter rail operator and the freight rail operator is determining liability.[11]

The introduction of commuter trains on rail corridors that were previously used exclusively for freight operations inherently raises the freight operators' risk of liability due to the increased number of persons and trains present within the corridor. Accordingly, most freight rail operators want the commuter rail operator to assume all risks associated with the presence of the commuter rail service. Freight rail operators refer to this as the "but for" argument – "but for the presence of the commuter rail service, the freight railroad would not be exposed to certain risks; therefore, the freight railroads should be held harmless."[12] Recognizing the exposure of liability for both parties, Congress passed the Amtrak Reform and Accountability Act of 1997, which limited the aggregate overall damage liability to all passengers from a single accident to $200 million.[13]

When Congress created Amtrak in 1970,[14] Amtrak contracted with freight railroads to operate passenger rail service within freight corridors. These agreements were predicated on a no-fault allocation of liability. For example, a typical agreement indemnified the freight operators for "any injury, death or property damage to any Amtrak employees, Amtrak property or Amtrak passengers," and the freight operators would also indemnify and hold harmless Amtrak for "any injury, death or property damage" to freight employees and property.[15] According to one report, despite this language, some courts have held that the provisions do not apply in cases of gross negligence.[16]

Florida Rail Liability Provisions

In 2007, the FDOT entered into an agreement with CSX Transportation, Inc., (CSX) to purchase 61.5 miles of track or right-of-way in Central Florida to provide commuter rail service, contingent on passage of legislation containing certain indemnification provisions. Known as SunRail, the first phase of the project opened in 2014, connecting DeBary in Volusia County to

Sand Lake Road in Orange County and featuring 12 Central Florida stations.[17] Today, the FDOT operates the SunRail system, and CSX continues to operate freight trains in the corridor.

In 2009,[18] the Legislature authorized the FDOT in s. 341.302, F.S., to contractually indemnify a freight rail operator and the National Railroad Passenger Corporation (Amtrak) for any loss, injury, or damage to commuter rail passengers or rail corridor invitees, regardless of circumstances or cause, including negligence, misconduct, nonfeasance, or misfeasance. The contractual indemnification, however, is subject to the following parameters and exceptions:[19]

- If only a freight train is involved in an incident, the freight rail operator is solely responsible (pays 100 percent) for any loss, injury, or damage to its property and people, as well as for losses related to incidents involving trespassers and grade crossings. The department pays for loss, injury, or damage to any commuter rail passengers or invitees.
- If only an FDOT train (or "other train," as explained below) is involved in an incident, FDOT is solely responsible (pays 100 percent) for any loss, injury, or damage to its property and people, as well as for losses related to commuter rail passengers, rail corridor invitees, trespassers, and grade crossings.
    - Any train that is neither FDOT's train nor the freight rail operator's train is considered an "other train." An "other train" is treated as an FDOT train solely for purposes of allocation of liability between DOT and the freight rail operator, as long as FDOT and the freight rail operator share responsibility equally as to third parties injured outside the rail corridor.
- If both a freight train and an FDOT train, or a freight train and an "other train," are involved in an accident, the freight rail operator is solely responsible (pays 100 percent) for its property and all of its people. The freight rail operator and FDOT share responsibility one-half each (each pays 50 percent) for any third-party damage resulting outside the corridor or for damage relating to trespassers. The department is solely responsible (pays 100 percent) for its property and all of its people, including commuter rail passengers and invitees, except in certain cases involving willful misconduct or resulting in the award of punitive or exemplary damages, as explained below.
    - When there is a collision between an FDOT train and a freight train only and the freight rail operator's conduct amounts to willful misconduct or results in the award of punitive or exemplary damages, FDOT pays amounts in excess of its insurance deductible or self-insurance fund only if the freight rail operator pays for the amount of the insurance deductible or self-insurance fund (which is capped at $10 million).
- If an FDOT train, a freight train, and any "other train" are involved in an incident, the allocation of liability remains one-half each between FDOT and the freight rail operator for any loss, injury, or damage to third parties outside the rail corridor. If the "other train" makes any payment to third parties injured outside the corridor, the allocation of credit shall not reduce the freight rail operator's allocation to less than one-third of the total third-party liability.

[18] Chapter 2009-271, L.O.F.
[19] *See* s. 341.302(17), F.S., relating to the FDOT's grants of authority with respect to the acquisition, ownership, construction, operation, maintenance, and management of a rail corridor.

Additionally, in a freight-train-only accident, the freight rail operator is solely responsible for all damages relating to incidents with trespassers or at grade crossings. In an FDOT-train-only accident, the department is solely responsible for all damages relating to incidents with trespassers or at grade crossings. In an incident involving an FDOT train (or an "other train") and a freight train, the department and the freight rail operator share responsibility one-half each as to damages to trespassers and third parties outside the rail corridor; however, the statute does not address liability for damages relating to incidents at grade crossings.

The department's duty to indemnify a freight rail operator is capped at $200 million. The department is required to purchase up to $200 million in liability insurance and establish a self-insurance retention fund to cover any deductible, provided that any parties covered under the insurance must pay a reasonable monetary contribution to cover the cost of the insurance. The self-insurance fund or deductible shall not exceed $10 million. The insurance and self-insurance retention fund may provide coverage for all damages, including punitive damages.

SFRTA Funding

Statutory provisions require each of the three counties served by the SFRTA to provide no less than $2.67 million annually, dedicated by each governing body by October 1 of each year, which funds may be used for capital, operations, and maintenance.[20] Additionally, current law requires each county to annually fund SFRTA operations in an amount no less than $1.565 million.[21] The SFRTA is currently responsible for dispatching, maintenance, and inspection of the South Florida Rail Corridor.[22] Having assumed such responsibility, the FDOT is statutorily required to *annually* transfer to the SFRTA a total of $42.1 million as follows:

- $15 million for SFRTA operations, maintenance, and dispatch; and
- $27.1 million for operating assistance, corridor track maintenance, and contract maintenance for the SFRTA.[23]

In addition to these statutory amounts, the FDOT has agreed to cover 100 percent of annual maintenance costs up to $14.4 million, with shared costs in excess of that amount, pursuant to an Operating Agreement between the FDOT and the SFRTA setting out agreed-upon percentages.[24] The SFRTA's 2016 Comprehensive Annual Financial Report indicates that of the $102.2 million in total revenue for 2016, the FDOT contributed $55.3 million or 54 percent.[25]

The FDOT's Oversight Role

The SFRTA may not commit any funds provided by the FDOT without the FDOT's approval. The FDOT may not unreasonably withhold approval. At least 90 days before advertising any procurement or renewing any existing contract using state funds for payment, the SFRTA must

notify the FDOT of the proposed procurement or renewal and the proposed terms. If the FDOT objects in writing within 60 days of receipt of the notice, the SFRTA may not proceed. Failure of the FDOT to object within 60 days is deemed consent.[26] To enable the FDOT's evaluation of the SFRTA's proposed uses of state funds, the SFRTA must annually provide the FDOT with its proposed budget and with any additional documentation or information required by the FDOT.[27]

The Florida Single Audit Act/Agreements Funded with Federal or State Assistance

Section 215.97, F.S., creates the Florida Single Audit Act. Among its stated purposes is to establish uniform state audit requirements for state financial assistance provided by state agencies to nonstate entities to carry out state projects.

- "State financial assistance" is defined to mean state resources, not including federal financial assistance and state matching on federal programs, provided to a nonstate entity to carry out a state project, including the types of state resources stated in the rules of the Department of Financial Services established in consultation with all state awarding agencies. State financial assistance may be provided directly by state awarding agencies or indirectly by nonstate entities. The term does not include procurement contracts used to buy goods or services from vendors and contracts to operate state-owned and contractor-operated facility.
- "Nonstate entity" means a local government entity, higher education entity, nonprofit organization, or for-profit organization that receives state financial assistance.

Section 215.971, F.S., requires an agreement that provides state financial assistant to a recipient or subrecipient to include all of the following:

- A scope of work that clearly establishes the tasks to be performed;
- A division of the agreement into deliverables that must be received and accepted in writing by the agency before payment. Deliverables must be directly related to the scope of work. The agreement must specify the required minimum level of service to be performed and criteria for evaluating completion of each deliverable;
- Specification of the financial consequences for failure to perform the minimum level of service.
- Specification that a recipient may expend funds only for allowable costs, and that any balance of unobligated funds and any funds paid in excess of the amount to which the recipient is entitled must be refunded to the state agency; and
- Any additional information required by the Florida Single Audit Act.

In 2016, the FDOT's Inspector General engaged in an effort "to determine the nature and extent of SFRTA's expenditures and whether their financial records were in compliance with applicable laws, rules, and regulations."[28] Based on the SFRTA's response, the Inspector General requested a determination from the Department of Financial Services whether appropriations to the SFRTA constitute "state financial assistance."[29] The Inspector General's report found:

[26] Section 348.58(4)(c)1., F.S.
[27] Section 348.58(4)(c)2., F.S.
[28] *See Audit Report No. 141-4002*, available at: http://www.fdot.gov/ig/Reports/14I-4002%20Final.pdf. (Last visited March 18, 2017.)
[29] *Audit Report* at 7.

> SFRTA, as determined by the Department of Financial Services (DFS), is a Special District and a nonstate entity that is a recipient of state financial assistance.[30] We determined the Operating Agreement[31] between SFRTA and the department does not fully comply with mandatory provisions required by Section 215.971, F.S. nor does it contain the procurement provisions outlined in Chapter 287, F.S. We also determined $153 million of state appropriations was omitted from audit coverage in accordance with the Florida Single Audit Act for fiscal years 2010/11 to 2014/15. Additionally, SFRTA did not provide a standard operating budget-to-actual expenditure report based upon the use of each grant or funding source.[32]

The Inspector General recommended:

- The FDOT and the SFRTA should execute a revised agreement containing the mandatory provisions per s. 297.971, F.S.;
- The SFRTA should reissue Florida Single Audit reports for fiscal years 2010-1 to 2014-15 to provide audit coverage of the $153 million in state financial assistance previously omitted; and
- The SFRTA should provide monthly budget-to-actual expenditure reports, by each grant or other funding source, for both its operating fund and capital funds.[33]

III. Effect of Proposed Changes:

Section 1 creates s. 343.545, F.S., to provide definitions and authorizing the SFRTA to indemnify FECR and AAF for any loss, injury or damage to SFRTA's commuter rail passengers and rail corridor invitees, regardless of cause, including fault, failure, negligence, misconduct, nonfeasance, or misfeasance of FECR or AFF, subject to certain parameters. The bill authorizes the SFRTA to purchase certain railroad liability insurance and limits the SFRTA's obligation to indemnify to the insurance coverage amount. The bill also authorizes the FDOT to assume the SFRTA's obligations to indemnify and insure any freight rail service, intercity passenger rail service, and commuter rail service on an FDOT-owned rail corridor

Definitions

The bill provides various definitions relating to the act:

---

[30] The DFS determined the SFRTA had for nine years submitted financial audit reports per s. 28.39, F.S., as a special district; that a special district as defined by statute is a unit of government created for a special purpose by a special act with jurisdiction to operate within a limited geographic boundary; that the SFRTA was created by the South Florida Regional Transportation Authority Act for the special purpose of operating and managing a transit system in Broward, Miami-Dade and Palm Beach Counties; and that the law limits operations to those counties. The DFS also noted the SFRTA is a state project (a state program that provides state financial assistance to a nonstate organization) that must be assigned a Catalog of State Financial Assistance number and, finally, since state law created the SFRTA to carry out a state project, the SFRTA is a recipient of state financial assistance. *Audit Report,* Appendix J.

[31] The report notes a June 2013 operating agreement between the FDOT and the SFRTA for continuing SFRC operating rights for a 14-year period that included SFRTA's agreement to conduct all activities in accordance with applicable federal and state laws and regulations and the operating rules, policies, and procedures adopted pursuant to such laws and regulations. *Id.* at 5.

[32] *Audit Report* at 1.

[33] *Id.*

- "Rail corridor," means the portion of a linear contiguous strip of real property that is used for rail service and owned by FECR or owned or controlled by AAF. The term applies *only when* the [SFRTA] has, by contract, assumed the obligation to forever protect, defend, indemnify, and hold harmless FECR, AAF, or their successors [in accordance with the bill's provisions] and acquired an easement interest, a lease, a right to operate, or a right of access. The term includes structures essential to railroad operations, including the land, structures, improvements, rights-of-way, easements, rail lines, rail beds, guideway structures, switches, yards, parking facilities, power relays, switching houses, rail stations, any ancillary development, and any other facilities or equipment used for the purposes of construction, operation, or maintenance of a railroad that provides rail service.
- "SFRTA rail corridor invitee" means any rail corridor invitee who is SFRTA's commuter rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, for the purpose of doing business with, or at the behest of SFRTA. The term does not include:
  - Patrons at any station, except those patrons who are also SFRTA's commuter rail passengers;
  - Any person present on the rail corridor who is a patron of the non-SFRTA commuter rail service or is meeting or assisting a person who is a patron of the non-SFRTA commuter rail service;
  - Commercial or residential tenants of the developments in and around the stations or their invitees; or
  - Any third parties performing work at a station or in the rail corridor, such as employees and invitees of "PI"[34] or related entities, utilities, and fiber optic companies or others, or invitees or employees of the department or any county or municipality.
- "AAF rail corridor invitee," means any rail corridor invitee who is an AAF intercity rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of AAF, including vendors or employees of vendors at the MiamiCentral[35] station or any other station that AAF may construct on the rail corridor. The term does not include:
  - Patrons at any station, except those patrons who are also AAF's intercity rail passengers;
  - Commercial or residential tenants of the developments in and around the stations of their invitees; or
  - Any third parties performing work at a station or in the rail corridor, such as employees and invites of PI or related entities, utilities, and fiber optic companies, or invitees or employees of the FDOT or any county or municipality.
- "FECR rail corridor invitee," means any rail corridor invitee who is present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of FECR. The term does not include patrons at any station, nor the same commercial or residential tenants or third parties referenced in the "AAF rail corridor invitee" definition above.
- "Rail corridor invitee," means any person who is on or about the rail corridor in which the AAF, SFRTA, or the non-SFRTA commuter rail service operator has an easement interest, a lease, a right to operate, or a right of access, and who is:

[34] "PI" means FDG Flagler Station II, LLC, which has an easement on the rail corridor for nonrail uses.
[35] "MiamiCentral" means the primary All Aboard Florida station located in downtown Miami, which includes exclusive areas used by the [SFRTA] for commuter rail service.

  - Present at the behest of an AAF, an SFRTA, a FECR, or the non-SFRTA commuter rail service operator for any purpose;
  - Otherwise entitled to be on or about the rail corridor; or
  - Meeting, assisting, or in the company of any person described above.
- "Non-SFRTA commuter rail service," means AAF's operation, or an AAF third-party designee's operation, of trains in any commuter rail service on the rail corridor that is not SFRTA's commuter rail service. The term does not include:
  - Any service operated by the [SFRTA] between MiamiCentral station and any stations in Miami-Dade County, Broward County, Palm Beach County, or points north on the FECR rail corridor; and
  - SFRTA's commuter rail service on the South Florida Rail Corridor owned by the (FDOT].
- "Other train," means a train that is not SFRTA's train, FECR's train, AAF's train, a train of a non-SFRTA commuter rail service operator, or a train of any other operator of intercity rail passenger service and must be treated as a train of the entity that made the initial request for the train to operate on the rail corridor.
- "Limited covered accident," means:
  - A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and FECR only, where the collision is caused by or arising from the willful misconduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order; or
  - A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and AAF only, where the collision is caused by or arising from the willful misconduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order.

In a limited covered accident, AAF's or FECR's willful misconduct must be "adjudicated by a court until all appeals are exhausted." This requirement is not in the provisions of s. 341.302, F.S., related to FDOT's liability with respect to the SunRail project.

The bill also defines the following terms: All Aboard Florida or AAF, AAF intercity rail passenger, commuter rail passenger, commuter rail service, existing IRIS crossing, Florida East Coast Railway or FECR, freight rail service, intercity passenger rail service, joint infrastructure, non-SFRTA commuter rail service operator, passenger easement, SFRC, and South Florida Regional Transportation Authority or SFRTA.

Assumption of Indemnity and Insurance Obligations

The bill authorizes the SFRTA to indemnify and protect FECR and AAF[36] from any liability, cost, or expense, including without limitation SFRTA's commuter rail passengers and rail corridor invitees in the rail corridor, regardless of whether the loss, damage, destruction, injury, or death is caused by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of FECR or AAF. The contractual indemnification, however, is subject to the following:

- The SFRTA is solely responsible (pays 100 percent) for any loss, injury, or damage to SFRTA commuter rail passengers, invitees, or trespassers, other than passengers or invitees of the non-SFRTA commuter rail service, regardless of circumstances or cause, subject to the following:
- FECR or AAF, as applicable, and with respect to a limited covered accident, must defend and indemnify the SFRTA for the amount of the self-insurance retention account (discussed below).
- If only an SFRTA train is involved in an incident, including incidents with trespassers or at at-grade crossings, the SFRTA is solely responsible (pays 100 percent).
- If only an FECR train or only an AAF train is involved in an incident, including incidents with trespassers or at at-grade crossings, FECR or AAF, as applicable, is solely responsible (pays 100 percent), except for loss, injury, or damage to SFRTA's commuter rail passengers, employees, and invitees.
- In an incident involving any "other train" that is not an SFRTA train, the other train is treated as an SFRTA train solely for purposes of allocation of liability between the SFRTA and the FECR, or between the SFRTA and AAF, as applicable, who share equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both the SFRTA's train and the FECR's train, or both the SFRTA's train and AAF's train, as applicable. The allocation as between the SFRTA and the FECR, or between the SFRTA and AAF, as applicable, remains one-half each as to third parties outside the rail corridor. The involvement of any other train does not alter the sharing of equal responsibility as to third parties outside the rail corridor.
- If only an SFRTA train and an FECR train, or only an "other train" (that is by definition considered an SFRTA train) and an FECR train, are involved in an incident, the SFRTA is responsible (pays 100 percent) for its property, commuter rail passengers, employees, and invitees. The FECR is responsible for its property, employees, and invitees. The SFRTA and the FECR each share one-half responsibility as to joint infrastructure[37] and rail corridor invitees who are not SFRTA invitees or FECR invitees, including, but not limited to, trespassers or third parties outside the rail corridor.
- If only an SFRTA train and an AAF train, or only an "other train" (that is by definition considered an SFRTA train) and an AAF train, are involved in an incident, the SFRTA is responsible (pays 100 percent) for its property, commuter rail passengers, employees, and invitees. AAF is responsible for its property, intercity rail passengers, employees, and invitees. The SFRTA and AAF each share one-half responsibility as to joint infrastructure

[36] For as long as AAF and FECR or their successors agree to indemnify the SFRTA in accordance with the bill's provisions.
[37] Defined to mean any portion or segment of the rail corridor that does not contain tracks or infrastructure designated for the exclusive use of the SFRTA, AAF, or the FECR and portions of the MiamiCentral station used by both AAF and SFRTA, including, but not limited to, stairs, elevators, and escalators.

and non-SFRTA and non-AAF invitees, as well as to trespassers and third parties outside the rail corridor.

- If an FECR train, an SFRTA train, and an AAF train are involved in an incident, the SFRTA is responsible for its property, commuter rail passengers, employees, and invitees. AAF is responsible for its property, employees, intercity rail passengers, and invitees. The FECR is responsible for its property, employees, and invitees, and invitees. The SFRTA, the FECR, and AAF each share one-third responsibility as to joint infrastructure and rail corridor invitees who are not SFRTA invitees, AAF invitees, or FECR invitees, including trespassers or third parties outside the rail corridor.
- If an SFRTA train, an FECR train, and an AAF train are involved in an incident, the bill allocates one-third of any liability each to the SFRTA, the FECR, and AAF as to third parties outside the rail corridor.
- If an SFRTA train, an FECR train, and any other train; or if an SFRTA train, an AAF train and any other train, are involved in an incident, the bill allocates one-third of any liability each to the SFRTA, the FECR, and the other train; or to the SFRTA, AAF, and the other train, as applicable, as to third parties outside the rail corridor.

The bill provides that the SFRTA is not obligated to indemnify the FECR and AAF for any amount in excess of required insurance coverage, but the SFRTA remains responsible for the indemnity obligation up the insurance coverage limit. If non-SFRTA commuter rail service is provided by an entity under contract with AAF, the SFRTA may elect at its sole discretion to provide the same insurance coverage and indemnity to any non-SFRTA commuter rail service operator.

The bill authorizes the SFRTA to purchase railroad liability insurance of $295 million per occurrence, adjusted in accordance with applicable law,[38] with a $5 million self-insurance retention account, known as the "SFRTA insurance program." At the SFRTA's sole discretion, the insurance program may cover the obligations described in the bill or any other service operated by the SFRTA on a rail corridor. All definitions, terms, conditions, restrictions, exclusions, obligations, and duties included in any of the insurance policies procured by the SFRTA for the insurance program apply to the self-insurance retention account and its application to claims against the applicable insureds.

The SFRTA must name the FECR and AAF as insureds on any policies it procures at no cost to the FECR or AAF and ensure that all policies have a waiver of exclusion for punitive damages and coverage for claims made pursuant to the Federal Employers Liability Act.[39] Such policies must include coverage for terrorism and pollution, including, but not limited to, coverage applicable in the event of a railroad accident, a derailment, or an overturn, and evacuation expense.

---

[38] *See* 49 U.S.C. s. 28103. In January of this year, the U.S.D.O.T. Secretary published its Notice of Adjustment to Rail Passenger Transportation Liability Cap under s. 11415 of the Fixing America's Surface Transportation Act, raising the transportation liability cap from $200 million to just under $295 million. *See* the notice at: https://www.gpo.gov/fdsys/pkg/FR-2016-01-11/pdf/2016-00301.pdf. (Last visited March 17, 2017.)

[39] 45 U.S.C. 51 *et seq*. This act protects and compensates railroad workers injured on the job, if the worker can prove that the railroad was at least partly legally negligent in causing the injury.

Section 6 amends s. 341.302(17), F.S., adding a new paragraph (d), to authorize the FDOT to assume the SFRTA's obligations to indemnify and insure freight rail service, intercity passenger rail service, and commuter rail service on an FDOT-owned rail corridor, whether ownership is in fee or by easement, or on a rail corridor where the FDOT has the right to operate. The FDOT notes that this authority would provide a financial advantage to SFRTA that is not offered to other authorities or transit operations.[40]

The SFRTA, the FDOT's Oversight Role, and State Funds Transfer

Section 4 amends s. 343.54, F.S., relating to the powers and duties of the SFRTA, to prohibit the SFRTA from entering into, extending, or renewing any contract or other agreement that may be funded with FDOT-provided funds without the prior review and written approval by the FDOT of the proposed expenditures.

Section 5 amends s. 343.58(4), F.S., deeming funds provided to the authority by the FDOT under that section to be state financial assistance provided to a nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971, F.S. The FDOT is directed to provide the funds in accordance with the terms of a written agreement to be entered into between the SFRTA and the FDOT. The agreement must provide for FDOT review, approval, and audit of the SFRTA's expenditure of such funds and must include such other provisions as are required by applicable law. The FDOT is expressly authorized to advance the SFRTA one-fourth of the total funding provided under that section for a state fiscal year at the beginning of each state fiscal year. Thereafter, the bill requires monthly payments over the fiscal year on a reimbursement basis as supported by invoices and such additional documentation and information as the FDOT may reasonably require, and a reconciliation of the advance against remaining invoices in the last quarter of the fiscal year.

This section to remove the existing provisions relating to the FDOT's oversight role, except for requiring the SFRTA to annually provide the FDOT with its proposed budget and to *promptly* provide the FDOT with any additional documentation or information required by the FDOT for its evaluation of SFRTA-proposed uses of state funds.

Section 2 amends s. 343.52, F.S., to define "department" to mean the Department of Transportation.

Section 3 amends s. 343.53, F.S., revising a cross-reference to conform to changes made by the act.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

[40] *See* the FDOT's analysis of SB 842. (On file in the Senate Transportation Committee.)

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The FECR and AAF would benefit as named insureds under the required insurance policy without contributing towards the cost of the insurance.

C. Government Sector Impact:

The FDOT and the SFRTA may experience administrative expenses associated with the FDOT's review, written approval, and audit of the SFRTA's proposed expenditures using any FDOT-provided funding.

The cost to SFRTA for the purchase of liability insurance and to establish a self-insurance retention fund for the purpose of paying the deductible limit established in the insurance policies is unknown at this time.

The bill expands the FDOT's authority to indemnify intercity passenger rail service and commuter rail service. The expansion overlaps, at least in part, the FDOT's existing authority to indemnify freight rail service in s. 341.302, F.S. To the extent that FDOT assumes the SFRTA's obligations to indemnify and insure freight rail service, intercity passenger rail service, and commuter rail service, there would be an indeterminate cost to the state for insurance premiums and any payments from the self-insurance retention fund.

VI. Technical Deficiencies:

The bill defines the terms, "existing IRIS crossing" and "passenger easement," but the terms are not used elsewhere in the bill.

For purposes of clarity, the conjunctive "or" on line 251 may need to be modified to reflect the relationship between subparagraphs in newly created s. 343.545(2)(a), F.S.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 343.52, 343.53, 343.54, 343.58 and 341.302.

This bill creates the following sections of the Florida Statutes: 343.545.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

Recommended CS/CS by Appropriations Subcommittee on Transportation, Tourism, and Economic Development on April 13, 2017:
The CS removes the existing provisions relating to the FDOT's oversight role and prohibits the SFRTA from entering into, extending, or renewing any contract or other agreement that may be funded with FDOT-provided funds without the prior review and written approval by the FDOT of the proposed expenditures. Additionally, the CS:

- Deems funds provided to the SFRTA by the FDOT to be state financial assistance provided to a nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971, F.S.;
- Directs the FDOT and the SFRTA to enter into a written agreement pursuant to which the FDOT will provide the required statutory funding and which must provide for FDOT review, approval, and audit of the SFRTA's expenditure of such funds;
- Authorizes the FDOT to advance the SFRTA one-fourth of the required statutory funding at the start of each fiscal year, with monthly payments over the fiscal year on a reimbursement basis supported by invoices, and a reconciliation in the last quarter of the fiscal year.

CS by Transportation on March 22, 2017:
The CS removes from the bill provision that the state funds transferred from the STTF to the SFRTA pursuant to s. 343.58, F.S., may not be considered state financial assistance subject to the Florida Single Audit Act, s. 215.97, F.S., or to the requirements for inclusion of specified provisions in agreements funded with federal or state assistance under s. 215.971, F.S.

The Committee on Appropriations (Galvano) recommended the following:

Senate Amendment

Delete lines 94 - 220
and insert:
(f) "Florida East Coast Railway" or "FECR" means Florida East Coast Railway, LLC, or its successors and assigns.
(g) "FECR rail corridor invitee" means any rail corridor invitee who is present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of FECR. The term does not

859032

include patrons at any station; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies or others, or invitees or employees of the department or any county or municipality.

(h) "Freight rail service" means any and all uses and purposes that are ancillary or related to current and future freight rail operations on, along, over, under, and across the rail corridor, including operating trains, rail cars, business cars, locomotives, hi-rail vehicles, and other rail equipment for the movement of freight in overhead and local service; interchanging rail cars with other freight railroads; providing pickups, setoffs, transloading services, or storage in transit; and any and all other activities that are ancillary or related to the transportation of freight on or along the rail corridor.

(i) "Intercity passenger rail service" means all passenger service on the rail corridor other than commuter rail service and is characterized by trains making less frequent stops along the rail corridor than the commuter rail service makes.

(j) "Joint infrastructure" means any portion or segment of the rail corridor which does not contain tracks or infrastructure designated for the exclusive use of the authority, AAF, or FECR and portions of the MiamiCentral station used by both AAF and SFRTA, including, but not limited to, stairs, elevators, and escalators.

(k) "Limited covered accident" means:

1. A collision directly between the trains, locomotives,

rail cars, or rail equipment of SFRTA and FECR only, where the collision is caused by or arising from the willful misconduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order; or

2. A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and AAF only, if the collision is caused by or arising from the willful misconduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order.

(l) "MiamiCentral" means the primary All Aboard Florida station located in downtown Miami, which includes exclusive areas used by the authority for commuter rail service.

(m) "Non-SFRTA commuter rail service" means AAF's operation, or an AAF third-party designee's operation, of trains in any commuter rail service on the rail corridor which is not SFRTA's commuter rail service. The term does not include:

1. Any service operated by the authority between the MiamiCentral station and any stations in Miami-Dade County, Broward County, Palm Beach County, or points north on the FECR

859032

rail corridor; and

2. SFRTA's commuter rail service on the South Florida Rail Corridor owned by the department.

(n) "Non-SFRTA commuter rail service operator" means the operator of any non-SFRTA commuter rail service.

(o) "Other train" means a train that is not SFRTA's train, FECR's train, AAF's train, a train of a non-SFRTA commuter rail service operator, or a train of any other operator of intercity rail passenger service and must be treated as a train of the entity that made the initial request for the train to operate on the rail corridor.

(p) "PI" means FDG Flagler Station II, LLC, which has an easement on the rail corridor for nonrail uses.

(q) "Rail corridor" means the portion of a linear contiguous strip of real property which is used for rail service and owned by FECR or owned or controlled by AAF. The term applies only when the authority has, by contract, assumed the obligation to forever protect, defend, indemnify, and hold harmless FECR, AAF, or their successors, in accordance with subsection (2), and acquired an easement interest, a lease, a right to operate, or a right of access. The term includes structures essential to railroad operations, including the land, structures, improvements, rights-of-way, easements, rail lines, rail beds, guideway structures, switches, yards, parking facilities, power relays, switching houses, rail stations, any ancillary development, and any other facilities or equipment used for the purposes of construction, operation, or maintenance of a railroad that provides rail service.

(r) "Rail corridor invitee" means any person who is on or

859032

about the rail corridor in which the AAF, SFRTA, or non-SFRTA commuter rail service operator has an easement interest, a lease, a right to operate, or a right of access and who is:

1. Present at the behest of an AAF, an SFRTA, an FECR, or the non-SFRTA commuter rail service operator for any purpose;

2. Otherwise entitled to be on or about the rail corridor; or

3. Meeting, assisting, or in the company of a person described in subparagraph 1. or subparagraph 2.

(s) "SFRTA" means the South Florida Regional Transportation Authority.

(t) "SFRTA rail corridor invitee" means any rail corridor invitee who is SFRTA's commuter rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, for the purpose of doing business with, or at the behest of SFRTA. The term does not include patrons at any station, except those patrons who are also SFRTA's commuter rail passengers; any person present on the rail corridor who is a patron of the non-SFRTA commuter rail service or is meeting or assisting a person who is a patron of the non-SFRTA commuter rail service; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies or others or invitees or employees of the department or any county or municipality.

Proposed Committee Substitute by the Committee on Appropriations (Appropriations Subcommittee on Transportation, Tourism, and Economic Development)

A bill to be entitled

An act relating to the South Florida Regional Transportation Authority; creating s. 343.545, F.S.; defining terms; authorizing the South Florida Regional Transportation Authority, in conjunction with the operation of a certain commuter rail service, to have the power to assume specified indemnification and insurance obligations, subject to certain requirements; amending s. 343.52, F.S.; defining the term "department"; amending s. 343.53, F.S.; conforming a cross-reference; amending s. 343.54, F.S.; prohibiting the South Florida Regional Transportation Authority from entering into, extending, or renewing certain contracts or agreements without the Department of Transportation's approval of the authority's expenditures; amending s. 343.58, F.S.; providing that certain funds constitute state financial assistance for specified purposes; requiring that certain funds be paid pursuant to a written agreement between the department and the authority; providing certain required terms for the written agreement between the department and the authority; authorizing the department to advance the authority certain funding, subject to certain requirements; requiring the authority to promptly provide the department with any additional documentation or

326920

576-03800-17

information required by the department for its evaluation of the proposed uses of certain state funds; amending s. 341.302, F.S.; authorizing the department to agree to assume certain indemnification and insurance obligations under certain circumstances; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 343.545, Florida Statutes, is created to read:

343.545 Power to assume indemnification and insurance obligations; definitions.—

(1) As used in this section, the term:

(a) "All Aboard Florida" or "AAF" means All Aboard Florida Operations, LLC, or its successors and assigns.

(b) "AAF intercity rail passenger" means any person, ticketed or unticketed, using the AAF intercity passenger rail service on the rail corridor:

1. On board trains, locomotives, rail cars, or rail equipment employed in AAF intercity passenger rail service or entraining thereon and detraining therefrom;

2. On or about the rail corridor for any purpose related to the AAF intercity passenger rail service, including parking or purchasing tickets therefor and coming to, waiting for, and leaving from locomotives, rail cars, or rail equipment; or

3. Meeting, assisting, or in the company of any person described in subparagraph 1. or subparagraph 2.

(c) "AAF rail corridor invitee" means any rail corridor

invitee who is an AAF intercity rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of AAF, including persons who are vendors or employees of vendors at the MiamiCentral station or any other station that AAF may construct on the rail corridor. The term does not include patrons at any station, except those patrons who are also AAF's intercity rail passengers; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies, or invitees or employees of the department or any county or municipality.

(d) "Commuter rail passenger" means any person, ticketed or unticketed, using the commuter rail service on the rail corridor:

1. On board trains, locomotives, rail cars, or rail equipment employed in commuter rail service or entraining thereon and detraining therefrom;

2. On or about the rail corridor for any purpose related to the commuter rail service, including parking or purchasing tickets therefor and coming to, waiting for, and leaving from locomotives, rail cars, or rail equipment; or

3. Meeting, assisting, or in the company of any person described in subparagraph 1. or subparagraph 2.

(e) "Commuter rail service" means the operation of the authority's trains transporting passengers and making frequent stops within urban areas and their immediate suburbs along the

rail corridor for the purpose of passengers entraining and detraining, and including the nonrevenue movement of trains for storage or maintenance. The term does not include the operation of trains by AAF transporting passengers in intercity passenger rail service between passenger rail stations established by AAF at Miami-Dade, Fort Lauderdale, West Palm Beach, or future stations, but shall include the provision of non-SFRTA commuter rail service by AAF or a third party designated by AAF, including SFRTA.

(f) "Existing IRIS crossing" means the existing, at-grade railroad crossing between the SFRC and the rail corridor located in Miami-Dade County.

(g) "Florida East Coast Railway" or "FECR" means Florida East Coast Railway, LLC, or its successors and assigns.

(h) "FECR rail corridor invitee" means any rail corridor invitee who is present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of FECR. The term does not include patrons at any station; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies or others, or invitees or employees of the department or any county or municipality.

(i) "Freight rail service" means any and all uses and purposes that are ancillary or related to current and future freight rail operations on, along, over, under, and across the rail corridor, including operating trains, rail cars, business

cars, locomotives, hi-rail vehicles, and other rail equipment for the movement of freight in overhead and local service; interchanging rail cars with other freight railroads; providing pickups, setoffs, transloading services, or storage in transit; and any and all other activities that are ancillary or related to the transportation of freight on or along the rail corridor.

(j) "Intercity passenger rail service" means all passenger service on the rail corridor other than commuter rail service and is characterized by trains making less frequent stops along the rail corridor than the commuter rail service does.

(k) "Joint infrastructure" means any portion or segment of the rail corridor which does not contain tracks or infrastructure designated for the exclusive use of the authority, AAF, or FECR and portions of the MiamiCentral station used by both AAF and SFRTA, including, but not limited to, stairs, elevators, and escalators.

(l) "Limited covered accident" means:

1. A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and FECR only, where the collision is caused by or arising from the willful misconduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order; or

2. A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and AAF only, if the

collision is caused by or arising from the willful misconduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order.

(m) "MiamiCentral" means the primary All Aboard Florida station located in downtown Miami, which includes exclusive areas used by the authority for commuter rail service.

(n) "Non-SFRTA commuter rail service" means AAF's operation, or an AAF third-party designee's operation, of trains in any commuter rail service on the rail corridor which is not SFRTA's commuter rail service. The term does not include:

1. Any service operated by the authority between the MiamiCentral station and any stations in Miami-Dade County, Broward County, Palm Beach County, or points north on the FECR rail corridor; and

2. SFRTA's commuter rail service on the South Florida Rail Corridor owned by the department.

(o) "Non-SFRTA commuter rail service operator" means the operator of any non-SFRTA commuter rail service.

(p) "Other train" means a train that is not SFRTA's train, FECR's train, AAF's train, a train of a non-SFRTA commuter rail service operator, or a train of any other operator of intercity rail passenger service and must be treated as a train of the entity that made the initial request for the train to operate on the rail corridor.

(q) "Passenger easement" means a permanent, perpetual, and exclusive easement on, along, over, under, or across the rail corridor for commuter rail service.

(r) "PI" means FDG Flagler Station II, LLC, which has an easement on the rail corridor for nonrail uses.

(s) "Rail corridor" means the portion of a linear contiguous strip of real property which is used for rail service and owned by FECR or owned or controlled by AAF. The term applies only when the authority has, by contract, assumed the obligation to forever protect, defend, indemnify, and hold harmless FECR, AAF, or their successors, in accordance with subsection (2), and acquired an easement interest, a lease, a right to operate, or a right of access. The term includes structures essential to railroad operations, including the land, structures, improvements, rights-of-way, easements, rail lines, rail beds, guideway structures, switches, yards, parking facilities, power relays, switching houses, rail stations, any ancillary development, and any other facilities or equipment used for the purposes of construction, operation, or maintenance of a railroad that provides rail service.

(t) "Rail corridor invitee" means any person who is on or about the rail corridor in which the AAF, SFRTA, or the non-SFRTA commuter rail service operator has an easement interest, a lease, a right to operate, or a right of access, and who is:

1. Present at the behest of an AAF, an SFRTA, a FECR, or the non-SFRTA commuter rail service operator for any purpose;

2. Otherwise entitled to be on or about the rail corridor; or

3. Meeting, assisting, or in the company of a person

described in subparagraph 1. or subparagraph 2.

(u) "SFRC" means South Florida Rail Corridor.

(v) "South Florida Regional Transportation Authority" or "SFRTA" means the authority.

(w) "SFRTA rail corridor invitee" means any rail corridor invitee who is SFRTA's commuter rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, for the purpose of doing business with, or at the behest of SFRTA. The term does not include patrons at any station, except those patrons who are also SFRTA's commuter rail passengers; any person present on the rail corridor who is a patron of the non-SFRTA commuter rail service or is meeting or assisting a person who is a patron of the non-SFRTA commuter rail service; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies or others, or invitees or employees of the department or any county or municipality.

(2) The authority, in conjunction with the operation of a commuter rail service on a rail corridor, has the power to assume the following obligations:

(a) To indemnify AAF and FECR in accordance with the terms specified in this paragraph for so long as AAF and FECR or their successors in interest agree to indemnify the authority in accordance with the terms specified in this paragraph.

1. Except as specifically provided in this paragraph, the authority shall protect, defend, indemnify, and hold harmless

FECR, its officers, agents, employees, successors, and assigns from and against any liability, cost, and expense, including, but not limited to, SFRTA's commuter rail passengers and rail corridor invitees in, on, or about the rail corridor, regardless of whether the loss, damage, destruction, injury, or death giving rise to any such liability, cost, or expense is caused in whole or in part, and to whatever nature or degree, by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of FECR or its officers, agents, employees, successors, and assigns;

2. Except as specifically provided in this paragraph, the authority shall protect, defend, indemnify, and hold harmless AAF and its officers, agents, employees, successors, and assigns from and against any liability, cost, and expense, including, but not limited to, SFRTA commuter rail passengers and SFRTA rail corridor invitees in, on, or about the rail corridor, regardless of whether the loss, damage, destruction, injury, or death giving rise to any such liability, cost, or expense is caused in whole or in part, and to whatever nature or degree, by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of AAF or its officers, agents, employees, successors, and assigns; or

3. The assumption of liability by the authority may not in any instance exceed the following parameters of allocation of risk:

a. The authority shall be solely responsible for any loss, injury, or damage to SFRTA commuter rail passengers, or to SFRTA rail corridor invitees or trespassers, other than passengers or invitees of the non-SFRTA commuter rail service, regardless of

circumstances or cause, subject to the terms and provisions of this paragraph.

b. FECR shall, with respect to a limited covered accident, protect, defend, and indemnify SFRTA for the amount of the self-insurance retention account.

c. AAF shall, with respect to a limited covered accident, protect, defend, and indemnify SFRTA for the amount of the self-insurance retention account.

d. When only one train is involved in an incident, including incidents with trespassers or at at-grade crossings, the authority shall be solely responsible for any loss, injury, or damage if the train is an SFRTA train.

e. When an incident occurs with only FECR's train involved, including incidents with trespassers or at at-grade crossings, FECR shall be solely responsible for any loss, injury, or damage, except for SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees.

f. When an incident occurs with only AAF's train involved, including incidents with trespassers or at at-grade crossings, AAF shall be solely responsible for any loss, injury, or damage, except for SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees.

g. For the purposes of this paragraph:

(I) An "other train" shall be treated as the train of the entity that made the initial request for the train to operate on the rail corridor.

(II) In an incident involving any other train that is not an SFRTA train, the other train shall be treated as an SFRTA train solely for purposes of any allocation of liability

between:

(A) SFRTA and FECR. SFRTA and FECR shall share responsibility equally as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both SFRTA's train and FECR's train and the allocation as between SFRTA and FECR, regardless of whether the other train is treated as an SFRTA train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident. The involvement of any other train shall not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(B) SFRTA and AAF. SFRTA and AAF shall share responsibility equally as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both an SFRTA train and AAF's train and the allocation as between SFRTA and AAF, regardless of whether the other train is treated as an SFRTA train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident. The involvement of any other train shall not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

h. When more than one train is involved in an incident:

(I) If only an SFRTA train and a FECR train, or only an other train that is an SFRTA train by definition and a FECR train, are involved in an incident, SFRTA shall be responsible for its property, all SFRTA's commuter rail passengers, SFRTA

employees, and SFRTA rail corridor invitees. FECR shall be responsible for its property and all of its employees and FECR rail corridor invitees. SFRTA and FECR shall each share one-half responsibility as to the joint infrastructure and rail corridor invitees who are not SFRTA rail corridor invitees or FECR rail corridor invitees, including, but not limited to, trespassers or third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(II) If only an SFRTA train and an AAF train, or only an other train that is by definition an SFRTA train and an AAF train, are involved in an incident, SFRTA shall be responsible for its property, all SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees. AAF shall be responsible for its property and all of its employees, AAF's intercity rail passengers, and AAF rail corridor invitees. SFRTA and AAF shall each share one-half responsibility as to the joint infrastructure and rail corridor invitees who are not SFRTA rail corridor invitees or AAF rail corridor invitees, including, but not limited to, trespassers or third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(III) If a FECR train, an SFRTA train, and an AAF train are involved in an incident, SFRTA shall be responsible for its property, all SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees. AAF shall be responsible for its property and all of its employees, AAF's intercity rail passengers, and AAF rail corridor invitees. FECR shall be responsible for its property and all of its employees and FECR rail corridor invitees. SFRTA, FECR, and AAF shall each share

one-third responsibility as to the joint infrastructure and rail corridor invitees who are not SFRTA rail corridor invitees, AAF rail corridor invitees, or FECR rail corridor invitees, including, but not limited to, trespassers or third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(IV) If an SFRTA train, a FECR train, and an AAF train are involved in an incident, the allocation of liability among SFRTA, FECR, and AAF shall be one-third each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(V) If an SFRTA train, a FECR train, and any other train are involved in an incident, the allocation of liability among SFRTA, FECR, and the other train shall be one-third each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(VI) If an SFRTA train, an AAF train, and any other train are involved in an incident, the allocation of liability among SFRTA, AAF, and the other train shall be one-third each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

i. Notwithstanding anything to the contrary set forth in this paragraph, SFRTA is not obligated to indemnify FECR and AAF for any amount in excess of the insurance coverage limit. Whether or not SFRTA maintains the insurance coverage required pursuant to paragraph (b) to cover the indemnification obligations of this paragraph, SFRTA shall remain responsible for the indemnification obligations set forth in this paragraph up to the insurance coverage limit.

j. If the non-SFRTA commuter rail service is provided by an entity under contract with AAF, SFRTA may elect, at its sole discretion, to provide the same insurance coverage and to indemnify and hold harmless any non-SFRTA commuter rail service operator to the same extent that it provides such insurance or indemnification to AAF pursuant to this section.

(b) To purchase railroad liability insurance of $295 million per occurrence, which amount shall be adjusted in accordance with applicable law up to the insurance coverage limit, with a $5 million self-insurance retention account that shall be composed of and defined as the "SFRTA insurance program." The SFRTA insurance program may, at SFRTA's sole discretion, cover the obligations described in this section or any other service operated by SFRTA on a rail corridor. Because the self-insurance retention account is a part of the SFRTA insurance program, all definitions, terms, conditions, restrictions, exclusions, obligations, and duties included in any and all of the policies of insurance procured by SFRTA for the SFRTA insurance program shall apply to the self-insurance retention account and its application to claims against the applicable insureds. SFRTA shall name FECR and AAF as insureds on any policies it procures pursuant to this section at no cost to AAF and FECR and ensure that all policies shall have a waiver of exclusion for punitive damages and coverage for claims made pursuant to the Federal Employers Liability Act, 45 U.S.C. s. 51 et seq. Such policies must also include terrorism coverage, pollution coverage, including, but not limited to, coverage applicable in the event of a railroad accident, a derailment, or an overturn, and evacuation expense coverage.

Section 2. Section 343.52, Florida Statutes, is reordered and amended to read:

343.52 Definitions.—As used in this part, the term:

(2)~~(1)~~ "Authority" means the South Florida Regional Transportation Authority.

(3)~~(2)~~ "Board" means the governing body of the authority.

(1)~~(3)~~ "Area served" means Miami-Dade, Broward, and Palm Beach Counties. However, this area may be expanded by mutual consent of the authority and the board of county commissioners of Monroe County. The authority may not expand into any additional counties without the department's prior written approval.

(4) "Department" means the Department of Transportation.

(8)~~(4)~~ "Transit system" means a system used for the transportation of people and goods by means of, without limitation, a street railway, an elevated railway having a fixed guideway, a commuter railroad, a subway, motor vehicles, or motor buses, and includes a complete system of tracks, stations, and rolling stock necessary to effectuate passenger service to or from the surrounding regional municipalities.

(7)~~(5)~~ "Transit facilities" means property, avenues of access, equipment, or buildings built and installed in Miami-Dade, Broward, and Palm Beach Counties which are required to support a transit system.

(6) "Member" means the individuals constituting the board.

(5)~~(7)~~ "Feeder transit services" means a transit system that transports passengers to or from stations within or across counties.

Section 3. Paragraph (d) of subsection (2) of section

343.53, Florida Statutes, is amended to read:

343.53 South Florida Regional Transportation Authority.—

(2) The governing board of the authority shall consist of 10 voting members, as follows:

(d) If the authority's service area is expanded pursuant to s. 343.54(6) ~~s. 343.54(5)~~, the county containing the new service area shall have two members appointed to the board as follows:

1. The county commission of the county shall elect a commissioner as that commission's representative on the board. The commissioner must be a member of the county commission when elected and for the full extent of his or her term.

2. The Governor shall appoint a citizen member to the board who is not a member of the county commission but who is a resident and a qualified elector of that county.

Section 4. Present subsections (4) and (5) of section 343.54, Florida Statutes, are renumbered as subsections (5) and (6), respectively, and a new subsection (4) is added to that section, to read:

343.54 Powers and duties.—

(4) Notwithstanding any other provision of this part, the authority may not enter into, extend, or renew any contract or other agreement that may be funded, in whole or in part, with funds provided by the department without the prior review and written approval by the department of the authority's proposed expenditures.

Section 5. Paragraph (c) of subsection (4) of section 343.58, Florida Statutes, is amended to read:

343.58 County funding for the South Florida Regional Transportation Authority.—

(4) Notwithstanding any other provision of law to the contrary and effective July 1, 2010, until as provided in paragraph (d), the department shall transfer annually from the State Transportation Trust Fund to the South Florida Regional Transportation Authority the amounts specified in subparagraph (a)1. or subparagraph (a)2.

(c)1. Funds provided to the authority by the department under this subsection constitute state financial assistance provided to a nonstate entity to carry out a state project subject to the provisions of s. 215.97 and s. 215.971. The department shall provide the funds in accordance with the terms of a written agreement to be entered into between the authority and the department which shall provide for department review, approval and audit of authority expenditure of such funds, and shall include such other provisions as are required by applicable law. The department is specifically authorized to agree to advance the authority one-fourth of the total funding provided under this subsection for a state fiscal year at the beginning of each state fiscal year, with monthly payments over the fiscal year on a reimbursement basis as supported by invoices and such additional documentation and information as the department may reasonably require, and a reconciliation of the advance against remaining invoices in the last quarter of the fiscal year ~~may not be committed by the authority without the approval of the department, which may not be unreasonably withheld. At least 90 days before advertising any procurement or renewing any existing contract that will rely on state funds for payment, the authority shall notify the department of the proposed procurement or renewal and the proposed terms thereof.~~

~~If the department, within 60 days after receipt of notice, objects in writing to the proposed procurement or renewal, specifying its reasons for objection, the authority may not proceed with the proposed procurement or renewal. Failure of the department to object in writing within 60 days after notice shall be deemed consent. This requirement does not impair or cause the authority to cancel contracts that exist as of June 30, 2012~~.

2. To enable the department to evaluate the authority's proposed uses of state funds, the authority shall annually provide the department with its proposed budget for the following authority fiscal year and shall promptly provide the department with any additional documentation or information required by the department for its evaluation of the proposed uses of the state funds.

Section 6. Paragraph (d) is added to subsection (17) of section 341.302, Florida Statutes, to read:

341.302 Rail program; duties and responsibilities of the department.—The department, in conjunction with other governmental entities, including the rail enterprise and the private sector, shall develop and implement a rail program of statewide application designed to ensure the proper maintenance, safety, revitalization, and expansion of the rail system to assure its continued and increased availability to respond to statewide mobility needs. Within the resources provided pursuant to chapter 216, and as authorized under federal law, the department shall:

(17) In conjunction with the acquisition, ownership, construction, operation, maintenance, and management of a rail

corridor, have the authority to:

(d) Without altering any of the rights granted to the department under this section, agree to assume the obligations to indemnify and insure, pursuant to s. 343.545, freight rail service, intercity passenger rail service, and commuter rail service on a department-owned rail corridor, whether ownership is in fee or by easement, or on a rail corridor where the department has the right to operate.

Neither the assumption by contract to protect, defend, indemnify, and hold harmless; the purchase of insurance; nor the establishment of a self-insurance retention fund shall be deemed to be a waiver of any defense of sovereign immunity for torts nor deemed to increase the limits of the department's or the governmental entity's liability for torts as provided in s. 768.28. The requirements of s. 287.022(1) shall not apply to the purchase of any insurance under this subsection. The provisions of this subsection shall apply and inure fully as to any other governmental entity providing commuter rail service and constructing, operating, maintaining, or managing a rail corridor on publicly owned right-of-way under contract by the governmental entity with the department or a governmental entity designated by the department. Notwithstanding any law to the contrary, procurement for the construction, operation, maintenance, and management of any rail corridor described in this subsection, whether by the department, a governmental entity under contract with the department, or a governmental entity designated by the department, shall be pursuant to s. 287.057 and shall include, but not be limited to, criteria for

the consideration of qualifications, technical aspects of the proposal, and price. Further, any such contract for design-build shall be procured pursuant to the criteria in s. 337.11(7).

Section 7. This act shall take effect July 1, 2017.

The Florida Senate

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 842
INTRODUCER:	Appropriations Committee (Recommended by Appropriations Subcommittee on Transportation, Tourism, and Economic Development); Transportation Committee; and Senator Galvano
SUBJECT:	South Florida Regional Transportation Authority
DATE:	April 26, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Price	Miller	TR	**Fav/CS**
2.	Pitts	Pitts	ATD	**Recommend: Fav/CS**
3.	Pitts	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 842 authorizes the South Florida Regional Transportation Authority (SFRTA) to enter into contractual indemnification agreements with All Aboard Florida (AAF) and Florida East Coast Railway (FECR) on a rail corridor owned by AAF or FECR and in which all three entities operate rail service. The bill authorizes the Florida Department of Transportation (FDOT or department) to assume the obligations to indemnify and insure under such contractual agreements any freight rail service, intercity passenger service, and commuter rail service on a department-owned rail corridor or on a rail corridor where the FDOT has the right to operate.

The bill also deems funds provided by the FDOT to the SFRTA to be state financial assistance subject to specified requirements. The bill requires the FDOT to provide funds to the SFRTA in accordance with a written agreement containing certain provisions and authorizes the FDOT to advance funds at the start of each fiscal year, with monthly payments from the State Transportation Trust Fund (STTF) to the SFRTA for maintenance and dispatch on the South Florida Rail Corridor (SFRC) over the fiscal year on a reimbursement basis.

An indeterminate, but insignificant, negative fiscal impact on state government and the SFRTA is expected. See Section V., "Fiscal Impact Statement," for details.

The bill takes effect July 1, 2017.

II. Present Situation:

Freight Rail, Commuter Rail, and Intercity Passenger Rail

In 1988, the FDOT and CSX Transportation, Inc., (CSX) entered into an agreement under which the department bought approximately 81 miles of CSX track and right-of-way in order to operate commuter rail in South Florida. In 2003, the Legislature created the SFRTA, an agency of the state, as the successor to the Tri-County Commuter Rail Authority with all of its rights, privileges, and obligations.[1] The SFRTA is authorized to coordinate, develop, and operate a regional transportation system in the tri-county area of Broward, Miami-Dade, and Palm Beach Counties,[2] providing commuter rail service (Tri-Rail) for residents and visitors in the area served. The FDOT continues ownership of the SFRC, which runs parallel to I-95, extending south to Miami International Airport and north into Palm Beach County.

Florida East Coast Railway (FECR) owns[3] an existing rail corridor between Miami and Cocoa on which it operates freight rail service.[4] All Aboard Florida (AAF)[5], a subsidiary of the parent holding company of FECR, is currently developing an intercity express train service, called "Brightline," using the existing FECR corridor between Miami and Cocoa. AAF will build new track along State Road 528 between Cocoa and Orlando. Service between Miami and West Palm Beach is expected to be launched this year, with service from Miami to Orlando following.[6]

The SFRTA is planning to expand Tri-Rail service using the existing FECR corridor. Known as the "Tri-Rail Coastal Link," the project would reintroduce commuter service for passengers along an 85-mile stretch of the FECR corridor between downtown Miami and Jupiter, connecting 28 densely populated cities in east Miami-Dade, Broward, and Palm Beach Counties.[7] SFRTA's service on this link would share tracks with FECR's freight trains and AAF's Brightline, providing intercity passenger service. The SFRTA will have co-located stations with Brightline in Miami, Ft. Lauderdale, and West Palm Beach. AAF construction projects for the stations are at various stages.[8] AAF is reportedly unwilling to proceed with completion of Tri-Rail's portion of the Miami Central Station in part due to the absence of a contractual agreement to indemnify and insure FECR and AAF.[9]

Liability on Rail Corridors

Commuter rail operators often seek to use existing track or right-of-way, which is primarily owned by freight rail operators, because of the expense of building new rail infrastructure.[10] Consequently, commuter rail operators must enter into agreements with the freight rail operators regarding how they will access the right-of-way. The most common challenge that occurs during negotiations between the commuter rail operator and the freight rail operator is determining liability.[11]

The introduction of commuter trains on rail corridors that were previously used exclusively for freight operations inherently raises the freight operators' risk of liability due to the increased number of persons and trains present within the corridor. Accordingly, most freight rail operators want the commuter rail operator to assume all risks associated with the presence of the commuter rail service. Freight rail operators refer to this as the "but for" argument – "but for the presence of the commuter rail service, the freight railroad would not be exposed to certain risks; therefore, the freight railroads should be held harmless."[12] Recognizing the exposure of liability for both parties, Congress passed the Amtrak Reform and Accountability Act of 1997, which limited the aggregate overall damage liability to all passengers from a single accident to $200 million.[13]

When Congress created Amtrak in 1970,[14] Amtrak contracted with freight railroads to operate passenger rail service within freight corridors. These agreements were predicated on a no-fault allocation of liability. For example, a typical agreement indemnified the freight operators for "any injury, death or property damage to any Amtrak employees, Amtrak property or Amtrak passengers," and the freight operators would also indemnify and hold harmless Amtrak for "any injury, death or property damage" to freight employees and property.[15] According to one report, despite this language, some courts have held that the provisions do not apply in cases of gross negligence.[16]

Florida Rail Liability Provisions

In 2007, the FDOT entered into an agreement with CSX Transportation, Inc., (CSX) to purchase 61.5 miles of track or right-of-way in Central Florida to provide commuter rail service, contingent on passage of legislation containing certain indemnification provisions. Known as SunRail, the first phase of the project opened in 2014, connecting DeBary in Volusia County to

Sand Lake Road in Orange County and featuring 12 Central Florida stations.[17] Today, the FDOT operates the SunRail system, and CSX continues to operate freight trains in the corridor.

In 2009,[18] the Legislature authorized the FDOT in s. 341.302, F.S., to contractually indemnify a freight rail operator and the National Railroad Passenger Corporation (Amtrak) for any loss, injury, or damage to commuter rail passengers or rail corridor invitees, regardless of circumstances or cause, including negligence, misconduct, nonfeasance, or misfeasance. The contractual indemnification, however, is subject to the following parameters and exceptions:[19]

- If only a freight train is involved in an incident, the freight rail operator is solely responsible (pays 100 percent) for any loss, injury, or damage to its property and people, as well as for losses related to incidents involving trespassers and grade crossings. The department pays for loss, injury, or damage to any commuter rail passengers or invitees.
- If only an FDOT train (or "other train," as explained below) is involved in an incident, FDOT is solely responsible (pays 100 percent) for any loss, injury, or damage to its property and people, as well as for losses related to commuter rail passengers, rail corridor invitees, trespassers, and grade crossings.
    - Any train that is neither FDOT's train nor the freight rail operator's train is considered an "other train." An "other train" is treated as an FDOT train solely for purposes of allocation of liability between DOT and the freight rail operator, as long as FDOT and the freight rail operator share responsibility equally as to third parties injured outside the rail corridor.
- If both a freight train and an FDOT train, or a freight train and an "other train," are involved in an accident, the freight rail operator is solely responsible (pays 100 percent) for its property and all of its people. The freight rail operator and FDOT share responsibility one-half each (each pays 50 percent) for any third-party damage resulting outside the corridor or for damage relating to trespassers. The department is solely responsible (pays 100 percent) for its property and all of its people, including commuter rail passengers and invitees, except in certain cases involving willful misconduct or resulting in the award of punitive or exemplary damages, as explained below.
    - When there is a collision between an FDOT train and a freight train only and the freight rail operator's conduct amounts to willful misconduct or results in the award of punitive or exemplary damages, FDOT pays amounts in excess of its insurance deductible or self-insurance fund only if the freight rail operator pays for the amount of the insurance deductible or self-insurance fund (which is capped at $10 million).
- If an FDOT train, a freight train, and any "other train" are involved in an incident, the allocation of liability remains one-half each between FDOT and the freight rail operator for any loss, injury, or damage to third parties outside the rail corridor. If the "other train" makes any payment to third parties injured outside the corridor, the allocation of credit shall not reduce the freight rail operator's allocation to less than one-third of the total third-party liability.

[17] *See* the SunRail website available at: http://corporate.sunrail.com/stations-trains/phase-1-stations/ (last visited February 14, 2017).
[18] Chapter 2009-271, L.O.F.
[19] *See* s. 341.302(17), F.S., relating to the FDOT's grants of authority with respect to the acquisition, ownership, construction, operation, maintenance, and management of a rail corridor.

Additionally, in a freight-train-only accident, the freight rail operator is solely responsible for all damages relating to incidents with trespassers or at grade crossings. In an FDOT-train-only accident, the department is solely responsible for all damages relating to incidents with trespassers or at grade crossings. In an incident involving an FDOT train (or an "other train") and a freight train, the department and the freight rail operator share responsibility one-half each as to damages to trespassers and third parties outside the rail corridor; however, the statute does not address liability for damages relating to incidents at grade crossings.

The department's duty to indemnify a freight rail operator is capped at $200 million. The department is required to purchase up to $200 million in liability insurance and establish a self-insurance retention fund to cover any deductible, provided that any parties covered under the insurance must pay a reasonable monetary contribution to cover the cost of the insurance. The self-insurance fund or deductible shall not exceed $10 million. The insurance and self-insurance retention fund may provide coverage for all damages, including punitive damages.

SFRTA Funding

Statutory provisions require each of the three counties served by the SFRTA to provide no less than $2.67 million annually, dedicated by each governing body by October 1 of each year, which funds may be used for capital, operations, and maintenance.[20] Additionally, current law requires each county to annually fund SFRTA operations in an amount no less than $1.565 million.[21] The SFRTA is currently responsible for dispatching, maintenance, and inspection of the South Florida Rail Corridor.[22] Having assumed such responsibility, the FDOT is statutorily required to *annually* transfer to the SFRTA a total of $42.1 million as follows:

- $15 million for SFRTA operations, maintenance, and dispatch; and
- $27.1 million for operating assistance, corridor track maintenance, and contract maintenance for the SFRTA.[23]

In addition to these statutory amounts, the FDOT has agreed to cover 100 percent of annual maintenance costs up to $14.4 million, with shared costs in excess of that amount, pursuant to an Operating Agreement between the FDOT and the SFRTA setting out agreed-upon percentages.[24] The SFRTA's 2016 Comprehensive Annual Financial Report indicates that of the $102.2 million in total revenue for 2016, the FDOT contributed $55.3 million or 54 percent.[25]

The FDOT's Oversight Role

The SFRTA may not commit any funds provided by the FDOT without the FDOT's approval. The FDOT may not unreasonably withhold approval. At least 90 days before advertising any procurement or renewing any existing contract using state funds for payment, the SFRTA must

notify the FDOT of the proposed procurement or renewal and the proposed terms. If the FDOT objects in writing within 60 days of receipt of the notice, the SFRTA may not proceed. Failure of the FDOT to object within 60 days is deemed consent.[26] To enable the FDOT's evaluation of the SFRTA's proposed uses of state funds, the SFRTA must annually provide the FDOT with its proposed budget and with any additional documentation or information required by the FDOT.[27]

The Florida Single Audit Act/Agreements Funded with Federal or State Assistance

Section 215.97, F.S., creates the Florida Single Audit Act. Among its stated purposes is to establish uniform state audit requirements for state financial assistance provided by state agencies to nonstate entities to carry out state projects.

- "State financial assistance" is defined to mean state resources, not including federal financial assistance and state matching on federal programs, provided to a nonstate entity to carry out a state project, including the types of state resources stated in the rules of the Department of Financial Services established in consultation with all state awarding agencies. State financial assistance may be provided directly by state awarding agencies or indirectly by nonstate entities. The term does not include procurement contracts used to buy goods or services from vendors and contracts to operate state-owned and contractor-operated facility.
- "Nonstate entity" means a local government entity, higher education entity, nonprofit organization, or for-profit organization that receives state financial assistance.

Section 215.971, F.S., requires an agreement that provides state financial assistant to a recipient or subrecipient to include all of the following:

- A scope of work that clearly establishes the tasks to be performed;
- A division of the agreement into deliverables that must be received and accepted in writing by the agency before payment. Deliverables must be directly related to the scope of work. The agreement must specify the required minimum level of service to be performed and criteria for evaluating completion of each deliverable;
- Specification of the financial consequences for failure to perform the minimum level of service.
- Specification that a recipient may expend funds only for allowable costs, and that any balance of unobligated funds and any funds paid in excess of the amount to which the recipient is entitled must be refunded to the state agency; and
- Any additional information required by the Florida Single Audit Act.

In 2016, the FDOT's Inspector General engaged in an effort "to determine the nature and extent of SFRTA's expenditures and whether their financial records were in compliance with applicable laws, rules, and regulations."[28] Based on the SFRTA's response, the Inspector General requested a determination from the Department of Financial Services whether appropriations to the SFRTA constitute "state financial assistance."[29] The Inspector General's report found:

[26] Section 348.58(4)(c)1., F.S.
[27] Section 348.58(4)(c)2., F.S.
[28] *See Audit Report No. 141-4002*, available at: http://www.fdot.gov/ig/Reports/14I-4002%20Final.pdf. (Last visited March 18, 2017.)
[29] *Audit Report* at 7.

> SFRTA, as determined by the Department of Financial Services (DFS), is a Special District and a nonstate entity that is a recipient of state financial assistance.[30] We determined the Operating Agreement[31] between SFRTA and the department does not fully comply with mandatory provisions required by Section 215.971, F.S. nor does it contain the procurement provisions outlined in Chapter 287, F.S. We also determined $153 million of state appropriations was omitted from audit coverage in accordance with the Florida Single Audit Act for fiscal years 2010/11 to 2014/15. Additionally, SFRTA did not provide a standard operating budget-to-actual expenditure report based upon the use of each grant or funding source.[32]

The Inspector General recommended:

- The FDOT and the SFRTA should execute a revised agreement containing the mandatory provisions per s. 297.971, F.S.;
- The SFRTA should reissue Florida Single Audit reports for fiscal years 2010-1 to 2014-15 to provide audit coverage of the $153 million in state financial assistance previously omitted; and
- The SFRTA should provide monthly budget-to-actual expenditure reports, by each grant or other funding source, for both its operating fund and capital funds.[33]

III. Effect of Proposed Changes:

Section 1 creates s. 343.545, F.S., to provide definitions and authorizing the SFRTA to indemnify FECR and AAF for any loss, injury or damage to SFRTA's commuter rail passengers and rail corridor invitees, regardless of cause, including fault, failure, negligence, misconduct, nonfeasance, or misfeasance of FECR or AFF, subject to certain parameters. The bill authorizes the SFRTA to purchase certain railroad liability insurance and limits the SFRTA's obligation to indemnify to the insurance coverage amount. The bill also authorizes the FDOT to assume the SFRTA's obligations to indemnify and insure any freight rail service, intercity passenger rail service, and commuter rail service on an FDOT-owned rail corridor

Definitions

The bill provides various definitions relating to the act:

---

[30] The DFS determined the SFRTA had for nine years submitted financial audit reports per s. 28.39, F.S., as a special district; that a special district as defined by statute is a unit of government created for a special purpose by a special act with jurisdiction to operate within a limited geographic boundary; that the SFRTA was created by the South Florida Regional Transportation Authority Act for the special purpose of operating and managing a transit system in Broward, Miami-Dade and Palm Beach Counties; and that the law limits operations to those counties. The DFS also noted the SFRTA is a state project (a state program that provides state financial assistance to a nonstate organization) that must be assigned a Catalog of State Financial Assistance number and, finally, since state law created the SFRTA to carry out a state project, the SFRTA is a recipient of state financial assistance. *Audit Report,* Appendix J.

[31] The report notes a June 2013 operating agreement between the FDOT and the SFRTA for continuing SFRC operating rights for a 14-year period that included SFRTA's agreement to conduct all activities in accordance with applicable federal and state laws and regulations and the operating rules, policies, and procedures adopted pursuant to such laws and regulations. *Id.* at 5.

[32] *Audit Report* at 1.

[33] *Id.*

- "Rail corridor," means the portion of a linear contiguous strip of real property that is used for rail service and owned by FECR or owned or controlled by AAF. The term applies *only when* the [SFRTA] has, by contract, assumed the obligation to forever protect, defend, indemnify, and hold harmless FECR, AAF, or their successors [in accordance with the bill's provisions] and acquired an easement interest, a lease, a right to operate, or a right of access. The term includes structures essential to railroad operations, including the land, structures, improvements, rights-of-way, easements, rail lines, rail beds, guideway structures, switches, yards, parking facilities, power relays, switching houses, rail stations, any ancillary development, and any other facilities or equipment used for the purposes of construction, operation, or maintenance of a railroad that provides rail service.
- "SFRTA rail corridor invitee" means any rail corridor invitee who is SFRTA's commuter rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, for the purpose of doing business with, or at the behest of SFRTA. The term does not include:
  - Patrons at any station, except those patrons who are also SFRTA's commuter rail passengers;
  - Any person present on the rail corridor who is a patron of the non-SFRTA commuter rail service or is meeting or assisting a person who is a patron of the non-SFRTA commuter rail service;
  - Commercial or residential tenants of the developments in and around the stations or their invitees; or
  - Any third parties performing work at a station or in the rail corridor, such as employees and invitees of "PI"[34] or related entities, utilities, and fiber optic companies or others, or invitees or employees of the department or any county or municipality.
- "AAF rail corridor invitee," means any rail corridor invitee who is an AAF intercity rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of AAF, including vendors or employees of vendors at the MiamiCentral[35] station or any other station that AAF may construct on the rail corridor. The term does not include:
  - Patrons at any station, except those patrons who are also AAF's intercity rail passengers;
  - Commercial or residential tenants of the developments in and around the stations of their invitees; or
  - Any third parties performing work at a station or in the rail corridor, such as employees and invites of PI or related entities, utilities, and fiber optic companies, or invitees or employees of the FDOT or any county or municipality.
- "FECR rail corridor invitee," means any rail corridor invitee who is present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of FECR. The term does not include patrons at any station, nor the same commercial or residential tenants or third parties referenced in the "AAF rail corridor invitee" definition above.
- "Rail corridor invitee," means any person who is on or about the rail corridor in which the AAF, SFRTA, or the non-SFRTA commuter rail service operator has an easement interest, a lease, a right to operate, or a right of access, and who is:

[34] "PI" means FDG Flagler Station II, LLC, which has an easement on the rail corridor for nonrail uses.
[35] "MiamiCentral" means the primary All Aboard Florida station located in downtown Miami, which includes exclusive areas used by the [SFRTA] for commuter rail service.

  - Present at the behest of an AAF, an SFRTA, a FECR, or the non-SFRTA commuter rail service operator for any purpose;
  - Otherwise entitled to be on or about the rail corridor; or
  - Meeting, assisting, or in the company of any person described above.
- "Non-SFRTA commuter rail service," means AAF's operation, or an AAF third-party designee's operation, of trains in any commuter rail service on the rail corridor that is not SFRTA's commuter rail service. The term does not include:
  - Any service operated by the [SFRTA] between MiamiCentral station and any stations in Miami-Dade County, Broward County, Palm Beach County, or points north on the FECR rail corridor; and
  - SFRTA's commuter rail service on the South Florida Rail Corridor owned by the (FDOT].
- "Other train," means a train that is not SFRTA's train, FECR's train, AAF's train, a train of a non-SFRTA commuter rail service operator, or a train of any other operator of intercity rail passenger service and must be treated as a train of the entity that made the initial request for the train to operate on the rail corridor.
- "Limited covered accident," means:
  - A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and FECR only, where the collision is caused by or arising from the willful misconduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order; or
  - A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and AAF only, where the collision is caused by or arising from the willful misconduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order.

In a limited covered accident, AAF's or FECR's willful misconduct must be "adjudicated by a court until all appeals are exhausted." This requirement is not in the provisions of s. 341.302, F.S., related to FDOT's liability with respect to the SunRail project.

The bill also defines the following terms: All Aboard Florida or AAF, AAF intercity rail passenger, commuter rail passenger, commuter rail service, existing IRIS crossing, Florida East Coast Railway or FECR, freight rail service, intercity passenger rail service, joint infrastructure, non-SFRTA commuter rail service operator, passenger easement, SFRC, and South Florida Regional Transportation Authority or SFRTA.

Assumption of Indemnity and Insurance Obligations

The bill authorizes the SFRTA to indemnify and protect FECR and AAF[36] from any liability, cost, or expense, including without limitation SFRTA's commuter rail passengers and rail corridor invitees in the rail corridor, regardless of whether the loss, damage, destruction, injury, or death is caused by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of FECR or AAF. The contractual indemnification, however, is subject to the following:

- The SFRTA is solely responsible (pays 100 percent) for any loss, injury, or damage to SFRTA commuter rail passengers, invitees, or trespassers, other than passengers or invitees of the non-SFRTA commuter rail service, regardless of circumstances or cause, subject to the following:
- FECR or AAF, as applicable, and with respect to a limited covered accident, must defend and indemnify the SFRTA for the amount of the self-insurance retention account (discussed below).
- If only an SFRTA train is involved in an incident, including incidents with trespassers or at at-grade crossings, the SFRTA is solely responsible (pays 100 percent).
- If only an FECR train or only an AAF train is involved in an incident, including incidents with trespassers or at at-grade crossings, FECR or AAF, as applicable, is solely responsible (pays 100 percent), except for loss, injury, or damage to SFRTA's commuter rail passengers, employees, and invitees.
- In an incident involving any "other train" that is not an SFRTA train, the other train is treated as an SFRTA train solely for purposes of allocation of liability between the SFRTA and the FECR, or between the SFRTA and AAF, as applicable, who share equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both the SFRTA's train and the FECR's train, or both the SFRTA's train and AAF's train, as applicable. The allocation as between the SFRTA and the FECR, or between the SFRTA and AAF, as applicable, remains one-half each as to third parties outside the rail corridor. The involvement of any other train does not alter the sharing of equal responsibility as to third parties outside the rail corridor.
- If only an SFRTA train and an FECR train, or only an "other train" (that is by definition considered an SFRTA train) and an FECR train, are involved in an incident, the SFRTA is responsible (pays 100 percent) for its property, commuter rail passengers, employees, and invitees. The FECR is responsible for its property, employees, and invitees. The SFRTA and the FECR each share one-half responsibility as to joint infrastructure[37] and rail corridor invitees who are not SFRTA invitees or FECR invitees, including, but not limited to, trespassers or third parties outside the rail corridor.
- If only an SFRTA train and an AAF train, or only an "other train" (that is by definition considered an SFRTA train) and an AAF train, are involved in an incident, the SFRTA is responsible (pays 100 percent) for its property, commuter rail passengers, employees, and invitees. AAF is responsible for its property, intercity rail passengers, employees, and invitees. The SFRTA and AAF each share one-half responsibility as to joint infrastructure and non-SFRTA and non-AAF invitees, as well as to trespassers and third parties outside the rail corridor.

[36] For as long as AAF and FECR or their successors agree to indemnify the SFRTA in accordance with the bill's provisions.
[37] Defined to mean any portion or segment of the rail corridor that does not contain tracks or infrastructure designated for the exclusive use of the SFRTA, AAF, or the FECR and portions of the MiamiCentral station used by both AAF and SFRTA, including, but not limited to, stairs, elevators, and escalators.

- If an FECR train, an SFRTA train, and an AAF train are involved in an incident, the SFRTA is responsible for its property, commuter rail passengers, employees, and invitees. AAF is responsible for its property, employees, intercity rail passengers, and invitees. The FECR is responsible for its property, employees, and invitees, and invitees. The SFRTA, the FECR, and AAF each share one-third responsibility as to joint infrastructure and rail corridor invitees who are not SFRTA invitees, AAF invitees, or FECR invitees, including trespassers or third parties outside the rail corridor.
- If an SFRTA train, an FECR train, and an AAF train are involved in an incident, the bill allocates one-third of any liability each to the SFRTA, the FECR, and AAF as to third parties outside the rail corridor.
- If an SFRTA train, an FECR train, and any other train; or if an SFRTA train, an AAF train and any other train, are involved in an incident, the bill allocates one-third of any liability each to the SFRTA, the FECR, and the other train; or to the SFRTA, AAF, and the other train, as applicable, as to third parties outside the rail corridor.

The bill provides that the SFRTA is not obligated to indemnify the FECR and AAF for any amount in excess of required insurance coverage, but the SFRTA remains responsible for the indemnity obligation up the insurance coverage limit. If non-SFRTA commuter rail service is provided by an entity under contract with AAF, the SFRTA may elect at its sole discretion to provide the same insurance coverage and indemnity to any non-SFRTA commuter rail service operator.

The bill authorizes the SFRTA to purchase railroad liability insurance of $295 million per occurrence, adjusted in accordance with applicable law,[38] with a $5 million self-insurance retention account, known as the "SFRTA insurance program." At the SFRTA's sole discretion, the insurance program may cover the obligations described in the bill or any other service operated by the SFRTA on a rail corridor. All definitions, terms, conditions, restrictions, exclusions, obligations, and duties included in any of the insurance policies procured by the SFRTA for the insurance program apply to the self-insurance retention account and its application to claims against the applicable insureds.

The SFRTA must name the FECR and AAF as insureds on any policies it procures at no cost to the FECR or AAF and ensure that all policies have a waiver of exclusion for punitive damages and coverage for claims made pursuant to the Federal Employers Liability Act.[39] Such policies must include coverage for terrorism and pollution, including, but not limited to, coverage applicable in the event of a railroad accident, a derailment, or an overturn, and evacuation expense.

Section 6 amends s. 341.302(17), F.S., adding a new paragraph (d), to authorize the FDOT to assume the SFRTA's obligations to indemnify and insure freight rail service, intercity passenger rail service, and commuter rail service on an FDOT-owned rail corridor, whether ownership is in

[38] *See* 49 U.S.C. s. 28103. In January of this year, the U.S.D.O.T. Secretary published its Notice of Adjustment to Rail Passenger Transportation Liability Cap under s. 11415 of the Fixing America's Surface Transportation Act, raising the transportation liability cap from $200 million to just under $295 million. *See* the notice at: https://www.gpo.gov/fdsys/pkg/FR-2016-01-11/pdf/2016-00301.pdf. (Last visited March 17, 2017.)

[39] 45 U.S.C. 51 *et seq*. This act protects and compensates railroad workers injured on the job, if the worker can prove that the railroad was at least partly legally negligent in causing the injury.

fee or by easement, or on a rail corridor where the FDOT has the right to operate. The FDOT notes that this authority would provide a financial advantage to SFRTA that is not offered to other authorities or transit operations.[40]

The SFRTA, the FDOT's Oversight Role, and State Funds Transfer

Section 4 amends s. 343.54, F.S., relating to the powers and duties of the SFRTA, to prohibit the SFRTA from entering into, extending, or renewing any contract or other agreement that may be funded with FDOT-provided funds without the prior review and written approval by the FDOT of the proposed expenditures.

Section 5 amends s. 343.58(4), F.S., deeming funds provided to the authority by the FDOT under that section to be state financial assistance provided to a nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971, F.S. The FDOT is directed to provide the funds in accordance with the terms of a written agreement to be entered into between the SFRTA and the FDOT. The agreement must provide for FDOT review, approval, and audit of the SFRTA's expenditure of such funds and must include such other provisions as are required by applicable law. The FDOT is expressly authorized to advance the SFRTA one-fourth of the total funding provided under that section for a state fiscal year at the beginning of each state fiscal year. Thereafter, the bill requires monthly payments over the fiscal year on a reimbursement basis as supported by invoices and such additional documentation and information as the FDOT may reasonably require, and a reconciliation of the advance against remaining invoices in the last quarter of the fiscal year.

This section to remove the existing provisions relating to the FDOT's oversight role, except for requiring the SFRTA to annually provide the FDOT with its proposed budget and to *promptly* provide the FDOT with any additional documentation or information required by the FDOT for its evaluation of SFRTA-proposed uses of state funds.

Section 2 amends s. 343.52, F.S., to define "department" to mean the Department of Transportation.

Section 3 amends s. 343.53, F.S., revising a cross-reference to conform to changes made by the act.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

[40] *See* the FDOT's analysis of SB 842. (On file in the Senate Transportation Committee.)

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The FECR and AAF would benefit as named insureds under the required insurance policy without contributing towards the cost of the insurance.

C. Government Sector Impact:

The FDOT and the SFRTA may experience administrative expenses associated with the FDOT's review, written approval, and audit of the SFRTA's proposed expenditures using any FDOT-provided funding.

The cost to SFRTA for the purchase of liability insurance and to establish a self-insurance retention fund for the purpose of paying the deductible limit established in the insurance policies is unknown at this time.

The bill expands the FDOT's authority to indemnify intercity passenger rail service and commuter rail service. The expansion overlaps, at least in part, the FDOT's existing authority to indemnify freight rail service in s. 341.302, F.S. To the extent that FDOT assumes the SFRTA's obligations to indemnify and insure freight rail service, intercity passenger rail service, and commuter rail service, there would be an indeterminate cost to the state for insurance premiums and any payments from the self-insurance retention fund.

VI. Technical Deficiencies:

For purposes of clarity, the conjunctive "or" on line 244 may need to be modified to reflect the relationship between subparagraphs in newly created s. 343.545(2)(a), F.S.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill amends the following sections of the Florida Statutes: 343.52, 343.53, 343.54, 343.58, and 341.302.

This bill creates section 343.545 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The committee substitute removes the existing provisions relating to the FDOT's oversight role and prohibits the SFRTA from entering into, extending, or renewing any contract or other agreement that may be funded with FDOT-provided funds without the prior review and written approval by the FDOT of the proposed expenditures. Additionally, the CS:

- Deems funds provided to the SFRTA by the FDOT to be state financial assistance provided to a nonstate entity to carry out a state project subject to the provisions of ss. 215.97 and 215.971, F.S.;
- Directs the FDOT and the SFRTA to enter into a written agreement pursuant to which the FDOT will provide the required statutory funding and which must provide for FDOT review, approval, and audit of the SFRTA's expenditure of such funds;
- Authorizes the FDOT to advance the SFRTA one-fourth of the required statutory funding at the start of each fiscal year, with monthly payments over the fiscal year on a reimbursement basis supported by invoices, and a reconciliation in the last quarter of the fiscal year.
- Removes two definitions, "existing IRIS crossing" and "passenger easement," in the newly created s. 343.545, F.S., as the terms are not used elsewhere in the bill.

CS by Transportation on March 22, 2017:
The CS removes from the bill provision that the state funds transferred from the STTF to the SFRTA pursuant to s. 343.58, F.S., may not be considered state financial assistance subject to the Florida Single Audit Act, s. 215.97, F.S., or to the requirements for inclusion of specified provisions in agreements funded with federal or state assistance under s. 215.971, F.S.

B. Amendments:

None

By the Committee on Transportation; and Senator Galvano

596-02746-17 2017842c1

A bill to be entitled

An act relating to the South Florida Regional Transportation Authority; creating s. 343.545, F.S.; defining terms; authorizing the South Florida Regional Transportation Authority, in conjunction with the operation of a certain commuter rail service, to have the power to assume specified indemnification and insurance obligations, subject to certain requirements; amending s. 343.58, F.S.; requiring the Department of Transportation to transfer specified amounts annually from the State Transportation Trust Fund to the authority; requiring that the transfer be made through quarterly payments commencing at the start of each fiscal year; amending s. 341.302, F.S.; authorizing the department to agree to assume certain indemnification and insurance obligations under certain circumstances; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 343.545, Florida Statutes, is created to read:

343.545 Power to assume indemnification and insurance obligations; definitions.—

(1) As used in this section, the term:

(a) "All Aboard Florida" or "AAF" means All Aboard Florida Operations, LLC, or its successors and assigns.

(b) "AAF intercity rail passenger" means any person, ticketed or unticketed, using the AAF intercity passenger rail

596-02746-17 2017842c1

service on the rail corridor:

1. On board trains, locomotives, rail cars, or rail equipment employed in AAF intercity passenger rail service or entraining thereon and detraining therefrom;

2. On or about the rail corridor for any purpose related to the AAF intercity passenger rail service, including parking or purchasing tickets therefor and coming to, waiting for, and leaving from locomotives, rail cars, or rail equipment; or

3. Meeting, assisting, or in the company of any person described in subparagraph 1. or subparagraph 2.

(c) "AAF rail corridor invitee" means any rail corridor invitee who is an AAF intercity rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of AAF, including persons who are vendors or employees of vendors at the MiamiCentral station or any other station that AAF may construct on the rail corridor. The term does not include patrons at any station, except those patrons who are also AAF's intercity rail passengers; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies, or invitees or employees of the department or any county or municipality.

(d) "Commuter rail passenger" means any person, ticketed or unticketed, using the commuter rail service on the rail corridor:

1. On board trains, locomotives, rail cars, or rail

equipment employed in commuter rail service or entraining thereon and detraining therefrom;

2. On or about the rail corridor for any purpose related to the commuter rail service, including parking or purchasing tickets therefor and coming to, waiting for, and leaving from locomotives, rail cars, or rail equipment; or

3. Meeting, assisting, or in the company of any person described in subparagraph 1. or subparagraph 2.

(e) "Commuter rail service" means the operation of the authority's trains transporting passengers and making frequent stops within urban areas and their immediate suburbs along the rail corridor for the purpose of passengers entraining and detraining, and including the nonrevenue movement of trains for storage or maintenance. The term does not include the operation of trains by AAF transporting passengers in intercity passenger rail service between passenger rail stations established by AAF at Miami-Dade, Fort Lauderdale, West Palm Beach, or future stations, but shall include the provision of non-SFRTA commuter rail service by AAF or a third party designated by AAF, including SFRTA.

(f) "Existing IRIS crossing" means the existing, at-grade railroad crossing between the SFRC and the rail corridor located in Miami-Dade County.

(g) "Florida East Coast Railway" or "FECR" means Florida East Coast Railway, LLC, or its successors and assigns.

(h) "FECR rail corridor invitee" means any rail corridor invitee who is present on the rail corridor at the request of, pursuant to a contract with, or otherwise for the purpose of doing business with or at the behest of FECR. The term does not

include patrons at any station; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies or others, or invitees or employees of the department or any county or municipality.

(i) "Freight rail service" means any and all uses and purposes that are ancillary or related to current and future freight rail operations on, along, over, under, and across the rail corridor, including operating trains, rail cars, business cars, locomotives, hi-rail vehicles, and other rail equipment for the movement of freight in overhead and local service; interchanging rail cars with other freight railroads; providing pickups, setoffs, transloading services, or storage in transit; and any and all other activities that are ancillary or related to the transportation of freight on or along the rail corridor.

(j) "Intercity passenger rail service" means all passenger service on the rail corridor other than commuter rail service and is characterized by trains making less frequent stops along the rail corridor than the commuter rail service does.

(k) "Joint infrastructure" means any portion or segment of the rail corridor which does not contain tracks or infrastructure designated for the exclusive use of the authority, AAF, or FECR and portions of the MiamiCentral station used by both AAF and SFRTA, including, but not limited to, stairs, elevators, and escalators.

(l) "Limited covered accident" means:

1. A collision directly between the trains, locomotives,

rail cars, or rail equipment of SFRTA and FECR only, where the collision is caused by or arising from the willful misconduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of FECR or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order; or

2. A collision directly between the trains, locomotives, rail cars, or rail equipment of SFRTA and AAF only, if the collision is caused by or arising from the willful misconduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order, or if punitive damages or exemplary damages are awarded due to the conduct of AAF or its subsidiaries, agents, licensees, employees, officers, or directors, as adjudicated pursuant to a final and unappealable court order.

(m) "MiamiCentral" means the primary All Aboard Florida station located in downtown Miami, which includes exclusive areas used by the authority for commuter rail service.

(n) "Non-SFRTA commuter rail service" means AAF's operation, or an AAF third-party designee's operation, of trains in any commuter rail service on the rail corridor which is not SFRTA's commuter rail service. The term does not include:

1. Any service operated by the authority between the MiamiCentral station and any stations in Miami-Dade County, Broward County, Palm Beach County, or points north on the FECR

rail corridor; and

2. SFRTA's commuter rail service on the South Florida Rail Corridor owned by the department.

(o) "Non-SFRTA commuter rail service operator" means the operator of any non-SFRTA commuter rail service.

(p) "Other train" means a train that is not SFRTA's train, FECR's train, AAF's train, a train of a non-SFRTA commuter rail service operator, or a train of any other operator of intercity rail passenger service and must be treated as a train of the entity that made the initial request for the train to operate on the rail corridor.

(q) "Passenger easement" means a permanent, perpetual, and exclusive easement on, along, over, under, or across the rail corridor for commuter rail service.

(r) "PI" means FDG Flagler Station II, LLC, which has an easement on the rail corridor for nonrail uses.

(s) "Rail corridor" means the portion of a linear contiguous strip of real property which is used for rail service and owned by FECR or owned or controlled by AAF. The term applies only when the authority has, by contract, assumed the obligation to forever protect, defend, indemnify, and hold harmless FECR, AAF, or their successors, in accordance with subsection (2), and acquired an easement interest, a lease, a right to operate, or a right of access. The term includes structures essential to railroad operations, including the land, structures, improvements, rights-of-way, easements, rail lines, rail beds, guideway structures, switches, yards, parking facilities, power relays, switching houses, rail stations, any ancillary development, and any other facilities or equipment

used for the purposes of construction, operation, or maintenance of a railroad that provides rail service.

(t) "Rail corridor invitee" means any person who is on or about the rail corridor in which the AAF, SFRTA, or the non-SFRTA commuter rail service operator has an easement interest, a lease, a right to operate, or a right of access, and who is:

1. Present at the behest of an AAF, an SFRTA, a FECR, or the non-SFRTA commuter rail service operator for any purpose;

2. Otherwise entitled to be on or about the rail corridor; or

3. Meeting, assisting, or in the company of a person described in subparagraph 1. or subparagraph 2.

(u) "SFRC" means South Florida Rail Corridor.

(v) "South Florida Regional Transportation Authority" or "SFRTA" means the authority.

(w) "SFRTA rail corridor invitee" means any rail corridor invitee who is SFRTA's commuter rail passenger or is otherwise present on the rail corridor at the request of, pursuant to a contract with, for the purpose of doing business with, or at the behest of SFRTA. The term does not include patrons at any station, except those patrons who are also SFRTA's commuter rail passengers; any person present on the rail corridor who is a patron of the non-SFRTA commuter rail service or is meeting or assisting a person who is a patron of the non-SFRTA commuter rail service; commercial or residential tenants of the developments in and around the stations or their invitees; or any third parties performing work at a station or in the rail corridor, such as employees and invitees of PI or related entities, utilities, and fiber optic companies or others, or

invitees or employees of the department or any county or municipality.

(2) The authority, in conjunction with the operation of a commuter rail service on a rail corridor, has the power to assume the following obligations:

(a) To indemnify AAF and FECR in accordance with the terms specified in this paragraph for so long as AAF and FECR or their successors in interest agree to indemnify the authority in accordance with the terms specified in this paragraph.

1. Except as specifically provided in this paragraph, the authority shall protect, defend, indemnify, and hold harmless FECR, its officers, agents, employees, successors, and assigns from and against any liability, cost, and expense, including, but not limited to, SFRTA's commuter rail passengers and rail corridor invitees in, on, or about the rail corridor, regardless of whether the loss, damage, destruction, injury, or death giving rise to any such liability, cost, or expense is caused in whole or in part, and to whatever nature or degree, by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of FECR or its officers, agents, employees, successors, and assigns;

2. Except as specifically provided in this paragraph, the authority shall protect, defend, indemnify, and hold harmless AAF and its officers, agents, employees, successors, and assigns from and against any liability, cost, and expense, including, but not limited to, SFRTA commuter rail passengers and SFRTA rail corridor invitees in, on, or about the rail corridor, regardless of whether the loss, damage, destruction, injury, or death giving rise to any such liability, cost, or expense is

caused in whole or in part, and to whatever nature or degree, by the fault, failure, negligence, misconduct, nonfeasance, or misfeasance of AAF or its officers, agents, employees, successors, and assigns; or

3. The assumption of liability by the authority may not in any instance exceed the following parameters of allocation of risk:

a. The authority shall be solely responsible for any loss, injury, or damage to SFRTA commuter rail passengers, or to SFRTA rail corridor invitees or trespassers, other than passengers or invitees of the non-SFRTA commuter rail service, regardless of circumstances or cause, subject to the terms and provisions of this paragraph.

b. FECR shall, with respect to a limited covered accident, protect, defend, and indemnify SFRTA for the amount of the self-insurance retention account.

c. AAF shall, with respect to a limited covered accident, protect, defend, and indemnify SFRTA for the amount of the self-insurance retention account.

d. When only one train is involved in an incident, including incidents with trespassers or at at-grade crossings, the authority shall be solely responsible for any loss, injury, or damage if the train is an SFRTA train.

e. When an incident occurs with only FECR's train involved, including incidents with trespassers or at at-grade crossings, FECR shall be solely responsible for any loss, injury, or damage, except for SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees.

f. When an incident occurs with only AAF's train involved,

including incidents with trespassers or at at-grade crossings, AAF shall be solely responsible for any loss, injury, or damage, except for SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees.

g. For the purposes of this paragraph:

(I) An "other train" shall be treated as the train of the entity that made the initial request for the train to operate on the rail corridor.

(II) In an incident involving any other train that is not an SFRTA train, the other train shall be treated as an SFRTA train solely for purposes of any allocation of liability between:

(A) SFRTA and FECR. SFRTA and FECR shall share responsibility equally as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both SFRTA's train and FECR's train and the allocation as between SFRTA and FECR, regardless of whether the other train is treated as an SFRTA train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident. The involvement of any other train shall not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(B) SFRTA and AAF. SFRTA and AAF shall share responsibility equally as to third parties outside the rail corridor who incur loss, injury, or damage as a result of any incident involving both an SFRTA train and AAF's train and the allocation as between SFRTA and AAF, regardless of whether the other train is

treated as an SFRTA train, shall remain one-half each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident. The involvement of any other train shall not alter the sharing of equal responsibility as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

h. When more than one train is involved in an incident:

(I) If only an SFRTA train and a FECR train, or only an other train that is an SFRTA train by definition and a FECR train, are involved in an incident, SFRTA shall be responsible for its property, all SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees. FECR shall be responsible for its property and all of its employees and FECR rail corridor invitees. SFRTA and FECR shall each share one-half responsibility as to the joint infrastructure and rail corridor invitees who are not SFRTA rail corridor invitees or FECR rail corridor invitees, including, but not limited to, trespassers or third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(II) If only an SFRTA train and an AAF train, or only an other train that is by definition an SFRTA train and an AAF train, are involved in an incident, SFRTA shall be responsible for its property, all SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees. AAF shall be responsible for its property and all of its employees, AAF's intercity rail passengers, and AAF rail corridor invitees. SFRTA and AAF shall each share one-half responsibility as to the joint infrastructure and rail corridor invitees who are not SFRTA rail corridor invitees or AAF rail corridor invitees, including, but

not limited to, trespassers or third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(III) If a FECR train, an SFRTA train, and an AAF train are involved in an incident, SFRTA shall be responsible for its property, all SFRTA's commuter rail passengers, SFRTA employees, and SFRTA rail corridor invitees. AAF shall be responsible for its property and all of its employees, AAF's intercity rail passengers, and AAF rail corridor invitees. FECR shall be responsible for its property and all of its employees and FECR rail corridor invitees. SFRTA, FECR, and AAF shall each share one-third responsibility as to the joint infrastructure and rail corridor invitees who are not SFRTA rail corridor invitees, AAF rail corridor invitees, or FECR rail corridor invitees, including, but not limited to, trespassers or third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(IV) If an SFRTA train, a FECR train, and an AAF train are involved in an incident, the allocation of liability among SFRTA, FECR, and AAF shall be one-third each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(V) If an SFRTA train, a FECR train, and any other train are involved in an incident, the allocation of liability among SFRTA, FECR, and the other train shall be one-third each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

(VI) If an SFRTA train, an AAF train, and any other train are involved in an incident, the allocation of liability among

SFRTA, AAF, and the other train shall be one-third each as to third parties outside the rail corridor who incur loss, injury, or damage as a result of the incident.

i. Notwithstanding anything to the contrary set forth in this paragraph, SFRTA is not obligated to indemnify FECR and AAF for any amount in excess of the insurance coverage limit. Whether or not SFRTA maintains the insurance coverage required pursuant to paragraph (b) to cover the indemnification obligations of this paragraph, SFRTA shall remain responsible for the indemnification obligations set forth in this paragraph up to the insurance coverage limit.

j. If the non-SFRTA commuter rail service is provided by an entity under contract with AAF, SFRTA may elect, at its sole discretion, to provide the same insurance coverage and to indemnify and hold harmless any non-SFRTA commuter rail service operator to the same extent that it provides such insurance or indemnification to AAF pursuant to this section.

(b) To purchase railroad liability insurance of $295 million per occurrence, which amount shall be adjusted in accordance with applicable law up to the insurance coverage limit, with a $5 million self-insurance retention account that shall be composed of and defined as the "SFRTA insurance program." The SFRTA insurance program may, at SFRTA's sole discretion, cover the obligations described in this section or any other service operated by SFRTA on a rail corridor. Because the self-insurance retention account is a part of the SFRTA insurance program, all definitions, terms, conditions, restrictions, exclusions, obligations, and duties included in any and all of the policies of insurance procured by SFRTA for

the SFRTA insurance program shall apply to the self-insurance retention account and its application to claims against the applicable insureds. SFRTA shall name FECR and AAF as insureds on any policies it procures pursuant to this section at no cost to AAF and FECR and ensure that all policies shall have a waiver of exclusion for punitive damages and coverage for claims made pursuant to the Federal Employers Liability Act, 45 U.S.C. s. 51 et seq. Such policies must also include terrorism coverage, pollution coverage, including, but not limited to, coverage applicable in the event of a railroad accident, a derailment, or an overturn, and evacuation expense coverage.

Section 2. Subsection (4) of section 343.58, Florida Statutes, is amended to read:

343.58 County funding for the South Florida Regional Transportation Authority.—

(4) Notwithstanding any other provision of law to the contrary and effective July 1, 2010, until as provided in paragraph (d), the department shall transfer annually from the State Transportation Trust Fund to the South Florida Regional Transportation Authority, in quarterly payments commencing at the start of each fiscal year, the amounts specified in subparagraph (a)1. or subparagraph (a)2.

(a)1. If the authority becomes responsible for maintaining and dispatching the South Florida Rail Corridor:

a. $15 million from the State Transportation Trust Fund to the South Florida Regional Transportation Authority for operations, maintenance, and dispatch; and

b. An amount no less than the work program commitments equal to $27.1 million for fiscal year 2010-2011, as of July 1,

2009, for operating assistance to the authority and corridor track maintenance and contract maintenance for the South Florida Rail Corridor.

2. If the authority does not become responsible for maintaining and dispatching the South Florida Rail Corridor:

a. $13.3 million from the State Transportation Trust Fund to the South Florida Regional Transportation Authority for operations; and

b. An amount no less than the work program commitments equal to $17.3 million for fiscal year 2010-2011, as of July 1, 2009, for operating assistance to the authority.

(b) Funding required by this subsection may not be provided from the funds dedicated to the Florida Rail Enterprise pursuant to s. 201.15(4)(a)4.

(c)1. Funds provided to the authority by the department under this subsection may not be committed by the authority without the approval of the department, which may not be unreasonably withheld. At least 90 days before advertising any procurement or renewing any existing contract that will rely on state funds for payment, the authority shall notify the department of the proposed procurement or renewal and the proposed terms thereof. If the department, within 60 days after receipt of notice, objects in writing to the proposed procurement or renewal, specifying its reasons for objection, the authority may not proceed with the proposed procurement or renewal. Failure of the department to object in writing within 60 days after notice shall be deemed consent. This requirement does not impair or cause the authority to cancel contracts that exist as of June 30, 2012.

2. To enable the department to evaluate the authority's proposed uses of state funds, the authority shall annually provide the department with its proposed budget for the following authority fiscal year and shall provide the department with any additional documentation or information required by the department for its evaluation of the proposed uses of the state funds.

(d) Funding required by this subsection shall cease upon commencement of an alternate dedicated local funding source sufficient for the authority to meet its responsibilities for operating, maintaining, and dispatching the South Florida Rail Corridor. The authority and the department shall cooperate in the effort to identify and implement such an alternate dedicated local funding source before July 1, 2019. Upon commencement of the alternate dedicated local funding source, the department shall convey to the authority a perpetual commuter rail easement in the South Florida Rail Corridor and all of the department's right, title, and interest in rolling stock, equipment, tracks, and other personal property owned and used by the department for the operation and maintenance of the commuter rail operations in the South Florida Rail Corridor.

Section 3. Paragraph (d) is added to subsection (17) of section 341.302, Florida Statutes, to read:

341.302 Rail program; duties and responsibilities of the department.—The department, in conjunction with other governmental entities, including the rail enterprise and the private sector, shall develop and implement a rail program of statewide application designed to ensure the proper maintenance, safety, revitalization, and expansion of the rail system to

assure its continued and increased availability to respond to statewide mobility needs. Within the resources provided pursuant to chapter 216, and as authorized under federal law, the department shall:

(17) In conjunction with the acquisition, ownership, construction, operation, maintenance, and management of a rail corridor, have the authority to:

(d) Without altering any of the rights granted to the department under this section, agree to assume the obligations to indemnify and insure, pursuant to s. 343.545, freight rail service, intercity passenger rail service, and commuter rail service on a department-owned rail corridor, whether ownership is in fee or by easement, or on a rail corridor where the department has the right to operate.

Neither the assumption by contract to protect, defend, indemnify, and hold harmless; the purchase of insurance; nor the establishment of a self-insurance retention fund shall be deemed to be a waiver of any defense of sovereign immunity for torts nor deemed to increase the limits of the department's or the governmental entity's liability for torts as provided in s. 768.28. The requirements of s. 287.022(1) shall not apply to the purchase of any insurance under this subsection. The provisions of this subsection shall apply and inure fully as to any other governmental entity providing commuter rail service and constructing, operating, maintaining, or managing a rail corridor on publicly owned right-of-way under contract by the governmental entity with the department or a governmental entity designated by the department. Notwithstanding any law to the

contrary, procurement for the construction, operation, maintenance, and management of any rail corridor described in this subsection, whether by the department, a governmental entity under contract with the department, or a governmental entity designated by the department, shall be pursuant to s. 287.057 and shall include, but not be limited to, criteria for the consideration of qualifications, technical aspects of the proposal, and price. Further, any such contract for design-build shall be procured pursuant to the criteria in s. 337.11(7).

Section 4. This act shall take effect July 1, 2017.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1310
INTRODUCER:	Governmental Oversight and Accountability Committee and Senators Artiles and Mayfield
SUBJECT:	State Employment
DATE:	April 24, 2017
REVISED:	

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Ferrin	Ferrin	GO	**Fav/CS**
2.	Davis	Betta	AGG	**Recommend: Favorable**
3.	Davis	Hansen	AP	**Pre-meeting**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1310 eliminates the Florida State Employees Charitable Contribution Campaign (FSECC), and provides that an organization, entity, or person may not intentionally solicit a state employee through any means for fundraising or business purposes within work areas during work hours. However, it does not prohibit:

- State-approved communications by entities with whom the state has contracted to provide employee benefits or services;
- Noncoercive voluntary communications between state employees in workplace areas; and
- Activities at authorized public events occurring in non-work areas of state owned or leased facilities.

The bill may have a positive fiscal impact on state expenditures. The Department of Management Services (DMS) will no longer be required to procure the services of a fiscal agent or agents to receive, account for, and distribute charitable contribution among participating charitable organizations for the FSECC.

The bill has an effective date of July 1, 2017.

II. Present Situation:

The FSECC is an annual charitable fundraising drive funded by state employees and maintained by the DMS in coordination with the Department of Financial Services.[1] It is the only authorized charitable fundraising drive directed toward state employees within work areas during work hours for which the state provides a payroll deduction.[2] Universities are permitted to participate in the campaign, but are also authorized to conduct their own charitable fundraising drives for employees.[3]

Employees' participation in the campaign is entirely voluntary, and officers and employees are required to designate a charitable organization to receive their contributions, unless the contributions are collected as part of a campaign event.[4] Each agency is responsible for conducting campaign events to promote and generate awareness of the campaign. Prior to 2016, agencies were authorized to collect cash donations at campaign events, however, in 2016, only payroll deductions were collected as part of the campaign as a cost saving measure.[5]

Organizations' participation in the annual campaign is limited to any nonprofit charitable organization that has as its principal mission:[6]

- Public health and welfare;
- Education;
- Environmental restoration and conservation;
- Civil and human rights; or
- The relief of human suffering and poverty.

Additionally, organizations ineligible to participate in the campaign include those:[7]

- Whose fundraising and administrative expenses exceed 25 percent;
- Whose activates contain an element that is more than incidentally political in nature or are primarily political, religious, professional, or fraternal in nature;
- That discriminate on account of race, color, religion, sex, national origin, age, handicap, or political affiliation;
- Not properly registered as a charitable organization as required by law;[8] and
- That have not received tax-exempt status under s. 501(c)(3) of the Internal Revenue Code.

Over 1,000 charities have been approved to participate in the FSECC through the application process established by the DMS's Division of Human Resources.[9] Charitable organizations

participating in the campaign must be audited annually by an independent public accountant whose examination conforms to generally accepted accounting principles.[10]

Current law requires the DMS to competitively procure a fiscal agent or agents to receive, account for, and distribute charitable contributions among participating charitable organizations,[11] and provides for the establishment of a Florida State Employees Charitable Campaign Steering Committee to make recommendations relating to the administration of the campaign.[12] The committee is made up of seven members appointed by the Administration Commission[13] and two members appointed by the Secretary of the DMS.[14] The Steering Committee meets periodically, usually once or twice each year.[15]

The DMS historically awarded the fiscal agent contract to a nonprofit charitable organization that participated in the FSECC, but in 2010, the fiscal agent selection process was opened and services were competitively procured through Solix Grant Management Solutions (Solix) for the period January 1, 2013, through December 31, 2015.[16] The initial contract with Solix provided for tiered compensation, with a minimum of $546,415 for year one of the contract and actual documented costs for years two and three.[17]

In 2015, the DMS entered into a new three-year contract with Solix for the period January 1, 2016, through December 31, 2018.[18] For this contract period, fixed fees were initially agreed to for $389,297 in year one, $399,769 in year two, and $411,631 in year three.[19] However, on April 15, 2016, the DMS and Solix agreed to amended contract terms that provided for a fixed $180,000 fee for each year of the contract.[20]

In May of 2016, the State of Florida Auditor General published an operational audit of the FSECC, finding that during the time period covered by the initial contract with Solix the DMS did not ensure FSECC fiscal agent fees were supported by adequate documentation and did not adequately verify that employee contributions were appropriately distributed to participating charitable organizations.[21] Prior to publication of the audit, the renewed contract with the fiscal

agent had been modified to provide for a fixed fee and the DMS had implemented a procedure for verifying the distributions—therefore the need for corrective action was eliminated.[22]

On December 5, 2016, the secretary of DMS notified state agencies that the campaign was being suspended because it had only raised approximately $282,000, which was its lowest amount in the campaign's history.[23]

During its 36-year history, the FSECC raised over $94 million.[24] However, over the last ten years contributions have declined sharply, as illustrated by the following table.[25]

Campaign Year	Fiscal Agent	Charitable Contributions	Amount withheld by Fiscal Agent	Net Amount to Participating Charities	Fiscal Agent Costs as % of Contributions
2005-2006	United Way	$ 4,963,346	$ 691,065	$ 4,272,281	13.9%
2006-2007	United Way	$ 4,959,059	$ 703,479	$ 4,255,580	14.2%
2007-2008	United Way	$ 4,869,270	$ 706,683	$ 4,162,587	14.5%
2008-2009	United Way	$ 4,362,662	$ 923,931	$ 3,438,731	21.2%
2009-2010	United Way	$ 4,171,177	$ 850,877	$ 3,320,300	20.4%
2010-2011	United Way	$ 3,739,355	$ 801,032	$ 2,938,323	21.4%
2011-2012	United Way	$ 2,688,902	$ 796,616	$ 1,892,286	29.6%
2012-2013	Solix, Inc.	$ 1,762,030	$ 546,415	$ 1,215,615	31.0%

2015-2016	Solix, Inc.	$ 546,186	$ 180,000	$ 366,186	33.0%
2016-2017	Solix, Inc.	$ 282,000	$ 180,000	$ 102,000	63.8%

III. Effect of Proposed Changes:

Section 1 repeals s. 110.181, F.S., eliminating the FSECC.

Section 2 creates s. 110.182, F.S., providing that an organization, entity, or person may not intentionally solicit a state employee through any means for fundraising or business purposes within work areas during work hours. However, it does not prohibit:

- State-approved communications by entities with whom the state has contracted to provide employee benefits or services;
- Noncoercive voluntary communications between state employees in workplace areas; and
- Activities at authorized public events occurring in non-work areas of state owned or leased facilities.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

The fiscal impact of the bill is indeterminate. Charitable organizations may see a decrease in contributions as a result of the bill. However, charitable giving appears to be at an all-time high.[26]

C. Government Sector Impact:

According to the DMS, the bill has no fiscal impact.[27] However, the bill may have a positive fiscal impact on the DMS, because it will no longer be required to procure the services of a fiscal agent or agents to receive, account for, and distribute charitable contribution among participating charitable organizations for the FSECC.

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

[26] National Philanthropic Trust, *Charitable Giving Statistics*. Available at: https://www.nptrust.org/index.php?/philanthropic-resources/charitable-giving-statistics. (last visited March 30, 2017). March 30, 2017).

VIII. Statutes Affected:

This bill repeals section 110.181 of the Florida Statutes.

This bill creates section 110.182 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Governmental Oversight and Accountability on April 3, 2017:
Adds exceptions to the prohibition on solicitation of state employees within work areas during work hours for:

- Noncoercive voluntary communications between state employees in workplace areas; and
- Activities at authorized public events occurring in non-work areas of state owned or leased facilities.

B. Amendments:

None.

By the Committee on Governmental Oversight and Accountability; and Senator Mayfield

585-03378-17 20171310c1

A bill to be entitled

An act relating to state employment; repealing s. 110.181, F.S., relating to Florida State Employees' Charitable Campaign; creating s. 110.182, F.S.; prohibiting an organization, entity, or person from intentionally soliciting state employees for fundraising or business purposes within specified areas during specified times; providing exemptions; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 110.181, Florida Statutes, is repealed.

Section 2. Section 110.182, Florida Statutes, is created to read:

110.182 Solicitation of state employees prohibited.—An organization, entity, or person may not intentionally solicit a state employee through any means for fundraising or business purposes within work areas during work hours. This section does not prohibit the following:

(1) State-approved communications by entities with whom the state has contracted to provide employee benefits or services.

(2) Noncoercive voluntary communications between state employees in workplace areas.

(3) Activities at authorized public events occurring in non-work areas of state owned or leased facilities.

Section 3. This act shall take effect July 1, 2017.

Re: **CS/SB 38** – Judiciary Committee and Senator Lizabeth Benacquisto
HB 6511 – Representative Mike Miller
Relief of L.T. by the State of Florida

SPECIAL MASTER'S FINAL REPORT

THIS IS AN UNCONTESTED EQUITABLE CLAIM FOR $800,000 FROM GENERAL REVENUE BASED ON A SETTLEMENT AGREEMENT BETWEEN THE LEGAL GUARDIAN OF L.T. AND THE DEPARTMENT OF CHILDREN AND FAMILIES FOR THE SEXUAL ABUSE SUFFERED BY L.T. WHEN SHE WAS LEFT BY THE DEPARTMENT IN THE FOSTER CARE OF A REGISTERED SEX OFFENDER

CURRENT STATUS:

On December 14, 2010, an administrative law judge from the Division of Administrative Hearings, serving as a Senate special master, held a de novo hearing on a previous version of this bill, SB 18 (2012). After the hearing, the judge issued a report containing findings of fact and conclusions of law and recommended that the bill be reported favorably with an amendment to correct an erroneous claim amount. (The 2012 bill failed to account for the $200,000 that DCF had already paid; therefore, the proper claim amount was $800,000 rather than $1,000,000.) The 2012 Special Master's Final Report is attached as an addendum to this report. The amount claimed in SB 38 (2017) on the date of this report is $800,000.

Due to the passage of time since the hearing, the Senate President reassigned the claim to me, Mary K. Kraemer. My responsibilities were to review the records relating to the claim bill, be available for questions from the members, and determine whether any changes have occurred since the hearing, which if known at the hearing, might have significantly altered the findings or recommendation in the previous report.

The provisions of SB 38 (2017) address and update the circumstances (with additional detail) upon which the claim for relief is based. It should be noted that the prior claim bill, SB 18 (2012), evaluated by the then-Senate special master, sought relief of the claimant as a minor. The record reflects that the claimant is now over the age of eighteen.

SB 38 requires that after "payment of attorney fees and costs, lobbying fees, and other similar expenses relating to this claim; outstanding medical liens other than Medicaid liens and other immediate needs," the remaining funds are to be placed in a trust for the exclusive use and benefit of the claimant. (see Section 2). SB 38 requires that all Medicaid liens from the treatment and care of claimant due to the injuries and damages to her shall be waived or paid by the State (see Section 4).

Administration of the trust will be handled by an institutional trustee selected by the claimant, until the trust is terminated upon the claimant's 25th birthday when the remaining principal and interest will revert to the claimant. In case of the claimant's death prior to termination of the trust, any remaining trust funds will revert to her heirs, beneficiaries, or estate.

The position of the Department of Children and Families (DCF) on the settlement of the case by payment as described in the bill is unchanged. Counsel for DCF stated in a letter dated November 30, 2016 that "DCF needs to continue to have claim bills funded from General Revenue. DCF is operating at minimal trust fund reserves that are essential to meeting cash flow and Department program needs. Any appropriation from a trust fund could have an effect on DCF operations and its ability to meet future related obligations."

In update letters dated December 12, 2016 and December 13, 2016, claimant's counsel states that DCF "specifically agreed to support a claim bill for $800,000 as the unpaid balance of the mediated settlement amount of $1,000,000 pursuant to a Mediation Settlement Agreement) between DCF and claimant's then-guardian dated June 21, 2010. The Agreement defines DCF's support "to include all those actions . . . set forth in the Archille v. DCF case. Claimant's counsel cites to the Act for the Relief of [Archille] enacted in 2010-235, *Laws of Florida*. Claimant's counsel provided a copy of the Settlement Agreement in that matter from 2007, which states support of a claims bill "shall include personal support by the Secretary [of DCF], including reasonable and good faith efforts to personally appear and testify before the legislature at hearings", although not "requiring the Secretary's personal appearance or attendance at any particular meeting, hearing or session."

The position of Claimant's counsel's position is the Legislature should be assisted by DCF to fund the Mediation Settlement Agreement that resolve the lawsuit filed on L.T.'s behalf.

Claimant's counsel also provided a summary of claimant's report of her current status, which indicates:

1. Claimant's name is now "L.A." She is married and lives with her husband and two daughters in Jacksonville, where her husband, Petty Officer D.A. is an active duty hospital Corpsman, stationed at the naval base there;

2. Claimant is working toward her bachelor's degree in general psychology at Florida State College at Jacksonville. She plans to pursue a master's degree next fall and a doctoral program thereafter. Claimant's career goal is to become a pediatric mental health specialist, for the treatment of children who have suffered trauma; and

3. Claimant continues to undergo therapy and takes daily medication to address the continuing effects of her trauma.

CONCLUSIONS OF LAW:

See the Conclusions of Law on page 3 of the attached Special Master's Final Report dated December 1, 2011, which were made in the de novo proceeding on a previous version of the bill.

ATTORNEYS FEES: SB 38 requires that the total amount paid for attorney fees, lobbying fees, costs, and other similar expenses related to the claim may not exceed 25 percent of the award (i.e., not exceeding $200,000 of the proposed $800,000 payment to the trust created for the benefit of the claimant).

RECOMMENDATIONS: That SB 38 be reported FAVORABLY, based on the conclusions in the attached Special Master's Final Report dated December 1, 2011 (page 3) as reached by the administrative law judge from the Division of Administrative Hearings, that:

DCF has a duty to exercise reasonable care when it places foster children and to protect them from known dangers, and DCF knew or should have known of the serious risk of harm to L.T. These breaches of duty were the proximate cause of the injuries that L.T. suffered.

Respectfully submitted,

Mary K. Kraemer
Senate Special Master

cc: Secretary of the Senate

CS by Judiciary:
The committee substitute, in conformity with a recent opinion of the Florida Supreme Court, does not include the limits on costs, lobbying fees, and other similar expenses, which were included in the original bill.

Re: **SB 18 (2012)** Senator Jeremy Ring
Relief of L.T., a Minor

SPECIAL MASTER'S FINAL REPORT

THIS IS AN UNCONTESTED EQUITABLE CLAIM FOR $800,000 FROM GENERAL REVENUE BASED ON A SETTLEMENT AGREEMENT BETWEEN THE LEGAL GUARDIAN OF L.T. AND THE DEPARTMENT OF CHILDREN AND FAMILIES FOR THE SEXUAL ABUSE SUFFERED BY L.T. WHEN SHE WAS LEFT BY THE DEPARTMENT IN THE FOSTER CARE OF A REGISTERED SEX OFFENDER.

FINDINGS OF FACT:

In August 1995, when LT. was less than two years old, the Department of Children and Families (DCF) removed LT. and her brother from their mother and placed them in the foster care of their great uncle, Eddie Thomas, and his wife, who lived in Gadsden County. Less than a year after the placement, Thomas was charged with sexually molesting a 13-year-old girl. He plead no contest to lewd, lascivious,' or indecent assault upon a child and was sentenced to five years' probation and required to receive sex abuse counseling. He was also registered as a sex offender.

Despite the fact that DCF was aware of Thomas' conviction and his registration as a sex offender, it decided

that the risk of harm to L.T. was low and did not remove L.T. from Thomas' care and custody. DCF also terminated protective supervision of L.T., meaning that a social worker no longer visited the Thomas home from time to time to see how L.T. was doing. Protective supervision is often terminated by DCF when a child is placed with a relative and DCF is satisfied that supervision is unnecessary.

In 2004, when L.T. was 10 years old, DCF placed an adolescent girl in the foster care of the Thomases. A few months after the placement, this minor girl ran away from the house in the middle of the night, claiming that Thomas had attempted to sexually molest her. DCF removed this girl from the Thomas home, but DCF did not re-evaluate the placement of LT. with Thomas.

In March 2005, when L.T. was 11 years old (and Thomas was 44), she ran away from home and told authorities that she had been repeatedly sexually abused by Thomas. She also said that Thomas and his wife used drugs. DCF then removed L.T. from the Thomas home.

It was later revealed by L.T. that she was roughly disciplined by the Thomases and that they were verbally abusive to her, frequently calling her derogatory names and telling her that she was worthless.

L.T. is now 17 years old and in a good foster home. However, as a result of the sexual abuse she endured while living with Thomas, L.T. suffers from post traumatic stress disorder, depression, and low self esteem. She has occasionally attempted suicide and for 10 months was a resident of Tampa Bay Academy, a mental health facility. She is receiving psychological counseling and will likely need counseling for many years. A trial consultant projected her future lost earnings as $540,000. Her projected future medical expenses are $760,000 to $11,580,000, depending on the degree of psychological therapy and supervision she might need, the higher figure reflecting the costs of institutionalization. A conservative estimate of her total future economic losses is around $2 million.

LITIGATION HISTORY:

In 2009, a lawsuit against DCF was filed in the Second Judicial Circuit by L.T.'s aunt and legal guardian. The case was successfully mediated and the parties entered into a

settlement agreement pursuant to which L.T. would receive $1,000,000. The sovereign immunity limit of $200,000 was paid and the balance of $800,000 is sought through this claim bill. The court order approving the settlement agreement requires that the net proceeds to L.T. be placed in a special needs trust. After deducting legal fees and costs from the $200,000, and accounting for a Medicaid lien, $11,084 remained to be placed in a special needs trust for L.T.

CONCLUSIONS OF LAW:

The claim bill hearing was a *de novo* proceeding for the purpose of determining, based on the evidence presented to the Special Master, whether DCF is liable in negligence for the injuries suffered by L.T., and, if so, whether the amount of the claim is reasonable.

DCF has a duty to exercise reasonable care when it places foster children and to protect them from known dangers. DCF breached that duty when it learned that Thomas had been convicted of a sexual offense on a child, but did not remove L.T. from the Thomas home. DCF acted negligently again when it did not remove L.T. following the charge of sexual abuse against Thomas made by another foster child in 2004. DCF knew or should have known that Thomas posed a serious risk of harm to L.T. These breaches of duty were the proximate cause of the injuries that L.T. suffered.

The amount of the claim is fair and reasonable.

ATTORNEY'S FEES:

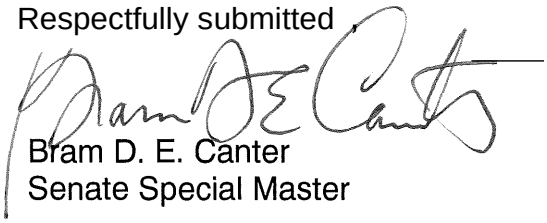
In compliance with s. 768.28(8), Florida Statutes, LT.'s attorneys have agreed to limit their fees to 25 percent of any amount awarded by the Legislature.

OTHER ISSUES:

The bill erroneously states that the claim is for $1 million, failing to account for the $200,000 that DCF has already paid. The bill should be amended to state that the claim is for $800,000.

RECOMMENDATIONS: For the reasons set forth above, I recommend that Senate Bill 18 (2012) be reported FAVORABLY, as amended.

Respectfully submitted,



Bram D. E. Canter
Senate Special Master

cc: Senator Ring
Debbie Brown, Secretary of the Senate
Counsel of Record

By the Committee on Judiciary; and Senator Benacquisto

590-01953-17 201738c1

A bill to be entitled

An act for the relief of L.T.; providing an appropriation to compensate L.T. for injuries and damages sustained as a result of the negligence of employees of the Department of Children and Families, formerly known as the Department of Children and Family Services; providing legislative intent regarding certain Medicaid liens; providing a limitation on the payment of attorney fees; providing an effective date.

WHEREAS, on August 15, 1995, the Department of Children and Families removed 14-month-old L.T. and her infant brother from their mother's custody because they were not receiving adequate care, and

WHEREAS, the Department of Children and Families temporarily placed the children into the home of the children's great aunt and uncle, Vicki and Eddie Thomas, and

WHEREAS, a background check that was conducted shortly after L.T. and her brother were placed in the Thomases' home indicated that Mr. Thomas had once been convicted of a misdemeanor and possession of narcotics equipment, and

WHEREAS, the background check also revealed that Ms. Thomas had been charged with, but apparently not convicted of, larceny, and

WHEREAS, the background check did not reveal any prior history of violence, sex offenses, or child abuse, and

WHEREAS, after conducting a home study, interviews, and an investigation, the Department of Children and Families concluded

590-01953-17 201738c1

that the Thomases were capable of providing a safe home for L.T. and her brother and approved the placement, and

WHEREAS, on August 21, 1996, approximately 1 year after L.T. and her brother had been placed in the Thomases' home, Mr. Thomas was charged with committing a lewd and lascivious act on a child under the age of 16, and

WHEREAS, the alleged victim was the 13-year-old daughter of a woman with whom Mr. Thomas was having an extramarital affair, and the state later amended the charge to add a count for sexual battery on a child by a familial or custodial authority, and

WHEREAS, after two hung jury trials in January and March of 1997, Mr. Thomas pled no contest in April 1997 to committing a lewd, lascivious, and indecent act on a child under the age of 16, and

WHEREAS, Mr. Thomas was sentenced to 5 years' probation and required to attend sex offender classes and register as a sex offender, and

WHEREAS, on May 9, 1997, 1 month after Mr. Thomas entered his plea and was convicted of a child sex crime, the Department of Children and Families recommended, and the judge approved, an order allowing Mr. Thomas to return home and have unsupervised contact with the children, and

WHEREAS, although the policies of the Department of Children and Families barred Mr. Thomas from being able to adopt a child because of his conviction for a sex act with a child and his sex offender status, the policies did not prohibit the continued placement of L.T. and her brother in the Thomases' home, and so the children remained with the Thomases, and

WHEREAS, the Department of Children and Families

subsequently recommended to the court the permanent, long-term placement of L.T. and her brother in the Thomases' home and further recommended that the children be removed from protective services, with no further supervision by the department, and

WHEREAS, on March 3, 2000, following the recommendation of the Department of Children and Families, the court approved L.T. and her brother's long-term placement with the Thomases and removed the children from continued protective services, and

WHEREAS, on March 24, 2003, an abuse hotline call to the Department of Children and Families reported that L.T. was being abused by Mr. Thomas and that both Mr. and Ms. Thomas were using drugs in the children's presence, and

WHEREAS, the next day, a child protective investigator for the Department of Children and Families interviewed L.T. and her brother while in the presence of Ms. Thomas, and neither child was asked to be interviewed outside Ms. Thomas's presence, and

WHEREAS, L.T. and her brother denied the abuse allegations while Ms. Thomas watched and listened to them, and

WHEREAS, results from new background checks and drug screens were negative, and the Department of Children and Families concluded that L.T. and her brother were not at risk of abuse and closed the case, and

WHEREAS, on February 24, 2005, L.T. ran away from the Thomases' home and was found by law enforcement officers, and

WHEREAS, L.T. ran away from home because she had been repeatedly sexually and physically abused by Mr. Thomas and physically, verbally, and emotionally abused for years by Ms. Thomas, and

WHEREAS, L.T. and her brother were finally removed from the

Thomases' home in 2005, and

WHEREAS, during her adolescent and teenaged years, L.T. was the subject of repeated Baker Act proceedings and suicide attempts and was in and out of inpatient and outpatient psychiatric facilities, and

WHEREAS, L.T. has been seen and treated by physicians and mental health care professionals who have diagnosed her with depression, posttraumatic stress disorder, anxiety disorder, and other disorders attributed to her trauma, and

WHEREAS, although L.T. struggles with the symptoms of depression, posttraumatic stress disorder, and anxiety disorder, she is now 22 years of age, is married to a Naval Petty Officer who is stationed at Naval Air Station Jacksonville, is the mother of 2 very young daughters, and attends Florida State College at Jacksonville as she works toward her goal of becoming a mental health care professional specializing in treating children who have been abused, neglected, or traumatized, and

WHEREAS, a lawsuit was brought on L.T.'s behalf in state and federal courts alleging negligence pursuant to s. 768.28, Florida Statutes, and civil rights violations pursuant to 42 U.S.C. s. 1983, and

WHEREAS, the civil rights claims were disposed of by the trial court, but the negligence claims continued to be litigated, and a jury trial of the case was set in Leon County, and

WHEREAS, the parties attended a court-ordered mediation and on June 21, 2010, agreed to a mediated settlement under which L.T. will receive $1 million, of which $200,000 has been paid, and the claim for the remaining $800,000 is being submitted

through this bill, which the Department of Children and Families agrees to support, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. The facts stated in the preamble to this act are found and declared to be true.

Section 2. There is appropriated from the General Revenue Fund to the Department of Children and Families the sum of $800,000 for the relief of L.T. for the injuries and damages she sustained. After payment of attorney fees and costs, lobbying fees, and other similar expenses relating to this claim; outstanding medical liens other than Medicaid liens; and other immediate needs, the remaining funds shall be placed into a trust created for the exclusive use and benefit of L.T. The trust shall be administered by an institutional trustee of L.T.'s choosing and shall terminate upon L.T.'s 25th birthday, at which time the remaining principal and interest shall revert to L.T. or, if she predeceases the termination of the trust, to her heirs, beneficiaries, or estate.

Section 3. The Chief Financial Officer is directed to draw a warrant in favor of L.T. in the sum of $800,000 upon funds in the State Treasury to the credit of the Department of Children and Families, and the Chief Financial Officer is directed to pay the same out of such funds in the State Treasury not otherwise appropriated.

Section 4. It is the intent of the Legislature that any and all Medicaid liens arising from the treatment and care of the injuries and damages to L.T. described in this act shall be

waived or paid by the state.

Section 5. The amount awarded pursuant to the waiver of sovereign immunity under s. 768.28, Florida Statutes, and the amount awarded under this act are intended to provide the sole compensation for all present and future claims arising out of the factual situation described in the preamble to this act which resulted in the injuries and damages to L.T. The total amount paid for attorney fees relating to this claim may not exceed 25 percent of the amount awarded under this act.

Section 6. This act shall take effect upon becoming a law.

Re: **CS/SB 50** – Judiciary Committee and Senators Audrey Gibson and Randolph Bracy
Relief of Eddie Weekley and Charlotte Williams

SPECIAL MASTER'S FINAL REPORT

THIS IS AN UNOPPOSED CLAIM BILL BY EDDIE WEEKLEY AND CHARLOTTE WILLIAMS OF THE ESTATE OF FRANKLIN WEEKLEY, FOR $1 MILLION, BASED ON A FINAL JUDGMENT SUPPORTED BY A SETTLEMENT AGREEMENT BETWEEN MR. WEEKLEY AND MS. WILLIAMS AND THE AGENCY FOR PERSONS WITH DISABILITIES AS COMPENSATION FOR THE DEATH OF FRANKLIN WEEKLEY AT THE SUNLAND CENTER IN MARIANNA IN 2002.

CURRENT STATUS:

A claim bill for these Claimants was first filed in the 2008 Session.

An administrative law judge from the Division of Administrative Hearings, serving as a Senate Special Master, held a de novo hearing on the 2008 version of this bill, SB 30 (2008). After the hearing, the judge issued a report containing findings of fact and conclusions of law and recommended that the bill be reported FAVORABLY.

Due to the passage of time since the hearing, the Senate President reassigned the claim to me, Barbara M. Crosier. My responsibilities were to review the records relating to the claim

bill, be available for questions from Senators, and determine whether any changes have occurred since the hearing before Judge T. Kent Wetherell, which if known at the hearing, might have significantly altered the findings or recommendations in the report.

According to counsel for the parties, there have been no substantial changes in the facts and circumstances for the underlying claim. Accordingly, I find no cause to alter the findings and recommendations of the original report.

For the reasons set forth above, the undersigned recommends that Senate Bill 50 (2017) be reported favorably.

Respectfully submitted,

Barbara M. Crosier
Senate Special Master

cc: Secretary of the Senate

CS by Judiciary:
The committee substitute, in conformity with a recent opinion of the Florida Supreme Court, does not include the limits on costs, lobbying fees, and other similar expenses, which were included in the original bill.

Re: **SB 30 (2008)** – Senator Al Lawson
HB 451 (2008) – Representative Matthew Meadows
Relief of Eddie Weekly and Charlotte Williams

SPECIAL MASTER'S FINAL REPORT

THIS IS AN UNOPPOSED EQUITABLE CLAIM FOR $1 MILLION AGAINST THE AGENCY FOR PERSONS WITH DISABILITIES ARISING OUT OF THE DEATH OF FRANKLIN WEEKLY AT THE SUNLAND CENTER IN MARIANNA IN 2002.

FINDINGS OF FACT:

Franklin Weekly was committed to the care of the Department of Children and Family Services (DCF) in 1999 after he was determined to be incompetent to stand trial for the alleged arson of his home. Franklin was 15 years old at the time, but he had the mental capacity of a first grader and Franklin was mildly retarded with an IQ between 52 and 65.

Franklin was initially placed in group homes in Orlando and Ft. Walton Beach. However, those facilities proved to be inadequate for Franklin because of his behavioral problems and because he ran away on several occasions.

In November 2001, Franklin was transferred by court order to the Sunland Center (Sunland) in Marianna. DCF recommended to the court that Franklin be placed at Sunland because it was a more secure facility and could provide the constant supervision that Franklin required. DCF and Sunland

staffs were aware that Franklin did not have "survival skills" and that he would be at risk of serious injury or death if he ran away from the facility.

DCF was, at the time, responsible for operating Sunland. When the Agency for Persons with Disabilities (APD) was created in 2004, it became responsible for operating Sunland.

At Sunland, Franklin lived in the Hayes House with 22 other developmentally disabled individuals. The house had three exits, only two of which had locked doors. The door right across from Franklin's room did not lock.

On December 5, 2002, Franklin was involved in several altercations with other residents and staff members that required him to be physically restrained. He also attempted to run away that day.

Two staff members, Gertrude Sims and James Duncan, were on duty at the Hayes House the night of December 5. Their shift started at 10:15 p.m. and went to 6:15 a.m. the following day.

The primary job duties of Ms. Sims and Mr. Duncan were custodial in nature, e.g., doing laundry, mopping floors, etc. They were also responsible for making sure that all of the residents were accounted for throughout the night, and to that end, Ms. Sims was responsible for making "rounds" on the residents every 30 minutes to be sure they were asleep in their beds.

Ms. Sims testified in her deposition that she made her rounds every 30 minutes from 10:30 p.m. to 5:30 a.m. and that she observed Franklin sleeping in his bed each time she checked his room. She and Mr. Duncan also testified that at least one of them was stationed at all times at a desk near the unlocked door across from Franklin's room.

Notwithstanding this testimony, the more persuasive evidence establishes that the door was not being watched for at least a short period after Ms. Sims made her 5:30 a.m. rounds because Ms. Sims and Mr. Duncan were tending to a resident who had soiled himself. Mr. Duncan testified in his deposition that the soiled resident was in Room D, which was Franklin's room and that he recalled seeing Franklin sleeping, but

Ms. Sims testified that the soiled resident was in Room B. Ms. Sims' testimony is more credible because she had been working at the Hayes House for a number of years, whereas Mr. Duncan was "pulled" to the Hayes House just for that night because of a staffing issue.

While Ms. Sims and Mr. Duncan were tending to the resident in Room B and the unlocked doors were unsupervised, Franklin left the Hayes House through those doors. Mr. Duncan discovered that Franklin was missing after he finished helping Ms. Sims with the soiled resident and he made his way into Franklin's room to mop the connected bathroom.

Ms. Sims and Mr. Duncan notified Sunland's main office that Franklin was missing, and a search for Franklin on the Sunland campus was immediately commenced. Local law enforcement was also notified. They assisted in the search.

Franklin's parents were notified of his disappearance at approximately 8:30 a.m., and they immediately came to the Sunland to help in the search. It not entirely clear whether or to what extent they were allowed to help in the search, but Franklin's father testified that at some point the family was told that they could no longer assist in the search on the Sunland property.

One of the buildings on the Sunland campus searched in the days following Franklin's disappearance was a dilapidated building known as the "boiler building." The building was several hundred yards from the Hayes House and was being used for storage. The doors on the building were chained and padlocked, but there was enough space for a person to fit between the doors and get into the building.

Butch Edwards, the maintenance and construction supervisor at Sunland, testified that he went into the building during the search for Franklin but that he saw no sign of him. He testified that he could not get all the way to the back of the building because it was full of junk.

Sunland suspended the search for Franklin after approximately 2 weeks. His family continued to search for him, and from time to time there were unconfirmed sightings of Franklin reported around Northwest Florida. At some point,

Franklin's parents were accused of harboring Franklin by Sunland staff and/or local law enforcement of harboring Franklin. In January 2003, Franklin was found in contempt of the Order committing him to Sunland due to his apparent elopement from the facility.

In October 2004, contractors hired to demolish the dilapidated boiler building found what turned out to be Franklin's remains in a basement of the building. The only clothing found with the remains was decomposed underwear and an undershirt with Franklin's name written on them.

There is no credible evidence that Franklin ever left the Sunland campus after he ran away from the Hayes House. The weather on the day of his disappearance was very cold, and it is more likely than not that Franklin died of exposure to the elements in the building where he was ultimately found.

In January 2005, the Bay County Medical Examiner determined that the remains were those of Franklin. A death certificate was issued and the remains were released to Franklin's parents for burial. However, it was not until 2007 that DCF and APD formally acknowledged that the remains were those of Franklin. DNA tests performed by the Florida Department of Law Enforcement (FDLE) confirmed that the remains are Franklin's.

FDLE commenced an investigation into Franklin's disappearance in 2007. The FDLE investigation was still open as of the date of the Special Master hearing, but the claimants' attorney represented that it was his understanding that the FDLE investigation would soon be closed based upon a lack of evidence of a crime having been committed in relation to Franklin's disappearance and death.

Franklin was survived by his parents, Eddie Weekly and Charlotte Wheeler, and a younger brother. Franklin's parents are not married, but they have been together for 23 years.

Franklin's parents are developmentally disabled and are unable to work. His father receives assisted living services from the local Association for Retarded Citizens. To be eligible for such services, a person has to have an IQ below 70.

By all accounts, Franklin and his parents had a very close relationship. Franklin wanted to go home to his parents and Franklin's parents wanted him to come home. Franklin's parents were "devastated" by Franklin's disappearance and death.

Special needs trusts have been established for Franklin's parents because of their developmental disabilities. The trusts are subject to federal law (e.g., 42 U.S.C. § 1396p), which requires that any assets remaining in the trust upon the beneficiary's death first be used to repay state Medicaid benefits.

APD provided an affidavit stating that it does not have funds available to pay this claim. The affidavit represents that APD might lose federal funding and that its ability to provide necessary services to disabled individuals would be "seriously impaired" if APD was required to pay this claim from its budget without an additional appropriation of General Revenue.

In July 2004, in response to Franklin's disappearance, DCF adopted a detailed protocol to be followed when a Sunland resident goes missing. The protocol requires, among other things, that the perimeter of the facility be immediately secured and that "an intense immediate area search, expanding outward of the last contact site" be conducted.

LEGAL PROCEEDINGS:

In 2004, before Franklin's remains were found, Franklin's parents filed a lawsuit against DCF that sought to require DCF to resume searching for Franklin. After Franklin's remains were discovered, the suit was amended to allege a wrongful death claim. The suit also included a civil rights claim under 42 U.S.C. § 1983 against Ms. Sims and Mr. Duncan.

The case was settled through mediation in June 2007, after DCF and APD acknowledged that the remains found at Sunland were Franklin's. The settlement agreement required APD to pay Franklin's parents a total of $1.3 million.

The settlement was approved by the circuit court in August 2007. The Order approving the settlement requires the proceeds to be paid into "a Medicaid-compliant special needs trust account."

APD has paid Franklin's parents $300,000, with $200,000 attributed to the tort claims and $100,000 attributed to the civil rights claim. APD agreed as part of the settlement to support a claim bill for the remaining $1 million.

Franklin's parents received $184,464.38 from the initial $300,000 payment. Those funds were split equally, with each parent receiving $92,231.19.

The remainder of the initial payment went to attorney's fees and costs. The claimants' attorney agreed to take only $37,500 in fees from the initial payment, which is half of the 25% attorney's fee for the initial payment. The remainder of the fee was "deferred" until the claim bill is paid.

CLAIMANT'S POSITION:

- DCF, the predecessor agency to APD, had a duty to safeguard Franklin's well-being while he was at Sunland, and DCF's failure to adequately supervise Franklin on the night he disappeared was the direct and proximate cause of his death.

- The $1.3 million in damages agreed to by the parties are reasonable under the circumstances.

AGENCY'S POSITION:

- APD admits liability and supports the claim bill.

- APD does not have the funds available to pay the claim without an additional appropriation of General Revenue.

CONCLUSIONS OF LAW:

APD is the successor agency to DCF with respect to the operation of Sunland. Therefore, APD is the agency responsible for paying this claim even though the incident giving rise to the claim occurred while DCF operated Sunland. See Ch. 2004-267, § 87(3), Laws of Fla.

DCF had a duty to safeguard Franklin's well-being while he was confined at Sunland. That duty was breached when Sunland staff left the unlocked doors across from Franklin's room at the Hayes House unsupervised. Franklin's elopement and death were foreseeable consequences of the staff's failure to adequately supervise him because Sunland staff knew that he was an elopement risk and that he lacked the skills to survive if he did elope. The failure of the Sunland staff to supervise Franklin was a direct and proximate cause of his death.

There is no evidence that Franklin had any earning capacity as a result of his mental retardation. The $1.3 million in damages agreed to by the parties are attributable to the non-economic damages (e.g., mental anguish) suffered by Franklin's parents as a result of his disappearance and death.

There is no way to place a value on the mental anguish suffered by a parent who loses a child, and a jury may have awarded far more than $1.3 million in damages to Franklin's parents if this case had gone to trial. The amount agreed to by the parties in the mediated settlement is within the range of reasonableness for such an award. Indeed, in the recent Martin Anderson case, the Legislature approved a claim bill for $5 million for the parents of a child who died while in the custody of the State.

LEGISLATIVE HISTORY:

This is the first year that this claim has been presented to the Legislature.

ATTORNEY'S FEES AND LOBBYIST'S FEES:

The Order approving the parties' settlement states that the circuit court will determine the amount of attorney's fees to be paid from the proceeds of the claim bill. However, that is an issue for the Legislature, not the circuit court. See Gamble v. Wells, 450 So.2d 850 (Fla. 1984).

The claimants' attorney provided an affidavit stating that attorney's fees are limited to 25%, as required by Section 768.28(8), F.S. There are no outstanding costs.

In order to maximize the proceeds that were paid to Franklin's parents, the claimants' attorney took only $37,500 in attorney's fees out of the initial payment, rather than the $75,000 (i.e., 25% of the $300,000 payment) that he could have taken. The other $37,500 of attorney's fees related to the initial payment was "deferred" until payment of the claim bill.

The lobbyist's fees are not included as part of the 25 percent attorney's fee. The lobbyist's fees are an additional 5 percent, which is $50,000 of the $1 million claim.

The Legislature is free to limit the fees and costs paid in connection with a claim bill as it sees fit. Gamble v. Wells, supra. The bill does so by stating that "[t]he total amount paid for attorney's fees, lobbying fees, costs and other similar

expenses relating to this claim may not exceed 25 percent of the amount awarded [by the bill]."

If this language remains in the bill, Franklin's parents will receive a total of $750,000. The remaining $250,000 will go to attorney's fees and lobbyist's fees.

If this language were not in the bill, Franklin's parents would receive $662,500. The claimants' attorney would receive $287,500 (i.e., $37,500 in fees "deferred" from the initial payment plus $250,000 in fees related to the claim bill) and the lobbyist would receive $50,000.

OTHER ISSUES: The bill should be amended to clarify that the payment to Franklin's parents will go to their special needs trust, as required by the court order approving the settlement agreement.

RECOMMENDATIONS: For the reasons set forth above, I recommend that Senate Bill 30 be reported FAVORABLY, as amended.

Respectfully submitted,

T. Kent Wetherell
Senate Special Master

cc: Senator Al Lawson
Representative Matthew Meadows
Faye Blanton, Secretary of the Senate
House Committee on Constitution and Civil Law
Counsel of Record

By the Committee on Judiciary; and Senators Gibson and Bracy

590-01951-17 201750c1

A bill to be entitled

An act for the relief of Eddie Weekley and Charlotte Williams, individually and as co-personal representatives of the Estate of Franklin Weekley, their deceased son, for the disappearance and death of their son while he was in the care of the Marianna Sunland Center, currently operated by the Agency for Persons with Disabilities; providing an appropriation to compensate them for the disappearance and death of Franklin Weekley, which were due to the negligence of the Department of Children and Families; providing a limitation on the payment of attorney fees; providing an effective date.

WHEREAS, in November of 2001, Franklin Weekley was diagnosed with mental retardation and a seizure disorder and was admitted to the Marianna Sunland Center, which at the time was operated by the Department of Children and Family Services, now known as Department of Children and Families, and

WHEREAS, on December 6, 2002, Franklin Weekley disappeared from the center and, following a search of the premises by employees of the center, was deemed by the center to have run away, and the case was closed, and

WHEREAS, on October 28, 2004, a demolition crew found the skeletal remains of Franklin Weekley in the basement of a building adjacent to the premises of the Marianna Sunland Center where Franklin had resided, and

WHEREAS, legal action was filed on behalf of Franklin Weekly's parents against the Department of Children and Family

590-01951-17 201750c1

Services and its employees or agents raising negligence, tort, statutory, and civil rights claims concerning the disappearance and death of their son, and

WHEREAS, the parties and the Agency for Persons with Disabilities, which currently operates the Marianna Sunland Center, mediated and reached a settlement of all claims, and

WHEREAS, the plaintiffs and the Agency for Persons with Disabilities entered into a compromise and settlement agreement in which they agreed to a claim bill under which the agency will pay $1 million in addition to the $300,000 it previously paid to settle claims arising out of this matter, NOW, THEREFORE,

Be It Enacted by the Legislature of the State of Florida:

Section 1. The facts stated in the preamble to this act are found and declared to be true.

Section 2. The sum of $1 million is appropriated from the General Revenue Fund to the Agency for Persons with Disabilities, as successor to the Department of Children and Family Services, to be paid for the relief of Eddie Weekley and Charlotte Williams, individually and as co-personal representatives of the Estate of Franklin Weekley, deceased.

Section 3. The Chief Financial Officer is directed to draw a warrant in favor of Eddie Weekley and Charlotte Williams, individually and as co-personal representatives of the Estate of Franklin Weekley, deceased, in the sum of $1 million upon funds of the Agency for Persons with Disabilities in the State Treasury, and to pay the same out of such funds in the State Treasury. Pursuant to the settlement agreement approved by the

court in August 2007, the funds are to be paid into a Medicaid-compliant special needs trust account established on behalf of Eddie Weekley and Charlotte Williams.

Section 4. The amount paid by the Agency for Persons with Disabilities pursuant to s. 768.28, Florida Statutes, and the amount awarded under this act are intended to provide the sole compensation for all present and future claims arising out of the factual situation described in this act resulting in the disappearance and death of Franklin Weekley. The total amount paid for attorney fees relating to this claim may not exceed 25 percent of the amount awarded under this act.

Section 5. This act shall take effect upon becoming a law.

Chair Latvala:

I respectfully request that SB 50, relating to Franklin Weekley's mysterious disappearance on December 6, 2002 and subsequent discovery of his death while in the State's care and custody, be placed on the next committee agenda.

SB 50, requires $1,000,000.00 to be paid upon approval of a claims bill after mediation took place on June 20, 2007, which resulted in a settlement of $1,300,000.00. $300,000.00 of it to be paid up front and. In addition, the Governor and the State agreed to support the claims bill process. Moreover, Governor Crist issued an Order requiring the FDLE to launch a full-scale criminal investigation surrounding Franklin's disappearance and death. This bill passed unanimously in the previous committees.

Thank you for your time and consideration.

Sincerely,

Audrey Gibson

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/CS/SB 1012
INTRODUCER:	Appropriations Committee; Banking and Insurance Committee; and Senators Brandes and Young
SUBJECT:	Insurer Anti-fraud Efforts
DATE:	April 27, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Billmeier	Knudson	BI	**Fav/CS**
2.	Sanders	Betta	AGG	**Recommend: Favorable**
3.	Sanders	Hansen	AP	**Fav/CS**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/CS/SB 1012 creates new requirements for insurance companies relating to insurance fraud prevention and reporting. The bill requires all insurers to adopt an anti-fraud plan and to establish and maintain a unit within the company to investigate possible fraudulent insurance acts or contract with others to investigate fraudulent insurance acts. The insurer must electronically file with the Department of Financial Services (DFS) a detailed description of the unit established to investigate possible fraudulent insurance acts or a copy of the contract with the company that investigates fraudulent insurance acts for the insurer and a copy of the anti-fraud plan. This filing must be made annually on or before December 1, starting in 2017.

The anti-fraud plan must include:

- An acknowledgment that the insurer has established procedures for detecting possible fraudulent insurance acts;
- An acknowledgement that the insurer has established procedures for reporting such acts to the DFS;
- An acknowledgement that the insurer provides required anti-fraud education to employees;
- A description of the anti-fraud education;
- A description of the insurer's anti-fraud unit; and
- The rationale for staffing levels and resources provided to the anti-fraud unit.

Beginning in 2019, the bill requires every insurer to annually submit anti-fraud statistics to the DFS by March 1 for the lines of business written by that insurer for the calendar year. The statistics must include:

- The number of policies in effect;
- The amount of premiums written for policies;
- The number of claims received;
- The number of claims referred to the anti-fraud investigative unit;
- The number of other insurance fraud matters referred to the anti-fraud investigative unit that were not claim related;
- The number of claims investigated or accepted by the anti-fraud investigative unit;
- The number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit that were not claim related;
- The number of cases referred to the DFS;
- The number of cases referred to other law enforcement agencies;
- The number of cases referred to other entities; and
- The estimated dollar amount of damages in cases referred to the DFS or other agencies.

Current law only requires statistical reporting from workers' compensation insurers. This bill requires all insurers to provide reports.

The bill modifies reporting requirements for workers' compensation insurers.

The bill creates a dedicated prosecutor program administered by the DFS. The DFS does not anticipate an impact to any state revenues or expenditures.[1] The program will allow state attorneys to seek grants from the DFS, subject to funding by the Legislature, to add positions to prosecute insurance fraud cases.

The bill makes stranger-originated life insurance (STOLI) contracts void and unenforceable and allows a life insurer to contest a policy obtained through a STOLI practice, notwithstanding that life insurance contracts cannot be contested two years after issuance. A stranger-originated life insurance practice is an act, practice, arrangement or agreement to initiate a life insurance policy for the benefit of a third party investor who has no insurable interest in the insured at policy origination.

The bill makes void and unenforceable viatical settlement contracts subject to a loan secured by an interest in the insurance policy within five years from the issuance of the underlying insurance policy. This is referred to as the contestability period of the viatical settlement contract. The bill otherwise retains the existing two year contestability period under current law. Current law provides conditions that, if met, allow the execution of a viatical settlement contract during the contestability period. The bill modifies the process for doing so. The viator must provide a sworn affidavit and accompanying independent evidentiary documentation to a viatical settlement provider certifying that the viator has met a statutory exception that allows viatication of a policy during the contestability period. Current law does not require the viator to execute a sworn

[1] Email from Elizabeth Boyd, Legislative Affairs Director (April 7, 2017) (on file with the Senate Appropriations Subcommittee on General Government).

affidavit with documentation evidencing that the exception applies. The bill also revises and clarifies some of the conditions that allow viatication during the contestability period.

The bill adds as prohibited practices under the Viatical Settlement Act:
- Engaging in a fraudulent viatical settlement act;
- Engaging in a STOLI practice;
- Knowingly entering into a viatical settlement contract before the application for or issuance of a life insurance policy that is the subject of the viatical settlement contract or within a contestability period unless the viator complied with s. 626.99287, F.S.; and
- Knowingly issuing, soliciting, marketing, or promoting the purchase of a life insurance policy for the purpose of, or with an emphasis on selling the property to a third party.

Violations are third-degree felonies if the insurance policy has a value less than $20,000; second-degree felonies if the insurance policy has a value of $20,000 or more but less than $100,000; and first-degree felonies if the insurance policy has a value of $100,000 or more.

Allows motor vehicle insurers an exemption from the requirement that they inspect each private passenger motor vehicle before issuing an insurance policy that provides coverage for physical damage. The inspection requirement only applies in counties with a 1988 population of 500,000 or greater. The bill requires insurers using the exemption to file a manual rule with the Office of Insurance Regulation (OIR) and allows an insurer to file with the OIR their own preinsurance inspection requirements before insuring a private passenger motor vehicle.

Except as otherwise provided, the bill takes effect upon becoming a law.

II. Present Situation:

The Department of Financial Services (DFS) regulates insurance agents, insurance agencies, and insurance adjusters. The DFS' Division of Investigative and Forensic Services (division) contains sworn law enforcement officers that investigate various types of insurance fraud including personal injury protection (PIP) fraud, workers' compensation fraud, vehicle fraud, application fraud, licensee fraud, homeowner's insurance fraud, and healthcare fraud. Florida statutes direct the division to investigate fraudulent insurance acts, violations of the Unfair Insurance Trade Practices Act, false and fraudulent insurance claims, and willful violations of the Florida Insurance Code and rules adopted pursuant to the code. The division employs sworn law enforcement officers to investigate insurance fraud and other matters within the division's jurisdiction. In Fiscal Year 2014-2015, the division received 17,392 referrals.[2]

Insurance Fraud

According to the Insurance Information Institute (III), insurance fraud is

> … a deliberate deception perpetrated against or by an insurance company or agent for the purpose of financial gain. Fraud may be committed at different points in the insurance transaction by applicants for insurance,

[2] http://www.fldfs.com/Division/DIFS/resources/documents/2014-15_Annual-Report.pdf (last accessed March 29, 2017).

> policyholders, third-party claimants, or professionals who provide services to claimants. Insurance agents and company employees may also commit insurance fraud. Common frauds include "padding," or inflating actual claims, misrepresenting facts on an insurance application, submitting claims for injuries or damage that never occurred, and "staging" accidents.[3]

The III further states that:

> Insurance fraud may be classified as "hard" or "soft." Hard fraud is a deliberate attempt either to stage or invent an accident, injury, theft, arson, or other type of loss that would be covered under an insurance policy. Soft fraud, which is sometimes called opportunity fraud, occurs when a policyholder or claimant exaggerates a legitimate claim. Soft fraud may also occur when people purposely provide false information to influence the underwriting process in their favor when applying for insurance.[4]

According to the National Insurance Crime Bureau[5] (NICB), questionable insurance claims rose from 100,201 in 2011 to 116,171 in 2012; which is a 16 percent increase.[6] Furthermore, fraud is the second most costly white-collar crime in America behind tax evasion.[7] According to the NICB, fraud leads to higher insurance rates, causes taxes to rise, and inflates prices for consumer goods.[8]

The Federal Bureau of Investigation estimates the total cost of insurance fraud, excluding health insurance fraud, at more than $40 billion per year. Insurance fraud costs the average U.S. family between $400 and $700 per year in the form of increased premiums.[9]

Anti-Fraud Requirements Imposed on Insurance Companies

Section 626.9891, F.S., requires each insurer admitted to do business in this state, if the insurer received $10 million or more in direct premiums during the previous calendar year, to establish a unit to investigate possible insurance claim fraud or to contract with others to investigate such fraud. The insurer must file a detailed description of the anti-fraud unit, or provide a copy of the contract, to the division.[10]

[10] Section 626.9891(1), F.S.

If the insurer received less than $10 million in direct premiums during the previous calendar year, the insurer must submit an anti-fraud plan to the division.[11] The anti-fraud plan must describe:

- A description of the insurer's procedures for detecting and investigating possible fraudulent insurance acts;
- A description of the insurer's procedures for the mandatory reporting of possible fraudulent insurance acts to the division;
- A description of the insurer's plan for anti-fraud education and training of its claims adjusters or other personnel; and
- A written description or chart outlining the organizational arrangement of the insurer's anti-fraud personnel who are responsible for the investigation and reporting of possible fraudulent insurance acts.[12]

Workers' compensation insurers are required to report the following to the DFS on or before August 1 of each year:

- The dollar amount of recoveries and losses attributable to workers' compensation fraud delineated by the type of fraud: claimant, employer, provider, agent, or other;
- The number of fraud referrals submitted to the Bureau of Workers' Compensation Fraud for the prior year;
- A description of the organization of its anti-fraud unit, if applicable;
- The rationale for the level of staffing and resources being provided for the anti-fraud unit, which may include the objective criteria such as:
  - Number of policies written;
  - Number of claims received on an annual basis;
  - Volume of suspected fraudulent claims currently being detected; and
  - An assessment of optimal caseload that can be handled by an investigator;
- The in-service anti-fraud education and training provided to personnel; and
- A description of a public awareness program focused on insurance fraud and methods by which the public can prevent it.[13]

If an insurer fails to comply with the requirements for anti-fraud units or anti-fraud plans or fails to comply other provisions of law, the DFS, Office of Insurance Regulation (OIR), or Financial Services Commission may impose certain administrative fines.[14]

Dedicated Prosecutor Program

The Dedicated Prosecutor Program (program) was created in September of 2003 and the first dedicated prosecutor position was jointly funded by the DFS, the Miami-Dade State Attorney's Office, and the Florida Automobile Joint Underwriting Association. As of June 30, 2016, the program has 36 full time positions with 20 dedicated prosecutors located in Jacksonville,

[11] Section 626.9891(2), F.S.
[12] Section 626.9891(3), F.S.
[13] Section 626.9891(6), F.S.
[14] Section 626.9891(7), F.S.

Orlando, Miami-Dade, Tampa, West Palm Beach, Broward, and Ft. Myers. Four positions are devoted solely to workers' compensation fraud.[15]

Current law does not specify requirements for participation in the program. Instead, the program is authorized by proviso language in the General Appropriations Act. The 2016 proviso states "funds may not be used for any purpose other than the funding of attorney and paralegal positions that prosecute crimes of insurance fraud." The DFS indicates that, in the absence of any specific statutory requirement, participating state attorneys' offices submit voluntary, quarterly reports with general caseload data. Through analysis of the reports, the division has found that certain participating state attorney's offices are prosecuting minimal amounts of insurance fraud cases, prosecuting a majority of non-insurance fraud cases, or have had vacant positions for extended periods of time.[16]

Viatical Settlement Contracts - Stranger-Oriented Life Insurance (STOLI)

Life Insurance – Insurable Interests

Life insurance allows an individual to set aside money in the present (through the payment of premiums) to provide some measure of financial security for his or her surviving beneficiaries upon his or her premature death. The proceeds allow survivors to pay off debts and other expenses and provide a source of income to replace that lost by the death of the insured.[17] A fundamental concept in life insurance is that the purchaser and beneficiary of an insurance policy must have an insurable interest—a reasonable expectation of a monetary benefit from the continued well-being of the life insured. In the context of life insurance, the insurable interest[18] prevents purchasing insurance as a form of gambling on the death of the insured, which creates a moral hazard for the purchaser who may be tempted to create a situation where he or she will be able to collect on the policy.

Florida law prohibits the procurement of "an insurance contract on the life or body of another individual unless the insurance contract benefits are payable to the insured, his or her personal representatives, or a person having an insurable interest in the insured when the contract was made."[19] Persons with insurable interest include the insured, family members and loved ones of the insured, others if the insured's life and health is of greatest benefit to them, trusts and trustees in specified circumstances, charitable organizations, and business organizations in specified circumstances.[20]

Viatical Settlement Contracts - Background

A viatical settlement contract is a written agreement entered into between the owner[21] of a life insurance policy, referred to as the viator, and a viatical settlement provider wherein the viator

[18] Section 627.404, F.S., lists nine exclusive categories in which an "insurable interest" as to life, health or disability insurance are recognized.
[19] The insurable interest need not exist after the inception date of coverage under the contract. *See* s. 627.404(1), F.S.
[20] Section 627.404(2)(b), F.S.
[21] Or certificateholder if a group policy.

agrees to transfer ownership or change the beneficiary designation of a life insurance policy at a later date in exchange for compensation paid to the viator.[22] The compensation paid to the viator is generally less than the expected death benefit under the policy. Rather than retaining the policy, the provider usually sells all or part of the policy to one or more investors. In return for providing funds, these investors receive the death benefit, or a proportionate share thereof, upon the passing of the insured.

Viatical settlements emerged during the HIV/AIDS epidemic in the 1980s, enabling terminally ill patients with short life expectancies who could no longer work and afford the policy premiums to sell their life insurance policies at a cash discount to pay for high medical care expenses. In the early days of the epidemic, AIDS patients generally died within months of their diagnoses, resulting in fairly quick, significant returns to investors,[23] who in those days were typically senior individuals who risked their savings in what was represented as a safe investment and marketed as a compassionate way to help dying patients. However, innovations in AIDS treatment in the early 1990s significantly improved life expectancies of AIDS patients, sometimes even outliving their investors, which disrupted mortality assumptions and diminished investor returns.

Two consequences resulted from the insureds of viaticated policies exceeding their life expectance. The first is that some viatical settlement providers stopped brokering new viatical settlements. The second, unfortunately, is that some viatical settlement providers engaged in fraudulent practices.[24]

An example cited by the Office of Insurance Regulation (OIR) of such fraudulent activity was Mutual Benefits Corporation (MBC).[25] In 2004, the OIR suspended MBC's license and the United States Securities and Exchange Commission (SEC) filed an action in federal court seeking an injunction and the appointment of a receiver. The court-appointed receiver reported that MBC had fraudulently procured insurance policies with a total face value of approximately $1.4 billion. The SEC agreed to a $25 million settlement and referred the case to prosecutors. Federal prosecutors charged former company employees, most of whom pled guilty and were sentenced to lengthy prison terms. A factual statement filed by an MBC employee described the scheme. Mutual Benefits Corporation would falsely promise investors a fixed rate of return but was unable to keep those promises because insureds lived longer than expected and their premiums had to be paid to keep the underlying policies in force. New investor sales were used to continue to pay premiums on the previously viaticated life insurance policies. The MBC experience and other fraudulent schemes led to the Legislature comprehensively reforming the regulation of the viatical settlement industry in 2005.

Today, the viatical settlement market is not limited to the purchase of the life insurance products of the terminally ill. Viatical settlement contracts are also entered into with non-terminally ill insureds that no longer want, need, or can afford their policies. These agreements, often referred

[25] *See* Office of Insurance Regulation, *supra* note 5, at pg. 10.

to as life settlements, serve as an alternative to exercising a redemption or accelerated death benefit clause in life insurance policies.

Because investors' expectations of returns can trigger the application of state and federal securities law, viatical settlements are widely treated as a hybrid transaction implicating both insurance law and securities law. Insurance law applies to protect the policy owner or viator in the "front-end" transaction with the viatical settlement provider through licensing, disclosure reporting, and other requirements. On the other hand, securities law applies to the "back-end" transaction to protect investors in viatical settlement investments by state securities regulators, and in some circumstances, the U.S. Securities and Exchange Commission.[26]

In response to increasing concerns over consumer protection in the viatical settlement market, several state insurance regulators, through the National Association of Insurance Commissioners (NAIC), and the National Conference of Insurance Legislators (NCOIL)[27] developed model state legislation regulating the "front-end" transaction of viatical settlements in 1993 and 2007, respectively.

Regulation of the Viatical Settlement Industry

Viatical settlement providers and viatical settlement brokers are required to obtain licensure from the OIR. The Viatical Settlement Act (Act)[28] sets forth requirements for licensure, annual reporting, disclosures to viators, transactional procedures, adoption of anti-fraud plans, and administrative, civil, and criminal penalties. The Act also provides the OIR with examination and enforcement authority over viatical service providers and brokers; review and approval authority over the viatical settlement contracts and forms; rulemaking authority; and provided that a violation of the Act is an unfair trade practice under the Insurance Code. The Act does not authorize the OIR to regulate the rate or amount paid as consideration for a viatical settlement contract.[29]

In 2005, legislation was enacted that requires the investment transaction to be regulated as a security under ch. 517, F.S. These investments must be registered with either the OFR or the SEC. In addition, persons offering such investments must obtain licensure from the OFR and provide full and fair disclosures concerning viatical settlement investments to prospective investors. The 2005 legislation also provides that a person or firm who offers or attempts to negotiate a viatical settlement between an insured (viator) and a viatical service provider for compensation is a *viatical settlement broker* who must be licensed with the Department of Financial Services (DFS) as a life insurance agent with a proper appointment from a viatical service provider. Viatical settlement brokers owe a fiduciary duty to the viator.[30]

In 2013, the Legislature directed the OIR to review Florida law and regulations to determine whether there were adequate protections for purchasers of life insurance policies in the secondary life insurance market.[31] Following a public hearing conducted by the OIR, in which both life insurers and institutional investors participated, the OIR published a report, concluding that adequate protections for institutional purchasers in the secondary life insurance market existed and that their recommendations did not warrant legislative action at the time.[32]

Stranger-Originated Life Insurance

Stranger-originated life insurance (STOLI) is somewhat similar to a viatical transaction, but with the key difference that the individual who obtains a life insurance policy does so for the express purpose of assigning the policy in exchange for compensation. In a typical STOLI transaction, an individual (usually a senior) is encouraged to take out insurance on his or her own life, sometimes in the millions of dollars. The individual then assigns the policy to an investor or group of investors (the "stranger") who pay the individual a large cash settlement in exchange for the ownership rights to the policy, including the right to receive the proceeds upon the insured's death.

STOLI also differs from legitimate viatical settlements with the following common characteristics:

- Typically targets senior citizens who are induced with gifts, promises of free insurance, or monetary gain;
- Commonly financed through non-recourse "premium finance loans";
- Commonly structured through the use of an irrevocable trust, making it difficult for the life insurance company to know that the policy has been sold;
- Premiums are paid for two years (i.e., the contestable period); and
- Often involves misrepresentation, falsification, or omission of material facts (also known as "cleansheeting") in the life insurance application and inflated underwriting practices, such as the applicant's net worth, in order to obtain a policy with a high face value.

As the Uniform Law Commission noted:

> Those who benefit from STOLI transactions (typically investors in the secondary markets) claim that it is an appropriate use of life insurance consistent with applicable legal principles, including the free transferability of assets. Others, including life insurers, oppose the use of STOLI on the ground that is a perversion of the life insurance asset and leads to the moral hazard concerns that insurable interest doctrines were intended to mitigate.[33]

Stranger-originated life insurance may appear similar to a viatical or life settlement. The critical difference is that in viatical or life settlements, an insured initially buys life insurance in a good-

[31] Ch. 2013-40, s. 6, Laws of Fla. (2013 General Appropriations Act, p. 316).
[32] *See* Office of Insurance Regulation, *supra* fn. 5, pp. 50-51.
[33] UNIFORM LAW COMMISSION, *Insurable Interest Amendment to the Uniform Trust Code Summary*, at http://uniformlaws.org/ActSummary.aspx?title=Insurable%20Interest%20Amendment%20to%20the%20Uniform%20Trust%20Code (last visited April 13, 2017).

faith intent to protect valid insurable interests (i.e., to protect family members or a business from the risk of a premature death). The individual subsequently decides to sell the policy to a third party due to a change in circumstances that may not warrant the policy (such as divorce, death of an intended beneficiary, or the need for immediate cash due to illness or other loss). In a STOLI, the policy is intentionally purchased for the benefit of persons (usually investors) who lack an insurable interest at the time the life insurance contract is entered into. These investors ultimately receive the proceeds, directly or indirectly.[34] The Uniform Law Commission has noted that the beneficiaries of STOLI transactions argue that it is an appropriate use of life insurance consistent with applicable legal principles, including the free transferability of assets. Life insurers oppose the use of STOLI, arguing that it is a perversion of the concept of life insurance and leads to the moral hazard concerns that insurable interest doctrines are intended to mitigate.[35]

Transactions involving STOLI often use fraudulent means to procure life insurance on individuals, such as misrepresentation, falsification, or omission of material facts in the life insurance application. The fraud is conducted so that an assignment or sale of a policy functions as a subterfuge that circumvents the insurable interest requirement. STOLI transactions generally target senior citizens and are often financed through non-recourse "premium finance loans." It is common for STOLI to be structured through the use of an irrevocable trust, which conceals from the life insurance company that the policy was sold. The insured pays premiums during the contestable period to prevent the insurer from discovering a possible violation of the insurable interest requirement.

According to the OIR, STOLI impacts consumers (both individual investors and insureds) and insurers in a number of ways:[36]

- Seniors may exhaust their life insurance purchasing capability and not be able to protect their own family or business.
- The incentives, especially cash payments, used to lure seniors to participate in STOLI schemes are taxable as ordinary income.
- Seniors may subject themselves or their estates to potential liability in the event the life insurance policy is rescinded by an insurer who discovers fraud.
- Seniors may encounter unexpected tax liability from the sale of the life insurance policy.[37]
- The "free" insurance is not free and may be subject to tax based on the economic value of the coverage.
- Seniors have to give the purchaser, and subsequent purchasers, access to their medical records when they sell their life insurance policy in the secondary market so that investors know the health status of the insured. The investors want to know the "status" of their investment and how close they are to getting paid.

[36] Office of Insurance Regulation (OIR), *2017 Agency Legislative Bill Analysis of HB 1205*, pg. 5 (March 12, 2017). Additionally, s. 626.9923, F.S., requires viatical service providers to disclose certain risks to viators, such as tax and Medicaid eligibility consequences.

[37] *See* IRS Rev. Ruls. 2009-13 and 2009-14, regarding taxation of proceeds from settlements as capital gains ordinary income and taxation on a post-settlement basis.

- STOLI may lead to an increase in life insurance rates for the over-65 population.
- If STOLI practices continue to proliferate, the U.S. Congress may remove the tax-free status of life insurance proceeds.

Over 30 states currently prohibit STOLI, generally through some combination of the NAIC and NCOIL model acts, in addition to common law or statutory insurable interest laws. STOLI has resulted in significant litigation, criminal and regulatory enforcement actions, both nationally[38] and in Florida.[39]

Currently, s. 627.409, F.S., provides that misrepresentation, omission, concealment of fact, or incorrect statements on an application for an insurance contract "may prevent recovery" in certain cases, however, there are no criminal penalties and an action for rescission by the life insurer is the only civil penalty available. Various provisions of the Insurance Code authorize the DFS to suspend or revoke the license or appointment of licensees, agencies, or appointees on various grounds, such as using fraudulent or dishonest practices in the conduct of business under the license.[40] Finally, the Unfair Insurance Trade Practices Act in s. 626.9541, F.S., lists several unfair methods of competition and unfair or deceptive acts or practices. Each violation of this statute can result in fines ranging from $5,000 to $75,000, depending on the willfulness and particular violation. In addition, "twisting" and "churning" are first-degree misdemeanors, while willfully submitting false signatures on an application is a third-degree felony.[41]

Current law does not specifically define STOLI, nor does it have a specific regulatory prohibition on STOLI or life insurance policies lacking an insurable interest at inception. Life insurers engage in insurable interest litigation to combat STOLI, usually relying on the insurable interest statute in s. 627.404, F.S., to rescind the policies transferred in a STOLI transaction for a lack of insurable interest when the policy was initially entered into. This argument is sometimes opposed with arguments seeking the application of the incontestability statute, s. 627.455, F.S., which requires life insurance policies to include a provision barring the insurer from challenging the policy after it is in force for two years.

The OIR may use several legal, criminal or regulatory remedies to address STOLI transactions:

- *The Viatical Settlement Act* (Act) authorizes the OIR to impose fines of up to $2,500 for nonwillful violations and up to $10,000 for willful violations, or to suspend, revoke, deny, or refuse to renew the license of any viatical settlement provider found to be engaging in certain acts, such as fraudulent or dishonest practices, dealing in bad faith with viators, or violating any provision of the Act or the Insurance Code. The OIR may also impose cease and desist orders and immediate final orders for violations of the Act.[42]

[39] For a listing of OIR enforcement actions, see OIR, *Viatical Criminal, Civil and Regulatory Actions*, http://www.floir.com/sections/landh/viaticals/ccr_actions.aspx (last visited April 14, 2017) and 2013 OIR Report, *Appendix C: Florida Regulatory and Enforcement Actions Pertaining to Viatical Settlement Providers*.
[40] Sections 626.611, 626.6115, 626.6215, and 626.621, F.S.
[41] Section 626.9541, F.S.
[42] Sections 626.9914 and 626.99272, F.S.

- *Misrepresentation on an application:* Currently, s. 627.409, F.S., provides that misrepresentation, omission, concealment of fact, or incorrect statements on an application for an insurance contract "may prevent recovery" in certain cases. However, this remedy is viewed as inadequate, because there are no criminal penalties and the only civil penalty available is an action for rescission by the life insurer.
- *Agent regulation*: Various provisions of the Insurance Code authorize the DFS to suspend or revoke the license or appointment of licensees, agencies, or appointees on various grounds, such as using fraudulent or dishonest practices in the conduct of business under the license.[43]
- *Unfair Insurance Trade Practices Act*: Part IX of ch. 626, F.S., contains a number of unfair insurance trade practices. In particular, s. 626.9541, F.S., lists several unfair methods of competition and unfair or deceptive acts or practices. Each violation of this statute can result in fines ranging from $5,000 to $75,000, depending on the willfulness and particular violation. In addition, "twisting"[44] and "churning"[45] are first-degree misdemeanors, while willfully submitting false signatures on an application is a third-degree felony.[46] While viatical settlement providers (VSP) are subject to s. 626.9541, F.S., by way of s. 626.9927, F.S., and STOLI transactions do share some components of these practices, the statute was written for the initial sale of an insurance policy to an insured, thereby making it difficult to apply the statute to secondary sales of life insurance policies.[47]

Insurers and investors have relied on two dueling statutes that are not in the Act.

- As noted above, Florida expanded its insurable interest statute, s. 627.404, F.S., in 2008 to clarify when an insurable interest may be validly recognized for life insurance purposes. Life insurers have relied on this statute in filing suit to rescind the policies subsequently transferred in a STOLI transaction for a lack of insurable interest at the time of the policy.
- However, another statute, s. 627.455, F.S., requires insurers to include an incontestability clause in their policies that bars a challenge to the policy after it has been in force for two years. Securities intermediaries (acting for the institutional investors) have relied on this statute as a kind of statute of limitations to seek dismissal of insurers' rescission cases,

[43] Sections 626.611, 626.6115, 626.6215, and 626.621, F.S.

[44] As defined in s. 626.9541(1)(l), F.S., "twisting" means "knowingly making any misleading representations or incomplete or fraudulent comparisons or fraudulent material omissions of or with respect to any insurance policies or insurers for the purpose of inducing, or tending to induce, any person to lapse, forfeit, surrender, terminate, retain, pledge, assign, borrow on, or convert any insurance policy or to take out a policy of insurance in another insurer."

[45] "Churning" by an insurer or an agent is an unfair method of competition and an unfair or deceptive act or practice. As defined in s. 626.9541(1)(aa), F.S., "churning" is: the practice whereby policy values in an existing life insurance policy or annuity contract, including, but not limited to, cash, loan values, or dividend values, and in any riders to that policy or contract, are directly or indirectly used to purchase another insurance policy or annuity contract with that same insurer for the purpose of earning additional premiums, fees, commissions, or other compensation:
a. Without an objectively reasonable basis for believing that the replacement or extraction will result in an actual and demonstrable benefit to the policyholder;
b. In a fashion that is fraudulent, deceptive, or otherwise misleading or that involves a deceptive omission;
c. When the applicant is not informed that the policy values including cash values, dividends, and other assets of the existing policy or contract will be reduced, forfeited, or used in the purchase of the replacing or additional policy or contract, if this is the case; or
d. Without informing the applicant that the replacing or additional policy or contract will not be a paid-up policy or that additional premiums will be due, if this is the case.

[46] Section 626.9541, F.S.

[47] OIR Agency Analysis, *supra* note 24, at 2.

arguing that a tardy challenge is barred regardless whether the policy was made with an insurable interest at inception.

- In separate cases, the U.S. District Court for the Southern District of Florida reached different interpretations on the interplay of these statutes.[48] These appeals were consolidated to the U.S. Court of Appeals for the Eleventh Circuit (Eleventh Circuit). The Eleventh Circuit noted that there are no cases decided by Florida courts that specifically addressed whether a party can challenge an insurance policy as being void ab initio [to be treated as invalid from the beginning][49] for lack of an insurable interest if the challenge is made after the two-year contestability period, and if so, whether the individual with the required insurable interest must procure the policy in good faith. As a result, the Eleventh Circuit certified questions to the Florida Supreme Court for a determination of Florida law on the conflict between these two statutes.[50]
- In September 2016, the Florida Supreme Court considered the Eleventh Circuit's certified questions and concluded that "[b]ecause the STOLI policies like the . . . policies at issue have the insurable interest required by section 627.404(1) at their inception, they become incontestable two years after their issuance under the plain language of section 627.455."[51] The Florida Supreme Court rephrased the certified question and answered the following in the negative: "Can a party challenge the validity of a life insurance policy after the two-year contestability period established by section 627.455 because of its creation through a STOLI scheme?"[52] Answering in the affirmative would essentially create a STOLI-policy exception to the two-year contestability period in s. 627.455, F.S. The Florida Supreme Court noted that, "[w]hile such an exception might be wise public policy, that decision is for the Florida Legislature, not this Court."[53]

Preinsurance Inspection of Private Passenger Motor Vehicles

Section 627.744, F.S., requires insurers to perform preinsurance inspections of private passenger motor vehicles. The inspection must include:

- Taking a physical imprint of the vehicle's vehicle identification number or otherwise recording the vehicle identification number in a manner prescribed by the Financial Services Commission (the commission).
- Recording the presence of accessories required by the commission to be recorded.
- Recording the locations of and a description of existing damage to the vehicle.

The requirement applies to a policy issued on a private passenger motor vehicle principally garaged in counties with a 1988 population of 500,000 or greater. These counties are Duval, Palm Beach, Broward, Dade, Orange, Hillsborough, and Pinellas. There are various exemptions from the required preinsurance inspection, including exceptions for:

[51] *Wells Fargo Bank, N.A. v Pruco Life Ins. Co.*, 200 So. 3d 1202, 1206 (Fla. 2016). The appeal will go back to the Eleventh Circuit for final disposition.
[52] *Id.* at 1206-07.
[53] *Id*. at 1203.

- New, unused motor vehicles purchased or leased from a licensed motor vehicle dealer or leasing company;[54]
- Vehicles added by policyholders continuously insured for two or more years;
- Temporary substitute motor vehicles;
- Motor vehicles leased for less than six months, contingent upon certain documentation
- Vehicles ten years old or older;
- Renewal policies;
- Vehicles or policies exempted by rule of the commission;
- Vehicles garaged too far from a contracted inspection facility;
- Vehicles on a commercial rated policy with five or more insured vehicles;
- When an insurance producer transferring a book of business from one insurer to another; and
- When an individual insured's coverage is being transferred and initiated by a producer to a new insurer.

Despite the exemptions, an insurer may require a preinsurance inspection of any motor vehicle as a condition of issuance of physical damage coverage. Physical damage coverage may not be suspended during the policy period due to the applicant's failure to provide the required documents. However, claim payments are conditioned upon, and are not payable until, the required documents are received by the insurer. Applicants for insurance may be required to pay the cost of the preinsurance inspection, not to exceed $5.[55]

In 2016, the Legislature required the Department of Financial Services (DFS) to provide a report on preinsurance inspections in the state.[56] The report was issued on December 22, 2016.[57] The required elements and reported data[58] for 2012-2016 are:

- Total cost incurred by insurers and policyholders in order to comply with the inspections.
  - Insurers: $12,062,089
  - Policyholders: None
- Total cost incurred by insurers to have motor vehicles inspected.
  - $12,062,089
- Total premium savings for policyholders as a result of the inspections.
  - $35,640
- Total number of inspected motor vehicles that had preexisting damage.
  - 125,787 motor vehicles inspected.
- Data on potential fraud within the first 125 days after issuance of a new policy.
  - 6,166 potential fraud claims.
- Total number of referrals to the NICB by preinsurance inspectors during the past five years.

[54] The insurer may require a bill of sale, buyer's order, or lease agreement, or copy of title or registration that establishes transfer of ownership from the dealer or leasing company and the window sticker. See s. 627.744(2)(b), F.S.
[55] Section 627.744(4), F.S.
[56] Chapter 2016-133, L.O.F.
[57] FLORIDA DEPARTMENT OF FINANCIAL SERVICES, DIVISION OF INVESTIGATIVE & FORENSIC SERVICES, s. *627.744(8)(a), F.S. Motor Vehicle Pre-Inspection – Reporting Requirements* (Dec. 22, 2016). (on file with the Senate Committee on Banking and Insurance.)
[58] The survey and data request summarized in the report included responses received from 157 insurers (39 provided data).

- 626 referrals made to NICB.[59]

Many insurers argue based on the findings of this report that the mandatory cost for such inspections does not justify the potential cost avoidance. However, vendors that provide these mandatory inspections argue, when taking into account the average cost of repair to vehicles along with the number of vehicles noted as having damage at time of inspection, the total cost avoidance from potential fraud should be much higher than what has been reported.

III. Effect of Proposed Changes:

Anti-Fraud Requirements Imposed on Insurance Companies (Section 1)

Section 1 amends s. 626.9891, F.S., to create more uniform requirements for insurers to create anti-fraud units and anti-fraud plans than those that exist in current law. This section requires every insurer to designate at least one employee responsible for meeting the requirements of s. 626.9891, F.S. As an administrative expense for ratemaking purposes, insurers must include the additional cost incurred in creating an anti-fraud unit, hiring additional employees, or the cost of contracting with another entity to fulfill the requirements of this act.

"Anti-fraud investigative unit," as used in this section, means the designated anti-fraud unit or division, or contractor authorized to investigate and report possible fraudulent insurance acts by insureds or by persons making claims for services or repairs against policies held by insureds.

This section requires all insurers to establish and maintain a designated anti-fraud unit or alternatively, to contract with others to investigate and report possible fraudulent insurance acts by insureds or by persons making claims for services or repairs against policies held by insureds.

Additionally, under this section, insurers are required to adopt an anti-fraud plan. The anti-fraud plan must include:

- An acknowledgement that the insurer has established procedures for detecting and investigating possible fraudulent insurance acts relating to the different types of insurance written by that insurer;
- An acknowledgment that the insurer has established procedures for the mandatory reporting of possible fraudulent insurance acts to the division;
- An acknowledgment that the insurer provides the required anti-fraud education and training to the anti-fraud unit;
- A description of the required anti-fraud education and training;
- A description or chart of the insurer's anti-fraud investigative unit including position titles and descriptions of staffing; and
- The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit, which may include objective criteria, such as:
  - The number of policies written;
  - The number of claims received on an annual basis;
  - The volume of suspected fraudulent claims detected on an annual basis; and

[59] DFS also reports that 4,065 referrals were made by insurers to the Division of Investigative & Forensic Services (formerly the Division of Insurance Fraud) during the same period.

- An assessment of the optimal caseload that one investigator can handle on an annual basis.

Insurers must establish the anti-fraud units and anti-fraud plans (or enter into an appropriate contract) by December 31, 2017. Furthermore, the insurer must electronically file with the Department of Financial Services (DFS), on an annual basis, the anti-fraud plan or executed contract together with the name of the employee designated as responsible for implementing the requirements of this act.

This section requires every insurer to provide at least two hours of initial anti-fraud training to the designated anti-fraud investigative unit or contractor by December 31, 2018. Each insurer must also provide an annual one-hour refresher course that addresses detection, referral, investigation, and reporting of suspected insurance fraud for the types of insurance lines written by the insurer.

This section requires every insurer to submit anti-fraud statistics by March 1, 2019, and annually thereafter, for the lines of business written by that insurer for the prior calendar year. The statistics must include:

- The number of policies in effect;
- The amount of premiums written for policies;
- The number of claims received;
- The number of claims referred to the anti-fraud investigative unit;
- The number of other insurance fraud matters referred to the anti-fraud investigative unit that were not claim related;
- The number of claims investigated or accepted by the anti-fraud investigative unit;
- The number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit that were not claim related;
- The number of cases referred to the Division of Investigative and Forensic Services (division);
- The number of cases referred to other law enforcement agencies;
- The number of cases referred to other entities; and
- The estimated dollar amount of damages in cases referred to the division, or other agencies.

Current law only requires statistical reporting from workers' compensation insurers. This section requires all insurers to provide reports by March 1, 2019, and annually thereafter. The bill requires the DFS to adopt rules to administer the reporting requirements of the bill.

This section also requires workers' compensation insurers to report the following information each year:

- The estimated dollar amount of losses attributable to workers' compensation fraud delineated by the type of fraud, including: claimant, employer, provider, agent, or other type;
- The estimated dollar amount of recoveries attributable to workers' compensation fraud delineated by the type of fraud, including: claimant, employer, provider, agent, or other type; and
- The number of cases referred to the division, delineated by the type of fraud, including: claimant, employer, provider, agent, or other type;

This section provides that an insurer who obtains a certificate of authority has six months to establish the anti-fraud unit or enter into an appropriate contract. During the same six months, the insurer must adopt an anti-fraud plan and must designate an employee responsible for complying with s. 626.9891, F.S. The section further provides that the insurer has one calendar year thereafter, to file the anti-fraud plan with the DFS and comply with relevant reporting requirements. Administrative fines may be assessed if an insurer fails to comply with s. 626.9891, F.S.

The bill requires the division to create a report detailing best practices for the detection, investigation, prevention, and reporting of insurance fraud and other fraudulent insurance acts. The report must be completed by December 31, 2018, and must be updated as necessary but at least every two years. The report must provide:

- Information on the best practices for the establishment of anti-fraud investigative units within insurers;
- Information on the best practices and methods for detecting and investigating insurance fraud and other fraudulent insurance acts;
- Information on appropriate anti-fraud education and training of insurer personnel;
- Information on the best practices for reporting insurance fraud and other fraudulent insurance acts to the division and to other law enforcement agencies;
- Information regarding the appropriate level of staffing and resources for anti-fraud investigative units within insurers;
- Information detailing statistics and data relating to insurance fraud which insurers should maintain; and
- Other information as determined by the division.

Dedicated Prosecutor Program (Section 2)

Section 2 creates s. 626.9896, F.S., to create the Insurance Fraud Dedicated Prosecutor Program (program).

Legislative Intent

This section provides legislative intent to address the increasing problem of insurance fraud, the need to adequately investigate and prosecute insurance fraud and the need to create a program dedicated to the prosecution of insurance fraud. The Legislature recognizes the division can efficiently and effectively monitor the program, can direct and reallocate resources as insurance trends change and demand for prosecutorial resources shift between judicial circuits.

Purpose of the Program

This section creates a grant program within the DFS to fund the program. The purpose of the program is to provide grants to state attorneys' offices to fund attorney and paralegal positions for the exclusive prosecution of insurance fraud. The program will consist only of funds appropriated specifically for the program.

Grant Applications

Beginning in 2018, a state attorney's office seeking grant funds must submit an application to the division detailing the proposed number of dedicated prosecutors and paralegals requested for the prosecution of insurance fraud. Applications must be received by July 1 of each even-numbered year and shall identify funding needs for two years. Grant awards are contingent upon legislative appropriation and subject to renewal by the DFS. The division is required to compile and review the timely submitted applications to establish its legislative budget request for the program for the upcoming two years.

Award of Grants

The section authorizes the division to award grants to state attorneys' offices using a formula adopted by rule. The rule must be based on metrics and data compiled by the division that allocates funds to the judicial circuits based on trends in insurance fraud and the performance and output measures reported to the division. A grant is subject to s. 215.971, F.S., and may only be used to fund attorney and paralegal positions that are dedicated exclusively to the prosecution of insurance fraud. The division shall establish the annual maximum grant amount based on funds appropriated to the DFS for funding the program.

Reporting

The section requires the division to track and report on the effectiveness and efficiency of each state attorney's office's use of the awarded grant funds. To help complete the report, each state attorney's office that is awarded a grant must submit performance and output information to the division. The report must be provided to the Executive Office of the Governor, the Speaker of the House of Representatives, and the President of the Senate by September 1, 2020, and annually thereafter. The report must include, but is not limited to, the following:

- The amount of grant funds received and expended by each state attorney's office;
- A description of the purposes for which the funds were expended, including payment of salaries, expenses, and any other costs needed to support the delivery of services; and
- The results achieved from the expenditures made, including the number of complaints filed, the number of investigations initiated, the number of arrests made, the number of convictions, and the amount of restitution or fines paid as a result of the cases presented for prosecution.

Rules

The section provides that the DFS may adopt rules for the administration and implementation of the program, including procedures, forms, formulas and standards.

Viatical Settlement Agreements – Stranger- Oriented Life Insurance (STOLI) (Sections 3-10)

Defining a "Fraudulent Viatical Settlement Act" and a "Stranger-originated Life Insurance Practice" (Section 3)

Section 3 creates two new subsections in s. 626.9911, F.S. The new subsection (2) defines "fraudulent viatical settlement acts" as an act or omission committed by a person who

knowingly, or with intent for the purpose of depriving another of property or for pecuniary gain, commits or allows an employee or agent to commit any of the following:

- Presenting, causing to be presented, or preparing false or concealed material information concerning specified material facts, such as:
  - An application for the issuance of a viatical settlement contract or a life insurance policy;
  - The underwriting of a viatical settlement contract or a life insurance policy;
  - Premiums paid on a life insurance policy;
  - Payments and changes in ownership or beneficiary made in accordance with the terms of a viatical settlement contract or a life insurance policy;
  - The reinstatement or conversion of a life insurance policy;
  - The solicitation, offer, effectuation, or sale of a viatical settlement contract or a life insurance policy;
  - The issuance of written evidence of a viatical settlement contract or a life insurance policy; or
  - A financing transaction for a viatical settlement contract or life insurance policy.
- Employing a plan, financial structure, device, scheme or artifice related to viaticated policies for the purpose of perpetrating fraud;
- Engaging in a stranger-originated life insurance practice;
- Failing to disclose, upon request by an insurer, that the prospective insured has undergone a life expectancy evaluation by a person other than the insurer or its authorized representatives in connection with the issuance of the life insurance policy;
- Perpetuating a fraud or preventing its detection;[60]
- Embezzling, stealing, or misappropriating funds or other property of an insurance policyholder, insured, insurer, viator, viatical settlement provider, or any person engaged in the business of viatical settlement contracts or life insurance;
- Entering into, negotiating, brokering, or otherwise dealing in a viatical settlement contract, the subject of which is a life insurance policy that was obtained on false or concealed information to defraud the policy's issuer, a viatical settlement provider, or a viator;
- Facilitating the viator's change of state to avoid the provisions of this act;
- Facilitating or causing the creation of a trust with a non-Florida or other nonresident entity for the purpose of owning a life insurance policy covering a Florida resident to avoid the provisions of this act;
- Applying for or obtaining a loan that is secured directly or indirectly by an interest in a life insurance policy with intent to defraud, for the purpose of depriving another of property, or for pecuniary gain; and
- Attempting to commit, assisting, aiding, abetting, or conspiring to commit an act or omission that meets the definition of a "fraudulent viatical settlement act."

Subsection (9) is created for the purpose of defining a "stranger-originated life insurance practice." It is an act, practice, arrangement or agreement to initiate a life insurance policy for the

[60] Such acts include removing, concealing, altering, destroying, or sequestering from the OIR the assets or records of a licensee or other person engaged in viatical settlements; misrepresenting or concealing the financial condition of a licensee, financing entity, insurer, or other person; transacting business relating to viatical settlement contracts in violation of the Viatical Settlement Act; and filing with the OIR or the insurance regulator in another jurisdiction false information or concealing information about a material fact.

benefit of a third party investor who has no insurable interest in the insured at policy origination.[61]

Contestability Periods for Viaticated Policies and Stranger-Originated Life Insurance (Sections 4, 7 and 9)

Section 4 amends s. 626.9924, F.S., to require the viatical settlement provider to give the documents required under s. 626.99287, F.S., to the life insurer that issued a life insurance policy within 20 days of an agreement to viaticate the policy during the five-year contestability period. The documents must accompany the notice required under current law. The required documents support the affidavit executed by the viator that an exception applies allowing the creation of a viatical settlement contract within five years after the issuance of the viaticated insurance policy.

Section 7 amends s. 626.99287, F.S., and makes void and unenforceable viatical settlement contracts entered into within five years from the issuance of the underlying insurance policy if the policy is subject to a loan secured directly or indirectly by an interest with the policy. This is the contestability period of the viatical settlement contract. The bill otherwise retains the two-year contestability period for viatical settlement contracts under current law.

Current law provides conditions that, if met, allow the execution of a viatical settlement contract during the contestability period. This section modifies the process for doing so. The viator must provide a sworn affidavit and accompanying independent evidentiary documentation to a viatical settlement provider certifying that the viator has met a statutory exception that allows viatication of a policy during the contestability period. Current law does not require the viator to execute a sworn affidavit with documentation evidencing that the exception applied.

This section revises two of the conditions allowing viatication during the contestability period. Currently, the limitation on viaticating a policy does not apply the life insurance policy was issued upon the owner's exercise of conversion rights arising out of a group or term policy. The bill limits this condition by requiring that the policy has been in effect for at least 60 months.[62] This section clarifies the exception for insureds or viators with illnesses by requiring them to provide evidence of a "terminal" or "chronic" illness, terms that are more precise in meaning than the current law. Current law refers to an illness that is catastrophic, life threatening, or requires at least three years of long-term care or home health care.

The bill allows the viator to enter into a viatical settlement contract more than two years after the policy's issuance date if at all times prior to two-years after policy issuance, the viator met three conditions. The viator must continuously fund the policy premiums exclusively with the viator's unencumbered assets.[63] There must not be an agreement or understanding with another person to

[61] The bill states that stranger-originated life insurance practices include the purchase of a life insurance policy with resources or guarantees from or through a person who, at the time of the policy's inception, is not lawfully able to execute an arrangement or agreement to transfer the ownership or benefits of the policy to a third party. It also includes creating a trust or other entity that has the appearance of an insurable interest in order to initiate policies for investors, in violation of insurable interest laws and the prohibition against wagering on life.

[62] The 60-month period is calculated without regard to any change in insurance carriers if coverage has been continuous and under the same group sponsorship.

[63] May include the net surrender value of the life insurance policy being financed.

guarantee any liabilities related to the policy or to purchase the policy. Neither the insured nor policy were evaluated for settlement.

Section 9 creates s. 626.99291, F.S., to allow a life insurer to contest a life insurance policy that was obtained by a STOLI practice, notwithstanding s. 627.455, F.S., which provides that life insurance and annuity contracts are not to be contestable for the initial two years.

Prohibiting Fraudulent Viatical Settlement Acts and Stranger Originated Life Insurance (Sections 6 and 8)

Section 6 amends s. 626.99275(1), F.S., to add to the list of prohibited practices:

- Knowingly entering into a viatical settlement contract before the application for or issuance of a life insurance policy that is the subject of the viatical settlement contract or during the two-year contestability period specified in s. 626.99287(1)F.S., or the five-year contestability period specified in s. 626.99287(2), F.S., unless the viator provides a sworn affidavit and accompanying evidence pursuant to;
- Engaging in a fraudulent viatical settlement act, as defined in s. 626.9911, F.S.;
- Knowingly issuing, soliciting, marketing, or promoting the purchase of a life insurance policy for the purpose of, or with an emphasis on selling the property to a third party; and
- Engaging in a stranger-originated life insurance practice, as defined in s. 626.9911, F.S.

The prohibited practices are subject to criminal penalties, which remain unchanged. Violations are third-degree felonies if the insurance policy has a value less than $20,000; second-degree felonies if the insurance policy has a value of $20,000 or more but less than $100,000; and first-degree felonies if the insurance policy has a value of $100,000 or more.[64]

Section 8 creates s. 626.99289, F.S., to make void and unenforceable any contract or agreement entered into for the furtherance or aid of a STOLI practice.

Notice to Insureds (Section 10)

Section 10 creates s. 626.99292, F.S., to require a life insurer to provide an individual life insurance policyholder with a statement informing him or her that a policyholder considering changes in the status of a policy should consult with a licensed insurance or financial advisor. The statement must also advise the policyholder that he or she may contact the Office of Insurance Regulation (OIR) for more information and include a website address or other manner by which the policyholder may contact the OIR. The statement may accompany or be included in notices or mailings otherwise provided to the policyholder.

Miscellaneous Provisions (Section 5)

Section 5 amends s. 626.99245, F.S., to correct a cross reference. This section provides viatical settlement providers doing business from this state must obtain a viatical settlement license from the OIR. The term "doing business from this state" within this subsection, includes effectuating viatical settlement agreements from offices in this state, regardless of the state of residence of the viator.

[64] Section 626.99275(2), F.S.

Preinsurance Inspection (Section 11)

Section 11 allows motor vehicle insurers to opt out of the requirement that they inspect each private passenger motor vehicle before issuing an insurance policy that provides coverage for physical damage, including collision and comprehensive coverages.

An insurer who elects to opt out of inspection requirements must file a manual rule with the OIR indicating it will not participate in the inspection program under s. 627.744, F.S. The insurer may establish its own preinsurance inspection requirements as a condition to issuing a private passenger motor vehicle insurance policy, and such requirements must be included in the manual rule filed with the OIR. Insurers may not charge applicants for the cost of an inspection if the insurer has opted out of the inspection requirements under s. 627.744, F.S.

Other Provisions (Sections 12 and 13)

Section 12 amends s. 641.3915, F.S., to make technical changes.

Section 13 provides that except as otherwise provided in this act, the bill is effective upon becoming a law.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Anti-Fraud Efforts

The fiscal impact is indeterminate. However, insurance companies may incur cost associated with implementing the provisions of this act. In addition, insurance companies may incur some costs compiling and providing statistical data to the Department of Financial Services (DFS).

Viatical Settlement Agreements – Stranger-Oriented Life Insurance (STOLI)

Policyholders, particularly senior adults, will benefit from the prevention fraudulent viatical settlement acts and STOLI practices that deprive them of property or are created for the pecuniary gain of the party that becomes the new beneficiary or owner of the underlying life insurance policy.

C. Government Sector Impact:

The DFS anticipates no fiscal impact on state revenues or expenditures.[65] The DFS may experience minimal costs associated with rulemaking; however, those costs can be absorbed within existing resources.

The Justice Administrative Commission indicates the bill will have an indeterminate fiscal and policy impact, as the administrative needs of the Offices of the State Attorney, associated with the creation of the program, are not predictable at this time.[66]

VI. Technical Deficiencies:

Section 3 of the bill defines "fraudulent viatical settlement acts" as various actions done by a person "knowingly, or with intent to defraud for the purpose of depriving another of property or for pecuniary gain." On lines 452-455 the prohibition against "applying for or obtaining a loan that is secured directly or indirectly by an interest in a life insurance policy" needlessly duplicates the clause "with intent to defraud, for the purpose of depriving another of property, or for pecuniary gain." The redundant language on lines 454-455 is unnecessary.

Section 10 of the bill requires insurers to provide a notice to policyholders considering making changes in the status of a life insurance policy. On line 652, it requires the notice to include information for contacting the Office of Insurance Regulation. It may be more appropriate for the notice to include information on how to contact the Division of Consumer Services at the Department of Financial Services.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 626.9891, 626.9911, 626.9924, 626.99245, 626.99275, 626.99287, and 641.3915.

This bill creates the following sections of the Florida Statutes: 626.9896, 626.99289, 626.99291, 626.99292, and 627.744.

[65] Email from Elizabeth Boyd, Legislative Affairs Director, Department of Financial Services (April 7, 2017) (on file with Senate Appropriations Subcommittee on General Government).
[66] Justice Administrative Commission, *Senate Bill 1012 Fiscal Analysis* (February 23, 2017) (on file with the Senate Appropriations Subcommittee on General Government).

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS/CS by Appropriations on April 25, 2017:
The committee substitute:

- Defines the terms "fraudulent viatical settlement agreements" and "stranger-oriented life insurance."
- Requires viatical settlement providers to provide required documents to the life insurer within 20-days of an agreement to viaticate the policy during the five-year contestability period.
- Makes the viatical settlement agreement, entered within five years of issuance, void and unenforceable if the policy is subject to a loan directly or indirectly by an interest with the policy.
- Revises conditions allowing viatication during the contestability period.
- Allows viatication under certain conditions.
- Allows a life insurer to contest a life insurance policy obtained by a STOLI practice under certain conditions.
- Adds the following to the list of prohibited practices:
  - Knowingly entering into a viatical settlement contract before the application for or issuance of a life insurance policy that is the subject of the viatical settlement contract or during the two-year contestability period specified in s. 626.99287(1) or the five-year contestability period specified in s. 626.99287(2), F.S., unless the viator provides a sworn affidavit and accompanying evidence pursuant to.
  - Engaging in a fraudulent viatical settlement act, as defined in s. 626.9911, F.S.
  - Knowingly issuing, soliciting, marketing, or promoting the purchase of a life insurance policy for the purpose of, or with an emphasis on selling the property to a third party.
  - Engaging in a stranger-originated life insurance practice, as defined in s. 626.9911, F.S.
- Specifies that a life insurer may contest a life insurance policy obtained by a STOLI practice, notwithstanding that life insurance contracts are incontestable two years after issuance.
- Requires a life insurer to provide a statement to policyholders advising the policyholder to consult with a licensed insurance or financial advisor and provides contact information for the Office of Insurance Regulation in the event the policyholder is considering policy changes.
- Corrects a cross-reference.
- Allows motor vehicle insurers to opt out of the requirement to inspect each private passenger motor vehicle before issuing a physical damage policy.
- Allows insurers to establish their own preinsurance inspection requirements prior to issuing a private passenger motor vehicle insurance policy.
- Requires insurers who opt out of the inspection requirements to:
  - File a manual rule with the OIR indicating its non-participation.
  - Provide preinsurance inspection requirements established by the insurer to be included in the manual rule filing.

- Provides that insurers may not charge applicants for the cost of an inspection if the insurer has opted out of the inspection requirements under s. 627.744, F.S.
- Provides unless otherwise expressed, the bill is effective upon becoming a law.

CS by Banking and Insurance on April 3, 2017:

- Removes a provision related to the reversion of funds from the Justice Administrative Commission to the Workers' Compensation Trust Fund.
- Requires all insurers, regardless of the amount of premium written, to submit anti-fraud plans (or contracts) to the DFS. It modifies insurer reporting requirements.
- Requires a report to the Governor, President, and Speaker regarding the effectiveness of the dedicated prosecutor program.

B. Amendments:

None.

LEGISLATIVE ACTION

Senate	.	House
Comm: RCS	.	
04/26/2017	.	
	.	
	.	
	.	

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Delete lines 41 - 308
and insert:
Section 1. Effective September 1, 2017, section 626.9891, Florida Statutes, is reordered and amended to read:
626.9891 Insurer anti-fraud investigative units; reporting requirements; penalties for noncompliance.—
(1)~~(5)~~ As used in ~~For purposes of~~ this section, the term:
(a) "Anti-fraud investigative unit" means the designated

167518

anti-fraud unit or division, or contractor authorized under subparagraph (2)(a)2.

(b) "Designated anti-fraud unit or division" includes a distinct unit or division or a unit or division made up of ~~the assignment of fraud investigation to~~ employees whose principal responsibilities are the investigation and disposition of claims who are also assigned investigation of fraud. ~~If an insurer creates a distinct unit or division, hires additional employees, or contracts with another entity to fulfill the requirements of this section, the additional cost incurred must be included as an administrative expense for ratemaking purposes.~~

(2)~~(1)~~ By December 31, 2017, every insurer admitted to do business in this state ~~who in the previous calendar year, at any time during that year, had $10 million or more in direct premiums written~~ shall:

(a)1. Establish and maintain a designated anti-fraud unit or division within the company to investigate and report possible fraudulent insurance acts ~~claims~~ by insureds or by persons making claims for services or repairs against policies held by insureds; or

2.~~(b)~~ Contract with others to investigate and report possible fraudulent insurance acts by insureds or by persons making claims for services or repairs against policies held by insureds.

(b) Adopt an anti-fraud plan.

(c) Designate at least one employee with primary responsibility for implementing the requirements of this section.

(d) Electronically ~~An insurer subject to this subsection~~

~~shall~~ file with the Division of Investigative and Forensic Services of the department, and annually thereafter ~~on or before July 1, 1996~~, a detailed description of the designated anti-fraud unit or division ~~established pursuant to paragraph (a)~~ or a copy of the contract executed under subparagraph (a)2., as applicable, a copy of the anti-fraud plan, and the name of the employee designated under paragraph (c) ~~and related documents required by paragraph (b)~~.

An insurer must include the additional cost incurred in creating a distinct unit or division, hiring additional employees, or contracting with another entity to fulfill the requirements of this section, as an administrative expense for ratemaking purposes.

~~(2) Every insurer admitted to do business in this state, which in the previous calendar year had less than $10 million in direct premiums written, must adopt an anti-fraud plan and file it with the Division of Investigative and Forensic Services of the department on or before July 1, 1996. An insurer may, in lieu of adopting and filing an anti-fraud plan, comply with the provisions of subsection (1).~~

(3) Each ~~insurers~~ anti-fraud plan must ~~plans shall~~ include:

(a) An acknowledgement that the insurer has established procedures for detecting and investigating possible fraudulent insurance acts relating to the different types of insurance by that insurer ~~A description of the insurer's procedures for detecting and investigating possible fraudulent insurance acts~~;

(b) An acknowledgment that the insurer has established ~~A description of the insurer's~~ procedures for the mandatory

reporting of possible fraudulent insurance acts to the Division of Investigative and Forensic Services of the department;

(c) An acknowledgement that the insurer provides the ~~A description of the insurer's plan for~~ anti-fraud education and training required by this section to the anti-fraud investigative unit ~~of its claims adjusters or other personnel~~; ~~and~~

(d) A description of the required anti-fraud education and training;

(e) A ~~written~~ description or chart ~~outlining~~ ~~the organizational arrangement~~ of the insurer's anti-fraud investigative unit, including the position titles and descriptions of staffing; and ~~personnel who are responsible for the investigation and reporting of possible fraudulent insurance acts~~

(f) The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit which may include objective criteria, such as the number of policies written, the number of claims received on an annual basis, the volume of suspected fraudulent claims detected on an annual basis, an assessment of the optimal caseload that one investigator can handle on an annual basis, and other factors.

(4) By December 31, 2018, each insurer shall provide staff of the anti-fraud investigative unit at least 2 hours of initial anti-fraud training that is designed to assist in identifying and evaluating instances of suspected fraudulent insurance acts in underwriting or claims activities. Annually thereafter, an insurer shall provide such employees a 1-hour course that addresses detection, referral, investigation, and reporting of

possible fraudulent insurance acts for the types of insurance lines written by the insurer.

(5) Each insurer is required to report data related to fraud for each line of insurance written by the insurer during the prior calendar year. The data shall be reported to the department by March 1, 2019, and annually thereafter, and must include, at a minimum:

(a) The number of policies in effect;

(b) The amount of premiums written for policies;

(c) The number of claims received;

(d) The number of claims referred to the anti-fraud investigative unit;

(e) The number of other insurance fraud matters referred to the anti-fraud investigative unit that were not claim related;

(f) The number of claims investigated or accepted by the anti-fraud investigative unit;

(g) The number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit that were not claim related;

(h) The number of cases referred to the Division of Investigative and Forensic Services;

(i) The number of cases referred to other law enforcement agencies;

(j) The number of cases referred to other entities; and

(k) The estimated dollar amount or range of damages on cases referred to the Division of Investigative and Forensic Services or other agencies.

(6) In addition to providing information required under subsections (2), (4), and (5), each insurer writing workers'

compensation insurance shall also report the following information to the department, on or before March 1, 2019, and annually thereafter ~~August 1 of each year, on its experience in implementing and maintaining an anti-fraud investigative unit or an anti-fraud plan. The report must include, at a minimum~~:

(a) The estimated dollar amount of losses attributable to workers' compensation fraud delineated by the type of fraud, including claimant, employer, provider, agent, or other type.

(b) The estimated dollar amount of recoveries attributable to workers' compensation fraud delineated by the type of fraud, including claimant, employer, provider, agent, or other type.

(c) The number of cases referred to the Division of Investigative and Forensic Services, delineated by the type of fraud, including claimant, employer, provider, agent, or other type.

~~(a) The dollar amount of recoveries and losses attributable to workers' compensation fraud delineated by the type of fraud: claimant, employer, provider, agent, or other.~~

~~(b) The number of referrals to the Bureau of Workers' Compensation Fraud for the prior year.~~

~~(c) A description of the organization of the anti-fraud investigative unit, if applicable, including the position titles and descriptions of staffing.~~

~~(d) The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit, which may include objective criteria such as number of policies written, number of claims received on an annual basis, volume of suspected fraudulent claims currently being detected, other factors, and an assessment of optimal caseload that can be~~

~~handled by an investigator on an annual basis.~~

~~(c) The inservice education and training provided to underwriting and claims personnel to assist in identifying and evaluating instances of suspected fraudulent activity in underwriting or claims activities.~~

~~(f) A description of a public awareness program focused on the costs and frequency of insurance fraud and methods by which the public can prevent it~~.

(7)~~(4)~~ An ~~Any~~ insurer who obtains a certificate of authority has 6 ~~after July 1, 1995, shall have 18~~ months in which to comply with subsection (2), and one calendar year thereafter, to comply with subsections (4), (5), and (6) ~~the requirements of this section~~.

(8)~~(7)~~ If an insurer fails ~~to timely submit a final acceptable anti-fraud plan or anti-fraud investigative unit description, fails to implement the provisions of a plan or an anti-fraud investigative unit description,~~ or otherwise refuses to comply with the provisions of this section, the department, office, or commission may:

(a) Impose an administrative fine of not more than $2,000 per day for such failure ~~by an insurer to submit an acceptable anti-fraud plan or anti-fraud investigative unit description,~~ until the department, office, or commission deems the insurer to be in compliance;

(b) Impose an administrative fine for failure by an insurer to implement or follow the provisions of an anti-fraud plan or anti-fraud investigative unit description; or

(c) Impose the provisions of both paragraphs (a) and (b).

(9) On or before December 31, 2018, the Division of

Investigative and Forensic Services shall create a report detailing best practices for the detection, investigation, prevention, and reporting of insurance fraud and other fraudulent insurance acts. The report must be updated as necessary but at least every 2 years. The report must provide:

(a) Information on the best practices for the establishment of anti-fraud investigative units within insurers;

(b) Information on the best practices and methods for detecting and investigating insurance fraud and other fraudulent insurance acts;

(c) Information on appropriate anti-fraud education and training of insurer personnel;

(d) Information on the best practices for reporting insurance fraud and other fraudulent insurance acts to the Division of Investigative and Forensic Services and to other law enforcement agencies;

(e) Information regarding the appropriate level of staffing and resources for anti-fraud investigative units within insurers;

(f) Information detailing statistics and data relating to insurance fraud which insurers should maintain; and

(g) Other information as determined by the Division of Investigative and Forensic Services.

(10) ~~(8)~~ The department may adopt rules to administer this section, except that it shall adopt rules to administer subsection (5).

Section 2. Effective September 1, 2017, section 626.9896, Florida Statutes, is created to read:

626.9896 Insurance Fraud Dedicated Prosecutor Program.—

167518

(1) LEGISLATIVE INTENT.—The Legislature recognizes the increasing problem of insurance fraud, the need to adequately investigate and prosecute insurance fraud, and the need to create a program dedicated to the prosecution of insurance fraud. The Legislature recognizes that the Division of Investigative and Forensic Services of the department can efficiently and effectively implement and monitor such a program, and can direct and reallocate resources as insurance fraud trends change and demand for prosecutorial resources shift between judicial circuits.

(2) ESTABLISHMENT OF THE INSURANCE FRAUD DEDICATED PROSECUTOR PROGRAM.—There is created within the department a grant program to fund the Insurance Fraud Dedicated Prosecutor Program. The purpose of the program is to provide grants to state attorneys' offices to fund attorney and paralegal positions that are dedicated exclusively to the prosecution of insurance fraud. The program shall consist only of funds appropriated by the state specifically for this program.

(3) GRANT APPLICATIONS.—Beginning in 2018, a state attorney's office seeking grant funds must submit an application to the Division of Investigative and Forensic Services detailing the proposed number of dedicated prosecutors and paralegals requested for the prosecution of insurance fraud. Applications must be received by July 1 of each even-numbered year and shall identify funding needs for 2 years. Grant awards are contingent upon legislative appropriation in the Insurance Regulatory Trust Fund and Workers' Compensation Administration Trust Fund and subject to renewal by the department. The division must compile and review the timely submitted applications to establish its

167518

legislative budget request for the program for the upcoming two years.

(4) AWARD OF GRANTS.—The division is authorized to award grants to state attorneys' offices using a formula adopted by rule of the department and based on metrics and data compiled by the division which allocate funds to the judicial circuits based on trends in insurance fraud and the performance and output measures reported as required by this section. A grant awarded to a state attorney's office may only be used to fund attorney and paralegal positions that are dedicated exclusively to the prosecution of insurance fraud. Grants are subject to the provisions of s. 215.971. The division shall establish the annual maximum grant amount, based on funds appropriated to the department for funding the Insurance Fraud Dedicated Prosecutor Program.

(5) REPORTING.—The division must track and report on the effectiveness and efficiency of each state attorney's office's use of the awarded grant funds. To help complete the report, each state attorney's office that is awarded a grant under this section must submit performance and output information as determined by the division. The report must be provided to the Executive Office of the Governor, the Speaker of the House of Representatives, and the President of the Senate by September 1, 2020, and annually thereafter. The report must include, but is not limited to, the following:

(a) The amount of grant funds received and expended by each state attorney's office;

(b) A description of the purposes for which the funds were expended, including payment of salaries, expenses, and any other

costs needed to support the delivery of services;

(c) The results achieved from the expenditures made, including the number of complaints filed, the number of investigations initiated, the number of arrests made, the number of convictions, and the amount of restitution or fines paid as a result of the cases presented for prosecution.

(6) RULES.—The department may adopt rules pursuant to ss. 120.536(1) and 120.54 for the administration and implementation of the Insurance Fraud Dedicated Prosecutor Program. Such rules may establish procedures for the Insurance Fraud Dedicated Prosecutor Program, including forms to be used by the state attorney's offices. The department may establish a formula for allocating grant funds, eligibility criteria, renewal requirements, and standards for evaluating the effectiveness and efficiency of expended funds.

Section 3. Present subsections (2) through (7) of section 626.9911, Florida Statutes, are renumbered as subsections (3) through (8), respectively, present subsections (8) through (14) of that section are renumbered as subsections (10) through (16), respectively, and new subsections (2) and (9) are added to that section, to read:

626.9911 Definitions.—As used in this act, the term:

(2) "Fraudulent viatical settlement act" means an act or omission committed by a person who knowingly, or with intent to defraud for the purpose of depriving another of property or for pecuniary gain, commits or allows an employee or agent to commit any of the following acts:

(a) Presenting, causing to be presented, or preparing with the knowledge or belief that it will be presented to or by

another person, false or concealed material information as part of, in support of, or concerning a fact material to:

1. An application for the issuance of a viatical settlement contract or a life insurance policy;

2. The underwriting of a viatical settlement contract or a life insurance policy;

3. A claim for payment or benefit pursuant to a viatical settlement contract or a life insurance policy;

4. Premiums paid on a life insurance policy;

5. Payments and changes in ownership or beneficiary made in accordance with the terms of a viatical settlement contract or a life insurance policy;

6. The reinstatement or conversion of a life insurance policy;

7. The solicitation, offer, effectuation, or sale of a viatical settlement contract or a life insurance policy;

8. The issuance of written evidence of a viatical settlement contract or a life insurance policy; or

9. A financing transaction for a viatical settlement contract or life insurance policy.

(b) Employing a plan, financial structure, device, scheme, or artifice relating to viaticated policies for the purpose of perpetrating fraud.

(c) Engaging in a stranger-originated life insurance practice.

(d) Failing to disclose, upon request by an insurer, that the prospective insured has undergone a life expectancy evaluation by a person other than the insurer or its authorized representatives in connection with the issuance of the life

insurance policy.

(e) Perpetuating a fraud or preventing the detection of a fraud by:

1. Removing, concealing, altering, destroying, or sequestering from the office the assets or records of a licensee or other person engaged in the business of viatical settlements;

2. Misrepresenting or concealing the financial condition of a licensee, financing entity, insurer, or other person;

3. Transacting in the business of viatical settlements in violation of laws requiring a license, certificate of authority, or other legal authority to transact such business; or

4. Filing with the office or the equivalent chief insurance regulatory official of another jurisdiction a document that contains false information or conceals information about a material fact from the office or other regulatory official.

(f) Embezzlement, theft, misappropriation, or conversion of moneys, funds, premiums, credits, or other property of a viatical settlement provider, insurer, insured, viator, insurance policyowner, or other person engaged in the business of viatical settlements or life insurance.

(g) Entering into, negotiating, brokering, or otherwise dealing in a viatical settlement contract, the subject of which is a life insurance policy that was obtained based on information that was falsified or concealed for the purpose of defrauding the policy's issuer, viatical settlement provider, or viator.

(h) Facilitating the viator's change of residency state to avoid the provisions of this act.

(i) Facilitating or causing the creation of a trust with a

non-Florida or other nonresident entity for the purpose of owning a life insurance policy covering a Florida resident to avoid the provisions of this act.

(j) Facilitating or causing the transfer of the ownership of an insurance policy covering a Florida resident to a trust with a situs outside this state or to another nonresident entity to avoid the provisions of this act.

(k) Applying for or obtaining a loan that is secured directly or indirectly by an interest in a life insurance policy with intent to defraud, for the purpose of depriving another of property or for pecuniary gain.

(l) Attempting to commit, assisting, aiding, or abetting in the commission of, or conspiring to commit, an act or omission specified in this subsection.

(9) "Stranger-originated life insurance practice" means an act, practice, arrangement, or agreement to initiate a life insurance policy for the benefit of a third-party investor who, at the time of policy origination, has no insurable interest in the insured. Stranger-originated life insurance practices include, but are not limited to:

(a) The purchase of a life insurance policy with resources or guarantees from or through a person who, at the time of such policy's inception, could not lawfully initiate the policy and the execution of a verbal or written arrangement or agreement to directly or indirectly transfer the ownership of such policy or policy benefits to a third party.

(b) The creation of a trust or other entity that has the appearance of an insurable interest in order to initiate policies for investors, in violation of insurable interest laws

and the prohibition against wagering on life.

Section 4. Subsection (7) of section 626.9924, Florida Statutes, is amended to read:

626.9924 Viatical settlement contracts; procedures; rescission.—

(7) At any time during the contestable period, within 20 days after a viator executes documents necessary to transfer rights under an insurance policy or within 20 days of any agreement, option, promise, or any other form of understanding, express or implied, to viaticate the policy, the provider must give notice to the insurer of the policy that the policy has or will become a viaticated policy. The notice must be accompanied by the documents required by s. 626.99287 ~~626.99287(5)(a) in their entirety~~.

Section 5. Subsection (2) of section 626.99245, Florida Statutes, is amended to read:

626.99245 Conflict of regulation of viaticals.—

(2) This section does not affect the requirement of ss. 626.9911(14) ~~626.9911(12)~~ and 626.9912(1) that a viatical settlement provider doing business from this state must obtain a viatical settlement license from the office. As used in this subsection, the term "doing business from this state" includes effectuating viatical settlement contracts from offices in this state, regardless of the state of residence of the viator.

Section 6. Subsection (1) of section 626.99275, Florida Statutes, is amended to read:

626.99275 Prohibited practices; penalties.—

(1) It is unlawful for a ~~any~~ person to:

(a) ~~To~~ Knowingly enter into, broker, or otherwise deal in a

viatical settlement contract the subject of which is a life insurance policy, knowing that the policy was obtained by presenting materially false information concerning any fact material to the policy or by concealing, for the purpose of misleading another, information concerning any fact material to the policy, where the viator or the viator's agent intended to defraud the policy's issuer.

(b) ~~To~~ Knowingly or with the intent to defraud, for the purpose of depriving another of property or for pecuniary gain, issue or use a pattern of false, misleading, or deceptive life expectancies.

(c) ~~To~~ Knowingly engage in any transaction, practice, or course of business intending thereby to avoid the notice requirements of s. 626.9924(7).

(d) ~~To~~ Knowingly or intentionally facilitate the change of state of residency of a viator to avoid the provisions of this chapter.

(e) Knowingly enter into a viatical settlement contract before the application for or issuance of a life insurance policy that is the subject of a viatical settlement contract or during an applicable period specified in s. 626.99287(1) or (2), unless the viator provides a sworn affidavit and accompanying independent evidentiary documentation in accordance with s. 626.99287.

(f) Engage in a fraudulent viatical settlement act, as defined in s. 626.9911.

(g) Knowingly issue, solicit, market, or otherwise promote the purchase of a life insurance policy for the purpose of or with an emphasis on selling the policy to a third party.

(h) Engage in a stranger-originated life insurance practice, as defined in s. 626.9911.

Section 7. Section 626.99287, Florida Statutes, is amended to read:

626.99287 Contestability of viaticated policies.—

(1) Except as hereinafter provided, if a viatical settlement contract is entered into within the 2-year period commencing with the date of issuance of the insurance policy or certificate to be acquired, the viatical settlement contract is void and unenforceable by either party.

(2) Except as hereinafter provided, if a viatical settlement policy is subject to a loan secured directly or indirectly by an interest in the policy within a 5-year period commencing on the date of issuance of the policy or certificate, the viatical settlement contract is void and unenforceable by either party.

(3) Notwithstanding the limitations in subsections (1) and (2) ~~this limitation~~, such a viatical settlement contract is not void and unenforceable if the viator provides a sworn affidavit and accompanying independent evidentiary documentation certifying to the viatical settlement provider that one or more of the following conditions were met during the periods applicable to the viaticated policy as stated in subsections (1) or (2):

(a) ~~(1)~~ The policy was issued upon the owner's exercise of conversion rights arising out of a group or term policy, if the total time covered under the prior policy is at least 60 months. The time covered under a group policy must be calculated without regard to any change in insurance carriers, provided the

coverage has been continuous and under the same group sponsorship.~~;~~

(b)~~(2)~~ The owner of the policy is a charitable organization exempt from taxation under 26 U.S.C. s. 501(c)(3).~~;~~

~~(3) The owner of the policy is not a natural person;~~

~~(4) The viatical settlement contract was entered into before July 1, 2000;~~

(c)~~(5)~~ The viator certifies by producing independent evidence to the viatical settlement provider that one or more of the following conditions were ~~have been~~ met ~~within the 2-year period~~:

~~(a)~~1. The viator or insured is terminally or chronically ill ~~diagnosed with an illness or condition that is either:~~

~~a. Catastrophic or life threatening; or~~

~~b. Requires a course of treatment for a period of at least 3 years of long-term care or home health care;~~ and

~~2.~~ the condition was not known to the insured at the time the life insurance contract was entered into;~~.~~

2.~~(b)~~ The viator's spouse dies;

3.~~(c)~~ The viator divorces his or her spouse;

4.~~(d)~~ The viator retires from full-time employment;

5.~~(e)~~ The viator becomes physically or mentally disabled and a physician determines that the disability prevents the viator from maintaining full-time employment;

6.~~(f)~~ The owner of the policy was the insured's employer at the time the policy or certificate was issued and the employment relationship terminated;

7.~~(g)~~ A final order, judgment, or decree is entered by a court of competent jurisdiction, on the application of a

creditor of the viator, adjudicating the viator bankrupt or insolvent, or approving a petition seeking reorganization of the viator or appointing a receiver, trustee, or liquidator to all or a substantial part of the viator's assets; or

8.~~(h)~~ The viator experiences a significant decrease in income which is unexpected by the viator and which impairs his or her reasonable ability to pay the policy premium.

(d) The viator entered into a viatical settlement contract more than 2 years after the policy's issuance date and, with respect to the policy, at all times before the date that is 2 years after policy issuance, each of the following conditions is met:

1. Policy premiums have been funded exclusively with unencumbered assets, including an interest in the life insurance policy being financed only to the extent of its net cash surrender value, provided by, or fully recourse liability incurred by, the insured;

2. There is no agreement or understanding with any other person to guarantee any such liability or to purchase, or stand ready to purchase, the policy, including through an assumption or forgiveness of the loan; and

3. Neither the insured or the policy has been evaluated for settlement.

~~If the viatical settlement provider submits to the insurer a copy of the viator's or owner's certification described above, then the provider submits a request to the insurer to effect the transfer of the policy or certificate to the viatical settlement provider, the viatical settlement agreement shall not be void or~~

~~unenforceable by operation of this section. The insurer shall timely respond to such request. Nothing in this section shall prohibit an insurer from exercising its right during the contestability period to contest the validity of any policy on grounds of fraud.~~

Section 8. Section 626.99289, Florida Statutes, is created to read:

626.99289 Void and unenforceable contracts, agreements, arrangements, and transactions.—Notwithstanding s. 627.455, a contract, agreement, arrangement, or transaction, including, but not limited to, a financing agreement or any other arrangement or understanding entered into, whether written or verbal, for the furtherance or aid of a stranger-originated life insurance practice is void and unenforceable.

Section 9. Section 626.99291, Florida Statutes, is created to read:

626.99291 Contestability of life insurance policies.—Notwithstanding s. 627.455, a life insurer may contest a life insurance policy if the policy was obtained by a stranger-originated life insurance practice, as defined in s. 626.9911.

Section 10. Section 626.99292, Florida Statutes, is created to read:

626.99292 Notice to insureds.—

(1) A life insurer shall provide an individual life insurance policyholder with a statement informing him or her that if he or she is considering making changes in the status of his or her policy, he or she should consult with a licensed insurance or financial advisor. The statement may accompany or be included in notices or mailings otherwise provided to the

policyholder.

(2) The statement must also advise the policyholder that he or she may contact the office for more information and include a website address or other location or manner by which the policyholder may contact the office.

Section 11. Effective September 1, 2017, section 641.3915, Florida Statutes, is amended to read:

641.3915 Health maintenance organization anti-fraud plans and investigative units.—Each authorized health maintenance organization and applicant for a certificate of authority shall comply with the provisions of ss. 626.989 and 626.9891 as though such organization or applicant were an authorized insurer. ~~For purposes of this section, the reference to the year 1996 in s. 626.9891 means the year 2000 and the reference to the year 1995 means the year 1999.~~

Section 12. Except as otherwise expressly provided in this act, this act shall take effect upon becoming a law.

Senate Amendment to Amendment (167518) (with title amendment)

Between lines 566 and 567
insert:

Section 11. Effective January 1, 2019, section 627.744, Florida Statutes, is amended to read:

627.744 ~~Required~~ Preinsurance inspection of private passenger motor vehicles.—

(1) A private passenger motor vehicle insurance policy

589252

providing physical damage coverage, including collision or comprehensive coverage, may not be issued in this state unless the insurer has inspected the motor vehicle in accordance with this section.

(2) This section does not apply:

(a) To a policy for a policyholder who has been insured for 2 years or longer, without interruption, under a private passenger motor vehicle policy that provides physical damage coverage for any vehicle if the agent of the insurer verifies the previous coverage.

(b) To a new, unused motor vehicle purchased or leased from a licensed motor vehicle dealer or leasing company. The insurer may require:

1. A bill of sale, buyer’s order, or lease agreement that contains a full description of the motor vehicle; or

2. A copy of the title or registration that establishes transfer of ownership from the dealer or leasing company to the customer and a copy of the window sticker.

For the purposes of this paragraph, the physical damage coverage on the motor vehicle may not be suspended during the term of the policy due to the applicant’s failure to provide or the insurer’s option not to require the documents. However, if the insurer requires a document under this paragraph at the time the policy is issued, payment of a claim may be conditioned upon the receipt by the insurer of the required documents, and no physical damage loss occurring after the effective date of the coverage may be payable until the documents are provided to the insurer.

589252

(c) To a temporary substitute motor vehicle.

(d) To a motor vehicle which is leased for less than 6 months, if the insurer receives the lease or rental agreement containing a description of the leased motor vehicle, including its condition. Payment of a physical damage claim is conditioned upon receipt of the lease or rental agreement.

(e) To a vehicle that is 10 years old or older, as determined by reference to the model year.

(f) To any renewal policy.

(g) To a motor vehicle policy issued in a county with a 1988 estimated population of less than 500,000.

(h) To any other vehicle or policy exempted by rule of the commission. The commission may base a rule under this paragraph only on a determination that the likelihood of a fraudulent physical damage claim is remote or that the inspection would cause a serious hardship to the insurer or the applicant.

(i) When the insurer’s authorized inspection service has no inspection facility either in the municipality in which the automobile is principally garaged or within 10 miles of such municipality.

(j) When the insured vehicle is insured under a commercially rated policy that insures five or more vehicles.

(k) When an insurance producer is transferring a book of business from one insurer to another.

(l) When an individual insured’s coverage is being transferred and initiated by a producer to a new insurer.

~~(3) This subsection does not prohibit an insurer from requiring a preinsurance inspection of any motor vehicle as a condition of issuance of physical damage coverage.~~

589252

(3) ~~(4)~~ The inspection required by this section shall be provided by the insurer or by a person or organization authorized by the insurer. The applicant may be required to pay the cost of the inspection, not to exceed $5. The inspection shall be recorded on a form prescribed by the commission, and the form or a copy shall be retained by the insurer with its policy records for the insured. The insurer shall provide a copy of the form to the insured upon request. Any inspection fee paid directly by the applicant may not be considered part of the premium. However, an insurer that provides the inspection at no cost to the applicant may include the expense of the inspection within a rate filing.

(4) ~~(5)~~ The inspection shall include at least the following:

(a) Taking a physical imprint of the vehicle identification number of the vehicle or otherwise recording the vehicle identification number in a manner prescribed by the commission.

(b) Recording the presence of accessories required by the commission to be recorded.

(c) Recording the locations of and a description of existing damage to the vehicle.

(5) ~~(6)~~ An insurer may defer an inspection for 30 calendar days following the effective date of coverage for a new policy, but not for a renewal policy, and for additional or replacement vehicles to an existing policy, if an inspection at the time of the request for coverage would create a serious inconvenience for the applicant and such hardship is documented in the insured’s policy record.

(6) ~~(7)~~ The commission may, by rule, establish such procedures and notice requirements that it finds necessary to

589252

implement this section.

(7) Notwithstanding any other provision of this section, an insurer may opt out of the inspection requirements of this section. An insurer opting out of the inspection must file a manual rule with the office indicating that the insurer will not participate in the inspection program under this section. An insurer that files such a manual rule with the office may establish its own preinsurance inspection requirements as a condition to issuing a private passenger motor vehicle insurance policy. The insurer's preinsurance inspection requirements must be included in the manual rule filed with the office. An insurer opting out of the inspection requirements of this section may not require an applicant to pay for the cost of an inspection.

~~(8) The Division of Insurance Fraud of the Department of Financial Services shall provide a report of data from the required preinsurance inspection of motor vehicles to the Governor, the President of the Senate, and the Speaker of the House of Representatives by December 1, 2016.~~

~~(a) The data must include, but need not be limited to:~~

~~1. A written estimate of the total cost incurred by insurers and policyholders in order to comply with the inspections.~~

~~2. A written estimate of the total cost incurred by insurers to have their motor vehicles inspected.~~

~~3. Documentation regarding the total premium savings for policyholders as a result of the inspections.~~

~~4. Documentation of the total number of inspected motor vehicles that had a preexisting condition.~~

~~5. Documentation regarding the potential fraud in motor~~

589252

~~vehicle claims incurred within the first 125 days after issuance of a new policy.~~

~~6. Documentation of the total number of referrals of fraudulent acts to the National Insurance Crime Bureau by preinsurance inspectors during the past 5 years.~~

~~(b) The Legislature may use the report data in determining the future public necessity for this section.~~

(9) On or before December 31, 2018, the Division of Investigative and Forensic Services shall create a report detailing best practices for the detection, investigation, prevention, and reporting of insurance fraud and other fraudulent insurance acts. The report must be updated as necessary but at least every 2 years. The report must provide:

364756

(a) Information on the best practices for the establishment of anti-fraud investigative units within insurers;

(b) Information on the best practices and methods for detecting and investigating insurance fraud and other fraudulent insurance acts;

(c) Information on appropriate anti-fraud education and training of insurer personnel;

(d) Information on the best practices for reporting insurance fraud and other fraudulent insurance acts to the Division of Investigative and Forensic Services and to other law enforcement agencies;

(e) Information regarding the appropriate level of staffing and resources for anti-fraud investigative units within insurers;

(f) Information detailing statistics and data relating to insurance fraud which insurers should maintain; and

(g) Other information as determined by the Division of Investigative and Forensic Services.

(10) ~~(8)~~ The department may adopt rules to administer this section, except that it shall adopt rules to administer subsection (5).

By the Committee on Banking and Insurance; and Senator Brandes

597-03362-17 20171012c1

A bill to be entitled

An act relating to insurer anti-fraud efforts; reordering and amending s. 626.9891, F.S.; defining and revising definitions; requiring every insurer to designate at least one primary anti-fraud employee for certain purposes; requiring insurers to adopt an anti-fraud plan; revising insurer requirements in providing anti-fraud information to the Department of Financial Services; requiring specified information to be filed annually with the department; revising the information to be provided by insurers who write workers' compensation insurance; requiring each insurer to provide annual anti-fraud education and training; requiring insurers who submit an application for a certificate of authority after a specified date to comply with the section; providing penalties for failure to comply with requirements of the section; creating s. 626.9896, F.S.; providing legislative intent; creating a grant program to fund the Insurance Fraud Dedicated Prosecutor Program within the department; requiring moneys that are appropriated for the program be used to fund specific attorney and paralegal positions; specifying procedures to be used by state attorneys' offices when applying for biennial grants; specifying that grants are for two years but authorizing the division to renew the grants; specifying procedures to be used by the department in awarding grant funds; requiring the Division of Investigative and Forensic Services to provide an

597-03362-17 20171012c1

annual report to the Executive Office of the Governor, the Speaker of the House of Representatives, and the Senate President; specifying information to be contained in the report; authorizing the department to adopt rules to administer and implement the insurance fraud dedicated prosecutor program; amending s. 641.3915, F.S.; deleting obsolete provisions; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 626.9891, Florida Statutes, is reordered and amended to read:

626.9891 Insurer anti-fraud investigative units; reporting requirements; penalties for noncompliance.—

(1)~~(5)~~ As used in ~~For purposes of~~ this section, the term:

(a) "Anti-fraud investigative unit" means the designated anti-fraud unit or division, or contractor authorized under subparagraph (2)(a)2.

(b) "Designated anti-fraud unit or division" includes a distinct unit or division or a unit or division made up of ~~the assignment of fraud investigation to~~ employees whose principal responsibilities are the investigation and disposition of claims who are also assigned investigation of fraud. ~~If an insurer creates a distinct unit or division, hires additional employees, or contracts with another entity to fulfill the requirements of this section, the additional cost incurred must be included as an administrative expense for ratemaking purposes.~~

(2)~~(1)~~ By December 31, 2017, every insurer admitted to do

business in this state ~~who in the previous calendar year, at any time during that year, had $10 million or more in direct premiums written~~ shall:

(a)1. Establish and maintain a designated anti-fraud unit or division within the company to investigate and report possible fraudulent insurance acts ~~claims~~ by insureds or by persons making claims for services or repairs against policies held by insureds; or

2.~~(b)~~ Contract with others to investigate and report possible fraudulent insurance acts by insureds or by persons making claims for services or repairs against policies held by insureds.

(b) Adopt an anti-fraud plan.

(c) Designate at least one employee with primary responsibility for implementing the requirements of this section.

(d) Electronically ~~An insurer subject to this subsection shall~~ file with the Division of Investigative and Forensic Services of the department, and annually thereafter ~~on or before July 1, 1996~~, a detailed description of the designated anti-fraud unit or division ~~established pursuant to paragraph (a)~~ or a copy of the contract executed under subparagraph (a)2., as applicable, a copy of the anti-fraud plan, and the name of the employee designated under paragraph (c) ~~and related documents required by paragraph (b)~~.

An insurer must include the additional cost incurred in creating a distinct unit or division, hiring additional employees, or contracting with another entity to fulfill the requirements of

this section, as an administrative expense for ratemaking purposes.

~~(2) Every insurer admitted to do business in this state, which in the previous calendar year had less than $10 million in direct premiums written, must adopt an anti-fraud plan and file it with the Division of Investigative and Forensic Services of the department on or before July 1, 1996. An insurer may, in lieu of adopting and filing an anti-fraud plan, comply with the provisions of subsection (1).~~

(3) Each ~~insurers~~ anti-fraud plan must ~~plans shall~~ include:

(a) An acknowledgement that the insurer has established procedures for detecting and investigating possible fraudulent insurance acts relating to the different types of insurance by that insurer ~~A description of the insurer's procedures for detecting and investigating possible fraudulent insurance acts~~;

(b) An acknowledgment that the insurer has established ~~A description of the insurer's~~ procedures for the mandatory reporting of possible fraudulent insurance acts to the Division of Investigative and Forensic Services of the department;

(c) An acknowledgement that the insurer provides the ~~A description of the insurer's plan for~~ anti-fraud education and training required by this section to the anti-fraud investigative unit ~~of its claims adjusters or other personnel~~; ~~and~~

(d) A description of the required anti-fraud education and training;

(e) A ~~written~~ description or chart ~~outlining~~ ~~the organizational arrangement~~ of the insurer's anti-fraud investigative unit, including the position titles and

descriptions of staffing; and ~~personnel who are responsible for the investigation and reporting of possible fraudulent insurance acts~~

(f) The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit which may include objective criteria, such as the number of policies written, the number of claims received on an annual basis, the volume of suspected fraudulent claims detected on an annual basis, an assessment of the optimal caseload that one investigator can handle on an annual basis, and other factors.

(4) By December 31, 2018, each insurer shall provide staff of the anti-fraud investigative unit at least 2 hours of initial anti-fraud training that is designed to assist in identifying and evaluating instances of suspected fraudulent insurance acts in underwriting or claims activities. Annually thereafter, an insurer shall provide such employees a 1-hour course that addresses detection, referral, investigation, and reporting of possible fraudulent insurance acts for the types of insurance lines written by the insurer.

(5) Each insurer is required to report data related to fraud for each line of insurance written by the insurer during the prior calendar year. The data shall be reported to the department by March 1, 2019, and annually thereafter, and must include, at a minimum:

(a) The number of policies in effect;

(b) The amount of premiums written for policies;

(c) The number of claims received;

(d) The number of claims referred to the anti-fraud investigative unit;

(e) The number of other insurance fraud matters referred to the anti-fraud investigative unit that were not claim related;

(f) The number of claims investigated or accepted by the anti-fraud investigative unit;

(g) The number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit that were not claim related;

(h) The number of cases referred to the Division of Investigative and Forensic Services;

(i) The number of cases referred to other law enforcement agencies;

(j) The number of cases referred to other entities; and

(k) The estimated dollar amount or range of damages on cases referred to the Division of Investigative and Forensic Services or other agencies.

(6) In addition to providing information required under subsections (2), (4), and (5), each insurer writing workers' compensation insurance shall also report the following information to the department, on or before March 1, 2019, and annually thereafter ~~August 1 of each year, on its experience in implementing and maintaining an anti-fraud investigative unit or an anti-fraud plan. The report must include, at a minimum~~:

(a) The estimated dollar amount of losses attributable to workers' compensation fraud delineated by the type of fraud, including claimant, employer, provider, agent, or other type.

(b) The estimated dollar amount of recoveries attributable to workers' compensation fraud delineated by the type of fraud, including claimant, employer, provider, agent, or other type.

(c) The number of cases referred to the Division of

Investigative and Forensic Services, delineated by the type of fraud, including claimant, employer, provider, agent, or other type.

~~(a) The dollar amount of recoveries and losses attributable to workers' compensation fraud delineated by the type of fraud: claimant, employer, provider, agent, or other.~~

~~(b) The number of referrals to the Bureau of Workers' Compensation Fraud for the prior year.~~

~~(c) A description of the organization of the anti-fraud investigative unit, if applicable, including the position titles and descriptions of staffing.~~

~~(d) The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit, which may include objective criteria such as number of policies written, number of claims received on an annual basis, volume of suspected fraudulent claims currently being detected, other factors, and an assessment of optimal caseload that can be handled by an investigator on an annual basis.~~

~~(e) The inservice education and training provided to underwriting and claims personnel to assist in identifying and evaluating instances of suspected fraudulent activity in underwriting or claims activities.~~

~~(f) A description of a public awareness program focused on the costs and frequency of insurance fraud and methods by which the public can prevent it~~.

(7)~~(4)~~ An ~~Any~~ insurer who obtains a certificate of authority has 6 ~~after July 1, 1995, shall have 18~~ months in which to comply with subsection (2), and one calendar year thereafter, to comply with subsections (4), (5), and (6) ~~the~~

~~requirements of this section~~.

(8)~~(7)~~ If an insurer fails ~~to timely submit a final acceptable anti-fraud plan or anti-fraud investigative unit description, fails to implement the provisions of a plan or an anti-fraud investigative unit description,~~ or otherwise refuses to comply with the provisions of this section, the department, office, or commission may:

(a) Impose an administrative fine of not more than $2,000 per day for such failure ~~by an insurer to submit an acceptable anti-fraud plan or anti-fraud investigative unit description,~~ until the department, office, or commission deems the insurer to be in compliance;

(b) Impose an administrative fine for failure by an insurer to implement or follow the provisions of an anti-fraud plan or anti-fraud investigative unit description; or

(c) Impose the provisions of both paragraphs (a) and (b).

(9)~~(8)~~ The department may adopt rules to administer this section.

Section 2. Section 626.9896, Florida Statutes, is created to read:

626.9896 Insurance Fraud Dedicated Prosecutor Program.—

(1) LEGISLATIVE INTENT.—The Legislature recognizes the increasing problem of insurance fraud, the need to adequately investigate and prosecute insurance fraud, and the need to create a program dedicated to the prosecution of insurance fraud. The Legislature recognizes that the Division of Investigative and Forensic Services of the department can efficiently and effectively implement and monitor such a program, and can direct and reallocate resources as insurance

fraud trends change and demand for prosecutorial resources shift between judicial circuits.

(2) ESTABLISHMENT OF THE INSURANCE FRAUD DEDICATED PROSECUTOR PROGRAM.—There is created within the department a grant program to fund the Insurance Fraud Dedicated Prosecutor Program. The purpose of the program is to provide grants to state attorneys' offices to fund attorney and paralegal positions that are dedicated exclusively to the prosecution of insurance fraud. The program shall consist only of funds appropriated by the state specifically for this program.

(3) GRANT APPLICATIONS.—Beginning in 2018, a state attorney's office seeking grant funds must submit an application to the Division of Investigative and Forensic Services detailing the proposed number of dedicated prosecutors and paralegals requested for the prosecution of insurance fraud. Applications must be received by July 1 of each even-numbered year and shall identify funding needs for 2 years. Grant awards are contingent upon legislative appropriation in the Insurance Regulatory Trust Fund and Workers' Compensation Administration Trust Fund and subject to renewal by the department. The division must compile and review the timely submitted applications to establish its legislative budget request for the program for the upcoming two years.

(4) AWARD OF GRANTS.—The division is authorized to award grants to state attorneys' offices using a formula adopted by rule of the department and based on metrics and data compiled by the division which allocate funds to the judicial circuits based on trends in insurance fraud and the performance and output measures reported as required by this section. A grant awarded

to a state attorney's office may only be used to fund attorney and paralegal positions that are dedicated exclusively to the prosecution of insurance fraud. Grants are subject to the provisions of s. 215.971. The division shall establish the annual maximum grant amount, based on funds appropriated to the department for funding the Insurance Fraud Dedicated Prosecutor Program.

(5) REPORTING.—The division must track and report on the effectiveness and efficiency of each state attorney's office's use of the awarded grant funds. To help complete the report, each state attorney's office that is awarded a grant under this section must submit performance and output information as determined by the division. The report must be provided to the Executive Office of the Governor, the Speaker of the House of Representatives, and the President of the Senate by September 1, 2020, and annually thereafter. The report must include, but is not limited to, the following:

(a) The amount of grant funds received and expended by each state attorney's office;

(b) A description of the purposes for which the funds were expended, including payment of salaries, expenses, and any other costs needed to support the delivery of services;

(c) The results achieved from the expenditures made, including the number of complaints filed, the number of investigations initiated, the number of arrests made, the number of convictions, and the amount of restitution or fines paid as a result of the cases presented for prosecution.

(6) RULES.—The department may adopt rules pursuant to ss. 120.536(1) and 120.54 for the administration and implementation

of the Insurance Fraud Dedicated Prosecutor Program. Such rules may establish procedures for the Insurance Fraud Dedicated Prosecutor Program, including forms to be used by the state attorney's offices. The department may establish a formula for allocating grant funds, eligibility criteria, renewal requirements, and standards for evaluating the effectiveness and efficiency of expended funds.

Section 3. Section 641.3915, Florida Statutes, is amended to read:

641.3915 Health maintenance organization anti-fraud plans and investigative units.—Each authorized health maintenance organization and applicant for a certificate of authority shall comply with the provisions of ss. 626.989 and 626.9891 as though such organization or applicant were an authorized insurer. ~~For purposes of this section, the reference to the year 1996 in s. 626.9891 means the year 2000 and the reference to the year 1995 means the year 1999.~~

Section 4. This act shall take effect September 1, 2017.

The Florida Senate

Committee Agenda Request

To: Senator Jack Latvala, Committee on Appropriations

Subject: Committee Agenda Request

Date: April 19th, 2017

I respectfully request that **Senate Bill #1012**, relating to **Investigative and Forensic Services** be placed on the:

- ☒ committee agenda at your earliest possible convenience.
- ☐ next committee agenda.

BILL ANALYSIS AND FISCAL IMPACT STATEMENT

(This document is based on the provisions contained in the legislation as of the latest date listed below.)

Prepared By: The Professional Staff of the Committee on Appropriations

BILL:	CS/SB 1014
INTRODUCER:	Banking and Insurance Committee and Senator Brandes
SUBJECT:	Public Records/Investigation and Tracking of Insurance Fraud/Department of Financial Services
DATE:	April 24, 2017 REVISED:

	ANALYST	STAFF DIRECTOR	REFERENCE	ACTION
1.	Billmeier	Knudson	BI	**Fav/CS**
2.	Peacock	Ferrin	GO	**Favorable**
3.	Sanders	Hansen	AP	**Favorable**

Please see Section IX. for Additional Information:

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1014 creates a public records exemption for certain information submitted to the Department of Financial Services (DFS) by insurers to comply with insurance fraud prevention and reporting requirements. The bill provides that the following information is exempt from public inspection and copying:

- The description of the insurer's required anti-fraud education and training;
- The description or chart of the insurer's anti-fraud investigative unit;
- The rationale for the level of staffing and resources provided to the insurer's anti-fraud investigative unit;
- The number of claims referred to the anti-fraud investigative unit;
- The number of other insurance fraud matters referred to the anti-fraud investigative unit that were not claim related;
- The number of claims investigated or accepted by the anti-fraud investigative unit;
- The number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit that were not claim related; and
- The estimated dollar amount or range of damages on cases referred to the DFS's Division of Investigative and Forensic Services or other agencies.

The bill provides that the exemption applies to records held on, before, or after the effective date.

The bill provides that the public records exemption is subject to the Open Government Sunset Review Act and will expire October 2, 2022, unless saved from repeal by the Legislature.

The bill includes a public necessity statement as required by the Florida Constitution.

The Florida Constitution requires a two-thirds vote of the members present and voting for final passage of a newly created or expanded public records exemption.

The bill does not impact state revenue or expenditures.[1]

The bill becomes effective at the same time CS/SB 1012 or similar legislation takes effect.

II. Present Situation:

Public Records Law

The Florida Constitution provides that the public has the right to inspect or copy records made or received in connection with official governmental business.[2] This applies to the official business of any public body, officer or employee of the state, including all three branches of state government, local governmental entities, and any person acting on behalf of the government.[3]

In addition to the Florida Constitution, the Florida Statutes provide that the public may access legislative and executive branch records.[4] Chapter 119, F.S., constitutes the main body of public records laws, and is known as the Public Records Act.[5] The Public Records Act states that:

> It is the policy of this state that all state, county and municipal records are open for personal inspection and copying by any person. Providing access to public records is a duty of each agency.[6]

According to the Public Records Act, a public record includes virtually any document or recording, regardless of its physical form or how it may be transmitted.[7] The Florida Supreme Court has interpreted public records as being "any material prepared in connection with official

---

[1] Department of Financial Services, *Senate Bill 1014 Fiscal Analysis* (March 14, 2017) (on file with the Senate Appropriations Committee on General Government).
[2] FLA. CONST., art. I, s. 24(a).
[3] *Id*.
[4] The Public Records Act does not apply to legislative or judicial records. *Locke v. Hawkes*, 595 So.2d 32 (Fla. 1992). Also see *Times Pub. Co. v. Ake*, 660 So.2d 255 (Fla. 1995). The Legislature's records are public pursuant to s. 11.0431, F.S. Public records exemptions for the Legislatures are primarily located in s. 11.0431(2)-(3), F.S.
[5] Public records laws are found throughout the Florida Statutes.
[6] Section 119.01(1), F.S.
[7] Section 119.011(12), F.S., defines "public record" to mean "all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by any agency." Section 119.011(2), F.S., defines "agency" to mean as "any state, county, district, authority, or municipal officer, department, division, board, bureau, commission, or other separate unit of government created or established by law including, for the purposes of this chapter, the Commission on Ethics, the Public Service Commission, and the Office of Public Counsel, and any other public or private agency, person, partnership, corporation, or business entity acting on behalf of any public agency."

agency business which is intended to perpetuate, communicate or formalize knowledge of some type."[8] A violation of the Public Records Act may result in civil or criminal liability.[9]

The Legislature may create an exemption to public records requirements.[10] An exemption must pass by a two-thirds vote of the House and the Senate.[11] In addition, an exemption must explicitly lay out the public necessity justifying the exemption, and the exemption must be no broader than necessary to accomplish the stated purpose of the exemption.[12] A statutory exemption that does not meet these criteria may be unconstitutional and may not be judicially saved.[13]

When creating a public records exemption, the Legislature may provide that a record is "confidential and exempt" or "exempt."[14] Records designated as "confidential and exempt" may be released by the records custodian only under the circumstances defined by the Legislature. Records designated as "exempt" may be released at the discretion of the records custodian under certain circumstances.[15]

Open Government Sunset Review Act

In addition to the constitutional requirements relating to the enactment of a public records exemption, the Legislature may subject the new or broadened exemption to the Open Government Sunset Review Act (OGSR).

The OGSR prescribes a legislative review process for newly created or substantially amended public records.[16] The OGSR provides that an exemption automatically repeals on October 2nd of the fifth year after creation or substantial amendment; in order to save an exemption from repeal, the Legislature must reenact the exemption.[17] In practice, many exemptions are continued by repealing the sunset date rather than reenacting the exemption.

[12] *Id*.
[13] *Halifax Hosp. Medical Center v. New-Journal Corp.,* 724 So.2d 567 (Fla. 1999). In *Halifax Hospital*, the Florida Supreme Court found that a public meetings exemption was unconstitutional because the statement of public necessity did not define important terms and did not justify the breadth of the exemption. *Id*. at 570. The Florida Supreme Court also declined to narrow the exemption in order to save it. *Id.* In *Baker County Press, Inc. v. Baker County Medical Services, Inc.*, 870 So.2d 189 (Fla. 1st DCA 2004), the court found that the intent of a statute was to create a public records exemption. The *Baker County Press* court found that since the law did not contain a public necessity statement, it was unconstitutional. *Id*. at 196.
[14] If the Legislature designates a record as confidential, such record may not be released to anyone other than the persons or entities specifically designated in the statutory exemption. *WFTV, Inc. v. The School Board of Seminole*, 874 So.2d 48 (Fla. 5th DCA 2004).
[15] *Williams v. City of Minneola*, 575 So.2d 687 (Fla. 5th DCA 1991).
[16] Section 119.15, F.S. According to s. 119.15(4)(b), F.S., a substantially amended exemption is one that is expanded to include more information or to include meetings. The OGSR does not apply to an exemption that is required by federal law or that applies solely to the Legislature or the State Court System pursuant to s. 119.15(2), F.S. The OGSR process is currently being followed, however, the Legislature is not required to continue to do so. The Florida Supreme Court has found that one legislature cannot bind a future legislature. *Scott v. Williams*, 107 So.3d 379 (Fla. 2013).
[17] Section 119.15(3), F.S.

The OGSR provides that a public records or open meetings exemption may be created or maintained only if it serves an identifiable public purpose and is no broader than necessary.[18] An exemption serves an identifiable purpose if it meets one of the following purposes and cannot be accomplished without the exemption:

- It allows the state or its political subdivision to effectively and efficiently administer a program, and administration would be significantly impaired without the exemption;[19]
- Releasing sensitive personal information would be defamatory or would jeopardize an individual's safety. If this public purpose is cited as the basis of an exemption, however, only personal identifying information is exempt;[20] or
- It protects trade or business secrets.[21]

In addition, the Legislature must find that the purpose of the exemption overrides the Florida's public policy strongly favoring open government.

Under the OGSR the purpose and necessity of reenacting the exemption are reviewed. The Legislature must consider the following questions during its review of an exemption:[22]

- What specific records or meetings are affected by the exemption?
- Whom does the exemption uniquely affect, as opposed to the general public?
- What is the identifiable public purpose or goal of the exemption?
- Can the information contained in the records or discussed in the meeting be readily obtained by alternative means? If so, how?
- Is the record or meeting protected by another exemption?
- Are there multiple exemptions for the same type of record or meeting that it would be appropriate to merge?

If the Legislature expands an exemption, then a public necessity statement and a two-thirds vote for passage are required.[23] If the exemption is reenacted without substantive changes or if the exemption is narrowed, then a public necessity statement and a two-thirds vote for passage are not required. If the Legislature allows an exemption to sunset, the previously exempt records will remain exempt unless otherwise provided for by law.[24]

Department of Financial Services

The Department of Financial Services (DFS) regulates insurance agents, insurance agencies, and insurance adjusters. The DFS Division of Investigative and Forensic Services (division) contains sworn law enforcement officers that investigate various types of insurance fraud including personal injury protection (PIP) fraud, workers' compensation fraud, vehicle fraud, application fraud, licensee fraud, homeowner's insurance fraud, and healthcare fraud. The division is directed by statute to investigate fraudulent insurance acts, violations of the Unfair Insurance Trade Practices Act, false and fraudulent insurance claims, and willful violations of the Florida

[18] Section 119.15(6)(b), F.S.
[19] Section 119.15(6)(b)1., F.S.
[20] Section 119.15(6)(b)2., F.S.
[21] Section 119.15(6)(b)3., F.S.
[22] Section 119.15(6)(a), F.S.
[23] FLA. CONST., art. I, s. 24(c).
[24] Section 119.15(7), F.S.

Insurance Code and rules adopted pursuant to the code. The division employs sworn law enforcement officers to investigate insurance fraud. In Fiscal Year 2014-2015, the division received 17,392 referrals.[25]

Insurer Reporting Requirements

Section 626.9891, F.S., requires each insurer admitted to do business in this state, if the insurer received $10 million or more in direct premiums during the previous calendar year, to establish a unit to investigate possible insurance claim fraud or to contract with others to investigate such fraud. The insurer must file a detailed description of the anti-fraud unit with, or provide a copy of the contract, to the division.[26]

If the insurer received less than $10 million in direct premiums during the previous calendar year, the insurer must submit an anti-fraud plan to the division.[27] The anti-fraud plan must describe:

- A description of the insurer's procedures for detecting and investigating possible fraudulent insurance acts;
- A description of the insurer's procedures for the mandatory reporting of possible fraudulent insurance acts to the division;
- A description of the insurer's plan for anti-fraud education and training of its claims adjusters or other personnel; and
- A written description or chart outlining the organizational arrangement of the insurer's anti-fraud personnel who are responsible for the investigation and reporting of possible fraudulent insurance acts.[28]

Workers' compensation insurers are required to report the following to the DFS on or before August 1 of each year:

- The dollar amount of recoveries and losses attributable to workers' compensation fraud delineated by the type of fraud: claimant, employer, provider, agent, or other;
- The number of fraud referrals submitted to the Bureau of Workers' Compensation Fraud for the prior year;
- A description of the organization's anti-fraud investigative unit, if applicable, including the position titles and descriptions of staffing;
- The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit, which may include objective criteria such as number of policies written, number of claims received on an annual basis, volume of suspected fraudulent claims currently being detected, other factors, and an assessment of optimal caseload that can be handled by an investigator on an annual basis;
- The in-service education and training provided to underwriting and claims personnel to assist in identifying and evaluating instances of suspected fraudulent activity in underwriting or claims activities; and

[25] *See* http://www.fldfs.com/Division/DIFS/resources/documents/2014-15_Annual-Report.pdf (last accessed March 29, 2017).
[26] Section 626.9891(1), F.S.
[27] Section 626.9891(2), F.S.
[28] Section 626.9891(3), F.S.

- A description of a public awareness program focused on the costs and frequency of insurance fraud and methods by which the public can prevent it.[29]

If an insurer fails to comply with the requirements for anti-fraud units or anti-fraud plans or fails to comply with other provisions of law, the DFS, Office of Insurance Regulation, or Financial Services Commission may impose certain administrative fines.[30]

CS/SB 1012: Insurer Anti-fraud Efforts

CS/SB 1012, which is linked to this bill, revises the reporting requirements and requires all insurance companies to file statistical information with the division. Each insurer must adopt an anti-fraud plan or contract with others to investigate possible fraud. Each insurer must also establish a unit to investigate possible fraud or contract with others to investigate possible fraud. Each insurer must electronically file with the division a detailed description of the unit established to investigate possible fraudulent insurance acts or a copy of the contract with the company that investigates fraudulent insurance acts for the insurer.

The anti-fraud plan must include:
- An acknowledgement that the insurer has established procedures for detecting and investigating possible fraudulent insurance acts relating to the different types of insurance written by that insurer;
- An acknowledgment that the insurer has established procedures for the mandatory reporting of possible fraudulent insurance acts to the division;
- An acknowledgement that the insurer provides anti-fraud education and training to its anti-fraud investigative unit;
- A description of the anti-fraud education and training;
- A description or chart of the insurer's anti-fraud investigative unit, including position titles and descriptions of staffing; and
- The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit, which may include objective criteria, such as the number of policies written, the number of claims received on an annual basis, the volume of suspected fraudulent claims detected on an annual basis, an assessment of the optimal caseload that one investigator can handle on an annual basis, and other factors.

CS/SB 1012 also requires each insurer to report data related to fraud to the DFS by March 1, 2019, and annually thereafter for each line of insurance written by the insurer during the prior calendar year. The data must include:
- The number of policies in effect;
- The amount of premiums written for policies;
- The number of claims received;
- The number of claims referred to the anti-fraud investigative unit;
- The number of other insurance fraud matters referred to the anti-fraud investigative unit that were not claim related;
- The number of claims investigated or accepted by the anti-fraud investigative unit;

[29] Section 626.9891(6), F.S.
[30] Section 626.9891(7), F.S.

- The number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit that were not claim related;
- The number of cases referred to the division;
- The number of cases referred to other law enforcement agencies;
- The number of cases referred to other entities; and
- The estimated dollar amount or range of damages on cases referred to the division or other agencies.

Currently, there is no public records exemption that applies to these specific records. The DFS suggests it is possible people could access this information and use it for criminal purposes, such as perpetuating insurance fraud or hiding from investigators.[31]

III. Effect of Proposed Changes:

The bill amends s. 626.9891, F.S., to provide that the following information is exempt from public inspection and copying:

- A description of the anti-fraud education and training;
- A description or chart of the insurer's anti-fraud investigative unit, including position titles and descriptions of staffing;
- The rationale for the level of staffing and resources being provided for the anti-fraud investigative unit, which may include objective criteria, such as the number of policies written, the number of claims received on an annual basis, the volume of suspected fraudulent claims detected on an annual basis, an assessment of the optimal caseload that one investigator can handle on an annual basis, and other factors;
- The number of claims referred to the anti-fraud investigative unit;
- The number of other insurance fraud matters referred to the anti-fraud investigative unit that were not claim related;
- The number of claims investigated or accepted by the anti-fraud investigative unit;
- The number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit that were not claim related; and
- The estimated dollar amount or range of damages on cases referred to the division or other agencies.

The exemptions created by the bill apply to records held before, on, or after the effective date of the exemption.

The exemptions created by the bill are subject to the Open Government Sunset Review Act and will stand repealed on October 2, 2022, unless reviewed and saved from repeal by the Legislature.

The bill provides a public necessity statement. The bill notes that public disclosure of fraud detection strategies utilized by insurers would allow criminal elements to use this information to commit insurance fraud. Public disclosure of measures taken by insurers to deter fraud could

[31] Department of Financial Services, *Senate Bill 1014 Fiscal Analysis* (March 8, 2017) (on file with the Senate Appropriations Committee).

injure a business in the marketplace by providing competitors with company statistics and insights into claim investigation processes.

The provisions of this bill cite statutory changes made by CS/SB 1012. This bill becomes effective at the same time CS/SB 1012 or similar legislation takes effect.

IV. Constitutional Issues:

A. Municipality/County Mandate Restrictions:

None.

B. Public Records/Open Meetings Issues:

Vote Requirement

Article I, s. 24(c) of the State Constitution requires a two-thirds vote of the members present and voting for final passage of a newly created or expanded public records exemption. Because the bill creates a public records exemption, the State Constitution requires passage by a two-thirds vote in each house of the Legislature.

Public Necessity Statement

Article I, s. 24(c) of the Florida Constitution requires a public necessity statement for a newly created public record exemption. The bill creates a public record exemption. The bill includes a public necessity statement.

Breadth of Exemption

Article I, s. 24(c) of the Florida Constitution requires a newly created public record exemption to be no broader than necessary to accomplish the stated purpose of the law.

The bill creates a public records exemption for certain information maintained by insurers and specified data submitted to the DFS by insurers to comply with insurance fraud prevention and reporting requirements. As such, the exemption does not appear to be in conflict with the constitutional requirements that it be no broader than necessary to accomplish its purpose.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

None.

B. Private Sector Impact:

Taxpayers may benefit from the DFS's increased ability to detect and prevent fraud.[32]

C. Government Sector Impact:

The DFS does not anticipate an impact to state funds or expenditures.[33]

VI. Technical Deficiencies:

None.

VII. Related Issues:

None.

VIII. Statutes Affected:

This bill substantially amends section 626.9891 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Banking and Insurance on April 3, 2017:
The bill narrows the public records exemption and specifies the information that is exempt. The original bill exempted the entire anti-fraud plan rather than specific information from that plan that could damage insurers.

B. Amendments:

None.

[32] Florida Department of Financial Services, *Senate Bill 1014 Analysis* (March 8, 2017) (Copy on file with the Senate Governmental Oversight and Accountability Committee).
[33] Department of Financial Services, *Senate Bill 1014 Fiscal Analysis* (March 8, 2017) (on file with Senate Appropriations Committee).

By the Committee on Banking and Insurance; and Senator Brandes

A bill to be entitled

An act relating to public records; amending s. 626.9891, F.S.; providing an exemption from public records requirements for reports, documents, or other information relating to the investigation and tracking of insurance fraud submitted by insurers to the Department of Financial Services; providing for future legislative review and repeal of the exemption; providing retroactive applicability; providing a statement of public necessity; providing a contingent effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Subsection (10) is added to section 626.9891, Florida Statutes, to read:

626.9891 Insurer anti-fraud investigative units; reporting requirements; penalties for noncompliance.—

(10)(a) The information submitted to the department pursuant to paragraphs (3)(d), (e), and (f) and paragraphs (5)(d), (e), (f), (g), and (k) is exempt from s. 119.07(1) and s. 24(a), Art. I of the State Constitution.

(b) This subsection is subject to the Open Government Sunset Review Act in accordance with s. 119.15 and shall stand repealed on October 2, 2022, unless reviewed and saved from repeal through reenactment by the Legislature.

(c) This exemption applies to records held before, on, or after the effective date of this exemption.

Section 2. (1) The Legislature finds that it is a public

necessity to make exempt from s. 119.07(1), Florida Statutes, and s. 24(a), Article I of the State Constitution the description of an insurer's anti-fraud education and training, the description of an insurer's anti-fraud investigative unit, and an insurer's rationale for the level of staffing and resources it provides to the anti-fraud investigative unit as required in s. 626.9891(3)(d), (e), and (f), Florida Statutes, and filed with the Division of Investigative and Forensic Services pursuant to s. 626.9891(2), Florida Statutes, and the data collected and reported to the Division of Investigative and Forensic Services pursuant to s. 626.9891(5)(d), (e), (f), (g), and (k), Florida Statutes.

(2) The description of an insurer's anti-fraud education and training that assists in identifying and evaluating instances of suspected fraudulent insurance acts, the description of an insurer's anti-fraud investigative unit, and an insurer's rationale for the level of staffing and resources it provides to the anti-fraud investigative unit will allow the Department of Financial Services to ensure that insurers have adequate procedures in place to properly detect, investigate, and report potential insurance fraud. The public disclosure of this information would allow criminal elements to use such information to identify fraud prevention or detection strategies employed by insurers and use this information to commit insurance fraud. The Legislature further finds that disclosure of this information would allow persons suspected of fraud to be alerted to a potential or ongoing investigation and alter behavior to impede an investigation. To ensure the integrity of such records already in the possession of the department, this

exemption is made retroactive in its application.

(3) The data submitted pursuant to s. 626.9891(5)(d), (e), (f), (g), and (k), Florida Statutes, allow the department to track and assess trends in insurance fraud in this state. Such information includes the number of claims referred to the anti-fraud investigative unit, the number of matters referred to the anti-fraud investigative unit which were not claim-related, the number of claims investigated or accepted by the anti-fraud investigative unit, the number of other insurance fraud matters investigated or accepted by the anti-fraud investigative unit which were not claim-related, and the estimated dollar amount or range of damages on cases referred to the Division of Investigative and Forensic Services or other agencies. The public disclosure of this information could injure a business in the marketplace by providing its competitors with detailed insights into the claim investigation processes and statistics of the company, thereby diminishing the advantage that the business maintains over competitors that do not possess such information. Without this exemption, insurers might refrain from providing accurate and unbiased data, thus impairing the department's ability to track and assess insurance fraud in this state. This data will allow insurance fraud investigators to better track, predict, and curb fraud trends in this state by providing access to data gathered by insurers' anti-fraud investigative units. Information regarding the amount of insurance fraud experienced, referred, and addressed internally will be valuable material for the department and will better enable law enforcement agencies to assist state prosecutors in the successful prosecution of fraudulent behavior.

Section 3. This act shall take effect on the same date that CS/SB 1012 or similar legislation takes effect, if such legislation is adopted in the same legislative session or an extension thereof and becomes a law.

COMMITTEE SUBSTITUTE - Substantial Changes

I. Summary:

CS/SB 1312 amends various provisions of the Florida Statutes relating to construction and the Florida Building Code. Specifically, the bill:

- Requires the Department of Business and Professional Regulation (DBPR) to use $150,000 from the surcharge assessed on building permits to fund, for the 2017-2018 fiscal year, the University of Florida School of Construction Management continuation of the Construction Industry Workforce Taskforce (CIWT);
- Requires professional engineers to disclose whether they have professional liability insurance and, if so, the limits of the policy prior to contracting for engineering;
- Provides that a professional engineer may certify solar energy systems in lieu of the Florida Solar Energy Center;
- Provides that a pool/spa contractor is not required to subcontract electrical work relating to the installation, replacement, disconnection or reconnection of power wiring of the load side of the dedicated existing electrical disconnecting means, but is required to subcontract certain work related to the circuit breaker;
- Prohibits a political subdivision from adopting or enforcing ordinances or building permit requirements that conflict with corporate trademarks, service marks, logos, color patterns or other corporate branding on real property in connection with business activities related to the sale of liquid fuels or other franchises; providing for preemption of certain local laws and regulations; and providing for retroactive applicability;
- Requires the Florida Building Commission to:

  - Amend the Florida Building Code-Energy Conservation to eliminate duplicative commissioning reporting requirements for HVAC and electrical systems;
  - Authorize commissioning reports to be provided by a licensed design professional, electrical engineer, or mechanical engineer; and
  - Adopt certain standards relating to the substitution of components for residential exterior doors;
- Prohibits the Florida Building Commission from adopting national energy conservation standards related to automatic lights;
- Prohibits special or independent districts from requiring the payment of additional fees, charges, or expenses related to providing proof of licensure and insurance coverage;
- Prohibits a county, municipality, special taxing district, public utility, or private utility from:
  - Requiring a separate water connection for a fire sprinkler system for a one-family or two-family dwelling if the dwelling's original water connection can meet the needs of the sprinkler system; or
  - Except under specified circumstances, charging a water or sewer rate for a larger water meter for a one-family or two-family dwelling because of the installation of a fire sprinkler system above that which is charged to a one-family and two-family dwelling with a base meter.
- Prohibits a local government from requiring an owner of a residence to obtain a permit to paint the residence, regardless of whether the residence is owned by a limited liability company;
- Includes municipal gas utilities in the exemption from construction contracting licensure requirements for public utilities;
- Requires the Department of Education, in conjunction with the Department of Economic Opportunity, to create a study to implement the recommendations of the CIWT report dated January 20, 2017. The Department of Education must provide the study to the Governor, the President of the Senate, and the Speaker of the House of Representatives before January 9, 2018;
- Requires CareerSource Florida, Inc., to fund construction training programs using existing federal funds awarded to the corporation for training, and to use the previous statewide Florida ReBuilds program as an implementation model for such programs;
- Provides that the Florida Department of Education and the Florida Department of Economic Opportunity must develop a plan to implement the recommendations of the CIWT report, and submit the plan to the Taskforce by July 1, 2018;
- Provides that CareerSource Florida, Inc., must develop a plan to implement the recommendations of the Construction Industry Workforce Taskforce using existing federal funds and the Florida ReBuilds implementation model, and submit the plan to the Taskforce by July 1, 2018;
- Revises the process by which the Florida Building Code will be adopted such that the commission shall use the I-Codes, the National Electric Code, or other nationally adopted model codes and standards for updates to the Florida Building Code and shall review the most current updates of such codes;
- Requires the commission to adopt any provision from the International Code Council I-Codes (I-Codes), the National Electrical Code, or any other code necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal

Emergency Management Agency, and the United States Department of Housing and Urban Development;
- Provides that a technical advisory committee must receive a two-thirds vote, rather than a three-fourths vote, of the members present at the meeting in order to make a favorable recommendation to the commission;
- Provides that a technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government is not rendered void when the Florida Building Code is updated if the amendment is necessary to protect or provide for more efficient use of water resources. However, any carried forward technical amendment is subject to review or modification under certain circumstances; and
- Requires the commission to adopt the Florida Building Code by a two-thirds vote of the members present.

The bill has a negative fiscal impact on state revenues and expenditures. The impact on local governments is indeterminate, but most likely insignificant. *See* Section V. Fiscal Impact Statement.

II. Present Situation:

The Florida Building Code and the Florida Building Commission

In 1974, Florida adopted a state minimum building code law requiring all local governments to adopt and enforce a building code that would ensure minimum standards for the public's health and safety. Four separate model codes were available that local governments could consider and adopt. In that system, the state's role was limited to adopting all or relevant parts of new editions of the four model codes. Local governments could amend and enforce their local codes, as they desired.[1]

In 1996, a study commission was appointed to review the system of local codes created by the 1974 law and to make recommendations for modernizing the entire system. The 1998 Legislature adopted the study commission's recommendations for a single state building code and an enhanced oversight role for the state in local code enforcement. The 2000 Legislature authorized implementation of the Florida Building Code, and that first edition replaced all local codes on March 1, 2002. In 2004, for the second edition of the Florida Building Code, the state adopted the International Code Council I-Codes (I-Codes).[2] All subsequent Florida Building Codes have been adopted utilizing the I-Codes as the base code. The most recent Florida Building Code is the fifth edition, which is referred to as the 2014 Florida Building Code. The 2014 Florida Building Code went into effect June 30, 2015.[3]

[1] The Florida Building Commission Report to the 2006 Legislature, *Florida Department of Community Affairs,* p. 4, *available at* http://www.floridabuilding.org/fbc/publications/2006_Legislature_Rpt_rev2.pdf (last visited Apr. 18, 2017).
[2] The International Code Council (ICC) is an association that develops model codes and standards used in the design, building, and compliance process to "construct safe, sustainable, affordable and resilient structures." The ICC publishes I-Codes: a complete set of model comprehensive, coordinated building safety and fire prevention codes, for all aspects of construction, that have been developed by ICC members. All 50 states have adopted the I-Codes.
[3] Florida Building Commission Homepage, https://floridabuilding.org/c/default.aspx (last visited Apr. 18, 2017).

The commission was statutorily created to implement the Florida Building Code. The commission, which is housed within the DBPR, is a 27-member technical body responsible for the development, maintenance, and interpretation of the Florida Building Code. The commission also approves products for statewide acceptance. Members are appointed by the Governor and confirmed by the Senate and include design professionals, contractors, and government experts in the various disciplines covered by the Florida Building Code.[4]

Most substantive issues before the commission are vetted through a workgroup process. Consensus recommendations are developed and submitted by appointed representative stakeholder groups in an open process with several opportunities for public input.

According to the commission:

> General consensus is a participatory process whereby, on matters of substance, the members strive for agreements which all of the members can accept, support, live with or agree not to oppose. In instances where, after vigorously exploring possible ways to enhance the members' support for the final decision on substantive decisions, and the Commission finds that 100 percent acceptance or support is not achievable, final decisions require at least 75 percent favorable vote of all members present and voting.[5]

Building Code Cycle

Under s. 553.73(7)(a), F.S., the commission must update the Florida Building Code every three years. When updating the Florida Building Code, the commission is required to use the most current version of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, the International Residential Code, and the International Electrical Code. These I-Codes form the foundation codes of the updated Florida Building Code.

Any amendments or modifications to the foundation codes found within the Florida Building Code remain in effect only until the effective date of a new edition of the Florida Building Code, every three years.[6] At that point, the amendments or modifications to the foundation codes are removed, unless the amendments or modifications are related to state agency regulations or are related to the wind-resistance design of buildings and structures within the high-velocity hurricane zone of Miami-Dade and Broward Counties, which are carried forward into the next edition of the Florida Building Code.

When a provision of the current Florida Building Code is not part of the foundation codes, an industry member or another interested party must resubmit the provision to the commission

[4] Section 553.74, F.S.
[5] Florida Building Commission, Florida Building Commission Consensus-Building Process, *available at* http://www.floridabuilding.org/fbc/commission/FBC_0608/Commission/FBC_Discussion_and_Public_Input_Processes.htm (last visited Apr. 18, 2017).
[6] Section 553.73(7)(g), F.S.

during the Florida Building Code adoption process in order to be considered for the next edition of the Florida Building Code.[7]

Amendments between Cycles

Section 553.73(8), F.S., authorizes the commission to approve amendments pursuant to the rule adoptions procedure in ch. 120, F.S., which are needed to address:

- Conflicts within the updated Florida Building Code;
- Conflicts between the updated Florida Building Code and the Florida Fire Prevention Code adopted pursuant to ch. 633, F.S.;
- Unintended results from the integration of the previously adopted Florida-specific amendments;
- Equivalency of standards;
- Changes to or inconsistencies with federal or state law; or
- Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to stakeholders or otherwise threatens the public health, safety, and welfare.

However, the commission may not approve amendments that would weaken the construction requirements relating to wind resistance or the prevention of water intrusion.

The commission may also approve technical amendments to the Florida Building Code once a year for statewide or regional application if the amendment:[8]

- Is needed in order to accommodate the specific needs of Florida;
- Has a reasonable and substantial connection with the health, safety, and welfare of the general public;
- Strengthens or improves the Florida Building Code, or in the case of innovation or new technology, will provide equivalent or better products or methods or systems of construction;
- Does not discriminate against materials, products, methods, or systems of construction of demonstrated capabilities; and
- Does not degrade the effectiveness of the Florida Building Code.

The 6th Edition of the Florida Building Code

The commission is currently conducting its rule development process for the 6th Edition of the Florida Building Code. Under s. 553.73(7)(e), F.S., a rule updating the Florida Building Code does not take effect until six months after the publication of the updated Florida Building Code. The 6th Edition of the Florida Building Code is tentatively expected to go into effect on December 31, 2017.[9]

[7] Section 553.73(7)(g), F.S.
[8] Section 553.73(9), F.S.
[9] 6th Edition (2017) FBC Code Update Development Tasks, *available at* http://www.floridabuilding.org/fbc/thecode/2017_Code_Development/Timelines/FBC_WorkplanOption1-2015.pdf (Last visited Apr. 18, 2017).

The 6th Edition of the Florida Building Code will incorporate the latest version of the I-Codes (2015). The next edition of the I-Codes will be the 2018 I-Codes.

Voting Processes for the Technical Advisory Committees and the Commission

Under s. 553.73(3)(b), F.S., in order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a three-fourths vote of the members present at the meeting, and at least half of the regular members must be present in order to conduct the meeting.

The Florida Administrative Code, under 61G20-2.002(7), F.A.C., provides a similar requirement for votes taken by the commission. Specifically, the provision provides that "the decision of the commission to approve a proposed amendment shall be by 75 percent vote. Those proposals failing to meet the vote requirement shall not be adopted."

Solar Energy Systems

Florida Solar Energy Center

The Florida Statutes require that all solar energy systems[10] manufactured or sold in the state must meet standards established by the Florida Solar Energy Center (FSEC or center).[11] To accomplish this, the Florida Statutes require the FSEC to:

- Identify the most reliable designs and types of solar energy systems by consulting with people in research centers who are engaged in researching and experimenting with solar energy systems;
- Develop and promulgate standards for solar energy systems;
- Establish criteria for testing the performance of solar energy systems; and
- Maintain the necessary capability for testing or evaluating performance of solar energy systems.[12]

The FSEC may accept test results from other persons or entities if the tests are conducted according to the criteria established by the center and if the testing entity does not have a vested interest in the manufacture, distribution, or sale of solar energy systems.[13]

The FSEC also accepts standards and certifications for solar thermal products from the Solar Rating and Certification Program (SRCC) and the International Association of Plumbing and Mechanical Officials (IAPMO).[14]

---

[10] The term "solar energy systems" means equipment that collects and uses incident solar energy for water heating, space heating or cooling, or other applications which normally require a conventional source of energy such as petroleum products, natural gas, or electricity, and which performs primarily with solar energy. If solar energy is used in a supplemental way, only those components that collect and transfer solar energy are included. Section 377.705(3)(b), F.S.
[11] Section 377.705(4), F.S.
[12] *Id.*
[13] *Id.*
[14] Florida Solar Energy Center, *Testing and Certification*, http://www.fsec.ucf.edu/En/certification-testing/index.htm. SRCC produces solar thermal standards and certifications that are used globally. Solar Rating & Certification Corporation, *About Us – General*, http://www.solar-rating.org/about/general.html. IAPMO certifies solar thermal products for use in North America.

In 2009, the Office of Program Policy Analysis & Government Accountability (OPPAGA) reported that FSEC had a two-year backlog for testing and certifying solar energy systems, adversely affecting both manufacturers and citizens.[15] However, in 2011, OPPAGA reported that the FSEC had eliminated the backlog and testing times were down to 129 days due to streamlined testing procedures.[16]

Professional Engineers

Current law provides that only professional engineers or licensed engineers may practice engineering in Florida. Engineers are regulated by the Florida Board of Professional Engineers (Board). The Board is responsible for reviewing applications, administering exams, licensing qualified applicants, and regulating and enforcing the proper practice of engineering in the state. The Board is comprised of 11 members appointed by the Governor and meets six times a year.[17] Administrative, investigative, and prosecutorial services are provided to the Board by the Florida Engineers Management Corporation (FEMC).[18] FEMC is a non-profit, single purpose corporation that operates through a contract with the Department of Business and Professional Regulation (DBPR).

In order to obtain licensure as a professional engineer, applicants must pass a fundamentals examination and a principles and practice examination, have good moral character, obtain a degree from a four year engineering curriculum, and have four years of engineering experience.[19]

Current law does not require professional engineers to maintain professional liability insurance unless the engineer is performing building inspection services.[20] A professional engineer is also not required to disclose to a client whether they maintain professional liability insurance. If the professional engineer does have professional liability insurance, they are not currently required to disclose the limits of such policy.

Construction Industry Workforce Taskforce Recommendations

In 2016, the Legislature created the Construction Industry Workforce Taskforce (CIWT) to address the construction industry labor force shortage in the state.[21] The CIWT proposed a list of

[20] Section 471.033(1), F.S.

[21] Chapter 2016-129, Laws of Fla.

recommendations to remediate the shortage of construction industry workers, including recommending that the Legislature:

- Expand the definition of a Local Educational Agency (LEA), as used in apprenticeship programs in Florida, to include institutions other than public schools, such as private training organization (for profit and nonprofit), labor unions, industry trade associations, or other community based organizations;
- Create a legislative study to consider the appropriateness of moving apprenticeship programs from the Department of Education (DOE) to the Department of Economic Opportunity (DEO), and to address and clarify how current apprenticeships are funded from the state to the LEAs and what options the LEAs have in how they spend apprenticeship funding;
- Require the DOE to recognize the National Center for Construction Education and Research curriculum, or other comparable national curriculum, as eligible for high school credits, college credits, and state supported scholarships (e.g., Bright Futures Scholarship Program);
- Provide additional state Career and Technical Education (CTE) support to be directed towards K-12 programs so that "shop" or other construction related programs are added back into CTE programs;
- Extend for four additional years the "sunset" timeframe for CIWT and provide funding of $100,000 per year and a mechanism to obtain matching funds to continue to coordinate CIWT. Funding will be used to continue data collection and analysis, ongoing economic impact studies, and subsequent strategies, implementation planning, and follow up;
- Direct CareerSource Florida, Inc., (CSF) to set aside existing federal training dollars for construction training programs using the previous state-wide Florida reBuilds Initiative (FRI) as an implementation model;
- Provide funding from the existing DBPR "Building Permit Surcharge" trust fund that is dedicated to better code compliance through the recruitment and training of a qualified workforce;
- Allow for an alternative instructor certification process through the DOE that does not require certification through an LEA;
- Create a joint legislative audit committee to review compliance regarding use of building permit fees beyond the scope of supporting the building department activities; and
- Support the Building Officials Association of America, Inc., in the development of initiatives to further opportunities for potential building code enforcement professionals.[22]

CareerSource Florida, Inc.

CSF is a not-for-profit corporation administratively housed within the DEO and is the principal workforce policy organization for the state. CSF designs and implements strategies that help Floridians enter, remain in, and advance in the workplace. CSF procures and disburses funds for workforce development.[23]

Florida reBuilds Initiative

The FRI was a program formed in 2005 to counter the growing shortage of construction workers. The former Florida Agency for Workforce Innovation (AWI) performed a survey of 50,000

[22] University of Florida, Florida Construction Workforce Taskforce 9-10 (January 27, 2017), http://www.cce.ufl.edu/projects/current-projects/construction-workforce-taskforce/reports/.
[23] Section 445.004, F.S.

employers, which identified 13,712 construction job vacancies. In order to tackle the issue, AWI sought to provide individuals with short-term, entry-level training to enable them to enter into the construction trades.[24]

The FRI targeted areas for training programs were:

- Air Conditioning, Refrigeration, and Heating Technology (maximum of 240 class hours);
- Carpentry (maximum of 120 class hours);
- Dry wall (maximum of 120 class hours);
- Electricity (maximum of 240 class hours);
- Masonry (maximum of 80 class hours);
- Plumbing (maximum of 180 class hours); and
- Roofing (maximum of 120 class hours).

Participants were eligible for the FRI programs if they were 18 years of age, a United States citizen, and willing to commit to attend the full program. If an eligible participant registered for the program, they were entered into a database run by a regional workforce made available to educational providers. Once the educational provider recruited enough eligible participants and was authorized by AWI to begin the program, the participants were enrolled in classes lasting up to eight weeks.

The educational providers were reimbursed $9 per class hour, up to the maximum hours identified per program area. Regional workforce boards were paid $25 per participant in an approved program and $250 per participant who was placed on a job site within 90 days of the program completion.[25]

DBPR Building Permit Surcharge Trust Fund

Section 553.721, F.S., requires all local building departments assess and collect a 1.5 percent surcharge on any building permit issued by their agency for the purpose of enforcing the Florida Building Code. The surcharge assessment is paid directly by the individual or construction professional pulling the permit and is generally passed on to consumers through increased costs for construction. The local jurisdictions collect the assessment and remit the surcharge fees to the DBPR to fund the activities of the Florida Building Commission and the DBPR's Office of Codes and Standards. Local building departments are permitted to retain 10 percent of the surcharge amount they collect to fund participation of their agencies in the national and state building code adoption processes and to provide education related to enforcement of the Florida Building Code.

Building Commissioning Reporting Requirements, Automatic Lights and Door Components

Building Commissioning Reports

The Florida Building Code defines "building commissioning" to mean that selected building systems have been designed, installed, and function according to the owner's project requirements, construction documents, and the minimum requirements of the Florida Building Code.[26] Commissioning reports are performed by registered design professionals. A registered design professional is anyone licensed in Florida as an architect, landscape architect, professional engineer, or a land surveyor and mapper.[27]

Section C408 of the fifth edition of the Florida Building Code (Energy Conservation) requires a commercial building to receive a commissioning report prior to receiving a passing mechanical final inspection. Heating, ventilation, air conditioning, and the lighting systems are tested in the report. The commissioning report includes:

- A commission plan which includes:
  - A description of the activities to accomplish in the report including the personnel intended to accomplish the activities;
  - A listing of the equipment, appliances, or systems to be tested, and a description of the tests to be performed;
  - The functions to be tested;
  - Conditions under which the test will be performed; and
  - Measurable criteria for performance.
- A preliminary report of tests and results which must identify:
  - Deficiencies found during testing that have not been corrected; and
  - Tests that cannot be performed because of climate conditions and the conditions required to perform the tests.
- A final report which includes:
  - Test results;
  - Disposition of deficiencies found during testing; and
  - A test procedure used for repeatable testing outcomes.[28]

Door components

Door components are the items such as the hinge, lockset, weatherstrip, trim, and rails that make up a door.

Section R612.9 of the fifth edition of the Florida Building Code (Residential) provides that residential door components may be substituted or interchanged in exterior door assemblies if the components have been approved by an approved product evaluation entity, certification agency, testing laboratory or engineer, and the door components provide equal or greater structural performance as demonstrated by accepted engineering practices.[29]

[26] Section C202 of the 5th edition of the Florida Building Code (Energy Conservation).
[27] Section 725.08(4), F.S.
[28] Section C408 of the 5th edition of the Florida Building Code (Energy Conservation).
[29] Section R612.9 of the 5th edition of the Florida Building Code (Residential).

American National Standards Institute and World Millwork Alliance

The American National Standards Institute (ANSI) is a non-profit organization that aims to strengthen the U.S. market place, protect the environment, and assure the safety and health of consumers by creating and promulgating thousands of standards and guidelines.[30]

The World Millwork Alliance (WMA) is a wholesale distribution association dedicated to the progression and prosperity of the millwork industry.[31] The WMA also develops standards and is accredited by ANSI. In 2009, the WMA developed the WMA 100, a voluntary performance standard for side-hinged exterior doors. The WMA 100:

- Is approved by ANSI;
- Uses the ASTM E330 test method to obtain a full system design pressure rating;
- Defines methods for qualifying door system components for substitution in the rated system; and
- Outlines slab stiffness testing procedures for use in determining component substitution.[32]

The ASTM E330 test is designed by the American Society for Testing and Materials International, and is a standard for determining the effects of a wind load on exterior building surface elements.[33] The fifth edition of the Florida Building Code (Residential) requires exterior doors with side hinges to either conform to the AAMA/WDMA/CSA 101/I.S.2/A440 or the ASTM E330.[34]

American Society of Heating, Refrigerating and Air-Conditioning Engineers Standard

The American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) is a society founded in 1894 that focuses on improving building systems, energy efficiency, indoor air quality, and refrigeration through research publishing, continuing education, and standards.[35]

The AHSRAE energy conservation standard for buildings that are not low-rise residential buildings is Standard 90.1-2016 (Standard 90). Section 9.4.1.1(g) of Standard 90 provides that the general lighting power in an enclosed area of a building must automatically reduce by 50 percent within 20 minutes of all occupants leaving the area.[36]

The most current version of the Florida Building Code adopted the 2010 version of Standard 90.[37] However, the 2010 version of Standard 90 does not include Section 9.4.1.1(g).[38] The draft

of the 6th edition of the Florida Building Code (2017) does contain provisions that adopt this requirement.[39]

Local Ordinances, Building Permits and Sign Requirements

Florida has adopted a uniform building code in accordance with s. 553.72, F.S. Section 553.79, F.S., as part of the Florida Building Codes Act, has provisions relating to permits, applications, issuance, and inspections pertaining to the Florida Building Code. Local jurisdictions ensure compliance with the Florida Building Code.

Local jurisdictions may set requirements for signs, and sign placement for local businesses by local ordinance.

The Florida Department of Agriculture and Consumer Services regulates gasoline service stations in accordance with ch. 526, F.S. There are approximately 9,000 gasoline stations within Florida.

Federal franchise laws give prospective purchasers of franchises material information needed to weigh risks and benefits of such investments. The Federal Trade Commission's regulations, 16 C.F.R. ss. 436.1, et. seq., require franchisors to provide all potential franchisees with a disclosure document containing 23 specific items of information about the offered franchise, its officers, and other franchisees. The Florida Franchise Act, s. 817.416, F.S., provides a private right of action to a civil litigant when a person makes certain misrepresentations related to franchises. Florida does not currently regulate private rights to contract related to franchising. Florida limits franchise regulation to antifraud, unfair trade practices, and creating rights for violations of federal franchise disclosure laws.

Local Government Fees

Section 553.80, F.S., provides that, except for construction regarding correctional and mental health facilities, elevators, storage facilities, educational institutions, and toll collection facilities, each local government and each legally constituted enforcement district with statutory authority shall regulate building construction. Section 553.80(7), F.S., authorizes local governments to provide a schedule of consistent reasonable fees to be used solely for carrying out the local government responsibilities in enforcing the Florida Building Code. The basis for the fee structure must relate to the level of service provided by the local government.

Local governments have created fee schedules to be submitted by contractors at the time of application for a building permit. These fees include inspection fees, plan examination fees, site examination fees, building permit fees (based on square footage of the building), and various administrative fees including re-permitting fees, time extension fees, re-inspection fees, and licensing fees.

Local governments may not require additional fees for:

[39] Department of Business and Professional Regulation, Bill Analysis for HB 1021, (Similar to SB 1312), dated March 28, 2017.

- Providing proof of licensure pursuant to ch. 489, F.S.;
- Recording or filing a license issued; and
- Providing, recording, or filing evidence of workers' compensation insurance coverage required by ch. 440, F.S.[40]

Fire Prevention and Control

Florida's fire prevention and control law, ch. 633, F.S., designates the Chief Financial Officer as the State Fire Marshal. The State Fire Marshal, through the Division of State Fire Marshal within the Department of Financial Services, is charged with enforcing the provisions of ch. 633, F.S., and all other applicable laws relating to fire safety and has the responsibility to minimize the loss of life and property in this state due to fire.[41]

One of the duties of the State Fire Marshal is to adopt by rule the Florida Fire Prevention Code (FFPC), which contains all fire safety laws and rules that pertain to the design, construction, erection, alteration, modification, repair, and demolition of public and private buildings, structures, and facilities and the enforcement of such fire safety laws and rules, at ch. 69A-60, F.A.C. The State Fire Marshal adopts a new edition of the FFPC every three years.[42]

State law requires all municipalities, counties, and special districts with fire safety responsibilities to enforce the FFPC as the minimum fire prevention code to operate uniformly among local governments and in conjunction with the Florida Building Code. These local enforcing authorities may adopt more stringent fire safety standards, subject to certain requirements in s. 633.208, F.S., but may not enact fire safety ordinances that conflict with ch. 633, F.S., or any other state law.[43]

Construction Contracting Exemption for Public Utilities

Construction contractors are licensed and regulated under Part I of ch. 489, F.S., which provides that it is "necessary in the interest of the public health, safety, and welfare to regulate the construction industry." Construction contracting essentially means building or altering a structure for compensation.

In order to perform construction contracting a person must be licensed as a contractor, an employee of a contractor, or fall under one of the exemptions to licensure. Employees of a public utility are exempt from licensure. Public utilities include special gas districts, telecommunications companies, and natural gas transmission companies, "performing construction, maintenance, or development work, which includes, but is not limited to, work on bridges, roads, streets, highways, railroads, or work incidental to their business." Current law requires the DBPR to create a rule to define "work incidental to their business."[44]

[40] Section 553.80(7), F.S.
[41] Section 633.104, F.S.
[42] Section 633.202, F.S.
[43] Sections 633.108, 633.208, and 633.214(4), F.S.
[44] Section 489.103(5), F.S.

The DBPR defined by rule "incidental to their business" to mean work performed exclusively on the supply side of the end use metering device, and excludes all work on the commercial side, house side, or customer side of the end use metering device except for inspections for leaks and the repair thereof, testing of water quality, ignition of pilot lights, and termination of or activation of natural gas flow.[45]

A municipal gas utility is a natural gas utility owned and/or operated by a municipality engaged in serving residential, commercial, and/or industrial customers, usually within the boundaries of the municipality. There are currently 25 municipal gas districts in Florida.[46]

Pool/Spa Contractors

Three types of pool/spa contractors may be licensed in Florida, including commercial pool/spa contractors, residential pool contractors, and swimming pool/spa servicing contractors.[47] Each type of contractor may engage in the scope of work specified s. 489.105(3), F.S., as follows:

- For commercial pool/spa contractors, the scope of work involves, but is not limited to, the *construction, repair, and servicing of any* swimming pool, or hot tub or spa, whether public, private, or otherwise, regardless of use;[48]
- For residential pool/spa contractors, the scope of work involves, but is not limited to, the *construction, repair, and servicing of a residential* swimming pool, or hot tub or spa, regardless of use;[49] and
- For swimming pool/spa servicing contractors means a contractor whose scope of work involves, but is not limited to, the *repair and servicing of a swimming pool, or hot tub or spa, whether public or private, or otherwise,* regardless of use.[50]

[45] Rule 61G4-12.011(10), F.A.C.
[46] *Id.*
[47] *See* ss. 489.105(3)(j), (k), and (l), F.S.
[48] The scope of work for commercial pool/spa contractors also includes the installation, repair, or replacement of existing equipment, any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. *See* s. 489.105(3)(j), F.S.
[49] The scope of work for residential pool/spa contractors also includes the installation, repair, or replacement of existing equipment, any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and the installation of new pool/spa equipment, interior finishes, the installation of package pool heaters, the installation of all perimeter piping and filter piping, and the construction of equipment rooms or housing for pool/spa equipment, and also includes the scope of work of a swimming pool/spa servicing contractor. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. The installation, construction, modification, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure unless the usage involves construction, modification, or replacement of such equipment. Water treatment that does not require such equipment does not require a license. *See* s. 489.105(3)(k), F.S.
[50] The scope of work includes the repair or replacement of existing equipment, any cleaning or equipment sanitizing that requires at least a partial disassembling, excluding filter changes, and the installation of new pool/spa equipment, interior refinishing, the reinstallation or addition of pool heaters, the repair or replacement of all perimeter piping and filter piping,

A license is not required for the cleaning of a pool or spa in a way that does not affect the structural integrity of the pool or spa or its associated equipment.

Specialty Swimming Pool Contractors

Specialty swimming pool contractors have limited scopes of work for the construction of pools, spas, hot tub, and decorative or interactive water displays, including:

- Swimming Pool Layout Specialty Contractors are limited to the layout, shaping, steel installation, and rough piping;
- Swimming Pool Structural Specialty Contractors are limited to the shaping and shooting of gunite, shotcrete, concrete, or similar product mix, and installation of fiberglass shells and vinyl liners;
- Swimming Pool Excavation Specialty Contractors are limited to excavation and earthmoving;
- Swimming Pool Trim Specialty Contractors are limited to the installation of tile and coping, and decorative or interactive water displays or areas that use recirculated water, including waterfalls and spray nozzles;
- Swimming Pool Decking Specialty Contractors are limited to the construction and installation of concrete flatwork, pavers and bricks, retaining walls, and footings;
- Swimming Pool Piping Specialty Contractors are limited to the installation of piping or the installation of circulating, filtering, disinfecting, controlling, or monitoring equipment and devices for pools, spas, hot tubs, and decorative or interactive water displays or areas; and
- Swimming Pool Finishes Specialty Contractors are limited to the coating or plastering of the interior surfaces.[51]

III. Effect of Proposed Changes:

Section 1 amends s. 377.705, F.S., to authorize solar systems manufactured or sold in the state to be approved by the Florida Solar Energy Center or by an engineer licensed pursuant to ch. 471, F.S., using the standards contained in the most recent version of the Florida Building Code.

Section 2 amends s. 471.033, F.S., to authorize the Board of Professional Engineers to take disciplinary action under s. 471.033(3), F.S., against a licensee who fails to disclose to a customer before contracting for engineering service whether the licensee maintains professional liability insurance and the policy limits if the licensee does maintain such insurance.

---

the repair of equipment rooms or housing for pool/spa equipment, and the substantial or complete draining of a swimming pool, or hot tub or spa, for the purpose of repair or renovation. The scope of such work does not include direct connections to a sanitary sewer system or to potable water lines. The installation, construction, modification, substantial or complete disassembly, or replacement of equipment permanently attached to and associated with the pool or spa for the purpose of water treatment or cleaning of the pool or spa requires licensure; however, the usage of such equipment for the purposes of water treatment or cleaning does not require licensure *unless the usage involves construction, modification, substantial or complete disassembly, or replacement of such equipment*. Water treatment that does not require such equipment does not require a license. *See* s. 489.105(3)(l), F.S.

[51] *See* Fla. Admin. Code R. 61G4-15.032 (2016).

Section 3 amends s. 489.103, F.S., to exempt employees of municipal gas utilities performing construction, maintenance, or development work from the contractor licensing requirements of Part I of ch. 489, F.S. The bill also removes the requirement that work done by public utility employees must be "incidental to their business" in order to qualify for the licensure exemption and removes the Department of Business and Professional Regulation's (DBPR) rulemaking authority to define the term "incidental to their business."

Section 4 amends s. 489.113, F.S., to provide that pool/spa contractors are not required to subcontract electrical work for the installation, replacement, disconnection, or reconnection of power wiring on the load side of the dedicated existing electrical disconnecting work. Current law requires that unless a contractor holds a state certificate or registration in a trade category, all electrical work must be subcontracted (as must all mechanical, plumbing, roofing, sheet metal, swimming pool, and air-conditioning work). Pool/spa contractors, however, would continue to be required to subcontract all electrical work that requires the installation, removal, replacement, or upgrading of a circuit breaker. The bill provides that the revised subcontracting requirement for pool/spa contractors does not apply to other contractor classifications or professions.

Section 5 amends s. 553.721, F.S., related to the surcharge assessed on building permits at the rate of 1.5 percent of the permit fees. The surcharge is for the DBPR's use in administering and enforcing the Florida Building Code. The bill requires the DBPR to provide $150,000 in the 2017-2018 fiscal year to the University of Florida, M.E. Rinker, Sr., School of Construction Management for the continuation of the Construction Industry Workforce Task Force (CIWT).

Section 6 amends s. 553.73, F.S., to require the Florida Building Commission (commission) to use the International Code Council, the National Electric Code (NFPA), or other nationally adopted model codes and standards for updates to the Florida Building Code. The commission shall adopt an updated Florida Building Code every three years through reviews of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, and the International Residential Code, all of which are copyrighted and published by the International Code Council, and the National Electrical Code, which is copyrighted and published by the National Fire Protection Association. At a minimum, the commission must adopt any provision from the Internation Code Council I-codes (I-Codes), the National Electric Code, or any other code that is necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development. The commission shall also review and adopt updates based substantially on the International Energy Conservation Code; however, the commission must maintain the efficiencies of the Florida Energy Efficiency Code for Building Construction pursuant to s. 553.901, F.S. The commission shall adopt updated codes by rule.

Amendments and modifications, other than local amendments under s. 553.73(4), F.S., to the Florida Building Code, will now remain effective when a new edition of the Florida Building Code is published.

In order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a two-thirds vote of the members present at the meeting. Current law requires a three-fourths vote of the members present at the meeting.

The bill also provides that a technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government is not rendered void when the Florida Building Code is updated if the amendment is necessary to protect or provide for more efficient use of water resources as provided in s. 373.621, F.S. However, any such technical amendment carried forward into the next edition of the Florida Building Code is subject to review or modification.

The bill removes references to Florida-specific amendments because the entire building code will now be Florida-specific. The bill also makes other conforming and clarifying changes in terminology.

The bill prohibits the commission from adopting the 2016 version of the American Society of Heating, Refrigerating and Air-Conditioning Engineers Standard (ASHRAE) Standard 9.4.1.1(g) or any provision that requires a door located in the opening between a garage and a residence to be equipped with a self-closing device.

Section 7 amends s. 553.76, F.S., to require the commission to adopt the Florida Building Code, and amendments thereto, by a two-thirds vote of the members present.

Section 8 amends s. 553.79, F.S., to prohibit political subdivisions of the state from adopting or enforcing ordinances, or imposing building permits or other development order requirements that:

- Contain any building, construction, or aesthetic requirement or condition that conflicts with or impairs corporate trademarks, service marks, trade dress, logos, color patterns, design scheme insignia, image standards, or other features of corporate branding identity on real property or improvements thereon used in activities conducted under ch. 526, F.S., related to the sale of liquid fuels, or in carrying out business franchise activities, as defined by Federal Trade Commission regulations in 16 C.F.R. ss. 436.1, et. seq.; or
- Impose requirements related to the design, construction or location of signage that advertises the retail price of gasoline in accordance with the requirements of ss. 526.111 and 526.121, F.S., which prevents the signage from being clearly visible and legible to drivers of approaching motor vehicles.

The bill specifies s. 553.79(20), F.S., does not affect design and construction requirements contained in the Florida Building Code. Additionally, the bill specifies all local ordinances and requirements prohibited by s. 553.79(20), F.S., are preempted and superseded and s. 553.79(20), F.S., shall apply retroactively.

Section 9 amends s. 553.791, F.S., to provide that it is the intent of the Legislature that owners and contractors not be required to pay extra costs related to building permitting requirements when hiring a private provider for plans reviews and building inspections. A local jurisdiction must calculate the cost savings to the local enforcement agency, based on a fee owner or contractor hiring a private provider to perform plans reviews and building inspections in lieu of the local building official, and reduce the permit fees accordingly.

Section 10 amends s. 553.80, F.S., related to local government fees. In addition to local enforcement agencies, independent districts and special districts are prohibited from requiring at any time, including at the time of application for a permit, the payment of any additional fees, charges, or expenses associated with:

- Providing proof of licensure pursuant to ch. 489, F.S.;
- Recording or filing a license issued pursuant to ch. 553, F.S.; or
- Providing, recording, or filing evidence of workers' compensation insurance coverage as required by ch. 440, F.S.

Section 11 creates s. 553.9081, F.S., to require the Florida Building Commission to amend the Florida Building Code-Energy Conservation to:

- Eliminate duplicative commissioning reporting requirements for HVAC and electrical systems;
- Authorize commissioning reports to be provided by a licensed design professional, electrical engineer, or mechanical engineer; and
- Prohibit the adoption of ASHRAE Standard 9.4.1.1(g).

Section 12 amends s. 633.208, F.S., on minimum firesafety standards. The bill prohibits a county, municipality, special taxing district, public utility, or private utility from:

- Requiring a separate water connection for a fire sprinkler system for a one-family or two-family dwelling if the dwelling's original water connection can meet the needs of the sprinkler system; and
- Charging a water or sewer rate for a larger water meter for a one-family or two-family dwelling because of the installation of a fire sprinkler system above that which is charged to a one-family and two-family dwelling with a base meter. However, if the installation of fire sprinklers in a one-family or two-family dwelling requires the installation of a larger water meter, only the difference in actual cost between the base water meter and the larger water meter may be charged by the water utility provider.

Section 13 prohibits a local government from requiring an owner of a residence to obtain a permit to paint a residence, regardless of whether the residence is owned by a limited liability company.

Section 14 requires the Department of Education, in conjunction with the Department of Economic Opportunity, to develop a plan to implement the recommendations of the Construction Industry Workforce Task Force Report dated January 20, 2017. The Department of Education must provide the plan to the Construction Industry Workforce Task Force on or before July 1, 2018.

Section 15 requires CareerSource Florida, Inc., to develop and submit a plan to the Construction Industry Workforce Task Force on the potential opportunities for training programs to implement the recommendations of the Construction Industry Workforce Task Force Report, using existing federal funds awarded to the corporation and using the previous State Florida ReBuilds program as an implementation model for such programs. CareerSource Florida, Inc., must provide the plan to the Construction Industry Workforce Task Force on or before July 1, 2018.

Section 16 requires the commission to adopt an amendment to the Florida Building Code-Residential, relating to door components, to provide that, relating to substitution of door components, the components must either:

- Be compliant with ANSI/WMA 100; or
- Be evaluated by an approved product evaluation entity, certification agency, testing laboratory, or engineer and may be interchangeable in exterior door assemblies if the components provide equal or greater structural performance as demonstrated by accepted engineering practices.

Section 17 provides that the bill takes effect July 1, 2017.

IV. Constitutional Issues:

A. Municipality/County Mandates Restrictions:

None.

B. Public Records/Open Meetings Issues:

None.

C. Trust Funds Restrictions:

None.

V. Fiscal Impact Statement:

A. Tax/Fee Issues:

The bill may decrease local jurisdictions ability to collect additional fees associated with applying for building permits.

B. Private Sector Impact:

Builders and building code officials may benefit from the increased continuity of the Florida Building Code and increased transparency of the updated code adoption process

Homeowners may pay less for water meters, and there may be an increase in the purchase of fire sprinkler systems for residential dwellings.

C. Government Sector Impact:

The bill requires the Department of Business and Professional Regulation (DBPR) to provide $150,000 in the 2017-2018 fiscal year to the University of Florida, M.E. Rinker, Sr., School of Construction Management for the continuation of the Construction Industry Workforce Task Force (CIWT).

The DBPR indicates that the amount of additional fees collected by local jurisdictions associated with applying for building permits maybe be reduced.[52] However, any reduction in fees is indeterminate and likely insignificant.

The Florida Building Commission (commission) will have to review each change to the International Code Council I-Codes (I-Codes) and the International Energy Conservation Code (IECC) individually rather than approving wholesale changes to the Florida Building Code. However, the DBPR stated the changes in the bill relating to the revised Florida Building Code adoption process could be accomplished with current resources.[53]

The Department of Education, in conjunction with the Department of Economic Opportunity, is directed to develop a plan to implement the recommendations of the CIWT. It is anticipated the plan can be completed within existing resources.

The bill requires CareerSource Florida, Inc., to develop and submit a plan to the CIWT for training programs to implement the recommendations of the Task Force, using existing federal funds awarded to the corporation.

CareerSource Florida receives $3 million annually in federal training dollars through the Incumbent Worker Training Program. However, CareerSource Florida's federal funds are currently directed to meet shortfalls in career fields other than construction. Redirecting the federal funds for construction training purposes could leave Florida's current need for training programs in other career fields with deficiencies.

VI. Technical Deficiencies:

None.

VII. Related Issues:

The Department of Business and Professional Regulation (DBPR) noted that its staff was unable to find any duplicative commissioning requirements in the current Florida Building Code, 5th edition (2014), or the draft Florida Building Code, 6th Edition 2017.[54] Additionally, the DBPR noted the reference in section 4 of the bill to American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) s. 9.4.1.1(g) should more properly be ASHRAE Standard 90.1-2013 s. 9.4.1.1(g).[55] Finally, the DBPR noted that Title III of the Energy Conservation and Protection Act requires that all state building codes meet certain energy conservation requirements.[56] Last year, the Florida Building Commission (commission) received certification by the Department of Energy that the commercial provisions of the draft 6th Edition, Florida Building Code (2017), Energy Conservation, met those requirements.[57] The

[52] Department of Business and Professional Regulation, Bill Analysis for HB1021, (Similar to SB 1312), at p. 6, dated March 28, 2017.
[53] *See 2017 Agency Legislative Bill Analysis (AGENCY: Department of Business and Professional Regulation)* for SPB 7000, dated January 23, 2017 at page 5.

[56] *Id.*
[57] *Id.*

draft Florida Building Code, 6th Edition (2017), Energy Conservation, may lose federal certification if the provisions incorporating ASHRAE 90.1, Section 9.4.1.1(g), are removed.[58] If the federal certification is lost, the effective date of the Florida Building Code, 6th Edition (2017), could be delayed by six months or more.[59]

VIII. Statutes Affected:

This bill substantially amends the following sections of the Florida Statutes: 377.705, 471.033, 489.103, 489.113, 553.721, 553.73, 553.76, 553.79, 553.791, 553.80, and 633.208.

The bill creates section 553.9081 of the Florida Statutes.

IX. Additional Information:

A. Committee Substitute – Statement of Substantial Changes:
(Summarizing differences between the Committee Substitute and the prior version of the bill.)

CS by Community Affairs on April 18, 2017:

- Provides that a professional engineer may certify solar energy systems in lieu of the Florida Solar Energy Center;
- Provides that a professional engineer's license may be disciplined for failing to disclose whether the engineer maintains professional liability insurance and policy limits;
- Modifies the construction contracting exemption for public utilities by providing that employees of public utilities, including municipal gas utilities, are exempt from construction contracting licensure requirements;
- Provides that a pool/spa contractor is not required to subcontract electrical work relating to the installation, replacement, disconnection or reconnection of power wiring of the load side of the dedicated existing electrical disconnecting means, but is required to subcontract certain work related to the circuit breaker;
- Prohibits the Florida Building Commission from adopting the 2016 of the ASHRAE Standard 9.4.1.1(g) relating to energy saving with lights that shut off automatically after 20 minutes; and adopting any provision that requires a door located in the opening between a garage and a residence to be equipped with a self-closing device;
- Prohibits a political subdivision from adopting or enforcing ordinances or building permit requirements that conflict with corporate trademarks, service marks, logos, color patterns or other corporate branding on real property in connection with business activities related to the sale of liquid fuels or other franchises; providing for preemption of certain local laws and regulations; and providing for retroactive applicability;
- Clarifies that it is the Legislature's intent that owners and contractors should not be required to pay twice for building plans and inspections when hiring private providers. Local jurisdictions must calculate the cost savings and reduce fees accordingly;

[58] *Id.*
[59] *Id.*

- Prohibits special or independent districts from requiring payment, at any time, of additional fees, charges, or expenses, related to providing proof of licensure and insurance coverage;
- Provides that the Florida Department of Education and the Florida Department of Economic Opportunity must develop a plan to implement the recommendations of the Construction Industry Workforce Taskforce report, and submit the plan to the Taskforce by July 1, 2018;
- Provides that CareerSource Florida, Inc., must develop a plan to implement the recommendations of the Construction Industry Workforce Taskforce using existing federal funds and the Florida ReBuilds implementation model, and submit the plan to the Taskforce by July 1, 2018;
- Provides that residential door components may be substituted in exterior door assemblies if the components are provided by an approved product evaluation entity, certification agency, testing laboratory or engineer, and the door components provide equal or greater structural performance as demonstrated by accepted engineering practices or comply with the ANSI/WMA 100;
- Revises the process by which the Florida Building Code will be adopted such that the commission shall use the I-Codes, the National Electric Code, or other nationally adopted model codes and standards for updates to the Florida Building Code and shall review the most current updates of such codes;
- Requires the commission to adopt any provision from the I-Codes, the National Electrical Code, or any other code necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development;
- Provides that a technical advisory committee must receive a two-thirds vote, rather than a three-fourths vote, of the members present at the meeting in order to make a favorable recommendation to the commission;
- Provides that a technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government is not rendered void when the Florida Building Code is updated if the amendment is necessary to protect or provide for more efficient use of water resources. However, any carried forward technical amendment is subject to review or modification under certain circumstances; and
- Requires the commission to adopt the Florida Building Code by a two-thirds vote of the members present.

B. Amendments:

None.

728698

LEGISLATIVE ACTION

Senate . House

. .

. .

. .

. .

The Committee on Appropriations (Perry) recommended the following:

Senate Amendment (with title amendment)

Between lines 172 and 173
insert:

Section 4. Paragraphs (f) and (g) of subsection (3) of section 489.105, Florida Statutes, are amended to read:

489.105 Definitions.—As used in this part:

(3) "Contractor" means the person who is qualified for, and is only responsible for, the project contracted for and means, except as exempted in this part, the person who, for

728698

compensation, undertakes to, submits a bid to, or does himself or herself or by others construct, repair, alter, remodel, add to, demolish, subtract from, or improve any building or structure, including related improvements to real estate, for others or for resale to others; and whose job scope is substantially similar to the job scope described in one of the paragraphs of this subsection. For the purposes of regulation under this part, the term "demolish" applies only to demolition of steel tanks more than 50 feet in height; towers more than 50 feet in height; other structures more than 50 feet in height; and all buildings or residences. Contractors are subdivided into two divisions, Division I, consisting of those contractors defined in paragraphs (a)-(c), and Division II, consisting of those contractors defined in paragraphs (d)-(q):

(f) "Class A air-conditioning contractor" means a contractor whose services are unlimited in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system if such duct work is performed by the contractor as necessary to complete an air-distribution system, boiler and unfired pressure vessel systems, and all appurtenances, apparatus, or equipment used in connection therewith, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping, insulation of pipes, vessels and ducts, pressure and process piping, and

728698

pneumatic control piping; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; to install, replace, or disconnect dedicated heat pump systems used for the heating of water for swimming pools or spas and the disconnection or reconnection of associated piping and electrical power wiring from the load side of the disconnects and related low voltage control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class A air-conditioning contractor may test and evaluate central air-conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

(g) "Class B air-conditioning contractor" means a contractor whose services are limited to 25 tons of cooling and 500,000 Btu of heating in any one system in the execution of contracts requiring the experience, knowledge, and skill to install, maintain, repair, fabricate, alter, extend, or design,

728698

if not prohibited by law, central air-conditioning, refrigeration, heating, and ventilating systems, including duct work in connection with a complete system only to the extent such duct work is performed by the contractor as necessary to complete an air-distribution system being installed under this classification, and any duct cleaning and equipment sanitizing that requires at least a partial disassembling of the system; to install, maintain, repair, fabricate, alter, extend, or design, if not prohibited by law, piping and insulation of pipes, vessels, and ducts; to replace, disconnect, or reconnect power wiring on the load side of the dedicated existing electrical disconnect switch; to install, disconnect, and reconnect low voltage heating, ventilating, and air-conditioning control wiring; to install, replace, or disconnect dedicated heat pump systems used for the heating of water for swimming pools or spas and the disconnection or reconnection of associated piping and electrical power wiring from the load side of the disconnects and related low voltage control wiring; and to install a condensate drain from an air-conditioning unit to an existing safe waste or other approved disposal other than a direct connection to a sanitary system. The scope of work for such contractor also includes any excavation work incidental thereto, but does not include any work such as liquefied petroleum or natural gas fuel lines within buildings, except for disconnecting or reconnecting changeouts of liquefied petroleum or natural gas appliances within buildings; potable water lines or connections thereto; sanitary sewer lines; swimming pool piping and filters; or electrical power wiring. A Class B air-conditioning contractor may test and evaluate central air-

728698

conditioning, refrigeration, heating, and ventilating systems, including duct work; however, a mandatory licensing requirement is not established for the performance of these specific services.

The Committee on Appropriations (Perry) recommended the following:

Senate Substitute for Amendment (728698) (with title amendment)

Delete lines 151 - 657
and insert:

Section 2. Subsection (5) of section 489.103, Florida Statutes, is amended to read:

489.103 Exemptions.—This part does not apply to:

(5) Public utilities, including municipal gas utilities and special gas districts as defined in chapter 189,

telecommunications companies as defined in s. 364.02(13), and natural gas transmission companies as defined in s. 368.103(4), on construction, maintenance, and development work performed by their employees~~, which work, including, but not limited to, work on bridges, roads, streets, highways, or railroads, is incidental to their business. The board shall define, by rule, the term "incidental to their business" for purposes of this subsection~~.

Section 3. Section 553.721, Florida Statutes, is amended to read:

553.721 Surcharge.—In order for the Department of Business and Professional Regulation to administer and carry out the purposes of this part and related activities, there is created a surcharge, to be assessed at the rate of 1.5 percent of the permit fees associated with enforcement of the Florida Building Code as defined by the uniform account criteria and specifically the uniform account code for building permits adopted for local government financial reporting pursuant to s. 218.32. The minimum amount collected on any permit issued shall be $2. The unit of government responsible for collecting a permit fee pursuant to s. 125.56(4) or s. 166.201 shall collect the surcharge and electronically remit the funds collected to the department on a quarterly calendar basis for the preceding quarter and continuing each third month thereafter. The unit of government shall retain 10 percent of the surcharge collected to fund the participation of building departments in the national and state building code adoption processes and to provide education related to enforcement of the Florida Building Code. All funds remitted to the department pursuant to this section

shall be deposited in the Professional Regulation Trust Fund. Funds collected from the surcharge shall be allocated to fund the Florida Building Commission and the Florida Building Code Compliance and Mitigation Program under s. 553.841. Funds allocated to the Florida Building Code Compliance and Mitigation Program shall be $925,000 each fiscal year. The Florida Building Code Compliance and Mitigation Program shall fund the recommendations made by the Building Code System Uniform Implementation Evaluation Workgroup, dated April 8, 2013, from existing resources, not to exceed $30,000 in the 2016-2017 fiscal year. The department shall provide $150,000 for the 2017-2018 fiscal year from surcharge funds available to the University of Florida M. E. Rinker, Sr., School of Construction Management for the continuation of the Construction Industry Workforce Task Force. Funds collected from the surcharge shall also be used to fund Florida Fire Prevention Code informal interpretations managed by the State Fire Marshal and shall be limited to $15,000 each fiscal year. The State Fire Marshal shall adopt rules to address the implementation and expenditure of the funds allocated to fund the Florida Fire Prevention Code informal interpretations under this section. The funds collected from the surcharge may not be used to fund research on techniques for mitigation of radon in existing buildings. Funds used by the department as well as funds to be transferred to the Department of Health and the State Fire Marshal shall be as prescribed in the annual General Appropriations Act. The department shall adopt rules governing the collection and remittance of surcharges pursuant to chapter 120.

Section 4. For the 2017-2018 fiscal year, the sum of

692516

$150,000 in nonrecurring funds from the Professional Regulation Trust Fund is appropriated to the Department of Business and Professional Regulation Trust Fund for the transfer to the University of Florida M. E. Rinker, Sr., School of Construction Management for the continuation of the Construction Industry Workforce Task Force.

Section 5. Subsection (3) of section 553.73, Florida Statutes, is amended, paragraph (d) is added to subsection (4) of that section, subsections (7) and (8) and paragraphs (a) and (b) of subsection (9) of that section are amended, and subsection (20) is added to that section, to read:

553.73 Florida Building Code.—

(3) The commission shall use the ~~International Codes published by the~~ International Code Council, the National Electric Code (NFPA 70), or other nationally adopted model codes and standards for updates to ~~needed to develop the base code in Florida to form the foundation for~~ the Florida Building Code. The ~~Florida Building~~ commission may approve technical amendments to the code as provided in~~, subject to~~ subsections (8) and (9), ~~after the amendments have been~~ subject to all of the following conditions:

(a) The proposed amendment must have ~~has~~ been published on the commission's website for a minimum of 45 days and all the associated documentation must have ~~has~~ been made available to any interested party before ~~any~~ consideration by a technical advisory committee.~~;~~

(b) In order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a two-thirds ~~three-fourths~~ vote of the members present

692516

at the ~~technical advisory committee~~ meeting. ~~and~~ At least half of the regular members must be present in order to conduct a meeting.~~;~~

(c) After the technical advisory committee has considered and recommended ~~consideration and a recommendation for~~ approval of any proposed amendment, the proposal must be published on the commission's website for at least 45 days before ~~any~~ consideration by the commission.~~; and~~

(d) A proposal may be modified by the commission based on public testimony and evidence from a public hearing held in accordance with chapter 120.

The commission shall incorporate within ~~sections of~~ the Florida Building Code provisions that ~~which~~ address regional and local concerns and variations. The commission shall make every effort to minimize conflicts between the Florida Building Code, the Florida Fire Prevention Code, and the Life Safety Code.

(4)

(d) A technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government pursuant to this subsection is not rendered void when the code is updated if the technical amendment is necessary to protect or provide for more efficient use of water resources as provided in s. 373.621. However, any such technical amendment carried forward into the next edition of the code pursuant to this paragraph is subject to review or modification as provided in this part.

(7)(a) The commission~~, by rule adopted pursuant to ss. 120.536(1) and 120.54,~~ shall adopt an updated ~~update the~~ Florida

692516

Building Code every 3 years through review of~~. When updating the Florida Building Code, the commission shall select~~ the most current updates ~~version~~ of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, and the International Residential Code, all of which are copyrighted and published by ~~adopted~~ by the International Code Council, and the National Electrical Code, which is copyrighted and published ~~adopted~~ by the National Fire Protection Association. At a minimum, the commission shall adopt any updates to such codes or any other code necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development~~, to form the foundation codes of the updated Florida Building Code, if the version has been adopted by the applicable model code entity~~. The commission shall also review and adopt updates based substantially on ~~select the most current version of~~ the International Energy Conservation Code (IECC) ~~as a foundation code~~; however, ~~the IECC shall be modified by~~ the commission shall ~~to~~ maintain the efficiencies of the Florida Energy Efficiency Code for Building Construction adopted and amended pursuant to s. 553.901. The commission shall adopt updated codes by rule.

(b) Codes regarding noise contour lines shall be reviewed annually, and the most current federal guidelines shall be adopted.

(c) The commission may adopt as a technical amendment to the Florida Building Code ~~modify~~ any portion of the ~~foundation~~ codes identified in paragraph (a), but only as needed to

692516

accommodate the specific needs of this state. Standards or criteria adopted from these ~~referenced by the~~ codes shall be incorporated by reference to the specific provisions adopted. If a referenced standard or criterion requires amplification or modification to be appropriate for use in this state, only the amplification or modification shall be set forth in the Florida Building Code. The commission may approve technical amendments to the updated Florida Building Code after the amendments have been subject to the conditions set forth in paragraphs (3)(a)-(d). Amendments that ~~to the foundation codes which~~ are adopted in accordance with this subsection shall be clearly marked in printed versions of the Florida Building Code so that the fact that the provisions are ~~Florida-specific~~ amendments ~~to the foundation codes~~ is readily apparent.

(d) The commission shall further consider the commission's own interpretations, declaratory statements, appellate decisions, and approved statewide and local technical amendments and shall incorporate such interpretations, statements, decisions, and amendments into the updated Florida Building Code only to the extent that they are needed to ~~modify the foundation codes to~~ accommodate the specific needs of the state. A change made by an institute or standards organization to any standard or criterion that is adopted by reference in the Florida Building Code does not become effective statewide until it has been adopted by the commission. Furthermore, the edition of the Florida Building Code which is in effect on the date of application for any permit authorized by the code governs the permitted work for the life of the permit and any extension granted to the permit.

692516

(e) A rule updating the Florida Building Code in accordance with this subsection shall take effect no sooner than 6 months after publication of the updated code. Any amendment to the Florida Building Code which is adopted upon a finding by the commission that the amendment is necessary to protect the public from immediate threat of harm takes effect immediately.

(f) Provisions of the Florida Building Code ~~foundation codes~~, including those contained in referenced standards and criteria, relating to wind resistance or the prevention of water intrusion may not be modified to diminish those construction requirements; however, the commission may, subject to conditions in this subsection, modify the provisions to enhance those construction requirements.

~~(g) Amendments or modifications to the foundation code pursuant to this subsection shall remain effective only until the effective date of a new edition of the Florida Building Code every third year. Amendments or modifications related to state agency regulations which are adopted and integrated into an edition of the Florida Building Code shall be carried forward into the next edition of the code, subject to modification as provided in this part. Amendments or modifications related to the wind-resistance design of buildings and structures within the high-velocity hurricane zone of Miami-Dade and Broward Counties which are adopted to an edition of the Florida Building Code do not expire and shall be carried forward into the next edition of the code, subject to review or modification as provided in this part. If amendments that expire pursuant to this paragraph are resubmitted through the Florida Building commission code adoption process, the amendments must~~

692516

~~specifically address whether:~~

~~1. The provisions contained in the proposed amendment are addressed in the applicable international code.~~

~~2. The amendment demonstrates by evidence or data that the geographical jurisdiction of Florida exhibits a need to strengthen the foundation code beyond the needs or regional variations addressed by the foundation code, and why the proposed amendment applies to this state.~~

~~3. The proposed amendment was submitted or attempted to be included in the foundation codes to avoid resubmission to the Florida Building Code amendment process.~~

~~If the proposed amendment has been addressed in the international code in a substantially equivalent manner, the Florida Building commission may not include the proposed amendment in the foundation Code.~~

(8) Notwithstanding ~~the provisions of~~ subsection (3) or subsection (7), the commission may address issues identified in this subsection by amending the code pursuant ~~only~~ to the rule adoption procedures ~~contained~~ in chapter 120. ~~Provisions of~~ The Florida Building Code, including provisions ~~those~~ contained in referenced standards and criteria which relate~~, relating~~ to wind resistance or the prevention of water intrusion, may not be amended pursuant to this subsection to diminish those standards ~~construction requirements~~; however, the commission may~~, subject to conditions in this subsection,~~ amend the Florida Building Code ~~the provisions~~ to enhance such standards ~~those construction requirements~~. Following the approval of any amendments to the Florida Building Code by the commission and publication of the

692516

amendments on the commission's website, authorities having jurisdiction to enforce the Florida Building Code may enforce the amendments. The commission may approve amendments that are needed to address:

(a) Conflicts within the updated code;

(b) Conflicts between the updated code and the Florida Fire Prevention Code adopted pursuant to chapter 633;

(c) Unintended results from the integration of previously adopted ~~Florida-specific~~ amendments with the model code;

(d) Equivalency of standards;

(e) Changes to or inconsistencies with federal or state law; or

(f) Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to stakeholders or otherwise threatens the public health, safety, and welfare.

(9)(a) The commission may approve technical amendments to the Florida Building Code once each year for statewide or regional application upon a finding that the amendment:

1. Is needed in order to accommodate the specific needs of this state.

2. Has a reasonable and substantial connection with the health, safety, and welfare of the general public.

3. Strengthens or improves the Florida Building Code, or in the case of innovation or new technology, will provide equivalent or better products or methods or systems of construction.

4. Does not discriminate against materials, products,

692516

methods, or systems of construction of demonstrated capabilities.

5. Does not degrade the effectiveness of the Florida Building Code.

The Florida Building Commission may approve technical amendments to the code once each year to incorporate into the Florida Building Code its own interpretations of the code which are embodied in its opinions, final orders, declaratory statements, and interpretations of hearing officer panels under s. 553.775(3)(c), but only to the extent that the incorporation of interpretations is needed to modify the code ~~foundation codes~~ to accommodate the specific needs of this state. Amendments approved under this paragraph shall be adopted by rule after the amendments have been subjected to subsection (3).

(b) A proposed amendment must include a fiscal impact statement that documents the costs and benefits of the proposed amendment. Criteria for the fiscal impact statement shall be established by rule by the commission and shall include the impact to local government relative to enforcement, the impact to property and building owners, and the impact to industry, relative to the cost of compliance. The amendment must demonstrate by evidence or data that the state's geographical jurisdiction exhibits a need to strengthen the ~~foundation~~ code beyond the needs or regional variations addressed by the ~~foundation~~ code and why the proposed amendment applies to this state.

(20) The Florida Building Commission may not:

(a) Adopt the 2016 version of the American Society of

692516

Heating, Refrigerating and Air-Conditioning Engineers Standard 9.4.1.1(g).

(b) Adopt any provision that requires a door located in the opening between a garage and a residence to be equipped with a self-closing device.

Section 6. Subsection (2) of section 553.76, Florida Statutes, is amended to read:

553.76 General powers of the commission.—The commission is authorized to:

(2) Issue memoranda of procedure for its internal management and control. The commission may adopt rules related to its consensus-based decisionmaking process, including, but not limited to, super majority voting requirements ~~for commission actions relating to the adoption of the Florida Building Code or amendments to the code~~. However, the commission must adopt the Florida Building Code, and amendments thereto, by at least a two-thirds vote of the members present at a meeting.

Section 7. Subsection (20) is added to section 553.79, Florida Statutes, to read:

553.79 Permits; applications; issuance; inspections.—

(20) A political subdivision of this state may not adopt or enforce any ordinance or impose any building permit or other development order requirement that:

(a)1. Contains any building, construction, or aesthetic requirement or condition that conflicts with or impairs corporate trademarks, service marks, trade dress, logos, color patterns, design scheme insignia, image standards, or other features of corporate branding identity on real property or improvements thereon used in activities conducted under chapter

692516

526 or in carrying out business activities defined as a franchise by Federal Trade Commission regulations in 16 C.F.R. ss. 436.1, et. seq.; or

2. Imposes any requirement on the design, construction, or location of signage advertising the retail price of gasoline in accordance with the requirements of ss. 526.111 and 526.121 which prevents the signage from being clearly visible and legible to drivers of approaching motor vehicles in any lane of traffic in either direction on a roadway abutting the gas station premises and which meets height, width, and spacing standards for Series C, D, or E signs, as applicable, published in the latest edition of Standard Alphabets for Highway Signs and Pavement Markings published by the Federal Highway Administration, Office of Traffic Operations.

(b) This subsection does not affect any requirement for design and construction in the Florida Building Code.

(c) All such ordinances and requirements are hereby preempted and superseded by general law. This subsection shall apply retroactively.

(d) This subsection does not apply to property located in a designated historic district.

Section 8. Subsection (2) of section 553.791, Florida Statutes, is amended to read:

553.791 Alternative plans review and inspection.—

(2)(a) Notwithstanding any other law or local government ordinance or local policy, the fee owner of a building or structure, or the fee owner’s contractor upon written authorization from the fee owner, may choose to use a private provider to provide building code inspection services with

692516

regard to such building or structure and may make payment directly to the private provider for the provision of such services. All such services shall be the subject of a written contract between the private provider, or the private provider's firm, and the fee owner or the fee owner's contractor, upon written authorization of the fee owner. The fee owner may elect to use a private provider to provide plans review or required building inspections, or both. However, if the fee owner or the fee owner's contractor uses a private provider to provide plans review, the local building official, in his or her discretion and pursuant to duly adopted policies of the local enforcement agency, may require the fee owner or the fee owner's contractor to use a private provider to also provide required building inspections.

(b) It is the intent of the Legislature that owners and contractors not be required to pay extra costs related to building permitting requirements when hiring a private provider for plans reviews and building inspections. A local jurisdiction must calculate the cost savings to the local enforcement agency, based on a fee owner or contractor hiring a private provider to perform plans reviews and building inspections in lieu of the local building official, and reduce the permit fees accordingly.

Section 9. Paragraph (d) of subsection (7) of section 553.80, Florida Statutes, is amended to read:

553.80 Enforcement.—

(7) The governing bodies of local governments may provide a schedule of reasonable fees, as authorized by s. 125.56(2) or s. 166.222 and this section, for enforcing this part. These fees, and any fines or investment earnings related to the fees, shall

692516

be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code. When providing a schedule of reasonable fees, the total estimated annual revenue derived from fees, and the fines and investment earnings related to the fees, may not exceed the total estimated annual costs of allowable activities. Any unexpended balances shall be carried forward to future years for allowable activities or shall be refunded at the discretion of the local government. The basis for a fee structure for allowable activities shall relate to the level of service provided by the local government and shall include consideration for refunding fees due to reduced services based on services provided as prescribed by s. 553.791, but not provided by the local government. Fees charged shall be consistently applied.

(d) The local enforcement agency, independent district, or special district may not require at any time, including at the time of application for a permit, the payment of any additional fees, charges, or expenses associated with:

1. Providing proof of licensure pursuant to chapter 489;

2. Recording or filing a license issued pursuant to this chapter; or

3. Providing, recording, or filing evidence of workers' compensation insurance coverage as required by chapter 440.

Section 10. Section 553.9081, Florida Statutes, is created to read:

553.9081 Florida Building Code; required amendments.—The Florida Building Commission shall amend the Florida Building Code-Energy Conservation to:

(1)(a) Eliminate duplicative commissioning reporting

692516

requirements for HVAC and electrical systems; and

(b) Authorize commissioning reports to be provided by a licensed design professional, electrical engineer, or mechanical engineer.

(2) Prohibit the adoption of American Society of Heating, Refrigerating and Air-Conditioning Engineers Standard 9.4.1.1(g).

Section 11. Subsection (8) of section 633.208, Florida Statutes, is amended to read:

633.208 Minimum firesafety standards.—

(8)(a) The provisions of the Life Safety Code, as contained in the Florida Fire Prevention Code, do not apply to one-family and two-family dwellings. However, fire sprinkler protection may be permitted by local government in lieu of other fire protection-related development requirements for such structures. While local governments may adopt fire sprinkler requirements for one-family ~~one-~~ and two-family dwellings under this subsection, it is the intent of the Legislature that the economic consequences of the fire sprinkler mandate on home owners be studied before the enactment of such a requirement. After the effective date of this act, any local government that desires to adopt a fire sprinkler requirement on one-family ~~one-~~ or two-family dwellings must prepare an economic cost and benefit report that analyzes the application of fire sprinklers to one-family ~~one-~~ or two-family dwellings or any proposed residential subdivision. The report must consider the tradeoffs and specific cost savings and benefits of fire sprinklers for future owners of property. The report must include an assessment of the cost savings from any reduced or eliminated impact fees

692516

if applicable, the reduction in special fire district tax, insurance fees, and other taxes or fees imposed, and the waiver of certain infrastructure requirements including the reduction of roadway widths, the reduction of water line sizes, increased fire hydrant spacing, increased dead-end roadway length, and a reduction in cul-de-sac sizes relative to the costs from fire sprinkling. A failure to prepare an economic report shall result in the invalidation of the fire sprinkler requirement to any one-family ~~one-~~ or two-family dwelling or any proposed subdivision. In addition, a local jurisdiction or utility may not charge any additional fee, above what is charged to a non-fire sprinklered dwelling, on the basis that a one-family ~~one-~~ or two-family dwelling unit is protected by a fire sprinkler system.

(b)1. A county, municipality, special taxing district, public utility, or private utility may not require a separate water connection for a one-family or two-family dwelling fire sprinkler system if the hydraulic design has proven the existing connection is capable of supplying the needed hydraulic demand.

2. A county, municipality, special district, public utility, or private utility may not charge a water or sewer rate to a one-family or two-family dwelling that requires a larger water meter solely due to the installation of fire sprinklers above that which is charged to a one-family and two-family dwelling with a base meter. If the installation of fire sprinklers in a one-family or two-family dwelling requires the installation of a larger water meter, only the difference in actual cost between the base water meter and the larger water meter may be charged by the water utility provider.

692516

Section 12. A local government may not require an owner of a residence to obtain a permit to paint such residence, regardless of whether the residence is owned by a limited liability company.

Section 13. The Department of Education, in conjunction with the Department of Economic Opportunity, shall develop a plan to implement the recommendations of the Construction Industry Workforce Task Force Report dated January 20, 2017. The Department of Education shall provide the plan to the Construction Industry Workforce Task Force on or before July 31, 2017.

Section 14. CareerSource Florida, Inc., shall develop and submit a plan to the Construction Industry Workforce Task Force on the potential opportunities for training programs to implement the recommendations of the Construction Industry Workforce Task Force Report dated January 20, 2017, using existing federal funds awarded to the corporation and using the previous statewide Florida ReBuilds program as an implementation model for such programs. CareerSource Florida, Inc., shall provide the plan to the Construction Industry Workforce Task Force on or before July 31, 2017.

The Committee on Appropriations (Brandes) recommended the following:

Senate Amendment (with title amendment)

Delete lines 513 - 542

and insert:

Section 9. Section 468.603, Florida Statutes, is reordered and amended to read:

468.603 Definitions.—As used in this part:

(2)~~(1)~~ "Building code administrator" or "building official" means any of those employees of municipal or county governments, or any person contracted, with building construction regulation

137454

responsibilities who are charged with the responsibility for direct regulatory administration or supervision of plan review, enforcement, or inspection of building construction, erection, repair, addition, remodeling, demolition, or alteration projects that require permitting indicating compliance with building, plumbing, mechanical, electrical, gas, fire prevention, energy, accessibility, and other construction codes as required by state law or municipal or county ordinance. This term is synonymous with "building official" as used in the ~~administrative chapter of the Standard Building Code and the South~~ Florida Building Code. One person employed or contracted by each municipal or county government as a building code administrator or building official and who is so certified under this part may be authorized to perform any plan review or inspection for which certification is required by this part, including performing any plan review or inspection as a currently designated standard-certified building official under an interagency service agreement with a jurisdiction having a population of 50,000 or fewer.

(4) ~~(2)~~ "Building code inspector" means any of those employees of local governments or state agencies, or any person contracted, with building construction regulation responsibilities who themselves conduct inspections of building construction, erection, repair, addition, or alteration projects that require permitting indicating compliance with building, plumbing, mechanical, electrical, gas, fire prevention, energy, accessibility, and other construction codes as required by state law or municipal or county ordinance.

(1) ~~(3)~~ "Board" means the Florida Building Code

Administrators and Inspectors Board.

(7) ~~(4)~~ "Department" means the Department of Business and Professional Regulation.

(6) ~~(5)~~ "Certificate" means a certificate of qualification issued by the department as provided in this part.

(5) ~~(6)~~ "Categories of building code inspectors" include the following:

(a) "Building inspector" means a person who is qualified to inspect and determine that buildings and structures are constructed in accordance with the provisions of the governing building codes and state accessibility laws.

(b) "Coastal construction inspector" means a person who is qualified to inspect and determine that buildings and structures are constructed to resist near-hurricane and hurricane velocity winds in accordance with the provisions of the governing building code.

(c) "Commercial electrical inspector" means a person who is qualified to inspect and determine the electrical safety of commercial buildings and structures by inspecting for compliance with the provisions of the National Electrical Code.

(h) ~~(d)~~ "Residential electrical inspector" means a person who is qualified to inspect and determine the electrical safety of one and two family dwellings and accessory structures by inspecting for compliance with the applicable provisions of the governing electrical code.

(e) "Mechanical inspector" means a person who is qualified to inspect and determine that the mechanical installations and systems for buildings and structures are in compliance with the provisions of the governing mechanical code.

(g) ~~(f)~~ "Plumbing inspector" means a person who is qualified to inspect and determine that the plumbing installations and systems for buildings and structures are in compliance with the provisions of the governing plumbing code.

(f) ~~(g)~~ "One and two family dwelling inspector" means a person who is qualified to inspect and determine that one and two family dwellings and accessory structures are constructed in accordance with the provisions of the governing building, plumbing, mechanical, accessibility, and electrical codes.

(d) ~~(h)~~ "Electrical inspector" means a person who is qualified to inspect and determine the electrical safety of commercial and residential buildings and accessory structures by inspecting for compliance with the provisions of the National Electrical Code.

(8) ~~(7)~~ "Plans examiner" means a person who is qualified to determine that plans submitted for purposes of obtaining building and other permits comply with the applicable building, plumbing, mechanical, electrical, gas, fire prevention, energy, accessibility, and other applicable construction codes. The term includes a residential plans examiner who is qualified to determine that plans submitted for purposes of obtaining building and other permits comply with the applicable residential building, plumbing, mechanical, electrical, gas, energy, accessibility, and other applicable construction codes. Categories of plans examiners include:

(a) Building plans examiner.

(b) Plumbing plans examiner.

(c) Mechanical plans examiner.

(d) Electrical plans examiner.

137454

(3) ~~(8)~~ "Building code enforcement official" or "enforcement official" means a licensed building code administrator, building code inspector, or plans examiner.

Section 10. Paragraph (c) of subsection (2), paragraphs (a) and (d) of subsection (7), and subsection (10) of section 468.609, Florida Statutes, are amended to read:

468.609 Administration of this part; standards for certification; additional categories of certification.—

(2) A person may take the examination for certification as a building code inspector or plans examiner pursuant to this part if the person:

(c) Meets eligibility requirements according to one of the following criteria:

1. Demonstrates 5 years' combined experience in the field of construction or a related field, building code inspection, or plans review corresponding to the certification category sought;

2. Demonstrates a combination of postsecondary education in the field of construction or a related field and experience which totals 4 years, with at least 1 year of such total being experience in construction, building code inspection, or plans review;

3. Demonstrates a combination of technical education in the field of construction or a related field and experience which totals 4 years, with at least 1 year of such total being experience in construction, building code inspection, or plans review;

4. Currently holds a standard certificate issued by the board or a firesafety inspector license issued pursuant to chapter 633, has a minimum of 3 years' verifiable full-time

experience in inspection or plan review, and has satisfactorily completed a building code inspector or plans examiner training program that provides at least 100 hours but not more than 200 hours of cross-training in the certification category sought. The board shall establish by rule criteria for the development and implementation of the training programs. The board shall accept all classroom training offered by an approved provider if the content substantially meets the intent of the classroom component of the training program;

5. Demonstrates a combination of the completion of an approved training program in the field of building code inspection or plan review and a minimum of 2 years' experience in the field of building code inspection, plan review, fire code inspections and fire plans review of new buildings as a firesafety inspector certified under s. 633.216, or construction. The approved training portion of this requirement shall include proof of satisfactory completion of a training program that provides at least 200 hours but not more than 300 hours of cross-training that is approved by the board in the chosen category of building code inspection or plan review in the certification category sought with at least 20 hours but not more than 30 hours of instruction in state laws, rules, and ethics relating to professional standards of practice, duties, and responsibilities of a certificateholder. The board shall coordinate with the Building Officials Association of Florida, Inc., to establish by rule the development and implementation of the training program. However, the board shall accept all classroom training offered by an approved provider if the content substantially meets the intent of the classroom

137454

component of the training program; ~~or~~

6. Currently holds a standard certificate issued by the board or a firesafety inspector license issued pursuant to chapter 633 and:

a. Has at least 5 years' verifiable full-time experience as an inspector or plans examiner in a standard certification category currently held or has a minimum of 5 years' verifiable full-time experience as a firesafety inspector licensed pursuant to chapter 633.

b. Has satisfactorily completed a building code inspector or plans examiner classroom training course or program that provides at least 200 but not more than 300 hours in the certification category sought, except for one-family and two-family dwelling training programs, which must provide at least 500 but not more than 800 hours of training as prescribed by the board. The board shall establish by rule criteria for the development and implementation of classroom training courses and programs in each certification category; or

7.a. Has completed a 4-year internship certification program as a building code inspector or plans examiner while employed full-time by a municipality, county, or other local government jurisdiction, under the direct supervision of a certified building official. Proof of graduation with a related vocational degree or college degree or of verifiable work experience may be exchanged for the internship experience requirement year for year, but may reduce the requirement to no less than 1 year;

b. Has passed an examination administered by the International Code Council in the certification category sought.

Such examination must be passed before beginning the internship certification program;

c. Has passed the principles and practice examination before completing the internship certification program;

d. Has passed a board-approved 40-hour code training course in the certification category sought before completing the internship certification program; and

e. Has obtained a favorable recommendation from the supervising building official after completion of the internship certification program.

(7)(a) The board shall provide for the issuance of provisional certificates valid for 1 year, as specified by board rule, to any ~~newly employed or promoted~~ building code inspector or plans examiner who meets the eligibility requirements described in subsection (2) and any newly employed or promoted building code administrator who meets the eligibility requirements described in subsection (3). The provisional license may be renewed by the board for just cause; however, a provisional license is not valid for longer than 3 years.

(d) A ~~newly employed or hired~~ person may perform the duties of a plans examiner or building code inspector for 120 days if a provisional certificate application has been submitted if such person is under the direct supervision of a certified building code administrator who holds a standard certification and who has found such person qualified for a provisional certificate. Direct supervision and the determination of qualifications may also be provided by a building code administrator who holds a limited or provisional certificate in a county having a population of fewer than 75,000 and in a municipality located

within such county.

(10)(a) The board may by rule create categories of certification in addition to those defined in s. 468.603(5) and (8) ~~468.603(6) and (7)~~. Such certification categories shall not be mandatory and shall not act to diminish the scope of any certificate created by statute.

(b) The board shall by rule establish:

1. Reciprocity of certification with any other state that requires an examination administered by the International Code Council.

2. That an applicant for certification as a building code inspector or plans examiner may apply for a provisional certificate valid for the duration of the internship period.

3. That partial completion of an internship program may be transferred between jurisdictions on a form prescribed by the board.

4. That an applicant may apply for a standard certificate on a form prescribed by the board upon successful completion of an internship certification program.

5. That an applicant may apply for a standard certificate at least 30 days and no more than 60 days before completing the internship certification program.

6. That a building code inspector or plans examiner who has a standard certificate may seek an additional certification in another category by completing an additional nonconcurrent 1-year internship program in the certification category sought and passing an examination administered by the International Code Council and a board-approved 40-hour code training course.

Section 11. Subsection (3) of section 468.617, Florida

Statutes, is amended to read:

468.617 Joint building code inspection department; other arrangements.—

(3) Nothing in this part shall prohibit any county or municipal government, school board, community college board, state university, or state agency from entering into any contract with any person or entity for the provision of building code administrator, building official, or building code inspection services regulated under this part, and notwithstanding any other statutory provision, such county or municipal governments may enter into contracts.

Section 12. Paragraphs (d) and (i) of subsection (1) and subsection (2) of section 553.791, Florida Statutes, are amended to read:

553.791 Alternative plans review and inspection.—

(1) As used in this section, the term:

(d) "Building code inspection services" means those services described in s. 468.603(5) and (8) ~~468.603(6) and (7)~~ involving the review of building plans to determine compliance with applicable codes and those inspections required by law of each phase of construction for which permitting by a local enforcement agency is required to determine compliance with applicable codes.

(i) "Private provider" means a person licensed as a building code administrator under part XII of chapter 468, as an engineer under chapter 471, or as an architect under chapter 481. For purposes of performing inspections under this section for additions and alterations that are limited to 1,000 square feet or less to residential buildings, the term "private

137454

provider" also includes a person who holds a standard certificate under part XII of chapter 468.

(2)(a) Notwithstanding any other law or local government ordinance or local policy, the fee owner of a building or structure, or the fee owner's contractor upon written authorization from the fee owner, may choose to use a private provider to provide building code inspection services with regard to such building or structure and may make payment directly to the private provider for the provision of such services. All such services shall be the subject of a written contract between the private provider, or the private provider's firm, and the fee owner or the fee owner's contractor, upon written authorization of the fee owner. The fee owner may elect to use a private provider to provide plans review or required building inspections, or both. However, if the fee owner or the fee owner's contractor uses a private provider to provide plans review, the local building official, in his or her discretion and pursuant to duly adopted policies of the local enforcement agency, may require the fee owner or the fee owner's contractor to use a private provider to also provide required building inspections.

(b) It is the intent of the Legislature that owners and contractors not be required to pay extra costs related to building permitting requirements when hiring a private provider for plans reviews and building inspections. A local jurisdiction must calculate the cost savings to the local enforcement agency, based on a fee owner or contractor hiring a private provider to perform plans reviews and building inspections in lieu of the local building official, and reduce the permit fees accordingly.

137454

Section 13. Subsection (10) of section 468.609, Florida Statutes, is amended to read:

468.609 Administration of this part; standards for certification; additional categories of certification.—

(10) The board may by rule create categories of certification in addition to those defined in s. 468.603(5) and (8) ~~468.603(6) and (7)~~. Such certification categories shall not be mandatory and shall not act to diminish the scope of any certificate created by statute.

Section 14. Section 471.045, Florida Statutes, is amended to read:

471.045 Professional engineers performing building code inspector duties.—Notwithstanding any other provision of law, a person who is currently licensed under this chapter to practice as a professional engineer may provide building code inspection services described in s. 468.603(5) and (8) ~~468.603(6) and (7)~~ to a local government or state agency upon its request, without being certified by the Florida Building Code Administrators and Inspectors Board under part XII of chapter 468. When performing these building code inspection services, the professional engineer is subject to the disciplinary guidelines of this chapter and s. 468.621(1)(c)-(h). Any complaint processing, investigation, and discipline that arise out of a professional engineer's performing building code inspection services shall be conducted by the Board of Professional Engineers rather than the Florida Building Code Administrators and Inspectors Board. A professional engineer may not perform plans review as an employee of a local government upon any job that the professional engineer or the professional engineer's company

137454

designed.

Section 15. Section 481.222, Florida Statutes, is amended to read:

481.222 Architects performing building code inspection services.—Notwithstanding any other provision of law, a person who is currently licensed to practice as an architect under this part may provide building code inspection services described in s. 468.603(5) and (8) ~~468.603(6) and (7)~~ to a local government or state agency upon its request, without being certified by the Florida Building Code Administrators and Inspectors Board under part XII of chapter 468. With respect to the performance of such building code inspection services, the architect is subject to the disciplinary guidelines of this part and s. 468.621(1)(c)-(h). Any complaint processing, investigation, and discipline that arise out of an architect's performance of building code inspection services shall be conducted by the Board of Architecture and Interior Design rather than the Florida Building Code Administrators and Inspectors Board. An architect may not perform plans review as an employee of a local government upon any job that the architect or the architect's company designed.

certain technical amendments to the Florida Building Code which are adopted by a local government are not rendered void when the code is updated; specifying that such amendments are subject to review or modification if carried forward into the next edition of the code; requiring the commission to update the Florida Building Code through a review of the most current updates of specified codes; requiring the commission to adopt specified provisions from certain codes; deleting provisions limiting how long an amendment or modification is effective; deleting a provision requiring certain amendments or modifications to be carried forward into the next edition of the code, subject to certain conditions; deleting certain requirements for the resubmission of expired amendments; deleting a provision prohibiting a proposed amendment from being included in the code if it has been addressed in the international code; conforming provisions to changes made by the act; prohibiting the commission from adopting certain provisions into the Florida Building Code; amending s. 553.76, F.S.; requiring the commission to adopt the Florida Building Code, and amendments thereto, by a minimum percentage of votes; amending s. 553.79, F.S.; prohibiting a political subdivision from adopting or enforcing certain building permits or other development order requirements; providing construction; providing for preemption of certain local laws and regulations; providing for retroactive

applicability; amending s. 553.791, F.S.; providing legislative intent; requiring local jurisdictions to reduce certain permit fees; amending s. 553.80, F.S.; prohibiting local enforcement agencies, independent districts, and special districts from charging certain fees; creating s. 553.9081, F.S.; requiring the Florida Building Commission to amend certain provisions of the Florida Building Code; amending s. 633.208, F.S.; prohibiting a county, municipality, special taxing district, public utility, or private utility from requiring a separate water connection or charging a specified water or sewage rate under certain conditions; prohibiting a local government from requiring a permit for painting a residence; requiring the Department of Education to develop a plan for specified purposes; requiring the department to provide the plan to the Construction Industry Workforce Task Force by a specified date; requiring CareerSource Florida, Inc., to develop a plan for specified purposes; requiring CareerSource Florida, Inc., to provide the plan to the Construction Industry Workforce Task Force by a specified date; requiring the Florida Building Commission to amend specified provisions of the Florida Building Code related to door components; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 377.705, Florida Statutes, is amended to

read:

377.705 Solar Energy Center; development of solar energy standards.—

(1) SHORT TITLE.—This act shall be known and may be cited as the Solar Energy Standards Act of 1976.

(2) LEGISLATIVE ~~FINDINGS AND~~ INTENT.—

~~(a) Because of increases in the cost of conventional fuel, certain applications of solar energy are becoming competitive, particularly when life-cycle costs are considered. It is the intent of the Legislature in formulating a sound and balanced energy policy for the state to encourage the development of an alternative energy capability in the form of incident solar energy.~~

~~(b) Toward this purpose,~~ The Legislature intends to ~~provide incentives for the production and sale of, and to set standards for, solar energy systems. Such standards shall~~ ensure that solar energy systems manufactured or sold within the state are effective and represent a high level of quality of materials, workmanship, and design.

(3) DEFINITIONS.—As used in this section, the term:

(a) "Center" means ~~is defined as~~ the Florida Solar Energy Center of the Board of Governors.

(b) "Solar energy systems" means ~~is defined as~~ equipment which provides for the collection and use of incident solar energy for water heating, space heating or cooling, or other applications which normally require or would require a conventional source of energy such as petroleum products, natural gas, or electricity and which performs primarily with solar energy. In such other systems in which solar energy is

used in a supplemental way, only those components which collect and transfer solar energy shall be included in this definition.

(4) FLORIDA SOLAR ENERGY CENTER TO SET STANDARDS, REQUIRE DISCLOSURE, SET TESTING FEES.—

(a) The center shall develop and adopt ~~promulgate~~ standards for solar energy systems manufactured or sold in this state based on the best currently available information and shall consult with scientists, engineers, or persons in research centers who are engaged in the construction of, experimentation with, and research of solar energy systems to properly identify the most reliable designs and types of solar energy systems.

(b) The center shall establish criteria for testing performance of solar energy systems and shall maintain the necessary capability for testing or evaluating performance of solar energy systems. The center may accept results of tests on solar energy systems made by other organizations, companies, or persons if ~~when~~ such tests are conducted according to the criteria established by the center and if ~~when~~ the testing entity does not have a ~~has no~~ vested interest in the manufacture, distribution, or sale of solar energy systems.

(c) The center shall be entitled to receive a testing fee sufficient to cover the costs of such testing. All testing fees shall be transmitted by the center to the Chief Financial Officer to be deposited in the Solar Energy Center Testing Trust Fund, which is ~~hereby~~ created in the State Treasury, and disbursed for the payment of expenses incurred in testing solar energy systems.

(d) All solar energy systems manufactured or sold in the state must meet the standards established by the center and

shall display accepted results of approved performance tests in a manner prescribed by the center, unless otherwise certified by an engineer licensed pursuant to chapter 471 using the standards contained in the most recent version of the Florida Building Code.

Section 2. Paragraph (m) is added to subsection (1) of section 471.033, Florida Statutes, to read:

471.033 Disciplinary proceedings.—

(1) The following acts constitute grounds for which the disciplinary actions in subsection (3) may be taken:

(m) Failing to disclose to a customer before contracting for engineering service whether the licensee maintains professional liability insurance and the policy limits if the licensee does maintain such insurance.

Section 3. Subsection (5) of section 489.103, Florida Statutes, is amended to read:

489.103 Exemptions.—This part does not apply to:

(5) Public utilities, including municipal gas utilities and special gas districts as defined in chapter 189, telecommunications companies as defined in s. 364.02(13), and natural gas transmission companies as defined in s. 368.103(4), on construction, maintenance, and development work performed by their employees~~, which work, including, but not limited to, work on bridges, roads, streets, highways, or railroads, is incidental to their business. The board shall define, by rule, the term "incidental to their business" for purposes of this subsection~~.

Section 4. Paragraph (h) is added to subsection (3) of section 489.113, Florida Statutes, to read:

489.113 Qualifications for practice; restrictions.—

(3) A contractor shall subcontract all electrical, mechanical, plumbing, roofing, sheet metal, swimming pool, and air-conditioning work, unless such contractor holds a state certificate or registration in the respective trade category, however:

(h) A pool/spa contractor, as defined in s. 489.105(3)(j), (k), or (l), is not required to subcontract electrical work for the installation, replacement, disconnection, or reconnection of power wiring on the load side of the dedicated existing electrical disconnecting means, but is required to subcontract all electrical work that requires installation, removal, replacement, or upgrading of a circuit breaker. This paragraph does not apply to other contractor classifications or professions.

Section 5. Section 553.721, Florida Statutes, is amended to read:

553.721 Surcharge.—In order for the Department of Business and Professional Regulation to administer and carry out the purposes of this part and related activities, there is created a surcharge, to be assessed at the rate of 1.5 percent of the permit fees associated with enforcement of the Florida Building Code as defined by the uniform account criteria and specifically the uniform account code for building permits adopted for local government financial reporting pursuant to s. 218.32. The minimum amount collected on any permit issued shall be $2. The unit of government responsible for collecting a permit fee pursuant to s. 125.56(4) or s. 166.201 shall collect the surcharge and electronically remit the funds collected to the

department on a quarterly calendar basis for the preceding quarter and continuing each third month thereafter. The unit of government shall retain 10 percent of the surcharge collected to fund the participation of building departments in the national and state building code adoption processes and to provide education related to enforcement of the Florida Building Code. All funds remitted to the department pursuant to this section shall be deposited in the Professional Regulation Trust Fund. Funds collected from the surcharge shall be allocated to fund the Florida Building Commission and the Florida Building Code Compliance and Mitigation Program under s. 553.841. Funds allocated to the Florida Building Code Compliance and Mitigation Program shall be $925,000 each fiscal year. The Florida Building Code Compliance and Mitigation Program shall fund the recommendations made by the Building Code System Uniform Implementation Evaluation Workgroup, dated April 8, 2013, from existing resources, not to exceed $30,000 in the 2016-2017 fiscal year. The department shall provide $150,000 for the 2017-2018 fiscal year from surcharge funds available to the University of Florida M. E. Rinker, Sr., School of Construction Management for the continuation of the Construction Industry Workforce Task Force. Funds collected from the surcharge shall also be used to fund Florida Fire Prevention Code informal interpretations managed by the State Fire Marshal and shall be limited to $15,000 each fiscal year. The State Fire Marshal shall adopt rules to address the implementation and expenditure of the funds allocated to fund the Florida Fire Prevention Code informal interpretations under this section. The funds collected from the surcharge may not be used to fund research on

techniques for mitigation of radon in existing buildings. Funds used by the department as well as funds to be transferred to the Department of Health and the State Fire Marshal shall be as prescribed in the annual General Appropriations Act. The department shall adopt rules governing the collection and remittance of surcharges pursuant to chapter 120.

Section 6. Subsection (3) of section 553.73, Florida Statutes, is amended, paragraph (d) is added to subsection (4) of that section, subsections (7) and (8) and paragraphs (a) and (b) of subsection (9) of that section are amended, and subsection (20) is added to that section, to read:

553.73 Florida Building Code.—

(3) The commission shall use the ~~International Codes published by the~~ International Code Council, the National Electric Code (NFPA 70), or other nationally adopted model codes and standards for updates to ~~needed to develop the base code in Florida to form the foundation for~~ the Florida Building Code. The ~~Florida Building~~ commission may approve technical amendments to the code as provided in~~, subject to~~ subsections (8) and (9), ~~after the amendments have been~~ subject to all of the following conditions:

(a) The proposed amendment must have ~~has~~ been published on the commission's website for a minimum of 45 days and all the associated documentation must have ~~has~~ been made available to any interested party before ~~any~~ consideration by a technical advisory committee.~~;~~

(b) In order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a two-thirds ~~three-fourths~~ vote of the members present

at the ~~technical advisory committee~~ meeting. ~~and~~ At least half of the regular members must be present in order to conduct a meeting.~~;~~

(c) After the technical advisory committee has considered and recommended ~~consideration and a recommendation for~~ approval of any proposed amendment, the proposal must be published on the commission's website for at least 45 days before ~~any~~ consideration by the commission.~~; and~~

(d) A proposal may be modified by the commission based on public testimony and evidence from a public hearing held in accordance with chapter 120.

The commission shall incorporate within ~~sections of~~ the Florida Building Code provisions that ~~which~~ address regional and local concerns and variations. The commission shall make every effort to minimize conflicts between the Florida Building Code, the Florida Fire Prevention Code, and the Life Safety Code.

(4)

(d) A technical amendment to the Florida Building Code related to water conservation practices or design criteria adopted by a local government pursuant to this subsection is not rendered void when the code is updated if the technical amendment is necessary to protect or provide for more efficient use of water resources as provided in s. 373.621. However, any such technical amendment carried forward into the next edition of the code pursuant to this paragraph is subject to review or modification as provided in this part.

(7)(a) The commission~~, by rule adopted pursuant to ss. 120.536(1) and 120.54,~~ shall adopt an updated ~~update the~~ Florida

Building Code every 3 years through review of~~. When updating the Florida Building Code, the commission shall select~~ the most current updates ~~version~~ of the International Building Code, the International Fuel Gas Code, the International Mechanical Code, the International Plumbing Code, and the International Residential Code, all of which are copyrighted and published by ~~adopted~~ by the International Code Council, and the National Electrical Code, which is copyrighted and published ~~adopted~~ by the National Fire Protection Association. At a minimum, the commission shall adopt any updates to such codes or any other code necessary to maintain eligibility for federal funding from the National Flood Insurance Program, the Federal Emergency Management Agency, and the United States Department of Housing and Urban Development~~, to form the foundation codes of the updated Florida Building Code, if the version has been adopted by the applicable model code entity~~. The commission shall also review and adopt updates based substantially on ~~select the most current version of~~ the International Energy Conservation Code (IECC) ~~as a foundation code~~; however, ~~the IECC shall be modified by~~ the commission shall ~~to~~ maintain the efficiencies of the Florida Energy Efficiency Code for Building Construction adopted and amended pursuant to s. 553.901. The commission shall adopt updated codes by rule.

(b) Codes regarding noise contour lines shall be reviewed annually, and the most current federal guidelines shall be adopted.

(c) The commission may adopt as a technical amendment to the Florida Building Code ~~modify~~ any portion of the ~~foundation~~ codes identified in paragraph (a), but only as needed to

accommodate the specific needs of this state. Standards or criteria adopted from these ~~referenced by the~~ codes shall be incorporated by reference to the specific provisions adopted. If a referenced standard or criterion requires amplification or modification to be appropriate for use in this state, only the amplification or modification shall be set forth in the Florida Building Code. The commission may approve technical amendments to the updated Florida Building Code after the amendments have been subject to the conditions set forth in paragraphs (3)(a)-(d). Amendments that ~~to the foundation codes which~~ are adopted in accordance with this subsection shall be clearly marked in printed versions of the Florida Building Code so that the fact that the provisions are ~~Florida-specific~~ amendments ~~to the foundation codes~~ is readily apparent.

(d) The commission shall further consider the commission's own interpretations, declaratory statements, appellate decisions, and approved statewide and local technical amendments and shall incorporate such interpretations, statements, decisions, and amendments into the updated Florida Building Code only to the extent that they are needed to ~~modify the foundation codes to~~ accommodate the specific needs of the state. A change made by an institute or standards organization to any standard or criterion that is adopted by reference in the Florida Building Code does not become effective statewide until it has been adopted by the commission. Furthermore, the edition of the Florida Building Code which is in effect on the date of application for any permit authorized by the code governs the permitted work for the life of the permit and any extension granted to the permit.

(e) A rule updating the Florida Building Code in accordance with this subsection shall take effect no sooner than 6 months after publication of the updated code. Any amendment to the Florida Building Code which is adopted upon a finding by the commission that the amendment is necessary to protect the public from immediate threat of harm takes effect immediately.

(f) Provisions of the Florida Building Code ~~foundation codes~~, including those contained in referenced standards and criteria, relating to wind resistance or the prevention of water intrusion may not be modified to diminish those construction requirements; however, the commission may, subject to conditions in this subsection, modify the provisions to enhance those construction requirements.

~~(g) Amendments or modifications to the foundation code pursuant to this subsection shall remain effective only until the effective date of a new edition of the Florida Building Code every third year. Amendments or modifications related to state agency regulations which are adopted and integrated into an edition of the Florida Building Code shall be carried forward into the next edition of the code, subject to modification as provided in this part. Amendments or modifications related to the wind-resistance design of buildings and structures within the high-velocity hurricane zone of Miami-Dade and Broward Counties which are adopted to an edition of the Florida Building Code do not expire and shall be carried forward into the next edition of the code, subject to review or modification as provided in this part. If amendments that expire pursuant to this paragraph are resubmitted through the Florida Building commission code adoption process, the amendments must~~

~~specifically address whether:~~

~~1. The provisions contained in the proposed amendment are addressed in the applicable international code.~~

~~2. The amendment demonstrates by evidence or data that the geographical jurisdiction of Florida exhibits a need to strengthen the foundation code beyond the needs or regional variations addressed by the foundation code, and why the proposed amendment applies to this state.~~

~~3. The proposed amendment was submitted or attempted to be included in the foundation codes to avoid resubmission to the Florida Building Code amendment process.~~

~~If the proposed amendment has been addressed in the international code in a substantially equivalent manner, the Florida Building commission may not include the proposed amendment in the foundation Code.~~

(8) Notwithstanding ~~the provisions of~~ subsection (3) or subsection (7), the commission may address issues identified in this subsection by amending the code pursuant ~~only~~ to the rule adoption procedures ~~contained~~ in chapter 120. ~~Provisions of~~ The Florida Building Code, including provisions ~~those~~ contained in referenced standards and criteria which relate~~, relating~~ to wind resistance or the prevention of water intrusion, may not be amended pursuant to this subsection to diminish those standards ~~construction requirements~~; however, the commission may~~, subject to conditions in this subsection,~~ amend the Florida Building Code ~~the provisions~~ to enhance such standards ~~those construction requirements~~. Following the approval of any amendments to the Florida Building Code by the commission and publication of the

amendments on the commission's website, authorities having jurisdiction to enforce the Florida Building Code may enforce the amendments. The commission may approve amendments that are needed to address:

(a) Conflicts within the updated code;

(b) Conflicts between the updated code and the Florida Fire Prevention Code adopted pursuant to chapter 633;

(c) Unintended results from the integration of previously adopted ~~Florida-specific~~ amendments with the model code;

(d) Equivalency of standards;

(e) Changes to or inconsistencies with federal or state law; or

(f) Adoption of an updated edition of the National Electrical Code if the commission finds that delay of implementing the updated edition causes undue hardship to stakeholders or otherwise threatens the public health, safety, and welfare.

(9)(a) The commission may approve technical amendments to the Florida Building Code once each year for statewide or regional application upon a finding that the amendment:

1. Is needed in order to accommodate the specific needs of this state.

2. Has a reasonable and substantial connection with the health, safety, and welfare of the general public.

3. Strengthens or improves the Florida Building Code, or in the case of innovation or new technology, will provide equivalent or better products or methods or systems of construction.

4. Does not discriminate against materials, products,

methods, or systems of construction of demonstrated capabilities.

5. Does not degrade the effectiveness of the Florida Building Code.

The Florida Building Commission may approve technical amendments to the code once each year to incorporate into the Florida Building Code its own interpretations of the code which are embodied in its opinions, final orders, declaratory statements, and interpretations of hearing officer panels under s. 553.775(3)(c), but only to the extent that the incorporation of interpretations is needed to modify the code ~~foundation codes~~ to accommodate the specific needs of this state. Amendments approved under this paragraph shall be adopted by rule after the amendments have been subjected to subsection (3).

(b) A proposed amendment must include a fiscal impact statement that documents the costs and benefits of the proposed amendment. Criteria for the fiscal impact statement shall be established by rule by the commission and shall include the impact to local government relative to enforcement, the impact to property and building owners, and the impact to industry, relative to the cost of compliance. The amendment must demonstrate by evidence or data that the state's geographical jurisdiction exhibits a need to strengthen the ~~foundation~~ code beyond the needs or regional variations addressed by the ~~foundation~~ code and why the proposed amendment applies to this state.

(20) The Florida Building Commission may not:

(a) Adopt the 2016 version of the American Society of

Heating, Refrigerating and Air-Conditioning Engineers Standard 9.4.1.1(g).

(b) Adopt any provision that requires a door located in the opening between a garage and a residence to be equipped with a self-closing device.

Section 7. Subsection (2) of section 553.76, Florida Statutes, is amended to read:

553.76 General powers of the commission.—The commission is authorized to:

(2) Issue memoranda of procedure for its internal management and control. The commission may adopt rules related to its consensus-based decisionmaking process, including, but not limited to, super majority voting requirements ~~for commission actions relating to the adoption of the Florida Building Code or amendments to the code~~. However, the commission must adopt the Florida Building Code, and amendments thereto, by at least a two-thirds vote of the members present at a meeting.

Section 8. Subsection (20) is added to section 553.79, Florida Statutes, to read:

553.79 Permits; applications; issuance; inspections.—

(20) A political subdivision of this state may not adopt or enforce any ordinance or impose any building permit or other development order requirement that:

(a)1. Contains any building, construction, or aesthetic requirement or condition that conflicts with or impairs corporate trademarks, service marks, trade dress, logos, color patterns, design scheme insignia, image standards, or other features of corporate branding identity on real property or improvements thereon used in activities conducted under chapter

526 or in carrying out business activities defined as a franchise by Federal Trade Commission regulations in 16 C.F.R. ss. 436.1, et. seq.; or

2. Imposes any requirement on the design, construction, or location of signage advertising the retail price of gasoline in accordance with the requirements of ss. 526.111 and 526.121 which prevents the signage from being clearly visible and legible to drivers of approaching motor vehicles in any lane of traffic in either direction on a roadway abutting the gas station premises and which meets height, width, and spacing standards for Series C, D, or E signs, as applicable, published in the latest edition of Standard Alphabets for Highway Signs and Pavement Markings published by the Federal Highway Administration, Office of Traffic Operations.

(b) This subsection does not affect any requirement for design and construction in the Florida Building Code.

(c) All such ordinances and requirements are hereby preempted and superseded by general law. This subsection shall apply retroactively.

Section 9. Subsection (2) of section 553.791, Florida Statutes, is amended to read:

553.791 Alternative plans review and inspection.—

(2)(a) Notwithstanding any other law or local government ordinance or local policy, the fee owner of a building or structure, or the fee owner's contractor upon written authorization from the fee owner, may choose to use a private provider to provide building code inspection services with regard to such building or structure and may make payment directly to the private provider for the provision of such

services. All such services shall be the subject of a written contract between the private provider, or the private provider's firm, and the fee owner or the fee owner's contractor, upon written authorization of the fee owner. The fee owner may elect to use a private provider to provide plans review or required building inspections, or both. However, if the fee owner or the fee owner's contractor uses a private provider to provide plans review, the local building official, in his or her discretion and pursuant to duly adopted policies of the local enforcement agency, may require the fee owner or the fee owner's contractor to use a private provider to also provide required building inspections.

(b) It is the intent of the Legislature that owners and contractors not be required to pay extra costs related to building permitting requirements when hiring a private provider for plans reviews and building inspections. A local jurisdiction must calculate the cost savings to the local enforcement agency, based on a fee owner or contractor hiring a private provider to perform plans reviews and building inspections in lieu of the local building official, and reduce the permit fees accordingly.

Section 10. Paragraph (d) of subsection (7) of section 553.80, Florida Statutes, is amended to read:

553.80 Enforcement.—

(7) The governing bodies of local governments may provide a schedule of reasonable fees, as authorized by s. 125.56(2) or s. 166.222 and this section, for enforcing this part. These fees, and any fines or investment earnings related to the fees, shall be used solely for carrying out the local government's responsibilities in enforcing the Florida Building Code. When

providing a schedule of reasonable fees, the total estimated annual revenue derived from fees, and the fines and investment earnings related to the fees, may not exceed the total estimated annual costs of allowable activities. Any unexpended balances shall be carried forward to future years for allowable activities or shall be refunded at the discretion of the local government. The basis for a fee structure for allowable activities shall relate to the level of service provided by the local government and shall include consideration for refunding fees due to reduced services based on services provided as prescribed by s. 553.791, but not provided by the local government. Fees charged shall be consistently applied.

(d) The local enforcement agency, independent district, or special district may not require at any time, including at the time of application for a permit, the payment of any additional fees, charges, or expenses associated with:

1. Providing proof of licensure pursuant to chapter 489;

2. Recording or filing a license issued pursuant to this chapter; or

3. Providing, recording, or filing evidence of workers' compensation insurance coverage as required by chapter 440.

Section 11. Section 553.9081, Florida Statutes, is created to read:

553.9081 Florida Building Code; required amendments.—The Florida Building Commission shall amend the Florida Building Code-Energy Conservation to:

(1)(a) Eliminate duplicative commissioning reporting requirements for HVAC and electrical systems; and

(b) Authorize commissioning reports to be provided by a

licensed design professional, electrical engineer, or mechanical engineer.

(2) Prohibit the adoption of American Society of Heating, Refrigerating and Air-Conditioning Engineers Standard 9.4.1.1(g).

Section 12. Subsection (8) of section 633.208, Florida Statutes, is amended to read:

633.208 Minimum firesafety standards.—

(8)(a) The provisions of the Life Safety Code, as contained in the Florida Fire Prevention Code, do not apply to one-family and two-family dwellings. However, fire sprinkler protection may be permitted by local government in lieu of other fire protection-related development requirements for such structures. While local governments may adopt fire sprinkler requirements for one-family ~~one-~~ and two-family dwellings under this subsection, it is the intent of the Legislature that the economic consequences of the fire sprinkler mandate on home owners be studied before the enactment of such a requirement. After the effective date of this act, any local government that desires to adopt a fire sprinkler requirement on one-family ~~one-~~ or two-family dwellings must prepare an economic cost and benefit report that analyzes the application of fire sprinklers to one-family ~~one-~~ or two-family dwellings or any proposed residential subdivision. The report must consider the tradeoffs and specific cost savings and benefits of fire sprinklers for future owners of property. The report must include an assessment of the cost savings from any reduced or eliminated impact fees if applicable, the reduction in special fire district tax, insurance fees, and other taxes or fees imposed, and the waiver

of certain infrastructure requirements including the reduction of roadway widths, the reduction of water line sizes, increased fire hydrant spacing, increased dead-end roadway length, and a reduction in cul-de-sac sizes relative to the costs from fire sprinkling. A failure to prepare an economic report shall result in the invalidation of the fire sprinkler requirement to any one-family ~~one-~~ or two-family dwelling or any proposed subdivision. In addition, a local jurisdiction or utility may not charge any additional fee, above what is charged to a non-fire sprinklered dwelling, on the basis that a one-family ~~one-~~ or two-family dwelling unit is protected by a fire sprinkler system.

(b)1. A county, municipality, special taxing district, public utility, or private utility may not require a separate water connection for a one-family or two-family dwelling fire sprinkler system if the hydraulic design has proven the existing connection is capable of supplying the needed hydraulic demand.

2. A county, municipality, special district, public utility, or private utility may not charge a water or sewer rate to a one-family or two-family dwelling that requires a larger water meter solely due to the installation of fire sprinklers above that which is charged to a one-family and two-family dwelling with a base meter. If the installation of fire sprinklers in a one-family or two-family dwelling requires the installation of a larger water meter, only the difference in actual cost between the base water meter and the larger water meter may be charged by the water utility provider.

Section 13. A local government may not require an owner of a residence to obtain a permit to paint such residence,

regardless of whether the residence is owned by a limited liability company.

Section 14. The Department of Education, in conjunction with the Department of Economic Opportunity, shall develop a plan to implement the recommendations of the Construction Industry Workforce Task Force Report dated January 20, 2017. The Department of Education shall provide the plan to the Construction Industry Workforce Task Force on or before July 1, 2018.

Section 15. CareerSource Florida, Inc., shall develop and submit a plan to the Construction Industry Workforce Task Force on the potential opportunities for training programs to implement the recommendations of the Construction Industry Workforce Task Force Report dated January 20, 2017, using existing federal funds awarded to the corporation and using the previous statewide Florida ReBuilds program as an implementation model for such programs. CareerSource Florida, Inc., shall provide the plan to the Construction Industry Workforce Task Force on or before July 1, 2018.

Section 16. The Florida Building Commission shall adopt an amendment to the Florida Building Code-Residential, relating to door components, to provide that, regarding substitution of door components, such components must either:

(1) Comply with ANSI/WMA 100; or

(2) Be evaluated by an approved product evaluation entity, certification agency, testing laboratory, or engineer and may be interchangeable in exterior door assemblies if the components provide equal or greater structural performance as demonstrated by accepted engineering practices.

Section 17. This act shall take effect July 1, 2017.
